

Super D.S 5081

Chapter 5081: See also Yaksha

"Thirty years ago, it was precisely because of the emergence of the famous giant tortoise in the wilderness period that the high-level leaders realized that the end of the flood will come, so a large number of ridiculous and strangers and heavenly powers were born."

"Since then, this hollow giant turtle that has been raging for a while on the banks of the Milky Way has disappeared. The outside world believes that he is jealous of the ruthless tyrannical and heavenly powers that have emerged on both sides of the Strait. So I just left and left, but the truth is not the case..."

Here, the deer's face shows a touch of color: "Daoyou, this time you have met the old man, otherwise, even if you encounter other knowledge of the existence of the congenital beast, the top will lead You got the first four kinds of innate medicines. As for the origin of this soil, it is impossible to get broken..."

"The old man has been researching and helping to make his own breakthrough to the heavenly path of the supreme treasure, although he knows that he has no ability to get together five kinds of five elements of medicine, but for the existence of the five elements of the body of the treasure, it has been secretly attention."

Among the five kinds of five-line medicines, the innate medicines that belong to this soil attribute are the rarest. They have never appeared before. Therefore, as soon as this empty giant turtle appeared, the old man crouched in the dark and kept observing his movements... ""

Although he is an extremely ancient existence, he is the peak of the absurdity of the realm of the ninth-order grand perfection. The real combat power is the first step than the shoulder-shouldered road, but the old man is also a half-step heavenly road, plus the secret law concealing the air. Peeking through the distant void, it will not be discovered by him..."

This hollow giant tortoise is indeed crouching, but it is not far away, but in the deep darkness at the end of the right bank of the Milky Way, tearing a corner of the void, hiding in it, retreating to attack the heavens and the earth..."

If this matter is not known in advance, even if it is a powerful knowledge of the sixth order of the Taoist Heavenly Kingdom, in the endless exploration of the endless void, I am afraid that I can not find the entrance to the empty turtle's retreat..." Say

In the words, the deer stalker raised his hand again and pointed to the right front. He said smugly: "Hey, in the area of 100 billion miles away, there is a corner of the void that was torn, but it was hidden by the hollow giant tortoise." Entrance....."

"Going into it, you can reach the retreat of the empty giant turtle."

Although the real power of this old guy is one step ahead of the shoulders, but there is no pressure for the Taoist friends, it can be solved immediately after the shot..."

"call out!"

Oh..."most

After the last sentence is finished, the deer sticks will not say much, and the feet will be tight, and the figure will have crossed the tens of billions of miles in the blink of an eye.

At this moment, Ye Xuan has never spoken, but the look on his face has been eccentric to the extreme. he

Unexpectedly, the last source of the soil that was needed was actually on the body of the void giant tortoise. This

The head demon blood deer is also a daring, and the void giant turtle is not a good provoke. The guy looks like a thick giant tortoise, but in fact the temper is very violent.

What's more, when the last giant turtle appeared, it still appeared with the ancient night fork. shortage

The ancient night fork is not weaker than the existence of the hollow giant tortoise. In the battle of the world that once collapsed the whole world of the wild, it was also the existence of a famous name.

Even its fierce name is still above the giant tortoise, because there is a kind of supreme magical power, that is, the scorpion bow. In the battle of the past, the ancient yak is only a ninth-order grand perfection. For, but its combat power can be compared with the first-order existence of the heavens.

And if you use the sacred bow of this sacred power, any heavenly powerhouse will have a jealousy. In that battle of the world, the ancient yak yin slammed the sky with a shadow of the sky. ...can

It is said that the Void Giant Turtle and the Wild Night Harper are together, even if it is the strong sixth-order of Ye Xuan's current heaven and earth, if you want to kill the Nether Giant, you will take a Tiandan from the body. impossible things. shortage

The scorpion bow of the ancient night fork is too deterrent, and Ye Xuan has to be jealous.

Fortunately, this war is obviously not going to break out, because Ye Xuan and the Nether Giant Turtle, the Wild Nightingale are not a hostile camp. Because of the headless baby, Ye Xuan has already been branded and labeled by their camp. .

What's more, the deer sticks themselves have said that there is definitely more than one in the body of the virtual giant tortoise. If this is the case, if Ye Xuan is open, it should not be difficult to obtain.

Besides, this old guy now wants to attack the real heaven and earth. If he can get a 30-level Tiandao Baodan help, the chance of a successful breakthrough will be even greater, and the breakthrough speed will be faster. package

The same is true for the ancient night fork, and he also needs a 30-level Tiandao Baodan...

Therefore, as long as Ye Xuan opens, even if one takes out Tiandan to have some influence on himself, the virtual giant turtle should not refuse it. This is Ye Xuan still quite confident! "

boom! "

"Booming..."

"Pharaoh eight, hurry out and die..."

When Ye Xuan was indulging, the deer in front of him had already waved open the entrance to the void passage that was covered with air. With the loud noise, his voice of voice also sounded through the void passage. Into the endless darkness behind this corner of the void.

"Oh..."

Oh..."

Just in the next moment, on the right side of the void where the two figures are, a clear and fierce cracking sound suddenly sounded, followed by a low humming sound...

Ye Xuan was shocked and jumped, and his heartbeat was on the rise. A sense of inexplicable crisis suddenly shrouded the whole body. This

He felt that he was no stranger, as if he was suddenly stared up by a poisonous snake, and the last time he encountered the ancient night fork, it was...

Under the slight change of his face, he almost turned his head and looked around. He saw the scene he saw, and he immediately let him sigh and sigh.

Beyond the tens of billions of miles on the right side of the line of sight, the dark void silently cracked a crack, only about a thousand... but

It is just this crack in the void that has just cracked, and there is a figure standing upright... The person is standing, the back is double-winged, and the form is very incomparable. Who is it? leaf

Xuan had seen the inheritance of the illusion many times in the inheritance picture of Hao Tiangong. It was exactly the same as the one in front of him. Even before that time, I saw the real body of the ancient Yaksha, although two People don't have communication, but they look really good.

However, what shocked Ye Xuan was that the barbaric night fork stood there silently, but the right arm was raised high, and an energy giant bow appeared, even his right hand was on the bowstring. , an energy arrow appears...

It is the bow of the sky!

Obviously, the screaming of the deer screaming angered the barren cherries, and made him think that the enemy attack was coming, so he appeared at the first time, and the war was almost instantaneous...

Chapter 5082: It's a misunderstanding

"Oh..."

Oh..."

On the right side of the air, a clear and fierce cracking sound suddenly sounded, followed by a low humming sound.

Looking around, the old-fashioned fork that had a double-winged wing stood there silently, but the right arm was raised high, and an energy giant bow appeared. Even his right hand was placed on the bowstring. The handle energy arrow appears...

In the sputum, the blood is stunned, and the body's half-step heavenly environment is strong and scented, but it is smothered, giving a strong sense of crisis like a mans in the back! "

Wild night fork? "

With the low humming sound behind him, the deer stalker also jumped under his heart and turned to the past. a few

In the next moment, his figure was mad, and under the change of color, he took a sigh of coolness and screamed: "Hey! This is..."

In the battle of the ruined world of the whole world, the ruined night fork was not weaker than the existence of the golden dragon and the empty giant tortoise, and even he still had it. He naturally recognized it at a glance. original

I thought that there was only one empty giant tortoise. I didn't expect the Lord to see it, but I took out a barren night fork. And

The other party apparently has been crouching here. He has just activated the empty space turtle with the secret passage of the secret passage. The ancient Yaksha appeared behind him for the first time, tearing the void, and he did not hesitate to sacrifice the bow.true

To put it bluntly, the fierce name of the scorpion bow is even above the ancient peaks of the golden dragons and the empty giant tortoises, because in the battle of the ruined world, the ancient yak yaked it out and shot it with an arrow. Shooting the green eyes of the wilderness sky

However, the green eyes of the ruins of the sky, when the war of that year, it was already the late stage of the heavens in the seventh-order world. The sacred bow of the ancient yak is still the same, and he is only the ninth-order grand perfection. Repair, why have you escaped?

It can be said that as long as the opponent's right hand is loose, the arrow is shot, and it is the rhythm of killing him on the spot.

The energy arrow in the hands of the wilderness is precisely what he is aiming at, but not Ye Xuan who came with him. This is clearly because the person who activated the path of the empty giant turtle retreat is precisely his. reason.....

These thoughts flashed through the brain, and the intestines of the deer's sticks were all green, and the face was pale and standing in the void, and the knees were slightly trembled. For a time, I didn't know how to explain them. thing

In fact, there is nothing to explain at all. He led Ye Xuan to come here. It was originally to hunt the empty giant tortoise, but the ancient night fork and the hollow giant tortoise are the same camp. Now it appears here, it is the void. The meaning of the giant turtle guarding the law.

And he, just now in the first time of the entrance of this hidden void passage, he sang a word called the empty giant to come out and die... How can this be explained?

"Roar!"

"Who is it? Dare to go to the old man's retreat, screaming, isn't it impatient?"

At this time, the front has been activated, so that in the endless darkness in the depths of the entrance of the void passage, there is a sudden roar of horror, which is the sound of the old emptiness of the giant tortoise.

This old guy should be still preparing, and he has not started retreating. Otherwise, it is impossible to respond so soon. It's not a joke to shock the heavens... Listen

To this roar, the face of the deer's stick was so sullen to the extreme. he

Originally, I also hoped that the hollow giant tortoise had been resected. In this case, he and Ye Xuan faced a person who was in the wilderness of the night, and the other party had to protect the law for the hollow turtle that had entered the retreat. Place

Therefore, the scorpion bow in his hand can only be reduced to a kind of deterrence, not dare to blast it out... but

Now that it is over, the Void Giant Turtle has not yet entered the retreat, listening to his roaring voice, clearly rushing towards this side.

Once the Nether Giant Turtle rushes out of this void passage, it will be a two-on-two situation.

At this time, the energy arrow of Haotian bow is aimed at his wild night fork, and in all likelihood, the target will be shifted, and the energy arrow on the bow of the sky will be directed at Ye Xuan...

Then he is the sixth-order existence of the heavens and the earth. In the face of the battle of the ancient world, the scorpion bow that almost smashed the sacred eyes of the sacred heavens and the sacred eyes, can only be deterred, and will never act rashly.

But for the deer, the ancient night fork removes the energy arrow from him, but it is not a good thing. because

In order to be threatened by the sacred bow of the ancient yak, Ye Xuan did not dare to act rashly. Then he could only face the hollow giant turtle that rushed out from the empty passage in front. although

However, like the giant turtle, the cultivation of the realm is the realm of the ridiculous nine-order grand perfection, that is, the half-step heaven, but compared with him, the virtual giant turtle is obviously stronger, its real combat power. Already enough to exist in the first order of the shoulders, he is definitely not an opponent...

When the war broke out, although he could resist it for a while, if Ye Xuan did not save him, his final result must be undead and heavily injured...

"Roar!"

"Booming..."

Just as his heart was scared, and when he looked like a gray face, there was another horrible roar in the void passage ahead. Then, a huge figure rushed out from the void passage...

To be sure, it should actually be squeezed out. This

After all, it is the void of Hongmeng, and the power of the law of the void is extremely powerful. Even if it is a hollow giant turtle, it cannot tear too much hollow crack, and it makes it steadily construct a passage entrance, which has always existed. Place

Therefore, even if he narrows his body shape with the secret method, his body size is still huge, and this virtual passage is only a few million miles. The virtual giant turtle was previously squeezed into it. Nowadays, To come out, naturally, this is forcibly squeezed out...

In the blink of an eye, with the thunder of the rumble, this entrance to the void passage that he had squeezed twice and again, finally couldn't stand it anymore, and it collapsed.

Then, under the influence of the mighty power of the emptiness of the law of the emptiness, it quickly repaired and healed...

For all this, the Void Giant Turtle did not pay attention to it, because since it has been found, it can no longer be used as a retreat. The stable void passage constructed by the secret law has no need for existence. . "

Just call the old man, let the old man come out to die... is that you? "

At this moment, as the shape of the hollow giant tortoise is squeezed out from this void passage, the figure will be in the front of the virtual passage, and the body of the deer will not move. Shape, immediately reflected in his vision... virtual

The squadron of the empty giant tortoise flashed, and when asked, he looked up and down the deer. Let

The latter almost collapsed on the spot, the virtual giant tortoise has come out, and the energy arrow on the bow of the sky in the hands of the wilderness in the distance, but still firmly aligned with him, half-divided nothing. This

After a while, he really wanted to cry, and waved his hand in a panic, explaining: "Don't stop, don't be impulsive, if the old man said that this is a misunderstanding... would you believe it?"

Chapter 5083: Tiandan arrives

As the emptiness giant tortoise rushed out from the void channel in front, the body's scent of breath, the first time to lock the deer's gas machine, he almost scared the scene collapse. because

The giant tortoises have come out, and the energy arrows on the bow of the sky in the hands of the wilderness in the distance, even in the distance, are still firmly aligned with him, and there is no meaning for moving halfway.

This is clearly the rhythm of staring at him alone, and the convergence of the atmosphere next to it, like the ordinary people's Ye Xuan, seems to be ignored by these two guys...

Thinking of this, the deer sticks almost cried on the spot, and waved his hand in a panic, explaining: "Don't stop, don't be impulsive, if the old man said that this is a misunderstanding... would you believe it?"

"Okay, this is really a misunderstanding, everyone is their own..."

When the deer's stick said this sentence, his face was shrugged, and when he was full of despair, Ye Xuan had suddenly spoken out...

In the deer, his heart has indeed been prepared, but Ye Xuan has always been the case. Since he has made a promise, he will certainly honor it. Otherwise, it will have an impact on the Tao. The higher the future, the impact will be. The more obvious.

Deer cane is probably calculated, but at least so far, this old guy has been trying his best to help him find the five elements of medicine. The small ninety-nine that may exist in his heart, even if there is, will be implemented in the future. This

In this case, since Ye Xuan made a promise and promised to refine the 30th-level Tiandao Baodan to have one of his, then he would not deliberately avoid it. Place

Therefore, before this 30-level Tiandao Baodan handed over to the deer, as long as the old guy did not take it seriously, Ye Xuan would not sit and watch him fall and ignore it. when

However, today, in the ninth state of the konjac, he has already been the sixth-order supernatural existence of the heavenly kingdom. Although the deer scepter is the culmination of the ninth-order

grand perfection, that is, the existence of the half-step heavenly environment, Not being looked at by him...

It's too uneconomical for such a person to be left in the eyes and to make his own heart hurt. Ye Xuan is not going to choose this way.

"call out!"

"Hey..." this

Engraved, with the words falling, Ye Xuan has already shot again in an instant. The four kinds of five-line medicines collected previously are the wood-derived source of velvet, the gold-derived source of Tianmu, the water-derived source, and not long ago. The fire that just arrived at the source of the source of Tianjing...

In an instant, he was all taken out by him and hung in front of him.

At the same moment, because of Ye Xuan's shot, the invisible cultivation of his body has finally been dispersed, and he was clearly and incomparably sensed by the Nether Giant Turtle and the Wild Night Fork. Two

The people apparently glimpsed at the same time, and then the empty giant tortoise filled with the unbelievable whistling sound suddenly sounded: "What? The sixth stage of the heavens and the earth? This has not been seen for a few years, and the little **** has broken through the two-stage repair..." far

Beyond the tens of billions of miles, the ancient night shackles glimpsed in the gloom, and looked at Ye Xuan deeply, and then his eyes shifted, and he stayed for a moment on the four kinds of medicines hanging in front of him. After the enlightenment, he also put down his left arm and withdrew the bow of the sky...

However, his body shape did not continue to stay here. It seems that there is no interest in the exchange with Ye Xuan. Soon, with the void crack behind him repairing the bridge under the influence of the law of Hongkong's void, the ancient night fork The figure of the body disappeared. but

Obviously, I didn't leave, but I whispered silently in different voids, as before, and if I needed it, I could always appear as before, and suddenly appeared, offering a bow of heaven... Deterring everything! "

Tianrong? Tianmu? Heavenly liquid? Tianjing? Rely, the stinky boy, you are slaughtering four innate beasts, and they are not weak, but they have even made up five lines and four leads..."

At this time, with the whistling sound, the eyes of the empty giant tortoise were also attracted by the four kinds of five elements and four signs hanging in front of Ye Xuan. The huge figure of Panda's tens of thousands of miles was also suddenly swayed. Ye Xuan in front of him: "No wonder this time to find the deity, you are clearly remembering the rhythm of the deity Tiandan..."

What is the situation? Look

In this scene, the deer in the distance in the void was thrown to the side of the deer, and he was stupid on the spot. He looked at Ye Xuan and the Nether Giant Turtle with a big open mouth, his eyes were straight, and he doubted that he had an illusion... before

For a moment, he was still in a state of mortality. In front of him, there was a savage giant turtle with a fighting power that was more powerful than the shoulder-shouldered road. Behind the imaginary sky beyond tens of billions of miles, the fighting power could also be comparable to the first-order heavenly road. It is also directly to the fierce name of the singularly bowed, and the energy arrow points to him. With the slap in the face, it is possible to kill him on the spot...

But now, it is a blink of an eye, the ancient night fork is gone, the virtual giant turtle also ignores him, directly to the mysterious heavenly strong person. like

I am still talking, and it sounds... It seems to have been known for a long time, and the relationship is still very good!

"Yes, this time, I want to get you a Tiandan..."

At this time, Ye Xuan has smiled at the jaw and looked at the empty giant tortoise and smiled: "The five elements and four guides have already gathered together, and the poor soil can lead to Tiandan, and you can immediately refine the 30th-level Tiandao Baodan. Give it to you...you can do it yourself!"

Thirty-level Tiandao Baodan? "

"Hey! The stinky boy said you early..."

Upon hearing this, the skeleton of the virtual giant stunned, and after taking a sigh of coolness, there was a yellow volley in the body.

"Hey..."

Mang spurt out, bringing out a sharp and unpredictable sound of breaking, and the blink of an eye in the emptiness in front of Ye Xuan is abruptly stopped. It is a skull-sized crystal, khaki, exuding incomparably thick and solid. Breath.

Obviously, this is the last kind of soil source that Ye Xuan needs, that is, the Tiandan in the hollow giant tortoise. This thing is equally important to him. After all, it is the accumulation of energy in the body containing the power of the law of Hongmeng. Things.

However, this Tiandan virtual giant tortoise is obviously more than one body. Compared with a 30-level Tiandao Baodan that can help him break through in a short time and enter the real heaven, this old guy does not need it. Considering, I made a decision in an instant...

"call out!"

In addition, after the virtual giant tortoise took a moment, the body once again spurred out, and it was a hundred-foot-sized ball, which exudes a powerful and powerful force, which was exactly the same in his previous years. When the two sides of the Milky Way raged, they smashed the blood ball collected by the starry beasts.

A total of seven awnings of these qi and blood **** were collected by Ye Xuan for the first time, and sent to Shennong Ding to carry out blood refining.

Previously, Ye Xuan's wild blood essence had already reached 41 pieces, and now he has seven more, and the total number has reached 48.

Among the forty-eight pieces of wild blood, there are even a few of the best things, which are obtained from the culmination of the ninth-order grand perfection. "

call out! ""

Oh..." are

Between the moments, the volley of the volley is a hundred-foot ball, exudes a powerful and powerful force...

Before this, Ye Xuan's wild blood essence has reached forty-one! Such as

Now there are seven more, and the total number has reached forty-eight. There are even a few of the best things, which are obtained from the culmination of the ninth-order grand refinement. Once the refining system is completed, it can The 30-level Tiandao Baodan that is released, I am afraid that it will be more than 50... Absolutely amazing!

Of course, in addition to this, there is also a heavenly blood in his hand, which was the result of the previous killing of the red blood crow, which is reserved for the time being.

The 30th-level Tiandao Baodan, only one swallowed down, can make the existence of the 9th-order grand perfection, and in a short time, it will successfully break through the bottleneck of the big realm and become a true heavenly power. .

At the moment, Ye Xuan's own cultivation is the fifth stage of the absurdity. From the moment of swallowing a 30-level Tiandao Baodan, there are four small steps to break through.

There are four small steps, and it won't take long. So for him, this kind of heavenly road is very important. It must not be dragged down again. It must be refined as soon as possible. However, how much waste can be produced in this furnace. Zun Baodan is still unknown, but at least 50 or more.

Due to careful consideration, Ye Xuan did not even think about taking only half of the blood refining system, but that can not maximize the benefits, and the next furnace refining, I am afraid it is difficult to get the five elements of medicine required.

In addition, he has repeatedly promoted the perfect Danfang of Tiandao Baodan. This time, he added the concept of the five elements of medicine. The possibility of accident is almost zero, so after some sinking, Ye Xuan decided to put all the Forty-eight pieces of wild blood, all furnaces are refining... days

The seven awnings of the blood collected by Dan and his hands have all been handed over. If they are not refining on the spot, the Nether Giants will obviously not agree.

