

Super D.S 4951

Chapter 4951: Powerful action to destroy the stars

"Booming..."

Roar! ""

Oh..."

The entire Tianji domain has long been a mess.

From the periphery of the star field to the deepest point, the sky is divided into the void of the ethnic group, more than 200 billion miles away, but now, whether it is the Tiandao League army attacked from the front of the star field, or obliquely inserted from the right side The army of the Devils has entered the interior of the Tianji Star Field. and

Under the ruin of the dead, within a short half-day period, it has been pushed forward for two or three billion miles. put

Looking around, all directions are a fierce battle scene, the emptiness of the warships, the stars and the wreckage of the mechanical beasts.

Among them, the three major forces of Tiandao League and the four major regiments of the Magic Hall are also damaged, but they are relatively less than too much. They are simply disproportionate and almost negligible. This

This is what it should be. The Magic Hall and the Heavenly Alliance have dispatched more than 60% of the elite divisions this time. If only the regular combat forces that do not include the official ethnic group of the Tianji nationality can't easily wipe it out, it's too much I laughed and laughed.

The roar, the whistling sound, and the earth-shattering roar have been continuing. The three major forces of the Tiandao League and the four major corps of the Magic Hall have been forced from the front and the right, and have been moving forward.

After two or three billion miles, it has already entered the hinterland of the Tianji Star Field. before

Fang, there are a large number of alloy fortresses that are like the size of a star. They are distributed in the void, one in a short distance. This

These Void Fortresses were indeed built by the stars. The Celestials used their numerous robotic forces to hollow out their interiors and cast a solid alloy coat on the surface. Do not

However, it seems to be cold and faintly trembled. It hollows out the naval guns arranged by the small half of the stars, and it can also launch a super-star cannon with a diameter of horror.

Oh..."

Boom..."

At this time, the Tiandao League was responsible for the frontier direction of the Tianji Star Field, and the army's slowly advancing the road ahead of the road, suddenly came a low-pitched humming sound, even though the imaginary distance of tens of billions of miles away However, it is still very clear and incomparably penetrated into all the human ears, clear and incomparable, giving a feeling of scalp numb...

"Hey!"

At the next moment, a black naval gun energy beam with a diameter of about 10 million miles suddenly shot from a star-studded void fortress...甫

As soon as it appeared, it opened a huge crack in the void, and the speed was extremely fast. The half-interest had already crossed the tens of billions of emptiness and reached the front of the Tiandaomeng army.

Right in front of this black light column, it is a battleship army of the Star Alliance. this

When you see this horrible energy light beam spurt, the commander of this battleship army is scared of the dead soul! anti-

Material energy light cannon!

The **** celestial family, actually hollowed out a star, set up a super-star anti-matter energy generator inside the star, and most of them have been running continuously for energy storage!

Moreover, this star can't move, so there is no need to consider other effects. It is a cannon, a simple dead light cannon. One

The stars have been turned into a giant anti-matter death gun, and the horror of its power can be imagined.

In fact, even if you don't know all of this, just rely on this huge black energy beam that has just been shot from the stars and has a diameter of 10 million miles, you can judge its horrible power! first

In the area of the Star Alliance, the tens of billions of warships have been chaotic in an instant, all like the flies in the void, dodging toward the left and right sides, the kinetic energy cabin has reached the limit, want to avoid this horrible black Light column.

Although the time is rushed, there are indeed more than 90% of the warships and the stars plugged away. After all, the virtual distance of more than 10 billion miles gives them a certain reaction time. but

The area covered by this black light column is too wide, the diameter of 10 million miles, lasing away, everything along the way, destined to be turned into fly ash..."

boom! "

"Booming..."

As the black anti-matter energy light column dumped, it rushed into the Star Alliance battleship and the Stars army, and the earth-shattering roar blasted, and it instantly rang into a void.

Where the black light column passes, whether it is a large fortress or a large or small fortress, even a star plug of 500,000 meters in diameter and one million meters in diameter cannot resist the horrible destruction of it...

One blow, Star Alliance's various fortresses and fortresses have destroyed at least three or four billion, and even a million meters in diameter, like a star-like superstar plug, have been hit hard, although not completely destroyed, But obviously it has lost its combat power for the time being and can only retreat to the rear... and

This is just a wave of attacks on a star fortress. thing

In fact, after this wave of attacks, inside the star bastion outside the tens of billions of miles, there was a whispering whistling sound again, and the frequency seemed to be more frequent than before. rapid.

Obviously, the same attack, just this star fortress, will have the ability to blast again. This may require a certain interval, because it takes time to store energy.

But in fact, in the hinterland of the sky in front of the sky, the same star fortress is obviously not in the minority.

Looking into the distance, there is one in the void, not far from the sky, the entire space of more than 200 billion miles in the sky, a similar star fortress built by a whole star, to say that there is no 10,000, I am afraid at least There are eight thousand giants...

Just a blow of a star fortress, let the Star Alliance lose three or four billion warships and star plugs. If these star fortresses are not solved, even if the Heavenly Alliance and the Magic Hall jointly send troops, push forward If you want to go all the way to the deepest part of the sky, in the end, the army of the two giants, at least, will destroy at least 70%...

Such a war damage, whether it is Ye Xuan or the top of the Tiandao League, is obviously unacceptable.

After all, these star bastions are only created by abandoned stars. They are not the official tribes of the celestial family. They use their own life and strength to fight hard to fight this kind of star fortress that can be rebuilt at any time. It is a deal that is not worthwhile.

The thoughts flashed through the mind, and Ye Xuan's mid-cold man flashed. The four kings who ravaged the road in front of the four major regiments immediately screamed and screamed, and they were smashed into four volleys. blink

Between the eyes, it has reached 10 billion miles, each picking the star fortress in the void, and punching and punching...

At one moment, the frontier direction of the Tianji League, which is responsible for the Tiandao League, formed the top three forces of the Tiandao League, and apparently also issued instructions. In the blink of an eye, there are a large number of cosmic masters, the universe supreme, and a small amount of ancient Can rush out.

The goal is also to point to the star fortress in the distance in front of the sky...

Chapter 4952: Heavenly machine

"Roar!"

"Hey..."

With the demise of Ye Xuanyuan, the four kings screamed and screamed, and the body shape instantly turned into four masculine lasings. The blink of an eye has already reached tens of billions of miles, each picking A star-studded star fortress, with a punch and a fist...

The thundering roar came in an instant, and the four kings were the half-step heavens of the ridiculous nine-step grand perfection. Even if the stars could not resist, the four stars would explode and become a huge one. Black fireball! versus

At the same time, the top direction of the Tianji Star Field, the three major coalition forces that formed the Tiandao League, apparently also issued instructions. In the blink of an eye, there are a large number of cosmic masters, the universe supreme, and a small amount of wild powers rushed out. Head

The standard is also a star fortress that points directly into the sky in front of the sky...

Even if it is the Lord of the universe, it can be slammed out with a full force. Although it can't be like a four-day king, it directly blasts the Star Fortress into a black fireball, but it just destroys its internal equipment, but it is completely ok. of. three

Although there are not too many ancient powers in the big leagues, but the Lord of the Universe and the Supreme of the Universe are quite numerous. Now all of them have rushed out, and each chooses a star fortress as a target. In a short period of time, it will be destroyed. Hundreds of giants...

At the rear, the army of Tiandaomeng and the Hall of Demon kept at a constant speed and was always moving forward.

But at this time, there are hundreds of stars in the front of the sky, but there are hundreds of low-pitched humming sounds.

In the forefront of the void, the four kings and the Heavenly Alliance have a lot of high-level combat power. They are vigilant at the first time. The closer they are, they immediately rush to the star-studded star fortress, under the boxing, or The bang is a black fireball that bursts open, or the internal device is smashed, and the humming sound stops. but

There are also more than a dozen Star Fortresses who successfully launched a cannon blast before this robbery..."

Oh..."

boom! ""

Booming..."

