Chapter 4931: How are eight pairs of twelve?

Seeing the five figures that stopped in the distance, the violent face was sneer, and there was a slap in the mouth and a slap in the face...

The words in the mouth of the mouth clearly reveal a lazy meaning that can't be turned away: "Who is my way? It turns out to be old acquaintances. You are friends... Don't come innocent?"

Listening to this, the **** unicorn, the nine sacred crocodile, the nine-headed **** scorpion, the Qingtian Dapeng and the blood-sucking lion will face each other, and the face will be gloomy as soon as possible...

The Lord of the Temple actually has four electronic avatars, and all of them are half-step meditations of the ruins of the ancient sacred ninth order. So, together with his three bloods, he is only one person. Represents seven half-steps!

How is this still played? simple

Straight is the body of immortality, unless the emperor is integrated with the power of the entire celestial family, and has already entered the real heavenly animal, who can still be his opponent? this

Besides, I didn't see it for a short time. This guy didn't know where to get a black-skinned old pig. It seems that although it's not reliable, the long pig's nose is going to the sky, but people's Repairing for strength is not a cover. Count

On him, today's magic hall has eight half-steps, and these strengths have far surpassed the Heavenly Alliance, if not the three major coalitions that make up the Heavenly Alliance, the ancestral land among the various ethnic groups, There are some ancient powers with great power and abundance, and the whole heaven and earth alliance, there is no qualification to compete with the magic hall! "

call out! ""

Oh..."

Just at this time, in the direction of the hinterland of the distant star in front, the sharp and unbroken sound of the air rang again.

Looking around, a total of seven figures, are coming together...

The seven figures seem to be normal human forms, but there are obviously only four people in the real race. another

Among the three, the second is the mechatronic life, while the other two have changed into the human race. The breath that is diffused in the body is generally violent with the starry beast. This

Both of them look like the old man of about 60, a black robe, a white robe. White

The robe is dark in color, like the bottom of the pot, while the black robe is as pure as jade, which looks quite a bit of a sense of interest. If

Without any surprises, these two old guys should be the glorious temple from the former Wanluo Federal Headquarters, which is now one of the three major forces of the Terran Federation. Its body is a starry beast. to

Yu Xiu is the strength, it is all seven steps of the ancient and supreme, but it is not weak, and entered the late stage of this situation!

In addition to the emperor and the two old beasts who changed, the other four are all true human beings, three men and one woman, and the age of appearance is also around 60.

These four people should be the immortal dynasty of the two camps of the Terran, and the Ten Palace of the Ten Heavenly Palace!

In terms of strength, the four people are all late-stage absurd, all of which are seventh-order.

Among the seven, the late seven years of the seven-order world, although the emperor is only the first step of the ancient supreme, but he also has a mechanical family in his hands, tens of millions of people merge into two mechanical behemoths, repaired to strength and even It has also passed the seventh stage of the super-relief, reaching the nine-step grand perfect half-step heaven! Place

In the seven ridiculous old monsters of the Terran Federation, although the emperor's cultivation is the weakest, in fact, the seven people are coming together at the moment, but the emperor is the first to be the first, obviously he is the seventh. The person in the person. when

However, some of these factors are also due to the fact that the other six desolation of the late realm do not like the customs, not asking the world.

After the six of them had brought the immortal nine stars, the Heavenly Palace and the Glorious Temple to the emptiness of this piece of ruined land, they had never appeared, and the saying to the outside world was to make some important arrangements.

But this time it suddenly came, and it appeared for the first time. I don't know if the so-called important arrangement has been completed, or because I realized the major crisis of the Wanzu League, temporarily let go of this matter, and together with Emperor II, rushed over.this

Inscribed, with the arrival of these seven absurd grotesques, the ruling level of the Tiandao League has reached the top of the twelve.

Unfortunately, this is meaningless, even if it is eight to twelve? Really want to fight, they are still not opponents. After all, the eight combat powers on the side of the magic hall can be all the half-step heavens of the nine-step grand perfection. when

However, in this case, even among the twelve vultures, even as many as seven are starry beasts. If they are killed, for Ye Xuan, they are seven dead. Honor blood to the hand...oh

By the way, just open the blood-stained war lion, there are only six!

But that can only be thought of, it is impossible to become a show.

In the case of eight pairs of twelve, let alone the two seventh-order late eccentrics from the Glorious Temple, it is only the nine **** and blue sky Dapeng in the early days, Ye Xuan is very difficult to kill, basic There is no possibility on it. to

It is absolutely impossible to see this situation before the eyes.

Therefore, for the next big fight with these old guys, Ye Xuan himself is lack of interest, even he has occupied the advantage of the war, he has come together, the Tiandao League 12 desolation, Naturally, there is no need to say more. thing

In fact, the faces of the twelve people at the moment are extremely unattractive, and the mood is extremely heavy.

Because after they arrived, they have not seen the four ridiculous geeks of the Wanzu League from the space mouse, the **** ant, the giant savage and the evil spirits. very

Even the search of the gods, half traces can not be found.

On the contrary, there is a slight faint scent of emptiness in the void, and the fluctuation of energy does not seem to be completely calm... All of this shows that it has just experienced a terrible battle.

In this case, since the war is over, and the Lord of the Temple is still here, it seems to be leisurely, then the four people from the space rat, the **** ant, the giant savage and the evil spirits Slim four It's natural to know where the ridiculous blame is now. that

However, the four powerful ancient sacred sacred, the news of the Wan Clan alliance suddenly changed to the Star Alliance and the Terran Federation, they first rushed through the directional star wormhole deep in the star field. before

After a total of no more than one hundred interest time...

In this short period of time, the four oldest supremes have all fallen, even the battlefields are like dogs, and the cleansing is clean... Only by this point, it is possible to judge the eight and a half The horror of power can be joined by Steps of Heaven!

These thoughts flashed through the brain, and they have already gathered together. In front of the emptiness of the tens of millions of miles away from the front, the twelve ridiculous geeks of Tiandaomen, who are lined up in a row, almost subconsciously turned their heads and exchanged a look.
.....

Although there are anger in the middle of the rendering, but the look on the face, but clearly all reveal a deep helplessness. "

Oh..."Shake

The first sigh, or the emperor went up one step forward, and his sight swept away, and fell on the violent body. He even smiled: "Ye Xiaoyou, you can really laugh and laugh at the old man..."

Chapter 4932: The old man is willing to do peace and affairs.

A leafy friend, suddenly let Ye Xuan recall the day when he was on the immortal star. The national division emperor is clearly trying to beat the rhythm of the emotional card. can

Unfortunately, Ye Xuan did not intend to pay attention to it.

The world has changed. Even the immortal nine stars have migrated to the emptiness of this piece of land, and what else is there to mention? more

What's more, even then, the National Emperor and the Immortal Emperor may not have to take care of Ye Xuan... The straightforward point of this, the so-called emotional card, the Emperor II is not only wishful thinking, but also some faceless, skinless, strong Climbing!

"The emperor's two patriarchs, this temple and your relationship seem to be not so familiar, this Ye Xiaoyou, still don't mention it again..."

These thoughts flashed through the brain, and the violent face instantly showed a touch of coldness. The eyes settled on the body of Emperor II, and slowly followed: "Everyone understands people, it is better to go straight and play these bends. Is it interesting..."