Therefore, Ye Xuan did not intend to leave, and the sound of the giant tortoise and the deer in the other two directions, then swayed and broke into an abandoned one billion miles away. Stars, directly into the interior of the stars...

"call out!"

Rumble..."

During the wave, he took out all the forty-eight pieces of blood in his hands. These **** blood will be combined with other large-scale treasures and treasures of ancient treasures to become the 30th grade of Ye Xuan. The basic raw materials of Tiandao Baodan! when

However, in addition to these two most important basic materials, Ye Xuan will also add some of the evil source liquids, as well as the top resources found in the Hong Kong virtual space. most

The important thing is the five elements of the power of Tianrong, Tianmu, Tianye, Tianjing and Tiandan.

They will ensure that the 30th-level Tiandao Baodan of this furnace will not be accidental and will be released smoothly...

After all the preparations for refining were done, Ye Xuan waved his hand and took out all the resources needed for the recipe and all the treasures of the top treasures. Then he closed his eyes... God

Nong Ding, the inner space, the flame pool at the bottom of the volcano in the central domain! "

call out! ""

Oh..."

The sound of the road broke through, and the dense colors of the spurs came from the heights of the volcanoes above the volcanoes of the central volcano. They appeared directly above the flame pool at the bottom of the volcano, and all of them suddenly stopped and suddenly hovered. .

These are the top materials and cultivation resources that Ye Xuan has prepared for the refining of the 30th-level Tiandao Baodan.

"Call!"

For a moment, just like the whistling sound of the whistling wind, below the top resources, from the flame pool at the bottom of the volcano of the central domain, a fascinating Shennong nine-color flame whistling, and the blink of an eye is easy to condense in the wind. A nine-color stove with a square...

Small and simple, revealing an extraordinary atmosphere!

Soon, the materials and resources such as the **** blood and the five elements of medicine that have already been prepared have all been automatically flew up, and they have not entered the fireworks of Ding Ding. From

From this moment on, Ye Xuan's first furnace, the 30th-level Tiandao Baodan's practice, was officially opened...

The tenth-level Tiandao Baodan, with only one piece, can make a powerful existence of a ridiculous ninth-order great perfection, and instantly become a true heavenly powerhouse. It is only because of this, its importance and The preciousness is already imaginable!

And this time, Ye Xuan is still the first refining of the 30th-level Tiandao Baodan, the raw materials used are all deserted blood, each of which represents a powerful ancient supreme.

Especially the five kinds of medicines such as Tianrong, Tianmu, Tianye, Tianjing and Tiandan are the rare ones. Place

Some of this is too precious. If it fails, the loss is so heavy that he can't imagine it.

Therefore, this time he didn't dare to take it lightly. Even if he had already had a 10% grasp, he would definitely not be surprised, but he still couldn't distract him. He was all in control, and he concentrated on it as never before.

Soon, as he moved, a refining method was thrown out in the hands of Ye Xuan, and the speed reached its peak. The blink of an eye turned into a mysterious pattern of incomprehensible, and the nine colors that did not enter the bottom of the volcano of the central domain. In the middle of the furnace.

Unconsciously, a month's time will be dazzled.

However, Ye Xuan did not feel at all. His entire mind has been immersed in the refining of this furnace, and he has completely forgotten the existence of time.

"Boom!"

It was at this moment that above the flame pool at the bottom of the central fire of the Ding Nei space, a huge roar sounded.

As the roar of the roar came, the furnace that was condensed by the nine-color flame of Shennong was scattered, and the colorful fireworks like the river rushed back to the flame pool below.

And still staying above the flame pool, there are fifty-five baby-sized balls...this

Some of the beads are full of rich black and white colors, and the surface is full of rich smog, and there is a layer of dreamy halo, revealing a simple and heavy atmosphere...

It is a 30-level Tiandao Baodan!

With just one, you can let the monks of the 9th-order grand perfection, after swallowing, break through the big realm in a short time, and directly enter the 30th level of the real heaven... Tiandao Baodan! "

There are actually fifty-five? Refining

After the end of the system, Ye Xuan opened his eyes and saw the fifty-five pieces of the supernatural air that were suspended in front of the sky. The face of his face was stunned, and he immediately took a breath of cold and lost his voice. Exclaimed... with

With a whisper, his enthusiasm is even more exciting, and the excitement of the man is shining, revealing endless surprises. This

Once used to refine the 30-level Tiandao Baodan's ridiculous blood, Ye Xuan had only a total of forty-eight in his hands. Although he must be able to produce more than 50 pieces, but fifty-five pieces of Baodan were released, but still let him Suddenly surprised, unexpectedly...

This time, the refining of the 30th-level Tiandao Baodan was extremely smooth. Forty-eight pieces of deserted blood, and the last 30-level Tiandao Baodan, as many as fifty-five, made Ye Xuan feel surprised. Surprise. "

boom! ""

Rumble..."

However, with the release of the fifty-five thirty-class Tiandao Baodan, the power of the Heavenly Law of Hongmeng's void also gave birth to a feeling. The dark void of Ye Xuan Alchemy suddenly clouded and darkened. The sound is ringing. This

Fifty-five sacred treasures of Tiandao Baodan...coming!

After all, it is the supreme treasure that is related to the heaven and the earth. Under the inspiration of Hongmeng and the sky, it is the intention to return to the heavens and thunder. This is what Ye Xuan has already expected.

"call out!"

A wave of hands, Shennong Baoding income in the body, but this fifty-five thirty-level Tiandao Baodan, but still stay in the outside world, he did not earn Baoding, otherwise, the inductive Dan will soon disappear, That is not what Ye Xuan wants to see...

Fifteen Tiandao Baodan gathered together and turned into a gray-light group of a large size, hanging over Ye Xuan's head, and he walked out of the closed-door star directly to the outside world. Hong Meng's emptiness..."

Rumble..."

"Card!"

At this moment, with the appearance of Ye Xuan, the vast robbery cloud that enveloped this area immediately reached the height of his head, and in the first time, he dropped a purple-gold lightning... too

Thick, full of great, look at its power, even if it is an ordinary star, you must be hit!

"Roar!"

However, Ye Xuan did not put it in his heart. He looked up and sighed, and the body's breath was all spurred. The whole person would be like the most violent small star. It seems that this moment burst into an endless treasure, through the body. The 1.8 billion pores of the table are coming out...

"Card!"

The crispness of the ear came, and the clouds of the sky suddenly surged between the moments. After a short break, a stout purple gold lightning was already down!

"Leidi Print!"

At almost the same time, Ye Xuan screamed, and Lei Di Yin, who was hanging in the brain and knowing the sea, spurred out.

Lei Di Yin originally stayed in the source nest star base camp, but this time the magic hall army is difficult, Ye Xuan rushed to rush to help, the Lei Di printed income in the body.....

"Hey..." this

Engraved, with the emperor's seal, the Emperor's seal flew in an instant, and the first time in the emperor's seal resounded a high-pitched whistling sound. This is the emperor's resounding joy, for it This kind of thunderbolt is the best chance for forging and quenching itself.

Lei Ling in the emperor's emperor, repaired as the strength has long been in the last Ye Xuan robbery, broke through to the ancient sacred environment, and after the absorption of this period of time, now it appears, the body will be strong The ruthless pressure. Such as

Today, after sensing the powerful atmosphere of the thunder robbery again, Emperor Yin Lei Ling once again rejoiced, because this thunder robbery is also its chance. After the baptism of thunder, Lei Di Yin will be more powerful, Emperor Yin Lei Ling It is also very likely that it will break through. This

However, the great nature of the creation, so that it is very exciting, there is a feeling that has long been unable to hold back, want to rush out!

"It has already reached the fourth stage of the desolation..."

Seeing that Lei Ling appeared, Ye Xuan stunned a bit, and Jier's face showed a faint smile. The mouth also said a certain words: "This wave of robbery is a robbery. There will be three robberies in total."

"It's still the old rules. The first two are handed over to you, and the last one is to let the robbery baptize the treasure..."

The words have just been finished, the first wave of hijacking on the top of the head has been slammed down, although it fell to the top of Ye Xuan's head, but there is no leakage, all of which was inhaled by Lei Di. "

Oh..." Emperor

In the imprint, the sound of Lei Ling's joy was once again heard. This time, it was enough to eat. After all, it was a special thunder brought by Tian Dao Bao Dan. The hijacking contained some special energy, which was good for Lei Ling. extraordinary. Do not

However, even if there is a strong robbery, it will not cause any harm to it. It is Rayling, and it has been kept in the Lei Di Yin, which is the origin of the thunder and earth. "

Rumble..."

"Card..."

Lei Ling's delightful shouting sound just fell, the sky above the head, the second card slamming sound just happened, a thicker than before, reaching a huge purple gold thunder of 20,000 feet, instantly rushed. surface

For this wave of robbery, Ye Xuan still has no movements, carrying his hands, letting Lei Diyin hanging over the head absorb the second thunder.

"Oh..."

Fast, a more cheerful and whistling sound came from inside the emperor's seal, revealing a stronger and more powerful atmosphere. It is the eighth step of the ancient and supreme... Only one step, you can enter this situation. The nine-order grand perfection, that is, half-step heaven.

If all of this is spread out, it must be a singularity, but the Emperor-Indian Lei Ling was originally the innate Thunder, and the power of the thunderbolt was swallowed by Ye Xuan again and again. After the perfect Dan Fang of the 30th-level Tiandao Baodan was born, The power of thunderousness that it swallows has already contained a faint force of heaven.

This time, fifty-five thirty-level Tiandao Baodan was released. At the same time, the Tiandao Road was robbed. The power of the heavens contained in the hijacking was more intense. Even if it only swallowed two waves, it was enough to repair it. Order..."

If you are lucky, you will fall into the late stage of the desert..."

Under the strong breath that was diffused from the Emperor Leidi, Ye Xuan was satisfied with the nod, and his face was also filled with joy. This time, the creation of the Emperor Yinlei was great.

Today, although it is only a ridiculous eighth order, but because it is the body of the spirit, the horror of the war, fear that even the peak of this great perfection is not necessarily its opponent, once encountered, only Suddenly retreat under the color change.

Below the heavens, today's Emperor Yin Lei Ling is basically no fear of anyone!

Of course, the empty giant tortoise and the ridiculous night yoke are the ancient enchantings whose realm is the ninth-order grand perfection, but the real combat power can be compared with the heavenly world... Naturally not here! "

call out....."

Under the heart, Ye Xuan waved his hand, and the Lei Di Yin hanging over the head disappeared instantly, turning into a purple gold and awning into his eyebrows, and hanging over the sea.

The energy of the two waves of horror hijacking, Lei Ling is only a preliminary absorption, and now quietly cultivated, presumably still slightly improved..."

Card! "This

On the other hand, Lei Di Yin was just picked up by Ye Xuan, and the empty ceiling at the top of the head, a crisp and incomprehensible explosion has been transmitted again.

In the sight, this vast and incomparable robbery cloud is more intense in an instant. After a short break, a stout purple gold lightning has already fallen, and its power is more than the previous surge. Times, the diameter of the robbery, reached 100,000 feet!

And, with the slamming of this thunder, the sky shrouded a billion-mile-long black cloud, and it disappeared in an instant...

"Card!"

Lei Di Yin was just taken up, and the empty height of Ye Xuan's head, a crisp and incomprehensible sound has been transmitted again.

The last robbery came, and with the slamming of this thunder, the sky shrouded a billion-mile-long black cloud, and in a moment... dissipated!

It can be seen that all the forces in the robbery cloud have all gathered in this hijacking. The power is strong and horrible, surpassing any of the thunders that Ye Xuan has ever traveled, and even no comparable, revealing endless Destroy the atmosphere of the earth!

However, Ye Xuan still has no fear. He now has the sixth-order terrorist power of heaven and earth. He himself is always strong in the body, even if it is a terrorist bomb with a diameter of 100,000 feet. Refining the flesh.

The awning gray light group hanging over his head is made up of fifty-five thirty-class Tiandao Baodan. These fifty-five Tiandao Baodan joined Tianfu and Tianmu during the refining. Five kinds of innate medicines such as Tianye, Tianjing and Tiandan. Fives

Among the innate medicines, all of them contain the power of the law of Hongmeng. With this alone, there is absolutely no fear of this last hijacking that fell at the height of the sky...

The thoughts flashed through the brain, and Ye Xuan licked his mouth, and then his body swayed, and he rushed to the top of the head and covered the endless horror of the horrible robbery!

"Hey..."

At this moment, his mood stirred up, and the sound of shouting came from his mouth. He did not avoid the flash. His body shape rushed out in the whistle of the whistle, and went on the face. He blinked into the electricity and was completely destroyed. Drowning. "

Rumble..."

The scene that happened down was amazing. The whole piece of the vast purple gold robbery cloud, the horrible roaring of the horror continued, the lightning of the diameter of 100,000 feet exploded, and turned into a purple gold Leihai...

The vast expanse of a billion miles, all of which were enveloped by the blasted Zijin Leihai, the emptiness of the void was as if it could collapse at any time. One

Thunder and lightning, but it has ravaged dozens of breaths. Then, the vast thunder sea that covered the billions of emptiness has disappeared completely, and it is a hollow, and it is one of the clear, dark, revealing Endless peace of mind... robbery

The clouds dissipated, and Lei Hai was no longer visible, but Ye Xuan still stood proudly in the darkness of the sky, with a gray and white light cluster hanging over his head. The fifty-five thirty-level Tiandao Baodan was safe and sound. And

Because after the thunder and baptism, the heavenly atmosphere that each of the Baodans disperses is more pure and rich.

This is the improvement of the efficacy of the drug, and it has reached the peak of the peak.

Undoubtedly, any ruthless nine-step grand perfect half-step heavenly powerhouse, after swallowing one of the Tiandao Baodan, as long as there is no major accident, it will successfully break through the heavens in a short time. There is no suspense, it's like a nail on the board..."

Oh..." brain

In the flashing of these thoughts, Ye Xuan was in a good mood, and he gave a shocking shout in his head, and he was full of excitement in the chest...

.....This

A refining of the 30th-level Tiandao Baodan, Ye Xuan spent a total of one month before and after.

In this month, the darkness of the darkness he is in is very quiet. From the distance of hundreds of billions of miles, the hollow giant tortoise, the deer stick and the three-year-old night fork hidden in the void are divided into three different directions. Just like a three-legged general, secretly guarding the law...

During this period, the ancient Yaksha had never appeared, and it was hidden in the void, and the hollow giant tortoise reduced the huge figure to a million miles. It was like a sleep, quietly and falsely in the void.

As for the deer, it is still in the form of a blood robe, a **** bloody remnant, and hides in the void in the other direction, quietly crouching.

However, the small calculations in his heart have never given up.

As early as Ye Xuan entered the third day of the retreat of the abandoned star inside the abandoned star, the deer stalker secretly sent a message to the devil's blood deer family.

The destination to which the message goes is exactly what he has already calculated.

The cat head carving that was originally built in the ninth-order grand sacred Mixed blood young children. It

So doing this is because the deer's own greed is revered.

Although Ye Xuan has promised that after the refining of the 30th-level Tiandao Baodan, there must be one belonging to him. but

It's just a Tiandao Baodan, and the deer is obviously not satisfied. This kind of Tiandao Baodan is just a chance to improve the smooth breakthrough when it hits the heavens. and

Not every one swallows, it must be a successful breakthrough, and there is a certain probability of failure.

Once the first swallowing has failed, the next time you try again, you will need to swallow at least two because of the difficulty.

It has been a long time since the beginning of the 9th-order Great Consummation. I have been fascinated by the study of Tiandaobao, because I am not confident enough about my own blood and talent. but

In the same way, from his research that he is so obsessed with Tiandaobao medicine, he can also see the desperate desire of the deer stick to enter the heavens. After all, he is eager to study the Taobao medicine, and the ultimate goal is to make his own breakthrough.

Therefore, just a Tiandao Baodan can not satisfy him at all. He is too unconfident in his own blood and talents, and he understands that this is his only chance.

I missed this time. If there is only one Tiandao Baodan in his hand that can't make him break through and enter the real heaven, then, in his view, I am afraid that there will be no similar opportunities in this life.

However, the end of the flooding has come, and the next Hongmeng era will be opened, especially the conditional opening of the Galaxy Stars is already imminent. although

However, no one knows the specific conditions for entering the Milky Way, but the deer can also enter it to compete for the next era.

It can be said that the time left for him is not much. In any case, he must successfully break through the conditions of the Galaxy Star before entering the real heaven and earth...

It is the influence of this kind of reason that the deer stalker decided to take risks and join forces with the arrow eagle to shoot Ye Xuan and seize the 30-level Tiandao Baodan in his hand.

At this point, he is still quite confident. On the one hand, Ye Xuan is a strongman of the survivors, and he and the arrow carvings are all starry beasts, and they are closer to each other. again

Then the young son of the arrow eagle is in the hands of Ye Xuan, and he also has some peaks and ruins of the nine-order grand perfection. to

Although the ancient night forks and the virtual giant turtles are equally powerful, the combat power is only one step ahead of the shoulders. Regarding the existence of the two of them, the deer sticks have clearly stated in the communication that the arrow carvings cannot be just Come alone. Place

Therefore, in the eyes of the deer, if there is no accident, this time, Ye Xuan is already... in jeopardy!

Chapter 5084: Four heavens move together

In the middle section of the left bank of the Milky Way, the magic carving is in the forbidden area...

In the middle section of the left bank of the Milky Way, the magical forbidden land is an extremely powerful place. There is a famous name on the left bank of the entire Milky Way. At this moment, an earth-shattering whistling sound suddenly disappears from the deepest void in the air without any indication. Sounded..."

Oh..."

"Remaining people? Do you dare to start with the younger son of the deity? Is it a strong survivor?"

If you have escaped, if you have the news, the deity must take you out, smash the bones, and smash the soul! Oh..."

At this moment, the sound of the whistling sound is the strongest person who is now sitting in the forbidden land of the magic carving. The late heaven and the earth in the seventh-order world exist. This

The head arrow is also the father of the cat head 梟.

Although the cat's head is only a descendant of blood, but after all, it is a young child, and the arrowhead is in the late stage of the heavenly environment. The dignity is not offended. Some people dare to start with his descendants, even if the cat is not very good. Being treated and being left out, he is equally unlikely to be good off! this

At the time, as his whistling sound rang, he was caught off guard, and the numerous beasts in the forbidden land of the magic carvings were scared and shivering, and the atmosphere did not dare to breathe...

"boom!"

At this moment, the deepest part of the forbidden land of the magic carving suddenly sounded thunderous, and the size of a huge body was extremely large. It reached a huge black magic carving of nearly 100 million miles, with a wind and thunder of incompetence, self-empty Come out...

With the emergence of the strongest person in the forbidden area, the entire magic carving is dead and dead, and there is no abnormal sound. under

In a flash, this body has reached a giant black eagle with a size of nearly 100 million miles. Under the sway of the figure, it will instantly become a strong and powerful survivor of a man, and his body is very savvy, with a black robe and face. There is a black scorpion, but an old man, the light is as cold as electricity, invisible reveals a sturdy infinite domineering...

He has this qualification, because even if it is a flood of heaven and earth, it is only a matter of heaven and earth, and this arrow is a magical sculpture, and it is not far from the eight-step heaven. thing

In fact, like the blue eyes of the wilderness, he is also the embodiment of the heavenly will of heaven and earth. in

This Hongmeng era is not just a great world. This

At the beginning of the Hongmeng era, Hongmeng had three star-sourced stars in the void, and three thousand chaotic devils were born. The vast world was only the power of the gods. and

The other existences of the three thousand devils, although some fall, have nothing to do, but there are many, like the power devil, opening up different big worlds. Do not

However, as this Hongmeng era fades and is about to dry up, all of this big world has entered the end of the world, and the big world after the end of the world has been swallowed up by the endless stream of emptiness.

The will of the heavens in these great worlds, or the strongest ones, came to the voids of Hongmeng with the souls of the world, and crouched on both sides of the Milky Way, establishing a strong forbidden land and a strong star field...

This is the case for the strong forbidden land and the supreme star field on both sides of the Milky Way.

And the vast world of the wild is just the last of many great worlds of this Hongmen era to go to the end of the world...

Of course, these big worlds are also strong and weak. The will of the heavens in the strong big world, or the strongest ones, is enough to match the sorrowful eyes of the heavens. For example, this arrow carving in the forbidden land of the magic carving is like this. and

Some weaker big worlds come out of the will and the strongest, but weaker, but basically at least the existence of a lazy level, such as the deer, he is actually the strongest out of a weaker big world. By.

However, although he once dominated a big world, the deer cane is obviously unable to compete with the existence of the arrow-headed eagle carving and the ridiculous heaven and earth, and he has not even entered the real heaven. Correct

In the supreme existence that once dominated a big world, even the heavens have never entered. This is simply a shame and shame. The reason why he is so obsessed with the heavens is one of the reasons! "

Roar! ""

Roar! "

"Hey..."

