

Super D.S 5021

Chapter 5021: Disappearing nine stars

"The result of this, do you endure now? Or say... you, willing to bear it?"

The arm sacrifices the bow of the sky, the right hand pulls the bow full of strings, and the leaves of the Xuanyuan

It seems to be ridiculous! "

Oh..." with

With his last words exported, the beast also snorted in a low voice, and the strength of the body was pushed to the extreme, ready to go, and a pair of moments could be teleported, and the rhythm of the blue eyes!

In the face of this scene, the opposite heavenly green eyes flashed and fell into silence...

It is the supreme being of the eighth order of heaven and earth. Although there is no fear that it is only the second-order beast of this place, if the beast is desperate and desperate, it will still be able to entangle him for a few moments. .

With this count of time, Ye Xuan holding the is enough to completely lock its air machine...

When an arrow is shot, it will not fall, but it is very likely to be seriously injured. Even if it has escaped the serious injury, the minor injury can not be avoided anyway... it

In weighing, thinking about whether this is worth it!

In the end, Tiandao Qingyan seems to have made a decision. The huge eyelids flashed a touch of unwillingness, and then the low-pitched voice of the gods slowly came: "Ye Xuan, you are not my opponent, but the baby I can temporarily let go, but what about you?"

It is not enough for me to pay for the price because of your lack of training in the heavens. Today, what do you want? "This

It is clearly the rhythm of Songkou. It is not willing to be injured because of Ye Xuan. He intends to temporarily let him go. When the time is right, he will kill him again. This

enough!

For Ye Xuan, as long as he can successfully leave here today, the goal is achieved. He simply did not intend to fight with Tiandao Qingyan. On the one hand, it is not worthwhile. Here, he cannot have the power of heaven and earth. But it is not the same in Hong Kong's void. Such as

Today, all the members of the Temple of Demon should have migrated to the emptiness of Hongmeng. In this emptiness of the end of the world, Ye Xuan has no concern, and it is his only purpose to leave without leaving it. Do not

Before, before that, there is one last thing to do...

Thinking of this, Ye Xuan subconsciously turned his head, and his eyes cast on the void direction of the third cosmic plane, and the power of the gods also swept away. under

For a moment, Ye Xuan's figure was shocked, and the violent face showed an unexpected shock...

See you? nine

The star is gone!

Before leaving this vastly integrated world of great wilderness, Jiu Tianxing is the only thing that Ye Xuan still remembers, and must be taken away... With his current cultivation as strength, even if it is a star, he can wave away! nine

Although the star is not the star that gave birth to his life, when Ye Xuan was the star that passed through the Nine Stars and really gave birth to his life, Ye Xuan was extremely suspected to be the mysterious mother star in the Milky Way galaxy. when

However, time and space may have been different. Perhaps the current mother star, before the endless years of Ye Xuan's birth, may be after the endless years...

Therefore, the mysterious mother star who is still protected by the law of Hongkong and the void, Ye Xuan is bound to go. but

It's a nine-day star, and he can't give up. Now, now that the ruined world of the ruin of the ancient world before the endless years has merged, it's time to end, but the end of the flood that has not really ended has come. . he

Can no longer stay in the vast world of the wild, because it will always be suppressed and must leave.

Then, when he leaves, he must take the Nine Stars away...

Although Jiu Tian Xing is not the star that gave birth to his life, but Ye Xuan grew up step by step in the nine-day star, where is his second hometown.

What's more, there are too many old people in the Nine Stars.

This star is very special. After leaving the Nine Stars, Ye Xuan rushed to Tianhe Star for the first time and completed the ownership of Jiu Tianxing. But at that time, he was too weak, and Jiu Tianxing was in a very remote place. Deep in the star field, there is no other life.

In order to avoid bringing the powerful force in the starry sky environment into the Nine Stars, it brought disaster to the souls in the stars. He never went back when he had not grown up.

But later, with Ye Xuan entering the immortal world, he already has the strength to guard the Nine Stars. He once returned to the Nine Stars, but unexpectedly discovered that the star's own domain is very

special, and the stars of the Nine Stars are covered. The atmosphere looks ordinary and is no different from other stars.

But in fact, in the entire atmosphere, there is a layer of invisible force like a wall film, which will hold the entire nine-day star firmly. Not only is it difficult for the monks inside the star to walk out of the stars, it must be too high, and it must reach the height of Ye Xuan.

It's even harder to get into the creatures outside the nine-day star...

At the time, Ye Xuan has entered the ordinary immortality, but still can not force through the invisible layer of the wall film in the atmosphere of the Nine Stars, into the stars, only by this point, you can see one or two... ..

However, although this matter is very different, Ye Xuan did not think much, but it was more reassuring.

Because it is the existence of the invisible wall film, the life of the nine-day star is condensed, and the atmosphere of the whole star is not leaked. Although he could not enter at the time, at least he can determine all the creatures in the nine-day star. , including those who are old, all are well...

Ben, Ye Xuan wants to wait for his own cultivation to become a hero, and even after the king and the emperor, go to a nine-day star to see if they can forcibly break through the atmosphere of the Nine Stars. The invisible wall membrane enters the stars. Of course

However, he has been in the main void of this piece of land in the wild, and even if he left, he went to the void of Hongmeng and did not return to the third universe.

In addition, the various things in my hands have almost never stopped, and I have not taken the time to take it. This incident has been dragged down until now that his own cultivation has entered the ancient and supreme, but still Did not return to the nine stars. only

Yes, what he did not expect is that now, the entire third cosmic plane has been integrated into this wild land, but it is in the third universe where the original nine-day star exists. The star field, but has disappeared from the nine stars... this

The result made his heart suddenly sink, but he was not in a hurry. After glanced back and recovered his gaze and knowledge, he frowned at the first time...

This situation is obviously very unusual. The only explanation is that the Nine Stars originally did not belong to the third cosmic plane... it is foreign!

Only in this way, the sacred eyes of the sacred heavens and the sacred eyes will be pulled from the third cosmic plane scattered after the collapse of the wilderness, and when they are integrated into the main void of the ruins of the wilderness, the nine stars will not be affected. Not brought over...

Chapter 5022: Withdrawal from the emptiness

With the promotion, Ye Xuan's heart gradually guessed...

The accidental disappearance of the star is obviously very unusual. The only explanation is that it does not belong to the third cosmic plane.

For the third universe, it is external! only

In this way, the mysterious method of the Qingtian Tiandao Qingyan will be pulled from the third cosmic plane scattered after the collapse of the wilderness, and when it is integrated into the main void of the ruins of the wilderness, the nine-star will not be affected, and there will be no Being brought over...

If this is the case, then where does the nine-day star come from? Where is it now?

All of this is very strange. Even if Ye Xuan's current cultivation is the strength and the result, there is no result. It is entirely based on his own guess...

According to common sense, a star, unless it is forced by some powerful powers such as the current Ye Xuan, otherwise it is impossible to get from a universe even if its star movement is too intense. The void is moved from nothing to another void of the universe.

Of course, it is possible that it is not the existence of some big energy levels, but because of the influence of certain laws, it leads to it from other planes to the third universe. example

This is the case with the mysterious mother star. It was when the battle of the world in the wild world was completely broken before the endless years, because of the power of the law of Hong Meng's void, it suddenly disappeared and disappeared.

As for the entire Galaxy star field including the parent star, they all flew away!

If the nine-day star belongs to this situation, then its origin is too mysterious, the background must be extraordinary, even if it can not compare with the parent star in the Galaxy star field, I am afraid that the difference will not be too much...when

However, these are not important. With Ye Xuan's current cultivation as a strength, as long as he finds the Nine Stars, he has a 10% confidence that he will be able to forcibly break through the invisible wall film in the atmosphere of the Nine Stars and enter the interior of the Stars. Such as

Therefore, no matter what secrets of the Nine Stars, they should be able to find out, at least have a rough result...

