Chapter 4591: One arrow bleed dog

"call out!"

At this moment, the body of the cheekbone loosens the right hand holding the energy bowstring...

In the air, a sharp and extreme, the eardrums have a resounding resounding sound, and the energy arrows that have filled the full force of the strings are rushed away. gas

The interest is too strong, and it is almost devastating. It is Mo Kefeng. This arrow is shot. It seems that even the void is broken open instantly. The golden flow is shot, and there is a black wave behind the tail.

The time was short enough to be negligible, and the golden arrow that screamed at the speed of the moment quickly reached the front of the three blood dogs..."

陨天弓?"

"This is impossible! No..."

At one moment, the dizziness of the dog head in the middle of the three blood dogs disappeared, and the golden arrow that hit the front of the eye disappeared. He suddenly stunned, the sound of screaming sounded, and the endless unwillingness and despair, but changed Nothing...

"Hey..."

Everything that came down was no suspense. In the blink of an eye, as the golden arrow plunged into the middle of the dog's head, the three blood dogs of the entire Panda's 40 million-mile body suddenly collapsed and completely blown up into a gorgeous blood. Fog, spread on this!

"Hey!" micro

The weak sound of the air rang, and the black mist that rushed to the side waved at the moment. The invisible invisible enthusiasm was rolled out of the body and enveloped a radius of ten thousand miles. just

The **** fog that just spread out was swept away, and the income was left in the body to be sent to Shennong Ding after the war, and blood purification was carried out!

In the blink of an eye, the four powerful wild powers that came this time were defeated by Ye Xuan...

At this time, with the fall of the three blood dogs, the **** half of the blood formed by the explosion of the flesh is completely removed by the body of the black mist, which also represents the powerful blood in the hands of Ye Xuan. And add one more, and reached three.

Also harvested a powerful blood, the expected goal has been reached! but

This is still not the end, Ye Xuan... I want to fight the last game again!

"Oh..." broken

The empty sound rang, and the nine-color flame sea that spreads out quickly shrinks and turns into a nine-color streamer. It is like an infinite starry sky color, and it is immediately wrapped around the body of the skeleton..."

Roar! ""

Oh..."

In the next moment, the cheekbones and the black mists were each screaming and screaming. Then, with the flames of the sea and the **** sea streamers, they took a big step and started the speed, heading toward the left side. And go.

There, the flesh and blood in the three bodies of the konjac, that is, the starry sky, is striking with the fifth-order genius Zijiao Tianniu...

.....

"boom!"

"Booming..."

In the void of the universe, which is more than a billion billion miles away from the front, a blast of roaring sounds came.

One of the three bodies of the konjac, the flesh and blood of the body is violent, and here, and the fifth-order genius Zijiao Tianniu launched a terrible battle.

Amethyst is a very rare star worm, the whole body is purple and shining, just like the purest amethyst, and its body shape is more than 40 million miles, close to 50 million miles. More

The huge starry sky of 60 million miles is just a thin circle. This

The starry worms have a pair of tentacles on their heads. They should have some kind of mysterious blood power. In addition, there is a tubular mouthpiece in the middle of the skull. This

The root-shaped mouthparts are the most conventional and powerful means of attack of the purple beetle.

As a fifth-order power, Zijiao Tianniu is only the strength of the flesh and blood. It is extremely powerful. Even if it is the void of Hongmeng world, he will certainly be able to open with a brute force.

But at this moment, Zijiao Tianniu did not use this kind of close combat mode, but in the space of the universe from the starry sky about 200 million miles away, and began to swim. Time

From time to time, from the huge tubular mouthpiece in the middle of his huge body skull, there will be a purple energy light column shot, blasting into the starry sky.

The body of the purple beetle, Pangda 40 million miles, even if it is just a mouthpart, the diameter is extremely scary, and there are tens of thousands of feet.

The purple energy light column that is sprayed out is the same diameter. Tens of thousands of feet, that is, hundreds of thousands of meters, even the main ship gun of the starry sky is not so terrible. when

However, not only the diameter, but also the energy level is completely incomparable. The purple armor is a fifth-order power. The power of this purple energy light beam ejected from his mouthpart is terrible. Naturally, know.

However, the entire body of the violent moment is shrouded in the curtain of the purple air that is hanging over the top of Shennong Ding. This purple light curtain looks like a thin, like a layer of fog, but in fact, It represents the full domain power of Shennong Ding.

Although the purple beetle is a fifth-order power, the energy beam that is emitted from the tubular mouthpiece in the middle of the skull is unable to open the fog light curtain that protects the violent body...

I can't break it!

The war has continued to this day, and it has been a little while. After all, in the other two battlefields, the body of the black mist and the body of the skeleton have already killed two other powerful ancient powers. can

Even so, Zijia Tianniu still failed to bring any harm to the violent.

He has been wandering around in the violent week, and from time to time he blasted an energy beam to test, but in fact, he is looking for a chance to hit a violent storm. "

call out! Sudden

However, the extremely sharp sound of the air broke out, and a black mang was thrown out of the smog that covered the violent body, and disappeared directly in the void.

At this moment, Zijia Tianniu's heart was suddenly alarmed, and his heart mentioned the eyes of the blind man. This

The black mang, clearly is the **** stick that is pinned by the violent hand. Because the purple beetle has been kept at a distance of 200 million miles, it is impossible to use this big head. Black stick, pinch him in his hand.

At the moment, the **** bar is turned into a mang, and it disappears from the nine fogs, and then disappears. This is clearly a mega-sign that motivates its space power...

This kind of attack is the most headache, and it is impossible to prevent it. The purple beetle is so nervous that it is extremely extreme. It is ready to get rid of the momentum.

However, in view of the violent previous syllabus, the attention of the purple armor is almost all in the direction behind him, because every time before, the **** stick that motivated the space power is so sneak attack. "

boom....."

"boom!"

"Card..."

However, this time the situation was bigger than he expected. The **** stick appeared directly in front of him, but it was only a hundred miles away. When the purple beetle returned to God, it was completely out of reach.

The **** stick squatted, and the two purple tentacles on his head were cut off directly. Even the tubular mouthpiece in the middle of the skull was smashed into a trumpet flower...

"Hey..."

The pain came, and the purple armor of the Tian Niu made a fierce and fierce sound. The whole heart sank to the valley. These two tentacles are too important for him. Although they can recover after the war, they are relying on them. No, it's going to be a human life...

Chapter 4592: Violent calculation

A single blow, the purple beetle lost a lot.

This violent temper seems to be random, but in fact it is the result of observing for a long time and waiting for an opportunity. From

Since the beginning of the two men's wars, the violent temper has never used this **** stick. On the one hand, because the purple armor is deliberately maintaining a virtual distance of 200 million miles, it is separated from the distance and occasionally bombards an energy beam. The result of violent. another

On the one hand, Ye Xuan is also deliberate.

When the purple beetle pulls the distance in this way, from time to time, a beam of energy is blasted, and when the temper, and the nine-colored fog light curtain covering the violent body, are tempted and observed, the temper is not the same. What?

In the process, Ye Xuan was keenly aware that Zijia Tianniu has been intentionally or unintentionally protecting the two antennae-like slender tentacles on his head. When moving the figure, they will deliberately put these two tentacles. , reverse to a safer position...

In addition, the Starry Zerg has a variety of unique, blood-related powers related to its biological frequency, either for communication, or to escape, or ... is an attack. and

All of this, since it is related to the biological wave frequency of the starry zerg, it is naturally the key point of the antenna.

In the past, the starry zerg that Ye Xuan had contacted was basically the same. can

It is said that the top of the head or the tentacles that grow in other parts of the body are almost the dead spots of the Starry Zerg. Although they are not as good as the seven inches of the snake, once they are pinched, they can be subdued. but

As long as the antennae of the starry zerg are destroyed, they will not be able to perform or be greatly affected by the unique blood talents activated by the biological wave in the body.

