

Super D.S 5151

Chapter 5151: The key to chaos

According to Ye Xuan's speculation, the so-called source of chaos may not be related to the three thousand chaotic devils and the chaotic source nest that gave birth to them, but it must be related to the Qinglian that will appear when every Hongmeng era opens...

In other words, to find the legendary Qinglian, you should be able to complete this system title exploration task, or get the key clues... The Qinglian is the key to chaos!

The thoughts flashed through the brain, and Ye Xuan's heart suddenly moved. system

The exploration task of the unified title is not activated casually. The previous six exploration missions each encounter a trigger condition, and the exploration task will be opened. example

For example, when he got the treasured body, Ye Xuan entered the black hole in the void, and the phagocytic system in the body captured the faint energy of the phagocytic source, and then inspired the system title task. start up.....

This time is also the same, there has been no reaction before, until the thunderbolt of the two old guys of the wolf and the black-skinned crocodile collided with the half-moon arc blade, tearing open a crack in Hongmeng, Ye Xuan knows the depths of the sea The phagocytic source crystal has a sense, this will be the exploration task of this seventh system title... trigger activation! This

Explain two problems. One is to devour the mystery of the source crystal. It is possible to sense something by just one crack, and let Ye Xuan be shocked again. its

Second, it means that if the induction of the phagocytic source crystal is correct, then the most critical chaotic Qinglian of the strain should be in the emptiness of the turmoil in this crack...

When these thoughts flashed from the brain, Ye Xuan rushed out of the abandoned star where the retreat was located. He had already come to the emptiness of the sky outside the stars, and turned his head to look around. The gods also fully urged and extended toward the surrounding.This

The emptiness of the film is extremely vast, and Ye Xuan's knowledge covers the area of tens of billions of miles. Apart from some abandoned stars that reveal the ancient atmosphere, and a large or small turbulent stream, there is no other. Things exist...

As for the breath of life, it is even more impossible. this

At that time, Ye Xuan had already restored the original human form. This is also a no-brainer, because this is a very unstable chaotic void. The voids of large and small emptiness in the void are extremely dangerous. This

These are not ordinary vague turbulences, but the turmoil of stagnation by the power of pure Hongmeng. Even if it is the strength of Ye Xuan's current cultivation, it is not easy to touch it, otherwise it will be damaged. it is good

In the human form, his body is very small. If you are careful and careful, you can walk through this emptiness in the air. As long as you don't encounter the extremely dense turbulent storm, you can basically avoid the evil and avoid your own innocence...

Between the slow lapse, Ye Xuan maintains a high degree of vigilance, and travels through this chaotic and dangerous turbulent stream, constantly searching, and unconsciously, it has passed two months. Two

In the past few months, he has not gained anything in this turbulent stream, and he has not found anything. In the vast and innocent dark void, in addition to the numerous streams of big and small, there are only a few abandoned stars that can be seen occasionally. But...but

He was not discouraged by this. The emptiness of this emptiness was too wide. It was only two months. I am afraid that even one side of it has not yet touched it. Now it is so worried that it is too hurried. One

Dazzling, it is half a year later, in the past six months, he still has no gains. To

At this time, Ye Xuan was finally a little uneasy, and he stayed in the void for a month, and finally had a major discovery in front...

At the end of the line of sight, the original darkness of the sky suddenly appeared a ray of light. To be precise, this is a glimpse of the green mans, revealing the meaning of ambiguity, giving people a feeling of dreams. when

The green mans of this scorpion came from the front as if it was the first ray of the rising sun. Ye Xuan's stunned figure suddenly stopped in the void, and suddenly he screamed and screamed: "This is... Chaos Qinglian?" No

At the same moment of hesitation and whispering in the mouth, he has already urged the body to move forward again.

Soon, as he approached, the darkness in front of the sky was less and less, and the whole sky and the earth were replaced by a vast and innocent

This kind of radiance is not very fierce, but it is like a dream, but Ye Xuan has a sensation of sight, and does not dare to look at it...

Until he activated the enchanting, and appeared in the eyebrows, this gradually adapted to this dreamy seeing everything in the emptiness at the end of the line of sight...

It is a lotus, full body blue, with mysterious veins, natural, it has lotus leaves, lotus stems, lotus, and lotus...

Ye Xuan simply could not use words to describe the hugeness of this Qinglian. It replaced the whole piece of the void in the front line of sight. Even if it was a piece of lotus leaf, I am afraid that it would surpass the original world of the wild.

The whole plant Qinglian stood so fiercely in the void, exuding the dreamlike green awning, but it was silent, without any movement, no matter whether it was lotus leaf or lotus flower, it never swayed in the void. hidden

In the covenant, he seems to be able to see that from this huge and incomparable Qinglian, there are some smog-like mists. This

Some cyan mists started from the inside of Qinglian, and they were very soft at first. But as they gradually moved away from Qinglian, they slowly gathered together, and the speed became faster, turning into a mess of different sizes. Flow...this

This kind of scene makes Ye Xuan shocked, and the whole piece of turbulence is vast and innocent. I am afraid that it will not be smaller than Hong Meng's void, and its size may be even wider.

And all the large and small turbulent streams of the vast and turbulent emptiness in the sky are actually the condensation of the blue gas from the body of this Qinglian...

Everything, even if it is now seen by the eyes, still gives him a feeling of incredulity, almost doubting that he has an illusion...

When these thoughts flashed through his mind, the unexpected system sounds were also heard at this moment, resounding Ye Xuan's knowledge of the sea..."

Oh, congratulations to the host! The system title exploration task is completed! The system title upgrade was successful! ""

The current title of the system: the seventh level, the interstellar system! ""

Interstellar hegemony: The aura effect of the title will be added to the original five-level title, such as Star Trek, Interstellar Adventurer, Interstellar Explorer, Interstellar Trailblazer, Interstellar Reviver, and Star Master. The new system capability, randomly activated, and the number of interstellar coordinates imprinted on any cosmic plane, from the first three, to five! ""

System Task Discovery Reward: Already issued! "

As the system prompts to sound, Ye Xuan, who was shocked by the horror of Qinglian, was fascinated by the sudden appearance of his body shape. Under the change of color, he took a sigh of coolness and stunned. Whispered: "This Qinglian is really related to...nothing chaos!"

As the scene in front of the sky is reflected in the line of sight, the familiar system sounds, in Ye Xuan's mind, immediately sounds...this

At the time, he was shocked by the horror of Qinglian, and he was sluggish. straight

When the system in my mind prompted to sound, it was back in the sudden shock of the body shape, and the face was changed and it took a sigh of coolness and shouted: "This Qinglian, really and nothing." On chaos..."

Before this, the seventh system title task triggered activation, Ye Xuan only suspected the so-called source of chaos, and it is very likely to be related to the mysterious Qinglian that the headless baby was originally said.

