

## Super D.S 5101

Chapter 5101: Give it to you

"Roar!"

"Roar!""

Oh..."

With the violent temperament, only the figure of the high body collapsed, turned into a \*\*\*\* sea and spread, shrouded a corner of the universe, the three magical bodies of the ancient konjac, instantly from this \*\*\*\* sea Landing on the ground, staring at the giants of 60 million miles...

They are the violent flesh and blood, and the body of the cheekbones and the body of the black mist!

The body of the cheekbone does not have any flesh and blood, just a purple-golden cheekbones, revealing endless fierce breath, very incomparable!

Although the body of the black mist is also a violent form, but the body is a black fog, even a pair of scorpions, just two awnings, it looks very strange!

All this happened too quickly. In the blink of an eye, the three bloods and seas have been condensed together. The repairs that have been dispersed in the body are all breathtaking. They are all eight heavenly horizons. This is the three powerful late heavens. And

When Ye Xuan came up, he said that he would condense the three blood seas directly. It is clear that the rhythm of the war is going to start, and the opposite side is still shocked by the eighth-order cultivation of his heavenly environment. The heart is suddenly sinking. If

There is no sure victory. With his understanding of Ye Xuan, he is unlikely to be easy to shoot...more

What made him confused was that Ye Xuan had taken away the \*\*\*\* and mosquito-stricken deity last time. He really couldn't figure out what it was now.

The thoughts flashed through my mind, and the sorrowful blue eyes flashed, and the snoring voice of the gods came again: "What exactly do you want?"

Roar! "

Ye Xuan refused to pay attention to him. The voice of Tiandao Qingyan just fell, and the violent screams suddenly screamed out of his hair. He directly changed the ultimate form of the konjac into the blood, and the konjac was activated...

The roar of the roar, the power of the three \*\*\*\* seas in the body all of a sudden, and the momentum is like a roaring river. three

The \*\*\*\* seas and the limbs of the limbs all provoke an endless and fierce meaning, and there is a horrible power of horrible blood from three bodies, and they quickly close together in a short period of time. Half-interest, the back has merged.

In a dazzling time, the three \*\*\*\* seas disappeared. The three-armed and six-armed konjac was in the void, and the body of flesh and blood, the body of the cheekbone and the body of the black mist merged into one. "

Oh..." No

When the green eyes of the ruins of the wilderness have returned to the gods, the body of the sacrum in the three real bodies of the konjac has already produced a fierce purple gold awn, and a sigh of sorrow is like a sigh of anger, and it is swaying... he

The left arm suddenly lifted up, and the empty left palm of the hand was golden, and a golden bow with an energy form appeared in his left hand. It was simple and sly. The middle part of the palm was a double-headed beast, each facing Among the mouths of the beasts in the upper and lower directions, they bite two humanoid bodies. This

Both of them are wide and angry, like roaring, a bowstring formed by the twisting of numerous fine gold threads, and the two ends are connected to the souls of these two humanoids... The \*\*\*\* of the floods and sorrows! and

The flesh and blood body suddenly turned over with both hands, and with the two masculine masculine shots, the left hand of the flesh and blood body held the foot of Shennong Ding, just like the big seal of the sky, the right hand is the god. The \*\*\*\* stick of pesticides..."

Oh..."

The road is full of flashes from the eyebrows, and the nine-color ribbons that have been formed by the nine-color flames appear on the body of the black and fog, which can be turned into a smart color. Endless fierce meaning...

The process in the meantime is long, but in reality it happens in an instant. In the blink of an eye, the konjac is really condensed, and each has a saga and a sacred power.

All this is all together, it is desperate, in the distant sky, even the wild eyes of the heavens are stupid, watching Ye Xuan slyly, silently...

Nowadays, Ye Xuan, who is transformed into a three-headed, six-armed konjac, is still only the eighth-order heavenly road, but it is definitely the most powerful existence of the eighth-order heaven. Compared with the real nine-order powerhouse, How much weaker.

After all, the konjac is really three-headed and six-armed. It is clearly three powerful heavenly and eighth-order joints, and because of the trinity and back fusion, this combination is more compact and seamless.

This kind of existence is not as simple as the three ordinary eight-order heavens at the same time, and it is not at the same level.

It can be said that the opposite of Ye Xuan today, if the war is unfolding, the Hongyan Tiandao Qingyan can only be shot with a slight negligence, and the sacral bones of the scorpion bow can be shot. This

In the close range of close combat, the cheekbones are waiting for an opportunity, and he can't avoid it. This is definitely the end of the undead and serious injury.

In fact, even if the cheekbones are not shot, the is only used as a town, and the sorrowful blue eye and the Ye Xuan in this state have already saved less than half of the benefits, and they have to suffer in all likelihood. . complete

Actually, the sacral bones are not counted. The remaining two konjac bodies, whether they are flesh and blood or the body of the skeleton, are not weaker than him. They are all eight heavens. Such as

Nowadays, the integration is integrated, and the sorrowful sky and blue eyes rush forward, and then wait for a pair of two-to-three... plus the ribbons of the nine-color flame sea, and the power of Shennong Baoding and the \*\*\*\* stick, he wants It's hard to lose money!

These thoughts are like flashes of light and light in the brains of the blue eyes of the heavens. In the huge vertical eyes, there is a sudden glimpse of the blue color.

At this moment, the whole heart of Tiandao Qingyan sank to the valley.

Although at this time he could not wait to immediately rush to the front to suppress Ye Xuan, but he knows that he has no such opportunity, at least not at present. This

The speed of the growth of the guys is too amazing. The last time was the best chance to kill him. Unfortunately, he missed it and failed to leave him. To

Nowadays, the other party has dared to come to the door alone, but they can only suppress the impulse to shoot, and still struggle with the distance of hundreds of billions of miles away. Start the attack, because it is not cheap at all, and even suffers...

Think again about how small Ye Xuan was in his eyes, even the ants were not as good as they did not really face him...

The gap between the front and the back is so great that the time is almost negligible, and it really makes him feel hurt.

"This time, one of the people who went to the floodplain was asking for six people from the Taoist friend..."

At this time, with the strongest form, Ye Xuan's voice of the gods also sounded, but the sound was not big, but in the vast floodplain, countless creatures were all clearly audible: "These six people, one Nothing can be less, this temple must be taken away this time..."

Either give it to people, or fight... don't give it, you look at it! "

Want six people? and

And still so strong, if not give, immediately shot? listen

To Ye Xuan's voice of the gods, the left side of the starry field on the left side of the banned land is invisible to the end of the battleship, and the sound of the sound of the film is heard...

The two great powers and the ruins of the nine ethnic groups, such as the Heilongjiang, Qingpeng, Shishi, Yinyue, Barbarian, Golden Eagle, Caisong, Greedy and Shuling The old people, at this time, are gathering in a million-meter-diameter superstar plug. Now they are all excited...

There is also a strong wave of volatility in the other control cabin of the Stars. The hundreds of ridiculous monsters and the ancient powers gathered here are all from the first cosmic plane, but the original first cosmic servants. The ethnic group of the family... except

In addition, in the immortal stars of the Third Cosmic Terran camp, the high-level elites of the immortal emperor and other Terran camps, as well as the high-level camps in the heavenly palace of the energy star, are also gathering. If

It is counted as the former Wanluo Federation of the veterans in the glorious temple of a giant starry sky. The ancient powers of the Third Universe and the Supreme Ages are also gathered here. phase

In comparison, the top two camps of the Terran gathered here, especially the immortal emperor and a few other people who had contact with Ye Xuan, were more excited.

At this moment, countless powerful people from the three major star planes of the world, the high-level people of all ethnic groups and forces, after returning to God, have all ignited an unprecedented hope in the heart. Expectation.

All the people are screaming at the arduous expectations of the mang...

However, Ye Xuan, the master of the Temple of Devils, said that it only took away six people, but in their view, these six people are very likely to be one of them...

In fact, the wolf is fierce, the stunned rainbow, Jin Yuyan, Jiao Ritian, Medusa and the lion overbearing. The six people also have this kind of excitement, but this thought is just a flash, and soon dissipated, and then six people will I shook my head one after another, and my face was full of laughter... he

Although they had already returned to Shun Ye Xuan, and even later returned to the ethnic group, they were all instructed by Ye Xuan, but when was it? Such as

Nowadays, the vast world of the wilderness no longer exists. With the height that Ye Xuan has reached today, even the incarnation of the will of the wilderness will have to be taboo, and how can he still remember the old yellow calendar of that year? more

What's more, there are countless powerful parties in the three major star-space planes gathered in the ocean of this battleship, that is, the ancient powers of the ancients and the ancient supremes have thousands of people together, Ye Xuan will take away six people. How can they not be the only ones who are the Lord of the Universe?

"Roar!"

Ye Xuan, are you threatening me? "

Ye Xuan's voice of the gods has just fallen, and the blue sky outside the 100-million-mile-long sky has already become abruptly angry. He is about to blow up. When did the floodland become a threat to anyone? "

You can understand this..."

Ye Xuan's voice of the gods once again came out, and the purple gold awns in the sacral bones were suddenly screamed at this moment: "It's just six young people who have been repaired by the ancients, and the temple will take them away now. If you want to stop, you will undoubtedly shoot the bow of the sky. The temple will not be able to retreat immediately, and it will be restored. Then come and ask for it!"

As soon as the sound fell, Ye Xuan did not hesitate. The eight-step horror of Tiandao was extended to the ocean of the battleship on the left side of the forbidden land. Just a short break, he found the breath of the six wolves. locking....."

You..." See you

He was so arrogant that the big thorns had been directly handed, and the ridiculous heaven and earth were extremely blue-eyed, but they did not dare to act rashly. Take

His understanding of Ye Xuan, since he has explained the words, then he will be able to do it. from

If you really want to stop it, this arrow is unavoidable. No matter how much the floodland is affected by this arrow, he will not be able to take it away. After recovery, he will turn around and return...

Every time I don't agree, I've been doing this for a long time. He really has no way. If there are more than a few times, I'm afraid that the gas will be blown up. phase

In a nutshell, it is just to let him take away the six ants who have not been able to repair the strength of the ancient world. Ye Xuan is a man of this kind. If there is no accident, these six people should have had a relationship with him. Not of special value...

For such six ants, it is not necessary to have a hard slap with Ye Xuan, and then go back and think about it to deal with him. brain

These thoughts flashed in the middle of the flood, and the sorrowful eyes of the sorrowful eyes forced the impulse to be shot down. Like the huge vertical eyes of the stars, the blue and the gloom of the eyes, revealing the endless sinister chill, but after all, it is not said. This

It is clearly the rhythm of the already recognized, as the incarnation of the heavenly will of the once-popular world, it is not easy for him to make such concessions.

Ye Xuan did not dare to delay too much, and the time spent was delayed for a long time. If the other party suddenly changed his mind, it would increase the annoyance.

With this in mind, he immediately shot..."

call out! ""

Oh..."Three

The first six arms of the konjac did not move, and they were still vigilantly staring at the horrible heavens and blue eyes that were opposite to the tens of billions of miles away from the sky and the ten heavenly savage beasts headed by the \*\*\*\* soul.

However, the power of the powerful knowledge of the eighth order of Ye Xuantian has been fully motivated.

At this moment, with the sharp and unpredictable sound of the air, in the ocean of the battleship on the left side of the floodplain, there were six volleys in the air. This

There are a figure in each of the six horses, and it is the six people of the wolf, the stunned rainbow, the golden scorpion, the horn day, the Medusa and the lion tyrant. The six of them are now only the masters of the universe. Withstand the speed of this horror, but now the shape of the six people are all guarded by the power of Ye Xuan's powerful knowledge, so completely innocent...

Because of the fear of the blue sky and the eye-catching interference, Ye Xuan promoted the powerful knowledge of the eighth-order heaven and earth to the extreme. Now it is just a spurt of the six cosmic lords who have not resisted. The speed is naturally fast. Hair pointing. One

In the blink of an eye, these six miles have already reached the front of the three-armed and six-armed konjac, and stopped in the void, the shape of the wolf, the stunned, the golden scorpion, the horns, the Medusa and the lion. Appeared out, all with a big open mouth, a dull face, a few doubtful experience, just an illusion.

In fact, what are they? flood

In the vast sea of battlefields in the left side of the banned land, the ancient powers and the ancient sages from the major forces and ethnic groups in the three major stars and stars of the world are even more shocked and directly smashed their eyes. ... especially

It was the existence of the immortal emperor and Ye Xuan, and they were like a thunder. They never imagined that the six people Ye Xuan had to take away were not them, but the first The ancestors of the descendants of several ethnic groups in the universe.

It seems that these guys had had an unpleasant surprise with Ye Xuan at the time. They had never heard of any friendship between them...

With the appearance of the six wolves, the figure of the six-armed six-armed scorpion appeared in front of the three-armed six-armed konjac. Come

Since the three major stars in the world, the major forces and the ancient powers of the ethnic group and the ancient sages, they almost stunned their eyes.

They never imagined that the six people that Ye Xuan had to take away turned out to be the patriots of the descendants of the second universe. This is really unacceptable, and all the high-level people at the moment are all like the thunder. It's just out of focus!

"call out!"

When it wasn't talking, it wasn't a place to stay for a long time. Ye Xuan immediately waved his hand. In an instant, the six men of the wolf were included in the inner space of Shennong Baoding. Following

However, he did not hesitate to immediately activate the interstellar coordinate jump ability attached to the internal system.

In the next moment, a flash of mans flashed, and the body of the three-headed and six-armed konjac was shrunk, and it was instantly shrouded, and disappeared in the blink of an eye...

"This is the secret law. It disappeared in an instant. There is no such thing as a volatility in the space. There is no trace at all. How did he do it..."

"Hey..."

The body shape of Ye Xuan disappeared. It has already been expected that this scene will be violent, and the roar of the roaring sound will start from the sky. The countless powerful people in the ocean on the left side of the forbidden land will be scared and shaken. . leaf

Xuan left, with six people who had not expected them to leave, this moment, including the immortal emperor, all the powerful people on the face of the face all showed a thick and inseparable Desperate meaning...

.....silver

The dark void in the far right of the right bank of the river...

"call out....."

The lightness of the undetectable sound broke, and a flash of mans flashed, and Ye Xuan's figure appeared quietly. This

One time to activate the interstellar coordinate jumping ability attached to the internal system, the coordinate jumping point locked by Ye Xuan is still near the source nest star base camp. Such as

Although only a moment ago, he has left the left bank of the Galaxy, which is almost unimaginable compared to the one-month period spent on the way to the other side. This

He also made him wary of Xingbo. The higher his growth, the more he can deeply understand the power of this engulfing system in his body. I really don't know how Xingbo had slammed it out.

However, this time Ye Xuan did not return to the source of the nest stars, but directly rushed to the next source nest stars.

Nowadays, including the six people who have just been brought out of the floodplain, including the wolf ringing, the stunned rainbow, the golden scorpion, the horn day, the Medusa and the lion tyrant, the inner space of Shennong Baoding in his body has a total of Nearly a hundred of the accountants are waiting.

That is to say, next, Ye Xuan wants to take the lion Wanjin to find all the more than 100 source nest stars that have recorded the coordinates of the interstellar coordinates, and all the barriers that cover these source nest stars will be pulled out of a small hole. Let the Dingzhong space wait for nearly a hundred accounts, and then enter them one after another, silently stealing the sky...

The work is too heavy, he really has no time to delay, can only start immediately! Fives

In the days after, there was a source nest star in the front of the void, Ye Xuan did not hesitate, and waved directly to the front, and immediately there were two masculine masculine shots, which turned into lion Wanjin and Qingniu.

There was not much nonsense in the roots, and Ye Xuan immediately launched an action, and a wave of volleys rushed to the front of the source nest stars.

The low-pitched humming sounded, and this glare rushed away, and the source nest stars thousands of miles away. Milli

There was no suspense beneath the mans, and there was a layer of sinuous diaphragm, which was still about a hundred feet. The other areas did not show a similar diaphragm, just like before.

"call out....."

This time, Lion Wanjin did not wait for Ye Xuan to greet him. His shackles flashed a glimmer of hope, and his shoulders swayed, and his entire figure instantly turned into a masculine glare. It is in front of this 艾 diaphragm. Following

However, after slightly adjusting the strength of the body, take a deep breath, just like eating, and squatting under your mouth!

For this kind of thing, the current Lion Wanjin is getting more and more familiar with the road. After all, every time it is accumulated in experience, every time his strong and abnormal metamorphosis is constantly getting stronger... This

Once, the speed of Lion Wanjin is still very fast. When the two hours have arrived, he will take out a small hole in the barrier diaphragm in front of him. The small hole contains a breath of energy and is very incomparable. ..."

Oh..."

call out!"

Qingniu has already prepared for it. When he saw this small hole appeared, he did not hesitate. He raised his face with a low sigh of scorn, and then the slap in the middle of it, the whole body was instantly transformed into a masculine masculine Going, the blink of an eye has been drilled from this small hole, and it has disappeared into the interior of this source nest star..."

Hey..."Lion

Wanjin immediately stopped, and the low humming sounds at the same time. The hole of the size of the fingernail that just appeared, also quickly closed at a speed visible to the naked eye, and instantly repaired as it was!

"boom!"

Rumble..."

Ye Xuan's side was just over. At the end of the darkness and the far end of the sky, there was a sudden and boring roar of thunder, which lasted for about three times, and then suddenly stopped...

Ye Xuan frowned, and suddenly there was a kind of unpredictable feeling. "

call out....."

Without hesitation, he immediately waved his hand, and he was squatting on the ground, but he looked happy. Obviously, because he had just married a source of nest stars, the size of the soybeans and the size of the barrier, he was happy that the lion Wanjin was inside the body of Baoding. space.

Then, as the shoulders swayed, the whole figure instantly turned into a speedy man, and spurred toward the end of the dark void that had been heard before and after the thunderous thunder.

After a short period of interest, Ye Xuan has already reached the dark void that had previously heard the sound of bang.

As the figure came to an abrupt end, he turned his head and looked around. There was only an endless dark void around him. Even with the extension of the power of God, he did not find anything beyond 100 billion miles. do not

Saying that the source nest stars, even a cosmic dust is not there, this situation can be seen everywhere in the vast and innocent Hongmeng.

But just suddenly appeared, and continued the low-pitched thunderous sounds of the three interest rates, but it is really incomparable, and definitely emerged from this area, Ye Xuan is now a powerful presence of the eighth order of the heavens, such a close distance How can this kind of thing be wrong? "

Obviously there are no abnormalities, but they can't find the reason and source of the thunderous sounds. Isn't this just a certain vision in Hong Kong? "

In the whisper, Ye Xuan suddenly thought of something, and his heart suddenly sinks...

Ye Xuan arrived at the first place where the sound of thunder and thunder was heard.

However, what he didn't expect was that there was a darkness of nothingness, nothing, not only a little life, even a cosmic dust.

"There is no abnormality, but there is no reason or source for the sound of thunder and thunder. Is it just a certain vision that appears in Hong Kong?"

Suddenly, he was whispering like a nightmare, and when he had a flash of light in his head, he suddenly thought of something, and his heart suddenly sank... indeed

There is that possibility, but it is still uncertain, and this matter needs to be verified.

With this kind of thought, Ye Xuan's power of consciousness has once again spread and opened up to the extreme, and thoroughly explored the surrounding emptiness of hundreds of billions of miles. Indeed

There is no omission, and there is no abnormality. He does not hesitate. When he turns away, he rushes to the nearest source nest star that marks the interstellar coordinates.

A few days later, he arrived at the target site, and there was a source nest star in the front of the void. Before and after, Ye Xuan waved directly, and two masculine shots came out. This time, there were lions and porcupines. The figure of the person. "

call out....."

Without too much nonsense, once again waved, a glare rushed away, rushing to the source of the nest in front of the star, the low-pitched humming sound, this glare rushed away, the source outside the billion miles Tens of miles above the nest star came to an abrupt end.

Below the stars in the line of sight, the familiar scene appeared again, which is a layer of about one hundred feet.

In the lion Wan Jin Two

After an hour, the barrier diaphragm in front of the body was pulled out of a small hole, which contained a stimulating energy, pure and incomparable...

Chapter 5102: Must stop him

"Hey..."

call out! "

Taikoo Porcupine has already prepared for a low sigh of relief, and the blink of an eye has been drilled from this small hole, and it has disappeared into the interior of this source nest. "

Oh..."

The low humming sounds at the same time, and the hole of the size of the fingernail that just appeared is quickly closed at a speed visible to the naked eye. It is instantly restored, but Ye Xuan's attention is not here at all...

In fact, from the time when Lion Wanjin leaned over, his power of knowledge has spread to the dark void around him. His attention has been raised to the extreme, and he has paid close attention to everything, even if he has not missed a trace. .

"boom!"

"Booming..."

However, the extreme darkness of the far end of the sky, immediately came the expected dull sound of thunder, continued to touch around the three-way, and then again and again suddenly surprised. leaf

In Xuanyuan, there was a flash of gloom. This time, even Lions and Kings did not pay attention to it. The first time they started teleporting, and locked in the direction and position of the sound of the bang, one of them was not enough, so they arrived. There... knot

Let his heart sink again. eye

The former is still nothing, nothing is empty, and the power of God's knowledge is extended, and within a few hundred billion miles, this is also the case. but

Just now, it was indeed a terrible roar from here. Although it only lasted for about three times, there was a very strong energy fluctuation here, revealing the incomparable atmosphere of Hongmeng...

Near the source of the nest, Ye Xuan's heart has already speculated, but it is not certain. Now, once again, the same situation is encountered. Although the investigation still has no results and no solid evidence is found, the previous guess can be made. Basically, it has been fixed. This

It's not that some people hide in the dark and pretend to be ghosts. It's just the natural reaction of this piece of Hong Kong's void. The two consecutive low roars are a concrete manifestation of the power of Hongmeng's law of void.

This feeling is similar to the response of the heavenly sensory in the independent world of the wilderness, such as the looting of heaven. and

The reason why this happens, apparently with Ye Xuan let the lion Wanjin foraging the source of the invisible barrier of the nest star, the underarms of the genus into the source nest stars to start stealing the sky ... each

A Hongmeng era opens, and the mysterious and vast and innocent Hongmeng void will have three thousand nesting stars to breed a chaotic demon. when

When this Hongmeng era officially opened, the 3,000 chaotic demon gods that emerged from the three thousand source nest stars will become the first generation of chaotic creatures of the new Hongmen era, the true darling. example

For example, the eternal years of the endless years, the end of the Hongmeng era, the three thousand chaos demon gods that were born at the beginning, have opened up a big world outside Hongkong's void.

Of course, now that the era of Hongmeng is about to end, the big world opened at the beginning of the era has all been destroyed, swallowed up by the endless stream of emptiness, and gone to the end, the world of the wild, is the last of them.

Only by these can you see how important the chaotic demon gods in the three thousand nest stars are.

For Hong Meng's void, Ye Xuan doesn't know much about why there is a opening of the Hongmeng era. Why does every Hongmeng era open, there will be 3,000 source nest stars gestating 3,000 powerful chaotic devils...etc. Everything, he can't speculate.

However, before the birth of these chaotic devils in the source nest, they were protected by the emptiness of Hongmeng, but it is unquestionable. Just like the source nest stars and the Milky Way, there is an invisible law to form the wall. This is evidenced by the obstruction of the barrier diaphragm. Hong

Although Mengkong is not like the vast world, it has the so-called heavenly will, or its natural will has a concrete manifestation, but the level of Hongmeng's void is still far above the vast world, and the various laws here operate. Power, not only exists, but also has a sense...

Ye Xuan shot stealing the sky, once or twice, for example, three times before the bloody, mosquito-like deity and the emperor Rayling were sent to a source nest star, there was no abnormal reaction. but

This kind of thing has been done a lot. The power of the law of the emptiness of Hongmeng will naturally be inductive. In the end, the sound of the thunder and thunder of these two emerges. Correct

In Ye Xuan's case, this thunder and thunder is actually a kind of warning in the power of the law of Hong Meng's virtual operation..."

It seems that time has to be grasped, and the power of the law of Hong Meng's void has already been sensed..."

In the middle of these thoughts, Ye Xuan's faint glimmer of light flashed, and the look on his face suddenly became more and more dignified: "You must hurry up the progress. Once the time is long, continue this way, fearing that something is going to happen. ....""

Oh..."

Then, he did not hesitate, turned and returned to the original position, after the lion Wanjin was in the body, he immediately rushed to the next source nest star... No

Unconsciously, it's been half a year since Ye Xuan took six people, including the Wolf Gang, from the floodplain...

In the past six months, the floods have been banned as usual, but the sorrows of the heavens and the green eyes, and the ten heavenly savage beasts headed by the \*\*\*\* scorpion, have never appeared. leaf

After Xuan's departure on the same day, the flooded Tiandao's blue eyes snarled into the wrath, and then they sneaked into the void, including the singer's \*\*\*\* scorpion and other ten-day savage beasts. From

After that, it never appeared again. ban

All the strong people in the land are not even sure whether they are retreating in their respective Dongfu stars, or they are hiding in the unknown parallel voids, or they have left the floodplain and went to other areas of this emptiness. day

Strong roads come and go freely, no traces to follow, too unpredictable...this

At this moment, in a parallel void connected with Hong Meng's void, in the endless darkness, an elliptical giant star is standing, revealing a sturdy but extremely powerful atmosphere...

The parallel void is actually the same as the endless stream of emptiness, but it is more stable, there is no endless stream of emptiness in the void, but it has nothing in the world, even a cosmic dust.

Therefore, the elliptical giant star that is now quietly standing in this emptiness sky must be a foreign object, which originally did not belong here. thing

In fact, the high-rises on the banks of the Milky Way and the supreme forbidden land in the Xingqiang stagnation, the squats in the weekdays are basically parallel spaces, and there is no connection between them. Even with its own anti-day means to open up, it is like a temporary cave house. "

Oh! ""

Oh..." Qing

The crisp and fierce cracks sounded, and in the distance of the dark void, there was a void crack, and then there was a figure that rushed out of the crack, big and small, but even the smallest figure was in the hundreds. The miles are huge.

Just ten decimals, there are ten void cracks in the dark void, and the ten figures that come out of them are in different shapes. They are all starry beasts. The atmosphere radiated from the body is very old and very powerful. This

It is the ten heavenly savage beasts under the green eyes of the ruins of the wild, and the \*\*\*\* scorpion of \*\*\*\* horns on the top of the head is in it. "

Oh..."

With the fierce beasts of the ten heavens coming, the elliptical star that stood quietly in the central area of the void was also slightly shocked. With the incomprehensible humming sound, the stars suddenly burst into a secluded green awn. Turned into a huge vertical eye of cyan. This

The vertical eye is the green eye of the wilderness.

