

## Super D. S 484

### Chapter 484: Entering the cave

"Now the monster army does not seem to start to seal the seal, you hurry in." Li Chang Lao loosened Ye Xuan's hands.

Ye Xuan paused, and then went straight into the magic cave.

This magical cave entrance has a method of arranging the evil creatures, and he is a flesh-and-blood body, so he is free to enter and exit.

He brought the supernatant to the body and sacrificed the eight-year-old sword. At the same time, he secretly said in his heart: "God palace, give me a wait, if Ye Xuan is not dead, you must look good!"

Ye Xuan did not know the extent of the evil cave, but he estimated that the master should have opened up 40 grounds.

Forty masters of the earth's veins dare not go down to clear the demon, so there must be something in the cave that makes him jealous.

Therefore, Ye Xuan did not dare to relax.

He followed the path of the cave, and he also encountered a lot of bodies on the way, almost all humans. The death of these people is very miserable.

After a while, I came to a dark place where I couldn't see my fingers and surrounded the horrible mourning.

"This magic cave is under the island of Sirius. I don't know which master is suppressing them here."

Ye Xuan is a bit surprised.

"Huh!"

At this moment, suddenly a black figure swept toward him.

Although dark here, Ye Xuan also has the shadow of the leopard blood, he can still see clearly within two kilometers.

This black figure is the so-called monster, which is exactly a magic soldier.

Like the Wraith, this magical soldier is translucent, but without the lower body. They dance in the air. The two black claws are very sharp, and they can easily tear the warrior below the power of the dragon into two halves.

However, when the magic soldiers see human beings, they are usually first possessed. If they are successfully possessed by them, they can control the human body.

"District magic soldiers, dare to come to me trouble, to die!"

Ye Xuan took a direct look at the magic soldier.

The swordsmanship of the Qing Dynasty has a damage bonus to the evil creatures. Even if Ye Xuan is a branch in his hand, he can kill this magic soldier.

"puff!"

The sword swept over the body of this magical soldier, and it collapsed in the meantime. Then, these magical powers began to condense and then turned into a black bead.

"After the death of the monster, it will turn into a magic bead. If it is not destroyed in time, these monsters will be born again."

Ye Xuan thought in his heart that he was not confused by this monster.

At the moment, he is a step forward and picks up this magic bead.

Since he has been broken into the magic cave, then one can kill one, and the magic beads are easy to destroy.

But the next moment, he suddenly thought of a little.

The phagocytic system can swallow all things, and this magic bead should also be able to swallow it?

"Hey, swallowed up!"

When he heard the tone in his mind, Ye Xuan's eyes were the boss, and he really could swallow it, and his instinct increased.

"Ha ha ha!"

Ye Xuan couldn't help but laughed at the sky. It was luck. He thought that he had fallen into the pit, but he did not expect it to be a golden pit.

"This is really an upgraded treasure, earned!"

He burst into two fine mans and suddenly killed him.

I have to say that this time is a blessing in disguise.

Of course, the words can't be said to be so full. After all, if you accidentally encounter a powerful monster like the devil, then he will be tragedy.

Eight wild swords, the swords of the Shangqing, the blood of the sword, these increases, Ye Xuan's casual attack is comparable to the master of 30 ground.

The magic soldiers he encountered on the way were all killed by his sword, and his realm was also improved little by little.

These magic soldiers, the strength is also high and low, the low is comparable to the gas, and the high is comparable to the tenth order.

As for those magical creatures that are comparable to the fine world, it is said to be a magical one. Ye Xuan has been in the magical cave for four hours, killing thousands of monsters, but not encountering a magical demon, perhaps because he still Did not go deeper.

The magic cave is extremely dangerous, so Ye Xuan does not dare to go deep, just squatting at the entrance, first raise the realm and say.

At this point, he has already opened the 23rd land, and will open the twenty-fourth.

Four hours, let Ye Xuan rise two levels, this magic cave is indeed a treasure for him.

However, at this time, suddenly there was a strong breath approaching Ye Xuan.

"A strong breath, this time it should be a devil, and it should not be weak!"

Ye Xuan's heart is a dark sentence.

"Tread on the road!"

Soon, there was a rush of footsteps.

"Footsteps, humans?"

Ye Xuan is a little surprised, raising his hand and releasing a few swords to illuminate the front. With the light, Ye Xuan has seen the face of the comer, it is really human!

"Humanity?"

The man who came with a knife on his face, after seeing Ye Xuan, also showed a strange look.

Although he met humans, Ye Xuan would not be taken lightly, because this person may have been possessed by the monster.

"You are possessed by the monster?" Ye Xuan asked coldly.

"Little brother, how can you say this, have you seen the words that can be spoken after being possessed by the monster?" The knife man stunned.

"Oh, I just killed one." Ye Xuan sneered.

The knife man's face was stiff, and he raised his hand and gave Ye Xuan a knife.

Sure enough, he was possessed by the monster.

"boom!"

Ye Xuan easily defeated this knife and slammed it back.

This knife man should be like him, being caught in to destroy the monster, but unexpectedly possessed by the monster.

After being possessed by the monster, the Shangqing Palace's swordsmanship was not of much use, but the knife man only had a dozen or so veins, and there was no threat to Ye Xuan.

"Oh!"

Jianqi directly passed the knife's throat and cut his head.

However, the next moment there will be a monster that is bigger than the demon figure, and will be rushed toward Ye Xuan. But this demon will not be strong, and was directly killed by Ye Xuan.

Ye Xuan walked over and set off the devil's magic beads and the swordsman's shackles.

"Hey, the host has opened the twenty-fourth ground!"

Now, he has already opened up a third of the land.

After killing this demon, Ye Xuan is once again murdered. If someone is driving him away, he will definitely not leave.

He is also very helpless. If he knows it, he will volunteer to enter the magic cave.

.....

Time, a little bit past.

With the extraordinary recovery speed of the sacred tree of life, Ye Xuan is constantly killing. In three days, he has slaughtered tens of thousands of magic soldiers, and hundreds of magicians.

His realm is also from twenty-four local veins, all the way to the opening of twenty-eight grounds.

At this time, if he was to confront the elder Li, he would probably be able to kill him.
