Chapter 4961: Amazement after giving up

In the Tianji beast suddenly launched a counterattack, rushed to other directions, did not get a total of seven people in the nine-color flame sea.

Four immortal dynasties from the two camps of the Terran and the ten strong people of the Tiangong Palace, one from the glory of the glorious temple, the last two, the two mechanical behemoths under the Emperor II...

The size of the two mechanical behemoths is too large, nearly 300 million miles, in the face of this intensive energy beam attack, the most disadvantaged. Place

Therefore, the wave of counterattacks of the Tianji beast has just begun, and the two mechanical behemoths under Emperor II have been the first to bear the brunt, quickly disintegrating in the blast of the sky, disintegrating into tens of millions of mechanical beasts of varying sizes, and For a time, no matter how dead or alive, all were waved by the emperor...

In addition, the other five guys from the glorious temple of the violent bear desert, the entire body of the body was also shot into a huge meat sieve by the massive red gold energy column.

Even if the fate is not said, more than 30% of the flesh and blood are evaporated by the horrible high temperature of the Red Gold energy beam. Because it is too damaged, its remnants can not be condensed even with a degraded blood.

This scene, even Ye Xuan looked quite painful. One

This is a waste of blood, and this celestial beast is really a horrible shameless family...

However, the ten ethnic minorities from the two camps of the Terran and the Ten Heavenly Palaces, although they also rushed to other directions, did not get the nine-color flame under the attack of the Tianji beast. The protection of the sea.

However, because the four of them are too small and the response is timely enough, they have teleported to billions of miles in the first time. At that distance, the originally overshadowed red gold energy light column has been sparsely distributed in the void. It is. Place

In the end, when the police are stunned and swayed, when the end of this wave of red gold energy attacks, these four people are in the late seventh stage of the human race, no exception, all without loss. can

It's safe and dangerous to survive this robbery! but

Even so, the loss of Tiandaomeng and the magical hall is equally disastrous. two

Twelve ridiculous old monsters, three people have fallen in the blink of an eye, and it is still a late stage of the seven-order world, two ninth-order grand perfection, that is, half-step heaven...

You know, this is just a wave of energy attacks that the celestial beast is free to unfold. even

This kind of power-spreading energy attack, everyone can't keep up, just hit it, and they have paid such a heavy price. How can the next big battle continue?

At this moment, at least half of the nine ridiculous eccentrics that survived this wave of energy attacks sank into the valley and fell into complete absoluteness. Hope! most

For the direct is also the nine **** and Qingtian Dapeng goods, since the number of interest before the celestial beast suddenly launched this wave of energy attacks began, these two old guys have turned around. all

Under the spur of force, in a short period of time, now it has reached nearly 100 billion miles away. Looking at this posture, it is clear that it is intended to go back and escape. thing

In fact, in addition to the nine **** and blue sky Dapeng, other ridiculous old monsters, at this moment have also begun to withdraw. "

Oh..."

The most devastating Emperor II under this wave of attacks, once again raised a terrifying scream, revealing endless resentment and anger, but it was not impulsive.

Instead, he chose to be forbearing, and turned to the direction of the nine **** and the blue sky Dapeng, and went quickly.

The same four old human races from the two camps of the Terran are also the same. A person's face is darker than the bottom of the pot, revealing a suffocating and desperate scent...

Including the blood-stained war lion, the nine-spotted crocodile, the **** unicorn and the other old geeks from the glorious temple, all of them are all the same, shaking their heads and sighing, turning around in all directions, quickly overlooking. This

It is clearly the rhythm of the tree, and the twenty-two powerful and ridiculous old monsters have joined together and they have failed. They have lost three of them, only 19 are left, they are unwilling to fight again. What is the meaning?

At this moment, all the people were far away and gave up and struggled again. This time the attack was defeated and completely failed.

After all, the heavens and the earth are heavenly. If you don't take that step, you can't understand the power and horror of the heavens. The true heaven and earth, even if there are more desolation, I'm afraid I can't pile up and crush it...

For this, Ye Xuan is actually clearer than all other ridiculous monsters present.

Because not long ago, he was still in the hollow of the sky, with the blood of the konjac, and forcibly entered the real heaven!

The reason why he chose to unite all the sorrows of the Tiandao League together, forced into the sky, and shot the celestial beast that had already entered the real heaven, just because the other party's

injury was not recovered, even after crossing the Tiandao thunder. The realm has not yet been stabilized. no

Then, with Ye Xuan's understanding of the power of heaven and earth, if the heavenly beast is in a state of prosperity and has stabilized the realm of breakthrough, he will not make such a decision anyway...

It can be said that he is just betting!

The gambling beast is not hurt, and the gambling that it has just passed through the land of thunder and robbery has not yet been stabilized. Therefore, it is impossible to resist the 22-year-old blame.

Unfortunately, although he gambled on the first half, he was mistaken for the final half of the final. where

I am afraid that the beast of the heavenly animal is not recovering. Even if it has just passed the realm of the thunder and robbery of the heavens, it has not been completely stabilized, but it still easily defeated the joint efforts of the 22 veteran blame.

Even under a random wave of counterattacks, three people were killed on the spot... Among them, there are two half-step heavens that are absolutely perfect! The

ended! One

In the wake of the failure, in the wave of counterattacks of the celestial beast, three old ridiculous monsters were degraded, and other existences were chosen to give up, and they turned and fled. most

Shameless, the farthest nine-headed **** and blue sky Dapeng have even reached nearly 100 billion miles...

In this way, the three big **** seas, the four kings and the old pigs are always staying, what is the significance? two

Twelve of the ridiculous geeks have combined to make a single blow, but they are still fruitless. They are just eight of them, and can they toss out what waves?

Even if you want to use the 陨天弓, you don't have to start here. Finish

You can return to Xusheng forbidden first to brake statically! Such as

If the beast of the heavenly animal is really not ruthless, chasing it and killing it, then it will be a good time to sacrifice the scorpion bow. It's not too late...

These thoughts flashed through my mind, and Ye Xuan immediately followed the intention of retreating. The violent smashing flashed a touch of unbearable annoyance, sighing and sighing! just

At this time, just as he wants to evacuate the old pig, and wave his hands to take the four kings and the skeleton and the blood and blood into the body, with a shocking roar, the shocking change, there is no Signs... suddenly came!

Chapter 4962: Don't want to go one

"Roar!"

"You just want to go, are you too ridiculous?"

For a moment, the celestial beast screamed and screamed, and the voice of the gods came out. When it was half, the voice suddenly turned sharply: "The deity has just said that today, everyone here... don't want to leave!"

"Roar!"

"嗡..."

The two screams just fell, and the huge horror figure of Panda's 400 million miles suddenly revealed a low-pitched humming sound...

As the humming sound rang, the center of the celestial body of the celestial body was the center, and within a radius of 100 billion nautical miles, the entire vast expanse of the void was slightly trembled.

An invisible force enveloped this vast and endless void. This is the power of some kind of heavenly law. Because of the activation of some secret method of the heavenly beast, it is touched and resonates...

"boom!"

boom! "far

At the end of the line of sight, two earth-shattering bangs came, and the nine-headed **** and Qingtian Dapeng, who had escaped more than 90 billion miles, came to an abrupt end, and it seemed to be a collision. An unstoppable peak of the giant peak, directly returned to the earthquake, and also dropped a bag... heart

Under the horror of the head, the nine **** and Qingtian Dapeng screamed and snarled in an instant.

"Hey..."

Damn, what happened? Was the void banned? How can there be an invisible barrier suddenly in front? "

"Hey..."

Just a little bit, it's a little bit worse. The distance of billions of miles has almost rushed out, but now it's trapped and sealed. It's just eight years of blood..."

It is no wonder that they are so sorrowful, this invisible barrier that suddenly appears in the void without warning, is not far from them, only a few billion miles away.