This dark void, which is nothing like nothingness, is a hidden space that he opened up with the great gods in the void of the void of Hongmeng. On the weekdays, the green eyes of the heavens and the Taos are closed here. and

Among the geniuses of his majesty, only the ten powerful heavenly savage beasts headed by \*\*\*\* scorpions are eligible to enter here, only to know the coordinates of entering here...

In the past six months, the green eyes of the Hongshang Tiandao have been crouching in the hidden space that they have opened up on their own, but their ten heavenly savage beasts have been dispatched to perform different tasks...

When they left, the command of Qingtian Tiandao Qingyan returned after half a year. Nowadays, the ten savage beasts of the heavenly world are all returning as promised, but the situation of the tasks they are carrying out is still unknown.

"Talk about it..."

Fast, with the huge vertical eye, the green mans are faintly flashing, and the sounds of the gods of the sorrowful eyes are very low.

After the first exchange of a look, the ten heads of the heavenly savage beasts, led by the blood of the soul, successively made their voices, and the situation that has been discovered on the banks of the Yinhe River in the past six months has come one after another..."

The Forbidden City of the Magic Hall has been found, far away from our floodplain, separated by the vast expanse of the Milky Way, we are located in the middle of the left bank of the Milky Way, and the Magic Temple is located in the left section of the right bank of the Milky Way. ""

To go there, even if there is a heavenly environment, you must go from the darkness at the end of the left bank of the Milky Way to the end of the left side of the right bank of the Milky Way, and then rush, the road is far away, and the heavenly strong will take more than a month. As for the army of the wilderness, there is basically no such possibility..."

Yes, there are too many Qiangqiang forbidden places and the Xingxing Star Field on the way. A huge army of such creatures is too eye-catching. A slight misunderstanding will lead to misunderstandings, and there will be a big battle on the way and irrelevant existence... "

"As for the situation in the Forbidden City of the Forbidden City, in the past six months, there have been few strong people in the forbidden land who have stepped out of the edge of the star field. They have been huddled inside the forbidden land, but there are secret scouts. I have left one of them. Scouting the squad, there is something to gain after the soul search..."

"The commander of this scouting squad is only immortal. The level is too low. I don't understand the true secrets in the Forbidden City. But one thing is certain. That is, the main hall of the temple, Ye Xuan, half a year ago. I have already left there, and I have never returned. It seems to be carrying out some important arrangement outside..."

"And now the strongest person in the forbidden place in the Forbidden City is just a rude old-fashioned old-fashioned old pig. It is only a half-step of the cultivation of the heavens. It is simply a blow..."

"In addition, Ye Xuan's previous collection of the five elements of the innate source has been ascertained. In addition to the left bank of the Galaxy, he also shot on the right bank. Oddly, the five elements of his innate roots have already been collected. But then I don't know why, but I shot again and hunted the five elements of the beastly beast..."

"Now it has been confirmed that the second batch of the five elements of his origins in his hands, the soil, the fire, the gold and the wooden source have been collected, and the current thing is just the water source..." "

In addition, in the past six months, there have been some visions that have never been seen before, and it is very strange..."

The area where the vision occurs is not on the banks of the Milky Way, but in the vast dark void of the far side of the right bank of the Milky Way. "

"Almost every three to five days, there will be a place in the vast dark and empty sky in the far right bank. There will be a thunderous thunder in the looming, invisible atmosphere of a heart-rending law." "

At first, this kind of strange and unspeakable thunder and bang was not very intense, and the scent of Hongmeng was not very rich, but with the passage of time, nowadays, the weather is far from the first half of the year. Comparable. "

"This kind of vision is like the birth of a certain kind of heavenly will. The so-called thunder and thunder is the instigation of this kind of power like the will of heaven... even anger!"

"There is this thing..."

Hearing here, the heavens and the green eyes flashed in the gloom, even when the promotion was carried out..."

This vision is like the birth of a certain kind of heavenly will. The so-called thunder and thunder is the instigation of this kind of power like the will of heaven... even anger! "

Speaking of this, one of the heavenly savage beasts had a slight meal, and then went on to say: "What is even more strange is that these thunderous bangs have no signs of eruption, and there is a source within a hundred billion miles nearby. Nest Stars..."

"The matter has not been confirmed one by one. After all, the dark void in the far right bank of the Milky Way is too vast. The thunder and banging is short and short. It is only two or three short, and then it will be silent and cannot lock the position... .."

However, when two thunderous bangs suddenly broke out, some of us happened to be nearby, and we rushed in the first time. Two times, we found a source nest within 100 billion miles of the thunderous explosion. Star..."

Based on this, it is basically possible to conclude that the inference was just made... This strange thunder and bang is very likely to be related to the source nest stars bred in Hong Meng's emptiness! ""

Actually have this..."

Hearing here, Tiandao's green eyes flashed in the gloom, even when it was launched...

With the clearing of the eyes, the invisible force of the invisible force was instantly dispersed from his body, and it was invisibly circulated, making this darkness of nothing more secretive.

The ten heavenly savage beasts headed by the \*\*\*\* souls of the scorpion did not leave, but they crouched in the dark void around the green eyes of the ruins of the heavens, and there was no other change. They were waiting for the results of the sacred eyes of the torrents. .

In this case, they also feel extremely surprised. They have never appeared in this glory in the sky, and among the people present, only the cultivating of the heavens and the eye is the highest in strength, and it has reached the eighth level of the heavens. The ninth-order grand perfection of the heavens is not far away...

In addition, as a great world, he used to be a good-natured will, and this is also far from the ten-day savage beasts and so on.

Therefore, this kind of deduction, they can only wait for the results, they can not participate in it...

Time passed slowly, and in a blink of an eye, nine days passed.

In the past nine days, this darkness of nothingness has been quiet and there is no sound. However, the mysterious mysterious atmosphere that has been diffused from the green eyes of the wilderness is becoming more and more intense, and now it is almost inseparable. It feels. very

Obviously, his derivation has reached the most critical moment.

The myth of Tiandao's derivation is extraordinary. The general creatures can't grasp it at all. Only the incarnation of the heavenly will of a big world can involve this road. Ye Xuan has never touched it. nine

Extremely, therefore, the time of this kind of heavenly derivation is only nine days, no matter whether it is a secret, or a trivial matter, whether or not the result is derived, up to nine days, the deduction must end...

This point, the souls of the sorrows, the sorrows of the sky, the ten heavens and the beasts of the savage beasts are also clear, so now the ninth day is coming, their originally closed eyes are also opening.

It is settled in the green eyes of the flooded heavens in the center of the circle, and the faint glimmers reveal a meaning that is thick and can not be opened.

When the last moment of the ninth day is about to disappear, the huge vertical eye that has been closed is suddenly opened, and within it, a brilliant blue color is shot. under

For a moment, the sound of the gods of excitement and urgency in the low-pitched eyes of the ridiculous heavens began: "Let's talk about whether you have counted the strange and roaring sounds that have erupted in the past six months. How many times..."

It is clear that the derivation has already had a result, at least some rhythm of the clues has been found. Otherwise, it is impossible to suddenly ask this question. And

Seeing that he is so excited and eager, this matter is obviously not the same... brain

In the middle of these thoughts, the Tiandao savage beast who just happened to count the matter did not dare to hesitate, even when he responded: "The statistics have been over. For half a year, the vastness of the right bank of the Milky Way is vast and endless. In the dark void, this strange roaring sound broke out a total of twenty-eight times..."

But this is only the data when we left the right bank of the Galaxy. Now we have rushed back to the left bank of the Galaxy. It took another month on the way. According to this strange roar, there will be an outbreak three to five days. The total number of times should have reached more than 35 times now..."

Thirty-five times? Damn, this is more than a third... you must stop him as soon as possible! "One

Listening to the number of explosions of strange thunder and bang, now at least thirty-five times, the torrents of the sky are suddenly anxious, and the huge star-like eyes are green and swaying, and the deep voice of the gods reveals a smattering of meaning...this

The scene has never appeared in him. After all, he is the embodiment of the heavenly will of one big world. He is high on the top, and sees all things as a dog, a thing that can disturb his mind, and there are not many. positive

When the \*\*\*\* scorpion and other ten-day savage beasts were shocked, and sometimes they were not responding, this dark void has once again sounded the low-minded voice of the ridiculous heaven and earth. He is just now The result of the deduction, shouted..."

The result of this deduction is even more amazing than the previous Tiandaobao medicine..."

"Even if the Tiandao treasure medicine is at hand, it is only the peaks and sorrows of the ruined land. There are a few more savage beasts in heaven and earth. This is not the ultimate goal that I will gather here."

"I waited for the countless people of the whole world to gather here, and set up a floodland on the left bank of the Milky Way. I waited endlessly. The ultimate goal was to enter the Milky Way and go to the mysterious mother star. Fight for the next era of Hongmeng qi..."

The result of the inferiority of Wu Shicai is also related to the Hongmeng Qiyun of the next era. Those strange roars are indeed related to the source nest stars in Hongmeng..."

This era is coming to an end. In this vast and innocent Hongmeng, there are 3,000 source nest stars, and each source nest star is bred with a powerful chaos demon."

"Once this era is over, the next Hongmeng era will be opened. The three thousand chaotic demon gods born in these three thousand nest stars will be born. They will be the first generation of the next Hongmen era, chaotic level. Exist, far beyond the heavens..."

Unfortunately, once the chaotic seeds in the 3,000 source nest stars are budded, the source nest stars will be covered by an invisible barrier diaphragm, and the invisible barriers that protect the entire Milky Way will be inaccessible. ...."

"But now someone is stealing the sky. This person is most likely to be Ye Xuan. He doesn't know what means he can use to send the accountant to the source nest star..."

"But nowadays, there are people in the emptiness of this piece of the emptiness in the dark. This person is very likely to be the owner of the lord, Ye Xuan. He did not know what means he used to send the shackles into the source nest. ...."

"Heng Meng's void is not as good as a big world. It has the will of the heavens in different forms. However, the power of the law of Hong Kong and the void has always affected this mysterious great void..."

"The three thousand source nest stars were born in the first generation of the Hongmeng era, the chaotic level of the demon gods, Ye Xuan to the account of the subordinates into the source nest stars by unknown means, Instead, it's no doubt that it's no secret, it's also stealing the next era's glory..."

This kind of thing has a natural feeling of emptiness. If it is once or twice, it is because this person is so daring, and repeatedly shots again and again. Within half a year, he has stolen 35 sources of stars. Air transport, successfully put the 35 surnames of his account into the source nest star, replacing the chaos demon inside, into the sleep of gestation..."

"Because of this, once again and again, Hong Meng has a feeling of emptiness, will send an unprecedented sound of strange thunder, this is a warning, but he apparently has not been deterred, did not stop... .."

"Hong Meng's void has no specific natural will, this is beneficial, but there are also drawbacks. Now, Ye Xuan has drilled this loophole, and has shot more than 30 times in succession. All of them have successfully stolen the sky, which is the manifestation of its drawbacks..."

"Unfortunately, I can't interfere with this matter, but if I continue to do this, there is a limit to the power of the law of Hongkong and the void. Once this line is touched, there will be a terrible disaster. What kind of changes will happen to the entire Hongkong void? No one knows, but the Lord of the Devil's Temple, Ye Xuan, must be obliterated by the invisible laws of Hong Meng's emptiness..."

"This line is no longer the case. Nine is the number of poles. The number of ninety-nine is the ultimate. The main body of the temple, Ye Xuan, steals the sky. Every time the shot breaks the invisible barrier diaphragm of the source nest, it will trigger the void. When the force of the law is sensed, it is contaminated with a trace of cause and effect..."

"The limit of this causality is ninety-nine times. Once this line is touched, the force of the law of Hong Meng's void will soon erupt, and the black hand that will destroy the invisible barrier of the source nest star will be wiped out!"

Speaking of this, the words of the green eyes of the wilderness are slightly louder, and only after a few moments continue, the excitement in the voice of God is more obvious: "That is, if only 98 times, it is extremely dangerous. But basically there will not be too serious accidents..."

Nowadays, Ye Xuan, the master of the magic hall, has already shot more than 30 times. This kind of stealing opportunity has used one-third of the opportunity, but there are still more than sixty times..."

Although I am not sure what method he is using, he can shatter the invisible barrier that has been condensed by the power of the law of Hongkong and the void. Send it into the source nest star, and start stealing the sky. "

"But one thing is certain, that is, as long as you find the main Ye Xuan of the Temple of the Devil, and try to force him to submit, then the same opportunity to create a group of my ancestors can also have ..."

If you are moving, you can all enter the source nest star, replace a chaotic demon god, and then enter the sleep to nurture, until the era is completely over, the next era is opened, then the identity of the first generation of the soul chaos demon, with a copy Hongmeng air transport... turned out! "

"It's not just the ten of you, including the dozens of people who have not yet entered the heavens and the sacred peaks of the ninth-order land, and can enter the source nest stars to steal the sky..."

This is a kind of accumulated savings, violent and direct. At present, it may not have much significance. There is no obvious help for the next Qimeng era of gas transportation, but as long as this era is completely over, the next era will be opened. It will be revealed in an instant..."

After all, the entire era of Hongmeng's void has only produced three thousand chaotic devils. In one era, the eternal existence of the parent star is half, and the three thousand chaotic devils are divided into half..."

"Once the next Hongmeng era is opened, every one of my first generations of chaotic demon gods, under the pressure of the parent star, can be more abundant..."

So, in any case, you must find Ye Xuan, the master of the temple, as soon as possible. In the end, there are only about 70 times left, and every three to five days will be lost. This is a huge loss. , almost unbearable..."

"Hey..."

Chapter 5103: Lord of the Temple

After the last sentence is finished, the sorrowful sky and the blue eye are no more words. The huge vertical eye that looks like a star in the sky, but a sudden whistling sound, reveals endless excitement and unwillingness. he

According to the shackles, this kind of opportunity and creation far exceeds the meaning of the previous Tiandaobao medicine. It is violent and direct. It is simply to harvest the next century's glory and luck, and there are not many opportunities. Time is extremely urgent, even if it is calm, it can no longer calm down...

Around the darkness of the void, the Tiandao Qingyan, headed by the blood of the soul, has ten heavenly savage beasts, and they are all stunned at this moment. flood

The words of the ridiculous eye of the eye are too astounding, and they simply overwhelmed their previous cognition.

For the source nest stars, they naturally know, and they are quite familiar with it. Even the ten of them all moved into a source nest star, and replaced the chaotic seeds that were born in it.

But this kind of thing can only be seen. The chaotic seeds in the source nest stars can't enter again once they are budded, so they just thought about it before, not too careless, because it is almost impossible... who

Unexpectedly, suddenly, this almost impossible opportunity suddenly became a reality. When I thought that I might enter a source nest star, I would start stealing the sky. After a few years, the next Hongmeng era will be fully opened. Born out as a powerful chaotic demon, these ten heavenly savage beasts are inextricably excited...

"Ye Xuan's kid is slippery like a muddy, it's not difficult to find him, but it's not easy to force him to follow suit..."

Just as the ten heavenly savage beasts headed by the \*\*\*\* souls of this singer are excited and fascinated, like the huge giant eyes in the stars, the green awns flash.

[illegible]

Just, isn't he still a source of water? The Whale and Dragon Friends of the Whale-Dragons are also born with innate spirits, and the property is just water. With his help, my grasp has risen by 30%..."

"This time it is a matter of chaos and demon, it will directly capture the glory of the next era. There is absolutely no loss. With the strength of Wuheer, I am afraid that it is still impossible to ensure that he will be suppressed. The heavens join hands..."

After everything is roughly clarified, the stars in the huge vertical eyes will instantly smash a cold cold mang. flood

The sound of the gods of the blue sky is also more low: "Exactly, isn't he still a source of water? The whale dragon banned by the whale dragon is also a born creature, and the property is water, there is him. With help, my grasp has risen by 30%..."

He said that this whale and dragon friend is also a powerful and incomparable Tiandao. The strength is similar to that of the wilderness. Although it is only the eighth order of the heavens, it is not far from the ninth-order Tiandao peak. It can be said to be quite equal.

Recently, Hongyan Tiandao Qingyan and Ye Xuan have already played against each other twice, whether it was the forbidden land in the right section of the left bank of the Galaxy, or later set up in the flooded forbidden land.

Two times, Ye Xuan relied on his own strength to face more than ten heavenly and powerful people, but he still managed to walk smoothly and easily.

With these two precedents, the sorrowful Tiandao Qingyan is now extremely jealous of Ye Xuan, and has never before paid attention to it. Even the vagueness has surpassed his destined deadly enemy headless baby corps...

It was the last time that he set up a green scorpion to lure the enemy in the flooded ban. It was an easy task, and he was ready to do everything. But in the end, Ye Xuan still took the time to take it easy.

After walking away, he actually turned back to the door with impunity, and took away some of the descendants from the three major star planes of the world...

It was also the time that the flooded Tiandao Qingyan was shocked that his repairing power had once again broken through. In a short period of time, he did not see a new level. Now, under the anti-skyistic powers, his peak power has already It is almost the same as itself, reaching the eighth order of heaven and earth...

Now that Ye Xuan has left, there are still some time. According to the derivation and estimation of the Qingyan Tiandao Green Eye, he should have not broken through again after he left. but

It is estimated that the distance is once again a breakthrough.

Things are no small matter, you can't wait any longer.

This person not only has Tiandaobao medicine, but also masters the secret law of stealing the sky, and this opportunity to steal the sky has been used by his horrible one-third, and at most it is only 60 times. Up...

And, in the end, there are only sixty chances of stealing the sky. Every three to five days, it will be consumed once. The guy didn't close his hand and continued to make trouble...

Therefore, no matter from which point of view, the current situation has been severely extreme, and it must not be dragged on. Otherwise, not only will it miss the opportunity of stealing more than 60 times, even the Tiandaobao drugs. I can only hope that the ocean will sigh. With

With Ye Xuan's growing strength, it is no longer possible to suppress him later. thing

In fact, even today, this opportunity is already very embarrassing.

Ye Xuan now has the same eight-order terrorist strength as Tian, but the guy has the secret of blood and sea. Once it is displayed, it can be turned into three in three, and the three bloods and seas have the same strength. . again

Plus the powerful and powerful Shentong bow in his hands...

It can be said that even two or three eighth-order heavens that have been repaired like the blue eyes of the wilderness are now difficult to let Ye Xuan suffer. but

He is quite confident about the whale-long friend mentioned earlier. This

The head whale dragon not only cultivated strength, but also reached the eighth level of heaven and earth. The distance from the ninth-order Tiandao peak was only one line apart. He is a congenital beast and possesses a very special blood and magical power. If it is too late to prevent the sudden display, and with the assistance of the green eyes of the wilderness, there is definitely more than 60% of the grasp, can suppress Ye Xuan...

"More than 60% of the wins have been great, but they are still not enough. We only have one chance. If we miss it, it will be impossible. Therefore, this time we must ensure that nothing is lost..."

Speaking of this, the star-like cyan color has a faint glimpse in the eye, and the light is locked toward the blood of the soul. After a little indulging, the low voice of the gods sounds again: "This time, the main shot, mainly It's mainly based on the whale-swallowing method of Whale Dragon's friends. It's not forced to suppress by force. It's useless to go to people..."

However, the blood of the soul is awesome to the whale-dragon's whale-swallowing method, but it has certain auxiliary effects. "

"If you have participated in it and you have the opportunity to take the time to do it, my grasp will at least be 10% higher... So, it is more than 70%."

Although it is still not perfect, but 70% has exceeded two-thirds, it is worth a try..."

"I will leave. I may not return in the near future. Except for the sorrowful spirits, I will leave two heavens to lead the 20 powers to the forbidden land on the right bank of the Milky Way."

"The remaining seven heavens, there must be no rash movement, stay here, and on behalf of me... sit in the floodplain base camp!"

"As for the two heavens that go to the right bank of the Milky Way to crusade the Forbidden City... Remember, you are just creating the momentum. The purpose is to force Ye Xuan back to the Forbidden Hall. The war is not too intense, and the time can be slightly delayed!"

call out....."

Speaking of this, the Hongyan Tiandao Qingyan is no longer saying anything, it is like a star-like giant green eye, suddenly shot a secluded green awning, shrouded the \*\*\*\* body in the far side of the right side of the body, under the flash It disappeared in an instant. "

Oh..."

"boom!"

"Booming..."

In the next moment, accompanied by a crisp and fierce crack, the dark void in front of Tiandao Qingyan immediately sounded the thunderous thunderous sound...

The road void crack appeared out of thin air, and the green eyes of the heavens did not hesitate any more. Just like the meteor swaying, it rushed directly into the void crack and disappeared.

Oh..."

call out!"

"Hey..."

He took the blood of the soul and left, and the nine heavenly savage beasts who were squatting in the darkness of the sky also immediately launched an action, tearing a void crack and returning to the floodplain at the first time.

Among them, the seven beasts of the beasts stayed and replaced him in the floodplain in accordance with the will of the blue sky.

As for the other two great beasts, they took the soldiers from the floodplain. They only brought 20 powerful beasts of the ancient power level, rushed out of the floodplain, and rushed to the forbidden place in the left section of the right bank of the Milky Way. ....

The strength of these two great beasts is not weak. One is the third order of the heavens and the other is the fourth stage of the world. They are all in the middle of the realm. Now Ye Xuan is not in the middle of the temple, they are led by two of them. Twenty powerful shots are enough to suppress...

"Hey..."

"Oh la la..."

"Roar!"

Oh..."Hong

In the banned land, the chain squeaks, and the roar and screams of the beasts are one after another.

Looking forward, the central star field of the forbidden land, huge as a star-like furnace, is fascinating. The 20,000-odd chain of the outer wall of the tripod is so strong that it is as long as a million miles, just like a snake.

In the void around, there are many starry beasts.

Under the breakdown, it is clearly the existence of twenty ancient power levels. In addition, there are two great beasts of heaven and earth. This

The strength of the two savage beasts is not weak. One is the third-order blood-winged tiger in the heavens and the other, and the four-ordered golden-eyed beasts in this world are all in the medium term. press

According to the estimation of Qingyan Tiandao Qingyan, now Ye Xuan is not sitting in the magic hall, and they both lead the twenty-powerful shots, which is enough to suppress.

Soon, the 20 powerful wild beasts of the ancient power level rushed into the furnace and disappeared. and

Among the two great savage beasts, the fourth-ordered golden-eyed beast in the heavens will be turned into a belly of a mans in the first place, and then screamed.

The screams of arrogance have not yet fallen, and the golden-eyed beast rushed out of the floodplain with the blood-winged tiger, and rushed to the forbidden place in the left section of the right bank of the Milky Way...

At the same time, the middle part of the left bank of the Milky Way made the dark void in the right...

"Oh..."

The crisp and fierce cracking sounded, and the blue sky of the wilderness rushed out from a crack in the void, and did not stop, but spurred straight toward the end of the void. This

In the direction of 100 billion miles, it is the location where the whales are forbidden. whale

The dragon ban is also a famous name on the left bank of the Galaxy. It is ranked on the left bank with its current overall strength. Although it is still unable to enter the top ten, it can enter the top 100 just like the flood control. to

In the top ten of the left bank, the forbidden land and the sacred land of the beasts, it is absolutely the place where the ninth-order land is located in the peak of the heavens. The average person does not dare to provoke, the status is too detached.

The strongest person who sits in the forbidden city of the whale dragon is the whale dragon said by the green eyes of the wilderness. It is the same as the blue sky of the heavens and the heavens, and it is the eighth step of the heavenly horizon, and the peak of the heavens in the ninth order. Not far away.

In addition to this whale dragon, there are also more than ten starry beasts in the forbidden land, all of which are the subordinates of the whale dragon. The overall strength is extremely powerful. to

Under the heavens and the ruins of the ancient times, the Whales and the Forbidden Land even surpassed the floodland, and there are nearly a hundred of them. The high-end warfare structure is so terrible that the fierce beasts are forbidden. This is absolutely unimaginable.

Even if Ye Xuan hunts the ancient Supreme, if he encounters such a fierce beast, the final result will not have any suspense. No matter how enchanting his means are, he can only die. but

This situation was obviously impossible in the past. In the past, even if the whales were forbidden, the starry beasts of the heavens and the earth would only have one. This

Since the beginning of the era, the three thousand chaotic demon gods bred by Hong Meng's void have opened up a lot of big worlds. After the big world is shattered, the strongest ones in it have come to the galaxy with the surviving souls of the whole big world. Both sides. group

We will build a starry sky and a forbidden star field, while living here, waiting for the Galaxy Star to open, so that we can compete for the next era of Hongmeng...

And the banned land is the last big world that has been shattered. With its destruction, the high-level scuttles on the banks of the Milky Way and the high-ranking people in the sacred land have realized that the moment of the complete ending of the Hongmen era is coming, and this is the case. End of sleep is born! From

The wilderness is forbidden to go to the Whale Dragon forbidden land, and the direction to the left bank of the Forbidden City is different.

From the floodplain to the forbidden place of the magic hall, you need to go to the end of the left section of the left bank, from there to the right bank of the Milky Way, and then rushed to the magic hall. and

Although the floodland and the Whale-Dragon ban are all located on the left bank, the floodland is in the middle of the left bank, while the Whale-Dragons ban is located in the middle of the middle and right sections of the left bank, rushing there, in the opposite direction.

Therefore, the blood-winged tiger and the golden-eyed beast of the ruined land will lead the 20 ancient savage rushes to the right bank of the Forbidden City, and must arrive first.

And the blue sky of the wilderness needs to go from the opposite direction to the Whale Dragon forbidden land, after a slight delay, then turn around and pass the dark zone at the end of the left bank of the left bank, and then go to the Forbidden City forbidden land, and must arrive after them...

"call out....."

The faint sound of the air broke out. Two days later, the green eyes of the wilderness finally reached the Whale Dragon forbidden.

There was a crack in the void, and a figure stepped out of it. It was a middle-aged man in a green robe, with a national face and a majestic face.

In the past, when the flooded world was in the world, the green eyes of the wilderness had never changed. They were all represented by a huge blue-eyed body like a star. The light in the blue eyes was cold and cold, and it was revealed. Everything is in the mood.

But nowadays, the world of the wilderness has already collapsed completely. The mirror has just been merged and it has been swallowed up by the endless stream of emptiness. The so-called ruins of heaven and earth will be cherished for the ordinary creatures in the emptiness of the sky, but only for the strength of the pyramid. High-level only.