Yes, the third cosmic plane has been pulled by the sorrowful heavens and blue eyes, and it has been integrated into the end of the world. Nowadays, the nine-day star is so lonely that it has entered the endless stream of turbulence, and it is difficult to find it... Now! but

Anyway, you have to try it...

Of course, even if it can't be found for a while, Ye Xuan will not give up. When he is repaired into a real heaven and earth in the future, he will enter the dangerous endless stream of emptiness and bring the Nine Stars back! and

Now, it is not the Xusheng forbidden land to go, where the entire army of the Great Hall has been fully migrated, and the small star that has entered the void of Hongmeng has swirled. And

The small star vortex has been concealed again, and will not be discovered for a short time, so that the heavenly eye will not be caught by the army, and it will be able to directly smash the army from behind.

Therefore, if Ye Xuan returns to the Xusheng forbidden land, it is not good. If the path is pointed out to the blue sky, it will immediately expose the existence of the small star. anti-

I am going to go to the endless stream of emptiness to try to find the Nine Stars. Therefore, the best way to dispose at the moment is to directly tear the void and enter the emptiness.

Going to the direction of the third universe in the original direction, at that time, regardless of whether there is a result, he can directly use the plane-level interplanetary coordinate jumping ability, and directly return to the source nest base camp near Hongmeng...

That is to say, he is going to leave, and after he leaves, this reintegrated wilderness will be implemented in the first time under the deterrent of Tiandaoqingyan. no

Whether it is today's Terran Federation, or the Alliance of Tensions, or the Star Alliance, and other forces of size, as well as the three major star planes that are newly incorporated, as well as the forces and ethnic groups in the other pieces of the void, will be forced to surrender to the heavens and blue eyes.

All living beings living in this world of the end of the world will be honored. but

All of this, Ye Xuan has not cared, and I have no interest in paying attention to it...

These thoughts flashed through the brain, and Ye Xuan immediately shot, and with a clear and fierce cracking sound, a huge void crack appeared in the void in front of the beast. This

The void of the void, leading to the position of the void of the third cosmic plane, reveals an endless stream of emptiness, and the atmosphere is fierce. If

The existence of non-powerful or ruthless cultivation, even if it is the supreme of the universe, I am afraid that it is very likely that the corpse will be in a moment..."

Ok? "

For Ye Xuan's move, Hong Tian Tian Dao's eyes were obviously very unexpected. He did not expect Ye Xuan to leave, and he actually rips the void directly into the endless stream of emptiness...

Although with him and the beast of the beast nowadays, it is basically not too dangerous to enter this turbulent void, and if it is prepared, there is even no possibility of being lost in the turbulent air. Can follow the various traces prepared in advance...

Even so, Tiandao Qingyan is still very upset.

He had previously met Ye Xuan in Hong Kong's void and even almost clashed with him. Now he meets him here, indicating that he has the secret way to enter Hongkong's void.

In the view of Tiandao Qingyan, at this time, Ye Xuan's choice should be to enter Hongkong's void, instead of the so-called turbulent void...

However, all of this has no effect on him, no matter whether Ye Xuan is going to Hong Kong's void or endless turbulence, as long as he leaves this piece of the end of the world, it is enough. and

Moreover, Tiandao Qingyan is also extremely determined. In the future, there must be an opportunity to meet with Ye Xuan. At that time, it is all about it, and when it is angry today! "

boom! "

"Booming..."

In the void, the earth-shattering noise came, and the huge body of the emperor took a step forward, so he stepped into the void and stepped into the void in front of him...

At the top of the beast's head, the body shape has been reduced to the body of the konjac bone, which is only about a thousand feet. The left arm is always raised, the scorpion bow is not closed, and the right arm is always placed on the bowstring...

This is in the preparation for the flood of the sky, the green eye suddenly shot sneak attack, for this old guy Ye Xuanxin, but is extremely convinced, as long as he is still in this ruined endless sky, you must be guarded by God, in case of any eventuality. complete

It is actually the horror of the eighth order of heaven and earth. Once he is concealed by him, the result is serious and can be imagined. Even the current Ye Xuan may not be able to bear it... No

However, there seems to be no other plan for the green eyes of the wilderness. It is surrounded by hundreds of billions of miles away from the sky, and the squats are swaying from time to time. but

I have been watching the konjac so quietly on the top of the beast. With the steps of the beast, step by step into the void crack in front of me, gradually drifting away, slowly disappearing into the endless turbulence in the crack. In the void, no longer visible...to

Therefore, for Ye Xuan, everything in the emptiness of the end of the world is ending, but for this endless life in the end of the world, everything is just beginning...

Chapter 5023: Great wilderness

The end of the world...

"Booming..."

The figure of the beast and the konjac disappeared in the endless emptiness of the void, and then it was invisible. This huge void of the void was quickly repaired and bridged under the influence of the law of the endless void. Such as

Today, this place is no longer the main piece of the ruined world of the year, but a near-complete world of ruins.

At that time, at least 80% of the numerous shards of the size of the world that had been smashed by the World War II had been found by the Heavenly Eyes, and they were laid out in an endless years. Now they are dragging their secrets and reintegrating them together. This

If the world of the wilderness reappeared in the past, it was no longer comparable to the original world.
no

The wildness before the age of the year is full of vigor and vitality. but

Nowadays, the so-called wild world that has been reintegrated after the break of the mirror has already entered the end of this Hongmeng era. It has long been late, and will surely be completely annihilated after the next Hongmeng era officially opened. It is like an endless stream of emptiness. Generally, exile this... this

Everything has nothing to do with Ye Xuan. He has already withdrawn from the emptiness of the end of the flood, and if there is no other change, he will not come back. Everything in the future will be contested in the air of Hongmeng.

For the endless creatures who lived in this emptiness in the end of the world, everything has just begun.

When this huge void of emptiness was slowly repaired, the blood-scarred lion and the two races from the Terran Federation were still at the end of the void, and did not leave. he

They saw the advent of the green eyes of the ruins of the wild, and saw the recovery of the beasts with their own eyes. They also saw the empty space of other large and small ruins of the heavens and the earth, and quickly repaired and destroyed the main emptiness of this piece of land. Even the breath is completely different, even more magnificent and ancient world of floods...

In the same way, they also saw Ye Xuan and the Emperor of the Beast teamed up together, forcing the ridiculous heaven and earth to be out of jealousy. In the end, they did not get their hands. They could only watch Ye Xuan and the Emperor, and then calmly left.

All things, one piece, one pile, are all shocking.

Even though the three of them are powerful and ancient, the whole brain is now booming. For all of this, it's too late to be able to digest it...

Innumerable powers in the small and medium-sized forces in this star field, no matter how far the virtual air escaped, there is an exception. All of them are kneeling down in the void, and the body shape is shaking and shaking, just like the end of the world. general.

Nowadays, almost all of the large and small ruins of the ruined debris that collapsed in the battle of the world before the endless years were pulled. The vast world of the ruins of the year was re-circular and re-emerged under the merging of countless void fragments.

The power of the law of the ruins of the ruins of the ruins of the ruins of the ruins of the ruins of the heavens and the earth have already been remedied to the extreme. It can be said that the sacred eyes of the sacred heavens now control the emptiness of the endless dynasty, even if it has not reached the endless years. The former floods were in the midst of great prosperity, but the difference was not far away... no

Wrong, with the infinite fusion of countless shards of large and small ruins, today's ruins of the end of the world are endless and vast, tens of thousands of times more than before.

