

Super D. S 487

Chapter 487: Escape from birth

"Where, scare me."

Ye Xuan sighed a sigh of relief. If he was possessed by the demon king, then he would be miserable. Fortunately, there is one clearing character.

The Shangqing Fu is something that every Qing Dynasty disciple will make, but Ye Xuan's supernatant is the Li elder, so the quality is much better.

"It turned out that this thing can also resist the possession of the devil, but unfortunately there is only one..."

Ye Xuan reluctantly thought about it, and then quickly rushed to collect the magic king's magic beads, and swallowed.

"Hey, the host has opened the 34th line!"

The system prompts.

Thirty-one, directly reached thirty-four, the experience of this demon king is quite a lot.

This time, it is a shock.

Ye Xuan quickly took out a few Shang Qingfu, which was made by the disciples of the Qing Dynasty, and filled the whole body.

He also understands that these supernatants are not so easy to make. These elites from the general gate, there are only one or two in the ring.

Now, Ye Xuan does not dare to care about it any more. If he can't resist the monster and is possessed by the monster, I am afraid that his consciousness will be wiped out in an instant. At that time, it is not his own, even if the monster is separated, leaving It is just a hollow shell with no soul.

"It's still a good point for the cycle. This demon king should be considered weak. If it is strong, it will be troublesome."

Ye Xuan decided not to go deeper, but continued to return to the periphery to hunt the demon lords, accumulate less.

.....

Time passed a little.

At this time, it has been half a month since Ye Xuan entered the magic cave.

After experiencing the last shocking battle, Ye Xuan was very careful, but he did not encounter the devil again, and he also opened 36 geographies.

However, just as he killed the monsters, there was a loud noise in the cave.

"Is it going to hit the seal again?"

Ye Xuan appeared very calm this time, this is the third time since he entered the magic cave.

But the next moment, he felt that it was wrong. This loud noise didn't seem to be from the Demon Legion.

"Don't it be that the demon master woke up?"

Ye Xuan suddenly hit a spirit.

This demon Lord is the biggest boss in this magical cave, and it is also the most taboo for the Shangqing Palace.

I learned from the mouth of the elite disciples of the General Court of the Qing Dynasty that this demon Lord seems to be still asleep, but now I want to come, I should wake up.

"Before the demon Lord did not wake up, they were all devils or devils with a miscellaneous soldier to attack the seal. Now the devil is awake, that seal..."

Ye Xuan hit a chill.

Suddenly, he had an unpredictable hunch in his heart, that is, he did not know whether the Shangqing Palace had sent a master.

However, he understands that he is absolutely unable to clean up the Lord of the Lord.

"No matter what, let's hide it first, so you don't have to..."

Ye Xuan decided to hide.

The loud noise has been ringing through the sky, echoing in the entire magic cave, and the sound has been swayed for five minutes, before it stops.

Then, it was the voice of the monster army gathered together to rush to the entrance of the magic cave.

"The magic cave, not only the entrance, so many people who are possessed by the monsters, if they rush out, even those masters will kill for a long time. If they win time for the devil, this seal may not last long."

Ye Xuan thought in his mind that he was quietly staying in a place. Now is an extraordinary period, he is still honest.

Every time the magic object hits the seal, the movement is very big, but this time, it quickly stopped.

"This time, it's too fast, it's not right!"

Ye Xuan, who was hiding in a corner, frowned. He wondered if the monster army had broken through the seal and saw the day again.

The seal of the entrance to the magic cave is not useful to him. Even human beings possessed by the monster can go out.

Therefore, if these monsters have already broken through the seal, then the people in the Shangqing Palace must be too busy to be overwhelmed at this time, and he may also take the opportunity to escape the magic cave.

"Go and see!"

About half an hour later, Ye Xuan made a decision in his heart and immediately rushed toward an entrance.

The party still echoed the deafening sound, but now it is silent, which is very suspicious.

When I arrived at the entrance to the magic cave, I found that the array at the entrance had been broken, and the air in the outside was already floating with countless monsters.

The seal was really broken!

At this time, the masters of the Shangqing Palace are constantly fighting against the monsters, not only that, but also the masters from all sides of Sirius Island.

"There is one more here!"

Suddenly a loud scream sounded.

Ye Xuan turned around and saw that there were several disciples of the Qing Dynasty who came up. These people thought that Ye Xuan was a human being possessed by a monster.

"Since you are coming to the door yourself, don't blame me."

Ye Xuan swiftly swept out and took away the Qiang Kun ring of the disciples of the Shangqing Palace, but he did not take the lives of these people. After all, Sirius Island has already fallen into a deep water, and these people are still able to stay. Kill the monster.

Taking advantage of this opportunity in the Qing Dynasty, Ye Xuan quickly left, but he turned to think about it, but decided to take a look at it. After all, there will be a lot of monsters here, maybe you can catch some magic beads of the devil.

Now that he has opened 36 geographies and then thirty-six, he can begin to get through the veins.

His strength is also top-notch on Sirius Island. At the moment, he took out a mask and killed it.

A lot of magic objects were suppressed in the magic cave. Since the magic master woke up, these monsters were rushed out.

At this time, a large number of magical objects have broken through the encirclement, leaving the Shangqing Palace and beginning to harm Sirius Island.

Shangqing Palace did not expect that the Lord will wake up so quickly. Fortunately, the Shangqing Palace sent a master to the sky, otherwise it would be instantly destroyed by the Shangqing Palace on Sirius Island.

After seeing the sky, Ye Xuan began to run fast. His goals are two, one is the monster, and the other is the human ring.

Anyway, he can make him improve his realm!

Along the way, he also saw a lot of human corpses. Most of these human corpses still have a ring, so they are cheaper.

"Hey, the host has opened the thirtieth gas strip!"

After hearing the tone, Ye Xuan's mouth was slightly tilted. Although his upgrade speed in the cave was fast, he still got a better time to upgrade.

at this time.

His afterglow swept away and found a familiar figure, which was fighting a long-horned demon.

"Is that elder Li?"

Ye Xuan recognized it.

This elder Li was the elder of the Qing Palace who threw him into the magical cave that day.

However, if he did not give Ye Xuan a clear letter at the time, I am afraid that Ye Xuan had already been possessed by the demon king.

At the moment, Ye Xuan is killing the past.
