Chapter 4611: Last two

In the forbidden land of Hongzun, there are a total of six powerful ancient powers sitting in the town, but now, in a blink of an eye, two people have fallen. short

In a short period of time, Ye Xuan can be said to have a huge harvest. The original blood of his hands is only four, but now, it has reached six. but

This is obviously not the end, the rest of the four ancient powers, he will not let go, must be killed in full...

Everything happened too fast, and it was almost impossible to respond to the ancient powers of the wilderness. But at this moment, with Ye Xuan rushing to the nest star of the third ancient power, the remaining four strong existences in the forbidden land, Finally, all of them have returned to God. when

However, more importantly, they found that in addition to this enchanting starry sky, the legendary void giant turtle did not accompany it.

Also, that is the existence of the early Supreme can easily kill, from the distant era of the wild, has lived to the present, how could it be interested in their existence in the world to be promoted to the power of the ancients?

This point, they have been sure before, the only thing that is not accurate, just can not determine the empty giant turtle, and the starry sky that has been been pursued, whether it is related. Such as

It seems that the two early supremes are distinctly lost. On the way to the violent temper, they inadvertently encountered the horrible hollow giant turtle, not the helper of the violent mission. Such as

So, what else is there to worry about?

Although this temper is against the sky, it has the ancient supreme power of Shennong Ding, and it is still of the era of heavy weapons. It is extremely difficult to kill. This point has never been finalized since the previous two powerful early Supreme pursuits. As a result, it can be seen.

However, he is only hard to kill. Even if there is a secret of blood and sea, in the case of three enemy four, it is equally unlikely to kill the four ancient powers in the banned land of Hongzun...

What's more, this violent temper is already a public enemy on the right bank. He is absolutely afraid to spend a lot of time here. After a big battle, there is no fruit. The only choice is to hate back!

Thinking of this, the four remaining ancient powers in the banned land of Hongzun immediately rushed out of their nested stars, and the sound of roaring resounded through the vast expanse of the sky, earth-shattering..."

You have already vented your anger, and I waited for a moment to kill two powers, but it was limited to this..."

"Speed away, otherwise you will make your own mistakes!"

"While you have blood and sea, you can condense the existence of three equal cultivations and fight side by side, but I have four powers, and you have no chance!"

"Now, you are a public enemy on the right bank. Everywhere you go is like a street mouse. Everything that happens here will soon spread. There will be other powers and even supreme, you have to make your own mistakes..." "

Why is it so much nonsense with him? If you find yourself dead, you will be trapped here..."

"Roar!"

Oh..."

As the sound of these gods came out, the screaming roar and screaming sounded in an instant, and within the four giant beasts and stars around, there were four awnings and light rays rushing out of the atmosphere of the stars, speeding up towards Ye Xuan. A spurt came.

"It's really yawning, a big tone!"

For all this, Ye Xuan sneered, and there was a colder mangling in the middle of the sigh. He said: "Today, you four, one don't want to run..."

call out! "

"call....."

Almost at the same moment, from the violent eyebrows, a faintly invisible nine-color awning was smashed, and once it appeared, it split into two, rushing straight ahead and far left, and the speed was so fast. With a finger, even lightning can't match. This

Two volleys rushed away, and the storm rose on the way. In the blink of an eye, it turned into a nine-color flame sea with two awnings. It was spherical and tens of millions of miles in diameter, and the two directions were lasing. The two ancient powers that come are completely covered in it. This

In the forbidden land of Hongzun, there are indeed four ancient powers. If they gather together and fight together, even if Ye Xuan exhibits the secrets of blood and sea, and condenses three blood and sea bodies, it is difficult to easily kill them one after another. .

Therefore, Ye Xuan can never let them get together. and

This point, for others, may only be a kind of fantasy, it is impossible to do it at all, but for Ye Xuan, it is really too simple. he

The nine-color flame sea, even the ancient sages do not dare to touch easily, any ancient power can be turned into a spherical flame sea, the final result will be extremely painful, without any vitality. "

Oh..." with

The two ancient powers were trapped and violently swayed, and they rushed directly into the majestic flames in front of them.

The two ancient powers he chose to be trapped are the two weakest of the four great powers that survived.

One is the first step of the ancient power, and the other is the third order of the ancient power. Such as

Today, Ye Xuan rushed to the front of the flame sea, trapped, it is the first-order existence of the power. Correct

To pay such a weak guy, he didn't even have to condense in the **** sea. After entering the **** sea, he just slammed his opponent into a **** fog.

"Hey!" will

After the spread of the **** fog of the body, the tens of thousands of miles of the majestic flames of the canopy quickly contracted, and the blink of an eye turned into a nine-color, rushing into Ye Xuan's eyebrows and disappearing. not see.

In the next moment, Ye Xuan launched a teleport, locked the flame of the sea, and the other side of the flames had reached the edge of another flame in the left direction, screaming and slamming into one.

"Hey..."

"Booming..."

boom! "

It must have been realized that the crisis of life and death has come, and the violent figure has just disappeared outside the flames. It broke into the flames of the sea, and inside it, there was a fierce whistling sound.

Then, the rumbling sound of the rumbling came out, this is the movement caused by the violent and trapped third-order power shot in this flame. Such as

Today's temperament, the real combat power has been more than the sixth-order power, is the mid-peak peak of this situation, and the existence of being trapped in the flames, but only the initial peak, the disparity of strength is too great.

This time, the violent temperament still did not display the **** sea secrets and condensed the body, just a few simple punches, and there was an earth-shattering sound of the explosion inside the flame sea.

The body of this third-order power bursts open and turns into a **** fog. It has not spread before it has been opened. It has been violently thrown into the hand and directly into the body, and sent to the bottom of the central volcano in the Dingnai space. In this regard, blood purification is carried out. to

Therefore, the six ancient powers in the banned land of Hongzun have only two left, and the powerful blood of Ye Xuan's hands has soared to eight giants... straight

At this time, the last two ancient powers spurred from the right and right rear of the void were finally rushed to the vicinity. It was only two or three hundred thousand miles away from the nine-color flame sea.

Seeing the violent tempering of the nine-color flame sea, and instantly licking two ancient powers, these two guys were furious and snarled in an instant...

Chapter 4612: How is the eighth-order power?

"Damn, forget that he still has nine colors of flames, can separate me..."

In the blink of an eye, I was smashed by two great powers. I am forbidden to ban the land today. Is it because the catastrophe is coming? "

"It is impossible. The deity is the eighth-order power. It is you, and it is also the seventh-order of this situation. If you cultivate more than him, how can you be violent?"

"Must let him pay the price, even if it can't be killed, it must be ruined, otherwise it will be hard to do..."

Roar! "

"Hey..."

With the roaring sound, the two awning light spurts came from each other, and each of them had a roar and a scream. The blink of an eye reached the left and right sides of the nine-color flame sea. "

There are only two of you left in the blink of an eye. Isn't it ridiculous before the words? "

In the sea of nine flames, the sound of the gods of Ye Xuan came out. The next moment, the flame ball spread out and turned into a bonfire. From the center of these two awnings, the flames rushed. In an instant, the two awnings were stunned and then retired.

The violent move was too strong, and the flames were forcibly opened in the void, and they were forced to retreat, and the body shape that had already gathered together was separated. because

I simply did not dare to touch the nine-color flame sea. straight

At this moment, the existence of the two canopy groups finally realized how difficult the violent temper was, and the hand holding the nine-color flame sea, which is extremely incomprehensible, is simply unprofitable, after the war. Once the sea is sacrificed, any strong enemy can only evade in a hurry. This

Too passive, let their hearts unwilling, while raising their hair to roar, hate the sky. "

哗啦啦....."

