Chapter 4561: Overturning in the gutter

fuss? labor

Teacher movement? This

The words are so headless and revealing strangeness, but in an instant, but let Ye Xuan be alert..."

boom! "huge

The sound came, and with Ye Xuan's heart, the fifth-order magic antelope, he just hurriedly avoided, although not on the chest, but the small half of the left shoulder was severely hit, turned into a canopy Blood fog.

At the same time, Ye Xuan also avoided the one-shot hit of the fourth-order magic antelope blood corner behind him, and his body shape directly flew over a hundred miles.

This can only be regarded as a minor injury. When Ye Xuan's figure was stabilized, he had just been bombarded with a small half shoulder and he had fully recovered.

For all of this, Ye Xuan did not pay attention to it. The violent chilling flashes, the sight sweeps through the two blood horns, and the voice of God knows: "You are acting? Deliberately delaying time? Here... Clearly a trap!"

"Hey..."

Is it inadvertently saying that it is leaking, how is it known to you? A few great powers will soon arrive..."

I am so violent, today, you can't escape! ""

boom! ""

Rumble..."

In the laughter, the two blood-horned demon confessed on the spot, and then they stopped talking, and their postures shook, and left and right again came to Ye Xuan to kill..."

Who said that the star mainly escaped? Since you are asking for a quick death, the Lord of the Stars... as you wish! "

In the middle of the cold, the awning flashed, and the sound of the violent sigh was still rising, and it suddenly waved. "

call out! "

"Hey..."

A faint sound of broken air rang, and a tiny awning that was as tiny as a worm was spurred away. welcome

When the storm rises, the blink of an eye has turned into a gorgeous nine-color flame sea, covering the universe of the universe, and its speed is almost to the extreme.

In the blink of an eye, it has reached the front of the fifth-ordered magic antelope in front of the left side. At the same time, it slammed into the road and intercepted it. It also wraps around in all directions... It's only half-baked, it has been trapped in nine Within the flames of the sea. a few

At the same instant, the huge body shape that violently smashed thousands of miles also collapsed directly in place.

In order to be a sinister **** sea, it seems that the speed is generally gone, and the speed is also approaching the extreme. blink

The eye has already reached the front of the front of the fourth-order demon stern, and in a flash, the blood color is tempered by the storm, and instantly turned into a **** sea, and the four-ordered magic antelope is sealed in all directions.

"Roar!"

"Oh..."

There is any suspense, and the sound of the roaring sound is ringing. This

In the **** sea of the emptiness of thousands of miles away, three huge figures are set! each

One side, in the shape of a character, surrounds the fourth-ordered demon. With

After the sound of roaring has not yet fallen, the three **** seas that have just landed on the ground have already punched at the same time and bombarded the center of the siege.

"boom!"

The earth-shattering roar sounded, and the fourth-order magic antelope was an enemy three, and it was still able to compete with the three major bloods of the sixth-order supreme. he

There is hardly any resistance to the half, and there is not even a chance to mourn. The huge flesh has already been combined with this, and it has spread into a breath of blood. "

Roar....."

At the same time, in the void in the distance of hundreds of millions of miles away from the left side, the second loud noise came from this moment... This is the sudden surprise of the fifth-order magic antelope. Under the horror of the sky! "

Don't worry, it's your turn right away..."

The sound of the gods of Ye Xuan came out. At the same time, the three bloods and seas collapsed at the same time, turning into blood rain, and blending into the **** sea under the feet. "

Oh la la..."

"call out!"

call out! "micro

Weak water splashes and broken sounds, the **** sea under the feet quickly contracted, and the blink of an eye turned into a weak blood awn, spurting out, immersed in the nine-color flame sea that trapped the fifth-ordered magical eagle. in.

"Booming..."

At the same time, among the nine colorful flame seas, the three **** seas swayed at the same time, and the middle of the swaying swayed the cold, and punched the fist toward the fifth-order magic antelope at the center.

The whole piece of the endless nine-color flame sea was also inspired by the full power at this moment, with an irresistible horror power, shrinking and rolling toward the center..."

boom! "

"boom....."

In the face of the crushing power of the nine-color flame sea, and the joint attack of the blood sea and the sea with the sixth-order supreme horror repair, this fifth-order magic antelope is simply impossible to resist. blink

Between the eyes, the physical body has been in the power of the horror of the nine-color flame sea, was smashed hard, turned into a screaming **** fog, and it fell..."

call out!"

With a sigh of relief, the other two **** seas collapsed, and the nine-color flame sea that blended into the foot disappeared, but the violent, but waved at this moment, the eye will spread the **** sea that has just spread and spread. All of them swept through.

After being in the body, I immediately sent it to Shennong Ding and started blood purification!

After doing all this, between Ye Xuan's thoughts, the flames contracted and turned into a glimpse of the size of a worm-like cockroach. to

Therefore, the two mid-term supreme magic antelopes in this high-level forbidden land were all killed by him within a short period of time. Thus, the supreme blood of Ye Xuan's hands also reached a shocking nine. Big one!

But his heart, but not much joy.

Although after experiencing the thrilling battle of talents, the income of the last breakthrough has been fully digested and integrated into itself, and the opportunity for breakthrough again has arrived.

But in this battle, Ye Xuan's expectations would have been more intense and more incisive. How

Suddenly there was a change in the middle of the road, forcing him to suddenly kill the killer, killing the two blood horns with the fastest speed. Such as

Therefore, it really gives him a feeling that he has never had a good time. He feels that there is a kind of stagnation in the chest, and he does not spit.

But now the situation is so, and then I can't help but leave. The two blood-horned demons can't make such a joke. If there are no accidents, I don't know which of the ancient powers existed in the Xingqiang forbidden land. Is coming very fast towards this side. where

I am afraid that just one rush will arrive. At that time, Ye Xuan will want to leave again, and it will become extremely difficult...

With this in mind, he did not hesitate to contact the body's phagocytic system for the first time. He wanted to activate the interstellar coordinate jumping ability and left. also

It was at this time that an inexplicable invisible pressure suddenly came out of nowhere, and when the tenth of the time was not enough, the vast void of this advanced and powerful forbidden land was completely shrouded. leaf

Xuan's face suddenly changed, which is clearly the rhythm of a certain ancient power. In the face of this level of existence, he is no longer able to successfully activate the interstellar coordinate jumping ability, and immediately left.

This time, I actually turned over in the real gully...

These thoughts flashed through my mind. Ye Xuan's face changed slightly, and the blood and sea secrets were applied in an instant. The figure was reduced to only the height of the temper, and at the same time, even if the Shennong Ding was sacrificed...

Chapter 4562: Four powers come

Just as Ye Xuan wants to activate the interstellar coordinate jumping ability attached to the internal system, and at the moment of leaving...

The invisible pressure of the inexplicable stock suddenly came out of nowhere, and when the tenth of the time was not enough, the vast void of this high-level and strong forbidden land was completely shrouded. This

It is clearly a rhythm of the ancient power that has come to this place. The pressure in the body has been pushed to the extreme, and it has locked this void.

After all, it is an ancient power, an extraordinary means, and a magical secret method and means that are difficult to predict. Under this pressure, even the interstellar coordinate jumping ability attached to the leaf phagocytic system of Ye Xuan is not easy to leave. went.

When these thoughts flashed in my mind, Ye Xuan suddenly changed color and did not hesitate. He immediately applied the secret method of blood and sea, narrowed his body shape to only the height of his hand, and waved his hand, even if he would sacrifice Shennong Ding..."

call out! "micro

The weak sound of the air broke out, and a glare rushed away, and the wind rose, and it instantly turned into a treasure that was bigger than the stars.

