

## Super D.S 5111

### Chapter 5111: Water source

"The Lord of the Devils, Ye Xuan? You really are the starry sky in the right bank rumor..."

The body was trapped and caught in the nine-colored flame ball. The huge whales of the dragon whales flashed in the middle of the cold, and their eyes gleamed, lingering between the violent and the shin. language

In the sound, there is a sense of ambiguity that can't be turned away: "This time, you should come to the Dragon Ball of the deity? How dare you kill the left bank from the right bank alone? It is really rampant. ...."

"You are delaying the time? No use, the ten heavenly monsters outside the flame ball, the most powerful ones are only six days in the sky, you can't get out of the flame ball, how can they rush in?"

Ye Xuan sneered, and the voice of the words in the mouth of the violent voice revealed the meaning of ridicule: "Or, do you want to wait for the Tiandao peak of a strong forbidden land on the left bank to hear the news? Unfortunately, even the nine-order grand perfection It's equally impossible to ignore the colorful flames!"

Aside, the cheekbones did not speak out, but the left arm was always raised high. The strongest gods passed through the bow, and even the energy arrows on the bowstrings appeared. He was pulled with his right hand and three fingers. On the string. only

Need to let go, this horrible golden arrow, will be spurred in an instant, instantly annihilating opponents. Such as

The reason why this is not yet launched is just waiting for a chance to kill.

This time, Ye Xuan really intended to use the Tianzhu bow from the very beginning, not just as a deterrent.

After all, the dragon whale is as powerful as his peak. It is the powerful existence of the eighth order of the heavens. It is not far from the nine-order grand perfection of this territory, even slightly stronger than Ye Xuan.

The existence of this level, even if Ye Xuan exerts the secrets of blood and sea, will condense the three blood seas, to fight three wars, but if you want to kill the dragon whale in a short time, it is still impossible. but

He can't drag on for a long time. There are still ten powerful heavenly strongmen in the forbidden land of the dragon whale. After the dragon whales that are now caught in the nine-color flame ball, Ye Xuan is very likely to get it. Faced with the joint attack of these ten heavens.

This will definitely take a little time. At that time, once the heavenly strongmen in the nearby forbidden places come one after another, Ye Xuan will fall into an extremely passive situation. If the void is joined by a large number of heavenly powers, the invisible pressure will be imposed.

Just like when the magic wolf was forbidden in the past, it caused the overall confusion of the void, and even the ability to jump the interstellar coordinates attached to the internal system could not be performed. It was really troublesome...

Therefore, he must solve the dragon whale as soon as possible, the only option is to use the 陨天弓.

However, although Ye Xuan is now the eighth-order heavenly territory, if he uses the full-strength strike of the Tianzhu bow, let's not say that the eighth-order heaven is the same, it is to strengthen the first-order Tiandao peak, and also to kill it. . can

This is a premise, that is, an arrow that must be shot must hit the target, otherwise everything will be in vain. Dragon

After all, the whale is close to the powerful existence of the peak sky. The space inside the flame ball is not small. If you are careful, if you shoot the sacrum, you may not be able to ensure that you hit the target. but

This opportunity is only once, so Ye Xuan must wait for the opportunity, must ensure that the only arrow shot out, not to be avoided by him. "

Boom..." This

Everything, like lightning, flashed from the brain. At the same time as the voice fell, the violent temper had already been shot, and the shoulders were slightly swayed. The whole figure was instantly turned into a meteor, and the blink of an eye was already in front of the dragon whale, left hand. Looking down on Shennong Baoding, it's like a giant seal in the sky, and it's falling down...

"Humph....."

The dragon whale smashed into the awning, and the sound of coldness and screaming came out. The huge and slightly bloated body was instantly twisted, and the side was avoided.

At the same moment, the \*\*\*\* stick behind the violent right hand dragged back and forth, and the backhand slanted up, from bottom to top, swaying toward the waist rib of the dragon whale.

The latter's figure instantly tumbling in the void, and it will avoid this blow in the eye, but the black mist that has been hidden into the void has appeared at this moment. quiet

Unspeakingly stepping out of the void, the hustle and bustle of the hustle and bustle, just in front of the dragon whale's body-shaped tumbling road, the fists will bang...

"Damn! Hey..." Dragon

The whale was furious and roared, and the rapidly tumbling figure was instantly stagnation. also

It is this moment, in the distance, the left arm is always raised to the sacral body of the strong gods, and the sacral bones of the sacred bows are in the middle of the cold. The bow tires held by the left hand burst into a brilliant light..."

Oh..."

Without hesitation, accompanied by a low-pitched humming sound, the cheekbones loosened the right hand that pulled the energy arrow on the string..."

Rumble..."

boom! "

A golden mantle flashed, the speed was too fast, and the distance of the void was directly ignored. It just disappeared from the bow of the bow of the sky and disappeared.

When it reappeared, it was already on the right side of the huge figure of the dragon whale. No

There is a half suspense, directly into his body, Jin Mang masterpiece, blasted open...

The cuts happen too fast, and the powerful eight-step heavens like the dragon whales have not had time to pass the sound of miserableness. With the steepness of Jin Mang, his huge body is instantly turned into a \*\*\*\* fog, blood fog. A light blue bead can be seen in the faintly, the size of the baby fist, exudes pure and incomparable meaning of floating spirit. This

The light blue beads are obviously the dragon ball in the dragon whale. It is also the last kind of five-line innate source that Ye Xuan needs. If it is used as a five-line medicine, it is just the source of water!

"Call..."

In the hustle and bustle of the hustle and bustle, the first time waved, spurting a huge invisible force, swept away the \*\*\*\* fog that was spreading rapidly.

When you are in the body, leave it to the bottom of the volcano in the central area of the Dingnai space, and start the blood purification!

At the same time, the spurt, and the light blue beads of the size of this baby fist, fell in the hands of the violent, he was placed in the palm of his hand, and he played for a few moments.

At the turn of the hand, the dragon ball disappeared and was closed by Ye Xuan.

"Oh la la..."

Almost at the same instant, the sound of the sound of the slaps of the water came out, because the talented shot of the sacral scorpion with a strong arrow and a sullen look, as well as the black mist and the two \*\*\*\* bodies collapsed at the same time.

The figure was turned into a \*\*\*\* sea, and it quickly condensed. It became a weak \*\*\*\* stalk between the eyes, and it spurred into the violent eyebrows and disappeared. "

Oh..."

In the meantime, this huge nine-colored flame ball that enveloped the tens of billions of empties also collapsed at this moment. A gorgeous nine-color flame sea appeared in the void and condensed rapidly.

After a short period of time, it has turned into a weak point and has not entered the violent body. blink

Between the eyes, everything in the outside world is reflected in the sight, and in this area covered by the flame ball, the dragon whale has disappeared, and only the violent figure is still there, with both hands holding the Shennong Ding and the \*\*\*\* stick, turning around Looking around, you are stunned...

"call....."

The abnormal sound came, and the huge nine-colored flame ball that covered the 100-mile-long void collapsed completely, and turned into a nine-color flame sea. It quickly condensed, and it was not until the next moment, it became a weak point. Violent in the body.

Everything outside the flame ball is reflected in the line of sight, and the area covered by the flame ball, the dragon whale has disappeared, only the violent figure is still the same, with both hands holding the Shennong Ding and the \*\*\*\* stick, turning heads around Look, the light is shining...this

Everything is in the eye, and the ten powerful creatures that have been gathered around the flame ball in the sky are full of madness, and then screamed and screamed with anger, making it easy to ring in an instant..."

Roar! ""

Oh..."

Damn, where did the Dragon Whales go? Why are you missing? "

"The emptiness of the blood in the sky is a faint \*\*\*\* smell. It is the blood of the dragon whales. Is it true that the dragon whales have been bloody?"

how is this possible? In such a short period of time, three or four interest rates, a powerful eight-order heaven, is it so smoldering? I couldn't even keep half of the hair..."

It must be the bow of the sky. The konjac konjac disappeared just now. It must have been that he shot a dragon and killed the dragon whale."

"Roar!""

Immediately, you must not let him leave. The deity has already preached. The starry sky that once ravaged the devil's forbidden land reappeared. The surrounding heavenly borders of several strong forbidden places will soon come..."

He can't go away, I just need to drag him for a moment, at most two hours, the few heavens on the left side of the magic worm will be able to arrive..."

Oh..."

"boom!"

"Booming..."

The last roar of the roar, the ten powerful beasts of heaven and earth no longer hesitate, and immediately shot at the same time, rushed toward the storm. ten

An old guy, the weakest one is also the second order of heaven and earth, and the strongest one has reached the sixth level of heaven and earth. Such as

The dragon whales are falling, they are all extremely angry. In order to contain Ye Xuan and prevent him from leaving, all the forces in the body are pushed to the extreme. At this moment, the attack is coming, and the power is not the general fierceness. on

Even the void has collapsed, and the thunder and thunder are shocking. After all, it is the ten strong heavens who are at the same time, and the meteorological committee is really different.

"The magic insect bans the land?"

Chewing on the name of the forbidden place, the violent shackles will flash in a moment.

As the name suggests, if there is no accident, the so-called magic insects in the forbidden land, the strongest heaven, should be a starry zerg. And

The starry zerg generally likes to live in groups. Therefore, the worms in the banned land of the worms are probably more than one...

Straight since, Ye Xuan most hated the Starry Zerg, because the Zerg is really difficult, all have a variety of special blood and magic, can not prevent.

If other heavenly beasts are coming, if it is a starry zerg, if it is dragged here, the consequences are simply unimaginable...

These thoughts flashed in the middle, and Ye Xuan started directly even if he activated the interstellar coordinate jumping ability attached to the internal system.

In the hand, the Shennong Ding and the \*\*\*\* stick in his hand were put away by him. The huge figure of the original Pangda 60 million is also rapidly condensed. The violent form converges between the blinks, and the human form appears. .

"call out....."

The faint sound of breaking through the air, a faint light shrouded Ye Xuan's figure, and when it flashed, it disappeared instantly..."

Roar! ""

Oh..."

Under the circumstance, the leaves of the dragon whales were violently leaping.

After all, they are inexperienced, and the understanding of Ye Xuan is extremely limited. If this is not the case, the ten powerful heavenly beasts only need to revive the body to the extreme, and turn into invisible pressure and overlap.

In an instant, this piece of emptiness can be completely confused, not to mention the teleportation. At that time, even the interstellar coordinate jumping ability attached to Ye Xuan's internal system will not be able to start, and it can only be left strong and tired. .

Unfortunately, the opportunity has been missed, Ye Xuan accidentally and easily left, even if they are now reacting, they have regretted it...

.....

The dark void near the source nest base camp. "

Oh..."micro

The weak sound of the air broke out, and Ye Xuan's figure stepped out of the void, without hesitation. Under the lasing, he rushed to the giant abandoned star in front and directly entered the star nucleus inside the star. Breathing away...

After entering the star nucleus, he immediately waved out Shennong Ding, and under the glimpse of the faint glimpse of the sacred man, he directly stepped into the Baoding Dingkou with a colorful mist, and sat down on his knees...

"Hey..."

Taking a deep breath, Ye Xuan waved again, and in a moment there was a lot of faint sounds of broken air, and a spurt came out of his body and hung in front of him.

He intends to retreat again, and the ones that are suspended in front of him are the resources for cultivation that he took out from the immortal world to develop this breakthrough. its

There are all kinds of evil sources, as well as the colorful magical drugs, and so on. More

The difference is that this time, Ye Xuan took out the cultivation resources, there are three blood-colored beads of pigeon size, which is the blood of the heavens!

In the past, there were fifteen heavenly bloodstains in his hands. This did not include the two that swallowed the bloodsuckers and the golden-eyed beasts in the hands of the treasures, because there was a furnace in the hands of the devouring treasures. The blood beads compressed by the blood of the beasts, which are formed by the explosion of the beast, are as useful.

On the side of Ye Xuan, after the killing of the dragon whale, he harvested another Tiandao blood essence, and the total number reached 16.

Now that three pieces are ready to be swallowed, there are only thirteen pieces of blood in his hands.

That's right, this time retreat, he really intends to swallow three Tiandao blood essence to try the effect. Do not

He had just broken through once a long time ago. The timing of the breakthrough was not yet coming, but Ye Xuan couldn't wait any longer. The flooded Tiandao Qingyan had already known where the Forbidden City was forbidden, although he had successfully killed the dragon whale. I got the last required water to source the Dragon Ball. but

Now that he has returned to the right bank, even if he is now rushing to the floodplain on the left bank, it will take more than a month. At that time, I am afraid that the injuries of the green eyes will have already recovered.

What's more, the killing of the dragon whales will surely make the floods of the heavens and the green eyes vigilant. Even if Ye Xuan rushes to the floodplain, it is estimated that it is impossible to kill them easily. flood

It's always a big problem for Ye Xuan's heart. With Ye Xuan's understanding of him, after many calculations, Ye Xuan has no results, the old guy will definitely hit the magical hall to the forbidden place. This

Ye Xuan had to guard against it. In this way, his eight-step cultivation of the heavens was not enough. He must break through to the eighth step in the shortest time! and

The timing of the current breakthrough has not yet arrived. Under the forced retreat, the only way to successfully break through the first-order cultivation is to swallow the heavenly blood.

This time, in order to retreat when the time has not arrived, forcibly breaking through the cultivation and achieving the eighth-order situation of absurdity, Ye Xuan is considered a bloody...

At the same time, three Tiandao blood essences were taken out. This is definitely a big deal. Even Ye Xuan feels some pain. After all, in the future, refining will surpass the 30th level of Tiandao Baodan's thirty-level Dan. If there is no accident, Tiandao Xuejing must be the most important Dan material in Dan. This

Some of the thoughts flashed through his mind, and Ye Xuan's thoughts could not help but have some ups and downs. At the time of retreat, this was obviously a big taboo. He quickly became alert, and after shaking his head and smiling, his mind was slightly flattened. With

After that, he took a deep breath and spurred Shennong Ding's domain power. He compressed all the cultivation resources to the size of only the baby fist. Just like a cow chewing a peony, all the bones and brains swallowed into the abdomen and quickly turned away...

"Hey!"

Rumble..."

Between the interest, the resources swallowed by him instantly turned into the body, and the next thing was not suspense, Ye Xuan's body came with the sound of the chain's squeaking sound, and the power of a mighty power was formed. With thunder and screaming...

At this moment, I entered the most critical moment, especially this time, it was a forced retreat. He was even more distracted. He immediately started a big Sunday operation under the enthusiasm, and continued until refining. ....

Gradually, Ye Xuan's entire mind was immersed in it, forgetting the existence of time.

I don't know how long it took, when this hanging energy Dajiang disappeared in Ye Xuan's body meridians, completely integrated into his spirit and body, a thick and sturdy chain of shackles appeared in him.

This chain of shackles represents the power of the eighth-order barrier of the ridiculous. As long as the chain is torn, this time the retreat can be completed immediately, and it will be successfully broken again! on

It is now...

With the end of the last big Sunday, Ye Xuan's mind flashed and he immediately shot. Let

He was pleasantly surprised that perhaps the energy of the three heavenly bloodsmen was too majestic. This time, he was only just trying to launch an impact. This chain of chains has been broken...

For a moment, and the system prompts in anticipation, it soon sounded in my mind..."

Hey, congratulations to the host, the breakthrough of the ancient realm of the hole! The current realm: the ancient eighth highest order! "

"Hey, congratulations to the host, the physical and qi and blood boundary breakthrough! The current realm: the ancient eight-level!"

The system prompts that the sound has not yet fallen, Ye Xuan has suddenly opened his eyes, deep in the bottom, clearly there is a touch of joy and awning quickly flashed ... .. absurd eight steps, finally broke!

Previously, Ye Xuan was the seventh stage of the abandonment. Once the magical power of the konjac was changed, it would soon reach the eighth stage of the sacred, and if this magical power was applied to the ninth change, its cultivation would be skyrocketed again. The ninth order is also a big realm.

That is, the eighth order of heaven and earth!

Now, with his successful retreat this time, his self-cultivation has reached the eighth level of absurdity. One

Dan Yexuan activates the \*\*\*\* magical power of the konjac, and his cultivation for the moment will reach the nine-order great perfection of this situation, which is the peak of the absurd. and

Every change of the konjac will change it to the first step. So, after entering the ninth state, the current Ye Xuan, the strongest force will reach the ninth stage of the heavenly world, that is, Heavenly peaks!

Even the green eyes of the wilderness are now only eight steps in the heavens, and there is still a little distance from the peak of the heavens in the ninth stage. and also

That is to say, the current Ye Xuan, after this successful breakthrough in retreat, the strongest combat power has already surpassed the green eyes of the wild, and he has the secret of blood and sea.

If it is activated, the three blood seas will be condensed in an instant, and each avatar will have the same combat power. This

In this case, if you encounter the green eyes of the wilderness, the three heavenly peaks of the nine-step grand perfection will join forces to kill. If there is no accident, or there is still some kind of stronger secret law in the hands of the wilderness, it will be killed. There will be no more suspense. thing

In fact, on the right bank of the Milky Way on the right bank of a large number of fierce beasts and the stars of the survivors, although there are also strong people in the heavens, but the ninth-order grand perfection of the heavens, but absolutely no one. which is

It is in the left bank of the Galaxy, which is half a level higher than the right bank. The peak of the nine-step grand perfection is absolutely no one hundred. From

From this point of view, now Ye Xuan, not to mention the right bank of the Milky Way, is the more powerful, deeper waterfront of the Milky Way, he can also be alone in the shadows, rampant!

"What is the peak of the heavens? Finally reached..."

In the whispering language, Ye Xuan subconsciously grasped the right fist and felt the endless terrible power of the body. In the moment, a moment of excitement and joy was revealed: "However, this is obviously not the end..."

"After a while, I only need to break through again. My own cultivation is the realm, and I will reach the ridiculous ninth order. Even after swallowing a Tiandao Baodan retreat, and successfully breaking through, it will be the same as engulfing the treasure. Really enter the heavens..."

When he got here, his words suddenly came up, his mind flashed, and he immediately frowned. because

Suddenly he thought of one thing, that is, in this glory, the heavens and the earth are not suppressed, but... the next big realm after the heavens?

If the next big realm after the heavens will be suppressed, then even if Ye Xuan breaks through once again, he will cultivate himself to the strength and reach the 9th stage of the absurdity.

Even after swallowing a 30-level Tiandao Baodan and retreating, so that his cultivation has truly entered the heavens, he is activating the \*\*\*\* magical power of the konjac in the body and exerting it to the ninth. Under the state, Ye Xuan's peak strength is still as it is now, staying in the peak of heaven and earth...

And in the vast world of the wilderness, no matter how strong his cultivation is, the strongest limit of combat power can only be a ruthless nine-order general.

The only difference is that the world of the wilderness is suppressing the heavens and the earth, and when it is here, it is the limit of the suppression of the emptiness of Hongmeng, which raises a big realm...

Next, Ye Xuan is still ignorant of what is the next realm after the heavenly state. Naturally, it is even more difficult to judge whether this big realm is the strongest realm of Hong Meng's void. Such as

If this is the case, this realm must be suppressed. In the state of the ninth change of the konjac, Ye Xuan's strongest combat power can only reach the peak of the ninth-order grand perfection. but

If this great realm after the heavens and the earth is not the strongest realm in the void of Hongmeng, then this kind of suppression may not appear, and will be suppressed before the next most powerful realm of Hongkong's void..."

It seems that I have to go to the left bank again. Perhaps there will be some ninth-order great perfection in the fortune and the supreme star field. I know the big realm after the heavens... what! "miss you

He didn't hesitate to go here, and he walked out of Shennong Ding when he walked up. When he waved his hand, he immediately took Baoding into the body..."

Oh..."micro

The weak sound of the air broke out, and Ye Xuan did not hesitate. He grew up and walked out of Shennong Ding. When he waved his hand, he immediately took Baoding into his body. he

I decided to go to the left bank again. Perhaps there will be some ninth-order great perfection in the Xingqiang forbidden land and the Xingqiang star field. I know the big realm after the heavens... What is it! also

Or, know that in the environment of Hongmeng and the void, there are still several big realms after the heavens!

This matter can't be delayed. I don't want to clarify these situations. Ye Xuan even has a big realm after the 30th-level Tiandao Baodan. Everything has no clue. I am afraid that even the perfect Danfang of the 30th-level Baodan will be Unable to deduct!

At the speed of his cultivation, he will officially enter the heavens and the future. The thirty-first-class Baodan will not refine the system for the time being, but Dan's deduction has to be carried out as soon as possible, not to mention the collection of refining materials. Rush

After the abandoned star where the retreat was located, Ye Xuan rushed to the source nest base camp not far away, but did not enter, just turned around in the surrounding area, determined that there was no abnormality, and immediately left. source

In the nest base camp, the returning sea and the Cang Qingyu accounted for the genus, and now all of them are squatting in the practice of retreating, improving and repairing. He left before long ago. If there is nothing to do now, there is really no need to bother. turn

After a lap, Ye Xuan rushed to the end of the right bank of the right bank of the Milky Way. Soon after, he entered the vast dark area at the far end of the right section. He did not stop, crossed and passed the Galaxy in more than half a month. The end of the right section of the left bank. Such as

Today, he is already the peak of the ninth-order grand perfection. The speed is much faster than that of the previous eight-step heaven. Otherwise, it will take at least one month from the vicinity of the source nest base camp, but now it is only more than 20 Around the day. leaf

Xuan's retreat was not short. It took about a month, and he rushed to the right bank of the left bank from the right bank near the source nest base camp. It took another 20 days on the way, adding together, which is close Two months. can

Even so, the right section of the left bank of the Galaxy is still in a state of turmoil.

On the right side of the left bank, on the long and long rivers and rivers, there is a smashing beast and a land of the benevolent people.

As for the object of the hot discussion, it is naturally that the star that had been raging on the right bank, but now it has reached the left bank is violent. quasi-

To be sure, this violent temper does not plague other areas on the left bank of the Milky Way, such as the left and middle sections of the left bank. His footprints are rarely involved, including the floodplain. Although it is located in the middle of the left bank, it is actually on the left bank. The position of the middle section to the right is very close to the right section. only

There is a right segment of the left bank, which has been tempered by this fierce starry sky in recent years.

When he first collected the five elements of the drug, Ye Xuan patronized two Xingqiang forbidden places in the right bank of the left bank, including the battle of the devil's forbidden land. He even extinct the entire high-level forbidden land. Such as

Today, in the right bank of the left bank, the famous dragon whale is also banned by the ban, the dragon whale was smashed on the spot, but the violent but calmly and steadily went...

Calculated, the right-hand side of the left bank has been more than ten in the past few years. It is only the devil's forbidden city, there are several heavenly and fierce beasts in his hands.

Starry sky violently shot in the right side of the left bank, and now even the ridiculous old blame is lazy to kill, the target of the shot is eyeing the existence of the heavenly level. again

In addition, his record on the right bank and the speed of horror growth have now spread to the left bank. This moment has caused the vigilance of many strong people in the right bank of the left bank and the strongest fortitudes in the Xingqiang.

Those survivors are also in the doldrums, because violent sorrows are rarely used to find the suffocation of the survivors, because he refines all kinds of treasures, what is needed is the \*\*\*\* fog formed by the fierce beasts.

This matter is no longer a secret, and the top leaders of the left bank are already aware of it. very

As for the true identity of this starry sky, they have heard about it.

This violent temper is not a star-studded beast. He is actually a strong man from the ruined land, and is similar to the blood of the remnants of this sacred air.

In addition to the blood of the human race, he also has three hexagrams of konjac blood, and the starry form of the starry sky is only the manifestation of the flesh and blood in the real body of the konjac.

When I was on the right bank of the Milky Way, decades ago, this violent temper was only the cultivation of the cosmic sage. From then on, he continually hunted the sacred beast, which should be used for refining. Break through the treasure of the universe.

Chapter 5112: The most sacred heaven

Soon after, he successfully broke through to the realm of the universe. From then on, the level of the beasts hunted by the violent scorpion climbed again and reached the realm of the universe.

In the next few decades, all of this has been escalated, and the temperament has been repaired from the Lord of the Universe to the Supreme of the Universe. Then it is the power of the ancients, and then it is the Supreme Age, and now it has entered the heavens, and it has Datiandaojing late...fine

Under the investigation of the heart, it can be found that his cultivation is a great realm, and the level of the beasts that are subsequently hunted will be upgraded.

After this level of ascension, the fierce beast is hunted by him for a period of time. Once the violent temperament refines the mysterious treasures corresponding to its great realm, it will soon be swallowed up, and then the strength will be skyrocketed again. Breaking through the new realm...this

It is a virtuous circle, and the mysterious treasures of all grades he has refined are so amazing that in a few decades, the starry sky of the universe is only violent. In order to skyrocket to the end of today's heaven!

All this spread, countless strong people are heart-warming, those who are repaired to low strength are useless, but those who are strong in heaven and earth have gotten their heart. because

It is now the end of the heavens, and it has been said that he has refined the supreme treasure that has been used to break through the heavens.

Now that the target level he hunted has once again increased, from the previous ridiculous blame to the heavenly tyrant, does this mean that he is currently preparing to refine a supreme treasure that transcends the heavens? Correct

For any strong person in the heavens, this is definitely an irresistible temptation, not to mention the savage hand in the hands of Shennong Ding, as well as the nine-color flame sea, and the supreme magic and the refining of the treasures. The secret law, the strength of the war to enhance the super secret of a big realm...

All of this is enough to impress people. Therefore, for more than a month, the heavenly strongmen in the forbidden land of some of the left and right sides of the left bank have secretly joined forces to find his trace. when

Ye Xuan arrived at the right bank of the left bank. After knowing all this, the murder of his heart suddenly picked up. After a brief thought, he made a decision. Others don't care, let the most troublesome bugs go out and say...

