Chapter 4871: Four great kings

According to Ye Xuan's derivation, at least 80% of the integration will be completed smoothly. complete

In fact, after the first decomposition, the scorpion-winged beast has a huge body shape of 50 million miles. After the integration of the war, it can be accommodated in the chest of the scorpion-winged beast and become a heart-like existence. One

Once the integration is successful, when it is needed in the war in the future, the warrior and the beast will not only have the original attacking ability, but also launch a special attack of the war, so that the overall combat power will once again soar. If

If there is no accident, after completing a decomposition, only the eight-stage degraded cultivation will be the strength, and will once again return to the ridiculous peak of the ninth-order grand perfection! and

If this is the case, once the four heads are merged into the four major wars, and the sacred beasts of the ninth-order grand perfection will continue to merge, then the body shape after the integration will exceed 200 million miles. Winged beasts, there will be more than 80% of the possibilities, so they will enter the real heaven...

It is the same as the fusion of the former Emperor II and the claw-like beast and the star-studded beast. when

However, this ultimate fusion, Ye Xuan will not easily unfold, that is to say, once the four major war lords are smoothly integrated into the four-headed decomposed scorpion-winged beast, then in the future, Ye Xuan's electronic avatar will basically With these four heads, a decomposed winged beast form appeared. he

I don't want to bring in the green eyes of the wilderness, even if it is in the final integration, Ye Xuan will never launch in the emptiness of this piece of land, and at least have to go back to Hong Meng and try again.

There is a void in Hongmeng, which is higher than the existence of the wilderness. Therefore, the will of the green eyes of the wilderness can't control the will of Hongkong and the void. In other words, if it breaks through the heavens, it can't be forced even if it is a wilderness. pressing!

It jumped out to stop at the top, but if the integration is successful, everyone is a heavenly situation, and it is a big battle...

"call out!"

Oh..."

After everything was pushed back in the brain again, Ye Xuan's chilly man flashed and waved. and

As he waved, there were countless faint stalks accompanied by the sound of the tidal wave. These awns appeared in the storm as soon as they appeared, and the blink of an eye became overwhelming, covering a large void in the Dongfu Star. . each

A thousand awns are all a basic form of scorpion-winged beasts. They are exactly the same, and their strengths are all in the immortal world, with a total of more than 40 million.

With the more than 40,000 headed beasts called, Ye Xuan gave instructions at the first time... To be precise, he was just a simple mind in his mind.

Because the electronic avatar is himself, and the more than 40 million scorpion-winged beasts are his electronic avatars. What Ye Xuan wants them to do is exactly like an arm, naturally incomparable, and the emperor The way in which electronic consciousness gives orders to people is completely different. that

If the sample is still separated by a layer of paper, Ye Xuan does not... very

Fast, as he read, the 40 million headed beasts were quickly swept in the void and divided into four camps.

Previously, the void was the suspension of four giants of war. Now the four camps of 40 million heads are all around the four warriors. In the middle of it, there are more than 10 million scorpion-winged beasts around each war.

The four kinetic energy groups within the four major wars have long since awakened. They are the Void squad, the sorcerer, the Slim and the blood mosquito.

The number of people in the four kinetic energy groups is all 10 million. Today, they are located in the thousand honeycomb nodes of the four major wars, each with 10,000. its

Among them, the four strongest kinetic energy groups have become the strongest, and they have all reached the ancient and powerful environment, and the number is many, all over one hundred, each respect, control the ten honeycomb nodes...

The four kinetic energy groups have already received the instructions of Ye Xuan, and they are ready to integrate with the millions of warriors and beasts that surround the four major wars.

"Hey..."

Rumble..."

"Card!"

Card..."

The next moment, with Ye Xuan's entanglement, the integration of the four camps is in full swing.

The giant beak-wing behemoth, which is huge in size and 200 million in length, was previously completed in the second-hand fusion of the Emperor.

Ye Xuan now divides the 200 million-strong scorpion-winged beast into four camps, which is equivalent to six fusions in the second-hand of the Emperor... but

In fact, now in the hands of Ye Xuan, there is no such trouble.

In the four camps, each camp is a war lord, and more than a thousand giants of warriors and beasts around the war. Such as

Today, after his integration instructions were issued, all the members moved, and only once, they completed the integration. before

After the time spent, even the ten interest.

If this scene is seen by the Emperor II, I am afraid that it will be awkward again...

Within the tenth, the integration was completed quickly. this

When I look around again, I can't see the four battles in the sky, and I can't see a giant winged beast with only four heads in the shape of a giant. The basic form is exactly the same, the people stand by, the wings are like a knife...

Only subtle, different!

This subtle difference is apparently due to the incorporation of different four-seat squadrons. Such as

Today, the four battle squads are located in the chest of the four-headed scorpion-winged beast, and it is precisely because of their integration that these four 50,000-million-dollar scorpion-winged beasts are on the chest. With different patterns, it looks like a logo.

From left to right, the logos of the chests of the four-winged warriors are a purple gold veil, a skull with a one-horned beast, a full-length gray slime, and a red **** Blood mosquitoes...

These four logos are clearly characterized by the four kinetic energy groups within the four major wars, and are the only imprints to distinguish the four scorpion warriors. to

Yu Xiu's strength, the previous four-and-fifty-thousand-thousand-thousand-thousand-thousand-thousand-thousand-winged beasts, are all eighty-ordered. but

Nowadays, after they have integrated a war-torn killer, their cultivation has become a strength, and they have once again climbed up, returning to the ancient perfection of the nine-step, that is, half-step heaven. and also

That is to say, today's magic hall, adding four half-steps of heaven and earth, the peak of the ridiculous level of combat power, counted Ye Xuan himself, is a full five, and if the blood and sea secrets are divided into three The big blood sea is counted. Such as

Today's magic hall is the top battle of half-step heaven and earth, and there are already seven full!

Thinking of this, Ye Xuan's heart suddenly swayed, and the scorpion flickered in the middle of the four-winged beasts.

In the mouth, there is also a nightmare-like muttering sound: "There are eight King Kongs, then now, you are the four kings of my magical temple!"

Void King! Years of the King! And... blood mosquito king! "

Chapter 4872: Emperor Yi sent out

The Nether Heaven King, the Soul King, the King of the Year, and the birth of the Blood Mosquito King, today's Temple of the Devil, adding four half-steps of the heavenly kingdom, the peak of the absurd level of combat power, counted Ye Xuan himself, is a full five . If

It is the three blood seas that are condensed by the blood and sea secrets. The current magic hall is the top-level force of the half-step heaven and earth, and there are already seven whole!

In addition, the black robe, the Emperor Yinling and the seven great cults are the first-order ruins of the first time. again

Plus them, the current magic hall, the top combat power is equivalent to having seven half-step heavens and nine first-class absurd... This number is not weak compared with Tiandao League, even if it is a Tianji, I am afraid That's it! brain

After flashing these thoughts, Ye Xuan's face suddenly showed a smile, but he did not intend to expose the four kings now...

From the outside world, the magic hall this time only added a body size of more than 200 million miles, and repaired to the strength of the ancient sacred nine-step great consummation, that is, the half-step heavenly kingdom. he

We can never imagine that this winged behemoth was once disintegrated and merged with the four major wars, and it turned into a horrible existence of four half-step heavens, and was the four kings of the temple. Respect..."

call out! ""

Oh..."

During the wave, the four kings were taken up by Ye Xuan and directly sent to Shennong Baoding, where the space was crouched...

Today he is sitting in the magic hall, naturally there is no need to let them out. but

In the future, if Ye Xuan temporarily leaves the Xusheng forbidden land, the four kings, he will all stay, at least half will be left, they will sit in the town hall, even if it is the Tiandao League or the Tianji nationality, the wilderness will come. Sneak attack can also ensure innocence..."

Nowadays, there are already 60 of the twenty-nine-level ridiculous treasures. It should be enough, no need to refine it..."

