Chapter 5011: The situation is not good

"Roar!"

boom....."

Oh la la..."

In the distance ahead, as the body type only succumbs to the violent temper of the emperor, the body is full of 500 million miles, and the huge incomparable beast is once again looking up, sending out a terrible roar...

Then, among the four horror arms in his body that are like the giant pillars of the sky, two of them suddenly lifted up and slammed into the void in front of the left side!

There are some life stars in this area, but it is estimated that there is no life inside the stars, or they have already escaped, and they have rushed to the distant place of the void, or they have already passed under the violent roar of the endless heaven and earth. , directly exploding and dying...

At this moment, with the two fists of the emperor and the beast full of force, there are several life stars in the direction of the front of this direction, completely turned into powder, fly ash and smoke, and become the cosmic dust! very

Obviously, it is Emperor Yi who occupies the control of the body of the emperor at this moment. and

Moreover, compared with the previous one, the emperor has become more and more intolerant, and even the violent roar of his hair has revealed obvious urgency.

As the emperor returns to the emptiness of this piece of land, in the case of Emperor Yi, it is equivalent to returning to his home.

Because he and the wilderness of the heavens and blue eyes are just a group! positive

Because of this, after every acquisition of the body control of the beast, the Emperor will not hesitate to mobilize all the power, throwing the punches again and again, aimlessly bombarding the surrounding voids...

The purpose of one is to stir up more movements in this piece of debris, in order to attract the attention of the blind eye. only

If this goal is achieved, if he succeeds, once the attention of the eye-catching eyes of the wilderness is attracted, even if it is only an avatar of the heavenly eye, it is enough for the emperor, and is competing with him. Emperor II, who controls the body of the beast, will be defeated in an instant, suppressed by the invisible, and unwillingly swallowed up!

However, from the time of return to the present, it has been two days. The huge body of the beast is flying from the star field where the Terran Federation is located, and the emperor along the way, under the control of him and the emperor. I don't know how many stars have been blasted, and the movement is not too big.

But even so, the ruin of the emptiness of this piece of land, that is, the heavenly eye, but it has never appeared, it seems to be being dragged by something very important, or the eyes can not be bet here, or it has already been sensed. The accident that happened here, but it has no time to take care of this...

Two possibilities, no matter which one, for Emperor Yi, are definitely not good things. The reason why he is more and more uneasy is the reason. this

Engraved, as he blasted again with two punches, the power displayed by the beast was significantly more violent than before...

After the two fists blasted, not only did the stars burst into powder, but even the universe around the stars, which was hundreds of millions of miles wide, fell into a full-scale collapse, and there was a strange roar like a roaring wave. ring.

In the entire area, a dark hole like a black hole appeared in an instant, and the endless stream of emptiness spurred open and shot everywhere! but

All of this still has no use. The heavens and blue eyes that control the emptiness of this piece of ruined land are still missing, and there is no even a harbinger of the coming of the coming...

One is really anxious, which makes him unable to see hope, because if the blue sky and the green eye do not appear again, he will not be able to support it for a long time...

At the beginning of the World War I, the celestial beast that merged with all the tribes of the entire celestial family, although it has already entered the real heaven, but I do not know why, but it has not been very good.

At the time of the breakthrough, the injury caused by the thunder of heaven was not fully restored, and the realm had not yet had time to stabilize. It was killed by the more than 20 ridiculous monsters of the Demon Hall and the Heavenly Alliance. he

Originally, it was possible to suppress everything, but at the last juncture, Ye Xuan, the master of the Temple of Devils, actually displayed the sacred Tianzhu, which is even the most powerful and powerful.

In an instant, a huge pair of holes of 50 million miles in diameter were left on the huge body of the Tianji beast...

This is not a big deal. Even in such a wound, he still has the power to fight back, at least to take it easy.

However, at that time, Emperor II suddenly tore up the last seal in the body, and together with all the mechanical tribes who fell down to merge into a mechanical beast, although the strength is not as good as him, but he is not afraid of death, directly rushed up. I have to work hard with him.

Under the circumstance, the celestial beast was almost smashed into a robotic stick. Eventually, Cangjie escaped into the endless stream of emptiness, but the mechanical beasts that were mad like it had been chasing the mammoth, and finally the celestial beast was actually a mechanical beast. Completely swallowed bit by bit...

As a result, the present emperor was also derived, and the electronic consciousness of Emperor Yi, who was originally in the celestial body, appeared in the body of the beast with Emperor II. This

There is no retreat in the situation. He and the emperor must die one. This killing can end.

However, although Emperor II is not as strong as him, he has never been injured, but Emperor Yi himself has never recovered. Although it is a heavenly existence, after losing the mechanical treasure of the heavenly beast, it is only his electronic consciousness. In fact, it's just a half-step...

In this case, he and the emperor's electronic consciousness in the body of the beasts fight and devour each other, and as time goes by, the advantage of the emperor has become more and more obvious, and he is caught in a decline.

According to the derivation of Emperor Yi, if he is no longer appearing in the blue sky, he will continue to insist on one day at the same time. At that time, he will give up and escape the body of the beast, and will slap the heavenly body of the supreme mechanical treasure. , or ... can only be swallowed up by the emperor! shape

The situation is extremely bad!

"Roar!"

Rumble..."

Just as the emperor was depressed, the direction of the right side of the emperor suddenly came with a terrifying roar, followed by a thunderous thunder, and the void was trembled. The power was not weak, and it was clearly nine steps. The peak of the great perfection, that is, half-step heaven...

Subconsciously, the sight of the beast of the beast was transferred and the violent movement was seen. In a moment, I saw a violent temper, and my body shape was only a high level. Compared with the beast, the smallness is like a grain of dust, but at the moment it is single. Holding a \*\*\*\* stick in his hand, the whole body was turned into a speedy man, and he squatted toward his right waist area... He came over!

"The Lord of the Magic Temple, Ye Xuan?"

Roar....."

"You ants, actually dare to provoke the deity? It is simply looking for death..."

Only one glance, the Emperor recognized who the person is, the old hate rushed to the heart, he was angry immediately, the beast screamed, four mechanical arms like a giant pillar, there is a lift From the beginning, I rushed to the past...

Chapter 5012: The emperor is gone

"Roar.....""

You ants, actually dare to challenge the deity? It's just looking for death..."

Only one glance, Emperor Yi recognized Ye Xuan, the old hate rushed to the heart, he was angry immediately, the beast screamed, four mechanical arm like a giant pillar, there is a lift, all the power Boomed over..."

call out! "micro

The weak sound of the air broke, and Ye Xuan's figure was fleeting, and the blink of an eye had already reached the other direction. Under the sway of the cold, the right hand dragged the \*\*\*\* stick, the sorghum over the top, and the squatting Go on..."

Rumble..."

"boom!"

There is no suspense, the right shoulder of the beast is instantly smashed, and a huge pit appears, but for him with a body size of 50,000 miles, it is irrelevant, just a slight tremble And already...

"Roar!"

"Damn, you have the ability to hide..."

The boxing was empty, but the other side got to the right shoulder and gave himself a moment. The emperor was furious, and another mechanical arm lifted up and swept over to this side. can

Unfortunately, the violent tempo started the teleport again. Under the flash, the blink of an eye changed its position, without hesitation, the \*\*\*\* stick picked up, and it was a stick to knock down...

At this time, the temperament is only sturdy, and the body shape is extremely flexible. Although the body shape of the beast is also very flexible, its body shape is 500 million miles after all, compared with the violent temperament. It's like a little dust...try

Q. A very fast and incomparable speed, and the dust that can be teleported around your body constantly wanders around your body. What a depressing thing to hit with a punch? leaf

Xuan is expected to do this, so it will rush forward, and fight with the emperor at close range.

Of course, this level of attack does not make much substantial harm to the Emperor, but at least it can contain the consciousness of Emperor Yi, and even cause him to fall into madness...

In Ye Xuan's case, this is enough. His purpose is to create an opportunity for the electronic body that has entered the body of the beast and is crouching inside.