With the speed of nine heads of blood and Qingtian Dapeng, such a distance, at most, two or three breaths, can be behind. but

Nowadays, everything is late, and the void is imprisoned. Even if it is only a few billion miles away, for them now, it is no different from the sky and the sky.

Not only here, but also in several other directions. Come

Although the four nobles of the immortal dynasty and the Ten Heavenly Palace have not yet escaped to a distance of 100 billion miles, at the moment they saw nine **** and blue sky Dapeng hitting the invisible barrier in front, not only the head. There was a shocking big blood bag on the top, and even the figure was bounced back. he

Under the spur of their hearts, they are almost conditional reflexes. They waved their hands at the first time. The four different colors of the awnings were rushed away, and between the half interest, they reached the area of about 100 billion miles ahead...

"boom!"

"Booming..."

The blast of the road came and it was earth-shattering. The void outside the 100-million-mile swelled like a fish-like wave, but it quickly returned to stability.

The invisible barriers shrouded in the hundreds of billions of miles are obviously stable. The four people's ridiculous all-out strikes, even a tiny gap has not been broken, only a layer of microscale has emerged, and it has returned to its original state.

Seeing this scene, the four people who took the shots showed a desperate color, and the body shape that was rushing forward was also stopped in the void.

In other directions, the **** unicorns, the nine sacred crocodile and other people who were originally trying to test, the body shape also stopped abruptly, and the anger of the scorpion was revealed in the

scorpion, and there was a desperate rush to quickly render, and they turned to the heavenly beast. Glare and glaring away..."

The deity said that none of you can't escape. This is the rule of the law formed by the force of the law of the void. If you don't have a heavenly situation, you will be blew in the vicinity, and you can't forcibly break open..."

At this moment, the voice of the **** of the heavenly beast sounded again, revealing the meaning of endless sorrow, and more ridiculous, as if the old cat squirrel: "Run! Why don't you run?"

"Hey..."

Let's stay all the time, the deity is not in a hurry, pick it up, and finally... you all have to die! "

"Hey..." said

In the end, another roar rang, and the head of the heavenly beast was like a hive. The heads of the two sides were like two glimmers, like a gaze, locked in the other direction. "

Everything, start with you, Emperor II..."

call out! "

"Booming..."

The voice has not yet fallen, and the huge body shape of the celestial beast has already rushed out of the sky. Just like a giant star crossed the void, the blink of an eye has reached the void of the emperor's two billions. its

Among the six arms of different shapes on the body, one more suddenly lifted up at this moment, separated by the distance of the virtual space of billions of miles, and without a word, a fist hit the emperor two...

"Damn!"

It's happening too quickly, and the Emperor II, who had already escaped to nearly 50 billion miles, did not expect that the situation would suddenly change so dramatically. Wait

By the time he came back to God, everything was too late, and tens of billions of miles. For the cultivation of strength to reach a real heaven and earth, and the body of its own body, there are enough 400 million miles of heavenly beasts. It is nothing at all.

In a dazzling time, the celestial beast has approached, and the horrific power of a fist has caused the electronic consciousness of Emperor II to be slightly confusing..."

Oh..."

call out!"

Under the fear of the heart, the Emperor II screamed and screamed, and at the same time, there was a sharp and unstoppable sound. With

He suddenly waved his hand, and a green spurt spurt out. The blink of an eye has stopped abruptly in front of him, and it is the cyan jade ruler that he had previously hung on his head...

At the moment, although the jade ruled abruptly, but there was no storm in the void, there were tens of millions of miles in the blink of an eye, just like a star, at the same time, within the huge jade ruler, there is a more The glare of the glare of the green awning blooms, between the electro-optic stone fire, turned into a blue light curtain with a diameter of nearly 100 million miles...

"boom!"

Oh..."

Card 嚟嚟..."

At the same moment, the giant boxing of the celestial beast has already slammed into it. At the moment of the first touch, the cyan light curtain has been like a thin, thin ice, and the inch is broken.

At the same time, the fragmentation also includes the body of the blue jade ruler that has skyrocketed to the stars.

This is the true strength of the real heavenly powerhouse. Although the blue jade ruler is a waste of ancient treasures, it still can't resist. After the overall cracking, it will instantly turn into a blue light rain, which is quiet in the air. dissipate. Of course

However, even if the jade ruler collapsed, it still could not completely stop the terrorist power of this boxing. The giant boxing of the heavenly beast stopped in front of the broken cyan jade ruler, but the invisible shock wave However, in an instant, it crossed the imaginary distance of hundreds of millions of miles, and before the emperor's body, it was too late to prevent it.

Boom..."

The scream of the sky came, and the body shape of the emperor II was like a leafy boat in the sea of anger, and he immediately flew out on the volley. versus

At the same time, the voice of the gods of Emperor Yi also sounded again: "Reassured, this blow only makes you seriously injured, the deity will not kill you, it is too wasteful, maybe you still don't know, actually you The only meaning of birth is just that after the endless years, it is swallowed up by the deity..."

Chapter 4963: I do not believe

"Reassure, this blow only makes you seriously injured, the deity will not kill you, it is too wasteful..."

Perhaps you still don't know, in fact, the only meaning of your birth, just after the endless years, was swallowed up by the deity... ”

As the figure quickly approached, a punch would fly away from the Emperor's second bombing. The voice of the gods of the Emperor Yi also sounded again, and the whole vast expanse of the void could be heard, clear and incomparable...

At the moment, including Ye Xuan, everyone's sights were subconsciously looked at the Emperor II. The look on the faces of the people was very complicated, and the meaning in the dawn was even more difficult to describe. Want

I know that today's Emperor Yi has already entered the real heaven and earth after the integration of the entire Tianzu people into the heavenly beast.

Although his previous injuries in the catastrophe of crossing the Tiandao Road have not fully recovered, even the realm has not been completely stabilized, but the heavenly state is the heavenly state. From a certain perspective, today he is opposite to the emperor. It is a more transcendental existence than everyone present. This

The existence of various levels can incite the power of heaven in one side of the world. It is originally very proud. In their eyes, everything else is just an ant. day

At the level of the Tao, how can you lie to an ant?

It can be said that although his words at the moment are extremely embarrassing, and even can be said to be cruel, but including Ye Xuan, almost no one doubts its authenticity.

In fact, Emperor Yi's actions have indeed verified this. With his current cultivation as a strength, this close-range punch is on the body of Emperor II. The latter has almost no chance of survival. The only result is Fall on the spot. but

At this moment, although the Emperor II was seriously injured, even the consciousness was somewhat blurred. The figure was like a kite that had broken the line and generally flew away. The blink of an eye was billions of miles away. its

In the body, there are even more deep bombings and explosions. It is obvious that some complicated components inside the body have been plunged into disorder, placed on flesh and blood, which is clearly the rhythm of guilty serious injuries, extremely serious.....

But no matter what, Emperor II did survive, he did not fall on the spot, and from the current situation, it seems that there is no possibility of serious injury to dying.

This is clearly that the Emperor deliberately keeps his hands and does not want to take the rhythm of his life! and

The only possibility for Emperor I to do this is, as he said, leaving the emperor not to kill, to devour after the war..."

Oh..."

This point, not only Ye Xuan and others have their minds, even the Emperor II himself is aware of this. this

Inscribed, his consciousness is somewhat confusing because of the disorder of important parts in the body. His body shape is more and faster, and he flies away from the distant sky. but

In the mouth, there was a fierce scream of sorrow, and the listener was shocked: "No! The old man does not believe..."

It is not a human race, but the same as the patriarch of the Tianji nationality. It is a mechanical life created by the pioneer of the Terran Science and Technology. For Xingbo, Emperor II has always had complex and special emotions.

