Chapter 471: Blood seed

Ye Xuan is also hesitating, hesitating to kill this little ghost king, so as not to harm the people, after all, this little ghost king is intelligent.

At this time, Xiao Wing Ling suddenly pointed to Ye Xuan, and pointed to his left hand.

"what?"

Ye Xuan frowned and subconsciously looked at the Qiankun ring on his left hand. He sank his heart into this ring, and the next moment, he was completely stunned.

In his ring, there was an extra seed, a blood seed.

"This is the blood seed left by the master of the divine situation?"

Ye Xuan's eyes widened and he couldn't believe it. Obviously, this blood seed is left by the little grievances.

He stared blankly at the little grievances, only to see the latter stretched out a translucent little hand, and then turned and flew away.

Ye Xuan did not chase after him. He took out the blood seed and squatted in place.

He released the little grievances, and the little grievances saved him once again. Now, he got another blood seed.

In the end, he still owes a small grievance to a human heart.

"But it doesn't look as terrible as the legend, it should not harm the people."

Ye Xuan shook his head.

This little ghost king is also smart. If she wants to kill Ye Xuan, she will die soon.

In the blink of an eye, the little grievances disappeared into the sight of Ye Xuan.

"Let me see your best heavenly martial arts, what is it..."

Ye Xuan pinches the blood seeds in his hands and devours his heart.

"Hey, the host is not enough!"

The system prompts.

The average person wants to refine this blood seed, but Ye Xuan can directly swallow it. Since the system prompts this, it means no use for him to swallow.

"Sure enough, even if the blood seed is given to the old man, he can't refine it..."

Ye Xuan is slightly helpless, but he knows that this blood seed is a superb martial art called hate knives.

Unfortunately, he can't learn, otherwise he doesn't mind playing with a knife.

Recalling those things before, it is really bumpy. Now he is coming to the **** rock continent, and there are also half a year. It is also time to go back and have a look.

"I don't know how to cut the ruling and decide what they are doing."

Ye Xuan thought, is moving in one direction.

This time, he wants to go back to Tianshui to see and see his loved ones.

It took him a few days to get to the deep sea palace, but the problem came again. This deep sea palace was built by a fine-minded master, and there are arrays of methods that can only be passed by people with a dilemma.

Of course, the strength is better than the fine world.

And Ye Xuan, now only open four veins, just do not know whether it can break the law into the deep sea palace.

He re-entered the entrance to the deep sea palace, and sure enough, with his current realm, he could not enter the deep sea palace, and was blocked by the formation.

Ye Xuan does not know the specific realm of the construction of the deep-sea palace, is it a realm of opening up a land, or has opened seventy-two veins, or has it opened 36 lines?

"It seems to be hard!"

Ye Xuan sacrificed the eight-year-old sword, and it was a chaos against the array.

There are two types of breaks, one is to destroy the entire formation, and the other is to break a hole.

Ye Xuan does not need to completely destroy the array, as long as he breaks through a hole and goes in.

Breaking through a hole, naturally you can't use this kind of aoe skill in Jintai to destroy the palm of your hand. You must use a little martial arts, and the silver dragon thorn is just right.

"Hidden Dragon Sword Method, Hidden Dragon Spurs!"

"Hidden Dragon Sword Method, Hidden Dragon Spurs!"

Ye Xuan constantly uses the hidden dragon thorns of 90% of the fire, attacking the same point of the array, and the array is attacked and continually oscillated, causing a loud bang.

I have to say that this defensive intensity is very high. Ye Xuan has been bombarded for more than ten times, but he has not been able to break it.

It seems that it is not so easy to return to Tianshui.

The Tianshui continent and the **** rock continent, in terms of his current realm, are actually not far away.

However, there is only one way to go back. After all, the squad of the sea in the deep sea palace is violent, and the master of the divine world may fall. If he dares to go up, he will definitely die.

Ye Xuan constantly uses the hidden dragon thorns. Although there is a life tree to restore the infuriating, but after all, it is the top grade martial arts, and continuous use is still a bit untenable.

Soon, his infuriating is squandering, and the formation is also recovering when he recovers his infuriating.

"It's not enough to use a brain. It seems that it takes a little time to attack and prevent the formation from recovering."

Ye Xuan thought in her heart.

In short, it is to continue to attack.

Ye Xuan walked forward for a while, the blood of the life tree, so that his infuriating speed is amazing, not only that, his physical strength will quickly recover.

So this time, he also used ordinary attacks to break the array.

Hidden Dragon Spurs, ordinary attacks, hidden dragon thorns, ordinary attacks, Ye Xuan maintains this rhythm, so that the infuriating recovery and consumption are flat, this time, he banged all day and night.

Subsequently, this method was finally bombarded, and then he got into it.

"Always come in!"

Ye Xuan was tired and half dead. If he had no support for the blood of the sacred tree, he would never insist.

However, it is not bad to be able to come in. He is afraid that he will not be able to break through the law. In this case, he will only come back after he has improved his realm.

The map of the Deep Sea Palace has not been lost. With this map, he quickly returned to the Dragon Palace.

"Hmm? Human?"

Ye Xuan looked at the two guards on the wall of the Dragon Palace in a strange way, very surprised.

The Dragon Palace is the site of the Hailong family. Before he went to the Blood Rock mainland, he passed by and something happened.

However, there have been humans here, which is a bit ridiculous.

"Is it a difficult situation for Tianshui's new breakthrough?"

Ye Xuan thought in his heart, and then he went over.

"who are you?"

The two warriors above the Dragon Palace also saw Ye Xuan, and one of them immediately asked.

"Who are you?"

Ye Xuan frowned.

"Whatever nonsense, you are coming from the **** rock continent, and hurry back." The warrior said impatiently.

This sentence made Ye Xuan suddenly wrinkle.

He was guessing that the two men were sent by the great elders, but now with the qualities of these two people, he can be sure that these two are definitely not the first main city.

"I was originally a native of Tianshui. I am going back now. You have to give me away, otherwise..."

Ye Xuan's eyes were murderous.

"Is it originally a person in Tianshui Island?"

The warrior murmured, and after looking at the other person, he was cold and shouted: "Why are you making jokes, and you want to go to the **** continent without your waste?"

There are flying dragons flying around, and Ye Xuan does not, so these two people naturally think of Ye Xuan as a warrior in Tiandan.