In this case, if it is faced with a weaker existence than him, but the whales that are going to visit now are just like him, but the whales that are only one line away from the peak of the ninth-order heaven. The superiority of Tiandao Qingyan does not exist anymore. Therefore, it is the meaning of the change of a person who is now a Qing robe.

"Daoyou stopped..."

To the edge of the star field of the Whale Dragon forbidden land, a low voice was easily conveyed in front of it. A blue-robed old man walked out from the void, and the body was filled with the breath, which was the eighth order of heaven and earth.

Undoubtedly, this existence, which also changes to the form of the survivors, should be the strongest whale of the whale dragon. Make

For the eighth-order heaven, and the arrival of the sorrowful blue eye, it did not deliberately conceal the cultivation of the body, so he naturally felt it in the first time.

The existence of this level is not far from the peak of the ninth-order heaven. Whether it is a goodwill visit or a stagnation of whales and dragons with other purposes, it is impossible for other heavenly powers in the forbidden area to cope. Therefore, this powerful whale dragon appeared on its own initiative...

"This must be a whale-long friend... The friend doesn't have to worry about it. I am the wilderness of the floodplain in the middle of the left bank of the Galaxy."

To the whale dragon, the blue sky of the wilderness stopped the figure, and the face showed a kind smile. He smiled slightly and then he took it: "Today, I have two things. One is to warn the Taoist friend. Enemy, the second is to send a friend to make a good..."

"Showing the enemy? Sending a good job?"

Beyond the tens of billions of miles away, the whales and dragons in the void of the sky flashed and faintly said: "I want to hear the details..."

"First talk about the creation of the Taoist friend..."

The ridiculous Tiandao Qingyan jaw nodded and smiled and said: "I must know that the Taoist friends also know that in this vast and innocent Hongmeng, there are 3,000 source nest stars, and each source nest is staring with one Powerful chaos demon..."

"Now the Hongmeng era is soon half-finished, and the next Hongmeng era will be opened. The three thousand chaotic demon gods born in the three thousand source nest stars will be born, they will be the next Hongmeng era. A generation of creatures, the existence of chaotic levels, far beyond the heavens..."

"The so-called stealing of the heavens, the Taoist friends must understand, but once the chaotic seeds in the 3,000 source nest stars are budd, the source nest stars will be covered by an invisible barrier diaphragm and protect the entire galaxy. Invisible barriers come out of the way, and they simply cannot enter..."

This matter is now being done by someone. He does not know what means he used to send the shackles into the source nest, and this is a natural feeling. If it is once or twice, it is this person. It's so daring, and it's shots again and again..."

Within a short period of six months, he has stolen thirty-five source nest stars and successfully transported 35 of his family members into the source nest star to replace the Chaos Demon. Entering into sleep and gestating..."

"It is precisely because he has repeatedly shot, and Hong Kong has a feeling of emptiness. In the endless dark void in front of the right bank of the Milky Way, there will be unprecedented and strange thunderous sounds every three or five days..."

"You and I are all incarnations of the heavenly will of a big world. The Taoist system of the Taoist system must understand that a few days ago, I used this technique to derive the final result..."

Nine is the number of poles, and the number of ninety-nine is extremely extreme. This person steals the sky, and every time the invisible barrier diaphragm that destroys the source nest star will infect the force of the law of Hongmeng, it will be contaminated with a trace of cause and effect..."

The limit of this causality is ninety-nine times. Once this line is touched, the power of the law of Hongkong's void will soon erupt..."

"Now, the existence has been shot more than 30 times, such a stealing opportunity has used one-third, but there are still more than sixty times..."

Although I am not sure what method he is using, he can shatter the invisible barrier that has been condensed by the power of the law of Hongkong and the void. Send it into the source nest star, and start stealing the sky, but one thing is certain..."

"That is, as long as you find the person to find it, and try to force it to follow the example, then the same chance to make a living under the shackles of the Uighurs can also have ... these 60 or so stealing opportunities, I am willing to do with the Friends of the Five Five equals!"

"As for why it is a Taoist friend, not the other peaks of the eighth or even the ninth-order land on the left bank of the Galaxy, this is naturally also a reason. The next thing to say is that I just said to the Daoyou. Enemy..."

Do not know friends can know the starry sky storm? "

Having said that, the Tiandao Qingyan He is just a ruinous situation. Because he has some kind of anti-sky secret law without time limit, he can improve a big realm, so he has the power of heaven and earth."

Not long ago, this son appeared again, and there was no small movement on the left bank of the Milky Way. The Taoist friends must have heard it. The devil wolf banned the battle, and I joined forces with more than ten heavenly Taoist friends, and never left it..."

"In his hands, there are not only Shennong Baoding, but also the nine-color flame sea, and even the secret law of blood and sea.

"Previously, this article collected five medicines and distilled the Tiandaobao medicine. Since then, he has collected the five medicines again. The purpose is very likely to be a refinement of Hongmengbao, which is suitable for the strongest people in my heavenly environment..."

"And according to the reliable information I have mastered, among the five treasures of medicine collected by him for the second time, Jin Yin, Huo Yin, Tu Yin and Mu Yin, four treasures have already arrived. The current difference is just water. Medicine..."

"And the Taoist friend is precisely the innate beast of the water property. The dragon ball in your body is exactly the water treasure medicine he needs. This child is naturally unruly and dare to shoot and kill the ridiculous monster. His current cultivation is the same as that of his friends. It is the eighth order of heaven and earth, and there is no reason not to find it."

"So, my choice is a Taoist friend, because you have no reason not to take the shot. This is the enemy of you and me. You must cooperate with each other to be successful..."

"what do you mean....."

Hearing here, the whale and dragon in the middle of the cold flash, took the words: "The one in the dark void in front of the right bank of the Milky Way looking for a source of nest stars to steal the sky ... is this starry sky?"

"Accurately speaking, it should be the Lord of the Temple of the Devil in the Forbidden City... Ye Xuan!"

The slightest jaw, the ridiculous Tiandao Qingyan went on to say: "The so-called starry sky is just an incarnation of his cover. This person is a human race. Now in the left section of the right bank of the Milky Way, a fierce beast is established..."

"There is a mixture of fish and dragons in the Forbidden City. There are not only starry beasts but also beneficiaries. But apart from Ye Xuan himself, the strongest in the Forbidden City is just a degraded nine-step old perfect pig. Fine only..."

Nowadays, Ye Xuan takes his savage and eagerness to go to the endless dark void in front of the right bank of the Milky Way to find the source nest star to steal the sky. Therefore, the strongest person in the forbidden place in the forbidden place is the old pig. ...."

Speaking of this, the face of the green eyes of the ridiculous heaven and earth showed a pleasing color. After a few moments, it was again called: "Two days ago, I have sent two mid-day savage beasts from the flooded ban, with two Ten heads of sorrow and power go to the Forbidden Hall..."

They must arrive there before I and my friends. The first time I will attack the Forbidden City, but I will not immediately attack it. This is the support for the perimeter..."

"The Forbidden City of the Magic Hall was created by Ye Xuan, the master of the Temple of the Devil, and the temperament of this person is violent, but it is also extremely ruthless. There are many his abdomen in the Forbidden City, as long as there is something in the temple. He must have heard back when he received the message..."

"As for you and me, you can first determine his position, and then set up an ambush on his way to the Forbidden City."

At this point, Whale Dragon waved his hand: "Since the Taoist friend has a perfect strategy, what is hesitating? It is just a moment to start..."

Oh! "flood

The blue sky of the ridiculous road did not hesitate any more, and the words immediately waved, and in a moment they tore a hollow crack in the void on the right side, and the two looked at each other across a distance of 10 billion miles. cross

After changing one's eyes, they stepped one step at a time and swept into the crack of the void. The body shape disappeared and disappeared...

Chapter 5104: The magic hall bans the ground

On the left bank of the right bank of the Milky Way, the magic hall is forbidden! Count

Counting time, Ye Xuan left with a group of elites, and now it has been more than a month...this

For more than a month, the Forbidden City has been banned from calm. According to Ye Xuan's instructions before leaving, in addition to the necessary scouts, the entire Great Hall, no other strong man is walking outside...

Today's Forbidden City is indeed the same as the situation in the wild, and Ye Xuan is not sitting in the forbidden place, but it is not without strong people. in

In the eyes of the wilderness, it seems that the Emperor Ye Xuan has always been with him, but in fact, this time he left, Ye Xuan left the emperor in the Forbidden City. emperor

The beast is the powerful existence of the second order of the heavenly environment. Besides him, he has the ruling nine-order great consummation, that is, the four kings who have been repaired in half-step heaven and earth, and now in the body of the beast. leaf

Xuan now sends the beast to the body of the engulfing treasure, that is, let him stay with the engulfing treasure, sit in the magical hall and ban the land, the beast can fight alone, or wave the four kings to sacrifice, differentiate four 缕 Electronic consciousness entered into it, together with the four kings, a large four small five mechanical beasts, fighting together.

In this way, even the third-order heavens, no matter what, the emperor and the four kings joined forces, enough to protect themselves from the front. again

Coupled with the devour of the treasure and the old pig essence, the magical hall is forbidden to naturally no longer have to worry.

Although the engulfing treasures and the old pigs are still only half-steps of the nine-order grand perfection, in fact, the realm of the two people's cultivation is only one line away from the real heaven.

There are emperors sitting in the town of the Forbidden City, they can completely take turns to retreat, impacting the heavens. when

However, it is impossible to close the customs at the same time, because the emperor will not pay attention to the customs in the forbidden place of the imperial palace. It narrows its figure in the weekdays and sits in the interior of Ye Xuan's Dongfuxing, and basically does not show up.

In fact, after Ye Xuan left, even if the old pig Jingjing entered the retreat, his magic pig turned into a sixth change, and in the sixth change state, he possessed the absurd ninth-order great perfection. And its own cultivation is the realm of the second step!

The second-order absurd, once he activates the \*\*\*\* magical power of the magic pig, he will be able to enter the third stage of the desert, and then the subsequent six changes will improve the strength of the six small steps, which is just the absurdity. The ninth order is perfect.

However, after Ye Xuan left, the old pig essence took only three days to break through a small order of cultivation, and his own realm reached the third stage of the desert, so in the state of the sixth change of the magic pig, his The peak force has reached the first level of heaven and earth...when

However, if it is in the vast world of the wild, this is impossible, because it has been suppressed by the heavens of the big world, the magical effect of the magical pigs has only stopped in the heavens. With

After the old pig fined out, Ye Xuan's engulfing treasure immediately retreats, and his nine-step grand perfection of the ruined peak is actually real, which has even surpassed Ye Xuan's deity.

Therefore, this time, engulfing the treasure retreat is to attack the real heaven and the environment, and walked to the front of Ye Xuan's deity...

Nowadays, there have been more than a month of engulfing the treasures of the treasures, but they have not yet gone through the customs. In the sixth change of the magical pigs, they have already possessed the first-class combat strength of the old pigs, which is also in the whole month. Force to promote the follow-up three changes of the magic pig nine changes. or

Xu is because the self-cultivation is the strength to break through the heavens in the sixth state of change, and the power of the gods has skyrocketed several times. This time, it only took one month, the last three changes of the magic pig nine changes, They are all derived from the old pigs.

This is absolutely extraordinary. Although he is not reconciled, his own cultivation is still in the third stage of the past, but since the last three changes of the nine changes of the magic pig are all derived, they immediately make their own peak strength. , skyrocketing three small steps. One

A month ago, after he broke through to the third stage of the desolation, in the state of the sixth change of the magic pig, the peak power has reached the first level of the heavenly state, and now it has skyrocketed again, reaching the fourth stage of the heavenly state.

As a result, there are two powerful existies in the forbidden land in the current imperial palace.

The old pig is the most powerful, and in the state of the ninth change of the magic pig, it has already entered the middle of the heavens, which is the fourth-order heaven.

The repairing power of the beast is slightly weaker. It is a second-order heaven, but with the four kings, it can fight against any third-order heaven. Two

Respect for heaven and earth, one third-order, one fourth-order. This

Just like the strength of the blood-winged tiger and the golden-eyed beast sent out by the green eyes of the wilderness, it can be said that the two old guys may not be able to take advantage of it even if they are now on the forbidden place. to

In order to follow them, the twenty peaks of the great powers and the ancient supremes... Don't forget that there are seven great repairs in the Forbidden City, the Kowloon Black Dragon of the Dragon Dragon, and other high-rises in the Sixth Army of the Magic Hall. Basically the strength is equal! This

One thing, I am afraid that the blue eyes of the wilderness are not expected in any case...

In fact, there is still a real fierce person in the forbidden area of the magical hall. It is Ye Xuan's engulfing treasure. It has been more than a month since the retreat of the treasure. He rebuilt as a force in the ruling before the retreat. When the great perfection is completed, it is capable of fighting the first-order heaven. This

Absolutely amazing, because he is different from Ye Xuan.

Devouring the treasure, Ye Xuan deliberately let him take a different path from the deity. Ye Xuan's deity has various secrets, all kinds of treasures, his real combat power has been far beyond his own realm, the more the order and even the cross-border battle, right For him, it is commonplace. but

I have to say that this is basically relying on various mysteries and treasures.

The devour of the treasure is different. He does not have any treasures outside his body, nor does he have any secrets. Some of them only have a congenital engulfing treasure. His combat power is completely manifested in his own strength. This

In this case, you can defeat the first-order heaven in the ninth-order grand perfection, and the horror of its talent can be seen.

This point, although he is a avatar, but in the realm of cultivation has already surpassed Ye Xuan as the deity, and even before the retreat of Ye Xuan, it is also a circumstantial evidence.

After all, it is the innate devour of the treasure, the whole body is condensed by the purest innate phagocytic nucleus, which is different from the flesh and blood talent, but understandable...

It is said that once the treasure is swallowed up and enters the real heaven, the horror of its combat power can be expected. At least, the first step of the heavenly path is absolutely impossible to be its opponent. Even the second-order heaven may not be able to A battle with the devour of the treasure.

If you want to fight against him and not fall behind, I am afraid that at least it must be the third stage of heaven and earth...

"Oh..."

Oh la la..." this

At this moment, the originally quiet temple of the forbidden land, suddenly burst into a crisp and fierce sound. One

The void of the road appeared, and the shackles of the mound were heard inside, and the numerous powerful people in the forbidden place of the magic hall were instantly alarmed.

"Oh..."

After leaving Ye Xuan, for more than a month, the entire imperial hall was originally quiet, but at this moment, at the edge of the forbidden land, suddenly there was a crisp sound of cracking. One

The road void crack appeared out of thin air, and there was a slamming chain slamming sound in the mound furnace. It instantly alerted the countless strong people in the forbidden place of the magic hall.

"Hey..."

In the next moment, accompanied by a sharp and unpredictable sound, a huge figure rushed out of the void, which is a huge star-like furnace, and the 20,000-odd chain of the outer wall of the tripod is extremely strong. As long as a million miles, like a snake, it is always twisting...

"Hey..."

As the furnace came, soon, twenty-two figures were rushed out of the furnace. The size of the body was large and small, and the shapes were different. They were all starry beasts. to

Yu Xiu is the strength, it is the two heavenly realm, the ten desolation, the ten ninth-order great perfection of the ancient power! first

I said before, this time, the reason why the ridiculous Tiandao Qingyan sent this elite team is not to ruin the magical hall, but to suppress it.

Although the Forbidden City of the Magic Palace is also a strong forbidden land on the right bank of the Milky Way, in fact, in addition to the Lord Ye Xuan, the Lord of the Devil, and the Emperor of the Emperor in his hand, all other existences in the Forbidden City of the Magic Hall have not been blinded by the evil eye. Put it in the eyes, including the old pig essence that he thinks is only a ridiculous nine-step great consummation. can

It is said that as long as the Lord Ye Xuan of the Temple of the Devil is solved, the small magical hall is forbidden, and he can be destroyed between his thoughts, and even there is no interest at all. This

Once he sent an elite squad to come to the Forbidden Hall for the purpose of banned the aid, and forced Ye Xuan, the Lord of the Devils, to come to the rescue. In this way, naturally, it would not be possible to use the powerful force to completely suppress it. Place

In addition to the two powerful beasts of heaven and earth, this time there will be ten desolation among the teams that come here, and even there will be ten ninth-order great consummations of the ancient powers. The power of all major realms is there. In this case, it is only possible to avoid killing chickens with a knife. Do not

However, the magic hall rushed out of the forbidden area, and the arrogant beasts of the heavens and the kings will be shot, which is too boring and boring...

In fact, at this moment, after the smoldering rushes out of the crack that suddenly appears, it stops in the void, and the position of quietly hovering is not inside the forbidden place of the sacred temple, because then, the all-out war will begin in an instant. However, it is inconsistent with the task of giving them a confession.

At this time, the position where the furnace is suspended is just the inner side of the edge of the forbidden land of the magic hall. If it is to be inside the gate, the forbidden army in the forbidden place of the magic hall will be prevented from escaping...

"Roar!"

Hey! "

"Hey..."

The body shape rushed out of the furnace, and the twenty-two powerful beasts of different shapes and sizes were immediately arranged in two rows in front of the furnace.

In the back row are ten desolation monsters and ten peaks of power. In the front row, there are only two beasts, all of which are 50 million miles. It is the fourth-order blood tiger and the fourth-order heaven. Blue gold clear beast..

As soon as they appeared, these twenty-two powerful beasts spurred the body's repairing breath to the extreme, turning it into a divergence to the front, and instantly making the entire imperial palace a forbidden place.

In the depths of the Forbidden Earth in the far distance, the sacred genus of the abandoned stars did not show up. The various warships, fortresses, stars and stars and other battleships around the stars were also suspended. Do not move. This

A level of war, they are useless to rush, naturally no need to go to death.

In fact, even the black temples in the stars of Ye Xuan Dongfu did not move. The seven major retreats in the black hall seemed to have no intention of appearing. "

Oh..." but

Almost at the next moment, Ye Xuan's Dongfu star suddenly sounded a horrible roar, and a spur of the horror of lightning surpassed the lightning.

In the blink of an eye, it has reached the empty land on the edge of the starry field, and the invaders who control the gate of the forbidden land in the magical hall are stopped by a distance of 100 billion miles. ....emperor

The beast is the scorpion and body of the mechanical beast and the heavenly beast. It is the episode of the whole celestial family and the whole mechanical family. It is a giant of 500 million liters. It is a giant star in front of it, and it is like a small one.

It stands on its own feet, with four arms and four arms, and a pair of huge mechanical wings that are like a sickle. This pair of wings is a characteristic of a mechanical beast, and its head is a myriad of facets combined like a hive. Body, this is the characteristics of the heavenly beast. Such as

Today, Ye Xuan's electronic avatar has settled in the body of the emperor, so that it has been repaired to reach the second level of heaven and earth. Nowadays, this repair is diffused and can be described as powerful.

Adding the body shape of the \*\*\*\* beast to 500 million miles, it is the giant blood tiger and the golden-eyed beast of 50 million miles. In front of him, it is like a small one, so that it is weak in a moment.

It can be said that only the emperor rushed out from Ye Xuan's Dongfu Star, and this open space on the edge of the forbidden land was only in the momentum, the forbidden place of the temple was not weaker than the other hundred billion miles away. This invading squad, and even still have it... watch

To the opposite side of the tens of billions of miles away, there is such a huge size in the void, and the strength has also reached the second-order mechanical beast of the heavenly environment. The 22 powerful beasts that have just arrived are in the forbidden land. but

It's just a glimpse. They don't realize that the situation in the hands of the young people in the wild is seriously inaccurate. After all, they are only just the beasts..."

call out! ""

Oh..." very

Fast, with the wave of the beast, four volleys rushed out, hovering around on the side of the body, it is the giant giant winged beast with a four-head shape of 50 million miles, the basic form is exactly the same, People stand by, wings are like knives, only subtle, different!

These four mechanical beasts are the four kings. Ye Xuan's mechanical avatar is now extremely powerful. He can divide hundreds of millions at random. Now he has divided four electronic consciousness into the body of the four kings. Therefore, the four kings are actually Ye Xuan's electronic avatar is in sync with the consciousness of the beast. If it is to fight with the hand, the absolute match is seamless...

The four kings of the winged beast form have different patterns on their chests, just like a logo.

From left to right, the logos of the chests of the four-winged warriors are a purple gold veil, a skull with a one-horned beast, a full-length gray slime, and a red \*\*\*\* Blood mosquitoes...to

In the strength of the four kings, they are all the ruthlessness of the ruins of the ancient ruins, that is, the half-step heavenly environment, which obviously did not attract the attention of the blood tiger and the blue gold beast. After seeing the four kings, Their dawn is almost no fluctuations... with

With the arrival of the furnace, the twenty-two powerful beasts headed by the blood-winged tiger and the golden-eyed beast were born, and they radiated a sense of pressure, covering the entire forbidden place. The emperor sitting here immediately rushed out of Ye Xuan. The Dongfu stars, between the waves, the four kings also rushed out of the body, in the left and right emptiness...

The cultivation of the four great kings has not changed, and they are still all the great successes of the ruins of the ancients, that is, the half-step heaven.

This obviously did not cause the attention of the blood tiger and the blue gold beast. After seeing the four kings, their dawn has barely fluctuated! but

Then, a shocking long cymbal sounded, and the invisible scent of breath, instantly let the blood-winged tiger and the golden-golden beast shape, and subconsciously turned to follow the prestige..."

Oh..."

The long gongs rang, and a thousand awnings rushed out from an abandoned star in the distance. The speed was too fast, and the blink of an eye was not far from the side of the beast. It was the old pig, and the body was 60 million miles. Extremely amazing. One

A month ago, after he broke through to the third stage of the desolation, in the state of the sixth change of the magical pig, the peak force has reached the first level of the heavenly state, and now it has skyrocketed again, reaching the fourth stage of the heavenly state, and the blue The cultivation of the Golden Eye Beast is the same as the strength, and it is not weak! With

The old pig rushed out of the stars, and turned out to be born. The fourth-order cult of the heavenly environment was diffused and opened, and the twenty-two powerful beasts of the imaginary emptiness of the hundreds of billions of horns were shaken at the same time. .

Under the sudden change of color, they sighed and sighed, and then they heard the sound of the gods, all of which revealed a shock and sorrow that could not be turned away.

"What? Is this the black-skinned old pig? Isn't it only the cultivation of the nine-step grand perfection of the ridiculous? Now, at first glance, it is clearly the middle of the heavens in the fourth-order world..."

Hey, I just want to vomit blood. This information is too serious. The mid-term heaven in the fourth-order world has been said to be a half-step heaven. It is simply no reason! ""

A second-order mechanical beast of heaven and earth, a fourth-order black-skinned old pig in the heavens, and four half-step heavens with a ruthless nine-step grand perfection. These strengths are almost the same as ours... ""

So how is this battle crushed? This is clearly a fierce battle! ""

Roar.....""

Hey! "

"What about the two heavens? The deity and the blood tiger are enough to stop them. The remaining four desert beasts are the perfection of the ninth-order world, but we still have twenty With the big power, together with the team, should be able to suppress it..."

"There is no other choice. This battle is imperative..."

"Roar!""

Oh..."

With the fourth-order blue-and-white beast in the heavens, the blood-winged tigers on the side of the body, and the blood-winged tigers on the side of the body, and the two behind them are lined up in a row of twenty vanities and powers, while arrogant.

Without hesitation, the twenty-two powerful starry beasts all rushed out, and the power in the body was pushed to the extreme, turning into invisible pressure, enveloped this square, and the void made a low-pitched trembling voice. ....

"Hey..."

Seeing this scene, the beast first responded, and looked up and screamed, and the huge figure made a big step and rushed out.

At the same time, his head also turned quickly. emperor

The head of the beast follows the characteristics of the original celestial beast. It has a honeycomb shape and has a plurality of facets. These facets are obviously muzzle, and can fire the gun energy beam in 360 degrees.

But nowadays, this huge head with a large number of facets is like a hive, but suddenly with the sudden low humming sounds, the violent golden awns are steeply stunned, which makes it impossible to look at it. and

Moreover, all the violent Jinmang in the face, all under the sudden flash, all pointed in the same direction, and it was the blood-winged tiger that was rushing forward to the beast..."

boom! ""

Oh..."

Oh la la..."

Did not wait for the blood-winged tiger to return to the gods, the earth-shattering explosion has been heard, the beast is like a hive is generally covered with a large number of faceted heads, suddenly bursts of a large number of beams. Place

Some of the light beams are the same size, about a thousand miles in diameter, about four or five thousand miles long, and the color is red gold, and the number is horrible.

However, after the beams were ejected from the general facets of the hive, they did not spread out to the surroundings, but overwhelmed, but gathered together and spurred toward the front...

The power is too amazing, the void is directly torn, the squeaky noise continues, all the speed of the red gold beam is almost horrible, and the imaginary distance of tens of billions of miles has passed to the blood. The front of the wing tiger.

"Hey..." blood

The Wing Tiger did not expect that the beast had such a long-range energy attack, and immediately fell into a void in the air.

He originally wanted to turn around and rush to the right to avoid it, but it was a little late. Although most of the body rushed out, but after the stock and one side of the wing was hit by this horrible and majestic energy light column. blink

Between the eyes, the wing of the blood tiger is melted, and the left hind limb is also half lost. It becomes a tiger. Although it has not fallen, it is not even serious, but it is unbearable. "

Oh..."

Under the horror, the blood screaming tiger screamed out of his hair, and once again, he rushed over to the emperor again, but because of his injury, and the lack of one wing and half leg, he is now powerful. Obviously it is not as good as before, and it is almost equal to the second-order beast of heaven and earth...

"Boom..."

Once, the Emperor did not use the skull with a lot of facets to launch a long-range attack. The huge eyes flashed in the cold, and they immediately greeted them, just like the pillars of the right arm lifted up and punched out. The void is rapidly collapsing..."

call out! "

At one moment, the four kings also rushed out at the same time. Their goal is exactly the 20 desolation and power..."

Oh..."

"Hey!"

At the same time as the rushing out, among the four kings, the Nether King and the Blood Mosquito King, who are at the center, are screaming and screaming at the same time.

At this moment, the logo of the soldier's scoop at the chest of the Nether King suddenly stunned, and the tens of millions of soldiers in the thousands of hive nodes in the emptiness of the battle, all under the emptiness of the Nether King.

There are thousands of honeycomb nodes with a diameter of three kilometers, and each one has tens of thousands of empty squadrons at the moment, which fully stimulates the unique biological frequency of the soldiers.

These unique biological wave frequencies, guided by the scoop in each hive node, are uniformly conducted out, thousands of honeycomb nodes, and there are thousands of biological wave currents like the river.

