Chapter 4861: Electronic avatar return

"Roar!"

"Roar!""

Hey..."

At the edge of the forbidden land, the universe was over 700 million miles away. At this time, three screams of screams and screams suddenly sounded...

At the same time, the Emperor II also turned to Ye Xuan to look forward to, the middle of the Han Mang flashed, and immediately provoked provocation: "Now, my family's ultimate beast appears, violent, you ... dare a battle?"

"Roar.....""

Oh la la! "

His voice just fell, and the violent temper had already stunned his hair, and then there was a slap in the water.

His entire figure instantly collapsed and turned into a **** sea, spreading over the corner of the universe...

"Roar!""

Roar! ""

Oh..."

Almost in the next moment, from the three different directions of this vast sea of blood, the sound of screaming and screaming came.

In the boundless blood of the sea, there are three huge figures in the blink of an eye, which are instantly set in the ground, which is the three great devils of the Taikoo konjac...

The flesh and blood, that is, the starry sky! skeleton

The bones of the bones, without any flesh and blood, are just a purple-golden cheekbones, revealing endless fierce breath, very incomparable! black

The body of the fog is a black fog, even a pair of scorpions, just two awnings, it looks very strange!

The speed is too fast, and compared with the seven times before and after the mechanical army, the time is nearly half a day. before

Only after a short break, the three **** seas have been condensed, and the body's refinement is breathtaking, and all of them are all eight steps of the ancient and supreme. but

In fact, the real combat power of these three **** seas, because of the huge and **** blessings of the huge body of 60 million miles, all reached the level of the nine-stage absurdity... and

Compared with the three mechanical beasts in the emptiness of the sky, the points are not weak.

"Roar!"

The body shape just started from the **** sea, and the violent screams once again screamed and turned to look at the cosmic void outside the seven or eight hundred million miles away.

From the perspective of body shape, Ye Xuan's three **** seas are only about 60 million miles.

The three-headed mechanical beasts, which are opposite to the seven hundred and eighty-thousand-miles, are all worth 200 million miles.

In contrast, although the three **** seas are not small, they are not only small, but not conspicuous.

But if you talk about the fierce atmosphere that is diffused in the body, the three bloods and seas are more concentrated...

The three giant mechanical beasts in the emptiness of the sky are all standing on the side. There is only one pair of lower limbs at one end, and the arms are also a pair, but there are a pair of giant wings that resemble metal knives. The head is mechanically beast, and the power is called the scorpion-winged beast. At first glance, it must be known as speed and agility. First

The two mechanical beasts have four thick lower limbs and four pairs of upper limbs. A total of eight, it looks like a fusion of a giant octopus and a starry giant elephant. It must be known as strength, and it is called The claws are like beasts.

As for the third behemoth, although it is also a person, but it has three thick lower limbs, it is very stable, the upper body has countless tentacles in the telescopic throughput, like countless stars and giants, looks very incomparable, presumably Have a special ability, you can call it a starburst beast...

"call out!"

"Hey..."

At this time, with the three big blood seas condensed, the violent cockroaches first smashed out and rushed to the left side of the void, and instantly it has reached tens of billions of miles, and turned to the top of the three beasts. The beasts of the beasts waved their hands, and the shackles revealed a smattering of sorrow. This

It is clearly the rhythm of the wars that are invited to come over and fight in this area.

Realizing this, some of the scouts from the major ethnic groups and forces who had been crouching near this area were suddenly changing. Wan

If the dog is lost, the first time it is ordered, so that the scout's scout ship will quickly flee, at least two or three billion miles away to see it is a safe zone. versus

At the same time, the shin bones and the black mist are separated, and they are also turned to the right side and the right side of the right area. The shape of a blink of an eye appears in tens of billions of places, each with a void. and

Turning all together, waving to the claws of the three major mechanical beasts and the beasts of the stars and beasts, invited them to fight. It

So rushing out of such a long distance, Ye Xuan is obviously worried that the next shocking battle will have an unnecessary impact on the Xusheng ban where the magic hall is located.

For this, Emperor II obviously has no opinion. This

Once he was high-profile with the entire mechanical family to seek the devil's temple, but the real purpose is just to find a place, and did not really let the Xusheng stagnation of the Magic Palace in the forbidden. only

With his majestic machinery army, he could not do that at all.

Nowadays, the three bloods of the Lord of the Devil have been condensed and rushed to three different directions. For Emperor II, this is exactly what he would like to see.

The next step is to let the three mechanical beasts that are not weaker than the three **** seas, and to fight with them, the scene can pass, and the battle may end, and the troops will be withdrawn...

These thoughts flashed through the brain, and the emperor's face was slow. In the first time, the three-headed mechanical beast was electronically conscious, and the instructions for the immediate start of the war were issued.

"Roar!""

Roar! ”

"Hey..."

With the instructions of Emperor II, the three-headed body reached a huge mechanical warfare of 200 million miles, and immediately screamed with a roar, and then the body shape shook, and the blink of an eye had already rushed to the three blood seas... ..

Without a half-long delay, the terrible battle broke out. "

boom! ""

Rumble..."

"Card..."

The roar of the earth's movement came, the three battles of the land were instantly violent, the void was broken in the inch, the breath was too strong, even if it was separated by tens of billions of miles, the movement was shocking.

After all, this is the half-step of the ancient and supreme ninth-order grand sacred, and the weather is amazing. It was originally meant to be..."

Roar! ”

On the left side of the void, tens of billions of miles away, the violent screams, a fist hit the front, but did not blast on the opposite winged beast, but still hundreds of millions of distance from its shape. The empty sky in the distance, it burst open instantly...

With the violent energy of this full blow, the corner of the battlefield is within a billion miles, the air machine is instantly disordered, even the void is broken in the inch, the emperor and the winged beast have been. The electronic awareness exchange that has been maintained has naturally been affected.

This effect is like a steady electromagnetic wave suddenly suffered some kind of interference, and it is caught in a short period of chaos and severance.

At this moment, Ye Xuan has already been looking forward to it. a few

It was just in this fist, the violent energy exploded, the same moment that the energy of this corner of the void was chaotic, the violent glimpse of the faint glimmer, suddenly a whisper of a nightmare :
"Electronic avatar... wake up and return!"

Chapter 4862: what happened

At the beginning of the first universe, the source of the evil, Ye Xuan had killed several descendants of the Tianji genius, including the former minority patriarch of the family. that

Several of them are real celestial people. The flesh is built by itself, and it represents its existence. It is just an electronic consciousness in the flesh.

The electronic consciousness of the Tianzu people is like the spirit of flesh and blood. Of course, the electronic consciousness of the mechanical family is the same. In essence, it is no different from the Tianji.

It is through these few electronic consciousness that Ye Xuan can later be mixed into the Tianji nationality and become the minority patriarch of the Tianji nationality. Rear

Come, he combined the few electronic consciousnesses and refined them in a special way. Finally, he possessed an electronic consciousness that belongs to Ye Xuan himself, which is his electronic avatar. that

With an electronic avatar, Ye Xuan was sent out when he was in the star of the evil. when

At that time, the source of the evils changed greatly. The major forces and ethnic groups of the three major star planes all sent out the battleship army, and went to the depths of the source of evil to share the interests. on

The mechanical family of Liandi II also has a powerful team of mechanical beasts, tearing the void, and eating the chains of the furnace to eat more than half...

It was at that time that Ye Xuan quietly released the electronic avatar, quietly entered the body of one of the mechanical beasts, and erased the electronic consciousness of the mechanical beast without a trace, and replaced it...

Everything that I did was unconscious. Since then, Ye Xuan's electronic avatar has been mixed into the mechanical family and become a member of the mechanical family of the Emperor.

