Chapter 4581: Rhythm of the group

"Roar!"

"Come on, I am going to kill you one by one!"

Seeing the four-weekly powerful late Supreme rushing at the same time, the temper is not only not afraid, but also arrogantly screaming and screaming.

The sound of the gods has just come out, and its figure has disappeared in an instant. In the blink of an eye, it has already reached one of the five late supreme ones.

This time, what he was eyeing was the spurs of the five great supremes. This

The strength of a guy's cultivation is only seven steps of the universe. For Ye Xuan, it's just like an ant, and a big stick can solve it. No

Hesitant, violent, the first time to shake the big stick in his hand, slammed out.

"Hey!" Giant

The loud roar of the sound rang from the emptiness, and the huge body of the giant scorpion smashed in a moment, and the body was blasted in an instant, and its flesh was completely blown down under the terrorist power of this blow. A canopy of blood, spread rapidly!

"call out!"

Almost at the same moment, violently waved in the first time, a huge invisible instinct was rolled out from the body, covering a radius of ten thousand miles. just

The blood mist that just spread out swept in an instant, turning into a majestic waterfall of blood and blood, like a long rainbow, and inspiring into the body, leaving it to be sent to Shennong Ding, and blood Condensation.

Supreme blood, add one more, and now the surrounding Supreme, which is surrounded by him, has only four left.

Between a few short breaks, one-third of the staff is reduced. This

The result is that the other four late Supreme are caught off guard, and the heart is suddenly frightened, and the four huge spurs are spurting in the void.

This is completely a subconscious move, but it is this move that makes the temper once again find the opportunity...

"Hey!" shoulder

Under the sway, the violent rushed to the two-headed black dragon, which is clearly the rhythm that locked the third goal on him.

Seeing this scene, the other three late Supreme minds subconsciously loosened. in

They seem to be at least temporarily safe for themselves. Of course

And, the accident happened. "

Boom..." just

On the side of the double-headed black dragon, the violently high-pitched black-and-white sticks are about to squat, and the **** sticks have disappeared in an instant.

Lost a **** stick, violently changed to a bang, a horrible meat fist bigger than a meteor, slamming toward the two-headed black dragon.

"Hey..."

After all, this guy is half-step power, the speed is almost to the extreme, the reaction ability is extremely amazing, and his head screams, and easily avoids this blow. "

boom....."

Almost at the same moment, in another direction, an earth-shattering roar came.

Looking around, the **** stick that just disappeared in the hands of the violent, actually appeared in that direction strangely, squatting down, kneeling on the back of the starry raccoon...

"Hey!" This

The impact of the slamming force was fierce, and the sound of the blast was shocking. The huge body of the starry scorpion smashed into a huge moment.

Its flesh, the blink of an eye is under the horrible power of this blow, completely blown up for a **** fog, spread rapidly!

"Hey!" No

Hesitant, violently waved in the first time, a incomparable invisible temperament from the body, enveloped a million miles. blink

In the eyes, the blood fog that has just spread out of the awning has swept over and turned into a majestic waterfall of blood and blood. It is like a long rainbow, and it is incomparably into the body, leaving it to be sent to Shennong Ding later. Blood essence is condensed.

All this is long-lived, but it only happens between the rest. One

The time of breathing, the violent hand in the hands of a late supreme, and harvested a precious supreme blood. blink

Between the eyes, six powerful late Supreme, there are only two black dragons, mixed blood phoenix and Danding snapping turtles, seven, eight and nine. To

Nowadays, these three guys are so violent, especially the **** stick in their hands. It is just like killing a stick. As soon as they are touched, it is the end of the violent death.

The three guys have already been shocked to the extreme. this

At this moment, they have not grasped the temperament of the joint efforts, and even think that it is just a luxury.

Although this situation is indeed a bit strange, but the time is too hasty, they simply can not allow them to think too much. eye

Next, for the three guys, the most important thing is to rush to evacuate, otherwise, today it is clearly the rhythm of the group to destroy..."

Roar! "

"Hey..."

Hey! "

With this kind of thinking, the three powerful late supreme, immediately screaming and screaming, no longer hesitate, they directly picked a direction and began to flee.

The fastest, it is the strongest double-headed black dragon.

However, he was somewhat calm and relaxed. It seemed that he was not worried about the violent temptation to kill himself as he had previously killed the three seventh-order supreme. thing

In fact, with the violent squatting on the surface, the ninth-order power of the shoulders, even if it is a **** stick, it's hard to just be a stick, and it's a long-awaited nine-stage supreme bomb. kill. but

It doesn't matter, the two-headed black dragon, he is ready to put it on the final hand. By then, even if you use some of the hidden strength, it doesn't matter.

After killing the last two-headed black dragon, it was time for him to leave. eye

Next, Ye Xuan did not pay attention to the two-headed black dragon. When the three guys wanted to escape, he rushed to the **** Phoenix for the first time.

"Hey!" and

At the same time, the **** stick that had just returned to his hands, with a faint sound of breaking the air, disappeared again. This

For a moment, the two-headed black dragon and the Danding crocodile Dan only felt the scalp suddenly numb, and all of them immediately mentioned the extreme point of caution, because they did not know whether this **** stick that disappeared when it disappeared again would be in its own Over the top of the head.

"boom....."

This thought has just been born, the **** stick has already appeared, and the head of the Danding snapping turtle has gone. The blow was too sudden, and the moment of the bombardment, the sound of the explosion sounded earth-shattering, and the huge body of the crocodile turtle was blasting in an instant.

Its flesh, the blink of an eye is under the horrible power of this blow, completely blown up for a **** fog, spread rapidly!

"call out!"

The violently waved, a huge invisible temperament from the body, enveloped thousands of miles.

The blood fog that has just spread out of this awning has swept over, and the blink of an eye has turned into a majestic waterfall of blood and blood. Just like the long rainbow, it is incomparably into the body, leaving it to be sent to Shennong Ding and blood. Refined.

"Hey!"

Looking up at the hair with a happy roar, this time a punch has already blasted.

"boom....."

The mixed blood phoenix was distracted in this moment, and was accidentally slammed into the right root of the right. anti-

It is already at the last moment, and the temper is unscrupulous. At the same time as the target of this bombardment, he quietly sent out some hidden forces...

Chapter 4582: Can't sit still

"boom....."

In the blink of an eye, a violent fist hit the right wing of the phoenix phoenix, causing its stunned body shape to suddenly stagnate... tight

Then, the sound of the earth-shattering explosion appeared, and the huge body of the phoenix phoenix phoenix blasted in an instant. This

A blow, although violent, did not pull out the **** stick, but in the moment when the giant fist touched the **** phoenix, the force that has been hidden in the body was released and rushed into the body of the **** phoenix. This

The result is no suspense, the huge flesh of the phoenix phoenix, the blink of an eye is under the horrible power of this blow, completely blown up for a **** fog, spread rapidly!

"Hey!"

He raised his hand, and the **** rod turned into a weak black awning and fell into his hand.

At the same time, there is an incomparable invisible temperament that has been swept out of the violent body, covering a radius of ten thousand miles. miscellaneous

The blood phoenix just spread and the blood mist was swept away and turned into a majestic long blood waterfall. It was like a long rainbow, and it was incomparably broken into the violent body, and it disappeared..."

Hey! "

At this moment, the heart of the two-headed Black Dragon suddenly gave birth to a huge sense of crisis. His body shape was instantly increased by 30%, and his hair was bright and incomparable.