All along the pipeline, flocked to the core nodes of the core circle, and then gathered together for one. In the end, with the sudden roar of the Nether King, this horrible mysterious creature wave frequency, like a tsunami, from his mouth, instant comprehensive Let it go..."

Hey! "

"Hey..."

With the emptiness of the king, the invisible shock wave roared away. This horrible creature wave frequently caused a faint emptiness in the void. This

The scene is amazing, giving people an illusion, as if the entire vast expanse of the starry field, trembled under the sudden high-frequency humming. "

boom! "

With a horrible sound that was sharp enough to tear the sky, everyone was temporarily deaf. Virtual

In front of the empty space, an invisible tidal wave like a starry sky spurts out and turns into an invisible force that plunges into the sea, covering a vast void of hundreds of millions of miles in a flash.

The twenty beasts that roared from the opposite side were absurd and powerful, and their bodies were all enveloped...

"Oh la la..."

"Booming..."

The sound of clear and cracking sounds like the rain is overwhelming. The vast void of hundreds of millions of miles away, the moment is tearing, the sight is accessible, and a lot of emptiness flows out of the sky...

In a few large void cracks, a large number of void turbulences directly form a void vortex like a black hole. Such as

It is only the starry beasts below the mighty environment, even if it is the supreme of the universe, in the face of this black hole-like void cracks, the endless storms of the tides will be like a paper-like general, ruining and ruining, and instantly disappearing... ..

However, these 20 starry beasts are all powerful and absurd, and this range of attacks obviously declines in power, and does not reflect the ruthlessness of the emptiness of the Ninth Heavenly King. . Place

Therefore, although they are extremely embarrassed, especially the ten beasts, the \*\*\*\* marks have appeared on the body, and they have been ravaged by the endless emptiness of the emptiness, but they are only injured, but they have not fallen, even Not seriously injured. Do not

It doesn't matter, the four kings rushed out at the same time, and this wave of attacks is just the power of the Nether King, far from over, not all...

At the same time, the blood-mosquito king was making a terrible scream, and the blood-mosquito warfare at the chest also broke out.

The color of the blood-mosquito war is a dark red color that is black, like the dry blood, giving a very heavy feeling of depression. It doesn't look like anything unusual, just like the other three warriors. .

But in fact, the core node of the ninth ring on the inner side of the bell mouth is different from the other thousands of honeycomb nodes. The first half of the core node is densely covered with a sharp and sharp alloy. thorn.

At first glance, this core node is like a huge alloy hedgehog. straight

Although the core node with a diameter of three kilometers is only covered with alloy thorns on the side facing the bell mouth, the number is extremely shocking...

The columns are too dense, the total is more than 100 billion, and the hardness of these alloy thorns is also extremely amazing, more than several times the 100,000-meter-diameter star-studded main keel material, because these alloy thorns are all some kind of Special minerals or crystals are added to create...

Each of the alloy thorns has a length of a hundred feet. If it is projected as a spear, at a certain speed, it will be like playing with a warship or even a fortress or a starry fortress. This

It is the forging system that is specially tailored according to certain characteristics of the mosquito family. It can be said that the blood-mosquito war is definitely the only one of the four major wars that can issue physical attacks, not just the attack of energy form. . "

Roar! ""

Oh..." This

At one moment, the blood-mosquito king rushed out, and the screaming of his head was still not falling. The violent high-frequency tremors generated by the mosquitoes flapping their wings were heard in the chest. set

Looking into the eyes, like the numerous holes in the hive, the dense holes appeared, and the low humming sound made the whole piece of emptiness tremble, as if it had some kind of resonance.

The power of this kind of high-frequency vibration is obviously constrained, gathered together, gathered from one honeycomb node to the core node of the ninth circle. Otherwise, if it is divergent expansion, I am afraid that this large piece of void, at this moment I have to be disturbed and trembled. can

Even so, this invisible shock wave has already emptied the voids when it has passed the special growth of the war and left the outer ring of the largest diameter of the war.

Invisible shock waves, clearly surrounded by countless giant alloy spears made of special materials, even the stars can pierce, and now whizzing away, its momentum is simply ruined...

These alloy thorns are driven to the extreme by the invisible shock wave. When the blast is gone, there is an invisible ripple in the void. The blink of an eye is tens of billions of miles, and the blink of an eye rushes into the void in front... ...

Chapter 5105: Abuse of your pigs is also

"puff!"

Oh..." Shen

The boring squeaky noise came in an instant, and looked around. In the imaginary sky outside the tens of billions of miles ahead, the 20 beasts were powerful and absurd, and the huge body appeared in an instant. Blood hole. This

These blood holes are pierced by countless alloy warriors and thorns that are irritated in the invisible shock wave. two

The ten beasts are powerful and ridiculous, all of them are more than ten million miles. These alloys are extremely sharp, and even with the powerful invisible shock wave, even the stars can penetrate, but each spear is only a hundred feet. Rough, for their huge size of more than 10 million miles, it is not painful.

However, the number of such alloy spears is too large, and it is densely covered. Nowadays, the five powerful creatures are the first to bear the brunt. The entire huge body is shot into a sieve and fallen on the spot. Falling down...but

Such a spear attack, \*\*\*\* king can only launch a wave in a short time, because the arrangement of the spear also takes time.

But it doesn't matter. Now it's just two waves of attacks. Although the Nether King and the Blood Mosquito King have already shot, but the King of Heaven and the King of Souls have not yet come out. This

Once, the four of them joined forces and they must all shoot and show the power of the king! melt

Among the four major wars in the four kings, the Void War has the power of the void, and the sorrowful warfare is screaming and screaming, and the years of war are more horrible, and can issue the tides related to the law of the universe. Virtual

There is only a void in the air battle, and the \*\*\*\* mosquitoes, in addition to the invisible shock wave, can also launch the alloy spear and spear, and go over the ground to form an invincible physical attack. to

In the soul of the war, there is only the sound of terror that can make the soul scream. The tides of years inspired by the years of war are an invisible force of law. Only in the outbreak, the slightly golden Jinman disappeared, representing the passage of time.

If it is on the mechanical and electronic life, the effect of the sorcerer and the war is the weakest, but if the target is flesh and blood, the situation will be reversed. Such as

Today, after the \*\*\*\* mosquito king hit, among the two kings who have not yet shot, the king of the years, finally also shot...

Previously, the Nether King of the Four Kings and the Blood Mosquito King successively shot, under the two strikes, the twenty beasts and the mighty degenerate five, but there are still fifteen, only just injured.

Nowadays, with the attack of the Nether King and the Blood Mosquito King, the remaining two kings, the King of the Year finally shot...

"Hey..."

The sound of the whistling whistling sound came from the mouth of the king of the moon. With the sound of whistling, the Qingjinmu emperor of the squadron also received an instruction to immediately launch a full blow. under

For a moment, within the core node of the central domain of the war, the Slim the Emperor of the whole body did not hesitate, and immediately launched an action. Within a thousand hives, the thousand Slim The king and tens of millions of Qingjin slime, all of a sudden urging the power of the body, a shocking pressure is rapidly condensing..."

Hey! "

The incomprehensible faint humming sounds, and the invisible ripples spread from the body of the King of the Kings, and fell into the walls of the core honeycomb nodes. Standing

The pipe that was connected to the outer wall was passed out instantly.

In the blink of an eye, the tens of millions of Slim people in all the hive nodes are all in shape, and the whole body is golden and mans, superimposed on each other and gathered together.

In one tenth of an instant, it has turned from a pale gold to a rich golden color, and it has also been covered with some faint purple gold. gold

The color of the fascinating for Zijin, it seems completely different from the previous, although the purple is still quite light, but it is clearly visible, representing the change of its power!

Numerous lines of Zijin Huimang, if they are spiritual, rush into the walls of the honeycomb nodes and follow the pipes of the outer wall.

From the four sides of the direction, the core honeycombs where the King of the Slim Kings are located are rushing away. and

All of this was completed in less than half a moment, and the rich golden and purple sacs gathered in thousands of honeycomb nodes all came together. in

After entering the core honeycomb node, the core honeycomb node in the central area of the ninth lap of the huge trumpet of the war lama suddenly appeared, and a fierce purple gold mansion broke out...

Everything down is no suspense! straight

The core honeycomb structure with a diameter of three kilometers is completely transformed into a purple-gold world. A wave of purple gold cymbals like a tide, spreads along the war, and in front of the huge bell, a purple gold Colored scalloped corrugations. Imitation

If a purple gold smashes the tide, as the celestial temper of the celestial king rushes out, push forward and go forward...

"Oh la la..."

The tides of the purple gold color flowed past, and the power of the invisible cosmic time rule was thus manifested, and it was impossible to fix the fierce and fifteen body of the fierce beasts in the void of tens of billions of miles away. struggle.

Visible to the naked eye, the fierce bodies of the fierce fierce beasts and the absurd bodies changed instantly. The purple-gold tides flowed through their bodies, and the original shiny fur was swiftly silent. It fainted. Light

Ze disappeared, and a large piece of fur fell off, and floated into the void of the universe, turned into fly ash, the power of this strange purple gold tide is 30,000 years.

These fierce beasts are powerful and powerful, but the power of time is invisible and inferior, affecting everything in the dark. do not

Seeing that they were only illumined by a purple-gold light, but the whole body, but only this moment, it is the long-term 30,000-year-old that flows through their blood in an instant. change

It is a general starry beast, and it can't be accepted at all. In a moment, it will turn into a decaying gray bone. thing

In fact, even the ancient powers of the wild, can not withstand the aging of the body for three thousand years.

If they have not been injured before, it is now a wounded body, and then withstand the rot of such time rule power, among the fierce fierce beasts, the last five ancient powers, in an instant Deformed, it fell. Pang

The incomparably fleshly body was withered, lost the breath of life, and fell to the bottom. This

Everything is long, but a total of three waves of attacks before and after, but only completed within the three interest.

Three interest rates, ten heads of ancient powers have all fallen, and now there are only ten heads of the ancients, although they have not fallen, but they are also hurt, in the erosion of this wave of purple gold years, The state is extremely bad, just like a serious injury.

But among the four kings, only three kings were shot, and there was a attack of the king who had never been launched. This wave of attack was obviously the last straw that overwhelmed the ten ancient and supreme.

It's the sorcerer who has never shot. With

The purple gold tidal wave of the celestial kings quickly dissipated. At this moment, the sorcerer, finally, also shot..."

Hey! "One

The sound of the screaming screams of the road screamed, and the void trembled slightly, giving people a feeling of horror. This is the sorrowful king who is shouting in the head...

The war la in the body of the sorcerer is the soul of the war. cry

The kinetic energy group in the soul war is the sorcerer's beast. The power of the sorcerer's soul is strong and weak, and it has a direct relationship with the life form of the sorcerer's group in the war.

At the beginning, after the tempering of Reze Lingwu, the tens of millions of sacred beasts in thousands of hive nodes in the sorcerer's battle have been promoted to the sacred souls of the caves. There are also 300,000 domain start-ups. but

It has been a long time ago. Today, these tens of millions of soul beasts are almost all immortal, with more than 300,000 masters of the universe and more than 30,000 universes.

At this moment, with the screaming of the sorcerer, all the sorcerers and beasts in his body are all in action. Thousands of 3,000-meter-sized hives are in full swing. The spirit of the souls unique to its ethnic group...

These spiritual wave energy gathers from each honeycomb node, and along the special pipeline between the honeycomb nodes, all of them flock to the core nodes of the core circle and gather together.

The speed is very fast, and the blink of an eye turns into a sharp and unspeakable sound of shouting, like a roaring sea, like a sound of nature, instantly venting...

"Hey..."

The sorrowful king screams in the head, and the chilling screaming screams of the soul screams, surrounded by the strange spiritual power of the whole sacred beasts, and now whistling away, the entire tens of billions of stars The void of the field trembled in the whistling sound of this sudden rise. gas

The interest is too strange, giving a horrible feeling that is enough to tear the sensation of the sky. before

In the emptiness of the sky, the powerful and fierce beasts of the ten ancient and desperate places are mad, and even the mind and consciousness are at this moment. It seems that the spirits are drawn by howling, and they have to leave. One

The invisible tides and waves of the Tao, like the ocean of stars, shrouded their body shape, directly acting on the soul level, and raging..."

Hey! ""

Oh..."

The buzzing sounds are extremely short, and in a short period of time, these ten ridiculous old monsters are in this soul. In the huge body, there is no more life-like breath...

Between the eyes, the 20 ancient wild powers and the ancient sacredness brought by the blood tiger and the blue gold beast have been completely killed, and the group has been destroyed.

Everything in the past is long, but in fact it happens between the four and five.

There are no gaps in the four-wave attack of the four kings, from the first wave of attacks to the end of the fourth wave of soul-soul attacks, one after another.

In the first wave of attacks, these 20 ancient powers and the ancient sages were completely unprepared, so there was no defense, but then they would have no time to prepare for them.

When the first wave of the void of the Nether King is about to end, the invisible shock wave from the second wave of the mosquitoes will come again...

This is followed by the tidal wave of the years and the power of the soul. One

After a wave of waves, it was completely overwhelming. Before the 20 ancient powers of the ancient and powerful, they returned to God, and everything has come to an end...

In fact, although the four great kings have been trained to be powerful, they are now the peak of the ninth-order grand perfection, that is, half-step heaven.

But the ten wildernesses of the twenty star-studded beasts will be gone. The other ten beasts are ancient and supreme. Although there is no peak of the nine-order grand perfection, even the four kings join hands. If you want to kill them in a short time, they will be directly destroyed, but they are not very likely...

This can have such a result. It can only be said that it is a fortune. Although the four kings are four people, the four robotic beasts in the body are all electronic consciousness of Ye Xuan, which is differentiated from the beast. It is the four in one. can

It is said that the exchange of consciousness between the four kings has no heart stagnation at all, and only the heart and soul are not enough to describe it. It is this absolutely perfect cooperation that makes their attacks so sharp, just four or five. Between, it has ended everything, so that these twenty ancient powers and ridiculous old monsters will be destroyed...

In fact, such a result, before the war, even the four kings and the beasts did not expect, can be said to be an unexpected joy, absolutely super level play.

Falling in the eyes of the blood tiger and the golden-eyed beast, the degree of shock is even more unnecessary!

In their view, although the four great kings are the peaks and deities of the nine-order grand perfection, among the twenty beasts they bring, there are also ten absurdities, and basically all of them It is the late existence of the seventh and eighth orders...

In this way, under the joint of the twenty stars and the beasts, the four kings will be besieged. Although there is basically no possibility of bombing, but it is only suppressed in a short time, it should still be no big problem. but

The result was so amazing that the four kings only shot once, only a total of four waves of attacks, within a short four or five interest, the 20 stars and beasts were all killed. This

The group was destroyed, and it was still the result of the almost killing of the group. They were unacceptable, but there was no way. Although they were resentful to the four kings, they could not kill them now because they could not withdraw themselves. The opponent is entangled...

On the other side of the blood tiger, it has already been entangled with the emperor, and it is not dominant. It is completely equal and evenly matched.

As for the golden-eyed beast, his opponent is naturally the old pig. Both of them are the fourth-order cultivation of the heavens. When the war begins, it is impossible to have a result in a short time.

Hey..." Look

When the wars of the four kings over there ended, the old pigs were very happy, and under the emotional agitation, they looked up and stunned..."

Just like this, I dare to attack the magic hall. You should be a group of chickens and dogs. "

Proudly, the old pig's fine scorpion flashed a smack of sorrow, and the blue-eyed beast was looked up and down a few times. Then he answered: "The guy is not an opponent, he dare not come to the temple, but send you Come to die, it's really ridiculous..."

"But this is also good, Ye Xuan Xiaozi does not let Laozi go out to hang out, you take the initiative to enter the magic hall to ban the land to die, but not in this column, just the egg pain, take your hands and practice, it is good to loosen your muscles."

"On the right to use waste! Oh, remember, abuse you... the magic hall pig is also!"

Oh..."

"boom!"

"Booming..."

After the last sentence is finished, the old pig is looking forward to a long-awaited sigh, and then hesitates, and under his shoulders, the horror of Pangda's 60 million miles is spurred out like a huge black lightning. Under the hoof, I directly knocked on the forehead of the English golden beast...

"Hey..."

Listening to this discourse, the golden-eyed beast was almost mad to the blood on the spot.

How can I be a heavenly and powerful person, and it is not the first time to enter this world, but the mid-term existence of the fourth-order heaven and earth, I have already lived in endless years.

At the time of the outbreak of the war, there was already a horrific cultivation of the ridiculous ninth-order great consummation, which was one of the confession of the sacred eyes. which is

It was at that time that there was no existence to dare to speak in front of him. but

Now, after the stagnation of the endless years, he has already entered the heavens, but he has encountered such a thing. He did not even exist at the beginning. The black-skinned pig born in the later generation dared to tell him about waste. Use, take the words of loose bones.

This is simply unbearable!

"Hey..."

Under the extreme anger of the head, the golden-eyed beast raised his hair and screamed, showing endless anger, and then he did not hesitate, and his body swayed straight toward the front. The pig fine rushed over. This

However, in the mid-term of the four fourth-order world, the strength is too strong, and the speed is also the same, even lightning can not be compared with it. again

Plus the two are facing the face, the distance of hundreds of billions apart from each other can be neglected.

Between a short amount of interest, two huge figures in the tens of millions of miles have already collided in the void, the shocking explosion came out, the area where the two people collided, the square Within a billion miles, the void collapsed directly into a huge black hole, but immediately under the influence of the powerful laws of Hongkong and the void, the restoration of bridging quickly began...

The air machine is too fierce. In the blink of an eye, the piece of tens of billions of miles of the void is shrouded in frenzied strength and energy. The shape of the old pig and the golden-eyed beast is no longer visible and falls into a fascination. In the chaos.

Only the voice of arrogance and whistling, from time to time...

In the blink of an eye, the battle situation is already in full swing. There are two violent wars in the void. The blood tiger and the beast are fighting together. The old pig and the golden eye are fighting together. The four kings who have just ended the battle. Instead, I was idle. "

It was at this time, the distant front of the sky, the overwhelming sound of the chain, suddenly came..."

Oh la la..."

Here, the blood tiger and the beast, the old pig and the blue-eyed beasts respectively caught the battle, and the four kings smashed the 20 beasts and the absurd, and then relaxed. also

At this time, the distant front of the sky, the overwhelming sound of the chain, suddenly came...

Looking forward, the huge furnace like a giant star suddenly moved without warning at this moment. first

Before, \*\*\*\* tigers and blue-eyed beasts and other 22 powerful beasts came. They were originally powered by a furnace. After the advent, twenty-two fierce beasts rushed out of the furnace, and the glory was in the air. Suspended in the rear, still. but

Nowadays, with the power and the desolation of the 20 beasts, the spirit of the furnace in the furnace is felt, and now there is a sudden movement. The 10,000-shaped chain of the outer wall of the furnace is like a starry sky. Dancing, this is clearly the rhythm of the upcoming shot.

The beasts and the old pigs can't get out of the way at the moment. The opponents who fight and fight against them are quite capable. The battle can't end in a short time, and they must go all out. Otherwise, if they are negligent, they will fall in an instant. Into the downwind, it is in a passive situation...

Although the furnace is not a real creature, it is just a magic weapon, but its order is amazing. Like the Shennong Ding in Ye Xuan's hands, it belongs to the era of the era of the treasure, the best magic weapon in a big world. .

Moreover, under the cultivation of the green eyes of the wilderness, the furnace spirit has already been born in the furnace. The existence of this furnace spirit gives life to the furnace and gives it the ability to launch itself. first

Before the three major star-space planes in the world, the Hongyan Tiandao Qingyan was not officially born. It has always been a sacred furnace to collect powerful wrecks of the treasures of the wild and remnant, refining and turning into a source of evil. Such as

Today, although the green eyes of the Hongtian Tiandao are still not here, the furnaces in the furnace are controlled by the spirits. In fact, there is not much difference between them and the real star power. If they are launched, they can fight with anyone.

As for its strength, because of its super-high grades in the era of the age-old, it is naturally impossible to be too low. In these years, under the efforts of the green eyes, today's furnaces are equivalent to a strong person in heaven and earth. Around the first level...

"Oh la la..."

In the sound of the chain of the sky, the huge body of the furnace, if it is a star-like body, moves instantly, turning into a blood-black man, but it does not rush to the four kings, but rushes to the forbidden place. Deep in the star field. it

Although the size is huge, but the speed is not slow, beyond the lightning, the four kings are caught off guard for a time, and it is swept away from the side of the body. In the blink of an eye, it has crossed hundreds of billions of distant virtual distances. .

At this time, just a million miles ahead of the location of the furnace, an abandoned star at the edge of the Forbidden City is visible.

This abandoned star is stationed in a large number of the Temple of the Devil, belonging to the captive army in the six major legions of the Temple. Capture

The squadron is composed of the captives of the bloody, war lion and Qingpeng tribes, and this abandoned star is stationed in only a part of the military force of the Qingpeng branch of the captive army. The total number is about 20 million.

In addition, in the void around the abandoned stars, there are about five million warships, and the fortress and the star plug are suspended...

Today, with the blast of the smoldering furnace, the blink of an eye is on the edge of this abandoned star. It is a huge star-shaped outer wall of the furnace. The tens of thousands of giant striated chains that are millions of miles in a moment are like The starry sky is like a giant, mad and rushing away..."

boom! "

"Booming..."

When it rushes to the five million warships, fortresses and star plugs in the sky outside the stars, the 10,000-striated pattern on the outer wall of the furnace is locked for millions of miles, which is extremely strong and hard. The hair is now, like a starry sky, whipping away, and some of the battleships are drawn to the broken between the blinks...

The bang of the sky was overwhelming, and the fire rushed in the explosion. The Qingpeng strongmen in the battleship simply did not have the chance to escape and died on the spot. This

Just a beginning, the furnace did not stop here. It was huge if the stars were rushing in the past. Ten thousand striated chains were waving wildly. Every time they swept, there were a lot of warships. Into a huge fireball..."

call out! "

"Hey..."

Such an amazing scene is too big. Naturally, the 20 million Qingpeng captives in this abandoned star have already been alarmed. In the face of the first-class furnace of the heavenly power, they simply cannot have any resistance. The power, now the furnace is approaching, it is not bad if it is not scared.

In the huge abandoned stars, countless figures rushed out and fled in all directions to the abandoned stars. This

Although the abandoned star is huge, its volume is only quite comparable to that of the furnace. Now the furnace is just a 10,000-shaped chain that swings the outer wall of the tripod. If it hits the abandoned star, it will be instantly The stars will be torn apart, the horrible shock will destroy everything, and the captives of 20 million Qingpeng people will not live. he

The reason why all of them rushed out of the stars and fled in all directions, because of the possibility of thinking about this possibility. can

Unfortunately, what they call the extreme speed is just a joke that is more ridiculous than the one-on-one in the battlefield. people

There are too many, 20 million people, if they go after the attack, it is simply not possible, and the furnace is not intended to do so. For it, the two million repairs are not high. Only the Qingpeng strongman stationed in an abandoned star can be assigned to the edge of the Forbidden City, but it is a group of ants. and

And it's still the ants in the ants...

"Hey..."

At this moment, the incomprehensible humming sound suddenly sounded. From the inside of the furnace, there was a horrible spurt.

The power of this sucking is invisible, but it is diffused and opened in an instant. It acts on a large number of Qingpeng captives who are rushing out of the abandoned stars. In a short time, they are allowed to flee in all directions and suddenly stagnate in the void. . tight

Then, by this horrible to invisible invisible suction force, pulling back in the void, and before a short break, more than one million figures fell into the mouth of the furnace, directly Being swallowed..."

Card! "

"Card..."

Then, in the furnace, there was a sound of a crack in the grinding wheel, and what was happening inside it was obviously self-evident!

Chapter 5106: Refinery furnace spirit

"Roar!""

Roar! "

"Hey..."

Everything is long and long. In fact, it happens between two and three. The four kings turn their heads and look at it. When they see such a terrible scene, they are suddenly furious, and they don't hesitate to scream and scream. At the same time, I rushed to the distant furnace in front of me...

Everything happened too fast, and when it was too late to prevent it, the smoldering furnace rushed to the edge of an abandoned star in front of the eye, bombing a large number of warships stationed outside the stars, all the stars that escaped the stars. The Peng prisoners were all inhaled in Ding, the number of tens of millions of people...

Moreover, as the tens of millions of Qingpeng strongmen were inhaled inside the body, the sizzling sound of the smashing sound of the smashing of the smashing furnace was immediately initiated. The rhythm. that

The kind of scene, just imagine that you can make people angry and rushing to the crown, absolutely can not stand. "

Roar! ”

"Roar!""

Oh..." This

Everything is long-lived, but it actually happens between two and three. The four kings have not reacted at all.

Looking around now, I was so cold that I saw such a fierce scene, and I was so angry that I didn't hesitate to scream and scream, and when I shook my shoulders, I rushed to the distant furnace.

Once, they did not activate the War Ravens that were integrated into the chest, because the goals were different from the previous ones. deep

The furnace is not the flesh and blood. Whether it is the tide of the years, the ripples of the soul, or the shock wave formed by the force of the void, it has little effect on it. Only the invisible shock wave of the blood-mosquito is mixed with the alloy thorn, which may work. .

But the furnace itself is made of some kind of strong metal, it has no flesh and blood, even if these alloys can penetrate the furnace, it is not meaningful. Place

Therefore, the four kings rushed out this time, just surrounded the furnace in four different directions. Then, when the body shape was near, they immediately punched out...

It is a kind of magical treasure created by a certain kind of strong metal. Only by destroying it with absolute strength is the king of solution...

"Hey!"

Oh la la..."

There is a spirit in the furnace, facing the four kings of the encirclement, the body shape is a moment of stagnation, but there is no even a sense of taboo, the tens of thousands of meters outside the wall of the tripod, like the starry sky The chain was swung up in an instant, divided into four shares, and they attacked the four kings.

Although it is not a true star power strong, but because it has already produced the furnace spirit, it also has the ability to attack autonomously, and the combat power is not weak, basically can be compared with the first-order existence of the heavenly environment. four

Da Tian Wang teamed up, although they also have the ability to fight against the first-order power of a heavenly powerhouse, but their true cultivation is a realm. After all, they have not yet reached the heavenly realm. They are only the peak of the 9th-order grand perfection. That is, half a step of heaven.

The furnace now divides the 10,000-striped chain of the outer wall of the tripod into four strands, which are directed to the four kings. The purpose is to separate the four kings, so that they can be broken in the shortest time.