I have to say that the Emperor's Second Committee is too conceited and has never doubted the people who have left behind. This

One point, the original Emperor of the Heavenly Kingdom, seems to be the same, perhaps the uniqueness of mechanical life gives them this confidence. when

At that time, Emperor Yi did not suspect that Ye Xuan, who was mixed into the Tianji nationality in the form of electronic life, was also sealed as a minority patriarch of the Tianji nationality because of his amazing performance. This incident later became a shame of the Tianji nationality and became a laughing stock.

In this respect, Emperor II obviously has the same conceit and is the same as Emperor I. And because all the tribes of his entire mechanical family are restricted by Emperor II in a mysterious independent small space, there is no contact with the outside world. Therefore, Emperor II's self-confidence is understandable.

After all, although there are not many people of the mechanical family, but they also exceed 100 million, he naturally has no possibility of eating enough. If nothing happens, he will conduct detailed investigations on more than one hundred million mechanical ethnic groups.

It is for this reason that Ye Xuan's electronic body, which exists in the form of an electronic life, has been squatting down in the mechanical family under Emperor II and has never been discovered. It

Before, when Emperor II took the entire mechanical family to the emptiness of this piece of ruined land, Ye Xuan realized that his return to the electronic avatar that had been crouching in the mechanical family was about to come.

However, because he did not understand the bottom of the machine family, he did not act rashly.

However, the fusion ability of the mechanical family made him suddenly have a bold idea, that is, while the electronic avatar returned, he also abducted as many mechanical ethnic groups as possible...

During the half-day period, he never shot, quietly and incomparably watching the Emperor II order again and again, let the whole machine family expand once and for all, on the one hand, want to see what the limit of this machine family army is.

On the other hand, it is to let the electronic avatars abduct as many mechanical tribes as possible...

After all, there is only one electronic avatar. If this fusion does not unfold, more than 100 million mechanical ethnic groups are relatively independent of each other.

If the electronic avatar returns in this state, Emperor II has almost no loss.

But then with the convergence of the times, this situation immediately changed and became more and more serious.

It can be said that every time the fusion is completed, the deeper the emperor has fallen. Such as

Today, more than 100 million people of the entire mechanical family have become a mechanical beast that has been repaired as a horror. In Ye Xuan's view, this should be the limit of the mechanical army. Therefore, he decided not to wait and immediately launched an action. Let the electronic avatars that have been crouching in the mechanical family return! this

At this moment, as he punched the void, the energy within a billion miles was violently disordered to the extreme. The three mechanical beasts that had been connected with the emperor's electronic consciousness were temporarily cut off. The connection with the emperor. This

The time may be very short, because Emperor II will not let this situation last forever. As the patriarch of the mechanical family, he must have a way to quickly reconnect the broken electronic consciousness. can

Unfortunately, everything is late.

Even for just a few moments, for Ye Xuan, it is enough. This

For a moment, with the sound of a whisper in his mouth, the power of Ye Xuan's fascination was fully extended and entered the body of the winged beast.

Even the spiritual core of the brain is the same, and the spiritual power is pushed to the extreme...

The simultaneous spurt of the gods and the spiritual power merges with the electronic life consciousness that represents his electronic avatar. The final result is that he only uses his interest, and the electronic life consciousness completely suppresses the composition. All other electronic consciousness of the Winged Beast, there is no instant refining...

To put it simply, the body of this winged beast is originally made up of one-third of the mechanical tribes, and its electronic consciousness is more than 40 million.

But at this moment, Ye Xuan's electronic avatar instantly suppresses all other electronic consciousness, and in the midst of being caught off guard, thoroughly refining and melting into one! One

After the completion of the cut, there is only one electronic consciousness in the body of this winged beast. That is Ye Xuan's electronic avatar. The other more than 40 million electronic sensations have been swallowed up and fully refined. Self..."

Oh..." This

At the moment, the wings of the wings split up and screamed out of the sky, and the breath that was diffused in the body was completely different from the previous ones. Like Ye Xuan's three **** seas, it revealed a brutal and fierce Hey. This

Originally, it should be the meaning, because the electronic avatar is also Ye Xuan, and it is divided into three big blood seas. In essence, it is simply the same source, is one! With

This whistling sound came out, and the Emperor II, who was in the air outside the area, also extended his electronic consciousness at this moment. but

The result is obviously self-evident, he has no connection with the scorpion-winged beast, and it is a powerful and unfamiliar electronic consciousness, and it is very violent and violent, and it is the third of the Lord of the Devil. With blood and sea, there are no two...

It was all too weird, and the face of Emperor II stayed, and the whole brain was paralyzed.

After a brief shock, he suddenly thought of something, and under the madness of the face, he took a sigh of relief and immediately exclaimed: "This is impossible! What happened..."

Chapter 4863: Emperor's Heavenly Dream

With Ye Xuan Thunder shot, the scorpion-winged beast will be conquered, and the electronic avatar will return. The Emperor II is therefore completely unable to connect with the scorpion-winged beast.

His electronic consciousness has come to the fore, but what he has sensed is a powerful and unfamiliar electronic consciousness, and the violent and violent temperament of the people is incomparably violent, and it is the same as the three bloods of the Lord of the Devil.

It was all too strange. After his face was gone, the whole brain was paralyzed. tight

Then, after a brief shock, Emperor II seemed to think of something suddenly. Under the madness of the face, he took a sigh of relief and immediately exclaimed: "This is impossible, what happened?"

"Irritable, what the **** are you doing? You are a flesh-and-blood life, no electronic consciousness, how can you refine the old mechanical war beast? And the speed is so fast?"

At the same time as the road screamed, the emperor II seemed to be unwilling, and the electronic consciousness was once again extended in an instant, and it was pushed to the extreme. Knot

It is obvious that there is no difference. he

Inductively, it is only a powerful and unfamiliar electronic consciousness. It gives people a fierce and violent temper, and it is the same as the three bloods of the Lord of the Devil.

Undoubtedly, this winged beast has already fallen, and the Lord of the Devils has completely reconciled refining in a short period of time in a way that he can't understand! From

At this moment, the winged beast is no longer his, although it is still a mechanical life in the form of electronic ideology, but it has nothing to do with the mechanical family, and his emperor!

"Hey..." brain

In the middle of these thoughts, the whole body shape of the emperor's two trembles, and his hair is screaming and screaming, revealing endless sorrow...

Between such a short break, his loss was so horrible that he could not bear it.

If it is the real flesh and blood, at this moment, I am afraid that I have already been angry with the old blood on the spot...

On the surface, he lost only a winged beast, but in fact, this winged beast was made up of more than 40 million mechanical tribes. four

Tens of thousands of people, accounting for one-third of the entire mechanical family.

If it is placed in other flesh-and-blood life groups, it may not be a problem, but mechatronic life is hard to appear, far from being as simple as flesh and blood.

This point, from the entire Tianzu family with electronic consciousness of the formal ethnic group, only more than 10 million, you can see one or two. although

However, since the tens of thousands of years have passed, the Emperor II has taken a completely different path from the Tianji nationality. Instead of developing forces such as warships and legions, he has put all his energy into the induction and birth of electronic consciousness, forming a mechanical electronic life. , continue to grow the number of formal ethnic groups. can

Even so, since tens of thousands of years of age, he has done his best, only to make the mechanical family born more than 100 million electronic consciousness with mechanical life.

Now that one eye is lost in one blink, and the loss is inexplicable, until now he did not know how the Lord of the Temple did it...