At the same moment, the sound of the earth-shattering noise came, and in the flames of the open air, two figures rose to the ground, and it was the body of the skeleton and the body of the black mist. blink

Between the eyes, the blood and the sea are divided into three large bodies, each of which has a huge body size of 60 million miles. The air that is dispersed in the body is only the fifth-order of the ancient power, but the real power is all and six. The order is great.

"Roar!"

"Hey..."

As soon as the first appearance appeared, the body of the cheekbones and the body of the black mist simultaneously pinched the fist, and rushed to the awning light group that was surrounded by the three blood seas and presented in the center.

The violent temper was the first time to turn over, and in a moment, a **** stick was sacrificed, and it was picked up high, with a breath of ruin, and smashed toward the awning.

This blow, the violent exhaustion of all efforts, and even the use of the **** stick itself's domain power, a slam dunk, almost to the eighth-order power. "

This is impossible..." This

The existence of the awning group did not taste the taste of the **** stick, and did not know enough about its fierceness. At this moment, suddenly felt the level of power coming to the head, suddenly changed, and the unsatisfied voice of God came out. Through the endless horror of fear...

Everything that follows is no suspense..."

boom! "

Almost in the next moment, a huge roar of sound rang from the void, and the awning group exploded in an instant.

Among the scattered spots of light, you can clearly see a single-horned beast with a huge body of tens of thousands of feet. Under the joint attack of the three **** seas, it is completely blown up for a **** fog. diffusion! "

call out! "

It's just a second explosion!

This kind of victory made Ye Xuan's heart loose, and his face was full of joy, without any hesitation. Next, the violent wave waved in the first time, and a huge invisible instinct was rolled out from the body. Covered a million miles.

The blood mist that had just spread and spread was swept away in an instant, turning into a waterfall of blood and blood, just like Changhong's emptiness, and it was incomparably broken into the violent body and sent to the center of Ding's space. At the bottom of the volcano, the blood is refined directly. to

Therefore, the six ancient powers in the rainbow forbidden land have already been smashed by five, and the number of **** essences in Ye Xuan's hands has reached nine!

"There is the last one!"

After waving all the blood and blood formed by the bursting of the seven-step power body, Ye Xuan turned to the last awning group that was forced to retreat in the other direction. "

Oh la la..."

"call out!"

"Hey!"

At the same moment, the body of the black mist in the body of the three **** seas was like a push of Jinshan and a jade column. At the same time, it collapsed and merged into the majestic flames under the feet. blink

Eyes, within the entire flame of the sea, there is only one violent figure left! tight

Then, a faint sound of broken air rang, and the majestic flames under the feet quickly contracted. The blink of an eye turned into a faint nine-colored mans, and the violent eyebrows were shot, and disappeared.

"Irritable, what kind of trick do you want to play?"

Seeing his move, the front of the group was eager to rush, and the light group approaching forward suddenly stopped in the void.

Within the light group, the voice of the gods with endless suspicion also came out: "Is it ready to stop? Also, the deity is an eighth-order power, a half-step supreme, but a first-order difference. Even if you have three big bloods, you can add that **** stick..."

"But if you want to kill the deity, there is still no possibility. In fact, even the seventh-order power that was just killed by you, if you are not a light enemy, look down on the field power of the **** stick in your hand, even if Your three big bloods and seas join hands, and if you want to kill them so easily, it's just a delusion..."

Then, violent, your anger should also be extinguished. The six ancient powers in the banned land of Hongzun have already been exhausted by you. I have paid a heavy price..."

Everything, is it over? Otherwise, even if you continue to fight, you will not be able to have any gains. On the contrary, the longer the time drags, the more unfavorable it is for you, and soon there will be other ancient powers of forbidden land, even the ancientest supreme. Ill, you should accept it..."

This is really a temptation for Duntown. Ye Xuan said that it was almost a bit of a move. but

The war has already reached this level. At the last moment, if you want him to close, it is obviously impossible..."

What about the eighth-order power? The main character of the star is not to use the blood and sea, but also to easily lick you..."

"Hey!"

In the middle of the cold mans flashed, the violent voice of the gods came out, at the same time, slowly raised the left arm, a sly energy bow quickly spread out! its

The shape is extremely simple and secret. The bow body is composed of three parts. The middle part is a double-headed monster. The wide mouth of the anger is oriented in the upper and lower directions, and the upper and lower parts of the bow are respectively two bodies. Humanoid creature. This

The wide mouths of the headed double-headed monsters swallowed the feet and part of the calves of these two humanoid creatures. The mouth is the place where the strings are held, and the hands are on the lips, which seems to be in awkward and inexplicable. One

The root is obviously composed of numerous stringed fine gold threads twisted together to form a bowstring, and the two ends are connected to the life of these two humanoid bodies! this

Engraved, as the sound of this low humming sounds, a golden energy arrow appears in the strings for a moment...

Chapter 4613: Rapid retreat

At this time, the violent use of the show is the strongest magical power that Ye Xuan Lai relies on---陨天弓!

When the golden energy arrow on the bowstring appeared, with Ye Xuan's thoughts, the violent scorpion also smashed a strange golden glow. His right hand extended and directly pinched the bowstring of the left hand energy giant bow. Above, hold the energy arrow and slowly pull it away..."

Oh..."

In an instant, the incomparable tremors screamed and screamed, and the voids around them seemed to have an invisible wave, as if the arrow was only pulling the string, and the momentum emitted by it had already stunned the void. Very powerful.

"call out!"

The humming sound only lasted for a while, and the violent stunned the right hand that pinched the energy bowstring.

With the sharp and unspeakable sound of the air, the emptiness of the sky, a golden stream of glory, with a speed that makes the ancient powers unable to react, lasing away!

Just an energy arrow, all the power in the violent body was taken away. The same was true when he smashed the ninth-order genius. even

The nine-order power can be killed by a single arrow. What can be said about the existence of the eighth-order in this situation?

Ye Xuan is clear, even if it is the secret method of blood and sea, condensing the three blood seas, and even urging the nine-color flame sea, offering a **** stick, in a short time, it is difficult to blast this eighth-order power. kill.

Nowadays, at the cost, we will once again sacrifice the strongest gods to the sky bow, for the sake of a single blow to solve this last eighth-order power. Of course

After that, I can take a long walk and leave the place.

"boom....."

As the golden arrow spurred away, almost at the same moment, the earth-shattering sound of the explosion came, and everything went on without suspense. blink

In the eye, as the golden arrow did not enter the body, the awning light group collapsed instantly, and it was completely blown up for countless fine light spots, and it disappeared. when

Among the points, a purple blood mist spread out, and the eyes covered a huge void. "

call out! Storm

At the moment, he also waved his hand, and a huge invisible instinct was rolled out of his body, covering a radius of ten thousand miles. will

The **** fog that has just spread out has been swept up, and it has been collected into the body and sent to the bottom of the volcano in the central area of Dingnai.

At this point, the six ancient powers in the banned land of Hongzun, without exception, all suffered from the hand of Ye Xuan. After this war, Ye Xuan not only has the power of blood in his hands, but has already accumulated a huge number of ten. Even the income of the previous breakthrough has been fully integrated into the soul and the flesh.

And therefore ushered in another opportunity to break through! "

Although the time of the battle is not long, it is not too small, and the neighboring top-of-the-range star field cannot be without any notice...

In the battle, Ye Xuan narrowed his figure to the height of his hand. He waved a lot of flesh-and-blood medicines and all kinds of top-class treasures, all of which were swallowed into the abdomen and quickly restored the energy of the deficit.

At the same time, his shackles also had a flash of light, and turned to look at the neighboring top-of-the-range star field, whispering: "So, the five ancient powers The survivors of the survivors, as if they had previously guessed, did not intend to intervene in this matter."

But now, with the six ancient powers in the Hongzong forbidden land all being bombarded, most of their hearts have also mentioned the eyes of the blind, fearing that any sensitive movements will cause them to rebound..."

