Chapter 501: Fire spirit?

.....

The news of the destruction of the Qing Palace was quickly passed out, but what is even more curious is that a medium-minded territory has a virtual god, which is a rare thing.

People have speculated that Ye Xuan and Bai Yiqing Jiang Tian did not have any hatred, so that they can do such a thing.

However, this time Ye Xuan is not without any gains.

First, he learned the name of his mother from Jiang Tian's mouth. If he wants to find his father in the future, he will only find a powerful Jiang surname.

Second, the eight-year-old sword in his hand turned out to be the weapon of the Eight-Dragon Sword God.

Before he heard of an undead sword god, this undead sword **** is a virtual god, then this eight-sword sword god, it should also be a virtual state.

"On top of the best heavenly instrument, it is the virtual **** soldier. This eight-year-old sword should be a virtual soldier. I didn't expect my father to leave such a precious weapon for me."

Ye Xuan thought in her heart.

Eight wild swords and eight wild winds killed, he has been copied into the phagocytic system, but only to reach the virtual state of the gods, can learn the Eighth Sword and the Eighth of the Eight Winds.

"The virtual state, only to reach the virtual state, I am qualified to find the **** heaven, and then revenge for Megatron!"

At the thought of Megatron, which had no remaining gray, Ye Xuan was in full swing. At this time, he could not wait to destroy the Jiang family in the heavenly collar.

But this is not used at all. After all, even if these gingers add up, I am afraid that they will not be able to stand up to a Shangqing Palace. And that Jiang Tian is doing it, but the virtual **** is strong, and a thought can kill people.

Not long after, Ye Xuan left the heavenly collar and returned to those lower-level territories to see if there was news of the Song Dynasty and the Song ruling.

Unfortunately, they are still all without audio.

Then, Ye Xuan went back to Tianshui mainland in the deep sea palace, and now this method can be easily broken by him.

Sure enough, the two did not return to the mainland.

"It's a tragedy, and I don't know where this girl went."

Ye Xuan was very helpless. After he left some cultivation resources, he went back to the **** rock continent.

He turned for two months in several territories near the Deep Sea Palace, but there was still no news of the two.

Since he can't find it, he will not find it for the time being.

Now that he has opened seventy local veins, he is very close to Tianmai. In order to break through early, he decided to go to the high-level territory.

In the sky, the Shangqing Palace is one of the strongest forces, but only the master of the three heavens.

Such a strong person is very common in high-level territories, and there are more masters in the high-level territory, and there will be more opportunities.

There are not many high-level territories in the Luosha domain. The Ye Xuan's going to this place is the Qingyan collar where the Qing Ghost League is located.

Qingyan collar is the worst of all the high-level territories in the Luosha area, but this is quite suitable for Ye Xuan.

The Green Ghost League is in the Qingyan collar, and the Green Ghost League is a magical force, so this Qingyan collar is not too flat, so Ye Xuan chose this.

He returned to the heavenly collar, and then proceeded from the sky, and arrived in the Qingyan collar after a few days.

"Well? What is that?"

Not long after Ye Xuancan just entered the Qingyan collar, he saw a large fire pillar inserted into the sky in the distance. This is a vision of heaven and earth. Certain treasures must be born.

"good sign!"

Ye Xuan's eyes lit up, he just came over, just saw this scene, which shows that he is lucky.

At the moment, he is rushing toward the pillar of fire.

As he keeps getting closer, the pillar of fire is getting bigger and bigger, and the temperature is getting higher and higher.

When he was only 10,000 meters away from the pillar of fire, he discovered that there were already a large number of warriors.

These two warriors are a group of two and three, and seven or eight people are a team. It is also a large force with dozens of people standing in the air.

Ye Xuan felt a bit and found that there are a lot of masters around the world, and there are also peaks and veins, but I am afraid that I have already opened up ten veins.

The high-level territory is a high-level territory, and there are hundreds of talents in the sky.

"Hey, brother, do you want to avoid fireballs?"

Suddenly a voice fell into Ye Xuan's ear. Ye Xuan turned around and saw a small-eyed youth running towards him.

Ye Xuan clenched the eight-year-old sword and looked at it with contempt.

Going out, even if it is a beautiful woman, he must be vigilant.

"What is the fireball?" Ye Xuan asked.

The young man stopped at Ye Xuan a few meters ago, and then took out a red-hot bead. He said: "If this hot cave is opened, wearing the fire-beads on your body can slow down your infuriating speed."

"Oh?"

Ye Xuan eyes a glimpse.

Is the hot cave, which is under the pillar of fire?

After seeing the expression on Ye Xuan's face, the young man with a small eye also asked strangely: "Do you know this hot cave?"

"I just came." Ye Xuan answered honestly.

"In this way, then you buy a refuge, I will tell you about this hot cave, how?" The young thief asked.

"It is good!"

Ye Xuan is no nonsense, nodding directly.

Buying a treasure with his current body is still not a problem.

After the transaction was completed, the young man with a small eye smiled and said: "This hot cave was only appeared yesterday. This pillar of fire is actually a sign that marks the fire below the hot cave."

"Fire spirit?"

After hearing the name, Ye Xuan's brow was picked. The dead Megatron was Shi Ling, and now there is another fire spirit.

"Yes, Fire Spirit, do you know, if you sign a contract with a fire spirit, then your fire attribute affinity will be greatly improved." Xiaoyan Youth nodded.

"Fire attribute affinity?" Ye Xuan, he was the first to hear about this.

"Brother, why don't you understand anything?"

The youngster of the young eye turned his eyes and said: "Every life will have at least one attribute affinity, also called Linggen. This is really useless for the fine world, but when it comes to God, it is the key to strength. If and If a fire spirit signs a contract, then your fire attribute affinity can be raised to at least the epic level, and it is more likely to reach the legendary level."

"Epic, legend?"

Ye Xuan's eyes suddenly lit up, and he remembered the talent that the old man gave him when he was in the entrance examination of Lingxiao.

excellence!

The talents of the warriors are divided into seven levels, ordinary, excellent, excellent, perfect, unparalleled, epic, legend. Each level has a lower middle and upper score, a total of twenty-one levels.

Chapter 502: Fiery cave

"This attribute has improved affinity, what is the use?" Ye Xuan asked again.

"If the affinity of the fire attribute is improved, then your cultivation talent will increase slightly. The most important thing is to improve the martial arts perception and power of the fire attribute, and to do more with less. If it is Shiling, then it will be promoted. The martial arts perception and power of the soil properties." Xiaoyan Youth explained.

"Is it power and power..."

Ye Xuan's eyes glimpsed. He had signed a contract with Shi Ling before, and his soil attributes reached at least the epic level.

"Then, if the fire is dead?" Ye Xuan frowned.

"Do not affect, after the signing of the war with the fire spirit, the attribute affinity will be improved, even if the fire spirit is bombarded, the affinity will not be reduced." Xiaoyan youth shook his head.

Ye Xuan silently nodded, although he said so, but he still thinks that Megatron is alive.

He paused and continued to ask: "Can you sign a contract with Huo Ling and Shi Ling at the same time?"

Xiaoyan Youth shook his head: "This is even more impossible. Only one elemental spirit can be signed. I have not heard of signing two at the same time. Moreover, this fire spirit is extremely precious. If you don't use it, sell it to others. I am also worried about food and clothing."

"So many people, I am afraid it is not so easy to grab it." Ye Xuan turned to look at the people around him.

There are thousands of people here, and they are gathered in one day. If the news spreads, I am afraid there will be more powerful people arriving.

"Yes, but a fire spirit can match the sum of the wealth of people in the place. And there are many good things under the hot caves, so these people gather here not only for the fire." Road.