But now, when this Qinglian appears in front of her eyes, and the familiar system prompts sound in the brain, this time the system title exploration mission has been completed and the end, Ye Xuan's guess is finally confirmed...

In other words, the so-called source of chaos is actually this mysterious Qinglian that will appear every time when the Hongmeng era opens!

It is the key to supreme chaos. Every time the Hongmeng Era is opened, every reincarnation is the Qinglian, the supreme chaos after the pursuit of Hongmeng...

In the middle of these thoughts, Ye Xuan's mind suddenly moved, his eyes condensed, and his eyes swept to the top of the huge Qinglian lotus.

The lotus has matured, because it has been able to see the traces of lotus seeds that are protruding out, but unfortunately, all the lotus seeds on the entire lotus are all withered, even with the endless distant void, these withered lotus seeds. When you look at it, you can instantly feel a scent of sorrow and sorrow.

There is only one exception...

This exception is in the middle of a huge lotus.

Qinglian is so large, a lotus leaf has the vastness of the original vast world, and the size of the top of the lotus is so large that it can be imagined.

On this huge lotus, there are a total of 301 lotus seeds, but there are only 3,000 of them still standing on the lotus. These three thousand lotus seeds are all defeated, and there is no life at all. but

The lotus seed in the center is gone. There is only one dent in it, which means that there was once a lotus seed, but then somehow, I didn't know where to go...

After there was no dent in the lotus seed, Ye Xuan's heart suddenly felt a sense of sensation. He suddenly had a very strong intuition. The key to the supreme chaos after Hongmeng Avenue is very likely to be with this missing. Related to lotus seeds. and

This mysterious Qinglian opened the new Hongmeng era again and again, like a reincarnation. Every time, it shot 3,000 milligrams from Qinglian's body and entered the Hongmeng void, which is about to open a new era. The source of the nest, the birth of the

The ultimate goal is most likely related to this missing lotus seed! lotus

There are a total of 3,000 lotus seeds on the awning, and there are 3,000 source nest stars in every era of Hongmeng void. This can never be just a coincidence.

If there are no accidents, the three thousand source nest stars that will appear in every era of Hongmeng Void should be the essence of these three thousand lotus seeds on the lotus.

They were extracted and sent out by Qinglian, and they entered the Hongkong void, turned into a source nest star, and gave birth to the Chaos Demon...

The purpose of this is to retrieve the lotus seed that has been lost before the number of reincarnations in the lotus.

This lost lotus seed is the key to the evolution of this Qinglian lotus. From the peak of the current Hongmeng Avenue, it is the only and only chance to enter the supreme chaos...

Everything is just speculation, but Ye Xuan's intuition is very strong. He determined that this kind of speculation should be the fact, at least eighty-nine, and there will be no deviation.

When these thoughts flashed in his mind, his heart suddenly moved, and the ghost made the difference, and immediately the enchanting power was pushed to the extreme, and the condensate **** looked at the top of the green lotus at the end of the line of sight. quasi-

To be sure, the point of focus and focus of his sight is the dent of the lost lotus seed in the center of the lotus!

It's not that he doesn't want to stay close, or even jumps directly to the front of the Qinglian lotus at the end of the empty space. He looks up close, but he... he just doesn't dare to do this, and he can't do it at all! first

As I said before, this piece is vast and innocent, and it is very likely that it is more violent than the glory of Hongmeng. Although it is different in size, it is almost everywhere, and it is all from the Qinglian body. The condensation of the blue mist formed by the condensation...

That is to say, this mysterious Qinglian at the end of the front line of sight is actually the source of countless torrents of the vast and innocent turbulent stream...

The farther away from here, the less the number of torrents in the void, the smaller the density.

On the contrary, the closer to this Qinglian, the turbulent turmoil in the void, the more the number, the greater the density...

Now Ye Xuan is far from the mysterious Qinglian, but it is so huge that if it is too close, it will not be able to see its entire lotus body.

Even if the distance is still so far away, the number of torrents in the emptiness around Ye Xuan's figure is extremely horrible, and the density is so large that he is almost inseparable. If

If you come back, he will have a hard time avoiding the inexhaustible turmoil of the size of the sky. Once you touch it, you will be seriously injured if you don't die. total

There must be ominous! Place

Therefore, Ye Xuan can no longer move forward, and can no longer move forward, but it does not matter, there is a enchanting, even through the endless distant void, with his current cultivation as the strength, under the full force, it should be able A glimpse of the dent in this lotus..."

Oh..." This

At one moment, the incomparable humming sounded, and Ye Xuan's eyebrows were like the third erected erect, and suddenly it spun up at a rapid speed, emitting a very strong light column. when

When the light was so strong that it was violent, a ray of light was spurred from the glare, and it was just shot from the enchanting, and it had disappeared in the void in front of Ye Xuan.

At almost the same moment, the end of the void at the farthest point of sight, the only dent in the center of the huge lotus leaf of the mysterious Qinglian, there is also a sudden flash of light, which is exactly the light beam that was shot from Ye Xuan's eyebrows.

The enchanting, known as the most powerful scorpion, the function of the original source, from the surface to see the root of the transaction, trace the time and space and the void, far from the general savage savvy and comparable, too mysterious.

In particular, Ye Xuan's current cultivation is full of force, and under the slogan, even the lotus seed dent on this mysterious green lotus lotus has been glimpsed by some clues. This

For a moment, as the gloom flashed, the dent in the lotus was also secretly showing an image... though

However, it was extremely embarrassing, but Ye Xuan was suddenly shocked by the shape of the body, and suddenly he was stunned by the cold air, and he exclaimed: "What? This is impossible..."

With the heart moving, Ye Xuan felt to the heart, the body reacted to force the enchanting, and under the sorrow, even the lotus seed dent on this mysterious Qinglian lotus is in a moment, he is glimpsed Some clues...this

For a moment, as the gloom flashed, the dent in the lotus was also secretly showing an image...

Although extremely embarrassing, but Ye Xuan was instantly mad and shocked, but while sighing and sighing, he suddenly exclaimed: "What? This is impossible..."

So it will be like this. It is really because of the scene of the scene above the central dent of Qinglian Lotus. It is so amazing that Ye Xuan had various kinds of speculation before, but he did not think of it anyway, the truth would actually That's it! Shadow

This mysterious Qinglian appeared in the image, and it was focused on the lotus leaf of Qinglian. The image should represent the endless years, and I don't know how many Huimeng eras to go back. that

Above the lotus, although there are three thousand and one dents, but the three thousand lotus seeds around are still not mature, very small and very small, only the most central dent, the drum Start a ripe lotus seed.

Yes, the lotus seed that is lost in the dent of the center is indeed the earliest mature among the three thousand lotus seeds of the whole lotus.