After the four kings earned Shennong Baoding, Ye Xuan fell into sinking. From time to time, there was a faint flash in the mouth, and the mouth was even like a nightmare-like mutter: "And the perfect Danfang

of the 30th-level Tiandao Baodan It has already undergone two comprehensive deductions, and there should be no flaws and omissions..."

"However, in my hands, I used to refine the ridiculous blood of the 30th-level Tiandao Baodan, but now only three of them have been collected..."

"If you want to refine the 30-level Tiandao Baodan, in addition to some special raw materials, it is only a waste of blood, you need at least five to open the furnace..."

"That is to say, the next task, we should find ways to collect some **** blood, even if some other special materials on the Dan Dan have not yet been settled, but the blood is essential to the main material. First, at least five, no matter what, first reach this requirement..."

The blood of the sacred blood is refining the blood of the sacred blood after the explosion of the ancient and supreme body. Therefore, in order to obtain the blood of the ruin, it is necessary to hunter the ancient sage.

Today, Ye Xuan has been able to condense the three **** seas, and the combat power has reached the great success of the ruins of the ancient sage. Together with the four kings, it is the seven peaks. shortage

Although the ancient supreme is not good to kill, but there are seven peaks and ruins, but it should not be a problem.

In this emptiness of the ruins of the ruins of the heavens and the earth, in addition to the Temple of the Devil, nowadays there is a place where the ancients sit down in the ancient times, and it is only the Tianji and the Heavenly Alliance.

The Tianji people were first excluded from him. After all, the Tianji people are all electronic life. The flesh is made of various materials. There is no flesh and blood, and it is also a white kill.

In this way, his only goal is to have only Tiandao League. day

Within the Taoist League, there are now 16 ancient sacred monarchs on the bright side.

The Star Alliance's nine bloody, blue sky Dapeng, blood-sucking lion, and **** unicorn and nine sacred crocodile. Ten thousand

The alliance of the tribes comes from the four ridiculous ancestors of the Hell ants, the Space Rats, the Giants, and the Slams...

These nine existences are all eligible hunting targets.

In addition, there are seven desolation, emperor two, and six absurd princes from the immortal dynasty, the heavenly palace and the splendid temple, each of the three forces of each force. emperor

Second, nature is excluded. He is also an electromechanical life. It is also a white kill. and

Among the remaining six absurd, the four from the immortal dynasty and the heavenly palace must be the human race. Although it is also a flesh-and-blood life, there is no blood of the beast, no **** starburst, and it is also killing. No big use.

As for the two from the Glorious Temple, there may be people, or there may be starry beasts, and it is still uncertain. After all, they have never been exposed since the fall of this piece of land.

In this way, the target that Ye Xuan can lock is only nine...

It is the nine-headed **** star of the Star Alliance, the Qingtian Dapeng, the blood-sucking lion, and the **** unicorn and the nine-spotted crocodile, as well as the Hell ants, the space mouse, the giant martial arts, and the evil spirits. The four deities of the Mum..."

It seems that I have recently taken the time to go to the Star Alliance and the Alliance of Nations to run a glimpse..."

When I think of it, his shackles are flashing, and there is a whisper of a nightmare in the mouth:
"However, today's Star Alliance and the Alliance of All Nations are already one of the constituent forces of the Heavenly Alliance..."

"They and the Terran Federation are arrogant, and there are directional wormholes in the depths of the stars occupied by the three forces. Once any of these forces have unexpectedly changed, the other two forces of conventional forces are Can pass the directional star-space wormhole in the star field to the rush to the first time, the high-level combat power, not to mention more..."

From this point of view, even if it is to be shot against the Star Alliance and the Alliance of Nations, before the official action, there must be a comprehensive plan and preparation. ""

Otherwise, once the news leaks, the survivors of the other two alliance forces will come to the rescue. I am afraid that it will directly lead to the failure of hunting. If I want to do this again, I am afraid it will be difficult..."

Having said that, Ye Xuan frowns subconsciously, no words, and falls into the sinking...

.....

At the same time, there are hundreds of billions of universes in the void from the Xusheng ban...."

call out! "micro

The weak and unspeakable sound of the air broke out, and a mile of volcanism came from the distant sky, and the speed reached its peak. Looking at the direction of its lasing, it was the Xusheng forbidden place where the magic hall was located.

And the direction of this masculine rush is exactly the billions of miles away from the Terran Federation, the vast star field occupied by the celestial beings.

This is a very fast speed, and there is a faint scent in the vagueness. There is no doubt that this is a despicable and powerful person, and it is very likely that it is from the heavenly family. One of the patriarchs of the tribe.

If this is the case, the direction of the glare from the singer is that Xu Sheng is forbidden to see the land. The emperor's purpose of dispatching a avatar is somewhat interesting.

Chapter 4873: Mechanical mites

Outside the star field where Xusheng is forbidden!

"boom!"

"Booming..."

"吼..."

In the air, roaring came from time to time, and occasionally there are a few roaring stars and beasts...
put

Looking around, you can see a fleet of ships, a team of warships, and a team of purely starry beasts, wandering around the void...

These teams are just the daily patrol squad of the Devil's House.

Xusheng's forbidden land is so vast that even if hundreds of millions of warships, warships and beasts are patrolling, they are scattered in the void of 100 million miles away from the stars. Often a patrol squad has been in the past for a long time before the second team has passed in the same position...

At this moment, the Xusheng ban is about 100 million miles from the rim of the patrol circle. On the north side, there is just a team of beasts wandering past.

The whole patrol team is composed of starry beasts, only a total of ten heads. This is just the most basic beastly squad. The leading beasts and small heads are not very powerful. They are only ordinary and immortal. It's gone. Such as

Today's Temple of Devils does not dare to say that a single family is in the void of this ruined land, but it is also similar. The forces that can compete with it are only Tiandaomeng and Tianji. day

The machine family has long been eyeing the Tiandao League, and there is no time to pay attention to the magic hall. On the other side of the Tiandao League, it was only recently that they had suffered a defeat here. The mechanical family under the Emperor's Second Emperor suffered heavy losses, just like the dog of the family, the Cangjie fled. ...

Therefore, these fleets of the Hall of Fame and the beasts who are responsible for patrolling outside the stars are not too vigilant, and they are somewhat lazy, and they are fascinated!

In the distance, on the back of an abandoned star, a huge behemoth is crouching at this time. This

It is a locust with a body size that is more than a thousand feet. It looks like a hollow scorpion, but it is dark and has more tentacles and looks even more awkward.

In fact, this locust is only a mechanical avatar of Emperor Yi. when

At the beginning of the mysterious void, the wreckage of a large number of ruins and ancient treasures in the sky, the Emperor looked at the locust, and then spent a lot of energy, based on his body, and carried out various transformations. table

On the surface, it is now a living aphid, but in fact, this aphid has already undergone a major transformation, so that the electronic consciousness of the emperor is settled. Such as

Today, the body of this locust has settled in the electronic consciousness of Emperor Yi, so its essence is actually a avatar of Emperor Yi. emperor

The reason why I chose it as one of the many avatars was because of the blood of this locust.

The locusts are already invisible in the starry sky, but they are rare zergs and special species that existed in the early days of the flood. They possess powerful phantom abilities, even if they are special **** aliens, they will be confused by their blood talents. Even in the illusion, I still don't know, there is no trace to follow...

As a avatar of Emperor Yi, even if it is only one of its many avatars, the cultivation of this locust is obviously not likely to be weak.

In fact, it is very powerful, not only has entered the ancient and supreme, but also far from the ordinary ancient supreme, but the late stage of the seventh-order period.

After all, the worm's blood is special, and extremely rare, it is rare to get a locust, and it takes a lot of effort to transform it. If it is too weak, it is too wasteful. Place

Therefore, it is understandable that the resources of the Emperor Yi's body on this locust are understandable.