Without hesitation, with the Shennong Ding sacrifice, Ye Xuan walked away from the first time. Under the sway, he went to the Shennong Ding Ding mouth with a colorful mist and sat down on his knees. to

Therefore, he hung in the eyes of the blind man, and finally fell back, but only half put down. because

In spite of the existence of Shennong Ding, let alone the power of the ancients, it is the arrival of the ancient sacred, it is impossible to hurt Ye Xuan, only the sorrow of the heavens, or the existence of the singularity of the star, he has no bottom. but

It is also limited to this. Others can't hurt him, but in the case of surrounded by the ancient powers, it is impossible for Ye Xuan to get out smoothly. except

Non-headless baby corpse shot, but for this matter, Ye Xuan does not dare to expect too high, that guy, have to react when Ye Xuan faces the crisis of life and death.

Just like this, it's just being trapped, but it can ensure that it's safe and sound, and no more than 90% of the headless baby will ignore it..."

boom! ""

Rumble..."...

...also

At this time, in the emptiness of the surrounding area, a thunderous thunder came and came, accompanied by a crisp and fierce sound. This is a powerful existence, tearing the void. leaf

Xuanyuan Zhong Han Mang flashed, even when turned to the direction of the moving direction, follow the sound. and

The look on his face was so gloomy as it was...

The powerful existence that is coming in this way of tearing the void is far more than one, but a whole twelve!

Four of them are ancient and powerful, and the eight universes are supreme, but their physiques are all shrouded in a layer of brilliance. They simply cannot see what kind of starry beasts are, and even they are not sure whether they are starry beasts or survivors. Stronger...more

What makes his heart feel bad is that the existence of these twelve coming, the cultivation of strength, are all above Ye Xuan.

There are no need to say more about the four ancient powers. In the early days of the two powers, the two mid-term powers are not the enemy of Ye Xuan.

Even the eight universe supreme, if one-on-one, Ye Xuan is not an opponent. This

The eight universe supremes are all in the late stage of this territory. The weakest are the seven-order refinement of the universe. The strongest is the supreme peak of the universe's supreme ninth order, that is, the quasi-wild power! It

Before, Ye Xuan also dismissed the words of the two blood-horned antelopes, but now, after seeing the existence of these twelve tears, the even existence of the emptiness of the void, even in his mind, Feel...only

Just to deal with myself, these guys' battles today are indeed a bit of a fuss, and they are suspected of mobilizing the crowd... This luxury lineup is halfway up, and Ye Xuan does not know how to get away today. Now

In the first place, it is twelve, and his heart is even more confused. It can be said that if the headless baby is not shot, he has almost no chance to escape.

Even if you hide in Shennong Ding, it may not be absolutely safe.

This is the four ancient powers. Who knows if there is any special means in their hands? "

call out! "

"Hey..." this

Engraved, as the thunder of the emptiness disappeared in the void, the faint sound of the sound broke out, and the twelve powerful existences finally came to this place. on

At the same time, the void cracks in the surrounding sky quickly merged and collapsed. At the same time, the twelve masons spurt out. In the blink of an eye, they have turned into a circle of twelve canopy, and the light of different colors is in the 500 million miles of Shennong Ding. Outside, surrounded by. its

Among them, the four awnings scatter the most powerful light group of the ancient and powerful atmosphere, just to divide the southeast and northwest, and the other eight canopy exudes the late supreme pressure of the light group, then two or two groups, interspersed in two large Can be between light groups.

The twelve light missions are like the twelve five-point scales of the clock. On the fourth Friday, the Shennong Ding regiment is surrounded by the middle. This

It is definitely a rhythm that can't escape.

With the advent, after a brief silence, within the twelve light corps, there will be a voice of God in an instant, and it will be transmitted one after another..."

Shennong Ding! Actually it is Shennong Ding! This is the ridiculous treasure of the age of the era of the floods. I did not expect that it actually fell into the hands of this violent, and he actually refining the gods and peasants in Ding to the extent of the nine-colored flames..."

"It seems that he must have mastered some unique secret method of rapid improvement and cultivation. This violent, at first, only killed the immortal, and then rose to the cosmic sage, followed by It is the Lord of the Universe, and now, they are all hunting the Supreme of the Universe..."

This shows that the secret law mastered by him is extremely powerful. I am waiting for today, anyway, I have to glimpse it! ""

It's no wonder that this violent temper is so big. It has always been hunting in the strong forbidden land on the right bank of the Milky Way, but it has never been cleaned up. There is Shennongding's protection, it's me, I'm afraid it's hard to get it. He is..."

"Why can't you stop? The Shennong nine-color Shenyan in Ding, not to mention the ancient powers, is that the ancient Supreme is not afraid to be easily contaminated. If this child sacrifices a flame, I can only avoid the front." "

"However, if that is the case, he still can't escape, and I will be followed by me, and even if I sacrificed the nine-color flame sea, I will repair it for us..."

But this does not seem to be good news, because this violent temper can not hurt me, and there is no chance to escape, but I wait, it seems that he can not do the same, at least for now, it seems that this is indeed the case! ""

It's not good for him to drag on for a long time, but it's not good for me. It seems that this matter has to be considered separately..."

Is it necessary to negotiate with this violent? However, it was a certain secret method that achieved the violent temperament of the main star of the universe. He has this qualification to negotiate with me for the late Supreme and the existence of the ancient power level..."

Chapter 4563: The fifth stage of the universe

As the voice of the gods came out, the twelve light gangs that surrounded the surrounding area suddenly fell into silence again, and no movement came out. If

If there are no accidents, they should be secretly communicating and discussing the countermeasures in front of this scene.

And only by virtue of the words of the right, Ye Xuan has been able to determine that they seem to have no way to deal with themselves. Such as

This, how much makes his mind fixed.

After a little sinking, he decided not to pay attention to this. Anyway, there is no way to worry about it anymore. It would be better to stimulate these guys...

The best way to stimulate them is naturally to break through in the presence of these twelve powerful beings. first

At the time of the battle with the two blood-horned antelopes, Ye Xuan's last breakthrough was basically digested and integrated into his own flesh and blood. Such as

Therefore, the opportunity to break through again has already arrived! although

However, it is only a small-scale breakthrough. For the predicament, there is almost no meaning. However, at present, Ye Xuan has to prepare for a long-term response. If

If he can't always find a chance to escape, his only way is to break through his own strength into the universe. because

In this way, in the state of activating the konjac blood vessels in the body, and turning the blood vessels of the konjac into the ninth state, Ye Xuan can at least have the second-order power of the ancient power. Session

When you do not, you may not find the opportunity to escape. and

Now, his own true cultivation is only the fourth-order of the universe, and he is engulfing a twenty-seventh-level Baodan who has helped to break through the universe to the highest position. There are five small steps that need to be broken. no

On how to break the first order and calculate the first order, it's better to suddenly hold the Buddha's foot suddenly.

With these thoughts flashing in my mind, Ye Xuan's fine mans and sorrows, and then hesitated, even when the field of Shennong Ding was launched, the power of the hidden atmosphere was started...

After that, although his figure did not move, he directly broke away from the state of the ninth change. As a result, his cultivation was reduced to the fifth stage of the universe.

However, due to the fact that Shennong Ding's domain field power can cover up, the powerful existence of the twelve canopy in the distance from Ding's outer space is completely undetectable..."

Oh..."

After everything was ready, with the faint sound of breaking, a rush of anger was made.

Hanging in front of Ye Xuan, he is the cultivation resource that he took out from the immortal world. After doing all this, he immediately mobilized Shennong Ding's domain power, and compressed all the cultivation resources to only the size of the baby fist. I swallowed my belly with a wave of hand. "

Oh la la..."