This is clearly not to give face, but also backhanded the rhythm of a face. its

Its human face was pulled in an instant, and the body was full of breath, and it was possible to shoot at any time, just forcing the frame. "

how? Want to fight? "

The violent flash of light flashed, the face was fierce, and the right arm lifted and waved and waved: "Come here, you are twelve, and there are only six people on this side of the temple. With one war two, single out you..."

"Ye Xiaoyou said, laughing, today's situation, we Tiandao League and your magic hall, it seems that there is no need for a big battle?"

Emperor II apparently the city is extremely deep, facing Ye Xuan's face is not annoyed, his face still hangs a sly smile, half said, the words suddenly turn: "Yes Ye Xiaoyou, Wan Clan alliance comes from space mouse, **** The four buddies of the ants, the giants, and the evil spirits of the Shilams? In a short period of time, how can they disappear?"

Knowing why..."

In this old fox, Ye Xuan has always been unhappy, and the other party loves to wear it.

The words of Emperor II just fell, and the violent temper has turned up, and replied unceremoniously: "You are late, the four old guys have been killed by the temple..."

Originally I wanted to take another Star Alliance..."

Speaking of this, the violent glimmer of the man's face flashed, raised his hand and pointed to the past nine **** and blue sky Dapeng five people: "The five old goods is the second goal, but unfortunately did not wait for you, you just rushed over..." This

It was too arrogant, and I actually said such a discourse in the face, completely ignoring the feeling, as if in his eyes, nine **** scorpions and other five ridiculous grotesque, clearly can be allowed to kill the prey!

"Roar!"

Hey! "

Oh..."

Such humiliation can't be accepted by ordinary people, let alone the ancient's supreme? Storm

The sly words just fell, the five old guys screamed at the same time, especially the **** unicorn, the nine sacred crocodile and the **** lion flaming the most violent.

After all, the **** unicorn and the nine sacred crocodile are now in the late stage of ridiculousness. They are full of enthusiasm and face the ninth-order big and perfect half-step heaven. Although they can't beat it, they will not fall. Even if you are careful, serious injuries may not be big. . bite

Although the blood war lion did not enter the late stage of the desert, but the war lion family was originally a hot temper, this time the reaction is so strong, this is also what it should be.

It's the nine **** and the blue sky Dapeng. On the one hand, it's too weak to repair the strength. It's only in the early days of the past, and it's a half-step heavenly road that meets the nine-step great perfection. If the luck is a little worse, don't say serious injuries. It is possible that the fall is possible.

On the other hand, it is because these two old guys have been abused many times by Ye Xuan, and they have already left a psychological shadow that they can't get rid of.

It was because of this humiliation in public, but his face was as indignant, but he did not dare to scream and scream, and he felt a little guilty. "

Oh..."

Are you still not convinced? Come and come, the old pig is the magic hall pig, the first pig under the head..."

Seeing this scene, the old pigs jumped out on the spot, and the people stood up. The pair of front hooves were on the left side of the hoof, and the right side pointed to the **** unicorn and the nine crocodile.

The long pig's nose was almost inserted into the sky, and the face was proud of the color: "I don't accept it, but the old pig, I pick one, kill you all!"

"Roar!"

"Damn black pig, too mad!"

"I have seen arrogant, but I have never seen such arrogance, the deity can't hold it..."

"Hey..." blood

The color unicorn, the nine sacred crocodile and the blood-sucking lion can't stand it on the spot, and while screaming, the body shape will rush out...

The atmosphere in the void is instantly tense, and the war is on the verge!

"You, don't worry!"

At the crucial moment, Emperor II once again made a sound, and turned to look at the Scarlet Kirin and the Nine Secluded Crocodile. He shook his head and smiled: "What is the situation of this void now, you all know what you are..."

"Even if Tiandao League and the Magic Hall do not fight, after the majority of the top, we will each face an extremely dangerous situation..."

At that time, the Emperor Yi's celestial beast, which was integrated with the strength of the entire celestial family, will resume his injury. Whether he chooses the first goal or the Heavenly League, it is definitely not good news for us... .."

"There is no need to say a word about the death of the lips and cold teeth. All of you understand that the purpose of Emperor Yi is to dominate the party, whether he is to destroy the magic hall or the Tiandao League first, the remaining party is the one he will immediately deal with immediately. aims....."

"In this case, our time is running out. In just a few years, it will be dazzling..."

"If the Tiandao League and the Magic Hall are re-emerging, any damage will make the situation and situation we face after a few years worse..."

Here, the emperor's two glimmers flashed, and the look on his face became serious. He turned to look violent and sighed and said: "Ye Xiaoyou, no matter if you previously killed the Alliance of Nations, come from the space mouse, The four buddies of Hell ants, giants and evil spirits, and the four friends of the Slim family, are not willing to pursue them again..."

"Because that doesn't make any sense at all..."

There is a grudge between Heavenly Alliance and the Temple of Devils. The previous killings should be enough to smooth out all of this..."

"Ye Xiaoyou said that it is better to hit the sun than to choose the day. Today, it is rare for the twelve high-ranking high-level leaders of Tiandao League to gather here. The old man is willing to do a peace of

affairs and misunderstand and misunderstand between Tiandaomeng and the magic hall. , to resolve this..."

You and I are already in a state of absurdity. If there is anything on the table, it can be combined and even if there is no possibility of cooperation. At least, if you talk about it, you can avoid the killing in the future..."

You, this is what the old man meant at the moment..."

In the last sentence, Emperor II turned and said to the **** unicorns and the nine sacred crocodile and other heavenly squad, and the look on his face was quite sincere: "I don't know what you mean... what?"

Looking at this posture, it really has a bit of peace talks. This obviously makes Ye Xuan somewhat unprepared. Under the slight frown, he is indulged in a moment...

Chapter 4933: Because Xingbo is not dead

Opposite the emptiness, the **** unicorn, the nine sacred crocodile and other eleven ridiculous grotesque, after hearing the words of Emperor II, they all fell into sinking...

It's true that Emperor II is right. At present, the situation in this piece of shards of the wild land is really grim.

The hatred of Tiandaomeng and the Tianji nationality is impossible to resolve. When they were in the three major star planes of the world, they had already fought each other for tens of thousands of years, and their grievances were deep. This

In these cases, they really do not want to, and should not be tempted to provoke the magic hall such a powerful behemoth.

Today's Tiandao League, although the relationship with the Temple is also very tense, but after all, there is no resentment that can not be resolved, and since the two sides engaged in war, whether after the establishment of Tiandao League, or before the establishment, they have always suffered . and

The side of the magic hall, but never suffered any loss...

Therefore, according to the Emperor's statement, as long as they are present in the high-level leaders of the Tiandao League, they can laugh at the previous grievances in order to take care of the overall situation. Then, today's peace talks, even if they cannot form an alliance with the magic hall, at least resolve Gan Ge, but still no problem. complete

Since the two sides have been entangled, every encounter, the cheaper is the magic hall, to resolve the Gan Ge for the Lord of the Temple of the House, is not unacceptable.

You must know that he is also facing the huge threat of the celestial beings after a few years...

