

## Super D.S 5121

### Chapter 5121: Retirement

"Hey!"

With the cheekbone smashed out, the \*\*\*\* stick in the violent hand also fell off in an instant. The whole body shape of the pentads of tens of millions of miles in the fifth-order heavenly road burst open instantly, turning into a blush. The blood mist spreads rapidly.

In the distance around the void, a group of heavenly beasts and murderous beasts screamed, and the three-legged Jin Wu was angered by the direct anger and anger, but did not dare to go forward, was stunned by the scorpion, bowed and smothered...

At one moment, the spirit of thunder and lightning was activated by the black mist, and this time it was fully motivated. The spiritual power that Ye Xuan's mind had accumulated in the sea during this period was completely extracted...

For a moment, the head of the wild sky, which was originally empty and empty, had a blood-colored lightning with a diameter of a million miles, and suddenly fell without warning...

With Ye Xuan's current cultivation as the strength, especially the three \*\*\*\* seas fit together, the three-armed and six-armed konjac is the strongest state, and it is not the usual peak.

Under this kind of combat power, if he shoots the arrow in the hands of the cheekbones, it is almost impossible for the sorrowful eyes to escape. Even if they do not die, they must be seriously injured and lose their fighting power.

After all, he is still only the eighth-order of heaven and earth. In terms of his cultivation, he has already surpassed Ye Xuan.

However, due to the existence of the three-legged Jinwu, this Arrow Ye Xuan can not be easily shot, otherwise the situation that takes the initiative now will be reversed in an instant. At the last moment, he will never make such a choice. Place

Therefore, only by using other means, try to suppress the green eyes of the wilderness and suppress it. "

Card..."

"Hey..."

The crisp and fierce cracking sounded, and the fierce sound of sorrow came from the mouth of the sorrowful sky, and it was really shocking. He did not expect that Ye Xuan would suddenly shoot him at this time. sudden

Under the defense, the flooded Tiandao Qingyan was even smashed by the spirit of the thunderbolt. The huge blue eyes of the stars were visible in the eye, and several more glaring bloodshots were visible to the naked eye.

This is clearly the rhythm of the injury, but there is still some distance from the real serious injury! can

Since Ye Xuan has already started, it is naturally impossible to make a tiger-tailed tail, and it is easy to stop. Then there will be a thunderous attack like a hurricane...

"Hey..."

"Booming..."

However, he was injured, and he was still sneaked under the sneak peek. The ridiculous sky was full of anger, and the sound of the screaming whistle came out. A million-mile-diameter ray of light was shot from a huge vertical eye, like a blue lightning bolt. Ye Xuan came to the flood..."

You are looking for death..."Black

The fog is separated from the body, and at this moment, the spiritual source of the mind that is suspended in the sea is once again motivated. The only spiritual power in the source nucleus is unreserved, and all of it is poured out...

The stock is extremely incomparable. The sting of this moment is floating in Ye Xuan's mind. It uses the spiritual power one after another, and it consumes so much every time. This kind of deficit makes him somewhat unbearable. The three-headed and six-armed konjac is slightly swaying. For a moment, the tingling in the brain did not dissipate, and it continued to make the look of the face of the three great devils more obvious...

"Hey..."

At the same time, there were also weak but persistent high-frequency trembles, and the \*\*\*\* eyes of the black fog suddenly shot two blood awns without warning. fine

The reversal of God was activated, and all the spiritual powers in the spiritual core of Ye Xuan's brain were extracted and turned into two blood rushes...

This time it's faster, far beyond lightning! blink

In the eye, the two bloodskins merge into one, and they go on the face. In an instant, they are in contact with the Qingmeng light column that is coming from Ye Xuan's bang.

As before, the blood color is like a liquid, and the glare of the glare is not exploding, but it is spread out in an instant, like a layer of blood dye at the extreme speed...

This scene is so familiar, it has appeared before, the only difference is that at that time, it was the \*\*\*\* rhinoceros of the \*\*\*\* rhinoceros, but now it has become the Qingmengguangzhu of the red sky. ...

This strange rendering represents what it means. Everyone knows well, and the whole body shape of the green sky behind the Qingmeng Pillar is suddenly stagnation, and the dawn in the eyes is also very incomparable...

The blood-horned rhinoceros is a real thing, and his Qingmanguang column is an energy body. He does not understand why this strange blood awn can be covered on the surface of the Qingmeng beam, but this is no longer Important.

What's important is that for a moment's work, his heart suddenly gave birth to an extremely unpleasant feeling, a huge sense of crisis came, unprecedented...

Everything is long, but it happens in a very tenth moment, the short-lived work of the electric stone fire, everything has changed! "

call out....."

The sharp and unbroken sound of the sound, the glare of the Qingmeng light column has already reached 100 million miles, and then will soon approach Ye Xuan, but at this moment, with the cover and rendering on the light column The \*\*\*\* brilliance suddenly flashed, and the Qingmengguangzhu, which is a million miles away in diameter, suddenly reversed, turned around and blasted away...

Everything that has been cut is exactly the same as that of the previous scene of the blood-horned rhinoceros. At this moment, the blue-eyed eyes of the stars are so fierce and ugly, revealing the endless fear.

"Hey..."

The sky was screaming and screaming, and the sorrowful sky and the green eyes did not hesitate, and suddenly swayed sideways under the violent shock..."

Oh! "

"Hey..." Wan

If the cracks are generally clear and crisp, then it is the sound of snoring. The speed of the blue sky is fast, but it is still slow for a while. With

He leaned sideways and sneaked back. The Qingmengguangzhu, which was quickly reversing and back, volleyed from his side. Although he could not directly penetrate the green eyes of the wilderness, there was a hole in the eyelid area of more than 300,000 miles. take away.

This wound is like a fountain, and a large amount of cyan liquid is poured out. It is extremely pure and reveals the rich flavor of the heavenly source. he

It is not an ordinary heavenly beast. After all, it was once the incarnation of the heavenly will of a big world. This blue liquid is extremely extraordinary, even for the current Ye Xuan. If

It is brought back to the shack of the temple, and the effect will be even more amazing. Such as

Therefore, Ye Xuan naturally cannot be wasted..."

call out! "

"Oh la la..."

The thoughts flashed through my mind, and the black mist suddenly waved, and an invisible force swept away. In a moment, the virtual sky was like a blue river-like heavenly source liquid, all wrapped up in the body... ..."

Hey! ""

Oh..."

With this gap, the blue eyes of the stars are also rapidly retreating, and the distance between the eyes has been hundreds of billions of miles away, but it has not stopped here, still fling away from the encirclement. just

Only this blow has already caused him to be seriously injured. The combat power is only about sixty-seven percent. There is no meaning left behind. It is even more frightening and confusing. The

wilderness of Tiandao has made a decision in an instant, so far away, give up today's Battle of the cofferdam..."

Hey! ""

Oh..."

The whistling sound of the horror sounded, and Ye Xuan took the gap between the cyan sky and the original liquid of the blue sky. The blue eyes of the stars were also quickly retreating, and the distance between the eyes was hundreds of billions away... just

Only this blow has already caused him to be seriously injured. The combat power is only about sixty-seven percent, leaving no meaning. He made a decision to give up the battle of today!

Where there is life, there is hope! Such as

Seriously wounded today, the situation is not good. If it is still strong, it will remain here. In the end, it is very likely that it will be completely degraded... At this moment, the blind eye of the heavens still knows how to decide. he

The speed is very fast. In the blink of an eye, it has already rushed to the edge of the chaotic emptiness of this piece of trillions of dollars. If you don't stop, you can directly tear a crack in the void and break into it. The blink of an eye disappears!

This time, the total number of beasts and beasts in the vicinity of Fuxuan Ye Xuan had a total of thirty-three heads. However, before the Qingtian Tiandao's green eyes were gone, there were only 28 left, and before and after, they were killed by Ye Xuan. .

Nowadays, with the savage and savage of the blue sky, the number of people has been reduced, including the three-legged Jinwu, there are only twenty-seven heavenly beasts, still surrounded by the distant voids..."

Roar! ""

Damn, Tiandao Qingyan actually escaped. He was only seriously injured. He was far from losing his strength and was so timid..."

"I have heard it before, and the green eyes are not reliable. I seem to have cooperated with the Dragon Whales friends. It is the first time that he fled and fled. Now it seems that this virtue is..."

"This matter should be spread out, so that all the same people on the left bank can recognize his face. It is simply abandoning people, too wretched..."

Seeing the floods, the green eyes are silent, and they don't call one. They just walked away, and the more than 20 heavenly beasts in the distance around the sky suddenly disappeared. The voice of God's voice came out, and there was resentment.

"The friends of the Dao, the situation has become more severe, and hesitated, and everything will be lost today..."

At this time, the three-legged Jinwu, who was squatting in the sky in front of the sky, once again spread the voice of God's knowledge, which was extremely incomparable. At the same time, the light flashed and looked toward the right side of the sky, revealing the meaning of urging. : "Two, you are the eighth order of heaven, as long as you have the heart, you can definitely force him to shoot this arrow..."

Among the twenty-six heavenly beasts outside of him, there are indeed two late eight-order environments, and the strength is similar to that of the wilderness and the blood-horned rhinoceros.

At this time, the three-legged Jin Wu is clearly urging the two to make a decision. Virtual

The air once again fell into silence, and the other heavenly beasts were all sighed with relief, but the eight-step heavens, which were named by the three-legged Jinwu, turned into a gloomy face at the same time. he

We can't say the words of refusal, at least we can't export first. Otherwise, we must become the target of the public. Another eighth-order heaven must promptly speak and pick things up, and the three-legged Jinwu must be attached, and it will fall into a passive situation. brain

In the middle of these thoughts, the two heavens and eight steps subconsciously turned to exchange a look, big eyes and small eyes, all without snoring, the atmosphere in the void is once again dull, dull and revealing oppression and quirky, More ambiguous in rendering...

"Roar!"

Don't worry, today, as long as you don't leave, one can't escape, all will fall here..."

The ridiculous road is green and the eyes are gone. Although Ye Xuan feels a little regretful, at least he has harvested a heavenly green liquid like a river. This is the source of heaven and earth. It is extremely rare. It must be a big world after the Tiandao will be seriously injured. If the heart of the ordinary star is severely injured, the blood of the heart will be ejected...

This heavenly green liquid, which is like a river, is a small harvest today. Moreover, he also killed five heavenly beasts and harvested five heavenly bloodstains.

However, although the Qingtian Tiandao Qingyan escaped, but today's war is far from the end of the battle, including the three-legged Jinwu, there are still twenty-seven heavenly evil beasts stranded here, although from the current embarrassing situation Look, the old guys who are making birds and beasts will come sooner or later. but

Now that he is still hesitant and wants to persist, then for Ye Xuan, it is just the opportunity to squat, killing one or two more, and getting one or two Tiandao blood essence is also good. "

call....."

boom! "

"Booming..."

These thoughts flashed through the brain, and Ye Xuan did not hesitate, and his body flashed into a fifth-order heaven.

In the previous many shots, in the mind of the mind, the spiritual core of the sea, all the spiritual power has long been taken out. Such as

Today, I still have a headache, so the secret of the spiritual power can no longer be displayed. This time, the black mist is the first to be shot, and the nine colorful ribbons wrapped around the body are like a starry sky.

When the storm rises, it will be turned into a colorful flame sea, and the body of the fifth-order heaven will be wrapped directly! "

Oh..."

Everything was too unexpected. The fifth-order Tiandao did not expect that Ye Xuan would suddenly take a shot. Under the fear, only 50 meters of the size of the flame ball, there was a very loud and whistling sound. . can

It's too late, the three-headed and six-armed konjac really kills the sky, with a ruin of the earth, the \*\*\*\* stick and the bones of the purple gold giant punch at the same time. "

boom! "shock

The roar of the earth's roaring sounded in the next moment, and the whistling sound in the nine-color flame ball stopped. This

The huge body shape of the first five-step Tiandao was blasted and turned into a \*\*\*\* fog. It has not yet spread completely, and it has been thrown into the body by the black fog. whole

The process of the flow of water, but completed in the end, followed by Ye Xuan, the nine-color flame ball in front of the body collapsed, condensed under the condensed starry sky, the nine-color ribbon stunned, blinking Wrap around the body.

Under the abrupt turn, the three great devils are all fierce, and the sight is like a serpent's letter. They quickly sweep through the heavenly beasts in the distance. This is clearly the rhythm of picking the next target.

He shot again in an instant, and the twenty-seven heavenly beasts were reduced by one. The total number of beasts and beasts that fell in the hands of Ye Xuan reached a total of six. This number is shocking, and the strength of Ye Xuan's war is more and more brave. The number of fallen of the six heads will clearly continue to climb. or

Xu, the next fallen, is himself... brain

These thoughts flashed in the middle, and among the remaining twenty-six heavenly beasts, most of them were all mad and shocked, and the retreat of their hearts was stronger than ever. especially

It is the middle of the heavens that the ten or so heads are repaired in the fourth to sixth ranks. It has a strong sense of life and death that has not existed before. "

Roar! "

"Hey..."

"The green eyes of the torrential roads have escaped. What are I waiting to stay here? He is the eighth-order heaven..."

"Yes, there is no hope in today's war. Instead of staying here and waiting to die, it would be better to retreat..."

"They are friendly and self-reliant, and the deity withdraws from this matter, so don't overdo it..."

Roar! ""

Even the green eyes of the flooded roads have escaped. What are I waiting to stay here? He is an eighth-order heaven..."

"Yes, there is no hope in today's war. Instead of staying here and waiting to die, it would be better to retreat..."

You are friendly and self-reliant, and the deity quits this matter, so don't overdo it..."

Oh..."

With Ye Xuan once again, in an instant, another murderous beast was murdered. Among the remaining twenty-six heavenly beasts, almost all of them were mad and shocked, and their hearts retreated, and they were stronger than ever.

In particular, the dozens of heads repaired in the middle of the fourth to sixth stage of the heavens, there is an unprecedented sense of strong life and death crisis, no longer hesitate, while the voice of the gods came out, the body shape quickly retreated... ..

"call out!"

Oh..."

The sharp and unbroken sound of the sound, with the precedent of the previous ridiculous sky, and the invisible shock of Ye Xuan's inability to smash a heavenly beast.

Nowadays, after a dozen or so repairs have been decided to evacuate in the middle of the fourth to sixth stage of the Tiandao period, there is no partial psychological pressure. In the blink of an eye, it has already retreated to hundreds of billions of miles. The edge of chaos

The empty beasts of the heavens were only twenty-six, and now they have gone fourteen. The rest, including the three-legged Jinwu, has only twelve left. This

The degree of chaos in the tens of millions of miles away from the emptiness of the vacant space is alleviated in an instant. Although it still cannot activate the interstellar coordinate jumping ability attached to the internal system, the difference is not much.

According to Ye Xuan's estimation, at most two more bombings, the chaos of the void will be dissipated. At that time, only Ye Xuan will be moved, and the interstellar coordinate jumping ability attached to the internal system can be activated and activated in a moment. And go...

"Roar!"

Damn, your wastes are fleeing, and you are discouraged..."

In the distance of the void, I saw fourteen heavenly roads and fierce beasts everywhere. The three-legged Jinwu was fainting on the spot, and the voice of God's voice came out, unprecedented anger and arrogance.

Unfortunately, this simply can't change anything. If only one of the two heavenly beasts is evacuated, he can kill the chickens and monkeys, but now he is mostly away. No matter how he disposes, there is no point.

"Hey..."

Rumble..."

At the same moment, Ye Xuan of the three heads and six arms also rushed out, and the remaining twelve heavenly beasts were all repaired in the later period, but in addition to the nine-order grand perfection, the Tiandao Sandao Jinwu, even if that At the end of the eight heavens, Ye Xuan is fully committed, and there is also a grasp of the bombing...more

What's more, the goal he chose at the moment is just a seventh-order heaven, and from the breath of the heavenly beast, the later stage of his seventh-order situation is clearly changed.

Compared with the mid-term peak of the sixth-order of Tiandao, it is actually not too strong. 戾

The whistling sounded, and the earth-shattering roar sounded through the void, and the violent hands were moving together. He was smashed out with his \*\*\*\* stick. skeleton

Bone avatar is also a double fist and a bang, two huge energy giants like a star, one left and one right, blasting to the huge body of this seventh-order heaven. black

Although the fog is no longer able to display the secrets of spiritual power, the nine-color flame sea is like a starry sky, and it is extremely ingeniously rushed out, directly blocking the retreat of the seven-order beast! Rear

The person was shocked, and he was stunned, and the souls of the dead were all taken. "

Oh..."

The shape of the wolf was stunned, and when he was caught off guard, he touched the nine-color flame sea that blocked the retreat behind him. The body was burned, and a fierce and fierce voice was instantly recorded. on

It was such a procrastination time that the violent and sacral smashing attacks finally came to the near, without hesitation, and the brains shattered and shattered..."

Oh..."

Boom..."

"boom!"

There is no suspense in the following. This seventh-order Tiandao can't bear such a terrible power. Under the crisis of life and death, he only has time to send out a fierce and screaming sound, and the whole figure has exploded. . black

The fog was suddenly waved at this moment, and immediately there was an invisible strength that went away and turned into a scream. blink

Between the eyes, the \*\*\*\* fog of the seven-step Tiandao body shape is swept away, and it is collected into the body and sent directly to the bottom of the central volcano in the Dingnai space to carry out blood purification!

At this point, the sacred beasts that Ye Xuan killed before and after have reached seven heads. The \*\*\*\* fog formed by the seven-headed savage beasts was all collected by the black mist and sent to the body. . Do not

After a long time, you can refine it into seven heavenly blood. in

Before the war began, Ye Xuan's hands had 18 bloodstains. With these seven, the total number has reached 25 giants, and the harvest is amazing!

This happened too fast, blinking and degrading a heavenly beast, the heavenly pressure in the void was reduced, and the chaos was relieved. The distance was stable enough to enable Ye Xuan to activate the interstellar coordinate jumping ability attached to the internal system. The extent of this has been only a gap.

If there is no accident, then kill the last heavenly beast, the chaos of the void will be completely calmed down, leaving only ten heavenly beasts to disperse the body's repairs, and overlap and add to the invisible pressure. The chaotic influence on the void can no longer prevent Ye Xuan from taking the ability to jump in the interstellar coordinates. brain

In the flashing of these thoughts, Ye Xuan

Oh..."

"The matter of today is indeed impossible, the deity is not accompanied, otherwise it is fallen..."

I felt that the pressure of the three magical bodies of the konjac was locked. This seventh-order heavenly road was like a conditional reflection. The whole figure was instantly stunned, and the face was mad and exclaimed.

Then he did not hesitate, and turned around and rushed to the distance.

He was really scared. He had just had a seventh-order heavenly road that was as strong as his strength. He didn't want to follow his footsteps. It was the most sensible choice to leave and leave. This

At the moment, with his departure, the heavenly beasts still surrounded by the three, including the three-legged Jinwu, have only ten left, and all of them feel the change of the void, the teleport that could not be used, now It is no longer suppressed.

That is to say, as long as you are willing to, the body of the three-headed six-armed konjac true form of the main hall of Ye Xuan, can always leave and leave.

"Roar....."

It shouldn't be the result, the deity is not willing..."

Anyway, even if you pay a price, today... you must stay here! "

The thoughts flashed through the brain, and the three-legged golden eagle was screaming at the horror of the sky. At this moment, the extreme unwillingness and anger of his heart made him go out, no longer hesitate, and snarled: "Hey! Let's die, destroy... Light!" Day

There are only ten left beasts, and the void in the sky has changed. The teleport that could not be used is no longer suppressed. As long as Ye Xuan is willing to leave at any time...

These thoughts flashed in the middle, and the three-legged Jinwu was screaming out of his hair and shouting: "Oh..."

"It shouldn't be the result, the deity is not willing..."

"In any case, even if you pay a price, today... you must leave you here!"

For a moment, the extreme unwillingness and anger of his heart made him go out, no longer hesitate, and snarled: "Hey! Let's die... the light of destruction!"

Oh..."

With the last roaring out, the horrible figure of the three-legged Jinwu Panda, which is nearly a hundred million miles away, changes rapidly in an instant, and the form of the beastly beast is turned into a huge black gold day.

This round of black gold is as big as a billion miles, and it is very clear. In the big day, there is a very low humming sound in an instant, which gives a scalp numb invisibly, and it is extremely unpleasant... ..

This three-legged Jinwu, although not as powerful as the phoenix zerg who left the endless years before the worms in the forbidden land, has already entered the ninth-order grand perfection.

It is a heavenly will of a big world called Jinwu.

Before the golden Uganda world collapsed and was swallowed up by the endless stream of emptiness, the three-legged gold devours all the stars in the big world.

For this reason, this time, he will be invited by more than 30 powerful Tiandao in the league to join in as a leading figure to deal with Ye Xuan.

Ye Xuan has nine colors of flames in his hand, only to swallow the endless stars, even his own body has been turned into a fierce black gold Darius three-legged Jinwu, in order to resist the flame of the flames...

This has also been confirmed in fact.

Previously, Ye Xuanyuan just fell into the trap of dilemma. In the first time, he sacrificed the nine-color flame sea and turned it into a huge flame ball to protect the whole body. At that time, the three-legged Jin Wu defeated the flame ball and let Ye Xuan lose his support. Forced to fight.

But that time, although the three-legged Jinwu was a full blow, it did not use the strongest \*\*\*\* powers of the means. and

Now, seeing the chaos in the void disappears, Ye Xuan can leave with ease at any time, and his heart is extremely unwilling to take a sudden shot. Naturally, it is impossible to attack as usual. The underlying means have been activated. Up...

The low-pitched humming sounds, and the black gold day in front of the giant Pontian mile, blooms in a dark and deep radiance. The speed is far beyond lightning, and the spread is as if even the void is melted. There was a shocking and clear voice...

This black mang can ignore everything. Once it is touched, everything is destroyed, but the essence of the three-legged Jinwu extracted from the black inflammation of the world. It has been tempered in the body for many years, and it is like a black light curtain. Killing and killing...

Chapter 5122: Finally stepped in

"Hey!"

"Booming..."

At this moment, as the killing and smashing rushed toward Ye Xuan at a very high speed, the three-legged Jinwu also once again issued a terrible scream, his follow-up means did not hesitate, and then he fully urged...

In the earth-shattering roar, in the far away, the black gold day of the dark night of the dark night, there is an endless black flame storm rushing out, followed by a black-like ruined light, toward the leaves. Xuan is coming...

The light of destruction is his means of connotation. Once it is displayed, it will also be countered by itself.

After paying such a price, if he can't leave Ye Xuan, how can he be willing? tight

Followed by this black flame Dajiang, it is his means of just in case, a two-pronged approach, just to ensure that in case!

At this moment, everything that is manifested in the void is too fierce, and the strength of the momentum is even more shocking. One

The black light curtain with a diameter of 100 million miles, with lightning that surpasses lightning, is like an incomparable smashing world, and is swept forward by Ye Xuan. tight

Later, there was a black flame with a diameter of 100 million miles.

The tide of this black flame is like a ruin of the Nujiang River. It is poured out from the black gold day. The blink of an eye spans 200 billion miles of the void. It is only two or three billion miles away from Ye Xuan...

This hanging flame is condensed by pure black blood. Off

The black and fierce name of the world is only fascinating from its name. The flame energy of this top-of-the-range smoldering flame is like a violent fire. Therefore, if it is used to launch an attack, the black gold in the black day It is definitely not weaker than the Shennong nine-color flame. more

What's more, this three-legged Jinwu is also the peak of the ninth-order grand perfection. Even in this realm, the stability is still more on Ye Xuan. Now he is fully urging the black gold day, just like the Nujiang venting The horror of the black flame river that has been dumped is really imaginable. class

Like the black Yanjiang River, the nine-color flame ball that shrouded the shape of Ye Xuan had been smashed in one fell swoop. Now Ye Xuan does not have the ninth color flame ball protection. If it is hit by the black jiangjiang hood, it is not dead. It will also be seriously injured. more

What's more, in front of this fascinating black flame river, there is a roll of black light-like smashing, the atmosphere is more horrible, and the power is obviously stronger.

The two-attack attack is almost the ultimate in the three-legged Jinwu. Any ninth-order grand perfection of the peak Tiandao was attacked, and it is basically difficult to escape.

In the face of such a terrible attack, the other nine heavenly beasts still lingering in the distance around the void, and instantly stunned and fascinated, while the face changed greatly, but also in the middle of it, it was extremely fierce. Expected mans.

In their view, even if the fighting power against the sky, like the undefeated God of the Lord of the Temple of God, Ye Xuan, in the face of such an attack, if you do not withdraw from the dodge, then it will eventually be difficult to escape serious injury, even on the spot End.

Of course, there is still a suspense in this, that is, the bow of his sacral body in his hands..."

Oh..."

When this thought emerged from the brains of these nine heavenly beasts, Ye Xuan also had an action...

The violent smashing of the cold mangling flashed, but did not shoot, and the body of the sacrum in the three great devils, but in the middle of the scorpion, there is a fierce purple gold awn, the incomparable humming sound at this moment Resounding to the void...

In an instant, a mysterious breath is like a sullen sullen spurt, and the body of the sacral body is swaying. its

The left arm was suddenly lifted without any suspense. The empty left palm of the hand was golden, and a golden bow with an energy form appeared in his left hand.

It's a mysterious supernatural power---

What is the light of destruction? I have to say that the power is indeed extraordinary, even the temple, at this moment, suddenly gave birth to a feeling of horror..."

At the same moment, the mouth of the violent mouth outlines a sarcasm, and the voice of the gods also sounds for it, swaying the void: "Unfortunately, if it is faster than the speed, the bow of the temple is far away from your black mans. on....."

"Will the light of destruction? I have to say that the power is indeed extraordinary. Even the temple, at this moment, suddenly gave birth to a feeling of horror..."

With the black light and the black flame frenzy coming in and out at a rapid speed, the violent mouth outlines a sarcasm. leaf

Xuan's voice of the gods also sounded, and it swayed the void: "Unfortunately, if it is faster than speed, the bow of the temple is far above your black mans..."

"Hey..."

call out! "

The voice has not yet fallen, and the body of the cheekbones has loosened the right hand holding the energy bowstring, the emptiness of the air, a sharp to the extreme, and the sound of the eardrums resonating. Has

However, the energy arrow that fills the full force of the string is violently rushed away, and the breath is too strong, and it is simply ruined and ruined. This

When an arrow is shot, it seems that even the void is broken open instantly. The golden flow of the sinister shot, behind the black flames like a tail flame, the time is short enough to be negligible, this golden light whizzing away The arrow, in an instant, reached the front of the three-legged Jinwu, which is simply a teleport, the distance of the void is ignored, and it falls directly...

"hiss....."

This is impossible, how can it be so swift..."

For this scene, the three-legged Jinwu pours a sigh of coolness, and the sound of exclamation suddenly sounds. The black day hanging high in the void also has a dreamy wave. This is clearly a certain secret method. Move away from the rhythm. "

Oh la la..."

"Hey..."

The three-legged Jinwu rushed to want to walk away, completely let go of the control of the previous two attacks, the black light and the black flame frenzy instantly facilitated the collapse of the void, annihilated halfway. leaf

Xuan said yes, Hao Tian bow can ignore the space distance, the golden arrow is shot from the bow string, the next moment can be like moving around the void, appearing in front of the target, this speed, three The black light and the black flame frenzy that Zu Jinwu used to display are really incomparable...

This arrow gave him an unprecedented sense of a strong sense of life and death, and even the three-legged Jin Wu could not avoid it. So, he forced him to take it away and let go of the control of the previous two offensives. Everything is endless.

This is to kill and kill, the singularity of the scorpion bow ignores the power of the void, and makes everything a reality. This is exactly the reason why Ye Xuan faces his two wave of terrorist attacks, but it is still so calm and calm!

Unfortunately, although the three-legged Jinwu made the decision in the first time, even gave up the control of the previous two wave of terrorist attacks, urging the power of the body, the first time it was teleported, but the speed of the bow was too Fast, his disposition and reaction, after all, is still a half beat...

"boom....."

The earth-shattering roar sounded, and the glare went away. In an instant, it was already rushing to the front of the sky. At this time, the three-legged Jinwu, who was rushing to leave, was starting to turn

around. Day, still in the middle of a hustle and bustle, like a dream, obviously the teleport has not been completed..."