This is simply sorrowful and murderous! this

At that time, with the utterance of the imperial enthusiasm and the screams of arrogance and arrogance, the squatting in the distance, from the scouts of the major ethnic groups and forces, countless strong people first glimpse. tight

Then everyone looked pale and mad, and after the cool air, the body was mad, and the road was screaming, and it was like a tidal wave in an instant, and it sounded overwhelmingly...

"What happened? How can the mechanical tribe chief emperor II suddenly grow up and scream? This is clearly a major blow, and a few madness..."

hiss! impossible? Listening to his words, it seems to be the one-winged beast... What happened? ""

Is it an accident? The scorpion-winged beast was clearly surrendered by the Lord of the Demon Temple. It has been separated from the control of the Emperor II and broke into the hands of the Lord of the Devil..."

"How is this possible? As the Emperor II said, the scorpion-wing beast is a mechatronic life, and it is formed by the fusion of at least tens of millions of mechanical people..."

Even if he does not mention the repair of his ruthless supreme ninth order, it is assumed that he is weaker than the Lord of the Devil, but the latter is a flesh-and-blood life, but the scorpion-winged beast is a mechatronic life, and the forms of life are different. Can you win? "

"But in fact, Emperor II is the patriarch of the mechanical family, and the scorpion-winged beast is so important. If this is not certain, and there is no hope of recovery and remediation, he will be so rude, almost violent. Go crazy?"

Against the sky! The Lord of the Temple of Devils is really against the sky, and even the mechanical and electronic life can be won, and it will be accepted in an instant. This is simply no reason..."

"Roar!""

Oh..."

The old man is unwilling..."

In the scouts of all the great ethnic groups and forces, the exclamations of countless powerful people came from here. The Emperor II here once again screamed and screamed, and the atmosphere was fierce and frantic. The hair roots are erected, and if they are crazy, they are already on the verge of madness... This

For a moment, his heart is still bleeding, and the remorse of his heart is so strong that he cannot describe it with words.

If the Lord of the Temple of the Presbyterian had this ability, killing him would not easily carry the entire army of the machine to conquer the temple. Correct

For him, this time he lost only a third of the mechanical tribes, but in fact, for the emperor, such losses have a more serious meaning, involving him and the entire machinery. The height that the family can reach in the future, and the impact is significant and unbearable!

In addition to his tens of thousands of years of experience, in addition to his efforts to develop and train the official mechanical tribes with mechatronic life, another thing he has done to exhaust his energy is to fully study the fusion between the mechanical beasts and the army.

After spending tens of thousands of years, in the mysterious independent world, more than 100 million mechanical tribes have undergone countless exercises. Nowadays, this fusion can only be completed seven times. very

As for the seventh fusion, it has not yet reached the level of familiarity, and the extent to which the hand is handed over. The previous seventh fusion took two hours to prove. but

In fact, even the seventh fusion is not perfect, but Emperor II, already long before a long time ago, is already studying the eighth fusion.

According to his deduction, once the eighth fusion is completed, the three powerful beasts of the three ruins of the ruthless supreme world will be fully integrated into one.

By then, not only will the body be bigger, but the mechanical warfare that eventually merges will be repaired to be more powerful and likely to reach the real heaven...

And this chance is not small, more than 50%! complete

In fact, the ultimate beast of the eighth fusion was completed by the three-and-a-half-step mechanical warfare of the heavens. If the fusion is successful, the true heavenly environment is definitely not too difficult. Of course

And all of this is now completely lost. On this alone, Emperor II hates anger...

Chapter 4864: War beast disintegration

"Roar!"

Oh..."

The old man is unwilling..."

In the air, the Emperor II once again looked up and screamed, and the breath was fierce and frenzied. Even the hair was rooted up, and if it was crazy, it was already on the verge of madness!

His heart is bleeding, and the whole mind has been shrouded in a touch of extreme unwillingness. although

It is not the flesh and blood, but at this moment even the eyes are red and bloody, turning to the head of Ye Xuan, the scorpion reveals the blood of the monks, just like the essence.

Gently cut the teeth: "The Lord of the Temple, although the old man does not know how you did it, but it does not matter, today's battle, you have touched the old man's bottom line, you have to pay the price..."

"Hey..."

After the second whistling sound, the hair behind the emperor's brain danced wildly, and the instructions were issued at the first time. "

Roar! "

"Hey..."

In the next moment, the virtual air on the right side responded with two loud screams and screams. The two mechanical beasts that were fighting with the sacral bones and the black fog were commanded to abandon the battle. , rushed to the emperor.

One of the mechanical beasts has four thick lower limbs and four pairs of upper limbs. A total of eight, it looks like a fusion of a giant octopus and a starry giant elephant. It must be known as strength. It is a claw-like beast.

Another giant beast is also standing up, but it has three thick lower limbs, which are very stable. The upper body has countless tentacles in the telescopic, like a lot of starry sky, looks very incomparable, presumably has a special The ability to be the star of the three ultimate beasts...

At that time, the reason why Emperor II summoned the claw-like beast and the star-studded beast, on the one hand, the heart is angry, and is not willing to lose a winged beast, and will make corresponding major measures. another

On the one hand, it is worried that these two beasts are also like the former scorpion-winged beasts, and they are unknowingly divided into scorpions and black fog.

If that's the case, Emperor II will probably spurt blood on the spot and die. for

Just in case, or withdraw them first, even if the next eighth fusion fails, at least there will be no more serious losses...

"Lord of the Temple of the Devil, give you the last chance, and immediately return the old man's winged beast, otherwise today... no end!"

Oh..."

At this moment, with the safe return of the claw-like beast and the star-studded beast, the emperor's original heart was suspended in the eyes of the blind man, and finally fell.

The **** stalks in the middle of the scorpion are getting colder and colder, locking the shape of Ye Xuan, which is hundreds of millions of miles away, gnashing his teeth and warning: "Don't think that the seventh fusion is the limit..."

"Yes, the previous seventh fusion can barely unfold, but in terms of speed, it is still somewhat unsatisfactory, but it does not mean that the old man can not start the eighth fusion..."

As early as the first successful completion of the seventh fusion, the old man has already launched the eighth fusion of the promotion, and now it is almost over. If it is forced to force it under the teeth, at least 50% may be successfully realized... .."

Although you have lost a winged beast, you should not forget that the old man is still here. If I am in a hurry, I will not be able to take care of the old man, replace the winged beast with the deity, and promote the smooth integration of the eighth. Expand..."

With your eyesight, you can guess what the result of the eighth integration is complete..."

Speaking of this, the Emperor Erzhaoflashed a secluded man, and the light was locked in Ye Xuan. Dun Dun persuaded: "Impatient, don't force me, the consequences, you can't afford it, although forced integration, the old man and this The two ultimate beasts will also be affected to some extent, just like a counterattack, but since you have paid such a huge price, your end... can be imagined!"

Violent, don't make mistakes, immediately return the winged beast, the old man turned around and left, today's battle ended, otherwise, once the eighth integration is completed, what will happen next is far beyond what you can expect."

Roar....."

After the last sentence is finished, Emperor II raises his hair with a roar, and the strength of the body is promoted to the extreme. An invisible pressure is dispersed, and the breath is strong. Just like a violent violent, this is definitely an opportunity to move. Well, the rhythm of the fusion preparation.

"The eighth fusion? It sounds like it's so interesting..."

Opposite the universe, hundreds of millions of miles away from the universe, the violent chills flashed, and the corners of the mouth slowly outlined a touch of laughter..."

Oh la la..."

As his voice rang, the two areas on the right side of the tens of billions of miles, the screaming noise suddenly sounded overwhelmingly, and the shin bones and the black fog from the two violent violent battles were separated. The entire body suddenly collapsed and turned into a **** sea. "

call out!"