At this moment, with the arrowhead magic carvings rushing out from the Dongfu stars, and transforming into the central part of the magical field of the forbidden land, it turned into a black robe remnant of the height and the ruins, and the other three around the forbidden land. In each direction, there were also shocking roars and whistling sounds...

Listening to the static, these three roaring and screaming masters are clearly powerful and powerful. This

This is what it should be, because the magic carving can occupies a star field in the middle section of the left bank of the Milky Way. The strength of the arrow carving magic camp is strong, although it is conceivable.

Although it is still not the top ten in the overall strength of the left bank of the Galaxy, it is not far from the top ten, that is, more than a dozen...

Although the heavenly strongman who sits in the forbidden land of the magic carving is headed by the arrowhead, it is not just him alone.

There are a total of four heavenly strongmen in the forbidden land. first

Before, in the message received by the arrow eagle, it has been clearly stated that in addition to the sixth-order mysterious survivor of the heavenly kingdom, there are two powerful starry beasts next to him, which is in the wild world. He is famous for the hollow giant tortoise and the wild night fork. This

Although the two worlds exist today, the realm of cultivation is only the peak of the 9th-order grand perfection. It does not really enter the heavens, but its real combat power is enough to be the first step. and also

That is to say, in the dark star field where the deer stick is now, in addition to him, there are three heavenly forces in the other camp. and also

It is for this reason that this time, the arrow eagle will make a decision to let all the heavenly powers in the forbidden ruins go out of the nest.

Among the four heavenly strongmen, he is the late stage of the heavens in the seventh-order world, and it is more than enough to suppress the sixth-order mysterious survivors. and

The other three heavenly strongmen in the forbidden land of the magical carvings, one for the first step of the heavens, one for the second-order of the heavens, and the other for the fourth-order heaven...

Once the people come to the endless darkness at the end of the right side of the two sides of the Milky Way, the arrowhead magic carving will first contain the mysterious survivors of the sixth stage of the heavenly territory. magic

In the forbidden area, the two powerful beasts with the strength of the first and second orders of the heavens are respectively dragged to the empty giant tortoise and the ancient nightshade.

The remaining mid-term existence of the fourth-order heavenly territory can be shot in a short period of time, killing the empty giant tortoise and the ancient nightshade...

As a result, the other three heavenly forces have only one left in a short period of time. six

The situation of the order is the peak of the middle of the heavens. Although it is not very good to kill, but in the case of an enemy and four, and the enemy camp has the arrowhead magic carving, this kind of heavenly road, his fall is only a matter of time. No, there will be no suspense in existence...

Carved forbidden! "

Roar! ""

Roar! "

"Hey..."

At this time, as the arrowhead magical eagle rushed out from the Dongfu star, it was transformed into a central part of the forbidden land, and turned into a black robe remnant of the height...

From the other three directions around the forbidden land, there were also shocking roars and screams.

The other three heavenly strongmen in the forbidden land of the magic carving also rushed out of their respective cave caves and took them together.

These three beasts are different in blood and different in ethnic groups, but they are all 20 million miles in size. They are also extraordinary in strength. One is the first step of heaven and the other, the other is the second-order cultivation of heaven and earth. The other one is , it is the fourth step of heaven and earth...this

At the moment, the four heavenly strongmen in the forbidden land are gathered together. The two early stages, one mid-term and one late, the lineup can be described as powerful.

This time, rushing to the black bank at the end of the right bank of the Milky Way, there is still a certain distance, it is a strong day, and it takes a short time to arrive.

On the way to rushing, naturally, it is impossible to show people with such a huge blood. If that is too swaying, the four worlds of the magical carvings will be too eye-catching and will cause unnecessary trouble.

Therefore, these three heavenly savage beasts rushed out of their respective cave caves. After the vacant central area of the forbidden land and the arrow scorpion magical sculpt, the first time they changed, the huge **** body was put away, and the same was The look of the survivors. cold

Not to look at it, the singularity of the imaginary sky is clearly the four survivors, but although it converges to cultivate the breath, it all gives people a feeling of blood and abundance to the horrible feeling..."

This is the darkness at the end of the right bank of the Milky Way..."

Turning the head, the three survivors of the beastly form of the beasts will glance at the heavens. The arrowheads are smashed in the middle of the cold, and they snorted and said: "The survivor who killed the younger son is there, this person is the sixth stage of heaven and earth... ..."

In addition, the Nether Giants and the Wild Nightshade in the Great World are also there. Although these two old guys have not entered the real heaven, the real combat power is enough to compete with the heavens..." "

The message came from the deer on the right bank. Although this person is a ferocious beast, he is studying the pathology of the survivors. According to him, the sixth-order remnant is refining a kind of heavenly treasure, which can make the peaks and deserts After swallowing, it will smoothly enter the heavens in a short time..."

Here, the arrow At that time, the sixth-order survivor could not be allowed to run anyway..."

Everything is clear, he doesn't say much, he waved his hand..."

Oh..."

In the next moment, the crisp and fierce cracking sounded, and a void crack appeared in the front of the void. The arrowhead magic carving first stepped into it, and the other three survivors of the beastly animal form did not delay, and successively entered the void. Among the cracks, the figure of the four people disappeared in an instant.....

...silver

Endless darkness at the end of the right bank of the river... three

The tenth-level Tiandao Baodan refining success, and successfully passed through the Dan robbery, and now the robbery cloud dissipates, and Leihai is no longer visible. but

Ye Xuan, but still stands proudly in the darkness of the sky, with a gray and white light cluster hanging overhead, and the fifty-five thirty-level Tiandao Baodan inside is safe and sound.

Moreover, because of the thunderbolt baptism, the heavenly breath of the fifty-five pieces of Baodan is more pure and rich, which is the improvement of the efficacy of the drug, which has reached the peak of the peak. Obvious.

So Baodan, any ruthless nine-step grand perfect half-step heavenly strong, as long as one of them is swallowed, if there is no major accident, it will be no suspense to break through to the heavens in a short time. It's like a nail on the board..."

Oh..."

"Hey..."

During the wave, fifty-five Tiandao Baodan were put away, Ye Xuan was in a good mood, and he gave a terrifying shiver in his head, and he was full of excitement in the chest...

In this scene, the deer sticks and the hollow giant turtles, which are guarded by the emptiness of hundreds of billions of miles away from the front and the left, are in their eyes. Both of them are excited and their breathing is a little short.

Although they are still separated by a long distance, but the gods know that under the sweeping, only the fifty-five pieces of Baodan's rich atmosphere of the heavens can determine their effectiveness. Do not

Dare to say that after entering the swallow, you must successfully enter the heavens, because each person's talent, blood and his own heritage are different.

But even if one can't break, the two can be done... up to three! brain

After flashing these thoughts, the deer sticks suddenly got excited. What he asked for the arrow carvings was three treasures. Now the total number of Baodan is fifty-five, just three. Obviously there will be no accidents, and I will be able to get it. This

For a moment, his entire mind was occupied by greed, and he was extremely expecting the arrival of the arrow eagle..."

Oh..."

Just at this time, in the distance of a hundred billion miles away, a crisp and fierce cracking sounded, the most crucial moment, the four heavenly powers from the magical forbidden land finally came...

The void crack appeared, and the four figures stepped out of it. "

Roar! "

"Oh..."

Hesitant, just rushed out from the cracks in the void, the four arrows of the arrow

The three-headed body is 20 million miles away. The most powerful arrowhead magic carving is the seventh-order heavenly road, which has already entered the late stage of this situation.

As soon as the **** body appeared, his powerful heavenly consciousness has enveloped this dark void, and hundreds of millions of miles away are like being banned, and can no longer escape by teleport..."

Oh..."

"Hey..."

At the same moment, on the right side of the void, there is a clear and fierce cracking sound, followed by a low humming sound...

Looking forward, the barren cherries with their wings crossed stood there silently, but the right arm was lifted high...

The stalk energy giant bow appeared, even his right hand was placed on the bowstring, an energy arrow appeared!

In the midst of it, there is even more blood and sorrow, and the body's half-step heavenly environment is strong and scented without scatter, but it is instantly triggered, giving a strong sense of crisis like a mans in the back!

"Hey!"

In one direction, the body shape of the empty giant turtle has suddenly appeared, and the body shape has expanded in an instant, but it has not been pushed to the extreme, otherwise it will be larger than the arrow carving. Such as

Today, he has not yet entered the real heaven, the strength is in a weak position, and the too large size is not a bad war...

In a blink of an eye, the atmosphere of this dark void has stagnate to the extreme, and the supreme beasts of the four heavens are coming, and the deer sticks of Ye Xuan are hidden in the side, not appearing.

This is clearly a weak enemy, with a three-to-four rhythm...

On the right side of the empty, the old-fashioned yak with the double wings is standing there without a word, and a secret atmosphere is like a sigh of relief, and it is swaying...

His left arm has already been lifted up, and the empty palm of his left hand is also a sudden golden man, and a golden bow with an energy form appears in his left hand.

The big bow is simple and sturdy, and the middle part of the palm is a double-headed beast, which is oriented in the mouth of the beasts in the upper and lower directions, biting the two humanoid bodies.

And all of them are wide and angry, they seem to be roaring...

The root is obviously composed of numerous stringed fine gold threads twisted together to form a bowstring, and the two ends are connected to the life of these two humanoid bodies!

This is a mysterious powerhouse that is so devastating to the savage and savage-----

Before the endless years, the battle of the ruined world, and the emptiness of the giant tortoise, the golden sacred dragon, as strong as the golden dragon, once used this supernatural power to shoot the huge wilderness and the unseen hole. One

Only the arrow, the power is too strong, even if it is the heavenly eye that represents the will of the wilderness, it is almost bombarded by that arrow!

At this moment, as the energy arrow above the bowstring appeared, the breath of the ancient Yaksha's body suddenly turned sharply. its

In the middle of the blood, the blood is swaying, and the body's half-step heavenly environment is strong and scented and not scattered. It feels like a strong sense of crisis in the back.

Wild night fork? "With

The low humming sounds, the arrows that have already manifested the bleeding pulse are turned into the past, and the flash of a vigilant color is heard in the middle of the voice. The voice of the low gods is heard: "I have to say, your The is indeed extraordinary. It is said that in the end of the eternal life of the endless years, it is almost impossible to shoot the sinister eyes of the sinister sky..."

"Unfortunately, you are still too weak after all. Although the combat power is better than that of the shoulders, it has not really entered this realm..."

If you are a true heavenly powerhouse, even if it is only a third-order realm, a slam dunk, the deity is very likely to fall here, but now..."

At this point, the arrow Killing the existence of the younger son of the deity? Hand over the heavenly treasure, the deity... leave your whole body!"

"It seems that you are so powerful, isn't it a late Tiandao in the seventh-order world? And it will fall soon. I really don't understand what you have to say..."

Xuanyuan mouth, squinting at the huge size of the arrow

In the middle of the cold, the sound of the gods shrouded a void: "Come out, know that you are attracted, don't pretend to be stupid, this temple really does not understand, have promised to give you a Baodan, why do you want in this way?"

Oh..." with

His words fell, and the left side of the tens of billions of miles away, the body of the deer stick appeared, but it was not the blood of the body, but the form of the remains of the **** blood, blood and blood. "

A Baodan, the old man is not enough..."

Since the torn skin has been torn, the deer stick has nothing to worry about. He has already raised his vigilance and will not approach it. Together with the four heavenly powers, he has already fallen, invisible deterrence. He believes that Ye Xuan is not willing to act rashly.

"It turns out that, let you look at this choice... the end result!"

Xuan nodded, did not say too much, from the side of the deer sticks back, the eyes once again swept to the arrow magic carving: "Abandoned ancient night fork has not yet entered the heavens, in his hands, really can not beat you kill....."

"But... what about the temple?"

The sound is still not falling, his left arm has been lifted, the left palm of the original empty hand, is also a sudden golden man, a golden bow of energy form appears...

However, it is the Xingqiang Shentong Tiangong bow, which is the same as the left hand held by the left-handed Yaksha. The only difference is that Ye Xuan is now a human form, so his various bows look much smaller. but

This powerful supreme power, the size of the bow has no effect at all.

On the contrary, because of the six-step powerful cultivation of his heavenly environment, the small version of the scorpion bow that appeared in his left hand at this time, the breath that was invisibly dispersed, was even more terrifying...

Even the arrow eagle carvings have instantly produced an unprecedented sense of life and death crisis. Under the color change, they are exclaimed.

Oh..."

When his exclamation sounded down, an energy arrow appeared on the bowstring, and the body of Ye Xuan suddenly turned sharply, quietly releasing the right hand of the string...

Sharp and sharp, the sound of the sharp and tremulous sounds.

A golden mang rushed out from the bow of Ye Xuan's left arm and disappeared instantly. One ten thousandth of an instant did not arrive, and it was already on the head of the arrowhead's magic carving...

"Hey..."

It's happening too quickly, the next scene is no suspense, and the earth-shattering roaring sounds come instantly...

For the speed-exceeding teleports, which appear directly in front of you, and the horrible golden arrow, the arrow-headed eagle eagle has no time to react, just a little open mouth, even a chance to scream No...tight

Then, a gigantic force that has reached the point of horrifying power has already rushed into his body. When it is not in a moment, it will raging and open. The whole body will burst open and become a rapid spread of the canopy. The red blood is fogging, covering a corner of the sky..."

Calling..."

At one moment, Ye Xuan waved, and with the sound of a whistling whistling sound, invisible, a majestic force whizzed away, swept the **** fog of the huge figure of the arrow income in the body... this

It was the second heavenly blood that he got, and it was still bombarded with a powerful beast in the late seventh heaven, and all this was done in an instant...

Arrow destroys the magic carving! This

It's just like a dream, it's so unreal, and it's too late to watch. The three evil devils who followed the arrows and the magical carvings were stunned on the spot. to

On the left side of the sky, hundreds of millions of miles away from the deer, it is almost on the spot to take out the eyes. No

What? One

The horror of the seventh order of the heavens and the heavens, so dazzling... is it gone?

This is simply rumor!

He counts all the calculations, counts everything, but he never thought about it. Ye Xuan, who was clearly regarded as a strongman of the survivors, actually mastered the sacred blood of the ancients of the ancients. Take

The sixth-order cultivation of Tiandaojing is to display this horror magical power. In the later period, the strong heavenly and powerful people, under the precautions, have to be killed by the spike...

Only the arrow, under the defense, the arrow is instantly spiked...

The Tiangong was too strong. In the battle of the ruined world, the ancient yak was only a half-step of the cultivation of the heavens, and it was possible to almost smash the seven-step sacred heavens of the heavens.

Today, Ye Xuan is the sixth-order heavenly environment. It is only one step weaker than the arrow-headed magic carving. It is also shot when he is not prepared. If this is not the case, it will not be able to kill it. For the strongest blood and magic. With

With the fall of the arrow and the devil, the void is in a short silence. but

Immediately afterwards, the deer stalker reacted first. He did not hesitate, and turned around and fled in the first place...

There are still three powerful beasts in the heavens, and he must escape as soon as possible and escape. to

In Tiandao Baodan, it is no longer a luxury, because only the starry beasts in the early and middle stages of these three heavens can't suppress Ye Xuan...

"Would you like to escape? Have you escaped?"

In this scene, Ye Xuan even sneered..."

Oh la la..."He

For a moment, his figure disappeared, but the original slap in the void had a slap in the water, and the whole body shape of Ye Xuan collapsed. It turned into a **** sea and spread, covering a corner of the universe... .."

Roar! ""

Roar! ""

Oh..."

Almost in the next moment, from the three different directions of this vast sea of blood, the sound of screaming and screaming, the sound of the boundless blood, there are three huge figures in the blink of an eye, dialing in a moment Starting from the ground.

It is the three great devils of the ancient konjac! Minute

Don't be the flesh and blood, that is, the starry sky!

And the body of the cheekbones, without any flesh and blood, just a purple-golden cheekbones, revealing endless fierce breath, very incomparable!

Finally, there is the body of black fog. although

It is also a form of violent, but the body is a black fog, even a pair of scorpions, just two awnings, it looks very strange! short

Between the short breaks, the three **** seas have been condensed, and the body's repairs are breathtaking, and all of them are all six heavens.

But this is obviously not the end..."

Oh..." with

The figure appeared, and the flesh and blood in the three avatars of the konjac violently waved a hand, accompanied by a sharp burst of sound, and a volley rushed away, welcoming the storm, and the huge distance between the eyes was huge. It is the second-order beast of heaven and earth...

Therefore, with a dazzling effort, the situation on the battlefield was instantly reversed.

The three bloods of the sea, the beast, the virtual giant turtle and the wild night fork... Ye Xuan has six weapons to reach the supremacy of the heavens. and

The party from the forbidden land of the devil has four former, but now there are only three.

The situation suddenly became six-on-three... This is simply a dog's blood. Looking at the distant void, the three heavenly beasts are almost squirting blood on the spot. They all smashed internal injuries, endless resentment and unwillingness! This

Why do you bully people, you know that this is the case, the brain was kicked by the dog and rushed to death...

When the previous arrows were killed by a single arrow, the three of them were shocked and awkward, but they were far from fearful, because they simply did not think that they would fall here today. although

It is impossible to say that things have been lost, but also lost a powerful late-stage heaven in the seventh-order world, but the final result is too big to just turn around and reluctantly leave.

Although there are three people on the other side, the mysterious survivor of the sixth-order Tiandao has already exhibited a scorpion bow. The strength of the body is in a state of deficit. Not only can this singular power be used again, but even the interception of them can be forced to stay. It should be powerless to come down...

As for the Void Giant Turtle, it is directly ignored, but the combat power is better than the first-order heaven, and the weakest of the three of them cannot be left behind.

Although the scorpion bow in the hands of the wild night fork is a threat, it is now prepared, even if the arrow is shot, they can avoid it. but

In fact, the ancient Yaksha does not enter the real heaven and earth. Although the Tianzhu bow is strong, it can not be able to kill the strong people in heaven. Therefore, it will basically only be a kind of deterrent...

In this case, the three of them can leave at any time, naturally, they will not feel the crisis, and they will only feel unwilling and angry.

But now it is different. Correct

The original was only three people, but now it suddenly became six. In addition, the mechanical beast will be gone. The second step of the heavens is that the weak is not weak, and the strong is not too strong. It may not be forced to stay. they.

But the three konjac in the vast sea of blood can be troublesome.

The flesh and blood is violent, and the body is somewhat weak. This should be the deity of the scorpion bow. The two scorpions and the black fog are separated, but the real six-step heaven and earth. ...six

Under the third, once it is overwritten by the other side, there are both the old-fashioned cherries holding the scorpion bow in the eye, and there are one weak two strong three heavens in the sixth-order frontal shot...

The three of them don't say that they have left calmly. It's almost impossible to escape from the wolf. "

Roar! "

"Hey!"

Oh..."

These thoughts flashed through the brain, and the three beasts from the forbidden land of the magic carvings trembled and finally returned to the soul. each

From the screaming of the head, they almost turned at the same time, rushing toward the distance, trying to take advantage of the other side of the camp has not yet shot, try to escape as much as possible...

"I just want to go now, it's too late..."

Seeing this scene, Ye Xuan grinned, and the sound of the gods was at the same time, the violent screaming suddenly waved..."

Oh..."

The road was spurred by the glare, and the storm rose. In the blink of an eye, it was turned into a majestic nine-color flame sea. The speed was too fast, and it was stopped in front of the three-headed heavenly beast.

Then, before they returned, the majestic nine-color flame sea was closed and turned into a circular flame ball with a diameter of several hundred million miles.

The flame ball is hollow, and the three beasts that want to escape are now trapped in it..."

Roar!"

has

After the needless empty turtle and the wild night fork, the first beast rushed into the flame ball. At the same time, the cheekbones and the black mist were also screaming and roaring away. in

The shape of the body broke into the flames of the sea, the right hand of the cheekbones clearly showed a quaint big tripod, while the right hand of the black mist split appeared a **** stick...

At one moment, the violent temper also turned to look at the deer who was dying in the distance, not worried, stepping on the void step by step, calmly chasing away.

The deer sticks just turned back at this time, and everything behind him was in the eyes. His body shape suddenly stunned, and his look drastically took a breath. but

There is a flash of aura in the brain, revealing the sound of the gods of endless fear, and it also comes out: "The secret of blood and sea? Shennong Baoding? And the **** stick..."

Damn, you are not a strongman, you are the **** starry sky that year..."

Chapter 5085: Congratulations, you guessed it!

In the darkness, the violent turn turned to look at the deer who was dying in the distance, and did not worry, stepping on the void step by step, calmly chasing away...

The latter just turned back at this time, and everything in front of him was in the eyes, his body shape suddenly violently shocked, his look changed dramatically, and he took a sigh of coolness, and the sound of the gods of endless fear also came out: "The secret of blood and sea ? Shennong Baoding? There is that **** stick..."

Damn, you are not a strongman, you are the **** starry sky that year..."

At one moment, he finally understood everything, but the intestines were completely repented...

