

## **Super D.S 4941**

Chapter 4941: Tiandao League marching

"What happened? The Terran Federation...had the immortal star?"

This is one of the three major forces of the Terran Federation. It is the core ancestral home of the immortal dynasty. Since the fall of this piece of ruined land, it has been crouching in the deepest part of the star field. Even if it was a comprehensive war with the Tianji people, it did not show up. Sitting in the back..."

"And today, the immortal star actually rushed out of the federal star, which is clearly the rhythm of a terrible event..."

"The old man has a very bad feeling, and he has to make a big deal..."

"Hey! Look, behind the immortal star..."

It seems that there are other big guys rushing out..."

The immortal star rushed out of the federal star field. After a brief silence, the first exclamation broke the silence, and in the void, there was a scream of exclamation, and it was overwhelming, like a raging anger...

"boom!"

"Booming..."

I didn't wait for the sky to scream and scream, but I just rushed out of the federal star field of the immortal star, and then rushed out of the second big guy. This

It is also a star, just a small circle compared to the immortal star, clearly one of the nine satellites around the immortal star.

In the blink of an eye, two stars rushed out of the federal star field, so that all the people were shocked, and they were suspicious in their dreams, because there was no warning at all, too sudden, in fact, this is fundamental. It is not the end..."

Rumble..."

As the first satellite rushed out, less than a fragrant time, the second satellite rushed out and gathered toward the immortal star that had already drifted to the far right outside the star field...

This scene is too astounding, once again stunned the countless star powers around the void, all with open mouths, and once again almost smashed the eyes out...

And what happened next was to let all the people collectively lose their voices. Later, they were almost numb.

The stars that rushed out from the front of the federal star field, one after another, all familiar, are the satellites of the imaginary sky around the immortal star...

Such a satellite, in the vicinity of the immortal star, originally had eight, plus the immortal star, just one master, eight guards and nine stars! This

Nine stars, originally in the universe of the third cosmic technology camp, swayed in the sky, showing a three-dimensional nine-court trend, and later descended on the emptiness of this piece of land, entering the depths of the federal star, the first time appear. but

Nowadays, with the immortal star rushing out, the stars that have rushed out of the federal star field are exactly eight. It was the eight satellites that stood in the virtual space of the third universe and the magical sky around the immortal star! short

In the short half-column time, eight satellites rushed out of the edge of the star field and gathered at the first time to the periphery of the immortal star that first rushed out. to

The formation and position of the imaginary sky are exactly the same as those in the third universe of the universe, showing a three-dimensional nine-court trend...

The process was completely seen by the small and medium-sized forces scouting the fleet around the void.

The immortal nine stars rushed out of the federal star field at the same time. This is an unimaginable big event. The entire universe of the universe is completely ruined. One

In the scouts of the warships, all the scouts from all sides of the power are all shocked!

What they don't know, however, is that everything that is seen in front of us is still not over, far from..."

call out! ""

Rumble..."

Just as all the scouts in the distance around the void were stunned, from the depths of the Terran Federation, there was a thunderous thunder.

A behemoth, in the eyes of the public, rushed out from the star field, but not a star, but a giant temple that is much smaller than the immortal star.

It is like a giant continent with a starry sky, the body of silver and white, exudes a fierce glow.

After a brief silence, the parties in the distant sky scolded the strong, and soon someone recognized the origins of this giant temple, and the screams of the tide echoed again.

Legend has it that the Senate of the Federal Base of Wanlu is a silver palace that is as large as a star. It is called a splendid temple, but no one has ever seen it.

Even, even if it really exists, it is still empty, and there has never been a real conclusion. Until then, the glorious temple descended on the emptiness of this piece of land, and this matter was finally confirmed.

Since then, the Temple of Brilliance has never been seen like the immortal nine stars. Today, the immortal nine stars have just rushed out of the federal star, and this giant temple like a starry sky has also reappeared...

Everything reveals a thick and strange atmosphere, and the forces of the parties who are circling in the distant sky are scouting for the mighty.

At this moment, they have realized that there is a big incident, and although they can't wait to return to their own forces and ethnic groups immediately, they are forced to suppress it.

Because they want to know, will the Tianjue Palace also rush out, but also want to know, the three major forces of the Terran Federation move together, even the core ancestral land has been dialed out, what to do...

The Heavenly Palace is the first house of the Ten Heavenly Palace. Although the Ten Heavenly Palace is only a self-cultivation sect, its status is unique and transcendent. Although it is not nominally like the immortal dynasty, it commands the entire cultivation camp and power. but

In fact, its comprehension camp has no status as the hegemon, and it has been invisible in the early days. The ancestral land of the Ten Heavenly Palace is located in the first house, also known as the Heavenly Palace! The palace of the Heavenly Palace is the supreme leader of the entire Ten Heavenly Palace!

Ten Tiangong, where the environment is different! Have

It's a huge star, and some is a majestic continent suspended in the void, a place in the sky...

However, the Heavenly Palace has never appeared in the eyes of the world. Until recently, it came to the emptiness of this piece of land with the immortal nine stars and the splendid temple, and finally let the world know its form..."

call out....."

In the eyes of the public, the depth of the star field occupied by the former Terran Federation, and indeed a gray shadow.

This time, there was no thunderous thunder, but this gray shadow rushed out, but with a sharp and unstoppable sound, it was extremely harsh and extremely fast, and the blink of an eye was outside the starry sky. The lieutenant stopped. with

The immortal nine stars and the splendid temple stand side by side.

At this moment, all the people were stunned, slowly opened their mouths, and their faces showed a faint color. The dawn of the eyes was full of sorrow...

It's the sacred palace that rushes out of the federal star field. it

It is neither a star like the immortal nine stars nor a giant continent like a splendid temple. Although it is also huge, it is like a star, but it does not see what it is inside.

There is only one awning gray shadow, like a gray black hole... quietly standing in the void!

Chapter 4942: Two giants

In a short period of time, the original quiet human race of the Terran, there was a terrible change, forming the three major forces of the federation, all of which drove the core ancestral land out of the federal star, outside the star field. The sky is lined up...this

The scene is too astounding, indicating that the Terran Federation will have a major move this time, either to fight against the Celestials, or to slay the Temple.

Moreover, this warfare will not be able to fight. Once it is fought, it must be fierce. After all, the three major forces of the Terran Federation, even the core ancestral land, have all come out. This is clearly a big move, and the rhythm of a big decisive battle. ! Do not

However, although the heart was shocked, but the forces around the emptiness of the surrounding forces scouted the fleet but did not leave, because the sound of the bang in the front of the federal star field continued, everything, obviously still not finished..."

Roar! "

"Booming..."

Almost at the next moment, in the depths of the Terran Federation, a giant army was rushed out...

The army is not just a variety of warships and fortresses, but also some huge stars and beasts. Big

There are about 10 billion warships and various fortresses in the military, and with one of them, there are billions of starry beasts. Look

The logos painted on the tens of billions of warships and the hulls of the fortress are clearly the ones from the three major forces of the Tiandao League! Two

The tens of billions of troops took a small half-day to rush out of the star field, and did not go far, just in the void on the right side of the core ancestral homes of the three major forces of the Terran Federation, and swayed a large piece...

This scene has caused the scourge of the various parties in the far-flung air in the distance to be shocked again. The size of such a large battleship and beasts is probably more than half of the strength of the Wan Clan Federation. What happened?

"Roar!""

Oh..." No

When they returned to the depths of the stars in front of the unfamily federation, there was another horrific roar. As the roar came, five horrible sighs of horror, and this whole piece of emptiness. "

Oh..."

The humming sound has not yet fallen, and the sharp and unpredictable sound of the air has already sounded, and five figures have rushed out from the depths of the Terran Federation.

