

Super D.S 5141

Chapter 5141: Blue crocodile roaring forbidden

"Since you are bent on your own way, the deity will let you pay the price... the blue blood soul!"

"Hey!"

"boom....."

In the face of Ye Xuan's decision and unmoved, the cold-blooded blue crocodile was completely desperate, and in the whistling sound, the entire huge figure was fully exploded...

At the same time, there is also a dusty blue awn in the body, in order to surpass the lightning speed of horror, blazing Ye Xuan, presumably the blue blood soul smashed before the **** blue crocodile blew...
...

"Damn..."

Seeing this scene, Ye Xuan's face suddenly changed. He knew that this blue blood soul must be extraordinary. After all, it is the last resort of the blood-blue crocodile level, which was displayed before the blast....but

At this moment, Ye Xuan simply couldn't take care of this blue blood soul, or he had the threat of dissolving it. this

When he was dissatisfied, the real reason was the self-destruction of this cold-blooded blue crocodile.
Correct

Whether the party blew himself up originally did not matter, anyway, after the self-destruction, the blood and blood left behind, after waved, can also produce a heavenly blood. leaf

Xuan really cares about the cold and blood blue crocodile in the hands of the heavenly source of the liquid, this old guy since it is self-destructive, naturally will not leave the body of the heavenly source of liquid leaves cheap Ye Xuan, will be destroyed in the blast ...

But all this, Ye Xuan can't sit idly by. He is also the peak of the ninth-order grand perfection. Now, within such a short distance, it is entirely possible that when the power of self-destruction is not completely raging, it will be forced. Grab the liquid in the body of the heavenly source...

The progress of the cut was smooth, and Ye Xuan's knowledge and spiritual strength were fully motivated. In an instant, the whole area was shrouded in front, forcibly pulled out from it, and it was the source of the heavens, a total of eighteen.

It is a pity that there are five centuries of the source of the original Ye Ye Xuan in the hands, but the same thing, so after harvesting them, Ye Xuan's hands of the source of the heavens reached fifty-two, sixty-three...

The source of the liquid to the hand, Ye Xuan hanging in the eyes of the blind man's eyes fell back, the middle of the cold mang flashed in the first time waved, the whistling sound of the whistling sound suddenly, a majestic invisible gas whistling And go...

Soon, the **** fog formed by the blast of the cold-blooded blue crocodile was swept away and sent directly to the bottom of the volcano in the central area of the Dingnai space to carry out blood purification.

As a result, Ye Xuan's Tiandao blood essence has been added one more, which has reached fifty-eight before, and now there are fifty-nine...

Oh..."

At the same moment, there was a faint sound of breaking in front of him. The blue-blooded crocodile spurted out of the blue light when it was blasted. Into the body of Ye Xuan, disappeared instantly...

The degree is too fast, Ye Xuan's knowledge and spiritual strength is fully motivated, and he has poured out. He just pulled out the 12 pieces of the source of the heavenly source and simply did not have time to react. Wait

By the time he reacted, this blue light had disappeared. "

Blue blood soul? What the **** is..."

"Oh la la..."

"call out....."

Slightly frowning, Ye Xuan whispered, but did not stop in the hands, a wave of red lotus industry is rushing back and forth, he was included in the body.

Even the nine-colored Shenyan, which was condensed into a flame ball in the void, also collapsed at this moment and turned into a majestic flame sea. It instantly condensed and eventually became a weaker one, breaking into his eyebrows.

After the end, he did not hesitate, and directly tore a crack in the void, and stepped into it, and went away...

Everything is long, but it happens in a very short period of time. From Ye Xuan, he will sacrifice the nine-color flame sea and turn it into a flame ball to seal the cold-blooded blue crocodile. When he tears open the crack of the void, he disappears and disappears. In total, it is only less than ten. from

Before going there, Ye Xuan's knowledge spread and spread to the limit, and a full-scale exploration was carried out within a trillions of miles. It was confirmed that there was no abnormality...

At the same time, the cold crocodile in the middle of the left bank is in the forbidden land...

At the same moment that Ye Xuan's figure broke into the crack of the void, the star of the giant star in the deepest part of the cold crocodile banned a sudden scream of earth-shattering screams...

"Who is it? Dare to provoke my cold crocodile to ban the land? Hehe..."

The roar of this roaring sound is too abrupt, and the vast and innocent starry sky of the forbidden land is clearly audible. The forbidden beasts in the abandoned stars in the star field are all suddenly in the shape of a sudden earthquake. Changed to the ground, shivering...

As for the more than 30 heavenly beasts in the forbidden land of cold crocodile. because

In order to send out this horrific existence, the breath that has been invisible in the invisible has already surpassed the heavenly state and reached the Hongmeng Avenue after the Heavenly Way.

Only the breath is not very solid and stable.

Obviously, this is a supremely sacred existence that has just broken through the heavens and the territory and entered the avenue. It is the same as the ancient existence of the devil's forbidden land, and it is now being firmly cultivated.

The outside world only knows that the strongest person in the cold crocodile is the ninth-ranked cold-blooded blue crocodile on the left bank, but I don't know that in the cold crocodile ban, there is always an ancient cold crocodile crouching in the star field. The deepest giant star is resected inside the star.

Calculating the time, this ancient cold crocodile retreats for millions of years. He has already broken through the heavens and the past hundreds of years ago. He went to a parallel void and passed his annihilation. Then he returned to the cold crocodile. Forbidden places, continue to retreat here, while healing, but also firmly cultivated.

Obviously, the blue blood soul in the cold blood blue crocodile should be the handwriting of this ancient cold crocodile. The cold blood blue crocodile is the descendant of his blood. Now it is bombarded, and the ancient cold crocodile feels in it. Only then suddenly made such an amazing roar roar...

He did not go out of this way, because the injuries left by the parallel voids when he entered the parallel void hundreds of years ago have been restored, but the realm of breakthrough has not yet been solidified, it will take some time.

But the ancient cold crocodile is not in a hurry, there is a cold blood soul, as long as he goes out, he will soon find a black hand to kill the cold blood blue crocodile, no matter who he is, he will never let go, I must take it out and sculpt...

For all this, Ye Xuan didn't know. At this moment, after leaving the dark void that had previously murdered the cold-blooded blue crocodile, he had just arrived near the abandoned star that was retreating...

"Oh..."

The cracking sound rang, and a void crack suddenly appeared. Ye Xuan's figure stepped out of it, and there was no pause. The shoulders suddenly turned into a masculine spurt, and the blink of an eye had already entered the front. The abandoned stars are directly inside the star core. With

After the glory of the glory, Ye Xuan waved the Shennong Baoding to the sacrifice, and stepped into the tripod of the colorful smog, and sat down on the knees...

The weak and unspeakable sound broke out. After entering the abandoned star that was closed twice, Ye Xuan went directly to the star nucleus, and then waved, and Shennong Baoding immediately gave it.

Under the glimpse of the gloom in the middle of the squat, he even went on a step, sitting down in the knees of the smog of the colorful smog, and closed his eyes...

The reason why Ye Xuan's purpose is to return to the retreat star in the dark void in front of the right bank, is to find out the faint blue and white mans that have been caught in the body before the defense, that is, the cold blood soul...

At that time, this cold blood soul came from the extreme speed of lightning, and when it touched the skin of Ye Xuan, it disappeared instantly. Even Ye Xuan explored the body with his knowledge and spiritual strength. Did not find anything...

This incident made him more vigilant, but since the area has just erupted, it is not appropriate to stay for a long time, so Ye Xuan tears open the crack in the first time.

Now, after rushing to this retreat star, I immediately sat down at the tripod of Baoding and continued to look for...

In a short period of time, he carefully explored the bones and meridians in the body for a few laps, but still did not have any results.

Taking into account the name of its soul, Ye Xuan's consciousness, even if he entered the soul sea, and repeatedly probed it several times, finally touched a little clue, and the heart that had been hung in the eyes of the blind man was immediately a sinking...

The blood of the soul is found, but this guy has broken into the deepest part of Ye Xuan's soul sea, and ... drilled into the phagocytic source that represents the phagocytic system!

This can be troublesome, the phagocytic system is originally mysterious, and the emperor's imitation of the ones is nothing more than the Ye Xuan body is the source of crystal, from the hands of Xingbo, even Emperor II, later studied for many years, Never bothered.

Calculating the time, this phagocytic source crystal has been in Ye Xuan for a long time, accompanied him to grow up to the present...

But in the past, Ye Xuan could not even find its existence. There is a devouring system in his body, but he can't find where it is, no matter how he looks.number

Ten years ago, after entering the heavens, Ye Xuan found the phagocytic source crystal in the deepest part of the soul sea, and even had the ability to separate it.

However, considering the interstellar coordinate jumping ability and the ability of the fusion system, the forging system, etc., he finally pressed the impulse of his heart.

I did not expel this mysterious source crystal representing the phagocytic system, but still let it stay in the deepest part of my soul sea, pay close attention to it all the time, in case any abnormal changes occur...

In fact, even if his cultivation is now reaching the peak of the ninth-order grand perfection, Ye Xuan can only do close attention to this mysterious devour source, or simply remove it. In the body...

In addition to these, Ye Xuan has no way of knowing all the secrets of this phagocytic source crystal. Whether it is his power of consciousness or spiritual strength, he is still unable to forcibly enter the phagocytic source to explore. but

Now, this cold blood soul, which was finally found by him, has easily entered the phagocytic source crystal and turned into a dusty worm-like substance.

If you look cold, the current phagocytosis source crystal seems to be a piece of amber, and this so-called cold blood soul is the worm that is banned in amber...

However, this bug was actively drilled in. If it is hidden inside, even Ye Xuan, there is no way to take it now. because

No matter whether it is his power of consciousness or spiritual strength, he cannot forcibly enter this mysterious source of engulfing the source. The so-called exploration naturally becomes a joke and cannot be carried out at all...

"Hey..."

At the moment, the incomparable humming sounds, Ye Xuan spurred the enchanting, a secluded stunned from the sea of souls, directly reaching the deepest part of the soul sea, this is only the size of the baby fist, cold At first glance, it is surrounded by amber-like phagocytic source banned with a worm...

It is still useless, even the enchanting glamorous light column, which is known as the most powerful scorpion, cannot enter the phagocytic source crystal, and nothing can be detected. This

Xia Ye Xuan is dumbfounded, and his heart is even heavier! thing

The situation is obviously a bit serious. The devour of the source crystal is so mysterious. The ninth-order grand perfection of the heavens and the peaks, the full force of the power of the gods and the spiritual strength, are completely inaccessible, but this cold blood soul is instantly intrusive. I crouched down inside.

Only by this point can you see the extraordinariness of this cold blood soul...

Moreover, since it can be easily inserted into the phagocytic source crystal, it can naturally come out at any time. This is awkward, and if Ye Xuan's soul sea becomes the back garden of this worm, when do people want to come out and visit? The circle came out and went around, it was simply speechless. when

However, there is also a once-and-for-all solution, which is to expel the devour source directly from the soul sea... but

In that case, if Ye Xuan gave up the interstellar coordinate jump ability, he gave up various system capabilities such as the fusion system. and

Moreover, although this phagocytic source crystal is mysterious, and it is still from the hands of Star Bo, it is very likely that there is some kind of shocking calculations, but it has not yet activated the activation...but

For this reason, for Ye Xuan, this is just a chance to counter the star. Such as

If the phagocytic source crystal is taken out of the soul sea, it will be abandoned, and then if Ye Xuan gives up a wonderful opportunity to form a counter-attack against Xingbo in the future...

This is obviously too uneconomical. If he is forced to do so, he is not willing to make such a decision. "

Damn guy, a humble little bug, really can't toss people..."

After some unsuccessful attempts, Ye Xuan finally gave up, and he squinted at the mouth of Baoding Dingkou, and suddenly opened his eyes, flashing a touch of hate in the depths of the bottom, whispering and whispering...

After that, Ye Xuan gradually calmed down, took a deep breath, and contacted the body's phagocytic system. As a result, the system worked fine and there was nothing wrong with it...

This makes him more entangled. If the phagocytic system has problems due to the entry of this **** soul, then even if he is unwilling, he can only take out the devour source crystal from the soul sea, and then the eviction will give up.

But now that the system is all right, if you really want to do that, it will undoubtedly make Ye Xuan even more entangled..."

However, the phagocytic system is very likely to be a dangerous cancer. Although it is left in the body, it has been closely watched..."

In the end, his face showed a helpless color, shaking his head and smiling: "Since this is already the case, why bother to have another more mysterious blood-stained soul into it?"

"The big deal is to divide the power of a god, and you can always monitor it in the deepest part of the soul sea. As long as any changes occur, it will be treated according to the specific situation..."

The soul of the blood smashed into the body, directly into the devour source of the deepest part of Ye Xuan soul sea, making him feel depressed, but helpless... No

After some entanglement, Ye Xuan finally made a decision. The phagocytic system was originally likely to be a dangerous cancer. Although Ye Xuan left it in the body, it has been closely monitored... ..

Since this is already the case, why bother to have more of a mysterious cold blood soul into it?

He decided to temporarily ignore all of this. It is a big deal to differentiate the power of the gods. It is always in the deepest part of the soul sea. As long as there is any change, it will be treated according to the specific situation...

In the flash of these thoughts, he immediately differentiated into a god, directly into the deepest part of the soul sea, crouched next to the phagocytic source that is now amber, pay close attention. "

Oh..."

After all this, Ye Xuan stepped out of the Shennong Ding Ding mouth with a colorful mist, waved the treasure to the body, and then directly rushed out of the abandoned star where the retreat was located, tearing open a void crack, this Going far...

Although the fall of the cold-blooded blue crocodile is quiet, Ye Xuan has not seen anyone from the beginning to the end, but this incident will inevitably lead to a storm.

After all, the background of the cold-blooded blue crocodile is quite different. He is not only ranked ninth in the left-wing Heavenly Animals list, but his overall strength is also the ninth place on the left bank.

Moreover, the cold-blooded blue crocodile comes from the middle section of the left bank. This has just been killed in the right-hand area. The other eight old guys in the top ten of the left-wing heavenly beasts will definitely pay attention to it.

In particular, the dragon whale, ranked 10th on the Heavenly Beasts list, was only recently defeated by Ye Xuan in a short period of time. In this case, I am afraid many people will suspect that this is Ye Xuan's...

Therefore, he must mix the water in the right section of the left bank again, and this matter has not yet erupted, plus a fire...

This time, he did not intend to fake Hong Tao again, but changed his goal... that is the dragon whale!
Dragon

The whale is not a remnant of the ancients. Ye Xuan, the magic weapon, does not need to be bothered, but he must change into his appearance, showing the blood of the dragon whale.

This incident may be difficult for others to do. Even if the blood of the dragon whale is changed, it is just a matter of appearance. It may be easy to see the breath. but

Ye Xuan has a **** sea secret method, can be freely changed into any form, and the size of the body can be arbitrarily free, coupled with the power of the powerful enchanting power, he just pretends to be a dragon whale, it is not a problem.

...

In the right section of the left bank, the black shackles are forbidden!

The strongest person sitting in the black ban is the evil eye, and the cultivation is not weak, reaching the seventh stage of the heavens.

This black scorpion also has scorpion surgery, and its eyes are three scorpions, known as evil eyes, with a strong temptation power, but compared with Ye Xuan's enchanting, it is more than a little bit. evil

The black eyes on the left bank of the right section can be described as notorious, this late heaven is ferocious and extremely sinister, and the blood is not known in the hands. except

This evil eye is black, there are more than a dozen beasts in the black ban, but now only the evil eyes are black and the other two are in the forbidden land, and the rest have entered the parallel void retreat. whole

There are countless beasts of various black shackles, but because of the relationship between things, the starry beasts that gather here are almost all kind of brutal and violent existence...

Here, it is the next goal Ye Xuan chose...

At this moment, the entire black shackles were quiet, because the Tianjiu avenue was born, and the right bank of the left bank is now more and more chaotic. As time goes by, the situation is more serious.

With the evil spirits of black eyes, this kind of opportunity to fish in troubled waters will naturally not be let go. In fact, these three heavenly beasts who are now sitting in the black shackles have just returned from the outside half a day ago.

The three of them joined forces to launch hunting operations outside, specifically hunting those heavenly beasts who had placed orders. Recently, they have successfully hunted three heavenly beasts.

It is a pity that only one of the three heavenly beasts has a liquid of heaven and earth, and it is not a lot. It is only three or four. It is extremely disappointing to the evil eye.

Half a day ago, they only temporarily returned to the black ban, and will soon go out again to continue the hunting operation...

The time of the appointment of Ye Xuan, the master of the magic hall, and the Tiandao eccentrics on the left bank of the left bank are still half a year. They want to make up for the 18th and at least nine kinds of heavenly sources needed to refine the two furnaces. Liquid...

Because a furnace can only refine the nine hundred and eighty-one bottles of Tianjiu Avenue, and a nine-order grand perfection of the Tiandao peak, in order to successfully break through the Hongmen Avenue after the heavens, at least 40 bottles are needed. Above the Tianji Avenue Bao liquid.

They are now three people, and a furnace is definitely not enough. The two furnaces basically ensure the demand... although

However, the three heavenly beasts including the evil eye black scorpion are only the sixth-order and seventh-order cultivation of the heavenly state, but on the one hand, because they choose to start, they are all targets of the order, and the cultivation of strength is absolutely not up to heaven. Seventh order. another

On the one hand, it is because the evil eyes of the evil eyes can be different and extraordinary. With his cover, the three people suddenly shot between them, basically ensuring that the target prey will be successfully killed in a short time...

Therefore, for the follow-up hunts, the three old guys are full of confidence. After returning to the forbidden land half a day ago, they made some preparations. At this moment, they are about to leave and kill.

It was this time that Ye Xuan came...

"Oh..." black

In the void in the forbidden area, suddenly there was a crisp crack, and a void crack appeared, but did not see any figure out of it, even if it could not be captured by a half-point machine, it was like this void crack. It's completely nothing, nothing exists in general...but

In fact, Ye Xuan has already rushed out of the cracks in the void. At this time, he is a violent form. His body shape is only about a thousand miles. It is slim and incomparable, but it is extraordinary in strength. It is a nine-order perfection. Heavenly peaks. "

call out....."

After rushing out of the void, Ye Xuan looked up and saw the evil-eyed black scorpion who had just emerged from an abandoned star, but the three of them could not see the existence of Ye Xuan. His figure was already in perfect shock. The secret of the spiritual power is hidden, and even all the air engines are exhausted...

The other three people looked at each other and looked at it. When the scene was a little bit stunned, Ye Xuan rushed to the front, no hesitation, and under the flash of a cold man, he immediately shot and launched a Thunder strike... ...

"Hey..."

As soon as he looked up, Ye Xuan saw the evil-eyed black-eyed man who had just emerged from an abandoned star. He even went away...

The other party can't see the existence of Ye Xuan. His body shape has long been hidden under the magical spirit of perfect shock, and all the air machines are perfectly perfect! surface

The empty cracks that suddenly appeared in the air, the evil eyes were black and the three were quite upset, and when they looked around, they looked at the color of the gods. also

It was this moment, Ye Xuan quietly rushed to the front, no hesitation, and in the middle of the cold, a shot, immediately launched a Thunder strike ... "

boom! "

"Booming..."

At the moment, the horrible sound came, and the violent figure appeared. In the tens of thousands of miles, the **** stick in the hand was directly on the head of the evil eye.

However, what surprised Ye Xuan was that this evil eye was not degraded, and the figure did not explode. It was only his pair of three evil eyes...

"Hey..."

With evil eyes exploding, there are even more splatters out of it, and it is the liquid of seven heavens.

Of the seven sources, only two are the same things that Ye Xuan already has. That is to say, once they are collected, the liquid of the heavens in Ye Xuan's hands will reach fifty-seven kinds. Share. brain

In the middle of these thoughts, Ye Xuan was very happy, and when he waved his hand, he directly swept the seven horns that had just splattered from the evil eyes and earned it into the body. "

Oh..."

Ye Xuan, the master of the temple? Actually you..."

With such a delay, the three beasts and the beasts that had gathered together at the same time had rushed to different directions at the same time, and they blew up a pair of evil eyes, and they were screaming and screaming. Endless resentment. he

Although he was embarrassed, he was broken by a pair of evil eyes, but the power of the gods is still the same, not even serious injuries. Naturally, he recognized who Ye Xuan was.

"call out....."

Seeing this scene, Ye Xuan suddenly waved his hand, and a masculine shot came out. It was a shofar that hides in the space of Shennongbao in his body...

"Staring around the forbidden area..."

The shofar was suddenly summoned by him. At this time, his face was a stunned color. Ye Xuan made a sound and his voice was cold: "If there is a forbidden beast to escape... you know!"

"Oh la la..."

When the voices just fell, there was a smashing splash of water in the void. Ye Xuan's body collapsed and turned into a **** sea. It shrouded a corner of the universe and revealed the meaning of endless blood... "

Roar! "

"Roar!"

"Oh..."

Fast, from the three different directions of this vast sea of blood, there was a deep roar and whistling sound...

In the boundless blood of Tao, there are three huge figures that can be seen in an instant. It is the three bloods of Ye Xuan. The repairs that are scattered in the body are all heaven and earth. The order is perfect! This

It is the three powerful peaks of heaven, even on the left bank of the Milky Way, wherever it appears, it can set off a storm...

Today, with the body shape, the three **** seas are each screaming and screaming, and chasing each other in three different directions. "

call out! ""

Oh..."

In the violent form, the violent hands turned over, and there was a faint sound of broken air in a moment. A masculine rushed out, and the **** stick of the gods' pesticides was dragged by his right hand, invisibly erupting. Fierce breath..."

call out! ""

Oh la la..."

The black mist avatar also rushed out of the eyebrows in the mind, and turned into a vast nine-color flame sea in the storm, instantly condensing and forming a huge nine-color streamer.

Just a few cymbals hovering, the blink of an eye has been entangled in the body of the black mist, the two ends of the streamers are found in the chest, like a poisonous snake to spit, tightly locked in front of

the fleeing heavenly road, the beastly animal, ready to wait Hair, you may be violent at any time, devour everything..."

brush! ""

Roar....."

As for the sacral avatar, this time there is no sacrifice for the but the right hand is turned over, and a blood black magic blade is added in an instant. magic

The blade body is covered with countless blood lines, and the shape is incomparable. "

Roar.....""

Rumble..."

With the blood blade sacrifice, the blade spirit in the magic blade instantly gave a shocking arrogance, and the violent and violent meaning revealed in the invisible, it was shocked in the ear, and the shin bone was also the first to be shot. The blood blade is rising in the air. Chemical

For a blood-black smelt, the blink of an eye has crossed the imaginary distance of hundreds of billions of miles to the top of a heavenly beast, and the roar of the horror is suddenly falling..."

puff! "

There is no suspense, the dull squeaking sounds come in an instant, followed by a thrilling explosion. This fierce beast is only seven steps in the sky, facing even in the ninth-order grand perfection. The cheekbones are avatars, and there is no ability to resist at all...

His figure exploded in a moment and turned into a **** fog. "

Call..."

For a moment, the sound of the whistling wind rang, the **** fog of this savage beast fleshy body was swept by the cheekbones and swept across the wave, and the eyes were in the body... first

Before, Ye Xuan had fifty-nine natural blood in his hands, and now he added one more. The number of blood in his hands has reached sixty. and

Refining a Thirteen-level Hongmeng Baodan, the required blood of the heavens is nine hundred and ninety-one, that is to say, just the aspect of the heavenly blood, the gap in his hand is only 21 I have it. thing

In fact, there are a total of three heavenly beasts in this black curfew, but the ones that have been killed at the moment are only one of the three beasts. this

On the day, Ye Xuan will definitely harvest two more Tiandao blood essences.

"Card..."

In one direction, there was also a shocking and squeaky card, and the black mist was used to display the spirit of thunder and lightning, and the heavenly beast that fled in the sky in front of him tens of billions of miles away. The head was originally empty, and suddenly there was a **** lightning flashing...

The diameter of the lightning reached a million miles away, and when it appeared, it exploded a thunder sea, and directly shrouded the entire body of the heavenly beast and the beast that was swept in the sky below. This

The first day of the murderous beast was too late to be prevented. It was smashed by the spirit of thunder and lightning. The body shape that was like a lightning bolt was swiftly swept away.

It was also at this time that the black mist avatar had already arrived near him.

Without hesitation, there was a glimpse of the gloom in the middle, and the right hand of the black mist split the fist, and it was smashed into the sea of thunder that covered the vast void...

"Booming..."

"boom!"

The sound of thunder was shocking, followed by a loud bang, the thunder sea formed by the spirit of lightning and the ocean dissipated, the figure of the heavenly beast was gone, and the **** fog in the void was spreading rapidly. And open...

Chapter 5142: Extinct

"Booming..."

boom! "

With the right hand of the black mist, the fist is punched, and it is smashed into the sea of thunder that covers the vast void. The thunder and thunder of the sky is coming...

Immediately afterwards, there was a sudden loud noise, and the thunder sea formed by the spirit of lightning was dissipated. The figure of the heavenly beast was gone, and the **** fog in the void was rapidly spreading. And open... except

The blood fog, and there is no liquid of the origin of the heavens, which makes Ye Xuan quite disappointed, because it means that the liquids of the heavenly sources in the hands of these three guys are put together...

That is to say, the violent smashing of a pair of evil eyes of the evil eye, the eight heavenly sources that splattered from it, is probably the total amount of the original source of the three old guys. because

In order to fit the body and bones, the body of the heavenly beast that was killed by the devil's blood blade did not appear in the body of the heavenly source. but

There may be other sources of liquid in the hands of evil eyes, and whether this is the case. After it is bombarded, it is natural to see.

"call....."

These thoughts flashed through the brain, and the black mist split a hand and swept the **** fog that was spreading out of the canopy to the body, and then turned to look in the direction of violent rushing and chasing...

What the violent temper is chasing is the black eye of the evil eye that has smashed his eyes. This black scorpion is only seven steps in the sky. It is not the same as the violent temperament of the ninth-order grand sacred peak. Half a point. although

He said that he had a glimpse of the opportunity. After the previous eyes exploded, he took Ye Xuan to collect the eight liquids of the heavenly source. Even when the three big blood seas had not been condensed, they had turned around and tried to escape.

However, the gap between the two sides is too big. In a short period of time, the violent temper has already caught up behind him, but the distance is only about four or five billion. "

boom! ""

Rumble..."

Without hesitation, under the flash of the cold, the violent force pushed the power of the body to the extreme, and the right hand turned over. The **** stick that was originally dragged behind him was immediately over the top and squatted toward the front. Fallen.

The horrific sound came in an instant, and this evil eye was already slightly injured. I couldn't help but violently attacked it. The **** stick was on his head, and the whole figure exploded in a moment. The **** fog of the majestic spreads...this

At the moment, the violent sputum flashed a touch of disappointment, because after the evil eye black scorpion was bombarded, there was no liquid in the body, and it was obvious that the eight copies that were originally obtained were already the three. The sum of the original source liquid in the hands of the old guy. "

Call..." brain

After flashing these thoughts, the violent sighs and sighs, and there is an invisible spurt of power in the waves, and the **** fog formed by the sinister eyes of the evil eye is in the blink of an eye. Send it to the central volcano of Shennong Ding and start the blood purification. first

Before, Ye Xuan had sixty Tiandao blood essences, and now he added two more. The amount of blood in his hands has reached 62 giants. The required nine hundred and ninety-one pieces are getting closer and closer!

All of this is long-lived. In fact, it happens in ten decimals. It takes only a short while, and now the three heavenly beasts who are sitting in this black ban are all in full swing.

However, Ye Xuan did not intend to leave, because he had already revealed his body shape when he was able to kill these three old guys. The forbidden beasts in the forbidden land in a large number of abandoned stars all saw him, so he was leaving. Before, this must be solved. this

On the day, he wants to completely extermination of the entire black ban, just like the previous sneaky ban, the grass does not stay, and it becomes a dead zone...

He has nothing to do with his hand. This is the case in the starry environment. The weak meat is strong, not to mention the fact that all the gatherings in the black ban are all savage and violent, full of blood, and they should be under the scorpion. .

"Oh, rest assured, one didn't slip out..."

At this point, see Ye Xuan has already stopped, Yang Jiaoxian immediately ran over the ass, full of face to please the color. he

It's just a first-order heaven, but the three heavenly beasts that were just killed by Ye Xuan in just a few dozens of interest are all the sixth-order seventh-order existence. I saw this hot slaughter, the old guy. The fear of the heart can be imagined.

He is really worried that Ye Xuan will rise to the rise and he will be slaughtered by him...

"Okay, no you are..."

Xuan nodded, and then returned a sentence, he waved the horn horn cents into Shennong Baoding. "

call out! "

"Hey..."

The faint sound of breaking the air, the three **** seas spurt away, and soon guarded at the edge of the void around the black ban, to prevent any banned beasts from escaping.

Then, the cheekbones were smashed in the middle of the cold, and there was a **** glare between the eyebrows.

The blood is welcoming the storm, the speed is too fast, and the blink of the eye turns into a magical blade of blood black. It is full of thousands of miles, and the shape is very incomparable. The magical fog with blood black around is entangled and smelt. The meaning of the killing of the stock market is fierce.

It was the **** blade of the devil that was taken up by him after a hit.

"Hey..."

The blood blade smashed out and immediately spurred away to an abandoned star in the depths of the forbidden land. The huge blade was suddenly screaming and screaming. Wrap

The black magic fog that wanders over the blade of the magic blade has also begun to change rapidly. It has instantly become a horror demon with a body size of more than 10 million miles. "

Oh..."blade

Under the spur of the spirit, the blood basin is sucked up, and all the countless forbidden beasts in this star are all sucked into the mouth, and they are swallowed, just like a giant whale swallowing the sea.

A shocking **** slaughter, start here...

"Roar....."

"Hey!"

Everything that happened in the air was too horrible. The forbidden beasts in the abandoned stars in the black banned ground all trembled, and in the endless fear and despair, they screamed and screamed. The forbidden land is smashed, and it is in stark contrast to the previous dead silence..."

Oh..."only

It's just a matter of interest, and all the banned beasts in an abandoned star have been swallowed up. but

This is just a beginning.

I tasted the sweetness, and the **** blade of the demon circling, and the direction was changed in an instant. The blink of an eye rushed to the second abandoned star, and the giant blade with a body shape exceeding tens of miles was screaming and roaring. Open again...

For all of this, Ye Xuan did not pay attention to it. The three **** seas were separated from the emptiness of the black ban, and the cold and secluded squats, paying close attention to everything, and waiting for this day. The end of the killing..."

Oh..." half

After the day, everything was settled, and with the sharp and unpredictable sound of the air suddenly sounding, the **** blade of the evil spirits that had been swallowed up by all the beasts in the abandoned stars in the black ban, also returned to this moment and turned into A mans plunged into Ye Xuan's eyebrows and disappeared...

Black shackles, an unprecedented explosion in the void, but all but the outside world is completely ignorant, and no banned beasts can escape, Ye Xuan's three **** seas sit on the edge of the stars, like a demon... .."

call out....."

Only an intermediary for a long time, everything has settled! tip

The sharp and unbroken sound of the air suddenly sounded at this moment, and all the beasts in the abandoned stars in the black banned land were all swallowed up in this half a day. Withered

The magic blood blade also returned at this moment, turned into a mansion into Ye Xuan's eyebrows, and this... disappeared! "

Oh la la..." This

At the moment, the screaming noise came, and the three **** seas that squatted in different directions on the edge of the emptiness of the black shackles collapsed. They turned into three **** rivers, and the eyes gathered together, and then it was easy to condense into a moment. ..."

call out....."