Oh..."

"puff!"

The screaming screams followed, and it was apparently from the mouth of the three-legged Jinwu, followed by a dull squeaking sound. This emptiness suddenly appeared a large black liquid, emitting a rich and infinite source of heaven. breath.

Obviously, the three-legged Jinwu was injured. Just like the previous sorrowful blue-eyed eyes, it spurted out a large class of heavenly source liquids that are like blood and blood.

It is also the will of the big world, and it is the intention to spurt this kind of heavenly black liquor under sudden injury. This

The Tianyuan black liquor of the Pengtian Road is like a rolling river, releasing a very strong atmosphere. The black mist does not hesitate. The first time, waving, the invisible power will wrap it up and directly income into the body. and

At this time, the shape of the three-legged Jinwu has also disappeared, and after being hit by a smashing bow, the teleport was finally completed.

I have to say that this is indeed a bit regrettable. The power of this arrow was originally enough to kill the three-legged Jinwu, but he is the old-fashioned peak of the early stage of the 9th-order grand perfection. They are slightly stronger and half-raised, the reaction is too fast, and the speed of the teleportation is not comparable to that of the ordinary heaven, and eventually escapes. If

It is this arrow Ye Xuan that can be on a very instant moment, or the reaction of the three-legged Jinwu is very slow, and the result may be completely different. He is very likely to fall. Do not

However, although the old guy fled, but it can be a good hit, but not to mention, Ye Xuan also charged a large amount of such a fascinating, like a river of heaven and earth, the black liquor, it is better than nothing. This

The kind of source liquid is a big world. After the heavenly will is severely damaged, it is like the liquid left by the flesh and blood, which is the most precious star space resources. It is extremely rare. Ye Xuan's hands did not exist, but today he also got the same. Two, it is not easy.

"Roar!"

"Hey..."

It's just that Ye Xuan waved the same moment that the canopy was like a rolling river. The black liquid of the heavenly source was in the same moment, and there were also a horrible arrogance and screaming in the air. . turn

Looking forward, the rest of the nine heavenly beasts are all exposed to the hustle and bustle, and the whistling sounds in the mouth are still not falling. They have already torn apart a void crack, slamming into it and leaving. It is.

Although Ye Xuan's only one arrow in the hand has already been shot, but the three-legged Jin Wu is seriously injured, which is why he did not personally shoot it before... he

However, the only peak force that can completely contain Ye Xuan from the front is now seriously injured and escaped. Not to mention that only the remaining nine are in the late stage, that is, the previous ten or so days are still here, and they are also under the joint Not the opponent of Ye Xuan. only

It was only by him that he was killed one by one. Therefore, the nine savage beasts rushed to the first time and did not dare to stay here..."

So good, for the time being, let's take a life, this temple is just taking this opportunity... Immediately retreat! "

In the whisper, Ye Xuan's figure swayed, and immediately rushed to the endless dark void in front of the right side of the left bank. This

In the first battle, he can be said to be killing the most. After a shot, the cheekbones are plunged into the shackles. They are also suffering from the mental energy transition and the brain is stinging, and the time to recover from the retreat and the impact of the 9th-order grand perfection has already occurred. arrival.....

He did not return to the right bank of the Galaxy. It would take a lot of time to come back after the customs clearance. In this case, it would be better to find an abandoned star retreat in the left bank.

Two days later, an abandoned star appeared in the far right side of the front side. Ye Xuan's mid-cold man flashed, and immediately rushed to the past, directly into the interior of the star nucleus, and waved the Shennong Baoding. "

call out....."

Baoding appeared, only a large size, hanging inside the star nucleus, the breath converges without revealing the body, Ye Xuan step into it...

Fang, an abandoned star appeared in the dark void in the far right side! leaf

Xuanyuan Zhonghan Mang flashed, and immediately rushed to the past, directly into the interior of the star nucleus, waved the sacrifice of Shennong Baoding, Baoding appeared, only the size of the sky, hanging inside the star nucleus, the breath converges, Ye Xuan stepped into it...this

Once, he not only shocked the 9th-order grand sacred, but swallowed a 30-level Tiandao Baodan after the breakthrough, officially impacting the heavens, and will also be completed in this retreat. Session

There must be a leak in the air, so you can't sit on the top of your mouth and start all this... he

Waiting for this day, I have been waiting too long for too long...

After entering the space inside the Ding, Ye Xuan's body appeared from the heights, falling on the edge of the volcano in the central area, and the squatting in the middle of the volcano, when sitting on the side of the volcano in the central domain, sat down. "

Oh..."

During the wave, with the faint sound of breaking the air, there was a rush of anger and hang out in front of him. It was the cultivation resources that he took out from the immortal world to develop this breakthrough! but

This time, Ye Xuan did not take out the 30th-level Tiandao Baodan, because his own real cultivation is only the absurd eighth, but not when he swallowed Tiandao Baodan...

Without hesitation, there was a flash in the middle of the gloom. Ye Xuan even spurred Shennong Ding's domain power, and compressed all the cultivation resources to the size of the baby fist, and swallowed it in the belly. "

Oh la la..."

The entrance of the baby fist ball is instant, and the blink of an eye becomes a powerful river that can be swayed by the power of the dragon.

Unexpectedly, the sound of the chain squeaking sounded over and over again. This time, the chain of shackles appearing in Ye Xuan's body is still the same as before. After entering the ruin, the situation of two shackles has appeared at the same time. Extremely rare. deep

Take a breath, Ye Xuan sighs and sings, fully urging the energy that has just been formed in the body, and the next big day runs in the whole body...

The one-time war was equally fierce, far surpassing the past, and his brain is still stinging with it now, which is the sign that the spiritual power is over-consumed.

In this case, if the cultivation resources are swallowed and swallowed, the refining and chemical absorption will be smoother.

I don't know how long it took, and the hanging energy that formed in Ye Xuan's meridians has been completely refining. Then, just a shock, this stout chain has been broken. when

The chain of the cockroach was completely broken, and the system prompt sound was expected, and it soon sounded in Ye Xuan's mind..."

Hey, congratulations to the host, the breakthrough of the ancient realm of the hole! The current realm: the ancient and the supreme nine-order great perfection! ""

Hey, congratulations to the host, the breakthrough of the body and blood! The current realm: the ancient and the supreme nine-order great perfection! "shortage

Respecting the ninth-order great consummation, I finally entered the realm of the peak of the ruins. Now, even if he does not activate the blood and magic of the konjac, it is already a half-step!

With the completion of this breakthrough, Ye Xuan already has the ability to swallow a 30-level Tiandao Baodan, and this is the qualification for impacting the heavens...

Previously, his own cultivation has reached the eighth level of absurdity. Once Ye Xuan activates the \*\*\*\* magical power of the konjac, his cultivation will instantly reach the nine-order great perfection of this situation, which is the peak of the absurd.

And every change of the konjac will change it to the first step. Yes

Therefore, after entering the ninth state of change, the former Ye Xuan, the strongest combat power has reached the nine-step grand perfection of heaven and earth, that is, the peak of heaven!

But now, with his breakthrough again, his own cultivation has reached the level of the heavens and the nine steps, then, once the activation of the konjac and the blood of the magic, you will have the first-order power of the heavens. again

In addition, when the konjac changes, once it is applied to the ninth change, in that state, Ye Xuan's cultivation will once again skyrocket a big world, reaching the first stage of Hongmeng Avenue after the heavens...

Of course, this is only a theoretical statement!

According to Ye Xuan's speculation, this situation is obviously impossible to appear, and it is a kind of extravagant hope.

Because there are still two great realms after the Heavenly Kingdom, that is, the Hongmeng Avenue and the supreme chaos.

But even in the emptiness of Hongmeng, the supreme chaos is only a mysterious realm in the legend, and it has not appeared. Hongmeng's void is like a reincarnation of the Hongmeng era. Each era has three thousand chaotic devils as chaos. The seeds are scattered, just to seek the opportunity to change to the level of chaos...

That is to say, in the void of Hongmeng, the environment of Hongmeng is actually the strongest realm. This situation is the same as that of a big world. So, here, there must be the suppression of Hongmeng Avenue, and one Heaven is suppressed in the big world.

To put it simply, it means that in the void of Hongmeng, all kinds of secrets of improving and repairing strength can only be effective under the Hongmeng Avenue. It is impossible to obtain the power of Hongmeng Avenue directly through various methods of blood and secrets...

However, this is still only his guess, whether it is true or not, it has to be verified.

He immediately unfolded, but the results were regrettable, and his speculation was confirmed. "

Although I am somewhat disappointed, I may try again after entering the heavens..."

Just like a nightmare, he whispered in a whisper. Ye Xuan squeezed his fists and shook his fists. He didn't hesitate, and he slammed in the cold, and suddenly waved again...

Oh..." with

With a faint sound of broken air, there was a rush of anger and hang out in front of him.

It is the cultivation resources that he took out from the immortal world to develop this breakthrough. The most important one is a 30-level Tiandao Baodan.

Soon, he urged Shennong Ding's domain power, compressed all the cultivation resources to the size of the baby, and then swallowed directly into the abdomen, closed his eyes, excited, and launched the final impact..."

Oh la la..."

The sound of the chains in the material is overwhelming. Although the chain of shackles that appeared this time is still only one, it is very strong. After all, it is the bottleneck of the big realm. It is not the same.

He fully urged the body of the energy formed in the body of the river, in the midst of the whole body to carry out a major Sunday operation, gradually forgetting the existence of time, caught in it, like crazy.

I don't know how long it took, and the energy of this big river was completely refining, and then, just a shock, this stout chain was slammed. period

The system prompt tone is still ringing in Ye Xuan's mind..."

Hey, congratulations to the host, the breakthrough of the ancient realm of the hole! The current realm: the first step of heaven and earth! ""

Hey, congratulations to the host, the breakthrough of the body and blood! The current realm: the first step of heaven and earth! ”

Tiandao first order! from

The real cultivation is the strength, and finally officially entered the heavens!

Chapter 5123: Ye Xuan’s Heavenly Road Robbery

"Hey, congratulations to the host, the breakthrough of the ancient realm of the hole! The current realm: the first step of heaven and earth!"

"Hey, congratulations to the host, the physical and qi and blood boundary breakthrough! The current realm: the first level of heaven and earth!"

The breakthrough was successfully completed, and the system prompt sound in anticipation was also sounded in Ye Xuan’s mind at this moment, which made him feel refreshed and excited!

Tiandao first order! from

The real cultivation is the strength, and finally officially entered the heavens!

Although his strongest fighting power before retreat, he has reached the ninth-order great consummation of heaven and earth, which is the peak of the situation, but it is to activate the \*\*\*\* magical power of the konjac in the body, and to spread it to the ninth. After the result.

I really want to say it, it is not the strength of Ye Xuan’s own cultivation. but

It is different now, and he himself has entered the heavens. This is absolutely different.

After rehabilitating the excited mood, Ye Xuan grew up and directly activated the \*\*\*\* magical power of the konjac, and the strength of the cultivation suddenly rose to the second level of the heavens. tight

Then, he showed this magical power to the ninth change, and his heart also had a glimmer of hope...

Unfortunately, the result made him sigh again. No

Useful, still subject to the suppression of Hongmeng Avenue, his repairing strength has not reached the first step of Hongmeng Avenue, but still stays in the Tiandao Jiujie Great Consummation.

That is to say, even if his own cultivation is a breakthrough in the territory of Tiandao, even if he reaches the peak of the ninth-order grand perfection, after activating the \*\*\*\* magical power of the konjac and transforming it into the ninth. Ye Xuan is also unlikely to get the power of Hongmeng Avenue in advance in this way. except

Not his own cultivation as a strength to break through a big realm, so that he really entered the Hongmen Avenue.

Of course, although this time the retreat, after two consecutive breakthroughs, his cultivation is now the peak of the nine-order grand perfect, but the peak of Tiandao is also strong and weak. example

For example, the three-legged Jinwu, which he had previously hit with the scorpion bow, is also the peak of the ninth-order grand perfection, and its combat power is stronger than Ye Xuan.

But today's Ye Xuan, after two small breakthroughs in a row, the state of cultivation in the ninth state has not changed, but the combat power has soared a lot. According to his estimation, it should be the same as the original and the three feet. Jinwu's flag is quite...

That is to say, now, in the state of the ninth peak, even if it is not the bonus of the supernatural powers such as Tianzhu, it is only its own strength, among the numerous beasts on the left bank of the Galaxy. It has also entered the top ten. when

Of course, it is the existence of the bottom! "

Actually it has been half a year..."

The time of the year is not long, but it is not short, but it is not too short. It is enough for a lot of things. I think of the blue sky and the green eyes. I think of the three-legged Jinwu, and the more than 20 heavenly beasts that escaped at that time. Flashed a touch of cold... if

It's just that these guys are a little bit honest, and they give them a good time. Otherwise, if someone bans the magic hall in the first half of this year, Ye Xuan is furious and is afraid to wash the entire left bank of the Galaxy.

Now, he already has this qualification and ability.

"Congratulations to the Taoist friends, a smooth breakthrough, and entered the ... heavenly state!"

Just at this time, a figure spurred, it was the shofar that was previously taken care of by him in Shennong Ding. old

The guy apparently looked at the distance long ago, and most of them waited for half a year, but they didn't dare to come and disturb. Now they are also seeing Ye Xuan's smooth breakthrough, and they will dare to show up.

As the voice of the voice rang, the shape of the shofar was quickly settled in front of him, nodding his face, and respecting the color of his face, but there was a stun of the stunned and unrecognizable Of course... first

Before, when Ye Xuan overwhelmed the entire worm, he thought that Ye Xuan was a nine-step grand perfection. Until Ye Xuan entered Shennong Ding six months ago, he made a first breakthrough and he was shocked by Ye Xuan. The real cultivation is actually only the eighth order. This

He has made him feel terrible, and a ridiculous eighth-order has completely ruined the entire worm's forbidden land. If this matter is passed out, it is feared that the entire Galaxy will be stunned. and

What is even more terrifying is that this eighth-order ridiculousness is only a retreat. It has broken through twice in succession and directly entered the first step of heaven and earth. This kind of cultivation speed is unprecedented, and it is unprecedented that it is unprecedented.

Yang Jiaoxian had heard about everything related to Ye Xuan before, but he didn't believe it. Now he saw it all with his own eyes and completely obeyed it. with

At the time, his heart changed. When he decided to go to the right bank, he left, but now he decided to stay with Ye Xuan.

This kind of enchanting existence is unique. In the legend, he is still even preparing to refine the Hongmengbao medicine that has a miraculous effect on the Hongmeng Avenue after the Heavenly Way. If he is next to him, he will serve the good life. In the future, this kind of Hongmeng medicine refining Come out, or get close to the water, the first month, how much can be rewarded...

For the idea of this guy, Ye Xuan saw it at a glance. This

The sample is also good, although the strength of the cultivation of the shofar is weak, only the first step of the heavens, but he is an extremely old Zerg, otherwise it is impossible to know about the Hongmen Avenue. stay

He is also a good choice when he is around. If he has doubts in the future, he can always ask the old guy. more

Moreover, people are weaker. After all, it is also the existence of heaven and earth. The entire magic hall has not yet had a few heavenly-level combat powers. The shofar can stay and benefit the magic hall.

I thought about it, Ye Xuan even smashed with the horns of the horns, and finally waved a canopy like a giant phoenix, and then did not pay attention to the shock of the spot, fell into a sluggish horn When the figure is swaying, it will be out of Shennong Ding.

"Hey..." from

After Ding's out, Ye Xuan waved his hand into Baoding's body. At this time, his air leaked and was felt by the outside world. In a moment, he attracted his own Tiandao Thunder...

"boom!""

Rumble..."Star

At the height of the void outside Chen, suddenly there was a thunderous roaring sound, and a thick robbery cloud shrouded in a cloud of billions of miles. This is clearly a thunderstorm, and the atmosphere is extremely strong.

All this is just the beginning. It's only counted in the past. The black robbery cloud gathered from the air has reached a billion miles away. They are all shaking.

In general, the thunder of heaven, it is obviously impossible to have such a horrible power. This is a variegated heavenly robbery. This was the case when the devour of the treasure was encountered.

It can be said that even in the mid-term existence of the heavens, under the ravages of this robbery, it is necessary to take off a layer of skin, but Ye Xuan is completely fearless, because he simply cannot shake him..."

boom! ""

Rumble..."

As Ye Xuan walked out of Shennong Ding, the sky above the stars, suddenly there was a thunderous roar, and the black robbery cloud gathered from the sky was already a billion miles away...

Looking at the head, the vast expanse of the sky was shrouded in turmoil and robbery clouds, as if the end of the day was coming, the void was trembled...

Ye Xuan's Heavenly Thunder robbery... Come down!

Moreover, it is obviously impossible for the general Tiandao Thunder to have such horrible power. This is the variability of the heavenly robbery, as it was when the engulfing treasure was first encountered.

Even if the existence of the middle of the heavens had to take off a layer of skin, but Ye Xuan was completely fearless, because he could not move at all. to

For him, even if this kind of variability is a catastrophe, it is just a kind of tempering and baptism for the realm that he has just broken through.

"Hey..." brain

In the flashing of these thoughts, Ye Xuan immediately swayed into a shape, turned into a violent form, the body shape only succumbed to the heights, the self-enclosed star within the star nucleus rushed out, to the dark void outside the stars... ..

"Booming..."

"Card!"

At the time, the roaring cloud of the sky was already more arrogant. shock

In the roar of the thunder of the sky, a crisp and tremulous sound of cracking sounds, this piece of horror robbery cloud that covered the void of tens of billions of miles, finally smashed a \*\*\*\* lightning.

The diameter of the robbery is 50 million miles, the thick and terrible, the ruin of the invisible, even if the existence of the heavens has changed, but Ye Xuan is completely fearless, and his mouth is smiling. It's violent, it's head-on..."

boom! "

The shocking explosion suddenly broke out. Just in the moment when Ye Xuan's figure and the \*\*\*\* robbery touched it, the horrific hijacking of 50 million meters in diameter has been fully exploded and turned into a thunderous lightning. The ocean, covering the violent body shape, is like drowning... just

At this time, in the dark void in the far right side, a mile was rushing past, about the distance beyond the trillions. or

Perhaps because of the violent thunder of the air, the original manga that had passed through the void from the trillions of miles, suddenly stagnate, then turned around and rushed over here.

Within a mile, there is a faint whisper that can be heard in the vaguely: "Hey? Heaven and the thunder, it is still a violent catastrophe..."

"It seems that just breaking through and entering the heavenly territory is mostly a starry beast, and the blood in the body must have something extraordinary. This is a chance, it can be a big deal..."

The whispering voice rang, this glare rushed, the speed was too fast, and a moment later, the dark void from the thunderstorm area was only 200 billion miles away, and stopped suddenly. An old man who is dressed in a yellow robe.

This is obviously a true beneficiary of the benevolent, not a beastly beast, because the breath that is diffused in the body is completely different from the abundance and brutality of the starry beast.

The surviving strongman is also a heavenly existence, and the strength is not weak, reaching the late stage of the seventh stage of the heavens. However, although the strength is extraordinary, the appearance is somewhat too cumbersome.

The triangle eye is like a soy bean. It is like a sore nose, and its head is as big as a bucket. Even the wretched appearance of the horned horns looks much more comfortable and pleasing than him...

Moreover, the temperament of the shofar is inferior and timid, but it is timid and timid, but the seventh-order temperament of the late Tiandao repaired by the survivors is not only more cumbersome, but also reveals a strong sinister and hot meaning!

This point, listening to his words can also see a little bit, he is clearly the Ye Xuan who is being robbed, as a starry beast that has just broken through to the heavens. and

The general starry beast is obviously impossible to attract the mutated heaven and the thunder, which also shows that there must be something extraordinary in his blood. And

This kind of variability of the heavenly thunder, it is the fourth-order repair of the middle of the heavens to go to the hard, I am afraid that will also fall to the end of the delamination, so in his view, Ye Xuan is bound to be able to spend, must Under the thunder.

For him, this is a good opportunity for a big bargain. This kind of blood is special, and there are extraordinary stars and beasts. The body must be like those congenital beasts. It has Tianmu, Dzi Bead, Tiandan or Tianrong. Something like that.

After the fall, these things have undergone the tempering of the catastrophe of the catastrophe, and the effect is bound to be better. At that time, after the looting, he will collect it at the first time. Isn't it a big bargain? more

What's more, the benefactors are good at smelting blood and meat. The main material of flesh and blood is the various blood materials in the flesh of the starry beast. It is not easy to hunt and kill the starry beasts. Such as

Today, when I hit a presence that is about to be killed by the tyrannical thunder, I don't have to use his hard work. When I return to the thunder, I can collect the fresh flesh and blood of a heavenly beast. It's just a drop in the sky...

In the middle of these thoughts, the corner of the seventh-order survivor instantly outlined a smug smile. He did not rush to start, because it was only the first wave of hijacking, and the other party could kneel down. Do not

It doesn't matter, this kind of mutated thunder and robbery can be too strong, just broke through the starry beasts of heaven and earth, even if the blood is going against the sky, at most, it will be a three or four wave, and it will soon fall down..."

boom! ""

Rumble..."

Here, the seventh-order survivors waited eagerly for the end of the thunder, and the imaginary airs of the two hundred billion miles, the thunderous roar of the rumble did not stop for a moment.

Time passed slowly, and the road was smashed down, but Ye Xuan's figure was still motionless. He was shrouded in a glimpse of a mile of light, and he could not see his figure but could distinguish him. The state is extremely stable, and the atmosphere is very strong. It is obviously not hurt by the thunder.

"Card!"

At the time, the roaring cloud of the sky was already more arrogant.

In the thunderous roar of the thunder, a crisp and trembled sound rang, this horrible robbery cloud that covered the tens of billions of miles, once again smashed a \*\*\*\* lightning. This

It is already the sixth robbery of the robbery. Its diameter is still 50 million miles. It is thick and terrible. The ruin of the invisible air is fascinating...

At the moment, the seventh-order survivors who waited in the air for more than 200 billion miles here subconsciously held their breath. As if they were conditioned, they hung their hearts to the eyes of the blind, and the look on their faces was revealed in the dignified... first

Before, he estimated that the starry beasts in the awning light group in front of him would end up with five waves of hijacking.

But in fact, after the fifth wave of robbery, the breath in the light group of ten thousand miles away, there is not much change, still strong and full, as if the previous five waves of robbery The root of 劈 is not his general..."

Card! "

Two hundred billion miles ahead, in the thunderous roar of the thunder, a crisp and trembled sound rang, and the sixth blood-stained lightning with a diameter of 50 million miles collapsed, and the body will be covered with Ye Xuan. The thousands of miles of light curtains are completely submerged...

At one moment, the seven-order remnant of the distant view on this side subconsciously referred to the eyes of the blind man, and revealed the meaning of the expectation.

Previously, Ye Xuan even smashed five waves of robbery, but the breath did not change, which made him very surprised. but

At the same time, there are also sneak peeks, because this is enough to illustrate the starry beast that has just broken through to the heavens, and the blood in the body is absolutely extraordinary.

Otherwise, after the connection of five mutated robbers, it is impossible to have such a long and deep breath...

For him, this is a good thing, because the next four waves of robbery are absolutely unstoppable, and ultimately it is still a death, and the more extraordinary the blood, and ultimately their own harvest, will be even more gratifying...

However, the result made him stunned. After the sixth wave of robbery, the Yili Leihai, which was blasted, quickly dissipated, but the huge illuminate of the tens of thousands of miles still stood in the void and dispersed. It is indeed the breath of the starry beast, and it is indeed the first step of the heavenly road that has just been broken. This is no problem. turn off

The key is after the sixth wave of robbery, the atmosphere of this starry beast is still very strong, as if it has not been thundered just before..."

Is it immune to lightning? What is this blood? "

Looking at the scene in the distance, the seven-order relics were a little straight, with a slightly open mouth and a dull face, as if he had been thundered by him...

Judging from the sound of a nightmare whisper from his mouth, this old guy apparently saw Ye Xuan as a star-studded beast with a special blood on the immune power of the thunder. This

Originally it was the only explanation, otherwise it would be unreasonable to do all this happening in front of the void.

All of this flashed through, and the seventh-order survivors were shocked, but the greed in their eyes was also stronger.

The blood of the lightning immunity is unheard of, absolutely amazing, if you can get the treasure of the treasure after the failure of this starry sky, the flesh and blood is used to smelt the flesh and blood, and the materials related to the lightning immune vein in the body are used for refining. The magic weapon, the harvest must be amazing.

At this moment, his shackles are not only greedy and prosperous, but even faintly revealed a sense of guilt, the heart is already determined to win, even if this starry beast does not fall in the thunder, he will also kill and kill . Legacy

The people and the beasts were originally dead enemies, let alone the treasures in front? This

There is absolutely no psychological pressure on him to do things. when

However, this is also impossible. It is not necessary for him to take the shots, because the next three thunders, this starry beast that has just entered the heavens and the earth must never spend.

After all, the power of the last hijacking will be doubled. After the ravages of the previous eight hijackings, even if this starry beast has a \*\*\*\* immunity against lightning, it can be repaired to be there, any Blood stimuli need to be repaired and consumed.

After the loss of the first eight waves of robbery, he simply couldn't support the last robbery. Even if he had the blood of the lightning immunity, the inability to motivate was also awkward, and eventually he would fall...

.....mine

In the middle of the sea..."

Rumble! "

"Card..."

The sky above the head, once again came the earth-shattering thunder, looked up, the eighth robbery crashed, but Ye Xuan was completely unmoved, and even the mood did not have a half-wave.

That's how he carried his hands and feet in the void, and his body was shrouded in a curtain of tens of thousands of miles. This was done to avoid the other strong people passing by and seeing his figure. Instantly reveal identity.

Soon, the robbery fell into a vast and innocent Thunder Sea, but Ye Xuan still bears his hands, and it is strong by it, and the breeze passes through the hills. no

Thunder into the body, baptismal body, forging and quenching the soul, finally let the leaves of the heavens after the breakthrough of the road to repair completely solidified.

"So, this last ninth wave of hijacking, there is no need to waste it, to continue to scrub itself..."

In the whispering whisper, his sorrowful flashes, no hesitation, and between the waves, Lei Diyin immediately spurred out, greeted the storm, dripping and turning around, and took out the thousand that shrouded his figure. The light curtain of Wanli is outside the light curtain..."

Card

It was at the same moment, the unprecedented blast of the sky came, and the vast robbery clouds in the sky were raging and violent, and a horrible blood battery with a diameter of 100 million miles went down...

With the \*\*\*\* robbery that doubled in diameter, the vast robbery cloud shrouded in the void was also dissipated in an instant, and all the violent thunder forces contained in the robbery cloud were all integrated into this horror. In the middle of the robbery.

At this moment, there is nothing in the void, except for the horrible blood of the billion-thousand-thousand-thousand-thousand-thousand-thousand-thousand-thousand-thousand-thousand-thousand-thousand-thin Lei Di Yin, who swayed through the whistle...

The Emperor-Indian Lei Ling in Lei Di Yin is now gone, and entered the source nest star to steal the sky, but Lei Di Yin was originally a congenital Leiyuan Zhibao. After absorbing this robbery, more power is stronger. The thunder of the thunder, the future will be even more amazing.

"hiss....."

Congenital Leiyuan to treasure? It turned out to be..."

At this moment, with this last hijacking, Lei Diyin rushed out of the tens of thousands of miles of light curtains shrouded in the shape of Ye Xuan, and went to the blood of the diameter of hundreds of miles, 200 billion miles here. The seven-order remnant of the squatting outside of the sky was also a cold breath under the madness of the body, and he was exclaimed. This

For a moment, he finally understood.

This starry beast has no \*\*\*\* immunity against lightning. He can be harmless under the previous eight-wave robbery. Even the breath has not changed. It is because of all the corruption. The robbery in the curtain of the light did not touch his body at all.

All of them were absorbed by this innate Thunder Source.

