Chapter 4901: Faced Tendoru Blue Eye

"Roar.....""

The konjac nine changes... the ninth change! "

As the roar came out, the strength of Ye Xuan's body suddenly began to rise. The body shape that was originally only ten feet high was like a balloon that was inflated rapidly in the blink of an eye. short

The short three interest rate has reached a giant of 60 million miles. Like a giant star, the repairing atmosphere radiated from the body has reached the second stage of the horrible heaven and earth...

For a moment, Ye Xuan has been hanging in the eyes of the blind man, and finally put it down. he

The guess is correct. The repair of the konjac and the **** sacred magical effect is the result of the ascension. The reason why the shards of the ruins of the ruins of the heavens and the earth are invalid is because the will of the heavens and the earth there is the eye of the wilderness. day

Daoqing Eye is the strongest existence. Without his approval, no creature, no existence, can take that step and touch the power of the real heaven. but

This piece of Hong Kong's void is a higher level than the surface of the wilderness...

Even if it was the original wilderness, it was only the head of the three thousand devils that was bred by Hongmeng in the void of Hongmeng, that is, Pangu opened the earth and sacrificed one's own world. can

It is said that compared with Hong Kong and the void, which has not experienced the number of times of the epoch, the so-called wild world is simply a pediatrics. in

Here, the heavens are not even the limits of the strong stars, and there is a stronger existence.

Moreover, Hong Meng's void is more like a free void without heavenly consciousness. Here, only the suppression of the power of Hong Meng's law, the suppression of heaven does not exist.

The simple point to say is: Here, the so-called heaven and earth environment is like a wild and powerful environment in the wilderness and the vast land, and the ancient and the supreme environment is just a level of realm. only

If the power is reached, and the step is taken, any creature can freely enter the heavens!

Today's Ye Xuan is like this. With the power of the blood of the konjac, it has successfully entered the heavens and the second step of the heavens. Enter

After entering this realm, Ye Xuan felt the surrounding air in the void, and suddenly there was a film that was suddenly invisible, but it was not touched before, but now it is very clear.

This is the power of heaven... Although it is only a temporary touch of the **** magical power of the konjac, it is of great significance to Ye Xuan.

He instantly gave birth to all kinds of enlightenment, and the aura of the brain flashed through and continued.

Even at this moment, Ye Xuan has always had some unknown understanding, too complicated, and it takes time to deduct and explore.

All of this is very mysterious, and he is only able to feel the touch of the level of power in the heavens. sense

Feeling too mysterious, if you must use words to describe, this moment of his feelings, it is like a slap in the face, almost epiphany...

"boom!"

"Booming..."

"Card!"

Just at this time, a roar of earth-shattering sounds, and a crack appeared in the height of the void, which suddenly appeared between...

At this moment, Ye Xuan's heart screamed wildly, his heartstrings were tight, and his breathing seemed to have stopped.

There is no need to guess at all, he has realized who is the existence of the tearing of the void. Sure enough, almost at the next moment, his guess is verified! "

call out! "

A faint sound of breaking through the sound, from this huge void crack, rushed out a figure...

To be sure, it's a vertical eye... a vertical eye that is a few laps larger than a giant star. It's still green, and it's still closed, but it's already a breath of breath. .

Hongtian Tiandao Qingyan! and

And the breath is more clear and true than the two-day green eyes that have appeared twice in the short time of the shards of the shards of the wilderness. but

The same, but also more powerful!

Undoubtedly, what emerged in this void of the sky at the height of the sky is the demeanor of the green eyes of the ruins of heaven and earth, that is, the will of the wilderness.

The numerous fragments of the sky formed after the collapse of the vast wilderness... The Heavenly Master!

Before the shards of the ruins of the ruins, the Emperor II and the Emperor and the Emperor tried to attack the heavens, and the sorrowful eyes of the heavens only came to a projection.

It shows that he has paid attention to the two incidents, but he has not been too concerned. complete

There is nowhere in the sky, it is the place where he is in control. Where he is the supreme will of heaven, even if someone tries to attack the real heaven, he can only cope with a projection. Make

For the will of the heavenly path, as long as he does not recognize, and then strong existence, can not really take that step. but

Here, in this illusory sky, the situation is completely different.

Even if it is a flood of heaven and earth, when it comes to this, its essence and other star powers are not essentially different. He is at most a relatively strong existence.

In addition, any creature is attacking the heavens here, although he can intervene to stop it, but this kind of blockade is like the war between the strong stars and the invisible suppression of the heavenly level. If

The other party is stronger than it, he can't even stop it, and he can't do anything...

Therefore, after sensing that this piece of Hongmeng suddenly appeared a terrible atmosphere of a true heavenly atmosphere, the green eyes of the wilderness did not only come immediately, but also descended on the ontology, showing the degree of its attention...

Before, Ye Xuan felt that the blue sky was very powerful and too mysterious. After all, it was the will of the heavens and the earth in one big world. but

This so-called powerful, but only a very vague concept, Ye Xuan only knows that he is definitely not its opponent, far from it. can

To what extent it is so powerful, there is no clear concept at all, and it is impossible to use a certain clear hierarchy to measure and contrast with oneself. Do not

It's just before it...

Today's Ye Xuan, after activating the body's konjac blood, and transforming the blood of the konjac into the ninth, his cultivation has reached the second level of true heaven.

Even with the blessing of the horrible power of the konjac's huge body, his real combat power can even climb the first step. Da

It is enough to be comparable to the third order of the heavens.

Under the support of this cultivation, today's Ye Xuan once again sees the blue eyes of the ridiculous heavens, and in this case, in the face of this face, for the true strength of the heavenly eye, he finally has a clear understanding for the first time. .

Eight steps of the heavens and the earth... It's only one step away from the nine-step perfection of this environment! This

At the moment, Ye Xuan clearly felt the power level of the green eyes of the wild, and the heart was shocked, but there was also a sense of solidity.

His current peak strength is only three steps ahead of the shoulders, and it is indeed weaker than the eighth-order Hongtian Tiandao. but

At least, nowadays, he finally knows how much he has a gap with the other party, and is no longer the same as before. He only knows that the other party is very powerful, but he does not know the powerful limit...what is it!

Chapter 4902: See also the bow of the sky

"boom!"

"Booming..."

"Card!"

The roar of the earth's movement sounded, and a crack appeared in the height of the void, which suddenly appeared. From this huge void crack, a figure emerged.

To be sure, it is a vertical eye!

A vertical eye that is a few laps larger than a giant star, the whole body is green, and it is still closed at this time, but it has already exuded a heart-warming atmosphere.

Eight steps of the heavens and the earth... It's only one step away from the nine-step perfection of this environment! This

The scene of the scene, let Ye Xuan heart mad, but also provoked his strong fighting spirit.

Nowadays, his peak strength is only three steps ahead of the shoulders, and it is indeed weaker than the eighth-order Hongtian Tiandao. but

At least, nowadays, he finally knows how big the gap between himself and the other is, and is no longer the same as before. He only knows that the other party is very powerful, but he does not know the powerful limit...what is it!

"How about the eighth order of Heaven? The sky bow is not without killing it..."

In the whispering language, the body of the skeleton in the three real bodies of the konjac suddenly burst out with a fierce purple gold awn, and a sigh of sorrow is like a sigh of anger, and it is swaying...

In the next moment, the body of the cheekbone lifted the left arm, and the empty palm of the left hand was also a sudden golden man, and a golden bow with an energy form appeared in his left hand. whole

The large bow of the handle is simple and sturdy, and the middle part of the palm is a double-headed beast, which faces the mouth of the beasts in the upper and lower directions, biting the two humanoid bodies.

The creatures of these two humanoid bodies are also full of anger, seemingly roaring.

A string of strings formed by the twisting of numerous fine gold threads, the two ends are connected to the souls of these two humanoid bodies... It is the supreme **** of the ancient night forks!