Otherwise, once the four kings join hands and gather together, it is equivalent to having the ability to fight against the first-order power of a heavenly king. The two sides are entangled, and it is difficult to see the decisive result in a short time. Up..."

Roar....."

"boom!"

The celestial king screamed and screamed, and his right arm swayed like a meteor. The huge fists suddenly blasted, and between the blink of an eye, hundreds of blood-black plaid chains hit the front, and hundreds of them were broken. But it is only like this.

The remaining two thousand or so striated chains are instantly like a scorpion upper body, and under the circumstance of agility, short and short, they will entangle the huge body of the Nether King, and look cold and cold. It's just like a bundle of scorpions, too strict...

"Roar....."

"Card..."

The empty king was unwilling, and his hair was stunned with anger, and the strength of the body was spurred to the extreme, madly struggling in the void. very

As for, even the logo of the Void War La on the chest is bursting with a strong light at this moment, which is clearly the mega-sign of the power of the Void War.

Under the force of each other, more than 2,000 blood-black striated chains that wrapped their bodies around them were instantly broken by a third.

Even so, there are still more than a thousand striated chains that entangle the huge body of Void King. It seems that he seems to have done his best, which is still wrapped around the last more than a thousand striated chains. It is hard to break free again. class

A scene like this, in the blood mosquito king, the years of the king and the soul of the king is also playing.

The tens of thousands of fringe chains on the outer wall of the furnace are all extremely strong, and they are as long as a million feet. They are also as smart as a starry sky. Nowadays, the four kings who are coming from the bombs are divided into four shares. , wrap up the shape of the four kings. only

Only a small number of striated chains, the four kings can directly break free and break, but more than 2,000 entangled together, too solid, even if they do their best, and even use the war into the body The power of the kinetic energy group can only be broken by about one-third...

It makes little sense, because it breaks the one-third of the fringe chains, and their situation is the same as before they have not broken them. The activities are restricted and wrapped like a scorpion.

The two sides are more powerful, and this scene lasts for about half a column of incense. During this time, the fringe chains wrapped around the bodies of the four kings, and occasionally the sound of the collapse of the card, came, but But only a few, can not reverse the big situation. gradually

Gradually, under the continuous struggle of the four kings, there is already some exhaustion.

In the other two battles in the void, the beast is fighting the blood tiger, and the old pig is fighting with the golden eye. The strength of the two battlefields is equal, and it is not in a short time. There may be results. Place

So, the king of the beast and the old pig fine, the four kings are obviously not expected. before

In the depths of the Forbidden City, there are a large number of strong temples in the abandoned stars. Among them, there are many ancient powers, such as the seven great repairs, and now they have even entered the ancient and supreme. but

Even if they are the most powerful, they are only a second-class absurd. Only in the early days of this situation, in the face of the first-class combat power of heaven and earth, it is obviously impossible to shake.

What's more, the seven major repairs are still in retreat. I am afraid I don't know the outside world at all. I don't know that the four kings have already fallen into crisis.

"Hey..."

"Oh la la..."

At this moment, after feeling the strength of the struggle of the four kings, the furnace finally has a new movement, and its fringe chain slowly rises and contracts, which is clearly the huge body that the four kings are entangled. Shape, all thrown into the rhythm of the inside of the furnace. "

boom! "

"Booming..."

The situation is extremely dangerous, and it can be described as a slap in the face.

Just at this time, suddenly there was a thunderous roar in the sky high, and a dense robber cloud covering tens of millions of empties suddenly appeared. This is clearly a thunderstorm, and the atmosphere is extremely powerful. The general heavenly environment seems to have changed..."

Oh..."

"Oh la la..."

As the strength of the four kings struggled, the furnace became new.

Its striated chains slowly rise and contract, which is clearly the rhythm of throwing the huge body shape of the four kings into the interior of the furnace.

Although the four great kings are not flesh-and-blood, but electro-mechanical life, their huge treasures have used a lot of materials in the treasures of the ancient and the dead. more

Moreover, the four kinetic energy groups among the four major wars in the four kings are also quite extraordinary.

Including the various top star metals used in the four kings' body materials, and some other special materials, the furnace can be absorbed, which is also the best resource for it.

If it is to let the four kings throw into the huge furnace body, under the grinding disc, the four kings will fall in an instant. "

boom! "

"Booming..."

At this moment, the situation can be described as extremely dangerous, and it can definitely be said that it is a thousand miles.

It was also at this time that the transfer took place. Virtual

At the height of the sky, suddenly there was a thunderous roar, and a dense robber cloud covering tens of millions of empties suddenly appeared. This is clearly a thunderstorm, and the atmosphere is extremely powerful, not a normal heaven. , seems to have mutated...this

At the moment, and still in the forbidden place of the magic hall, suddenly there is a thunder of heaven, the only possibility is that the swallowing of the treasure is successful.

As for the variation of the robbery, this seems to belong to the proper meaning. How does the engulfing of the treasure exist? It really depends on the degree of enchantment, and even far exceeds the Ye Xuan deity. If his Tiandao thunder does not mutate, then It's weird. thing

In fact, it is true, because with the emergence of the horror of the sky at the height of the sky, the turbulence of the sky, the depths of the forbidden land of the magic hall, a star burst before a moment...

"boom....."

The loud noise is soaring, the whole star is directly blown up, and there are countless gravel splashes. A star like a violent meteor rushes out from the gravel flying debris. It is very fast and points to the outer area of the Forbidden City. It is the land of war here...

This figure is a devour of the treasure. His body shape seems to be inconspicuous. It is just the form of the ordinary human race. It is completely different from the huge starry beast of the body, but it is scattered in the body. The breath is amazing. Such as

Today, when he breaks through the breakthrough and enters the heavens, he is only one step in the world. However, I don't know why. At this moment, I look around and see the third step of the heavens. The blood-winged tiger and the fourth-order blue-eyed beast of heaven and earth have a feeling of heart-breaking. Health

There is a strong sense of taboo. day

The powerful strongmen have already stood at the peak of the life level, and the sense of consciousness is too sharp. Both of them feel the power of engulfing the treasure at the same time, which is enough to show his power. thing

In fact, it is true. The engulfing of the treasure is extraordinary. The body of the crystal is swallowed up by the innate form. The purity of the blood is more than the innate beast, close to the chaos demon. with

Under the realm, he has no rivals. very

As for, even if he is only the first step of the heavens, but encounters the existence of the third and fourth steps of the heavenly environment, it can be easily suppressed.

It is precisely because of this kind of blood, the devour of the treasure has been so confident in these years, walking alone and growing up, but never relying on any treasure, supernatural powers, facing any enemy, It's just fighting with pure power and the instinct to swallow blood...this

One point, even Ye Xuan can only sigh at the like, simply can't compare!

"Roar!"

At this moment, as the body shape is like a superb meteor spurt, the blink of an eye has reached the battlefield outside the forbidden area of the magical hall. The engulfing treasure screams and goes straight to the furnace... "

boom! ""

Rumble..."

The sky above the extreme distance, the black robbery cloud gathered from the air has reached a billion miles away, and the vast expanse of the sky has been shrouded by the raging stormy clouds, as if the end of the day, the void is trembled.

In general, the thunder of heaven, it is absolutely impossible to have such a horrible power. This is a catastrophic catastrophe. In the midst of a general heavenly encounter, it is necessary to take off a layer of skin.

In fact, it is true that the blood-winged tiger and the golden-eyed beast have become extremely unsettled after sensing the thunder of the thunder. It seems that they want to take a walk, but they are kept by the beast and the old pig. I can't do it.

Compared with the two of them, the beast and the old pig are also likely to be injured by the thunder, but the old pig's fine skin is rough and rough, and the beast is an alloy body made of special metal, in comparison, obviously More advantage. Such as

Now they forcibly left the blood-winged tiger and the golden-eyed beast, clearly knowing that they want to use their own injuries to exchange the rhythm of the other side..."

In the blink of an eye, the devour of the treasure has already reached the front of the furnace, without hesitation, and a fist hit the furnace.

Although the furnace has the first-order power of heaven and earth, but the engulfing of the treasure is not the general strongman of heaven. If this fist goes down, it will make the furnace tremble in an instant. It is not the opponent, the power of the punch. It has already made it scary, like rolling. 哗

Lala's chain of sounds, the original thousands of sculpt chains of thousands of sculpt chains, instantly broken half, the four kings to get out, no love, they simply do not dare to stay here. complete

Actually, the cultivation of his own strength is only a ridiculous nine-order grand perfection, that is, a half-step heavenly road. This kind of cultivation is even more common than the ordinary ordinary heaven and thunder, but not to mention the power of engulfing the treasure. The mutation of the human finger is robbed. he

They had already retired in the first time, and retreated to the depths of the Forbidden City in front of the Forbidden City, avoiding the tens of billions of miles covered by the clouds, and making them look...

"Oh la la..."

The chain of strange noises is soaring, the furnace glows with a strong blood-red glow, and all the fringe chains that were previously and now broken and smashed in the void, under the illuminating light, will continue to be connected in an instant. It looks exactly the same as before, the only difference is just the \*\*\*\* plaid on the tens of thousands of striated chains, which seems to be a bit boring. deep

The furnace's 10,000 chains and the large inner and outer walls of the furnace have a large number of crepe patterns, which represent its field power. Such as

Today's tens of thousands of chains are faintly faint, and some of the plaids are even faint to almost invisible. If they are disillusioned, they clearly represent the impaired power of the furnace, and they are subject to the strong stars. The injury is the same.

It was scared, and as the broken chains continued to connect, the huge furnace of the furnace suddenly trembled and wanted to rush toward the distance.

This is clearly trying to avoid the rhythm of engulfing the treasure, too jealous of him...

The chain noise is soaring, the furnace glows with a strong blood-red glow, and all the fringe chains that were previously broken and broken in the void, under the illumination of this light, will continue to be connected in an instant... ...

Then, the huge furnace of the furnace suddenly trembled, and wanted to rush to the distance. This is clearly trying to avoid the rhythm of engulfing the treasure, too jealous of him...

In the scene, Ye Xuan saw it, and I am afraid I will be shocked to speechless. Such as

Today's Ye Xuan is already a powerful presence of the eighth order of heaven and earth. If it is a punch, the power is absolutely stronger than the first-order engulfing treasure of the heavens. swallow

Although the treasure is enchanting, even if he is enchanting, the combat power is only equivalent to the fourth stage of the heavens.

But in fact, if Ye Xuan is here, the result of a punch is absolutely different from the present. At least it is absolutely impossible to just rely on the power of this boxing. It suddenly becomes so taboo and wants to be the first time. Retreat. or

Xu Tiantian is in the midst of a tumultuous thunderbolt. It is also a factor that makes it jealous. After all, this is a different kind of heavenly thunder, and Wei is not the same. but

This reason is still somewhat far-fetched, because the furnace is no better than other star-studded people. Although it has given birth to the spirit of the furnace, it has a sense of self, but its body is just a magical dragon.

It is still made of a special kind of strong metal, and like Shennong Ding, it belongs to the age-old treasures. day

Although the thunder of robbery is more horrible, the power of variation is stronger, but for its existence, the threat must be weaker than that of flesh and blood. Obviously, it will not let the smelting of the furnace to the first time. If

If there is no accident, the reason why the furnace is so jealous is that it should be related to the engulfment of the treasure. There is no such thing as a supernatural power to devour the treasure. Even without a treasure, his blood is the strongest means. deep

The furnace was born with the spirit of the furnace, and the level of repair has reached the level of the first level of the heavens. The sense of the gods is extremely sharp. It has not been touched before, but just swallowed the treasure and hit the wall of the furnace. With intimate and unobstructed contact, it is enough for the furnace to capture something from the power of this punch...

Unfortunately, although it is aware of the crisis, it wants to take it away, but what is the existence of engulfing the treasure? Fighting is shocking, even Ye Xuan is not as good as it is, naturally it is impossible to let the enemy in front of it leave...

At the height of the sky, the roaring clouds have become more arrogant. In the thunderous roar of the thunder, a crisp and tremulous crackling sounds, this piece of horror that shrouds the tens of millions of miles away. In the cloud, finally a \*\*\*\* lightning flashed.

The diameter of 50 million miles, the sturdy and terrible, the invisible scent of destruction, even the existence of the heavenly environment has to change. it is good

In this kind of blood-colored lightning, only one is now out. The lock is to devour the treasure, and there is no battle for the blood-winged tiger and the golden-eyed beast. Let the two old guys sigh with relief...  
...

Although it is a mutated Tiandao thunder, but the devour of the treasure is not in the heart, but he is the body that is shaped by the purest congenital engulfing the source crystal. The blood force is too strong, and the power of the Thunder is the same. Devouring, turned into a food that encourages self-cultivation. but

This time, he apparently did not directly rushed to the sky high-altitude, into the fallen powers of the robbery, swallowing the power of the Thunder. turn

The first glance at the sky, swallowing the shoulders of the treasure, and the whole body spurred in an instant, rushing toward the mouth above the furnace. Look

This posture is clearly the rhythm of entering the interior of the furnace.

If this is the case, as he enters the interior of the furnace, no matter where the furnace escapes, the robbery that has fallen from the clouds in the sky will always lock the furnace, and follow it behind his ass. Up...

This kind of furnace may not be afraid, but it is very jealous of engulfing the treasure. When you think of the engulfing of the treasure, you have to enter the interior of your furnace. Under the sense of the furnace, the whole furnace of the furnace is a huge furnace. There was a slight tremor in a few moments.

Then, as the engulfing treasure spurred toward the mouth of the furnace, a \*\*\*\* light curtain appeared immediately at the mouth of the furnace, sealing the entire furnace mouth, which is clearly the domain field of the furnace. The purpose of cohesion is to keep the engulfing treasure out and prevent him from entering the furnace...

"Hey..."

In the next moment when this layer of blood-colored masks appeared, the devour of the treasure came, and the moment of touching this layer of blood-colored masks suddenly became stagnant, but then, the body of the treasured body had a colorful The gorgeous light is coming out. This

The layer of blood-colored masks, after encountering this layer of colorful radiance, turned out to be like a snow and ice, and a large hole was formed in an instant. swallow

The body shape that just stopped the treasure body immediately entered the inside of the furnace of the furnace in this big hole, and it was no longer visible between the eyes..."

At the moment, the blood-colored lightning from the sky has finally fallen. Although the furnace is like a giant star, it is huge, but the diameter of the blood-colored lightning is also 50 million miles, almost the furnace of the furnace. quite.

The huge \*\*\*\* lightning bolts instantly enveloped the entire smoldering furnace, and the loud noises stunned. The more thunderous thunderous sounds were raging, and the furnace spirit felt. Under this level of catastrophe, the entire robbery The huge furnace body trembled with violent earthquakes, and the tens of thousands of fringe chains on the outer wall of the ding dynasty danced wildly, and the sound of screaming was shocked...

It's just the first robbery. There are a total of nine roads in the sky. Everything in front of us is obviously just the beginning.

After a short period of three interest, this \*\*\*\* lightning blasted away the majestic electric sea finally dissipated, the body of the furnace was innocent, but the tens of thousands of chains on the outer wall of the furnace, but clearly and faint, All the chains are hanging down, which seems to give a feeling of weakness, which is clearly under the horror of this hijacking, and suffered some damage...

At this moment, the furnace of the furnace must collapse. this

He was too unlucky, and it was still good. In the blink of an eye, the inside of the furnace forced himself into a special person with a strong bloodline. However, the other party has just broken through and is crossing his heavenly thunder. And

Because of this guy's special blood, his heavenly thunder robbery is also extraordinary, it has been mutated, and now people are hiding in its furnace body, which is clearly a rhythm that can't be lost, this is With a hard scalp, he will take the nine-wave mutated thunderstorm on his behalf, and he will finish the rhythm from beginning to end..."

It was also at this time that the sky was at a high altitude, and the thunderous sound of the sky was ringing again, accompanied by a crisp and fierce sound. The second hijacking of electricity finally collapsed...

The furnace was struggling, and the fringe chain outside the wall was madly waving. Its body was originally like a giant star, but now it is shrinking rapidly.

When the second robbery fell, the star-like smoldering furnace had shrunk to a radius of only ten thousand, but it still could not escape the lock of the robbery.

The \*\*\*\* robbers slammed on the wall of the furnace, and the whole place of the furnace was trembled again, but it was still innocent. After all, it was the era of the age-old treasures, built with some

mysterious Xeon metal. And the existence of casting it by hand is still the will of the big world, and the degree of its power can only be imagined. versus

At the same time, the inside of the furnace of the furnace!

After the figure broke into the inside of the furnace, the shoulders of the swallowing body swayed and went straight to the huge grinding disc in the furnace. on

Just now, the furnace was so powerful that the 20 million Qingpeng captives in an abandoned star were all sucked in, and then the inside of the furnace body heard the sound of the grinding wheel. eye

Next, when the engulfing treasure enters the inside of the furnace, the horrible noise of this kind of card has disappeared, and it is no longer smellable. After all, it is only 20 million people who have been trained as low-powered Qingpeng people, in just a short time. In the time, it has been ground into a blood mud by a huge grinding disc in the furnace. Look

All of this, the devour of the treasured body flashed a cold mang, no hesitation, raised his hand and touched the huge grinding disc, the moment touched by the fingertips, from the palm of the treasured body, there is clearly a fierce The light is shining...诡

What is different is that when the radiant light of the palm of the treasure is illuminated, a huge blood plate is suddenly lit up on the huge disc. Just like being attracted, the two lights are instantly merged.

The breath in this blood awn is very strange, with the blood of Ye Xuan, and the breath of the headless baby corpse, but it is extremely embarrassing, hidden deep, and is scented by a \*\*\*\* animal. Covered. and also

Only Ye Xuan's deity, or the swallowing of the treasure can be sensed, even the furnaces have been deceived, otherwise it will never be allowed to run this blood, in the existence of the core of the furnace .....

All this is due to the headless baby.

At the beginning of the world's three star-space main planes, the depths of the first universe of the universe, Ye Xuan entered there as the Taikoo konjac, and got the trust of Taikoo Porcupine and Taikoo Turtle.

With the help of the Taikoo Porcupine, a drop of blood was sent to the furnace, which was recognized by the furnace, and was able to be affected by the pressure of the furnace in the deepest part of the source of the evil. when

At that time, the face of the smoldering furnace has not yet appeared, accepting this drop of blood, and recognizing that the identity of Ye Xuan, the ancient konjac, belongs to the descendants of the ancient wild animal of the evil source. positive

In the blood that was sent to the furnace, the headless baby was mixed with the power of heaven, but it was extremely concealed. It was covered by the savage beast of the ancient konjac, and passed through the furnace. It was noticed by it.

This is a back hand left by the headless baby in the furnace. Ye Xuan knows that it is naturally known as the devour of his body. Such as

When the engulfing treasure enters the furnace of the furnace and reaches out to the huge grinding disc in the furnace, the blood is activated.

The secret hand left by the headless baby in the blood has been fully activated, and with the unique power of consuming the treasure itself to devour the blood, at this moment, from the palm of the treasure, a moment of blood, Did not enter the outer wall of the grinding disc touched by the palm of his hand, and immediately opened the divergence with a speed, toward the surrounding ..."

Oh..."

At this moment, the strange squeaking sounds, and the blood awns that are swallowed up by the palm of the treasure quickly dissipate. The original crepe pattern on the huge grinding disc is immediately shaken, from near to far. The lines quickly become dim.

The speed is too fast, just just dying, swallowing some of the sinuous lines around the palm of the treasure, it has gone from bleak to disillusionment, disappearing directly...

A huge flesh-and-blood disc is the hub of the hearth furnace. The crepe pattern on the grinding disc represents the spirit of the furnace. Such as

Today, the engulfing treasure uses the arrangement left by the headless baby corpse to display its unique phagocytic blood to the extreme, and is swallowing these sinuous scents, which is equivalent to the consciousness of swallowing the spirit of the furnace...

Once this is over, the refining spirit of the furnace will disappear, or the treasured body will be thoroughly refining. At that time, the furnace will no longer belong to the green eyes of the wild, but will be taken away by the engulfed treasure. This

The kind of refining and chemical refining from the inside is extremely thorough, and there is no possibility of reversal at all. From then on, the smelting of the treasure in the furnace is like that of Shennong Ding in Ye Xuan. Difficult to split...

Hey! ”

Everything that happened inside the furnace body, the heart of the furnace, naturally feels. At this moment, it is really panic, and the tens of thousands of fringe chains outside the furnace wall are even more crazy. furnace

There was even a shocking whistling sound in the body. This was the scream of the furnace spirit, and it realized that the crisis of the annihilation came.

In fact, for the heavenly thunder that devours the treasure of the treasure, the furnace is not too fearful, even if the engulfing treasure enters the furnace, forcibly pulls the furnace to make him thunder.

However, it was originally a time-honored treasure of the era, not a flesh-and-blood creature. It was built with some mysterious and strong metal. Although the Thunderbolt can make the furnace a little damaged, it can't hurt it. Can recover. can

At the moment, everything that is happening in the furnace of the furnace is different. The endless crepe pattern on the huge grinding disc is the embodiment of the spirit of the furnace. Now they are being swallowed up quickly, just as the furnace is being refining. . One

Once this process is completed, although the furnace still exists, it is no longer the current furnace spirit. Just like a new life, it will be branded with the spirit of engulfing the treasure, and it will be easy to change...

Unfortunately, although the furnace spirit resists all this and does not want the final result to become a reality, it obviously can't do anything, and it can't stop everything that is going on.

In fact, everything that happens inside the furnace is more serious, but when it comes to the sense of the body of the furnace, he has no resistance at all. Such as

Nowadays, on the large grinding discs in the furnace body, the numerous intricate plaques that have been covered with dense linen have been wiped out by more than half. This is the center of the furnace. With the elimination of the majority of the pattern, the power of the furnace can be affected. And know...

At this moment, there is no sound of a chain creaking in the void. deep

The tens of thousands of fringe chains on the outer wall of the furnace are all pulling weakly. The cloud rolled, the eighth robbery collapsed, and the furnace was completely submerged in an instant. Its furnace was still shaking vigorously at first, but then it seemed to be different because of its own changes. Quietly stagnation, no more movements. This

At one moment, the crepe pattern on the huge grinding disc in the furnace was completely swallowed up, and there was no one left. The furnace spirit representing the furnace had been deprived from the body of the furnace, and was swallowed into the body by the engulfing treasure. This...

The process of refining and refining has actually started when the first pattern was swallowed. Now, as the last pattern disappears, the countless patterns that are swallowed in the body of the treasure are fully completed!

The incomparable humming sound rang, and the smashing treasures of the treasures smashed out the fierce ergonomics. A mile spurred out from his eyebrows, and the stunned eyes disappeared into the huge grinding disc in front of them. not see. "

At one moment, the stillness that stood still as if it was dead suddenly shook, and on the huge grinding disc in the furnace, a \*\*\*\*\* scorpion appeared, rapidly differentiated, and derived endless crepe patterns.

It seems that there is no difference between the cold and the devour of the treasure, but in fact, if you look at it, you can see that there are countless blood-colored patterns on the outer wall of the disc, which are completely different from the previous ones. all

There have been new changes, more primitive, more mysterious, and the cultivation of heaven and earth has not changed, but what is invisible, but it is clearly the soul and blood of the treasure...

Ten thousand striated chains, at this moment, seem to usher in a new life, completed a transformation, and once again waved like a starry sky. From

From this moment on, the smoldering furnace is still a smoldering furnace. It is a world-class avenue of strength. Its original power has not changed. Instead, it has become more powerful because it incorporates the unique blood and power of engulfing the treasure. New ability.

It is also from this moment that the furnace is no longer the former furnace. It has nothing to do with the green eyes of the wild, just like Ye Xuan refining Shennong Ding, from the inside out, thoroughly Refining and chemical, and engulfing the treasure is inseparable! "

The last ninth robbery will take all the thunder of the entire vast robbery cloud that enveloped the tens of billions of emptiness into an instant, and turn it into a hijacking, squatting down..."

Oh..."

It was at this time that a faint sound of broken air came from the mouth of the newly reborn furnace, and a figure spurted out from the inside of the furnace, which was the engulfing of the treasure.

Without hesitation, the wave of the huge furnace instantly turned into a blood-black man, and he entered the body from the eyebrows that swallowed the treasure. first

The former furnace is still an enemy, and it is what it should be.

But now it is different, the furnace has been refining, and it has become the treasure of the devour of the treasure, naturally it is not necessary...

In fact, this last power is the most horrible hijacking, and the devour of the treasure is still used!

When I think of it, his shackles are flashing, and I immediately look at the \*\*\*\* tiger that is catching up with the emperor in the distance.

The golden-eyed beast is the fourth step of the heavenly state, and it has already entered the middle of the heavens. This last robbery is the strongest, but it is basically impossible to kill it by a single robbery.

The blood tiger is different. He is only the third order of the heavens. Although the third and fourth orders are only one order, the third order is still in the early days of the heavens. The medium and early stages are two completely different concepts.

This last ninth robbery, if it is a normal ordinary road robbery, I am afraid it will not be able to wipe it out, but now it is a mutated heavenly thunder, plus the beast that devours the treasure will be in this robbery. At the same time, the simultaneous release of the blood, the killing of the blood tiger is simply a matter of nailing, no suspense! "

"Too shameless..."

When the crisis came, the blood-winged tiger stunned and screamed at the same time. At the same time, the sound of the sorrowful sensation of the gods came out and resounded through the star field. he

Without hesitation, he wants to mobilize the power of the body and directly deploy the teleport.

This is a mutated Tiandao thunder, and it is still the most powerful last wave of the nine-wave hijacking. Now the \*\*\*\* robbery that is coming from the sky above the sky is 100 million in diameter. It's just a dog.

Even if he is the third-order existence of the heavens and the earth, it is not a breakthrough person who first entered the heavens. However, in the face of this level of terrorist hijacking, although it will not fall, it must be seriously injured on the spot, and there is no longer a force. If

If that's the case, don't say that you have swallowed up the treasure. It's just a beast, and you can completely solve it with a punch. he

I don't want to fall, I don't want to use this kind of way to help others thunder, so the teleport, the escape of this horrible hijacking, is the only choice, there is no need to think...

Unfortunately, his reaction was fast, but it was still a slow step. swallow

The necropsy is also the avatar of Ye Xuan. The emperor is also the electronic avatar of Ye Xuan. They are all separated. There is no communication between the consciousness. In such a close distance, the devour of the treasure is the beast. Thinking, the thoughts are completely synchronized. Place

So, the cooperation between the two is simply seamless...

In the moment before the blood-winged tiger motivated the body, the moment that it was about to teleport, the devour of the treasure and the beast moved at the same time.