More than a dozen incomprehensible humming sounds are almost at the same time. Although the imaginary distance of tens of billions of miles away, it is still clearly and unimpededly penetrated into everyone's ears, giving people a feeling of scalp numb... .."

call out! "

Almost at the next moment, the interior of the dozens of star bastions rushed out more than a dozen black naval gun energy beams with a diameter of about 10 million miles. They suddenly broke into the void, and when they appeared, they tore apart. The huge cracks, the speed is very fast, and the half-interest has crossed the tens of billions of emptiness to the front of the Tiandao League and the Temple of the Magic.

"boom!"

"Booming..."

With the precedent not long ago, the Tiandao League army is no longer chaotic, and the seven-eighth black light column directly points to the area, a large number of starry beasts and battleships, and the stars plugged back to the sides. Do not

However, there are still some that have not been able to avoid, as the black anti-matter energy light column dumped, rushed into the Star Alliance battleship and the Stars and the army, the earth-shattering roar, and instantly rang through a void. black

Wherever the light column passes, no matter the big or small fortress or the big or small fortress, it can't resist the horrible destruction power. This kind of attack, the various fortresses and fortresses of the Star Alliance destroy at least four or five billion. After all, there are more than a dozen. The horrible black light column came out at the same time. Among them, the light column pointing to the Tiandao League army has nine lanes...

The other six roads point to the four major legions of the Magic Hall.

But here, Ye Xuan shot in the first time, under the glimpse of the cold, his body shape disappeared in the top of the superstar's top commanding cabin, and went to the front of the four major corps of the magic hall. in.

"call out!"

"Hey..."

Boom..."this

At that time, he only made the form of the konjac, and even the huge figure of 60 million miles was not apparent. on

So close to the void, just a wave of hands, these four spurs, the diameter of the horrible thousands of miles of black anti-material guns, it is like a strong force. steep

After the stagnation in the void, I immediately rewinded... and

Moreover, the speed of lasing at this moment is faster than when it is coming. The blink of an eye has returned from the original road, and the four star fortresses that shot them are coming...

Everything that has come down has no suspense. The four star fortresses exploded in an instant and turned into four huge black fireballs. do

After all this, Ye Xuan did not continue to stay, his body disappeared in the void, and directly returned to the flagship giant plug in the top command cabin. versus

At the same time, several ancient powers in the Great Hall of the Devils rushed out at this moment. They did not directly rush to the foremost void like the four great kings, and they bombarded the star fortresses in the void.

It is only guarded in front of the four major corps of the Temple. One

In the depths of the sky in front of the sky, there is a huge black column of tens of millions of miles, they will immediately shoot, although it is impossible to wave the four black beams back like Ye Xuan. but

One of the most powerful shots, forced to blast a black light column back, but still can do it.

Although there are not many ancient powers in the magical hall, it is enough to protect the cold arrows of this mighty horror just in front of the four major regiments. another

In one direction, the top three forces of Tiandao League have obviously made adjustments. They have been slamming the starry sky power of the Star Fortress in the front. There are also more than a dozen retreats back, guarding the front of the three great forces of Tiandao League... Such as

In this way, the general trend on the battlefield has basically been laid. day

The machine warrior army of the machine family was completely destroyed. Although the remaining warships and the Xingsai army still had more than 100 billion yuan, they were all bombarded on one side and the number was sharply decreasing.

The only 10,000-star bastions that have the ability to attack the Temple of the Devil and the Heavenly Alliance, although there are many, the power is even more horrible, but in the two giants, a large number of ancient powers, the cosmic supreme and the cosmos of the universe are devastated. Next, the number has been falling all the time...

The passage slowly, but the roar of the sky and the earth has never stopped. One

The sky was dazzling, and in the previous half-day period, the terrorist army of the two giants of Tiandaomeng and the Magic Hall had already entered the Tianji Star Field and penetrated into the three or four billions. Such as

Today, within this day, the army is forced from two directions, and the distance forward is more than 100 billion miles. put

Looking into the distance, the distance between the stars belonging to the sphere of influence of the Tianji nationality is less than 50 billion miles. The star fortress in the void is no more than one hundred. to

In the battleship army, almost all of them are turned into fireballs or metal wrecks in the universe. day

The mechanical beasts and warships of the machine family have been completely annihilated. It can be said that today's Tianji people have only one left-beast that is formed by the combination of their official tribes and the emperor. Everything else has vanished. It's no different from the genocide...

Chapter 4953: The ultimate battle is coming

"boom!"

"Booming..."

Beyond the tens of billions of miles ahead, with the four kings re-launching, the last four stars in the void were fortified into four giant black flame balls. shock

The bang of the sky came, and then, the short and half pillars were not enough. This vast and incomparable star field suddenly became a quiet place. Rear

Fang, the three major army of Tiandao League and the four major corps of the magic hall all stopped. The warships and the star-studded ships were no longer roaring. The starry beasts in the beast army were no longer roaring...

For the sky in front of the sky, the figure of the Tianji battleship, the star plug and the mechanical beast have not been seen.

Looking ahead, the front of the two great armies and the void behind them are all burning with large and small fireballs. The ruins and metal fragments of the numerous battleships, star plugs, and mechanical beasts and star fortresses blasted...

The conventional forces of the Tianji nationality have completely disappeared. More than 100 billion powerful mechanical beasts, 340 billion warships and star plugs, and nearly 10,000 star fortresses built with stars have all disappeared.

Today's celestial family, only the emperor to all the millions of formal ethnic groups, plus his own body and the heavenly city of the heavenly city, the rest are no other.

From a certain point of view, this campaign, the Tianji clan has actually been annihilated, and the lonely celestial beast is invincible even in the emptiness of this piece of ruined land, but he is so lonely, and noisy can not make much noise. Something

In fact, although the Tianji beast has not yet cleared the customs, it is still repairing the injuries suffered in the Tiandao Thunder when it hit the heavens, but the Demon Temple and the Heavenly Alliance Army are now dying, not only to destroy the routine of the tribe. Only a big force.

The real purpose of the high-level leaders of Ye Xuan and Emperor Er, is to sneak a sneak attack together with all the ridiculous old monsters.

It is just a matter of handing out the conventional forces of the Tianji nationality.

If the sneak attack is successful, then the celestial beast that is in the process of healing is disturbed, and the injury is likely to become more serious.

In this way, even if he does not exist in the real heaven and earth, even if the combat power is invincible in the void of this ruined land, and infinitely close to the heavens, as long as it is not completely stabilized in the heavens, Ye Xuan and Emperor II The ridiculous blame is not afraid of him.

Even if you can't beat it, if you join forces and compete with it, you can barely do it.

This is the ultimate goal of Ye Xuan and Emperor Er, etc., screaming that his injury has not been recovered, so that the Tianshi beast will be wounded and wounded, and his plan will be firmly built in the heavens and the road, killing it midway! Do not

However, this level of war, ordinary conventional forces can not participate in it, let alone the ordinary warship army and the beast army, it is the ancient power, are not eligible to participate. Such as

Today, the conventional strength of the Tianji nationality has been extinct. The high-level members of the Tiandao League, such as Ye Xuan and Emperor II, issued instructions at the first time to let the army of the Majesty evacuate at full speed.

The three major army of Tiandao League and the four major corps of the Magic Temple are not only withdrawing from the Tianji Star Field, but will even withdraw directly to their respective power stars!

Next, the ultimate battle with the Tianji people will erupt, and the desolation-level power of the Demon Temple and the Heavenly Alliance will join forces to attack the Heavenly Beast. This vast and innocent sky will be a place of great war...

"boom!"

Rumble..."

With the issuance of instructions, the three major army of Tiandao League and the four major regiments of the Magic Hall began to evacuate at full speed, in the void, and the sound of thunder and thunder that started the full-speed opening of the energy cabin.

Even the two giants had previously dispatched a large number of cosmic masters, cosmic supreme and ancient powers that had slammed the Star Fortress in front of the star field, and they all hurriedly evacuated and returned to the fleet of their respective forces.