"What is he doing? Is it tickling this emperor?"

What is the effect of such an attack? Even if it is another 10,000, it will not bring any substantial harm to the beast..."

Too irritating, Ye Xuan, the master of the temple, has been bored to this extent, preferring to tickle the emperor, lazy to wait for me to shoot, simply... deceiving too much! ”

In the distance, the blood-scarred lion and the two human races from the Terran Federation were dull and sullen, and all the faces were full of anger and anger...

.....

At the same time, the body of the beast! emperor

The animal body is huge and huge, more than 500 million miles away. In fact, its body space is more vast, almost can be said to be a piece of heaven and earth. After all, today's emperor is already a true heavenly power. in

In the most central part of the world, there is a nebula-like whirlpool that emits a gray glory. This gray whirlpool like a nebula is the sea of the beast. Such as

Today, the electronic consciousness of Emperor Yi and Emperor II are all within this gray vortex, and Ye Xuan's electronic avatar has also entered...

The electronic life, whether it is a mechanical or a formal family of the celestial family, is actually a series of changes, possessing the wisdom and self-awareness of the data, just like the spirit of flesh and blood, it is also a mysterious existence.

Ye Xuan's electronic avatar is also just a glimpse of electronic data. Now it has sneaked into the sea of the beast. The only purpose is to devour all the data that represents the electronic consciousness of Emperor Yi and Emperor II. when

However, the data is an abstract existence, and now it is a light group in the sea. At present, there are only two faint light groups that can be seen in this sea. One is light blue and the other is light. Golden.

The two light groups are only a little bit small, the light blue light group is the electronic consciousness of the emperor, and the pale gold is the emperor.

As for Ye Xuan's electronic consciousness, although it is also in this piece of knowledge, and it is close to the electronic consciousness of Emperor Yi, it is not visible.

Before the electronic avatar left Ye Xuan's body, Ye Xuan injected a pure spiritual power. Today, his electronic avatar is still in the state of perfect shock.

Although Emperor Yi had previously entered the heavens, it was not his electronic consciousness that entered the heavens as a separate individual, but with the Tianji beast. Therefore, from a certain point of view, it is only the electronic of Emperor Yi. Consciousness is still not a true heavenly existence. he

It can only be regarded as a slight exposure to the consciousness of the edge of the heavens, so his electronic consciousness is pale gold.

The Emperor II had previously torn the last seal in the body. Today, his electronic consciousness is also a ridiculous nine-order great consummation. when

However, Ye Xuan's electronic consciousness is also true. and also

That is to say, nowadays two bright and one dark, three electronic consciousness in the sea of the emperor and the beast are all half-step heavenly cultivation, maybe the emperor is slightly stronger, but after all, he was injured and has been with the emperor. Fighting for each other. Place

Therefore, from this point of view, among the three electronic consciousness, it is the last electronic avatar of Ye Xuan. Because it is easy to work, it is the most powerful at the moment, but it is also limited.

"call out!"

"call out....."

The sharp sound of the air broke out, and one blue and one gold spurred in the void. The front was a pale gold light group, and the chasing behind was the blue light group representing the emperor's electronic consciousness. This

The sea of knowledge is extremely vast. The most central area has a quaint mountain peak that looks like an altar. It is only a hundred feet high, and the surface is etched with various complicated patterns. The material should be a special crystal.

This crystal that is like a mountain peak is the pivotal crystal of the beast. As long as it is refining, you can get the mechanical treasure of the beast. but

This takes time and cannot be disturbed. Therefore, the emperor of Emperor II has been chasing each other. After he has swallowed the other party, he can safely enter the pivotal core crystal of the hundred feet and refine it in a certain period of time. . this

At the same time, the Emperor temporarily obtained the control of the Emperor's beast. While escaping from the sea, he also scored a part of his energy to manipulate the body of the Emperor's beast to deal with violent temper, so it was somewhat confusing.

Just as he was abducted at the edge of the pivotal core of the dwarf peak, his body shape was blocked by the pivotal nucleus. When he disappeared from the sight of the emperor who was chasing the back, he always followed the electronic avatar of Ye Xuan on the side. I finally got it...

"Hey..."

For a moment, the low-pitched humming sound of a slight invisibility sounded, and a gray mangling flashed away, and after swallowing a pale gold stalk, it disappeared instantly...

Without stopping, Ye Xuan's electronic avatar is under the cover of the perfect shocking spirit, and he is quick to stay away. He must quickly refine the engulfed emperor...

After that, Emperor II also turned around in the back, revealing the horror of the voice of the gods, and also sounded at this moment: "Hey? Emperor... 咋 咋?"

Chapter 5013: Is it a fool to knock a stick?

After swallowing the electronic consciousness of Emperor Yi, Ye Xuan once again activated the magical secret of the perfect shock, and started the speed, rushing to the outside of the beast...He

You must leave the sea and refine the electronic consciousness of Emperor Yi at the fastest speed. Because the emperor disappears, the emperor must be suspicious. If you want to deal with the emperor, you will swallow up the light blue electronic consciousness of the emperor. It is already impossible. more

Moreover, at the same time, the Emperor and the Emperor II will be swallowed together and then refined. This is not a safe policy. In case of an accident, it will be countered.

After all, the electronic consciousness of these two old guys is not weaker than themselves...

The safest way is to swallow one, refine it, and then forcefully swallow the other. and

The electronic consciousness of Emperor Yi, who had just been swallowed up, apparently takes time. leaf

Xuan now has to race against time. because

For the sudden disappearance of Emperor Yi, although Emperor II was suspicious, he would not rush into the nuclear crystal of the emperor's hub, which is like a dwarf peak, and refine it.

But if there is no accident, Emperor II should be able to return to God soon.

At that time, he will not hesitate to rush into the hub of the nuclear crystal, refining.

Of course, it takes a certain amount of time to completely refine the nuclear crystal of the hub, and this process cannot be disturbed. Once it is disturbed, it will be abandoned and it will be harmful to itself. and also

It is for this reason that Emperor Yi and Emperor Er have been competing for so long in the sea of the beasts, and they have never entered the hub of nuclear crystals and started refining. can

It is said that now that Ye Xuan and Emperor II are competing for a time difference.

If Emperor II first thoroughly refines the nuclear crystal of the hub, and Ye Xuan still fails to refine the electronic consciousness of Emperor Yi, then everything will be abandoned. Even if Ye Xuan completes the engulfing, I am afraid that it will not be able to do it.

After he refines the nuclear crystal of the hub, he waits for the true master of the body of the emperor, and the sea of the beast has become his home. At that time, Emperor II relies on the power of the nuclear crystal, and the electronic consciousness of Ye Xuan It's possible to swallow

Therefore, he must rob the emperor's electronic consciousness before the completion of Emperor II. At that time, even if the pivotal nuclear crystal that is like a dwarf peak is still not refining by the emperor, Ye Xuan enters the animal awareness. After the sea, I can immediately interfere with it, and let him give up...

These thoughts flashed through the brain, and Ye Xuan did not hesitate. After quietly rushing out of the emperor and knowing the sea, he found a secluded place to hide, and immediately launched a full refining. with

For a moment, the king of the beast knows the sea. generation

The light blue light group of the Emperor's second electronic consciousness wandered around the whole piece of the sea. After confirming that there was no trace of Emperor Yi, it stopped at this time and stopped on the side of the nuclear crystal of the hub...

He seems to be hesitating, thinking about something, perhaps suspecting that this is just a trap. but

In the end, Emperor II made a decision to bite the teeth. After ten interest, the light blue light group standing quietly on the side of the nuclear crystal of the hub suddenly slammed into the hub of the core of the Baizhang short peak. I just disappeared...

...outer

World, the universe in the sky!

"Hey..." Emperor

The beast screamed and screamed. On the huge horror body of Panda's 500 million miles, four arms like the giant pillars of the sky had all waved, just like a mosquito, waving wildly in front of and behind the figure. emperor

A little bit is going to be driven crazy, this \*\*\*\* violent temper actually narrowed his body to the height of Zhang Zhang, like a little dust, has been entangled in him knocking and beating, although it is not painful, but it is really annoying.

