

## **Super D.S 4891**

Chapter 4891: Tiandao Qingyan is releasing water

"Boom..." high

In the empty space, the second horrible roar came again. The projection of the heavenly eye disappeared, and it was hidden in the darkness. Even the void crack disappeared.

However, the last time the emperor's army was under the eighth integration, the projection of Tiandao Qingyan seemed to be the same.

But I don't know why, this time, Ye Xuan clearly felt that it was a sense of rush compared to the previous one... No

Knowing that because Tiandao Qingyan is busy with other arrangements, there is no such thing as an unknown reason, but in any case, for Ye Xuan, it is not a good thing, and the feeling of anxiety in his heart is strong.

It can be said that the whole heart of this moment has already mentioned the eyes of the blind.

He did not know whether Emperor Yi's success could be successful, but he was very nervous about it. because

For the two different results, the meaning gap represented is too big, and it is simply a matter of heaven...

With a strong worry, Ye Xuan's five avatars turned to the same time, taking back the sight of the void that had disappeared from the sky at the height of the sky, and turned to the front of the line of sight nearly 100 billion miles away...

Before, with the blue-eyed projection of the Tiandao Qingyan projection, the blue-colored electric awning was turned into a vast and innocent blue ocean. The front of the virtual air was merged by the whole celestial family, and the size exceeded 400 million. The mechanical behemoths, a few of them for

a moment, were completely overwhelmed by the majestic electric sea that was poured from the sky at the top of the head. Such as

Today, this piece of blue and majestic electric sea is still raging, covering a vast void of tens of billions of miles away.

This whole piece of void is turned into a blue electric sea, and nothing can be seen. Only the endless blue color is turned into a sea of raging waves, and it is roaring.

One hundred billion miles of a huge blue sea of thunder seas, the body of only about 400 million miles of mechanical behemoths into it, dare not say that like a mud cow into the sea, I am afraid it is similar.

At this point, the shadow of the mechanical behemoth could not be seen at all, but the whole heart of Ye Xuan hanging in the eyes of the blind man did not fall for a moment, because he knew that this vast and innocent blue sea did not dissipate. Everything...it's not finished. this

At this moment, the endless horizons of the endless distance have already completely fallen into silence.

A hundred billion miles away, countless celestial warships, star plugs, and ordinary mechanical beasts emptied into the void, spreading to the end of sight. eye

The scene before this scene was too horrible, the loud noise was so loud, and it was ringing all the time. The blue sea of electricity always had a continuous roar of sounds, which made people feel tremble...

Even the massive warships, the star plugs, and the ordinary celestial warriors who are surrounded by the surrounding are not as intelligent and self-conscious as the official tribes of the tribe. but

At this time, they all seem to have been shocked by the shocking scene in front of them. This corner of the ruins of the heavens and the earth is empty, except for the screaming screams of the blue thunder sea that shrouds the tens of billions of miles. Other infinitely vast areas are actually needles. Smell, silently trembled... look

With all this, I feel the silence in the void to the terrifying and strange atmosphere. Ye Xuan's mood is getting heavier and heavier...this

At that time, his mind showed the scene of the eighth fusion of the mechanical army under Emperor II, trying to hit the heavens.

At that time, after seeing Tiandao's own eyes and verifying his own guess, Ye Xuan did not wait for the blue thunder sea that covered the body of the giant behemoth to dissipate, and left early.

After he left, the piece of blue electric sea was full of tens of thousands of interest before it dissipated.

According to the black robe, at the time, as the blue electric sea dissipated, the horrible behemoth that only finished the final internal fine-tuning to complete the eighth fusion also showed its figure, but it had already merged. Together, the horrible body of Panda's 400 million mile round has been torn apart and turned into more than a dozen mechanical beasts of various sizes. This

Originally, it was the meaning of the intention. The purpose of the sudden arrival of Tiandao Qingyan is that the reason why the mechanical behemoth of the Emperor II mechanical family is divided is that the hard life is suppressed by the heavens and the eighth fusion is interrupted. ....

Undoubtedly, the interruption of this forced external force intervention is hard to imagine for the emperor who gathered in the horror beast and the more than 80 million people of his majesty. green

After the disintegration of the color of the sea, the body of the emperor was embarrassed and almost seriously injured.

Moreover, according to the estimation of the black robe, the tribes of more than 80 million mechanical families may have fallen at least tens of millions. mine

After the disappearance of the sea, the dozen or so large-scale beasts after the four-point split have different wounds, but they are all shocking...

Such a result is consistent with Ye Xuan's judgment. Although it was only a blue lightning at the time, it was the handwriting of heaven and earth, representing the suppression of the will of heaven, and the power could not be underestimated. and also

It is for this reason that after Lei Hai's dispersal, Emperor II did not dare to stop for a moment. The first time he took the dozen or so mechanical beasts and hurriedly turned around, and the wolverine fled. Until now, he has never renewed his head. Display

However, the loss of that time was too great, and it took a short period of time for the entire mechanical family under its command to be slightly relieved...

According to the situation at that time, if there is no accident, the film is still still raging in the blue thunder sea, at most, after a few dozens of interest, it will dissipate. and

With the disappearance of this piece of Leihai, the overall integration has basically been completed. Only the internal fine-tuning of the Tianji nationality mechanical beasts, which should continue, should be the eighth with the mechanical family of the Emperor. Like the second integration, not only failed completely, but also suffered heavy losses...

But I don't know why, Ye Xuan's heart always has a strong intuition, which makes him extremely uneasy.

He feels that this time, it is very likely that it will be different from the one that was recently launched by the Emperor's second generation of the mechanical family...

There is no reason for intuition. He just thinks that the emperor knows the result of the fusion of Emperor II not long ago. Under such circumstances, with his secrets and the city, if he is not sure, how can he be recklessly step by step? After the dust?

That time, Emperor II failed. Such as

If the results of today are different, then the only result of the integration of the Emperor's forces in the whole world will undoubtedly be success...

Once all this is true, then the vast situation of this piece of ruined land and debris will change again in an instant, and the impact will be enormous. It is simply unimaginable. number

It's just a matter of interest, and the dazzling work has passed.

At this moment, the shocking roar of the front came suddenly, and the blue thunder sea that covered the tens of billions of emptiness was dissipated in the blink of an eye. The mechanical behemoth of the emperor's one-man family showed its figure.

Almost at the next moment, Ye Xuan took a sigh of relief and screamed: "Damn, heavenly eyes... really water!"

Chapter 4892: Heavenly beast

"Damn, heaven and green eyes... really water!"

The shocking roar of the front came suddenly, and the blue thunder, which shrouded the tens of billions of emptiness, dissipated between the eyes. The mechanical behemoth of the imperial family showed up in shape, and Ye Xuan took a breath and was shocked. Call...before

Fang, in the void of tens of billions of miles away, a powerful atmosphere is coming with the dissipating of the blue thunder sea! where

I am afraid that Ye Xuan had previously encountered in the emptiness of Hongmeng, and has restored the virtual giant tortoise that was repaired at the beginning of the peak. It is infinitely close to the existence of the heavenly environment. The repaired atmosphere in the body is more sensitive than that of Ye Xuan. ... are slightly worse! day

The realm!

The mechanical behemoth that the emperor combined with the power of the entire celestial family has broken through to the heavens!

This is absolutely not normal, Ye Xuan heart suddenly has a clear understanding.

At this moment, he remembered the star blog. When he met Xingbo in the Hongmeng Star Field, the old guy was clearly with the green eyes and the blue eyes. It was obvious that the two were a group.

Not long ago, when the mechanical beasts under Emperor II launched a fusion and impacted the heavens, the blue sky and the green eyes descended with a projection, which caused the Emperor II to suffer heavy losses, and the impact on the heavens failed.

Since then, Ye Xuan's suspicion of Emperor II has almost disappeared. He does not think that he and Xingbo are a group. As for Emperor Yi, he has doubts, but since Emperor II has not colluded with Xingbo, Then the possibility of Emperor Yi is even smaller.