In the follow-up, they will lead the army of their respective forces, returning to their respective star fields at the fastest speed, and immediately launching a defensive arrangement, in case the accident of the Tianji Star Field is unexpected, causing the heavenly beast to become angry and rushing to retaliate... ..

"call out!"

"Oh..."

Just as the entire terrorist army of the two giants evacuated, there was also a sharp break in the void. magic

On the side of the Great Army, only Ye Xuan and the old pigs have been rushed out. Both of them are just the shape of the taller ones. They have not yet shown the bleeding veins. Together with the four kings who have returned in front, they are side by side. In the void...day

The same is true of the Dominion!

The first to rush out is the five figures, the leader is a unicorn Warcraft, the body is thousands of miles, the whole body is lingering with the flaming flame, it looks extremely powerful, it is a **** unicorn. its

As a strength, it has now reached the eighth level of the ancient sacred, only one step, you can step into the ruins of the ninth-order grand perfection, and on the side of his body, only the guy who is behind half a figure is also a body. It is ten million miles, but it is very long and narrow, the whole body is dark, and the body is in black and the ink is rolling. This

The guy is the nine sacred crocodile, repaired as the strength and **** unicorn, but also reached the absurd eighth-order, can be described as powerful, behind the two of them, the other three figures are side by side in the emptiness of the volley, respectively It is the ridiculous old monster from the former third group of the first three universes, nine bloody, blue sky and big blood and lion war! its

In the middle, the nine **** and blue sky Dapeng were just breaking through before entering the emptiness of this piece of land, and they just entered the state of abandonment. Not long ago, the cultivation of these two old guys was only a waste of respect. First order, but now it is the second order of this!

And the breath is very solid, and it must have been broken for a long time. The distance has entered the third-order situation of the desert, and most of them are not far away. However, the blood-scarred lion has not yet entered the real world of absurdity, but only the ancient power. but

In the state of activating the **** supernatural powers of the lions, his cultivation is much stronger than the nine **** and blue sky Dapeng. Such as

The temperament that has been diffused from the body today has reached the sixth stage of the ancient sage, and only one step can enter the late stage of the seventh order! With

The five major deserts of the Star Alliance appear, and there are seven other figures in the far side of the same direction. They are coming together and appear to be normal human forms, but there are obviously only four people in the real race.

In addition, the other emperor is the mechatronic life, and the last two have changed into the human race. The breath that is diffused in the body is as violent as the starry beast. This

Both of them look like the old man of about 60s, a black robe, a white robe, a white robe with a dark complexion, like a pot bottom, but a black robe is as pure as a jade, it looks quite a bit of a sense of interest, should It is a splendid temple from the former Federal Base of Wanlu, which is one of the three major forces of the Terran Federation. The body must be a starry beast. but

The cultivation is full of strength, and both of them are all seven steps of the ancient sage. They have entered the late stage of this situation, and they are the same as the blood-sucking lions in the state of mad lions.

Chapter 4954: Horror luxury lineup

Among the three major forces that make up the Tiandao League, the four ridiculous old monsters that have been awakened by the Wanzu League have all been killed by Ye Xuan, and even the **** fog formed by their physical explosion has been refined. Turned into four deserted blood.

Therefore, at this moment, the ridiculous old blame from the Tiandaomeng army is only from the Star Alliance and the Terran Federation.

Among the seven ridiculous old monsters of the Terran Federation, except for the emperor and the two old beasts who changed, the other four are all true human beings.

Three men and one woman, the age of appearance is also around 60. These four people should be the immortal dynasty of the two camps of the Terran, and the Tianmeng Palace of the Ten Heavenly Palace, and the strength is also good, all It is the late stage of the past, all of which are seventh-order.

Only by this point, we can see that the overall strength of the Terran Federation is much stronger than that of the Star Alliance. They not only have seven absurd geeks coming, but also the late seven years of the seven-level ruling.

Even the emperor, who is only the first-class of the Supreme Age, has a mechanical family in his hands.

Once tens of millions of people have merged into mechanical behemoths, they have cultivated their strengths and even surpassed the seven steps of the ridiculous, reaching the nine-step grand perfect half-step heaven and earth...

It can be said that among the seven ridiculous old monsters of the Terran Federation, although the emperor's cultivation is the weakest, in fact, the comprehensive strength among the seven is actually the strongest.

This point, from the seven people coming together at the moment, is the first of the emperor, you can see one or two...

Moreover, this time Tiandao League and the high-level of the magic hall teamed up to deal with the heavenly beast of the heavenly machine. Although there are already a lot of absurd strongmen, there are more than a dozen statues, but the heavenly beast has successfully entered the real world. The heavenly environment, with these forces alone, even if it is combined with the attack, whether or not he can continue to add new injuries to his injury is still unknown.

Under this circumstance, the three blood seas of Ye Xuan, the master of the temple, will obviously not hide, and all will be condensed later. and

The two mechanical behemoths of the Emperor's Second Emperor, which are all the people of the entire mechanical family, will obviously reappear and participate in this battle..."

call out! ""

Oh..."

Really, this is exactly the case. With the appearance of Emperor II, his shackles are flashing and he waved. under

In a flash, there was a rush of glare, and in the void in front of the tens of billions of people in front of him, began to assemble...

Obviously, there is also a huge treasure in the hands of Emperor II. The whole army is huge. Now there are mechanical families of nearly 80 million people, and he is carried with him...

At this moment, because the final battle with the Heavenly Beast is about to come, this mechanical army is also called out by Emperor II.

"boom!"

Rumble..."

With a large number of mechanical warriors in the form of mechanical beasts spurting out, falling in the void of nearly 10 billion miles, the earth-shattering roar sounds like a tidal wave, covering the whole piece of void.

In the first time, Emperor II issued instructions to the general army of the machine to expand the fusion... After all, the mechanical behemoths of the mechanical family can be formed without a fusion, requiring seven integrations.

And it will take a long time. If it is waiting for nearly 80 million troops to re-integrate, it is obviously unnecessary. Such as

Nowadays, the mechanical beasts that were first called out, immediately after the instruction was received, merged, and the virtual air came intensively to the screaming mechanical sound of the card, all

the mechanical people who were called out. , three, three, two, two, close together, gathered, and merge with each other... small

After the semi-column incense, there is no longer a glare from the second-hand empire, and the mechanical beasts that are continually summoned in the void are also completed two times in this period.

After two rounds of integration, the original mechanical beasts of more than 80 million, now there are only more than 800,000 heads, but without exception, all of them are soaring, the smallest, almost the same as the immortal star, like A giant star. but

In terms of form, it is still a starry beast. It has already possessed the characteristics of various beasts. As for the strength, the weakest existence is the immortality of the emperor, the most powerful existence, and even the possession of the universe. For, and the number is still quite a lot, more than a thousand...

However, this is still not the end, and there are several integrations! "

boom! ""

Rumble..."

With the order of the Emperor II, the roar of the earth-shattering sounds like a tidal wave, and the sound of the intensive and screaming mechanical movement.

More than 800,000 mechanical beasts, just like the previous two times, are close together, gathered, and merged with each other.

Compared with the previous one before Xu Sheng's forbidden land, today's third fusion time is a little shorter, but it has also lasted for about ten.

In the blink of an eye, the number of mechanical beasts that had passed through the second fusion of more than 800,000 heads was 90% less, and today it is only over 80,000.

But each head is huge, the body is almost horrible, and the form is also a variety of star-studded beasts. When you look at it, it looks like a prehistoric monster. It is shocking. and

Moreover, after the third fusion, only about 80,000 heads of mechanical behemoths, the weakest of them, have reached the immortality of the emperor, and the strongest body exists, even Achieved the wild and powerful environment, and the number is quite large, more than one hundred...