The entrance of the baby boxing ball became a powerful energy river. and

Under the stimulation of this energy-giving river, it was almost in the next moment. The sound of the chain squeaking unexpectedly came over and over, and Ye Xuan's body rang...

This time, there is only one chain of shackles that appears in Ye Xuan's body.

This is already a long-awaited thing. In the middle of the universe, as the two consecutive breaks that have occurred frequently, three breaks, it is basically impossible to have it again. Ye Xuan is psychologically prepared.

With the appearance of the chain, Ye Xuan is convinced that he is motivated to mobilize the energy that has just been formed in the body, and to carry out a big Sunday operation in the whole body and save the power! a few

In the next moment, the pain of the heart soon came, and Ye Xuan's entire body and mind were shrouded. but

He did not pay attention to it, still no sadness and no joy, concentrating on concentration. Time

In the process, Ye Xuan poured all his mind, and he was always working on the big Sunday. After seven days, the energy that he formed in his body was finally refining.

Then, just a shock, this sturdy chain of shackles has broken.

When the shackle chain completely broke, the expected system sounds, and soon in the mind of Ye Xuan...

"Hey, congratulations to the host, the breakthrough of the ancient realm of the hole! The current realm: the fifth order of the universe!"

"Hey, congratulations to the host, the breakthrough of the flesh and blood! The current realm: the fifth of the universe!"

The main fifth order!

The distance from the ninth order of the ninth order of the sacred masters of the 27th Supreme Baodan is only a matter of four small steps...

Previously, the cultivation of Ye Xuan's deity was the fourth order of the master of the universe, and the power of the blood of the ancient konjac was activated, and it was able to climb to the fifth stage of the lord.

If the magical scorpion is changed again and the ninth change is reached, the combat power will immediately rise to the fifth level of the universe.

If it is coupled with the blood and blood of the flesh, its true combat power is more than the sixth-order supreme.

This time, when the breakthrough is reached, he will have the sixth-order cultivation of the Lord of the universe as soon as he activates the blood of the konjac in the body.

In the state of the fascinating konjac, and directly into the ninth state of change, its peak power will reach the sixth level of the universe supreme! and also

It is the peak of the mid-term, only one step difference from the late Supreme. can

In fact, if we count the horrible blood power of the huge body of 60 million miles in the ninth state of violent temperament, its true combat power can basically be compared with the late supreme of the seventh-order situation!

If you apply the secret method of blood and sea, and motivate its avatar power, after a moment of condensing three **** seas with the supreme seventh-order combat power, Ye Xuan takes three wars, if it is the late stage of the eighth-order It is possible that he will be killed by him.

As for the supreme perfection of the ninth-order world, that is, the quasi-wild power, in the case of using the strongest magical scorpion, the current Ye Xuan, also has the ability to kill it...

Unfortunately, if faced with the real wild power, today's Ye Xuan, unless he relies on the power of the headless baby corpse, how can he struggle again, and he will definitely not hurt the other party, and it is really helpless! "

Is the fifth master of the universe? In this way, my strongest combat power has reached the seventh order of the universe supreme... and if necessary, it is still the blood of the three battles, and at the same time against any enemy! ""

It is a pity that in the face of the situation, it is still far from enough. If there is a chance to usher in a big battle, it will be a good opportunity to quickly break through again..."

In the middle of the fine mans flash, Ye Xuan whispered a whisper, while once again turning the konjac into a **** supernatural power, directly to the ninth change.

However, its body shape, but under the influence of blood and sea power, has not changed, it is still high.

Therefore, the temperament that is diffused in the body is only the sixth order of the universe, but even so, it is still stronger than the fifth order of the universe before the breakthrough. very

Fast, as he chanted, the domain power of Shennong Ding under his body changed immediately, and the powerful power that was previously activated was directly removed. under

For a moment, with the refinement of Ye Xuan suddenly being sensed again, Baoding's 12-canopy light cluster on the periphery of Yili's four-thousand-thousand-thousand-thousand-thousand-thousand-thousands ...

Chapter 4564: Stalehold

With the fascination of Shennong Dingkou, the scent of Ye Xuan's repairs came again. Within the 12 light groups surrounded by the imaginary sky on the four-week, four thousand miles away, there was a moment of pumping. The sound of coolness and exhalation came one after another..."

what happened? This violent retouching breath..."

"Supreme sixth-order? Is it wrong? It was just a supreme fifth-order..."

"It's only seven days. His cultivation is strength, and he has actually skyrocketed. This is simply unheard of, and it's amazing!"

"It should be a breakthrough. Didn't you see that he had specifically urged Shennong Ding's domain power to cover up the atmosphere? Until seven days later, he suddenly let go again..."

"In the meantime, this violent temper has been closing his eyes and sitting on the Shennong Dingkou mouth with a colorful mist. It is clearly a retreat and a rhythm that impacts the bottleneck of the realm."

"Yes, seven days ago, he also waved out a large amount of cultivation resources, throwing it into his mouth, and it is definitely a breakthrough..."

The exclamation of this road rang, surrounded by the void, and soon fell into silence again. This

Once, the existence of the twelve canopy in the distant sky seems to have been shocked. Although all of them remain silent at the moment, the void is invisible, but it shows an unprecedented repressive atmosphere...

In just seven days, it broke through a small step, which is absolutely unimaginable.

For them, to the current state of cultivation, even if it is only a small step breakthrough, and then fast, it will take decades or even hundreds of years. and

Now, the starry sky is very violent, but it is completed within seven days.

More importantly, his breakthrough speed is not only this time today, although they have not seen this violent before, and it is even more impossible to see his breakthrough in other times.

But there is absolutely no doubt about this point. The powerful existence in the twelve canopy groups is all well known...

Because of this violent, a few years ago, it was only the killing of the emperor, and soon after, the goal of its hunting rose to the universe. Of course

After that, the Lord of the Universe, now, has begun to hunt the universe supreme...

The change of this hunting target is in fact undoubtedly the embodiment of his own cultivation as a change in strength.

In just a few years, it has been cultivated as a strength, and it has reached the sixth stage of the current universe from the immortality of the emperor... So, since this time, he has almost always been like that, just after three, five. Break through once!

And this is undoubtedly fatal to the twelve powerful existences that surround them.

Because if this is the case, this violent repair is a strength, afraid that it will take a long time to catch up with them.

People are now the sixth-order of the Supreme of the Universe. With only four breakthroughs, they can enter the wilderness. again

If you come twice, it is the third-order power! although

It is said that the ancient powers of the past are four, and they are still two early and two mid-term.

Don't forget, this temper is still mastering the secrets of blood and sea, and fully understands the power of the most difficult to understand. Session

At the time, once the application is carried out, people are the ancient powers of the three third-order realms.

Although it is still at a disadvantage, the gap in this strength has been extremely weak. again

In addition, there are Shennong Ding and Shennong nine-color flames in the hands of others...

At that time, even if the eight late Supreme and the four early and middle-aged tyrannical forces joined forces, most of them could not leave others, and it is even possible to degrade several late supremes in the war!

Although all of this is only a false one, it is definitely not a casual statement. It only takes six breakthroughs. People can have this kind of combat power and reverse the current situation in one fell swoop.

The six breakthroughs, for the twelve powerful existences around us, need at least one to two thousand years, but for this violent, it is not the case at all.

Not to mention that he broke through once in seven or eight days, even once a month, this is only six months, that is, half a year.

For half a year, even for this level of existence, even a small retreat is not enough. Occasionally, it's a year or two.

Therefore, they can't ignore all of this. In an instant, these twelve powerful existences have been completely shrouded in a heavy haze. on

Just now, they were also full of enthusiasm, and determined that this time the besieged violent, must be escaping, and finally being left behind, just a matter of time sooner or later.