"You can't escape..."

In the middle of the Han Mang flash, Ye Xuan's voice of the gods came out, and after tightening the **** stick in his hand, his body shape shook, even when it disappeared. again

When it appeared, it was already on the right side of the figure of the two-headed black dragon. There was no hesitation in the half. The **** stick was high above the head and directly slammed into the black dragon.

"Hey!" This

At one moment, the line of life and death, the two-headed black dragon once again issued a sorrow, and it was a decisive and irresponsible response. "

boom! "shock

The sound of the earth-shattering sound came, and one of the two huge heads of the two black dragons exploded in an instant, turning into a **** fog.

"Well? Actually, there is still this trick?"

In this scene, Ye Xuan stunned, but did not hesitate, immediately shot. "

call out! "

With the violent wave, a incomparable invisible temperament was rolled out from the body, covering a radius of ten thousand miles. This

The blood mist that had just spread out of the canopy swept through it, and the blink of an eye turned into a majestic waterfall of blood and blood, like a long rainbow, and it broke into the body incomparably. It

So this is because the blood fog formed by the explosion of this skull is also part of the blood of the two-headed black dragon.

While condensing the blood of the beast, it is necessary to use all the blood mist formed after the flesh of the beast is opened as a blood essence material. It is not necessary to lose a trace of it, but if it is too little, the blood essence may not be able to be condensed smoothly.

Even if it is condensed, it is still defective, and its efficacy will be greatly reduced.

And now the blast is a head of a double-headed black dragon. This part of the blood fog is not as simple as a trace of a scorpion. If it is allowed to spread and spread, it will be completely dispersed, even if the double-headed black dragon is killed. This Supreme Blood can't be condensed, and it will be a big loss.

At this moment, after the awning blood fog was taken up between the half interest, the violent figure once again shook, and the blink of an eye was easy to disappear in the same place. Through the teleport, the two-headed black dragon fleeing to the right front was rushed. first

Before that, it was almost a hit on the back of the two-headed Black Dragon.

It was at this most critical moment of life and death that the two-headed black dragon succumbed to a skull, which led to the deity, but only a momentary traverse of the imaginary distance of hundreds of millions of miles.

Now, the temper is coming again, and in a flash has reached the left side of his figure...

"Is a skull a life? Unfortunately, you are not a nine-headed bird. The star owner wants to see it today. The last one you left is still afraid to explode..."

"boom!"

With the sound of Ye Xuan's knowledge, the **** stick that he had squatted on his shoulders suddenly swayed out at the moment, and he slammed high on the top of his head, then slammed down..."

Hey! "

The two-headed black dragon shuddered and raised a sorrowful sigh, and then the tail slammed open suddenly...

The **** fog of the canopy spread out, and the two-headed black dragon also traversed again at this moment, instantly 100 million miles, but was violently forced to the position of the previous self-detonation head...

"Can you still come? Explosion of the head bursting tail, the next time, the star master can see what else you can explode..."

This result made Ye Xuan feel unexpected, but did not hesitate, a wave of incomparable invisible enthusiasm from the body, shrouded a million miles. blood

The fog swept in an instant, and the blink of an eye turned into a majestic waterfall of blood and blood, like a long rainbow, and it broke into his body incomparably.

"Come on, let the star master see, this time, what else can you explode..."

After all this, the **** stick in the hands of the violent, swaying figure, and then chased the past. only

It's just a breath, and the temper has already reached the back of the two-headed Black Dragon.

At this point, the two-headed black dragon has long since lost its previous mighty posture. Two

There is only one skull in the skull, and the other root of the skull is just a huge blood hole. It looks very fascinating and shocking. more

What is striking is that at the end, nearly one-fifth of the body has exploded together, and it seems that it has been smashed, and it looks extremely embarrassing. "

You have no chance..."

As soon as the form appeared, the violent screams again, and the **** stick on his shoulders slammed over the head at the first time and slammed down..."

Oh..."

This time, the words of the two-headed Black Dragon's mouth are no longer the sound of the dragon, but a sound of sharp screams filled with unwillingness and sorrow. because

For him has been completely desperate, and realized that the next moment, perhaps the moment of the fall. "

boom! "No

There is any suspense, the big head is black and squatting down, falling in the middle of the back of the two-headed black dragon. The slamming force was fierce, and the sound of the blast was shocking. The huge black body of the two-headed black dragon was already blasted in an instant.

Its flesh, the blink of an eye is under the horrible power of this blow, completely blown up for a **** fog, spread rapidly! "

call out! "

Suddenly, the heart suddenly succumbed, and the temper was not hesitant. In the first time, waving, a huge invisible instinct was rolled out from the body, covering a radius of ten thousand miles.

In the blink of an eye, the **** fog that had just spread out of the canopy swept through it, turning into a majestic waterfall of blood and blood, like a long rainbow, and inspiring broke into his body. to

Therefore, the six powerful late Supremes are all depraved, and the number of Supreme Blood in Ye Xuan's hands has soared to the present seventeen.

It all happened too quickly, from the beginning of this war to the present, before and after, but a little more than a bit of time. ten

A few breaths, the six powerful late supremes have been successively degraded, and this result makes the crouching presence in the four canopy in the distance stunned. This

At one moment, there is finally a big energy level... I can't sit still!

Chapter 4583: Delivered to the door

"Boom!"

The sound of the sound of the sound of the sound of the sound of the two-headed black dragon was blown into a **** fog, and was directly smashed into the body. and

At this point, the distance began, but only a few hundred seconds passed. ten

In a bit of time, there are already a lot of things that are already enough for the age of the ancients.

However, the ancient powers of the four awnings that were squatting in the distance of a billion miles away from the distance were never moving.

The reason is that it is actually a mistake.

When the first late Supreme was bombarded, they thought it was just an accident and it was not the same thing. Wai

This violent, the difference between the six late Supreme and the five late Supreme is really not very big. but

Then, when the second late Supreme was bombarded, the four ancient powers finally felt a little bad. No

When they reacted, the third head, the fourth head of the late Supreme, was immediately bombarded in an instant. This

A series of accidents were too alarming, and the speed of the occurrence was too fast. The four ancient powers that were crouched in the four canopy groups could not be reacted at one time.

However, at this time, the fifth head of the supreme, that is, the **** phoenix was bombarded.

This once again shocked them, four powerful wild powers, brainstorming, and simply doubting that they are in a dream, all of which are unreal.

Then, that is, the time around the two interest rates, just when they hesitated whether to shoot, the two-headed black dragon was also violently killed...

This scene once again made the four old shackles in the light group stunned. Their hearts were shocked, and even the light lumps that shrouded their bodies were slightly shaken. half

After the moment, the sound of the roaring roaring sounded, and the four ancient powers crouching in the light group, until this moment, finally came back to God and sent out the voice of God...

"Damn, what happened? How could this happen?"

"Ten is a bit of interest, six powerful universe supreme, and there is also a half-step and a nine-step great perfect half-step power, actually all were bombed..."

The key shot is still a violent squad that is only eight orders of the world. This is totally unreasonable..."

"What should I do now? Is it up to him to go wild?"

No, the deity can't help it. This war is no longer a battle, not to interfere with the war, because all his opponents have now fallen, so even if the deity shot, it is the same as the previous alliance. The oath has nothing to do..."