However, the facts are so amazing. The ridiculous Tiandao Qingyan suppressed the Emperor II, but released the water to the Emperor. This alone is enough to illustrate the problem.

In the three major star-space planes of the world, it has been rumored that Xingbo was killed by the emperor, and the emperor II was opposed to the emperor. He was always with the Terran, and served as the national teacher in the immortal dynasty of the Terran Science and Technology camp. but

Now it seems that the fact is not the case. The possibility of collusion between Emperor II and Xingbo is very small. On the contrary, it is Emperor Yi. There is a possibility that there is a secret relationship unknown to the outside world between Xingbo and Hongtian Tiandao.

Realizing this, Ye Xuan's heart suddenly became extremely heavy. Xingbo, Hongtian Tiandao Qingyan and Emperor Yi were trying to figure out what he was trying to do. He didn't even know that they had any special arrangements.

But now the Emperor has combined the mechanical behemoths with the power of the entire celestial family, impacting the heavens and the world, and even succeeding because of the release of the heavenly eyes, which is obviously one of their arrangements. day

Daoqingyan obviously wants to integrate the forces of the various pieces of the ruins of the ruins of heaven and earth through the Emperor Yi, and control them in their hands...

Here, Ye Xuanyuan flashed in the middle of the mang, and whispered: "Was the heavens? What about the temple? You may not be able to kill..."

The road is also divided into strong and weak, such as headless baby corpses, such as the wilderness of the heavens and the blue sky, which is the strongest person in the heavens, and the mechanical behemoth that the emperor merged with the power of the whole celestial family, although it is also a heavenly environment. However, after all, it has just entered this situation, and it is still achieved in this way of forced integration.

Although it is also a strong heavenly person, it must be the weakest existence in the heavenly environment. Compared with the veteran peaks and vanities of the empty giant tortoise and the golden dragon, it is infinitely close to the ancient existence of the heavenly state, and most of them are only strong. Half-financed.

Today, Ye Xuan also has a half-step heavenly cultivation, although there is a slight gap between the ancient peaks of the empty giant tortoise and the golden dragon.

But if he uses the supreme power of the 陨天弓, it is not impossible to kill the mechanical behemoth of Emperor Yi, and even this possibility is still very big. complete

In fact, in the battle of the collapsed floods in the early days, the ancient night forks used the scorpion bow, and one arrow shot at the sky, and even almost all of them smashed the sky into the sky...

However, the scorpion bow is not the same as the small, the devastating power that erupted in an instant is too horrible, that is, Ye Xuan, who has always regarded it as a killer of the underlying, and has always been unaware of it. Place

So, even now, Ye Xuan has no intention to display it easily!

But even if you don't use the 陨天弓 to kill the Emperor, it doesn't mean that Ye Xuan will not shoot. Taking advantage of this opportunity, at least you have to try the mechanical giant that the emperor has merged with the whole celestial family. The real power of the beast!

As soon as I read this, Ye Xuan's mid-cold man flashed and immediately turned to look forward. "

Roar! "just

At this time, a terrible roar came, the power was so amazing, and the void was violently trembled by two. After all, the presence of howling, but the real heaven! This

The head of the mechanical behemoth is the more than 8 million people left by the emperor and the whole Tianji family. After joining the body, they have been baptized by the blue thunder sea. Now they have entered the heaven and earth, in this wild land. In the void, it is definitely a strong existence. whole

The head of the mechanical giant behemoth is 400 million miles tall, standing on its own, three legs and six arms, the skull is in the form of a honeycomb, with multiple facets, these facets are obviously muzzle, capable of 360 degrees. Boom out the gun energy beam... things

In fact, a huge mechanical behemoth is only 400 million in size, and there is no need to use the gunfire energy attack. Even if it is just a simple punch, it can make the wind change. .

"Roar!"

"Ye Xuan, the deity's celestial beast integration is completed. Although the loss of more than five million people, the combat power is much weaker than expected, only to enter the heavens..."

Even in the previous thunderbolt baptism, the celestial beast suffered a lot of damage, and now it has not reached its peak..."

"But even if you can't kill you today, you must be seriously injured. You can't escape!"

"Hey..." said

At this time, the emperor never said more, the celestial beast once again raised his hair and screamed, and then he rushed to the side with a punch.

Rumble..."

Card..."

The size of the beast is too large, 400 million miles, a step is hundreds of millions of miles, and the blink of an eye is near.

This fist blasted, the void was broken in inches, and the power was too violent. also

Not only that, but what is even more bizarre is that in addition to the fierce strength, there is still a mysterious force squeezed from all directions.

It is the suppression of heaven.

In one world, there can only be one will, and even if there are many ways, only one can be the main one. Other heavenly accidents are just like vassal existence. although

I can't control the laws and regulations of this world, but because of the empowerment of the main heavenly will, it can lead to the suppression of the will of heaven and earth to a certain extent...

Nowadays, the invisible sensation felt by Ye Xuan's five avatars is obviously the power of the ridiculous heaven and earth to the heavenly beast. Say

The simple point is that nowadays, anyone who fights with the celestial beast is waiting to compete with a part of the strength of this world, and its difficulty can be imagined...

Chapter 4893: Void in the tremble

"Hey..."

The beast raised his hair and screamed, and then he rushed to the side with a punch.

"Booming..."

"Card..."

Its size is too large, 400 million miles, a step is hundreds of millions of miles, blink of an eye, the fist is blasting, the void is broken, the power is too violent. more

What is strange is that, in addition to the fierce strength, in addition to the fierce strength, there is still a mysterious force squeezed from all directions...

This is the suppression of heaven. If it is a war with it, it will be able to compete with the strength of this part of the world.

These thoughts flashed through my mind. Ye Xuan's whole heart sank to the bottom of the valley, but he did not pull out. The current state of the heavenly beast is really not the peak. After all, I have just experienced the baptism of a wave of thunder. ...press

According to Ye Xuan's deduction, this celestial beast needs at least a few years of cultivation to fully recover the damage suffered by the talented person in the thunderbolt.

At that time, it was its peak state. If

It's Ye Xuan's eyes that are not the peak. If he doesn't dare to fight, isn't it even worse after a few years?

What's more, the war is not the case of Ye Xuan.

This time, even if he was injured and injured, he must also play a few rounds with this celestial beast. Try his depth and say..."

Roar! ""

Roar! ”

"Hey..."

Rumble..." This

At the moment, with the flash of the cold mang, the five big avatars of Ye Xuan rushed out.

Violent, the body of the bones, the body of the black mist, the king of the sky and the king of blood mosquitoes!

The five major avatars, the strength of repairing all reached the great perfection of the ruins of the ancient sacred, the peak of the past, that is, half-step heaven.

At the same time, they shot at the same time, each rushing from different directions to the oncoming celestial beast. Under the punch, the heavens and the earth were shaking violently..."

boom! ”

"Boom..."

The day of the bombing came, the size of the 10,000-day-old giant sacred body form came to an abrupt end, and Ye Xuan's five big punches were all on his body. anti-

However, it was a punch, but it was empty. After all, it was too large and flexible. It was avoided. Of course

The result is speechless.

The position of the celestial body on the body of the beast, although there is a crack like a spider web, but it has not spread too wide area, the five bombarded places, only about a few million or so, just Ye Xuan The five big punches are in the size... also

That is to say, the five steps of the ridiculous peaks were repaired with a full blow, and they also smashed a porcelain on the body, but they only just let the body of the celestial beast be bombarded with a small crack. And already...

From this point of view, these five punches will definitely not damage him internally. again

To be straightforward, that is... skin injury! "

Oh..." This

The result of the result made Ye Xuan's heart sink again, and then the flesh and blood of the body of the flesh and blood spurted a blood arrow. day

Although the boxing of the machine beast was avoided, even if it was just the rest, it was almost incomparable. The violent and the most recent part of this boxing, the boxing wind slammed on his chest when he avoided it sideways. on

In this case, it was a violent blood surge, and a blood arrow was spit out in the mouth. Although it was far from being seriously injured, it was also able to be slightly injured.

