

## **Super D.S 5071**

Chapter 5071: Sorry, no interest

With the water coming to the source, Ye Xuan suddenly breathed a sigh of relief, and the whole person was a lot easier. Connect

There are only two types of congenital five-line medicines that need to be found. As long as they are found, they can refine and refine the 30-level Tiandao Baodan. most

The latter two, Ye Xuanguang is thinking about it and some can't wait!

But now it is clear that it is not yet time to leave. There are still hundreds of blue-clad forbidden beasts in the front of the void. For him, this is a dozen of great blood and hundreds of supreme blood. ....

"Roar!"

Damn guy, you actually killed him, you actually killed him..."

"Hey! Do you know who the deity is? It's just awkward, looking for the rhythm of death..."

Just as Ye Xuan wanted to shoot, and the three hundred heads of the universe and more than a dozen ancient powers were punched, the blue lining in front of the forbidden land, suddenly there was a shocking roar.

After the roar, there was even a roaring sound, which sounded even more arrogant than the water-blue lining that had just been bombarded in the past. This

The roaring to the presence of jumping feet in the void is one of the hundreds of beasts that survived the blue-green forbidden land. This

It is a fierce bird with a pale green mysterious marking on the body. It can't see what blood is like it. The head is like an owl, but its shape is like a giant sculpture. This

The head of the cat is not very large, only about a million miles, but the body is not weak, but it has reached the great nine-step perfection, that is, half-step absurd. very

Obviously, in this blue ban, in addition to the three ridiculous old monsters that have been smashed, it should be the strongest of this cat head carving.

Even so, with his great ninth-order refinement as the strength, there should be no arrogance in front of Ye Xuan.

After all, he just watched Ye Xuan's shot, and the blue lining, including the water blue lining, was forbidden by the three heads, all of them were killed one by one...

The ninth-order grand perfection of the peaks and desolation is stronger than him. The water-blue lining of a big realm is not the opponent of Ye Xuan. It is bursting with a fist, but this guy still yells at Ye Xuan. This is only the case. Two possibilities, either he is stupid, or he is self-confident or the background behind him is not weaker than Ye Xuan.

Obviously impossible, then the only explanation is the latter.

The thoughts flashed through my mind, and Ye Xuan's mouth slowly outlined a touch of laughter, which turned to the deer stick on the side behind him. but

But did not speak, the line of sight quickly moved, and fell to the cat head carving that was roaring in the front of the sky.撤

Pouting, fluttering back and said: "Sorry, who are you, this temple... not interested to know!"

boom! ”

"Hey..."

The sound of his knowledge is ringing again, and everything that follows is no suspense. leaf

In the body of Xuan's body, the sixth-order terrorist pressure in the body was immediately dispersed, and it was crushed toward the front of the blue ban. gas

The interest is too horrible, and the earth-shattering roaring sound is coming instantly! blink

Between the eyes, this power can be horrified to the horrible amount of violent violence, and it has already smashed into the body of hundreds of starry beasts in the star field...he

Although they are the supreme power of the universe and the power of the ancients, but in the face of the sixth-order Ye Xuan of heaven and earth, they simply have no time to react, and the difference in strength between them is too great, and they are not at the same level. Electricity

During the fire of the stone, a rush of horrible power rushed into their bodies, and after a short period of time, they were already raging in the body...

The road screamed and screamed, including more than a dozen ancient powers, all the huge bodies of the starry beasts exploded in an instant, turning into a blistering \*\*\*\* fog that spread quickly. Void..."

call....."

Ye Xuan's glimpse of the gloom of the glory, the first time waved, spurting a huge invisible force. will

The \*\*\*\* fog that is spreading rapidly spreads out, and it is taken into the body and sent to the bottom of the volcano in the central area of the Dingnai space. to

Therefore, Blue Lin was completely destroyed by the forbidden land. In the entire forbidden land, a living starry beast was gone, and it was turned into a barren land.

In the First World War, Ye Xuan's harvest was even greater than the previous demon wolf. except

The source of water, he also harvested three wild blood essence here, there have been 38 before, and now add three more, the total has reached forty-one. except

In addition, even the power of blood, he also harvested 36 this time, because the blue power of the blue banned land, just thirty-six.

In addition to these three ridiculous geeks and thirty-six ancient powers, the remaining universe is arrogant and violent, the total number of sacred beasts is 713, and now all are bombarded, the body is blasted The blood mist was collected by Ye Xuan and sent to Shennong Ding. Soon after, it will be turned into more than 700 pieces of Supreme Blood..."

Congratulations to Daoyou, the water source is also here..."

At the end of the cut, the deer sticks in the back greeted him for the first time. He smiled and smiled. He held a fist to Ye Xuan, and even said: "Hey... the friend's repair is really strong. Life is only seen!"

These five lines of medicine lead, the old man has thought about it for many years, but he never thought that one day he could have the ability to gather in his hands..."

And Daoyou, this is less than ten days, and now three of them have been collected. The remaining two must also be hand-to-hand, and will soon be taken, think about what is really sighing..."

"Ludaoyou is polite, these five lines of medicine lead, open your velvet without mentioning, now the gold source and water source that have already arrived, the Taoyou is also powerful..."

Looking around, Ye Xuan nodded, and his face showed a smile. When he said half of it, he took the lead after he said: "Although the wolf bans the land and the blue lining, the two warlords have not shot, but if you are not Leading the temple, the temple has no way of knowing the two forbidden places, just the five elements of medicine required..."

Therefore, in the future, the five elements of medicine will be gathered together, and the temple will be refining the 30th-level Tiandao Baodan. If Baodan is successfully released, then there will be one of its own friends..."

"This is what it should be, what the Taoist friend deserves, so there is no need to push it! Oh, yes..."

In the words, Ye Xuan suddenly remembered something, and once again turned to the side of the deer to look over, stunned in the middle of the gloom, even when he answered: "The only talent in the nine-step great perfection The cat head carving seems to be a bit weird. It is obvious that the temple will punch the water blue scorpion, but he still screams and snarls so madly..."

As if there is any reliance on the hands, the Taoist friends should also see it. For the goods, do you know the origins and backgrounds? "

"This is a bit weird..."

Hearing the words, the deer sticks a glimpse, his face quickly showed a faint color, and immediately shook his head: "But the cat head carving is but tight, the old man...have never seen it!"

Chapter 5072: Black crow forbidden

"Don't you see it? Then forget it..."

For the deer's answer, Ye Xuan seems to have expected it, and there is no accident in the speech. Even if the matter is taken over: "The repairing power of the cat head carving is not the big nine-step. Satisfactory, even if there is a background in the back, can you be stronger and stronger? The sky is also the beginning of the heavens..."

If the existence of this level is not found, it is counted as luck, if you dare to find death, it will be a big deal to kill..."

Right, the Taoist repair is shocking, and a small half-step ridiculous dare to be so arrogant, is simply a joke! "

It's said that the deer's stick has a glimmer of light and a smile on his face. He immediately put a smile on his face and turned the topic directly without a trace: "Oh, the friend of the road, the blue ban on the land has already ended, let's stop. Going to the next stop, about the general situation of the next goal, the old man said as he walked..."

This is also true, the five elements of the drug has already been hand-picked, and the remaining two are really inconvenient to delay for too long, just let go and say..."

Xuan nodded and shook his shoulders. When he even plucked the blue lining that had already been a dead field, behind him, the deer stalked in the middle of the cold, but it quickly disappeared, and his face was full of laughter. Followed by Ye Xuan and chased him up...

At the same time, in the middle section of the left bank of the Milky Way, there was an extremely strong, and there was a strong forbidden land on the left bank of the entire Milky Way. An earth-shattering whistling sound suddenly sounded without warning...

"Hey..."

who is it? How dare you start with the younger son of the deity? The blink of an eye is extinguished. This is clearly a sneak peek. At least it must be the culmination of the ninth-order grand perfection. It may even be the beginning of the heaven..."