Under the flash of blood, the **** small point of the **** condensed blood suddenly rises again, blinking 50 million miles, but it is not violent, nor the three-armed and six-armed konjac, but a dragon whale.

No matter the size or the breath, it is the same as the dragon whale in the dragon whale banned land that was ranked tenth on the left bank of the beastly beast. This

It is the body that Ye Xuan changed with the secret method of blood and sea, plus the enchanting power of the enchanting scorpion. Now he is the dragon whale, even if it is the same as Ye Xuan's peak, it is absolutely impossible to see. Half-pointed... one

In an instant, Ye Xuan sensation of the gods, swept away with the invisible spiritual power, and the half-interest has covered the entire vast black imprisonment. vast

In the innocent vacant land, the abandoned stars have already completely died. Ye Xuan has repeatedly searched and explored several times to make sure that there are no fish missing, and there is no other abnormality. eye

In the middle of the gloom, he took back the power of the gods, but the invisible spiritual power extended beyond the edge of the black banned land...

The black ban is exterminated. Not only are the three heavenly beasts who are sitting in the forbidden land at this stage all killed, but even all the banned beasts are not without exception. and

Ye Xuan, as a result, has harvested three Tiandao blood essences, as well as eight copies of the source of the heavenly source, and various other cultivation resources... the harvest is definitely not small!

But this is by no means the ultimate goal of his coming to the black ban. He came here to give the old whale of the dragon whale a **** pot, just like the Hong Tao who had previously blamed the flooding star...

From the middle of the left bank, the ninth cold-blooded crocodile on the left bank of the Heavenly Road is very sensitive. Now it has been killed by Ye Xuan. The news is estimated to have spread. It is easy to be pointed by the suspect. Xuan... Bi

The cold-blooded blue crocodile is not weak. In the right-hand area of the left bank, there may be more than one powerful existence that can kill it. After all, there are many ancient strongmen who retreat in parallel voids, but this kind of existence is definitely not much.

Ye Xuan now fakes the dragon whale to extermination of the entire black ban, and once the matter is discovered and the news is transmitted, the madness of the dragon whale can somewhat lead those who doubt Ye Xuan's gaze!

But now all the banned beasts in the entire forbidden land have been extinct, and if Ye Xuan leaves, the purpose cannot be achieved.

Therefore, he did not immediately squat away, but crouched in the black banned land, quietly extended with intangible spiritual power, and explored outside the stellar domain. The purpose of doing this was simply to find an unintentional glimpse of the dragon. The whale left the witness of the back...

After a small half-day, the dragon whale's stunned stalks suddenly flashed. Obviously, it has already been discovered. Without hesitation, the body shape suddenly rushed out from the edge of the black banned land..."

Roar....."

I just rushed out of the black ban, and the huge dragon whale with a body size of 50 million liters gave her a roar, and the meaning of killing was shocking, revealing endless **** and violent breath...

On the right side of the darkness of hundreds of billions of miles, there are two starry beasts in the early days of the heavens. They are not coming to the black shackles, but they are just passing through here in the void.

But at this moment, because of the horror of the dragon whale's mouth, the two bodies in the early days were shocked, and the first time they spurred the strength of the body, hiding the body shape, and the air machine was as convergent as possible.

All this is like a conditioned reflex, it is a subconscious reaction, so it is very fast. At least, the dragon whale that just rushed out from the inside of the black banned land is absolutely not found, because the direction of the two heavenly beasts is quiet. Ok, it's on the side of his body..."

Oh..."

After the sound of arrogance, the whale tail of the dragon whale glimpsed in the void, accompanied by a crisp cracking sound, and a void crack appeared in the void in front. Dragon

The whale snorted and the whole body was turned into a masculine glare. The blink of an eye broke into this void crack and disappeared. Virtual

The air once again fell into silence, but the two heavenly beasts who had hidden their bodies did not leave, and waited for a fragrant time. After confirming that there was no abnormality, they showed their physique and carefully pointed toward it. The black curfew here touched it..."

call out!"

"Oh..." broken

When the air rang, the two heavenly beasts broke into the starry field of the black ban, and faced the vast star field in front of the dead. The two exchanged their heads and exchanged a look. Suspicious meaning. it is good

Under the singularity, they quickly spread the power of the gods, covering the endless voids in the black banned land, especially those quiet and terrible abandoned stars, and they were carefully explored by them... under

For a moment, these two heavenly savage beasts were shocked, and the face was drastically swayed, and then there was a scream of excitement in the mouth, revealing endless shock and sorrow.

"Oh, what happened? The entire black shackles were completely turned into a dead zone..."

All the banned beasts were annihilated, and even the evil beasts such as evil eyes and black scorpions, and the rich **** smell in the void, which is clearly the horror of killing just finished..."

"Dragon whale! It must be a dragon whale..."

Crazy, this guy must be crazy, for the sake of the source of the heavens, even the extinction of a forbidden thing can be done, it is simply mad, what else is he afraid to do? "

"No, this is too astounding. It must be spread out. Today, the right side of the Milky Way has already been turbulent. Many areas are experiencing a terrible battle. But there should be a bottom line for everything. What is the forbidden beast under the heavens? in this way?"

"Yes, this kind of hunting really should have a degree. Otherwise, this time the hurricane and blood will even exceed a million years ago. On both sides of the Milky Way, there will be an unbearable horror, and the dragon whale slaughtering the black ban. OK, it must be spread out..."

"No, this is too amazing, it must be spread out..."

"Now the right side of the Milky Way has been turbulent, and many areas are experiencing a terrible battle. But there should be a bottom line in everything. Why should the banned beasts under the heavens be so? The whales are too cruel... ""

Yes, this kind of hunting really has a degree. It is one thing to kill between the old and the strange, but it should not be tempted by other forbidden beasts under the heavens. Otherwise, everything will be chaotic, I will wait behind, who There is no forbidden place to exist? Who has no blood descendants? ""

The extinction of one party must not be reappeared. This time, the **** rains are no small feats. Maybe more than a million years ago, the banks of the Milky Way will usher in an unbearable horror. The evils of the dragon whales and black shackles must be spread out... ..."

"Roar!""

Oh... "Heart

Under the wrath of the head, the two heavenly beasts finally screamed and screamed, and then they stopped again. They instantly turned around and rushed out of the black curfew, directly tearing open the cracks in the void, and went away...

"call out....."

After the two of them left, there was a faint sound of emptiness in the dark void outside the hundreds of billions of miles on the left side. An invisible glare came from the eye, and the blink of an eye came to the front. It is Ye Xuan.

At this time, he has already restored the form of the human race, but it is in the state of the perfect shock of the spiritual power secret, so the figure is hidden, the air machine is also perfect, and there is absolutely no need to worry about being sneaked out. he

I didn't leave before, because I don't feel relieved, I have to see the exact result! Such as

Today, I saw that the two heavenly savage beasts rushed out from the inside of the black ban, and rip the void for the first time. Ye Xuan's mouth was drawn with a smile of satisfaction, and then hesitated and turned away!

There are still ten months from the beginning of the year with the right bankers, and for three hundred days, he is not in a hurry to rush to the floodplain, and he does not intend to return to the right bank. After all, the heavenly blood and the hands The liquid of Tiandao origin has not been enough, and the follow-up hunting has to continue...

.....flood

Calculating the time, the year of the agreement between Ye Xuan and the right bank Tiandao blame, has now passed for two full months, and another ten months, that is, three hundred days, Ye Xuan, the master of the temple, will come again. Go to Hong Xingxing, open the refining and refining of the Tianji Avenue treasure...

Every time I think about this, more than 20 Tiandao remnants in the Hongyu area will have a sense of happiness in their hearts, and a bright smile will appear on their faces.

Can you be happy?

Ten years later, once Ye Xuan, the master of the Temple of Devils, arrived, they were constantly getting a lot of Tianjiu Avenue.

Although the 40 bottles of compensation collected by each furnace, the main body of the temple, Ye Xuan will be split in half, and they will fall into the hands of the Tianji Avenue in their hands. And already...

There are twenty bottles in one furnace, what about ten furnaces and one hundred furnaces?

This is definitely a super-profit that is unprofitable. The ancestors who left before the million years of age are simply too talented. Not only have they created the supreme resources of Tianjiu Avenue, but they have also come up with this. The opportunity to make a fortune, even after a million years of age, makes them profitable, and still gain huge profits...

It can be said that this time in the right bank lost a million years of the Tianjiu Avenue treasure liquid once again turned out, the real biggest winner, definitely not their flooding star domain. complete

Actually, the other right bankers of the right bank, whether they are starry beasts or ancient people, want to ask the master of the temple, Ye Xuan, to refine the treasure of Tianjiu Avenue, not only have to prepare the natural resources needed to refine the treasure. Liquid and various auxiliary materials, and after the treasure liquid is released, it is necessary to take out 40 bottles as a remuneration for refining the treasure...

This is definitely a painful thing, but they can't help it. For the sake of the Tianjiu Avenue, it has to be bitten.

Even Ye Xuan, the master of the magic hall, said that although he is the only one on the banks of the entire Galaxy, he will refine and refine the existence of the treasure of Tianjiu Avenue. But in this

matter, even if he can get 20 bottles per furnace. Tianjiubao liquid, but after all, refining is the responsibility of him, but he is powerful...but

What are the heavens and geeks of Hong Yuxing? One

You don't have to refine the various materials of Tianjiubao liquid, and you don't have to work hard to carry out refining. They just wait for the belly to wait for a furnace to get out of the furnace, and then each furnace is divided into 20 bottles of Tianjiubao. Liquid will do! This

It is clearly lying, and there are no other restrictions, as long as the Lord of the Temple, Ye Xuan, refines the Tianjiubao liquid, as long as there is a demand market in the banks of the Galaxy, they are constantly Get it for nothing...

For this reason, in the past two months, the entire floodplain has always been filled with a pleasant atmosphere, not just the more than 20 heavenly geeks such as Hong Yu, who are refreshed. Even the remnants of the stars that have been repaired below all heaven and earth are also happy!

Especially in the first ten days before two months ago, a group of right-wing Tiandao old geeks returned to Hongyuxing with Hong Tao, and under his persuasion, in order to be able to refine the Tianjiubao liquid in the future as far as possible...

In the end, the liquid of the heavens and the source of the hand was handed over to Hong Tao in advance, and the joy of the heart was even more violent after more than 20 heavenly geeks in the Hongyu Star Field. although

It is said that some heavenly grotesques are still not at ease. They did not hand over the liquids of Tiandao in their hands to Hong Tao, but they were also convinced by Hong Tao. he

Many of them have pre-paid one or two furnaces to refine the materials needed for refining the liquid of Tianjiu Avenue, including the liquid of Tiandao.

Even if it is small, the two of them join forces to make a piece of material and hand it over to Hong Tao in advance. fine

After calculation, Hong Tao's hand-delivered materials and auxiliary materials, which have been delivered in advance, are enough to refine nearly one hundred furnaces of Tianjiu liquid...

Others are not mentioned for the time being. It is just the refining materials that have been used in nearly one hundred furnaces, and it will be able to make the vast number of heavenly geeks of Hongyu Star Field harvest a huge amount of Tianjiubao liquid. One

There are twenty bottles in the furnace, two hundred bottles in ten furnaces, and two hundred bottles in one hundred furnaces. What is the mass? Finish

No problem at all! thing

In fact, with the nearly one hundred furnaces of liquid refining materials, the more than 20 heavenly geeks in the Hongyuxing area have been in an extremely exciting state of mind almost every day for nearly two months. he

We can't wait any longer, and we can't wait for the first year to come. The rest of the ten months, if it can be dazzled, then Ye Xuan, the master of the temple, will come here, the long-awaited Tianjiubao, It will also fall into their pockets! only

Yes, what they never imagined is that there is still a ten-month period in a year. It's far from the arrival of Ye Xuan, the master of the Temple of the Devil, a huge storm that everyone could not expect. At this moment, it is approaching the floodplain...

"Oh..."

The crisp and unbreakable sound of the air broke out, and the edge of the flooded star field touched the dark void outside the 100 billion-mile, and suddenly there was a void crack...

Then there was a **** glare from the crack, ushered in the storm, instantly turned into a huge starry beast, the whole body konjac like blood, a pair of eagle eyes like electricity, revealing a front Sharp and unintentional, as if you can penetrate everything, sneak into the heart... this

The cultivation of the head of the fierce beast is not weak, and it has reached the peak of the ninth-order grand perfection. It is the **** goshawk that was previously attacked by Ye Xuan. Do not

However, when Ye Xuan sneaked him on the same day, it was to promote the secret of blood and sea, and changed into the appearance of Hong Tao, and this **** goshawk had a martial art, but it was far from being comparable to Ye Xuan's enchanting, so He couldn't glimpse the clues at all, but he decided that everything he saw was true.

In addition, Ye Xuan also specially refining a Baoping star pocket with the same form and atmosphere. It is one of Hong Tao's famous magic weapons. Therefore, in the cognition of the **** goshawk, he launched a sneak attack on him that day. It is Hong Tao, the principal of the Hongyu Star Field. this

There is absolutely no suspense! "

Oh..."

"Hong Tao, give the deity... get out!"

At that time, the **** goshawk squatted in rescuing, and resumed the sneak attack on the day after being attacked by Ye Xuan. The first time he came to the Hongyu star field. The purpose is self-evident, naturally it is to find Hong Tao. Account.

During this time, he was mad, and he always felt a sigh of relief in his chest. He couldn't get up and down now. Now that the injury has recovered, people have already arrived in the floodplain. Naturally, there will be no more politeness, even if they look up and scream, they will be shocked. Arrogant...

The **** goshawk is the culmination of the ninth-order great perfection. Now it is full of anger and sorrow. Its sound instantly rushes into the flooding star field in front. The countless star-studded people in all the abandoned stars in the entire star field are clearly audible and appear on the face. Shocked and stunned, I'm looking forward to it...

The recent floodplain is obviously very lively. From time to time, there are some survivors and beasts who come and go.

Although the survivors and the beasts are enemies, they usually do not meet when they reach the big powers. They are the star-studded powers who pursue the avenue. If there is a conflict of interests, they will not do the meaningless killing. and

Nowadays, the treasures of Tianjiu Avenue are reappeared. For the sake of treasures, these heavenly beasts and survivors and mortals are all in the floodplain, and they are harmonious with each other. In public, they will not be easily shot. thing

In fact, in addition to the celestial blame, there are some vicious beasts and survivors of great powers and ruins in the floodplain. They have some top-level treasures in their hands, and some can be used as Tianjiu Avenue. The refining materials used in the treasures are used, so they ran here to sell them, or they used bartering materials, or simply made their own personal feelings, and climbed into friendship with some old people...

In the stars, this kind of thing is very common. but

It is precisely because of this, there are many survivors and fierce beasts visible outside the floodplain at this time, or far or near, with the **** goshawk screaming, all the faces are showing up. The colors are all turned to look forward to, I don't know what happened...

"Blood, what kind of evil are you mad? So murderous, do you want to go to my flooding field to rob?"

Fast, there are more than a dozen figure rushing out in the floodplain in front, and all of them are all heavenly and strange people sitting here, and the leader is Hong Tao. this

At that time, his face was gloomy, and the sorrowful glory of the scorpion was swaying, and stopped outside the edge of the horoscope. It was separated from the **** goshawk by a distance of 100 billion miles. mouth

At a corner, he sneered and said: "If this is the case, you'd better consider it carefully. Today's floods are no more than the original. If you don't say if you are irritating, if you really want to come, fear. Is the right side of the road friends, and will not agree..." He

It is true that there is such a saying that on the one hand, the Hongyu Xingyu is now holding the refining authority of the Tianjiu Avenue, which was born in the millions of years and once again on the left bank.

On the other hand, Hong Tao's hands have now gathered the refining materials of the nearly one hundred furnaces of Tianjiu Avenue in advance. These refining materials come from hundreds of strangers, but they are all highly valued by them.

If the **** goshawks dare to rush into the floods of the stars, even if Hong Tao does not shoot, those who hand in hand the Tianji Avenue treasure liquid materials to Hong Tao, the Tiandao old monsters temporarily kept by the Hongyu star field, absolutely not Will sit back and ignore. Ten thousand

If there is a big mess, what are the remnants of the materials they handed over, who is responsible for this responsibility?

For this reason, with the words of Hong Tao now, there are some rumors of the cold voices in the surrounding air, and the power of the body is specially dispersed. This is clearly a response to Hong Tao's discourse... ..

"The deity is going to robbery? You shameless old man, actually dare to thieves to catch thieves? I am mad at me..." Blood

The eagle eagle's temperament is violent, and now it is even more angry. When Hong Tao is actually beaten, he suddenly squats in the void. "

call out....."

Halfway through, he waved his hand abruptly, and a glare came out. The void in the right side turned into a huge light curtain, and the light curtain flashed, and gradually the image appeared. and

The **** goshawk with the voice of sorrow and anger, also sounded at this moment, the whole piece of emptiness is clearly audible: "They are friends, the lord is coming out of anger today, just to uncover the hypocritical face of this old man. Let you see his true face..."

More than a month ago, the deity had gathered with the friends of the Tao. At that time, the old guy asked the old man to take out the eleven kinds of heavenly sources in his hand and hand it over to him for temporary storage. He said that he was the master of the future hall. When you arrive, you can help the deity to refine the Tianjiubao liquid in front..."

"This matter was rejected by the deity. After all, the liquid of the heavens is not the same, the deity is not at ease..."

Unexpectedly, when the old guy left the deity, he immediately rushed to the front and squatted in the dark outside the forbidden land where the deity was sitting. When the deity arrived, he immediately shot abruptly..."

"The deity was accidentally injured, he was seriously injured, hurriedly fled, healed and healed, and now he has just recovered. This is to expose this matter. You are afraid that there are many people who are in the hands of the source of the liquid in advance. Have you handed it to him, be careful with the meat buns and dogs..."

Oh..."

Listening to this, Hong Tao, who was caught off guard, almost spurted blood on the spot, and his neck was thick and thick. Head

Under the shackles, when he raised his hand and pointed at the **** goshawk, he angered: "Blood and grotesque, what do you want today? You are so bloody, what is your dog, your family?" Are dogs..."

The sound is still not falling, and there is already a scene in the huge light curtain on the far right side. The words in Hong Tao's mouth are abruptly stopped, and the eyes are dumb...

Chapter 5143: Old man

"puff....."

The words of the **** goshawk are too arrogant, and under the defense, Hong Tao almost squirted old blood on the spot, and his neck was thick and thick. lift

The hand pointed to the **** goshawk, and angered: "What do you want today? Bloody, strange, you are so bloody, you are a dog, your family is a dog..."

"Hey..." He

The sound of the words has not yet fallen, and there has been an image in the huge light curtain on the far right side. Hong Tao subconsciously turned his head and looked at it. The words in his mouth stopped suddenly, his brain creaked, and his eyes were dumbfounded. Oh... light

In the image of the curtain, Hong Tao's figure is visible, in addition to the **** goshawk, and the shape of the **** goshawk is also covered by a huge net bag. This net bag is Hong Tao's famous treasure. One of the Bao Park stars pocket!

Although it was only an image, it was after all the **** goshawks immediately discovered the identity of Hong Tao and immediately applied them to the virtual air. This

But the means of heaven and earth, so even if it is just an image, Hong Tao's breath is also clearly and incomparably diffused, absolutely wrong...

"Oh! What are you special about? Why are you dumbfounded? Is your head stunned? I didn't expect the deity to use the means to sneak out the scene of your sneak attack in that critical situation?"

See the image in the giant light curtain, and then see the stunned look of Hong Tao's open mouth and almost all the eyes out of his eyes, **** eagle eager to feel hate. With

The smirk of the mouth was floating, and he turned around and looked around at the neighbors and the beasts who were also stunned. He raised his hand and pointed to Hong Tao. Then he answered: "You can see all of you." ?""

Who is the old guy in the image besides him? That is his fame and fortune to hold Park Star pocket, the whole left bank right section is this one, and besides this, the deity's eagle eye is a powerful martial art, and it is not weaker than him, if it is others How can you escape the demeanor of the deity? 哗

.....he

The words just fell, the void in the sky was suddenly stunned, and the powerful parties who were shocked by this scene finally returned to the gods. All of them were shocked and screamed. The tide started..."

God, this is actually true..."

I said, **** goshawk is not crazy, no matter how it is possible to scatter this kind of evil, seeing him become like this, there must be a reason..."

"Hey! This is a very scary thought. The blood of the eleven heavenly sources in the hands of the **** Taoist friends was not handed over. He immediately ambushed him. Then I waited in advance to hand over the ones that had already fallen into his hands?" "

It's not really a meat buns... Well, if you really have to go back? ""

This is inconvenient to speculate, but the image in the light curtain is absolutely not fake, I am waiting for the old man, this can still be seen. ""

And that is indeed Bao Puxing pocket, Hong Tao's breath is also right, not to mention the **** Taoist eagle's eye is indeed a very strong martial arts, he cultivated the strength of the nine-step great perfect heavenly peak, if Some people pretend that, with his cultivation as the strength and the power of martial arts, can you not see it? ""

Besides, it doesn't make much sense to do this. It is necessary to ambush the **** Taoist friends. Why bother to do so and change into the appearance of Hong Tao? "

"No, the old man gave Hong Tao the roots of the source of the liquid is all old, and absolutely can not be lost, the credibility of this old guy is debatable, you must first get it back to rest assured..."

This is the key, the old man is not at ease, Hong Daoyou, and quickly return the old man's source of liquid back, the big refining in the back is just fine, this matter is not a small thing, can not be lost, this risk is not ..."

"Yes, this is what the deity means, and he will come back soon..."

Roar! ""

Oh..." with

The exclamation sounded, and the various celestial geeks gathered in the outer periphery of the Hongyu star field, whether it was the starry beast or the benevolent strongman, quickly smashed up, screamed and screamed, asking Hong Tao to pass them before. The delivered Tianjiubao liquid refining materials are handed over...

For all of this, at this moment, Hong Tao is collapsing. He looks at the giant light curtain on the right side of the sky at a high altitude. His mouth is wide open, his face is straight and his face is dull.

For a moment, he had such a lost embarrassment. Some doubted whether he was a sleepwalker or unconsciously ran to ambush the **** goshawk.

Because even if I look at it from his point of view, I can't find a half-point of doubt. On the surface, it is clearly what he did. There is no doubt about it. There is no possibility of a resolution...

In fact, even the dozens of heavenly geeks who had just followed him from the Hongyan star field behind him, the face also showed a suspicious color, but this is his own, and the flood is A group of people, actually suspected of this matter, his heart's anger and grievances can be imagined!

However, even if all the people did not believe it, Hong Tao knew it. He did not do it at all, and he was framed by himself.

But such a discourse can't be said, because the facts are all in front of him, and how to distinguish him is useless. On the contrary, it is even more suspicion. It will be considered as a refusal to return to Tianjiu Liquid. The meaning of the material... true

In that case, these heavenly beasts and survivors who are gathered outside the floodplain are not to be blown up. Some of the grumpy guys will be shot immediately, and once the war begins, the situation will be overwhelming. What kind of situation will eventually come into being, no one can predict... brain

After flashing these thoughts, Hong Tao's cheeks suddenly twitched. Although he was not willing to hand over the Tianjiubao liquid refining materials, he handed it over, but according to the current situation, it's not good to do so today. There is no way to confess the past.

What's more, although the nearly one hundred days of the Jiubao liquid refining materials that were collected in advance will be handed over for a while, but after ten months, the main Ye Xuan of the Devil Hall will arrive, and these guys will ask him to refine the Tianjiu Avenue. Treasure, still have to come out again...

At that time, each of the 20 bottles of Tianjiubao liquid belonging to their floodplain will still be a bottle.
"

The friends of Dao, this thing is very strange, but the old man is indeed embarrassed..."

As soon as I read this, Hong Tao secretly bite his teeth and immediately hugged his fists toward the surrounding arches. His face was more grievances and anger. Then he said: "But since the Taoist friends don't believe in the old man, it is useless to explain this matter."

"In the beginning, I did charge the refining materials of nearly one hundred furnaces of Jiubao liquid in advance, and now I will return them to you to prove the innocence of the old man..."

"call out!"

Oh..."

As soon as the sound fell, Hong Tao did not hesitate. When the wave of the weak whispered sounded, there was a glimpse of the moment, and the ecstasy of the heavens and the geeks who were waiting outside the flooded area were spurred away...

"call out!"

Oh..."

The faint sound of breaking the air rang, and as Hong Tao waved, there was a glimpse of the moment, rushing toward the heavenly lords who were outside the floodplain...

"The friends of the Tao, this thing is very strange, the old man is indeed being defamed, but since the Taoist friends do not believe the old man, this matter is no longer necessary to explain..."

During the talk, Hong Tao held a fist to the surrounding arch, and his face showed an endless grievance and anger: "There was a refining material that was collected in advance for nearly a hundred furnaces, and it is now returned to you to prove the innocence of the old man."Say

When he finished, he didn't stop, his nose snorted, his face was sullen and he went, and he turned into the floodplain.

The old geeks gathered around the stars, and they all dispersed, and they went back to the forbidden land and the star field behind them. Even the **** goshawks were like this. After all, the liquid of Tiandao origin has not been lost. Plus, this time Hong Tao has learned the lesson, and the face is lost.

After ten months, the Tianji Avenue Baoji still has to be refining. Can't you really kill this old guy? Not to mention that he alone does not have this strength...

.....

Half a year passed by...

In the past six months, the entire right bank of the left bank has been completely messed up!

On the same day, after the **** eagle anger and revealed the true face of Hong Tao's main agent, Hong Tao, the refining materials of the nearly one hundred furnaces of Tianjiu Avenue, which he had collected in advance, had all been returned. when

At the time of the flooding, a part was returned, and then some early delivery of the Tiandao grotesque rushed to the Hongyuxing domain and took away the refining materials that he delivered.

Since then, the floodplain has been on the doorstep, but the entire left bank of the left bank has a fierce battle from time to time.

All the heavens and gangsters act alone, or three or five, to launch various ambushes and hunts...

Even the news came out, even the ninth-year-old cold-blooded blue crocodile on the left bank of the beasts on the left bank, just after arriving at the right-hand star field, was degraded because of a secret ambush.

This incident caused a big wave, although no one knows who did this thing, but there are rumors in the dark, most likely related to the dragon whale. This

The old guy was ranked 10th on the left bank of the Heavenly Beasts, but since he was defeated by the Lord of the Devils, Ye Xuan, he was crazy. There were two heavenly monsters who saw him enter the black ban and would include evil eyes. The three heavenly beasts inside were all killed. very

As for the countless forbidden beasts in the entire black ban, there are no exceptions. All of them are black hands and are completely extinct...

This incident has once again caused an uproar, and the situation in the right section of the entire left bank is even more severe. In the past six months, I have not known how many eccentrics have fallen or been seriously injured in various ambushes...

For all of this, Ye Xuan did not pay attention to it. For half a year, he has been screaming and making a fortune, taking advantage of the opportunity that the water has been completely mixed up, and once again, after he succeeds, he immediately withdraws and continues to find the next goal... ..half

In the year, nearly two hundred days, he will have a harvest almost every ten days, and the liquid of the Tianji Avenue will be more or less.

In the past six months, Ye Xuan's Tiandao blood essence has reached 158, and it is only four hundred and twenty-two that are needed to refine two thirty-level Hongmengbaodan.

As for the source of the heavenly source, there are more than one hundred and twenty-one of the one hundred and fifty-one in his hand. From the two hundred and sixty-two required to refine two Hongmengbaodan, the same is only ten copies... although

It is said that there are only one hundred and fifty copies of the same thing in his hands. There are only one hundred and twenty kinds of liquids in the source of heaven. But it doesn't matter. It takes only nine hundred and eighty to refine a liquid of heaven. The source of the liquid can be. and

The same is true when refining the second one, as long as the 80 liquids in the furnace are different. and also

That is to say, any kind of source liquid in Ye Xuan's hands, even if there are repeated similar things, if only two pieces are the same, it will not affect. If there are three identical ones, you have to find a way to change them in secret...

There are three pieces in this hand, and you need to replace one of the source liquids. There are a total of nine kinds in his hands, which happens to be the number of refining a furnace.

After four months, I went to the Hongyu Star Field, which was just to help those old people who were refining the right to make a difference. At the same time, it was easy to secretly replace the nine sources of liquid, and everything would be settled...

At this time, after six months of successive battles, Ye Xuan has returned to the dark void in front of the right section. The time for another breakthrough has already arrived. In these four months, he will enter the retired abandoned star and attack the third-order Tiandao...

"call out....."

In front, the closed-door star has been far away, and Ye Xuan's mid-cold man flashed, and immediately rushed over to the inside of the star. With

After that, he waved the Shennong Baoding, which was only a large size, suspended inside the star's nucleus, and the breath converges without a split. Ye Xuan stepped into it..."

Oh..."

During the wave, with the faint sound of breaking the air, there was a rush of anger and hang out in front of him. It was the cultivation resources that he took out from the immortal world to develop this breakthrough!

Without hesitation, there was a flash in the middle of the gloom. Ye Xuan even spurred Shennong Ding's domain power, and compressed all the cultivation resources to the size of the baby fist, and swallowed it in the belly.

"Oh la la..."

The entrance of the baby fist ball is instant, and the blink of an eye becomes a powerful river that can be swayed by the power of the dragon. It slowly opens in the body of Ye Xuan, and the sound of the chain squeaking is also overwhelming. in

The shackle chain that appears in Ye Xuan's body, this time, as before, there is still only one. He is concentrating on the enthusiasm and urging the hanging energy that has just formed in the body, and launching a big week in the whole body. Working day...also

I don't know how long it took, and the hanging energy formed by Ye Xuan's meridians has been completely refining. With

After that, it was just an impact. This sturdy chain of shackles was broken, and the system prompts in expectation sounded very quickly in Ye Xuan's mind..."

Hey, congratulations to the host, the breakthrough of the ancient realm of the hole! The current realm: Tiandao third-order! ""

Hey, congratulations to the host, the breakthrough of the body and blood! The current realm: Tiandao third-order! "under

For a moment, Ye Xuan opened his eyes, deep in the bottom, and a touch of excitement flashed away. although

However, because of the suppression of Hongmeng Avenue, after this breakthrough, he was still only the ninth stage of the ninth transformation of the konjac. but

Because of the breakthrough again, although the realm has not broken through, Ye Xuan's real combat power has obviously skyrocketed again. If it is now with the dragon whale, even if he does not use the 陨天弓, he has absolute certainty. Can the old guy be killed on the spot, not just the last time that made it... seriously injured!

This time, the retreat broke through, and the realm of Ye Xuan's strongest state is still the same, but its real combat power, obviously it has skyrocketed again!

If it is now with the dragon whale, even if he does not use the 陨天弓, he has absolute certainty, can kill the old guy on the spot, not the same as above, just to make it seriously injured and smashed...

"Are you actually three months?"

After the heart-wrenching mood was calmed down, Ye Xuanyuan pointed to a calculation, and the sorrowful flash of sorrow, whispered in his mouth: "So, the original year's covenant, only one month left..."

As for the source of the heavenly source, there are now more than one hundred and twenty-one hundred and fifty-one, and one hundred and sixty-two pieces of the twenty-one-level Hongmengbaodan are refining, and the difference is eleven..."