"Roar!"

Emperor I, you wait..."

The hand wiped the corner of the mouth and blew a smear of blood, and violently screamed and screamed, showing endless resentment and unwillingness... though

However, it was only a fight, but he basically tried the depth and depth of the celestial beast. So, there is no need to continue this battle, and when you are far away, it's time!

In the next moment, there was a slap in the water, and the whole figure of the body of the shin and the body of the black mist collapsed instantly, turning into a \*\*\*\* sea, spreading over the corner of the universe...

Even the figure of the Nether King and the Blood Mosquito King has turned into a mans, and has not entered this \*\*\*\* sea.

The \*\*\*\* sea appeared fast, dissipated faster, and the eye was condensed into a tiny worm like a worm, spurting into the violent eyebrows. tight

Then, the violent eagle turned to look at the celestial beast, and then hesitated, his body swayed, and immediately tore a crack in the void, stepping into it, disappeared!

"Roar....."

The target disappeared away, and the celestial beast raised his hair and screamed, but did not pursue it. Instead, he turned and rushed to the depths of the starry sky.

For it, the most important thing now is to recover the injuries suffered in the previous days of thunder, but in just a few years, once the injury is over, it will conquer the Quartet and destroy the Temple and the Heavenly League. Moment...

.....emperor

One step into the heavens! This

After the news of Ye Xuan's departure, it was less than three days later, and it was already scattered in the void of this piece of wild land, causing an uproar and setting off an uproar! can

It is said that this whole piece of vast wasteland and the sky is empty, and it is trembled...

There is no reaction in the temple!

The high-level members of the small forces all shivered and trembled, but they could not stay in their respective stars, and did not dare to take the lead...

The biggest reaction was the Tiandao League. The first time the news came, the three major forces of Tiandao League gathered together and conducted an urgent meeting and consultation...

In the central area of the federal federation, a giant life star, the peak of the giant peak, there are dozens of figures in the hall of the federal headquarters. on

This matter... start an emergency consultation! in

Tiandaomeng, the figures that are eligible to appear in this hall, are all existed by the Terran Federation of the ancient people. There are more than forty people in total, but the other six ancient deities of the Terran Federation still have no appearances this time. except

Emperor II, the immortal emperor, the heavenly palace, the master of the palace, and the glory of the temple, the blazing scorpion, are also the first corner of the high seat...

In the other two directions on the main hall, there are four or five figures. The four figures on the left are all human beings from the body shape, but the body is filled with a fierce beast that is thick and inseparable. It is the four ancient supremes from the Alliance of Ten Thousands. It is the four great desolations of the Hell ants, the space mouse, the giant fierce and the evil spirit Slime from the first universe slaves.

The breath of the five figures on the right side shows that they have the blood of the starry beast, and they are extremely rich, just five star-studded geeks from the Star Alliance!

Scarlet unicorn, nine secluded crocodile, nine head bloody, Qingtian Dapeng and blood-sucking lion...

Within the entire hall, a total of nine absurd grotesques would not have gathered easily, but this time the Lord of the Temple ran into the celestial family, they had already gathered here, waiting for the news to come...

Yes, the final result is too amazing! magic

In addition to the three \*\*\*\* seas, the main lord of the temple even transformed the mechanical behemoth in a short period of time. Now it has become two, and the strength has also reached the great success of the ruins of the ancient sage...

Chapter 4894: It's going to change again.

That is to say, the half-step heavens that have been cultivated in the ruins of the ruins have reached as many as five...

This news alone has been shocking, but the more amazing is still behind. emperor

After being killed by more than five million official Tianzu ethnic groups in the battle, the Lord of the Devils made the same choice for Emperor II.

With the power of the entire family of more than eight million formal ethnic groups, the whole body is merged into a mechanical beast, which will impact the real heaven. only

The difference is that when the Emperor II failed, it was suppressed by the Heavenly Way, and the Emperor Yi, although it also attracted the eye of the wild, and threw the thunder, but he... actually succeeded.

I think of this, dozens of high-level members of the heavens and universities in the hall, the look on the face are not very good-looking, the deep sorrow reveals a lot of resentment, especially the emperor, the roots are biting and slamming, obviously resentful to the extreme ..."

It seems that this piece of ruined land is empty, and soon it will be changed again! "short

After the temporary silence, the emperor broke the silence. When he spoke first, he said half, and sighed with a sigh: "Hey, I think that the three-legged trend of the Heavenly Alliance and the Magic Hall and the Tianji Nationality has just formed. I didn't expect it to be far away from the blink of an eye. Far away..."

"Now the Tianji people don't have to say much, even the magic hall, there are also five peaks of the peak level of the battle, in addition to just breaking through, entering the initial stage of the past, more There are still nine..."

Invisible, with 16 ridiculous, the strongest Tiandao League, it has become the bottom of the existence..."

Here, the emperor's face showed a smile: "The notice goes on, the three major leagues have recently stopped. If it is not necessary, in addition to the daily patrol scouts, other forces should not go out and hang out easily."

"The Tianji family has no need to worry about it recently. After all, the Emperor's celestial animal has just passed through the thunder of heaven. How many injuries have occurred. The existence of this level, even if it is only a small recovery, will take at least several years. ...."

"However, the magic hall has to be guarded, Ye Xuan that guy is too haunted, scheming, and now the three major forces in our alliance have not yet half a step of the ancestors of the awakening, before this, be alert. ...."

Hearing the words, the high-level members of the heavens and universities in the hall looked at each other face-to-face. Although all the faces showed indignation and unwillingness, none of them retorted.

It's really the situation at the moment. Not long ago, it's a big Tiandao League, and now you can only hold your tail and hold your tail...

...asahi

Sheng Forbidden, Ye Xuan's Dongfu Star! From

After the departure of the Tianji Star Field, Ye Xuan returned to Xusheng for the first time. He did not even stay in the void in the forbidden area. He directly entered the Dongfu Star, and now he is sitting in the magic hall of the peak of the giant peak... .."

call out! "

"call out....."

During the meditation, two awns were shot from his eyebrows, and the storm rose into a giant mechanical beast with a body size of more than 50 million miles. It was a void king and a blood mosquito king.

This time, the two mechanical kings harvested hugely in the Tianji star field. Just the mechanical beasts and the electronic consciousness scattered by the official people of the Tianji nationality swallowed more than five million. Such as

Returning safely today, these treasury stored in the body, they will be divided into half to the king of the ages and the soul of the king. four

In the future, Datianwang needs to fit together and hit the heavens in one fell swoop. Therefore, before this, it is best to balance the temple, so that the integration will be the most stable in the future...啼

The soul king and the king of the ages guarded the entire Xusheng forbidden land outside the Dongfu stars. The Void King and the Blood Mosquito King also immediately left, and will give this one-time victory to them.

And Ye Xuan, after a sinking, decided to retreat again.

In this battle, he has already completely absorbed the income of the previous breakthrough and integrated it into the soul and the flesh, and at the last blow, the violent flesh and blood of the flesh and blood was also hurt. positive

Well, you can take advantage of this opportunity, just like breaking it and standing up again, break through again...

"Booming..."

After the decision, he suddenly waved his hand and there was a rush of anger. blink

Eyes turned into Shennong Ding, hanging behind the giant peak where the magic hall is located, floating in the air... with

After the change of Ye Xuan's figure, he stepped into the Baoding Dingkou, which was carrying the colorful fog, and then entered the Dingnai space, then sat down in the volcano of the central area of the Dingnai space..."

call out! "

"Hey..."

In the next moment, a lot of faint sounds broke through, and a spurt of anger from Ye Xuan's body hangs in front of him, all of which are the resources for cultivation that he took out from the immortal world to develop this breakthrough. .

Among them, all kinds of top-level cultivation resources, such as the evil source liquid, as well as the nine-color magical medicine, even the chaotic drugs of gray and gray, have a large canopy, and have a volume of a thousand squares.