Coupled with his anxiety at the moment, he couldn't turn a blind eye to it, and he was tempted to get rid of the real fire. He just wanted to kill this mosquito-like violent finger....

call out....."

The faint sound of the air broke out, and the violent tempo was teleported again. This time it went directly to the head of the emperor, which is like a honeycomb with a myriad of facets. "

Rumble..."

"Hey!"

The old one did not hesitate, and the body shape just appeared. The first time, he set off a \*\*\*\* stick, held it high, and squatted down...

The sound of the loud bang came, and in the countless facets on the head of the emperor, two pieces burst immediately, but the two bursting areas were completely inconspicuous compared with the huge head of the beast. It's not a serious injury, it's estimated that it's a skin injury...

What is surprising is that after this stick went down, the enormous shape of the beast was suddenly shocked, and it immediately stagnated. The four mechanical arms that were being waved also fell, as if suddenly lost. Consciousness...things

This is true indeed.

At this moment, the faint golden light group representing the emperor's electronic consciousness was swallowed up by Ye Xuan's electronic body.

The control of the mechanical treasure of the beast was still under the control of Emperor Yi, so that as his electronic consciousness was swallowed, the beast would suddenly stand still.

Just at this moment, the violent \*\*\*\* stick squatted on the head of the emperor, and the time fits, it seems that people will feel that the emperor seems to be stupid by a stick, and he has to say that all this It's a bit of a coincidence.

Originally, after Emperor Yi's electronic consciousness was swallowed up, Emperor II immediately took over the control of the body of the emperor, but at this time the emperor had no psychological at all, and the pale golden light group representing the emperor's electronic consciousness suddenly disappeared. All this is too strange, he is searching around the world of the beasts.

Moreover, after a search fails, Emperor II will not be close to the control of the body of the beast at this time. He has more important things to do, that is, to enter the emperor and know the sea. The interior of the core nucleus is refining and refining.

Only by completing this step, the treasure of the beast is truly his own, and no one can take it away...

All in all, with the violent smashing of this stick, the huge body shape of the beast will not move for a moment, and it is not only now, he will not have any movement for a short time in the future.

It may be a fragrant time, it may be longer, or it may be shorter...

For all of this, the violent nature is naturally very bright, and he directly closes the \*\*\*\* stick between his hands, and then it is easy to sit down on the top of the beast...

This scene is too strange, seeing the blood-sucking lions in the distant sky and the two human races from the Terran Federation. foot

After a few moments, they suddenly changed their face. Under the stun of the body, they took a sigh of coolness and whispered...

"God, what did Ye Xuan, the master of the temple, do? The emperor was actually beaten by him... a stick?"

I drop a slap, this is the supreme existence that has entered the real heaven. In such a short period of time, he was easily solved by him? But... is this possible? ""

These are not important, the key question is... Ye Xuan, what is he sitting on the head of the emperor? It's hard to knock out the emperor's beast, but this is a godsend opportunity to smash your hands. Just sit still, is it that he is stupid? "

Chapter 5014: Emperor to the hand

In the void, the violent temper is still sitting on the knees of the emperor's huge head, and closes the eyes, just like the retreat in the retreat. Electricity

The child is also his own, he has confidence in himself, so he did not intend to enter the body of the beast and participate in this special battle. thing

In fact, now that Emperor was swallowed up, Emperor II also entered the rendezvous and refinement of the nuclear crystal of the hub that is like a dwarf peak. The mechanical treasure of the beast is temporarily unmanned, just like the puppets of no one. It is true that it cannot be left in the void to ignore it. Storm

Sitting on the head of the emperor's head, in fact, the main purpose is to protect this mechanical treasure, after all, it belongs to him soon. Ten thousand

A blind eye, the blue eye suddenly came, he could also try to take it away in the first time, so as not to be taken away by the heavens and blue eyes...

In the emptiness of tens of billions of miles away, the blood-scarred lions and the two human races from the Terran Federation have not left, and they have been watching from far away in the distant sky. this

Everything that happened here on the day is too strange, they must be willing to see a final result.

In fact, now, these three old guys have already seen that the problem is wrong. It can even be said that there are still some speculations in the vagueness, but this kind of guess is too amazing, even they are all uncertain, simply I can't believe it...

...

At the same time, the space inside the body of the emperor is known to the sea. One

The extremely secluded area, the Ye Xuan electronic avatar that activates the perfect swaying spirit and power secret, is squatting here, and fully refines the electronic consciousness of Emperor I who has just been swallowed...

Nowadays, the body of the beast is quiet, without any sound, and it is terrible and terrible, but invisible, there is a very imperative breath in the rendering and dispersion. no

On Ye Xuan, or the Emperor II who has already entered the nuclear crystal of the emperor's hub in the sea, they are all working hard to compete against each other. The only difference is that Ye Xuan refines the electronic consciousness of Emperor Yi, and Emperor II Refining and chemical, it is the pivotal core of the beast...

In this tense refining, time passed quickly. It can even be said that Ye Xuan, whose heart was immersed in refining, did not feel the existence of time. One

The time of the incense sticks, the glare has passed.

The electronic consciousness of Emperor Yi, who was swallowed up by Ye Xuan, was finally thoroughly refining. From this moment on, Emperor Yi no longer exists, and the Tianji clan, which is completely destroyed, has become a historical term.

After devouring and refining the electronic consciousness of Emperor Yi, Ye Xuan's electronic avatar is much stronger. If the magical power of the perfect shock is removed now, you can see a gray-colored light group.

It was originally gray, because it swallowed up the electronic consciousness of Emperor Yi, and it was infinitely close to the real heaven, so it was a touch of gold. Such as

This gray and gold perfectly blend together, more primitive, revealing a thick and mysterious atmosphere...

"call out!"

Without hesitation, Ye Xuan, who is still under the concussed spirit of the perfect shock, is the first time to swept away, blinking into the sea, the front of the emperor and the center of the sea, the hub that is like a dwarf peak Nuclear crystals are reflected in the field of vision. in

At the center of the core crystal, there is a faint blue color like a worm.

Emperor II is still refining it, and it is not over! brain

In the middle of this thought, Ye Xuan has been hanging over the whole heart of the blind eye, and finally fell back completely. Then, he rushed straight toward the pivotal nuclear crystal. Even before and after, there was no slowdown, just like an invisible Lightning, smashed in directly!

Although the core crystal of the beast is solid, it is a crystal between transparent and translucent, and the electronic consciousness of Emperor Er and Ye Xuan is all just a piece of data in the form of a light group. As if it is a \*\*\*\* or a spiritual force, it is invisible and inferior, so it can be easily accessed without any influence.

This hub nuclear crystal is like a short peak, only a hundred feet high, and the diameter is about 20 feet. Therefore, after Ye Xuan entered, he immediately saw Emperor II at the center of the core crystal. this

At this moment, Emperor II is no longer a light blue light group that can't see the shape.

When he refines the nuclear crystal of the emperor's beast, he manifests his own body, but it is very small, his body shape is only high, and it is still the existence of energy. when

When Ye Xuan rushed into the pivotal core crystal, Emperor II immediately had an induction. Although he did not see Ye Xuan's body shape, he did not capture the breath of Ye Xuan. Everything was in the perfect shock of the spiritual power secret. under. but

After all, he is refining the pivotal core of this beast, and the process has already passed halfway. If Ye Xuan stays outside and does not touch the nuclear crystal of this hub, Emperor II will naturally not react.

But once Ye Xuan enters the interior of the nuclear nucleus, if the emperor is still not aware of it, then it is really strange..."

Who? "eye

Under the flash of light, the emperor who was condensing the gods and refining turned his head and looked at it. The voice of the gods also sounded, showing the meaning of vigilance and warning. but

His gaze quickly moved away, because although he realized that the unknown existed into the pivotal nucleus, he did not know who the other party was, what type of existence, and did not know where the people were...