The void in the sky is silent, all the people are sinking, and the needles can be heard at a time, and the atmosphere reveals a strong sense of oppression! "

Ok, talk about it, anyway, the absurdity of the temple is enough to kill..."

After the engraving, the violent nodded and agreed to peace talks. "

Oh..."

Oh..."

The sound just fell, and the violent abruptly waved.

In an instant, including the violent self, the huge body of the three **** seas collapsed at the same time, turning into a majestic **** rain, and the eyes merged together and condensed to a point. tight

Then, this faint bit of blood suddenly flashed, and a human figure appeared out of thin air. It was the deity of Ye Xuan... and

At the same time, the four kings on the left and right sides, at the same time, turned into four awns, rushing toward Ye Xuan, blinking into the eyebrows, and disappeared. This

Everything is long-lived, but it happens between the two, and it will be around before and after. The eight-and-a-half-step heavens that are lined up in the void are almost six in a moment, leaving only Ye Xuan and the old pig. Fine. Do not

At the moment, Ye Xuan is a normal human form, and the old pig's body is full of thousands of miles, huge and inconspicuous.

Although Ye Xuan did not say anything, she turned to the old pig to see it.

The latter knows, sprays a nose, and then the huge body shape is quickly reduced. In just two or three moments, it has changed and changed into a man of great humanity. The skin is black and bright, covered with a A robes, revealing the chest, revealing a sense of madness in the rough... look

In this scene, the other high-level leaders of the opposite side of the squad are first glimpsed, and then the face is a slow one.

At least Ye Xuan has expressed his willingness to talk and talk, and it also reveals the true meaning of the deity. For them, this attitude is compared with the style of the lord who has always been arrogant, and it is already a face for them. Up...

Among the twelve people, the seven ridiculous geeks from the Terran Alliance were originally in the form of human races, and naturally there is no need to change. but

The five ridiculous geeks from the Star Alliance, but the manifestation of the bleeding veins come true, the body displayed at this moment is more than a million miles, and today's atmosphere is incompatible, which is obviously very inappropriate. turn

After the first exchange of a look, five **** unicorns from the Star Alliance, nine savage crocodile and other five ridiculous old geeks, also changed the form in the first time, transformed into a human, the atmosphere of the void, instantly harmonious... .."

call out! ""

Oh..."

Seeing this scene, Emperor Er's face showed a smile. When he waved his hand, there were some spirits and hip flasks spurting out in the moment, falling in front of everyone and floating in the void.

"You are a Taoist friend. This is the spiritual wine brewed by the old man. It is also very rare. It is only before the entry into this void, it is picked in a piece of life star in a small, broken sky. Today, it is a flower of Buddha. ..."

Xuan squinted at him and was not interested in the spirits and spirits in front of him. Although these things are not good, they are obviously not enough to compare with the similar resources in Ye Xuan's hands, and they are worse than one grade. in

Although the people of the field are all ancient and supreme, but Ye Xuan is a fierce existence in Hong Kong and the void, many of the fierce beasts on the right bank of the Milky Way and the sacred land of the people, at least he has visited more than half, the spirit of the spirits If nothing is the top thing.

Compared with him, the emperor is far worse... no

However, although I am not interested in these spirits, I don't want to smile, but people are smiling. Now that I'm planning to talk, I don't have to face. Place

Therefore, for the spirits and spirits suspended in the void in front of the body, although the eyes are not blind, but Ye Xuan even sat down in the void, did not say much, but the line of sight to the opposite Emperor et al. Go, let me know what to expect, and see how you are going to unfold this peace talk...

Compared with the arrogant arrogance of the Lord of the Devil, it is tantamount to the difference between heaven and earth, but in fact, Ye Xuan's 眸中光, invisibly reveals a sense of vigilance and even hostility...

The scenes are all ridiculous, sensational, and all natural feelings.

At this time, the 12 ridiculous old monsters of Tiandaomeng, which are opposite to the billions of miles away, also sat down in the void. its

It did not say much, but turned around and exchanged his eyes, slightly frowning, as if thinking and sinking, it seems that this so-called peace talk does not seem to hold much hope...

It was Emperor II. Although he also felt the vigilance and hostility in Ye Xuan's light and attitude, he did not care. He swept his eyes and smiled. This

Once, it was rare to go around the circle. Whenever I heard out, I bluntly asked: "Ye Xiaoyou, since they have sat down and talked, why are they so wary of the old man? I really want to say it, whether it is the original or the film." After the ruins of the ruins of the heavens and the earth, the old man and you seem to have no deep grievances?"

It is very important. For Ye Xuan's hostility, Emperor II always feels somewhat puzzled. Therefore, this issue does not spread the explanation. The so-called peace talks may not be really difficult to carry out. Meaning.

"It's not for you, including Emperor I. This is also true of the temple. In a word, for your mechanical and electronic life, this temple is not..."

When Fang Kaimeng saw the mountain, Ye Xuan did not plan, and there was no need to hide it.

The words of Emperor II just fell, and he even said that even if he had already pouted, he said: "Because... Star Bo is still not dead!"

Chapter 4934: All the seats are shocked

"What? This is impossible..."

"Just kidding, how could Starbo not die? It was the old yellow calendar tens of thousands of years ago..."

Speaking of it, when the old man went out once in a while, he once saw him far away. This person was fascinated by the spread of the scientific and technological power of the Terran. At that time, the Federation of the Faro was not established yet, and there was no immortal dynasty. This person was not strong, how May live to the present? ”

"Ye Xuan, I am sincere to sit down and talk with you. You suddenly pulled out the Xingbo to talk about things. It's completely different, and even said that he is fine, isn't it too much?"

"If you don't want to talk directly and leave, it's just like playing with me. It's just that..."

Ye Xuan's words just fell, and the twelve ridiculous old monsters on the opposite side of Tiandao League immediately fried the pot.

The **** unicorns from the Star Alliance, the nine sacred crocodile, the nine-headed **** scorpion, the Qingtian Dapeng and the blood-sucking lion are all worth mentioning. Although they have heard of the name of Xingbo, they are not very familiar with it.

But the seven ridiculous geeks from the Terran Federation are different. They are not from the two camps of the Terran or from the splendid temple that represents the former Wanluo Federation. They are still familiar with the pioneers of the Terran Science and Technology camp. more

Moreover, as a ridiculous old blame, they are all living in endless years, but they used to be retreating or recovering from sleep. Although they have never had contact, the name of Xingbo is very familiar. its

There are even two old guys who have seen Starbucks far before they went out for tens of thousands of years. to

In Emperor II, it is the mechanical intelligence life created by Xingbo.

Xingbo's reputation in the Terran camp is almost like a spiritual symbolic status. Now Ye Xuan just sat down and talked, and pulled him out for no reason. This old guy's heart is naturally angry, for a time, all his face Changed color. on

Even the Emperor II, who had always had a smile before, had pulled his face down this time, his face was gloomy, although he did not scream, but apparently he was only forced to restrain himself...

To his reaction, Ye Xuan's heart was basically bottomed out. For other people's reactions, he did not pay attention to it. His eyes were always locked in the face of Emperor II.

Shaking his head and sighing: "It seems that you are also in the dark. The outside world has been rumored to be the rebel of the emperor, killing its creator, and now it seems... really abandoned by Xingbo, obviously your emperor. Second, and Emperor Yi is his choice!"