Having said that, he suddenly thought of something, and suddenly he made a fierce and savage mantra: "If you remember correctly, the **** goshawk that was ambushed in the identity of Hong Tao, the liquid of the heavenly source in his hand. It happens to be eleven..."

At this moment, Ye Xuan made a decision, taking advantage of this month's time, and then finally shot, will hold the **** goshawk of the heavenly source of the heavens, and then kill him and win the liquid of his hand! "

call out....."

After the decision, Ye Xuan did not hesitate, and grew up, stepping out of the Shennong Ding Ding mouth with a colorful mist, and then easy to throw Baoding into the body. "

Oh..."

After rushing out of the star of the abandoned star, he waved his hand for the first time, and a crack in the void accompanied by a crisp crack. leaf

Xuan shoulder rushed into it, and the blink of an eye disappeared...

.....eagle

Tan, also known as **** forbidden land, is where the **** goshawk's nest is.

Since the first half of the year, I went to the Hongyu Star Field, and after publicly revealing the true face of Hong Tao, the **** goshawk returned to Yingtan and never went out. complete

Actually, the right section of the left bank is too chaotic. The voids are almost in danger. There may be a few crouching savage beasts suddenly murdering and killing people. even

The ninth-year-old cold-blooded blue crocodile on the left bank of the Heavenly Animals list has quietly fallen, and its degree of danger can be imagined.

He is different from others. Those who are alone or alone and who are stalking outside the squad are unable to do it. They want the treasure of Tianjiu Avenue, but the liquid in the hands of the heavens is not enough, so they can only take risks. can

There are eleven kinds of liquids in the hands of the heavens in his hands. There is more than enough to refine a furnace of Tianjiu Avenue. There is no need to take this risk.

Moreover, it is precisely because of the large amount of the liquid in his hand that he is more likely to be stared by the red-eyed guys. The reason why the **** goshawk has not been able to stand in the past six months, It is because of careful consideration.

However, the current year is almost approaching. Only one month later, he naturally cannot continue to linger in the **** curfew. He has already set off to start the journey to Hongyu.

At this time, he still didn't know. Just one day ago, Ye Xuan, the master of the magic hall, had quietly touched the vicinity of the **** forbidden land. It was 200 billion miles away from the forbidden land and went to the direction of the floodplain... ..ambumed down. This

It was Ye Xuan's last shot. There was one month left. He decided that the **** goshawk would definitely walk out of the **** forbidden land, so Ye Xuan had already had the strongest form of the three-headed and six-armed konjac before coming here. activation. this

His body is tens of thousands of miles, and now he is crouching here. The magical spirit of perfect shock has already been fully activated. His body shape and air machine have been fully circulated, waiting for the prey to appear..."

call out....."

After waiting for another five days, the **** forbidden land in front of it suddenly came a faint sound of broken air. A small man was rushing out of the starry field, and the invisible air was repaired. The great perfect heavenly peak. blood

Goshawk!

The old guy dragged on for so long, and finally appeared. The thoughts flashed through his mind, and Ye Xuan's mid-cold flashed, and the body's power was instantly pushed to the extreme. "

Card..."

"Hey..."

At one moment, the black mist in the three great devils suddenly screamed at the sound of the sky, and at the same time, the spiritual source of the mind that was suspended in the sea was once again working quickly...

The diameter of the road is full of thousands of miles of blood-colored lightning flashing on the top of the **** goshawk, and he will be caught up in the air.

Without waiting for him to react, the invisible spiritual power of a canopy was like a tsunami, and it was instantly divergent and shaped, and the shape of the **** goshawk was completely covered in an instant. black

It is the secret of spiritual power, but it is not the spiritual vortex and the spear of annihilation. It is the spirit of thunder and lightning and the full exertion of the spirit...

Spiritual crushing is a kind of mysterious technique that forms a heart-strike with spiritual power. Compared with the human monk's sacred attack, it is basically impossible to prevent because the spiritual power is more traceable.

Nowadays, this **** goshawk is suddenly stunned by the huge blood-colored lightning of a million miles. When the consciousness is fascinating, it is immediately smashed with a spirit of crushing, and the whole person will be paralyzed on the spot. although

However, this state can only last for one or two interest hours, but for Ye Xuan, it is enough...

"boom!"

At the same moment, Ye Xuan, the true form of the three-headed and six-armed konjac, appeared on the side of the **** goshawk. When the violent chilly man flashed, the right hand suddenly picked up, and the loud noise was already shocking. Big

The head black bar did not hesitate to collapse, and the porcelain fell on the top of the **** goshawk. The old guy's cultivation is not weak, but there is still a certain gap compared with Ye Xuan.

In the face of Ye Xuan's full blow, and now that the ideology is in confusing, he simply can't make any reaction. The huge body shape suddenly bursts open in the moment when the **** stick falls, turning into a blush. Blood fog spread...

"Call..."

Under the first glory, Ye Xuan waved in the first time, and the whistling sound of the whistling wind suddenly rang, and a huge invisible instinct screamed away, sweeping away the **** blood that was spreading and sending it directly. Enter the bottom of the volcano in the central area of Ding, and start the blood purification.

As a result, Ye Xuan's Tiandao blood essence has also added one more, which has reached 158 before, and now there are 159 giants! and

This time, the harvest is obviously not just that. With the **** goshawk's flesh exploding, and the **** mist that swept through it, there are eleven weak awns. This

Some of them are the roots of the heavens. After harvesting them, Ye Xuan's hands of the heavenly source have reached 162, which is exactly what is needed to refine two 30-level Hongmengbaodan. quantity. only

However, there are nine sources of liquids in three, but it doesn't matter. Going back to the Hongyu Star Field, Ye Xuan only needs to refine a furnace of Tianjiu Avenue, and the nine sources of the same source can be used. Changed silently...

After killing the **** goshawk, Ye Xuan's Tiandao blood essence has added another one. It has already reached 158 pieces, but now there are 159 pieces! Refining

Two furnaces and thirty-level Hongmengbaodan, three different!

As for the liquid of Tiandao, it reached 162 copies, which is exactly the amount needed to refine two Hongmengbaodan. although

It is said that there are nine sources of liquids in three, but it doesn't matter. Going back to the Hongyu Star Field, Ye Xuan only needs to refine a furnace of Tianjiu Avenue, and then the nine sources of the same source can be used. Changed silently...

For this purpose alone, he must go to the floodplain.

What's more, he originally promised that this year's covenant, even if it is impossible for Hong Tao to expect it, for a long time to refine the Tianjiu Avenue, this year's covenant must still go to the covenant. !

Calculating the time, when I said the good year's covenant, there are only 20 days left. It is only about ten days since I rushed to Hongtao Star Field here, but if I am slowly rushing away, I will also go down. It is just that we can arrive on time on the date of the appointment...

"call out....."

The thoughts flashed through the brain, and Ye Xuan immediately set off. he

Restored the human form, but still in the ninth state of the konjac change, and activated the magical spirit of perfect shock, concealing the body shape and air, turning into an invisible man, spurting away...

.....

...flood

From the **** goshawks who came here half a year ago, after publicly revealing the true face of Hong Tao, the refining materials of the nearly one hundred furnaces of Tianjiu Avenue, which he had collected in advance, were all retrieved.

Since then, the original star of the guest's flood gate has become a door to change, and this situation has changed again until recently. half

A few months ago, the Hongyu Star Field continued to have guests coming, all of them were the Tiandao old monsters on the left bank of the left bank. There were both heavenly beasts from the forbidden land of a savage beast, and the remains of the survivors from a single star.

Of course, in addition to these celestial grotesques, there are also some great powers and the existence of the level of absurdity. However, at this moment, in this case, the so-called power and absurdity can only be regarded as the descendants of the ceremony. With the genus, there is no right to speak at all, you have to be a tail with a man...

On the day of the expiration of the one-year period agreed by Ye Xuan, the master of the temple, and the heavenly powers of the right side of the left bank!

Today, this flooding star field will surely usher in a grand event that has been rare for many years on the entire left bank... half

In the past month, the Tiandao grotesques in the right section of the left bank have come one after another, but none of them have entered the interior of the floodplain, but are waiting in the dark void outside the starfield. Wait

Waiting for the arrival of Ye Xuan, the Lord of the Devils...

Nowadays people have come almost. After all, the purpose of these heavenly geeks is to ask the master of the temple, Ye Xuan, to refine the treasure of Tianjiu Avenue. Since there is a demand for people, it is impossible to take the shelf. It's late! put

Looking at it, the vast emptiness of the trillions of miles outside the floodplain, the number of heavenly beasts and survivors from the right-wing parties has exceeded at least one thousand.

And if it is counted behind them, as a descendant or a genus to come to observe the power of the power and the despicable powers, the figure in the void is full of thousands of people...

This is because the strength of the tens of thousands of repairs are all above the ancient powers of the ancients. Although some of them are from the middle of the left bank or even the left, most of them are more than 90% of the right. only

It's just the right side of the left bank, there are so many old monsters above the big energy, and today there is no coming, because many people are still in parallel in the void, do not know the outside world, only this, you can see the left bank The strength is strong. when

However, this is partly due to the fact that the days of the conditions of the Galaxy's stellar domain are getting closer and closer, and the old guys who have been in parallel in the void or other areas have been reborn...

Today, the right-wing eccentrics gathered outside the Hongxing star field are more than a thousand, but there are quite a few new faces. It must have been the existence of the parallel void in this year.

One thousand days ago, when Ye Xuan Du Dan was robbed in the dark void in front of the right section, there were some disappearances.

They were either hunted or seriously injured in hunting, and now they are healing and simply can't come. This

This is what it should be. The entire right bank of the left bank has not been flat since the beginning of the year. When there was a killing, even Ye Xuan was caught in the water and killed a lot of heavenly monsters. This is evident. One

The heavens and the old geeks are gathered here, and some of them are familiar with each other. They are idle and idle, and sometimes talk to each other.

The void situation in the right section of the year has been extremely tense. I don't know how many eccentrics have been secretly murdered. From the middle of the left bank, the ninth-year-old cold-blooded blue crocodile on the left bank's beast list is being hunted. It is no longer a secret.

Someone secretly rumors that it is highly probable that the dragon whales, which were ranked tenth on the left bank of the beastly beasts, are not the ones who have this ability in the right section, and the dragon whales are arranged in advance. Suddenly sneak attack, barely can do it. more

Moreover, some people once saw the dragon whale quietly extinct a whole forbidden land of the fierce beasts. In addition to the heavenly beasts and beasts sitting in the middle of the town, even the forbidden beasts who were repaired as the following heavens were slaughtered and completely extinct. only

This shows his madness, so the possibility of starting a cold blue crocodile is great...

In fact, the dragon whale has not arrived, which is obviously more problematic, and people are more skeptical about him.

Because he has quietly extinguished a forbidden land, the purpose is to collect the liquid of the source of heaven, but now it does not appear, it is clearly the rhythm of guilty...

There are a lot of rumors about this matter, and gradually formed a consensus. Almost everyone has already identified the dragon whale as the behind-the-scenes hand of assassination of the cold-blooded blue crocodile! Correct

In all of this, Hong Tao didn't pay attention to it at this moment. At this moment, he was in the void outside the edge of the floodplain, and there were more than 20 figures behind him. It was the other heavenly monsters in the floodplain. to

The survivors of the stars below Yu Tiandao did not show up at all. As the host, today, Hong Tao should have sent some remnants of the stars, set up seats in the void, and prepared some treats such as spirits and spirits. .

However, he did not do this. Although he appeared in the Hongyu Star Field with more than 20 Tiandao old monsters, he kept his face and did not talk to everyone. Obviously, he still worried about the matter half a year ago. Unhappy..."

Oh..."

It was also at this time that there was a sudden crack in the emptiness in the far side of the right side, a crack in the void appeared, and Ye Xuan, smiling, stepped out of it...

Chapter 5144: First furnace treasure

"Oh..."

At the last moment of the expiration of the year, there was a sudden crack in the air in the far side of the right side, a crack in the void appeared, and Ye Xuan, smiling, stepped out of it...

"Dear friends, don't see you for a year, don't come innocent..."

Stepping on the void, Ye Xuan's face looked pale and light, smiling and holding a fist to the surrounding arch, it was a greeting..."

Ye Daoyou is really a believer..."

Hong Tao was still a bit embarrassed, worried that Ye Xuan would not come. At this moment, he saw his figure appearing, his face suddenly showed a happy color, while greeting, he had already greeted Ye Xuan...

"Hong Daoyou is polite, when the Japanese temple has promises, it is a good practice..."

Ye Xuan pretending that he did not know what happened during the year. He smiled and responded: "One month ago, the temple had just returned to the customs. The first time came from the right bank and was surrounded by the dark void in the right part of the Milky Way. OK, it took a little while on the way, but finally arrived in time..."

Fan discourse is enough to show that he has no knowledge of the various things in the right side of the left bank since the beginning of the year. and

Obviously, there is no doubt in such a discourse. At the beginning, Ye Xuan hardly resisted the next incident, but everyone witnessed it. Although the Hongmeng Dan robbery did not have the power of the hijacking, it was not comparable to the heaven and the thunder. .

Ye Xuan gnawed his teeth and forced a hard fight against a Hongmeng Dan, and dragged the wounded body to refine the five-furnace Tianjiu Avenue treasure. After returning to the right bank, the hall was closed and healed, only took less than a year. It has been considered to be extremely fast.

Of course, they absolutely can't think of Ye Xuan's physical strength. On that day, he suffered a lot of serious injuries, and after swallowing some chaotic drugs, he immediately recovered! this

Engraved, with the arrival of Ye Xuan, a large number of right-handed Tiandao grotesque gathered around the imaginary sky, also greeted Ye Xuan with a smile, chilling and wooing each other.

Hong Tao obviously has some guilty conscience. Although he did not attack the **** goshawk, he has almost reached the consensus of all parties in the right section. He was afraid that someone would mention it to Ye Xuan, and his face was ugly. Yes

After a chill, Hong Tao quickly mentioned the business. Ye Xuan originally waited here. Naturally, he immediately nodded and answered with a finger, and said that he started refining from him.

This celestial beast is full of ecstasy on the face, and there is no hesitation in the roots. When even a mouth spurts a mile, it spurs toward Ye Xuan, which is obviously a refinery of the Tianjiu Avenue. All the materials needed. its

It includes a variety of accessories and nine different natural sources.

From the glare of the volley, Ye Xuan waved close, and immediately after the investigation, he secretly hid himself.

This kind of nine kinds of heavenly source liquid just used to replace the nine kinds of liquids in his hand that have three similar sources. That is to say, after the refining of the Tianjiu Avenue in the furnace, the source of the heavens in Ye Xuan's hands The liquid is enough to refine two thirty-level Hongmen Baodan, a total of one hundred and sixty-two, although there are similar things, but there are not three the same..."

call out....."

After secretly replacing the nine kinds of heavenly sources, Ye Xuan's heart suddenly became loose, and then he did not delay. He waved the Shennong Baoding between the waves, like a star, squatting in front of the sky. Following

However, his shoulders swayed, and the whole figure instantly turned into a masculine spurt. He blinked at the top of the treasured place with a colorful mist, sat down directly and closed his eyes...

The refining of the Tianjiu Avenue treasure liquid is carried out inside the central volcano of the Baoding Ding interior space, because the refining of the treasure liquid requires the use of the red lotus industry fire, and the awning red lotus industry fire has already been combined with it after being refining. The flame mother was taken by Ye Xuan in the nine-colored flame pool at the bottom of the volcano of the central domain..."

boom.....""

Rumble..."

With Ye Xuan's enthusiasm, in the nine-colored flame pool at the bottom of the volcano of the central domain, there was an earth-shattering roar in an instant, and the endless red lotus fire of the awning rushed directly to the mid-air of the volcano in the central domain. Suspended.

The blink of an eye turns into a tens of thousands of furnaces that are condensed by the red lotus industry fire. There are countless red lotuses inside and outside the furnace, which are blooming in a fascinating way, which reveals a heart-rending terror. "

call out! "

The weak sound of the air broke out quickly, and all the refining materials were spurred and fell into the flames of the furnace. The refining of this furnace... day

Jiu Avenue Baoye is indeed extraordinary, but Ye Xuan's pharmacy talent is not a trivial matter. The experience is rich enough to make people feel horrible. With his current horror, he is equally relaxed. This

Once, just two days just passed, the flame furnace hanging in the central volcano in the middle of the volcano suddenly blasted, and the furnace was re-inflated for a red fire in the ocean, gathered together and directly fell to the bottom of the central volcano The colorful flame pool.

What remains in the void is a canopy of liquid, which is divided into nine hundred and eighty-one canopies. Each of the awnings of the Tianjiu Avenue has only the size of a baby fist. The energy of the scent is amazing, and it clearly contains A faint singular force...not

However, although everything went well, the treasure liquid was refining in just two days, but Ye Xuan did not get up. he

The figure is still sitting on the knees of the Baoding Dingkou, which is carrying the colorful mist. The eyes are closed and the eyes are dignified. It seems that the rhythm of the refining treasure is still condensed. also

After sitting for three days, it was estimated that the time was almost the same. He suddenly opened his eyes and outlined a smile with a sigh of relief. He suddenly waved...

call out! "With

With his enthusiasm, the Tianjiubao liquid, which has been refining this furnace, will instantly be turned into a hillside from the mountain volcano of the central volcano, directly to the Baoding Dingkou of Ye Xuan's knees. Come. "

Oh..." tight

Then there was a faint sound of broken air, and after the rushing out of the Dingkou, the first time was waved by Ye Xuan, and it was packed in small bottles! "

This Taoist friend, fortunately, not to be insulted, you have a good day! "

A wave of hands, the nine hundred and eighty-one bottle of Tianjiubao liquid hanging in front of Ye Xuan was divided into three parts, and he was in the air in front of him.

At this time, Ye Xuan also turned to the sky and the beasts looked at the past: "However, in accordance with the rules, this furnace 81 bottles of Tianjiubao liquid, the temple will charge forty bottles as a refining reward... ""

Oh..."

The sound of the sound, falling in the three treasures in front of Ye Xuan, there will be a rush to go, in front of the heavenly road to the beast, it is exactly forty-one bottles of Tianjiubao. "

Roar.....""

Thank you, Ye Daoyou..."

The first day of the fierce beast sighed with a scorn, and was very happy.

"As for the 40 bottles of refining rewards collected, the temple has already promised Hong Tao Taoist friends that 50% will be distributed to the Hongyu Star..."

Speaking of this, Ye Xuan waved again, and the two remaining Tianjiubao liquids in front of him immediately rushed toward Hong Tao, exactly twenty bottles.

Seeing this scene, the tens of thousands of strong people gathered around the imaginary sky suddenly sighed, and then they sighed and screamed, and the exclamation sounded like a tide...

"As for the 40 bottles of refining compensation collected, the temple has already promised Hong Tao Taoist friends that 50% will be distributed to the Hongyu Star Field..."

At the end, Ye Xuan waved again, and the two remaining Tianjiubao liquids in front of him immediately rushed toward Hong Tao... exactly twenty bottles! This

In the scene, the tens of thousands of strong people gathered around the imaginary sky suddenly slammed, and then they sighed and screamed, and the exclamation sounded like a tide..."

hiss! Actually it is 50%..."

A year ago, Ye Daoyou refining a total of five furnaces and Jiubao liquid, of which the three furnaces originally promised the Hongyu star field, and the treasured liquids were all owned by them, but the subsequent two furnace refining was completed. After Ye Daoyou received the remuneration, Send a treasure of storage to Hong Tao..."

"Obviously, since then, Hongyu Star Field has begun to charge Ye Daoyou a 50% remuneration. It is no wonder that I was so worried about this matter, and encouraged me to hand over the refining materials in his hands to him in advance. ..."

"The secret recipe of the refining system of Tianjiu Avenue is the Hongyuxing domain. Ye Taoyou's manuscripts are also the blessings of the Hongyu star field. It is also a good reward to pay a certain amount of money. But this is a 50% chance."

"Yes, after all, all the treasures are made by Ye Daoyou, and the Hongyu star field does nothing. It is a bit too much to sit down and enjoy it."

This is truly unprofitable. Ye Daoyou is invisibly used by him as a free refining machine. It is really speechless..."

With the exclamation of these excuses, Hong Tao and other people in the floodplain of the Hong Kong Stars suddenly frowned, his face was gloomy and extremely unpleasant.

However, Ye Xuan did not pay attention to it, pretending not to hear the general, waving the last 20 bottles of Tianjiubao liquid, and looking at the left side of a remnant, as if to continue to refine The second furnace is generally.

In fact, his gaze was slightly invisible and glanced at the left side of the void, and his heart secretly snarled, and the other few heavenly beasts in the **** forbidden land seemed to be coming...

"Roar....."

Just at this time, at the end of the empty space on the left bank, a horrible scream came suddenly, revealing a sultry anger that could not be opened and could not be suppressed...

The powerful parties gathered around the Hongyu star field all turned subconsciously, and Hong Tao was even more shocked. When frowning, the heart also had a hint of premonition floating.

Ye Xuan is a move, a sigh of relief, but his face is completely unrecognizable, his look is calm, and he follows the sound...

In the line, at the end of the void on the left side of the sky, five figures are coming from the air, all of them are starry beasts, huge in size, all over 30 million miles.

As for the cultivation of strength, these five beasts are all heavenly and strange, three of which are the middle of the fourth to sixth stage of the heavens, and the other two are the seven steps of the heavens, one for the eighth order...

For the most powerful eighth-order beast, it is a goshawk, similar to the **** goshawk in the **** forbidden land, apparently belonging to the same ethnic group.

These five heavenly beasts are coming to the **** forbidden land, and the reason why they came here is to make a disaster to Hong Tao. In their view, the **** goshawk that was slain away from the forbidden land in the past. It is very likely that it is in the hands of Hong Tao.

Even if they are not, they will surely come. This is the hardship of the suffering. Hong Tao was only exposed to the true face by the **** goshawk six months ago. This is a great feud. Now the **** goshawk is ambushed. His suspicion is naturally the biggest...

For the five heavenly beasts from the **** forbidden land, whether it is really his shot is not important at all. What is important is that they can take advantage of this opportunity and slam the Hong Tao one by one. Treasure to the hand! "

Roar! ""

Hong Tao, you are deceiving too much..."

"After half a year ago, my **** sacred goshawk revered and revealed your true face. Since then, I have returned to the **** forbidden place. Because the right side of the sky was turbulent, I have never been out..."

Most of the time, half a month ago, the Goshawk Lord came out from the **** forbidden land. It was originally to come to this flooded star field. Please ask Ye Xuan, the master of the temple, to refine the treasure of Tianjiu Avenue..."

"But I don't want you to always remember the eleventh of the source of the heavenly source in his hands, and because of the half-hundred years ago, the eagle lord revealed the shameful true face and hated it, and the **** ban was hundreds of billions away. Explosive ambush in the void..."

The poor Goshawk Lord refused to observe it for a while, and was caught by you when he was caught off guard. The eleven heavenly sources that have been treasured in his hands were also taken away! "

"Today, I am waiting for the Lord to come to the door. You are going to flood the stars... you must give a statement!"

"In addition, the eleven heavenly sources in the hands of the Goshawk Lord are not owned by him alone, but I am waiting for a few people to join together and bring them to this place, please ask the Lord of the Temple to refine Tianjiu Avenue Baoli..."

"If today, the source of the source is taken away by you, in addition to giving me a statement, the Hongying Star Field must compensate for the two furnaces, and otherwise it must not be ... good to stop!"

"Roar!""

Oh..."

At the end of the day, the five heavenly beasts were all roaring and utterly angry, and the whole piece of emptiness was instantly stunned.

At this moment, I was shocked to learn about the inside story. All of them were suddenly shocked, and under the chilling air, the overwhelming exclamation sounded like a tide, and it sounded again..."

hiss! Has this happened? The **** goshawk just got out of the **** forbidden land and was immediately ambushed? This is clearly premeditated, and it has already been secretly stared..."

Hong Tao's suspicion is indeed the biggest. He had shot the **** goshawks half a year ago, but unfortunately he did not succeed. He escaped, and then rushed to the floodplain after the injury recovered. The public exposed Hong Tao's hypocrisy... ""

It can be seen that Hong Tao's eleven heavenly sources of blood in the hands of the **** goshawks are already in the heart, and once they have not received a shot, can they be willing? ""

What's more, later, because of the **** goshawk, he was exposed to the true face in public, not only lost face, but even the refining materials of the nearly one hundred furnaces of Tianjiu Avenue, which had already arrived in advance, all fell into disappointment..."

"This matter is simply a hateful sorrow, Hong Tao must not be able to stop doing a good job, secretly staring at the **** goshawk is the meaning of what it should be..."

This old guy is really insidious, the second time after half a year, after all, the **** goshawk ambushed, and took away the eleven heavenly sources of liquid..."

As these exclamations rang, the powerful parties around the imaginary sky, especially those from the banned land of a savage beast, were almost all glaring, and they were all savage...

Towards the Hong Tao outside the floodplain... "

Eleven heavenly sources, plus two grievances before and after, Hong Tao must not be able to stop, and secretly staring at the **** goshawk is what it should be..."

It's really insidious, the old guy is too tolerant, and after a lapse of half a year, he's going to kill the **** goshawk..."

As these exclamations rang, the powerful parties around the imaginary air, especially those from the banned land of the savage beasts, were savage and savage, and all of them glared at the emptiness of Hong Tao outside the floodplain. ..."

puff....."

"You are bloody, this is simply extortion..."

The shape of the temper trembling, almost spurting blood on the spot, jumping his feet and roaring in the void. Big

Half a year ago, he had been smeared once by the **** goshawk, causing irreparable serious consequences, and even said that he paid a very heavy price. Do not

However, the refining materials of the nearly one hundred furnaces of Tianjiu Avenue, which had been collected for a long time before they were gathered in their hands, all fell into disrepair. The heavenly roadsters who were coming in successively returned to ask for it again. very

As for his face, he suffered a lot.

What makes him even more angry is that it is not what he did, but the **** goshawk actually took out the image of the extension as evidence. This is simply an ironclad proof, except that he himself knows that it is framed. Even the other Tiandao remnants in the Hongyu area have been suspicious.

Over the past six months, Hong Tao has been able to clearly see the suspicions of him from the eyes of more than 20 heavenly eccentrics in the star field.

However, he had no way to explain this matter. The more than 20 Tiandao old geeks in Hongyu's territory did not really say anything. How could he take the initiative to mention this matter? can

It is said that because of the incident, the face of his great loss, even the prestige in the minds of countless survivors in the floodplain, has been extremely seriously affected.

All of this he can only beat his teeth and blood to swallow, even though he hates the guy who faked him, but he has no way of knowing who this person is, so he can only be wrong. Let it go...

However, what he never imagined was that this was only after more than half a year, and similar things happened again. blood

The fall of the goshawk eagle naturally feels great relief, but the five heavenly beasts in the **** forbidden land actually buckled this black pot on his head, and made Hong Tao resentful. and

Moreover, listening to the words of these guys, they clearly did not see the person who shot the **** goshawk, but just by the speculation of the heart, they looked angry and said what Go to the door...

Even in the opening, I asked for the compensation of the two furnaces of Tianjiu Avenue, which is clearly the extortion of the red fruit.

However, there are things in the past as a foreshadowing. The old geeks gathered around the imaginary sky almost all agree with their statements. In the blink of an eye, it is almost invisible to reach a consensus. It is certain that this must be done by him. All eyes are glaring!

This feeling is far from being able to describe the words of anger. It is simply the rhythm of killing people on the spot. It's too special. Don't bully people like this...

"Hey..."

The brain flashed through these thoughts, Hong Taoton felt the blood and brain, the neck was thick and round, the red scary, and after a scream, the voice of God instantly came out: "Damn guy, you really Old man, really is the Hong Kong star field is a soft persimmon, can not bully?"

It's really a big breath to open your mouth, but it's really a big tone. The old man hasn't liquidated your blood and smeared the old man, and today he's got a knot..."

"call out....."

The voice of the gods has not fallen, Hong Tao has suddenly shot, shaking his wrist and a moment, there will be a spurt of glare, greet the storm, blinking into a huge net bag, covering the billions of emptiness, directly The five heavenly beasts from the **** forbidden land, all of which are vacant in front of the sky, are all trapped inside...

It is one of Hong Tao's famous magic weapons. It is called Bao Puxing. In the beginning, Ye Xuan used to imitate the forging system attached to the body's engulfing system. The breath is exactly the same, only the power is much worse...

At the time, Ye Xuan sacrificed his imitation net bag in the identity of Hong Tao. When the **** goshawk sneaked into the black hand, it was also dubbed by the **** goshawk. When he revealed Hong Tao's true face half a year ago, he used to Show in the air in the air...

Therefore, at the moment, I saw Hong Tao's anger and shot, and the sacrifice was also the Bao Puxing pocket that was used when the ambush of the **** goshawk was used. It was very arrogant, and all the strangers around the imaginary sky were suddenly angry.

In Hong Kong's void, the starry beasts and the abandoned people are not in harmony, but they are the opposite enemy.

This time, the grotesque parties on the right side of the left bank, whether it is the starry beast or the ancient survivors, can temporarily gather outside the floodplain, and the well water does not make the river water. It seems quite a bit amiable and awkward. It is actually Because of the sake of Tianjiu Avenue!

At the moment, seeing Hong Tao's desire to take out five evil beasts from the **** forbidden land, all the heavenly beasts who are surrounded by the sky and the beasts in the void, suddenly became furious, and once again, the sound of whistling again Ride up. very

As for the mortals from the left side of the left bank, the survivors of the remnants of the left side of the left bank, all face each other, after exchanging a look, they all frowned, and the voice of God's voice came out, right. Hong Tao said with a voice.

In the tone, there is already a sense of dissatisfaction. Obviously, even they all think that Hong Tao is too much..."

Roar! ""

The Hongyu Star Field is really a great power..."

"The left bank's survivors are ranked tenth in the star field. Do you think you can only cover your own hands?"

Today, you will try these five friends who are in the **** forbidden land. If they have a little damage, I will wait for the same beasts, and they will surely kill your Hongyu star field.

"Hey..."

"Hey, Hong Daoyou, don't be impulsive. After all, this matter is your fault. Two times before and after staring at the **** Taoist friends, is it too late?"

Don't make a mistake again, otherwise it will trigger a full-scale battle between the right-handed beast and the remnant star field. You may not be able to bear the consequences of this flood..."

"Isn't it just two furnaces and nine treasures? Lose them to them. You can get twenty bottles of leaves when you have a stove. This is nothing, and the two furnaces will soon come out..."

Hey..." Listen

To these words, especially the words of the sorrowful yin and yang of the survivors, Hong Tao was really spurting this time. The qi figure was shaking slightly, and he screamed and shouted: "Fart, old man compensation Nothing is possible!"

"I can't think of Hong Daoyou..." He

The words just fell, Ye Xuan has shook his head and sighed, his face is disappointing color: "This kind of thing can be done, even the temple is not shameful, the road is different... not to be a murder!"

"I can't think of Hong Daoyou..."

Hong Tao's words just fell, Ye Xuan has shook his head and sighed, his face is disappointing: "This kind of thing can be done, even the temple is not shameful, the road is different... not to be a murder!"

The words, plus his shaking his head and sighing, the look of disappointment, is clearly a shame to Hong Tao's character, and does not want to cooperate with the rhythm..."