Soon, there was a change in the image...this

The only cyan mature lotus seed suddenly shook, rising from the center of the huge lotus, flying directly away from Qinglian, and rushing toward the distant void.

It is in the darkness of the infinite darkness, and I don't know how many years have passed. In the end, it may be tired, tired, or confused, and finally stopped in the void, and there is no sound. Time

The room is still slowly passing, and I don't know how long it has passed. This blue lotus seed slowly changes, and after various mysterious and strange evolutions, it slowly becomes a star. star

The surface crust of Chen is slowly moving, slowly evolved into a huge mountain, a continuous mountain range, a deep canyon, and a blue ocean that occupies about 70% of the surface of the star...

When this vast blue ocean appeared in the line of sight, Ye Xuan's heart was violently shocked, and at the same time it also gave birth to Ming Wu. This is clearly the mysterious mother star in the Milky Way, which he suspects, before he crossed the Nine Stars. That star...this

For a moment, he finally understood why Hong Meng's void would deliberately protect the Milky Way and protect the mysterious mother star in the Milky Way. end

I also understand why the headless baby corpse will choose herself, perhaps the only explanation is that it was originally from the mysterious mother star that was made by Qinglian's only mature lotus seed...

Under the circumstance, in fact, all of this may have been the intention, but when the facts are revealed, the shock of Ye Xuan's heart is still unable to dissipate for a long time. he

I finally understood the development of the next Hongmeng era. Why should we start around the Milky Way? Why should we open the Galaxy Stars conditionally before the opening of the new Hongmeng era, and let the star-studded powers of Hongmeng's void enter and try to go to the parent star? Fighting for the so-called Hongmeng air transport...

Even Qinglian knew that the mysterious mother star was the one that was lost in the original mature lotus seed. It opened the new Hongmeng era again and again, and repeatedly took the lotus seeds on the three thousand lotus seeds that had never matured. The energy is extracted.

Into the Hongmeng void, turned into a source of nest stars to breed chaos demon, the ultimate goal is to hope that there can be a presence, can bring the lost lotus seeds in the mysterious mother star back to Qinglian.

Or, I got the lost lotus seed myself, and peeked through the true meaning of breaking through Hongmeng, and then entered the supreme chaos after Hongmeng..."

Oh..."

The humming sound is still going on, and Ye Xuan's eyebrows are faintly flashing, just like the third erected enchanting cockroach, and the ancient image appearing on the green lotus lotus at the end of the line of sight is also instantly It disappeared...

"It turns out that this is the truth of everything..."

The ancient image on the lotus leaf disappeared, and Ye Xuan finally returned to the gods, sighing and whispering...

He did not move on, on the one hand too dangerous, on the other hand because it is no longer necessary. Cross

The key to entering the supreme chaos is the lost mature lotus seed. Even this mysterious Qinglian is looking for it, opening a new era of Hongmeng, gestating three thousand chaotic devils, hoping to take the mother star. a mature lotus seed brought back...that

Then, Ye Xuan will lock his eyes on this mysterious Qinglian, and there will be no meaning. In the end, everything will be answered in the mysterious mother star. The end of everything will be there. carry out.

However, the new Hongmeng era has not yet arrived, and even the conditional opening of the Galaxy Star has not yet begun. It is completely unpredictable to entangle all of this. The most critical thing in front of us is to repair itself as soon as possible. Upgrade up. first

The situation before it is different from the present. Now Hongmeng has already had a strong man of Hongmeng Avenue after the Heavenly Way, and it is two when it is born. This is very likely to be just the beginning. There will be more Hongmen Avenue in the future. Turned out.

Under this circumstance, if Ye Xuan does not upgrade his own cultivation to the Hongmeng Avenue after the Heavenly Way, once the new Hongmeng era is opened, why should he compete with those old monsters for the Qinglian Lotus in the mysterious mother star? brain

In the middle of these thoughts, his heart suddenly sinks, and soon the other distractions are thrown away, and the mind turns to the front. first

This is the first time the system title exploration mission. This

It is already the seventh system title exploration task of Ye Xuan. After the completion, his system title has now reached the seventh level, which is the starry system.

This title is very domineering, but with his current cultivation as the strength, I am afraid that the current Hongmeng void can not reach the ability to dominate the hegemony, but it does not matter, soon after, Ye Xuan will break through to the real Hongmeng Avenue.

At that time, it will be a matter of course.

The aura of the interstellar hegemony is not bad, and it is based on the original six-level title of Star Trek, Interstellar Adventurer, Interstellar Explorer, Interstellar Trailblazer, Interstellar Reviver, and Star Trek.

The system has added a brand new system capability that has been activated. Even if Ye Xuan has checked it, it is a pity that this new subsidiary system is basically a chicken rib for his current level of cultivation. There is nothing too big at all. Practical significance.

In addition, the number of interstellar coordinates that Ye Xuan branded on any void plane, after completing this system title exploration mission, has also grown to the current five!

In the emptiness of Hongmeng, he has branded three interplanetary coordinate jumping points, all on the right bank, one near the source nest star base camp, one near the source of the strongest power, and one in the original Near the star vortex of the forbidden land...

In Hong Kong's void, Ye Xuan's branded interplanetary coordinate jump points are on the right bank, one is near the source nest star base camp, one is near the source nest star with the strongest power, and there is another place in the original Xuxu Near the star vortex of the forbidden land... and

Now, with the completion of the seventh system title exploration mission, the number of interstellar coordinate points that Ye Xuan can brand on any void plane has grown to five by the first three!

That is to say, in Hong Kong's void, he can now brand two interstellar coordinate jump points. This

Although it is a vain emptiness, it is connected with the emptiness of Hongmeng. Because of the existence of the mysterious Qinglian, it is not separated from each other.

The remaining two coordinate jump points, Ye Xuan's calculation is left in the hand, and then mark the appropriate position on the left bank in the future.

On the other hand, he chose to imprint this dark void that is suffocating at the moment, because the mysterious Qinglian is here, and it is also extremely important. If there is a star-shaped coordinate jumping point here, he will look for Qinglian in the future. Directly activates the interstellar coordinate jump capability attached to the in vivo system... this

In addition, this is a sinister emptiness outside the Hongmeng Heaven. If Ye Xuan encounters an indescribable crisis in Hongmengtian, the ability to activate the interstellar coordinate jumping function attached to the internal system can also be like a refuge. , arrived here! Decision

After the decision, Ye Xuan did not hesitate, even when the action was launched.

Everything is exactly the same as before. Although there are not many similar imprints, but before and after the calculation, this personal interstellar coordinate point, Ye Xuan has more than ten in the virtual plane of different planes. very

Fast, Ye Xuan issued instructions to the system, began to brand personal interstellar coordinates, the system's prompt tone soon sounded in his mind, guiding Ye Xuan step by step to expand the coordinates of the branding step.