From the war to the present, this Zijia Tianniu knows that the purple energy light column blasted in the central tubular mouthpiece under his head can not open the nine-color fog light curtain that covers the violent body.

But it has been going on all the time, and it has come out from time to time. This

On the one hand, perhaps on the one hand, it is to observe and find the weakness of the nine-color purple fog light curtain, but in Ye Xuan's view, the more important purpose should be to confuse. boom

More, Ye Xuan will naturally get used to it, thinking that this is his main attack method. During the war, most of the attention will be placed on the purple energy beam that has been blown out from this tubular mouthpart. .

Once this inertial thinking is formed, it is the best time for the purple armor.

Perhaps he will be stunned by Ye Xuan, suddenly urging the body's biological wave frequency, through the two slender tentacles at the top of the head, launching a unique blood talent...

It is actually a starry zerg in a wild and powerful environment. What does the ghost know about his blood talent?

This is the secret method of using the biological wave frequency of the Starry Zerg, which is invisible and inferior. If the nine-color fog light curtain that can penetrate Shennong Ding directly affects the violent body hidden in the light curtain, it is not good. It is. positive

Because of this, from the beginning of the war, Ye Xuan was wondering how to destroy the two tentacles of the top of the purple beetle, although as a powerful fifth-order powerful star worm, two slender tentacles at the top of the head Even if it is destroyed, it can grow again.

But it takes a certain amount of time, at least in front of the battle, the two tentacles and some or even some unique Zerg blood talents and secrets associated with it, absolutely cannot be expected, as if they were abolished...

This important, has almost reached a strategic level, Ye Xuan naturally attaches great importance to it, has been forbearing, until the timing of the arrival, only suddenly shot, shot a **** stick, successfully destroyed the top of the Zijia Tianniu head Two slender tentacles.

At the same time, by the way, the tubular mouthpiece at the bottom of his head was directly bombarded into a trumpet flower, although it can be restored, but at present, it has obviously been abandoned...

Although all this is only Ye Xuan's speculation, in fact, this calculation is superb, and it is simply a godsend.

At this moment, with a pair of slender tentacles on the top of the head being smashed, the whole heart of the purple beetle sinks into the valley. His biggest killer is indeed related to his unique zerg bio-wave frequency. but

Since it is a biological wave frequency, like the starry sky radar on a warship, an external device such as an antenna is required to display its power.

Now the two slender tentacles at the top of the head have been destroyed. Just like the starry radar does not have an external device like an antenna, his Zerg bio-wave frequency is simply useless.

There is a golden mountain in the air, but it can't be used at all. This feeling makes the purple beetle squat to the extreme, and it is also extremely angry. a few

It's subconsciously, after the end of this fierce and terrible sound of tragic pain, the purple armor is immediately violent, and it immediately pushes the power of the body into a smashing Nearly horrible energy, rushing toward the tubular mouthpiece below the skull.

This is his strongest blow, far more than the purple energy beam that was used to test and confuse the violent temper. purple

A Tianniu even has an illusion that under the full force of this anger, the violent purple energy beam that spurs out from the tubular mouthpiece underneath his skull may not even be possible, and will be violent. The nine-color fog light curtain on the whole body was blown in one fell swoop..."

boom! "shock

The roar of the earth and the sound of the mouth, the mouthparts under the skull of the purple beetle, suddenly a purple mans, the degree of brilliance, almost ten times more than a previous burst of purple energy light column. This

Once, he did indeed do his best under the wrath, and it was indeed the strongest blow since the violent war.

Unfortunately, he has a cup! because

In order to pay attention to the two slender tentacles on the top of the head, the Zijia Tianniu was in a state of turbulence, and he ignored his tubular mouthparts. In fact, he also bombarded a stick before the violent Under the damage, it has already become a trumpet flower. and

Moreover, this deformed trumpet-shaped mouthpiece, as well as some split bifurcations, is a post-folding angle of more than ninety degrees, aiming straight at the huge body behind his head and neck.

Therefore, with this energy light column blasting, under the purple mangling under the head of the purple beetle, it should have been a whole energy light column, which was divided into numerous roads of large and small, some toward the front or the front and the top. The front and the bottom blew out...

But more, it is flooding the trumpet-shaped mouthparts and rushing to his own body...

"嗷呜..."

The sound of the horrible sound of the previous screaming, the purple beetle is almost collapsed. he

In the first half of the body, there are countless holes, large and small, and some even pierced the huge body of 40 million miles...

Although it is not serious, it is not as simple as a minor injury, between minor injuries and serious injuries.

More crucial is the drama of the mind and soul. This

A blow is actually caused by one's own intentions. Just think about it, it means that people have the urge to vomit blood...

Chapter 4593: Qi Zhan Zijia Tianniu

"Roar!"

Oh..."

In the distance of the void, the earth-shattering roar and the sound of the whistling sound came, and the two giants were huge, with a huge figure of 60 million miles, one left and one right, striding forward and rushing in the void.

The first is a skeleton of the cheekbones, without any flesh and blood, just a purple-golden cheekbones, revealing endless fierce breath, very incomparable. With

With a big stride, his eyebrows shot a mile, the color is nine colors, and the wind will rise. In a moment, it will turn into a nine-color flame sea, which is a long strip, like a flaming river, but it Ingenious, like a giant python, hovering over the body of the cheekbones, three circles around each other...

The second is a black misty body that is like a ghost. The foot of the horse is under the foot of hundreds of millions of miles away.

But at this moment, the blood sea suddenly violently surged, and the time of less than half an interest, and the nine-color flame sea streamer circling around the body of the cheekbone, turned into a narrow **** streamer.

Inspiring and violently swaying in the void, and finally in the huge body of 60 million miles in the dark fog, it is also entangled three times!

These two huge figures are the body of the skeleton and the body of the black fog in the three bodies of Ye Xuan. just

Just killed nine black cats and three blood dogs, and now they are coming together, together with the temperament of flesh and blood, try to kill the purple armor of the fifth-order power!

Of course, it's just an attempt. If you try to find that there is no chance, Ye Xuan will take it away. Anyway, this Zijia Tianniu can't keep him anymore...this

At the time, Zijia Tianniu had just accidentally injured himself, and his heart was in anger. cold

Unexpectedly, I heard the horror and screams from the mouth of the cheekbones and the mouth of the black mist. It was a glimpse. first

Before, he did not pay attention to the situation of the other two battlefields.

On the one hand, because this war has just begun, he never thought about it. The black cat and the three blood dogs will lose in such a short period of time. another

On the one hand, it is because the distance is too far, and his whole mind has already been put into the temptation to observe and observe the starry sky. It is innocent to pay attention to the other two in the distance of more than one billion The battlefield situation.

At this time, with the body of the cheekbones and the shoulders of the black mist coming together side by side, the purple beetle realized that it was not good...

Looking around, when he saw the void in the distance, only the body of the cheekbones and the body of the black fog, the nine black cats and the three blood dogs were already invisible.

Zijia Tianniu instantly understood everything, and his heart suddenly gave birth to an unprecedented sense of sorrow...

horrible. This

In a short time, nine black cats and three blood dogs have been killed.

Nine black cats are nothing more than just a first-order power, but the three blood dogs can be different. He is the fourth-order of the ancient powers, and it is only a weaker one than himself.

Nowadays, the tentacles of his head are destroyed, and even the tubular mouthpiece has been smashed into a trumpet flower that can only accidentally hurt himself. This

In this case, the most powerful biological wave frequency and blood secret method can not be applied, and even the purple energy light column can not be bombarded.

This is clearly the only rhythm that can only be forced and violent.

This is the existence of the three powers of the third-order power. If you join forces to fight yourself, plus the **** stick and the nine-color flame sea... even if you are a fifth-order power, there is no possibility that it will fall. . complete

Actually, I am already in a state of minor injury. "

Oh..."