The next four fusions are faster, after all, the number of mechanical beasts after the integration has become less and less. and

And similar integration, Emperor II during this time, there must be no less practice, compared to when Xu Xu was forbidden, it must have been a lot more mature. short

A short moment, the seventh fusion is completed. before

In the virtual sky of the square, more than 80 million mechanical tribes have disappeared. Instead, they are mechanical behemoths with two bodies of incomparable size.

Although it still does not reach the huge terrorist shape of the 400 million miles of the celestial beast, it is also about 300 million miles, which is much larger than the average giant star.

As for the repairing atmosphere of the two mechanical behemoths, they are all abundance of the nine-order great perfection, that is, half-step heaven!

At this point, there are already fourteen old and ridiculous vulgars in the universe of the opposite universe.

From the Star Alliance and the Scarlet Kirin, the Nine Secluded Crocodile, the Nine Head Blood, the Blue Sky Dapeng and the Bloody War Lion.

And the six late widows from the Terran Federation, as well as the Emperor and his two ninth-order great perfect mechanical behemoths. where

I am afraid that Ye Xuan's three **** seas have not been summoned yet. Counting him and the old pigs, the four kings, and now the ridiculous old monsters in the void have reached the top of the 20.

Among them, the ridiculous nine-step grand perfect half-step heavenly road, there are more than eight, the magic hall side, it has already occupied six.

And once Ye Xuan will condense the three blood seas, this time, the total number of ridiculous monsters with the Tianji beast will reach 22, of which the nine-step grand perfect half-step Tiandao, there are ten. Nearly half. only

The Temple of the Devils has already occupied eight of them. The lineup is horrible and luxurious...

Chapter 4955: Tianji beast was forced to leave the customs

With the Emperor's second wave, the entire mechanical family of nearly 80 million people were summoned, and the instructions for integration were issued in the first time. In a short period of time, the family was merged, and the two bodies were close to 300 million.

For the sake of strength, and reached the stage of the ridiculous nine-step great perfection, that is, the mechanical behemoth of the half-step heaven and the earth, Ye Xuan's squatting in the middle of the cold, there is an action in an instant.

"Hey..."

With the strange noise of the waves, the body shape only smashed the starry sky and the whole body collapsed. In the void, it turned into a **** sea, and it spreads and spreads. A hundred miles away.

"Roar!"

Roar! "

"Hey..."

In the next moment, from the three different directions of this vast sea of blood, the sound of screaming and screaming sounded.

Then, in the boundless blood of the sea, there are three huge figures, instantly plucking the ground, and it is the three great devils of the ancient konjac. Minute

Don't be the flesh and blood, that is, the starry sky, and the body of the cheekbones, without any flesh and blood, just a purple-golden cheekbones, revealing endless fierce breath, very incomparable.

In the end, it is the body of black fog. Although it is also a violent form, the body is a black fog, and even a pair of scorpions are just two awnings, which are very strange! from

Therefore, the three **** seas were instantly condensed out, and the body's repaired breath was breathtaking, and all of them were all the sacred and perfect nine-step perfection, that is, the half-step heavenly environment. Such as

As a result, there are only eight desolation forces on the side of the magic hall.

The three bloods of the sea, the four kings, and during this period will also show the blood of the body, and now the giant pigs of the giants of Panda.

Eight people, all of them are half-step heavenly existence!

Opposite the sky, there are also Star Alliance and Scarlet Kirin, Nine Secluded Crocodile, Nine Head Blood, Blue Sky Dapeng and Blood-Blood War Lion.

Six late veterans from the Terran Federation, and Emperor I and his two ninth-order great perfect mechanical behemoths.

Looking at it, the totality of the demon and the Heavenly Alliance this time with the celestial beasts has reached a total of 22 giants. Among them, the ninth-order grand perfect half-step heavens will have ten, nearly half array

The horror and luxury of tolerance is horrible! can

Even so, the old ridiculous geeks present still have a dignified look. Although there is no one to speak out, the whole piece of emptiness is shrouded in an invisible haze, which is extremely oppressive. turn

Looking forward, the rear of the Tianji star field, the army of Tiandaomeng and the magic hall is about to evacuate all the members. After all, it is evacuated at full speed, but the virtual distance of about 100 billion miles is not too far away.

"Roar!"

"Roar....."

Opposite the sky, with the low and depressed snoring sounds of the road, the five ridiculous geeks from the Star Alliance and the nine sacred crocodile all show their blood, and at least Panda .

The vagueness of the vagueness is so powerful that it is so powerful!

Among the seven ridiculous old monsters from the Terran Federation, the existence of the blood of the beasts in the two bodies also shows the blood and the body, one is the violent bear, the other is the green scorpion, and the body has 40 million Huge, compared to Ye Xuan's three **** seas, only a small circle.

The other four people are deserted, and each of them has sacrificed warfare and war treasures, all of which are ridiculous and precious, pouring out a light curtain and covering the whole body.

Even the emperor, the top of the head was hung with a blue jade ruler, which made Ye Xuan somewhat surprised. He did not expect the mechanical life of the emperor II, but he could also sacrifice the magic weapon. miss you

This blue jade must be specially transformed by Emperor II. As for its power, it has a unique role. It is still unknown at the moment and cannot be seen at all. and

On the side of Tiandaomeng, the four kings do not need magic weapons, and the old pigs are also fighting against two pairs of black hooves and a pigtail like a giant whip.

It is Ye Xuan's three **** seas, the flesh and blood body violently turned over his hand, the right hand instantly has a **** stick, and he is single-handed on his shoulder, looks free and easy and domineering.

The black mist is surrounded by a ribbon, which is in the form of energy. It is colorful and colorful, and it is wrapped around the body and limbs for several times. It is clearly the nine-color flame inside Shennong Baoding. only

From this point of view, Shennong Baoding was clearly assigned to the hands of the black mist, and the only thing that was presented was the nine-color flame sea inside Baoding.

But if it is needed, the body of the black fog can be sacrificed by Baoding, taking a trip to the foot, using it as a fan-print or a giant hammer, directly smashing...

It is the shin bone, but the hands are empty, this is Ye Xuan deliberately, because this battle, his greatest dependence, the most powerful blow that will be used at the most critical juncture, will be responsible for the sacral bone! "

You, Tiandao League and the Great Hall of the Demon, have completely withdrawn from the Tianji Star! As for the breath of the heavenly beast, the old man has already captured..."

After a small half-day pass, Emperor II turned to look at the distant direction behind him, and soon recovered his sight, sweeping through a group of ridiculous geeks who had already gathered in the void.

As he spoke, he had already turned his gaze to the far side and raised his finger: "In this direction, the imaginary sky beyond 30 billion miles, the inconspicuous black hole... the heavenly beast, crouched inside!" "

For everything that happened outside the black hole, Emperor Yi must have already sensed it, but now, I have led the army to enter the Tianji domain, and it has been three or four days before and after. The entire Tianzu clan has been destroyed, but he still Never appeared..."

The emperor's squatting in the middle of the Han dynasty flashed: "This situation is a bit strange. If there is no accident, the injury of the celestial beast must be fully restored. Otherwise, he will not be willing to pay the price of the entire celestial army." I can't help but bite my teeth..."

In other words, our time... is not much. "

"Once he is completely restored and then take the initiative to leave the customs, then the repair of the heavenly beast will be strong in the real heaven. If I want to reinvent him again, I am afraid it is tantamount to idiots and dreams, the probability is less than 20%!"

Speaking of this, the Emperor had a slap in the face and turned to the crowd to scan the circle again. Then he took it: "Are you all ready? If there is no problem, the old man is going to shoot now, the two of the mechanical family. The great mechanical behemoth will use the secret method to dry the black hole in the front of the sky with a unique electronic wave..."

"So, the celestial beast will be forced to rush out and go out in advance. Otherwise, the inner void of this black hole will be in a disorder. In this case, once I wait for another attack, the black hole will collapse completely, and he hides in the black hole. Inside, once the black hole collapses, it will either be banished into the void."

"Either, it will also aggravate the injury because of the law force when the black hole collapses. Only the forced rush out is the best choice."