In the battle of the ravages of the past, the ancient wilderness fork, which is as powerful as the golden giant tortoise and the golden dragon, once used this supernatural power to shoot a huge and unmatched hole. on

Even the heavenly eye, which represents the will of the wilderness, was almost slammed by the arrow...

After the restoration and crouching of the endless years of the heavenly eye, the heavens of the eighth-order world have been repaired, perhaps exceeding the level of cultivation at the time of the outbreak of the flood. but

At that time, the ancient night fork was only the peak of the nine-order grand perfection, but today's Ye Xuan's combat power is comparable to the third-order heaven, if he is now shooting this arrow...

The threat to the heavens and blue eyes is probably more than the original disaster! This

It is Ye Xuan's emboldened spirit. Otherwise, he is only able to repair Tian Tian's Samsung. Even if he only has the idea of retreating with a touch, he will try the true fighting power of Tiandao Qingyan. I am afraid it is also extremely dangerous. but

Nowadays, the situation is completely different when the bow is made. this

At this moment, as he activates the golden bow hanging in the sea, he turns into a huge and powerful giant bow in the left hand of the cheekbones, and the blue eye just before the sky at the height. It turned out to be a dazzling light, revealing a thick sense of taboo. but

Ye Xuan did not continue, although the right hand of the cheekbones was placed on the bow of the giant bow, but the golden energy arrow did not appear in the string...

In fact, he did not intend to really pull this arrow at all, because an arrow shot, Ye Xuan's body will be drawn 7780, he will also be in danger.

If an arrow fails to kill the heavens and blue eyes, then it will be really troublesome.

In the absence of other rear-hand arrangements, it must not be so reckless, not to mention that the true combat power of Tiandao Qingyan has not been tried yet. It is not clear about the details. Ye Xuan is not very sure. Shoot it with an arrow. when

Years of the ancient night fork, not a single arrow lost? If he fell in that battle, the root cause is that it is likely that most of the power in the arrow was extracted in an instant, causing it to fall into a weak and dangerous situation.

Such mistakes, Ye Xuan will never commit again, without full grasp, or not forced to desperate, in the face of the existence of the level of heaven and earth, he will never take the initiative to easily shoot this arrow...

Today, the reason why he activated the 陨天弓, only showed the giant bow body, but did not see the golden energy arrow, the purpose is to deter the heavens and blue eyes! thing

In fact, his purpose has been achieved.

This time, the blue sky of the wilderness road came down. It was originally a sense of a new atmosphere of heaven and earth. It wanted to stop or directly kill it, and it was completely achievable with its eight-step horror repair. of. no

Then you will not come confidently. can

Now, as he comes and is about to shoot, Ye Xuan's cheekbones suddenly raises his hand and activates the scorpion bow. In the left palm of the cheekbones, he gathers a sturdy energy giant bow.positive

It is the appearance of this giant bow, which makes the Tiandao Qingyan figure stagnate, and the faint light picks up the gloom, and there is a sense of taboo that is thick and incapable of opening, which is invisible. "

陨天弓? How can it appear in your hands, is it Yasha... is it really fallen? "under

For a moment, as the shape of the heavenly eye is about to spurt, the shape of a deep and incomprehensible voice is also resounding in this void: "And who are you? I have never seen it before. But why is there a familiar feeling..."

Roar! "

Ye Xuan did not pay attention to his words. When he could not speak, he would not say it, let the other party be confused and suspicion, and he would lose more words.

During the meditation, the three konjac avatars also screamed at the same time, and then, under the sway of Ye Xuan, the body of flesh and blood immediately waved the right fist, with a horrible atmosphere of destroying the earth, facing the opposite The heavens and blue eyes outside the 100 million miles went. in

During this period, there was no change in the body of the cheekbone, the left arm was always raised, and the right hand was placed on the bowstring. At any time, it was possible to condense the golden arrow and shoot it with one arrow...

Like, the black mist does not have any movements, but a pair of stars like the stars, but always stare at the heavens and blue eyes outside the 100 billion miles, waiting for the opportunity to move!

"It turns out that you just want to test my strength..."

In the heavens and blue eyes, there was a glimpse of the Ming dynasty, and there was a sneak glare in the vagueness. Even the sound of the gods revealed a meaning of ignorance that was unclear: "small The third stage of the small heavens is so courageous, it is not uncommon, but unfortunately, the ants are only ants ant..."

The gap between the small steps of Tiandaojing is like a gap in the sky, let alone you and me are five small steps? If you kill you, it will be like killing an ant..."

call out! "

The sound of the gods has not yet fallen. From the huge vertical eye in front, it suddenly shot a green mang, an unprecedented sense of crisis, and instantly shrouded Ye Xuan's heart, making him look changed...

Chapter 4903: The control of the power of heaven

"call out!"

The sound of the gods has not yet fallen. From the huge vertical eye in front, it suddenly shot a green mang...

At the moment, an unprecedented sense of crisis instantly enveloped Ye Xuan's heart, which made him look changed, and the spurt's body shape was almost conditioned, and it stopped in the void.

In the distance ahead, the blue color of the eye from the green eye of the flooded road is not very large, only about the diameter of the head, and even the breath is not very strong, but with the shooting of this blue and faint, tens of thousands Within the imaginary air of a hundred miles, suddenly there was an inexplicable breath boiling up.

Invisible and inferior, crushed towards Ye Xuan's body shape.

This is the power of heaven. Although it is not the top power in this piece of Hong Kong, there is a higher level, but Ye Xuan is only the third step of the heavens, and it is only by the **** secret of the konjac. Feel. can

It is said that for the understanding of the power of heaven, he is almost completely blank, but the green eyes are different, and his control over the power of heaven must have reached a level of perfection. If

It is in the wilderness, he can control one side of the void, and instantly gather the power of the whole piece of void, killing any existence.

In this glory, he can't control the empty side of the party, but the power of heaven that can be mobilized is still enough to crush Ye Xuan...

This is not Ye Xuan's miscalculation, but he has not really entered the heavens and the environment. He does not understand this. Otherwise, I am afraid that I will not have the idea of testing the real power of the Qingtian Heavenly Road. versus

The other side is in the same place, the control of the power of heaven is far less than the other side, but still wants to shoot the other side, try its combat power... This is simply the most stupid way, it is tantamount to take the initiative to put yourself in danger!

"You are not a real heaven, but just by a certain secret method, it has only been promoted to such a degree. No wonder that it has never been seen before. The real heaven and earth, it is so easy to appear, you can jump out of a strange presence?"

Obviously, just relying on Ye Xuan's stupid move, the sorrowful eyes of Tianhong have already guessed the facts. At this moment, the body shape that followed Ye Xuan's spurt suddenly stopped. Virtual

In the air, it also sounded its incomparable voice of the gods, revealing the endless contempt and Sen Han: "The little desolation, mastering a more extraordinary blood secret, dare to be so daring..."

If you really don't know how to live and die, today, you are destined to fall here! ”

Listening to these words, Ye Xuan's whole heart sank to the valley. At this moment, he thought of the ability to immediately activate the interstellar coordinate jump of the body's engulfing system...

Although he now has doubts and wariness about the phagocytic system, he has to admit that the ability to jump the interstellar coordinates attached to the phagocytic system is still very powerful. can

Unfortunately, just thinking about it, Ye Xuan immediately opened the idea, because it is impossible. There is a terrible horrible power in all directions, just like the Nu River. although

However, I have not tried it, but with his experience and deduction, even if I activate the interstellar coordinate jumping ability attached to the body's engulfing system, I am afraid that it will not help. It will not be activated successfully, but it will also waste time...

This is the interaction of the heaven and the earth level, even if it is a moment of ten, sometimes it is related to life and death. At this moment, Ye Xuan can not afford to waste for a minute and a half. brain

These thoughts flashed in the middle, and the body of the three real bodies of the konjac was immediately opened with a strong suffocating suffocation. This

For a moment, the body of the cheekbone was placed on the bow of the bow of the scorpion bow, and it moved slightly...