As the late stage of the seventh-order world, facing the ordinary strong patrols outside the edge of the forbidden land, naturally there is no problem, plus the special ability of the locust blood, at this time it crouched in the thousand Behind the abandoned stars thousands of miles away, there is no hidden body shape, just converging the atmosphere, but there is still no patrol team can find. where

I am afraid that the power of the gods or the waves of the warships will be swept away. Here is also an empty piece. The locusts that are so free to stay in the void, as if they are not there at all, no matter whether they are in the face of the gods, they can't see it. .

Soon, the beastly squad that wandered ahead was getting closer, and the distance was already close to millions.

"Hey..."

At this time, the locusts that have been crouching behind the abandoned stars have moved, and the huge body is like a man, and it is swiftly swept away. This

Wherein, the smell of the surging, the surging of the survivor's team from the front side, and the squad look a little.

But almost at the next moment, their figure was abruptly stopped in the void, motionless, the dawn of the eyes also became blurred, revealing the meaning of empty and confused, as if lost in the mind, into a certain psychedelic In the state...this

It is one of the talents in the blood of the locust. "

Hey! "

As the ten starry beasts in this squad were all enchanted, the locusts rushed away, the speed was so fast that the blink of an eye was near. it

I did not pay attention to the other nine starry beasts in the ranks. Under the squatting, I went straight to the leading head of the be wherein the leader..."

Oh..."micro

The invisible low humming sounds, from the tentacles on the ridge of the locust, a awning gray-black sacred shot, spurting away, touching the body of this immortal beast It was instantly turned into a sturdy gray reticle that shrouded its shape. Time

The only thing that lasted was the end of the breath, and the gray-black mask that shrouded the entire body of the beastly beast suddenly collapsed and turned into a worm-like spot.

The speed is faster than when the lasing is going, and the glare comes from the blink of an eye. It disappears into the eyebrows of the locusts and disappears...

"Hey!"

Just in the next moment, as the tentacles on the ridge of the locusts swayed, the second low-pitched humming sounded, and it was invisible. A mask came out of it, spread out and shrouded the entire body of the locust. .

Then, the gray-black mask flashed, disappeared instantly, and once again fell into the locust body, the whole process is still very fast, less than a breath.

However, in such a short breath time, this body-shaped locust has undergone earth-shaking changes. It is no longer a locust, but a blue-green mane with a whole body. And the line, the shape of the body, the fragrance that has been dispersed in the body has become an ordinary immortal...

Even, even its spirits, it has completely turned into a green scorpion, and there is no scent of locusts, even if it is repaired to the strength of the supreme existence of the sacred environment, the exploration of the gods is absolutely Can't see a half-point anomaly. This

It is another kind of blood talent of locusts, which can be changed as a prey to be captured by him. It is a good thing, and it is more realistic than the so-called piracy. There is no flaw...

Chapter 4874: Black wind tiger

"Hey..."

A low-pitched humming sound rang, and the other nine beasts were slightly shocked. The confusion in the scorpion subsided, and they looked around and quickly recovered their sights. They did not feel any abnormalities at all...

Between the two, the Emperor Yi was immersed in this locust, and it was perfectly mixed into the Temple of the Devil. Today, he became the savage beast of a patrol squad in the Demon of the Demon.

"Hey!"

The memory of the little head of the beast that was swallowed by the right, the emperor had a certain understanding of the current magic hall, and also realized that the patrol time of his patrol squad ended at this time...

After slamming his head, the shape of the green scorpion swayed and turned to the left, spurting toward the Xusheng ban, and the nine starry beasts behind him followed closely and still found no abnormalities. less

After that, the beast team entered the Xusheng ban, of course, and at the same time, other savage beasts, as well as warships and battleships, were also withdrawn.

With the withdrawal of this group of patrols, there is also another branch of the Xusheng ban to rush out to take over the patrol mission. One

Everything is in order, and there is no difference in the past. No one has noticed and realized that this group of patrols has already been mixed with a spy, and it is also a mechanical locust avatar of the celestial tribe

After returning to the Xusheng forbidden land, this team of Qinglan and other beasts were all rushing toward a star. This star belongs to the nomadic army. It is the one of the nomadic army. High-level - black wind tiger!

The black wind tiger has always been together with the young cattle and the jade, the dragon, the palace, the moon, the three-jaw dragon, the dragon mountain Tang, etc. It is a very early group to join the high-level of the nomadic army. When the whole nomadic army returned to the temple, his cultivation was only the immortality of the emperor.

But in the past few years, because of the large number of Zijinbao drugs, the nine-color magic medicine, and the various grades of Baodan used to break through the bottleneck of the big realm. again

In addition to the hard work in the weekdays, the cultivation of the Black Wind Tiger has skyrocketed, first breaking through to the immortality of the Emperor, and now it has been promoted into the universe in the near future...

The Qing dynasty and other part of the beastly beasts are the genus of the lower part of the black wind tiger. At this moment, they are withdrawn from the Xusheng forbidden land and naturally return to the nest star. This

Everything was originally a matter of course, and it was transformed into the scorpion worm of the Qing dynasty, and it was so smoothly and smoothly entered the life star where the black wind tiger was sitting...

For the black wind tiger is a fierce beast, so the immediate subordinates of the armpits are also fierce beasts. The nomadic army regiment originally had a beastly army, although later joined the magic hall, there is also a beast army in the temple. It was the fierce beast that Xu Xu was forbidden in the first place, but the beasts in the nomadic army were not separated, and they still belonged to the nomadic army.

There are a lot of stars and beasts in the whole star. The races are different and they are all elite. But the most powerful one is the black wind tiger, and the cosmic sage who sits here is only one such person. Correct

For the locusts with the seven-step cultivation of the ridiculous, the so-called cosmic sages are not even ants. green

The hustle and bustle of Dongfu is not far from the giant peak where the Black Wind Tiger is sitting. After entering the stars, the Qinglan Trail went straight to this huge peak, and walked straight to the black wind tiger's lair. by

Not long ago, I just broke through the big realm and became the cosmic sage. Therefore, the current black wind tiger is not in retreat, but here is the inside of the Xusheng ban, there can be no enemy, so there is nothing in the black wind tiger. Be alert. again

In addition, Qinglan was originally his subordinates. Even if the black wind tiger sensed his approach with the power of the gods, he did not think much. He also said that he had something important to report...

In this way, Qinglan smoothly entered the Dongfu of the Black Wind Tiger at the waist of the peak of the peak, and there was no second person present except the Black Wind Tiger. a few

Just as I saw the black wind tiger, the shape of the green scorpion changed and it became the locust...

"Oh, this is..."

The black wind tiger stunned, his heart was shocked, he was about to throw himself up, but everything was already late..."

Oh..." with

A low-pitched, low-pitched humming sound, from the tentacles on the spine's back, shot a awning gray-black sacred glare.

And after touching the body of the Black Wind Tiger, it instantly turned into a sturdy gray mask, covering its entire shape, and the time only lasted.

After the breath, the black hood that shrouded the entire body of the Black Wind Tiger suddenly shrank and turned into a worm-like point. The speed was faster than when it was lasing, and it was lasing in the blink of an eye. Come.

In an instant, I fell into the eyebrows of the locusts and disappeared.

"Hey!"

Just in the next moment, as the tentacles on the ridge of the locusts sway, the second low-pitched humming sounds...

Undetectable, under the hood, a mask came out of it, dispersed and opened, covering the entire body of the locust, and soon, the gray-black mask flashed and disappeared instantly. when

When it was once again immersed in the mites, everything was restored to tranquility, and the whole process was quick and fast, but less than one breath...but

It was in such a short breathing time that the whole body was once again undergoing earth-shaking changes. Such as

Nowadays, it is no longer a locust, it is no longer a green cicada, but it is turned into a black-skinned tiger, and the air that has been dispersed in the body has become a cosmic sage. territory.....

In addition, even its soulful spirit has now become a black-skinned tiger completely, and there is no scent of locusts, even if it is repaired to the strength of the supreme existence of God. When you look at the exploration, you will never see a half-point anomaly. on

In such a few moments, a cosmic sage has fallen.