I dare not say that I am a father, but at least it is not weaker than the respect of the teachers.

Previously, I learned from Ye Xuankou that Xingbo was not dead. His identity is so mysterious and strange. Even the Emperor is likely to have not betrayed him, but he always knows the secret of Xingbo's undead. I have already experienced a painful struggle in my heart...

All along, in his mind, Emperor Yi is a traitor and culprit in the murder of Xingbo, and himself, is the successor of Xingbo, and instead of Starbucks guarding the Terran technology camp, he will never give up.

All that was previously known has already caused him to be hit hard. Emperor II can be said to have survived.

Now, Emperor Yi actually said that his birth was only created by Xingbo, and was left to the emperor to devour after a day... This fact is too cruel for Emperor II, and it is tantamount to destroying the spirit. positive

Because of this, he will be so unwilling at this moment, saying that it is too much to be crazy, the attack is too heavy, unacceptable, even if the heart vaguely guessed that this is the truth, but would rather deceive yourself, not willing The point of recognition..."

Not willing to accept? It's really sad, but the deity can understand, after all, it's too cruel..."

The whistling sound of Emperor II has not yet fallen, and the voice of the gods of Emperor Yi has already sounded again, revealing the meaning of playfulness: "Unfortunately, the facts are facts, and there is no doubt..."

Should you focus on heavy seals in your body? As you cultivate your strength, the seal is also solved layer by layer..."

By now, there are only two or three left in the rest..."

"Hey, don't worry, this last two or three seals, the deity will help you to solve it. At that time, you will mature, and the time to swallow it..."

"Hey..."

When the words of the Fans fell, the Emperor II once again looked up and shouted, and it was more fierce than before!

Emperor Yi said that he did have a heavy emphasis on the seal, but because Emperor II had less time with Xingbo, he did not know what effect these seals had. very

As for even if there is such a heavy seal in the body of Emperor Yi, he does not know. After all, he was created by Xingbo first, and it is behind the emperor...

At the beginning of his creation, Bo has left a layer of field in his body. These fields are both potential and seals. Over the years, Emperor II has opened up and the strength has also improved.

Not long ago, the remaining domain field seals in his body had only three layers left, and his cultivation at that time had reached the late stage of the ancient power. press

According to the derivation of Emperor II, if it is to open a layer of domain seals, his cultivation will certainly be soaring, and it will not be a problem if it breaks into the early stage of the ancients in a short time...

The fact is also true. As he later opened the outermost layer of the three-layer field, the Emperor II had a second-order ruin, and it became the early stage of the desert! press

According to the magnitude of this climb, he even had a push. If the remaining two seals are all opened, his cultivation is strong, and it is very likely that he will rise to the late stage of the late stage, even in this nine-order grand perfection. ...that is, half a step!

After repairing it, he had thought about launching the seal again, but later he was aware of the hidden secrets of Xingbo. The Emperor's heart was suspicious of the last two seals, so he hesitated several times. But it has not been launched. Such as

Today, I am not afraid to hear such words from the mouth of Emperor Yi. The shock and grief of the emperor's heart can be imagined..."

Hey! ”

"Hey..."

I do not believe! ”

"I don't believe it! The old man doesn't believe..."

The whole body flashed through all this, coupled with the confusion caused by the disorder of important parts in the body. The emperor of this moment was almost crazy, and after a few screams, the steepness stopped and the figure was also The void in the sky is quiet, and it looks like a stunned flesh and blood...

Chapter 4964: Is it a crash?

"I do not believe!"

"I don't believe it! The old man doesn't believe..."

Perhaps because the attack is too heavy, there may be some confusion caused by the disorder of important parts in the body. The emperor of this moment is almost crazy...

Looking up and screaming, after making a few shocking screams, he suddenly stopped abruptly, and even his figure was quietly moving in the void. Look

It's like a flesh and blood... coma! This

A scene shocked everyone, even Ye Xuan shook his head and sighed. Hall

The church was old and supreme, but it was so mad that it was directly conscious of coma. It can be seen how terrible the torture experienced by Emperor II at this moment is simply sighing...

"Hey..."

"Is this not going to work? Are you pretending to be dead, or is it... crashing?"

The Emperor II, who had already passed out to the gloom, glanced at the ridiculous sarcasm in the mouth of the celestial animal, and then he took back his sight and ignored it.

He is the existence of heaven and earth. Don't say that Emperor II is now fainting, even if it is in the peak state, if the air machine is locked by him, there is absolutely no way to escape. Wherever he goes, he can be caught up, come back... emperor

Second, he must be swallowed up, but this matter is not urgent, in addition to the emperor II, this piece of tens of billions of miles away in the vast void, there are 18 desolation. Such as

Now they are all trapped here, they can't escape at all. Even if they join hands, they are not the opponents of the heavenly beast. If he kills one by one, everyone can solve it in a short period of time.
Session

When you take the Emperor II calmly and leisurely, why not speed up? "

Roar! "

"The deity said before, today, you can't escape one..."

"The Terran Federation? Is it a cow? For so many years, I have been fighting the gods of the deity. Today, the deity will kill all the ridiculous monsters of your Terran Federation here..."

After retracting the line of sight, the celestial beast screamed and screamed, and then the air machine in the body dispersed, and in a moment, several ridiculous geeks from the Terran Federation were locked.

This time, among the 22 vulgar old monsters that joined forces with the heavenly beasts, the magic hall headed by Ye Xuan has a total of eight, that is, the three blood seas, the four kings and the old pigs, all of them are The ninth-order grand perfection is abundance. except

In addition, there are five Star Alliances, and the remaining nine are all from the Terran Federation. This

Among the nine ridiculous old monsters, the two mechanical beasts of Emperor II and his majesty accounted for three, and now these three ridiculous blame are all cold. its

Among the remaining six, the glory of the glory from the Temple of Glory has fallen. Such as

In the end, only the violent bears who are also from the Temple of Glory, and the four people from the Immortal Star and the Ten Heavenly Palaces are left behind, all of which are seven-order repairs. Rear

The old blame, in any ethnic group, is definitely the existence of the core ancestor, the status is high, it is utterly dazzling, can only look up.

But now, with the gods of the heavenly beasts locking their air, the five old geeks from the Federation of the Terran are shocked, and they change their faces instantly. They don't hesitate to turn around and flee in different directions.

Although this piece of void has now been banned by the celestial beast with the power of the law, but after all, the invisible wall-resisting diaphragm has a radius of 100 billion mile, at their speed, at full speed in this area, how much Can delay a little time...

"Roar!"

Among the five, the most violent bear of the violent bear screamed and screamed, and the first time it was reduced. The original body was full of huge tens of thousands of miles, just like a deflated ball, in the blink of an eye. It has been reduced to only about a few.

With the shrinking of his body shape, he is not only more flexible in movement, but also faster in speed. What is more important is that the strength of the body is also improved. This clearly gives up the counterattack and tries his best to defend himself. The rhythm of protection. thing

In fact, the first goal chosen by the Heavenly Beast is not him at all.

Although the violent bear is also from the glorious temple, and the splendid temple is the original federal headquarters of the Varo, but he is not a human race after all, the entire Vatican Federation is still dominated by the human race, so the emperor is interested in another four human races, Obviously surpassed him...

At this time, his giant horror figure of 400 million miles rushed straight to the right side, and this direction was fleeing. It was a late old monster from the immortal dynasty...

This late old geek has a brass bell hanging from the top, giving off a very quaint atmosphere. It also has a dark golden light curtain that holds its figure. he

The speed is also very fast, not a direct lasing away from the right side. After all, there is an invisible barrier in front, but in the void, as far as possible to avoid the heavenly beast. Air lock...

It is a pity that all this is obviously only futile. The late stage of the seventh-order world is indeed extremely powerful, but for the heavenly beast that has already entered the real heaven and earth, nothing is counted..."

call out....."