"So... well, the demeanor is the second-order power. Even if this violent temper is against the sky, it is only barely able to play a few rounds with the first-order power. If you shoot, you will be able to hold him. ""

I waited for the first time to stand still, so as to avoid the violent screaming of the teleport, and directly fled back to Shennong Baoding. ""

Remember, I respected and tried to lead him to the distance. As long as the distance between Shennong Baoding and Shennong Baoding exceeded one billion, I would have a way to stop him from fleeing to Baoding. "

"At that time, even if this violent temper is going against the sky, it will only be ruined. After all, if this level of concern is lost, I will no longer have to worry about it. The big four can't be shot at the same time..."

It's also enough to give him a face, this violent, it's time to be willing..."

"Roar!"

These voices of God have not been concealed before, but when it comes to the action plan, it becomes a private exchange. this

Engraved, with the end of the exchange, one of the four tents of light can be rushed forward.

In addition, in order to make the violent temper, and even subconsciously retreat to the rear for about one billion miles, they are only two billion miles away from Shennong Baoding, which is besieged in the center. The void distance.

Sui Zun, who is enough to go out alone, will try to lead the violent temper to the area about a billion miles away from Baoding..."

Rumble..."

It is a wild power, and the speed is naturally very fast. In the blink of an eye, it has reached an area that is only about 200 million miles away. Do not

It's just that the speed is fast, and its power is even more amazing. It's a bang, and there's a thunderous sound in the sky...

At this point, the violent scorpion has just been smashed by the two-headed black dragon. It has not yet returned to Shennong Ding, and it is about 100 million miles away from Baoding.

Seeing that the awning light group came from a bang, and the other three awning light groups were once again withdrawn by a billion miles, now they have reached the distance of Shennong Baoding's two billion miles, and they are violent, and then smashed. The fine mans flashed. mouth

The corner is a touch of laughter...

Ben, according to Ye Xuan's plan, after killing all six of the late Supreme, he immediately left and left.

But now, the killing of these six late supremes, only using a dozen times of time, can almost be ignored.

Although they can be sure now, they are indeed sending out signals, and they want to invite two powerful early-stage sages to deal with themselves. but

As they have said before, the two powerful early days of the Supreme Age will take at least two days to arrive. This

The credibility of one point is still very high. because

In the view of Ye Xuan, the reason why they suddenly changed their minds and decided to dispatch the six late supreme and the last one of their own battles, this is clearly unwilling, and does not want to distribute the benefits to the two early imperials of the early stage, so The rhythm of the last stroke of the teeth.

In this case, the two powerful early days of the ancient supreme, it is impossible to come in a short time.

Otherwise, they simply don't have time to make this last struggle and fight. If

If this is the case, Ye Xuan naturally will not be anxious to leave immediately.

In addition, he is now in the ninth state of the konjac change, and the strength can reach the second level of the ancient power of the wild, if it counts 60 million miles in the huge body, the strength of the blood For the first-order bonus of strength, Ye Xuan's peak strength will be able to compete with the third-order power...

It is impossible to cultivate a strength and face two powerful early-stage ruins. If you want to fight with one, it is naturally impossible, but as long as you have a chance to get out of the way, it is not completely impossible.

That is to say, even if the two powerful early wilderness supremes come, the situation facing Ye Xuan will not be as embarrassing as before. Do not

Of course, he will not easily take this risk. Now, with the powerful old-fashioned frontal bar, you can try to see if you can make another wild power before you arrive, but it's still quite exciting. It is.

More importantly, in the awning light group that is now coming from the bang, the temperament that has been dispersed is only the second order of the ancient power, but it is still weaker than Ye Xuan's current peak strength.

This is clearly the rhythm of being sent to the door to abuse myself. If it is easy to let go, it is not Ye Xuan's style...

Thinking of this, Ye Xuan made a decision almost instantly. Both

However, there is a plate of food delivered to the front of the door, then push the boat and swallow it, but it is not without this appetite...

Chapter 4584: a stick of flying power

"Booming..."

I am violent, although the deity is not willing to admit it, but it is true, it is indisputable that you are invincible in the supreme world..."

In the glory of the glory, there is also the voice of the gods, which is very low and incomparable. There is no emotion of anger, but it is invisible.

"Any superstitious universe is no longer your opponent. Now you have been able to fight the wild power..."

The deity is only in the early days of this situation. Isn't it a bully? ""

Rumble..."

As the last sentence was finished, the light group that shrouded this ancient power was completely dissipated, and all of them poured into the other's body. Are

In the meantime, a huge blood-stained star appeared in the void, compared with the starry sky, it was only a small circle or two, and it was more than 40 million miles.

In addition to the existence of the golden dragon, the empty giant tortoise and other ancient times, this is the largest starry beast that Ye Xuan sees in the sky.

As the other party said, the cultivation of breath from the body is the second-order of the ancient powers, and it is not very majestic. From this point of view, this blood-stained star should be just a short time ago. Into the second-order power.

At most, it is no more than five hundred years... It is a wild power that is first entered into the second-order world!

"The Lord of the Stars is only the strength of the Eighth Order of the Universe, but if it is about the real power, it is indeed a great power than the shoulders..."

Standing in the void of the universe beyond 200 million miles, the violent right hand has a **** stick, kneeling on the right shoulder, and a pair of comfortable and self-satisfied.

I didn't have to look at it all at once. I squinted at the blood star, and I snorted in my nose. Then I warned: "Yak, do you really want to fight with the star? Tell you the truth." The true combat power of the Lord's Lord has reached the third level of the ancient power of the ancients, and you have entered the second-order situation. If you fight with the Lord of the Stars, you have to suffer..."

After that, the violent swaying hand: "Go ahead, read the repairs in your wild and powerful environment. It is hard to come by. The Lord of the Stars is very compassionate today, and kindly reminds you that you will not kill." Where to go, roll immediately..."

This discourse is really arrogant, a cosmic supreme in the eighth-order world, actually said a big compassion for a second-order ancient power, today does not kill, let people quickly get out, where to go... ..

I have seen arrogant, but I have never seen such arrogance. If I change to other existences, I am afraid that I will be mad at the scene, and I will not be violent. but

This blood-sucking yak has always been known for his temperament. At this moment, after listening to Ye Xuan's words, even the body's breath has not been half-divided, and it is still so quiet. but

The sound of his knowledge, but after the violent words fell, it soon rang...

"Irritable, useless, such words, can not anger the deity ... you should not be bothered!"

"If you don't dare to fight, it doesn't matter. I wait for four people. It's a big deal to split the interests out. Just wrap you up for two days. By then, there will naturally be two powerful early wilderness supremes. You solved it..."

"In any case, the eight wastes have all fallen. The one that originally belonged to them has already been vacated. Even if we split out a part, it will not have much impact on the four of us. It is not unacceptable..."

"Hey, this is not to appreciate it, right?"

After waiting for the blood-stained star to finish the words, the violent screams have been interrupted, and he said with a sigh of relief: "If this is the case, then let the horse come over, you must find yourself dead, the beauty of the main adult of this star, it is easy to smash it... ...it doesn't take any effort anyway!"

Roar! "This

Once, the blood-sucking yak did not respond again, and screamed with a sigh of relief. Then he slammed his head and opened his four hooves, rushing toward Ye Xuan...

"boom!""

Rumble..."

"Card!"...

...