Oh..." No

When the people came back, Ye Xuan had already stepped out of the treasured place of the colorful fog. When he waved, Shennong Baoding instantly turned into a man, and it broke into his body and disappeared. not see. first

He had already prepared to refine the second furnace of Tianjiu Avenue, but now he has put Shennong Baoding away. This move, together with the words in the mouth, is afraid that fools can guess Ye Xuan. The meaning of it.

He is leaving, no longer refining the sky nine treasures...

These thoughts flashed through the brain, and all the strangers around the emptiness around the sky were stunned and suddenly changed suddenly.

Even just after the great wrath, he sacrificed Bao Puxing's pocket and trapped the five heavenly beasts from the **** forbidden land. Hong Tao, who seemed to be angry with them, was suddenly a glimpse.

Immediately afterwards, his face changed greatly, and his heart sank down. He immediately waved again and directly regained the Bao Park star pocket he had just sacrificed.

At the same time, he turned to the first time to look at Ye Xuan, with a panic and urgency on his face, and quickly said: "Ye Daoyou is gone, this is a misunderstanding, the old man must be Explain to you clearly, right now, will you continue to refine the Tianjibao liquid? Can you let these five guys break their big things..."

Also refining the sky nine treasures? Did Hong Daoyou not understand the words of the temple? "

Ye Xuan was originally trying to tear open the crack in the void, and he left. At this moment, listening to Hong Tao's words, he suddenly stopped and turned to look at him, and responded with a cold voice...

The arcs outlined by the corners clearly reveal the endless contempt and ridicule: "The Tao is different, and Hong Daoyou's actions make the temple too disappointing... The anger is alive!"

Yes, at the beginning of the temple, I didn't think much about it. I promised Hong Daoyou's request, as long as I got the other half of your hand's manuscript refining manuscript, and later I opened the furnace for the refining of the treasure, and the half of the refining reward. By your Hongyu star field, you will be divided into 50%..."

This is the original promise of the temple, and it has been fulfilled. Whether it is the two furnaces that were refining for the Taoist friends a year ago, or the ones that have been refined by the talents, the rewards have been taken out and the temple has been taken out halfway and handed over to Hong Daoyou..."

However, this temple never imagined that Hong Daoyou was such a person, secretly doing such a sinister thing, and after the facts have been conclusive, they are still so publicly sophistry, and even more want to kill people in public..."

"Although the temple is fierce, the act has always been straightforward, and it is the most important faith for the people. This is a shame for the temple. It is not shameful for this temple. So, this day, the Jiubao Liquid Palace is not refined, even if you give up your own refining treasure." The rewards, and will not be willing to be cheaper, you will be convinced of the villain, let you enjoy the success, white rewards..."

"This is the heart of the temple has been decided, there is no possibility of change, Hong Daoyou ... you do it yourself!"

The last sentence of the sound exit, Ye Xuan, across the tens of billions of emptiness, hovered to Hong Tao.

Later, he suddenly thought of something, and turned to the heads of all the surrounding heavens and gulls, and shook his head and sighed. This time, he once again hugged his fist and said with regret: "You are not willing to do this. You will refine the sky and the nine treasures. After all, although every furnace has to be divided into 20 bottles for the Hongyu star field, the temple can also harvest 20 bottles as compensation..."

It can be said that this matter has nothing to do with the temple..."

"But this temple is just such a straightforward temper, and people who are not ashamed of their minds, there is no possibility of cooperation with them, even if they sacrifice their own interests for this, they will not hesitate..."

Therefore, all of you, the Taoist priest, can only say that the sound is regrettable. This day, Jiulong Avenue Baoli can never be refining. After all, the temple had already made a vow, but now it is not willing to be a cheap villain. It's so painful..."

You...sorry! "

"Oh..."

After that, Ye Xuan did not say much. A wave of hands, a million miles in front of the figure, there was a void crack in an instant, which is clearly a step into the rhythm of this.

In such a scene, the heavens and the powerful people surrounded by the emptiness of the surrounding circles suddenly regained their physique, and they suddenly sighed with sorrow and screamed, and then they immediately sounded like a tide..."

Oh, the big thing is not good, Ye Xuan, the master of the magic hall, actually wants to go..."

It is no wonder that every time he refines a furnace, he will hand over half of his reward to Hong Tao. It turned out that when he got half of the manuscript of the secret recipe of Tianjiubao liquid refining from Hong Tao, he had some promises..."

And this matter, Ye Daoyou is an oath of the Taoist heart, naturally can not be violated, otherwise, if it affects the Tao, it will not be worth the loss..."

"That is to say, if he takes the opportunity to refine the treasure of Tianjiu Avenue for others, even if he does not want to, he must collect half of the treasure liquid for each refining, and these rewards must also come up with five ingredients for the flood. 阙星域..."

Hong Tao can be a good calculation. The half of the manuscript in his hand is clearly a strange commodity. The forced Ye Daoyou had to make such a concession. He made a swear in disbelief and was manipulated..."

"From this point of view, Ye Daoyou is afraid that he has already been dissatisfied with him. Now he is shocked to learn that Hong Tao's actions have finally been tolerated. This is the only time he has made such a decision, even if he gives up his own. The treasures that could have been obtained, and no longer will be used to refine the Tianjiubao liquid for others, and the cheap Hongtao..."

"This has to be a lot of people to hate, Hong Laogui counts everything, but counts thousands of calculations, but in the end, he still put himself into the calculations, but unfortunately I was also tired of him, the original is about to arrive. Treasure, I am afraid that it will be drowning..."

"The **** old thing is simply too bad. He killed himself. Why do you call me so that he is also involved? And the owner of this demon temple, Ye Xuan, must not let him take it away. Otherwise, I am waiting for the breakthrough of Heaven and the hope of entering the Hongmeng Avenue. I will be buried here..."

"Yes, no matter how you must leave the Lord of the Devils, this matter must have a knot today. How can they negotiate with Hong Laogui? But I don't want to refine the refining system."

"Roar!"

"Hey!"

"Hey..."

These exclamations sounded, Hong Tao also completely changed color, slammed his teeth, and suddenly waved again...

"call out!"

The sharp sound of the sound broke out, and the Bao Puxing bag that had just been picked up by him was instantly reproduced, and the storm rose. The work of less than half an interest had already enveloped the emptiness of a billion miles, and Ye Xuan, who was about to leave, was directly The figure... covered in it!

Chapter 5145: Could it be that this temple is good-tempered?

As Ye Xuan's words fell, he said that he wanted to go away, and the heavenly grotesques gathered around him were suddenly stunned, and the exclamation sounded like a tide.

Hong Tao also changed color completely, gnashing his teeth, and suddenly waved again..."

call out! "This

For a moment, the sharp sound of the air came, and the Bao Puxing bag that was just picked up by him was instantly reproduced!

Under the storm, the work of less than half an interest has enveloped the emptiness of a billion-mile radius, and directly slid the shape of Ye Xuan, who is about to leave..."

Old guy, do you dare to shoot strong? "

Seeing this scene, Ye Xuan's body shape was stagnation, and the scorpion was instantly smashed out of the cold, and Hong Tao looked like a general reflexive shot. The look on his face gradually became stunned: "Hey, it's really a good temper." ?"

In a flash, the faint sound of the air in the sky came, and Ye Xuan's figure instantly collapsed and turned into a **** sea. It shrouded a corner of the universe, revealing endless **** meaning, and then from this piece. In three different directions of the vast sea of blood, three low screams and screams came.

In the boundless blood of the waves, there are three huge figures that are incomparably visible. In a moment, they are dialing the ground, which is the three bloods of Ye Xuan. body

The repairs and atmosphere that are scattered in the interior are all the perfection of the nine-order heaven and earth. This is the three powerful peaks of heaven. which is

It is on the left bank of the Milky Way. Such a presence can occur anywhere, and it is enough to set off a storm. and

In fact, Ye Xuan did not stop, as the figure was condensed, the three **** seas were each screaming and screaming, and the ultimate form of the konjac and the **** konjac was also at this time. Activated by him.

In an instant, all the bodies of the three great devils have their own strengths, like a snarling of the Nujiang River, and all the limbs are screaming with endless fierceness, quickly moving closer together, back fusion, blinking three heads and six arms...

"call out!"

After the body is finished, the violent hands are turned over, and a volley is spurred out. With a weak sound of breaking, the **** stick of the gods' pesticides appears, dragged by his right hand, invisibly erupting. Fierce breath...

"Oh la la..."

The black mist was swayed, and a mile of anger came out from the eyebrows. When the storm rose, it turned into a vast nine-color flame sea, which was condensed and turned into a huge nine-color streamer. The body of the black mist is entangled, like a poisonous snake. "

brush! "

As for the shin bones, this time there is still no sacrifice for the 陨天弓, but the right hand is turned down, and the palm of the hand will have a blood black magic blade. The whole body is covered with countless blood lines, and the shape is very incomparable. Magic blood blade.

"Ye Daoyou is misunderstood, the old man did not mean this..."

Seeing Ye Xuan, the three strongest forms of the konjac of the six-headed and six-armed body are condensed out. It is clearly the rhythm of the dying of the saga, and the rhythm of the battle. Hong Tao's body shape is shocked, and the color changes suddenly. He hurriedly explained: "Everything is It's just a subconscious reaction, and the old man is too anxious..."

At the same time of the sound, he confessed to Bao Puxing, who had enveloped the tens of billions of emptiness, and turned it into a body. He wanted to explain again. When the atmosphere was eased, the void changed. Suddenly..."

Roar! "

"Hey..."

Ye Daoyou, I have nothing to do with the entanglement between you and Hong Tao, including the oath of your alliance, and it has nothing to do with me..."

But this day, the refining of Jiubao Liquid is what you promised me a year ago. The treasure is very important. It's not the same thing. Today, you must refine the Tianjibao liquid that I need. come out....."

"Yes, this thing can't be delayed, the treasure is not finished, you can't leave, otherwise, where will I wait for you in the future?"

Ye Daoyou, Su Wen, you believe in the righteousness, the fact that Tianjiubao liquid refining has been promised today must be practiced today. Otherwise, if it hurts the harmony between you and me, it would be meaningless. ""

Although Ye Xuan, the master of your demon temple, is famous, but nowadays there are thousands of old people who are gathered here. It is impossible for you to force a breakout. It is impossible to persuade you to dispel this idea. ...do not be wrong! ""

Roar! ""

Oh..." with

With the sound of these gods, more than a dozen figures have been spurred from the surroundings, including starry beasts and ancient survivors, all of them are heavenly and strange.

The temperament of these dozens of guys is violent and violent, and the temper is very anxious. Now that I see Ye Xuan to go, the Tianji Avenue Bao liquid that will soon be available will be defeated. This is the first time that I rushed out, every 10 billion. In the void, Ye Xuan, who has just concealed the three-headed, six-armed konjac, is surrounded by the central...

"It seems that you are really good temper in this temple..."

In this scene, all the shackles of the three demon gods screamed out the cold and cold, and the sound of the gods of Ye Xuan also sounded, revealing the endless cold and cold meaning..."

Card..."

"call out!""

boom! "

The voice is still not falling. On the right side of the imaginary tens of billions of miles, the head of a heavenly beast has already blasted a **** lightning, with a diameter of tens of millions of miles, and it is too late to fall, and the blasted thunder The body shape is completely covered, and it's all in a moment...

At one moment, Ye Xuan, the true form of the three-headed six-armed konjac, also displayed a teleportation. The body shape of Ponta tens of millions of miles appeared from the side of this celestial beast, and the violent chilly man flashed his right hand. As soon as it is lifted, the **** stick has suddenly picked up! huge

Shocking!

At this time, Ye Xuan's murder has already started, and the **** bar did not hesitate to smash down. The porcelain was incomparably falling on the top of this heavenly beast. old

Although the strength of the guy's cultivation is not weak, there is still a certain gap compared with Ye Xuan. In the face of his full blow, and now that the ideology is in confusion, he simply has no time to react. Are

Between the moments, the entire huge body shape of this heavenly beast will be bursting open at the moment when the **** stick falls, turning into a blistering red blood fog..."

Calling..."

The sound of the wind whistling suddenly, Ye Xuan waved, a majestic invisible gas whistling away, sweeping the **** mist that was spreading and spreading directly into the bottom of the volcano in the central area of the Dingnai space. , start blood condensate.

As a result, there is another one in his hand, which has reached one hundred and fifty-nine before. Now there are one hundred and sixty, and it is necessary to refine two thirty-level Hongmengbaodan. One hundred and sixty-two, it is only two.

And this time his harvest is obviously not just these. As the shape of this celestial beast blows up, the **** mist that has swept through it, there are still a few faint awns.

These milli-grains are exactly the five sources of heavenly origin, and they are swept up by Ye Xuan, and they have been included in the body.

All of this is long-lived, but it happens between suffocation. In just a few moments, a beastly beast has fallen, and the parties around the world are suddenly stunned and discolored. I sighed and screamed...

With the slaying of the savage beast, the **** fog and the five centuries of the original body formed by the blasting of the body were swept away by Ye Xuan and were included in the body. four

The surrounding strangers all over the world, and the old geeks suddenly stunned. Under the color change, they all sighed, and the sound of exclamation suddenly rose again...

"Damn, the conflict broke out..."

Three heads and six arms, this is the real body of the konjac, but the strongest form of battle of Ye Xuan, the master of the temple..."

Even the real body of the konjac has been condensed, and Ye Xuan, the master of the temple, has become angry. I am afraid that today is hard to be good..."

These guys are too impulsive, so easily and I have torn the skin with Ye Daoyou, what can I do now? Only Ye Daoyou on the entire left bank was able to refine the treasure of Tianjiu Avenue. Now he is very angry, afraid that he will not wait for me to wait..."

Things have happened, irreparable, even I have to be tired of these impulsive guys today, I really admire the guy who was just refining, the stove that he refines, may be The only one today is..."

How to do? Ye Xuan, the master of the magic hall, has already shot and killed a heavenly beast. Is it going on or letting him go, and then looking back and trying to resolve today's entanglements? ""

What about resolving everything that is appropriate? Ye Xuan, the master of the magic hall, has already ironed his heart. He will not refine the Tianjiubao liquid for others to avoid cheap Hongtao. It seems that if you want to get the treasure, I can only find another solution..."

Ye Xuan, how dare you murder in public, killing a fierce beast, is it to provoke us all? ""

It's too arrogant, it's almost impossible, it's too sloppy, and it's necessary to take him down today..."

Together, suppress him..."

Roar! ""

Oh..."

With the exclamation of the surrounding emptiness, the ten-headed savage beast that rushed to Ye Xuan was also furious, and his body shape moved at the same time, and the means of exerting it was to suppress Ye Xuan. "

Sure enough, it's a bunch of guys wearing horns. If you really turn your face, you don't recognize people..."

Seeing this scene, the three great devils have a cold and cold flash, and Ye Xuan's voice of the gods also sounds, revealing the meaning of endless sorrow: "In this case, today the temple is... Start killing!"

Oh..."

The voice has not yet fallen, and the body of the black mist has already smashed the cold mang, and screamed and screamed, and immediately ignited the spiritual power of the body!

The annihilation spear in the secret attack of the spirit is fully motivated by him. The large amount of spiritual power extracted is not turned into a spiritual vortex, but turned into a very small point, just like a spear, and slammed out.

In this case, a lot of spiritual power is drawn, but the attack is the tiniest point, which is enough to make the tiny spear of the spear to be invincible. "

Oh..." low

The incomparable humming sounds, and the spiritual source nucleus hanging in the sea of Ye Xuan's mind is rapidly rotating with the movement of these spiritual forces.

Faster and faster, in the twinkling of a moment, a tiny spiritual cluster formed by the intense compression of a large number of spiritual sources is shot from his sea of knowledge.

Like a heavy hammer with infinite density, with the shadow of the spear, go forward!

Knowing that the crisis is approaching, the shape of a savage beast that is roaring in the direction of him has come to an abrupt end, and there are also horrified screams in his mouth, but nothing can change.

The annihilation spear directly penetrated his body, blasted a **** fog, and fell down, and the **** fog formed by the blast of his body was put away by the body of the black fog, and everything was fast. To the horrible, the process is awesome.

This scene deterred the other nine screaming beasts who were roaring around and stunned. The moment they finally woke up and realized that they were not Ye Xuan's opponents. although

It's said that there are thousands of strangers around, but they are so close to face this demon, but it's tantamount to taking the initiative to jump out and die. It's unwise...

These thoughts flashed through the brain, and the remaining violent blood in the nine sacred beasts was instantly a sigh, and he did not hesitate, even if he wanted to withdraw. Of course

And after all, it's late..."

call out....."

"boom!"

Almost at the same time when the nine-headed sacred animal figure came to an abrupt end, Ye Xuan also activated the teleportation. The violent figure disappeared in the void, and the blink of an eye traversed tens of billions, to one of them. The side of the heavenly beast

Waiting for this heavenly beast to return to the gods, the loud noise has already started.

In the violent shackles, the cold arm flashed, the right arm picked up, and the **** bar slammed without hesitation, and the porcelain fell on his head incomparably. old

Although the guy is the mid-term peak of the sixth-order world, there is only one line left from the seventh-order, but this repair is still much worse than Ye Xuan.

In the face of the full blow of the violent anger, he simply had no time to react. The huge body shape suddenly exploded in the moment when the **** stick fell, turning into a red blood fog.

"Call..."

The Buddha just did a trivial little thing. The black mist immediately waved, and immediately there was a whistling sound of the whistling wind. A majestic invisible gas screamed and blew away its flesh. Blood fog swept over... first

Before, Ye Xuan had one hundred and sixty heavenly bloodstains in his hands. Such as

In a short period of time, the two Tiandao fierce cars were murdered again in a short period of time. As a result, the amount of the blood in his hands rose again, reaching 162, which is exactly the refining of two thirty-level ones. The number of Hong Meng Bao Dan... brain

Flashing through these thoughts, Ye Xuan's heart was a happy moment. on

Just now, if he deliberately left, I am afraid that it has already disappeared here, directly activate the interstellar coordinate jumping ability attached to the internal system, and it will be silent for a moment. but

Ye Xuan did not do this. He deliberately stayed, in order to take advantage of this opportunity to kill three heavenly beasts.

Now, his purpose has been achieved. hand

The amount of heavenly blood has reached 162, and the liquid of Tiandao has even surpassed this number. All the materials needed to refine two Hongmengbaodan are available.

In this way, naturally there is no need to continue to stay, after all, there are thousands of days around the old strange ring, his strength is strong, but it is all alone.

While next to the other eight heads of the evil beasts were scared to withdraw, Ye Xuan's faint glimmer of light flashed his fist and said: "You, today's event is over, the temple...requited!"

After that, he waved a hollow crack in the void again, and he saw that he was stepping into it. "

Slow..."

Seeing this scene, Hong Tao in the distance is mad and shocked. Immediately after the change of color, he immediately screams: "People can walk, but the red lotus industry must be left behind. This is the thing of my Hongyu star field. You can take it with you. go.....""

Slow..."eye

See Ye Xuan to go, Hong Tao in the distance is mad and shocked. Immediately after the discoloration, he will scream: "People can walk, but the red lotus industry must be left behind. This is the thing of my flooding star field. You can tolerate you." Take away..."

Before him, there was still a last hope in his heart. I hope that Ye Xuan can change his mind and take back the words just now, but now I have already seen it. The owner of this magic hall, Ye Xuan, is already ironic, and it is impossible to help again. The others refining the treasures of Tianjiu Avenue, which made them cheaper and flooded the stars, so that they would be rewarded with 20 bottles per furnace. although

Said that Hong Tao is full of grievances, but now is not the time to care about these, the main hall of the temple, Ye Xuan is about to leave, if it really let him go, then it is really finished.

At least the red lotus fire in his hands will be left behind. In the future, he may still encounter the existence of refining and refining it. At that time, Tianji Avenue can be used as well...

"Hey..."

Yes, Ye Daoyou wants to go, but he must leave the red lotus industry fire. This is originally the thing of Hongyu's starry field. It is the top heaven and earth that must be used to refine the treasures of Tianjiu Avenue. Flame, what can you do to fill your pocket? ""

In addition to the Honglian industry fire, including the manuscripts of the Tianjiubao liquid remnants left by the ancestors of Hongjun, they must also be handed over together. This thing is useless to you, since the Taoist friends are not willing to refine the days for others. Jiubao Liquid, this manuscript is just used to let the remnants of our major stars participate in the same study..."

"This suggestion is good. The refining manuscripts of Tianjiubao liquid are made public. All the benevolent people can participate in the research. I have been refining the flesh and blood medicines. I will not be able to understand them for a long time..." "

As for the Honglian industry fire, it will be kept by the same people and the same people, no matter who they are, after the thorough understanding of the refining manuscript of Tianjiubao liquid, they can try to collect the red lotus industry fire. Once someone succeeds, Tianjiubao The refining of liquid is not a problem..."

Roar! "

"This is a good idea. The evil beasts of the banned areas of this party agree with us. It is not important to refine the refining, as long as it can help me refine the Tianjiubao liquid..."

The deity also recognizes..."

Seconded! ”

Hong Tao’s words reminded the parties around the world that the heavens and the roads were strange, and the Tiandao remnants from the stars of the survivors immediately made a sound and proposed a solution. to

After the slightest thoughts, the heavenly beasts from the banned land of the beasts all nodded and recognized their claims.

This is also a no-brainer. The survivors are good at refining flesh-and-blood medicines, and the Tianjiu Avenue treasures are created by the ancestors of Hongyan, based on the secret recipe of flesh-and-blood medicine. Even if there are manuscripts, the beasts are It is also extremely difficult to study, and the ancient survivors have a natural advantage in this respect, and they will certainly be able to do half the work.

All they want is the treasure of Tianjiu Avenue, not the secret recipe of the refining of the treasure. Therefore, the benevolent beasts gathered around the world will soon express their opinions and support the suggestions of the survivors...

The result of this kind makes Hong Tao stupid. The secret of Tianjiubao liquid refining left by Honglianyehuo and Hongjun’s ancestors originally belonged to the Hongyuxing domain. He just asked for his voice to Ye Xuan, and he intended to be Honglian. The fire is taken back and brought back to the floodplain. but

Now it seems that even if the fire and the manuscript are in hand, I am afraid that there is nothing about him in the Hong Kong Star Field. It is not only the mortal people of the various parties, but even the evil beasts of all parties are stunned and can’t sit still. He represents the Hongyu star field. where

I am afraid that these things originally belonged to his Hongyu star field, but now the heavy treasure is white, and if a group of wolves are attracted, he can’t be forced to keep it because of his flooding.

These thoughts flashed through the brain, and Hong Tao suddenly felt a sullen chest, and an old blood was almost sprayed on the spot. and

At this time, Ye Xuan, who was already preparing to step into the void crack, left the door immediately, because the void crack that just appeared in front of him was already closed, which is obviously surrounded by the surrounding. All the strangers, there is a certain secret presence, to interfere, to prevent the rhythm of his departure...

Ye Xuan's face was instantly gloomy and watery. He turned around and surrounded the heavens and gangsters around the circle. The line of sight finally fell on Hong Tao's body and sneered: "Red Lotus Fire? This temple can be given to you, but Do you live with it... dare to pick it up?"

"Call..."

The sound has not yet fallen, Ye Xuan has suddenly shot, a glamorous red awning volley, and the storm rose, and instantly turned into a majestic flameless sea.

The whole piece of flame sea has a vast expanse of tens of billions of miles, and a vast expanse of emptiness, the flames of the sea suddenly rise, and there are endless waves of roaring in an instant, each wave is composed of countless fascinating red lotus. This

Although some of them are only large in size, they look extremely glamorous and beautiful, but the power that can be invisibly exuded is extremely eye-catching. It instantly attracts countless grotes around them. call....."

Sure enough, it's a red lotus fire..."

hiss! Amazing breath, good flames of the flames, this awning red lotus fire is the original ancestors of Hong Yu? It is said that there was not much in the beginning, but in the parallel void, it took a million years to live. I don't think there is such a weather..."

"Ye Xuan, the master of the Temple of Devils, is a good means. Even a vast red lotus fire can collect refining. This is not the ordinary heavenly power can do it. After all, the fire is not the same, it is not the ordinary top world. Different flames are comparable."

It's true that this kind of red lotus fire is the most mysterious. Once it is contaminated, it can ignite the evil industry accumulated in the life of the living, as the sin industry burns the soul, and even like the bones, it can't get rid of and extinguish."

"Hey!"

"Ye Xuan, what do you want? This is clearly the rhythm of the old man's shot..."

As these exclamations sounded, Hong Tao was also eclipsed. While he screamed and screamed at the same time, the voice of the gods in the mouth came out, revealing the endless anger, and the figure was hurriedly rushed back... ..Do not

It's just that he, as well as the Tiandao remnants of the more than 20 floodplains that have fallen behind him. because

The red lotus industry that Wax's waved for Ye Xuan was ignited into a vast expanse of flames, covering the void of 10 billion miles, and the farthest flame front of the flames has reached the edge of the floodplain. Therefore, if you do not retreat, you will be engulfed by the flames. flood

Tao was really mad. He asked Ye Xuan for the red lotus industry fire, which meant that he would surrender it after he was accommodated by the storage magic weapon. Ye Xuan has already refining the awning fire, so under his application, Even if it is a red lotus fire, it can also be loaded into the magic of storage, and will not wreak havoc. and

After he brought this storage magic weapon to the parallel void, he only needs to break it, and the flame sea will be instantly swayed out, or directly stored in the hands of the storage magic, the same can be. can

Nowadays, Ye Xuan's wave directly evokes this piece of flame sea, and he hangs across the void. He can't take it away at all, and even dare not touch it easily. This is absolutely deliberate, and beaten his face..."

Hey! "

"Damn, this guy is absolutely deliberate... I am also angry!"

Seeing that Ye Xuan waved the red lotus fire that had been refining him, he turned into a majestic fire and ocean in the face of the storm, covering the void of 10 billion miles, and the front end has approached the edge of the floodplain.

The original Hong Tao and other people who have been stunned by this have lost their voices and exclaimed, and their body shape has been hurriedly regressed...

Unfortunately, although their speed is fast, but after all, there is still a remnant of the old man who has been embarrassed, slowed down half a step, although his body shape is violently regressed, but the red lotus flames are not too slow. Going to his front...

"Hey..."

The flames approached, and the edge of the front end touched the body shape of the survivor. His half body was covered by a blooming red lotus.

At this moment, the creepy horror sounded, and the survivor's grotesque bite the tip of his tongue. At the time of life and death, a mouth spurted out a blood, and the cost of burning the original blood suddenly doubled.

In an instant, the speed of the retreat of his body suddenly skyrocketed, and the hard-boiled one broke free from the enchanting red lotus that covered half of the body, like a sharp arrow from the string.

This scene is too thrilling. The heavens and the beasts and the remains of the strangers who are all around the world are all shocked. Hong Tao and other more than 20 people who are also retreating in the floods of the Taoist days, are even more stunned. In the middle of the sputum, there is a strong blood mang, and you only want to choose someone.

"Roar....."

Without waiting for everyone to come back, the same direction has once again brought a shocking arrogance.

This arrogant voice is also the mouth of the mortal old man. Although he is a remnant, the arrogant voice that is heard in the mouth is like a roaring animal, and only then can it be seen how painful it is. From

In his body, there was a black fireworks burning out, and the whole body was shrouded. This is the sinful flame, but the sin that he accumulated in his life was ignited in the dark, from the inside out. Cautery, and not only the flesh, including its soul, it is also difficult to escape this robbery, the whole soul of the sea has long been black flames...

The arrogance of endless fear and pain only lasted for a long time and then came to an abrupt end.

The black sin that burns out from the inside out is still burning, but the person has already fallen in advance, because the sinful flame that has been ignited on his soul level has already burned his soul sea. It is the singularity of the soul. but

Then, his physical body was also turned into nothingness in this black black flame, not to mention the hair, even the slightest dust did not stay. and

The black sin flame burned from the inside of the body, after its soul and body were burned out, it was instantly extinguished, and the sudden, scattered and strange, this scene is just like a falling ice, chilling!

In the blink of an eye, there were less than three interest rates before and after. The Tiandao remnant of a mid-term situation had fallen, and the smoke and the smoke were extinguished. Nothing left. Immediately, the countless strong people gathered around the void were stunned and stunned.

However, Ye Xuan frowned, because with the body shape of the survivor, he was burned to nothingness, and there was no treasure in his body. It must have been with the black sin of this awning. It was burned out. This

It really makes him feel a little pity, because if there is no accident, the old guy's magic weapon must be able to have several liquids of heaven and earth, but now it is wasted...

"Hey..."

Almost at the same moment, in the direction of the right side, there was also a fierce and fierce sound coming from abruptly. leaf

Xuan turned to look at it, and there was a flash in the moment.

He just sacrificed the red lotus fire, but I didn't expect two old guys to fall...

On the side of the tens of billions of miles away from the sky, a huge beast with a body size of more than 30 million miles is also smashed by the red lotus fireworks that are spreading rapidly, and the small half of the body is rolling in the waves of the flamboyant red lotus. Underneath is covered. although

However, he paid the price and speeded up at once. The entire huge figure had broken away from the edge of Honglianyanhai and continued to retreat to the distance, but it was still too late.

A black sin flame ignited from its body, and it was even more majestic, shrouded its huge body of 30 million miles, and it was obviously the same. This

For a moment, all around the void, all the heavenly beasts and the remains of the lords all took a sigh of relief, then they squinted and looked at it all, subconsciously holding their breath... too

It's awkward, it's just creepy. although

However, the black sin flames that were ignited by the body were burned, but the former sorcerer's body was very small, so the scene in which the body was burned by the black sinful flame looked strange and chilling. The degree of shock is far from being comparable to today's heavenly beast. This

However, a huge beast with a body size of more than 30 million miles, the entire body of the body was burned by the black flames that ignited in the body for a moment, and the sight was amazing, it was awkward...

The cut is still very fast. Although the size of this sacred beast is 30 million miles, its flesh is just a short three-degree interest, it has already vanished, completely turned into nothingness. Look

In this scene, Ye Xuan frowned again and shook his head and sighed.

Ye Xuan was only guessing when he saw that the survivor's blame was burned into the fly ash by the sinful flames in the body. Ye Xuan was only guessing, but now it has been confirmed that the red lotus fire will indeed burn everything. Do, because this body of the beastly beast, there is no treble or similar cultivation resources of the heavenly source of the liquid come out...

It seems that although the red lotus fireworks are horrible, they can't be used often. Otherwise, everything will be burned out when the hand is shot. The treasures of the prey and all the cultivation resources in the body are not left at all.

After all, if it is killed by other means, the **** fog of the form of the savage beast can be used to refine it into a heavenly blood, but now, with its flesh completely burned out, the smoke is gone, even this The point of return is no longer guaranteed, and it has been squandered. This is a feeling of heavy loss for Ye Xuan. "

how? Don't you say that you want to leave the red lotus fire in the temple? Now that the fire is coming out, why don't you dare to collect it? Instead, I still have to take a long walk. Is it fun to play the temple? "

These thoughts flashed through the brain, and Ye Xuan's momentary moments flashed through the secluded man, sneering and screaming at the distant emptiness of Hong Tao, the sound of the gods, ridicule. "

Roar.....""

The deity does not believe that this awning fire cannot be collected..."

His words just fell, the left side of the void has been heard the sound of the beastly beast, a heavenly beastly beast blue flames, rushing toward the edge of this industry fire ocean. listen

The meaning of the words is clearly to try to collect the rhythm of the industry. leaf

Xuan couldn't help but slammed the fire. Now it's stopped, still sneer and look around...