"boom....."

The beast is the most direct, and the squatting of the cold mang, just like the right arm of the celestial pillar, lifted up and directly blew it to the blood-winged beast.

At this time, the engulfing treasure is on the back of the blood-winged beast. His movements are extremely strange. He also lifted his right hand, but it was not a punch, but the five fingers spread out and pressed. On the skin of the \*\*\*\* beast's back...

The \*\*\*\* mans rushed from the devour of the treasure, and the same into the body of the blood-winged beast, instantly let his body shape mad, as if the soul was fixed, the consciousness fell into chaos on the spot. although

However, this confusion of consciousness is only a moment, and the fascinating color of the \*\*\*\* tiger's eyes will soon be restored again, but everything is too late. One

The momentary work is enough to make this \*\*\*\* fall of the sky fall...

The blood awns that have not entered the blood-winged beasts are not only temporary confusing their consciousness, but also devour the treasures and transfer their own airways. "

Oh..." This

At the same time that everything is completed, the engulfing of the treasure has already ignited the power of the body and evades it. and

The blood-colored lightning that came from the sky was also directly on the head of the blood-winged beast. His skull was bursting, and there was a gorgeous golden awn, but it was still half-degraded. Serious injuries have lost their strength..."

"boom!"

It is also at this moment that the beast of the beast is like the right arm of the giant pillar of the sky, and a fist hits the door of the blood-winged head. In the loud roar of the sky, the skull of the blood-winged tiger blasts, the whole The flesh was completely blown into a \*\*\*\* fog under the horrific power of this horrible...

"call out....."

In the distance, hundreds of millions of miles away, the faint sound of breaking the air, the body shape of the devour of the treasure appeared, turned to look at this side, see the blood tiger falling, the thunder was scattered, the heart was loose, immediately Waved...

An invisible stalwart force swelled out, and the \*\*\*\* fog that blew the blood of the blood tiger was shrouded and wrapped up. In a moment, it turned into a \*\*\*\* man, and did not enter the body of the treasure. first

Before, Ye Xuan's hand had fifteen Tiandao blood essences, and now he has a \*\*\*\* tiger, and once he devours the treasure, he will hand over the blood of the awning to Ye Xuan. The blood of the heavens in the hands will reach sixteen. when

However, today's engulfing treasures have also got the furnace, thoroughly refining, the ranks of the furnace are the same as Shennong Ding, and it is also the ancient treasure of the era. although

It is said that there is no Shennong nine-color flame in the furnace, but there is a flesh-and-blood disc, even if the blood-beads formed by the blood-blowing tiger body cannot be blasted into a \*\*\*\* and more pure beast blood. but

The devour of the treasure motivates the flesh and whetstone in the furnace of the smelting furnace, but it can be refining it like a sinister source, but the order and the effect are more amazing.

Therefore, the blood of the Tiandao blood formed by the \*\*\*\* tiger's body explosion may not be handed over to Ye Xuan's hand. Which side is needed, which side is used...

Here, everything has come to an end. The devastating treasures of the treasures have dissipated, the furnaces have been refining, and even the blood tigers have been smashed.

As for the power and absurdity of the previous 20 beasts, they were already killed by the four kings early.

Everything about this is long, but it actually happens in a short moment. far

At the end of the battle, the golden-eyed beasts and the old pigs are still in the battlefield. The two are repaired to the same strength. They are the strong fourth-order existence of the heavens. This level of war is only a little If you are careless, you will be caught in a moment.

Therefore, since the beginning of the Great War, all the minds of the Golden Eye Beast have been put into it, poured into the old pig essence, and they have not paid attention to it, and they have nothing to do with everything else...but

Nowadays, with the fall of the blood-winged beast, especially the screaming and screaming screaming before he was bombarded, in the distance, thousands of miles away, the empty sky is pouring all the old pigs and the golden eyes The beast, I noticed the battle here. "

Oh..."

Only one exploration of the gods, the old pigs have already realized everything, and the hair is out of a horrible sigh, revealing joy, quite self-satisfied. and

The golden-eyed beast turned to look at it, and it was cold and cold to see that all the wars in the void had ended. Not only did the 20 vicious beasts and the absurdity fall, even the blood-winged beasts, including The furnace, it's gone... this

The result of the sample made him unexpected. Under the trepidation of the golden-eyed beast, an instant burst of whistling sound was heard. swallow

The treasure body and the beast turned their heads and exchanged a look. Without hesitation, the shoulders of the two men suddenly turned into two awns and rushed toward the front. This is clearly related to the old pig. Fine teamed up, killing the rhythm of the golden eye beast...

In a short time, the blood tiger fell and the furnace disappeared. The result was that the golden-eyed beast was not expected. His body shape shook, and his hair was filled with an endless burst of whistling sound...

In the eyes of this scene, the devour of the treasure and the beast turned to exchange a look, without hesitation, the shoulders swayed, the body shape instantly turned into two awns, rushing toward the front! Look

This posture is clearly to join hands with the old pigs to kill the rhythm of the golden-eyed beast...

For such a dangerous situation, the blue-eyed beast is difficult to support alone. If there is no accident, the result of the final fall is almost a nail, and there is no suspense.

The cultivation of the golden-eyed beast is the fourth step of the heavenly state. and

Right now, among the three strong men who will be slain, the old pig is the fourth-order existence of the heavenly world. It has been a battle with the golden-eyed beast, and the half is not weak.

In addition, although the devour treasure is just the first-order heavenly road that has just broken through, its real combat power can also be compared with the fourth-order heaven.

Adding the beast of God, although only the second stage of the heavens, but it can fight against the third-order heavens without falling into the wind...

Under the joint efforts of the three men, and the golden-eyed beasts are now full of war, the results are self-evident.

In fact, the situation he is facing now is obviously far more than this crisis...

"call out!"

"call out....."

The physique was turned into two volleys, and the devour of the treasures in the middle of the cold, immediately waved. a few

At the same moment, a blood black rushed out of the hands of the treasured body, welcoming the storm, and the blink of an eye turned into a star-like blood-black furnace, which is a furnace!

"The furnace?"

"This is absolutely impossible, how can you refine it..."

Going to the furnace, the virtual air path on the right side is blocked, and the other three directions, the original opponent's old pig essence, and the spurting of the beast and the engulfing treasure are also in place, and immediately fall into a circle. The golden-eyed beast was suddenly exclaimed.

I didn't see the furnace in the previous turn. He thought it was going away. He left it temporarily. Now he suddenly saw it being swallowed up by the swallowing treasure and finally realized what happened. This

Although the furnace of the furnace is only one step ahead of the shoulders, it is the ancient treasure of the era, it is built with some mysterious and strong metal, and it is also cast by the evil eye. .

In general, the heavens and the strong, even in the late stage of the seventh and eighth worlds, as long as the strength is not stronger than the blue sky, it is impossible to erase the brand of the green eyes and to refine the furnace. .

But all the facts in front of us are all the same. Although the golden eyes of the beasts can't think of how the treasures are swallowed, the facts that are in front of them cannot be ignored.

The thoughts flashed through his mind, and the look on his face changed again. Under the madness of the body, the whole heart sank to the valley in an instant. only

In the face of the old pig, the devour of the treasure and the beast, his situation is extremely worrying, and basically there is not much life. Such as

Nowadays, with the strange power of the furnace, this is simply adding fuel to the fire, adding to the snow...

In the face of this situation, he naturally cannot have a heart of love. No

There is hesitation, under the glimpse of the gloom, the golden-golden beast even if the power of the body is pushed to the extreme, this is to immediately start the teleport, and escape the rhythm.

I don't know if I can succeed if I fall into the trap, but at least I have to try..."

Oh..."

Oh la la..." low

The sound of Shen's humming sounds, accompanied by the lock of 哗啦啦, this moment, the furnace is moving, the whole huge star-like furnace is shaking slightly, and the 10,000-shaped chain of the outer wall of the furnace is instantly Rushing up, intertwined into a secret pattern in the void.

The invisible pressures are scattered, forming a kind of mysterious field power, and the voids within a hundred billion miles are blocked. only

It's just that the field pressure of the furnace has formed the power of ban. Obviously, it can't stop the forcible teleportation of the mid-term strong, but it is also the pressure of the old pig, the engulfing treasure and the body of the beast. Dispersed, invisible blessing, in an instant, this banned power in the meditation has been reinforced, solid gold soup! "

Oh..."Bi

The eye-catching beast screamed at the sky, his voice was so fierce, and he showed his endless unwillingness. He tried it and tried his best to force the body, but this piece of 100 billion miles of the void was completely banned, unless his repair was The strength reaches the late stage of the seventh stage of the heavenly state, otherwise it is impossible to tear this invisible power of ban. change

In other words, he is now completely trapped in a situation where the teleportation is ineffective and he can no longer escape. No matter what happens, he can only bite his teeth and force it down.

As for whether you can get through it, that is another matter...

"Roar....."

"Hey..."

At this moment, the beast and the old pigs were fine, and each screamed and rushed to the golden beast. emperor

The beast is still a punch, like the sacred pillar of the right arm slamming away, the void along the way is rapidly collapsed, the horror of power can be imagined. versus

At the same time, the pair of huge wings behind it are slowly moving, and the emptiness of the sky is lingering, and a dazzling sharpness is invisibly dispersed.

The old pig is still the three-axe, the giant horror figure of Panda is 60 million miles, and a pair of huge black hooves are waving fast. It looks very smart and dazzling. It is impossible to judge him. Which hoof is the real move.

The devour of the treasure did not stop, the squatting of the cold mang, the whole body shape was easy to disappear in the moment, when it appeared again, it was already on the side of the blue-eyed beast.

The latter's body is too large, and like the old pig sperm, there are 60 million miles. In contrast, the form of the normal human race that devours the treasure is simply insignificant. It is clearly the difference between the stars and the dust, which is too inconspicuous. this

At that time, his body shape appeared quietly, and the body's breath was completely concealed. The position that suddenly appeared was in the blind spot of the blue-eyed beast. When it appeared, it was not discovered by the other party. take advantage of

At the moment of this smashing, the engulfing of the treasure body seems to have a faint flash, and the right hand pinches the fist, and if it is nothing, it hits the left rib of the blue-eyed beast... This

For a moment, the right fist that swallowed the treasure smashed out the incomparably \*\*\*\* awn, and the golden-golden beast finally sensed his position, but it was too late. The former's right-handed screaming violent blood was directly immersed in his body. I don't know how strange the power is, and the huge eyes of the original golden eyes of the animal are in a state of confusion. "

Rumble..."

"boom!"

At this moment, the loud noise stunned, and the face of the beast was banged on the back of the golden-eyed beast. The sound of the crack in the card was heard, and he immediately opened his mouth to spurt an arrow of rain and blood. Void...

With the engulfing of the treasure, he slammed into the left rib of the golden-eyed beast, and the \*\*\*\* mans of his right fist slammed directly into the body of the former...

I don't know how to use the power of the blood, and the huge eyes of the original gold-eyed beasts are in a state of confusion.

Rumble..."

boom! "shock

The sudden bang of the sky suddenly broke out, and the head of the beast was banged on the back of the golden-eyed beast. The sound of the crack of the card was heard, and he immediately opened his mouth to spurt an arrow of rain and blood. Void...he

It has not fallen, but the offensive has not ended. "

boom! ""

boom! ""

Card..."

I didn't wait for the golden-eyed beast to return to the gods. The old pigs who stood up and walked against the \*\*\*\* hoof that waved like the wind directly greeted him on the door, not just a moment, but a pick-up, like a Dense rain drums in general... old

The pig essence is obviously awkward. His \*\*\*\* hoof is the hardest part of his body. Now he is waving like a wind, the shadows are not visible, dazzling, directly boosting his power, and then knocking down intensively, instantly Then came the sound of the crack of the card.

The brain of the golden-eyed beast has split open, and there is a splendid light shining inside. After all, it is a powerful existence of the heavenly state, and the sea is like a big sun, dazzling.

"call out....."

Oh la la..."

In the overwhelming sound of the chains, the huge furnace of the stars, like the 10,000-character chain of the outer wall of the furnace, descends from the sky, just like a square sky, on the back of the blue-eyed beast. . This

It is a fatal blow. After all, the furnace is made of some mysterious and strong metal. Like Shennong Ding, it belongs to the age-old treasures. Now it is engulfed and treasured, and it is integrated into the devouring treasure. The power of the body is different, and the power is stronger.

If it is in the normal state of full prosperity, but now the blue-eyed beast is almost seriously injured and dying, the entire brain is knocked to crack, screaming like a big day, the sea of knowledge shows a corner, consciousness has long been confused Hey, where is the awareness that motivates the body to defend? This

As soon as I hit it, the shocking sound came from an instant. There was no suspense. The huge body of the golden eyed beast of Pangda was filled with a \*\*\*\* fog for a moment, and it spread. "

Oh..." swallow

The treasure body has long been familiar with the road, and it is cold and unpredictable. At this time, the waved movement seems to be more natural than Ye Xuan.

An invisible majestic spurt of force swelled out, and the \*\*\*\* fog that smashed the body of the golden-eyed beast was shrouded and wrapped up. In a moment, it became a \*\*\*\* man, and did not enter the body of the treasure.

Previously, Ye Xuan and the engulfing treasure had a total of 16 Tiandao blood essences. Now they have another one to kill the golden-eyed beast. Once they have swallowed the treasure, they will not be refining the blood. To Ye Xuan, the blood of his heavenly path will reach the height of seventeen, and the distance is twenty, which is not far away...

Everything is long, but in fact it happens in a short period of time. From

The beast and the engulfing treasure turned and rushed to the golden-eyed beast. Today, his body shape bursts into a \*\*\*\* fog, which is compressed by the engulfed treasure into a blood-bearing body. Just arrived. on

Therefore, the invasion of this battle has completely ended.

The mainstay of the floodland, Hong Tian Tian Dao, sent a powerful elite team led by two third- and fourth-order blood-winged tigers and blue-eyed beasts. except

In addition to the age-old level of the ancient treasures to the treasure furnace, there are twenty beasts of great power and abundance... but

Today, this elite team from the forbidden land, without exception, was completely smashed, and it can be said that the whole army was wiped out and it was extremely fierce.

Originally, the smoldering furnace was built by the sorrowful sorrow of the sacred sacred eye. The sacred sacred sacred treasures on the huge grinding discs inside the furnace were swallowed and refining, and the sorrowful blue eyes should be inductive.

But in fact it is not the case, otherwise he has already torn the void to come here.

The wars at the moment have ended, and the green eyes of the wilderness have never appeared. They can only explain one problem. That is, for the smelting of the smoldering furnace, the sorrowful sorrows and blue eyes are completely unaware, and naturally it is impossible to know the magic. It was all that happened in the palace. It

So, on the one hand, it is because the blue sky is too far away from here.

But the more important reason is that the devour of the treasures engulfing the numerous flesh patterns on the huge flesh discs in the furnace is related to the unique blood of the engulfing treasure.

In addition, the headless baby corpse took the opportunity to stay in the inside of the furnace of the furnace to cover the sky, and naturally passed the inspiration of the green eyes.

Otherwise, even if he is now far from the Forbidden City, once the sense of the furnace is being refining, the blue sky will surely come at full speed in the first time.

In this way, if he is allowed to go to the Forbidden City before the devouring of the treasure, the process of refining the furnace of the former is affected, and whether it will succeed in the end, it really belongs to two things...

All of this is just the case. In the face of established facts, the so-called if it is always pale and powerless. that

Some of these things can't exist. The fact that they are in front of them is that all of this has ended. This invasion of the flooded land has ended in turmoil. The calculations of the aids of the blue sky and the green eye are also completely defeated!

"Hey..."

"A group of chickens and dogs, dare to come to the temple to ban the wild, do not know that the magic hall pig tyrants sit here? Really looking for death..."

At this time, with the end of the war, the old pigs sighed with a stunned look, revealing endless embarrassment and pride, and the entire grand hall was clearly smothered in the forbidden place...

Therefore, the innumerable strongmen of the six major corps in the forbidden city in the Forbidden City are feeling awkward, but after consuming the treasures and the beasts, including solving the power and

destiny of the 20 beasts, In the distant sky, the four kings who watched the battle in the distant sky seemed to be lazy.

"call out!"

Oh..."

The faint sound of the broken air rang, and the four kings moved at the same time. The huge body was transformed into four faint awns. The glare came from the blink of an eye and fell into the body of the beast.

The Emperor also did not stay half-pointed, directly reduced his figure, and his shoulders swayed, and he entered the giant star that he had previously lived in. to

In the devour of the treasure, in the middle of the gloom, the wave of the furnace into the body, and then directly return to the black house hall of Ye Xuan's Dongfu stars.

In the deserted stars a little further away, a team of warships came to the sky near the star that was previously destroyed by the furnace, cleaning up the wreckage of the warship floating in the void. One

The cuts were well organized, and the entire forbidden place of the magic hall restored its former tranquility. It seems that everything just happened, there has never been a general...

Chapter 5108: It seems a bit unreliable

The vast darkness of the endless distance in front of the right bank of the Milky Way...

"call out!"

The faint sound of broken air rang out, and a spurt of glare went through the dark void. After a few moments, it was stopped hundreds of billions of miles away. Ye Xuan's figure appeared...

In the void of the square, there is a source of stars, which is exactly what Ye Xuan has come to. To

Before and after the source nest star, Ye Xuan waved directly, and two masculine shots came out. This time, the appearance of the lion Wanjin and the black robe. Count

Counting time, he left the forbidden place from the Forbidden City for the past six months. In the past six months, Ye Xuan has been non-stop, rushing between the source nest stars that he met and marked with interstellar coordinates.

This time, he brought out nearly a hundred of the accounts, but now, in the past six months, more than 30 of the shackles have all entered the source of the stars, and they have stolen the sky.

Although every time when the invisible barrier diaphragm of a source nest star is pulled out by a lion, the dark void in the vicinity of 100 billion miles will have a thunderous sound, and once more than once. fierce. but

Until now, there are still no other accidents happening...

Cut is already a light-hearted road, and there is no need for excessive nonsense at all. After the body shape appears, Ye Xuan suddenly waved.

A volley rushed away, rushing to the source of the nest in front of the star, the low-pitched humming sound, this glare rushed away, thousands of miles away from the source nest stars outside the billion miles . Vision

The familiar scene in the line appeared again. It was a layer of

Before going to the barrier of the barrier, first take a deep breath, and then just like eating, squatting under the mouth!

This time, only one and a half hours ended, and the barrier in front of him was pulled out of a small hole, which contained a stimulating energy atmosphere, pure and incomparable! "

how about it? Are you sure? "

Ye Xuanyuan's Zhonghan Mang flashed and turned to the black robe and looked desperately: "Basically, the chaotic demon gods born by the source nest stars have strong and powerful blood, and the starry beasts are more suitable..."

This is obviously reminding the black robe of the past, he is a deserted survivor, compared with the starry beasts, the flesh and blood is not an advantage, it is best to consider carefully, otherwise what happens will be the result of stealing the sky, It is unpredictable.

"The opportunity of Tianda is enough to give up your life... I hope to see you again in the coming day!"

call out....."

The black robe is already ready for the past, and the sound of the singer is flashing. The sound of the gods is coming out, and the figure has been spurred out. The blink of an eye has been drilled from this small hole. The interior of this source nest star disappeared.

"Hey..."

The low humming sounds at the same time, and as the black robe rushes into it, the nail-sized hole that just appeared appears to be quickly closed at a speed visible to the naked eye, and instantly repaired as it was.

"boom!"

"Booming..."

At the same moment, the end of the darkness of the extreme darkness, immediately as expected, came the sound of dull thunder, continued to touch around the three interest, and then again surprised and unexpectedly ... Hong

Although there is no such thing as the will of heaven in the vain air, its level is still far above the great world. This

The various laws in the operation force, not only exist in the dark, but also have some feelings, Ye Xuan shot stealing the sky, once or twice, for example, the first three times will be bloody, mosquitoes and demon When you send a source nest star, there has never been any abnormal reaction.

But then the same thing has been done a lot. The power of the law of Hongmeng's void is inductive, and the sound of thunder and thunder is actually the force of the law of Hongmeng's emptiness, in the midst of a warning...

However, perhaps it is too much to listen to recently, not only does Ye Xuan have any reaction, even the lion Wanjin is full of indifferent looks, but also reveals the meaning of satisfying enjoyment...

In the past six months, he has smashed more than 30 source nest stars, close to forty. Although he only smashed the size of the soybeans every time, they did not have the most pure and powerful rules of Hongmeng. short

For more than half a year, the repair of Lion Wanjin has already broken through, and successfully entered the first step of the heavenly state. Ten days ago, just under the protection of Ye Xuan, he successfully passed his heavenly thunder.

The speed of this horror was absolutely unthinkable in the past, all because of the invisible barrier diaphragm of the nesting star in the past six months.

Therefore, Lion Wanjin has long been happy with this matter. "

call out....."

In a wave, Ye Xuan took the lion Wanjin into the body, and then he rushed to the next source of the stars, and instantly disappeared in the dark void at the end of the line of sight...

.....with

It is also on the right bank of the Milky Way. From the edge of the Forbidden City of the Magic Hall, there is a dark void of about 500 billion miles. At this time, two figures are coming out of the void and appearing. This

The two figures are the dragon whales in the form of the remains of the survivors and the blue eyes of the wilderness.

Two days ago, they had rushed from the left bank of the Milky Way to the right bank. They were not close to the forbidden place of the magic hall. Instead, they crouched down in the void of 500 billion miles away, waiting for news of the change in the Forbidden City. flood

The plan for the blind eye of the blue sky is to help the surrounding area. in

In his view, there are blood-winged tigers, blue-eyed beasts and sacred furnaces with the twenty fierce beasts and the ridiculous shots. Only one old man with a ruthless nine-step grand perfection is sitting in the floodplain. It must not be an opponent at all. This

The elite team that was driven from the floodplain rushed to the forbidden place of the magical hall, and it would soon be like a crushing, so that the entire forbidden place was in complete chaos. only

When the news comes out, they will crouch down to the parallel void, pay close attention to everything on this side, guard the way, and wait for Ye Xuan, the Lord of the Temple of the Devil, to hurriedly return, and then smack and smother...

However, after arriving here, I waited for two days. In the forbidden land of the vain far away from the tens of billions of miles away, there was no news coming out. It was calm and calm, as if any accidental accident had never happened. It happens in general.

Calculating the time, the blood-winged tiger and the golden-eyed beast should have arrived at the magic hall forbidden for four or five days. They have entered the void of the forbidden land in the magical hall for a few days. In any case, it should not be like this. The scene is right...

These thoughts flashed through the brain, and even the old-fashioned robes of the Qing dynasty Tiandao Qingyan, the depths of the bottom, have already had a suspicious color. and

The old man in the blood robe, which was not far from the side, was frowned. At this time, he finally couldn't help it. He turned to look at the heavens and blue eyes, and he was quite dissatisfied with the tone. He snorted and answered: "Qingdao Daoyou, your subordinate elite team, looks a bit... not very reliable!"

After waiting for two days, the magic hall outside the garrison of 500 billion miles has never been sent out. It is so strange that even the old man in the Qing dynasty, which is incarnate in the blue sky, is already deep in the bottom. There is a suspicious color. its

Not far from the side, the blood robes of the dragon whales have frowned.

At this point, I finally couldn't help myself. I turned to the sky and looked at the sky. I was quite dissatisfied with the tone. I said with a sigh of relief: "You can see that your team is a little bit ugly..."

It should be that something happened on the way to the arrival... unexpected delay! "

The face of the blue sky on the face of the flooded sky showed a smear of color, and responded with a word.

In his opinion, this is obviously the only explanation! From

The ban on the left bank of the left bank of the Milky Way rushed to this side. You had to rush to the end of the left bank of the left bank of the Milky Way, from the endless dark void to the right bank of the Milky Way, and then to the Forbidden City. can

It means that the road is far away, even if the existence of the heavenly environment is all the way, it will take about a month...

In addition, along the way, it is necessary to pass through many forbidden beasts and the survivors' star fields. The left bank of the right bank is also awkward. All the forbidden land and the survivors of the entire right bank of the Milky Way cannot be compared with the left bank. but

Any forbidden land on the left bank of the Milky Way and the land of the survivors are not simple. The floodplain, which has 11 heavens in the footsteps of the ancient sky, can't be discharged into the top ten, only in the forty Name around...only

This can be seen!

In this case, the blood-winged tiger and the golden-eyed beast came from the flooded land near the middle section of the left bank of the Milky Way, and it was understandable to encounter some accidents along the way. Do not

After the floods, the green eyes are not worried about their safety. After all, the floodland is not weak, and the furnace is an extraordinary era of age-old treasures. If it is not, it will be torn with blood tigers and golden eyes. It's okay to go empty.

As for the possibility that they have already reached the Forbidden City where the magic hall is 500 million miles away, the wilderness of the heavens has never been thought of, and even the dragon whales do not think so...

Because it is absolutely impossible, there are furnaces, blood tigers and blue-eyed beasts. If they have already arrived at the forbidden place, there must be a long-awaited scene. How could it be such a calm scene? ?

But then again, since the blood tigers are delayed on the way for a reason, whether they can come in a short time, it is unpredictable, so naturally, it is no longer possible to wait for the past two days. It is. that

Turn around and go to the Forbidden City to ban the land, personally, but there are disadvantages and disadvantages, will make the Lord of the Temple, Ye Xuan, be vigilant.

Instead of this, it would be better to go to the endless dark void in front of the right bank and look for his trace...

If it is normal, it is naturally impossible. The dark void in front of the right bank is too broad, and blindly searching without any clues and guidance is simply asking for trouble. but

In fact, this is not a problem at all, because as long as Ye Xuan, the master of the Temple of the Devil, steals the sky, there will be a thunderous sound from the nearby emptiness. This is the power of the law of Hong Meng's virtual operation.

For the blue sky and the dragon whales, the sound of thunder and thunder, which is out of thin air, is also a guide to roughly determine the position of the main hall of the magic hall.

After the decision, the Hongyan Tiandao Green Eye and the Dragon Whale no longer hesitated, and immediately set off, rushing toward the vast endless dark void in front of the right bank of the Milky Way.

Both of them are now incarnate for the form of the survivors, their body shape is very small, and even the body's repairing atmosphere is also concealed, so it is extremely inconspicuous. first

Before I said it was a good thing, so if I found Ye Xuan, the master of the temple, it would be easier to paralyze each other.

