

Super D.S 4851

Chapter 4851: Rayling breakthrough

In addition, Qingniu and Yuling, Longjing, Gongjun, Heifenghu, Rou Yuezhen, Zhao Dong, Qiannan, Sun Xi, Li Bei and other four universes.

More than 20 members of the Sangzhi tribe, such as the emperor's immortal nationality, and the members of the former prisoners' parliament, such as the Three-Foot Dragon and Longshan Tang,

There are also **** ancestors, Qingpeng ancestors, Taikoo porcupines, Taikoo turtles, six **** scorpions, and the nine fierce beasts of the captive army, etc...

Including the black robe of the Alliance of the Survivors, the three survivors and other high-ranking survivors... In short, almost all the high-level corps of the entire Demon Temple came. he

Not long ago, they just separated from Ye Xuan and entered the interior of the star field. They started the division of the six major legions. They suddenly saw that there was such a vast horror in the sky above the house of Ye Xuan, and they did not understand what happened. . This

Not only the ridiculous thunder, but more than one, let all the people tremble, unclear, so the first time they all rushed over...

For a moment, with the appearance of Ye Xuan, the seven majors were released from the wave, and the three heads of Xuanyuan Zijing were sent to the edge of the Xusheng forbidden land in the distance. One

The high-level devils who came from the stars, after a sudden glimpse, suddenly changed their minds and shouted...

"What? Seven new pastors?"

"Oh... a big handwriting, the seven envy of the Tianhe Star Lord Ye Xuan, at the same time, broke through and entered the ancient and supreme environment. This kind of thing is unheard of..."

"This is the ancientest supreme, the seven people break through at the same time, everything is the same as the dream, too unreal..."

Undoubtedly, this is the result of the 29th-level ridiculous Baodan. It is so amazing. If there is a similar scene, how many times does it mean that the ancient sacredness of my magical hall is not going to blow out? "

"If this is the case, what kind of heavenly alliance, what kind of heavenly family can you count?"

At this moment, the hearts of all the high-level temples were incomparably excited.

Although they already knew about the 29th-level ridiculous Baodan, they now see the seven great cults because they have broken through the ancient sacred environment at the same time, but the feeling is completely different.

In particular, the three dignitaries from the Alliance of the Survivors and the top leaders of the remnants of the people, the more excited figures are shaking. first

Before they had seen the black robe and the ruin, they broke through to the ruined place. Now they have seen seven breakthroughs in the glory, which proves that the 29th-level ridiculous Baodan is so strong and powerful...

For them, this time joining the magic hall is simply a promising future!

"Roar!"

At the same time, in the distant emptiness of the sky, Ye Xuan screamed and screamed, and the hair in the body was all spurred. The whole person was like a most powerful humanoid star. The body of the body was blooming with endless treasure. The light shines through the billions of pores of the body surface. versus

At the same time, he also turned to the side of the corpse of the ancestors and other seven Yan Yan looked at the past, with a smile and nodded: "Reassuring to robbery is, three thunders, the first in front of the self-owned Emperor Yin Lei Ling This is also a chance for him..."

"The second way, by your own resistance, to forge the soul, baptize the flesh..."

"As for the most powerful powers of the three waves, from the main hall, kneel down with you..."

Once, after all, it was seven absurd thunders that came at the same time. Under the layers of superposition, the power could skyrocket several times, so even Ye Xuan had to be careful and made a proper arrangement...

Da Yan Xiu nodded, they will not have any opinions on Ye Xuan's arrangement..."

Card! "

Just at this time, the harsh and crisp sound came, and the clouds of the sky suddenly surged between the moments. After only a short break, a stout purple gold lightning was already down! "

Emperor India! "versus

At the same time, Ye Xuan's squatting in the middle of the cold man's flash, suddenly waved, and after a scream, the Lei Di Yin, who was hanging in the brain and knowing the sea, spurred out.

"Hey..."

In the next moment, Lei Diyin flew up, and the first time in the emperor's seal was a resounding scream of screaming, this is the thunder of Emperor Yin, for it, the so-called robbery The best chance for forging and quenching itself. "

Oh..."

In the next moment of the emergence of the emperor's seal, a more cheerful and whistling sound came from inside the emperor's seal, revealing a more powerful pressure, which is a great power...

The previous time, Emperor Yin Lei Ling had already broken through to the fourth stage of the ancient power of the ancients. At this time, the screaming of the screaming was the joy of the Emperor and the spirit of Lei Ling. For it, this kind of thunder was in it. It is the best chance for forging and quenching itself.

It can be said that the strength of Lei Ling's cultivation was the last surge, and after the absorption of this period of time, the realm is now solid!

This time, after sensing the powerful atmosphere of the thunder robbery again, Emperor Yin Lei Ling once again rejoiced, because this is its chance!

And, after this baptism of thunder, Lei Di Yin will be even stronger!

Even the Emperor Yinling is very likely to change again. This is the creation of Tianda. It makes nature very excited. There is a feeling that I have long been unable to hold it and want to rush out! "

This time, the situation is a bit different. The seven ridiculous thunders overlap and add, and the power is too horrible, but for you, it is an unprecedented opportunity...

In the light smile, Ye Xuan's mouth heard the voice of Luding's words, and turned to look at the Lei Di's seal hanging in front of the head: "This time, whether it can break through to the ancient times, it depends on your own creation..."

Almost just finished, the first wave of hijacking on the top of the head has already collapsed. "

Oh..."

The excitement of the road was heard from the Emperor Yin, and then the entire Lei Di Yin was overwhelmed by the overwhelming Zijin Thunder.

At this moment, all the people have mentioned the heart of the blind man. After all, it is too horrible to add up to the seven superstitions.

"Hey..." Wan

In the eyes of the public, the thundering sea of Leihai quietly disappeared, and there was no leakage. All of them were inhaled by Lei Di. This time, Lei Ling in the emperor's seal apparently ate enough, and suddenly appeared in the emperor's seal. Again, the sound of the spirit of Lei Ling..."

boom! "a few

In the next moment, from the high emperor's mark hanging in the sky, an earth-shattering roar was heard.

A powerful and incomparable breath spread out, it is the breath of the ancient and supreme... After swallowing this wave of seven-year-old ruins, the emperor finally ushered in a huge transformation that is like a reborn, invisible The pressure of the road is more intense.

As the spirit of the Emperor Yin Lei Ling, also because of this opportunity to obtain a terrible creation, repaired as the strength of the skyrocketing, directly broke through to the ancient and supreme.

"boom!"

"Booming..."

With the breakthrough of the Emperor-Indian Lei Ling, the cloud-covered robbery cloud is even more violent. It is Lei Ling, breaking through to the ruined environment, there will be no so-called absurd thunder and robbery, energy will come, and nature will break through. It is.

But because of its breakthrough, this piece of vain thunder power is obviously more violent, and the next two waves of seven-year-old ruins are only afraid to make the power stronger...

Chapter 4852: Top ten deserted towns

After a short period of silence, the whole piece of emptiness, all kinds of screams, just like the tide, it's overwhelming, and it's overwhelming..."

what? Is this another powerful ancient destiny coming? Counting the seven envy of the Lord of the Stars, and the black robe of the Lord of the Devil and the Legion of the Legacy, if you add this Emperor, you will have ten powerful absurd sittings in the Temple of the Now. Up..."

"This is still the result of the Tianhe Star Master Ye Xuan..."

It's really against the sky, and it's really unheard of in this way of swallowing the thunder."

"After today, my magical hall is strong, it will be unprecedented!"

"Tianji, Tiandaomeng will be shocked by all of them..."

"call out!"

"Stay well in the realm..."

With the exclamation of the surrounding sounds, after Ye Xuan slammed a sentence to Emperor Yin Lei, he waved his hand into the body.

"boom!"

"Booming..."

"Card!"

Soon, the top of the sky, the second card bang loudly came, a total of seven, thicker than before, instantly rushed..."

call out! ""

Oh..."

I have already said it before, and the second wave of thunder will be resisted by the Seven Great Yan, which will forge the soul and baptize the body.