Chapter 5146: Each magical power

The shocking beast from the left side of the sky made Ye Xuan suddenly stunned. He wanted to put away the fire, but now it stopped, still sneer and look around...

In the line of sight, a heavenly beast and a beast is surrounded by blue flames, and is rushing toward the edge of this piece of fire and ocean. Listening to the meaning of the words, and then looking at this posture, it is clear that you must try to collect the rhythm of the fire on the spot! This

It is a poisonous flame blue dragonfly, with a body size of 50 million miles, huge and incomparable, with blue and black colors in the body, and the body has more raging blue flames. blue

The venomous flame is a kind of blood talent. Unlike ordinary fires in the world, Wei is extremely powerful and belongs to fireworks with special attributes. again

In addition, this poisonous flame blue After the change, he immediately moved his mind.

The blue poisonous flame of the poisonous flame blue dragonfly can be evolved. Every time you swallow a top-level fire, you can multiply the power. The poisonous flame that emerged from his body is originally gray. Now it has experienced many years and has swallowed many worlds. The fire has entered the black and blue color, and the power is far from comparable.

Therefore, even if the refining of the Tianjiu Avenue is not mentioned, it is only from the point of view of the evolution of its own poisonous flames, this awning red lotus fire is enough to make his heart beat.

Of course, the red lotus industry is not the same as a small fire. It is far from the ordinary ordinary flames. The power and horror of the power have been obvious.

Even the poisonous flame blue cockroaches who are very confident about their own poisonous flames are extremely cautious. He does not intend to directly accept the body, but decides to test the generality. First contact with the poisonous flame to see how the results are calculated.

"call....."

These thoughts flashed through the brain, and the poisonous flame blue scorpion had an action in an instant. His spurt figure came to a halt in the distant sky, and the edge of the red lotus industry fire was only a few hundred million miles away. Following

And then the strength of the body is pushed to the extreme, and the mouth of the mouth will have a black and blue volley. When the storm rises, it will be a black and blue poisonous flame ocean, more than 10 billion mile. From top to bottom, the entire piece of the industry will cover the ocean... he

Obviously, I want to wrap the red lotus fire with the black-blue poisonous flame, and then spur the poisonous flame to shrink. In this way, the red lotus industry is forced into the body, and then slowly refining...

Seeing this scene, Ye Xuan suddenly sneered, and all the strangers around the imaginary sky stretched out his neck and looked up, the whole heart hung to the eyes of the blind...

"Hey..."

Rumble..."

In the next moment, the screaming whistling sound has suddenly come, just in the moment when the toxic flame ocean with the same width of 10 billion miles is in contact with the fire industry below, the body is shaped like two flames. The poisonous flame blue scorpion outside the tens of thousands of miles, the entire huge body shape immediately rolled over...

A black flame swelled out of its body, and instantly shrouded its shape. It was like a skeleton, no matter how he rolled it, it was useless, and it could not be expelled and extinguished...

The emptiness around the world, the old geeks who looked at this scene suddenly stunned, and they burst into the hustle and bustle.

Obviously, the calculation of the poisonous flame blue cockroach fell short. Although his body did not touch the fire of the awning industry, it was only wrapped in a black and blue poisonous flame, but it was useless.

This black and blue poisonous flame is connected with its blood. Even if it is only the poisonous flame and the fire of the fire, it still affects itself. The sin accumulated in life is ignited and turned into a black sin flame. Soul. No

There is suspense, it is still only about three interest rates, and everything will stop here. This poisonous flame blue Out, it was burned out. "

It's really an idiot..."

Around the void, I fell into a dead silence, but I couldn't hear it, but after a short silence, there was a cold voice in the void in the right front: "This black and blue poisonous flame is its blood and magic, and its own blood. Connected, I want to collect the red lotus fire in this way, it is simply self-destruction..."

"call out....."

As the voice rang, there was also a broken sound of the micro-channel, and a figure spurred from the far right.

This is a remnant of the elderly, the fire must be fired, and there is a red robe, plus the red as blood above, the whole person looks like a group of humanoid fireworks, its repair is extraordinary, and the poisonous flame just now Like the blue dragonfly, it is also the peak of the ninth-order grand perfection.

At this time, with the spurt of the body shape, the red robe and the old man's right hand turned over, and a red-hot gourd-shaped magic weapon was added to the palm of his hand. He was directly spurred by the throwing, and the storm rose to the storm. Just like a star, it's huge, it's slanting down the mouth, aiming at the sea of fire that is tens of billions of miles away...

This is clearly to use this red-hot gourd to collect the rhythm of the hood red lotus industry fire. If

If there is no accident, the survivor's blame should be good at controlling the fire. This is not surprising, because the survivors need to refine their flesh and blood. Many of them have various flames in their hands. These exist in dealing with different fires all the year round, and mastering this is the meaning of this. only

However, with the means of the general survivors, it is far from being able to cope with the vast red lotus fire that is like a sea, but this red robe is absolutely confident in its own control methods.

In addition, his nine-step grand perfection of Tiandao peak repair, and this can be turned into a star is generally huge, at first glance, you know that the grade must be extraordinary, Wei Neng must be extremely powerful control fire hoist, at this moment try to collect Honglian industry The fire is really worth a try.

At least, this treasure gourd is a thing outside the body, and the black and blue poisonous flame that the poisonous flame blue dragon is connected with its own blood, even if it fails, because he does not touch the red lotus fire, similar ominous, it should also will not happen!

"call....."

At this moment, the red robe old quirks in the fine mans flashed, both hands even smashed the fire, the speed is too fast, the ten fingers are simply like wearing a butterfly, dazzling, simply can not see.

With his actions, the flaming red gourd hanging above the red lotus industry fire suddenly shocked, and the sound of screaming of the wind rang, and from the inside of this big gourd, there was an invisible suction force. Strong and fascinating. "

Oh..."

"Oh la la..."

The huge area of the fire below the vast expanse of the billions of miles has set off a terrible roar. The fascinating red lotus of the size of a singer is roaring with the waves, which is clearly the whole industry. The invisible absorbing power of the stocks swayed. tight

Then, at the center of the self-professional fire ocean, a bright red river with a diameter like a star will start to stun and directly rush to the big gourd hanging over the sea of fire, from the mouth of the rushing into the

"Hey..."

"Oh la la..."

With the red robe and the old blame, the vast expanse of the tens of billions of fires and the oceans of the fire suddenly screamed and screamed...

The fascinating red lotus of the size of the blossoming swaying with the waves roared, the whole piece of the fire and the ocean were shaken by the invisible suction force from the red gourd. This

At one moment, all the celestial squads of all the surrounding parties gathered in the emptiness of the sky were full of spirits, and the whole heart was once again hovering to the eyes of the blind.

Soon, in the eyes of the public, in the center of the fire and the ocean, a bright red river with a diameter like a star suddenly stunned and rushed directly to the big gourd hanging over the sea of fire, from the mouth of the mouth. ... lasing in!

Everything didn't end there. The bright red river that rushed from the center of the fire and the ocean was always there. The massive red lotus fire was being collected and rushed into the huge star-shaped gourd hanging above.speed

The degree is too fast, just a short three-day interest rate, the vast ocean of fires with a size of 10 billion miles has shrunk by a quarter, which is clearly a hundred more interest, the entire industry will be closed The rhythm of walking. If

If this is the case, the red robe of the red gourd will be sacrificed, and there will be a way to completely refine the awning red lotus fire. This is for you!

When these thoughts flashed in the brain, Hong Tao suddenly became nervous, his heart hurt, and the cheeks on his face were twitching uncontrollably. At this moment, he was not good at all, and there was a sense of anger and anger. . and

The heavens and the old geeks surrounded by the emptiness of the surrounding world, all of them are full of spirits, and their faces are flushed, and they are so sturdy, and they are soaked in the air, just like the tidal sound of the tide, they are screaming in an instant...

"Dry beautiful!"

"The fire method of the fire slaughter is really amazing. The power of this fire control gourd is even more extraordinary. Even the red lotus fire can be collected, and it is still such a majestic fire."

This scene is so gratifying, it really makes the old man stunned! ""

From this point of view, I am waiting for the hope that Tianjiubao liquid sees hope again. Although Ye Xuan, the master of the magic hall, is not willing to refine, but the fire-slaughter can not only collect the red lotus fire, but also refine it. means.....""

At that time, the Taoist friends only need to thoroughly understand the treasure refining manuscripts left by Hong Yu, and they can immediately start refining. Although it has to wait for some time, it will last for a year and a half. After all, the medicinal tracts of the fire slayers are here, absolutely extraordinary..."

"Yes, this matter reminded me to wait. In addition to this awning red lotus fire, there is also a manuscript of Tianjiubao liquid refining that was written by Hong Yi. The main body of the temple, Ye Xuan, cannot yet Leaving..."

When you look at it quickly, the fire and the roadside friends have completed, and the whole piece of the vast ocean of fires and tens of millions of miles has been included in his fire-fighting treasures..."

Roar! ""

Oh..."four

Zhou Yuanjin, the sound of exclamations and the beasts of the beasts sounded, and the whole piece of the fire industry, which was vast in the sky, was also collected at the moment, and was hanged over the sky. Inside the flaming big gourd. "

Hahaha..."

The friends of the Tao, the fire and the fortunes are not insulting, have already collected this awning red lotus industry fire, in fact, this kind of heaven and earth flame is fierce, but in the eyes of the old man, it is just that, just look back soon Refining and refining, then offering it, the imperial conscience..."

The whole piece of majestic flaming fire was taken away. The red robe screamed and laughed, and the expression was very excited. The red cheeks seemed to be redder.

Half-heartedly said that he slammed the red hoist that had already sealed the mouth of the mouth, hung over the top of his head, and then turned to look at Ye Xuan. eye

In the middle of the stunned color, swearing: "Ye Daoyou, I am sorry, take your red lotus industry away, but in addition to this awning fire, you seem to have to surrender one thing, today... Enron is leaving!"
This

It is clearly the rhythm of the manuscripts that Ye Xuan asked for the refining of the manuscript. This

The manuscript Ye Xuan originally did not intend to hand it out, not to mention the red robe old blame at this time, whether it is tone or demeanor, it reveals a kind of arrogant and aggressive momentum, which makes Ye Xuan extremely unhappy.

Therefore, his face was gloomy in an instant, and sneered: "Is this eager to ask for the refining manuscript of the treasure? You seem to be a bit smug, after all, the red lotus industry has not yet stabilized..."

"boom!"

"Booming..."

"Hey..."

The voice has not yet fallen, and the loud noise has already come. This

At the moment, Ye Xuan ignited the red lotus flame in the flame pool at the bottom of the volcano in the central area of Shennongbao Dingding. With the influence of the power of the mother flame, the accident appeared instantly. Hang

The red gourd on the top of Yuhongpao's head blew directly, and it was only immediately that he was thrown out by the red lotus industry fire in his gourd, and the storm's rise and fall was once again turned into a piece of space. The miles of the industry and the sea of fire, across the void. fire

The red gourd is ruined!

The body shape is close to the red robe grotesque under the big gourd. The whole body shape is swallowed by the fire of the fire that has been spread between the suffocation, and half of the bubbles are not smashed, and they fall off directly, and the smoke disappears...

"Hey, there are four Taoist friends in the blink of an eye. You are... Why bother?"

Seeing this scene, Ye Xuan shook his head and sighed: "There are some things that can't be tolerated in this scene. Since all the Taoist friends can't collect this red lotus fire, then this temple is not welcome, and he can't always let him keep empty. , what about the evil side?"

The sound has not yet fallen, and he has already waved his hand suddenly. The front is like a sea that envelopes the imaginary sea of tens of billions of emptiness. In a moment, it condenses rapidly and becomes weak. Following

Then he slammed into the brilliance and directly fell into Ye Xuan's eyebrows. He was sent back to the nine-colored flame pool at the bottom of the volcano in the central area of Ding's space...

Everything happened too fast, and all the heavenly grotesque people around the world were caught off guard.

They were still rejoicing in the first moment, and they were so excited that the fire and the old blame could be taken away so smoothly.

I didn't think that all the things in a blink of an eye had changed. The fire and the old blame not only blew up the fire hoist, but even the ones themselves had been killed.

At this moment, Ye Xuan, the master of the magic hall, waved the red lotus industry fire, and there was such a word, which is clearly the rhythm of the intention to leave.

These thoughts flashed through the brain, and the grotesques of all parties changed instantly, and they screamed and screamed. The repairs in the body were fully motivated to the extreme, and they were dispersed into invisible pressures. For a moment, this piece of emptiness has been banned.

The vast void of tens of billions of miles is completely chaotic, not to mention the teleportation. Even the interstellar coordinate jumping ability attached to the system of Ye Xuan's internal system can no longer be activated.

However, everything that happened happened to the unscrupulous parties in the emptiness of the surrounding air, and suddenly changed their color, and looked up and screamed, and the screams of the tide suddenly began to rise...

Damn, it has been successful, but suddenly such an accident happened! ""

The fire-killing road friend died too much, and the fire-fighting gourd exploded. The body shape was instantly swallowed by the fire of the ocean, which was like a raging river. It was too late to make any reaction..."

"It's too close, the hoisting hoist is hanging on top of his head, and suddenly blasts without warning. It is impossible to make any reaction. Otherwise, he will repair his ninth-order grand perfection. How could it be possible to escape?"

"The incident is very strange. The fire-fighting gourd of the fire-slaughter's friends should not be so fragile, and the awning fire has previously been clearly collected in the treasured gourd. Even if the treasure can not hold it, it should have been blasted. Up..."

"Yes, this is indeed suspicious, and the words of Ye Xuan, the Lord of the Devil, are enough to prove that he has moved his hands and feet. The fire-slaughter is simply falling into his hands..."

The **** guy, I have been playing around for a while, he seems to sacrifice the red lotus industry fire to let me wait for it, but in the dark but made other arrangements, there is no intention to hand over the fire! ""

Needless to say, I must leave him today, and you will be very secretive. Once you have no trace, you must confuse the void, cut off the possibility of his escape, and then find a way to suppress it... .."

"Roar!""

Oh..."

With the horror and horror, all around the emptiness of more than a thousand heavenly Taoist singers have been spurred to the extreme, and they have been invisible to the invisible pressure, overlapping and adding, and the moment has been This piece of emptiness is banned.

Everything is long, but it happens between suffocation.

The blink of an eye, the vast void of the surrounding tens of billions of miles has been completely chaotic, let alone teleport, and even the interstellar coordinate jumping ability attached to Ye Xuan's internal system can no longer be activated.

This is clearly to trap him here, forcibly capture the rhythm of the red lotus industry fire and the Tianjiubao liquid refining manuscript!

If Ye Xuan is not willing to give it, the war will immediately start to rise...

"It seems that you are ironic and you have to completely tear your face with Ye..."

The first ring looks at all the strangers in the surrounding air. The sounds of Ye Xuan's gods are heard. The three great devils have flashes in the shadows: "If this is the case, don't blame the temple today...!"

call out....."

As soon as the language fell, there was a sharp break in the air. The nine-colored ribbon that was originally wrapped around the huge body of the black mist was like a giant spurt. It ushered in the storm and turned into a vast and innocent nine-color. Flame sea.

This nine-color flame sea is like a living, and the glimpse of it immediately swept away. The blink of an eye has covered the dark void of a hundred billion miles, and it has been extended to form a huge nine-colored flame ball. flame

The ball is 100 billion miles in diameter, and it will cover a lot of empty space. In addition, it also includes some heavenly and old monsters. There are stars and beasts and ancient people. In total, dozens of them are trapped inside by flame balls. The void is closed.

There are thousands of strangers around the world. Everyone has tempered the body to the extreme, turned into invisible pressure and heavy stacking, and banned the void, so that Ye Xuan has no way to escape, can only be forced to face Thousands of days of eccentric circles...this

The situation is extremely strict. Although Ye Xuan is a devil, but after all, it is just a stunned one. With an enemy of more than a thousand, it is difficult for him to ensure his own safety.

Therefore, he chose to follow the trend and dedicate the nine-color flame sea into a nine-color flame ball...

The thousands of eccentrics in the distance around him formed a big encirclement for him. Then he built a small encirclement in the interior with a nine-color flame ball. In this way, only Ye Xuan rushed into the flame ball. Within the meantime, the extremely dangerous situation has been alleviated in an instant. in

In the nine-color flame ball with a diameter of 100 billion miles, Ye Xuan needs to face only dozens of heavenly monsters. Other heavenly monsters are all blocked outside the nine-color flame ball. The horrible Shennong nine-color flame, they simply can not forcibly break through and rush into the flame ball...

All of this is long-lived, but it actually happens between suffocation. In a dazzling time, this vast and innocent dark void forms a double encirclement. outer

Around the trillions of people in the circle, there are thousands of heavenly beasts and survivors screaming around, and the repairs in the body are all pushed to the extreme, turning into invisible pressures and stacking, chaos and void...

Inside, you can only see a huge nine-color flame ball, with a diameter of 100 billion miles. The inside is trapped, and there are dozens of heavenly beasts and survivors!

"Damn, the Lord of the Magic Temple sacrificed the nine-color flame sea, actually condensed into a sphere in an instant, closing a void..."

The void in the sphere is about 100 billion miles away. It is closed by a giant flame ball made by the colorful flame sea. I can't break through the barrier of the flame ball. Otherwise, once it touches the flame wall, there will be ominous coming soon... .."

The same roads that were trapped in the flame ball were touched by thirty or forty. They were isolated. The Lord of the Temple of God was really good at calculating. Is this the rhythm that wants me to eat slowly in this way? ""

The heavenly strong people gathered around the imaginary sky are thousands of people. Even if his nine-color flame sea is trapped by some Taoist friends, it is only thirty or forty. Even if he is all killed by him, it will not affect at all. The overall situation, and the follow-up of the Lord of the Devils would like to use the same means, there is absolutely no possibility..."

Yes, he is dying, even if this way can kill some of the same people gathered around, but this is just to let him wait for a while, and finally to be killed, destined to be futile! ""

Trapped him, surrounded this nine-colored flame ball, once the flame ball dissipated, immediately shot, today must kill the Lord of the Temple anyway..."

Oh..."

"Hey!"

"Hey..."

The exclamation sounded, and the sound of horror and whistling sound came from all around, and those who came with them, the powers and the ridiculous geeks who had been watching the ceremony all retreated and retreated to the void.

There will be a terrible battle for the heavenly-level powerhouses, and it's not one or two, but hundreds of thousands of scales. Even if the ridiculous old monsters don't dare to stay too much, I'm afraid it's being shackled. Dangerous

There are tens of thousands of strong stars in the air, and now 90% of the people are retreating. The rest are only about a thousand or so. They are all heavenly beasts and heavenly benevolents, forming a heavy encirclement, with a diameter of 100 billion miles. Nine colored flame balls, firmly trapped in the center.

This is clearly the rhythm of the wings, even in this ancient and vast and innocent Hongmeng, the endless years, I am afraid it rarely appears...

The former scene was so amazing that more than a thousand figures, all of them were heavenly beasts and heavenly benevolent people, forming a heavy encirclement, and the nine-color flame ball with a diameter of 100 billion miles was firmly trapped in the center. This

It is clearly the rhythm that can't escape. Even in this ancient and vast expanse of the glory, I am afraid that it has rarely appeared since the endless years...but

Ye Xuan did not pay attention to it at all. The three great devils had a flash of light, and the entire huge figure was instantly turned into a glare.

In the blink of an eye, I passed through the nine-colored flame ball and entered the inside of the flame ball. I disappeared...

Inside the colorful flame ball! "

Roar! ""

Oh..."

"The **** guy, actually sacrificed the nine-color flame sea, and sealed me in the trap, is this the rhythm of sleepy?"

I really don't know how to live and die, even if he is the ninth-order grand perfection of the heavens, even if the Lord of the Devil's Hall is so fierce, but after all, it is just a single-handedly, and he wants to kill all of us with an enemy. Is this? ""

No need to say anything more, it has already torn the face, and he can suppress him. All the friends of the Tao will be together, so be sure to kill him here..."

"Hey..."

Trapped in shape, these more than 30 heavenly beasts and remnants of the grotesque were suddenly furious, and the screams of horror and whistling sounded overwhelmingly, and they were resentful. he

They are all heavenly and strange, and the most powerful ones are the ninth-order heavens. Even the weakest ones have the third-order strength of heaven, and the middle of the heavens in the fourth-order world is only one step away. more

The key is the large number, the large internal space of the flame ball, the number of heavenly beasts and the remains of the survivors reached more than 30, and the enemy and the widows were condensed into a ball by the other side, and they wanted to fight back. It's just that they are indignant and have a feeling of being despised and insulted...

It was at this moment that a sharp break sounded, and the body of the Lord of the Devil, Ye Xuan, passed through the flame wall of the nine-color flame ball and rushed directly into the flame ball space.

At the same time as the figure stopped, the three magic halls turned to the first time, sweeping all the more than 30 heavenly and eccentric monsters in the flame ball space, and continued to smash in the cold, with action... "

Card..."

Oh..."

In an instant, the crisp and fierce cracking sounded, and the black mist in the three magical bodies suddenly screamed and shouted, and at the same time, the spiritual core of the mind that was suspended in the sea was also quickly The ground is working...

A blood-colored lightning with a diameter of tens of thousands of miles emerged on the top of the head of a beastly beast. On the other hand, he was caught up in the air. No

When the reaction came over, the invisible spiritual power of a canopy was like a tsunami, and it was instantly diverged and shaped, and its shape was completely covered in an instant.

This time, the black mist is the secret of the spiritual power, but it is not the spiritual vortex and the spear of annihilation. It is the spirit of thunder and lightning and the full exertion of the spirit. fine

God's crushing is a kind of mysterious technique that forms a heart-strike with spiritual power. Compared with the attack of the human monk's gods, it is basically impossible to prevent because the spiritual power is more traceable.

Nowadays, this celestial beast is suddenly smashed by the huge blood-colored lightning of a diameter of tens of thousands of miles. When the consciousness is fascinating, it is immediately smashed with a spirit of crushing, and the whole person will be paralyzed on the spot. positive

It was this time of the millennium, and Ye Xuan's figure disappeared in the same place, and it was easy to reach his immediate moment...

"Hey!"

After the completion of the move, Ye Xuan, the true form of the three-headed and six-armed konjac, was on the side of the murderous car. The violent chilling mang flashed, and the right hand suddenly picked up, and the loud noise was already shocking.

The **** stick pinched in the hand did not hesitate to fall down. The porcelain was incomparably falling on the head of this heavenly beast. The old guy's cultivation was not weak.

However, compared with Ye Xuan, there is still a certain gap. In the face of Ye Xuan's full blow, and now that the ideology is in confusion, he simply has no time to react. One

When the stick went down, its entire huge figure exploded in the moment when the giant rod fell, turning into a blistering red blood fog..."

Call..."

Nothing surprises, violently waving at the first time...

The whistling sound of the whistling wind suddenly rang, and a majestic invisible gas rushed away, sweeping the **** mist that was spreading and spreading directly into the bottom of the volcano in the central area of the Dingnai space. Condensation. "

Damn, this guy really came in..."

Unexpectedly, the black bear friend was bombarded, and the flesh was opened and charged by him. This is clearly the rhythm of the blood medicine."

It's just awkward and totally unacceptable. What is this **** konjac that I am waiting for? Blood and meat? Too arrogant..."

"Roar!"

Oh..."

Seeing Ye Xuan coming, in an instant, he has already killed a heavenly beast, and directly absorbed the **** blood of his body, which is clearly used to refine the rhythm of flesh and blood. four

The remaining 30 or so old geeks in Zhou Xuan's air suddenly became furious, and the roar of the mouth was heard. At the same time, the strength of the body was also fully urged to the extreme, and roared, from all directions, yelling toward Ye Xuan. Come.

"Hey!"

"Hey..."

In this scene, there was a faint flash in the body of the black mist, and immediately sighed, and the low voice rang in the air, continuing. black

The fog splits into the hair and makes a terrible shout. The sound is fierce and sharp, as if it is going to pierce the eardrum. The imaginary wave scales are immediately formed in the void, and an invisible spiritual force is like a roaring roar of the Nujiang... ..

At this moment, Ye Xuan launched a spiritual black hole! from

The spiritual power that roared in the mouth of the black mist was like the sea, but it was invisible and inferior. The power was terrible and horrible. At the same time, the void was instantly collapsed and spread all the way. Wan

If the dominoes are pushed down, the short-term interest is not enough, and the surrounding voids have formed a huge black hole, which is just a hundred miles away. It is just a singularly singular singer. Under the block..."

The old guys outside are not mentioning for the time being, but now they are trapped inside the flame ball, that is, all of you, today... must die! "

"Oh..."

"Boom!"

There are empty black holes in the surrounding voids, and all the more than 30 heavenly eccentrics that have been encircled are blocked. Ye Xuan's voice of the gods also sounds, revealing endless coldness and coldness...

At the same time, the crisp cracking sound came, Ye Xuan's figure disappeared directly in the place, he cast a teleport, because in this area of the 100 billion square circle covered by the nine-colored flame ball, the void is no longer chaotic.

In the next moment, the three-headed and six-armed konjac figure reappears directly behind the head of a beastly beast. Under the chill of the man, the violent right arm suddenly rises, like a big pillar like a giant pillar. The trepidation of people's trepidation, a great fall...

Chapter 5147: Slaughter

"Oh..."

"boom!"

The crisp cracking sound came, and Ye Xuan's figure disappeared directly in the place. He cast a teleport, and the three-headed and six-armed konjac figure reappears directly behind a heavenly beast...

Under the flash of the cold mang, the violent right arm suddenly slammed, like a **** stick like a giant pillar with a tremulous bang... a great fall!

"Hey!" Giant

The sound of the sound is soaring, the **** and white porcelain is incomparably falling on the top of this heavenly beast. The old guy's repairing strength is not weak, but there is still a certain gap compared with Ye Xuan, facing his full strength. A single blow can't hold you.

This stick went down, and the entire huge figure exploded in the moment when the giant rod fell, turning into a blistering red blood fog..."

Call..."

He waved his hand, and the sound of the whistling whistling sounded, and a huge invisible instinct screamed away. The **** mist that was spreading and spreading was swept out and sent directly to the bottom of the volcano in the central area of the Dingnai space. Expand blood condensate.

"Roar!"

Oh..."

"Hey..."

Seeing this scene, more than 30 heavenly lords around the scene were once again rumored. In a short period of time, Ye Xuan, who entered the nine-color flame ball, has already killed two heavenly beasts. To the horrible, completely irritated them...

"boom....."

A beast has opened a **** mouth and ejected a thunderball from it. This beast has a certain amount of thunder in the blood. This blow is a long-lasting force, and now it suddenly blasts and the power is shocking. It is eye-catching.

leaves

Xuan's shoulders shook, and the whole figure disappeared instantly. He once again cast a teleport and calmly avoided the blow.

"Booming..."

With the disappearance of the originally locked target, this huge and incomparable Thunderball is still rushing forward, and the two Tiandao remnants on the opposite side are caught off guard, and they are trying to teleport under the guise of change, but they are already half a step late... .."

boom! "

"Hey..." two

The road came from a loud noise, and the thunderous ball like a meteor blasted a porcelain. The body of the two survivors was covered, and the blast broke. The bodies of the two men burst open, each with a piece. Different forms of storage magic fall from it. This

At the moment, Ye Xuan just completed the teleport, and appeared on the side not far away. The two survivors were uninterested in the form of **** fog, but these two treasures of storage made him suddenly bright.....

Without hesitation, with a wave of incompetence, the invisible gas spurt away, grabbing the two pieces of storage magic before the others. Receive

In the moment of entering the body, Ye Xuan extended into it with a little knowledge and probed it slightly.

Sure enough, it is the magic weapon of heaven and earth. The treasures and cultivation resources are huge, but Ye Xuan is still the source of heaven.

The two heavenly beasts that had been bombarded by the side before the bombardment by him, there was no liquid in the body of the explosion, apparently it was already given to other beasts of trust, and it was made into a furnace. Refining materials for treasures. leaf

Xuan originally worried that the two survivors of the thunderballs were also the same, but the result made him suddenly happy. The two pieces of the treasures that have just arrived are all in the source of the heavens, although they are only three or four. There are seven or eight kinds of old guys together, which is not a small gain...

At this point, the Tianduo blame that has fallen in a short period of time has reached four, and the old guys trapped in the nine-color flame ball have a total of thirty-two, and the remaining twenty-eight..."

Damn, are you crazy about Thunder Tiger? "

"There was actually the killing of the two survivors. Are you going to join the rhythm of the Lord of the Devils? Or is it on behalf of the beasts to fight against our survivors?"

"Misunderstanding, the Taoist friend misunderstood..."

Everyone is careful, you can't accidentally hurt your friends. In the blink of an eye, you have fallen into four friends. We can't afford such a heavy loss..."

Hey..."He

The voice of the voice has not yet fallen, and the body of the black mist has already smashed the cold mang, and screamed.

At this moment, he once again ignited the spiritual strength of the body. The annihilation spear in the spirit attacking secret law was fully activated by him. The large amount of spiritual power extracted was not turned into a spiritual vortex, but turned into a very small point. This

At the moment, there was a low-pitched trembling in the void, and the spiritual source nucleus hanging in the sea of Ye Xuan's mind quickly spun with the movement of these spiritual forces.

Faster and faster, in the twinkling of a moment, a tiny spiritual cluster formed by the intense compression of a large number of spiritual sources is shot from his sea of knowledge. on

Like the spear tip, it still carries the ghost shadow of the spear, and rushes forward...

I extracted such a large amount of spiritual power, but the attack is the smallest, enough to make the tiny spears of the spears invincible.

"Hey..."

It seems that I realized that the crisis was approaching. The body of a savage beast that was roaring in front of the right side was abruptly stopped, and there was a terrible scream in the mouth.

But this has not changed anything. The annihilation spear directly penetrates his body, blasts a **** fog, and falls down, and the **** fog formed by his body blasting is waved by the black fog. It will be put away. And

This time, from the body of this heavenly beast, the body of the heavenly beast also fell out of the three sources of heaven, so that Ye Xuan was quite happy. It seems that today's World War I will be the third to be the third level of Hongmen Baodan. The need for the heavenly blood and the heavenly source of the liquid... all come together!

The thoughts flashed through my mind, and Ye Xuan suddenly felt a great spirit. Under the flash of the cold mang, he rushed out again, and the remaining 27 heavenly lords, he must have all of them today... Empty! "

Card! ""

Rumble..." card

The sound of lightning flashed, the thunder and lightning was urging, a blood-colored lightning with a diameter of 100 billion miles, suddenly appeared on the head of a beastly beast without warning, and instantly slammed down and seriously injured him. , temporarily lost the power... and

At the same time, the violent **** stick was also rounded and swept toward the right side of the figure. The two strangers who were coming from this direction were caught off guard, and the small body was covered by the giant pillars. In the black stick sweep, the body suddenly came up with a dense and crisp sound like a fried bean. I don't know how many bones were broken, and the same vomiting and blood injury...

"Hey!"

The bones lifted up the right arm, and the **** blade of the demon in his hand was like a black lightning bolt. The speed was too fast, and even exceeded the lightning. The blink of an eye was already 10 billion miles away. , the direct head of a heavenly beast and beast will fall directly...

"Hey..."

At one moment, the whistling sound of the horror suddenly sounded, and there was a majestic endlessness from the **** blade of the demon. It was like a **** magic fog like a river. It was red to black, and it was swarming and swaying. The spirit of the devil.