One thought of this, Zijia Tianniu raised his hair with an unwilling whistling sound, and his body shape trembled, and he wanted to pull out. If

If the two slender tentacles on his head are still there, they can go at any time. Even if they are trapped by the colorful flames, they don't matter. They can fully force the unique biological wave frequency in the body, just like a teleport, avoiding nine. The barrier of the color flame sea, go far away...

But now, this ability can't be displayed, and he can only evacuate quickly by crossing the void in the flesh. Of course

However, this kind of opportunity, violent is obviously impossible to give him again!

"call out!"

"Hey..."

At this moment, seeing the purple beetle to escape, between the violent temptations, there are a few sharp and unpredictable sounds of the air.

The Shennong Ding hanging over his head spurred away and sealed the direction of the void on the left side of the purple beetle. The speed was fast to the extreme. At the same time as the glare, there was a majestic nine-color flame sea at Dingkou. Spilled out and covered the void along the way.

The **** stick rushed to the front, sealing the way in front of the purple beetle, and when it was rushing away, there was also a nine-color flame sea along the way. This

It is also a killer of Ye Xuan, even in the previous war, it has not yet had time to display it.

If the **** stick is smashed down at the same time, the head of the body is covered with a nine-color flame sea, covering the whole body, it is simply a dead end.

"Hey..."

The violent rush also rushed to the right side, completely sealing the right side of the purple beetle.

At the same time, the body of the black fog and the body of the cheekbones that strode from the stride are also blocked in the last direction, that is, the direction of the retreat of the purple beetle's body shape and lasing... and

Moreover, with the arrival, the body of the cheekbones and the body inside the black fog all rushed out of the nine-colored flames, and this direction was completely sealed off in an instant.

In all four directions, all of them have a majestic nine-color flame sea. They are united together in an instant, and they are spreading toward the top and bottom. In just a short period of time, a closed ball is formed, and the body shape suddenly stops. The purple beetle, trapped in the center of the ball!

"Hey..."

Oh la la..." This

For a moment, the body of the black mist and the body of the cheekbone collapsed instantly, turning into a flame, and blending into the nine-color flame ball under the foot. under

At the moment, when their figure appeared again, they had already entered the nine-color flame ball, which was set in the nine-color flame sea inside the ball. with

At the time, there was a starry sky with a **** stick on his shoulder...

As for the Shennong Ding, which originally sealed the left side of the road, it disappeared. I don't know where it is crouching in the huge flame ball. At any time, it may suddenly pop out and launch a fatal blow...

At this point, the overall situation was initially fixed.

With the trapped seal of this giant nine-color flame ball with a diameter of nearly one billion miles, the purple armored beetle with its slender tentacles on its head is no longer able to escape. but

Whether he will fall here today, but still is still an unknown number. This

Very helpless, but it is the truth!

After all, people are the fifth-order power, and Ye Xuan's three blood-and-blood avatars only have enough strength to compete with the third-order power. Even with three wars, they have no full grasp and can guarantee the purple armor. In the midst of this battle, Tianniu was killed in one fell swoop...

Chapter 4594: Abandoned ancient supreme

"This time, the deity is really a ship in the gutter..."

The first turn will cover the shape of the body, and the nine-color flame ball without a half-step gap will be scanned for a circle. The purple beetle standing on the inner center of the flame ball will show a grief and indignation.

The sound of the gods is also heard at this moment, with the faint singularity of the purple mans, and constantly glimpsing on the three **** seas of Ye Xuan. "

Unfortunately, even if you join forces to fight the deity? ""

Even if you use this huge flame ball formed by this nine-color flame sea to trap the deity in the flame ball, how can you not escape? "

"Time is not enough after all..."

Within two days, even if you join hands, you will absolutely not be able to kill the deity, and the two powerful early supremes invited by the deity, at most one and a half days, will arrive here..."

"Irritable, persuaded you to stop, 12 powerful existences, you have already killed 11 people, how is enough."

Don't make a mistake, just leave and leave. Otherwise, you will eventually fall, you can only be yourself..."

call out....."

His words have not been finished yet, and the violent squatting in the direction of his right side is about 300 million miles, and there is a slap in the middle of it. original

Benedict's **** stick on his shoulder disappeared at this moment.

"Oh! This is useless..."

In this scene, the sound of coldness in the nose of the purple beetle, but in the dark has raised the vigilance, in his view, this **** stick wants to kill him, naturally it is impossible.

Even the heavy blows can't be done.

But this stick is, after all, a god-farm, even if he is a fifth-order power, it must be very painful. Place

Therefore, the purple beetle does not seem to care on the surface, but the heart has already raised its vigilance. Only when the situation is wrong, it immediately flies away.

This time, his attention finally stopped behind him, especially in the direction behind his head, but in front of the face that was previously hit hard..."

boom! ""

Oh..." Giant

The sound came, followed by a fierce and horrible sound, a huge blood bag on the back of the purple armor, which was visible to the naked eye.

The power of this attack is too fierce, and the fifth-order power of the hall is so dizzy! "

Tianniu, you have no chance, but the star master, but there is plenty of time..."

"In the ten interest, you will be killed. Then, the Lord of the Stars will be able to clean up the battle with ease and quietly!"

The tragic sound of Jia Tianniu is still not over, and the sound of the gods of Ye Xuan has already sounded.

"Hey!"

At one moment, the body of the cheekbone slowly lifted the left arm, and a sturdy energy bow tire quickly showed up! huge

The shape of the bow is quite ancient. The bow body consists of three parts. The middle part is a double-headed monster. The wide mouth of the anger is oriented in the upper and lower directions. and

The upper and lower parts of the bow body are two humanoid creatures licking the body. The wide mouth of the two-headed monsters swallowed the feet and part of the calves of these two humanoid creatures respectively! its

The mouth is the place where the strings are held, and the hands are on the lips, as if they are in awkwardness.

A bowstring formed by a number of fine gold threads twisted together, the two ends are connected to the life of these two humanoid bodies! With

A low humming sound rang, and a golden energy arrow appeared in the string...

It is the supreme magical power that Ye Xuan relies on--- this

Engraved, with Ye Xuan's meditation, the scorpion of the cheekbones also smashed a strange golden glow. he

The right hand sticks out and directly pinches the bowstring of the left hand energy giant bow, holding the energy arrow and slowly pulling it away..."

Oh..." This

For a moment, the incomprehensible tremors and humming sounds, and the voids around them seem to have an invisible wave!

It seems that this arrow is only just pulling the string, and the momentum that has been emitted has already made the void tremble.

"call out!"

Without any hesitation, the body of the cheekbone loosened the right hand holding the energy bowstring, in the void, a sharp to the extreme, and the sound of the eardrum resonated with a resounding sound...

This blow, all the power in the body of the skeleton, was exhausted. This was not the case when the three blood dogs were killed.

For that, it is a blow to solve the purple armor. positive

As he said, Ye Xuan's heart has a stronger sense of urgency, and time is really not much...

However, the energy arrow that fills the full force of the string is spurred in an instant, and the breath is strong and irritating, and it is almost devastating.

In an instant, it seems that even the void has been broken. In general, the golden flow of the stream is smashing, and there is a black wave behind the tail. Time

The shortness is so negligible, and the golden arrow that whizzes away is already in front of the purple beetle..."

Actually...

But how is it possible! No..." This

At one moment, the dizziness of the purple beetle disappeared, and the golden arrow that was forced to the front was seen in the blink of an eye.

The sound of the whistle sounded at this moment, and the shackles of the purple armored beetle revealed endless unwillingness and despair, but it has no meaning..."

boom....."

The earth-shattering sound of the explosion came, and everything went on without any suspense.