Once the gods were treated by various means, he was quickly refining into a special brand. Then, this **** brand was shot out of the body in some extremely mysterious and complicated way.

Let it be connected with Ye Xuan's turbulent emptiness, until the final thorough integration...

Although it has been going through many times, the kind of pain that separates the gods from the little ones, but still makes Ye Xuan unable to adapt.

This is simply difficult to describe in words, it is a painful torture! One

After the hard work, the **** of the Yuan was successfully separated, but Ye Xuan could not immediately restore the interest and restore the mind. he

I can only endure all kinds of discomforts that the gods have been wounded, and strengthen the spirit. They use different complicated means and methods again and again to constantly condense the gods.

Each process has consumed the meal, which is the result of his long-standing experience.

The final link is to incorporate this successful condensed **** of the gods into the eyes of this sorrow.

Ye Xuan pays close attention to the whole process, from the gully to the void, to the integration of the gods and their deeds, and finally perfect integration, and ultimately did not dare to loosen from beginning to end...

Throughout the process, he had a bit of a sigh of relief. After a total of half a day of hard work, his personal starry coordinates in the emptiness of the sky finally integrated into the void. After a flash, it was completely stabilized and then disappeared. Even if Ye Xuan can't catch a little breath...

Soon, when this personal interstellar coordinate was branded, Ye Xuan's mind also sounded a familiar system prompt: "Hey, congratulations to the host, successfully branding personal interstellar coordinates!"

For a moment, when he was sitting cross-legged in the void, even if he opened his eyes, his face showed a smug expression, and then he stunned and fell into the sinking...

The seven-time system title exploration mission was completed, and even the personal interstellar coordinates of this sinister emptiness have been branded successfully. and also

That is to say, if there is nothing wrong with it, Ye Xuan has already arrived.

Calculating the time, he entered this piece of time and the emptiness of the void is not short, the previous retreat will be repaired as a breakthrough to the fourth stage of the heavens, in order to find this mysterious Qinglian, in this vast and innocent turbulent flow It has been wandering in the void for almost a year.

It's not long to say a year, but it's not too short to say that it's enough to happen. leaf

Xuan did not know what happened after the departure of the Galaxy on the banks of the Galaxy in the following time...

However, before the reunification, there are still two things to be done. First, taking advantage of the previous breakthrough for nearly a year, try to re-close again, in order to swallow the blood of the heavens, forcibly raise another one. The repair of the small steps.

This thing is not a knife, he intends to put it behind to complete, after the completion, you can immediately start, return to Hong Kong.

Another thing is to fuse the Shennong Nine-color Flame with the red lotus fire that has just been refining and refining...

In the original red lotus flame, including the parallel void connected by the inner star of the star of the Hongyan star field, all the remaining red lotus fires have been refining and being picked up by Ye Xuan.

At that time, he had an estimate that the endless red lotus fire of the awning should be fully integrated into the nine-color flame sea. One

Once this is done, Shennong Nine Color Flame will once again usher in an amazing transformation. From the current nine-color flame to the ten-color flame, the horror of power can be hard to imagine. Do not

However, this incident Ye Xuan did not intend to start immediately, because the red lotus industry is extraordinary, it will take a long time to integrate it with other worlds and fires, not to mention the fusion of Shennong and other flames. After that, nowadays, the degree of nine-color flame has evolved, and the subsequent transformation will be even more difficult!

In fact, time is only one aspect. What is more important is that all the minds need to be immersed in it and pay close attention to everything. Otherwise, if an accident occurs, the consequences are simply unimaginable. Place

Therefore, for the sake of stability, the original Ye Xuan finally decided to go back and take the time to expand, so the matter was temporarily put on hold.

But now the situation is different. Nearly a year ago, Hongmeng's emptiness and the black-blooded crocodile were born. eye

Nearly a year has passed, I am afraid that there will be other Hongmeng strangers born.

In this case, with the return of Ye Xuan's current strength, once they encounter these eccentricities, there is no means to make them jealous, including the same.

The is indeed strong, and Ye Xuan is now fully motivated by the half-step cultivation of Hongmeng. Perhaps even these eccentrics who have officially entered the avenue of Hongmeng can't help.

However, the power of the is stronger, and the arrow that can be shot can't attack the other side, which is also a loss.

Although the application of the ten-color flame may not be able to attack them, but the ten-color flame is different from the can only attack, and the ten-color flame can be turned into a flame sea or a flame ball, covering the leaves of the sun, temporarily Protection...

This point Ye Xuan still has confidence, the previous nine-color flames have been able to make the Tiandao old blame helpless, the ten-color flame can be stronger, and will surely make the eternal blame of Hong Mengjing...

Chapter 5152: Tiandao fifth order

Nine-color flames have been able to make Tiandao old blame helpless, and the ten-color flame power can be stronger, and it will surely make the avengers of Hongmeng's avenues smack the smugglers... This point, Ye Xuan is quite confident! Place

Therefore, he decided to merge the Shennong nine-color flame with the Honglian industry fire before reunification, and refine the ten-color flame.

Although this may still be unable to attack those blame, but at least there is a ten-color flame protector, Ye Xuan finally has a certain degree of self-protection ability in the hands of Hongmeng.

Decide to do it! "

Oh..."眸

In the middle of the glory, he immediately waved, and a masculine rushing out, ushered in the storm, turned into Shennong Baoding, the shape did not deliberately shrink, like a giant star.

After all, here is the emptiness of Hongmeng, and Ye Xuan has already retreated to the distance from the mysterious Qinglian. The emptiness of the emptiness in the void is also very rare...

As Baoding sacrificed, his shoulders shook, and instantly jumped into the hustle and bustle of the colorful fog, directly into the space inside the Ding.

.....tripod

Inside space!

At high altitude, Ye Xuan's figure fell from the height of the sky and did not see the shofar. The old guy might have closed in the distant mountains. he

Did not pay attention to all this, directly press the figure, enter the volcano of the central area of the Ding interior space... fire

In the nine-color flame pool at the bottom of the mountain, the nine-color flame sea still occupies the 90% of the flame pool.

The other 10% area is a red ocean. Every wave in the ocean is composed of a red lotus flower.

In the center of this area, there is a dark red flame that is only the size of the belly. It is the red lotus flame. Now it has been refining by Ye Xuan, and he has a mysterious connection with his flesh and blood...He

When I sat down in the middle of the volcano in the central volcano, I took a deep breath and left all my distractions behind me..."

Oh la la..."

"call out!"

In the flame pool at the bottom of the volcano, there was a rush of waves, and the Shennong nine-color flames that occupied the 90% of the flame pool made waves. versus

At the same time, there was also a weak sound of breaking the air. The red lotus fire that occupied the area of the flame pool did not move, but the red lotus flame that only pointed to the size of the belly was spurred, the first time Into the nine-color flame sea of the waves...

