

## **Super D.S 4781**

Chapter 4781: Don't be impulsive

"boom!""

Rumble..."

Outside the star atmosphere of the Star Alliance headquarters, suddenly there was no sign of the earth-shattering bang. Wei

The situation is so amazing that even the whole star under the foot is slightly trembled. The six universes that are in the process of discussion are suddenly changing, and the figure is stunned and screaming...

"Abandoned power? Not good, it must be the Lord of the Devils..."

When I'm done, I'm too arrogant. I thought I was hiding in my own nest and I was able to talk about a powerful ridiculousness. Now it seems that this is obviously perceived by him, and anger comes..."

With that violent temper, I am afraid I will not let go of me easily. It is really too big to be forgotten, and I am forgotten to kill myself..."

Are you escaping immediately, or go out and admit your mistakes? "

"Leave a green hill, don't be afraid of burning wood, look at the old man, or go out and recognize the wrong person with the devil. He has a large number of elderly people, and he will not be too much for me to wait for these ants to punish. Fan, biting his teeth will pass over..."

boom! ""

Rumble..."

A group of waste, listen to what you all said? ""

So ethical, full of enthusiasm, are you also equipped as the ancestors of the top ten ethnic groups? ""

Bloody? Qingpeng? Where are they? Why let it go..."

Oh..." No

Waiting for the words of others to fall, and outside the atmosphere of the stars, there was a thunderous roar again, accompanied by roaring and roaring, which is clearly the voice of the blood-scarred lion..."

The ancestor of the War Lions? ""

Yes, it must be him..."

Damn, we made a mistake, and it's a shame. The coming person is not the violent one, but the ancestor of the War Lions, and the presence of the nine \*\*\*\* and blue sky Dapeng..."

"Is there another powerful sorrow to come? I don't know if the lions of the lions have come down with us..."

"The friends of the Dao, who have been wronged for so long, have finally gotten right, and our Star Alliance will soon be able to raise their breath..."

"Go, go out to meet the lion's ancestors, listen to his talented voice, it seems that the distance is still not close, most of the time just arrived at the edge of the star..."

"Roar!"

"Hey..." said

In the end, all six of them were in a state of turmoil. When they even rushed out of the headquarters of the Star Alliance, there were some cosmic sages around the world. The Lord of the Universe ushered in and followed behind the Star Alliance. At the edge of the star field, go quickly...

After a short period of time, under the speed of the development, the six men led the elite troops behind them and rushed to the edge of the star field.

At this moment, outside the star field controlled by the Star Alliance, three large fleets of fleets are coming, and they are looking forward to seeing that any of the three armies and the number of warships exceeds Five billion. three

Together with the army, the total number of warships is close to 20 billion, and it is opened in the void, and there is no end to it. In terms of high-end combat power, the blood-sucking lions are not mentioned. These three large warships In front, there are also seven or eight figures, all of which are repairs above the ancient and powerful.

This time, the bloody, Qingpeng, and war lions have already awakened, and the total number of wild and powerful people that have migrated from this family has reached 25, and now all come, just in the three army. In front.

Although it is only twenty-five ancient powers, the combat power has not reached the age of the ancients, but at the cost of exerting some kind of blood and secret law, the combat power of the abundance level is not all in a short time. Probably, of course, this kind of ruthless level of combat power, obviously can not be compared with the real wildest supreme, basically equivalent to half-step absurd. This

The scene is so amazing, two billion warships, twenty-five ancient powers, plus the \*\*\*\* warrior with the strongest force in the secret state to reach the seventh-order absurdity...

The army was opened in the void, and it was always at the end of the line of sight. The overall combat power was absolutely shocking and incomparably powerful. The body shape of the people watching it was slightly trembled, and it was too excited.

"Hey!" This

At that time, with the three tribes gathered in the sky in front of the sky, the body shape was only maintained at about a thousand feet. The blood-sucking lions in front of the three great armies also raised a terrible roar.

At the same time, the sound of his sensation has also come and blasted, and the high-level and star-studded elites of the Star Alliance and other parties have been slightly trembled...

"A group of waste, what words did you just say?"

"Blood? Qingpeng? Where are they? Why do you let this matter go, the face of the top ten ethnic groups is simply lost by you..."

"Hey..." said

In the end, the blood-stained war lion once again violently screamed, and the anger rose into the sky. Compared with the nine-headed bloody, Qingtian Dapeng, his temperament was originally the most violent, and the words he heard were really unbearable. Inexhaustible.

After a violent scream, even when he answered: "Where is the violent gang that you just said? The lord of the shit, the deity immediately went to destroy him..."

Listening to this, 冀滔 冀滔 冀滔 冀滔 冀滔 吓吓吓,,,,,,,,,,,,,,,,,,,,,

The lion ancestor, this matter is still a long-term plan..."

Right, the violent temper is too strong. The \*\*\*\* unicorn, the nine sacred crocodile, and the nine ancestors and the Qingpeng ancestor are not his opponents. They have been beaten twice by him. Can't compete..."

"It's not just the Lord of the Devils. The Tianhe Star Lord Ye Xuan is now the ancientest, and the combat power is not weaker than the violent. Under the joint efforts of the two, it is now in the sky of the ruins of this ruined land. ""

It is not just the Star Alliance formed by our second universe, including the Alliance of Nations of the First Cosmic servants, the two camps of the Terran and the former Federation of the Far Eastern Federation of the Senate..."

As well as the Alliance of the Beasts and the Survivors who originally lived in this void, the entire five major leagues have now surrendered to the Temple of the Devil. Even if the five major coalitions join hands, the four ancients are supreme, and the twelve ancient powers are not. The opponent of the Magic Hall, two years ago, ended in disastrous..."

Yes, no matter whether it is the temper or the Tianhe star, Ye Xuan, it is too powerful. Now the other ancestors of the various ethnic groups have not yet arrived. The nine ancestors and the Qingpeng ancestors are still recovering. The subversion of the Temple of the Devil can only be considered from a long time..."

I also ask the lion ancestors to persuade me to press the anger, and it is a matter of great importance. Don't be impulsive, the impulse is the devil..."

what? Even the bloody, Qingpeng and Scarlet unicorn, the nine sacred crocodile teamed up, are not the violent opponents? Could it be that he is a nine-step grand perfect half-step heaven? "

This discourse made the blood-scarred lion look drastically changed, and raised his head and screamed: "Oh..."

Chapter 4782: Void change

In the void, the high-level stars of the Star Alliance and other people looked at each other face to face, and all the faces showed a thick smile that could not be opened. Finally, with a sigh, this was reluctantly voiced...

"The nine-step big perfect half-step heaven is not natural, but that violent, but has the secret of blood..."

Once applied, there will be three blood and sea avatars in an instant, each with the same combat power, and he is now the late stage of the seventh-order world. ""

In this way, once the violent temperament exerts the secret method of blood and sea, it will become the late stage of the three seventh-order realm. It is even more horrifying that this secret method seems to have been fully enlightened by him. Thoroughly, there have been no time limits in the two consecutive wars..."

At least nine ancestors, Qingpeng ancestors, \*\*\*\* unicorns and nine sacred crocodiles have joined forces. They have never forced him to the end of the secret time limit. Every time the three \*\*\*\* scorpions are still breathless. They are four people... they have already been beaten! "

Having said that, he and others turned their heads again, exchanged a look with each other, and then they stopped speaking, and their faces were full of indignation, shaking their heads and sighing..."

The late stage of the seventh-order situation? These strengths are indeed not weak, but they are only just like the demeanor of the deity... and they have not heard of his existence in the ancient times, and they should be cultivated to this level in later generations. "

"It is not only a future for the future, but naturally it does not have the glory of the heavens and the earth. This leads to his congenital deficiency, even if it is equal to the strength, but if it is really a battle with the deity, under normal conditions, he will be able to marry him... ..."

