Chapter 4531: Star Bo is not dead

When Ye Xuan's words were finished, Bao Luo's moments fell silent. Obviously, the seven gimmicks were fighting in the heavens and the hearts were entangled.

In the end, I don't know because I have stated everything to Ye Xuan in the past, and the anger that has just ignited in my heart has already calmed down some of the reasons. also

It was because Ye Xuan's follow-up and temptation had an effect, and the seven gimmicks realized that they were so impulsive and immediately went to the door. Not only did they not be able to report the enemy, but they had to be murdered again by the other party. It was not worth it...

Therefore, after a brief silence and a battle between the gods, the seven gimmicks seemed to have figured out all the words, and they continued to speak out and expressed their views to Ye Xuan...

"Master, we are wrong..."

"Although this incident is indeed wrong, no one can stand it, but we did have a little impulsiveness just now."

Just so recklessly rushing out, not only will the owner be tired, we can not report the enemy itself, but have to be killed again by him, so is it more wrong? "

"The owner said yes, since we lived the second world, this is a big chance. As long as we are alive, we will one day be able to return to the peak of past lives, and even go further, into the ancient world. It is not impossible."

At that time, if you go to the door again, you will be able to kill the dog thief, so that you can get a big hatred..."

Rest assured, the master, we will not be impulsive again. In the future, we will fully restore our cultivation and strive to restore the peak of the past life as soon as possible..."

After all, the seven gimmicks described the appearance of the mysterious human strongman they had encountered in their previous lives, and they were very specific. Even Ye Xuan could be sure that what they encountered in the past was indeed the same person. only

Yes, with the seven gimmicks describing the person's appearance, Ye Xuan sketched in his mind. When the seven gimmicks finished, the face that appeared in Ye Xuan's mind made him instantly Shape madness. startle

Then exclaimed: "What? Star Bo? Terran Technology Pioneer Xingbo? This is impossible..." Star

Although Bo has already fallen for tens of thousands of years, his portrait as a pioneer of science and technology has always remained, and he has been widely circulated in the three major stars of the world. especially

It is the immortal dynasty in the science and technology camp of the Terran, and Xingbo has become a god-like existence, because the technological seeds of the Terran Science and Technology camp are sprouting in his hands, growing step by step, and finally reaching this grand scene today. leaf

Xuan naturally saw the portrait of Xingbo, not only seen in the emperors of the immortal dynasty, but in many administrative stars of the science and technology camp, there are pictures of Xingbo.

In addition, as long as you enter the star network, search for it, there will be results.

Moreover, the portraits of these stars are absolutely true, and they have survived before the tens of thousands of years of age, when Xingbo has not fallen.

Therefore, when he outlined the appearance of the mysterious old man in the mind according to the description of the seven gimmicks, Ye Xuan recognized who he was at the first time. but

This is completely impossible. Under the circumstance, Ye Xuan will be so stunned and exclaimed on the spot.

This change is so amazing that Rao is Ye Xuan. He has never returned to God for a long time. After a few dozens of interest, he was shocked and realized what he was. No

He was hesitant, and he immediately sent a large number of images of Xingbo from the information database of the body's engulfing system, and then read the **** and then sent it to Baoluo.

The sound of his knowledge is also heard at this moment, revealing a tension and anxiety: "Look, the mysterious old man of that year... is it him?"

There was almost no delay, and the seven gimmicks were clearly recognized at a glance. In an instant, the exclamations came out of Baoluo..."

The **** old man is him. He used to exchange the ruins of the starry sky to me. He lied to me and eventually fell..."

"Yes, I also recognized it as a ash. When I was swimming in the sky, I accidentally met him and the young people who followed the side of the body and the younger ones. I just talked a few words, suddenly there are other A strong enemy arrives, and you can't get out of it.

"Master, how do you have his image? Do you know this old man?"

Star Bo? Is his name called Xingbo? "

.....

With the exclamation of this road, Ye Xuan's whole heart sank to the valley, his face was gloomy and the whole brain was completely chaotic...

Unexpectedly, he suddenly thought of something, and his body shape was aroused, and he immediately asked: "Yes, what did you say? There are several descendants of the family who are following him, and... How many heads are from the average beast?"

"Yes, there are five people in total. Three of them are descendants of the same family. They are all ethnic. They are middle-aged men. In addition, there are two beasts, a deadly mosquito, and a sorcerer... .."

"What? There is a wild mosquito? Is it the star... who is the mysterious mother star?"

Once, Ye Xuan's exclamation was even more dazed.

According to the seven gimmicks, the mysterious people and old people they met in the past, not only the human race technology, but also the mysterious parent star that Ye Xuan has been looking for. because

In accordance with some of the circumstances he learned from a generation of demons, Mo Zhentian, and after entering this piece of Hongkong, the mysterious parent star came to visit, and the followers that followed him were indeed five.

To be precise, it is three people and two beasts!

Among the three descendants of the three races, one person in the three major star planes of the world, leaving a vein of the devil, that is to say, one of them is the true source of the blood of the devil. and

The other two cockroaches are among the fierce beasts. The ridiculous murderous mosquitoes have left a fierce mosquito in the main star planes of the world. That is to say, the old murderous mosquito is actually a **** grandfather, crazy. The father of the Mosquito Emperor.

As for the other cockroach from the beast...

Thinking of this, there is another flash of light in Ye Xuan's mind. At this moment, he suddenly thought of the sorrow that he saw in the picture of the sacred world in the past. ape. that

Although the guys are also ancient and supreme, they did not participate in the battle of the ancient world in the past, just in the starry battlefield, ghosts and ghosts admired on the back of a star. This

The guys have finally fallen, and it's still unknown. but

Ye Xuan got a **** corner of the soul, it should be the blood of this enchanted konjac. At that time, in the old cage, a **** ancestor of the ancestors wanted to escape and was finally seated in the middle. The wilderness of the wilderness was extinguished, and the **** corner was brought into the black wind star by the devil's generation of the emperor. The altar was sealed and wanted to live the second world. only

It was this thing that was destroyed by Ye Xuan, and that blood corner was later refining the headless baby...

Chapter 4532: confusing

With the thoughts flashing through my mind, Ye Xuan's whole person was once again in a sluggish state, and the brain slammed into a mess.

Suddenly all of this was discovered, and it was too astounding. Everything seemed confusing and made him feel unbelievable.

But the facts are in front of you, and it is impossible to believe. when

The person who murdered seven gimmicks in the year is the leader of the Terran Technology Pioneer, and basically has no doubts.

Seven gimmicks cannot recognize the wrong person at the same time.

At the same time, Xingbo is the mysterious parent star that Ye Xuan has been looking for. It can basically be confirmed. On the one hand, the two sides are followed by three followers of three beasts and five beasts. Mosquitoes are exactly the same, and it is unlikely that there will be such a coincidence. another

On the one hand, before the **** said, in this forbidden mosquito, he felt the power of the blood of the madness of the madness. The deity of the madness is the **** father, and the blood concentration is higher than him. Still strong, it can only be the source of the murderous mosquito, the **** grandfather. only

From this point, it is basically certain that the mysterious parent star came to the depths of the forbidden mosquito.

Just now, the seven gimmicks also captured the familiar atmosphere, which is their former enemy, and also in the depths of the forbidden mosquitoes in front...

Can it be a coincidence?

There are so many coincidences in the world, there is no doubt that the mysterious mother star is a visitor! more

What shocked Ye Xuan was that the two fierce beasts who followed the side of Xing Bo were from the other side, and they were actually a sorcerer.

This kind of existence is rare. Ye Xuan has a bold guess. Perhaps, in the starry battlefield that he saw in the picture of the sacred bow of the sky, the ghosts and ghosts hide in the sky. The sorcerer's konjac peeping from the back of a star is the one around Xingbo...