All of them are huge star-shaped beasts, and they all have thousands of miles. Just like a small star, the air that is dispersed in the body is even more terrifying, and it is all in the wild.

These five figures are the \*\*\*\* unicorn, the nine sacred crocodile, the nine-headed \*\*\*\* scorpion, the Qingtian Dapeng and the blood-sucking lion... As the army of the Terran Federation and the Alliance of All Nations is assembled in front of the battlefield, the three constituting the Tiandao League Among the great forces, the last Star Alliance army finally appeared!

The entire Star Alliance, nature can not just be the \*\*\*\* unicorn of these five ridiculous monsters coming. in

Behind the five people, the sound of the thundering bang continued, and a lineup even surpassed the terrorist army of the Wan National Alliance. It was coming from the depths of the Terran Federation.

This army belongs to the Star Alliance. In the past two days, it has been assembled in the Star Alliance, and then through the directional wormhole deep in the star field, quietly came to the Terran Federation, crouching in the depths of the stars. .

Now that the war is imminent, the Terran Federation and the Alliance of All Nations have been dispatched, and they will naturally not stop. They will follow the five ridiculous geeks such as the Scarlet Kirin and rush out of the star field, in the void on the left side of the immortal nine stars. , paving the way. This

The army is also composed of various warships, fortresses, and fierce orc groups from the second universe.

The battleship fortress is more than 20 billion, which is twice as large as the alliance of the Wanzu, and the fierce orcs of all ethnic groups are also above 10 billion. The huge lineup is shocking...

When the Star Alliance army all rushed out of the depths of the Federal Star, it was half a day passed.

Before and after, the immortal star first rushed out from the depths of the star field, and now the three forces of the Terran Federation, the Alliance of Tens of Nations and the Star Alliance all gathered together, and lined up outside the federal star field, stretching to At the end of the sky, it will take nearly two days! in

During these two days, the forces of the crouching in the distance around the squadrons squashed the fleet. They only urgently dispatched several warships to the forces and ethnic groups behind them, and urgently reported the terrible changes outside the Terran Federation, but scolded the main body of the fleet. But almost all stayed...

Nowadays, all the high-level members of the scouting fleet have already realized the seriousness of the matter and made a judgment... Tiandao League must start with the Tianji people.

This is obvious.

Because of the depths of the three major coalitions that make up the Tiandao League, the fact that each has a fixed wormhole has already become an open secret. Such as

If it is not for the Tianzu nationality, why should the Alliance of the Wan Nationality Alliance and the Star Alliance, through the directional wormholes in the depths of their respective stars, all rush outside the Terran Federal Stars to assemble?

You must know that the opposite of the edge of the Terran Stars of the Terran is more than 100 billion miles away.

However, what they can't imagine in any way is that this time it will be shot only for the Tianzu people, and it is not just the Tiandao League. because

For the army of the three major forces of the Terran Federation, the Alliance of Tensions, and the Star Alliance, which formed the Heavenly Alliance, after the completion of the virtual space outside the Federal Star, only a few hours have passed, and the far right side is far away. In the vast void, there was another earth-shattering roar...

The four major regiments of the temple arrived, divided into four small camps, lined up in the void, and overwhelming. four

Among the large army regimes, there are only a few hundred billion in the total number of survivors in the Legion of the Legacy. There are tens of billions of warships in various wars, and it is shocking to see a large piece of the sky.

The number of troops of the Nomadic Legion is also very large, totaling more than one billion. The warships are taking the fine route. Without exception, they are all large fortresses with a diameter of 100,000 meters, for a total of tens of millions.

There are also a large number of millions of meters of star-studded giant plugs, like a star, can be seen everywhere in the entire fleet of warships...

The warriors, Qingpeng and the war lions have formed a variety of warships and bastions, as well as small fortresses of 50,000 meters, and the total number has reached billions. Ten thousand

The evil army has nearly a hundred million starry beasts, and at first glance, the breath is very powerful.

In total, this time the four major corps of the Devil's Hall, a total of about 40 billion remnants of the war, more than 10 billion warships and fortresses, fortresses, in addition to a large number of billions of beasts Compared with the three major forces of Tiandao League, it is quite equal.

Such a scene, beyond everyone's expectations, in the distant air from the scouts of various forces, all the scouts are all open mouth, gaze, like petrochemical, all are scared! short

In just a few days, nowadays, the Tiandao League and the Magic Hall among the three giants of the shards of the ruins of the ruins of the world are all assembled with the army, that is, they will join forces to recruit the celestial family!

Chapter 4943: Jiugong Stars

In the void, the three major forces that make up the Heavenly Alliance all drive the core ancestral land out of the federal star field, and line it out outside the star field...

The immortal nine stars, the Heavenly Palace and the Glorious Temple of the Faction are located in the center. star

The Air Alliance and the Alliance of the Wan Nationality's warships and beasts are located on the left and right sides, facing the sky of the 100 billion miles...

Just at this time, from the direction of the right side, the four major corps of the Magic Temple also inserted in the oblique thorns, to see the direction of this giant army forward, clearly is also the distant sword pointing to the sky! This

Everything is enough to explain everything. four

Zhou Yuanzhi, from the scouts of a small and medium-sized force, countless scouts of the strong people were mad and shocked, and they suddenly sighed and sighed, and then they screamed and shouted..."

To make a big deal, Tiandao League actually joined forces with the Magic Hall, and at the same time forced the Tiantianji domain, which is clearly the rhythm of the annihilation of the entire Tianzu people..."

Among the three giants, the two giants joined forces. This time, the Tianji Star Field is really going to be flattened! "

"Yes, this result is probably unavoidable. Even if it has become the strongest of the emptiness of this piece of land, the fate of the entire sky is destined to escape the annihilation."

These are not the key. The real key is the celestial beast. Ye Xuan, the master of the magic hall, is untamed and disdainful to allied with others. This time, he joined forces with Tiandao, and even he is afraid of the horoscope. One point is enough to illustrate the strength of the Heavenly Beast. The final result of this battle is probably far from predictable..."

"Although the Tianji Star Field can't be saved, but the top of the Magic Hall and the Heavenly Alliance, I am afraid that this time will also be a lot of degeneration. After all, the Heavenly Beast is a true heavenly powerhouse, even if the ridiculous blame is hard at the cost of life. Whether it can be killed or not is still a suspense..."

boom! ""

Rumble..."

As the exclamations of the surrounding sounds, the two super-powers of Tiandaomeng and the Demon Temple, after the assembly was completed, finally at the high-level order, while driving toward the front...

The three major forces of the Taoist Alliance approached from the front, and the original army of the Great Hall, which was assembled from the void on the right side, was inserted from the side in the oblique thorn. put

Looking into the sky, the emptiness of the sky is full of warships, fortresses, star plugs, warships, and a huge variety of starry beasts, always reaching the end of the line of sight, at the farthest point of the void, there is still no end...

The imaginary distance of 100 billion miles is not close, but it is far from being too far away. The army is rushing at full speed. In just one day, the army at the forefront of the army is close to the edge of the sky. Such as

This big movement, the Tianji people in the Tianji star field obviously have already understood what happened, naturally it is impossible to have no countermeasures.

However, today's celestial beasts are retreating at the deepest point behind the celestial sphere. Therefore, all the rushing out of the celestial sphere are ordinary mechanical beasts and warship corps. This

The first day of the beast was formed by the integration of all the official tribes of the entire celestial family, including the emperor who was the patriarch, and also integrated into it. Place

Therefore, at this time, the Tianji beast retreats in the depths of the star field, and within the vast expanse of the vast sky, there has not even been a formal Tianzu ethnic group. but

As a mechatronic life group, the Tianji nationality, even if there is no formal ethnic group command, the entire Tianji national army can still carry out defense and combat in an orderly manner.