But it was only a blink of an eye, they realized their innocence and ridiculousness, such sudden changes, the ups and downs in their minds, it was simply maddening...

With this feeling of depression, the existence of these twelve canopy clusters, which were surrounded by the void, was once again in silence.

And Ye Xuan, this time is also a flash of light, sight, from time to time on the 12 canopy light group ... hidden

In the interim, he has already guessed the idea of the guys at the moment.

However, Ye Xuan has a hard time saying that his heart is only known to himself and cannot be said to anyone.

If he breaks through, it is indeed fast, but the key is that after entering the territory of the universe, it is impossible to be as good as before. Even if it is forcibly broken, it is very likely to succeed.

Don't look at him for only seven days to break through the first-order repair, but after the breakthrough, because the income has not been digested, thoroughly integrated into the body and the soul, even if Ye Xuan is now bored, swallowing more cultivation resources, I am afraid it is difficult to break through again in a short time...

That is, you can forcibly break through, and you will only have one or two at most. Then there will be a problem of unstable mood. Not only will the opportunity for subsequent breakthroughs come later, even the own road base will be very likely. Unstable

Therefore, the breakthrough of the six small steps considered by these twelve powerful existences is simply impossible for Ye Xuan, who is in this dilemma at the moment! except

It is only possible that he can quickly digest the breakthrough income before the trip through the war. can

Unfortunately, now in a difficult situation, where does Ye Xuan go to find an opponent?

There are still some creatures in Shennong Ding, but they are all weak and there is no such thing as an ant in front of him. Even if they play against it, it does not make any sense as a sparring.

These thoughts only flashed in my mind, and Ye Xuan was helpless, and suddenly sighed. mouth

In the middle, there is a nightmare-like whispering voice: "If you can keep these guys around Shennong Ding, it's good to have a fight alone..."

As soon as the sound fell, a flash of light flashed through his mind, and the helpless eyes of the original faint light instantly lit up. under

In a flash, Ye Xuan turned to the first, and once again looked at the twelve canopy groups around the outer sky of Ding, the sound of the gods, also instantly spread...

Chapter 4565: Bet war or not

Mindfulness, Ye Xuanzhen also has a fine flash of light, and turned to the Shennong Ding outside the distance of hundreds of millions of miles in the empty air around the 12 awning light group looked over. versus

At the same time, the sound of his sensation also sounded at this moment, deliberately revealing a strong fierce atmosphere, and even more ridiculous to undoubtedly undoubtedly: "Old guys, advise you to let it go early, just because of you, at most Can only trap the star master..."

And this is meaningless. Isn't it just a few ancient powers? The star master can kill you for more than a year..."

Hearing this discourse, the existence of the 12-canopy light group at the same time a Ge Deng, violent at this time, actually took the initiative to provoke, apparently in the heart of the determination, even proud, indeed have confidence.

In fact, this year's time, the other side is clearly conservative in the conservative statement ... according to their speculation, at most half a year, this violent, will have the strength to fear them.

At that time, you will be able to walk out of Shennong Baoding and take a long walk! heart

Under the head of the suspicion, the powerful existence in these twelve canopy groups was once again secretly transmitted and exchanged with each other..."

This violent temper will not suddenly sound for no reason, what is he trying to plot? ""

This is deliberately irritating me, and I have specifically said that time is a year, I want to confuse me and so on..."

"Don't forget the purpose of this violent temper. He has been hunting the universe supreme for a long time. Now I am waiting for the arrival of the twelve people, there are eight universe supreme..."

"Yes, it should be stared at him. Four old people can't help but can't move, but the other eight universes are supreme, but he is very excited. It's a greedy guy. At this time, I still think about it. Hunting the universe supreme..."

Does anyone clearly have this strength? Give him half a year, I can do all this. Now I deliberately provoke and irritate me. It should be just that my heart and I will retreat. When the eight universes are disappointing, it is a pity for him. ""

Damn, this temper is too daring, how should I deal with it? ""

Irritated him..."

"The temperament of the starry sky is the most violent, angering it, and the sooner the better, so the chance of killing it smoothly can be greater!"

Yes, the starry sky is a violent temper. This is the only feasible way, but it should not be too radical. I have to let him see a little hope of successful hunting, but it is not too dangerous..."

"The war! Fight with him, fight one-on-one, this is our only chance!"

... are

Between the engravings, the powerful existence within the twelve canopy groups reached a consensus invisibly. very

Someone was out of the air, but the four ancient powers did not have any words. They were always ridiculed and ridiculed by the other eight universe supremes.

They even laughed at Ye Xuan's face of the violent family. The body must have the blood of the tortoise, and they only dare to scream in the support of Shennong Ding. If they dare to come out, anyone can punch. Explode him...star

Among the empty and fierce beasts, what is the shrinking turtle family?

This kind of discourse is simply the most vicious humiliation, that is, the general starry beasts can't stand it, let alone the starry sky.

"Roar!"

Ye Xuan's heart is ecstatic, but it's not on the surface, but it's like a real temper. Sexual hair...

"Damn guy, isn't it the late supreme? What are you going to do?"

After a roar, the violent squad stood up directly at the Shennong Dingkou, which was carrying the colorful fog. He turned around and snarled: "Even if the star master is only the sixth-order cosmic strength of the universe, Can kill you..."

You wait, change to the sun alone, the star master must let you know why the flowers are so red, see one kill one, see two abuse a pair! "

Upon hearing this, the powerful existence of the twelve canopy groups is known to have a play, and the four ancients can immediately secretly spread the sound, so that another eight universe supremes can add a fire, and this must be violent. Enraged, make a fight! "

Hahaha..."

"Is it really shameless to change the day? It's better to say than to sing. Isn't it really scary?"

I am waiting here today, I really want to have that skill, come out and fight? "

"Don't dare to come out, you are a tortoise!"

It's OK to come out, but you guys..."

At this point, the sudden violent words in the violent words, the anger of the face is a little slow, seems to have restored some rationality: "But you have more people, surrounded by the surrounding, the star is out, isn't it dangerous?"

"Don't tell the Lord of the Stars, you dare to enter the inner space of Shennong Ding, where there is a battle with the Lord of the Stars... If this is the case, then the battle will be over, and the Lord of the Stars will surely abuse you to doubt the life!"

"If you dare to fight, you will have a fair battle. Although you have a secret of blood and sea, I am not a vegetarian. I will teach you how to write the four words of the tortoise turtle..."

"Roar!"

"No more to say the tortoise, the star is starry and violent..."

The other side repeatedly and again, with the tortoise turtles screaming, the starry sky violently finally completely angered, and snarled: "The war is fighting, but it must be one-on-one fair, the star is the heart Oath, never use the blood power of the secret law of the sea..."

But you must also make a vow, in addition to the people who are fighting, the rest of the people, etc., either bright or dark can not intervene, otherwise, repair the pace, no more instinct! ”

"Including the four ancient powers, even if you don't participate in the war, you must pledge all the words. After all, you are a group..."

Listening to Ye Xuan finally got hooked, the powerful presence in the twelve canopy light group, Qi Qi sighed with relief, and his heart was more happy to float.

Their original purpose was just to provoke anger and let him promise a war. I didn't expect this guy's temperament to be so violent to this extent, he made an oath, saying that he would never use the blood and sea secrets.Such as

Therefore, it is impossible for him to condense three **** seas that all have the sixth-order power of the universe. This

In the same way, the other eight universes are supreme, and they just pick and go out to fight with them, and the chances of making them a battle are more than 60%...

After all, these eight universe supremes can all be in the late stage of this situation.

The weakest one is also the seventh-order supreme!