Ye Xuan has disappeared from the right bank of the left bank for more than a month. The strong people in the forbidden land in the right bank of the left bank have already secretly joined forces to find the traces of Ye Xuan...

He arrived at the right bank of the left bank. After understanding this situation, Ye Xuan's heart was suddenly murdered. After a brief thought, he made a decision. Others, for the time being, but the most troublesome bugs... but must Let go and say it!

The worm that Ye Xuan said was the old guy mentioned in the forbidden land of the dragon whales, when the heavenly strongmen in the forbidden land of the ten dragon whales were besieged Ye Xuan.

This worm is the strongest person in the forbidden land, and the worm is forbidden, just on the right bank of the dragon whale ban, not too far away. This

A fierce beast is named after the devil, and basically some information can be inferred. because

For the Starry Zerg, they generally like to live in groups. Therefore, the worms in the banned land of the worms are probably more than one.

The Starry Zerg has always been the most annoying existence of Ye Xuan, because the Zerg is really difficult, and all have a variety of special blood and magical powers.

If you encounter a siege, other heavenly beasts will come. If there is a starry worm, because the various biological waves of the star worms can be different, it is very likely that Ye Xuan will be trapped. The consequences are simply unimaginable.

Therefore, the magic worm must be destroyed first.

In fact, according to the intelligence information he currently has, one of the leading creatures in the right-hand side of the left bank of the Galaxy is the one that leads the way. its

The cultivation is not weak, and it has reached the eighth level of heaven and earth, just like the dragon whale that was previously killed by Ye Xuan. but

One thing is no doubt, that is, compared with the dragon whale, this bug must be more difficult, so Ye Xuan must solve this problem in any case. Decision

After that, he even rushed to the direction of the dragon whale, and arrived in the area two days later, but he did not go to the dragon whale forbidden, but quietly sneaked into the forbidden land. when

However, after entering, Ye Xuan has already activated the magical power of the perfect shock, hiding his body shape and arranging his air. Now

In the past, he is the peak of the ninth-order grand perfection, and he is fully committed to the magical power of the perfect shock. Even the peak of heaven that is comparable to him is absolutely inconspicuous.

However, Ye Xuan still does not dare to care, because this time it is a nest of insects, a large nest of Stars and Zerg, and even a powerful Zerg of the eighth order of heaven and earth. These insects are different because of different blood types. So, the biological wave frequency is also very strange, often with unexpected special power...

The environment inside the forbidden land is not different from other forbidden beasts. The outer periphery of the horoscope is relatively empty, but there are a large number of abandoned stars in the star field deep in the forbidden area. These stars are the worm nests. star

Outside the celestial domain, there are various kinds of starry worms everywhere. The situation is exactly the same as that predicted by Ye Xuan. The zerg colony basically cannot see other starry beasts.

Yes, the existence of this strong forbidden land is all bugs, the forms are different, and the cultivation is strong and weak, but without exception, all are bugs.

With so many worms coming together, there is a special taste in the void, which makes Ye Xuan extremely unhappy. In addition, there are some weak but complex energy fluctuations in the imaginary emptiness. This should be exactly The zerg wave frequency scattered in the body of the star worms, they are transmitting messages and communicating with each other in this way... well

In Ye Xuan, he activated the magical secret of the perfect turbulence, coupled with his strong temperament as the ninth-order great consummation of today's Taoist dynasty, the zerg wave frequency that the magic insects banned in the void, and could not capture him for the time being. breath!

He did not extend the knowledge of God to explore the situation in the forbidden land of the magic insects, so that it is very likely to be exposed, and with his current strong cultivation, other starry beasts will fall. but

What is now to be hunted is a powerful zerg of the eighth order of heaven and earth, and even other powerful tyrants in the forbidden land of this worm, must be careful.

Soon, Ye Xuan rushed out, while fully urging the body's spiritual strength, maintaining the magical spirit of the perfect shock, while quietly escaping in the entire forbidden worm. This

Although the method of exploration is time-consuming and laborious, it is a good one. Two

After the day, he wandered the entire magic worm forbidden, and determined the structure of the warfare in the forbidden land.

Within the forbidden land of the magic insects, there are a total of six stars in the sky and the worms of the sky, including the black worms of the eighth order of the heavens. call

The headache is that the six Tiandao zergs are not together, but scattered in different abandoned stars to build nests.

According to Ye Xuan's previous plan, he intends to lock the target position, and then he will not prepare it. In a moment, he will smash the nine-color flame sea, condense it into a flame ball, trap the target,

and then ignore it for a while. Under the shot, the entire star worms in the forbidden land of the worms were killed, lest they leak news.

Then, fold into the nine-color flame ball and kill the target trapped in the flame ball...

It is the best way to dispose of the star worms. If there are no accidents, all the zerg in the forbidden land of the worm will be annihilated. This huge star worm nest will be completely wiped out! but

Now, the situation is different. The six Tiandao Zerg are not together. The previous plan has become a bubble, unless you find a way to let them gather temporarily without any precautions.

These thoughts flashed through the brain, and Ye Xuan's mid-cold flashed, and immediately rushed to the right front.

Among the six Tiandao Zerg, one happened to be in this direction. The strange thing is that this guy's nest star is not only at the edge of the forbidden land, but also seems to be alienated, even the smell of the body The difference is that there is both a Zerg atmosphere and a fierce beast. It seems to be a mixed blood descent of Zerg and other beasts...

Even the cultivation is the weakest, and it is the first step in the world.

In summary, this first-class zerg with a \*\*\*\* beast in the body is the best target for starting. Decision

After the decision, Ye Xuan entered the interior of the nest of the insects, and silently touched the cave where the first-order Zerg was crouching, and it was not prepared. The spiritual power that shrouded the whole body suddenly soared, extended and opened. The figure is also enveloped...

In the next moment, a voice that reveals the meaning of endless horror, with a trembling, quietly sounded: "Adults are forgiving, little shofar..."

Ye Xuan

"Hey..."

The incomprehensible low humming sounds, and the spiritual strength that surrounds Ye Xuan's body suddenly rises and expands, and the only figure in the cave is also enveloped...

Almost at the next moment, there was a voice that revealed the infinite horror, with a trembling, quietly sounding: "Adults are forgiving, little shofar..."

Xuan's air machine instantly locked the other side, and the squat in the middle of the glimpse, the line of sight settled in front of a body down to the Zerg around Zhang. This

The guy is kneeling on the ground, shaking and shaking, it seems that the already scared and almost scared is scattered... first

Before the passage from the edge of the nest of the insects, Ye Xuan has already sensed a fierce beast from the body of the self-proclaimed shofar, which is clear and unmistakable. Such as

Seeing each other with my own eyes, Ye Xuan confirmed this at a glance. This

The first-class Zerg strong in the first day of the road is only a small square, flat like a ladybug, but there is no tentacles on the top of the starry sky. On the small insect head, there are two horns. And it is a horn of horns, hovering twice.

A star-studded ladybug, but with a shofar on the top of the head, it seems to be somewhat nondescript. It seems that this guy's nest star is at the edge of the banned land of the worm, and there is no reason.

This kind of nondescript, and not the pure starry zerg, is excluded from the forbidden land of this worm. Naturally, it is understandable. and

Looking at his current performance, his character is extremely weak, and this is mostly related to the inferiority that has always existed with him. This

The guy is neither a fierce beast nor a zerg, but a miscellaneous descent of the starry beast and the zerg. He must not be seen on both sides. Over time, he will form such a character. If you think about it, it seems to be the right thing. Meaning...brain

In the flash of these thoughts, the look of Ye Xuan's face suddenly became even more eccentric. A powerful heavenly environment exists, and there is really no way for him to associate it with the word inferiority. Partial

The performance and demeanor of this guy before the moment, this combination is so perfect, can't find a little bit of awkwardness, and is really speechless...

Ye Xuan originally did not intend to kill him, even if the voice of God is heard, it shows the purpose of this trip.

The reason why he chose this one to be the weakest, only the first-order starry zerg, is to let the other party try to call the other five zerg in the forbidden land, after they gather together, Suddenly shot, under the singular meaning of the nine-color flame sea, condensed into a flame ball to seal. for

Therefore, Ye Xuan can even spare the first-order Zerg, but it is impossible for the other party to leave. Instead, after the five zergs gather and get trapped, the first-order Zerg will be temporarily included in Shennong Ding. When the timing is right, let it go.

A starry zerg, which is only one step in the sky, has not been put in the eyes, and now the peak of the ninth-order grand perfection, the other party is not even a threat. And

As long as he makes such a promise, the other party will surely believe that it is not easy to make jokes when it comes to the level of heaven and earth. It is related to the heart. Any strong person in heaven will not be because of this kind of thing. Make the heart hurt, affecting the future breakthrough...

At this moment, as his voice of God is heard, the future will show that the body shape is smashing to the ground, and the shofar that is shaking and shaking is suddenly stunned. Immediately afterwards, the head is lifted, and the bottom of the scorpion is deep. There was a surprise that flashed past.

Then, the words of the shofar will sound: "Adult, what are you talking about? You not only do not kill the small, but also help me to kill the five guys?"

Listening to the meaning of his words, there is also a tone of excitement. This old guy's words about Ye Xuan are obviously 10,000, and there is even a feeling of heavenly happiness. At the same time, Ye Xuan, who was caught off guard, gave I'm stunned, looking at him slyly, for a long time without words...  
no

Knowing why, at this time, his heart suddenly gave birth to a strange feeling, as if the first-order zerg was so happy, but the main reason was because Ye Xuan said that he would ban the other five celestial zerg within the worm. Killing things. and

It's not that he can't die..."

Adults, you don't know, the five old guys are not a thing..." See you

Ye Xuan's face seems to be a little unresponsive. Even if the horned horns are explained, they don't say tears, but the difference is not much...

The guy is indeed a \*\*\*\* descent left behind by a star-studded sheep and a star-studded ladybug, which is already before the endless years. he

The body has both the blood of the beast and the blood of the Zerg. It is true that both ends are not to be seen, and the reason why he is left in the forbidden land is that he seems to be one of the six Heavenly Zerg sitting here, but in fact However, it was under the power of the other five Tiandao Zerg. in

In the forbidden land of the worm, he has always been a joke, and there is no real power at all. Even in the nest of the nest, there is no genus. This Ye Xuan has already discovered it when he came in! This

In this case, the shofar does not hate the five guys who blame it. Previously, there was no chance, but now there is a chance to kill the five star zerg, and he is naturally overjoyed. It is absolutely impossible to Missed. Say

White, all the star worms in the banned land of the worms did not regard him as his own person. He naturally could not have any sense of belonging to him. He just wanted to leave here, even if he was alone in the void, at least he had freedom.

At least without being wronged, you are under house arrest, subject to eternal ridicule and ridicule...

The situation is too bloody, Ye Xuan is completely unexpected, but for him, this is definitely good news. With this in mind, Ye Xuan immediately waved...

"call out....."

The faint volley rushed out, and there was no storm in the envelope of spiritual power. In the blink of an eye, it became a sturdy figure, and it was his dark fog. eye

Under the flash of mans, the black mist split into the body of the shofar directly, and the breath is concealed and perfect, and half of the clues are not revealed.

"You'd better not play tricks, otherwise, the black mist of the temple will make you desperately on the spot..."

Under the flash of the cold man, a warning came from Ye Xuankou, and then it will be extended and the spiritual strength of the entire shape of the horned horns will be collected. "

Adults can rest assured that the five old things are all dead and upright..."

The shofar nodded, and after responding to one sentence, he did not hesitate, and his body shape shook, turning into a black man's glare toward the stars. Look

The direction he traveled was clearly located in the place where the most powerful eighth-order zerg worm nest in the forbidden land of the worm. leaf

Xuan also did not hesitate, still hides his body shape, concealing the air machine, separated by a distance of about 100 million miles, quietly following behind...

The black mist was turned into a black mang, and it broke into the body of the shofar, and disappeared. The last worry of Ye Xuan's heart also quietly dissipated. black

The fog is like him, and it is also the peak of the nine-order grand perfection. What's more, the nine-color flame sea is now in the body of the black mist.

If there is any change in the shofar, the black mist will be separated from one mind, and it will make him fall instantly.

"The adults are relieved, and the small ones are all dying of the five old things..."

For this, the shofar is obviously well known.

However, he had no other thoughts, and he had no doubts about Ye Xuan's position and commitment. He did not care at all. Such as

In this way, after responding to one sentence, he will not hesitate, and his body will be turned into a black man's glare toward the stars.

Seeing the direction of his advance, it is clearly the place where the most powerful eighth-order zerg worm nest stars in the forbidden land of the worms are located.

Ye Xuan did not hesitate, maintaining the violent form of Zhang Xugao, still hiding his body shape, concealing the air machine, and quietly following behind the distance of about 100 million miles..."

call out! ""

Oh..." with

The shape of the shofar rushed out of the nest of the insects, and I did not know what method he used to subpoena. Soon, four of the other five celestial zerg in the forbidden sect were also from their respective worms. The nest star rushed out.

The sharp and unpredictable sound of the air broke out. The four heavenly zergs gathered in four different directions. Like the shofar, they all converge toward the nest of the eight-order black worm that has not yet appeared. Go...day

The speed of the strong roads is very fast, just ten decimals. These four figures have gathered together, and they are lagging behind the edge of the eighth-order black magic insect nest star.

The shofar also stopped, and the five seem to be waiting for the emergence of the black worm, and this old guy is obviously inside the nest of stars in front...

At this time, the five people gathered in the void around the nest of the nest, only one of the nearest one, only about 20 million miles, plus the size of the stars, including the shofar, the magic insects banned The six heavenly zergs have already gathered together.

"call out....."

It was also at this moment, the slight and undetectable faint sound of the air broke out, and a nine-color spurt came out from the body of the shofar, and the storm rose, and the next moment was not enough, it was turned into a piece. Covering the vast expanse of the flames of the billions of miles.

This is just a beginning. With this majestic nine-color flame sea, there is an endless scream of screaming in the void, and it's half-baked. The flames of the sea are swept at a rapid speed, and the eyes are condensed into a huge nine-colored flame ball.

This giant flame ball is 200 million meters in diameter, and it is surrounded by the four-headed zerg, which has just been brought by the shofar, and the nesting stars of the most powerful black worm.

As for the shofar, it was taken away from the flame ball by the black mist at the first time. Under the flash, it appeared in the void outside the flame ball, and rushed toward Ye Xuan...

"Hey..."

In the middle of the cold mang, a flash of abruptly, Ye Xuan immediately into the body of Shennong Ding, temporarily trapped in the bottom of the central volcano.

As for the black fog, it turned into a mans, and directly fell into the body of Ye Xuan, and it was not seen...

Chapter 5113: Fit state

"Hey!"

Oh..."

Almost at the next moment, the entire forbidden worms were completely boiled, and the numerous stars and zergs in the nest of stars screamed in unison, and the zerg-specific zerg-waves were raging and gathering. Together, they made a lot of noise, so that Ye Xuan subconsciously frowned, very disgusted...

However, in front of this insect nest star that encloses the eighth-order black magic insect, the huge nine-color flame ball with a diameter of 200 million miles is actually very quiet and there is no sound at all. This

It is also the result of Ye Xuan's deliberate manipulation. If it is only a general starry beast, it is not necessary to be so, but now it is trapped in this giant nine-color flame ball, but it is a powerful five-day zerg. for

In order to prevent the five old guys from the Zerg wave frequency from passing through the nine-color flame ball, causing unnecessary accidents, Ye Xuan deliberately strengthened the barrier power of the nine-color flame ball, not to mention the Zerg wave frequency and the gods. The power is that the sound is completely banned inside... indeed

The nine-color flame ball that was just formed in front of the condensation was stable, and there was no abnormality. Ye Xuan's heart suddenly fell, and the heart hanging over the eyes of the blind man fell.

Then, in the middle of the cold, I looked around and looked around.

"Hey..."

call out! ""

Oh..."

At this time, the overwhelming sound of the whistling sound is still rising like a tide, and within the stars of a nest of stars, there are a large number of starry worms rushing out of it, with endless fear, fleeing in all directions.

The general scene of this kind of insect tide is spectacular. The hundreds of billions of emptiness of various forms of the starry worms can be seen everywhere, the size of the body is large and small, and the strength is also strong and weak.

One of the most powerful beings is the starry zerg of dozens of deserted places.

"boom!"

"Booming..."

At the moment, Ye Xuan pushed the power of the body to the extreme, and the invisible pressure of the force spread out, almost to the essence. The whole piece of void was resonating, and the thunder and thunder of the earth shook...

boom! "

"Oh..."

There is suspense, just in the power of his urging the body, deliberately turned into a moment of strong force and full force spread, the whole piece of the big worms in the forbidden land, it is like a stir-fry bean, suddenly came a dense

These starry zergs are the beans that are being sizzled, and the horror of the peak of the ninth stage of Ye Xuan's great perfection is the fire of the blasting beans...

The sight is inaccessible, and the bodies of countless starry zergs in the void are all blasting, and the various scented zerg body fluids, which are all different in color, are like the rain in the void, raging everywhere... too

It's fierce. In a short period of time, the stars and zergs below the mighty powers are all degraded, and the number cannot be estimated. This is the terror of the peak of the heavens. It's just a full spread, unless it's the strength of the ancient powers. Otherwise, it will not be able to resist, and it will explode in an instant...

The original boiled worms banned the land, and they quieted down in an instant. Before that, they screamed and screamed. just

It's still so dense that the tides of the stars and the zerg are almost gone, all the explosions, the entire vast forbidden land in the void, the eyes that can be seen now, there are only two hundred! This

Two hundred figures, all of which are ancient and powerful, and the ancients are supreme. Among them, there are more than one hundred ancient powers, and the ancients are tens of thousands. The former is already seriously injured and dying, while the latter is still struggling to escape to the distance...

In the blink of an eye, the magical insects that had been boiling in the ground were completely quiet, and before they screamed, they were now stunned...

Just now, the starry worms in the tidal waters are all bursting out. The entire forbidden land is in the void, and the figure that can be seen now is only two hundred!

Among them, more than a hundred of the ancients have been seriously injured and dying, and even lost their ability to move. The figure is suspended in the void and dying. and

The number of the Supreme Supreme is also about sixty or seventy. After all, it is a deserted strongman. Although he has been seriously injured, he is still struggling to escape to the distance. This

This is what it should be, as long as there is still a line of life, no one can give up on this...

But in fact, even these dozens of Zerg paramedics who are fleeing around have known that such a move has no meaning at all, and everything is just in vain. surface

For a ninth-order grand perfection, they are in a state of full prosperity, and let them go ahead in advance. If Ye Xuan is willing, he can catch up at any time and catch it and kill him.

What's more, now all of them have been seriously injured? he

The reason why we are still fleeing is, on the one hand, the instinct to survive, on the other hand, perhaps there is luck. or

This powerful peak of heaven is not interested in them, and will not be pursued. also

Perhaps, their dozens of ridiculous grotesques fled in different directions at the same time. If they were lucky, even if they rushed to attack, they could escape three or five...

However, this opportunity is very embarrassing, but as long as there is a line of life, who will give up?

It is a pity that if other starry beasts fall, even with Ye Xuan's current height, even if it is a ridiculous old man, he may not be interested in killing. but

Unlike the worms in the starry sky, the worm's biological wave frequency is too strange, and the effect of communication is unique. The nine-color flaming ball with a diameter of 200 million is now there are five zerg Tiandao. It takes a certain time to go back and smash it one by one.

Ye Xuan didn't want to be squandered by the dozens of Zerg before he left, leaking the news and attracting the siege of the surrounding forbidden land.

So they have to stay, one can't be less! brain

In the flashing of these thoughts, Ye Xuan did not hesitate, and in the middle of the cold, the shoulders shook and rushed out, and the blink of an eye had already reached the end of the Zerg, who was repaired by the Eighth Order. Directly spread the arm and punch it out..."

Oh..."

When the crisis is approaching, the zerg is desperately stunned, and his hair is screaming, but he can't change anything at all. He is destined to fall on the spot.

"boom!"

Everything happened too fast. With Ye Xuan's shot, the porcelain was incomparably bombarded on its body, and the loud noise came immediately.

This zerg ridiculously, he had no time to react, and the power was soaring to the horrible giant punches. In the blink of an eye, the entire body shape of the giants of Pangda was instantly exploded. The rapidly spreading redness of the blood. tight

Then, with a whistling sound, Ye Xuan waved for the first time.

An invisible sigh of anger screamed away, and the \*\*\*\* fog of the zerg's ridiculous figure exploded and swept into the body, sent to the bottom of the volcano in the central area of the Dingnai space, and immediately began blood coagulation. Refining...he

In the hands of the 30th-level Tiandao Baodan, there are thirty-five, and the twenty-ninth-level deserted Baodan has more than one hundred and fifty. In a short time, there is no need to refine the ridiculous Baodan and Tiandao Baodan.

However, the existence of the powers below the power can not be overwhelmed. The ferocious beasts and zergs of the mighty and ruthless environment, the \*\*\*\* fog formed after the flesh exploded, must not be wasted. which is

Do not refine Bao Dan, swallowing is also the most top resource when practicing. when

However, with Ye Xuan's current level of cultivation, the ridiculous Baodan basically has no obvious effect, unless it is the best \*\*\*\* essence of the \*\*\*\* fog that is revived in the late stage. more

What's more, Ye Xuan is not interested in the \*\*\*\* refining of the worms and flesh. but

If you don't swallow it, there are so many generals under the account that you can leave it for swallowing...

"call out....."

boom! ""

Oh..."

Next, Ye Xuan mobilized the power of the body to the extreme, and walked around. Every time after chasing a close relative of a Zerg, he was the first time to shoot, punching it out and bombing it. The blood is bursting.

Then he waved his hand to the invisible Majestic Weili, wrapped up the scattered blood mist, and infused into the body, sent to Shennong Baoding, and began to condense blood. Seven

More than a dozen Zerg people were absurd, and they were all seriously wounded. There was no chance to escape from the sky. The time of a short incense was all killed by Ye Xuan. and

At this time, the entire vast worms were forbidden, and in addition to countless disgusting insects floating in the void, there were only a hundred dying figures. This

A long razor-stricken zerg, all of which are the ridiculous powers of the cloak of the worms, were instantly devastated under the horror of the sacred peaks of Ye Xuan's ninth order, and they have lost their ability to act, even though their hearts are terrified. There is no way.

I can only float in the void, wait for death..."

Hey! "

"Hey..."

boom! ""

Oh..." very

Fast, full of desperate desperation, the sound of the whistling sound, among the more than one hundred zerg genius, about one-third of the existence of the choice of self-destruction, the bang of the bang in the air. Correct

Therefore, Ye Xuan did not pay attention to it, the body shape spurt out, wandering around, encountering the self-destructive Zerg abilities, directly waved his own self-explosion and was diffused and opened the \*\*\*\* fog.

As for those Zerg abilities that have not blew themselves, it is a big deal to make up a punch. The result is the same. These Zerg abilities are all bulged in his body under the punch of his body, and then he is waved by Ye Xuan. In the body of the income, sent to the bottom of the volcano of the central domain of Shennong Baoding, and the blood essence is condensed...

A time faster, a little semi-column, Ye Xuan ended everything, and the Hundreds of Zerg creatures were all without exception, all falling.

Even the \*\*\*\* fog formed after the explosion of the flesh was taken away by him.

As a result, the number of \*\*\*\* essences in Ye Xuan's hands has once again climbed to 76, and the number of powerful blood, because there are still dozens of them in his hands, is now killing this hundred. After the bully of the multi-headed Zerg, the powerful blood in the hands of Ye Xuan has already surpassed two hundred...

All of this is long-lived, but it happens in a short period of time. From

Ye Xuan quietly sneaked into the magic worm to ban the land until now, in total, only a column of incense time.

The meal was not enough, and the entire cockroach's forbidden land was turned into a barren land. Except for the five Zerg Heaven and the horned horns that were still trapped by the nine-colored flame ball, the other countless zergs were all annihilated. nine

This is evident from the horror of the peak of the heavens in the perfection of the world.

It is clear that it is easy to destroy the rhythm of a whole forbidden place or the star field by its own strength... too

It's fierce!

From Ye Xuan quietly sneaked into the forbidden land of the magic insects until now, in total, only a column of fragrant time has passed, but the entire big worms forbidden, but in this period has completely turned into a barren land. except

The five Zerg Heavens and the horns, which are still trapped by the nine-color flame ball, are annihilated by countless other zerg... The horror of the ninth-order great perfection of heaven and earth is evident.

At this level, with the help of one's own strength, it is easy to destroy a whole banned beast or the land of the benevolent, the horror of strength, simply incredible! Do not

However, this battle is obviously not over yet. It can even be said that Ye Xuan is currently solving it, but it is just some corners and corners. The real heavy head is still behind...

Moreover, although he has annihilated all the numerous stars and zergs in the forbidden land, and did not escape from the news, the magic insects in the forbidden land have such an amazing movement, and it is expected that the news will soon be Will also spread. Session

At that time, the heavenly strongmen in the forbidden land of the savage beast adjacent to the cloak of the worm will surely come and explore. Place

Therefore, the time left for Ye Xuan is actually not much. He must solve the five Zerg Heavens trapped in the nine-color flame ball as soon as possible... It will change later!

"Oh la la..."

These thoughts flashed through the brain, and Ye Xuan did not hesitate any more. The violent figure disappeared between the thoughts, and the imaginary waters of the original lameness were screaming.

At this moment, the temperament only broke down and the body shape collapsed, turning into a \*\*\*\* sea to spread, shrouded a corner of the universe, revealing endless \*\*\*\* meaning.

"Roar!"

"Roar!"

Oh..." tight

Then, from the three different directions of this vast sea of blood, there was a cry of low anger and whistling in an instant...