"When is the hot cave open?"

Ye Xuan is also interested in this fire spirit. Although Huo Ling is of no use to him, he can sell it to those in need.

It is said that the young man with a small eye turns his head and points to the volcano in front: "The pillar of fire is now thinning, and after a while, it can enter from the entrance of the volcano."

Ye Xuan glanced at it and found that there was still some distance between the fire column and the crater, but these people did not dare to rush in. Who knows if the fire column will suddenly become bigger?

Intuition tells Ye Xuan that this hot cave is dangerous, so he has to be careful. As for the fire spirit, he did not report hope, but just wanted to mix the experience.

"Brothers, this hot cave is very dangerous, and you are the first to enter, there are many unknown dangers, so I think, you still go in with other people, let them explore the road. Of course, do this The shortcoming is that the good things on the road have been taken away." Xiaoyan Youth saw Ye Xuan still pleasing to the eye, reminded him.

"Thank you for your reminder." Ye Xuan nodded.

"Goodbye!"

The young man with a small eye showed a smile and immediately went on to sell his refuge.

Ye Xuan will avoid the fire beads and receive the arms, then fly to the sky and wait quietly.

The pillar of fire is shrinking a little.

The number of people is also increasing.

Some warriors who are not afraid of death flew directly to the volcano that had just formed, and explored it and found it almost.

"go!"

These people and their companions glanced at each other and flew directly into the volcano, then flew toward the bottom.

The fire spirit is living in a hot place, so it must be deep in the ground.

Seeing that someone has gone on, other people are keeping up.

Ye Xuan is not in a hurry. Anyway, he has no interest in Huo Ling. He is waiting for other people to go in and explore the road.

If the first batch goes in, the first thing to discover is that it will definitely cause a big fight. He likes to be a fisherman.

The warriors continued to go on, and soon they walked more than 500 people. Ye Xuan looked at it and found that there are still a lot of Tianmai masters. It seems that they are also the idea of letting these people go down the road.

The pillar of fire is still shrinking. At this time, there is already a distance of 100 meters from the crater, and the danger is much smaller.

After the people walked almost, Ye Xuan also flew over.

The pillar of fire continued to hit the clouds, and the temperature was extremely high. Ye Xuan was steamed and sweaty. After taking a bottle of precious medicine and taking a sip, he rushed into the crater.

There is only one road in the crater, that is down, Ye Xuan is falling quickly, but on the way I heard the snoring of many holy beasts.

He fell for about five minutes, tens of thousands of meters deep, and then saw a magma that was burning.

At the same time, Ye Xuan also saw several passages.

"There seems to be something in this magma..."

Ye Xuan's eyes glimpsed because he saw a few passages with non-human footprints and a lot of it.

He took out a white bone war from the swallowing space, and then threw it at the mouth of the passage. Not waiting for the white bones to fall, there was a huge figure rushing out of the magma, and swallowed the white bones.

"The lava monitor lizard..."

Ye Xuan recognized this sacred beast, comparable to the lava giant lizard.

After the lava giant liz swallowed the white bone war, it was drilled back into the magma, and it was deeply named.

If the average person wants to go in, I am afraid that he will first be attacked by the lava dragon lizard. If the hand is broken, the whole person will be dragged into the magma, and the **** will not be left.

The magma of this fiery cave, the temperature must be higher than the average volcano, Ye Xuan estimated that if his hand reached in, I am afraid it will be burned in an instant.

Therefore, it is still a good idea to kill the lava giant lizard. His purpose is only to enter a passage.

At the moment, he took out a few white bone wars and then lost them.

Sure enough, two lava giant lizards jumped out and took advantage of this opportunity. Ye Xuan quickly swept into the passage.

What he didn't expect, however, was that a lava lizard was waiting for him at a corner of the passage.

"In the magma, I am lazy to kill, since you have come out, it will be my experience!"

Ye Xuan clenched the eight-year-old sword and directly made a clearing of the konjac against the front.

The lava giant lizard is very large and has a good defense. This way, the konjac is only barely breaking its defense.

The lava giant lizard opened his mouth and squirted a fireball directly to Ye Xuan, but was easily escaped by Ye Xuan.

"The lava giant lizard is a distant relative of the earth dragon. I don't know if it is effective to use the eight ridiculous dragon sword."

Ye Xuan thought about it and directly sang the eight ridiculous dragon swords.

His speed is not comparable to the clumsy big guy of the lava dragon lizard. After the lava dragon lizard was close to him, even his shadow could not be captured.

"Eight ridiculous dragon sword, dragon's ruling!"

A huge sniper easily broke the body of the lava dragon and smashed its head.

Chapter 503: Terrorist heat wave shock

"Sure enough, as long as there is a **** vein in the body, the eight ridiculous dragon swords will have an effect."

After Ye Xuan's lava dragon was completely dead, his body was taken away and then swallowed.

A sacred beast that is comparable to the Heavenly Master is worth a lot of experience for Ye Xuan.

After devouring it, Ye Xuan was nodded with satisfaction. It seems that it is just around the corner.

Then he followed the passage and continued on.

The hot caves are very hot. If the warriors who are in a dilemma come in, I am afraid that they will not be able to withstand these breaths and be burnt to ash.

Even if it is a warrior who is in a good position, it is always insulting.

However, for Ye Xuan, who has the blood of the sacred tree, this consumption will recover in an instant, so this refuge is not useful to him.

He will take the fireballs away and move on.

He walked for a while, and began to see the body, the body of some people, and the body of the lava lizard.

It seems that there has been a battle here, and the rest of the people are walking and walking, no one is going to collect the corpse, which is cheaper Ye Xuan.

"Booming!"

Suddenly, there was a loud bang in the passage, and Ye Xuan frowned. It seems that someone was coming in the direction of him while fighting.

This channel is still large, a hundred meters high, Ye Xuan is directly hidden in a corner, he does not want to be affected, unless the strength is not strong.

"Hey, leave me!"

"Fire Dragon Grass, what kind of martial arts can you get involved?"

"With this dragon grass, I will be able to exchange some cultivation resources and get through the fifth world!"

Soon, there was a group of people who appeared in Ye Xuan's eyes.

There are two waves in the coming. There is only one person running in front, and the latter five are chasing.

Ye Xuan estimated that the strongest of them is about five days, and the strength is weak.

Therefore, he directly swept out.

"Upper swordsmanship!"

Ye Xuan took out the housekeeping skills directly, directly killing the person in front, and then took off his ring.

"Dare to kill halfway, find death!"

At that time, Ye Xuan became the nail in the eyes of these five people.

However, after Ye Xuan swallowed up the things in the ring, his realm suddenly rose.

"Hey, the host has opened the first pulse!"

The dragon grass is a precious treasure of heaven and earth. It is two or three times more precious than other things in the Qiankun ring. So that Ye Xuan, who has opened 70 veins, has opened seventy-one and seventy-two veins. And the first heavenly pulse.

The current Ye Xuan is also a step into the world.

In his realm, killing the other five is extremely easy.

"Oh!" "Oh!" "Oh!"

Five crisp sounds spread out, and five heads fell to the ground. All five of them were in the hands of Ye Xuan.

"Hey, the host has opened a second pulse!"

Ye Xuan's realm has once again improved.

Now, his strength is among the top ranks among the warriors who enter the hot caves.

"This fire spirit, but it is able to grab it, if you can grab it, sell it can be changed to a lot of heavenly treasure!"

Ye Xuan thought in her heart.