Therefore, at this moment, with the second wave of the seven giant purple gold thunder and lightning, the roots are not used Ye Xuan to remind, after the seven sacred repairs such as the corpse of the ancestors, each of them slammed, Standing up, they each went against a fallen giant purple gold robbery..."

Rumble..."

In the blink of an eye, the figure of the seven people has been shrouded in a giant purple gold thunderbolt. In the earth-shattering roar, the seven beautifully-skinned figures disappeared instantly, and the purple gold smashed down to the seven-story Thunder sea, raging in the sky high above...

At this moment, all the people once again mentioned the whole heart to the eyes of the blind. especially

It is the black robe of the Legion of the Legion. He has only recently experienced such a ridiculous thunder, and that power is still far worse than it is now.

This time, the seven sacred robes will come at the same time, and the overlap will be added together, and its power can be imagined. in

In his view, the seven major cults have just broken through, and it is necessary to face this horrible thunderbolt baptism. It is too dangerous... but

He is obviously too small to look at the seven majors. she was

After all, they are the strong ones that existed since the early days of the flood. This time they are born again, the chances are deeper, and their bottoms are not comparable to the general starry sky..."

boom! "

"Booming"

In the air, the Thunder is raging, and the seven-tall Lehai has always existed, and the earth-shattering roar of the earth is constantly coming, and it is eye-catching and sultry.

All this has lasted about a little bit of interest. ten

After the interest, everything is calm, the power of the seven-story Leihai is exhausted, and the blink of an eye disappears, so no longer...

Looking into the eyes, the seven-pounded thunder sea dissipated the empty position, the seven figures are standing proudly. corpse

The ancestral stagnation, the ancestral ancestor, the ancient dynasty, the nine-day virgin, the nine-tailed fox, the phoenix goddess, and the Zixia fairy...

After the accidental fall of the past, these seven people have been reborn in the past, and finally they have once again climbed to a new height and reached the ancient destiny that had never been reached before.

The wave of robbery just now is of great significance to them. It represents everything that has been done in the past life. This time, the new life has completely fallen...

At this moment, almost subconsciously, after a wave of thundering, the seven major sacred repairs, at the same time turned to the first look at Ye Xuan, a faint mist in the sputum, the nose is a little red..."

Ok, now is not the time to feel the last wave of thunder, is the real test, its power is originally the strongest..."

When I first looked at it, the line of sight and the glimmer of the seven gimmicks, Ye Xuan's bottom flashed a glimpse of it, and then he replied: "Plus this time you also break through at the same time, and the seven ruins are overlapping and adding. The temple will help you share, and you have to be careful..."

"boom!"

Rumble..."

"Card!"

His words just fell, and the last wave of robbery has already fallen...

The power is even more horrible. Although it is the same as the color of purple gold, the diameter has skyrocketed by more than ten times, and it seems that people like to destroy the earth. Correct

Therefore, Ye Xuan is still unmoved. After smashing his mouth, he waved his hand to wrap the seven sacred sacred sacred sacred whales behind him, and then his body swayed, and he went straight to the top of the horrible robbery. go with.....

"Hey..."

"Hey..."

Under the turbulent mood, the violent form of him, the mouth also heard the sound of shouting, do not avoid the flash, the body shape instead rushed out in the whistle, and went on the face.

In the blink of an eye, they took the seven great sorrows, such as the corpse of the corps behind them, and fell into the horrific hijacking of this wave of polymerization. The whole land was completely submerged. "

Rumble..."

This scene is too amazing. The whole piece of the vast purple gold robbery cloud, the horrible roaring of the horror has continued, and the billions of miles of the emptiness of the sky, all of which were enveloped by the blasted Zijin Leihai. , turned into a vast and endless thunder sea...

Such a scene is no more than a horror than the seven-storied thunder sea that appeared in the second wave of robbery.

The seven canyons thunder the ocean, but only tens of millions of miles in diameter.

But now the Zijin Leihai, which is a fusion of one, is vastly billions of miles, and the gap between them can be imagined.

In the distance, Xusheng was on the edge of the forbidden land. All the high-level temples who witnessed it all had their faces completely scared and their bodies were slightly twitching.

At this moment, even if they have a strong confidence in Ye Xuan, they are not worried.

In the thunder and thunder, it seems that the entire Galaxy is shaking violently, as if it is possible to collapse at any time, and all the sights are shocking. This

The wave of robbery, raging dozens of breaths, the vast Leihai covered by the top of the head, finally disappeared completely.

In the next moment, billions of miles of emptiness are empty, and this is one of the clear! "

Oh..."

A faint sound of broken air rang, and in the next moment, Ye Xuan stepped out of the sky from the height of the sky. Behind him, the seven great sorrows, such as the ancestral stagnation, followed closely, and the body was filled with breath. Previously, it was more powerful and solidified a lot...

"Call..."

The hurricane in the shape blew, and the empty space above the head was far away. The awning shrouded the clouds of the endless starry sky, and the sky between the eyes disappeared and disappeared.

The high-level devils outside the edge of the Xusheng forbidden land, after a short period of sluggishness, soon all of them were mad and shocked, and their faces were full of joy and excitement, shaking their arms, cheering and thundering...

From this moment on, the ancient sacredness in the magic hall has reached the top ten.

Even if it is the Tianji nationality and the Tiandao League that has just been established, I am afraid that there are not so many ancient supremes... At least for now, absolutely no!

Chapter 4853: Not interested in

"boom!"

"Booming..." Shen

In the screaming thunder, the awning that hangs over the void is robbed of clouds, and it dissipates. It goes faster than when it comes, and disappears between the blinks. tight

Then, from the edge of the foreground of Xu Xun, there was a shadow in the front, and in the thunderous cheers, rushing toward this side, revealing endless excitement.

Among these figures, there are four cosmic sages such as Qingniu and Yuling, Longjing, Gongjun, Heifenghu, Luoyueyu, Zhaodong, Qiannan, Sunxi and Libei. mulberry

More than 20 members of the tribe of the emperor were immortalized, and a group of parliamentarians such as the Three-Pronged Dragonfly and Longshan Tang.

There are **** ancestors, Qingpeng ancestors, Taikoo porcupines, Taikoo turtles, six **** scorpions, and the nine fierce beasts of the captive army.

However, the mosquitoes and old ghosts in the Tianhe Star Field and the Naples, the Emperor Mo Wentian, the Devil's Uncle, the Turtles, the Nine, the Crazy Mosquito, and the Xuanyuan Old Man, Duanmu Laotou, Bodhi, and other small idle forces And the top of the family are also included.

In addition, there are also the black robes of the Alliance of the Survivors, and the three survivors and other high-ranking members of the survivors... The entire high-rise of the Temple is almost all.

As for the three gimmicks of Xuanyuan Ziwei, Duanmu Xiaocha and Zhao Qianru, this kind of lively celebration is even more impossible to miss...

For the Temple of the Devil, it is definitely a day worth celebrating or even going to history...

First, the Alliance of the Survivors of the Tianhe Legion arrived at the same time, joined in and became a member of the Temple of Devils. Then, among the high-levels under the Temple of the Devil, eight powerful ancient supremes were born.

They are the Emperor Yinling, and the seven great repairs!

All of this will surely be spread out at the fastest speed, so that the Tianzu and Tiandaomeng, as well as the small ethnic groups and forces of the other parts of the ruins of the ruins of the world, will be shocked.

After the enthusiastic congratulations to each other, the tops of the Demon Hall all followed behind Ye Xuan and returned to Xu Sheng forbidden.

The geographical division of the six major legions of the Devil's Hall is still going on, and the top executives will soon be busy with each other and will gradually disperse.

After the geographical re-division of the six legions, the high-level people such as Naples and the mosquitoes and ghosts will immediately enter the retreat and upgrade the strength to the fastest speed. and

Ye Xuan, with Xuanyuan Ziyang, Duanmu Xiaocha and Zhao Qianru three gimmicks, and seven great Yan Xiu together, returned to the Dongfu Star.

