Chapter 496: Tianmai master

"Five?"

Ye Xuan's eyes glimpsed. At this time, the elders and disciples of the Shangqing Palace, who joined the battle, added at least 3,000 people. Only five of the 3,000 people would have a magical Dafa, which is not bad.

"Okay, then I am on!"

Ye Xuan's confidence has skyrocketed. After all, he is not the main force and the Shangqing Palace at this time. Moreover, there are a large number of bodies on the ground, and no one can collect them. He can go to the first place.

At the moment, he swooped down from the sky.

Many people have noticed him. Although he said that he has a magical atmosphere, the Lord is not very strong in the eyes of these masters.

These people noticed Ye Xuan, but also because they have not seen Ye Xuan, so it is estimated that a passer-by to practice magic power to help.

Soon, Ye Xuan plunged to the ground and began to collect the Qiankun Ring quickly.

"Good boy, even dare to rob the fire, go to hell!"

An elder of the Shangqing Palace swept past Ye Xuan.

The Shangqing Palace is also divided into inner and outer doors, even the elders. The elders who were sent to the sky before were the elders of the outer door, so at most they opened up 50 geographies. At this time, they stared at the elder of Ye Xuan, but it was as high as 63.

However, such a realm is not enough for Ye Xuan.

"Upper swordsmanship!"

Ye Xuan quickly swept behind him, directly hitting his head and taking off his ring.

This scene fell into the eyes of the minded.

"What, the swordsmanship, the kid will actually clear the sword!"

"Impossible, he has a magical spirit, how can he clear the sword?"

"It must have killed my disciple in the Qing Dynasty. I didn't expect it. This man of the magical door actually cultivated the sword of the Qing Dynasty in the Qing Dynasty to a 10% fire. This is a shame!"

Soon, many people noticed Ye Xuan, and then they fell to find the trouble of Ye Xuan.

However, no one can catch up with Ye Xuan's footsteps.

More and more bodies have fallen on the ring, and no one dares to take the same thing as Ye Xuan.

Therefore, these bodies are cheaper than Ye Xuan.

"Hey, the host has opened the 59th line!"

"Hey, the host has opened up the 60th!"

When Ye Xuan received hundreds of pieces of the Qiang Kun ring, it also opened up 60 ground veins. After all, it was only a long time, and it took only a few months before he ran a few months.

The Shangqing Palace and the Rakshamon Gate and the Green Ghost Alliance are killing at the top, but he is sitting under the profit of the fisherman. Although some flies are always bothering him, his strength at this time is not casual. Can stop it.

This feeling, don't mention how cool!

The battle has been going on for half a minute.

Even if the Shangqing Palace pressed more than 3,000 people on the number of people, the one side of the magic gate was an elite. After half a minute, there were only a thousand people left in the Shangqing Palace, but the people in the magic gate were only injured and injured. three hundred.

This is the gap!

Several elders in the Shangqing Palace saw that the situation was wrong, and they also looked at each other and then directly applied the martial arts that they did not want to use.

Taoist genius Dafa!

Suddenly, the four magical powers skyrocketed, and the four elders in the upper house were soaring.

One of them stopped the owner of the Green Ghost Alliance, and the other three directly fought bravely inside the enemy and began to kill.

At the same time, Li Zhenhui, the left guardian of the Rakshasa Gate, was also rescued by one person, began to heal and prepare to join the battle.

Although it is said that there are other forces joining the Shangqing Palace, it is difficult to resist the strong master of the door.

Soon, the people on the side of the Qing Palace would not have died a thousand.

At this time, Ye Xuan also opened up the 62nd.

Ye Xuan actually wants to participate in the war. It is too embarrassing to collect the fish below. However, when he is ready to rush, the magic master suddenly stopped him.

"Don't, I feel a strong breath, it should be the master of the Qing Dynasty!"

The Lord reminded me.

"Strong breath, how strong?" Ye Xuan brow wrinkled, he did not feel anything.

There are several masters of the peaks and peaks, the Lord did not say anything, and now he suddenly reminded that this is to explain that the person coming may be a master of the pulse.

"Tianmai, I am sure, at least two people!" The Lord answered.

"Two great talents?"

Ye Xuan a glimpse.

From the peak of the earth's veins to the Tianmai, there is also a qualitative leap. If these two great talents join, then the situation may indeed be reversed.

"It's too pitted. If you come out early, will you still die so many people?"

Ye Xuan asked in his heart.

However, if these two great players get out early, he can't be a fisherman, and he may be discovered.

"Retire!"

Ye Xuan decided to temporarily avoid the edge.

Not only that, but the group of masters in the sky is also the same, they start to gather, they all feel that there is a master close.

Sure enough, after Ye Xuan retreats, there are two figures that have swept away from a distance.

The masters of the two Qing dynasty plucked into the sky, and they did not talk nonsense, and began to join the battle directly.

"Haha, not as I expected, it really is your old guy, master, you are coming out!"

The door of the Rakshamen Gate laughed.

When his voice fell, three figures fell in the sky, and it was the master of the Rakshamon and the Green Ghost League.

Sure enough, the Magic Gate also has a backhand.

The reason why these three masters do not appear directly is because they suspect that there is also a master of the Qing Dynasty. If they come out, the masters of the Qing Dynasty will also appear.

In this case, they are better to hide first. After all, the magic gates are all elites. Before the Qing Dynasty masters did not appear, they all had an advantage. It is a bit more to kill.

With the emergence of these five great talents, the battle has directly entered the heat.

"Well? Is he?"

The Lord of the Lord suddenly said.

"Who?"

Asked Ye Xuan frowning behind the Magic Gate camp.

"One of these two people is a disciple of my enemies. I didn't think he was still dead!" The Lord recognized one of them.

"In this case, then your enemies may still be alive."

"It is possible that if there is no major injury to a fine warrior, it is not a problem to live a hundred and fifty years old..."

Ye Xuan stood in the back and talked to the demon Lord. At this time, he looked at the five masters who were fighting, and couldn't help but \*\*\*\* a cold air.

The peaks of the Earth's veins and the Tianmai really have a qualitative leap. The heavens and the earth that can be called are much more than the local veins. I am afraid that any one of the best players in the world can single out all the local martial artists in the other camp.

Although the Shangqing Palace came out with two great talents, there are also three Tianmais on the side of the magic gate, so in general, it is still the advantage of the magic gate.

But don't forget, there is a peerless martial art in the Shangqing Palace. Moreover, the two great masters of the Shangqing Palace will all be.