In the boundless blood of the sea, there are three huge figures in the blink of an eye. In a moment, it is the flesh and blood of the konjac, and the body of the shin and the body of the black fog... blood

The body of the flesh is exactly the same as the previous violent, just the body is getting bigger, Panda is 60 million miles.

The body of the cheekbone does not have any flesh and blood, just a purple-golden cheekbones, revealing endless fierce breath, very incomparable! black

The body of the fog is a black fog, even a pair of scorpions, just two awnings, it looks very strange!

Everything is long, it just happened in an instant.

In the blink of an eye, Ye Xuan's three \*\*\*\* seas have been condensed, and the body's temperament is all about the nine-step grand perfection of heaven and earth. This is the three powerful peaks of heaven, even in this galaxy. On the left bank, wherever it appears, you can pick up a storm...but

This is obviously not the end..."

Roar! "With

The three blood seas are condensed, and the flesh and blood of the body is violently screaming again in the next moment.

At this moment, Ye Xuan directly transformed the ultimate form of the konjac into the blood, and the konjac was activated. With the roar of the roar, the power of the three bloods and seas all rushed in an instant. stand up. its

The situation is like a roaring river in the roaring river, all of the three limbs of the limbs are screaming inexhaustible and fierce, and there is a glorious force of horror and horror, and they quickly close together. ....

Just a little bit of interest, the back has been merged, the konjac of the three heads and six arms in the void is revealed, and the body of flesh and blood, the body of the cheekbone and the body of the black fog are integrated into one whole! "

Oh..."

At the same moment, the body of the skeleton in the three real bodies of the konjac has already produced a fierce purple gold awn, and the incomparable humming sound resounds through the void. One

The secret of the shackles is like the anger of the Nujiang River. Since his body is swaying, the left arm of the cheekbone is suddenly lifted up, and the empty palm of the left hand is golden.

The golden bow of the energy form appears in his left hand, simple and awkward. The middle part of the palm is a double-headed beast, which is facing the upper and lower sides of the beast, biting two people. The physical body of the two feet. all

Wide open mouth, like roaring, a bow string formed by a number of fine gold thread twisted together, the two ends are connected to the life of these two humanoid bodies, it is the sacred \*\*\*\* of the famous earthquake Sky bow! "

call out! ""

Oh..." No

Hesitant, the flesh and blood of the body is also a sudden turn of the hands, with the weak sound of the sound, two volleys rushed out, the left hand of the flesh and blood body held a foot of Shennong Ding, Wan Rufan Tianda Yin is generally on the side of the body. and

The right hand, dragging the \*\*\*\* stick of the gods and pesticides, the fierce breath that comes out of the invisible, is shocking... first

Before, the three \*\*\*\* sea corps all had the ninth-order grand perfection.

Nowadays, as they gather together and become a whole, the konjac of the three heads and six arms is the strongest form, but the konjac in the form of fit is the atmosphere of the repair, but it is still only the ninth order of perfection. It's just the peak.

It did not break through the big realm... In fact, what is the next big realm after the heavens, and now Ye Xuan still doesn't know. he

This time I came to the left bank of the Galaxy again, in order to enter some of the more powerful beasts and the sect of the forefathers, and to find the existence of the ninth-order grand sacred peak of the inner-sitting town, and explore this matter.

These nine-order grand perfect peaks of heaven are basically the ancient existence of the endless years of life. They come from different big worlds. The world that once ruled may be stronger than the vast world of heaven and earth.

Therefore, from their mouth, it is very possible to get the information that Ye Xuan needs...

Nowadays, the three major blood seas are gathered together into one. After the combination, the konjac, although the body is repaired, is only the ninth-order grand perfection. but

The same peak of heaven and earth, but also has a strong and weak difference.

Under the state of the three-headed and six-armed konjac, I dare not say that it is definitely the most powerful of all the heavenly peaks. I am afraid that it is not far behind. This

Ye Xuan in various forms, even on the left bank of the powerful Galaxy, can also walk sideways, solving the five most powerful zerg Tiandao repaired in the nine-color flame ball, obviously no pressure . This

The result of World War I has no suspense, just the length of time, and what Ye Xuan is doing now is to end everything as soon as possible, and leave and leave...

"Hey..." brain

After flashing these thoughts, he did not hesitate, and his shoulders swayed, and the whole figure instantly turned into a man, and spurred toward the giant nine-color flame ball with a diameter of 200 million miles ahead. "

Call..." This

For a moment, the nine-colored flame ball quietly standing in the void, suddenly there is a weak wave in one position, the speed of the konjac body is fast to the extreme, blinking from this wave, rushing into Inside the flame ball..."

call....."

At this moment, the nine-colored flame ball quietly standing in the void, suddenly there is a weak wave in one position...

The three bloods of the sea gathered together, and the body was transformed into the real body of Ye Xuan. The whole figure instantly turned into a man, and the giant nine-color flame ball with a diameter of 200 million miles in front was spurred away.

The speed is so fast that the blink of an eye passes through this wave and rushes into the interior of the flame ball...

For a moment, the incomprehensible humming sound suddenly came to the surface like a tidal wave. Even Ye Xuan was in the midst of being caught off guard, and all of them were stunned, and there was a feeling that the spirit was shaken and the blood was impetuous...

Under the flash of the mid-cold man, he was fixedly looking at it. In the sight of the line, the vast void in the flame ball was completely banned, and all the ripples were like the fine scales. It looks shocking.

The diameter of the nine-color flame ball is 200 million, and the space inside the flame ball is also the same, but now, in this virtual space of 200 million square miles, five huge figures are visible.

These five figures are the five celestial zergs in the forbidden land of the worms. Their original size may be even larger, but now limited by the limited space inside the flame ball, the five-headed zerg are all reduced to a hundred. About a thousand miles. but

Instead of gathering together, they are on the inside of the flame wall of the flame ball, standing on the pentagon. If a line is drawn between their bodies, they can form a huge pentagram. Fives

The head of the zerg, the form is different, the blood is different, although the body is the same, only about a million miles, but the body's repaired breath is different.

The strongest existence is a black magic insect. The strength has reached the eighth order of the heavens, and the weakest one is the blue sky. It is a starry sky, and the strength is in the fourth stage of the heavens. ....

Although their number is dominant, the strongest is only eight steps in the sky. Compared with Ye Xuan, it can be more than a little bit, and it is impossible to shake him.

However, the Zerg was originally surprised. Ye Xuan always hated bugs and felt a lot of headaches for various Starry Zerg, which is why.

Nowadays, these five Tiandao zerg are obviously all urging the power of the body to the extreme, activating some kind of blood and secret method, and the invisible zerg wave frequency in the body...

If only one end is over, Ye Xuan will feel a headache, but it will not be affected. His strength has reached a very high level, enough to ignore most of the attacks.

But now it is the combination of the five-headed zerg, the power of the body to fully promote the secret method of the blood, the scattered invisible worms are frequently overlapped and aggregated, and the power is naturally different.

At this moment, as the body is turned into a mans, into the nine-color flame ball, the invisible strong worms wave face to face, shrouded Ye Xuan's entire huge body shape, and instantly let him spirit Inciting, the body has a stinging feeling..."

Roar....."

The violent roar screamed, and the scorpion screamed out of the cold mang, and did not hesitate. The first time it narrowed down the figure, and it also turned into a hundred miles or so. It felt like it was better soon. but

This is not the way to go, Ye Xuan can feel the turbulent wave power of the worms in the five-pointed star, all come together, and he seems to be the only venting port in which he is suffering from the horrible wave frequency. . and

Moreover, the longer this crushing lasts, the stronger the strength, and Ye Xuan's shortness of breath into the flame ball, the body shape has been spurted, and if this situation continues, it will not explode. And died, but the injury is absolutely unavoidable.

The Zerg is really different. Nowadays, the Zerg powerful in the five-headed world join forces to stir up the Zerg wave power in the blood. Under the overlap, the Ye Xuan, who has been repaired for the strength of the 9th-order Datian, is somewhat unbearable. .

Only then can it be seen.

However, he is not worried, because the structure of this pentagram is fixed, and unlike other arrays, it can be ever-changing. The five-headed Zerg Heaven may not have expected such a situation today.

There is a strong existence, and they need five of them to join hands to stir up the Zerg wave frequency in the blood, so that they can barely let the other party have some jealousy. Therefore, they have not practiced each other before and at the same time.

In fact, even if they are now rushed to join forces, the impact on Ye Xuan is only a little jealous. "

call out.....""

boom! "

"Booming down..."

As the body swept, Ye Xuan narrowed down to a million-mile konjac body, and immediately went to the front of the starry green star that was the weakest.

Without hesitation, the violent right arm was lifted, and the first time he slammed the \*\*\*\* stick and squatted. skeleton

The left arm of the bones was also released. The formerly powerful Xingshen \*\*\*\* disappeared, and the right arm was pinched into a fist, squatting toward the starry blue back.

Between the moments, the violent and the cheekbones split their hands, and the remaining black fog avatars were also flashing under the shackles of the shackles, screaming and screaming, and the invisible spiritual power of the horror of the snarl roared away, but then sent first, In the blink of an eye, the shape of the starry sky is shrouded...

At this moment, the shape of the starry sky was shocked, and the sturdy green mansions in the middle of the sky were suddenly faint.

At this time, the violent \*\*\*\* stick slammed over his head, and the punch of the cheekbone slammed out of his back in time..."

boom! ""

Rumble..."

There is no possibility of suspense, this starry sky is simply too late to respond, and the horrific power of the horrible force rushes into the body, and the entire body shape of the giant Panda is instantly exploded in the blink of an eye. Opened, turned into a red blood fog that quickly spreads. tight

Then, as a whistling sound rang, Ye Xuan waved for the first time, and an invisible sigh of anger screamed away, sweeping the \*\*\*\* fog of the starry sky. Are

Engraved into the body, sent to the bottom of the volcano in the central area of Ding, and immediately began to condense blood...

All of this is long-lived, but it happens in the blink of an eye. Under the lightning, the starry sky is dead.

The five-man squad formed by the five-headed zerg worms collapsed instantly, but the other four celestial zergs were not affected. After each screaming a fierce whistling sound, the huge body of a million miles was quickly mobile.

In the blink of an eye, the previous five-man array became the current four-image array. The four-headed Tiandao worms split the corner of the four-image array. The zerg wave half-points dispersed in the body did not stop, and they still shed in the invisible. Come here...

"Hey..."

With the continuation of time, the invisible worms of the lingering body can be geometrically superimposed. The tingling sensation sent by Ye Xuan's body is stronger, let him scream his hair, his shoulders sway, the whole body shape It will be turned into a mans in an instant.

To the other Zerg Heaven, lasing away...

Chapter 5114: See also the vortex

"Hey!"

"Hey..."

The starry sky was bombarded, and the five-man array of the five-headed zerg worms collapsed instantly...

However, the other four Tiandao zergs were not affected. After each of them uttered a fierce whistling sound, the huge figure of a million miles quickly moved.

The speed is too fast. In the blink of an eye, the previous five-man array has become the current four-image array, and the four-headed Tiandao zerg divides the corner of the four-image array.

The zerg wave half of the body that has been dispersed in the body has not stopped, and it still leaks invisibly...

"Roar....."

As time went on, the invisible worms around the cage were almost geometrically superimposed, and the tingling sentiment from the flesh was stronger. Ye Xuan raised his hair with a roar.

Under the sway of the shoulder, the entire figure instantly turned into a man, and yelled toward the other zerg heaven...

"boom!"

"Booming..."

Still the same as before, as the figure is approaching, the violent right arm is lifted up, and the first time I shake the \*\*\*\* stick and squat down...

The right arm of the cheekbones was also pinched into a fist, squatting toward the back of the starry sky.

The remaining black fog avatars still seem to be using the spiritual power secret to attack, so there is no other action.

This starry zerg is not weak in its cultivation. It has reached the fifth stage of the heavens. His eyes are green and green. At this moment, he does not care about violent and cheekbones. Instead, he is locked in the black fog that has not been hit by a fist.

The fall of the former starry sky, the four zerg Tiandao in the presence, but saw the real thing, it can be said that the reason why the starry sky is destroyed in an instant, the most important reason is that the black fog is separated from the gloom. Next, Zhang Tong's roaring out of the invisible spiritual power of the canopy

The former Wuman array has already integrated the power of the five zerg Tiandi. Otherwise, the most powerful existence among them is only eight steps. which is

The zerg worms are very different in frequency and power, and it is impossible to make the Both

But the power is integrated into one, so the defense against the attack is naturally the same. that

Although the head starry sky is only a fourth-order heaven, but the powerful attack of violent and cheekbones falls on him, but if the five zerg heavens are together to bear strength, the possibility of one-shot spike is basically not possible.

The reason for this result is that the black fog is the spiritual power of the canopy that was blasted at that time. fine

The power of God is the specialty of the devil. It is also invisible and inferior. Like the Zerg wave of the Starry Zerg, the power can be different, but it can resist the power of the Zerg wave. first

The former starry sky is the spirit of the awning that was smashed out by the black fog. It temporarily blocked the connection between him and the other four zerg Tians, so it will be killed in an instant...

This attack, Ye Xuan can be said to have tasted the sweetness, and now the second shot, naturally the same is true, it can be said that it is like painting a gourd.

And his second goal, obviously, also prevented this, and the bitter experience of the starry sky is still in front of him. He naturally will not let such a tragedy happen again immediately. Now he has been wary of black fog, and he will be the first time. Have preparedness...

"Hey..."

The shape of the konjac rushed to the front, and the low humming sounded instantly. At the same time, a huge mask appeared in the huge body of the zerg's heavenly path.

This mask is made up of Zerg wave frequency. He should be the invisible spiritual force that wants to defend against the black fog, so as to avoid being like the previous starry sky, and instantly cut off with the other three zerg. The ditch between the two, alone with the bombardment of the violent and cheekbones, fell on the spot...

"Roar....."

Putting all this into the eyes, the black mist is not hesitating, even when the mouth is roaring.

This time, he not only took out a simple spiritual power, but also applied a secret of spiritual power. when

At the beginning, Ye Xuan had four kinds of secrets of spiritual strength. Perfect shock and absolute shock are the secrets of spiritual defense. Together with this, there are two other attack skills of spiritual power. Minute

Don't be the annihilation spear and the ruin of destruction! This

Once, what he activated is the whirlpool of destruction in these two spiritual forces attacking the secret law...

At this moment, as the black mist suddenly screamed, the purple and black spiritual source nucleus hanging over the central area of the sea in his brain also began the crazy speed rotation at this moment.

The power of all the spiritual sources contained in the core of the mind is extracted in half in an instant, and it is extremely compressed. Finally, it becomes a tiny point that is difficult to understand by the naked eye. It rushes out of the black fog and knows the sea, and whips toward the second zerg Tiandao in front. And go..."

boom! ”

At this moment, a terrible noise rang out!

That is as small as a dusty dust, but in reality it is a purple-black dot formed by the ultimate force of nearly half of the source of the nucleus in Ye Xuan's mind. When it rushes to the huge mask above the zerg Tiantian figure. The steep land suddenly exploded. One

In an instant, the power of the infinite spirit of the mass is in the ultimate condensing, and it blooms completely at this moment. In a short period of time, it will cover a large space of a tens of thousands of miles around the Zerg...

The inexhaustible spirit of the source of power collides with each other, instantly turning into a huge energy vortex, frenzied and violent, seemingly annihilating everything, revealing a horrible atmosphere of destruction..."

Oh..."

When the crisis is approaching, the zerg's celestial temperament is cracking, and a screaming scream of sorrow is raised, but nothing can be changed at all. He has already been destined to fall on the spot...

The crisp and fierce sound of the cracks rang, and the entire worm-like wave-frequency hood over his body shape was instantly smashed and smashed. "

boom! Pick up

Everything that came down was not suspenseful, and the violent big head slammed on his head, and the punch that smashed out of the cheekbones fell on his back at the same time.

This zerg Tiandao simply had no time to react, and the horrific power of the zerg was poured into the body. In an instant, the entire body of the giant Pontiac burst into a blush. Blood fog, spread quickly and open..."

Call..."

For a moment, the black mist split and waved suddenly, and immediately there was an invisible strength that went away and turned into a screaming wind. The blink of an eye swept away from the worm's heavenly body. Receive

After entering the body, send it directly to the bottom of the volcano in the central area of the Dingnai space, and start the blood purification!

In the blink of an eye, the five-headed Zerg Heavens, which were trapped by the nine-colored flame ball, have already fallen two. But all this is just the beginning. The remaining three heads can not escape the smashing and falling down. brain

In the middle of it flashed all over, the violent smashing of the cold mang, flashed to the third goal and looked away...

With Ye Xuan's shot, the five-headed worms trapped in the nine-color flame ball have already fallen into two eyes, but all this is just the beginning. The remaining three heads can't escape being bombarded and fallen. The end. brain

In the middle of it flashed all over, the violent smashing of the cold mang, flashed to the third goal and looked away...

"call out!"

"Hey..."

At the same instant, the sharp and unpredictable sound of the air broke out, and the remaining three zerg Tiandao, once again changed position, the previous four-image wave frequency burst, the blink of an eye became the iron triangle, the three-headed Tiandao Zerg division triangle position.

This is the four-dimensional three yuan! and

Moreover, in this process, the zerg wave frequency transmitted from the three-headed zerg Tiantang is also not stopped for a while, although their number is small, the worm-wave frequency power that overlaps and overlaps is weakened. but

In this wave-frequency array, the force of wave frequency crushing that is sustained at all times has risen with the increase of time. It has been a long time since Ye Xuan entered the wave frequency array. Place

Therefore, the force of the wave frequency that he felt at this time has not weakened compared with the initial half, but it has been improved. The situation has not been completely resolved. The only way is to use this ternary wave frequency array. Destruction, their wave frequency bursts completely..."

Oh..."

The violent screaming hair screamed, and then, the three-headed and six-armed konjac stunned and swayed and ran straight to the third goal. This

The cultivation of the head zerg is the same as the previous second goal. It is also the fifth stage of the heavens. Therefore, in the face of the konjac, his face is instantly white, and the first time to motivate the body. On a huge body of a million miles, prop up a light-blooded wave shield...

"Roar....."

In the eyes of all this income, the black mist did not hesitate. When the mouth opened and roared, the purple-black spiritual source nucleus hanging over the central area of the sea in his mind also began a crazy speed rotation. fine

The power of all the spiritual sources contained in the source of the gods is extracted instantaneously. After the extreme compression, it becomes a tiny point that is difficult to understand with the naked eye. It rushes out of the sea and whistle toward the front...

"boom!"

The loud noise is amazing! Such as

With the small purple-black dots that are as small as dust, when they rush to the huge mask above the body of the Zerg Heaven, the steep blast will burst open. It is the power of the infinite spirit of the massive after the ultimate condensation. It blooms completely at this moment.

In less than half an instant, it shrouded the vast space around the Zerg's radius of thousands of miles. The inexhaustible spirit of the source of power collided with each other and turned into a huge energy vortex, frenzied and violent, annihilating everything...

As this light-blooded wave-frequency shield was smashed, the violent and sacral avatars were also shot at the same time, and the \*\*\*\* stick and the sacral bones smashed out and took the head and body of the zerg.

"Hey..."

"Booming..."

"Hey!"

There was no suspense in everything that came down. This zerg Tiandao could not bear such a terrible force. Under the crisis of life and death, he only had time to send out a fierce and screaming sound, and the whole figure had exploded. black

The fog was also suddenly waved at this moment. Standing

Inscribed with an invisible strength, it turned into a screaming wind, and the \*\*\*\* fog of the zerg's heavenly body exploded from the blink of an eye, and it was collected in the body and sent directly to Dingne. At the bottom of the volcano in the central area of the space, unfold the blood essence! "

Hey! ""

Oh..."

"Ye Xuan, what exactly do you want?"

The nine steps of Heaven may not be invincible. If you kill the deity, you must be insulted, it is best to think twice..."

After seeing Ye Xuan rushing into the nine-color flame ball, he shot three times in a short period of time. Each time it was a single blow, and the three-day worms that had banned the moth were extinct in just ten times. These two old guys are finally scared... with

The voice of the gods came out, and the figure of the two of them also plucked again. The blink of an eye has already come together. The ternary wave frequency has collapsed, and the invisible wave of power in the void has dissipated. Let Ye Xuan suddenly feel that his figure is light and relieved. "

Oh..."

But almost at the next moment, the low-pitched humming sounded again.

Looking intently, after the body shape is gathered together, the last two remaining Zerg Heavens have once again motivated the Zerg wave in the body. Two

The invisible wave-frequency shield is floating at the moment. One is blood, one is golden, and the eyes are stacked together, perfectly blending together to form a giant blood shield of five million miles. The human figure is completely covered...

Obviously, the two old guys gave up the attack, their wave frequency killing was weakened to the four elephants by the first five awns, and then the four elephants were weakened to three yuan, and finally they were defeated by Ye Xuan.

Nowadays, once again, the Zerg wave frequency in the body is fully motivated, forming a large wave of two instruments, but unlike the previous five-man, four- and three-dimensional, the two instruments have no wave. Attack ability. it

The only power is defense. only

Based on this, it can also be seen that the defensive ability of the two instruments is very good. complete

It is actually giving up the defense power obtained after the attack, plus the yin and yang eyes that motivated the two defensive arrays at this time, and the Zerg Heaven Road in the two late stages, one heaven and eight steps, one heaven and seven steps The power of its power can be imagined. "

Oh..." brain

It flashed through all of this, and the black mist was smashed out of the shackles. He didn't hesitate at all. After he screamed, he immediately ignited the spiritual power of the body...

This time, the black mist avatar is the annihilation spear in the two secret attacks, and the power is stronger.

The massive spiritual power extracted by the spear of the annihilation is not turned into a spiritual vortex, but turned into a very small point, just like a spear, and slammed out. This

In this case, a lot of spiritual power is drawn, but the attack is the tiniest one. This is a little bit sharp and indestructible. It can be imagined. "

Oh..." this

Engraved, with the dark fog meditation, unconsciously, the spiritual source nucleus in the brain that knows the sea is also rapidly rotating as these spiritual forces work, faster and faster. straight

In the end, a tiny spiritual cluster formed by the extreme compression of a large number of spiritual sources, shot from his sea of knowledge, like a heavy hair with infinite density, with the shadow of a spear, Going forward and rushing..."

Hey! ""

Oh..."

At this moment, I felt the threat. The two zerg Tiandu martial arts in the two defensive arrays stunned and screamed. "

Card 噯..."

boom! "

"Booming..."

Unfortunately, this can't change anything at all. It is almost in the next moment. It is like a hairline. There is a spiritual cluster of ghosts and ghosts behind it. It has already come, and after the crisp sound of the card, the sound of the explosion is coming...

"Card..."

"boom!"

"Booming..."

The black mist was launched, almost at the next moment, like a hairline, with a spiritual cluster of ghosts and ghosts behind it, it has already arrived, and after the crisp sound of the card, the sound of the explosion came...

Between the eyes, the energy mask that shrouded the two of them was completely collapsed, like a glass of blood, turned into countless pieces, and it smashed. This

The collapse of the scorpion represents what the two zerg Tiandao clearly knows. At this moment, their body shape is violent, and at the same time, their hair screams, without hesitation, they turn and flee to the left and right. Such as

Today, their figure has been reduced to a million or so, and this interior is completely enclosed by the nine-color flame ball, there are 200 million square meters, although can not escape, but in a short time, inside the flame ball, There is still no small space for activities.

Although this is no different from dying, who will be willing to wait? Even if it is finally to fall, it is good to be late...

"Booming..."

Between the thoughts, a hearty, low-pitched roar came from all around.

Looking around, the flame wall of the nine-colored flame ball suddenly moved, and it is rapidly shrinking inward. The final result of this will be that the space inside the flame ball is getting smaller and smaller. The two Zerg Heavens will escape. escape.

Either rushing to the flame wall, looking for a dead end, or facing Ye Xuan, under the pressure of his terror force, he was suppressed and fell. "

Hey! "

"Hey..."

After the moment came, the two zerg Tiandao were instantly stunned, and their hair was screaming at the sound of screaming. tight

Then, there is a voice of God's knowledge, and the desperation will definitely reveal the meaning of warning. Obviously they have not completely given up, and they still want to make the final struggle..."

Ye Xuan, don't force us, big blown, you are also in this flame ball, although it is the peak of the nine-step perfection, but I am also in the late stage of this situation, once you blew yourself, you must be injured..."

"Yes, you and I have no complaints in the past. There is no hate in recent days. Why should you go to that step? It is better to leave than you, I will assure you that the right to do so today has not happened..."

"Not to mention, the deity's previous words can never be intimidated. Although the deity is only eight heavens, but there is a family of elders, it is the same peak as you, and has already entered this endless years, must be strong. Have you..."

Once the deity is fallen here, he will find you and avenge himself! ""

Rumble..."

The sound continued, and Ye Xuan was unmoved. This threat did not know how many times he had encountered it. If Ye Xuan is a person who can be threatened and deterred, he has already fallen for many times, and he can't Going to today, reaching the height of today...

As the roaring sound continued, the nine-color flame ball continued to shrink inward, and its internal space was previously 200 million square feet. But now, just three short distances, the diameter of the entire flame ball has been reduced by half. One hundred million miles left...

Seeing this scene, the two zerg Tiandao finally completely desperate.

"You will regret this.....""

Hey! ""

boom! ""

boom! ”

"Booming..."

The head screamed, completely desperate, the two zerg Tiandao simultaneously motivated the body's power to start a self-destruction, the horrible endless energy instantly raging, but was imprisoned inside the flame ball, its fierce degree can be imagined.