And this, for me, means that the big battle is coming..."

Chapter 4956: Siege of heaven

The situation is so, the time is tight, all people are well aware, at this time, naturally there will be no more objections!

Emperor II took back his sight and nodded silently. Then, his eyes looked at the small black hole that was tens of billions of miles ahead.

Ye Xuan through

A sense of tension at the touch of a hair!

"Roar!"

Oh..."

Oh..."

At the next moment, at the forefront of the void, the two mechanical behemoths with a size of nearly 300 million miles, and a raging roar and screaming in the back, followed by a low-pitched humming sound...

Two strange sound waves like the wave scales are swirling from the body of these two mechanical behemoths. They merge together and blink toward the small black holes tens of billions of miles ahead. The black holes are shrouded in the blink of an eye. .

It is said to be a small black hole, but its diameter is still about 500 million miles. This is just the entrance to the black hole. After entering, the space inside must be larger.

But this kind of void black hole has always been the most unstable, it is the ordinary energy explosion, which can have a huge impact on the structure of the black hole. If it is not good, it will collapse. Such as

If this happens, even if there is a heavenly environment, even if there is no danger of survival, the possibility of serious injury exists.

If it is exiled to the endless stream of emptiness and can't find the path of return, then the result is not much different from the real fall.

Under normal circumstances, this is still the case. At the moment, the two mechanical behemoths, which are made up of the whole mechanical family, are also shot at the same time, and the secret method is used to cover the entire black hole entrance with a special electronic wave of power. The situation is obviously worse.This

At the moment, the originally stable black hole entrance channel, in a moment, there was a fine wave of fish scales, and it became more and more chaotic, and the sound of low and low humming continued to be transmitted, and the frequency became more and more urgent... "

Emperor I, if you don't come out again, the old man will be attacking..."

At this time, the Emperor II, who has never spoken again, has been flashing in the middle of the moment. The sound of the gods is heard, and it is introduced into the black hole that is in front of the chaos: "The situation outside the black hole must have been known to you. Twenty-two ridiculous old monsters, including ten half-steps, are gathered here..."

In this battle, you are either facing up, or being hurt by the power of the black hole rule that collapsed, or being directly exiled to the endless stream of turbulent flow..."

There are only these three choices, and your consideration is only three interest rates. After the three interest rates, the old man will order the two mechanical behemoths to take full action. Under the attack, this small black hole that you hide in is bound to collapse. ..."

"Hey..." Emperor

The voice of the gods of the second has just fallen, and in the small black hole outside the tens of billions of miles ahead, there is a terrible noise.

The sound of the road whistling is sharp and sharp, like a lot of sharp and hard metal rubbing together, giving a chill of the scalp to be blasted. Such as

This metal sound is naturally from the heavenly beast.

In the sound of whistling, there is endless resentment, and there is a sense of exhaustion that is faintly detectable. Obviously, the injury that the celestial beast had previously suffered in the thunderbolt of the heavens has not completely recovered. Not to mention anything to stabilize the realm. Now

In the past, although he is already a true heavenly powerhouse, but because the realm has not been stabilized, the damage of the thunderbolt has not been restored. Therefore, even if the combat power that can be exerted can reach the true heaven and earth, it must be the most A weak heaven exists!

For this reason, the Emperor at this moment will be so unwilling, even in the horror of the screams that are forced to be sent out, there is an endless resentment that is thick and incapable of opening...

However, as the Emperor II said, even if the heart is not reconciled, in the face of the current situation, he can only be forced to stop healing, and forcibly forcibly exited. no

Then, once the small black hole where it is hiding is attacked and collapsed completely, the power of the chaotic law of the void in the black hole will also cause him to be traumatized. also

Or it is directly exiled to the endless stream of turbulence, and it is very likely that it will completely lose its way to the stars and will never return...

These two results are unbearable for Emperor Yi.

In contrast, he is more willing to let go of the twenty-two ridiculous monsters who have already gathered outside the small black hole. One

The aspect is the strong self-confidence of oneself. On the other hand, at least, the fate is in its own hands... As the existence that has entered the real heaven, the Emperor is obviously unable to control itself. There is a little bit of interest in the choice of fate! "

boom! ""

Rumble..."

Almost in the next moment after the sound of the whistling sound, a small black hole in the tens of billions of miles ahead, suddenly there was a shocking explosion...

This is a small black hole entrance that has been completely chaotic under the special electronic wave frequency of the two giant beasts of the mechanical family.

With a large number of void cracks, centering on the entrance of the black hole, like a dense cobweb, it spreads rapidly toward the surrounding voids. A huge figure is also rushed out of the black hole...

However, Ye Xuan is familiar with the incomparable heavenly beast!

This mechanical behemoth is the result of the integration of more than eight million people left by the Emperor and the entire Tianji family. when

At that time, the first Ye Xuan attacked the Tianji Star Field. This mechanical behemoth was completely integrated, which led to the thunder of heaven and the baptism of the blue thunder sea. From then on, it officially entered the heaven and earth, in this emptiness sky, Absolutely already a strong presence.

Just because of its size, it has been a giant of 400 million miles. The person is standing, three feet and six arms. The skull is in the form of a honeycomb with multiple facets.

These facets are obviously muzzle, and they can blast the energy light column of the guns in 360 degrees. Even if it was the previous battle with it, in the short and hurried hand, Ye Xuan never saw the heavenly beast like a hive. The huge head launches an energy attack.

In fact, a huge mechanical behemoth is only 400 million in size, and there is no need to use the gunfire energy attack. Even if it is just a simple punch, it can make the wind change... ..

At this moment, as his body shape rushed out, the void gathered, the twenty-two figures that had already been ready to go, and it was easy to rush in the first time.

Twenty-two figures, all of them are ancient and supreme. Among them, there are even ten half-steps of the nine-step grandeur, but even so, all the people join hands to fight the heavenly beast, but they still do not dare to have a half-point reservation. . From

The celestial body of the celestial body appeared, and everyone in the middle of the icy flash of a flash of speed swept out of the moment, all the people, have already pushed the power of the body to the extreme...

Chapter 4957: Abandoned ants

"Roar!"

"Twenty-two ancient Supreme? What about it? In the face of the real heaven, the so-called absurdity, but the ant..."

At that time, as the body shape exploded from the bombardment, the small black hole that collapsed completely, the three-headed and six-armed people stood up, and the giant beast of the body of Panda, which was 400 million miles away, gave a terrifying roar to the head.

The sound of the gods is heard from the inside of the body, revealing a world of arrogance, and the arrogance of the world: "Even if there are ten absurd ninth-order great consummations, what is the existence of the half-step heavenly state?"

"Under the real heaven, it is a half-step, and you can never regret the deity..."

"Today, all the existences here, without exception, all fall to this... oh!"

Boom..."Most

After the madness, the giant beast of the body of Panda, 400 million miles, rushed straight toward the two mechanical behemoths in front of him.

There is no fancy action, just a six-metal arm like a giant pillar, lifting the front two, together with the two mechanical behemoths, when the chest slams..."

boom! "

"Hey!" two

The fists blasted, even if there were two billion miles away, and there was a shocking explosion in the void. Two black holes with a diameter of about 100 million miles appeared directly on the two mechanical giants. The universe of the first few billions of miles away.

This clearly means that the power is too violent, and a punch bursts out, directly exploding the rhythm of the black hole in the void.

Moreover, these two hollow black holes with a diameter of only about 100 million miles are not still in the void, and they are moving, and the speed is very fast.

At first glance, it feels like the rear of these two small black holes, and there are two majestic endless terrorist forces, which are being used as a glove.

Two black holes, one left and one right, separated by a virtual space of about five or six billion miles, are the two mechanical behemoths of the mechanical family. Look

If the horror and the unmatched power, if they are close to each other and fully blasted on the chest, the emperor will smash the two mechanical monsters of the nine-step ruling, even if they will not fall, I am afraid that they will be seriously injured on the spot.