Although the stick has not seen the violent temper of the year, after the end of the sleep, it was the amazing record of violent. No

Wrong, the violent temper was only raging the left half of the right bank of the Milky Way, and later it was the heart of the entire galaxy that had not yet existed on the banks of the galaxy. The sly giant turtle is incomparable. but

In fact, in the deer's stick, the violent and enchanting degree of that tyranny was even far above the giant turtle. Virtual

The empty giant tortoises appeared in the Milky Way, smashing the banks of the Milky Way, and letting the strongest forbidden land and the Xingqiang Stars be stunned, the Supreme Forbidden Land and the Xingqiang Star Field on both sides of the strait, there are basically few old and old. It's strange to be born, and there is no need to say more about the supremacy of heaven and earth. and

At that time, the giant tortoise of the void, once it appeared, was already a ridiculous nine-order great consummation, that is, the cultivation of a half-step heavenly environment.

The few ridiculous grotesques that he had shot and killed were not as good as him, and the strongest was only a late stage of the seventh-order world...

After the Void Giant Turtles murdered a few ridiculous grotesques, the rest of the deceased old geeks who were born, because none of them reached the stage of the ruling nine-step great perfection, are not his opponents, so I left in a hurry and avoided the unknown void...this

It invisibly creates the supreme power of the virtual giant tortoise, and by the force of one's own, it will stir up the wind and the waves on both sides of the entire galaxy...

In fact, the Void Giant Turtle is really incapable of comparing it with the starry sky that appeared before him.

Although the starry sky violently only ravaged the left half of the right bank of the Milky Way, he has always been a weak counterattack, with a weak war, and the stronger the Vietnam War, the triumph of the road, the speed of entering the country, it is so jaw-dropping .

It is said that when the starry sky was initially noticed, it was only the immortal cultivation of the king. At that time, he had been hunting and killing the king, and there were even some powerful immortals in the early days of the emperor. Fallen in the hands...but

In a short period of time, the target he hunted was changed from the immortal to the immortal, and then the cosmic lord, the master of the universe, the universe supreme... short

In a short period of ten years, he began to hunt down the ancient powers. At that time, his own cultivation and strength also reached the ancient power of the wild, not only the speed of entering the country was unheard of, even since then, he Occasionally, you can kill one or two powerful ancient sages...

During the period when the left bank of the right bank of the Milky Way was raging, the starry sky violently encountered more than one face alone and even a dozen or so contemporaries, and even stronger existed in the siege. but

Every time he was saved by his dangers, even those who were full of self-confidence, and even if he was trained to be stronger than him, he was eventually murdered without exception.

The head violent temper is too enchanting, and the age of the ruined world is heavy, and the ancient ruins of the ruins of the ancients are in his hands. In addition, he also has a **** stick that is also the ancient and treasure-class, and is fierce.

There are also Shennong nine-color flames, even the ridiculous old monsters have to be jealous, and they have to change their colors to avoid...

As for the **** magical powers, he not only possesses the secrets of blood and sea, but also instantly condenses three blood and sea corps that are exactly the same as the master. very

As for even the savage ancient sacred sacred blood, the **** of the sky, he has mastered...

Yes, the outside world even rumors that his true cultivation is actually far less powerful than that shown in the foreign wars, but he has to weaken a whole big realm because he has mastered a powerful blood and magical power. Make your own cultivation a realm, and instantly enhance a whole world... and

Moreover, there is no time limit on the cultivation of this instantaneous skyrocketing...

All of this, deer sticks have heard of it, with his insights, really want to say the enchanting means, the cruelty of the heart, the hollow giant turtle is far from being able to compare with him...

Yes, that starry temperament in the left section of the right bank of the Milky Way has left a starry sky epic legend. It has disappeared many years ago. I don't know where to go. According to outside speculation, it may be fallen. It is known.

Therefore, the deer has never thought about it, and one day, he will encounter this starry temper that is so enchanting.

I didn't even think that I would be under the strong strength of the other side, giving birth to a strong sense of life and death crisis...but

All of this is now coming. in

Seeing Ye Xuan's exhibition of the sacred bow, the **** sea secret method condensed three blood and sea avatars, and Shennong Ding, the **** stick appeared one after another, he instantly realized the identity of the other party.

In the same way, because of the realization of the identity of the other party, the deer's heart suddenly gave birth to a more surprising speculation.

At this moment, as he looked back, he lost his voice and exclaimed, and the desperate sorrow of the deer stalker flashed through, seemingly unwilling, and once again said: "Impatient, you are not a true heavenly powerhouse, you are heavenly. The cultivation of the order is strength, but it is forced to ascend up by some kind of anti-sky secret method. Is this... is it true?"

Congratulations, guess it..."

In the case of the deer, Ye Xuan did not intend to conceal anything, because in his eyes, the other party is already a dead person.

He licked his mouth, and at this time, Ye Xuan still walked slowly and slowly in the void, seemingly slow, but in fact it was very fast. deer

The repair of the nine-step great consummation in the staff of the staff has already been pushed to the extreme. It can even be said that the strength of eating is already used, and it is running out in desperation. and

And he also fled for so long, but now, Ye Xuan seems to walk slowly in the back, but it is just counting interest, it is close to the void that he touched billions of miles behind him...

Tens of millions of miles are not there. For the strong sixth-order powerhouse, this is simply the distance of close combat, and you can easily hit each other with a single blow. One

It's time to end, it's just a half-step heaven with a heart and a sinister heart, and Ye Xuan is not in the eyes at all. "

To be precise, the cultivation of the temple itself is the realm, and now it should be... the fifth step of the ridiculous! "

"boom....."

The voice of the gods came out, and the violent moments were shot, and a fist hit the deer, and the thunderous sound of the thunder came, and the void... collapsed!

"Accurately speaking, the cultivation of the temple itself is the realm, and now it should be... the fifth step of the desolation!"

"boom....."

The voice of the gods came out, and the violent moments were shot, and a fist hit the deer, and the thunderous sound of the thunder came, and the void... collapsed!

"Hey..."

The old man is unwilling..."

Seeing this scene, the deer stalker is stunned, and his hair rises and screams, revealing endless unwillingness...he

After all, it is the culmination of the ninth-order grand perfection, that is, the half-step heavenly road, and it has also entered this territory for many years, and it has been solidified and solid.

But today, it has fallen in the hands of a ridiculous fifth-order temper, recalling the hardships of the past years of endless years, and finally entered the half-step, and even saw the hope of entering the real heaven. Just in front of you...

But all this is like a dream bubble. In a moment, it will be completely turned into nothingness. The dust will return to the earth, and the return to the market after the fall will be the final burial..."

Oh..."

There was no suspense in the scene, everything happened too fast, and with the violent shot, even if it was blown out of the gap of 10 billion miles, the earth-shattering roaring sound came from time to time...

For this level of terrorist power, the deer can't resist, or even have no time to react, just a little open mouth, the screaming in the mouth is still not finished, a pound to the The heinous power has already rushed into his body...

When one tenth of an instant is not there, it will be raging and the whole body will burst open, turning into a red blood fog that spreads rapidly, covering a corner of the sky...

"call....."

call out!"

At the same moment, the violent wave, as the sound of a whistling whistle sounded, invisible, a huge force whizzed away.

The **** fog that smashed the huge shape of the deer stalker swept through the body, and the blood of the desolation in his hands had all been consumed before, and it became fifty-five thirty-class Tiandao Baodan. . This

It is the first **** essence that he has collected since then. Even if he does not refine the Tiandao Baodan, it will be of great help to swallow it as a cultivation resource. After all, this is a ninth order. It is precious to get the powerful beasts that the sacred peaks have been cultivated. with

When the lasing came, there were four velvets. Previously, the deer had said that the velvet in his hand was four, and the two were lost to Ye Xuan as a gift of sins. There should be two more. .

But now there are four velvet germinations, indicating that this old guy is not honest from the beginning, the surface is loyal and gentle, but in fact it is insidious or even cloudy, it is not a good thing, it is purely alive.

This is a good thing. Although Ye Xuan's hands now have 55 Tiandao Baodan, if there is no accident, there should be no need to refine more. After all, the heavenly power can't be like the cabbage on the street. All are. but

In the void of Hongmeng, the heavenly state is not the strongest level of cultivation, the heavens are going up, and there is a stronger realm. day

Daobaodan's perfect Danfang has been so difficult to deduct. This time, if there is no idea of a deer's stick to propose a five-line medicine, Ye Xuan may not have the confidence to start refining immediately.

Even if you try to refine your teeth, the final result is very likely to be a failure. The loss can be big, and the blood of the desert is completely destroyed. It is almost mad. only

From this point of view, the role caused by the five elements of medicine is crucial.

In the future, in order to impact the more powerful cultivation of the heavens, Ye Xuan is very likely to refine the stronger Thirteen-level Baodan. Although he does not know what the realm is after the Heavenly Kingdom, even these thirty The name of the first-class Baodan can not be determined.

But one thing is certain, that is, if you refine this kind of thirty-level Baodan, among the perfect Danfangs that will be derived from then, it is very likely that you will also use the five elements of medicine, and even have to join Other more elements...

Therefore, the four velvets that he just got started are very precious. They will be hard to find in the future. Now they still have a good collection in their hands, in case they need it.

Otherwise, if it is really needed after one day, then it will be too late to cry..."

It seems that the Tiandan on the side of the old turtle has to make a few more..."

These thoughts flashed through the brain, and Ye Xuan turned his hand into the immortal world of the four velvet antlers. Then he whispered in his mouth and turned to look behind the road.

Over there, the huge flame ball formed by the nine-color flame sea is still there, and there are sounds of screaming and screaming from time to time, and there are even loud and loud thunderous sounds. very

Obviously, the inside has already fought, and the Void Giant Turtle and the Wild Nightingale have not joined. Without Ye Xuan, they can't safely pass through the nine-color flame ball and enter its internal space. Otherwise, it must be damaged. .

He is not in a hurry to ask for the Tiandan from the Void Giant Turtle now, because the war has not yet ended.

I am afraid that the empty giant tortoise is more anxious than him. After the end of the war, he will take the initiative to ask Ye Xuan for the 30th-level Tiandao Baodan. And

Not only him, but also the old-fashioned night fork, the two old guys are looking forward to entering the real heaven, but they have not grasped much, and the injury has not recovered.

Nowadays, the 30th-level Tiandao Baodan, who can help them with their help, is in front of their eyes, and they are not blamed for taking the initiative to export.

At that time, it is the best time for Ye Xuan to take the opportunity to ask for the Tiandan.

And now, let's solve the three heavenly beasts in the nine-color flame ball first...

Nowadays, in addition to the powerful beasts of the three heavens that come with the arrowhead and the magical carvings, Ye Xuan is fighting with the scorpion avatar among the three konjac avatars. With the black fog, in addition to the beast.

The beast is only the second order of the heavens, and it has little effect. It can only play a role in restraining one of them.

Although the sacral body and the black fog are the strong sixth-order nature of the heavens, but among the three beasts, there is also a fourth-order heaven, if one-on-one, even if the other side is trapped in the nine-color flame In the case of the ball, I am afraid it will take some time. in

The face of the battle is now so fierce, because three to three, the advantage of Ye Xuan's camp is not absolutely crushed.

But it doesn't matter, open the empty giant tortoise and the ridiculous night fork, not to mention, the nine-color flame ball is idle, and there is a konjac flesh and blood, that is, the violent deity.

As soon as he joins, the battle situation in the nine-color flame ball will suddenly change. After a short-lived killing of a heavenly beast, the remaining two will soon fall down...

"Hey..." brain

These thoughts flashed in the middle, and the violent temper did not hesitate. Under the flash of the cold, the huge figure was instantly turned into a mans, and the speed was so fast that it was rushing into the nine-color flame ball.

"boom!"

Rumble..."

Roar! ""

Oh..."Nine

In the flame ball, the war is in full swing, and the three beasts of the heavens and the beasts that accompanied the arrows and the magic carvings have been completely suppressed.

Ye Xuan's side, the repair of the beast is the weakest, only the second order of the heavens, and at this time is fighting with him is the three of the fierce beasts, the only one with the lowest strength, only the first step of the heavens.

The strength between the two is only one step difference, so the emperor has an absolute advantage, but it has not formed an overwhelming attitude. The two figures occupy a corner in the interior space of the nine-color flame ball. You come and go. It's a great exaggeration in the battle. This

However, the fierce battle of the heavens and the earth has risen to the point where life and death are surviving. The air machine is too fierce. If there is a nine-color flame ball that will ravage the chaotic gas machine and bind it to the inner space, the outside scene will not know how to stir up...

In the other two areas of the inner space of the flame ball, the shin bones and the black mist singularly occupy the other two heavenly beasts. This

The situation in the two regions is completely different.

The sacral body and the black mist are the same strengths as the Ye Xuan deity, and they are also activated with the **** magical power of the konjac, and they are displayed in the same state as the ninth change, that is, the sixth stage of the heavenly state!

The two sacred beasts, the second-order one for this, the fourth-order for this situation, the difference is too much, it is far from the opponent, and now not only lost the advantage, but even broke into the dilemma of being completely suppressed.

The fourth-order heaven is better. After all, it is the same as the black fog. It is all in the middle of the heavens. Only one is in the middle of the first half, and the other is the mid-term peak. Although it falls into the suppressed position, it is only a little while. It is still innocent.

In addition, the second-order beast of the Heavenly Kingdom is the only one who has been smashed in the bones. Now, in a short period of time, it has been bruised and bruised. However, the existence of the second-order heaven and earth is far from being a chicken, even if it is not even, it is pressed. Playing, but only by the cheekbones, I want to kill them in a short time, but still some are unlikely..."

call out! "

It is in this case that the violent figure rushed into the outside of the nine-color flame ball, and turned around to scan the battle situation in the three wars in the flame ball, followed by a flash in the middle of the battle. In an instant, I rushed to the cheekbones...

"Hey..."

The second-order beast naturally knows what will happen next, and when his heart trembles, even when he screams, he realizes that death is about to come, but he can't change anything...

"Hey..."

Everything that happened was too fast. With the violent shot, the punch was blown out in the air, and the cheekbones were also swept in an instant. The Shennong Ding, which was held in the right hand, was like a heavenly seal, and slammed toward the second. The head of the beast is falling...

The two worlds of the two heavens joined forces with one blow, and the results were self-evident. The next moment, the earth-shattering roaring sound suddenly sounded. surface

For this level of terrorist power, the second-order beasts simply can't resist. he

It was already seriously injured. Under this attack, there was no time to make any reaction. It was just a slight opening of the mouth. The screaming and screaming in the mouth was still unfinished. The power of the human finger has already rushed into his body... too

Fast, the power of violent raging opened, the entire shape of the second-order beastly beast exploded, turned into a red blood fog that spread quickly, covering a corner of the void.

"call....."

"Hey!"

For a moment, violently waved, and with the sound of a whistling whistling sound, invisible, a powerful force whizzed away.

The **** fog that blasted the huge body shape of this second-order beast and swept it into the body. to

Therefore, the blood in his hands has reached three...

This is far from over, and it can even be said that it has just begun.

After a blow to the second-order beast, the violently closes, and the shin bones, turned to the fourth-order beast in the other direction. this

At the time, the black mist of the **** stick was hand-picked, and the black stick was smashed over the top, and the head of the fourth-order beast was smashed.

If it was just now, this fourth-order beast is capable of avoiding this attack. After all, he is also in the middle of the heavens.

But at this moment, as the second-order beast was falling in an instant, and the violent and cheekbones who had killed him were turned and looked over here, the air was locked, and his soul was scared away in an instant. Half.

This is the peak of the middle of the heavens in the sixth-order world. One person is not too bad. At the same time, the three teams join hands. He simply resists a blow and is absolutely depraved. this

His heart was shrouded in this shadow of death, and the only result was to accelerate the process of death...

"boom!"

"Booming..."

At the same moment, the violent and cheekbones were swayed and swayed directly, and appeared in the vicinity of the fourth-order beast. Not only did they form a three-legged position with the black mist, the former slammed into the air. Shennong Ding in the latter's hands once again seems to be like a celestial seal.

The sixth stage of the heavens and the world, all at the same time all the best shots, the final result has no need to say more, no suspense may be ..."

Oh..." with

At the same time, the three men shot at the same time, and the endless power of the majestic squatting on the body of the fourth-order beast, the earth-shattering roaring sound suddenly sounded, facing the horrible power of the three levels, it was The fourth-order beast is also unable to resist at all. first

The second-order fierce beast still sent a terrifying whistle, but now, the fourth-order beast is just a slightly open mouth, and a pound of screaming power has already rushed into it. His body... one

In an instant, with the raging power raging, the entire shape of the fourth-order beastly beast bursts open, turning into a red blood fog that spreads quickly, shrouded a corner of the void, and was violently waved to create a gust of wind. Whistling, the incomparably powerful force whizzed away, and the **** fog that swept away its body shape swept through the body.

At this point, Ye Xuan's Tiandao blood essence... reached four! but

This is still not the end, but it is already very close, because the remaining first-order beast is completely untenable, and can't stir up a little bit of spray.

"Hey..."

boom! "This

At the moment, as the three **** seas turned at the same time, they approached the first-order beast that was entangled with the beast, and the other party was scared to death. this

At this moment, an unprecedented shadow of death has completely shrouded his entire mind.

He was desperate, and even lost the idea of resistance. After a screaming, the first-order beast actually chose to blow himself.

Anyway, it will be a death sooner or later. Instead of facing the existence of four powerful heavens, there are three heavenly horizons, and eventually they are killed by the other side. It is better to have a good time...

"call....."

However, this is also good, saving the trouble of Ye Xuan, seeing the blood and blood diffuse and opening, the violent first waved, wrapped it up and earned the body. to

Therefore, Ye Xuan's Tiandao blood essence reached a huge five...

It's over! With

With the three **** seas and the four beasts, the three heavenly beasts who came with the arrow sculpt, all without exception, were all smashed...

Ye Xuan has also harvested three Tiandao blood essences. Now, the blood of his hands has reached five giants, and he unexpectedly harvested four velvets in this battle.

This kind of resource is very precious, and it is rare to see it. Ye Xuan always feels in his hands and will have great use in the future.

These thoughts flashed through his mind, and he once again thought of the Tiandan in the hands of the Void Giant Turtle. In an instant, the violent mouth of the mouth showed a touch of laughter.

This time, Tiandan must be at hand, and there will never be a suspense, because the life gate of the Void Giant Turtle is now in his hands.

"call out....."

In the middle of a wave, the body of the 200 million-year-old emperor became a man, and was directly received by the violent. "

Oh la la..."

Oh..." tight

Then, after calming down the excitement, the violent glimpses flashed, and between the movements, the black mist and the cheekbones were instantly turned into a **** rain. and

Instantly condensed into a point, lasing came, the blink of an eye did not enter his eyebrows, and disappeared.

At the same time, this nine-color flame ball that enveloped nearly 100 billion miles of empty space was also widely dispersed in an instant, turning into a vast sea of blood.

Less than half interest, it also condensed to a point, and it rushed into Ye Xuan's eyebrows, and it flashed away.

At this point, the vast darkness of the 100 billion miles away, there is only a violent form of Ye Xuan alone, the four heavenly beasts from the magical forbidden land, rushed into the nine-color flame ball. After that, within a short period of time, it was completely killed. on

Even the **** fog formed after the flesh exploded, the gods disappeared, and half of the hairs were not left...

This scene is truly amazing, and the record is terrifying. Even the dark void in the hundreds of billions of miles away can be described as a wide-ranging knowledge. From the distant wilderness to the dying giant tortoise and the ancient yak, it is not because of this. Light is condensed. he

We know that Ye Xuan's real cultivation is only a waste of respect, so I didn't say a little about him before, but it's not necessarily if he treats him as a person of the same level as himself...

But now, through the battle of the talented, the virtual giant turtle and the ridiculous night fork finally realized the power of Ye Xuan.

The beast, plus three big blood seas, this is the supreme power of the four heavens. If the opponent is theirs, even the virtual giant tortoise and the wild night fork have their own strong foundations. I am afraid the result will be the same.

Although they have the power of heaven and earth, they are only the first step in this situation. They face the full force of the four heavenly powers, and there are three heavenly horizons, and there are nine colors of flames. Against the heavens aid...

Even if they are, they will die!

These thoughts flashed through the mind, and the Nether Giant Turtle and the Wild Nightingale finally formally regarded Ye Xuan as the same level of existence as himself. The heart is even more emotional.

After all, as far as they know, Tiandao's baby corpse first encountered Ye Xuan. He is also extremely weak, and he is not even an ant.

In a short period of time, it has grown to such a level. The hardships and dangers of this are now imagined, naturally, people feel uncomfortable.

However, from a certain point of view, Ye Xuan can actually be regarded as their disciple and descendant. After all, the virtual giant tortoise and the ancient yin of the ancient yin yin yin yin bow, Ye Xuan has mastered, and extremely Deep and deep...

It is a blessing to have such a descendant who is enchanting and arrogant.

Think of it this way, the light in the eyes of the two old guys suddenly softened a lot. If they used to treat Ye Xuan as the same level of their own camp because of the Tiandao baby corpse, then now, it is really recognized. Ye Xuan...