This matter is not urgent, there will be a day of reporting in the future, but now, I still leave this place, refining the 28th-level power Baodan! "Say

At this point, Ye Xuan took back the dawn and rushed to the six ancient stars of the wild, which were smashed by the genius. After a thorough search, he jumped the interstellar coordinates attached to the internal system at the first time. Ability to activate. "

Oh..."

For the faint sound of breaking the air, almost at the next moment, the temperament only succumbed to the height of the body shape, it disappeared completely disappeared...

Until then, the entire vast rainbow of the forbidden land, still dead.

The forbidden beasts who crouched in the stars of a fierce beast, all hiding in their own nests, shivering and shivering. rainbow

The forbidden place is a top-level strong forbidden place. In the right half of the right bank of the Milky Way, it is considered to be a fierce name. On weekdays, there has never been any existence to dare to come here. but

Today, only one violent rush came, but in a short meal, all the six ancient powers in the banned land of Hongzun were killed. This

The result, so ferocious and violent, they couldn't imagine that all the beasts and the beasts were frightened. versus

At the same time, it is adjacent to the Hongzong forbidden land, and the distance is only about 10 billion miles. The situation is basically the same. At this time, the situation is basically the same. In the entire Xingqiang Xingqiang, there is a dead, all the wild. The survivors are shaking and the atmosphere is not dare to come out...

It was not until the meal was over, that it was determined that there was no other movement in the forbidden land in the vicinity of the Hongzun, and the five nested stars in the high-level squats of the high-level priests rushed to the dark. a loose voice.....

...

"call out....."

The faint sound of breaking through the air, a slap in the face, appeared in the void in a very abrupt manner, without any warning in advance, when it appeared, it was completely untrackable. Milli

Mang rises in the wind, and in the blink of an eye, it turns into a starry temperament in the shape of Zhang Shugai, which is Ye Xuan.

This time, the interstellar coordinate transmission point he locked in is still near the source nest star that bred his strongest power. pass

After the delivery was completed, Ye Xuan extended the knowledge of the gods for the first time, sweeping a circle, and determined the source nest star in the distance that gave birth to his strongest strength. After no abnormality, Ye Xuan was scorned. Tone. turn

The body spurred away from the giant abandoned star in the distance.

After arriving at the destination, the violent sorrow did not hesitate, and directly entered the star nucleus of this abandoned star, and blinked into a huge star space opened at the time of retreat.

After regaining the excitement, Ye Xuan fell into sinking, and from time to time, he screamed and screamed, and there was a whisper in his mouth: "This time the harvest is huge, even the twenty-nine-level supreme Baodan refining The materials have been put together... Unfortunately, the perfect Danfang of the 28th-level Baodan has not been successfully deduced!"

But in any case, the refining of the twenty-seventh-level Baodan can no longer be delayed... it must be launched immediately! "Say

At this point, his smashing glimmer of light, Ye Xuan made a decision immediately, without delay, squatting now, first to later use the 28th-level Baodan to officially break through to the ancient wilderness, first refine Come out and say it!

"Hey!" broken

The sound of the air rang, Shennong Ding sacrificed, Ye Xuan stepped into the step, still sitting cross-legged in the Shennong Ding Ding mouth with a colorful mist, a wave of hands, the already completed 17-year-old baby fist size of the blood, It appears in the palm of the right hand in an instant...

Chapter 4614: Powerful Baodan

The twenty-eighth-level Baodan is also known as the powerful Baodan. One

The swallowing of the whole can make the universe supreme and the nine-order great perfection. In a short time, it will successfully break through the bottleneck of the big realm and become a real wild power. Such as

Today, Ye Xuan's own cultivation has reached the fourth level of the universe, that is to say, after five breakthroughs, he will be able to swallow a twenty-eight-level power Baodan. It is time to jump into a real wild power. Place

Therefore, this Dan can no longer be dragged down and must be refining as soon as possible.

However, the exact number of the most outstanding Baodan in this furnace is still unknown!

These seventeen Supreme Blood Extracts will be combined with other large-scale treasures and treasures of the ancient treasures to become the basic raw material for Ye Xuan's twenty-eighth-level Baodan!

In addition to these two most important basic materials, Ye Xuan will also add some of the evil source liquids, as well as the top resources previously found in Hong Kong.

After everything was ready, Ye Xuan waved his hand and took out all the resources needed for the recipe and all the treasures of the top treasures. Then he closed his eyes...

.....versus

At the same time, the inner space of Shennong Ding, inside the flame pool at the bottom of the volcano in the central domain!

"call out!"

"Hey..."

As the sound of the emptiness of the roads sounded one after another, the dense and sullen spurs came from the heights of the volcanoes above the central volcano and appeared directly above the flame pool at the bottom of the volcano.

Suddenly slammed and hovered for a moment, it was exactly the top materials and cultivation resources that Ye Xuan prepared for the 28th-level Baodan.

"Call!" Very

Fast, like a screaming whistling sound...

In the next moment, below the top resources, from the flame pool at the bottom of the volcano of the central domain, a fascinating Shennong nine-color flame roared. to

In the raging wind, the nine-color flame sea is instantly condensed into a nine-color furnace, which is small and simple, revealing an extraordinary atmosphere.

With the formation of the small flames that are condensed by the nine-color flame of Shennong, the materials and resources such as the blood of the beasts that have already been prepared are all automatically flying. No

Into this fireworks Ding Ding, which only covers the square, the first furnace of the 28th-level Daneng Dan... It was officially launched! two

The 18th-level Da Neng Bao Dan, with only one piece, can make a cosmic supreme ninth-order grand perfect monk jump into an ancient power. only

With this, its importance and preciousness can be imagined.

And this is Ye Xuan's first refining of the 28th-level Danone Dan. The raw materials used are all Supreme Blood. Each one represents a powerful cosmic supreme. It is too precious. He is half a bit. I don't dare to take it lightly, and I'm controlling everything...

In the move, a refining method was taken out in the hands of Ye Xuan.

The speed is almost at its peak, and the blink of an eye turns into a mysterious pattern of incomprehensibility. It does not enter the colorful stove at the bottom of the volcano of the central domain. Unconsciously, the time of a month is dazzling...

"boom!"

Just at this moment, a huge roaring sound rang above the flame pool at the bottom of the central fire of the Ding Nei space.

The furnace that was condensed by the pure Shennong nine-color flame was scattered, and the colorful fireworks like the river rushed back to the flame pool below. and

Still remaining above the flame pool, there are sixteen baby-sized balls! This

The sixteen beads are all golden and purple, and the surface is full of rich and colorful mist, and there is a layer of dreamy halo, revealing a simple and heavy atmosphere...

It is the twenty-eighth big power Baodan!

With just one, you can make the universe's supreme ninth-order perfection monk, after swallowing, break through the realm in a short time, and directly enter the 28th level of the ancient powers... ! "

Actually there are sixteen? Knot

After the condensing of the bunch, Ye Xuan opened his eyes and saw the sixteen pieces of Supreme Baodan, which had a strong and powerful atmosphere, suspended in front of him. His face was stunned and he immediately took a sigh of coolness. . Mutter

In the middle of the whisper, in the midst of it, there is even more excitement and excitement.

Seventeen pieces of Supreme Blood, under normal circumstances, should be about twenty-eight out of the 28-level power Baodan. many

The three out of it, because it is because of the seventeen Supreme Blood, there are two of the best blood, but this is no longer important. Correct

For Ye Xuan, the most important thing is that this 28-level powerful Baodan not only successfully refines, but also the number of Baodans that have been released exceeds his original expectations.