All this, the emperor has already been arranged in the early days, and there are targeted pre-set procedures for various breakthroughs...

At this moment, the army that is approaching the Tianji Star Field is so large, the lineup is amazing, and the command center of the Tianji National Army has pre-judgment. It is clear that the specifications of this accident have been set at the highest level.

Responding to the highest level of foreign enemies, all the warships, star plugs and mechanical beasts of the entire Tianji nationality, without exception, all went to the nest. At this time, they are coming from the depths of the Tianji star field, overwhelming, It has spread to the end of sight.

From the point of view of quantity, it is completely out of the joint army of Tiandaomeng and the Magic Hall. After all, Emperor Yi has been working hard to build a large army of Tianji nationality. For many years, the accumulated accumulation has been too rich.

"Hey..."

boom! "

"Booming..."

Engraved, on the left side of the star field in front, with the instructions of the commanding center of the Tianji national army, the entire vast expanse of the void, the sound of a sizzling sound like a tidal wave, this is the ship of the 100 billion warships at the same time The movement brought by recharge. This

A void, dense and full of all the warships and stars of the Tianji nationality, at this time a huge roar, hundreds of billion warships, countless guns, and volley...

Numerous energy-beams of different diameters lasing at different angles toward the front, eventually gathering together to form a beam of horror energy with a wide diameter to the horrible, toward the Tiandao League army approaching from the front. Leak away...

"call out!"

Oh..." the same

At the moment, on the right side of the sky in front of the sky, there were countless sounds of breaking the air, and the roads were rushing out of the sky, and the number of them was overwhelming. ....

After the rushing out of the star field, it is easy for the inner edge of the celestial sphere to be abruptly stopped. It is a small metal sphere with a metallic luster of different colors.

But there are also some giant fortresses, but the shapes are different and different, with different characteristics of beasts.

After the smaller metal spheres came to an abrupt end in the void, there was a deep humming and a mechanical sound of the card in the interior. With these abnormal sounds, the shape of the ball changed rapidly. The final change is a star-shaped beast with a different head shape...

The models are huge, and the small stars are huge, and the surface is covered with a faint metallic luster. It is like a mechanical beast with a different head shape. and

The number of such mechanical beasts is at least hundreds of millions of people, and the breath of horror is extremely incomprehensible. its

There are even a lot of immortal and immortal immortals, some of the larger size of the existence, the exhaled breath, even reached the universe supreme, the Lord of the universe and the universe supreme...

This is the mechanical warfare army of the Tianji nationality. At this moment, it rushes out from the right side of the Tianji star field. After completing the transformation, after entering the fighting state, the first time is toward the magic hall of the right side oblique thorns. Come over!

"Roar!"

Oh..."

At the same moment, the wicked army in the four major corps of the Magic Hall ushered in under the command of Ye Xuan, while the Legion of the Legion, the Nomadic Legion and the Captive Army were lined up in the void, all the battle boats. The battleships have started full-speed charging...

"Booming..."

In the direction of the left side, there was a sudden roar of earth-shattering, and the immortal nine stars at the forefront of the Tiandao League army rushed out at the same time. versus

At the same time, a horrible roar also sounded, clearly the voice of the immortal emperor: "The Jiugong Star bursts... start!"

Chapter 4944: Heavenly vortex

"Hey..."

As the roar of the immortal king rang, the immortal nine stars that were spurting in the air suddenly stopped, and then the ranking between the nine stars quickly changed.

Such a huge star, the performance of this moment is very dynamic, not only fast, but also flowing, as if it is just a small, smart ship. short

Just a short half of the interest, nine stars have completed the ranks of the array, showing the momentum of the nine palaces, the immortal star is located in the center, surrounded by a circle of exactly eight immortal satellites, keeping the same distance to defend it...

At the moment when the law was formed, the nine stars were suddenly stationary, and then they were rotated again.

This Jiugong Star burst is obviously centered on the immortal star in the center. At this time, the immortal star is only slowly spinning. but

The eight immortal satellites that are equally spaced around the imaginary sky, while rotating, are also revolving around the immortal star in the center...

This kind of revolution rotates and unfolds, and the rhythm fits quickly. An invisible star field is instantly displayed between the nine stars. The low-pitched humming sounds, and a light blue light and light curtain is in the void. In the middle of the show, enveloped the universe of tens of billions of miles, the immortal nine stars and a large number of Tiandao alliance warships, star plugs and fierce beasts in their vicinity...

The pale gold field film looks like a defensive shield, but it's obviously not just that simple. complete

Actually, this time Tiandao League and the Temple of Devils took the initiative to attack, and this took the initiative to prop up the defensive shield, which was too irritating. "

Oh..." this

At that time, the naval gun energy beam formed by the volley of the left side of the battleship and the fortress and the Xingsai army on the opposite side of the sky is already approaching. The front end of the terror beam has already touched the pale gold film covering the immortal nine stars... ...

With the screaming sound of the waves, this huge layer of pale gold film suddenly shines brightly. In the position touched by the front end of the terror beam, it is first recessed, but it is not broken. but

Then, a strong rebound force suddenly appeared, under the humming sound, the pale gold film that had just been sunken into it suddenly had a strong reflection, or reflection.

In short, the horror beam that was trying to tear the pale gold film, was suddenly rushed back and forth...

"boom!"

Rumble..."

The thunder of the earth and the thunder came, and inside the celestial sphere outside the tens of billions of miles, the forefront of a celestial warship and the Stars Corps were caught off guard, and the guns and light beams that were returned in the face of the rewinding could not be evaded. only

It's just a matter of interest. The forefront of the large warships and the star plugs are shrouded in trembling light beams. At least 10 billion, all are caught in the raging area of the gun light column. The sturdy hull is like paper. In general, it was directly torn apart and thundered and bursting... This

It was the first wave of the great army of the two wars, but it was so fierce from the beginning of the battle. It was far away from the small and medium-sized forces in the distance around the squad, and countless scouts were all stunned. Under the color change, the sound of the cool air rang.

"boom!"

Oh..." the same

At one moment, from the right side of the Tianji star field, the left side of the magic hall army was approaching. With the order of Zhao Dong, the remnant of the tens of billions of survivors' army also issued the first wave of volley. This

The battleship of the veteran and the ancient survivors has a advantage over the scientific and technological warships of the world starry sky. That is, the warships of the remnants of the warships are activated in the form of a field of law, rather than the kinetic energy of the warship. Such as

As a result, the energy light column bombarded by the warships and ships, except for some special projection type energy bombs, basically all of the gun light beams are spurred by straight lines. but

In the battle boat of the remnant, the attacking light column condensed in the form of the field field can be adjusted at will, and the parabolic state is lasing away.

In this way, they avoided the fierce beast army that had just rushed out in front of the army, and directly parabolically fell to the rear of the Tianji national mechanical beast army...

"boom!"

"Booming..."

Nearly 40 billion people of different sizes and different forms of the squad are simultaneously volleyed. The parabolic energy light column that lasing away shrouds a vast void of tens of billions of miles, and the speed is very fast. Behind the beast army, it immediately triggered a terrible roar.

It's just a single blow. At least a few billions of body types are different. The mechanical beasts of different grades are fully exploded. The vast void of more than one billion miles is completely transformed into a sea of fire..."

call out....."

