### Chapter 5131: Floodplain

The weak sound of the sound broke out, and a mile came out from the temple...

One of the heavenly remnants of the heavens took over and took a look. After the investigation, it suddenly changed color and stayed for a while. This was a strange look to Hong Tao, hesitantly said: "The Lord of the Devils Ye Xuan... Visit!"

? One

Listening to this, Hong Tao was dumbfounded on the spot, and people actually came to the door to come to the door... How can this be broken?

Not only him, but also the other dozens of Tiandao survivors in the temple. They all have their mouths open and their faces are unexpectedly sluggish. No one expected that the Lord of the Temple, Ye Xuan, would be here. When I was active, I came to the door...

The hall suddenly fell into a complete silence, and the atmosphere was dull and felt depressed...

Especially Hongjiang, after a slight glimpse, the look on his face instantly changed into a blue-green, sturdy and sturdy, and both fists clenched subconsciously...

I haven't been looking for him yet. This guy actually took the initiative to come to the door. It is simply too deceiving.

At this moment, he felt that the whole person was exploding, and there was a strong urge to make a fuss on the spot...

"Don't mention it when he was on the right bank. At least after the left bank, this person has been tossing only in the forbidden land of the beasts. He has never touched any of the survivors..."

After a moment of frowning, Hong Tao stunned and stunned, and turned around and looked around the audience. After a short pause, he again said: "So, for Hong Fei's identity and background, he simply has no way of knowing... ""

From this point of view, the owner of this magic hall, Ye Xuan, suddenly visited my Hongyu star field today. It should not come for provocation..."

"indeed so....."

Hearing the words, the talented person raised his hand and took over the Tiandao remnant of the communication. The jaws received: "The ridiculous glory outside the star field indicates that the main lord of this demon temple, Ye Xuan, is here today. It's because of the long history of the ancestors' ancestors..."

It turns out that... He is in the refining secret of the scorpion of the Tianjiu Avenue! "

Hong Tao stunned, his face showed a faint color, and he immediately found out that he had refining the heavenly treasures. This time, in the name of revenge, he ravaged the right section. The beast is forbidden, but it also collects several kinds of heavenly sources..."

"From this point of view, the so-called revenge is just an excuse. He wants to refine the treasure of Tianjiu Avenue, or to learn from the refining secret of Tianjiubao, to perfect the Hongmengbao he is preparing. medicine....."

He was reminded that more than a dozen Tiandao survivors in the temple were like a sacred sacred sacred man. They all came to realize that after a few words in threes and threes, they immediately expressed their feelings of excitement and greed. ..."

If this is the case, this is an excellent opportunity..."

"Yes, Ye Xuan, the master of the magic hall, does not know that Hong Feidao friends have self-flooded the stars. This time, the excuse of the long-awaited ancestor of the ancestors of the ancestors came and deliberately showed that he would not expect me to wait for him to shoot... "

"Although he has the blood of the konjac, he is a fierce beast, but his deity is a human race. It is said that this person's medicinal talents and rumors are extremely enchanting and amazing. Even Tiandaobao medicine can be refined, it is a testimony..."

"Now he is unprepared, and he has taken the initiative to enter my flood-forbidden land. It is just a matter of setting aside this opportunity to leave him here. On the one hand, he can avenge Hong Fei's friends, one snow, the shame of Hong Xing's star, another On the other hand, it is also possible to extract all the pharmacy experiences in the hands of the person, or to directly search for the soul after the suppression..."

"Not to mention the fact that he still has the most powerful Shentong 陨天弓, Shennong Baoding, nine-color flame sea, blood sea secret law and the anti-sky secret method that can enhance a whole realm and has no time limit, etc. !"Say

When I arrived here, more than a dozen Tiandao relics in the main hall were all very excited. Hongjiang was even more so, and the look on her face was full of excitement and eagerness to try...

In fact, Hong Tao, the master of the star domain, is equally motivated, and it is not a general intention, but he must consider the overall situation, so the success rate of this matter is several percent, and it must be promoted. brain

In the middle of these thoughts, he even fell into his eyes when he twisted his eyebrows, his mind was flying, and the powerful and incomprehensible consciousness was fully motivated, and he was fully thinking and deducing. temple

The people inside did not rush, one by one to endure the excitement of the heart, stunned, and the eyes gathered on Hong Tao, waiting for his derivation results..."

Ye Xuan, the master of the temple, is still in the dark, and in addition to his exploration of the secrets of the refining of the Tianjiu avenue, he is generally active to come to my Hongyu star field to make a visit, and I must not be wary of me... ..this opportunity will not be there anymore! "

After a short period of time, Hong Tao's deduction seems to have a result. He said in a flash: "Although his fighting power is amazing, even if the old man joins with you, he may not be able to suppress it completely..."

"But if you use the land of Hongfu's ancestors, set up a large array of Qiankun Hong furnace, I wait for more than a dozen Tiandao strong people to enter the array as a line of eye control, under the force, the probability of his suppression of this ... at least More than 70%!"

Hey...smell

Words, the entire hall was suddenly stunned, more than a dozen Tiandao relics were excited and excited, and they immediately became vocal...

"If this is the case, what are you hesitating? These days will not be there any more, and today the Lord of the Temple will be left here..."

Calculating the time, he should have left the Jinwu forbidden land, and immediately came here. There was no contact with other people during the period. That is to say, Ye Xuan, the master of the magic hall, came to my Hongyu star field, and no one knows outside. ...."

"So, once he is suppressed, the supreme \*\*\*\* in his hands will pass the bow of the heavens, the Shennong Baoding, the nine-color flame sea, the secret of blood and the sea, and the anti-sky secret that can enhance a whole realm and have no time limit, etc. It will be owned by me, and I don't even have to worry about someone in the outside world..."

The Qiankun Hong furnace is not a small group. I have more than a dozen Tiandao towns, including even two nine-stage grand perfection peaks, which will surely suppress him..."

The area where Hongjun's ancestor Dongfu's stars are located has always been like a holy place in my Hongxing area. I don't allow anyone to get involved in the weekdays. It's the best place to arrange a large array of Qiankun's furnaces..."

"Not to mention the fact that Ye Xuan, the master of this magical hall, originally came for the treasure of Tianjiu Avenue. I waited for the boat to push the boat, and the Dongfu Star that led him into the ancestors of Hongjun was normal, and he would not attract his doubts..."

"So, 70% of the chances of success are still slightly conservative, so profitable, such a high probability, this matter can be done..."

Since it has already been decided, the old man will first bring a few friends to expand the arrangement. It is just that the old man's heart is hateful and it is not convenient to meet him, so as not to be seen by him. After all, the gods of the heavenly strong are very keen. Can't help..."

After the last sentence was finished, Hong Jiang never stopped, immediately got up, took four Tiandao survivors, and hurried away... Hong

Outside the domain, Ye Xuan was holding hands, and at this time he did not show people in a violent form, but restored the original human face.

In front of him, there were seven survivors accompanied by abundance, all of them squinting at the waist, with a flattering smile on their faces, and they were respectful. when

However, there is a slight tremor in respect of respect, and it is obvious that my heart is extremely embarrassing and fearful. Such as

Today's Ye Xuan is already a fierce name in the right section of the left bank. Don't say that it is a ridiculous old man. It is a general strong person in heaven. I am afraid that he will not dare to take a breath in front of him... though

However, Ye Xuan is now a human face. It looks very young and handsome, and he is pleasing to the face. He even has a kind of good-natured smile on his face, but he has been killed for a long time, and he has already integrated into his own breath. The glory that has been in the upper position for a long time is invisible and dissipated as a pressure. It is just a ridiculous grotesque, and it is really straightforward in front of him...

Fan, Ye Xuan is for the secret recipe of the refining of the treasure of Tianjiu Avenue. Although the outside rumors, even the ancient hero of the ancient surname named Hong Yu was originally in the floodplain, and did not leave Tianjiu. The method of refining the boulevard.

However, in Ye Xuan's view, even if there is no complete refining secret law, some manuscripts and the like should be retained in the floodplain. Correct

For him, as long as these things are enough, you can see the thoughts and inspirations of Hong Yan, which is enough to give Ye Xuan the necessary reference. Both

However, when it comes to the communication of medicine, Ye Xuan will not be rude, and he will even vote for it, not to mention his interest in the survivors, so as Hong Tao and others have guessed. This time, I came to Hongyu Star Field. Ye Xuan really has no wariness.

He also never thought about it. In his current savage name, and only recently, the three-legged Jinwu, who was ranked 10th on the left bank of the beastly beast, was hit hard in a short period of time. We will actually take the initiative to hit his idea...

Soon, there are more than ten figures in the star field in front of them, all of them are strong beneficiaries, and the air-filled atmosphere in the body is all heavenly. flood

Jiang is not here. He has already taken four Tiandao remnants to the depths of the Hongyu Star Field to arrange the big Kunlun furnace.

At this time, among the more than ten Tiandao remnants who came from the front star field, the leader of the first place was Hong Tao. The people quickly came to a close place and stopped in the void outside Bai Xu's body. . ten

The rest of the people's faces are all smiling, and they are extremely hospitable.

"Ha ha ha..."

Ye Xuan Daoyou came to visit me. I am in the whole floodplain, and suddenly I am full of glory. It's a blessing..."

Not waiting for Ye Xuan to speak out, Hong Tao has taken the initiative to hold the fist and said with a smile: "Ye Daoyou just defeated the three-legged Jinwu, and suddenly visited my Hongyu star field. This is indeed an accident, but it is overjoyed..."

Although the Taoist friends have the blood of the konjac, but the deity is a human race, it is said that the ancient people of the world are actually the blood of the human race, not the outsiders..."

Not long ago, in the first battle, Ye Daoyou killed the Quartet, and the three-legged Jinwu Dudu, who was ranked 10th on the left bank of the beastly beast, fled. It was really a big heart, so that all the survivors felt so excited. "

"When the Taoist friends are so young, they have such cultivation and power. They really call the old man feel very happy. I have a generation of talented people, and the talent of Ye Daoyou is a generation among them. It is really a god..."

Although this discourse is somewhat numb, it is clear that it is not suspicion, and it also clearly expresses the meaning of being close to Ye Xuan.

In this way, Ye Xuan is obviously not even more wary. Hong Tao, the old guy's city, is not really deep. Deliberately, it is clearly to numb Ye Xuan as much as possible...

In fact, Ye Xuan did not have any doubts, because he couldn't think of any reason why the Tiandao remnants in the floodplain had any reason to deal with him. There was no starting point.

Of course, there is obviously a part of the reason that Ye Xuan is too confident. Now he has even stepped into the heavens in his own cultivation. In the ninth state of the konjac, he has achieved it. The ninth-order grand perfection of the heavens and peaks, and it is not the general peak of heaven, even in the peak of the heavens, it is a shackle.

In addition, he also has Shennong Ding, in the face of any crisis can use this body, and even the inter-satellite coordinate jumping ability attached to the internal system, etc., even if it is not, at least can instantly leave and leave...

All of this is enough to make him confident in his own self. Now he is also a benevolent star field, and he is still polite to visit, alert, and naturally falls to the lowest point without knowing it.....

Soon after the two sides chilled, Ye Xuan was accompanied by the other Tiandao remnants of the Hongyu Star Field under the enthusiasm of Hong Tao, and came to the Hongyan Hall where they were negotiating.

"Ye Daoyou, Su Wen heard that your medicine is extraordinary, even Tiandaobao medicine has been refining, and even the old man is very impressed with this matter. This time it is difficult to get my Hongyuxing domain guest, but I can't just leave, I must stay for a few more days, the old man is feeling itchy, want to talk to the Taoist friends about the drug path..."

After the Lord's seat, Hong Tao's face was full of smiles and he took the initiative to raise the matter. He asked Ye Xuan to keep the time to communicate with him. This

The old guy is trying to paralyze Ye Xuan and eliminate the vigilance that may exist in his heart. It is really a spare force. This discourse is also reasonable and reasonable. Don't say that Ye Xuan's coming here is nothing to be wary, even if there is. After listening to this discourse, I am afraid I will dissipate it...not

However, listening to his words only, for Ye Xuan, it is in the middle of the mind, he came here to explore the refining secrets or experience of Tianji Avenue Baoji, and now people invite, naturally there is no reason to refuse. .

Therefore, even if Ye Xuan answered with a smile, and then turned around, he would say: "Hong Tao's friend, it's not the opposite. The Tiandao Treasure House is indeed refining, but this medicine is useful for reconciliation. In the case of the temple itself, it is meaningless..."

However, the treasures of Tianji Avenue, which were refined by the predecessors of the year, actually had a very good effect on the ninth-order grand perfection of the heavens and the vicissitudes of the Hongmeng Avenue after the impact of the Heavenly Way. This matter is really called Amazing..."

If the pharmacy is rumored and talented, the temple is not weaker than the people, but compared with the predecessors of the flood, I am afraid there is still something worse..."

"This time, the main hall came to visit the Hongyu star field. It was because of the long-standing reputation of the predecessors of the flooding. I wonder if some of the refining manuscripts of the Tianjiu Avenue treasures, or the information of the experience, survived before the seniors left. "

"If there is, I hope that the friend can not lend a view, the hall feels... I must thank you!"

"This time, the main hall came to visit the Hongyu star field. It was because of the long-standing reputation of the predecessors of the flooding. I wonder if some of the refining manuscripts of the Tianjiu Avenue treasures, or the information of the experience, survived before the seniors left. "

During the talk, Ye Xuan clenched his fist and bowed to Hong Tao. Then he said, "If there is any, I can still hope that the friend can not lend a view. The hall feels... I must thank you!"

Sure enough!

Seeing Ye Xuan's words did not say a few words, he took the initiative to mention the manuscript refining manuscript of Tianjiu Avenue. It was quite eager to show up. Hong Tao's heart was smug, but his face was not revealed. he

Dressing up some unexpected appearances, I turned around and exchanged a look with other Tiandao remnants in the temple. Then I screwed my eyebrows into sinking... This

Kind of nature is also pretending to be installed. Otherwise, if he immediately nods to promise this matter, he is afraid that it will lead to Ye Xuan's suspicion. complete

Actually, the Tianjiu Avenue Baoye Committee is really different, not to mention the Hongyu Star Field, but it is placed on the entire left bank, and it is definitely an supreme treasure that can cause an uproar.

"It doesn't matter, Ye Daoyou came here to visit this time. The old man has actually guessed your intentions and purposes..." Shen

After a while, Hong Tao finally made a sound, and his face showed a touch of helplessness. After shaking his head and sighing, this went on to say: "Since Hong's ancestors left, the refining secret of Tianjiu

Avenue's treasure liquid has been lost. It's been a million years since I calculated the time. It's a great pity..."

There have been rumors outside the world, saying that in the floodplain, there must be a manuscript of the ancestors of the flood..."

"In fact, in the past few years, Ye Daoyou has never been the first person to visit my floodplain and want to have a glimpse of the ancestors' manuscripts. The old man has long been used to this kind of request."

"Not to mention that if the Tianjiu Avenue treasures can be reproduced on the left bank, it is not only a blessing for all the fellows on the left bank. The benefits and benefits of my Hongyu star field will obviously be more. Therefore, the old man naturally refused. The truth..." said

Here, he shook his head again, and the smile on his face was even stronger: "However, for the purpose of Ye Daoyou's coming here today, to be honest, the old man does not have much hope, because even the Hongfu ancestors' caves are indeed There are manuscripts, I am afraid you can't take them out..."

"Oh? I would like to hear the details!" Ye Xuan slammed in the gloom, and immediately came to interest.  
"

Hongjun's ancestral cave house is in the Hongxing star deep in the left side of my floodplain. It was already a holy place after the flood of my ancestors, long before the million years passed. ""

It's not just the Hongxing Star, but some other stars around the Hongxing Star. They have been vacant for years, and no star powerhouse has settled in it..."

The other stars in the surrounding area are also over, and some top-level spirits are planted on it. I often pick up the refining drugs from the high-rises in the forbidden land, but the land of the ancestors' cave house is very low. It's the old man, it's just been there a few times..."

"This Hongxing star looks ordinary, but it is dangerous and dangerous. If the Taoist friends are watching outside the stars, they will find clues. On the surface of this Hongxing star, occasionally there will be one or several, or even a large, red lotus bloom. It's a flash in the pan, it's coming fast, it's going faster..."

These red lotuses are actually red lotus fires. I don't have any killers and evils in the hands of the monks? Once contaminated with these red lotus fires, the wickedness accumulated in life will be ignited in the invisible moment, turning into a burning fire in the midst of the fire, no way to avoid it, avoiding inevitable, and making a dangerous and dangerous... .."

"The reason why the surface of Hong Yixing will have a red lotus industry is sometimes because the Hongfu ancestor's Dongfu is located inside the star nucleus."

"It doesn't matter. The ancestors are located in the cave house inside the star nucleus. It is actually just an entrance. It is connected with a parallel void. The parallel void is the real cave of the ancestors."

"If Hong Hao's ancestors do have a refining manuscript of the Tianjiu Avenue, it must be in the parallel void, but there... the old man can't get in!"

At the beginning, there was a benefactor who was good at the way of the fire. He was trained to be the eighth in the heavens. Because he was quite confident, the old man advised him. After all the words were made, he still insisted on entering the parallel void, and he just entered and stayed. The soul light outside is gone, and it falls on the spot..."

"The reason for this is that because of the parallel void, it is the ocean of a red lotus fire. The red lotus fire that occasionally appears on the surface of Hong Hongxing's stars is from the parallel void and from The stars of the stars traveled to the surface of the stars..."

How horrible the red lotus industry is, I don't think it's necessary for the old man to say more, but the old man is not afraid of it, but the old man can't figure out the clue, but one thing is certain, that is, the ancestors' refining day When the boulevard is in the liquid, it will be useful for this kind of red lotus fire. It can even be said to be a must..."

"So, there is indeed an ancient training in the ancient books of Hongyu Star Field that has not been confirmed and can not be confirmed. This ancient saying clearly stated that in the parallel void, it is true that the ancestors originally refine the treasure of Tianjiu Avenue. Manuscripts, but they must be fearless of the red lotus industry, or those who can refine this horrible flame, to get..."

"The reason is that it is also because of the refining of Tianjiu Avenue, which needs to use the red lotus industry fire. Otherwise, even if the manuscript is refining, it is impossible to tame the red lotus industry fire. Can't come out."

The ancestors left the manuscript in the parallel void covered by the red lotus industry, instead of taking it outside, and keeping it in the hands of the top of the floodplain, it must be the reason..."

"It turned out to be..."

When I heard this, Ye Xuan was completely understood. Although it was shocked to hear that the red lotus industry fire really shocked him, but at the same time of shock, Ye Xuan's heart also had a sneak peek.

Because from the words spoken by Hong Tao, the parallel void in the flooded nuclear cave house is extremely dangerous, but if there is no accident, the manuscript of the refining of the Tianji Avenue Baoji is very likely. Stay there.

In this case, Ye Xuan can never be missed. Although the red lotus industry fire is indeed mysterious and terrifying, once it is contaminated, it can ignite the evil industry accumulated in the life of the soul, and turn it into an invisible burning body. soul.

However, the Shennong Baoding in the hands of Ye Xuan and the Shennong nine-color flame in the Ding, may not be afraid of it, and even there is a great chance that the red lotus industry will be swallowed up and refining.

However, he is only guessing about this matter, and he has no grasp of it. He must be tried before he can know. After all, the red lotus industry is not a small fire, too mysterious, even far more than the so-called annihilation black inflammation. How strong and overbearing, Ye Xuan has never been in contact, and now it is impossible to accurately determine...

"It seems that Ye Daoyou's mind has been decided..." See

Ye Xuan insisted that he wanted to go to the cave of Hongfu's Dongfu. Hong Tao first frowned and for a moment, then sighed and said: "So good, Ye Daoyou is amazing, more importantly, you have Shennong Jiu Color flame, maybe there is a way to resist the red lotus fire..."

The refining manuscript of Tianjiu Avenue Baoye is not the same. Now the treasure has been lost for millions of years on the left bank. If this can be reproduced in the hands of Ye Daoyou, it is also a good thing for me in the Hongyu area..."

In this way, the old man waited here to wish the Taoist triumphant return, but the Taoist friend must not be reluctant. If you enter the parallel void, you will not be able to see things. Don't forget to return immediately. ""

Staying in the green hills, not afraid of not burning wood, anyway, the Dongfu of the old ancestors is there, and will not run away, it is impossible to make another decision."

In the end, Hong Tao has already got up, holding a fist to Ye Xuan, arching Dun Dun, a look of concern, the other ten other Tiandao relics in the temple also got up, heard the words of the jaws...

I have to say that these guys really deserve to live a lot of old foxes, not just Hong Tao, the other ten people are also very deep in the city, half of the flaws are not exposed, it is simply a play. which is

Ye Xuan, but also can not see a little bit of clues, see Hong Tao and other people so ambitious, but also concerned that the self can not take the risk, when the importance of their own safety, or even a heart, quite a bit moved... "

call out! "

"Hey..."

After the air broke out, after all the negotiations, the people did not hesitate. Under the guidance of Hong Tao and others, Ye Xuan followed the more than ten Tiandao remnants and rushed out of the star where the Hongying Temple was located, facing the left bank of the Hongyu Star. Crash...

The Hongyu star field is extremely vast. Even if it is inside the star field, a group of heavenly powers took a small half-day to arrive at the area where the Hongyan Dongfu stars are located.

In the dark void in front, nearly a hundred abandoned stars lie in the void, far and near, surrounded by a giant star in the center, if there is no accident, this giant star should be the flood of Dongfu Where it is.

Hong Tao and his party did not move on, and stopped outside the tens of billions of miles away from the nearly 100-star circle. turn

Looking at Ye Xuan, Hong Tao raised his hand to the front and pointed his finger at the front. "Ye Daoyou, this area is the holy land of my Hongxing star field. The biggest star in the middle is the Dongfu of the old ancestors." Enter the entrance to the parallel void, just inside the star's star..."

"Do you have to be careful with the Taoist friends. The stars on the surface of the stars will sometimes have a number of red lotus fires, which is very difficult to prevent. Therefore, if it is not necessary, the old man and others will basically not get involved. If a friend wants to enter the interior of the star, it is best to sacrifice the defense before falling into the surface of the star, so as not to encounter the current fire, and be caught off guard..."

As soon as the sound fell, there was a low-pitched whistling sound from the far side of the void. The people subconsciously followed the sound and saw the center of the circle outside the tens of billions of miles. The largest giant star surface. On the right side, a red awning quietly flashed. This

It is a sea formed by red fireworks. Every wave in the ocean is a red lotus shape of a large size. It looks fascinating and reveals a mysterious secret.

However, this tent is like a red mangling in the ocean, but it is flashing, like a flash in the pan, the blink of an eye disappears in the left side of the star's surface, as if it broke into the depths of the earth...

Hong Tao did not say much more. After withdrawing his sight, he just watched Ye Xuan shake his head and smiled. The meaning of the words is nothing to say: Look, I am right? "

Thank you, Dao, for reminding me that the temple will not be reckless. If the real thing is not possible, it must be returned immediately..."

Ye Xuan was also a bit stunned. His face was serious. When he talked to Hong Tao and others, he no longer talked nonsense. When his shoulders swayed, the whole figure instantly turned into a man, and spurred toward the front. go with.....

"The elders, this kid... Wouldn't it really take out the other half of the refining manuscripts of the ancestors?"

Ye Xuan's body shape is in front of the news, the smile on Hong Tao and other people's faces is suddenly fading, and the complexion is all overcast, and the gloom reveals the meaning of gloom.

One of them immediately spoke out, with a hesitant color on his face. He turned to look at Hong Tao. After a short pause, he again said: "At the beginning, when the old ancestors left, they left their instructions. Refining the secret law, gathering the refining manuscripts he left, you can get..."

However, because the refining of the Tianji Avenue treasure requires the red lotus industry fire, the ancestors of Hongyan divided the manuscript into two, half of which were left in the parallel void of the red lotus industry. Among them, it is said that it is waiting for a chance..."

"As for the other half of the manuscript, the reason for handing it over to me for safekeeping is to ensure that the future person who can accept the red lotus fire will be able to form a good relationship with my Hongyu star field. Refining the Tianji Avenue Baoye, at least I am in the floodplain, can share it. After all, the other half of the manuscript is provided by me..."

But for now, I will wait for Ye Xuan, the master of the demon temple, to apparently end up with hatred. If he really gets the half of the manuscript in the parallel space, the layout of the Hong ancestor may be meaningful. All lost. ""

With the temperament and acting style of Ye Xuan, the master of this demon temple, I am afraid that it is impossible for me to sneak into the starry field... "

This discourse is said to be reasonable, Hong Tao and others have all frowned and fell into sinking.

Tianjiu Avenue Baoye is indeed a different kind of thing. If the owner of this demon temple, Ye Xuan, can really conquer the red lotus fire in the parallel void, then after he gets the half of the manuscript, the Hongyu star field only needs to provide another half of the disability. The manuscript, this kind of Supreme treasure that has already lost a million years in the left bank, can be born again...

But if they really launch the Qiankun Hong furnace, this opportunity, I am afraid to miss it.

"It's a joke..."

When Hong Tao hesitated, a cold voice came from the side of the void, and a gloomy Hongjiang stepped out of nothingness.

First, I glanced at the Tiandao remnant who had a good voice, and then I dropped my sight on Hong Tao. Then I answered: "Can the red lotus industry be easily taken by individuals?"

Although this child has nine colors of flame sea, but it is only because he got the Shennong Ding, really want to talk about the fire way, can he be more proficient than the original eighth-order survivors? ""

This is also..."

In the words, Hong Tao's jaw, it seems that he made the final decision. He turned to Hongjiang and other Tiandao remnants who were present in the circle. In the end, he slammed the cold and shook his hand: "So, there is nothing to hesitate. ..."

It is not too late, this sub-means is extraordinary, and there is a change in terror. You will enter the battlefield and start immediately... "

Chapter 5132: Void blast furnace

"This is also..."

Hong Jiang's words made Hong Tao make the final decision. During the speech, he turned to Hongjiang and other Tiandao remnants who were present in the circle. In the end, he slammed the cold and shook his hand: "So, there is nothing. Can hesitate..."

It is not too late, this sub-means is extraordinary, and there is a change in terror. You will enter the battlefield and start immediately... ""

call out! ""

Oh..."

Hong Tao's words just fell, and a group of Tiandao survivors had an action in an instant. More than 20 people swept away and rushed to the front of the circle of stars composed of more than a hundred discarded stars...

Previously, Hong Jiang had already hurriedly arranged with four Tiandao survivors, and buried a large number of flags in the nearly one hundred stars, which invisibly formed a large array of Qiankunhong furnaces.

There are more than 20 main eyes in this big array. It is more than 20 of the hundreds of stars. Now Hong Tao and Hong Jiang and others rushed away, and it was the rushing to the more than 20 main eyes.

The other dozens of stars are the vice-eye. One

When the big array is launched, nearly 100 stars will be condensed into one, and relying on the powerful repairs of more than 20 Tiandao survivors such as Hong Tao and Hong Jiang, through the nearly one hundred stars, one from the sky The aura of heaven and earth turned into an invisible power of the furnace, and it was fully rolled up toward the central part of the star circle.

The power of a large array of horror is terrible, and even the peak of the ninth-order grand perfection will be trapped in it.

If you count the inner star nucleus of the Hongyan Dongfu Star, and the red lotus fire that is like the ocean in the parallel void, even Ye Xuan is among the best in the peak. Existence, will be completely suppressed, into a difficult situation, can not support for a long time, will soon be seriously injured dying...

At that time, Hong Tao and others only need to use the power of the Qiankun Hong furnace in the midst of their thoughts. They will be like a dead dog, and they will be removed from the Hongyan Dongxing stars.

"boom!"

"Booming..."

Soon, Hong Tao and others all entered the eyes of a star-studded star. There was no hesitation in the eyes. After the communication of the gods, they immediately acted together and launched the Qiang Kunhong furnace.

The earth-shattering roar came, and at this moment, nearly a hundred stars were all shaken together, and all the interiors of all the stars came with a low voice.

The flag that was buried in these stars and stars was jointly mobilized by Hong Tao and Hong Jiang at this moment. More than 20 Tiandao strongmen joined forces, and the entire field of the field was immediately promoted to the extreme...

"Booming down..."

Oh..." This

At the moment, the roaring sounds, the original low and faint screams of nearly a hundred gongs also converge into one, very fierce, among the nearly one hundred stars of the entire star circle, except for the most central part of the Hongyan Dongfuxing stars, all other stars All bloom in endless glory...this

Nearly a hundred stars were originally dead, but now they are just like the stars in their heyday, bursting with brilliance and glare, illuminating the entire flood of stars hundreds of trillion miles away. "

what happened? "

"There... oh! It's the circle of stars where the ancestral temple of Hong's ancestral caves is!"

"There is such a fierce star, which is clearly a strong force in the heavens, and there is more than one, and even a mysterious big array..."

Qiankun Hong furnace big battle! This is definitely the rhythm of the Qiang Kunhong furnace. What happened in the end? Actually, Hong Tao and Hong Jiang and other star-state elders can join forces to launch the most powerful stars of my Hong Xing domain.

At the moment, with nearly a hundred stars all bursting into an endless and fierce star, the entire flooded star field is illuminated, and within the abandoned stars in the star field, countless star-studded people are all mad and shocked. When I went, my face changed a lot.

Just like the tidal sound of the tide, it instantly seems to be like a tidal wave...

"Hey..."

The humming sound is still continuing, and it is more and more amazing. Under the sudden, it seems that this whole piece of emptiness has been resonated, and it trembles with it...

The nearly a hundred stars of the Chen circle have also changed at this time. The arrangement of these stars in the void is originally chaotic, and no one will have half of other special associations.

But now, under the urging of more than 20 heavenly powers such as Hong Tao and Hong Jiang, they use the squad of the squad that is deeply buried in the hundreds of stars, and they are invisibly connected with each other to form a whole. Can also be urged...

"Booming!"

"boom....."

Visible to the naked eye, among the nearly one hundred stars, except for the Hongyan Dongfu star in the center of the star circle, all the other stars are moving, moving rapidly in the void. One

The cuts happen too fast, and the time before and after the short and half pillars, this nearly 100 stars have completed a new arrangement in the void, from their current rankings, nearly a hundred stars, distinct Formed a huge flood furnace...

This Hong furnace is based on the void, with nearly a hundred stars as the knot, and each other blooms brilliantly. Invisibly, there are more domain fields and powers that can be connected to each other. The overall diameter has reached 360 million miles away. It can't be said at all. "

call out! "

"Hey..."

In the dark void in the distance, in the abandoned stars of the Hongyu Star Field, a large number of remnants of the Stars rushed out of the stars, full of shocked colors, eagerly heading towards this side, all of them stunned . inverted

Under the cool air, like a tidal wave of exclamation, suddenly came over again. Correct

In all of this, at this time, Hong Tao and Hong Jiang, who were sitting in the star of more than 20 main nodes in this virtual air furnace, did not pay attention to it. he

Their hearts have all been shrunk by the Qiang Kunhong furnace, and at this time they are completely innocent. To

Nowadays, under their full force, although the Qiang Kunhong furnace has been formed, it has been fully launched, and the domain field power can be stirred to the extreme. It has already been in the center of the star circle, and it seems to be in this void. The flooding inside the flooding furnace tires is completely banned...

But their purpose is not only to ban the stars, but to trap the main house of the temple, Ye Xuan.

Next is the real highlight, they will join forces to promote the second heavy field of the Qiankun Hong furnace. This

The first heavy power change of a big squad is just a trap, and the second weiwei can change, and it has a terrible killing power...

The manifestation of this kind of killing power, in addition to the joint efforts of more than 20 heavenly powerhouses in the eyes of the main squad, the more important support is the aura of heaven and earth in the endless void outside this Qiankunhong furnace. brain

In the middle of it flashed all this, at this time sitting in a star of a star in the peak of Hong Tao, a flash of light, shaking hands: "You, the second heavy furnace to kill ... full start!"

The Kunhong furnace is not known to the outside world, but it is the first killing of the old man who passed down the Hong Kong star field...