If this is the case, then it is too terrible. that

The head 啼猿猿猿猿猿猿猿猿猿猿猿黃金黃金黃金黃金黃金黃金黃金黃金黃金黃金黃金
金黃金黃金黃金黃金黃金黃金黃金黃金黃金黃金黃金黃金黃金黃金黃金黃金黃金黃金

Also, he sent out the beggars from the beasts into the battlefield of the starry sky, the ghosts and ghosts peeping, and what is the plot?

Including the murder of the seven ancient cults, and smashing their sorrows into the smog...

By the way, this smog finally came to his own hands, and he just got the seeds of the phagocytic system he created...

Thinking of this, Ye Xuan is a slap in the face, he has a feeling that he seems to have been calculated by people.

What made him even more uneasy was that he didn't even know about it, and he was kept in the same darkness as the Seven Great Yan.

In the same way, the seven great cults for the mysterious old man of the year why they murdered them, I am afraid it is now a fog, and Ye Xuan, now is the same feeling. he

I don't know what Starbucks is trying to do, and I don't understand why it all has a relationship with myself.

This is the most terrible place...

"Chaotic, chaotic, completely messed up..."

With all this flashing in my mind, Ye Xuan's feelings are not good, and the brain is banging, how can it not be smooth, but I want to go deep into the thoughts, the fear of my heart. The thicker it is. One

Since then, he has been mourning for the mysterious mother star, but although he thinks that he is mysterious, it has not yet reached the level of being able to compare with the headless baby body and the blue sky. can

Nowadays, as he suddenly understands so many secrets today, the mother star's visitor, that is, the mysterious degree of Xingbo, has soared several levels in an instant. In Ye Xuan's heart, he has achieved energy and no The degree of the head of the baby corpse and the wilderness of the heavens.

It can even be said that compared with the headless baby corpse and the ridiculous Tiandao green eye, Xingbo now makes Ye Xuan jealous and ruthless.

Although the green eyes of the wilderness roads are strong, even it must have various arrangements, and will soon be fully launched. At that time, the vast world of the vast collapse in the ruins of the ancient world will be fully brought to the world...

But all this, although it has already involved Ye Xuan, is not directed at him. package

The same is true for the headless baby. The reason why he chose Ye Xuan after he met Ye Xuan was attached to Ye Xuan's body, because it was seen that Ye Xuan's body was full of luck. . This

One point, the headless baby corpse was confessed to Ye Xuan when he was last awake. He said that he did not attempt to blame Ye Xuan. He just wanted to pull Ye Xuan to form the same camp with him.

With the help of Ye Xuan's power belonging to this new era of Hongmeng, it has not really ended in the previous era, and will be defeated in the final battle of the flood in the final battle of the new era when the new era of Hongmeng is opened. . only

That's it!

But Xingbo is different. He seems to be counting Ye Xuan. It is targeted. Otherwise, how can things be so smart?

His carefully crafted smog, falling in the hands of Ye Xuan. he

The phagocytic system that was created and whose purpose is still unknown is also in the hands of Ye Xuan..."

Although all this is too confusing, it seems that there is no result at all, and there is no clue in it."

After some entanglement, Ye Xuan took a deep breath and shook his head, temporarily smashing everything in his mind.

While muttering, he turned to look at the depths of the mosquitoes outside the stars, and looked at them in the depths of the forbidden land. "But it doesn't matter, at least, the whereabouts of Xingbo have already been determined." Just in the deepest part of the stagnation of this mosquito..."

"Even if he is very likely to be a powerful existence, but I can grow up quickly, and now he is clear, I am dark, I know his existence, but he does not know that I have arrived..."

Just give me time, find the opportunity, all the mystery, one day, will be able to unravel! "Say

At this point, Ye Xuan's chilling mans in the middle of the sigh, and then suddenly reached the extreme, even the voice of the words in the mouth, revealed the meaning of endless coldness: "If he did not count it down... "

"On the contrary, even if he is already able to fight with the headless baby, the same level of horror exists in the wild, this time... I must also swear!"

Fan Xuan, Ye Xuan is not a false word. he

Have a good breath!

Because the new Hongmeng era will be opened, and in this new era of Hongmeng, among the three thousand chaotic devils that are still bred, the strongest demon with the law of Hongmeng's power is a seed planted by Ye Xuan. The strongest avatar! where

Before the opening of the new era of Hongmeng, all that belonged to the previous era will be dusted, and the soil will return to the earth.

There are only a few horrors like the Star Bo, the headless baby corpse, the wild sacred eye, and the virtual giant turtle. Because of their own strength and various arrangements, they can survive...

Even Ye Xuan's engulfing treasure and his deity are completely degraded at the moment when the new Hongmeng new era opens.

He is as confident that after the new era opens, he will kill Starbucks. because

For the sake of having the strongest strength that is still gestating, everything that Ye Xuan has passed will be fully returned after the opening of the new era...

Chapter 4533: Octagon cloud

"The things are a bit complicated..."

After all the distracting thoughts of the heart were temporarily put away, Ye Xuan once again conveyed the voice of the seven gimmicks in Baoluo. Connect

He said: "The mysterious old man who counted you in the past is very likely to be the pioneer of science and technology in the world. You also know that there is a system of swallowing that he created in my body, but Bao Luo has also come to my hands..."

So it seems that his final goal is probably me..."

"And, he has another identity, that is, the mysterious mother star came to visit. It is said that he came out from the parent star and came to the three major star planes of the world, not only leaving the identity of the Terran Technology pioneer."

"Even even the three followers who followed him, the five beasts and the five followers, are in the three major stars of the world, leaving two bloodstains of two devils and fierce beasts..."

"In short, everything is confusing, and things are probably not as simple as we think."

Having said that, Ye Xuan said: "But you can rest assured that this matter, I will definitely check it out, but you don't have to worry about it for the time being. Let's calm down and calmly restore your own cultivation..."

When can you regain the cultivation of the ancient powers of the past, you can help me. "

"Of course, if we can go further than the previous life and achieve the level of repairing the ancient and supreme, it will be more perfect, and our confidence will be even more..."

In this discourse, the seven gimmicks fell into a short silence. Obviously, their hearts were shocked. In the past, they thought that the mysterious old man was just murdering seven of them. but

Now it seems that the other party's plot is obviously far more than that simple, even what it will be, now there is no speculation...

As Ye Xuan said, all of this is actually not in a hurry to pursue. because

How about even finding out the truth? There is no corresponding strength, even if I know everything, I can't do anything...

One thousand and ten thousand, in the end, it is still the most important of its own strength. and

Seven of them, in order to help Ye Xuan, the only choice is to re-enter Shenmian, as soon as possible, to restore their own strength to the ancient powers of the past peaks, and even further, to reach the ancient and supreme. miss you

Here, the seven gimmicks did not entangle any more, and after Ye Xuan greeted him, they quickly fell into a deep sleep, Bao Luo, no more movements came...

At this point, Ye Xuan also breathed a sigh of relief.

He is still very confident about the potential of these seven gimmicks. phase

Letter, not long after, when they wake up from the next sleep, nowadays, only the cultivation of the ancient sacred people will be refined again. In all likelihood, it will return to the realm of the universe. Such as

Therefore, after two more sleeps, you can return to the ancient power of the previous peak!

After the withdrawal of the treasure in the gods, Ye Xuan once again fell into sinking. He is considering the latter step, and it is naturally important to cultivate the breakthrough and promotion of strength.

However, he has just experienced a breakthrough. In a short period of time, if there is no unexpected sublimation, I am afraid it is not appropriate to break through immediately. except

After several battles, I completely digested the last breakthrough and completely integrated into myself. Such as

It seems that this star under the foot is not suitable for further staying. The turtle is here, and it is impossible to break through. Is it not a time of vain?