For today's magic hall, the cosmic sage is really nothing, in the high-level of the temple, just repaired as the weakest existence. but

The Black Wind Tiger is one of the first batch of generals to follow Ye Xuan, even if it was previously with the Green Bull, the Three-jawed Dragonfly, etc., with the entire starry nomadic army in the emptiness of this piece of land, hiding in Tibet. In his years, he has never fallen, he has never left, and his teeth have been supported...

Nowadays, if the Black Wind Tiger falls on the starry battlefield, Ye Xuan has nothing to say. As a strong star, it has fallen in the Star Wars. It was originally the most common destination.

But now, it is under the eyelids of Ye Xuan, and Xu Xusheng's nest base camp has been silently wiped out. If this matter is known by Ye Xuan, he will not be able to stop and take a break. This is almost no suspense...

Chapter 4875: Identity exposure

In just a few shortfalls, the black wind tiger fell, and was swallowed up by the locusts of the emperor, and the gods were destroyed...

This was originally intended. Although the Black Wind Tiger is already a cosmic sage, it is still too weak for the locusts of the Emperor, even the ants are not as good.

Coupled with the unique blood talent of the locusts, the black wind tiger has fallen, not even being noticed by anyone, and if the locust of the emperor is going to crouch for a long time, the black wind will fall in a short time. The truth, I am afraid that it will always be hidden, basically there is no possibility of exposure...

In fact, Emperor Yi was originally this plan, because this time he used this carefully crafted locust to sneak into the Xusheng forbidden land, in order to explore the truth of the Lord of the Magic Temple to control the squatting beast under the Emperor. that

The head and the wing are not only one of the three great beasts formed by the integration of the Yizu people in the whole mechanical family. They have been repaired to the horror of the ancient and supreme ninth order, which is the half-step heaven.

It is also a mechatronic life body without flesh and blood, or even a god.

The Lord of the Temple of Devils is a flesh-and-blood life. It is not the existence of the same form at all. It can be said that there is no possibility to control by the spirit or to control this way. but

In fact, the Lord of the Temple has done it, and it is also very fast, just a moment of work, the winged beast has been surrendered, and he is completely refining, and the degree of control, even the emperor Not as good as...this

After all the news was sent back to the city of Tianji, the emperor was shocked and immediately felt an unprecedented threat.

After all, the mechanical family of Emperor II and his celestial family are essentially indistinguishable from each other, and are mechanical and electronic life. and

Moreover, under the Emperor Erzhaoh, there is an electronic consciousness. It is a true mechanical and electronic life of the mechanical tribes, with a total of more than 100 million. Even if one third of them are lost because of this winged beast, there are still more than 80 million. number.

However, the emperor's celestial family is different. Even today, the real celestial people of the emperor are only more than 10 million. Each is extremely precious and extremely powerful.

But even if it is stronger, can it be stronger than the winged behemoth with the ruthlessness of the 9th-order?

Even the beak-winged beast, which was formed by the fusion of more than 30 million mechanical tribes, was only controlled by the Lord of the Devils in a flash, let alone the celestial people of his majesty? very

As for the emperor himself, he feels a huge threat, because although he is the patriarch of the celestial family, in fact, in essence, he and the emperor, and any family of the mechanical and celestial beings are actually It's the same, it's all mechanical and electronic life...

It is this kind of threat that makes Emperor feel extremely uneasy.

At that time, the star of the Tianhe star, Ye Xuan, had been mixed into the celestial family. Even when he was not aware of the anomaly at the beginning, it was a scar of the emperor's heart, and it was once the starry sky. The major forces and ethnic groups of the three main planes have been laughing for a long time. straight

Until now, people have been raised from time to time...

This time, there was such a strange situation, and it was more serious than that of the original one. Even the ruins of the ruins of the ancient ruins, the sacred beasts formed by the fusion of more than 30 million mechanical tribes It fell in an instant.

Therefore, even if it is Emperor Yi, he will not take it lightly. If he does not explore the truth of the matter, he will never be easily exposed. Because it will be forced to leave, and then I want to mix it into the Xusheng forbidden land in the same way in the future. I am afraid it will be difficult.This

Once, Emperor Yi had already done a long-term squat in the Xusheng forbidden land until the truth was known. but

He did not think of it anyway, the surprise came so fast, this just sneaked into the Xusheng forbidden land, the truth of the matter, he was accidentally cracked. and

All of this is due to the black wind tiger that he was swallowed by.

The Black Wind Tiger is the top of the Nomadic Legion, the old subordinate of Ye Xuan, and the loyalty has already been verified in the years of the Nomadic Legion's decades of hiding in Tibet.

Therefore, for his true identity, Ye Xuan did not know the high-level nomadic corps of the Qingniu, including the Black Wind Tiger. Such as

Today, as he was swallowed up by the locusts of the Emperor, the gods were destroyed. Although the memories of the original black wind tigers were not completely robbed by the emperor, they were only a small part, about 40%.

The remaining 60% of the memory, as he was swallowed and refining, has been counted by the Emperor's locusts, including the true identity of the Lord of the Temple...

When this memory was read, it was changed to become the emperor of the black wind tiger. The body shape was micro-shock, and the whole brain was banging. For a moment, there was some embarrassment. Wrong...

But he quickly reacted and realized that everything was real.

In other words, the so-called Lord of the Temple of Devils, in fact, is the main star of the Tianhe Star Ye Xuan, the hateful guy who once sneaked into the heavenly family!

Although this fact is shocking, if it is known before, there is basically no one thinking about it. After all, when the five major coalitions joined forces to force the palace to be the demon, the Lord of the Devil and the star of the Tianhe Star Ye Xuan appeared at the same time.

When this happened, Emperor Yi did not, but later heard the details. this

It was only then that he understood that it was no wonder that the Lord of the Temple of Demon had always had a avatar to stay in the Temple of Demon, and that one side would no longer appear.

Originally, it was a kind of cover-up. At that time, the inside of the magic hall must be empty. The **** sea that has never appeared before has become the appearance of the main star of the Tianhe star.

Knowing this, Emperor Yi also instantly understood that the Lord of the Temple of God immediately controlled the truth of the winged beast that was made up of more than 30 million mechanical tribes.

Xuan had killed several official ethnic groups of the Tianzu nationality at the beginning, and it was also the genius of the family, including the patriarch of the Tianji ethnic group. and also

I don't know what method he used. Later, he combined the electronic consciousness of the several ethnic people and refining it into an electronic avatar. when

At the beginning, he was able to smoothly merge into the Tianzu clan, and even the emperor who was the patriarch was not found at the beginning, because of the electronic avatar. Place

The electronic avatar is actually an electronic consciousness, including the emperor and the whole celestial and mechanical family. All the electronic life, the core of its existence, is an electronic consciousness, like the soul of flesh and blood.

With an electronic awareness, you have to wait for an electronic avatar.

Ye Xuan, the lord of the devil's temple, can control the scorpion-winged beast in an instant. It sounds mysterious and mysterious, and it is so strange that it is unbelievable, but the fact is simple and ridiculous. leaf

Since Xuan has an electronic avatar, this thing is very common. There is no such thing as a surprise... even if it is replaced by Emperor Yi, it is impossible to shoot it under the defense.

Chapter 4876: The courage is a bit fat recently

"The **** guy, who went through the sea, deceived everyone..."

After all the truths were known, the emperor changed the plan in an instant, whispering in the whisper, the black wind and the tiger's eyes, the cold mangling constantly swayed, revealing the endless sense of coldness...

According to his original plan, in order to explore the truth, this time the locust avatar is very likely to linger in the Xusheng forbidden land for several years, or even longer. but

Nowadays, the truth that I originally wanted to know has been cracked, and even unexpectedly learned more secrets of the sky, then there is no need to continue to crouch in this Xusheng forbidden land.