One thought of this, they do not hesitate, it seems that the fear of violent temper is calmed down, and after restoring calmness, they immediately change their mouths. In a moment, they all speak out, with the heart and cultivation, according to the requirements of Ye Xuan Shicai, The league made a vow. One

After the completion of the cut, among the twelve awnings, there was a awning that spurred 300 million miles to the front, and only a hundred thousand miles away from Shennong Ding. and

The other eleven awnings have all retreated 500 million miles, and now it is a billion miles away from Shennong Ding.

But of course, their formation has not changed, preventing the violent machine from escaping...

Chapter 4566: Are drama

"call out!"

The faint sound of the air broke out, and as the other eleven awnings were evacuated to the distance of a billion miles away from Shennong, the glint of the awning came forward and rushed to Shennong Ding. Two hundred million miles away. tight

Then, the light group dissipated, and it always squats in the existence of the light group, showing the figure.

What makes Ye Xuan unexpected is that this is actually a Danding snapping turtle with a large red cuticle at the top of the head. It looks like a short corner, giving a very hard feeling. 愣

After a moment, the figure was still violently staring at the starry sky at the Shennong Dingkou of the colorful fog, and it suddenly jumped again.

Roaring like thunder: "Deliberate! You must have deliberately, actually sent a tortoise turtle, obviously have been fighting, but still so humiliating the star master, you are all damn! Hehe..."

"Hey..."

In the roar of the sound, the starry sky violently swayed shoulders, and instantly rushed out of the Shennong Ding Ding mouth with a colorful mist, the body suddenly soared to the giant of 60 million miles, a fist to the head of the dandelion go with!

In fact, although violent seems to be angry, it seems to have lost his senses, but his words are not wrong. The reason why these guys let this Danding snapping turtle come out to fight is to irritate him and make him lose as much as possible. reason. Such as

Therefore, when the war is over, the chance of a battle will be even greater!

"You are wrong, the deity is the Danding snapping turtle, the snapping turtle you know? Very ferocious, not your shrinking turtle is comparable..." See

The violent temper is obviously more angry, and the poison meter has played a role. This Dandan crocodile is delighted with the heart, adding a fire, while talking, while he has already set off and does not evade, he directly hits a fist. The storm greeted us.

"boom!"

Boom..."two

The human figure slammed into the air, and the earth-shattering roar sounded. The Danding snapping turtle retreated 100 million miles backwards. Some of the body was awkward, but there was no injury at all. and

The huge starry sky of 60 million miles was actually smashed by this fist. It was stopped before Shennong Ding, although it was also not hurt, but it fell 150 million miles, clearly in a downturn. It's just not so obvious.

"Hey? I can't think of you, the sixth stage of the universe, the strength of the battle can be compared to the seventh order of this ... no wonder so arrogant!"

Under the punch of a fist, almost equal to the autumn, this result, this Danding snapping turtle is quite surprised, he looked up and down the violent. This

I was relieved to say: "Understood, because of the huge size, it has a more powerful blood force, and almost let your real combat power get a small order bonus..."

Unfortunately, this is still useless. Today, the deity still wants to abuse you to doubt life! "

During the talk, the head of the crocodile turtle was swayed and instantly turned into a man's, and the lasing room slammed into the past... he

Although the strength of cultivation is only the seventh order of the universe, but it has entered this situation for quite some years. It is not comparable to the first-order seventh-order, plus this violent temperament, just turn back and irritate him again. Some, there must be flaws exposed. Place

Therefore, for the result of this war, the Danding snapping turtle is still quite confident. Now, he only needs time...

In fact, he needs time, is Ye Xuan not so? just

Only this time against the bombing, Ye Xuan tried his best, the power of the real power of the body's blood and blood was all thoroughly stimulated, and the memory of the whole body was so refreshing.

However, he did not dare to express this kind of refreshment on the surface, but it was even more violent. He jumped his feet and roared in the void, seeing the Danding snapping turtle rushing again, without hesitation, and then roared again. I rushed up...

"boom!"

Rumble..."

In the air, a terrible battle was staged, and it became more and more fierce, and it gradually became a hot spot.

Unconsciously, after two days of swaying, and retired to the presence of the eleven awnings in the distance, there was no shot. complete

Actually, they have made a swearing oath. On the other hand, in the past two days, the violent starry sky has become more and more obvious. According to this momentum, one day, as long as the Danding snapping turtle hits. Opportunity, irritate it. Session

At that time, you can get a glimpse of the starry sky's violent mistakes and seriously injure them...

For two days, Ye Xuan's whole heart was very happy and too comfortable. For a long time, there was no such great battle. Although he had already had a slight injury, the income of the previous breakthrough was completely digested.

However, in order to follow up the second game, Ye Xuan did not show this joy, he must leave the hope of the opponent, so although he can withdraw now, but he has to endure, otherwise it is too abrupt I am afraid that it will cause suspicion, and the follow-up second battle will be overhanging.

At this time, the Danding snapping turtle was absolutely unthinkable. He was thinking about how to anger the starry sky, so that the other party could confuse the mind under the wrath and reveal the flaws.

In fact, the violent heart is also calculating, how to find the opportunity, extremely subtly deliberately reveal a flaw, let the other party slightly hurt themselves...

Only in this way, Ye Xuan can take this opportunity to retreat into Shennong Ding, without letting the other side doubt. And

This time, I almost succeeded in squatting myself. They must be unwilling, and maybe they are still looking forward to continuing their second battle than they are...

Under the circumstance, this thunderstorm lasted for a little while. end

Yes, the most suitable opportunity came, Ye Xuan still maintained a state of temper, taking advantage of the opportunity to come, deliberately sold a small flaw to the other side. "

It's now! "This

At the moment, the scorpion of the Danding snapping turtle is bright, and the heart is dark, and the body shape is no hesitation. The speed is 30%, and it slams into the right lower abdomen of the starry sky...

"Damn!"

boom....."

The violent pretense was suddenly reacted, but it could not be completely avoided. It was only able to avoid the key points sideways. Then, the Danding snapping turtle slammed into the left thigh. shock

In the midst of the loud noise, the violent small half of the thigh exploded and the blood rain splashed. but

Its body shape, but also under the inertia of this collision, took advantage of the trend, and blinked into the space inside the Ding by the Shennong Ding with the colorful fog. when

However, while the figure was flying backwards, the roar of indignation in the violent mouth did not stop for a moment. Anyone who heard it knew that he was close to the edge of the runaway..."

Just a little bit..."

Seeing the violent figure disappeared and fell to the Shennong Dingkou, which was carrying the colorful fog, it actually entered the space inside the Ding. It seemed to be terrified and a little scared. I am afraid it would be harder to be fooled.

The face of the Danding crocodile turtle suddenly showed an irritating color. he

I felt that I was a little too anxious, and it took a long time to get rid of the violent temper. Otherwise, the result of this battle is definitely another way...

Chapter 4567: Sixth order

With the end of this war, the violent figure was flying backwards, while shrinking, falling into the Shennong Dingkou, directly into the Dingzhong space, disappeared, and the eleven awnings in the distance Within a moment, there was a sigh of sigh...

"Damn, it's a loss..."

"Yeah, it's a little bit worse. This violent temper has been slightly injured. But it is precisely because of this that his heart gave birth to fear. After flying backwards and falling into the trip, he directly retreated. Ding inside the space went."

"It won't be scared, I really want to be a tortoise turtle? If that's the case, it would be too bad!"

If you are not in a hurry, you should have a chance. When you don't see him flying back, he grows roaring and hates anger? This violent temper should be hiding inside and healed. As long as the injury recovers, it should come out again. ""

Yes, the starry sky is such a temper, it is impossible to easily shrink, that is, we still have a chance..."

"But the next time, I have to change someone to play. I didn't expect that the violent blood in this huge body is so amazing. It is only six steps in strength, but the strength is seven steps. If not, this is the case. World War I will not be the result."