Even if this is the case, the heavenly eye, which is the embodiment of the world's will, is still able to control every inch of the void with precision. Such as

Today, it is in the end of the world, even if the figure is only standing quietly here, and does not deliberately disperse the breath, the whole piece of the endless void in the end of the world, all the creatures can clearly feel its infinity Power pressure... near

In the void, even the blood-scarred lion, the two people from the Terran Federation, the ridiculous and strange, at this time in the sway of the body constantly trembling, crouched in the void, the atmosphere did not dare to take a sip, It was pale and fearful. and

In the voids of other places, whether it is the Terran Federation, the Star Alliance or the Alliance of All Nations, all the strong stars, regardless of their strength, at this time, in the invisible eye of the heavens, the horror of the whole void Under the pressure of heaven and earth, there are no exceptions. At the same time as shaking and shaking, all of them are crouching down...

"I am a wilderness, but I am all my people..."

Under the glimmer of the gloom, the sound of the heavenly eye, the incomparable voice of the gods suddenly sounded, the sound is not very big, but it enveloped this whole piece of vast endless emptiness. where

I am afraid that the existence of the tortoise in the deepest corner of the Star Star will be clearly heard, and this sound will sound like it is in the ear...

The meaning of the representative is clearly the whole piece of endless void, and all of them are under the control of the heavens and the blue eye. No matter where they are, no matter where they are, they are all fine and complete.

"There is a resurgence of the wilderness, and I am coming all round..."

"From this moment on, the wilderness is unified, and the endless souls are respected by me. If there are dissidents... wipe it out!"

"call out!"

"Hey..." said

In the middle of the day, the blue eyes of the heavens and blue eyes shot three blue awns, which seemed to be inconspicuous, only the size of the belly, but all of them radiated a strong energy. This

The speed of the three greens is almost reached the limit. When it appeared, it was still in the void of hundreds of billions of miles, but it was almost in the next moment.

Without waiting for any of the three of them to react, they went straight into the eyebrows of the blood-stained war lions and the two people from the Terran Federation.

"Booming..."

For a moment, with the tiny worms like the worms, the three of them were in the body, and there was a very low-pitched thunder.

With the sound of this thunder, the three people's breath is also rapidly rising. short

Short three or four interest rates, it has directly broken through the two-stage repair. first

In the past, these two human races from the Terran Federation are just the seventh stage of the ancient sacred, but now, after two breakthroughs of small steps, they have entered the eternal order of the ancient sacred Great perfection has become the supreme existence of a half-step heavenly environment. to

In the blood-scarred lion, under the state of the **** sacred lions, the cultivation of strength has also risen from the previous fifth stage of the ridiculous, to the current seven steps of the ridiculous...

All of this is long-lived, but in fact it happens between the number of interest rates. In just a few short periods of time, the two-order cultivation is improved. This kind of thing is just like a dream. The three old guys are mad and shocked. I was stunned, and my eyes were round and round, and my mouth was slightly open, as if I had just been thundered, and I was tender and tender...

"This is my strength, go, my wild world, how can there be only three ancient Supreme 6"

At this time, the voice of the gods of the heavens and blue eyes only sounded again: "The command of the sects of the dynasty, the awakening of the power and the absurdity of all the ethnic groups and the forces... all come together!"

Chapter 5024: Go straight to the right bank of the Galaxy

Hong Meng is empty! This

In the remote area after the hidden star of the Xusheng forbidden land, it is still far away from the right bank of the Milky Way. Similarly, the distance from the source nest base camp is not close...

After entering here, the old pig has a sense of direction in an instant, and the vagueness has already sensed the position of the source nest camp. After all, he has stayed there for a short time, and now the old pig is in the magic pig. Under the state of the nine-year-old blood and supernatural powers, it has also possessed a half-step Tiandao repair of the ruling nine-step great perfection...

This time, the entire six members of the Grand Palace moved, and the vast and innocent Xusheng forbidden land was empty, and half of the hair was left.

Only by this point can you imagine how huge the lineup of this piece of Hong Kong's emptiness and corners is in the void. Looking at it, the six legions are quietly spreading in the dark void, all kinds of warships, wars. The figure of the boat and the beast is endless, spreading to the end of the line of sight.

In front of this foreign army that entered the void of Hongmeng, a black temple stood quietly, which is a symbol of the temple. This

The black temple itself is also a treasure of the ancient treasures. It is the refining of Ye Xuan. At this time, it shows a complete form. It is like a small star in the form of a temple. It floats in the void and reveals a thick layer. A simple atmosphere.

Xuanyuan Zijing, Duanmu Xiaocha and Zhao Qianru are still in retreat, so there are only seven sacred temples in the black hall, such as the ancestral sacred marshes, and now the seven hoes are on the platform outside the temple, looking forward. The darkness is empty and the face is full of thoughts...

"Hey..."

"Hey..."

At this moment, the two pigs screamed suddenly, and the old pigs and the Taikoo pigs and grandsons rushed from a giant star. These two guys now all activate the **** magical power of the magic pig, so the Taikoo Porcupine There is also a sanctuary.

Then, in the flagships of other stars and warships around the city, there were also some figures rushing out. These figures are all high-level of the magic hall. example

For example, the black robe from the original survivors' alliance, followed by the two guys, the three of them have a despicable power, just in the empty air closest to the black magic hall.

As for the rear of the three people, it is the top of the magic hall below the ruined place. Among them, the most powerful one is the ancient power of the ancients. Although the number is small, it is quite a lot.

In the short, half-column, the emptiness of the sky, the figure rushed out in the void, and gathered in the back of the black magic hall. Looking at it, the tops of the magic halls, without exception, all arrived. old

Behind the three pigs, there are nine wild powers from the bloody, Qingpeng and war lions, and the three great powers of the original survivors' union. Then there are six bloody, Zhaodong and Qiannan. Sun Xi, Li Bei, and the old survivors of the Sangzhi nationality. package

Including Qingniu and Yuling, Longjing, Gongjun, Roaring Moon, Three-jawed Dragon, Longshan Tang, Bloody ancestor, Qingpeng ancestors, and **** and Qingpeng, and the three lions of the War Lions are immortal... ..

And in the end, more than two hundred emperors in the captive army consisting of **** and Qingpeng and the three lions of the war lions are immortal. Of course, now the evil spirits of the tyrannical army led by the Taikoo tortoises, It is also here today.

Among them, the repair is weaker, still a group of commanders from the Tianhe Army.

Such as mosquitoes and old ghosts and Naples, the devil emperor Mo Tiantian, the devil's uncle, the tortoise clan chief Nine, the crazy mosquito emperor, Xuanyuan old man, Duanmu old man, Bodhi teacher and other small idle forces and family high-level and so on!

In a short period of time, the tops of the Devils in the six legions all rushed out of their flagships, and they sprinkled a total of thousands of figures, all gathered in the void behind the black hall.

At this time, in addition to the seven great cults and old pigs who had already come to Hongkong and the void, all the other high-level temples were almost all turning around, with curious colors on their faces, looking at the void. Everything...can

Unfortunately, even the ancient powers of the wild, the power of the gods extended to the extremes of the surrounding, but still can not find anything, this void is like an endless deep darkness, even an abandoned star in the void No, let alone mention the stars of life. with

Compared with the original emptiness of the piece of land in the wild, it is ridiculous...

There are almost a few strong temples in the six corps of the emptiness, but apart from the seven great cults and the old pigs, almost none of them have ever come to Hongkong. although

I have never been there, but at least I have heard that Hongkong's void is a higher level than the vast world before the endless years. thing

In fact, in the legend, the ruined world before the endless years is just one of the chaotic devils born in Hong Kong and the virtual world after the opening of the Hongmeng era. only

With this in mind, the image of Hong Meng's void in the eyes of everyone is already high enough. only

Yes, the middle of the heart has been allowed for so long, but now it is really entering the void of Hongmeng, and it is such a dark absurdity. At the end of the exploration of the gods, there is no existence of an abandoned star...