No matter who you are, the deity must take you out, smash the bones, and smash the soul! Oh..." This

The strong forbidden place is called the magic carving forbidden land. The strongest person who is currently sitting in the forbidden place is the late heaven and earth in the seventh-order world. Such as

It's this screaming and screaming, it's this arrow 翎翎翎 猝猝猝猝猝猝猝猝猝 翎翎翎翎翎翎翎  
翎翎翎翎翎翎翎翎翎翎翎 这翎 这这这这这这这这

.....silver

On the right bank of the river, Blue Lin is not far from the universe outside the universe...

The two figures were rushing in the sky, almost side by side, only one position. a little

The front is an old man, a blood robe, red hair red whiskers, and the figure behind him is a young human strong. This

The two are Ye Xuan and the deer.

While on the way, the deer in the first half of the body also turned back from time to time, with a flattering smile on his face, introducing Ye Xuan to the next goal and the situation of the Xingqiang forbidden land where he was sitting..."

Daoyou, this time, we have to leave the right bank of the Galaxy for the time being, because the next two goals are all on the left bank of the Galaxy..."

"And these two goals are very special, they are the supreme existence of heaven and earth, so the Taoist friends must have a psychological preparation, and then there may be a fierce battle... But of course, with the sixth-order cultivation of Daoyou Tiandao , still no problem at all."

At this point, the deer sneaked at the eye of Ye Xuan. Seeing that he just picked a brow and didn't have much expression, it was a sigh of relief. Then he said, "I'll talk about the next goal..."

"This goal is a red-black crow. It is said that there are three \*\*\*\* veins in the body. It is also a congenital beast. There is a red crystal in the body. This is because the red crow is entering the desert, because the body A crystal that slowly returns to the ancestors and grows slowly in the body. It is also one of the special innate treasures. Its attribute is fire, which can be used as a source of fire..."

The repair of this red-black crow is extraordinary, and it has already entered the real heaven, but it is only the second stage of the heavenly world. The problem is, big deal, a little trouble, there will be a big fight..."

The strong forbidden land in the town of the red-black crow is called the black crow forbidden land. It is located in the right section of the left bank of the Milky Way. In the left bank area, it is also known as Hehewei. "

"Now we are going to the right bank of the right bank. At the end, we will follow the edge of the Milky Way star field and go to the left bank. So we will get to the left bank of the Galaxy..."

"And the black crow sitting in the red-black crow banned the land, just in the near-end area of the right bank of the left bank, so after the past, you will soon reach the destination..."

Compared with the right bank of the Milky Way, the strong forbidden land on the left bank is more powerful. This is also a reason, because now the entire galaxy is protected by an invisible law of Hongmeng, and no strong person can enter, even if it is The true heavenly powers can't forcibly break the power of this invisible law of Hongmen..."

"You can only wait for the next Hongmeng era to come to a close, and the conditions of the Galaxy Stars will be opened. It will allow some strong people to enter the red and Mongolian air transport in which they will compete for the next era in advance.

"But in fact, all the fierce forbidden land squatting on both sides of the Milky Way and the fierce beasts and survivors in the Supreme Star Field, their ultimate goal of entering the Milky Way, is actually the mysterious parent star..."

The Milky Way is extremely vast, and the parent star is just a mysterious ancient star. It is within the Milky Way, but it is located on the left bank of the Milky Way..."

"It is for this reason that after the discovery of the Milky Way star field, the ancient beasts and survivors who came here to gather here were originally gathered on the left bank until the left bank could no longer accommodate more forbidden land. On the right bank, I slowly gathered a large number of Xingqiang forbidden and Xingqiang stars..."

From this point of view, we can know that although they are both the strong forbidden land and the supreme star field on both sides of the Milky Way, the left bank is obviously more ancient and powerful. If it is not strong enough, it has been destroyed by the powerful existence. ....""

Therefore, on the right bank of the Milky Way, there are still few real strong people who are born in the heavens. Even if they are crouching in the mysterious unknown void, they generally do not show up. "

"But on the left bank, although not every strong forbidden land and the Supreme Star has a strong territory, but basically there are more than one-third, and the remaining two-thirds, even in the current star area. Those who are not strong in heaven will also be crouching or retreating."

"There is no strong forbidden land and the strongest star field in the strong territory of the heavens. On the left bank of the Galaxy, it is destined to survive, and it has already been destroyed."

Having said that, the deer stalker once again sneaked a peek at Ye Xuan, and this shouted: "So, this time I went to the left bank. If the Taoist is a shot, it is best to make a quick decision and kill the red black." The crows will take the long-term view, and the rest of the absurdity and power will not have to be remembered, so as not to attract the strong people who are adjacent to the forbidden land.

Chapter 5073: Foreign forces on the left bank

For the past two times, the deer stalker has always been Dun Dun

When Xuan was forbidden for the first time, Ye Xuan didn't think much about it, but the second time when Lan Lin was banned, the deer's self-proclaimed temperament deer, talking about the extinction of Lan Lin's forbidden land, but there was no abnormality. It's almost blurted out, it's natural.

This immediately caused Ye Xuan's suspicion, leaving him with more heart.

But this time I went to the black crow at the end of the right bank of the left bank of the Galaxy. The old guy was uncharacteristically. Not only did he no longer persuade Ye Xuan to kill other red beasts in the forbidden land after killing the red-black crow. High-level shots. actually

On the contrary, he still wants to strike back, so as to avoid attracting the heavenly tyrants of other left bank forbidden areas adjacent to the black crow ban, and it seems that everything is considered by Ye Xuan...

This is either the old guy realized that Ye Xuan has been suspicious, it is this intention to do so. Want

What is his means of calculating Ye Xuan, it is not in this red-black crow, but on the last target after the black crow...

For Ye Xuan, he is obviously more inclined to the latter. And

Previously, he had been wondering where the deer cane had such a great courage and arrogance to count a strong man in the heavens, but now, after knowing the situation on the left bank of the Galaxy, Ye Xuan finally realized it. Both

On the left bank, one-third of the strong forbidden land and the strongest star field have strong people who are strong in heaven. Then, as long as the interests are large enough, the peak of the deer's ninth-order grand perfection is half-step. The cultivation of heaven and earth is strength, please move some evil beasts in heaven and earth, obviously not too difficult problem...

When Lanlin was forbidden in the past, the ninth-order grand perfection cat head carving, identity and origin is obviously extremely suspicious.

With his half-step retreat as the strength, facing the supreme existence of Ye Xuan in the mid-term of the heavens, he did not have half of the fear. From this point of view, the strength behind the other side may not be weaker than Ye Xuan.

Most of them are at least the mid-term peak of the sixth-order of the heavens, and may even be the late stage of the heavens in the seventh-order world. This

One point, the deer must be known, and it is for this reason that he will not let the leaves sculpt the head of the cat, and must kill it. Such as

In this case, if he helps him to ensure that the final calculations are launched, he will certainly be able to invite a young man who is not weaker than Ye Xuan, and is even more likely to be trained to have reached the seventh stage of the late stage...

At that time, even if the Tiandao blame is eating meat, he will drink some soup in the back, and the benefits he gets will definitely be much more than that offered by Ye Xuan...

Everything, Ye Xuan is only secretly calculating in his heart. Basically, he has a bottom in his heart, but he has not broken it. He even has some pretense. complete

In fact, the last two kinds of fire source and the origin of the soil have not yet arrived, but also need this old guy to guide him, now far from the time to turn his face...

"call out!"

Oh..."

In the air, the sharp sound of the air broke out, and the two awns passed by the right end of the right bank of the Galaxy, and soon disappeared into the endless black shore...

Bypassing this fascinating dark area, you will arrive at the left bank of the Milky Way, and you will see the fascinating stars in the Milky Way.

But this deep dark area is extremely vast. No matter exists in the void, and because there is no starburst emanating from the galaxy's star field, if it is not careful, it is very likely to be lost here.