It's a coward, and I'm not even afraid of a wave of thunder. I'm afraid that it's because of this fall. Do not

However, this guy's blessing is not bad, even this rare innate Ray Source to treasure can be obtained, the dog is really too bad. but

For him, this is definitely a terrible good news. Compared with the blood of the lightning immune system, the value of this innate Ray Source to the treasure is even more amazing. It is not necessary to refine it. After grabbing it, it will directly refine it. Can be..."

It seems that this last ninth wave of hijacking will also be swallowed up by this innate Thunder Source."

Thinking of this, the seventh-order remnants are moving, and then hesitating, whispering a whisper, even when they rushed out: "But it doesn't matter, don't dare to blame, still can't escape, and the big man will send him a ride." Yes....."

Chapter 5124: Fully expand

"It seems that this last ninth wave of hijacking will also be swallowed up by this innate Thunder Source to Bao, but it doesn't matter, dare not smash, this person still can't escape death, big deal, the devil shot... send him a ride That's it!"

Thinking of this, the seventh-order remnants were impressed, and then hesitated, whispering a whisper, even when they rushed out.

The power in the body is even more motivated to the extreme. The whole figure is like a yellow lightning. The blink of an eye spans two hundred billion miles, and it is close to the light curtain that covers the shape of Ye Xuan..."

Roar! "

"Booming..."

Perhaps because the heart is too violent, at this time, the figure reached the front and back of the light curtain, the seventh-order remnant of the head screamed, just like a fierce animal roaring, revealing a violent tyrannical power. with

At the time, the right arm of the body was also abruptly displayed. The late stage of the heavenly road in the seventh-order body was repaired as a full-scale sensation, and a punch slammed into the twilight cover a million miles away..."

Ok? "

In the curtain of the light, Ye Xuan turned to look forward to seeing a strong person in the yellow robe and rushing to the front, not to mention, the fists were banging, even when frowned.

In fact, when the old guy just came over, Ye Xuan had already discovered him, but he ignored it.

After all, the other side is only in the void of 200 billion miles away, far away, and he has this layer of light covering the whole body, the outside world can only sense the air machine, but he can't see his body shape at all. Ye Xuan is not worried about leaking his whereabouts. more

What's more, although this old guy is not weak in repairing strength, he has reached the seventh stage of heaven and earth, but it is the existence of this period later, but he is not a starry beast, but a deserted survivor. Correct

In Ye Xuan's case, the survivors of the ancients have no value in hunting. After the hunting of the starry beasts, the flesh is exploding and there are endless fierce beasts, which can be used to refine the blood of the beast.

But the benefactors are as strong as human beings, and there is no such thing as a fierce beast. Even if it is bombarded with its flesh, it will be a flash of blood, accompanied by the disappearance of energy...

It is not useless to say, but compared with the savage blood of the starry beast, it is worse than a little bit, not a level at all. again

Then, the survivors are actually human races. The \*\*\*\* fog of the starry beasts is not under pressure. The refining can be directly swallowed after blood purification, but the blood and fog of the human and the benevolent strong body, he is How can't you swallow it...

Therefore, he was too lazy to pay attention to the yellow robe remnant, but the other party did not know how to live and die, taking advantage of the last powerful power of the sky, the opportunity of the \*\*\*\* robbery, suddenly rushed over, this is clearly to kill people to win the treasure The rhythm...think

At this point, Ye Xuan's face was gloomy in an instant, and the ancient survivors were lazy and careless, but they did not mean that they could let the other party in front of themselves, let alone the killing of treasures... ..This

At the moment, Ye Xuan's heart kills the machine, and the \*\*\*\* magical power of the konjac is changed, and it is directly applied to the ninth change, and the wave of the body will directly cover the body. Withdraw! "

Oh la la..."

It was at the same moment that the horrible \*\*\*\* robbery that reached the height of 100 million miles in the sky was not in the thunder.

The faint sound of breaking the air blew up, and the thunder of the \*\*\*\* robbery was swept away. It instantly turned into a purple gold mang, and broke into the eyebrows of Ye Xuan, and disappeared. Look

In this scene, the seven-order remnant of the slamming bangs flashed, and it was violently violent: "The \*\*\*\* guy, hand over Lei yuan to the treasure, otherwise you will smash the soul... oh yeah..."

However, the words in the mouth have not been finished yet, and his figure has suddenly violently shaken, and his face slammed and stopped. Even the fist that smashed out was like a conditional reflection, forcibly collected. Almost in the back, I will squirt my own blood on the spot...

In the line, the hood of the tens of thousands of miles in the void in front of the millions of miles has disappeared, and a violent temper appears in the void, and the figure is only able to rise.

Originally nothing, he has long believed that the existence of the curtain inside is a starry beast. Although the violent body that appears now is small, it is indeed a starry beast.

The key is the refinement of the body in the other body...

Good heaven first step? Say good, just broke through?

This should be true. Didn't there be a heavenly thunder? but

At the moment, after the disappearance of the light curtain, the starry sky that emerged from it is violent, and the repaired air that is dispersed in the body is clearly stronger than itself, and it is not only stronger than a little bit.

This is a peak of heaven and earth in a nine-step great perfection. Even if it is just entering this world, the atmosphere is too majestic, just like the endless star-like, giving people a deep and unpredictable feeling. This

It is definitely a veteran peak of heaven. It has been a long time since it entered the 9th-order Grand Contest, but...has he swollen until now?

These thoughts flashed through the brain, and the seventh-order remnant felt that his whole brain was smashed, and there was a feeling of being miserable. This is a peak of heaven, but he is only seven steps in this world, actually shot at others, but also wants to kill. Bao, screaming to hand over Leiyuan to treasure, otherwise smashing souls.

This is simply the rhythm of the old birthday star hanging on the living. This

For a moment, his heart is simply collapsed, and the intestines of the repentance are all green. I can't wait to give myself a few big ear brackets on the spot. If I don't take out the nosebleeds, it's not enough to hate. but

Now obviously not the time of entanglement and regret, after the disappearance of the front hood, the starry sky suddenly appeared in the void, but it is only a million miles away from him. This distance is strong for the heavens. Words are simply negligible. do not

Seeing each other seems to be a leisurely walk, slowly stepping into the air, but in fact, the suffocation can come to his eyes.

In fact, the distance of a million miles away is clearly close to the body of the heavens and the strong can not be close, and people can shoot at any time, and they are equivalent to in front of his eyes, there is no escape.

When I thought of it, his body shape suddenly slammed, and the cheeks on his face were twitched uncontrollably because of the terrible horror of his heart. No

He was hesitant, and he immediately squeezed out a smile that was more ugly than crying. He smiled and laughed out loudly: "Hey, this friend, don't be impulsive, this is a misunderstanding, the old man I... just Just kidding with the Taoist!"

Are you kidding? It doesn't matter..."

Words, Ye Xuan's heart even when sneer, the violent mouth outlines a touch of fascinating smile, giving people a feeling of savage. slightly

After the meal, the voice of the gods sounded again: "Exactly, the temple also likes to make jokes on weekdays. Since the friends have this interest, then today, how can you learn from me?"

"Roar....."

The voices were degraded, and the violent crickets flashed in the cold, and suddenly they screamed, and the power in the body was instantly pushed to the extreme, under the arm, and punched out..."

It's just that the temple also likes to make jokes on weekdays. Since the Taoist friends also have this interest, then today, you and I will be good... How about learning? ""

Roar....."

The voices were degraded, and the violent shackles flashed in the middle of the cold, and suddenly screamed, the power in the body was instantly pushed to the extreme, under the arm of the exhibition, a punched out...

"boom!"

Rumble..."

This boxing, Ye Xuan used all the strength of the body, he just retreat, so that his true cultivation as a realm into the heavens, is trying to find a personal try, now can hit an unopened guy to come to the door Looking for death, naturally will not be polite!

The power is too majestic, and it reveals a horrible violent and violent meaning. It seems like a simple punch, but the roar is terrifying, even surpassing the previous Tiandao thunder.

Outside the invisible punches, the voids are rapidly collapsing, and it's amazing and chilling..."

Daoyou is quick to stop, have something to say..."

At the moment, the entire body of the seventh-order relics was violently shocked, and the face was changed with great temperament. For example, when the ice cave fell, the complexion turned white and suddenly, and suddenly hurriedly explained again: "Misunderstanding, the old man promises that this It's a misunderstanding..."

It is a pity that Ye Xuan is totally unmoved, and the eyes are sturdy and sturdy. The coldness and ruthlessness of the body are filled with the killing of the body. This is clearly the iron heart to punch the seventh-order survivor. The rhythm of the bombing.

"Hey..."

"The old man is unwilling... violent, you will kill if you don't speak, and you will be murderous!"

boom....."

In desperation, the seventh-order remnant of the screaming of the hair, the sound of the gods, while the power of the body was also spurred to the extreme, more than 90%, all poured into the magic of the life.

In the next moment, his flesh exploded and blasted into a tiny \*\*\*\* fog. Among them, there was only one man who only pointed to the size of the belly, and appeared in the blood mist. Under the flash, he directly broke into the void. In this, it disappeared.

"This life magic message?"

Seeing this scene, Ye Xuan's faint glimmer, whispering...he

At first glance, I saw the clue. At the last juncture, the seventh-order remnant was sorrowful, but unwilling, so that most of the body's power was injected into the magic of the life, and the power of the flesh exploded. Tearing the void, the shackles will send the magic weapon into it. only

The purpose of one is to communicate, and this life magic weapon can't exist for a long time. His soul is already smashed, and this life magic weapon is connected with it. Now it is only forcibly supported. At the end of a pillar of incense, it will Explode, and the smoke will disappear.

The blood of the strong people is too weak, and it is impossible to refine it into blood. Therefore, the blood-frozen leaves scattered in the void are lazy to collect, and in the middle of the cold, he suddenly waved..."

Oh..."

The air was torn open with a crack, which was exactly the position of the former seventh-order remnant of the sacred magic weapon. Then, Ye Xuan immediately sent a glimpse of the gods and went along the crack, but it quickly wrinkled. brow.

Muttered: "Quiet, I can't trace it..."

Although it is somewhat disappointing, it is not surprising. After all, it is a late heaven in the seventh-order world. It is understandable to master some extraordinary secrets. although

However, he did not find the original magic weapon that he had taken away, but Ye Xuan did not put this matter in his heart, but it was only a treasure of communication. Since it is a legacy of the people, it must come from a strong star ruled by the ancients. area. and

Ye Xuan is now visiting the forbidden land, and the hereditary star field is basically not interested in getting involved. Therefore, even if this message is delivered to the destination, it does not have much impact on him. more

What's more, today's self-cultivation has entered the heavens, and in the state of activating the ninth change of the konjac, and exerting the ninth change, the strongest force is even in the ninth-order grand perfection. Among them, they are all in the ranks, what can they fear? One

In response to this, he quickly threw the matter behind his head and turned his head to look around the void for a moment. Then he waved again to tear open a crack in the void, and as soon as he swayed, he stepped into it. The body shape disappeared and disappeared. ...

...

The left bank of the Milky Way, another remote area in front of the right side of the vast dark void...

"Oh..."

The brittle cracking sound came, and a crack appeared in the dark void. A figure came out of it. It was Ye Xuan. Now he has restored the true colors of the Terran, but he is still in the ninth. Under the state of blood and blood.

Therefore, the cultivation of the air that is diffused in the body is extremely strong, and it is among the peaks of the ninth-order grand perfection.

After leaving the land of the best robbery, he did not immediately return to the right bank of the left bank to retaliate, but still stayed in the vast dark void in front of the right bank of the left bank, but changed a place.

The reason for this is that he still has one thing left unfinished, that is, the thirteenth level of Hong Meng Bao Dan perfect Dan Fang's deduction.

He has already determined that in this piece of Hongmeng, any secret law and supernatural powers will be suppressed by the invisible invisible in Hongmeng Avenue, and it is impossible to obtain the power of Hongmeng Avenue in advance through the way of secret law and magical power. Such as

Therefore, it is only possible to break through the retreats once and for all, so that their own cultivation is the realm and truly enter the realm of Hongmeng Avenue.

Although he has just entered the heavens and the real world, his true cultivation is still only a natural step, but if it is placed on other beasts and survivors, it may take a long time from the first heaven to the nine. can

Ye Xuan is different. In fact, the genus of the temples, including his account, are also different, because there are various levels of Baodan provided by Ye Xuan, as well as the top cultivating of chaos and medicine. Resources, their cultivation speed is very fast, far beyond the general beasts and survivors.

From the first step of Heaven to the 9th order of Tiandao, only eight breakthroughs have been made. It will not take too long for Ye Xuan. At that time, it is necessary to swallow a 30-level Hongmeng Baodan. After the Heavenly Road, the Hongmen Avenue was in the air.

Therefore, the refining of the thirty-level Hongmen Baodan can no longer be delayed, and it must be mentioned on the agenda. and

He is now even the perfect Dan Fang of Hong Meng Bao Dan has not been deduced, the pressure of the heart is heavy, naturally can be imagined.

When I used to refine the perfect Danfang of the 30th-level Tiandao Baodan, I spent a lot of time. After the completion of the promotion, even the Tiandao Dan robbery was brought forward. The perfect

Danfang of Hongmengbaodan will take longer. And after the completion of the completion of the Hong Meng Dan robbery, presumably can not be avoided ... Hong

Meng Dan robbery Ye Xuan is not worried, although its power is not as good as the real glory, but it is not too weak, in Ye Xuan, it is a great opportunity for a yin. inverted

It is the dedication of Hongmengbaodan's perfect Danfang. It can never be done in one time. He doesn't have so much time to retreat for a long time, so his plan is to implement the matter first. After a little clue, he can hand it over to the body. The phagocytic system, using all the calculation skills to carry out the subsequent derivation...

[Retaliation begins] 111 no

After a long time, Ye Xuan found an abandoned star, directly into the star nucleus, waved to sacrifice Shennong Ding, the breath converge, and stepped into the stagnation of the colorful fog, and sat down on the knee.

Taking a deep breath, after the peace of mind, Ye Xuan closed his eyes and immediately launched the promotion of the thirty-level Hongmen Baodan perfect Danfang...

Before, from the first liquid to the thirty-level Tiandao Baodan, Ye Xuan had swallowed, and also personally refining, including Dan Fang, but also all carefully studied.

From the initial treasure to the twenty-thousand-level ridiculous Baodan, when he promoted Danfang, Ye Xuan had hardly encountered any major difficulties, and borrowed from the remnants of the ancients to refine the flesh and blood. The secret law of medicine, even the twenty-thirty-aged Baodan, is only a little longer than the time it has been smoothly derived. but

In the promotion of the 30th-level Tiandao Baodan, but encountered difficulties, and later received an unexpected reminder, joined the elements of the five elements of medicine, only to successfully refine the 30th-level Tiandao Baodan.

The Thirty-level Hongmengbaodan ranks higher, and Dan's deduction is obviously more difficult. Even with the experience of the previous 30-level Tiandao Baodan, it can not be completed in a short time.

Moreover, Ye Xuan always has an intuition. In the perfect Dan Fang of the 30th-level Hongmeng Baodan, in addition to the five elements of the drug, I am afraid that I have to add other elements to make it possible to refine.

But what is this element? He doesn't have any clues at the moment. This matter can't be rushed. It depends on the chance, and what he has to do now is just to push out the rough Dan. Such as

Today, even in the culmination of the ninth-order grand perfection, it is also a shackle. The power of God is terrible.

In addition, the calculation ability of the in vivo phagocytic system has been fully mobilized, and it only took about half a month. The perfect Danfang of the 30th level of Hongmengbaodan has already taken shape.

Ye Xuan did not continue, opened his eyes and grew up. he

Commanded the body's phagocytic system, mobilized all the computing power of the system, and continued to push forward all the time...

After that, he rushed out of Dingkou and rushed out of Shennong Baoding. When he waved his hand, he took it into the body and walked out of the star of the abandoned star. "

Calculating the time, the first day of the war, there have been more than half a year, I do not know whether Tiandao Qingyan and the three-legged Jinwu injury have been restored as before..."

In the whisper, Ye Xuan turned to look at the right side of the left bank of the Milky Way at the end of the empty sky.

In the First World War, he was ambushed by thirty-three heavenly beasts. This kind of big handwriting can be described as earth-shattering, and I am afraid that it will be rare in this Hong Kong virtual air. If

It's just the fall of the day. Since it's still alive, then after the things at hand are finished, Ye Xuan is bound to retaliate. It's not his usual style to swallow.

The thirty-three heavenly beasts were killed by Ye Xuan in the front and back, including the first escaping sacred eye, the same day as Ye Xuan, who survived the battle like Ye Xuan. There are also twenty-six heads.

These twenty-six heavenly beasts come from more than a dozen forbidden beasts, except for the area where the floodplain is located in the middle section of the left bank and the right section, and the rest are all on the left bank.

Undoubtedly, these fierce beasts will be visited by Ye Xuan. As for the first stop, he chose to ban the land.

"Oh..."

When these thoughts flashed through the brain, Ye Xuan waved his hand, accompanied by a crisp cracking sound, and a void crack appeared in the front. body

Under the sway, Ye Xuan turned into a violent starry sky, and a flash of body broke into this void crack, and the blink of an eye disappeared.

The retaliatory action after breaking through the heavens began from this moment... ..

...flood

Barren land! "

Oh..." cracked

The snoring came, and a void crack appeared. Ye Xuan's figure emerged from it and fell to the floodplain. he

Ben came with anger, but at the moment, he turned around and looked around in a circle, which caught the sight of the eyes, but made Ye Xuan feel speechless...

In fact, as early as the first half of the war broke out at the beginning of the first half of the war, the vast forbidden land was completely ruined. In the abandoned stars, there was no life at all, and the shadows of the ancient wild beasts could not be seen. ....

In the vast ocean of the endless battlefields on the left side of the star field, although there are countless life-like creatures, when Ye Xuan arrived, they were already soft on the ground. although

There is a breath of life, but it is like a soul, and there is no spiritual aura of life, and there is no sense of consciousness. This is the result of the \*\*\*\* secrets of the blood and blood, so that they all fall into a sleep.

At that time, the sound of the soul of the soul after the \*\*\*\* secrets of the blood was suddenly sounded, and the piece of the ship that could not see the end of the battleship was in the ocean. There were countless life-stricken souls struggling with roaring roars. but

Soon, with the screams of screaming and screaming, they slowly closed their eyes, their bodies slowly slammed, and the life of the body seemed to solidify.

The \*\*\*\* souls of the souls and the secrets of the souls are extraordinary. In a short period of time, their souls are banned. Just like living dead people, even walking dead is not as good as...

The endless life-like creatures from the three major star-space planes of the world have been abandoned by the sacred heavens, leaving them in the floodplain as a bait to attract Ye Xuan.

However, the immortal nine stars, the heavenly palace, the splendid temple, and the hundreds of great powers and ridiculous people of the original first universe slaves, as well as the second cosmic bloody, Qingpeng, war lion, silver sui, The nine great ethnic groups, such as the Barbarian, the Golden Eagle, the Choi, the Greedy, and the Tree, are old and old. This

The superstars that some of the important people were in were all dragged by an invisible force, rushing out of the endless battleship ocean, breaking into a void crack, and entering the floodgates Parallel void.

In the eyes of the ridiculous Tiandao, they obviously have some value in use, so he left some elites, and they were taken away from the ancient murderous beasts who followed the endless years and entered the parallel void.

Later, when Ye Xuan arrived, he fell to the floodplain, but he did not take the shot of the world's souls in countless warships.

After escaping the green eyes to the old nest, it is expected that Ye Xuan will come to the door sooner or later. After entering the parallel void, even if he is rehabilitated, he will give instructions to the other nine savage beasts who will leave the former vacant land. The sea of the battleship, together with the living creatures of the sleeping places in it, are all attracted to the parallel void...

This incident was completed in less than ten days after the return of Tiandao Qingyan. From that moment on, the forbidden land has already existed in name only. The entire forbidden land of the forbidden land is like an empty city!

Moreover, this situation has been going on for more than half a year, until today, when Ye Xuan arrives, when it comes to this place, it is still the case...

The entire vast floodland is now completely transformed into a star-space city. on

When Ye Xuan arrives, at least one of the warships that are laid out in the void can be seen, but this time, there is nothing empty, only abandoned stars are suspended in the void, and a little life is full of life. No.

Obviously, the sorrowful sky and the green eye decided that Ye Xuan must come and retaliate, so everything has been transferred before this time, I am afraid I will not come back in a short time.

In this case, naturally there is no need to stay here again. The grievances between him and the sorrowful eyes of Tianhong have a complete solution in the future, and they are not in a hurry. brain

After flashing these thoughts, Ye Xuan did not hesitate, waved a hollow crack and left....

Chapter 5125: Waiting for a long time

Right bank on the left bank, blood Peng forbidden!

In the forbidden land of all the beasts on the left bank of the Milky Way, the blood-forbidden land can only be regarded as a medium-sized one, and even the top 100 are not crowded. sit

The strongest person in the town of Xuepeng's forbidden land is a starry sky and blood. It is cultivated as the seventh-order power in the heavens. In the original thirty-three heavenly beasts that killed Ye Xuan, there was his existence. except

In this starry sky, Peng Peng, among the five sacred beasts in the \*\*\*\* ban, there is also one involved, and now this guy is also in the forbidden place. to

In the other three \*\*\*\* banned heavens, the beasts and beasts have a friend who went out to visit, and one entered the parallel void retreat...

In the interior of the bloodshed, there are a total of three heavenly beasts sitting in the town. In addition to the seventh-order starry sky, the blood is the late stage, and the other two are also fierce birds, but the strength is all in the middle of the heavens. Big

After the war half a year ago, the Starry Sky Peng Peng was once in a lifetime, and even did not dare to appear in the forbidden land, entered the parallel void, and also took care of the limelight. but

Now half a year has passed, and Ye Xuan, the master of the temple, has never arrived. Even the entire left bank of the Galaxy has not heard his news. The star of the sky will drop the heart and think that Ye Xuan has returned to the right bank of the Galaxy. I intend to retaliate.

Under the circumstance, this is also reasonable. Although the main body of the temple, Ye Xuan, is a strong man, even the third-ranked Jinwu, who ranks tenth among all the heavenly beasts on the left bank, was hit hard under his arrow. . but

After all, he is only alone, can he still dare to scream with the entire left bank? positive

It is because of this kind of thinking that a month ago, the starry sky and blood Peng came out from the parallel void of the retreat, and returned to the \*\*\*\* ban to sit in the town, and decided that Ye Xuan, the master of the magic hall, would no longer follow the original battle. revenge.....

"Oh..."

The brittle cracking sound rang, and a void crack appeared in the forbidden land of the blood, and the temperament of the body shape was stunned, and the face stepped out of it. "

Blood Peng, come out to die..."

"Oh la la..."

As soon as the figure appeared, Ye Xuan's voice of the gods immediately came out and rang through the whole piece of the void. At the same time, the violent figure disappeared between his minds, but there was a void in the original lameness. The slap of the water is coming. Storm

The shape of the skeleton collapsed and turned into a \*\*\*\* sea. It shrouded a corner of the universe and revealed the endless \*\*\*\* meaning..."

Roar! "

"Roar!""

Oh..."

For a moment, from the three different directions of this vast sea of blood, there was a sudden scream of screams and screams, and there were three huge incomparable figures in the boundless blood of the sea. Landing. positive

It is Ye Xuan's three \*\*\*\* avatars!

The three major avatars, the repairs that are scattered in the body are all the nine-order grand perfection of heaven and earth. This is the three powerful peaks of heaven. Even on the left bank of the Galaxy, it can be found anywhere, and it can set off a storm. Now, suddenly in the bloodshed of the banned land, the entire forbidden star field has been succumbed to death.

An invisible panic breath is quickly rendered in the sky, and all the people are shaking and shaking, just like the end of the day, it's like the wind and the wind...

The body shape is condensed, and the three \*\*\*\* seas are instantly turned up and each of them sends out a scream, the ultimate form of the konjac, and the konjac is activated. three

The blood in the body of the big blood is all in a hurry, just like a hang of the Nujiang roaring, all of the limbs are screaming inexhaustible and fierce, quickly moving closer together, back fusion.

In the blink of an eye, in the void, the three-armed and six-armed konjac has already appeared, and it's a must! "

call out! "

"Hey..."

The konjac was really condensed, and the violent hands were turned over. In a moment, there was a faint sound of emptiness, and a masculine spurt out. The \*\*\*\* stick of the gods' pesticides was dragged by his right hand, and it was scattered invisibly. The fierce atmosphere of the sky. and

Shennong Ding was not sacrificed.

The black fog has not stopped..."

call out! "

"Oh la la la..."

In the interim, a glimpse of the eyebrows from the dark fog, ushered in the storm, instantly turned into a vast nine-color flame sea, and instantly condensed into a huge nine-color streamers. a few

After a hovering, the half-fee has been entangled in the body of the black mist, and the two ends of the ribbon are found on the chest. Just like a poisonous snake, it can burst out at any time and devour everything.

As for the sacral avatar, this time, it did not give the sacred gods a sacred bow. It was just a pair of empty fists, but the breath that was revealed was fierce and fierce.

Today's Ye Xuan, even if it is facing the peak of the ninth-order grand perfection, there is no need to always show the sacred bow, showing it and forming a deterrent. he

The strongest force in the ninth-order grand perfection of the heavens, this is already a must! This

Although there are three beasts in the blood ban, there are even three strong beasts, but even the strongest star in the sky, it is only the late stage of the seventh-order heaven. It is far from the place where Ye Xuan can make a bow. qualifications. One

In an instant, Ye Xuan's strongest form condensed out, and the body's temperament and horror to the void were slightly trembled, and it seemed to be faintly audible.

The entire \*\*\*\* Pengpeng stagnation in the forbidden land, it is easy to hear the needles, and countless forbidden beasts are shaking and shaking. Although there is a fleeing heart, they can't move at all.

"Hey!"

"Hey..."

At this moment, the deepest part of the forbidden land in front of the screaming screams came from the end of the line of sight, and the spurt of the end of the line of sight came to an abrupt end, far from the 100 billion miles opposite Ye Xuan, which was led by Starburst The three heads of the dead birds.

"Ye Daoyou, the battle of the day, the deity is also a moment of fever, only to be told by them, now everything has passed, I wonder if the old grievance can be resolved?"

As the figure appeared, the voice of the star of the sky and blood was immediately transmitted, and the gesture was very low, with a hint of forgiveness: "If it can be resolved, any conditional friend can only raise it, the deity... must be satisfied!"

"Ye Daoyou, the battle of the day, the deity is also a moment of fever, only to be told by them, now everything has passed, I wonder if the old grievance can be resolved?"

Beyond the emptiness of hundreds of billions of miles, the sound of the gods of the stars and blood Peng came, and the gesture was very low, with a hint of forgiveness: "As long as the old grievances can be resolved, any conditional friends can only raise them, the deity... Must be satisfied!"

"Any requirement must be met? Daoyou really has sincerity, so... this temple is not welcome!"

Hearing words, violently smiling at the jaws, when he was halfway, he turned sharply: "This temple is what you want... it is your life!"

The sound has not yet fallen, the teleport has already begun, the shape of the konjac has come to the forefront, the cheekbones have been punched out, and the violent smashing of the \*\*\*\* stick to the top of the head, squat..."

Oh..."

The black mist splits and sings at the same time, and the spiritual source core suspended in the mind of the sea is rapidly rotating with the movement of spiritual power, and it is getting faster and faster.

In the end, a tiny spiritual cluster formed by the extreme compression of a large number of spiritual sources, shot from his sea of knowledge, like a heavy hair with infinite density, with the shadow of a spear, Going forward and rushing...

"Hey..." three

At the same time, the big devil shot at the same time, and even the spear of the smothering of the secret attack of the spirit has already blasted. In the face of all this, the star of the sky is suddenly out of reach, and it is no longer necessary to move away.

Seeing the split, he raised his head and screamed, but he couldn't change anything at all. He was already destined to fall on the spot...

"Hey!"

The cuts happened too fast, and the annihilation spear instantly penetrated the huge body of the starry sky and blood, and then the purple gold giant boxing of the cheekbones was incomparably smashed...