"Hey..." half

The interest is not enough, the vast sea of these two awns has quickly condensed, and finally turned into two smudges like a locust, and spurred toward Ye Xuan, and there was no violent eyebrow between the eyes. Within this, it disappeared.

Almost in the next moment, the huge violent size of 60 million miles, the huge body shape also rapidly shrinks, becoming the master of the high, the first step due to the enormous force in the body of the body of the blood The power of blessing will disappear. this

At the time, the repairs that he had dispersed in his body were still the eighth order of the ancients, and under the current state, the real combat power of the violent, also fell back to the eighth order of the ancient sacred, even the ninth-order big perfect half-step heaven The situation is not here. This

In one scene, the emperor II, which is hundreds of millions of miles away, was a bit worried. The war is still not over, and it is likely to continue to upgrade. However, the Lord of the Temple suddenly made such a move, which made him somewhat inexplicable. I don't know what he meant...

In fact, Ye Xuan's move is not over yet. this

At this moment, in addition to his three forces, the Warlords, the Battleship and the Beasts, and the Taikoo Porcupine, the Taikoo tortoise and the black robe, there is also an electronic winged beast. The size is huge, more than 200 million miles!

"Booming..."

Card..."

At this moment, as his body size shrinks to a high level, the violent chilling flashes, but also suddenly waved. on

At the same time as his arm fell, there was a thunderous thunder in the back, accompanied by the overwhelming sound of mechanical jamming. turn

Looking forward to the first time, the head of the violent scorpion is very incomparable, with a body size of more than 200 million liters. The body has been cultivated as a breath, and it has also reached the horrible ancient sacred ninth-order grand perfection. its

The entire huge body was quickly disintegrated at a speed visible to the naked eye. This

Everything happened too fast, no one reacted, and before and after it was just around the corner, the huge scorpion-winged beast of 200 million miles was turned into a mechanical beast with a body shape of only about 50 million miles. Behind you, line up...

Chapter 4865: Eighth fusion

"Booming..."

Kay..."

The emptiness in front of the edge of the forbidden land, with the violent abruptly waved, is extremely incomparable, with a body size of more than 200 million miles, the body's repaired breath, and also

reached the horror of the ancient sacred nine-step great perfection of the beast, immediately It started a quick decomposition at a speed visible to the naked eye...

It all happened so fast that no one reacted.

Before and after, it was about a long time, and the huge scorpion-winged beast of 200 million miles was turned into a mechanical beast of only about 50 million miles in the shape of the four-headed body.

The four-headed mechanical beasts are all standing by themselves. From the appearance, they are exactly the same as the previous scorpion-beasted beasts.

Ye Xuan is quite satisfied with the appearance of such a person, and the shape of the wing is like a sickle. Therefore, the electronic body is disintegrated under his inspiration, and the mechanical beasts that finally appear are all like this!

Seeing this scene, the Emperor II in the void in the sky hundreds of millions of miles away was a glimpse, and then the face changed greatly, and the whole heart completely sank to the valley... first

In the past, although the winged beast lost his control, he broke into the control of the Lord of the Temple, and the Emperor II did not even know how the other party did it.

But in his subconscious mind, he always thought that the Lord of the Temple of Devil must have used some kind of unknowable secret law to temporarily control the scorpion-winged beast.

As long as he returns the scorpion-winged beast, or finds a way to force it over, the scorpion-winged beast will eventually return to his own control.

But now, when I saw the disintegration of the scorpion-winged beast in a short break, it was broken down into a four-headed body of 50 million mile, and after repairing the strength and falling to the small-scale squadron of the sacred eighth, he finally Realized that it is not good. where

I am afraid that it is under his control. This huge 200-million-dollar warrior beast can't be broken down into perfection between the short breaths. The appearance is exactly the same, and there is no difference at all. Four small scorpion warriors...

This shows what?

Explain that the winged beast is not simply forced to be temporarily controlled by the other party, but has already been completely collapsed. As a result, even if he snatches the winged beast, I am afraid it will be difficult to control it again...

"boom!"

"Booming down..."

Just as the thoughts of Emperor II's minds showed these thoughts, in front of the void, there was an earth-shattering roar again...

The giant beak-winged beast that has just been decomposed by the four heads and has a body size of 50 million miles has once again begun to decompose. and

And more than once, but in succession...

The four-headed wing has become sixteen in the blink of an eye. At the same time, the body's temperament is also plummeting, but the appearance is still the same, and the person is standing, the wings are like a sickle... ..tight

Then it is the third decomposition...

In the void, the rumble of thunder and the squeaky mechanical sound of the cymbal did not stop for a moment. In total, the time of seven or eight interest was continued, and the previous first decomposition was counted. In this short period of seven or eight interest, the total was completed. Seven decompositions... seven

After the completion of the sub-decomposition, a huge mechanical army appeared behind the violent, the appearance is no exception, all of them are standing, the wings are like a sickle, and the head is exactly the same, all are high!

And the number of such warriors and beasts is more than 40 million...this

It is the power of Ye Xuan Electronics.

Previously, under the support of Ye Xuan's all-powerful and spiritual power, the electronic avatar swallowed up more than 40 million electronic consciousness in the scorpion-winged beast, which became powerful.

Nowadays, as long as he is in the middle of his mind, his electronic avatar can be transformed into more than 40 million avenues. It can be said that at this time, the more than 40 million 10,000-footed scorpion-winged beasts, each of them, They are all the electronic avatars of Ye Xuan.

If he is willing, these more than 40 million headed beasts can be combined in an instant. ten

Head, hundred heads, thousand heads, ten heads, or more than 40 million heads together... all without problems!

It is simply what you want.

This ability has even surpassed the control of the Emperor II against the claws and beasts and the stars and beasts. This

It is also understandable that although Emperor II can control the claw-like beast and the star-studded beast, it is only controlled by electronic consciousness. but

Ye Xuan is different. The electronic avatar is actually his own. This is the same origin. He is a singer. The 40 million scorpion-winged beasts can instantly resemble his own limbs and carry out various movements. Decomposition, all freely, simple and direct, unless Emperor II integrates itself into the two beasts, it must not be so rounded...

A little emperor knows the truth, the layman looks at the excitement, the insider looks at the doorway, and the scene in front of him shows him everything in an instant.

After a short stay, his face turned pale and pale, and the whole person was a little worried, with a slightly open mouth and a sly look at the winged army in front of hundreds of millions of miles.

With a look of disbelief, there is a whisper of a nightmare in the mouth...

"How is it possible? In a short period of time, his control of the winged beast has reached such a level of soaring?"

"In just seven or eight minutes, I have completed seven decompositions, one time, and the 40 million scorpion-beasted beasts that appeared after the decomposition are all exactly the same. This is simply..."

Roar! ""

Damn guy, how did you do it..."

In the end, the whole body of Emperor II was shocked. Looking up at the head, a terrible roar, revealing the endless grief and indignation, can be described as extremely fierce.

At this moment, he suddenly realized an unacceptable fact that the more than 40 million mechanical tribes could no longer return.

Although they are still electronic life, they are completely different from the previous ones. They have no relationship with the emperor and the whole machine family. This

For a moment, a desperate desperation, from the emperor's heart, crossed his mind, so that his last sense of reason and clarity will be lost...

"The Lord of the Temple, no matter how you do it, you have to pay for it all..."

If you look up and scream in the middle of the head, if the emperor is insane, he will be mad and roaring: "Mechanical beast, the eighth fusion...start!"

"boom!"

Rumble..."

Card..."

With the instructions of the Emperor II, the front of the sky, the earth-shattering loud noise came again, and the sound of the squeaky mechanical sound of the card was overwhelming. The so-called eighth mechanical fusion finally began.