This first-class resurgence of the big squad can only change the trap, and the second weiwei can change, and it has the power to kill.

The manifestation of this kind of killing power, in addition to the joint efforts of more than 20 heavenly powerhouses in the eyes of the main squad, the more important support is the heaven and earth aura beyond the endless void of this Qianhong furnace.

Only by the endless emptiness of the vast amount of heaven and earth aura as a kinetic energy support, and then through the condensation of the void of the large flood furnace array domain field conversion, in order to trap the inside of the Hong furnace, the formation of a strong enough to suppress the killing Destroyed. brain

I flashed all of this. At this time, I sat in the glory of a star in the peak of a star, and I waved my hand...

The sound of the gods is also heard in an instant, revealing the endless cold of the forest: "You, the second heavy furnace to kill ... full start!"

"Hey..."

boom! ""

Rumble..."

At this moment, with more than 20 Tiandao survivors, such as Hong Tao and Hong Qi, teamed up, and at the same time, the body's repairs were pushed to the extreme. The virtual space, which is 300 billion miles in diameter, has a huge horror. , also fully motivated...

The heart-wrenching humming sound came, this time, the vast void within a billion-mile radius, really trembled with the vibration of the Qiankun big furnace, just like resonance. no

In the shape, there is a horrible and horrible spurt in the Qiang Kunhong furnace, which takes the endless aura of the tens of millions of miles in the sky and takes it all into an invisible force of killing. The flooding of the Hongkong Dongfu in the central hollow of the Hong furnace... ..

...

"Oh..." broken

The sound of the air rang, and Ye Xuan's body shape turned into a man's speed. In an instant, he reached the sky above the stars in the center of the star circle.

Just now, he saw the left side of the star land table with his own eyes. There was a red flame like a sea, and every wave of the flames was a horror of a flower. Industry fire, red lotus form, glamorous and terrible. Correct

In the power of this red lotus industry fire, Ye Xuan himself has no accurate judgment, and there is no absolute certainty in his heart.

Therefore, now that he is close to the stars, he will sacrifice the Shennong Baoding for the first time. Only the size of the statue will be hung on the top of the head, and the smog will be poured out into a curtain and the whole body will be turned into a curtain. Keep it, just in case... this

When everything was done, he was in the shape of his body, and he blinked to the star's land table.

Looking around, this Hongyan Dongfu star's land surface and ordinary abandoned stars are not particularly different. The only thing that comes to mind is the desolate, mountainous ups and downs, but there is no vegetation.

The horrible and horrible emptiness in the void, seems to capture an extremely mysterious rhythm that exists invisibly, but it is completely invisible, and the atmosphere is heart-rending.

The floodplain's land is located in the star nucleus at the deepest part of the starry underground, and the passage to the parallel void with the endless red lotus industry cremation into the ocean is also within the star nucleus. Such as

Therefore, the star's land surface naturally does not need to stay too much. leaf

Xuan turned to the first glimpse of a circle, and soon he stumbled into the ground and rushed straight to the star of the star underground.

The land soon arrived, and there was a space in the star nucleus that opened up a million miles. In this vast space, some sporadic fires were wandering, all of which were red lotus shapes of the size. Although beautiful, but the breath of the atmosphere is extremely amazing, even Ye Xuan is not very graspable because of the heart, not dare to approach the touch easily...

He shuttled through the sporadic red lotus industry fire. At the end of the line of sight, there was a palace floating, not very luxurious, not very large, only a hundred square feet, only a lonely main hall.

The door of the main hall was even opened, but through the two open temple doors, the inner eyes saw only an endless deep darkness, like a black hole, it seems that there is nothing inside. but

If you go with the extension of the gods, you can capture the world formed by a red flame sea after entering this hall. Obviously, the entrance to the hall is the entrance of the parallel void, where the piece is connected with the endless red lotus. The parallel void covered by the fire..."

call out....."

In the middle of the gloom, Ye Xuan's body was accompanied by a faint sound of breaking the air, and immediately stopped in front of the hall.

There was a hesitant color on his face. The front hall of the Baizhang Square was not eye-catching. There was nothing in the darkness of the ancient hall. But if it entered the temple door, it would enter the parallel void. The passage that will be faced will be a majestic flame formed by the red lotus industry fire... he

Although there are Shennong nine-color flames, although there are Shennong Baoding, but the red lotus industry is still very jealous, it is indeed hesitant.

This kind of top-of-the-world fire is too strange. It can ignite the sinister life accumulated in the living spirits and turn it into an invisible fire. It can't be defended, it can't be extinguished, and it can't be stripped. Because these The fire comes from itself, and exists in the dark...

Although jealous, people have already arrived here, naturally there is no reason to stop.

In the middle of the Han Mang flash, Ye Xuan's body shape instantly turned into a masculine rush, rushed into the hall, directly into the parallel void...

"call....."

For a moment, the sound of the flames and whistling sounds in the ear was shocking. Ye Xuan's whole heart mentioned the eyes of the blind man at this moment. He simply did not know the colorful color of Shennong Baoding hanging over the head. Fog, can you block the red lotus industry fire... strong

To make him amazed, before he broke into the hall, he was compressed by his thoughts to the Shennong Baoding nine-color fog, which was only ten feet away. Although there was a violent wave at the moment, it did not collapse. Such as

Today, Ye Xuan has long been in the endless red flame sea, hanging Shennong Baoding on the top of his head, and the nine-color smog that was dumped by Baoding is formed into a mask of ten feet.

Shennong nine-color flame... really remarkable! "

At this moment, the heart that had been hanging in the eyes of the blind man finally fell. Ye Xuan sighed with a sigh of relief, and his face showed a touch of joy.

What he didn't know was that it was this moment that the Qiang Kunhong furnace was fully launched by Hong Tao and others.

However, he has already left the star nucleus of the Hongyan Dongfu Star and entered the parallel void connected by the Hongyan Dongfu. It is inaudible to all kinds of movements in the floodplain...

"That is..."

Just in the next moment, with Ye Xuan's figure wandering in this majestic red lotus fire, a fiery jade slipped into his eyes, letting him slam in the air and taking a cold breath. Qi: "Hey! Isn't it... Hong Manuscript?"

After arriving inside the star nucleus of the Hongyan Dongfu Star, Ye Xuan entered the parallel void connected by the Hongyan Dongfu for the first time.

Therefore, from that moment on, for the various movements that occurred in the floodplain, he could not know at all, the movement was too big, and the parallel void was completely inaudible... indeed

After the red lotus industry fire could not wear the light curtain formed by the Shennong Ding Jiu Cai smog, threatening himself, Ye Xuan's heart hanging in the eyes of the blind man fell, and between the

thoughts, he quickly became the top of the Baoding. The piece of majestic red lotus industry wanders in the fire.

The purpose of this is to find the manuscript refining manuscript of the Tianji Avenue, which is likely to remain, and this parallel void has been covered by the endless red lotus fire. To find the manuscript, you must go around. Walk away. "

That is....."

After a moment of work, in the red flame sea in the far right, a fiery jade slipped into his eyes, carrying a load...

Ye Xuan did not expect to have such a quick result. After a sudden glimpse, the light was lighted for a moment, and a sigh of relief: "Hey! Isn't it... Hong Manuscript?"

This is simply too unexpected. I thought that after entering this area, I had to look for at least a period of time to get results. Even in the end, I might have nothing to gain, because he did not have accurate information until now, and he can confirm that Hong Yu is indeed going to The refining manuscript of the liquid is left in this parallel void...

However, the surprise came so quickly. After entering, only half a column of incense, a \*\*\*\* red jade slip appeared in the flame sea in front of the right side. where

I am afraid that this is not a refining manuscript of the treasure of Tianjiu Avenue. I want to come and be related to Hongyu. It is also a clue to find the manuscript of Tianjibao liquid..."

Oh..."

In the moving room, a mile of anger came from the endless flame of the right front. In the blink of an eye, under the release of Ye Xuan, the light curtain formed by Shennong Baoding's colorful fog was in his hands... ..

He couldn't wait any longer, and he spread the knowledge into it and explored it! "

Sure enough, it's a flood of manuscript..."

Only for a moment, the dawn of Ye Xuan's eyes was already fierce, but soon it flashed, and frowned and fell into sinking...he

The jade slipped in the hand is indeed the one left by the flood. There is also a secret recipe for the refining of the Tianjiu Avenue, but only half of it is a disability. to

In the other half, Hong Yu had a clear statement in Yu Jian, and he took out a parallel void and handed it over to the high-level custody of the remnants of the Hong Yu Star Field.

And he hopes that the people who want to get the rest of his manuscript will be able to get along with the remnants of the Hongyu star field. After getting the other half of the manuscript, they can refine some of the heavenly high-level people in the star field. Avenue treasure... except

In addition, Hong Yu also said in the jade slips that to refine the treasures of Tianjiu Avenue, it is necessary to refine the red lotus flames in this parallel void. mother

After the refining of the flames and the use of the flames, the energy source continues to get endless red lotus fire.

But this mother flame is not so easy to find and refining, all these floods can not help, can only see the means and opportunities of the people themselves..."

It seems that the old guys in Hongyu's domain are not very kind..."

After the hand put the jade slipped away, Ye Xuan's fine flash in the middle of the man's mouth, whispering in a whisper, the corner of the mouth instantly outlined a touch of Sen cold smile. Have

The other half of the flooded manuscripts were in their hands. Previously Hong Tao said nothing, just this is enough to explain the problem...

But this incident Ye Xuan did not pay attention to it, is it not half of the manuscript residual? Since it is determined in the hands of Hong Tao, it will be easier. return

The head went out from here, and if the old guy honestly handed it over, it would be fine.

Otherwise, if he continues to play sloppy eyes, it will be a big deal.

The matter is not in a hurry. The Hongye Xingyu family has a big career, and the monk can't run the temple. The other half of the manuscript is a remnant. Sooner or later, I can get it. Now

The imperative in the matter is to find the red lotus flame first. Since Hong said that the refining of the Tianjiu Avenue must use the red lotus fire, it will not be targeted, not to mention the red lotus fire is the most. The top heavens and the earth are different, but they are not visible at all. Nowadays, if there is a chance to collect refining, it is also a big chance..."

call out....."

After the decision, Ye Xuan immediately acted and wandered in the vast ocean of endless fires, looking for the red lotus flame. also

It is at this moment that the difference is steep...

"call!"

"call....."

Everywhere in the distance, the originally extremely calm fire of the ocean, suddenly violently rolled up, a blossoming red square lotus, with the endless flames roaring.

The reason for this is obviously because the more than 20 Tiandao remnants headed by Hong Tao in the Hongyu Star Field, urging the Qiankun oven to activate the second battle of the big battle.

Ye Xuan is now trapped in the Hongxing Dongfu Star by the Qiang Kunhong furnace, but since he did not go out, he still does not know about it. but

With the second killing of the Qiang Kunhong furnace, it will be activated, even if he does not rush outside, it will be affected by the power of the big array, including the endless fire in the parallel void, now the flame energy and the Inspired, instantly raging and opening..."

Oh..." No

When Ye Xuan reacted and what happened, the low-pitched humming sound suddenly sounded. With

The vast violent anger of the vast expanse of the industrial fires raged, and the faint light curtain formed by the faint mist of the Shennong Baoding on the top of the head was even more violently turbulent, and it was still slowly Internal contraction.

The diameter of the light curtain was originally ten feet, but now it is shrinking inward. This is clearly the infinite red lotus industry riot in the fire of the ocean. This light curtain is about to support the mega-brain...

In the flashing of all this, Ye Xuan's face changed instantly, and the squatting of the scorpion was even more brilliant, revealing the endless sense of coldness. he

Although I don't understand what happened, I can vaguely guess that it must be related to Hong Tao and others. I may have guessed it and fell into the ambush that they have already built up.

With these thoughts in mind, Ye Xuan immediately swept away and swam in the sea of endless fires. He must find the mother flame as soon as possible, and collect it for refining, so that there would be no endless fire in the parallel void. ....One

The time passed quickly, and the red lotus mother flame still had no trace, but the light curtain that protected his body shape had been reduced to one foot, and today the diameter is only about nine feet.

There is not much time left. Ye Xuan's fascinating and fascinating, the brain's flash of light flashes, a super bold thought, instantly appears..."

Perhaps the current crisis is actually a major opportunity. If you can use these red lotus fires as a melting material, and the eighth fusion with the broken virtual and the invincible Nirvana, the crisis is not an instant. solution? "

In the whisper, Ye Xuan immediately made a decision, try it, and then smash the virtual shuttle... short

Shortly after, the light curtain that protects his body shape has been suppressed to the diameter of only nine feet, which is reduced by one tenth. and

The so-called red lotus flame, but there is still no trace.

If it is at the end, this layer of light curtains will be reduced to the extreme under pressure, and Ye Xuan himself will fall into the crisis of life and death.

In the face of this pressure, his mind flashed, and there was a bold thought in the moment.

In his view, the current crisis is actually a major opportunity. If you can use these red lotus fires as a melting material, and the eighth fusion with the broken virtual and the invincible nirvana, the crisis Natural... Just do it! This

It may sound a bit confusing, but it may not be completely impossible. After all, the fusion system attached to his body's engulfing system only needs to provide the treasure itself and some additional consumables when melting the treasure.

This red lotus fire in parallel parallel sky may not be regarded as a special melting consumable...

Moreover, once this matter is feasible, the melting of the virtual shuttle and the invincible Nirvana will surely consume a lot of red lotus fire. At that time, even if Ye Xuan can't find the red lotus flame in a short time, basically can't worry. The light curtain that protects the whole body has collapsed.

After all, the red lotus fire in this flame sea is consumed a lot, and the power will naturally be weakened. Such as

As a result, he will look more lenient for the time of the red lotus flame, and incorporate the red lotus fire to carry out the eighth smelting of the virtual shuttle and the immortal nirvana, presumably the power will also skyrocket to Surprise level, after all, this is not the general world of fire...

Nowadays, Ye Xuan's small private warships have broken through the meditation and the invincible Nirvana has undergone seven fusions. At present, it is the starry sky to the treasure level, calculating the time, and finally the seventh fusion condensate, in fact, it is a long time. The previous thing. and

For the long time, he did not carry out the eighth smelting of these two companions, mainly because of the lack of suitable fusion materials.

After the starry sky to the treasure level, the next goal of melting is basically to go to the ancient age to the treasure level. This kind of artificially created treasure and the world's mineral deposits are different from the crystal and the heavenly treasure, in order to reach the ancient and treasure level. It's really hard...

It can be said that the entrants selected during the eighth smelting are extremely important. After the incorporation, it is necessary to make the two treasury produce qualitative changes. Previously, even Ye Xuan had numerous treasures and various Rare resources, some time ago, have not found a suitable integration.

In addition, the further the smelting, the greater the chance of failure leading to the failure of melting, and the fusion system of the phagocytic system has not yet experienced the failure of fusion.

But it does not mean that this situation will not appear! melt

The systematic description of the system has a clear explanation. The integration of treasures has a certain probability of failure. Although it is not high, it exists. leaf

The three treasures in Xuan's hands have been successfully merged several times, each time incorporating a rare treasure.

These treasures are basically gone in the hands of Ye Xuan. If they are casually, they will start a new smelt. In case of failure, the battle treasure will collapse. It is estimated that Ye Xuan will not cry. and also

It is precisely because the subsequent smelting has not started again. With the refinement of Ye Xuan's strength, the three basic tactical treasures he carried with him were not enough because of the lack of power. Ye Xuan has not used it for a long time. Do not

A long time ago, the three bloodstains of the dead magical warfare were once again melted by him, and the effect was extremely gratifying. Not only did he successfully enter the age of the ancients to the treasure level, but also the power can rise, even if he is now, it is enough. use.

It's rare to encounter a majestic red lotus fire. Although it's a little risky, in his opinion, just in the face of the predicament, the risk will be broken and the glass will be destroyed for the eighth time. Worth...

After the decision, Ye Xuan quickly took out the broken shuttle and the invincible Nirvana from the immortal world, and then contacted the body's phagocytic system to fully activate the affiliated fusion system. under

After the command, his mind immediately sounded a familiar system sound...

"Hey, congratulations to the host, found that you can fuse treasures: not to destroy Nirvana, red lotus industry fire! Is it immediately integrated?"

Hey, congratulations to the host, found that you can fuse treasures: caves, red lotus industry fire! Is it immediately integrated? "fruit

Can use!

With the familiar system prompts in the brain, Ye Xuan's heart jumped and he was pleasantly surprised, and then hesitated, even if he made a definite reply, and it was merged at the same time...

Fast, as he chanted, the inexhaustible nirvana and the broken virtual shuttle used for integration were all handed over to the phagocytic system. As for the fusion material, the red lotus industry fire was around, surrounded by 茫茫An endless piece... no

However, the system is in his body. Therefore, if the fusion is unfolded, it is necessary to introduce the red lotus industry into the body. Otherwise, the fusion material is not in place. The eighth fusion of these two treasures is obviously empty talk, and it is impossible to expand. .

However, it is extremely dangerous to introduce the red lotus industry into the body. If it is replaced by others, it is tantamount to finding a dead end. which is

Ben Ye Xuan has confirmed that Shennong Baoding's nine-colored smog can block the secret power of the fire, but in this way, the nine-colored smog wrapped the red lotus industry into the body, but it is still extremely dangerous.

If you get a bad leak and touch yourself, then you can really destroy everything...

However, there is no way out now, and the current crisis is here. There is no other way to solve it.

"Hey..."

Under the flash of Zhonghan Mang, Ye Xuan was in a moment of dying, urging Shennong Baoding, opening up a closed passage in the smog light curtain covering the whole body, and directly leading to his own body...

The passageway was also completely formed by the colorful smog poured by Shennong Baoding. In an instant, the red lotus fire outside the Jiuzhang light curtain was led and entered into Ye Xuan's body, just like a pipe, but the pipeline The red lotus industry fire inside does not come into contact with Ye Xuan's body. When it arrives, it is immediately taken away by the phagocytic system...

At one moment, he was keenly aware that the pressure of the flames that had been suppressed against the curtain of Jiuzhang was suddenly light. After all, the flames that had been raging and raging were now led by a channel to vent the flames...

The result turned Ye Xuan a big sigh of relief, and everything was still in jeopardy. His forehead had already secreted a cold sweat... very

Fast, with the red lotus industry fire as a melting material through the nine-colored smog formed by the continuous flow of sputum, Ye Xuan's brain, once again sounded a familiar system sound...

"Hey, congratulations to the host, not to kill Nirvana, the eighth fusion begins! Progress 1..."

Hey, congratulations to the host, the ninth fusion of the broken virtual shuttle begins! Progress 1..."

Finally, Ye Xuan sighed with a sigh of relief, and the inexplicable heartstrings suddenly became one of them...

Chapter 5133: Industry fire nirvana

With the continuous formation of the sputum pipeline formed by the red smog as a melting material, Ye Xuan's brain quickly sounded a familiar system sound..."

Hey, congratulations to the host, not to kill Nirvana, the eighth fusion begins! Progress 1..."

Hey, congratulations to the host, the ninth fusion of the broken virtual shuttle begins! Progress 1..."

Finally, at this moment, Ye Xuan subconsciously sighed with a sigh of relief, and the inexplicable heartstrings suddenly became one of them...

From the beginning to the end, although his warfare, armor and warships have been merged many times, they have never experienced a failure. Now they have succeeded seven times in succession, and Dongxu shuttle has achieved eight consecutive successes. Fusion.

However, the more this fusion comes, the more likely it is to fail! with

In the end, once the integration fails, the loss will be more and more serious in Ye Xuan, and he will suffer from the loss. At this moment, he will naturally be a little embarrassed...

Yes, with the precedent of the successful successful melting of the previous \*\*\*\* blade, Ye Xuan is still somewhat worried, but more is still expected...

With this in mind, he gradually calmed down his mind, no longer entangled the result of the fusion, and after closing his eyes, he quickly entered the state of forgetting things, letting time pass, no surprise!

I don't know how long it has been. He has been closing his eyes and suddenly opened his eyes. Almost immediately, the familiar phagocytic system has been heard in the brain... The integration of the trenches and the battleships has finally been completed!

"Hey, congratulations to the host, not to kill Nirvana, the eighth fusion success! Get the treasure property fire nirvana! Grade: wild to treasure! Quality: no shortage of perfect!"

Hey, congratulations to the host, the ninth fusion of the virtual shuttle! Get the treasure red lotus to break the virtual shuttle! Grade: old age to treasure level! Quality: no shortage of perfection! "melt

The success of the two battles, the two treasures, all upgraded, the previous star is the treasure, but now it is turned into a wild treasure, the degree of power surge, obviously worth looking forward to.....

Broken Xuan completed the ninth smelt, and now the name has changed. From then on, the red lotus is broken. Just by the word Honglian in front of its name, you can imagine its power, presumably once At the same time as the sacrifice, through the empty space, you can also attack the red lotus industry to form an attack...

Moreover, due to the particularity of the Honglian industry fire, today's Honglian breaks the virtual shuttle, and it is better to penetrate the void and break through the barrier.

It would be perfect if it could pass directly through the layer of invisible barrier formed by the force of the emptiness of the law of the entire galaxy.

However, Ye Xuan also knows that this kind of license can be a bit too high, almost unrealistic... It can be directly broken through the invisible barriers of the source nest, which is weaker, even if it is not bad. to

In terms of speed, nature is even more unnecessary. After all, its grades have been upgraded from the previous starry sky to the treasure level to the current age of the ancients to the treasure.

The original invincible nirvana, after this time of melting, although the total number of melting is only eight times, less than the red lotus broken shuttle, but its grade has also been upgraded to The age of the ancients to the treasure.

In the same way, after the completion of the eighth melting, due to the addition of the red lotus industry fire as a melting material, the current order has been upgraded to the invincible nirvana of the ancient and the treasure, and once again gorgeously transformed.

In the future, it should be called the fire of the nirvana.

Just changing from the name of the trench to the word of the fire, you can roughly guess its power, presumably warfare, blessing after the body, most of the body will also show endless red lotus fire Can both defend and defend the enemy...

The thoughts flashed through the brain, and Ye Xuan immediately changed his face.

The red lotus is broken, but it is also one of Ye Xuan's three basic battles. But after all, it is only a small private warship used for transportation. Even after the sacrifice, the endless red lotus entanglement of the ship's body, the life and disillusionment, then It's ok.

However, the nirvana of the industry is different. This is a trench. Once it is sacrificed, it will be directly blessed. The situation is naturally different from that of a small private warship...

When the Nirvana was first unfolded, a close-fitting female armor was added to Xuanyuan Ziyantou. After that melting, the form was extremely feminine.

In the future, although this trench has undergone repeated melting, but because the most basic melting has affected the far-reaching relationship, until the seventh melting was completed, the trench became invincible. The grade is also upgraded from the previous star to the treasure level, after being promoted to the starry sky to the treasure level...

The overall feeling of the whole trench is still giving people a more feminine and visual sense. This

Things have always made Ye Xuan somewhat bitter and unhappy, and in many cases in the war, they try to avoid the annihilation of Nirvana. complete

The trembling of a big man is so feminine, why is it so human? Do not

However, because his cultivation has been soaring in strength over the years, only the starry sky to the treasure level of the invincible Nirvana can not be enough, has long been used for a long time, this time before the melting, Ye Xuan has Forget about this.

It's only after I've finished the smelt that I'm suddenly thinking about it. This is why his heart is slamming and the face is suddenly changing...

The nirvana before the refining has become quite feminine. Now, after joining the Honglian industry fire to complete the eighth melting of the material, will this situation be more serious?

After all, these red lotus fires seem to be all fascinating. If the trenches are sacrificed, there will be a big red color from time to time after the upper body, and the red lotus form of the fire will appear, constantly dying... ..

In such a scene, Ye Xuan is now thinking about it, and suddenly feels chilling!

With embarrassment, he did not hesitate, and he did not pay attention to the same thing. He also completed the melting of the red lotus, but he immediately sang the martial art.

Oh..."micro

The weak and incomparable sound of the air broke out, and a red and purple cross was pulled out from Ye Xuan's eyebrows. No storms rose, and the blink of an eye turned into a warhead upper body... and

Compared with the previous form, the general form of Nirvana is still in the beginning, but now it seems that the atmosphere of the whole trench is thicker and thicker than the original nirvana, revealing a thickening The meaning of quaintness and mystery that does not open...

All this is not the concern of Ye Xuan, because after the ranks of the trenches have been upgraded to the level of the ancients to the treasure, these are the original intentions! he

What is really concerned, the only concern, is whether the form of the nirvana of the current industry is feminine. After the upper body is sacrificed, will there be a blossoming red and bright red lotus bloom, and the life will be disillusioned...

Before waved the treacherous sacrifice, there was still a expectation in his heart, or it could be said that he was lucky, but now, with the trenches being sacrificed, his eyes are covered, and Ye Xuan hangs his head and looks at his figure. Around the blossoming red lotus, which is inextricably moving and disillusioned, the whole heart sinks into the valley in an instant, and the hair grows out with a terrible bitterness..."

Oh..."

Oh..."

As the trenches were sacrificed, the eyes were draped over the body, and Ye Xuan bowed his head. Looking at the fascinating and fascinating red lotus around the figure, the whole heart was suddenly sunk to the valley, and the hair was raised. Very bitter and miserable...

Too glamorous, too good to see, too special... no face to see people! from

A great old man, the master of the imperial hall, the whole right bank of Megatron, the supremacy of the right side of the left bank of the tyrant, the treacherous body is so glamorous and beautiful, this is simply... brain

In the flashing of these thoughts, Ye Xuan's heart suddenly became unknown. In this case, he subconsciously angered the body of Hong Tao and others. If the old guys suddenly made a ghost, the red lotus industry in the parallel void suddenly rioted. , in danger.

How can you make this kind of risky choice in desperation? Now

In the good, although the melting of the two war treasures has been successful, the grade has been upgraded to the age of the ancients to the treasure, but after this melting, the enchanting beauty of Nirvana can no longer be reversed, and will be in this article. A road to the black rhythm..."

Damn old guy, this is not over..."

As soon as I read this, Ye Xuan was gnashing his teeth. When he turned back, he had to find Hong Tao to calculate the account. It was too wrong and unbearable. Do not

At the moment, it's not the time to entangle this. After all, the crisis in front of us is solved, but the things to be done have not been completed...

"call out!"

A wave of hands, Ye Xuan's industry fire Nirvana turned into a purple-red mans, a flash did not enter his eyebrows, and disappeared.

At this time, his head is still topped with Shennong Baoding, and the colorful smog poured out by Baoding forms a light curtain, which envelopes his body shape and blocks the invasion of the red lotus industry outside the light curtain. first

When he started to melt, the diameter of the curtain that guarded the whole body was already pushed to the diameter of only nine feet, but from that moment on, the red lotus fire that surged outside the curtain had found a vent. Introduced by Ye Xuan to continue to consume in the body...

Therefore, at that time, the light curtain will no longer shrink inward, and it is still the diameter of nine feet.

Calculating the time, this time the melting has consumed a full seven days. In the past seven days, the red lotus fire outside the curtain has been in a state of violent raging, but the influence of protecting the curtain of Ye Xuan's body. It is far worse than before. complete

In fact, once again, the smashing of the virtual shuttle and the Nirvana smashed too many red lotus fires. According to Ye Xuan's estimation, the entire red lotus fire in the parallel void was probably consumed by about half.

Although this piece of fire has a red lotus flame in the ocean, the energy source continuously produces a new red lotus fire, but the consumption of the seven days is too large, and the massive fire continues and is swallowed up by the system. Even the red lotus mother flame can't make up for it in a short time.

In other words, Ye Xuan still has enough time to find the red lotus flame, as long as the fire in the parallel void is restored to the previous scale. in

Before this, the power of the fire in the parallel virtual air would not pose a threat to him...

"call out....."

When the sound of the air broke, Ye Xuan plucked his body and turned into a man, and wandered again in the parallel void.

In the entire parallel void, the endless fire that was originally like the ocean has been continuously consumed halfway through the previous smelting of the broken shuttle and the nirvana.

Although it is still endless, it is a lot thinner than before. Ye Xuan started the search, and the progress far exceeded the previous one...

After two days of touching, when he wandered around the fourth circle in this parallel void, there was a dark red flash on the right side, which caused Ye Xuan's attention.

The red lotus fires in the entire parallel void are all bright red, and each form of the fire has a singularity, which is the appearance of a red lotus. but

The dark red that just flashed past, not only the dark color, giving people a feeling of restrained and thick, its shape is not the red lotus of the size, but a flame that only touches the size of the belly...

There must be a demon in the abnormal situation. This is only the flame of the size of the belly. It is very likely that the red lotus flame that you are looking for...

One thought of this, Ye Xuan did not hesitate, and the body shape immediately chased down, and soon saw the shadow of this dark red flame, it is very smart, just like life, is in the endless fire of the ocean Walk through the water, like a fish into the water.

Seeing this scene, Ye Xuan suddenly realized that it was no wonder that it could not be found before. It turned out that this red lotus flame had been swimming, running by itself, and it ran, always turning in parallel voids, as if hiding from cats and cats. . This

Some thoughts flashed from the brain, Ye Xuanton was annoyed, and then hesitated, and immediately ignited the field power of Shennong Ding, locking the air of this dark red flame.

"Hey..."

The ray of light from the fascinating smog of the road swept out from the tripod of Baoding. It was like a smelt, and it was spurred in an instant, and the red lotus flame that was about to escape was wrapped in it, followed by a Under the slightest pull, the blink of an eye will not enter the Dingkou of Shennong Ding...

Got it!

Ye Xuan

In a blink of an eye, his figure disappeared, and only Shennong Baoding, which was reduced to the height of Zhang Xu, was still suspended in the fire of the parallel virtual air, and did not move...

.....tripod

Inside space!

The weak and unspeakable sound of the air broke out, and a man fell from the sky and entered the interior of the volcano in the central area of the Dingnai space. It was Huang Xuan.

Soon, he came to the bottom of the volcano of the central domain, and at a glance he saw the red lotus flame that only touched the size of the belly. this

At this moment, the red lotus flame is in the middle of the nine-color flame pool. nine

The color flame pool has a majestic endless Shennong nine-color flame, and this blushing lotus flame only refers to the slightest size of the belly. Now it is suppressed by the nine-color flame pool, and there is nowhere to escape.

Seeing this scene, Ye Xuan was relieved, because on this point alone, he has been able to determine that the red lotus flame must be refining itself. With the help of the field of the nine-color flame pool, it should be very easy. Can do it. thing

Without hesitation, he did not hesitate. When he sat down in the air in the air of the nine-color flame pool, the gods were immersed in the flame pool, and when they closed, they immediately began to refine their power...

Ye Xuan, who has slowly passed away, has forgotten the existence of time. His whole mind has been hampered by this matter, and he carefully refines the red lotus flame in the nine-color flame pool. .

This flame is extraordinary, it seems that it only refers to the faint glimpse of the size of the belly, but the power is extremely powerful, even if it is the strength of Ye Xuan's cultivation, it will be assisted by the field field power of the nine-color flame pool. It's completely refining and it took two full days...Red

The lotus flamemother is obviously extraordinary. It seems that it only refers to the faint glimpse of the size of the belly, but the power is extremely powerful. Even with the strength of Ye Xuan's cultivation, with the support of the field of the nine-color flame pool, Thoroughly refining it is not a one-off thing. he

The mind was immersed in it, and the existence of time has long been forgotten. The whole mind has been hampered by this matter, carefully and resolutely refining the red lotus flame in the nine-color flame pool. foot

After two days, everything was finally finished...

"Call..."

At the moment, the nine-color flame pool suddenly burst into a huge wave. All the huge waves were formed by the Shennong nine-color flame in the flame pool. They roared and gathered into a nine-color river, rushing toward the crater of the central volcano. go with.

The speed is too fast, and the nine-color river that has been hung in the blink of an eye has already rushed out from the crater. It has not stopped, and it has rushed to the height of the space inside the Ding, from the snorting of the colorful smog, to the outside. Parallel void...

This is the surface of the river that hangs on the front end of the nine-color river. It is only visible that the dark red flames of the size of the belly are clearly visible. It is the red lotus flame.