"Ye Xiaoyou, you have been there..." See

He is still doing this, and the face of Emperor II is getting more and more ugly. The meaning of dissatisfaction has not been concealed, and the sleeves are ready to get up: "But, since Ye Xiaoyou is not interested in peace talks, this matter will be done..."

However, the more he is like this, the more happy Ye Xuan laughs.

When this is the time, the words have already been said, and soon it will involve the part that he really wants to understand. It is naturally impossible for Ye Xuan to give up and let the emperor leave.

"You never thought about why your mechanical behemoth was suppressed by the heavens, and the real heaven and earth failed, and the emperor, but succeeded?"

With a grin, Ye Xuan said: "At the time, the temple was on the scene. It was really true, and although you are not there, you must be able to guess some things afterwards. Have you ever doubted it?"

Listening to this, not only the emperor, but all the people are also at the same time. in

The scenes are all ancient and supreme, and naturally understand the situation of this piece of land in the wild...

Here, including the three major star planes of the world, including other pieces of fragmentation, which have the souls of reproduction and no reproduction of the souls, are all in the original wilderness, after the outbreak of the war of the world, the explosion broke out. Said

It's all white, it's all the emptiness of the vast world of the wild. original

Ben, although these fragments of the void have the power of the remaining laws, but they are not under the control of the wilderness, the so-called will of the heavens, it seems to fall into a sleep...

But now, with the opening of the new Hongmeng era, the end of the flood that had not really ended in the beginning will also come before the whole... Only after the previous floods have completely ended and returned to the market, the new Hongmeng era can really be opened! Place

Therefore, whether it is the three major star planes in the world, or the emptiness of this piece of ruined land, the will of the eternal and eternal life of the endless years is gradually waking up.

The biggest change brought about by this kind of awakening is that the aura of heaven and earth in these fragments is more active, but at the same time, the feeling of being controlled by the will of heaven is becoming more and more clear.

At this time, the incarnation of the Hongtian Heavenly Road accident, that is, the heavenly eye, has been able to take advantage of the vast will of the awakened heaven and earth, to control the emptiness of this piece of land...

Of course, in other fragments of the void, this is also the case. For example, when the three major stars of the world are the main planes... the two camps of the Terran and the Temple of Glory, the reason why the core ancestral land has been fully moved here is because it is sensed. The change of the main plane of the three stars in the world. If

No accidents, all the fragments of the void, when the will of the wilderness will be fully awakened, will once again gather together, so that the original world of the wild, reappearing, thus the end of the war that had not really ended.

This is the end of the last Hongmeng era, and it also represents the new Hongmeng era, which will be re-launched...

Of course, that moment has not yet arrived, there is still a little time. but

Even now, the will of the wilderness is still not fully awakened, but it has already awakened more than half of it. With the help of this part of the heavenly power that has been awakened, the heavenly eye, which is the embodiment of the will of heaven, is enough to suppress any desire in these fragments. Shocking the existence of the heavens.

This is the suppression of heaven. Under this kind of suppression, no soul can truly take that step and become the same level of heaven and earth as the heavenly eye...

At the beginning, Emperor II used the power of the whole mechanical family to combine the mechanical behemoths. The level of power has actually reached the real heaven. but

At the last juncture, the green eyes of the ruins of the heavens and the dynasty descended, and the emptiness of the heavenly willpower of this emptiness was suppressed, and everything was easily and easily killed, and the mechanical family of the emperor II failed.

Since then, the ridiculous geeks of the major forces have understood one thing, that is, here, no one can successfully enter the real heaven. but

Later, there was an accident, that is, Emperor Yi, he also used the power of the entire celestial family to expand, and eventually merged into the celestial beast, even the mechanical beast that was integrated before the emperor Still a little weaker. can

Emperor Yi was successful!

This is simply unreasonable and unreasonable. Even if Ye Xuan does not mention this matter, Emperor Er and others have already had a fox heart in their hearts. At this moment, he suddenly heard the matter and the Xingbo together. Under the accident, he was shocked.

Chapter 4935: Stealing images

"I really want to say that the Emperor I used all the official tribes of the entire Tianzu nationality at that time, and the celestial beast that was combined with the power of the whole family, even before the promotion, even slightly weaker than the mechanical behemoth that you originally merged."turn

The first look at the shocked Emperor II, Ye Xuan jaw, and talked: "But he succeeded, the heavenly beast, successfully entered the real heaven, not even in that Tianlei robbery There are too many substantial damages..."

Otherwise, just for a few years, he will never recover..."

The reason why this is so, the reason is very simple, because the heavenly eye is releasing water, the so-called heavenly thunder, it is just a cover-up, a walk-through! "

"You were not there at the time, so this is just a suspicion. If you see everything on the scene, you must be the same as the temple. It is very clear in your heart!"

Speaking of this, Ye Xuan does not say much.

The emptiness of the sky has fallen into silence, including the emperor's two, and the twelve veteran eccentrics outside the tens of billions of miles are all stunned and shocked...

After the small and half-column incense, Emperor II roughly digested this shocking message, and it was a return to God. this

At that time, he was still full of shocked colors, but the doubts in his mind were more intense than before. tight

Tightly staring at Ye Xuan for a few moments, this snorted and said: "Well, what you said is really reasonable, now assume that you are telling the truth, but..."

What does this all have to do with Xingbo? ""

Even if the wilderness of the heavens and the green eye is really collusion with the emperor, the water is secretly released, so that the emperor's heavenly beast smoothly enters the real heaven, and it cannot be said that the star is related to this, and it cannot prove that he is still alive..."

"call out....."

After his words have not been finished, Ye Xuan has shook his head and shook his head. At the same time, his right hand waved and he immediately shot a mans..."

Oh la la..."

Mang spurt away, and the blink of an eye is easy to spread out on the right side of the sky beyond tens of billions of miles. With the sound of a strange sound, a light curtain appears...

I didn't wait for everyone to react, and some images appeared in the light curtain. that

It is a very old void, even if it is just an image of the extension, you can feel a very simple and heavy atmosphere.

There are several figures in the void in the image, one of which is the star blog, in addition to the green eyes of the wild, and the furnace.

At the moment, the image of the ridiculous sky, the green eye suddenly appeared in the green, a blue energy beam, from its star-shaped blue eye that is still bigger than the stars, spurt away, rushing, the blink of an eye is above the head The emptiness of the sky...

"Booming..."

Oh..."

The roar of the earth and the earth rang, followed by a crisp and fierce crack, the position of the head at a high position, Hong Meng's void was torn open with a crack, but it was not dark and deep, but inside. There is a dream of a star, and it spills out of it. also

It was at this moment that Xingbo, who was kneeling in the other direction of the void, suddenly stood up and showed a smile on his face, but there was a slap in his face. turn

The head stood in the air in the distance, just like the spectator of the soul of the three beasts, and the slight jaw nodded, followed by a glance at the numerous furnaces with **** lines.

"The old man's plan to steal the sky is finally the last step..."

In the words, his eyes shifted and fell to the green eyes of the wilderness. Connect

He said: "Don't hesitate, don't hesitate, after entering, the old man will try to enter the ancestral star. If you do this, you can get all of them and you can get it..."