This is a second-order power, too powerful. At this moment, the strength of the body is fully motivated, and the hoof is rushing in the void. The two giant horns at the top of the head are constantly flashing the faint black mans. This

The two giant horns are not only hard, but also sharp and sharp. At this moment, when the blood-stained star is full of galloping, the voids along the way are torn apart, and the thunder of the rumble sounds. its

There is also a crisp and unclear sound. it is good

Here is the void of Hongmeng, and the power of the law of emptiness is strong to the extreme. At this moment, the void that blew the blood and smashed and smashed, and after his body shape rushed, it was again bridged again in an instant, and it was repaired in an instant.

"The power is not bad, the ancient power is the ancient power, and after all, it is not comparable to the universe..."

In this scene, Ye Xuan was dazzled, and his heart could not help but give birth to some emotions. in

After the last breakthrough, although he already possessed the horrific power of the third-order power, but these forces have been suppressed by him, and they have never been used.

Even if it was preceded by a pick of six, in just a few dozens of interest, and successively killed six powerful late supreme, Ye Xuan only secretly used a small part of the suppressed force.

But now, all this is finally no longer necessary. In the face of this powerful second-order power, if Ye Xuan continues to conceal and cultivate, suppressing power, it is simply tantamount to death.

That is to say, at this moment, he can finally exert his best peak strength, which is the most powerful force of the third-order power. Ye Xuan has never felt it before, but now it will be comprehensive. outbreak.....

"Hey!"

The hair is arrogant, at this moment, Ye Xuan's heart has stirred to the extreme.

Then, the sound of the gods that reveals the inexhaustible meaning is also instantly spread: "Yak, this battle... you will die!"

call out....."

As soon as the voices fell, the horrible figure of Pangda's 60 million miles was instantly turned into a streamlined man, and the blood-stained star that was facing the front was rushing straight.

For a moment, Ye Xuan is no longer concealed to cultivate the breath, and between the minds, fully open!

Before, the temperament that was diffused from his body was only the eighth order of the universe. Of course, the four ancient powers still still here remain, and no one regards him as a true cosmic supreme.

In their view, this violent real combat power has reached the wild power of the first-class situation. but

That's all. "

Boom..." low

The sound of Shen's thunder and thunder rang, and the temperament that emerged from the violent body suddenly rose sharply in this moment. In the blink of an eye, it reached the second-order of the ancient power of the ancients, and the blood-sucking that hit the front of the Founder. Stars are so many. again

Counting the first-order blessing of the power of the blood in the flesh, today's violent, combat power is more powerful than the third-order. "

boom! "This

For a moment, the **** stick was violently picked up from the shoulder and directly slammed on the forehead of the blood-stained star, and immediately flew away in its misery...

Chapter 4585: Geshi Mowei

"This is..."

The violent physique was transformed into a volcanic spurt, and on this way, the body's repressive and concealed cultivation skills were all stirred up. Correct

The blood-stained star that hits the face is jumping, and subconsciously wants to stop the body... This

At one moment, his scalp was numb, and he realized everything in an instant. It turned out that this violent temper has been concealed and repaired. His strength has really reached the second level of power.

And have the third-order power of this situation!

This is terrible...

At this moment, a huge sense of crisis has come, and the entire shape of the blood-stained animal husbandry has been shrouded. His body shape, which is rapidly ignited, is instantly convenient for the void and stops.

Unfortunately, everything is already late, and the two are not far apart, only 200 million miles.

Nowadays, all of them are expeditiously hedged. Almost all of them are close to each other. At this moment, even if the body shape of the blood-stained star is stopped, the temper is already approaching! "

Rumble..."

boom! ""

Oh..." with

With the **** sticks swaying, the voids made a low-pitched thunder, almost at the same moment, a shocking sound of the sound of the explosion, the **** stick, squatting in the head of the blood-stained star. Above.

After all, it is the second-order power. This blow did not kill him directly, but on the top of his head, he swollen a huge blood bag like a star. It looked shocking.

His figure is also in the midst of misery, and he flies away in an instant...

All this happened too fast. In the distance of 2 billion miles away, the three powerful wild powers crouching in the light group, although witnessing everything, but for a while, did not respond at all. come.

After two full moments, the unprecedented exclamation of excitement came out of the three canopy groups.

"What happened? Was he stunned by a stick?"

"Second-order power! The temperament that has been dispersed in the violent body has changed, and it has become a second-order power. If it is counted on the first-order blessing of his massive body and blood, now he , the strength of the third-order power of shoulders..."

Damn, let's be fooled. This violent temper is too slippery. It's always been breaking through. It's been hidden and cheated..."

"The third-order power? How can this be good? You are not an opponent at all."

Hurry up and find a way, I wait... Is it shot? ""

Roar! "on

There was a scream of screaming at the same time, and in the void battlefield two billion miles ahead, a thrilling roar of screaming came from the mouth of violent

"This star has just said that today, you can't escape..."

Rumble..."

call out! "words

As soon as the sound fell, the huge body shape of the starry sky suddenly collapsed, turning into a **** spread of the canopy, and the wind would rise, and a little bit of a billion miles away, just the **** star that would fly away from the front body shape. Oh, it's included in this **** sea.

"Roar!"

"Roar!"

Oh..."

In the next moment, from the three different directions of this vast sea of blood, the sound of screaming and screaming sounded, and then, in the boundless blood of the sea, there were three huge figures, instantly plucking the ground. . He

It is the three great devils of the Taikoo konjac.

They are the flesh and blood, which is the starry sky. Take

And the body of the cheekbones, without any flesh and blood, just a purple-golden cheekbones, revealing endless fierce breath, very incomparable. also

There is a black mist, although it is also a violent form, but the body is a black fog, even a pair of scorpions, just two awnings, it looks very strange...

In a flash, the three blood and sea avatars were instantly condensed, and the repairs that were dispersed in the body were all breathtaking, and all of them were the second-order of the ancient powers. but

Because these three **** seas are all huge bodies of 60 million miles, like a giant giant star, in such a terrible body, the power of blood is too majestic, directly making its own reality. Fighting power, skyrocketing first.

That is to say, the three **** seas that are instantly condensed in the **** sea all have the third-order power of the ancient powers of the wild, and no one is weaker than the blood-stained star! "

Do not..... ""

I'm so mad, you're bullying less..."

The shape was trapped in the **** sea, and the momentum of the **** star, which was originally spurred, suddenly came to an abrupt end.

It seems to be caught in a sticky mud, and it is difficult to move half a step. One

The stock is extremely incomparably a life-and-death crisis. At this moment, he hit his heart, letting the blood-stained star squint his hair and make a terrible roar, and then the sound of the gods is heard...

"Do you want to bully more? This kind of thing, have you done less? Don't forget, this star has just picked one of the six, and killed the six late supremes of your side. At that time, why not say This kind of words?"

In the face of this accusation, Ye Xuan is extremely disdainful, and the sound of the gods reveals the meaning of endless sarcasm: "What's more, this time the reason why the Lord of the Stars was trapped here by you is not because you have many people. Why?"

Now that I am dead, I actually say this to the star master... Yak, your consciousness, it's too late! ""

Roar! "

"Hey..."

Rumble..."

After that, Ye Xuan no longer speaks, and the three **** seas are screaming at the same time. versus

At the same time, the body of the cheekbones and the body of the black mist, waving a pair of fists, smashed toward the blood-stained star trapped in the center.

The violent flesh and blood of the flesh and blood, the same as the **** stick on the shoulder, did not hesitate, directly to the **** star in the center of the **** sea, smashed the past.