This is simply an unexpected surprise... Ten

Six, in addition to one self-swallowing, there are still a total of fifteen pieces in the rest, in the future will be able to let Ye Xuan's squatting among the other geniuses, and fifteen powerful wild powers! shortage

Gu Daneng, sitting in the town is the top of the strong forbidden land, but in fact, the general top-level strong forbidden land, at most, is the three or four ancient powers. Such as

Ye Xuan had just ravaged the Hongzong forbidden land, because there are six powerful wildernesses to sit in the town, so even in the right half of the right bank of the right bank of the Milky Way, all the strong forbidden land and the Xingqiang star field can definitely be discharged. Forefront.

In fact, even if it is a super-strong forbidden land with a sacred ancient supremacy, its internal power as the next-class peak strength will never reach fifteen, at most, it is within ten!

In this way, if these twenty-eight-level Baodans in Ye Xuan's hands are all consumed, then the comprehensive strength of his and his descendants will far exceed the average top-level forbidden forbidden land, even if it is a deserted place. Super strong forbidden, I am afraid that one can be higher with one. Do not

However, all of this is still too far away for Ye Xuan. The road he has to take is still very long. In addition to his own cultivation and strength, he still needs to be upgraded. weight.....

"Calculating time, in addition to the source nest base camp, the other armies left in other stars have been seen for a long time, and I don't know how they are now..."

In the middle of the Han Mang flash, Ye Xuan immediately remembered the Starry Nomadic Legion that he had left outside Hongkong's void. It's been a little different from the Green Bull. It's been over for more than a decade. It's already late for the emperor's immortality. although

However, this speed of entry is not bad, but compared with Ye Xuan, it is still too much.

Including his stay in the Xusheng forbidden land, guarding the starry and fierce beasts of the Hongkong Void entrance, and the aristocratic army of the ancients, only three of them were immortal. Today, there should have been emperors. But...but

Ye Xuan himself, but unconsciously, has become the supreme of the universe, and will soon enter the wilderness and great power, and the gap between the subordinates and his subordinates is growing.
miss you

Here, he sighed: "It seems that you have to take a moment to send some of the treasures in your hands, first send some past..."

Chapter 4615: Supreme fifth order

Twenty-eight can make great power Baodan finally refining, and Ye Xuan's heart is suddenly loose. Tune

After a whole mindfulness, all the distracting thoughts that suddenly popped up were all opened. He quickly entered the Dingzhong space by hanging the colorful foggy Shennong Dingkou, hanging over the volcano of the central domain, kneeling sit down.

After the departure of Hong Zun's forbidden land, the battle of the previous breakthrough made the soul of the previous breakthrough completely integrated into the soul and the flesh. Now, the opportunity to break through again has arrived. "

Oh..." with

With a wave of his hand, a faint sound of broken air rang out, and in a moment there was a glare that slammed out and hung in front of him.

It is the cultivation resources that he took out from the immortal world to develop this breakthrough, including the evil source liquid, and the nine-color **** medicine. do

After all this, Ye Xuan mobilized Shennong Ding's domain field power in the first time, compressing all the cultivation resources to the size of only the baby fist, and then swiping it into the belly. "

Oh la la..."

Soon, when it was compressed into the entrance of the energy ball of the size of the baby fist, Ye Xuan immediately heard the sound of the chain squeaking. Be

All the resources in the swallowing entrance melted instantly, and in the blink of an eye, there was a huge energy in the body. very

Obviously, the chain of shackles that appeared in his body this time is still the same as before, and there is only one one. This is what it should be. Ye Xuan did not pay attention to it. Tune

After a whole mood, Ye Xuan even if he is concentrating on his ambitions, he is the only energy that has been formed in the body, and he is fully and continuously in the whole body, and launches a big Sunday operation!

In the previous battle, Ye Xuan successively smashed six powerful wild powers, which can be said to be the best of the war. he

It is even because of the strong power of the 陨天弓, the energy in the body is almost drained. Therefore, this time the breakthrough is not hindered. It only took a day, and the energy formed by Ye Xuan's body has already Completely refining.

When this hanging energy Dajiang disappeared completely in the operation of Zhou Zhou, and then merged into Ye Xuan spirit and body, then, he was only a shock, and the chain of shackles that appeared this time has been broken. period

The system sounds to be heard soon also sounded in Ye Xuan's mind..."

Hey, congratulations to the host, the breakthrough of the ancient realm of the hole! The current realm: the fifth level of the universe! "

"Hey, congratulations to the host, the physical and qi and blood boundary breakthrough! The current realm: the universe supreme fifth order!"

Respecting the fifth order, only one step away, will enter the mid-peak!

The previous breakthrough, Ye Xuan deity's cultivation is the fourth order of the universe supreme.

After activating the blood of the ancient konjac in the body, you can climb to the Supreme Fifth Order in an instant. and

If the magical scorpion is changed again and the ninth change is reached, the combat power will immediately rise to the fifth stage of the ancient power. can

In fact, if you count the brilliance of the flesh and the blood, the real power of the repair is the sixth-order power. but

Now, with his successful breakthrough this time, Ye Xuan will have the strength of the sixth stage of the universe after he activates the blood of the konjac in the body.

Then show the blood and magic of the konjac nine changes, and directly into the ninth change, its peak power will be able to reach the sixth stage of the ancient power! Such as

In addition to the huge body of 60 million miles, the pounds of the arrogant force of the first-order addition to the real power.

In the end, the most powerful force he can show now is already able to shoulder the shoulders of the seventh-order power of the ancients, that is, the late power.

He also has the secret of blood and sea. Once he mobilizes his avatar power, he will condense three blood and sea avatars in an instant, all of which have the horrific power of seven-step power. Take

In the case of World War I, the killing of the seventh-order power is completely out of the question.

It is the eighth-order power, using the **** stick and the Shennong nine-color flame, and it can also be easily killed, without having to rely on the previous general, relying on the strong **** to pass the bow. To

Nowadays, it is necessary to let him display the existence of the 陨天弓 to kill, at least the nine-order power, that is, the half-step supreme!

However, the real ruin of the ancients, with Ye Xuan's current cultivation as strength, I am afraid that still can not be moved, even if the use of the 陨天弓 this strong power, it is impossible. complete

In fact, the ancient sacredness is the strongest existence below the heavenly state, and its means is far from being comparable to the ancients.

"The fifth stage of the power, there are four breakthroughs, you can achieve the qualification to swallow a twenty-eight-level power Baodan, then you can make your own training officially into the big power."

In the middle of the fine flashing, Ye Xuan subconsciously grasped the double fist, for a time, full of pride: "If you formally enter the wilderness, in the state of the ninth change of the magical power of the konjac, I The peak force will reach the second level of the ancient sage!"

So, on the right bank of the Milky Way, no one can make me really jealous. It's a big deal to use the sky bow. At that time, it's a real moment of swaying and swaying! "

"However, if you don't have anything to do now, you can make a sigh of relief and push the perfect Dan Fang of the twenty-sixth-level Baodan to the first."

"As a result, at least in the future, we can ensure that our own cultivation is a strength, and formally enter the wilderness."

One thought of this, he did not hesitate, and instantly changed the blood of the konjac to the ninth change, and at the same time the blood and sea secrets, so he squatted at the body of Shennong Ding Ding, and No change.

Still ten feet high, but repaired as strength, but it has reached the sixth stage of the ancient power! short

After temporarily adjusting the mood, Ye Fengliang quickly recovered his mind, and combined with the body's engulfing system, the system's calculation and derivation ability was promoted to the extreme.

The knowledge of the sixth-order power is terrible. With this kind of horror, as an aid, I believe that this time, it will not take too long. first

Before, when deriving the perfect Danfang of the 28th-level Baodan, Ye Xuan spent more than five months.

But this time, on the one hand, Ye Xuan's current cultivation has reached the sixth stage of the ancient power, and the gods are powerful and too many.