When the bang of the sky came, he couldn't respond to it at all. It's just a scream of screaming in the hair, and the whole body of the giant Ponta's tens of thousands of people burst open instantly, turning into a cockroach that quickly spreads. Red blood fog. With

A whistling sound rang, and the body of the black mist waved for the first time. One

The invisible instinct of the stocks rushed away, and the \*\*\*\* fog that swept away its body shape swept through the body and sent it to the bottom of the volcano in the central area of the Dingnai space. ! Say

When the story is long, it actually happens between the lightning and the fire. Ye Xuan can't say a word, and he takes his life. It is so fierce and violent. It is so powerful and terrifying to repair the strength. On the spot, the other two heavenly beasts are scared. Eyes, standing in a sluggish state. thing

In fact, even if they want to escape, there is no half chance. With such a close distance, the mid-term Tiandao faces the existence of the peak of the heavens, and it is just like no defense. "

boom! ”

"Booming..."

"Card..."

There was a half-stop, and Ye Xuan shot again. This time, it was a separate attack. The black mist mobilized the brain to understand the spiritual core of the sea, and the spiritual power was fully launched. The spirit was thunderbolt.

The shocking crackling sounded, and a mid-term head of the sky suddenly emerged with a \*\*\*\* lightning, a million miles in diameter, so fast that he couldn't even look up and look up. This lightning has already slammed down and directly After the brain opened, after the fall, the flesh of the body exploded and exploded into a \*\*\*\* fog. to

In the middle of the other middle, the konjac personally rushed over, and the cheekbones were still punched out. When the chest fell, the violent smashing was a \*\*\*\* stick sweeping, directly smashing the skull of the middle of the middle. The huge body of the body blasted without any suspense...

"call out!"

call out....."

At this moment, the body of the black mist waved in the first place, and a huge invisible instinct screamed away. will

The \*\*\*\* fog of these two sacred beasts swept away, and they came into the body and sent them to the bottom of the volcano in the central area of Dingnai. to

In this way, among the five sacred beasts in the \*\*\*\* ban, in addition to the disappearance of visiting friends and the two old guys who entered the parallel void retreat, three heavenly beasts including the starry sky and blood. In a short period of time... all fallen. first

Before, Ye Xuan had already had twenty-five Tiandao blood essences. Now he has killed three heavenly beasts and smashed the \*\*\*\* fog after his body burst open, and then got three more. Such as

Therefore, the total number of blood in his hands has reached 28 giants, not far from the 30. And

This is just a beginning. There are still more than ten beasts to ban the land. If there is no accident, Ye Xuan's beastly blood is fine. After this retaliatory action, I am afraid it is very likely to reach five. Ten giants...

"Hey..." brain

In the flashing of these thoughts, even Ye Xuan was a little excited, and his hair screamed and screamed, and the entire \*\*\*\* Peng's forbidden land, countless forbidden beasts were all on the ground, and the atmosphere did not dare to breathe. Shaking and shaking...

As a strong forbidden land with five heavenly beasts sitting in the town, the number of ridiculous blame in the blood ban is obviously quite a lot, but now Ye Xuan has not much interest in hunting the wild animals.

In the war, if you encounter a slap in the face, if you let him deliberately stay here and kill one by one, there is really no interest. "

Oh..."

In the movement, there was a crack in the front of the sky. Ye Xuan did not remove the three-armed and six-armed konjac, but only narrowed it down to the point where it was only a thousand feet. Then the shoulders shook and the whole body became a man, and broke into this. Among the cracks in the road, it disappeared.

Next, there are more than a dozen beasts banned. He must rush non-stop, because everything that happens in the \*\*\*\* ban will soon be proclaimed. If it is late, the murderous in the forbidden land The beasts all fell into the parallel void and crouched down, it was Ye Xuan, and there was no way to recourse...

...flood

The banned land is located in the border area of the middle section of the left bank near the right section. Therefore, Ye Xuan came from the floodplain and started retaliating from the left side of the right section. blood

Peng Forbidden is the first stop, located on the left side of the right section, not far from the middle section of the left bank. Such as

Today, leaving the blood rush to rush to the second goal, Ye Xuan is from the left side of the right side to the right, all the way forward...

The most violent beast from the forbidden area of Xuepeng is called the Purple Prohibition Land. As the name suggests, the strongest person in this Xingqiang forbidden land is obviously a starry sky. This

The repair of the starry sky and the purple scorpion is the eighth order of the heavenly state. It is known for its speed. If the elephant fox has not yet entered the source nest, it will be the best tonic for the elephant fox. Things. "

Oh..."

The cracking sound rang, and a void crack appeared in the outer part of the purple banned land. Then there was a glare from it, and the blink of an eye made it easy for the star field outside the crack to stop. Chemical

For a three-headed and six-armed konjac, it is exactly what Ye Xuan has arrived. This

At the moment, the killing of God, the invisible pressure and dispersion spread, the entire purple ban is forbidden... shocked! purple

There are a total of six heavenly beasts in the curfew, the strength is not bad, more powerful, but now the heavenly beasts in the forbidden land are only two.

There are four heavenly beasts that have entered the parallel void retreat. and

Nowadays, these two heavenly beasts, who are sitting in the shackles of the shackles, all participated in the encirclement of Ye Xuan.

In addition to the eight-step starry sky purple sky, there is also a starry violent bear, which is cultivated as the fourth-order power in the heavens. It is said that this violent bear is extremely loyal to the starry sky purple, accompanied by many years, only the fate is from!

At this time, with Ye Xuan coming, stepping out of the void crack, the first appearance of the three-armed and six-armed konjac is the strongest form, and the invisible pressure of the body is horrifying to the point of horror. The whole purple ban was banned. "

Roar....."

"Hey..."

At the moment, the three great devils screamed at the same time, and the huge size of the original body suddenly skyrocketed. In the blink of an eye, it has reached ten million miles, and it is like a demon god, and it is like a reincarnation. four

Zhou emptiness is far away, the original stunned moments are a moment, and the silence is silent. There are countless forbidden beasts among the abandoned stars in the banned ban, under the screams of the three great devils, none of them. Exceptions are all chilling.

At a moment, in the far side of the front right side of the void, a slightly undetectable purple mang suddenly burst out from an abandoned star, faster than lightning, and spurred away from the forbidden land on the right side. This

It is clear that it is necessary to get rid of the rhythm of fleeing, tearing the void is too big, it also takes a certain time, if it is a teleport, there will be fluctuations in the power of space, it is difficult to pass the violent eyes.

This starry sky is swaying at a speed, condensing the breath, turning into a very weak purple mang, rushing out, intending to escape and then cast a teleport...

In fact, he will almost succeed. If other heavenly powers are strong, even if it is the peak of the ninth-order grand perfection, I am afraid it is difficult to capture the existence of this weak purple awn, which is not only fast, but also There is no fluctuation in the force of lasing and even half-divided space. It can be said that God does not know.

It is a pity that Ye Xuan possesses the spiritual strength, the spiritual strength and the Zerg's biological wave frequency. There is no sense of inductiveness. It can be used to probe and discover the weak fluctuations that the power of the gods cannot understand.

In the moment of the crash, Ye Xuan's power of consciousness has enveloped the entire purple ban, and the invisible spiritual power has also been extended at the same time, so I felt abnormal in an instant...

Oh..."

The low-pitched humming sounds, Ye Xuan's eyebrows, the enchanting stunned like the third vertical eye, which is quietly floating, emitting a sly light, seemingly thin, but instantly diverging and opening, covering the entire star area. before

On the right side of the square, the starry sky purple figure that is escaping at a speed is instantly exposed and exposed. "

Stop him..."

At the same moment when the figure appeared, from the faint purple awns that went quickly, suddenly the voice of God was heard, revealing fear and uneasiness, and more severe.

"吼..."

Fang, an abandoned star rushed out of a figure, Pangda 50 million miles of giant, it is a starry violent bear, repaired as the fourth order of strength in the heavens.

This violent bear seems to be afraid of death. In order to cover the starry sky and escape, to fight for time, after rushing out of the abandoned star, it is actually pushing the power of the body to the extreme, and rushing directly to Ye Xuan.

"You are loyal, if this is the case, the temple is... as you wish!"

I felt that I was provoked, and Ye Xuan's heart was furious. At the same time, the sound of the gods came out. At the same time, there was a flash of coldness in the middle of the scorpion. The \*\*\*\* stick in the hand of the violent temper was rushed out.

"Booming..."

"boom!"

The cheekbones were smashed out, and the violent \*\*\*\* sticks also fell. They didn't use black fog to separate their hands. The starry violent bear had been hit and smashed, and the body exploded and exploded into a awning. The \*\*\*\* fog of the cockroach spreads. Do not

It's just the fourth stage of the heavens. It's just in the middle of this season. It's not a combination of Ye Xuan. "

Calling..."

The wind whistling, the invisible strength swept away, sucking the \*\*\*\* fog that spread out in the void, and blinking into the body, sent to Baoding, and began to condense blood. "

You can't escape! "

After doing all this, Ye Xuan turned to look to the right front, no hesitation, the first time to start teleporting...

"call out....."

The faint sound of breaking the air sounded, and his horror repairs with the ninth-order grandeur of the heavens and peaks, even if the starry sky and purple are the first step, and they are still known for their speed, Ye Xuan's full force is only a teleportation. After catching up with the stars and thousands of miles behind the stars,..."

call out....."

At this moment, the black mist splits out, and the spiritual source core suspended in the mind of the sea rotates rapidly with the movement of spiritual power, and is getting faster and faster.

It's not a very bad interest. A tiny spiritual cluster formed by the intense compression of a large number of spiritual sources has been shot from his sea of knowledge, like a heavy hair with infinite density. The phantom of the spear, rushing forward..."

Oh..."

I feel that my air machine is locked, and there is a clear and unparalleled like the mangling in the back is approaching, the speed is very fast, the front is rapidly escaping the starry sky, the shape of the purple stunned, the hair rises and screams, revealing Endless unwillingness...

At this moment, he seems to have exerted some kind of \*\*\*\* secret method, and repaired it with full force, which suddenly increased a lot at a very fast speed! "

boom! "

"puff....."

The invisible spiritual spear approached, originally aimed at the head of the starry sky, but at this moment his body shape suddenly accelerated, and it slammed through the belly.

Amazingly, the starry sky was pierced through a blood hole, and a purple liquid like a river was vented and emptied. "

Tiandao source purple liquid? "

Seeing this scene, the flash of violent flash, subconsciously whispered a sentence. day

The source of the Taoyuan source is extremely precious, that is, the body of the innate beast is not in existence. Only the existence of the incarnation of the will of the great world will be sprayed out when it is hit hard, just like the origin of the flesh and blood. first

Qian Ye Xuan has obtained two kinds of natural sources of liquid, one is Tiandao Qingye, from the Hongyan Tiandao Qingyan, the other is Tiandao Black Liquid, from Sanju Jinwu. No

I thought that this starry sky purple cicada is also the embodiment of the heavenly will of a big world. Now it has been hit hard by Ye Xuan. Although it has not fallen, it spurts a heavenly purple liquid like a big river.

A good thing, Ye Xuan will not miss it naturally. Under the glimpse of the gloom, the black mist is waving.

"call....."

Oh la la..."

The sound of screaming and screaming sounded, and there was a strange noise coming from the front. A purple liquid like a river was overwhelming. The blink of an eye rushed into the body of the black mist, and disappeared.

"If you are seriously injured, why bother to die?"

After all this, the violent chills flashed, and when I turned to look forward, the sound of Sen's cold and sorrowful voice also suddenly spread: "Today, you...must die!"

"If you are seriously injured, why bother to die?"

After this hangs like a river-like heavenly source of purple liquid into the body, the violent chilling awning flashes, turning to look forward, the sound of Sen's cold and sorrowful voice also suddenly spread: "Today, you... ..must die!"

call out....."

The voice has not yet fallen, he has already mobilized the power of the body, and directly spread the teleport. This

Once closer, the blink of an eye has reached the back of the starry sky, thousands of miles away, without hesitation, the cheekbones are smashed in the middle of the cold, a moment of punching.

At the same time, the violent \*\*\*\* sticks also rise high and slammed down..."

boom! "

The loud noise came, and the purple gold giant boxing of the cheekbones was incomparably bombarded on the body of the starry sky, and the \*\*\*\* rod just knocked its head out with a stick. this

The already stark starry sky purple scorpion simply didn't have time to react. Even the screaming of the hair couldn't be screaming. The entire body shape of Pangda's giants burst open instantly, turning into a blush that spread quickly. Blood fog. very

Fast, the whistling sound of the wind blew, the body of the black mist waved for the first time, and a huge invisible instinct screamed away.

The \*\*\*\* fog that bursts into the starry sky and purple body shape swept through the body, and sent it to the bottom of the volcano in the central area of the Dingnai space, and began to condense blood! to

Therefore, the two heavenly beasts that are now sitting in the shackles of the shackles are all without exception, and all fall. first

Before, Ye Xuan had 28 Tiandao blood essences in his hands. Now he has killed two heavenly beasts and smashed the \*\*\*\* fog after the flesh exploded. Such as

Therefore, the total number of blood in his hands has reached 30 giants, which is delightful!

Calculating the time, he is now away from the first stop of the \*\*\*\* ban, but less than a day, everything that happened there, the news should not be spread. brain

After flashing these thoughts, Ye Xuan did not hesitate to tear a hollow crack in his hand, and then he broke into it and went far away...

As for the direction of the front, it is still going to the right side of the left bank, and the next third station is adjacent to the purple ban, called the red forbidden land!

The strongest person who sits in the forbidden place is a red star.

This red refining star was also one of the thirty-three heavenly beasts who participated in the encirclement of Ye Xuan. There was another heavenly beast in the red forbidden land, but it was already at the time by Ye Xuan. kill.

The cultivation of the red refining star is not weak, and it is the same as the starry sky in the purple ban, but it is the eighth order of the heavens, only one step, you can enter the peak of the heavens.

Like the blue eye, the three-legged golden eagle and the starry sky purple, the red from

After that, the refining star

Since the endless years, the number of heavenly beasts in the red forbidden land has gradually accumulated, and now there are as many as seven, but the only beasts in the forbidden land are only two.

The other five heavenly beasts, or went out for a reason, or entered the parallel void to practice, are not in the forefront. This

Two of the heavenly beasts in the forbidden land, one of them is the red star, and the other is also the star of the star, but the whole body is black and shiny, called the ink jade star.

The strength of this ink jade star is not weak. It was only recently that it broke through to the seventh stage of Heaven, and it has entered the late stage!

.....when

When Ye Xuan rushed to the forbidden land, the time had passed, and the news about the bloodshed and the ban on the ban on the land was just here..."

Oh..."

At this moment, the crisp and fierce cracking sounded, and a void crack appeared in the outer part of the forbidden land. Then there was a glare from it, and the blink of an eye made it easy for the star outside the crack to stop.

In the void, a three-headed and six-armed konjac has been clearly visible. It is Ye Xuan, and the invisible pressure on the body of the scorpion will be dispersed in an instant, causing the entire vast red banned land to tremble...

"hiss!"

Oh..."

All the banned beasts in the forbidden land, 80% of them are stars of different bloodlines. At this moment, with the advent of Ye Xuan, the invisible horror pressure spreads, and the vast forbidden land, among the abandoned stars Countless stars, suddenly spit up the snake letter...

The faint voice of the vomiting sounds, the number is too much, and it is overwhelming, gathering together, turning into a very strange voice, which is shocking and shocking.

However, Ye Xuan did not have a half-reaction. The three great devils were flashing in the middle of the cold. It seemed to be a feeling, and at the same time turned to the left side of the void on the left side.

In the darkness of the void in this direction, at this time there are two huge incomparable stars slowly drifting out of the void, as the stars are huge, one is full of red scales, and the other is like a jade, glowing Black mans.

The former is more powerful and has reached the eighth level of heaven. It is the strongest person in this red forbidden land. At the beginning, he participated in the refining star of one of the thirty-three heavenly beasts that surrounded Ye Xuan.

The other Ye Xuan has not seen it. The whole body is black and inky, with luster. It is like the top ink jade. "

Ye Daoyou, Chi Lian has been waiting for a long time..."

As the figure appeared, the ink jade star did not make a sound, but the red star in the front, but the first time passed the voice of the gods: "Daoyou patronizes the blood and the purple ban It's already spread now..."

"Original, Chi Lian intends to take this away, temporarily avoiding the limelight, but after thinking about it, the old grievances of the original will eventually be resolved, and it will be useful for a long time, so that they can stay and think that the friends can also see sincerity..."

This statement is very bright, it sounds really sincere, but Ye Xuan is not moving, no matter what the truth is, as he said, it is really to resolve the old grievances and take the initiative to stay, or the news just came, they are rooted I didn't have time to get out...

For Ye Xuan, the result is the same, that is, the two stars in front of you must be killed today.

However, whether it is true or not, since the other party dares to speak such a discourse, it is obviously quite emboldened. Ye Xuan wants to see what he can use to impress himself. It is not the first time to start. but

There is no sound, the three great devils are so coldly watching the red refining star, the meaning of the body's pressure is becoming more and more fierce...

"The Taoist friends don't have to be suspicious. Today, I have not left here to take the initiative to stay here. Chili is really sincere..."

It seems that the pressure in Ye Xuan's body is becoming more and more dignified. The red refining star in the front of the 100 billion-mile-long is not selling again. He quickly said: "If it's true, it's true that the Taoist friends have visited this place. The fierce beast is forbidden, the real purpose should be for the liquid of heaven and earth?"

"Red smelting was also the embodiment of the heavenly will of a big world. In order to resolve the old grievances, I would like to give the Taoist daodao the source of the red liquid and a river. I don't know if the friends... can you laugh?"

Chapter 5126: Soul voyeur

"Double friends do not need to be suspicious, today took the initiative to stay here and never left, Chi Lian is really sincere..."

I felt that Ye Xuan's body was gradually showing the weight of the condensed weight. The red refining star did not dare to sell it again. He quickly said: "If it's true, it's true that the true purpose of the Taoist friend should be for the liquid of heaven. come on?"

At the beginning, Chi Lian was also the embodiment of the Heavenly Will of a big world. In order to resolve the old grievances, I would like to give the Taoist Heavenly Sources a red heart and a river. I don't know if I can... "day

Domoto source red liquid? leaf

Xuan was on the spot!

It's not because I heard this source of red liquid, it's not because this red star has been incarnate for the incarnation of a big world's will, but the other party's decision to go to the right side of the left bank. The fierce beast is forbidden, it is for the sake of the heavenly source of liquid...

In fact, Ye Xuan is not doing this for the sake of the original source of liquid. It is completely angry with the heart, and the right to vent their anger, and collect the blood of the heavens by the way. but

Since the other side has this speculation, it is obviously not without aim. and also

That is to say, this so-called heavenly source liquid, I am afraid there is still some secret, but the current Ye Xuan, which is not known, immediately let him have a strong interest in this matter... brain

In the middle of these thoughts, the violent glimpse of the faint glimmer, Ye Xuan's voice of the gods, instantly spread: "So, the so-called heavenly source of liquid, is there any special secret? Let's take a closer look..."

"You...not coming for the red liquid?"

His words fell, and the red refining star, which was 100 billion miles away, slammed into the ground, and then suddenly changed color. When the words were half, there was a sudden scream in the mouth: "Hey..."

Rumble..."

At the same time as the whistling sound, the huge figure of the red smelter star quickly retreated backwards, like a red lightning, the speed is almost to the extreme.

It's not just him, the same is the same as the Yuyu Xingyu, whose strength is in the fourth step of the Heavenly Way. The figure suddenly slams back to the left...

Such a scene once again made Ye Xuan feel unexpectedly surprised. For the mid-term ink jade star who was only in the fourth-order world, Ye Xuan did not pay attention to it. Under the flash of the cold, the three-headed and six-armed konjac Straight to the front of the front of the positive retreat of the red retreat star chasing ... no

Needless to say, this red refining star is not the existence of the eighth-order heaven, and the far-reaching heavenly road from the ninth-order is also not far away. Nowadays, the whole body is urging the body to repair, and the speed is really fast. "

call out....."

"Boom!"

In the middle of the cold mang, a violent moment immediately shot, the original \*\*\*\* stick behind him was lifted to the top of his head, held in the middle of the big stick, struggling, like a spear usually lasing away. tip

The sharpness of the air was shocking, and a black mangled across the void at a speed that surpassed the lightning. The blink of an eye chased the red star, and in the middle of its body, a red liquid like a fire poured from its body. Leak out, squatting in the void. day

Domoto source red liquid!

The thought flashed through the brain, Ye Xuan did not hesitate, and the black mist split immediately, and when he waved his hand, the invisible strength wrapped away, and the blink of an eye shook the source of the red water like the big river. The body. versus

At the same time, with the \*\*\*\* stick spurting back and falling into the hand, the konjac body will also push the power of the body to the extreme, directly activate the teleport..."

call out....."

When the sound broke, the three-headed and six-armed konjac was suddenly out of the air. The \*\*\*\* stick in the violent hand was smashed out for the first time, and the purple-gold giant boxing of the cheekbones also exploded. "

Card..."

The crisp sound came, and the newly-repaired red refining star smashed a thunder, and a huge blood-colored lightning smashed down in a million miles, instantly smashing his figure like a convulsion.

I didn't wait for the red star to slow down from this spiritual thunderbolt. The purple gold giant boxing of the \*\*\*\* stick and the cheekbones has been smashed at the same time. Its huge body shape directly exploded and turned into a \*\*\*\* fog. Diffusion, blink of an eye will be absorbed into the body by the black fog. do

After all this, Ye Xuan turned abruptly and looked toward the left side of the left side of the ink jade star, and the sound of the gods under the flash of the cold man also suddenly spread: "You can't escape of!"

The sound is still not falling, and the colorful ribbons entwined in the huge body of the black mist have already spurred out. The speed is too fast, and the agility is like a starry sky, and it is more like a smashing smashing sky. Underneath, the blink of an eye turns into a majestic nine-color flame sea, passing through the oblique thorn, directly cutting off the path ahead of the ink jade star...

"You have already arrived at the Heavenly Red Liquid. I am not the embodiment of the heavenly will of the big world. There is no liquid in the body. Why are you still struggling to kill..."

As the flames rushed across the sky, the smoldering squirting squirting in that direction came to an abrupt end. Looking back to Ye Xuan, the glory of the sacred sacred, the voice of the gods was also heard... "

Because of your flesh, the temple can be condensed into one... Heavenly blood! "leaf

Xuan's heart hanging in the eyes of the blind man was suddenly loose, and immediately passed away. The next moment, he had already reached the front of the ink jade star. This time, even the cheekbones were not shot, just a violent \*\*\*\* stick and a stick out. In a moment, his huge figure exploded and turned into a \*\*\*\* fog..."

call out....."

"Hey!" two

The sound of the road broke, and the nine-color flame sea instantly condensed, and it was re-evolved into a spur of the nine-color ribbon, wrapped around the huge body of the black mist.

The \*\*\*\* fog formed by the explosion of the body of the jade star was taken into the body by a violent wave, sent to Shennong Ding, and blood condensed.

Previously, Ye Xuan had already had thirty Tiandao blood essences. Now he has once again murdered two heavenly beasts and smashed the \*\*\*\* fog after his body exploded.

Thus, the total number of blood in his hands has reached thirty-two...but

Everything did not end there, because the two heavenly beasts that are now sitting in the forbidden land have been fussy, but the question of Ye Xuan's heart has not been solved. first

When he smashed the star-studded star, he didn't have half a hand, and the other side was an eighth-order heaven. Even if he left a skeleton, it would be hard to find anything.

But this jade star is different. He is only a medium-term heaven in the fourth-order world, and the body is not very stable. It is just a breakthrough. Not long ago, it was only the third-order early Tiandao. Strength, to search for the soul, grasp the greater.

For this reason, the talented \*\*\*\* stick hit a stick, Ye Xuan deliberately reserved, now the blood fog is violently earned in the body, but there is still a remnant of the soul in the void, it is the ink jade star.

In the middle of a wave, the soul that lost consciousness was directly wrapped up by the temper, and then it was convenient to extend the powerful power of the gods into it at the first time, and to fully explore the soul, and the result was obtained in a short time. Let Ye Hao's body shape scream, and smash the splendid..."

call out....."

The faint sound of breaking the air rang, and the violent screaming suddenly waved, and the soul that lost consciousness in the emptiness in front was directly wrapped up...

Then, Ye Xuan is convenient for the first time to extend the power of powerful knowledge into it, and to fully explore the soul.

In just one short moment, he got the desired result, which made Ye Hao stunned and stunned, revealing a sense of surprise and incomprehensibility.

Before him, he was worried that this ink jade star would not know the secret of the liquid of the heavenly source. After hearing the words spoken by the other party before the fall, the heart suddenly disappeared. eye

Through the search for souls, Ye Xuan finally realized everything, and the reason for the surprise is that this time, it is very likely that he will help him to promote the perfect Danfang of the 30th level of Hong Meng Bao Dan. first

In the long and dark endless sky in front of the right side of the left bank, when he pushed the perfect Danfang of Hongmengbaodan, Ye Xuan had a strong intuition. The refining of Hongmengbaodan is very likely to be more complicated. In addition to the five-line drug guides that were added when the 30th-level Tiandao Baodan was added, most of the factors had to be added.

Now, it seems that this kind of intuition should be correct, and the refining of the 30th level of Hongmengbaodan, in addition to the five elements of the drug, the elements that need to be added separately, it is very likely to be related to the Tiandao source.

Daoyuanyuanbao is extremely extraordinary, and has nothing to do with the cultivation of strength. Even if it is the ninth-order grand perfection, or the innate beastly animal with very special blood, if it is not the incarnation of the heavenly will of a big world, there may not be any heavenly origin in the body. liquid.....

That is to say, Tiandao Yuanyuanbao is related to the heavenly law of a big world, and these big worlds are all opened up by the Chaos Devils who were born in the Hongmeng era.

Although the chaos demon gods bred by the Hongmeng era are only three thousand, these chaotic devils are the darlings of the emptiness of Hongmeng, and the emptiness of Hongmeng once again reopens a new era, gestating three thousand chaotic devils, just to bring them As a chaotic seed, it is usually spread out.

I hope that one can create a supreme chaotic existence. Once it appears, it means that the entire Hongmeng void has changed, and it has entered the higher chaotic void, and it appears...

Because of this, these chaotic devils have been bred from a source of nest stars, and after the birth of the singer, they have the cult of Hongmeng after the Heavenly Way.

The laws of heaven in the big world that they have opened up naturally have a little bit of power. no

Before the end of the year, there was a stunned remnant of the survivors who had an interest in this. He managed to collect some of the liquids of the heavens and the roots, and based on the secret laws of the ancients. most

After that, the surviving strongman finally got the income and released the words, saying that he could refine a kind of precious liquid with nine kinds of natural liquids. After the swallowed liquid, the dragon's peak impact on the ninth order After the Heavenly Road, the Hongmeng Avenue has certain benefits.

This kind of treasure liquid, it is called it - Tianjiu Avenue treasure liquid! each

The refining of a treasure of Tianjiu Avenue requires the consumption of nine different sources of heavenly origin. This ancient and mysterious survivor has limited ability, and it is impossible to collect

too many heavenly sources by its own strength. Liquid, but he does need to refine the treasure of the Tianji Avenue to impact the Hongmen Avenue.

Therefore, after some trade-offs, he released words, whether it is the beneficiary or the starry beast, as long as he can bring nine different natural sources of liquid, he can refine the Tiandao Avenue treasure.

But the refining of the treasure, he must charge half, as a remuneration!

This happened in the millions of years ago, causing an uproar on the left bank of the Milky Way. A turmoil lasted for hundreds of thousands of years, and countless starry beasts and survivors were degraded.

But in the end, there are some repairs that are strong and strong, and they have entered the peak of the ninth-order grand perfection. They have collected enough liquids from the heavens and sources, and asked the mysterious survivors to refine the treasures of Tianjiu Avenue.

The number of specifics is unknown, but the ancient peak of the magic wolf is one of them, but it is ok.

It was after that time that some of the treasures of Tianjiu Avenue were obtained in the hands, and the ancient peak of the magic wolf banned the land. Then they left and slammed the environment of Hongmeng Avenue. Until now, they have not returned yet...

Beyond him, at the time on the left bank of the Milky Way, there were some starry beasts and survivors who had been repaired by the peaks of the heavens. So there was no news. I must have gotten some of the same as the devil's forbidden land. Treasure, I went to retreat.