At this point, the blood-sucking war lion has calmed down, his face is showing a proud color, nodded and said: "However, the purpose is only in the normal state, since the temper has a \*\*\*\* secret, it is unfair. ...."

"But the deity is not afraid of him, but he has to admit that if the three big bloods and seas are separated, the deity is a violent one. It is really not an opponent. So, it must not be too impulsive, so it is no different. To give each other a chance to break through, it's cheaper..."

"However, these means are tantamount to cheating, and the deity is really shameless..."

When this discourse is spoken, the blood-scarred lion looks proud and stern. Say

It seems that although his strongest combat power can reach the seven-stage absurdity, it is not the general use of the secret method. Correct

Face to face, the high-level members of the Star Alliance are looking at each other, and the corners of their mouths are twitching. Obviously, they think of this, and they feel awkward..."

Roar! "

"In this case, I will first introduce the three tribes brought by the deity into the star field, and distribute the stars of life. Let's settle down and talk about it..."

After the first roar, the blood-scarred lion shoulders a sway, turned and spurred to the right side of the sky, the body shape disappeared, but the voice of the gods, but still resounding in the void: "As for the deity, first look for Jiutou and Qingpeng, the two old guys waiting for this moment, there must be some days..."

boom! "

"Booming..."

As the blood-sucking lions left, the numerous warships of the tri-huge army that had hovered in front of the virtual sky once again started the energy cabin. In the thunderous thunder of the rumble, they slowly sailed inside the starry sky occupied by the Star Alliance. .

With the addition of the two billion warships, the Star Alliance's combat power has increased dramatically, not to mention the fact that in addition to the blood-scarred lions that have already left, there are only a total of twenty-five ancients in front of the three warships. Yes, the Supreme of the Universe is more than one hundred, and the strength is not weaker than that of the Star Alliance.

Besides, among the three great armies, there are also the great powers of the bloody, Qingpeng and war lions who are still in the midst of slumber, and even the ruthless ancestors, they simply do not dare to have any scorn .....

...versus

At the same time, this other direction of the emptiness of the ruins of the heavens and the earth, the left side of the vast star field occupied by the Alliance of Nations...

In the past two years, the top leaders of the first cosmic slaves in the Alliance of Ten Thousands, like the Star Alliance, have not dared to take the outside out easily.

The demon temple is a big one, and it is already on the side of the world. They are powerless to resist. Even if they encounter the battleship team wandering outside the magic hall in the void, they can only avoid it far and go around..."

Oh..."

At the moment, it was on the edge of this star field, but suddenly there was a clear sound of fissure, the movement was not small, the eyes fixed, the universe void was torn open a huge void crack, up and down Up to a thousand miles, the diameter is also a hundred miles, just like a vertical eye in the void, it is amazing...

"boom!"

Rumble..."

In the next moment, from this emptiness crack, there was a thunderous thunder, and it continued to tremble, and the sudden and violent cracks began to expand from the moment. The speed is very slow, but it has been going on for a while, and it has not stopped for a while...

Empty seems to have broken a small mouth, there is an invisible force, is expanding from the inside of this small mouth, it is growing bigger and bigger, it is very strange, and the movement is not too small.

Not far from here is the alliance of the nations of the first universe. Nowadays, there has been such a change in the vicinity of the star field. In an instant, there are a large number of warships and alliance leaders, from the star field occupied by the Alliance of Nations. The inside rushed out. Gather

There are more and more powerful and battleships, and this is only a thousand miles long, and the diameter of the crack is only about a hundred miles. It has been constantly expanding outward in the low thunder of the rumble. getting bigger.....

Time passed slowly. After a little half a day, the original crack of the emptiness of a thousand miles has turned into a huge black hole, oval, about a million meters in diameter, like a star, and appeared in the remote star field. The void crack that caused the evil army to come to this place, like the same... and

Moreover, this huge black hole that has just been formed is obviously not as simple as an ordinary black hole! From

The breath that came out of the black hole, faintly, also revealed a strong bite-level star-studded worm atmosphere, until now, the constant low-pitched roar, only finally disappeared. and

At this time, the void in the universe not far from the black hole has already been filled with the powerful parties from the Alliance of All Nations. All the people are afraid of the face, but they have not made a sound. The whole piece of the void is completely Into a dead silence! "

boom! "

"Booming..."

"Roar!""

Oh..."

The silence in the air did not last long, and only half a meal was not available. From the depths of this giant mysterious black hole, there was a thunderous thunder of the earth. more

There are endless beasts roaring, the atmosphere is very strong, it seems to be the ancient powers, and even the absurd atmosphere mixed in it.

Every beast is full of endless joy...

Chapter 4783: The rise of the Alliance of Ten Nations

"boom!"

"Booming..."

"Roar!"

Oh..."

The void was originally dead, but it didn't last long. approximately

After half a meal, from the sudden arrival of this mysterious black hole in the formation of a mysterious black hole, there was a thunderous thunderous sound. except

Thunder, more endless beast roars. although

However, I can't see the figure, but the breath that comes out of the black hole is very strong. It seems to be all the power of the ancients, and even the absurd atmosphere is mixed in it, and the number is not scarce. Of course

Surprisingly, every beast that came out of the giant black hole seemed to reveal endless joy...

It's all too unexpected, and it's inexplicable. It's not far from the sky, and the countless tens of thousands of alliance powerhouses that have just emerged from the base camp are stunned. One

There are suspicious colors on the faces, and they turn to each other and look at each other.

The ethnic alliance is composed of the first cosmic servants of the first universe. As for the highest-end combat power, it is the \*\*\*\* unicorn and the nine crocodile. but

These two powerful ancient supremes have lost their traces after the battle of the demon temple two years ago. I don't know where to hide and rehabilitate, and I have not returned to the Alliance of Nations. by

They had nothing to do with the first cosmic slaves. After this change, they abandoned the alliance of the nations. Therefore, from a certain perspective, the alliance of the Wan and the \*\*\*\* unicorns and the nine crocodile were basically separated. It doesn't matter to each other anymore.

The Wan Clan Alliance is now the same as the Star Alliance. It is the strongest person in the league's base camp. There is no such thing as the ancient power of the ancients. It is only the cultivation of the supreme universe. number

In terms of quantity, today's Wanjia alliance has more than 20 universe supremes. Basically, it is the beginning of this period. It is only a few tri-families such as giants, \*\*\*\* ants and space rats. The seventh or eighth order of the late Supreme sitting...

Nowadays, these more than 20 universe supremes are all here, but they are not too close. The giant black hole that suddenly formed is hundreds of millions of miles away. All of them are full of suspicious colors. Everything.

"Booming..."

Roar! "

"Hey..." Black

Inside the cave, the thrilling roar has been going on and on, and it has never stopped for a while, and it always shows the welcome...

The scene lasted for about half a column of incense, and the sound of roar from the black hole became clearer. It seems that a large number of powerful beings are rushing out from the depths of the black hole, getting closer!

Suddenly, a figure rushed out of the black hole, and the body was filled with a strong and powerful atmosphere, and it was not the general initial power. This figure is actually the power of the late nine-step great perfection. The peak, that is... half a step!

What is even more surprising is that the existence of this half-step absurdity is clearly a huge space mouse! "

Seven ancestors? Did you always wake up from sleep? "

The surprise came too fast, the emptiness of the giant black hole in the distance, the ancestors of the space rat's late Supreme Supreme, and then screamed, and the words exaggerated and uttered ecstasy Meaning..."

Oh..."