At this moment, Ye Xuan's heartstrings were tight, and the whole heart mentioned the eyes of the blind. This

He has completely refining the flames of the lotus, so the red lotus industry has no threat to him. Even if it is touched, it is like a duck, but the red lotus flame and the Shennong nine-color flame are another one. It's a thing. leaf

Xuan did not know what would happen, but he decided that if there was an accident, once this accident came, it would be no different.

Business Trading gaze is pleasing to the sag of the lotus. Destroying the earth and destroying the earth. This

This is what it should be. The Shennong nine-color flame was originally a one-color flame. Once again, it was integrated into the top-level fire of the heavens and the earth, and it grew to the extent of the nine-color flame. To

With this height, it is extremely difficult to think about it further. Once it fails, the consequences are unimaginable, what will happen, even Ye Xuan can't predict...

The period is slowly passing, and unconsciously, one month has passed. This

At the moment, Ye Xuan suddenly opened his eyes, deep in the bottom, clearly there is a touch of joy and quietly flashed.

At the same time, the nine-color flame sea that has been raging for a month has also quieted down in an instant.

Ye Xuan's sorrowful sorrows and stuns, and the line of sight sweeps to the Shennong Flame Pool below. It is obvious that the red lotus fire that occupies the area is rapidly integrated into the Shennong nine-color flame. This is clearly Honglian. The flame mother has been merged with the nine-color flame sea.

Everything is going very fast, just three short breaks, the flame pool has no longer separated from each other, the nine-color flame is gone, the red lotus industry fire is gone, there is only one pool in the pool to the eye-catching liquid, a total of ten colors, revealing an endless strong breath...

Finally finished, the ten-color flame... turned out! leaf

Xuan's face showed a happy color, but he did not get up because he was going to make a bang and complete another thing before the return. This

The loss of the mind of a month has not been small, and the repair of the body is also almost the same. It is the time to break through. "

Oh..."

Soon, as he waved, a faint sound broke out...

A slap in the face, hanging in front of Ye Xuan, is the cultivation resources that he took out from the immortal world to develop this breakthrough, including ten heavenly blood.

This is the cultivation resource that he used to swallow and force him to repair his strength and break through a small step. no

Hesitant to hesitate, his glimpse of the gloom in a glimpse, immediately urging Shennong Ding's domain power, compressing all the cultivation resources to only the size of the baby boxing.

Then he swallowed his belly in a wave..."

Oh la la..." This

The entrance of the baby fist ball is instant, and the blink of an eye becomes a powerful river that can be swayed by the power of the dragon. It opens slowly in the body of Ye Xuan, and the sound of the chain squeaking is also overwhelming...

There is a chain of shackles in the body of Xuan, which means that the cultivation resources swallowed by this time are enough, and the chain of shackles that represents the bottleneck in his body is stimulated. If you tear it, you can break through...

These thoughts flashed through the brain, and Ye Xuan immediately became a loose heart, and soon became fascinated by the enthusiasm, urging the energy that was just formed in the body, and launched a big Sunday operation in the whole body... approximately

After half a month of touching, the hanging energy formed by Ye Xuan's meridians has been completely refining, and the results are expected. only

It was only a shock, and this stout chain was slammed, and the system prompts in expectation sounded very quickly in Ye Xuan's mind..."

Hey, congratulations to the host, the breakthrough of the ancient realm of the hole! The current realm: Heaven's fifth-order! "

"Hey, congratulations to the host, the breakthrough of the flesh and blood! The current realm: Heaven's fifth-order!"

In the next moment, Ye Xuan opened his eyes, deep in the bottom, and a touch of excitement flashed away.

There is no need to entangle, the suppression of Hongmeng Avenue still exists, so after this breakthrough, he is still only the ninth stage of the ninth change of the konjac.

However, Ye Xuan has long been used to it. At least after this breakthrough, his real combat power has obviously skyrocketed again. If he is accompanied by a ten-color flame, even if he encounters the evil monster after the heavens, he inability to attack, at least finally have a certain ability to protect themselves...

"Hey!" Very

Fast, he rushed out of Baoding Dingkou, and shook Shennong Ding into the body with a wave of hands, and then directly activated the interstellar coordinate jumping ability attached to the internal system, locked the source nest star base camp, and returned to this... Hong Meng Xuan!

Hong Meng is empty! Count

Counting the time, the scene that happened outside the floodplain was a surprise one year ago...

A year ago, thousands of people from all sides of the right bank of the left bank of the Galaxy had more than a thousand people, and they gathered in the floodplain with a lot of power and destiny. he

They originally went to the appointment, and went to the appointment of Tianjiubao liquid refining with Ye Xuan, the master of the magic hall. Of course

What happened later made all the people unexpected, completely unexpected.

It turned out that Ye Xuan, the master of the Temple of Devils, did not intend to help others to refine the treasure of Tianjiu Avenue. He did not return to the right bank of the Galaxy after the accident of the Hongmengdan.

Instead, it crouched down on the left bank. After mixing the water, it mixed the water and fished. It secretly hunted the old monsters again and again, and seized the liquid of the heavenly source needed to refine the treasures of Tianjiu Avenue...

In the year after the appointment, no one knows how many times Ye Xuan, the master of the temple, has shot, how many days and scams have been smashed, and how many heavenly sources have been robbed...but

One thing is absolutely certain, that is, the source of the heavenly source in his hand is definitely less than that, because in addition to the year before the expiration of the agreement, the proceeds of the battle, in the battle of the flooding of the Hongyu star field, the magic Ye Xuan, the master of the temple, also murdered a lot of heavenly lords in public, and won the liquid of the heavens in his hands. It is only this part, and it is not a minority. To

Now, one year has passed, and the terrible accident that occurred outside the floodplain has spread all over the banks of the Milky Way...

In the past year, whether on the left bank of the Milky Way or on the right bank of the Milky Way, when all the people mentioned Ye Xuan, the master of the magic hall, they will change their faces and take a sigh of coolness.

Fierce, the savage name of the Lord of the Temple of God, really not called out!

On the left bank of the Galaxy, whether it is the top ten ranking of the Heavenly Beasts list, or the top ten rankings of the Heavenly Aboriginal list, although there have been changes since the endless years, it is basically only occasionally one or two of the rankings move forward or backward.that

The existence of a former top ten, suddenly disappeared from the top ten list, although there have been, but rarely. can

This time, although there has been no change in the list of left-wingers on the left bank, the change in the top ten of the left-wing Heavenly Beasts... is big!

The dragon whale that was originally ranked tenth on the left bank of the Heavenly Animals list was degraded...

The ninth-ranked cold-blooded blue crocodile has fallen...

Even the sixth-ranked hegemony wolf... is equally depraved!