The blood basin was wide open and angered, and the bitter beast that was beheaded was swallowed into the belly...

"Hey..."

The whistling sound of the sky suddenly sounded, and the savage demon blood blade instantly fell off the head of a heavenly beast. tight

Then there was a majestic endless flow from the blade body, like a river of blood-colored magic fog, red to black, rolling and turbulent, half-interest has become the blade of the spirit.

The blood basin was wide open and angered, and the beheaded beast was swallowed in the belly! This

There are also three heavenly sources of liquid in the body of the beast and the beast. In addition, the **** fog formed by the flesh of the body is able to refine a heavenly blood.

This is the most important resource. Ye Xuan naturally will not let the Blade Spirit devour it. He has already issued instructions. All the prey that he swallowed this time does not allow the Blades to smack. just

Only the body of the savage beast and the three heavenly sources that fell from the body were only temporarily kept by the Blades, and will be returned to Ye Xuan after the end of the war.

The shocking killings began here...

The space inside the flame ball is about 100 billion miles away, but now the Tiandao old monster trapped here is only twenty-seven. Many of them have been seriously injured and temporarily lost their combat power.

What's more, among these eccentrics, the most powerful ones are only eight steps, just far from Ye Xuan's opponent.

In this case, what the next scene will be, it will be self-evident...

Too much violent, the black mist is constantly exerting the secrets of spiritual strength, or spiritual black holes, or spears of annihilation, or spiritual crushing and spiritual thunder and lightning...

Although these attacks can only seriously harm these evil beasts, they cannot be directly killed, but only this is enough. black

The secret of the spiritual power that the fog is constantly exerting, just need to play a role of interference and assistance, because then a slap in the face of a **** stick, or a skull in the hands of the devil's blood blade, in an instant You can completely close your goal...

Time is slowly passing, but the process of this terrifying battle is almost horrifying.

Twenty-seven heavenly lords, the survivors and the beasts are basically half each, but even if they join hands, it is only in the hands of Ye Xuan that they insist on a fragrant time...

After a fragrant incense, this piece of space spanned 100 billion miles inside the flame ball space, and finally restored to tranquility, the previous screams and roars are all inaudible.

Ye Xuan, who is in the state of the three-headed six-armed konjac, has stopped his body shape, and the three great devils are stunned and swaying.

In the void, I can't see a strange old man. The thirty-two heavenly lords who were trapped here have been completely killed in this short period of time. "

Oh..."

At this moment, the bones of the sacred bones in the hands of the sacral bones are thrown out, and the inside of the blood blade instantly evokes an inexhaustible **** magical mist. The figure of the sorcerer and the demon is revealed in the blink of an eye. After the whistle, the **** mouth was opened in an instant.

In the previous World War, he swallowed a few heavenly beasts, including the liquids of the heavens that fell in their bodies. There were more than twenty copies of them. Now they all spit out and were waved by Ye Xuan. The income is in the body.

In this battle, Ye Xuan has harvested more than a dozen Tiandao blood essences, and the other three sources of liquid in his hand have also added dozens of copies, and the main Dan materials needed for refining the third thirty-level Hongmen Baodan have already It's halfway around..."

Oh la la..."

call out! "

At this moment, with the end of the war in the interior of the flame ball, the nine-color flame ball that covers the void is 100 billion miles away, and it collapses directly between Ye Xuan's thoughts. four

Zhou Chuan came to the sound of the flames of the flames, and a flame of sea roared. In the blink of an eye, it is extremely condensed, turning into a nine-color streamer, and after a few hovering, it is again entangled in the body of the black mist. nine

The two ends of the streamers are in front of the body, and one side is behind them. It is very ingenious and swings slowly. It is like a snake, and it is possible to spur at any time.

At the same time, with the disappearance of the nine-color flame ball, everything in the virtual air outside the flame ball reappeared. The existence below the heavenly territory has already retreated to the trillions of miles, while the surrounding area is near the void, but there are still more than a thousand days old. The strange ring is waiting for it.

These thousands of days of old monsters have always been guarded outside the flame ball, and the repairs in the body have been spurred to the extreme, and the invisible pressure has spread out, overlapping and adding to a terrible force. The chaos is completely confusing, thus forming a banned area with a trillions of miles. to

Yu Ye Xuan is in the middle of the banned area of the trillions of

Only in the past, when a column of incense was more than a bit, the entire huge nine-color flame ball suddenly collapsed, and then the body shape of the Lord of the Demon Temple appeared, which made the thousands of heavens and all the strangers gathered around. A sudden glimpse. tight

Then they were mad and shocked. Under the color change, they breathed cold air. It was like a tidal wave of exclamation, and it was already overwhelming in the next moment..."

Roar! "

"Hey..."

God, what happened? Is the old man blind?"

The illusion must be an illusion. The nine-color flame ball collapses. How can it be that only the owner of the temple, Ye Xuan, appears? What other friends? "

"Hey! Just a little fragrant time, thirty-two heavenly blame, has he been completely killed by him? What is this fighting power? It's simply horrifying, it's hard to imagine..."

With an enemy, and still more than 30 people, Ye Xuan, the master of the Temple of Devil, has no damage, but has killed all his opponents, even if it has not been used for a long time, only a short column of incense, this is clearly Has already reversed the rhythm..."

The friends of the road are careful, you must not let him use the same means again. Otherwise, if there are dozens of friends who are sacrificed by the nine-color flame ball every time, at the end, they will surely eat away all of us... "

"In fact, a similar situation only needs to be three or four times. The military will collapse. The rest of the existence is unlikely to stay here. The risk is too great. It will be a slap in the face. for....."

"Roar!"

"Hey..."

With the horror of the surrounding air, the three great bodies are all looking up, each sending out a terrifying arrogance and screaming.

Then, in the middle of the note, the cold mang flashed, locked a heavenly beast and beast as a target, and the shoulders swayed, and then rushed away...

This is clearly an active attack, and then start the killing rhythm. At this time, Ye Xuan has three heads and six arms, and the magic flames are like a real demon god.

Even if it is now in the encirclement of more than a thousand days of eccentricity, it is still fearless, which is clearly a thousand-legged and arrogant, like the rhythm of no one. This

In one scene, those who have retired to the far-off distances of the tens of billions of people and the ridiculous people, all of them suddenly chilled, and the faint glimmers of the gloom, was dazzled by Ye Xuan's supreme magic... .."

Roar! ""

Oh..." with

The horrible whistling sounds from the surrounding emptiness, the three great bodies are all looking up, each sending out a terrifying arrogance and screaming.

Then, in the middle of the note, the cold mang flashed, locked a heavenly beast and beast as a target, and the shoulders swayed and spurred away.

The degree is too fast, this heavenly beast is completely unresponsive, and Ye Xuan has already arrived, less than a hundred miles away.

"Booming..."

boom! "sense

Feeling that the crisis is approaching, this celestial animal is mad and does not hesitate to retire, but almost at the same time, the loud noise has already risen, and the **** and white porcelain is incomparably falling on him. Overhead... old

Although the strength of the guy's cultivation is not weak, there is still a certain gap compared with Ye Xuan. In the face of his full blow, he simply can't hold back.

This stick went down, and the entire huge figure exploded in the moment when the giant rod fell, turning into a red blood fog, and it spread.

"Call..." black

The fog was immediately waved, and the whistling sound of the wind rang. One

The incomparable invisible sighs of the stocks rushed away, sweeping away the **** mist that was spreading and spreading directly into the bottom of the volcano in the central area of the Dingnai space, and began to condense blood. with

There were two faint stalks that were swept away. It was the two compressed liquids of the heavenly source, although a little less, at least better than nothing. "

Roar! ""

Hey! ""

Oh..."

Seeing that Ye Xuan was able to show up, he took the initiative to shoot, and then started to kill, and the celestial grotesque around the emptiness in the air were screaming and screaming. Do not

However, although they were extremely angry, no one rushed forward at this time. Ye Xuan's previous short time of a fragrant time killed the 32 singular singular singular flames, which was already invisible in their minds. For a shadow, I have to be jealous. in

Although the total number of beasts and survivors of the field is more than one thousand, there are more than a thousand, but the strength is the same as that of Ye Xuan, who has reached the peak of the ninth-order grand perfection, but only half-size, that is, Less than one hundred, only about fifty or sixty.

In fact, even if it is the same as the ninth-order grand perfection, the combat power is also strong and weak. Ye Xuan is undoubtedly one of the best. The five or sixty-five peaks of heaven and earth have no one capable of pressing Ye Xuan. One end. complete

The original dragon whale was the tenth in the left bank's sacred beast list, but it was severely injured by Ye Xuan in several face-to-face work, and the wolf was gone. very

Even the blue-blooded blue crocodile, which ranks eighth on the left bank of the Heavenly Animals, is also under the hood, and Ye Xuan easily and easily smothered it, but this incident is now unknown to everyone...

In this case, the number of Tiandao old geeks gathered around the area is many, there are more than a thousand, but the main body of the magic hall, Ye Xuan, is a fierce flame, and the shot is a killing trick, not to mention the other eccentricities below the ninth order. It is the five or sixty-ninth-order grand sacred peaks scattered around the world. They are also unwilling to jump out as the first bird and take the initiative to attack Ye Xuan. dead

This is the truth of Tao You's death!

To put it bluntly, although these guys are crowded, they come from all sides and are not united. Although they are not said to be a group of people, they are similar. and also

It is precisely because of this that, at this time, Ye Xuan did not give birth to immediately smash a circle, rushed to the void outside the trillions of miles, and then activated the interstellar coordinate jumping ability attached to the internal system, and then walked away.

This is a good opportunity. The liquid of the heavenly blood and the source of the heavens that he needs to refine the third thirty-level Hong Meng Bao Dan is still quite a lot. It is just a chance to take this opportunity to make it happen...

"Card!" brain

After reading the flash, Ye Xuan did not delay, and immediately shot again.

At this moment, the black mist splits and the spirit thunder is launched, accompanied by a crisp and incomparable click sound. A blood-colored lightning with a diameter of tens of thousands of miles appears out of thin air, and the two survivors of the right side are nearly 10 billion miles away. Drowning...

The strengths of these two old guys are all in the middle of the heavens. One is the fourth step of the heavens, and the other is the sixth order of the heavens. Even the repairs that are not even in the late stage are naturally the spirit of lightning that Ye Xuan fully urges. on

In the next moment when the body of the thunder was formed by the explosion of blood-colored lightning, two roars of anger and anger were heard in the electric sea. At the same time, there was a screaming noise. This is clearly two. The rhythm of an old guy fleshing out.

A photo has been degraded, and this scene has once again shocked the heavens and monsters gathered around, and Ye Xuan has not taken care of them. The two pieces of the treasures that have fallen from these two old guys have been waved. Closed up. Fortunately

It is said that although the strength of these two old guys is not very strong, but the two people's storage magic treasures all have the roots of the source of the liquid, adding up a total of four, so Ye Xuan are surprised.

In addition to the treasures of storage, the blood fog formed by their flesh explosions was also collected by Ye Xuan. Although the blood is not so majestic, it can not be used to refine the blood of the heavens, but turned back to the six major legions of the temple. It is also a good choice for the high-level beasts of the beast army to swallow. Do not

However, although I have harvested four copies of the source of the heavens, this is not enough. The killings have to continue, and the blood of the heavens is still a lot worse...

As soon as I read this, the three great devils flashed in the middle of the cold, and turned and rushed in the other direction. in

When the nine-color flame ball is inside, Ye Xuan can teleport, but the flame ball dissipates, and the outer void has already been completely confused under the threat of heavy overlap, so it is impossible to teleport, not only Ye Xuan, trillion The same is true of other heavenly beasts and remnants of the grotesque in the sky.

When he turned and rushed in the direction, there were dozens of heavenly beasts, but within 10 billion miles, but although they were crowded, it was too much for Ye Xuan's success. Amazing. Place

Therefore, these dozens of heavenly beasts saw Ye Xuan coming to them at a very speed. Under the madness of the body, they suddenly changed. There was no hesitation at all. Just like the conditional reflection, they directly retreated. its

Although some guys are faster, but there are obviously dozens of heavenly beasts who are not good at speed, far from being able to compare with Ye Xuan, he has been chased by hundreds of millions of miles. .

With Ye Xuan's current size, the virtual distance of hundreds of millions of miles can already be regarded as a melee distance. With the pursuit, he did not hesitate, and the violent and cheekbones were shot at the same time...

"boom!"

Rumble..."

In the air, the thunderous sound of the thundering sounds, the violent right arm is round, the **** stick in the hand is like a giant pillar, and the sacral body is not delayed. The **** blade is turned into a black-

red one. The awning, spurting at a speed that transcends lightning, has already reached the top of the head of two beasts, and has fallen quietly..."

boom! ""

Rumble..."

In the void, the thunderous thunder of the thrilling sounds, the violent right arm is round, and the **** stick in the hand is like a giant pillar.

The sacral corpse is also not delayed, and the blood of the sorcerer turns into a black-red awning. It spurs at a speed that transcends lightning. The blink of an eye has reached the top of the two beasts, and it has fallen quietly! Withered

The blood-blooded blade is now a wild and treasured, sharp and unparalleled, and only a moment has already directly degraded the good head of the heavenly beast. "

Oh..." are

In the meantime, the whistling sound of the horror suddenly sounded, and there was a majestic endlessness from the **** blade of the sorcerer. It was like a **** magical fog like a river. It was red and black, and it was swarming and swaying. The blade spirit is like a demon, and the blood basin is wide and angry.

In just one bite, the beheaded beast was swallowed into the belly. versus

At the same time, the **** stick in the hands of the violent has also fallen, and slammed on the back of another savage beast, this heavenly beast can not hold back.

The entire huge figure exploded in the moment when the giant rod fell, and it spread into a red **** fog.

"Call..." black

The fog swayed and the whistling sound of the whistling sound suddenly rang, and a majestic invisible screaming whistling away, swept the **** mist that was spreading and drove directly into the bottom of the volcano in the central area of the Dingnai space. , start blood condensate! with

In this way, there are two masons in the body of this celestial beast, which fall into the heart of Ye Xuan. It is the two compressed liquids of the heavenly source...

All of this is long-lived, but it happens between suffocation, too fast, and no one else has come back to God. These two beasts, which are being pursued by Ye Xuan, have fallen and died. Even half of the hair is not left. Count

Counting the time, after Ye Xuan retracted the huge flame ball of the nine-color flame sea, it is only about ten interest points, but there are already a few strange people in his hands. The grotesque grotesque around the emptiness of the surrounding air once again stunned.

All the heavens and grotesques sighed in the air, and then, like the tidal screams, they began to rise again..."

Damn, how can this fierce battle force be so strong? "

"The key is that the killing weapons in his hands are not weak. They are all big killers..."

"If you don't shoot, you must take your life. This is clearly the **** to stop killing the gods. The Buddha is blocking the rhythm of killing the Buddha. I waited for all the strangers to gather together, but he was stunned by his supreme killing. It's just ridiculous to spread things out..."

"I am really angry. If this is the case, how can you suppress him?"

"Damn guy, are you provoking the old man? Hehe..."

"What are the two Taoist friends? The enemy is not going to be chaotic. For the sake of the present, we must try to suppress this **** of killing as soon as possible. Otherwise, there will be a change in the long-term drag..."

"Oh, unconsciously, he has already grown to such a height. The supreme fierceness of Ye Xuan, the master of the demon temple, is now able to resist in the right section of this left bank. I can't even get one from the front. Will he suppress him?"

call out....."

For the exclamation and whistling of the surrounding air, the screams and screams, Ye Xuan did not pay attention to it, and the three great devils smashed in the middle of the cold, he immediately swept out In a different direction, the two-headed beasts that are closer to each other are locked, and they are transformed into a mans, and they are rushing away...

Seeing this scene, the two bodies of the horrible beasts of the heavens trembled, without hesitation, and turned around and fled, the power of the body was instantly pushed to the extreme. can

Don't you escape? The lessons of the previous car are still in sight, and more than once, they don't want to be chased by this fierce killing god. Once they are caught up, they are the result of the fall on the spot. There is absolutely no suspense...

In fact, it's not just the two beasts that were locked by Ye Xuan with the air machine. Other heavenly geeks in the same direction are far away, and seeing Ye Xuan turning around here, it's also a big face. Change, no half-stop, directly withdraw from the storm! This

There are nearly a hundred figure-like figures, and Ye Xuan has escaped from the nearly one hundred days of the old man's strangeness. This kind of scene has already retreated to the parties outside the trillions of miles. When I arrived, I fell to the eye of the land.

There was no exception on their faces. They were all full of shock and sorrow. The scene in front of them was so amazing that even if they saw it with their own eyes, they could not believe it.

Even in this vast and innocent Hong Kong emptiness, similar things have not appeared in the ancient times of the past, and they simply overwhelmed their cognition...

In fact, even if they have responded in the first place, it is too late...

Seeing that these guys are going to escape, where are they going to chase, and where the Tiandao old blame immediately retreats, Ye Xuan's heart sinks, and then he promptly responds. One

The road was rushed out from Ye Xuan's eyebrows, and the speed far exceeded the lightning. Even the speed under the full force of Ye Xuan was far worse. Milli

Mang spurred away, and the blink of an eye had already reached the front of the top of the heavenly gangsters, and immediately turned into a vast expanse of flames.

The whole piece of flames shrouded the emptiness of tens of billions of miles. When it appeared, it had already set off an endless roar. Every wave was composed of countless red lotuses. Each red lotus was only a small size, but it was fascinating. As blood, it is dazzling.

This is clearly the rhythm of the red lotus industry fire. by

Yuye Huowei can be too amazing. If it is against the enemy, it will completely burn the prey, and it will be destroyed, even if it is the magic weapon of the remains of the survivors, and the heavenly source of the heavenly beasts. Liquid, all can not stay. Place

Therefore, Ye Xuan sacrificed the red lotus industry fire at the moment, and did not directly blast to the front of the sky, the old blame, but directly to the far side of the front, turned into a flame of the sea, the purpose, just a slight resistance Stagnation of their escaping. fruit

However, seeing this awning can be a horrible fire in the ocean, the tens of thousands of eccentrics who are escaping in this direction are changing instantly, the scared face is white, and the figure is abruptly stopped..."

Oh..."

It was also at this time that this piece of trillions of treacherous emptiness was on the right side of the sky, and suddenly there was a crisp and fierce crack, a void crack appeared, and a huge body of 50 million miles was drawn from it. Silver wolf, the whole body is like snow, there is no miscellaneous hair, and the deterrent is dazzling!

Seeing that this silver wolf suddenly came, the grotesque parties around the void suddenly slammed, and then they sighed and sighed, and the screams suddenly sounded like a tide...

"Hey! Hegemony Silver Wolf? The sixth place in the left bank of the Heavenly Animals list is coming..."

Chapter 5148: All of them are doing

"Oh..."

On the right side of the void, there was a crisp and fierce sound in the distance of the chaotic land of trillions of miles...

A void crack suddenly appeared, and a silver wolf with a body size of 50 million miles was pulled out. The whole body was like a snow, and there was no hair. The deterrent was dazzling! Look

When the silver wolf suddenly came, the grotesque parties around the void suddenly slammed, and then they sighed and sighed, and the screams suddenly sounded like a tide..."

hiss! Hegemony silver wolf? The sixth place in the left bank of the Heavenly Vulture is coming..."

Is this the ancient silver wolf that sits in the middle of the left bank of the silver wolf forbidden? Actually, I went to the right side of the left bank, which is clearly directed at Ye Xuan, the master of the temple..."

"This ancient silver wolf has entered the ninth-order grand perfection of the peak of the heavens. It has been for many years, and it is very powerful. The sixth-ranked strongman on the left bank of the evil beast is not a joke. This is not a wave of fame... .."

There is a **** silver wolf shot, the main body of the temple, Ye Xuan, is afraid to drink this hate today. Although he can seriously injure the dragon whale in the tenth place on the list of the beastly beasts, but he is not fortunate in the face of the sixth on the left bank. ! ""

Finally, there is a presence that can suppress the Lord of the Temple..."

Oh..."

With the exclamation of the surrounding air in the air, the hollow crack in the far right side, after the hegemony of the **** silver wolf rushed out, there was actually a high-pitched sound of the dragon. tight

Then, a mile of volley from the crack of the void, ushered in the storm, turned into a huge celestial beast with tens of millions of miles, it is the old dragon whale of Ye Xuan! very

Obviously, the hegemony silver wolf came with the dragon whale. Both of them are the top ten in the list of the left-wing heavenly beasts. They originally had friendship, and the friendship was not bad.

Previously, the ninth-year-old cold-blooded blue crocodile on the left bank of the sacred beast was ambushed, and the matter was spread. The outside world has been rumored to be mostly a dragon whale.

Because someone once saw that he had extinct a forbidden place, even the forbidden animals and beasts that were repaired below the heavenly path were not let go, and all were killed and destroyed.

The matter was introduced into the ear of the whale, and he immediately had a guess. He immediately rushed to the silver wolf in the middle of the left bank to ban the land, and invited the old friend to the **** silver wolf, and today they came together...

At this moment, I saw the arrival of the two of them, especially after seeing the figure of the dragon whale. Ye Xuan, who was heading for the front, stopped his body shape and waved the red lotus industry into the body. With

After the chilling mang, a turn to the right side of the virtual sky, the **** silver wolf and the dragon whale squint away..."

Hong Tao Taoist, you have always said that you were detained, and you have never shot the **** goshawk. To be honest, the deity did not believe at the beginning..."

It was at this time that the dragon whale that had just emerged from the crack in the void, turned to look at the Hong Tao on the edge of the distant floodplain. Say

At halfway, the gloom of the gloom flashed, and then he continued after saying: "But later, the deity is a letter, because the lord has encountered the same thing as you..."

It is rumored that the cold-blooded blue crocodile is killed by the deity. In fact, this is not the case. Today, in addition to the deity, the right side of the left bank can have this ability to quietly kill the cold-blooded blue crocodile. The Lord Ye Xuan is the most likely object of doubt. ""

In this way, most of the **** goshawks are his killing. This is a speculation, but the deity has at least 80% of the grasp, Ye Xuan, you call the Lord of the Devil, ruin the supremacy of the entire right, presumably I don't want to do it, but I don't dare to admit it..."

In the two sentences, the dragon whale apparently said to Ye Xuan. When the voice was exported, he turned to look at him. He was slashed and revealed the meaning of perseverance: "You dare to say **** goshawk and cold blood blue crocodile ...not you shot it?"

"There is nothing to dare to dare, isn't it the same waste as yours? It's gone..."

The violent nod of the three great devils flashed through the sorrowful sorrows, and the voice of the gods also came out, revealing the meaning of endless sorrow, not a lifetime..."

Really you? It's damn..."

For a moment, with Ye Xuan personally admitting all of this, Hong Tao's figure was shaken and his face changed instantly. he

I finally understood everything. Since Ye Xuan, the master of the temple, did not return to the right bank of the Galaxy to rehabilitate the wound, then everything happened in the right section of the left bank, he naturally knew it.

However, it was previously deliberately pretending to be a smuggled statement with Hong Tao. It is enough to prove that all of this is false. That is to say, today he is on the floodplain, and most of the follow-ups are all expected by Ye Xuan.

He was deliberate. From the beginning to the end, he did not intend to help others to refine the treasures of Tianjiu Avenue, so that Hongyu Stars could enjoy the success. very

As for being shackled, he deducted a **** pot, and it was his handwriting. It was his change that made him look like himself, and even licked the eagle eye of the **** goshawk...

The whole body flashed through all of this, and Hong Tao's temperament was shivering, and his hair was horrified: "Hey..."

Zhou Xukong is far away from all over the place, from the benevolent star field and the beasts of the beasts of the forcing parties, at this time are all a dull color. he

They were also shocked by the news, because no one had thought about it before, these two things would actually be the mainstay of the temple, Ye Xuan.

Because in this matter, he is the least needed to do so, the least motivated existence.

But everything has been revealed. The Lord of the Temple of the Lord, Ye Xuan, has been asked by the dragon whale. Now he hasn't even concealed it. He personally acknowledged everything. Only by this point can he be seen. The arrogance and arrogance. simple

All the strangers who will be present will be ignored.

These thoughts flashed through the brain, and the nearly thousands of days of vicious beasts and remnants of the old people gathered around the imaginary sky, suddenly all the temperament of the body trembled, under the faint ecstasy, arrogant and all kinds of anger exclaimed The sound of the sound suddenly sounded like a tide..."

It's just too much, and Ye Xuan, the master of the temple, played with all of us..."

He not only murdered the **** goshawk and the cold blood blue crocodile, but even never thought about the shot for me to refine the Tianji Avenue treasure. Everything is fake. It is only a conspiracy from beginning to end, and maybe even the left bank. The **** chaos in the right section is the result of his deliberate action..."

"All of us were cheated. We were all cheated. This guy is too hateful. He must be suppressed here today."

"What is even more frustrating is that after this guy was questioned by the dragon whale, he admitted the incident with no fear in public. What does this mean? Ignore me waiting? Only one person, he will be present. Nearly a thousand days old monsters are regarded as nothing, and they have never seen such a arrogant generation..."

Repression! Today, I swear to suppress this..."

"Ye Xuan, today the deity fights with you again, a shame before the snow..."

Oh..." with

The roaring roar of the surrounding sounds, the dragon whale is also a screaming roar of his head, and his body swayed, and he immediately rushed to Ye Xuan..."

Ye Xuan, today the deity fights with you again, a shame before snow..."

"Hey..."

The roaring roar of the surrounding sounds, the dragon whale is also a screaming roar of his head, and his body swayed, and he immediately rushed to Ye Xuan... he

It is really mad, although he was beaten twice by Ye Xuan, but he is the tenth survivor on the left bank of the beasts... even if it used to be! This

The level of existence is very high, and already has a high and high pride in the invisible. but

Today, Ye Xuan said in public that it was a waste. These insults have never been seen before. The defeat by Ye Xuan did not make him feel so angry.

Out of the dignity of the strong, he must also be furious, and at this time, rushing to Ye Xuan under the scream, this is what it should be.

Of course, the dragon whale also knows that he is not the opponent of Ye Xuan, but he is not directly killed by him in the frontal battle. Such confidence is still there. more

What's more, this time with him, there are many years old friends, blood and silver wolf, this is the sixth strongest presence on the left bank of the beastly beast, even the dragon whales are far from opponents.

With him, Ye Xuan, the master of this demon temple, will be degraded here today, and he will be angry at this time, just to grab a face before he falls, to be as shameful as possible.

In this piece of the heavenly pressure that has been overlapped and added, the void is emptied, and the tens of millions of miles of the tens of millions of miles are banned. Although there are more than 50 statues of the ninth-order grand perfection, they really want to be repaired as strength. None of them is the opponent of the dragon whale. again

In addition, Ye Xuan, the master of the Temple of Devils, has made a series of shots in the past, and there has been an invisible shadow in their hearts. They are all incomparable. Yes

So, now that the dragon whales rushed out, they wanted to be the master of the battle hall, Ye Xuan, and the old guys who were shocked by the horror suddenly secretly hid themselves, even the anger of Hong Tao.

Although he is indignant that Ye Xuan treats him like this, he has self-knowledge about his own cultivation. Therefore, it is naturally most gratifying to see the dragon whales willing to take the lead. One

All the heavenly lords immediately retired and let out a way to let the dragon whale rush from the emptied tens of thousands of miles of the emptiness to Ye Xuan in the middle of the encirclement.

But they did not remove the pressure from the body, because then the Lord Ye Xuan of the Temple of Devil must be taken away. He has a kind of anti-Spiritual magical power, and now in the right bank of the left bank, a star of the survivors and Among the forbidden beasts, it is already well known...

"The men will be defeated, and they have been defeated twice, and they dare to take the lead..."

Seeing the dragon whales coming from the spurt of the body, the three great deities of the gods flashed, and then the sound of the gods of Ye Xuan screamed: "Today, the temple will kill you here." Let all the dust settle..."

"boom!"

"Booming..."

The sound is still not falling, the three-armed and six-armed konjac has already shook his shoulders, and the whole figure is like a singular arrow that rushes out and directly greets the dragon whale that comes from the bang...

The film is overlapped and added. The sky is invisibly blocked. The void is only a trillions of miles. Ye Xuan and the dragon whale are all the ninth-order grand perfection. Now both of them push the power of the body to the extreme. For the hedging, the speed is naturally very fast, just two or three interest rates, and the distance between each other has already entered the tens of billions of miles...

"Whales!"

"Roar....."

At this moment, the dragon whale slammed in the middle of the cold, and the whispered whistle came out, but it also sent out a terrible roar...

"Hey..."

There was a low-pitched humming voice in the void, and the spurt of Ye Xuan's original spurt seemed to be bound by an invisible force, and suddenly it stopped suddenly...

The whale swallow is the strongest blood of the dragon whale. This blood can stir the power of the void, triggering its resonance resonance, forming an invisible void cage, trapping the prey in it, and then swallowing it directly into the abdomen. The force of the void that turns into a cage will suppress the prey...when

The reason why the first flood of the blue sky, the green eye, found him to hunt Ye Xuan, on the one hand, because of his nine-step grand perfection, and on the other hand, because the dragon whale's strongest blood and magic whales can be extraordinary, according to His estimation should be able to temporarily block the main house of the temple, Ye Xuan, and then try to suppress it...

Although this kind of supernatural power is extremely powerful, after the exhibition, the dragon whale itself will also fall into weakness. Therefore, in the previous two fights with Ye Xuan, although he was unwilling, he did not exert this strongest blood. but

Today is different. He has great trust in the **** silver wolf for many years, and he is the sixth-ranked survivor on the left bank. which is

The dragon whale casts a whale to swallow the strongest blood and magical power, and after swallowing the leaf of the demon temple, which was swallowed up by the void, the enemy is also in a state of weakness, and the hegemony wolf is on the sidelines. There is no need to worry about any accidental changes!

To put it bluntly, he still refused to be defeated by Ye Xuan, the master of the demon temple twice. Now that he has a **** silver wolf, he has no worries, so he made a decision to make a decision. Thoroughly shameful..."

Oh..." This

At the moment, with the body shape of Ye Xuan abruptly stopped in the void, the roar of the dragon whale also sounded again. He opened his mouth and opened his mouth, and exerted the power of blood, invisibly completing the cage with the front void. Resonance...

The strength of his cultivation was spurred to the extreme, and he was carried away in the dark, and the body shape of Ye Xuan suddenly trembled in the void. thing

In fact, the sudden tremor is not only the shape of the giant Pan Xuan of Pangda's 60 million miles, but also the vast void of his body. This

The hollow of a hundred million meters in diameter has been turned from nothingness to an invisible cage, and Ye Xuan is firmly bound. The vibrating cage is just shaking, and Ye Xuan is also in the body because of his body shape. Shake together. Virtual

The empty cage was compressed inwardly invisibly. Ye Xuan felt the pressure, and it was invisibly crushed from the surroundings. Under the frown, he could only shrink the figure. "

Oh..." This

The kind of trembling is still continuing, the invisible void cage is getting smaller and smaller, but the density is getting bigger and bigger, which is considered to be firm and firm. Just a short period of three interest, the void cage will condense to about a thousand feet, and Ye Xuan, who was trapped in it, is still in the state of the three-headed and six-armed magic hall, but his body shape has been forced to shrink to about six thousand feet. in

Around him, he was surrounded by six thousand feet, and there were invisible empty cages with a thickness of two thousand feet. It was so strong that even Ye Xuan urged all the power in the body, and could not force it to open, to no avail.