Three gimmicks and seven great Yan Xiu quickly chatted, ten hoes, very excited, the noisy Ye Xuan head is a little painful, and finally can only helplessly shake his head and smile, temporarily avoid ... ten

It's inevitable that the gimmicks have just come together, but according to Ye Xuan's meaning, at most, they will let them toss together for two or three days. With

After that, the seven major Yan Xiu will re-enter the retreat and rebuild the past that has just broken through. and

The Xuanyuan Ziwei, Duanmu Tea and Zhao Qianru's three gimmicks will be quietly cultivated in the Dongfu Star, and as soon as possible, the cultivation will be upgraded to strength.....

...hair

Everything that was born in Xusheng's forbidden land was spread in the vast void of this vast expanse of wild land in just a few days.

The small ethnic groups and forces scattered around the parties are incomparably fascinating. and

Nowadays, in this piece of shards of the ruins of the wilderness, the Tianji and Tiandaomen, which have formed a three-legged position with the magic hall, react differently.

There is no reaction on the Tianji clan. Perhaps the emperor has some measures and measures to deal with it, but the outside world is impossible to know. The ethnic characteristics of the Tianji nationality are doomed to be non-strong and cannot be mixed.

Of course, this iron law has also been broken. Ye Xuan once merged into the base camp of Tianji City as a Tianzu ethnic group, and became the young patriarch of the Tianji nationality.

This matter has become a shame for the Tianzu people. Since then, it is even harder to want to mix in. but

The reaction of Tiandaomeng was not small. The first time the news came, the top three leaders of Tiandaomeng gathered together and held an urgent meeting and consultation. people

In the central area of the federal federation, in the hall of the Federal Headquarters, where a giant life star is at the peak of the giant peak, dozens of figures are visible.

This emergency consultation was still carried out within the Federation of the Terran. At this time, the figures in the hall were all the ancient powers of the Terran Federation. In total, they were in their early forties, and the emperor who had just broken into the abandonment of the past was here.

As for the other six ancient ruins of the Terran Federation, this time there is still no appearance. Except for the Emperor II, the Immortal Emperor, the Heavenly Palace, the Lord of the Palace, and the glory of the Temple of the Gods, are also the first corner of the high seat...

In the other two directions of the first, there are four or five figures. left

On the side of the corner, the four figures are all human beings from the body shape, but the body is filled with a fierce beast that is thick and can't be opened.

Obviously, today's human form is just a change. These four figures are the four ancient supremes from the Alliance of Ten Nations. Minute

Don't come from the four major ethnic groups, such as the **** ants, the space mouse, the giant fierce and the evil spirit Slim, among the various servants of the first universe. As for the strength, they are all in the midst of the Middle Ages, the weakest, and the fourth order. The strongest is the sixth order for this.

Of course, the four of them are now the elders of the Tiandao League.

The five figures on the right side are also the appearance of the human race, but the breath of the body shows that they have the blood of the starry beast, and they are extremely rich.

These five people are the five ridiculous geeks from the Star Alliance, the **** unicorn, the nine sacred crocodile, the nine-headed **** scorpion, the Qingtian Dapeng, and the blood-stained war lion. The cultivation is not weak, and the five are also old. In the supreme world, the weakest is the first step of the desolation, and the strongest is the seventh order of the absurd.

These nine ridiculous grotesques, after receiving the news of the magical hall sent by the scouting fleet of the expatriate, were even the first time to start, through the directional star-studded wormholes built in the depths of the three major leagues. Came to come.

Nowadays, with the opening of the conference, dozens of high-level leaders in the hall, the look on their faces are not very good-looking, and the gloominess reveals taboos and dignity. For a time, no one is the first to speak.

"Ugh....."

After a long time, Emperor II suddenly sighed and sighed. He turned around and looked at the high-level members of the Heavenly Alliance in the temple. He took a slight pause and then took the lead: "Unexpectedly, in a short period of time, the situation has suddenly reversed."

"Overnight, the magic hall actually has eight powerful ancient sacred sacred worlds, plus the black robe of the survivors' alliance. If it increases the nine ruins of the sacred level, it will open the Tianhe star. Raise, count the Lord of the Temple of Devils, and now there are ten desolation in the Xusheng forbidden land..."

"Whether it is a celestial family, or our Heavenly Alliance, the battle power of the ruling level is more than a dozen. In the blink of an eye, we crushed the magic hall... It disappeared instantly!"

Chapter 4854: Emperor II's poison

The words of Emperor II just fell, and the high-level members of the heavens and universities in the hall looked at each other face to face. All the faces showed a helpless color. There was a touch of resentment in the middle of the temple, but no one was vocal... first

In the past, the three major coalition forces of the Star Alliance, the Alliance of Ten Thousands and the Federation of People's Nationalities merged to form today's Tiandao League. Although the main purpose is to strengthen the alliance and resist the heavenly family and the magic hall. but

In fact, all the high-ranking members of the Tiandao League are well aware that after the establishment of Tiandao League, if the Tianji people did not come to provoke for the time being, they did not intend to take the initiative to provoke war with the Tianji.

Because compared to the celestial family, they think it's easier to bully the temple...

Before this, although the magic hall said that there are two nominal forces in the name of the almost desolate, it is the Lord of the Temple and the star of the Tianhe Star.

But in fact, since the five major leagues forced the battle of the Palace of the Devils more than two years ago, the Tianhe Star Lord Ye Xuan suddenly disappeared.

Even when his previous seven envy and the demon dragon were trapped in the Star Alliance, he did not show up. In the end, the Lord of the Devil came, only to resolve the crisis...

From this point, it can be seen that the main star of Tianhe Star is likely to be dragged by something, and it will be innocent in a short time.

And this is obviously the best time to subvert the magic hall! he

After all, the combat power is amazing, even if it has not yet reached the level of the Lord of the Devil, I am afraid that the difference is not too far...

If the main star of the Tianhe Star returns, and then the magic hall, then the difficulty will suddenly skyrocket more than 30%.

Therefore, at the time of the establishment of Tiandao League, almost all of the high-level hearts of the three major leagues had the idea of sending troops to the magic hall soon. day

The main star of the river star Ye Xuan did not return. Among the whole halls of the great demon, the sacred supreme is only the master of the demon temple. Although he is fighting against the sky, he can simultaneously fight the nine bloody, the blue sky and the **** unicorn. A crocodile. but

In today's Tiandao League, counting the nine despicable battles of the Star Alliance and the Alliance of Nations, the total number of the Supreme Supreme has reached 16 and only the Terran Federation has seven giants. to

In the power of the subordinates, the whole magical hall is only the starry turtles and starry porcupines that have just returned, not long ago, even if they are counted in the magic hall by the Tianhe star master Ye Xuan. Driving the nine black dragons, and his seven envy, but only a dozen or so, can not be compared with the Tiandao League ... this

In this case, all the sorrows of Tiandao League must be dispatched by all members. Under the sudden raid, at least 80% of the arrests can be used to suppress the Lord of the Temple in a short period of time.

Without him, the so-called magic hall is just a joke...

In this way, Tiandaomeng will be able to annex the magic hall in the Xusheng forbidden land in the shortest time. At that time, even if the main star of the Tianhe Star returns, the power will be too weak, and there will be absolutely no big waves. It is.

I really dare to provoke, and it's a big deal to suppress him.

For this reason, at the beginning of the establishment of Tiandao League, there were more than a dozen of the ridiculous geeks of the three major leagues who had already thought of the master of the temple. can

Unfortunately, this idea has not yet been put into practice, just overnight, the situation has once again undergone a huge reversal. Such as

Today's magic hall, the top-level combat power of the ruined territory is at least ten. Although it is still far less than the Tiandao League, at least it has already qualified for a **** battle with Tiandao League. although

To say that this breakthrough, the seven environments of entering the ruined world are only the first-order ruins of entering the world, including the black robe of the Alliance of the Survivors. but

After all, the first-order ridiculousness is also the ancientest supreme, and stepping into this level, it is not easy to kill. Such as

In this case, if Tiandao League launches a war against the magic hall, although the final victory will certainly be taken by Tiandao League, the price paid is absolutely not small.