As for the specific ability to change, you have to look at the quality of this fire spirit, and some fire spirits can help to raise the fire attribute affinity of the military to the legendary, and some can only go to the epic, which also has a hundred thousand eight thousand The gap in the.

In this fiery cave, not only the lava giant lizard, but also other, but now there is no threat to Ye Xuan.

Ye Xuan follows the passage, but it has encountered a lot of threats. In addition, there are Tiancaibao, etc., and the harvest is quite a lot.

at this time.

"Booming!"

Suddenly there was a loud noise in the passage. Ye Xuan's foot was alive, and I felt that the temperature in front had risen a lot, and I was scared that Ye Xuan quickly retreated.

"boom!"

A heat wave hit, the speed is much faster than Ye Xuan, directly drowning him.

"So hot!"

Ye Xuan's eyes widened. This swell of air was directly caused by the burning of his clothes. Even when the skin began to melt, it peeled off a layer of skin and blood. He instantly became one.

Fortunately, he has the blood of the sacred tree of life and constantly repairs the wound.

Soon, this wave of heat shock is over.

"Fortunately, I have already opened up the Tianmai, and the blood of the life tree, otherwise this wave of heat waves will burn my bones..."

Ye Xuan shuddered, and he didn't even open his eyes, and his eyelids were almost melted.

Even the master who has opened up two heavenly veins has become like this, so those who are in the veins may not have much to survive.

Now Ye Xuan also understands that the danger in this fiery cave is not the holy beast, but the heat wave.

Even if someone can survive the first wave of heat, I am afraid that it will not be blocked a few times, and the infuriating will be greatly consumed. I don't know how much strength is left when I find the fire.

However, this environment for Ye Xuan, but in the disguise to enhance his advantage.

At the moment, he is speeding up.

Sure enough, the warriors with many veins in front of them died under the impact of this wave of heat, and the bodies on the ground were one.

These people are already burned, and some people are even melted in their heads, and the death is very miserable.

Ye Xuan walked over and picked up their weapons and Qiang Kun ring.

These martial arts martial arts can't stand the first wave of heat waves, let alone the second wave of the second wave. Ye Xuan estimates that once or twice the heat wave will hit, the warriors at the level of the earth will die.

He speeded up again and began to catch up with the big forces in front.

Along the way, the number of such bodies is unclear, so all of them are cheaper, so that his strength is constantly improving.

Soon, this passage is coming to an end.

Ye Xuan remembers that there are a total of nine passages at the entrance to the volcano, and there are ten passages in this place where he came out.

Moreover, at this time there are already hundreds of masters, all of them are in the context of the world, and the weakest ones have opened up five days.

At the same time, these people are gathered on both sides of a passageway, close to the wall.

"what happened?"

Ye Xuan's eyes glimpsed. He saw that the passage between the group of people was constantly emitting a hot breath. It seems that the heat wave came out from here.

He looked around and found that these Tianmai masters were more or less injured, some were caused by fighting, and some were caused by heat waves.

at this time.

"Booming!"

The passage made a fierce roar, and everyone immediately spewed out the infuriating force to resist.

"It's coming again, everyone is careful!"

Some people are very kind.

Ye Xuan heard the words, but also the tiger's body shocked, hurriedly plucked to a wall, and then sacrificed eight wild shields to protect the vitals.

The next moment, the second wave of heat is coming.

Chapter 504: Xiaolong

"boom!"

In the tenth channel, a hot breath was ejected. Before the temperature was better, the area was submerged and then rushed out from the other nine channels.

"The trough!"

Ye Xuan clenched his teeth.

His realm is the weakest among all people. Although he still has eight wild swords, the Eight-Year Sword can only increase during the attack, but it is not.

This wave of heat waves instantly burned several people with poor strength into ashes. Although Ye Xuan's infuriating intensity and the ability to call the heavens and the earth are not many, he is fortunate to have the blood of life and the ability to constantly repair the injury.

Otherwise, he will die in this wave of heat.

The heat wave shocked for three seconds. There were hundreds of masters of the world, and now there are only 80 people left.

Three seconds later, the people around the deceased quickly retracted their shackles, and then one person shouted: "Chong!"

Someone took the lead and rushed into the tenth passage, and everyone else was the same.

Ye Xuan was somewhat puzzled. He had just arrived here. Even if things were not clear, he would follow up.

Out of caution, he was the last one to go in.

In the tenth passage, the blood smell is very strong. They are all from the group of warriors in front. They don't have time to heal their injuries. Only Ye Xuan is intact.

However, just as Ye Xuan rushed into the tenth passage, suddenly there was another loud noise spread.

"The third wave of heat shock?"

Ye Xuan brows a head, ready to display the eight wild shields to block the key, but he listened carefully and found that this is not the sound of the heat wave.

But, dragon!

"It turns out!"

Ye Xuan suddenly understood, I am afraid that at the end of this passage, there is a dragon or a dragon.

Since it was not a heat wave shock, everyone was relieved and rushed over at full speed.

After Ye Xuan came out of this passage, he came to a magma ocean. At the end of this magma ocean, there was indeed a fiery red dragon.

Not only that, but there are still many lava giant lizards in this magma ocean. If some people fly over, these lava lizards will attack them.

At this time, there are already a lot of masters flying to the magma ocean, plundering toward the dragon, and the lava giant lizards underneath are also attacking these masters.

However, the strength of the lava monitor lizard is not strong, and there is not much threat to these masters.

"Look, fire!"

Suddenly, a petite figure appeared on the shoulder of the dragon at the end of the magma ocean.

This petite voice is a palm-sized fire, with the same hands and feet as Shi Ling, and a pair of bright big eyes.

This is the fire spirit!

"The big world is really magical. There is still a hand and foot on a small fire. It seems that this flame dragon is the guardian of this fire spirit."

Ye Xuan thought in his heart.

This flame dragon itself can fight with the masters who have opened ten heavens. Now with Fire Spirit, its strength is enough to compete with so many masters.

Ye Xuan also discovered a little, so did not join the battle immediately.

So many people rushed to the past, for the natural fire spirit, but there is only one fire, there are dozens of people living here, so even if the flame dragon is bombed, there will be a big battle.

Ye Xuan clung to the wall and slowly approached.

At this point, the dozens of Tianmai masters have already launched an attack on the Flame Dragon.

"Roar!"

This flame dragon began to madly spray a flame, and several people who could not dodge were directly sprayed into ashes.

The temperature of this dragon's breath can be much stronger than the second wave of heat wave shock, even if it is the strongest, it does not dare to hard top.

"It's a pity that those who want to stop!"

Ye Xuan was very helpless. He looked around in a circle, but he also found more than a dozen people who had the same idea.

These warriors are waiting for humans to kill the flame dragon, and then take advantage of the fishermen, after all, there is only one way to go out.

However, what surprised them was that the smashing dragon slaughter team was still defeated by this flame dragon. It took more than ten people in ten seconds, and there was not much damage on the flame dragon.

Now, the people around can't stand it, and they rushed to help, because if the previous team was destroyed, more than a dozen of them could not kill the flame dragon.

Ye Xuan also hesitated, and sacrificed eight ridiculous dragon swords to kill the past.

"Eight ridiculous dragon sword, dragon's ruling!"

Ye Xuan joined the battle and directly pulled out a ruling of the dragon that had great damage to the dragon.

"Hey!"

The ruling of this dragon fell on the flame dragon, and immediately gave it a slap in the face, and the damage was much higher than a master who had opened ten days.

"Good!"

Everyone was trembled, and they did not expect that there would be such a powerful master here.

Originally, this dragon slaughter team was a little powerless. With Ye Xuan joining the battle, the situation was instantly reversed and the flame dragon was beaten again and again.