The sharp and unpredictable sound of the air, the size of the celestial beast is huge, it is 400 million miles, but his speed is too fast, and extremely flexible.

Accompanied by this empty sound, just a breath, the huge size of the beast, has approached the late absurd. No

There is a jug, and among the six different forms of arms, there is a bombing out of the moment...

"boom!"

Oh..." This

The scene seems to give a very weird feeling. The arm of the Heavenly Beast is too big, like a giant pillar, and the human race in front of it is ruined, but it is as small as a worm. Like.

In fact, including the comparison of the strength level, the same is true.

In the late stage of the seventh-order situation, in the face of the full strength of the real heavenly powers, there is no possibility of resisting.

The fist blasted, and the void exploded. It was not broken, but exploded.

Accompanied by the earth-shattering bang, the old genius of the Terran, who was escaping at full speed in front of him, blew up directly without any suspense, and turned into a **** fog, which was completely destroyed. and

All of this, for a huge body of incomparable Tianmu beast, but just like a trivial little thing. One

The fist exploded a late old monster. Even if he retracted his fist, the huge face of the hive was slightly rotated slightly. It seemed that two rays of light were transmitted out and swept toward the left rear.

"Next... is the second!"

At one moment, the voice of the gods of Emperor Yi's voice rang again and was introduced into the ear, so that everyone's body shape was uncontrollably stunned. One

The interest of the Terran Federation has fallen into the late stage of the seventh-order world. This kind of horrible power is simply horrifying.

The sharp sound of the air broke, and the heavenly beast turned its direction. The entire huge body shape instantly turned into a man, and spurred toward the left rear.

Chapter 4965: Want to pull the bow

"call out....."

Accompanied by a sharp and unpredictable sound of breaking through the air, just a punch and a late absurd celestial beast turned away in this direction, the entire huge body shape, instantly turned into a man, extremely fast towards the left rear Shoot and go...

In this direction, it is also a late-era old man, but it is from the Ten Heavenly Palace.

At this moment, after feeling the lock of the air of the celestial beast, the late old horror of the dead souls all took off, and the head turned out to be a fierce and screaming, showing endless unwillingness and struggle. he

I know that in this case, in the face of the pursuit of a true heavenly powerhouse, but also locked in the air, he simply did not escape.

If this is not the case, before the rest, like him, from the Terran, the same as the late stage of the seventh-order eccentric, how can it be so easily and directly bombarded by the Tianji beast?

He hates that he is unwilling, but he can't change anything, can't reverse the ending of today's fall, and it's still..."

喽 "眨

Between the eyes, the celestial beast, which is larger than the giant star, has already caught up to the back of his figure. Without hesitation, it is still a fluttering punch.

The power of this boxing is equally astonishing, and the void is bursting open. It is not a broken inch, but a full blow! "

Oh..."

Realizing that death is near, the Terran from the Ten Heavenly Palace is screaming and screaming, and the blood is red, and it is necessary to make a slap in the face. "

boom....."

In the next moment, the earth-shattering bang came, and in front of the billion-year-old, the old man who was escaping at full speed, the whole figure blasted directly without any suspense, and turned into a **** fog. All are destroyed.

Different, even so, such a blow, for the Tianji beast, can not constitute any harm or even threat. he

The punch that had already been blasted has not been recovered, but it is still blasting...

The air is blasting, the energy is raging, and an invisible horror horror appears out of thin air. It is actually a gust of wind and leaps, and it directly blows away the horror energy generated by the self-destruction of the late old monster from the Ten Heavenly Palace.This

The scene is too ironic, a late-stage grotesque in the seventh-order world, can escape without escaping and choose to blew, but even so, it can not cause a little bit of damage to the opponent, it is sad. One

In a blink of an eye, the Terran Federation lost two of the late widows, and opened the Emperor II and his two mechanical beasts that were broken up. The Terran Federation originally had seven desolation monsters here, but now, one There are only three left in the eyes. ten

The Heavenly Palace, the Immortal Dynasty and the Glorious Temple are each one.

Even if Emperor II does not die, it is only four. Only when he kneels down on the two mechanical beasts, it is obviously difficult to reintegrate. At least for a short time, it is basically impossible.

Before the start of this war, there were a total of nine ridiculous grotesque in the Terran Federation. Today there are only three survivors. This scene is too astounding. It will be surrounded by **** unicorns, nine crocodile crocodiles, and nine **** scorpions. Qingtian Dapeng, blood-sucking lions are scared.

At this moment, they are really scared. Compared with the Terran Federation, they only have five ridiculous grotesques. Although they are all alive today, they are not because of their own factors.

The reason why they are still alive is because the emperor-integrated heavenly beast has a greater resentment against the Terran Federation, and they have always chosen them first.

But once the ridiculous blame of the Terran Federation is dead, the next bad thing is not the Magic Hall, it can only be their Star Alliance.

After all, if you don't want to rush out, today they will still die here, there is no life to say..."

Roar! "

"You can't be so passively beaten, you have to find a way to rush out..."

The thoughts flashed through my mind, and the **** unicorns provoked a roar of hair. In the first time, they said to all the other ridiculous old gods who survived: "Everyone thinks of ways, gathers the time to gather together, and then join hands. Bombard this invisible barrier... Anyway, this is the last chance, you must try it!"

I dare not directly snarl with the gods. If that is heard by the heavenly beast, I am afraid there will be no chance.

At this moment, with the dark voice of the **** unicorn, all the ridiculous blame all have a slight shape and a flash of light, and it is clear that a consensus has been reached. Only when the time is right, they will gather in an instant and join forces.

However, for such a suggestion, Ye Xuan is completely uninterested.

He once felt the power of a real heaven in the sky, and naturally knew that all this was in vain. Do not

However, although I was not interested in teaming up with the Scarlet Kirin and others, but now this void has been banned, and Ye Xuan originally left and went back to the Temple to launch a defense plan, obviously it will not work. he

Also trapped, or killing the heavenly beast, or you can only be killed by the other side, it is no longer possible.

Ye Xuan's choice is obviously the former. Therefore, in the face of this situation, it is obviously no longer possible for Yu Tiangong's Xingqiang Shentong to hide again.

Ugh....."

After the decision, the violent sigh suddenly shook his head, and then immediately urging the power of the body, at the same time, and even more secretly to the old pig, including the four kings, was also summoned by him at this moment... "

Oh la la..."

In the next moment, there was a slap in the water, and the whole body shape of the flesh and blood and the body of the black mist collapsed instantly, turning into a **** sea and spreading, covering a corner of the universe..."

call out! ""

Oh..."

At the same time, a sharp and unstoppable sound broke out, and in the distance, the shape of the Nether King, the Blood Mosquito King and the Scorpio King, and the King of the Year, also turned into four masculine lasings, and the blink of an eye did not enter. In this **** sea, it disappeared. This

The vast expanse of the **** sea appears fast and dissipates faster. The blink of an eye condenses into a tiny worm-like sensation, but it is not detached, but it is directly immersed in the brow of the cheekbones. It's gone!

"Hey..."

This battle is not very happy, the head, the old pig, I will avoid it first, you remember to make this **** big man a bit miserable, I can't help the old pigs to hate the hatred..."

With the return of the four kings and the two **** seas, the old pigs on the right rear side also uttered a mad voice, and then their body shape was also turned into a mans. exhibition

After the spurt of the spurt, when I was close to the front, I was waved by the cheekbones and directly absorbed the Shennong Baoding in the body...

"Everything... it's over!"

At the same moment, the sound of the gods of the bones of the bones also sounded faintly, and suddenly there was a fierce purple gold awning in the middle of the scorpion. A secret scent was like a raging anger in the river, and it instantly swayed...