"boom!"

boom! "

"Hey!" three

The loud roar of the road sounded from the sky.

The power of this blow was too horrible, and the fists of the cheekbones and the black fog were all smashed on the body of the blood-stained star, and they burst into a blast.

But the real fatal, but it is still a **** stick out of the flesh and blood. Wan

If the small stars are generally huge, the precision is extremely high on the back of the blood-stained star, the power of the horror is pouring in, and everything in the brain is smashed into blood. tight

Then, with a bang, the huge body of the blood-stained star smashed in a moment, the power was too horrible, and the huge body of more than 40 million miles was completely blown up. Blood fog, spread rapidly! "

call out! "No

When the **** fog of the canopy spreads out, the violent temper has already waved in the first time, and a huge invisible instinct has been rolled out from the body, covering a radius of ten thousand miles. positive

The blood mist that spreads out is swept away in an instant, turning into a majestic waterfall of blood and blood, like a long rainbow, and incomparably into the violent body...

"Hey!"

At the same instant, after a hit, the cheekbones and the black mist split directly, turning into a **** rain, falling into the blood of the feet, and blending in between, disappeared. tight

Then, the faint sound of breaking through the air, covering the endless blood of a billion miles, shrinks in an instant, turns into a little worm-like blood color, between the lasing, directly into the violent eyebrows

Chapter 4586: Final battle moment

In the blink of an eye, this battle was settled, and a powerful second-order power was so degraded, and the body was destroyed. The flesh exploded into a **** fog, and it was violently earned into the body. This

In the first battle, from beginning to end, even the tenth is not. leaf

The reason why Xuan can successfully kill this blood-staining star, in fact, there are also factors of luck. Yu

The Supreme is not good to kill, let alone the ancient powers?

Although the cultivation of this car sedan star is only second-order in this situation, and Ye Xuan sacrifices the bleeding sea, the avatar power of the blood sea secret method, the three **** seas that are condensed, all have the ancient powers The power of the order.

But if this is not too sudden, the already degraded blood-stained star is simply unprepared and does not make any corresponding measures. Even the three powerful third-order blood seas are bombarded at the same time, but they may not It's so easy, it's killing it...

At the moment, with the fall of this blood-stained star, Ye Xuan has one more powerful blood in addition to the seventeen Supreme Blood.

The powerful blood is used to refine the twenty-ninth-level Baodan.

A twenty-nine-level Baodan can make the existence of the 9th-order Great Consummation of the ancient and the great, and successfully break through to the ancient times.

This is second only to the Qingyan Tiandao Qingyan, and the existence of the headless baby corpse. It is said that the second level of strong existence under the stars has never been overemphasized. nine

Extremely, therefore, according to Ye Xuan's speculation, this twenty-ninth-level Dan is very likely to be the limit. The thirty-level Baodan, which may be facing, may not exist at all. which is

It exists, and it cannot be refined by using the method he has now.

Of course, even the twenty-ninth-level Dan, Ye Xuan now has even its perfect Dan Fang, has not been derived.

But before that, it is a delightful thing for him to harvest a precious big power Baodan.

Powerful blood, you need to kill the ancient powers of the wild, with the blood and blood formed after the explosion of the flesh, in order to condense. can

It is said that every big blood can not be easily obtained by hand, and refining a twenty-eight-level Baodan requires at least five powerful blood. leaf

Xuan can have collected a powerful blood before his perfect Dan Fang has yet to be deduced. This is definitely an unexpected surprise. I never thought about it before, and I didn't dare to think about it...

At this moment, as the blood-stained star was smashed, Ye Xuan's mid-cold flashed, and immediately turned to the head, and looked at the three awnings in the universe beyond the distance of 2 billion miles away!

Almost at the same instant, from the three canopy groups, there was also a scream of exclamation, and it came out loud...

"What? The deity is actually falling? How is this possible..."

"How long does it take? Just a few moments, I haven't decided whether to take it or not, and I'm already degraded..."

Finished, there is no hope for this battle today! ""

The temperament has the secrets of blood and sea, and under the power of avatars, it is possible to condense three blood and sea avatars in an instant, each with the strength of the third-order power of the shoulders..."

"But now, I have only three people left, even if I am on the same level, it is only a **** battle with him. The advantage of half-pressing is not enough."

"There was no suspense in the trap, but it was so quietly and invisibly cracked in the invisible?"

Two months, it's only two months, and the situation has changed so dramatically. It's just like a world apart..."

"In the past two months, this violent temper is almost a dead end, just a matter of time."

"But now, I have waited for twelve powerful presences to come together, and I have been killed by him. Only three of them have been left."

The violent, but in this process, is getting stronger and stronger. Now, I already have the power to fight with me, and I can't win, but I have no worries! This is called...what is it? "

"I care about it, it's really a big deal..."

"In any case, you must not give up on this. At least the real power and foundation of the current violent temperament have all been exposed, and there is no possibility of any accident..."

Yes, I will not reconcile, and I will not be reconciled if I do not take it. I will know that there will be two powerful early supremes that will come to this place, plus the strength of breaking through now. Absolutely It is impossible to stay and stay..."

This war, even if I wait for the unintentional, violent, will provoke, and if so, it is better to take the initiative, the momentum can still take an advantage first..."

"So, then it will go out, I will join forces to fight for this enchanting temper..."

Roar! "

"Hey..."

Rumble..."

The sound of the gods came, and the three canopy of the universe in the distance of 2 billion miles away, in an instant, moved toward the central zone where Shennong Ding stood. Virtual

In the air, there was an earth-shattering roar of thunder.

With the arrival, the light corpses that shrouded the three ancient bodies of the ancients were also completely dispersed. They were all in the body, and at this moment, three huge starry beasts appeared in Ye Xuan. In the field of vision.

The three beasts, all of them, like the previous blood-stained star, have a huge body size of more than 40 million miles, which is only a small circle or two compared with the starry sky. This

Among them, the most powerful one is actually a purple beetle, which is also one of the star worms, which is purple and flamboyant, like a huge purple armor. its

The refinement of the body is a breath, and it is the fifth stage of the ancient power of the ancients. It is only one step away, and it can reach the peak of the mid-mass.

The second one is a three-headed blood dog. The body that has been dispersed in the body is a breath, and it is the fourth stage of the ancient power. It is the first time in the middle of the big energy. most

The last one is a nine-black black cat with a fascinating sensation. It gives a very mysterious feeling. This black-eyed black cat is very likely to have some kind of magical power, because this pair of scorpions It is really weird, it is impossible to have no special ability. to

The temperament that is dispersed in the body is the weakest, only the first step of the ancient power. "

Rumble! "

"Booming..."

In the thunderous thunderous sounds, these three powerful wild powers come from a distance of two billion miles. In the blink of an eye, they have passed nearly one-half of a billion miles, and they are straightforward. The violent side of Shennong Ding is approaching..."

Has the final battle time finally arrived? "Look

In this scene, the violent smashing of the cold mangling flashed, and his hair screamed: "If this is the case, then it will be a war! Hehe..."

call out! "

The roar of the roar is just beginning, and the Shennong Baoding, which stands like a star in the sky, is spurred in an instant. It hangs over the top of the violent head. The domain field power is fully motivated, slowly rotating, pouring out A colorful mist of fog, covering the violent body...

Chapter 4587: Banmen axe

The war broke out, and the final battle was over...

"Hey!"