"Dragon's ruling!"

"Dragon's ruling!"

"Dragon's ruling!"

Ye Xuan madly attacked, not five rounds, the flame dragon was full of injuries, the rest of the people concentrated on attacking these wounds, and soon the flame dragon arrived at the end of the strong.

The fire spirit on the shoulder of the flame dragon saw the situation is not good, immediately fled, ready to drill into the magma.

"Want to go?"

A warrior near the fire spirit swept over and held the fire spirit in his hand.

However, the fire spirit had not been in his hands for a second, his head was cut off by people, and the fire spirit was transferred to the other person's hand.

This is a *, which instantly ignites the atmosphere.

"Fire spirit, ah, this is mine!"

"Roll, fire spirit belongs to my Chen family!"

"All Hu family listened to orders, gave up the attack, grabbed!"

A big melee, this is the beginning.

"Ugh....."

Ye Xuan shook his head, and the greed of humanity was once again revealed. However, he did not join the battle to **** the fire spirit and continued to attack the flame dragon.

Anyway, there is only one way to go, waiting for someone to run him and chase.

In addition to him, there are still a few people who are helping to kill the flame dragon. Ye Xuan secretly praises these people for their fucking.

"Eight ridiculous dragon sword, dragon's ruling!"

Ye Xuan suddenly swept to the back of the flame dragon, and then a squat, finally to kill this flame dragon.

The flame dragon was bombarded, but it was not dead enough to fall into the magma ocean, so he hurriedly dragged its body.

"dead!"

At this time, the person who helped him kill the flame dragon was attacking him.

The value of the flame dragon is very high, and there is only one fire spirit, so many people are staring at the sacred beast of the flame dragon.

Chapter 505: All fallen

"You are awkward, and sure enough, there is no good."

Ye Xuan roared, taking the body of the flame dragon to resist these attacks, and after the flame dragon died, he received the ring.

"Hey, the host has opened a third pulse!"

A familiar tone fell into Ye Xuan's ear, his mouth slightly tilted up, now, it is time for him to fight.

"You guys, give me death!"

Ye Xuan stepped on the void and rushed toward these people.

The strength of this group of people is above the five threads, the strength is very strong, but they do not have the best heavenly martial arts after all, their speed is still much slower than Ye Xuan.

Within five seconds, Ye Xuan is killing more than ten people. Tianmai is also getting through one. It is already the fourth.

After Ye Xuan killed all these people, he turned around and saw that the other side of the battle had stopped.

"You, there is only one fire spirit, and if you fight it, you will lose both sides and discuss a countermeasure."

An old man shouted, his dry right hand is the fire spirit that everyone wants. Behind him, he still stood more than a dozen warriors, and he wanted to come from the same power as him.

"I know you, you are Hu Jiawan of Hu family!"

Someone recognized him.

"Yes, I am Hu Wanwan!"

The old man nodded: "Life is precious. For this fire spirit, it is not worthwhile for everyone to fight for one." I hope that everyone can give up and give this fire to me. Afterwards, I will make it. There is a restatement."

If the average person hears it, I will definitely feel that this old man is a fool. Who cares so much afterwards?

However, many people present have heard of the name Hu Bawan. The reason Hu Huwan's name is widely circulated is because he makes friends and speaks.

After listening to Hu Wanwan's words, someone immediately said: "Well, I give up this fire spirit."

His strength is not strong, and he also got a lot of things along the way, harvesting a lot, there is no need to fight for a fire.

"I will give up too!"

"me too."

Many people immediately gave up.

However, there is another big force here. This is another family and a family that can compete with Hu.

The middle-aged man headed by He Jia said coldly: "Hu Bawan, although this fire spirit is only the last one, but the value is not what you Hu can swallow."

"I know that your strength is not against us, so we can cooperate and divide this fire spirit." Hu Bawan said.

"Cooperation?"

The middle-aged man glanced at the eyes and looked at the people around him.

At this time, the people standing on the side of Hu Wanwan are much more than him. If they fight, they will not necessarily lose, but they will definitely suffer heavy casualties.

"Okay, I agree!" The middle-aged man nodded.

"If this is the case, then we will go to Annan City to sell it together. This fire spirit will be placed here first." Hu Bawan took out a delicate animal cage, and then shut the fire spirit into it, and received the ring. .

The spirits of the elements such as Shi Ling and Huo Ling are all strange animals, very special, so you can receive the ring.

Now, the two sides have reached an agreement to go to the city to sell the fire spirit, and then divide the income equally, and give others some benefits.

The sum of the two of them has already exceeded half, so no one has any objections.

However, it is at this time.

"Hey!"

Suddenly a loud noise spread and one fell from the sky.

Ye Xuan stared at it and found that the man's chest was already blown open, and there was no life.

"Is there someone else?"

In the heart of Ye Xuan's heart, the man stood silently, and no one noticed who was out.

But the next moment, the loud noise spread again, and this time it was continuous.

In Ye Xuan's view, five people fell from the sky and then fell into the magma ocean, swallowed by the lava giant lizard underneath.

"Who? Who is attacking?"

Hu Wanwan turned his head and looked at it, but he could not find the murderer.

"Hey!"

Suddenly, there was a loud noise behind him.

"Damn, kill!"

Hu Bawan thought that someone was attacking them and immediately angered. And the eyes of the middle-aged man of that family suddenly turned bright and shot again.

A big fight, broke out again!

Although Ye Xuan did not understand how these people died, he still joined the battle. These people's Qiangjun ring is an experience for him.

Sixty, fifty, forty, thirty, and not a few seconds, the number is reduced to less than twenty.

Among them, Ye Xuan killed more than a dozen and won a lot of things.

"Hey, the host has opened the fifth pulse!"

A reminder sounds.

It is at this time.

"Hey!"

A loud noise fell into Ye Xuan's ear. He saw that the man in front of his eyes suddenly burst open.

Not only that, but the people around him are the same, except for him, everyone bursts open.

Now he understands.

Avoid fireballs!

It is the fireball!

He saw that those people were wearing fire-avoiding beads, which was that the fire-beads suddenly burst open and killed everyone.

Taking advantage of this opportunity, Ye Xuan swiftly swept the past, took Hu Huan's Qiang Kun ring, and then took a few people's ring.

"噗通!"

"噗通!"

A corpse fell from the sky and then fell into the magma. After Ye Xuan swallowed all the things in the ring, he opened the sixth vein.

However, at this time, he discovered that not everyone was dead, and three others stood in the air and looked at him.

One of them, he also knows, is the young man who sold the fireball to him.

"Sure enough, you..."

Ye Xuan Fang did not pay attention to it. Now, after seeing the smile of the young man with a small eyes, he said coldly.

Avoiding the fireball explosion, even a fool can guess that this is a ghost of a young girl. But what Ye Xuan didn't think was that this young girl and his acquaintances had hidden their strength.

These three people have at least opened up ten days.

"Oh, I really didn't expect that you actually received the fire-beads from the ring."

The little-eyed youth laughed and laughed.

This refuge fireball was carefully developed by him, but he did not think that Ye Xuan did not use it. After all, he did not know that Ye Xuan had the blood of life, and even the second heat wave shocked Ye Xuan did not come out.

"The plan is really good, even I haven't seen that the fire-beads are tricky, no wonder cheap."

Ye Xuan clenched the eight wild swords and looked at the three people coldly.

"If this is the case, then you will hand over the Qiang Kun, we may be able to spare you a life." Xiaoyan youth said with a smile, and set his sights on Ye Xuan's Qiang Kun ring.

"Okay."