Although the locust avatar is only one of his many avatars, but because of the special talent of the blood, there is still a big use, and the emperor is not willing to let him crouch in the enemy camp. If there is an accident, then it will fall. Not good.

However, even if he does not crouch again, he will not be able to leave this quietly. because

So far, he has sneaked into the Xusheng forbidden place and everything is going smoothly. This kind of opportunity will be hard to come by again, even if it is no longer crouching, but before leaving, you can take advantage of this opportunity and do something more. .

For example, launching a sneak attack on Ye Xuan...

The reason why Emperor Yi had this kind of thinking was because he had always hated Ye Xuan, and even had the first cosmic wanted order. but

In the end, Ye Xuan has been happy and happy, and the Tianji people have been reduced to the laughing arms of countless forces and ethnic groups in the three major starry sky planes because of that accident...

Of course, this kind of revenge is only part of the reason why he decided to take this opportunity to shoot, and it can even be said to be a small part of the reason.

At the level of the emperor's existence, there is basically no possibility of making inappropriate impulse decisions and actions because of the anger of the heart.

Now that he has such a decision to take the opportunity to take the opportunity, the bigger factor is that in his view, this time the sneak attack has more than 80% chance of success. Even if it is impossible to kill Ye Xuan in one fell swoop, it is very likely Heavy hit. more

Moreover, through the memory of the Black Wind Tiger, Emperor Yi also knows more secrets. For example, Ye Xuan's possession of Zijinbao medicine, Jiu Cai Shen medicine, and even swallowing one can quickly break through the realm in a short time. The various levels of Baodan...

Of course, a more important clue is actually the cultivation of Ye Xuan... This guy is not the peak of the nine-order grand perfection.

His cultivation is strength, but it is only the eighth-order power. The ninth-order great perfection is completely realized in a state similar to the **** magical power of the lions and lions.

Although the Black Wind Tiger's understanding of this kind of anti-sky **** magical power is not clear, through his memory, Emperor Yi can't be sure that Ye Xuan can always maintain the ridiculous 9th-order great perfection in this **** state. The repair is still subject to certain time limits.

But in his opinion, as long as Ye Xuan is not really late, it will be fine. level

When he was on the battlefield outside, he might be extremely vigilant, but now that the devil is in a big position, he is sitting in his own base camp, and the emperor is approaching as a black wind tiger. In this case, Ye Xuan must have no Any defense.

Under this circumstance, even if his cultivation is really in the late stage of absurdity, it is very likely that he will be seriously injured. Not to mention that this kind of ruthless cultivation is realized by the **** secret method. in

Emperor Yi's point of view, as long as he suddenly shot under his defense, successfully defeated Ye Xuan or seriously injured the temporary loss of strength. that

What else, the other existences in the Xusheng ban will not be enough. Under the serious injury, Ye Xuan will not be able to call out its electronic avatar for the first time, that is, the ruthless ninth-order great perfection. Winged beast.

As long as he did not summon it for the first time, Emperor will not give him such an opportunity...

In the entire Xusheng forbidden land, in addition to the electronic avatars of Ye Xuan's deity and the shape of the beak-winged beast, although there are also the savage level of the black robe and the seven great cults. but

Without exception, they are all first-order in this context. where

I am afraid that I will not be the opponent of the locust.

In other words, as long as he succeeded in this sneak attack, the entire Xusheng forbidden land will be replaced by him. Overnight, the temple will be destroyed, Xusheng will be forbidden, and it will become a paradise for the Tianji people.

What's more, even if the sneak attack fails, and the later ridiculous cultivation of the locusts in the seventh-order world, and the unique blood of the locusts, he can take it with ease and there is no loss.

The benefits are too great, the risks are small, the two are simply disproportionate, and even can be said to be completely incomparable, no matter who they are, they will choose to shoot...

"Ye Xuan, this time... you are in danger!"

"call out....."

In the middle of the Han Mang flash, turned into a black-skinned tiger form of the emperor, a voice whispered, the voice has not yet fallen, the body shape has turned into a masculine rush, after rushing out of the Dongfu, wear Passing through the atmosphere of the Dongfu Star, it leads straight to Ye Xuan's Dongfu Star, which is the life star where the black magic hall is located, rushing away...

...

Inside the Dongfu Star, the most embarrassing one is the towering peak of the sky. There is a black magic hall, the mysterious atmosphere. This black temple is the symbol of the whole magic hall. It is also the cave house of Ye Xuan.

Today, Ye Xuan is in the magic hall, but the seven Yan Xiu and Xuanyuan Ziwei, Duanmu Xiaocha, Zhao Qianru and other gimmicks are not there. They have already gone to the cave house that they selected and excavated within the stars. .

At this time, Ye Xuan did not retreat, so closed his eyes and knees, sitting in front of the magic hall on the edge of a huge stone on the cliff.

He is calculating the specific details of the sneak attack on the nine-headed **** squadron of the Aristocratic Federation.

Ok? Black wind tiger? ”

In the next moment, he suddenly felt something, his brow wrinkled, his mouth was more horrified, he raised his head subconsciously, and looked away toward the distant star atmosphere...

In the line, a figure just happens to rush from outside the atmosphere, and it is a black wind tiger. Do not

However, today's black wind tiger is very respectful, and the figure is also deliberately narrowed down to only a hundred feet, and the speed is not very fast. It seems to be an important thing to report to Ye Xuan.

In Emperor Yi's view, this is all normal. Even if he started from the memory of the Black Wind Tiger, he did not feel that there was anything wrong with it. Although the Black Wind Tiger is only a cosmic person, it is a senior of Ye Xuan. Warrior, still have this qualification to meet him, report the situation..."

Has it broken into the universe? That is to congratulate..."

At this time, Ye Xuan, who was sitting on the boulder of the peak of the Kyoho, suddenly flashed and sneered: "However, your courage seems to be the same as the repair, and it is getting fatter... .."

Chapter 4877: Shocked

Looking up and seeing the black wind tiger, Ye Xuan sitting on the boulder of the Kyoho Peak on the knees, suddenly burst into the air and sneered...

"Breakthrough to the universe, you have to congratulate... but you are courageous, and it seems to be the same as the repair, it is getting fatter!"

At one moment, the emperor's heart trembled, and his body shape shook a little. thing

The situation is not right, the black wind tiger as his resource warfare, just now, has not yet opened, and the emperor asked himself whether he is a look or a behavior, there is no abnormality, Ye Xuan should not say so. Do not

But there is a flaw in the discourse, and even a sneer that has not been concealed in the corner of the mouth. This is clearly the rhythm of anger... There must be something wrong! "

how? I still don't realize what went wrong now? "

At this time, Ye Xuan, who was sitting cross-legged on the opposite side of the giant peak, has grown up in a sneer, and the body kills. mouth

In the words, the meaning of Sen Han is getting stronger: "I have to say that this kind of change is really extraordinary. Even if it is the temple, I can't see any abnormalities..."

However, you should not have the full memory of the Black Wind Tiger? Otherwise, you can't possibly not know that this Dongfuxing, even the old goods of Qingniu, never crossed the atmosphere and took a step..."

"No matter who you are, dare to kill the generals of the temple, today, you will die..."

boom! ”

The last words are still not falling, Ye Xuan's body shape has already rushed out, like a most rapid meteor, the blink of an eye has come to the front, a fist hit, the void is broken in the inch, the earth-shattering roar, deafening... ..

"Is it wrong here? Wrong..."

At this point, after hearing his words, the black wind tiger's shackles flashed a touch of enlightenment, revealing a touch of enrichment that could not be opened.

At the same time, the murmur of the mouth, the body shape, is also rapidly retreating, the blink of an eye has passed through the atmosphere of the Dongfu Star, to the universe outside the stars. "

Boom..."

Ye Xuan in the form of 猿紧紧,,,,,,,,,,,,,
,,,,,,,,,,,,,

In the next moment, Ye Xuan's figure appeared in the void of the universe outside the stars. After the rolling atmosphere was not closed, he once again showed his arm and banged forward.