Anyway, they can't escape. With Ye Xuan's temper, it is impossible to sit still and wait for it. He decided to use the scorpion bow, even if it will make himself weak and fall into the predicament, but at least there will be a heavy blow to the sky, and then take the opportunity. The first line of life to escape.

Otherwise, if you do nothing, it is absolutely dead!

All this is a long story. In fact, everything is just flashing in his mind between the lights and stones.

When Ye Xuan is about to push the scorpion bow in the hand of the shin bone, and condense the golden energy arrow that is powerful enough to destroy the earth and destroy the earth, when the lasing is gone, the change happens...

"Hey..."

call out!"

At the beginning of the millennium, Ye Xuan's flesh and blood was suddenly hot on the left chest, sending out a familiar, low-pitched humming sound, which was clearly turned into a corpse lamp tattoo, a headless baby corpse that had been crouching in his left chest. The rhythm of sudden awakening.

At this moment, Ye Xuan was shocked, and the idea that he was trying to inspire the 陨天弓 was also recovered. Of course

However, it was not until he had time to extend the power of the gods to the left chest of the flesh and blood, and to get in touch with and communicate with the headless baby corpse that had just awakened, and a near-undetectable sound of the air had already Ringing... blood

After the sudden disappearance of the left chest of the fleshy body, it instantly returned to normal, and at the same time, a **** mans rushed out from the fleshy left chest... No

The head corpse actually left the body of Ye Xuan, and in the form of the deity, it officially appeared in the vision of the green eyes of the wilderness! under

For a moment, the emptiness in front of the emptiness of the front, revealing a baby corpse of a sinister shape, his head was actually held in his arms, always closed.

The headless baby corpse, descending, invisibly exudes a trend of the king, there is a kind of baby corpse, the feeling of all things, although the body shape is only a small height, looks small, but the momentum is more The huge flood of heaven and earth, but not weakly separated...

"The eighth step of heaven and earth?"

For a moment, even Ye Xuan took a sigh of coolness, and he was exclaimed, but his tone was full of joy...

With the appearance of the baby body, it is now a heavenly world. With only one glance, he has sensed the strength of the headless baby body. first

Before, in the face of the headless baby corpse, he and the face of the blue sky, just know that the other party is extremely powerful, but to what extent it is powerful, it is completely a vague concept. Such as

Today, from this moment on, even if it is the strength of the headless baby body, he also has a clear understanding.

Only on this point, this time, the journey of Hong Kong's void will not be white...

"Although it is a little early, but the eighth is heavenly, it is almost the same..."

Xuan's exclamation just fell, and there was a sharp voice of the gods in the void. It was the voice of the headless baby corpse. It seemed to reveal a touch of helplessness and depression: "You can't watch you with your eyes. Was it the old-eyed ghost... is it here?"

"Since all this comes early, then there is nothing to say..."

Here, the headless baby corpse is in the middle of the post, and then continues to say: "The endless years have passed, and the end of the year has not yet fully arrived, but the deity of the deity is indeed a heavy When it is time..."

Oh..."

The sound of the body just fell, the head of the baby corpse that he was holding in his arms, suddenly opened his eyes...

Chapter 4904: Baby body

"Since all this comes early, then there is nothing to say..."

The endless years have passed, and the end of the year has not yet fully arrived, but the deity of the deity is indeed the time of reshaping..."

"Hey..."

The voice just fell, the head of the baby corpse that he was holding in his arms, suddenly opened his eyes...

The two **** sighs, revealing an endless fierce breath, even Ye Xuan was violently shuddering, and the huge void of trillions of miles was shivering.戾

The sigh of breath is too strong.

However, it is also understandable that the headless baby corpse was born in the early days of countless floods. Because there is a flood in the hand to open the weather, it is the so-called magic repair that controls the law of the wild and the heavens. The artificial heaven that condenses. although

However, it was successful, but at the beginning of its birth, it has been blinded by the sorrows of the sky, leading a group of self-defense priests, but in fact, the so-called sorrows and sorrows in essence have no difference in the nature of the early days of the wild, causing a devastating battle. When I finally did not grow up, I was beheaded by Tiandao Qingyan.

The experience, after the gestation of the endless years, the accumulated resentment can be imagined. first

Before, this resentment has been suppressed by the headless baby in the head of the baby corpse that he himself is holding in his arms, but now, with the first **** eyes of this head, it is suddenly Vented out!

"It's you! It really didn't fall..."

At this time, in the void in the distance, the exclamation of the blue eyes of the wilderness was heard...he

Although I have already known that Tiandao baby corpse has not fallen, and even for many years has been secretly looking for its traces, after Ye Xuan's arrival in the starry environment, there are even several accidents that lead to headless baby corpses and wild days. Indirect contact...

But for a long time, there has never been a positive contact between the two. Such as

Today, this moment has finally come, and it's still so unprepared, even if it's a wilderness, it's incomparably unexpected...

After the exclamation, the wilderness of the sky was suddenly flashed over the sacred, the invisible coldness of the cold rose several times, and roared and thundered: "But it doesn't matter, since it is today, it is destined to be when you fall, the eighth step of heaven. What? Now you are just a god, there is no flesh, why fight with me?"

Is it the flesh? There will be..."

"In the last era, I was born, but it died in the middle. Although it has nothing to do with you, Hong Meng... you owe me a cause and effect!"

In the headless baby corpse, the blood is swaying, and the sound of a whisper of a nightmare is also self-evident, almost in the next moment, the second secret and incomprehensible low humming sounds: "Hey..."

At this moment, the vast void of a few trillions of square miles has shivered again..."

call out! ""

Oh..."

I didn't wait for Ye Xuan to react, and there were endless faint sounds in the air, all in all directions, far and near everywhere, and a mile of mans appeared from the void in the air, covering the sky in general, as if by some kind of invisible attraction, as if In the midst of a force in general, all of them are heading towards the headless baby corps in front of Ye Xuan's shape of 100 billion miles... This

It is the power of the law of Hongmeng, and if it is about the level and rank, it has surpassed the power of the law of the wilderness, although it can not be compared with the top-class Hongmeng in this void, but it is used to condense a heavenly environment. The flesh is completely more than enough! Hong

There are endless years in the emptiness of the emptiness, and the status is detached. There has never been a heavenly green eye like the incarnation of the will of the heavens, but in this emptiness, there is a force in the invisible law to run everything...

The right person, the headless baby corpse is in the dialogue with the power of the emptiness of Hong Meng, seems to be asking for, the end of the endless years of the cause and effect...

These turned into infinity, and the power of the law of Hongmeng from all directions was the price of the cause and effect of that period.

For the emptiness of Hongmeng, the power of such a rule is nothing, even for a cow, but for the headless baby, it is the best thing to unite its body. with

For the Tiandao Qingyan standing on the opposite side of the headless baby corpse, the power of these masculine laws is a huge threat.

Although he did not want to see the scene, he could not stop it. As the incarnation of the will of the wilderness, he was the supreme master in the wild, but in this piece of emptiness, he and other star powers have nothing in essence. The difference. Such as

Today, the power of the law of Hong Meng's emptiness is felt in the midst of it. After the initiative of the headless baby body, I want to settle the cause and effect.

Under this circumstance, if the blue sky is blocked and the damage is broken, the consequences will undoubtedly be extremely serious. It will be like the souls of the ruins of the heavens and the earth will

be suppressed by the will of the heavens and the earth in the wilderness, and instantly feel the law of Hongkong and the void. The power of rejection and suppression...if

If this is the case, while being suppressed by the power of Hong Meng's emptiness, and facing the old rivals, it will soon condense the headless baby body of the heavenly body, and the situation he will face will be incomparably Severe and sinister...even

It's not entirely impossible to fall to this point!