On the other hand, it is because of the perfect Dan Fang of the twenty-ninth-level Baodan. Before that, he had already explained the phagocytic system in the body and launched the full-speed derivation, which is already quite a prototype. most

The end result, which led to his derivation, only took more than six months, so that the perfect Dan Fang of the twenty-ninth-level Baodan was successfully released.

Six months later, Ye Xuan opened his eyes and screamed with excitement. "

call....."

With a long sigh of relief, Ye Xuan whispered, and there was a kind of excitement and joy in the voice: "The perfect Dan Fang of the twenty-ninth-level power Baodan, finally... successfully completed!"

In the end, he seemed to think of something, and immediately sneered: "So, it is time to return to the Hongzong forbidden land, the five survivors of the neighboring star field will be able to solve the moment together..."

Chapter 4616: Former vengeance must be reported

In just six months, it was over. in

In the past six months, Ye Xuan's harvest can be described as extremely huge. It is not only the first step of its own cultivation, but now it has officially entered the fifth stage of supreme. The peak strength is more than the seventh-order power.

And also produced sixteen twenty-eight-level power Baodan.

Even the perfect Dan Fang of the twenty-sixth-level Baodan has been successfully deduced. This

Let Ye Xuan feel a sudden shoulder loose. because

In order to refine the abilities of the twenty-nine-class Supreme Baodan, there are already ten in his hands. If you really need it, these ten will be enough for him to refine.

In this way, it is enough to ensure that his own cultivation is the strength and formally enters the ancient and supreme. Have

With this powerful strength, even if the end of the flood is coming, Ye Xuan can be fearless. when

However, although the perfect Dan Fang of the twenty-ninth-level Baodan has been deduced, and there are already ten powerful bloodstains in Ye Xuan's hands, but since it is not used yet, then he must It will not be easily refurbished.

After all, collect a large amount of blood and refining, and then the twenty-sixth-level Baodan that will be released will be one more. This is the supreme treasure, and one represents a powerful ancient supreme. Can't let him have a glimpse! Finish

In all of this, my heart suddenly became loose, and Ye Xuan immediately remembered the power of the five survivors who had not yet resolved in the top Xingqiang domain. he

The purpose that has always been upheld is to report on the day of hatred, never overnight. This

Once for a special reason, only half of it was reported. It was a slight sigh of anger and it left, but now things are done, and then dragging it down is definitely not the style of Ye Xuan.

When I think of it, his squatting in the middle of the cold, he has already got up, and once he walks out of Shennong Ding, he waved his hand and took Baoding into the immortal world. also

At this time, just as Ye Xuan wanted to leave the star of the abandoned star, there was a familiar sway in his body. It was the movement of the smoke, and Ye Xuan's heart moved, and waved, I will go out to smoke directly. "

Oh..." with

With a faint sound of broken air, Bao Luo whistling out, and the wind will rise! blink

The eye will turn into a pink pipa of a hundred feet in size, and the undulating sky in front of Ye Xuan will slowly rise and fall, revealing a very strong and mysterious atmosphere. a few

At the same moment that Bao Luo was sacrificed, the voice of the ancestor's ancestors came out, revealing a deep joy: "The master, the sisters' retreat is over, this time the harvest is not small, the sisters, both It's half a step to the top..."

"Half-step supreme?"

Xuan stood up and stayed for a while, and the face instantly showed an ecstatic look!

Half-step supreme, that is, the nine-order grand perfection of the Lord of the universe, one step, you can enter the real universe to the extreme. and

After the arrival of the universe, these seven gimmicks only need to upgrade the cultivation of a big realm, and the strength can be restored to the peak of the past life, that is, the ancient great power. Photo

No matter which one is the most beautiful, the temperament is different. Although it has been in contact for many times, Ye Xuan still can't hold it at this moment, and the heartbeat is faintly accelerated. "

See the owner..."

After the sudden appearance, the seven glamorous savage savage repairs, while at the same time to Ye Xuanjiao smiled and greeted a gift, screaming at the owner.

Immediately afterwards, they discovered that Ye Xuan's current cultivation was strong, so the whispering sounds immediately sounded like a tide.

After some frenzied, the seven gimmicks did not forget everything that happened after the previous sleep, and soon the smile on the face converges, the look is all dignified, and the voice asks Ye Xuan...

Master, what happened later? "

"Yes, the star blog you said..."

And this matter, Ye Xuan's face also became dignified, he did not conceal anything, even if everything that happened in the forbidden mosquitoes at that time, all said to the seven hoes. One

Listening to Xingbo actually has a very important relationship with Qingyan Tiandao Qingyan, and its own cultivation is the strength. It is also suspected that it has reached the heavenly state. The seven gimmicks are suddenly silent, biting their lips slightly, and their faces are filled with resentment. The color. very

Obviously, the horror of Xingbo's Heavenly Way has scared them.

After all, when these seven gimmicks were at the peak of their past lives, they were only late in the past. And

Nowadays, from the time of the ruin, to the star of the world, it is still in front of everyone, and smoothly enters the galaxy of the Milky Way where the parent star is located. There will be greater creation in it, maybe it will make Xingbo The cultivation is further strength.

From this point of view, even if all the seven gimmicks lived out of the second world, the hatred of that year may not be reported..."

Is it so depressed? Xingbo is strong, but now you are half-step supreme, and then there is a big realm that can be restored to the peak of the past, and then further, it is the ancient supreme... But this is not necessarily the end! "

Seeing a few gimmicks, the expression was depressed. Ye Xuan nodded immediately and comforted: "You can rest assured that the resources for cultivation will be fully supplied by me. The only requirement is that you only need to recover all your strength, even in After the restoration, go further, the revenge of the past life, this world... we must report!"

Chapter 4617: Royal reappearance

During the speech, Ye Xuan waved his hand and took out a large number of colorful magical medicines from the closed cave at the bottom of the volcano in the central space of Shennong Ding. also

It is divided into seven copies, like each one, and each one has tens of thousands of cubes. Such as

As a result, the batch of nine-color magical medicines that Ye Xuan refining before suddenly lost a little less, just like a huge glimpse of a giant peak, this is the third fifth. thing

In fact, since this time, Ye Xuan's own breakthrough has been used, and it has also used about one-fifth. Place

Therefore, the batch of nine-color magical medicines that were originally refining, now only one-fifth!

It seems that in the near future, it is necessary to refine the furnace. In addition to preparing for the seven gimmicks, Ye Xuan himself needs it. In addition, he has decided to go to the Phoenix Star and Xusheng forbidden land soon. There are also two big squadrons, including the Qingniu. One

In the past ten years, this time in the past, in addition to sending all grades of Baodan, Ye Xuan is obviously indispensable. "

call out! ""

Oh..." this

Engraved, as he waved, the faint sound of the air broke out, and the seven volleys spurred away, falling into the void in the side, abruptly stopped, it was the seven canopies with tens of thousands of cubic nine-color magic.

"Thank you!"

"Masters can rest assured that we will not give up, as you said, the past vengeance, this world, it is necessary to report."

"Even if he is the supreme being beyond the heavens..."

Ye Xuan's words obviously touched the seven gimmicks, and they all had tears in their shackles, but they looked firm and strong, and they did not flow out. When they waved, they immediately gave Ye Xuan's nine colors. The magic medicine, as well as other kinds of top-level cultivation resources, are all put away.

"It's hard to get a trip, and during this time, your mood is not good, cultivation can't be squatting, otherwise it's about your mood and influence..."

The seven gimmicks were all revived, and Ye Xuan nodded, saying that half of it was slightly indulged, and then he took it: "It is better to stay outside for a few more days, and the right to distract."

Wow, that's great....."

"There was this meaning, but now the enemy is not removed, the pressure of the master is so big, we should not be too relaxed, so I did not dare to mention it before."