Just at this time, from the front of the Tiandao League army, an instant rushed out of a gray shadow, the speed is too fast, across the front to activate the Jiugong Star burst, propped up the immortal nine stars of the pale gold film, to the front The forefront. This

Once, there was no thunderous thunder, but the gray shadow rushed out, but with a sharp and unstoppable sound. pole

It is harsh, and the speed is extremely fast. The blink of an eye has already stopped in the void in front...  
It's the first house of the core of the Terran camp.

The Heavenly Palace is neither a star like the immortal nine stars nor a giant continent like the Splendid Temple. Although it is also huge, it is like a star, but it does not see what is inside. but

But there is only one awning gray shadow, like a gray black hole, so quietly stood in the void, exudes a mysterious and strange atmosphere!

"Hey..."

Almost in the next moment, the incomparably low humming sounds. At the same time, from the huge gray shadow of this canopy, there is also a seemingly whispering sound, vaguely audible: "Tianren...  
...swirl!"

Oh..."

The sound of the sound, the star-like gray shadow will rotate like a whirlpool, the initial speed is very slow, the gray mans flow between, giving a feeling of confusion. but

Soon, the speed of the awning star-like smashing gray shadow began to rise madly, just a short pause, completely turned into a huge gray vortex.

The squeaking noise of the waves also began to burst at this moment. A powerful force of screaming and screaming, from the whirlpool of stars, was radiated invisibly, and it was shrouded in an instant. Nearly 20 billion miles wide and empty...

"call out!"

Oh..." with

This invisible horror sucking force is revealed in the void without any warning, and there is a large number of heavenly warships and star plugs in this area. It is like a giant whale that absorbs water, even if the kinetic energy is fully open. It doesn't help either.

The leaves that are overwhelming like the raging waves are generally sucked into the tide, and in the gray whirlpool, they become bubbles, and they disappear.

Chapter 4945: Brilliant purification

"call out!"

"Hey..."

With the start of the whirlpool of the sky, an invisible horror sucking force is revealed in the void without warning, covering one side. This

In an instant, a large number of heavenly warships and star plugs in the void are like the giant whales in the air, even if the kinetic energy is fully open, it will not help.

The leaves that are like the raging waves are generally sucked into the tide, into the gray whirlpool, and become a bubble, so they disappear and disappear...

The scene is too amazing, only the size of the stars, the gray shadow, the moment of work, but swallowed up everything in the imaginary sky.

The warships and the stars that were destroyed by the Tianzu people were at least 10 billion.

Only by this point, can you prove the eternal ceremonial form of the whirlpool, and there must be another hole in the interior, which is a small world. Otherwise, how can such a large number of heavenly warships and stars plug?

Obviously, these warships and star plugs, which were swallowed up by the whirlpools of the Heavenly Palace, must be without exception. They are all turned into broken iron and iron. The horrible lethality is just enough to match the volley of a super battleship army. Wei. complete

It is actually the core ancestral home of the Tenth Heaven Palace, and only the power of this horror can be worthy of its status. four

In the emptiness of the air, those scouts from the small and medium-sized forces, countless scouts, once again stunned and stunned. but

No one has made an exclamation, because this horrific scene has emerged too much, too, the first nine-star ninth house of stars, followed by the four-billion-dollar battle of the demon squad. The boat was amazingly volleyed. This

I haven't reacted yet, and the eternal palace of the whirlpool state has suddenly launched such a terrible destruction.

All the people were caught off guard, and the brain was banging, but they didn't stop for a moment, but their eyes were not stunned. In addition to the coldness in the mouth, they didn't know how to exclaim the comments...

call out! "

"Booming..."

Just at this time, the earth-shattering thunderous sound once again sounded from the camp of Tiandaomeng. One

The giant behemoth, in the eyes of the public, rushed out directly from the army of Tiandaomeng. This time, the behemoth that rushed out was not a star, nor a warship. it

It is a giant temple that is much smaller than the immortal stars. Wan

If a giant continent crosses the starry sky, the whole body is silver and white, and it emits a fierce brilliance. Its appearance immediately triggers a short silence in the void. eye

In the middle of it, there is a fierce and sturdy man, and I look forward to it.

This is a glorious temple from the former Wanluo Federation. pass

In the saying, the Senate of the Federal Base of Wanlu is a silver palace that is as large as a star. It is called the Temple of Brilliance.

However, no one has ever seen it, and even if it really exists, it is still empty. There has never been a real conclusion.

Not long ago, this legend was finally confirmed as this giant temple like a starry sky descended on the ruins of this ruined land.

The Federation of the Bandar has now existed in name only, and the second universe has long since refused to comply with its orders and withdrew from the Union. Such as

Among the major ethnic groups and forces of the United States, there are only two camps of the Terran, but in fact, even the core elites of the two camps of the Terran have never looked down on the United States, or Therefore, it is slow. Correct

In the two camps of the Terran, the so-called appeal of the Federation of the Faro in the Second Universe does not care at all. people

The top leaders of the two camps, who really value, are the Senate of the Federal Republic of Varo. It is also the silver-white palace in front of the virtual sky like a continent!

The splendid temple is actually the Senate of the Federation of Varo, and it is also the foundation of the Federation of Varo. As long as it still exists, the real foundation and enthusiasm of the Federation of Varo will not be weakened by half!

However, even the top leaders of the two camps of the Terran have never seen the true power of the Glorious Temple. Since the establishment of the Federation of Viro, tens of thousands of years have passed, the two camps of the Terran and the Second Universe I don't know how many cultivation resources are provided. These resources have been used by the Federal Republic of Venezuela to recruit the old monsters in the stars.

These old geeks all sit in the Senate, and become so-called federal veterans who have different levels and levels. Over time, within this silver-white splendid temple, no one knows how many instar stars and strong people are crouching and sleeping. but

One thing is certain, the federal veterans who are qualified to inhabit this glorious temple like a giant star, at least have to be repaired above ordinary immortality, the so-called masters and the like are evenly immortal. The existence that has not been reached is simply not qualified to set foot in the meantime.

As for the strongest existence of the deepest part of the Glorious Temple, it is said that there are no less than three ancient Supreme, but it is easy to wake up from the silence. It can be said that although it is only a temple, this splendid temple is too mysterious. The foundation is amazing, no one dares to despise. very

As for Ye Xuan, he is very much looking forward to this star-like continent. At this moment, as it rushes out of the giant black hole, it comes to the emptiness of this piece of land, and the eyes of countless Terran federal powerhouses all gather. go with.

Even Ye Xuan, who is in the superstar's command cabin in the Nomadic Legion, has subconsciously projected his eyes. The mind secretly guesses that this mysterious silver-white palace is now awakened and sits among the strongest. What is it? with

At the same time, I would like to see if this glorious temple can be as devastating as the immortal nine-star and the heavenly palace, or that this destructive blow is a kind of form, and it is a kind of form. Within the camp..."

Oh..."

Oh..."

It was at this time that among the many people, the glorious temple that had just rushed out of the Tiandaomeng army camp had a deep and humming sound. Accompany

This low humming sounded, and there was a voice of the old man. Just like a nightmare, he muttered in a whisper: "Glory... Purify!"

The sound is still just falling, and the whole hall is like a glorious temple like a starry sky. There are nine areas that suddenly swell up. In every area, there is a large round white milk ball with a diameter of tens of miles.

As soon as it appeared, it instantly blasted out like a cannonball. The speed was too fast, and even the void was torn. In the blink of an eye, it crossed the universe of hundreds of billions of dollars and fell directly to the warships and stars of the heavenly family. The rear of the army. and

In the first time... it's blasting!

"Hey..."

Oh la la..."

As the nine light \*\*\*\* explode, the milky white waves are instantly visible in the void, and they are rushing over, just like to wipe out the haze of the void, and instantly flood the warships and stars of the tens of billions of planes. ....