Even Ye Xuan did not dare to scorn his front. Although he would not fall down, he must be injured. This

At the moment, with the huge body shape of the two zerg Tianda Panda, the whole body instantly burst open, turning into a red blood fog, spreading rapidly, and the violent smashing of the cold, the first time Turn around and smash toward the flame wall behind him.

In the blink of an eye, I rushed out of the nine-colored flame ball and went to the outside of the forbidden land.

"Hey..." Let

What happened to him was that almost at the same moment that Ye Xuan's figure rushed out of the nine-color flame ball, a faint blood color was also spurred out of the flame ball, and the blink of an eye disappeared into the horizon. At the end...

"this is....."

Seeing this scene, Ye Xuan frowned. The \*\*\*\* mans were too fast, and even he couldn't respond, and it showed a strong Zerg atmosphere. If

If there is no accident, this should be a kind of \*\*\*\* secret method of the eighth-order Zerg, which is carried out at the expense of self-explosion. Its role should be subpoena. just

Only then did he say that there is another elder in the family who is the same strength and Ye Xuan. The \*\*\*\* color of the subpoena is just that he is going straight to the existence.

"These worms... really trouble!"

Muttering in a whisper, after violently ignoring the three interest, he once again folded into the flame ball. Although the energy of the interior space is still very exciting, but because of the power of Ye Xuan to promote the nine-color flame ball, it is not enough. Then pose a threat to him. but

In the void, there is a \*\*\*\* atmosphere full of incomparable blood. It is the majestic blood left by the two zerg Tiantang flesh.

"call....."

In the next moment, the black mist suddenly waved, and immediately there was an invisible strength that went away and turned into a whirlwind. In the blink of an eye, the \*\*\*\* fog of the zerg's heavenly body exploded. . Receive

After entering the body, send it directly to the bottom of the volcano in the central area of the Dingnai space, and start the blood purification!

In the past, he had 13 Tiandao bloodstains in his hands. Now he has killed all the five heavenly zergs in the forbidden land. Ye Xuan's Tiandao blood essence has reached 18 giants.

This is still not the result of swallowing the hands of the treasure! "

Call..."

For a moment, as he sang, the abnormal sound came in an instant, and the huge nine-colored flame ball that enveloped the tens of billions of empties collapsed completely, turning into a colorful flame sea and quickly condensing. ten

If one of the moments does not arrive, it has become a weak point, and it has not entered the violent body.

Chapter 5115: Hunting plan

"Oh la la..."

"call out....."

Then, after calming down the excitement of the mood, the violent glimpse of a faint glimpse, between the movements, the black mist avatar and the shin bones instantly turned into a shed of blood and rain. with

In a moment, condensed into a faint spurt, and the blink of an eye did not enter his eyebrows, and disappeared. from

Therefore, everything has come to an end, and the nine-color flame sea has recovered. Ye Xuan has also withdrawn from the three-armed and six-armed strongest konjac body form, and the violent body shape has also shrunk. Nowadays, only the masters have been promoted, but the body has been repaired. For the breath, it is still the nine-step great perfection of heaven and earth. turn

Looking forward, the whole piece of the cockroach's worms banned the starry sky in the void, leaving a lot of colorful insects, and in addition, there is no more life in the distance.

A large worm nest is forbidden, and a short meal is not enough. Under his own deforestation, it is completely destroyed, and it is turned into a dead zone. The ninth-order grand perfection is the horror of the power of the heavens. This will be evident.

"It seems that the worm that also has the peak of the heavens has to be solved as soon as possible. Otherwise, if he finds the magic hall to go to the forbidden place, then it is really troublesome..."

In the whisper of whispering, the violent smashing of the coldness of the awning, the murderous moment of violent to the extreme...

A short meal is not enough, and a large worm nest is forbidden, it has been completely destroyed by Ye Xuan alone...

The horror of the power of the ninth-order great perfection, the peak of the heavenly road, can be seen from this, and thus, Ye Xuan's heart suddenly gave birth to a warning sign. "

It seems that the worm that also has the peak of the heavens has to be solved as early as possible..."

Muttering in a whisper, the violent slap in the middle of the cold, the murderous moment of violent to the extreme: "Otherwise, if he finds the magic hall to go to the forbidden place, then it is really troublesome..."

However, he did not know where the existence of the zerg Tiandao was located, but the matter was not in a hurry. It is very likely that the shofar can be known, but the forbidden land of the worm is not a suitable place for interrogation.

Calculating the time, he has almost enough time to enter the place. From the beginning, Ye Xuan will repair the body to the extreme, turning into a horrible pressure to cover the entire magic insect forbidden land, destroying countless star zerg, this place There was a thunderous bang. If

If there are no accidents, the news that the magic insects have been smashed in the forbidden place must have been circulated. The strongest people in the other strong banned areas in the surrounding area are likely to come at any time. He must leave here as soon as possible.

"Hey..." brain

In the flash of these thoughts, Ye Xuan immediately provoked the power of the body, and with the faint sound of breaking the air, his figure disappeared instantly. This

At one time, he did not use the interplanetary coordinate jumping ability attached to the in-vivo system, because the three interstellar coordinates that he branded in this Hong Kong void were all on the right bank of the Milky Way.

One is near the giant source nest star that bred his strongest power, on the left side of the infinite darkness in front of the right bank of the Milky Way.

One is near the source nest base camp, on the right side of the infinite darkness in front of the right bank of the Milky Way. most

The latter part is directly in front of the endless darkness in front of the right bank of the Milky Way, where it is the entrance to the star-shaped channel that enters the forbidden land of the Great World. but

Nowadays, the vast world has been swallowed up by the endless stream of turbulence, and it can be said that it no longer exists. Therefore, this interplanetary coordinate jump point has almost lost its meaning of existence.

However, Ye Xuan's current system title can only imprint three interstellar coordinate jump points in the same large plane, and these three opportunities have already been used up in Hongkong's void. he

I have thought about it before, whether I can erase the interstellar coordinates of the endless dark zone in front of the right bank into the star-shaped coordinate jump near the Xingsheng forbidden land, and then mark a jumping point in a suitable area on the left bank... but

Whether the matter is feasible or not, the system is still unknown. and

This time he left the magic worm forbidden, and the reason why he did not use the interstellar coordinate jump ability was because the things in the left bank area were not finished.

This time, his purpose is not only to destroy the magic worms, but also to kill the five heavenly worms in the forbidden land. It is just a matter of handy, and it will be troublesome. this

The ultimate goal of Fan's arrival is to explore the hidden secrets of the great realm level after the heavens. It is necessary to find some ancient existences that have lived for a long time, so that it is possible to discover some information...

.....

"Oh..." broken

The sound of the air rang, and Ye Xuan's figure appeared, stepping out of a void crack. turn

Looking forward, surrounded by darkness, I couldn't see the star-studded mansions that were scattered in the Milky Way.

Here is the dark void in front of the left bank of the Milky Way. left

The shore is the same as the right bank. After being far away from the banks of the Milky Way, it is also a vast and endless dark void. After Ye Xuan left the magic insect forbidden this time, the direction of the teleport is the dark void away from the left bank...

The comet mantles scattered in the Milky Way star field are invisible. It can be seen that it is far away from the left bank, but Ye Xuan did not stop there. He continued to move forward and spent two days, finally in a remote and infinite void. Strip, saw a star.

It is not the source of the stars, but the abandoned stars without a little life.

Without hesitation, he even went away, and the powerful power of the gods swept the entire abandoned star inside and outside twice. After confirming that there was no abnormality, he shook his shoulders and swept into the abandoned star. Within the star core.

"call out....."

A wave of hands, there will be a spurt of madness, turned into a shofar, this old guy has reduced the size, only to the left and right, and now Ye Xuan, has restored the human form, looks smaller than him A few big circles. "

Adult, here is..."micro

After a glimpse, the horned horns immediately swayed, and the blink of an eye turned into a brown robes for the elderly, a look that was awkward, and the eyes flickered..."

Here is the endless dark void in front of the left bank, within the star of an abandoned star..."

Seeing each other is very honest, did not extend the power of the gods, and arbitrarily explored, Ye Xuan nodded, and the heavenly and powerful people, cringed into such a situation, it really called him speechless.

Speaking half of the time, then he continued: "The five old guys in the forbidden land, the temple has already destroyed them all according to your meaning, including the other Zerg in the forbidden land." No one escapes..."

"However, after the self-destruction of the eighth-order Zerg, perhaps because of some kind of \*\*\*\* secret method, there is a \*\*\*\* glare in the body..."

"The role of this \*\*\*\* man should be subpoena. Before he was bombed, he said that there is a family of elders behind him. It is also the peak of the ninth-order grand perfection. The origin and bottom of this person... ...you know?"

Ye Xuan called him out at this time, just to ask about this matter. For the heavenly peak behind the eighth-order Zerg, he was not afraid, but he was worried that he would find the magic hall under the wrath of the man, if it is true. The shackles in the Forbidden City are definitely not opponents. where

I am afraid that the old pigs and the beasts, the devour of the treasures, and the lions and the lions will sit there in the four heavenly powers, and it will not help.

And Ye Xuan can't stay in the Forbidden City for no time, so the best solution is to find out the old guy and solve it first, so he can be assured..."

Oops, I forgot this thing. This is over, and I am a big man... The existence is very likely to break through the heavens and enter the Hongmen Avenue! "Correct

The horn of the celestial being behind the eighth-order zerg is obviously known, but looking at his performance, the old guy seems to have forgotten about it. Such as

This is reminded by Ye Xuan, especially when he heard that the eighth-order zerg was actually activating the \*\*\*\* secret method by self-destruction before the fall, and sent a message to the blood mang, his face changed instantly. One

The film was pale, and it was scared to sit down on the spot: "Big... adults, can't say that, they are not small, you have to kill, this is... small is just thinking in your heart. Ah..." Silver

The right side of the left bank of the river, the magic insects forbidden!

"Oh!"

Oh... "Ye

Xuan has been away for two hours, and the entire cockroach's worms are still in the air, but they are still dead. The vast star field is in the dead zone, and there is no breath in life.

At this time, the dead silence to the heart-rending void, suddenly came a few crisp and fierce cracks, several different directions in the star field, six void cracks appeared one after another. crack

There are no figures in the seams, but there is a powerful and powerful power to spread out, sweeping through the entire forbidden worms...

These six gods are all powerful and powerful. They are all strong in heaven and earth. Even in the early and middle stages of a heaven, they are all repairs in the late days of the heavens. God

All the power of knowledge reveals the vicious beast that is thick and incapable of opening. Apparently, the existence of cracks comes from the heavenly beasts in other Xingqiang forbidden places.

Soon, with the six powerful gods sweeping away, and after the results were obtained, among the six existing void cracks, there was also a deep and incomprehensible voice of God. all

They all shocked the shock and the anger of the sky..."

what happened? In just a few hours, the entire big worm is forbidden... It has been completely transformed into a dead zone? ""

Not only all the zerg zerg are degraded, but even the six zerg Tiandao, so, can do it in a short period of time, and calmly leave, this requires at least two ninth-order grand perfection of heaven and earth to join forces ....."

"Maybe the other person has no one to know?"

The void can capture the breath of the colorful flames. There is no doubt that it is the violent work. He has a flame sea to sacrifice the target and then kill one by one. Only one Heavenly Peak can do it. To all this..."

hiss! How long has this been? This fierce and fierce temper has already entered the ninth-order grand perfection of the peak of heaven. To know that when he landed the dragon whale forbidden, he was only eight steps in the heavens..."

The speed of growth is too alarming. What is more serious is that this person already knows that I am waiting for a secret alliance. I will start to deal with him. This time, it is a warning, or even a provocation!  
"

"Roar!"

"Hey!"

"Hey..."

At the end of the day, these six heavenly beasts seem to be all angry, and the horrible screams and screams in the cracks of the void are finally quietly closed, as if they have never been here before, the whole is big. The worm banned the land and fell into a dead silence again...

At the same time, in the endless vast dark void in front of the left bank of the Milky Way, in a very remote corner, a huge abandoned star, this time is like a nightmare, a muttered voice.

Although the sound is not big, but it reveals the endless anger, it can be described as killing the sky: "The Lord of the Temple of the House, Ye Xuan? Starry sky violent? Dare to shoot and kill the descendants of the deity..."

Originally just broke through the heavens and entered the strongest Hongmen Avenue. This is a great blessing. Today, the repairs that have just been broken are not yet stable, and they have encountered such awkwardness. It is clear that they are looking for the deity to find the embarrassment..."

"There is absolutely no end to this, waiting, the deity will be out soon, and then it will be the time of the fall!"

Oh..."

.....

It is also in the darkness of the darkness in front of the left bank of the Milky Way, but it is the other direction, the farthest remote area...this

At this moment, Ye Xuan and Yang Jiaoxian are in the star nucleus of an abandoned star.

With Ye Xuan asking the elders behind the zerg Tiandao, especially when he heard that he actually activated some kind of \*\*\*\* secrets before the fall, and sent a message to the blood, the shape of the shofar was insane. shock.....

"Oh, I have forgotten this thing. This is over. I have a big scorpion... The existence is very likely to break through the heavens and enter the Hongmen Avenue!"

In the exclamation, his face was pale and shocked. He almost fell on the spot and sat down on the ground: "Greatly... adults, can't say that, they are not small, you want to kill, this... The little one is just thinking about it in my heart..."

The heavenly and powerful people are weak, so even if they already know that he is such a temperament, now they are in front of the scene, but still let Ye Xuan sluggish on the spot, almost dropping his chin to the ground.

"you....."

After a few moments, Ye Xuan opened his mouth and originally wanted to blame it, but when he reached the end of his mouth, he stopped abruptly and shook his head and smiled.

This product is scared like this, what is the use of reprimand? Don't stun him on the spot, but it's not good. "

It seems that you know the origin and the bottom of the old thing, so just right, please talk to the temple carefully..."

After a sigh of relief, Ye Xuan said that half of the words suddenly turned, and the faint glimmer of light flashed, showing a sense of excitement, even if asked: "I just heard what you said about the Hongmen Avenue, now, take these details first. Dao..."

Adults come from the vast world of nature, and naturally know that in the big world like the wilderness, the heavenly environment is the most powerful existence..."

"There are a lot of big worlds like the wilderness. After each Hongmeng era is opened, there will be a lot of success..."

Ye Xuan seems to be very interested in these things. The horns of the horns are awkward. After a short pause, they will all blame everything.

"Every time the Hongmeng era is opened, there will be 3,000 chaotic devils born. The big world like the wilderness is the big world that these chaotic devils have opened beyond the emptiness of Hongmeng..."

"Of course, the Chaos Devil is only three thousand, but the big world and the small world of each era are far more than this number. This is from the large number of forbidden land and the number of the forefathers that surround the banks of the Milky Way. I can see one or two."

"The strongest of these fierce beasts and the survivors of the Stars are almost always the masters of a big world or a small world!"

"There are so many worlds in these worlds, because some of them are opened up by the Chaos Devil, and more of the small worlds are opened up by some powerful innate beasts who have evolved the blood of Chaos Devil..."

But whether it is the big world opened up by Chaos Devil, or the small world opened up by some of the first generations of beastly beasts, the heavens and the earth are already the limit..."

"On the top of the heavens, it is Hong Meng, Hong Meng is the highest state of the void that we are now in. In order to distinguish it from the heavens, Hong Mengjing is also known as the avenue..."

"And the three thousand chaotic demon gods born at the beginning of each new era of Hongmeng Void are the avenues of Hongmeng."

These chaotic devils, also known as the seeds of Hongmeng, Hongmeng Kong once and for all launched a new era of Hongmeng, and they were born out as seeds. They hope to be born from them, even if they are in the void, they do not exist. Legendary level... supreme chaos! "

"Hongmen Avenue? Nothing is chaotic?"

The shofar is said here, Ye Xuan's singer is stunned, his heart is stirring, and he subconsciously whispers...

Before, for the big realm after the heavens, he was completely ignorant.

Nowadays, I suddenly know the existence of two big realms, which makes him feel like a surprise. Do not

After listening to the meaning of the shofar, in the two realms, the so-called supreme chaos, even in this piece of glory, seems to be just a legend.

That is to say, the strong man who has no chaotic realm, today's Hongmeng void does not exist, so the Hongmeng Avenue is the strongest realm of Hongmeng.

This is not a good news, because it represents this so-called avenue, in the void of Hongmeng, it is equivalent to the meaning of heaven and earth in a world of size. in

Among the worlds of size, the heavens and the earth are the limits. Therefore, Ye Xuan's konjac has changed his blood and can only produce effects below the heavens. No matter how strong his own cultivation is, he activates the konjac. After the \*\*\*\* magical powers, and after the ninth change, he is the strongest and can only achieve the 9th-order grand perfection of the absurd, and can not enter the heavens!

Therefore, in the void of Hongmeng, because the avenue is already the limit, here, Ye Xuan's own cultivation is the strength. In any case, he is the only ninth state of the konjac The perfection of the order is perfect! in

In a world of similar size, the heavens are suppressing, and it is impossible to obtain the power of the heavens by secret law.

In the void of Hongmeng, it is the avenue that is suppressed, and it is impossible to get the power of the avenue by secret law. eye

Next, Ye Xuan's own cultivation is the eighth step of the abandonment, activating the blood and magic of the body, and exerting it to the ninth state of change, he has already possessed the perfection of the heavenly ninth order. Such as

If the speculation in front of the speculation is correct, that is to say, even if his cultivation is the strength to break through the first order, the realization of the ridiculous ninth-order great consummation, and even a breakthrough, so that his cultivation is truly into the heavens...

However, in the ninth state of the change of the konjac, his cultivation is still only the same as the current peak force. It is only the perfection of the ninth stage of the heavens and the earth. It is impossible to upgrade and get the power of the level of Hongmeng Avenue. . brain

After flashing all of this, he suddenly frowned and fell into thought...

Since I entered Hongkong's void, I have no longer been suppressed by the heavens. The kind of grievances that I faced in the face of the hunger and the sky in the vast world of the wild will never appear again. can

He never imagined that it was not long before, and a similar situation came. only

The difference is that when he was in the great world of the wilderness, he faced the suppression of the heavens. When he met the strong heavens, he could only succumb to retreat. but

When this piece of Hong Kong is empty, he is facing the suppression of the avenue, and the strong person who can make him succumb to retreat, from the previous heavenly environment to the present Hongmeng avenue...

Although so far, he has not heard of the existence of the Hongmen Avenue level in the same level as the three thousand chaos demon gods.

The vast waters of Hongmeng are too deep, and the existence of this level may be rare, but it is absolutely impossible.

For example, Yang Jiaoxian said that the elders of the family behind the eighth-order worms in the forbidden land are likely to have entered the so-called Hongmeng Avenue...

It's really a dog, I thought it would be rampant, but now it seems that I still have to hold the tail and be a man. Although he has not encountered the existence of the Hongmeng Avenue, since the Hongkong Void opens every era The three thousand chaotic demon gods that are bred are all strong at this level. Then, the horror of this so-called Hongmeng Avenue can be imagined.

It seems that the Danish deduction and refining of the thirty-first-class Baodan after the 30th-level Tiandao Baodan should also be put on the agenda.

Now he knows that after the Heavenly Kingdom is the Hongmeng Avenue, so the thirty-level Baodan should be called Hongmeng Baodan. Both

However, in this piece of Hong Kong, any existence can not be forced to break through the avenues by secret law and magical power, and gain the strength of the level of Hongmeng Avenue in advance. Then, in order to not be bullied, Ye Xuan's only choice is to make himself true. As a strength, it officially entered this realm. One

With this in mind, he has a direction in no time, no matter what, let his own cultivation become the real strength to formally enter the heavens and then say. Of course

After that, we will gradually promote the perfect Danfang of the 30th-level Hongmengbaodan, and collect the other materials needed for the blood and the Danfang, and finally refine the 30th-level Hongmengbaodan. One

Once the true self-cultivation is the strength to reach the heavenly and ninth-order great consummation, after swallowing, it will be able to formally enter the Hongmeng Avenue...

Of course, all this is simple, but it must be done. Obviously it is not a day or two. The difficulties and obstacles must be unimaginable. But for Ye Xuan, at least the original road is lost. It became clearer and had a direction. Such as

This is enough!

After some thoughts, his heart gradually became firm, and there was no more confusion. The original turbulent mood slowly calmed down and temporarily put this matter behind his mind.

Between the thoughts, he quickly remembered the supreme chaos that the horned horns said.

What he meant, the three thousand chaotic demon gods born at the beginning of each new era of Hongmeng Void are the avenues of Hongmeng. this

In addition, these three thousand chaotic devils are also known as Hong Meng seeds!

Hongmeng Void started the new Hongmeng era again and again, and they were born out as seeds. They hope to be born from them, even if they are in the void, they do not exist. They belong to the legendary level of supreme chaos!

This discourse allows Ye Xuan to have a clearer understanding of the so-called Hongmeng era. If the whole Hongkong void is regarded as a living body, each era will be a reincarnation of this living body.

And the reason why it is recurring is to make its own life level change.

The ultimate goal of this kind of transformation is that there is no chaos... Hong Meng is empty and wants to evolve into a higher level chaotic void. it

At the beginning of each reincarnation, three thousand chaotic devils, like the seed, were born, in order to create a strong man from the supreme chaotic environment.

This kind of reincarnation should have been countless times, but every time it failed, among the three thousand chaos demon gods born in each era, there is no smooth evolution of a supreme chaotic level.

Therefore, its life cycle continues, and the key to the evolution of supreme chaos should be within the mysterious mother star of the Milky Way...

Just guessing, but Ye Xuan is roughly in mind.

Chapter 5116: The old man is unwilling!

After he thought about it, he no longer struggled. The supreme chaos was too far away from him. The urgent thing at the moment was to make himself officially break through to the heavens.

However, he only broke through not long ago, so he must temper himself in the war and welcome the opportunity to break through again. miss you

Here, Ye Xuanyuan flashed in the cold, whispered: "Just call the hunting plan, with the \*\*\*\* battle to grind itself, but also harvest ... Tiandao blood fine!"

I have seen the two great realms after the Heavenly Kingdom, and have learned the truth about the reincarnation of Hongmeng Kong. At least after a rough guess, the confusion of Ye Xuan's heart disappeared, and the dawn became firm again.

With regard to all this, he will soon be no longer entangled, and supreme chaos is too far away from him. The immediate priority of the moment is to let himself be officially broken into the heavens.

However, he did not break through not long ago. If he wants to break through again in a short period of time, he must temper himself with the big battle and thoroughly digest the income of the last breakthrough.

Therefore, Ye Xuan thought of a new plan, named hunting, meaning to find the meaning of the war of the heavens and the strong, he wants to temper himself with blood, and at the same time can also harvest the blood of the heavens, can be said that ... two birds with one stone!

"Right, what did you say about the existence behind the eighth-order Zerg?"

The distracting thoughts of the heart were put away, Ye Xuan turned to look at the horned horns on the side: "Do you know the specific details?"

I don't know if it's specific, even the Zerg predecessor is a starry zerg, and the little ones don't know..."

Seeing Ye Xuan once again asked about this matter, Yang Jiaoxian did not dare to conceal, even if he answered: "The small thing is only occasionally heard by him, saying that there is a family of elders

behind, as early as the endless years ago It has already entered the peak of the ninth-order Great Perfection, and later went alone to leave the worms forbidden, to find a retreat, and try to hit the Hongmen Avenue after the Heaven."

When the Zerg predecessor left, there was only one heaven in the forbidden land, that is, the old man of the eighth order. At that time, the small ones were just newly entered into the ancient powers, and they did not enter the forbidden land. So I have never seen this person..."

Words, Ye Xuan's face showed disappointment, but there was vigilance in the depths of the bottom. Such as

Today's shofar is already the existence of the first-order heaven and earth. When he first entered the ancient powers of the wild, he must have been extremely far away. According to the general cultivation speed of the strong stars in the sacred air, it is at least hundreds of thousands of years. The old thing is gone.

That is to say, before the hundreds of thousands of years, the elders of the family behind the eighth-order Zerg are already a powerful peak, and they have already entered this territory for a long time, and they are all ready to hit the heavens. The Hongmen Avenue is just around the corner.

It is definitely an extremely ancient existence. In the hundreds of thousands of years, he is very likely to have successfully broken through and entered the Hongmen Avenue after Tiandao...

However, it is also possible that this person has not yet broken through, because the mob is forbidden to be his old nest. At that time, he left from here, looking for a retreat, and hitting the Hongmen Avenue after the Heaven.

In this case, if it is already broken, it should be back. miss you

At this point, Ye Xuan was relieved, as long as the old guy has not broken, still in retreat, then there is no need to worry about his threat. leaf

Xuan has various levels of Baodan, the speed of cultivation is unprecedented, and it may not be known that he can break through the Hongmen Avenue after he broke through to Heaven. "

OK, you can leave now, but this temple warns you that everything about the temple, you should be tight-lipped, don't preach outside..."

After putting this matter in my head, Ye Xuanyuan flashed in the cold, and once again looked at the shofar, and warned: "Otherwise, no matter where you are, this temple has its own way to pick you up and shoot!" "he

Previously, when the magic insects banned the land, they promised to let him go and keep his life. This kind of thing Ye Xuan would not be fattened, let alone the \*\*\*\* worms are so timid and afraid that they will only be able to cultivate their strengths. First-order, for Ye Xuan, he really does not pose any threat.

It is extremely uneconomical for a person to renege on such a threatful existence, which is a very uneconomical thing. Ye Xuan naturally understands how to decide. "

Adult, are you going to drive me away? "

Hearing the words of Ye Xuan, the horns of the horns are slightly shocked, and the face instantly shows a panic. Hurry

Then he said: "There is no place to go now. The entire mob is forbidden. If it is only a small walk, once it is discovered, it will lead to doubt in an instant..."