All the cultivation resources were compressed by the domain field power that he urged Shennong Ding to be only the size of the baby fist. In the blink of an eye, he was swallowed by his hand, and the ball of the size of the baby fist was quickly opened... ..

"Hey!"

"Booming..."

Inside, the sound of the chain screaming came...

The power of the mighty power of Dajiang was formed in the meridians of his body. With the thunder and screaming spread, the next big day of the week began to run, and continued until refining...

With the big Sundays running again and again, this hanging energy river disappeared in Ye Xuan's body meridians.

After thoroughly integrating into his soul and flesh, he only had a shock and launched a chain of shocks. under

For a moment, and the system prompts in anticipation, it soon sounded in my mind..."

Hey, congratulations to the host, the breakthrough of the ancient realm of the hole! The current realm: the ancient great power of the 9th order! ""

Hey, congratulations to the host, the breakthrough of the body and blood! The current realm: the ancient great power of the 9th order! "

The 9th order of the power, this is the great perfection... It represents the cultivation of Ye Xuan, and it has already entered the peak of the great power!

Before this breakthrough, his deity's cultivation was the eighth order of the ancient powers. After activating the blood of the ancient konjac in the body, he could climb to the ninth order of the ancient powers of the ancient times. In the state of the ninth change, the combat power immediately ascended to the eighth stage of the ancient sage. and also

It is the so-called half-step heaven!

Unfortunately, because it is a cross-border realm, even if it is counted as a first-order bonus to the strength of the flesh and blood, his real combat power can not reach the shoulder level compared with the real heaven!

But now, with this breakthrough, Ye Xuan will have the first-class cultivation of the ancient and supreme after the activation of the konjac blood in the body. This

In this case, once he shows the blood and magic of the konjac, and directly enters the ninth change, in theory, its peak strength will instantly reach the first level of heaven! and

In fact, under the huge physical state of 60 million miles, the first-order bonus of the power of the horrible power to the real combat power... has not been counted yet!

Chapter 4895: Expected result

With this breakthrough, Ye Xuan, after activating the blood of the konjac in the body, immediately possessed the first-order cultivation of the ancient sage.

In this case, once he exerts the magical power of the konjac, and directly enters the ninth change, in theory, its peak power will instantly reach the first level of heaven! Such as

If you count the huge body of 60 million miles, the first-order bonus to the real power of the horrible power of the pound, then he will be the second-order strong existence of the heavenly environment.

.....

Unfortunately, this is only a theoretical statement. thing

In fact, although this time it broke through smoothly, but Ye Xuan's face still can't see the color of joy, the interest is not too high, and even can be said to be Yixing's...

Even if the ninth change of the konjac has not yet been applied, his mind has vaguely already had an intuition... The speculation that suddenly emerged from the brain will probably be true!

If everything is true, then after this breakthrough, he still can't reach the real heaven... even if he breaks through one or two more steps, he becomes a medium-term power. Session

At that time, after the transformation of the konjac's blood and blood to the ninth, in that state, it is just infinitely close, but it is never a true heaven!

The simple point to say is that every time the konjac change is changed, the effect of the first-order repair is improved. It can only be effective within the heavens and can't surpass the true heaven!

Previously, I saw the emperor and the claw-like beast, the star-studded beast, who was about to enter the real heaven and earth because of the eighth fusion. Finally, before the completion of the fusion, the projection of the heavenly eye was coming, and the life was born. Being blocked by the road of heaven, Ye Xuan thought of himself for the first time...

It was because of this speculation that he was uneasy, so Ye Xuan was not even interested in seeing the Emperor II and the claw-like beast, the star-studded beast, and the end of the game. The first time he rushed back to the Dongfu Star, and began to retreat.

When he broke through the last time, he was expecting two consecutive breaks.

The purpose is to see if, in this way of blood and magic, instantly enter the heavens and become the first-order existence of the heavens, will it also lead to the suppression of the heavens, or... can it be smooth? Enter the first step of the heavens! Of course

However, the last time the retreat, the two breaks in the promise did not come, causing Ye Xuan to not really verify this guess last time.

Nowadays, he is already a half-step ridiculous. Once he activates the konjac and transforms his magical powers, he will be able to step into the absurd first step. Connect

Even under the nine changes, it should be the first step of the heavens... But whether the real situation can be achieved is still unknown.

This is too important, even if it is him, my heart is full of uneasiness, there is a kind of uneasiness..."

After all, it's time to come. If this is the case, it's good to face it earlier..."

In the whispering whisper, Ye Xuan sighed and sighed, and then hesitated without hesitation. Under the glimpse of the cold mang, he immediately rushed out of Shennong Ding, and his figure appeared in the universe under the Dongfu Star. Yang

The head is a horrible roar: "The konjac nine changes... the ninth change!"

"Hey..."

The snoring sounded from the sky, and between the blink of an eye, the body shape that was originally only ten feet high, has skyrocketed in an incomparable time, and the speed is almost soaring. its

The power in the body is even more like the roar of the river, the inexhaustible fierceness in the limbs, and the invisible, there is a horrible breath that is unimaginable.

Moreover, while the body has skyrocketed, the temperament of the violent body has also rapidly increased.

If you don't get enough interest, you will be upgraded from the previous stage to the first stage of the ancient and supreme ninth order... Then there will be no change!

Of course, although the same is the ancient perfection of the 9th-order, but this time, Ye Xuan has broken through the first-order repair. In the ninth state, it is obviously stronger than before.

But from the real heaven, there is still a layer of window paper, which has not been broken...

This result made him feel depressed and sighed again.

Guess becomes a reality...

This piece of debris is empty, and it belongs to the wilderness world. Nowadays, with the all-round fall of the end of the flood, the flooded Tiandao Qingyan is rapidly returning to the control of a piece of ruined debris under the battle of the world. ...Do not

Unknowingly, the power of the law of the emptiness of the ruins of the heavens and the earth is invisible. can

It is said that it is not just the emptiness of this piece of debris, even in the emptiness of debris formed by all the other ruins of the original ruins, including the three major stars in the world...

If it is not recognized by the blue eyes of the wilderness, any existence is impossible to truly enter the heavens.

It will surely be completed in the ruins of the ruins of the ancient ruins of the ancients, and when it is about to succeed, it will trigger the inspiration of the power of the laws of heaven and earth, so that the sorrowful eyes of the sacred heavens will come down, and the heavens will be smashed or destroyed. and

The true cultivation of Ye Xuan is only the ultimate success of the ninth-order greatness of the ancient and the great, and the rejuvenation of the nine-order grand perfection is realized only under the effect of the konjac and the blood.

This effect is only effective under the heavens and can't surpass the heavens. Therefore, even if Ye Xuan has the power of the ridiculous ninth-order grand perfection, it does not really touch the string. The power of the law of the emptiness of the shards did not sense the breath that would soon impact the real heaven, so the sorrows of the heavens and the sorrows did not come..."

From this point of view, in the current realm of my cultivation, if I want to enter the real heaven and earth in the ninth state of the konjac, I am afraid that it can only be realized in Hong Kong and the void..."

After Fan Shenxi, Ye Xuan whispered: "Although this is still only a guess, there is basically no accident, because the green eyes of the wilderness are only the original will of the wilderness..."

"For the power of the law of Hong Kong and the void, it can't be affected. There, the so-called heavenly eyes are just the general existence of the star-studded powers like other creatures..."

That is to say, there is no need to recognize the blue eyes of the heavens and the earth in the heavens and the world..."

[illegible]

However, he also wants to go to Hongmeng immediately, try to enter the ninth state of change, to see if it is really as he guessed, where he can smoothly enter the heavens with the effect of the konjac territory. but

This matter is not anxious. There is time to go back. eye

The next priority is to upgrade one's own strength to the real abundance.

After the breakthrough of Shicai, he was already a great success in the ninth stage of the ancient powers. As long as he swallowed a twenty-nine-level ridiculous treasure, he could enter the real world of absurdity in a short period of time. This

One day he has been waiting for a long time, and now he is close at hand, naturally no longer delays...