Chapter 4946: The evil army lost

"Hey..."

"Oh la la..."

Nine light \*\*\*\* are shot from the Glorious Temple, the speed is extremely fast, and the blink of an eye is easy to explode in the belly of the Tianzu nationality... This

For a moment, the milky white waves are instantly displayed in the void, and they are rushing over, just like to wipe out the haze of the void, and instantly flood the various warships and stars that are tens of billions of days.

Everything that came down was silent, but it was shocked by all the strong people in the battlefield, whether it was in the army of the Tiandeng League's own camp, or on the side of the magic hall, including the small and medium-sized forces scouting the fleet in the distance around the sky. The strong in the middle, all subconsciously took a sigh of coolness, stunned...

The so-called splendid purification of the splendid temple, nine tens of thousands of milky white light \*\*\*\* is nothing more than an aggregate of energy forms, even if it is blown up, turned into a milky white ocean in the sky, it is still the same. Place

The overwhelming milky white waves spread out, and after tens of millions of miles, they completely dissipated. With

The ocean dissipated, and everything in the void was once again revealed. The warships and stars of the tens of billions of celestial beings were visible, but they were all silent and still. very

Even the sound of the kinetic energy boom has disappeared. This tens of billions of celestial warships and star plugs seem to have become a ghost ship in a moment, without any movement... very

Obviously, the so-called brilliant purification, in the blink of an eye, all the energy in the battleship is dispelled, just like the usurpation, although the intelligent robots in the warships are massive, they lose the support of energy, endless in a pile of broken copper. Rotten iron only, completely lost the ability to continue fighting...

"This kind of attack is a bit of a point. Dealing with the electronic intelligence army of the Tianji family is simply half the effort..."

In this scene, even Ye Xuan nodded frequently, and the evaluation was not low: "More importantly, although this wave of attacks instantly disintegrated the enemy's combat effectiveness, it did not damage any warships, and turned back to pay for the war. In an instant, you can add tens of billions of warships and stars to your own camp..."

Roar! ""

Oh..."

"boom!""

Rumble..."

His words just fell, and in the mechanical beast army in front of the magic hall, all the mechanical beasts suddenly screamed out of their hair. With

The roar of the roar, the earth-shattering roar, is like a tidal wave, and it sounds in an instant, covering the whole piece of the void, in the meantime, accompanied by the intensive to the horrible sound of the card. leaf

In the Xuanyuan, the mans flashed and looked around. Vision

In the line, most of the imaginary air is nearly 100 billion in size and different in shape, but it looks like a mechanical beast that is similar to all kinds of starry beasts. At this time, as the emperor's mechanical family merges, it starts in an instant. The morphological change!

This scene is like a combination of Transformers. A mechanical tribe of different sizes can be brought together, gathered, and quickly merged. The number of mechanical beasts of different sizes will be merged within a short period of time. For one.

In the blink of an eye, nearly 100 billion mechanical beasts have become more than 10 billion heads today, and the number has dropped by 90%. However, the mechanical beasts that appear today are not only bigger, but the vast majority have already surpassed them. The size of an ordinary star, even its shape has changed. although

However, it is still a starry beast, but it is even more embarrassing, and although they are made up of a number of mechanical beasts, they are seamless, and they do not see the traces of the fusion stitches, as if they were born.

This scene is not a general spectacular, looking forward to more than one billion mechanical war beasts that have just been merged. Basically, each head has the characteristics of a variety of starry beasts. This

Representing their defense and attack capabilities are also diverse, and stronger, and may even have the special ability of some special starry beasts such as Zerg.

In addition, after the integration, more than one billion huge mechanical beasts, the strength of cultivation has also suddenly skyrocketed, the former weak is the realm of the border, but now, after passing each other After the fusion, the cultivation of the weakest strength is already immortal! very

There are still a lot of cosmic sages, the Lord of the universe and the universe supreme...

"Roar!"

"Hey..."

When the integration was completed and the individual's combat power soared, the Tianji national machinery army suddenly screamed up.

More than 10 billion heads of horrible, amazing mechanical beasts, like a lifeless, roaring and rushing to the evil army...

The battle of the sky was unfolded in an instant. This time it was a close internal struggle. When the war broke out, the void became a big one. This scene made Ye Xuan frown.

More than one billion mechanical beasts have no flesh and blood, and their bodies are all made of special alloys and treasures of ancient and dead bodies...

That is to say, the blood fog that is diffused in the void is clearly the starry beast in the evil army.

Under the frown, Ye Xuan's gods extended and his face was gloomy in an instant...

During the investigation, the loss of the All-Defense Army was not small. Although it was only a face-to-face, this melee was originally the most ferocious beast, and the more than one billion mechanical war beasts of the Tianji nationality were not only strong but also strong. There is no fear of life and death, and even some mechanical beasts are completely suicide attacks.

As soon as he rushed to the front, he launched a self-destruction, and the raging energy shrouded a void. Although the starry beasts in the evil army were also made extraordinary and fierce, they were flesh and blood. Under the self-explosion of the area, even if it does not fall on the spot, it is inevitable that the injury will occur. thing

In fact, it's such a dazzling work, because there are hundreds of thousands of heads and beasts that have been smashed by the celestial beings and smashed by the celestial beings.

Although there are hundreds of millions of beasts in the evil army, the loss of hundreds of thousands of heads is not great, but it will be amazing for a long time. Moreover, the loss of life is alive, and the Tianji is only lost. Some people who have no life are not considered to be the intelligent mechanical beasts of the official tribe. This

If you count, you can't figure it out! "

Immediately ordered, the beast army...returned back! "

Under the flash of the chilly man, Ye Xuan turned to the side of the Taikoo turtle to look over, sneered: "I want to fight with the temple, I think it is too beautiful..." too

The ancient tortoise was in a hurry, and the words were relieved, and the first time the order was issued to allow the entire members of the Allusion to retreat.

On one side, the commander of the Nomadic Legion, Qingniu, patted his chest: "Would you like us to go there, and those who fled in the stars for decades, all the warships of the Nomadic Legion are slippery like mud, and want to blow us into the water, the door is not ....."

no need....."

Ye Xuan shook his head, but his mouth sneered out a sneer: "This kind of retaliatory counterattack is given to the four kings, the most suitable..."

Chapter 4947: Four kings are dispatched

"call out!"

Oh..."

As soon as the voice fell, Ye Xuan suddenly waved, and in a moment there were four volleys rushing away, directly through the wall of the super-star plug, appearing in the universe under the tens of billions of miles. welcome

When the storm rises, it will instantly become a giant giant winged beast with a body of four heads in the shape of 50 million miles. The basic form is exactly the same. The person is standing, the wings are like a knife, only the subtleties are different. ! and

This subtle difference is obviously due to the incorporation of different four-seat squadrons. The four squadrons are located in the chest of the four-winged beasts, and because of their integration. These four-six-thousand-thousand-thousand-thousand-thousand-winged beasts have different patterns on their chests, just like a logo.

From left to right, the logos of the chests of the four-winged warriors are a purple gold veil, a skull with a one-horned beast, a full-length gray slime, and a red \*\*\*\* The \*\*\*\* mosquitoes are clearly characterized by the four kinetic energy groups within the four major wars. although

However, it is only four figures, and it is not too large. There are even more than one of the more than one billion robotic beasts in the sky.