In the blink of an eye, as the golden arrow did not enter the body, the whole body of the purple beetle collapsed instantly, and it was completely blown up for a gorgeous purple blood mist, and it spread! "

call out! "From

The black mist body that rushed to the side also waved at the moment, and a incomparable invisible gas was rolled out of its body, covering a radius of ten thousand miles. just

The **** fog that just spread out was swept away, and the income was left in the body to be sent to Shennong Ding after the war, and blood purification was carried out!

In the blink of an eye, the twelve powerful existences of this time, including the four ancient powers, including the Zijia Tianniu, were all smashed.

At this time, with the complete ending of this war, Ye Xuan's powerful blood essence has reached four giants. As for the supreme blood, there have been seventeen...

Hey! ""

Oh la la..."

The huge water spray came, and the body of the cheekbones and the body of the black mist collapsed, turning into a **** rain, blending into the nine-colored flame ball under the feet.

Then, the flame ball spread out and turned into a flame sea. Under the rapid contraction, the eyes turned into a nine-color man, rushing to the Shennong Ding in the sky. and

Only the remaining violent squad also took a hand at this moment, and the **** stick was included in the body. The huge body of the original 60 million miles was also reduced to only about a few. tight

Then, a faint volley of volcanic spurs came from the vain of the void, all kinds of resources, all of which were earned by Ye Xuan in the immortal world. positive

When the violent hand raises his hand and wants to take Shennong Ding into the body, he will leave.

His face suddenly changed, his heart was under the guise of anger, and he did not hesitate, his shoulders swayed, and he rushed into the Shennong Dingkou where he was carrying a colorful mist. return

When I was looking forward, my face was already very gloomy.

Because, the two powerful wilderness supreme, actually... arrived in advance!

Chapter 4595: Supreme second order

"boom!"

"Booming..."

The sound of the roar of the earth is ringing, and in the distant void, two huge void cracks appear, just like two heavens that run through the sky. tight

Then, from the cracks of these two monks, two figures were punched out.

A star-shaped blood crocodile, a **** white tiger.

The former is like a blood, and the latter is only in front of the forehead, with a black hair. In addition, the whole body is white. This

The two **** monsters of the starry sky are huge, and they are hundreds of millions of miles away. They are a few laps larger than the tens of millions of miles in the ninth state of the konjac. Extremely awkward. to

Yu Xiu as a strength, whether it is a star crocodile, or a **** white tiger, has reached the end of the ancient times, and is still the third order. This

It is the supreme existence of the peak of the two extremes. It is only one step away from the end of the period.

"Hey! People? How do you only see one Baoding, what about other people?"

"The guys, not that there are eight supreme, four powers are trapped here? How can you not see one now?"

As soon as they came, these two powerful ancient supremes were able to spread the power of the gods in the first time, covering the vast void of hundreds of billions of miles, but found that within this area, they could not find a message to them. The twelve strong presences.

Although there are many weak stars and beasts crouching in the stars of a fierce beast, they are all concealed in the nest, and they are shivering and not showing up.

However, the powerful gods of the ancient and supreme, no matter how small, even within the vast void of hundreds of billions of miles, can instantly explore everything.

If the twelve powerful beings existed beyond the mighty supremacy of the universe, it is indeed here, it is unreasonable not to be discovered by them..."

In the void, there is a faint **** breath..."

And not one place, but there are many places. It seems that there have been **** battles here. The twelve guys will not all fall down? "fruit

However, it is not the ancientest supreme, Ye Xuan, after the end of each battle, will all the blood fog in the void into the body, and there is no residue. but

The two exist, but they still see the clues and roughly infer the results. "

It's really a group of wastes. There are actually four ancient powers in them. In just two days, they are completely annihilated..."

"The war should have just ended shortly before. The starry sky has not yet had time to escape. It may have been seriously injured, and I don't know that I will come here..."

Now, he is crouching in Shennong Ding, it should be healing..."

"Also, this violent, although enchanting, not only has Shennong Baoding, but also the Shennong flames in Ding, refining to the extent of the nine-color flame, but after all, the strength is still weak, can be smashed by tricks These twelve powerful beings are not easy. How could they not have any injuries?"

This is also good, cheaper you and me, all the gains, you and I are equally divided, no need to leave some soup for the guys ..."

No need to say anything more, let's talk about this violent first. "

"I'm afraid I still don't know that the disaster is already on the way? Shennong Baoding's domain power is extraordinary, but you and my two old peaks of the oldest Supreme teamed up, broke open for a short time, but they can still do it. of....."

"It only takes three days..."

"Get it!"

Roar! "

"Hey..."

Rumble..." each

After roaring and screaming, the starry blood crocodile and the sub-blood white tiger shot at the same time, each of them opened a mouth to spurt an energy ball of light, and spurred toward the front of Shennong Ding with a colorful mist. shock

The roar of the earth was ringing, and Shennong Ding, the giant star of Pang Ruo, swayed twice.

Just stopped, the distant star blood crocodile and the sub-blood white tiger mouth, then spurted out two energy **** again...

However, there is a full blow to the peak of the early days of the ancient sacredness. Under the joint of the two places, it is the powerful power of Shennong Baoding, which can only support three days.....

...tripod

Inside space! leaf

Xuan has already restored the shape of Zhang Gao, and at this moment, he is squatting over the volcano of the central domain, looking up at the sky high above the head of the tripod, and his face is gloomy. "

Rumble..."

At the foot, the vast expanse of the space inside the Ding is shaking violently. This situation is unprecedented.

"This time I was in trouble. The two peaks of the oldest Supreme Supreme teamed up with each other. Under the full bombardment, Baoding's domain power can only support three days..."

In the middle of the fine flashing, Ye Xuan whispered: "In this case, the turtle is no longer the best choice in Ding, the only way is to rush out, hanging Baoding on the top of the body, then Try it all out and see if you can escape..."

Even if it is not possible, at least, it can force a headless baby to shoot..."

"However, I can't rely on that guy completely, I still have to do some preparation..."

Speaking of this, Ye Xuan's mid-cold flashes, and immediately made a decision: "Now, in the ninth state of the konjac ninth change, count the huge mass of the body within 60 million miles. The force of the first-order blessing of repairing strength..."

"My peak strength has reached the third stage of the ancient power of the ancients. It is only a step away from the fourth stage."

"The third order is only the initial peak, but the fourth order is the mid-term. The difference between the initial stage and the medium term is still very large. Therefore, it is better to take advantage of these three days and then break through the first order."

In this way, if the headless baby corpse can't stand it, the grasp of oneself is even bigger... Anyway, this time the war is so vivid, even if it breaks through, it will last for more than two days, and it will never be more than three days..."

After the decision, Ye Xuanyuan flashed in the middle of the cold, and immediately sat down on the side of the volcano on the central domain. "

Oh..."

In the middle of a wave, with the faint sound of breaking through the air, there will be a rush of anger and hang out in front of him. It is the cultivation resources that he took out from the immortal world to develop this breakthrough! No

Half a bit hesitant, Ye Xuan immediately mobilized Shennong Ding's domain power, compressing all the cultivation resources to the size of only the baby fist, swallowed the belly.

"Oh la la..."

The entrance to the baby boxing ball that has been condensed by the cultivation resources has become a powerful energy river in the blink of an eye, and Ye Xuan's body has also unexpectedly heard the sound of the chain squeaking. .

As before, this time there is only one chain in the body of Ye Xuan! This

This is the expected thing, Ye Xuan did not pay attention to it, the first time to concentrate on the ambition, to fully mobilize the energy that has just formed in the body of the river, to launch a major Sunday in the body. Running!

This time the battle was equally fierce, and even surpassed the sum of the previous battles. After all, this battle can be all about the ancient powers...

Therefore, it took only two days, and the hanging energy formed by Ye Xuan's body has been completely refining...

Chapter 4596: Rushing out of Baoding

As the energy of the body disappeared completely in the week-long operation, it was integrated into Ye Xuan's body and spirit. Then, he was only a shock, and this stout chain was broken. when

When the chain is completely broken, the system prompt sound is expected, and it will soon sound in Ye Xuan's mind...