The five old guys have recently teamed up to deal with the adults, and many of the old monsters on the right side of the left bank have teamed up. If the old guys know that the little ones are still alive, they must be chasing after them, and the small ones have no way to escape. , nowhere to hide..." said

When he came here, he suddenly thought of something. He flashed a glimpse of the man, and then said: "Right, isn't the adult from the right bank? Do you want to hide the small one in your treasure, and wait for the adult to return? After the right bank, how about releasing the small one?"

"From the left bank to the right bank is too far away, with a small current cultivation as the strength, at least two months or more, along the way will pass through the right bank of the left bank, a strong forbidden land, it is very possible to encounter those old days guys....."

"The adults are the peaks of the nine-ordered perfection. They are naturally fearless. They can be small but not okay. Only the first step of the heavens is only the first time. If they are small, they will be arrested on the spot. Lived..." said

At this point, the shofar no longer speaks, but it looks at Ye Xuan with a bitter face, and the light that is revealed in the eyes is all about pleading...

"you....."

Seeing this guy is like this, Ye Xuan is speechless.

But think about the horn horn fairy from the beginning is also honest, and very fit with himself, plus this old guy is also pitiful and speechless, anyway, is to take him to the right bank, not delaying what, for a while Ye Xuan really can't say the words of rejection. "

If it is, then I will help you once again..."

After a little indulging, he shook his head and smiled, but he replied: "But the words tell you that the temple will not leave here for the time being. There are other things that can't be done. You have to go back after everything is done, so if you are I am not going to leave now, I am afraid I have to wait for a short period of time in Baoding's interior space..."

no problem, no problem....."

At the sight of Ye Xuan, the horned horns were full of joy, and they waved their hands again and again: "That is Shennong Baoding, and it is still in the body of adults. This is naturally the safest place..."

The meaning of the words, it seems that quite a bit of forever left in the Ding space to seek shelter, listening to Ye Xuanton turned his eyes. "

call out! ""

call out....."

After a sigh, Ye Xuan waved the horns of the horns into the space inside the Shennong Baoding, and then rushed out of the star nucleus. Without hesitation, he directly tore a crack in the void and stepped into it.

The next destination is the floodplain. He is going to see if the green eyes are not there, and the previous injuries have already recovered...

In the days after, he quietly touched the flooded land, and saw the dead silence in his eyes. In a moment, Ye Xuan was stunned on the spot, and he suspected that he had come to the wrong place...

In the darkness of the darkness, in a parallel void connected with the hollow of Hongmeng, an elliptical giant star is standing, revealing a powerful but powerful atmosphere...

Parallel voids are actually the same as the nature of endless turbulence, but they are more stable, and there is no endless stream of emptiness in the void.

But in fact, there is nothing, even a small cosmic dust, and the huge blue eyes that stand in this emptiness in the sky, it is the green eyes. This

The dark void that is nothing like the emptiness is the secret space that he opened up with the great gods in the void of the void of Hongmeng. On the weekdays, the green eyes of the heavens and the Taos are closed here.

Among the geniuses of his majesty, only the ten powerful heavenly savage beasts headed by the \*\*\*\* souls are qualified to enter here, only to know the coordinates of entering here...

After returning from the endless dark void in front of the right bank of the Milky Way, Qingtian Tiandao Qingyan entered here for the first time. Now that the time has passed more than two months, his injury has just fully recovered...

"Oh!"

"Oh..."

At this moment, with the sound of crisp and fierce cracks, in the distance of the dark void, there was a void crack.

Then there was a figure that rushed out of the crack, big and small, but even the smallest figure was in the millions.

Just a few shorts of interest, there were eight void cracks in the darkness of the void, and eight figures from it. This

The shapes of the eight figures are different. They are all starry beasts. The atmosphere radiated from the body is extremely old and very powerful. It is the eight heavenly savage beasts under the eyes of the ridiculous heaven and earth. The blood of the soul is in it. flood

The Tiandao generals under the green eyes of the ridiculous roads had a total of ten, but not long ago, the elite squad that was sent to the right bank of the right bank by the heavens and blue eyes was completely annihilated. he

The two-headed generals of the blood-winged tigers and the golden-eyed beasts were also degraded and never returned. package

The same is true of the Furnace, and it is no longer the eye of the wilderness. "

Oh..." with

The eight-headed savage beast was called in, and the emptiness of the sky in the central area of the void was also slightly shocked. The low-pitched humming sounds, the faint green glimmers, this huge blue vertical eye Open up...

"This time, I lost a lot..."

The huge vertical eyes are blue and faint, and the eight heavenly savage beasts gathered around are surrounded by a circle. This is how to meet: "Not only the blood tiger and the golden eye beasts are falling, even the furnace All have been lost, it can be said that... stealing chicken does not eclipse the rice!"

In the distance, the eight heavenly savage beasts of the banned land are facing each other, and all of them are chilling. They can feel the great anger of the green eyes and the unprecedented anger. It is unprecedented.

"I have learned that not long ago, Ye Xuan, the master of the Temple of the Devil, descended on the dragon whale, and the dragon whale in the eighth heaven of the heavens was already smashed by him..."

After the meal, the words of the sorrowful sky and the green eyes sounded again, revealing the endless anger: "Obviously, he is retaliating, and even more disturbing is that in a short time, Ye Xuan's cultivation has been Breaking through again, it is now the peak of the ninth-order grand perfection..."

In his style of acting, the dragon whale ban is just his first stop. Then he will definitely visit my ruin..."

This is an opportunity, but at the same time, it is also a tribulation for my floodland. A little careless, the ancient wild animals in the forbidden land will be degraded..."

"Go, all the ancient wild beasts in the forbidden land, the loyal warriors who have followed my frame long before the endless years, all lead to this parallel void..."

This is the strength of our team. In the future, the conditions of the Galaxy Star are open. They are very likely to enter the Milky Way, and they will compete for gas transportation. They must not be sacrificed in vain..."

"As for the creatures of the three major stars in the world, let them stay there, and let the souls, you use the secrets of the blood, and shackle their gods with sorrow and sorrow, and fall into a sleep..."

At the end of the day, the green eyes of the ruins of the sky are no longer sounding, just like the huge vertical eyes of the stars are slowly closing...

.....flood

Barren land! "

Oh! "

"Oh..."

The crisp and fierce cracking sounds, eight cracks appear in the emptiness of the starry field in the forbidden land, and eight powerful ancient beasts are drawn from them. All of them are the existence of heaven and earth. It is the eight heavenly generals under the eyes of the heavens.

"Roar!""

Oh..."

"Hey..."

Almost at the moment of the advent, the eight beasts of the beasts had been rumored to be rumored. In the abandoned stars in the depths of the forbidden land, the horror and screams of the sky were immediately heard. no

A number of ancient wild animals rushed out of the stars, overwhelming, all of them rushing toward the eight cracks, and they will enter the parallel space of the retreat of the blue sky and the green eyes to avoid...

There are too many beasts, and this scene lasted for three days. The eight voids were closed. The entire floodplain, except for the battleship ocean in the void on the left side of the star field, and the countless worlds in the massive battleship. Yes, it's empty.

"call out....."

At this moment, the \*\*\*\* figure of the soul is quietly appearing, and the \*\*\*\* mangling flashes in the middle of the sky, and immediately to the left side of the star field, the boundless battleship ocean... spurt away! Look

In this scene, in the ocean of the ship that can not see the end, there is a sudden sound of silence, revealing an endless sense of sorrow and fear...

The second universe of the \*\*\*\* Yi, Qingpeng, Warrior, Yinyin, Barbarian, Golden Eagle, Caishui, Greedy and Shuling are the great powers and ruins of the nine ethnic groups. The old people, at this time, are gathering in a million-meter-diameter superstar plug.

Nowadays, the look has changed dramatically, such as the enemy!

There is also a strong wave of volatility in the other control cabin of the Stars. The hundreds of ridiculous monsters and the ancient powers gathered here are all from the first cosmic plane, but the original first cosmic servants. The ethnic group of the family...but

Now, it seems that I realize that there will be ominous advents. These ridiculous old monsters and ancient tycoons, under the madness of their bodies, all face a desperate color...

In addition, in the immortal star of the Third Cosmic Terran camp, the high-level of the immortal emperor and other Terran technology camps, as well as the high-level camps in the heavenly palace of the energy star-studded hustle and bustle also gathered together. If

It is counted as the former Wanluo Federation of veterans in the glorious temple of a giant starry sky. The ancient powers from the third universe gathered here are as old as the Supreme Supreme.

But now, all of them are exposed to the hustle and bustle, pale face, as if the real doomsday catastrophe is about to come..."

call out....."

As the ancient wild animals in the entire floodplain have all migrated, the \*\*\*\* figure of the soul is silently appearing. Under the flash of blood, the endless battleship to the left of the star field is immediately The ocean, lasing away... this

What is meant by a scene is that no one knows, but obviously it can never be a good thing. brain

In the midst of these thoughts, this piece of warship, which could not be seen at the end of the battle, immediately sounded a sigh of relief, revealing an endless sense of utterance and fear. Place

Some people are exposed to the hustle and bustle, and their faces are pale, as if the real doomsday catastrophe is coming soon..."

Oh..."

In the blink of an eye, the \*\*\*\* figure of the soul has been spurred, hanging over the overwhelming warship over the ocean, without hesitation, no more nonsense, a glimpse of the glory In a moment, I will scream at my hair...

This is the secret that he provokes the blood of the body, the sound of the soul! sound

The wave is invisible, but it has the incomparable power of the soul, which directly affects the soul level. At this moment, the blood and soul secret method is even more powerful, and the power is more obvious.

In an instant, an invisible wave of sound waves swept away and spread away from the ocean of endless warships beneath the blood of the soul. First

The two great powers and the ruins of the nine ethnic groups, such as the Heilongjiang, Qingpeng, Shishi, Yinyue, Barbarian, Golden Eagle, Caisong, Greedy and Shuling The old people are mad and shocked, and they are desperate...

"God, this is the blood of the head. Do you want to shoot us?"

The previous speculation is correct, the heavens are ruthless, I have always been just the pigs and dogs that he has raised, and they are not in the eyes..."

This is a strong person in heaven and earth. I am actually waiting for the ants under these heavens. Why do I need to do this..."

Roar.....""

The old man is unwilling..."

At the same time, hundreds of ridiculous geeks and ancient geniuses of the original first universe slaves were also eager to see, all roaring...

"The shit's heavenly will, he has been enchanted, otherwise, as a heavenly way, how can he rule the ruling of the rule and the spirit?"

"It's useless, and the words that are fierce are just venting anger. In the face of the strong people in the heavens and the way, my struggles are simply futile..."

Roar.....""

If you can't die, the old man will definitely be awkward in the future, otherwise it will be difficult to eliminate the hatred of the heart..."

In the immortal stars of the Three Cosmic Terran camps, the high-level elites of the immortal emperor and other Terran camps, as well as the high-level faction camps in the heavenly palace of the energy star, and the original in the glorious temple of a giant starry sky. The veterans of the various levels of the Federation of Varo also screamed out..."

Come, this moment, finally came..."

Looking back at the past, it's just like a joke. When I have fallen into such an unbearable situation, even the memories in my mind are laughing at myself..."

Repenting, I really regret it. The sacred heavens we followed have always regarded me as an ant, a dog, no one..."

"Booming..."

"boom!""

Oh..."

With these utter utter untold anger and screams, this piece of the sky can't see the end of the battleship in the ocean, countless life-like creatures have closed their eyes, their bodies slowly stumble, the body's life breath It seems to have solidified. This

It is the blood of the souls of the souls, their souls have been banned, just like living dead, even the walking dead is not as good.

These endless living creatures from the three major star planes of the world were indeed abandoned by the sacred heavens and blue eyes, leaving them here as a bait to attract Ye Xuan. but

Then there was a sharp and unstoppable sound, the immortal nine stars, the heavenly palace, the splendid temple, and the hundreds of great powers and ruins of the original first universe slaves.

There are also the great powers and shortages of the nine major groups of the second cosmic bloody, Qingpeng, warrior, silvery, barbarian, golden eagle, Cailu, greedy wolf and tree spirits. The super-star plugs that the Zunzuzu's old people were all dragged by an invisible force rushed out of this endless battleship..."

Oh..." Qing

The crisp and fierce cracking sounds, a huge void crack appears, the immortal nine stars and the heavenly palace, and so on, with the power and absurdity of the major tribes and forces in the three stars of the world. Some of the high-ranking tops have all entered the middle, and disappeared in the blink of an eye. Look

They still have a certain value of use. The wilderness of Tiandao has left some elites and will be useful in the future...

In the blink of an eye, the incomparably flooded forbidden land was completely immersed in death. In the abandoned stars, there was no life at all, and the shadows of the ancient wild animals were not visible.

On the left side of the star field, this endless battleship in the vast void of the sea, although there are countless life-like creatures, but one has long been all soft on the ground, although there is a breath of life, but it is like a soul, no life. The agility, no more awareness...

.....

"call out!"

"call out....."

With the wave, the shofar was once again taken by Ye Xuan to the space of Shennong Baoding.

Then, his body shape completely rushed out of the star nucleus, without hesitation, directly tearing open a void crack and stepping into it. press

According to his plan, the next destination is the floodplain. He is going to see if the green eyes are not there, and whether the previous injuries have recovered. One

The road was slow and rushed. After seven days, Ye Xuan was quietly touched into the ruined land. At this time, he was the violent form of the body. but

However, it has already activated the magical secret of the perfect shock, the body shape is hidden, all the air machine converges, even if it is the same as the peak of heaven, it is impossible to see a half-point.

However, after entering the inside of the banned land, the moment in front of the scene made Ye Xuan stunned on the spot and almost suspected that he had come to the wrong place..."

Old guy, it seems that it is ready, maybe, this is another game..."

In the whisper, Ye Xuan's knowledge swept through the vast flood plains, and then the middle of the cold flashed, and then turned and flew away from the forbidden land. he

At the end, I didn't intend to shoot the countless people in the ocean of this battleship. They were indeed abandoned. But with Ye Xuan's current level of cultivation, they also don't see it..."

Oh..."

Between the eyes, his body shape turned into a mans from the edge of the starry field of the floodland. When he was about to tear the void away, the dark void in front of him suddenly changed.

Oh..." low

The incomparable humming sounds, and a round of black and gold big days suddenly emerges from the void without warning. It rises up and illuminates the dark void...

Chapter 5117: Ranked tenth on the left bank

In the middle of the left bank of the Milky Way, close to the boundary line of the right section...

In the distance of 100 billion miles away, it is a floodland. At the moment, this piece of emptiness is dead and there is no movement, but in fact it is a torrent of turbulence. At least there are more than thirty powerful beasts in heaven and earth. A piece of void invisible in the parallel void of the ditch...

These 30 or so heavenly beasts are all from the strong forbidden land on the right bank of the left bank. This includes the fact that Ye Xuan left the magic insects forbidden after he left, but he did not show up. The six guys who went quietly after the silence...

In the dragon whale and the wild sky, the green eye was concealed by Ye Xuan, almost fell under the slash of Hong Meng, and then returned to the left bank. After secretly spreading the news, the more than 30 heavenly strongmen have contacted each other and secretly formed. The alliance. when

At the time, there was the existence of the dragon whale grotesque in this alliance, so the sorrowful sky and the blue eye did not join. Not long ago, it was almost counted by Ye Xuan, and he and the dragon whale grotesque had already formed a gap, and the two could not Also appeared in a league. root

I can't get along with each other! This

Among the temporary establishment of the right bank Tiandao League, it also includes the five celestial zergs outside the staghorn. but

Nowadays, both the dragon whale and the five heavenly zergs have fallen, and the existence of their \*\*\*\* bombing is the only goal that the alliance is looking for, and wants to give birth to oysters!

Moreover, since the fall of the dragon whale, Hongyan Tiandao Qingyan has actively found this Tiandao Alliance and asked to join it.

After all, he is the powerful existence of the eighth order of heaven and earth. Although it is not the peak force in the league, it is also the top standing. In addition, Ye Xuan, the master of the magic hall, originally came from the great world, all the people. They all think that the green eyes of the wilderness are the best for him. more

Moreover, the dragon whale has already fallen, and naturally there is no need to shut the green eyes of the wilderness. plus

After entering the alliance, the Hongyan Tiandao Green Eyes did make a contribution. He suggested that the main body of the Devil, Ye Xuan, after killing the dragon whale, with his usual style, will definitely return to the floodplain and retaliate.

The matter was recognized by more than 30 other heavenly beasts in the league.

Immediately afterwards, the Hongyan Tiandao Qingyan took the initiative to propose that the lord of the ruins could be used as a bait to bring the Lord of the Temple of the Devil, but the war could not be carried out in the flooded ban, because the corporals under his account were only temporarily lost. With

After that, including the floods of the heavens and the blue eye, these more than 30 heavenly beasts ambushed in the void from the tens of billions of miles away from the edge of the forbidden land, and broke into the parallel void, waiting for the Lord of the Temple. Arrival... leaves

When Xuan came, it was directly torn from the void, so more than 30 heavenly beasts crouching in the void beyond 100 million miles away from the forbidden land did not feel.

However, as he entered the floodland, the green eyes of Tianhong knew his arrival in an instant. In the first time, he secretly communicated and informed other alliances that Tiandao was ready. Once Ye Xuan, the master of the temple, walked out of the floodplain, he immediately launched... .."

call out....."

It was also at this time that after entering the floodplain, Ye Xuan realized that something was wrong. Ye Xuan retired from the forbidden land in the first time.

His stature was turned into a mile from the edge of the starry field of the floodland. When he was about to tear the void away, the dark void in front of him suddenly sprang up..."

Oh..." low

The incomparable humming sounds, and a round of black and gold big days suddenly emerges from the void without warning, and rises up and illuminates the dark void.

"Oh..."

call out! ”

"Roar!"

"Hey..."

With the rise of this black and gold secret, there was a lot of noise coming from the void.

There are both crisp and cracking sounds, as well as sharp and unpredictable sounds of emptiness. There is also a lot of arrogance and screaming. For a time, the empty air in the first moment is still smashing.

Including the sorrowful blue sky, more than 30 heavenly beasts who had been crouching in the parallel void, all without exception, appeared at this moment. but

The ridiculous eye is just coming alone. The eight-headed savage beast general that he has left is the future. He should be crouching in the parallel void of his retreat. After all, this is the last team's strength in the sky. It is impossible to lose easily.

Nowadays, there are more than 30 powerful existences of heaven and earth. Basically, they are all in the middle of the heavens and the late days of the heavens. There is even a peak of heaven and earth that is full of nine-order perfection. The eight beasts in the flooded land will not come. The meaning is really not big...

The only peak of the sky in the league is that it is rising at this moment, pouring out the endless black gold rays, covering the black gold day of the tens of millions of miles. it

In fact, it is a three-legged gold-wool, three-legged gold-wool is also a kind of congenital beast, the attribute is fire, which is extremely powerful in the congenital beast.

This three-legged Jinwu comes from the Jinwu forbidden land on the right bank of the left bank of the Milky Way. He is not only a peak of the nine-step grand perfection, but also a top-ranking existence among many peaks on the left bank. It is not the same. in

On the left bank of the Milky Way, the remains of the remnant of the ancient people are not mentioned. It is only the forbidden land of the beasts ruled by the starry beasts. The strength has reached the peak of the ninth-order Great Heaven, and there are dozens of them. . but

The strength of this three-legged Jinwu is ranked in the tenth place of all the heavenly beasts on the left bank. package

Like the Jinwu banned land he sits in, in the forbidden land of all the beasts on the left bank, it is also ranked tenth...

You must know that the mobs are forbidden only in the same area as the flood-free land. They are only about 50 to 60 people in the 100-year-old, because the most powerful tyrannosaurus in the forbidden land has left before the endless years. Because there is no news all the time, it does not enter the rankings... and

This three-legged Jinwu, although not as powerful as the peak zerg who left before the endless years, has entered the ninth-order grand perfection of the heavens before the endless years. it

This is the heavenly will of a big world called Jinwu. Before the whole world of Jinwuda collapsed and was swallowed up by the endless stream of emptiness, this three-legged gold devours all the stars in the big world. positive

Because of this, he was invited by more than 30 powerful Tiandao in the league to join in, as a leading figure to deal with Ye Xuan. because

For Ye Xuan's nine-color flame sea, only the endless star has been swallowed up, and even his own body has been turned into a fierce black gold day, he can resist...

"Hey..."

At this moment, with more than 30 heavenly powerhouses including the blue sky and the green eyes, all the powers of the heavens and the strong have emerged, and the power in the body is pushed to the extreme, and the invisible heaven and the power are overwhelming, and the void is tens of billions away. It was a mess, and the low humming sound was shocking...

"Hey..."

At this moment, with more than 30 heavenly powerhouses including the blue sky and the green eyes, all the powers of the heavens have emerged, and the power of the body has been pushed to the extreme, turning into an invisible heavenly pressure and overlapping pressure...

Within a trillions of miles, the whole piece of vast and innocent emptiness instantly fell into full chaos, and the low humming sounds, the frequency is very fast, it is shocking!

Ye Xuan's whole heart sank to the valley, and his face was gloomy...

More than ten elites of heaven and earth will repair the whole body into a comprehensive urging, and turn it into a super-superimposed pressure. It is enough to completely empty the void into chaos. It can not only be teleported, even the interstellar coordinates attached to the system of Ye Xuan's body. Jumping ability, can't activate activation again... first

When the magic wolf in the right section of the left bank was banned in the forbidden land, the hunger and the heavenly eye gathered hundreds of great powers and ridiculousness, and the existence of more than a dozen heavenly environments, and this way they trapped Ye Xuan.

In the end, Ye Xuan made a great decree, and in a short period of time, he killed two or three heavenly beasts in a short period of time, shocking all directions, and letting a lot of power and despair retreat under fear.

The number of invisible pressures that caused the overlap in the void is getting less and less, and finally the star-shaped coordinate jumping ability attached to the in-vivo system is activated in a shocking manner.

Previously, when the dragon whale banned the land, after Ye Xuan murdered the dragon whale, the ten-headed beast that was trapped outside the nine-color flame ball at the time was actually the opportunity to be banned in the devil. The scene that happened inside reappeared. Do not

They didn't know about Ye Xuan. They didn't deal with each other. Everything was just a hearsay. There was no deep understanding. So there was no defense to Ye Xuan, who didn't know what to do, and left the traces of secrets. Missed the opportunity to let Ye Xuan go again...

But in the same situation, it is obviously unlikely that it will appear again today.

On the one hand, the green eyes of the riddled roads have already appeared. He knows Ye Xuan very well, and even has the painful lessons of the magic wolf banned in front. Therefore, at the moment, Ye Xuan's appearance is over, and these 30 powerful powerful murderers The beast, the first time to the body's repair as a comprehensive urging, into an invisible pressure and overlap, so that the void is in complete confusion. and

Moreover, the reason for doing this is that the sorrowful eyes of the sorrowful sky must have been eloquently told to other beasts who have joined forces with them. Therefore, unless they are forced to do so, they will never force the body to fully mobilize and evacuate the invisible pressure. more

What's more, when the devil wolf was in the forbidden land, including the wild blue sky, there were only a total of twelve or three heavenly beasts. Nowadays, there are more than doubled, and the total number has reached 33.

Among them, it even includes a three-legged Jinwu that has the strength and the peak strength of Ye Xuan.

This directly led to the invisible pressures that were dispersed in their bodies, and then they were completely immersed in the void of complete chaos, reaching an astonishing trillions of miles.

The critical situation and strictness of the situation, compared to when the magic wolf banned the land, it has turned over several times. For Ye Xuan, this time, I am afraid that it is really necessary to fight to death.

Oh..."

Between the movements, the slight and undetectable faint sound broke out, and a nine-color glare emerged from Ye Xuan's body.

In the midst of the storm, it was only an instant, and it turned into a vast expanse of flames. In the void, there was an endless scream of screaming, and the short-lived, low-interest, this nine-color flame swept through the air. Condensed into a huge nine-color flame ball...flame

The diameter of the ball is not very large, only less than 100 million miles, and the body shape of Ye Xuan is held for the time being. Such as

Today, although Ye Xuan's peak strength has reached the peak of the ninth-order grand perfection, but in the face of thirty-three powerful heavenly beasts, they dare not take it lightly.

Especially in the case that this kind of emptiness has been completely confusing under the overlap of horror and threats, it is impossible to activate the interstellar coordinate ability attached to the internal system, and this is especially the case. Both

However, he must first ensure that he is innocent. Otherwise, once he is slightly injured, the situation will become more and more critical in the face of the repeated attacks of thirty-three powerful heavenly beasts. Just like falling into a vicious circle, eventually falling into a quagmire, you can't dial it...

At this time, with Ye Xuan waved a nine-color flame sea, condensed into a huge flame ball with a diameter of 100 million miles to protect himself, and the thirty-three heavenly beasts in the virtual sky suddenly stunned.

Among them, except for a few others, almost none of them have ever seen Ye Xuan. Everything about him is only heard. Since it is a hearsay, then for some things, there will naturally be reservations. complete

In fact, the rumors of Ye Xuan's heavy treasures, Xingqiang Shentong and Anti-Sky Secrets Committee are too many. Under normal circumstances, it is really difficult to believe that all of this is concentrated on one person.

But now, I saw the Shennong nine-color flame with my own eyes, so at least confirmed this thing, and the Shennong nine-color flame is closely related to Shennong Ding. Since the nine-color flame is here, then the rumor of Shennong Baoding in Ye Xuan's hands is basically Can be determined.

These two points alone are enough to make these greedy heavenly beasts move.

"Roar....."

"Shen Nong nine-color flame? So, Shennong Ding really is in your hands..."

The turmoil was slightly up, and the sky was high in the distance. In the huge black gold day, there was also a hegemonic madness, followed by the voice of God, and a deep heartfelt Invisible pressure: "So it seems that the rumors related to you outside the world should not be much different..."

