

## Super D. S 488

Chapter 488: Time is tight

This elder Li only got through 34 grounds. Now Ye Xuan is three times higher than him. The latter already has the strength to kill him.

At this time, Elder Li was already suppressed by a demon king, and he was beaten to death, and he was at risk of being possessed at any time.

"Hey!"

Suddenly a muffled sound spread, this demon king was shaken a bit, it is the supernatant of the elders of Li, and it is precisely because of these supernatants that Li Elder can persist until now.

Unfortunately, this clearing is already the last one.

The devil's claws once again stretched out. This time, it must be attached to the elder Li. Li Chang's face was gloomy. He understood that he was afraid of being a fierce one.

However, it is at this time.

"Clear the enchantment!"

Suddenly a few powerful swords swept away, and instantly smashed on the body of the demon king. The magic body of this demon king had a big shock and collapsed.

Spike!

"what?"

When Li grew up, he turned his head and saw a masked figure swiftly rushing toward him, then put the magic king's magic beads away.

This mask man who saved Li's elders is naturally Ye Xuan.

But when Elder Li was ready to give thanks, Ye Xuan plucked him in front of him and took it away before the other party reacted.

At the time of the Tang family, Elder Li seized Ye Xuan and then threw Ye Xuan into the magic cave.

However, when Dang Yexuan entered, he gave Ye Xuan a clear character. This Qing Fu saved Ye Xuan's life, so now, Ye Xuan saved him as a reward for the reconciliation.

Now, Ye Xuan is in the boxing of the Tang family, taking away the elders of Li.

"Ray you a life!"

Ye Xuan's heart was cold and sighed, and after he glanced at Li's elders, he quickly left.

Elder Li was also embarrassed. Ye Xuan killed the demon king, indicating that he was not possessed by the monster. But what he could not think of was that Ye Xuan actually saw the financial intention and took away his shackles.

Most importantly, he also felt that the mask man was a bit familiar and seemed to have seen it.

He took away the shackles that Ye Xuan had left, and found that the things inside had disappeared, leaving only a few bottles of healing drugs.

"This....."

Li Chang Lao's eyes widened. He recognized his own ring, but how many things have disappeared inside?

.....

After Ye Xuan left, he quickly rushed toward the powerful atmosphere nearby. These powerful atmospheres were some of the devils, and some were the elders of the Shangqing Palace. Anyway, Ye Xuan would have a harvest every time he passed by.

When Ye Xuan robbed all these people nearby, he finally got through the 38th.

Although it is said that the situation is urgent at this time, he is a little bit arrogant, but if his strength is improved, the contribution will definitely be worthy of the addition of these elders.

He turned a few laps over the Shangqing Palace and found a lot of devils, but he did not find a more powerful demon than the devil.

It seems that the demon Lord has been mixed in the army of the monsters and left.

Sirius Island, I don't know if I can spend this robbery.

Ye Xuan also left and began to pursue those monsters.

This monster army is breaking through the seal, and after seeing the sky, it is scattered and scattered in all directions. Even if human strength is strong, it is impossible to intercept them all.

Ye Xuanfei went to a city near the Qing Palace. Sure enough, this city has been invaded by monsters and screams.

The monsters can be attached to humans, and even if human beings are killed, they can survive and continue to be attached to the next person.

After the magic object invaded the city, it was attached to the human body, and then madly attacked the surrounding humans, even the ordinary people did not let go.

"It seems that Sirius Island is over..."

Ye Xuan shook his head helplessly.

There are millions of monsters in the army, each of them is comparable to the strong, and the power of the island on Sirius is probably not even 100,000.

Moreover, even if the monsters are attached to the gods and gods, they can make their strength soar.

Therefore, Sirius Island can't resist the magic object. I am afraid that it will not be out of time, and the entire Sirius Island will be destroyed.

Ye Xuan in the air also felt it. He found that there was no powerful monster in this city. At most, the level of the devil would be, so he turned around and left.

It is not that he does not want to save these people, but because he has more important things to do.

After the human being is possessed by the demon, it can be understood as a person who enters the devil. Such a person leaves consciousness and kills when he sees people.

If the island of Sirius falls, they may kill other islands.

Therefore, what Ye Xuan is going to do now is to kill the Tang family and prevent the things in the Tianshui mainland from leaking out. Moreover, it is necessary to investigate who the Tang family reported to the Tianshui mainland.

However, Ye Xuan himself estimated that it should be reported to the lord of the Sirius collar, after all, Sirius Island is still the lord.

Anyway, it is absolutely impossible to expose the position of the Tianshui continent, even if the entire Tang family is destroyed.

Although there are many innocent people in the Tang family, the number of people on the Tianshui continent is hundreds of millions. If the magic object finds the Tianshui continent, then it will be finished.

At the moment, Ye Xuan is flying in the direction of the Tang family.

On the same day, Elder Li took him and arrived in the two-day road. This time, Ye Xuan rushed to the Tang family in less than half a day.

The army of the monsters has just emerged from the world, and it is still in danger of smashing the city and sects around the Qing, so it is impossible to come here.

Ye Xuan directly plunged into the main house of Jinwucheng City and directly found the old owner of the Tang family.

The old master was still dealing with the affairs of the family. After Ye Xuan appeared in front of him, he almost scared the heart disease.

"Hello, you are..."

The Tang family's old master was eclipsed. He had already opened up twenty-nine veins, and Ye Xuan was able to come to him silently, and his strength would have greatly exceeded him.

"I ask you, who knows about the island of that day?"

Ye Xuan asked coldly.

"Tian Shui Island?" The face of Tang's old master changed. I don't understand why Ye Xuan would ask this question.

"Hello, you..."

The old man of Tang's family spoke, but before he finished, there was a sword that hit him and cut his arm directly.

"I don't want to listen to nonsense. Who knows about Tianshui Island, and who you reported it to, list it for me, otherwise I will kill you Tang!"

Ye Xuan's tone is tough and can't be rejected by the Tang family.

"Yes....."

Tang's old master swallowed his mouth and hurriedly took out paper and pens and began to name them one by one.

Soon, he listed a list.

"There were a lot of sailors on the island that day, I only listed my Tang family..."

The Tang family gave the paper to the past.

Ye Xuan glanced at him and said, "Are you sure you are not hiding?"