At that time, Emperor Yi had already reached 100 million miles, and even the appearance of the Black Wind Tiger was no longer. A scorpion-like locust appeared in the line of sight, and the atmosphere that was dispersed in the body was clearly the seventh order of the ancient sage. And

In the vagueness, there is also a touch of the unique atmosphere of electronic life...

"Mechanical mites?"

Seeing this scene, Ye Xuan's shackles also have a glimpse of the fascination. Under the flash of the brain, he immediately whispers: "You are not the emperor, you are the emperor, this is your one... machinery Locust avatar!"

"Since you know the locusts, you should understand that today... you can't keep the deity!"

Being sneaked into the bottom by Ye Xuan, Emperor Yi sneered up, and Huang Xuan looked up and down. He sneered: "When the real performance is a good show, I went through the sea and deceived everyone, Ye Xuan, deity. Will come again, you will be on guard..."

"Hey..."

Oh... "桀

In the laughter, the tentacles on the ridge of the locust suddenly swayed violently, and the low-pitched humming sounded, and it was invisible. A mask came out of it, spread out and shrouded the entire body of the locust. . tight

Then, the gray-black mask flashed, disappeared instantly, and disappeared together. There was also the body of the emperor, which was a worm-like body. The whole process was quick and swift. Without a breath, even Ye Xuan reacted. Not as good as...

"The **** bug! This temple hates bugs..."

Looking at the locusts of Emperor Yi, the locusts were separated and calmly, and Ye Xuan's face was instantly gloomy to the extreme. He was stunned in the middle of the cold, whispering in a whisper, and his head screamed with amazement: "Hey... "

For a long time, he did not like the Stars and Zerg. If they encounter opponents of the same level, and there are Starry Zerg, Ye Xuan will definitely lock the Starry Zerg, the first to kill.

Because the Zerg's blood talent and supernatural powers are too strange, all kinds of, it is simply impossible to prevent.

For example, the locust avatar of Emperor Yi who just fled, and the cultivation of strength, is only the seventh stage of the ancient sage, just entering the late stage.

And Ye Xuan is now in the state of the ninth change of the konjac, even if the body shape is only a singularity, there is no need for a huge amount of 60 million miles in the body, and the first-order blessing of the repairing force is also The peak of the ninth-order grand perfection is deserted.

Under normal circumstances, even if you do not use the avatar power of the blood sea secret method, the three blood seas will be condensed out, and Ye Xuan has enough confidence to leave the locust avatar of Emperor Yi. can

In fact, people are urging the blood of the locusts to disappear, and they disappear instantly in the blink of an eye. Even in which direction they go, there is no trace. In this case, Ye Xuan is even stronger, even the shot. There are no opportunities, and naturally I can only sigh with indignation...

"call out!"

"Hey..."

Ye Xuan's roaring voice just fell, surrounded by the void, there has been a spurt of the figure. turn

First look, six bloody, Zhao Dong, Qian Nan, Sun Xi, Li Bei, and Sangzhizu old and other survivors.

As well as Qingniu and Yuling, Longjing, Gongjun, Lunyueyu, Three-jawed Dragonfly, Longshan Tang, Bloody ancestor, Qingpeng ancestor, Bloody and Qingpeng, War Lion ancestors, etc...

There are thousands of figures in the ocean, all of which are the strengths of the universe and above, and they are also the tops of the magic hall in Xusheng. he

Most of them were retreating and improving, but recently they just finished a breakthrough. They are still preparing for the next retreat. Now they hear the horror of Ye Xuan, and they all come under the shock of the heart. herein.....

In addition, in addition to the Taikoo Porcupine and the Taikoo tortoise, as well as the mosquitoes and old ghosts are not visible, including the black robe, and the Tianhe Legion of Naples, the Emperor Mo Wentian, the devil's uncle, the cursive clan chief , crazy mosquitoes. also

There are Xuanyuan old man, Duanmu old man, Bodhi teacher and other small idle forces and family high-level people, all without exception, all arrived. One

Every look on the face was full of fear, and obviously did not understand why Ye Xuan was so furious..."

The black wind tiger has fallen..."

Turning to look forward, the line of sight will sweep the high-level hall of the magical hall, Ye Xuan's face is more and more gloomy: "The emperor sent a locust avatar to come, for the late stage of the seventh-order situation, and more Can change into any flesh and blood after the devour, even the soul is perfect, it is difficult to discern..."

At this point, his shackles flashed: "In the recent period, the patrol power outside the stars has doubled. At any moment, there must be at least four universe supremes, guarding the Quartet outside the stars, and knowing each other. If you find any anomalies, immediately alert you..."

Chapter 4878: Xuan Ran

"What? The black wind tiger actually fell?"

The zerg just now is actually the avatar of the celestial tribe of the celestial family? "

"The **** guy, actually quietly sneaked into the Xusheng forbidden land, killing one of our generals, this can not be tolerated, must be a tooth for a tooth..."

"Devil Lord, order it, I will wait for the leader to fight, to recruit the heavenly family..."

"Roar!"

"Hey..."...

...

With the fall of Ye Xuan's words, the high-rises of the demons in the front of the sky were suddenly furious, and all kinds of exclamations sounded like the tide, and the whistling sound of endless anger was overwhelming.

All the people are ordered to fight and avenge the black wind tiger...

"The enemy is going to report it, but it is not the time to start a full-scale war with the Tianzu people. Otherwise, the Tiandao League should be stealing..."

"Hey..."

Ye Xuanyuan flashed in the middle of the cold, and waved his hand as he spoke. With the sound of a weak break, four moments of glare came out of his hand. This

The four roads are welcoming the storm, and the half-fee has been turned into a giant scorpion-winged beast with a four-head shape of 50 million miles. The basic form is exactly the same, the person is standing, the wings are like a knife, and the front is far away. The sky is lined up...

The four-winged warrior beast looks the same, but there are subtle differences, and this subtle difference is obviously due to the inclusion of different four-seat squadrons. first

The former four wars are now located in the chest of the four-winged beasts, and it is precisely because of their integration that these four bodies are 50 million miles of giant winged beasts and chests. There are different patterns in front, just like a logo.

From left to right, the logos of the chests of the four-winged warriors are a purple gold veil, a skull with a one-horned beast, a full-length gray slime, and a red **** Blood mosquitoes...

Obviously, these four logos are characterized by the four kinetic groups within the four major wars.

They will be the only imprint of distinguishing these four scorpion-winged beasts in the future. As for the strength, the four-and-fifty-thousand-thousand-thousand-thousand-thousand-thousand-thousand-winged beasts are all only eighty-ordered.

But later, after Ye Xuan shot, after they integrated a war-torn killer in their bodies, their cultivation has once again climbed up, returning to the ancient perfection of the nine-step, that is, half-step heaven and earth...

At this moment, with Ye Xuan calling out the four kings, in the emptiness of the sky in front of them, the tops of the temples were first stayed, and then they became mad. in

After sensing their breath, they all exclaimed...

"this is....."

"Hey! The ancient sacred ninth order is perfect, how is this possible..."

"Isn't there only one person? The four distinct ones are the existence after a decomposition. Why is it that the strength is not half-effect, is it still a half-step heaven?"

"Also, their shapes are subtly different, and there is a logo on their chests. It seems to be a bit familiar..."

Four half-steps, heaven and earth, it's terrible. It's the three **** seas of the Lord of the Lord. Isn't that the temple of ours, and now there are seven half-steps of the seven-step ruins of the ancient and supreme? ""

They are the avatars of the temple..."

As the exclamation sounded, Ye Xuan nodded lightly and said: "Before, the four major battles in the hands of the temple have been integrated into them, so the strength has increased. If it is further combined, it is very likely Advance into the real heaven..."

But that is not appropriate. The green eyes will not be allowed. Therefore, if there is no accident, this will be the strongest form of this temple in a short time..."