Chapter 4966: a slam

In a blink of an eye, the four kings, flesh and blood, and the black mist and the old pig, disappeared in this void and broke into the body of the cheekbones.

The magic hall originally had eight nine-step grand perfect half-step heavens here, but today, there is only one left. This

The result was that all the people were all in one, and then the face changed greatly. The **** unicorn was more mad and spurted on the spot. He had just secretly voiced with the knowledge of God before, and wanted to gather the power of everyone. Join forces with a full blow to see if you can smash this invisible barrier wall.

The voice just fell, Ye Xuan took away seven half-steps, which is deliberate, the fruit of the red fruit... brain

These thoughts flashed in the middle, and even if the **** unicorn turned to the cheekbones, the other ridiculous blame was basically the same.

In their view, the last surviving vitality of the original, at this moment, clearly disappeared with Ye Xuan as the seven half-step Tiandao was taken away...

In all of this, Ye Xuan did not pay attention to it. At this moment, the giant beast of the body of Panda, which is 400 million miles away, is turning and chasing the seventh-order grotesque of another immortal dynasty. he

The back of the back, just to the side of the cheekbones, is the best time to shoot... brain

These thoughts flashed in the middle, and the cheekbones were stunned in the middle of the squat, slowly raising the left arm...

For a moment, his empty left palm was suddenly a golden man, and a golden bow of energy form appeared in his left hand, making his appearance simple and embarrassing...

The middle part of the palm is a double-headed beast, which is oriented in the mouth of the beasts in the upper and lower directions, biting the two humanoid of the humanoid body, and the creatures of these two humanoid bodies are also Wide open mouth, seems to be roaring.

A bowstring formed by a number of fine gold threads twisted together, the two ends are connected to the souls of these two humanoid bodies, and it is the supreme power that he has derived from the ancient night forks. ! No

When everyone reacted, the sacral bones in the hands of the scorpion giant bow suddenly burst into a very weak and low humming sound. As the humming sounds, a golden energy arrow appears in the string...

At this moment, Ye Xuan's heart is also full of helplessness. If he is forced to do so, he is not willing to prematurely smash the heavenly bow.

This matter has no sub-benefit for him. After all, not long ago, in the mysterious Hong Kong emptiness, he just showed his sacred bow to the sacred eyes of the sacred sky. Today, this supernatural power is exposed, and the heavenly eye will instantly realize his Identity...can

Unfortunately, the celestial beast is too strong, but it is a true heavenly power. If you don't use the 陨天弓, Ye Xuan is really not sure to kill him. Therefore, at this moment, suddenly this supernatural power is exerted, although it is helpless, It is imperative...

However, since the biting of the teeth is a sacred bow, it can be said that it has paid a great price, and the troubles of the post are not small. Then, today, this blow must strive for the greatest result. leaf

Xuan's goal is to completely kill the heavenly beast... he

Although it has entered a real heaven, it is not impossible...

The power of the Tiangong is too horrible. In the battle of the ravages of the past, the ancient wilderness, which is as powerful as the golden giant tortoise and the golden dragon, once used this supernatural power to shoot a huge and Unable to bridge the hole.

At that time, even the heavenly eye, which represents the will of the wilderness, was almost slammed by that arrow...

Today's heavenly eyes, after the recovery and crouching of the endless years, the eighth-order heavenly cultivation, perhaps more than the level of cultivation at the time of the outbreak of the flood.

But when the war broke out in that year, the heavenly eye was definitely more than the first step of the heavens, and it must be much stronger than the current heavenly beast...

But when the war broke out, the ancient night fork was only the peak of the nine-order grand perfection, and now Ye Xuan's combat power is also this level.

The singer of the scorpion bow is the same, but the target of this arrow is not as good as the sorrowful eye of the year. only

From this point of view, if the current Ye Xuan shoots this arrow, the possibility of directly killing the heavenly beast is at least 50%...

Half the chance is enough. more

What's more, if today's beast is facing him, this best time can make him unprepared, invisibly, almost by the possibility of adding a successful bombing... brain

In the flashing of these thoughts, Ye Xuan did not hesitate, with his Ye Xuan dying, the body of the cheekbones smashed a strange golden glow.

Without hesitation, his right hand suddenly protruded and directly pinched to the bowstring of the left hand energy giant bow. The blink of an eye condensed a golden energy arrow and quickly pulled open...

"Hey..."

At the same time, the incomparable tremors and humming sounds made a big hit, and the voids around them seemed to have an invisible wave.

It gives the impression that it is just a state of pulling the string, and the momentum that has been emitted has already made the void tremble. "

call out!"

After only half-interest, the cheekbones suddenly loosened the right hand holding the energy bowstring...

In the void, a sharp to the extreme, the eardrums have produced a resounding burst of sound, this moment, all the forces in the body are instantly extracted 90%, almost exhausted. for

It is to ensure that the attack will be solved by a single blow. because

In the short-term, I am afraid that it is difficult to launch the second wave of the same attack if all the energy in Ye Xuan's body is almost exhausted.

At this moment, the energy arrow that fills the full force of the string is spurred in an instant, and the breath is strong and horrible, and it is simply ruined and ruined.

Even the void was directly broken, and the golden flow of the sinister shot, behind the black flames like a tail flame, the speed is fast to the extreme, followed by the golden arrow, all the way. Time

The shortness between the moments is completely negligible, and the golden arrow that whizzes away is already behind the heavenly beast...

It was at this moment that the huge crisis shrouded the heart. At the same time, the heavenly beast turned subconsciously, and the whole body shape was also shook and swayed. The conditional reflection was general. He started the energy defense shield and fully excited!

"Hey! Hey bow? This... impossible!"

In the middle of the golden glory, the emperor was utterly stunned, and made a whistling sound. The scorpion was full of endless unwillingness and despair. Even if it was the existence of a real heaven, he was scared at this moment. Every soul is dead.

As the bow of the sky was urging, the void around his figure was locked by the mysterious power of this supernatural power, not to mention that he was even as strong as the wild blue eye, facing this attack. Nothing to dodge, can only be forced to fight hard...扛

In the past, you can live, and if you can't, then the end is a complete fall! Correct

Therefore, Emperor Yi is obviously not sure...

Chapter 4967: Heavy hit

"Hey! Hey bow? This... impossible!"

With the reversal of the first, the emperor was utterly stunned and made a whistling sound, and the scorpion was full of endless unwillingness and despair.

At this moment, even if it is the existence of a real heaven, he is also scared of a dead soul, because this glaring arrow has already locked the void around him invisibly. do not

It is said that even if it is a strong presence like the blue sky, there is no way to dodge in the face of this attack, and it can only be forced to be hard..."

boom....."

Almost in the next moment, the exclamation of the emperor's mouth was still unsuccessful, and the sound of the earth-shattering sound was heard, and everything went on without any suspense. gold

The moment the color arrow touched the defensive shield, the celestial beast violently reversed a figure, but it did not completely avoid it. It was only between the electro-optical fires, it moved a half-step shape and avoided the head. Only. but

Even his tough defensive shield can't stop the golden arrow that lasing away. although

At that moment, the golden arrow seemed to have paused for a thousandth of a moment. The original Jinmeng was obviously faint, but it still penetrated this layer of defense shield, causing it to collapse and collapse. ...also

It was at this moment that the golden arrow did not come into the body...

In the blink of an eye, as the golden arrow did not enter the body, the horror body of the heavenly beast of Panda reached 400 million miles, and a huge pair of holes appeared in an instant, but unfortunately did not hit the head.

This was pierced in an instant, and the endless piercing hole was located under the right shoulder of the Heavenly Beast, with a diameter of more than 50 million miles.

The flames surrounding the grottoes rushed, and the endless sound of the explosion, the huge body of the celestial beast blew up nearly one-sixth, even his six arms, like the giant pillars, but different shapes are also here. Under the single blow, three of them were destroyed...