If it is just a face-to-face, simply two punches in the air, the two half-steps will be smashed into serious injuries. Other existences that are being hit around the void, I am afraid that the first time will be scared to death. Take the risk, no longer have no heart to fight, and then choose to turn around and escape. to

Less, in Ye Xuan's view, among the five old guys from the Star Alliance, except for the blood-sucking lion, it is a bit harder, or a little bit of a tiger, not afraid of death. its

Its four old guys, namely the Scarlet Kirin, the Nine Ghosts, the Nine Heads of Blood, and the Qingtian Dapeng, will definitely be the first to turn around and escape. This

A little Ye Xuan is quite indefinite, because a similar scene has happened too many times.

Previously, these four old guys were only only abused by Ye Xuan, and even there was basically no danger to their lives. Even the most serious result was only a serious injury.

But even so, they have escaped more than once. Such as

Today, encountering the heavenly beasts that can kill them, the true existence of the heavenly environment, with their shameful foresight, and the escape of the soles of the feet, is absolutely unexpected.

If this is the case, today's war will have no chance to hit the Tianji beast. One

Once this ending is over, it will end in the past, whether it is the three major coalition forces that make up the Heavenly Alliance, or the magic hall in the Xusheng forbidden land, waiting for them, it will be like the last day of the crazy revenge...

As a result, Ye Xuan could not afford it. and

Nowadays, in the face of the imposing celestial beast, although he still can't ensure that he can be seriously injured, but just to the two small black holes of the two mechanical giant beasts of Emperor Erzhaoh, Ye Xuan still has the ability to resolve...

At least, you can help these two mechanical beasts, try to get some time to escape! "

call out! "

As the mind flies, the sharp and unspeakable sound of the air is broken, and the black fog that was still outside the tens of billions of miles is directly transposed under the flash of the shackles. In it, Kankan stopped in front of two mechanical behemoths in front of a billion people...

At this time, the distance between the two small star caves that are coming from the opposite side and the body of the black mist is only two billion. Take

The speed of the small black holes is so fast that they will hit the chest of the mechanical behemoth within the fastest two-degree, and according to Ye Xuan's deduction, the two mechanical behemoths are huge and close to the huge horror of 300 million miles. Body shape, in order to completely avoid the small black hole on the face, at least three interest...

That is to say, if there is no black fog to shoot, to get a little fleeting time for them, just these two mechanical behemoths themselves, absolutely can not easily avoid the two small black holes hit the chest.

Once they are blown up on their chests, the consequences are almost the same, even if they are not serious injuries..."

Oh la la..."

It was also at this moment that with the telescopic movement of the black fog, the nine-colored ribbon that had been wrapped around the body for several times was completely collapsed at this moment, but it was only a little bit less, and it was turned into one. The vast and innocent nine-color flame sea of the canopy is a billion-foot-long giant, and the two small black holes that are coming from the bombardment are on the other side of the nine-color flame sea..."

boom! ""

Rumble..."

The shocking explosion rang in the next moment...

In front of the line, the entire nine-color flame sea that enveloped the void of a billion miles, immediately provoked a wave of horror. that

Two small black holes rushing into the flames of the sea, although the energy is violent, but under the horror power of the nine-color flame sea, it is being swallowed and swallowed at a horrible speed. to

Immediately after the two small black holes, the electronic consciousness of Emperor Yi, which was pushed by the driving force, had to be stopped at the edge of the nine-color flame sea.

Whether it is the knowledge of flesh and blood, or the electronic consciousness of mechatronic life, once it touches the nine-color flame sea, it will be swallowed up. Such as

Today's Tianmu beast was originally wounded and not fully recovered. Even if it is a small amount of electronic consciousness, the Emperor is not willing to make unnecessary sacrifices.

Therefore, this shot can only come to an abrupt end. In an instant, the invisible consciousness behind the small black hole is like a tide, and it rushes into the two small black holes of the nine-color flame sea in a short breath. Within, it was swallowed up by the majority, and the flame wave that just started rising quickly subsided.

"Oh la la..."

"call out....."

At this moment, with the horrible sound of the waves, the endless glory, and the nine-color flame sea that completely engulfed the black hole energy, also condensed in an instant, turning into a narrow and narrow nine-color belt.

As a snake, once again wrapped around the huge body of the black fog...

Chapter 4958: One hit

"call out!""

call out! ""

Rumble..."

The sharp sound of the air broke out, and the nine-color flame sea that swallowed a small black hole instantly condensed and re-formed into a nine-color streamer, wrapped around the body of the black fog, and the integration of all the tribes of the mechanical family. The two mechanical behemoths also came out, and they split the ball from the left and right to the heavenly beast.

The two mechanical behemoths are all half-step heavenly scenes of the ridiculous nine-step grand perfection. At this moment, the anger is punched out, and the strength of the road can be imagined.

Although it was not like the previous hit of the celestial beast, a small black hole with a diameter of hundreds of miles was directly blasted in the void, and it was pushed forward by the punching force, but it also shattered the void, and the two invisible The hurricane suddenly appeared, swept away..."

Roar! "

"Hey!"

"You, don't keep your hands, do a full blow..."

"His state is not stable. As long as he suffers some injuries, it is very possible to fall into the sky."

"Fight!""

Oh..." and

At the same time, other people have also screamed and screamed in all directions, and went all the way to the siege of Tianji beast. it

The size of the body is too large, enough to have a huge population of 400 million miles, even if the twenty-two ridiculous old monsters are attacked from all sides, it is not crowded! blood

The color Kirin opened his mouth and spurted a **** black unicorn magic flame. The diameter was a million miles. At this moment, the volcano went away, and the void was melted and slammed into the foot of the heavenly beast. nine

The genie crocodile is full of claws, and the body shape is still separated by tens of billions of giants. In the void in front, the black crocodile claws of a million miles are displayed, and the shoulders of the celestial beast are smashed. ! bite

The **** lion dances **** and snarls, and at the same time, there is also a giant **** energy light rushing away in the mouth, exuding the violent violent temper, as if it will be blasted at any time. Come

Since the splendid temple of the splendid temple and the violent bears, the sacred bears have just cast a teleport directly to the top of the top of the celestial beast. The former Zhang will smear to the back of the celestial beast, and the latter will blast to the heavenly beast like a hive. Huge head...

It is the emperor's two and the four late veterans of the two camps. They also sacrificed their own warfare and war treasures. Attacks are poured out, and the different positions of the huge body of the beast are taken...

Even the old pig fine, after a long sigh of the head, instantly hit the right rib area of the celestial beast, the person stood up, a pair of black forefoot like a giant hammer, smashed down... ..to

In the four kings, they also rushed to different positions, and each of them slammed their fists. At the same time, the wings behind them were extremely vibrating. Just like the knives crossed, they still have not fallen on the body of the celestial beast. Teared a large piece of void, endless emptiness and turbulence like a hurricane!

The blood and flesh of Ye Xuan's three blood sea avatars is violent, and in the middle of the cold, there is a **** stick on his shoulder, and he slams into the chest of the heavenly beast..."

call out....."

On the side of the black mist, just returned, the nine colorful ribbons that wrap around the circle are also spurred away, like a starry sky, entangled with the six giant arms of the heavenly beast...

There are nine **** and blue sky Dapeng most slippery.

Perhaps because of the weakest strength of their own cultivation, these two old guys obviously have nothing to do with the closeness of the Tianji beast. Most of them have already done their best in the heart, ready to smear at the foot and turn around to escape. this

Although the figure of the two men rushed out with everyone, but it was not too close to the huge horrible body of the celestial beast, and it has stopped abruptly after 10 billion miles.

Nine heads of **** sputum just squirted a blood arrow in the mouth, instantly across the billions of emptiness, and shot at the back vest of the celestial beast...

And Qingtian Dapeng is frantically slamming Peng's wings. In an instant, it is easy to spurt a sea of blue-like sable-winged rain, and wrap it around the skull of the celestial beast...