Ye Xuan naturally will not respond to him, be careful and quietly approaching slowly. and

In this process, Emperor II, who had a sudden warning of his heart, temporarily stopped the refining of the nuclear crystal of the emperor's hub, and turned around to look around the body. this

At this moment, his heart suddenly came up with a very unpleasant feeling, as if the disaster of the extinction was about to come, and the heartstrings suddenly jumped out.

He had previously suspected that the sudden disappearance of Emperor Yi's electronic consciousness must be weird. Now, he finally confirmed this point. If he does not reveal the mysterious existence of the unknown, and he does not know where to hide, he fundamentally dare not calm down again to refine the hub of the emperor's beast...

"Ugh....."

At this moment, a sigh of sighs suddenly sounded on his side, and it was passed into the ear. In an instant, the emperor's body shape was shocked. He shouted: "You are... Ye Xuan! This is impossible..." "

call out....."

Almost at the same moment of his exclamation, a gray-golded mantra flashed, and the blink of an eye has reached the front of the emperor II. Under the golden mangling, the emperor is only directly The shape is wrapped in it, like a swallow.

All this happened too fast, and then God II suddenly felt as if he had been hiding in the dark to make a ghost. Ye Xuan, he did not expect to exist anyway, and under the shock of his heart, there was no time to make it. Any reaction will be swallowed directly by Ye Xuan in the light stone fire...

At the same time, Ye Xuan's second sigh of sighs is also faint, that is, I don't know the Emperor II, can I hear it...

"Ugh....."

Chapter 5015: The end of the world

"Ugh....."

With this sigh of sighs, the battle for the beasts of the beasts ended with this...

However, the beast has not yet fallen into the control of Ye Xuan. At least, he has not refining the core nuclear crystal, and all of this must wait until the e-consciousness of the emperor's second is refining, and then it can be safely unfolded. no

Then, there is a hood in the body that has not been refining, and is not weaker than its own electronic consciousness. In this case, it is distracted to refine the nuclear crystal of the hub. In the event of any accidental change, the consequences will be unimaginable! thing

In fact, although everything has settled, Ye Xuan has not slackened off because he still needs a certain amount of time, but the green eyes of the wilderness are likely to come at any time.

Although the emperor has been tossing for so long, the Tiandao Qingyan has never appeared, but according to Ye Xuan's derivation, Emperor Yi made such a big movement before, and it has been continuing for a long time. It's been two days long. It is impossible not to be sensed...

The reason why it has never appeared, it should be dragged by a very important thing, and there is no way to withdraw.

But now, with the constant tossing, the emperor who was screaming and stunned was swallowed up. This shard of shards of the wilderness and the sky continued for two days, and the rest of the sky was stopped. The wilderness of the heavens and the natural eye can naturally realize that it must be here. Some sort of change happened...

Therefore, it will surely finish the matter in hand as soon as possible, or temporarily put it down and take time to see what happened.

That is to say, before Ye Xuan grabbed the time with Emperor II, and now, he is rushing to the time with the Hongyan Tiandao Qingyan. He must take the electronic consciousness of Emperor II and the emperor's beast before the rushing of the blue sky. Hub nuclear crystal... all refining!

Of course, even if there is no refining, the blue sky will come. For Ye Xuan, the emperor is basically no longer possible.

The violent temper is still guarded in the outer body of the emperor. Even if the electronic avatar does not complete all of this, once the sorrowful sky and the blue eye advances in advance, the violent scorpion will also sacrifice the Shennong Ding, which will be the body of the giant beast mechanical treasure of 500 million miles. Income among them...but

If that's the case, Ye Xuan is in a tough situation with the blue sky and the blue eyes.

Although he has a strong power in his hands, it can only be used as a kind of deterrent. It can't be stimulated at the last moment. Otherwise, once activated, Ye Xuan will fall into weakness. No power to continue...

In the face of the existence of the blue sky, the best combination is a strong person who has entered the real heaven and earth, and is equipped with Ye Xuan who has the Xingqiang Shentong Tianzhu...

Anyone can shoot at any time, and fight against the wilderness of the wilderness, even if it is not an opponent, but at least it must have the ability to entangle with its front, even if it is pressed, but as long as it can resist the flood of the sky, do not be him As soon as you get a shot, you will kill it instantly. and

Ye Xuan, who holds the bow of the sky, looks at the side and forms a deterrent...

For such a combination, even if it is a wild eye, it may be too taboo.

If the beast is thoroughly refining, such a combination will be formed in an instant. At that time, the emperor will be hard against the flood and the blue eye will be contained, and Ye Xuan will be deterred in the side, and it will definitely force the other party to submit. to

It is absolutely impossible to have the advantage of being swayed by Ye Xuan.

Therefore, whether the emperor can completely refine and refine before the fall of the blue sky, and control it in the hands, for Ye Xuan, is crucial...

All this is a long story, but in a flash in his mind.

Without hesitation, he rushed out of the hub of the emperor's nucleus in the first time, and no longer exerted the perfect shock of the spiritual power to conceal the figure and breath, because that is completely unnecessary. One

After cutting it down, Ye Xuan fully exerted his efforts to refine the electronic consciousness of Emperor II that had just been swallowed up. This time, perhaps because he had already swallowed Emperor Yi, his electronic consciousness was stronger and stronger. A lot of reasons, so the emperor's electronic consciousness refining, the speed is significantly higher than the previous. only

It's just half a column of incense, and everything is over. It

After refining the electronic consciousness of Emperor Yi, Ye Xuan's electronic consciousness was a gray gold light group, but now, with the electronic consciousness of Emperor II being thoroughly refining, this ash gold golden group has become pure The golden color reveals a touch of sacred atmosphere...

Today, only Ye Xuan's electronic avatar, which is the electronic consciousness in the form of a light group, has been infinitely close to the real heaven.

After all, before the devouring, it was already the peak of the ninth-order grand perfection. Then, it swallowed up Emperor Yi and Emperor II who were not weaker than himself. Emperor Yi even once entered the heavenly beast. As a body, together with the thunder of heaven, and the existence of a true heavenly state... no

However, he did not relax his vigilance because of his heart's joy. At present, the electronic consciousness of Emperor II has been refining, but in order to completely control the beast, there is still a final link to be completed. that

It is the pivotal nuclear crystal of the refining beast. One

Once this step is completed, even if the deity of the sorrowful heaven and earth is coming, Ye Xuan can have the ambition to face it and circulate with it...

"The last step, everything is coming to an end soon..."

"call out!"

With the whisper of a nightmare, the golden light group representing Ye Xuan's electronic consciousness was spurred in an instant, and the blink of an eye had disappeared into the front of the emperor hub. In this regard, full-speed refining is started... first

Before, Ye Xuan refining the emperor's electronic consciousness, using a column of incense time, and at that time, entering the emperor's hub of the nuclear crystal of the emperor, although the completion of the refining of the nuclear crystal, but the process, It is already over halfway. and also

That is to say, if there is no interference from Ye Xuan, then the Emperor II will completely refine the core crystal of the emperor, and then completely control the heavenly mechanical treasure of the beast, it should take two pillars of time.

But now, Ye Xuan's electronic consciousness has swallowed Emperor Yi and Emperor II, which is much stronger than the Emperor II at that time. Therefore, according to his derivation, the current Ye Xuan thoroughly refines the hub of the emperor's nucleus. The time required should be within a column of incense, never exceeding a column of incense.

Soon, the time for most of the incense is swaying...

...outer

World, the universe, the sky...

Nowadays, the electronic consciousness of Emperor Yi and Emperor II has been swallowed up, and it has been completely refining, and Ye Xuan, who has completed all of this, has entered the core of the emperor's nucleus and has carried out all-round refining and refining. time. again

For a while, the core of the king's beast will be completely refining.

But it was also at this time that the thundering drama suddenly fell.

"boom!"

"Booming..."

Without warning, the entire universe of the void, suddenly a violent earthquake trembled, this situation has never been seen before, even Ye Xuan has not encountered, it is like the real end of the catastrophe. brain

In the middle of this thought, the violent squatting on the head of the emperor's head suddenly opened his eyes, and there was a faint flash of light at the bottom of the scorpion, whispering: "The end of the flood, finally comprehensive...fall!"