Among them, the mysterious and ancient survivor of the remnant, he will take half of the refining of the Tianjiu Avenue, and no matter how many furnaces are refining, the entire left bank of the Galaxy will undoubtedly count the days in his hands. Jiu Avenue has the most treasures. positive

Because of this, he was more careful to leave, there was no news overnight, and he did not know where he went. It is said that even the human remains in his field are unknown.

Since the departure of this person, the treasure of Tianjiu Avenue has been lost on the left bank of the Galaxy. Since the millions of years have passed, although there are countless survivors who are good at smelting blood and meat, many people have tried it, but no one has ever been able to Refined.

The reason why Ye Xuan was killed by Ye Xuan, the reason why he thought that Ye Xuanyi's one-of-a-kind forbidden land in the right section of the left bank was to collect the liquid of the heavenly source, because the outside world had previously rumored that the leaf Xuan has already refining Tiandaobao medicine, and now is preparing to refine Hongmengbao medicine...this

Everything can only be said to be a mistake, but inadvertently completes Ye Xuan, pointing out a possible path for him. Otherwise, if it is inorganic, I don't know when he has to wait until he knows this day. Liquid thing! "

Those ancient survivors are really not simple. They can think of such a way to steal the power of Hongmeng Avenue, and to help the impact of this situation, this Tianjiu Avenue treasure is really feasible..."

After everything was clear, the violent smashing flashed a glimpse of the sorrow, and Ye Xuan's whispering sound also sounded, revealing a hint of unappreciating. This

It is also an inspiration to him, but it is only that these messages are not enough. It is better to be able to understand the general refining method of Tianjiu Avenue.

In this way, when Ye Xuan introduces this element into the perfect Danfang of the 30th level of Hongmen Baodan, it can be smoother and more convenient, and can take too many detours. this

If you don't worry, you can go back to the ancestral star field of the ancient and mysterious survivor, and you must have some discoveries.

As for now, nature is still following the original plan, just by the way, collect several kinds of liquids from the heavens.

"call out....."

These thoughts flashed through the brain, and Ye Xuan did not hesitate, waved a tear in the void, and immediately stepped into it, so far away...

The Milky Way star field is very vast, and the banks of the Milky Way are extremely long. Ye Xuan's goal this time is only the right segment of the left bank. In fact, he is now repaired by the peak of the nine-step grand perfection, if the body crosses the void.

It takes at least seven days from the left end of the right side of the left bank to the end of the right end.

Only then, it can be seen how long along the banks of the Milky Way on the right bank of the left bank.

After calculating the time, Ye Xuan left the \*\*\*\* forbidden land, and now only two days have passed. Although the accidents that occurred in the forbidden land of the blood and the forbidden land of the purple scorpion have already been transmitted, but the entire left bank has not yet been made. All the savage beasts and the sacred land are known to all!

In front of it, the Thunder, which is adjacent to the red forbidden land, was forbidden. Ye Xuan left the forbidden area and arrived in the area for only half a day.

After walking out of the void crack, the body figure swept forward and rushed into the interior of the starry field of the Thunder.

There are six heavenly beasts in the curfew, but now there is only one head in the forbidden place, and the other five heavenly beasts are all retreating in parallel.

Nowadays, it is a thunder that is sitting in the forbidden city. It is cultivated as the fifth-order savage beast in the heavens and the land, and the six-headed beasts of the Thunder's forbidden land, who participated in the battle of the sacred Ye Xuan, just had this one. Thunder. Place

Therefore, Ye Xuan is just the time to come today, because in the near future, the five heads of the five heavenly beasts that enter the parallel void retreat will have two heads to go out, and by then, the Thunder will enter a retreat. If Ye Xuan arrived at that time, I was afraid that I could not touch it...

leaves

Xuan's body shape just rushed into the forbidden star field. In the depth of the star field in front, there was a terrible roar in a moment. A figure was coming out of the void, striding wildly, and it was the fifth-order Thunder. . This

Although the strength of the head Thunder is only five steps in the heavens, but the body size is 80 million miles, it is quite rare. by

There is a Thunder property in the blood, so the temperament of this Thunder is also extremely violent. Otherwise, seeing a ninth-order grand perfect peak, the murderous, vagrant, and other fifth-order heavens, I am afraid to turn around in the first time. Escaped. One

The Thunder in the middle of the middle of the head, only with the strength of Ye Xuan's cultivation, he can kill with a single blow, but because he does not know whether this Thunder was once the incarnation of the heavenly will of a big world, that is to say, Determine whether there is also a source of heavenly source in his body, so Ye Xuan did not intend to blow it.

Otherwise, once the strike is directly hit, even if there is a liquid in the body of the Thunder, because it will fall down in an instant, it will not be poured out, but will be blasted together with the flesh and turned into a \*\*\*\* fog...

The liquid of heaven and earth, only when the incarnation of the heavenly will in the big world is hit hard, will it come out.

"Booming..."

Between the eyes, the two sides have been close to 100 million miles, and there is no hesitation in the violent temper. The \*\*\*\* stick will pick up and get out the first time. but

This blow did not exert full force, otherwise a stick would directly blow the thunder into a \*\*\*\* fog...

"boom!"

"Hey..." Ray

The temperament was fierce and cruel. This stick went down and collapsed his half body, but it still made a terrible roar, quite a bit unruly. but

In the void, there is no liquid from the heavens, and only the pale golden blood is splashing, sprinkling the sky.

Seeing this scene, the violent smashing flashed a touch of disappointment, and Ye Xuan's voice of the gods also sounded, revealing the endless sense of coldness: "If this is the case, you... can die!" "

boom! "huge

It was heard that the big black-and-white porcelain was incomparably blasted on the huge body of the Thunder. The Thunder, which had been seriously injured, simply couldn't respond, and even had no chance to scream at the hair. The entire body shape of the giants of 80 million miles exploded in an instant, turning into a red blood fog and spreading rapidly.

"Call..."

For a moment, the whistling sound of the wind blew, and the body of the black mist waved in the first place.

A majestic invisible gas rushed away, swept the \*\*\*\* fog of the Thunder's body, and it was sent to the bottom of the central volcano in the Dingnai space. Condensation!

Since it is not the embodiment of the heavenly will of the big world, there is no liquid in the body, and naturally there is no need to talk to him too much nonsense. It is a proper meaning to kill it. Knot

With all the power, Ye Xuan's power of the gods extended and shrouded the entire vast thunder forbidden land, and determined that there would be no more scent of the beast and the beast, even turning and tearing away. and

At this time, the blood in his hands has reached the height of thirty-three...

After more than ten days, Ye Xuan went all the way to kill, and successively patronized five Xingqiang forbidden places. Among the five strong forbidden areas, the heavenly beasts that he killed were fifteen, so he also let The total number of blood in his hands reached 48.

But unfortunately, among the fifteen murderous beasts, none of them were the incarnation of the heavenly will of a big world, so there is no liquid in the body, which makes Ye Xuan quite disappointed. At the same time, I also realized the difficulty of collecting this kind of heavenly source liquid...

Nowadays, Ye Xuan revenge in the right section of the left bank. The news of the killing of the ring has already spread throughout the right bank of the left bank, causing a terrible stun...

However, there are too many forbidden beasts in the right section of the left bank, including the Sovereign Stars. Ye Xuan does not patronize one by one, and it is impossible to do so. It will inevitably lead to terrible riots, and the consequences are unpredictable.

The fierce beasts he visited were all related to the thirty-three sacred beasts who participated in the siege of him. A total of more than a dozen beasts were forbidden. In each forbidden land, there was at least one heavenly beast and had participated in the siege. ....

These dozens of targets are forbidden. Today, there are only three banned areas that have not yet been visited. Among them, the Jinwu forbidden land, where the three-legged Jinwu is located, was placed at the end by Ye Xuan, that is, before going to Jinwu forbidden land, There are also two places to go for a ban...

Among the thirty-three heavenly beasts who participated in the encirclement of Ye Xuan, in addition to the seven heads that were smashed on the spot, the remaining twenty-six heads of the three-legged Jinwu and the ruined heavens were not counted. The solution is only four. This

Four heavenly beasts, in the next two forbidden places, have three forbidden places and one forbidden land. before

Fang's \*\*\*\* forbidden land is one of the two forbidden areas, and it is the forbidden land with three killing targets. After solving the three heavenly beasts in the \*\*\*\* forbidden land, the thirty-three heavenly murderers who participated in the encirclement of Ye Xuan The beast, including the blue sky and the three-legged golden eagle, has only three left. brain

After flashing these thoughts, Ye Xuan did not hesitate, and immediately waved a crack in the void, and stepped into it, escaping toward the blood in front, rushing away...

Today, Ye Xuan, the master of the magic hall, ravaged the right bank of the left bank. In less than a month, he has already visited more than ten stars forbidden. It has already spread in the right section of the left bank. but

The \*\*\*\* forbidden land is located at the right end of the right bank of the left bank. It is close to the vast darkness at the end of the right side of the Milky Way, so the news has just arrived here. At this time, Ye Xuan just happened... blood

There are only five heads of evil beasts in the forbidden land. Originally, these five heavenly beasts were all sitting in the forbidden area, but after the news that Ye Xuan was raging in the right bank of the left bank, the two heavens that had nothing to do with the incident The fierce beast entered the parallel void retreat at the first time, and the fear of being shackled was normal. Remaining

The three old guys didn't really want to go, but the five of them had already reached an agreement before, and the three had to leave one in the forbidden land, so that after the fall of the Lord of the Devil, Ye Xuan's coming, there was a venting chest. Object, otherwise, he will definitely come again in the future... stay

The guy who came down is undoubtedly destined to the fallen end, but the other two may have escaped the robbery, so this is the best way to deal with it, at least the three heavenly beasts themselves recognized.

However, in the end who left the mine, the three did not reach an agreement. and

At this time, Ye Xuan has already arrived...

blood

Like the emptiness of the periphery of the forbidden land, accompanied by a crisp cracking sound, a void crack appeared, and then, the three-headed six-armed konjac true form of Ye Xuan rushed out of the crack.

His body was originally only about a thousand feet. After rushing out of the void, he would storm the storm. The short-lived interest rate has reached tens of thousands of miles. The ninth-order grand perfection Tiandao Weiguan spreads wide and opens, instantly covering the entire \*\*\*\* forbidden land, locking The air of the three heavenly beasts...

"Damn, how come so fast?"

"It's too late, the two friends, the old man takes a step..."

"Why do you go? The deity does not want to stay..."

"Roar....."

Seeing that Ye Xuan came suddenly without any warning, the three heavenly savage beasts were in a hurry and they were in a chaotic position. The figure was mad and shocked. When they talked, they immediately waved their tears and fled into the parallel void. Refuge. This

Waiting for the rush of wandering, where is this three middle-term heavens? Even Ye Xuan was quite speechless and turned his eyes straight.

"No need to fight, the temple has come, you three today... don't want to go!"

Oh..."God

The voice of knowledge has just fallen, and the black mist in the three great devils has already screamed at the hair.

At the same time, the spiritual source nucleus in the brain that knows the sea is also running fast again. The invisible spiritual power of the awning is like a tsunami, and the three sacred beasts will be instantly The shape of the body is completely shrouded.

The black mist is indeed a secret of spiritual power, but it is not a spiritual vortex and a spear of annihilation. It is not a spiritual lightning or a mental reversal, but a spiritual crush...

God's crushing is a kind of mysterious technique that forms a heart-strike with spiritual power. Compared with the attack of the human monk's gods, it is basically impossible to prevent because the spiritual power is more traceable. but

This kind of spiritual power attack has a certain limitation, and the strength is too close, and the effect is not good.

However, the three beasts in front of the heavens are only in the middle of the fourth and fifth-order heavens. With Ye Xuan's now nine-step grand perfection, the Tiandao cultivation is suddenly launched, and there is no suspense. this

Engraved, with the fullness of the spiritual power of the canopy, the three savage beasts who are eager to walk away are all inexplicably stunned, and the consciousness is instantly paralyzed, like a certain kind of konjac. Confused to sleep! positive

It's this moment, it's a violent shot...

"咻..." shoulder

As soon as the head swayed, the three-headed and six-armed konjac was approaching, and there was no hesitation. The big black-headed scorpion was raised high and directly slammed into the three heavenly evil beasts.

Of course, it is still not urging the full force, otherwise a stick will all be blasted.

"puff!"

Oh..."

The dull screams came in, and there was a clear sound of broken bones. Under this great power, the three heads of consciousness fell into a sly heavenly beast and there was no defense at all, and at the same time seriously vomiting blood, shoulders Half collapsed, the treasure split. although

There is a \*\*\*\* splash, but it does not see a little bit of the source of the heavens. very

Obviously, these three guys are not the incarnation of the heavenly will of the big world. Ye Xuan's more troubles are white toss. fine

Imagine that since ten days ago, after harvesting a sacred sacred red liquid like the Dajiang River, Ye Xuan has killed more than a dozen heavenly beasts, but never got a drop of heavenly source. ....

This time because there are three targets for killing in the \*\*\*\* forbidden land, Ye Xuan has some hopes, but the result is still the same, and it is really awkward. brain

In the middle of these thoughts, his heart suddenly felt unrecognizable, and he did not hesitate under the flash of the cold, and the \*\*\*\* stick in the hands of the violent hand waved and slammed down...

Chapter 5127: Refining war

"boom!"

"Hey..." three

The loud noises came one after another, and the big black-and-white porcelain was incomparably bombarded on the huge body of these three heavenly beasts. This

The consciousness of the three guys was still in the middle of the confusion under the pressure of the spirit, and there was no response at all. The huge figure gradually exploded, turning into a canopy of red blood and spreading rapidly. "

Calling..."

However, it is not the incarnation of the heavenly will of the big world. There is no heavenly source of liquid in the body, but this is the starry beast of the three heavens. The \*\*\*\* blood of the flesh is still not wasted. black

The fog was split in the first time, and under the whistling wind, a majestic invisible gas screamed and swept away, and the three awnings swept through the blood, and it was in the body...

From the moment, Ye Xuan's Tiandao blood essence finally broke through the 50th mark and reached 51 giants.

This is still not the result of the ones that were previously swallowed by him and used to forcibly break through the repairs.

Heavenly blood, each one represents a powerful heavenly beast, fifty-one is a fifty-one heavenly beast, and even Ye Xuan thinks that it is a bit swaying, unconsciously, There are so many beasts and beasts that have fallen into their hands. this

If the matter is spread out, I really don't know how many starry stars to scare...

Therefore, the thirty-three heavenly beasts who participated in the encirclement of Ye Xuan were killed and killed 30 times before and after. The last three targets, one was the blue sky and the blue eye that broke into the parallel void in advance, one was Jinwu. The strongest person in the forbidden area is three-legged Jinwu.

The last one is the sneaky sneaky sneaky scorpion. This magical sneaky scorpion is his next goal. After he is solved, Ye Xuan can turn back to the figure and go to the middle of the right bank on the left bank. The area of Jinwu is forbidden...

The sneaky forbidden land on the left bank of the Milky Way is not very strong, at least not as good as the golden shack of the three-legged Jinwu.

However, because the creatures gathered in this forbidden land are somewhat different, the ghosts and forbidden land are very special. Not to mention the ancient people, they are some strong beasts, and they are not willing to get involved here...

The strongest person in the sneaky squatting area is the two sneaks. The two sneaky cults are all in the seventh stage of the heavens, and the one who participated in the siege of Ye Xuan was only one of the two sneaks... ..whole

In the sneaky shackles, there are only two sneaky ghosts sitting in the middle of the seven-step world. In addition, the so-called forbidden beasts in the forbidden land are all grievances or souls. ....

In fact, although sneaky is also a kind of creature, it is not a complete flesh and blood. The existence of this kind of life is quite special between the soul and the flesh and blood.

It is precisely because these two ghosts have special blood, which can be regarded as flesh and blood, and the existence of souls such as grievances and evil spirits. The so-called forbidden beasts gathered in the sneaky ban will be all grievances. The soul class of evil spirits exists. This

The existence of the species of the soul is basically a filth between the heavens and the earth, so that a large number of grievances and evil spirits gather together. Over time, it invisibly affects the starry environment of the sneaky forbidden land, leading to this vast starry sky. Gloomy and dark, not only the survivors are not happy, even the starry beasts are quite disgusted.

Therefore, the entire vast sneaky forbidden land, including the surrounding area of the horoscope, is almost empty for a long time. It is rare to see the figure of the benevolent or the beast of the beast appearing here, just like a vast starry field. Generally...have

Guan Yexuan's raging disappearance in the right section of the left bank, the two seventh-order ghosts in the sneaky forbidden land are naturally known.

One day ago, the seventh-order sneaky scorpion who had participated in the encirclement of Ye Xuan had entered the parallel void retreat. This is clearly a rhythm of avoiding the edge, and I would not dare to face the arrival of Ye Xuan. to

On the other side of the sneaky, still stay in the swindlers to sit in the town. This

For more than half a month, although Ye Xuan, the master of the temple, has been killed in the forbidden land of more than a dozen beasts on the left bank of the left bank, these forbidden places are all those who have had a strong heavenly spirit to participate in the battle against him. .

Although Ye Xuan has indeed killed some of the evil beasts who have not participated in the siege of him in these dozens of forbidden areas, each time it is because of the conflict after the war broke out, these innocent heavenly beasts are only Oh and...

In the view of the seventh-order sneaky ghost who stayed in the sinister shackles, the seventh-order sneaky scorpion who had participated in the encirclement of Ye Xuan had already left in advance, and did not stay in the forbidden land, even if the main lord of the lord leaves Ye Xuan, There is no reason to provoke a war, and naturally there is no possibility of being shackled...

"Oh..."

After waiting for two days, the sneaky stagnation of the outer sky of the starry sky suddenly came a sudden burst of fierce sound, a void crack appeared in the star field without warning, invisibly revealing the arrogance The meaning.

Dare to be so rude, tearing the void directly in the forbidden land, naturally it is impossible to be someone else, the Lord of the Temple, Ye Xuan, finally came...

For a moment, the seventh-order ghost, who stayed in the forbidden city, was loose, but immediately tightened his heartstrings.

The heart was loose because it waited for two days, the other party finally came, and then immediately tightened the heartstrings, then the other person came, but would not see the other seven-order

sneaky as he guessed. Not here, I immediately turned around and went... Although he has a little grasp in his heart, but the grasp is not big reason!

"call out....."

With the shackles, the seven-stage ghost squats out of the abandoned star where Dongfu is located, and the whole body is transformed into a blue glare, and the blink of an eye is in the billions of Ye Xuan. The outer void is abruptly stopped. This

The head sneaky body is not small, it is full of thousands of miles, standing from the line, the form is extremely horrible, looks similar to the barren night fork, but there is no pair of flesh wings behind the ancient night fork...

His body is between the flesh and the energy body, there is no hair, the skin is blue and black, and some of the skin is dry. There are some \*\*\*\* magic lines on the surface. The claws are extremely sharp, and they must be sharp and sharp. It's full of fangs and shocking!

However, although the form is very incomparable, it looks even more horrible than the evil spirits. However, at this time, Ye Xuan, who faced the rudeness, did not have a temper at all, and he was extremely courteous and humble. body

At the moment of the sudden stop, his face squeezed a smile that was more ugly than the cry, and the voice was dumb, but the voice was deliberately gentle.

Slightly squatting at the waist, and bowing to Ye Xuan: "This must be the Ye Daoyou from the forbidden land of the right bank of the right bank. This is the seventh of the two seventh-order sneaks who are sitting in the town."

The words suddenly started, and then I continued after saying: "Ye Daoyou recently left everything on the left bank of the left bank. This seat has already learned that today, the big drive is coming to me, and I must be the other seven-order ghost to sit here. Come on."

Actually, I don't want to be jealous. This person is called Yu San. Before half a year ago, I was really confused and participated in the battle against Ye Daoyou. However, he has repented of this matter.

Although he had rushed back half a year ago, he was very Quickly turned and left, saying that I was going to find a secluded place to think about retreat..."

Before leaving, Yu San had asked this place to tell Ye Daoyou, saying that if Ye Daoyou came to the door in the future, he would like to ask him to apologize on his behalf. In the future, he will return to the right bank, and he will go to the right bank forbidden. To Ye Daoyou...

"This matter has nothing to do with this seat, but this seat and the third come from the same big world, and this seat is the incarnation of the heavenly will of the big world, and the third is also the subordinate of this seat. This seat is not entirely without responsibility..."

At this point, the smile on the face of Yan Qi is even more ugly, and the corners of the laughing mouth have already reached the back of the ear, revealing a sense of pleasing.

It's just that the mouth of the \*\*\*\* mouth is big, but it really makes Ye Xuan resent: "There will be a punishment for him in this house, and he urged him to go to the temple to plead guilty. At that time, he also hopes that the friend can give this seat a life. Look at his repentance, can... let him return!"

"Let him return to his life? You are full of compassionate genius, even your own life can not be saved, actually still thinking about asking others for love?"

After the last sentence of the three great demon bodies that had been cold-eyed and quietly watched him, and suddenly they flashed through the cold and cold, and then the sound of the gods of Ye Xuan immediately sounded: "This is also the trick." Dare to show off in front of the temple, it's just that I don't know how to die...

Roar....."

In the roar of the roar, Ye Xuan's figure swayed and suddenly spurred out...

"boom!"

"puff....."

Ye Xuan suddenly shot, and instantly came to his eyes. He didn't expect him to be so arrogant. He didn't expect him to be so decisive. He didn't immediately speak out, and immediately turned away when he changed his face, but he was still half a step late... One

Only the fist, the chest of the seven will collapse, directly serious injury, a blue liquid like a big river sprayed out, so that Ye Xuanzhen instantly lit up.

He was not lazy, but he was lazy, but he was clever and his words made Ye Xuan extremely unhappy.

More importantly, this old guy has taken the initiative to show that he is the embodiment of the heavenly will of a big world. This is simply looking for death. Even if Ye Xuan does not intend to shoot, he will not let go of this sentence...

This punch is still due to his ability to close the hand. Otherwise, it is very likely that he will directly explode the seven. Such as

Today, he was seriously injured, and he sprayed a blue water like a river, so that Ye Xuan's heart was very happy. The black mist immediately waved, and an invisible force swept away, and all the natural sources of blue liquid were all in the body. "

Roar.....""

Card! "a few

At the same moment, the violent screaming and screaming, the \*\*\*\* stick is like a giant pillar, and smashed directly toward the head of the and the black mist avatar once again spurred the spiritual source nucleus in the brain.

For a moment, the top of the skull blasted a thunder out of thin air. A \*\*\*\* lightning with a diameter of a million miles appeared. He was the existence between the body of flesh and blood and the body of energy. He was quite jealous of lightning and restrained. effect.

Nowadays, the thunder and thunderbolt is displayed, and a million-mile-diameter blood-colored lightning falls from the top of the head, and he is instantly smashed. No

Waiting for the seven times to come back, the \*\*\*\* stick is already a big hit..."

boom! "

The loud noise came, and the big black-and-white porcelain was incomparably bombarded on the huge body of the seven. He was already seriously injured, and he simply couldn't respond. The whole figure exploded instantly and turned into a red \*\*\*\* fog, spread quickly and open.

"Call..."

The sound of the wind whistling, the body of the black mist waved in the first time, and a huge invisible instinct screamed away, and the blood mist swept over and sent it to the bottom of the volcano in the central area of the Dingnai space. Blood essence condensate!

At this point, Ye Xuan's hand in the blood of the heavens added another one, which had reached 52 before, and now there are fifty-three. Knot

In the battle of this bundle, he wanted to leave, but the power of the gods spread and opened, and after sweeping the whole chilly and cold ghosts, the heart suddenly moved.

Although the old guy in the third day has already escaped into the parallel void like the blue eyes of the wilderness, it is impossible to appear again in a short time, but it is only a smashing of the seven, but it is not enough to deter.

It is just that the abandoned stars in this sneaky forbidden place are all the existence of some energy spirits such as grievances and evil spirits, but they can use them... blood sacrifices and devils! Withered

The blood-blooded blade is Ye Xuan's warrior, but since entering this piece of Hong Meng's void...Accurately speaking, after he entered the immortality, the devil's blood blade has rarely been used. package

It's all the same, including the invincible nirvana and the small private warships. thing

In fact, after three years of tempering, the three warriors, trenches and warships have reached the starry sky to the treasure level. but

Although the stars and the treasures and the ancient treasures are called the treasures, but the stars and treasures are the refining things of the world, but the ancient treasures are the ancient absurdity, and have experienced the accumulation and baptism of endless years. although

The same as the treasure, the power of the ancient and the treasure, or to be stronger than the starry sky. from

After Ye Xuan entered immortality, these three warriors, trenches and warships have already been somewhat unsuitable. The warfare power is not sharp enough, the warfare defense is insufficient, and the small private warships are also ruined. The speed is not as good as Ye Xuan's own tearing of the void or the physical body...

This is indeed a pity, Ye Xuan occasionally remembered, his heart is quite awkward.

But he is not in a hurry, because in the future he has encountered the opportunity, these three warriors, trenches and warships can continue to melt, and the ranks and power can be upgraded.

For example, the four major wars that have already been integrated into the four kings are like this. For a while, they were put on the ribs by Ye Xuan, but then they were re-melted, and after the kinetic energy of the war, the life level of the ethnic group was improved. It's alive again, until now it's still powerful...

At the moment, the opportunity for the warrior's \*\*\*\* blade to melt again is obvious. this

Before and after the blade, Ye Xuan six times of fusion and quenching, which cost a lot of resources and energy. After the final fusion, the shape of the devil's blood blade has changed dramatically. It

The front is the sword, but now it is the blade, and it is still a whole body of black and bright, fine \*\*\*\* cloth full of cloth, the shape is even more arrogant and supreme magic blade!

After that smelt, the blade spirit in the blood blade has been sleeping, and now it must have been awakened.

This time, Ye Xuan will carry out the seventh melting of the bloodstain of the Devil. If there is no accident, once the melting is successful, the grade of the demon blood blade will be promoted from the current starry sky to the treasure level, and promoted to the ancient to the treasure level.

Because there is a blade in the blade, the blade of the blood blade will be reflected in two levels. One is the improvement of the body of the blood blade, and the other is the improvement of the life level of the blade.

These two things can only be carried out separately, and the first thing to unfold is obviously the former.  
"

The devil blood blade! ""

In the whisper, Ye Xuan waved his hand, and the body instantly took out the black awning, and the wind rose, and the eyes turned into a whole body black and bright, fine blood lines were full, and the shape was even more arrogant. Magic blade! positive

It is his starry sky to the treasure-level warrior - the demon blood blade.

"Roar....."

The blood blade was sacrificed, and the blade suddenly trembled. There was a shocking arrogance and fierceness in the sky. It seemed that there was a demon waking up, and he wanted to choose someone.

"Slightly, don't worry, today... let you have a good time!" Ann

After he sighed, Ye Xuan waved again, and in a moment there were more than a dozen masculine masculine shots. They were all kinds of top metals collected by him in Hong Kong's voids over the years, used to melt with the blood of the devil. It is the best thing to improve the quality of the war. One

After the preparation work was completed, Ye Xuan immediately activated the forging system attached to the phagocytic system. very

Fast, the devil's blood blade and the dozens of Xeon's star metal that he took out were taken away by the system, and they turned into a body, and the system sound was also in his mind at this time. Ringing...

"Hey, congratulations to the host, the \*\*\*\* star tears sword begins the seventh fusion! Progress 1..."

Finally started, Ye Xuan Changsong breathed a bit, the heartstring is inexplicably tight!

From the beginning to the end, although his warfare, armor and warships have been merged many times, there has never been a failure. Up to now, the bloodstains of the dead have been succeeded six times. but

The more likely it is that the fusion will fail later, the same, the more it goes to the back, once the fusion fails, in Ye Xuan, the loss will be more and more serious, and it will be a little embarrassing at this moment!

After all, the forging system has not been used for a long time, and it feels a bit strange...

"Hey..."

The seventh melting of the body's \*\*\*\* blade began. Ye Xuan's figure swayed, and in an instant, he reached the central area of the sneaky ban, and sat down in the void directly.

On the one hand, it is waiting for the result of melting, on the other hand, it is also to sit here, and there are countless grievances such as ghosts and ghosts in the abandoned stars in the shackles.