## Chapter 4896: Entering the desert

"call out!"

The faint sound of breaking the air rang, after returning to the Dongfu Star, Ye Xuan's light was cold, and the step again entered the Baoding Dingkou with a colorful mist...

After entering the Ding Nei space, sit down in the volcano of the central area of the Ding Nei space!

"Hey..."

With the wave, a lot of faint sounds of broken air rang out, and a glimpse of the body from Ye Xuan's body, hanging in front of him, are the resources for cultivation that he took out from the immortal world to develop this breakthrough.

These include all kinds of top-level cultivation resources such as Wancai Source Liquid and Jiu Cai Shen Medicine. but

The most important thing is a twenty-nine-level ridiculous treasure, which exudes a rich and powerful energy...

Taking a deep breath, Ye Xuan did not hesitate. Soon, all the cultivation resources were compressed by the domain field power that he urged Shennong Ding to only the size of the baby fist. With

After that, he was swallowed into the abdomen by his bones and quickly turned away...

"Hey!"

Rumble..."

Almost in the next moment, his body heard the sound of the chain's squeaking sounds. The power of a mighty power was formed in the river, accompanied by thunderous spreads, and it was carried out once and for all, and continued until it was thorough. Refining...

In the end, this hanging energy Dajiang disappeared in Ye Xuan's body meridians, completely integrated into his soul and body, and Ye Xuan, just a force to launch an impact, this chain has been broken.

The next moment, and the expected system sound, also sounded in my mind..."

Hey, congratulations to the host, the breakthrough of the ancient realm of the hole! The current realm: the ancient order of the ancients! ”

"Hey, congratulations to the host, the breakthrough of the flesh and blood! The current realm: the ancient order of the ancients!"

Steps!

Finally officially entered this realm, but Ye Xuan's heart did not have much joy.

Because he understands that even after he broke through this time, he once again exerted the magical power of the konjac and changed into the ninth change. His peak strength can still only be the perfection of the ruins of the ancient sage!

Of course, it will be stronger than this one, but how strong it is, from the real heaven, there will be a line of separation!

In the illusory sky of this ruined land, without the approval of the ruins of heaven and earth, he will never wear that layer of window paper, and he will never be able to enter the real heaven and earth...

However, although the result has been roughly determined in the mind, since there is another breakthrough, it is necessary to try again anyway.

Anyway, it doesn't affect anything.

In the unlikely event that this time, because of the strength of the self-cultivation, it has entered a real abandonment, and it has caused some unexpected changes. This

Although the hope is extremely embarrassing, but ... right and try it.

With this thought, Ye Xuanyuan flashed in the cold, when even once again rushed out of Shennong Ding, but did not go to the universe in the universe outside the Dongfu stars! under

For a moment, he looked up and shouted: "The konjac is changing... the ninth change!"

"Hey..."

This snoring sounded from the sky, and in the blink of an eye, his body shape, which was only ten feet high, has skyrocketed in an incomparable time. speed

It was so fast that it was so horrible that it was almost impossible to reach the atmosphere of the sky when it was about 60 million miles. this

In addition, the power in his body is even more like the roar of the big river, the enthusiasm of the extremities in the limbs...

Invisible, there is a horror of unimaginable horror, and while the body is skyrocketing, the breath is also rapidly rising.

Still less than half-interest, it has been swiftly upgraded from the previous stage of the ancient sage to the current sacred and supreme ninth order...

Then... there is no more! fruit

However, even if his own cultivation is the strength to break through the real stage of the ancient sacred supreme, in the state of activation of the konjac and the ninth change, Ye Xuan's sturdy limit... is still The ridiculous nine-order great perfection!

That step, I can't always step out...

"It seems that if you want to get the real heaven and earth in advance by the \*\*\*\* magic of the konjac, you can only enter the piece of Hong Kong's void, it is possible..."

This time, Ye Xuan completely died, his face showed a bitter smile, shaking his head and sighing:  
"Otherwise, in all the fragments of the sky formed by the collapse of the wilderness, how to break through, can only be more and more infinitely close to the real heaven. The situation is..."

"The final step has become a gap in the sky, and there is no possibility of crossing it!"

Ugh.....""

boom! ""

Rumble..."...

...positive

When Ye Xuan was depressed, there was a thunderous sound of earth-shattering in the universe beyond the foot of the moon, and a lot of black robbers came. turn

Looking forward, a awning thick black cloud is gathering at a speed that is visible to the naked eye. If it is too low, there will be a region of hundreds of millions of miles round, all covered with black robbing. Cloud... leaves

Xuanyuan had a moment, and then he was amazed. Today, he is truly a wild and supreme. Naturally, there will be a thunder robbery. This is his ridiculous robbery!

"This day has been waiting for a long time, now, finally arrived..."

In the whisper, Ye Xuan's figure swayed and disappeared in an instant, directly rushing out of the Dongfu Star..."

boom! "

"Booming..."

His figure rushed out of the Dongfu Star, and the clouds in the void gathered faster, and the blink of an eye was covered with a billion miles. This

Bowei's horrible robbery cloud suddenly turned out, and the vast Xusheng banned land had already been in turmoil. The high-ranking cows, six heads of blood and Zhao Dong and other high-level people all walked out of the retreat and looked suspicious.

The other high-level halls are still in retreat.

In fact, Qingniu and others have already been alarmed. However, when Yeon arrived, Ye Xuan had already left. They were trying to walk away. They suddenly came to the top of the head but suddenly they threw the thunder and thundered all the people. .

However, now that I look up and see all the central points of the robbery cloud, it is the Lord of the Lord's cave, and they have a long sigh of relief, and their faces are filled with joy.

Since there is a robbery cloud coming, it is clearly the rhythm of the devil's adult to break through. With his powerful cultivation, can you fear this little robbery? positive

When everyone's heart swells, there is a rush of rushing out of the stars, and the blink of an eye has gone. actually

It was directly left from the Xusheng forbidden land and rushed to the outside of the forbidden place... and the vast robbery cloud that originally shrouded the Dongfu stars also went along with it.

Qingniu, Liutou Xueyan and Zhao Dong and others turned their heads and exchanged a look.

This is the Lord of the Devils who does not want to rob the Xusheng in the forbidden land, so as not to smash the pool fish. Even if they are with other high-ranking priests, they will follow each other in the back of this vast robbery cloud, far away...

Chapter 4897: Strongest hardening

"call out!"

"Booming..."

The weak sound of the air broke out, and Ye Xuan's figure rushed out of Xusheng's forbidden land. In the blink of an eye, he had already arrived at a remote and empty space that was nearly 10 billion miles away from Xusheng's forbidden land.

At the same time, behind him, the vast robbery cloud that covered a billion miles was always closely followed, and the amazing roaring sound continued. This

After all, it is a ridiculous thunder, and the power is not the same, so the number of robbery clouds is horrible, and Ye Xuan is not a general absurd. The power of thunder is naturally more powerful.

For the so-called catastrophe, although he was completely fearless, he had to consider the safety of his descendants. eye

Under the Xusheng forbidden land, the robbery cloud has been successfully opened, completely relieved. Connect

Everything that came down, for him, was just a baptism of a few waves of thunder. In the face of the thunder of the monks who smelled it, he never had anything to do...

"Booming..."

Card! "

At this moment, the robbery clouds that followed the chaos have been intensively dark, and the enveloped universe's void is close to 10 billion miles away. With

The body shape of Ye Xuan stopped in this secluded void, and the vast robbery cloud that followed him behind him once again shrouded the sky at the top of his head, and in the earth-shattering roar, the first time Dropped a purple gold lightning...

This robbery is too thick, full of a million feet, watching its power, even if it is an ordinary star, it must be blown open! Asahi

In addition to the forbidden land, there were a large number of scouting fleets from various forces. They had been quietly crouching all the time. Now they are shocked by the dense and robbery of the area, and they are all alarmed. No

I was hesitant, and immediately dispersed to the surrounding area at the first time. After a full retreat of more than two billion miles, I stopped.