The new Hongmeng era will soon be opened. This is your last chance. Otherwise, the new era of Hongmeng will be opened, and all the existence of the last epoch will be turned into dust, even if you were the will of the world. The same is true! ""

You don't have time and opportunity, only join hands with the old man, the last fight! "

"Hey!"

The latter sentence seems to have worked. After Xingbo just finished, the blue sky and the green eye shot another green mang, but this time, it was not shot at the sky, but shot at the furnace.

In the void, the sharp and unspeakable sound of the air broke out, and the speed of the glare went to the extreme. The blink of an eye went to the outer wall of the furnace and went straight through.

The second sound of the air broke out almost at the next moment, and it was sharper. The void thus resonated, and there was a deep humming sound that made people feel trembled.

At the same time, the numerous blood-colored striated lines on the outer wall of the furnace are sharp and bright, and then it is easy to extinguish at the same time, and the breath becomes dim.

But there is a blood-blue column of light, which is shot from the mouth of the furnace...

The light column is only about half an inch in diameter, insignificant, but the light is very bright, obviously it is a dark blood green, but it is impossible to look at it, the speed is almost to the extreme, it seems that it has just been shot from the mouth of the furnace. It has reached the void in the sky above the high point.

Xingbo did not hesitate, and his body disappeared without warning, turning into a weaker gray awn, closely following the radiant green blood column...

After that, it was a sharp and unstoppable sound.

The extremely thin blood-green light column, with the gray mans that followed the shape of the star-shaped body, has entered the sky-high crack in the sky above the blink of an eye, directly shot in the galaxy The layer of the starry sky is on the light curtain...

The seemingly extremely thin light curtain was instantly plucked with a small aperture, and the blood-green light column was exhausted and disappeared directly.

The starburst of the star-shaped figure was so weak that it passed through the light curtain smoothly and rushed in. It was too fast, and one of the ten thousandths was not there, and the hole was pierced by the blood-green light. , it will be closed again!

At this moment, the sky above the sky was shot by the Hongyan Tiandao green eye, and a hollow crack in the torn light column was also broken. In the slow self-repair, it quickly closed..."

Oh..."

At this point, the image in the light curtain disappeared, and with the sound of a strange sound, the light curtain on the right side of the imaginary tens of millions of miles, once again condensed into a point, turned into a blaze to Ye Xuan .

The blink of an eye disappeared from his eyebrows and disappeared.

At this time, the imperial eccentrics from the celestial celestial celestial celestial celestial celestial celestial celestial celestial celestial squad, all of them have opened their mouths, their eyes are round and their eyes are almost directly falling out.

At this moment, the shocking giants in their hearts even forgot to breathe, the twelve lazy old monsters, all without exception, all just like the thunder, the brain is banging, the whole person is completely Geochemical pets...this

At the time, Ye Xuan was able to breathe a sigh of relief and said slowly: "The image you just saw is that the temple is hiding in the dark, and the secret method is used to gather the breath and secretly expand it..."

Chapter 4936: The truth of the phagocytic system

"The image you just saw is that the temple is hiding in the dark, and the secret method is used to gather the breath, and the secret is expanded..."

The line swept across the tens of billions of miles away. The 12-year-old ridiculous eccentric who had already been stunned by the huge shock, Ye Xuan sighed and shook his head. With

Later, he slowly said: "The void in the image is not here, it is the void of Hongmeng..."

Behind the crack that the first green crest of the Qingyan Tiandao was shot, it was the Milky Way star field... The Milky Way star field was also in the void of Hongmeng. "

"There are countless ancient forces on both sides of the Milky Way. They are all forbidden and forbidden. They are waiting to enter the Milky Way, and there are already endless years..."

Today's Galaxy Star Field is shrouded in a layer of film-like law of Hongmeng, and the existence of the heavenly environment cannot be forced into. "

"So, there will be a scene in the image. At that time, the loss of the blue eyes of Xingbo and Hongtian Tiandao is huge. Some followers around Xingbo are all ancient and supreme, but they blew their flesh and then borrow the power of the rib furnace."

"At the end of the flood, Tiandao took all the shots and put a weak hole in the film that covered the Milky Way's star field. On the occasion of the glory, Xingbo successfully entered..."

Having said that, Ye Xuan turned to the stagnation of a group of Heavenly Alliance and the ridiculous old blame. After a short pause, he then answered: "You have heard it yourself. The purpose of Xingbo is to steal the sky."

"This is what the so-called stealing is in the end. The temple is not known now, but one thing is certain, that is, the final destination of Xingbo is the parent star..."

"The mother star is the origin of the Hongmeng era in this Hongmeng era, which is about to return to the market. It is said that Xingbo is the original living creature on the parent star."

When the battle of the ruined world broke out, the world of the wilderness was torn apart, and the mother star flew away along with the Milky Way star field in which it was located. Since then, there has been no trace, and it is necessary to find the galaxy in the Hongkong virtual sky. of.....""

In fact, Xingbo also has an identity, that is, this mysterious mother star comes to the sky in the legend of the ruins of the ruins of heaven and earth..."

"This legend, I think you have heard of it!"

"And the five followers around him, and the ethnic groups and forces of the three major stars in the world are also very active, such as the devil, is the descendant of a descendant left by a human race around him."

"For example, the deity of the **** mosquito family is the descendant of the wild mosquito next to him..."

Having said that, you must have doubts and warnings about Xingbo's plot. He is a visitor to the mother star. In the three major star planes of the world, there are so many differences and involvement, and even the creation of the Tianji and the mechanical family..."

But in the eyes of the human race, he is just a sage-like Terran technology pioneer, and still so tragic, killed by the mechanical intelligence life emperor he created..."

"Hey, how many dogs play the blood? But who can think of it, Emperor Yi, in fact, has always been his eyeliner in the starry sky, this point, from the flood of the heavens and green eyes to him to release water, let the emperor's heavenly animal cross Entering the heavens... it is enough to prove it!"

"You, this is the truth of everything, you... what else to ask?"

After the last sentence, Ye Xuan turned again and looked at the emperor and other people in the empty sky outside the tens of billions of miles. The face showed a smile, no more words...more

Quiet!

Dead silence! leaf

Xuan said that it took a few minutes to complete, and there were no reactions from the twelve vulgar old monsters from Heaven and Earth.

All the people are open-mouthed, their expressions are stunned, their eyes are straight, and the shock of their hearts is strong, which is evident! "

I can't think of the old man, but I've been cheated for tens of thousands of years..."

After a long time, Emperor II was faintly sighed. The whole person seemed to suddenly go to a teenager. The look on his face was incomparable: "What he is looking for is, after all, the Emperor. After all, that is what he created. The first mechatronic life..." This

Fan Discourse seems to be feelings, but in fact it is tantamount to a statement that he is completely ignorant of all this. He has been kept in the dark for everything about Starbo...

it is necessary!

Because of the image of Ye Xuan Shicai, it has proved everything: Xingbo is not dead, but it is also colluded with the sorrowful eyes of the ruins of heaven and earth. Even the traitor emperor known to the outside world is actually fake. He has always been a star. Bo's heart...