Roar! "a few

In the next moment, the ancestral ancestors of the late period of the space of the Rats in the Space of the Rats, and the mysterious black holes hundreds of millions of miles away, with the sound of screams and screams, In an instant, more than 20 figures were rushed out...

There are huge squads, \*\*\*\* ants, and other kinds of starry beasts of different races, but without exception, they are all the ancestors of the first cosmic slaves.

In a short meal, from this mysterious giant black hole, including the original space mouse, a total of 24 figures were rushed out, without exception, all of them are late power!

"Old ancestors!"

Hey... What did the old man see? The five generations of my Slim family have suddenly recovered from the slumber and come! ""

More than 20 ancestors of all ethnic groups, all of which are late and even peaks and powers. This is clearly the rhythm of the great prosperity of all ethnic groups. I am in a state of alliance, and finally have to rise..."

These twenty-four figures rushed out of the mysterious giant black hole, and hundreds of millions of miles away from the hundreds of millions of people of the various ethnic groups and high-level people changed their faces, and they sighed like a cool voice. The tide started, and it turned into an overwhelming exclamation. whole

The vast void of the film has completely boiled...

"boom!""

Rumble..."

Everything did not end, and as the mighty ancestors of the twenty-four first universes came, the giant black hole in the rear, after a short silence, after a short period of semi-column, immediately There was a thunderous thunder in the air, which was even more shocking than the previous 24 generations of the great powers..."

hiss....."

"What is the situation? Is there more family ancestors coming?"

Listening to the static seems to be the roar of the battleship, is it that the ancestors did not come alone? Did all the people who stayed in the first universe of the ancestors migrated from the family? ""

Listening to the static committee is not small, at least tens of billions of warships have come, even if my first universe has not migrated all the family, I am afraid that half of the power, or half of the ethnic group, It's over..."

"call out!"

"Hey..."

These exclamations revived, and a large number of warships rushed out of the giant black holes. All models were available, basically all of them were 5,000-meter and 10,000-meter-diameter-sized fortresses, of which 50,000 meters in diameter and 100,000 meters in diameter. There are also a lot of big and small fortresses. very

There are still some giant star plugs with a diameter of 500,000 meters. Although they are not comparable with the Tianhe Star and the Terran Federation, and have been mass-produced in the millions of meters, they are similar. .

This scene lasted for two days. in

In these two days, in the mysterious giant black hole, there have been a large number of various warships and fortresses, fortresses rushing out, and endlessly, without stopping.

At the beginning, hundreds of millions of miles away from the high-ranking tribes of the various ethnic groups also excitedly cheered, but then, they gradually became numb, ordered the army to withdraw, because the vast voids hundreds of millions of miles ahead are full. The army of all kinds of warships is extremely congested, and the void can't stop...

Half a day later, in the mysterious giant black hole, it gradually stopped, and no more warships rushed out. At this time, they looked around again, and all kinds of warships gathered together in their respective communities in the void. The total number has reached about 40 billion, and the number is terrible. "

Roar! ""

Oh..."

Hey! ”

Just as the top leaders of the Alliance of All Nations thought that everything was over, from the depths of the mysterious black hole, there were four screams of screams and screams, and the breath was so strong that it would shudder...

Chapter 4784: Sudden changes

"Roar!"

"Hey..."

Hey! "shock

The roar of the sky and the whistling sound, from the depth of the giant black hole in front, the front and rear feet, rushed out of the four figures.

These four figures are not very large. Obviously, they have not fully revealed the blood and the body, only about a thousand feet. but

The repairs that are scattered in their bodies are powerful but powerful, and they are all ancient and supreme, and they have reached the middle of the world.

A space mouse, a \*\*\*\* ant, a huge fierce, and a whole body purple gold evil spirit Slime! This

Once, the original first cosmic slaves from the first cosmic family were only the space mouse, the \*\*\*\* ant, the giant savage and the evil spirit Slim. for

This time the ethnic group migration, each of the four ethnic groups awakened a middle-aged ancestors who were sleeping, and the powerful ancestors of the six late realms. Such as

Today, all the tribes of these four ethnic groups are all inhabited by various warships. There are tens of billions of each of the four billion troops and four ethnic groups. Each warship has countless ethnic groups...

At this moment, with the advent, these four powerful ancient sacred dawns slowly swept through the crowd, and the voice of the gods was immediately heard..."

I heard that the first cosmic servants of all generations are now united in this piece of shards of the ruins of the world, and have established a 10,000-unit alliance. Can this be the case? "

"Now, other ethnic groups have not yet migrated from the family, only my space mouse, \*\*\*\* ants, giants and evil spirits."

"From this moment on, the alliance of the nations will be temporarily led by me and other four people. The other families will have to obey orders unconditionally..."

"Roar!"

The children, all the members dialed into the base camp, each assigned a perpetual star. As for the top leaders of the various ethnic groups, they immediately gathered at the headquarters of the alliance and reported the war to us... "sound

Still, the four powerful mid-decades have already swayed to the depths of the star field in front of the Alliance of All Nations.

Twenty-four late-stage energies from these four races also followed closely. Look

In this scene, the top leaders of the various ethnic groups of the Wan Nationality League were delighted and did not dare to have any delays. They hurriedly followed the first time.

In the first place, they will report all the things about the magical hall to the four ancestors who have been cultivated above the twenty-eighth powers, and then release the news, the Wan National League... exit the magic hall, again independent!

.....short

Within a few days, the emptiness of this piece of ruined land can be described as a sudden change!  
original

This has already surrendered to the Temple of the Devil, and among the five major coalition forces that have become the outside of the Temple of the Devil, there are actually two major alliances, and the fighting power is soaring...

In the Star Alliance, the bloody, Qingpeng and War Lion tribes migrated, the alliance force increased by 20 billion warships, and the 25th ancient powers, together with the strongest force in the secret state, reached the seventh order. Blood-scarred lion in the deserted world! Ten thousand

In terms of ethnic alliances, the space mouse, the \*\*\*\* ant, the giant savage and the evil spirits of the Slim family are also migrated from the family. The alliance forces increase the warships by 40 billion ships, 24 late powers, and four medium-term The ancient age of the supreme! This

The change of the change is too big, just the sudden appearance of the two giant mysterious black holes, it is enough to alarm the eight parties...

In fact, such a giant black hole is not only the emergence of two, it is the first to appear, so that the evil black army to come to the giant black hole here, there are actually three. This

The giant black holes that suddenly appeared in the accidents did not dissipate or close after the agglomeration, but they are like a stable wormhole. It has been there for a long time... short

Within a short period of two months, there were three mysterious giant black holes, all of which were huge and stable, and condensed into a wormhole that can travel back and forth...

All of this is obviously not simple. Although no one knows exactly why this change has occurred and how it is formed, one thing may be certain. That is, this piece of shards of the wild land has clearly begun some unknown change. This

Such changes may be the prelude to the end of the world.

Although it was only speculation, it made the forces of all parties and countless powerful people linger, and the whole piece of vast and innocent emptiness was in a strange silence. where

I am afraid that even if I have just joined the evil army, I have the fifth hall of the Majesty's Legion. Although I know everything that happened outside, the volume is still silent, without any change...

.....people

The federal federation, the interior of the star where the federal headquarters is located, the federal hall in the top of the giant peak...

Today, there are only eight people left in the Great Hall of the Congregation in the Great Hall. Not long ago, Dong Zhaotian was still here, but now it has fallen, and it will never return!

The changes that have taken place in the past few days have been known to the five major leagues in the first place, and the Terran Federation is no exception.

Today, Emperor II brought together seven other ancient powers from the Terran Federation for the sake of this. For two years, both the Terran Federation and the other four major leagues were quiet.