After some indulgence, Ye Xuan quickly made a decision.

He decided to leave here and head towards the deepest point of the forbidden mosquito in front..."

boom! ""

Rumble..."

Just at this time, the stars under the feet suddenly swayed violently, and the thundering sounds of the sky shook loudly and earth-shattering...

Ye Xuan stood up and did not hesitate. After a glimpse of his body, he immediately reached the universe of the universe outside the atmosphere of the stars. thing

In fact, it is not the star where his presence is shaking, but the whole universe of the universe is shaking. and

The source of this violent shaking is in the deepest part of the front of the forbidden mosquito...

There is no doubt that something terrible has happened.

Without any hesitation, Ye Xuan swayed his shoulders, and the whole figure was instantly turned into a man, rushing toward the front. This

At one moment, he has a strong intuition and must rush over, otherwise he will miss something. Even in the deepest part of the forbidden mosquito, there are at least two ancient powers, and even more likely to be stronger than the ancient powers. The existence of the crouching.

He also spared no expense. thing

In fact, it is not only him, but within the forbidden land of this vast and innocent mosquito, there are not only a few such decisions. This

At one moment, it can be described as an eight-way cloud!

In this forbidden mosquito, there are a variety of different kinds of star-studded beasts, as well as a large number of murderous beasts, but also abandonment of the ancients. Nowadays, among these races, there are small leaders above the level, that is, the existence of the emperor's immortality. All of them rushed out from the stars of their respective towns.

Just like an appointment, the spurt went to the deepest part of the forbidden mosquito. One

In the huge life star, two human figures spurt out, one is the old man, the other is the middle-aged. but

The temperament of the two people's body is full of power, but it is the ultimate universe of the two seven-order world. this

In addition, in the other direction of several fierce beasts, there are also a few large-scale starry beasts, roaring and rushing to the foreground in front of the forbidden land. This

A few starry beasts are also the supreme of the universe. The strongest is the eighth order of the world, the weakest, and the second order of the universe.

In addition, there are a number of powerful murderous beasts, all of which have rushed out of the stars they are sitting in, rushing in the same direction. These powerful murderous beasts, without exception, are all universes. Extreme.

Cold and unscrupulous, at this moment, the universe is spurred toward the deepest spurt of this murderous forbidden place. There are actually 20 sacred people, both ancient and savage, and other stars of various races. beast. and

In addition to the nearly 20 universe supremes, the Lord of the Universe, there are many cosmic sages, and Ye Xuan, who is transformed into a star-shaped starry sky, is not so conspicuous. to

When the emperor is immortal and the emperor is immortal, it is even more like a river crossing. At first glance, at least hundreds of thousands...

This is really a top-notch forbidden place, and it is still one of the best, and it is even more likely to be comparable to the super-strong forbidden land standing at the peak of the Starry Force Pyramid...

"boom!"

Rumble..."

With the tens of thousands of strong emperors above the immortal, all of them swarmed from all directions, toward the deepest part of the forbidden ground, the end of the void at the end, the endless thunderous sounds, and even more It's so fierce, even this piece of emptiness seems to be torn apart...

Chapter 4534: Supreme Power

"boom!"

"Booming..."

At the end of the void, the thunder of the thunder continued, and it became more intense at this moment, as if even this piece of emptiness, it seems to be torn apart...

Such a sudden change, even in the top-level strong forbidden land where the mosquito is forbidden, has never happened in the past, the entire vast and innocent vacant land has been alarmed, and the thousands of tens of thousands of figures have been repaired by the emperor. It's just a slap in the face of a bee! to

Yu Xiu's presence in the emperor's immortality is no matter whether it is a deserted survivor, a murderous beast, or a variety of star-studded beasts of other races, even if it has the strength of the ninth-order great perfection of the king's immortality, that is, half-step sealing. Emperor.

At the moment, there are no exceptions, all of them are quietly in the crouching stars, dare not have the slightest change, shaking and shaking. thing

In fact, it is not just the stagnation of this mosquito. The movements that have taken place here have already spread to the banned mosquitoes.

There is an endless vacant distance on the left bank of the Milky Way. Is there any induction? It is not known at the moment. Even if it is really inductive, I am afraid it will not be too strong, and it will be sensed, and it will not do anything, because there is a force that is separated by a law of emptiness. The Galaxy Stars, which are covered and protected, simply cannot cross. and

On the edge of the right bank of the Milky Way, there is a strong forbidden land and a strong star field at all levels. At this moment, all the turmoil within the forbidden land of the mosquitoes is felt.

In this countless strong forbidden land and the strongest star field, at this moment, there are countless gaze, as if it is an appointment, look around the area where the mosquitoes are forbidden...

Among them, there are more powerful and powerful gods, rushing out from the strong forbidden land and the strong star field where they are sitting, and looking at the fierce mosquitoes through the endless empty space, all of them are full of doubts. This

Among them, there are both ancient and ancient people, as well as various kinds of starry beasts, but without exception, all are the existence of the universe, and otherwise, under such a terrible change, they even boldly extended their knowledge. There is no qualification for a little exploration. This

There are too many kinds of gods, at least hundreds of thousands of people, the universe has the most people, and there are many masters of the universe. When it comes to the universe, there are fewer.

However, among the some of the gods that are mixed in it, there is a clear sense of the ancient power of the ancients and the sacredness of the ancients, and the number is still quite large.

However, these gods are only just far away from the endless empty space, but there is no such thing as a god, and they are not in the forbidden place. where

Fear of the closest, it is only to extend the knowledge of God to the edge of the forbidden land, and outside the forbidden land, it has never been deep, as if it has already realized what is general, full of deep taboos...

At the same time, the mosquitoes are forbidden! This

The top-level Xingqiang forbidden land is too vast, and the void is almost boundless. Even if it rushes out from the stars of life, the tens of thousands of figures in the depths of the forbidden land are the most vulnerable. Immortal, the strongest, the cultivation of strength has even reached the eighth order of the universe supreme. only

The difference is the ninth-order grand perfect universe, that is, the quasi-ageless power. but

At this moment, no one has yet arrived at the source of this sudden turmoil.

"boom!"

"Booming..."

"Roar!"

Oh..."

It is also at this moment that the sound has already been extremely amazing, and the deepest part of the front of the banned mosquitoes has been continually slamming and thundering.

And this time, with the resounding of the sound of thunder, it is clearly the deepest part of the forbidden mosquito in front of this sudden source of turmoil, and there are still several violent rumors and screams. This

At the moment, tens of thousands of figures rushing in the deepest part of the forbidden mosquitoes in front of the forbidden place, including Ye Xuan, all without exception, all stunned and stunned.

In the depths of the front of the void, the violent and whistling sounds came from a total of four, and with the sound of these four violent and whistling sounds, the four horrible powers of horror are also at the end of the void. The depths of the air spread out and rushed.

Four breaths, two of which are wild and powerful, and should be the fourth to fifth-order mid-energy.

This point, like Ye Xuan's previous guess, there is basically no difference. but

What Ye Xuan never imagined is that the two ancient powers that he had guessed in the mid-term are actually not the strongest of the top Xingqiang forbidden places.

To be sure, here, it is not the top-level forbidden land that the ancients can sit on. top

In the strongest forbidden land, the strongest person in the town is the ancient power.

While standing in the super-strong forbidden land and the supreme star field at the peak of the Starry Force Pyramid, it is the ancient supreme, that is, the existence of the Golden Dragon, the Nether Giant Turtle and the Wild Nightshade.

At the moment, this mosquito-killing place where Ye Xuan is located is clearly a super strong forbidden place.