Nowadays, this 缕 flame has been refining by Ye Xuan, which clearly reveals the scent of Ye Xuan. No

Wrong, although Ye Xuan's figure is still sitting cross-legged on the edge of the flame pool at the bottom of the volcano in the central domain, in fact, his power of knowledge has entered this dark red red lotus flame, just like a monarch. Standing proudly on the top of the nine-color river, I rushed out of the Baoding Dingkou...

In the past two days, the fire in the parallel virtual air has been roaring, but now, with the nine-color river rushing out from the Dingkou, it is precisely the red lotus that stands proudly at the front end of the nine-color river. The flame mother suddenly appeared...

The sea of fire that was originally roaring and raging was calm and calm.

This is the result of Ye Xuan's mind control. He has refining the red lotus mother flame, and the power of the gods is transmitted through the red lotus mother flame, and the whole piece of the industry is burning the ocean. This is what it should be...

"call out!"

"Call..." short

After the temporary silence, the whole piece of the endless fire of the fire immediately roared again.

But this time it was not violently turbulent, but instead of rushing to the beautiful red river, it rushed to the face of the nine-color river that just rushed out from Baoding Dingkou. This

There are countless red lotuses on the red river. Every one of them makes the size of the talents, but the number is too large to count and gather into the river. This

At the moment, Ye Xuan was moved, and the nine-color river was shrinking toward Dingkou. It was originally intended to be cited. Now all the red lotus fires in the parallel void have gathered together into the river, and it is natural to return to the call...

"call!"

"Calling..."

Ding inside the space, the sky suddenly came from the sky and the sound of the sound of the screaming, and looked forward to it. The two endless flames were falling from the sky. Just like the galaxy falling for nine days, the blink of an eye has fallen one after the other. Entered the nine-color flame pool at the bottom of the central volcano. One

After the completion of the cut, Ye Xuan opened his eyes and saw everything in his sight. He immediately made him happy, and his face showed a smile...

In the nine-color flame pool, the nine-color flame sea still occupies the 90% of the flame pool, while the other one is a red ocean. Every wave in the ocean is made up of a flower. The size of the red lotus is composed.

In the center of this area, you can see a dark red flame that only refers to the size of the belly. It is the red lotus flame, which has now been refining by Ye Xuan, and he has a mysterious connection with flesh and blood...

Everything was finally completed. The red lotus flame, including all the remaining red lotus fires in the parallel void, was all refining by Ye Xuan.

According to his estimation, this endless red lotus fire is completely integrated into the nine-color flame sea. Such as

Therefore, Shennong nine-color flame will once again usher in an amazing transformation, from the current nine-color flame, to the ten-color flame, the horror of power, it is hard to imagine.

However, Ye Xuan did not intend to proceed now, because the red lotus industry is extraordinary, and it will take a long time to integrate it with other worlds.

What's more, after the fusion of Shennong's flames, it has now evolved to the extent of the nine-color flame. The subsequent transformation will be more difficult. Time is only one aspect. More importantly, all the minds need to be immersed in it. Pay close attention to everything, otherwise the consequences will be unimaginable in the event of an accident...

Therefore, weighed again and again, for the sake of sound consideration, Ye Xuan finally decided to go back and take the time to merge, and now put it aside for the time being! brain

In the middle of these thoughts, when he put the matter behind his head, he grew up and swayed, and immediately rushed out of the bottom of the volcano to a hillside on the edge of the volcano on the central volcano...

"Da, what was it... Honglian industry fire?"

Just rushed out from the volcano in the central domain, I saw the shofar on the head. This old guy looked like a stunned color at this time. Even the name of Ye Xuan was changed from the previous Taoist to the current scorpion. This

On the one hand, his mind changed, he has decided to follow Ye Xuan's mixed reasons. On the other hand, it is because he has suddenly seen that the majestic Dajiang River formed by the hanging of a red lotus industry has been included in Shennong Ding. Shocked, completely convinced by Ye Xuan...

Ye Xuan did not hide anything, immediately nodded and said a few words.

After the old guy got the certain result, the face was more intense. When Ye Xuan turned and rushed toward the sky, he retired to a distant mountain in the first place, far away from the central volcano. open

Jokes, the red lotus industry fire is not a joke, once it is touched, it will instantly lead to the deterioration of the accumulation of life, turned into an invisible fire, burning in the soul, he can not resist the ability .

Looking at this posture, the old guy is afraid that he will not dare to come close to the central volcano that has a big fire in the future..."

Oh..." broken

The sound of the air rang, and Ye Xuan's figure rushed out from the treasured Dingkou, which was carrying a colorful mist. When he waved his hand, he immediately took Shennong Ding into the body.

Looking around, this parallel void is empty, and there is nothing left. All the red lotus fires have been collected into the space of the tripod of Baoding. Naturally, there is no need to sacrifice Baoding again. Protected the whole body.

In fact, even if the fire is still in the ocean, Ye Xuan does not need to be like this anymore. The red lotus flame has been thoroughly refining him. The red lotus industry has no effect on him. Now Ye Xuan is even in the presence of In the fire of the ocean, it is equally harmless, even as a fish..."

Calculating the time, entering this parallel void, has been more than ten days before and after, although the fire of the ocean has disappeared, but there is a secret madness in the parallel emptiness that affects the invisible..."

In the whispering whisper, Ye Xuan's They have been tossing ghosts for more than ten days..."

As soon as the sound fell, his body swept and instantly rushed out of this parallel void...

Since Ye Xuan entered this parallel void, it has been more than ten days before and after!

At the moment, although the fire of the industry has disappeared, there is still a secretive amount of violent violence in the parallel emptiness that affects invisibly...

Obviously, the old guys of Hong Tao have not stopped, even now, they are still swaying outside.

"Hey..." brain

In the flashing of these thoughts, Ye Xuan's heart was instantly murderous, and his mind was turned into a masculine rush. He immediately rushed out of this parallel void and went to the floodplain outside the passage. Star within the star's star...star

Everything in the nuclear is still the same, and it is no different from more than ten days ago, but Ye Xuan's body shape appears, and his complexion immediately sinks down. He is the ninth-order grand perfection, the gods are keen, the gods It is even stronger to terror.

In just one moment, he felt the invisible suppression power of the void, although the void did not cause chaos caused by the combination of more than a dozen heavenly powers, but in fact, this invisible suppression power exceeded That level of void chaos...

That is to say, although Ye Xuan is now returning from the parallel void, he is now in the star of the Hongyan Dongfu Star, but he can't leave, let alone teleport, even the system attached to the body. The interplanetary coordinate jump ability cannot be activated.

Moreover, although he has not yet tried it, Ye Xuan can basically guess that even if he rushed out of the star nucleus of the Hongyan Dongfu Star, he would have to be trapped in the void outside, which is invisible. The force is too strong, it is very likely that a large number of heavenly powers join forces, and also with the help of some kind of mysterious big field field power...

In this way, he immediately spread the power of the gods, and his face quickly showed a faint color.

Around the Hongxing Dongfu Star where he is now, the other hundreds of stars in the Star Circle have all been shifted, forming a formation of a hollow furnace invisibly, and all of them are in more than 20 stars. The breath of the strong people of heaven is coming out. on

Even in the rest of the stars, there are also flag arrangements. This

Helping the old guys is really a big deal. He has dispatched more than 20 heavenly and powerful people, using nearly a hundred stars to form a powerful array of powerful furnaces, capturing the vast amount of heaven and earth aura, forming a void suppression...

At this moment, Ye Xuan's murderous murder was extremely cold, and I couldn't wait to immediately kill all the old guys.

In fact, he can't do this at all. At least, it is absolutely impossible to get rid of this void. Head

The predecessor's predecessor is to rush out from here first, and beyond this big emptiness, everything is not a problem... no

However, the pressure of this large furnace is too strong, and there is even a second change in power. This is clearly the power of killing. At the moment, Ye Xuan is better in the star of the Dongfu Star. Once you rush out from here, the pressure will be even heavier.

Even if he is repaired by his ninth-order grand perfection, he will soon be forced to rush out. After all, his body shape is not yet available. The suppression and killing power of the whole furnace is in the hundreds of stars. The formation of the large flood furnace within the scope of balanced spread. but

Once his figure appeared, the more than 20 Tiandao remnants in the eyes of the main array must be motivated to mobilize the power of the field in the first time, lock Ye Xuan's air machine, and carry out tracking and suppression.

In that case, he must be exhausted, self-protection is still too late, where is there any effort to break through the pressure of the big furnace, and rush out of this void covered by the large field?

"Perhaps, in the face of this dilemma, Honglian will be a good choice..."

After Fan Shen's death, Ye Xuan's brain flashed a flash of light, and he immediately took out the fine man... He

I thought of the red lotus that had just completed the ninth melt. Such as

Compared with the previous ones, the power of the red lotus is no longer the same as before. This point, just by adding the word Honglian in front of its name, you can imagine its power. speed

There is no need to say more about the degree. After all, its grades have been upgraded from the previous starry sky to the treasure level. except

Other powers are worth looking forward to. If there are no accidents, once they are sacrificed and penetrated the void, they can also launch a red lotus fire to form an attack. and

Moreover, due to the particularity of the Honglian industry fire, today's Honglian breaks the virtual shuttle, and it is better to penetrate the void and break through the barrier. leaf

Xuan even thought about it before, if it can sacrifice the red lotus and break the virtual shuttle directly through the layer of the invisible barrier formed by the force of Hongmeng's void law.

Of course, this kind of thinking is almost unrealistic. Whether it can directly break through the invisible barriers of the weaker source of the nest is still unknown. but

According to Ye Xuan's inference, the sacrifice of the red lotus to break the virtual shuttle, just to rush out of this virtual air furnace, the suppression should still be no problem. more

To be perfect, today's Broken Shuttle has been integrated into the elements of the Red Lotus Fire after this smelt.

If Ye Xuan enters the broken virtual shuttle, urging it to rush out of the virtual air furnace, then a large piece of red lotus fire will be used as a cover on the surface of the hull, fearing that everything will be unconscious, sitting in the large array of the main array. Most of the more than 20 Tiandao survivors in the eyes will think that this is a red lotus fire that has rushed out of Hongyudong.

It's impossible to rush to avoid it. It's absolutely impossible to guide the field power of this huge furnace, and to intercept and attack the broken shuttle.

If this is the case, Ye Xuan can easily rush out of this empty furnace!

When he thought of it, he wouldn't hesitate, and when he was in the middle of a flash, he suddenly waved his hand..."

Oh..." with

The faint sound of the vacant sound, a black and red secluded quietly flashed, ushered in the storm, and instantly turned into a small private warship with a hundred feet.

Today's broken virtual goods order has reached the age of the ancients to the treasure, not only the interior space is huge, like a star, even its hull has long been the size of the heart.

In the singer's mind, there is a awning in the hull of the size of the ship. There is a awning in the red lotus industry. Every one of them is only a small size. It is a red lotus form. It looks fascinating, but it is invisible. A heart-wrenching horror.

There are thousands of such red lotus feet, and the entire hull will be shrouded in the air. If you look at it, it will be a big red lotus fire. You can't see the shadow of the broken shuttle, even the breath. They are all perfectly covered...

Soon, the smashing of the giants of Baizhang was reduced in a moment, only about a few feet. Then, Ye Xuan swayed and entered the interior of the hull directly, urging his domain power to turn into a man. Leaving away from the star nucleus. he

To make a bang, rush out of this empty air furnace...

Chapter 5134: The rhythm of the mobile treasure house

With Ye Xuan's dying, breaking the imaginary ship's size, there is a awning red lotus industry that rushes out, there are thousands of flowers, and the whole ship's body will be shrouded...

When I was cold, I saw that it was a big red lotus fire. I couldn't see the shadow of the broken shuttle, and even the breath was perfectly covered.

After completing all this, he narrowed the smashing of the giants of Baizhang to only a few feet, and then walked into the interior of the hull, fully urging his domain power, turning into a mile to the star. Shoot and go...

"call..." speed

The degree is too fast, accompanied by the sound of the flames and whistling, the smashed smashed eyes of thousands of red lotus industry rushes out of the Hongyan Dongfu stars, no half-stop, straight to the virtual air furnace Go outside and scream away...

At this moment, the Taoist geeks of more than 20 Hongyu stars, such as Hong Tao and Hong Jiang, still sit in the stars of the more than 20 stars as the main array, and they are fully urging the field power of the Qiankun Hong furnace. Completely suppress the Dongfu Star in the center of the Hong furnace...

At the beginning of the big battle, Hong Tao has already pushed the field power of the Qiankun Hong furnace to enter the parallel void, and saw Ye Xuan, who has supported the light curtain to protect the whole body.

His power of ignorance immediately withdrew, because according to his derivation, Ye Xuan, the master of the temple, should be able to support for about half a month, so they are not in a hurry to collect the war, according to the time, still have to Wait a few days...

But whether it is Hong Tao or Hong Jiang, or other Tiandao survivors, all of them have never thought of it. At this time, a red lotus fire of about ten feet is rushing from the inside of the Hongyan Dongfu Star. Come out, blink into the edge of the direction of Qiankun Hong furnace... This

There is a main eye in the direction of the stars, and the Tiandao remnant in the star of the main array of stars is just Hongjiang...

"Damn, what happened in the end? How can there be a red lotus fire?"

Not to see the Hongpeng fire of the awning Pangda ten feet rushed out from the Hongyan Dongfu star, Hongjiang face changed greatly, and the body shape rushed out from the eyes of the star in the stars, to the stars. In the void, the voice is amazed... this

The awning red lotus fire is coming to the main star of the town where he is sitting, so he has to dodge. Otherwise, once it is contaminated, it will be ignited into life sin and become an invisible fire. Burning the soul in the midst of it, it can't be extinguished at all. Even if he is the peak of the nine-step perfection, it is very likely to fall on the spot...

Hong

Jiang Gang rushed out from the main line of the stars, and Ye Xuan immediately saw the clue. flood

Jiang Nai is the pro-big brother of Hong Fei. The two brothers are similar in appearance, and Ye Xuan can naturally recognize it.

At this moment, he realized everything in an instant. The seven-order heavenly road that was originally killed in the endless dark void in front of the right bank of the left bank was actually from the main floodplain, and it seems that there is also the peak of the floodplain. blood relation.....

In this way, everything that happened before can be explained. The old guys had been premeditated. They deliberately did so. They could not be counted for a while, but they could understand. "

Call..." brain

In the flashing of these thoughts, Ye Xuan immediately murdered the machine, and other Tiandao survivors in the Hongyu area were also down, this guy must not let go, because the hatred between each other has no way to resolve...

He immediately spurred the smashing of the virtual shuttle, suddenly flashed, rushing toward Hongjiang, the left inside of the void.

"Damn, what's going on..."

Hong Jiang just rushed out from the star of the main array, this is to avoid the red lotus fire that is going against the stars. Of course

At this moment, the red lotus industry fire that originally rushed to the stars suddenly fine-tuned the direction, and he was rushing at him, so that he couldn't help but change his color..."

Call..." No

When Hong Jiang came to have any reaction, Ye Xuan had already spurred the attacking field of the broken shuttle. In an instant, the red lotus industry overwhelmed the broken shuttle hull, whizzing away and turning into a piece. The red flame sea will surround the Hongjiang River in a blink of an eye.

The old guy was originally trying to retire. Now the rear of the figure is blocked by the red lotus industry fire. He scared his body and trembled. He immediately stopped in the void, his face was white, and his soul was shocked...

At the moment, Ye Xuan also stepped out of the virtual shuttle, and activated the magical spirit of the perfect shock. Not only the body shape was hidden, but the air machine was completely condensed. Even the Hongjiang, the heavenly ninth-order grand perfection, could not be sensed. Minutes. go

At the moment of breaking the virtual shuttle, Ye Xuan was already a violent form, and the \*\*\*\* stick also took it out, but all of them were completely unknown...

"Roar....."

Card! "

After quietly touching Hongjiang, Ye Xuan's mid-cold flashes, violently screaming and screaming, the \*\*\*\* stick is like a giant pillar suddenly slamming out, directly smashing toward Hongjiang's head.

At the same time, it has also spurred the spiritual source of the mind in the brain. For a moment, the spirit of thunder and lightning was activated, and Hongjiang's head exploded to explode a thunder. shock

In the midst of the crispness of the day, a blood-colored lightning with a diameter of 10,000 miles came out, and it fell from the top of the head. In a moment, Hongjiang was smashed with a slap in the face, and before he came back, the \*\*\*\* stick was already a big hit..."

boom! "

"Hey!" Giant

It was shocking, and the big black-and-white porcelain was incomparably bombarded on Hongjiang's head. The old guy simply had no time to react. The whole figure exploded in an instant, turning into a red \*\*\*\* fog and spreading rapidly...

"Call..."

The sound of the wind whistling in an instant, Ye Xuan waved in the first time, a huge invisible instinct screamed away, swept the blood of the canopy, but did not enter the central domain of Dingnai space. At the bottom of the volcano, because the survivors are not as strong as the beasts, even the heavenly remnants are not able to refine them into heavenly blood. but

The same can not be wasted, can be turned back to the high-level devouring of the beast army of the Devil's Temple, there will be no small benefits.....

"call out....."

As Hong Kong's flesh exploded, there was also a faint sound of broken air. A volley came from a mile, and Ye Xuan received it in his hand. It was a Qiankun bag, and the grade was quite extraordinary. It was Hongjiang's old monster. The magic weapon of storage. This

It is the result of Ye Xuan's deliberate detention. After all, the benefactors are different from the beasts. The beasts are rarely used, even if there are some treasures of the life, but the beneficiaries must refine their medicines and various treasures, so they will definitely. There are storage magic weapons, or Qiankun bags and the like.

Ye Xuan's knowledge quickly spread into it, and the face suddenly showed a happy color. It's true that it's the ninth-order grand perfection. This old guy is just a mobile treasure house. Not only a variety of treasures, but also a few kinds of heavenly sources of liquid, for Ye Xuan, this is simply an unexpected surprise...

The beast has very few usage treasures, even if there are some treasures of this life, but the beneficiaries must refine their medicines, as well as various treasures, so there must be a magic weapon for storage, or a Qiankun bag...

Because of this, Ye Xuan killed Hong Jiang at the same time as a hand, and deliberately took away his Qiankun bag.

After the gods entered it, only a sweep of it, his face instantly showed a happy color. This

The old guy really is worthy of the ninth-order grand perfection, which is simply a mobile treasure house. Not only are there various treasures in the Qiankun bag, but there are also several kinds of heavenly sources.

In Ye Xuan's case, this is simply an unexpected surprise. Originally, I just wanted to kill the old guys. I didn't expect to harvest so many cultivation resources. They are top-level things, especially those kinds of heavenly origins. The liquid, so that Ye Xuan is completely unexpected... no

If you think about it, you can understand that the floodplain is half-baked and the high-level mantra in the star field must be thinking about the opportunity to refine the treasure of the Tianji Avenue in the future, so they collect some Tianyuan source treasures in their hands. This is what it should be. brain

After flashing these thoughts, Ye Xuan's heart moved and turned to look at the other stars around him. There are more than 20 Tiandao survivors present. There must be some liquids in the hands of the heavens. If this is an opportunity, It's a shame to miss it. more

What's more, the other half of the manuscripts left by Hong Wei must also be handed, plus the old guys who had previously premeditated against him. Now they are punished and they are killed. This is what they should be...

At this time, the corner of the corner where he was still was shrouded in the majestic sea of fire that was smashed in the shackles. The outside people simply did not know what happened, and the gods did not dare to extend it, fearing to touch the industry. Fire, the upper body. This

It's a good opportunity to re-launch sneak attacks...

One thought of this, Ye Xuan no longer hesitate, still with the perfect shock of the spiritual strength of the secret law to hide the body shape, the air machine is full, but left this hanging fire, no matter the sea, the broken shuttle also stayed in it, the body shape I rushed to the other star of the nearby star.

Soon, he went to the star land table, sitting here is a third-order heaven, Ye Xuan went to him and directly knocked it down with a stick...

"boom!"

"Hey..."

The screaming of the sky, the figure of the third-order remnant suddenly exploded, turned into a \*\*\*\* fog, and was swayed by Ye Xuan. At the same time, his storage magic weapon also rushed and fell into the hands of Ye Xuan.

There are also a lot of top-level cultivation resources, but it is not comparable to the previous Hongjiang, and there is only one kind of liquid in Tiandao.

After waved and put away this storage magic weapon, Ye Xuan did not hesitate, and immediately screamed and screamed...

"Roar....."

"Oh la la..."

At the same time that the strike was completed, his body shape was also exposed, and it was revealed in the void, so there is no need to conceal it. Yang

Under the scream of the first scream, there was a slap in the air, and the shape of Ye Xuan collapsed and turned into a \*\*\*\* sea. It shrouded a corner of the universe and revealed the meaning of endless blood... .."

Roar! "

"Roar!"

"Hey..."

Then, in the three different directions of this vast sea of blood, there was a sudden scream of screams and screams. In the boundless blood of the sea, three huge figures were visible in an instant. Landing. three

The big \*\*\*\* sea appears in the body, and the repairing atmosphere that is scattered in the body is all the nine-step great perfection of heaven and earth...this

The scene happened too suddenly. No one expected that the main body of the temple, Ye Xuan, would appear here. He was clearly trapped in the parallel void in the depths of the Hongxing Dongfu's stars. In an instant, the surrounding voids are all dead.

Including Hong Tao, the other 20 Tiandao remnants were all stupid, and looked at Ye Xuan with a slight open mouth. The brain was banging and did not understand what happened...

And Ye Xuan, but did not stop, as the body shape showed up, the three \*\*\*\* seas were all raised their heads and screamed, and the ultimate form of the konjac and the \*\*\*\* magical konjac was also at this time. He activates...

In an instant, all the bodies of the three great devils have their own strengths, like a snarling of the Nujiang River, and all the limbs are screaming with endless fierceness, quickly moving closer together, back fusion, blinking three heads and six arms...

"call out!"

"call out....."

At the same moment, the violent hands turned over, accompanied by a faint sound of broken air, and a masculine rushing out, the \*\*\*\* stick of God's pesticides was dragged by his right hand, invisibly screaming the fierceness of the sky. breath.

Black

The mist splitting body also spurred a mile from the eyebrows, and turned into a vast nine-color flame sea after the storm.

This nine-color flame sea instantly condenses and turns into a huge nine-color ribbon. Several cymbals circling, the blink of an eye has been entangled in the body of the black mist, and the two ends of the ribbon are found in the chest, like a poisonous snake. letter.....

"Brush!" to

In the cheekbones, this time there is still no sacrifice for the bow, but when the right hand is turned down, the palm of the hand will have a blood black magic blade. The whole body is covered with countless blood lines, and the shape is incomparably Magic blood blade.

With the blood blade offering, the blade spirit in the magic blade instantly gave a shocking madness, and the violent and violent meaning invisible in the invisible, it was so shocking to the ear, on the spot, let Hong Tao in the distant sky and so on more than 20 The Tiandao remnants are all shocked. surface

Under the madness of the color, I finally came back to God. I suddenly took a sigh of relief and shouted with a blank look..."

God, the Lord of the Temple, Ye Xuan..."

"Damn, what happened in the end, isn't he being trapped in the parallel void? How can he suddenly come to the outside world? And quietly..."

"Oh! It's over, this is really over. Just now, the red flaming fire of the awning must be related to him. The two elders, Hong Jiang, were also trapped in the fire of the sea. The life and death are unknown, and it's hard to be honest..."

call....."

Without waiting for the exclamation of the whistle from the air, the three-headed and six-armed Ye Xuan had already waved in the middle of the cold. Are

In the meantime, with the sound of the flames and the sound of the call, the ocean of fire in the void is not shrinking, but all of them are retracted into the broken shuttle.

Then there was a sharp and unbroken sound, still only nine feet in size, and the surface of the hull was still covered with more than a thousand red lotus fires, and instantly turned into a red awning. To, at the foot of Ye Xuan. this

Although Ye Xuan was a three-headed and six-armed man, he narrowed his body shape, only to make a high-profile, and the smashing of the nine-footer to his feet was like a flying sword. It looked imposing and pretentious. On the spot, Hong Tao and others will all be stunned... short

After the temporary silence, a terrifying scream blew up in the void...

"Heavenly, he actually refines the red lotus industry fire! Escape..."

As a red mans flashed, the broken virtual shuttle around Jiuzhang was easy to lasing to the foot of Ye Xuan. It was like a flying sword in general. It looked imposing and deterrent...

The scene was too unexpected. On the spot, Hong Tao and others were all stunned. After a short silence, a terrified scream blew in the void: "He killed, he really refines the red lotus fire!" Oh..."

When the whistling sounds, all the Tiandao survivors who are once again in a state of sluggishness are awakened, and then the ground color suddenly changes again, and under the cool air, the exclamation of endless sorrow is heard, and once again, it is once again Roaring..."

It's over, this time it's really over, all the previous calculations have been lost, and the consequences are even more unimaginable..."

hiss! It's too ferocious. When you show up, you will kill a god-powerful person with a stick. This guy is already irritated. This time it's really a disaster..."

"Oh my God, the elder of Hongjiang? The awning fire of the ocean is extremely stunned and rushed to the foot of the Lord of the Devil, but the figure of Elder Hong Jiang is not visible, is it..."

"Damn, let's be fooled. When the awning red lotus fire rushed out of the Hongyan Dongfu Star, the Lord of the Temple must be hiding in it. The elder of Hong Jiang was accidentally killed and killed by him. ..."

Too cruel, and in a short period of time, they have already killed two heavenly powerhouses. The losses are too heavy and unbearable..."

"The friends of the Tao, immediately withdraw and retreat, temporarily avoiding the edge, the furnace has broken, this violent will soon be arrogant, I can not force the enemy ..."

"Hey..."

"Hey..."

With these screams, including Hong Tao, more than 20 Tiandao remnants all rushed out of the main star of the town, and the Qiankun Hong furnace burst into an invisible crash. These more than 20 Tiandao remnants are like dogs. Turn around and flee around..."

I want to go now? Isn't it too late? "

In the face of all this, Ye Xuan immediately sneered, the voice of the gods came out, and the moment between the thoughts spurred the red lotus under the feet to break the virtual shuttle..."

call....."

The sound of the flame wave rang, his body shape is on the surface of a broken red lotus with a lot of red lotus fire. It is like a demon god. It is too fast, and Ye Xuan is fully galloping. I can't reach it. In the blink of an eye, I've reached a person behind the Tiandao remnant who turned and fled..."

Roar....."

"Card!"

There is no hesitation in half, and the violent squatting of the chilly mang, flashing his head and screaming at the same time, the \*\*\*\* stick is like a giant pillar of the sky, suddenly slamming out, heading toward the head of the heavenly remnant... black

The fog is more in line with the general, directly stimulating the spiritual source of the brain in the brain, the spirit of lightning is activated, the old guy's head will explode a thunder, a \*\*\*\* lightning flash of diameter, from Falling overhead...

All of this happened too quickly, and it was completely unpredictable. No one expected that the speed of Ye Xuan was so horrible that even the strongest people were caught off guard. blood

The lightning flashed down, and the Tiandao relics were smashed in a moment, and they didn't wait for the return of the gods.

"boom!"

There was no suspense in the sky, and the big black-and-white porcelain was incomparably slammed on his head. The whole figure of the old guy exploded in an instant, turning into a red \*\*\*\* fog, spreading rapidly, and being swept by Ye Xuan. Come, income in the body...the same

In the same way, the treasure of the survivor's strongman has not been destroyed, and Ye Xuan has deliberately stopped to take it down. Now it has become a masculine sensation. After arriving in the hands, Ye Xuan has not gone through the investigation. Because it is completely unnecessary, it directly incomes into the immortal world...

All of this is long-lived, but in fact, from Ye Xuan's rushing out of the Hongyan Dongxing Star, to the murder of the third Tianyu remnant of the Hongyu Star Field, there are only a few times before and after. Ren

Any one who is strong in heaven and earth has gone through the cultivation of endless years to reach the height of today, and how many hardships he experienced during the period cannot be counted.

But now, just a dozen times of interest, such a supreme existence has fallen three, everything is like a dream, but in the eyes of Hong Tao and other Hongdao stars, the shock and horror, but It's impossible to describe and describe words in words...this

It is a great horror, a careless, endless years of hard work, all the hardships that have been experienced, will be lost in a flash.

These thoughts flashed through the brain, and all the old guys were trembled in their hearts. The fear of their hearts was invisibly rendered to the extreme at this moment. The unprecedented sense of life and death crisis made them all shocked, but they were not shivering... ..No

There is hesitation, and it will not stay. The remaining 21 Tianyi remnants of the Hongyan star field will push the power of the body to the extreme, and bite their teeth and flee toward the surrounding air. although

However, this kind of dog-like attitude is really blushing, but there is nothing to be embarrassed. Even the great elders of the ninth-order grand perfection, Hong Tao, are rushing to the ground. What good care do they have?

"If you still have to escape, the temple will chase one by one and will kill you all!"

In the middle of the cold, the words of Ye Xuan just fell, and in an instant they spurred the broken shuttle under their feet...

"Call..."

The sound of the whistle of the whistle sounded again. His body was covered with a smashing surface covered with a large number of red lotus fires. The speed was almost astonishing.

Less than half-interest, as if the demon \*\*\*\* came to the world, he rushed away, and soon he was close to the back of a Tiandao survivor, only a million miles away..."

Roar! ”

"Booming..."

At one moment, the violent screaming and screaming, originally narrowed down the body shape, only the konjac that had been succumbed to the heights of the real body soared instantly, directly into the horror figure of thousands of miles, and the sacred body between the heavens and the dead. Millions of miles disappeared instantly...

The roar of the earth is ringing, and with the skyrocketing body shape, there is also a flash of glare in the violent shackles. As his body shape grows together, it is now like a \*\*\*\* head like a giant pillar. High rises, falls directly..."

boom! ”

The figure of the Tiandao remnant is just like the stars against the dust at the moment. It's too inconspicuous. The stick goes down, the sound of the explosion is coming, and the shape of his fast-moving body is instantly turned into a canopy. The blood is bursting.

Immediately afterwards, he was waved by Ye Xuan, together with the magic weapon of his body that fell out of his body when he exploded. He directly came into the immortal world.

Just dying, blinking and killing one, the speed of breaking the virtual shuttle is too fast, it is horrifying, desperate...

In this way, even if there are still 20 Tiandao survivors in the vain air, they will be chased, and they will be killed one by one. brain

In the flashing of these thoughts, Hong Tao's face was violently shot in the distance from the far side of the sky. Finally, the teeth were bitten, and the voice of God's voice came out, revealing the meaning of pleading: "Ye Daoyou Mo will take another shot. , old man, etc.... circumcision and sin!"

The speed of the virtual shuttle is too fast, and even the strongest of the heavens can't match it. Now that it has just passed, there is another Tiandao survivor killed in the blink of an eye...

In this way, even if there are still 20 Tiandao survivors in the vain air, they will be chased, and they will be killed one by one.

As soon as I read this, Hong Tao's face on the right side of the sky was a bit of a struggle. Finally, the teeth were bitten, and the voice of the gods was instantly transmitted, revealing the meaning of a thick and inseparable desire: "Ye Daoyou Do not shoot again, the old man, etc.... will circumcision and sin!"

As the voice of the gods came out, Hong Tao's body shape, which was originally abruptly gone, also came to an abrupt end in the void, with a frightening color on his face, turned and looked at Ye Xuan...  
Hong

Tao is the principal of the Hongyu Star. Since he has spoken out, other Tiandao survivors naturally know how to do it. Although hesitated, they did not have much entanglement. They all stopped. Shape, in the distance of the void, with amazement, looking towards Ye Xuan...

Including Hong Tao, there are still a total of 20 Tiandao survivors, and the strengths range from the first to the ninth. From now on, they are all in the void. Although they are in different directions, the look on the face is all transparent. Amazed and embarrassed. on

Just now, although they lost four Tiandao survivors, this time they originally sent them to Ye Xuan. Although this matter also has a reason, it is the cause and effect of Hongjiang and has nothing to do with them. Such as

Today, Hongjiang has fallen, and then Hongfei was first talked about by Ye Xuan, and it was even more pale. more

What's more, now Ye Xuan has conquered and refining the Honglian industry fire, which means that he got the remnant of the half-part of the Tianjiu Avenue treasure that the floods stayed in the parallel void, that is, Ye Xuan has Have the ability to refine Tianjibao liquid...