After all, the main battle of the magic hall is against the sky, and in his hands, there is also the Shennong Baoding left by the main star of the Tianhe star, and the nine-color flame sea inside Baoding is extremely powerful. And

Among the nine desolation of the new hall of the magic hall, the Emperor-Indian Lei Ling, who has swallowed the thunder in the way of engulfing the thunder, is also an extremely tricky existence.

Therefore, once the war begins, it must be a real **** battle. more

What is important is that since today's magic hall has ten absurd sittings, if the Tiandao League really provokes a war between the temple and the magic hall, this battle will surely last forever.

At that time, if the Tianji people take the opportunity to attack, Tiandao League will be attacked by the enemy... After all, the star field of the Terran Federation is only a hundred billion miles away from the base camp of the Tianzu people. This distance is too dangerous! Have

This point, the high-ranking members of the Tiandao League are all well-informed, so they look on everyone's face is not very good-looking, so easily missed the opportunity to conquer or even destroy the temple, in their view, the loss is too It's too painful.

It is a pity that even if it is unwilling, the reality is reality. Since the situation has changed, the next response will have to be adjusted accordingly. "

For the magic hall, there is no way to take another shot..."

Thinking of this, Emperor II briefly indulged in a moment, then stunned in the middle of the gloom, and turned around and looked around the high-level members of the heavens.

After a short pause, I then answered: "In comparison, the threat of the Celestial family is now even bigger..."

"The Star Alliance and the Alliance of All Nations are worth mentioning, but the Terran Base Camp of the Terran Federation is only about 100 billion miles away from the place where the Tianji people live."

"Not long ago, Emperor Yi once had a nuisance, and they had already been eyeing this vast star of the Terran Federation."

"Although I am temporarily retiring from the army, but with the temperament and consistent style of Emperor Yi, the next second war, I am afraid it will soon come..."

"As a result, once I am forced to fight, and the Tianzu people will once again have a full-fledged exchange of fire, it is very likely that the magic hall will be smashed into the air. At that time, it must be a situation of being attacked by the enemy, which is extremely unfavorable to us!"

In this way, the best solution is to pull the magic hall into this battle..."

"I will immediately order it, and leave a squadron of the squadron to go to the sacred hall. In the name of a high-ranking coalition, I invite the Lord of the Temple to come and discuss the matter of the celestial family."

In this way, if he promised, not only will the crisis of the enemy of the Heavenly Alliance be temporarily lifted, but it is even more likely that this opportunity will be used to transfer the hatred and anger of the Celestial family to the Temple of Devils. ""

Once the matter is successful, with the temperament of Emperor Yi, most of them will lead the entire celestial family to conquer the magic hall first. If this scene becomes a reality, then Tiandao League can suddenly shoot in the dark, taking advantage of the opportunity of the Tianji people to harass the magic hall. Its ... is destroyed in one fell swoop! "

Chapter 4855: The mechanical army is approaching

The words of Emperor II just fell, and there was a whisper of whispers in the hall.

For his proposal, the high-level leaders of the heavens and the league are obviously interested. After a short period of private discussion, all the people made a statement and unanimously dispatched an embassy fleet through the proposal of Emperor II. Go to the Temple of the Devil, invite the Lord of the Temple to come and discuss the plan of the Tianji family...

.....Seven

After the day, Xu Xu, where the magic hall is located, is forbidden! "

boom! ""

Rumble..."

A fleet of bombs is coming from the void in the universe outside the forbidden land. This

The number of fleets is not very large, only 10,000 ships, but all of them are giant stars plugs that have reached a size of one million meters. Each one is like a small meteor, huge and incomparable. This

The fleet is the Tiandaomeng envoy fleet that sailed out of the Terran Federation. It is the two ancient powers, a human race, a federal powerful veteran with a **** beast in the body, from the glorious temple. .

With the relationship between Tiandaomeng and the Magic Hall, this ambassador is naturally impossible and does not dare to directly enter the Xusheng forbidden land. When it is only a few hundred miles away from the edge of the Xusheng forbidden land, it stops. thing

In fact, as long as they are still outside the tens of billions of miles, Xu Sheng has already rushed out of a fierce beast army...

At the moment, the high-level devil's high-rise is just the Taikoo porcupine. This cargo has heard of a forbidden land and a distant star. There is a super-star army that is coming from the bang. The first time, it has brought a million beasts. Rushed out.

At the same time, I was awakened by the Taikoo tortoise, and asked him to ask the remnant who had just joined in to help out..."

Hey, the front fleet, what are you doing? "

After rushing out of the forbidden land, the Taikoo Porcupine, even though it showed its **** body, turned into a huge black pig with a body size of more than 10 million feet, squinting in the void, squinting to the front hundreds of millions of miles away from the sky. Fight the army.

Screaming: "The high-rise of the fleet? Seeing that your grandfather is not immediately coming out to pay homage? Is this the rhythm of your grandfather?"

puff! ""

Oh..." This

The words are really arrogant, claiming to be a grandfather, but still add a pig character in front, is this not to make yourself a pig?

These thoughts flashed through the brain. The two Heavenly Alliances piloted in the fleet were so powerful that they almost spurted a blood arrow on the spot. Their faces were blue, and their figure stood out from the flagship star and came to the front of the fleet. Strong

Enduring the anger of the heart, the Tiandao League invited the Lord of the Temple to a Syrian, to discuss the intentions of the plan of the Tianji family, simply said a moment, and even if asked to see the Lord of the Temple..."

Farting, is that the goods you can come to see a cat and a dog? "One

Listening to the other party's intentions, the Taikoo Porcupine even screamed and snarled: "Moreover, your Tiandao League and the Tianzu people are playing well, and they will suddenly pull us into the magic hall. This is clearly a bad heart, too sinister. Must be punished for something..."

"Come on, the tens of thousands of superstars have been confiscated, and everyone has not resisted. The collection is thrown into the captive army. If there is resistance... kill innocent!"

"Roar!""

Roar! ""

Oh..."

The words of the starry porcupine just fell, and immediately there was a terrifying arrogance and anger.

The beasts of the beasts and the beasts have all rushed out, and the beasts that can be brought around by the porcupines are obviously all elites in the squadrons. The tens of thousands of superstars are encircled by 10 million. The result is obviously self-evident. ..."

Damn black-skinned old pig, are you crazy? ”

"The two armies are still fighting to make it happen, let alone we are just coming to the high-level delegation of the Heavenly Alliance to invite the envoys of the Lord of the Devils..."

In this scene, the two Heavenly Alliances in the Xingsai Fleet were able to be angry and angry, and their hearts almost fired, but they could only endure it. Dun Dun advised. "

The Lord of the Lord said that our magic hall and your heavenly alliance have nothing to say..."

At this time, a cold voice of the words came out, the Taikoo tortoise led the black robe of the Legion of the Legion, and the latter came out with a palm of the hand: "So, see The **** of your Heavenly Alliance, it's just a direct kill, there's not so much nonsense..."

"boom!"

boom! ”

This is a ridiculous grotesque shot, even if there are hundreds of millions of miles away from the void, the two ancient powers from Heaven and Earth Alliance have no possibility of fleeing.

Under the circumstance, their body shape was instantly taken as a **** fog. Without being spread out, they were rushed forward by the Taikoo tortoise and the Taikoo porcupine, and they were divided on the spot...

Everything that came down was no suspense. The two high-powered high-level warships were killed by a slap. The tens of thousands of superstars in the superstars did not dare to resist. They were directly captured and brought back to Xusheng. Within the forbidden land.....

...day

Daomeng, Terran Federation! send

It's been 12 days since I went to Xusheng's forbidden land to ask the Star Wars of the Lord of the Devils to leave!

In these 12 days, the high-level devils at the meeting in the hall have never left, and they are secretly discussing the details of the upcoming Tianji national war. To

At this level, let alone a short period of two months, even if it is a lot of years of sleeplessness, there will be no impact at all...

Just at this time, the news came, all the high-level leaders of the temple were stunned. After a short silence, all of them subconsciously turned their heads and looked at the emperor.