Because at the moment, the four powerful powers transmitted from the front, in addition to the two mid-term wild powers, the other two, are all more powerful... the ancient supreme. although

However, it is only the first stage and the second stage of the ancient sage of the early stage, far from being able to reach the end of this realm of the ancient barren, golden dragon and virtual giant turtle. but

People are weaker, and they are also ancient and supreme.

Even in the distant world of the vast wilderness, it is the most powerful existence, and the level of cultivation is second only to the headless baby corpse and the wilderness. This

The existence of the species, Ye Xuan is now unable to attract, he is in the eyes of the other party, I am afraid that even a cockroach ant can not count.

With these thoughts flashing in my mind, Ye Xuan couldn't help but tremble slightly. It was like a conditional reflection in an instant, and stopped in the void.

Immediately afterwards, it was a subconscious move. He first spurred the secret of blood and sea, and narrowed the violent figure of Baizhang to a form of weak blood. This

Not counting, he even at the same moment, will be the perfect shock of the spiritual power secret, urging to the extreme, as much as possible to completely conceal his own breath. "

call out....."

At this moment, the temperament of the violent temperament disappeared, and even the temperament of the seven-ordered universe of the violent temperament was just like the evaporation of the human world, and disappeared instantly.

In silence, a small drop of all the tiny blood of the breath, with a speed of horror that exceeds the light, flies away at the speed of the coming. a few

At the same instant, at the end of the emptiness of the foremost mosquitoes in front of the forbidden land, four figures suddenly burst into the air, and the air-filled atmosphere in the body is the two ancient powers and two ancient sages. four

In the figure, the three are human races, and the other one is a huge wild mosquito...

Seeing this scene, Ye Xuan's heart is stunned. This is obviously the two of the three beasts and the two beasts that are followed by Xingbo...

What, Star Bo? What about the other sorcerer? go with

Where is it...

Chapter 4535: From the furnace to the green eye

The followers around Xingbo are three people and two beasts, but now there are only three people and one beast. Ye Xuan's most concerned enchanting konjac is not seen. with

At the time, Xingbo himself was not there.

Among the three beasts that appeared at the moment, the ridiculous mosquitoes and one of the old people, the body exudes the atmosphere of the ancient and supreme, the face of the old man, and the mosquitoes and old ghosts are quite similar, if not In case of an accident, he should be the father of the mosquito-killing deity. to

In the other two strong people, they are middle-aged people around forty. Of course, this is just appearance. The real age is probably an astronomical number. I don't know how many years have passed, the real super strange. This

The two people, the body exudes a breath of breath, is the ancient power!

If there is no accident, the sorcerer's konjac, which is not seen at all, should be the sacred and supreme. If this is the case, then this sly must be the one that Ye Xuan once saw in the picture of the sacred bow. The ghosts of the ghosts are peeping.

This also proves that Starbucks must have any terrible plots. Otherwise, he sent the sorcerer's konjac to the starry battlefield of the ruined world that collapsed in the past.

Looking at the scenery? only

Only five followers around, there are two ancient powers, three old and supreme, then the star itself... how strong? Absolutely

It is the existence of the blue eye, and the headless baby body! This

It is also the reason why Ye Xuan suddenly quits at this moment. If

It is just the power of the ancients. He still has a little grasp of the whole body, but now the ancient Supreme has come out. This is the horror of the golden dragon, the wild night fork and the virtual giant turtle. He has no grasp at all.

What's more, in the dark, there is also a singularity that is more than half the strength of the ancients, and can be compared with the blue sky and the headless baby. No

Wrong, the headless baby is still on his body, but this guy has been sleeping all the time, although Ye Xuan can feel that the headless baby body should be in this way to restore strength, his cultivation is slowly The ground is more powerful, but in the presence of the level of Star Bo, Ye Xuan really can't tell if he will shoot.

The only safest way to deal with it is to take a long walk. shortage

The ancient powers and the ancient sages all appear. This is definitely not a general event. If you get it bad, it is definitely a dead person...

"boom!"

Rumble..."

"Card!"

When Ye Xuan became a tiny drop of blood, with the perfect oscillating spirit of the secret force to retire, the sky in front of the murderous forbidden land, suddenly there was a thrilling roar. Accompany

Followed by it, it is a crisp and fierce sound...

At the height of the sky, there is a crack, which is extremely wide. Exceeding the volume of a giant star, even if it is the complete form of Shennong Ding, it can easily be inserted into this void crack. This

At one moment, Ye Xuan's scalp was a little numb. He suddenly had a very bad feeling. The scene in front of him seemed to be a terrible existence, the rhythm of coming.

Ye Xuan does not know who is coming or what is coming, but one thing is certain, that is, the other party is definitely not very good, and may even be uncomfortable.

After all, there are already two ancient powers and two ancients here, and the other side is still coming so strongly. There is no feeling of concealment at all, and the degree of strength of strength is conceivable. Know. "

Oh la la..."

Just as Ye Xuan's mind was flying, he guessed in the heart that the presence was coming. In the end, where is the sacred moment, from the huge void crack in the depths of the forbidden mosquitoes in front of the forbidden land, suddenly there was a slap in the air. The sound of the chain. no

More familiar than, let him instantly understand everything!

Furnace! Living

It is a furnace! positive

The existence that rushed out from the huge void crack in front was actually a furnace! This

At the moment, Ye Xuan's heartbeat suddenly began, and a strong sense of crisis immediately rose.
Correct

In the furnace, he has always been extremely jealous. Every time this guy appears, it represents endless killing. Of course, what really makes Ye Xuan jealous is not the furnace itself, but the heavenly eye that stands behind it. .

Here is the emptiness of Hongmeng, although he already knows that the furnace has entered the Hongkong void through Xusheng, but Ye Zhizhi knows nothing about the real purpose of the furnace.
very

I don't even know at all that it's the behavior of the furnace itself, or the result of someone behind it.

If it is the latter, today, the furnace suddenly appeared here, and Ye Xuan has always been regarded as a great enemy of life. Even he has grown to the height of the present, and he is afraid to face the horror of the sky. Will come suddenly.

Because behind the furnace, it is the blue sky.

"哗啦啦....."

At this time, the sound of the chain was a big hit, and a huge star-like furnace, like a star, rushed out from the crack in the sky where the mosquitoes were forbidden. furnace

On the surface of the tripod, 20,000 huge striated chains are waving, like a giant snake, revealing an endless fierce atmosphere. surface

For all of this, the tens of thousands of emperors who had been rushing to the front and the murderous forbidden to the ground were all stunned. At this moment, some people finally started to stun with Ye Xuan. Going back. leaf

Xuan could not be sure whether these guys knew the origins of the furnace, but even if they didn't know, just the fierce atmosphere they saw and perceived was enough to make them realize that the furnace was not good.

The reason why these powerful beings have all come back and retreat is obviously because they realize that it is not good.

For all of this, the four Xeons that appeared in the void at the end of the banned mosquitoes in front of the ban, there was no reaction at all.

A huge figure of a wild-type mosquito, a three-person strongman, a total of four figures, all of which are quietly standing in the void at the moment, so slightly tilted, the line of sight converges just from the void crack. In the furnace. This

The kind of scene is like waiting for something, or welcoming someone to come.

At this moment, Ye Xuan suddenly flashed an aura in his mind, and his entire figure shook slightly. flood

The sky is clear!

The four Xeons appearing in front of the murderous forbidden land at the end of the forbidden place, what is waiting at this moment, should be the arrival of the blue eyes of the wilderness..."

Before they... What is the relationship? "

Just like the nightmare of the whispering voice, I heard from Ye Xuan's mouth. At this moment, he was able to retire and retire faster.

It was also at this time, the farthest sky in front of the forbidden mosquitoes, another horrible roar, suddenly exploded...