"Is it finally here?"

Ye Xuanyuan's mid-cold mang flashed, and he whispered a whisper and suddenly waved his hand. Immediately, there was a masculine rushing out. When the storm rose, it could be turned into a huge and incomparable Baoding.

Chapter 4866: Green eyes

"call out....."

Under the flash of the chilly man, Ye Xuan waved his hand sharply, and immediately there was a masculine rushing out. When the storm rose, it was turned into a huge Baoding, and it was empty... It's the Shennong Baoding!

"call out!"

"Hey..."

Almost in the next moment, behind the violent, suddenly there were countless sharp sounds of breaking the air, and the more than 40 million head-and-wing beasts that were originally suspended behind him. in

Under his enthusiasm, he turned into a singularity. In the blink of an eye, he rushed into the space of Ding through the fascinating treasure of the colorful fog.

"call out....."

"The three major regiments immediately evacuated and returned to the forbidden area..."

Then, Ye Xuan waved again, not far from the Shennong Baoding in the void, and instantly turned into a man, not into his eyebrows, disappeared. versus

At the same time, Ye Xuan's voice of the gods also sounded, and the voice just fell. The Xusheng of the forbidden land behind him has already heard the overwhelming roar. The three warships, the warship and the beast army, the first time to quickly withdraw.

They were originally on the verge of forbidden land. At this moment, the Lord of the Lord ordered that they immediately evacuate at full speed. In the blink of an eye, they have already retired into the Xusheng forbidden land and are no longer visible.

In just a short time, the edge of Xusheng's forbidden land is empty. Except for Ye Xuan, who has a tall body, only the Taikoo Porcupine, the Taikoo tortoise and the black robe are in existence.

These three old guys are also very fine. From Ye Xuan's series of unusual behaviors, they obviously realized what they had, and after switching to each other for a look, the three people did not say anything, but they were quiet. The land also chose to shrink the figure.

In the blink of an eye, the Taikoo Porcupine has shrunk to the height of the squad, and the Taikoo tortoise has only fallen on its back, and the black robe is originally a normal human body. It was originally not very eye-catching...

The scene fell from the eyes of the scouting powerhouses of all sizes and ethnic groups, and they immediately let them glimpse.

However, at the moment, the universe in the sky near Xuansheng's forbidden land is undergoing tremendous changes. All the people's minds have been attracted. Therefore, they are innocent in thinking about Ye Xuan's unusual behavior. Subconsciously thrown behind the head...

"Mechanical beast, the eighth fusion...start!"

In the void, if the emperor is insane, he will scream and scream, screaming and snarling..."

boom! ""

Rumble..."

Card..."

With his instructions, the earth-shattering bangs came again, and the sound of the squeaky mechanical sounds of the card was overwhelming. The so-called eighth mechanical fusion finally began. "

call out....."

"Roar!""

Oh..." with

This time, the fusion was unfolding, and the claw-like beasts and the star-studded beasts in front of the emperor's body immediately raised their own screams and screams.

Then the two super-beasts rushed to the face, and after they approached, they were steeply squatting, and their limbs and a large number of tentacles began to touch and entangle. versus

At the same time, the emperor, who looks like a human being, is also in the air, and if it is madly spurting out, it will break into the contact between the two giant beasts. And it's gone, it's gone...

Originally, according to his derivation, the eighth fusion of the entire mechanical family will be based on the scorpion-winged beast, the claw-like beast and the star-studded beast. If

If it is smooth, with the success of the three-and-a-half-step super-mechanical beasts, the ultimate battle beast, the ultimate battle beast, will enter the real heaven and earth in one fell swoop...

But now, on the one hand, because of the fall of the winged beast, the three fusion bodies used to unfold the eighth fusion are missing one.

On the other hand, it is because of this eighth fusion, although Emperor II has already derived 90%, but in the end there is still a factor of uncertainty, not completely tangible. Place

Therefore, in order to forcibly launch the eighth fusion under the wrath of today, his only way is to replace the missing winged beast with himself, and integrate it into the body of the claw-like beast and the star-studded beast to support this eighth fusion. Smooth development..."

Rumble..."

"Card..."

Engraved, as the body shape of Emperor II disappeared, it was already close together, and the fusion of the claw-like beasts and the stars and beasts that were intertwined with each other instantly increased the speed. first

The first time before the fusion, it took two hours, but this time, I don't know because Emperor II himself joined the fusion, or because the super beast used to expand the fusion is only two ends, the number is small. . total

The so-called eighth fusion, the speed is surprisingly fast, just the time of the small half-column, the claws like the beasts and the stars and beasts that were originally entangled in the body, the original body can not be seen. Together, it has become a horrible beast with a body size of more than 400 million miles...

At this moment, surrounded by the void, the scouts from all major ethnic groups and forces were all shocked, one by one, and their eyes were almost out.

The look on his face was even more sluggish, and his figure was trembled fiercely.

But this time, they all did not exclaim, because the fear of the heart is too strong, all the people have lost their voice... short

Short and half-column is not enough, and the claw-like beast and the star-studded beast disappeared, including the Emperor II.

Xu Sheng's forbidden land is one billion meters away from the universe, and a large body of more than 400 million miles of horror mechanical beasts is slowly stretching large limbs, but there are still machines in the body. The sound of running-in came.

Obviously, this so-called eighth fusion has basically been successful, and now only some internal fine-tuning continues, and with this fine-tuning of the body, the surrounding voids have begun to faintly tremble. body

In the huge horror beast of 400 million miles, the pressure of the spread of power is getting stronger and stronger, and even this piece of ruined land is empty, and it is almost impossible to support it...

For all of this, Ye Xuan, who is on the edge of Xusheng's forbidden land, is still unmoved. He has been watching everything in silence, as if he really wants to see the army of the Emperor. After the success of the eighth fusion, can you finally enter the real heaven and earth...

Nowadays, as the pressure of the horror of the horror beast is getting stronger and stronger, and getting closer and closer to the real heaven, Ye Xuan's glimmering, subconsciously, heads up to the sky above the head. Looked over!

In the next moment, just like responding to him, the sky at the height of the sky suddenly came a terrible horror..."

boom! "

"Oh..."

Immediately after the loud noise, the void cracked a crack, and the crack was in black, but there was a huge cyan vertical eye, which suddenly opened...

Chapter 4867: Heavenly suppression

That's right, the eighth fusion between the Emperor II and the claw-like beast, the star-studded beast, is about to be completed. After the three-person fit, this body is more than 400 million miles of horror beasts. The fine-tuning will end, and when it officially enters the real heaven, the accident will come...

The sky was high and the thunder was stunned. After the cracking sound, a black void crack appeared, and there was a huge cyan vertical eye in the crack, which suddenly opened! This

The blue eyes are the eyes of the wild, the blue eyes...

To be sure, it should only be a projection of the blind eye of the blue sky, its deity should be undergoing some important arrangement, so it can only come in the form of projection.

At this point, Ye Xuan was very determined. When he saw this heavenly green eye, he realized it... Because at the beginning of the forbidden land of the sinister mosquito, he once crouched and saw the green eyes of the wilderness. The deity comes. two

Although the breath between the two is the same, the pressure from the invisible is different. The giant blue eye that appears in the cracks in the high altitude is obviously weaker.