With Ye Xuan's thoughts, a tiny **** awn of a worm is shot from the violent eyebrows. The speed is almost at the extreme, and the wind is rising. The blink of an eye is already in the universe of the front, turning into a billion. There is boundless blood in the circle.

"Roar!"

Roar! ""

Oh..."

For a moment, from the two different directions of this vast sea of blood, the sound of screaming and screaming sounded, and then, in the boundless blood of the sea, there were two huge figures, instantly plucking the ground. . and

At this time, the violent temperament of Shennong Ding, also rushed into this **** sea. Are

Between the moments, the three figures have a huge figure of 60 million miles, and they suddenly gathered in the **** sea. positive

It is the three great devils of the Taikoo konjac. blood

The body of the flesh is the violent starry sky. The top of the head is hung with Shennong Ding. It whirls and sways, pouring out the atmosphere of nine colors, turning it into a curtain, holding the violent figure.

This is the strongest means of protection in Ye Xuan's hands. It is enough to make the combat power already more powerful than the third-order power. When fighting against the powerful fifth-order power, it can protect the body and ensure that it is not strong. The strength of the injury.

Yes, the flesh and blood form of the violent form, the chosen opponent is the purple armor of the three ancient powers, the most powerful, starry zerg with the fifth-order terrorist power of power.

"Hey!"

The head roared, and the head hanged Shennong Ding, holding the violent savage of the **** stick of Shennong, and strode in the **** sea, rushing toward the purple armor!

The second one is the body of the skeleton in the three bodies of the konjac. There is no flesh and blood. It is just a purple-golden shin, showing an endless fierce temper.

"Hey..."

The faint sound of the road broke, and the eyebrows of the bones of the bones also shot a mile, the color was nine colors, and the wind rose, and instantly became a nine-color flame sea. This

The awning nine-color flame sea eats a long strip, like a flaming river, but it is very ingenious, like a giant python, hovering over the body of the shinbone body, winding up and down three times.

The strength of the bones of the skeleton is only comparable to the third-order power, and his opponent is a three-headed blood dog, and the strength has reached the fourth level of power.

But with this nine-color flame-like sea-like body like a ribbon, it is hard to touch the three blood dogs of Shennong Nine-Color Flame. It will be controlled everywhere. The final result of this battle is hard to predict.

"Hey..."

The smashed ribbons of the nine-color flames wrap around the upper body, and the body of the cheekbone also raises a scream of horror, and then hesitates, even when the three blood dogs in the other direction rushed over... 眨

Between the eyes, the other two konjac bodies have left, each picking their opponents. At this time, there is only one figure left in the vast sea of billions of miles away. positive

It is the body of black fog among the three bodies of Konjac! black

Although the body of the fog is also a violent form, but the body is a black fog, even a pair of scorpions, just two awnings, it looks very strange... black

The repaired atmosphere in the body of the fog is the second-order of the same ancient power, but the combat power is the same, and can be compared with the third-order power. three

With blood and sea avatars, all of them are huge bodies of 60 million miles, just like the biggest giant stars. In such a terrible body, the power of blood is too majestic, and they directly make their own real power. , skyrocketing first order... black

The opponent of the body of the fog is the nine black cats among the three ancient powers. This

Only the black cats in the nine-spotted black cat screamed with a mysterious feeling, which gave people a very mysterious feeling. It is very likely that they have some kind of magical powers. Because this pair of scorpions is too strange, it is impossible to have no special ability. .

As for the cultivation of the breath that is diffused in the body, it is the weakest, only the first step of the ancient power.

The strength of the darkness of the third-order power of the shoulders, combined with this vast sea of blood, the only battle of the nine-six black cats of the ancient era, the result of this battle is simply no suspense.

It is even more likely that it will end soon and end completely. Such as

In this way, the body of the black mist that has been drawn out will be able to immediately mobilize the body of the skeleton, and the two powerful konjac who have the third-order power can fight the three blood dogs in the fourth stage. Such as

Therefore, at least 50% of the grasp, can kill each other...

If this is the case, after the end of this second battle, the body of the black mist and the body of the cheekbones will be pulled out again, and will go straight to the void in the other direction, and the violent flesh and blood of the **** battle with the purple armor... Such as

As a result, the strength of the three third-order high-energy levels, the fierce battle of the fifth-order genius Zijia Tianniu, at least has been able to ensure unbeaten.

Although the possibility of bombing is still small, only about 30 to 40%, but even if it is impossible to kill, this battle is absolutely worthy, because the nine black cats and three blood dogs that were previously killed , it has already let Ye Xuan's precious and powerful blood in his hands, and soared two more... This

Everything, Ye Xuan had already figured it out before deciding to make this final battle. in

In his view, the chance of success in winning this two major abilities is about 50%, and the chance of winning only one big blood is between 60% and 70%. Such as

Therefore, there is a big risk, and he is risky to stay, and fight again! "

Oh..."

"Oh la la..."

At this moment, with the violent scorpion of the body of the cheekbones and the body of flesh and blood, the body of the black mist standing alone in the vast sea of blood, the head turned out to make a terrible noise. tight

Then, the sound of the whistling sound has not yet fallen, and the horrible figure of the black mist of Pangda's 60 million miles has been turned into a **** fog, which has dissipated and merged into the vast and endless blood of the feet. Among them. tight

Then, the entire vast sea of blood, which is a billion miles away, began to shrink rapidly at a heinous speed.

Just a little bit of interest, it narrowed down to a point that only refers to the big belly. Suddenly, with a speed that surpasses the speed of lightning, it cuts through the void and slams into the other direction. And go... nine

The body of the black cat is the same as the other two powerful wild powers, and it is also a giant of more than 40 million miles.

At this time, he was roaring in the void in the distance ahead. but

The original goal was enormous, and there was a boundless blood of a billion, but it suddenly shrank, turning into a drop of blood that was only the size of the belly, and leaping toward him at an alarming speed. .

This tiny volume, the speed of this horror, is the nine-footed black cat with a huge body size of 40 million miles, and the strength is originally on the black cat.

All the factors are added together. If the black cat is hit, even if his treasure body is too strong and tenacious, I am afraid that it will be a moment to be pierced by an instant.

"Meow....."

At this moment, the nine black cats made a long scream, and in the deep squat, they immediately shot two awning beams. in

Ye Xuan's face in front of him, this is simply... Banmen axe!

Chapter 4588: Old cat scratching

"Hey..."

The faint and incomparably sharp sound of the emptiness sounded, and the two black beams of light in the universe's emptiness came from the front. In the middle of the journey, they were intertwined and finally merged into a black 直径 with a diameter of tens of thousands. Mang, the tiny blood beads that rushed toward the blaze, shrouded...

The two black beams that were intertwined in two moments were shot from the eyes of the nine black cats that were roaring in front. This

It is the energy beam of two gongs, that is, the pillar!

The nine-footed black cat, such a starry beast, is extremely rare and is considered to be a rare alien species.

It is said that the cat has nine lives, and this nine-black cat, the nine-life **** in his blood, refining into the eyes, turned into a pair of black nine-cat cat eyes.

The cat's eyes are extremely deep, with a circle and a total of nine pupils. This

The nine-fold blink of an eye has evolved into the **** power of this nine-black cat. It has a powerful power that can be broken, and even has a physical attack effect. can

It is said that the black pillars shot in the eyes of the nine black cats can break through all the hidden secrets and magical powers. If necessary, the nine black cats can even use it to directly wear a star. It's so easy...