"boom!"

"Booming..."

"Calculation!"

Empty high, the second crack, at this time, quietly revealed...

Chapter 4536: Great horror

"boom!"

"Booming..."

"Card!"

The earth-shattering roar sounded, the void was high, and the second crack was quietly revealed at this moment...

At one moment, Ye Xuan's heart screamed wildly, his heartstrings were tight, and his breathing seemed to have stopped. He realized that there was a presence of tearing the void coming, who is it!

Sure enough, almost in the next moment, his guess, it was verified! "

call out! "One

The faint sound of the road broke out, and from this huge void crack, a figure emerged...accurately, it was a vertical eye. One

The vertical eyes of the giant stars are several times larger than the giant stars. The whole body is still green, but it is still closed at this time, but it has already exuded a heart-rending gas.

"Roar!"

"Hey..."

Around the emptiness, the tens of thousands of emperors and emperors, the murderous beasts, the various ethnic stars and the beasts, and a small number of ancient survivors, all stunned at this moment.

Ye Xuan is not sure whether they know the identity and origin of this giant vertical eye, but even if they don't know, they can only guess by the terror of the other party's body.

This should be the body of the heavenly eye, because the temperament that has been diffused from his body at this moment has surpassed the ancient supreme.

It is more powerful than the Golden Dragon, the Nether Giant Turtle and the Ancient Nightingale, and it is more than a little bit powerful. It has almost the advantage of being crushed and clear.

In the empty space of the old cage, Ye Xuan also encountered a **** eye, even when he was still so weak, he had joined forces with the headless baby corpse, and it was a heavy blow.

The **** eye is repaired as strength, compared with the blue giant eye in front of it, it is a place, one day. before

For the land, it should be just a avatar, and most of them are still incomplete. Otherwise, can you be weak to that extent? and

The latter, which is the giant green eye that appears in front of the eyes, should be the deity of the green eye, and the breath is too strong, even if Ye Xuan has grown to this height.

Incarnate as a tiny drop of blood, he has already transformed the konjac into a ninth change, and has the third-order terrorist power of the universe...but

In front of this giant green eye, Ye Xuan still has the feeling that he is not even as good as the ants. You must know that this cyan giant eye is clearly closed or not, and it has never been opened.

Once it is opened, its own pressure is fully mobilized and dispersed. What kind of weather will it be?

These thoughts flashed through my mind, and Ye Xuan felt that the back was cold and the scalp was numb. although

However, he has always been afraid of the green eyes of the ruins, knowing the strength of the other side, and he has always thought this kind of cognition has been very profound, but now, until he is really close to the blue sky, Ye Xuan suddenly realizes himself, After all, I still have a glimpse of each other. it

The strength is far beyond the expectations of Ye Xuan. It is no wonder that he can experience the battle of the wild and the world, and win in the final stage. Later, he has launched various other arrangements and has lived to the existence of the world...

It is the master of the great era. it

It is the **** of the flood years...

Can you not be strong?

Realizing this, Ye Xuan rushed backwards faster, although invisible, but surpassed the speed of light, between the blink of an eye, it is hundreds of millions of miles away, from the front of the furnace and the ruins of heaven The area where the blue eye has come is already over 10 billion miles...

In the next moment, his figure came to an abrupt end! leaf

Xuan is not willing, but he is involuntarily, this piece of void, instantly imprisoned, like flowing water, instantly turned into solid ice. "

Oh..."

The faint and incomparably low humming sound came, and at this moment, the giant green eyes that rushed out from the huge void crack in front, suddenly opened up...

A piece of green mans emerged from the sky, and instantly enveloped the emptiness of the trillions of miles. In this area covered by green mans, all the starry beasts that were pulling back and retreating, including all the air machines with perfect shock and mystery. With Ye Xuan, without exception, the figure is abruptly stopped.

At this moment, Ye Xuan's heart floated an unprecedented sense of crisis. He was completely sure that the magical power of the perfect shock would definitely not escape the illumination and exploration of this Qing Mang. on

In the moment of the Qing Mang Ling body, his heart has even floated despair. because

In the event that the magical power of the perfect shock fails, the body shape suddenly emerges, and in all likelihood, it will cause the attention of the eye of the wilderness. At that time, it may be necessary to vent the old bottom...

In anxious, he even issued instructions directly to the body's phagocytic system to activate the interstellar coordinate jump ability at the fastest speed, and only wanted to leave immediately. Of course

However, the instructions were issued, and the body's phagocytic system did not respond at all. anti-

It was at the chest, but it was abrupt, slightly hot.

At this moment, Ye Xuan clearly felt that there was a turbulence from the position on the chest, which instantly opened on the surface. and

Just at this time, the Qingmang, which came from the illumination, finally touched his body, but it was like nothing, directly penetrated the past without any abnormal reaction.

After staying asleep, Ye Xuan instantly breathed a sigh of relief. he

I know that at the crucial moment, the headless baby corpse is still shot. After the corpse lamp tattoo on his chest, there is a strange power flowing out, protecting Ye Xuan's body, and even letting him not be the mysterious green of the blue sky. Mang explored...

However, it is worthy of being able to fight against the green eyes of the wilderness in the past, and although it has lost, it has not completely degraded. The headless baby corpse is definitely the same level as the sacred eye. only

It's just the hand that is now exposed, which is enough to prove this! can

Unfortunately, the corpse lamp tattoo on the chest, after the sputum sputum, there is no other reaction, although Ye Xuan has not been exposed, even if the Qing Mang is still shining, but it does not affect him completely, it seems that the chest is flowing. After the effect, it is continuous. to

Less, in a short time, this effect has not disappeared. but

That's all, Ye Xuan still can't move, and is locked in this area of tens of billions of miles of green mans.

And in front, the furnace and the wilderness of the sky, the distance with him, only more than 10 billion miles. This

Point distance, for the horrible existence of the ruins of the ancients, there is no area around it, that is to say, Ye Xuan is still unsafe, and the crisis is still likely to come at any time..."

Hey! "

At this moment, within the green eyes of the ridiculous heaven and earth, the glory of Qingmeng suddenly flashed, and the low-pitched humming sounded, seemingly conveying some kind of instruction.

"Oh la la!"

"Hey..."

The sound of the chain of screaming sounds, and the furnace is moving. It seems that it has received instructions and is being executed. The real big horror, at this moment, is coming all round...

Chapter 4537: Star Bo appeared

"Oh la la!"

Oh..."

The sound of the chain of the sky rang, and at this moment, the furnace was moving, and the 20,000-gram chain on the body was fully waved and rushed to the front...

The speed is almost at its peak. In the blink of an eye, it has reached the nearest batch of starry beasts and ancient survivors.

These guys, all of them are the Supreme of the Universe, before they were the fastest, and they rushed to the front of the mosquitoes.

Then, with the advent of the furnace, although they realized that it was not good, they turned around and fled, but the green eyes of the sky were almost the next moment. After the Qiqi, under the beautiful scenery, within a trillions of miles. The universe's void is imprisoned.

All the abandoned people and the starry beasts can no longer escape, and become a tiny blood, and completely swayed the body shape of Ye Xuan, can only stop in the void, can not move...

At the moment, with the spur of the smoldering furnace, the fastest before the rush, the guys who have the strongest strength, became the first victims. "

Hey! ""

Oh la la..."

The sound of the chain is earth-shattering, and the smoldering furnace rushes into the crowd and the herd. The 20,000-lined chain is as smart as a snake, like a star-studded giant python, throwing these wild people and the starry beasts directly. Within the mouth of the trip.

This scene seems to be a giant spider with numerous legs and legs hunting in the void, and the mouth of the furnace is the **** mouth of this weird spider..."

Owl..."

Karma..."