From now on, they are the four kings of my demon temple, the Nether King, the Scorpion King, the King of the Year, and the Blood Mosquito King..."

Having said that, Ye Xuanyuan's Zhonghan Mang flashes: "This time I went to the Tianji nationality, the temple will take away two of them, and the other two kings will be separated, and they will sit in the magical hall, including the seven great repairs. In the cave of the temple, the stability of the breakthrough has been stabilized."

But it is estimated that it will be out soon. There are two kings who are separated from them, plus black robes, enough to guard the temple..."

"call out!"

Oh..."

As soon as the words were finished, Ye Xuan waved his hand and swayed among the four kings in the distant sky. In a moment, two of them turned into a mans and fell into his body. He

It is the Nether King and the Blood Mosquito King...

The other two sorcerers and the kings of the ages turned at the same time, and they passed through the atmosphere of the Dongfu Star in the blink of an eye and entered the stars. They disappeared...

After all this, Ye Xuan turned to the top of the high-definition halls in front of the sky, and then read a little, no more words, the slightest jaw is said to have greeted, and then the body shape, immediately turned into a volley And go, disappear at the end of the line of sight...

.....One

It's a daze to spend the day! only

It is this day, this piece of vast and innocent land of wasteland is empty, but it is doomed to be calm, and it will set off an uproar...

One of the locusts was indeed gone, and failed to return. It did not successfully take this opportunity and caused some kind of unexpected blows and injuries to Ye Xuan.

But this time he sneaked into the Xusheng forbidden land, but it was not without gains. On the contrary, his harvest can be said to be extremely huge.

It was this trip to the Temple of the Devil that let the Emperor's Cave know the true identity of the Lord of the Devils... He is the Lord of the Stars, Ye Xuan, and the two are one, and they have passed the sea and deceived everyone!

This news is cold and unremarkable. It seems that there is no use for Emperor Yi, but if you think about it, its meaning is absolutely not the same. because

It is composed of the merger of Star Alliance, Wan Clan Alliance and Terran Federation. These three alliances are the major ethnic groups and forces from the three stars of the world.

Their relationship with the main star of Tianhe, Ye Xuan, can be said to be difficult.

But in general, before the appearance of the void crack in the second universe of the Yin Demon, the relationship between the main star of the Tianhe Star and the major groups of the three major planes has basically been repaired.

Under this circumstance, if the top leaders of the three major leagues, especially the tops of the two camps of the Terran, know that the Lord of the Temple is Ye Xuan, they must spurt blood on the spot.

This is simply too odious. I have always used them as monkeys. I haven't thought about the half-year-old feelings. In this way, after entering the emptiness of this piece of land, the grievances between the three major leagues and the magic hall. Under the new hatred and old hatred, Tiandao League has a great possibility of breaking out again with the Warlord.

This is obviously the result that Emperor Yi and the entire Tianzu are willing to see. Once the war starts, no matter which force he wants to deal with, he can secretly shoot...

It is with this purpose that Emperor Yi's locusts have just returned to Tianji City after they rushed out of Xusheng's forbidden land. The first time they sent a large number of intelligent robots to disguise adult and fierce beasts. Message. One

Between the nights, the whole piece of the ruins of the heavens and the earth was completely stunned, and it caused a shocking uproar...

Chapter 4879: New hatred

With the spread of the news of Emperor Yi, the whole piece of the ruins of the heavens and the earth was in vain, and the uproar was set off. The reaction of Tiandaomeng was the biggest. The first time the news came, the top three forces of Tiandaomeng gathered together. Together, an urgent meeting was held...this

At the time, the Central Region of the Terran Federation, a giant life star, the peak of the giant peak, the headquarters of the Federal Headquarters, there are dozens of figures gathered to carry out urgent consultations.

The figure that is qualified to participate in this hall is all the ancient power of the Federation of the Terran, a total of more than forty, and the Emperor II who has just broken through to the abandonment of the past is also here.

The other six ancient ruins of the Terran Federation, this time still did not show up, except for the Emperor II, the immortal emperor, the heavenly palace, the lord of the palace and the glory of the temple, the blazing scorpion, also the first corner of the high seat...

In addition, the other two directions in the first one are four or five figures. The four figures on the left are all human beings from the body shape, but the body is filled with a fierce beast that is thick and inseparable. It is the four ancient supremes from the Alliance of Ten Nations. he

They are from the four major groups of Hell ants, space rats, giants and evil spirits in the first universe of slaves.

As for the cultivation of strength, they are all in the midst of the Middle Ages, the weakest. For this fourth-order, the strongest is the sixth-order. and

The five figures on the right side are also the appearance of the human race, but the breath of the body shows that they have the blood of the starry beast, and they are extremely rich. Minute

Don't be the five ridiculous old monsters from the Star Alliance, the **** unicorn, the nine sacred crocodile, the nine-headed bloody, the blue sky Dapeng and the blood-sucking lion. This

The five old singers are not weak in their cultivation, and they are also the ancient sacred places. The weakest is the first step of the sacred, and the strongest is the seven steps of the ridiculous. whole

Within the hall, a total of nine ridiculous geeks would not have gathered together easily, but the news from this time was really amazing. The nine monsters of the Star Alliance and the Alliance of Nations have left for the first time. The directional star-studded wormholes built in the depths of the three major leagues rushed to the scene.

At the moment, as the meeting unfolds, dozens of high-level members of the heavens and universities in the hall, the look on their faces are not very good-looking, and there is a deep resentment in the gloomy, especially the **** unicorn and the nine-spotted crocodile. The collapse is loud..."

I can't think of the Lord of the Devils, Ye Xuan, oh..."

After that, Emperor II first made a sound, and said that half of the sighs, revealing the meaning of endless desolateness: "Speaking of it, in the immortal star, the relationship between the old man and the kid is not bad, I did not expect it to be so now. tease.....""

If the news is not released by the Emperor of the Heavenly Kingdom, the old man can hardly believe it... I must have been imperial because the scorpion-winged beast was controlled by the moment, and the police were sneaked into the Xusheng forbidden land. I thought of unintentionally discovering this shocking secret..."

"However, since the Lord of the Temple is Ye Xuan, then he can understand the matter of the winged beast in the past. After all, he had already mixed into the celestial family, and even the emperor was fooled. , sealed him as the patriarch of the Tianji ethnic group, leaving a laughing stock..."

That guy should be the official tribe of the slaying of the celestial family, taking its electronic consciousness, and then, after smelting an electronic avatar, he can still do it..."

Speaking of this, Emperor II did not say much more, and turned to look at the top of the heavens and universities in the temple, and his face showed a faint smile.

This is indeed a bit strange. Not long ago, Emperor II had suffered a big loss in the hands of the Lord of the Temple, and lost one-third of the mechanical tribes. Now he knows that the Lord of the Temple is Ye Xuan, who has been being played. It is even more furious, but at the moment, there is a clear feeling of incomparable. thing

In fact, the current Emperor II is indeed determined. in

Knowing that the Lord of the Temple of Devils was Ye Xuan, his heart was extremely angry and incompetent, and one-third of the mechanical tribes lost. This is not a general pain.

But now, after knowing that the Lord of the Temple is Ye Xuan, the Emperor II is not worried, and even his heart is happy, because in his view, the former loss of a third of the people is only temporarily. Ye Xuan's hands only. Do not

It will be recovered after a long time, and it will take back more, including everything that belongs to Ye Xuan now, and at that time, it will fall into his hands... and

All of this, no one knows at the scene, even the immortal emperor, just knowing Ye Xuan's body, there is a devouring system that Emperor II broadcasts out.

But for the true bottom of this phagocytic system, the immortal emperor knows only the fur...

The atmosphere in the main hall was a bit strange. The other high-level leaders of the Tiandao League turned to look at each other and looked at the emperor's eyes deeply. They obviously felt abnormal in their hearts, but did not ask much. This is not suitable. . very

Fast, everyone threw it away, thinking of Ye Xuan, the nine **** stars from the Star Alliance, Qingtian Dapeng, blood-sucking lions are gnashing their teeth, hate again and again..."