However, the cultivation of the atmosphere of the four great kings is terrible, and all of them are ridiculously sacred, and they are half-step heavenly. from

Since the beginning of the war, the three camps of the Tianji, Tiandaomeng and the Magic Temple have always been dispatched with conventional combat power, and even the ancient powers have never appeared. but

Nowadays, the magic hall here has suddenly moved four half-steps, and the first time has attracted everyone's eyes. day

The Daoist League has fallen over. At least the top officials have seen the four kings, but those who are crouching in the emptiness of the surrounding world are among the scouts of small and medium-sized forces. All the scouts are still the first time. Seeing the four kings gathered together, the cold suddenly did not see this scene, all of them were mad and shocked, and the middle of the scorpion was even more powerful.

This is the existence of four half-step heavens. The horror of power can be imagined. All people are expecting their joint strike, imagining the extent of the horror of this blow. ....

"Roar!"

Oh..."

At this time, with the unwilling roar of the road, the countless stars and beasts in the Allusion of the Exodus had already returned, but the more than one billion robotic beasts in the sky in front of the sky did not stop at this, and they snarled. Come after the attack...

"Hey..."

Roar! "This

At one moment, among the four kings, the most central Nether King and the blood-mosquito king, while raising their hair, screamed and shouted...

At this moment, the logo of the soldier's scoop at the chest of the Nether King suddenly stunned, and the tens of millions of soldiers in the thousands of hive nodes in the Void Warfare, all under the emptiness of the Nether King.

There are thousands of honeycomb nodes with a diameter of three kilometers, and each one has tens of thousands of hollow weapons scouts at the moment, fully stimulating the biological wave frequency unique to the soldiers, these unique biological wave frequencies, in each The sitting in the hive node will lead the scoop and conduct it in a unified way. There are thousands of honeycomb nodes, and there are thousands of bio-waves like the river. all

All along the pipeline, flocked to the core nodes of the core circle, and then gathered together for one. In the end, with the sudden roar of the Nether King, this horrible mysterious creature wave frequency, like a tsunami, from his mouth, instant comprehensive Let it go..."

Hey! ""

Oh..."

The invisible shock wave roared away. This horrible biological wave frequency directly caused a faint emptiness in the void, giving people an illusion, as if the entire vast expanse of the universe was in this array. The high-frequency ciculus that suddenly came suddenly shook.

With a horrible sound that is sharp enough to tear the sky, all of them are temporarily deaf. In front of the void, an invisible wave of ocean waves like a starry sky spurts out and becomes an invisible Power, in an instant, will completely cover the vast void of hundreds of millions of miles in front of the Nether King!

"哧啦啦....."

Rumble..."

The sound of clear, cracking sounds like the rain is overwhelming, and the vast void of hundreds of millions of miles is tearing in an instant!

Sights are accessible, a large number of voids spurt out, and several large voids in the void, a large number of void turbulence directly form a hollow vortex like a black hole, numerous mechanical beasts in the void vortex Under the impact of the raging storm of endless storms, it is like a paper-like general, ruined and ruined, and instantly vanished...

It's just a simple blow. To be precise, the Nether King just just screams and screams.

However, the mechanical beasts of the Tianzu nationality lost more than two billion in an instant. This scene is like Tianwei's raging, making people feel trembled...

But this is only part of this wave of attacks. Among the four kings, in addition to the Nether King, the blood-mosquito king also sent out a terrifying scream in the first place. The latter's chest is filled with blood-mosquito warfare. La, the color of blood mosquitoes is a dark red color that is black, like dry blood, giving people a heavy sense of oppression. whole

There is nothing unusual about the \*\*\*\* mosquitoes. It is exactly the same as the other three battles, but the core node of the ninth ring on the inner side of the bell is different from the other thousands of honeycomb nodes. This

The first half of the core node is densely covered with a sharp and sharp alloy thorn. At first glance, this core node is like a huge alloy hedgehog...

Although the core node with a diameter of three kilometers is only covered with alloy thorns on the side of the bell mouth, the number is extremely amazing, and the arrangement is too dense. After the last transformation, the total number exceeded 100 billion. And the hardness of these alloy thorns is also extremely amazing, more than several times the 100,000-meter diameter Star Fortress main keel material!

These alloy thorns are created by the incorporation of a special mineral or crystal.

Each one has a length of a hundred feet. If it is projected as a spear, at a certain speed, it will be like a fortress, even a fortress or a starry fortress. It is just like the forging system, according to certain characteristics of the mosquito family. It is specially tailored.

"Roar!"

"Hey..."

At the moment, with the \*\*\*\* mosquito king stepping out, he did not hesitate. When he even looked up and screamed, his chest part immediately came with the violent high-frequency tremors generated by the mosquitoes flapping their wings. Just like a hive, there are countless dense holes.

An invisible blood-colored mosquito flies out of it and flies away toward the front...

Chapter 4948: Extinct

At this moment, as the blood-mosquito king screamed and walked out, the tens of thousands of murderous beasts in the chest battles roared at the same time, and the whole piece of emptiness trembled as if it had some kind of resonance...

Not all of them constrain the power of this high-frequency vibration, and gather together, from a honeycomb node to the core node of the ninth circle, but divergent expansion, I am afraid that this large piece of void, At this moment, I have to be disturbed and trembled!

This invisible shock wave has already emptied the voids when it has passed the special growth of the war and left the outer ring of the largest diameter of the war. its

It is also mixed with countless giant alloy spears made of special materials, even the stars can be worn, not to mention the mechanical beasts of these heavenly races.

It's just ruining! This

The speed of a wave of attacks is almost at its peak. When the blast is gone, there is an invisible ripple in the void. The blink of an eye is already a billions of miles, and a head-and-head mechanical beast is rushing forward. The frontal contact is on! "

boom! "

"boom!"

"Booming..."

The horrific huge explosions came in an instant, one after the other, dense and overwhelming...

In the void of the tens of billions of miles around, there was a huge fireball. Under the circumstance, there was hardly any mechanical beast to avoid this strange bombardment.

Only a single blow, within the tens of billions of miles, all the mechanical beasts all bombed and blasted into a huge fireball.

The vast void of a corner is thus illuminated, as a large number of stars starburst, the power of the earth is shaking, and the battlefield is once again cleared of a large area.

Just two strikes, the mechanical beasts destroyed by the Nether King and the Blood Mosquito King have reached billions of giants, all of which are giant warfare animals that have been merged. total

More than one billion heads have been destroyed, and now more than half of them have been destroyed. The entire mechanical warrior army of the Tianji nationality has been ruined...

The attack characteristics of King Heaven are different. This

It is caused by the four major wars in the four kings.

Among the four wars, the Void War has the power of the void, and the sorrowful warfare is screaming and screaming, and the war of the years is even more terrifying, and it can issue the tides of the years related to the law of the universe. This

The power of the three warlords is invisible, and there is only one void in the Void War. The soul of the war is only the horror of the soul, and the tides of the years, which are inspired by the years of war, are actually intangible. The power of the law, only in the outbreak, the slightly golden Jin Mang flashed away. Do not

However, there is no effect on the screaming spirit of the celestial spirits of the celestial beings.

The tides of the years, including the years of war, can also instantly age the body materials of these mechanical beasts, but they are still not a fatal blow.

Therefore, this time, the four kings moved together, and the Nether King and the Blood Mosquito King provoked the battle of Lawei in the chest to attack. but

This is not the case with the sorcerer and the king of the ages.

"Roar!"

Oh..."

At this moment, with the Nether King and the Blood Mosquito King simultaneously launching the battle, Lawei can attack, and the Scorpio King and the King of the Year are also suddenly screaming with a terrible roar.

Immediately after the flash of the cold mang, the shoulders shook, and immediately rushed toward the billion-dollar machine-machine warrior army gathered outside the tens of billions of miles ahead, and it was already near in the blink of an eye..."

boom! "

"Booming..."

More than a hundred million miles of the void distance, for the ridiculous nine-order grand perfection of the soul of the king and the king of the years, it is not a matter of time.