In the furnace, the sound of the huge flesh-and-blood disc whispered quietly, accompanied by countless fine cracks in the bones, and the ear was instantly cold and the hairs were erected.

Ye Xuan's vigilance has already been raised to the extreme, paying close attention to the movement of the furnace. Fortunately, the furnace has not rushed to him for a while, the distance is still far away, and it is not the direction of Ye Xuan. . heart

Under the head slightly, his heart moved and looked deep into the forbidden ground of the mosquitoes in front. Vision

In the line, the tears of the emptiness of the heavens and the green eyes are still hanging in the high places of the area. The blue eyes are open, and there is a deep and beautiful green man, which is shot out and shrouded the outside world. The universe of the void. and

Just below the green eyes of this ruined sky, three people and one beast, that is, the few people around the star, followed in the void, watching it quietly. two

The three people and one beast are the strongest in this forbidden place in the forbidden place, and the sacred furnace called by the green eyes of the wilderness is killing the high-level beasts and survivors in the forbidden land... but they But completely indifferent! This

The scene was too strange, and Ye Xuan, who was watching, was skeptical and almost doubted his own eyes. under

For a moment, a flash of light flashed through his brain, and suddenly there was a bold guess...

Gang!

The sorrowful sky, the green eyes, and these four guys... definitely a group!

If this is the case, the relationship between Xingbo and Hongtian Tiandao Qingyan may be even more unfamiliar. After all, according to Ye Xuan's speculation, Xingbo should be the same level of existence as the sorrowful blue eyes! Both

However, the existence of the same level, but also a group, then, the relationship between Xingbo and the sorrowful blue eye, can never be subordinate and superior, or a partner of cooperation, or the relationship is closer! This

The discovery was so amazing that even Ye Xuan himself was scared.

He guessed all the way, but he didn't expect it. Starbucks, and the green eyes of the wilderness are a group. That is to say, he is the existence of the enemy camp, and it is still a big boss! ask

The key to the question is... Ye Xuan's body, there is actually a phagocytic system created by Xingbo. eye

Under the phagocytic system in his body has not yet evolved to the final stage of the final, and even now, Ye Xuan has doubted the extreme for the purpose of creating a phagocytic system for Xingbo.

This is definitely not good news. The body has a powerful system created by the hostile camp boss, and now I don't even know what the ultimate purpose of this system is.

For a moment, as these thoughts flashed in my mind, Ye Xuan was cold and the whole person felt bad! "

Hey! "

"Oh la la..."

"Oh!"

"Karma card..."

In the process, the furnace has not stopped for a moment, waving the 20,000 chain of chains around the pole, always wandering in the void in front, each close to a group of ancient survivors and starry beasts, like a starry sky The striated chain will wrap it in an instant and wrap it in the mouth of the trip.

Then, through the huge grinding disc in Ding, crush it...but

Ye Xuan has a strong intuition. This time, the furnace is definitely not the same as before. Hunting the flesh and blood of these powerful creatures is just for refining the evil source! because

For the deepest void in the forbidden mosquitoes in front, the three beasts that follow the star's side, still standing there quietly, this is clearly waiting for the rhythm.

The massacre at the moment of the furnace must be related to this. package

The sudden fall of the green eyes of the Hongtian Heavenly Road will also be related to this...

All that happened today is absolutely impossible just to refine the evil source. If this is the case, there is absolutely no need to disturb the horror of the heavens and the blue eye, come in person!

"They, what are they planning?"

As these thoughts flashed in my mind, Ye Xuan whispered, his heart was even heavier, there was a feeling of bad things, and it was getting stronger and stronger. "

boom! "

"Booming..."

Just at this time, at the end of the void in the distance from the far-away mosquitoes, suddenly there was a thunderous roar again.

Ye Xuan's heart jumped and subconsciously went away. Vision

In the line, the height of the void, another void crack appeared.

But the void cracks that appeared this time were not big. Only when they were able to stand up, they could only allow one Terran to get out of it.

The thought flashed through my mind, and Ye Xuan's heart suddenly jumped up. in

At this time, in this place, the existence that can come at this moment, besides Xingbo, who else? fruit

Of course, it was almost in his mind that he had just guessed the next moment of this possibility. From the hollow crack in the distance ahead, a figure stepped out of it. This

It is a native of the human race. She is thin and sturdy. She wears a gray robes and looks very harmonious. Her face is faintly smiling, but the light in her eyes is very cold. this

People, it is Xingbo, Ye Xuan recognized it at a glance. just

As soon as I walked out of this void, Xingbo's line of sight scanned the circle in the void. In the face of the ruthless killing of the furnace, he did not seem to see it. His face still had a sly smile, as if these were A trivial little thing is average.

Then, he seemed to have sensed something, suddenly turned to the head, in the direction of Ye Xuan... looked over!

Chapter 4538: completely annihilated

With the sudden appearance of Xingbo, Ye Xuan was in a state of extreme shock.

Although he had already been mentally prepared in his mind, he guessed that the existence that would come out of this void crack at this moment was mostly Xingbo. but

Guessing is speculation. When everything becomes a reality and the guess of the heart is true, the feeling is different.

In fact, although he had already passed through all sorts of clues, he guessed that Xingbo was still alive, and he was the mysterious parent star. Not only did he send the sorcerer who followed him to the land of the wild war, he peeked at what .

Even there must be all kinds of unknown plots, and the arrangement of its means has even extended to the three major star planes of the world, leaving the veins of the devil and the murderous beast.

It is also the myth that the Terran has left the mythical pioneer of the Terran, and finally succeeded in getting out of the way because of the rebellion and killing of the Emperor.

Everything is proof that Starbucks is not small, and Ye Xuan is extremely vigilant. but

In fact, in his heart, he always hopes that all this is a fake. It is his own private speculation. After all, in his heart, the image and status of Xingbo, a pioneer of the human race, is still quite tall and brilliant. of.

The phagocytic system in Ye Xuan's body, and the life fortress he got from the Longye, are all left by Xingbo. It can be said that Ye Xuan is not a small favor from him...

It can even be said that there is no star blog, there is no phagocytic system left by him, there is no Ye Xuan today!

It is for this reason that Ye Xing is actually unwilling to believe and accept that Xingbo is the behind-the-scenes of all these things.

Although he has speculated about the general truth from all kinds of clues, he still has a trace of luck.

However, now, with the appearance of Xingbo, the last trace of Ye Xuan's heart is completely annihilated...

All this, the shock that brought him was too strong. For a time, Ye Xuan simply could not recover from this extreme shock.

At this time, the star blog that just came, but it seems to have sensed what is generally, subconsciously, turned to the direction of Ye Xuan, and looked over. This

At the moment, Ye Xuan fell into the ice cave, and there was a feeling that the life and death crisis finally fell to the top of his head. star

Bo and Hongtian Tiandao are different. two

Although it is the same level of existence... This point, after the arrival of the Star Boss, the position in the void is flat with the green eyes of the first step, and the three beasts are clearly below. Can see one or two.

However, Ye Xuan has the phagocytic system created by Xingbo. Therefore, even if the two are of the same level, the wilderness of Tiandao has not found the existence of Ye Xuan, but this does not mean that Xingbo has no induction.

Perhaps, what he sensed is not Ye Xuan, but the phagocytic system in Ye Xuan's body..."

Hey! "

Just as Ye Xuan fell into the ice cave, I don't know how to deal with it. The corpse lamp tattoo on his left chest suddenly disappeared again. The second strong turbulence flowed instantly and opened his body. Completely shrouded...

This change has made Ye Xuan's heart loose, but the heart has not completely fallen back. It is still hanging in the eyes of the blind. After all, Xingbo is different from Hongyan Tiandao Qingyan. Ye Xuan's body has the engulfing system created by Xingbo.