It did not continue to be outside, and on the surface, it seems that it is really willing to surrender to the Temple of the Devil, and it has become a fan of it, but in fact, this is obviously impossible. can

It is said that all five major alliances are only temporarily crouching down. Everyone is waiting for the meeting, waiting for the core strength of the ethnic groups behind them to come, and then seek to change..."

If there are no accidents, the two ancestors of the Terran and the famine ancestors of the Federal Senate will come here within a year! "turn

The other eight absurd monks who were present at the scene scanned the circle. The emperor's two squats flashed in the middle of the mountain. Then he said: "But for two years, the Lord of the Temple and the star of the Tianhe Star, Ye Xuan, have been silent. There is no movement..."

This is not a good thing, it makes people feel uneasy..."

"I originally thought that Dong Zhaotian could use the fierce beast army to lead the Lord of the Devils to a glimpse of its current level of cultivation, and even caused the fierce beast army to fight with the Magic Hall, leading to the Lord of the Devil and the main star of the Tianhe Star. Xuan anti-eyes are not entirely impossible..."

"But now it seems that this plan is obviously a failure."

This time, not only did we not get any good, but we also lost an eighth-order power, but the temple, but the fifth evil army, is simply..."

At this point, there was a hate in the emperor's second sigh, and he sighed unwillingly.

Then I went on and said, "In addition to this, everything that happened outside the time has been received by all of you..."

"The five major alliances have been waiting for the support. Now, the Star Alliance and the Alliance of Nations have finally waited..."

"In the Star Alliance, the bloody, Qingpeng and war lion tribes migrated, the alliance forces increased by 20 billion warships, and as many as twenty-five giants..."

Chapter 4785: Seal of Emperor II

"In addition to the \*\*\*\* war lion with the strongest combat power in the state of the secret law, and the nine-headed and ruthless world, and the nine \*\*\*\* and blue sky Dapeng, today's Star Alliance has three powerful ruins. ...."

The movement of the Alliance of Nations has not been small. Space rats, \*\*\*\* ants, giants and evil spirits are also migrated from the family..."

"The alliance force has increased the number of warships by 40 billion, and it has come to twenty-four late-stage abilities, and the four ancient mid-levels of the Middle Ages..."

Speaking of this, the emperor's two glimpses flashed a glimpse of the gloom: "In the five major leagues, the Star Alliance and the Alliance of All Nations have increased their instantaneous power, and the other ethnic groups in these two major leagues are mostly Continued to migrate the family..."

Slowly, their strength will become stronger and stronger, surpassing today's one-of-a-kind magic hall, just a matter of time..."

"In addition, there is also a change in the Alliance of the Beasts and the Alliance of the Survivors. Although it is still impossible to speculate on what is specific, according to the newspaper, it was originally a starry enemy, a hostile and fierce beast and a relic tribe. Secretly to each other..."

This is not a good sign. The fierce beasts and the remnant tribes in the emptiness of this ruined land are not simple. Among their respective ancestral lands, there are also powerful and absurd sleeps. ""

If you need it, pay a price, you can participate in the war after waking up..."

Now it seems that among the five major alliances, only the Terran Federation is still at a standstill. Although the follow-up reinforcements are expected to come soon, but it has not arrived yet, it is uncomfortable after all..."

Therefore, after considering it for a long time, the old man made a decision..."

Here, the emperor's second glimpse of the fine mang, flashed a deep breath, briefly paused. With

After that, I continued to pick up: "You also know that the old man is not a human race, but the same as the patriarch of the Tianji nationality. It is the mechanical life created by the pioneer of the Terran Technology."

"I don't care what you are, what is the situation of the Emperor, the old man does not know, after all, he was created by Xingbo first, and the old man is behind..."

But on the old man's own side, after the creation of the old husband, Xingbo left a layer of field in the body..."

"These fields are both potential and seals. Over the years, the old man has broken through layers and the strength has improved."

"Now, there are still three domain fields left in the old man's body, and today's cultivation is the strength, it has reached the late stage of the ancient power."

Therefore, according to the old man's derivation, if the domain is sealed again, the old man's cultivation will certainly be soaring, and the short-term breakthrough into the early days of the ancients should not be a problem..."

The early stage of the absurd warfare has little effect on the current predicament of the Terran Federation. It is far from being able to compete with the magic hall. However, the old man can use the secret law to let the reinforcements of the Terran Federation come to this wilderness more quickly. Fragmentary void..."

"Before nearly half a month ago, the \*\*\*\* tribes of the Stars Federation had come down, and the old man had already applied the secret method, crossed the void, and sent the message back to the immortal star. There, the two camps of the Terran and the former Federal headquarters of the Venezuelan, both Ready..."

Only when the old man breaks through the seal of this layer of field, after breaking through to the ancient and supreme, he can use the secret law, and use this piece of the emptiness that has begun in the emptiness of the wild world, artificially open up around the star field where the Terran Federation is located. A stable void wormhole, and lock the plane coordinates of the immortal star, and lead the reinforcements to come..."

Speaking of this, the emperor's second squad is once again, and the other seven federal powers who have been stunned in the audience have looked around. This is how they got up: "You, this time, it takes

about three days to retreat. During this time, Everything in the Terran Federation is handed over to you..."

After that, his shoulders swayed, and the whole figure disappeared in place....

...

For the strong starry sky, just three days can be neglected, and the glare of work will pass.

Three days later, Emperor II's figure once again appeared in the hall of the Federation of the Terran, with a smile on his face, and his mind was calm, and the body was only able to cultivate the atmosphere in the late stage. Now it has reached the ancient age. Supreme second order!

As he said before, there are three layers of seals in the body. Now that the three-layer field seal has only opened one layer, it has already possessed a second-order ruin. can

See if the rest of the two layers of seals are all opened, his cultivation is strength, and it is very likely that it will skyrocket to the late stage of the desert, and even the nine-order great perfection of this place...

The thoughts flashed through my mind, and the seven federal powers in the hall were eclipsed differently. When I looked at the Emperor II, the dawn was different. first

They just thought that Emperor II was very mysterious before, but he never thought that his foundation was so terrible...

"You, everything is ready. Then, on the edge of this star field occupied by our Federation, we will open up a stable void wormhole and bring in the support army."

A faint smile, when the emperor finished, the figure disappeared instantly, and when it appeared again, it was already far away from the edge of the void occupied by the Terran Federation. another

The seven foreign powers did not stop, and soon followed, but only in the back of the sky, not close.

"call out!"

Under the flash of the cold mang, the Emperor II mobilized the power of the body, and fully activated the secret of some unknown, shaking hands, and rushing away.

In the blink of an eye, it has reached hundreds of millions of miles away from the right side.

"Oh..."

For a moment, with the endless radiance of the mans, there was a clear and unclear crack in the void, and it was not too small! set

Looking into the distance, the distant universe of the void, at this moment has been torn open a huge hollow crack, up and down a thousand miles, the diameter is also a hundred miles, just like a vertical eye in the void, amazing!

"boom!"

"Booming..."

Then, from this emptiness crack, there was a thunderous thunder, which continued to tremble, and with the sound of these dull and thunderous sounds, this sudden void The crack is obviously also expanding towards the surrounding area.

Although the speed is very slow, it has been going on for a while, and it has not stopped for a moment. It is like a cold, and it seems like a small hole in the void. Of course

After that, there is an invisible force that spreads out from inside the small mouth and makes it more and more large. and

This original crack is only a thousand miles long, and the diameter is only about a hundred miles. It has been in the low thunder of the rumble, constantly expanding outward, getting bigger...