The situation is completely different from the original expectations of the people. The big difference is simply impossible to say. If you do not believe in Ye Xuan and the old pig, they have to wonder if they have come to the wrong place. can

Even so, they still have some worries, and they are stunned and look around the void. The expression on everyone's face is a kind of thunderous expression, and there are doubts about their own illusion...

"What expression do you have? Do you still suspect that the old pig is wrong?"

"Hey..." old

The pigs turned their heads and looked around the crowd. After a short while, they immediately understood why they were so. They suddenly turned their eyes and turned their heads to the violent roar. The voice of God once again said: "This is just Hong Kong. The most remote place is that the access to the Xusheng forbidden land is the most ideal in this position..."

"However, although the overall environment of the whole piece of Hongmeng is basically the same, it is very far away in the void to see one or two abandoned stars occasionally, but it is still extraordinary here..."

Have you heard of the source nest stars that breed the Chaos Devil? At the beginning of this Hongmeng era, there were three thousand chaotic devils born from the glory of Hongmeng, one of them, creating a later world of hunger..."

Nowadays, this Hongmeng era is about to end, and the new Hongmeng era will come. So, in this endless glory, there are 3,000 source nest stars in the world that will be born at the beginning of the new era. Devil, this time I will wait for the right bank of the Galaxy, and I will see two of them on the way..."

Here, the old pig seems to suddenly think of something, just slap his head and immediately change his mouth: "Is wrong, not three thousand, at most two thousand nine hundred ninety-nine, because one of them was headed. Knockout has become the base of our magic hall in this piece of Hong Kong..."

Chapter 5025: Only advance

Hearing this discourse, the tops of the magic halls were furious, and they all screamed and screamed..."

what? Our magic hall is in this base of the glory of the sky, is actually a source nest star? This hand is too big, right? An endless year of the Hongmeng era, Hong Meng and the virtual air only gave birth to three thousand chaotic devils, so they were won by one of our devils? ""

No, the source nest star bred is a chaotic demon god, so heavy, nature is absolutely impossible to allow the fish and dragons mixed, since the source nest star has become the base camp of our magic hall, then ... the chaos demon **** inside? "

"Is this still used? Naturally, it was done by the head. Hey, think about it, it's exciting, and without a word, it kills a chaotic demon **** who was born in Hong Kong's void..."

hiss! Killed? That is the chaos demon ***** bred by Hong Meng's void. Is this too embarrassing? ""

Hong Meng is empty, everything is possible. Although this sentence is a legend, it seems that it is not unreasonable to look at this matter..."

Yes, Hong Kong is empty, everything is possible..."

As the exclamations and emotional words of the high-level demon halls rang, the old pig's face also showed a triumphant color. After taking the slogan, he slammed it and turned all the way around.

This is a positive look, and then said: "In the past, in the emptiness of the land of the ruins of the land, the strength of the head has been suppressed, because the law of the heavens is not allowed, in the heavens of the big environment Under the pressure, even with the enchanting head, it is impossible to forcibly break through to the real heaven..."

"But in this piece of Hong Kong, there is also the suppression of the law of Hongmeng, but the level of Hongkong and the void is far higher than the world of the wild, and the strongest of heaven and earth is the strongest existence in the vast world, but here But far from it..."

"So, as long as you have this skill and talent, here, when you cultivate your strength, you can always hit the heavens and the world. Although there will be a thunder of heaven, but you will never encounter the overbearing suppression of the power of the law of Hongmeng."

"Besides this, don't look at this piece of vainness, but in fact, there is a big chance..."

Here, the old pig's face also showed a fascinating color, lifted his finger to the front of the line of sight at the end of the void, and then said: "See here, in the extreme distance of this direction, there is a splendid Galaxy, it Known as the Milky Way, there is a mysterious mother star in the Milky Way. It is said that the great world of the wild is the extension of the mother star and is born..."

The battle of the world before the endless years collapsed the whole world of the wild, and this mysterious mother star flew away with the entire galaxy where it is located..."

That is the force of the law of Hongmeng, bringing the Milky Way here. Now, like all the source nest stars, the Galaxy is inaccessible by an invisible wall membrane! ""

This layer of invisible wall film is condensed by the power of the law of Hong Meng's emptiness. It is too powerful, even if it is the existence of a true heavenly state, it cannot be forcibly opened and entered into it..."

It is said that when the new Hongmeng era is about to come, the three thousand chaotic demon gods born in Hongmeng's void will soon be born, and this layer of invisible wall covering the Galaxy's star field will be opened conditionally, as long as the qualified star-powered strong , can enter it, and compete with the indigenous creatures in the Milky Way for a new round of the Hong Kong era of air transport..."

"After the end of the war of gas competition, the Galaxy Star Field will be fully opened. At that time, the three thousand chaotic demon gods born in Hongmeng's void will also be born, which represents the new Hongmeng era... when it opens!" "

For this reason, in the far-reaching vast banks of the Milky Way in the distance, this endless years have gathered countless powerful forces, and they are waiting for the two opening of the Galaxy Void..."

"These powerful forces are different from the power of the previous shards of the ruins of the land..."

"You are all from the emptiness of the ruins of the ruins of the land, and naturally understand the division of power levels there. In general, taking the ban on the sky as an example, it is divided into two major categories..."

"The first category: the seal, the seal, the emperor, and the emperor, rule the small, medium, large and top star bans..."

"The second category: the existence of the universe, the Lord of the Universe, the Supreme of the Universe, and the five realms of the ancient powers of the ancients and the ancients of the ancients,

respectively ruled the five strong hierarchical forbidden places, respectively, for the primary, middle and senior, and Top, super strong forbidden!"

"That is to say, the starry ban on the land of the emperor's immortality is called the top star ban, and the sacred land is the same, but this is only the level of the first category..."

The so-called strong forbidden land is the strongest of the five realms after the emperor's immortality, the starry sky area in which he sits! ""

The strong forbidden land is just a general term. The strong forbidden land is divided into five levels. After all, the last five major realms before the heavenly state, the power represented by each big realm, is even more disparity. "

"The Supreme Forbidden City sits in the strong forbidden land, for the primary to strong forbidden land."

"The owner of the universe is in the middle of the strong forbidden land."

"The universe is supreme, sitting in the advanced Xingqiang forbidden land."

There is a strong forbidden land in the old town of the wild, it is the top! ""

As for the ancient sage... except for the super strong forbidden land, the other is not enough to match! ""

In the outer part of the ruins of the heavens and the earth, although there is a strong forbidden land in the second category, it is basically only the initial stage, the intermediate level and the high-level strong forbidden land..."

The top-ranking strong forbidden land in the ancient city of the ancients, as well as the super-strong forbidden land in the ancient times, but there are not many..."

"And here, on the banks of the Milky Way at the extreme end of the sky at the end of the sky, whether it is the forbidden land of the beasts or the land of the survivors, all of them are super-strong forbidden and star fields, all of which are in the old age."

"Even even said that there is a force that transcends the super-strong forbidden land and the star field. Within it, there is a real heavenly environment and even a more powerful existence... but it is generally silent, and it is impossible to wake up easily."

"They waited for the conditional opening of the invisible diaphragm that protected the entire galaxy in the near future, allowing eligible descendants to enter the battle for a new round of Hongmeng era..."

And our magic hall is also the purpose. The new Hongmeng era is about to open. We have no choice but no retreat. Only forward, only to compete for the new era of Hongmeng air, can we open in the new Hongmeng era. After that, continue to survive..."

According to the meaning of the head, the source nest base camp is not yet exposed, so, after entering this space of Hong Kong's void, we can only grab it ourselves..."

Speaking of this, the old pig turned to the front and looked at the end of the void at the end. The person stood up and swung his right hooves: "Goal, the right bank of the Milky Way... Go forward!"

Oh..."

Chapter 5026: Suddenly

"The source nest base camp has not yet been exposed, so the place to enter this piece of Hongmeng's void can only be robbed by ourselves..."