Chapter 5016: My world, I am the master

"boom!""

Rumble..." This

At the moment, the entire universe of the void, suddenly a violent earthquake trembled, the weather is amazing, as if the real end of the catastrophe came, the violent screaming of the head of the emperor's head suddenly opened his eyes.

In the depths of the bottom of the squat, there was a flash of ignorance, and whispered: "The end of the world, finally... all came!"

At the moment, Ye Xuan finally understood that the emperor had exhausted his mind and tossed in the void of this ruined land for so long, disturbing such a large movement, but why did the green eyes of the riddled roads never appear...

It really is innocent, because it has been dragged down by more important things. At that time, the sorrowful sky and the green eyes should be the last process of launching some kind of arrangement to promote the full-scale coming of the end of the flood...

However, perhaps it also feels that there is no need to stop first, let's take a look at this side, because this last process will be completed soon.

For example, this is the case now. With the end of the last process, the end of the flood will soon come to an end. The green eyes of the heavens and the will, will soon come here, and will not easily leave. this

Everything is different, and with the all-round fall of the end of the flood, all the void fragments that had been completely collapsed in the first battle of the floods will come together and connect with the empty space of the land of Ye Xuan. .

It's not the kind of connection with a cosmic wormhole, or a void passage, but a complete and thorough integration, no longer separate from each other, or even a separation, just like Ye Xuan's starry field from now on. Going to Xusheng or the Terran Federation, it's straightforward to go straight, unimpeded...

That is to say, the numerous pieces of voids that were shattered at the beginning will all fit together completely, just like a broken mirror...

It is precisely because of this that the piece of the land that he was in at this time as the main mirror of the ruins of the heavens and the earth, will be so violently trembled, completely unprecedented!

Such a scene is not only the swaying of Ye Xuan, the blood-scarred lions outside the tens of billions of miles in the distance and the two human races from the Federation of the Terran, and even the scared figure has trembled. he

We have never seen such a scene, and we are also aware of what is going to happen...

As for the powerful forces of the small and medium-sized forces and ethnic groups in the countless stars of this star field, they used to flee in the void, or drive various warships, warships, or directly in the void in the flesh.

But at this moment, with all the distances in all directions, the whole piece of the vast endless void, the whole sky and the earth trembled fiercely, and they suddenly became stunned. face

The ups and downs showed a complete desperate color and stopped in the void.

There is no way to stop, because in the face of the violent tremors of the whole world, they simply don't know where they are, and they don't know where they should escape..."

boom! "

"Booming ....."

At this time, the virtual air in the right side of the sky, the earth-shattering roar suddenly made a big hit, and looked around, and the imaginary air outside the distance of 100 billion miles suddenly broke through a huge crack like a heaven.

Inside the crack, there seems to be a piece of heaven and earth that is squeezing inward, and nothing can be seen at first, but soon, when the crack disappears, the world in that direction is suddenly wider, even the diffuse breath, and the previous It is different. One

The strange star field appeared, stretching from a position beyond 100 billion miles to the farthest, until the limit of the power of knowledge of the gods could not be reached...

Ye Xuan recognized the emptiness of this piece with only one glance.

This is the mysterious void that he and the headless baby corpse entered behind the furnace and eventually rescued the hollow giant tortoise.

This mysterious void has a large number of ancient stars, and there are some cracks of various sizes.

Nowadays, these stars and cracks still exist, but the ancient wilderness who crouched in the healing of the wounded, but they have disappeared. very

Even some places that have been degraded, leaving only the wreckage, are now empty..."

Rumble..."

boom!"

I didn't wait for Ye Xuan to think about it, to understand the whereabouts of the ancient creatures, and other directions to facilitate a similar roaring drama, let him sneak in the cold, subconsciously turn to look...

This time, there is obviously more than one place in the area where the roaring masterpieces are coming, and there are far and near, and the farthest places are even unable to detect even the powerful gods of Ye Xuan's half-steps.

After all, he is not really a heavenly environment. If you want to make God's knowledge cover all corners and gaps in one world, it is a real means of heaven. Do not

In the direction, it can be roughly inferred.

The direction in which the Star Alliance is located should be the second cosmic plane integrated into it.

The direction of the Alliance of Nations should be the integration of the first cosmic plane. package

The same is true of the Federation of the Terran, and the integration is clearly the third universe...

The three places have already completed the integration of the planes of the corners of the three major star planes in the world. Therefore, now that the end of the world is coming, the three major stars in the world will be merged from the plane. Incorporating this piece of ruined land, the main plane of the sky... except

In these three directions, other areas also have a sudden roaring phenomenon. In the scope of Ye Xuan's exploration, he saw at least sixty-seven sudden void cracks, each with a corner. The void is squeezing in and blending in...

Among them, Ye Xuan saw the caged star field, saw the source of the evil and the star field, and some of the large and small pieces of space that had passed by when entering the void of the main land of the wilderness. when

In the early days of the war, the entire vast wilderness was destroyed, and it collapsed into countless fragments. But now, I dare not say that all the fragments have returned, because it is highly probable that some fragments have fallen into the sky. An endless stream of emptiness. but

According to Ye Xuan's derivation, he was found by the sorrowful Tiandao Qingyan, and he used the shocking means to display the secret method. Now it is fully drawn, and the size and fragmentation of each other should be at least 80%...

"Booming..."

Oh..."

Just as he was fascinated, sitting on the head of the emperor's head, looking at the grand scene that was difficult to meet in the ages, a virtual air in the distance hundreds of billions away, suddenly a terrible bombing came. ring. One

The road thundered and thundered a huge crack in the void wall, and a huge star-like eyeball was pulled out of the crack. It was a flood of blue sky.

"Hey..."

As soon as he appeared, his gaze swept away from the Emperor and Ye Xuan, locking in the air. Following

However, there was a deep and inconspicuous whistle in the void: "Little ants, actually plan the heavens? Have you asked me? My world... I am the master!"

Chapter 5017: Dare to fight a war

In the body of the emperor, know the sea! One

The time of the fragrant incense has already passed, and Ye Xuan's electronic avatar has always been in the central nucleus of the sacred sea of the Emperor. Correct

Everything that happened in the outside world, he did not know at all, even if he knew it would not have any reaction, because now he is fully refining the hub of the emperor's nucleus, and he is innocent.

"Booming..."

Outside, the whole piece of the ruins of the heavens and the earth are trembled fiercely. Just like the real end of the world, the body of the beast is huge, but after all, in this void, naturally cannot be alone. With

With the whole emptiness of the tremor, the huge body of the beast is also trembling, as is the knowledge of the sea. leaf

Xuan realized that the situation was grim, but he did not even dare to consider other things. The most important thing now is to thoroughly refine the core of the emperor's core in the shortest time, and everything else can Give in to this...

Time is passing, and soon, it is ten times. "

Oh..."

At this moment, the nuclear crystal of the central part of the Emperor and the sea of the sea suddenly burst into an endless golden awn, and there was a low and continuous humming sound. gold

Mang spreads away, and the whole vast expanse of the beasts is covered with the sea. At this moment, the emperor and the beast that was originally dead and dead knows the sea. Suddenly, it seems to be alive, and a golden ocean emerges from the air. The crystals are drowned, and they are no longer visible. There is only one endless stream of raging waves and roaring...

"哗啦啦....."

When the Daoist sky was swollen, when it came to the highest altitude of the sea, suddenly the stagnation, Ye Xuan's figure came out of it, a golden robe, looks majestic, and the body's repaired atmosphere is distinct. It is a real heaven...

"Finally refining!"

In the whispering language, Ye Xuan's electronic avatar stood proudly in the sea and the waves of the sea. In this moment, the emperor is the me, I am the emperor, and also... the heavenly environment! "...

...outer

World, the universe in the sky! flood

After the blue sky of the ridiculous road rushed out of the void cracks hundreds of billions of miles ahead, there was no first time to shoot Ye Xuan.