Shennong Baoding! The legendary nine-color flame! There is also the Xing Shen Shen Tong Tian Gong! And it can make itself a big realm of skyrocketing, and there is no time limit for the anti-sky secret..."

"Including the mysterious tricks that are quiet and silent, and that are not left in the traces..."

"Oh, yes, it is said that there are also Tiandaobao medicines in your hands, as well as the innate five-line medicine, even the Hongmeng medicine that helps the Hongmeng Avenue after the heavens. It is said that you are already working on refining. Up..."

The low voice of the gods came from the black gold day of the dark night, and the turmoil around the void was instantly overwhelming.

"All of this is actually happening to you alone. I have to say, violent... you are really against the sky!"

Here, the voice of the three-footed Jinwu in the black gold day was slightly louder, and then when it sounded again, the voice suddenly turned sharply: "Unfortunately, the flame ball that is only condensed by this nine-color flame is probably still I can't protect you, at least, in front of the deity... absolutely ineffective!"

"Hey!"

Rumble..."

After the last sentence, the three-legged Jinwu made a terrible whistle. From the black gold day of the high-hanging dark night, there was an endless black flame storm and a roaring roar..."

All of this is actually happening to you alone. I have to say that you are really arrogant, but unfortunately, just by the flames of this nine-colored flame, I am afraid I will not be able to take you. Protect..."

Here, in the black gold day, the voice of the three-legged Jinwu is slightly louder, and then when it rings again, the front has suddenly turned sharply: "At least, in front of the deity... absolutely ineffective!"

Hey! "

"Booming..."

The last sentence has not yet fallen, and the three-legged Jinwu sent a terrible whistle.

From the black gold day of the high-hanging dark night, there will be an endless black flame storm, roaring and roaring... too

It's fierce, and the power is even more powerful. The scene in the void is shocking. A black flame with a diameter of 100 million meters is like a ruin in the river. From the far-away high-altitude black gold day. Leaving it, the blink of an eye spanned 200 billion miles of the void, to the front of the nine-color flame ball shrouded in Ye Xuan's body...

Although the Shennong nine-color flame is amazing, but the black flame Dajiang that hangs out from the black gold day is also extraordinary, this is the black inflammation.

Black Gold Japan is a heavenly will of a big world called Jinwu. Before the Jinwuda world collapsed completely and was swallowed up by the endless stream of emptiness, this three-legged gold devours all the stars in the big world, and then condenses. In order to eliminate the black inflammation, the body of the three-legged Jinwu is transformed into this round of black gold...

Even though the black inflammation is far from being comparable to the Shennong nine-color flame in other powers, for example, the Shennong nine-color flame can refine the supreme treasure, but the annihilation of black inflammation only destroys the power, refining the treasure Things like that can't be done.

But it is precisely because of its power alone, just destruction, the flame energy is like a violent violent world. Therefore, if it is used to launch an attack, the blackness of the black gold in the big day is definitely not weaker than the Shennong nine-color flame.

In addition, this three-legged Jinwu is also the peak of the nine-order grand perfection, even in this realm of the stability is still more above Ye Xuan.

Therefore, now he is fully urging the black gold big day, just like the black flame river that the general river dumped from the Nujiang River, instantly smashed the nine-color flame ball that shrouded the shape of Ye Xuan..."

boom! ""

Rumble..."

Oh..." This

At one moment, the black flames formed by the annihilation of black inflammation collide with the Shennong nine-color flame that condenses into a flame ball. Although it is comparable to the flame power, no one has ever suppressed it, but a huge flame ball. However, it was washed away, and Ye Xuan's figure appeared. Virtual

In the air, the nine-color flames after the collapse of the flame ball and the black ruined black inflammation are everywhere, and the horror of the scene is simply horrifying.

Such a scene made Ye Xuan unexpectedly, and the situation that was not so good fell to the valley in an instant. Both

Even the protection of the nine-color flame ball can't be counted, so today, if you want to get out of danger, the only choice is to kill a \*\*\*\* road. brain

These thoughts flashed in the middle of the violent screams, and the sound of the gods, the incomparable voice of the gods, came out instantly, and the voids within the tens of billions of miles were clearly audible: "Would you like to fight? , the temple... to accompany the end!"

Oh la la..."

The voice was degraded, Ye Xuan did not hesitate, and the violent figure disappeared between the thoughts, but the imaginary water in the empty space of the original lame was immediately heard. he

The figure of the body collapsed and turned into a \*\*\*\* sea. It shrouded a corner of the universe and revealed the meaning of endless blood..."

Roar! "

"Roar!"

"Hey..."

Almost at the same moment, from the three different directions of this vast sea of blood, there was a sudden roar of anger and screaming in the air, and there were three huge figures in the sea. , in a moment to set the ground. One

It is exactly the same as the previous violent, just the body size has become larger, Panda is 60 million miles.

One has no flesh and blood, just a purple-golded cheekbones, revealing endless fierce breath, very incomparable!

The last one is a black fog, and even a pair of scorpions are just two awnings, which are very strange! This

It is the flesh and blood of the konjac, and the body of the shin and the body of the black fog. Facing the battle situation in front of the eyes, Ye Xuan has no reservation, and immediately condenses the three blood seas. three

The big avatars, the repairs that are scattered in the body, are all the nine-step great consummation of heaven and earth. This is the three powerful peaks of heaven. Even on the left bank of the Galaxy, it can be found anywhere, and it can set off a storm. Let the heavens and beasts gathered in the emptiness around the air cool down.

It was the round of black gold that was hung in the distance of 200 billion miles away. The sound of sighs and sighs was heard. Obviously, Ye Xuan's \*\*\*\* secrets are also tempting...

"Roar!"

Hey! "

Oh..." with

The body shape was condensed, and the three \*\*\*\* seas immediately turned their heads and screamed.

At this moment, Ye Xuan will change the ultimate form of the konjac to the blood, and the real body of the konjac will be activated. The power of the three bloods and seas will all flow in an instant, just like a roaring river, roaring, limbs All of the hundred crickets have stirred up the meaning of endless fierceness. Accompany

With the power of a horrible and horrible blood, the three bloods and seas are separated, and the back is merged. The three-armed and six-armed konjac in the void is revealed...

"Hey..."

Without hesitation, the body of the cheekbone smashed out the fierce purple gold awn, and the incomprehensible humming sound resounded through the void. One

The secret of the sacred scorpion is like the anger of the Nujiang River. Since his body is swaying, the left arm of the shin bone is suddenly lifted up. The empty left palm of the hand is golden, and a golden bow of energy form appears in his left hand.

It's the sacred \*\*\*\* of the famous earthquake.

Chapter 5118: Nether

"call out!""

Oh..."

He also flipped his hands, and with the faint sound of breaking the air, two masculine shots came out. His left hand held a foot of Shennong Ding, just like the big seal on the side.

The right hand, dragging the \*\*\*\* stick of the gods' pesticides, invisibly exudes a fierce atmosphere. to

In the dark fog, he also shot at the same instant. "

call out! ""

Oh la la..."

With the meditation, the nine-colored flames that were sprinkled around the emptiness in the surrounding air were like a star-studded scorpion that had survived, and it was extremely turbulent. blink

The eyes have been reunited together, but this time it has not condensed into a huge flame ball, and it has not turned into a nine-color flame sea in the void. and

It is directly condensed, and it is turned into a huge nine-color ribbon. After a few cymbals hovered, it was already wrapped around the body of the black mist. The two ends of the ribbon were found in the chest, like a viper. Speaking, you may be violent at any time, devour everything...

All of this is long-lived, but it happens in a short period of two. At this moment, Ye Xuan shows the strongest form of the peak force, and he can fight at any time to fight the blood.

Oh...

With Ye Xuan showing the strongest form of the three-headed and six-armed konjac, even the scorpion bow, Shennong Baoding and the gods and pesticides of the \*\*\*\* sticks are also sacrificed.

Including the nine-color flame sea that was previously turned into a nine-color flame ball, it is also condensed into a nine-color ribbon that wraps around the huge body of the black mist, and there is a large sound of coolness in the air. It is a masterpiece. to

Among the thirty-three heavenly beasts gathered around the four, besides the green eyes, no one has ever seen the strongest form that Ye Xuan has shown.

In fact, even in the wild, the green eyes, he was in the forbidden ground of the demon wolf, and later in the floodland, although he had seen the most powerful form of Ye Xuan's three-armed six-armed konjac, but the original Ye Xuanxiu was far behind. Not as strong as it is now.

Earlier, when Ye Xuan first contacted the green eyes of Hongmeng in the Hongkong virtual air, it was also the strongest form of the real body of the konjac, but at that time, Ye Xuan was only in the early days of the heavens.

At that time, the sorrowful eyes of Tianhong did not even put him in the eye. If the Nether Giant Turtle and the Wild Nightshade appeared at the same time, Ye Xuan might not be able to get out.

But now, in a short period of time, Ye Xuan has grown to such a terrible degree that his strength has surpassed that of the wilderness, and even he, at this time, facing Ye Xuan, he inexplicably gave birth to a kind of look. Feeling, secretly angry... even

I was so familiar with Ye Xuan's unpredictable and ridiculous Tiandao's heart. The other people who had not seen Ye Xuan's strongest form were the ones who thought about it and how much it felt. Can be imagined. thing

In fact, even the incarnation of a black gold crystal, in the distance of 200 billion miles away in the dark night of the three-legged Jinwu, is very excited at this time..."

The rumors outside are really true! Shennong Baoding, the nine-color Shenyan, the Xingqiang Shentong and the anti-sky secret that can make itself cultivate a big realm, and have no time limit..."

At this point, a low-pitched voice of God once again came out of the black gold day of the high-hanging dark night, revealing the endless greed: "The previous deity has also calculated the secrets of blood and sea, and your The konjac is really righteous..."

"All of this is actually happening to you alone. It is simply shocking, plus the anti-Treasure medicines that correspond to all realms. Hey, Ye Xuan, it's no wonder that your cultivation is so enchanting at the speed of entry, it's unheard of. It's terrible..."

"If all of this is gathered on the body of the deity, the speed of cultivation of the deity must be above you. You can be a proud son of heaven..."

"Unfortunately, it is only the past. Even this Hongmeng era will come to a close in the near future. Naturally, everything may be deprived, and... just today!"

This is clearly the meaning of killing people to win the treasure. In the presence of so many heavenly powers, they can speak out bluntly. Only by this point can you see the shackles of the three-legged Jinwu, among the left-wing heavenly beasts. The tenth existence also has this confidence and qualification...

"Yes? If so, you will wait..."

In the middle of the shackles, there was a smear of sorrow, and the violent screaming turned to the black gold in the distance, and the black gold hangs in the distance. It shows no weakness, and even provokes the lips: "The temple is loose and bones, hot and complete... Look at you again!"

The sound has not yet fallen, Ye Xuan has fully activated the magical power of the perfect shock. In an instant, the horror figure of the konjac body is 60 million miles away, even the previous smashing The violent breath, also instantly converge, perfect, half-pointless...

This was originally intended. Although Ye Xuan was self-confident, he was now caught up in the encirclement. At the same time, he was besieged by thirty-three powerful heavenly beasts. Among them, there was even a three-legged Jinwu who was slightly stronger than him. This

In this case, if he still shows the figure in a big thorn, when the target is attacked by everyone, then it is really a disease. Both

However, there is a magical secret of such a perfect shock. With his current cultivation as a full force, he can instantly hide his body shape, completely confuse the air machine, and even repair the three-legged Jinwudu, which is slightly stronger. Can't see the half-point, why not? "

Roar! "

"Hey..."

Damn, man? Why did you suddenly disappear? Could it let him escape again? ""

It shouldn't be, the void has already fallen into complete chaos, and even the anti-theft method that he has mastered is absolutely impossible to display..."

Damn, the story of this guy is still underestimated. He still has such a secret method of converging interest. Even the deity who has improved his strength is not a bit of a clue..."

You, keep your body around, you can't let him go..."

Engraved, with Ye Xuan's body shape instantly hidden, the air machine disappeared, and the thirty-three heavenly beasts in the virtual sky were immediately exclaimed, and then immediately assigned tasks, each responsible for a void, forming a huge encirclement. Indiscriminately continue to investigate...

Under this circumstance, Ye Xuan could not slip away quietly. The surrounding void formed a blockade line. Thirty-three heavenly beasts were constantly shooting. He just concealed his figure and took the breath. It is not direct to nothingness. If you want to rush over, you must be hit. At that time, the figure will be exposed...

In fact, at this time, Ye Xuan did not intend to slip away in this way. It does not show up, nor does it reconcile, not his style of acting. short

In a short moment, he has already determined the goal of the first shot. Without hesitation, he quietly approached his body and suddenly shot..."

Roar....."

As soon as the first one approached, the black mist suddenly screamed and snarled, and it was not a simple spiritual force. Instead, it exerted the two kinds of spiritual powers that Ye Xuan had mastered to attack the whirlpool of the secret law...

At the moment, with the sudden scream of the black mist, the purple and black spiritual source nucleus hanging over the central area of the sea in his brain also began the crazy speeding of the moment, the massive spiritual source contained in the source nucleus. The power is extracted in an instant...

The ultimate compression, and finally turned into a tiny point that is hard to understand with the naked eye, rushing out of the black fog and knowing the sea, whizzing toward the first goal ahead..."

boom! "shock

The sky is loud and loud! that

It is as small as a dusty dust, but in reality it is a purple-black dot formed by the ultimate force of nearly half of the source of the nucleus in Ye Xuan's mind. When it rushes to the front of the other body, it will suddenly blow up. open.

The inexhaustible spirit of the source of power collides with each other and instantly turns into a huge energy vortex. It is like a violent violent violent, seemingly annihilating everything, revealing a terrible atmosphere that destroys the earth...

At one moment, the skeleton of the scorpion bow was smashed out, and the \*\*\*\* stick in the violent hand also fell off in an instant. This

A kind of hidden body shape, knocking people sap, Ye Xuan is too light and familiar with the road, at this time a stick is falling, and a moment in the brain will give birth to a sense of refreshment of the old business..."

boom! "

The skyrocketing sound is coming!

The one is as small as a dusty dust, but in reality it is a purple-black dot formed by the ultimate force of nearly half of the source of the core source in Ye Xuan's mind. When it rushes to the front of the other body, it will crash in the first time. Blast it.

At the same moment, the skeleton of the scorpion bow was smashed out, and the \*\*\*\* stick in the violent hand also fell off in an instant... dark

In the middle of knocking people sap, Ye Xuan is too light and familiar with the road. At this time, a stick falls, and a moment in the brain gives birth to a sense of refreshment in the old industry. The violent mouth outlines a sly smile, which is creepy...

"call out....."

Hey! "sense

Suffering from the sudden approaching crisis, this heavenly savage beast was violently shocked, and instantly witnessed a splitting spurt. When the hair screamed out of the sky, there was also a \*\*\*\* spurt in the mouth. welcome

The storm rose and turned into a blood-colored crystal that was above the skull's vitality. Unfortunately, this simply couldn't change anything. He was slowed down after all, and he was destined to fall on the spot...

Almost at the same moment when the blood-colored crystals appeared, the black whirlpool's spiritual vortex swelled away, accompanied by the crisp and cracking sound of the card, suspended in the \*\*\*\* crystal above the skull of the celestial animal, and instantly Just like a ruin, it was completely shattered..."

boom! Pick up

Everything that came down was not suspenseful, and the violent big head slammed on his head, and the punch that smashed out of the cheekbones fell at the neck of the neck at the same time. This

The head of the beast is only in the fourth stage of the heavens. The strength is too much, and it is too late to respond. The majestic force has poured into his body.

The half-interest between the Pontiac tens of millions of giants of the entire body instantly burst into a blistering red blood, quickly spread and open ...

"call....."

At the same moment, the black mist suddenly waved, and immediately there was an invisible strength to go.

Turned into a screaming whistling wind, and the \*\*\*\* fog of the zerg's celestial body is swept away in the blink of an eye. After being in the body, it is sent directly to the bottom of the volcano in the central area of the Dingnai space. Condensation! This

Everything is long, but it happens in the blink of an eye. It's only a time to breathe before and after. The other heavenly beasts gathered around are still vigilantly shooting around the side of the body to find the shape of Ye Xuan. Everything is over. blink

Between the eyes, the thirty-three heavenly beasts trapped by Ye Xuan have already fallen, and now there are only thirty-two heads left. At this time, the majestic body formed by the explosion of this savage beast When the blood is absorbed by the black mist, it is absorbed into the body. four

The other heavenly beasts of the week were shocked, and all of them were chilling under the stun of the body. For a time, the screams of screaming and screaming sounded like a tidal wave...

"Roar....."

"Damn, what happened?"

"The horrible power of a horror, a blow, and instantly solve a mid-term heaven, this is clearly a spike..."

The three peaks of the nine-order grand perfection of the heavens and the heavens fit together, although the strength is still not into the Hongmeng Avenue after the Heavenly Way, but it can definitely stand on the vast peak of the heavens, killing a medium-term Tiandao, this It is what it should be. ""

The key point is that his secret method is too much against the sky. Not only is his body hidden, but even all the air movements are completely concealed. Even the existence of the heavenly environment can not see a bit of a clue. This is too passive..."

The situation is a bit unpleasant. At the moment, it seems that I am waiting for Ming, but he has entered the dark. Now I am still waiting for a lot of people to form a comprehensive blocking circle in the surrounding air. If he is killed by him again, ....."

"You can't let him go any further. You have to think of a way. Otherwise, the result must be broken by him. This is too arrogant, and there is no room for repression. I can't find the target." ""

Roar! "

"Hey..."

It's impossible..."

Speaking of depression, among the thirty-two heavenly beasts, half of them were unwilling to scream and scream, and the meaning of resentment was not disguised. It was anger and sorrow..."

Can't stand it? Everything is just beginning. Today, all the people who come will pay for it..."

The sound of the whistling whistling around, the three great devils of Ye Xuan were all fierce and stunned, and when they turned to look around, the voice of God also came out. most

After the sight was swept away, the black gold day that was suspended at a height of 200 billion miles away, sneered out loudly: "Old guy, don't worry, this temple said, first move your muscles and muscles, look back... ...and thank you again!""

Roar....."

The last sentence is finished, violent, the body of the cheekbones and the body of the black fog at the same time screaming at the same time, the three screaming screams merge into one, and the violent ambiguity in the invisible is astounding, even the void They trembled slightly.

At this moment, Ye Xuan, just like the real demon god, the mad tyrants are empty, and the thirty-two heavenly beasts surrounded by the void are all in the eye, and the heartstrings are slightly trembled.

The people present are all in the presence of heaven and earth. They naturally understand the terribleness of the heavenly and powerful people. Even if they include a round of black gold, the three-

legged Jinwu, which is hanging high in the distance of 200 billion miles, is now Xuan's boiling war was shocking.

Asking himself, if he is trapped in such a dangerous situation and be besieged by the powerful beasts of the thirty-three heavens, suddenly, it is absolutely impossible to calm down like Ye Xuan, and even half of the fear and fear is not Only the war of the heavens will stir up the void.

"This attitude, domineering, is not the name of the Lord of the Devil..."

In the head sigh, the round of black gold that was hung in the distance beyond 200 billion miles, once again, the low voice of God is heard.

At this moment, the three-legged Jinwu in the Black Day seems to recognize Ye Xuan, and put it in a position that is equal to his own body. The evaluation is completely unsatisfactory. only

Yes, when he was halfway through, his voice suddenly turned sharply, revealing endless cold and coldness: "Unfortunately, the more you do, the more you have no semi-participation today, and it's amazing. If you let you continue to grow in the future, it will be harder to suppress..."

You, Liang Zi has already been formed, or he died, or I will wait for him to go to the door in the future, kill one by one, how to choose, do not need to speak more than this? "fruit

However, it is an old fox who has lived for an endless year. This three-legged Jin Wu is clearly sensitive to the fact that Ye Xuan is the only one to kill a heavenly beast and the beast of the beasts, so that the hearts of the beasts and the beasts gather around Waves.

It's only when the police suddenly wake up and avoid accidents. It's like a slap in the face, and in a moment they let the awesomeness of these heavenly beasts in the middle of the beast, and then disappear.

Xuan Shi was instantly able to kill a superb magical beast of the heavenly and fierce beasts, so that the hearts of the beasts and the beasts gathered around the four sides had a slight wave of ripples.

Incarnation of a black gold day, in the distance of 200 billion miles away from the virtual sky high hanging three-legged Jinwu, clearly is keenly aware of this, immediately sounded alert. he

The words are like a slap in the face, and in a moment they will let a little hesitation in the sinister beasts of these heavenly beasts, and then disappear without a trace...

Seeing this scene, the violent smashing of the cold mang, a cold cold incomparably smashed the black gold big day, the murder of the heart suddenly increased. "

Oh..."

The incomprehensible faint humming sounds, at this moment, Ye Xuan once again motivates the body's spiritual strength and activates the magical power of the perfect shock.

At the moment when he was able to kill the fourth-order heaven, his body shape was revealed, and the magical power of the perfect shock instantly failed. but

It doesn't matter, you can activate it again at any time, just between the words...

Eyes, his figure disappeared again, the air machine was completely concealed, and he quietly touched the second goal...

In the void, the turmoil was once again provoked, and nearly half of the remaining 32 sacred beasts were whispering, revealing endless resentment and grievances. "

Damn, come again? Is this temper too shameless? "

"I have already expected it. When I was on the right bank of the Milky Way, this violent thing was best at this kind of sneak attack. The reputation can be described as a wolf. If not, how can he grow to this day?"

You should be more careful, but you should not relax your vigilance. The areas in which you are responsible must always be shot and explore his position..."

"The shameless guy, after turning back to suppress him, the deity is not tempting him, it is simply too wrong..."

"Roar!"

"Hey..."

As these screams of anger and anger rang, Ye Xuan, who had already taken shape and air, had also touched the side of the second target in a short period of time. This

He is hidden in the dark and feels like a sap. He is so handy that he is getting more and more water. "

boom! "

"Booming..."

Once, Ye Xuan was closer, only a million miles away from the target, and suddenly launched, the cheekbones were punched out, and the violent smashed the \*\*\*\* stick again.

As for the black mist, this time, I did not use the spirit to attack the secret law, but the same as the cheekbones, and also punched out...

In an instant, Ye Xuan's figure appeared, but the blows from the three great devils have already reached the top of the fourth-order Tiandao. There is no suspense. With the earth-shattering roar, his huge body is blasting. . ten

One of the moments did not arrive, it has been turned into a swell of \*\*\*\* fog, opened by the black mist and waved into the body, sent to Shen Ding Baoding's tripod space. One

It's a long story, but it's actually faster than the last one. Moreover, the many beasts and beasts gathered around in the sky are still not coming back, because Ye Xuan's goal of this choice, Just near the right side of the first murdered guy.

After killing the first target, he did not go far in the shape of the body, and chose directly. In the nearest position on the right side, the second heavenly beast was killed in the blink of an eye. This

The scene happened too rushed, and the beasts around the four were all caught off guard. Previously, when Ye Xuan was invisible, everyone subconsciously thought that he must rush to other positions and then secretly shot. Place

Therefore, the two guys who were the first to be slain, the two guys in the nearest place, were the most relaxed invisible. The mind was not half-hearted. They didn't think that Ye Xuan actually did not follow the common sense... ..

It's a pity that it's too late to say that it's too late. The second heavenly beast is being slain. The heavenly beast that was originally gathered here has turned from the previous thirty-three to the present. Thirty-one, so that everyone is sinking...

"Oh..."

After hesitating, Ye Xuan was able to activate the perfect shocking spiritual power secret again in the first time after he waved his hand and waved the blood of the second target.

As his body shape disappeared, these nearby savage beasts immediately slammed out the sorrows and raised the vigilance to the extreme. first

Former Ye Xuan has had a precedent that does not follow the common sense. This time, everyone must think that he does not dare to continue. After hiding his body shape, he will not be able to stay in the vicinity, and he must turn to other places in the distance. position.....

Chapter 5119: No more suspense

But the more this is the case, the more likely this guy is to use this trick once again, it can be said to kill a carbine, so they dare not have a half-relaxion, and they are afraid to follow the footsteps of the second heavenly beast. thing

In fact, it is not just the closeness of these heavenly beasts, but the other beasts around the circle and around the distance are almost like this.

Although they are also trying to make a slap in the face of the week, they have drawn a part of their attention to the area where Ye Xuan is only succeeded in two successive shots...

The Buddha confirmed that Ye Xuan must be re-applied again, and attacked in that area! number

After the interest, surround the left side of the area opposite the circle.

The third goal that Ye Xuan has locked in is here. Today, he is hiding his body shape, and after the air machine converges, he has quietly arrived here.

The third goal is to cultivate a little stronger strength, but it is only a mid-stage in the fifth-order world. For Ye Xuan, who is now the ninth-order grand perfection, he suddenly hits an instant spike, and there is no half-point. pressure.

"call....."

"boom!""

Rumble..."

This time, the black mist was the first to be shot, and the nine colorful ribbons wrapped around its body rushed out like a starry sky, rushing into the storm, turning into a nine-color flame sea, directly taking the shape of the fifth-order heaven. Wrapped in..."

Oh..."

Under the horror, only 50 meters of the size of the flame ball, there was a screaming whistling sound.  
with

At one moment, Ye Xuan's figure appeared, three heads and six arms, killing the sky, with a ruinous land, the \*\*\*\* stick and the bones of the Zijin giant boxing at the same time.

"Hey!" No

There was suspense, and with the earth-shattering roaring sound, the whistling sound in the flame ball suddenly came to an abrupt end, and the fifth-order heavenly road could not hold back. The huge and incomparable figure suddenly exploded and turned into a \*\*\*\* fog. It has not yet spread completely, and it has been thrown into the body by the black fog. Following

However, as he moved, the nine-color flame ball in front of him collapsed, and under the condensed revolution into a star-shaped ribbon of the starry sky, the ingenuity violently rushed and entangled in the body.