Slowly passing, a blink of an eye, a small half-day has passed, the original crack of a thousand miles or so, has become a huge black hole, the diameter of the horror is extremely large, far more than 100 million miles, far more than the previous one Three mysterious black holes...

Chapter 4786: Immortal star

This piece of ruins of the ruins of the heavens and the earth has already begun some unknown mystery, and the three accidental star-studded wormholes that appear like giant black holes have been proved. but

The three star-studded wormholes are naturally formed.

Nowadays, the star-studded wormhole that appears outside the star region occupied by the Terran Federation is the emperor II who has been repaired to the second-order of the ruling, using some secret method to exploit the emptiness of this piece of land. The change that has already begun, and thus the manual positioning, tearing away from life...

Therefore, its formation is obviously faster under the influence of human factors.

Just half a day later, this black hole will no longer continue to expand outward, but will be completely stabilized!

The low-pitched roar that has been going on for a long time has disappeared. This piece of the universe, which was originally incomprehensible, has completely fallen into a dead silence, exactly the same as before a small half-day! Do not

However, this huge black hole that has just been formed is obviously not as simple as a normal black hole. The breath that comes out of the black hole is not only the plane-level star-studded wormhole that connects the three major stars. Similarly, even its diameter is terrible, reaching tens of millions, nearly 100 million miles away. which is

It's a giant star that can pass through this starry wormhole.

This scene is too astounding. The other seven powerful people in the distant universe are already stunned and stunned. he

We don't understand what the Emperor II has done to make this star-studded wormhole so vast, and the stars can pass through it. It is simply speechless. but

One thing they can be sure of is that even if Emperor II took advantage of the law of some kind of change that has begun in the void of the shards of the wild, and now he is second-order absurd, but one is so The horrible and stable star wormhole is absolutely impossible to construct with his own power. Milli

Undoubtedly, the other side of the starry wormhole must be assisted by the Terran Science and Technology camp, that is, the high-level dynasty of the immortal dynasty, and the repairing power of the people must not be weaker than the Emperor II, or even more powerful, and even Most likely more than one person...

These thoughts flashed through the brain, and the powerful powerhouses of the seven Terran Federations suddenly recovered their spirits and exchanged their eyes for a look. Such as

Today, the Terran Federation has already had the initial sacredness of the second-order environment of Emperor II. If it can be more than two, it will at least not be weaker than the Star Alliance and the Alliance of Nations. And

If the three major leagues talk about each other and start to join forces, plus the \*\*\*\* unicorn, the nine sacred crocodile, the nine-headed \*\*\*\* scorpion, and the Qingtian Dapeng, the four desolation, the peak of the magic hall, the suppression of the main hall of the demon and the star of the stars Ye Xuan, will not be in the words...

"boom!"

Rumble..."

In the star field occupied by the Terran Federation, a large number of warships have come out, and some of the star-studded powerhouses with higher strength have crossed the void with flesh. hair

The movement outside the astral field was too great. The federal powerhouses in the stars of life were all alarmed. At this moment, they saw the giant star-studded wormhole in the sky.

After Qi Qi stayed, the face suddenly appeared a faint color, and they all shouted...

"God, what happened? Why is there such a vast star-studded wormhole suddenly outside the star field?"

The diameter is close to 100 million miles, and the wormhole's breath is very stable. This is clearly a giant plane channel, even if it is a giant star."

"Oh... look, the cultivation of the national teacher is..."

"The second step of the ancient sacredness? How is it possible? This has not been seen for a few days. The cultivation of the National Teacher Master has climbed several small steps. Is it the initial ruin?"

"It's just like a dream, so unreal..."

What happened to him, at least the strength of the National Teacher's cultivation is truly incomparable. Our Terran Federation finally has a lonely ancient supreme, and it is more emboldened than before! ""

There is also this horrible star-studded wormhole... I heard that there have been great changes in the Star Alliance and the Alliance of Ten Thousand Nations. The three ethnic groups who stayed in the three major star planes of the world have migrated. It is our Commonwealth Federation. Is the reinforcements coming? "

"boom!""

Rumble..."

When the overwhelming sound of the back of the star field resounded, the earth-shattering wormhole in front of it also heard the earth-shattering roar...

This is clearly the rhythm that a large number of warships are coming from the end of the wormhole.

At this time, the top eight people of the Terran Federation, including the Emperor II, are all here. It seems that they are prepared, and perhaps the emergence of this horrible giant star wormhole is related to them.

Then, the battleship army that is coming from the wormhole belongs to the camp, and there is no need to speculate. It must be one of the two camps of the Terran, or the former Senate of the Federal Republic of Venezuela, which has always been closely related to the Terran. It belongs to the army.

Among them, in addition to a large number of warships, there must be a lot of wild and powerful powers and even the ancientest supreme. complete

In fact, the Star Alliance and the Alliance of Ten Thousands each have more than 20 ancient powers and a few ancient sages, and the two camps of the Terran and the former Wanda Federal Senate are stronger than them. Since they sent the reinforcements, How can the overall strength be weaker than them? brain

These thoughts flashed through the sea and gathered around the edge of the rear star field. The powerful parties of the Terran Federation, who were far away from the distance, were excited and their chests were ups and downs.

Even the other seven federal powers who were in the air in the distance behind the emperor's body, they all had a fierce and sturdy savage, and their faces were thicker and more promising. Rendering...

However, the thunder and thunder of the giant black hole in front has been continuing, and the movement is getting bigger and bigger. It is clear that the battleship army that is being driven through the wormhole is getting closer and closer to the rhythm of the wormhole exit.

However, the strong people looked at their eyes and waited for an hour, but they only heard the sound, but they did not see their shape. The giant black hole was always empty, not to mention the battleship, even a hair did not float out... ..

"Booming..."

When the eagerly awaited parties were indifferent, the thunder of the giant black hole in the sky, hundreds of millions of miles away, suddenly became loud. tight

Then, there was a huge monster that no one could have imagined. It rushed out of the giant black hole. Even the giant star-studded wormhole with a diameter of nearly 100 million miles was just enough to let it pass, which shows the size and horror of its body... ..

At this moment, the void was completely ruined, and all the people opened their mouths, and while the air was blowing, the eyes were almost smashed out.

After a few moments, someone was exclaimed: "What? This is... an immortal star?"

Chapter 4787: The Temple of Brilliance was born

"Booming..."

The horrible roar of the sky suddenly made a big hit, a giant that no one could have imagined, rushed out of the giant black hole. Committee

It is too big, beyond everyone's expectations, even the giant star-studded wormhole with a diameter of nearly 100 million miles is just enough to let it pass, which shows the size and horror of its size. This

The moment when a behemoth rushed out of the giant star-studded wormhole, the whole piece of vast and innocent emptiness was completely ruined. All the strong people who saw this scene had their mouths open, and while the eyes were cool, the eyes were all I almost came out. foot

After a few moments, someone was exclaimed: "What? This is actually... an immortal star?"

As the exclamation broke through the silence, there was a scream of exclamation in the void, and it was overwhelming, like a raging tide..."

how is this possible? The science and technology camp has directly moved the immortal stars. ""

It's no wonder that the diameter of the star wormhole is so horrible. In fact, the horror diameter of nearly a hundred million miles is just enough to let the immortal star pass through. The wormhole is a little smaller, and it has to be stuck inside... ""

miracle! This is definitely a miracle..."

"How can a giant star, along with all the creatures in the stars, move from one star plane to another, is this a means of countering the sky? I am afraid at least it must be a half-step existence. , it is possible to do..."

"It's just amazing. Absolutely big, I'm finally going to raise my eyebrows. I don't have to sneak in the shards of this ruined land.

"Hey! Look, behind the immortal star... well, you have other big guys..."

"boom!""

Rumble..."