These three exist, all of them are the top ten terrorists on the left bank of the Heavenly Animals, and they have been sitting on the list for a long time. The top ten has been untouched.

But now it's all fallen, and it's still within a year... killed by the same person!

Even in the last battle, Ye Xuan, the master of the Temple of Devils, was in the midst of a confrontational battle, killing the dragon whale and the hegemony silver wolf in succession...

Only by this point, the horror of his combat power can be seen!

Nowadays, there are already secret voices on both sides of the Milky Way. It is said that the power of Ye Xuan, the master of the Temple of Devils, is not only as simple as entering the top six of the left-wing Heavenly Animals. If

Without any accidents, he is very likely to have access to the top three.

In other words, among the horrible monsters in front of the **** silver wolf in the left bank of the beastly beast, I am afraid that at least three people are not Ye Xuan's opponents...

Although it has not been verified, it has been rumored in private. Do not

It didn't make any sense to go through this. Even the five old guys who were in front of the **** silver wolf on the left banker's list of beasts did not mind this.

Because the current list of the beastly beasts and the list of the heavenly people, on the banks of the Milky Way, has fallen to the altar, no longer the ranking of the peak of the pyramid.

Everything is because the two ancient beasts of the wolf and the black blood crocodile are born, and instantly changed!

Before the million years of age, there was no dawn in the Hongmeng Heavenly Land of this era. Later, the ancestors of the remnant, Hong Yu, created the treasure of Tianji Avenue, and let the heavenly geeks on both sides of the Milky Way see the entry. Hope of the avenue.

At that time, Hong Hao refining a large number of Tianjiubao liquid, and then a large number of Tiandao old geeks who had enough Tianjiubao liquid disappeared, went to different areas to retreat, and hit the Hongmen Avenue after the Heavenly Road...

Including the flood ancestor himself! day

After the road, the Hongmen Avenue is not so easy to break through. Even if there is a liquid support, it will take a long time.

Therefore, since then, the Tianji Avenue Bao liquid has been lost, and those retreating Tiandao blame have also lost news, no longer appear. straight

A year ago, the work of the wolf and the black blood crocodile crocodile was born, which made today's Hongmeng Heaven and Earth enter another prosperous world... an unprecedented prosperity in this Hongmeng era! from

In the year after that, there were more than a dozen Hongmeng Avenue strongmen who were born. Since there are fierce beasts and survivors, today, this includes more than a dozen Hongmeng Avenues including the Dark Wolf and the Black Blood Devil. The strong, together entered the Galaxy Hongmeng. although

It is said that this Galaxy Hongmeng list has just appeared. Because there are still no big battles between more than a dozen Hongmeng monsters, the strength is difficult to judge, so there is no point in the list, but it is juxtaposed.

Even so, it is enough to force the previous Heavenly Animals list and the Heavenly Voters list...

In the past year, across the entire bank of the Milky Way, there have been countless beneficiaries in the banned land of the savage beasts and the invaders. They are talking about the new Galaxy Hongmeng list and more than a dozen eccentrics on the list. to

At the beginning of the year, Ye Xuan, the master of the Temple of the Devil, was equally hot and famous, but as time passed, his name was gradually no longer mentioned...

Ye Xuan, the master of the Temple of the Devil, has been exiled to the treacherous stream of Hongmeng. There are all large and small turbulent streams, which are formed by the most pure power of Hongmeng, even if they are Do not dare to enter, the main body of the temple, Ye Xuan is only the peak of the heavens, into it, obviously deadly. although

He said that he has Shennong Ding, there are nine colors of flame sea, there are red lotus fires, there are and refining manuscripts of Tianjiubao liquid... all these are the top resources, but now they have Ye Xuan's burial disappeared, and naturally no one would remember it anymore. to

On the right bank, the Forbidden City is forbidden, and no one cares about it. The old squad of the left bank have been paying attention to Ye Xuan. It's just because of his various treasures and top-level magical powers. He opened all this, a small forbidden house, They still can't afford their interest. only

There is one exception, that is, the wild sky is green! he

After a month's exit, I felt quite sorry after I heard it all, but I didn't intend to let go of the Forbidden City. Now I am rushing to the Forbidden City, and I am about to come to this side, raging one...

After leaving Ye Xuan, the magic hall has been quiet in the forbidden area.

When Ye Xuan left, the four halls of the heavenly tyrants, such as the old pigs and the beasts, the devouring treasures and the lions, were placed in the forbidden place. If they were placed on the left bank, it might not be anything, but on the right bank of the Milky Way, It is already extremely powerful.

Since this time, all the strongmen of the six major corps of the Magic Hall have been restrained, and they are not allowed to go out privately. They are all closed in the forbidden land, and only some scouts and fleets take turns to collect intelligence.

With regard to the terrible changes that occurred in the Hongyan star field on the left bank a year ago, the entire right bank has now spread, and the forbidden land of the magic hall is naturally known. but

Whether it is old pig fine or lion Wanjin, they are not in the heart because they have confidence in Ye Xuan. when

However, because of the movements that Ye Xuan made, there were too many hatreds. They said that they did not expect that someone might come to the magic hall to ban the land, which is obviously impossible.

At least the blue sky and the green eye will never be easy to stop. He does not know that there are already four heavenly strongmen in the Forbidden City, even if they know that they will not be in the heart, because his awkward heaven and death There are also seven giants, counting himself, a total of eight heavenly blame. more

What's more, the Qingyan Heavenly Road is still in the late stage of the Eighth Order of Heaven and Heaven. It is not far from the peak of the 9th-order Great Heaven.

In fact, the four heavenly-class forces that sit in the Forbidden City in the Forbidden City are far from being comparable.

Although it was only a few years, the four people's cultivation was extremely amazing. old

Pig essence has already pushed the transformation of the magical pig to the ninth change, and his own cultivation has become a realm. In the past few years, he has also broken through to the heavens. Therefore, the old pigs are now in the magical pigs. In the ninth state of change, the strongest repair is the peak of heaven that has reached the ninth order of great perfection...

Of course, it is also the peak of heaven. He and Ye Xuan are still incomparable, but it is no longer a problem to suppress the green eyes of the wild.

As for the beast, Ye Xuan is already the second-order Tiandao when he left. Now he has become the medium-term heaven in the fourth-order world. Together with the four kings who are integrated into his body, the comprehensive combat power and the sixth-order mid-peak Shoulder. swallow

The cultivation of the treasure body is the fastest, and in just a few years, it has been from the original Tiandao first order to the current Tiandao fifth order, but because it is the innate devour of the source crystal plastic body, the combat power is quite small, enough to crush The seventh stage of the heavens. which is

Then they will fight against the front of the heavens and the eighth-order torrents of the blue sky, and they should not be able to fall.

As for Lion Wanjin, this guy has entered the retreat when Ye Xuan left, and he just made a clearance a month ago.