"It's still a good host, just like the locusts in our stomachs, actually guessing the minds of others, the master is bad..."

.....

At the first time, Ye Xuan offered to let them stay outside for a few more days. The seven gimmicks were very pleasantly surprised. The dignified color on his face was instantly replaced by laughter. While talking, Jiuwei Tianhu and other more charming gimmicks, Half-jokingly teased Ye Xuanlai, letting his forehead black line mad, shaking his head and laughing...

After some thoughts, Ye Xuan turned his hand, and immediately there was a palm-sized purple gold beast driving in the palm of his hand. It was the magic dragon! first

Before, his calculations were directly rushed to the top-most strong star field in a violent form, and the five survivors who had intercepted him were directly killed and then left.

But now, Ye Xuan has changed his mind! Legacy

The strong man and the starry beast are different. After the starry beast is killed, the flesh and blood of the flesh is opened, and it can also be used to refine the blood of the beast. but

The survivors are not useful. and

These five old guys, at first, actually saw the interest, almost to Ye Xuan died, if only just smashed them, it is a bit unwilling, how much to get some benefits.

Compared with the starry beasts, the advantage of the ancient survivors lies in the secrets of the refining drugs that are passed down in their tribes, as well as various other resources. This

Two kinds, Ye Xuan will not let go, this time to go to the top of the strongest forbidden land, in addition to killing these five old guys, they have to put their treasure resources, and the secrets of refining medicine secrets, Dusit is clean.

It is impossible to say that Ye Xuan can refine the supreme medicine that goes beyond the nine-color magical medicine and is more effective. "

call out! "

After the decision, Ye Xuan bowed his hand to the magic dragon Yu Jia, and then waved his hand directly.

With a sharp sound of breaking the air, the magic dragon in his palm will instantly turn into a black and purple awning, rushing toward the front, rising in the wind, blinking, and turning into a hundred feet. Driving a car. whole

The seat of the car is full of purple gold, with a metallic luster. Every inch has a purple gold halo, just like a mist.

Around the car, it is carved with dragons and phoenixes, covered with mysterious patterns, revealing a simple and incomparable atmosphere. to

In the space, the outer area of the treasure car is divided into two parts, the front and the rear. The second half is a dome. It is a secret room. It uses space technology and has a huge space.

The first half, there is no dome and four walls, but it is covered by a layer of purple gold smog.

After stepping into the Imperial Motors, you can choose to sit in the first half to watch the scenery, but even in the first half, there are actually many modes. When needed, adjust to a visually visible mode. The smog is semi-transparent in an instant. A layer of purple yarn. and also

It can be in the heart of a movement, like a curtain of purple smog, it will become rich in an instant, everything inside is not visible.

But this is just a slap in the car, and there is an extension beyond the body of the car.

The so-called extension is the seven black dragons with a hundred giants, one hovering behind the car, one on the left and the right, and six black dragons in the front. This

There are a total of nine black dragons, all of which are entities, not energy ghosts. And the breath of the nine black dragons is also the age of the ancients. If

If you need it, between the thoughts, Ye Xuan can control any of the magic dragons to rush to the distance and start the bombing!

Of course, with Ye Xuan's previous cultivation as the strength, the nine dragons who drove the nine black dragons to reinforce the magical dragons that can be displayed can not reach the ancient level. first

Before, they only had the breath of the ancient powers of the ancient ages, but the real combat power was limited by the strength of Ye Xuan's own cultivation. Previously, only the nine-order grandeur of the universe was perfect. Say

The ugly point is actually a paper tiger, which can be used to scare people to support the scene, but if it is really a life-and-death battle, it will be worn in an instant. but

That's just the previous one, and now, obviously this is not the case. Such as

Today's Ye Xuan, in the state of the ninth change of the **** magical power of the konjac, even if the body type is only a singularity, she gave up the huge body of 60 million miles. The first-order blessing, his cultivation as the realm, can also reach the sixth order of the ancient power.

This is the peak of the mid-energy period. If it is fully driven, the real combat power that these nine black dragons can show will reach the second-order of the ancient power. and

Moreover, whether it is the Dragon Dragon or the nine dragons, the Baizhang body type is only the lower limit. If it is necessary, Ye Xuan can move them to achieve a horrible body like a giant star. This is, in the past, He can't do it...

Chapter 4618: Departing the star field

"Hey!" broken

The whisper sounded, and a purple gold rushed out of the star of the abandoned star. In the blink of an eye, it was already in the sky of hundreds of millions of miles away. This

Dao Zi Jin Mang, it is the magic dragon Yu driving, now Ye Xuan has restored its original appearance, but it has not withdrawn from the konjac blood, even the magical scorpion, he is still in the ninth Under the state.

The reason why in this state, the original appearance of the human race can be revealed is because of the secret of blood and sea.

The secret of blood and sea can make his size from the heart to the size of more than 60 million miles, as small as a tiny drop of blood, just to restore the original human face, naturally. This

It is the uniqueness of the secret law of blood and sea. When applying the secret method of blood and sea, no matter how the shape changes, it will not affect the cultivation of strength, what kind of realm is used before the exhibition, and after exerting its changing form, what is still being repaired as strength.

However, because the body is no longer a giant of 60 million miles, the power of the blood in this huge body is no longer a first-order bonus to the realm of cultivation. Place

Therefore, today's Ye Xuan, the cultivation of strength in the body is the sixth order of the ancient power. six

The power of the order, driving the magic dragon to drive such a wild treasure, the speed is naturally unimaginable, although it can not be compared with the real ancient supreme, but it can already be compared with the ancient step of the ancient ninth stage of the great power. .

After all, in addition to the power of Ye Xuan, who controls the magic dragon's driving, there are nine powerful ancient black cars in the wild. Take

Ye Xuan is now the sixth-order power to repair the strength, if he is willing, whether it is the magic dragon or the nine to pull the black dragon, the body can skyrocket to the giant, but it is too swaying. although

It is said that Ye Xuan now sacrificed the magic dragon to drive, originally for the purpose of swaying, but in his view, the highest state of swaying is that while swaying, people feel that they are too low-key.

Therefore, the Dragon Dragon and the nine black-handed black dragons are now only a hundred feet in size. After entering the Hongkong void, it is like a lightning bolt in the black with a purple gold. It is rushing toward the right half of the right bank of the Galaxy. and

In the vestibule of the Magic Dragon, in addition to the seven great repairs such as Ye Xuan and the corpse of the corpse, there is also the old goods like the fox. Such as

Today, the beggars who are next to Ye Xuan, except for the seven major cults, are only like the foxes, and the last time they walked out of the source nest stars.

Oh, yes, there is a Emperor Yin Lei Ling in the printing of Lei Di!

Qingniu and Yuling, Longjing, Gongjun, and the beast army group headed by the black wind tiger and the roaring moon, the Sangzhi immigrant tribe, the three-jaw dragon, the dragon mountain Tang and so on as the captive army, etc. The Legion, now in the phoenix star field outside the emptiness of Hongmeng.

And Xu Xuan later conquered the Xusheng banned beast army, and the powerful survivor of the tribe Xuanhuang tribe, all the survivors of the tribe, are now also in the Xusheng ban outside the Hongkong virtual entrance. old

Pig essence, eight King Kong, flying scorpion, silver scorpion, and a sea of knives, Cang Qingyu, as well as Naboshan, Pa Guai, Li Mo, Zuo Fengtai and other demon army.

There is also a tens of millions of beasts and beasts, together with the Longye Life Giants, stay in the source nest base camp in Hongmeng.

The **** king of the mosquito and beast was taken over by his ancestors, and now it is unknown.

The lion Wanjin, who was reborn in the fire, also left. Now I don't know where this is.

Including Ye Xuan's swallowing avatar, after leaving, there has been no news... except

In addition, Ye Xuan also has an electronic avatar, entered the Emperor's mechanical family base camp, and now there is no news...