Fortunately, the deer as an ancient half-step heavenly powerhouse, apparently more than once went to the left bank of the Milky Way, he led the way in front, but also avoided the possibility of Ye Xuanyuan returning to the road.

From this point of view, the old guy does have its value, plus the idea of the five elements of the drug was originally proposed by him, and the follow-up of the five elements of the drug cited, although he did not shoot, but they are He took the path to find the target forbidden land, saving Ye Xuan a lot of time.

Only by this, Ye Xuan will not be embarrassed, after the 30th-level Tiandao Baodan refining, there must be him. turn off

In this matter, Ye Xuan has even said to him that this is the meaning, but if the old guy is fascinated by himself, he must count on Ye Xuan and seek more words. That is only his own death. Ye Xuan already has The suggestion-like reminder, he can't comprehend himself, and what kind of end event he will end up with is definitely a deserved one...

In this endless dark area, Ye Xuan and the deer stalker sprinted at full speed, and it took nine days in the void. At the end of the darkness at the end, the starry glow of the Milky Way star field finally appeared again... ..left

The shore is here, but there is still a certain distance. Two

The people did not delay, and they continued to move forward. Another day passed, and the whole ten days passed, and the darkness of the surrounding area finally completely retreated. The starry sky in front of the sky was radiated from the splendid galaxy.

When I got here, it was really the fall of the left bank, and the decapitation of the deer's nine-step grand perfection, that is, the half-step heaven and earth, was spent all ten days, and it took a full ten days. .

If Ye Xuan squats in the void in the way of physical flesh alone, it may take six to seven days to fully sprint. It can be seen that the left and right ends of the Milky Way are separated, and the left and right banks are separated. What is the vastness of the dark area...

"Daoyou, one hundred billion miles ahead, is the target of our trip, that is, the black crow at the edge of the right bank of the left bank is forbidden..."

At this time, the deer stalker who led the way had already stopped his body shape, so he squatted in the void, turned to look at Ye Xuan, and pointed to the front. before

Ye Xuan, the party's strongest forbidden land, also saw it. He heard the slight nod and nodded, and then he flashed in the gloom. It seemed to suddenly think of something. He asked the deer with his mouth: "This black crow is in the galaxy. The most marginal position on the right side of the left bank, it seems that the strength of the red-black crow is not very high on the list here..."

"He is the second-order existence of the heavens, and so is it. From this point of view, the water on the left bank is much deeper than the right bank..."

This discourse seems to refer to it, but halfway through it, Ye Xuan has not continued to say more, and the deer has listened to it, but it is ridiculously attached to the two sentences, and did not explain too much... very

Fast, the two no longer hesitated, this time by Ye Xuan in front, the deer sticks in the back, all of them fully motivated the body's strength, physique into a mans, rushed to the front of the black crow In the blink of an eye, it disappeared in the field of vision and entered the interior of the starry field of the black crow. versus

At the same time, in the left bank of the left side of the Milky Way, a large army of foreign forces, suddenly came without warning. The commander of the front of this army is a star-like blue eye...

Chapter 5074: The flood is coming

Because the position of the parent star in the Milky Way is closer to the left bank, after the discovery of the Milky Way star field, the ancient beasts and survivors who first came here to gather here were originally gathered on the left bank...

Until the left bank can no longer accommodate more forbidden land, the right bank of the Milky Way slowly gathers a large number of Xingqiang forbidden and Xingqiang stars. From

From this point of view, the forbidden land and the survivor's star field on the left bank are obviously more ancient and powerful... If it is not strong enough, it has been destroyed by the powerful future!

Therefore, on the right bank of the Milky Way, there are still few real strong people who are born in the heavens. Even if they are crouching in the mysterious unknown void, they generally do not show up. but

On the left bank, nearly two-thirds of the sinister beasts and the sacred land are now born with strong heavens. This

The situation has not appeared more than ten years ago. At that time, whether it was the left bank or the right bank, the strongest people in the forbidden land and the sacred land of the benevolent people were basically the ancient powers. Although the ancient Supreme also had, but Very few.

In particular, after the emergence of the Void Giant Turtles, all the savage beasts on the banks of the Milky Way and the ridiculous geeks in the sacred sects of the sects, in addition to those killed by the emptiness of the giant tortoises, all others crouched down.

However, this situation did not last long. Ten years ago, the left bank began to have a starry sky and beasts and survivors, and it was for this reason that the hollow giant turtles disappeared from the banks of the Milky Way.

If there is no accident, it should be a retreat. He has suffered from the wounds in the war. In the void of Hongmeng, it is a necessary choice to attack the heavens.

Since the disappearance of the Nether Giant tortoise, in the forbidden land and the remnant of the left bank of the left bank, some of the ridiculous old monsters and the heavenly strongmen who were crouching in the slumber have been born...

Because the Void Giant Turtle is a famous and famous existence in the war, his birth is extremely sensitive, and the ancient existences in the forbidden land and the starry fields on both sides of the Milky Way are aware that the end of the flood will come... Hong

After the end of the end of the world, it is the time for the opening of the next Hongmeng era. At that time, the Galaxy Star Field will be fully open, and before that, the Galaxy Star Field will have a conditional opening.

The strong parties who meet the conditions will be able to enter the galaxy's starry domain through the invisible diaphragm barrier that condenses the entire Galaxy's star field and is condensed by the power of the law of Hongmeng, and launches the next era of Hongmeng gas competition...

When the end of the floods came, the chances of vying for the next epoch of the Yuan Dynasty were very close, so those old guys who crouched in the endless years would be born...

It can be said that compared with the right bank, the water on the left bank of the Milky Way is deeper. These ancient existences are more acute, and they are more aware of this than the forbidden land and the high-level stars of the right bank. Such as

Today, when Ye Xuan was led by the deer, and rushed to the black crow at the end of the right bank of the left bank, in the left bank of the left bank of the deeper water, an external force army suddenly saw no signs. Coming down.

The commander at the forefront of this army is a huge blue sky like a star... no

Wrong, this army is from the vast world that has just come to a full-scale, just like a mirror, and the leader in front of the army is the wilderness of the heavens and the will of the world!

The whole world of the wilderness was created by the power demon in the three thousand chaos demon gods bred by this Hongmeng era.

Nowadays, this Hongmeng era is coming to an end, and a new era is about to open. The wilderness is unwilling, and he is now coming to the left bank of the Galaxy with the army of the wilderness, just to compete for the next era of Hongmeng...

"boom!"

Rumble..." this

At this moment, in the darkness of the left bank on the left bank of the left bank, the earth-shattering roar is spreading over and over. This

There is a huge void crack in the area, which is as wide as a star field, and it is shocking. Such as

This level of void cracks, the general heaven and earth strong I am afraid that can not tear open, after all, here is the Hong Kong void, the invisible law power is too strong.

However, Tiandao Qingyan is far from the ordinary heavenly powerhouse. It has entered the eighth order of heaven and earth. It is not far from the peak of the nine-order grand perfection. "

哗啦啦....."

The heavenly eye, like a giant star, rushed out of this horrible void crack, followed by an overwhelming noise. deep

The furnace has also come, and it is equally huge. It is like a giant birthplace with a sturdy shape. It has its own consciousness and life. The 20,000 chain of chains on the outer wall of the furnace is just like the tentacles.

Immediately behind the furnace, it is a huge army of great creatures. No matter the quantity or the strength of the atmosphere, it surpasses the army of the old temple brought by the old pigs...

This lineup of stalwarts is the life of all parties in the vast world. Both

There are starry beasts, various warships, large and small fortresses and fortresses, and even superstars built by the Terran in these years.

Some warships are painted with various logos, which clearly show the clan of the first cosmic servants of the first universe. They can also see the bloody, Qingpeng, warrior, silver, and bulls. The second cosmic army headed by nine ethnic groups, including the ethnic group, the golden eagle, the Cailu, the greedy wolf and the tree spirit...