Before the retreat, he had just swallowed up the power of ninety-nine like the size of the broad bean, but it was hard from the barrier of the ninety-nine source nest stars. This

After a few years of retreat, refining the power of these ninety-nine broad beans, the lion Wanjin is now the seventh-order heavenly. If it is counted his thunder and poisonous body, it's good to be horrible. Tooth, I am afraid that the general eighth-order heaven is not his opponent...this

The four heavenly lords are sitting in the Forbidden City of the Forbidden City. They are naturally confident. If the blue eyes are not coming, the results will surely be expected...

It is a pity that all these sorrows and blue eyes are impossible to know. Now, he is carrying the elite army of his majesty, bypassing the black shore at the end of the left bank of the Milky Way, and escaping the starry field to the left part of the right bank... !

This time, Tiandao Qingyan ironed his heart to destroy the entire magical hall and squander it. he

In addition to the seven-headed generals including the sacred beasts, there are also thousands of great powers, hundreds of ruins, and tens of millions of ancient beasts under the power. when

However, coming from the left bank, such a huge beast army was inconvenient to hurry, so the entire army of ancient beasts was swallowed into the abdomen by Tiandao Qingyan. Now it's just him and the **** way in the void. Waiting for the seven heavenly beasts and beasts... eight

The figure is all heaven and earth, and the speed in the void is naturally very fast. Only a few days have passed from the dark end at the end of the left bank of the right bank to the forbidden place in the left section of the right bank.

Without half-politeness, without hesitation, he rushed directly into the forbidden land of the magic hall...

"Hey..."

Roar! "

"Hey..."

At one moment, the green eyes of the ruins of the heavens and the earth descended, and a blue-colored star-like eye was like a star.

Behind him, he followed the seven-headed huge-scale beasts, and there were **** souls...

In addition to the sorrowful sky and blue eyes, the seven heavenly beasts in the back are roaring, especially when the screaming sounds are heard. When the whistling sound in the mouth sounds, the horn of the head also has a circle of **** ripples that swell and quickly diverge. open. This

It is the **** magical power of the soul, and it can invisible intrusion on the will of the six major corps of the demon temple in the deserted star field.

"Hey..."

"Booming..."

"Hey!"

In the next moment, a screaming sound of long screams, a black-skinned giant pig suddenly appeared behind the **** body without warning. No

Half-hesitated, the old pigs who stood up and stood up, raised a hoof directly, squatting on the back of the head of the **** soul, so that its huge body was instantly blown up in the thunderous sound of the thunder. A **** fog, followed by an old pig swallowed a belly...

At the same time, the Lion King, the Emperor and the Engulfing Treasure appeared in the other three directions of the void..."

call out.....""

The shape of the body suddenly appeared, swallowing the treasures in the middle of the cold, and waved.

Almost at the same moment, a blood black volleyed out of the hands of the treasured body, welcoming the storm, and the blink of an eye turned into a star-like blood black stove, it was a furnace! "

Furnace? "

"Sure enough, you refining him, you are Ye Xuan's ... avatar?"

Seeing that the furnace is in the air, and the other three directions, the old pigs that have just smashed the blood of the soul, as well as the sacred beast and the lion Wanjin have also been put in place, and instantly let the stars In the huge cyan vertical eyes, there is an angry exclamation! This

Although the furnace of the furnace is only one step ahead of the shoulders, it is the eternal treasure of the era, and is made of some mysterious and strong metal...

It is also cast by the wild eyes of the wild, and the general heaven and earth strong, even in the late stage of the seventh and eighth worlds, as long as the strength is not stronger than the blue sky, it is impossible to erase the green eyes. The branding of the furnace, forced refining. he

Originally thought that the refining furnace was the Ye Xuan deity. At this time, I saw that the engulfing treasure had sacrificed it, only to realize that I was afraid to look down on the forbidden place.

Originally, the Hongyan Tiandao Qingyan thought that the refining furnace was the Ye Xuan deity, but at this time, when he saw the engulfing treasure, he finally realized a problem... I was afraid to look down on this magic. The palace is forbidden! he

I thought that there were only two heavenly lords in the Forbidden City, that is, the old pigs and the beasts, but now there are two more outs, that is, the devour of the treasure and the lion.

Although the devour of the treasure is only the fifth step of the heavens, but since he can erase his brand on the furnace, and it is the separation of Ye Xuan, it must be extraordinary means, the strength of the battle is probably not comparable to the mid-term. to

In the lion Wanjin, it is the late Tiandao in the seventh-order world, and the Qingyan Tiandao Qingyan once saw that he had bitten a small hole in the barrier of the source nesting stars, which is difficult to use. The degree of entanglement can be imagined.

In fact, in addition to these two extravagant geeks, the beasts and old pigs that were originally expected in his way also scared the flood of the sky.

A few years ago, the beast was only the second-order early Tiandao, but now it is the fourth-order mid-term. old

The pig essence is even more scary. It was only the first step of the heavens. Now it is the same as the nine-order grand perfection of the heavens. Although the combat power can never be compared with Ye Xuan, at least it is stronger than him...

In the middle of these thoughts, the whole heart of the blue sky and the green eyes suddenly sank to the valley.

However, he still hasn't hesitated, because including him, there are still seven heavenly lords on the side of the army, which may not have fallen into a disadvantage.

What's more, he still has hundreds of ridiculous, thousands of great powers, and tens of millions of ancient beasts and army... On this level, the magic hall is absolutely incapable of comparing with this savage army! "

Oh..."

call out!"

"Hey..." this

Engraved, a whistling sound, like a star-like giant vertical eye appeared in front of a vortex, a large number of fierce beasts from the floating, spurt out, and soon gathered into the army, all ancient and powerful wild animals, Tens of millions of people...

"Roar!"

"Hey..."

When the army of the wild beast appeared, it rushed toward the depths of the forbidden land in the forecourt, like a rolling torrent, raging the void...

At one moment, the six major regiments under the imperial hall also appeared. In the abandoned stars in the depths of the forbidden land, countless battleships, starships and beasts rushed out, assembled into a military, and came from a bang...

"Hey..."

"Oh la la..."

The low humming sounds, accompanied by the slap-up of the lock, and at this moment, the engulfing treasure has spurred the field power of the furnace...

The entire huge, star-like furnace body shivered slightly, and the 10,000-striped chain on the outer wall of the furnace was rushed into the air, intertwined into a secret pattern in the void. One

The invisible pressure of the stocks spread out, forming a kind of mysterious field power, and the voids within a hundred billion miles were blocked.

It is only the power of the field of the furnace that forms the power of ban, and it is obviously unable to block the forcible teleportation of the mid-term strong. but

At the same time, the pressure of the old pigs, the devour of the treasures and the body of the emperor also spread out, invisibly blessing, so that the power of the ban in this meditation is strengthened in a moment, if it is a golden soup... see

This posture is clearly to leave all the invading enemies who have come here today, and the rhythm of complete killing, even the strongest of the heavens and the environment is no exception, like closing the dog, to ... kill all!