It is precisely because of these various kinds of things that the Qingtian Tiandao Qingyan is extremely unwilling, but in the face of all directions, the spurs of the spurs of the singularity of the singularity of the singularity of the sacred sacred sighs I still restrained the idea of shooting out, and I was unwilling to wait and see everything...

"call out!"

Oh..."

In all directions, far and near, everywhere, the roads of the mans appear from the void, the sky is overwhelming, the speed is almost at the extreme, just three short-term, they all gather together, forming a colorful ocean, a vast tens of billions away, will Quietly squatting on the entire body of the headless baby corpse there, completely submerged!

In the distance of hundreds of billions of miles away, Ye Xuan has already stopped his body shape, and his sorrows are constantly swaying, and the whole heart has been hung in the eyes of the blind man. he

There is no change, because I have already realized the gap between myself and the blue sky. Perhaps he can only enter the seventh stage of the heavens and the same as the later existence of this territory, so that he can have a positive battle with him.

At this moment, the headless baby corpse is condensing his natural body, because of the participation of the power of the emptiness of the law, this process, even the sorrowful eyes of the sorrowful heavens are not willing to intervene, so there is no longer the possibility of external interference.

It can be said that the only key point of the subsequent development of the situation today has fallen on the headless baby body. As long as his heavenly body can be smoothly gathered, then everything is possible...

Chapter 4905: Void giant tortoise

"call out!"

Oh..."

In all directions, in all directions, a thousand people appear in the air from the sky...

The situation is overwhelming, the speed is almost to the extreme, just a short three-day interest, they all gather together, forming a colorful ocean.

This vast ocean is a vast country with billions of miles, all of which are condensed by the power of the precious Hongmeng void. In the blink of an eye, the whole body of the headless baby corpse, which is quiet and squatting in front of the sky, is submerged... !

In the face of all this, whether it is Ye Xuan or the sorrowful blue eyes, I dare not intervene, just like outsiders, the ocean is separated by this vast law, and in the distant sky on both sides, watching...

However, the mood of the two is obviously completely different at this time. flood

The heart of the ridiculous road is sinking into the valley, and it is extremely heavy. and

Ye Xuan, although the face is calm, but the dawn is very incomparable, from time to time there are fine mans in the swaying, revealing a sense of excitement and excitement...

"Hey..."

Almost in the next moment of this tens of billions of miles of ocean gathering, from the central area of the ocean, there has been a very low humming sound, although it is almost invisible, but it has always existed and has not disappeared... ..with

The faint humming sound that continued to exist, the frontal void in the line of sight, the vast expanse of vast oceans that reached tens of billions of miles, suddenly seemed to be affected by some kind of suction force, and it seemed to be here. An invisible vortex appears in the middle of a vast ocean... pounds

The endless waves of waves and waves surged, and the power of the infinite ocean of law in the whole ocean suddenly began to condense inward, and the speed was very fast. It was just a stagnation of tens of billions of miles. With only a hundred million miles left in the ocean. but

Everything is not over, even if it has already condensed to a radius of 100 million miles, the density has increased by a hundred times, but the size of the ocean is still shrinking constantly...

In the past, the vast ocean of the last 100 million mile has disappeared. In the void in front, there is a light group. Only the diameter of the rice, the oval shape, just stands in the void, like a Mysterious egg. From

This egg has a powerful atmosphere, and the unique meaning of the headless baby corpse is the same. Not only the same breath, but also the same, it is still the eighth order of heaven. Milli

Undoubtedly, this mysterious egg, which is purely condensed by the power of the inexhaustible law of honour, is now born in the heavenly body of the headless baby. and

Moreover, this kind of gestation can never take a long time and will soon end! thing

It's true...

"Card..."

"Card..." only

Only after the appearance of the elliptical egg of the diameter of the rice, only the three interest rates have passed, and the position has once again brought a clear sound of a crack, like a crack.

On the surface of the oval egg of the diameter of the rice, there is a dense and dense spider web. Then, the whole egg is completely collapsed, and the egg body is not wasted. After all, it is condensed by the power of the pure Hongmeng rule, too precious...

As the egg cracked, countless egg fragments, ranging from large to small, instantly turned into a canopy of light and condensed toward the inside.

This time is faster, just after a moment, the egg has disappeared, half of the egg pieces are not left, and the egg body is obvious, it is the headless baby body...

Today, he is no longer the energy form of the spirit state, but has the real flesh and blood, and the body shape is still only about the size of the foot, it looks like a baby. Do not

However, it is surprising that even today, the true heavenly body has been condensed, and it is still condensed with the power of pure and massive Hongmeng rules, but I don't know what kind of consideration, when the egg disappears, now The headless baby corpse that appeared in the line of sight was still headless on the neck, with a look of incomparableness, a skull, and his left hand with his left arm... in his arms!

Today's headless baby corpse, and the previous look is no different, the fierce atmosphere of the sky is still the same, the appearance of the sultry is still the same, even the body that is dispersed in the body is still breathable, or the eighth order of heaven and earth...

The only difference is that he was just a form of energy in the state of the soul, but now, there is a real flesh. and

Moreover, this flesh is still pure and incomparable, and the strength of the huge law of Hongmeng is condensed. The degree of its toughness is probably the same as that of his cultivation. It is also the eighth-order sacred eye of the heavens and the earth. In the case of full bombardment, I am afraid it is difficult to reinvent it...

"Now, do you still want to kill me...?"

The heavenly body, which is purely condensed by the power of the inexhaustible law of honour, was successfully completed, and the voice of the gods of the headless baby corpse also sounded again.

Still sharp, just like a baby screaming, but also reveals the meaning of endless scorio: "However, the words have already been said, you are the eye of the blue eye, the incarnation of the will of the wild, and it is a bit ugly?" "

call out! "

"Boom..."

The sound is still not falling, and the headless baby will be shot first. he

Only the body shape of the high-level singularity was spurred by a mile, and the speed was so fast that even Ye Xuan was suddenly stunned.

The glare of the eye, the imaginary distance of hundreds of billions of miles was left behind by the headless baby corpse, and he only appeared in the front of the green eye of the wilderness, but hundreds of millions of miles away... ..two

The body shape of the person is too different. Although the green eyes of the wilderness are just a vertical eye, they are huge and huge.

Although the headless baby corpse has a normal human body shape, but it is only a high degree, so close to each other, each other's breath is locked, **** for tat, this scene is simply very strange...

At this time, the head of the headless baby was held in his arms by his left arm, but his right arm suddenly appeared, and he waved his hand and slammed into the huge and unpredictable sky.

"boom!"

"Booming..." force

The amount is too majestic, the momentum is terrifying, and the punches are out, and the endless voids of the entire trillions of miles are shaking. "

What is the true body of Heaven and the power of the law of Hongmeng? I can't help me..."

call out! "This

At the moment, the low-pitched voice of the sorrowful sky and the green eyes reappeared, and the huge vertical eye pupils shrank, and there was a huge green scorpion shot, and the headless baby corpse slammed into a fist. Shoot and go..."

Rumble..."

"Card!"

"Hey..."

"The endless years, this scene is so unexpectedly coming, the time seems to be a little ahead of time, beyond the expectations of the deity..."

At this time, on the right side of the green eyes of the torrential road, the sky roared, and the hollow cracked a crack. A porphyry-like turtle claw swept out, and the whistling sound was clearly a void giant turtle.

However, what made Ye Xuan suddenly shocked was that the virtual giant tortoise came, and at this moment, a claw came out, but it was not a blue eye to the wild, and his goal was to take the headless baby.

Chapter 4906: Blast into the Milky Way

"Booming..."

Card! "

"Hey..."

At this moment, the difference is steep!