Even the emperor is so, then, the emperor? This

One question, Ye Xuan had thought about it before, and it has not been finalized in the present. with

Kindly, after being shocked to learn about it all, the other eleven old geeks on the opposite side could not have the same suspicion.

Even if they did not ask, but the bottom of my heart is invisible to the Emperor II, will be observed in the follow-up.

Emperor II obviously realized this, but other ridiculous blame did not ask, he was not eager to explain, but could not help but express his feelings. can

Unfortunately, such a discourse is true or false. No one can be sure, even if it is Ye Xuan, now he still has doubts about Emperor II. Other ridiculous blame of Tiandao League will naturally not have to be said. he

We have just learned that such an intriguing conspiracy is in an extremely sensitive state, and any doubts will be invisibly magnified...

"In fact, in the heart of the temple, it is also biased to believe that the emperor's two chiefs are innocent..."

Seeing the void in the sky again, the **** unicorns, the nine sacred crocodile and other eleven heavenly lords of the ridiculous geeks, all flashing, thinking about sinking, Ye Xuan smiled, turned to look at the emperor . slightly

After that, I only answered again: "However, whether or not you have nothing to do with this, can you not only rely on you, or a few words from the temple, you can be sure..."

"If you want to prove your innocence, or say, let the temple believe that you are innocent, the emperor and the two patriarchs, you must at least have a certain sincerity..."

At this point, Ye Xuan's slap in the face of a slap in the face, the words turn sharply, the corners of the mouth, and slowly outline a fascinating smile: "For example, everything related to the phagocytic system in the temple. Wait....."

"Hey, the phagocytic system is created from your hands and spread out in secret. Regarding all its secrets and truths, the Emperor and the two patriarchs should not know what to know?"

Phag system?

I was so cold that I heard this strange vocabulary. At the same time, the **** unicorns outside the tens of millions of miles, such as the **** unicorns, and the ridiculous old monsters of the heavens and the squad at the same time, the face of the sorrowful sorrow A few points. a few

Subconsciously, everyone looked at the same time at the same time, and all eyes were gathered on the Emperor II...

Chapter 4937: Unexpected

"It seems that you are aware of its problems..."

When I heard Ye Xuan's words, the Emperor was stunned and then shook his head and smiled: "Yes, the system of engulfing is indeed created by the old man and secretly spread out..."

To put it bluntly, it is actually a source of mechanical and electronic life, but it is not only that, but also incorporates the most advanced bio-intelligence technology..."

After the seeds are swallowed and scattered, they wander in the void, just a crystal grain like a dusty dust, but it has powerful functions. When it comes to flesh and blood, it can make various index evaluations at the first time, and then comprehensively score.....""

When the standard is reached, it will be selected as the host. As if the parasite enters the body, it will enter the body of the living creature silently, and then it will become like a larva in the brain of the living being, and it will be in harmony with the sea. Will officially start..."

"After the official start, the phagocytic system will be unblocked as the host grows. When the host falls, it also completely dissipates..."

For this reason, the devour seed that the old man had spread out was tens of billions, but ninety-nine percent were annihilated with the demise of the host. Since the endless years, only about 10 million have been recovered..."

"Recycling?"

To this word, Ye Xuanyuan flashed in the cold, immediately asked: "When is recycling? Under what conditions recycling? After recycling, what will happen to the host?"

"The phagocytic system can help the host to devour all energy, but this is only the appearance of its name. As the host grows up step by step, after a certain height, the true meaning of the name of the devour will be revealed..."

Two nods, as if to accept the fate of the general, then said: "At that time, the system seeds crouching in the depths of the host to understand the sea, will engulf everything in the host, including the soul and the power of the body ..."

Once this ultimate swallowing is unfolded, the host will be smouldering, and the devour seed will start the default ultimate mode and return directly to the mechanical family's base camp..."

As for their role, it is used to promote the self-conscious mechanical ethnic group, a returning devour seed, after subsequent cultivation, can eventually become a mechanical and electronic consciousness, become a real mechanical ethnic group..."

"The Tianzu ethnic group has only more than 10 million people, and my mechanical family has more than 100 million people, of which nearly 20% are like this!"

"However, the devour seeds created by the old man are not perfect, and some aspects cannot be accurately pre-set. For example, the conditions for the final engulfment are one of them..."

"Return to the phagocytic seeds of the mechanical family, and some passively activate the ultimate phagocytosis when the host is only in the dark, then devour the host and return to the mechanical family."

"There is to activate the ultimate devouring after the host reaches the star's main territory. If it is, it is immortal..."

Since tens of thousands of years of age, among the nearly 20 million phagocytic seeds recovered by the mechanical family base camp, the most powerful foundation...that is, the host of engulfing is the strongest existence, and it is the first step of the ancient power! "

"It turned out to be..."

After hearing this, Ye Xuan finally understood the general, whispering, and his face also showed a faint color...

However, the conditions for ultimate phasing of passive activation are uncontrollable, strong and weak. Then, he is now in a state of ruin, and the phagocytic seeds in the brain are still swaying and can be understood. thing

In fact, this situation is not just him alone. miss you

There must be a lot of star-studded people who have swallowed seeds in their bodies. Now they are still safe for the time being. As for their cultivation, they must be strong and weak...

For example, the four demons who lost to Ye Xuan in the system competition task, now in the Federation of the Terran, and all the strengths have reached the universe supreme. but

The phagocytic system in their body apparently has not yet activated the final ultimate devouring, so these four guys are still safe and sound, and are still in the dark, not aware of the crisis...

"I really don't want to worry about it. When the old man had already sensed the devour of the seed in Ye Xiaoyou's body, he had never broken it and explained it. It was indeed a self-confidence. Now I want to come, it is really incomparable..."

Seeing Ye Xuan fell into sinking, the face of Emperor II on the opposite side showed a sly color. After explaining two sentences, this was a turn of the front, and then said: "The things have been said at the moment, the old husband's previous dark selfishness, still Wang Ye Xiaoyou can forgive everyone, no more care..."

"With Ye Xiaoyou's current cultivation as a strength, since I know that the engulfing seeds are crouching in the depths of the mind, it is not difficult to find out..."

"The core of its body is actually a translucent crystal. Ye Xiaoyou tries to find it. After it is found, it is wrapped in the power of the gods, and then removed from the body. Everything is self-solving..."

This does not have to worry about you, the crystal you said, the temple has already been found, and there are some warning signs arranged..."

After screaming, Ye Xuan said: "Even if you don't confess all this today, the temple can be safe and sound. As long as it changes slightly, the temple will be able to detect it for the first time..."

"But..." said

Here, Ye Xuan's glimpse of the gloom of the scorpion, also followed the words of the front: "The emperor's patriarch will take back this swallowing seed, that's okay, but it's been in the temple for so long, there's no room for rent. Don't pay?"

In a word, you devour the seeds and take them away. However, the interstellar coordinate jumping ability attached to the system title also hopes that the Emperor and the two patriarchs will be separately stripped out and handed over to the temple. This request... should not be too much? "

This is the purpose of Ye Xuan. By the height of his present, the other abilities of the phagocytic system are almost useless, including its powerful calculus and derivation ability. Without it, Ye Xuan will re-emerge. When you spend more time and effort, you are...