The screams of the surrounding air screamed loudly, just inside the giant star wormhole that rushed out of the immortal star, and then rushed out of the second big guy. This

It is also a star, just a small circle compared to the immortal star, clearly one of the nine satellites around the immortal star. This

Still not the end..."

Rumble..."

The first satellite rushed out. After less than a fragrant time, the second satellite also rushed out of the giant star wormhole, and gathered toward the immortal star that had already drifted to the far side of the worm.

This scene is so amazing that once again, the countless star powers around the void are stunned. All of them are open-mouthed, and once again they almost smash their eyes out...

Everything that comes down makes everyone numb.

The stars that rushed out of this giant star-studded wormhole were one after another, all familiar, all of which were satellites in the air around the immortal star...

Such a satellite, in the vicinity of the immortal star, originally had eight, plus the immortal star, just one master, eight guards and nine stars, in the universe of the third universe science and technology camp in the void, a three-dimensional nine-story tower stands...

Nowadays, with the immortal star rushing out, the stars that rushed out of this giant star-studded wormhole are exactly eight. It was the eight satellites that stood in the void of the third universe in the virtual space around the immortal star... straight

After nearly three hours, the eight satellites all rushed out of the giant star wormhole, and gathered in the first place to the first immortal star, the formation and position in the void, and before the third The cosmic technology camp is exactly the same in the void, showing a three-dimensional nine-court trend...

In the process, the whole universe of the universe was completely ruined, except for the faint smile on the face of the emperor's face, and the other seven federations that were behind the void behind him. Powerful, all are shocked.

Let's talk about other Terran federal powerhouses farther away! With

The immortal star Jiugong system came down in an all-round way, once again in the void on the right side of the front, and the deadness in this vast void continued for a period of semi-column, and the powerful parties of the Terran Federation were dreamlike. Wake up.

Under the shock of the body shape, the complexion is also a series of madness, like the wave of the exclamation of the waves, once again screaming and resounding..."

Is this too dreamy? In the far-away sky in front of the sky, I clearly saw a familiar star of eight masters and eight guards. Could we return to the science and technology camp of the third universe? ""

The horrible means of moving the immortal star together with the eight satellites in the surrounding emptiness of the sky, and passing through the giant star wormhole, sent the emptiness of this piece of land..."

"This is clearly the rhythm of the full migration of the Terran technology camp. Now the Emperor has arrived in the first step. Then is the emperor of the three empires and the stars of the major stars and stars under the empire?"

"Oh... that scene is terrible. Even if it is just the technology camp of the Terran, the emptiness of the territory is vast and there are countless administrative stars. If all of them migrate, what can the little magic hall count?"

"No, listen, in the giant star wormhole in the sky ahead, after a short silence, there is a clear and banging sound, and it is getting stronger and stronger. This is clearly the rhythm of everything that has not ended..."

God, willn't it be that the stars will come down next? The level of horror that our Terran awakened this time is, and this kind of big hand is too amazing. I can't imagine it..."

boom! "

"Booming..."

Sure enough, as the screams of the surrounding air screamed over and over again, the giant starry wormhole that had just rushed out of the nine giant stars, there was a really loud and roaring roar. listen

The movement is quieter than the previous immortal star, the main eight, eight stars and nine stars rushing out from the star wormhole.

Fast, as the roaring sounds skyrocketing, the surrounding voids are once again in a dead silence. Do not

There aren't any changes in the countless strong people of the Terran Federation, which are just far away from the edge of the stars. Even the immortal stars that have just come, such as the main star, eight guards and nine stars, have not seen any figure.

It seems that the imperial powerhouses in these nine stars have already known all of this. Now they are not rushing out of the stars, but waiting for it to end.

"call out!"

Rumble..."

In the eyes of the public, with the thunderous sound of the earth-shattering thunder, from the giant starry wormhole far away from the front, it suddenly rushed out of a giant.

But this time, it is not a round star. This

It is a continent. To be precise, it is a giant temple that is much smaller than the immortal star. It is full of silver and white, and it emits a strong glory.

"Glorious Temple? This is a splendid temple..."

"Oh! Actually it? In the legend, the Senate of the Federal Base of Wanlu is a huge silver temple like a star. It is called a splendid temple, but no one has ever seen it. Today, it is finally empty. Was it born?"

Chapter 4788: Mysterious heaven

"call out!"

Rumble..."

With the thunderous sound of thunderous sounds, a huge monster, in the eyes of the public, rushed out from the giant star wormhole in the distance from the front of the void...

This time, the behemoth that rushed out was not an star. and

It is a giant temple that is much smaller than the immortal star. It is like a giant continent with a starry sky and a silvery white color.

After a short period of silence, someone in the void quickly recognized the origins of this giant temple, and the screams of the tide rang again...

In fact, the Senate of the Federal Base of Wanlu is a huge silver temple like a star. It is called a splendid temple, but no one has ever seen it. Even, even if it really exists, it is still empty. There has never been a real conclusion...

But now, with this giant temple like a starry sky, the legend has finally been confirmed. Ten thousand

The Confederacy of the Confederacy is now in name only. The second universe has long since failed to comply with its orders and has withdrawn from the Confederacy. Today, among the major ethnic groups and forces of the Federation of the Faroese, there are only two camps of the Terran...

In fact, even the core executives of the two camps of the Terran have never looked down on the Federation of the Faro, or have been slow. Correct

In the two camps of the Terran, the so-called appeal of the Federation of the Faro in the Second Universe does not care at all.

The top of the two camps of the Terran, what is really valued, is the Senate of the Federation of the Faroeese...that is, the silver-white palace in front of the sky like a continent!

This splendid temple is the Senate of the Federation of the Vatican Federation. It is also the foundation of the Federation of the Vatican. As long as it still exists, the real foundation and enthusiasm of the Federation of Varo will not be weakened by half! from

Since the establishment of the Federation of Varo, tens of thousands of years have passed, the two camps of the Terran and the second universe have not provided much cultivation resources.

These resources have been used by the Federal Senate of the Vatican to recruit scattered old monsters in the stars, sitting in the Senate, and becoming so-called federal veterans who have different levels and different levels...

Over time, within this silver-white splendid temple, no one knows how many instar stars and strong people are crouching and sleeping.

But one thing is certain, the federal veterans who are qualified to inhabit this glorious temple like a giant star, at least have to be repaired above ordinary immortality. Place

The existence of the lord and the like is not even the existence of the immortality, and it is simply not qualified to set foot in the meantime.

As for the strongest existence of the deepest part of the Glorious Temple, it is said that there are no less than three ancient Supreme, but it will not wake up from sleep...

Although it is only a temple, but this glorious temple is too mysterious, and the foundation is amazing, no one dares to despise. this

Engraved, as it rushed out of the giant black hole, descending on the emptiness of this piece of ruined land, surrounded by countless Terran federal strongmen, all gathered together in the same place, the heart is secretly guessing, inside this mysterious silver palace Now that I am awake, I am the strongest person in the town.

"Booming ....."

At this time, in the giant black hole far away from the front of the void, the earth-shattering thunderous sounds sounded again without warning...

Around the void, all the Terran federal powerhouses were all stunned, and then they were so eager to breathe, and their breathing was a little short, and they looked forward to seeing the giant black hole in the distance again!

I really look forward to it, and it's really worth looking forward to...

Within a giant star-shaped wormhole with a diameter of nearly 100 million miles, the first star, eight dragons and nine stars, which are led by the immortal star, are the first immortal galaxies. tight

Then, without waiting for everyone to come back to God, tens of thousands of years have been in the world's three major star planes, has always belonged to the legend, the brilliant temple that no one has actually seen before, but also whistling out, banging! first

The behemoths that rushed out the first two times are all at the same level. Now there is a thunderous roar in the giant star wormhole, and the third behemoth that is about to rush out is the exception.