"call out!"

At the same moment, in the distance, the cheekbones also put down the left arm, and the golden giant bow that was originally held in the left hand disappeared. skeleton

There was no sadness and no disappointment on the face of the bone, but he waved his hand in the first time. Then he shook his head and sighed: "After all, it failed. It was just a serious injury, but it failed to kill him!"

"Hey..."

At the same time as the voice rang, there was also a lot of broken sounds. At this time, Ye Xuan's deficit was too much, and it must be replenished immediately!

Even so, it takes a little time for the chaotic medicine to be swallowed into the body, although it is not too long, but for the Tianji beast, it is enough to escape. This

The result of a single blow made him disappointed. he

After all, I still looked down on the celestial beast. His energy defense shield was quite powerful. He won a ten-thousandth of an hour for the celestial beast and avoided the skull in time.

Although it still can't stop the golden arrow, this layer of defense shields offsets some of the power of the golden arrow before the energy is exhausted and collapses quickly.

About 30% of the touch!

If it weren't for the three-powered powers to be offset, even if the celestial beast avoids the skull, the arrow will directly hit his body, and I am afraid that it will blow up half of it in an instant, not just one-sixth of the present. Pang

If the huge body of 400 million miles is blown up, if the celestial beast does not fall on the spot, I am afraid that it will lose its mobility. Then there is no need for Ye Xuan to shoot, just the **** unicorn and nine around the void. The ghost crocodile and others can also kill him completely...

But now, its huge body is only a blow up of one-sixth. Although it is seriously injured, it is far from the possibility of dying.

This level of injury, the celestial beast is not far from the ability to lose the ability to move, at any time can pull away, even if it is forced to rush, he is likely to have the power to counterattack!

Of course, if that is the case, his injury will undoubtedly be aggravated. Therefore, if it is unavoidable, this underground celestial beast will never take the initiative to attack. Correct

For him, the most sensible choice is to immediately take a walk, hide and hide, and recover the injury...

And if he really does this, everyone obviously can't stop him, unless Ye Xuan can activate the totem of the gods, and then blast a golden arrow!

All this is long, but in fact, it only happens between suffocation. From

Ye Xuan activates the strong **** to smash the heavenly bow, and the huge bow body is concealed, and it is held in the left palm. At the same time, when the sacred beast is hit, the wave of chaos is swallowed and swallowed into the belly... before and after, only Half interest! short

Short-lived, too rushed, even the ridiculous blame, can't be reacted for a while, until now, the distant void, the remaining three late eccentrics of the Terran Federation, and the Scarlet and Nine secluded from the Star Alliance Magic crocodile, nine bloody, blue sky Dapeng and blood-scarred lion eight. only

After the sudden shock of the body shape, under the sudden change of color, they suddenly exclaimed...

what?陨天弓? Isn't this the strongest supernatural power of the legendary Yaksha? In the battle of the world that collapsed the entire floodland, even the green eyes of the wilderness and the heavens were almost slammed by it. It has already lost the endless years, how could it suddenly appear again? "

"And it is still reproduced in the hands of Ye Xuan, the master of the temple. He is obviously a human race. How can he suddenly have a relationship with the ancient night fork..."

hiss! Power is too horrible, and sure enough it is the supreme power of the ruins of the past. Even the true heaven and earth are everywhere, and under this arrow, it has been hit hard..."

If the non-celestial beast suddenly saw the machine, he avoided the skull at the last moment, and also supported the defensive shield to offset some of the power of the arrow. This arrow went down, even if it was already into the real heaven. I am afraid that under this attack, it will fall on the spot..."

"Looking at the state of the Lord of the Devil, this arrow smashed out, and it seems that it has paid a lot of money. A similar attack, in a short time, I am afraid I will not be able to sacrifice a second one..."

Even so, he is still very powerful, don't forget the seven-and-a-half-step heavens that he has earned in his body. They can still be all without any damage, and they can call out the enemy at any time. ""

In addition, the healing resources of the Lord of the Magic Temple are also extremely extraordinary. The deity does not see what it is, but its energy is full of energy, it is horrible, I am afraid its loss of loss, very It will be fully restored as soon as possible. ”

"These are not the key. The most important thing now is that the Tianji beast has been seriously injured, but most of them still have the power to fight back. In this case, what should I do?"

"Is it letting him pull out and go, or... join hands and fight, try his best to stay him?"

Having said that, all the people are no longer talking, and they are switching their eyes to each other. There are sorrows and sorrows in the shackles, and they are hesitant...

"He can't go away!"

It was at this time, in the void on the far left side, suddenly there was an extremely abrupt voice, and the low-pitched voice revealed the meaning of resentment that was so thick that it could not be opened.

Chapter 4968: Seal is fully open

"He can't go away!"

Just as all the people were hesitant, the air in the far left on the left side suddenly came with an extremely abrupt voice, and the low-pitched voice revealed the meaning of resentment that was so thick that it could not be opened. !

This was too unexpected. Not long ago, Emperor II was just severely wounded by the Tianji beast. Even the body had a lot of mechanical sounds of the card, and the dull bombing came out.

This is clearly so serious that if the inner guilt of the blood is heavy, it is extremely serious. And

After the blow, he even fainted on the spot, his body floating in the void of nearly 100 billion miles, like a fall. can

Today, this is not a long time ago. The situation on the battlefield has undergone a terrible reversal. The Heavenly Beast was severely wounded by the Emperor Ye Xuan of the Lord of the Devils. Although it was seriously injured, it was obviously counter-attacking. surface

In this case, all the ridiculous geeks present are hesitating whether to join forces and try to force the celestial beast to stay. There, the emperor who just fainted in the past... but suddenly wakes up awkwardly. coming! This

It's just a wave of twists and turns, ups and downs, and it's really a big deal...

These thoughts flashed through the brain, and all the people were all in one, the strange colors on the face appeared, and the subconsciously turned to look in the direction of the sound.

Even Ye Xuan is like this. and

In the next moment, with the body shape of Emperor II reflected in the field of vision, Ye Xuan's face in the state of the cheekbones immediately showed a strange color...

Emperor II apparently has already awakened. At this moment, his body shape, which was lying across the void in the air, has stood up again, steady and sturdy, and he is stunned and stunned. The ground is locked in the beast that has just been hit hard. This

It is not the most amazing. The real key is that in the body of Emperor II, although there is still a sound of mechanical friction and a roar of incomparable roar, he originally fell to the extreme after the attack of the celestial beast. Nowadays, it has been completely restored...

Not only that, but the self-cultivation that has been dispersed in his body has even a sharp increase. first

Before, the emperor's cultivation was the second stage of the ancient and the supreme, but nowadays, the breath that has been diffused from his body has reached the amazing seven steps of the ancient and supreme. short

In a short period of time, it was directly from the early days of the ruin, and it became the late stage of the past. This

Not all, what is even more daunting is that even the subtle seven-order cultivation in his body is still not the end, far from the end, still rising continuously, and the speed is very fast. Eight steps, are not far away...this

Everything was shocking and totally unreasonable, but after Ye Xuan's slight sigh, his face quickly showed a faint color. In the vagueness, he had already guessed the root of all this happening...

Undoubtedly, the fundamental crux of the color is obviously the so-called seal in the body of Emperor II.

Previously, Emperor Yi and Emperor II have said that Xingbo had left a layer of field in its body at the beginning of the creation of Emperor II. These fields are both potential and seals!

Over the years, Emperor II has been layered up and the strength has been improved. Not long ago, the remaining field field seals in his body had only three layers left, and his cultivation at that time was reached. Late in the wild.

According to the derivation of Emperor II, if it is to open a layer of domain field seals, his cultivation will certainly be soaring, and it will not be a problem in the short period of time to break into the early stage of the ancients.

