Chapter 489: Lord of the Lord

"No!"

The old man of Tang's family solemnly nodded.

"It is good!"

Ye Xuan is also nonsense, cutting his head directly with a sword.

This time the situation was urgent, Ye Xuan had to take this approach. After he took away the Qiang Kun ring of the Tang family, he quickly left and looked for the people on this list.

I have to say that this is a huge project, because there are thousands of people who arrived in Tianshui Island on that day. Some of these thousands of people are not in Jinwu City, so Ye Xuan cannot kill them one by one.

Therefore, he can only kill those who have strong strength. After all, the average person only knows that there is Tianshui Island, but he does not know the specific location of Tianshui Island.

Ye Xuan turned around in Jinwu City for about a day before killing people on the list in Jinwu City.

One day later, the army of the magical creatures arrived at Jinwucheng.

Looking at the dense black shadow of the sky, Ye Xuan's face sank and then killed.

"Hey, the host has opened the thirty-ninth line!"

After cleaning up this large group of monsters, Ye Xuan quickly left, this time his goal is Sirius City.

The Tang family fleet found the new island, naturally it was reported to the lord of the Sirius, and received a reward, so Ye Xuan had to do it again.

Fortunately, Sirius City is far apart. In Ye Xuan came to Sirius City, there is no magic object intrusion.

The Lord of the Sirius is a master who has opened more than 50 places, but this does not pose a threat to Ye Xuan, because he is not in the city of Sirius.

Ye Xuan directly rushed into the main government of Sirius City, began to investigate the matter of Tianshui Island, the entire city government has been smashed up, the monster army has not yet killed, they were stunned by Ye Xuan, but unfortunately, no one can stop I can live in Ye Xuan.

After Ye Xuan killed all the insiders, he also opened the 41st. At the same time, he also learned that the Lord of the Sirius went to help the Qing Dynasty.

"Do you know the Lord of the Sirius? It seems to be awkward!"

Ye Xuan, who was in the main house of Sirius City, was blinded by the news.

The matter of Tianshui Island, if it was before, he only wanted to find the celestial lord to get a sigh of relief. The other party will certainly not be confronted with Ye Xuan for such a barren island.

Now, the Lord of the Sirius is going to help the demon, and if it is possessed by the demon king, it will be troublesome.

So, this person is also going to die!

However, now Ye Xuan does not know where he is, so he can only start to squat on Sirius Island. In addition to finding the wolf lord of the day, it is to kill the demon lord and upgrade the devil.

The magical army has not yet killed, Ye Xuan is killing in the direction of the Qing dynasty. However, he has been looking for a period of time and saw countless fallen cities, but he has never found the high-level figures and the celestial lords of the Shangqing Palace. After all, even if he wants to cross the island of Sirius, it will take several days.

In desperation, he can only continue to kill those monsters and save people from the fire.

He began to madly kill the monsters to upgrade, although the experience of the magic soldiers will be small, but with the death of human beings, it is worth a lot.

At this point, he has already returned to Jinwucheng.

It's been more than a day since the magic army broke through the seal. Ye Xuan estimates that those cities and sects that are closer to the Qing Palace may not be able to hide, and all will be destroyed.

It seems that Sirius Island is indeed in jeopardy.

However, just as he was about to leave, the sky suddenly came with a loud noise.

"There are strong players in the fight, it should be at least the level of the devil." Ye Xuan brow wrinkled and rushed in that direction.

The next moment, his face was a condensate, because he felt a few strong breath.

found it!

This is Ye Xuan's first thought.

He felt that there were a total of five strong breaths, and they were stronger than him.

At this time, he has already opened up the forty-two local veins. He is better than him. There is not much.

At the moment, he was fully rushed to the past, and soon he saw five figures in the fight.

Three dozen two, no, it should be two dozen!

Two old men wearing costumes in the upper gate of the Qing Palace are teaming up against the three. There are also two of the three men who wear the Shangqing costumes, but they are only the Qing Palace on Sirius Island.

As for the other person, it is a burly man.

Ye Xuan's light is condensed, and the burly man is the lord who he is looking for.

"It seems that the two have been possessed, and one of them is probably the devil..."

Ye Xuan's heart guessed that he could feel the magic of the two old men.

At the same time, he can also see that the three men on the Lord's side of the Sirius are in a weak position and have been beaten back.

"The devil and the demon king, both have been possessed, and the strength is very strong. If I join in, I should be able to reverse the situation. If I can get the ring of these two people, my realm may be able to improve again. The three men swallowed up the demon Lord and solved the other three afterwards..."

Ye Xuan is planning in the heart.

This plan is very simple, that is, to help the humans to kill the devil, and then break through the face and then kill the Sirius lord, to capture the three-person ring.

This plan is perfect because he believes in his own strength. As long as he joins the human side, the situation will definitely be reversed by him.

He hurried to the five people, but what he did not expect was that when he arrived, one person was killed and the body fell from the air.

The dead is not the human being possessed by the demon king, but an elder of the Shangqing Palace.

"not good!"

The Shang Palace and the Sirius leader changed their faces.

Not only that, but Ye Xuan is the same.

Originally, he still wanted four-on-two. Now even if he joins, it is also three-on-two.

However, he quickly swept the past. He took the ringless body that had fallen from the sky and took it away, and then quickly went to help.

"Is it an enemy or a friend?"

The Shangqing Palace and the Lord of the Sirius looked at each other and waited until they discovered that Ye Xuan's attack on the Lord's Lord was clear. Ye Xuan was a human being, and they were on one side.

"Full resistance, waiting for support!"

The Emperor of the Qing Palace shouted, and he did not notice it at all. Ye Xuan was the goods that was sent to the Magic Cave by Elder Li on the same day.

"There is another one to die. Hey, if I have just awakened, my strength has not recovered to the peak, you are already dead!"

A white-haired old man is loud.

He is now the Lord of the Lord.

The elder of the upper gate of the Shangqing Palace has opened up to 47 veins. However, after being possessed by the demon Lord, his realm is soaring, and he is the force of two more than 50 geodesic. The Qing Palace and the Lord of the Sirius.

The devil is against the two masters, and Ye Xuan's opponent is naturally the human being possessed by the demon king.