After doing all this, Ye Xuan turned abruptly, and the sinister screaming and screaming, the line of sight swiftly sweeping through the heavens and the beasts in the distance, the power of the invisible, can be described as emptiness...

Even three shots, all are spikes. In the blink of an eye, Ye Xuan's hands killed three heavenly beasts, and the heavenly beasts gathered there were originally thirty-three, but now there are only thirty...

After the shot, the third target's flesh exploded and the blood was collected. Ye Xuan turned suddenly, and the scorpion smashed, and the line of sight swiftly swept through the heavenly beasts in the distance, invisibly dispersed. The power of the power can be described as a void...

At this moment, the 30 heavenly beasts surrounded by the emptiness in the sky were once again shocked, and everything that happened in the genius was too hasty. It can be said that the accidents have been repeated, they have not had time to react, and the heavenly beasts that have come together have already Being killed by three heads, nearly one-tenth, this violent enchanting and fierce degree is simply horrifying!

After a short silence, a group of heavenly beasts and murderous beasts again screamed, and the voices of the gods sounded one after another, all revealing endless wrath of the sky...

"You can't go on like this anymore. Otherwise, the final result is very likely that I was broken by each other, it is simply unimaginable..."

This violent repair is too strong, but he has mastered the secret law of such a retreat. Once he is quietly approaching, it is basically the result of spikes, and others have not rushed. Come, he has already finished everything, and once again, his body shape is gone..."

"And he clearly is picking up the weaker existence, this is a weak and strong, one by one bombing rhythm, and thus develops, and then he killed more than a dozen friends, the emptiness of the ban will be instantly Released, he will be able to leave at any time..."

"Hey! This is absolutely not allowed. Can any of your friends have the means to break his secrets?"

Yes, it's not a time to hide. Otherwise, even if I don't want to be killed by him, I will eventually get rid of it. In his style of acting, I will definitely go back to the door one by one. I don't think anyone is better..."

Hey! ""

Oh..."

"Hey..."

With the sound of the roar of the beasts and the voices of the gods, after the end of everything, Ye Xuan was able to activate the magical power of the perfect shock again in the first time...

For a moment, the low-pitched humming sounded, his figure disappeared immediately, and the air machine was completely concealed. As before, there was no trace of it. Look

In this scene, the dozens of heavenly beasts in the distance and the distance immediately smashed out the sorrows, and the vigilance was raised to the extreme. No one knows whether he would be the next target to be locked by violent attacks...

Especially those who are relatively weak in the mid-term, it is just like a conditional reflex, the scalp is a bit numb.

This violent strategy is obviously starting from the weak and killing them one by one. Their cultivation is only in the middle of the sky, and the natural danger is even greater...

Moreover, once this danger really comes to the body, the consequences are serious and absolutely unbearable. The main body of the temple, Ye Xuan, is now the strongest form of the three-headed and six-armed body. It is equivalent to the three nine-order grand perfection. Join hands.

With a full blow, even the late seventh heavens are likely to fall on the spot, and the possibility is not small, let alone the middle of the four- to six-stage heaven...

That is definitely the rhythm of being killed on the spot. There is no suspense at all. brain

These thoughts flashed in the middle of the scene, and all the mid-term celestial ceremonies in the midst of the moment were slightly trembled in the depths of the bottom of the scorpion, and the suspicion of the suspicion. Such as

Today, there are still thirty beasts in the heavens surrounded by imaginary air. Among them, the mid-term of the fourth to sixth stage of the strength is thirteen, nearly half. and also

That is to say, the probability of this crisis of life and death coming to them is one-third.

And even if this time does not come to your head, the next chance will be even bigger, reaching one-twelfth...

If you continue, the degree of danger will become more and more serious, one tenth, one-ninth... In short, according to the current situation, the violent is clearly weak and strong.

This is a day of dog, they obviously have a weaker strength, but they were chosen to be in front of the thunder, no matter who this kind of thing will not be happy.

After all, I took my life in the thunder, and finally fell to the bottom of the fallen, and the final victory, but it was made up of those who later cultivated into a stronger and stronger, it is meaningless.

Moreover, this is definitely not an alarmist, nor is it an exaggeration. Haven't three unlucky guys in the past been a forerunner? brain

These thoughts flashed in the middle, and the thirteenth fourth-to-sixth-order mid-day roads hesitated in an instant. With Ye Xuan's body shape disappearing again, there were several mid-term celestial roads, and even the conditioned general body shape was slightly Back.

The turmoil has started, and there may be an outbreak at any time. Once it appears, the thirteen mid-term Tiandao will definitely not stay again, and will not hesitate to turn and leave...

"Hey..."

"You are a friend, don't panic..."

In this scene, the sorrowful sky and the green eye immediately rushed. Although there were many strong people in the field, it was said that he was the most grievous with Ye Xuan.

If today's lineup can't leave and suppress Ye Xuan, then basically there is no longer a chance to suppress him.

Once the revenge comes, he will be the first to bear the brunt, and the whole floodplain will be in name only...

The consequences of this are absolutely unbearable to him. Therefore, even if the heart is unwilling, in the face of the current situation, the sorrowful eyes can only make a choice. this

Engraved, with his voice, the eyes of the other twenty-nine heavenly beasts were all gathered together in an instant. Now

It's too late to regret it. He can only make a heart and mind, and make a decision between them.

For a moment, with the huge blue-like star-like eyes in the eyes, a \*\*\*\* awn is immediately spurred out, and the storm is turned into a one-horned blood, and the figure is only about a million miles. It doesn't look like an eye, but the breath that comes out of the body is eye-catching.

Not only did it reach the heavens, but it also revealed a very strange and feeling. This

The \*\*\*\* head is the blood of the heavens, and the love of the heavens will be bloody. It was previously followed by the mysterious mother star, and then it has been with the heavens and blue eyes, because the blood of the soul is in the blood. Uncommon, so Tiandao Qingyan is extremely valued. Such as

Today, there is no way to do it. I have to take the risk of repairing it as a strength. Only in the early days of Tiandao, he wants to call out the secret of the soul in the blood, and breaks Ye Xuan's technique of retreating from the sky..."

Oh..."

For a moment, as the figure appeared, the blood of the soul did not hesitate, and immediately he gave up a fierce scream. its

The voice is secret, and it keeps going, and it turns out to be a savage spirit. In a moment, the heart of Ye Xuan, who has just turned to the fourth goal, is shocked, and the spiritual strength is under the undulations. Shape and air machine, leaking in an instant...

"Hey..."

For a moment, as the figure appeared, the blood of the soul did not hesitate. In a moment, he gave his hair a scream of screaming, and his voice was secret, and he continued to scream.

In the distance, with the secret of the spiritual power, the perfect shape of the swaying body, and the leafy body of the air machine, the moment suddenly felt a sudden shock, and under his defense, his spiritual strength rose slightly, and the original perfect concealed air machine Leaked, the figure appeared!

This is definitely an accidental surprise. The crowds of heavenly beasts surrounded by the emptiness in the distance are not expected. After all, they suddenly surprise, and the whistling whistling subconsciously..."

Roar! ""

broken! His secret recipe has finally been broken..."

There is no absolute thing in this world, and there is no absolute thing in this heaven and earth. The blue-eyed friend is a great achievement. This \*\*\*\* soul is really extraordinary..."

So good, you don't have to worry about being sneaked, you can put your heart back. I will wait for thirty heavens to gather here. As long as the violent figure reveals, he must be tired and courageous. The problem of time is just..."

"Hey..."

Oh..."

As the voice of the gods began to scream, the thirteen heads that had already given birth to the retreat of the mid-term, the eyes of the eyes were once again firm, and some of them even excitedly looked up and screamed, and there was a kind of wrongfulness. For a long time, now I have finally been able to release the excitement.

Think about it too, from their sudden launch, so that the vast void of the 10,000-yuan radius is completely chaotic, trapping Ye Xuan into the encirclement circle, and all the beasts and heavens have not even had time to take the shot, they have been connected by Ye Xuan. Spike three heavens. This

Under the superficial record of the horrific record, it turned into invisible pressure, and all the people were heavy, as if they were shrouded in haze.

But now, Ye Xuan's secret method of escaping is broken, and it's like a haze that shrouds in their hearts, and it's suddenly swayed, and the mood is not turbulent.

"In a short period of time, I died in the Tiandao class of the three camps. I was so happy and excited. This is really nothing."

At this time, as the figure appeared, Ye Xuan's face was already gloomy to the extreme, and the voice of the taunting voice was heard under the slap of the mouth, and then the singer's voice flashed, and the three magic bodies turned at the same time. All eyes are concentrating on the \*\*\*\* souls of hundreds of millions of miles away...

Ye Xuan is not only strange, but may also be extremely familiar with it. Moreover, Ye Xuan has always been very wary of him, because it feels like this old guy is very deep, and quite sinister.

I am afraid that it will only be under the eyes of Xingbo and Hongtian Tiandao...

At the beginning, when Ye Xuan got the inheritance of Yu Tiangong, he saw this blood in this inheritance picture of the Xingqiang. This

The guy is mysterious and weird. In the battle of the ancient world, it was neither a camp of headless infants nor a camp of heavenly eyes.

Ye Xuan saw it in the inheritance picture of Hao Tiangong. The ghosts and sorrows crouched in the shadow of an abandoned star, and sneaked into the entire battlefield of the ancient starry sky. This

There must have been conspiracy. Now Ye Xuan has never understood everything, but at least he knows that this \*\*\*\* soul was accompanied by the mysterious mother star, and then he followed the green eyes. most

In recent years, with the cultivation of Ye Xuan's strength soaring, he gradually began to compete with the Hongyan Tiandao Green Eye. He once saw this \*\*\*\* soul once or twice, but did not find a chance to shoot it. It's all in a hurry.

I didn't expect that this guy appeared at this time, and the first time he showed his secrets in the blood, so that he was uneasy, and the magical spirit of the perfect shock was broken instantly...

To say that for this \*\*\*\* soul, Ye Xuan originally had a heart of killing, and now that he has encountered such an opportunity, he will naturally not let go. brain

In the middle of it, all of this, when he had the action, the black mist of the shackles in the shackles, the spiritual source of the mind that hung in the brain, immediately turned frantically. when

At the beginning, with the eight-level source nucleus in Ye Xuan's brain, it evolved into a ninth-level source nucleus. He also got a new spiritual power in the same time, but it was a kind of attacking magical power provoked by spiritual power. , named Spirit Black Hole!

Listening to the name of this supernatural power, you can roughly analyze its power, obviously it must be extraordinary.

This supernatural power is also supported by the nine-level spiritual power contained in the nine-level source nucleus in the brain of Ye Xuan. Once it is displayed, it can form a black hole-like terrorist attack surface in the outer space of the universe. Wei

It is much stronger than the spiritual power secrets such as the ruin vortex that Ye Xu had mastered earlier.

But it is for this reason that the spiritual black hole consumes a lot of spiritual power. When I got this mysterious method, I used the total amount of spiritual power contained in the nine-level source nucleus in Ye Xuan's brain. It is estimated that it will only be fully exerted once.

After this exhibition, he will fall into the dilemma of the exhaustion of spiritual strength, the state is weak, the headache is splitting, and the combat power will be lost due to the poor state...

However, this is only the past. Today, Ye Xuan is the peak of the ninth-order grand perfection. The spiritual core of the brain has undergone repeated transformations, and now it has grown to an unimaginable level. can

Even so, if the spiritual black hole is used, the spiritual power accumulated in the mind of the mind that hangs in the mind of the sea will also extract more than 60% in an instant. although

However, it does not affect its own combat power, but because the spiritual power is lost in a moment, the speed of recovery is not fast and it takes time.

Therefore, once the spiritual black hole is displayed, in a short period of time, Ye Xuan still can use all kinds of spiritual power secrets and magical powers, but it is absolutely impossible to squander without pressure as before.

But if it is to pay such a price, and finally able to successfully kill this \*\*\*\* soul on the spot, in Ye Xuan's view, everything is worthwhile...

In this case, there is nothing to hesitate...

"call out!"

Oh..."

The faint sound of breaking through the air, not waiting for the heavens and the beasts in the distant sky to return to the sky, Ye Xuan has pushed the power of the body to the extreme, the whole body is like a star-like speed Out, the blink of an eye spans hundreds of millions of miles away, and the \*\*\*\* soul of the soul that is screaming and screaming is only about a hundred miles away. This

At the moment, the low voice rang in the void, and the black mist split into the middle of the cold, and the mouth opened and screamed...

"Hey..."

The fierce whistling sound seems to be wearing a hole in the eardrum, and the scales of the scales are in the void. An invisible spiritual force is like a roaring river in the Nujiang...

When the sound of the air broke, Ye Xuan pushed the power of the body to the extreme, and the whole figure rushed out like a star, and the eyes flicked hundreds of millions of miles away, and the soul of the soul screamed and screamed. Near the edge of a hundred miles..."

Hey! ""

Oh..."

At this moment, the low voice rang in the void, and the black mist split into the middle of the cold, and the mouth opened with a terrible scream, and the sound was fierce, as if it were going to pierce the eardrum.

In the void, there was a dense scale-like wave scale. An invisible spiritual force roared like a Nujiang River. It was invisible and inferior. The power was terrible. At the same time, the void was instantly collapsed. The speed spreads away.

Less than half a short distance, the void that continued to collapse has formed a huge black hole, a diameter of a hundred miles away, locked in the blood of the \*\*\*\* soul, swept away toward his body...

"Roar!"

Seeing this scene, like the stars, the huge cyan eyes are suddenly sharp and stunned, and they send out a shocking arrogance: "Ye Xuan, you dare..."

"call out....."

With the arrogance of this anger and anger, the sorrowful sorrowful eyes of the sorrowful sorrows, the blood of the scorpion is the great esteem of his majesty, irreplaceable, so he can never sit on the blood and be killed by Ye Xuan... One

The huge incomparable Qingmeng beam is spurred out from the star-like blue-colored vertical eye. This is an eighth-order Tiandao shot at full force, using some kind of blood and secret method, the power is powerful, but the breath of Qingmang is obvious. Secret.

"Hey..."

As the crisis approached, the blood of the soul was still screaming in the head, but the sound of the soul was clearly confusing. He had the feeling that the air machine was fully locked, and the body shape could not be moved. Watching this huge spiritual black hole, looking down at myself...

"Booming..." speed

The degree is too fast, and this huge green light beam shot from the green eye of the flooded sky, collided with the black hole of the spirit that came from the blink of an eye. shock

The blast of the sky is spreading, and even the shock waves that are diffused are terrible. Under the full-scale turmoil, the blood of the soul is too close, and it is immediately affected. The entire huge body is cracked, only one line. It will burst.

Even the sound of the soul that has continued in his mouth has stopped abruptly at this moment, and his mouth spurts a blood arrow and sprinkles the sky. This

It is clearly the rhythm of serious injury. It is almost sudden death. This guy is a big fate. Under the help of the evil eye of Qingtian Tiandao, he escaped a catastrophe. However, if he saw his injury, he would like to recover in a short time. It is.

At one moment, an invisible force was wrapped in the \*\*\*\* body of the soul, and while holding it, it was also violently slammed, and between the eyes, the blood of the soul was turned into a \*\*\*\* glare. Into the huge vertical eyes like a star, it disappeared. "

Roar....."

The screams resurfaced, revealing endless wrath of the sky, and even more unwillingness and resentment. With

The roar of the roaring sound, the far corner of the eye in the distant sky like the huge green eye of the star, there is a crack in the vertical, the vertical eye is blue, but the crack is bloody, although it is not big, but it is Extremely eye-catching and clearly visible.

Obviously, under the circumstance of the talented person, the sorrowful eye of the sorrowful sorrowful eye successfully saved the blood of the sorrowful sorrow, but he himself suffered a minor injury.

Ye Xuan's spiritual black hole is not so simple. This blow was originally a smashing blood, but the sorrowful sky and the blue eye are horizontally inserted. Although he is an eighth-order heaven, and the shot of the Qingmengguangzhu is also Some kind of \*\*\*\* power of his power.

However, under the forced intervention, although the spiritual black hole collapsed after colliding with the Qingmeng Pillar, the green eyes of the Hongyao Tiandao were also slightly countered, leaving a minor injury to be the meaning of this...

The injury is actually not serious. Although it does not cause irrelevance, it does not affect the extent of his combat power and status. However, it is still unbearable for the green eyes of the wild, and at this time, a screaming roar is raised. It's all about the endless anger of venting my heart...

As the incarnation of the will of the world in the wild, he had no other similar incidents except that he was injured in the battle of the world that had collapsed the whole floods before the endless years. which is

It was completely collapsed in the vast world of the wild, and was completely swallowed up by the endless stream of turbulence. He was forced to enter the higher-level Hongmeng void with the endless floods in the whole world. Have not been injured.

Of course, the long and endless darkness of the dragon whale in front of the right bank was not counted by the heavy punishment of Hong Meng's emptiness, but the power of the emptiness of Hong Meng's emptiness is a special existence.

But all this, but at this moment, and the existence of the people who caused him to be created, actually came out of a world of the ruling world he ruled, and not long ago, he was not even seen by him. ...This

The feeling is really uncomfortable, and the contrast is big, that is, he can't accept it for a while! "

I can't use it in the middle, only a single blow will seriously hurt me... It's really waste! "just

At this time, in the far right of the two hundred billion miles away, the round of high-hanging black gold in the big day, the three-legged Jinwu low voice of the gods also suddenly sounded, revealing a deep sense of depression. "

Rumble..."

Oh..."God

The sound of knowing has not yet fallen, and suddenly there is a dull and thunderous thunder in that direction. The black flames on the surface of the black gold day are turbulent, and the blink of an eye turns into a three-legged Jinwu, a vibrating body. The wings rushed to Ye Xuan. speed

Too fast, beyond lightning, blinking through 100 billion miles, and then two can get down..."

Oh..."

Seeing this scene, the violent mouth outlines a sneer, and the body of the skeleton in the three great devils is even more powerful. under

For a moment, the incomprehensible humming sound resounded through the void, and a mysterious breath was like a raging anger in the river.

His left arm suddenly lifted up, and the empty left palm of his hand was golden, and a golden bow with an energy form appeared in his left hand. It was a powerful and powerful \*\*\*\* of the sky! Out

Now the sacral body is in the left hand, the golden bow of this energy form is simple and simple, and the middle part of the palm is a double-headed beast, which is directed toward the upper and lower sides of the beast, biting two people. The physical body of the two feet. This

Both types of life are full of anger, like roaring, a bowstring formed by a number of fine gold threads twisted together, and the two ends are connected to the souls of these two humanoid bodies...

At the time, as the bow appeared, a golden energy arrow appeared on the bowstring, pointing to the three-legged Jinwu, and an invisible air machine was fully locked...

"Hey..."

"Death the deity..."

For the the three-legged Jinwu stunned body shape suddenly shocked, and then stopped abruptly, and raised an angry and horrible shouting...

In the face of the violent three-legged Jinwu, the shin bones did not hesitate, and the first time to sacrifice the sacred gods to pass the bow. This

At the moment, as the bow appeared, a golden energy arrow appeared on the bowstring, pointing to the three-legged Jinwu, and an invisible air machine was fully locked...

"Hey..."

Sudden death of the deity..."

In the face of the the three-legged Jinwu can not be unscrupulous, the stunned figure suddenly shocked, and then stopped abruptly in the middle of the road, and raised an angry and screaming shouting...

From their sudden launch, the formation of the encirclement circle trapped Ye Xuan, although only a short period of time, but in fact, three-legged Jinwu has already wanted to shoot several times. he

The reason why I always suppress the impulsiveness is because the scorpion bow in the hands of the cheekbones is extremely taboo.

This kind of supreme power can be too amazing. Although he is already the ninth-order grand perfection, he is even slightly stronger than Ye Xuan. However, if the golden arrow shot by the 陨天弓 is shot in the face, the result is It is also unavoidable and will be degraded. complete

The improvement of Jing Yexuan's strength is only slightly less than that of him. This kind of cultivation is the spur of the anti-sky secret of the scorpion, and the power of the power is so irritating...

"I have to say that the is really amazing, especially now in the hands of the existence of the sage, the threat is big, can not be taboo..."

After the whistling sound, the golden awn of the three-legged Jinwu flashed, and the incomparable voice of the gods instantly came out: "But if you just want to force the deity to vote for the scorpion, you still think too much..." "

Although the sky bow is powerful and terrifying, it is precisely because of this. This arrow will take away most of the energy in your body..."

"Even if it doesn't affect the other two bodies, but the bones of the bones, even if they don't lose all their strength in a short time, at least, the same blow is absolutely impossible to appear again..."

"That is to say, your scorpion bow has only one blow in a short time, but nowadays, the heavens that surround it exist, but there are still thirty..."

Having said that, the dawn of the three-legged Jinwu flashed again, revealing a smug color: "The deity only needs to send a friend to consume the arrow in your hand. The final result of today's battle will be ... no more suspense!"

This is indeed the best way to dispose of it.

There are many beasts and beasts that are surrounded by Ye Xuan, but there are 30 people in the world. However, they really have a battle with Ye Xuan and they are only able to contain them. but

Because the scorpion bow in the hands of the cheekbones formed a deterrent, the three-legged Jinwu could not get close to Ye Xuan, and was close to the battle, and he was restrained.

In this way, the situation will be extremely passive. The 30-day celestial beasts will gather around Ye Xuan, but they can only keep the distance and wait for the opportunity to move. It is impossible to launch a full-scale attack. Such a siege does not mean anything. Want

The only way to resolve this passive situation is to consume the arrow in the hands of the cheekbones. And

This matter can't be done by the three-legged Jinwu. Otherwise, once he is damaged, the remaining twenty-nine heavenly beasts have a large number of beasts, but no one can completely contain Ye Xuan from the front. The situation will soon deteriorate...this

Everyone knows everything, but it is not broken. Now it is said by the three-legged Jinwu in public. Although it is a fact, it falls in the other twenty-nine heavenly beasts, but they have their body shape at the same time. Shock, the face suddenly a little weird. fall from the sky

Tiangong is known as the Xingqiang Shentong, and Weineng is against the sky. Now it appears in the hands of a nine-order grand perfection. The dragons and arrows that have been shot by these repairs have already entered the peak of Tiandao for many years. In the countless starry beasts on the left bank of the entire Milky Way, the three-legged Jinwu, who is ranked tenth in strength, is afraid of it.

What, if they are replaced by the three-footed Jinwu, if they are shot by this arrow, what will be the final result, obviously can be imagined. that

It is clear that it is the rhythm of sending death. Who would be willing to do this kind of thing?

Therefore, although the words of the three-legged Jinwu are reasonable, they are actually not realistic at all. This is not just a matter of personal interest. It is about the life of the family. If you really want to bite your teeth, it is simply It's awkward, it's no different from finding death...

For this reason, his voice has just fallen, and the other twenty-nine heavenly beasts gathered in the void are not only under the slight vibration of the body, but all the faces are showing strange colors, but there is no more. The buzzing, no one responded to this suggestion!

In this case, Sanzu Jinwu is obviously expected, but since he has spoken such a statement in public, it is obviously not targeted, and has his own calculations and grasps.

Therefore, he did not pay attention to the silence that appeared in the void in the surrounding air. He was stunned by the golden awns in the middle of the sky. He turned around and scanned all the twenty-nine heavenly beasts around him. Finally, his eyes were condensed and his eyes closed. It fell on one of the people and never moved...

"Jin Wudao friends, I..."

I felt that the three-legged Jinwu locked in the glare of his own body. This celestial body of the beast was violently shocked, and his face was suddenly changed. The conditioned reflexes generally turned to the three-legged Jinwu, and the voice of God's voice came out. , want to speak and stop...

This is a blood-horned rhinoceros, with a body size of 50 million miles. It is silver-white, but the top of the head is topped with a blood horn. It is like a giant pillar, giving a sense of shock.

As for the cultivation of breath that has been diffused from his body, he has reached the eighth order of heaven and earth, just like the blue eyes of the wild, but the atmosphere is not very stable. If there is no accident, it should be just a breakthrough not long ago, and it will smoothly enter the eighth step of heaven. ....

The meaning of the three-legged Jinwu is very obvious. It is clear that I want to make the blood-horned rhinoceros of this heavenly eighth-order repair, and rushed to Ye Xuan, and consumed the arrow of the skull in the hands of the cheekbones.

In the eighth stage of the Tiandao period, if you do not hesitate to pay for it, if you are desperately trying to display the strongest blood and magical powers, you will have this qualification... and

Seeing his desire to say and stop, it is clear that there is a handle falling in the hands of the three-legged Jinwu. If the latter insists on him, he is mostly unable to refuse. "

The blood rhinoceros friend, the deity has saved your life, you have promised, in addition, a hundred years ago, you successfully smashed, and entered the eighth-order situation, it is also the deity to help..."

Of course, seeing this blood-horned rhinoceros seems to be unwilling, the three-legged Jinwu's squatting in the middle of the cold, the low-pitched voice of the gods instantly re-emerged. but

When this half of the discourse is stopped, the meaning of the expression is very clear. Since it owes a three-legged life, he can only act according to the plan if he does not want it. This is obviously rushing. Ducks are on the shelves!

If he refuses, even if the three-legged Jin Wu will shoot him, the other heavenly beasts will not care, but will be despised, and even fall into the stone.

This result is still degenerate, but also has to have a bad reputation, including the forbidden land behind him, and the descendants of the genus and blood descendants left there, will also suffer back, must be found by the three feet Jinu, one by one Liquidation...