The facts are true! With

He later opened the outermost layer of the three-layer field. The Emperor II also broke through the big realm that time, and became a sacred sacred, and also possessed a second-order ruin.

After the seal was torn open, there were still two final seals in the body of Emperor II.

According to the extent of his initial training, Ye Xuan has deduced. If the remaining two layers of seals are all opened, the emperor's cultivation is strong, and it is very likely that it will rise to the late stage.

Even in this nine-order grand perfection, that is, half-step heaven! and

Nowadays, the reason why Emperor II has recovered in a short period of time is obviously because of the closure of the seal.

There are two sentences that say that they are broken and then stand, and Nirvana is born again. For this time, Emperor II should be the same. he

Although it was severely damaged by the Emperor, not only the internal body was so chaotic, but even its electronic consciousness was plunged into chaos because of the huge impact of the spiritual level. This

It is extremely dangerous to have a complete chaos from the body to the consciousness. If you get it bad, it will be ruined, but there is always a chance in the world. Fortunately

What is transported is that the violent vitality of the tyranny of Emperor II was firmly grasped by him.

If there is no accident, he should have completed the transformation and sublimation of electronic consciousness in the process of previous mental disorder, just like the epiphany of flesh and blood, and the mood is improved.

It was this epiphany and the improvement and change of the state of mind that allowed the emperor to rush one of the last two seals in the body. In a flash, his previous injuries were exhausted, and his strength was soaring... This

The probability of being too weak is basically a problem that can be met but not forgiven, but the Emperor II has fortunately encountered it. This kind of luck, even Ye Xuan is envious.

All of this, not only Ye Xuan guessed, including the **** unicorn, nine sacred crocodile and other eight ridiculous old blame, after a little thought, they have gradually come to realize.

For this reason, when they look at the Emperor II again, in addition to the envy, the dawn is also showing a strong expectation...

Even Ye Xuan is the same. original

Because it is also very simple, the reason why they are looking forward to it is because the cultivation of the emperor's body is still breathtaking, and it is still rising continuously, and the speed is very fast, just a short break, and it is already eight steps away from the desert. Only one line apart...

In addition, even the mechanical wear-in and the low roar of his body in his body did not stop and continued to exist. very

Obviously, this time, Emperor II not only realized the epiphany, but also improved his mind. Even in his body, there have been earth-shaking changes, and this transformation has not even ended yet, and it is still in progress.

This shows that the last seal in his body is very likely to be torn apart in the subsequent transformation, which is clearly the rhythm of the seal.

If this is the case, the cultivation of Emperor Yi's strength will surely usher in another sharp increase. Such as

Today, he has been repaired as a realm. It is only a gap away from the Eighth Order of the Ancient Supreme. If you make a big jump again, it will be a matter of fact that the Emperor II has entered the stage of the ridiculous ninth order. although

It is absolutely impossible to break through the real heaven and earth in one fell swoop, but the possibility of being infinitely close to the strong people of heaven is absolutely not small...

Chapter 4969: It turned out to be raising

"Booming..."

Karma is..."

In the distance, Emperor II is stepping on the void, and the low-pitched bangs of the body have never stopped, including the kind of mechanically sizzling sound of the card, the same is true. and

In addition, the temperament of his body is constantly rising, and the speed is still very fast. There is still a line between the previous eight steps, but now it is between several steps. This distance is instantly compensated. This

The scene was shocking. It was almost a dazzling work. It was only the seventh-order absurd emperor. Now it has become a ridiculous eighth-order, and this is still not the end, as he continues to walk step by step. The repair of the body is still in the air, still climbing...

Ye Xuan, three ridiculous geeks from the Federation of the Terran, and the Scarlet kylin, the nine sacred crocodile, the nine-headed **** scorpion, the Qingtian Dapeng and the blood-sucking lion, have stopped all the movements in their hands at this moment. Looking at the gloom, looking in the same direction, the sights all gathered in the body of Emperor II..."

boom! ""

Rumble..." another

In the far direction of one direction, the sound of the roaring sound of the thundering sounds also did not stop, from time to time, this is the sound of the giant body of the heavenly beast. thing

In fact, from the golden arrow of the bow of the sky bow to the body of the heavenly beast, it is only now that it has only passed.

The power of this blow was too horrible, and even the defensive shields of the heavenly beast that were previously unable to move together could collapse in an instant.

And then, the golden arrow that has never been extinct, also blasted a huge hole of 5,000 miles in diameter under the right shoulder of the celestial beast, even if its six forms are different, just like the giant The general arm of the column also blew up three. only

With these, it is enough to see the horror of this power. although

However, the beast of the heavenly machine was so lucky that it avoided the skull and the key points between the lightning and the fire. It was not degraded by this attack, but it was seriously injured after all. In the face of such a terrible attack, his consciousness is now a bit chaotic, like flesh and blood. Being slammed on the forehead, the fainting has not slowed down...not

Just the confusion of consciousness, even the explosion of the body, is still endless, although the golden arrow condensed by the Xingqiang Shentong Tianzhu has disappeared because of the exhaustion of energy after the body is pierced.

But the giant pair of 50 million miles below the right shoulder of the Heavenly Beast has a small explosion across the edge of the hole, but there is still a small explosion that continues.

Look at this posture, I am afraid that it will not be completely stopped in a short time, unless the consciousness of the chaos of the heavenly animal is restored to the clear and clear, and the means of self-help are used...

The emperor II has already woken up at this moment, and the body has not completely ended. He has already stepped toward the heavenly beast. The purpose is obviously not to help him to extinguish the fire. The real plot is to take advantage of this time and the beast. Before the consciousness has not fully recovered, give him a knife... also

For this reason, the **** unicorns and the nine sacred crocodile, who were originally trying to attack the celestial beasts, changed their minds after switching their eyes, and stopped their steps, just like Ye Xuan. Squatting in the distant sky, sitting on the wall...

"Is the last layer sealed? Today, I have to tear it apart..."

At that time, with the big step to the opposite side of the empty space still in the confusion of the emperor, the emperor's shackles, also produced a fierce resentful color. bite

Tooth cutting, muttering: "Maybe Starbest did tell you that kind of words at the beginning, the reason why the seal is left in the body of the old man is to wait for you to grow up for you to devour..."

But in fact, you should also be deceived. Although the seal in the old man's body exists, but with the tears of the right, it also unblocks some information..."

Emperor I, between you and the old man, you can only leave one, but the meaning of Xingbo does not specify that the old man is swallowed by you. He is only raising a donkey. When the last seal of the old man is torn open, it is The moment when you and I fight each other and devour each other..."

"The one who survives is the real king of electronic life! And all this, the old man... don't let it!"

call out! "

"Hey..."

The voice was degraded, and his shackles were flashing, and he waved his hand. At the next moment, there was a spurt of glare, and in the void in front of his tens of billions of miles, he began to assemble... emperor

In the hands of the second, there is also a huge treasure in the interior space. The whole army is huge. Now there are mechanical families of nearly 80 million people, and he is carried with him...

Before being bombarded by Emperor II, the two mechanical behemoths of the 80 million people merged and collapsed, and they also destroyed nearly 40%. Then they were all under the pain of the Emperor II. and

At this moment, because the final battle with Emperor Yi is about to come, this mechanical army has once again been called out by Emperor II. "

boom! "

"Booming..."

With a large number of mechanical warriors in the form of mechanical beasts spurting out, falling in the void of nearly 10 billion miles, the earth-shattering roar sounds like a tidal wave, covering the whole piece of void. emperor

In the first time, the commander of the integration of the machine was issued to the general army. It was not just a step-by-step fusion of the previous times, but a full integration at the same time...

Because of the previous damage, the mechanical beasts that he was now called out were only about 50 million. These mechanical beasts, which were called out, immediately merged after receiving the instructions.