He also seems to score the gods to maintain the emptiness of the vast and small fragments of the vast world. This

It is also what Ye Xuan is willing to see. The other party has not shot, and he has been sitting on the head of the emperor's head, and his heart is also loose.

Because he knows that time is almost the same, the electronic avatar will soon be able to crystallize the hub of the beast, perhaps in the next second... short

The short twitch is not enough, and the violent tremor of this vast void has eased, and the huge roaring sounds from all over the world have gradually stopped. leaf

Although Xuan did not leave this place, he is the strongest person in the heavens, after all, even if only the extension of the power of God can cover half of the world...

Nowadays, this world is different from the previous ones. There are many strange stars and more vast. This is the emptiness of other large and small ruins of the world, and they have been integrated into the mega-display. This

Among these stars, there is no life at all.

Some of the newly-incorporated shards of shards have a rich atmosphere of life. Of course, these breaths of life are also strong and weak.

Others, which have just been integrated into the shards of the shards of the wild, can detect the life of the temperament, but give a sense of solitude and extreme depression, but these breaths are all incomparably powerful.

There is no shortage of ancient powers, and many, even the ancients are supreme, the number is also not a few...

If there are no accidents, the masters of these breaths should all be the ancient wilderness creatures who had participated in the ruin of the endless years before the endless years.

Of course, they can't be the camp of the headless baby corpse. It should be the green eye of the wilderness...

Today, with the collapse of the whole world before the end of the ages, the vast and ruined world that has been destroyed has been re-integrated and brought to an all-round existence. The countless ancient creatures belonging to the camp of the Qingtian Tiandao Qingyan have also returned. he

They returned to the end of the world, and they will gather again in the sacred eyes of the Hongtian Heavenly Road to fight for it.

But this time, it's not just to annihilate the headless baby corpse camp. The plan for the green eyes of the wilderness must be even bigger. He is eyeing the next new era of Hongmeng that will be fully opened...

This point, from its initial collusion with Xingbo, paid a huge price, and sent Xingbo into the Milky Way star where the parent star is located, you can see one or two.

In the same way, Ye Xuan was also involved. Although he had nothing to do with the smashing world before the age of the ages, he could not be indifferent in the face of the upcoming new era of Hongmeng.

He can ignore the battle between the headless baby corpse and the two camps of the wilderness and the heavens. But he will fully open the new era of Hongmeng, but he must fight for it..."

My world is my master..."

At this time, when the thunder and thunder of the surrounding areas were completely rested, this piece had just completed the integration, and the vast expanse of the wild land fell into a complete silence, in the distant sky hundreds of billions away.

The flooded heavens and blue eyes are very incomparably low, and the sounds without half-feeling emotions have already been passed again. This time, it is clear that there is a smattering of coldness: "The ants, leave the beast, self-discipline!"

Roar! "

At this moment, the violent sigh of the knees on the head of the emperor's head suddenly screamed and screamed. Then, the body shape that was originally only the height of the bow, it was like a balloon that was inflated, and it quickly expanded. In the blink of an eye, it has reached a giant of 60 million miles, like a giant star. speed

Too fast, at this moment, Ye Xuan directly activates the blood vessels of the konjac in the body.

As the roar came out, the power in his body immediately began to rise...

Its potential is like a roaring river in the roaring, screaming in the limbs and screaming infinitely fierce, and there is a horrible force of horrible blood from his body.

Moreover, this huge body is still changing, and it is a short half-moon. The starry sky becomes three-headed and six-armed. The konjac is real, the body of flesh and blood, the body of the cheekbone and the body of the black fog melt into a body. "

Oh..."

The body of the sacrum in the three real bodies of the konjac suddenly burst into a fierce purple gold awn, and a sigh of sorrow is like a sigh of anger, and it is swaying...

In the next moment, the body of the cheekbone lifted the left arm, and the empty palm of the left hand was also a sudden golden man, and a golden bow with an energy form appeared in his left hand.

Although the body of flesh and blood and the body of black fog did not move, but there is also a cold flash in the middle of the scorpion, obviously there are also means, but it has not yet been revealed! versus

At the same time, in the mouth of violent temper, Ye Xuansen's cold voice of the gods was also heard: "How about the green eyes of the ridiculous heavens? Dare... No war?"

Chapter 5018: Heavenly level confrontation

"How about the green eyes of the wilderness road? Dare... No war?"

As the konjac is really condensed, the mouth of the violent voice also reveals the cold voice of Ye Xuansen...

"Hey..." and

At the same time, the body of the skeleton in the three real bodies of the konjac suddenly burst into a fierce purple gold mans! One

The secret of the secrets of the stocks is like the anger of the anger, and it is swaying...

For a moment, the body of the cheekbone lifted the left arm, the empty palm of the left hand, and it was also a sudden golden man, and a golden bow with an energy form appeared in his left hand.

The large bow is simple and sturdy, and the middle part of the palm is a double-headed beast, which is oriented in the mouth of the beasts in the upper and lower directions, biting the two humanoid bodies.

They were all screaming, seemingly roaring, a bowstring formed by the twisting of numerous fine gold threads, and the two ends were connected to the souls of these two humanoid bodies...

However, it is the savage magical power of the savage and savage savage----- no

Before the end of the year, when the battle of the ruined world broke out, the ancient wilderness fork, which was as powerful as the golden giant tortoise and the golden dragon, once used this supernatural power to shoot the huge wilderness and the unseen hole.

The power of that arrow is too strong, even if it is the heavenly eye that represents the will of the wilderness, it is almost slammed by that arrow! Such as

Today, after the recovery and crouching of the endless years, the Qingyan Tiandao Qingyan not only recovers from the eighth-order heaven, but may even surpass the level of cultivation at the time of the outbreak of the flood. more

And after the arrangement of the endless years, finally the shards of the ruins of the ruins of the world, which had been broken by the original battle, were fully integrated, bringing the world of the wilderness to the whole world...

However, even if he is, he has never imagined that at this moment, the world of the vast wilderness will come to the next moment in the world, and he will once again see the sly bow of his heart. Want

I know that when the endless years ago, when the war broke out, the ancient Yaksha was only the peak of the 9th-order grand perfection, but now Ye Xuan's combat power is almost equal to the real heaven. If he is now, he will shoot. This arrow, the threat to the heavenly eye, is not weaker than that of the year...

It is also the yoke of Ye Xuan, he decided that the blue eyes of the heavens must be taboo!

"It's you....."

As Ye Xuan showed the true face of the three-headed and six-armed konjac, Tiandao Qingyan recognized him in an instant, and in the distant sky hundreds of billions of miles away, the eyeball that was like a huge star in the sky shrank, and it was shocking. The meaning of the cockroaches instantly dissipated...it

Enraged, just anger, this piece of wild land, the whole whispered a little, countless creatures all crouched on the ground, shivering.

It was originally the embodiment of the will of the heavens in the world. In the past, because of the collapse of the wilderness, its control of the heavens was not too obvious. and

Nowadays, with the resurgence of the wilderness and the earth, the full control of the world, Tiandao Qingyan's control over this world has finally risen sharply. although

However, because the wild world has just merged and has not yet fully stabilized, this control has not yet reached the peak of the year. but

It's just that there's just one anger that makes this endless vast world tremble, or it's completely ok. this

At this moment, Tiandao Qingyan is really angry... no

A long time ago, Ye Xuan entered the Hongmeng void, where he activated the \*\*\*\* magical power of the konjac, and repaired himself into a heavenly environment, reaching the third level of heaven and earth.

At that time, it attracted the attention of Qingtian Tiandao Qingyan, but it is the existence of the eighth order of heaven and earth, and only one step can reach the peak of Tiandao.