On the right side of the green eye of the torrential road, the sky roared, and the hollow cracked a crack.
A pompon-like turtle claw came out... 戾

Howling is very familiar, let Ye Xuan heart mad, this is clearly the voice of the virtual giant turtle!

However, what made him amazed was that the empty giant tortoise accidentally came, but at this moment, a claw was found, but it was not a blue eye to the wild, his goal was clearly to take the headless baby body..."

boom! "

"boom!""

puff....."

Everything happened too fast. I didn't wait for him to react. The huge blue-eyed light beam that was shot from the green eyes of the flooded sky, has already hit the body of the headless baby. Ten thousand

At the time of the glory, the hollow giant turtle, a giant claw that far surpassed the giant star, also hit the ground without a head.

There is almost no gap between the two attacks, as if they are coming at the same time... How terrible is the power of 揉 and together, you can imagine! flood

The blue sky of the ridiculous road was originally the supreme existence of the late Tiandao, and it was entangled with the headless baby corpse. It was entangled in the endless years of the old family. After many years of seeing it again, it must have been spurred by the anger. Full force. Virtual

Although the empty giant tortoise is not a true heavenly powerhouse, he has lived from the early days of the flood to the super-old monsters of the world. In that battle, the ancient night-time forks were cast to the strong gods and the heavenly bows. The blue sky of the wilderness was shot down from the sky.

It can be seen that this kind of peak and absurd, which was born in the early days of the flood, basically has the magical power similar to that of the 陨天弓. Once it is fully motivated, the terrorist power that can be achieved in a moment can definitely make the strong people of the heavenly environment feel ashamed. .

The virtual giant tortoise suddenly appears at this most critical moment. It is impossible to be a coincidence. If there is no accident, he is very likely to have been crouching on one side, and use the isolation power of different voids to cover up the breath...

In this case, he is a well-prepared attack. It can be said that it has been a long-term deliberation, and the explosive force under the full force is absolutely not weaker than the effect of the ancient Yaksha to fully exert the power of the gods.

To put it simply, it is a sentence: the real power of the virtual giant tortoise, even if it is inferior to the dawn of the heavens and the sky, but the gap is not too big.

That is to say, at this moment, if the headless baby corpse is at the same time, it is the full blow of the two late heavenly powers... he

Although it has already condensed the true body of Tiandao, and this heavenly body is still condensed by the force of the law of massive emptiness, but it is suddenly hit by the forces of the two heavens in the late stage, and it is strongly incited. Can be imagined! Virtual

In the air, after two loud screams, followed by a dull squeak, the body of the headless baby corpse flew backwards, and a mouth spurted a blood arrow...

The body of the body can be condensed by the power of the massive law of emptiness, even if it is a drop of blood. At this moment, a blood arrow is ejected, and it is instantly turned into a light rain to dissipate, and it is turned into a pure force of the law of Hongmeng. Void...

"Void giant turtle, you damn..."

"Roar!"

"Hey..."

In this scene, Ye Xuan is stunned, and the three real bodies of the konjac are screaming at the same time, and the horror of the horror is full of endless unwillingness.

Although he did not participate in the battle of the world that had collapsed the entire wilderness, he clearly saw some pictures on the battlefield in the inheritance of the sacred gods and other supernatural powers.

In the vast expanse of the vast wild and empty battlefield, countless wild people are in the big battle, only the head of the horn of the enchanted enchantress, crouching behind a giant star, demeanor.

Other wild people are divided into two battle camps, with clear positions and a life-and-death battle.

It can be said that for all the ancient creatures who had participated in the battle of the ruined world, Ye Xuan was the only one who was vigilant and suspicious, and only the enchanted enchantment. Rear

He came to discover the true identity of Xingbo, and realized that the relationship between Xingbo and the ancient sky is clear, and he must have collusion. At the same time, he knows that there is a sorcerer in the followers of Xingbo, but in the star. After the appearance of the world, but did not see the enchanted konjac, Ye Xuan's suspicion is even stronger... he

It is extremely doubtful that as early as the outbreak of the war of the ruins, the sorrowful sacred eyes and the star-boss have colluded, but where is the identity of Xingbo, and it is still inferred. but

The one appeared in the battlefield of the World War II, crouching behind a giant star, and behaving in a strange way, but it is very likely to be one of the followers of Xingbo...

Such speculation allowed him to smell the conspiracy that stemmed from the ravages of the war. but

Ye Xuan's suspicion and vigilance has always been just the sorrows of the blue sky, the star blog and the sorcerer's konjac. He never imagined that there was a spoiled existence in the camp of the headless baby corpse. and

And this spy is actually a void giant turtle... You know, when the World War I broke out in the same year, he was the most powerful peak of the headless baby. where

I was afraid that in the battle of the world that collapsed the whole world of the wild, the hollow giant tortoises had been fighting for the battle, and after the war, they were entangled in the endless years of the demon of the demon, and was rescued by Ye Xuan not long ago. come out.

The Tibetans are too deep. No matter who they are, they don't think that he is a spy of the enemy camp. The endless years have not revealed half of the flaws, but at this moment, after the headless baby corpse has just re-emerged, and successfully condensed the true body of Tiandao At the most critical moment, together with the sorrowful blue eyes, the joint attack hits the heavens and blue eyes...

Everything is now flashing from Ye Xuan's brain like a lightning bolt, letting him go through the cold, his heart, and his endless anger is roaring...

Oh..."

boom! "

"Oh..."

Just at this time, the distant left side of the front left, suddenly came the sound of the headless baby corpse screaming.

Immediately after this whistling sound, a shocking blast came, and the headless baby corpse was just condensed out of the heavenly body, but it exploded at this moment, and countless light rains exploded...

This flesh has just been condensed by the force of the massive law of Hongmeng. Now it blinks and blasts. If there is no accident, the light rain will be completely dissipated, turning into the power of the law of Hongmeng, and reintegrating into this void. first

Everything before the effort, if you hit the water!

However, what makes Ye Xuan unexpected is that with the full body of the headless baby corpse, the light rain smashed the room, this piece of Hongmeng was actually torn open with a crack, and the star behind the crack was brilliant. Breath, clearly the Galaxy Star..."

call out! "No

When he reacted, there was a **** glare in the light and rain that opened and rushed into the galaxy in the crack. that

It is clearly the soul of the headless baby corpse, and the blink of an eye has disappeared. This

At the moment, there is a voice of God in Ye Xuan's mind: "Success! I will take the first step and wait for you to come..."

Chapter 4907: Smooth back to the nest

"Hey..."

"boom!"

Oh..."

On the left side of the sky, there was a sudden whistling sound of a headless baby corpse. The Tiandao true body that he had just gathered out was actually bursting at this moment, and countless light rains exploded...

The horrible amount of violent violence is raging. This piece of Hongmeng's void has been torn apart by a crack. The star behind the crack is splendid, and the breath that comes out is clearly the Milky Way!

Not waiting for Ye Xuan to react, the light and rain that opened and shot, the soul of the headless baby corpse has turned into a blood glare and rushed into the galaxy in the crack.

Just keep a voice of God's voice echoing in Ye Xuan's mind: "Success! I will take a step first, waiting for you to come..."

At this moment, Ye Xuan's body shape is mad. If he is struck by lightning, the whole person will stand on the spot, his mouth wide open, his eyes round and round, and even his breathing will stop, his brain bang, and he completely smashed...

Successful?

Take a step and wait for yourself to pass?

Flashing through the brain, Ye Xuan instantly realized...

All that happened is all fake, just a scene of a headless baby corpse and a virtual giant turtle! and

Their purpose is to send the headless baby corpse to the parent star. Now it has been the shield of the invisible law by the power of the emptiness of the emptiness of the law, the completely isolated Milky Way star...

For this purpose, not only the sorrows of the heavens and the green eyes, but also the blue-eyed beam of light in the eyes of the heavens, a full blow, turned into the power needed for the headless baby.