"Hey, congratulations to the host, the breakthrough of the ancient realm of the hole! The current realm: the second order of the universe!"

Hey, congratulations to the host, the breakthrough of the body and blood! The current realm: the second order of the universe! "

Second-order supreme!

In the previous breakthrough, Ye Xuan's cultivation was the first step of the universe.

If you activate the blood of the ancient konjac in your body, you can climb to the second order of the Supreme. If you use the konjac and change the magical powers, and reach the ninth change, the combat power will immediately rise to the second level of the ancient power. If

It is coupled with the sturdy blood of the flesh, and its true combat power is more powerful than the third-order power. and

This time, with his successful breakthrough, Ye Xuan will have the third-order refinement of the universe as soon as he activates the blood of the konjac in the body.

If you use the magical power of the konjac and change into the ninth change, its peak power will reach the third level of the ancient power!

Moreover, if it is counted in the huge body of 60 million miles, the pounds will be the first-order bonus to the real power. that

What, now the most powerful force that Ye Xuan can show, has been able to shoulder the fourth step with the ancient power.

The third order is only the initial peak, but the fourth order has already entered the middle stage. For Ye Xuan, the chances of successfully escaping from the two powerful and ancient sacred hands trapped outside Baoding will instantly increase by more than 20%...

Of course, even if he improved the two, his grasp is still not big, because before this breakthrough, his grasp is only about 20%.

Counting the current breakthrough, the peak strength has entered the two-year chance of increasing after the middle of the ancient era. The possibility of he successfully escaped from the two powerful and ancient stalwarts that are trapped outside the Ding is still only 40%, less than 50%. .

Not half of it...only

It can be said that it is a fight, after all, this is the only choice, otherwise it will be within the Shennong Baoding, the situation will be even worse...

"Booming!"

"Booming..."

The earth-shattering roar is still ringing, and the inner space under the body is more intense than the previous shaking. very

As for some of the spirits and beasts inhabited by the rolling hills, in this continuous booming sound, all the scared ones have been shrunk into their nests, shaking and shivering. Take the lead.

Calculating the time, this time breakthrough, Ye Xuan only took two days. press

According to his previous speculation, the domain field from Shennong Ding was smashed and there was still one day. but

This day, for Ye Xuan, there is no point anymore.

Anyway, it's all about rushing out. It's not too late, the later, because the distance from Baoding's domain field power is more completely blasted, and the two have been stuck in the outside for two days. The ancients are supreme and their attention will be more concentrated.

Now, it's just like the moment they've just arrived in the middle of the road. Their attention should be the most lax moment. If Ye Xuan's unprepared, suddenly rushing out, no time to defend, the two old and supreme, may not Can react in the first time.

In this way, the touch can be increased by 10%.

In this way, there will be nearly 50% chance, half of it, enough to take a chance to try...

"The success or failure is here!"

After the decision, Ye Xuan's mid-cold man flashed, and he subconsciously tightened his fists. Connect

Later, when he gave instructions to the body's phagocytic system, he fully activated the interstellar coordinate jump ability and adjusted the state to the point where it was triggered. This

What to do is also to gain time, but in fact, Ye Xuan does not have a big grasp of this. star

The ability to jump in the coordinates of the coordinates is indeed extraordinary, but now it is two strong and supreme.

Moreover, Ye Xuan violently hunted in the supreme forbidden land on the right bank of the Milky Way. Among them, he also encountered several dangers. In the end, he used the interstellar coordinate jumping ability to escape instantly.

All of this, presumably already spread, the two powerful and ancient sacred ones sticking out, even if I don't know how Ye Xuan did it, but I can certainly be sure that he has a mysterious secret of getting away.

In this case, the other party cannot have any targeted preparation for this.

After all, it is the ancient supreme, even if it has not lived from that distant era to the present, it may be cultivated to such a height in the environment of later generations, which is enough to prove the enchanting power and means of these two ancient and supreme talents.

Therefore, according to Ye Xuan's speculation, the two surviving Supreme Supreme, who are sticking to Shennong Ding, are likely to have already arranged the means for his interstellar coordinate jumping ability in the virtual space outside Ding. or

Those who have already done a good job of restraint, the magical technique of getting rid of the secret law and so on.

From this point of view, Ye Xuan now gives instructions to the body's phagocytic system, allowing the system to fully activate the interstellar coordinate jumping ability to a state of instant imposing, just holding an idea of doing everything and listening to the fate. when

However, in addition to this preparation, the corpse lamp tattoo on the left chest, Ye Xuan also conveyed a few gods in the past. can

Unfortunately, the headless baby was not awakened and did not respond.

This is also a right and a try.

Ye Xuan now only hopes that if the interstellar coordinate jumping ability cannot be carried out, in the process of being forced to launch a virtual emptiness, if there is a real life and death crisis, the headless baby corpse can wake up in time and help each other.Such as

If this hope is lost, Ye Xuan's only hope is that after rushing out of Baoding, he will be able to find opportunities in the subsequent vain escape, avoiding the ability of the two ruins to restrain his secrets.

Thereby smoothly activating the interstellar coordinate jumping ability attached to the in vivo system...

In this way, we can finally get rid of these two powerful ancient supreme!

"Call..."

Everything was checked again. After confirming that there was no problem, Ye Xuan sighed with a sigh of relief. In the space of Ding, he had already turned the konjac into a state of ninth change.

However, his body shape is still kept at the left and right, so at this time, the body that he has dispersed in his body is a breath, and it is the third-order of the ancient power!

"boom!"

Rumble..."

The earth-shattering roar sounded again at this moment, which represented the two ancient sages that were fixed by Dingwai. Just a moment ago, they just spurted an energy ball of light.

This is the best time. "

call out! "

In the middle of the cold, the flash of the mans is almost at the next moment. Ye Xuan's figure rushes out from the top of the volcano of the central domain, and the speed is almost at the extreme. It is like a superb meteor, lasing at the end of the sky at the height of Ding's space. go with. blink

The eyes have disappeared and are no longer visible...

Chapter 4597: put all one's eggs in one basket

In the void! Wan

If a giant star, Shennong Baoding, hangs in front, but at this moment, it is shaking violently. This

The situation has been going on for more than two days. treasure

On the left and right sides of the tripod, there are a figure floating in the void outside the 500 million miles.

The figure of these two figures is 100 million miles, the horror is extremely great, and it is much larger than Shennong Ding. The repairing atmosphere in the body is even more horrible, and all reach the third order of the ancient and supreme. and also

It is the peak of the early Supreme, only one step away, you can enter this mid-term.

These two exist, it is the star-and-blood crocodile and the sub-blood white tiger that Ye Xu and Shennong Baoding have been here for two days before. With

With the passage of time, after two days of hard bang, the shaking range of Shennong Baoding has become more and more fierce. and

During this period, the starry sky that they had not seen before, but never showed up, which made the star crocodile and the **** white tiger even more sure that he must have been seriously injured, and now he is retreating in the space of Ding.

In this way, they were originally tight, in order to prevent the violent rush from rushing out of Baoding, and the vigilance of taking the opportunity to escape, also relaxed to the extreme. complete

Actually, it has been hard for two days now, and for another day, the domain power of Shennong Baoding will be smashed, even if there is only a short moment, it is enough for them to shoot, and the violent life will be hard. The place of life came out of the space inside the Ding...

Thinking of that scene, the starry blood crocodile and the sub-blood white hustle and bustle. Correct

In this starry sky, they have never heard of it before. After all, they are already the peaks of the early peaks of the ancients. They are basically crouching in their own caves, preparing to attack the middle ages of the ancients. Basically, I won't go too far. but

Since receiving the help of the Zijia Tianniu, the starry blood crocodile and the sub-blood white tiger have all conducted an investigation immediately. Such as

Today, their understanding of this temper can be said to be no weaker than any existence in a strong forbidden place on the right bank of the Galaxy. This

The head is violent, and there must be a huge secret in his body. His cultivation is too fast to improve, and he still has some mysterious secrets of escape. This

These things are enough to make the existence of the ancient Supreme level tempting, even the ecstasy secret treasure, plus the Shennong Baoding in front of the virtual sky...