At this point, Emperor Er's face had already been smashed into a sauce purple, and his body shape shivered slightly.

He was really mad, and he slammed the desktop in front of him, and he was furious: "The Lord of the Devil, you... deceive too much!"...

...

The edge of the Xusheng forbidden land where the magic hall is located...

Today, it has been seventeen days since the Star Trek fleet of Tiandao League came and was captured.

The news was sent back to Tiandao League. Emperor II was furious and angry. In order to give the high-level officials a confession, he even made his face better. He even mobilized the entire Tianji family and went to Xusheng to ban the land and crusade..."

Roar! "

"Hey..."

boom! ""

Rumble..."

In front of the void, the mechanical beasts of more than 100 million giants are coming. distance

When there were still hundreds of millions of miles away from the edge of the forbidden land, suddenly all of them angered and screamed. tight

Then, the earth-shattering roar, like a tidal wave, immediately sounded, covering the whole piece of void... This

In the meantime, it is accompanied by the sound of mechanical intensiveness that is dense and horrible. More than 100 million heads of different sizes and shapes, but it seems that all the mechanical people who are similar in appearance to various starry beasts have begun to change shape...

The changes in shape quickly unfolded, and the mechanical tribes of different sizes also gathered, gathered, and quickly merged in twos and threes. This

In one scene, it is like the combination of Transformers. The number of mechanical tribes of different magnitudes is integrated into one in a short period of time. Some are three or five heads, and some are more. Ten mechanical people are in harmony with each other...

Chapter 4856: Fourth fusion

"boom!"

"Booming..."

The earth-shattering roar is resounding. With the integration, more than 100 million mechanical tribes have turned into more than 10 million.

Although the number has dropped by 90%, the more than tens of thousands of mechanical tribes appearing today are not only larger, but also more than ordinary stars, including their shape, although they are still starry beasts. But it is even more awkward.

And although they are made up of a number of mechanical tribes, they are all in one, and they don't see traces of a little fusion stitching, as if they were born in general. melt

After the combination, basically every head has a variety of starry beasts, which means that their defense, attack ability is also diverse, and more powerful, and may even have some special starry beasts such as Zerg. Special ability...its

When it comes to strength, it is said that there will be a sudden surge in the moment. When it was a few hundred million in the past, among the mechanical families, the weakest is the border, but now it is a fusion of more than 10 million mechanical warfare. Among the beasts, the weakest ones are ordinary immortal, but this is obviously only the first fusion, and everything has not ended!

Such a big move, the first time to alarm the patrol fleet in the edge of the Xusheng ban.

These patrol fleets left some surveillance, and all others rushed into the forbidden area. The first time they reported the situation outside the forbidden area. "

Roar! "

When the news came, Ye Xuan's Dongfu Star, there was a terrible roar. this

At the time, the seven major cults that had just completed the breakthrough and the three gimmicks of Xuanyuan Ziyang, Duanmu Xiaocha and Zhao Qianru had already entered the retreat. he

The figure of the person rushed out of the Dongfu Star alone, and looked up to see the Taikoo tortoise and the Taikoo porcupine, in addition to the black robe of the Legion of the Legion. to

In other high-level halls, such as mosquitoes and old ghosts and Naples, Mo Huang Mo Tian, the devil's uncle, the tortoise clan ninth, the crazy mosquito emperor, and the Xuanyuan old man, Duanmu old man, Bodhi too small and so on The forces and the top of the family. Take

And six bloody, green cattle, Zhao Dong, Qian Nan, Sun Xi and Li Bei, as well as the captive army's nine wild talents from the bloody, Qingpeng and war lions, all entered the retreat...

"Is it actually the emperor II? So just right, this temple... I want to go find him!"

The first look at the Taikoo Porcupine, the Taikoo tortoise and the black robe, and Ye Xuan's speech flashed in the middle of the cold, waving his hand and leaping forward. three

People did not dare to delay, screaming, followed.

Then, it was a huge battleship and the Battleship Corps. The number exceeded 100 million. Even if they didn't need them to go to the battlefield, but the Lord of the Magic Hall was dispatched, couldn't it be a little? this

It should be meant!

"boom!"

Rumble..."

When Ye Xuan's figure rushed out from the Xusheng forbidden land in front, hundreds of millions of miles away, the earth-shattering roar again sounded like a tidal wave, covering the whole piece of void. machine

The second fusion of the army of the armed forces began. Are

Between the engraved moments, there was a dense and fascinating sound of the mechanical movement of the card, and the more than 10,000 mechanical people who had just completed the integration, more

than 10 million mechanical ethnic groups, in an instant. Then they are close together, gathered, and merged with each other...

As with the previous one, all of this was completed in just three short breaks. One

More than a million mechanical beasts that have undergone the first fusion have been reduced by 90% at the moment, leaving only over one million heads. But without exception, all of them are skyrocketing.

Nowadays, the smallest one is almost the same as the immortal star. It is like a giant star, but the shape is still a starry beast. It has already possessed the characteristics of various beasts. As for the strength, the weakest existence is already The emperor is immortal, and the most powerful existence, even has the supreme cultivation of the universe, and the number is still quite large, more than a thousand giants...

However, this is still not the end.

"boom!"

"Booming..."

In the void, the roar of the earth-shattering sounds like a tidal wave, and it is even more dense to the screaming mechanical sound of the card. One

More than one million mechanical beasts, just like the previous two times, two, three, two, two close together, gathered, and merged with each other...

This third fusion took a little longer, but it only lasted for more than a dozen. In this blink of an eye, the original mechanical beast that had passed through the second fusion of more than one million has lost 90%. Today, it's only a hundred thousand. but

But each head is huge, nearly a hundred miles, the shape is also a variety of starry beasts, but it has reached the extreme, at first glance, just like a prehistoric monster, it is shocking.

Moreover, after the third fusion, among the hundreds of thousands of mechanical behemoths, the weakest ones have also reached the immortality of the emperor.

Among them, the strongest body in the body has even reached the wild and powerful environment, and the number is quite large, more than one hundred...

There are more than a hundred thousand mechanical war beasts that have been repaired by the emperor. There are more than one hundred of the ancient powers. The level of this power is absolutely shocking. Any existence below the absurdity has to be shrugged. It is moving. but

This is just a third fusion... short

During the short half-column period, the more than 100 million mechanical people who rushed out of the giant star wormhole quickly completed three phases. original

The number of more than 100 million yuan has been reduced to more than 100,000 heads after three fusions and fusions. Although the number has dropped sharply, the combat power has risen sharply. They have become hundreds of thousands of seals. The mechanical beasts of the emperor are immortal, and there are even more than one hundred of the ancient powers. This

In this scene, even Ye Xuan couldn't help but feel a little bit...

If the fourth fusion is completed, according to the law of the previous three fusions, if there are no accidents, the number of these tens of thousands of mechanical beasts will be reduced by 90%, only a million.

It doesn't sound like much, but the mechanical beast that completes the fourth fusion is just the size, the smallest, I am afraid it can be compared with a giant star. to

In terms of strength, even the weakest existence, I am afraid that it will reach the universe. As for the strongest, in theory, it will even reach the paranoid, and the number should be more than a dozen...

Ten thousand heads of mechanical beasts, cultivated as strengths are generally above the universe, and there are at least a dozen or so ancient Supreme levels. In general, although the number is not large, it is definitely a terrible machine. The army of beasts can be described as invincible! but

Whether this so-called fourth integration can be carried out is still an unknown mystery. When this battle with the Tianji national army was first, this mechanical army was just completing the third integration. positive

When Ye Xuan thought about it, the thunderous bang of the rumble came again. The fourth fusion finally began...

Chapter 4857: Far from the end

"boom!"

"Booming..."

Card..."

Under the eyes of the public, the cosmic void in front of the universe, the thunderous bang of the rumbling came again, and the sound of the squeaky mechanical sound of the card was overwhelming. machine

The fourth fusion of the great army of the tribes has finally begun... first

Before, after three fusions and fusions, the number of this mechanical army has been reduced to more than 100,000. although

However, the number has dropped sharply, but the combat power has risen sharply. They have become the mechanical beasts of more than 100,000 heads of immortality, and even more than one hundred of them are wild. Such as

Today, with the fourth fusion, these hundreds of thousands of heads are repaired into mechanical beasts whose strengths are generally above the emperor's immortality, and they are gathered in groups in an instant.