Chapter 5120: Clawed Nether Explosion

As the words of the three-legged Jinwu sounded, the shape of the blood-horned rhinoceros suddenly stunned, and the smashing of the scorpion smashed out a sense of desperation that could not be opened.

I know that today's fall has been inevitable.

Sanzu Jinwu has already clarified the words, even if he is forced to go to death, people also take up the word. surface

In this situation, if he refuses, even if the three-legged Jin Wu will shoot him, the other heavenly beasts around him will not care, but will be despised and even fall into the rocks.

In this case, his final result is still degenerate, but also has to have a bad reputation, including the forbidden land behind him, and the descendants of the genus and blood descendants left there, will also suffer, will be three-footed Jinwu Find... one by one clearing! Two

The right to harm is taken lightly. Anyway, the fall is already doomed and cannot be avoided. The \*\*\*\* rhinoceros naturally understands how to choose...

"Hey..." brain

In the middle of these thoughts, he raised his hair and screamed, and he was so fierce that he was endlessly unwilling and angry. "

boom! ""

Rumble..."

puff! "

The sound of the whistling sound has not yet fallen, and the giant figure of his Pangda has been spurred away. The eight-stage repair of the heavenly environment has been spurred to the extreme, turning into a speedy man, surpassing the Lightning, slamming into the distant Lord of the Temple, Ye Xuan...

When I was halfway on the way, the \*\*\*\* horns on the top of the head like the giant pillars of the sky were strangely separated from the skull, the speed surpassed that of their own, and the violent smashing between the blinks was in front of the figure. Still shooting at Ye Xuan. he

After all, I still don't want to use my own hard-hard smashing bones to split my hands in the sky. Such a result must be degraded, and ten deaths are inanimate.

But now, he motivated the most powerful secret method in the blood, and extracted the horror of the eighth-order celestial celestial body in the sky, and extracted 90% of it into the top of the celestial blood

corner of the head, and separated from the head, toward the main body of the temple, Ye Xuan. Shoot and go.

And the speed of this blood horn is doubled by itself under the urging of its strongest blood, and will instantly approach the front of Ye Xuan, the master of the temple. Session

In order to stop this blow, the other party can only shoot the only arrow in his hand. Although such a result must be the collapse of his ruthless blood corner, causing damage to his own roots and hurting the source. If you are lucky, the blood-horned rhinoceros behind the celestial blood corner is very likely to escape from it, at least to save your life, not to fall...

This is his calculation. Although he has already embraced the mortal heart, as long as there is still a glimmer of life, no one will go all out to fight for it..."

You are clever, but it's so good. If you escape, you will be able to return the deity. If you count it, you still earn..."

In this scene, the three-footed golden scorpion in the far distance flashed in the gloom, and the low-pitched voice of the gods murmured, revealing a feeling of great confidence.

Obviously, even with his eyes, I saw the extraordinary and amazing blood-horned rhythm. The speed is too fast, the power is too strong, and it is almost devastating, even the opposite of the demon in the sky. If you want to stop this blow, you can only use the only arrow in your hand! complete

Actually, this piece of emptiness has already been submerged under the strong pressure of their thirty heavenly beasts, and they have fallen into full chaos. Even the teleportation is no longer possible..."

What is the eighth order of heaven? It's not too weak, but unfortunately, if you want to force the temple to shoot this only one arrow, it's up to you...not worth it! "Look

In this scene, the violent shackles flashed a glimpse of the sorrow, and the face also showed a disdainful color, and the voice was full of sarcasm.

The voice has not yet fallen, and the black mist has already ignited the mental source of the mind in the brain.

"Hey..."

A continuous and faint high-frequency tremble sounded, and the \*\*\*\* eyes of the black mist suddenly shot two blood awns without warning.

The speed is too fast, and it also surpasses the lightning. The two bloods are merged into one half in the middle, and the face is gone. The blink of an eye is hit with the spurting blood corner that is coming from him.

The next moment, a strange scene happened.

This \*\*\*\* sorrow is like a liquid. After hitting the celestial blood corner, it does not blast, but spreads along the blood corner in an instant, like a layer of blood-colored dye at the speed of rendering...

Seeing this scene, the whole body shape of the blood-horned rhinoceros immediately behind the celestial blood corner suddenly stagnate, and the dawn of the eyes is also shocked at this moment, even though it is not known that the moment is rendered above the blood corner. What is the blood color liquid, what kind of power function, but there is a feeling of extreme unhealthy feelings... This

Everything is long, but it happens in a very tenth moment, the work of the electric stone, everything... but it has changed!

This huge blood horn, like a giant pillar of the sky, has already reached a hundred miles away. In a moment, it will approach Ye Xuan, but at the moment, the layer of blood that blooms with the blood corner Guanghua is a flash.

The huge and incomparable Optimus blood corner is actually a momentary reversal, and the path along the lasing path is back, even faster, and the \*\*\*\* rhinoceros that follows the head is the first to be overwhelmed. "

hiss! What is this secret law..."

boom! "surface

Under the great change of color, the blood horned rhinoceros took a sigh of coolness, only to make a half-sounding exclamation. The entire huge body shape has been hit by this blood horn, and the shocking sound came from the sky. The horn exploded with his huge figure, and it turned into a shocking fog. He was suddenly waved by the black mist and flashed into the body.

Between the eyes, there is another \*\*\*\* and a beast, and it is still the late stage of the eighth heaven.

At this point, from the beginning of the war to the present, the sacred beasts of Ye Xuan's hands have reached four, and the thirty-three heavenly beasts that originally gathered together are now only twenty-nine! "

Everything is just beginning..."

Instantly solved the \*\*\*\* rhinoceros of the eighth-order world, Ye Xuan immediately sneered, his body shape was slightly swaying, and a wave of green and swaying between the waves had already spurred out, and the wind rose and turned into a huge dark green. Withered claws,

"The Nether Claw, Clawed Nether... Blasting!"

With the sudden violent drink in the mouth of the station, the black mist splits again with both hands and waves, and the spurs of the spurs go, and the storm rises into a huge dark green claw of a million miles, spurting toward the surrounding And go.

This kind of dark green claws, there are a total of twenty-nine, each of which is divided into a heavenly beast.

At the beginning, with the evolution of Ye Xuan's body, Ye Xuan also got the magical claws of the magical system corresponding to the blood of the Nether.

At first, he showed only one form of the genius of the genius of the genius, which is the one that is now sacred, but later, the second form was also revealed by Ye Xuan, that is, Clawed Nether...

Today, with these twenty-nine dark green claws slamming away, Ye Xuan's brain knows the dark green claws hanging from the sea, and the intricate lines on the surface are also sharply bright. This

For a moment, the second form of the Nether Claw was fully activated by him...

"The Nether Claw, Clawed Nether... Blasting!"

As the black mist splits his hands and flutters, the glare is rushing away, and the storm rises into a huge dark green claw of a million miles, spurting toward the surroundings, and the violent mouth is also Once again, the sound of Sen Han's light drink...

At this moment, Ye Xuan's brain knew the dark green claws hanging from the sea, and the complicated lines on the surface were also sharp and bright. The second form of the Nether Claw was fully activated by him...

At the same instant, the twenty-nine dark green claws that had been stunned have exploded, and the raging dark green energy wanders in the void, telescopically swallowing...

In the blink of an eye, it turned into a huge green ink gimmick, and the huge shackles leaped into the smoldering smoldering flames, and the eyes of thousands of miles away, like a teleport, generally went quickly, rushing in all directions. !

But this is obviously not the end, everything is still just beginning...

"The Nether Claw? You still have the blood of the ancient ghosts..."

With twenty-nine pieces of dark green claws spurting away, after the explosion, it turned into twenty-nine million green hoes, and the three-legged golden scorpion was flashing.

The low voice of God once again came out: "Damn, what is the origin of your guy? The means and the details are too much too complicated..."

"Booming..."

With the sound of this low-spirited god, the huge figure of the three-legged Jinwu, which is nearly a hundred miles away, quickly retreated backwards. It was too large and fast, and it was invisible. Earth-shattering thunder and thunder...

Although the Nether Claw is also an extremely powerful wild magical power, it is not at a level and weaker than the sacred and sacred bow. can

Even so, the three-legged Jin Wu is equally jealous, but it is not as strong as the 陨天弓. fall from the sky

The Tianzhu is a supreme magical power. The power is too strong, it is overpowering the heavens and the earth, destroying the dead, and there is nothing to stop. It is said that even the will of Tiantian can be shot down...

Although there is no such horrible power in the Nether Claw, it is the strongest blood and magical power of the ancient and ancient, the ancient and the secluded, it is the suffocating of a big world, its blood and the magical powers are like the blood of the soul, any creatures They are extremely disgusted. Once they are contaminated, they are congenital levels of ancient treasures, and they will all lose their power...

It can be said that the three-legged Jinwu saw a huge blood-green gimmick with a diameter of tens of miles in front of him. The reason why he rushed back in the first time was not afraid of his might, but worried about being It's contaminated, it hurts itself...say

White is the sorrow of the ghosts and gods, not a good thing, only the ominous, not half-benefit. even

The three-legged Jinwu is the same as the peak of the nine-order grand perfection. The other 28 heavenly beasts naturally need not say more.

Including the wilderness of the heavens and the blue eye, the other 28 heavenly beasts and beasts are seeing a giant green scorpion head that is tens of millions of miles in front of them, and after the hurricane suffocates, there is no Hesitant, in the first time, they all ran away in a hurry.

Unfortunately, everything is still too late..."

boom! ""

Oh..."

"Booming..." speed

The degree is too fast, the twenty-nine dark green hoes are originally energy forms, and they are still activated by the most powerful blood of the ancient times. blink

The eyes are approaching, there is no suspense, all the hoes are under the green mansions, and they burst open...

For a moment, the void is like the endless \*\*\*\* green rain, twenty-nine dark green skulls, each one has a huge number of miles, each one locks the shape of a heavenly beast and Breath, as soon as possible, when the lasing is approached, it will blow up directly...

"Roar!""

Oh..."

Damn, actually blew himself..."

The old man couldn't see it, his eyes were stained with sputtered stained green blood, and the sting was incomparable, hehe..."

"It's too shameless, this kind of evil spirits to the extreme blood and supernatural powers, actually detonated directly, this is deliberate, deliberately disgusting me and so on..."

A few late and peaks including the three-legged Jinwu and the Hongtian Tiandao Qingyan existed. The other twenty more powerful beasts were all affected. After the spurt of the dark green scorpion blasted, the blood-green stained green blood Contaminated in the body, it immediately caused various consequences.

In addition, the huge dark green scorpion of Pangda blasts, and the invisible shock wave that stirs up can not be underestimated, even if it is some skin trauma, but as long as the flesh breaks the skin, the blood-green filth is immediately Intrusion, causing more serious injuries...

In just one instant, twenty-nine powerful heavenly beasts were injured in the majority of the beasts. Although there was no serious injury, it was only a minor injury, but the expression was extremely embarrassing and embarrassing! more

What is speechless is that they are now clearly besieged by twenty-nine heavenly fierce beasts, but in the end they have fallen into such a result. One person suddenly shot, and it was so embarrassing to force everyone under the widowed enemy... How is it?

"Roar....."

"Damn, isn't it some filthy blood? Was it just like that, why should it be so scared?"

Seeing the scene of the complete retreat of the people, the three-legged Jinwu in the distant sky suddenly screamed, and the incomprehensible voice of the gods revealed the endless wrath of the sky: "There is no more dare to retreat, and the singer's face is not recognized. People, directly shot and killed, oh..."

The old guy said it was nice, but he seemed to have forgotten that when he saw a huge green ink smashing from a million miles, it was clearly his first to evade...

The first one to retreat, now completely innocent, but reprimanded others to come, really is speechless. brain

In the midst of these thoughts, in addition to the few days of the Tiandao, such as the sorrowful sacred eye, the other 20 sacred beasts suddenly frowned, and the face was stunned. Unpleasant color...

It is a pity that although they are dissatisfied, they can even say that they are resentful. However, the strength of repairing and the three-legged Jinwu are too different. At most, they only secretly swear by a few words. They are completely afraid of words. but

Ye Xuan is obviously not in this list. It is rare to encounter such a good opportunity. He naturally will not derogate from the ridicule.

"Ha ha ha..."

"Old guy, hurry up and touch your face and see if your face is still there. It's just that you are the first to take a step back and avoid it? Now I say this, what is your skin?"

Under the glimpse of the gloom, the violent mouth outlines a clear and ridiculous smile, and the sound of the gods is even more unwelcome. and

Not only that, but with the violent sneer sound, the black mist is also a flash in the middle of the slap, and suddenly waved...

At this moment, the spirit of thunder and lightning was activated by the black fog. Under the full force, the three-legged gold-headed head of the original empty sky, there was a blood-colored lightning with a diameter of a million miles, and suddenly collapsed without warning...

Invisible shots... the most deadly! With

The violent sneer sounded, and the black mist was also a flash in the middle of it... abruptly waved! This

At one moment, the spirit of thunder and lightning was activated by the black fog. all

Under the force of the force, the three-legged gold-headed head of the original empty, there is a blood-colored lightning with a diameter of a million miles, and suddenly collapsed without warning...

"Card..."

The crisp and fierce cracking sounds, followed by a fierce and horrible sound, and it's shocking!

This tragic voice was heard from the three-legged Jinwukou. Under the circumstance, he was stunned by this spiritual thunderbolt.

The speed of electricity is originally very fast, but the ordinary lightning has traces to follow, at least to dodge. For the starry sky, if there is no accident, the lightning in the robbery cloud in the head, suddenly collapsed, the heart It has already produced vigilance and basically can be circumvented in advance. but

Ye Xuan's spiritual lightning is an exception.

The power of the gods of the starry sky is even traceable, but the spiritual power is the same as the biological wave frequency of the starry zerg. It is invisible and inferior, and it is a very special energy that cannot be touched at all.

Moreover, after the thunderbolt was applied, the incomparable spiritual power of the sneak peek was first quietly condensed on the top of the target, and it was not sent. After the power was completed, it suddenly burst open, and it suddenly became difficult. Measurement.

Especially at the moment, the spirit of thunder and lightning is still Ye Xuan, not only the strong existence of the heavenly state, but also the peak of the nine-step grand perfection...this

A spiritual thunder suddenly bursts open. If you can capture its shape, you can see that the diameter of the lightning is a million miles in diameter. It is terrible.

In fact, in addition to the insights of the spirit thunder and lightning practitioner Ye Xuan, the other heavenly powerhouses present at the scene can not even detect the scale of this spiritual thunder and lightning. The power of the gods sweeps the past and is completely empty. Nothing. three

Although Jin Jinwu is also the peak of the ninth-order grand perfection, even if the strength is still above Ye Xuan, it is a strong one, but this spiritual thunder and lightning can not be avoided, and now the cold is not covered by the brain. A porcelain, the demeanor is soaring to the extreme, even a few black feathers in the void are slowly falling in the whirl...

However, this spiritual thunder and lightning can never let him fall on the spot, even if it is a serious injury, it is only a trinity, only a minor injury.

This is also because he once swallowed up a myriad of stars in the entire world, transforming his own ontology into a black gold day. Although it is not a thunder, it is similar to the Thunder's attributes, and it is also like a burn. no

Then, if you are a strong star, if you are a flesh-and-blood body, even if you cultivate it with strength, it is the peak of the road that is better than Ye Xuan. This spiritual thunder and lightning is degraded, and there is absolutely no It may be so easy, I am afraid it will be seriously injured at least...

All of this is long-lived, but in reality it happens in a short period of time. It rushes out from the blood-horned rhinoceros, to its attack, and then leaves to Xuan Xuan to sacrifice twenty-nine dark green claws, stimulating claws and phantoms. Burst open.

Now, he has launched a spiritual thunderbolt without warning. A million-mile-high blood-colored lightning has fallen on the top of the three-legged Jinwu, and he has shouted his shackles, and only a total of ten shorts before and after. ....ten

The time of counting interest was originally just a dazzling, but during this period, the \*\*\*\* rhinoceros of the eighth-order heavenly road fell, and the other twenty-nine heavenly beasts were almost all injured by the claws of the ghost claws. Although it was only a minor injury, it was all incomparable. more

What is amazing is that even the strength has reached the peak of the ninth-order grand perfection. Even the three-legged Jinwu, which is slightly stronger than Ye Xuan, is stunned by a thunder, sweeping the face...

Such awkward record, all from the hands of Ye Xuan, and he is faced with dozens of heavenly beasts, still still so rampant, killing the Quartet, this style is simply arrogant to the horrible The power of the power is simply unbeaten! "

Roar! ""

Oh..."

Damn, what is the origin of this guy? How can there be so many underlying magical powers, this tactical and phantom is clearly the savage and savage of the ancient and sullen people. Although the power is limited, it is extremely filthy and embarrassing..."

There is also the \*\*\*\* lightning of the right, the diameter of a million miles, the power can be eye-catching, but silent, directly on the top of the head to explode, how can this avoid? "

"There is also a strange and secret method of killing \*\*\*\* rhinoceros. The power of the sky is so horrible, the speed is so fast, and he is reversed in an instant, but the \*\*\*\* rhinoceros is killed. This secret method is also the same. Unheard of..."

"Looking at the situation, these seem to be not all of him. This guy is too mysterious. The means are too complicated. Fighting with him is simply looking for abuse. All kinds of secrets are unpredictable..."

The key is still the arrow in the hands of the cheekbones. The \*\*\*\* rhinoceros has fallen, but it is sacrificed in vain. There is no meaning. The sky is still the same, and everyone in the town can continue this battle. ""

Oh..."

"The deity is not willing, oh..."

Under the shock of my heart, the remnants of the heavens and the beasts who had retreated to the distance were screaming and screaming. These words were no different from the oil on the fire, so that they had just been angered by a spirit of thunder and lightning. More intentional, arrogant...

The roar of the roaring sounds, the three-legged Jinwu has turned to look around and swayed, and the sorrowful sorrows and sorrows, the incomparable voice of the gods clearly reveals the feeling of strong anger: "You have been here, Can't continue to delay, the arrow in his hand must be consumed, otherwise the power of the deity will be invisibly restrained, and it will not play its due role..."

The deity can't be personal, the friends of the road... Who is willing to do it? "

The implication is that this is clearly the rhythm of finding a person to follow the \*\*\*\* rhinoceros.

The void in the sky is a quiet moment, and the other 28 heavenly beasts except the three-legged Jinwu face each other. The look on the face is all strange, but there is no such thing at all. The person responded with a voice. open

Jokes, among them, the strongest of them is just the eighth order of heaven and earth. It is equivalent to the strength of blood-horned rhinoceros, and the \*\*\*\* rhinoceros is so powerful and fierce, and finally it is reversed in an instant, directly Boasting on its own. dead

This kind of grievances, fallen under the strongest blood vessels of their own, this thing is so depressed, it is not so sad. This

Under the circumstances, the three-legged Jin Wu now wants to replace the previous blood-horned rhinoceros, who can be willing to do it? do not

It's not too much of a grasp to push out the arrow in the hands of others. Even if it can be done, the price paid must be unbearable. It is very likely that it will fall on the spot. Unless it is the brain being kicked. Otherwise no one can be interested..."

This is the end of the matter, and it can no longer be delayed. The arrow in his hand must be consumed. Otherwise, the power of the deity will be invisibly restrained, and it will not exert its due effect..."

As the roaring sound fell, the three-legged Jinwu turned to look around and swayed, and the sorrowful sorrows and sorrows, the low-pitched voice of the gods revealed a strong feeling of anger: "The deity can't kiss the deity." For, you are friends... who wants to do it?"

Naturally, no one is willing to do this kind of thing. The 28 heavenly beasts in the void are all in silence. The atmosphere at the scene is instantly smashed, revealing a meaning of suffocation that is thick and inseparable..."

A group of ugly people..."

Seeing this scene, Ye Xuan sneered, and the words of ridicule came from the mouth of the violent voice. Then he sneaked into the gloom and turned to the front of the right side of the sky.

Although there are still many Tianmu beasts in the field, there are a total of twenty-nine, but among the twenty-nine heavenly beasts, Ye Xuan most wants to kill, obviously it is the most ridiculous. this

The matter was not urgent, but the atmosphere at the scene was a bit strange. Even Ye Xuan could clearly feel that at least half of the heavenly beasts had already retired. This

The results of the first they must have never thought of it, but now it has become a reality.

Ye Xuan's three big devils have their own bones in their hands. They have the sacred bow and the strong power of the gods. Although the three-legged Jinwu is the peak of the nine-step grand perfection, even slightly stronger than Ye Xuan Hold him down. Session

At the time, all the remaining heavenly beasts are on the side, looking for opportunities, even if they are hard-boiled, they can kill Ye Xuan.

Unfortunately, although such a plan is perfect, due to the existence of the 陨天弓, the three-legged Jin Wu simply did not dare to rush to Ye Xuan's approach, and he was restrained from the front... No

Then, when Ye Xuan shot this arrow, the three-legged Jin Wu would be slightly inadvertent, and even the only one that could contain Ye Xuan from the front would lose.

However, the only opportunity he had previously consumed Ye Xuan's hand in the sky was already wasted. Now no one is willing to take the initiative to stand up and squat down the task. The so-called joint encirclement and encirclement is a joke. when

However, the three-legged Jinwu is the peak of the nine-order grand perfection. He is capable of using strong, but once it is true, the so-called alliances that are not close to each other will be disintegrated in an instant... ..This

Everything, not only the three-legged Jinwu knows the truth, but other heavenly beasts also know. So it seems that there is no chance and possibility to suppress Ye Xuan. This

In this case, instead of staying here to bear the risk of being attacked by Ye Xuan, it is better to retreat. Such as

If someone really takes the lead to leave, other heavenly beasts will not fall behind, and the crowds of heavenly beasts gathered in the distance around the sky will soon lose a part, at least more than a third... ..This

On the first scene, with Ye Xuan's understanding of the green eyes of the Hongtian Heavenly Road, he will definitely not stay here again, and most of the time he will leave. So if you want to take this opportunity to eradicate him, this matter can no longer be delayed. Must be shot as soon as possible. leaf

Xuan's line of sight quickly moved and settled on a fifth-order Tiandao, not far from the Tiandao Green Eye.

The target he had previously locked in has been the middle of the fourth to sixth stage of the heavens, so it is normal to choose this celestial beast to start, and it will not lead to suspicion. "

Nether claws, clawed ghosts..."

Under the flash of the cold mang, the black mist splits and swings with the right hand, and a volley is rushing away, welcoming the storm, and instantly turning into a million-mile-long dark green claws, rushing toward the front, violent There is also a cold drink in the mouth of the mouth...

For a moment, Ye Xuan's brain knew the dark green claws hanging from the sea, and the intricate lines on the surface were also sharply brightened. The second form of the ghost claw was fully activated by him. speed

The degree is too fast, and the spurred dark green claws have exploded on the way to the lasing, and the raging dark green energy wanders in the void, stretching and swallowing. half

Between the interest, it turned into a huge dark green gimmick, jumping in the shackles of the smoldering flames, and squinting at thousands of miles, just like a teleport, it was blinking to the front, and it exploded.

Oh..."

This heavenly savage beast jumped wildly, and his hair screamed and he wanted to retire.

"吼..."

At one moment, the three-headed and six-armed konjac immediately followed the dark green hoe, and the blink of an eye approached... no

There is hesitation, the black mist is violent, the roaring, the whirlpool is activated, and the purple and black spiritual source nucleus hanging over the sea area of Ye Xuan's brain is also frantically rotating at a rapid speed. The power of the massive spirit of the source is extracted instantaneously...

The ultimate compression, and finally turned into a tiny point that is difficult to understand with the naked eye, rushing out of the black mist to understand the sea, whistling toward the front...

"boom!"

The loud noise is shocking and the sky is coming! that

It is as small as a dusty dust, but in reality it is a purple-black dot formed by the ultimate force of nearly half of the source of the nucleus in Ye Xuan's mind. When it rushes to the front of the other body, it will suddenly blow up. open.

The power of the endless spirit of the majestic spirits collided with each other and instantly turned into a huge energy vortex. It was like a violent violent violent, seemingly annihilating everything, revealing a horrible atmosphere of ruining the earth...

The cheekbones were smashed out, and the \*\*\*\* stick in the violent hand also fell off in an instant..."

boom! Pick up

Everything that came down was not suspenseful, and the violent big head slammed on his head, and the punch that smashed out of the cheekbones fell at the neck of the neck at the same time. This

Although the first day of the beast is a good thing, but compared with Ye Xuan, it is actually more than a little bit. with

When faced with the power of the clawed Nether and the Spiritual Swirl, and with the punch of the \*\*\*\* stick and the cheekbones, he simply did not have time to react, and the power of the horrible Poured into the body... half

Between the interest, the entire body shape of the tens of millions of Pontiac bursts open instantly, turning into a red \*\*\*\* fog, spreading rapidly. black

The fog suddenly shook his hand, and immediately there was an invisible strength that turned into an invisible wind. The blink of an eye was swept away from the blink of an eye. After being in the body, it was sent directly to the Dingnai space. At the bottom of the volcano in the central domain, the blood is refined!

It all happened too quickly. In the blink of an eye, twenty-nine heavenly beasts were fallen, and now there are only twenty-eight left.

In the distance around the void, a group of heavenly beasts were stunned, and the three-legged Jin Wu was angry and directly screaming, but there was no way to go forward, because after a punch, the cheekbones were separated. As soon as the arm is lifted, the golden giant bow is instantly again.

The golden sky above the bowstring is clearly aimed at him, locking the air...but

All of this, but only Ye Xuan's voice hit the West, killing the fifth-order heaven, but to avoid people's eyes, to relax the sorrowful eyes of the green eyes.

Therefore, in this fifth-order Tiandao body shape exploded, turned into a \*\*\*\* fog, attacking the invisible spiritual lightning, was also activated by Ye Xuan, full force .....