But even if it is weaker, people are also the projections of the blue sky and the green eyes. The real heaven and earth exist. At present, the emptiness of this piece of land in the wild is absolutely the supreme hegemon of sweeping everything. No one can compete, including Ye Xuan. Inside! thing

In fact, Ye Xuan had already anticipated the huge shock that suddenly occurred in front of him... Hong

The end of the world is about to come to an end, and the emptiness of this piece of land in the wild is vast and innocent. Even if it is not the most fragmented piece of land that has collapsed into countless pieces, I am afraid it will definitely be ranked. Such as

Therefore, as the time of the end of the flooding is getting closer and closer, as the Tiandao Qingyan, who was the incarnation of the original Tiandao, the degree of attention to the void of this piece of wild land is even lower, and it is not much lower. which is

There are still other arrangements for the green eyes, and there is no way to get out of it. You can't pay attention to everything in this void, but it must have its bottom line. One

Once this bottom line is exceeded, it will trigger certain conditions, causing the attention of the heavenly eye. At that time, even if the real body can't come, at least a projection will come out, and this will touch the uncertainty of his bottom line and solve it.

And this so-called bottom line is obviously the true heavenly power. Say

The simple point is that as the time of the end of the flooding is getting closer and closer, whether it is the emptiness of this piece of land, or the other three pieces of the main plane, and other pieces of the sky, according to the will of the heavenly eye, he will never allow it. The real heaven exists.

Even if it is only a half-step heavenly road of the ruthless and supreme ruling, he can close one eye and temporarily ignore it, but once the real heavenly environment is about to appear, he will come and stop. and also

It is precisely because it is expected that this situation will occur, so Ye Xuan will immediately decompose the scorpion-winged beast after seeing the eighth fusion of the Emperor II and the claw-like beast and the scorpion beast. Income Shennong Baoding. very

Even the three major demon warships, warships, and beasts of the Xusheng squad were repulsed by him, including himself, who had reduced their size and reduced their cultivation to the eighth order of the sacred... Head

It is to avoid attracting the attention of the heavenly eye as much as possible, so as not to be affected by the pool!

At the moment, with the loud noise from the sky, black cracks appear and the cyan vertical eyes open, which undoubtedly proves that Ye Xuan's guess is correct!

"Card..."

"boom!"

"Booming..."

Almost in the next moment, the sky suddenly came with a shrill sound card.

A blue man's head shot from the vertical eye in the black crack, the initial is not big, only the master, but with the sudden rise of the moment. speed

The degree is too fast, and the short-term interest rate is not enough. This initial blue-light lightning has only turned into a vast sea of lightning, and the eighth fusion is underway, and it has progressed to the last. The internal fine-tuning will completely overwhelm the horrible behemoth that will be fully completed.

At this moment, the loud noises are shocking, and the blue-bellied electric sea has a constant roar of sounds, which makes people feel tremble...

"Boom..." high

In the empty space, the roaring sound came again, and the blue color electric awn was shot. After the vast electric sea came, the blue vertical eye in the black crack closed again, and then even the void crack disappeared, as if Never appeared in general.

Ye Xuan sighed and took back the sight of the high-altitude, turning to the front of a billion miles away.

In the line of sight, the cover of the cage reached 560 million miles, and the blue sea of electricity that completely overwhelmed the horror monster that was about to complete the eighth fusion was still raging. Electricity

In the midst of the sea, from time to time, there was a fierce sorrow and roar. although

I can't see what's going on inside, but I'm afraid I just think about it with my heel. I can roughly guess it.

The next thing Ye Xuan did not have the mood to pay attention to. Although he had guessed all this early, but after it became a reality, his heart was very heavy, because this guess is true, and for him, it is not a good news.

It can even be said to be a big problem, worrying..."

call out!"

The faint sound of breaking the air, Ye Xuan did not continue to pay attention to all the follow-up, turned and rushed to the Xusheng ban, and his body disappeared.

After entering the Xusheng forbidden land, Ye Xuan even immediately returned to the Dongfu Star, he will immediately retreat and break through again, because this time the war with the three major beasts of the mechanical family, although the time is very short, but his previous breakthrough income, basically It has been fully integrated into the body and the soul. again

Coupled with the return of electronic avatars, countering some of the power, Ye Xuan has a feeling of breaking through...

"Booming..."

During the meditation, he suddenly waved his hand and immediately sacrificed Shennong Ding. He hung behind the giant peak where the magic hall was located, floating in the air, and then swaying, and then stepped into the treasure of the colorful fog! straight

After entering the Dingnai space, I sat down in the volcano of the central area of the Dingnai space! "

call out! ""

Oh..."

Soon, a lot of faint sounds broke through the air, and a glimpse of the volley from Ye Xuan body, hanging in front of him. all

It is the cultivation resources that he took out from the immortal world to develop this breakthrough, including all kinds of top-level cultivation resources, such as the evil source liquid, and the nine-color magic medicine. Even the chaotic drugs of gray and gray have one. The awning has a volume of a thousand feet. quasi-

After preparing everything, he mobilized Shennong Ding's domain power in the first time, and compressed all the cultivation resources to the size of only the baby.

In the blink of an eye, as he waved, the ball of the size of the baby fist was swallowed into the belly by Ye Xuan and quickly turned away..."

Hey! ""

Rumble..."

As soon as all the cultivation resources had just been swallowed, the sound of the chains rang in his body.

The entrance to the resources is justified, and it is gathered into a powerful river with great energy. With the thunder and screaming, it has been running once and for a long time in his whole body, and it continues until refining...

Chapter 4868: Power eighth

With the repeated operation of the big sun once and for all, when this hanging energy Dajiang disappeared in Ye Xuan's body meridians and completely integrated into his soul and body, it was just a force to launch an impact, this chain of chains It has been broken. under

For a moment, and the system prompts in anticipation, it soon sounded in my mind...

"Hey, congratulations to the host, the breakthrough of the ancient realm of the hole! The current realm: the eighth step of the ancient power!"

Hey, congratulations to the host, the breakthrough of the body and blood! The current realm: the ancient eight-order! "Big

Can be eight orders! only

If you are in the first step, you will be able to step into the ninth stage and complete the meeting... This is really exciting!

Before this breakthrough, the cultivation of Ye Xuan's deity was the seventh stage of the ancient power.

After activating the blood of the ancient konjac in the body, it will be able to climb to the eighth level of the ancient powers of the ancient times. If the konjac is transformed into a ninth change, the combat power will immediately rise to the sacred eight. Order.

Once you count the first-order bonus of the flesh and blood, and the real power of his ability, you can reach the level of the nine-stage absurd! and

Right now, with this breakthrough, Ye Xuan will have the perfection of the 9th-order greatness of the ancient powers after activating the blood of the konjac in the body.

In this case, once he exerts the magical power of the konjac and changes to the ninth change, his peak power will instantly reach the eternal order of the ancient sage!

In addition, because of the huge physical state of 60 million miles, the power of the horrible blood will have a second-order bonus to the real combat power. leaf

Xuan, the strongest force he can show, even if he can't achieve the real first-order increase because of the cross-border realm, so that he can truly enter the heavens, but it is definitely the invincible existence under the heavenly environment. It's just a short line.

In fact, he still has a **** secret!

If it is the dynamism of the blood and sea secret law, it will instantly condense three blood and sea avatars, all of which have a terrorist power that is not weaker than any ninth-order ridiculous. This

In this case, if it is a three-war one, even if it is a nine-stage absurd, it will be crushed by him. Such as

If you use the sacred bow and other strong magical powers and underlying means, the ruin peak of the ninth-order grand perfection, that is, the existence of the half-step celestial level of the emptiness giant tortoise, under the smash of the eye, one shot, so Fallen... It's definitely not impossible! Of course

However, although this time it broke through smoothly, but Ye Xuan's face did not see the color of joy, but it was somewhat disappointing and not very high-spirited.

Because this time he originally wanted to force a two-break, so you can verify the speculation that suddenly emerged from the brain.