The power of robbery is too astounding, and the power is so powerful that only when they escape to such a distance can they feel a sense of security, and the fear of staying close will be met by the pool.

"Hey!"

Everything around him, Ye Xuan did not pay attention to it, and did not pay attention to it. this

At this moment, his whole mind has been attracted by the first wave of thunderous robbery in the sky...

In the past, most of them have already sacrificed the Emperor of Lei Di, hanging over the head, and by this opportunity to forge the Emperor Yin Lei Ling, swallowing the Thunder to enhance its cultivation. but

This time, Ye Xuan did not have such a plan.

This is his ridiculous thunder, three waves of hijacking, he has to kneel down, as a baptism, one of the strongest tempering... this

At this moment, he is still the violent form of Zhang Gao, facing the first wave of robbery in the sky, the head is a roaring roar, the body's breath is all motivated, the whole person is like the most Strong small stars in general.

For a moment, this huge gold-rich hijacking has fallen, and the endless thunder flooded Ye Xuan's entire body and disappeared.

After a full three-night break, everything was stopped, and Lei Hai dispersed. Ye Xuan was in the void, and the breath was stronger, but there was no damage, but the spirit was better. only

In the violent body of Xu Zhang's high, this momentary burst of endless treasure, through the surface of the billions of pores burst out...

"Card!"

Just in the next moment, the harsh and crisp sound came, and the sky's robbery cloud was more intense in an instant. After a short break, the second stout purple gold lightning was already down!

This second wave of robbery is still a million feet in diameter, but the color is a lot stronger, purple can almost drip out of water, the horrible energy of the atmosphere is fascinating. No

Hesitant, Ye Xuan's body shape turned into a mans, rushing head-on, the blink of an eye has fallen into this lightning, the entire body was submerged.

Lei Hai raged, paving a vast expanse of tens of billions of miles. This

Once, when the Thunder dissipated after the number of interest, Ye Xuan's figure appeared again, although still intact, the breath is still very strong, but his face is somewhat gloomy.

The second wave of robbery seems to be the same as the previous wave, but in fact, the power has tripled, and he has counted countless thunders. For this strange situation, his heart is uneasy.

After all, as the day of the full fall of the end of the floods is getting closer, the control of the emptiness of the fragments of the sky after the collapse of the original wilderness is becoming more and more intense...

The simple point of speaking is actually the control of Tiandao, which is becoming more and more obvious.

This time, the ridiculous robbery was far more than the one encountered by the tribes of the remnants of the tribes. It is very likely that the eyes of the ridiculous heaven and earth were suppressed in the dark. when

However, this suppression is only subconscious, and it is not deliberately directed at Ye Xuan. Otherwise, I am afraid that even this second wave of robbery, he may not be able to kneel down easily. but

Even if it is only subconscious suppression, it is still enough to make Ye Xuan feel uneasy, because this change represents the emergence of variables, and now the thunder has not completely dissipated, what will happen next, it is unpredictable...

"Card!"

Just as his heart secretly calculated all of this, the empty top of the head, the third crisp and unpleasant explosion has come again.

A stout purple gold lightning has already slammed down, and its power has skyrocketed several times compared with the previous one. The diameter of the robbery has reached three million feet...

Although the path has only tripled, but the power is definitely more than three times as simple as climbing. According to Ye Xuan's estimate, the power of this wave of robbery will probably be more than nine times that of the first wave of robbery..."

Roar! "

In the midst of violent chills, when the head screamed, the figure was like a superb meteor that was shot backwards. The third horror was slammed toward the top of the head, and spurred away...

"Card!"

Rumble..."

In an instant, the two collided together, and the crisp and unclear cracks came. The whole body shape of Ye Xuan was completely shrouded. The majestic Zijindian sea was vastly more than a billion miles, and the void was broken. Then quickly healed again. This

It is clear that the power of the law of this side of the world has strengthened many rhythms, and the looming seems to verify Ye Xuan's speculation.

This scene is too astounding. It has already retreated to the major forces scouting the fleet of more than two billion miles. After a short period of sluggishness, there was an action immediately, and then hurried back and forth. because

The third wave of hijacking has fallen, but the thick clouds that hang over the sky are not scattered.

This is clearly the rhythm of the fourth wave of thunder. Both

However, there is a fourth wave, and there is a high probability that there will be a fifth wave. There will be more follow-ups. No one dares to pack the tickets. In order to be safe, it is better to withdraw further.

If the thunderstorm is really one wave after another, then the area where the Thunder Sea is raging is getting wider and wider. If you accidentally get caught in the pool, you can regret it!

Chapter 4898: Amazing truth

Generally speaking, there are only three waves of the ancient and the ancient and the savage. only

When there is a real heaven, the thunder will be different, either one or nine. nine

In the words of the Tao, there is still the possibility of success. but

If it's just one, basically there's no life...

Nowadays, Ye Xuan has not attacked the real heaven and earth. It is just a ferry and robbery. However, after the third wave of robbery, the dense robbery cloud covered by the sky above the head is not scattered...

When he got into the scene, he had a guess and he had guessed. Do not

After the third robbery, the power has been slammed down. At least nine times more than the previous first, even he has to be treated with caution, so there is no such thing as a moment, and it will temporarily Guess is thrown behind the head...

The area covered by the third robbery has exceeded 10 billion miles, and the weather is too alarming.

After a full amount of interest, the endless thunder sea was smashed away, and Ye Xuan's figure appeared. Such as

Today, he is a violent form. There is no robes on his body. He only wraps a leather skirt around his waist. It is also a change in energy in the body, which is integrated with itself.

Therefore, even if the power of the Thunder is strong, it is impossible to break the robes.

After this wave of robbery, Ye Xuan's breath is still strong and violent, but his face is more gloomy than before the second wave of robbery, almost all of them have been able to drip out...

The power of the three-wave thunder is indeed extremely powerful. It is nine times the first wave. Three times the second wave. Every time a wave of thunder is brought, the power is tripled. If there are nine waves of thunder. I am afraid that even he has to be seriously injured..."

boom! ”

"Booming..."

"Card!"

Just as his heart was worried, the sky above his head was high, and there was an earth-shattering thunderous bang again in an instant, and there was a crisp and unclear sound.

Looking at the head, a purple gold robbery with a diameter of nine million feet is carrying a smashing atmosphere and slamming down from the sky. first

Before the third wave of robbery, the diameter has already reached three million feet. Now the fourth wave is as large as nine million feet, and it has tripled. Its power, I am afraid, will at least triple again. Maybe more... look

In this scene, Ye Xuan's heart suddenly sinks. it is good

In the wake of this thunder and lightning, the sky shrouded nearly a billion miles of black and black clouds, and instantly disappeared.

It can be seen that all the forces in the robbery cloud have all gathered in this hijacking. The power is strong and horrible, surpassing any of the thunders that Ye Xuan has ever traveled, and even no comparable, revealing endless The atmosphere of destroying the earth...

However, Ye Xuan still has no fear. He is now a real old man, and he is always strong in the flesh, even if it is a horrible hijacking of nine million feet in diameter. For him, It's just quenching the flesh.

If this time the ridiculous thunder has nine, and one is more powerful than the power of one, this geometric level climbs to the last eighth and ninth, even if it is Ye Xuan, I am afraid it is difficult to bear .

But now that only four roads have ended, he has no pressure at all.

After this robbery, he is the real ancient supreme! "

The ridiculous thunder robbery clearly has only three waves, but today it is hard to make the fourth wave. This is clearly the rhythm of cheating in the sky. The temple will give you the plan, in the future... when it is liquidated! ”

In the whispering whisper, Ye Xuan 眸眸眸眸撇撇撇眸叶叶叶叶叶叶叶叶叶叶叶叶叶叶叶叶叶叶叶叶叶叶叶叶叶叶叶叶叶叶叶叶叶叶

Oh..." This

At the moment, under the turbulent mood, the voice of the screams came from the mouth of the violent voice, and did not avoid the flash. The body shape rushed out in the screaming screaming, and went on the face, and the eyes disappeared into the electricity. The ground was completely submerged.