"Two, waited for a long time..."

At the end of the day, after Ye Xuan ended everything, he stepped out of the air in the distance. He had already removed the violent form with the secret method of blood and law, and changed it again to become his original appearance, while the empty giant tortoise and the ancient nightshade were huge. Especially the former.

In comparison, the humanoid-style Ye Xuan and him stand together, just like a dusty dust corresponding to a giant star, plus the repairing atmosphere in his body all converge, cold and unsettled, but not really Can be found. but

The Void Giant Turtle and the Wild Nightshade clearly have no contempt for the slightest, and responded to the first time, pointing to the face of Ye Xuan...

"I originally only wanted two Tiandao Baodan. I didn't expect you to have such a terrible big deal. Once refining, Tiandao Baodan actually released fifty-five..."

As Ye Xuan stepped forward, the voice of the virtual giant tortoise also sounded. Compared with the previous one, there was a lot of closeness: "So, this time you may have to be mentally prepared, and the two of us will ask you for the heavens." Bao Dan, I am afraid it will not be a small number..."

"Yes, under the corpse of the baby, like me, I am in desperate need of this thing, there are many, such as the golden dragon that you are familiar with..."

Ye Xuan's consciousness is even somewhat flattered. This time, the voice of the emptiness of the giant tortoise has just fallen, and it has always been cold, and the ancient Yasha, which has never had an exchange with Ye Xuan, actually sent him a voice of God. .

And the tone is surprisingly good.

However, after Ye Xuan suddenly stunned, the look on his face was immediately pulled down. If the wilderness of the night was mentioned by the golden dragon, he would be categorically rejected on the spot.

Can these two old guys remind him that there is a better amount of mental preparation before opening, can it be a small amount?

This is the 30th-level Tiandao Baodan. The Dancai in the hands of Ye Xuan has been preparing for so long. Now it is only the first time to refine it. Although it is a one-time release of fifty-five pieces, it is a huge surprise, but in Ye Xuan. It seems that if there is no accident, this kind of heavenly treasure, he will basically not refine.

At least five lines of drug introduction is a big problem. Even if there are four velvets in his hand, the Tiandan of the virtual giant turtle is not a problem. But what about the other three elements of gold, water and fire?

Where to find it? he

Originally thought that this time, 55 pieces of 30-level Tiandao Baodan were released, and it should be enough in the hands, but now it seems that Baodan has not been hot yet, and it has already been

remembered. However, if this time, I nod my head to promise, then it is clearly the rhythm of the loss! brain

In the flashing of these thoughts, the look of Ye Xuan's face suddenly became more vigilant. Just like the landlord who used the money to pay for the door to borrow money, the upper and lower giant turtles and the ridiculous night forks looked up and down a few times.

This is only careful. The temptation generally asks: "How much do you want? First, let's say good, and think about the lion's mouth open, otherwise the house will turn around and go..."

He said so, it is clear that there is a discussion of the meaning, the empty giant turtle and the wild night fork turned to the first exchange of a look, then grinned and laughed...

Chapter 5086: Tiandan

Although I realized that this time may be a heavy loss, but looking at the headless baby body, the rather helpless Ye Xuan quickly made a decision. Look

A look at the two old guys opposite, he carefully asked the temptation to ask: "How much do you want? First, say good, and think about the lion opening his mouth, or the house will turn around and go..."

Listening to him, it is clear that there is a discussion of the meaning, the virtual giant turtle and the wild night fork turned to exchange a look, then grinned and laughed...

For a moment, the voices of the two old guys' voices...

"In fact, there are not many, at least compared with the fifty-five Tiandao Baodan in your hands, it is definitely not too much... Hey, let's just say, we need twenty!"

"Yes, including us, now that there is a need for a Tiandao Baodan, there are thirteen, and the remaining seven are spare. After all, there are several old buddies who are still in a little bit in order to fully recover.""

Twenty? This is impossible..."

Listening to this, Ye Xuan's shock on the spot jumped in the void and directly refused.

Just kidding, he has only fifty-five thirty-level Tiandao Baodan in his hands. The number of twenty is almost four, which is more than one-third. Is this a huge loss?

It's just a robbery, it's far beyond the psychological expectations of Ye Xuan...

"At most ten!"

After jumping a few feet, Ye Xuan did not wait for the empty giant tortoise and the ridiculous night fork to speak again. When even the bottom line was said, the face was serious, and there seemed to be no possibility of half-consultation: "No more one will work. I agree to give it to you, don't agree with the house and turn around..."

"You guy, too stingy, twenty treasures, it is equivalent to all one third of your hands..."

The empty giant tortoise was obviously dissatisfied and snorted and said: "Moreover, look at the materials you used before. The **** blood is only over forty. The number of Tiandao Baodan is fifty, which exceeds this number.""

It can be seen that basically a wild blood essence can refine a Tiandao Baodan. In this case, if you need it again in the future, you will not be able to open the furnace once again. Anyway, you have the nine-color flame. The conditions are not missing..."

This is really good and tempting. Even Ye Xuan's second refining process has helped him think about it. No wonder it will be twenty mouths. This is the hen that makes Ye Xuan a lucky egg. Looking at it..."

It's lighter..."

In the Xuanyuan, a faint flash of light, immediately turned a blind eye, bluntly said: "Even if the temple can refine the second furnace, but the material?"

Do not mention the blood of the desert, after all, it is not too difficult to get some hard work, but you can not forget the five elements of medicine..."

The deer stick has just been smashed, and you must have seen it. The temple really harvested four velvets from him, but this is only the source of the wood in the five elements of medicine. The rest of the other four kinds of medicines Still not falling..."

This kind of thing can be difficult to find, at least there is no clue at present in this temple. Although you must have Tiandan here, it is the origin of the earth, but the old guy who had previously received fire, water and gold medicine has already been used by the temple. Killed, where can I find it? ""

call out! "

"Hey..."

His words just fell, the hollow giant tortoise did not hesitate, and with the faint sound of breaking the air, his body instantly had four yellow glare shots...

Mang spurt out, bringing out a sharp and unpredictable sound of breaking, and the blink of an eye in the emptiness in front of Ye Xuan is abruptly stopped. It is exactly four skull-sized crystals, khaki, exuding incomparably thick and solid. Breath. This

It is the origin of the soil that Ye Xuan needs, that is, the Tiandan in the body of the empty giant tortoise. I have previously given Ye Xuan one. Now I have not waited for Ye Xuan to ask for it. The virtual giant tortoise has sent four more out. .

It can be seen that there are many such things in the body of the Void Giant Turtle, even if there are not many, but in addition to these four, there must be others.

Of course, this thing is equally important to him. After all, it is a kind of accumulation of energy in the body that contains a hint of the law of Hongmeng.

On the one hand, this kind of Tiandan virtual giant tortoise is obviously more than one body. On the other hand, compared with 20 pieces of old folks who can help him and the ancient yak, and the golden dragon, they will break through in a short time. The 30-level Tiandao Baodan who entered the real heaven and earth, this old guy does not need to consider at all, and made a decision in an instant...

And one shot is four! see

He is so generous, and Ye Xuan stunned a bit. He felt that it was not very interesting. After all, this thing is obviously as important to the virtual giant tortoise. After all, it is a kind of accumulation of energy in the body containing the power of the law of Hongmeng. and

He is now about to hit the heavens. He has given a Tiandan before, and now he has given four. So, the breakthrough that he is about to launch will definitely have some influence..."

You have the same source of this earth..." See

Ye Xuan looked at the four Tiandan hairpins hanging in front of him. The voice of the empty giant turtle soon resounded: "As for the other three water guides, fire guides and gold guides, the three beasts are You smashed, but it is not impossible to find a similar treasure..."

"The so-called five-line medicine guide only needs five kinds of innate medicines that conform to the five elements of the property..."

There are many congenital beasts in this emptiness, and there are also the existence of congenital treasures in the body. Of course, the attributes are different. It is necessary to find out the other three intrinsic resources of the body as water, fire and The existence of gold is really not easy..."

"But it is not completely impossible. At least, the innate beasts with fire and gold origins in the body, I know two, although they are all existential in the heavens, but they are only the beginning of the heavens, for you. Not too difficult..."

"Hey..." said

Here, the void giant turtle once again rushed out of a mans, rushing toward Ye Xuan.

This time, the nature sent out will no longer be Tiandan. To be precise, this is a light information group with detailed information about the two heavenly beasts, including its repairs. For, including where the strong forbidden place where it is located is located, and so on. can

It is said that the information in this awning group has been mastered, and the source of fire and gold is basically calculated. The so-called five elements of origin are only the source of water...

The empty giant tortoise has paid so much, it can be said that it provides great convenience to Ye Xuan. So, if the twenty 30-level Tiandao Baodan that people ask for is not given, Ye Xuan is really embarrassed.

.

The thoughts flashed through his mind. He rolled his eyes and put away the four Tiandan and one tent information light hanging in front of him. Then he waved his hand and there were twenty millimeters in an instant, facing the opposite side of the void. The hollow giant turtle is rushing away...

"call out!"

Oh..."

When the sharp sound broke, Ye Xuan rolled his eyes and folded the four Tiandan and one tent information light hanging in front of him. Then he waved his hand and there were twenty millimeters in a moment, facing the opposite side. The hollow giant turtle in the void spurt away...

The empty giant tortoise has paid so much, it can be said that it provides great convenience to Ye Xuan. So, if the twenty 30-level Tiandao Baodan that people ask for is not given, Ye Xuan is really embarrassed.
. whole

The whole twenty 30-level Tiandao Baodan, so waved out and sent out, to say no pain, it must be fake, but this is the end of the matter, I really have to hold it again, it is not enough to say it!

"This is almost the same..."

Seeing the catastrophe of twenty Tiandao Baodan, the Void Giant Turtle immediately raised the claws and received it straight. Following

And then he said, "Yes, you may not know that the end of the flood has come. The vast world that has just been merged by countless fragments and voids, such as today's law, has collapsed and was swallowed up by the endless stream of emptiness. ""

"And the endless creatures in the vast world of the wild have been brought into the void by the sorrowful heavens and blues. Not long ago, they just settled in a star field on the left bank of the left bank of the Milky Way..."

"The star field, now the owner, has been called the floodland. The strongest person who sits in the middle of it is the green eye of the wilderness. In addition, there are more than ten heavenly lords who have fallen down..." "

In this Hongmen era, the vast world has become the last big world to collapse. Therefore, the new Hongmeng era will be opened, and before the new era is fully opened, the Galaxy Star will be conditionally opened first. Eligible parties, regardless of the big world, can enter it and compete for the next era of glory..."

Inside the Milky Way, the guy and the baby corpse have gone in, but then the conditions of the Galaxy Star have opened, and no one knows what the conditions are..."

"At that time, if you meet the conditions, you should enter into it and compete for the next era of glory, this matter will be of great help to you... I will know it in the future!"

"To do this, I and Yaksha will leave, and a group of old folks are still waiting in a hidden void. In the future, we will completely retreat, impact the heavens, and you will stay here alone... Be careful!"

"Booming..."

Oh..."

Speaking of this, the empty giant tortoise no longer speaks, the right front paw is waved, the thunderous roar sounds, the void is torn open with a huge crack, but it is also quickly repaired under the influence of the powerful Hongmeng void law. Bridging it. "

Oh..." No

There is hesitation, and this emptiness crack has not yet completely closed, and the hollow giant tortoise and the savage ancient cherries have swayed in a moment, and they broke into it in an instant. The huge figure is gone... disappeared! short

In a short period of time, this void crack completely repaired and healed, and no longer sees a little bit of clue. Even with Ye Xuan's current cultivation and strength, he can no longer pursue the whereabouts of the empty giant tortoise and the ancient nightshade. he

I didn't plan to do that. The people went to send Baodan, and a group of old folks who had been under the headless baby corpse in the early days of the floods retreat and shocked the heavens. although

I said that I may not see you again in a short time, but this is a good thing. I should not bother to interrupt. In the future, they will make a successful breakthrough. After entering the heavens and customs, they will see you again...

"The world of the wilderness is actually swallowed up by the endless stream of emptiness..."

At the time, Ye Xuan was digesting the news that the giant turtle had leaked to him before he left, and his face was shocked. although

He said that he would have arrived sooner or later, but he never thought that it was so rapid. It can almost be said that his forefoot had just left the side, and the sorrowful eyes of the heavens and the sorrows came with all the creatures in the great world... ...

However, for this so-called floodland, Ye Xuan did not intend to pay attention to it. After all, it is located on the left bank of the Galaxy, and Ye Xuan's magic hall is on the right bank of the Milky Way. The two are separated by a vast expanse of the Milky Way, in a short time. There will be no intersection. Correct

For him, the next step is to get the source of the fire and the source of the gold. Then, if the conditions of the Galaxy are turned on after ten thousand days, I am afraid it will be hard to find the two old ones mentioned in the information of the giant turtle. Guy... no

However, before proceeding to the stagnation of the two old guys, Ye Xuan still has one thing to do.

That is to break through again. first

In the previous series of battles, the income of his last breakthrough has already been absorbed, and it has been integrated into the spirit of the soul and the body of the body. Together with the success of Tiandao Baodan, Ye Xuan has unloaded a heavy burden and his mind has been sublimated. It is the best time to break through.

As soon as he read this, he turned to the giant abandoned star that had previously refining Tiandao Baodan.

Without hesitation, the body shape directly turned into a mans, rushed into the interior of the star, waved to sacrifice Shennong Ding, and then stepped into the treasures of the colorful fog.

After sitting down on the knee, Ye Xuan waved, and in a moment there was a lot of faint sounds of broken air. In the line of sight, a mile of glare came out of his body and hung in front of him...

All of them are the cultivation resources that he took out from the immortal world and used to carry out this breakthrough. There are all kinds of evil sources, as well as the colorful magical medicines, and so on. all

They are all top-level cultivation resources, and all of them exude a rich and powerful energy! very

Quickly, after a little calm down, he took a deep breath and spurred Shennong Ding's domain power, compressing all the cultivation resources to the size of only the baby.

Then all the bones and brains swallowed into the abdomen and quickly turned away..."

Hey! ""

Rumble..."

Cut the light road, the resources swallowed by him instantly turned into the body, and then, in the body of Ye Xuan, the sound of the chain rang. One

The formation of the mighty energy of the mighty river was accompanied by the thunder and screaming. This is the most crucial moment. Ye Xuan did not dare to distract and sighed, and immediately started a big Sunday operation, which continued until endless. Refining...

I don't know how long it took, when the hanging energy of the river disappeared in Ye Xuan's body meridians, completely integrated into his spirit and body, a thick and sturdy chain of shackles appeared in him, as long as it was torn, this A retreat can be completed immediately, and it will be successfully broken again!

Thinking of this, Ye Xuan immediately swayed, just a force to launch an impact, this chain of chains has been broken...

The next moment, and the expected system sound, also sounded in my mind..."

Hey, congratulations to the host, the breakthrough of the ancient realm of the hole! The current realm: the ancient sixth of the ancients! "

"Hey, congratulations to the host, breakthrough in the realm of flesh and blood! The current realm: the sixth step of the ancient sage!"

At this moment, he suddenly opened his eyes, and the bottom of the glint flashed a touch of joy, the sixth step of the ridiculous...

Chapter 5087: Legend of God killing God

After a retreat, the sixth step of the desolation... a smooth breakthrough!

Previously, Ye Xuan's own cultivation was the fifth stage of the absurdity. In this piece of Hongmeng, which is not suppressed by the heavens, if he activates the **** magical power of the konjac in his body, he will soon enter the sixth-order ruin. and

If the **** magical power of the konjac is changed to the ninth change, on the basis of the sixth-order ridiculousness, it will once again promote a big realm, that is, the sixth stage of the heavenly state. This is the peak force before Ye Xuan retreats.

But now, although he has only broken through a small order, it is extremely important and amazing for the impact of the increase in combat power. Such as

Today, he is already a sixth step in the past. One

Once activated, the **** magical power of the konjac will change to a seventh stage of the ridiculous, and in the ninth state of change, Ye Xuan's current peak strength will reach the seventh stage of the heavenly state!

Although the seventh and sixth orders are only a small order difference, the sixth order is the mid-term peak, and the seventh order is already in the early stage. Just this point is enough to illustrate the gap between the two...

It can be said that today's Ye Xuan, in the ninth state of change, the seventh-order peak of the heavenly state, compared with the previous six-stage heaven and earth, is definitely much stronger!

After all, even if there is a long history of the eternal days, it is only the eighth order of heaven and earth. From this point of view, now Ye Xuan, who has reached the seventh stage of the heavens, is still not alone. Its opponent.

However, if the three major bloods and seas are all condensed together, and the battle against the floods of the Tiandao Qingdao, basically no loss will be eaten.

But of course, if you want to take advantage of what is cheap, it is basically impossible, because the repair of the eighth-order of the heavens in the sky is already solid and stable, and it is very solid. It is far from the heavens of the great perfection. It is not far away.

Although Ye Xuan still has Shennongyanhai in his hand, there are also Shennong Baoding, as well as Qiang Tiangong and other powerful supernatural powers.

However, there are also furnaces in the green eyes of the wild, and he must have the supreme power that can be compared with the bow of the sky...

From this point of view, if it is a positive battle, Ye Xuan actually has to be in a weak position, because Ye Xuan's means and the bottom of the road are basically known, and will be targeted. but

In the wilderness of the wilderness, Ye Xuan knows nothing but the temple, but the other is too mysterious, and the old man is very slippery, and it is easy to not reveal the means. After all, it is the existence of endless years. Only by this point, the city is deeper than Ye Xuan, and it can even be said that it was originally intended...

These circumstances to analyze, now Ye Xuan, even if the peak power has already entered the late stage, reached the seventh level of heaven and earth, and he can also condense the three blood sea avatars with the same combat power, but if not necessary If you want to do it now, it's best not to face up to the front of the blue sky.

Even if this battle can't be avoided after all, it should be more beneficial to itself when Ye Xuan is more powerful in the future. when

However, now Ye Xuan is not interested in the front of the Qing Dynasty, and even in a short period of time did not want to provoke it in the past, after all, although this retreat ended, successfully broke through, but he also has gold The source and the source of the fire are going to be hunt. Got

After the arrival of these two sources of medicine, there is a source of water left in the end, and I will slowly look for it later, and the pressure can be smaller...

These thoughts flashed through the brain, and Ye Xuan had a decision in an instant. He grew up and walked out from the Shennong Dingkou, where the colorful mist was shining. "

This time, I have used it for a whole month. It seems... can't be delayed anymore. "

After counting the time, he suddenly smiled and whispered a few words, and immediately waved...

"Hey!"

With a faint sound of broken air, the Shennong Ding, which stood inside the stars, instantly became a mile, and disappeared into Ye Xuan's body.

Later, he stepped out of this giant star and did not turn back to return to the right bank of the Milky Way, but continued to march in front of this dark zone. again

A few days after going forward, it was the black crow that Ye Xuan had visited before. This

The black crow is located at the forefront of the right bank of the left bank of the Milky Way. From the dark end at the end of the right bank of the Milky Way to the left bank of the Milky Way, the first thing that passes is the black crow.

The strongest person in the black crow's forbidden place is a red-black crow, but has been killed by Ye Xuan, and he has obtained the source of fire from his body, which is the crystal of the red-black crow.

However, at that time, considering that the red-skinned black crow was a strong man of heaven, once the war was fought here, it was very likely to cause the attention of other strong forbidden and fortified stars in the right side of the left bank of the Milky Way and the black crow.

At that time, it will be troublesome to attract a few or even more than 10 sacred beasts or survivors.
Place

In the suggestion of the deer, Ye Xuan entered the black crow with him, and after entering the black crow forbidden, the deer wanderer attracted the gaze of the red crow, making it take the initiative to emerge and then converge. The breath, the swaying in the dark Ye Xuanxing Thunder, successfully killed the red-black crow. With

Afterwards, Ye Xuan left the black crows forbidden with the deer sticks after the **** fog and fire caused by the red-breasted black crows. Of course

However, after they left, something else happened.

Although there are only one red-black crow in the forbidden area of the black crow, there is still a heavenly level, but there are still more than a dozen heads under the heavens. This

A dozen or so vulgar monsters have recognized the deer, knowing that although he is a ferocious beast, he is as good at the remedy as the survivors, even knowing that he has been trying to refine the impact on the heavens. Helping the heavenly treasures.

And this time he took a powerful sixth-order heavenly kingdom and the survivors suddenly came. The purpose was to hunt the red-black crow and seize the innate treasure of the body.

This makes the black ravages of the black crows suspicion that the deer and the mysterious Tiandao remnant will be refining the heavenly medicine, so after Ye Xuan and the deer are gone, the dozens The head of the ridiculous old blame no longer speaks, screaming and screaming, and under the sway of the body, they have turned into a masculine rush...

They rushed out of the black crow forbidden, and went to the deep area on the left bank of the Milky Way. The purpose was to collude the deer and the remnant, and let the news of the Taobao drug go out.