Ye Xuan took off the Qiankun ring in the three-person gaze, and then lost it.

Chapter 506: Annan City

However, this Qiankun ring is not the same as the younger ones expected. It only flew forward three meters and then fell from the sky.

Below, but the rolling lava, if you rush into it, it will definitely melt, and the things in the ring will disappear.

"Damn, kill him!"

The young man with a small eye screamed and rushed toward the Qiankun, and it was necessary to catch it when he stopped plunging into the lava.

His speed is still fast, he estimated that he should be able to catch.

It is at this time.

"噗通!"

Suddenly a huge figure rushed out of the magma, and the young man with a small eye was caught off guard, and the one was swallowed up.

"you wanna die!"

The speed of the youngsters of the small eyes skyrocketed, and the lava lizard was instantly opened.

Qiankun Ring has already arrived.

The young man with a small sigh of relief, he made such a big plan to make plans, but also gave up many people's ring, if you have not got the fire, then it is too bad.

However, the next moment, his face is sinking, because this Qiankun ring has nothing in the air, nothing is empty, empty.

He turned his head in vain, and found two bodies falling from the air into the magma.

died!

"what?"

The youngster of the young eye is now the boss of his eyes. His two companions are also getting through the twelve heavens. How can they be easily killed?

"Oh, do you think that you have hidden strength?" Ye Xuan opened his mouth and smiled.

Where is he hiding his strength, he just broke through, and this is just a slap in the face, go out, can you not force?

"I will kill you!"

Xiaoyan youth rushed to Ye Xuan with anger and anger. He has already opened 13 Tianmai, and his strength is stronger than the two.

However, his strength fell to the eye of Ye Xuan, who has already opened six lines of veins. It is not worth mentioning.

"dead!"

Ye Xuan broke the speed and instantly killed the young man with a small eye.

To deal with such an enemy, Ye Xuan will not use the Taoist magic method.

After the death of Xiaoyan Youth, his Qiankun Ring also fell into the hands of Ye Xuan. With this Qiankun Ring, Ye Xuan opened the seventh vein.

"If you sell this fire spirit, I can at least get through the fifteen days of the pulse, and then go to another best-class martial arts to use it..."

Ye Xuan is planning in my heart.

He had forgotten to ask before, so I don't know what the quality of this fire spirit is, so I can only get it in the city to identify others. By the way, I also inquire about the insults. What is the level of hateful knives in the best martial arts.

At the moment, he just left.

He used to come out of a passage, and there are eight that have not passed. There must be a ring in the middle, so he turned the eight passages again. During the encounter, he encountered several warriors who didn't have long eyes. Give one by one to kill.

However, after he left the volcano, he ran into a group of warriors. It is natural to say that these people are in the crater. They want to be fishermen.

Ye Xuan looked around in a circle. There were only 30 people here, but he felt a few strong breaths. I am afraid that he has already opened fifteen days.

"The strong is a lot..."

Ye Xuan frowned, and because of the difference in grades, he also could not grasp the strength of these people.

"Kid, give up your Qiang Kun!"

Suddenly one person shouted.

Sure enough, this is the same as Ye Xuan expected.

In fact, he can directly use the Taoist genius Dafa, and fight with these people, but the Taoist Dafa will expand the magic, and his current realm can only be used once or twice, very precious.

Therefore, he thinks it is still a matter of guessing.

"This big brother, beg for my life..."

Ye Xuan took advantage of the Qiang Kun ring used for camouflage and handed it over.

The warrior felt it, and Ye Xuan did not have any other shackles, and then he took the leaves of Ye Xuan and quit.

This group of people felt that Ye Xuan's strength was not strong, so he was too lazy to start, let him leave.

Later, Ye Xuan turned around and left. In his heart, the wealth of these people can be far less than the Taoist Dafa.

Now, the fire spirit is in his hands, so he has to find a big city, and the big auction will be sold.

He has a map in his hand. The nearest one to him is a city called Annan City. It is said that the city owner is a master of the peak of the heavens, only one step away from the divine situation.

"Fangcai Huhuan also said that Annan City, I will go and see if it is fair..."

Ye Xuan thought in his heart.

The value of the fire spirit is very high, and he is also afraid of the same set of faces and the other set of backs.

He has only opened seven veins now, and it is not a big thing in this high-level territory. If a master is eyeing him, it will be miserable.

Therefore, we must be cautious.

It took him half a day to get to the city of Annan.

Then it took a while to explore the situation in Annan City.

"The auction house is said to have been opened by the city owner, but it is honest, there has not been any murder and treasure..."

Ye Xuan thought about it.

However, he still felt that he should be careful to take some things and sell them.

He walked into the largest auction house in Annan City, and then took some martial arts. The waiter at the auction house looked at it, but found a few that he had not seen before, so he bought some of the best condensed stones.

"Do you have the best heavenly martial arts here?" Ye Xuan asked.

The waiter at the auction house nodded: "Yes, but the worst is also the 200,000 fine stones."

"200,000 best condensed stones..."

Ye Xuan's eyes glimpsed before he sold a few top-grade martial arts and sold only 20,000.

However, there are still a lot of ore and upper-class objects in his engulfing space.

Although Megatron died, he still did not change the habit of leaving these things after the war.

At the moment, he just took all of these things out.

The waiter was stunned, and Ye Xuan's things were worth at least a hundred thousand condensed stones.

Then he just counted it.

"Hello, these things, worth two hundred and thirty thousand best condensed stones..." the waiter replied.

"It's only 230,000, plus 20,000 above, it's only 250,000. You can only buy one of the lowest-level martial arts."

Ye Xuan frowned and then asked: "Do you have a hateful knife here?"

"Hate the law?" The waiter stunned and then nodded: "Yes, the price is a million dollars."

"It seems that this martial arts is not bad. However, 90% of the fires hate the law, I am afraid that the price will be turned over several times."

Ye Xuan thought for a moment in his heart and said: "How much can I sell a **** seed that is 90% hot?"

"what?"

The waiter was shocked.

Chapter 507: Continuous breakthrough

Hate the law, it is a kind of martial arts that is difficult to cultivate, and its power is huge.

Even if it is a talented person, it takes ten years to cultivate the hate-knife method to 90% of the fire. It is likely to be twenty or thirty years.

And a martial arts seed, even the best heavenly martial arts, can refine in a year or two.

In short, you can save a lot of time.

"Hello, are you going to sell?" the waiter asked blankly.

"Not bad." Ye Xuan nodded.

"Then please wait a moment, I have to ask."

When the waiter finished speaking, he left directly. It didn't take long for him to come back and bring back a number.

"Five million million condensed stones!"

This price is also a shock to Ye Xuan, the price has actually turned up five times.

There are indeed a lot of five million condensed stones, but for the masters, time is more precious. If the martial arts seed that hates the knives is a 10% fire, the price will probably go up several times.

At the moment, Ye Xuan decided to sell.

Soon, the waiter brought in five million pieces of the best condensed stone, and Ye Xuan, also gave the blood of the little grievance to the waiter.

"Hey, the host has opened the eighth pulse!"

"Hey, the host has opened the ninth pulse!"

.....

"Hey, the host has opened the fourteenth pulse!"

"Hey, the host has opened the fifteenth pulse!"

Ye Xuan swallowed up four million of the best condensed stones on the spot, and the realm soared.

The waiter was shocked, but the next moment he understood that Ye Xuan was hiding his strength.

How could it be so much to break through at once?

Now, the realm is there. He still needs two martial arts, one sword and one body.

He spent the last one million of the best condensed stone, changed two martial arts, and bought a book about the spirit of the element.