For Tianjiubao, they are naturally very eager, and before the flood was left, it was indeed arranged. The purpose was to take care of the Tiandao remnants in the floodplain...

In this case, they naturally do not want to succumb to Ye Xuan. They have previously obtained sin. Now they only want to turn it into a jade. Otherwise, the painstaking efforts of taking care of them before Hong Lu's departure will be lost. They are basically no longer There may be a chance to get the treasure of Tianjiu Avenue...

The reason why Hong Tao suddenly pleaded for mercy, and he generally said that he was willing to circumcision and plead guilty. In fact, it is not entirely because of fear of Ye Xuan. This is only one of them. most

The main thing, I still want to take advantage of this opportunity to push the boat and rebuild old with Ye Xuan...

At this point, the other 19 Tiandao survivors are also well aware that although they are very afraid of Ye Xuan, they are more eager to get the treasure of Tianjiu Avenue, so they will all stop their teeth after hearing the words of Hong Tao. The figure, with a hope in the shackles, came to Ye Xuan...

"What? Finally I want to understand?"

For the fact that they had half of the floods in their hands, Ye Xuan knew it well, and at the same time roughly guessed the calculations of the old guys at this time.

Therefore, Ye Xuan did not worry at all, until they all stopped their bodies, and after looking around, they will shrink their body shape in the first time, even the broken virtual shuttles covered by thousands of fire red lotuses at their feet. Waving the income into the body.

However, it still maintains the state of the three-armed and six-armed konjac. Only the masters of the three geniuses are savage, and all the eccentrics who are surrounded by hundreds of billions of miles are surrounded. ring.

This is the face of a face, said: "In the past, the temple has roughly guessed the reason, although it may not be from your wish, but your participation in the temple is a fact, can not be wiped out..."

Although the tone is tough, at least Ye Xuan stopped the previous pursuit, which is what some talk about...

These thoughts flashed through the brain, and the 20 heavenly geeks of the Hongyan star field exchanged a look through the distant void, and their hearts were slightly loose, and they swept their bodies, reaching nearly 10 billion miles. With

After that, the main character of the star field, Hong Hao, twitched the dough and squeezed a sly smile. He rushed to Ye Xuan and clenched his fists. "Ye Daoyou must have come to realize it. Yes, Hong Fei, who was killed by you, is I am a native of the Tiandao people in Hongxing, and I am the younger brother of Hongjiang, the second elder..."

"The previous incident on Ye Daoyou was not a misunderstanding, but I was also helpless. After all, Hong Jiang is the second elder of my Hong Yuxing domain. It is the same strength as the old man. It is also the peak of the 9th-order grand perfection, so..."

Ugh....."

Speaking of this, Hong Tao's words were slightly sighed, and he sighed and shook his head and smiled: "Forget it, now Hongjiang has fallen. It's a self-sufficiency. Don't mention it again. The old man has already said that he would like to give Ye Daoyou a confession. Circumcision and sin, I hope that Ye Daoyou can forgive the adults, how can I reveal everything?"

"It's not impossible to reveal everything, but you have to look at your sincerity..."

Ye Xuanyuan's fine mans flashed, and then he continued to say: "Today's business, all of you 20 people are involved, so if you want to reveal everything, everyone must show something, one must not be less, Who wants to rely on the account, the temple is staring at who will not let go..."

"Just in the past, this temple has killed four heavenly lords. There are both the nine-order grand perfection of the heavens and the peaks, and there are also the existence of this period in the middle and late stages. Therefore, there are some treasures and resources in your hands. It's roughly in mind..."

Other warfare magic weapons do not mention, this temple is not interested, but all kinds of top heaven and earth treasures, especially the liquid of heaven and earth, is absolutely indispensable, don't tell the temple that you didn't, just the heavenly road that was just killed. In the early days, there are two kinds of heavenly treasures in the treasures of storage. Don't think about sloppy eyes..."

Hearing here, the Taoist remnants of the 20 floodplains, such as Hong Tao, who are squatting around the void, are already frowning. leaf

Xuan said that it is true that each of them has some liquids in the hands of the heavens, more or less, but other top-level treasures of heaven and earth are worth it. Only the liquid of heaven is too precious, they Some of them are not very willing, this is the main Danish material for the refining of the Tianjiu Avenue in the future...

However, although the heart is not willing, the other half of the flooded manuscript has already fallen into the hands of Ye Xuan, and even the red lotus fire that must be used in the refining of the Tianjiu Avenue treasure liquid has now been adopted by Ye Xuan. Going through refining.

If you don't resolve the old grievances with Ye Xuan and rebuild the old ones, even if they have more liquids in the hands of the heavens, there is no way to refine the brain of Tianjiu Avenue...

These thoughts flashed in the middle, and all the old geeks turned their heads again to exchange their eyes, and soon they reached a certain consensus in silence.

Then, Hong Tao, the star agent, bite his teeth and turned to Ye Xuan to look over. He took the fist and said: "Since Ye Daoyou has made a request, this matter... the old man and others recognized it!"

Chapter 5135: Grumpy pig teammate

At this moment, Hong Tao, the principal of the Hongyu Star Field, bite his teeth and turned to Yang Xuan to look over. He took the fist and said: "Since Ye Daoyou has made a request, this matter... the old man and others recognized it!"

Although the precious liquid of Tiandao is precious, it is the main material of refining the treasure of Tianjiu Avenue. However, if it does not resolve the old grievances with Ye Xuan and rebuild the old ones, even if they have more liquids in the hands of the heavens, there is no way to refine them. Out of the sky nine boulevard treasure!

These thoughts flashed through my mind, and all the old geeks turned their heads and exchanged their eyes. In a moment, they reached a certain consensus in silence. Now Hong Tao's position is enough to show their sincerity...

"call out!"

Oh..."

As soon as the sound fell, there was a faint sound of broken air. The 20 heavenly eccentrics headed by Hong Tao all waved their teeth and spurred out and rushed toward Ye Xuan. blink

The eye has already arrived, and it has come to an abrupt end in front of Ye Xuan. This is a magic weapon of 20 storages. Of course, it is not the whole family of these old guys. They just took out some of the top cultivation resources and The liquid of Tiandao origin, with other storage magic treasures, put it out and sent it out...

The treasures in front of the store are all in a variety of colors, but the number is correct, a total of twenty, that is to say, including Hong Tao, the twenty heavenly eccentrics around the void, all bite their teeth and put blood. This

There is no way to do things. For the sake of Tianjiu Avenue, they can only bear the pain of cutting love. What's more, Ye Xuan has already said it. Whoever does not say it will stare at anyone. This is not a joke. No one dares to be a leader. bird.

Otherwise, not only will Ye Xuan not let go, but other heavenly geeks will have to end with him...

Therefore, Ye Xuan naturally seeks it.

Although even if these guys don't take the initiative to circumcise and plead guilty, he can steal himself, but it is time-consuming and laborious, and he has not much interest in killing the survivors. He thought that he would kill a heavenly monster, but he could not The sturdy blood of the flesh of the body is refined into a heavenly blood, and Ye Xuan feels like a sigh of relief...

What's more, the other half of the floods he needs are still in the hands of Hong Tao. This old guy is the culmination of the ninth-order grand perfection. It is definitely not good.

Although the previous Hongjiang was also the peak of this level of repair, but the reason why Ye Xuan was able to bombard it easily, is completely unexpected. but

Now Hong Tao has prepared for it. If Ye Xuan wants to take the half of the flooded manuscript from his hand, there is basically no possibility.

Therefore, let alone he did not kill all these old guys. Even if there is, for the half of the flooded manuscripts, facing the situation at hand, they can only push the boat and make them a jade.

At the very least, let the half of the required floods be handed over and say...

At this time, with the glare of the volley, it stopped in front of the body and turned into twenty different storage magic weapons. Ye Xuan's knowledge was also extended in the first time and launched a probe.

These old guys are still quite sincere. After all, compared to Ye Xuan, they obviously hope that the two sides will resolve the old grievances. Therefore, if the amount of things taken as circumcision is not enough, it would be too unsatisfactory.

Among the 20 different storage magic weapons, there are quite a few top-level cultivation resources, all kinds of forests, and some of them, even some of them are not even in Ye Xuan's hands.

But what really makes him happy is still the treasure of heaven. two

Ten Heavenly Monsters in the Hongyu Star Field do have all the treasures in their hands, more or less. Such as

As a circumcision of gratitude, the 20 treasures that the twenty old geeks waved out, in addition to all kinds of top-level cultivation resources, the liquid of heaven and earth also has the most...

Less is given to one, the most presumably is from the hand of Hong Tao, actually gave four kinds of heavenly source of liquid, so Ye Xuan was quite surprised.

"Hey..."

Yes, it seems that all of your friends are quite sincere..."

In the middle of a wave, the twenty pieces of storage magic that hung in front of him were all enshrined in the body by Ye Xuan.

At this point, the look on his face has eased a lot, and even smiled. He turned around and looked around the crowd. When he turned around, he took the call: "However, the old grievances must be completely written off, but the temple is completely Still need the last thing..."

That is the half of Hong's predecessors who stayed in your flooded star...<sup>哗</sup>

.....One

Listening to these words, all around the moment, including Hong Tao, the twenty heavenly roads and grotesque around the empty sky, all of them look suddenly changed, and the body shape under the micro-shocks, and then they screamed and shouted..."

what? Did you want us to hand over the half of the flood? "

"This is absolutely impossible. Even if I want to refine the treasure of Tianjiu Avenue, I have to cooperate with him in Hongyuxing. This half of the manuscript is our emboldened, and the old ancestors stayed. If it is handed over, I will Why do you get the Tianjiu Avenue treasure?"

Too greedy, rude, just sent so many top-level cultivation resources, even including the liquid of the heavens, this is not too hot, but immediately put forward new requirements, the main hall of the devil is Ye Xuan It's hard to fill it..."

"Be fooled, let's be fooled. He is extorting and asking for more and more..."

If the half of the flooded manuscript is handed over, the old man can guarantee that he will have other requirements later. This person has no credibility and cannot coexist. Now he still has time to repent...."

"The great elders, no need to hesitate any more, order it, call all other friends, and it will be a big deal with him."

The last two sentences are from the mouth of a benevolent remnant. The person seems to be around forty years old. It is a middle-aged man. He is a man of strength but general, only the third stage of heaven and earth.

However, the tone was not too small. It seemed to be a temper. It was a disagreement. He urged Hong Tao to order the recall of other Tiandao remnants of the Hongyu Star Field, and to fight with Ye Xuan.

These words were in the ear, and Ye Xuan's face was gloomy in an instant. The three great devils flicked in the middle of the cold, and all the sights were gathered toward the third-order remnant of the heavens. small

The small early Tiandao, dare to say such words in front of his face, is too disrespectful, just need a Liwei, since he wants to be the first bird, then as he wishes... brain

In the flashing of these thoughts, Ye Xuan did not hesitate, the power of the body was fully urging, and it was directly teleported to his body shape, and shot out..."

call out....."

"Card!"

Rumble..."micro

The weak sound of the air broke out, and at the same time there was a shocking sound, and a blood-colored lightning with a diameter of 10,000 miles was suddenly revealed. The figure of the early old monster was completely overwhelmed! versus

At the same time, Ye Xuan, who is close to the teleport, is also a flash in the middle of the mountain. The violent temper in the three big devils directly picks up the \*\*\*\* stick, a great squat..."

call out.....""

Card! "

"Booming..."

The faint sound of breaking the air and the shocking sound of the card are coming at the same time...this

At the moment, the black mist spurred the spirit of thunder and lightning, and a blood-colored lightning with a diameter of 10,000 miles was revealed. The body shape of the early eccentric was completely overwhelmed! versus

At the same time, Ye Xuan, who is close to the teleport, is also a flash in the middle of the mountain. The violent temper in the three big devils directly picks up the \*\*\*\* stick, a great squat...

It's too hasty to cut, and no one expected that Ye Xuan would still take the shot after the confession.

This old guy may have been for this reason, dare to say the words like the right one, but now he is eating his own fruit, and without waiting for him to come back, the \*\*\*\* stick is already a big hit..."

boom! "huge

The sky was so shocking that the big black-and-white porcelain was incomparably bombarded on the body covered by the blood-colored lightning. The old guy simply had no time to react, and the whole figure exploded in an instant, turning into a red \*\*\*\* fog. diffusion.....

"call....."

The whistling sound of the wind blew in an instant, and the body of the black mist waved in the first time. A huge invisible sigh of anger screamed away, and the \*\*\*\* fog that spread out was absorbed into the body, and one of them was spurred with it. There is also a magic weapon for the early survivors.

Ye Xuan's knowledge of the gods sneaked into it, and the corner of his mouth immediately outlined a smile of satisfaction. old

In the guy's storage magic, there are actually two kinds of heavenly sources of liquid. It was him who only handed over a kind of heavenly liquid, but it still has reservations, but now it has all fallen into the hands of Ye Xuan. except

In addition, Ye Xuan also deliberately left him with a half-soul, but it was the beginning of the third-order heaven. It was repaired by Ye Xuan's nine-step grand perfection. But it's easy and freehand...

With this remnant of the soul, Ye Xuan launched the soul search for the first time. When the Hongjiang four were killed, the shot was too rushed, so there was no residual soul left. Now Ye Xuan is attacking by killing chickens and monkeys. The purpose of searching for the soul is to determine whether the other half of the flooded manuscript is in the hands of Hong Tao.

Although he has probably speculated about this matter, Hong Tao is the principal of the Hongyu Star Field. The important resources such as the Hong Manuscript should be in his hands. but

Guess is only speculation after all. Before it was confirmed, Ye Xuan was somewhat uneasy. no

On the half of the flood manuscript is in the hands of Hong Tao, or in the hands of other people, as long as it can determine its whereabouts, then if the remaining 19 old guys refuse to submit, take the initiative to hand over the manuscript, Ye Xuan can at least lock the target and forcibly seize...

As the soul search unfolded, he only got the desired result in just one moment. This

At the moment, all the scorpions of the three great devils screamed out of the fierce and savage, and the screaming voice of Ye Xuan also came out: "What? There is still a ... Tianjiu Avenue treasure?" This

It's just too unexpected. The result of the soul search was unexpected. He not only confirmed that the other half of the flooded manuscript was in the hands of Hong Tao, but even got a more important message, that is, in the hands of Hong Tao, there is still a copy. Tianjiu Avenue Baoye. This

The Tianjiu Avenue treasure liquid is only a small bottle. It is impossible to let a nine-step great perfect peak Tiandao successfully enter the Hongmeng Avenue after the Tiandao... It takes at least thirty or forty bottles. but

For Ye Xuan, a finished product of Tianjiu Avenue Baoye is obviously more meaningful. After getting the manuscript of Hongqi refining Tianjiubao liquid, I will study the finished product of Tianjiu Avenue, which he needs. Everything can be learned from this...

The finished product of this bottle of Tianjiu Treasure was left before Hong's departure, and has been retained in the Hongyu area. Now it has been a million years old. flood

I left such a celestial treasure, apparently wanting to leave it as a sample in the flooded star field, and the later person who entered the parallel void in his Dongfu star will get half a scrap and red lotus After the refinery of the industry fires, when preparing to refine the treasures of Tianjiu Avenue, there is a reference...

"Damn, Ye Daoyou, what exactly do you want?"

"The previous things have already been revealed. Why are you still waiting for me? Are you going to eat and say fat?"

"There is a ruthlessness, and this person is acting too arrogantly. How can we cooperate if we go on?"

Stupid, \*\*\*\* guy, don't say anything about his life, actually leaking more important information, just discouraged the old man..."

Previously, Ye Xuan's shot was too breakthrough, and it was the thunder of the line. The short half of the interest rate had already ended. Although there were 19 people in the presence of the Tiandao, they were simply unprepared, even the Tiandao peak was repaired. Hong Tao did not get a rescue.

When they reacted, everything was settled, and the old geeks had not only fallen, but the treasures of storage fell into the hands of Ye Xuan, and even the half-dead souls that Ye Xuan deliberately left were searched by him. The soul reveals a more important message. This

The results of the moment will once again make everyone stunned, and everyone will breathe in the air, and the exclamation will sound in an instant. The main actor of Hong Yu's star field is even more arrogant, and the one who has just been smashed. In the early days, the old blame was not enough, and there were more ruins..."

When it was a joke, the temple was on the right bank, and it was on the right side of the left bank, and it was all in the same place. "With

At the end of the search for souls, the nineteen heavenly remnants of the surrounding air screamed, and Ye Xuan's shackles were also flashing. The voice of God's knowledge came out instantly: "Everything is just too much of your own heart. It is your enthusiasm that you wish to circumcise and plead guilty. Although this temple also has this intention, but did not make specific requirements, you immediately sent a storage magic weapon..."

It is true that the cultivation resources in the 20 treasures of storage are still sincere, but it does not mean that the temple has already recognized..."

The temple then requested that the other half of the flooded manuscripts be asked, and you will turn your face in an instant, and the guy who was just being slain was even more clamoring to break the net with the temple. The reason why he shot and killed him, the temple just wanted to remind you, don't Forget, what is happening today is that you take the initiative to plead guilty to the temple, instead of the temple asking you for peace..."

"Now this person is already in a hurry, and all the circumstances have been revealed. The temple will now ask for it. If you agree, today the old grievances will be resolved, and the ice will be released. Otherwise, if it is too big, then I will fight again. Is this temple fearful?"

At this point, Ye Xuan's voice was stunned, and the nineteen Tiandao remnants, including Hong Tao, surrounded the virtual air. With

After the glory of the glory, the final condition of the former suspicion of ice release was put forward: "In addition to the cultivation resources that the talents have lost, the temple only needs two things, one for the half of the flood, and the other for you. The bottle preserved in the Hongyu Star Field... Tianjiu Avenue Treasure!"

In addition to the cultivation resources that the talents have lost, the temple only needs two things..."

The nineteen Tiandao remnants, including the Hong Tao in the surrounding virtual air, all looked around.

Afterwards, the glory of the gloom was raised, and the final condition of the former suspicion of ice was put forward: "The first one is the half of the flooded manuscript, and the second is the bottle that you saved in the floodplain... Tianjiu Avenue treasure!"

This time, Hong Tao and others fell into silence, not stunned. After all, the other half of the flooded manuscripts Ye Xuan had already said before. As for the Tianjiu Avenue, the old ancestors left a bottle. In the floodplain, it was originally used as a sample. Both

However, Ye Xuan intends to refine the treasure of Tianjiu Avenue. It is a proper meaning to ask for this bottle of treasure liquid. They have already thought of this moment when the message was leaked by the soul of the search, so it is not unexpected...

What's more, the words spoken by Ye Xuan Shicai are indeed reasonable. Although he did not attack after Hong Tao expressed his willingness to plead guilty, he did not raise any conditions. flood

When Tao and others each sent out a treasure of storage, they thought that the matter had been revealed. It was only their self-righteousness at the time, which was purely wishful thinking.

Later, Ye Xuan asked for the request. The early descendants of the third-order Tiandao were furious at the moment because of their temper, and they were too impulsive to break the net with Ye Xuan.

For the purpose of warning, Ye Xuan's shot and killing him can only be regarded as their own bad luck...

Everything is said, Ye Xuan really does not calculate the anti-Ir, and people have not formally requested it yet, but only have the intention of reconciliation, which is the saying of fate?

Now, after a little trouble, Ye Xuan will finally ask for it. This is a tough statement. If they don't agree, I am afraid that it will be a battle that has not stopped for a long time. and

Moreover, if this time again, Ye Xuan's heart is furious, and the means may be even more fierce and fierce. Even if they turn and flee, all other survivors in the flooded area cannot escape and must be angered. This

There is no precedent for such things, and the Lord of the Devil, who is angry and angry, is absolutely dry.

By then, the entire floodplain will be turned into a dead zone, and it is absolutely impossible to keep the film without leaving it, and the consequences... they can't afford it! brain

These thoughts flashed in the middle, and the remaining 19 Tiandao old geeks fell into sinking, and the look on their faces revealed entanglement and hesitation, but in the end, they exchanged a look through the distant void, but they were still helpless. A consensus was reached..."

Ye Daoyou, since you have refining the red lotus fire in the parallel void, you must have got the other half of the manuscript left by the flood ancestor in the parallel void..."

After the sigh of relief, Hong Tao slammed his hand to Ye Xuan and then he said: "The old husband did have concealment. He did not say that the Hongyu star field had half of the manuscript, but the Taoist friend should understand..."

"After all, the treasures of Tianjiu Avenue are not the same. If you let the outside world know that I have been holding half of the refining manuscripts and a sample of Tianjiu Avenue, I am afraid that all kinds of nuisance will be annoying. ....""

The reason why Hongjun's ancestors left this half of the manuscript and a sample of Tianjiu Avenue treasure in my Hongyu star field is to ensure that my Honglian industry will be refining after the refining of the red lotus industry. You can get a piece of cake from the treasures of Tianjiu Avenue, which is refining the people. It is also the ancestor's good intentions for future generations..."

"So, this half of the manuscript and the sample of the Tianji Avenue Baoshui, the old man is not absolutely impossible to hand over to Ye Daoyou, but this matter must have additional conditions, otherwise, anyway, can not get Tianjiu Avenue treasure liquid, It's a big deal that the old man ruined the half of the manuscript... It's a must, and I don't want to see such a result?"

"Are you threatening me?"

Ye Xuan frowned, the three great devils in the shackles instantly carved out the cold awns, locked in Hong Tao's body, the body has a thicker to the indelible killings, and quickly rendered..."

The threat is not counted, the old man only tells Ye Daoyou about the stakes in it..."

Seeing Ye Xuan seems to have the meaning of the van. Hong Tao raises his hand and caresses. He smiled at the jaw and said: "Ye Daoyou may wish to listen to the additional conditions mentioned by the old man before making a decision."

"The matter is actually not complicated. The old man handed over the half of the manuscript and the sample of the Tianjiu Avenue treasure to Ye Daoyou, but Ye Daoyou must guarantee that I will refine the liquid of the heavenly source in my hand into Tianjiubao. liquid....."

"In addition, according to the rules of the old ancestors of the flood season, if there are other people who provide the source of the heavenly source, please ask Ye Daoyou to refine the Tianjiubao liquid, and Ye Daoyou has the right to collect half of the treasure liquid as compensation..."

"And this half of the reward, Ye Daoyou obviously can not be swallowed, should be divided by my Hong Yuxing domain and Ye Daoyou five equals ... This request is not too much? After all, the old ancestors of the year is like this, there is a precedent!"

Words, Ye Xuan is slightly indulged, and immediately asked: "How many liquids are there in your hands?"

A total of three furnaces can be refining..."

Nodded, Hong Tao went on to say: "That is to say, I can get twenty-seven kinds of liquids from the heavens, and refine the three furnaces, enough."

Can..."

Xuan immediately stated: "The temple will swear by the heart, if you get the half of the manuscript from your hand and a bottle of Tianjiu avenue as a sample, then you will help you after the refining secrets of the liquid. Hongyuxing refines the three furnaces of Baoji..."

"As for the future, if there are other strong people who provide the source of the heavenly source, please use this temple as the refining avenue treasure. Among the half of the rewards collected by the temple, there are also 50%...you belong to your Hongyu domain!"

As soon as Fanyu's words were exported, the nineteen heavenly lords, such as Hong Tao, who were surrounded by the emptiness of the air, were relieved, and they were stunned by the fineness of their faces. The face was filled with joy. he

They did not expect that Ye Xuan had such a good speech, and the three furnaces of Tianjiu Avenue, which were prepared for their refining, would be the key. The key is the half-pay that Ye Xuan received. Although they proposed to be divided into 50%. But in fact there is a bottom line, the minimum can even accept a solution of only 30%. but

All of this now has no need to be considered and entangled. The Lord of the Temple of Devils is also atmospheric. If he does not say anything, he will finalize the distribution plan for the five-fifth division. For them, it is an unexpected harvest...

Moreover, Ye Xuan has now vowed to the existence of this level, and it is impossible to make a joke about it. Otherwise, the heart will be damaged in the future, and it is absolutely difficult to rectify the strength.

What's more, Hong Tao has already learned through some channels that the ancestors who had left before the million years of age will return soon, and the millions of years have passed. It has already broken through to the Hongmen Avenue. Have

Such a strong avenger returns, they are not worried at all that Ye Xuan will lie..."

call out! "broken

The air rang and a glare came in. The blink of an eye came to Ye Xuan's body and stopped in the void...

It is a magic weapon for storage. If there is no accident, it should be the half of the flooded manuscript required by Ye Xuan, and the bottle of Tianjiu Avenue treasure as a sample!

In the middle of the gloom of the glory, Ye Xuan is about to expand into the knowledge of God. After a little investigation, the heart hanging in the eyes of the blind man is one of the moments. Storage

There is indeed a jade slip in the treasure of the Fa, which is exactly the same as the fiery jade that he had previously obtained in the parallel void of the Hongyan Dongfu Star. Even the breath is the same. It is obviously the other half of the remains of the flood. Draft. and

In addition, there is a green bottle in the storage magic treasure. The bottle contains gold-red liquid, which is quite thick and exudes a very pure energy atmosphere. It surpasses the power of heaven and earth. It must be the so-called Tianjiu. Avenue treasure is gone.

After regaining his knowledge, Ye Xuan turned his hand to collect this treasure into the body..."

Oh la la..."

At this moment, the three-headed and six-armed konjac collapsed in the void, turned into a \*\*\*\* sea, and condensed in an instant, becoming a faint blood stalk. Under the flash, the human form of Ye Xuan deity stepped out of it. ..."

All the friends of the Tao, all the promises of the previous, the temple must be fulfilled, but now need to return, quietly enlighten the masters of the treasures left by the floods of the predecessors, after all the enlightenment, come here, refining the three furnaces for you. Avenue treasure..." said

In the words, Ye Xuan clenched his fists and bowed to Hong Tao and others in the surrounding air: "So, let's go ahead, you... see you in the future!"

Oh..."

As soon as the sound fell, Ye Xuan waved his hand and directly tore a crack in the void in front of him. He stepped into it and his body disappeared instantly...

When he left, Hong Tao and others in the void immediately swept their bodies and gathered together to look at each other. They all frowned, their eyes flickered, their faces were cloudy and uncertain...

Everything that happened today made them unprepared. Until now, although everything has ended, it's still awkward...

Shanghongjiang, the entire Hongyu star field has lost five days of eccentricity. This is definitely an amazing huge loss, but if it is compared with Tianjiu Avenue, it is nothing. flood

The five people in the Jiang have already been jealous, and there is no point in entanglement in this matter. For the 19 of them, the most important thing is to be able to help the future of the Hong Kong Avenue.

Tianjiu Avenue Baoshui is not the same, he... Shouldn't he play tricks? "

After a short silence, more than a dozen Tiandao old geeks in the Hongyu Star Field looked at each other with a look of uneasiness on their faces.

Yes, although the oath can not be violated, but he can drag the time. After a long delay, I can't sit still and go to the door. At that time, he can excuse him, so that we have to follow the example and take the initiative to allocate the 50%. Amount reduction..."

This matter should not appear, otherwise he would not have to be so refreshed and nodded to agree..."

What's more, although the Lord of the Temple of the Devil is fierce and violent, but the temperament has always gone straight, it should not be tricked with these ambitions..."

Words, everyone nodded, the look on the face was a little slow, and the heart hanging over the eyes of the blind man finally fell back.

It's not that they are too entangled, but that the meaning of this day's Jiubao Avenue is too great for them. There is absolutely no loss, so it's inevitable that they will be so worried...

"Okay, this matter will come to an end. The manuscript left by the Lord of the Devils, Ye Xuan, who is enlightened by the ancestors of Hong Yu, also takes time. I don't have to worry too much..."

After that, Hong Tao said with a voice: "Not to mention, the old man has been guided from the ancestors of the Hong Yu Temple ten years ago. If there is no accident, within a hundred years, the ancestors of Hong Yu must return... .."

"He left the country to retreat. After the impact of the Heavenly Road, the Hongmeng Avenue has been a million years old. Now, since returning, it must be a rhythm that has already broken through. That is to say, I will have a heaven after the Hongyu Star Field soon. Hongmen Avenue was born..."

If Ye Xuan, the master of the temple, is honest, he will refine the treasure of Tianjiu Avenue in the future. I can only wait for 50% of the profits. If he wants to play something famous..."

Speaking of this, Hong Tao's face showed a sneer, and he replied with a cold cry: "Hey, I'm afraid that it's you and I agree, and Hong's ancestors won't stop doing it, after all, The mysterious treasure refining secret law and the red lotus fire that he left behind, but whoever can be casually white?"

Hearing the words, everyone suddenly realized that they were fascinated, and their faces also showed the color of surprise... straight

Until now, they have understood the true intention of the layout of the ancestors of Hong Yu. He left the two manuscripts in the Hong Yuxing domain, including the awning red lotus fire. The real purpose is to find a future one. Helping the floods to ban the long-term refining of the successors of the Tianji Avenue Baoye.

Of course, the successor just said that it is good to listen to, really have to say, in fact, it is just a free labor.

And the matter of the Lord of the Devil, Ye Xuan, has already vowed on the one hand, and can not be violated. As long as he helps people refine the treasure of Tianji Avenue, half of the proceeds must be paid to Hong Xingxing.

On the other hand, Ye Xuan, the master of the temple, also needs a lot of Tianjiubao. It is certainly not enough to collect the liquid refining system of Tiandao. After all, he still has a huge forbidden place. countless. Place

Therefore, even if he has been getting half of his gains for free for a long time, he can only recognize his face with his nose. After all, he also has something to gain...

To put it bluntly, Hong Hao Xingyu is simply the biggest winner. They don't have to do anything. They can get five and a half refining rewards from Ye Xuan, the master of the temple, and they are still long-term. ! brain

These thoughts flashed in the middle, and all the old guys were very happy, and they didn't get too much together. They all returned to their respective Dongfu stars. he

What we have to do now is just wait, wait until the master of the temple, Ye Xuan, will reproduce the refining manuscript of the Tianjiubao liquid left by the ancestors of Hongjun, and then return to the energy source to continuously harvest Tianjiu Avenue. Treasure...

For all of this, including the calculations of the old guys, Ye Xuan did not pay attention to it. After leaving Hongyu, he did not return to the right bank, but went to the vast endless dark void in front of the right bank of the left bank. .

"Oh..."

The buzzing sounded, and a void crack appeared. Ye Xuan's figure stepped out of it. Under the glimpse of the gloom, he turned to the front of the right side and looked at an abandoned star. that

In it, it was the abandoned star that he had closed before he hit the heavens. Now Ye Xuan is here again, and it is also a retreat, but this time it is to understand the manuscript left by Hong Yu...

Chapter 5136: But so

"Oh..."

The buzzing sounded, and a void crack appeared. Ye Xuan's figure stepped out of it. Under the glimpse of the gloom, he turned to the front of an abandoned star in front of the right side...

After leaving Hongyu, he did not return to the right bank, but once again came to the endless dark void in front of the right bank of the left bank. right

The abandoned star in front is the retreat of his previous impact on the heavens. Now Ye Xuan is here again, and it is also a retreat, but this time it is to understand the Tianjiu liqueur left by Hong Yu. Manuscript...