Only the interstellar coordinate jumping ability attached to this system title is still crucial for Ye Xuan. After all, he is in the void of the ruins of the world, and the three major star planes in the world, even including the Hongkong void. Branded one or two interstellar coordinates. If

Even if this coordinate jumping ability is lost, then all the previous efforts will be lost. It is a pity that...

In his view, he only proposed this request. For the Emperor II, not only couldn't it be said that it was too much, it was simply deliberately letting water go. He had no reason to refuse. Of course

However, let Ye Xuan unexpectedly even be surprised that Ye Xuan's words just fell, and the emperor's second in the void outside the tens of billions of miles was opened, his face was full of confusion. stare

He said with awkwardness: "What system title? What interstellar coordinate jumping ability? The tens of billions of devour seeds that the old man copied are not equipped with these functions? Oh! Is it..."

After the emperor took a breath of cold, his face changed instantly...

Chapter 4938: He is ill to kill him

"What system title? What interstellar coordinate jumping ability? The tens of billions of engulfing seeds that the old husband copied are not equipped with these functions? 嘶..."

Xuan's words just fell, and the emperor's second in the void outside the tens of billions of miles was opened, and his face was full of confusion. under

For a moment, he suddenly thought of something, his face changed instantly, and he took a sigh of relief, and he exclaimed: "Isn't it so clever? The one that stayed in your body is actually the one left by Xingbo... The source of engulfing Kind?"

"you....."

Swallowing the source of the four words into the ear, Ye Xuan is also dumbfounded on the spot, the heart is even more unintelligible feeling, this is almost a conditional reflection, and Dan Fan and the relationship with the star, now he is very alert, And quite jealous, the old goods are too sinister and mysterious...this

It's no wonder that it can be colluded with the green eyes of the wilderness, and there is more than enough to sit on the ground. Can it be a good bird? thing

In fact, Star Bo entered the Galaxy Star Field to steal the sky. In Ye Xuan's view, there was a feeling that the green eyes were used by him.

Even the green eyes of the Hongyan Tiandao are playing with the old goods. The terrible degree can be imagined..."

It seems that this is the case..."

To Ye Xuan's reaction, Emperor II seems to be sure, and his sighs are sighing: "They blame the old man. At that time, the ordinary devour seeds were too many, and they were all old people's hands. The busy days were dark and dark, and then they accidentally The pile of phagocytic sources used for imitation fell into the imitation pile of finished products..."

"They are exactly the same. The old man didn't notice it at the time. It wasn't until the batch of swallowed seeds were spread out that he was shocked to see that the source of the phagocytosis was gone..."

Stopping..." No

When Emperor II finished, Ye Xuan had interrupted his voice impatiently. The big hand said: "The temple is not interested in knowing those. What I want to know now is what is the source of the phagocytosis? What is the difference between the imitation of the tens of billions of ordinary phagocytic seeds?"

The source of the phagocytosis is from the hands of Star Bo. He is depraved... well, it is missing, the so-called fall, now it seems that it is only an illusion..."

Halfway through, Emperor II corrected the slogan, quite a bit of a gnashing of the teeth. After a short pause, he again said: "After his disappearance, this source of phagocytosis was discovered by me, and I have been groping for thousands of years, but I have to wear fur. Insight into its essence..."

At that time, the old man was eager to quickly increase the number of formal tribes of the mechanical family, so that he did not continue to study the source of the phagocytosis, and with some of the proceeds already researched, began to imitate ordinary phagocytic seeds..."

"Every time a batch is made, they will be spread out immediately. Not only are the three major stars in the world, but the old man even enters the emptiness of the void and some black holes, spreading the generic phagocytic seeds of the imitation..."

During that time, for nearly 10,000 years, the old man was crazy, and he personally copied the tens of billions of ordinary devour seeds. Although it was laborious and laborious, the harvest was finally good. At least, over the past few years, there were nearly 20 million formal members of the mechanical family. So the birth was one-fifth..."

"However, compared with the phagocytic source species, the common phagocytic seeds that the old husband copied are only 70% of its functions, such as the system title you just mentioned, and the interstellar coordinate jumping ability attached to the title... ...the old man is unheard of!"

"Damn, turn the corner, pass your hand of the old goods, and finally it will be calculated by Starbucks."

Hearing here, Ye Xuan has understood everything, his face sinking, when he even gnaws his teeth and screams...

According to his speculation, this so-called phagocytic source, in all likelihood, is a deliberate stay in the second-hand of the Emperor. Of course, there is no way to judge the true purpose of Xingbo.

Maybe he just wants to use this devour source to calculate the emperor, or something else... but it is not important anymore. What is important is that the final calculation is Ye Xuan! when

However, at the moment, Ye Xuan has found this source of phagocytosis from his own brain, and he is still wrapped in the spirit of God and spirit. Keep an eye on it. Once there is any intention, you will have the first time. Inductive...but

Emperor II also said that even if he did not understand the source of the phagocytosis, he studied it for more than a thousand years, but only cracked a little fur. fine

The ordinary phagocytic seed of the heart imitation is only 70% of the phagocytic source, or even less...

This alone is enough to show that this phagocytic source is powerful. It should be known that Emperor II is a true mechatronic life, and it is the second mechatronic life in the world created by Xingbo.

In this respect, he has an innate advantage, but this kind of devour source, even if he has studied it for more than a thousand years, he has not understood it. This alone is enough to illustrate its complexity and mystery. . This

At the moment, Ye Xuan's heart once again gave birth to a strong and incomparable jealousy. He almost impulsively took out this phagocytic source from the sea of knowledge on the spot. How far is it to throw away...

But in the end, this impulse was still suppressed by Ye Xuan, because this is not the most sensible choice... On the surface, it seems that he was calculated by Xingbo with this phagocytic source.

But now Ye Xuan has found it, and there are some means to arrange it. From this point of view, this kind of phagocytic source may not be reversed, and it becomes a condition and means for Ye Xuan to deal with Xingbo.

At least, this is completely feasible in theory. After all, Ye Xuan himself has an electronic avatar of mechanical and electronic life forms, and there is more than one...

However, if you want to do this, it is obviously not an easy task. Others don't mention it first. If you take a step back, how can you at least clarify the true bottom of this swallowing source? and

Regarding all of this, Emperor II obviously does not know that his credibility of the words is still very high. Although Ye Xuan has not searched the soul for him, but as a ridiculous nine-step grand perfect half-step heavenly power, The gods are extremely sensitive, and basically there is not much difference...

However, although Emperor II did not know, but there is one person, but it is very likely to know all of this. At least, he is definitely the emptiness of this piece of land, and the only possibility is to know the true existence of the source of phagocytosis.

He... is the emperor! miss you

Here, Ye Xuan's slap in the middle of the cold, a moment has a decision. "

OK, the emperor's two patriarchs, about phagocytizing the seeds, so far, the source of the problem, in the future, some will personally go to the Xingbo negotiations..."

In the words, Ye Xuan turned to the opposite side of the tens of billions of miles away from the emperor and the **** unicorn, the nine sacred crocodile looked at the past, the voice turned and suddenly said: "You, you will not really want to wait a few After the year, when the celestial animal is going out, will it be passively defended? According to this temple, as it is, it is better to join forces to attack the celestial domain..."