Looking at the end of the empty space at the end of the sky, the old pig said that half of the people stood up, and the right hoof slammed: "Goal, the right bank of the Milky Way... Advance!"

"Hey..."

After the last sentence, he was full of excitement, and his hair grew out with a long, horrible look... though

In the super-powers on the right bank of the Milky Way at the end of the void, there is a high probability that there will be a real heavenly environment, and even more powerful than the heavenly environment.

But the existence of that level has long been slumbering in their own empty nests, unless the Galaxy is fully open, or conditional, they will not wake up... Old

Pig essence was originally the indigenous people of Hongkong, and he was familiar with the right bank of the Galaxy.

Under normal circumstances, among the strongest forces on the right bank of the Milky Way, at most, some of the ancient powers of the ancients and the ancients of the ancients are sitting in the town. Even the peak of a ridiculous nine-step grand perfection, that is, half-step heaven and earth, rare. This

The existence of these levels, the reason why they crouch on the right bank of the right bank of the Galaxy, the only purpose is only the Galaxy Star, they are only interested in this matter.

As for other secular disputes, even if they know it, they feel it, and they are lazy to understand. It is better to continue to retreat, save and upgrade their strength, and prepare for the opening of the Galaxy Star in the future...

For this reason, when Ye Xuan was here, he could swept the octagonal as the konjac, and the people who stirred up the small half of the right bank of the Milky Way were smoldering and smoldering. very

As for the virtual giant tortoise, this time, after discovering that Ye Xuan was able to refine the 30th-level Tiandao Baodan, in order to collect the **** essence, he also smashed the entire right bank of the Galaxy by himself, and countless strong forces. The ridiculous old monsters are uneasy and have fled into the void...that

At the time, the big bank on the right side of the Galaxy, even a derelict old monster can not be found, sitting in the strongest of the strongest forces, but also the ancient powers. This

When everything happens, the old pig is in this hollow, so it is very clear. although

However, he left for a while, but now he has returned again, and his own cultivation is in the state of blood and magic of the magic pig, but it has reached the stage of the nine-step greatness of the absurd, that is, the half-step heaven. It

When Qian Yexuan ravaged the small half of the right bank of the Milky Way with the starry and violent identity, he was not strong enough to cultivate his strength. Even when the virtual giant tormented the entire right bank of the Galaxy, it was only the 9th-order grand perfection. For nothing...

With this return, the old pig is full of enthusiasm.

The Void Giant Turtle must be crouching on the right bank of the Milky Way. He is his own, and there is no need to consider it.

In addition to the empty giant tortoise, among the numerous powerful forces on the right bank of the entire Galaxy, there is no such thing as a sacred ancient supreme. With his current strong cultivation, the right bank is simply sweeping the rhythm of the eight sides. grab

A strong forbidden land in the back of the six Great Halls of the Devils is completely stress-free.

There is no need for too much planning and arrangement. In his opinion, it is enough to kill the army directly with the army. If you look at the land, you can attack it directly..."

Rumble..."

boom....."

"Hey..."

Oh..." with

With a slap in the air, in the six empty corps of the eternal and distant hall of the eternal air, countless warships, fortresses, star plugs, and the warriors and beasts of the beasts rushed to the front...

At this moment, the battleship roared, the battleship was smashed, the fierce beast roared, and the six great regiments of the demon temple were like a huge wave in the void, surging, and advancing toward the speed.

However, whether it is the old pig essence, or the black palace of the seven great Yan Xia sitting, this time did not lead the way in the front, but retreated to the rear of the six major legions, followed by behind.

Because at this moment, the direction of the six major corps of the Magic Temple is to go to the right bank of the Milky Way. After arriving there, there will be a suitable right bank to the strong force, which will become the target of the lock of the Great Hall.

That is to say, today's Demon Temple, this is going to the battlefield. Both

However, on the battlefield, the commanding high-level leader naturally did not reason to rush in front of the battle. In accordance with the usual practice, he was seated in the last party of the army and issued orders.

As for the six major legions in front, the black robe from the original survivors' alliance is the frontier coach of the town. In addition, the inside of the six legions also have commanding high-level leaders, and the first-level commander gives orders...

The First World War is extremely important for the Temple of the Devil, because this is the first battle of the Great Hall of the Great to enter this piece of Hong Kong. If it wins in a battle, it occupies a star field owned by a strong force as a place to live. In the first battle of natural energy, the name of the magic hall was started, and the whole bank won the respect on the right bank of the vast and innocent Galaxy. can

If it is defeated, the situation will be completely different. At that time, the magic hall will be wiped out. When it first came, it will be looked down upon. The impact of the future will be far-reaching. Place

Therefore, this battle can only win and not defeat the army of the Great Hall.

This point, the old pig essence is obviously clear, but he is equally stress-free. Today, the right bank of the Milky Way is not even a deserted supreme. The army of the magic hall has him sitting in the town, wanting to lose... it is difficult! whole

The lineup of the army of the Demon Temple is too large. The six legions, each with a strong military force, are now spread out in the void, and both around and around, all spread to the end of the line of sight.

Such a huge army lineup, although not slow, is limited.

Therefore, even if the entire army did not stop for a moment, locking in one direction and galloping in the void, it took more than a month to finally reach the right bank of the Galaxy...

Two hundred billion miles ahead, the original Hong Kong and the virtual air that had always been invincible, suddenly appeared a bright light, originally only a line, but soon, with the six major army of the magic hall continue to advance, this line of light has gradually grown. .

When the army was only about 150 billion miles away from the right bank of the Milky Way, it was already a star-studded galaxy in sight.

The starry river is vast, and the left and right have spread to the end of the line of sight, and there is no margin. At this time, the front of the marching army is just the third-third node in the left section of the right bank of the Galaxy.

At this node position, there is a strong forbidden land. At the beginning, there were two ancient Supreme Supreme towns. Later, they were killed by a hollow giant tortoise, and the other escaped.

When the old pig was separated from Ye Xuan in Hongkong's void, when he went to the piece of the ruins of the ruins of the wilderness, it was only a few ancient powers that were in the forbidden place. Today's old pigs are not in the eye. ..."

Roar! ""

Oh..."Let

What happened to him was that with the approach of the army of the Great Hall, the magical antelope in front of the 550 million miles in front of the forbidden land, suddenly came a few shocking roars, from the breath, it was all ridiculous.

Chapter 5027: Shaving head to half of the letter

"Roar!""

Oh..." with

The army of the Demon Temple approached, and within the forbidden land of the antagon of 150 billion miles ahead, suddenly there were a few screams of horror, and it was sensed from the breath that it was all ridiculous.

Then, there were more than a dozen figures rushing out from the Forbidden City in front of the forbidden land.

More than a dozen figures are all star-studded beasts, the four leading, the body's repaired breath is very incomparable, and all of them have entered the wilderness.

However, it is only the absurd grotesque in the early and middle stages. The strongest is only the fourth order.

And the more than ten figures behind the four ridiculous old monsters are all wild and powerful...

More than a dozen large-scale savage beasts have different bloodlines, especially in the back of the dozens of ancient powers, in different forms, can not find two with the same blood, apparently attached to the magic antelope The ethnic group of the forbidden land.

As for the foremost four heads of the old blame, there are three heads that are the magic antelopes. The body shape is ten million miles, and the whole body is dark, but there is a pair of **** horns, which is quite obvious.

Another ridiculous grotesque is a fierce bird with a head like a cat and a stature figure. It is very suitable for a cat's head.

This cat head scorpion should also be an outsider. The strength is in the middle level of the four ridiculous blame. It is not the next level. It is the second stage of the ridiculous, and it is still a step away from the initial peak!