More, it is a dozen or twenty mechanical beasts congested in a corner of the void. He

It's like a mutual intercourse, and it's a blend of things...this

The scene was extremely shocking. After all, after completing the third fusion, the size of the tens of thousands of mechanical beasts is extremely large.

Even if it is the smallest body, there is a small star, the greatest existence, even comparable to a giant star.

The reintegration of such a huge mechanical beast was originally a very spectacular thing, but it was extremely rapid, and the short half-column time was not enough. The conjunction between the hundreds of thousands of mechanical beasts The integration has been completely completed.

At this time, I will look at it again. After a short period of half a column, the number of weapons and beasts of the original tens of thousands of heads has been reduced to more than 10,000 today...

More than a million heads, the number is really not much, but there are already previous mechanical beasts, completely different. only

In terms of body shape, the smallest of the more than 10,000 mechanical beasts today is probably comparable to a giant star.

In terms of strength, it is a big upswing. Even the weakest existence has reached the universe. As for the strongest, that is, the most massive existence, even the atmosphere of the sacred and supreme, and The number is still quite a lot, there are more than a dozen heads, close to twenty.

As for the mechanical beasts of the ancient and powerful levels, the number is even more, reaching hundreds of giants...

Before and after, but only half a column of incense time, this mechanical beast army under the emperor's two squadrons, there have been more than a dozen ancient supreme, and hundreds of ancient powers...

This change is simply daunting, and even Ye Xuan has to sigh.

Although the mechanical family of Emperor II took a completely different path from the emperor's heavenly family.

The number of the squadrons and mechanical beasts of the celestial family and the number of warships operated by intelligent robots far exceed the number of warships, even at one level, and there is no comparability at all.

However, this mechanical fusion ability of the machine family is also really shocking. emperor

The second is the elite route, the total number of only a group of more than 100 million ethnic groups, once opened out to be small and exquisite, and at any time can carry out different levels of integration, the entire mechanical army, instantly become a different level Strong army...

However, just in front of you, hundreds of great powers, more than a dozen deserts... but still not Ye Xuan's opponent! surface

For the powerful and incomparable lateness of the Lord of the Devil, the so-called ancient powers are no different from the ants, even if there are more, there is no meaning. true

To fight for the war, if you are qualified to fight with Ye Xuan, you can only be the Supreme.

After the fourth fusion, the tens of thousands of mechanical warfare beasts, although there are more than a dozen sorrows of the ancient supreme level. but

The temperament that they have dispersed in their bodies, without exception, is the first step of the ancient and the supreme, the second order...that is, the initial absurd!

A dozen or so first-order, second-order early absurd, even if they join forces to besiege the Lord of the Devil, there will be no hope of victory, and even may not be able to form a situation.

Although they are all in the desperate situation, the Lord of the Devil Hall is already a late stage of desolation. If it is fully shot, more than a dozen early desolation, even if it can not be completely killed in a short time.

However, a record of heavy fists, let them break bones, internal mechanical damage, but it can definitely do.

By then, these dozens of ruthless mechanical beasts will be like waiting for a piece of super scrap iron. In a short period of time, it is absolutely lost.

One point, Ye Xuan understands, but he did not take advantage of it now, if he wants to shoot, he has already shot when the fourth fusion has not yet begun, and will not wait until now.

The reason why he always held his chest on the edge of Xu Sheng's forbidden land, quietly watching all this unfolding, the purpose is to see the extent to which this mechanical beast army under Emperor II can be integrated.

Of course, there is a more important reason, and that is the essence of Ye Xuan, so that he is very determined. more

It is because of the existence of this qi, it can be said that although this war has not yet begun, even the integration of this mechanical army under Emperor II seems to have not come to an end, but their defeat has already been in the beginning, it is doomed It was only that the Emperor II was still in the dark and completely unaware of it. Do not

However, for this mechanical warfare army that has just completed the fourth fusion, it is definitely not the main opponent of the magic hall. Emperor II is obviously well-informed.

Among the more than 10,000 mechanical beasts, although there have been more than a dozen first-order, second-order realm of absurdity, it is only the power of this level, even if the quantity has a great

advantage, but Still unable to instigate the realm of the realm of the late stage of the past, the combat power is even more incomparable, with the owner of three **** seas...

But that doesn't matter, because the fourth fusion in front of us is simply not the limit of this mechanical beast army. very

As for the fifth fusion that will be launched next, it is not the final destination!

This powerful mechanical army, in the hands of Emperor II, has been in the snow for tens of thousands of years. It has never appeared in the outside world. It has always been hidden in an independent small space to develop itself and explore the exercises...

After tens of thousands of years of tempering, today's mechanical warrior army has been able to complete the fusion limit of six times! No

Wrong, the sixth fusion is the limit of this mechanical army. At that time, although the number of mechanical beasts after the fusion is smaller, its strength will once again rise sharply, not the fourth fusion at present... ..

"boom!"

"Booming..."

Card..."

With the excitement of the heart, the Emperor II issued a new order in the first time. In front of the sky, the earth-shattering loud noise came again, and the sound of the squeaky mechanical sound of the card was overwhelming.

The fifth fusion of this mechanical tribal army has also been fully developed...

Chapter 4858: Ultimate fusion

"boom!"

"Booming..."

Card..."

In front of the void, the earth-shattering loud noise came again, and the sound of the squeaky mechanical sound of the card was overwhelming. band

With the excitement of the heart, Emperor II issued a new order in the first time. The fifth fusion of this mechanical tribe army has also been fully launched...

After the fourth fusion that was just completed, the number of mechanical giants with a total number of more than 100,000 is already more than 10,000. More than 10,000, the number is really small, but it has been the same as before. Mechanical beasts are completely different.

Just in terms of size, the smallest of the more than 10,000 mechanical beasts today is probably comparable to a giant star. to

Yu Xiu's strength is even more soaring.

Today, even the weakest of them have reached the universe. and

The strongest, that is, the largest existence of the body, even has the atmosphere of the sacred and supreme, and the number is still quite a lot, there are more than a dozen heads, close to twenty.

In addition, the number of mechanical beasts at the age of the ancients is more and more, reaching hundreds of giant eyes...

Next, with the thunder of the sky screaming again, the 10,000-year-old mechanical beast after the fourth fusion was once again gathered together. less

Then three or five heads, more than a dozen heads, between a few short breaks, they will fit together...

The number of fusions has increased, and the time of each integration is obviously longer. This also represents the difficulty of convergence in one aspect.

The fifth fusion at the moment consumes a whole period of incense.

After a fragrant time, the number of mechanical beasts of more than 10,000 heads has dropped sharply, and now there are only over a thousand heads left. with

Like the previous four fusions, after the fifth fusion is completed, the remaining thousand mechanical beasts have once again skyrocketed. Now, even if it is 60 million miles of violent, with any of them Compared to one, I am afraid I have to lose a small circle, which shows the size and horror of her body. to

Yu Xiu is the strength, among the more than a thousand mechanical beasts, the weakest of them, they are already the masters of the universe, and the number of the ancient supreme is more than a dozen.

Although there is not much change in quantity compared with the previous fourth fusion, in fact, among the dozens of ancient warfare mechanical beasts, there are several fourth to sixth orders. Mid-stage disrespect.

The remaining ten heads are the new ridiculous mechanical beasts after the completion of this fifth fusion. Therefore, it is only the beginning of the absurdity between the first and third orders. to

In the wilderness, the number has dropped by a large margin, and now there are only a hundred more...

This is obviously not the end, because after the fifth fusion, there is still a sixth fusion, even if the Emperor did not say anything, Ye Xuan also guessed.

After all, it's still far from being the opponent of the Lord of the Devil, just because of the early desolation and the mid-stage desolation of the more than ten heads. Therefore, the next sixth fusion is completely inevitable...