I saw the Emperor II and the claw-like beast, the star-studded beast, who was about to enter the real heaven and earth because of the eighth fusion. Finally, before the completion of the fusion, the projection of the heavenly eye was coming, and the birth was born. The road to heaven was blocked, and Ye Xuan thought of himself for the first time...

It was because of this doubt that he was uneasy, so Ye Xuan was not even interested in seeing the Emperor II and the claw-like beast, the star-studded beast, and the end of the game. The first time he rushed back to the Dongfu Star, and began to retreat. he

In the past, it was already the seventh-order repair of the power. If you ushered in two breaks, it would be the great nine-step perfection. So, after activating the **** magical power of the konjac, it will become a sacred one. Order. press

According to past experience, if the blood of the konjac is changed to the ninth change, then, in that state, in theory, Ye Xuan will leap into a strong person.

He does not know whether the heaven and the earth also have nine levels, nine small levels of distinction, but even if there is, in the ninth state, he is also a first-order heaven! he

Just want to see if this kind of **** way, instantly enters the heavens and becomes the first-order existence of the heavenly environment, will it also lead to the suppression of the heavens, or... can you smoothly enter the heavens? First order! can

Unfortunately, the two consecutive breaks in the promise have not yet arrived. He is only the eighth-order power of the power. The activation of the blood-powered magical power is only the ninth-order power. After entering the ninth change of the konjac nine-change, in that state, it is only The 9th-order grand perfection of the ancient supreme...though

It is said that there is also the first-order blessing of the horror of the horror body of Pangda's 60 million miles, but this time, because it is a cross-border, the power of the body is not blessing the cultivation. Really reach a small degree.

So, to put it bluntly, Ye Xuan has successfully broken through this time, but the previous speculation has not yielded results. It is still impossible to make a conclusion. So, my heart is still uneasy, naturally I feel depressed and I am not happy. ..."

It seems that I can only wait until the next breakthrough, and then verify the guess of my heart..."

After some depression, Ye Xuan whispered and sighed, and no longer entangled the matter.

"call out....."

A wave of hands, Shennong Bao Ding turned into a masculine masculine, and he was immediately absorbed into the body, and Ye Xuan was also a figure, which was easy to disappear in the moment.

When it reappeared, it was already outside the Xusheng forbidden land. Looking up, there was an empty battlefield in front of the empty battlefield. Emperor II and his mechanical army had long since disappeared. complete

Although this time his breakthrough was still relatively fast, but it took a full 12 days, the emperor could not stay here.

The brow just wrinkled, and a figure has been spurred. It is the black robe of the Legion of the Legion.

Although Ye Xuan silently and directly moved from the Dongfu Star to the Xusheng forbidden land, even the ancient porcupines and the Taikoo turtles in the ancient and powerful environment have no sense, but the black robe is the ancientest. Obviously still sensed. this

When he came in the first time, he reported to Ye Xuan that he had left.

Under one question, I realized that the old guy of Emperor II actually escaped this time. Under the smashing of the blue lightning of Tiandao Qingyan, it was only hurt, but it was not Fallen.

At that time, after Ye Xuan left, the piece of blue sea that enveloped the 5,000-mile-long emptiness of the square was full of tens of thousands of interest before it dissipated. and

As the blue electric sea dissipated, the horrible behemoth that only finished the final internal fine-tuning to complete the eighth fusion also showed its figure.

However, it has already been merged together, and the horror body of Panda's 400 million mile round has been torn apart and turned into more than a dozen mechanical beasts of various sizes.

This is the hard-pressed and suppressed by the heavens, interrupting the mega-display of the eighth fusion.

Moreover, because of this forced interruption under the intervention of external forces, the emperor who gathered into this horror beast and the more than 80 million people of his majesty, apparently received a certain degree of reaction. emperor

The two bodies are wolf-stricken and almost seriously injured. According to the estimation of the black robe, the tribes of more than 80 million mechanical families may have fallen into tens of millions, because there are more than a dozen large-scale beasts after the split. The wound looks shocking.

Chapter 4869: The haze of the heart

Although it is only a wave of blue lightning, but after all, it is the hand of the heavenly eye, representing the suppression of the will of heaven, and the power can not be underestimated.

After the blue-colored electric sea was dispersed, the emperor's body was uncomfortable and almost seriously injured.

In addition, according to the estimation of the black robe, the tribes of more than 80 million mechanical families may have fallen into tens of millions. Because of the dozens of large and small beasts after the split, they are wounded and look shocking.

Even reached the point of losing strength in a short period of time. and also

It is for this reason that Emperor II did not dare to stay, the first time with the dozen or so mechanical beasts, hurriedly turned, wolf escaped ... and

All of this happened in the void outside the Xusheng forbidden land. In just two or three days, it was spread all over the emptiness of this piece of land, and all the forces and ethnic groups of all sizes were shocked.

On the one hand, it was shocked by the strength of the mechanical family under the Emperor's Second Emperor. It was successfully completed seven times in succession. The three ultimate beasts that appeared in the end all had the perfection of the 9th-order Great Comics. very

As for the eighth integration of the follow-up, he almost succeeded, and from the horror of the horror monsters of more than 400 million in size, the last eighth The second integration was successfully completed, and the Heavenly Dream of Emperor II can basically become a reality...

From this point of view, the vigilance of the strong parties on the Tianzu people is also higher. emperor

The second mechanical family is mysterious, but compared with it, the Tianji family of Emperor Yi is obviously more powerful. Now the bottom of the Emperor's mechanical family has been exposed, but the Tianji family still does not.

This really made the parties extremely uneasy, and even the Tiandao League and the Magic Hall gave birth to vigilance.

In addition, the parties are also shocked by the terror of the Lord of the Devils, especially the high-level members of the Heavenly Alliance, even more mad at the scene.

This time, the Emperor's mechanical family suffered heavy losses. Even the Emperor II himself suffered a minor injury, but the Magic Hall not only did not have any damage, but also snatched a ruined wing of the ancient sacred nine-step grand perfection. Battle beast. and

Judging from the performance of this winged beast outside the Xusheng ban, it has been completely refining and controlled by the Lord of the Temple. One

Between the nights, the magic hall will once again out of thin air, a top-level battle force of half-step heaven and earth, it is simply depressed and wants to vomit blood. and

Although there is no reaction on the side of the Tianji clan, there is no doubt that after this time, the vigilance and even jealousy of the emperor's emperor's emperor's emperor will probably surpass the Tiandao League.

The reason is also very simple. The essence of the Tianji and the mechanical family is actually the same, but basically, flesh and blood are unable to unravel the mechanical and electronic life, or suppress the level of consciousness.

Because it is simply the existence of different forms. but

The Lord of the Temple of Devils did it, and it was so fast and so strange. This time, although the loss was huge, it was the mechanical family under Emperor II. However, if it was replaced by the Tianji, it would be the same result. only

With this point, it is enough for Emperor Yi to regard the Lord of the Temple as a big worry. Correct

For the top officials of Tiandaomeng, this may be the only news that makes them feel a little gratified at this time, because since then, the Tianzu people who have been targeting the Terran Federation are very likely to turn their spears to the Temple of Devil...

And this is exactly what they want to see. when

However, the most powerful people are shocked, and even can be said to be the soul of the cold, or this time the dawn of the blue sky projections. in

Before this, no one realized that with the coming of the end of the flood, the day after the end of the flood, after the war, they gave up control of a large number of ruins of the ruins, and the almost ignorant heavens were invisible. Among them, slowly began to try to control the emptiness of these ruins.

This time, the Emperor II and his entire mechanical family tried to break through to the real heaven and earth in the eighth fusion, but at the last moment of success, it was proved by the Tiandao Qingyan descending on a projection.

