Chapter 463: The fourth floor of the ghost tomb

Then, Ye Xuan went forward again, and sure enough, he encountered these embarrassments, but his strength was not strong, and he was easily killed by him.

Just ten minutes after he entered the ghost tomb, he suddenly found a downward passage. Obviously, this ghost tomb has a second floor.

Ye Xuan walked down to the second floor of the ghost tomb.

This layer is still a cemetery.

However, Ye Xuan was somewhat shocked, because the second layer of tombstones were all over the masters of 30 roads, and the highest reached 72.

"Is it true that the owner of this ghost tomb is really a **** dilemma?"

Ye Xuan has some doubts.

He turned around on the second floor and found that the tomb was empty, and there were some traces of the battle. He should have been taken away by the corpse.

At the moment, Ye Xuan is entering the third floor of the ghost tomb.

Sure enough, the burial here is a master of the gods who are through the heavens.

Although he said that he was a master of fineness before his death, he did not have such a strong strength after his death, even if he was a warrior.

Ye Xuan also wandered around the third floor of the Ghost Tomb, but found a master cemetery that opened the 36-day Tianmai. If these tombstones are true, then the Lord of the Ghost Tomb is indeed a **** dilemma master. .

Now, Ye Xuan has come to the entrance to the fourth floor.

He hasn't entered yet, just heard a boom and some people are fighting underneath.

He did not hesitate to go in and shake the eight-year-old sword.

This time, not only the corpse and the ghost gate, but the two sects are the strongest in the ghost tomb.

However, people from other territories have come, and the last force Ye Xuan sees is to have two fine worlds. Therefore, it is not a matter of shackles and sinister gates. Be careful.

He entered the passage and carefully walked to the exit.

Sure enough, there is a group of people fighting in front of them, but their fighting targets are not people, but a large group of people.

No, this is totally a sea.

Not only that, but there are also some dead bodies in this group.

Ye Xuan looks far away, and is also a dead creature a few kilometers away. The danger level of this fourth layer is really terrifying.

"Chong, you must rush over!"

The team more than two thousand meters away is madly attacking the surrounding dead creatures, and then marching forward little by little, roaring constantly.

Ye Xuan stood at the exit, looked up and saw that there were still many flying bone spurs in the air. If someone dares to fly above, I am afraid that it will be shot into a sieve in an instant.

"There is still a flying spur in the air, which is even more dangerous. It seems that only the ocean from this dead creature has broken through."

Ye Xuan thought about Ye Xuan jumping into the ocean.

Now he is an eight-step scorpion, and the strength of the gas is not weak. Therefore, he directly smashes the Eight-Swords and smashes the days that have not been displayed for a long time.

"Hey!" "Hey!" "Hey!"

At that time, those who blocked Ye Xuan's way were directly rolled up. Ye Xuan was like a bulldozer and moved forward quickly.

Its speed is much faster than the previous team with two masters.

Not a moment, Ye Xuan is catching up with this team.

Because there were too many cockroaches, they did not find Ye Xuan. In the blink of an eye, Ye Xuan crossed them.

"Nima, how many masters must be killed to form such a death army."

Ye Xuan moved forward while thinking.

Although these strengths are not strong, they are too many. Ye Xuan has come all the way, at least destroying thousands of defects.

However, this thousand corpses and dead bodies are like a drop of water in the sea for the entire death army.

Ye Xuan seems to be calm, after all, this is only a large number, and his infuriating is almost inexhaustible, even if he uses the sky to break through, while using the hidden dragon sword method, the recovery of infuriating is faster than consumption.

He rushed about a distance of about 100,000 meters, and immediately saw a stone wall.

"What, the channel is not here?"

Ye Xuan looked at the place.

Only then did he go all the way down to the fourth floor, the passages are all in front of the entrance, but this time, but not.

It seems that the channel down to the fifth floor should be somewhere.

Now he started searching around again.

I have to say that the fourth floor of this ghost tomb is really big. He ran around the stone wall for ten minutes, but he still had not seen the corner.

at this time.

"Roar!"

Suddenly a huge earthquake fell into Ye Xuan's ear. He shook his head and turned his head and saw that there was a huge figure in the distance mixed in the army of death.

"Great guy!"

Ye Xuan's eyes suddenly brightened.

These blocked his jealousy and corpses, and they were all human beings.

And that big guy, it should be a sacred beast, and it is very likely to be a sacred beast that is comparable to the fine world. This is a lot of experience for Ye Xuan.

Ye Xuan immediately moved in the direction of the big guy. When he approached, he saw the big guy, a corpse of up to tens of meters.

It stood there quietly, facing away from Ye Xuan.

At this time.

"Roar!"

The corpse suddenly turned and saw Ye Xuan. He immediately opened his mouth and screamed, then lifted his big foot and stepped on the bottom of the smash.

"It's the majestic giant!"

Ye Xuan recognized it.

The giant mountain is open, and it is endless.

"Look at me!"

Ye Xuan's face sank.

This mountainous giant python and Ye Xuan are several kilometers apart. It stepped down and went straight to Ye Xuan.

"The eight wild winds kill, burst!"

Ye Xuan immediately broke through the road and escaped the attack.

"Hey!"

The giant mountain of the mountain landed, and the entire ghost tomb was shaken.

Ye Xuan will condense the Eight-Dangerous Sword, and the big foot toward the opening of the mountain is a ruling of the dragon.

This sniper broke out and landed on the calf of the giant mountain, but what Ye Xuan expected was that the attack did not break the defense of the mountain giant.

"It's so strong, if you get this corpse, you can at least break through to the ninth order!"

Ye Xuan's eyes lit up and directly killed the past.

Although the power of this mountain giant is big and the defense is strong, the speed of Ye Xuan is twice as fast.

"Hidden Dragon Sword Method, Hidden Dragon Spurs!"

Ye Xuan all the way to the foot of the mountain giant python, and then a sword stabbed, this time, finally broke the defense, although only half an inch, but also very good.

"Unfortunately, I have not reached the fine world."

Ye Xuan is slightly helpless.

It is the spirit of heaven and earth that can be called by the fine world. Whether it is the sword or the body, it is far beyond the dilemma.

If Ye Xuan is in a good position at this time, even if he only gets through a land, he can kill this mountain.

But don't forget, Ye Xuan's hidden dragon sword method at this time, only 30% of the fire, and the room for improvement is great.