In this way, they can take the opportunity to mix the water and try to seize the heavenly medicine.

This is a long time ago. In fact, after Ye Xuan separated from the Void Giant Turtle and the Wild Nightshade, it was only this retreat that it took a month. This

In the past month, in addition to the red-striped black crows, even the four angels of the heavenly and evil spirits, such as the arrow carvings from the magical forbidden land, have been killed in the hands of the mysterious heavenly and powerful people. They have all been passed on the left bank of the Galaxy. open. most

Nearly, the entire left bank is talking about this matter. In their mouths, Ye Xuan, the mysterious survivor of the remnant, is like a legend, and is called - Heaven kills God! One

In the past month, the news of the red-black crows and the four heavenly savage beasts in the hands of the mysterious heavenly and powerful benevolent people gradually spread on the left bank of the entire Galaxy...

Today, the entire left bank is talking about this matter, Ye Xuan, the mysterious mysterious survivor of the name, is like a legend, known as the **** of heaven, it can be described as fierce! It

Therefore, it is called the heavenly killing of God, because this person has been born on the left bank, and the two shots were killed. All of them are the existence of heaven and earth. on

As if the heavens are strong, they are actually for his prey. except

In addition, the collusion between him and the right bank deer, and the ultimate purpose, have already spread, this is the hand of the dozens of ridiculous blame in the black crow. that

The mysterious Tiandao survivors can even kill the red-skinned black crows and even the arrow-headed demon carvings. They are only the strengths of the ruins of the ruins, obviously not far from the opponents, and they are just like ants in front of others. but

However, this person has a heavenly medicine that can't resist the temptation of their hands. They must try their best and get it in their hands. Otherwise, they will have no hope...

So, the only way is to mix the water, and then wait for the opportunity to share points.

In order to achieve this goal, the dozens of ridiculous eccentrics of the black crow banned the land to spare no effort, and finally spread the news completely. and

This matter has indeed caused a lot of attention from the veteran and the heavenly and powerful. shortage

It's not necessary to say more about the old blame. It's just when you need the heavenly medicine, it's about whether you can successfully enter the heavens and can't resist the temptation. to

In the strongest people who live in the strong forbidden land, they no longer need Tiandaobao medicine, because they have already entered this realm. but

The generals in their respective forbidden places are in great need of this.

At the moment when the end of the world is coming, the conditions for the opening of the conditions of the Milky Way are getting closer and closer. Everyone hopes that there will be more heavens in the ranks of the ridiculous generals, so that the strength can be stronger and the foundation will be richer. . And

This matter is only spread between the forbidden beasts on the left bank of the Milky Way. The remains of the left bank are not known. After all, the survivors and the beasts have always been deadly enemies, and they have not come to this place. The important message is that the top officials of the forbidden areas will also be strict.

In order to avoid hunting the mysterious remnant of the benevolent at that time, there will be other heavenly people in the star field to come to save...

The spread of interest spread, the left bank of the left bank of the Galaxy fell, too far away, there is no movement for the time being, and in the right section of the strong forbidden land, a large number of ridiculous old monsters and heavenly strongmen suddenly flocked, all toward the left bank right The devil's wolf rushed to the ground... this

There are also reasons why some of the left-wing, right-handed, old-fashioned and eccentrics have gathered in the devil's forbidden place.

The deer wanderer refining the heavenly treasures requires the guidance of the five elements of medicine. The reason why he took the mysterious survivor to the black crow forbidden, and the red-black crows to kill, is also the reason.

Among the five elements of medicine, the deer's velvet is the origin of the wood, and the celestial black crow's celestial crystal that was hunted is the origin of the fire. These two kinds of five medicines must have already arrived.

In the rest, there are only three kinds of innate treasures of gold, water and soil. Among them, among the congenital beasts in the right bank of the left bank of the Galaxy, only the black inside the forbidden land The demon wolf, the demon wolf in the body, belongs to the gold source...

This point, the deer is also known, since he has brought the mysterious survivor to the right section of the left bank of the Galaxy, then it will never let go of the black-spotted wolf.

It must be hunted and captured, and the devil wolf eyes that can be used as the source of gold in the body...when

However, this is also because they do not know that Ye Xuan and the deer are already on the right bank of the Galaxy before they come to the left bank of the Galaxy. They have already visited the right bank of the Galaxy, not to mention the origin of the gold, and even the source of the water has been used.

Otherwise, these old guys will not gather in the magic wolf forbidden.

But the mistakes are wrong. In fact, they waited for the magic wolf to ban the land, but it was really right. because

At this moment, Ye Xuan really came to the devil's forbidden land.

The previous Void Giant Turtle provided him with detailed information on the innate beasts of the two five-line attributes. The two congenital beasts have gold source and fire source respectively, and the existence of the gold source is the black monster. Wolf...

Therefore, the inferred source of the old guys in the various forcible forbidden areas on the left bank of the left bank of the Galaxy was wrong, but the result was beaten. As long as they waited here, they would surely see Ye Xuan coming. when

Of course, they can't see the deer, they have been killed by Ye Xuan!

At this moment, all the forbidden beasts in the forbidden land of the demon wolf have already crouched into the cave cave house located in the abandoned star. and

In the emptiness of the forbidden land, there is a powerful force of ignorance in the circle. There are both ridiculous and eccentric, and there are many powerful people, and the number is quite large...

These existed physiques did not appear, but the power of the gods was in communication, and there must be more than a dozen ridiculous blame from the black crow. This

The water on the side is not only mixed, but the right-hand side of the left bank has at least nearly 10% of the strongest forbidden land to sit on the strongest of the town, gathered here, intends to ambush the deer and the mysterious heavenly powerhouse. This

In this case, they can't come.

In fact, the ridiculous blame of the dozens of black crows banned the land and the heavenly tyrants who have come here have already indicated their identity, and said that the news is that they released them. I hope that if I get the Tiandao Baodan, how much can I get a cup? soup. This

The request was not excessive, and it was not clear how much it was. this

When they crouched in the dark, they looked forward to the moment of coming..."

You can't do this anymore. The mysterious survivor can come at any time. If you find that the magical wolf is in the void, there are so many absurd and heavenly atmospheres in the sky, I am afraid that I will turn around immediately."

"Yes, except for the forbidden beasts of the devil's forbidden land, all other outsiders must hide in the parallel void, and then come to the place after the fish enter the net."

"But the black wolf in the forbidden place of the magic wolf can't leave, the Taoist friend, the mysterious survivor who can refine the heavenly medicine is coming for you. If you are not here, this is probably difficult..." "

Daoyou rest assured, I just sneaked into the parallel void, and I can come back again at any time. For the sake of heaven and earth, I don't know friends... Would you like to bait? "

With the sound of these gods, the powerful gods hovering in the void of the magic wolf banned the land, and immediately merged with an abandoned star to the left of the center of the forbidden land. that

In it, it is the place where the cave of the cave of the black-spotted wolf is located.

Chapter 5088: Maybe Issei

After a short silence, a low voice of God's voice came out from this abandoned star: "It's okay to make a bait, but after the event... the deity must be more than a heavenly treasure!"

Between the moments, a powerful **** circling in the void of the magic wolf banned the land, and immediately gathered away from an abandoned star to the left of the center of the forbidden land, this is the cave of the black-spotted wolf. The place where the nest is located. short

After the temporary silence, a low voice of God's voice came out from this abandoned star: "It is okay to do bait, but after the event, the deity... must be more than a heavenly medicine!"

As soon as this discourse was exported, the emptiness of the sky suddenly became a masterpiece, and a circle of gods hovering in the starry field immediately made a sound, revealing the meaning of dissatisfaction...

"More than one percent? Black tattoo wolf, you dare to open this mouth..."

Do you know how many heavenly strong people are there? In addition to this, there are also the absurdities from the major forbidden places, all of which will be contributed in the follow-up battle. The mysterious survivor is the sixth stage of the heavens..."

"Yes, it's already a lot of porridge, but you have to score more than one, which is absolutely impossible..."

Even if you consider that your magic wolf is forbidden as a place of war, there must be damage, but considering this, plus your risk of being a bait... at the most, you will be more than half! ""

Half-successful and half-successful, but the deity must first take half of the treasure medicine, and then the remaining 95%, and then share with the merits of the big battles..."

"This request is ok, although it will still make you a little cheaper, but it is not big... it is acceptable!"

So it was settled. The warfare harvested in this battle was made by the representatives of the black-streaked wolf and the sorcerer of the sorcerer's squad, and the sneak sneak sneaked for the first time. ""

Seconded! "

"Seconded..... ""

Rumble..."

Oh..."

Here, the ruins of the demon and the heavenly powers of the demon in the forbidden land of the demon wolf have just reached an agreement, and the edge of the magic wolf banned the land, a sudden roar of noise. tight

Then there was a crisp and unremarkable crack, and a huge void crack appeared..."

call out! "tip

The sharp sound of the air broke out, and a blue figure rushed out from it. The oval shape is like a huge star. It is a singularity of the sky...

This time, Tiandao Qingyan is also for the deer and the mysterious survivor.

Its flood ban is located in the middle of the left bank, but it has also received some news. In order to make some of the savage generals have some strong heavens, it rushed in the first time...

However, considering that the flood control land has just arrived, there may be foreign enemies invading, so this time it is only coming alone, not only the strong people who are under the shackles are left in the floodplain, even the furnaces are not brought.

In the eyes of Tiandao Qingyan, a sixth-order heavenly remnant is only enough for him to arrive.

At this time, as he descended, the powerful atmosphere of the eight-order heaven and earth in the body spread, and the entire huge demon wolf was quiet in the forbidden land. very

As for the power of the gods of the ridiculous old monsters and the heavenly powers who were originally hovering in the forbidden land, they immediately condensed.

Although Tiandao Qingyan is an eighth-order heaven, it is actually far from the ninth-order grand perfection of heaven and earth. It is extremely powerful.

At this time, although there are many strong people in the forbidden territory of the magic wolf, the strongest existence is only the sixth stage of the heavenly state, and there is only one. and also

For this reason, in order to ensure that the mysterious survivors who are also the sixth-order repairs of the heavens are left here, they will need to join forces. no

Then, if there are three or four seventh-order, eight-order heavens in the late stage of the heavens, then there is nothing else in the matter...

"I am a wilderness, my name... blue eyes!"

At this moment, with the arrival of the flood, the Tianyan Qingdao self-reported the door for the first time: "I am from the middle of the left bank... the floodland!"

"The words of the Taoist friends have been fully understood, but there are other suggestions..."

Here, the bright green eyes of Tiandao Qingyan flashed, and looked around for a circle, and then he took it: "I have to shoot, can ensure that the prey is left, so I must first split into battles. Lee..."

And the remaining 90%, I have to participate in the warfare with the proportion of warfare! "

In fact, he is already a very face-to-face. After all, it is the strongest person in this place. It is only a matter of profit. It is not necessary to be so polite. It is a big deal to expel other vulgar old monsters and weaker heavenly powers. but

Today is different today, here is no longer his wild world, the floodland is forbidden, it is inconvenient to plant too many enemies, he has to eat large pieces of meat, and he has to eat some soup for others...

It is for this reason that today's Tiandao Qingyan will be so polite, and it is completely inconsistent with Ye Xuan's impression of its style. This

As soon as the words were spoken, the magical power of the magic wolf banned in the sky, and the power of the gods immediately began to communicate, and soon there will be results...

"Qingdao Daoyou is the eighth-order Tiandao. It is not far from the ninth-order of this environment. It is here to sit in the town. It can indeed ensure that the target is left behind and avoid the possibility of accident..."

It is only because of this that the Taoist friends are half-profited, but it is not excessive. At least the interests of me have a certain guarantee..."

So it was settled. The warfare harvested in this battle was made by the representatives of the black-streaked wolf gangsters as the devil's forbidden place in the battlefield. The young-eyed friends from the ruined land were first and foremost. 90% of the time, I will wait for the war to share..."

"Seconded!"

"Seconded....."

"Booming..."

Oh..."

After cutting and finalizing, the powerful gods circling in the void of the forbidden land star field will continue to express their opinions in an instant, and there will be no more words in the green eyes. its

Just like the giant star in the huge vertical eye, it suddenly shot a fierce green awning, tearing a huge hollow crack in front of it, and then swaying into it.

This huge black crack will soon be repaired under the influence of the powerful law of Hongmeng. After all, it is the powerful existence of the eighth order of the heavenly state, leaving no trace at all.

I am afraid that Ye Xuan is here, deliberately exploring, and I absolutely can't think of it. Not long ago, the green eyes of the Hongtian Heavenly Road entered an unknown parallel void from here, and were quietly crouching there. very

Fast, with the temporary departure of the green eyes of the torrents, the powerful gods that had been hovering in the void of the forbidden land were also shot in succession. All of them were hidden in an unknown parallel void, in a short period of time, the big devil wolf. It was quiet inside the forbidden place.

"Roar.....""

Don't squash in their own Dongfu stars. What is it like on weekdays, so quiet, isn't it obvious to tell the other side that there is an ambush? "

It was also at this time that in the previous abandoned star, the voice of the black-spotted wolf was also heard: "All the guards are given some care. If anyone reveals the horse's feet, the prey is detected, and the U-turn escapes. The deity must have smashed his skin..."

Roar....."

Although a large number of ridiculous old monsters and strong heavenly powers have emerged from one place on both sides of the Milky Way, and a large number of ridiculous old monsters and heavenly strongmen have disappeared, the virtual giant tortoise disappeared and no longer appeared here. but

He apparently only turned to the dark, and did not leave, so he still knows a lot about the forbidden land and the stagnation of the beasts on both sides of the Galaxy. Do not

Dare to say that every beast is forbidden and the land of the benevolent, but at least master the general situation of some of them.

For example, he provided Ye Xuan with the strong forbidden land in which the two beasts with gold origin and fire originated in the body. Virtual

Among the information provided by the empty giant tortoise, there are not only the details of the two beasts, but also the strong forbidden land they are sitting in. The general situation is also briefly described...

Among the two supreme forbidden places, Ye Xuan went from the dark end of the right bank of the retreat to the right side of the right bank of the left bank. The first thing he encountered was the devil's forbidden land. Therefore, he chose this as the first. A goal. eye

He had already concealed his figure, concealed his breath, and sneaked into the void in the air, rushing to the devil's womb...

The strongest person in the forbidden place of the magic wolf is a black-spotted demon wolf, also a kind of congenital beast. Like the demon-like wolf, after entering the desert, the body can grow slowly. The innate treasure medicine, in the heart of its head, is called the same.

The black-spotted wolf is a metallic innate beast. Therefore, the Tianmu, which grows in his head, can be used as the golden source of the five-line medicine. This

The cultivation of the head black-spotted wolf is not weak, but it is the third-order of heaven and earth. It is only one step away and can enter the middle of this situation. but

For Ye Xuan, he is not a one-of-a-kind. If it is a positive war, it may take a certain amount of time for Ye Xuan to kill him. There must be no weak people in the heavens. Everyone has a special way of life. can

If you sneak into the dark, suddenly unexpectedly shot, the black-spotted wolf in this third-order situation must be degraded on the spot, no luck.

After all, today's Ye Xuan's self-cultivation has reached the sixth stage of the abandonment. After the activation of the konjac's **** magical powers, he will be able to possess the late stage of the 7th-order. One

Once this **** magical power is applied to the ninth change, Ye Xuan's real combat power will once again skyrocket a big realm, that is, the seventh stage of the heavenly state. This

However, the cultivation of the late Tiandao is the strength, and the black-spotted wolf is only the beginning of the heavenly state. Under the secret sneak attack, he is obviously dead. This

It is also the intention of Ye Xuan's heart. He is not prepared to go to the door with great thorns. Instead, he is prepared to hide his body shape and hide his breath as he used to ban the land in the black crow. Quietly touched in...

Although the deer's goods are bad, but at this point, his suggestion is correct. The left bank of the Galaxy is no better than the right bank of the Milky Way, and the red-black crow in the black crow's forbidden land has been killed. very

As for the powerful beasts of the four heavenly kingdoms, such as the arrow carvings and the magic carvings that came from the forbidden land, they all fell into the hands of Ye Xuan. These things could not be stopped and must have been leaked.

So, Ye Xuan naturally can't be vigilant...

In addition to the third-order black-spotted demon wolf in the first day of the heavens, there is another powerful beast in the forbidden land of the magic wolf. It is a blood crocodile, but only the second stage of the heavens. If Ye Xuan shoots, He can't escape death.

However, this time went to the magic wolf forbidden, Ye Xuan did not intend to shoot this blood crocodile. black

Although the demon wolf and the blood crocodile are the same as the magical wolf forbidden, but the two people's Dongfu stars can't be together. Once Ye Xuan shot and killed the black-spotted wolf, the blood crocodile must be shocked. Such as

Therefore, naturally it is impossible to kill like a black-spotted wolf, and suddenly it is impossible to prevent it from being shot. he

Although it is only a second-order heaven, but in the case of biting his teeth, how much can support a little time, considering that the current news of the red-black crow and the arrow-headed demon carving has spread, Ye Xuan decided not to have more trouble, so as not to Leading to unnecessary variables. complete

Actually, he was killing this black-striped demon wolf, and after he got the demon wolf eye that can be used as the source of the gold, he had to go to another strong Xing ban to capture the origin of the fire...

In the ridiculous blame, there are many in the forbidden places of the devil wolf, more than 20, but Ye Xuan has now refining the 30th-level Tiandao Baodan, even if it is possible to refine the second furnace in the future, at least not It is a recent event. Place

Therefore, his current demand for the blood of the desert is not urgent, and naturally there is no need to force the shot for this matter...

All of this, on the way to the magic wolf forbidden, Ye Xuan has been in the brain to figure out. ten

After the day, the endless darkness of the sky in front of the sky finally appeared the atmosphere of some starry beasts, and the number is quite large, which means that there is a strong forbidden land in front, according to the information provided by the virtual giant turtle, if there is no accident If this beast is forbidden, it is the destination of his trip, that is, the demon wolf field..."

Oh..."micro

Undetectable sound broke, Ye Xuan did not hesitate, directly crossed the edge of the forbidden land and rushed into the interior of the star. and

All of this, and there is no existence to discover that although today's Ye Xuan is a humanoid form, but the **** magical power of the konjac has been transformed to the ninth change, and the realm has reached the seventh level of heaven and earth. in

Under the support of such a strong cultivation, the secret of his spiritual power of perfection is that he is better than him, and he has reached the eighth stage of the heavens and the heavens, and it is impossible to detect the arrival of Ye Xuan... ...can

It is said that this time, the magic wolf banned the ground and gnawed the teeth to be the black-streaked demon wolf. This time it was destined to steal the chicken and not to erode a handful of rice, and the consequences of the eclipse that he eroded were absolutely unbearable. Because that means giving you a life...

...magic

The wolf is forbidden!

From that day, the blue eyes of the ridiculous heaven and the road came, and then the great forbidden land and the ruins of the forbidden land in the forbidden land of the magic wolf, the agreement between the heavenly and the powerful, has been a whole ten days... Ten

Since the day, the whole magic wolf has been banned from the ground, and there will be some beasts inside and outside the forbidden place. These forbidden beasts are still somewhat unnatural in the first few days, but now they can't see the clue.

Since it is a bait, then naturally it is not possible to converge the breath, so that the mysterious remnant who came to hunt can't find his position. Therefore, in the past ten days, the atmosphere of the black-spotted wolf has not deliberately converged, as long as it is a strong heavenly person. After entering the interior of the star field, it can be sensed in an instant. This

Although some are insured, but for the half-profit, the black-striped wolf is also fighting, of course, and more importantly, he does not think that the survivor of the survivor will be able to kill him instantly! this

At that time, he was in his own Dongfuxing, but he still didn't know. Although everything he was waiting for was coming, but it was coming, it was the final fall...

In fact, Ye Xuan did not find any abnormality. At this time, the demon wolf was obviously normal, but it was this too normal scene and feeling that Ye Xuan realized that it was wrong...

With regard to the existence of four powerful heavenly environments, such as the red-black crow and the arrow-headed vulture, the news of successive degeneration in a short period of time has now spread. In this case, the two heavenly powers in the magical forbidden land are not May not know.

In this case, they should be somewhat vigilant, but in fact they are just the opposite. The magic wolf in front of the forbidden place does not see a sense of vigilance at all. This is obviously not normal.

I have to say that the old guys, such as the black-striped wolf, are so secreted that they only want to hide the traces of ambushes as much as possible, but they are just because of this. Do not

However, although I realized that the situation was somewhat abnormal, Ye Xuan did not care. What about ambush? He has no fear at all.

Moreover, the source of the gold in this black-spotted wolf, that is, the magical sky, he is also determined to win. Come

Already come, how can you retire? band

With this firmness, Ye Xuan directly sneaked into the Dongfu Star of the Black Devil Wolf. He did not deliberately search for and explore, because the Black Devil did not converge on the body, and soon after entering the Forbidden Star, Ye Xuan It was sensed. very

Fast, he entered the interior of the star, and saw the black-spotted wolf in the depths of a large canyon. At this time, his body size was reduced to about a thousand feet, and he was curling up in the canyon, as if it were false.