To say, this time, as long as they violently starry the sky, the harvest is huge, even if the two people are equally divided, they can definitely count the overflowing. and

All of this, obviously, there is no suspense, and one day later, the temper will be laid off the net..."

Roar! ""

Oh..."

Thinking of this, the starry blood crocodile and the sub-blood white tiger suddenly sighed together, and then they opened their mouths again, each of which spewed a huge energy ball of light! "

call out! "

"call out.....""

boom! ""

Rumble..."

The sharp sound of the air broke out, and the two huge energy **** were fast enough to surpass the lightning. In the blink of an eye, they had already slammed into the Shennongkou, which was outside the 500 million miles of the sky.

At the moment when the two energy **** were blown up, the nine mists of the hustle and bustle of Baoding Dingkou were even more powerful. Even with the shaking of the whole Baoding, it became more and more amazing.

In the void, there is a tumultuous resonance of the rumble...

This kind of scene, the starry blood crocodile and the sub-blood white tiger have been watched for two days, and have already looked tired, but still feel very happy...he

We feel that with this blow, the moment of the final harvest is a step closer!

Just at this time, the change suddenly started..."

call out! "tip

The sharp and unbroken sound of the sound, from the fascinating nine-color fog, is violently rolling at the Shennong Dingkou, a figure rushing out, it is the violent form of Ye Xuan. original

Ben, his body shape only succumbs to the heights, but the moment he rushed out of Dingkou, it skyrocketed to a huge 60 million miles, a huge starry sky violently appeared in the universe... No

There was a half hesitation, and the body shape rushed out, and the violent temper was rushing toward the front. "

Oh..."

At the same moment, Shennong Baoding was stunned by Ye Xuan, and it was rushed to catch up. The blink of an eye had reached the top of the violent head and stood steadily.

"Booming..."

Rumble! "

The earth-shattering roar sounded, and from the fascinating mouth of the colorful fog, a awning nine-color fire appeared, just like a hang of the Nujiang vent, immediately poured down. blink

The entire body of the violent temper has been enveloped between the eyes.

This is Ye Xuan's protective means. At his speed, he must have run away from the two ancient sages that had the initial peaks.

If the other side is close, the violent body is strong, and it will be severely injured in an instant. but

Now that the nine-color flames of Shennong Ding are turned into curtains to cover the whole body, then the two powerful ancient supremes, at least they dare not chase too close, and start a close-up attack. he

Although they are ancient and supreme, they also dare not easily touch the Shennong nine-color flame. when

However, even if it is not possible to kill at close range, but people can completely hang behind them, as in the previous two days, the mouth sprayed energy light ball, bombing Ye Xuan.

However, Shennong Ding is still hanging on the head of Ye Xuan, and his domain power has not been completely destroyed. also

Can support a day or so. and also

That is to say, within one day, these two powerful ancient supremes are absolutely incapable of hurting Ye Xuan. They can neither be close to the body and attack, and the energy ball of light from a long distance can not break the domain of Shennong Ding. Field power.

This is the opportunity of Ye Xuan. only

It is necessary for him to find an opportunity in this day's void escape, to avoid the two ancient sacred restraints to restrain his ability to get rid of the secret law, so as to smoothly activate the interstellar coordinate jumping ability attached to the internal system...

Can finally get rid of these two powerful ancient supreme!

Although the opportunity is embarrassing, but only in the presence of a line, Ye Xuan will not give up, must strive to fight for it!

At this moment, as he pulled out Shennong Baoding, he started the full-speed volley in the first time. In the blink of an eye, his figure has reached nearly 500 million miles. and

The starry blood crocodile and the sub-blood white tiger, originally on the left and the right, guarded on both sides of Shennong Baoding, and each distance from Baoding was also 500 million miles away. and also

That is to say, for such an instant, with the starry sky of Shennong Baoding's extreme speed, the distance between them has been widened to a billion. ten

Although Yili is nothing to the ancient powers of the ancients and the ancients of the past. but

After all, now Ye Xuan is also experiencing rapid escape, and these two ancient and supreme, have been hard-hitting for two days, the energy consumption in the body is nearly half, and the speed gap between the two Although it is still not small, it is not too big.

In this case, the virtual distance of one billion miles is enough to cushion the effect...

Chapter 4598: Probably skyrocketing

"boom!"

Rumble..."

In the void, the earth-shattering roaring sounds constantly, the speed of temper is too fast, and the powerful power of the fourth-order power of the ancient powers is now pushed to the extreme. Pang

With a huge horror of 60 million miles, the top of the head is also topped with a Shennong Baoding like a giant star. The whole body is covered with a layer of flaming Shennong nine-color flame...

In this state of extreme speed, even Hong Kong and the void can not stand, although not broken, but there is a low roar of roar in the void.

In the blink of an eye, the sound of roaring has gone far away by 500 million miles. From the starry sky crocodile and the sub-blood white tiger, there is a distance of one billion miles from the sky...

Everything happened too fast, no matter whether it was a star crocodile or a sub-blood white tiger, it failed to react in the first time.

Until the distance between the violent and the violent, and opened to about 1.2 billion miles, these two powerful ancient supreme, the face suddenly changed, lost voice exclaimed..."

Damn, this violent rush suddenly rushed out, with Shennong Baoding rushing to the distance..."

The ancient third-order of the ancient power? How could it be so powerful? Doesn't it mean that only the universe is supreme? Damn, this violent temper must be a breakthrough all the time. The Vietnam War is stronger. It is no wonder that the twelve wastes will be killed one by one. It is simply an idiot! "

"We have been deceived, and violentness has never been injured. His cultivation has reached the third level of the ancient power of the ancients. The real combat power is the medium-term power of the fourth-order situation."

And seeing his series of actions after rushing out of Baoding, it is clear that it is already ready... Now there is a nine-color flame sea shrouded in his body, I am afraid I can't get close to killing. ""

That's no problem. One day, Shennong Ding's domain power will be broken. By then, the energy ball will be hard-hunged through a distant distance, and he will be able to kill him..."

"Remember to leave a remnant soul for the soul search, this violent body has a secret, can not be wasted!"

"Roar!"

"Hey..."

The voice of the gods of this way came out. At the end of the day, the starry blood crocodile and the sub-blood white tiger did not hesitate. After each of them provoked a terrifying roar and screaming, Pangda's huge horror figure of 100 million miles. I rushed to the front in an instant. One

Left and right, struggling to pursue, the speed is obviously more than the violent escaping in front.

After all, it is a powerful ancient supreme, even if it has been bombarded for two days, the energy consumption in the body is huge, and at this moment, the full speed is motivated, and it is not the combat power that is comparable to the fourth-order starry sky.

"call out!"

"Hey..."

With the spurt of the body, the starry blood crocodile and the sub-blood white tiger did not hesitate. The first time they opened the **** mouth, each spewed a light ball with a diameter of more than 10 million miles, and the speed exceeded Their own speed, the blink of an eye has already slammed into the front...

There is a horrible nine-color flame sea hood, and they simply don't dare to kill.

The only way is to kill at a distance with an energy ball of light.

But at the same time, there are also Shennongbao Ding hanging over the top of the head, pouring the domain field power protection body, so they must explode the domain field power of Shennong Baoding as soon as possible, only to hurt the possibility of violent...

In front, with the two huge energy light **** coming, Ye Xuan's heart immediately gave birth to a warning sign.

Almost subconsciously, his figure suddenly picked up upwards, instantly more than 20 million miles.