Even the law of the emptiness of this piece of emptiness has been deceived by headless corpses and hollow giant tortoises...

The headless baby corpse had previously wanted to end up with a cause and effect with this piece of Hongmeng. It was originally purposeful, in order to condense a true body of the heavens with the power of the massive law of Hongmeng. tight

Then, at the same time as the flooded Tiandao Qingyan made a full blow, the empty giant tortoise that had already crouched on the side came, and made a paw when Wan Wan was in the first place.

However, it is only the power formed by the all-out blow of the blue-eyed and the empty giant tortoise, and it is still impossible to break the invisible shield that envelopes the Milky Way. positive

Because of this, the headless baby corpse will be at the last juncture, abandoning the heavenly body that has just been condensed, and directly exploding itself, in order to condense the power of the vast amount of the true law of the heavenly body, tearing this piece of life. Hongmeng void, broke the Galaxy shield, and successfully entered the Galaxy Star...

All of this, and the scene of the unfolding sorrows of the blue sky and the star and the other members of the squad, have a similar experience. only

The difference is that the green eyes and the star blog are even more awkward. In order to send the star to the galaxy, all the followers of Xingbo have been sacrificed. Only two people are left behind. unknown.

There is no loss for the headless baby corpse and the void giant turtle. It is just a result of a stagnation with Hong Meng's void. he

They even used the green eyes of the wilderness, and on this alone, they were very popular. when

However, although Xingbo and the headless baby corpse have successfully entered the Galaxy Star Field, but Xingbo entered the body, but the headless baby corpse entered in the state of spirit, obviously between the two There is a gap.

But the extent to which the impact will be reached, Ye Xuan can't judge, because he doesn't even know that Xingbo and the headless baby corpse are so hard to enter the galaxy's horoscope, and they want to get close to the parent star. what exactly is it? another

In addition, before the departure of the soul of the headless baby corpse, he actually secretly left the voice of God in Ye Xuan's mind, saying that he took a step first and waited for Ye Xuan to go...

This point, let Ye Xuan heart suddenly poured out endless doubts! for

what? no

The head corpse has been successful, and it has successfully entered the galaxy star field by using the power of the shoal of the blue sky and the law of Hongmeng. Both

However, why did he say such a discourse, why must he wait for himself to enter the Galaxy Star Field and enter the parent star...

In the brain, these thoughts flashed, and Ye Xuan suddenly squatted in the void, his brain banging, his heart was a mess, although he realized a lot, but the new question seems to be more, let him almost Crazy! "

Oh..."

Just at this moment, in the void in the distance, a screaming whistling sound suddenly came: "Damn! Baby corpse, old turtle... Are you counting me? And it is still successful!"

Oh..."

"Hey!" This

At one moment, the sound of the screaming of the green eyes of the wilderness screamed again, revealing the endless grievances of the heavens. It was angered. As the incarnation of the will of the heavens and the earth, today is the headless baby corpse and the virtual giant tortoise. Simply can't bear it! Bo

[illegible]

This is clearly a anger, a desire to kill people!

"boom!"

"Booming..."

Although it is only two sacred beams of light, it is a wrath for the green eyes of the wilderness. If it is in the emptiness of the ruins of the ruins, these two beams of light are tantamount to the horrific punishment of the horror. Next, one side of the world is very likely to be destroyed.

Even in this glory that can't be controlled by it, the horror of its power can't be underestimated. The two cyan stalks are shot out, and the deep and heavy emptiness of the glory trembles fiercely. I'm afraid of the ruin of the earth, and it's coming...

At this moment, Ye Xuan's heart once again evokes an unprecedented sense of life and death crisis. This blow is not far from being comparable to the sacred light column of Ye Xuan's original eye, and even more looming than it just blasted. The blow of the headless baby. complete

It's actually anger, and the explosive power of the moment can almost surpass the repair of its eighth-order heaven...

"Bad boy, do you want to die?"

Just at this time, in the far direction of the right side of the front, the sound of the snoring of the emptiness of the giant turtle was also passed: "You don't leave, the old turtle I can go first..."

Oh..."

As soon as the sound fell, the cracking sounds came, and the huge claws shrank into the cracks of the void, disappearing instantly. This

At the moment, Ye Xuan's heart was clear, and he did not hesitate. When he was distracted by the horror of the sky, he immediately gave instructions to the body's engulfment system to fully activate the interstellar coordinate jumping ability attached to the system, and immediately jumped...

"call out....."

Almost at the next moment, a faint sound of emptiness broke out, and the huge figure of the Taikoo konjac condensed into a small point in the blink of an eye, and one tenth of the time was gone, it disappeared completely under the flash. not see.

It was a trace of a trace, and it was not left! and

This time, Ye Xuan's jumping target is not the other place. It's also the source nest star base camp that is also located in this Hong Kong virtual air...

Chapter 4908: Amazing strength climb

Counting the time, Ye Xuan left the source nest of the Hongmeng Stars this time, and it has been for decades.

When he left, he waved a large amount of purple gold medicine, nine color medicine, and chaotic medicine left. Of course, these three different levels of flesh and blood medicines are obviously different. most

For the top chaos medicine, it can only be supplied to Ye Xuan's core confidant, and the cultivation of the higher level of strength, the next level of Jiu Cai Shen medicine and Amethyst treasure medicine will be successively decreased.

In addition to these, Ye Xuan also left a large amount of other cultivation resources, as well as a part of the various levels of Baodan in his hands. All of this time he was handed over to the sea, and he turned back to the old pigs and then handed them over to the old Pig essence. by

The old pigs were allotted together, and then, Ye Xuan and the lower part of the coffin were chilling for a while before leaving the source nest star, and went away.

A dazzling, and decades have passed. press

According to his calculations, the purple gold medicine, the nine-color medicine and the chaotic medicine that he left in the source nest stars, as well as the various grades of Baodan, should be consumed almost. This

Once he decided to come to Hongmeng Void, one of the purposes is to look at the source nest star base camp, and add some resources for cultivation to the confidants in the base camp here.

When he left decades ago, the flying scorpion and the silver scorpion were already immortal, and they were not far from the universe.

The Eight Great King Kong and the returning sea, the Cang Qingyu, and the heads of the Devils, such as Naibo Mountain, Ba Gu, Li Mo, Zuo Fengtai, have all been imperial, and still in the late stage, the distance is not the same. Far away, the other 20,000 devils, all without exception, are all the end of the immortal.

In addition, among the stars and beasts in the army of 10 million beasts, even the Lord of the universe has already had nine statues. The old pig sperm has already reached the nine-step grand perfection of the universe, Ye Xuan left. At the time, he just entered the retreat and wanted to attack the universe.

As for the emperor's immortality, there are thousands of beasts and beasts in the army. The rest are at least all ordinary and immortal. They are definitely an elite army of fierce beasts...

All of this is the old yellow calendar decades ago, and now it has been so long, and the source of the nesting stars has a large supply of top-level cultivation resources, and no other nuisance, all the time They can all be used for peace of mind, and they can be upgraded at full speed. Their cultivation is a fast increase in strength. Obviously, there is no need to say anything.

Even Ye Xuan, the heart is looking forward to incomparable.....

...

Hong Meng's void, the secluded star field where the source nest stars are located..."

Oh..."

The path of the invisible is accompanied by the sound of the air, and there is no pause, and it directly rushes to the source nest star in the front of the void. This

It's just awkward! this

Engraved, with the smooth escape from the ridiculous heaven and earth, successfully activated the interstellar coordinate jumping ability attached to the internal system to return to the source nest base located in this piece of Hongmeng, Ye Xuan originally hanging in the eyes of the blind man, also completely fell.

The surrounding of the source nest is still very quiet. Even if it is far away, Ye Xuan's knowledge can also see the land table of the source nest stars. There are some vicious beasts and demons on the patrol.