This is clearly a rhythm that is completely suppressed..."

Oh..."

These thoughts flashed through the brain, and the three great devils were chilling in the cold, and they screamed in the sky...

Short three interest, the void cage will condense to a million!

However, Ye Xuan, who was trapped in it, is still in the state of the three-headed and six-armed magic hall, but his body shape has been forced to shrink to six thousand feet. in

Around the shape of six thousand feet, there are invisible empty cages with a thickness of two thousand feet, which is so strong! where

I am afraid that Ye Xuan will force all the power in the body, and I can't force it to open up. It doesn't help, as if he really wants to be completely suppressed!

These thoughts flashed in the brain, and the three great devils were chilling in the cold, and they screamed in the sky...

"It's useless, you don't have to struggle anymore. The void has turned into an invisible cage. You are completely trapped in it..."

The sound of Xuan's whistling sound has not yet fallen, and the sound of the gods of the dragon whale has already sounded. The whole piece of emptiness can be heard, revealing a touch of excitement and excitement. very

Obviously, he was very excited about being able to trap Ye Xuan so smoothly. "If at the beginning, you still have the possibility of forcibly breaking the invisible cage of this void..."

"But now, with the continuous compression of the void cage, its density rises geometrically, although the degree of firmness is not similar to the invisible barrier diaphragm that envelopes the source nest star, but it is not too much..."

Although your majesty has a ridiculous old blame, it has a strong mouth to mouth, and even the invisible barrier diaphragm that covers the source of the nest stars can be bitten through, but the deity has already sent people to the right bank before coming. The magic hall is forbidden, and your servant is in the Forbidden City of the Forbidden City and has not been taken by you..."

Here, the dragon whale's shackles flashed a smack of hate, and the front was abrupt: "So Ye Xuan, today you are destined to be completely suppressed by the deity..."

"call out....."

As soon as the voice fell, he had already pushed the blood of the body to the extreme. An invisible force of suction was revealed from the air, and the hollow cage of Ye Xuan, which was trapped, was pulled away. with

At that time, the dragon whale also opened a **** mouth, and as the empty cage was provoked by the force of his blood, the blind eye fell into the mouth of the dragon whale, and he swallowed it.This

At one moment, the void is in a state of sorrow, whether it is the nearly a thousand days of grotesque in the tens of thousands of miles of emptiness, or the powers and ruins of the parties who have already retreated to the distant places at the beginning of the war. All of them opened their mouths and looked at the full-faced dragon whale! No

Now! magic

Ye Xuan, the owner of the temple, is gone!

These powerful existences have ravaged the entire right bank of the left bank of the Galaxy. Even thousands of rumors that can only be trapped, but no one can suppress the terrorist power from the front, but it was swallowed up by the dragon whale in an instant.This

It is a terrible horror. The dragon's whale, the strongest blood-stained god, has never been shown in front of outsiders. Now it is the first time to show such a horrible record, and it instantly shocked everyone. Virtual

The air was plunged into silence, but soon, this dead silence was broken, and the powerful parties around the world were all stunned after returning to God, and they suddenly sighed and screamed. It's just like a moment..."

The horrible blood of the gods, can directly communicate the power of the void, turned into an invisible cage, this is simply impossible to prevent ... no, it should be completely impossible to prevent! "

"Where is the whale swallowed? This name is really appropriate, too image, is the Lord of the Devils Ye Xuan just swallowed by his whale?"

The deity said, the top ten of the left-wing heavenly beasts on the list of the beasts, how could it be so weak, previously defeated by the Lord of the Devils, Ye Xuan twice, now it seems that the two whales did not make any effort at all."

"Yes, at least this whale is fascinating. The owner of the temple, Ye Xuan, is absolutely not good. The shame of the dragon whale was defeated in both wars. It was cleaned up in one fell swoop."

"And after this battle, his ranking on the left bank's list of the beasts on the left bank is very likely to squeeze into the front again..."

"I thought that the **** silver wolf, which ranked sixth on the left bank of the beastly beast, will definitely suppress the Ye Xuan, the master of the demon temple. I didn't expect the final result to be like this. There is no need for the silver wolf to shoot, just The tenth dragon whale on the left bank has already completed all this..."

...Dragon

Whale body! on

In the moment when Ye Xuan and the invisible void cage trapped in his body were swallowed and fell into the belly of the dragon whale, he was caught in the darkness all around. in

Before being swallowed up, Ye Xuan naturally heard the words of the dragon whale. he

The heart suddenly sank at the time.

The dragon whale said that in fact, he himself realized that this invisible void cage is indeed extraordinary. If at the beginning, there may be the possibility of forcibly breaking the invisible cage of this void...

But Ye Xuan missed the chance of a flash. With

After the hollow cage was condensed, trapped and began to compress inward, the density of the cage increased, and the rate of climb was so fast.

By now, the emptiness of the void has been compressed to only about a thousand feet, and its density has completed the geometric level of terror, the degree of firmness is unimaginable. If

It is true that compared with the whales that the dragon whale said, it can be compared with the invisible barrier diaphragm that covers the source nest stars. So for Ye Xuan, I am afraid that it will really be robbed today.

The other party has almost done everything, and even sent people to the right bank of the Galaxy, secretly crouching in the forbidden place to inquire about the news, knowing that Lion Wanjin was not taken by Ye Xuan this time, but stayed in the devil Within the forbidden place...

When these thoughts flashed in the brain, Ye Xuan's three great devils also had a cold and incomprehensible flash, although the dragon whale said that he only sent people to the right bank to inquire about the news, but the ghost knew if he was right. Have there been any nuisance in the Forbidden City?

Even if it didn't, the old guy stared at the Forbidden City on the right bank. For Ye Xuan, it was the same against his scale.

If you can get out of trouble today, after you get out of trouble, you must kill him anyway, otherwise it will be difficult to eliminate the hatred of Ye Xuan...

When these thoughts flashed through his mind, Ye Xuan was also shooting. He constantly tried various methods to try to break free from the invisible void cage that trapped his body. but

The final result made him feel very shocked, and the feeling of uneasiness became more and more intense, because no matter what kind of means were used, there was no way for this invisible void cage that was tightly bound around the body shape, although it was empty. The shroud is only two thousand feet thick, but it is too dense and tight, which gives people a feeling of being invisible...

Everything is long, but in fact it happened in two or three interest periods. After two or three interest rates, the empty cages surrounded by Ye Xuan suddenly shocked, and a mysterious force appeared. This clearly means that the dragon whale began to refine. The rhythm of the.

At the time of Wan Yi's hair, Ye Xuan's mind suddenly had an unexpected sound, which made him suddenly stunned and stunned on the spot...

"Hey..."

Only two or three interest rates were swallowed by the dragon whales. The empty cages of Ye Xuan suddenly trembled again, and a mysterious force appeared. This is clearly the rhythm of the reincarnation of the dragon whale.

However, Ye Xuan has not found a way to force a breakthrough, which is simply a matter of arrest! Ten thousand

At the beginning of his life, there was a sudden unexpected sound in his mind, which made Ye Xuan suddenly stunned and stunned on the spot..."

Oh, this empty cage, maybe my shofar can... wear it! "This

The voice sounded directly in Ye Xuan's brain, clearly from his body. To be precise, it was from the space inside the Shennong Baoding that he received in the body...

This is the voice of the shofar.

Although the old guy is in the interior of Shennong Baoding, but Ye Xuan does not limit him too much, so what happened to the outside world, he all secretly explored with the power of God.

Of course, all of Ye Xuan is naturally aware of it, but he is lazy. original

This shofar is obviously not going to sound, but now seeing Ye Xuan is in trouble, it seems that there is no way to solve it, and he just happens to be a little grasped, so he tried to reveal the knowledge of Ye Xuan. sound.....

After a short stay, Ye Xuan immediately communicated with the shofar by the gods, and a communication between the thoughts and turns has already realized everything.

This guy is neither a starry worm or a starry beast, but a **** descendant of a beast and a zerg. It belongs to a very special and rare existence. He has a zerg body and has a pair of pancreatic horns on his head. It seems useless, and it is not awkward, but in fact it is the hardest part inside and outside his body. and

Moreover, the shofar has a **** magical power, which is carried out by the pair of pans and horns on the top of the head. The way he now smashes this invisible void cage is the **** magical power exerted by the sacred horns.

Although Ye Xuan has little grasp of this, since the shofar has this confidence, he will let him try it. After all, there is no other better way for Ye Xuan..."

Oh..." This

For a moment, the faint sound of the break sounded. With Ye Xuan's thoughts, the shape of the shofar was summoned from Shennong Ding, but the space inside the void cage was already extremely strong.

Therefore, the old guy did not have a place to go, the whole body was shrunk to the inside of the head of a pair of intestines horns, cold and not a look, as if Ye Xuan called out is just a pair of horns...

At the moment of the first appearance, the two horns hovered together and turned into a spiral drill bit, squatting on the empty cage in front of Ye Xuan's figure. "

Oh..."

At this moment, the low-pitched humming sounded, and the two horns, which were spirally wound around the spiral drill bit, turned up at an extremely high speed and quickly moved forward. It was really in this invisible but solid and dense to the horrible void cage. , drilled a small hole.

The thickness of the void cage is two thousand feet. The two spiral needles made of the squid are constantly moving forward in the speed of rotation. After three short breaks, they have advanced two thousand feet. Even Ye Xuan is helpless. The void cage is pierced by this...

"Hey!" This

At the moment, the shackles of the three great devils screamed at the same time, revealing the exuberant excitement and excitement. Without hesitation, Ye Xuan directly turned into a mans, which was pierced from the claw drill bit. The small hole channel rushed out, left the invisible void cage, and went to the body of the dragon whale...

It was too unexpected. He had nodded in the past to let the shofar give it a try, but he did not expect that he could really wear this dense and horrible hollow cage. more

I didn't expect everything to go so smoothly, it was so easy, and I couldn't get enough shortness of interest. He had successfully rushed out of the void cage and got out of trouble! "

Today's events remember you a lot, returning to your own rewards..."

As the figure rushed out of the void cage, Ye Xuan's voice of the gods also sounded instantly, and the wave of the horns was re-incorporated into the inner space of Baoding in the body.

Although he is also a strange man, but the strength is only the first step in the heavens, in this kind of war-torn environment, he can't protect himself, and Ye Xuan obviously has no energy to protect him.

What's more, the devil's forbidden land where the old guy is located has long been extinct, only he survived, if he let his face in front of the left-handers in the left bank, and also with Ye Xuan. Everyone can guess what happened when they think about it.

However, his temperament is weak, and he simply does not dare to do so. People have just made a great contribution, and Ye Xuan will naturally understand this. Such as

Today, the shofar will be immediately included in the space inside the body of Baoding in the first time, which is why...

"boom!"

Rumble..."

At this moment, with the shape of the horned horns into a body directly into the body of Ye Xuan, it disappeared. Ye Xuan originally only had a figure of several thousand feet, and it quickly expanded at this moment. His whole person seems to be an inflated ball.

The speed is too fast, just a short break, Ye Xuan's figure has reached a huge million, still three-headed six-armed konjac true form.

At this moment, the body of the dragon whale suddenly sounded a thunderous thunder, and the flesh and blood in the three great devils flashed in the middle of the cold, directly picking up the right arm, just like the giant pillar The general **** stick squats in the body of the dragon whale...

The loud noise was shocking, and the **** fog was blasted, but the dragon whale did not fall. Therefore, after all, like Ye Xuan, it is the ninth-order grand perfection, and even the tenth on the left bank. The presence. which is

It is Ye Xuan's full force shot, just relying on this **** stick, obviously it is impossible to kill it, at most it is just a serious injury. Do not

It doesn't matter. If you don't have a stick, you will have a few more sticks. It's different today and the previous two times. Two times he lost to Ye Xuan. After being injured, he can still take a walk and escape. but

This time, the dragon whale killed himself and took the initiative to swallow Ye Xuan into the abdomen. Now Ye Xuan gets out of the invisible void cage. He shot him in the first time and a stick blew in him. The tent was shocked, and even if the old guy realized that it was wrong, there was no possibility of escape! because

For Ye Xuan in his body, just like the bones, you can't get rid of it..."

Old things, give the first thing..."

"Roar!""

Rumble..."

The whole body flashed through all of this, and Ye Xuan's voice of the gods came out, and he screamed in his head, and the **** stick in his hand was tight. When he was round again, he relaxed and relaxed, but he slammed it all out. ..."

boom! ""

Oh..."

The loud noise came, and the body of the dragon whale was once again thrown out of a swell of blood and blood, and its fierce and horrible sound also sounded at this moment...

Chapter 5149: Silver wolf

"boom!"

"Hey..."

With the **** stick in the hands of Ye Xuan once again rounded out, it was easy to write freely but squatting all the way down. The dragon whale's body suddenly heard a loud noise.

The old guy's body was once again thrown out of a swell of blood and fog, and its fierce and horrible sounds also rang at the moment, revealing endless pain and hardship, it was shocking and shocking...
...This

A scene was seen by the powerful parties around the world, and the whole piece of void was once again quiet. first

Before, I saw the dragon whales show their **** secrets, and swallowed Ye Xuan, the master of the demon temple that had been trapped in the void cage, and the powerful parties around the imaginary air were stunned and sluggish. Soon they were ecstatic, and all of them showed a happy color on their faces. They swarmed toward the dragon whales. When people were still halfway, they had already expressed their congratulations...

For them, this is not just the simple suppression of Ye Xuan, the master of the sacred flames, but the deeper meaning is that there will be no suspense in the refining of Tianjiu Avenue.

After leaving the main hall of the demon temple, Ye Xuan, the manuscripts of the Tianjiu Avenue in his hands, and the red lotus fires that must be used in the refining of the treasures, will fall into the right side of the heavens. In the hands, you only have to wait for a while, then you will be able to have remnants of the red lotus industry.

In this way, you only need to study the manuscripts of the treasures left by the floods, and after thoroughly understanding them, everything will be water...

However, what they never imagined was that Ye Xuan, the master of the Temple of the Devil, had just been swallowed by the dragon whale for less than a moment, and the dragon whale, who was full of smugness in the first moment, suddenly changed his face and looked up. Squirting a blood arrow, it made a horrible scream.

Even even its huge body is directly rolling in the void, which is clearly the horrible pain in the body, but it is completely impossible to solve...

This scene happened too suddenly. There was no sign beforehand. The squad of all the strangers who were swarming from the void all came to an abrupt end. After a short sluggishness, they quickly realized what happened. color

Under the change, they sighed and sighed, and then the screams of the tides began to overwhelm..."

Damn, there was such an accident..."

"Can the dragon's whale's blood and the whales swallow, can't this konjac be suppressed? The fierceness is too strong, this is the rhythm of the sky!"

"The invisible void cage is very incomparable. Even the heavenly strong can't forcibly break free. What is the method used by Ye Xuan, the master of the temple, in a short period of time?

"This thing is afraid of being bad. Ye Xuan, the master of the magic hall, is in the body of the dragon whale. From the inside, the dragon whale can't escape, and it can't be defended. It is clearly going to be ruined by hard life." ""

boom! "

"boom.....""

puff! "

Not waiting for the exclamation of the emptiness around the void, the body of the dragon whale that was tumbling in the void, once again came the thunder of thunder, and a blast came, the huge body of the dragon whale burst into a Canopy blood fog, diffuse void...from

This canopy is rich in the eye-catching **** fog, and there is a figure, three heads and six arms, murderous, and the size of 60 million miles, like a small star, it is Ye Xuan.

"Call..."

The figure appeared, and the black mist suddenly waved.

The whistling sound of the whistling wind suddenly rang, and a majestic invisible gas rushed away, sweeping the **** mist that was spreading and spreading directly into the bottom of the volcano in the central area of the Dingnai space. Condensation! versus

At the same time, after the body of the dragon whale exploded, there were more than a dozen volleys in the body, which fell into the hands of the violent, and it was exactly more than ten compressed liquids of the heavenly source...

In this regard, the dragon whales fell, and on that day they participated in the thirty-three heavenly beasts of the Ye Xuan, and now there is only a flood of blue sky and blue eyes has not yet been ruined. This

Everything is long, but it actually happens between suffocation! too

It's fast, I haven't waited for other people to come back. After the escape, Ye Xuan has already rushed out of the body of the dragon whale, but the latter has exploded, and it has fallen, and the body has died, even half of the hair... Stay! fierce

Wei Taisheng, the tenth dragon whale on the front left bank of the Heavenly Path of the Beasts, is blind and smouldering. If it is counted as the eighth-ranked cold-blooded blue crocodile, it has now fallen to the top ten of the heavenly beasts in Ye Xuan's hands. There are two people in existence. brain

In the middle of this thought, the powerful parties around the imaginary air suddenly stunned, and the horror of the complexion turned into a horror. They suddenly had a kind of enlightenment. The demon in front of the murderous **** is clearly the leader of the heavenly savage beast. Ten hunters...

"The left bank of the Heavenly Animals list is no different. The top ten are already killing two..."

In fact, Ye Xuan also gave birth to such an idea at the moment. His slap in the middle of the cold, the sound of the gods sounded at the same time, the three magic bodies have also looked at the distant **** silver wolf at the same time. lift

The hand is far away, and the murderous mansions are smashing, and the squad is smashing: "The sixth is the left bank? Since today, the top ten of the left-wing heavenly beasts, you are the third slaying of the temple..."

This rhetoric is simply shocking. Even on the left bank of the entire Galaxy, I am afraid that no one dares to say this since the endless years, but Ye Xuan is not afraid. As for the imperial palace behind it, these left bankers are ranked before the list of beasts. The existence of ten, which is not a party overlord? It is naturally impossible to circumvent Ye Xuan and go against the forbidden forces behind him, which will make people laugh.

"Roar!"

Oh..."

It's really a madman. On the left bank of the entire Galaxy, there's never been anyone who dares to say such madness..."

Xuan's words angered the **** silver wolf, and his hair screamed and arrogant, and even the void trembled fiercely, roaring: "Today, the deity will have to see, how do you want to Hey me!"

"Booming..."

With his roaring, the huge body of the **** silver wolf, and the thunder of the rumble.

He pushed the power of the body to the extreme, and activated some powerful **** secrets. A awning blood mist rushed out of his body, like a Nujiang, quickly swaying in the void...

This scene is too dazzling, the **** silver wolf is full of silver, is half-baked in the void, the body is 50 million miles, the **** fog that flows from the body, within a few short distances Covering nearly a trillions of miles, the entire piece of virtual is coated with a layer of blood. in

Against the backdrop of this **** void, the domineering silver wolf is like a savage moon, rising from the blood...

hidden

During the circumstance, there was a low humming sound coming from the void. The nearly fierce beasts gathered around the four were all discolored, and the figure was retreating. I wanted to leave from this area covered by **** fog, because this It is a kind of mapping of the silver wolf's blood in the body, and the area covered by the secret blood fog has already been invisibly affected by some unknown..."

Oh..."

There was a low humming sound in the void, and nearly a thousand days of vicious beasts gathered around the distance were all discolored, and the figure was retreating. I wanted to leave from this area covered by **** fog!

Because this is a kind of mapping of the silver wolf's blood, the area covered by the secret blood fog has already been invisibly affected by some unknown...

The battle of the field, belonging to the main hall of the magic hall Ye Xuan and the hegemony silver wolf, they do not want to participate in it, naturally will not stop in this void covered by the secret blood fog! "

Oh..." with

The **** fog spread, and the hegemony wolf wolf looked up again, and made a terrible roar.

At the same time, his right claw has also risen, looking at Ye Xuan from the empty space of 100 billion miles...

"Oh..."

The crisp and fierce cracks came, and there was a void crack in the front left side of Ye Xuan. A giant horror silver claw from a million miles was revealed from it, and it was straight to the violent head. This

A blow is too secretive, there is no sign of the void crack, and there is no fluctuation in the half-empty energy. If Ye Xuan is scratched by his claw, the violent head must be directly exploded. This

The head of the **** silver wolf is, after all, the sixth-ranked survivor on the left bank, and almost entered the top five. The horror of a single blow is completely imaginable. "

Rumble..."

"Hey!"

Under the flash of the cold man, the violent screaming directly picked up the **** stick in the hand and greeted the past. The void was collapsing along the way, and there was a thunderous thunder. tight

Then there was a shocking explosion. Under the bombardment of the **** stick, the silver giant claw caught on the violent head collapsed and disappeared into the silvery light rain. This

The touch of one touch made Ye Xuan's heart move slightly, and it really was the sixth place on the left bank's list of the beastly beasts. It was much stronger than the dragon whale that had just been killed by him. which is

It is the ninth cold-blooded blue crocodile, and it is far from being comparable. but

Ye Xuan has just broken through again a few times ago, plus the three-headed and six-armed konjac is the equivalent of the three ninth-order grand perfection, which is equally powerful and horrifying. versus

Compared with this **** silver wolf, it definitely does not fall.

However, if you want to say that you will kill each other, I am afraid that it will not be enough to achieve in a short period of time, unless you use the sacred bow of this sacred power, or the red lotus industry fire, which is the most secretive horror of the top world! ..."

The sixth on the left bank? "brain

In the middle of these thoughts, the faces of the three great devils suddenly showed the contemptuous color, and the sound of the gods of Ye Xuan also sounded. Everywhere in the void, it can be heard: "According to the temple, this The power of a single blow is just that, it's nothing..."

He wants to anger this guy, then look for the Thunder to shoot, a fatal chance.

With this purpose, the voice of the gods in the mouth has not yet fallen, and Ye Xuan's body shape has already spurred out, and the violent chills are stunned, and the **** sticks are dragged behind them. They can all rise up and make a big splash. he

In the direction of lasing, it is exactly the opposite of the 100 million miles of the hegemony silver wolf. Looking at this posture, it is clear that it is directly rushing over, picking up the rhythm of the **** stick and covering the brain, simple and direct, At the same time, it also reveals the meaning of endless contempt..."

Roar! How dare you ignore the deity? "This

Such words, such a simple and rude attack method, really irritated this hegemony silver wolf in an instant, he snarled and looked up, the original half-body figure has been arched, power leaps, toward Ye Xuan volleyed..."

Card! "Look

In this scene, Ye Xuan did not delay, and immediately shot again.

The black mist was the first to be shot, and the spirit thunderbolt was launched, accompanied by a crisp and incomparable click sound. A blood-colored lightning with a diameter of tens of thousands of miles appeared out of thin air, directly blasted into a sea of thunder, and the body of the **** silver wolf Drowning..."

Rumble..." and

At the same time, there was a thunderous thunder in the void, and the **** stick in the violent hand was like a giant pillar.

The sacral corpse is also not delayed, and the blood of the sorcerer turns into a black-red awning. It spurs at a speed that transcends lightning. The blink of an eye has reached the side of the hegemony wolf, and it has fallen!

The **** blade of the devil is now a treasure to the ancients, and it is sharp and unparalleled. If it is true, the head of this **** silver wolf will probably be directly degraded. "

Oh..."

In the blink of an eye, he was surrounded by three waves of offensive, and even his entire huge body shape was flooded by the thunder sea that exploded. Under one face, it was hidden in the wind. This made the **** silver wolf extremely unwilling and angry. Very incomparable, suddenly roaring.

Its huge body shape also shunned, avoiding the blow of the **** blade of the devil, but unfortunately there was a large piece of flesh and blood on the right rib, which was cut off by the blood...

It seems to smell the **** atmosphere of the void, the sense of the blade feels, and the sound of the screaming noise.

Then, from the **** blade of the demon, there was a majestic endless, like a river of blood, the magical fog, red to black, rolling and stirring, the half-interest has become the way to the blade of the spirit, the blood The basin was wide open and angered, and all the blood mist was swallowed directly into the abdomen, and the neck was stretched and it was full. This

The blood of the head of the **** silver wolf is extremely extraordinary. The name of the blood is not casually screaming. There is a special kind of energy in his blood, which makes the blade spirit and the devil very interested..."

Konjac, you have succeeded in angering the deity. Today's battle is not your death... but I am dead! ""

Oh..."Ray

The body shape of the tyrannical scorpion appeared, and there was a huge wound in his right rib. It was already **** and stunned.

But in fact, he was not seriously injured at all, just a skin injury. skin

Although the trauma is light, it does not affect the state and the combat power. However, the pain of the heart under the ribs has been cut off, but the pain of the heart is really incomparable, not to mention the sixth place in the left bank of the beastly beast. Nowadays, only one face-to-face is so embarrassed by Ye Xuan, naturally it is a big loss. This

Everything is smashed together, so that the anger of the **** silver wolf's heart will suddenly reach the extreme. He screams and screams, and the huge body is transformed into a giant silver claw like a star. The speed of lightning, rushing toward Ye Xuan... though

However, it is still a silver claw, but the previous blow is a distant blow from the emptiness of hundreds of billions of miles. The silver giant claw that rushes out of the void crack is just energy condensation.

But this time it is different. This larger silver giant claw is a solid body. It is clearly the body of the **** silver wolf. The power of power is not the same. on

Lian Yexuan did not dare to look at it easily. The three great devils smashed in the middle of the cold, and the violent nose snorted. The power in the body was pushed to the extreme, the right arm was tight, and the big head was black and steep. And, come out...

With the entire body of the hegemony silver wolf turned into a huge silver claw like a star, with a terrifying mad tyrannical breath, even Ye Xuan is a glimpse of the heart, dare not wait for leisure... ..This

At the moment, the three great devils smashed in the middle of the cold, and the violent screams in the nose, the power of the body spurred to the extreme, the right arm was tight, and the **** stick rose steeply and smashed out... ..

"boom!"

"Booming..."

The bang came from the violent to the horrible to the thunderous thunder, and the horror of the horror was raging, covering hundreds of billions of people, and the huge virtual air machine was completely chaotic. This

A blow, Ye Xuan did not reinvent the hegemony silver wolf, this silver giant claw of the body of the silver wolf body is not damaged, but suddenly skyrocketed, a huge void vortex emerged from the top of the silver claw.

The endless blood and mist that has spread in the imaginary sky has surged into the silver claws through this suddenly appearing vortex. One

In an instant, the huge silver claws skyrocketed again. There were already 50 million miles in the past, and the difference between the leaves and the 60 million-year-old Ye Xuan. but

Nowadays, the silver claws have skyrocketed ten times in a short period of time, reaching a huge 500 million miles. This is clearly coming from the treacherous trillions of vacancies, and the blood smog inside the silver claws is injected through the vortex above. Caused.

These blood mists have previously emerged from the body of the hegemony, silver wolf, and spread out between the three interest, covering a vast void of trillions of miles.

Now they seem to be a simple return, but in fact, between the scattered ones, the secret blood bubble that has been diffused and opened has already swept the energy of the tens of millions of imaginary air into the sky, and turned into the support of the silver claws. ...This

It is one of the strongest blood vessels of the hegemony and silver wolf. The name of the blood is the result of this hegemony. This kind of blood is too secretive. It is just that the blood mist that is scattered in the body has a horrible power. The energy in the void is instantly usurped..."

Roar....."

At this moment, Pangda's huge silver giant claws of 500 million miles were held in the palm of the hand, and the three-handed six-armed konjac was in the palm of his hand, and quickly grasped...

It is believed that this shot Ye Xuan must not be able to kneel down, the silver giant claws spread the horror of the **** silver wolf, revealing a sense of hate.

Today's silver giant claws are too large, and there are 500 million miles of giants. This is the blood of the tyrannical power that can be realized within a trillions of miles. Now, a wolf claw like a giant pillar is in the sky. Around the horizon, it is approaching with the grip of the giant claws...

Ye Xuan's heart suddenly sinks. Now he is trapped in the palm of his hand and can't be teleported, because with the speed of a wolf claw approaching, the void is collapsing... only

With this point, you can see the strength and horror of its power. If it is caught by these wolf claws, Ye Xuan can't hold it under one grip. Even if it doesn't fall on the spot, it is hard to avoid this serious injury...

These thoughts flashed through his mind, and he had a decision in an instant.

At this time, the palm of this silver giant claw has been in chaos, Ye Xuan's body shape is also obscured by the chaotic air machine, it is the best time to shoot.

He did not sacrifice the red lotus industry fire, because the power is too strong, fearing that it will be completely burned as a fly ash, as before, when Ye Xuan could not get anything, it is a pity. Too wasteful.

As soon as he read this, his slap in the middle of a flash of light, suddenly waved his hand..."

Oh..." tight

Then there was a faint sound of breaking through the air, and a black and red faint whistle flashed. When the storm rose, it instantly turned into a small private warship with a hundred feet.

It is Ye Xuan's small private battleship, Honglian, which is a virtual shuttle. Such as

Today's broken virtual order has reached the age of the ancients to the treasure, not only the interior space is huge, like a star, even its hull has long been the size of the heart. Read

In the turmoil, there is a shed in the size of the hull, there is a awning red lotus industry rushing out, each one is only the size, red lotus form, looks glamorous, but invisibly exudes one The stock is a terrifying horror. leaf

Xuan also reduced his body shape, and then broke into the broken shuttle. on

This seems to have disappeared. It's so cold that he's caught in the palm of his hand. It's a faint red lotus fire. He can't see the shadow of the broken shuttle, and even the breath is perfectly covered. ..."

Oh..."

For a moment, Ye Xuan sighs, compared with the huge silver giant claws of 500 million miles, only a hundred feet, like a faint red-and-white smashing spurt directly, rushing to the palm of the silver giant claw And pierced in an instant...

In the blink of an eye, Ye Xuan rushed out from the claws of the silver giant claws, and the more than a thousand red lotus fires that had been sown on the broken shuttle hull had also ignited the accumulation of the **** silver wolf life. The sinful industry, turned into a black sinful flame, is smoldering from his body, including the level of his soul..."

Oh..."

I felt that it was not good, especially the pain of the soul of the soul being burned by the sinful flames, so that the hegemonic silver wolf instantly gave a shocking scream, revealing the meaning of endless pain.
"

Roar....."

At this moment, Ye Xuan also rushed out from the red lotus to break the virtual shuttle, a wave of hands will break the virtual shuttle into the body, and then the blood sea secret law will be fully motivated, just shrinking the shape is like an inflated ball generally quickly Inflated, the blink of an eye has reached 100 million miles..."

This battle... It's over! "eye

In the middle of the cold, the sound of the gods of Ye Xuan came out. At the same time, the **** stick in the hands of the violent scorpion has also fallen, and slammed on the back of this silver giant claw.

At this time, the hegemonic silver wolf is experiencing ominousness. The soul level is burned by the sinful flames, and there is also a black sin flame in the flesh that is filled with weakness. surface

For Ye Xuan's full blow, he couldn't help himself. The entire huge figure exploded in the moment when the giant stick fell, and it turned into a red blood fog.

"call....."

The black mist splits and waves, and the whistling sound of the wind whistle, and a huge invisible instinct whistling away, sweeping the **** fog that is spreading and spreading directly into the central volcano in the Dingnai space. At the bottom, unfold the blood essence! except

In addition, there are also a dozen or so masons coming from the yelling, falling in the heart of Ye Xuan, it is exactly a dozen of compressed liquid source of heaven...

In this regard, the left bank of the Heavenly Path of the Beasts on the list of the sixth **** silver wolf fell, but also failed to escape Ye Xuan's palm, was smashed into a **** fog, turned into Ye Xuan refining the third level of Hong Mengbao Dan's blood resources! "

Oh..."