Therefore, at this moment, the dragon whale not only conceals the breath of the body, but even hides his body shape. He is a powerful presence of the eighth order of the heavens and the earth. Not far away, deliberately concealing the figure, under the convergence of breath, it is Ye Xuan, if not deliberately carefully explored, it is difficult to find ... to

The green eyes of Yu Hong's Heavenly Road are only concealing the cultivation of the body, so as not to let the breath spread, and the distance is perceived by the other side. whole

The glory of the glory is too vast, and the galactic star field only occupies the corner of the emptiness of the glory. Even the dragon whales and the sacred eyes are the powerful existence of the eighth order of the heavens. The speed is very fast, and they are always searching. No non-stop, no stop for a while... but

After a full half-month period, they did not find the whereabouts of Ye Xuan, and even the thunder of the emptiness in the void has not been heard. This

Obviously it is because of the distance from Ye Xuan, because according to accurate information, Ye Xuan will send a scorpion to a source nest every three to five days.

Although the Hongyan Tiandao Green Eye and the Dragon Whale did not know how Ye Xuan found a source nest star every three or five days, but they determined that this kind of thing Ye Xuan would never stop easily...

In fact, in the past two months, they have searched aimlessly, and they have encountered two or three source nest stars in this vast and endless dark void. but

Because they did not have the means of Ye Xuan, they could not break the layer of invisible barrier that shrouded the surface of these source nest stars. It can be said that it was useless, so they did not pay attention to it. "

Rumble..."

Just as both of them were somewhat intolerant, the virtual air in the right side of the front suddenly heard a thunderous thunder, and the movement was not big, indicating that it was still far away.

But at least it is said that Ye Xuan is in that direction, and the wild eyes and the dragon whales are squandered in the wild, and they will not hesitate under the spirit. They will immediately push the power of the body to the extreme, bright and dark, toward the bang. The direction of the sound came quickly...

.....black

In the dark void, a source nest star stands in the void, silent and silent. distance

From the position of the source nest star about 10 billion miles away, a figure can be seen, it is Ye Xuan...he

It was just arrived, and at this moment, I waved abruptly, and a volley was rushing to the source of the nest. under

For a moment, there was a low-pitched humming sound, and a layer of hundreds of feet of sputum was seen over the source nest stars beyond tens of billions of miles. lion

Wan Jin's entire body shape instantly turned into a masculine spurt, and when he got to the barrier of the barrier, he slammed his mouth and slammed it!

The barrier in front of him was pulled out of a small hole, which contained a fascinating energy, pure and incomparable. Then Ye Xuan's side was smashed and smashed into it. The interior of the source nest star disappeared..."

Rumble..."

On the right side of the darkness, the darkness of the sky immediately came to the thunder, and Ye Xuan did not intend to pay attention. but

This time, he seemed to suddenly feel something. He sneaked out under the flash of a stun, and subconsciously turned to the dark void in the right rear, and looked around..."

Oh..." with

Ye Xuan turned to look forward to the extreme distance of the dark void in the right rear, and there was also a weak and empty sound. A strong figure of a remnant in the green robe appeared and was speeding up and coming towards this side. ....This

The strongman of the remnant is very raw, and Ye Xuan has never seen it before, but the cultivation of the body is not weak, and like Ye Xuan, it has reached the eighth level of heaven and earth, even from the 9th order of this scene. The peaks of heaven are not far away. Do not

After all, I don't know why, when I saw this person in the blink of an eye, Ye Xuan was suddenly a warning sign in my heart, and there was a kind of sensation that met my life's enemies.

Under the suspicion of his heart, he glanced at the other side deeply, and then hesitated without hesitation. He directly activated the magical power of the perfect shock, urging the power of the body, and teleported away...

If it is a direct teleport, there must be fluctuations in the void, unless it is the interstellar coordinate jumping ability attached to Ye Xuan's activation of the internal system, otherwise the eighth-order survivor who is comparable to his strength will surely follow the teleport. The resulting volatility, find his whereabouts...

But now, he is the first to activate the magical spirit of perfect shock, hide his body shape, all the breath is completely concealed, and then sweep away and then quietly unfolding the teleport, naturally there is no trace to follow. or

Xu Xiu is stronger than him, and he has reached the peak of the ninth-order grand perfection. He can capture a trace of the traces of the heavens, but this eighth-order survivor who is similar to his strength is absolutely impossible. . Place

Therefore, Ye Xuan did not put this matter in his heart, and after quietly leaving, he rushed to the next source of stars in the memory marked with interstellar coordinates...

"call out.....""

Roar! ”

After a short period of time, a volley of volitions came from the sky. It was the eyes of the ridiculous heaven and earth, and the body shape appeared, and he immediately gave his head a horrible roar. Find

For most of the month, I finally found each other, and even saw Ye Xuan in the distance from the void, but after all, I let the other party go away. and

And there is no trace of clues in the void, and there is no way to pursue it. Next, I am afraid I can only search for it in the vast dark air of this vast and endless darkness like the previous ones.

"boom!"

Under extreme anger, the unsuccessful redness of the heavens and the blue eyes suddenly waved, and a punch rushed to the source of the nest in front.

This source nest star, apparently just been sent by Ye Xuan to a subordinate of his account, has been successfully stolen.

If you can destroy it, at least you can solve your eyes...

"Hey..."

The violent violent amount of his fist blasted, and there was a very low humming sound in front of him. A layer of translucent diaphragm barrier appeared, seemingly thin, but under his horrible punch But even half a minute did not provoke..."

Damn, it's too strong. It's condensed by the power of the law of Hong Meng's emptiness. I can't shake it with all my fists. How did the \*\*\*\* guy send the shackles? "Look

As a result of this, the strong singer of the Qing dynasty, the Qing dynasty, and the remnant of the Qing dynasty, twitched and snarled.

He is the heavenly will of one big world, without emotions, high above, overlooking all beings, basically there will be no such moment of anger.

But nowadays it is different. The world of the wilderness has long been swallowed up by the endless stream of emptiness. He is no longer the incarnation of the so-called big world. It is only a stronger starry sky.

This change in state of mind, invisibly makes his temperament more humane, no longer as cold and embarrassing as the high heavens...

Of course, encountering Ye Xuan, such a horrible horror, is one of the reasons for eating cockroaches in his hands. "

No need to try again, you can't open it..."

At this point, although the figure of the dragon whale did not appear, the breath did not show up, but its voice was heard: "But the scene just proved at least that the information is true, and the guy did have to send his account to the family. The secret method of the source nest star stealing the sky..."

"And, since he has already found him, then we only need to search for divergence in the surrounding area. His next goal is definitely nearby, and it is impossible to go far."

What we have to do is just to approach as much as possible before he next walks away, so that you can find a chance to take it, contain it, can't leave, and leave everything to the deity to move. "Say

At this point, the dragon whale's voice was slightly louder, and immediately after the sound again, there was a sense of gratitude in the tone: "And, this time, although he let him escape, he turned his head and looked at it. After your reaction, he clearly did not recognize you..."

This is an unexpected joy, and the Taoist friends may wish to ponder and see if there is any value to use..."

That's right, the guy did not recognize me..."

Was reminded by the dragon whale that the blue eyes of the ridiculous Tiandao immediately reacted, and whispered and frowned and fell into sinking: "This can really be used..."

Soon, he seemed to have a decision, and he did not hesitate. After his body shape, he immediately went to the dark void far away from the front left. Dragon

The shape of the whale did not appear, and the breath did not appear half-baked, but it was like a shadow. It was always outside the 100 billion miles, and closely followed the green eyes...

.....

A year has passed between the eyes. three

More than a hundred days and nights, for the strong stars, especially for the late days of the heavens and the dragon whales, such as the ancient days and the dragon whales, the strong existence of the ninth-order grand perfection of the heavens is not far away. There is no difference in blinking. but

That's just normal. to

Since the beginning of this year, whether it is the wild eye of the wild, or the dragon whale, there has been a feeling of exhaustion between the body and the body.

In the past year, they have not stopped for almost a moment, and they have been in the vast expanse of darkness in front of the right bank of the Milky Way... exhausted!

Since I saw Ye Xuan for the first time in a distant void distance of a trillions of years ago, during this year, they insisted on sticking their teeth, searching around, calculating, and being close to or far from each other. Distance, saw Ye Xuan's figure six times. to

I didn't see it in the shadows, but I heard the thunder and thunder, and the number of times I rushed to the air, but as many as ten times...

Even so, the green eyes of the wilderness still have no chance to find a shot.

The closest one to Ye Xuan's figure is outside the 400 billion miles. Although it is a powerful presence of the eighth order of the heavenly realm, even this distant distance can be punched out... but obviously there is no meaning. . thing

In fact, several times later, every time the ancient eyes of the singularity of the wilderness passed through the old distance, they conveyed the voice of God and expressed goodwill. They hoped to talk with Ye Xuan, but the other party never bought it. This

In this case, it is even worse not to meet up close, and suddenly shot.

I knew this kind of scene, I shouldn't have started at the beginning, but now I've been tossing for a year, and I'm giving up on it. I can only stick to it and stick to it..."

call out....."

In the dark void, the sound of the air broke, and a figure came from a distance, and suddenly came to an abrupt end. before

Beyond the tens of billions of miles away, there is a source nest star standing in the void, silent, this star, is the next goal of Ye Xuan...

After encountering the elders of the Qing robes who were extremely suspicious, the time has passed for more than half a year. In the past six months, Ye Xuan has repeatedly looked at each other across the distance.

Even twice, the repairing power is extremely extraordinary. Like his peak fighting power, the old ancestor of the Qing dynasty who has reached the eighth level of heaven and earth is still taking the initiative to spread the voice of God. Expressing goodwill, I want to stay with Ye Xuan. but

The strange thing is that every time I see each other, Ye Xuan's heart will immediately rise to a warning sign, and there is a kind of sensation that is extremely unpleasant or even counter-conscious.

For this reason, he did not stop every time, and he did not pay attention to it. After a cold glance, he immediately activated the magical secret of the spiritual power, and concealed his body shape. All the breath was completely concealed, and then he left.

For more than half a year, he has been walking around the endless dark void in front of the right bank of the Galaxy. Every time he arrives at a source nest star that had been marked with interstellar coordinates, he will send it to a member of the account. Within the stars, start stealing.

From the very beginning of this time, Ye Xuan has sent a number of nesting stars to the account of the genus, including the Emperor Yin Lei Ling, Mosquito deity, bloody, elephant fox, Yingtai, Limosa , flying scorpion and silver squad...

And Taikoo Porcupine, Taikoo tortoise, green cow, jade exquisite, roaring moon, dragon, black robe, ninth, three-jawed dragon, and wolf stale, Dusha, lion overbearing six people!

In the end, it is the savage beast army and the bloody, Qingpeng and war lions.

The total number of people is 98. Now, in the first half of the year, plus half of the time after meeting the elders of the Qingpao, a total of more than a year has passed. Among the 98 people, everyone else He has been sent to a source nest star. eye

Xia still stays in the inner space of Shennongbao in his body, and there is only one ancient power of the War Lions. only

It is necessary to send the wild abilities of the war lions to the source nest stars outside the tens of billions of miles ahead, and Ye Xuan's action is completed satisfactorily.

For more than a year, counting the \*\*\*\* at the beginning, the Mosquito deity and the Emperor Yinlei Ling, Ye Xuan was sent to the source nest star, and thus it will reach as many as 98. thing

In fact, if he counts his strength to separate himself, and before he enters a source nest star to start the day of the crazy mosquito emperor, Ye Xuan's camp enters the existence of the source nest star, and it reaches one. A hundred. whole

An innocent Hong Meng emptiness, the chaos demon \*\*\*\* bred by this era, only a total of three thousand, Ye Xuan's camp can occupy a hundred, which is one-thirtieth, this is an extremely amazing number.

It is he who thinks about it, and he has a feeling of being shocked. although

He said that he did not use the number of Tiandao to promote the limit of stealing the sky, but the figure of 98 has been extremely sensitive. The ninety-nine is extremely extreme, and Ye Xuan has also guessed it. Place

Therefore, after this time, Ye Xuan will not continue to take risks.

In fact, in the past more than a month, whenever he sent a shackle to a source nest star to start stealing the sky, Hong Meng's emptiness warning generally thundered, which was indeed stronger than the previous movement.

This situation also does not allow him to continue..."

Oh..." brain

In the flashing of these thoughts, Ye Xuan suddenly waved, and a volley rushed away, rushing to the source of the nest in front of the stars, followed by a low-pitched humming sound, the source nest stars outside the tens of billions of miles appeared A layer of about one hundred feet of diaphragm. according to

As before, the lion Wanjin turned into a masculine masing for the first time, and then went to the barrier before the barrier. very

Fast, the barrier diaphragm in front of him was pulled out of a small hole, which contained a stimulating energy atmosphere. The lions who had already waited on the side of Ye Xuan's body suddenly turned into a miraculous Shoot and go.

After entering this source nest star, the blink of an eye disappears!

"Booming..."

Unsurprisingly, all this has just been completed. At the end of the dark void in the distance, the sound of thunder came immediately. Ye Xuan's heart was tight, and it was determined that the heart of the blind eye was slow except for the thunder and roar of the thunder. Slow down and go back.

"This is the last time, and if you do it, you must have something to do..."

Turning to look at the lion Wanjin next to him, seeing this guy still seems to be still unfinished, Ye Xuan immediately stared at it, and then waved him directly into Shennong Ding.

Before and after this guy, a total of ninety-eight source nest stars smashed a small barrier diaphragm of the size of the soy bean, which is all the most pure force of the law of Hongmeng, and more than a year has allowed him to rise from the ruin. Into the heavens, the harvest is already against the sky.

After doing all this, when Ye Xuan was about to leave, it seemed to suddenly feel something. He was flashing in the middle of the sin, and subconsciously turned to the dark void in the left rear.

At the end of the line of sight, a hundred thousand miles away, a figure is coming from the positive speed. It is the suspicious black robe remnant who has been chasing him behind him for half a year...

"Ye Daoyou stayed, the old man was not malicious, there was something to do..."

At that time, the old man in the Qingpao clearly saw the figure of Ye Xuan. It seemed that he was worried that he would immediately take it away. At the same time, he swiftly rushed, and there was a voice of God...

Chapter 5109: One shot and two scattered

Ye Daoyou? leaf

Xuan's heart moved, and a flash of light flashed in his mind.

If it is in the vast world, there are many people who know his real name. In this piece of glory, the outside world knows that it is only the fierce starry sky. this

The identity of the human remains is false, but it is caused by the incarnation. This

For a moment, Ye Xuan's gaze swept over the green robe worn by the other side, and suddenly realized.

Although there was a general guess, his face was not revealed. It was still the same as the previous few times. He looked at the other person with a blank expression, and then concealed his body shape, and then he turned away and turned away. original

Ben Ye Xuan did not intend to take another shot, but now he has changed his mind. He has already shot 98 times. If there is no accident, Jiujiu should be a number, that is to say, the next shot will steal the sky, and Hong Meng will be in the air. The power of the law of operation must be responsive...

If this is the case, then it will be in the middle of the mind, just to let the old things chased behind him thunder.

It is just that I don't know the punishment of Hong Meng's void, can I wipe out the incarnation of a big world's will!

These thoughts flashed through my mind, and Ye Xuan was so excited that there was a sense of excitement, which was clearly the rhythm of burying the sky...

Nine is extremely. Previously, Lion Wanjin had already shot ninety-eight times. Therefore, if the follow-up shot is taken again, there will be new changes in the force of the law in Hong Kong's emptiness. If there is no accident, most of it will be Such as thunderbolt general punishment.

After guessing that the old man of the Qingpao who had been chasing him for the past six months, in all likelihood, after the flood of the sky, Ye Xuan suddenly gave birth to a bold plan.

That is to use the power of the law of the operation of Hong Meng's emptiness, just like burying the sky, sending the sorrowful sky to the west...

He can't know if he can succeed, and he can't make it, but it doesn't help it anyway, but it can be tried. when

However, it is not completely risk-free. Although Ye Xuan did not directly steal the sky, the invisible barrier diaphragm that was covered by the previous total of 98 source nest stars was all smashed. It is a lion.

However, according to Ye Xuan's estimate, if the force of the law of running in the void is really reducing the punishment, it is impossible to just lock the lion.

If it is locked, it is very likely that it will be a large area of void, and all the creatures in this area will be wiped out!

Therefore, what Ye Xuan needs to do is to ensure that the person who is the incarnation of the Qing dynasty and the incarnation of the Qing dynasty enters the area of punishment. According to his estimation, this area of punishment should be within 100 billion miles... but

Now there is a question, how to guarantee the safety of Lion Wanjin and his own? Both

However, it is a day of punishment, so it must be locked in by the power of the law of Hongmeng. If it is only a distance of about 100 billion miles, the heavenly powerhouse will escape with a teleport. What is the point? in

In this area of penalty, the teleport is absolutely impossible to expand, but whether the interplanetary coordinate jumping ability attached to the system of Ye Xuan can be activated and started smoothly, but it is still unknown. Such as

If you can activate the start, then the nature is perfect. After the start of the penalty, he directly waved the lion Wanjin into the space inside the Shennong Ding of the body, and then walked away, leaving the flooded sky and the green eye.

It is estimated that even if this old thing does not die, at least it must be delaminated. but

If the interstellar coordinate jump ability attached to the Ye Xuan system is not activated, it will be a little troublesome...

This point Ye Xuan pondered for a long time, and finally decided to take a chance to try, after all, he still has Shennong Ding, if it is really impossible to leave and leave, it is a big refuge in Shennong Ding.

What's more, Hongyan Tiandao Qingyan is just like the peak of his current power. It is only the eighth stage of heaven and earth. Ye Xuan has Shennong Ding body and Lei Diyin. Even if it is a hard-hitting punishment, it is more than a wilderness. Have an advantage.

Besides, he always has a strong intuition. This time, it is definitely the best chance to get rid of the green eyes. Moreover, the interstellar coordinate jumping ability attached to his internal system should not disappoint him...

Many times, he acts on the basis of intuition, otherwise he is afraid of the tail, what is the strong star? What are you looking for? brain

After flashing these thoughts, Ye Xuan made the final decision in an instant, so this time, in the activation of the perfect shock of the spiritual power secret, the body shape is hidden, after the air is concealed, Ye Xuan did not cast teleports. .

But squatting quietly not far away...

Ye Xuan all knows the location of several source nest stars in the distance, but what he wants to determine now is the choice of which direction to continue to pursue.

After confirming, Ye Xuan will rush in advance, and then, when it is determined that the other party is about to approach, let Lion Wanjin take the last bit...

Soon, the wilderness of Tianhong Road was near, and I looked around and saw that there was no such thing as Ye Xuan.

After a few moments, he seemed to calm down, and the squatting of the green mangling, the look on his face also changed, seemingly in the voice of God.

Is there a helper? Hidden in the dark? leaf

Xuan's heart moved and sneered in an instant. No

For too long, the old man of the Qingpao set off again and rushed to the right.

In the direction of hundreds of trillions of miles, there is indeed a source of nest stars, Ye Xuan calculated the time when the green eyes of the wild road arrived there, and then hesitated, even if the teleports were applied again and again, all the way to the source nest stars Crash...

"call out....."

Upon arrival, he waved directly and called Lion King from the space inside the Shennong Ding, and turned it into a mang, appearing in front of this source nest. "

Head, isn't that the end is over? This is the ninety-ninth time, and the ninety-nine is extreme. Do you mean that it is very likely that you will be fined? "lift

The head saw the source of the stars in front of the lion, and the lions were smashed, and the face showed a faint color, and the face was puzzled...

"It is very likely that the punishment will be lowered, but this time, what we want is the punishment of the day..."

Xuan nodded and said: "However, this time you may have to work hard, always groan, but you have to slowly squat, keep the last one, don't wear it until the goal enters 100 billion miles, listen to my instructions, then Put on the last bite..."

Then, he will soon come to the flooded sky, and he will use this opportunity to roughly explain the plan of the old thing. One

Listening can lead the green eyes of the wilderness, and the lions and eyes are instantly bright. although

He said that he is also dangerous, but there is Ye Xuan here, he is completely fearless, not to mention, this time not only is it possible to get rid of the green eyes of the wild, but also to find a piece of invisible barrier diaphragm of the size of soybeans.

This is of great significance to him. As I said before, the ninety-nine is extremely extreme. Counting this time, there are ninety-nine of the soy beans that he has smashed. Each time is made up of different laws of the emptiness of the law. The condensed, there are ninety-nine soy granules, after re-refining after retreating, it will definitely make his Thunder poison body robbing body, and take it to the next level..."

Oh..."

Immediately after the decision, Lion Wanjin immediately swept away. Before the source nest star in front of him, with the invisible barrier diaphragm of a hundred square feet, he immediately slammed his mouth, but did not intend Wear it directly. and

It's stopping when you have only the last bit left, waiting for it to recover a bit, and continuing, always keeping a bit smashed...

It was really difficult for him once, because the blue sky and the green eyes did not arrive until after two and a half hours, and the lions were more than an hour.

"What? Actually it is directly used in the gums? What is this guy coming to, and where is this good mouth?"

Beyond tens of billions of miles, the sorrowful sky and the blue eyes were cold and not seeing this scene, and under the glimpse of the face, they immediately whispered.

Immediately afterwards, he did not hesitate to launch a rapid approach, and a few short distances have entered the 100 billion miles, followed by the dragon whale hidden behind in the dark. This

For a moment, Lion Wanjin took the last bite. "

Rumble..."

The earth-shattering roar sounded, Hongmeng... angry! "

what? Is it actually used directly? What is this guy coming to, and where is this good mouth? Wan

A hundred miles away, a masculine rush came from, and it was a flood of blue eyes.

When he saw this scene, his face looked awkward, and then he whispered, and the voice revealed a shock and sorrow.

Of course, there are surprises!

In any case, he did not expect that Ye Xuan was able to send the shackles under his account one by one into the source nest, which was actually the way to drop the chin...

The existence of the first step of the heavenly path is too good, and even the invisible barriers of the source nest stars, which are condensed by the power of the pure emptiness of the law, can be directly worn. This

It's really against the sky, and it's really no one. It

So the surprise was because this time he ran into the Universiade. Every time he heard the thunder and thunder, he came back. Ye Xuan had already finished stealing the sky. He didn't wait for him to get away immediately. but

This time it was different. It should be coincidental. It was actually that his cat had hit the dead mouse. Before Ye Xuan and his underarms had not finished the existence of the tooth, they accidentally met them... brain

These thoughts flashed in the middle of the road, and the green eyes of the sky suddenly realized that this was the best chance. If you missed it, it would never be possible.

Then, he didn't think much at all. He didn't hesitate, and immediately launched a rapid approach. The short-term number of interest has already entered 100 billion miles, and the same is true of the dragon whale hidden behind in the dark...

It was also at this moment that Ye Xuan's mid-cold man flashed, secretly issued an order, and Lion Wanjin accident, even if he left the last bite. "

Oh..."

"Booming..." low

The sound of Shen's humming sounded, and then there was an earth-shattering roar. This time it was not in the distance, but just above the source nest.

Ye Xuan's heart is full of enlightenment. He knows that he is right. The ninety-nine is the extreme. This is the ninety-ninth shot of him and Lion Wanjin. Yes, with this last bite, the front is shrouded. The invisible barrier of Hongmeng Star was pierced through a small hole.

Hong Meng... finally angry!

With the sound of humming and banging, an invisible mysterious force immediately enveloped this piece of emptiness. Within a thousand miles, the power of the void was chaotic. This is exactly what the teleport can no longer display. "

Oh..." the same

At one moment, the dragon whale, which has always concealed its figure and converges its breath, has also emerged from the void under the influence of this invisible force. He has already manifested the blood and the body, so his body shape Suddenly, what appears is the ontological form. One

The head dragon whale, with a body shape of 50 million miles, is the eighth step of heaven and earth.

"Water attribute congenital beast? You are... the dragon whale on the left bank?"

Xuan Du has been in contact with so many innate beasts, and the number of hands in the hands is close to the number of hands. Naturally, the breath that comes from the body of the dragon whales discerns the identity of his innate beast.

Coupled with the form of the body that the dragon whale reveals at this time, Ye Xuan just stunned for a moment, and immediately realized his origins and background.

The five elements of medicine collected in his hands for the second time are now only the source of water. Previously, Ye Xuan knew that there was a congenital beast with water properties in the forbidden land of the dragon whale on the left bank.

However, due to the strength of the other side's cultivation, Ye Xuan did not grasp the one-shot kill, so he temporarily put the matter down, and plans to find the dragon whale's suffocation in the future.

However, I did not expect to encounter each other in advance here, and this dragon whale is clearly already colluded with the green eyes of the wild, and the two are bright and clear, and they are not weaker than Ye Xuan's eighth heaven. miss you

This dragon whale must have any special blood and magical powers. This is clearly to kill Ye Xuan's rhythm. It's no wonder that this has been so persistent for half a year...

"Hey..." brain

In the flashing of these thoughts, Ye Xuanzhen immediately has a touch of cold flashes, no more words, the wave between the hands of the Lion Wanjin income in the body Shennong Baoding's tripod space. One

In an instant, with the lion Wan Jinsong mouth, the yellow bean hole that was pulled out on the giant barrier of the top of the source nest star in front of the star, immediately under the influence of the power of Hong Meng's void law, repaired and healed. but

The thunder and humming sounds in the void have not disappeared, and the heavenly punishment of Hong Meng's void has already started, and it is impossible to stop here.

Without hesitation, Ye Xuan immediately activated the interstellar coordinate jumping ability attached to the internal system. What surprised him was that this time, he unexpectedly successfully started...

"Two friends, enjoy it slowly, this temple... take a step first!"

"Hey!"

"call out....."

Turning to the head of the torrents of the blue sky and the dragon whales, Ye Xuan's mouth outlines a touch of ridiculous laughter. versus

At the same time, different humming sounds, his entire figure instantly condensed into a point, and under the flash, it disappeared with the sharp and unbroken sound, no longer visible, and no trace left, no Traces can follow..."

what? This is impossible..."

In this scene, the sorrowful eyes of the ridiculous heavens have already rushed to the height of 20 billion miles. The figure of a pair of green awns almost slammed out and shouted: "The void is banned." I can't teleport at all. What kind of supernatural power is this? I can still pull away..."

"Qingdaodaoyou, you accidentally out of one after another, isn't it too much too much?"

The dragon whale is also dumbfounded, his face is dark and gloomy, and his heart is extremely dissatisfied: "It seems that this time the deity is really smashing you, you are just like your elite team, not all reliable... .."

"boom!"

"Booming..."

The words of the dragon whale have just fallen, and the sky has been constantly bombing the thunder and sounds.