At this moment, they came to the army of the beasts of the beasts. At the first time, they motivated the amount of internal forces and shot them at the same time. he

They did not motivate the integration into the body, the soul of the war and the battle of the years, but directly with a pair of hard alloy fists, and the pair of wings behind the edge of the sharp edge of the attack... ..but

The power is as amazing as it is. After all, it is all the ruthless nine-step great perfection, that is, the supreme existence of the half-step heavenly environment. under

For a moment, the thunderous rumbling came out. Two

The half-step heavenly behemoth of the horror of warfare rushed into the enemy's army. Under the punch, it was devastated and ruined. The corner of the sky was shaking violently. This is a one-sided slaughter, a large number of mechanical warriors. Explode and turn into a fireball explosion..."

Roar! "

"Hey..."

At the same moment, just after the completion of a battle Lava can attack the Nether King and the blood mosquito king, also screaming and screaming at the moment, and then the body shape, instantly become a mans, also Followed by, the rushed into the front of the tens of billions of miles of the mechanical warrior army...

Just now, the Nether King and the Blood Mosquito King urged the Void War and the Blood Mosquito War in the chest to launch a full blow. Now the kinetic energy group in the War Lama has fallen into a period of weakness.

Although their current cultivation is the strength and the level of life, the duration of this weak period has been short and short, far from being comparable. but

At least within a few hours, the Nether King and the Blood Mosquito King can no longer spur the battle of Ravi, to launch a similar attack. Place

Therefore, the two of them are now rushing out and entering the hinterland of the camp of the mechanical beast army. They are also the same as the celestial kings who are rushing out one step ahead, with a pair of alloy giant fists and sharp wings on the back. Expand like a close-knit bombing...

In fact, this is enough.

The Tianmao's mechanical beast army was originally more than 100 billion yuan. However, after a round of volleys of the 40 billion warships of the Legion of the Legacy, it was originally lost. It was only a hundred billion. tight

Then there was a strong integration, and the mechanical beasts that appeared appeared, despite their soaring physical strength, and their strengths, also rose sharply. Even the fierce and murderous army of the evil spirits had a small loss in the midst of a moment. but

The number has dropped to more than 10 billion.

Appropriate, after the Nether King and the Blood Mosquito King urged the chest to fight with full force, more than half of the more than one billion powerful mechanical beasts were destroyed, and now there are more than half of the hundreds of miles in front. In the region, the remaining giant mechanical beasts have only over four billion heads left...

More than four billion giant mechanical beasts sound a lot, but for the four great kings who have a ridiculous nine-order grand perfection, that is, half-step heaven and earth, it is nothing at all. complete

In fact, under the bang of the four kings, the endless power of the majestic raging, at least tens of millions of mechanical beasts were destroyed and bombed into huge fireballs. Have

The four of them joined forces and rushed into the remnant army of mechanical beasts. It was simply a tiger into the wolves. The battle immediately showed a one-sided situation. This is clearly the rhythm of extinction.

Chapter 4949: Crazy advancement

"Roar!"

Oh..."

"Booming..."

With the sorcerer and the celestial kings rushing out, a boxing bombing of the mechanical beasts of tens of millions of celestial movements, just completed a battle of Lava can attack the emptiness of the king and the blood mosquito king, also sighed out of the hair Roar and scream...

Immediately after a glimpse of the figure, it instantly turned into a man, and rushed into the army of the Tianji nationality and the beasts outside the tens of billions of miles ahead.

Here, because of the horrible power of the Heavenly King and the Bloody Mosquito King to push the chest to fight, the more than one billion powerful mechanical beasts of the Heavenly Kingdom have been destroyed more than half.

In the hundreds of miles in front of the sky, most of the space has been vacated, and the remaining giant mechanical beasts have only over 4 billion heads left. The four kings are all half-steps of the ridiculous nine-step grand perfection. Under the punch, the power can be endless!

It can be said that at least tens of millions of mechanical beasts have been destroyed by each blow, and they have been blown into a huge fireball. The four kings joined forces to rush into the remnant army of mechanical beasts, which is simply a tiger into the wolves.

The vast expanse of the sky on the right side of the Tianji Star Field showed almost one-off trend in a flash. Just the four kings shot, it has already laid the general trend of extinction! Milli

Undoubtedly, this one was originally more than a hundred billion, and later it was merged, and the number was sharply reduced to more than 10 billion. However, the individual warfare army, the horrific climber, was quickly annihilated.

This is also what it should be. The size of this mechanical beast army is huge. After the integration, the beasts are more powerful and amazing. But they are only the conventional level of combat power, and even have no self-consciousness. It is not a formal Tianzu ethnic group.

It's just that the defensive general defense and counterattack are carried out by the imperial presupposition.

In the case of the general wilderness, I am afraid I can't cope with it. In other words, I am now shooting at the same time, and launching a lore attack on them is still a half-step heavenly road of four ridiculous nine-order great perfection! Do not

However, the lineup of the warships of the Tianji nationality is really too big. Just the right side of this area is more than just a hundred million mechanical beasts. in

In this direction, the depth of the Tianji star field, and soon drove out a huge army of warships, the number is the same, there are hundreds of billions!

"boom!"

Rumble..."

With the opening, the Tianchuan warship army activated the bombardment command for the first time.

The earth-shattering roar sounded, and the energy beam of the guns of different diameters spurred from the opposite air, although the number was huge, it was hundreds of billions. but

On the one hand, because it is still too far away, it is tens of billions of miles away. On the other hand, it is because the warships in this Tianji army are uneven, and there are even stars of the 3,000-meter captain. Battleship. This

A class of warships, even the energy beam of the main gun, can never reach a distance of tens of billions of miles away, and it is far from...

Therefore, this round of volleys in the sky above tens of billions of miles, looks gorgeous on the surface, and its potential is called awe-inspiring, but in fact, after billions of miles, the original overwhelming The energy light column of the naval gun has become sparse, at least 40% less...

Seeing this scene, Ye Xuan, who was now in the top control cabin of a superstar plug, snorted and muttered: "Is the general strength of the Tianji nationality finally to be stretched? The moment when the heavenly beast is forced to appear, it will be faster..."

Speaking of this, he did not hesitate, waved his hand for the first time, and immediately issued instructions for the offensive of the four major legions behind him! "

Roar! "

"Hey..."

Almost at the next moment, with Zhao Dong's order, the remnants of the tens of billions of survivors' corps also issued the first wave of volleys.

"boom!""

Rumble..."

Nearly 40 billion people of different sizes and different forms of the squad are simultaneously volleyed, and the parabolic energy light column that lasing away envelopes a vast void of tens of billions of miles...

Very quickly, the blink of an eye fell to the far behind the mechanical beast army, which immediately triggered a shocking roar, just a blow, at least billions of body types, different levels of mechanical beasts Blasting, a huge void of more than one billion miles, completely turned into a sea of fire..."

Roar! "

"Hey..."

At the same time, the countless star-studded beasts of the Evil Corps also screamed up at the moment. One

The billion-dollar starry beasts are all horrible, and the breath is amazing. At this moment, under the command of the Taikoo turtle, it will be like a lifeless moment, roaring and rushing to the opposite side of the sky...

The battle of the sky was unfolded in an instant. This time, it was still a close-knit internal struggle. When the war broke out, there was an earth-shattering explosion in the void...

The previous Tianji national mechanical beast army after the integration, it really made the evil army stunned to eat a small loss.

But because of this, the fierceness of the countless fierce beasts of the Eighty-Fighting Army was also provoked.