He is sick... ask for his life! "

Chapter 4939: Joint troop

The Wanxiang Alliance star field, the peace talks between the Magic Temple and the Heavenly Alliance, is still continuing..."

You, are you really not going to wait until a few years later when the celestial beast goes out, then passive defense? "temporarily

After throwing away the source of the species, Ye Xuan turned to the 12-day ridiculous monster of Tiandao League, which is 10 billion miles away.

In the middle of the cold mang, a sudden flash: "According to the main hall, it is better to join forces to attack the Tianji star field now, so that he is sick... want him!"

Hearing the words, the high-level members of the Tiandao League across the empty sky were all shocked. After taking a sigh of relief, they whispered...

hiss! Take the initiative to attack the Tianji Star Field? Is this... a little too radical? ""

We must know that today's Emperor Yi and all the official tribes of the Tianji nationality have been transformed into a giant beast with a body size of 400 million miles. That is the existence of a real heavenly environment..."

The old man thought that Ye Daoyou's proposal was justified..."

"Yes, since the floods of the heavens and the green eyes deliberately let the water drop, the injuries of the heavenly beasts in the ridiculous thunderbolt must not be serious. I have probably been greatly discounted for the years I speculated."

"So, it would be better to take advantage of the fact that he has not yet cleared the border. It is impossible to kill the Tianji beast. Although it is impossible to kill the Tianji beast, it is certain that the injury will be aggravated, so I will wait for more time for me." Up..."

"In addition, the mechanical warfare and warship army of the Tianji nationality, this campaign must also be completely wiped out. At that time, the emperor became a loner, only one Tianji beast left, and I must not be able to toss any tricks. I am more prepared and more convenient. Some..."

Later, a group of Heavenly Alliance's ridiculous old monsters quickly reached a consensus. With the results, they turned to Ye Xuan to see them all over again...

"In this case, this matter is settled..."

With the result, Ye Xuan also grew up and turned and walked away from the Star Alliance. "You all go back and prepare. The Magic Hall is far from the Tianji Star Field. You will send troops first, you three." The big leagues can be gathered before the Terran Federation, and after the arrival of the Great Hall, they will be forced together..."

"call out!"

"嗷呜..."

The sound of the sound, the leaves and the old pig's body shape have gone, disappeared at the end of the void, and disappeared!

In the void, the twelve ridiculous geeks of Tiandaomeng looked at each other and quickly issued instructions to the tens of thousands of Alliance geniuses who were crouching in the distance..."

The 12-member Alliance of the Wan Nationality has left half of the ancient powers, leaving the majority to guard the star field. The rest led the main force and immediately entered the star wormhole to go to the Terran Federation..."

call out! "

"Hey..."

After the order was issued, the twelve old geeks did not stop, and they entered the star wormhole and returned to the Star Alliance and the Terran Federation respectively.

The five star-studded monsters of the Star Alliance, such as the Scarlet and the Nine Secrets, will also gather the main force of the Star Alliance in the first time, and rush to the Terran Federation through the Starworm Cave. "

boom! ""

Rumble..."

After the deserted geeks of the two major leagues left, surrounded by the stars of the Alliance of Ten Nations, an earth-shattering thunderous sound was heard.

The main force of the Alliance of Ten Thousands of Nations is gathering, and soon they will go to the Terran Federation through the directional wormhole deep in the star field to assemble.

.....return

After returning to the Devil's Hall, Ye Xuan first heard the voice of the gods, covering the vast and innocent Xusheng forbidden land, summoning the top of the magic hall, and coming to discuss the matter!

"call out!""

Oh..."

Soon after, the corner of the constellation where Dongfu's stars were located, there was a sharp sound of breaking...

Looking around, six bloody, Zhao Dong, Qian Nan, Sun Xi, Li Bei, and the old survivors of the Sangzhi family. Take

And Qingniu and Yuling, Longjing, Gongjun, Roaring Moon, Three-jawed dragon, Longshan Tang, **** ancestors, Qingpeng ancestors, **** and Qingpeng, and the three lions of the war lions are immortal. The figure of the person is clearly visible.

Ye Xuan summoned, the top leaders of the six major corps of the Magic Hall naturally did not dare to neglect, and did not retreat, all of them rushed over in the first time...

Among them are the Sangzhi remnant tribes of the Legacy Corps, and the more than 20 immortal ethnic groups in the Xusheng forbidden land, as well as the members of the Nomadic Legion with the former captives of the Three Paws, Longshan Tang and so on.

And in the end, more than two hundred emperors in the captive army consisting of **** and Qingpeng, and the three lions of the war lions are immortal. also

There are nine ancient powers from these three tribes, as well as the three powers of the original survivors' union and the black robe!

In addition, the Taikoo Porcupine and the Taikoo tortoise and the murderous beasts of the two squadrons are all gathered together...

In terms of the river regiment, the commander of the mosquitoes and the old ghosts and the Naples, the emperor Mo Wentian, the devil's uncle, the tortoise clan, the ninth, the madness, the Xuanyuan old man, the Duanmu old man, the Bodhi teacher, and other small idle forces and family The top level is also visible! "

You, after the establishment of the magic hall, although the war has been endless, but the real battle of comprehensive conquest has never appeared..."

After all the high-rises of the magic hall were gathered together, Ye Xuan turned around and looked around the crowd. He slightly picked up the jaws and then took it again: "But today, my army of the magic hall will move almost in the nest, and the sky will be conquered. area....."

"In the six major legions, the Tianhe Legion and the Beasts of the Beasts stayed in the Xusheng ban, and the other four major corps, all of them went out..."

"In the abyss of the strongest, the temple and the old pigs are rushed out of the army, black robes and porcupines are left behind, and the sacred temples are guarded. In addition, the seven corps of the ancestors will soon leave the customs..."

Hey..."He

Just finished, the Taikoo Porcupine immediately looked up and screamed, and his body was smashed out. His face was uncomfortable: "Don't do it, this pig has just realized that the magic pig has changed nine times, and it is rare to have a level of fighting power. I'm going to go out and have a good time, but I'm left in the nest to look at my home. Isn't this the rhythm of the disease?"

boom! "

Without waiting for him to finish, Ye Xuan directly slammed him back. When he turned his eyes, he answered: "This temple is issuing instructions, not asking for your consent, then dare to swear, and immediately shut you down to Shennong Ding. The central volcano goes..."

Oh..."

Hegemonism, this pig is not satisfied! "too

The ancient porcupine looked sorrowful and angry, and snarled with a sigh of relief, but did not dare to take the lead again. He shrank his neck and retreated to the rear. If it was really locked in the volcano of the central area of Baoding Space, I am afraid that he would be sick. , how can I stay outside and be happy! mosquito

The seniors of the Tianhe Legion, such as the Old Ghost and the Neapolitan, the Emperor Mo, the Emperor of the Devil, the Emperor of the Devil, the Nine and the Madness, and the Mosquito, also wanted to go out and take the initiative.

Seeing this scene at the same time, after switching to a look, all of them shook their heads and smiled, and the steps that had just been taken were collected again...

The reason why Xuan decided to let the Tianhe Army stay in the base camp is obviously also considered. Compared with the other five major legions, the top members of the Tianhe Legion have been weakened. The battle is extremely dangerous. They really should not participate, and it takes time.