These subordinates belong to the army, and they need Ye Xuan to pick up and enter Hongkong and the void, while the separate Lion King, devouring the avatar, etc., need Ye Xuan to inquire about their whereabouts, and gradually lead back.

Because he has a strong sense of foreboding, the so-called end of the world will soon come. miss you

At this point, he couldn't help but be ecstatic. All this can only be done after the end of the trip. magic

In the vestibule of the Dragon King, the seven gimmicks saw Ye Xuan's enthusiasm. It seemed that he was thinking about something, but he did not bother him, but he was bored and bored. He turned his attention to all the slaps and looked very cute. Like a fox. This

The old goods are now also the emperor's immortal nine-order grand perfection, that is, the half-step emperor, more than ten years can have such entry, in addition to Ye Xuan provides a large number of nine-color magic, obviously also with his own Efforts are inseparable.

It is a pity that even if it is a half-step emperor, there is no resistance in the face of the seven great cults. The seven gimmicks are already half-step universe supreme. They are three different realms. They are not a layer of existence. . Seven

The gimmicks are almost always in retreat, and it is difficult to come to distract them. Naturally, they can't stop, and tease them from time to time, so that the face of the fox is full of despair, quite a feeling of no love. "

Oh..."

"The old man will retreat next time, not breaking through one or two big realms, killing will not come out..."

The magic dragon smashed into a black volley, and along the way, the screams of foxes screamed through the universe, and it was simply tears...

.....

Calculating the time, Ye Xuan slaughtered the six ancient powers in the forbidden land of Hongzun. After leaving and leaving, now, it has been nearly seven months. Correct

For Ye Xuan, this is half a year, and he almost passed away.

Because for a full six months, he devoted himself to the perfect Danfang of the twenty-ninth-class Baodan, so he barely felt the passage of time. Of course

However, for half a year, for the myriad of strong forbidden land, the strongest star field, and some strong players in the scattered star field on the right bank of the glory of the glory, it may not be a good thing, maybe a small one. , or take a nap, it's gone...but

In the past six months, there have been countless strong people in the strong forbidden land and the strongest star field on the right bank of the entire Galaxy, but almost all of them have the feeling of being like a year. This

Half a year, the right bank of the Galaxy can be described as a heart.

The massacre that occurred in the forbidden land of Hongzun six months ago, and the cause of the cause of this massacre, including Ye Xuan's plan, were besieged by the terror of the twelve late supremes, and then they were successively killed. In the end, it attracted two powerful ancient supremes.

And the two powerful ancient sacred supremes, and all that have fallen in the end, have now spread throughout the right bank of the Milky Way.

On the right bank, there are a lot of strong people in the forbidden land and the Xingqiang star field. The thrill of the violent power and the speed of horror growth, even more frightening, is that the original is already in the legend. In the midst of World War I fell, but I did not expect that I have lived to the present, and I have also restored the virtual giant turtle that was born in the peak and was born six months ago...

Chapter 4619: The right bank of the Milky Way

The banks along the right bank of the Milky Way are extremely long, and there are so many strong and forbidden territories and some scattered clusters on the right bank. This

Among them, there must be a lot of ancient and supreme.

However, the ancient Supreme will not show up in peacetime. They only pay attention to the Galaxy Star Field. Waiting for the opening of the Galaxy Star Field, they will enter the first time to compete for the new round of Hongmeng. This

Some of the ancients are supreme, and they don't even have to stay in this glory. They are very likely to be like the empty giant tortoise, originally crouching in the ectopic plane connected to this, or some debris in the void.

Therefore, on the right bank of the Milky Way, although there are super strong forbidden forbidden areas and Supreme Star Fields, which are said to be in the ancient times, there are still many, but in fact,

here, the most powerful existence that can be seen on weekdays, That is, the ancients are great.
shortage

The ancient supreme, I do not know how many years, did not appear in public, even if the ancient powers, in general, there are few appearances.

But in the past six months, the Void Giant Turtle has appeared three times.

He is not the ordinary ancient supreme, but the supreme peak of the nine-order grand perfection in this world, that is, the half-step heaven. To

At this level, he can attract the appearance of a virtual giant tortoise. Naturally, it cannot be a general existence. In fact, his three appearances in the past six months have all been to hunt down the ancient supreme.

Moreover, there is no clue in the figure of the hollow giant turtle on weekdays. No one knows where he is. Only after determining that there is a powerful beast of the ancient supreme level in the super strong forbidden place.

The Void Giant Turtle will suddenly appear, instantly lock the target, kill it, take the blood of the body, and condense it into blood, then leave instantly...

Everything is exactly the same as the violent approach and style of the starry sky.

In just half a year, in the super strong forbidden land on the right bank of the Galaxy, there have been three early supremes, and he was successfully hunted.

This is absolutely a secret story. After the news spread, the entire right bank of the Galaxy was heart-wrenching, and everyone was in danger. Those who were still in the super-strong forbidden land in their respective towns were reluctant to escape. They did not hesitate to escape. Hong Meng's void, went directly to the emptiness of a piece of debris that could not be traced, and easily dared not take it again here...

The last shot of the Void Giant Turtle was already three months ago. half

In the first three months of the year, he shot almost once a month, but in the latter three months, it seems that because he could not find the prey, he never reappeared.

But everyone knows that he must still crouch somewhere, paying close attention to a strong forbidden land and the Supreme Star field on the right bank of the Milky Way. Once it is determined that there is a certain wilderness, it will jump in the first time. Come out to hunt... this

It is really frightening and angry, and the existence of the Supreme Age is not enough. It is followed by the news and is scared, but those who are ancient and supreme are real prey. In the dark, I am afraid that the head will already be there. The starry sky with a bad void giant tortoise is miserable!

No one knows why the Void Giant Turtle does this.

He is a legendary existence, even in the distant wilderness period, it is a high-ranking saga, and has participated in the ruin of the entire world of ruin, even in the history of that era. Among the highest thunderous battles, they are definitely the ones who lead the storm. This

The existence of the kind has always been crouching, never plaguing the world, but now, when the first one is born, it will kill the Quartet and focus on the ancients to kill and kill. This is unreasonable. very

Multi-person analysis, the reason why the Void Giant Turtle is so, must be related to the starry sky that has become a public enemy on the right bank. because

If you need to do this for the Void Giant Turtle, he can do it long ago. Why is it waiting until now? Such as

The news has already spread, saying that the Void Giant Turtle was inadvertently appearing on the way that the violent savage was chased by two powerful supreme savage beasts, and killed the two powerful ancient supreme powers on the spot. Fierce beast...

As for what happened after the Nether Giant tortoise bombarded the two supreme beasts, no one knows that no one dared to stay in the surrounding situation in that situation. Even at the scene, it was already scared to escape. but

At least one thing is certain, that is, after the virtual giant tormented the two supreme beasts, they did not start the storm. This

One point has already been confirmed, because shortly afterwards, the violent squad will have to go all the way to the Hongzong forbidden land, and all the six ancient powers in the top-level forbidden land will be smashed and then smashed. And go. Storm

If you are still alive, it is enough to prove what must have happened between him and the Nether Giant. From

Since then, the Void Giant Turtle has been hunting and killing the Supreme Beast. He is mostly tempted by violent temptation.

Because whether it is violent or empty giant tortoise, hunting is only a starry beast, as for the ancient survivors, they are lazy to understand.

This point, from the eleven ancient powers that intercepted the violent road at that time, in addition to the six savage beasts of the Hongzong forbidden land, there were five high-level survivors of the great energy level, but then they were violent. These six beasts, the other five survivors are powerful, but they have not taken care of it... you can see one or two! test

Considering that temperament was only to kill the immortal beasts of the emperor, and then slowly upgrade the realm, from the immortal to the cosmic sage, then the Lord of the universe, the universe supreme, and then half a year ago, changed again Become a wild power...