They waited for the seventh time after the completion of the smelting, and Ye Xuan took the sacrifice of the blood sacrifice to the devil's blade. He must not let him escape.

After a long time, two days later, Ye Xuan suddenly felt that his eyes suddenly opened. At this time, his brain also happened to have the sound of the phagocytic system. Eight integration is finally completed! "

Hey, congratulations to the host, the magic blood star tears sword is the seventh fusion success! Get the treasure of the demon blood blade! Grade: old age to treasure level! Quality: no shortage of perfection! "

Sure enough, after the seventh fusion, the original \*\*\*\* blade of the starry sky to treasure, the grade has finally been upgraded again, reaching the age of the ancients to the treasure, even for the current Ye Xuan, the same applies!

But it is just that the quality and grade improvement of the blood blade body is obviously not enough. In order to make the power of the demon blood blade reach the strongest, the blade of the blood blade will be the demon, and the life level must undergo another transformation. and

This kind of transformation can be accomplished through a large blood sacrifice.

"call out....."

After calming down the excitement, Ye Xuan waved his hand and there was a \*\*\*\* glare in an instant. speed

The degree is too fast, and the storm is rising. The blink of an eye turns into a magical blade of blood black. It is full of thousands of miles, and the shape is very incomparable. The magical fog with blood black around is entangled and smashed. The meaning of killing the sky can be described as fierce. "

Oh..."

The blood-blade sacrificed, and smashed away to an abandoned star in the depths of the sneaky forbidden land. The huge blade was instantly screaming and screaming. to

The huge black magical fog that wraps around the huge blade body changes rapidly. In the blink of an eye, it becomes a horror demon with a body size of more than 10 million miles. The person is right and the line is very incomparable. The innumerable grievances and ghosts and other energy souls in this star are all sucked into the mouth, chewing and swallowing, just like a giant whale swallowing the sea... blood

Festival...Open it!

"Roar....."

"Hey!"

"Hey..."

This scene is too shocking, frightening the existence of energy souls such as grievances and evil spirits in the sinister shackles. In the abandoned stars, countless demon genius hairs scream and scream, revealing endless desperation The meaning of fear.

At this moment, the entire sneaky sneaky shackles are full of ghosts and madness, like a real starry sky..."

call out....."

After a hovering, the demon blood blade changed direction in an instant, and the blink of an eye rushed over the second abandoned star. The body was more than a million miles of the giant blade, and the roar of the head, the \*\*\*\* mouth again. Open

Xuan did not pay attention to all this. He once again sat down in the void and waited for the end of the blood sacrifice...

A blink of an eye, two days passed.

In these two days, the entire sneaky sneaky smashed into a real starry sky, countless demon spirits and devils roared wildly, but they could not change anything at all, and they were finally defeated by the blade of the demon blood blade. The devil is swallowed up. Both

However, it is the strongest forbidden land, and the strongest person who sits here in this place is still the sneaky scorpion of the seven heavens in the heavens. Then, there will naturally be a ruin in the sin. thing

In fact, it is true. There are more than 20 heads of demon spirits and devils in the shackles. As for the ancient powers, there are nearly a hundred.

The three universes of the universe below the power, as well as the demon spirits and devils of the immortal five worlds, are countless.

The existence of the following powers is not enough, but the current spirit of the Blades and the Devils is only the beginning of the ancient powers, and the nearly one hundred of the sinister shackles and the more than twenty sacred demon spirits and demons Head, just relying on the strength of the demon, obviously there is no way to swallow it. but

It is obviously not a problem for Ye Xuan to sit here in this place. These demon spirits and devils with great power and despicableness simply do not dare to have a half-revolt. more

What's more, after the seventh smelt of the right talent, the upgrade of the grade, and the rise to the level of the ancients to the treasure, the blood of the sorcerer now needs a lot of energy to nourish itself.

The countless demon spirits and devils in the sneaky forbidden land, after being swallowed up by the Blades and the Devil, all the energy is sent to the body of the Devil's Bloodblade. At the same time, after the body absorbs and refines these energies, it also gives the Blade Spirit to the Devil. To enhance its cultivation as a horrible speed...

This is a perfect virtuous circle, which is enough to absorb the relics of the soul energy of countless demon spirits and devils in the entire sin.

"Hey..."

Two days later, when everything was over, a sharp and unstoppable sound suddenly sounded, and all the demon spirits and devils in the sneaky ban were swallowed up, and the demon blood blade returned, turning into the eyebrows of Ye Xuan. .

"Is it over?"

At this moment, Ye Xuan opened his eyes and whispered in his mouth, and he also rose from the sky...

In the middle of the hand, the \*\*\*\* blade of the demon appeared again in his hand. At this time, Ye Xuan was in the form of human race, so the blood blade of the devil was only for the sake of the man, but he was higher than his people. Covered with scorpion magic lines, it looks very incomparable.

"boom....."

Under the flash of the cold man, Ye Xuan raised his right arm and held the blood blade in his hand to the front. This

One blow, he did not use any of his own power, just lifted the blood blade and cut it out.

"Booming..."

The earth-shattering roar came in an instant, and Ye Xuan's glory was condensed, and his face instantly showed a pleasant color.

The power of this attack is really amazing. It is just a glimpse of the sky. Abandoned stars in the distance of 100 billion miles away will be blasted out and turned into a cosmic dust, just like a star.

This is just the domain power of the devil's blood blade. Ye Xuan did not inject his own power into this battle. If it is really injected, the power will be even more amazing. which is

Then he is now the peak of the ninth-order perfection, and the \*\*\*\* blade of the horror of the horror is absolutely enough.

At this moment, Ye Xuan's heart was stirring. The warrior had been accompanying him since the beginning. Later, because of the lack of power, he was put on hold for too long. Now, after the seventh melting, he can finally re-enter the mountain and accompany Ye Xuan. Killing the stars...

I felt the excitement of Ye Xuan's heart, and it seemed as if I was satisfied with the power of this attack. The blade of the blood blade was in the dark, and there was a shocking scream at this moment, revealing endless joy and Fierce meaning.

"Can't wait? Is this so good, Jinwu is also forbidden to go to the ground..."

The floating smile showed a whisper, and Ye Xuan turned his hand and put the blood blade away. Then he waved a hollow crack and walked into it. His eyes disappeared.

Next stop... Jin Wu forbidden!

Chapter 5128: Powerful Jinwu forbidden land

For nearly a month, Ye Xuan has been on a non-stop, killing in the right section of the left bank. Although it is hard, the harvest is extremely amazing. Such as

Today, the amount of blood in his hands has reached fifty-three, and the source of the heavenly source has also collected five kinds.

Tiandao Qingye was obtained from the Qingtian Tiandao Green Eye.

From the three-legged Jinwu, I got the heavenly black liquor.

I got the heavenly purple liquid from the starry sky purple. From

At the Red Star, there was a heavenly red liquid.

In the end, it was from the sneaky seven, got the heavenly blue liquid! except

In addition, the devil's blood blade also completed the seventh melting, and a large-scale blood sacrifice, now the power has skyrocketed, the grade has also been upgraded to the ancient to the treasure level, can let the current Ye Xuan sacrifice to kill the enemy.

As for the thirty-three heavenly beasts who participated in the siege of him six months ago, they have now killed a total of thirty heads. The remaining three heads, the ridiculous Tiandao Qingyan and the ghosts, escaped into parallel void refuge. and

At the moment, Ye Xuan rushed to Jinwu forbidden land, and went to the last goal. This goal is... three-legged Jinwu!

It is not like the ancient worm that the worm is forbidden. It has already left before the long time, and it has hit the ancient beasts of the Hongmeng Avenue.

If you leave the survivors strong, don't mention...

Among all the heavenly beasts that have been born on the left bank of the Galaxy, the strength of the three-legged Jinwu ranks tenth. although

It is said that he was defeated by Ye Xuan a long time ago, and he was seriously injured. However, it was only the result of the suppression of the supreme power of Yu Tiangong. It is not really a real battle with his own strength.

Therefore, even if he lost in that battle, it only explained that Ye Xuan was born, and he was famous on the left bank, but it did not affect the ranking of the three-legged Jinwu in the left bank. row

The fierce beast that the tenth heavenly beast is sitting in is forbidden, and naturally it is not weak enough. The overall strength can be imagined.

The Jinwu forbidden land, where the three-footed Jinwu is located, is also ranked tenth among all the forbidden beasts on the left bank of the Milky Way. It ranks the same as the three-legged Jinwu individual in the heavenly beast.

In fact, just thinking about the overall strength of the ban, it is possible to roughly guess the situation of the ban on the land.

Including the wild blue sky, there are already 11 heavenly beasts in the forbidden land. Of course, there are only nine left, and the blood-winged tiger and the golden-eyed beast have fallen. when

When there were eleven sacred beasts in the beginning, the banned land was in the forbidden land of all the beasts on the left bank. It was only about forty or fifty, and the strong forbidden land of Jinwu was evident. whole

The total number of heavenly beasts in the golden ban is over 20. when

However, these 20 heavenly beasts are not all sitting in the forbidden land, some are visiting friends, some are entering parallel voids to practice, and staying in the forbidden field in the weekdays, only ten Head around.

Among the more than twenty heavenly beasts, the most powerful one is the three-legged Jinwu. He has entered the ninth-order grand perfection of heaven and earth, and it has been a long time ago. Do not

However, the ninth-order grand perfection of the heavens, Jinwu forbidden land is only one end.

In addition to the three-legged Jinwu, the strongest existence of the Jinwu forbidden land is the seventh-order, the eighth-order period of the late Tiandao, the number is not small, there are seven or eight giants...

It's just that the lineup of the heavenly environment is so horrible. The sheer number of banned beasts under the heavens is so powerful that it can be imagined. Have

This kind of connotation, together with the name of the Heiwei, which is ranked tenth on the left bank, is naturally impossible to hide into the parallel void in order to avoid the disaster, just like the evil eye and the sneaky three.

Nowadays, Ye Xuan, the master of the Temple of Devils, raged in the right section of the left bank. The news of the killing of the killings has already spread in the forbidden land of the right-hand side and the land of the survivors.

All the people are staring at Jinwu forbidden land, because at the beginning of the three-legged Jinwu and other thirty-three heavenly savage beasts set up the shackles of Ye Xuan, it has also spread, it is no secret. This

Once, Ye Xuan successively patronized more than a dozen fierce beasts in the right section of the Galaxy, and opened the killing ring. It was clearly aimed at the coercion and retaliation.

In this way, he will definitely come to Jinwu forbidden!

The matter is simply moving, and all the fierce beasts in the right section of the left bank and the countless powerhouses in the star of the benevolent are in the eye. too

It's fierce, too domineering. Before half a year ago, it used its own power to defeat the cofferdam of thirty-three heavenly beasts. Not only did it calmly and calmly retreat, but even killed seven of them before. Beast. very

As for the three-legged Jinwu, which ranks tenth among all the heavenly beasts on the left bank, it is not his opponent. He was injured by an arrow of the sky, and he had to escape with anger when he was seriously injured...

In the first battle, Ye Xuan, the master of the magic hall, was fiercely screaming.

And the tenth name of the three-legged Jinwu left bank, but it is dusty, looming, there are already people criticized this...

Everything, the three-legged Jin Wu knew it, and he also took advantage of the strength, waiting for the arrival of Ye Xuan, the Lord of the Devil.

He is also eager for this battle, because this is the only chance for him to be his own name, and he can't avoid it at all, and he can't avoid it...

He did not even go out of Jin's forbidden land because of his visit to friends or its affairs, and the more than a dozen heavenly beasts who entered the parallel void retreat. because

For this battle, he must fight against the Lord of the Devils and defeat him in the frontal battle, so that he can completely clean the dust on the 10th name of the left bank. when

The sneaky shackles in the forbidden land were clever, and finally they were killed by Ye Xuan, the Lord of the Devils, and even the entire forbidden land, resulting in countless demon spirits and devils in the shackles. After the news of the killing of the Lord of the Devils was spread...

The left bank and the right segment were once again in a piece of silence. Then, all the beasts and the innumerable powerhouses in the star of the benevolent people turned their eyes to the forbidden land.

Because they know that the next next stop, the Lord of the Temple, Ye Xuan, will be... here! "

Oh..."

The crisp and fierce cracking sounded, Jinwu banned the virtual space outside the star field, a void crack appeared, and then there was a figure from which to step out of it, it is the main body of the magic hall Ye Xuan. This

The first battle is so eye-catching that it can be described as the battle of the peak. in

Before the arrival of Ye Xuan, the master of the magic hall, there were some fierce beasts in the right section of the left bank and the heavenly strongmen in the negotiating star field, but they did not enter the Jinwu forbidden land. They did not come to help the boxing, just to watch the battle. Therefore, in order to avoid suspicion, all remain in the dark void outside the forbidden land of Jinwu.

At this time, with the arrival of Ye Xuan, the master of the Temple of the Devil, and the extreme emptiness around the sky, there will be some volatility in the moment, all of which are the atmosphere of the strong heavens...

For all this, Ye Xuan had expected it, he did not pay attention to it, because these old guys are all outside the trillions, which has shown attitude.

"The three-legged old black bird, the temple is coming..."

Under the glimpse of Han Han, the sound of Ye Xuan's sensation sounded through the whole piece of the void, revealing the meaning of endless sorrow: "Not fast... roll out and die!"

"Hey..."

"Ye Xuan, you are looking for death..."

"Booming..."

Xuan's voice of God's knowledge just fell, and in front of the Jinwu forbidden land, there was a shocking scream in the moment, the sound of the three-legged Jinwu's gods, accompanied by a thunderous thunder, a round of black gold. Big day, rushing out from the depths of the forbidden land...he

It was indeed ruined, and the ninth-order grand sacred heavenly road, the tenth of all the heavenly beasts on the left bank, existed in the mouth of Ye Xuan, and turned into a three-legged old black wu. Who can afford it?

Soon, this round of black gold day rushed out from the starry field of Jinwu forbidden land, and stopped at the edge of the star field. Just like a star, the surface of the big day is full of black flames and violent. except

The black gold day of this round of three-legged Jinwu body, along with the eight-headed beasts, as well as hundreds of ridiculous monsters and a large number of wild powers.

All of them are gathered behind the black gold big day, separated by two hundred billion miles of the starry sky, against Ye Xuan...

"In less than a year, your cultivation has improved. It's no wonder so crazy..." Black

In Jinda Day, the three-legged Jinwu's incomparable voice of God's voice rang again: "Unfortunately, even if you don't rely on the strongest gods to get through the heavenly bow, you are still not the opponent of the deity. Are you still planning to do this? "This

Distinguished is the method of radicalization, public shame Ye Xuan, ridiculed that he just dared to arrogate in front of himself with the supreme power of the gods! "

You don't need to be motivated, there is a bow in your hand, and you can't help you. If you don't seriously hurt the last time, you can escape with your tail? "leaf

Xuan sneered, and retorted: "But this time, since you are not convinced, this temple will give you a battle with the front of the bow. How to suppress you?"

As soon as the sound fell, there was a slap in the air, and Ye Xuan now appeared in the face of the human race. At this time, the figure collapsed and turned into a \*\*\*\* sea, spreading over the corner of the universe. Endless \*\*\*\* meaning...

"Roar!"

Roar! "

For a moment, from the three different directions of this vast sea of blood, there was a sudden scream of screams and screams, and there were three huge incomparable figures in the boundless blood of the sea. Landing.

It is the three \*\*\*\* seas of Ye Xuan, and the repairs that are scattered in the body are all the nine-step great perfection of heaven and earth! This

It is the three powerful peaks of heaven, even on the left bank of the Galaxy, wherever it appears, it can set off a storm of turmoil. Now, it suddenly appears, and the void around it will be dead. 蟄

A large number of heavenly beasts and survivors who are in the air in the distance beyond the trillions of miles are all in the eye, secretly sighing...

Soon, with the body shape, the three \*\*\*\* seas were each screaming and screaming, and the ultimate form of the konjac was changed.

In the body of the three great devils, the power of the majestic all rolled up, just like a roaring river in the roaring river, all of the limbs were stirred up with endless fierceness, quickly moving closer together, back fusion. blink

Between the eyes, in the void, the three-headed and six-armed konjac has already appeared, and it's a must! "

call out! ""

call out....."

In the next moment, the violent hands rolled over, and there was a faint sound of broken air in a moment. A masculine spurt out, and the \*\*\*\* stick of God's pesticides was dragged by his right hand, invisibly screaming. Breathless. "

call out! "

Black

The fog is also spurred out of the eyebrows. welcome

Under the storm, it turned into a vast nine-color flame sea, instantly condensing, forming a huge nine-color ribbon, several cymbals hovering, the blink of an eye has been entangled in the body of the black mist, the two ends of the streamer in the chest Before the out, it is like a poisonous snake.

At any time, it is possible to violently devour everything and devour everything..."

brush! ""

Roar....."

As for the cheekbones, this time, there is really no sacrifice for the bow, but the right hand is turned over. In a moment, there is a blood-black magic blade. The whole body is covered with countless blood lines, and the shape is very incomparable. Blood blade.

With the blood-blade offering, the blade spirit in the magic blade instantly sends out a terrifying arrogance, invisible and violent, and it is so scary, even the three-legged Jinwu, under the hood, black gold The infinite black flame that transpires on the surface of the day is suddenly a stagnation...

He has never seen the blood of the devil, but now he has not yet tasted its power, but it is only the violent and violent meaning of this ruthless day, it is enough to make people look and move. he

Originally thought that Ye Xuan's underlying means have all been revealed, and now suddenly see a sly magic blade that has never been seen before, only to realize that this is far from the truth.

These thoughts flashed through the brain, and the three-legged Jin Wu could not help but tremble. In the vagueness, there seemed to be a kind of uncomfortable feeling that grew up in my heart, making him inexplicably uneasy..."

Card..."

When the three-legged Jinwu heart is swaying, just like the star-studded black gold on the big day, suddenly there is a crisp sound of the card...

Ye Xuan shot, the spirit of the secret power of the fierce, quietly blasted a spirit of lightning...

This shot Ye Xuan is full of strength, without any warning in advance, when the three-legged Jin Wu is not right, it is already late, a blood-colored lightning with a diameter of tens of miles is appearing out of its head, the speed is too fast, direct bombing Falling, licking a porcelain..."

Oh..."

Although the three-legged Jinwu is not flesh-and-blood, but the spirit of thunder and lightning is different from the ordinary thunder, this shot Ye Xuan is full-powered, and the spiritual source of the mind that is suspended in the sea is pushed to the extreme, and it is instantly Three-legged Jinwu issued a fierce and fierce horror... though

However, it will not be seriously injured, but it is inevitable that it will be inflicted on it.

"Hey!"

"Suddenly, you are shameless..."

"Rumble..." steep

However, he was sneaked, and the three-legged Jin Wu was furious. The voice of the gods was like a thunder, rolling out and swaying.

At the same moment, from the black gold day of the high dark night of the dark night, there was a rush of endless black flames, and the roaring roared and rushed!

Too fierce, the power is even more powerful, this scene is shocking!

A huge black flame with a diameter of 100 million miles is like a ruin of the Nujiang River. It is poured out from the black gold day that is hovering from the height of the sky. It is a glimpse of 100 billion miles in the blink of an eye. Ye Xuan's hood is in the state...

This hang of black rivers is all formed by the annihilation of black inflammation. It is endless and devastating. It is also the power of destroying the earth and destroying the earth. The three-legged Jinwu is also blasting under extreme anger. The horror of power can be seen, even the far The sinister beasts and the benefactors who were crouching around the tens of billions of miles were not able to jump from the eyelids and secretly took a sigh of relief. This

For a moment, all the people will hang their hearts in the eyes of the blind...

"Booming..."

Under the wrath, the three-legged Jin Wu was grayed out, and the voice of the gods was like a thunder, rolling out and swaying.

From the black gold day of the high-hanging night dark black sky, there was a rush of endless black flames, and the roaring roared and rushed...

This hanging flame is condensed by pure annihilation and black inflammation. It is a savage name of the world. It belongs to the top heavens and the earth, and the flame energy is like a violent violent fire. At this time, it is used to launch an attack. know. more

What's more, this three-legged Jinwu is also the peak of the ninth-order grand perfection. Now he is fully urging the black gold day, just like the black flame river that the general vent of the Nujiang vents, it is extremely terrifying.

Similar to the black Yanjiang River, in the battle half a year ago, the nine-color flame ball that shrouded the shape of Ye Xuan was once defeated. Now Ye Xuan does not have the ninth color flame ball support, if it is hanged by the black river pocket The hood is hit by the brain, and it is feared that it will be seriously injured if it is not dead. Do not

However, for this kind of offensive, Ye Xuan has already had a lot of thoughts. Although the scene in front of him is amazing, he is not flustered. Under the flash of the cold, the black mist is immediately violent and screams.

At one moment, the magical ruin of the spiritual power was activated, and the purple-black spiritual source nucleus hanging over the sea area of Ye Xuan's brain was also frantically rotating. One

In an instant, the power of the massive spiritual source contained in the source nucleus is extracted and extremely compressed, and finally turned into a tiny point that is difficult to understand by the naked eye. It rushes out of the dark fog and knows the sea, whistling toward the front...

"Boom!" Giant

It's shocking, it's skyrocketing!

The one is as small as a dusty dust, but in reality it is a purple-black dot formed by the nearly half of the source of the core source of Ye Xuan's mind. It is already bursting open when it rushes halfway.

The power of the endless spirit of the majestic spirits collided with each other and instantly turned into a huge energy vortex.

The invisible spiritual power is violent and violent, and it seems to annihilate everything, revealing a horrible atmosphere of ruining the earth, directly blasting the rushing black flames of the river, and numerous black flames splashing in the void. Scattered. although

Still revealing the devastating atmosphere of the eye-catching, but now it has collapsed, Ye Xuan, who is in the ninth-order grand perfection, has no threat.

"Oh yeah..."

In one scene, the three-legged Jinwu seems to have been in mind. Correct

In the collapse of the black flame Dajiang formed by the annihilation of black inflammation, he did not have a half-reaction, and the first time he took the shot.

Soon, the incomprehensible humming sounded, followed by the crisp sound of cracking. before

In the emptiness of the sky, this giant black gold in the Pangda billion miles bursts into a dark and deep radiance. The speed is much faster than lightning, and the spread is as if the void is melted. Shocked...

This is the ruin of the three-legged Jinwu. This

The black mans seem to be inconspicuous, but he can ignore everything. Once touched, everything is destroyed.

It is the essence of the three-legged Jinwu extracted from the black inflammation of the world. It has been tempered in the body for many years, and it has been turned into a black light curtain like this one.

In the battle of half a year ago, the three-legged Jin Wu had also used this magical power in the end, but it was broken by the arrow of the sky that was shot in the hands of the skeleton. Do not

But just like the destruction of the ruined light curtain collapsed, even the three-legged Jinwu was seriously injured under the power of that arrow, and eventually had to turn around with anger...but

This time, Ye Xuan has already expressed his position in public, and will not use the supreme \*\*\*\* to pass the bow. Therefore, Sanzu Jinwu has high expectations for this ruined light curtain. In his view, Ye Xuan has no hard time to resist. Even if the nine-color flame sea is sacrificed, it will not be able to resist it. vertical

But don't die, at least it's going to be hit hard under this attack..."

Hey! ""

Oh..."

In fact, for this light of destruction, Ye Xuan is indeed extremely jealous. Wei

Can be too strong, even if Ye Xuan does not dare to face hard, so that it must make its own treasures, after all, is the essence of the extraction from the world of black inflammation. but

Although he does not dare to resist, it does not mean that there is no way to resolve... brain

These thoughts flashed in the middle of the body, and the body of the black mist flashed in a moment, and immediately moved. under

For a moment, the whistling sound of the low voice in the emptiness, the black mist split into the hair and a terrible shout, the sound is fierce, sharp as if to pierce the eardrum. Virtual

Immediately in the air, a scale-like wave scale appeared, and an invisible spiritual force roared like a Nujiang...

God black hole started!

The spiritual power that roared away was soaring to the sea, but it was invisible and inferior. The power was terrible and horrible. At the same time, the void was instantly collapsed and spread all the way. Wan

If the dominoes are pushed down, the short-lived half-spots are not enough. The void that continues to collapse has formed a huge black hole in front of it. The diameter of a hundred miles away is just the black ruin that is swept across the masculine. The curtain is blocking the head...

"Oh..."

"boom!"

For a moment, the black ruined light curtain rushed into the huge black hole formed by the collapse of the void, and instantly collided with the majestic spiritual power in the black hole, and the explosion exploded. Look

In this scene, the three-legged Jinu, who is hundreds of billions of miles away, almost spurted out an old blood on the spot. This

Unexpectedly, in the absence of the use of the powerful Shentong Yutian bow, Ye Xuan can easily resolve his destruction of light.

Although until now, he attacked twice in succession, Ye Xuan was only passive defense and resolution, and did not launch a counterattack, but he is, after all, the ninth-order grand perfection, and the tenth of all the heavenly beasts on the left bank. . Such as

This time, he shot twice in a row, but the other side did not lose any damage. He easily resolved his offensive with ease. This is actually a bit of anger, and the face simply cannot be hanged..."

Roar.....""

The deity wants to see, today, what other means can you display! "

"Booming..."

The whole part of the brain flashed through it, and the thundering sound of the three-legged Jinwu in the black gold day suddenly sounded again, and there was a hint of madness in the vagueness...

Even the shots were all in vain, and his heart was already full of anger and anger. At this time, it was close to the edge of the violent walk, and the heart was under the sway, and the magical means that had been relying on the foundation directly showed up...

At this moment, the black gold roared in the big day, and the black flame rushed up. The whistling whispered over the 100 billion mile of the void, and the black gold day was completely covered and invisible. tight

Then, before everyone reacted to what happened, the endless black flame of the awning suddenly made a steep condensing. The black gold day that had just been covered by the black flame reappeared, but it was no longer a round.

But... Ten rounds of big day! "

Oh..."

what happened? How can the black gold day in the void suddenly become ten? "

"The atmosphere is exactly the same, all of them are violent, all of them are the ninth-order grand perfection heaven..."

God, what is this secret law, and what is the difference between the blink of an eye? This is clearly the rhythm of one of the ten peaks of the Tianfeng Tiandao, the master of the battle hall, Ye Xuan...

In the air, a large piece of cold air and exclamation sound came in a moment. In the face of this strange and terrifying scene, the heavens that crouched in the darkness were all shocked..."

what happened? How can the black gold day in the void suddenly become ten? ""

Ten rounds of big day, the same breath, all are the ninth-order grand perfection heaven..."

Is it ten in the blink of an eye? This is clearly the rhythm of Ye Xuan, the master of the Ten Heavenly Roads, together with the Lord of the Devils..."

With the three-legged Jinwu show secret method, in the blink of an eye, ten rounds of big day and sky, surrounded by the void, a large piece of cold air and exclamation sound came. surface

For this strange and terrifying scene, those heavenly beasts and survivors who are squatting in the darkness beyond the trillions of miles, without exception, are all shocked...

Not only they, in fact, even Ye Xuan, was shocked by this scene.

In the shackles of the three great devils, all of them are shocked, and they can hardly believe everything they saw.

The atmosphere of the ten rounds of Black Gold Day is indeed extremely powerful. They are the peaks of the heavens in the nine-order grand perfection. It is as if the three-legged Jinwu has been copied by nine replicas. It is not a virtual illusion. but

All of this is obviously impossible. leaf

Xuan has never heard of this horrible anti-sky secret.

His blood and sea secrets are enough to go against the sky. In this vast and innocent Hong Kong void, I don't know how many strong people want to get the complete blood and sea secrets.

Even if it is a \*\*\*\* sea secret, it can only condense three \*\*\*\* seas that are the same strength as their own.

One is three, this is the limit!

The first thing in front is ten, it is impossible to exist at all. This is no longer a word that can be described as against the sky! "

I have to say that you really don't want to blame the lord of the Lord of the Devil, but you can force the strongest of the deity to be proud of it..."

"However, you must think that in the ten rounds of the big day, there must be nine rounds of illusion that are nothingness?"

In this way, the deity will let you see the real power of the ten rounds of the sky! Ye Xuan, there is no suspense, today's battle, you ... will be defeated! "

"Boom!"