"Booming..."

The scene that followed was so amazing that the whole horrible roar of the screams continued throughout the vast purple gold robbery.

The lightning of nine million feet in diameter exploded, and the vast expanse of billions of miles, all of which were enveloped by the blasted Zijin Leihai, the whole piece of emptiness was trembled, constantly breaking and rapidly bridging. Repeatedly, it seems that there is a possibility of total collapse at any time. although

However, it was just a thunder, but this time, it was enough to ravage dozens of breaths...

Subsequently, this piece of the vast thunder sea that enveloped more than one billion vacancies was completely disappeared, and it was a big void. "

call out!”

As the entire thunderstorm disappeared, the faint sound of the air broke out quickly. under

For a moment, the violent stepping out of the sky from the height of the sky, there is no scar on the treasure body, shining, exudes an endless mastery of the universe, Weifang! This

At one moment, his body has been concealed in the air, and it has been dispersed because of the robbery. It is the first step of the ancient sacred, but it is much stronger than the general first-order ridiculous...

But the first-order ridiculousness is the first-order ridiculousness. Even if it is so powerful, it is incomparable with the ninth-order ridiculousness. The distance between the two is too far, and the gap between the strengths is too big... first

Before, Ye Xuan's three \*\*\*\* seas have always been shown in the late stage of the absurd strength. Not long ago, when going to the Tianji nationality, the three bloods and seas were even the perfection of the 9th-order grand sacred.

It is the peak of the past, that is, half-step heaven.

For this reason, this time he suddenly robbed, except for a few people who knew Ye Xuan and knew the truth, even if they were the majority of the high-rises in the magic hall, they thought that he was going to cross the heavens. The impact is the real heaven...

Most of the high-rises in the square camp are still the same, and the outside world naturally does not need to say more. Everyone thinks that Ye Xuantu is a heavenly robbery. He never thought that he would be a ruin.

Prior to this, because of the repression of the thunderbolt of the electric sea, the body of the body of Ye Xuan did not sway, so everyone did not feel. Such as

Nowadays, with the first-order cultivation of the absurdity, it is clearly and incomparably melted from his body. After all the unseen stagnation of the truth, all of them are mad and shocked, and under the drastic changes, they are chilling. Suddenly exclaimed...

"Hey? The cultivation of the Lord's Lord is a breath... Is it wrong? Is it just a stage of absurdity? Is he just a ruin?"

It should be true. After all, there are only four roads, not nine. This is definitely not a thunder...."

hiss! Doesn't that mean that the previous master's cultivation of the Lord of the Lord is only a waste of great power? A terrible \*\*\*\* magical power, can you actually improve the cultivation of a big realm? It's going to be against the sky..."

A lama first step! After the thunder of the Lord of the Devil, the repairing power is only a stage of absurdity. God, the previous he has always been a cultivation of a powerful environment, but it has disturbed a void..."

"Now it breaks through again, and it is still a powerful leap in the realm of the big world. Isn't it more powerful? It's so enchanting, it's just awkward..."

Chapter 4899: Adventure

The thunder robbery is over, and the thick and dense clouds that have shrouded the tens of billions of miles have also dissipated. The universe's void outside the forbidden land has restored the previous silence...

However, among the scouts of the large and small forces that are crouching in the distance, the hearts of all the strong have been stirred up like never before.

This time, they inadvertently discovered a major secret.

Ye Xuan, the master of the Temple of Devils, is not really the ancient sacred supreme. His ruthless cultivation is preceded by a certain strong and powerful anticipation of the blood.

For a long time, he has only been a savage genius. Until now, he has ushered in his own ruin.

The news will soon be fully disseminated, and it is destined to be shocked by the vastness of this vast expanse of wild land. first

In the past, when it was only the ancient powers of the ancients, Ye Xuan was able to achieve the horror of the ruins of the 9th-order ruins of the ancients.

So now, his cultivation is once again breaking through the strength and crossing the big realm. It has become a real first-order absurd... Will its real combat power reach the level of being stronger than the shoulders?

Although not sure, there is at least a certain possibility. and

Moreover, he has never made a breakthrough before, this time it was in the raid of the Tianji nationality, and the accident led to the patriarch of the Tianji nationality, after the integration of the whole Tianzu nationality into a real-life celestial being. Suddenly decided to break through...

From this point of view, the possibility that his true combat power will reach the first-order heaven after the breakthrough is not only present, but also not small...

With this kind of fear and shock, the major forces in the distance squatting in the air scouted the fleet, and soon retired quietly. Milli

The doubts, as they left, returned to their respective ethnic groups, and all the things that happened outside Xusheng's forbidden land spread. This piece of ruined land and the sky will once again usher in a terrible earthquake. . fear

I am afraid that even the power of the family will be merged into a heavenly beast. The emperor of the Tianzu tribe, who has entered the real heaven and earth, will be shocked and uncertain. Correct

In all this, Ye Xuan did not pay attention to it. After the end of this ridiculous thunder, his body shape shook, and he returned to the Dongfu Star in Xusheng's forbidden land for the first time, and directly launched the retreat...

After all, it is just a formal breakthrough in the realm of the realm, and after the baptism of this horrible and ridiculous robbery, his body is more powerful, the soul is more condensed, naturally it is necessary to retreat to stabilize all of this. and

With his return, Qingniu and other high-rises who had followed the Xusheng banned land and watched the distant places, all returned, but did not disperse, but gathered directly outside Ye Xuan's Dongfu Star.

In addition to them, the other high-level retreats of the Devil's Hall, after finishing a small-scale repair, broke the news and gathered in succession.

This time it took a full seven days to retreat.

Seven days later, Ye Xuan's Dongfu star rushed out in the sky, and the emptiness outside the atmosphere came to an abrupt end. It was Ye Xuan...

At this time, he is no longer a violent form, but a person in his own face, that is, the Terran star of the Terran form!

This time, the ruthless robbery made his true cultivation a glory. In this case, Ye Xuan does not matter. By the way, the real identity is officially displayed in front of all the high-level halls.

Of course, the news about Ye Xuan is the news of Ye Xuan. It has been broadcasted by the Emperor of the Heavenly Kingdom. He has been kept in the middle of the Hall of Devils, except for a few insiders such as Qingniu. Suspicion. but

Did not dare to ask. this

I saw Ye Xuan appeared, and it was still the appearance of the Tianhe Star Lord. All the people suddenly appeared in the middle of the scene, and all the faces showed the color of ignorance...

In the line of sight, six heads of blood, Zhao Dong, Qian Nan, Sun Xi, Li Bei, and the old survivors of the Sangzhi nationality, Qingniu and Yuling, Longjing, Gongjun, Lunyue, and Three-jawed dragon蛟, Longshan Tang, \*\*\*\* ancestors, Qingpeng ancestors and \*\*\*\* and Qingpeng, war lions and three tribes are immortal...

It is said that the top leaders of the six major corps of the Magic Temple have come.

For example, the Sangzhi relics tribes of the Legacy Corps, and the more than 20 immortal relics of the Xusheng ban, and the nomadic corps, the members of the original captives of the Three Paws Longyan and Longshan Tang.

And in the end, more than two hundred emperors in the captive army consisting of \*\*\*\* and Qingpeng and the three lions of the war lions are immortal...

Including nine outspoken powers from these three tribes...

There are also three powers of the original survivors' union and the black robe and so on!

Of course, the Taikoo Porcupine and the Taikoo tortoise and the savage beasts of the two evil armies under the command of the two are now gathered here. more

There are the commanders of the Tianhe Legion, the mosquitoes and the old ghosts, and the Naples, the emperor Mo Wentian, the devil's uncle, the tortoise clan, the ninth, the madness, the Xuanyuan old man, the Duanmu old man, the Bodhi teacher, and other small idle forces and family. High level...