It has been speculated that the temperament of repairing is the strength. The reason why it can be less than 20 years later can only be hunted from the emperor, and it has soared to the nowadays ancient powers. The entry into the country is so fast, it must be with him. It has been continually hunted for all levels of starry beasts. Such as

This can explain why he succeeded in confusing the void giant turtle.

In the face of the nine-order grand perfection of the Nether Giant Turtle, the violent temper has no resistance at all, can only confess the secret law that he has mastered, and most of them have made some commitment to the Void Giant Turtle.

If there are no accidents, the Void Giant Turtle will continue to hunt and kill the powerful beasts of the Zunjing, taking the blood of the body to burst into blood, and compress it into blood beads...

The ultimate goal is to use the violent hand, relying on the anti-sky secret law that he has mastered, and want to impact the bottleneck of the big world, and step into the real heaven! This

As soon as the arguments spread, they became the mainstream in an instant, because only this kind of statement is the most reasonable and can explain everything. to

Yes, on the right bank of the entire Milky Way, in addition to the beasts of the ancient and supreme, the fierce beasts of the mighty powers began to be scared, because the hollow giant turtles did not look at them, but the violent but the violent Simple, even more ferocious. anti-

It was a deserted relic in a strong star field, but they all breathed a sigh of relief. In their view, this catastrophe was a catastrophe of the starry beasts, and they had no relationship with them. very

Even the five survivors of the Xiafeixing domain are thinking like this...

Chapter 4620: Xia Feixing

The Xiafei star field is adjacent to the Hongzong forbidden land. The distance between each other is not more than 10 billion miles. Even the comprehensive strength is similar, and the disparity is not big.

The only difference is that Hong Zun is forbidden, but it is a top-level strong forbidden land.

The Xiafei Star Field is a top-ranking Xingqiang domain. Although there are also beasts and beasts that support the beasts, the control of the general trend is a legacy of the ancients.

The strongest person in the Xiafeixing area is the strongest survivor of the five ancient and powerful places... Yes, these five old guys are the six fierce beasts who had been forbidden with the rainbow, and intercepted the leaves together. The remnants of Xuan Road are powerful!

Nowadays, the Hongcun forbidden land has already fallen. From the top of the savage and forbidden land that had been in the past, it has fallen to the high-end forbidden land where there are only more than 20 universes. Partial

The distance between the forbidden and the Xiafei star field is so close. Therefore, in the forbidden land after the fall level, the days of those starry beasts are not so good.

It is a pity that Hong Meng's emptiness is so great that they have no other places to go, and they can only succumb to the banned land of Hongzun and endure the deception of the ancient survivors from Xiafeixing...

The starry beasts, through the mutual engulfing of each other, transform the blood in their own body, thereby enhancing their strength. and

The ancient survivors, although basically the same, take the path of physical evolution, but they are swallowed up by the flesh and blood of the starry beasts, but not directly swallowed, but refined into flesh and blood medicine and then swallowed. Place

Therefore, any beneficiary in the remnant of the rule of the benevolent will surely have a large number of fierce beasts and stars, and the beasts in the stars are basically semi-stocked. need

When you need it, go hunting and use it to refine your blood and medicine.

Xiafei also has a lot of such beastly stars in the forbidden land, but now, with the disappearance of Hongzun's forbidden land, the level of fall has become a high-end forbidden land where only the universe is supreme. in

In the eyes of the ancient survivors of Xiafei's forbidden land, this forbidden land that is only a billion miles away is undoubtedly turned into a place that is not within the Xiafeixing domain, but is near the outside. The land where the beasts are raised. This

One point, the countless forbidden beasts in the banned land of Hongzun are unwilling to admit it, but the facts are basically the same.

In the past six months, there have been several powerful remnants of the hunting team in the forbidden land of the imaginary sky outside the tens of billions of miles. The big thorns slammed the rainbow to the forbidden land and started the savage beast. Correct

Therefore, nowadays, the more than 20 universe supremes in the banned land of Hongzun, no one dares to sing, because they know that this is the result of the indulgence of the powerful powerful people in Xiafeixing. If

It's because they dare to close one eye. If you dare to suppress it, if you come to a star of the survivors, you will be able to destroy the whole rainbow.

In addition, the hunting teams of these survivors who entered the forbidden area of Hongzun are not too much. They are a bit suitable, so that the taste of the water will flow, so they will endure the anger and forcibly breathe this breath. Go back to my stomach.

For the sake of the fact that the vast majority of the beasts in the Forbidden City can live here, paying some blood at a break, this is painful, but it is not unacceptable. star

The weak meat in the emptiness environment is the same, the beast is under the eaves, can't help but bow down...

It can be said that, in the past six months, all the ancient survivors in Xiafei's forbidden land have been extremely moist. except

In the short time after the six vicious beasts in the forbidden land in Hongzong's forbidden land were destroyed, they were about half a month. They worried that the violent temper would come, and

everyone's heart would be stunned every day. In addition, the next five months, it is simply comfortable. especially

It is the power of the five survivors, and the comfort of a small day cannot be described in words.

Now, they have determined that temper will not come to trouble, because even if they kill them, it is no good, they are the benevolent strong, not the starry beast, the blood fog after the body burst, the violent roots Useless.

In addition, I have always been stunned, I can't wait to remove it, but I have never found a chance to start the rainbow. The six beasts are arrogant, and they are all stunned together. This is simply smashing their wish, the whole big rainbow There are countless starry beasts in the forbidden land, and they are free to ask for it. he

They even planned to go to the next time to refine the flesh-and-blood medicine, and simply went to Hongzun to ban the killing of several cosmic beasts in the universe and to join the drug tripod...

In any case, there are a lot of starry beasts in the universe, and there are more than 20 statues in the forbidden world.

For all of this, Ye Xuan does not know! this

At this moment, he came all the way from the source of the nesting star that gave birth to the strongest force. When he went to Xiafei Xingyu, he just passed the edge of the forbidden land.

"Hey..."

The black faintness of the road, at a horrible speed of horror, crossed the end of the void at a distance...

In one scene, I was shocked by the Xiafei star field, and I was rushing to the edge of the Forbidden Land, intending to enter it and kill some of the survivors of the starry beast.

This hunting team has a total of thousands of people, and nearly 100 of them are the strengths of the universe and the people of the universe. It can be seen that the price that this time the Hongzong ban will pay will be great.

The appetite of the cosmic sages was originally comparable to the existence of the five immortal worlds, not to mention the fact that there are nearly a hundred of these thousands of survivors.

At this moment, the black faint volcanic valley in the distant sky is only two or three billion miles away from the squad of the remnant who is on the edge of the forbidden land. but

The breath of the ancient powers of the ancient black dragons that are scattered in the body of the nine black dragons is too strong, even if it is separated by the virtual distance of billions of miles, this side can be clearly and incomparably sensed. turn

When I first looked forward, in the hunting squad of thousands of people, all the survivors of the survivors, after a brief glimpse, suddenly changed their face and shouted with a blank voice...

"What? Is that... the breath of the ancient powers?"

"And there are nine, how is this possible?"

The key to these nine horrible powers is not the strongman of the survivors. It is clearly ... starry beast!

""

In the end what happened? How can this area suddenly have nine powerful big-level beasts coming? Wouldn't there be a rainbow forbidden? If this is the case, then it is really going to be a big deal..."

call out! "

The exclamation in the mouth of the thousands of survivors in the hunting squad still has not yet fallen. In the distance, the black mans that seemed to be just passing by, the direction turned, and immediately went straight to this side, blinking It has arrived recently.

After seeing who is clear, the faces of the thousands of survivors have changed dramatically again, and the exclamations have risen again...