The final result made him feel relieved!

After all, the headless baby corpse still did not disappoint him. After all, he is also at the same level as the sorrowful eye, and even more mysterious than the sorrowful eye.

After all, when the war broke out in the era of the ruins of the whole world, the headless baby corpse was just born, but it was only a larvae, far from growing up.

Even so, although he lost in this war, he still survived, and in this world, before the opening of the new Hongmeng era, he will start a new war with the sorrowful eyes of the eternal world. Everything that has not been solved is solved in the world. only

From this point, you can see the power of the headless baby corpse!

Although Ye Xuan still does not know the true identity and origin of Xingbo until now, he always has a feeling, headless baby body, definitely stronger than him! this

Engraved, with the corpse lamp tattoo of the headless baby corpse, the second turbulent flow that was transmitted out was shrouded, covering Ye Xuan's body, and the star that was originally far away from this side, the face was obvious It shows a sigh of relief. he

The feeling that was suddenly captured before, clearly disappeared, and there is no trace to follow. This feeling should be given to the idea that Xingbo has an illusion. Place

After shaking his head slightly, he quickly turned his head back and stopped paying attention to Ye Xuan...

This is also completely understandable. By the time they exist at this level, what other means can they avoid their exploration? or

Xu is too confident in Starbucks. When he finds that there is nothing here, he directly subconsciously judges the faint sensation of the previous one as his own illusion.

For Ye Xuan, it is the confidence of the other side that makes him survive the catastrophe that almost fell....

Hey! ""

Oh la la..."

Oops! ""

嚟卡嚟..."

In the air, the furnace has not stopped for a moment, still waving the 20,000 striated chains outside the ding, and has been wandering around. Whenever it approaches a group of ancient survivors and starry beasts, the ding-like chain of the stars is like a star-shaped chain. It will be entangled in an instant.

Wrapped into the Dingkou, and then crushed through the huge grinding disc in Ding...

There are not too many ancient people and starry beasts in the void. Although all of them are horrific in the immortality of the emperor, the total number is only tens of thousands. deep

The furnace is so large, and it has 20,000 chains of chains, waving at the same time in the void, like a starry sky, unfolding and wrapping, this is only tens of thousands of ancient survivors and starry beasts, how long can it last? Toss...

In fact, from the start of the furnace to the present, only a small half of the time has passed. These tens of thousands of ancient survivors and starry beasts have more than 90% of them, all of which have been taken away, into the mouth of the furnace, and milled. It's crushed. also

After a short period of time, the last 10% of the ancient survivors and the starry beasts also disappeared completely. The virtual air in the deepest part of the forbidden land in front of this mosquito is already empty. and

At this time, Ye Xuan, turned into a tiny drop of blood, at the very edge of this area. This is the reason that he was shocked early, and he was quick to withdraw. Otherwise, he could not reach this distance. when

However, behind Ye Xuan's shackles, there are a large number of ruins and sacred beasts that have been repaired by the emperor, but for them, there is obviously no interest in the furnace, and they have never been taken care of.

Chapter 4539: Mosquito demon and blood

In a short period of half a column of incense, the tens of thousands of emperors and the survivors of the ancients and the starry beasts were completely smashed, and they were all wrapped up in the mouth of the furnace. With

The sound of scalp and squeaking squeaking and squeaking turned into the flesh and blood of the huge grinding disc. before

Fang, the vast void of the entire tens of billions of miles, completely empty. Virtual

In the air, except for the furnace, there are only three people and one beast, as well as Xingbo and Hongtian Tiandao. leaf

Xuan is still in the outermost part of this tens of billions of miles, still unable to move, but at this moment, his heart has once again hung in the eyes of the blind. because

For him, he didn't know what was going to happen next, but he could guess that it was definitely not a trivial matter, not a good thing. And

As long as Xingbo and Hongtian Tiandao are still here, the possibility of Ye Xuan being discovered still exists, and it is possible to become a reality at any time...

"Well? There are still people... dare to peep in the dark?"

At this time, just as Ye Xuan's heart was in doubt, the sound of scorn was suddenly heard in Xingbo's mouth, and he turned to look at the end of the empty space at the far right. This

For a moment, the blue sky and the blue eyes, and the three beasts standing in the empty space below, all turned to look in the same direction.

Ye Xuan is naturally the same. very

Fast, hundreds of billions of miles in the right direction, there are two shackles in the void, and the two figures appear quietly, quite wolf. It is obvious that Xingbo has exerted some means to force them to appear.

This is the distance of hundreds of billions of miles. It is still discovered by Xingbo, which shows his power and horror. This

It is also a sneak peek at Ye Xuan, who is only about a billion miles away from him.

Fortunately, the headless baby is more powerful. Otherwise, without his means, Ye Xuan was the first to be discovered, and the two guys outside the tens of billions of vacancies in the distance were directly shackled. Out.

What is the end of the session, it is unpredictable. complete

In fact, Ye Xuan's body is not only created by Xingbo, but also has a devouring system whose purpose is still unknown. He has deep involvement and origins with the furnace and the blue sky. But in short, one thing is certain. That is definitely not a good thing to end!

When these thoughts flashed in their minds, hundreds of billions of miles away from the virtual void on the right side, the two bodies that were forced to emerge from the void were finally visible. when

When I saw who these two men were, even Ye Xuan took a sigh of relief and almost did not rush straight out...

One of the two is clearly bloody. For a few years, the **** cultivation has also improved a lot. Now it is already immortal. After leaving, Ye Xuan gave him a lot of Cultivation of resources, including top-level flesh and blood medicine.

The other person is a man of the old people. Looking at his appearance, he is similar to the 90% of the mosquitoes and the old ghosts, and the repairs that are scattered in the body are also very powerful, and they have reached the age of the ancients!

At this moment, Ye Xuan suddenly flashed an aura in his mind, and he instantly knew the identity of the old man of the Terran... No doubt, this guy is the deity of the mosquito and the old ghost!

It disappeared into the endless years, and even sealed its memory, that is, the memory of the mosquitoes and old ghosts. I did not expect that he also came to this place. Do not

Before, the news that Ye Xuan got from the mosquitoes and old ghosts was that his deity should be looking for the father who left his blood, that is, the group of mysterious mother stars.

But now it seems that he has already arrived here, but he has been crouching thousands of miles away, and has not appeared. If

If there is no accident, the deity of the mosquito-killing old ghost should also see some hidden secrets. In my heart, there is doubt. Therefore, although he found his father, he did not choose to show up.

At the beginning, the followers around Xingbo were a total of three people and two beasts. eye

Next, in addition to the sorcerer's konjac did not show up, I do not know where to go, the other three people and one beast, just in front of the sky. This

Among them, the ancient murderous mosquito, in the three major stars of the world, left a fierce and mosquito family, the deity of the mad mosquito king is his son, but now he has entered a source nest star, will be here After the opening of a new era of Hongmeng, it was born as a chaotic demon god.

As for bloody, it is the grandson of this ancient mosquito! another

Among the three outsiders, two of them left blood in the main star planes of the world. One

People left the devil family, the generation of the devil, is the son. another

The other person left the deity of the mosquito, which is the old guy who is now being thrown out... and

The one who left the Mosquito deity should be the strongest of the three, and has reached the same level as the ancient murderous mosquitoes.

Because when the figure of the mosquito-killing deity is taken out from the imaginary sky hundreds of billions of miles away from the right side, among the three, only the old man of the ancient and noble place, The change in face looks the most. when

However, the other two people also stayed on the face, including the ridiculous mosquitoes, the body's breath is also a stagnation, apparently also induced the **** veins of his blood. Correct

All of this, even Starbucks, seems to be quite surprised. After the flash of the stunned man, he grinned: "It's a bit of a skill, actually chasing it here..."