Even if it is weaker, it is not unusual. This is inevitable!

All the people are speculating about the existence of this time from the giant black hole. What is it? Only the emperor, the faint smile on his face, obviously already knows the result, and his heart is determined.  
"

Oh..." This

Once, the thunder and thunder in the giant star wormhole did not last for a long time. Just after the half-column, there was a gray shadow, with a sharp and unbroken sound, rushing out from the giant wormhole. . and

Not far away, but in the void in front of the starry wormhole, it stands asleep, juxtaposed with the immortal nine stars and the splendid temple.

At this moment, all the people were stunned, slowly opened their mouths, and their faces showed a faint color, and the light in their eyes was full of sorrow...

Once rushed out of the star wormhole, it is not a star like the immortal nine stars, nor a giant continent like a splendid temple. Although it is also huge, like a star, it simply does not see what it is, only one. The awning is like a gray black hole, standing there...

"National division, this is..."

After a short stay, the seven federal powers hanging in the back of the sky turned to the same time and looked at the emperor. its

One of them tried to make a sound, and the look of the face became thicker...he

However, the ancient powers from the two camps of the Terran did not know what the gray shadow of this awning is like a star...

Realizing this, the federal powerhouses in the vain air suddenly came to the interest, breathlessly, listening to each other, and wanted to learn the truth and origin of this awning gray shadow from the emperor...

Emperor II smiled faintly: "Without it, Tianmeng Palace..."

Although the Tenth Heaven Palace is also a self-cultivation sect, its status is unique and transcendent. Although it is not nominally like the immortal dynasty, it commands the entire comprehension camp and has the power to dominate. But in fact, it is a big one in the family. With the subsequent sects and countries joining forces, they are far from being able to compete.

Its comprehension camp has no status as the hegemon, and it has been invisible in the early days. The ancestral land of the Ten Heavenly Palace is located in the first house, also known as the Heavenly Palace! The palace of the Heavenly Palace is the supreme leader of the entire Ten Heavenly Palace! With

After the second house is also known as the Palace of the Earth! The palace of the Imperial Palace is responsible for the external affairs of the Zongmen, and the exchanges between the immortal dynasty and the Federation of the Vulcan are all responsible for the Palace of the Palace. The third house is a palace! The palace of the people in the palace is also the punishment of the entire ten heaven palace!

This third house is the most powerful and mysterious place in the Ten Heavenly Palace, and its status is detached! ten

The Tiangong Palace is located in a different environment. Some are a huge star, and some are a vast expanse of the mainland, a place in the sky! but

The Heavenly Palace has never appeared in the eyes of the world. I did not expect this time, but it has also come down...

Chapter 4789: One big trend

The universe of the universe outside the Terran Federation...

With Pang Ruxing, it is actually a gray shadow, like a gray black hole like the heavenly palace, the giant starry black hole in the distance from the front of the sky, finally quieted down.

No more rumbling sounds, no more rushing out.

It seems that the so-called reinforcements of the Terran Federation have finally come to an end...

At this time, in the void in front of the starry sky wormhole, the three giants are lined up in a row, and the scene is amazing and eye-catching. left

The side is immortal nine stars, the main star is located in the center, eight satellites are surrounded by, showing a three-dimensional nine-family pattern.

On the right side, it is like a glorious temple like a giant continent. It is silver and white, exuding the invisible pressure of sacred and deterrent, which makes people dare not look at it. in

At the central office, it is the most mysterious Tianmeng Palace. Pang Ruxing, but it is just a near-circular ray of light. It is gray, and it is deep inside. It can't see anything at all. Mysterious to make people born unlimited. Imagine...

The three behemoths, from the three major forces of the Terran Federation, are all core-level existences. From this point of view, although the two camps of the Terran have a large number of vassals that have not migrated in the third universe.

However, the general trend of the migration of the family has basically been finalized, and the subsequent migration will be gradually carried out gradually...

However, those who are not all the strong people of the Terran Federation who are now in the void of this ruined land are concerned. he

What we are paying more attention to is the immortal nine stars, the splendid temples and the heavenly palaces that have come here today. What is the most powerful person in each of them, how many are they...

In the past few years, they have been turned out, and in this piece of ruins of the ruins of the heavens and the earth, the magical hall of the world has been suppressed, and everyone is so smoldering and angry. Partial

The Lord of the Devil and the Lord of the Stars, Ye Xuan, are so powerful. Under the joint efforts of the two, there are only a few decisive battles, and there is really no hope...

What's more, today's Star Alliance and the Alliance of Tensions have also risen in the near future. Whether it is the first cosmic servant or the second universe, it is not as good as the two camps that occupy the third universe. Such as

At the same time, the core of the two camps of the Terran and the headquarters of the Federal Republic of Venezuela's headquarters are at the same time. If the top level of existence in the town is not enough, the number is too small, and it is too disappointing. when

However, no one doubts the number of immortal stars and heavenly palaces, as well as the power and absurdity that exist in the temple of glory, but whether these top-level existences are still in the midst of sleep, or have already awakened, meaning It is totally different.

All have been awake, that is absolutely impossible. four

The imaginary federal strongmen in Zhou Xuan's air, the only hope now is that they have already awakened to the top of the existence, can be as much as possible... They are too eager to feel proud of the exaggeration, this short-term grievances and shackles, It's like a nightmare! "

boom! ""

Rumble..."

Just as all the people of the federal powers in the emptiness around the world were secretly speculating, the front of the sky, suddenly suddenly roared and thundered.

Whether it is the immortal nine stars, or the heavenly palace, or the splendid temple, there is movement...

In the immortal nine stars, dense and large-scale security and size fortresses rushed out from the atmosphere of nine stars, and opened in the void in front of them. In a short period of time, they occupied a hollow of nearly 100 million miles. Various warships Too many...from

In the Tianmeng Palace, there are various kinds of star-and-sky battle boats of different shapes. No exception, the size is huge, and the number is also extremely amazing. It is more than 10 billion. As for the strong people of the Terran camp in the battle boat. The amount is naturally imaginable. This

One scene shocked everyone, representing the gray shadow of the awning palace, the volume is only a star size, but now it has rushed out of so many giant warships, from the volume, it can not be installed. very

Obviously, this mysterious sly gray shadow, its internal inevitability and the real black hole in general, there is a vast, deep, perhaps, it is actually a mobile and independent small world...

In addition, there are a large number of warships and warships in the splendid temple on the right side. Although the number is small, the total is only about one billion, but without exception, all of them have a diameter of one million. Zhang's behemoth, and the superstar plug of the Tianhe Star, belong to the same level of existence. short

In a short period of time, there were three more horrific legions in the front of the void. The total number of battleships and starships reached about 40 billion, which is not weak compared with the Star Alliance or the Alliance of Nations.

But this may not be all, the immortal nine stars and the heavenly palace, the temple of glory, and perhaps more warships and warships, who knows?

"call out!"

"Hey..."

"I haven't seen it for dozens of years. I don't think that the national teacher is already a middle-aged disrespect. It is really gratifying..."

With the faint sound of breaking, the immortal star rushed out more than 20 figures. The leader was the immortal emperor. At this moment, he walked in the void, his face showed a smile, and he had already clenched his fist to the kingdom of the dynasty. Master Emperor II, congratulations. and

The cultivation that has been dispersed from his body has reached the fourth stage of the ancient power of the wild, but it is the medium-term power.

But in fact, the immortal emperor is not the strongest presence among the more than 20 strong men.