"boom!"

Rumble..."

"Card..."

In the emptiness of the sky, the earth-shattering bangs came again, and the sound of the squeaky mechanical sounds of the card was overwhelming. The Emperor II once again issued a new order, the sixth fusion of the mechanical army, and thus Start immediately... far

At the end, Xu Xu's void in the edge of the forbidden land has been silent.

This time, with the Emperor Er with the entire army of the army approaching, the six major corps of the Temple of the Forbidden City in Xu Sheng also sent three army to help the momentum. One

The army of the battleships came from the captive army.

A war boat army, from the Legion of the People.

In the end, it is a fierce beast army, from the evil army... Three

The lineup of the army is huge, the number is more than 100 million, and now it is assembled into a battlefield, which is lined up on the edge of the Xusheng forbidden land. although

It's all murderous, but it's orderly, and the military discipline is strict. Before the command is issued, whether it's a warship or a warship, or those who are squatting in the universe's void, the hundreds of millions of beasts who are stunned, do not have any rash action. .

In front of these three great forces, there are only a few lonely figures.

The violent form, Ye Xuan, who is only a tall man, stands alone in the forefront, holding his chest and standing. in

Behind him there are only three figures, the Taikoo tortoise and the Taikoo porcupine, in addition to the black robe of the Legion. to

In other high-level halls, such as mosquitoes and old ghosts and Naples, Mo Huang Mo Tian, the devil's uncle, the tortoise clan ninth, the crazy mosquito emperor, and the Xuanyuan old man, Duanmu old man, Bodhi too small and so on The forces and the top of the family.

And the six bloody, green cattle, Zhao Dong, Qian Nan, Sun Xi and Li Bei, as well as the captive army's nine wilderness from the bloody, Qingpeng and war lions, all entered the retreat...

At this time, the four people were slashing and smearing, and all the faces on their faces showed an interesting look, firmly locked in the mechanical army that was launching the sixth fusion in the hundreds of millions of miles ahead...

The fifth fusion before, it took a whole time to scent.

The sixth fusion of this time is obviously more difficult and requires more time. It takes a whole meal and the sixth fusion is finally completed! This

After the completion of a fusion, the original more than a thousand mechanical beasts, there are only one hundred and eight heads left, the body is filled with the repair of the breath, the weakest is the first step of the ancient power.

Among them, reaching the age of the ancients, there are about thirty or so, basically all of them are the early days of the ancients. four

The mid-stage absurd of the sixth to the sixth order, there are six heads, the late stage of the seventh and eighth order, and the same six...

As for the body type, there is no need to say anything, and all of them are so large that they are so horrible. Even if they are the three big blood seas of 60 million miles, they can't match them. They have to be two big circles.

"The sixth fusion? Is this your limit?"

At this point, Ye Xuan finally made a sound, and his body shape only succumbed to the temperament of the violent temperament, revealing a sense of disdain.

Even the tone of the words reveals a sardonic disdain: "If this is the case, I am afraid it is still not enough to see. This is a mechanical beast that has been cultivated above the mighty power." It's a deity, it's enough to suppress..."

This is not sensational. Today, Ye Xuan's ruling is already the seventh stage of the ancient power of the ancients. In the ninth state of the konjac nine changes, the repaired atmosphere that has been dispersed in the body is already eight-stage absurd.

If you expand your body size, the giants of 60 million miles, you can get a first-order blessing because of the powerful blood of the body, that is, the 9th-order grand perfection. again

Coupled with the avatar power of the blood and sea secrets, the three blood seas are the three great ruins of the nine-order world. So, the more than one hundred mechanical beasts on the opposite side are indeed not quite enough to see...

Unless they can do it again... the ultimate fusion!

Chapter 4859: Three heads of greatness

One hundred and eight high-ranking beasts, all of which are cultivated as strengths, are above the ancient powers of the wild. Among them, there are only thirty or more of them.

Six mid-term, six seven- to eight-stage late...this

Waiting for the camp is absolutely powerful, even if it is a battle with the owner of the three halls of the blood, it can basically divide the autumn.

However, the Lord of the Temple also has the **** stick of the main star of the Tianhe Star and the Shennong Baoding. If all of them are sacrificed, the nine-color flames swept underneath, and as a result, as it said, this one hundred and eight The face of the mechanical beast is extremely weak, less than 40%! This

It is by no means the result that Emperor II wants to see.

This time, he took the whole mechanical family to the magic hall, and the high-profile high-profile attack came, and his heart was actually very helpless.

Previously, it was he who proposed to send an ambassador's fleet to the magic hall and invite the Lord of the Temple to discuss the plan to fight against the celestial family. original

I thought that the Lord of the Temple of God did not give face at all, and did not come, at least there would be no loss, the right to try. No

I thought that these guys were so fierce, and they disagreed. Even the entire ambassador was detained as a prisoner. As for the two ancient powers of the squad, they were directly killed.

The two ancient powers, a heavenly palace from the Terran camp, one from the Temple of Brilliance, although only two powers are fallen, not a big loss.

However, in the Tianmeng Palace and the Glorious Temple, the Emperor II was so badly damaged. If

If you don't make a statement, I am afraid that his right to speak in the Federation of the Terran and even in the entire Tiandao League will be affected.

For this reason, in order to save this point, it is also to give a tribute to the high-level palace and the high-level temple of the brilliant temple, the emperor will be pretending to be furious, with the whole army of the army to attack the magic hall...

That is to say, this time he conquered the magic hall, in fact, the original intention is to be a look, the face can be confessed to the past. but

Even if it is just a way of doing it, a real war is inevitable. Otherwise, if you come here, you will withdraw your troops. The effect is no different from the opposite, and your face will be more unstoppable.

Since there is a big battle, then, in the eyes of the emperor, it is not necessary to kill or reinvent the Lord of the Temple, because it is simply impossible, and it is impossible to do it only by his mechanical family. but

At the very least, they can't let the other side press and fight, so that their mechanical family will suffer losses.

Therefore, in terms of combat power, it must be comparable to the other side, and it is quite good.

At the moment, just the completion of the sixth fusion, although the combat power has been able to face the main battle of the Lord of the Temple, but the possibility of being crushed is still very high, more than 60%.

This is also what the Emperor II does not want to see. In the event of damage to several large mechanical beasts, the loss for the mechanical family is absolutely not light.

Therefore, after a short period of indulgence, Emperor II bit his teeth and made a decision in an instant...

"Lord of the Temple of the Devil, don't be proud, the sixth fusion is still not the limit of my mechanical family..."

In the middle of the Han dynasty, the Emperor II turned to the opposite side of Ye Xuan, which is hundreds of millions of miles away. The corner of the mouth gradually outlined a slap in the face: "Even if the seventh fusion is connected, it is not the limit... ..."

"Although the seventh integration has not yet fully integrated, but now it is barely unfolding, but it has been able to do it, that is, the time is somewhat unsatisfactory..."

"If you are afraid, this battle can be started now..."

This is clearly a radical approach, but Ye Xuan did not put it on the heart. After hearing the words, he grinned, and the voice of the gods also spread: "The seventh fusion? If you can expand, try to be as fast as possible. No need to come to these useless things..."

"Although this temple also wants to see where the limits of your mechanical family are, but the patience is also limited, and then go down, this temple, you really have to shoot ..."

The second thing is his words. He heard that his heart was suddenly loose, and he did not hesitate. He immediately issued a reintegration command to the 108 mechanical beasts behind him. "

boom! "

"Booming..."

"Card..."

With his instructions, the front of the sky, the earth-shattering bang loudly came again, and the more squeaky mechanical sound of the card-sounding sounds overwhelming.

The seventh fusion of the mechanical army, and therefore immediately launched...

After the completion of the previous sixth fusion, the number of mechanical beasts in the machinery army has dropped sharply to 108. Although it is too horrible, the 108 mechanical beasts are all deserted. The cultivation of the more than the power. its

There are more than 30 heads in the real wilderness, four seasons of the fourth to sixth stage, and the late seven to eight stages of absurdity, each with six heads.