"Card..."

In the air, there was a dense and screaming mechanical sound of the card, and all the mechanical people who were called out were gathered together, gathered, and merged with each other...

In a short period of time, the original mechanical beasts of more than 50 million, now only have more than 50,000 heads, but without exception, all of them are soaring, the smallest, almost the same as the immortal star, like a A giant star. but

The form is still a starry beast, and it has the characteristics of a variety of beasts...

Yu Xiu is the strength, the weakest existence is the immortal of the emperor, the most powerful existence, and even have the cultivation of the supreme of the universe, and the number is still quite a lot, more than a thousand...

However, this is still not the end, and then the integration continues! "

boom! "

"Booming"

In the air, the roar of the earth-shattering sounds like a tidal wave, and it is more dense and squeaky.

More than 50,000 mechanical beasts, in an instant, quickly close together, gather, and fuse with each other as before. straight

After everything is completed, more than 50 million mechanical tribes have disappeared in the void in front of them. Instead, they are a mechanical behemoth with a huge body.

Although it still does not reach the huge terrorist shape of the 400 million miles of the celestial beast, it is also about 300 million miles, which is much larger than the average giant star. also

At this time, the emperor's two squats flashed, and the figure was instantly violent, and blinked into it, instantly blending into...

Chapter 4970: Heavenly beast and mechanical beast

"call out!"

With this mechanical behemoth formed by the last more than 50 million mechanical tribes, the emperor II is also a flash in the middle of the mountain. The figure is swept away, and the mechanical giant enters the eye. The body of the beast is integrated into it.

From this moment on, the so-called celestial and mechanical families have ceased to exist, turning into huge mechanical behemoths of both sizes.

The Tianji clan's celestial body is 400 million miles tall, and it has already entered the real heaven, but it has been seriously injured. Even the consciousness is still a little chaotic, and it has not recovered. Body

In fact, some small explosions have appeared from time to time, and the rumbling sounds are endless.

The mechanical family is also a kind of mechanical beast with its patriarch, Emperor II. In order to distinguish it, it is more suitable to call it a mechanical beast. This

The head of the mechanical beast is also a human being. It has only two arms, but there is a pair of huge compound wings on the back, which looks sharp. machine

The size of the beast is smaller than that of the celestial beast, but it is also 300 million mile. The temperament that has been dispersed in the body has not yet reached the true heaven, but it is definitely the strongest below the heavenly state. presence. complete

In fact, this mechanical beast was originally made up of more than 50 million mechanical tribes, and in the end, because the last layer of the seal in the body is about to tear, the strength is only a line from the ruling nine-step great consummation. The patriarch of the patriarch, the second emperor, also integrated into it..."

Oh..." This

At the moment, with the integration of Emperor II, the mechanical behemoths that merged with more than 50 million mechanical tribes fit together, and the mechanical beast that fits into this body suddenly has a low-pitched humming sound.

"The last layer of seal... finally torn!"

At the same time, the sound of the gods of the emperor's two inexhaustible joys also spread: "The distance from the real heaven is only one line apart!"

At the moment, the last seal in the body of the Emperor II was finally torn open, and this breakthrough immediately gave him a breath of mechanical beasts. distance

From the so-called heaven and earth, it is only a gap away.

If the Tiandao is not suppressed here, it is impossible to take that step, and the Emperor II is not afraid to take that step because of the taboos and the blue eyes of the heavens and the past, and the control of the skyrocketing strength is controlled by the invisible heaven and earth. Nowadays He, I am afraid, has officially entered the real heaven....

For a moment, I felt the horror of the emperor's body, and even Ye Xuan couldn't help but take a sigh of relief. eye

The former mechanical beast, which is a fusion of 50 million mechanical tribes and its patriarch, is absolutely the strongest presence in the heavens. Even Ye Xuan, without considering Shennongyanhai and Qitianzhu, If you don't sacrifice the four kings and condense the three blood seas, you can only fight with the violent form of the unarmed, and it is definitely not an opponent.

Of course, it's impossible to be abused, just a little downwind... even

He has also entered the ridiculous ninth-order grand perfection, and he is still like this. In the distance, there are three ridiculous geeks from the Terran Federation, as well as the Scarlet kyphosis, the Nine crocodile, and the nine-headed blood scorpion from the Star Alliance. Qingtian Dapeng and blood-sucking war lions naturally need not say more...

They were also worried that they would be able to drag the emperor and stay here only by the Emperor.

But now it seems that this worry is obviously superfluous. The mechanical beast that the emperor II and all the mechanical tribes have merged has not yet entered the real heaven, but it is definitely only a line apart. and

Although the Tianji beast, which was formed by the integration of all the Tianzu nationality tribes, has entered the real heaven, but it has been seriously injured at this moment, the state is not good, and even the consciousness is still in chaos.

In this case, the situation of the heavenly beast can be imagined. This

The First World War, belonging to the Tianji and the mechanical family, is the battle between life and death between the two major electronic life groups, and it is the fateful battle between Emperor Yi and Emperor II.

Even if they have the heart to rush forward and participate in it, the Emperor II may not be able to appreciate it. It may be possible to shoot them under anger.

These thoughts flashed through my mind, from the three ridiculous geeks of the Terran Federation, and the **** unicorns from the Star Alliance, the nine sacred crocodile, the nine-headed **** scorpion, the Qingtian Dapeng and the blood-sucking lion. The old blame, subconsciously turned around and exchanged a look. Are

A consensus was reached between the engravings. In this battle, they never participated, just like the Ye Xuan, the master of the temple, as a wall. when

However, if Emperor Yi reverses the unfavorable situation and suppresses the Emperor II, at the most critical moment, if there is indeed the possibility of suppressing the Emperor, they will never hesitate again, and they must jointly take the shot. In any case, To leave the celestial beast, in order to suffer!

"Roar!"

Emperor Yi, Xingbo's old things are raised by you and me, for this moment..."

After the fusion was completed and finally the last seal in the body was torn, the mechanical beast screamed and screamed, and then the sound of the gods of the emperor's second came out, resounding the banned 100 billion miles of the universe..."

Between you and me, it is doomed that only one person can survive, and the one who has fallen is only the fallen end, and the other party..."

This scene is exactly what Xingbo wants to see. Although the old man hates the old man and does not want to be controlled by him, since he wants to raise a donkey, the old man will follow the trend and swallow you in one fell swoop..." "

If you are swallowed up, it will not only be cheaper for you, but also like the old man's wish..."

"All this, the old man is absolutely not allowed to happen, only to swallow you, and then against the old man, for him, is the face of the red fruit."

At that time, if you let Xingbo's old man know all of this, the look on his face must be wonderful... All this, the old man is just thinking about it, he can't wait. So Emperor I, today, you must be here! ""

Roar....."

After the last sentence, the mechanical beast did not hesitate, and after screaming out of the sky, the huge horror figure of Panda's 300 million miles rushed out in an instant, slamming into the beast of the tens of millions of miles away.

The speed is too fast, and this scene can't help but see Ye Xuan. Today's mechanical beast is like a giant star, flying at a speed that exceeds the speed of lightning, and the void is torn. As if the end of the day is coming! "

Oh..."

Just a little bit of interest, the mechanical beast has already rushed to the front of the celestial beast, still separated by hundreds of millions of miles, the pair of huge and sharp wings behind it, has suddenly shaken, issued two Sharp and sharp sounds.

For a moment, the two tempers are like a white glimpse, and the two crickets are usually smashed in the void. These two wings are directly smashed to the arms of the celestial beast. first

The first scorpion bow hit, the six arms of the celestial beast exploded six, and now there are only three left. The mechanical beast has to smash two of them. It is clear that the attacking means of the celestial beast must be scrapped first. More.....