At this time, as the body shape rushed out of the magic antelope forbidden land, these dozens of powerful powers and ridiculous old monsters, immediately launched a speed, and came to this side.

After all, there are more than a dozen ancient powers and ridiculous old monsters, and at the same time, the momentum can be imagined. and

At this time, in the black hall behind the army of the Great Hall, the seven great repairs did not show up, and the breath did not spread out. package

Including the old pig essence, also entered a super star plug behind the army, the same breath is not obvious...

Therefore, these dozens of powerful powers and ridiculous forces mobilize the power of the body, cultivated into a breath, and instantly gathered together into a powerful pressure, invisibly swept away, will be at this time The six major corps of the Magic Hall are looming...猝

Under the defense, countless strong men in the six legions were all eclipsed, and the army of the magic hall, which was originally galloping forward, also stopped in the void. inverted

It is not cowardly, it is completely conditional reflexion. After all, the four innocent and supreme powers of the four ancient and the ruins of the ancients are all too horrible.

In addition to the black robe of the whole army, the strongest is only a dozen noble powers. In the face of such a terrible pressure, the invisible sweeps over the body, this reaction is what it should be.

At this moment, facing all the things in front of me, the top leaders of the six major corps of the Magic Hall are all stupid. first

When I started, the old pig Jing had said it in public. Under normal circumstances, among the strongest forces on the right bank of the Galaxy, at most, some of the ancient powers and the ancients were sitting in the town. very

It is rare to see even the end of a ridiculous nine-step grand perfection, that is, half-step heaven, the existence of that level, the reason why the stagnation of the endless years on the right bank of the Milky Way, the only purpose is only the Galaxy Star. he

We are only interested in this matter. As for other worldly disputes, even if we know it, we feel it, and we are lazy! Do not

If you continue to retreat, save and increase your strength, prepare for the opening of the Galaxy Star in the future... and

Moreover, when the owner of the Devil's Temple, Ye Xuan Shang, had not yet reached the ruined position, he had swept the octagonal as the konjac, and the people who stirred the small half of the right bank of the Milky Way were smoldering. because

This is a fierce fight! again

Later, the hollow giant tortoise came to this void, and once ravaged the entire right bank of the Milky Way by himself, and the ridiculous old monsters in the myriad of powerful forces fled into the void. From

After that, this huge bank of the Milky Way has been unable to find even a veteran old monster. The strongest person who sits in one of the most powerful forces is just the power of the ancients, and it is not enough to fear... Such as

It's only been more than a month now. These words are still in the ears. Even the whole army of the Demon Temple has not yet reached the right bank of the Galaxy. There is still a vacant distance of 150 billion miles ahead.

But just in the forbidden area in front of the army, there have been four powerful and vulgar old monsters... In the other forbidden areas adjacent to it, it is obvious that the situation will not be worse!

These thoughts flashed through the mind, and the high-level members of the six major legions all subconsciously turned their heads to the rear void, and their faces looked strange, and there was a smack of sorrow and sorrow!

This dead pig is too unreliable. After that, his words are turned to the end, and at most half of it is believed..."

Roar! "

"Hey!"

"Hey..."

At this time, the former convenience has once again brought the sound of horror and screaming. put

Looking at it, the dozens of ancient powers and ridiculous gems that rushed out of the hinterland from the sacred eagle rushed under the speed of the squad, and they quickly approached, and their postures came to an abrupt end, and they succumbed to the opposite 50 billion. Dark void outside and inside.

Then, more than a dozen large and powerful beasts, the pair of fierce scorpions, and the scorpion of the sacred scorpion opened in the sky. One

After a round trip, their voice of God suddenly sounded, covering a void..."

Which army is this power? It looks so good..."

Stop your eyes? It's just weird, the dragons and snakes are mixed, when are the survivors actually mixed with the fierce beasts? And I still don't see the difference between the primary and the secondary. It seems to be an equal existence..."

"Which fierce beast on the right bank of the Milky Way has joined forces with the survivor's star field? It is assembled into a large army to approach my forbidden land. What is the intention?"

"Approaching? This word does not seem to be appropriate? This is clearly a miscellaneous army, the voice is so popular, but there are only a dozen noble powers and a dejected eccentric, and the only one of the ridiculous monsters, actually It's just a second step of the desolation..."

"On the basis of these strengths, why should I admit my magic antelope to ban the land? It is not so much that they are coming from an imprisoned country. If they look at the deity, it is better to say that they are coming to die..."

It's not enough to send a dead meal. At most, the dish is not good. It's not so good. It's not a tabletop, but those who are strange in appearance, have never seen a remnant in the battleship, but they are clearly The rich energy atmosphere, there should be a large amount of cultivation resources, so, is not to give us the magic antelope to send food, what can it? ""

Hey... send food? It sounds quite satisfactory to the deity! "

"No matter what their purpose is, since they are here, there is no need to go any more today. All the people, whether they are the abandonment of the ancients or the beasts of the stars, including those who are eccentric, are left behind..."

Roar! ""

Oh..."

When the voice just fell, the screams suddenly rose again, and the more than a dozen powerful beasts behind the four heads of the old singer, screamed and rushed out at the same time...

Chapter 5028: what happened

"No matter what their purpose is, since they are here, there is no need to go today!"

All the people, whether they are the abandonment of the ancients or the starry beasts, including those of the weird pastors, all left behind..."

"Roar!"

Oh..."

As the sounds of the gods of the four ridiculous geeks fell, more than a dozen savage beasts behind them screamed and screamed, and they rushed out at the same time...not

Needless to say, such a move is too arrogant, and the army of the Great Hall, which is half a billion miles away from them, is no longer in the void. And

Among the six legions, there are at least a dozen ancient powers and a second-order absurd...but

The old guys from the forbidden land of the magic antelope actually only sent out more than a dozen ancient powers, and they wanted to suppress the whole army of the magic hall and return it to the base of the magic antelope. This

It's simply the disregard of the red fruit, it's irritating!

Behind the army, whether it is the old pig essence or the seven great repairs in the black palace, there is no sound, even the breath is not diffused, but deliberately made a convergence, so as not to the four deserts in front of the void The old blame stunned.

It's just a dozen or so ancient powers. They don't need them to shoot at all, even the black robe is not necessary, including the dozens of ancient powers in the six major corps of the Magic Temple.

If the six major corps of the Magic Hall can't cope with these dozens of ancient powers, so a majestic army, the left and right are all at the end of the line of sight, and what practical significance can it have?

It can be said that whether it is the old pig fine or the seven great repairs in the black palace, they are all ready to see how the six major regiments will perform. Fives

The distance of tens of billions of miles seems to be very far away, but for the ancient powers of the wild, it is nothing, and it is full of strength, but it can be reached in a moment.

At this time, the powerful beasts of more than a dozen ancient and powerful places in the emptiness of the air came in abruptly. In a short period of time, they had already dropped the void distance of 10 billion miles behind them, and they will soon be close. "

boom! ""

boom....."

It was also at this time that the army of the Demon Temple, which was opened in the void, also responded in the first place. One

The army of the spiritual warfare consisting of 100,000 300,000-meter-diameter blood-colored war lords, rushed out from the Tianhe Army, and all the huge bells of the war lords swiftly turned, separated by distant universe voids. A dozen or so vulgar old screams coming from the front...

"The shot countdown: three, two... bombardment!"

Without waiting for everyone to react, the contemporary devil, Mo, asked the sky and madly gave orders!

In the 100,000-strong spiritual warfare, thousands of honeycomb nodes are lit up at the same time, and energy is transmitted in densely connected connecting pipes. Among thousands of three-kilometer-sized honeycomb-type knot warships There are a large number of devil strongmen. Within each hive node, there will be a high priest of the demon group or a high-level town where the royal family is good at spiritual power.

So shared, basically every tens of thousands of diameter honeycomb warships in the three-kilometer honeycomb-type battleships...