This is clearly the suppression of heaven, representing a will of heaven, and the existence of the second heavenly level exists in the void that is not allowed to control it...

Realizing that the will of the wilderness will gradually return, all people are in a heavy mood. One

Straight, no matter whether it is a piece of debris, or the three major stars in the world, the strong players are basically free to develop, even when the star power breaks through some higher-level realms, there will still be The robbery came.

But that is only the unconscious reaction of the law of heaven and earth after induction. can

Nowadays, the heavenly eye that represents the will of the wilderness is gradually returning. For all the star powers, there is an invisible blade suddenly on the top of the head. If anyone is not obedient, he will always have life and death. The robbery is coming.

The unconscious suppression of the law of the heavens and the earth, and the conscious suppression of the heavenly eye, which represents the accident of the wilderness, are two completely different concepts.

In particular, those ancient powers in the major forces, the ancient sages, are even more in a heavy mood. even

Emperor II and the whole machine family will not be allowed to attack the real heaven and earth in this way of integration. The blue sky will immediately drop a projection and suppress it. Then, if they are repaired in the future, they will normally attack the heavens. I am afraid that the suppression will be more intense.

Moreover, as long as the Qingtian Heavenly Road Green Eyes are not allowed to appear the second Heavenly Will, then all the star powers who attack this realm, the final end, I am afraid that all will be undead or injured...

Former Ye Xuan is also worried about this, but now, it is clear that the top executives of all parties are also worried about this.

It is precisely because of this that, for a time, this piece of vast and innocent land of debris, as if it was invisibly covered by a thick haze, the forces of the parties did not change anything, and temporarily quieted down.

After learning about these situations, Ye Xuan turned and returned to the Dongfu Star. this

At the time, the seven sacred repairs such as the corpse of the ancestors were still in the process of retreating and resolutely breaking through, and the three gimmicks of Xuanyuan Ziyan, Duanmu Xiaocha and Zhao Qianru have already closed their doors and are now improving their cultivation. The entire Dongfu star is quiet. leaf

Xuan Duan sat on the top of the magic hall at the top of the 巍峨 Jiufeng. When he waved his hand, there were four masculine shots in a moment...

"call out!"

"Hey..."

Four volleys rushed away, and the blink of an eye facilitated the suspension in the midair of the giant peak, and the storm rose, turning into four giants with a diameter exceeding 10 million feet.

It was the four star wars that completed the hardware upgrade and transformation! Virtual

Air combat La! cry

Soul war!

Years of war! Take

And **** mosquitoes!

At this time, the four major wars were sacrificed, and in the void in front of Ye Xuan, they were traversed into a row, and they were extraordinary...

Chapter 4870: War Ia

"call out!"

Oh..."

After the arrival of the Dongfu Star, Ye Xuan Duan sat on the top of the Devil's Hall at the peak of Jufeng. When he waved his hand, there were four volleys rushing away, and the storm rose, turning into four giants with a diameter exceeding 10 million feet. In the void in front of him, he is in a row, and he is so powerful...

It's the emptiness of the war, the sorrow and the war, and the battle of the war and the blood! cold

I don't have to look at it. After four upgrades, the four star wars have not changed much from the previous ones. However, if they are meticulous, they can be found to be different.

The current four major battles, not only a few laps larger than the original, but also more metallic luster, giving a very thick and condensed feeling. to

In its power, it must have climbed too much more than before. After all, the material used for the upgrade last time is the energy crystal used by Hongmeng in the void to breed the Chaos Devil. Do not

However, at what point is the specific power, even Ye Xuan is not aware of it, because after the four major wars were upgraded, the four kinetic groups in the war are still in the sink. Sleeping. which is

At the time, Ben Ye Xuan had the heart to try his best. He could only wait until the four kinetic energy groups in the war, and after the successful completion of the life form transition, it was possible...

It was because of the things that went on hand and then one after another, Ye Xuan had forgotten this matter, and now they think of them because of the warriors and beasts...

At the beginning of the film, Hong Xuan had been looking for special resources that could quickly evolve the kinetic energy groups in the four major wars.

Although it took a long time, it was finally found.

Since then, the four major kinetic groups in the four major wars have fallen into a deep sleep...

In the void battle, the original strength is the strongest of the two heads of the nine-step grand nine-star emperor scoop, in addition to ten eight-star king scoop, and the ordinary soldiers scoop tens of millions.

Ye Xuan found a large number of mysterious medullary crystals in Hong Kong's imaginary sky. Even the purple chalcedony crystals have a thousand cubic meters. The latter is left for personal use. The former almost all gave the Void squad in the Void War. and

In the soul of the battle, because of the absorption of the **** ant liquid, the sacred beasts have generally grown into a cave of heaven and earth, and even the soul of the 300,000 domain.

Later, Ye Xuan found a red crystal soul that is suitable for this group to rapidly improve the blood in the Hong Kong virtual air. Among them, even the most precious purple blood soul has a thousand cubic meters, except for the latter left for personal use, all red The soul of the soul is given to the soul of the beasts.

Since then, the four major kinetic groups in the four major wars have fallen into a deep sleep, and they have rapidly evolved their blood in the sleep. where

I was afraid that after Ye Xuan used the energy crystals used by Hong Meng in the void to breed the Chaos Devil, the hardware transformation of the four wars was not disturbed.

Calculating the time, the four counts in the four major battles all exceeded the tens of thousands of kinetic energy groups. This time, I have been in a deep sleep, and the time of blood evolution has been going on for decades.

This time, the reason why he suddenly remembered the four major battles was because of the sake of the beasts. This

Once, Ye Xuan's electronic avatar return can be said to have set a super great power, so that the mechanical family of Emperor II lost one-third of the tribe.

The huge size of the scorpion-winged beast, which is 200 million miles long, was finally transformed into a huge mechanical army after seven decompositions. outer

There is no exception, all of them are people standing, their wings are like a sickle, and their heads are exactly the same, all of them are high! and

The number of such scorpion-winged beasts is more than 40 million. This is the result of the power of Ye Xuan's avatars. This time, because Ye Xuan infused all the power of the gods and the support of spiritual power, the electronic avatar In a flash, he swallowed up more than 40 million electronic consciousness in the winged beast and became powerful. Finish

After being swallowed up, today's electronic avatars can be transformed into more than 40 million channels in an instant, each of which is Ye Xuan's electronic avatar. If

If Ye Xuan is willing, these more than 40 million head-winged beasts can be combined in any instant, ten heads, hundred heads, thousand heads, ten thousand heads, or more than 40 million heads together, all without problems, simply Just do what you want! and also

It was at that time that after seeing the exchanges with the electronic avatars, Ye Xuan realized that the more than 40 million 10,000-foot-old scorpion-winged beasts could not only merge in any number, even in this fusion process. And you can add other elements... for example, the Big Four! Such as

After completing a disintegration and turning into a four-and-five-thousand-thousand-thousand-thousand-thousand-thousand-winged beast, the strength was reduced to the first level and became the eighth order of the ancient.

Nowadays, Ye Xuan's plan is to integrate these four warriors into the body of the scorpion-winged beast in a state of decomposition. This is feasible. After all, the scorpion-winged beast has a total of 50 million miles. With a huge body shape, after the integration of the war, it can be accommodated in the chest of the winged beast and become a heart-like existence.

When needed, the fusion of the winged beasts not only has the original ability to attack, but also can launch a special attack of the war, so that the overall combat power will once again soar. If

If there is no accident, after completing a decomposition, only the eighth-order absurd cultivation will be the strength, and will once again return to the ridiculous peak of the ninth-order grand perfection...