This shows that everything is normal. In the decades after he left, there have been no accidents.

This is enough. heart

Under the head suddenly loose, Ye Xuan's body shape is a land surface directly descending from the source nest star. four

The patrol of the demon and the beasts immediately swarmed and they were all very happy. One

After Panyu's troubles, Ye Xuan's body shape immediately entered the inner space of the life giant plug, and looked at it in a vast expanse, and could not see the end. and

At this moment, the news of his sudden return has apparently been passed back by the patrol team encountered by the Star Land.

After entering the interior of the stars, there are a large number of starry beasts rushing around, one by one is very excited, which clearly can see the sea, a knife, Cang Qingyu, as well as Naboshan, Ba Gu, Li Mo, Zuo Fengtai Wait for the figure of the devil.

Including the eight King Kong, Feitianyu, and the silver cockroaches are also spurting, everyone is very excited, after all, this time, Ye Xuan left time, really is not short!

I don't have dozens of years, the eight King Kong, the flying scorpion, the silver scorpion, the singularity of the sea, and the sorrows of the sea. It's natural to make a lot of fun with Ye Xuan. As for their cultivation, they also let Ye Xuan is very satisfied. can

It is said that after a few dozens of years, the hearts and minds of the people who have stayed in the source nest stars all have amazing strengths to climb!

Today, the flying scorpion and the silver scorpion are the masters of the universe, and are not far from the universe.

As for the Eight Great King Kong and the Return of the Sea, Cang Qingyu, and the leader of the Devils, such as Naibo Mountain, Ba Gu, Li Mo, Zuo Fengtai, etc., all of them are now the cosmic sages, and they are still in the late stage of this universe. The environment is not too far...

The 20,000-magic strong man under the sea and the green squad, all without exception, have already had the immortal power of the emperor. Although it is only the initial stage, as long as there is a large supply of cultivation resources, I believe that soon, The entire 20,000-strong Demon Legion will enter the universe.

But that still takes time to smelt...

Even if it is long, it is worthwhile. A demon army consisting of 20,000 cosmic sages, Ye Xuan thinks about it, and is excited.

In fact, he has always been the 20,000-magic army under the slash of the sea and Cang Qingyu. As an elite ace team, it seems that the results have been amazing, but since the end of the flood When it comes to all-round, then Ye Xuan will not stop and everything will continue.

He also wants to see, this is the earliest follower of the magical army, and finally, what kind of height can go!

If it is a flood in the end of the world, the two tens of thousands of devils can possess the supreme power of the universe, and they will be mixed with some ancient powers, ancient and even seven or more late denominations as the leader and commander... that

What is the horror of the power of this Devil's elite army, I am afraid it will reach a heinous degree!

In addition to the Devil's Legion, the old pigs smashed the starry beasts of the 10 million beasts, and the strength of entering the country is also amazing. There are seven outs of the ancient powers, but it is the beginning!

After all, when Ye Xuan left, he left a few twenty-eight-level powerful Baodan, and at that time there were nine cosmic masters in this beastly army. Tens of years passed, and seven of them were born. The first-order power is normal.

In addition, the cosmic sages in the beastly army are more than a thousand. The rest are at least all of the emperor's immortal strength, and the emperor is absolutely an incomparable fierce. The beast army...

Chapter 4909: The possibility of stripping the system

This time, although Ye Xuan left the time of Hongmeng's void, it was only a decade or so, but all of the genius in the source nest of the Yuanchao Stars had been retreating.

In this decade, the star field where the source nest star base camp is located is like a piece of land that has been forgotten by the world. Without any nuisance, all the strong inside the stars can calm down and use Ye Xuan to leave. Go to the top resources left before, and do your best to improve yourself.

In addition, as the time of the end of the flooding is coming closer and closer, the new Hongmeng era is just around the corner, and the aura of heaven and earth in this glory has been continuously rising.

All the factors together have led to a sharp rise in the strength of all the monks in the source nest.

Even the ancient powers of the ancients have appeared seven.

In fact, although the old pig was still in retreat, Ye Xuanyi did not see him when he arrived, but from the mouth of the returning sea and others, Ye Xuan had already understood his strength. that

As early as three years ago, the old guy has already entered the ruins of the ruins of the ancient times, that is, half-step ruin. It

Therefore, there is no breakthrough, because there is no such thing as the 29th-level ridiculous Baodan. Otherwise, this old goods is already a powerful and desolate one as early as three years ago. Rear

In the past three years, he has been retreating almost all the time. Occasionally he came out for a few days. The whole person looked very anxious. He tried to break through on his own, but it was obviously a failure to attack the deserted place again and again...

After hearing these news, Ye Xuan's heart is also quite embarrassing. Say

Up, this time, he dragged the old pig essence, otherwise, if he came back a few years ago, the old pig has already entered the desert. in

Nowadays, in the big world environment where the new Hongmeng era is about to open, the three years will be very valuable. Such as

The old pig essence has broken through to the ruined state three years ago. After three years of painstaking practice, it is now even possible to enter the fourth stage of the middle ages...

For many years, now suddenly see each other, Ye Xuan and a group of left-behind source nesters will naturally be able to laugh together.

After three days, a group of people are gradually dispersed. Their task is to improve their own cultivation. When Ye Xuan is absent, Ye Xuan returns, and so is the same.

After the ancestors left, Ye Xuan wandered alone inside the stars.

In fact, this source nest star looks like a huge abandoned source nest star from the outside, but in fact, its interior has long been swallowed up. cover

The land rock layer covered on the surface of the stars is only a thousand miles, and under a thousand miles, it is the life of the Longye. thing

In fact, the size of such a huge source nest star is no longer the strongest state of the dragon's life. If necessary, the volume of the dragon field will be again between Ye Xuan's movements. It has risen several times, reaching hundreds of millions of miles. More

The Emperor's Heavenly Beast, which is a combination of the power of the entire Tianzu nationality, must be a huge circle. when

However, in addition to the giant plug shape of this star state, the Longye is a life-star starship, and it can obviously change into other states. example

For example, a vast continent in a starry sky, such as a warship, even a giant beast resembling a heavenly beast, is completely okay.

It's just slower. After all, it's a living body, not an icy machine. It's an internal mechanical operation that can change instantly...

Although the wild number is not the largest state, but the size of a giant source nest star is not small, and now the interior of the stars thousands of miles, has become the internal space of the Longye, naturally it is impossible to only one Floor. thing

In fact, the elite army of the devil and the army of the tens of millions of beasts are in different ships. As the top layer of the command cabin, only the old pigs and the sea can enter.

Nowadays, the old pig essence is closed in a secret room in the top house command cabin. It is said to be a secret room. In fact, there is another world in it. There are mountains and waters, which are vast and vast. leaf

After Xuan turned around, he also came to the top cabin of the Longye, but did not immediately wake up the old pig, so as not to have any accidents.

He sat down on the top of a giant peak in the top command cabin, but did not cultivate, but waited for the old pig essence, while thinking about the blue sky before the dawn, the baby corpse colluded with the virtual giant tortoise, with the help of the wild sky and the red eye The power of the law, smoothly rushed into the Galaxy Star...

Undoubtedly, this matter is extremely beneficial for Ye Xuan, for the headless baby corpse, the virtual giant tortoise, etc.

Although Ye Xuan still does not understand that they are so eager to enter the Milky Way star field that is still protected by the shield of the law of Hong Meng, and the purpose of this approach to the parent star is what it is.

But at least a little Ye Xuan understands that it is necessary to enter the parent star, and the Qiyun acquisition of the next Hongmeng era must be extremely important.

To this end, the headless baby body, the floodland Tiandao Qingyan and Xingbo are all in the layout, and both sides have a small gain. first

Before, just the starburst that colluded with the green eyes of the wilderness road entered the Galaxy Star Field, which made Ye Xuan uneasy, and obviously not a good thing for the headless baby.