Even the Terran army of the Third Universe is among them, like a star-sized energy star whirlpool of heaven, immortal ten stars, and a glorious temple like a continent, all can see...

However, they are all located behind the flooded army. Obviously, they are not the main force. Even if these ethnic groups and the ancestors of the times in the ancestral ancestors have all been awakened, there are many ancient powers in their respective regiments. The sacred atmosphere of the ancients, but they still can only be placed behind the flood army...

As for the front of the army behind the furnace, all of them are huge stars and beasts. The atmosphere radiated from the body is at least the ancient power, most of them are old and strange, and extremely ancient. This

These fierce beasts are all ancient people who have followed the Tiandao Qingyan in the war. They have all been crouching in healing these years. Now some of the wounds in the body have never recovered, but they are born, follow With the blue eyes of the heavens, from the end of the flood, the people came to Hongkong.

And the nine surviving beasts that have been smashed in the body, the scent of the body that has been dispersed in the body, all of them have reached the true heaven and earth, but they are only in the middle and the middle, and there is a singular soul in the first place. Bloody..."

Roar! ""

Regardless of who the forbidden land in front is, immediately let the forbidden land starry out, otherwise... die! "this

At that time, as the army rushed out of the void, the roar of the heavenly eye was also heard, and a forbidden land was rushing toward the left bank: "From today, the place has been renamed... the floodland!"

Chapter 5075: Hanging blood

"No matter who the forbidden land in front is, immediately let the forbidden land starry out, otherwise... die!"

"Hey..."

The whole army rushed out of the void, and the roar of the heavenly eyes was also heard. The left bank of the front was banned from the land: "From today, the place has been renamed... the floodland!"

This is clearly regardless of the situation of the forbidden land in front of it. The strongest person who sits in the forbidden land is rebuilt as a level. Since it is the closest, it has been successfully robbed, as the rhythm of the place where the ancient world's army is living...

Needless to say, Tiandao Qingyan really does not deserve to be the eighth-order existence of heaven and earth. Now, what he did and the old pigs were the same as when they went to the left bank on the right bank, but they were too domineering than the old pigs. Too much... things

In fact, it does have a sigh of relief. Although it is known that the water on the left bank of the Milky Way is deeper, the strong forbidden land and the Xingqiang star field distributed on the left bank are stronger than the right bank of the Milky Way. but

Tiandao Qingyan is not far from the ninth-order grand perfection of heaven and earth. He has this strength and strength! Do not

However, although the Tiandao Qingyan is strong, the unknown Xingqiang forbidden land in front is not weak. a few

The moment when the voice of the gods of the heavens and blue eyes rushed away, and now within the unknown forbidden land outside the 100 billion-mile, there was a sudden roar and roar..."

Roar! "

"You are the green eye of the wilderness... How? The end of the flood has really come down in general? Actually, with your flooded army, the army has left the great world and came to the void..."

"It seems that the conditional opening of the Galaxy Star Field is not far away... The moment to enter the Galaxy Star Field and compete for the next era of the Yuan Dynasty is coming!"

"The old man has been waiting for the endless years here, and now everything is about to open, but you have to drive away the old man at this time... Green eyes, what do you rely on?"

"Roar....."

"boom!""

Rumble..."

With the last screaming roar, the unknown forbidden land from the front of the imaginary imaginary squad, instantly rushed out of the figure, all of them are extremely large, tens of millions of miles.

Although all kinds of beasts have blood and race, almost half of them are in the form of tigers, black, white tiger, spotted tiger and even wing tiger...

The figure that rushes to the forefront of this beast army is a huge amount of 30 million miles of hanging tigers. The whole body is white and the bottom is distributed with a \*\*\*\* blood. Pattern, the forehead has a reddish grain like blood, as if the third tiger eye...this

The head of the blood-throwing tiger is the strongest person in this place. The repaired fragrance in the body is strong and irritating, and it has reached the sixth stage of the heavenly state, and activated the magical scorpion and changed its blood and magical power. Ye Xuan in the ninth state of change, the strength is quite. except

This hanging eye tiger, followed by two other tiger beasts, is as big as a huge body, a whole body is black and white, one is an ordinary yellow stray, but there is a pair on the back. Wings...

The black tiger is the second-order cultivation of the heavenly environment, and the wing tiger is the first-order one. It is estimated that it has just broken through not long ago!

In the future, among the majestic and beastly army with different blood and ethnicity, there are more than a dozen desolation and sorrows, and there are hundreds of ancient powers. The rest are basically all the universe supreme. The number of the Lord of the universe or the universe, the total number of nearly 10,000...

Only by this point can we see the strength of the forbidden land on the left bank, and the strong forbidden land and the Xingqiang star field on the right bank of the Milky Way are completely out of one level.

Of course, some of the strongest forbidden areas on the right bank of the Milky Way and the Xingqiang star field actually have the existence of strong heavens, but they are basically not born today, and they are not in their respective forbidden territories, but in Some unknown voids are sleeping and crouching...

However, this unknown forbidden land, which is sitting in the blood of the tiger, is extremely powerful, but it is still much weaker than the ancient army that is composed of all the living creatures in the whole world.

At this time, the Terran and other ethnic groups in the three major star planes of the world had already stopped at the rear of the flood army. This is the command of Tiandaoqing, because they are not qualified to participate in such a war.

But the old fierce beasts that followed the fort in the forefront of the army, all snarled and looked up, the body's breath stirred to the extreme, fierce and flamboyant... very

Obviously, they are the forces that will soon participate in this battle of conquest with the blue sky.  
double

The disparity in the strength of the party is somewhat overstated.

The amount of combat power at the level of power and absurdity is not mentioned, it is only the power of the heavenly level, and the white tiger is in a distinctly weak position.

There are only three heavenly forces on his side, but the flooded army, including the heavenly eye, is full of ten... and

Moreover, here is the strongest heavenly eye, and even the late-stage strongman of the eighth-order in this world. It is not far from the peak of the nine-order grand perfection.

However, there is no choice for the tiger to hang the blood, and the conditional opening of the Galaxy is about to come. He will never give up the forbidden star field that has been stuck for many years.

What's more, the dignity of the heavenly and powerful people will never allow him to escape! when

However, the stagnation of the blood and the tiger is not a single-minded death. The reason why he chose to fight in this huge situation is naturally that he has his own considerations.

After all, here is the left bank of the Milky Way. Nearly two-thirds of the Xingqiang forbidden land and the Xingqiang Starfield have strong heavens and strong people, and he is here as a veteran strongman, but the opposite army is an outsider. One

When the war began, the weather was terrifying. Most of the strong forbidden land and the Xingqiang star field in the left section of the left bank of the Galaxy will be alarmed. At that time, other foregrounders in the forbidden and star fields will come one after another, and this is led by Tiandao Qingyan. The army that supports the floods and the wilderness can't fight for a long time. The only choice is to retreat unwillingly...

One point is that the tiger is still confident. Although he knows that he is not the opponent of the ridiculous heaven and the eye, but after all, it is also the sixth stage of the heavenly state, and only one step can enter the seventh stage of the heavenly state. where

I am afraid that it is fighting against the front of the eighth-order land, and he is sure to fight hard for a period of time. It is enough for the heavens and the other powerful people in the left and right sides of the left bank to arrive in time...

"Roar!"

Oh..." brain

In the middle of these thoughts, the blood and the tiger immediately screamed at the horrible roar, followed by the two heavens. The same is true for the black tiger and the wing tiger. The void is violently shaken, and the trillions of miles Besides, it's clear and audible...

"Hey!"

"If that's the case, then all go to hell! Hehe..."

Seeing the other side insisted on fighting, the Tiandao Qingyan

The war started in an instant, and at the beginning... it's in full swing!

## Chapter 5076: Regret later

Opposite, the blood-throwing tiger and the black tiger and the wing tiger that followed closely roared at the same time, and the roar of the roar sounded hundreds of millions of miles, and the void trembled accordingly.