In the next game, let an eighth-order supreme shot, so that the odds can be bigger..."

I can only wait now, I hope he will show up soon! "...

...God

Nong Ding, interior space. "

call out....."

The faint sound of breaking through the air, the height of the space inside the Ding, a figure falling down, it is already shrinking the body shape to the left and right Ye Xuan. first

The outside of the thigh, which was smashed by the Danding snapping turtle, has already recovered as it was at the beginning. This little injury is nothing to the starburst with a huge size of 60 million miles.

After entering the space inside Ding, he did not rush to carry out the action, but secretly urged Shennong Ding's domain power and eavesdropped on the voice of the outside. very

Fast, the voices of the sorrowful words in the twelve awnings were all heard by him.

Since then, Ye Xuan has completely let go of his heart, as long as the guys have not seen the clues, so, after this breakthrough, you can use the same method to trick them into being sparring.

And by this, we quickly digested the breakthrough income and ushered in the opportunity to break through again.

This is really a good thing to lose the pie in the sky. For this purpose, Ye Xuan had to run around carefully, but now I can wait and see. outer

Eight powerful late Supreme, are waiting in line for themselves...

Thinking of this, Ye Xuan feels a headache, but now it is not a time to be happy, you have to hurry, otherwise, the other party must be suspicious.

After all, in their view, they entered Shennong Ding, but they were only a moment of fear, and they were healed. If they dragged on for too long and let them suspect that they are breaking through, then they will change again.

"The last time I broke through in their face, it took seven days, so this time I have to go out seven days ago..."

Zhong Jing Mang flashed, Ye Xuan secretly nodded: "This should not have much problem. After all, this battle lasted for nearly three days. Since entering the immortality of the emperor, there has never been such a drastic war."

"The breakthroughs accumulated in the body and the meridians, including some old tiny corners, have also been completely stretched in this battle."

Therefore, if there is no accident, this breakthrough will most likely be completed in three or four days..."

"Hey..." said

At the end, Ye Xuan did not hesitate to sit down on the side of the volcano on the central volcano. When he waved his hand, the faint sound of the air broke out, and a mile of anger was rushing out, hanging in front of Ye Xuan.

All are the cultivation resources that he took out from the immortal world! do

After all this, he immediately mobilized Shennong Ding's domain power, compressing all the cultivation resources to the size of the baby fist, and swallowed his belly.

"Oh la la..."

The entrance of the baby boxing ball became a powerful energy river.

Almost in the next moment, the sound of the chain squeaking unexpectedly came over and over the body of Ye Xuan. This time, there was only one chain of shackles floating in Ye Xuan's body.

After the appearance of the chain, Ye Xuan immediately sighed and spurred the whole force to mobilize the energy that was just formed in the body, and launched a large Sunday operation in the whole body and accumulated strength!

Almost at the next moment, the heartache soon came, and Ye Xuan's entire body and mind were shrouded, but he did not pay attention to it, still no sadness and no joy, and concentrated.

Time passed slowly. In the process, Ye Xuan poured all his mind and always worked hard to start the big Sunday. fruit

As he expected, just four days later, the energy that he formed in his body was finally refining...

After that, it was only a shock, and this stout chain was broken. when

The shackle chain completely broke, and the expected system sounds, and it soon sounded in Ye Xuan's mind...

"Hey, congratulations to the host, the breakthrough of the ancient realm of the hole! The current realm: the sixth stage of the universe!"

Hey, congratulations to the host, the breakthrough of the body and blood! The current realm: the sixth order of the universe! "universe

The main sixth order!

The distance from the ninth order of the ninth order of the lord of the 27th Supreme Baodan is only a matter of three small steps... first

Before, the revision of Ye Xuan's deity is the fifth order of the lord, and the power of the blood of the ancient konjac in the body can be upgraded to the sixth stage of the lord. If the konjac is changed, the ninth change will be achieved. The force immediately rose to the sixth level of the universe. If

It is coupled with the blood and blood of the flesh, and its true combat power is more than the seventh-order supreme. and

This time, when the breakthrough is reached again, after he activates the blood of the konjac in the body, he will have the seventh-order cultivation of the Lord of the universe.

In the state of the fascinating konjac, and directly into the ninth state of change, its peak power will reach the seventh level of the universe supreme! "

Seventh-order supreme? If you count the huge blood in the huge body of 60 million miles, the first-order bonus to the combat power, then, my current cultivation is the strength, the most peak will reach the shoulder with the eighth-order supreme..."

Consciously grasping the double fist, Ye Xuan said that half of it was indulged. less

After that, it seems that there was a decision. In the middle of the flash, the mandarin flashed, and then he said: "However, this is only the second battle. At least two more battles are needed in the follow-up. Therefore, they cannot be found to be my repairs. The strength has improved..."

In this way, the upcoming battle will be repaired as the strength of the previous Supreme Sixth Order. Counting the strength of the huge body, there is still only seven levels of combat power. The eighth-order supreme that is dispatched once, I am afraid it will hurt even more..."

"But the more it is, the more they can see their hopes. The next third battle will not have too many suspense..."

Chapter 4568: Second battle

Shennong Ding, the universe in the sky!

A glimpse of the past four days passed, but the violent injury, the figure fell to the Shennong Ding, and after entering the internal space along the Dingkou, but has not been showing up.

For four days, it was not enough to take a nap for the powerful existence of the crouching in the twelve awnings, but they were all worried and uneasy. With

As time went by, they became more and more skeptical that this violent temper was really scared, and maybe they would not be able to come out in the interior of Baoding as they initially guessed. positive

Take advantage of this opportunity to bite your teeth and break through again and again...

If this is the case, it is definitely not good news for them, because that means that after half a year, they will no longer be able to trap this tyranny here. although

He said that he still has no chance to overcome his powerful existence, but he is fully capable of taking advantage of it...

This is definitely not what they are willing to see. However, the current violent temper is not in the Shennongkou where the colorful fog is smashing, but enters the space inside the Ding, and maybe it is now closed to the six senses and has entered the retreat. This

In this case, even if they have the heart to speak again and again, there is no way, people can't hear it at all, and how to pull it, it is just in vain!

Just as the existence of these twelve canopy groups, the mind is more and more uncertain, and gradually felt intolerant, the Shennongkou where they were surrounded by siege, suddenly appeared a figure, it is a starry sky.

His injury has obviously recovered, but the strength is still in the sixth stage of the universe. This is also true. It must be seven days before the breakthrough. The higher the time is, the shorter the time is, and the time is shorter. So much so much...

The thought flashed through my mind, and when I saw the temper at this time, although the injury was exhausted, the color of indignation on my face was still the same as that of four days ago, and even seemed to be even more angry. .

The powerful existence of the crouching in these twelve awnings was reassuring in an instant. No

When they violently screamed, they immediately secretly communicated with each other in a private way. Throughout the words, they all showed a sense of surprise that could not be concealed..."

This violent, really did not let me wait for disappointment, this is only four days, actually appeared..."

"It should be like this. The starry tyrannical family was originally such a violent temper. I can rest assured that I can wait until I see it. Although he has recovered his wounds, the color of indignation on his face is stronger than it was four days ago! "

"For four days, it is absolutely not enough for him to break through once, and, in this state of anger and sorrow, he simply can't calm down and break through..."

Yes, his previous injury obviously won't take four days to recover. Presumably, he originally planned to stop coming out, but the blood in his body is so natural. This is the temper. After two days of grinding in the space of Ding, he discovered his heart. The anger is not scattered, even if it is not out, there is no way to meditation and retreat..."

In this way, this time, he is very likely to want to fight another battle, so that he can vent his anger and then enter the Ding Nei space to retreat..."