"call out!"

call out....."

boom! "

Rumble..."

The spurt came, the speed was so fast that the two energy-enhancing **** of the screaming, almost violently fluttering over the power of the Shennong Ding domain field, rushed to the front, two along the way. The beastly star, fried into fly ash.

Successfully avoided an energy bombardment, Ye Xuan's spirit was greatly shaken, and the scorpion also produced a fierce sturdy mans.

If you just rushed out of Shennong Baoding, his chances of escaping from these two powerful ancient sacred hands by virtue of his own strength and means are only 50% grasp.

So now, Ye Xuan's self-confidence is almost a sudden surge, at least 70%!

Because he suddenly realized that there were some factors that he had neglected before, and he did not calculate it at all...

At the moment, he has nine colors of flames wrapped around his body, and the two surviving supremes behind him are not afraid to fight close to each other. They can only open the domain of Weinong Ding before they can A way of remote attack, hurting Ye Xuan.

In order to open up the field of Shennong Ding, even if it continues to bombard, it will take a day. but

Now, although Ye Xuan can't guarantee that he can avoid the energy ball of light bombarded behind him every time, but every ten times, avoiding four or five times, he is still sure. No

There is a short time in the bombardment, Shennong Ding's domain field power, will be like a return to blood, restore some. Such as

As a result, within a day, the two surviving supremes behind him, apparently there is no way to open up the domain power of Shennong Ding.

According to Ye Xuan's deduction, this time should be stretched several times in about five days.

At the same time, because one side has to chase after it, it has to continue to spit out a huge energy light ball. Therefore, the energy that has been consumed before the two ancient people in the back of the body is temporarily unable to recover, and this consumption is The situation will become more and more serious.

In the long run, their speed will only slow down.

Perhaps now, between Ye Xuan and their pursuit of escape, the speed is that the two ancient Supreme predominance, the original 1.2 billion miles of the gap between each other, is being shortened. but

This shortened speed will become slower and slower as the speed of the two sages is reduced.

At most for a day or so, it will be flat, that is, after a day, the temper and the distance between them will not be shortened.

The next four days, because the speed of the two ancient Supreme is slower and slower at a weaker speed, in this respect, the temper will gradually take advantage.

That is to say, the distance between the two sides will be slowly opened again after one day, although the speed of growth may be very fast, but at least, this is an extremely exciting sign. just

When she rushed out of Shennong Baoding, Ye Xuan had already tried it. The void was shrouded in some mysterious power, and the interstellar coordinate jumping ability attached to the internal system could not be started smoothly...

This mysterious power obviously comes from the two powerful ancient supreme, but in this state of extreme movement, they can not cover the vast area, at most five billion miles. only

To Ye Xuan chase the distance between the two sides, and to the extent of more than 5 billion miles, he will be able to escape the empty chasing in a safe and incomparable way through the interstellar coordinate jumping ability...

It is because of all this that Ye Xuan will recognize that his chances of successfully escaping have already risen from the previous 50% to the current seven.

"call out....."

With this kind of excitement, the violent figure swayed and rushed out of the edge of this advanced Xingqiang forbidden land.

Behind him, the star-studded blood crocodile and the sub-blood white tiger followed closely, and did not let...

Chapter 4599: Void escape

One day, dazzling...

The top of the head is hung with Shennong Baoding, and the whole body is covered in a nine-color flame sea. The whole figure is violently starved by the domain power of Shennong Baoding. It has been running fast in front...

Behind him, the two powerful and unconventional giants of more than 100 million miles have not stopped for a long time. At the same time, they are continually ejecting energy **** from the mouth, separated by distant distances. Distance, bombardment of the Dingkou area where Shennong Baoding is carrying a colorful mist!

After a long day of emptiness, the distance between the violent and the two ancient and supreme beings was greatly shortened, and now it has been nearly 400 million miles from the initial 1.2 billion miles. can

It is precarious!

"call out!"

"call out....."

As the body shape swayed through the emptiness, the star-shaped blood crocodile and the sub-blood white tiger opened the blood basin again, each spurting a light ball with a diameter of more than 10 million miles, faster than their own speed. In the blink of an eye, it has already slammed into the front...

"boom!""

Rumble..."

The spurt came, the speed was so fast, and the two energy-enhancing **** of the cocky, the blink of an eye was already near. This

Once, because the distance has been close to four trillion miles, the violent temper is simply too late to avoid. The two energy **** of light have all hit the Shennong Ding with the colorful fog.

The roar of the earth and the sound of the roaring sound, the giant tripod hanging over the top of the violent head, suddenly swayed violently, and the faint mist of the Dingkou violently rolled, giving a thrilling feeling.

"Roar!"

"Hey..."

Oh..."

After hitting the target in the air, the star-shaped blood crocodile and the sub-blood white tiger in the back four hundred miles away were in great vibrancy. After each of them gave a shocking roar and screaming, they did not hesitate.

In an instant, he opened his mouth again and squirted two energy **** of light, spurting toward the front.

After a long day, they started the speedy attack, and the same action was carried out almost for a while. The energy consumption in the body was too great. Even the ancient supreme, they could not hold back.

When the two energy **** that were finally ejected were ejected from the star-gazing crocodile and the sub-blood white tiger's mouth, they were already a little slower than a day before, and they were a little slower in an instant. although

However, the decline was small and almost imperceptible, but it was this point of slowdown that made them violent with the starry sky that fled in the front, and the speed comparison was immediately shifted from occupying a weak segment. Weak squat...

That's right, from this moment on, the speed of the star-studded blood crocodile and the sub-blood white tiger is not as violent as the starry sky fleeing in the front, but the gap is too weak to be fully noticed. but

All of this will obviously become more and more serious in the continuous bombardment of the subsequent energy light balls...

From this moment on, the distance between the starry sky and the starry blood crocodile, the sub-blood white tiger, has been slowly drawn from the previous one and entered another state...

The distance between them will be slowly opened, but the amplitude is very small. If the temperament wants to pull the distance of only 400 million miles away to a huge extent of 5 billion miles, the two ancients will be rushed out. The repressed area of the Supreme Mystery and Mystery is still a long way to go.

According to Ye Xuan's derivation, Shennong Ding's domain power can only last for four more days. four

Within days, whether the distance can be extended to 5 billion miles, Ye Xuan's grasp is not great, but as long as there is a glimmer of hope, he will make great efforts..."

Roar! Yang

The hair screamed and violently consciously turned to the right side, but the speed did not change halfway. The whole figure was still like a speedy flow, rushing toward the front.

With his sideways, Shennong Baoding, which has been hanging over the top of the violent head, has slightly changed some positions. "

Oh..."

Rumble..."

Between the engravings, the two energy **** that spurred from behind were almost stunned by the edge of Baoding. When they reached a distance of one billion miles ahead, they slammed into two abandoned stars along the way.

In the blink of an eye, the two abandoned stars were bombarded into cosmic dust, and the smoke was extinguished..."

Roar! ""

Oh..."

The first shot hit the target in the first hit, followed by the second hit, but all fell through. This result made the star crocodile and the sub-blood white tiger feel unwilling, and the hair screamed and shouted.

Almost at the next moment, they mobilized the power of the body, and opened the mouth of the blood basin again. In a moment, two huge energy **** of light with a diameter of 10 million miles were spurred from behind. along

The universe of the way, the void, has issued a low-pitched thunder, and is shocked...

...also

It is a day passed!

At this time of the day, the temper began to speed up, and the distance that had been shortened to 400 million miles was once again raised to 800 million today.

Although only a hundred million miles were opened in a day, Ye Xuan was upset, because the next three days, followed by the starry blood crocodile and the sub-blood white tiger, because of the continuous ejection of energy light balls, the body's energy consumption More and more huge, their speed will be slower and slower...