A total of thousands of figures were scattered, all gathered here.

Even Ye Xuan, for a long time, did not see everyone gathered so close together. At this time, as he appeared, the line was swept away, and the face suddenly showed a happy color. in

After this period of retreat, after the crazy improvement, the strength of the high-level masters of the magic hall has been greatly improved, and now all of them are the strength of the universe above the sages...

"As the rumors of the outside world, this temple... is Ye Xuan!"

After turning around and looking around at the top of the hall, Ye Xuan's face showed a smile. The jaws first said: "In the place, many years ago, I have had contact with the temple, even more than once. Even some people have a good relationship..."

"The reason why I was transformed into the Lord of the Devil's Temple is that it is not aimed at the reunion with you. It is also followed by the tide. It is also not intentional concealment. It is not easy for me to come together now. Since it is said, these words should be used in this temple. Have a position!"

Here, Ye Xuan suddenly thought of something, and the words suddenly turned: "In addition, the repair of the temple is strength, and it is indeed because of a certain secret law to reach the ridiculous ninth order, and now swallow a twenty-nine-level sacred Baodan, successfully and officially entered the desert..."

However, the emptiness of this piece of land in the wilderness seems to have been suppressed by the heavenly eye, which is effective only in the heavens and the sky..."

In order to prove this matter, the temple will immediately rush to the Hong Kong void, where to apply the secret law to see if it can successfully enter the heavens..."

"Although this is an adventure, it is very likely to cause the attention of the eye, but it is imperative."

"In the time when the temple is gone, the temple is squatting. If it is not necessary, don't leave the Xusheng forbidden land. Although the temple is gone, the four kings will stay and sit in the cave of the temple."

With these four half-steps, the existence of heaven and earth is in the middle of the town, when you can be innocent..."

Chapter 4900: Konjac real body reproduction

"Although the temple has left, it has entered the void of Hongmeng, but the four kings will stay, and sit in the town of Dongfu in the temple. There are four semi-steps in the presence of heaven and earth, when there is no innocence..."

call out! "most

After the last sentence, Ye Xuan once again looked around the top of the magic hall, and the slightest jaw was said to have been greeted, so he no longer talked, and his body shape suddenly disappeared.

As for the four kings, they stayed within the Dongfu stars. This is the four powerful half-step heavens. As long as the Tianji tribes do not come with the power of the family, any accident can be easily resolved. . and

If the Tianji beast wants to recover the injury left by the previous impact on the heavens, it will take at least a few years. Ye Xuan enters Hongkong's void and only tests the \*\*\*\* power of the konjac, and whether it will be suppressed in that world. And it will return soon, but there is no need to worry..."

call out....."

The faint sound of the air broke out, and under the flash of a glimpse, Ye Xuan's figure appeared in the depths of Xu Sheng's forbidden land.

This area has only a small number of abandoned stars, which is obviously ridiculous. Therefore, although the six major regiments in the Magic Hall are numerous, there are no military regiments in this area.

After all, the entrance to the star-shaped vortex that entered Hongkong's void is here, and it's so important, so Ye Xuan even did not tell the green cow. At the moment, this star-shaped channel that was hidden by his secret method is still extremely safe, except Ye Xuan. No second person knows... very

Fast, Ye Xuan's figure swayed and instantly entered the hidden star-shaped channel. It disappeared, and the breath completely disappeared from the emptiness of this piece of land.

After the interest, the foreground of the eye changed, and a dark void appeared in sight.

This piece of darkness is dark, nothing, not to mention an abandoned star, and even a little bit of cosmic dust can not be captured. Searching

Often the strong starry sky, even in this piece of empty air, aimlessly wandering for a long time, will have nothing, not to mention an abandoned star, and even a little bit of cosmic dust, can not see.

It seems that here is an endless empty void, eternal sleep in the darkness... but

Ye Xuan was in a good spirit, calculating the time. He had left from here for a short time. After ten years, he returned to Hongkong's void again, but he left here and entered the piece of land. When it is completely different.

Nowadays, he is already a real ancient supreme, although it is only a first-order situation, but if there is no accident, after the activation of the konjac in the body, and the state of the ninth change of the konjac, his The real combat power will instantly reach the second level of the heavens. because

For the sake of here, the heavenly state is not the peak of existence. Therefore, the effect of the magical power of the konjac should not be affected by the suppression of the power of heaven...

Although all this is only Ye Xuan's speculation, he is quite determined. Nowadays, people have already reached Hongkong's void and will soon be able to verify...

"call out....."

In the thought room, Ye Xuan's body shape disappeared in the same place. When it appeared again, it was already 100 billion miles away.

But this is not the end. Next, he launched several extreme teleports in succession, until it was more than one trillion miles away from the hidden passage connecting the emptiness of the debris.

The reason for this is to avoid the passage, so as not to leak. After all, what he will break through here is the real cultivation of the heavenly environment, which will surely attract a lot of attention.

Even the green eyes of the flooded roads are very likely to come. As a result, Ye Xuan will officially face the floods for the first time, and try to test its combat power... This is the purpose of his entry into Hong Kong's void this time. one!

"Everything, it will soon come..."

In his self-talking, Ye Xuan gripped his fists tightly and did not hesitate. When even in the mind, he provoked the power of the three-inch konjac in the brain.

Hey! "This

For a moment, the faint humming sounded from the body of Ye Xuan, and all the blood and blood in his body was instantly mobilized and run at full speed. that

The three-inch konjac that was originally suspended in his mind and knew the sea was completely disappeared.

For some kind of mysterious power, it is integrated into Ye Xuan's body, and it has some mysterious influence on all the power of the whole body. speed

Soon, Ye Xuan's body immediately began to change, the shape of the body changed, and it swelled, and it turned into a black konjac about ten feet.

In addition, there are two other bodies in the body that grow out, one is the body of the cheekbones, and the whole body is gray gold, which exudes a metal texture, giving a feeling of being cold. another

One is the body of the illusory black fog, and the breath is extremely embarrassing, as if there is no such thing as normal.

It was completely a black mist, and only two scorpions shot two horrible red awns.

These two bodies are also ten feet high, connected with the back of the flesh and blood formed by Ye Xuan's deity, forming a three-headed and six-armed konjac body.

A rich and ancient atmosphere, at this moment from the three heads and six arms of the real body of the konjac, spread out... This is the true state of the konjac that Ye Xuan has not activated for a long time. With

The konjac was activated, and now Ye Xuan can't see the original look. Even the soul is completely different. This is exactly what he deliberately uses to confuse the heavenly eye, lest it be associated with it. Lord of the Temple! complete

Even the piece of the ruins of the ruins of the heavens and the earth is still under the pressure of the heavenly forces of the wild and green eyes. It is also helpless to do so...

Everything is ready, and Ye Xuan adjusts his mindset and then hesitates. He immediately screams at his hair and directly activates the body of the konjac. "

Roar.....""

The konjac nine changes... the ninth change! "

As the roar came out, the power of Ye Xuan's body suddenly rolled up...

Its potential is like a roaring river in the roaring, screaming in the limbs and screaming infinitely fierce, and there is a horrible force of horrible blood from his body. its

Originally only a body height of ten feet, the blink of an eye is like a balloon that is inflated rapidly, and it quickly expands. The short three interest rate has reached a giant of 60 million miles, like a giant star.

In addition, as the body type rises and climbs at the same time, there are three kinds of six-armed konjac in the body to refine the breath...

When the huge body of sixty million feet appeared, the temperament exuded in the body of the konjac had reached the second stage of the horrible heaven and earth...

For a moment, Ye Xuan felt the surrounding air in the void, and suddenly there was a film in the invisible, which was previously untouchable, but now it is clear. he

Know that this is the power of heaven. in

In the wild world, this is the strongest force, but in this piece of Hong Kong and the void, it is only a strong realm of power. Under the heavenly context, there must be a more peak level...