"If this is the case, this opportunity will definitely not be missed again. In any case, it must be taken down."

To dispatch an eighth-order supreme, it is best to be close to the ninth-order, but the real ninth order can not be moved, so as not to scare him back, and then change. ""

This war, I am coming! "

"Hey!"

The words came out, and among the twelve awnings, there was a spurt in the moment, and the speed was so fast that the blink of an eye had reached the universe of only two or three hundred thousand miles away from Shennong Ding. and

The other eleven awnings, but they still stayed out of a billion miles, they have not been close in the previous four days, this is to avoid making violent doubts. anti-

Surrounded by such a long distance, violent temper can not escape, a distance of one billion, for the existence of the universe above the supremacy, it is nothing at all... and

At this time, with the glare of the awning group, the other seven universes among the other groups of light, the voices of the gods, also sneered at Ye Xuan.

As for the four ancient powers in the other four awnings, there is still no sound. Make

For the ancient powers of the wild, they have their own pride, if it is a bit too keen on this matter, I am afraid it will lead to violent suspicion.

I have to say that in order to seduce Ye Xuan to fight with them, these twelve guys are also very painstaking. If they let them know that Ye Xuan has been squatting in this matter, the purpose is the same as them, I don't know their hearts, How did you think about it...

"How do you come out again?"

"I can't hold it for four days? You are a ninja turtle, Dafa, and you are still not at home!"

"Oh... according to the deity, it is clearly itchy, so I can't sit still and think about it."

Yes, if the last battle was not as fast as he saw the machine, and this morning I have been tortured into a real shrinking tortoise. Now I dare to come out. It is clear that I am looking for excitement. I have not seen it. This turtle has a tendency to find abuse. Well....."

"Don't you dare to fight? If you don't dare, go back and look at it."

Hey! "

The last whistling sound came from the lasing, hovering over the canopy of the Shennong Ding, nearly 300 million miles away.

As the whistling sound came out, the light group was also scattered and retracted into the body. A large black bug with a body shape of about 10 million miles appeared in Ye Xuan's sight. its

The temperament that is scattered in the body is the eighth order of the universe. This is the same as the results previously discussed by the guys. There is no change.

"Bug? Is it a **** bug?"

"Roar....."

The star owner hates the worms most, and hunting them several times is almost a bad thing for the worms..."

Seeing this **** bug, the violent eyes are instantly red. Although half of this time is installed, the other half is the real feeling of his heart.

Ye Xuan, originally hated bugs.

"Roar!"

"How about the eighth-order supreme? It's just a ***** bug. Actually, I dare to ridicule your family's **** and noble tyrant. Today, you can't kill you..."

During the roar of the head, the violent cockroaches once again grew up, and under the sway of the body, they rushed out directly from the Shennong Dingkou, which was carrying the colorful mist. original

This is only the shape of the high-profile, but also the storm, the eye has reached 60 million miles, more than the size of the giant stars.

"Roar!"

"The **** bug, go to death..."

This time, I don't know because it was because of the previous anger that I was always angry, or because I saw the opponent of this second battle, it was because of a starry zerg.

The temper is obviously more violent and irritable than the last time. The roar is actually taking the initiative and punching the **** bug with a punch...

Chapter 4569: Impact on the main post

In the face of this battle, Ye Xuan's heart is actually quite awkward, because the other party is the eighth-order supreme, and he can only show the strength of the sixth-order of the universe. which is

Adding to the huge force of 60 million miles in the huge body, there is a step-by-step bonus to the real power, and it is only seven steps. This

It is destined to be abused by the other party.

If other starry beasts are gone, it is a **** bug, which makes Ye Xuan heart angry! Do not

After that, I can be abused by the other party, but at least I have to let the other party suffer a bit. Otherwise, he can't swallow it. I'm afraid it's really in my heart, forming a stagnation! "

boom! "

In the blink of an eye, the two bodies collided together, and a shocking explosion spread. Within a hundred million miles, the void was broken, but fortunately, under the powerful laws of Hongmeng, it quickly Bridging did not affect the war. leaf

Although Xuan now has eight-order combat power, it can't be used. What is shown is only the seventh-order power of the universe.

Therefore, after this collision, his body shape immediately flew backwards. This time, there were 200 million miles, and even a **** mark was secreted from the corners of his mouth. This

That is to say, the starry sky is rough and rough, otherwise it will be seriously injured on the spot. anti-

Look at the **** bug, but it is like nothing. This

The body of a **** bug is like a pure black crystal. It looks very hard at first glance. Although the violent fist is tough, the power that can be displayed at this moment is only seven steps. Therefore, the **** bug is only backward. Going back thousands of miles, it stopped the figure. only

Only one hit, good and bad judgment, **** bugs occupy an absolute advantage. Do not

However, the starry sky is also the sixth-order supreme, the combat power is seven steps, even if he can't beat him, but it is not so easy to kneel down or kill.

After all, the supreme is not good to kill.

Therefore, the **** bug did not dare to force too tight, otherwise, the violent figure is still on the way, he has the opportunity to shoot again..."

Roar! ""

This is not fair. The people you play are the eighth-order supreme..."

At this time, if you don't mention this, then the other party must be suspicious. Place

Therefore, after the violent stop of the figure, the head is a roar, quite a feeling of anger. angry

After he slammed it, he took it out and directly took out the **** stick. He snarled: "You have to cultivate high strength, and the Lord must use the soldiers. Otherwise, it will not fight!"

In fact, Ye Xuan is not allowed to fight, but his mouth deliberately said so, the more so, the more the other party will not doubt. fruit

Of course, among the twelve awnings, even if there is a savage faint voice: "Alright, it is fair, but if you lose, don't admit defeat!"

"Roar!"

With this stick in hand, how can the Lord's Lord lose? "

The temper is very happy. It seems that there is a reliance on the face. Even a smile appears on the face. After the roar, I rushed straight forward. This time, it's not a bombardment with a meat fist, but a **** stick. The sorghum was over the top and slammed down.

"boom!"

Oh..."猝

Under the defense, the **** bug was directly shackled on the back by this stick. At the same time, when he was shocked, his mouth was even more shocking. can

Pity a big worm, but the tragic sound is like a hungry wolf. It can be seen how painful this attack is, it is really difficult for him..."

Hahaha..."

Happy and happy, just say it, the **** stick shot, you are simply a slag, the eighth order is also no good!
”

Looking down, the black worm's back, like a pure black crystal body, was pulled out of a large pit, and the violent temper suddenly became happy. This

It is from the heart, even if this **** bug is vigilant, beware of the dodge, and then do not give yourself the opportunity to find it, but only this time, the bad gas of the heart is also calculated, even after the deliberate pretending to be abused by him. Flying back to Shennong Ding, there is no longer any regrets! under

For a moment, within the eleven awnings in the distance, after a short silence, a sudden exclamation came out..."

hiss! What is this stick? There is such a power! ""

Shennong! The deity understands that this is the Shennong 配套 that is matched with Shennong Ding... It has been changed into the shape of a **** stick! ""

It is no wonder that this violent temper has such a sigh of relief, seeing the Eighth Order Supreme dare to face the battle, it turned out that there is such a plan! "

"But even so, in this battle, he still has no chance to win. In the face of the speed of the eighth-order supreme, his **** stick is once again strong and hard, and the target is also awkward..."

"Hey..."

Shrinking the tortoise, you succeeded in angering the deity, going to death..."

To these reminders, the **** bug screamed up and swayed, and instantly became a black speed, and made an arc in the void, and launched a round-trip attack on the violent temper...

"boom!"

"Booming..."

The war was soaring, and between the blink of an eye, one day passed. This

Once the battle was even more violent, the violent temper was even hit by vomiting blood, and the left arm was knocked twice.