This is clearly the rhythm of a desperate war! "

Hey! ""

If so, then all go to hell! Oh..." See

The other side insisted on fighting, and the green eyes of the heavens and the green eyes flashed, and the sound of the gods began to spurt out. The nine evil animals with different bloodlines followed closely.

Later, there are a lot of ridiculous old monsters and ancient powers, as well as the powerful beasts of the three universes. The number is quite high, and the bombs are rushing away, and the sparks of colliding in the void...

The fierce battle has come to the fore, and at the beginning, it has been in full swing...

The land of war is just outside the star field of the unknown forbidden land. Within the star field, there must be more forbidden beasts, but they are too weak to be in the three universes. They are not qualified at all. Participated in such a starry sky war, so all of them were huddled in the forbidden land, shaking and shaking. with

In the same way, hundreds of billions of miles away, the major legions behind the flooded army have already stopped. The top leaders of the three major stars in the world's starry sky are stunned to see this terrible battle. Breathing has been subconsciously held, and the figure is shaking slightly...

Among them, you can see the figure of the immortal emperor, and the palaces of the ten palaces, the temple veterans in the splendid temple, etc...

In the past, the innumerable powers of the three major families in the world are now all here, in the overwhelming variety of warships, fortresses and fortresses, superstars and starships.

At the beginning, as the fragmented world of the vast world was reintegrated like a mirror, the world of the wilderness reappeared, and all the creatures in the heavens and the earth became slaves of the heavenly eye.

Even the ancestors of all ages in the ancestral ancestors of all ethnic groups, whether they are the ancient powers of the ancient times or the supreme ancients, are all awakened, and their hearts are no longer embarrassed, and they can only bite their teeth and be enslaved by the evil eye.

Nowadays, although they have entered the legendary Hongmeng void, they have lost their freedom, and there is no fear in heaven. All people have counts in their hearts, knowing their existence. In the eyes of the ridiculous heaven and earth, it is just a cannon fodder sacrificed at a special moment. Nothing...

Unfortunately, even if you know this, there is a big hate in your heart, but no one dares to show it unless you are not afraid of it. This

All the way along with the flood of the heavens and the green eyes from the heavens and the law of the law gradually exhausted, has been fully immersed in the dead and the end of the emptiness of the end of the virtual migration, almost all people, the heart has endless regrets...

They have already known that Ye Xuan has left, not only to leave, but to leave the countless genus of the entire magic hall army in Xusheng, and it is said that they also entered this mysterious and ancient Hongmeng. Void. but

The only difference is that they were brought here by the sorrowful sky, and they are like a slave. The purpose is to enslave. It is to use them as cannon fodder at a certain moment in the future... Heaven is indifferent, everything is a dog, this is The body of the green eye of the wilderness is vividly reflected.

However, the Xuzhou army in the Forbidden City is different from countless strong people of all ethnic groups. he

Although they have also been brought into this mysterious and ancient Hong Kong void, but Ye Xuan brought them is not for enslavement, but to protect...

The gap in this is simply a long, tearful...

With this in mind, one of them is huge and huge, and the diameter is more than a million meters. The internal folding space is even more in the top of the superstar. First

The two great powers and the ruins of the nine ethnic groups, such as the Heilongjiang, Qingpeng, Shishi, Yinyue, Barbarian, Golden Eagle, Caisong, Greedy and Shuling The old people suddenly sighed and sighed, and each of them shook their heads and smiled. Even the cautious whispering voices revealed endless remorse and unwillingness..."

I really envy the strong people who were captured by Ye Xuan, the Lord of the Devils. They are now official members of the Temple..."

That's right, from the Lord of the Devils, Ye Xuan did not abandon them, but took them away and entered this mysterious and ancient Hong Kong void, which can be seen..."

"Thinking about it, I waited for the second universe to hate Ye Xuan so eager to save the people who were captured by him. Now it seems that such a discourse is really ridiculous..."

The guys are also estimated to be secretly stealing music. Although they were captured before, they are now more comfortable than us, at least not losing their dignity..."

Here, the high-level people of the second universe and all the people face each other, sighing and sighing, the entire super-star super-stars in the top command cabin, the atmosphere is low and suppressed to the extreme!

The same scene, in the top command cabin of the superstars gathered by the top leaders of the first cosmic servants, is just like a copy...

All the people, the face of the moment is full of anger and remorse. especially

This is especially true for the power and the ruins of the space mouse, the \*\*\*\* ant, and the giants.

The tribes of the three tribes had already formed alliances with Ye Xuan, the master of the temple. Unfortunately, they were fascinated by the ghosts, and they broke this friendship. If

If this is not the case, the other universes of the first universe do not mention it, but their space rats, \*\*\*\* ants and giants will never fall into such a situation. They must have left with the sacred army of Ye Xuan to enter the end of the world. It is. where

There will be scenes of ruthless enslavement that are now being ruthless by the ridiculous heaven and earth.

But in fact, nowadays, it has been enslaved by the green eyes of the ruins of the wild, forcibly from the torrential days that have entered the end of the world to the various ethnic groups and forces of this emptiness, the most remorse of the heart, and far from the space mouse, the \*\*\*\* ant. And the top of the giants. versus

Compared with them, the high-level hearts of the two camps of the Terran are more remorseful. It is said that it is a remorse for the intestines.

At this moment, in the immortal star of the Terran camp, the top of the Terran and other Terran science and technology camps, as well as the high-level camps in the heavenly palace of the energy star, including the glorious temple of a giant starry sky. The former Wan Luo Federation of the various levels of the veterans, as if the heart is also a general, the brain in the same time remembered the past, have shook their heads and sighs..."

How can I fall into this situation? The powers and ruthless ancestors of all ages in the Lian are all awakened, but they are still enslaved, and even the most basic dignity has been lost invisibly..."

I really miss the original. If I didn't make a bad relationship with Ye Xuan later, with the origin and relationship between my immortal dynasty and him, now the dynasty army is in the magic hall, I am afraid it can occupy an extremely important place. "

"It's all made up, people are ruthless, and I am a dog, and I am a dog, but the owner of the temple, Ye Xuan, is full of love and righteousness. Why didn't you understand everything?"

"Hey, it's late today... regret it!"

Chapter 5077: Born in the wild

In the distance of a hundred billion miles away from the rear, in the vast expanse of the vast army of the emptiness, the forces and the high-level leaders from the three major star planes of the world have all regretted...

In front of the flood, the blue sky led the ancient fierce beast army to rush forward, just outside the edge of the unknown forbidden land, launched a big battle.

The number of military forces on both sides of the war is not many, and the number of million is not enough. However, among the millions of legions of the two sides, they randomly pick up a beast to participate in the war, and the strength is more than the universe.

This is definitely two elite beasts, even if they are immortal, they are not qualified to participate in the war.

Nearly two million powerful beasts are fought together, even if it is a powerful and powerful world of the law, the universe of the war is torn apart from time to time...

The air machine is too chaotic. Looking at the sky in the far air of the battlefield, it is impossible to see the details of the war. Only the violent air machine is raging in the raging general.

From time to time, some of the beasts are stunned by the tumultuous chaos, and sometimes there is a awning that spreads out of the blood, or there is a loud bang, which is clearly a flesh and blood. It's horrifying to think carefully. "

boom! ""

Rumble..."

Roar! ""

Oh..."

The sound of thunder is resounding, and there are countless fierce beasts roaring and screaming. This high-level and large-scale close-knit battle is extremely rare, unlike the Star Wars between the Legion, with naval guns. The energy light column with the battle boat is raging...this

In the meantime, only blood and fire, all of them are close-knit, and the powerful beasts of both sides of the war rely on the blood, the powerful body, and the blood of the magical battle.

Such a big battle is like the epitome of the devastating war that once collapsed the entire world of the wild, and the distant view gives people a feeling of dazzling..."

Green eyes, you are destined to return without success..."

