Chapter 459: Kill the smashing master

"No problem, but do you know why the ghost land is attacked?" Ye Xuan asked.

The lords of the cellar swordsmen paused and shook their heads: "We don't know, but people of such a large scale should have lurked in the land of nine secluded places. They should have huge conspiracy."

"Crap, of course I also know that there is a huge conspiracy."

Ye Xuan rolled his eyes and his heart was helpless.

Then he asked: "Do you know which sects are not being attacked now?"

"This...the old man is not very clear. We have been staying in the Zong for these days, and no one has brought the news." The sect of the cellar sentiment shook his head.

"Oh, forget it."

Ye Xuan sighed and then left directly.

Although I didn't ask any useful news, after all, let him upgrade from the first step of refining to the third order of refining. If he came again or twice, he might be able to go to the fourth stage of refining.

Therefore, he followed the map and went to a sect.

The power of the ghost land to wash the nine secluded land is to collect the grievances. Now, the refining grievances in Ye Xuan's Qiankun ring are already tens of thousands. If you add the grievances of the defensive order, the total number may exceed five. Million.

This time, his goal is a force called the Silver Snake. This silver snake sect has the same as the fourth-order refiner.

He rushed for a day at full speed and found the silver snake.

At this time, the silver snake was attacked by a group of ghost land masters.

"It's so good."

Ye Xuan's eyes lit up, looking at the masters of the ghosts above the silver snakes, directly released a few resurgence third-order grievances.

In this group of high hands, there are two refining fourth steps, and their grievances are also killed in the silver snake.

Ye Xuan was flying fast and someone found him.

"How come you are now, hurry up!"

A third-order warrior shouted to Ye Xuan.

Ye Xuan cultivated the ghost secret, plus a few resurgence third-order grievances, let this warrior naturally mistake him for the ghost land.

"Yes Yes Yes."

Ye Xuan smiled and leaned against the past, and immediately, the smile was abruptly stopped, and the two smashes shot two killings.

Beastmaster is violent!

The third stage of refining, instantaneously increased to the seventh stage of refining, its speed has exceeded the tenth order of refining, reaching the first order of radon.

There are three major stages in the gas environment: qi, refining, and suffocating. Among them, the qi is only nine steps, while the refining and suffocating are ten steps.

Anyway, Ye Xuan's speed is beyond the reaction of everyone.

"Hey!" "Hey!" "Hey!"

Ye Xuan rushed into the crowd, killing the Quartet, not three seconds, these dozens of people are all fallen, he also broke through to the fourth stage of refining.

Later, he took back the grievances of everyone and then quickly left.

The people of the Silver Snake did not understand the situation and spent a full ten seconds in the same place.

Is this a traitor inside the Ghostlands?

Next, Ye Xuan is constantly moving around these sects. If he sees the land of ghosts, he will kill him directly. His realm is also rapidly improving, just like sitting on a rocket.

He continued to penetrate into the nine quiet places, and the realm of people he met was getting higher and higher.

This ghost land, it really has a big conspiracy, these masters can not be recently come, but have long been hidden in the nine quiet land.

Out of curiosity, Ye Xuan is also a master of several ghosts, but these people are also ordered to act, responsible for collecting grievances, and then hand in layers.

Moreover, the plan of the Ghost Land is very meticulous, they first find out the details of these forces, and then send a master to destroy.

At this time, Ye Xuan has been the master of the nearly ten waves of ghost land, the realm has reached the eighth order of refining.

What he is experiencing now is a team led by the squad leader. At the same time, he also dive into it.

The sects they want to slaughter this time are a three-level force, and they also have masters of the temperament.

"Everyone listens to the order, kills!"

The strong first-order singer screamed, and the masters of hundreds of ghosts were instantly releasing countless ghosts, and the number has exceeded 20,000.

A large group of grievances rushed toward this sect.

Ye Xuan is hidden in it as before. Just when the grievances piled up, he suddenly appeared to be a violent beastmaster.

More than 1,700 dragons, directly rising 2,300 dragons, reached the fourth order of suffocation. And the strong man named the first is only a sigh of relief.

However, this is only the strength, the first step of the temperament to the first stage of refining, the real gas will have a qualitative leap.

From the tenth order of refining to the first stage of suffocating, there will be a new means called helium defense.

This defensive defense can greatly weaken the attack of infuriating, and Ye Xuan may not be able to kill this suffocating first-order master with the instinct of the eighth-order refining gas and the eight-year-old sword.

However, he can find the troubles of others first.

"Oh!" "Oh!" "Oh!"

The road was crisp and loud, and the heads and bodies of the people fell from the sky. In the blink of an eye, the strongest of the 100 ghosts were dead and wounded, and at least 30 people were fallen.

The realm of Ye Xuan is still rapidly rising.

"what?"

The savvy first-class master was shocked.

"Good guy, I dare to mix into the team of my ghost land, die!"

This suffocating first-class master was furious and took the sword toward Ye Xuan.

However, at this time, Ye Xuan just broke through and practiced the nine-order, one thousand eight hundred dragons. After the breakthrough, Ye Xuan still did not pay attention to him, but continued to slaughter the people around him. When the master catches up with him, the people in this ghost land are almost dead.

"call out!"

The first-class master of the suffocating plundered in front of Ye Xuan, and a sword fell, but it was on the shadow.

Ye Xuan had already circled his back and swept out a sword.

"Hey!"

Instinct was weakened by the suffocation, and Ye Xuan's wrist was suddenly trembled when the Eight Guards sword was on the defensive defensive.

"Hey!"

The warrior hurriedly blocked it with a long sword and shouted: "I want you to kill me?"

He also saw that Ye Xuan is empty and has a very low intensity. If he is really a third-order master, he will be able to kill him.

"Oh, just rely on me!"

Ye Xuan sneered, and once again pulled out a sword, this time, used martial arts.

Huang Quan sword method, the sword falls Huangquan!

"Oh!"

A human head flies up.

Only the first sword, Ye Xuan just look at the effect of this suffocating, and did not use martial arts.

"The defensive defense is really good, it has weakened me a lot of infuriating. If the Beastmaster violently upgrades not only the power but the realm, then it will be fine."

Ye Xuan shook his head helplessly. If the Beastmaster violent can enhance the realm, then he might be able to fight the people of the fourth and fifth grades.

He will take away the shackles and devour all the things inside.