These two martial arts, one called the sword of the ground crack, one called the battle dragon step, are the best heavenly martial arts, but also all of the soil properties.

He hasn't tested talent yet, but he estimates that his soil affinity is absolutely up to the epic level, so the Wu Society using this soil property is better.

After leaving the auction house, Ye Xuan lived directly in Annan City, practicing swordsmanship and bodywork.

At the same time, he also understands that the fire spirit he caught is only the spirit of the lowest element, but the price, Ye Xuan is estimated to be at least ten or even hundreds of martial arts seeds that hate the law.

He wants to sell it, but remembering such a large number may cause trouble, and the fire attribute of the Song ruling has the highest affinity, so he wants to keep the ruling.

The most important thing is that this Annan City may not be able to eat!

In the following days, he cultivated the sword of the ground crack and the dragon step in the city of Annan. Although they are the bottom of the best martial arts, they are better than the swordsmanship and the Qing Dynasty. More.

"With this cracked sword and the dragon's step, my strength on land is at least twice that in the air..."

In a house in Annan City, Ye Xuan's eyes couldn't help but burst out with two fine mansions.

He practiced for more than ten days in the city of Annan, and finally he has cultivated the sword of the fissure and the dragon of the land to a 60% fire.

Since he has not yet broken through to the divine situation, he cannot raise these two martial arts to 70%. However, his strength has increased at least twice as much as before.

The sword of the ground crack is a very special martial art. Even if Ye Xuan pulls out a glimpse of the ground, this sniper can also be swept away from the enemy's feet after the ground has swept away.

And when the dragons step, every step can resonate with the earth. With Ye Xuan's current realm, he can easily step on a concussion with a foot and a foot on the ground.

With these two martial arts, Ye Xuan is extremely powerful on land.

However, this cracked sword and war dragon step is not very popular, because the soil properties are very small, and the affinity is not very high, it is very difficult to practice, so this is cheaper Ye Xuan.

"Almost, it's time to find a place to experience it and try the effect..."

Ye Xuan thought in his heart.

Although both martial arts have been upgraded to 60% of the fire, but martial arts still have to be applied.

However, at this time, Annan City suddenly became a noisy.

"A hundred ghost old people, a hundred ghost old people are coming!"

"What, where?"

"Isn't the old ghosts live in Baigui Mountain? And the main well water in Annan City does not make river water. How come to Annan City today?"

"Isn't it going to be the main gantry? Going fast, the ghosts of the old ghosts are fierce..."

Ye Xuan can hear a lot of people talking about it.

One hundred old ghosts, once you hear this name is a demon outer road, it will not be to attack the city?

Ye Xuan thought so in the heart, trying to find the traces of the old ghosts.

At this moment, suddenly a voice spread like a thunder in the air.

"A hundred old ghosts, what are you doing?"

A middle-aged person plucked into the sky and reflected the eyes of Ye Xuan.

Looking at the figure of this figure, Ye Xuan found the old man.

In the distance, four people are working together to carry a sedan chair. A black-shoulder is sitting on the sedan chair. It is obviously the old man.

However, after Ye Xuan saw the two figures standing on the left and right sides of the hundred ghosts, the whole person was a tiger.

These two figures are translucent and are a horrible grievance.

But this is nothing. What makes Ye Xuan really strange is that the old ghost standing on the left hand side of the hundred ghosts has seen him, that is, the little grievance of the ghost tomb, gave Ye Xuan the hateful knife method. The ghost king of blood seeds!

"How could it be her, how is she here?"

Ye Xuan brows a pick, suddenly, he saw a thing at the feet of Xiao Wing Ling.

Ankle!

The little grievances were caught.

Her face is ugly, and obviously she does not want to stay with the old man.

Ye Xuan's face sank, and suddenly she remembered that she still owes a small grievance to a person's feelings, that is, the person who hates the blood of the knives.

He paused and squinted in his heart.

At this time, the old ghosts looked at the main road of Annan City: "Annan City Lord, don't worry, I am not coming to find you trouble, I am here to find you cooperation."

"Cooperation? What is the cooperation?" Annan City is somewhat surprised.

He is the peak of the heavens and the pulse, is attacking the divine situation, and this hundred ghost old people are also the peak of the heavens and veins. If they fight, he is not afraid of the old ghosts.

However, if they fight two times, it will not be so easy to end, know that his foot is his city.

"In the hundred miles north of my Baiyun Mountain, there is a secret. I want to invite Annan City Master to explore with me." The old man said, his voice is so loud that most people in the city can hear it.

Chapter 508: Mystery

"Mystery?" Annan City Lord stunned.

The mystery is an unknown place that suddenly appears. There is an unknown danger inside, and there will be time constraints. When the time passes, the secret will disappear.

"Yes, when entering the secret environment is the civil environment, there may be soil spirits and wood spirits."

Lingguo!

When I heard this name, everyone was shocked.

The attribute of the fruit, but the ability to enhance the affinity of the attribute, Annan City has been stuck in the peak of the pulse, if you get a property of the fruit, perhaps you can break through the divine situation.

"Wood fruit?"

The eyes of Annan City are bright.

There is something in the city's main house that tests the affinity of the attribute. Although it can only measure the highest attribute, it is just that the attribute of the highest affinity is the wood attribute, which is the epic.

If he is allowed to get a wooden fruit, then he will break through to the divine situation, and the chances of condensing the wood **** will be greatly enhanced.

However, this hundred ghost old man is a demon outside, even if he is an ordinary warrior, Annan city owner can not fully believe.

"What are you talking about?" Annan City Lord questioned.

"It's true that you don't believe that Annan's city owner can go and see if there is really a wood fruit or a soil fruit in it, I can't guarantee it. I know that the Annan city owner has the highest affinity for wood, and my old ghost is earth. The attribute affinity is the highest, and the attributes of our two do not conflict."

Indeed, one needs wood spirits, one needs earth spirits, and if they do, they will not turn against each other.

But this is not necessarily true, because the Annan city owner only knows that his wood attribute has the highest affinity, and the soil attribute affinity is second, and the wood attribute is not much different.

If this is the case, then taking the soil fruit, you may be able to condense the gods, although it is a **** of the earth, but at least can break through the divine situation.

"I will take a look first." Annan City Lord did not immediately agree.

"Okay, then I will wait for you for three days. After three days, I will wait for you in the secret. If you don't come, then I will explore one by one."

The old man of the hundred ghosts finished, that is, the four pale-faced youths carried the sedan chair and left.

The dialogue between the old man and the Annan city owner fell into the ears of all people. The old ghosts did not avoid it. After all, he did not know the danger in this secret, so some people need to be advanced to see. In short, It is cannon fodder.

Hundreds of ghosts to the north of the hundred miles, as long as individuals can pass, in these three days, there will certainly be people to explore.

Ye Xuan frowned, and now his strength has soared so much, and he is also interested in this secret.

The most important thing is that the little grievance is caught by the old ghosts. He wants to report the grievances.

Just after the old ghosts left, Ye Xuan also inquired about the location of the next hundred ghost mountains, and then rushed over.

Not only that, but many people have the same idea with him.

The secret entrance was one hundred miles north of Baiguishan. Ye Xuan spent a day and found the entrance to this secret.

The entrance to the secret is actually like a space door, in the air on a cliff.

Ye Xuan looked far away, but he could see the scenery inside the secret, it was a jungle.

At this time, there are already thousands of people around the entrance to this secret. They all heard the words of the old man, and they are ready to go in and explore.

There have been a lot of legends about the mystery before. For example, the martial arts peaks and martial artists entered, and they broke through to the divine situation.