At that time, the headless baby corpse also saw the scene with his own eyes. After all, without his ability to cover the atmosphere of Ye Xuan, he had to be exposed at that time. or

Xu, the headless baby corpse is also after that time, only to worry about it, I do not know what method is used, actually secretly contacted the virtual giant turtle, it took a short time to lay down this game, and finally succeeded in one fell swoop...

All of this is not only the use of the law of the emptiness of the void, but also the horror of the heavens and the blue eye. Even Ye Xuan has been kept in the dark.

Although the headless baby corpse and the virtual giant turtle are not his calculations, during this time, the headless baby corpse is still the same as before, and has been squatting in the left chest of Ye Xuan with a corpse lamp tattoo. At the office.

For his various arrangements, Ye Xuan has never been unaware of it. This feeling is placed on anyone's body, I am afraid it will not feel good.

Ye Xuan is also the same.

However, the matter has now passed, and the headless baby corpse and the virtual giant turtle do not say, just relying on the existing clues in the hands, Ye Xuan can not even deduct more things.

What's more, although my heart is not happy, but after this time, the headless baby has left, no longer squatting in his body. Place

Therefore, Ye Xuan has no need to entangle this matter. can

In addition to this incident, there is still a body similar to the headless baby corpse in his body, that is, the phagocytic system, which helped Ye Xuan too much in the early and middle stages. It can be said that without it, there is no current one. Ye Xuan.

But until now, Ye Xuan still can't understand it. This time, after experiencing the headless baby corpse layout incident, he was immediately alarmed. Now he is indulged, thinking about the possibility of separating the phagocytic system from his body... ..

Chapter 4910: Phagocytic system

This time, after experiencing the headless baby corpse layout incident, Ye Xuan's heart was immediately alarmed... he

Thinking of the body's phagocytic system, it can be said that in the early and middle stages of his growth, the phagocytic system helped Ye Xuan too much. Without it, there would be no Ye Xuan.

But until now, Ye Xuan still can't understand it. Nowadays, the old pig is not closed. Ye Xuan thinks of the body's engulfing system from the headless baby corpse layout event, and unconsciously falls into sinking. It is thinking about taking it from himself. The possibility of body stripping...

In fact, Ye Xuan did not think about it before. in

When I saw Xingbo in the deepest part of Hongmeng's blood-killing mosquito ban, I knew that when he was still dead, Ye Xuan realized that it was not good and had a strong doubt about the body's phagocytic system. swallow

The phagocytic system was developed by Emperor II. The systematic statement is to select the best among the countless people of Xing Xinghai. to

The final result after the selection is not stated.

Previously, Ye Xuan did not think much, perhaps because his own level was not enough, and he did not reach this height.

But later, with the appearance of Xingbo, he realized that Emperor II and Emperor Yi are very likely to be a group with Xingbo. Then, the phagocytic system is naturally unsafe. can

Unfortunately, after realizing this, let Ye Xuan look for it in the body, but he can't find the position of the devour of the phagocytic system. It seems that it does not exist at all. from

After that, although Ye Xuan temporarily forgot the matter, but the heart, but has been suppressing a heavy stone, dare not say that it has become a knot, but it is estimated to be similar. only

Later, Emperor II merged with the power of the entire mechanical family, attempting to attack the heavens and the road failed, and was ruthlessly suppressed by the ridiculous heaven and earth, but the Emperor was released into the water and successfully entered the real heaven.

From this incident, let Ye Xuan realize that it is very possible for Emperor Yi to be a group with Xingbo and Hongtian Tiandao Qingyan. On the contrary, it is likely that the Emperor II, which was originally suspected, is not the case.

The phagocytic system was created by Emperor II and spread in the sea of stars...

In this case, Ye Xuan's heart suddenly paused, because the emperor's old goods are also mysterious, but at least they can't compare with Emperor Yi, Xingbo and Hongtian Tiandao.

If he and the three parties are not a group, then even if he is moving in the swallowing system, if there is any plot, it is not a good thing for Ye Xuan, but at least it is not too serious! only

Yes, this is just a guess. Ye Xuan can never be paralyzed. first

Before, I just couldn't find the crouching ground of the phagocytic system in my body. If I couldn't find it, I couldn't find any effort. Naturally, I could only temporarily throw it aside. can

With this time entering Hongmeng Nether, Ye Xuan activated the blood of the konjac in the body, and cast the blood of the konjac into the ninth change. After repairing for the second step of the heavens, everything changed...

At that time, Ye Xuan successfully entered the heavens and the world with the help of the blood of the konjac, and it was still the second order of the heavens. After entering this realm, Ye Xuan instantly felt the void around the sky, invisible. Suddenly there was a film that was previously untouchable, but today it is clear. This

It is the power of heaven! although

However, the **** magical power of the konjac was changed in advance, but the meaning of Ye Xuan was so great, because at that moment, he immediately gave birth to all kinds of enlightenment, and the aura in the brain flashed through. Keep going.

Even at the moment, the body devour system that has always made him unpredictable, at that moment, Ye Xuan has some unknown insights, too complicated, and it takes time to deduct and explore, and then to understand. can

To say that at that moment, he feels like a slap in the face, almost epiphany, everything is very mysterious, it is all after he touches the level of power of the heavens, he can feel it...

Come, he activated the interstellar coordinate jumping ability attached to the internal system, and immediately returned to the source nest star, Ye Xuan retired from the blood state of the konjac nine times. From

Since then, his cultivation is only the second order of the ancients.

In doing so, it is also to be cautious, so as not to be touched by the sorrowful eyes of the heavens and the heavens.

But now, he has entered the source nest star inside, the source nest star was originally used by Hongmeng void to breed the chaos demon god, this one is still abandoning even if it has been abandoned, otherwise, the source nest star only Only a thousand miles of rock formations, the following

has been swallowed up by the Longye life giant plug, if there is no isolation, fear is already found abnormal.

In addition, coupled with the isolation power of the Longye Life Giant Plug itself, under the dual effect, Ye Xuan deliberately converged the breath, so that even if he now enters the ninth change of the magical scorpion There is no need to worry about the breath, and it is caught by the blue eyes of the wild...

When I think of it, he doesn't hesitate anymore. Under the glimpse of the gloom, he immediately entered the ninth change...

At one moment, his cultivation suddenly surged in strength, and directly entered the second stage of the real heaven and earth from the second step of the ancient sage. However, the body still maintained the temperament, and the temperament of the temperament did not leak out.

At the same time, Ye Xuan's self-consciousness directly entered the sea of knowledge. Under some exploration, I found a diamond-shaped crystal in the deepest part of the sea, only the size of the pigeon, but it exudes a mystery. Incomparable breath...

This crystal is the phagocytic system. When I met Ye Xuan and merged into him, I have been crouching in the deepest part of his knowledge of the sea. Even if the cultivation of Ye Xuan reached the age of the ancient ruling, it was not found. .

Nowadays, with his cultivation as the strength to reach the second stage of the real heaven and earth in the ninth state of the konjac, it is easy to dig out. Only by this point can you see the power and horror of the heavenly state!

"call out....."

The faint sound of breaking through the air, with Ye Xuan's dying, this blue translucent crystal, which is only the size of the pigeon's egg, instantly turns into a mile, speeds up, and blasts from the deepest part of the sea. Come.

After rushing out of the sea of sea, he suddenly stopped abruptly, floating at a height of only about a thousand miles from the sea surface, slowly turning, invisibly exuding a secret and inexplicable breath..."

Finally found..."

In this crystal, Ye Xuan, in the body of my consciousness, the twinkling of the eyes suddenly flashed, whispering, while the power of the gods also extended, trying to extend into the interior of the crystal. Carry out the most detailed exploration...

After a while, Ye Xuan's power of this kind of fascination was returned, and the body surface condensed by the self-consciousness also had a disappointing color that was thick and inseparable...