For Hong Tao's calculations, Ye Xuan has long known that he is not so fooled. He wants to fool him into a free labor force for the Hong Kong Star Field in order to get the Tianjiu Avenue, which is absolutely impossible. thing. although

It is said that Ye Xuanmeng has made an oath, but Hong Tao and others are still unable to succeed. in

After thoroughly understanding the manuscripts left by Hong Yu, the three furnaces that had previously promised to refine them, Tian Xuan, will surely fulfill the promise. complete

In fact, he got the required flood manuscript from Hong Yuxing, and even included a bottle of Tianjiu Avenue treasure as a sample, and refining the three furnaces for them. but

It is also limited to this, except for the three furnaces of Tianjiu Avenue, the gangsters of the Hongyu Star Field, who want to get half a bottle of Tianjiubao from Ye Xuan. leaf

Xuan was only promised that if he helped them refine the treasures of Tianjiu Avenue, half of the rewards would be equal to the five-and-five balance of the Hongyu Star. but

He did not intend to help others to refine, except for the three furnaces that promised Hong Tao and others. Even if Ye Xuan wanted to refine the treasures of Tianjiu Avenue, he would at most refine his own stove and try his best. This

After a furnace, he couldn't refine more at all, because in his opinion, this is really not worthwhile. Refining

To make a furnace of Tianjiu Avenue, you need nine different kinds of liquids from Tiantian. After the release, Tianjiubao liquid is nine hundred and ninety-one bottles. although

Saying that a nine-order grand perfection of the peak of the heavens, swallowing the Tianjiubao liquid retreat after the impact of the Hongdao Avenue, it is said that only about forty bottles is enough.

But in Ye Xuan's view, this kind of Tianjiubao is really not really a good thing. After all, the ancient wolf that banned the wolf and the Hongyu who created the Tianjibao liquid left the hundred. It's been a long time, but it's still not breaking through...

Ye Xuan is preparing for the thirty-level Hongmeng Baodan. If the refining is successful, the ninth-order grand perfection of the heavenly road will be able to break through after the swallowing, and it will

surely break through... The various grades of Baodan that have been refining have always been so bad. One

It takes only a million years to break through, and one basically takes only a few years. Dunyou has already seen it at a glance. very

It can be said that Hongyu's Tianjiu Avenue's treasure liquid can't be compared with the thirty-level Hongmengbaodan that Ye Xuan is preparing. It's not at one level...he

The reason why I want the refining secret of Tianjiu Avenue is just because I think that in addition to the five elements of the drug, it is very likely that I need to add other elements. This element may be the day. The idea of Jiu Dao Bao Liquid is just...

White, Ye Xuan is just a reference. Once he is inspired, he will promote the perfect Danfang of the thirty-level Hongmen Baodan. For him, this so-called Tianjiu Avenue treasure will be instantly and What is the difference in garbage, Ye Xuan, who has the interest to refine?

This point, his heart is determined, but Hong Tao and others are completely ignorant, can only say that the old guys are countless, but after all, they still have a leak, destined to take the bamboo basket to fetch water, empty joy... ..

"call out....."

The faint sound of breaking the air, Ye Xuan's shoulders swayed, the entire figure instantly turned into a man, rushed into the star of the abandoned star, after the breath was full, even when sitting cross-legged. One

Waving, all the treasures that were previously obtained in the Hongyu Star field were all spurred out, suspended in the air in front of Ye Xuan.

He quickly classified all the things in the treasures of storage, all kinds of top treasures, cultivation resources, and he directly entered into the immortal world. except

In addition, there are still more than 30 kinds of liquids of different kinds of natural sources. This is because some of the liquids of the heavens are the same, which is a repetition.

In this way, plus the few that he already had in his hands, Ye Xuan's hands have a total of twenty-seven kinds of liquids, totaling more than forty.

Refining a furnace of Tianjiu Avenue requires nine different kinds of liquids from the heavens. That is to say, if Ye Xuan wants to refine it, the liquid in his hand is enough to refine the three furnaces. . but

He obviously won't do this. At most, he will be left with a stove. Other liquids of the heavens will be left behind, and they will be used to refine the thirty-level Hongmen Baodan.

After the confession was counted, he even took out the bottle of Tianjiu Avenue, and the power of the gods was injected into it, and he realized the two red-hot jade slips, while playing with the Tianji Avenue treasure liquid sample. After the comparison, I was immersed in it without knowing it, and gradually I forgot both...

After half a month, Ye Xuan suddenly opened his eyes, deep in the bottom of the sputum, there is a touch of Ming Wu floating, muttered: "It turned out to be like this, it seems that this day Jiubao liquid, but it is so ..."

The secret method of refining the treasures of Tianjiu Avenue left by him, and his ideas, Ye Xuan has thoroughly realized it. To be honest, although there are amazing things, but compared with his thirty-level Hongmen Baodan, There is more than a little bit of difference, and it can be said that there is no comparability at all. This

It is also more determined that Ye Xuan does not refine the treasure of Tianjiu Avenue. Although the liquid of Tiandao in his hand has reached twenty-seven kinds of more than forty, it is used to refine the thirty-level Hongmengbaodan. It's not enough. Can you waste it for the treasures of Tianji Avenue that are not recognized by him? first

Before, he even thought about the effect of refining a furnace, but now even this idea is gone.

Because according to his deduction, if the Tianjiu Avenue treasure liquid is added as an element to the perfect Danfang of the 31st Hongmen Baodan, the liquid of the heavenly source he needs will reach 999. Each one...if

There are more than forty copies in his hands today, but because there are similarities, there are only twenty-seven kinds, and it is still a lot worse.

"If you don't refine, you can save at least nine copies of the source of the heavens. Although there are duplicates, you can find opportunities in exchange for others in the future..."

After Fan Sisuo, Ye Xuanzhen's fine mans flashed and made a decision in an instant: "However, this Tianjiu Avenue treasure liquid should be added as an element to the perfect Danfang of the 30th level Hongmen Baodan, but You must also try the effect of this kind of Tianjiubao, but it's just a bottle, and take advantage of this opportunity, and then break through once again..."

"However, this Tianjiu Avenue treasure liquid should be added as an element to the perfect Danfang of the 30th-level Hongmen Baodan, but you must also try the effect of this Tianjiubao liquid..."

After some thoughts, Ye Xuan's fine flash in the moment, he made a decision in an instant: "Although I have not refining, I have a bottle in my hand, and I am taking advantage of this opportunity, just to be able to repair my own... once!""

Oh..."

After the decision, he immediately waved, and immediately sacrificed Shennong Baoding, only the size of the sky, hanging inside the star nucleus, the breath convergence is not revealing, and then Ye Xuan stepped into it, in the fascinating Sit down at the mouth. "

Oh..."

After being ready, Ye Xuan waved again, and with the faint sound of breaking the air, there was a rush of anger and hang out in front of him...

These are the cultivation resources that he took out from the immortal world to develop this breakthrough, including a bottle of Tianjiu Avenue, but did not take out the absurd or heavenly blood. day

Nine Avenues Baoye can make the ninth-order grand perfection of Tiandao peak, which can be helpful when it hits the Hongmeng Avenue after the Heavenly Road. It is quite obvious. Now he just hits the second-order Tiandao and swallows a bottle of foot. Oh, there is no need to assist with the blood of the heavens.

Although there are more than fifty-five heavenly blood in his hands, it is used to refine the thirty-level Hongmen Baodan in the future, and according to Ye Xuan's estimate, most of the 31 Hongmen Baodan will Unlike the previous 30-level Baodan, fifty-five Tiandao blood essences may not be able to refine one. pole

It may be the same as the liquid of Tiandao, which is about to be added to it. It also needs nine hundred and ninety-one... and

Eighty-one Tiandao blood essences and eighty-one heavenly sources of liquid, together with the five elements of medicine to open the refining, will be the only one of the thirty-level Hongmengbaodan that will be released at that time.

Therefore, the blood in his hands must be saved and saved.

After all the resources were taken out, Ye Xuan did not hesitate. In the middle of the glory, even when the Shennong Ding's domain power was motivated, all the cultivation resources were compressed to only the size of the baby fist. Into the abdomen. "

Baby

The entrance of the boxing ball is instant, and the blink of an eye becomes a powerful river that can be swayed by the power of the squadron. It slowly opens in the body of Ye Xuan, and the sound of the chain squeaking is also overwhelming...

This time, the chain of shackles that appeared in Ye Xuan's body is still the same as before. After entering the ruined territory, the situation of two shackles at the same time is extremely rare. What about the current heavenly environment? deep

Take a breath, Ye Xuan sighs and sings, fully urging the energy that has just been formed in the body, and the next big day runs in the whole body...

Once, perhaps because of swallowing a bottle of Tianjiu Avenue, when all the cultivation resources swallowed by Ye Xuan were turned into a turbulent flow in the body meridians and limbs, There is a strong tingling sensation that has never been seen before, so that he can hardly bear it...

After all, the Tianjiu Avenue treasure is the strongest of the ninth-order grand perfection, and it will be swallowed by the supreme treasure when the retreat hits the Hongmen Avenue after the Heaven.

Although Ye Xuan said that in the ninth state of the konjac, there is also a ninth-order grand perfection of the Tiandao peak, but its own real cultivation is the strength, nowadays it is only a heavenly order. Now

In his breakthrough in retreat, he has already withdrawn from the state of the ninth change of the konjac, and even the blood of the konjac has not been activated.

In this way, with the first-order repair of Tiandao as the strength to withstand the arduous force of the Tianjiu Avenue, this kind of intense and almost intolerable pain naturally belongs to the proper meaning...

But again, he can only bite his teeth. Even in this process, he must carefully understand the efficacy of Tianjiu Avenue, in order to verify his understanding of this treasure medicine and refining secrets...and also

I don't know how long it took, when the energy that was formed in the meridians of his body was completely refining, Ye Xuan only launched an impact, and the body's sturdy chain of shackles was broken.

At the same time, the expected system sounds, and soon sounded in my mind..."

Hey, congratulations to the host, the breakthrough of the ancient realm of the hole! The current realm: Heaven second order! ""

Hey, congratulations to the host, the breakthrough of the body and blood! The current realm: Heaven second order! ”

At this moment, Ye Xuan suddenly opened his eyes and calmed his excitement. Only then did he grow up and directly activate the \*\*\*\* magical power of the konjac. The strength of the cultivation suddenly rose to the third level of heaven.

Then, he directly cast this magical power to the ninth change, and his heart also had a glimmer of hope, but the result made him disappointed again, shaking his head and sighing in a smile. also

It is useless. After this breakthrough, it was still suppressed by Hongmeng Avenue. His repairing strength did not reach the Hongmeng Avenue, but he still stayed in the Tiandao Jiujie Great Consummation... though

I was disappointed, but he was psychologically prepared for it, so he quickly threw the matter behind him and stopped tangling...

In the past half a month, he has been involved in research, and he has thoroughly understood the secret recipe of the refining of the Tianji Avenue Baoye left by Hong Wei. Such as

Now I personally swallowed a sample of Tianjiubao liquid and experienced the efficacy of it. Today, Ye Xuan has completely understood the flooding of the Tianji Avenue, and there is no doubt. Connect

Down is to promote the perfect Danfang of the 30th-level Hongmeng Baodan, and to refine the refining ideas of Tianjiu Avenue Baojing as a brand-new element, just like the five elements of the original refining of the 30th-level Tiandao Baodan. In general, join the perfect Dan Fang...

This time, the breakthrough of Ye Xuan's own strength has broken from the previous Tiandao first step to the current Tiandao second stage. Although he was suppressed by Hongmeng Avenue, he now

activates the \*\*\*\* magical power of the konjac and changes to the ninth. In the state of the world, it is still only the ninth-order grand perfection of the heavens...but

Even if it is the peak of the heavens, there are also strong and weak points. After this breakthrough, Ye Xuan's combat power has once again improved, and the same is true of God. first

Before that, he has already opened the head of the 30th-level Hongmen Baodan perfect Danfang, and then handed it over to the body's engulfing system, letting the system inject all the calculation skills and carry out continuous derivation...

After the breakthrough of Ye Xuan, the consciousness of the sky has soared, and with the integration of the idea of Tianjiu Avenue, he decided to take advantage of this opportunity and make a sigh of relief, first to push the perfect Danfang of the thirty-level Hongmengbaodan. Derived and said.

After all, he is now the second-order of the heavens. After his own cultivation is completed, the nine-level great consummation of this situation will require the swallowing of a thirty-level Hongmen Baodan to retreat to the Hongmen Avenue. fine

Counting, today's Ye Xuan is only seven small steps away from the moment. For others, the breakthrough of these seven small steps may take a long time, but he is different, it can't be dragged for a long time. Going on...

After this breakthrough, Ye Xuan's own self-cultivation is the second-order.

So, if you calculate it, now that he is swallowing a 30-level Hongmen Baodan, there are only seven small steps.

For others, the breakthrough of these seven small steps may take a long time, but he is different, it is not appropriate to drag on for a long time.

Therefore, Ye Xuan decided to take this time to add the secret recipe and ideas of the refining system of Tianjiu Avenue to Hongmeng Danfang. At the same time, he will thoroughly extrude the perfect Danfang of the 30th level of Hongmengbaodan...

After the decision, Ye Xuan even closed his eyes again.

Previously, the perfect Danfang of the 30th level of Hongmengbaodan was already in the process of being promoted. After Ye Xuan opened his head, he handed the matter to the body's engulfing system, letting the system pour all the calculation skills. In the full force of the continuous derivation. Count

Counting the time, this incident has been some days in the past. At this time, he contacted the body's phagocytic system and discovered that the process of the promotion of Hong Meng Dan Fang has already completed one-sixth. very

Fast, Ye Xuan is fascinated by the spirit, leaving all other thoughts aside, and there is no more distracting thoughts. All the minds are devoted to this matter. The horror of the ninth-order grand sacred peak is motivated to the extreme, and the body The phagocytic system cooperates with the perfect Danfang of the thirteenth level of Hongmengbaodan, and fully promotes it...

This time, in addition to the elements of the five elements that have been added before, Ye Xuan has also added the idea of the Tianji Avenue Baojing and the secret of refining, as a new element. Infused into Danfang.

Soon, with the development of the derivation, Ye Xuan's mind quickly immersed in it, gradually forgetting both things, even the existence of time, was completely forgotten...

I don't know how long it has been. He has suddenly closed his eyes and suddenly wakes up. There is a slap in the bottom, and even the breath is a little bit rushed, revealing a touch of excitement and excitement. meaning.

finished!

The perfect Danfang of the 30th level of Hongmeng Baodan is finally completed! leaf

Xuan's previous intuition was not wrong. Hong Meng Bao Dan is different from Tian Dao Bao Dan. In addition to the elements of the five elements that were added when refining the 30th-level Tiandao Baodan, it is indeed necessary to add new elements.

The thoughts and refining secrets of Tianjiu Avenue, which he was inadvertently inspired to start to pay attention to, can indeed be incorporated into Hongmen Baodan as a brand new element.

And he has already completed this point. Now, after joining the two elements of Wuxing Yaoxie and Tianjiu Avenue Baoli, the perfect Danfang of the thirty-level Hongmengbaodan has finally been successfully deduced by him...

However, the Hongmeng Avenue is the strongest realm of this mysterious Hongmeng void. Therefore, the 30th level of Hongmengbaodan is absolutely not the same. The conditions of refining can be described as harsh to the extreme, even if it is the previous 30th-level Tiandao Baodan. , far from being able to compare with it... three

Although the tenth-level Tiandao Baodan has joined the five elements of medicine, its main material is only the blood of the desolation, and the number of the 30-level Tiandao Baodan, which is refined and refined, is also the blood of the desolation used for refining. Fine quantity hook. Such as

If the amount of the \*\*\*\* essence used is small, the number of the 30-level Tiandao Baodan will be less. On the contrary, the number of the 30-level Tiandao Baodan will also rise accordingly...but

Thirty-level Hongmengbaodan is different. At this point, the conditions are so harsh that Ye Xuan is speechless.

Refining a 30-level Hongmeng Baodan, you need 981 pieces of Tiandao blood essence, and the same amount of 80 kinds of heavenly source of liquid, in addition to the innate five elements of medicine cited ... but

With so many top resources to carry out refining, even if it succeeds, the thirty-level Hongmengbaodan that was released at that time will only be one. This

It's simply horrifying. If you want to refine a 30-level Hongmengbaodan, the top resources you need are so desperate. Even if it's Ye Xuan, it's not collected in the hands, it's even worse. a lot of. complete

In fact, in addition to the innate five-line medicine, his hands have already gathered, and he is only fifty-five in this aspect of Tiandao Xuejing. to

In the source of the heavenly source, it is even less. It is said to be more than forty, but in fact it is only twenty-seven. Compared with the required ninety-eighty-one, it is half the difference...

"It seems that everything is still a long way to go..."

After flashing these thoughts, Ye Xuan suddenly shook his head and smiled, whispering in a soft voice, revealing a touch of helplessness that could not be turned away: "Whether it is the blood of heaven, or the liquid of heaven, it still has to Continue to collect, killing... far from over!"

Yes, killing is still far from the end. After all, his hand is only a gap in the blood of the heavens. There are more than 20 pieces in it. Counting the liquid of the heavens, then there are more...

This is only assuming that he has succeeded in refining in one furnace. If the first refining fails, then the fun can be even greater. Not only will he have to re-collect the liquid of Tiandao and Jingtian, even the five elements. It's all the same. true

In that case, Ye Xuan is afraid that it will be directly mad by this matter, and it is not entirely impossible.

The thoughts flashed through my mind, and Ye Xuan's heart glimpsed. There was a strong sense of urgency in the invisible moment. He was not hesitant when he was in the middle of the cold, even when he was carrying a colorful fog. At the mouth of the trip, he took it out. "

call out....."

A wave of hands, Shennong Bao Ding turned into a masculine glare, blink of an eye has already rushed into his eyebrows, and disappeared.

At this time, as his body shape rushed out from Baoding, the outside world's air and gas were felt, and the virtual air immediately had an unexpected change..."

boom! "

"Booming..."

At the same moment that Ye Xuan waved the Shennong Baoding into the body, the dark void outside the abandoned star where he was retreating suddenly heard the thunder of the thunder, and its momentum was fierce. It's a mystery...micro

Under the guise of a glimpse, Ye Xuan's power of consciousness subconsciously extended from the inside of the star nucleus, and immediately saw the high altitude outside the stars, and there was no clear cloud of clouds, but the sound of thunder Passing over.

In the midst of it, there is an invisible force of horrible destruction, which quickly condenses in the dark void above the star.

The power of the power and the majestic, even the nine-step grand perfection of the heavens and the peak of the cultivation of Ye Xuan, all vaguely gave birth to a scalp tingling, heart-feeling feelings..."

Hong Meng Dan robbery? Sure enough, it's coming..."

In the middle of the gloom of the glory, Ye Xuan's heart flashed through Ming Wu, and immediately whispered.

At the beginning, when he pushed out the perfect Danfang of the 30th-level Tiandao Baodan, there was a sacred sacred sacredness. Now the perfect Danfang of the 30th level of Hongmengbaodan is also derived. Feeling, lowering the glory of Hong Meng Dan, this is what it should be..."

boom! "

"Booming..."

At the same moment that Ye Xuan waved the Shennong Baoding into the body, the dark void outside the abandoned star where he was retreating suddenly heard the thunder of the thunder, and its momentum was fierce. It's a mystery...this

Everything came very suddenly, Ye Xuan was completely unprepared, and stunned on the spot, but his face quickly showed a faint color and understood what happened. he

Just the 30th-level Hongmen Baodan's perfect Dan Fang was deduced, Hong Meng has a feeling of emptiness, and immediately there will be Hong Meng Dan robbery, this is what it should be...

He is completely fearless about this, but has other considerations. wrinkle

The eyebrows lingered for a few moments, and Ye Xuan's faint glimmer of light flashed his hand. In the blink of an eye, Shennong Baoding, who had just earned his body, was sacrificed, but it was only a square, hanging over the head. Xuan himself, under the glimpse of the gloom, once again knees in the star of the abandoned star, and sat down again...

"Hey..."

The incomprehensible humming sounds, hanging above the top of his head, only the size of the Shennong Ding, instantly squirting a smog-like nine-color scent, shrouded Ye Xuan's body, leaving only A glimpse of the gas machine leaks, attracting the feelings of the outside of the law of the emptiness of the law...

In doing so, it is to maintain the glory of the glory that is gathering outside the stars, so that the movements of the tyrannical tyranny have always existed, but because the sensation of Ye Xuan's air is not comprehensive, it is looming, if there is nothing, it is only gathering. Not falling, the power of real tyranny does not really fall down...do

After all this, Ye Xuan closed his eyes, as if the old man was settled, and the dark void outside the stars continued to exist, and the roaring Hong Meng Dan robbery completely ignored, as if waiting for something...

..."

Rumble..." Waste

Abandoning the dark void outside the stars, it is clear that there is no cloud of robbing, but the thunder of the thunder has always existed, and the sound of the violent sound is so fierce. This

However, Hong Meng Dan robbery, the power is unusually strong, and in a short period of time, the left bank of the left bank and the countless fierce beasts in the right and the heavenly powers in the remnant star field are all in succession.

"Oh!"

Oh..."

This time, the roar of Hong Mengdan's robbery was resounding. Ye Xuan retired the area around the astronomical star where the abandoned star was located, and it was not the sound of a crisp crack. Virtual

Empty or far or near, a path of void cracks, from which there is a figure stepping, or for the ancients, or for the starry beasts, apparently from the left bank of the right section of a different beasts forbidden and fortifications .

But one thing is the same, that is, these coming survivors and the starry beasts, without exception, are all existential in the heavens and the atmosphere, the atmosphere of the body is very powerful. he

The reason why we have been here sincerely, all because of the advent of this, locked in the fall of Ye Xuan, the abandoned star of the red star.

This area is not too far from the right bank of the left bank of the Milky Way. The dark void in front of the right side of the left bank is boundless, but it is not deep in this place.

The movement of Hong Mengdan's robbery is unusual. Although it is not as good as the real horror of the slain, it is far from being comparable to the ordinary tyrannical tyrannical, but it is the power between the two. When paying attention to...

Between the slow lapse, Ye Xuan kneels in the star of the abandoned star, the figure is shrouded in the mist of the Shennong Baoding, which is suspended by the top of the head, to isolate the air machine, only a trace of leakage...

Therefore, the invisible Hong Meng Dan, shrouded in the dark void above the abandoned stars, is only constantly condensing, but the roaring sound is shocking, but it is not condensed, this state, unconsciously lasted for three days... whole

For the whole three days, the movement here is enough to spur the attention of all the beasts of the left bank and the forbidden land.

Within these three days, the number of heavenly beasts and heavenly remnants who have heard the news have been thousands of times...

But this is obviously not the total number of all the heavens in the forbidden land of the left bank and the forbidden people in the star field. Many heavenly powers have never arrived for some reason!

Even so, thousands of heavenly beasts and the lineup of the Heavenly Adherents are absolutely horrible, even if Ye Xuan has never seen it, even in the right section of the left bank, I don't know how many years have not appeared. pass. only

With this in mind, the present scene in this area is enough to shake the entire bank of the Galaxy, which is a grand occasion.

But now that the news has not yet spread, the heavenly powers outside the right bank of the left bank are completely ignorant...

Among the more than a thousand days of beasts and heavenly remnants, although they did not see the figures of the dragon whales and the sorrowful eyes, even the other one of the thirty-three heavenly powers who had participated in the encirclement of Ye Xuan. That is, the third day of the Ghosts and the Forbidden Land is not visible, but among the more than 20 Tiandao remnants of the Hongyu Star Field, several people have arrived...

Among them, Hong Tao, the principal of the floodplain. in

On the left bank of the right section, the three-legged gold and fierce name is Hee, and its rank is ranked tenth among all the heavenly beasts on the left bank, but now it is necessary to rehabilitate and not appear here. and

Although Hong Tao's personal strength rankings have not been as good as him, he has also entered the top ten of the left bank's list of Tianmen's survivors. However, the Hongyu star field he led, in the left bank of all the survivors, is the tenth existence. only

Based on this, the status and high value of the floods are already evident. Moreover, the flood ancestor who created the treasures of Tianjiu Avenue before the million years of age is from the Hongyu Star Field. This is invisible. Hong Tao's principal, Hong Tao, is worth more. this

At this moment, Hong Tao was in the empty space on the left side of Ye Xuan's retired abandoned star. His eyebrows were locked, and his eyes locked the abandoned star where Ye Xuan was retreating. The light flashed from time to time, as if he was sinking into sinking. It seems to be thinking about what...

The surrounding circles are surrounded by the sky, and the heavens and the beasts and the heavenly remnants of the left bank. The existence of this level of nature is naturally beyond doubt. They have already seen the level of the thunder of the abandoned stars invisibly. . but

This is also the root of their suspicions, because this matter should not appear at all, and everything is so thick that it can not be opened.

Since the land has continued to gather, these thousands of days of ferocious beasts and Tiandao survivors have never said a word, but now, with three days passed, the coming figure is gradually becoming thin, and the voices of all kinds of private discussions are also Slowly appearing in the void, listening to the ears, faintly audible, all with amazement...

"Here... what happened in the end?"

In the past three days, there has been a thunderous thunder in the void, but there is no such thing as a robbery. Even if it is a thunderous robbery, it is impossible to do so. Instead, it is the legendary Hongmeng robbery, which happens to be like this. scene....."

Chapter 5137: a lot of people

"What is happening here... what happened?"

In the past three days, there has been a thunderous thunder in the void, but there is no such thing as a robbery. Even if it is a thunderous robbery, it is impossible to do so. Instead, it is the legendary Hongmeng robbery, which happens to be like this. scene....."

"Don't you say that there is a person in the obscurity of the abandoned star in front of the retreat, and has successfully broken through and entered the Hongmen Avenue after the Heavenly Way. Is it now that the red robbery is coming?"

Perhaps this is true. After all, before the million years of flooding, the flood ancestors of the Hongyu Stars refine the treasures of Tianjiu Avenue, there have been many heavenly beasts and heavenly benefactors to provide the source of heaven and earth, and asked him to refine Tianjiu Avenue Baoji..."

It is said that there were many ninth-order sacred beasts and survivors of the peaks in that period of time, and they got enough breakthroughs to get the Tianji Avenue treasure liquid. From then on, they left, slammed the retreat, and slammed the heavens. In the avenue, perhaps in this inconspicuous abandoned star, there is just one existence of the year that is not known..."

If this is the case, the situation on both sides of the entire Galaxy will soon change dramatically. Now, no matter whether it is the right bank or the left bank, there is no real Hongmeng avenue. Once this level is born, meaning And its far-reaching influence is simply unimaginable and cannot be estimated..."

"I just don't know where this existence comes from, whether it is a beast or a survivor..."

"Accompanied by the old man, this matter should not be so simple, although the Mengmeng Lei Laofu has not seen it, but it is said that the power can not only be right before this, but it is invisible to cover the abandoned star in front of the thunder. The power of robbery is definitely not a thunder of heaven. Under the finest circumstances, it should be between the two. It is really strange..."

What is the level of power between Tiandao Thunder and Hongmeng? So, isn't that a hungry? But how is this possible? Even the treasures of the Tianjiu Avenue, which were refined by the ancestors of the floods, did not reach the level of Hongmendan's robbery..."

"Did it be in the world that there is a certain Hongmengbao drug that has been able to refine the pharmaceutical effect beyond the Tianjiu Avenue treasure? This matter has never been heard, how can it suddenly appear without warning?"

The voices of these arguments are like the tides, and the words from Hong Tao's star, Hong Tao, the two eyebrows that were already locked, are tightened even more in a moment...

He naturally saw that there was a difference in the looting of the abandoned star in front of him. To be precise, this should indeed be a sin, but...how is it possible? brain

When he flashed these thoughts, he subconsciously thought of Ye Xuan, the master of the demon temple. After all, Ye Xuan had just obtained the refining secret of the Tianjiu avenue left by the flood ancestor from the Hongyan star field. If you are surprised, you should have learned the time now...

But even if he has already realized the secrets of refining the treasures of Tianjiu Avenue, and even successfully refining a furnace of Tianjiu Avenue, it is impossible to attract Hongmeng Dan. Well.

The treasures of Tianjiu Avenue created by Hongjun's ancestors did have an effect on the Hongmen Avenue after the culmination of the ninth-order grand perfection, but this effect is far from the extent that it can attract Hongmeng's robbery. Hong Tao can still be sure...

Just as he was in doubt, when he was puzzling at the sight of what was happening in front of him, the abandoned stars outside the 100 billion miles ahead also rushed out of the figure, and it was Ye Xuan...

Seeing the moment of Ye Xuan's body shape, Hong Tao's breathing suddenly stagnated, his eyes smashed round, his eyes were almost smashed out, and his face suddenly screamed: "The Lord of the Temple, Ye Xuan? This is impossible. ....""

boom! ""

Rumble..."

At one moment, the body shape of Ye Xuan rushed out of the star nucleus. When it came to the dark void outside the stars, the Hongmendan robbing that had already been completed was finally at this time... all came!

For a moment, the thunder and roar of the thunder was shocking, but the sky did not rob the cloud, and there was no thunder to explode, and there was no robbery.

Everything is just like illusion. It doesn't seem to exist on the surface, but in fact, there is an invisible terrorist force. In the midst of it, Ye Xuan's body shape and airpower are fully locked!

He is the singer of the 30th level of Hongmen Baodan perfect Dan Fang, so this time the Hong Meng Dan robbery, the lock is Ye Xuan himself. Place

It is said that Hong Meng Dan robbery refers to the Baodan Thunder robbery when Hong Meng Bao Dan came out, but Tian Dao Bao Dan and Hong Meng Bao Dan are not the same, so even if only the perfect Dan Fang of these two kinds of Bao Dan is derived. There is no refining of Baodan, and even no refining has been carried out, but there will also be a catastrophe.

When Ye Xuan later derived the perfect Danfang of the 30th-level Tiandao Baodan, the Heavenly Law of the Great World was felt, and he once dropped a Heavenly Dalai. Such as

Today, he has also promoted the perfect Danfang of the 30th-level Hongmengbaodan. Hongkong has a sense of emptiness, so it will lead to Hongmeng Dan.

Since it is a catastrophe, then the power of thunder robbery can't be compared with the real hunger, but it is not comparable to the thunderbolt. Its power can be between the thunder and the thunder. versus

Previously, Ye Xuan shunned the boat and used it to calculate the power of the dragon whales and the sorrows of Hongmeng Tiandao. With the horror of Ye Xuan's horror cultivation, this kind of power's glory is just one thing, at most Let him be light-hearted.

It's impossible to say serious injuries...

Because of this, in the three days since the estimation of the abandoned stars, the movements of the left bank should be already attracted to the heavenly powers in the left-wing field.

Then he will not hesitate, waving his hand to the top of his head, pouring the colorful mist and mist to isolate the Shennong Ding of the majority of the air machine, the first time he rushed out of the star of the retreat star!

At this moment, as he rushed out, his figure appeared, and the next moment was shrouded in an invisible power...

In the loud roar of the loud noise, Ye Xuan's figure was struck by lightning, and it was steeply stagnate in the void, and almost opened his mouth with a blood arrow...

But there is only one tyrannical tyrannical. After a wave of power can be dumped, everything will stop, and the intangible energy that raging and raging will disappear in an instant...

It was at this moment that thousands of days of vicious beasts and survivors gathered around the imaginary sky finally saw him. short

After the temporary silence, like the sound of the tide, the sound of the cool air sounded, all the heavenly beasts and the bereaved people were all shocked, and the face was changed and the voice was exclaimed...

Especially the scream of Hong Tao's talented person, undoubtedly let all the people know that this self-abandoned star rushed out in a flash, and the existence of the hard-hitting hunger... Who is it!

At this moment, Ye Xuan is very eye-catching, and the name of the Lord of the Devils is like...

As Ye Xuan's figure rushed out of the star of the abandoned star, the hard-hitting force invisibly locked the air-powered squad, and the thousands of savage beasts and survivors gathered around the imaginary sky finally watched. Arrived at his figure... this

At the moment, Ye Xuan is very eye-catching, and the name of the Lord of the Devils is like...

Everyone knows that this rushed out of the abandoned star, the existence of the hard shards... Who is it!

After a short period of silence, like the sound of the tide, the sound of the cool air sounded, all the heavenly beasts and the bereaved people were all stunned, and their faces changed dramatically and they shouted...

"The Lord of the Temple of the Lord, Ye Xuan? How could it be him?"

In the end what happened? This is how Hong Meng Lei, how will it be related to Ye Xuan, the master of the temple..."

"Looking at his cultivation, it is still the peak of the ninth-order grand perfection..."

"This is what it should be. Do you still think that he can break through this and enter the Hongmen Avenue after Heaven? It is ridiculous..."