I don't think it's that guy, it's really awful to play all of us..."

New hatred and old hate come together in the heart, simply hate that he can't be ruined immediately..."

Speaking of it, the deity had not been injured before he was born, he was counted by him. The guy actually sent a drop of evil venom through the streak chain of the furnace, and almost killed the father and son together...

The person who spoke later was nine bloody. His words were not okay. When he mentioned this matter, the **** unicorns and the nine savage crocodile bodies were all smashed.

What were the nine **** scorpions that were harmed by the evil venom? To be honest, the **** unicorn and the nine sacred crocodile were even more devastated. At that time, under the wrath, they also sent a sacred stalk to the depths of the sinister source, but unfortunately Find Ye Xuan...

Now, after knowing that the Lord of the Temple is him, the resentment of the heart can be imagined.

On the side, the ridiculous old faces from the Allied Alliance Hell ants, Space Rats, Giants and the evil spirits of the Slims are also extremely ugly. To put it bluntly, the first three of them are still with Ye Xuan. After the alliance, although it is not finished, but in their view, just to read in that sentiment, Ye Xuan should not be so fierce they are right... but

Compared with the **** unicorn, the nine sacred crocodile and the nine-headed bloody, their resentment is obviously a little lighter, and the mind of the heart is naturally stronger.

After exchanging a look, I immediately sounded a reminder..."

Everyone, be calm, don't take the trick of Emperor I..."

"Yes, Ye Xuan and the Magic Hall can't let go, but it's not the present. We shouldn't have the bird in the matter, or let the Tianzu people fight with him for a while. This time the magic hall is beaten, with Ye Xuan. The temper is definitely not going to stop."

"If there is no accident, the war will soon erupt. I am waiting to sit on the wall. It is fun, even watching the situation sneak up in the late Xusheng ban, it is okay..."

Chapter 4880: Five half-steps

Tianji, Tianji Star! This

The star field is extremely wide, hundreds of billions of miles in and out. Although there are countless abandoned stars, there are not many life stars, so they have not been seen by the five major leagues, and even some small forces and ethnic groups have not looked up.

But for the Tianji people, this is the best place. short

Less than a year later, as the Tianji people descended on the ruins of this ruined land, numerous mechanical beasts and intelligent robots were transformed. Now this star field has already been transformed into a mechanical world, and numerous abandoned stars are mechanical. Giant City, the robotic beast of intelligent robots. Virtual

In the air, it is full of all kinds of mechanical beasts. The form is very incomparable and overwhelming, just like entering a vast ocean of mechanical creatures...

Today's celestial family is completely different from nearly a hundred years ago, and the total number of warships that have been modified has exceeded 100 billion.

Among them, the official Tianzu ethnic group has more than 10 million giants, and can change into a metal sphere in the form of stars at any time, or various mechanical beasts with different shapes! only

More than a million people, the number is really not too many, but without exception, all are the cultivation of immortality, in which the universe is tens of thousands, the universe is nearly 10,000, the universe is nearly ten thousand, the ancient power There are nearly a hundred!

As for the number of the ancient Supreme, the present is still unknown, but it is absolutely there. At least, when it was changed from a star wormhole to a giant dragon, it will be able to sense a few hidden sorrows. !

In addition, from the fact that a locust of Emperor Yi has the late stage of the ruins of the ancient sect, the sorrowful and powerful of the celestial beings, I am afraid that there are not a few, and basically they should all be the avatars of the emperor.

He is a mechanical electronic life, can be avatars, and after entering any mechanical and electronic equipment, he will wait for more than one avatar...

Here, even the top of the Tiandao League, which is close to 100 billion miles, is not easy to enter.

But today, since the Tianji nationality battle, according to this star field, after the base camp, it ushered in the first outsider, and there is no hidden body shape, swaying from the distance, running straight away... "

Oh..." with

With a sharp and unspeakable sound, a glare came from a glare, and the blink of an eye was close. It rushed directly into the star field where the celestial family was located. The figure was the master of the temple, a fierce atmosphere. The mighty temper of Haotian...

"Roar....."

"Oh la la!"

As the advent, the body of the Lord of the Devils stops in the void!

Then there was a slap in the water, and his entire figure instantly collapsed and turned into a **** sea, spreading over the corner of the universe...

"Roar!"

"Roar!""

Oh..."speed

The degree is too fast, almost in the next moment, from the three different directions of this vast sea of blood, the sound of screaming and screaming.

In the boundless blood of the sea, there are three huge figures in the blink of an eye, which are instantly set in the ground, which is the three great devils of the Taikoo konjac...

The flesh and blood, that is, the starry sky! skeleton

The bones of the bones, without any flesh and blood, are just a purple-golden cheekbones, revealing endless fierce breath, very incomparable!

The body of the black mist is a black fog, and even a pair of scorpions are just two awnings, which are very strange!

Between a short break, the three **** seas have been condensed, and the body's refinement is breathtaking, and all of them are all ruthless and supreme. and

If it is coupled with the blessing of the huge body of 60 million miles, the three blood seas are still not in the heavens, but they are absolutely the most powerful. "

Roar! "

At this moment, the body shape just started from the **** sea, the flesh and blood in the three **** seas were violent, and they suddenly screamed and raised their fingers to the front, their sounds were cold, revealing endless 睥睨: "Emperor ... roll out a fight!"

"call out!"

Oh..."

The sound has not yet fallen, and the violent has already waved again. With the faint sound of breaking the air, two moments will be rushed out of his hands. Milli

Mang Ying storms up, and the half-interest has been turned into a giant giant winged beast with a body size of 50 million miles. The basic form is exactly the same, the person is standing, the wings are like a knife, and the word is in front of the sky. Row out...

And these two heads of 50 million miles of giant winged beasts, each with a different pattern on the chest, like a logo. left

The logo of the chest of the side flapper beast is a purple-gold void emptiness scoop, which is a void king! and

On the chest of the right-winged warrior, the logo is a **** and **** mosquito, a **** mosquito king! This

At the moment, the five figures in the void were arranged in a row, all of which were the avatars of Ye Xuan. As for the strength, they all reached the great perfection of the ruins of the ancient sage, that is, the half-step heaven. Fives

Respect half a step, the word is lined up, and the sky is empty! Such as

This scene is too astounding. It has not appeared in the vast void of this vast and innocent land of ruins.
With

With the appearance of this scene, the horror of the five-and-a-half-step heavenly powers spread away, and the entire star-shaped field of hundreds of billions of miles shook a little. "

boom! ""

Oh..."

Almost in the next moment, in the void in the vicinity of hundreds of millions of miles, some intelligent robots wandering back and forth in the void, because of the weak strength of repair, can not resist such a terrible pressure, directly exploding and dying. and

More powerful mechanical beasts are provoked by fighting spirits. They are not real celestial people. They only use the advanced intelligent robots of the forged mechanical warfare form of those wild and precious spirits. Consciousness, so even if we face five powerful half-steps at the moment, there is no fear, and there is no such consciousness at all..."

Card 噼噼..."

Rumble! "

At this moment, with the passive activation of the fighting state, there are all kinds of mechanical beasts with thousands of heads and bodies in the sky.

A thunderous sound came out, accompanied by the intensive rain of the card, and the warships in the surrounding air all began to change shape, while the various internal equipments were also shifted, and the molecular structure of the alloy material. Changes occur and density increases.

Between just a few short breaks, a huge ship of starry sky and space is all turned into a mechanical beast with a head and a head. The body is not the same, but the breath is not weak. In this form, it can move and move. More flexible than the state of the warship... this

The scene is so amazing, looking at it, in the mechanical sea of hundreds of billions of miles away, the five large-scale, amazing breath of the half-step heavenly strong stood in a row of empty space.

And in all directions, it is a mechanical ocean congested by countless mechanical beasts. It looks so chilling and shocking...