At that time, with the unfolding of the war, the air chaos of hundreds of billions of battles in a certain area of the void, suddenly sounded the sound of the gods of the blood. through

Warnings, more confident: "Your vast world has entered the end of the world, will soon disappear completely, and be swallowed up by the endless stream of emptiness..."

You are just the past, the next Hongmen era in the future, there is no place for you..."

In this battle, you are destined to be unable to get what you want. Although you are the eighth-order heavenly, you can't kill the old man in six hours. Six hours, enough for the high-level heavens in the left bank. coming.....""

You will be expelled, they will not allow the original calm blood to be forbidden by a foreign force with uncertain factors, you have no chance..."

"Roar!"

is it? Six hours, you... really want too much! "surface

With regard to such warnings and provocations, the sound of the sacred voice of the ridiculous Tiandao also responded. When it was said that it was half-baked, then the squad suddenly turned sharply: "Oh, you are now, you can do it now..."

Roar! "

In the last sentence, Tiandao Qingyan is clearly at the point, and with his last violent fall, there is a roar of roaring in an instant.

As the roar sounded, a figure rushed out of the chaotic void, like a green scorpion, with a \*\*\*\* horn at the top of his head. This

The blood of the head is also the strongest of the heavens. If Ye Xuan is here, he must be shocked to see him.

This \*\*\*\* scorpion is too mysterious. It has appeared in the inheritance picture of the sacred sacred bow. leaf

In the inheritance picture that Xuan saw, the whole world of the wilderness is experiencing a \*\*\*\* battle. Many powerful wild people are fighting in the void. Every moment, life is falling, every moment has blood and rain... ...only

There is a \*\*\*\* soul, and the blood and fire of that scene are so out of place. He converges all the breath, crouching in the shadow corner of a giant abandoned star, revealing the gloom in the scorpion, and secretly examining the entire battlefield. ....

From those inheritance pictures, it is impossible to see which part of the camp is in the blood.

Tiandao Qingyan this side? no

The head of the baby corpse? Do not

It's all...

But now, with the arrival of the green eyes of the wilderness, he came to this piece of Hong Kong, and the bottom of the puzzle finally came to an end. This \*\*\*\* soul is the genus of the heavenly eye. when

At the beginning, Ye Xuan once got a \*\*\*\* corner in the star of a demon star field, and this \*\*\*\* corner of the soul is related to the cage star field.

At that time, Ye Xuan thought that the head escaped from the cage and was killed by the blue eye. The body was embedded in the entrance wall of the cage, and only the soul escaped, turning into a \*\*\*\* corner of the star. Existence is the mysterious blood that I saw in the picture of the sacred bow.

But later I learned that it was just a \*\*\*\* descendant of blood. Such as

This \*\*\*\* soul, which is next to the green eyes of the Hongtian Heavenly Road, is the Lord who he saw in the picture of the sacred bow.

Of course, the incarnation of the mysterious mother star of Emperor II came to the side of the guest, but also followed by a \*\*\*\* soul, but then I did not know where to go. If there is no accident, the blood of the mysterious mother star's visitor's soul should be a wasteland. The head around Tiandao Qingyan.

After all, the hunger and the blue eyes and the mysterious mother star visitors were originally a group!

"Hey..."

At this moment, as the body shape appeared, the blood of the soul screamed and gave a terrifying scream. The sound was sharp and sharp, and it was introduced into the ear. The eardrum burst instantly, and even the soul was affected...

Moreover, when the whistling sounds, the \*\*\*\* monochrome of the \*\*\*\* head of the scorpion is even more in a circle. The invisible blood-colored ripples radiate rapidly outward, and the speed is fast, and the waves are pulsating all around. Go...the original

The momentum of this in full-fledged battle is a slow one, but the \*\*\*\* magical target of this blood is obviously specific, and the beast of the heavenly eye is not affected.

But on the other side of the \*\*\*\* tiger, all the beasts were all shocked, and they stopped the offensive in their hands. The sorrows revealed the faint color, and even the spirits were stunned, as if they were pulled into a certain moment. The illusion is general.

Even the three heavens, including the black tiger, the wing tiger, and the hanging tiger, are also the same. "

The war... It's over! "

"call out....."

In the next moment, the sound of the gods of the green eyes of the wilderness is also ringing again, just like a nightmare.

With the sound of the gods, the blue eyes closed and then suddenly opened, a huge green mans shot from it, and the blink of an eye blew in the eyes of the tiger's eyebrows, which was temporarily mired in confusion, directly wearing their skulls. , leaving a huge blood hole...

Just hitting it, the tiger's blood tiger is falling, and his forbidden land is easy to change. From this moment, the floodland is forbidden... turned out!

Chapter 5078: Buried a seed

"boom!""

Rumble..."

Roar! "

"戾..." short

After the temporary silence, the sound of thunder rose again, and it was repeated, and there were countless fierce beasts and screams in the rendering... This time, all the vicious beasts of the Green Eye camp are roaring.

As the blue eyes closed and then suddenly opened, a huge green man shot from it, and the blink of an eye slammed into the eyes of the tiger's eyebrows, which was temporarily confusing, directly wearing his skull hole, leaving a huge The \*\*\*\* hole, under the blow, makes the tiger's \*\*\*\* tiger fall like this...

The general trend of the field has been finalized in an instant, and the final result is no suspense. "

Roar! "

"boom!""

Oh..." Giant

It was a shocking day. This time, there was no need to flood the sky and the blue eyes were shot. Among the nine beasts of heaven and earth, the other eight heads rushed out together. take advantage of

The black tiger and the wing tiger are still in a state of confusion, and there is no way to react. In just a few short breaks, under the siege, the two heavens are powerfully existed... so kill!

Before the blink of an eye, the ten interest rates were not enough, and the three powerful heavenly powers were completely solved.

If this scene is seen by Ye Xuan, it must be shocked and shocked. but

What is vigilant is not the heavenly eye, but the second-order soul of this heaven. he

The \*\*\*\* supernatural powers are too amazing, and the sound of the whistling sounds, the \*\*\*\* horns on the top of the head spurt out the invisible \*\*\*\* ripples, and even the strength is stronger than him, and it has reached the sixth level of heaven and earth. resistance.

Under the circumstance, the consciousness was pulled into the illusion and caught in the confusion...

If this is not the case, this tiger can never be so easily killed.

In fact, is it just him? on

Even the black tigers and the wing tigers that have been successively fallen, if the consciousness is also fascinated, as if they are in a illusion, they are ignorant, and they are equally unlikely to fall down like this. day

There is no way to save the life of the bottom of the road?

Is it easy to kill so easily? Want

I know that today's Ye Xuan, in the state of activating the magical power of the konjac, and exerting it to the ninth change, the strongest cultivation is the sixth stage of the heavenly state. versus

This is the same as the blood of the tiger. From

From this point of view, if it is changed to Ye Xuan here, just now, he is probably very likely to follow this path..."

Roar! ""

Hey! ""

Oh..." this

Engraved, with the blood-throwing tiger, the black tiger and the wing tiger, the three powerful heavenly powers were bombarded, and the nearly one million powerful beasts of the Tiandao Qingyan camp all raised their screams and screams. Xiao. tight

Then, the fierce massacre unfolded... no

Wrong, it is a massacre. This

Once, there was no resistance at all, because nearly a million beasts in the camp of the tiger's blood were almost obsessed with each other and did not break free from the influence of the soul and the screaming spirit. . this

At this moment, they are like the target of flesh and blood in the air, destined to be slaughtered in a short period of time.

Guided by Tiandao Qingyan, the strong players involved in this war are all \*\*\*\* ancient starry beasts, and between the stars and beasts, they originally relied on this kind of flesh and blood to improve their own cultivation. Correct

For them, the treasure of the fallen opponent in the war is the best flesh and blood.

The scene was too fierce, endlessly bloody, and in the far-off distance of hundreds of billions of miles away, the three major stars in the world's three major stars and the various forces and ethnic groups, countless strong people look stunned. This

The ancient beasts who helped the bloodline were too cruel. After the war, the flesh and blood of the opponents were swallowed up on the spot, and they were all over the body...

