Chapter 461: Ghost tomb

When Ye Xuan rushed to the battlefield, the top-level martial arts of the top grades directly raised 20% of the heat, and the speed was already beyond the ghosts he had learned.

His speed allowed one of the people present to tremble.

They looked blank, because Ye Xuan was surrounded by a dragon, which means that the power is more than three thousand dragons.

Both people were scared to death, and the middle-aged man of Poison Wang Zong glanced at him and found that the little girl in the distance was looking at him with big eyes.

The middle-aged people instantly understood that Ye Xuan was here to help them.

At the moment, his morale is high!

"kill!"

The middle-aged man shouted.

The poisonous Wang Zong people are not fools, they all looked out.

The man who is in the sinister gate is gloomy. They have already released all the grievances, and they can barely suppress the poisonous king.

They only attacked the poisonous Wangzong team, and even a grievance could not be separated, so that they watched the little girl run away.

At this time, Ye Xuan also crossed the distance of several kilometers in an instant, and cut directly into the team of the Yin Guimen from the rear.

"The fine world, I am coming!"

Ye Xuan eyes lighted and began to kill crazy.

The people of the entire Ghost Land are the same, specializing in the control of the Wraith, and their own strength is so bad that even after Ye Xuan rushed into the Yin Ghost Gate team, it was a big kill, and three people fell in the blink of an eye.

"Hey, the host broke through to the sixth order of suffocation."

"Hey, the host has broken through to the seventh order!"

When Ye Xuan directly broke the suffocating defense of the master of the three-day dragon of the Yin Guimen, and the sword of his head flew, the whole poisonous Wang Zong people were stunned.

This sinister master who almost killed them, actually died in the hands of the same person, and less than three seconds, which made them unacceptable.

"Hey, the host has broken through to the eighth order!"

After Ye Xuan devours the last 乾坤戒, it is a breakthrough to the eighth order.

Then, those grievances were recruited by him.

The poisonous Wang Zong people all stopped their hands and looked at each other.

At this time, Ye Xuan, even if there is no violent beastmaster, I am afraid that he can kill all the poisonous Wang Zong people.

However, he did not think.

"Big brother....."

At this time, the little girl ran over.

"You have entrusted my task, it has already been completed." Ye Xuan Chong this little girl showed a smile.

"Big brother, thank you." The little girl cried out excitedly.

The poisonous Wangzong team has a total of ten people, led by the middle-aged.

After the middle-aged man slowed down, he also descended directly from the air to the ground, directly squatting on one knee: "Thank you for your help!"

In this regard, Ye Xuan also quickly fell, said: "Predecessors please, I am only being trusted by her."

The middle-aged man stood up and took the little girl's hand and dried the tears on the little girl's face.

"You are the person who poisoned Wang Zong. What happened to the nine quiet places?" Ye Xuan could not help but ask.

Poisonous Wang Zong, the hegemonic sect of the Ghost Tomb, is sure to know what happened here.

The middle-aged man yelled and asked, "You don't know?"

"I just came from other territories and happened to pass by." Ye Xuan casually replied.

"Right....."

Middle-aged people think about it too, the ghost tomb collar is also three elites, and Ye Xuan is so young, how could it be a ghost tomb?

He hesitated for a moment and said: "Actually, my poisonous Wang Zong has been destroyed by the Yin Guimen and the corpse corpse. The poisonous Wang Zongquan is up and down, and only 11 of us are left."

"What, is it destroyed?" Ye Xuan exclaimed.

Poisonous Wang Zong, Hao Hao is also one of the three major sects of the Ghost Tomb. How to be destroyed and destroyed?

"Yeah, it has already been destroyed, and even the old lords of the fine world have fallen."

The middle-aged man said, and took a look at the little girl next to him, saying: "Xiaoyan is the granddaughter of the old lord. We have just escaped from the poisonous king, ready to leave the ghost tomb, and go to Dongshan to find her aunt."

"The masters of the fine world have fallen..."

Ye Xuan's heart is condensed, and the old lord of this poisonous king's sect should be killed by the two masters of the sinister gate and the scorpion corpse.

At this time, Xiao Yan cried again. "Big brother, my sister, my mother, grandparents have been killed by them, can you help me revenge..."

"Uh....."

Ye Xuan scratched his head. He was most afraid of someone crying in his life. Now, he doesn't even know why he was poisoned.

Therefore, he turned his head and asked: "Why was the poisonous king sect destroyed?"

"Little brother, there is a legend in my ghost tomb. It is rumored that there is a ghost tomb in the ghost tomb. It was built after the death of the master of the divine situation. This ghost tomb originally had two entrances, one was originally buried. The land of bones, but the entrance was destroyed, and another entrance..."

Although the middle-aged people did not finish, but Ye Xuan also understood.

This second entrance is in the poison Wang Zongli.

"The second entrance is indeed my poison Wang Zongli. I didn't know anyone about this matter. Even I didn't know it. But one day six months ago, I poisoned Wang Zongtian's vision, and the ghosts cried, and it lasted for three days. The time, the people who were buried in the land and the land of the ghosts saw them, so they killed them." The middle-aged explained.

Now, Ye Xuan is a little confused. Since it is exposed, what does it not give up the roots of the poisonous Wangzong and shift the position?

"You poison Wang Zong, shouldn't you want to monopolize this ghost tomb?" Ye Xuan frowned.

"No, you have misunderstood the little brother. Although this ghost tomb is under the poison of Wang Zong, it has a seal. I am poisonous Wang Zong to protect this ghost tomb, and I will not let the Yin Guimen and the corpse corpse go in. The middle-aged man shook his head.

"how do I say this?"

Ye Xuan asked differently.

A cemetery of the predecessors of the gods, since the poison Wang Zong knows, why not send people to explore?

Is it because it is too dangerous?

"The seal of this ghost tomb needs 999,900,000, and 9,999 grievances can be broken. Moreover, there is a very powerful ghost king in the ghost tomb. If it is accidentally released, the whole ghost The tomb collar was ruined. The old lord was afraid that this ghost king would appear and he would die at the entrance to the ghost tomb." Middle-aged humanity.

"It turns out!"

Now, Ye Xuan's doubts are finally solved.

To put it simply, it is the Yin Guimen and the corpse corpse found that the entrance to this ghost tomb was in the poisonous king, so he killed it, but the poisonous Wangzong swears to guard the entrance, which leads to the destruction.

Because the entrance has a seal, it takes thousands of grievances to break, so the sinister door begins to kill and kill the murder.

"The yin ghost gate and the corpse corpse have already entered the ghost tomb?" Ye Xuan asked again.

He is also interested in this ghost tomb, because this is a cemetery built by a god-stricken master, there must be a lot of good things inside.