Of course, even if the master of God's dilemma enters an unknown mystery, it may fall into the inside, so it must be done with caution.

At this time, a few figures came out of the secret, these people are the ones who go in and explore the way.

They naturally wouldn't say what they got, but they shared one.

In the secret world, you can't fly!

After hearing this, Ye Xuan's eyes are also bright, it seems that there is a forbidden array in this secret.

The two best-level martial arts that he is currently practicing are all exerted on the ground to be able to exert 10% of the power.

If the sword of the ground crack is in the air, it will only be stronger than the sword sword of the Qing Dynasty. It cannot be said to be strange.

The same is true for the dragons. If the dragons step into the air, they can only be better than the Qing Dynasty, and they cannot resonate with the earth and cannot influence the enemy's mind in the battle.

It is bad news for other people to ban the air in the secret, but for Ye Xuan, it is a good news.

Ye Xuan couldn't help but snicker in his heart. He didn't dare to laugh on the spot, otherwise he might be besieged by other people. After all, in other people's eyes, this is a schadenfreak.

After he spent a day at the entrance to the secret, the old ghosts came, and there were dozens of masters in Baiyue Mountain.

"Come on, go away."

After seeing the old man of the hundred ghosts, the warriors of other forces also rushed back to Sanshe. After all, the old ghosts of the hundred ghosts were there, and if they accidentally annoyed, they would only die.

Ye Xuan is also standing in the old age, the little grievance is still standing on the left hand side of the old ghost, at this time she did not find Ye Xuan, looks cold, like a prisoner in captivity.

Ye Xuanyuan will report, but there is also a report that will be reported. If it is not the 90% of the hateful blood of the knife, he will not be able to open the fifteenth vein, and it is even impossible to learn the best martial arts.

This person, he still has to pay back, want to save the little grievances, then only kill the old ghosts.

"The people in Annan City haven't come yet..." The old man of Baiyin has a look at the old eyes. This is the last day. If the Annan city owner still does not come, then he will go in and explore.

However, the old man of Baigui estimates that if the Annan city owner is not sure to break through to the divine situation, he will definitely come.

Sure enough, an hour after his arrival, Annan City Lord came with a group of masters.

The people brought by Annan City Lord are not less than a hundred ghost old people, and their strength is very strong. There are also peaks and peaks, and the worst ones have also opened up 20 heavens.

"Ha ha ha, welcome."

The old man of the hundred ghosts smiled.

This secret, he is not sure, so he only cooperated with Annan City. If the Annan City Lord joins, if the two sides cooperate, then their strength will increase a lot.

The fruit is important, but life is more important.

"A hundred ghost old people, let's go!"

Annan City Lord is not nonsense, directly meets with the old ghosts, and then enters the secret together.

Before they entered, hundreds of people actually entered the secret, and soon after they entered, only people continued to follow.

Chapter 509: Big eater

"The two sides have joined forces. There is no way to rely on me alone, or to upgrade the strength first."

Ye Xuan's heart is a dark sentence.

This Annan city owner and the hundred ghost old people are already the peaks of the heavens and the pulse, all of them are shocking the divine situation and condensing the attributes of the gods. Moreover, the two masters of the best martial arts must also be higher than the sword of the ground and the dragon of the war, so their strength is very strong, and Ye Xuan does not want to be an enemy for them.

After the old man of the hundred ghosts went in for an hour, he entered the secret.

His forefoot has just stepped into the secret, it is a feeling of pressure, this should be the forbidden effect of the secret.

He tried it. Sure enough, the air-conditioned flight had no effect, and even the bounce ability was limited to tens of meters.

"Brother, team is not?"

At this time, Ye Xuan suddenly had a voice floating behind him.

Ye Xuan turned around and looked at it. It was a middle-aged man who was acting alone. The strength is probably around fifteen days.

This strength, among the teams entering the secret world, is the bottom level.

"no thank you."

Ye Xuan shook his head and went straight into the forest.

The middle-aged man's eyes glanced and followed.

Sure enough, Ye Xuan expected that the middle-aged man was staring at him and wanted to kill and win the treasure.

"Kid, die!"

The middle-aged man drank a big sentence and directly took a sword at the back of Ye Xuan.

However, Ye Xuan did not return, and took a sword against the ground in front, and then took a step.

"Hey!"

A sigh of force went straight down the ground. The middle-aged man only felt his head tremble. Immediately, the land in front of him suddenly smashed a sniper and instantly cut off his head.

The sword of the ground crack!

Fight the dragon!

"Is it a trouble to come to me?"

Ye Xuan turned around at this time, and walked over and put the Qiankun ring away.

I have to say that this cracked sword and the dragon are really too cloudy, and it is very difficult for ordinary people to defend.

However, even in the air, Ye Xuan can also rely on 30% of the speed of movement to instantly kill the middle-aged.

The middle-aged man went out, and there were not many things, so Ye Xuan didn't get much, which also made him dismiss the idea of robbery at the entrance.

"Or look for Tianbao Dibao first."

Ye Xuan thought in his heart.

According to the footprints of the entrance to the secrets of the genius, the team of the old ghosts and the Annan city lord went straight ahead. He did not want to confront the two teams for the time being, so he was circumvented.

This forest looks ordinary and calm, but Ye Xuan uses the induction to discover the danger of lurking around.

"Sword of the Ground Crack!"

Ye Xuan made a few snipers toward the ground under his feet. Then, these snipers were plucked from a place 100 meters away.

"Oh!"

A lizard-like sacred beast was killed.

Ye Xuan took a look at it and turned out to be a dog-sized chameleon. The chameleon turned green and hid in the grass. The color was almost the same as the green grass. It is no wonder that he did not see it with the naked eye.

He swallowed the body of the sacred beast and the sacred beast and gained a lot of experience.

"The forest is comparable to the fifteen heavenly beasts. This forest is really not simple. If it is still, it is difficult for ordinary people to find out. If it is attacked by it, even if it is a master of 20 heavens, it is possible. Fallen."

Ye Xuan thought in his heart and went on.

On the way, he encountered a lot of crises, such as the tree magic, big lizards, poisonous flowers and poisonous grasses encountered before.

These crises are a good solution for him, nothing.

However, this time, he is tragedy.

At this time, he came to a sea of flowers, because he could not fly, so he could only walk in.

Before he came in, he also investigated and found that these flowers were not poisonous, and they were all treasures.

If the average person is here, it will definitely be a big deal, but Ye Xuan feels a bit strange here and is carefully picking it.

However, when Ye Xuan gave the surrounding heavenly treasures the light, suddenly, the earth began to oscillate, and then he saw a wall suddenly erected around him, and a big mouth appeared at his feet.

This turned out to be a big eater!

"The trough!"

Ye Xuan was scared to death, he wanted to escape, but he would not fly, so he was swallowed directly.

After the flower mouth was closed, there was an air wave that rushed Ye Xuan to the point.

"Zizi."

Ye Xuan was rushed into a liquid, and the whole person began to smoke, the skin began to melt, and blood oozing out.

This next Ye Xuan came to the reaction, he fell to the place where the piranha was digested, these are digestive juices.

"It's so strong and corrosive, ten times stronger than the heat waves in the hot caves!"

Ye Xuan hurriedly jumped out of the venom, and then stepped on the Eight Shields. Although he could not fly, he was able to control the Eight Shields.

If the average person comes in, I am afraid that at least one layer of skin will be melted. Fortunately, Ye Xuan has the blood of the life tree, and repaired the injury in less than a second.

He took out a set of clothes and put it on the environment. The digestive part of the piranha is not big, but it has a lot of white bones.

It seems that before these people came in, there were already other people coming in.