Looking up, there is no such thing as a robbery cloud, but the sound of the thunder is overwhelming. In the midst of it, there is an invisible force of terror destruction, which condenses over the heads of the two.

The power of the power and the majestic, even the eighth-order heavenly road repaired in the late days of the road, the green eyes and the dragon whales, both of them immediately gave birth to a scalp tingling, heart-feeling. "

Oh..."Hong

The blue eyes of the ridiculous road immediately swayed, and the body appeared, transforming into a huge green eye of a poem.

Twilight flashed to the dragon whale, the voice of the gods began: "Dragon whale friends, this time we are afraid that we really have to be pitted, obviously not yet ninety-nine times, Hong Mengtian punishment is coming early ... every peace!"

After that, the huge blue eyes of Pang Ruxing's eyes suddenly rushed to the left, which clearly means that the dragon whale was squatting, and before the day's punishment has yet to come, take a shot and see if you can escape. ....

Seeing this scene, the shape of the dragon whale trembled and roared like thunder: "The \*\*\*\* old thing, too shameless, really is not reliable..."

"Dragon Whales Friends, this time we are afraid that we really have to be bitter, obviously not yet ninety-nine times, Hong Mengtian punishment is coming in advance... Every peace!"

Looking forward to the side of the dragon whale, the huge green eyes of Pang Ruxing just fell, and the body shape suddenly spurred away to the left.

This is clearly a dragon whale. I want to take a break before the day before, and see if I can escape the rhythm!

At this moment, his heart is almost collapsed. It turned out that the ninety-nine is extremely good, but according to the information he has mastered in the past six months, Ye Xuan's number of stealing days is only 70 times.

There are still more than twenty opportunities. Otherwise, he and the dragon whale are no longer necessary to continue to pursue, because it is useless to catch up.

However, although his calculations are correct, the intelligence information he has in his hands is somewhat unreliable, and the error is as high as twenty times.

These twenty times, three times were originally used to help the blood, the mosquitoes and the Emperor Yin Lei Ling used to steal the sky, but there are also twenty errors, it is in the darkness of the right bank of this Hong Kong The edge of the void is completed. by

Too far away, even if there was a thunderous sound, no one heard it, so it was missed. Such as

It's too late to say that it's too late. The culprit Ye Xuan has already left, but he has left him and the dragon whale and thunder. This kind of thing is absolutely unsatisfactory.

At the moment, it is not a time to vent. Although the void is banned, it is impossible to carry out teleportation. However, his estimation is that this banned void should be only about one or two billion miles. only

If you can rush out of this area between Hongmeng and then move away, you should be able to escape this robbery. although

However, he also knows that the opportunity is not big. After all, Hong Meng's void is not a good fool, but since Hong Meng's punishment has not yet come, he can't stay here and wait. and

The reason why he just fell and turned around and rushed to the left alone, and the calculation of his heart is also a greater chance of splitting.

It's just that such a move falls in the eyes of a dragon whale, but it's not really a taste. Look

I didn't say anything to the green eyes of the wilderness. When I left myself, I turned around and fled. The shape of the dragon whales trembled and roared like thunder: "The \*\*\*\* old things are too shameless. Son, really no one is reliable..."

He is indeed mad.

At the beginning of the flood, Tiandao Qingyan found him, but it was good, the plan was very comprehensive, and the green eyes of the wilderness also said that he only had to hide in the dark, waiting for an opportunity to shoot. to

On the bright side, he and the owner of the temple, Ye Xuan, fought to create opportunities. This

Everything can be said to be a big sense of ignorance. If this is not the case, it is impossible for the dragon whale to nod and so easily promise to cooperate with an unfamiliar fellow strongman. Of course

What happened later is obviously not the same thing. no

It is said that as the incarnation of the will of the Tao, the sorrowful eye of the heavens and the blues, or the genus of the genus under the account of the priests, in the end, the nest that came out of the great world of the wild, is not reliable!

First, after the Forbidden City was banned, the left and right did not see the so-called elite team that he arranged. This kind of big event can drag the bottle of the bottle, and it is no one. tight

Then he followed the darkness of the sacred sky, behind the darkness of the right bank of the Milky Way, wandering for half a year, and finally finally caught the Lord of the Devil, approaching close, and had the opportunity to shoot. but

The final result was actually caught in a trap and was pitted by others.

The responsibility for this result is obviously all on the head of the blue sky. This

The matter has always been his concern. Before he found the dragon whale, he was already paying close attention to the change of the dark void in front of the right bank, and recorded it one by one, and even started the secret method of heaven. Derivation, the result of the ninety-nine is extremely...

But now, according to the ninety-nine of his derivation, and all the intelligence information he has mastered before and after the action, the natural punishment of Hongkong's void is still far from coming, and there are at least twenty opportunities to steal the sky. !

But all of this has become a reality. Whether it is the result of the nine-nine-nine deduction, or the intelligence information collected before and after the action is wrong, in short, all this is responsible for the evil eye, and now it's a big blind. Nature is his responsibility.

However, this guy stunned the scorpion. Not only did he plead guilty, but he also fled directly and fled. This clearly left him to thunder and fight for a little time.

Is it not reliable? It's just shameless..."

Roar.....""

Green eyes, you are an old thing, today's thing... the deity and you are not finished! "

These thoughts are like flashing in the brain, and the entire whale of the dragon whale is sulking, and it is almost mad to spurt a blood on the spot.

But he also knows that it is not the time to go deep into this, the crisis is about to come, or to escape the birth day. angry

In the snoring, he even fled in the opposite direction, and his mind was determined to be like the blue eyes of the wilderness. As long as he rushed out of the area that was invisibly blocked by one or two hundred billion miles, he could instantly Move away, and escape this robbery. and

The imaginary distance of one or two hundred billion miles is only two or three for the horrors of the heavens and the strong, especially the eight-order horror of their heavens. he

Now, it's a time lag with the hunters of the wilderness. If you first escape, you can successfully let the other force to contain the emptiness of Hongkong's emptiness. Thus, the chance of escaping this catastrophe is even greater...

Needless to say, the repair of the two old guys is indeed extraordinary, coupled with the current crisis of life and death, they have no reservations, the power of the body has been pushed to the extreme, just a short break, it has already reached this The edge of the banned emptiness of 100 billion miles...

This speed, only need to have a second interest, they will rush out of this emptied void, then directly deploy the teleport, even if it is the power of the emptiness of the emptiness, it is impossible to always bite behind the \*\*\*\*\* Keep on hold.

Unfortunately, a lot of things are often so different. he

The speed of the two of them is really fast, and it is indeed very early, but the last half of the time, but still failed to win.

Chapter 5110: Are you tired of living?

"boom!"

"Booming..."

Oh..."

"Hey..."

When the two people's physiques rushed to the edge of this tens of billions of banned emptiness, when they saw that they would cross the emptiness of the ban, the celestial punishment of Hong Kong's emptiness finally came.

At this moment, the thunder and roar of the thunder was shocking, but there was no cloud in the sky, and there was no thunder to explode, and there was no robbery.

Everything is just like illusion. It doesn't seem to exist on the surface, but in fact, there are two invisible terrorist forces. In an instant, it slammed into the blue sky and dragon whales that were separated from each other. Are

In the meantime, the two old guys were smashed out of the coke, and the fierce screams of the screams rose into the sky..."

boom! "

"Booming..."

Oh..."

Oh..."

At this moment, with the thunder and roar of the thunder, the sky did not catch a cloud, and there was no thunder to explode, and there was no robbery, but there was a terrible force coming...

Just as the shape of the green eye and the dragon whale in the torrents of the torrents rushed to the edge of the banned emptiness of this 100 billion mile, it was necessary to cross the emptiness of the ban.

The eternal punishment of Hong Meng's emptiness... finally arrived!

Everything in front of me looks like an illusion, and nothing seems to exist on the surface.

But in fact, there are two invisible terrorist forces. In an instant, they slammed into the two old guys who fled each other. In a moment, they smashed their huge body shape into a beautiful place. The fierce sorrows were shocked.

It's too bad. It's just a blow. There aren't even any thunders and hijackings. The blue sky and the dragon whales have been smashed for half a moment. The repairs that have been dispersed in the body have fallen by half. This is clearly already The rhythm of serious injuries. fruit

However, it is worthy of the power of the slain of Hongmeng, which is invisible and inferior, but the power is terrible, even if it is the mutated Tiandao Thunder that was previously swallowed by the treasures, it is far from such power. This

The power of heavenly punishment is very likely to have risen by one level. It is the power above heaven and earth. If this is not the case, it will never be just a blow. It will make the wild sky and the dragon whale become like this. . Want

I know that they can all be the late stage of the eighth order of the heavens and the earth, and the peak of the heavenly road that is full of the nine steps is not far away...

"Roar!"

Oh..."

With this wave of fines falling, the shape of the green eyes and the dragon whales of the ruins of the heavens and the sky, finally pushed by the terrorist forces that have come to their own bodies, rushed out of the edge of this 100 billion-mile ban.

After feeling the sudden invisibility in the invisible surroundings, the two old guys screamed in surprise, without hesitation, and after they gave up a shocking arrogance and screaming, they immediately Trapped in the power of the downturn, fully motivated...he

They are really scared. Just now, this squat has no brains, no traces to follow, and it is impossible to dodge. which is

It is the strong tyrannical thunder robbery, at least the thunder and the trajectory of the robbery, can at least sense the power of terror.

But the Bo Hong, who had just slammed on them, had no traces of the half, and there was no sensory before he came. He just felt invisibly locked in by a force in the dark. more

What is serious is that the horror of this kind of punishment is too astounding. After suddenly falling down, they really feel the power of it. This is definitely the horrible power beyond the heavens. although

It's amazing, but if you think about it, it's what you should have.

The level of Hongmeng's void is far more than that of the big world such as the wilderness, and the will of the heavens and the world, which has existed in the vast world, has become a general heavenly power, and compared with other star powers, it is only repaired. The strength is stronger.

Only by this point can you see the gap between them.

In this way, the strongest heavenly power in this kind of big world, when it comes to the void of Hongmeng, naturally falls to the top of the pyramid. Although it is still strong and hopeful, it is absolutely impossible to be the strongest power level. and

At present, the power of the punishment of Hongmeng's emptiness is in all likelihood. It is the strength level of Hongmeng's imaginary air at the top of the pyramid. It is at least a stronger realm than the heavenly state, and may even be more. This

What is the realm of a realm, the blue sky and the dragon whale are not even known.

But one thing they understand is that it is a similar force of punishment. If there is another wave, they will be seriously injured and dying. They will even lose the chance to escape. They can only stay here and struggle...

If there are two more waves, with the third wave of natural punishment, they will have no suspense and immediately fall on the spot!

"call out!"

With fear, both of them activated the teleport in an instant, with two faint bursts of sound, like the huge cyan eyes of the stars, and the body shape is not weak. The dragon whale, which is equivalent to it, turns into a man in the blink of an eye and disappears in place..."

boom! "

"Booming..."

Just in the moment when the two of them were gone, the thunder of this emptiness in the air suddenly became a big hit. First

The power of the two waves of heaven has come, and it is still invisible and inferior. There are no thunder and no hijackings. However, the emptiness of the sacred eyes and the whales of the dragon whales collapsed tens of millions of miles in an instant. Turn into a black hole...

Then, under the influence of the power of the law of Hongmeng, the bridging was quickly repaired.  
Place

Fortunately, these two old guys fled fast. Otherwise, the power of this second wave of punishment is obviously higher than the previous wave. The results of their previous estimates of the power of three waves of punishment are obviously error.

Look at the second wave of the power of the celestial punishment, if it is smashed to the body, enough to make them fall on the spot, there is no chance to see the coming of the third wave of heavenly power. very

Fast, with the disappearance of the soul of this emptiness in the distance, the thunder of the emptiness in the void will stop, which is clearly the rhythm of the daily punishment. Hong

After all, Mengkong is not as good as a big world like the flood, and the will of Tiandao has a specific incarnation. Therefore, after sensing the vitality of the locked area, the so-called heavenly punishment will stop for a moment...

"call out....."

In the far side of the right side, in the dark void of one trillion miles away, the faint sound of broken air suddenly sounded, and a huge blue-colored vertical eye like a star appeared in an instant, and it was a sorrowful eye.

With his current state of serious injury, the virtual distance of one trillion miles is the limit of teleportation. this

As soon as the body shape appeared, the blue eyes of the wilderness immediately subconsciously extended the power of the gods to the back of the body. After a probe, it was determined that there was no other abnormality. The invisible power of the emptiness of the emptiness of the void was not locked. After he came, he took a deep breath and hung his eyes in the eyes of the blind man, and immediately fell back..."

Damn guy, this time almost was pitted by him..."

After being separated from the danger, the huge vertical eyes of the dragons flashed, and the giant hate suddenly rushed into the heart. The low whisper sounded, revealing endless anger and sorrowful resentment: "not only toss for half a year. Nothing, even offending a similarly-prepared dragon whale, it really lost the wife and lost the soldiers..."

"This thing... absolutely not finished!"

After the last sentence was finished, he did not hesitate, and immediately tore a crack in the void, and the body shape broke into it, and disappeared.

Even if he hates again, it is impossible to go to the Forbidden City to find Ye Xuan's arrogance. The urgent task at the moment is to return to the floodplain and recover the seriously injured injuries.

"call out....."

In the other direction, in the void of tens of billions of miles, the faint sound of breaking the air suddenly sounded, breaking the silence of the void, and the huge figure of the dragon whale like a star appeared in an instant.

"Roar!"

As soon as he appeared, the dragon whale turned his back into a terrible roar, revealing endless grief and indignation. phase

Compared with the green eyes of the wild, the anger of his heart is more intense, except for Ye Xuan, the master of the temple, and his heart is as thick and resentful as he is.

At the moment, it is obviously not the time to avenge the vengeance. The talented Bobo can be too horrible. In just a moment, he was seriously injured. Now he has fallen to nearly half of his strength, and he must immediately rush back to the old nest to heal. to

Ye Xuan, the master of the Temple of the Devil, and the shameless, ridiculous, heavenly eye, after the injury is over, there is time and opportunity to find their anger. complete

Actually, both of them had a strong forbidden land and ran a monk... they could not run the temple. "

Oh..."

The whole body flashed through all this, and the dragon whale did not hesitate, immediately tore a crack in the void, stepped into it and rushed to the right bank of the Milky Way. To

After the right bank, he had to rush to the end of the right bank at the end of the right side, from the endless darkness at the end of the right section to the left bank of the Milky Way, and then to the foreground of the dragon whale in the middle and the right section of the left section. This

It is very far away on the way. Even if he is at the peak, it takes about a month. Now he has been reworked. I am afraid that it will take more than two months. It really can't be delayed...

..."

call out....."

Under the flash of a man, Ye Xuan's figure is instantly visible in the void.

This time, he activates the interstellar coordinate jump ability attached to the internal system. The locked interstellar coordinate jump point is not the source nest star base camp, but the source nest star that breeds his strongest power. This

Within the source nest, the birth of Ye Xuan's power is bred. At the same time, this source nest star is also the most powerful power demon in the three thousand chaos demon gods that Hongmeng Kong opened for the next era.

Source Nest Star Base Camp recently returned to Ye Xuan several times, everything is normal, he is not worried.

But this source of the nesting stars that gave birth to his strongest strength, but for a long time, just take advantage of this opportunity to come and see.

The star-shaped coordinate jump point that he branded here is not far from the source nest star. After the jump is completed, Ye Xuan surrounds the source nest star, and it is determined that there is no

abnormality. When he is relieved, he will not hesitate and immediately tear the void. The magic hall in the left section of the right bank rushed to the ground...

This time, Qingyan Tiandao Qingyan entered the Hongmeng void with all the creatures of the whole world, and the land that was established was located on the left bank of the Galaxy. Ye Xuan has been there twice. If

Nothing happens, the wild blue sky will naturally not rush from the left bank to the right bank. After all, there is a galaxy star field that is not directly overpassed. It needs to be wrapped around the ends of the galaxy star field, too far away.

But now that he has come to the right bank, he must have already known the position of the Forbidden City. first

Before the death of the former Hong Mengtian, Ye Xuan left the place at the first time to activate the interstellar coordinate jumping ability attached to the internal system. Naturally, it is not known about what happened later. although

It is undoubted that the celestial punishment of Hong Meng's emptiness, but he always has an instinct. This time, whether it's the sorrowful blue eye or the dragon whale that is with him, I'm afraid it's unlikely to fall directly under that .

Top multiple injuries only! This

In this case, the two old guys are in anger again, and they know the position of the forbidden place in the magic hall. Ye Xuan is really worried that they are in anger and screaming, and dragging the injured body to the forbidden place to retaliate.

So Ye Xuan must rush back in the first time. As long as he is there, the two old guys are seriously injured. It's a big fight. Ye Xuan is completely fearless...

It's also on the right bank. It's not too far from the source nest star that gave birth to his strongest power. It's not too far away, but even so, it's took seven days for Ye Xuan to go to the forbidden place. edge. before

The side of the square is quiet, it seems that nothing has changed, so that Ye Xuan's heart hanging in the eyes of the blind man has fallen back. "

call out! ""

Rumble..." just

Entering the inside of the banned banquet of the magical hall, it was convenient to pass the sound of the air, and there was a thunder and thunder, and the old pig and the devour of the treasure and the three beasts all came over.

The three of them are the three heavenly strongmen in the forbidden place in the Forbidden City. Naturally, they first sense the air machine that Ye Xuan arrived.

"They all broke through..."

The cultivation of the beast is still the second-order of the heavenly environment. Ye Xuan is not surprised. To enter the third-order of this situation, it is obviously not that he can not achieve it after two years of leaving. but

He was not seen for nearly two years. At the beginning, he was only a veteran ninth-order grand perfect pig and a devourer. Now he has all the power of heaven and earth, which makes him very happy.

It's just a matter of consuming the treasure, but it's just a step in the heavens. Even if it's against the sky, it can be compared with the fourth-order heaven. But his own cultivation is a realm. After all, it only breaks through the first order. but

The old pig fine was previously a ridiculous nine-order great consummation, but now it has reached the fourth stage of the heavenly state, clearly improving the four small steps, so that Ye Xuan is somewhat eye-catching.

However, he quickly reacted. It seems that this old guy must have realized the last three changes of the magic pig's nine-year-old blood, and added his own skills to break through the first-order, so the overall combat power will be improved. Small steps.

But in fact, his own realm is the same as Ye Xuan, still in a state of absurdity, and has not entered the real heaven.

"Hey..."

In the middle of the wave, a masculine masculine shot, instantly turned into the shape of the lion Wanjin, the body is filled with the breath of breath, is the first step of the heavens.

"Hey..."

"What is the situation? This cargo was only the beginning of the past two years ago. How can it be a natural one now?"

The pigs were almost incapable of picking up their eyes. It seemed to be stimulated, and they looked up and looked up.

In the past two years, he has improved his overall strength by four small steps. He was originally arrogant. He did not expect that Lion Wanjin actually raised a big realm, and he actually called him a bit hit. "

OK, you have to go to retreat, refining the ninety-nine sugar beans that were swallowed up before! "leaf

Xuan Xuan did not pay attention to the old pig essence, and turned to the Lion Wanjin to pick up: "After full refining, your cultivation will be strength, it will skyrocket again..."

This time he left, he did not intend to leave Lion Wanjin here. He will become the fourth heavenly powerhouse in the forbidden place when Ye Xuan is absent.

Lion Wanjin did not say much. At the moment, he really needs to retreat. When he turns around, he enters the depths of the Forbidden City, looking for an abandoned star and starting a retreat...

"Hey..."

"What sugar beans are so powerful? After breaking through ninety-nine, they broke through a big realm?"

With the lion Wanjin leaving, the old pig screamed and slammed into the front of Ye Xuan. He squinted and said: "Hey, this pig's mouth is licking, this pig also wants to eat jelly beans..."

"Hey..."

"What kind of jelly beans are so powerful? After breaking ninety-nine, they broke through a big realm?"

Looking at the back of Lion Wanjin's departure, the old pig screamed and slammed into the front of Ye Xuan. Display

Excited, the long pig's mouth on both sides, the rams are coming out quickly, squinting at the face to ask Ye Xuan: "Head, this pig's mouth is licking, this pig also wants to eat jelly beans..."

It's really no one. The old things have reached the fourth stage of the heavens, but they are still this pair of faces. It's really called Ye Xuan's feelings of blushing, and he is lazy to take care of him, directly turning his eyes...

"Hmm?"

Looking forward to swallowing the treasure, only one eye contact, Ye Xuan instantly realized everything that happened in the forbidden place of the magic hall half a year ago. he

The face was gloomy in an instant, and the coldness of the face was stunned: "The green eyes of the wilderness have sent a furnace and two heavens..."

The engulfing of the treasure and the beast was originally his devour of the avatar and the electronic avatar. In the meantime and the final result, there is no need to say anything at all. Only one chanting, Ye Xuan realized everything.

"It's so good, it's the meaning of knowing that it's not a blessing..."

Whispering in a whisper, his shackles flashed a touch of coldness again: "However, there is still a sentence called not to be indecent, and the temple's forbidden place is not for anyone who wants to come, just can come and stroll around, Some things, done... I have to pay the price!"

At the moment, Ye Xuan made a decision, taking advantage of the opportunity of the blue sky and the dragon whale to be seriously injured under the punishment of Hongmeng, to the forbidden land and the dragon whales forbidden to take a trip...

It doesn't make sense for the two old guys to count one time, but they are swallowing their voices. The end result is another matter, but at least this kind of motivation is absolutely necessary to pay back. This is a tough statement, otherwise people still have I thought you were bullying. Decision

After he decided, he did not hesitate to give a few words to the old pig. When he rushed out of the magical hall and banned the land, he rushed to the endless dark void at the end of the left bank of the right bank of the Milky Way, and then rushed to the galaxy from there. Left bank...

The two targets, the floodplain is located in the middle of the left bank, while the dragon whale is in the middle of the intersection of the middle and right sections of the left bank. leaf

Xuan from the end of the left bank to the left bank, the first to arrive is the floodland, but he did not intend to go to the floodplain first, even if passing by will not stay, the target pointed to the farther away some of the dragon whales forbidden.

After all, the dragon whale is the innate beast of the water attribute. The dragon ball in his body is the second line of medicine collected by Ye Xuan in his hand. At present, only the water is the source of the poor. Place

First, go to the dragon whale forbidden, kill the dragon whale, take the dragon ball in his body and say, complete this matter, and then rush to the floodland...

Considering that these two old guys also need time to return, Ye Xuan is not too eager to hurry, and travels happily for two and a half months before finally reaching the dragon at the intersection of the middle and right sections of the left bank. Whales are outside the forbidden place.

Without hesitation, under the flash of the cold mang, his figure instantly turned into a mans, and the big thorns directly rushed into the forbidden place of the dragon whale. "

Roar! ""

Hey! ""

Hey..." dragon

In the whale ban, there is more than one natural person in the forbidden place. Ye Xuan's body shape has just entered the interior of the star field. The front and the left are far and wide, and there is a sudden scream and screaming sound. The strong atmosphere rushed to the ground and he rushed to him at the first time. collar

The first one, it is the strongest person sitting in the forbidden place of the dragon whale, the eight-step dragon whale in the heavens.

"Is it you? Ye Xuan, the master of the magic hall? I dare to find the dragon whale of the deity alone. Are you tired of living?"

To Ye Xuan, the wrath of the dragon whale was provoked, and the sound of the gods was heard in an instant. The entire vast dragon whale was clearly visible, revealing a color of surprise that could not be opened.

In his opinion, Ye Xuan came alone, clearly that the sheep entered the tiger's mouth.

"Oh la la..."

Ye Xuan didn't pay attention to him at all, and his body shape disappeared. The original empty foot of the empty sky was filled with squirting water.

His figure collapsed and turned into a \*\*\*\* sea, spreading over the corner of the universe. "

Roar! ""

Roar! ""

Oh..."

At the same moment, as his body collapsed and turned into a \*\*\*\* sea, it opened up, covering a corner of the universe, the three great devils of the ancient konjac, instantly plucked from the \*\*\*\* sea. .

The storm has risen, and it has reached 60 million miles between the blinks. They are the violent flesh and blood, and the body of the cheekbones and the body of the black mist! skeleton

The bones of the bones don't have any flesh and blood, just a purple-golden cheekbones, revealing endless fierce scent!

Although the body of the black mist is also a violent form, but the body is a black fog, even a pair of scorpions, just two awnings, it looks very strange! This

Everything happened too quickly. In the blink of an eye, the three \*\*\*\* seas have been condensed out, and people are caught off guard.

Moreover, the repairs that they have dispersed in their bodies are all breathtaking, and they are all eight heavenly horizons. This is exactly the three powerful late heavens.

"Hey..." this

At that time, the eleven heavenly beasts of the dragon whales were all rushed into the 200 billion miles. The fastest of them was the dragon whale, which was within 100 billion miles.

Under the flash of the cold mang, a nine-color smack flashed from the black-blooded eyebrows. When the storm rose, it instantly turned into a majestic nine-color flame.

"call....."

Oh la la..."

The wind screamed, the nine-color flames were incomparably fast, and the speed was too fast. The blink of an eye swept around and spread to the back of the dragon whale, turning into a huge flame ball with a diameter of 100 billion miles, shrouded its shape. Inside, no longer visible. Dragon

After all, the whales didn't know much about Ye Xuan. They didn't even have this kind of means. They were caught off guard and were trapped in an instant... No.

There is hesitation, the same instant of the nine-color flame ball condensing, Ye Xuan's three blood sea avatars have been swept away at the same time, rushed into the flame ball, for the external situation, then ignore it..."

Oh..." just

Rushing into the flame ball, did not wait for the dragon whale to return to the gods, the body of the cheekbone has already smashed the fierce purple gold mans, a secret atmosphere like a nuzzle, swaying, the left arm suddenly lifted Starting from

This empty left hand palm is golden, and a golden bow with an energy form appears in his left hand, simple and embarrassing. grip

In the middle of the palm is a double-headed beast, which is directed into the mouth of the beasts in the upper and lower directions, biting two humanoid bodies.

These two beasts are wide and angry, like roaring, a bowstring formed by a number of fine gold threads twisted together, and the two ends are connected to the life of these two humanoid bodies!

This is a mysterious supernatural power---

In addition, the hands of the flesh and blood body suddenly turned over, with two volleys rushing out, the left hand held the foot of Shennong Ding, just like the big day of the seal is generally on the side, the right hand is the \*\*\*\* Big black sticks made of pesticides... black

The fog is directly hidden into the void, waiting for the opportunity to move, this is clearly the three major movements, want to ... sleep the rhythm of the dragon whale!