Even if it is more powerful than the antimatter energy beam of the three major stars in the world, it is too much...

This kind of martial art, which is both sinister and sturdy, has physical attack effects and power, is originally extremely powerful, and the strength of this nine-black black cat is even more powerful. Under the combination of the two, when he displays this kind of magical power, his power and destructive power will obviously be extremely horrible...

At the moment, the nine black-and-white cats will display their most powerful blood vessels.

This aspect is because he is not very confident about this battle. After all, he is only a step by step, but the realm of the black fog has reached the second level of the ancient power, and the real power is even more It is a third-order power.

If you don't start with a strong one, once you get stuck in a passive situation, you will be forced to find another chance to turn over. I am afraid it will be difficult.

On the other hand, it is because the body of the black mist drives the entire vast sea of blood, blending with itself, turning into a drop of blood that only refers to the size of the belly, the power is all applied to the speed, the speed is extremely incomparable, it is dazzling, Coming to him lasing...

This kind of speed makes the nine black cats fear, and gives birth to a feeling of powerlessness. He is worried that he will be worn by the tiny, unremarkable blood-stained hole, and he will use this kind of relying on the pressure box. The blood of the gods.

In the distance, the nine-inch black cat with more than 40 million ponies of Panda has already exploded. The black blood is flowing out and hanging on the face. It still lingers in tears and looks horrible. The creeps are stunned.

The scorpion magical powers were broken, and the black cockroaches were smothered. The hard-working sorcerer's magical powers were completely dissipated, and even their eyes were smashed. At this moment, the figure was struggling in the void, and the mouth was screaming. Out of his heart is a kind of extreme fear and uneasiness.

In fact, as a powerful ancient power, even if you lose your eyes, there is no relationship. The knowledge is scattered and the eyes are clearer than the naked eye.

But for the nine black cats, this pair of scorpions is too important for him. It represents the martial arts magic that he sees as a card and relies on him. Now his eyes are stunned, and his heart is extremely frightened. Extending it, instead of visually inspecting everything, it was forgotten. black

It is impossible for the body of the fog to let go of this opportunity.

"Hey!"

It was a faint sound of breaking through the air. In front of the sky, seven hundred and eight billion miles away, a drop of tiny blood to the size of human beings, with a horrible speed of horror beyond lightning, through the blink of an eye The void of the universe, to the front of the nine black cats...

Chapter 4589: One more

"call out....."

"Hey!"

The sharp sound of the air broke out, followed by a more violent whistling sound...

The tiny **** mans that are only tiny to the size of the human body are the body of the black mist in the body of Ye Xuan's three konjac, which is formed by the whole **** sea and then undergoes extreme contraction.

Power is strong, the speed is reaching the extreme, and at this moment, the glare comes across the gap of 700 million miles in the blink of an eye, directly through the body of the nine black cats.

Unfortunately, the blood beads were originally shot at the eyebrows of the nine black cats. If they were pierced, they could immediately smash their spirits and make their seas collapse.

However, because the nine black cats at this time are still in the fear of panic and panic, the entire huge body is indiscriminate, so it directly leads to the deviation of the blooddrops. . most

As a result, I have not been able to directly penetrate the sea of nine black cats, so that they will be destroyed and stunned...but

It doesn't matter, the body of the black fog does not put this black cat in the eye.

If you hit a shot, it will be a big deal. "

call out....."

"哗啦啦....." broken

After the whispering sound, the overwhelming sound of the slaps of the water spread out, and the tiny blood beads that pierced the body of the nine-black black cat's body, soared in the blink of an eye, and expanded into a huge pound of billions. Bloody sea...a few

In the next moment, in the **** sea, a black mist swelled and quickly condensed into a huge body with a giant of 60 million miles. It is the black in the body of Ye Xuan's three konjac bodies. The body of the fog!

"Oh..."

The body appeared in the second time, and the body of the black mist screamed out with a terrifying scream. Then, the whole piece of the vast sea of blood under his feet was swiftly swept away, and the half body was not enough, and the body shape was in the air. The nine black cats are covered. This

At one moment, the body shape of the nine black-and-white black cats suddenly became sluggish, just like being caught in a kind of sticky mud. This

The opportunity, the body of the black fog is naturally impossible to let go. Yang

The sound of the roar of the head is still not falling, and the body of the black mist has already strode away. The giant black fog body of the entire Panda is 60 million miles, which is quickly solidified, transformed from the former misty state to the like. Black is in a state of rigidity! "

boom! "huge

The loud roar of the sound rang from the void, and as the body of the black mist came, it slammed into the head of the black cat, and the huge figure of the latter exploded. in

Under the horrible power of the black mist, the flesh is completely blown up for a black **** fog, and it spreads!

This result is originally intended.

The repairing power of Jiuyi Black Cat is only the first step of the ancient power, and the body of the black fog in the three bodies of Ye Xuan, the real power is already comparable to the third-order power. Strong

Two small steps.

In addition, the nine-black black cat magical power was destroyed, the two eyes were already smashed, and the whole body and mind were still immersed in some kind of intense panic.

In this case, he has almost no defense at all, so that a natural blow is broken..."

call out!"

It's just a second explosion when you can't catch down on the enemy. This kind of battle makes the head and body of the black fog loose, and the mysterious face also shows joy. No

Any hesitation, then, the body of the black fog waved in the first time, a incomparable invisible temperament from the body, enveloped a million miles.

The black blood mist that just spread out was swept away in an instant, turning into a green waterfall of blood and blood, like a long rainbow, and it was incomparably into his body, waiting for the end of the war. , and then expand... blood fines. blink

Between the eyes, the four powerful wild powers that came this time were smashed by Ye Xuan...

At this time, with the fall of the nine black cats, the **** fog formed by the explosion of the flesh is completely removed by the body of the black mist. This also represents the powerful blood in the hands of Ye Xuan. And add one more to this, reaching two. only

It's just this harvest, and he's not letting him bite his teeth, and the decision of this last battle is going on. A big bloodline is worth it! but

This is obviously not the end. Time

There are still, although Ye Xuan did not plan more, but the three blood dogs, but he has long been regarded as a bag of things ... must be killed!

"哗啦啦....." shop

The sound of the gully of the sky was coming, and the whole piece of the sea of blood, hundreds of millions of miles away, suddenly violently surged, and the time that was less than half an hour was

entangled with the body of the cheekbone. The nine-color flame sea streamer is generally turned into a long and narrow blood streamer.

Inspiring and violent in the void, and finally in the huge body of 60 million miles in the dark fog, three circles around each other..."

Oh..."

In all this, the body of the black mist screamed out of the hair, surpassing the huge body of the giant star, and immediately strode in the void, rushing toward the battlefield on the right side of the front.

The fierce battle in this direction is the body of the skeleton and the three blood dogs in the three bodies of Ye Xuan. three

The cultivation of the blood dog is the fourth-order power of the ancients, and the real power of the body of the skeleton is only the third-order of the ancient power. can

It is said that if there is no nine-color flame sea turned into a long and narrow giant streamer, wrapped around the body of the skeleton, and in the war it is like a snake, sometimes left and right, attacking, making the three blood dogs taboo. Very incomparable, often rushing to close, to avoid... This

The battle has continued until now, and it is impossible to still be as it is now, just to be evenly matched.