However, under this fierce battle of near-death, his last breakthrough income was digested at a faster speed, and only one day was fully integrated into the flesh and spirit.

"Hey!"

It was a whistling sound. This time, the **** bug glimpsed an opportunity to develop a speed and turned into a black man, and slammed into the violent right hand. This

It was his plan to break the violent right hand, when the **** stick fell, the first thing was collected, and then the machine took the violent..."

Roar! ""

you wanna die....."

I was violent, but my heart was ecstatic, which was exactly what he was waiting for.

"boom!"

"Card..."

The horrific sound came out, accompanied by the sound of the crack of the card, which was formed by the violent right back being collapsed. turn off

At the moment of the key, the violent sideways avoided the right evasion, and the biting teeth forcibly kept the **** stick, but its shape was under this collision, and it instantly flew two or three hundred million miles.

One end plunged into the Shennong Ding Ding mouth with a colorful mist, disappeared directly there, and once again entered the space inside the Ding of Baoding.

"This....."

"Damn, how is this?"

"It's too irritating, and the violent temper is obviously very fancy to this **** stick. I found that the stick was memorized, and naturally I dare not fall in love again. I would rather hurt to keep this stick and then escape."

"It's a loss, this time, I'm afraid there is no hope!"

As the violent figure disappeared, and in the distance, in the eleven awnings, after a short silence, the sighs came again in an instant. This

Once, all the people are more depressed than before.

Chapter 4570: Broken bugs rolled out

At the same time, Shennong Ding's tripod space! "

call out....."

When the sound broke, the violent figure appeared at high altitude, and the figure had already recovered to the height of the bar, and the **** stick was also collected.

"This time I suffered a big loss, almost seriously injured..."

The figure fell on the volcanic crater of the central domain. After sitting cross-legged, Ye Xuan gnawed himself: "The **** **** bug must be killed by the back, and the heart is hateful!"

"Hey..."

Then, he no longer hesitated, and when he waved his hand, there was a rush of anger and hang out in front of him. It was the cultivation resources that he took out from the immortal world to develop this breakthrough! Connect

Everything that goes down is light, and Ye Xuan mobilizes Shennong Ding's domain power, compressing all the cultivation resources to the size of only the baby fist, and swallowing the belly.

"哗啦啦....." baby

The entrance to the boxing ball became a powerful energy river. body

Inside, the unexpected sound of the chain squeaking was also overwhelming at this time, but there was still only one. Then, Ye Xuan was concentrating on the ambition, urging the energy that was just formed in the body, in the whole body. One hundred days of running through the big pulse, saving power!

Time passed slowly. In the process, Ye Xuan poured all his mind and always worked hard to start the big Sunday.

This time, because of the more intense war, only two and a half days later, the energy that formed in his body was completely refining...

After that, it was only a shock, and this stout chain was broken.

When the shackle chain completely broke, the expected system sounds, and soon in the mind of Ye Xuan...

"Hey, congratulations to the host, the breakthrough of the ancient realm of the hole! The current realm: the seventh stage of the universe!"

Hey, congratulations to the host, the breakthrough of the body and blood! The current realm: the seventh order of the Lord of the universe! "universe

The seventh seventh step, this is the late stage of this situation. Such as

Today, the distance from the twenty-sixth level of the sacred master of the sacred lord of the twenty-sixth sacred Baodan is only two small steps, which is exciting. first

Before, the revision of Ye Xuan's deity is the sixth order of the master of the universe. By activating the blood of the ancient konjac in the body, he can climb to the seventh stage of the lord, and if he is to display the konjac and change the magical power, he will reach the ninth change. Force immediately rose to the seventh level of the universe.

If it is coupled with the blood and blood of the flesh, its true combat power is even more than the eighth-order supreme.

This time, when the breakthrough is reached again, after he activates the blood of the konjac in the body, he will have the strength of the eighth-order of the Lord of the universe. in

Casting the magical power of the konjac, and directly into the ninth state of change, its peak power will reach the eighth order of the universe!

If you count the giant meat peaks of 60 million miles, the pounds will be the first-order bonus to the real power. that

What, now the most powerful force that Ye Xuan can show, has reached the universe's supreme nine-order great perfection, that is, half-step power! "

Finally, there is a half-step ability to cultivate strength, so if you use the secrets of blood and sea, and condense three **** seas with the same combat power..."

In the hustle and bustle of the scorpion, the violent shackles shot two excited and faint stalks, muttering: "At that time, even if I encounter a half-step supreme, I have a certain degree of certainty. The bombing!"

"However, at the moment, the ninth order of the universe is perfect, and there are two small steps that need to be broken. In any case, we must fight two more..."

Therefore, at present, the ninth-order great perfection of the Lord of the universe cannot be revealed. It is impossible for them to know that the true cultivation of the Lord's Lord has already broken through the sixth order of the previous lord, reaching the main eight. Steps..."

"But at the same time, it can't be the same as the previous one. It is still only the sixth-order cultivation of the main force of the universe. In that case, it must lead to suspicion."

After all, the first battle has already suffered a loss, and the reason why the second war dare to play, can be pushed to the heart and anger, but also has a **** stick as the reason for relying on..."

"But in the third battle, if the strength is still only the sixth order of the universe, but still dare to hold the **** stick on the court, then there is no reason. It is difficult to think of it without suspicion. In this case, the follow-up two wars, I am afraid it will be lost."

Having said that, Ye Xuan's fine mang flashes: "So, this time, going out, will show the strength of the repair to the seventh stage of the universe, and tell them that the star has broken through the first step."

"So, once again, having confidence, it is obviously understandable."

"In addition, it is also possible to let the guys who are outside, suddenly a stronger sense of urgency. In this case, let's not mention the fourth battle for the time being, at least the next third battle, there is absolutely no suspense... .."

After the decision, Ye Xuan did not say much, and closed his eyes directly, so he squinted over the volcano in the central area of Ding, and closed his eyes.

This breakthrough only took two days. If he went out now and showed the strength of the seventh stage of the universe, he would be seen by the other party and caused unnecessary variables.

Therefore, Ye Xuan can only crouch in the space inside the Ding, and wait until after eight or nine days.

The reason why it must be eight or nine days is because he used it for the first time in the first seven days of the guys. and

This time, it was under the serious injury and entered the space inside the Ding. The healing time would have taken time. Coupled with the poor state, the time of breakthrough must be lengthened. Therefore, the eight-ninth day is the minimum requirement, and the short-term must be cited. Be suspicious! very

Fast, a few days passed by, the violent sigh of the volcano over the central domain, suddenly opened his eyes. he

Instead of going out immediately, he mobilized Shennong Ding's domain power, secretly listening to the voices of the guys outside the universe.

After all, this time he entered the Dingzhong space for so long, the guys must have waited for the intolerance, and under anxious, it is impossible to have no discussion...

However, with Baoding's domain powers being motivated, the voices of the gang's gang's gods immediately entered Ye Xuan's ears...

"The situation is a bit unpleasant. This time, the violent rush entered for nine days. I am afraid it will not come out again?"

Even the **** sticks have been dispatched, but they are still fiercely defeated. Naturally, they will not come out easily, unless his repair is a breakthrough... So, if there is no accident, this violent, now should be retreating, calculating time, should also It's coming out soon. ""

Damn, let him break through a small order, isn't it the seventh order now? ""

Can't go on like this again, if there is still the possibility of a war, this time, you must kneel down..."

Hearing here, Ye Xuan did not hesitate, and his body shape disappeared directly from the Ding interior space.

When it reappeared, He Ran went to the Shennong Dingkou where he was holding a colorful mist. After he took out the **** stick, he immediately snarled: "There was finally a breakthrough. The star master is now also the late supreme, breaking the bug. come out....."
