

## Super D. S 456

### Chapter 456: Nine secluded land changes

After all, the young man's hand was a wave, and then the black beads in his hand were bright, and a grievance came out.

This grievance is a middle-aged man with a normal face, but his eyes are red, his body is translucent, his fingers are long and sharp, and he doesn't know what the realm is.

"on."

With the low-sounding drink of the youth, this grievance is like a tiger rushing toward Ye Xuan.

"Fast speed!"

Ye Xuan's flash of light flashes directly to the Beastmaster's violent.

The strength of the seven hundred and sixty dragons, the surge to 990 dragons, almost reached the peak of the Royal Order.

"Oh? It's a bit of a skill."

The youth is a bit strange. The grievance that he released is only to test the strength of Ye Xuan. It is only the power of eight hundred dragons.

Wraiths are different from before, they are all weak, and as long as the damage is reached to a certain extent, they will die, but it is more effective to split them in half, then they can be eliminated.

Although Ye Xuan's instinct is only seven hundred and sixty dragons, he still has an eight-year-old sword and a yellow sword in his hand. He kills a grievance that only attacks with his nails.

But after Ye Xuan killed this grievance, there were two grievances released by the youth. This time, it was the resentment of the refining class.

"Hey, if you die, you have to go to reincarnation and come out to scare people?"

Ye Xuan did not take it for granted. In an instant, the speed of the young people's heart was erupted, and the two resentful first-order grievances were also killed.

"It seems that I have kicked the iron plate, and I have destroyed my two resurgence first-order grievances. I must slap your skin and cramps."

In the heart of the youth, he said, raising the black beads in his hand. In the meantime, there are a lot of grievances around him. There are hundreds of them. Among them, there are four refineries. Wraith.

"Hey, this kind of thing, how can you get me?"

Ye Xuan was cold and screaming, killing the past and commanding Megatron to attack the youth.

To be honest, Ye Xuan hates the grievances, because there is no benefit in killing the grievances.

A thief, you still have to smash the king.

Rush!

Ye Xuan instantly rushed to the speed and rushed toward the youth with Megatron.

"not good!"

The youth's face changed, Ye Xuan's strength exceeded his expectations, and the ghost's land, his strength can not catch up with the nine quiet land and buried bones, if it is close, then he will die.

"Hey, just because of you, I want to kill me?"

The young man was cold and stunned, and he released a grievance from the hundred soul beads. This is what his master gave him. It is the second order of refining, but his realm can only be manipulated, and it is somewhat difficult.

"The second step of refining, what about it?" Ye Xuan's glory, Jianguang, like a gust of wind, emptied the surrounding grievances.

The second-order resentment of refining, although the attack power is amazing, but the speed is still not comparable to Ye Xuan.

"dead!"

Ye Xuan directly crossed the second-order resentment of this refining gas and plundered the youth.

The young man just wanted to retreat, but he was caught by a huge claw, and was immediately smashed by Ye Xuan.

Although the people of the Ghostlands are powerful, they are generally collectively acting, killing each other with grievances.

However, in order to master the grievances, the people of the Ghosts have some neglected their own strength. If the grievances can't help the enemy, they are close to the enemy, unless the level can suppress the enemy, otherwise it is extremely easy to fall.

This young man, apparently is a special control of ghosts, but unexpectedly met Ye Xuan, who was eating at a speed, and was easily strangled.

When the youth died, these grievances were released from control. However, after Ye Xuan got the hundred ghost beads, they quieted down again, including the second-order resentment of the refining gas.

"Controlling the grievances really requires a lot of mental energy, and all come in."

Ye Xuan thought about it.

When he got the youth ring, he learned the secret of the ghost of Wan Gui Zong and learned to control the grievances. However, he could only control it for a short time.

In less than two seconds, the surrounding grievances were collected by the hundred ghosts.

At this point, Ye Xuan felt that his head had some pain, which was a sequela of mental energy consumption. After all, he had just been in contact with the ghosts, and he had not cultivated mental power before.

Then he began to check the things in this young man's ring.

"Hey, the host has broken through the power of eight hundred dragons!"

It is also a qualitative leap, and the seven hundred and sixty dragons directly reached the eight hundred dragons and reached the eighth order of the royal gas.

Ye Xuan has not had time to be excited, that is, found a thing in the Qiankun ring, is a list.

And on this list are the sects or cities in this area, and even the families outside.

"This is a planned cleanup. Is it going to turn this area into a wasteland..."

Ye Xuan threw things into the phagocytic system. He didn't pay much attention to it. Anyway, this matter has nothing to do with him. However, he still feels that it is better to inform him of the poisonous door. After all, Baidumen was once a springboard for him to become stronger.

However, when Ye Xuan arrived at the Baidu Gate on the Tianlong bone, he found that there was just a figure, sneering over the Baidu door.

And in the door of the poison, there is a mourning.

I'm late!

No, it's not too late!

"Feng Yaqing?" Ye Xuan Shuguang a condensed, found that the poisonous princess Feng Yaqing is fighting a grievance.

Not far away, Feng Shan is also fighting a grievance.

There are still such low grievances. It seems that the people who killed the venomous door are not very strong.

"Hahaha, desperate, I like to look at the expression of desperation, the woman, yes, that woman, I want to see her desperate expression..."

The man in the air is laughing out loud.

But what he didn't know was that there was already a figure plundering him.

"Oh!"

A head flew up, this person was instantly killed by Ye Xuan, Ye Xuan did not know his realm, it is estimated that it will not exceed the eighth order.

The man was killed and the grievances underneath were paused and continued to attack.

Now they are out of control.

"Go, grievances."

Ye Xuan took out the hundred ghost beads and put some grievances out. His grievances are quite high, as long as a few are enough.

"what?"

Feng Shan was a little surprised, watching the grievances kill the grievances. In less than a moment, the grievances that attacked the venomous door were killed and then dissipated.

Then, the air was lowered again.

"It's you?"

Feng Shan and Feng Yaqing recognized Ye Xuanlai.

"Are you all right?" Ye Xuan stood in the air and asked.

"Little brother, you saved our life."

Feng Shan is grateful to zero, and there is an impulse to push the poisonous princess to Ye Xuan.