Under the command of the high priest or the demon royal powerhouse who sits on the battleship, they will fully mobilize the magical nucleus in the brain, exert spiritual power, and gather all the spiritual powers in an instant. This

These spiritual forces will be turned into a powerful invisible pulse, which is connected to a huge special material tube of a node, which converges toward the inner layer of the smallest layer of the bell mouth.

After everything is done, all the pulse of spiritual power gathered by these thousands of nodes will be in the hands of the nine devils and royal powerhouses sitting in the nine-node hive in the smallest layer of the trumpet. The command of the army commander... blasted in one fell swoop! This

Definitely a big killer! no

The shape of the spiritual power storm will be amplified by the nine layers of the bell at the moment of rushing out, forming a horrible and invisible star-level spirit hurricane.

Invisibly killing the enemy battleships in the opposite camp, it can be said that it is impossible to prevent.

There is no way to escape, because the vast front of the army of the War La, a huge fan of vastness and innocence, belongs to the attack area.

Although the Devil's Legion has only sent 100,000 spiritual warfare this time, each of them can kill a large piece. boom

The spirit of going out is invisible and inferior, and it is impossible to resist. Even the energy shields of warships, fortresses or fortresses are useless!

At this moment, with the voice of the contemporary demon emperor Mo Tiantian, the 100,000 spiritual warfare in the emptiness of the sky, finally issued a terrifying roar!

"Hey!"

The sound of the horrible sound is deafening, and an invisible tidal wave like a starry sky spurts out of the core node, and continues to enlarge along the outer nine-layer ring of the spiritual war.

After the fall of the sea, a horrible invisible force, raging toward the front! "

Oh la la..."

boom! "

"Booming!"

There is suspense, the empty sky in front, and a large burst of dense, cracking sound like a rain is over, and it is overwhelming. Vision

In the line, the emptiness of tens of billions of miles is tearing apart, and a lot of emptiness flows out of the sky. This kind of power, if it was the previous spiritual war, is absolutely impossible, at least effective range. Absolutely not reach this level of hundreds of millions of miles.

All along, the Devils' group is fully developing the Spiritual War Lara. From the outside, the 100,000 spiritual warfare is very different from the past, although it is still unable to transform the spirit with Ye Xuan. Compared with the war, but compared with the general fortress with a diameter of 100,000 meters, it is completely out of the same level.

Just a wave of volleys, the universe of tens of billions of miles away from the collapse of the universe, in which a few large void cracks, a large number of void turbulence directly formed a hollow vortex like a black hole. With

These emptiness vortexes suddenly appeared, and an invisible horror sucking force spread instantly, and the blink of an eye swallowed a few monsters of great powers, causing them to fall into the void, being exiled, and disappearing completely.

However, after all, it is a void in Hongmeng, and when the cracks appear, they are quickly repaired and bridged under the influence of the law of Hongmeng.

The speed is so fast, but the few ancient powers are being swallowed up in a short period of time. It's obviously not coming back...

There are a total of twelve ancient powers violently smashing from the opposite side of the sky. Now, the Warriors of the Devils have volleyed once and solved half of them in an instant. Remaining

The six ancient powers under the ruins are also blood-stained and wounded by the people. Obviously, there is no longer a battle.

In the face of this scene, the four ridiculous old monsters on the opposite side of the tens of billions of imaginary murders were dumbfounded and whispered to themselves: "Hey! How is this? Just now... what happened?"

Chapter 5029: Who is the old pig?

"Hey! How is this? Just now... what happened?"

Only one blow, the twelve ancient powers that came from the emptiness in the opposite side of the sky were solved half by one under the volley of the Demon Warlord.

Even the remaining six ancient powers, but also a body shape and blood, suffered a minor injury, apparently no longer have the power to fight. surface

For this weird scene, the four ridiculous old geeks who squatted in the tens of billions of miles in the distance were dumbfounded. One of them was stunned and whispered, like a nightmare. tight

Then, the four people were stunned at the same time, their faces changed slightly, and they took a sigh of coolness and exclaimed anger...

"Damn, this is not a battle for the benevolent people. I have never heard of this type of remnant warship. The power is too strong, and it is clearly fighting for killing. This is a big killing army..."

"The outsider must be an outsider. It should be from a certain unknown plane. Because of different civilizations, it is such a weird thing."

It is a pity that although this thing is not bad, but in the face of absolute strength, everything is just a singular skill, this lineup of the outsiders is huge, and can not withstand the four ancient Supreme shots..."

No need to say anything, immediately shot, my mob is forbidden, but they have to pay the price, but these weird battle boats seem to have some research value, there is no need to destroy it, will be in this alien army The ridiculous old monsters were killed and vented their anger, and the rest were brought back to the forbidden place..."

Roar! ""

Oh..."

Rumble..."Most

Afterwards, all the four ridiculous blame all screamed and screamed, and the power of the body was rushed to the extreme, and the atmosphere was raging, and the magical temples that were separated by a virtual distance of 50 billion miles came. he

Although the Demon Legion that we saw only had only one black robe and was retired, it was only the second-order absurdity. However, in order to ensure the bombing, four people must join hands and fight against each other.

The ridiculous and difficult to kill, basically have the basic means of life-saving, and the strength of the four of them is stronger than the black robe, but it is quite limited, and does not have a completely overwhelming advantage. Such as

If only one or two people are dispatched, it is impossible to ensure the results of the war. It is very likely that they will be taken away by the black robe. This result is not what they want to see. Therefore, the four people are coming out together. Meaning...

This scene was as early as the black robe, but he did not fear, and did not mention the seven great repairs, in a super star behind the Magic Palace, there is also a nine-order grand perfect peak Respect, it is a true half-step. old

Although the pig fine goods are not reliable, but the half-step heavenly cultivation is still lacking in strength. Of course, even if it is a half-step, it is impossible to use an enemy four, and the four wastes will be opposite. At the beginning of the reign, all the vulgar old monsters in the middle of the period were all killed.

Even if the other party is careful and has preparedness, under the frontal battle, the old pigs have no special means, although they can be fully crushed, but it is unlikely that they will completely kill one of them.

It is too difficult to kill the ancient Supreme, and each has its own heritage. This is also a self-deprecating, but clearer than anyone else. in

It seems that the old rooster has not appeared in the past, and even the breath has not spread out. It should be waiting for an opportunity to find the four ridiculous monsters. opportunity. he

It is not the main body of the magic hall, Ye Xuan, who has the power to force the toughness of the Shennong nine-color flame in the hands of the gods and the ruins of the same realm. If you want to achieve the bombing, you can only use this kind of anti-theft. The sneak attack method.

This is nothing to be embarrassed. It is as powerful as a giant tortoise. Was it not the same when hunting the ruthless monsters in the Forbidden and the Xingqiang stars on the right bank of this Galaxy?

He himself has been crouching in other unknown voids, only to capture the breath of a ridiculous old monster, secretly locked it, then suddenly shot. no

Then, even if it is the existence of the level of the empty giant tortoise, if it is to face up and kill a lazy old monster, the initial situation may still be exhausted by him, but as long as it is in the middle of the desert, even if it is abused again Basically, there is no possibility of being completely smashed... though

However, even if it is the old pig, it is impossible to kill all the four old evils that are coming from the front, but if he sneak a sneak peek, it is still possible to kill one or two. of.

However, the black robe must cooperate with him. He also lived a lot of ages. Although he did not communicate with the old pigs, he had already guessed his plans. Yes

So, at the moment, I saw a roar under the wrath of the four ruins of the opposite, and then rushed at the same time, the black robe's ruthless glory flashed, and a bronze bell was hung in the wave. At the top of the head, a light curtain will be poured out to protect the body. tight

Then the right hand turns over again, and a short spear appears in the right hand, and then the shoulders sway, directly rushing toward the front... 眨

Between the eyes, his figure has already rushed out of the Great Hall of the Demon, to the universe of the billions of miles in front of the sky, in order to avoid the six major regiments of the Temple in the follow-up battle. .