However, in addition to these two old guys, Ye Xuan's three **** scorpions are separated from each other. At this time, they stay in the void in the tens of billions of miles. The right fist swings, an invisible violent energy, instantly blasts... ...

The reason why the sacral corpus is not close is the result of Ye Xuan's deliberate intention. Such as

Today, although the Tianji beast is facing the joint bombardment of twenty-two vultures, it has already entered the real heaven, even if the injury is not recovered now, and after the passage of the Tiandao thunder, not long ago The realm of breaking through has not been stabilized. but

Ye Xuan once personally experienced the terrible power of the real heaven and earth in Hong Kong and the void, so even if he is, he does not have much hope for the joint efforts of the twenty-two ridiculous old monsters. skeleton

The reason why the bones are left in the distance beyond tens of billions of miles is to prevent accidental accidents. At this time, the sacral avatar seems to be relaxed. It seems that it is as good as the nine **** and blue sky Dapeng. I am too ready to take a long-term preparation. but

In fact, all the forces in his body have already been pushed to the extreme. Once this accident has occurred in any joint venture, the cheekbones will immediately launch a lore, in the first time... fully remedy!

This so-called lore hit, refers to the bow of the sky!

In the battle of the ancient world that collapsed the whole world of the wilderness, this supernatural power was displayed in the hands of the wilderness of the night, and almost all the green eyes of the wilderness were shot into the void, and eventually it was seriously injured. Such as

Today's sacral avatar is also a half-step heavenly scene of the ridiculous ninth-order grand perfection. It is the same as the ruined ancient night-time repair of that year's war. Even if there is a gap, there is absolutely not much. If

It is the use of the sacred bow of this sacred power, full of force, not to mention the serious injury of the beast, even if it is shot by an arrow, it is very likely to fall. only

Yes, if it is not forced, Ye Xuan is not willing to expose this supernatural power now, so he will choose to use it as the last remedy!

"boom!"

"Booming..."

Oh..." This

Everything is long-lasting, but in fact, the 22-year-old absurd grotesque siege of the celestial beasts, although the situation is different, but the speed is all swift and incomparable, fearing that the electric light stone is not enough to describe.

In the blink of an eye, the earth-shattering roaring rumors came, and the attacks of the twenty-five ridiculous blame all smashed into the horrible body of the heavenly beast, Panda, 400 million miles away.

However, what makes everyone stunned is that as the loud roars sound, there are still a series of low-pitched humming sounds, and the positions of the celestial body being attacked are suddenly violent. Light, a golden light curtain of varying sizes.

This is obviously the defensive light shield of the Heavenly Beast, which can appear anywhere in the huge body anytime and anywhere. and

At this moment, with the condensation of these small light shields, all the attacks that hit the body, the power is instantly weakened...

Chapter 4959: Unmatchable

"boom!"

"Booming..."

"Hey..."

In the blink of an eye, the earth-shattering roaring rumors came, and the attacks of the twenty-five ridiculous blame all smashed into the horrible body of the heavenly beast, Panda, 400 million miles away. but

At the same time, the location of the attack on the body of the celestial body was suddenly violently radiated, and a golden light curtain of varying sizes was revealed.

This is the defensive light shield of the celestial beast. With the condensing of the light shield, all the attacks that hit the body of the celestial body, the power is instantly weakened by several... This

At the moment, all the people were stunned and their faces were stagnant, and the whole heart sank to the valley!

Although there are many desolation and grotesque beasts of the heavenly beasts, there are twenty-two sacred monsters, but after all, the celestial beasts have entered the real heaven and earth, and everyone has joined hands to bombard them. Even if they do their best, they have not had much confidence in them. It has been hit hard.

Nowadays, the attacks that have fallen into their huge bodies have been intercepted by the defensive light shields that suddenly appeared in the blink of an eye.

How to play? people

When a family hits a fist and no one has received it, they can only withdraw and avoid it. Otherwise, if they are passed by, they may be injured. and

The attack that all of them have slammed all of them, and they all fell on the other's body. The power was weakened by the defensive light shield. It didn't dare to say that it was not painful, but it was far from reaching the level of injury. ...This

Distinct is an unmatched rhythm! brain

At least half of the twenty-two ridiculous old monsters who flashed these thoughts in the sea and joined hands with all their efforts, felt a sense of despair, and the whole heart was instantly cool. "

Roar! "

"Hey..." early

I was ready to take the time to escape and prepare for the nine-headed **** and the blue sky Dapeng reacted the fastest, almost at the same time as the defensive light shield appeared everywhere in the celestial body, the two old guys jumped their eyes and leaned back. There was a terrifying arrogance and screaming in the hair. tight

Then, without hesitation, you turn around at the same time... This is clearly the rhythm to be taken away immediately!

"Hey..."

Is this your joint strike? The ants are the ants, standing here to make you hard, and you can't move the lord..."

Almost at the same moment that the two old guys, the nine-headed **** and the Qingtian Dapeng turned around, the huge body blew out a heavenly beast with a strong energy light group, and also raised a terrifying scream. emperor

The sound of the gods that reveals the meaning of the inexhaustible tyrants is also instantaneous and endless. Within a hundred billion miles, the universe's void is trembled, as if the power of heaven is manifested..."

Oh..."

Then, a low-pitched humming sound rang...

The animal body is huge, with a population of 400 million miles. The person is standing, three legs and six arms. The head is in the form of a honeycomb, with multiple facets. These facets are obviously muzzle, and most of them can be three hundred and sixty degrees. All aspects of the bombardment energy beam...

However, even if it was the previous battle with it, in the short-lived rush, Ye Xuan never saw the giant beast-like giant head launching an energy attack.

But nowadays, this is like a hive's head with a large number of facets, but suddenly with the sudden low humming sounds, the sharp golden awns are violently glaring, which makes it impossible to look at it.

Such an accident is beyond everyone's expectations. a few

Just in the moment when Lie Jinmeng lit up, including Ye Xuan and the nine-headed **** and blue sky Dapeng who were about to turn around, 22 people participated in this ridiculous old monster, all in their hearts. The warning signs began to rise. One

The unprecedented sense of crisis in the stock has shrouded the entire body and mind...

"Roar!"

Hey! "

"Hey..."

"Damn!"

"Speed retreat..."

Almost subconsciously, with the horror of the horror and the whistling sound, all the people changed their face, and under the scream of excitement, just like the conditional reflection, the power in the body was pushed to the extreme. and

No longer continue to launch the second round of attacks, but... full speed back!

"When you are finished, you are the deity."

At the same moment, the sound of the gods of Emperor Yi's voices reveals the meaning of endless sorrow...

"boom!"

Oh..."

"Oh la la..."

When his words fell, the earth-shattering explosions came, and the heavenly beast was like a hive, which was covered with a large number of faceted heads, and suddenly a large number of beams of light were shot. Place

Some of the light beams are the same size, with a diameter of about ten thousand miles, a length of about four or five thousand miles, and the color is red gold. The number is so horrible. After being shot from the honeycomb facet, it will be scattered around and spread over the sky.Wei

The momentum is too amazing, the voids are directly torn, and the squeaky noises continue to endless. All the speeds of the red gold beams are so fast that they are spread out in the blink of an eye. "

call out....."

Without hesitation, with the warning of the heart suddenly, the body of the black mist instantly swayed, and the nine-color streamers, such as the starry sky, directly blasted, and the tenth of the space was not enough, and it was turned into a pound of flame. The sea is tens of billions of miles. This

The tens of billions of miles of the nine-color flame sea protects a corner of the void, blocking the large number of red gold energy light pillars spurred in this direction, and even cut off the possibility of the attack of the heavenly beast from here... where

I am afraid that it is a heavenly eye, and I dare not touch the Shennong nine-color flame easily. The Tianji beast has just entered the heavens and the territory. After crossing the Tiandao thunder, the realm has not yet stabilized, and naturally it is even more so.

There are nine colors of flames across the front, he is absolutely not afraid to risk.