In his view, there suddenly appeared, with the blood of the konjac, and the cultivation of the third-order Ye Xuan, who has reached the third level of the heavens, is obviously a potential threat, so he wants to get rid of it. Dangerous

In a hurry, Ye Xuan, who is not an opponent, has sacrificed the bow of the sky, revealing the secret of his control of this supernatural power, but the heavenly eye does not care, and is still ready to shoot. most

At the crucial moment, the headless baby corpse wakes up, the hollow giant tortoise comes, and the battle with the heavenly eye, and finally, the headless baby corpse successfully enters the galaxy star field where the parent star is located with the help of it and the power of the virtual giant tortoise...

That battle, for heaven and earth, is simply a huge shame. As the incarnation of the will of the world, it was actually calculated by its own enemies, and the headless baby was handed into the Galaxy. It is simply unforgivable to add a point to it.

It is a pity that since then, it has lost the traces of the konjac, but it has not been seen, but did not expect that it was encountered here today, but did not even think that the target that I originally sought has always been in the emptiness of the land of the wilderness. in.....

At this time, after recognizing Ye Xuan, Tiandao Qingyan also realized everything in an instant, realizing that Ye Xuan was only forced to improve by a certain secret method in Hong Kong's void. and

Here, because of the suppression of the heavens, his secret law... is invalid!

"It turns out that you are not the real third-order heaven..."

"Small and half-step ants, even if you hold the scorpion bow? When you shoot an arrow, you will fall into a weak moment, and I, at most, will be injured, you can crush you, this arrow... Do you dare to shoot?"

This is the big truth. If Ye Xuan is alone here, he naturally does not dare to shoot this arrow. He even dare not sacrifice the bow of the sky, because he knows that the other party is sure that he will not shoot, so he will be invisible. Into the passive situation...

But now, in addition to his deity himself, he also has electronic avatars...that is, the beast!

"Card..."

Rumble..."

Roar....."

It seems to be a kind of response. The sound of the ridiculous and ridiculous words of the ridiculous heaven and earth has just fallen. Ye Xuan has been standing still and standing still, without any movement of the beast, Panda's huge body of 500 million miles, Suddenly moved. shop

The overwhelming sound of the mechanical movement of the card is resounding, and there are four huge thunderous bangs that are twisted by the huge mechanical arms of the giant pillars. versus

At the same time, the eyes of the beast that has been closed are also opened at this moment, and an angry shouting is issued on the head. Although it does not reach the horror of the sudden anger of the blue sky, but with this roar Out, this whole vast expanse of wild land did indeed tremble slightly.

This book is what it should be, because the beast is also a true heavenly existence! From

The cultivation of the atmosphere in his body is not as good as the eight-step sacred eye of the heavens, but it also reaches the second level of the heavenly environment. This should be the electronic avatar that engulfed the Emperor and the Emperor II, and grew up and cultivated. Amazingly caused by the magnitude. sense

After the full recovery of the emperor, the second-order strong atmosphere of the heavenly world is dispersed in the body.

The konjac mouth that squatted on the head of the emperor's head laughed, and the voice of God's voice rang again: "So... now?"

Chapter 5019: Magic hall migration

The magic hall base camp, Xu Sheng forbidden land... Ye

After Xuan's departure, the high-ranking members of the Magic Hall began to assemble the army intensively according to his instructions, and collected all the resources in the life stars, or sent them into the battleships and warships... when

In the end of the flood, the end of the world came to an end. As a large number of flooded debris squeezed toward the void, and began to integrate, the entire Xusheng banned countless life stars have all been removed.

No one is still stranded inside the stars, all the people are in the void, the six major corps of the magic hall, the whole universe of Xu Xun's forbidden space, crowded almost full Dangdang... put

Looking into the sky, the imaginary void and the farther end of the line, all of them are all kinds of battleships, fortresses, fortresses, and the statues of the warriors and starry beasts. Even at the end of the line of sight, you can't see the side... ..leaf

Xuan's order is no one to dare, and no one will defy it. Only one sentence of his own, the entire Xu Xing forbidden countless life stars have been empty, and countless families have gathered here.

However, today's temples are numerous, but they are equally disciplined.

The endless battle force in the virtual air is also orderly. According to the six major army groups of the magic hall, each side is empty...

Within the Beasts of the Beasts, they are repaired into star-studded beasts of varying strengths, totaling about 100 million. They are composed of star-studded beasts that originally lived in the void of this piece of wild land.

Including the beast army of the original Starry Nomadic Legion, as well as the starry beasts in the Xusheng forbidden land.

At the moment, the commander of the Qingniu and Yu Lingling, Long Yao, Gong Jun, Black Wind Tiger, and Roaring Moon, etc., will be in front of the Legion and wait for the next step.

The total number of survivors in the Legacy Corps is hundreds of billions, and the various types of warships are tens of billions of ships. The scale is extremely large, and it also occupies a vast void. This

A legion consists of the Sangzhi remnant tribe, and the relic tribes in the Xusheng forbidden land, and later joined the Alliance of Survivors.

But they are in harmony with each other. At the moment, the commander-in-chief black robe is deserted, the nine nobles are powerful, and Zhao Dong, Qian Nan, Sun Xi, Li Bei, etc., are also waiting for .....

The Nomadic Legion has the largest number of troops, totaling more than one billion. The warships are 100,000-meter-diameter big fortresses, a total of 50 million ships, both man-owned and second universe, including some slaves in the first universe, and the original The strong parties of the Federation of Varo. This

The legion is actually the former captive army, but now, after the final test, they have removed the hat of the captive army. The entire nomadic army is all strong from the three main planes of the world.

The commanders of the former Captive Parliament, such as the Three-Claw Dragons and Longshan Tang, were quiet and calm, and the face was full of iron and blood, because the full migration of the Temple was no small feat, and no accidents were allowed.

The captive army has the most empty space. The total strength of this army is more than 20 billion. The warships and large and small fortresses and the small fortress of 50,000 meters have reached a billion.

Although it is composed only of the captives of the bloody, Qingpeng and war lions, the tribes of the tribes are basically all of them coming here, so the lineup is so huge. eye

Next, as the commander of the three tribes, as well as \*\*\*\* ancestors, Qingpeng ancestors, etc., are also in front of the Legion...

The number of strong and powerful members of the evil army is the least, only about 100 million heads of starry beasts, but they are all brave people who have gone through \*\*\*\* battles. The combat power is definitely the most powerful army of the five major legions of the magic hall.

At the moment, the commanding Taikoo Porcupine and the Taikoo tortoise are in front of the Legion. The former has been prepared for the ridiculous power under the \*\*\*\* magical power of the Magic Pig, and the latter is already a waste of ancient power. Of course, the old pig The original should belong to this camp, but at the moment it is in front of Ye Xuan's Dongfu Star, ready to order the migration.

The last Tianhe Legion consisted of the Devils group with the Lara Legion, and the original Tianhe Legion and the Triumphant Corps of Ye Xuan, as well as the Turtles and the Blood and Mosquitoes, although they looked like a miscellaneous army, but for Ye Xuan. Most important.

Right now, a group of supervised mosquitoes and old ghosts and Naples, the devil, Mo Tiantian, the devil's uncle, the tortoise clan, the ninth, the mad mosquito, and the old man of Xuanyuan, Duanmu, Bodhi, and other small idle forces and families The high-level members all entered the interior of a warship, feeling the fierce tremors of the entire void world outside the battleship, and the complexion was extremely heavy... old

The pig essence is the general commander of the magic hall migration before Ye Xuan left. He is now outside the atmosphere of Ye Xuan's Dongfu star, and in the next moment of this virtual upheaval, he received Ye Xuan. The subpoena, the full start of the magic hall migration... short

After a short period of time, the tremor of the void finally stopped completely. In the void, the eyes of all the strong men in the six legions all came to the old pigs.

"Booming..."

"Hey..."

At the same instant, Ye Xuan's Dongfu Star came with a low-pitched thunderous sound, like a small black-like magical hall that flew out of the stars.

Xuanyuan Ziwei, Duanmu Xiaocha and Zhao Qianru are not visible in the shape of the three gimmicks. They should have been retired, but now they are the seven sacred cults of the ancient and supreme, but they are at the top of the black palace.

"call out....."

