Chapter 485: Impact seal

"Just come in for three days, I will open the twenty-eighth ground. If I give me a month, I should be able to upgrade to forty!"

Ye Xuan is very confident in himself.

At the same time, he also understands why the Shangqing Palace is so jealous of this magical cave. The magic soldiers that he killed are probably only the fish in the magic cave. He estimates that the magic soldiers in the entire magic cave may add up to more than a million.

Even if the Shangqing Palace sends 10,000 gods every month, it will take nearly ten years.

Let's not say the devil, if a million magical and embarrassing magic soldiers rush out, then the entire Sirius Island will be destroyed.

Just as Ye Xuan continued to search for the Demon Warrior, suddenly a footstep fell into his ear.

"Someone, but still a lot." Ye Xuan brows a condensate.

In these three days, he also saw a lot of human beings who were possessed by the devil.

At the same time, he also discovered that the human beings possessed by the magic soldiers are stupid, and they can't even speak, but those who are possessed by the devil can do it, and they will use lies to deceive Ye Xuan.

What Ye Xuan has heard now is not only footsteps, but also human discussion.

"Senior brother, if these monsters break through the seal, the entire Sirius Island will be destroyed. Why does the general gate only send us these people?"

"Crap, if the masters in the door come, how can we experience?"

"But here, in addition to the magical demon, there are the devil, the devil and the demon Lord. If the demon Lord wakes up, then we are not..."

"Do not crow the mouth, the door owner said that the demon Lord is sleeping, there are only a few devils, don't be afraid."

After hearing these words, Ye Xuan also understood that this team was not possessed by the devil, but the team that was sent to clean up the monsters. Moreover, they should still come from the elite of the Qing dynasty.

Coincidentally, this team of ten people rushed toward Ye Xuan.

"Who?"

The son of the Shangqing Palace, who was headed, shouted coldly.

"People!"

Ye Xuan, a few kilometers away, responded coldly.

The first disciple's brow wrinkled, he felt that Ye Xuan's voice was very strange, and immediately said: "It is the person who will be possessed by the devil, kill!"

At that time, ten people were killed in the past.

The ten of them, in addition to the 30 young people who have opened the first place, are also between the 25th and the 29th.

"I don't want to be a disciple of the Qing Dynasty."

Ye Xuan's heart sighed.

He suddenly remembered the few people he had met before the ghost tomb. Those talents had just entered the fine world and should be only the worst outside disciple.

Although there are common enemies, Ye Xuan is not a good bully. At the moment, he also killed the past.

These people's lives, he can not accept, but Qiang Kun can not do.

In the past three days, in addition to getting through the meridians, Ye Xuan has also made a lot of progress in martial arts. His swordsmanship has been upgraded to 10% of the fire, and his power has doubled.

It is really easy to deal with this group of Qing Dynasty disciples.

In less than half a minute, these disciples were all broken by Ye Xuan, and Ye Xuan also opened two meridians, reaching twenty-six.

"who are you?"

The young man was amazed, because he saw Ye Xuan only licking their wrists, but did not hurt their lives, but also applied to the martial arts of the Qing Dynasty, apparently not the human being possessed by the monster.

For this question, Ye Xuan lazy answer, directly throwing a ring of Qiang Kun, said: "There are healing drugs inside."

Then he just left.

These people are all killing monsters, so he does not have to kill them. After all, these people can contribute to the residents of Sirius Island.

He also found some magic soldiers around him to kill, not long after, he happened to meet the team.

But this time, this team has opponents.

"A devil handsome?"

Ye Xuan brow wrinkles.

The head of the youth has opened 30 geographies, and the other nine are not bad. But now, they have been killed by a monster, leaving only four people.

This shows that their opponents are stronger than the devil.

Since I saw it, Ye Xuan couldn't stand by, but after he approached, the headed youth was already possessed by the devil.

In the meantime, the breath of the young man is skyrocketing, and the realm has risen several levels.

Those who are possessed by the monsters may have the same strength and may improve.

This magical handsome strength is not bad. After possessing the body of the youth, it is to let the youth soar.

Not only that, but he can also use martial arts.

At this point, this magical handsome has already noticed Ye Xuan, immediately rushed toward Ye Xuan.

"I recognize you, that is, you cut off my wrist, I want to take revenge!"

The voice of the youth fell into the ears of Ye Xuan.

The human beings who are possessed by the devil will speak, and it is not uncommon for the young to open.

"Hey, do you think that you can take revenge?"

Ye Xuan snorted.

Although the swordsmanship of the Shangqing did not increase the effect of the human beings possessed by the monsters, it was enough to kill the youth with the realm of Ye Xuan at this time.

Within five rounds, the throat of the youth was cut by Ye Xuan and blood was arrogant.

At the same time, the devil who possessed the youth was also separated and killed to Ye Xuan.

"Clear the enchantment!"

Ye Xuan took a trip and slammed into the body of the devil, but failed to kill him.

"Life is tenacious, die!"

He added a sword, this magical handsome is killed, and then condensed into a magic bead.

Ye Xuan walked over and swallowed the magic beads.

"Sure enough, at least one hundred devils will be!" Ye Xuan is very satisfied.

It is at this time.

"Booming!"

There was a loud noise in the sky.

Ye Xuan stunned, and suddenly reacted, this should be the movement caused by the magic army once again impacted the seal.

"Don't break through, I have to upgrade."

Ye Xuan thought in her heart.

Fortunately, this time the magic object hit the seal is still not successful, Ye Xuan has another upgrade time.

The next time, he turned around in the magic cave, and he opened the 30th place.

However, as his realm improved, his experience became more and more. At this time, he was not satisfied with the experience of the Demon Warrior, and decided to go deeper.

But just as he decided to go deeper, the earth suddenly began to oscillate.

Ye Xuan raised his head and frowned and thought: "What happened? Is it the magical army that has sealed the seal?"

He flew into the air and retired.

"Booming!"

The sound is getting louder and louder. It didn't take long for Ye Xuan to sense that a large group of people and monsters passed by.