As a result, the past day only opened 400 million miles, but next to the upcoming third day, it is very likely to open 800 million miles. again

In the future, the harvest is very likely to be more gratifying.

In this way, for a total of five days, there is no chance that the distance between the star-and-blood crocodile and the blood-white tiger will be smoothly opened to more than five billion miles.

As long as it rushes out of five billion miles, and beyond the suppression of these two ancient mysterious secrets, Ye Xuan can activate the interstellar coordinate jumping ability attached to the internal system. One

In an instant, you will leave quietly. At that time, the star-studded blood crocodile and the sub-blood white tiger may not be able to spurt blood on the spot. It is also possible! thing

In fact, even now, these two old guys already want to spurt blood.

The day before, they had already distanced themselves from the violent, from 1.2 billion miles to 400 million miles.

Seeing that it is going to catch up, I didn't expect that before this day, the distance that was opened was actually getting farther and farther, unconsciously, and after a day, the previous 400 million miles away, actually Was pulled up to 800 million miles.

This result made the star crocodile and the sub-blood white tiger feel deeply weak, and they finally realized that the starry sky was violent. can

Now that everything is too late, the energy that was consumed before will not be replenished in a short period of time, unless they stop their bodies and immediately retreat, but they can recover within a day or two.

After all, the violent temper that can escape in the future is also a waste of ancient power. Give him a day or two. I don't know where to go. If I return to the state of prosperity, what is the meaning of not finding the shadow of others? Such as

Today, the two of them are completely riding a tiger, and they can only bite their teeth and follow them closely behind...

Chapter 4600: Public enemy on the right bank

In the void of the universe, a nine-color sea of fire like a giant star spurt through, and above the sea of fire, there is still a huge Baoding...

Behind the back of more than one billion miles, two powerful wilderness supreme, closely followed, it is the starry blood crocodile and the sub-blood white tiger..."

call out! ""

Oh..."

In the spurt shot, their figure was crossed in the void, and the star-shaped blood crocodile and the sub-blood white tiger opened the **** mouth again. Are

Each of them spurts a light ball of more than 10 million miles in diameter, which is faster than their own speed, and blinks to the front! "

boom! ""

Rumble..."

The speed of these two energy **** is so fast that it is so horrible that it is already a billion miles away from the blink of an eye, approaching the nine colors of the sea...

This time, the violent temperament of the nine-color flame sea was still unable to avoid, and the two energy light **** all rushed to the Shennong Ding with the colorful fog. a few

Just in the next moment, the earth-shattering roar sounded, and the giant tripod hanging over the top of the violent head swayed violently.

The colorful fog of Dingkou's smashing violently rolled and looked thrilling. "

Roar! "

"Hey..."

Oh..."

After the second strike, the star-shaped blood crocodile and the sub-blood white tiger in the distance of nearly one billion miles away, the heads of each other gave a shocking roar and screaming. Without hesitation, they immediately opened their mouths again and squirted two more. An energy ball of light, lasing toward the front... this

At this moment, Ye Xuan did not know where he was. After rushing out of the high-level forbidden land, he took a direction and went straight. Now, more than two days have passed...

He can only rush forward, because if you change direction, whether it is to the left or to the right, there will be a strong line of the ancient desperate, which is tantamount to the distance that will be easily opened in an instant. How much will be shortened a bit... before

In the far side of the void on the left side of the square, there seems to be a strong and strong forbidden land. Next to this strong forbidden land, there seems to be a strong star field controlled by the ancients.

Because at this moment, with the violent escaping in front, and the starry blood crocodile and the sub-blood white tiger are chasing in the back, from time to time, the **** mouth is opened, and a giant energy light ball is blasted...

The movement in the air is too great. In the far side of the front left side of the void, in the two adjacent Xingqiang forbidden areas and the Xingqiangxing area, there have been countless forbidden beasts and ancient people who have been stunned, and they rushed out of the forbidden ground and At the edge of the star field, look at it.

Can have such qualifications, dare to go out of the nest stars in this earth-shattering movement to see the lively forbidden beasts and the ancient survivors, the cultivation of strength can not be too weak.

Even if it is separated by a distant distance, if it is repaired as a force under the cosmic sage, even if it is immortal, the horrible supreme power of the star singer and the **** white tiger will not die directly. Injury, but still can not escape.

That's right, from the far left side of the front, the two neighbors to the strong forbidden land and the strong star field, whether it is a forbidden beast, or a deserted survivor, the strength is above the universe. This

Among them, there are even a few powerful ancient powers, as well as a few ancient survivors who have the same powerful and powerful nature. Have

The existence of the ancient big energy level sits on the town, and the two are adjacent, so it is obviously the top-level strong forbidden land and the top-most strong star field.

Even so, when they saw what was happening in the void here, these powerful and fierce beasts and survivors who were at least in the universe, suddenly became mad.

The same is true of the forbidden beasts and the survivors of the more than ten ancient and powerful powers. They have been exclaimed..."

God! what happened? The one that followed the billions of miles behind... is actually two powerful ancient supremes? "

"Stars and blood crocodile! Asian blood white tiger! The deity heard of these two powerful existences, sitting in a super strong forbidden land on the left edge of the right bank of the Milky Way, I did not expect to appear here..."

"At the same time, I was shocked by the two powerful ancient sacred monarchs that could not easily appear in the weekdays. Who is in the front of the rotten flames?"

"Shen Nong Ding? God, hanging above the nine-color flame sea, it is actually Shennong Ding, so it seems that the nine-color flame sea covered in the shape of the fugitive, most of them are Shennong nine-color flame.""

This Baoding is the legendary **** treasure. The era of the era of the wilderness, the unpredictable and ancient treasures, it is no wonder that two powerful ancient sages can be pursued, whoever encounters May give up easily..."

It's strange to see the existence of the air in the nine-color flame sea, the existence of the body crouching in the flames, seems to be only a third-order power..."

It is only the third-order of the ancient powers of the ancients, but it can escape from such a long distance under the full force of the two powerful and ancient supreme powers. This existence is also extremely difficult to provoke, and it must be extraordinary! "

"I have never heard of a strong forbidden place or a strong star in the right bank of the Milky Way. Recently there has been such a terrible existence. Is it..."

hiss! Irritable! The deity understands that it must be the fierce starry sky and the violent starry sky. He has been hunting and killing the beasts in a strong forbidden place on the right bank of the Milky Way. His goal was only a few years ago.

"But very soon, it became the emperor's immortal, and then the cosmic sage, the Lord of the universe, heard that not long ago, even the universe supreme, has become his hunting target..."

"Now it seems that the rumors must be true. This tyranny has the third-order terrorist power of the ancient powers, and it is simply easy to hunt the universe supreme!"

The change of hunting target represents the change of his own self-cultivation. In just a few decades, this mysterious starry sky is violent, and his own cultivation is actually from the immortality of the emperor, soaring to the third-order of the ancient power of today. This is simply... the word against the sky is not enough to describe it! "

"The public enemy! This **** killing means, this violent, is now the public enemy of all the strong forbidden land on the right bank of the Galaxy..."

"Roar!"

"Hey..."

On the left side of the current side, the two neighboring Xingqiang forbidden land and the Xingqiang star field, all rushed out of the edge of the territory, and went to the outside world to watch, and then they disappeared and exclaimed.

In the distance of a hundred billion miles behind Ye Xuan, the starry sky crocodile and the sub-blood white tiger are chasing away. At the same time, they also provoke a terrible roar and scream.

Then, the voices of the gods of these two old guys came out instantly, and they resounded the universe void within nearly 10 billion miles. The forbidden beasts and the ancient survivors in the far left side of the front, without exception, all listened. It's really true..."

Dear friends, please also take the shot and try to stop this violent..."

Yes, I can't let him escape. This kind of killing is too heavy and must be eradicated, not to mention being shocked. Once successful, all the Taoist friends, whether they are the mighty or the universe, or the master of the universe, are Can share..."