Ye Xuan's arrival did not perceive him, and this was doomed to his fall today, and there was no chance of even half-escape..."

Oh..."

Everything that happened down there was no suspense. After being lurking in the dark, close to the Grand Canyon, Ye Xuan immediately shot, and the sound of the earth-shattering roar was ringing in the air.

Faced with this level of terrorist power, and has arrived recently, the black-striped wolf can't resist it at all, and it is too late to make any reaction.

"Hey..."

His eyes opened abruptly, just a little open mouth, but then, the horrible screams in the mouth were still unfinished, and a rush of horrible power rushed into him. Infuriating

The power of the storm raged in an instant, and the entire shape of the black-spotted wolf burst open, turning into the blushing red blood of the canopy, which shrouded the sky above the Grand Canyon.

In the **** fog of this awning, there is clearly a black crystal of the size of a human head, which is when the head of the black-spotted wolf bursts out of it...

"call....."

call out!"

Without hesitation, Ye Xuan waved at the first time, and with the sound of a whistling whistling sound, invisible, a majestic force whizzed away, and the black-skinned wolf's huge figure exploded. The blood and blood of the smoldering swept across the body. with

Wrapped in time, it also includes the black gold body of the size of the human head, which is the magic grain of the black-spotted wolf.

At this point, Ye Xuan's five-line medicine guide has been made up of three kinds, namely four-day velvet, four Tiandan, one Tianmu...

And the blood in his hands, with the fall of this black-spotted wolf, has reached six giants!

"Hey..."

Almost in the same moment that Ye Xuan waved the **** mist formed by the black-scarred demon body, the other direction of the demon in the depths of the demon, suddenly sounded a terrifying noise... ..through

With endless anger, there is even more sorrow and fear that cannot be turned away. pass

The existence of this screaming scream is another strong tyrant in this forbidden place, that is, the blood crocodile. he

It is not like the absurd grotesque and the heavenly strongmen from other forbidden places. It is hidden in the parallel void, but is left in the other side of the star field. Place

So, Ye Xuan shot, the moment the body breath, the blood crocodile has been inductive. when

He sensed that this powerful heavenly atmosphere suddenly appeared in the cave of the black-spotted wolf without any indication, and the blood crocodile realized that it was not good.

He didn't hesitate, and the first time he sent out a terrible news, because in the face of this powerful late Tiandao, he didn't have half the resistance. Now he has no heart and soul. The black-striped wolf is falling, he is worried. Is your own safety..."

Roar! "

"Hey..."

"Hey..."

As he summoned, the original quiet and incomparable magic wolf banned the emptiness of the sky, and immediately responded to the general rumors of arrogance and screaming, those ridiculous and ignorant in the parallel void, All of them rushed out, without exception, all in the first time to push the power of the body to the extreme, turning into an invisible pressure, covering this square.

Too many, in the blink of an eye, there are hundreds of ridiculous and ridiculous figures appearing in the distance. At least seven or eight of them have been cultivated in the air to reach the heavens.

And this is far from over, because when Ye Xuan turns around, there are new figures appearing one after another...

The invisible pressures of so many ridiculous and eccentric and powerful tyrants are all raging in this emptiness. Under the superposition of each other, the entire stellar field of the magic wolf is forbidden. General.

They are deliberate, so they can sever Ye Xun's teleportation or the possibility of fleeing in other secret ways.

In fact, they have also succeeded. The sound of humming sounds has been heard in the void. It is extremely unstable. Even if it is repaired in the late seventh stage of Ye Xuan's realm, it can no longer be teleported. very

As for his extreme suspicion, even the interstellar coordinate jump ability attached to the system title of the body's engulfing system has failed.

This is really trapped here.

However, Ye Xuan was not afraid, and he did not intend to leave. Because he was surrounded by nearly ten heavenly beasts that had already appeared around him, he saw a red **** unicorn...

This sub-blood unicorn is the other of the two congenital beasts provided by the Void Giant Turtle. The innate treasure of his body is called Dzi Bead, and the attribute is fire. It is the fire source that Ye Xuan needs... ...original

Ben also planned to solve the black-spotted wolf and then went to find him, but I did not expect it to be here. but

Obviously not the best time to hunt, you can only wait for the edge...

The thought flashed through the brain, and Ye Xuan did not hesitate. When he waved his hand, there was a nine-color flame sea whizzing away, turning into a huge nine-color flame ball with a diameter of 10 billion miles. Following

However, his figure swayed directly into the flame ball.

At the same moment, the surrounding sounds screaming..."

This is... Shennong nine-color flame? How do you feel where you heard? ""

I was violent, when the deity had been to the right bank, I heard that there was a starry sky, raging the entire right bank of the right bank... Shennong Ding was in his hands, the survivor must be changed by him, and he is back! ""

hiss! How can this be? That violent temperament was only a retreat in the past, how long? Actually entered the heavens, and still... Heaven's seventh order? "

Chapter 5089: Profitable

With Ye Xuan waving his hand to the nine-color flame sea, the blink of an eye turned into a majestic nine-color flame sea, and swept into a star-shaped flame ball, and then the body shape rushed into it and crouched. Around the moment, the sound of exclamation was heard...

"What? Actually it is the Shennong nine-color flame? How do you feel where you heard it?"

It's that violent, he's back..."

When the deity had been to the right bank, he heard that there was a starry sky and raging the entire right bank of the right bank... Shennong Ding was in his hands. The survivor was originally changed by him! "

"Hey! How is this possible? That violent temperament was only a retreat in the past, how long has it been? How long has it been? It has actually entered the heavens, and is still... Heavenly seventh?"

There is no doubt that when the violent squad was on the right bank of the Milky Way, it was everywhere that smashed the forbidden land on the right bank, and stalked the forbidden beasts..."

Although this starry sky violently only ravaged the left half of the right bank of the Milky Way, he has always been a weak counterattack, with weak warfare, and the stronger the Vietnam War, all the way to triumph..."

Its speed of entering the country is so jaw-dropping. It is said that when it was first noticed, it was only the immortal cultivation of the king. At that time, he had already hunted the king and immortalized, and even some seals. The mighty immortality of the early emperor fell in his hands..."

"However, the goal that he hunted soon became the immortality of the Emperor, and then the cosmic sage, the Lord of the universe, the Supreme of the universe..."

Then he began to hunt down the ancient powers, and at that time, his own cultivation and strength also reached the ancient power of the wild, not only the speed of entering the country was unheard of, even since then, he can occasionally Hunting one or two powerful ancient sages..."

Moreover, during the period when the left bank of the right bank of the Galaxy was raging, the starry sky violently encountered more than once in the face of a few or even more than a dozen of the same territory, and even stronger existed in the siege, but every time he was The danger is ruined..."

Even those who are confident that they are full of hunting for him, even if they are trained to be stronger than him, they will eventually be killed without exception..."

"This violent temper is too enchanting. The age of the ruined world is heavy, and the ancient ruins of the ancient gods are in his hands. In addition, he also has a **** stick that is also a wild and treasure-class, fierce, and more Shennong nine-color flame, even the ridiculous old monsters have to be jealous, and they have to change color to avoid..."

"Even even in terms of blood and supernatural powers, he not only possesses the secrets of blood and sea, but also instantly condenses three blood and sea corps that are exactly the same as the sects, and the sacred blood of the ancient sacred sacred gods. In hand..."

The outside world even rumors that his real cultivation is far less powerful than that shown in the foreign wars, but he has to weaken a whole big world because he has mastered a powerful bloodline..."

"Once you are doing it, you can make your own cultivation a realm, and instantly enhance a whole big realm, and there is no time limit for this momentary upswing."

As these exclamations rang in the far air in the distance, Ye Xuan's old bottom was almost shaken off by a large part, except for some of the most secretive means, as long as he had been exposed in this glory. Nowadays all in a short period of time, I was told...

This is what it should be!

After all, when he was raging on the right bank of the Milky Way, the noise that he had made was not too small. Whether it was his record, the speed of his entry into the power, or the Shennong Ding in his hands, the **** stick, the Shennong nine-color flame.

As well as the **** sea secrets that have been used, such as the bow of the sky, all of them can shock one side of the void... and

All of this was gathered in a starry sky, and his smashing and killings in the forelock of the right bank on the right bank, etc., naturally attracted unprecedented attention and sensation.

At that time, Ye Xuan walked on the right bank of the Galaxy as a starry sky. When he had not left, everything he knew about him and what the Xingqiang forbidden land had known and learned may be just a piece of piecemeal information...

As he left, a stern and forbidden field on the right bank and a strong star field conducted a detailed and in-depth investigation of him. Soon after, everything floated out of the water. positive

For this reason, when the starry sky was violent, the land on the right bank was like a legend, and it was talked about for a short period of time.

Even the giant tortoise, which was later on the banks of the Weiyin Galaxy, was more powerful than him. However, the degree of enchantment was not as good as the starry sky...

Although it is the left bank of the Milky Way, and now hundreds of ridiculous strangers and more than ten days of powerful people from all around, when the starry sky raged on the right bank, almost all of them were not born.

But after they were born, they have heard of this, especially when they are in the hands of Shennong Ding and Shennong Nine Flames in the starry sky.

Under the guise of my heart, I even secretly searched for a period of time, but unfortunately there was no result, and finally I could not...

It is for this reason that when they saw that Ye Xuan waved and sacrificed the Shennong nine-color flame and turned into a majestic nine-color flame sea, these old guys slowly remembered all the memories. In the past, I immediately realized the identity and origin of Ye Xuan...

At one moment, the number of ridiculous grotesques that appear in the void around the sky has exceeded one hundred, and the number of heavenly powers has exceeded ten, but they are all without exception, all in the distance from the nine-color flame ball. The distant void outside the billion miles, it just stopped like a good appointment... This

The invisible pressures of the ridiculous blame and the heavenly powers are all superimposed. The emptiness of this star field has been completely banned. Anyway, the other party has been unable to escape with teleport, or other secrets. They naturally do not Anxious to launch an attack immediately. when

However, part of the reason is that this starburst is too powerful for the strongman of the invaders. It was thought to be the sixth stage of the heavenly state. Now, at a glance, it is known that the heavens are in the seventh stage.

This must be a short-term breakthrough in the rhythm of the first-order cultivation, in line with his rumored speed of cultivation. brain

These thoughts flashed in the middle, and the ruthless and heavenly powers of the thousands of people who were in the air in the distance, all of them were red eyes in an instant. he

They were originally only for the Tiandao treasure medicine. I did not expect that there were so many treasures on the prey. After the bombing of him, the profit gained this time will obviously be more gratifying. This

I thought that all the people subconsciously looked outside the star field of the forbidden city of the magic wolf. The heavenly eye was previously hidden in the parallel void outside the forbidden land, a little farther away, but it should come...

In the middle of the heart]

boom! ""

Rumble..."

At this moment, all in all directions, there were soaring roars, and the ridiculous old monsters that appeared in the void were more than one hundred.

And the number of strong people in heaven is more than ten!

But they are all without exception. They are all in the distance away from the nine-color flame ball, and they just stopped because of the appointment...

The invisible pressures of so many ridiculous eccentricities and powerful heavenly forces are superimposed together, and the entire starry sky has been completely banned. anti-

The other party has been unable to escape with teleportation, or other secrets, and they are naturally not in a hurry to attack immediately. This

However, the powerful existence of the seventh-order heaven and the earth, if one-on-one, they are far from opponents, coupled with the violent starbursts of the stars and the deterrent of the nine-color flame sea, all the ridiculous old monsters Those who are strong in the heavens have subconsciously chosen to handle it cautiously. Do not

Seek merit, first but ask for nothing! brain

These thoughts flashed in the middle, almost subconsciously. They all looked over the star field outside the forbidden place of the magic wolf. The heavenly eye was previously hidden in the parallel void outside the forbidden land, a little farther away, but it should come... ..

It is the strongest of the eighth-order heaven and earth, and the only one present in the field that can suppress this starry sky. It must wait until he comes, and all subsequent developments can ensure that there is no accident!

"Oh!"

"Hey..."

Rumble..."

It was also at this time that the devil wolf banned the distant air in the distance, and suddenly there was a crisp and fierce sound. There was a huge crack in the void, and the shape of the blue sky was rushed out.

When I saw this nine-color flame ball, Tiandao Qingyan realized everything. Under the wrath, a screaming whistling sound came from the blue eye, and the volcanic spurt came, and the void along the way collapsed. The power is too amazing!

It's almost a moment's work, and the heart of the heavenly eye has been filled with incomparably astounding anger...

he! day

River Star Lord Ye Xuan! Once

As a starry sky, he ravaged the sky in Hong Kong, and even calculated it with the headless baby corpse. With its power, it forced the invisible barriers that covered the Milky Way to tear, and then sent the headless baby corpse into the Milky Way. Ye Xuan of the star field!

At the beginning, in this piece of Hongmeng, Tiandao Qingyan even had a brief confrontation with him. At that time, his cultivation was not in the late stage of the heavens, but only in the early days of Tiandao.

At that time, if the non-empty giant tortoise and the ridiculous night fork appeared, and the horrible power of the scorpion bow, the heavenly eye would never close, and then the other party could be killed. With

Later, Ye Xuan quietly sneaked back to the world of the wild, until then, Tiandao Qingyan discovered that he was the so-called Lord of the Temple. but

Everything was already late. The emperor of the Heavenly Emperor and the Emperor of the Mechanical Emperor were defeated by him and fell into his hands. Then he fled the world of the wild, including the army of his demon. The same is true, all disappear...

It's only a short time ago, I actually saw this old opponent here, and he is still very likely to control some kind of heavenly medicine.

So, can it not be angry? Want

I know that there are a lot of wild and powerful powers in the vast army of the heavens and the greens, but there are not many existies that have entered the real heaven, but more than a dozen.

The owner of the demon temple, Ye Xuan, is only able to condense the blood of the three seas with the same blood and sea.

This is the powerful existence of the three heavens in the later period, plus the God beast...only this known heavenly powerhouse, there are already four in the other camp.

At the time of the Great World, Tiandao Qingyan almost did not put Ye Xuan in his eyes. Now when I see you again, I realize that the other party has almost incompetently possessed the powerful strength that can compete with oneself, even the subordinates' camp. It's not much different...

Considering the speed of the opponent's enchanting progress, at this moment, he deeply felt a strong threat! this

The child can't stay! This

Once, be sure to get rid of him. Otherwise, maybe the next time you see each other, the other party is the same as the one who is the same as himself.

This is very likely, at least Tiandao Qingyan understands that his own repair speed is absolutely impossible to compare with the other side. Correct

Nowadays, the heavens in the seventh-order world are cultivated in the later stage, and they are upgraded by the secret method of blood. His true cultivation is the absurdity, and the cultivation of the deserted environment is a breakthrough. It is much easier than the heavenly environment. .

Now the other side is the seventh stage of the heavens, even if it condenses three **** seas, and as an eighth-order heaven, it can suppress it in the case of a frontal battle. can

If the next time you meet, the other party's repairing strength will reach the eighth level of heaven and earth. Then, once the three **** seas are condensed, the other party will be in the third battle with the same strength.

In the middle of these thoughts, the killing of Tiandao Qingyan suddenly reached the extreme. As the body shape came from a distant place, the bang was close, and its voice of the gods suddenly sounded..."

It's violent, it's really you..."

"This time you are in jeopardy, Shennong Ding, Yu Tian bow, and the nine-color flame sea, as well as the secret of blood and sea, and the anti-sky blood of your hands that can enhance a whole world... This time, all must be paid come out!"

"Roar!"

You don't have to worry about it. His true cultivation is only a seven-step depreciation. Because he has a kind of anti-skyistic power that can enhance a whole world, he has the strength of the seventh-order heaven..."

Halfway through, Tiandao Qingyan turned to look to the right side of the sky, after a little bit, after the green mangling flashed, the voice of the gods sounded again. "

It is you, the **** unicorn, you are the innate beast of the fire attribute, rushing into the flames, blasting this flame ball out of a gap, as long as I can wait for an instant, I will be able to rush into it, then must be Reshape your body with a nine-color flame..."He

The said **** unicorn is the other of the two congenital beasts provided by the Void Giant Turtle. The innate treasure in his body is called Dzi Bead. The property is fire. It is the fire that Ye Xuan needs. Lead source... leaf

The reason why Xuan did not intend to leave for a while is partly because of it.

He originally planned to solve the black-spotted wolf and then went to find this **** unicorn. I didn't expect the other party to be here too. It just happened to take this opportunity to take the dzi in the body, that is, the innate fire. In the hands. This

Naturally, it is necessary to wait for the best when the maneuver can succeed. Ye Xuan's heart is now calculating this matter.

But what he never imagined was that the sorrowful blue eye actually took the initiative to force the **** unicorn to rush into the nine-color flame ball, and promised to use the Shennong nine-color flame to reinforce it. If

If this is the case, for Ye Xuan, it is simply wonderful, it can be said that...

Ye Xuan's heart, at this time, was originally calculating the right hand when waiting for the best, successfully taking the dZi from the **** unicorn body...

But what he never imagined was that the sorrowful blue eye actually took the initiative to force the **** unicorn to rush into the nine-color flame ball, and promised to use the Shennong nine-color flame to reinforce it.

If this is the case, for Ye Xuan, it is simply in the middle!

The reason for this is that it is too coincidental.

The nine-color flame ball can be condensed by the Shennong nine-color flame. It is that the strong people of heaven and earth are not willing to touch it easily. Otherwise, if they stay in it for a long time, even the soul can not protect, the final result will be the flesh. Destroyed, the soul is dying. but

The **** unicorn is different. It is the innate beast of the fire attribute, and the strength has reached the third level of the heavenly state. Although he can't resist the raging of the Shennong nine-color flame, it is more powerful than other starry beasts. Immunity must be strong.

The other beasts rushed into the nine-color flame ball. After the flesh exploded, the soul could not keep it, but he could.

As long as he rushed into the flame ball, he blew himself into the body, causing the flame ball to explode a gap. At that time, the green eyes and the other ten heavenly strongmen who were present at the same time rushed into the gap at the same time. The battle was immediately It can be laid between. and

The **** unicorn is the innate beast of the fire attribute. After the flesh is blew, his soul can still be innocent. although

However, the body lost, but Tiandao Qingyan promised to reshape the real body with Shennong nine-color flame afterwards. This is the Shennong nine-color flame. If it can shape the flesh with this flame, his cultivation will definitely rise for the moment. Big cut. Now

In the third stage of the heavenly state, in the middle of the Tiandao, which is in the fourth or even fifth order, it is very possible...more

What's more, the current situation is here, even if he does not want to, I am afraid it will not work. Heavenly eyes and other heavenly powers who are present will never let him easily pull out.

This is clearly the rhythm of catching the ducks on the shelves, but also on the top, not on... the same!

The only difference is that if you go back, you can reshape the real body with Shennong Nine Flames, but if you want to escape, you will be taken back, and then forced to reinvent the real thing, I am afraid I want to count on it again.

So, how to choose, fools can understand! "

Roar....."

In the eyes of the public, this huge body of **** unicorns screamed and screamed, and the body suddenly rushed out of the endless red fireworks, and the whole body was shrouded in the blink of an eye... short

Short-lived, the shape of the **** unicorn is no longer visible, surrounded by the flaming fireworks of the flaming, like a giant red sun in the sky..."

Rumble..."

At this moment, the earth-shattering roar sounded, and the majestic red sun suddenly spurred away. The universe's void along the way was smashed into collapse, the speed was too fast, and the diameter was already between the blinks. The huge nine-color flame ball is close to the front...

At this moment, the big demon wolf banned the land as one of the quiet, surrounded by hundreds of billions of wilderness and more than a dozen heavenly and pathogenic beasts, including all the wild and blue eyes, all of them were holding their breath...

Among them, the dozens of fierce beasts that have the strongest strength and reached the heavenly realm are better prepared, as long as this flaming ball like a red sun hits the nine-color flame ball, even if it is only a tiny The gaps appear and they will rush away immediately.

In this way, I rushed into the nine-color flame ball and joined forces to kill the violent sneak inside the flame ball..."

call out....."

However, the unexpected shocks did not appear. With the dull bounce and the sharp and unpredictable sound, the majestic red flame ball was directly near the nine-color flame ball. Rushing in, there is no half-wave, not to mention the so-called huge impact...

Nature is the result of Ye Xuan's meticulous manipulation. With his current cultivation as the strength, the control of the nine-color flame sea has reached the micro level. Ten thousand

When the red flame ball of the giant spurt came and touched the flame wall of the nine-color flame ball, Ye Xuan urged the Shennong nine-color flame to give up a gap that just accommodated it. tight

Then, just as the red flame ball rushed into the nine-color flame ball, the gap was closed as it entered...

