

## Super D. S 453

### Chapter 453: Unwilling

The people around him were also watching, and they had been playing fiercely before. Now they have started trading on the spot.

At the same time, they are also extremely envious, because Ye Xuan took out these things, enough to build a sect.

"The price is a bit higher, this 10,000 bone city owner should be an attempt!"

Ye Xuan's light flashed, and after all the useless things were sold, he left under the eyes of the public.

"He just left?"

"What happened to the city owner, he let him go."

"The background of this person must not be simple. The city owner should be afraid of the forces behind him."

"Poor Bai Zong, this is going to be killed by the other two sects!"

The onlookers whispered in the whisper.

Soon, Ye Xuan disappeared into the eyes of everyone, but he did not leave the city, but found a nearby inn to stay.

Now, he is going to start refining the dragon bone.

Originally, he was able to devour these materials, but Megatron had been demanding the refining of the Tianlong bone, so he could only refine it.

Fortunately, this time he has enough materials. After all, he has killed many powerful players, including the master of the 880 dragon power.

The body of the Baizhuzong lord, he also sold to the owner of the 10,000 bones. When he left, he also saw the appearance of the elders who survived, and they were all expressions of eating people.

Tianlong bone, Ye Xuan spent two days.

It took only a day for Ye Xuan to dig out the eight-step bones of the sacred sacred out of the nine secluded land.

As for the bodies of other people, Ye Xuan sold them all. Although the sale of the body was a bit shocking, he really sold it.

There are two white bones in the battle, and Ye Xuan's strength has also improved a lot. After all, these two white bones are carefully refined, and they consume a lot of refining materials, all of which have reached the ninth order.

"It's time to leave."

Ye Xuan stretched out, and he stayed in the middle of the three days, refining the dragon bones, so other people didn't know what he was doing.

He walked out of the house and looked around.

Sure enough, someone is monitoring him and he doesn't know who the party is. However, if someone dares to hit his idea, he does not mind killing again.

Then he just left the city of Wangu.

He flew in one direction for a while, but did not find someone to keep up.

"Is it suspicious, just afraid that I will make trouble in the city again?"

Ye Xuan thought about it and didn't pay much attention to it. Since this time, the other party is going back to the nine quiet places and go back to revenge!

However, he thought it was too simple.

Just half an hour after he left the city of Wangu, there was a figure in the sky.

Ye Xuan turned his head and saw it. Sure enough, it was the owner of Wan Gu.

The owner of the Wangu City, through the hand of Ye Xuan, destroyed the Baizhuzong, and left Ye Xuan to leave in front of so many people, but now he has chased it up, presumably wanting to kill and win the treasure.

"Master of the bones, do you have anything to do with me?"

Ye Xuan said, while falling to the ground, his realm is only 680 dragons, on the ground, is his home.

"You know what I want to do." Wan Gucheng looked down at Ye Xuan.

"If this is the case, then you still can't take it?" Ye Xuan took a look and took out two white bones.

"Well? Tianlong bone?"

The owner of Wangu City is somewhat surprised, but what is even more bizarre is that Ye Xuan took out two white bones and smashed what?

The dragon is huge, it is even harder to control than the dragon, and there is already a humanoid bones trembled. So what is this sect used for?

The next moment, he just saw Ye Xuan suddenly picked up a small green thing, and then infinitely magnified, attached to the Tianlong bone, the whole Tianlong bone is like a layer of green armor.

"What is this?"

The owner of Wan Gu looked at the dragon's bones and flew up. He understood that this was not Ye Xuan's control, but that strange thing.

However, he is only strange, but he does not care.

He is a first-order refiner, with the power of a day of dragons, and can punch this keel with a punch.

"I have to thank the owners of the bones. If you don't give the materials you gave me that day, I can't refine this dragon bone..."

Ye Xuan's mouth is slightly tilted.

How about the first step of refining, still playing!

Because the day was in the city, I couldn't open my hand. There are no other people today, and the venue is very wide. Together with the two white-legged battles of the nine-order temperament, Ye Xuan is not afraid of the owner of this bone.

"Small age, you can control the temperament of the ninth-order white bones. Your qualifications are not bad. However, your realm is not enough. You can't play the true strength of this century-old battle!"

The owner of Wangu said that his vision is also very unique. At first glance, he saw that this humanoid warfare has at least 50 years of history.

"Yes, then you can try it..."

Ye Xuan smells the wind.

"Okay, then I will see what you can do, and dare to start with my bones!"

The owner of the city of Wangu drank a big sentence and rushed toward Ye Xuan with bare hands.

The thief first smashed the king, as long as Ye Xuan was killed, then the two ninth-order white bone wars could not move.

However, he is too arrogant, and he has stunned these two bones.

Even if the Tianlong bones are counted, even the humanoid warfare is very strong. This should not allow him to change his plan. He should first focus on the human form war.

"I want to ruin my bones and war, I asked if I didn't?"

Ye Xuan's arrogance is high, and he is attacking wildly with the white bones.

Not only that, the Megatron in the air is constantly swinging the claws and tails, and the three-pronged approach has actually beaten the owners of the bones.

On the same day in Wangu City, Wangu City did not want to kill Ye Xuan, so did not expose the real strength, and Ye Xuan tied.

Today, he has already used all his strength, but he can't help Ye Xuan, just because of the two ninth-order white bones.

He regretted it very much. If he had to give it to Ye Xuan in order to pretend to be like that, he had already killed Ye Xuan today.

However, Ye Xuan is also a bit worried, and he is not sure to kill the refining first-class city of the city.

The two sides fought fiercely for hundreds of rounds, which is difficult to understand, but the owner of Wangu also discovered a weakness of Ye Xuan, that is, the speed of the air is slow.

Therefore, he jumped directly into the sky, first taking Megatron to open the knife.

"Destroy the Boxing!"

The owner of Wangu City slammed out, and Megatron was so hard to escape because of its huge size, and was slammed.

"Hey!"

Megatron's entire body swayed a bit, and the green armor was also punched out. Fortunately, the dragon's bones were hard and unharmed.

However, at this time, the keel was exposed to the air, and Megatron had not repaired the hole.

"Destroy the Boxing!"

The eyes of Wan Gucheng were bright and they burst into a punch. This time, the Tianlong bone finally cracked.