The mystery has time constraints and the location is different, just like a window that God suddenly opened.

And this big eater is the first time to close the mouth, so Ye Xuan speculated that these bones are not their group.

"You can't manage so much, go out and talk!"

Ye Xuan took out a special celestial device and attacked the stomach wall of the piranha directly on the Eight Shields.

"Hey!"

"Hey!"

"Hey!"

The defensive power of the stomach of the piranha is still strong. Ye Xuan did not break the attack several times. However, the piranha flower was so painful that the stomach juice below was like a storm, and it rolled up.

Ye Xuan ignored these gastric juices and continued to attack.

Half a minute later, the stomach wall of the piranha was broken, and then Ye Xuan quickly drilled in and broke out.

"I always figured it out, Grandma, I was eaten for the first time, give me to die!"

Ye Xuan reorganized the Eight-Day Sword, while stepping on the battle dragon, while attacking with the sword of the ground crack.

This big piranha has a few tough rattan whip, but the land is the home of Ye Xuan, and the rattan whip can't get Ye Xuan.

This battle has been more than two minutes.

The vitality of this big piranha is very tenacious, and its resilience is amazing. If Ye Xuan has the blood of life, it is really impossible.

After the four big mouths of this big eater hang down weakly, Ye Xuan is also relieved. This big eater is not a sacred beast, it is also a kind of beast, so there is no sacred beast. .

However, what makes Ye Xuan strange is that after the death of this big eater, he began to quickly wither and succumbed to a seed.

Chapter 510: Wood Linguo

"This is, the fine wood?"

Ye Xuan's eyes lit up.

The fineness of the wood is something that can enhance the affinity of the wood attribute. It seems that this war is not a waste of effort.

At the moment, Ye Xuan is collecting the fineness of this wood.

"Kid, let go of the fine wood!"

Suddenly a violent sizzling sounded and six figures came out of the forest.

Fang Caixuan was fighting, but he did not find someone hiding in the forest as a fisherman.

"I just want you to kill someone and win the treasure?"

Ye Xuan puts the essence of the wood into the phagocytic space and then directly devours it.

The fineness of wood can enhance the affinity of wood properties, but he feels that he should have the highest affinity for soil properties, so he decided to swallow and not refine.

"Hey, the host has opened the seventeenth pulse!"

This fine wood, let Ye Xuan directly open two days.

"kill!"

At the same time, after he swallowed up, the few people also killed him.

"Oh, don't be self-sufficient."

Ye Xuan said coldly, one foot on the floor, and the six people felt a roar of their heads.

The battle dragon step has been trained by Ye Xuan to the point where it is 60% hot, that is, the six-step, one foot can deal with six people, or six people can deal with one person.

Although separated, but this foot, Ye Xuan directly let the six people stun for a second.

One second is very fast for ordinary people, but for people like Ye Xuan, one second can decide a lot of things.

"The sword of the ground crack, die!"

When the six people were dizzy, Ye Xuan screamed six swords at the ground in front of him. The six people had not responded yet, and they had already been cut off their heads.

Six people, instantly killed!

“噗通!” “噗通!” “噗通!”

Six heads fell to the ground, and Ye Xuan took a sword with a sword, and walked slowly.

The strength of these six people are between the 16th and the 18th, but they are the first time they have encountered this wonderful martial arts, so they are planted here.

"That's a million of the best stones, it's too much!"

Ye Xuan sighed in his heart.

However, in general, it is still due to Megatron. Without my Megatron, Ye Xuan's soil affinity may not be so high, and it will not be so easy to raise the proficiency to such a high level.

After the six pieces of Qiang Kun were put away, Ye Xuan continued to move forward. There were not many things in the ring of the Qiankun. He could not get through the eighteenth vein.

After this encounter, Ye Xuan was more cautious. From time to time, he used the cracked sword to explore the surroundings. If there is a vision, he will know immediately.

However, one hour after he entered the secret, he finally encountered a large force.

No, it is two!

Ye Xuan looked at the two teams that had gone up in the distance, and said in the heart: "Sure enough, there are interests, and cooperation is false."

These two teams are the team of Annan city owners and the old ghosts.

At this point, they are in the midst of a big battle.

Ye Xuan glanced at it and found that the number of the two teams had dropped sharply. It seems that there was a crisis on the way.

"A hundred ghost old people, are you not saying that the wood spirits will be given to me?" Annan City Lord shouted.

"Hey, when did the old man of the hundred ghosts say this? I have the highest affinity for the soil, but I also need this wood fruit!"

The old man of the hundred ghosts is fighting with the Annan city master. At the same time, his two ghosts are also killed in the camp of the main party of Annan City, and they are attacked wildly.

Ghost spirit is a higher level of death creature than Wraith. After the resurgence of the small ghosts, the strength is already at its peak.

The same is true of the other one.

I have to count it down, and there are more masters on the side of Bai Guishan.

"A hundred old ghosts, I am even dead, will not let you get this wood fruit!"

The Annan city owner has already made a determined determination to attack the old ghosts.

Ye Xuan, who was watching from a distance, hesitated.

The wood-fruited fruit is ten times more precious than the finest wood. If he gets this wood-fruited fruit, he can at least get through ten heavens.

At that time, who can stop him?

"It's time to play."

After Ye Xuan made a decision in his heart, he directly displayed his cards and made a big devil!

The magical species in his heart is also growing again.

"kill!"

Ye Xuan directly joined the battle, but this time he first joined the Annan City side, killing the masters of the hundred ghost mountains.

"Sword of the Ground, War Dragon!"

Ye Xuan began to attack wildly.

If he does not pay attention to the use of the war dragons, he will use the war dragons to step through the realm of the seventeen heavens.

This is a trick, then it will die.

"Hey!"

"Hey!"

"Hey!"

After a series of six attacks that shocked the mind, he slammed into the body of a hundred ghosts. He paused. At the next moment, his head was cut by the sniper from the ground.

Spike!

Ye Xuan quickly took off his Qiang Kun ring and then killed it again.

Every time he uses a dragon, he will have a warrior.

Originally, such a high-level martial arts, the average person will not be easy to use, but he has the blood of the life tree, the resilience is extremely fast, no fear at all.

Fight the dragon!

The sword of the ground crack!

Ye Xuan is invincible with insidious tricks.

"Hey, the host has opened the eighteenth pulse!"

His realm has been constantly improving, and it has reversed the whole situation.

"Damn, where did this kid come out?"

A warrior from Bai Guishan roared and rushed toward Ye Xuan.

"Tianmai peak?"

Ye Xuan looked a condensate, he felt that the warrior had opened at least twenty-eight days.

The peak of the Tianmai is not the person who has opened the thirty-two Tianmai. Anyone with more than twenty-eight can be called the peak of the Tianmai. There is no hard requirement.

Twenty-eight Tianmai, more than ten Xuanyuan through dozens of days, in the intensity of the gas and the call of heaven and earth, above Ye Xuan is not a trace.

However, Ye Xuan is pregnant with three top blood, plus eight wild swords, three agile advances, etc., so that he is not afraid of this person.

"The Dragon 6 is heavy, I am shaking your legs!"

Ye Xuan stepped on the ground, and the foot of this hundred ghost mountain warriors produced six frequency oscillations.

"Hey!"

The right foot of the Tianmai Fengwu martial artist of the Baigui Mountain suddenly slammed and his body tilted to the right.

"what?"

He was so horrible that he could not believe it.

How can someone like him be able to run?

He also understands that this is the ghost of Ye Xuan, but this is already a past tense. Now, Ye Xuan has already killed him in front of him with a speed, and then he has a sword.