At this point, the words in Xingbo's mouth were still stagnation, and the face still smiled, and turned to look at the three beasts.

Then he said: "In the beginning, three of you were in the three major star planes of the world, leaving blood, and I did not expect that two of them found it here..."

"Where, there is still one person who has cultivated into the wild and powerful environment. I really don't know how he did it. It's good, it's really good..."

"As for the other, the mosquito, you have a good grandson, although because of the age, the strength is weak, only the emperor is immortal, but the foundation is good, actually has the blood to return to the ancestors, has and you The same wild mosquitoes and bloodlines..."

This is really a good news. As a result, the problems between the two of you have finally been solved perfectly. The old man is still thinking about it. If you are not worried, there will be only two of them..."

As said, Xingbo turned to the other two middle-aged men who were only able to cultivate their strengths.

"call out!"

call out! ”

The faint sound of breaking the air rang out, and when these words were heard in the Xingbo mouth, they did not see any of them who had any movements, but the right side of the thousands of miles away from the sky, just pulled out of the two sly Bloody and mosquito-stricken deities are like being pulled by an invisible force. Chemical

For the two volleys, the speed is almost at the extreme, and the blink of an eye has reached the front of the void, in the empty position between Ye Xuan and Xingbo, suddenly stopped!

The sight was swept over and the body couldn't move, the mouth couldn't be said, and all the faces were full of sorrowful blood and mosquitoes, and Xingbo quickly turned to see the green eyes of the wilderness, not far from the side, and then drooped. First glanced at the three beasts.

Said faintly: "Time is up, let's get started..."

Chapter 4540: Horrible self-destruct

The words of Xingbo have just fallen, and the three beasts have seen the **** and mosquitoes at the same time...

The light is complicated, especially the old man who has the ruthlessness of the ancients, as well as the ridiculous mosquitoes. In the blink of the eye, there seems to be a feeling of struggle and hesitation.

"Is it... you haven't thought about it yet?"

At this point, Xingbo had turned and walked deeper toward the rear of the murderous forbidden land, but like the eyes behind his head, he saw everything behind him, and the voice of Morin's words came again.

This time, in the vagueness, it has been able to capture a stern feeling.

After this sentence is finished, Xingbo has already reached the deepest point of the forbidden mosquito in front of him. He seems to be gentle in his steps, but the speed is very fast. It's just so dazzling, it's already nearly 100 billion miles away...

The murderous mosquitoes banned the deepest part of the area, sitting down on the knees, turning again, the light and cold, falling on the three beasts. "

call out! "

The blue eyes of the Hongtian Tiandao also shook a little. In the blink of an eye, they reached the deepest point of the banned mosquitoes in the vicinity of hundreds of billions of miles. They stood in the void and left and right with Xingbo, but there was no such thing. Moving, as if waiting for something...

lock

The sound of the chain came, and the furnace was still suspended in the center of the void outside the tens of billions of miles ahead, but the sound of the grinding disc and the cracking of the skeleton of the skeleton had stopped. Milli

Undoubtedly, the tens of thousands of emperors and the survivors of the ancients and the starry beasts should have been crushed and smashed.

At this moment, the smoldering furnace stood quietly, and the 20,000-way striated chains outside the tripod stretched with the wind, slowly dancing, giving the impression that it seemed to be waiting for nothing. This

For a moment, it seems that everyone's gaze, tangible and invisible, all gathered toward the past three people and one beast outside the center of the void.

Even Ye Xuan is the same, his heart is skeptical, his heartstrings are tight, his mind is spinning fast, guessing what will happen next...

At the time, the three beasts were looking at each other, eye contact, and eventually, it seemed that they made some kind of decision and nodded. Connect

Everything that happened down, so that Ye Xuan was caught off guard, the whole person was shocked for a moment, thunder...

"boom!"

boom! "

boom! "

Three earth-shattering bangs came, and three of the three beasts actually exploded at this moment. not

When Ye Xuan reacted, the body of the three men was completely blasted, turning into a canopy of blood, and in the void outside the tens of billions of miles ahead, it spread out...

This is two ancient powers and a desperate ancient lord, and at the same time blew themselves up, and its destruction power can be imagined, even if it is a emptiness, it is necessary to be blown out of a huge black hole celestial body...

However, such a scene did not appear.

In the core area of the three-person self-destruction, although the void was smashed by the horrible energy of the horror, it did not directly collapse and form a black hole.

This is obviously the result of the control of the power of self-destruction.

Ye Xuan is stupid, and even the body shape is bound, the mouth can not speak, the blood can not move and the mosquitoes demon, no exception, all stupid. he

They are recovering here, and their minds have raised doubts. Although they suspect that there is a terrible conspiracy in the follow-up of Xingbo and its side, what is specific is simply impossible to determine. can

Right now, I thought that the answer to all of this would be revealed immediately, but there was such a scene in front of me.

Self-explosive, the three of the three beasts actually blew themselves!

What the **** is going on?

At this moment, Ye Xuan's mind floated these thoughts, but the whole heart immediately sank to the valley. He had a strong intuition, a real conspiracy, and soon the truth was revealed. and

The implementation of this conspiracy requires two ancient powers and a desperate self-sacrifice to sacrifice self, and the self-explosion can be completed, which shows its amazing degree...

It's a bad day! "

call out! "

"call out!"

call out! "also

It was at this time that when Ye Xuan was shocked by the scenes of the scene, the whole brain was banging, and when it was completely chaotic, the front of the three tents spread and the blood was suddenly, but suddenly There was a faint sound of breaking.

Three figures, rushed out of it, spurt away, to the right side of the virtual tens of billions of miles, only to stop, turned and looked at the old mosquitoes still left in place. This

Three figures, the three guys who just blew themselves.

Two ancient powers, one ancient and supreme.

They did not fall down on this, the soul was preserved, just blew, just the flesh.

At this moment, the three of them stood side by side, and it seemed to be completely different from the previous one. It was like a sinister scene that did not happen at all. only

The difference is that the former, blood and flesh, is a complete flesh and blood life, but now, it has become an energy form, only the soul is left, the flesh is gone. This

Directly led to their weakened breath, and even have fallen into a big realm.

The two ancient powers are now the supreme of the universe.

The other ancient sage is the power of the ancients. when

However, if we find the most suitable body, their cultivation is strength, and after forging the new body, they will soon be able to recover again...

These thoughts flashed through the sea, and Ye Xuan's conditional reflexes turned to the blood and the mosquitoes to see the past.

At this moment, he suddenly understood something.

If there is no accident, the reason why the **** and mosquito-stricken deity of the devil is left here is that it will become the target of the old man and the savage mosquito. he

They originally had blood relationship, **** and even **** ancestors, and they had the same pure physique as the ancient murderous mosquitoes. They have the body of the old man and the savage mosquitoes, and they will be able to make their own cultivation. , recover at the fastest speed...

Just as this thought flashed through his mind and made Ye Xuan extremely shocked, the virtual air in front of him immediately changed.

"Hey..." Jude

The wilderness mosquitoes who remained in place suddenly suddenly had a terrifying noise in their hair.

Accompanied by this screaming sound, the three awnings that are spreading in the void in front of him are instantly attracted by an invisible force, rushing, fast, blinking. They all got into the huge mouthparts of the ancient mosquitoes and were swallowed up by him.

After doing all this, the savage mosquitoes turned their heads and looked at them as if they were already dumbfounded, but they seemed to have guessed what they were, and their blood color changed.

Once again, I screamed at the hair, and the huge **** flesh of the body suddenly exploded.

"boom!"

The earth-shattering blast came, and the flesh of the ancient murderous mosquitoes was no longer visible, turning into a more sturdy **** fog, and spread it out...