That's right, even if there is a nine-color flame sea, it turns into a giant scorpion-like ethereal streamer, and it is only a fight with the three blood dogs. repair

As the strength goes to the back, often the difference in the strength between a small order, the more it seems to be judged.

Nowadays, Ye Xuan already has the power of the ancient power level. In this big realm, the meaning of a small-scale gap is an unprecedented distance...

However, this situation will obviously change soon. because

For the body of the black mist, the black cat has been quickly solved with lightning speed.

In this way, with the addition of the black mist and the whole **** sea, the two of the three major bodies of the konjac, fighting three black dogs, now the dangerous situation will be very short. The time is broken...

"Hey..."

In the whistling sound of the sky, the black mist that ran wildly and rushed, finally arrived. No

After half a hesitation, and after a raging roar of the hair, the whole body of the black mist will be solidified again in an instant, just like the hardest black steel, the **** stream of the whole body is like a snake, and it is like a star. The huge black right fist, also with the momentum of the bang, punched the head of the right side of the three blood dogs, slammed...

Chapter 4590: Sneak attack

In the void, two huge figures are engaged in fierce battles. One

The shape of the head is 60 million miles, the whole body is squat, and the body is very incomparable. The whole body is also wrapped with a streamer that has been changed by the nine-color flame sea. It is very ingenious, and it is interspersed from time to time, so that the opponent rushes to avoid it.

This is the body of the skeleton in the three bodies of Ye Xuan.

At the other end, the body type is only over 40 million miles. It is full of blood, but has three heads and is spitting lightning.

It is the three blood dogs with the fourth-order horror.

This level of warfare, in general, has rarely mobilized auxiliary objects such as the use of treasures, all with their own blood vessels or **** secrets to defend the enemy. except

It is not Shennong Ding, God's pesticides, such as the ancient treasures, or the ancient treasures, otherwise, in this level of war, simply can not hold back the horrible hedging power during the war, will be destroyed.

Therefore, the body of the cheekbones and the three blood dogs are just wielding the flesh fists to fight instinct in the body, or squirting thunder and lightning, and the flame sea ribbons that the nine colors of the flames have turned into, and the snakes are suddenly raided...

Since the beginning of the battle, it is still evenly matched. Of course, since the beginning of the war, there has not been much time left, and it is still in the stage of just starting the battle. "

Roar! "steep

However, the body of the cheekbone screamed out of his hair, and the nine-color streamer wrapped around his body suddenly fluttered at a rapid speed. At the same time, his body shape quickly approached and rushed to the three blood dogs.

The latter is obviously extremely taboo for the nine-color streamers wrapped around the body of the skeleton. This

The streamers look good, but in fact the power is terrible. This is the formation of the flames of the Shennong nine-color flame. Not to mention the ancient powers, it is the ancient supreme, they can only avoid their fronts, no Dare to touch. If

The strength of the non-three-headed blood dog is above the body of the cheekbone, and it is more than speed or responsiveness. Otherwise, the body of the cheekbone can be made only by the streamer of the nine-color flame sea. It was trapped and then suppressed and bombarded. this

When I saw the body of the cheekbone rushing, and the nine-color streamers wrapped around my body, I suddenly violently waved, and the three **** dogs screamed in the middle of the cold, and the heads of the three cockroaches showed jealousy. The color. "

Card..."

"call!"

"Boom..."

At the same moment, the three cockroach dogs opened their mouths at the same time, and three different energy attacks rushed out of the three big mouths. This

It is the blood talent of three blood dogs.

He is born with a thunder and lightning. this

Engraved, the central part of the dog's head, spewing out a majestic black sea of fire, overwhelming, cover the body of the cheekbones.

But this is obviously useless. The body of the cheekbones has a nine-color ribbon wrapped around the nine-color flame of Shennong. Can you fear this black fireworks? This

What to do, obviously just block the sacral avatar. and

In the mouth of the two dogs on the left and right sides, a large piece of thunder and lightning were spewed out, one left and one right, and the body of the bones rushed toward the attacking body...

These two canyons and the ocean of electric mans are not able to seriously hurt the cheekbones, but how much can make them hit hard. Therefore, under the flash of purple awnings, the cheekbones will instantly stop their body shape and wrap around the body. Flame Sea, scattered in an instant, turned into a nine-color flame sea...

In front of him, blocking the black flame sea that roared and the thunder and the lightning sea that rushed to the left and right, it also spread and opened, showing the trend of anti-copying, spreading around the three blood dogs. This

It is clearly the rhythm of the three blood dogs. If the nine-color flame sea that opened this piece is closed, the three black dogs will not be surrounded by the flames. Approaching, refining itself, but it will be in trouble...

This result is definitely not what the three blood dogs are willing to see and accept.

Under the flash of the cold mang, the three blood dogs retreat, and they want to retreat to the faraway space, avoiding the nine-color flame sea that is being swept away from the front, the left and the right.

"Hey..."

Roar! "just

At this time, the body of the blood mist rushed to the big step, and the hair screamed out of the sky, which was already substantial, like a hard right steel punch, instantly blasted.

His figure is just behind the three blood dogs, and the other's attention is all placed on the cheekbones in front of him, and on the nine-color flame sea that is being scattered, he never noticed behind him. The movement.

When the three blood dogs reacted, everything was too late..."

boom! "

"Hey..."

The loud noise of the earth came, the body of the black mist directly hit the back of the head of the dog in the middle of the three blood dogs, where a huge blood bag was blasted. This

Although the dog's head did not burst, but it was fainted on the spot, although there are two other dogs that are awake, but the dog in the middle is mainly after all, so, at one time, the three blood dogs are basically The reaction was not over, the entire huge figure was rolling forward. nine

The color flame sea is being copied from the top and bottom of the front. He originally wanted to retreat further, but he was unexpectedly attacked, but he rushed to the front..."

Oh..."flame

The sea pavilion exhibition, the speed is almost at the extreme, between the blink of an eye, it has been completely wrapped from top to bottom, turned into a huge flame sea ball, and the three blood dogs are in the center of the ball, it is trapped in an instant It is. "

Hey! "Look

In this scene, the body of the cheekbone immediately stopped, almost at the same moment, a faint low humming sound. With

The body of the cheekbone lifted the left arm, and a sturdy energy bow tire quickly showed up, but its shape was quite an ancient servant secret.

The bow body is composed of three parts, the middle of which is a double-headed monster, and the wide mouth of the anger is directed to the upper and lower directions. The upper and lower parts of the bow are two humanoid creatures licking the body.

The wide mouth of the two-headed monsters swallowed the feet and part of the calves of these two humanoid creatures!

The joints of the bows are just their painful heads, and their mouths are the strings. The hands are on the lips, and they seem to be in awkwardness. One

The root is obviously a string of strings formed by twisting together numerous fine gold threads. The two ends are connected to the souls of the two humanoid bodies. Then, a golden energy arrow appears in the string...

It is the supreme magical power that Ye Xuan relies on---陨天弓!

In order to be able to fight for time, as soon as possible to kill the three blood dogs, he couldn't care much, and decided to use the 陨天弓, a sacred power that has some influence on himself...

Soon, the scorpion scorpion smashed out a strange golden glory, his right hand extended, and he pinched directly to the bowstring of the left hand energy giant bow, holding the energy arrow, slowly pulling open!

"Hey..."

Then, the incomprehensible tremor humming sounded again, and even the surrounding voids seemed to have an invisible wave, as if the arrow was only pulling the string, and the momentum emitted by it had already made the void tremble. General.