Rumble..."

At this moment, the sound of the gods of the three-legged Jinwu is like a thunder, and it sounds again.  
and

And from the ten-day high-hanging black gold day, at the same time, the ten sounds gathered together, the power radiated is horrible, the voids are trembled...

For a moment, from the ten-day high-hanging dark night of the black gold day, there will be a awning, an endless black flame, and a roaring roaring, rolling and rushing...

It's so spectacular, it's powerful, and this scene is shocking! ten

Inside the black gold crystal, there is a huge black flame with a diameter of 100 million miles. It is like a ruin of the Nujiang River. It is like a levee, and it's a emptiness between the eyes, and it's the hood of the konjac. ....

This black river is all formed by the annihilation of black inflammation, and it is endless and more powerful.

The previous three-legged Jinwu was just a blast, and the horror of Weieng was already moving. Such as

In the black gold day of the ten rounds of the void, all of them rushed out of a black flame, and the ten flames of the river seemed to be like a black dragon. The sight of the people was simply impossible to describe in words.

This scene is in the eye, even the sinister beasts and the benefactors who are crouching around the tens of billions of miles away, can not jump again and again, and take a sigh of relief. under

Consciously, all the people once again hang their hearts in the eyes of the blind...

"This is impossible..."

For a moment, the three great devils also changed their face, and the screaming voice of Ye Xuan came out of the mouth. first

Before, he did think that there were nine rounds of imaginary images in the ten rounds of the Black Gold Day. But now that the ten black flames are coming, the power can not be faked. Suddenly, even Ye Xuan could not help but shake. The figure is mad, and the steepness is a sense of chaos.

Oh..."

It was at this moment that his brain suddenly flashed an aura, and then hesitated. Even when the enchanting was activated, the faint humming sound, the konjac's eyebrows had a tiny vertical eye invisible. Significantly, the secret sacred sacred, the ten rounds of black gold day in the emptiness of the front, and the ten flaming rivers that are coming from the raging rushing river, diverging away...

The nickname is the most powerful, and the power can be traced to the source. It is just a pediatrics.

In Ye Xuan's heart, I always think that this kind of magical sea-like magic is impossible to exist, but I can't see the traces of illusion. It is very likely that this illusion is mastered by Sanzu Jinwu. The magical powers are too strange and different.

Even so, if it is really an illusion, no matter how weird, no matter how ridiculous, it will definitely not escape the fascinating glimpse of the source of this...

Everything, Ye Xuan is only launched in the dark, and the enchanting outsiders appearing in the violent eyebrows are simply invisible, and they are even less aware of the invisible shackles that are scattered from the violent eyebrows.

Only one glance, there has been a result, the enchanting power can be against the sky, plus today's Ye Xuan has a ninth-order grand perfection of the heavenly road, and under the full force, the moment is everything, glimpse The truth, in fact, is what it should be! This

Ten rounds of black gold, it is not a illusion of nothingness.

But in the same way, they are not real entities. The so-called ten-round big day is nothing but a supernatural projection.

Among the ten rounds of the big day, only one round is the body of the three-legged Jinwu, and the other nine rounds are just the magical projections of the three-legged Jinwu.

Through this strange magical power, the body of the three-legged Jinwu is integrated with the nine supernatural projections. Although the real big day has only one round, it can be in any of the other nine-wheeled magical projections. real! Do not

It's just ten rounds of big day, including the ten slams of the Black Flames that smashed in the ten rounds of the big day.

Among the ten black flames in the river, only one hang has the real power to destroy the heavens and the earth, and the other nine hangs are just supernatural projections. but

This hangs the real black flame of the great river, but it can be solidified in any big river projection. Therefore, no matter how Ye Xuan evades, as long as there is a black flame that touches him, the powerful force of this attack will be dumped in an instant. go with.

Of course, if Ye Xuan still uses the previous method to intercept, then, what he cracked, is just a supernatural projection, and there are still nine hangings in the black fire.

If you have been intercepted by similar means, Ye Xuan must take out nine shots in succession to break all the nine magical projections, but in the end, there is still a real black flame that remains in the river and thunders...

In such a short period of time, it was not realistic to start the interception nine times in a row. What's more, even if Ye Xuan can do it, I will not be exhausted after nine times, and the power in the body is almost consumed...

Needless to say, this kind of magical power is really strange, illusory, real and unpredictable, it is desperate. can

Unfortunately, after all, I still can't stop the enchanting glimpse of the traceability of the source. Only one glance, all the things have been completely understood by Ye Xuan...

Chapter 5129: Star hamster

"Boom!"

"Booming ....."

In the air, the thunderous thunder of the thunderous sound, the ten flames of the river like a black dragon rushing up, rolling toward Ye Xuan, the scene of the monks, can not be described in words...

For this horrible offensive, any strong person in heaven and earth can't calm down, even if it is the ninth-order grand perfection, it will definitely be lost. only

The only way to deal with it is to turn around and escape.

In fact, Ye Xuan also did not intend to resist, the three-legged Jinwu such a strange projection of magical powers is like a temptation, the ten rushing black flames in the river, obviously a real nine. but

These ten black rivers can be arbitrarily converted between the virtual and the real. No matter which one he rushes to, which one he touches, even if it is originally virtual, it can be converted into reality instantly.

In this case, going up or intercepting will be extremely passive.

Rather than doing so, it's better to hit the roots and pay for it! "

Oh..."

The low humming sounds, at this moment, Ye Xuan will push the spiritual power to the extreme, and the perfect shock will be fully activated. One

In an instant, his body shape has disappeared, and it has been hidden. Even the air machine is perfectly condensed, and the whole person seems to disappear instantly. "

what? Actually escaped..."

This is what it should be. Such an offensive, even if it is the peak of the ninth-order grand perfection, can not compete against it..."

"After all, there are ten rounds of black gold that are also cultivated in heaven and earth."

"The Lord of the Devils, Ye Xuan, is still awake, and he knows that he is invincible. He immediately escaped with his mysterious shackles."

After this war, the rankings of the three-legged Jinwu in all the heavenly beasts on the left bank, I am afraid that they must be on the front again. I can't think of such a terrible \*\*\*\* magical power, which is too astounding..."

As Ye Xuan's figure disappeared, and the distance around the tens of billions of miles was far away, there were some sighs coming in, and the heavenly beasts and the benevolent strongmen who were crouching in the dark almost all identified Ye Xuan. It was a long-distance, self-awareness, and escaped quietly.

Even the three-legged Jinwu thought so. At this moment, his heart gave birth to an extreme unwillingness. He thought that this attack would make Ye Xuan fooled, at least he could also hit him. I couldn't think of him eventually. Wonderful, fled directly. Do not

After all, although it was not possible to reinvent Ye Xuan, the master of the temple, at least the purpose of this battle has been achieved, not only to wash away the stains of the previous war, but also to rank among all the heavenly beasts on the left bank. Therefore, if you squeeze a few forwards, you may be able to enter the top five..."

boom! ”

These thoughts flashed from the brain. Just as the three-legged gold was secretly stunned, a sudden bang came from the top of the head. A \*\*\*\* stick like a big pillar of the sky slammed into him on the thunder. The head is full of Venus, and the brain is so bad.

"Hey..."

Damn guy, you didn't escape..."

In the tragic sound, the three-legged Jin Wu's fierce roar is also ringing, revealing the resentful meaning of Haotian...

Xuan did not go, he just concealed his body shape with the perfect shock of the spirit of the spirit, the air machine is full, and then a little teleport, directly to the ten rounds in the void, black gold Behind the big day... ten

The big day is also a real nine.

The imaginary is the nine-day big-day projection. Although the real black gold day, in the three-legged Jinwu thought, it can be condensed in any of the other nine virtual big days...

But this obviously has no effect, because at least one round of the ten rounds of the day is real.

What's even worse is that Ye Xuan has a enchanting, can trace the source, and understand everything, no matter where the real day of the round is, he is fully aware of it.

Therefore, after quietly touching the back of the ten rounds of the big day, Ye Xuan shot the first time, the \*\*\*\* stick is like a sap, just directly under the round of the big day, the porcelain is very incomparable...

With this great roar, Ye Xuan's figure also appeared, but then he will take a big stick, and the magical power of the perfect shock will be activated once again, and the figure will be hidden again, and the breath will not be revealed. Suo.

In fact, after his stick was smashed, the three-legged golden scorpion screamed at the same time, and this real nine-nine-nine round of black gold day immediately changed. ten

The round of the big day was lined up, and the actual round, counting from left to right, was originally ranked third.

But now that I've got a stick, in order to avoid being embarrassed again, the three-legged Jinwu instantly switched from the third to the ninth...

In his opinion, Ye Xuan shot a sneak attack, but it was just that the scorpion cat ran into a dead mouse, which happened to happen. can

Unfortunately, with his conversion, Ye Xuan, who had lost his body shape, quietly followed the past. After the ninth round of the big day, under the slap in the middle of the cold, the big head was black and slammed again. ...

"boom!"

Rumble..."

"Hey..."

The pain of the previous stick has not yet dissipated. This has just turned the ontology into the ninth round of the big day. In a moment, it has smashed a stick. The three-legged Jinu almost spurted blood on the spot, although I didn't want to be embarrassed, but it was too It hurts, and I'm screaming at it...

However, at the same time as this horrible sound, he again switched in an instant, and the body that had just arrived at the ninth position instantly switched to the big day projection on the left side.

All of this, still did not pass through Ye Xuan's eyes, and in the blink of an eye, he once again disappeared from his body shape, and he slammed into the left side with a \*\*\*\* stick.

At this moment, Ye Xuan suddenly thought of a game called the hamster. What do you do now, is it exactly the same as playing the hamster? It's just that the level is higher, and it's not bad to call it a starry sky.

When these thoughts flashed in the brain, Ye Xuan, who had once again lost his body shape, immediately reached the target, no suspense, violently stunned, and then smashed again...

"boom!"

"Hey..."

"You actually sneaked through everything, it is impossible... murder, how did you do it!"

Oh..." This

They have smashed the four sticks one after another. If they haven't understood what happened so far, what is the ninth-order grand triumph?

At this moment, as the fourth stick went down, his fierce and fierce voice was instantly reproduced, and the sound of the gods of the three-legged Jinwu revealing endless grief also sounded at the same time.

The whole piece of the void is slightly trembled, and anyone can feel a thick and can't open it... 滔天怨念! Indeed

There is no way to be wronged. In fact, at this time, his whole person is almost collapsed, and an old blood has already reached the eyes of the blind man. Hall

Tang Tiandao, and it is still the peak of the nine-step perfection, but it was played in public and played the hamster in general. This is simply a shameful shame. The three-legged Jinwu feels that his liver is being blown up...

"boom!"

Oh..."

You actually peeked at everything, it is impossible... genius, how did you do it! "

"Hey..."

With the fourth stick going down, the screaming voice of the three-legged Jinwu sounded again, revealing the endless grief and indignation, and the whole piece of emptiness was slightly trembled. Anyone could feel a thick and can't open. Sorrowful resentment...this

For a moment, his entire person collapsed.

The ninth-order grand perfection of the heavenly road, but was played in public in general, played the hamster, this is simply a shameful shame, three feet Jinwu feel that his liver is being blown up. Partial

I am still self-righteous, and I have secretly secretly sneaked in the moment, all of which are now recalling, my face is burning and painful, too sad! This

Everything is long, but in fact, Ye Xuan just picked up the \*\*\*\* stick and hit the hamster again and again. How long? its

Among the various species, Ye Xuan and Sanzu Jinwu, although well-informed, but those who are crouching in the distant sky outside the trillions of miles, the left-wing heavenly beasts and the benevolent strong, are confused.

For them, just seeing the main body of the magic hall, Ye Xuan's body shape disappeared, and the three-legged black flames that the three-legged Jinwu had smashed in the previous ten rounds of the black gold day fell into the air and disappeared toward the end of the void.

Then, behind the ten rounds of black gold on the outside of the golden sky outside the forbidden land, the body of the demon temple, Ye Xuan's figure suddenly reappears, with a \*\*\*\* stick flashing and moving, just like sending In general, between the electro-optical fires, they smashed four times in succession.

Every time there is a fall, there is a three-legged Jinwu's tragic voice response. Once more than a stern, the ninth-order grand perfection of the heavenly road is actually screaming like a hungry wolf. It is simply a tear in the ear. Shocked... this

Everything is so real, but they give birth to a sense of absurdity that is like a dream. They are stunned. These left-wing heavenly beasts and the benevolent strongmen who have been crouching in the distance are screaming for a few moments. After returning to the gods, the body screamed and sighed, and suddenly exclaimed..."

God, what happened? ""

Ye Xuan, the master of the magic hall, did not escape, but he did the opposite, hiding his body shape, converging his air, and silently hit the back of the ten-round black gold day..."

These are not important, the key is what are they doing? Playing the hamster? It looks like..."

"It's just ridiculous. Why didn't the three-legged Jinwu fight back? He even exposed the ten-day supernatural powers, and they smashed the four sticks in succession, but only knew that they were screaming, which is unreasonable..."

Could it be that the first stick broke his head? This is very likely. After all, this big black-and-white savvy name is ridiculed by the heads of the three-armed and six-armed demon temples. It is also a proper intention to make a concussion..."

"How is it possible? This is the ten rounds of black gold on the side of the day, even if it is really a shock, the other black gold days should not be embarrassed, why has not been responding, let him go so sloppy? ""

Could it be... transferred? "

"Hey..."

The latter sentence was transferred to God's gun, basically said the facts, but also in the invisible heart of the three-footed Jin Wu's heart headache, its sound in the ear, the gas he blocked in the eyes of the throat of the old blood, almost really The spray will come out..."

Rumble..."

The secret law is invalid. I don't know what the method of Ye Xuan, the master of the magic hall, used to sneak through the mystery. The three-legged Jinwu is unwilling, but can't accept the appearance.

In the void, the thunderous sound of the thunder rang again. From the ten rounds of the black gold day, the black flames like the Nujiang River are once again transpiration, and the blink of an eye is connected successively, and the ten rounds of black gold are all shrouded. One

After the interest, when all the black flames condensed as usual, the ten rounds of black gold disappeared, and there was only one round left in the void. It was as if the scene had not appeared in the past, just a dream... far

Beyond the tens of billions of miles, those who were crouching in the darkness of the void, the beasts of the heavens and the beasts of the survivors were all a little worried. Although they did not know what happened, they saw the ten-day big day in the main hall of the temple. After a round of hamsters, they were taken up by the three-legged Jinwu, and some faintly guessed something..."

Oh..."

In the next round of the only black gold day, the whistling sound of the whistling sound came out from the big day, and then it quickly changed like a black gold day of the stars.

Half-interest, the black gold day disappeared, turned into a three-legged gold-wool all-in-one black gold, the body is too large, enough for a hundred million miles, when the sky is empty, even the sky is blocked.

The successive shots were invalid, and the hamster was generally played with a fight. The three-legged Jinwu was completely angry, and finally showed the blood.

What is strange is that this feather is full, black gold, and the body is more than 100 million miles of three-legged Jinwu. On the huge head, you can clearly see four big \*\*\*\* high graves...

This is clearly knocked out by people! Look

In this scene, those left-wing heavenly beasts and survivors who crouched in the void around the tens of millions of miles suddenly realized suddenly.

Although they haven't seen any clues so far, they can see the four big blood bags that appear on the top of the three-legged golden eagle. They immediately understand that nine of the ten rounds of the big day are virtual, and there is a moment between the virtual and the real. Conversion. can

I have never seen the eyes of Ye Xuan, the master of the Temple of the Devil. The \*\*\*\* stick in his hand seems to be a four-wheeled black gold day. In fact, all these four are in the body of the three-legged Jinwu. On the body, otherwise he now shows the bleeding veins, and where are the four big blood bags on the top of the head?

"Hey..."

The ninth-order grand perfection of the heavens and the peaks of the heavens, and then the battle was forced to show the blood and the body, and this shape, the four big blood bags on the top of the head, so chic... brain

I flashed all of this, and the three heads of Jin Wu's heart were angry and indulged in a moment of screaming, and he was mad...

"The Nether Claws...Claws Nether!"

Xuan did not pay attention to him, and the violent mouth suddenly rushed out, and the black mist split again with both hands...

A glimpse of the glare, and the storm rose into a million-year-old giant dark green claws, spurting toward the three-legged Jinwu...

Although the claws are also an extremely powerful ancient magical powers, they are not at a level and weaker than the fascinating sacred bows. can

Even so, the three-legged Jin Wu is equally jealous, but it is not as strong as the 陨天弓.

Although the Nether Claw has no horrible power, it is the strongest blood of the ancients. shortage

Ancient Nether, is a collection of the world's suffocating suffocating, its \*\*\*\* magical powers are like a smudge of blood and blood, any creatures are extremely disgusted, once contaminated, it is the congenital level of the ancient treasures, but also the power can be greatly damaged... ..

The ancient gloom is born from the suffocation of a big world, and its blood and blood is like a smattering of blood and blood. Any creature is extremely disgusted.

Once contaminated, it is the innate level of the ancient treasures, but also the power can be greatly damaged. To put it bluntly, it is the ghosts and gods. It is not a good thing. It is only ominous, no half-benefit...

For such filthy things, even if he is a strong heavenly person, he will choose to rush away in the first time. In fact, he is not afraid of his power, but is worried about being contaminated by himself and making himself vulnerable...

At the moment, Ye Xuan's brain knew the dark green claws hanging from the sea, and the intricate lines on the surface were also sharp and bright. The second form of the ghost claw was fully activated by him. a few

At the same instant, dozens of dark green claws smashed away at the same time blasted at the same time, raging dark green and strange energy in the void, swollen and swallowed, turned into a huge green ink The head, the huge shackles, jumped into the smoldering flames, like a teleport, and went to the opposite side, and rushed to the opposite three-legged Jinwu..."

boom! ""

Oh..."

Only when the cockroach approached, the dozens of tens of thousands of miles of the dark green gimmicks exploded without exception, the emptiness of the emptiness of the green liquid, overwhelming, and the temperament of a middle-aged vomiting quickly opened. "

Rumble..."

The three-legged gold-black eyelids jumped wildly, and the face appeared to be disgusting. The huge figure of nearly a hundred miles was quickly retreated. It was too big and the speed was very fast. It invisibly brought the earth-shattering boom in the void. The sound of thunder...

"Hey..."

In this scene, the dark mist of the scorpion flashed through the cold mang, and screamed and screamed, and immediately ignited the spiritual power of the body...

At one moment, the annihilation spears in the two secret attacks are secretly motivated by the black fog.

The massive spiritual power extracted by the spear of the annihilation is not turned into a spiritual vortex, but turned into a very small point, just like a spear, and slammed out.

In this case, a lot of spiritual power is drawn, but the attack is the tiniest point. This is a tiny point of the spear, which is so sharp and unbreakable. "

Oh..."

The sound of the sound rang, and the spiritual source nucleus of the sea emptied by Ye Xuan's mind quickly spun up with the movement of these spiritual forces, and it was getting faster and faster.

In the twinkling of an eye, a tiny spiritual cluster formed by the intense compression of a large number of spiritual sources, shot from the sea of dark fog, like a heavy hair with infinite density, with the shadow of a spear Go forward and go...

Paying three full Jinwu, Ye Xuan has been using spiritual power almost all the time, the secrets of various spiritual powers and the magical powers are being displayed one after another...

There is nothing that can be done.

The three-legged Jinwu is the incarnation of the heavenly will of the Jinwuda world. Like the blue eyes of the wilderness, there is no flesh and blood. In this case, the physical attack such as the \*\*\*\* stick can hurt him, but it cannot shake the root.

In dealing with this kind of existence, Jiu Cai Shen Yan was originally the best choice, but the three-legged Jin Wu was completely collapsed in the Jin Wu Da world he ruled, and all the stars in the big world were completely swallowed up by the endless turbulent void. Devouring, the ontology of itself is a black gold day that is condensed by pure black inflammation, and has a natural immunity to flame energy.

The effect of the attack is not satisfactory, and the colorful flames have no good effect. Naturally, they can only be suppressed by the secret of the spiritual power. although

It is said that Ye Xuan is quite depressed because of the consumption of spiritual power, but I have to say that the mental strength is really quite effective in dealing with such existence.

At least, at this moment, in the face of his all-powerful spirit, the secret of the annihilation of the spear, the three-legged Jinwu points are extremely taboo, under the pressure of the dark green blood formed by the dozens of dark green skulls, the body is retreating. Faster...

Ye Xuan has repeatedly shot, can be described as a big move, can you watch him calmly withdraw and retreat? Rear

The continuation of the means is already ready..."

Hey! "

It was also at this time that the violent screaming suddenly screamed, and the sound of a dragonfly slamming into the clouds suddenly sounded at this moment...

At one moment, the black gold dragon scales hanging in the sea of Ye Xuan's brain suddenly trembled, and a large number of sources of power were extracted, causing them to become bleak and weak.

A giant dragon with a million miles, the konjac from the three heads and six arms suddenly appeared after the body, and the light was faint, like a squat...

In an instant, even this corner of the void seems to be dark and dark with the eyes of this magic dragon. There is also an invisible mysterious force that binds the shape of the black gold day, as if this eye, it bans the void. , fixed his body shape! This

It is the supreme magical power in the blood of the dragon that is represented by the black gold dragon scales. magic

The dragon is the candle nine yin, also known as the candle dragon. Ye Xuan's brain knows the black gold dragon scales hanging in the sea. Inside, there is the blood dragon of the candle dragon, including the sacred vision.

The blood dragon of the candle dragon is in the middle of a pair of candlesticks. When the candlelights are enlightened, they are white, and when they are closed, they are dark nights...

However, the so-called blinking is awkward, closing the eyes for the night is just a description, but it can explain the secret of the blood dragon and the power of the power.

At this moment, Ye Xuan will be fully motivated by the black-gold dragon scales that hang in the mind and understand the sea. The three-legged golden scorpion is out of control and the whole body is imprisoned. although

However, with his cultivation as the strength, this imprisonment can only last for a short period of one or two moments, but for Ye Xuan, it is enough...

"Hey..."

At the same moment that the three-legged Jinwu figure was abruptly stopped in the void, the dozens of hoes blew open the dark green blood, and they instantly became sturdy, and they were the giant figure of the Ponta Covered half. dirty

The \*\*\*\* body, the repair of the three-legged gold-wool body is a breath.

It is also in this moment, the invisible war spear of the spiritual power secret annihilation spear is also whistling, and it is instantly pierced by its ribs, but unfortunately it has lost its head, and has not hurt the head and other key points, otherwise the three-legged Jinwu spot Fall is possible.

This is not enough...

"Hey..."

These thoughts flashed through the brain, and the humerus was smashed into the scorpion, and there was a flash of cold awning. The right arm was lifted up between the head and the screaming screaming, and the incomparable sorcerer's blood blade smashed through the emptiness of 200 billion liters... "

puff....."

A \*\*\*\* mangling is like a slap in the air, and the blink of an eye has already reached the front of the three-legged Jinwu. From his right shoulder, he almost smashed the right wing of the three-legged Jinwu.

At this moment, his huge right wing shrugged down, unable to hang on the body, and the wound was sprayed out of a black river. It was the natural source of the heavenly black liquid...

"Hey..."

Until then, the candle dragon magic sneaked into the invisible imprisonment power of the Ming dynasty, the three-legged Jin Wu Yang hair out of a terrible scream, revealing endless unwillingness.

In any case, he did not expect the situation to reverse so quickly. In the blink of an eye, he has once again... \*\*\*\* void! "

Oh..." straight

To the sorcerer's blood blade, a knife smashed out, almost slamming its right wing, and the candle dragon stunned the invisible banned power to disperse...

There is a scream of horror in the eyes of Jin Jinwu, revealing endless unwillingness. In any case, he did not expect the situation to reverse so quickly. In the blink of an eye, he has once again... \*\*\*\* void! can

Unfortunately, even if he is not willing, this battle has not been reversed. on

In the right place, he has been hit hard, and now he is in a state of extremely serious serious injury. Ten percent of the fighting force is only half. If it is left behind again, the final result must be on the spot.

"Hey..."

"The Lord of the Devil, the humiliation of today, the deity... will come to Japan!"

These thoughts flashed through the brain, and the three-legged Jinwu once again made a shocking whistling sound, revealing the anger and endless unwillingness of Haotian. tight

Then, the emptiness of the void was directly smashed, and the huge figure was turned into a black gold awn, and the blink of an eye broke into the crack and disappeared.

Obviously, this old guy knows that there is no hope for the battle of today. Under the serious injury, he fled into the parallel void to avoid the limelight. he

After all, it is the culmination of the ninth-order grand perfection, and it has been a long time since entering this place. Even in the peak of the great perfection, the strength is the rank of the sacred beast. The existence of ten...this

If there is a heart and soul, even if it is now Ye Xuan, it can not be intercepted. After all, the three-legged Jinwu and other heavenly beasts are different. Ye Xuan's nine-color flame sea is not effective for him at all, and he is simply unable to trap people.

For a moment, the void of the three-footed Jin Wu shape broke into the void, and even if Ye Xuan waved and tore open it in the same place, it would never be able to trace the parallel void of Sanzu Jinwu. leaf

Xuan is also the pinnacle of the 9th-order grand perfection. It is still well-known to this point, so he did not have to go to the expense of this effort, and the flash of a glimpse of regrets, turned to the front In the void, the sky is like the Dajiang River. old

Although the guy escaped, at least he left behind a heavenly source of black liquid like a river. For Ye Xuan, this battle is not a toss.

Although the natural source of black liquor has already been in his hands, but this top resource is extremely rare, and now it is in the virtual air in front of the eyes, how can there be no reason?

"call out....."

Brain

When I read it, I was violent, and I immediately waved my hand. In an instant, there was an invisible force that spurred away. The stagnation of the black liquid in front of the emptiness in the sky was immediately stunned and was directly sucked. The income of Ye Xuan's immortal world...this

Everything is long, but in fact, from Ye Xuan waved a ray of green giant claws, after the dozens of phantom claws blasted, the claws turned into a ghost, turned into a huge dark green scorpion blasted, forming a grounded ground. A large piece of blood stabbed the three-legged Jinwu body, causing his state to plummet immediately, and he was caught in a breath...

The secret of the spiritual power of the annihilation spear was provoked by Ye Xuan, and it was worn under the ribs of the three-legged Jinwu. again

To the strongest magical power in the blood of the dragon, the singer of the Ming dynasty, the squatting of the three-legged golden scorpion was temporarily imprisoned, and Ye Xuan also sacrificed the \*\*\*\* blade of the devil when he was in the midst of it. Its right wing is kneeling down.

In the end, under the severe injury of the three-legged Jinwu, he had to tear a crack and break into the parallel void to take refuge...

Before and after, a total of less than ten interest!

Before the ten-day interest, the three-legged Jinwu was stupid, but it did not show signs of defeat, and it did not fall into the doldrums. but

All of this was completely reversed between the ten interest rates. Ye Xuan's offensive was too fierce. One ring and one ring, all of which were already well-calculated results. He had already waited here for the three-legged Jinwu, and he decided. He will end up bleak today...

When these thoughts flashed in the brain, those left-wing heavenly beasts and survivors who were crouching in the void outside the tens of billions of miles were finally coming back.

Under the madness of the figure, the faces changed a lot, and the air was blown, and the sound of exclamation was overwhelming, and the tide echoed...

"Oh my God, between the electric and the stone fires, did this battle end in such a hurry? This is the two peaks of the nine-step grand perfection in the \*\*\*\* killing, according to the truth, is it not going to be wary for years?"

It's amazing, the Ye Xuan's method of the Lord of the Temple is endless. The last thing that is shown is that the most powerful blood of the candle is the venom of the gods. He even has the blood of the dragon, and it's against the sky..."

evildoer! Unprecedented enchanting, is this guy really coming out of the wild world? This is simply unimaginable..."

"The deity also has deep doubts about this. After all, the incarnation of the will of the world in the wild world has long been defeated by him many times. This situation is simply unreasonable..."

"Defected, the three-legged Jinwu actually lost, this battle of the peak is actually ended in this way, it is simply shocking..."

The exclamations of the surrounding world suddenly rose, and the battle of this peak finally ended...