Unconsciously, some people suddenly flashed aura in their brains, and their scared faces were pale as paper. he

They are skeptical, with their own fierce fighting power, but they have been brought to the mysterious Hongmeng void from the vast world of the wild.

In the case of Tiandao Qingyan, will their value be used in addition to being used as cannon fodder at certain moments, will there be another role?

That is, as the battlefield is now slaughtering, and then a large number of powerful beasts in the enemy camp swallowed in one bite... It is clearly the flesh and blood of the temporary support!

Some people think of the original source of the evil, the sky in the depths of the star field, originally also a large number of starry beasts, are descendants of the blood of the ancient beasts, but later the raging, the source of all evil Most of the starry beasts deep in the star field were swallowed up by the furnace. only

A few have been rescued by Ye Xuan, such as the Taikoo Porcupine, the Taikoo turtle is like this...

The starry beasts in the depths of the wicked source, even the blood descendants left by the powerful beasts of the ancient beasts, are still treated like this by the wild, and what do they count? "

Hey! "

"Oh la la..."

The war is coming to an end, and at this time, the furnace has also rushed forward.

It is still huge and huge, like a giant birthplace in the shape of a furnace, and has its own consciousness and life. The 20,000 chain of chains on the outer wall of the furnace, just like the tentacles, are incomparably waving.

With the wielding, a large number of surviving flesh and blood flesh in the void were collected and sent into the interior of the furnace.

These include the black tiger, the migratory tiger, and the remnants of the three-headed savage beasts.

Obviously, even if it is the supreme existence of the heavens and the earth, after the fall, it will not escape the engulfment of the furnace, and then the flesh and blood will be ground into the plasma. After the final purification, it will turn into the bleak end of the evil source...

At this point, I think of these, countless strong people of various ethnic groups are stunned and shaken. They may not be afraid of falling, but like this, the ancient beast army of the wilderness of the wilderness is treated as flesh and blood, and swallowed bit by bit. Off, but no one can accept it, it is a big horror, just think about it, it has already made people... the soul flies! This

At the moment, with this kind of speculation growing in the heart, in the vast army of thousands of millions of miles away from the sky, many countless strong people have buried a seed in their hearts...

"Roar!"

Oh..."

"Booming..."

The battle ended completely. Under the sweeping of the furnace, the remains of the vicious beasts in the void were quickly cleaned up, all inhaled into the furnace. this

At the same time, with the sound of the huge grinding wheel in the furnace, the green eyes of the ruins of the sky were immediately ordered, and the flooded army opened in the sky in the distance of 100 billion miles away. All the warships were all moving forward, toward the front. Rushing in the forbidden area

At this time, there are only a few powerful heavenly atmospheres in the distant void. The calculation of time has not come from the beginning of the war to the present. This

A few strong people in the heavens are also very fast, and they should be visiting the neighboring forbidden places. Unfortunately, they are still late. in

Seeing that the blood and tigers have been falling behind, these powerful heavenly atmospheres only stayed for a short time, and then they retire quietly back...

Chapter 5079: The five elements are only missing one

It is also the left bank of the Milky Way, but it is the right section of the left bank and the most marginal zone of the right section...

Here, it is the black crow forbidden!

Just in the wild, Tiantian Qingdao led a huge army of uninhabited wild people, tearing the void, and fully descending to the left bank of the left bank of the Milky Way, and in a short period of time, the black tiger, the wing tiger and the hanging blood were killed, which made the flood The forbidden land was born at the same time.

Ye Xuan and the deer stalker who led the way also rushed outside the star field of the next target. No

After half a bit of hesitation, after the black crow banned the land, Ye Xuan and the deer stick rushed into the star field for the first time, but this time it was the deer stick at the rear, and Ye Xuan rushed to the front alone. He wants to fight quickly. use

The shortest time to end this battle, so as not to continue for too long, the black crows around the forbidden area of other strong forbidden land and the strongest star of the heavens.

Although Ye Xuan has no fear, if there is a large number of such powerful heavens, even if he is the sixth-order cultivation of his current situation, I am afraid it will be a headache...

This time, Ye Xuan's goal is a red-black crow. It is said that the body has the blood of three golden feet, which is also a congenital beast.

This red-black crow has a kind of red crystal in the body. It is a kind of crystal that grows slowly in the body after the red-black crow enters the desert, because it is the blood of the body. It is also a special innate treasure. One of the medicines, the attribute is fire, can be used as a source of fire...

The red-black crow's cultivation is extraordinary, and it has already entered the real heaven, but it is only the second stage of the heavens. With the horror of Ye Xuan's sixth-order situation, it is natural to take him down. questionable.

However, if it is a positive battle, it will obviously take some time, which is somewhat inappropriate. Place

Therefore, before entering the black crow forbidden, Ye Xuan had a private discussion with the deer sticks on \*\*\*\* the red-black crow.

At this moment, Ye Xuan's front was rushing in front of him, rushing into the black crow's forbidden land, he fully urged the body's spiritual strength and activated the perfect shock of the spiritual power secret. Such as

Today, he is already a powerful presence of the sixth order of heaven and earth. Only one step can enter the late stage of the heavens in the seventh world. Take

Such a horrible cultivation is the secret of the spirit of perfection and shock. The body shape of Ye Xuan is hidden, and the body atmosphere is perfectly and completely concealed. Even if it is the heavenly road, the eight-step cultivation of the ancient sky and the green eye can not be explored. To.

Unless it is the ninth-order grand perfection, it is possible.

The red-black crow in the black crow's forbidden land is only the second-order existence of the heavenly environment. It is still in the early stage of this situation, and it is obviously impossible to sense the half-scent of Ye Xuan. Do not

However, Ye Xuan did not know where the other party was at this time, and could not determine where he was crouching.

If the exploration is carried out with the power of the gods, and the exploration is carried out, his air machine will also be leaked out, and the first time will be detected by the other party. Session

Even if the red-faced black crow in this second-order situation does not escape, it will take some time to kill him under the battle of Ye Xuan.

Therefore, Ye Xuan did not extend the power of the gods to explore. This

The matter, he had already negotiated with the deer, before he rushed into the black crow, and the latter was responsible...

The deer stick has not entered the real heaven, but he is also a veteran old-fashioned peak of the old age. In the strong existence of all the half-step heavens, it is also the strongest in the front. It is said to be infinite. It is not too exaggerated to approach the heavens. "

Oh..." this

At that time, as the deer rushed into the forbidden land of the black crow, he changed to a \*\*\*\* bloody old man. After he screamed and screamed, he immediately showed his blood and his body. The blood is amazing, and the half-step heavenly cultivation is even more urgent to the extreme..."

boom! "

"Booming..."

After hesitation, the \*\*\*\* body appeared, the deer sticks raised a pair of forefoot in the first time, and slammed into an abandoned star in the sky hundreds of millions of miles away. shock

The explosion of the sky came in an instant, and the abandoned star burst open between the blink of an eye. There was also a \*\*\*\* fog in the air. It was clearly a forbidden beast that crouched inside the stars. Because there was no time to prevent it, there was no time to escape. Under the direct explosion and died...

This is definitely the provocation of the red fruit. A demon blood deer that is infinitely close to the real heaven and earth, like a madman, rushed into the black crow forbidden land, and said nothing, directly raised a pair of forefoot, bang Killed tens of thousands of forbidden beasts. This

This kind of scene is absolutely unacceptable for the red-black crow. and

And the deer stalker deliberately stirred up the body's breath, and the movement was too big. He was alarmed at the first time.

"Hey!"

Blood deer, are you looking for death? "

With a very harsh and screaming scream, a corner in the far right of the front of the void, a moment came out.

This is a black and red light group. The light inside the light group is a strong breath of the second order of the heavens. It is clearly the red-black crow.