The cuts are flawless, and there are no accidents at all. In the blink of an eye, there is not a single moment. The flames of the **** unicorns have disappeared and entered the interior of the nine-color flame ball. In the middle, the nine-color flame ball has not appeared in the half-wave, it is calm and calm... look

In this scene, including the sorrowful sky, the blue eyes of the universe, surrounded by hundreds of billions of miles away from the universe, the hundreds of ridiculous old monsters and heavenly powerhouses suddenly stupid...

However, they did not think much, because in their view, as long as the **** unicorn rushed into the interior of the nine-color flame ball, the result is the same. Once he starts to blow himself, the nine-color flame ball will surely have a shocking appearance. There is a small gap and they can also rush into it.

At this moment, more than a dozen heavenly and powerful people, including the blue sky and the green eye, all secretly prepared for the rushing out of the body...

.....

Nine-color flame ball inside!

For everything in the outside world, Ye Xuan is full of fire. on

In the next moment when the green eyes of the wilderness turned to look at the **** unicorn, his heart was filled with great surprises. Without hesitation, he immediately activated the secret of blood and sea..."

Between the moments, his figure disappeared, but in the empty sky of the original lameness, there was a slap in the water.

Ye Xuan's entire body collapsed and turned into a **** sea, spreading over the corner of the universe..."

Roar! ""

Roar! "

"Hey..."

Almost in the next moment, from the three different directions of this vast sea of blood, there was a voice of low anger and screaming, and there were three huge figures in the blink of an eye. Landing from the ground, it is the three great devils of the Taikoo konjac! Minute

Don't be the flesh and blood, that is, the starry sky! Take

And the body of the cheekbones, without any flesh and blood, just a purple-golden cheekbones, revealing endless fierce breath, very incomparable!

Finally, there is the body of black fog, although it is also a violent form, but the body is a black fog, even a pair of scorpions, just two awnings, it looks very strange!

Everything happens between short and short moments. At this moment, the three bloods and seas are condensed out, and the air-filled atmosphere in the body is all seven heavens. This is the third strong heaven. Of course

And this is not the end... with

The three **** seas are condensed, and the right hand of the shin bone is turned over. The Shennong Ding appears in an instant, and the sacrum is hand-held and the hand is twisted and twisted...

In the hands of the black mist, the **** stick also appeared quietly.

As for the flesh and blood, the right fist is pinched, and the knuckles creak like a thunder. blink

Between the eyes, the three bloods of the sea are condensed...

The right hand of the bone was turned over, and Shennong Ding appeared in an instant. He was twisted by the cheekbones, and at the same time, the black and white hands were in the hands of the black fog, and the **** sticks appeared quietly.

As for the flesh and blood, the right fist is pinched, and the knuckles creak like a thunder.

After all this, the three **** seas turned to look at the outside at the same time.

At this time, the **** scorpion body rushed out of the sky, and turned into a red flame ball, rushing toward the nine-color flame ball.

Ye Xuan calculated the rushing point of the sub-blood unicorn in an instant. The three blood seas were separated and moved in the inner side of the nine-colored flame wall, showing the three-legged trend, waiting for the rabbit...

Even the Shennong Ding and the **** stick in the hands of the cheekbones and the black mist have been stunned to the top of the head, and the violent temper is ready, only to wait for the **** unicorn to rush in, and at the same time will simultaneously bombard .

The only purpose is to...kill and kill!

"call out....."

The sharp and unpredictable sound of the air broke out, and a huge red red flame ball passed through the flame wall of the nine-color flame ball without leaving a gap. The blink of an eye entered the inside of the flame ball...

The situation is not only the accident of the outside world, but also the **** unicorn of the giant red flame ball that was incarnate. he

At the moment when the impact was already made, the explosion began, and only the Dzi Bead was prepared to protect the soul.

However, the unexpected impact did not appear. He clearly rushed to the flame wall of the nine-color flame ball, but it was like nothing, and went directly into the flame ball...

In front of the left and right and the front three directions, the three figures are ready to go, and the squatting stare at him, and has long been waiting for a long time. "

Oh..." This

For a moment, the **** unicorns trembled, and the screaming screams in the mouth turned and they wanted to escape. he

Originally, I was ready to blow myself up, but the move at the moment was entirely a conditional reflex. Anyone who suddenly encountered such an accident would probably have such a subconscious reaction. Committee

It's really the temperament of the three bodies that are scattered in the body. It's all in the seventh stage of the heavens..."

Are you not blew yourself? How did you escape? "

"It's all this time, have you escaped?"

Since you have come in, this temple... will send you a ride! "Look

In this scene, when the three **** seas were sneer, even the sound of the gods came out, and suddenly they shot at the same time..."

boom....."

There is no suspense in the next scene, everything is happening too fast.

The violent bang banged out, and the sacral scorpion also smashed Shennong Ding, including the black fog avatar, and also smashed the **** stick that sorghum over the top. In an instant, the earth-shattering roar banged. Came to...

Although the **** unicorn is a third-order heavenly road, he can't resist the same level of terrorist power in the late stage of the heavens.

Of course, if it is a positive battle, he can at least support a few moments. After all, it is also a strong person in heaven. No one is simple. can

Nowadays, he does not have any resistance at all. Conditional reflexes generally only want to turn around and escape. again

Plus everything happened too suddenly, he was completely unprepared, and he didn't even have time to react. He just opened his mouth slightly, and the screaming screams in his mouth were still unfinished. The power of human beings has already rushed into his body...

In the blink of an eye, this horrible force has been raging in his body. Under the red flame, the entire body of the **** unicorn burst open, turning into a red blood fog that spreads rapidly, covering a corner of the void...

In the red blood fog of this awning, there is also a dark red bead, which is the size of a human head. It is the **** dZi in the blood of the scorpion, and the innate fire leads to the source...

"call....."

"call out!"

Without hesitation, violently waved, a whistling sound rang, invisible, a majestic force whizzed away, swept away the **** blood of the sub-blood unicorns, and the income of the body. .

At the same time, the spurt came from the head of the sky, and after being violently played a few times, it was put away properly. to

Therefore, all the dust settled.

In the hands of Ye Xuan, the Tiandao blood essence obtained by killing the heavenly and powerful people has reached six giants. Now, with the **** unicorn being killed, the heavenly blood in his hands has reached seven. Pie.

In addition, five kinds of five elements of medicine, he has now mastered four more.

Four days of velvet! day

Dan four! day

One item! day

One bead! most

After the rest has not yet arrived, there is only water left in the source, and this matter can only be slowly searched, because Ye Xuan does not know where there is a water property that has been cultivated as a congenital beast...

However, this time the devil fell to the ground, although accidentally put the eyes and the Dzi Bead all in the hands, but now everything is far from over. nine

Outside the color flame ball, hundreds of billions of miles away from the sky, hundreds of ridiculous geeks and more than a dozen powerful beasts in the heavens are waiting on the side, the power of the body is all pushed to the extreme, turned into invisible The pressure of the envelope shrouded this side of the void.

Under the overlap, let this piece of void be completely imprisoned, not only can not be teleported, can not cast a similar blood secrets and magical powers to go away.

Even the interstellar coordinate jumping ability attached to the system title of Ye Xuan's body phagocytic system can not be activated now and started smoothly.

In the face of this dilemma, Ye Xuan wants to leave, and the only way is to force a **** road based on his own strength...

In the past, he may not have this ability, but now it is different. In the ninth state of the konjac change, his greatest strength has reached the seventh level of heaven. This

However, the repair of the late Tiandao, plus the three **** seas, he has the confidence to kill a **** road, and grow away. brain

In the middle of it flashed all over, the violent smashing of the cold mang, flashed to the far away from the flame ball to see the past

...

The magic wolf outside the nine-color flame ball is forbidden in the starry sky... Ya

The moment when the **** unicorns of the Wanzhang flame ball rushed into the nine-color flame ball, all the more than a hundred ridiculous geeks and more than a dozen heavenly powers waiting in the void around the nine-color flame ball Hang your heart to the eyes of the blind. he

We are waiting for a loud noise. This

The road is loud and loud, representing the self-destruction of the **** unicorn.

He is the strong third-order existence of the heavenly environment. After entering the flame ball, he will blew himself up. The effect will obviously be better. It will surely make this nine-color flame ball that has closed the 100-mile void, and it will be shocking.

At that time, as long as there is a slight gap, more than a dozen powerful beasts with the heavens and the heads of the wilderness will be swept away at the same time, and then they will rush into it in a moment, and then they will solve the opponent, even if they don't die. To seriously hurt dying...

Chapter 5090: Strongest form

The magic wolf outside the nine-color flame ball is forbidden in the emptiness of the star field. In the moment when the waning flame ball of the sub-blood unicorn rushes into the nine-color flame ball, there are more than a hundred old people waiting in the sky for hundreds of billions of miles away. Blame and more than a dozen heavenly and powerful people, all of them will hang their hearts in the eyes of the blind...he

We are waiting for a loud noise. At that time, there will be a gap in the nine-color flame ball. More than a dozen powerful beasts headed by the green eyes of the wilderness will be swept away at that moment and rush into it at the same time. ! Of course

However, the expectation of the blasting did not appear, the **** unicorn rushed into the nine-color flame ball, the next moment came out, just a shocking whistle..."

Oh..." This

The whistling sound of the road whispered into the ear, revealing the endless fear and confusion, clearly the voice of the **** unicorn.

All the people were shocked and realized that it was not good, but after the whistling sound, there was no sound in the nine-color flame ball. This result made the hundreds of deserted monsters in the distance around the sky. More than a dozen heavenly and powerful beasts are stunned. surface

In the face of the situation, all of a sudden there was no idea. on

The same is true of the green eyes of the torrential roads. The huge vertical eyes of the green eyes are faint and shimmering, but there is no movement, and there is no half-sense of the voice of God.

At this moment, all the people are secretly guessing, the **** unicorn that just rushed into the nine-color flame ball, what happened in the end, whether... still alive! ...

...nine

Color flame ball...

"Hey!" This

For a moment, the violent screaming suddenly screamed at the head, and Ye Xuan directly changed the body's konjac into the ultimate form of blood and magic, which is the real activation of the konjac...

As the roar came out, the forces in the body of the three **** seas all rolled up in an instant...

The situation is like a snarling of the Nu River, roaring in the limbs, and the inexhaustible fierceness. There is also a horrible force of horror and blood from three bodies. Are

In between, these three huge bodies are quickly close together, just a little bit of interest, the back has been merged. this

At the time, the three bloods of the sea were gone, and they became the three-armed and six-armed konjac body. The body of flesh and blood, the body of the cheekbone and the body of the black mist merged into one body.

"Hey..."

In the body of the three bones in the three real bodies, the violent purple gold awns suddenly burst out, and a sigh of sorrow is like a sigh of anger, and it is swaying...

For a moment, the body of the cheekbone lifted the left arm, the empty palm of the left hand, and it was also a sudden golden man, and a golden bow with an energy form appeared in his left hand. Big

The shape of the bow is simple and awkward. The middle part of the palm is a double-headed beast, which faces the mouth of the beasts in the upper and lower directions, biting the two humanoid bodies. he

They are all screaming, seemingly roaring, a bowstring formed by the twisting of numerous fine gold threads, and the two ends are connected to the souls of these two humanoid bodies...

It's the savage magical power of the savage and savage savage savage

The left hand of the flesh-and-blood body holds the foot of Shennong Ding, just like the big seal on the side of the body, the right hand is the **** stick of the **** pesticide.

There is still no movement in the body of black fog, but there are also cold eyes in the middle of the smashing. Obviously, there are also means, but it has not yet been revealed! under

For a moment, the mouth of violentness also revealed the cold voice of Ye Xuansen: "Are you not going to kill the temple? If so, today the temple will be... as you wish!"

boom! ”

"Booming..."

Oh la la..."

The sound of the gods in the violent slogan just fell, and the huge flame ball that was covered by the nine-color flame sea shrouded the imaginary tens of billions of miles. hold

After the thunderous thunderous sounds, it's like a strange noise like a huge wave...

The huge flame ball collapsed and turned into a majestic nine-color flame sea. The soul is incomparably, and the konjac, which is like a demon god, is spurred toward the body of 60 million miles. in

In the process, the original nine-color flame sea was also rapidly changing its shape. When it arrived at the front of the konjac, it was turned into a giant with a length of 10 billion miles. Spotted ribbons...

"call out....."

At this moment, Ye Xuan, who was originally guarded by the nine-color flame ball, is no longer guarded. The blink of an eye is completely exposed to the outside world...

In the distance, in the hundreds of billions of miles away, the hundreds of deserted geeks and the powerful beasts of the heavens and the heads of the heavens and the heads of the heavens and the green eyes, the nine-color flame ball collapsed, the leaves Xuan's figure appeared, and when I was caught off guard, I was all stunned for a while...

Today, they already know that the young and mysterious survivors of the past are actually changed by the violent starry sky that had been raging on the right bank of the Milky Way. in

Before the collapse of the nine-color flameball, they also guessed the existence of the presence inside the flameball.

Is it still maintaining the appearance of the later mysterious survivors, or simply tearing off the disguise and restoring the original starry sky?

But they never imagined that when the nine-color flame ball collapsed and the body shape hidden inside it appeared, it was such a scene in front of the eyes...

What is this starry sky?

It is clearly a three-headed and six-armed konjac! leaf

Xuan was only the blood of the Taikoo konjac. It was still in the ancient times after the ancient times. Therefore, the blood of the Taikoo konjac is not too strong, at least it is incomparable with the congenital beast in Hong Kong.

But now it has been different for a long time. With Ye Xuan's step by step growth, the blood of the ancient konjac in his body is also gradually returning to his ancestors. Nowadays, he has already completed the transformation of ancient times, and he has now demonstrated it. The shape of the three-headed and six-armed scorpion is no longer the Taikoo konjac, but among the three thousand chaotic devils born in this chaotic era... Chaos konjac!

Although there are still some gaps, because Ye Xuan's own cultivation has not really entered the heavens, he is only a sixth-order absurd, but this gap is not far away. to

Less, when he activates the strongest form of the konjac blood, and consolidates the three-armed and six-armed konjac body, at this time, the breath that he has in his body is definitely more than the average innate beast.

These so-called innate beasts are just the descendants of the blood of the Chaos Devil. Today, Ye Xuan has almost changed the blood of the Taikoo konjac to the extent of Chaos Konjac. It is obviously more ancient, revealing a huge chaos. Meaning...

What is even more terrifying is that today's konjac is not just bare-handed.

The sacral bones sacrificed the sacred gods of the ancient night forks! black

The fog is entangled in the nine-color ribbons of the nine-color flame sea, and can be turned into a smart color rush at any time!

As for the flesh and blood, the left hand Shennong Baoding, the right hand **** stick... This is the ancient age of the era of the heavy world in the wild world.

All of this is all together, desperately desperate, in the distant sky, even the ridiculous heaven and earth green eyes, for a moment they are dumbfounded, looking at Ye Xuan slyly, half-speaking...

"call out....."

With the collapse of the nine-color flameball, Ye Xuan, who had been shrouded in a flame ball, was no longer guarded. The blink of an eye was completely exposed to the outside world...

But what he showed at this time is the most powerful form of the konjac, three-headed and six-armed, very incomparable. its

In the middle, the shin bones sacrificed the sacred gods of the ancient night forks! black

The fog is entangled in the nine-color ribbons of the nine-color flame sea, and can be turned into a smart color rush at any time!

As for flesh and blood, the left hand Shennong Baoding, the right hand **** stick...

Everything is all together, desperately desperate, in the distant sky, even the sorrowful sky and blue eyes, for a moment, they are dumbfounded, looking at Ye Xuan slyly, half-speaking silent!

At this time, Ye Xuan, who is transformed into a three-headed, six-armed konjac, is still the seventh most powerful heavenly road, but it is definitely the most powerful existence of the seven-order heaven. Compared with the real eighth-order powerhouse, it is also Not much weaker.

After all, the konjac is really three-headed and six-armed. It is clearly the three powerful seven-step combination of heaven and earth. Because of the trinity and the back fusion, this combination is more compact, and it is seamless and seamless. It is not the same as the three ordinary seven-step heavens. Simple...can

It is said that there are so many strong players in the field, but those who have the strength and the current Ye Xuan frontal battle, in addition to being the heavens and the eighth-order torrents, there is no one else...

In fact, even if it is a heavenly eye, it may not be easy to rush forward and fight with Ye Xuan. Such as

Today's Ye Xuan is the strong existence of the seventh-order heaven and earth, and it is similar to it. If the blue sky is rushing forward, whether it is the body of flesh and blood or the body of black fog, it can be hard against him. One

Once the war broke out, as long as there was a slight negligence in the blue sky, the sacral bones of the scorpion bow would be shot and killed by an arrow.

In the close range of this close combat, the cheekbones are waiting for an opportunity, he is almost impossible to avoid, this is definitely the end of the undead and serious injury ... also

That is to say, even if the blue sky of the wilderness rushes forward, it is impossible to devote all its heart to the war. Whether it is with the body of the black fog or the front of the flesh and blood, he must pay attention to the bones. Such as

In this case, although he has the repair of the eighth-order heaven, but because he can't fully engage in the battle, the displayed strength is estimated to be similar to the seventh-order heaven. This

In this case, the battle between the heavenly eye and the front of the black fog or the body of flesh and blood will have no meaning, but it will be quite a match, and it will not be able to build merit. The only effect is to contain Ye Xuan.

And just to contain a black body or flesh and blood...

All this is like a flash of lightning, from the brain of the blue eye of the heavens, and its huge vertical eye has a faint glimmer of blue.

Although he couldn't wait to rush forward immediately, he shot Ye Xuan, but he knew it didn't make sense.

Therefore, the Qingtian Tiandao Qingyan can only temporarily suppress the impulse of the shot, still squatting in the distance of hundreds of billions of miles away, and did not immediately attack...

"Roar!"

"You are not fighting?"

"That will be a war..."

At the same time, the three **** seas screamed at the same time, the horrible screams, the voids trembled, and the hundreds of ridiculous monsters and more than a dozen heavens and territories that were squatting in the distance of hundreds of billions of miles away. The powerful beasts are all stupid.

It's too strong, too embarrassing, and even the most powerful in the field, the blue sky that has reached the eighth level of heaven and earth is not dare to go forward. What can they do?

However, if it is dispersed, let the konjac calmly grow away, they are extremely unwilling, and they will feel hot cheeks, too shameful.

Hundreds of ridiculous old monsters, more than a dozen powerful beasts of heaven and earth besieged one person, and finally no one dared to shoot, let the other party arrogantly grow up and go...

If such a thing is spread out, all the strong people present today will have no face, and the enchanting name of this konjac will be even more amazing. In the future, on both sides of the Milky Way, it is simply going around and there is a sorrowful presence.

"boom!"

"Booming..."

The snoring sound just fell, three heads and six arms, body type Ponta tens of miles,

The emptiness of the film, nowadays, because of the overwhelming accumulation of more than a hundred ridiculous grotesque and more than a dozen powerful beasts of heaven and earth, it is like a ban, and it is impossible to carry out teleportation.

But he is a powerful presence of the seventh-order heaven, and the speed is too fast. The huge figure is like a meteor spurt in a flash. blink

Between the eyes, I have already reached the front of a seventh-order ruin...

"Hey..."

The party simply couldn't catch it. On the one hand, it was unexpected that this konjac was so fierce and savage. Under one enemy, he took the initiative to take the initiative. another

On the one hand, it was completely unpredictable that he was unlucky. More than a hundred figures were present to trap the konjac, but the first goal he chose would be his own...

Under the great change of color, the sound of the whistling sound came out in the seventh-order ridiculous mouth. Without hesitation, he turned around and ran. can

Unfortunately, it is still too late...

"Hey..."

There is no suspense in the scene!

Everything happened too fast. As the figure was close, the flesh and blood body shot directly, and the **** stick that sorghumed over the top blew out.

In an instant, the earth-shattering roar of the roaring bang came...

This fierce beast is only a seven-stage ridiculous, facing the level of terror power in the late seventh heaven, and he has lost a whole big realm and can't resist it. do not

He said that he had no war at this time, and turned around and fled, it was a positive battle, he could not hold a round...

Unexpectedly, this seventh-order beast even didn't even have time to react, just a little open mouth, and the horror of the mouth was still unfinished, a majestic force , it has already rushed into his body...

In a blink of an eye, this horrible force has been raging in his body. With the screaming sound, the entire shape of the seventh-order beast has exploded, turning into a red **** fog that spreads rapidly, covering a corner of the void... ...

"call....."

call out! ”

Without hesitation, the body of the black mist waved directly, and a whistling sound rang, invisible, a powerful force whizzed away, and the **** fog of its huge body exploded. in vivo. This

Everything is long, but it happens in a few moments. The two breaths are not there. A star-studded beast with a seven-step absurdity is gone. This powerful existence is a moment, which is a great rhythm. The other strong people who gathered around the four were stunned and suddenly fell into a sluggish...”

Come, how are you stupid? ”

"Don't you want to kill the temple? Now you are being killed, are you afraid to resist?"

Oh...”

It was at this time that the provocative words in the enchanting mouth rang again, and after a roar, they immediately rushed to the right side...