Nowadays, with this seventh fusion, the powerful and powerful mechanical beasts of this hundred and eight are gathered together in an instant, and the integration of each other is unfolded. that

In the middle and late stages of the twelve heads, they were divided into three groups. Each time, there were only two late desolation and two middle-aged desolations. this

In addition, the other more than 20 early absurd, as well as a large number of powerful mechanical beasts, were also divided into three groups, respectively rushing to the three fusion areas.

Look at this driving force, this time the integration is clearly different from the previous one. first

In the past six consecutive fusions, the number of mechanical beasts has only been reduced by 90% each time. After the completion of the comprehensive integration, the number of beasts is about 10% of the base before the fusion.

According to this law, after the completion of the seventh fusion of the hundred and eight mechanical beasts, the number of remaining beasts should be more than a dozen. but

Today, there are only three places in this fusion area of mechanical warfare beasts, with a total of one hundred and eight heads, divided into three groups to quickly fit.

Looking at this situation, once the integration is completed, the number of mechanical beasts that will eventually be left is obviously far less than the expected number of dozens.

If there are no accidents, there should be only three heads... one

One hundred and eight mechanical beasts, all of which are repairs of the ancient and the tyrannical powers. After completing this fusion, there are only three left. With this alone, it is possible to roughly guess the three machines that will eventually appear. The beast will be a horrible cultivation of strength.

According to Ye Xuan's deduction, more than 80% of the three mechanical war beasts are repaired to the strength, and will reach the horror of the ancient and supreme ninth order.

That is half a step! This

Absolutely a big hand, even Ye Xuan couldn't help but be a bit swayed. After all, even if he changed his body shape to a giant of 60 million miles, he got the first-order blessing of the strength of the blood in the huge body. The performance of the blood and sea secrets of the avatars, the three **** seas that can be condensed, is only the decisive 9th-order great perfection.

That is to say, once his guess is true, the three-level final beast formed by the integration of the entire mechanical army and seven times will have the terrorist power comparable to that of Ye Xuan...

Chapter 4860: The beast is shocking

"boom!"

"Booming..."

"Card..."

With the instructions of the Emperor II, the front of the sky, the earth-shattering loud noise came again!
more

There is a squeaky mechanical sound of the card, and the sound of the machine is overwhelming. This is the so-called seventh fusion of the mechanical army.

This time, the integration took longer and it took two hours to complete. or

As the Emperor II said, although the seventh fusion can barely unfold, but in terms of speed, it is still somewhat unsatisfactory.

If Ye Xuan wants to shoot, I am afraid that before the integration is completed, this one hundred and eight mechanical beasts have already been ruined by him. From

From this point of view, the integration of the mechanical army is obviously still flawed. If it is completed before the battlefield is completed, it will be almost the same, and it will have no effect. no

If it is on the scene of the starry sky, it will be a very dangerous thing. If there is no strong power to protect the law and ensure the smooth integration, once it is interrupted, the result is simply embarrassing.

This time, Ye Xuan did not mean this. He originally wanted to see what the limits of the mechanical family were and to what extent.

Now, two hours have passed, and this hundred and eight heads have been repaired into mechanical beasts whose strengths are all above the ancient powers. They will finally be completed in the seventh time.

In addition to the Emperor II, there are only three mechanical beasts left in the universe of hundreds of millions of miles ahead.

The cultivation of strength in the body is all perfect in the 9th order of the ancient and ancient, which is absolutely a big deal, even Ye Xuan is not a bit swaying, because

For example, even if Ye Xuan changes his body shape to a giant of 60 million miles, he will gain the first-order blessing of the savage and suffocating force in the huge body, and then display the blood power of the secret method of blood and sea. The three **** seas are just the fighting power of the 9th-order great consummation...

That is to say, the three-level beasts formed by the integration of the entire mechanical army through seven times of integration have now had the horrific power to fight against Ye Xuan and have a similar battle!

This result made the black robe, the Taikoo Porcupine and the Taikoo tortoise behind him stunned. As for the innumerable strongmen of the three magical temples on the edge of the forbidden land, Xu has already opened his mouth and almost blinded his eyes. Come out...

In the distance, from the scouts of a large and small force and ethnic group, all the strong men also sighed, and under the face of madness, they were exclaimed...

"What? Is the mechanical warrior army of the mechanical family really able to carry out the seventh fusion?"

Although the time was a little longer, it took two hours, but this time the integration was successfully completed..."

"And, the process of the seventh fusion obviously exceeded the previous six fusions, breaking the previous rules. After the integration was completed, the remaining mechanical beasts actually had only three heads..."

"Although the number has dropped sharply, the strength of the three-headed mechanical beasts has been horrible, and they have all reached the great success of the 9th-order Absurd, which is simply shocking."

A family of only a hundred million mechanical giants, after completing seven successive fusions, can evolve into the peak of three ninth-order grand perfection. This fusion ability is simply horrible. The mechanical family is too far off the sky. "

"Today's Lord of the Devil's Temple is only a ruthless eighth-order repair. Even if he counts the giant body of his Panda's 60 million miles, he will get the first-order blessing of the savage and force. The blood power of the secrets of the sea and the sea, the three **** seas that can be condensed, are only the decisive 9th-order great perfection..."

"As a result, the beasts of the three mechanical families are basically equal, and no one can help who..."

"If you say this, isn't the strength of Tiandao League now able to crush the magic hall at will?"

"Only the mechanical family under the Emperor's second scorpion can drag the three **** seas of the Lord of the Devil's Temple. In addition to him, there are still nine ridiculous combat powers, but they are all just beginning. It's a step in the past."

However, there are at least 16 powerful desolations in the Tiandao League, but there are at least 16 strong and degraded ones. There are many middle and late realms. If the whole staff is dispatched, even if the rumor is the same as the Lord of the Magic, the Tianhe Star Lord Ye Xuan's return, I am afraid I can't turn around..."

The current situation is indeed the case. The Tiandao League formed by the merger of the three powerful alliances of Star Alliance, Alliance of Ten Nations, and Terran Federation is indeed the most powerful existence in the emptiness of this piece of land. "

"Whether the Demon Temple and the Tianji Nationality claim to be in a three-legged position with Tiandao League, they must fight for the whole world. Whether it is the Magic Hall or the Tianji, I am afraid that it is not an opponent of Tiandao League."

This point was only speculation, but now, with the army of the Emperor's second armor showing the fangs, this speculation can basically be confirmed as a fact..."

"Oh, the Lord of the Temple is still too conceited. I missed the opportunity to join forces with Heaven and Earth Alliance. I even captured the corps of the corps of the squadron, and the two powerful ships led the way." The hatred can no longer be resolved, and the face can't be changed. It's absolutely impossible for Tiandao League to take it easy..."

"Even if this attack came only by Emperor II and his majestic machinery, there is no other force to join, but this is at least a statement. The combination of the Devil and the Heavenly Alliance is absolutely impossible. It!"

"Roar!"

Roar! "

"Hey..."

With the excitement of these scouts from a large group of people and forces in the distance, Xu Sheng was on the edge of the forbidden land, and the universe was over 700 million miles away. At this time, three terrible sounds were heard. Roar and arrogant voice...

After completing the seventh fusion, these three heads have the great perfection of the ruins of the ancient sacred, and the mechanical beasts that have been repaired for the half-step celestial ceremonies. The body is suddenly stunned to the horrible horror, and the breath is even more Separated by the void distance of hundreds of millions of miles, Ye Xuan instantly locked this...

It is clear that it will be thrown out at any time, and the rhythm of the war will start! "

I'm so timid, you're quite a bit bold, and it's really the old-fashioned mechanical family that successfully completed the seventh fusion..."

At this time, the seventh fusion was fully completed, and all the mechanical tribes of more than 100 million people were condensed into three heads and repaired to the strength of the eternal horror beast of the ruins of the ancients. The emperor II had been hanging in the eyes of the blind man. It finally fell completely. turn

The first look at Ye Xuan, his slap in the cold, immediately screamed: "Now, my family's ultimate beast appears, violent, you ... dare a battle?"