"It seems that this should indeed be Hong Mengdan's robbery. It's not a real thunder, but a sign of Baodan's birth..."

"Hey! Hongmengbao medicine! It must be Hongmengbao medicine. I have heard that Ye Xuan, the master of the magic hall, has already refining Tiandaobao medicine, and is preparing to refine Hongmengbao medicine. Now it seems that this is really the case. ...."

"I thought that at the beginning, the treasures of Tianjiu Avenue, which were refined by Hongjun's predecessors, did not lead Hongmeng Dan to sneak. Only by this point, we can see the problem. Ye Xuan, the master of the magic hall, is simply against the sky, and there is Hong Mengdan. When the robbery came, the Hongmeng medicine he refines, the effect is strong, obviously surpassing the legendary Tianjiu Avenue treasure..."

Damn, the old man's forbidden land seems to have offended him before. I know that today, regretting it, I am afraid I will miss a big chance..."

call out....."

"Dome friends, don't come innocent..."

As the exclamations of the surrounding air came over, the Ye Xuan, who had only one invisible Hong Mengdan's robbery, had swept away at this moment, and his face showed a flushed color, which seemed to be in the right place. Hong Mengdan was slightly injured under the robbery...but

The expression of the demeanor was quite excitement, and the face showed a happy color, and looked around the thousands of Taoist eccentrics around the void.

Then he clenched his fists and then said: "Ye Mou, originally only here to understand the secret recipe of the refining of the Tianjiu avenue, I did not expect it to be realized, but it has attracted Hongmeng Dan, inadvertently alarming you. It's unintentional, no wonder, no wonder..."

When the words were exported, all of them were quiet for a moment, and all the strangers were caught off guard. All of them were stunned, and then they reacted. They suddenly changed their faces and shouted again...

"Tianjiu Avenue Baoshui? What is this?"

Where did Ye Xuan, the master of the Temple of Devils, get the secret recipe for the refining of Tianjiu Avenue? And I have a thorough understanding, how is this possible..."

"I must be an excuse? He must have refining a certain kind of medicinal effect, and the fear of being too horrible, so he will use the treasure of Tianjiu Avenue as an excuse..."

"Although it is a good excuse, it seems to be a bit too much. The secret recipe of the refining system of Tianjiu Avenue is not even in the Hongyu area. How could it fall into his hands..."

Ye Daoyou, are you not kind enough? Hong Meng Bao medicine is not the same as a small one. Since Daoyou refines it, it should be shared with all of you. I am willing to pay any price. I only want to get a treasure medicine..."

Roar....."

In an instant, the void in the sky once again smashed up. All the heavenly grotesques were all excited. It was determined that Ye Xuan must have refining the legendary Hongmeng treasure. At this moment, all the eyes that gathered him away were all in the eyes. There is a strong meaning that can't be opened. This

At the moment, Ye Xuan can be described as hot and arrogant!

Only Hong Tao, the principal from the Hongying Star, had a sharp glimpse after hearing his words, but he quickly frowned.

In his view, Ye Xuan's words are true in all likelihood. He has only recently obtained the secret recipe for the refining of Tianjiu Avenue from the Hongyu Star Field.

If you calculate the time, you should have a good understanding now...

As for the so-called Hongmeng Baoji... Don't say that this matter has never been determined. Even if Ye Xuan really has such refining methods and abilities as Supreme Potion, time is not enough at all! Do not

However, although he has roughly determined this point, his heart still has other doubts.

Because even the ancestors of the floods, when refining the treasures of Tianjiu Avenue before the million years of age, they never caused the death of Hongmendan.

Nowadays, Ye Xuan is only a thorough understanding of the refining secrets of the Tianji Avenue treasures left by Hong's ancestors, and even has not really opened the refining system. How could this lead to the advent of Hongmendan? ?

This incident is very strange, there must be other hidden secrets, but Hong Tao is puzzling, simply can't figure out what the trick is...

"Tianjiu Avenue treasures are not the same thing, this kind of thing, this temple will be jokes again?"

Seeing all the heavens and grotesque people in the emptiness around them, they did not believe at all. Ye Xuan's heart secretly sneered, but his face did not show his points, and he still smiled.

When talking, the words turned to the front, and the line of sight swept to Hong Tao. The distance from the imaginary distance of hundreds of billions of miles away, pointing him away, this is the way to take it: "Not to mention the Hong Tao Taoist friends in the Hongyu Star Field are here. It's really imaginary. Do you know what Hong Tao's friends are, do you know immediately?"

On the other hand, when it comes to the truth of the Tianjiu Avenue, the entire right bank of the Galaxy has the most say, except for Hong Tao, the principal of the Hongyu Star Field, who really does not have a second person.

After flashing these thoughts in the brain, after being reminded by Ye Xuan, more than a thousand days of vicious beasts and survivors and strangers in the vicinity of the void were suddenly stunned, and then they turned to the same time, and their sights converge toward Hong Tao.

"Cough cough... Ye Dao said that it is correct, the secret recipe of the refining of the Tianjiu avenue left by the ancestors of Hong Yu, is really in his hands!"

Tao coughed twice and cleared his throat. He turned around and looked around the crowd. When he said that he was half-small, he then took the lead: "After nearly a month ago, Ye Daoyou once drove me to the Hongyu star field and entered the ancestral home of Hong Yu. The parallel void of retreat..."

By chance, the manuscripts of the treasures left by Hong's ancestors in the past, and the red lotus fires that must be used in the refining of the Tianjiu Avenue, were all obtained by Ye Daoyou..."

Later, Ye Daoyou left the old man to leave, saying that he was going to enlighten his ancestors' manuscripts and calculate the time. Now, nearly one month later, the secret manuscripts left by the ancestors should be justified! "

With his personal professor, it is naturally impossible to have any further doubts about this matter. The thousands of strangers who were surrounded by the emptiness around the world were caught off guard, and they were dumbfounded on the spot, but they quickly reacted and changed. Next, they are exclaimed...

Hong Tao is the principal of the Tao Yuxing domain. It is natural for him to confirm this matter. Naturally, there is no longer any doubt.

What's more, since the millions of years have passed, there are actually a lot of heavenly geeks on the left bank who have come to Hongyu Star Field and want to try to enter the parallel void of the Hongyan Dongfu Star. This

Among them, there has even been a heavenly and eighth-order repair, who is good at the evil spirits of the remnant, because of the overconfidence, after entering the parallel void, unfortunately under the horror of the red lotus fire . can

It is said that the Tiandao old geeks present are not only aware of this matter, but some have even visited the Hongyu Star Field, and they have seen it far away from the Hongyun's Dongfu Star. positive

Because of this, I suddenly heard the words of Hong Tao. The thousands of strangers who were surrounded by the emptiness around the sky were caught off guard. They were dumbfounded on the spot, but they quickly responded. Under the change of color, they again screamed... "

It's too unexpected, it's really the treasure of Tianjiu Avenue..."

Calculating the time, Tianjiubao liquid has been lost for a million years on the left bank. I don't think it's about to be reproduced now. It's really gratifying..."

"The Lord of the Temple of Devil is really different. After all, it is the existence of the nine-color flame of Shennong. Even the red lotus industry can collect refining and refining. It is necessary to use this kind of horrible top-level refinement. Fire, since the red lotus industry fire was refining by the Lord of the Magic Hall, then the secret recipe of Tianjiubao liquid was passed to him, but it was exactly what it should be..."

However, even the Tianjiubao liquid did not cause the death of Hongmendan in the past. Now the owner of the magic hall, Ye Xuan, has not even opened the refining system. It is only a thorough study of the refining secrets of the treasure liquid. It is not unusual for the arrival of Hong Mengdan's robbery. It seems that he has more and more understanding of it, and he has inadvertently glimpsed some secret of the shock..."

If this is the case, isn't it true that the effect of the Tianjiu boulevard refining by Ye Xuan, the master of the temple, will be even more amazing, surpassing the ancestors of the year? "

"This is very likely, most of them are facts. The treasures of the Tianjiu Avenue refined by the ancestors of the floods are already gone. If the Lord of the Temple has a new discovery, the refining of the Tianjiubao liquid Beyond the past, its meaning is immeasurable. This is to break the rhythm of the sky..."

As these words sounded, even Hong Tao, the principal of the Hongyan Star, had a slap in the eyelids, and his mind also had similar speculations, and this is indeed the only explanation in front of the scene.

Thinking of this, his heartstring suddenly became tight, and he was stunned by the fineness of his eyes, even when he looked at Ye Xuan. face

There was an eagerness between the look of the top, and I couldn't wait to ask: "Congratulations to Ye Daoyou, I finally smoothly understood the secrets of the treasure refining that Hong Yu's ancestors left behind, and even more likely Have a new breakthrough..."

In half, his words turned sharply, and the cheeks on his face were twitched a few times: "Make sure the friend should remember the appointment with the old man before the recent month, I don't know when it is convenient..."

Hong Daoyou also saw that the temple had just smashed the glory of Hong Meng Dan..."

Before he finished speaking, Ye Xuan immediately waved his hand and directly interrupted: "Hong Meng Dan robbery is not as powerful as the Hong Meng Lei robbery, but it is not comparable to the heavens and thunder. After all, there is a hint of power, even if it is just a The robbery was thundered, and the temple was almost incapable of holding it. Now it is a wounded body..."

"Before the month, the temple did promise to pass Hong Daoyou, refining the three furnaces of the Tianjiu Avenue for your friends in the Hongyu Star Field. Now the temple has thoroughly understood the secrets of the refining of the treasure, but it is hurt by the body. , not the best time for refining..."

Upon hearing this, Hong Tao's face suddenly changed. The originally tight heartstring trembled in a moment, and a feeling of not too good was floating on his heart...he

I was worried that Ye Xuan would be detached. Now it seems that this is really the case. This is not good news. For him, the three furnaces have been nailed to the Tianjiu Avenue, which is tantamount to an infinite number of variables. ...and

However, just as he was unhappy, when he tried to persuade Ye Xuan to say a few words, Ye Xuan said halfway, but suddenly he suddenly turned around again.

With a big hand, I will pick up the road: "Hong Daoyou does not need to frown, not to be embarrassed, this temple has not finished yet... you have to think too much!"

"The temple has always been tough, and it has been a bit of a spit. Since it was said that the secrets of the refining process will be thoroughly understood, the customs will immediately help you refine the three furnaces of Tianjiu Avenue. There is no possibility of a cool date..."

"Isn't it just a little injury? Just refining the three furnaces, but it can barely support it. The temple will be opened immediately, and the Taoist refining system will be witnessed by the same people on the left bank." "

Is this true? "just

I was still worried about this matter. I didn't expect Ye Xuan to suddenly turn around. The surprise came so fast that Hong Tao couldn't wait to prevent it. In the moment, he suddenly took out a violent surprise, and subconsciously whispered out. With

After that, he realized that his attitude was a little too anxious. It seemed to be quite ugly. He was so ugly, his face was awkward, his hands were laughing and laughing, and he was polite: "In fact, Ye Daoyou does not need to be so anxious... "

"Do you have a trustworthy old man? If it is really hurt, then according to the old man, Ye Daoyou still retreats to recover the injury, and then refining the treasure is not too late..."

If you really want that, the temple is afraid that the Hongdao friends will have trouble sleeping..."

Xuan Xin sneered, but his face still smiled, nodded and said: "Don't forget that the temple is hard-working, but a sneak peek, although not serious injury, but it is not idle..."

"If it is really necessary to retreat and recover, and completely recover the injury, I am afraid that it will not be able to go out without a year and a half... Can Hongdaoyou's three furnaces, Tianjiu Avenue, really wait for such a long time?"

"This..." Hong

Tao was dumbfounded on the spot, opened his mouth, and behind the fake words, he couldn't say it in an instant... Listen

To the dialogue between the two of them, in the right side of the vacant and distant view of the sky, the beasts and the remains of the strangers naturally understand what happened.

After returning from the shock, the old guys were slightly shocked, and they immediately exclaimed when they were chilling..."

what? Ye Daoyou is about to open the refining of the Tianji Avenue treasure liquid? ""

hiss! A whole three furnaces, the Hongyu Star Field can be really big, it's just a big eye..."

Three furnace treasure liquid, that is more than two hundred bottles, enough for five or six peaks of the heavens, but unfortunately there is no husband's share, it is simply awkward, how can be willing ..."

"Roar.....""

The deity does not depend on this matter. Why do they squander the three furnaces once in a hurry? The essence of the heavenly source is also there, and I would rather pay half of it as a reward. Ye Daoyou refining, today's three furnaces, this deity must be a furnace..."

Three furnaces, it is more than two hundred bottles, enough for five or six peaks of the heavens, but unfortunately there is no husband's share, it is simply awkward, how can be willing ..."

Roar.....""

The deity does not depend on this matter. Why do they squander the three furnaces once in a hurry? The essence of the heavenly source is also there. I would rather pay half of it as a reward. Please ask Ye Daoyou to refine. Today's three furnaces, this deity must be a furnace..."

"It's a joke. Ye Daoyou has only refining three furnaces today. Even if the floods are in the same place, why should you stand alone?"

"That is, it seems that the old man does not have the liquid of the heavenly source, or... do you think the old man is not your opponent?"

"Hey..."

It's about Tianjiubao, who wants to eat alone, first asked the deity to say..."

With Ye Xuan's statement, today's refining of the three furnaces of the Tianjiu Avenue, the thousands of heavenly beasts and the remains of the mortal people who are close to the sky, will soon be arguing.  
Virtual

The atmosphere in the air is inextricably tense, as if the dispute will come at any time, at the touch of a hair! flood

Tao frowned, his face was thick and worried.

Although the Hongyu Star Field can be ranked 10th in all the remaining people's stars on the left bank, even his personal cultivation is the strength. In the left bank, all the Tiandao survivors can rank more than a dozen...but

Nowadays, there are thousands of strangers in this world. Apart from the ancients and the beasts, if they really cause public anger, it is absolutely difficult for them to squat with him and the floodplain. This...

Helping the old guys are all heavenly and strange, for the sake of Tianjiu Avenue, but everything is done. After all, on the banks of the Milky Way, Tianjiu Avenue is the only hope to break through to the Hongmen Avenue.

And this hope has been lost before the million years of age, and now it is suddenly reappearing, its shock and attraction is strong, you can imagine...

In the brain, these thoughts flashed, and Hong Tao subconsciously turned to Ye Xuan. At this moment, his heart suddenly regretted a little. As I knew so, I shouldn't have been so anxious. I asked Ye Xuan in public to ask the three furnaces. The refining of things. return

It's okay to ask privately after the crowd is gone, where is the trouble now?

"They of your friends, there is no need to dispute this..."

When Hong Tao's heart was depressed, Ye Xuan had already made a sound again. He turned around and surrounded the thousands of eccentrics in the emptiness around the circle. The voice was slightly louder, and then he followed: "The three of the Hongyu Star Fields The furnace of the nine-treasure medicine is the promise that the temple has promised before the recent month. It cannot be dragged for a long time. It must be practiced today..."

As for the needs of the friends, the temple is indeed wounded today. After a while, the three furnaces are finished. If there is still some strength, then try to help you refine the two furnaces..."

"Of course, only two furnaces, it is really a lot of porridge, but Hong Daoyou has prepared for this matter, you can consult him after he can..."

Here, Ye Xuan did not say much, and turned to the first look to Hong Tao: "Hong Daoyou, follow-up things go back and say, this temple said that today to help you to refine the three furnace treasure liquid, it must be completed, now, you can Dan material was taken out..." Listen

To Ye Xuan's words, the thousands of strangers in the emptiness around the sky looked a little slower. Although Ye Xuan did not say it, they heard the meaning from it.

He clearly stated that although he only made a few stoves today, he could continue to shoot in the future, and refining the rhythm of Tianjiubao for all the strangers of the heavens. However, Ye Xuan asked, and everything was handed over to Hong Tao.

This is expected, and no one feels an accident.

After all, even the ancestors of the floods before the million years of age, in order to get more Tianji Avenue treasures, they have publicly refined the Tianjiubao liquid for the heavenly strongmen on the left bank. only

Just by refining, you can collect half of the treasure as a reward. If you have that ability, you will be willing.

These thoughts flashed through my mind, and the thousands of old geeks gathered around the imaginary sky suddenly reassured and no longer disputed.

Hong Tao is even more relaxed, smiling and casting a grateful look to Ye Xuan...

Xuan Shicai's words seem to be fluttering, but they don't say anything, but they invisibly remind the heavenly geeks around them to let them know that Ye Xuan's secret recipe for Tianjiu Avenue's treasures is It is given by the Hong Kong Star. Place

Therefore, even if he wants to help people refine the Tianjiubao liquid in the future, this matter will also be carried out through the floodplain. In this case, no one naturally dares to offend Hongtao again, otherwise he will not be able to go with himself.

Looking back at the way to evade, or in the sorting aspect, you will be forced to go back as far as possible, then it will really be a headache...

In fact, even now, Hong Tao has seen a few differences in the eyes of the powerful people who gathered from all around, which made him extremely satisfied, and his heart sighed that the Lord of the Devil, Ye Xuan, was on the road. Invisibly helping him resolve the crisis, it's too interesting..."

call out....."

Thinking like this, he didn't hesitate any more, and there was a faint sound of breaking in the air. A man was sent out by him, and he rushed away. The blink of an eye had already reached the front of Ye Xuan and turned into a storage. magic weapon. leaf

Xuan promised that his Tianjiu Avenue treasure liquid is a total of three furnaces. Refining the three furnaces and the Jiubao liquid requires a total of twenty-seven heavenly sources. Of course, it can be repeated because only nine copies of each source are needed. When the liquid enters the furnace, as long as the nine kinds of sources that are in the furnace are not identical, there is no problem at all...

Now, among the treasures that Hong Tao waved and sent, it is just twenty-seven copies of the original source of the heavens. Of course, there are other auxiliary materials, which are top-level things...

These twenty-seven original sources are not all the same, and there are similar things, but there are also seventeen or eight! This

Among them, there are seven or eight kinds of things that are not in the liquid of Ye Xuan's hands. leaf

Although there are more than forty liquids in Xuan's hands, there are only more than twenty kinds, of which fifteen or six are identical. These fifteen or six are not useful to him and must be replaced because of refining three. At the tenth level, Hongmeng Baodan needs 80 different kinds of liquids into the furnace...

Next, among the 27 sources of the 27 sources that Hong Tao took out, there were seven or eight kinds of liquids that Ye Xuan did not have. He was completely able to unconsciously put these seven or eight kinds of origins before the refining and refining. Change the liquid...

In this way, the same things left in his hands will be lost in half, and there are only seven or eight kinds left... And this is exactly what Ye Xuan is eager to fulfill the promise, to help Hong Tao to make these three furnaces The purpose of refining on the spot is.

After all, the liquidity of the heavenly source is hard to find, and the same thing in the hands of fifteen or six in hand can be replaced by half in the blink of an eye. For him, the meaning is absolutely not the same... This

Everything, after Ye Xuan put the storage magic weapon away, the short and short breaks have been quietly completed, and then Ye Xuan suddenly waved his hand, and immediately there was a man from his body... spurt out!

Chapter 5138: Tianjiu Chongzhen

"call out....."

After quietly changing half of the same things in his hands, Ye Xuan's heart was loose, and he waved his hand...

The sharp sound of the sound broke out, and a spurt of anger spurred out, and the storm rose. In the blink of an eye, it became the Shennong Baoding, the giant of Pangda, the emptiness of the sky, the mouth of the Dingkou, and the smog of the nine colors. God is dizzy! four

Zhou Zhongkong, the sound of cold air that came from an instant, the more than a thousand heavenly beasts and survivors who gathered here, although they have heard the heroic name of Ye Xuan, the master of the temple, know that he has Shennong Baoding is a barren treasure from the era of the era of the big world. It contains the nine-color flame of Shennong. It is the top of the world...

But except for a very small number of existence, the rest are basically just heard, and have not seen it before. Even before this, many of the strangers on the scene did not really face Ye Xuan.

Now suddenly he saw that he would sacrifice the Shennong Baoding, and it would be normal to have this reaction.

Even some of these heavenly blame are deep in the bottom, and there is a clear greed of greed, which clearly means greed, but it is limited to this. Ye Xuan's fierce name is on the left bank. The paragraph is no one knows, they think it is dare to think, really want to do it, but it is not necessarily realistic.

What's more, Ye Xuan is now related to the Tianjiu Avenue, the identity is too sensitive, who has the courage to suddenly shoot him in public?

For all of this, Ye Xuan didn't pay attention to it. With Baoding's sacrifice, his shoulders shook, and the whole figure instantly turned into a masculine glare, blinking into the fascinating treasure of the colorful fog. Sitting down, kneeling directly, closing his eyes...

Although the treasure of Tianjiu Avenue is far less than the 30th level of Hongmengbaodan, it is also the only supreme treasure on the banks of the Galaxy that is beneficial to the impact of Hongmeng Avenue. It is naturally impossible to refine it... ..which is

It is Ye Xuan's shot. With his pharmacy and experience, it takes a few days to refine it. It can't be distracted in this process. All the minds must be poured into it.

In this way, under the circumstances that there are more than a thousand days of grotesque around, Ye Xuan naturally cannot set himself in danger. Now he is entering the Shennong Dingkou where the colorful fog is in the air. This is what it should be. to

The refining of the Yujiu Avenue Baojing is entirely carried out inside the central volcano of Baoding Ding's inner space, because the refining of the treasure requires the use of red lotus fire, and after the shed red lotus fire is refining, Already together with its flamenaghter, Ye Xuan was included in the nine-colored flame pool at the bottom of the central volcano..."

boom....."

"Booming..."

Engraved, with Ye Xuan dying, in the nine-colored flame pool at the bottom of the volcano of the central domain, there is an earth-shattering roaring sound in an instant, and the endless red lotus industry fire directly rushes upwards, on the mountainside of the volcano of the central domain. Suspended in midair. and

Between the blink of an eye, it turned into a three-dimensional furnace that was condensed by the red lotus industry fire. three

A flame can be arranged in a row, and there are countless red lotuses inside and outside, which are blooming in a fascinating way. It looks very incomparable, but it reveals a heart-rending terror.

Although Ye Xuan just slammed a sneak peek, he actually swallowed some chaotic drugs in the dark, and the injury was restored early. It was not as bad as he said.

Now, if he refines the treasure of Tianjiu Avenue, let alone the three furnaces, it is no problem with the three hundred furnaces. This point can be seen from the opening of the three furnaces at the same time. when

However, this matter is only known to him. Everything in Ding's space, the more than a thousand heavenly geeks surrounded by the outside world, are invisible and cannot be explored...

"call out!"

"Hey..."

Soon, there was a weak sound in the mountain volcano of the central volcano. A total of twenty-seven copies of the heavenly source were divided into three dials, each of which was spurred and spurred into the mountain. These three flames can be placed in a row.

At the same time, the other fragrant materials that refine the Tianjiu Avenue treasures were all put into the tripod by Ye Xuan. Following

However, he started refining... days

Jiu Avenue Baoye is indeed extraordinary, but Ye Xuan's pharmacy talent is not a trivial matter, and the experience is rich enough to make people feel horrible.

Even if the three furnaces are refining at the same time, it is equally easy to express their own horror.

However, all these outsiders did not know. In their eyes, Ye Xuan entered the Shennong Ding Ding mouth with a colorful mist. After sitting cross-legged, he closed his eyes. The look on his face was very dignified. It seemed to be quite difficult. Look like...

In the slow lapse, the same refining with the furnace treasure, according to Ye Xuan's estimate, at most it can be completed in about four days. thing

In fact, it is true. When the fourth day is about to pass, the three flames of the volcano hanging in the central volcano will be blown up at the same time, and the furnace will be re-integrated into a red fire-fired ocean, gathered together, directly The nine-colored flame pool at the bottom of the volcano in the central area fell. and

In the void, it is San Peng Bao liquid, each of which is divided into nine hundred and eighty-one canopies, each of the awnings of the Tianjiu Avenue, only the size of the baby fist, the energy of the breath It's amazing, and there's a faint glimpse of power...

A scene fell into the eyes of the unicorn fairy, the old guy changed color instantly, and the body shape screamed and sighed, and he exclaimed: "Hey! Tianjiu Avenue treasure liquid? Big bang, you are really amazing big handwriting. Actually, one shot is three or more than two bottles..."

Previously, when Ye Xuan waved and sacrificed Shennong Baoding, the old guy had already sensed it. He walked out of the rolling mountains far away from the Dingnai space, and was not far from the central volcano, far away. he

I still didn't understand what Ye Xuan was doing today. At the moment, it was a sudden realization. The Tianjiu Avenue treasure has long been lost in the left bank for millions of years. Even the horns are only heard. Such as

It's so cold that I can see the reappearance of this supreme treasure, and as soon as it appears, there are more than two bottles in three furnaces, and the shock of his heart is strong, which is evident.

However, Ye Xuan did not pay attention to him, because the three furnace treasures did not even have a share of Ye Xuan, and the horns are naturally more needless to say.

Although Baojing refining was released, Ye Xuan did not get up. His body shape was still sitting on the knees of the Baoding Dingkou, which was carrying the colorful fog. His eyes were closed and his eyes were dignified. It seemed that he was still trying to refine. Mega of the treasure. also

After sitting for four or five days, it is estimated that the time is almost the same. He suddenly opened his eyes and outlined a smile that was relieved...

"call out....."

During the meditation, the three-furnace Tianjiubao liquid, which had already been refining, was gathered together in an instant, and turned into a milli-mantle from the mountain volcano of the central domain, directly rushing toward the Baoding Dingkou of Ye Xuan's knees. Come on... with

With Ye Xuan's dying, the three-furnace Tianjiubao liquid, which had already been refining, was gathered together in an instant, and turned into a mega-man's rushing out from the mountain volcano of the central volcano, directly to the squatting place of Ye Xuan's knees. Come and rush...

"call out!"

"Hey..."

The faint sound of breaking the air rang out, and after rushing out of Baoding, the three furnaces of the Jiubao liquid were waved by Ye Xuan in an instant, and they were packed in small bottles.

This Tao Hong has already been ready. Among the storage magic weapons he had previously handed over to Ye Xuan, there are 243 vials, which are used to refine and refine the Tianji Avenue treasure liquid... ..This

In one scene, it was unfolded at the Dingkou of Baoding. More than a thousand days of vicious beasts and remnants of the benevolent people gathered around in the distance were seen with their own eyes. In an instant, with the sound of a lot of cool air, The whisper of the tide is overwhelming...

"Look, the refining of the three furnaces of the Jiubao liquid is over..."

hiss! A lot of Tianjiubao liquid, full of breath, every awning contains a force of Hongmeng, absolutely the legendary Tianjiu Avenue treasure..."

"A whole three furnaces, more than two hundred bottles, it's amazing to light up the old man's eyes."

"Tianjiubao liquid! It really is Tianjiubao liquid. It has been lost for a million years on my left bank. Now it has finally reappeared. This can really be the blessing of the left bank."

"Since then, the treasure of Tianjiu Avenue reappears on the left bank. Although this is indeed a blessing, you should not forget that the main material needed to refine this kind of treasure is the liquid of heaven, even before the million years ago. Tianjiubao liquid has caused a \*\*\*\* storm on both sides of the Milky Way. This time I am afraid..."

Who is going to manage those? For the sake of Tianjiubao, how about the incarnation of the heavenly will to hunt some big worlds? This world is the strongest, and if there is no one who protects himself and fulfills other fellows, why not? "

"Roar....."

Oh..." said

To the excitement, some powerful starry beasts instantly screamed out of the sky with horror and screams, all of which showed endless excitement and excitement. The breath of iron and blood killing instantly emptied the void...

Obviously, they are all too eager to wait. The refining of the Tianjiu Avenue treasure requires nine different kinds of heavenly sources as the main material. Although there are more than a thousand people in the presence of the beasts and survivors, they may not necessarily There are more than nine different Tianjiu Avenue treasures in your hands...

Therefore, if there is no accident, after today's dispersal, many of the presences are estimated to be hunted immediately, not only those who have been incarnate for the incarnation of a big world, but also other heavenly powerhouses. because

For even if they are not the incarnation of the heavenly will of a big world, but since it is a strong man of heaven, it is possible to collect the liquid of the heavenly source in the hands, and to kill the treasure, it is simply unusual in the sky of the stars...

It is precisely because of this realization that the thousands of heavenly powers gathered around the perimeter are instantly looking at the atmosphere, and the atmosphere in the void is invisibly stagnant and suppressed! This

Everything Ye Xuan knows well, but he doesn't pay attention to it. The more chaotic the situation is, the more favorable it is to him, so that he can take the opportunity to fish in troubled waters and make a big fortune...

Soon, the two hundred and forty-three bottles of Tianjiu Avenue were filled and closed. All the vials were filled with the storage magic weapon by Ye Xuan, and then they were sent directly to the front. Hong Tao...this

At the moment, all around the void, the eyes of more than a thousand heavenly beasts and survivors, all gathered in this magic weapon that is rushing to Hong Tao, revealing endless greed. very

Some people are rushing to breathe, and their chests are violently undulating. complete

Actually, Tianjiu Avenue Baojing is the only Supreme Treasure on the banks of the Yinhe River that has helped the breakthrough to the Hongmeng Avenue. It has already lost millions of years...

Today, there are more than two hundred and forty bottles in this storage magic weapon, and the weight of it is so heavy that it can be seen. Look

This storage magic weapon rushed toward Hong Tao, and some of the guys even had a strong incompetent attempt to \*\*\*\* it, but this impulse was finally forced by their teeth. because

In order to do so, I will not show up at all. There are thousands of strangers in the field. No matter who shoots, it is absolutely impossible to escape smoothly, but it will fall. which is

After that, he escaped a life. Since then, he has offended Hong Tao with the owner of the magic hall, Ye Xuan. If you want to ask them to refine the treasure of Tianjiu Avenue, it is absolutely impossible.

At one moment, the atmosphere in the void was stagnant to the extreme. Hong Tao was even more nervous, his heartstrings were tight, and his heart was hanging over his eyes.

He was really afraid of any accidents in this last festival, but in the end everything was calm and the spurt of the storage magic weapon fell smoothly into his hands...

"Ha ha ha..."

Ye Daoyou is really a believer..."

In the hand, this storage magic weapon with 243 bottles of Tianjiu Avenue treasure was taken into the body by Hong Tao. This

For a moment, he has been hanging over the eyes of the blind man and completely fell back, his face also showed a happy color, and he laughed and complimented Ye Xuan.

Then I turned around and then asked: "Oh yes, except for the three-day Tianjiubao that promised the old man on the same day, Ye Xuandao also said that he would like to see how his own state after refining, and then decide whether Help other Taoist friends to refine two furnaces..."

I don't know if Ye Daoyou has finished the three furnaces now. How was the previous injury? If the power is not enough, it is okay to delay the matter a little. You must not be reluctant, or you can take your own treasure as a priority..."

This is a good word, on the surface it seems to be concerned about Ye Xuan, but in fact it is clearly urging. leaf

Xuan heard the words, my heart suddenly sneered, the old guy is really not a thing, just cross the river to dismantle the bridge, he just gave him a three-fired day Jiubao liquid, and now he was calculated.

He deliberately mentioned this matter, on the one hand, in order to show the thousands of eccentrics gathered around the four, on the other hand, it is clearly the rhythm of transferring attention.

After all, if Ye Xuan refines the two furnaces, then he will not only have Tianjiubao in his hands, but he will take too much risk from him, and he will offend people if he is unsuccessful. Therefore, even if someone really wants to rob, he must choose other Two furnaces, Tianjiubao liquid starts... When

Of course, all this has nothing to do with Ye Xuan, and whoever robs him has nothing to do with him. but

This old guy clearly knows that Ye Xuan is injured in the body, and now he has just helped him to refine the three furnaces of the Jiubao liquid. In order to transfer the sorrowful thoughts of the people, he has ignored this point, and his heart can only be seen. It's just like a white-eyed wolf... brain

In the flashing of these thoughts, Ye Xuan's bottom also has a cold flash, and you are not benevolent, I am not righteous, and you have a good time to go back. but

On the surface, he did not show it. Instead, he smiled at the first jaw and accepted it in one bite: "Hong Daoyou does not have to worry. It is no problem to refine the two furnaces. Since it has already been promised, naturally it cannot be pushed, these two furnaces... ..this temple is refining!"