The Lord appeared, Ye Xuan did not hesitate, still hiding his body shape, concealing the breath, the first time is close to the past, a punch out...

"Hey!" are

In the moment, Ye Xuan's majestic force directly shrouded the black and red light group, and everything went on without suspense...

The earth-shattering roaring sound came in an instant, and everything happened too fast. In the blink of an eye, the amount of madness and violence that this screaming was so violent was already blasted on the body of the old guy. although

He said that he is already a strong second-order celestial being, but in the face of the sixth-order Ye Xuan, he has no time to make any reaction. The black-red light group just shook a little, and it burst open. Now!

At this moment, the majestic power of the majestic rushed into the body of the red-black crow, and it was not in a moment, and it was already raging in his body.

As his entire figure exploded, the red-black ravens fell, and the huge body was turned into a blistering \*\*\*\* fog that spread quickly.

In the \*\*\*\* fog that spreads out of this canopy, there is clearly a red crystal that is incomparably rushing together...

The crystal is the main goal of Ye Xuan!

"Call..."

Hesitant, Ye Xuan waved in the first time, with the sound of a whistling whistling sound, a majestic force invisibly whizzed away. half

The interest is not enough, the sky and the old blame, the huge body shape bursting out of the \*\*\*\* fog has been swept away, he was in the body, sent to the bottom of the volcano at the bottom of the volcano...

After he turned his hand, a skull-sized red crystal appeared in the palm of his hand.

This object is called Tianjing, which is the innate source of the red-black crow. It has a force of the law of Hongmeng Heaven, and it is still a fire attribute. It is the source of fire that Ye Xuan needs.

Now, with this red-red celestial crystal, the five kinds of five-line medicines that Ye Xuan needs, finally...only one of them!

Chapter 5080: The origin of the soil

"Call..."

With a whistling whistling sound, Ye Xuan waved, a majestic force invisibly whizzed away, and the huge body shape of the old blame swept away, and he was brought into the body and sent. To the bottom of the central volcano in the space of He Ding...

After he turned his hand, a skull-sized red crystal appeared in the palm of his hand. It is the innate source of the red-black crow. It has a force of the law of the heavens, and it is still a fire attribute. It is the leaf. The fire source required by Xuan. to

Therefore, the fire leads to the source, and the five elements of the medicine required by Ye Xuan are now only the source of the soil.

I said it before, after killing the red-black crow, I immediately left here and stopped.

Although there are still a lot of ridiculous and old-fashioned powers in this black crow, this time, Ye Xuan has not continued to shoot..."

Roar! "deer

The stickman had a horrible sigh of anger, and then the giant horror of Pangda's horror suddenly disappeared, and it was turned into a survivor of the \*\*\*\* robes and \*\*\*\* blood.

When the shoulders swayed, even when I greeted Ye Xuan, my face was a pleasing color: "The Taoist method is really amazing. Under the attack, the second step of the heavenly road is instantly spiked. Congratulations, Tianjing finally got it. ...."

This discourse is not based on the sound of the voice, but it is open mouth, and it is clear that the black crows who are crouching in the abandoned stars in the distance are ruined and ridiculous. leaf

Xuan Da glanced at him with a deep impression, but he did not break it. Under the sway of his shoulders, the entire figure instantly became a masculine man, and the blink of an eye rushed out of the edge of the starry field of the black crow. Going away in the distance. "

Oh..."

The deer stick laughed and didn't hesitate and delay. He followed up in the first time. The figure of the two quickly disappeared at the end of the void outside the forbidden place... disappeared. "

Roar! ""

Hey! "

"Hey..."

As the two left, the black crow, which had been dead because of Ye Xuan's shot, slammed into a forbidden roar. just

All that was the only thing in the black crow's forbidden place, all of the more than a dozen old blame, all of them saw the true words, including the words that the deer stalker said to Ye Xuan. ban

The strongest person sitting in the middle of the town was shot and killed in the blink of an eye. How many angers of the more than a dozen ridiculous geeks can be imagined.

Although they are not Ye Xuan's opponents, they are not able to stop doing this. As the roaring sounds, the sounds of the gods are also flowing between the abyss of the black crows.

"The deity who has become the mortal of the survivors has seen it. From the right bank of the Galaxy, it is the strongest person in the forbidden place on the right bank. He is famous because he is the mortal for all the beasts. The drug is the most proficient..."

Yes, this person also has heard about it. He claims to be a deer, but a beast with a bloodline of innateness. He is a half-step cultivator. Although he is a ferocious beast, he has been studying the remedy of the survivors... ""

It is said that a prescription drug in his hand, Dan Fang, can refine the supreme treasure that helps the long-distance breakthrough. However, this medicine requires five kinds of innate five elements as the medicine guide. His own Tianrong is one of them. Just now, the black crow was murdered, and the crystal in his body was taken away. This is the origin of the fire..."

"There is a remnant among the shots. Seeing the power of his shots, although he is shocked, he can almost see the clue. This person is at least a mid-term strongman in the five-star world. Otherwise, even if it is a sudden attack, it will not be possible. A blow to kill the black crow adults..."

"This demon bloodblood is too mad, as a fierce beast, actually colluding with the survivors, hunting the black crows of our forbidden land, so bold, it seems that it is necessary to refine the heavens and sorrows..."

I also need this Dan, but I can't win it with the cultivation of my ridiculous circumstances. This must be advertised and the water will be smashed, and there is a possibility of sharing a piece of cake..."

Roar! ""

Oh..."

Oh..."

Having said that, these dozens of ridiculous geeks no longer speak, and they are screaming and screaming, and they have turned into a masculine spurt.

The black crow rushed out of the forbidden land and went to the deep area on the left bank of the Milky Way. They wanted to collude the deer and the remnant, and let the news of Tiandao Baodan be released...

...

"call out!"

Oh..." broken

The air rang, the dark void, the two stalks passed, the speed was very fast, and the darkness of the endless deep spurs went ahead...

The two figures are Ye Xuan and the deer.

Nowadays, Ye Xuan's hands already have the roots of the wood, the water source, the gold source, the gold source, and the fire source, which is still missing. It is just the last source of soil.

What is the origin of this soil, where to find it, Ye Xuan does not know, so now the two are plundering in the void, still the deer sticks lead the way.

However, after leaving the black crow to ban the land, the two did not go to the depths of the left bank of the Milky Way. Instead, they followed the original path, facing the deep dark area between the left bank and the right bank. Rushing away...this

Let Ye Xuan wonder, is it the last source of the soil that is needed, not on the banks of the Milky Way, but in the endless dark void between the ends of the right end of the two sides? brain

In the middle of these thoughts, when he turned to the deer, he quietly queried: "Talk about it, where is the origin of the origin?"

"In the endless darkness ahead..." Deer

The stickman obviously had already expected that he would have such a question. It was not unexpected. The words of Ye Xuan just fell, and he raised his finger to the endless darkness in front:

"Speaking, this is also a coincidence, otherwise, It is not an easy thing to find a similar power on the banks of the Milky Way, and the property is the innate source of the earth..."

The old man said that the origin of the soil is a kind of Tiandan, which is contained in the turtle shell of a hollow giant tortoise..."

"The empty giant tortoise is also a congenital beast with the blood of Chaos Devil in the body. It is famous in the great world of the wild, but it was in the first battle of the world that collapsed the whole world. The existence of the project..."

Before the endless years, this empty giant tortoise is already the ridiculous peak of the ninth-order grand perfection. Therefore, there is definitely more than one Tiandan in his huge turtle shell, and all we need is only one. ...."

"However, this hollow giant turtle can be difficult to deal with, extremely fierce. Not long ago, it once ravaged the banks of the Milky Way. At that time, there was a strong forbidden land and a strong star field on both sides of the strait. In the crouching, I fell into a sleep."

"It is precisely because of its emergence that the high-level parties have realized that the end of the flood will come, so a large number of ridiculous and strange people and heavenly powers are born..."