Among them, the universe supreme accounted for more than half, there are twelve, and the ancient power like the immortal emperor is also twelve.

The two old people who walked in the end, the body exudes, but they are all the horror of the mid-decade. "

The Great is polite..."

After several decades, I saw the immortal emperor again. The face of Emperor II also showed a kind of smile. He waved his hand and politely said: "The repair of the Emperor has not fallen, and the three stars in the world." The main plane, in just a few dozen years, actually broke through to the mid-term power, and it is more gratifying than the old man..."

The two people's chilling sounds, in the distant sky and the other side of the heavenly palace and the glorious temple, at this time also rushed out nearly thirty figures, repaired with breath, and attracted everyone's attention. . Imitation

The Buddha is an appointment. The strongmen who rushed out of the Heavenly Palace and the Glorious Temple are also the twelve universe supreme, the twelve ancient powers, and the two ancient sages...

Together, the overall strength of the top three camps of the Terran Federation is simply shocking.

In total, there are thirty-six cosmic supremes, thirty-six sacred ancient powers, and even the ancient sages, there are six whole people, plus the emperor II who has just broken into the ruined place not long ago. There are seven degraded battles. no

Compared with the Star Alliance, the Alliance of Ten Thousands, or the Magic Hall in the Xusheng Forbidden Land, it has been shaped like a crush, which is simply a big trend...

Chapter 4790: Pity

In the void, the cheers that resounded through the heavens and the earth sounded like a tidal wave, and it lasted for a long time...

This time, the Terran Federation's combat power has increased greatly. The immortal nine-star, the Heavenly Palace and the Glorious Temple have come at the same time. Whether it is compared with the Star Alliance, the Alliance of Ten Thousand People, or the Magic Hall in the Xusheng Forbidden Land, it has been shaped like a crush. It is simply a big trend...

In addition to the tens of billions of warships, it is the high-end combat power, there are thirty-six in the universe, thirty-six in the ancient times, even the ancient and supreme, there are six.

Coupled with the Emperor II who had just broken through to the ruined place, the Confucian Federation now has a total of seven ruins.

This is definitely a gratifying thing. After receiving the news, the countless strong people of the entire Terran Federation gave birth to a feeling of exultation and finally turned over!

"boom....."

"Booming..."

In the void, the earth-shattering roar sounded, and the vast expanse of warships and warships were automatically opened to the left and right sides, leaving a wide open space in the center.

Then, the immortal nine stars, the heavenly palace, and the splendid temples began to move, along this empty passage, to the depths of the star domain occupied by the former Terran Federation, and soon disappeared.

This star field is very vast. From then on, the immortal nine stars, the Heavenly Palace and the Glorious Temple will be stationed in the deepest part of this star field, sitting in the Terran Federation and giving orders.

Of course, if the war situation requires it, they can always go out from the depths of the star field. Just like other warships and warships, they cross the universe and carry out various conquests outside...

After the immortal nine stars, the Heavenly Palace and the Glorious Temple entered the depths of the star field, the massive warships and warships that had previously retreated to the sides were also fully activated and slowly entered the interior of the star. One

After the end of the cut, the powerful forces of the Terran Federation, which were gathered at the edge of the starry field, returned to the star field with joy, and then the entire federation will be celebrated for three days.

Because after that, they will no longer have to be enslaved by the magic hall in the Xusheng ban, the heavy shoulders are unloaded, and they can turn over and become the master...

This scene did not escape the gaze of other forces in the distant sky.

Although today's five major leagues have become the genus of the magic hall, the entire vast expanse of the ruins of the ruins of the heavens and the earth have been quiet for two years.

But in the past few months, there has been quite a feeling of resurgence. First, the evil army came, and then surrendered to the magic hall, and became the fifth army under the devil's house. The troubles were full of people and people were uneasy. tight

Then, on the side of the Star Alliance formed by the various universes of the Second Universe, the blood-scarred lions came with blood and the migration of the Qing and Peng lions and tribes, causing an uproar.

Without waiting for all the forces to return to the world, the alliance of the nations of the first universe, the servants of the servants, also came to a huge reinforcement.

Whether it is the conventional combat army or the high-end combat power of the ancient and the old, it is not weaker than the Star Alliance, and it has already qualified for the higher.

Under this circumstance, other high-level powers are naturally restless. They have already sent out some scout teams, and wandered outside the void occupied by the five major leagues. They monitored any wind and grass in real time, and they made corresponding changes. Countermeasures. thing

In fact, it is not just these small, idle forces. package

Including the Alliance of the Survivors of the Five Major Leagues and the Alliance of the Beasts, even the Star Alliance and the Alliance of Tensions, which have already grown in strength, have now dispatched more or less scouting teams, quietly in the emptiness of this piece of wild land. Wandering in the ground.

It's not just monitoring the movements of other forces and alliances, including the reaction of the magic hall, but also the content they pay close attention to...

Nowadays, there have been such amazing events on the side of the Terran Federation. The two camps of the Terran Federation and the core of the former Federal Senate have come across the plane at the same time. The movement is too big, and the first time will be The forces that wandered around the void and the scouts of the Alliance attracted it.

It can be said that the entire process of the immortal nine stars, the Heavenly Palace and the Glorious Temple are all in the eyes of these scouts, and will be fed back to the high-level forces behind them at the fastest speed...

At this moment, with the huge army of the Terran Federation's domineering continually entering the star field, the forces and the Alliance's scouts who looked at all these things in the distance and in the sky continued to withdraw.

On the left side of the void, several people who have been repaired as the strength of the immortal remnant of the emperor have taken a step from the void, and the look on their faces is extremely dignified.

On the back of an abandoned star in front, a large battleship with a diameter of 100,000 meters ejected, surrounded by hundreds of medium-sized warships of 10,000 meters in diameter.

Several of the emperors who are good at the strength are immortal. It is this high-level squad of the remnants of the squad. They originally carried out reconnaissance in this star field, and unexpectedly saw the whole process of the domineering of the powerful reinforcements of the Terran Federation.

At the thought of the Star Alliance, the All-American Alliance and the Terran Federation among the five major leagues, the strength of the Alliance has now skyrocketed. Only the Alliance of the Survivors and the Alliance of the Beasts are still the same. The immortal mood of these emperors has suddenly reached a point.

Subconsciously, they turned their heads almost at the same time, looking to the corner of the right front and the far corner...

There, there is also a giant abandoned star behind, there are hundreds of fierce beasts rushing out, the body's breath is heavy, revealing a heavy meaning. This

It is a scout team from the Beast Alliance, and the leader of the beast is the powerful beast of the two kings. this

Engraved, they rushed out from the back of the crouching abandoned star. They originally wanted to return to the Alliance of the Beasts immediately, and reported the amazing scenes seen by the talents to the top of the Beast Alliance. cold

Not only did it seem to be the gaze of the survivors of these survivors, and the two beasts of the beasts turned their heads subconsciously.

At the moment when the dawn meets, both sides see a heavy and worrying from the other side's shackles. The beasts and the survivors are in the void of this ruined land, which was originally a deadly enemy. but

Nowadays, the reason is that the situation is the same, and the same is isolated. The eyes of this moment meet, and the two beasts and the survivors are scouting at the top of the squad, giving birth to a feeling of mutual sympathy and pity.

"Hey!"

Looking back, the two beasts of the beasts snorted and snorted, and did not stop, with more than a hundred beasts behind them scouting, and then they went away.

"Ugh....."

Here, the survivors of the Regiment's several emperors have exchanged a look and looked down. They shook their heads and sighed and stopped. body

Under the sway, he swept into the large battle boat that was slowly coming forward. Then, with this remnant, he scouted the squad and quickly went away, and his eyes disappeared at the end of the sky...