In the near direction of the flame sea in this direction, in addition to the violent temperament of the flesh and blood of the three blood seas, the four kings and the old pigs are all visible. Now the nine-color flame sea is suddenly visible in the front, and it will be directly forward. They spurred a lot of red gold energy light columns to stop..."

boom! ""

Rumble..."

The beast is like a huge skull on the hive. Numerous facets are in the midst of a superb rotation, just a wave of attacks.

Even so, the radiant energy of the Red Gold energy ray from this direction is more than a million. Now, the anger of the glare is in the blink of an eye, all of which are shot into the endless nine-color flame sea. in. shock

The blast of the sky was overwhelming, and the nine-color flame sea that had just been condensed stunned the horrible waves of anger. It exploded in the upper air above the flames, and the void was broken in the inch, followed by the emptiness of this piece of land. Under the influence of the power of the law, the healing is quickly repaired, and the cycle begins again...

Twelve of the ridiculous old monsters who besieged the heavenly beasts, and opened the bones of the bones that remained outside the tens of billions of miles, and the nine **** and blue sky, the remaining nineteen, not just the black fog The body, the flesh and blood, and the old pig and the four kings and seven kings were guarded at the end of the nine-color flame sea.

Among the other 12 people, there are also five people who are located on the edge of the left and right sides of the flame sea. The reason why the black mist body is in the direction of the flame sea is to protect the strength of oneself as much as possible...

These five guys are the Scarlet Kirin, the Nine Secluded Crocodile, the Blood-Spreading Lion and the Emperor I, as well as the sorrows of the Glorious Temple...

Chapter 4960: Mechanical behemoth disintegration

Because of the protection of the nine-color flame sea, the **** unicorn, the nine sacred crocodile, the blood-sucking lion and the emperor, as well as the five people from the glorious temple, also escaped in this direction. .

At this moment, I heard the thunder of the thunder and the sound of the thunder, and the five people who turned and fled were subconsciously turning their heads, and the sights swept over the nine-color flame sea that caused the anger and the sky, suddenly disappeared. Suddenly he breathed a sigh of relief. tight

Then, the five people subconsciously looked at the past with flesh and blood, and all of them expressed the same gratitude...

If it is not a black mist, it will be sacrificed between the lights and fires, and it will lie in the far side of this direction, with the horror of the millions of red gold energy beams and the horrible speed. he

Once the five people were hit, even if they would not fall on the spot, but at least they would have to peel off the skin without dying, and the possibility of being seriously injured under the guard, at least 70%...

Five of them, the other seven guys are not so lucky.

At the moment when the Tianji beast launched a counterattack, the seven people turned and fled and rushed to different directions. They were not within the tens of billions of areas protected by the nine-color flame sea...

All are the ridiculous old monsters from the Terran Federation: four are the immortal dynasty and the ten heavenly palaces from the two camps of the Terran, all of them are strong people, one is the violent bear desolation from the glorious temple, and the last two are the emperor The two mechanical behemoths under the arm... this

The size of the two mechanical behemoths is too large, and the size of the heavenly beast is only about 400 million miles. The two mechanical behemoths are nearly 300 million in size.

Such a huge body shape, facing this kind of intensive energy light column attack, is the most disadvantaged. Therefore, the wave of counterattacks of the Tianji beast unfolds, and the two mechanical behemoths under Emperor II are the first to bear the brunt...

"call out!"

Oh..."

"Booming..."

The sharp and unpredictable sound of the air broke out, and a large number of red gold energy light columns came to the fore. Before the blink of an eye, it was already near.

Although the two mechanical behemoths have escaped billions of miles away, as the distance has been opened, the originally densely packed red gold energy light column has had a small gap between them. but

Such a gap has no meaning at all for the huge terrorist body of the two mechanical behemoths, Panda, which is nearly 300 million miles away. it

What we can do is just to avoid the relatively dense red gold energy light column, but at the same time, there are also a large number of sparsely distributed red gold beams, to cover the thunder, and to the hugeness of mechanical behemoths. Body... fried

The sound came immediately, and these red gold beams did not believe that the speed was so fast that their power was not comparable to that of a super gun.

After all, the heavenly beast is a true heavenly existence. These red golden pillars are from the hands of the heavenly beasts, and they are weak and have a limit.

The fireballs blasted in a short burst of time, and the two mechanical behemoths of the giant horror of the 300 million-mile horror body had a terrible explosion in more than one-third of the area...more

What is shocking is that as the explosion is soaring, the subsequent chain reaction also erupts instantaneously. Because of too many red gold energy beams, the two mechanical behemoths are nearly 300 million miles of horror. Actually only supported the end of the situation, it began a total collapse...it

Originally, they were made up of a large number of mechanical tribes in the form of mechanical beasts. They are now hit hard, surpassing certain limits, and disintegrating in an instant, which is what it should be.

"boom!"

Rumble..."

Moreover, even if it is a complete disintegration, the bombardment suffered by these two mechanical behemoths has not been completely resolved.

Two giant horror figures of Panda's 300 million miles are broken down into mechanical beasts of various sizes within a short period of time. In the blink of an eye, a large piece is spread in the void, with a total of tens of millions. !

Among them, at least one-third of them have already exploded, and they have turned into fireballs of different sizes, so they are suspended in the void of the universe, and there is no movement. very

Obviously, because the explosion is too intense, the mechanical tribes that have exploded in the third of this have been completely degraded, and the electronic consciousness has disappeared. It has dissipated and there is no possibility of salvation...

This scene is long-standing, but in fact, everything is only completed within ten minutes.

Less than ten interest, the two emperors of the emperor's two squats have reached the stage of the ruling and nine-order great perfection, that is, the mechanical behemoth of the half-step heavenly environment, which has been completely disintegrated under the overwhelming bombardment of the red gold energy light column. . If

Just the disintegration is the only thing. The key is that with the disintegration of these two mechanical behemoths, nearly tens of millions of mechanical beasts suddenly smashed in the void, and nearly one-third of them have exploded. A fireball, no more movement. blink

Between the eyes, more than 30% of the official tribes have been degraded. This kind of battle damage is even stunned by Ye Xuan, not to mention the patriarch of the mechanical family. "

Oh..."

The sound of the whistling sound of the road rang through the sky, revealing the endless sorrowful meaning. Within a hundred billion miles, even the void trembled slightly, accompanied by the whistling sound, and the low-pitched humming Voice...this

At this moment, the wave of red gold energy light emitted by the Heavenly Beast has basically disappeared. The whistling sound of the Emperor's second mouth has not yet fallen, and its body shape has suddenly come out and turned into a volley. The blink of an eye has reached the void area where the two mechanical behemoths collapsed.

"call out!""

Oh..." No

There was a half hesitation, and the Emperor II waved his hand in the first time. The invisible force of the squirting came out, shrouded all around the body, and all the mechanical beasts that were stranded in the void were all collected... ...

It's not just those mechanical beasts that are intact, even those that have already exploded, turned into a silent fireball in the void, and as the shape of his body quickly moves, it's all like it. The whales absorb water and spread over the emperor.

Tens of millions of mechanical beasts, short of ten interest, have been charged by him, until all this is done, the emperor II is slightly relieved, and his hair is unwilling to arrogant, angry and stunned...

At this point, the violent temper will take back the line of sight and turn to another direction. The face is in a stiff state, and the moment is flashing the color of regret.

In this direction, tens of billions of miles away from the void, the violent bears from the glorious temple, the entire body shape is covered by the overwhelming red gold energy beam. No

There was a shocking explosion, and there was no fire in the disintegration of the two mechanical behemoths. Just a moment, the huge body of the violent bears was shot into a huge meat sieve by a large number of red gold energy beams. to

Less than 30% of the flesh and blood are evaporated under the horrible high temperature of the Red Gold energy beam. Now he has fallen, and his body is useless to Ye Xuan, because the blood is not complete, even the desolation of a product. Blood essence can't be condensed...