At the moment, the Taikoo tortoise rushed out. At the first time, he stared at a warship of the Celestial family. He immediately approached the front speed at a very fast speed, then directly raged, or directly smashed the battleship with flesh and blood, or Just take a hard blow like a bone wing and a giant tail... and

Compared with those powerful mechanical beasts, these ordinary celestial warships are not only weak, but because of their size, they are simply not suitable for melee.

The Emerald Army's hundreds of millions of starry beasts are approaching in the near future, even if each beast is only one shot, destroying a warship, and together, there are 100 million ships destroyed.

One shot is the loss of hundreds of millions of warships. This is simply shocking. The entire army is only more than 100 million warships. It can't stand the long-term loss. more

In addition to the Legion of the Legacy and the Allied Forces, among the four major corps of the Templars, the Nomadic Legion and the Captive Corps also rushed out in the first time.

The composition of the nomadic army is the most complex. There are both starry beasts and survivors, all of which are 100,000-meter-diameter starry fortresses and 500,000 meters in diameter and one million meters in diameter. It is.

As for the captive army, although there is no such huge star-like superstar plug, they are basically all big and small fortresses and small fortresses. The number is even more horrifying than the planes of the Tianqi nationality. There are too many... like

At this time, the four major corps of the magic hall were dispatched at the same time, and all the staff rushed away. It was only a small semi-column time. The void on the right side of the celestial sphere was completely turned into a scorched earth. It is the wreckage of various warships and mechanical beasts that have been bombarded. and

This is just the beginning. With the advancement of the four major corps of the Magic Hall, the whole scene of the sky is turned into a scorched earth, I am afraid it is not far away...

Chapter 4950: Tianji astronomical coke

It's not just the magical battle on the right side of the Temple, but in fact, the Tiandao League's responsible battlefield is in front of the battle zone, and the battle is equally fierce. when

However, the tragic here said that it is only the battleship army of the Tianji nationality.

After all, it is only the conventional combat power, and it is only presupposed that the program is attacking. In the face of the strong attack of the Heavenly Alliance, they are unlikely to be able to resist. From the very beginning, they will be defeated in the beginning..."

Oh..."

Oh..."

With the low humming sound, among the crowds, just rushed out from the Tiandaomeng army camp and completed a splendid temple of attack. The steep land once again issued a low-pitched humming sound.

The old man's low voice is like a nightmare, muttering: "Glory... Purification!"

The sound has just fallen, and the whole hall is like a glorious temple like a starry sky. Then there are nine areas that suddenly swell up. In every area, there is a huge round white milk ball with a diameter of tens of miles. Appeared, and immediately blasted out like a cannonball...

The speed is too fast, and even the void is instantly torn. In the blink of an eye, it spans hundreds of billions of universe voids and falls directly to the rear of the Tianji battleship and the Xingsai army. ! "

Oh..."

"Oh la la..."

The milky white waves blasted with the nine light balls, and they appeared in the void in an instant, and rushed over! This

The scene is too astounding, revealing the sacred beauty. This wave of Tao wants to wash away the haze of the void, and instantly floods all kinds of warships and stars with tens of billions of days.

Everything continued is the same as before, just like a copy of the reproduction. This

The wave-like milky white energy spread out, quietly, but once again shocked all the strong players in the battlefield. no

On the side of the Tiandeng League's own camp, or on the side of the magic hall, including the strong men of the small and medium-sized forces scouting in the vacant air in the distance, all of them subconsciously took a sigh of relief... shock!

The nine-million-strong milky white light ball is only a form of energy. Even if it is blown into a milky white ocean in the sky, it is still the same, but as the ocean dissipates, everything in the sky is once again revealed, but the image is It's weird. ultra

Over ten billion giants of various warships and star-studded wars are visible, all silent, still, and the same as the last attack, the sound of the tens of billions of warships with the blasting of the energy cabin has disappeared, as if it became a ghost ship...

For a moment, all the energy in the battleship was completely dispelled. This

The kind of means is too amazing, just like the usurpation. Although the intelligent robots in the warships are massive, they have lost the support of energy, and they are endless in a pile of broken copper and iron, completely losing the ability to continue fighting. only

It's just this blow, and the area in front of the star is once again vacating a large empty void. Although there are still 10 billion warships in this void, it is nothing but quiet, lost. All threats.

"call out!"

"Hey..."

Behind the splendid temple, a large number of light warships rushed out like a sharp arrow in the void, and dexterously evaded the stunned stun gun light beam along the way. In a short period of time, it was close to this ghostly zone. .

Then, a large number of broken sounds sounded. From these light warships, a large number of Terran strongmen rushed out and entered the tens of billions of warships. short

The time of the short half-column was not enough, and the intelligent robots of the lost kinetic energy in the battleship were all destroyed and destroyed. The concentrated energy blocks brought by these strong people were quickly replaced, and the kinetic energy cabin was started again. , activate energy, turn over and kill the Tianji family..."

Roar! ""

Hey! "

"Hey..." and

At the same time, the immortal nine stars, the Heavenly Palace and the rear of the Temple of Brilliance have always been only two other forces in the Jingdao League, namely the Star Alliance and the Alliance of the Wan Nationality. Ten thousand

The alliance of the tribes is composed of the servants of the first universe in the three major stars of the world, and the Star Alliance is composed of the second universe.

The existence forms of these ethnic groups are strange. More than 80% of them have the blood of the starry beasts. This time, the two major alliances, in addition to the warships and the Xingsai army, have a large number of murderers of various ethnic groups. The army of the beast.

Nowadays, with the unmoved Alliance of the Wan Nationality and the Star Alliance, which have been behind the Terran Federation Army, the two major alliances have rushed out of tens of billions of warships and stars. except

In addition, there are tens of billions of beasts and beasts composed of various ethnic groups who have cultivated their strengths.

The two great armies rushed out from the sides of the Terran Federation army, and they immediately occupied a universe of two or three billion miles away. The guns volleyed and roared.

Wrapped in a terrible momentum of destruction, and rushed to the sky in front of the sky...

"boom!"

"Booming..."

From this moment on, the three major alliances that make up the Heavenly Alliance are also the same as the Magic Hall, which is in charge of the right star field.

The strength of the two giants formed a sniper, and from both sides toward the sky, the earth-shattering roar was once again a great work. One

The warships of the Tianji nationality and the star plugs burst into fireballs in the void, big or small, but without exception, all of them radiated the ruin of the end. Big

Although the army is advancing, although it is not very fast, its momentum is like a push and a dead end, and it cannot be stopped.

Although the two giants of the Magic Hall and the Heavenly Alliance have not moved to the nest this time, they have dispatched more than 60% of the majority of their combat power, and they are all elite. day

It is impossible for the machine family to have the ability to block the advancement of the coalition forces only by the mechanical beasts and battleships of the conventional combat level and the Xingsai army. whole

The sky is vast and infinite, from the edge to the deepest inside, more than 200 billion miles away. in

This piece of emptiness, originally distributed with a large number of abandoned stars, has to say that the construction capacity of the Tianji nationality is indeed irritating, and it has not been long since they arrived at the emptiness of this piece of land. but

In fact, this piece of land occupied by the celestial family has a vast expanse of more than 200 billion nautical miles. All the abandoned stars have been transformed into a star-studded battleship like a super-star. This

Some of the stars and battles are huge, but they are made of abandoned stars. Although they have major drawbacks, they cannot move, but as a defensive virtual fortress, they are definitely the best choice. Such as

Today, the magic hall and the Tiandao League army are approaching each other. If we want to turn the entire Tianji star field into a scorched earth, the void fortress transformed by a large number of abandoned stars distributed in this void space must be completely destroyed. Otherwise, it will not be possible. Continue to move forward, will be retreating, grasping the healing of the heavenly animal to force out...