There were more than a thousand monsters and survivors in the field, and Ye Xuan's refining Tianjiu Avenue was only two furnaces. This

Obviously it is not enough, no matter who the two furnace refining quotas are, no one else will agree...  
no

However, regarding this matter, Hong Tao had already negotiated with the more than a thousand heavenly beasts and survivors of the three-furnace Tianji Avenue in the first three furnaces of Ye Xuan.  
Two

The number of furnace refining quotas, one side of the beast and the other side of the beneficiary. but

But it is still not for whom, but for refining.

On the other side of the beast, the nine heavenly beasts, which are more famous in the right section, take out a liquid of Tiandao origin and refine a furnace of Tianjiu Avenue. Session

After the refining was completed, the nine hundred and ninety-one bottles of Tianjiubao liquid were released. The nine beasts who provided a liquid of Tiandao origin were equally distributed, each with nine bottles. to

The same is true of the furnace on the side of the survivors. The nine famous people in the right section, the more prestigious Tiandao remnants, each take out a liquid mixture of Tiandao origin...

This is naturally the best distribution plan. Even if there are people who are unwilling, the nine-headed beasts and nine heavenly benefactors selected by Hong Tao are all in the right section. They are opposed to them. At the same time, he also offended Ye Xuan and Hong Tao, so that situation will no longer appear, even if someone is upset, they can only recognize...

In fact, in the first three furnaces of Ye Xuan's refining, Hong Tao not only confirmed the refining plan with a group of heavenly geeks in the surrounding air, but even already had these 18 powerful beasts and survivors. Each of the liquids from the Tiandao source was collected...

In the two furnaces, a total of 18 liquids of Tiandao origin, together with other auxiliary materials, are now in the hands of Hong Tao, and he is placed in another storage magic weapon.

"Dear friends, although Ye Daoyou has promised refining, but one thing, the old man must explain in advance..."

Seeing that Ye Xuan nodded, Hong Tao nodded, and then turned to the 18 heavenly beasts and the remains of the old people.

The face looked awkward, and this only took it: "This Tianjiu Avenue treasure liquid was created by Hong Hao, the ancestor of my Hongyu star field. Before the million years ago, it was already customary on this left bank. The liquid and other auxiliary materials, please flood the ancestors to refine the Tianjibao liquid, the treasures that will be released at that time, the old ancestors will be charged as half of the compensation, that is, forty bottles..."

"Now, after a mile of years, Tianjiubao liquid reappears on my left bank, but the rules of the year cannot be broken. Otherwise, I hope that Ye Daoyou will also lack interest. After all, people have no such obligation..."

"So, in the future, someone will ask Ye Daoyou to refine the Tianjiubao liquid. The remuneration is still the same as that of the year. Each furnace is deducted forty bottles..."

"As of today, since these two furnaces are all made up of nine friends, in order to facilitate the distribution, the old man means that Ye Daoyou only receives 36 bottles per furnace."

In this case, the two furnace treasures deducted the reward of Ye Daoyou, and each of them can still have forty-five bottles, each of which is equally divided by nine friends, exactly five bottles per person..."

However, it is accurate, everything has been arranged for Ye Xuan, but it is not clear that this half of the reward will be divided into 50%, which is to let Ye Xuan attract hate value, his rhythm of making money, It's really a slap in the face. Do not

However, even if he did not say that the remuneration of Tianjiubao liquid was rectified, everyone knew that there was no objection now, and Ye Xuan naturally refused to take the initiative to say more about it. Secretly sneer, nodded and nodded. "

call out....."

Seeing Ye Xuan nod, the more than a thousand days old geeks gathered around the imaginary sky have no objections. The floods are dark and happy, and now they don't hesitate. With a wave of hands, the magic weapon of these two materials is loaded. I rushed to Ye Xuan...

Between the hands, the treasure of storage falls on the palm of the hand, and the power of the gods of Ye Xuan is extended into it. Under the investigation, the mind is stealing...

Although there are only 18 copies of the source of the heavenly source in the Fabao, half of it is not in the hands of Ye Xuan, and Ye Xuan's hands repeat the same source of liquid, and now there are only eight. and also

That is to say, he can now replace all the similar sources of heaven and earth in his hands. As a result, the total of forty-three copies of the heavenly source in his hands are all different, and there is no similar thing... ...

To make a thirty-level Hongmeng Baodan, you need a different kind of heavenly source of liquidity. As long as Ye Xuan waits for the last eight identical things, the source of his source has been put together. Half of the foot is more, which is naturally gratifying. One

The cut was completed very quickly, and Ye Xuan quietly replaced the last eight identical sources of liquid in his hand.

At this moment, his mood is very good, because today's so tossing, replacing the same source of the same source of the hand, is one of the most important reasons, and now finally fully completed. "

Friends, wait a few more days..."

With a long sigh of relief, he turned to the eighteen eyes of the surrounding sky, and the noisy Tiandao grotesque nodded. After saying hello, he immediately closed his eyes and reopened the Tianjiu Avenue. Refining...

"boom....."

"Booming..."

For a moment, with Ye Xuan's dying, the nine-colored flame pool at the bottom of the volcano in the central domain once again sounded the earth-shattering roar...

The endless red lotus fire of the awning rushed directly from the hillside of the volcano of the central domain, but this time, it was only divided into two purely condensed by the red lotus fire. Furnace Ding only, also in the mid-air of the volcano of the central domain volcano... lined up!

"call out!"

"Hey..."

When it was ready, the weak sound of the air broke out immediately. A total of 18 liquids of the heavenly source were divided into two dials. Each set of nine lasings went and fell into the two flames of the mountain belly. Within the furnace, the other auxiliary materials including the refining Tianjiubao liquid are also the same, and all of them are put into the flame energy furnace by Ye Xuan.

The two furnaces were refining in just three days.

At this time, the three flame energy furnaces suspended in the central volcano in the middle of the volcano explode at the same time, turned into a red fire industry and ocean gathering, directly fell into the nine-colored flame pool at the bottom of the central volcano. and

In the void, there are two awning treasures, each of which is divided into nine hundred and eighty-one awnings. Each awning is not only the size of the baby fist...

Xuan did not get up, and waited for three or four days before he suddenly opened his eyes.

During the meditation, the two furnaces of the Jiulongbao liquid, which had already been refining, were immediately gathered together and turned into a mang rushing out from the mountain volcano of the central volcano. "

call out! ""

Oh..."

The faint sound of breaking the air rang out, and after the liquid rushed out of the Dingkou, Ye Xuan immediately waved, directly packed in bottles, leaving 72 bottles, and the remaining ninety bottles were loaded into two pieces of storage magic, waving Send out... this

In the past few days, the 18 heavenly beasts and the widows who have provided a liquid of heaven and earth have been looking forward to the eye.

Nowadays, the two furnaces belonging to them are finally refining, and the old guys naturally will not have any hesitation. Ye Xuan just sent these two pieces of storage magic, and the 18 heavenly lords are divided into two groups. Put the ninety bottles of Tianjiubao inside, and divide it up...

Eighteen people, five bottles per person, although far from enough to make a nine-order grand perfection of the peak of heaven, retreat after swallowing, successfully break through the Hongmen Avenue after the Heavenly Road... that at least 40 bottles or more ! but

After all, this is the Tianjiubao liquid. It has been lost for millions of years on the left bank. Now even if there are only five bottles in hand, it is also a happy thing. ten

All the eight old geeks laughed happily, and after the five bottles of Tianjiubao liquids were collected into the body, the first time they handed over to Ye Xuan, thank you...

Said Ye Xuan received the remuneration of the refining system, a total of seventy-two bottles of the two furnaces, so that they are somewhat hurt, but this number of rituals can not be less, and later rely on Ye Xuan to shoot, and then continue Help them refine the treasure. leaf

Xuanjiu first, did not say much, the body shape swept away from the treasure of the tripod of the colorful fog, and then waved, directly into the body of Baoding...

"call out....."

Without hesitation, after Baoding was put away, Ye Xuan even waved his hand again, and a mans rushed toward Hong Tao. His eyes went to him, and it stopped abruptly. It was a treasure of storage.

This storage magic weapon contains 36 bottles of Tianjiubao liquid. It is the distribution plan that Ye Xuan originally negotiated with Hong Tao. All the rewards will be taken out halfway and distributed to Hongyuxing.

Although Ye Xuan has some pain in the matter, it is impossible to be sloppy, because he once swears by the heart, naturally he will not lose because of smallness. when

However, this time, although Hong Tao had obtained 36 bottles of Tianjiubao liquid, according to Ye Xuan's plan, if there were no accidents, similar things could no longer appear again.

This kind of unprofitable business, the old guy wants to do it for a long time, it is simply impossible. this

Let him taste some sweetness first, and soon after he cried..."

Hahaha..."

"Ye Daoyou has worked hard, it is really hard..."

Although Ye Xuan did not say what was in the magic of the storage, when he waved his hand, the dawn of Hong Tao's eyes became already fierce. Such as

Today, the magic weapon that has stopped in the air in front of him will be taken over. Under the knowledge of God, it is sure that it is 36 bottles of Tianjiubao liquid, and his face is instantly brilliant. Smile, turn your hand and put the magic weapon in the store, and hold the fist to Ye Xuan, and you are very attentive...

In the former three furnaces, he had already had 243 bottles of Tianjiubao liquid, and now he has to account for 36 bottles. After counting, the total number of Tianjiubao liquid in Hongtao's hands is already two hundred and seven. Nineteen bottles of giants...this

Absolutely an amazing number, both are close to three hundred, although it is still impossible to ensure that all the heavenly geeks in the Hongyu Star are divided into more than forty bottles, but at least they have already made up a small half, which naturally makes him happy. more

The key point is Ye Xuan's attitude. This guy is really on the road. It's not a bragging thing to spit a nail. He is here. This is a profit-free business. After that, I'm afraid I have to do it for a long time. Tianjiubao has been receiving it. The hand is soft..."

You, Ye Daoyou was the body of the wound before, and the teeth were strong for ten days before the refining of the five furnaces of Tianjiu Avenue was completed. If it was dragged down for a long time, it was afraid that Ye Daoyou himself would be damaged..." heart

Under the head, Hong Tao, who was full of red light, turned to the surrounding emptiness and looked around for more than a thousand days. The old geeks looked around and then took the fist and said: "So, the refining of the Tianjiu avenue is probably only today. Can stop here..."

"But you can rest assured that Ye Daoyou will rehabilitate the wounds. After the recovery, he will definitely shoot again and refine the Tianjiubao for the Taoist friends..."

Prior to this, the pre-arrangement of the treasure refining system, the old man is willing to bear the burden, so that after Ye Daoyou out of customs, they have to worry about these trivialities, wasting energy and time..."

Therefore, if you have the refining needs of Tianjiubao liquid, you can directly explain it to the old husband. After the old man returns, he must make a unified arrangement and plan the refining plan.

After Ye Daoyou's customs clearance, he will immediately be able to take the shot and start the refining. System..."

The sky and the old geeks are waiting for his words. At this moment, Hong Tao has taken the initiative to express his feelings. Even if he is in twos and threes, he will whisper and whisper.

And soon someone raised the need for refining, which invisibly exposed the approximate amount of the liquid of the heavenly source that they had in their hands...

"No one should grab the old man, and after Ye Daoyou recovers the customs, the first furnace must first help the old man refining..."

The deity must also refine the furnace..."

Yellow robe, you don't have three kinds of sources in your hands? The number is just right, how is the old man working with you?"

"Hong Daoyou, I am waiting for three people to be together!"

There are also deities, there are five kinds of sources in their hands, even if the Taoist friends can come up with four to reconcile with the old man..."

Someone took the lead in making a statement, and the sky was full of excitement. For more than a thousand days, all the blame was full, and one-third of them were all vocal. If they were rich, they could refine a furnace of Jiubao, the worst. At the same time, at most four or five people have a furnace together... Hong

Tao Xiao's mouth could not be closed, because according to what he said before, he charged 40 bottles as refining rewards, and these rewards Ye Xuan will take half of them to the Hong Yuxing domain to calculate. Can get 20 bottles of Tianjiubao liquid.

This is truly unprofitable, the old guy is very attentive, his mouth is behind his ears, but there is noisy around the void, but he is happy to play with it, constantly using jade to record the truths of the heavenly lords. Refining needs...

Unknowingly, the Tiandao old geeks who have the refining needs gradually rounded up Hong Tao, rushing to contact the partners and report to the refining needs, but Ye Xuan, but was left behind. This

A scene fell in the eyes of Ye Xuan, and he secretly sneered in an instant. At the same time, the Taoist geeks who were concentrating on Hong Tao and actively reporting the refining needs, whether they were beasts or survivors, were all taken by him. Remember in my heart... leaves

The reason why Xuan Xuan took advantage of this coming Hongmeng Dan to bring the Tiandao old monsters on the right bank of the left bank, this is the ultimate goal.

At the moment, all the thoughts of the old guys were attracted by the treasures of Tianjiu Avenue. They didn't realize that the heavenly treasures they had in their hands had been silently leaking in the eyes of Ye Xuan, and they had already been given to him. Up.

They wouldn't even think of it, not long after, a hateful bite will come to their heads...

Chapter 5139: First bomb

"The friends of the Dao, the temple is wounded in the body, it is inconvenient to stay here for a long time, returning to the right bank to retreat first..."

After the information needed was almost complete, Ye Xuan immediately heard the voice of the gods: "As for the refining of the Tianjiu Avenue, you can directly contact Hong Tao's friends in the Hongyu area during this period..."

"A year later, the temple will visit the Hongyu Star Field, for the Taoist friends...Open the refining!"

Hearing the words, thousands of days of vicious beasts and survivors of the surrounding emptiness all turned around and looked around. After Ye Xuan finished, they all fought and shook hands. "

Oh..." Qing

The crisp and empty sound rang, Ye Xuan waved, tearing a void crack in front of him, then he swayed his shoulders, stepped into it, and disappeared without blinking...

The Tiandeng old geeks did not stay for a long time, and all of them were scattered. Some of them had a slight friendship with Hong Tao. They went back to Hongyuxing with him, and took the opportunity to get closer and close the relationship. ...

Obviously, after today, Hong Tao's identity in the right section of the left bank will once again rise, because Ye Xuan, the master of the Devil's Temple, has an agreement with him. On the Tianji Avenue, Ye Xuan only refines, and everything else is trivial. , all are responsible for Hong Tao!

The matter was raging and soon spread from the right segment to the middle and left segments of the left bank. I think that soon after, even the right bank of the Milky Way will be heard...

This is what it should be. On both sides of the Galaxy, Tianjiu Avenue has always been the only Supreme treasure that has helped the impact of Hongmeng Avenue. It has been lost for millions of years and has finally reappeared. It is destined to be shocked. On both sides of the Milky Way. but

At the same time, a storm that swept across the banks of the Milky Way will inevitably come. This scene has already appeared before the million years of age, in order to seize the main source of the refining Tianjiubao liquid. I don't know how many Heavenly Powers will be prey, and they will fall down after being hunted.....

..."

call out....."

The faint sound of broken air rang out, and a figure spurred from the darkness of the darkness in the distance, and it was the Ye Xuan who claimed to return to the right bank of the Forbidden City for retreat.

It is still the right bank of the left bank, because Ye Xuan did not intend to return to the right bank. His body was swallowed by the chaos caused by the previous hard-hitting smashing of a scorpion. The medicine was completely restored. very

Fast, with the perfect shock of the spirit of the full force of the secret activation, Ye Xuan's body shape is hidden in an instant, all the air is also converged, and the virtual air can no longer capture the unusual atmosphere. he

The reason for staying in the right section of the left bank is to hunt down the old monsters and seize the liquid of the heavens in their hands.

Previously, the thousands of Taoist geeks gathered in the right section had inadvertently leaked the approximate amount of the liquid of the heavenly source they had in their hands when they asked Hong Tao for the demand for refining.

All of this was seen in Ye Xuan's eyes, and it was recorded in the heart. Only two days later, he started the hunting operation. The first purpose of the selection was a stranger. This

The remnant of the old man is also good for the strength. For the late stage of the seventh-order heaven, from the information he revealed earlier, there should be about five or six kinds of liquids in the hands of this person.

Just a hundred billion miles away is the remnant of the remnant of the remnant, but the physique is hidden. Ye Xuan, who has gathered the air, has not continued to enter the interior of the star, but is outside. Wait, because the old guy hasn't returned yet, but it's fast...

This time the hunting, Ye Xuan did not intend to open up brazenly, but intends to crouch in the dark, waiting for the opportunity to shoot from time to time ...

Before the age of 10,000 years ago, the birth of Tianjiu Avenue Baoye had caused a violent storm on both sides of the Yinhe River. In order to refine the liquid of the heavenly source necessary for the refining of the Tianjiubao liquid, countless heavenly beasts and benevolent strong fighters fought. Killing is endless. Such as

Although it has been separated by millions of years, with the loss of the Tianjiu Avenue treasure liquid again, similar hurricane and blood will surely sweep across the banks of the Milky Way...

It can be said that in the near future, all kinds of killings will be fully launched and will continue. This

In this case, Ye Xuan is doped in it, concealing his body shape, and collecting the air machine. The fish in the water will be shot from time to time, and will not cause much attention. although

However, it is as fearless as to rob the hunter and hunter, but since it can quietly make a fortune, why bother to deliberately hate yourself? No

Wrong, Ye Xuan was originally fierce. Whether it was on the right bank of the Galaxy or on the right side of the left bank, there was nothing to do with the killings.

But in fact, this time, no matter how much the banks on the banks of the Milky Way, as long as Ye Xuan did not expose himself when he was shooting, or he would see that his presence was all killed, then whether it was the left bank or the right bank. The old geeks will never doubt that he is also involved in this crazy killing...

Because it is very simple, other people start killing and smashing the blood and rain, but in order to \*\*\*\* the essence of the heavenly source, and they rob the ultimate purpose of the liquid, but still ask Ye Xuan to shoot, refining the Tianji Avenue treasure liquid.....

For Ye Xuan, if he wants more treasures of Tianjiu Avenue, he doesn't have to shoot and kill. He only needs to take some time and effort to refine. He can charge four for each furnace. Ten bottles of treasure liquid as a reward, why bother to toss?

"Oh..."

After waiting for two days, the right rear side touched the dark void outside the tens of billions of miles, and suddenly there was a crisp and fierce sound. One

The road void crack appeared out of nowhere without warning. Then, he walked out of the figure and was the seventh-order remnant of Ye Xuan who had waited for two days.

Seeing the appearance of the target, Ye Xuan's spirit was invigorated. Under the glimpse of the gloom, he immediately rushed over and rushed over. At this time, he was a violent form, and Zhang's high-handed black sticks were also in his hands. Has been taken out. Do not

However, because the magical spirit of the perfect shock has always been in a state of full activation, the seventh-order remnant who has just torn the void has not noticed a slight abnormality at all. I don't know that Death is approaching him quickly... .."

boom! "With

Close, Ye Xuan shot in the first time... this

At one moment, a terrible noise came, and Ye Xuan, who was behind the other side, picked up a \*\*\*\* stick, and the porcelain was incomparably bombarded on the body of the seventh-order survivor. old

The guys have arrived at the door of the house, and they are nervous and relaxed. They didn't expect this to happen. They didn't even have time to react. The whole body shape exploded in an instant, turning into a red blood fog and spreading rapidly... ..

"Call..."

The sound of the wind whistling, Ye Xuan waved in the first time, a huge invisible instinct screamed away, and swept the \*\*\*\* fog together with the hidden magic weapon, and sent it directly into the body... .."

Call out..."

Inadvertently, Ye Xuan hit a hand, the seventh-order survivors did not wait for the reaction, the body shape has exploded, the form of God!

Ye Xuan waved in the first time, accompanied by the whistling sound of the screaming wind, a huge invisible instinct of anger screamed, swept the \*\*\*\* fog together with the hidden magic weapon, directly sent in vivo.....

"Oh..."

Later, he waved and tore a crack in the void, and immediately broke into it. Under the flash, the figure disappeared.

After a small half day, Ye Xuan appeared in the void of another area, and his body shape was still hidden, but between the hands, he was taken out of the storage magic weapon that was thrown out of the seventh-order survivors. .

After erasing the branded gods, Ye Xuanyi looked up and his face instantly showed a happy color.

In the late seventh world, the old geeks are naturally rich, and the treasures of this treasure in the storage magic are dazzling, all of which are top-notch. and

There are five kinds of liquids that Tian Xuan cares about, but it is a pity that there are two kinds of them in his hands. That is to say, now Ye Xuan, the liquid of the heavens in his hands, is... forty Six, forty-eight! although

However, only three kinds have been added, but after all, it is only one shot. It is very good to have such a harvest. This is truly unprofitable, and there is no risk. Ye Xuan is screaming and making a fortune. No one on the banks of the Milky Way will think of it! "

Roar! "

"Booming..."

"Damn guy, you both dare to shoot the deity..."

At this time, in the darkness of the darkness, there was a sudden sound of roaring, followed by thunder and thunder, and a fierce beast roaring...

In Xuanyuan, there was a flash of gloom, and he subconsciously turned his head and looked at it. His shoulders were also swaying and quietly approaching. number

After 100 billion miles, there were three figures in the void. The two survivors were all in the late stage of the seventh-order heaven. The other figure was a fierce beast, and it was also the seventh stage of the heavens! three

The old guy is screaming fiercely, and the savage beast that was left alone is obviously ambushed. The two heavenly remnants who have the same strength as him must be directed at the liquid of the heavenly source in his hands...

From this point of view, this is destined to sweep across the entire bank of the Milky Way. Most of the time, it has already begun in the right section of the left bank.

The scene that happened in front of you, in other areas on the right side of the left bank, may also be or... imminent!

The three old guys who are violently struggling in front are repaired to the same strength. Although the heavenly beasts have fallen into a single, they are full of blood and suffocating, and they should be innocent in a short time. This

The opportunity Ye Xuan naturally will not let go, the three old guys did not expect that there are others crouching next to them, and it is still a horrible to the terrible peak of heaven.

In this case, Ye Xuan suddenly shot, they were caught off guard, and the possibility of being completely killed in a short time, at least 70%..."

Roar! "

"Hey..."

When Ye Xuan's heart was moving, the middle of the cold man's flash was about to be shot. In the dark void in the far right side of the right side, suddenly there were several earth-shattering beasts roaring, revealing endless days. anger. turn

Looking forward, four huge incomparable figures are reflected in the eyes. These are the four starry beasts, all of which exist in the heavens. The weakest is the fifth order of the heavens, and the strongest has reached the eighth order of the heavens...

Xuan could not determine whether the four heavenly beasts were acquainted with the beleaguered beast that was being besieged, but since the siege of him was two widows, the result was the same whether they met or not.

These two survivors are also unlucky. They were originally two Lingyi, and they will break into a two-to-five crisis in the blink of an eye. Today, I want to live and leave this place. I am afraid there is not much chance... brain

In the flash of these thoughts, Ye Xuan suddenly sighed.

In the same way, his mobile phone will not be there, because it is counting on the four heavenly beasts that will come here soon. The heavens and monsters gathered here have reached the seven giants... ..

There is even a strong presence of heaven and earth.

In this case, even Ye Xuan, it is impossible to kill them all in a short time. true

If you want to force a shot, he will leak his whereabouts and expose his own possibilities, which will be as high as 90%!

After weighing the balance, Ye Xuan finally chose to give up. The whole left bank of the right bank holds the heavenly source of liquid in the hands of the heavens and the old blame is too many, hundreds of thousands of giants, so many goals to choose from, he did not It is necessary to expose yourself to these old guys...

"Hey..."

After he was fixed, he did not hesitate, and he did not wait for the four beasts of the heavens and the beasts to come close. He turned and went straight. After hundreds of billions of miles away, he waved a crack in the void. Go to the next ambush...under

One goal is not the singularity of the survivors, but the heavenly and fierce beast. It was the guy who was screaming for the first time after Ye Xuan's first furnace to help him refine, a demon blood wolf, and repaired as the eighth in the heavens. Extremely strong.

In fact, compared with the old people, Ye Xuan is more willing to pick the heavens and fierce beasts. because

In order to kill the remains of the remains, although in addition to the liquid of the heavens, you can get all the cultivation resources in the storage magic weapon, but the \*\*\*\* fog formed by the natural beasts of the beasts can be refined into a heavenly blood. fine.

In addition to the need for five elements of medicine and eighty different kinds of heavenly sources, the refining of a thirty-level Hongmeng Baodan also requires eighty-one blood, and Ye Xuan's hands are only fifty-five. Only the gap, the gap is not small...

Therefore, if you choose to start with the target of the survivors, but since it is a heavenly beast, then this shot will definitely not be lost, this heavenly blood and quantity are not equal, it is very likely to exceed nine The number of heavenly sources, Ye Xuan is determined to be..."

Oh..."two

After the day, Ye Xuan arrived at the wolf where the \*\*\*\* wolf was sitting, but it was not close, but it was crouched down in the dark void of hundreds of billions of miles away from the edge of the forbidden land. . he

I am not sure if this \*\*\*\* wolf has returned to the forbidden place, but it does not matter, stay here, no matter what the forbidden beast passes, Ye Xuan will shoot, after the Thunder to kill, just start the soul search You can get the information you need in an instant...

What he did not expect was that after waiting for one day, other forbidden beasts did not see it, but it was the Lord, but unexpectedly appeared...

"Oh..."

With the crisp cracking sound, the tens of billions of miles on the right side of the front, a void crack appeared out of thin air, and then a figure emerged from it, letting Ye Xuan suddenly squint, the light in his eyes changed instantly. Strong...

The wolf is forbidden! leaf

Xuan waited for a full day here, and other forbidden beasts did not see it, but it was the Lord, but unexpectedly appeared unexpectedly...

"Oh..."

The brittle cracking sound rang, and the tens of billions of miles away from the front right side, a void crack appeared out of thin air, and then a figure emerged from it, which is the magical blood wolf of the eighth heaven! This

The repair of an old guy is not weak. The eighth-order heaven is far from the ninth-order grand perfection. It is only a first-order difference. If it is a frontal battle, even if it is the strength of Ye Xuan's cultivation, it is necessary to kill it. , all need to spend some hands and feet...

Nowadays, although he is crouching in the dark, waiting for a sneak attack, but the distance from the front of the wolf is not too far away, it is only less than 200 billion miles, and once Ye Xuan shot, the figure will be revealed in an instant. This

In this case, if the demon \*\*\*\* wolf reacted, he would desperately use the secret communication, even if he was eventually killed by Ye Xuan, but Ye Xuan's actions will be exposed...

He must be careful about this matter, otherwise it would be too uneconomical to expose everything just to hunt this \*\*\*\* wolf!

These thoughts in the brain when the electric mang generally flashed, Ye Xuan has quietly spurred toward the \*\*\*\* wolf.

After the other side stepped out of the void crack, there was no delay, and the body shape rushed to the edge of the forbidden land ahead. Obviously, he should have been delayed for a few more days because of other things, and now he has just returned to the town. Wolves are forbidden...two

Although the imaginary distance of 100 billion miles is not close, it is not too far away for the powerful existence of the eighth order of heaven and earth. Ye Xuan's time is not much, otherwise the other party will soon fall into the wolf In the forbidden land, when you want to shoot again, I am afraid it will be too late, otherwise it will definitely be exposed...

The urgency of the attack, Ye Xuan no longer hesitate, squatting in the cold mang, flashing a moment...

"call....."

A wave of hands, the bright red demon suddenly flashed, greeted by the storm, a hang of the majestic river is instantly in the void, the waves in the river are so shocking, each one is only a small size, but boundless, it is exactly The red lotus industry fire was sacrificed, and the retreat of this magical blood wolf was directly closed to the left side of the void...

"This is... Honglian industry fire?"

Suddenly encountering an ambush, this magical blood wolf stunned the spurt of the spurt in the air, and suddenly disappeared under the change of color. At the same time, he turned to the position where Ye Xuan was. . suitable

Only when the storm rises into the glamorous red mans of the hanging industry, it is violently shot from this direction. This \*\*\*\* wolf is a powerful presence of the eighth-order heaven, and the sense of the mind is sharp and natural. at this point.

In fact, with the shot, Ye Xuan's original shape and hidden air under the secret of the perfect shocking spirit are also exposed.

Suddenly seeing his figure, the \*\*\*\* wolf is awkward, his face is full of ecstasy: "Ye Daoyou? How could it be you..."

"Card!"

His voice has not yet fallen, and a blood-colored lightning with a diameter of tens of thousands of miles has appeared in the air without warning on his head. It is shocking and screaming directly.

At this moment, Ye Xuan promoted the spirit of thunder and lightning to the extreme... old

The guy was accidentally smashed by this \*\*\*\* lightning, and the glare of the body was fascinated. This is the spirit of thunder and lightning, and it is the ninth order with the powerful training of Ye Xuan. The greatness of the heavens and the peaks of the heavens will be awkward, not to mention the fact that this \*\*\*\* wolf is only a heavenly eighth.

However, just relying on this spiritual thunder and lightning, it is far from enough to kill him. Even even serious injuries have some gaps. At most, it is just a few moments of confusion. . but

For Ye Xuan, it's just a short moment. For Ye Xuan, it's completely enough...

"Go to death..."

At this moment, Ye Xuansen's cold and incomprehensible voice, the \*\*\*\* stick has also reached the target's head...

"Hey!" Giant

It was shocking, the \*\*\*\* stick fell, and the porcelain was incomparably bombarded on the top of the \*\*\*\* wolf. The old guy didn't have any time to react. The whole huge figure exploded in an instant, turning into a blush. Blood fog, rapid spread...

"Call..."

But a heavenly blood, naturally can not be wasted, Ye Xuan waved in the first time, the sound of the whistling wind screamed in an instant, a huge invisible instinct screamed away, the \*\*\*\* fog swept away, directly It is sent to the bottom of the volcano in the central area of the Dingnai space, and the blood is refined. to

Therefore, Ye Xuan's Tiandao blood essence has added one more, which has reached 55 before, and now there are fifty-six giants! but

However, he did not give birth to the joy of this. Instead, after a glance, his face turned into a gloomy water...

The starry beasts are not the same as the ancients. The survivors have various magic weapons. They are usually carried with them and are placed in the magic of storage. but

Starry beasts rarely have storage magic, and the important treasures and cultivation resources in their hands are all in the income.

But now, Ye Xuan has smashed this \*\*\*\* wolf, although he waved the \*\*\*\* fog formed by his physical explosion, but in addition, he did not sense the origin of the heavens in his body. The breath of liquid...

Today's Ye Xuan is the ninth-order grand perfect peak-level powerhouse. Naturally, there is no possibility of destroying the source of the liquid under the mistakes. So, there is only one explanation in front of it, that is, the heavenly source in the hands of this old guy. The liquid is no longer in his hands... this

An important resource, the \*\*\*\* wolf can not be placed elsewhere, and it is even more impossible to transfer it to others for consideration. Considering that he has only returned to the forbidden place until now, Ye Xuan's heart is suddenly born with enlightenment. The only possibility is that he has just returned from the floodplain. And the liquid of the heavenly source in his hand, in all likelihood, has been handed over to Hong Tao, the principal of Hong Yuxing! complete

The floodplain that Jing Hongtao is sitting on is the tenth largest monster in the star field of the left bank. Even his personal cultivation is able to rank among the top 20 in the left bank. again

In addition, he now has Ye Xuan this channel free and continuous to get the Tianjiu Avenue treasure, the \*\*\*\* wolf is obviously not worried that he is greedy with the liquid of the heavens, in order to close the relationship with Hong Tao, in order to be able to In front, please ask Ye Xuan to refine the Tianjiubao liquid, and hand over the liquid of Tiandao to Hongtao in advance, which is completely understandable...

This situation is mostly caused by Hong Tao's initiative. In order to ensure his own interests, the old guys are eager to get all the liquids in the hands of Tiandao, who have this need, in advance!

The thoughts flashed through my mind, and Ye Xuan suddenly hated it. His face was gloomy and gnashing his teeth: "The \*\*\*\* Hong Lao ghost, it's just that..."