As the magic hall emptied, rushing out of the stars, in the other star in the distance, there was also a masculine rush, which fell directly behind the black temple, standing steadily, it is the magic hall left by Ye Xuan. Pass the monument!

This monument has the meaning of the nine-story magical and the heavenly bow. It is impossible to stay here, and will take it away. It will be placed in the magical hall in the new bastion of Hongmeng, for all the magicians and the day and night. Feeling...

The star-shaped vortex that entered the void of Hongmeng was in the remote corner of Xusheng's forbidden land. It was covered by Ye Xuan with a secret method. Even the old pig, I don't know where it is. but

Before leaving, Ye Xuan left his coordinates in the black hall. Once the hall is empty, it will be activated in an instant, with a large black palace like a small star going straight..."

Oh..." This

At the moment, with the sacred ancestors of the seven great sacred ancestors activated the magic hall, the interior of the black palace immediately came with a low humming sound. The whole temple was like a special form of starry sky fortress. Suddenly, Moved, and went to the depths of Xusheng's forbidden land..."

Everyone listens to the order, the magic hall is greatly moved... fully open! "

"Hey..."

At the moment, the sound of the gods of the old pigs came out, and they screamed and screamed, then they swayed and followed.

"Roar!"

Oh..."

"Booming..."

Almost at the same instant, countless battleships, fortresses, and kinetic energy cabins of the fortresses were opened in the void. Numerous warships burst into brilliance, and countless fierce beasts screamed and shook the earth and the earth. A few times, the six legions, fully activated...

Chapter 5020: Unbearable weight

The void of the universe, the land that the beasts had previously ravaged..."

Card..."

"Booming..."

"Hey..." Hong

The words of the blue sky of the ridiculous road just fell, and the horrible body of the great beast of Panda reached 500 million miles, and suddenly it moved...

At this moment, the overwhelming sound of the mechanical movement of the card is resounding, and the original beast that has been stationary for a long time, four huge mechanical arms like the giant pillars of the sky began to twist, thus making a loud thunder. One

The eyes that were closed were also opened at this moment, and an angry shouting was sent out on the head. The breath was too strong, and there was a roar. This whole vast expanse of wild land did indeed tremble slightly.

At this moment, the beast of the beast, the powerful atmosphere that has been dispersed in the body, has reached the second level of heaven and earth. This is precisely because Ye Xuan's electronic avatar has swallowed up the powerful electronic consciousness of Emperor I and Emperor II, and has become infinitely close to The reason for the true heavenly environment. One

The Tao is infinitely close to the electronic consciousness of the heavenly realm, and the powerful beast of the beast of the gods has already entered the heavens and the earth... The two are combined, the second order of the heavens, this is what it should be!

With the full recovery of the Emperor, Ye Xuan originally hung in the eyes of the blind man, and finally fell back completely. 仁

It is enough for the head of the emperor's head, the konjac looks at the heavens and blue eyes in the distance, grinning, and the voice of the gods sounds coldly: "So... now?"

In the mouth of the beast, the same voice was heard: "So... now?"

This is clearly the voice of Ye Xuan, clear and incomprehensible, anyone can hear it.

At this moment, the void fell into silence.

The beast and the konjac, one on the other, the latter is 500 million miles tall, the light is chiseled, and the line of sight is locked in the darkness of the sky in the distant sky. The body is full of breath, and a pair of people can rush out at any time. Rhythm.....

On the huge head of the beast, the three-armed and six-armed konjac stood quietly. The body of the three konjac's cheekbones raised the left arm, and the scorpion bow appeared. The right hand also reached the string and could pull at any time. Full bow, one arrow shot... far

The blood-sucking lion and the two human races from the Terran Federation took a sigh of relief and widened their eyes. They suspected that they had an illusion...

Is the beast not stupid? Do not

Was it being confused by Ye Xuan, the master of the Temple of the Devil? How

Suddenly awake? Moreover, there is still a breakthrough in the cultivation of strength, and it has reached the second order of the heavenly state. What is heard in the mouth is the voice of Ye Xuan, the master of the emperor...

The heart flashed through these thoughts, and the three old guys only felt the bang in the brain, and they were confused for a few moments. Then they sighed and sighed, and they shouted...

"I understand, all this is the main body of the temple, Ye Xuangan..."

"He originally had an electronic avatar, and the emperor and the emperor II can also enter the body of the beast..."

If there is no accident, Ye Xuan, the master of the magic hall, should send his electronic body and enter the body of the beast. At the same time, the deity interferes outside, and finally the electronic body has swallowed the electronic of Emperor Yi and Emperor II. Consciousness, make itself strong, and refine the beast..."

hiss! Amazing handwriting, Emperor Yi and Emperor II have been fighting for so long, but I did not expect it to be cheaper in the end. Today, the magic hall has a second-order beast of heaven and earth, and the possession of Ye Xuan's deity can make heaven and earth jealous. The strongest gods pass the bow..."

Today's magic hall is absolutely invincible in the illusory sky of this ruined land, no matter which side of the power, it is definitely not their opponent. "

"Even if all the ancestors of the ages of the Three Great Sanctuaries of the People's Federation of China were awakened, they could not compete with them..."

"In this world, the existence of Ye Xuan, the master of the magic hall, can be suppressed. Only the wilderness is clear!"

As these exclamations sounded, the blood-stained war lions and the two human races from the Terran Federation, their faces had already sagged to the extreme.

If they said that they were quite angry with Ye Xuan's disregard and they were upset, then now everything is different. Today, the Lord of the Devils has entered the real heaven and the second step of the heavens. The emperor, who was repaired, opened the distance with them in an instant, and there was no war at all...

These thoughts flashed through the brain. The three old guys subconsciously turned their heads and exchanged their eyes through the endless void distance. They all saw a sorrow and a desolateness in the other's shackles.

They are also ancient and supreme. They used to be on the same level as Ye Xuan, the master of the temple, and even fought each other. can

Now, invisible, they have been thrown directly by the Lord of the Devils, Ye Xuan, and become a level that has its own number and can't stand shoulder to shoulder with each other. This feeling is really uncomfortable, and it's so embarrassing...

"Ye Xuan, you... want to die with my life?"

When the blood-stained war lions and the two human races from the Terran Federation sighed, the other side of the other side was empty, like a star-like giant sky, the eye-catching eyes were shrinking, and its incomparable The voice of God's knowledge also came out...

"I have to say that your calculations have succeeded, and you have swallowed up the electronic consciousness of Emperor Yi and Emperor II, and finally got the body of the beast that has already entered the real heaven and earth..."

"But even so, if you want to fight with me, you are still not an opponent. This emperor is only second-order, but I am the eighth-order existence of this situation. What do you want to do with me?" This

To be honest, even if he doesn't say it, Ye Xuan knows clearly that he is definitely not an opponent of the green eyes, even if there is a combination of the emperor and the beast, he will never be able to defeat each other. but

He has the confidence, because he knows that if the beast is desperate to rush forward and temporarily hold the green eyes of the wild, then the deity of Ye Xuan can take advantage of this opportunity to completely lock his body and shoot it with one arrow... ..

With his current cultivation as the strength, he is fully committed to the display of the sacred bow. Although it is impossible to let the eight-step land of the ridiculous heaven and earth fall, it can make him seriously injured.

The other party finally finally completed the arrangement, so that the end of the flood will come to the world in an all-round way. It must have more important arrangements to be launched. This

At the time, he could not afford the consequences of sudden and serious injuries.

In contrast, letting Ye Xuan leave calmly is not an unacceptable result.

Even if it is really unacceptable, the sorrowful sky and the blue eye can only be so, because he has no better choice...

Here, Ye Xuan's heart is big, and the konjac's flesh-and-blood body is flashing, and the voice of God's knowledge is instantly transmitted: "As you said, even if this temple is combined with the beast, it is definitely not your opponent. ...."

"But once the war is unfolding, under the imperial beast, the temple can smoothly lock your air-conditioner completely, and you will be hit with a slam dunk, but you will be seriously injured..."

"The result of this, do you endure now? Or say... you, willing to bear it?"