It was at this moment that a whisper of low invisibility was suddenly heard in the void, but the whistling sound was not loud, but the emptiness of the sound was completely banned in an instant, surpassing the previous thousands of days. Disperse the extent to which the body's pressure is overlapped and added.

This is absolutely impossible to be the power of the heavenly environment. Ye Xuan felt a clear and incomparable power of Hongmeng, and let his body shape suddenly change suddenly...

leaves

Xuan was just killing the **** silver wolf, and suddenly there was a low-pitched humming sound in the void...

Although the sound is not large, but the emptiness of its voice, it was completely banned in an instant, more than the extent that the previous thousand days of the old blame scattered the body pressure and overlap.

This can never be the power of heaven! leaf

Xuan felt a clear and unparalleled power of Hongmeng, and let him suddenly change his body shape.

It's not just him, but all the grotesque people around the void, those who have retreated to the farthest point, and the thousands of heavenly geeks, all without exception, are mad Under the change of color, it is cool, and the voice is exclaimed..."

what happened? The whole moment of the void was completely banned, and the degree exceeded that of the previous overlap with the pressure, but this is clearly caused by a single force..."

Hong Meng! This is the power of Hongmeng. God, there is a singular eccentricity of Hongmeng, which has been locked in this void, and I have been banned..."

"Damn, it actually led to the evil of Hongmeng. Today, I am afraid that it will be a disaster. The other party's intentions are unclear. I don't know if the friend is an enemy, and the disaster is coming..."

"The smell of the beastly beast, hahaha... This horrible power of sorrow and sorrow reveals a strong and invaluable beastly atmosphere. This predecessor of Hongmeng is a starburst!"

Oh..."

The erect Ye Xuan, dare to shoot the blood of the mysterious devil, I am going out today, when you were buried..."

"Booming..."

The exclamation of the emptiness in the sky, the horror of a sky, and the emptiness of the sky, and the sound of the gods, I do not know where to come from, but echo in the ears of everyone in the void...

Xuan's face suddenly changed, and the whole heart sank to the valley in an instant.

He knows who the other person is. At the beginning, he bombarded the **** demon wolf that had been banned from the devil. The other side had a ancestor behind him. Ye Xuan was not too concerned. Existence has come.

Obviously, this ancient existence should be the same period as Hong Yu, and it should have been closed for more than a million years, but its talent is obviously good. Hong Yu and others have not yet appeared in the world. Has already broken through the heavens and the environment, and entered the Hongmen Avenue after the Heavenly Road...

When these thoughts appeared in my mind, the void outside the tens of billions of miles on the right side suddenly had a layer of undetectable waves. Then, without any fluctuation of energy, there was a sudden emergence of a place. Figure.

This is indeed a demon wolf. It is dark and has no hair. It is like a wolf from the meditation. It is just a pair of wolves that are red and bloody. The body that is dispersed in the body is full of breath, and it is distinct and distinct. The power of heaven and earth is different.

Not at the same level, more powerful and mysterious, as if it is integrated with this piece of Hongmeng, this is definitely the power of Hongmeng Avenue...

The size of the head wolf is not very large, only about a thousand, even the most weak starry beast, but also far more than this body type, but now his body appears alone, and does not deliberately put the power of the body Dispersed, but instantly there is an invisible deterrent that dominates the whole piece of void..."

The wolf? The existence of Hongmeng Avenue..."

Hey..." Look

When the wolf appeared, Ye Xuan suddenly gave birth to an unprecedented sense of terror crisis, but he did not retreat.

At the same time as the voice of the gods, the violent mouth also outlines the sneer, and the body of the sacrum in the three great devils is even more powerful. very

There is a low-pitched humming sound that rang through the void, and a mysterious breath is like a raging anger in the river. skeleton

The left arm of the bone has been suddenly lifted up, and the empty left palm of the hand is golden. One

The golden bow of the energy form of the handle appears in his left hand, and it is the mysterious **** of the famous earthquake.

The golden bow of this energy form is simple and simple, and the middle part of the palm is a double-headed beast, which is oriented in the mouth of the beasts in the upper and lower directions, biting two humanoids of the humanoid body. . class

The spirits of life are wide and angry, like roaring, a bowstring formed by the twisting of numerous fine gold threads, and the two ends are connected to the souls of these two humanoid bodies...

At the time, as the bow appeared, a golden energy arrow appeared on the bowstring, pointing to the black wolf beyond the tens of billions of miles away. An invisible force instantly took his body. ... fully locked!

To the movement of the bones of the cheekbones, the blood of the wolf in the distance flashed, and the low-pitched voice of the gods came instantly: "The power is not bad, this arrow, the existence of any heaven and earth can not be taboo... ..."

But unfortunately, I have entered the Hongmeng Avenue after the Heavenly Way. Although your arrow is extraordinary, it can't hit the target. After all, it is just a sigh..."

Oh..."

"Hey!" He

The voice of the bones has not yet fallen, and the body of the cheekbones has loosened the right hand of the energy bowstring...

In the void, a sharp and extreme, the eardrums have a resounding resounding sound, and the energy arrows that have filled the full force of the string are rushing away.

The breath is too strong, it is ruined, and it is impossible!

This arrow shot, it seems that even the void is broken open instantly, the golden flow of the sinister shot, behind the scenes with a black flame like a tail flame. Time

The shortness of the moment is completely negligible. The golden arrow that whizzes away at an instant, and instantly reaches the end of the wolf outside the trillions of miles. This is a teleport, the distance of the void is ignored, and it comes directly.surface

For this scene, all the strangers in the emptiness around the body are in full swing, and they are sighing with anger, and the sound of exclamation suddenly sounds...

"hiss....."

Is this the power of the bow? How can it be so fast..."

"Wei energy is too horrible, it is simply destroying the earth and destroying the earth. It really is the strongest power that claims to be able to bury the sky. The existence of the heavenly state cannot be resisted..."

In particular, the Lord of the Temple is the peak of the ninth-order Great Heaven, and even in the peak of Heaven, it is absolutely able to enter the ranks of the shackles. Such a blow is sent from his hands, even if it is the same as the peak of heaven. There is a danger of life and death..."

Oh..."

Accompanied by these exclamations, there was a low-pitched humming sound from the far side of the right side of the trillions of miles. The golden arrow directly penetrated the body of the black wolf without any suspense...

No, it should be said that it is submerged, because the body shape of the wolf is only about a thousand, and this arrow has a huge scale, and the two are not proportional.

However, Ye Xuan's whole heart sank to the valley in this moment. This arrow was shot from his hand. If he hit the target, he is naturally the clearest, and there is a kind of magical feeling in the dark...

Chapter 5150: Black blood crocodile

At this moment, Ye Xuan's whole heart steeply sinks into the valley!

This arrow was shot from his hand, and if he hit the target, he was naturally the clearest, and there was a sense of the gods in the dark..."

Oh..."

In the line of sight, accompanied by the exclamation of the surrounding air, the low-pitched whistle came from the far side of the far side.

The golden arrow directly penetrated the body of the black wolf without any suspense. The body of the wolf is only about a thousand feet, but this arrow has a huge scale. The two are not proportional, and the wolf is directly Was drowned by a piece of golden mang...

But in fact, Ye Xuan's heart has revealed an unprecedented sense of crisis at this moment. fall from the sky

Tianyijian is ineffective. He really can't think of any way he can deal with this powerful and horrible wolf...

It is a supreme existence that has surpassed the heavens and entered the Hongmen Avenue after the Heaven. Hong

The avenue of the avenue is the highest state of this emptiness, just like the will of the heavens in a world of size, the power of control has already touched the law of the operation of Hongmeng...

The power of Xuan's arrow is really horrible, but even the golden arrow that lasing away is even faster, even if it is like a teleport, it is directly in front of the black wolf after leaving the bowstring, but it is still not allowed. This

An arrow can't hit the target at all, the golden energy arrow is overwhelmed, just a phantom...

"Hey..."

Sure enough, this thought just flashed from the brain, and the virtual air in the far left side has already rang the humming sound again. The void has a wave, and a black figure emerges out of thin air. There is no fluctuation in energy. The secret is very secret. This

The figure is only about a thousand feet, it is a wolf, and for a moment, he has crossed the void of two trillion miles, quietly from the right side of the trillions of dollars to the left side of the trillions Outside. very

As for even the lock of the sky, the engine is completely ineffective...

This scene is too astounding, the emptiness of the sky has fallen into a dead silence, after the half-interest, the eccentrics of all parties have been mad, and they have become faintly stunned while sighing.

"A good horror means, two trillions of miles across the void? It is the ninth-order grand perfection that can never be done, but the wolf predecessors are easy to write..."

This is obviously not his limit. After the Heavenly Road, the Honor of the Hongmen Avenue is really terrible!"

"A smashing arrow from the sky bow is accompanied by the locking and suppressing power of the air in the meditation. When the arrow is out, the target is locked in an instant, and there is no way to evade

the flash, but just now, this power It also failed, apparently because the predecessors of the wolf mastered the power of some kind of emptiness rule..."

"How does this fight? There is no need to take any more shots. Even the strongest means are ineffective against the wolf's predecessors. Ye Xuan, the master of the temple, is destined to fall here..."

"Degraded? You are joking. In the face of such a powerful predecessor, he is afraid that he will not be able to die. He will be caught by oysters..."

Roar! ""

Everything will be over, and the Lord of the Devils will finally be in this place. It is really a great heart! "

"Roar.....""

Ye Xuan, the master of the temple, is really you..."

Just at this time, in the distance behind the void, there was a sudden raging scream, followed by the voice of the gods full of endless anger: "The soul of the blue crocodile is in your body, breath Although it is different, it is enough to prove that you are the black hand that killed him..."

With the sound of this god, the far-reaching trillions of miles away, the void also waved, and a figure appeared quietly. This

It is a magical crocodile. It is dark in color and only about a thousand in shape. However, the smell of the body is similar to that of the previously-formed wolf. It is not the power of heaven.

Obviously, this is also a singularity that transcends the heavens and the past, and listens to what it says. The reason why today is so far is that it is for the ninth cold blood blue crocodile on the left bank. outer

The only strongest person in the world is the cold-blooded blue crocodile, but I don't know that in the deepest part of the cold crocodile forbidden land, one of the largest giant stars, and one long before the million years ago. Retired black blood crocodile. This

Like the wolf, the old guy is the ancient existence of the same era as Hong Yu, and even breaks through the heavens and the time when he enters the Hongmeng Avenue. It is also equivalent to the wolf, but it has been in a stable state since the breakthrough. It was not repaired, so it was not born. but

Nowadays, his cultivation has been solid and stable, so that after the customs clearance, he will come over at the first time to see how he is now angry and stunned when he comes down. It is clearly the rhythm of Ye Xuan on the spot... Virtual

The air once again fell into a dead silence, and the grotesque of all the parties were shocked. Under the change of color, they had already held their breath subconsciously.

Those star-studded beasts from the strong forbidden land are not enough. As for the survivors from the stars of the survivors, they are all worried and uneasy.

This piece of Hong Kong is in the air, the beasts and the survivors have always been the opposite existence, because the remnants of the refining of flesh and blood medicine need to use the flesh and blood of the beasts as a refining material, and the beasts are not only swallowed each other, but also The survivors will not let them go...

Although this relative situation of life and death is more restrained as the level of cultivation is higher and higher, in general, the survivors and the beasts are still two opposing groups. first

Before, the left-wing remnants of the star field and the fierce beasts were able to get along with each other. Although there are many killing battles under the heavens, the existence above the heavens is basically in a balance. but

This year, because of the birth of Tianjiu Avenue, this high-level balance and restraint has long been broken. Even the beasts and heavenly bereaved people in the heavens have disputes with each other. Cutting is constant.

Under this circumstance, one of the survivors has not yet had any of the Mengmeng Avenue that transcends the heavens and the world, but the vicious beast has appeared in the day to become two powerful and powerful people.

This has undoubtedly completely broken the balance between the beast and the survivors. If the two beasts of the sinister wolf and the black-skinned crocodile are hostile to the survivors, all the survivors present today are strange. We, whether it is mighty or absurd, or heavenly, I am afraid that none of them will be spared, and they will all be suppressed by this...

This is also the reason why all the survivors of the present are uneasy and all are worried. "

The wolf? "

Just as all the survivors and geeks around the void were all worried and faint, the sound of the gods of the **** crocodile that had just arrived was already ringing again. he

The gloom of the gloom flashed, and the line of sight swept to the wolf outside the imaginary emptiness of the left side of the sky: "You old ghosts actually broke through, today is here, what is it for?"

The wolf? "positive

When all the widows and geeks around the void were all worried, the voice of the **** of the **** crocodile that had just arrived had already sounded again. he

The gloom of the gloom flashed, and the line of sight swept to the wolf outside the imaginary emptiness of the left side of the sky: "You old ghost actually broke through, today is here, what is it for?"

The two old guys have known each other before the million years of age, but the relationship is not harmonious, and even some hostile. Now, after seeing each other for millions of years, they see each other as they are, and they have broken through to the Hongmeng Avenue. After that, my heart is naturally unhappy. deep

The wolf was only able to see him coming, but he did not say anything, and looked at it with cold eyes.

Now the black blood crocodile voluntarily asks, the sneak peek at the corner of the wolf, showing a sneer, and the sound of a sigh of sorrow also sounds: "Hey, what happened to me here... What do you have with you?" ?""

But let me not remind you that today, the owner of this magic hall, Ye Xuan, is not going to get rid of it. My blood descendants are also killed by him. Even if you are also suffering from the enemy, you have to see a first come and come... 言言

The next meaning, he arrived first than the black blood crocodile, even if you want to take away Ye Xuan, it should be him, not the black blood crocodile behind here. "

It's a joke..." Black

The Gorefiend crocodile naturally understood the meaning of the wolf's words. He even sneered at the coldness: "The deity has never heard of the bitterness of the Lord and the revenge, but what is the first thing to come to, is this thing still to be lined up?" This

It is clear that it does not agree with the rhythm of the wolf's statement. Since he has already arrived here today, then the owner of this demon temple, Ye Xuan, must take it away. It is impossible to sit and watch the wolf shot and be indifferent...

"What? You mean this to me?"

The wolf immediately became furious and roared: "You and I are quite equal. If it is a big battle, it will definitely be the result of both defeats. Once you and I fight, each other is restrained. If the Lord of the Devil is escaped, this responsibility is Are you responsible?"

The atmosphere in the air has become extremely stagnant. The body of the wolf and the black blood crocodile has a terrible atmosphere of horror, and the void is completely closed. Even if it is a heavenly eccentric, under such pressure, it will be chilling. As for the power and the absurdity below the heavens, it is even more shivering...

Ye Xuan looked at the cold eyes and pushed the power of the body to the extreme. He paid close attention to all of this. As long as he had a chance, he would not miss it and would take it away in an instant. This

The two old guys were not harmonious before the million years of age. They had hatred between each other. Nowadays, the time of the front and the back is here. On the surface, it is the hardship of the enemy, but in fact it is also for the various treasures in Ye Xuan's hands. Come. day

The Jiu Avenue treasures are not the same, and they will be able to give birth to more Hongmen Avenue strongholds in the future.

In addition, the Tianzhu bow is a strong magical power, or the nine-colored Shenyan in the hands of Ye Xuan, Honglianyehuo and Shennongding, etc., are the top treasures that can make them feel excited...

Therefore, for Ye Xuan, the master of the temple, they are all impossible to let go, and they must kneel down, lest all these benefits and opportunities should be appropriate.

For Ye Xuan, this is his only chance. Two

Any one of the old guys can't compete with each other. They just diffuse the pressure from the body and can completely ban the void. Not only can it be teleported, it can even be attached to the Ye Xuan system. The interstellar coordinate jumping ability can not activate the startup...

In the face of such a powerful existence, the teleportation is simply unrealistic, and even the red lotus can not get rid of the two old guys. to

Yu Honglian's fire, although the power can be different, but as a red monster that transcends the heavens and the earth, Ye Xuan's offering of a red lotus fire may not be able to reach them, and it will be the same as the previous one. Directly lost.

In this case, if Ye Xuan wants to get out of the way, the only thing that depends on it is the interstellar coordinate jumping ability attached to the internal system.

With him now, I hope that these two old guys will fight. If

It is not a war, their cultivation is invisible, and this vast and innocent void is completely shrouded and completely banned. Ye Xuan simply cannot activate the interstellar coordinate jumping ability attached to the internal system.

Only two old guys let go of the war, this kind of void full ban can only have a gap, Ye Xuan pays close attention, as long as such an opportunity arises, the ability to activate the interstellar coordinate jump can be activated instantly.

"Roar!"

Rumble..."

Just as he flashed these thoughts in his mind, the two old guys finally lived up to expectations, and one of them shot.

The black-blooded crocodile screamed out his hair and screamed, followed by a large opening of the blood basin, from which a thunder ball was ejected, diametrically deflated, and spurred toward the opposite wolf. "

Are you really taking my hand? ""

If this is the case, then there will be another battle. I have to look at it. After a mile of years, what have you grown up with this old thing..."

Hey..." Look

In this scene, the wolf was in a state of anger, and the sound of the gods was clear. At the same time, the mouth of the wolf spurted out a black half-moon arc blade, and the black ray ball blasting toward the opposite side blasted away... ..two

The size of an old guy is only about a thousand feet. Today, the thunder ball and the half moon arc blade that are sprayed out of the mouth are also only about a thousand feet.

It seems that although it is inconspicuous, it is by no means the power of heaven and earth. The thunderball and the half-moon arc are all condensed by the power of pure and singularity. At this time, the face is blasting away, and the horror is invisible. Breath, even the celestial blame of the parties in the distance around the void, can not be completely disfigured, feeling a strong crisis like never before. "

boom! ""

Rumble..."

However, the distance between the two trillions of vacancies is too fast, but the speed of these two attacks is too fast. The thunderbolt and the half-moon arc blade have only crossed the trillions of miles of distant voids. Hit it together.

At the same moment, there was a terrible horror in the void, and even the heavenly grotesque felt that the eardrum was awkward and even stinging, as if to be torn. more

The powerful people in the distance can be wilted in an instant, as if they have been pumped away all the power in the body, and the dying dying is generally dying in the void. that

Some of the ridiculous blame are pale, and they have their mouths squirting **** arrows, and the injuries are not light.

They are so far away from each other, just because the invisible shock wave generated by the collision between the volleyball and the half moon arc blade has already fallen into such an unbearable situation. The horror of this power can only be imagined. know.

It was also at this time that Ye Xuan's mind suddenly heard a familiar system sound..."

Oh, congratulations to the host! Successfully open the system title exploration mission! If the exploration is successful, there will be a chance to upgrade the system title! ""

The current title of the system: the sixth level, the Star Master! ""

The next level of the system: the seventh level, the interstellar system..."

"boom!"

"Booming..."

Although the distance between the two tens of millions of miles is too fast, the speed of these two attacks is too fast. The thunderball and the half-moon arc blade have only crossed the trillions of distant voids. Hit it together. Wei

Can be too strong, the parties around the void can suddenly suffocate, the absurdity also vomiting blood, even the heavens and the old blame are pale, the eardrum is eager to wear...

A huge void crack appeared, with a diameter of tens of billions of miles, and there was a lot of emptiness in the sky.

This is not a general void crack, but a Hongmeng crack, so the emptiness flowing from it is all the most pure power of Hongmeng...

Although it is Hong Kong's void, but let's not say that the heavens are strong, it is the power and the ridiculous blame, and in the war can also tear the void.

However, Hongmeng's void is extremely tough, and the power of power, absurdity, and ignorance is just to tear apart the surface of Hongkong's void, and after the appearance of the void crack, in a short period of time, it will be tough. The power of the void rule to repair the brid...only

It's just that the shallow layers are torn apart, and naturally there's no possibility that there will be a turmoil of turmoil.

But this time it is different. The wolves and the black-skinned crocodile are the singular monsters after the heavens. The thunderballs and the half-moon arcs that they fully blasted are all condensed by the power of pure Hongmeng. steep

However, under the collision, it directly tears open the void of Hongmeng, and it is not only shallow, but has been deepened. The reason why there will be turbulent flow is that it is why...

"call out!""

Oh..."

Roar! "

"Puff puff.....""

Oh..."

With the huge cracks in the diameter of tens of billions of miles, there will be a lot of emptiness flowing out of it. This is not the general emptiness, but the most pure force of Hongmeng. It is no exaggeration to call it a confession. short

In a short moment, the violent torrents from the cracks have surpassed thousands of roads, and they have scattered away, some have disappeared directly at the end of the sky, while others have hit all the parties around the sky. strange. puff

The sound of snoring came in an instant, and in the face of this turbulent flow of enthusiasm, the power of ignorance, whether it is power or absurd, or heaven and earth, all can not resist.

In the horrible arrogance and whistling sound, there are hundreds of strong people in the imaginary sky, and the shape of the hundreds of strong people is directly blown up, and it is turned into nothingness. At this time, Ye Xuan's mind also unexpectedly came from a familiar system. Prompt tone..."

Oh, congratulations to the host! Successfully open the system title exploration mission! If the exploration is successful, there will be a chance to upgrade the system title! ”

"The current title of the system: the sixth level, the star control!"

"The next level of the system: the seventh level, the interstellar system..."

"Starcraft Overlord: The title's own aura effect will be based on the original five-level title of Star Trek, Interstellar Adventurer, Interstellar Explorer, Interstellar Trailblazer, Interstellar Reviver, and Interstellar Hegemony. Add a new system capability, random activation, and the number of interstellar coordinates imprinted on any cosmic plane, from the first three, to five!"

"System task exploration completion requirements: enter the Hongmeng crack, find the source of chaos!"

"Exploring mission failure penalty: the system title is up and down on the current basis!"

Seven-level system title?

Starcraft? Hong

Cracked?

These thoughts flashed through the brain, and Ye Xuan made a decision immediately. He did not hesitate and directly responded to the task of accepting the title of this system.

This is his only chance. Otherwise, facing the two powerful monsters of the wolf and the black blood crocodile, Ye Xuan basically has no chance to be born today, either being bombarded or being suppressed by oysters...

"Hey..."

His response came out, the body's phagocytic system was activated a moment, the seventh system title mission was launched, and a force spread from the phagocytic source deep in Ye Xuan, and instantly wrapped his body into a shape. A mile, directly rushed into the cracks of the tens of billions of miles that were blown up by the collision between the thunderball and the half moon arc blade...

"Oh! Damn, let him escape into the crack of Hongmeng..."

"Old wolf, this is your responsibility, the deity is not finished with you..."

In this scene, the two wolves and the black-blooded crocodile in the distance are fascinated, but they are not exclaimed, but they have not entered the crack of Hongmeng. Although they are beyond the heavens, Hongmeng, However, the emptiness in the cracks of Hongmeng is also condensed by the most pure power of Hongmeng. If you are trespassing, there is also the danger of serious injury or even degeneration...

..."

Oh..."micro

The weak sound of the air broke out, and a small man appeared, turning into the shape of Ye Xuan. This

There is a chaotic void, although there are also abandoned stars visible, but the void in the sky is full of large and small turmoil, it looks shocking. he

Turning around and looking around, and not seeing the tens of billions of void cracks that just entered, it should be transmitted by the energy of the phagocytic source crystals after the system title mission was initiated.

The recent war has made Ye Xuan once again ushered in the opportunity of breakthrough. Nowadays, he has entered this place and he is not eager to find the source of chaos. In the first time, he broke into a neighboring torrent. Less abandoned stars, directly into the interior of the star...

Then he waved the Shennong Baoding and stepped into it...

"Hey..."

In the middle of a wave, with the faint sound of breaking through the air, there will be a rush of anger and hang out in front of him. It is the cultivation resources that he took out from the immortal world to develop this breakthrough!

At this time, he has already recovered the form of the Terran, and he did not hesitate. In the middle of the gloom, even if he promoted the field power of Shennong Ding, he reduced all the cultivation resources to only the size of the baby fist. Swallowed into the belly.

"Oh la la..."

The entrance of the baby fist ball is instant, and the blink of an eye becomes a powerful river that can be swayed in the body of Ye Xuan.

Unexpectedly, the sound of the chain squeaking sounded over and over again. There was a chain of shackles in Ye Xuan's body. Even if he was concentrating on his ambition, he fully urged the hanging energy that had just formed in the body, in the whole body. In the middle of the big weekday operation... also

I don't know how long it took, and the hanging energy formed by Ye Xuan's meridians has been completely refining. Knot

As expected, just a shock, this stout chain has been broken, the system prompts in anticipation, and soon in the mind of Ye Xuan...

"Hey, congratulations to the host, the breakthrough of the ancient realm of the hole! The current realm: the fourth step of heaven!"

Hey, congratulations to the host, the breakthrough of the body and blood! The current realm: Heaven's fourth order! "

In the next moment, Ye Xuan opened his eyes, deep in the bottom, and a touch of excitement flashed away.

The suppression of Hongmeng Avenue still exists, so after this breakthrough, under the ninth state of the konjac change, the realm is still only the ninth-order grand perfection, but the real power is obviously Once again, it has skyrocketed a lot... with

After the breakthrough was completed, Ye Xuan suddenly opened his eyes, deep in the bottom, and there was a touch of excitement.

The fourth stage of the Tao, this is the middle of the heavens, completely different from the previous medium. can

Unfortunately, the suppression in Hong Meng Avenue still exists. Place

After this breakthrough, even if he activates the konjac and turns to the ninth change, Ye Xuan's cultivation is still only the ninth-order grand perfection, but the real combat power is obviously skyrocketing again. a big cut...

However, the extent of this increase in combat power has no meaning for him now. again

How powerful is it? As long as the cultivation of its own strength does not break through the heavens and the environment, and enters the Hongmeng Avenue after the Heavenly Way, for him, the crisis that has already arrived can never be lifted. Big

The Tao is the highest state of the void of Hongmeng, like the will of the heavens and the earth in the big and small world, high above, overlooking the people. first

Before the flooding of the world, Ye Xuan even enchanted, facing the heavens and the torrents of the sky, but also deeply weak, simply can not compete. Such as

Nowadays, Hongmeng is empty, and he is almost invincible within the heavens. However, once he encounters the strong people of Hongmeng Avenue, the situation is the same as that of the Tiandao Qingyan when he was in the vast world.

This time, if the two old monsters of the wolf and the black blood crocodile had old grievances, coupled with the stimulation of the immediate interests, they suddenly shot at the same time, each blasting a thunder ball and a half moon arc blade, colliding Under the tears of Hong Kong's void, inadvertently inspired the title of the system, Ye Xuan's final outcome, simply can not imagine ... this

The supremacy of the Hongmeng Avenue, even if only one descends, is already an insurmountable giant peak for him, let alone the two are born together? can

To say that even if this time the system title task is completed, returning to Hongmeng Nether, Ye Xuan can only hide with the tail, simply do not dare to show up, otherwise once the two old guys of the wolf and the black blood crocodile know He has already come out of the crack of Hongmeng, and he will definitely come down the first time and suppress Ye Xuan. This

It really makes him worry, and he feels more angry when he is powerless...

Fortunately, the existence of this level is absolutely impossible to anger the anger to the forbidden place in his name, to find the power and the absurd in the forbidden place of the magical hall. Otherwise, the situation is in danger of Ye Xuan. It will be almost impossible to solve. to

On the other side of the source nest, he was even less worried. Until now, the source nest base camp was not officially born.

Now that I heard the news that the two wolves and the black-skinned crocodile were born on the avenue of the sacred avenue, they were sitting in the eight kings of the Yuanchao base camp. The devils commanded the sea and the Cang Qingyu, and so on. Any slap in the face. "

Tiandao fourth-order, distance to swallow a thirty-level Hongmeng Baodan, this impact on the Hongmeng Avenue, there are five small steps need to break through..."

In the mind of the mind, Ye Xuan's singer also flashed and whispered: "In addition to this, the refining of the thirty-level Hongmengbaodan must also be mentioned on the agenda as soon as possible. Otherwise, once my own cultivation is to reach the peak of the ninth-order grand perfection, but there is no thirteen-level Hongmen Baodan swallowing, it is really a joke..."

When it comes to this, Ye Xuan has made a decision. After this time, the system title exploration mission is over, and immediately re-closed, swallowing Tiandao blood fine forcibly breaking through, and improving the strength as soon as possible. Of course

After the opening of the furnace, began to refine the thirty-level Hong Meng Bao Dan.

Refining a Thirteen-level Hongmeng Baodan, in addition to the need for five elements of medicine, but also need a variety of other auxiliary materials, are the most top-level cultivation resources in the sky, these Ye Xuan are already ready, refining Three are enough.

In addition, the most important Danjin is the liquid of Tiandao blood essence and heaven.

Each of the thirty-first-level Hong Meng Bao Dan needs to use 981 pieces of Tiandao blood essence, and nine hundred and ninety-one Tiandao source liquids. These Ye Xuan have also collected in the previous wars. Finished. very

As for the Tiandao blood essence, there is still a little surplus, enough to support him to take it, and then forcefully upgrade the two small steps.

Of course, these two swallows the blood of the heavens and forcibly promotes the opportunity of a small order repair. It is impossible to use them one after another. They must be separated. One of them must break through normally, otherwise the stability effect on his own realm is too great. It's not a good thing...

All of this flashed in his mind, and soon there was a clue, and then Ye Xuan would no longer entangle the matter, and his body shape swept away from the Shennong Ding Ding mouth with a colorful mist, and he waved Shennong Baoding earned the body, and then he rushed out of the abandoned star where the retreat was.

Next, he will explore in this vain and empty space, find the source of chaos that the system calls, and complete the seventh system title exploration mission...

Regarding the source of this chaos, there was a mention of Ye Xuan at the beginning of the headless baby body...

It is said that before the endless years, when the era of the floods was not yet opened, there was a place in Hongmen's imaginary place where there was no known place, and a chaotic Qinglian grew up. Chaos Qinglian constantly absorbed the chaotic aura around, gradually Formed a huge aura storm...this

From time to time, a reiki storm flashed with dazzling light. In the end, Qinglian blasted, and three thousand sacred glares rushed and turned into three thousand stars.

At the core of the stars, there is a chaotic source nest, which breeds a kind of chaotic life, which is called the Chaos Demon. This

Three thousand chaotic source nests are also strong and weak, and the chaotic demon gods, which represent different avenues of avenues, also have strong and weak points.

In chaos, the law is three thousand, which is the so-called three thousand big thousand. in

Among them, the masters of the top ten rules are extremely powerful. The top ten rules are: the law of power, the law of time, the law of space, the law of chaos, the law of immortality, the law of magic, the law of life, Five rules, the law of yin and yang and the law of destruction. when

In the year, in the glory of Hongmeng, the land of the wilderness, and the Pangu Demon, which opened the floodplain, is the chaos demon from the nest of the number one chaotic source. he

What you have mastered is the strongest rule in the top ten rules - the law of power!

All of this should be described as the opening of a Hongmeng era. Similar to the Hongmeng era, I don't know how many times it has been opened. Just like reincarnation, every time the new Hongmeng era opens, there will be 3,000 source nest stars. In it, there are three thousand chaotic devils...

The three thousand chaotic demon gods are actually only the existence of Hong Meng and the distant chaotic environment after Hong Meng. The reason why they are called Chaos Devil is because these three thousand devils represent Hong Meng's void. Three thousand seeds to pursue the supreme chaos!

According to Ye Xuan's speculation, the source of the so-called chaos may not be related to the three thousand chaotic devils and the chaotic source nest that gave birth to them, but it must be related to the Qinglian that appeared when each Hongmeng era opened...