Ye Xuan points are not damaged, and Jinuwu's strongest person, the three strongest Jinwu, but smashed blood and emptied, with a very serious injury to escape, like a dog at home, broke into the parallel void and squatting...

Counting this, this is the second time he has lost in the hands of Ye Xuan, and both of them are seriously injured and bloody, and this alone is enough to explain everything.

If it is said that in the terrible battle of nearly a year ago, Ye Xuan was using the sacred power of the scorpion bow, and then the three-legged Jinwu was severely wounded, so that he hurriedly retired from the unwillingness...

Today, Ye Xuan is in the midst of a fierce battle, which has caused it to be hit hard. And from the beginning to the end of the war, Ye Xuan almost all occupied an advantage, and almost formed a crushing tyrant on the three-legged Jinwu. Ling's potential.

All of this, the other few sacred beasts in the golden ban, hundreds of ridiculous and powerful, and a large number of left-wing sacred beasts and survivors who crouched in the void around the tens of billions of miles, all see it with their own eyes. For witness...

Undoubtedly, after this war, all the heavenly beasts on the left bank of the three-legged Jinwu are ranked as the top ten, and will change hands after today. but

The tenth meeting of the new left bank will not be Ye Xuan, the master of the magic hall, but it is hard to say at the moment. because

Although Ye Xuan has a konjac body, it is a \*\*\*\* beast, but his own body is, after all, a human race. With this, he is not qualified to rank in the list of the beasts on the left bank. where

I am afraid that there is this fighting power, but you are not a beast. Why do you squeeze in? when

However, all this is caused by the fierce beasts on the left bank. Ye Xuan is not interested in it. The list of the beasts is strong, and the list of the beneficiaries is good. He is all lazy, really important, or Your own strength!

Star River Wanjie, this is to speak with strength, fist is the last word!

Chapter 5130: Escaped the monk and the temple

"Oh my God, between the electric and the stone fires, did this battle end in such a hurry? This is the two peaks of the nine-step grand perfection in the \*\*\*\* killing, according to the truth, is it not going to be wary for years?"

Lost, the three-legged Jinwu actually lost, this battle of the peak finally ended up in this way..."

"The top ten rankings of the left bank's beasts are finally going to change. The main body of the temple, Ye Xuan, has at least replaced the three-legged Jinwu, and has entered the tenth column, even more forward..."

Yes, this battle started. He didn't have a half-injury from start to finish. In a short period of time, the three-legged Jinwu, who was originally ranked 10th on the left bank, was seriously injured. This kind of combat power is afraid that the ninth left bank can't do it. ...."

"I am afraid that this matter will lead to controversy. It is not that the master of Ye Xuan, the master of the magic hall, is not strong enough, but although he has a konjac blood, it can be regarded as a beastly beast, but his deity is a human race, and he can enter the beastly heaven. Leaderboard?"

"Oh, this is a problem..."

After the end of the war, surrounded by the void outside the trillions of miles, those who were crouching in the darkness of the left bank, the beasts and the benevolent powers, immediately exclaimed and talked about each other.

After the three-legged golden wolf scorpion escaped, it fell into a vast void of dead silence, and suddenly became awkward...

For all of this, Ye Xuan did not pay attention to it because there was no interest at all.

After the black sky in the sky in front of the sky is like a river, the black liquid of the heavens is retracted, and the violent cockroaches flash in the middle, and the three magic bodies turn their heads at the same time, and look at the edge of the forbidden land on the left front.

Previously, the black gold day of the three-legged Jinwu rushed out from the starry field of Jinwu forbidden land. When the edge of the starry field came to an abrupt end, there was one of the eight beasts and the number of beasts. Hundreds of old people and a lot of wild power.

These existed, all of which were gathered behind the black gold day, separated by two hundred billion miles of the starry sky, against Ye Xuan.

Even after Ye Xuan and the three-legged Jinwu war, these old guys did not retreat, but stayed on the edge of the forbidden land of Jinwu for a long time...

Today, the three-legged Jin Wu was seriously injured and fled, but although he left, he escaped the monk and the temple. The countless forbidden beasts in the abandoned stars in the golden forbidden land are not mentioned at the moment, at least the hundreds of followers Jin Jinwu walked out of the forbidden land, and looked at Ye Xuan, and even the great power, the absurdity and the eight-headed beasts of the war. You must not let go!

"Oh!"

Oh..."

At the same moment that Ye Xuan turned around, there was already a crisp crack in that direction, a total of six...that

The six old guys in the eight-headed beasts saw the fastest. The first time they waved and tore the cracks in the void, and they rushed into the pan, and disappeared.

Obviously, they entered the parallel virtual refuge. This is called Ye Xuan. It is very speechless. Even if he is the ninth-order grand perfection, when the heavenly strong people in the same realm enter the parallel void, they can't recourse. .

However, although the blink of an eye ran away six, but at least two other evil beasts stayed here, killing them, basically enough to vent their anger. "

Oh..."

The thoughts flashed through my mind, and the dark fog in the three great devils did not hesitate. When even the back of the hair screamed, this moment, the spiritual core of the mind that was suspended in the sea was again Run quickly.

The invisible spiritual power of a canopy diverges as a tsunami, and instantly envelops hundreds of beasts in the void in front.

The black mist is now exerted by the spirit of crushing. This is a kind of mysterious technique that forms a heart attack with spiritual power. Compared with the human monk's sacred attack, the spiritual power is even more unspeakable. Unable to guard against.

The hundreds of beasts in front are only powerful and absurd. The heavens are only two ends, and they are only in the middle of the period. They are only in the mid-term, and they are repaired by Ye Xuan's now nine-step grand perfection. suspense.

The facts are also true. With the fullness of the spiritual power of the canopy, these hundreds of fierce beasts are immediately recruited, and the last two heavenly beasts are also trying to take away. this

Inexplicably, the figure was suddenly stagnation, and the consciousness suddenly fell into a state of paralysis, just like a certain kind of konjac. "

Roar....."

"Card!"

The Xuanyuan Zhonghan Mang flashed, and it was swiftly approaching. The violent screaming roared, the \*\*\*\* stick was like the giant pillar of the sky, and the two screams came out one after another, directly smashing toward the heads of these two heavenly beasts. black

The fog avatar once again spurred the spiritual source of the mind in the brain. For a moment, the head of this heavenly beast was blasting a thunder out of thin air...

The blood-colored lightnings of a million miles in diameter have been smashed from the top of the head, and they have been smashed in a moment.

I haven't waited for it to come back, the \*\*\*\* stick has already been a big hit...

"boom!"

boom! "huge

It was a shocking day, the big black-and-white porcelain was incomparably bombarded on their huge body. These two heavenly beasts had no time to react, and the whole figure exploded in an instant, turning into two red awnings, quickly diffusion.....

"Call..."

But the two heavenly blood, naturally can not be wasted.

The whistling sound of the wind blew in an instant, and the body of the black mist waved in the first time, and a huge invisible instinct screamed away! will

The \*\*\*\* fog of this canopy swept through and directly into the bottom of the volcano in the central area of the Dingnai space, and began to condense blood.

At this point, Ye Xuan's Tiandao blood essence added two more, which had reached fifty-three before, and now there are fifty-five giants...

It's not just the two beasts that haven't had time to escape, including other powers and ruins, and Ye Xuan is not ready to let go. can

Following the three-legged Jinwu rushed out from the forbidden Jinwu forbidden, it is enough to show that these old guys are all his confidant confidants. Nowadays, although the three-legged Jinwu is not able to escape, the squatting of his majesty must bear Ye Xuan's anger. "

boom! ”

"Booming..."

"boom!""

Oh..."

No need to hesitate, Ye Xuan immediately shot, the violent \*\*\*\* stick fetched again and again, the Zijin giant fist of the cheekbones also continually waved out, and there was an earth-shattering roar between the voids.

Accompanied by the intensive blasting like a fried bean, these hundreds of great powers and the savage beasts of the ruined land have no ability to resist half a bit. The huge incomparable figures are all blasted in an instant. Virtual

In the air, a canopy of blood and fog spreads out. There are nearly 300 heads of ancient powers, and the number of ancient heads exceeds one hundred. All of them have been blown into a canopy. This

The scene is \*\*\*\* and incomparable, revealing the endless killing meaning, horror and amazing, a large number of left-wing heavenly beasts and survivors of the left bank around the tens of billions of miles in the distance have been sighing and screaming. The sound is like a tidal wave, and it's overwhelming..."

boom! ""

Oh..."

In the void, accompanied by the intensive explosion of the like beans, the blood of a canopy spreads, and there are nearly three hundred in the ancient times, and the number of the ancients is more than one hundred...

In the blink of an eye, the hundreds of great powers and ridiculousness that had previously been rushed out of the forbidden land by the three-legged Jinwu, all without exception, were all killed and blew into a \*\*\*\* fog, and Mao did not leave one.

"Hey..."

However, an extremely amazing resource, violently waved the first time, all the blood and blood that is spreading and spreading all the way into the body. Receive

Too big, the amount of blood in his hands has already exceeded 200, and now it is more than four hundred.

It is the blood of the ruling blood, which has already been seventy or eighty. Now it has harvested more than one hundred, and it is close to the two hundred mark...

This kind of scene is extremely bloody, revealing the endless killing meaning, horrible and amazing, absolutely rare to see, the power and the desolation have turned into a leek, in a large area to harvest...

Across the trillions of miles away, a large number of left-wing heavenly beasts and survivors who crouched in the emptiness of the surrounding airs sighed and sighed, and the sound of exclamation sounded like a tidal wave, and it sounded overwhelmingly..."

It's too ferocious. It's no wonder that the owner of the Temple of the Devil is so horrible that the power and the absurdity are like harvesting the leeks, and they are being harvested in large areas..."

Is his deity really a human being? The deity is a fierce beast, and it is still a \*\*\*\* and violent blood. I am afraid that it may not be so bloody. These means are simply a demon! "

"This violent temper can not be provoked, just like I am waiting, behind there is a strong forbidden land or the existence of a star field, leaving its own descendants of blood, although the invincible can escape, the forces behind him will suffer, will be plagued , all killed..."

The heart is too fruitful. He has his own distinct account, and there is also a magical palace in the forbidden place, but he still kills himself. He doesn't care..."

After this war, the murderer of the Lord of the Devil is afraid to be famous for the entire left bank. Who would dare to be an enemy of him easily? This is the existence of a murder, such as mowing, without a word..."

"Roar....."

As these exclamations sounded, Ye Xuan also screamed, and the huge figure of the three heads and six arms collapsed into a \*\*\*\* sea, and then quickly condensed, less than half a short distance, the whole \*\*\*\* condensed into a weak A little blood mans. blood

Under the flash of a mang, a violent temper came out of it, and his body shape only succumbed to the heights, but the body's repairing atmosphere was still incomparably strong, and the ninth-order grand perfection of the heavens and peaks, the temperament is unparalleled, and the air is empty. eye

In the midst of a fierce scream, the violent rumbling turned to look around in the distance. In addition to the tens of billions of miles, a figure crouched in the dark, all of which were in the right side of the left bank and the forbidden land and the inhabitant star field. The number of heavenly powers is huge, and there are hundreds of them. when

Of course, the entire left-wing right-wing heavenly beast and the survivors are more than just this number, far more than just a small part.

Feeling the fierce light of the violent warning, these sinister beasts and the benevolent strongmen who crouched in the darkness of the distance were immediately screaming, and the exclamation in the mouth came to an abrupt end, quite a bit chilling.

Among them, there are actually a few ninth-order great perfect peaks, but they are not as powerful as the three-legged Jinwu. Nowadays, even the three-legged Jinwu have been severely wounded by this violent temper in a short time, just like a mournful dog. again

Coupled with the tyrannical and then cruel and \*\*\*\* means of the massacre, the image of the devil killing God has long been invisibly established, and it is hard to eradicate. Even these few hidden secret heavens do not dare to reveal the meaning of badness. In order to avoid misunderstanding, attracting disasters...

This is exactly what Ye Xuan wants! outer

The world's impression of him has always been iron and blood, and it's absolutely hot. If you don't agree, you have to kill.

But in fact, Ye Xuan is by no means a murderous person. This image is simply deliberately established.

On the one hand, he really needs to hunt and kill the beast to refine his blood. On the other hand, it is because people are deceived by others. On the other hand, it is notorious. The more ferocious, the less likely someone will dare to offend.

Ye Xuan is not afraid of himself. The key is that the forbidden land of the magic hall is now born. He must make himself as fierce as possible. So, no one will dare to provoke easily...

"Oh..."

Retracting his gaze, Ye Xuan immediately waved a crack in the void and stepped into it. He quickly went away and his body shape was no longer visible.

The left-wing heavenly beasts and the benefactors who were gathered in the emptiness of the Jinwu forbidden land were scattered. They were still worried that Ye Xuan would rush into the forbidden land of Jinwu, but the result was not So, let their hearts feel a little loose. This

It is also the result of Ye Xuan's deliberate efforts. He can kill the blood with iron and blood, but it must be a hot, but there must be a reason, and there is a head debt, which is targeted. no

Then, if there is no reason to kill and kill a forbidden land, it will definitely cause public anger on this left bank, but it will not be good at that time. to

Therefore, his retaliatory action was basically ended. At the beginning, he participated in the thirty-three heavenly beasts who had encircled him. Except for the three-legged Jinwu, the ridiculous Tiandao Qingyan and the sinister shackles, the rest were all in vain.

This matter is equally astonishing. After the left bank spreads, Ye Xuan's fierce name will probably no longer be shaken.

As for the three old guys of the three-legged Jinwu, they are now avoiding the parallel void. It is impossible to come out temporarily, but they are not in a hurry. In the future, there will be liquidation...

The matter came to an end, but Ye Xuan did not intend to immediately return to the right bank of the Forbidden City, because the refining of the 30th level of Hong Meng Bao Dan is already imminent, and now he is the first to implement is the perfect Dan Fang of Hong Meng Bao Dan.

Dan Fang's derivation he opened his head, and now he is handed over to the body's phagocytic system, which is fully devoted to computing power and is being promoted all the time.

However, the thirty-level Hongmeng Baodan is not the same as Xiaoke. According to Ye Xuan's estimate, in addition to the innate five-line drug guide, other elements must be added. Have

He did not have any clues about this, but he was inspired not long ago.

At that time, it was from the remnant of the jade star who was in the forbidden area, Ye Xuan searched for some information related to this. in

Before the endless years, there was a bold attempt by the surviving survivors of the Galaxy on the left bank. He managed to collect some of the liquids of the heavens and roots, and based on the secret laws of the ancients.

The merits of the people, the survivor of the survivors finally got the income, and released words, saying that they can use a variety of nine kinds of natural liquids to refine a kind of treasure, named Tianjiu Avenue. day

After the swallowing of the Jiu Dao Bao liquid, the Jiu Dao Da Ren's peak Tiandao impacted the Hongmen Avenue after the Tiandao, and there was a certain help. The survivor's strongman's star in the past was now called the right section. Strong flooding star...when

In the year, in order to get more of the heavenly source liquid, the mysterious survivor of the Tianjiu Avenue Baojing refining the words, saying that whether it is a survivor or a starry beast...

As long as he can bring nine different kinds of natural liquids, he can refine the treasure of Tiandao Avenue, but he has to collect half of the refining treasure as a reward! that

It was already a matter of millions of years ago. Some peaks and heavens got more or less Tianjiu Avenue from his hands, and then left, retreating, and hitting the Hongmen Avenue. This

The same is true of the ancient mysterious survivors, but his departure is more careful, there is no news overnight, and I don't know where to go. It is said that even the human remains in his field are unmanned. Know...

Since the departure of this person, the treasure of Tianjiu Avenue has been lost on the left bank of the Galaxy. Rear

Since the millions of years that have come, there have been countless survivors who have been good at smelting blood and meat, but no one has been able to refine them.

Regarding this matter, Ye Xuan must go to the testimony of the remnant of his country where he was in the past to see if he can find some legacy messages.

The name of the survivor, known as Hong Yu, happens to be in the right-hand area of the left bank of the Milky Way. It is known as the strongest star in the right, and even the Jinwu forbidden land where the three-legged Jinwu is located, the overall strength and the Hong Kong ruled by the people. Compared with the star field, it is slightly inferior!

On the left bank of the Milky Way, since there are beasts and forbidden places, there will naturally be a list of survivors and stars.

The list of beasts and survivors is a manifestation of personal strength. Those who are on the list of the evil beasts are the heavenly beasts on the left bank, while the list of the remains of the heavens and the people on the list are all abandoned.

The forbidden and star domain rankings show the overall strength. Those who are on the list of the forbidden places are all forbidden on the left bank, while the stars on the list are all in the star field.

For example, Sanzu Jinwu, his personal strength is ranked 10th on the left bank of the Heavenly Animals list, including the Jinwu forbidden place he is sitting in, as well as the 10th on the left bank's forbidden list.

As for the floodplain, on the left bank's star list, it is the same as the Jinwu forbidden land on the left bank forbidden list. It is also ranked 10th. but

The strongest survivors who lived in the floodplain were not able to enter the top ten list of the left bankers.

In the floodplain, there are more than 30 survivors of the Heavenly Kingdom, and this number exceeds the more than 20 heavenly beasts in the forbidden land of Jinwu. This

Among the more than 30 survivors, the most powerful nature is the ninth-order grand perfection, and more than one, but two. This

One of them is called Hong Tao, and the other is called Hong Jiang. Although they are on the list of the left bankers on the left bank, neither of them has entered the top ten, but the rankings are not weak. They have entered the top 20... Hong

The Hongyu star field ruled by Tao and Hongjiang is on the right bank of the left bank. From

At the beginning of the collection of the first five elements of medicine, Ye Xuan began to toss in the right section of the left bank. Nowadays, his fierce name is the forbidden land of all the beasts in the entire right section of Megatron.

But in addition to the fierce beasts, Ye Xuan has not touched any of the survivors' star fields in the right section of the left bank. This time, he launched a revenge operation and almost ran into the entire right-hand area. When he encountered the survivors' star fields along the way, he did not enter... ..inverted

It was the time when the rescuing darkness of the vast and innocent dark area in front of the right side hit the heavens. He once encountered a heavenly seventh-order remnant of the benefactor who was blinded by lard and wanted to kill him. most

After that, Ye Xuan completed the thunder of Tiandao, activated the \*\*\*\* magical power of the konjac in the body, and directly applied to the ninth change. The combat power suddenly rose to the heavenly ninth order, and the seventh order was in anger. The survivors shot. heart

Under the horror of the head, the seventh-order survivors knew that they must be embarrassed, but they were unwilling, so they injected most of their strength into the magic of the life, and then they used the power of the flesh to rip open the void invisibly. This life magic treasure is sent to it. This

The purpose of the sample is obviously for the purpose of communication, and this life magic weapon does not exist for a long time. His soul is already stunned, and the life magic weapon is connected with it. It is only forcibly supported. At the end of a pillar of incense, it will Explode, and the smoke will disappear.

After the fall of this person, Ye Xuan also tried to pursue the magic weapon he sent. Although he did not find it, Ye Xuan did not take this matter to heart. in

In his opinion, that is just a treasure of communication.

Since it is a remnant of the heavens, then this person must come from a Supreme Star field ruled by the abandonment of the ancients, and Ye Xuan went to the forbidden land of some fierce beasts, and the sacred land was basically not interested in getting involved. Place

Therefore, even if this magic weapon is delivered to the destination, it does not have much influence on him. Moreover, his own cultivation has entered the heavens, and he has activated the magical power of the konjac. The strongest force exerted in the ninth state of change, even in the peak of the ninth-order grand perfection, is already a shackle, what fear? This

The matter, Ye Xuan has already been left behind, and now I don't remember. Of course

The world is always so unintelligible, Ye Xuan may not think of it anyway. The seventh-order survivor who he killed on the day is actually one of the more than 30 survivors of this flooded land.

And this person's status in the forbidden land is not light, because the two peaks in the forbidden land of Hong Yu, namely Hong Tao and Hong Jiang, the latter, is the pro-big brother of the seventh-order survivor. ....

...flood

The Xingxing field is extremely vast. There are more than 30 Tiandao survivors in the entire star field, so that its position is extremely detached in the right part of the entire left bank. Even the Jinwu banned land where the three-legged Jinwu is sitting is not easy to provoke.

But of course, these 30 Tiandao remnants cannot all sit in the stars.

The survivors and the beasts are different. The remnants of the relics need to refine all kinds of treasures. They need to collect flesh and blood materials and various treasures of heaven and earth. Although there is also a region in the Hongyu area that has reserved some abandoned stars to raise beasts, but the heavens are strong. The treasures made by the system are not trivial, and the general beast materials are really not satisfied, let alone the continuous consumption for many years. Place

Therefore, among the more than 30 Tiandao remnants of the floodplain, there will always be one-third of them, that is, more than ten people will swim outside, hunting some powerful beasts to collect flesh and blood materials, and in endless Hong Meng in the darkness of the sky to find a variety of heaven and earth treasures. This

A batch came back, and the next batch left immediately...

Among the more than 20 Tiandao remnants, there will occasionally be some parallel retreats to practice or refine the treasures. Place

Therefore, in the floodplain, there are basically only a dozen Tiandao survivors sitting in the town on weekdays...

At this moment, in a giant star deep in the Hongxing star field, in the palace hall of the peak of a huge peak, more than a dozen Tiandao survivors who are sitting in the star field now gather together.

Only the faces of more than a dozen people are not very good-looking, revealing gloomy and depressed. Among them, Hongjiang is the most in the two peaks, and his face can be dripping with water... Hong

In a giant star in the depths of the star field, in the palace hall of a huge peak, more than a dozen Tiandao relics gathered together, but the look on the face is not very good-looking, revealing gloomy and depressed!

Among them, Hongjiang is the most in the two peaks of the heavens. His face can be dripping with water. The cheeks are slightly twitching from time to time, and there are more sinful squats in the sputum. To the insults of anger and killing... Hong

Jiang was the pro-big brother of the seventh-order remnant who was killed by Ye Xuan. Not long ago, he got the message from the piece of the magic weapon sent back by the seventh-order survivors, including the image of Ye Xuan in a violent state. And breath, locked in the murderer who killed his brother...

However, at that time, Hong Jiang suspected that the violent temper that appeared in the image of the magic weapon of the life was the leaf of the temple, but it was not certain.

Just one day ago, the two Tiandao remnants of the Hongyu Star Field who went to Jinwu forbidden to watch the land returned, bringing back the images of Ye Xuan and the three-legged Jinwu. One

After watching it, Hong Jiang instantly determined the guess of his heart. Two

The temperament in the image is exactly the same, even the breath is like this. There is no doubt that the murderer who killed his brother Hong Fei is the lord of the temple. although

It is said that Hong Jiang is very clear about the nature of his younger brother, Hong Fei. He can roughly guess that he must have met the Lord of the Devil's Temple, Ye Xuantu, and he is a common beast that has just entered the heavens. The idea of killing people and collecting treasures, collecting the flesh and blood materials of the beasts, took the initiative to provoke...

But this is not important. The strong star in the sky is respected. If you encounter such an opportunity, even if he does, he will not turn around and go out.

Although from this point of view, Hong Fei's fall in Ye Xuan's hand is just that his skills are not as good as people's, and there is nothing to complain about, but he's the pro-big brother of Hong Fei, and it's the ninth-order grand perfection, compared to the temple. The Lord Ye Xuan is not weak at least in repairing the realm. So, if you don't avenge your brother, it's too much to say. more

In serious cases, this matter is very likely to affect his heart and make a breakthrough in the future. The opportunity to attack the Hongmeng Avenue is completely lost...

One point, not only is Hongjiang clear, but other Tiandao remnants of the Hongyu Star, including Hong Tao, are also well aware.

There are only two ninth-order grand sacred peaks in the floodplain. Anyone has a breakthrough and enters the opportunity of the Hongmeng Avenue. If

It is because of this incident that Hong Jiang is detrimental to the situation and completely loses the possibility of breakthrough. This is definitely what they do not want to see. It is also a huge loss for the entire floodplain. more

What's more, Hong Fei is not only the younger brother of Hongjiang. He is also one of the more than 30 heavenly powerhouses in the Hongyu Star Field. He is a self-sufficient person. If he encounters such a thing, Hong Yuxing does not avenge himself. How much is it wrong?

Therefore, although this matter has nothing to do with itself, other Taoist powerhouses in Hongyu, including Hong Tao, still attach great importance to it.

Right now, the Tiandao remnants who are now sitting in the stars are all gathered together to discuss this matter..."

This must be reported, not only the relationship between the Taoist Taoist Taoist Heart and the opportunity to enter the Hongmeng Avenue in the future, but also the face and prestige of my Hongyu Star..."

Turning around, the people of the heavens and the people in the temple looked around and practiced the most powerful Hong Tao.

Halfway through, the face sank, and then nodded and then nodded: "How to say, my Hongyu star field is in the left-wing bank of all the benevolent stars, and is also the tenth old existence..."

"In addition, Hong Hao's ancestors refining the Tiandan Avenue Baodan in the same year, but also on the banks of the Milky Way. Even after millions of years, today, I am in the stars of all the remnants of the two sides. Just like the general place of the Holy Land..."

Even the nine remaining comprehensive strength rankings on the left bank are still respected by the surviving star field above my flooding star field. It can be said that as the heavenly powerhouse of my Hongyu star field, wherever you are, it is absolutely subject to The existence of admiration..."

"Hong Fei is one of the heavens of my Hongyu star field after all. Now it is in the hands of Ye Xuan, the master of the demon temple. This matter has not yet spread. If it is spread out, I will not do anything about it. It must be People criticize, I will wait to walk on both sides of the Milky Way in the future, can you meet people?"

Hearing this discourse, Hong Jiang's gloomy look was slightly slower, but he still didn't speak, his eyebrows were locked, and he seemed to be thinking about something. its

It has more than a dozen Tiandao survivors who have also agreed to each other. They are flustered in threes and threes, and their expressions are quite excited and indignant..."

Enmity is natural to report, but this matter... it doesn't have to be rushed for a while! "

Hong Tao and other Tiandao survivors have all expressed their views. Hongjiang is ruthless, and the city is not shallow, and naturally understands how to answer. This

He can't be too urging to do things. It's not so good. The more obvious the humility and perseverance, the more consideration for the overall situation of the stars, the more effective it is to promote this. Yes

After the face looked a little slow, he turned around and looked around the temple for a circle, and the face was strong and resentful, and then said: "But the Lord of the Temple of the Devil, Ye Xuan, is a fierce flame, and even the left bank of the heavenly beast The three-legged Jin Wu, who is ranked 10th on the list, is not an opponent. He was seriously injured in a short period of time and fled...."

"My Hongyu Star Field is stronger than Jinwu in terms of overall strength. However, whether it is the old man or the Hong Tao Taoist friend, although it is also the peak of the 9th-order grand perfection, the personal strength is slightly worse than that of the three-legged Jinwu. ...."

Although this hatred can not be reported, but the main hall of the magic hall is not good to provoke, so the revenge can not be arbitrarily deliberate, otherwise it will lead to major losses caused by my flood of stars, the old man's heart will certainly be difficult, still have to be long-term, The best way to do this is..."

In fact, it is also the thoughts of other heavenly remnants in the temple, including Hong Tao. only

Yes, they are inconvenient to say such words, otherwise it will not be a good idea if Hongjiang misunderstands. Such as

Seeing Hongjiang so profoundly, I have taken the initiative to say that this matter cannot be impulsive. We must first be persevering and slowly learn from the long-term. All the people suddenly feel loose, and the heart that hangs in the eyes of the blind man has fallen, and they have quickly joined together.

Among them, especially the face of Hong Tao's face is the most brilliant, he was originally playing drums. After all, he is the principal of the Hong Yuxing domain. He really wants to shoot Ye Xuan, the master of the temple, but he bears the brunt.

Now that the matter can be put on hold for a while, it is natural that it is best. "

Oh..."

At this time, a mile of mans came from outside the temple, and a heavenly remnant in the temple reached out and took it. After the investigation, he suddenly changed color and stayed for a short time. This was a strange look to Hong Tao, hesitantly Said: "The Lord of the Magic Temple Ye Xuan... visit!"

Hey? One

Listening to this, Hong Tao was dumbfounded on the spot. Did people take the initiative to come to the door? How can this be broken...