After all, this is a war of the vulgar level, and the strength of the six legions is strong. After all, it is only a level of power at the regular level. Once the violent energy of the ridiculous blame is raging, the warships of the six legions, Starship and Stars are simply unbearable.

Seeing this scene, I was screaming from the four ridiculous old geeks from the opposite side of the sky, and then laughing at the same time, the speed of the feet did not stop, but the face showed a sinister color, sound fling in teeth....."

Hahaha, seeing no, the black robe buddy actually rushed out of the army alone, and also sacrificed a bronze bell over the head, holding a spear..."

"This is clearly the rhythm of waiting for a positive battle with me. I really don't know how to live..."

"Oh, can't you say that, maybe people have concealed the cultivation, it seems that the second-order absurd, in fact, it is a nine-step big perfect half-step heaven...not known!"

"Even if it is the ninth-order big perfect half-step, how is it, the same as his ass, he's sloppy! Hahaha..."

Fan discourse is too harsh, especially in the last sentence, directly stimulating the old pig essence, and thinking of the four-headed, middle-aged, ridiculous eccentric, actually dare to be the leader of the nine-step grand perfection. This is simply not to put myself in the eye, the old pig's heart will instantly burst into infinite anger. No

Hesitated again, even if he made some invisibility in the body, he stayed in the third stage of the desert, and then he rushed out.

From the standpoint, a pair of front hooves slammed and snarled: "Hey, old pigs here, who dares to let go..."

Chapter 5030: a hoof

"Hey, old pigs are here... who dares to let go?"

Roar....."

The four-headed self-cultivation is a ridiculous old man who is only in the early and middle stages. He dared to be in the throne of the 9th-order grand perfection. This is simply not to put himself in the eye, and the old pig's heart is in a moment. There is infinite anger. No

Hesitated again, he made the invisibility of the body's repairing atmosphere for the first time, and remained in the third-order situation of the ridiculous, and then swayed, and directly rushed out of the super star plug. Out

Now in the void of the universe outside the stars, people stand up, a pair of forefoot slams, violently screaming, screaming...

Not to mention, he has always been concealed and cultivated as a breath. At this time, he suddenly rushed out from a super star behind the main hall of the magic hall. A pair of iron hooves slammed and screamed loudly, and it was too late to prevent it. I was shocked by the four ridiculous old monsters that the magic antelope banned.

Almost subconsciously, the eyes of these four ridiculous grotesques were simultaneously transferred, and the old pigs were stunned... especially after sensing the disintegration of his body. "

Damn black-skinned old pig, are you dying? This big door almost scared the old man..."

"But a small third-order ridiculous, but actually dare to do so, is it really you who dare to come and die?"

"When I really don't know how to live and die, the third-order ridiculous people dare to rely on the old and the old, and they just haven't seen the world. Sure enough, they came from some unknown empty space. They are far from the backcountry. They are too ignorant..."

Come and die, your grandfather and grandfather will kill you! "

"Roar!"

"Hey..."

The four ridiculous geeks deliberately spurred words, and they clearly wanted to anger the old pigs, lest he take the opportunity to escape.

They originally thought that there was only one lazy old monster in this mysterious alien army. But now it seems obvious that there is an omission. The former survivor who rushed out should be just the second person. After all, he is only a second-order waste. Respect, so responsible for leading this huge army in the Ming, trekking in the void. to

The No. 1 character of the Legion is obviously the third-class old pig of this ridiculous, and this can be proved by his rushing out of a weird warship that is particularly large behind the Legion.

Generally speaking, the supreme commander of this large starry army is sitting in the last place...

For this reason, although they have some accidents about the appearance of the old pig, they have also determined that this mysterious alien army is only two ridiculous. thing

In fact, their guess is basically correct, because the seven major repairs will not be easy to show up, there are old pigs, and they do not need to show up at all. and

If the old pigs can't resist it, they don't make any sense to show up again.

Therefore, it is said that there is only two desolation and grotesque in the town of the Devils. In fact, there is not much difference. What they have never expected is that this seemingly inconspicuous black-skinned pig is repaired. The strength is far beyond their imagination...

Of course, the distance between them is still so far away. It is impossible for the old pigs to expose the real repairs to the present. In that case, the four old guys will be scared and fleeing on the spot. Killing one or two of them is simply impossible."

Roar! ""

Actually dare to hit the pig, do not run with the ability, the old pig I have a hoof, put all of you into a meat mud..." old

Pig essence is not stupid, naturally it is to see the other party's calculations, but he does not converge on anything, but instead speaks his heart, which in turn can make the other party's alertness to a minimum...

After the roar of the roar, the shoulders of the old pigs swayed, and the whole body was turned into a masculine sensation. The third-order cultivation of the body was pushed to the extreme, and the blink of an eye crossed. In the void, the six large army of the Great Hall of Devils was smashed into the void in front of the army.

Still not stopping, the speed is not reduced, still rushing to the front, and after a while, with the opposite face of the magical spurt of the demon banned four heads of nostalgic blame, it is only less than 10 billion miles away... ..This

At one moment, the old pigs and the black robe were arrogantly exchanged for a look, only one confrontation, and a consensus was reached in an instant..."

Oh..."

Without hesitation, the brass bell hanging from the top of the black robe was suddenly screaming, and the moment of work burst into a sturdy golden mans, the speed was too fast, just like a cross Empty, directly locked the cat head 对 across the billions of miles.

The cultivation of the cat's head is the same as that of him. It is only the second order of absurdity. The goal of choosing the black robe as a master is extremely normal and will not be suspicious. but

In fact, the reason why he did this was to contain the cat's head, in case he realized that he was not good, he fled the first time...

This cat head owl is different from the other three head gazelles. He is a savage bird. Everyone who is a murderer is generally good at speed. If no one is involved, if he withdraws, it will be difficult to catch up.

"call out....."

At this time, with the brass bell hanging over the top of the head, a light curtain was poured out, swept away, and the shape of the cat's head was shrouded in it. The black robe was also a flash in the middle, right hand. A tight palm spear, the entire body has turned into a volley.

A moment's work has come to the front, catching up with the cat's head, fighting in the air...

This is a desperate fight of despicable grotesque, with a strong atmosphere and an astonishing scene. A large piece of virtual air machine in a radius of 10 billion miles is chaotic. The battlefield is shrouded by chaotic and violent energy, and soon it will be difficult to see the black robe. The stupidity and the shape of the cat's head...

Therefore, the other three heads of the gazelles did not pay too much attention. In fact, their intentions are the same. The old pigs have been cultivated with good strength, and they have reached the third level of absurdity. To kill this level of existence, The three of them must join forces, surrounded by groups, and then secretly cooperate, it is possible...

This obviously takes a certain amount of time. If it is in the course of the war, the black robe is not good enough to see the plane, and immediately withdraws from it. At that time, the three of them are also very difficult to pursue.

But now, there are cats and cats to contain them, and the three of them can put down their minds to fully encircle the black-skinned old pig.

As long as the black-skinned old pig can be successfully smashed, then the head will be turned over to the absurd of the black robe. The final result is obviously no suspense, and the other party will not last long, very short. In time, it will be completely smashed... brain

In the middle of these thoughts, the three sacred sacred sacred sacred stalks quickly exchanged a look, just as the old pigs have reached 10 billion miles, they did not hesitate, the first time around Surrounded, proudly screaming..."

Roar! "

"Hey!"

"Hey..."

Old black pig, you are really not afraid of death, dare to take a pair of three, is it a thick skin, can you resist? ""

Oh, maybe it's because people's skin is itchy, and sincerely looking for abuse, this is also possible..."