"The \*\*\*\* Hong Lao ghost, it's just that..."

After the bombardment of the demon blood wolf, although he waved the \*\*\*\* fog formed by his physical explosion, but in addition, he did not feel the breath of the liquid of the heavenly source in his body...

The result turned Ye Xuan a glimpse, and then he realized it. He realized that the liquid of the heavenly source in the hands of the old guy was no longer in his hands, and he suddenly gnashed his teeth. press

According to his estimation, there is absolutely no more than nine kinds of liquids in the hands of this demon blood wolf. If you can get it, it is definitely an amazing harvest for Ye Xuan. but

Nowadays, I have tossed down, but only harvested a heavenly blood, and the nine kinds of natural sources of the liquid have fallen into the air, as if the bamboo basket is watering, so that his heart feels empty and very unpleasant. !

Although this is only a case, if no measures are taken, similar situations will surely occur one after another. because

In accordance with Ye Xuan's estimation, the liquid of the heavenly source in the hands of the demon blood wolf is mostly taken out by Hong Tao's initiative and handed over to him.

In order to ensure their own interests, the old guys are eager to get all the liquids of the heavenly source in the hands of the gods and geeks who have this demand.

After flashing these thoughts, Ye Xuan's face sank and immediately made a decision: "No, you must not let him do this anymore. This is simply a matter of heart and soul."

Oh..."

A wave of cracks appeared in front of him, and Ye Xuan swept into it and disappeared instantly.

Once he did not go far, he crouched in a forbidden place in the nearby star field. ban

The name of the land is Yingtan. The strongest person who sits in the middle of it is a \*\*\*\* goshawk. It is cultivated as an extraordinary strength. It is the peak of heaven and earth.

This \*\*\*\* goshawk has a lot of heavenly sources in his hands, but before that, Ye Xuan did not intend to shoot him, because the other side's strength is not weak, and he wants to quiet before he sends out the message. It's almost impossible to kill it with a loud voice.

Instead of shooting him, it is better to pick some of the middle and late days of the old hunters, although the source of the heavens is not so much, but it is not a big deal, at least once or twice, to ensure that the news does not leak...

In fact, even if she is now staring at this \*\*\*\* goshawk, Ye Xuan does not expect to get at least nine kinds of heavenly sources in the hands of the other party, because then the old guy must be killed.

And if you want to ensure that it is killed, Ye Xuan must use the Shennong nine-color flame, or the or the red lotus industry fire, and even have to show the strongest form of the three-headed and six-armed konjac true...

To be like that, the fool can know who the shot is, so he temporarily changed his mind and stared at the main purpose of this \*\*\*\* goshawk, and could not be realized..."

call out....."

Waiting for only half a day, the end of the void at the far left, suddenly came a sharp and unpredictable sound, Ye Xuan

In the line of sight, a blood-colored arrow is spurting toward the side like a lightning. In fact, its speed far exceeds the lightning, and the invisible air is retouched. It is the ninth-ordered perfect heaven. peak. positive

The Lord is coming, this blood-colored arrow is the \*\*\*\* goshawk.

Ye Xuan did not hurry to shoot, until the other party approached the distance of tens of billions of miles, only waved his hand, a gray rushed net bag was offered by him, initially only a weak gray mans, but the wind The skyrocketing, turned into a huge net pocket in the blink of an eye, enveloped the void of 10 billion miles, just covered the shape of this \*\*\*\* goshawk..."

Bao Puxing pocket? You are..."

The stunned blood-colored arrows came to an abrupt end, and a goshawk with a body shape of more than 10 million miles appeared in the void, and the whole body was red and bloody. It looked very powerful, especially a pair of eagle eyes. The power of the power can seem to break everything, and directly see the depths of the soul...

"boom!"

Without waiting for the goshawk's words to fall, the horror of the sky has already come, and a figure appeared from his right side of the rib, out of the way, Hong Tao, the principal of the Hongyu Star...

Suddenly appeared at this time, Hong Tao's face was gloomy, and there was no nonsense. He directly slammed the right rib of the goshawk.

"Card..."

"puff....."

It was too close, and the attention of this \*\*\*\* goshawk was shrouded in this void. The Bao Park star pocket that he had covered was just attracted to the past, and he did not notice the situation under the right rib. sudden

Under the defense, Hong Tao's fist slammed a porcelain, and the \*\*\*\* goshawk's body came with a clear sound of a squeaky sound. The bones of one body did not know how much, and the mouth opened with a blood arrow. And looking up at the horror of the hair..."

Ok? "flood

The glory of the glory in the Tao dynasty seems to be quite unexpected, because after a fist hit the \*\*\*\* goshawk to a serious injury, the old guy opened his mouth and squirted out, it was a heavenly source of heaven like a river... Look

He has also been the embodiment of the heavenly will of a big world!

"call out....."

Without hesitation, Hong Tao immediately shot, and there was an invisible majestic violent violent sensation between the singers. In one instant, the imaginary emptiness of the big river was already in the body..."

Hong Tao, actually it is you... \*\*\*\* old things, you are shameless! "straight

At this time, the voice of the \*\*\*\* goshawk's gods suddenly sounded, revealing endless grief and indignation. Look

It looks like he is mad, but he did not intend to stay in the battle, because this boxing has been seriously injured, and since Hong Tao had premeditated, ambushing here, waiting for his arrival, naturally it is impossible to stop here...

In fact, he also just left from the Hongyan star field. For the liquid of the ten kinds of heaven and earth in his hands, Hong Tao also proposed to surrender first, and it will be kept by the Hongyu star field. Then, after the master of the magic hall leaves Ye Xuan, he will be placed in the pool. Refining ahead...but

The \*\*\*\* wolf screaming in the forbidden place agreed, but the \*\*\*\* goshawk refused on the spot. He was still not at ease, and his own cultivation was not bad. Like Hong Tao, it was a ninth order. The great perfection of heaven and earth, completely fearless of him, at most, it is weak and half-finished. can

It was he who never thought of it anyway. Hong Tao was so mad, seeing him refuse, actually rushed to the edge of the forbidden land in Yingtan, and when he arrived, he suddenly stopped the killer and wanted to kill and win the treasure...

"There is no end to this, old things... you are waiting!"

boom! "

When I think of hate, the \*\*\*\* goshawk does not hesitate, and exerts the secrets of blood and blood, and blows up the \*\*\*\* body of the whole body in half. The whole figure is once again turned into an arrow, and the blink of an eye is blessed by the power of the secret law. Going far away...

"There is a secret of life..."

When he left, Hong Tao waved his hand in the vain net in the void, whispering a whisper in the middle of the whistle, and immediately tearing open a crack in the void, swaying into it, blinking disappeared...

Chapter 5140: Occasionally

It is impossible for the \*\*\*\* goshawk to shoot outside the forbidden land of Yingtan. It is impossible to be a real Hong Tao, but Ye Xuan's fake...

However, this matter has not been flawed, and there is absolutely no doubt.

A pair of sharp eagle eyes of the \*\*\*\* goshawk are famous in the right section of the left bank. He is also good at a kind of martial arts, plus he is also the peak of the ninth-order grand perfection. If someone fakes, he changes into a Tao Tao, others May be smashed, but the \*\*\*\* goshawk can never see the clue... this

It is also one of the reasons why Ye Xuan chose him to start. Since he decided to send Hong Tao a \*\*\*\* pot, all the heavenly beasts and the survivors of the right side would not dare to put the heavenly source in their hands. Give it to him, then, Ye Xuan must ensure that there is no doubt... blood

The eagle-eyed eagle eye is famous for ensuring this effect.

The reason why Ye Xuan was able to pass him, is because of the enchanting sake, the enchanting is the strongest sorcerer, the eagle eye of the \*\*\*\* goshawk can not be compared with it, the natural glimpse of Ye Xuan Deliberate change...

What's more, he also selected a net bag from the massive magic weapon in his hand, and handed it to the body's phagocytic system. With its attached forging system, he built it into a Baojixing pocket...

Bao Puxing is the famous magic weapon of Hong Tao. Although Ye Xuan is in a hurry to systematically forge imitations, although Wei Neng is far less than the real Bao Puxing pocket, but on the surface, it does not see any points, even the breath is exactly the same. Simply perfect! This

The beauty of the matter was so beautiful that Ye Xuan was extremely satisfied. What's more, he accidentally harvested a kind of liquid of heaven and earth, and it happened to be in his hands. So, the liquid of the heavenly source in his hand is enough. Forty-seven, forty-nine! but

This is not enough, and the hunting operation has to continue. to

On the side of Yu Hongtao's old ghost, Ye Xuan was not in a hurry. This time, the \*\*\*\* goshawk was seriously injured. It is estimated that the first time after the escape will be healed, but the matter of Hong Tao secretly ambushing him, before entering the retreat, \*\*\*\* Goshawk will definitely release the news.

In other words, Hong Tao's old ghosts in the floodplain will soon have big troubles...

"Oh..."

The cracking sound rang, and Ye Xuan, who had recovered his own face, came out of the void crack, but it was in the state of activating the perfect shock of the spiritual power, hiding his body shape, and the air machine was in a state of convergence. Place

In this scene, there is a strange and inconspicuous, invisible air, there is a void crack, but the inside is empty, not only no one out of it, even a little breath can not capture ... Ye

Xuan's next destination is not far from the virtual space on the right side. It is still a fierce beast forbidden. only

Yes, what he did not expect at all was that he had just stepped out of the crack in the void and immediately accidentally met an old friend..."

call out....."

The sound of the air broke out, extremely weak, almost invisible, but failed to pass the sharp perception of Ye Xuan, the virtual air on the right side, there is a figure fluttering, like a ghost, it seems to be suddenly by this side The void cracks that appeared were attracted.

In the cracks, there was no one to walk out, and there was no breath at all. So it caused a curious mind, and it slowly touched it. when

At the beginning, there were a total of thirty-three people who had joined forces with the dragon whales and the hunters of the blue sky, and there were thirty-three of them. All of them were killed. The only dragon whales and the wilderness of the heavens and the sinister Oh, still alive...

At this moment, the guy who is quietly touching from the right side of the sky, it is exactly the third, which makes Ye Xuan some unexpected, I did not expect this old guy to be quite courageous, actually has come out from the crouching parallel void. miss you

It must be because I heard the news of the revitalization of the Tianjiu Avenue on the left bank, so I wanted to take this opportunity to come out and secretly kill some heavenly grotesque, try to get some of the heavenly source of liquid.

However, this is also good, by the way to solve this old thing, Ye Xuan's original enemies, there are only two whales and the wilderness of the heavens and blue eyes... brain

In the middle of these thoughts, he did not hesitate. When he voluntarily greeted the past, everything was unconscious. After blinking to the front, he was shot in the first place..."

Old guy, don't come innocent..."

At this moment, Ye Xuan's figure appeared, with a sly smile on his mouth, and the sound of Sen's cold gods also sounded, instantly transforming into a violent form of him, turning his hand and making a \*\*\*\* stick. Has slammed toward the head of Yu San...

"The Lord of the Magic Temple, Ye Xuan? This..."

The sound of the sound was in the ear, and the three shocked, the speed of the original unpleasant body shape was easy to stop in the void, and subconsciously turned to Ye Xuan's point of view, the look on his face had suddenly changed dramatically, and his voice was exclaimed...

"Hey!" No

When the words in his mouth are degraded, the loud noise has already risen... This

At one moment, the \*\*\*\* stick crashed down, and the porcelain fell on the top of the third. This old guy was only in the mid-term, and the strength was much worse than Ye Xuan.

In the face of Ye Xuan's deliberate shot, he simply had no time to react. The entire huge figure was bursting in the moment when the \*\*\*\* stick fell, turning into a red blood fog and spreading rapidly... "

call....."

This is a heavenly blood, naturally can not be wasted, Ye Xuan waved in the first time, the sound of the whistling wind suddenly rang...

A majestic invisible gas rushed away, sweeping the \*\*\*\* fog of the form of the corpse of the corpse, and sent it directly to the bottom of the volcano in the central area of the Dingnai space to carry out blood purification. by

Therefore, Ye Xuan's Tiandao blood essence has also added one more, which has reached 56 before, and now there are 57 giants!

Unfortunately, although the third is a fierce beast, the blood is extremely majestic. With his fall, Ye Xuan takes a \*\*\*\* blast of his body and then gets a heavenly blood, but the old guy's body is the same. There is also no liquid in the source of heaven. although

However, there are some disappointments, but Ye Xuan has not been too concerned about this matter. Although there are many strangers on the left bank, but not all the gods and gods have the liquid of heaven and earth. This is what he knew. Have psychological preparation... no

Yizhong solved an old enemy, Ye Xuan's mood is great, but this is just an accidental episode. Now that everything is over, he will not hesitate, and his body will be swayed, even if he rushes to the destination in front. before

Fang's fierce beast is called a \*\*\*\* forbidden place. The strongest old monster sitting in the middle of it is a demon blood deer, which is not weak in strength and reaches the middle of the seventh stage. Ten thousand

The distance of 100 million miles is nothing for the current Ye Xuan, but after a while, he rushed to the vicinity of the \*\*\*\* curfew, but did not enter the interior of the star, but still stayed at the edge of the forbidden star Outside. Take

The magical spirit of the perfect shock will hide the body shape, and the air will be concentrated. Then he will patiently crouch in the void and wait for the target to appear...

Outside the \*\*\*\* curfew, the void is quiet! leaf

Xuan had arrived three days before, and did not enter the forbidden land. In the tens of billions of miles away, the body shape was concealed with the spirit of perfect shock, and the air was fully converged. Then he patiently crouched down in the void. Quietly waiting for the target to appear... blood

The strongest grotesque in the curfewed land is a demon blood deer, which is not weak, and has reached the seventh stage of the heavens.

This level of cultivation, Ye Xuan suddenly shot under the shackles, although it can ensure the spike, but this matter can only be carried out outside the forbidden land, otherwise, if the other heavenly beasts in the \*\*\*\* forbidden land see the leaves The body shape revealed by Xuan's shot will be communicated in an instant...when

However, Ye Xuan can also change the appearance of Hong Tao like the previous ambush of the \*\*\*\* goshawk, but this kind of thing can not be frequent, otherwise it will reveal the horse's foot, too much, but it will make people see the clue! This

Waiting for a long time, a total of half a month before and after, the target still does not appear.

Although there were some other forbidden beasts during the period, there were even two heavenly beasts, but it was only the beginning of the scene. Ye Xuan was not interested in it. He did not see it and did not shoot. First

At the time of the 16th day, just as he had waited for the intolerance, this heavenly seventh-order demon blood elk finally appeared...

"call out....."

In the \*\*\*\* forbidden land in front, suddenly there was a sharp and unpredictable sound, and a glare came from the glare, which radiated a strong atmosphere of heaven, and it was still in the late stage.

Magic blood elk!

The thought flashed through the brain, and Ye Xuan was in a moment of spirit. The strength of the body was already secretly urging, ready to shoot.

However, he was suspicious and sensational, and Ye Xuan did not rush to start, but slowly approached the direction of the demon blood deer... he

Although the figure is hidden under the magical spirit of perfect shock, even the air machine has been exhausted, half of the points have not been leaked, but the demon blood elk is special, Ye Xuan must be very careful, otherwise it will trigger its \*\*\*\* Feeling the induction, I am afraid that this matter will be drowning...

Soon, he was close to 10 billion miles, and the chilly mantle flashed over, and the spiritual source nucleus hanging in his brain slowly turned, and the mental strength was motivated, and he was about to shoot...

It was at this moment that the demon blood elk had always been heading in this direction, but the whole figure suddenly stopped without warning.

Ye Xuan frowned, the old guy's blood is really extraordinary, the sense of consciousness is too sharp, and he feels some kind of abnormality in the darkness, and may even realize that there will be a crisis...

It is not too late, otherwise it will be more troublesome if you let him turn into the \*\*\*\* forbidden land, unless you give up this hunting, and this possibility is absolutely not low, the \*\*\*\* deer is notoriously cautious. ....One

With this in mind, Ye Xuan did not hesitate, and when he was still hesitant, he suddenly hesitated! "

Cathy..." This

At the moment, the shocking sound of the sky was horrified, and a blood-colored lightning appeared on the top of the demon blood deer. The diameter of the tens of thousands of miles, venting out of the air, directly on the top of his head...

"boom!"

"bombing

The sound came, the two huge blood horns on the top of the demon blood moose blasted off, blocked the blow, and then squatted, screaming and fling straight toward the road behind him. fruit

However, it is not a general vigilance. I am afraid that at the same time that his body shape has stopped, this demon blood elk has already prepared for the battle, so that Ye Xuan's spirit thunderbolt is defeated, only to make it slightly injured. However, two antlers were blown up.

"Hey..."

In this scene, Ye Xuan's smashing flashes through the cold mang, and screams and screams, and immediately ignites the spiritual power of the body...

For a moment, the annihilation spears in the two secret attack secrets were fully motivated by him.

The massive spiritual power extracted by the spear of the annihilation is not turned into a spiritual vortex, but turned into a very small point, just like a spear, and slammed out. In this case, a lot of spiritual power is extracted... but

The attack is the tiniest point, which turns into a tiny bit of a spear that is so sharp and unbreakable.

"Hey..."

With the humming sound, Ye Xuan's mind knows that the spiritual source nucleus hanging in the sea is also rapidly rotating with the movement of these spiritual forces...

Faster and faster, in the twinkling of a moment, a tiny spiritual cluster formed by the intense compression of a large number of spiritual sources, shot from his sea of knowledge, like a heavy hammer with infinite density, with a spear The illusion of the sky, rushing forward..."

Oh..."

Knowing that the crisis is approaching, the demon blood stag screams, but it can't change anything. The annihilation spear directly penetrates his body and blasts a \*\*\*\* fog, but it does not fall down, the castration of its figure. On the contrary, it is more swift, driven by this power.

"It's a good thing to escape, but today you are still... Don't die!"

"boom!"

At the same moment, the violent figure appeared on the side of the demon blood deer. Without waiting for the words in his mouth, the loud noise was already shocking. Big

The head black bar did not hesitate to smash down. The porcelain was extremely inferior to the top of the demon blood elk. Although the old guy was in the late stage of the seventh-order world, the strength was still worse than Ye Xuan. Too much too much.

In the face of Ye Xuan's full blow, he simply couldn't make any reaction. The huge body shape exploded in the moment when the \*\*\*\* stick fell, turning into a red \*\*\*\* fog.

"Call..."

Xuan waved in the first time, and the sound of the whistling whistling sounded, and a huge invisible instinct screamed away...

The \*\*\*\* fog of the form of the demon stag deer is swept away and sent directly to the bottom of the volcano in the central area of the Dingnai space to carry out blood purification.

As a result, Ye Xuan's Tiandao blood essence has added another one. It has reached 57 before, and now there are 58 giants!

This time, the harvest is obviously not just that. As the \*\*\*\* fog of the demon bloodstained deer is swept away, there are four weak meagers in the blood.

This is exactly the source of the four heavens, but unfortunately there are two kinds of Ye Xuan in their hands, so after harvesting them, Ye Xuan's hands of the source of the heavens reached forty-nine kinds, fifty-one... one

At the end of the moment, these four heavenly sources of liquid were also directly absorbed by Ye Xuan. turn

The first vision, the power of the gods extended, determined the direction of the \*\*\*\* forbidden land in front and did not appear in any of the forbidden beasts. After it was not exposed, Ye Xuan suddenly waved, tearing open a void crack, and stepping across the gap into it.

"Boom..."

It was at this moment, tens of billions of miles to the left of the back, a horrible to the horrible majestic power suddenly appeared, and came to Ye Xuan. mantis

These thoughts flashed through my mind, and Ye Xuan's mid-cold man flashed, and immediately turned to look at the past... first

Before the shot of the demon blood deer, Ye Xuan has already vented his way, but in order to avoid the presence of crouching in the dark to see his figure, even if Ye Xuan exposed his tracks, he still has a smoggy smog. Covering the whole body, so crouching in the dark, the existence of the sudden shot, should not know his true identity..."

It happened that the temple had just arrived from the middle section, and actually encountered this kind of murder and treasure, oh, so good, just relax the bones, but also harvest a little bit of the source of the liquid..."

At the same time as Ye Xuan turned around, there was also a voice coming from behind. It was quite lazy, and it showed a sense of condescending, giving people the feeling that it was like talking for a long time. The tone is general...

The other party obviously knows that Ye Xuan's cultivation is the strength, but it is the culmination of the ninth-order grand perfection, and it is not the first time to enter the world, but it still speaks like this, revealing that it is not only its own strength. Not weak, I am afraid it is not small...

When these thoughts flashed in the brain, the other person's figure also reflected in Ye Xuan's vision.

This person obviously also has a quite extraordinary method of collecting interest. Previously, Ye Xuan did not find his existence, which is enough to illustrate this point.

But as he shot, the law of convergence was invisibly broken, and his figure was revealed. This

It is a crocodile, with a body size of 30 million miles. It has a blood blue color and a cold blue smog on the body. The body is very strong and is still above the dragon whale. Even Ye Xuan is stronger than the current one..."

Cold blood blue crocodile? You are the cold crocodile from the cold crocodile ban, the ninth in the left bank of the sacred beasts..."

The figure of the other party was reflected in the eyes, and Ye Xuan's middle and cold flashes, and he immediately recognized his identity and subconsciously whispered. difficult

It is strange that the temperament of this guy's body is still above the dragon whale. His ranking on the left bank's sacred beast list is originally before the dragon whale. Everything is what it should be.

Obviously, the reason why this cold-blooded blue crocodile rushed from the middle of the left bank to the right section was because of the news that the treasure of the Hongyu Star Tianji Avenue was born.

For some cases of Ye Xuan, he should have heard about it, but he did not come up with the nine-color flame sea and the bow of the sky. He came... but

After all, Ye Xuan has just displayed the spear of annihilation, and even the \*\*\*\* stick has exposed his face. As long as this cold-blooded blue crocodile stays in the right section of the left bank for a while, he knows more about Ye Xuan, and sooner or later he will come to realize it. . Place

Therefore, since it is encountered here today, Ye Xuan must kill him, not to mention his character, the encounter with this kind of desire to make the squirrel's existence to kill and win the treasure, but can you let it go? only

Yes, the \*\*\*\* forbidden land in front of it is only over 200 billion miles, and the strongest person who is sitting in the \*\*\*\* forbidden area has just been killed by Ye Xuan, so even if you want to fight this cold-blooded blue crocodile, this place It is also not a place to kill.

Otherwise, once the war is over, Ye Xuan must use the means of the nine-color flame sea or even the bow of the sky, and then it will undoubtedly reveal the identity in an instant...

It is good to lead the other side to the endless darkness in front of the right side of the left bank. So, Ye Xuan can let go of this cold-blooded blue crocodile with all his hands and feet.

Everything is long, but it is like lightning. It flashes from Ye Xuan's brain between suffocation. He makes a decision in an instant, and then hesitates to turn to the endless darkness of the right side. And go...

Of course, he is deliberate. After this distraction of the identity and origin of the other party, the second thing is that the action of turning around and running is because Ye Xuan deliberately shows weakness and pretends to be flustered. The next factor that is created by the manufacturer is reasonable...

"boom!"

It was also at this moment that the blue smog that had been waved by the cold-blooded blue crocodile had also come to the back of Ye Xuan. This canopy has tens of millions of miles of smog, and the coldness inside it is amazing. It is this cold blood. One of the \*\*\*\* magical powers of the blue crocodile...

Ye Xuan was deliberately hit because he saw that the blue smog of the awning was not very powerful. It was mainly for the sake of freezing. It seems that this guy wants to live. One

In an instant, with the slamming, the blue smog of the awning shrouded Ye Xuan's body in a moment, and the cold invaded the body, but he was instantly burned in the body with a colorful flame. Do not

However, the blue cold fog leaves outside the body did not pay attention to it, at least did not use the colorful flames, but only to promote the repair is hard.

If other heavenly strongmen, the chill in the blue fog can be enough to instantly ice the body into a huge hail, but the strength of Ye Xuan is weaker than the cold blue crocodile, but it is also nine. The peak of the world is perfect. Place

Therefore, although his body shape was trapped by the blue fog of the canopy, it did not completely solidify. It was just the outside of the blue fog, which became the shape of the ice.

At first glance, there is a blue hail of tens of millions of miles in the void, but the inner center of the hail has not yet solidified. There is a figure inside, which is shrouded in the mist of the body. The power in the body, with the blue hail that trapped the figure, fled at full speed toward the endless darkness ahead...

"Want to escape? Hey, I met the deity, have you escaped?"

After seeing the opponent's exclamation and shouting out his own origins, he turned and fled in the first time. Even the awning blue blood fog that had been blasted before was forgotten and directly hit, but now he Innocent, but the body shape was trapped in the huge hail of cold blood blue mist, obviously so flustered... cold

The \*\*\*\* blue crocodile flashed a cold mang, and the face also showed a proud color, sneer, and immediately swept away.

Although the refinement of the air in the other party is also the peak of the ninth-order grand perfection, but the peak of the left bank has gone more, but nowadays there are few in the top ten on the left bank of the beasts.

Therefore, the cold blood crocodile has absolute confidence, and today it will be able to kill each other.

What's more, the other side is so flustered. Just hearing his prestige is so stunned. Obviously, there is not much skill. He naturally will not give up on this, and he will definitely pursue it.

"call out!"

"call out....."

In the void, the sharp and unpredictable sound of the air broke out, and the two awns crossed the distance of hundreds of billions of miles, and swiftly crossed in the void, and soon left the area where the \*\*\*\* forbidden land was, rushing to the front of the right section. In the darkness of endlessness...

"call out!""

Oh..."

In the air, the sharp and unpredictable sound of the air rang, and the two awns crossed the distance of hundreds of billions of miles, and swiftly crossed in the void...

The two horses are Ye Xuan and the ninth-year-old cold-blooded blue crocodile on the left bank.

After calculating the time, it took two days for the two to escape from the area where the \*\*\*\* forbidden area was located. Now it has already unknowingly rushed into the endless darkness in front of the right segment, and it is quite deep. ....

Ye Xuan's power of the gods stretched out from the giant blue hail trapped in his body shape, quietly sweeping around and exploring, and determined that there was no abnormality within a trillions of miles. Underneath, there are new moves in a moment! "

Call..." This

At one moment, the Shennong nine-color flame was urging him to pull out directly from the body. In a moment, he could not directly melt the giant blue hail trapped in his figure. but

His purpose is obviously not just this. From the body, the Shennong nine-color flame of the blue hail is still rushing backwards, and the storm rises in the void, and the blink of an eye has turned into a vast expanse. Innocent nine-color flame sea. One

The cut happened too fast, and the cold-blooded blue crocodile that was chasing from behind was completely unprepared. When he was shocked, the vast void of a corner within a hundred billion miles was covered by this nine-color flame sea.

Moreover, after the flashing, the nine-color flame sea was rolled inward, and the eyes were gathered together to form a giant nine-color flame ball with a diameter of 100 billion miles. and

At this time, the body shape of Ye Xuan and the blood-blooded blue crocodile are all inside the giant nine-color flame ball...

"Nine-color flame sea? You are the master of the temple, Ye Xuan..."

The color of the flames of the sea has been empty, if he does not know who the other party is, then it is really strange. cold

The \*\*\*\* blue crocodile's original spurt shape suddenly stopped, the body shape was mad, and the shocking color on his face was even more intense. He said: "No, you deliberately show weakness to bring the deity here. Ye Xuan What do you want?" He

Although she has not seen Ye Xuan, she is quite familiar with the dragon whale dragon. He is ranked ninth in the list of the beasts on the left bank, while the dragon whale is ranked tenth, only one behind him.

At the beginning, Ye Xuan was fighting against the dragon whale in the face of the public. In a short period of time, he was seriously injured. The wandering thing has now spread throughout the entire bank of the Galaxy.

Even some people are still secretly saying that the power of Ye Xuan, the master of the Temple of Devils, is not only replacing the dragon whales, but also ranking tenth on the left bank's list of beasts.

However, it is not clear, but it is undoubtedly suggesting that Ye Xuan's cultivation is still above the ninth.

In fact, I am also very shocked by this cold-blooded blue crocodile, because even if he is facing a big battle with the dragon whale, he will never be seriously injured in a short period of time.

However, he did not see it at all in the first battle, so the rumors of the outside world were not all-in-one. This time, I came to the right bank of the left bank and witnessed the strength of the master of the temple, Ye Xuan's cultivation. one.....

Only he did not expect it anyway, this just arrived at the right bank of the left bank, actually this way and the main hall of the magic hall Ye Xuan hit.

Moreover, although he did not know the identity of Ye Xuan until now, the Lord of the Temple of Devil has recognized him just now. This

In this case, he still performed so flustered, and he fled as if he had lost his temper. It was obviously installed.

With such a deep thought, the meaning expressed in the meantime is no longer necessary. The owner of the temple, Ye Xuan, decided to deal with him as early as that time...

"Hey..." brain

After flashing these thoughts, the blood-stained crocodile suddenly became furious, and after screaming, the sound of the gods also sounded, revealing the endless sorrow and the anger of the sky: "Damn guy, you actually want to count the deity." Today, I have to see if your cultivation is a strength, is it qualified to replace the dragon whale, and enter the tenth place on the left bank of the beastly beast list..."

"Would you like a positive battle? Unfortunately, you don't have this opportunity, because this temple... there is no such interest at all!"

Therefore, Ye Xuan licked his mouth and his face showed indifference. He was really not interested in the frontal battle with this cold-blooded blue crocodile. Although it was already the dark void in front of the right section, now the nine-color flames are empty and moving. Big, this war can't be dragged for a long time, otherwise if someone passes by, Ye Xuan still has to be exposed, then it is not necessary...

"call out....."

The voice just fell, Ye Xuan has already shot again, a fascinating red mans spurt away, greet the storm, and instantly become a huge river. This

The rivers in the middle of the Yangtze River are raging and turbulent, and they are made up of countless beautiful red lotuses of only the size of the squad. It is the red lotus fire that was only recently collected by him for refining...

The cultivation of the blood-stained crocodile is not weak, even stronger than Ye Xuan. If it is to be bombarded in a short time, it is obviously not enough to sacrifice the nine-color flame. This can only be used. It's just a trap, you have to use the bow of the sky to kill it...but

That's too much movement, fearing that it will quickly attract the attention of the right-wingers in the right-hand world, not to mention the one-shot shot of Ye Tian, which has an impact on Ye Xuan himself and will fall into a certain weakness. except

In addition to the Honglianyehuo is also one of the strong killings in Ye Xuan's hands today. This mysterious top-level heaven and earth can be too horrible, and any sin that is accumulated in his life will be Being ignited in the invisible, turning into a sinful flame, burning souls...

If it is in the open air of the outside world, only the red lotus industry fire may not be able to cope with this cold blood blue crocodile, the other party is the ninth strong presence on the left bank of the beastly beast. After all, if you dare not contaminate, you can still turn around and still be able to Do it. but

Nowadays, he has been trapped in the flame ball formed by the nine-color flame sea at a time, and he can't escape the birth of the sky. In the face of the horrible red lotus fire of the power, the final end has been Can be imagined..."

Red lotus industry fire? Oh..."

Opposite the emptiness, the cold-blooded blue crocodile hangs in the red lotus industry like the Nujiang River suddenly, and the moment he rolls away, he realizes the crisis, and his body screams and screams out. Xiao Xiao, revealing the meaning of endless despair...

"Ye Xuan, if you dare to kill the deity, you will regret it in the future, it is best... think twice!"

The whistle of the whistle, the sound of the cold blood blue crocodile also suddenly came, although it is a threat, but it is clear that it can be heard from a thick and can not open the expectations and hopes...

After all, he was still reluctant, even if he knew that his hopes were not great, he still did not give up. He wanted to use this way to let Ye Xuan jealousy and let him live a life.

It is a pity that Ye Xuan is totally unmoved. The violent fires of the industry are still the same, and the meaning of killing in the waves is more intense..."

Since you are willing to go your own way, the deity will let you pay the price... Blue Blood Soul! ""

Hey! ""

boom....."

The cold-blooded blue crocodile is desperate, and in the sound of whistling, the entire huge figure is fully exploded...