"Roar....."

The body of the beast was Panda, and at this time, he screamed and rushed toward the army of the wild beast. The sound of the gods came out: "You drag the seven old monsters and kill the blue eyes first. The army of the wild animals...the beast solves!"

"call out!""

Oh..." and

At the same time, the sharp and unpredictable sound of the air broke out, and the four horns were spurred out from the huge body shape of the emperor. They stormed into the storm and turned into four kings. They lined up in a row and emptied into the void. The cultivation of the breath is all half-steps of the ridiculous nine-step grand perfection...

"Hey!"

A fierce whistling sound rang, and the void trembled slightly, giving people a feeling of horror. When the four kings appeared, the king of the soul had already screamed.

The war la in the body of the sorcerer is the soul of the war, and the kinetic group in the war is the sorcerer. This

The power of the sorcerer's soul is strong and weak, and it has a direct relationship with the life form of the sorcerer's beasts in the war. After the tempering of the razor fog, the soul of the sorcerer The tens of millions of soul beasts in a hive node have been generally promoted to the soul of the cave. its

There are even 300,000 domain start-ups, but it is a long time ago.

Nowadays, these tens of millions of soul beasts are almost all immortal. There are more than 300,000 masters of the universe, and the universe is more than 30,000. All the souls and beasts in the battle are all taking action...

Among thousands of three-kilometer-diameter honeycomb nodes, tens of millions of soul-beasts are fully motivated to evoke the unique spiritual fluctuations of their ethnic groups, gathered from each of the hive nodes. Shun

The special pipes between the honeycomb nodes are all flocked to the core nodes of the core circle. They are gathered into one, and the speed is very fast. The blink of an eye turns into a sharp and screaming sound. Imitation

If the angry sea roars, it is like the sound of the sound of the sky, and it instantly vents. At this moment, the whistling away, the entire tens of billions of tens of millions of members of the starry sky are trembled in this sudden whistling sound, giving People have a horrible feeling that is enough to tear the sensation of the sky.

All the ridiculous beasts in the front of the Void Wild Army are all mad, and even the mind and consciousness are at this moment. It seems that the spirits are drawn by howling, and they have to leave.

An invisible tidal wave like a sea of stars, shrouded their body shape, directly acting on the soul level, and launched a raging...

"Hey!" and

At the same time, the Nether King also raised his anger and anger, and the logo of the soldier's scoop on his chest suddenly stunned!

Tens of thousands of soldiers in the thousands of hive nodes in the battle, all under the emptiness of the Nether King, all of them have launched an operation. There are thousands of honeycomb nodes with a diameter of three kilometers, and each one is inside. There are tens of thousands of emptiness soldiers stationed in the battle, fully motivating the unique biological wave frequency of the squad...

These unique biological wave frequencies are guided by the scoop in each hive node and are uniformly conducted out.

Thousands of honeycomb nodes have thousands of bio-waves like the Dajiang River, and all the blinks are flowing along the pipeline to the core nodes of the core circle.

Then gather together for one, with the sudden scream of the Nether King, this horrible mysterious creature wave frequency, like a tsunami, from his mouth, an instant full-scale blast.

After two waves of attacks, one of the souls of the soul, shocked the mind, and made the consciousness stunned. Then the scream of the tsunami in the void battle, the body of the wild beast exploded in a moment, the **** fog in the sky It's terrible, it's so fierce...

Chapter 5153: Funeral

For a moment, with the four kings squatting in the void, the scorpion king and the emptiness king each launched a wave of attacks on the first time, covering the entire vast army of the beasts. Connect

Even two waves of attacks, one of the souls, shocked the mind, made the consciousness stunned, followed by the emptiness of the tsunami in the void battle, and immediately there was a large number of wild animals blasting, the scene of the blood in the sky It's terrible, it's so fierce...

A face-to-face, unrecognized army of wild animals has been hit hard, but at this time, without waiting for them to return to God, the army of the six major corps of the Magic Hall has been surrounded by all sides. true

The positive starry sky battle, this opened the curtain.....

...versus

At the same time, the magic hall is forbidden from the outer periphery of the star field, engulfing the treasure body, the old pig essence and the lion Wanjin three, and is also opposite to the seven old wilderness roads headed by the heavenly green eye, separated by a hundred billion miles. !

"Today, you all have to die! Hehe..."

At this moment, like the stars in the huge cyan vertical eyes, the horrible screams came out again. The ridiculous heavens and blue eyes were completely angry. All the wild animals in the body had already rushed out, but the huge vortex still existed.

"It's you who are going to die..."

The lion-and-golden The figure has already entered this huge vortex and disappeared. This

The vortex is connected to the body of the heavenly eye, and it is a passage. The army of the wild beast that was previously swallowed into the body is rushed out from here. Such as

This lion Wanjin broke into it, no doubt waiting to enter the body of the heavenly eye.

Moreover, after he entered, it was naturally impossible to do nothing. The repairs must be motivated to the extreme, including all kinds of blood and magical powers, and they will all be fully exerted at the first time without hesitation. he

However, the Thunder poisoned the body, but also has a screaming good mouth. After entering it, he rushed for food everywhere, just like swallowing it, while fully urging the blood of the Thunder poison body..."

boom! "

"Booming..."

The thunderous roar of the human beings suddenly came out of the huge cyan vertical eyes. The huge vertical eyes like the stars were instantly blasted into a big mouth, and the corners of the eyes split open, and the hair screamed and screamed. The shape is also rolling in the void... too

It hurts, the thunder in the body blew open, and it is still very poisonous, and with the lions of the lions to release their teeth, this is almost a fate, even if it is a wilderness, it is too late to prevent it, and it is also tossed to die. ..."

boom! ""

Card..."

I didn't wait for the heavens and blue eyes to slow down, and the old pigs who had stood up had already spurred and went to him.

The pair of black hooves that waved like the wind directly greeted the corners of the eyes of the cyan vertical eyes, but not just a moment, but a moment to pick it up, just like a drum is as dense as rain.

The old pig essence is obviously awkward. His **** hoof is the hardest part of his body. Now he is waving like a wind, his shadows are invisible, dazzling, and directly boosting his power.

In this way, I knocked down intensively, and immediately came the sound of the crack of the card bone. The corner of the eye of the blue eye cracked open, and there was a gorgeous light shining inside. After all, it was a powerful existence of heaven and earth. Fuyang Day, dazzling...

Although the Tiandao Qingyan is cultivated as a powerful, but the old pig essence is now the ninth-order grand perfection of the heavens, and repaired to exceed his strength, now it is close to the distance, raising the hardest hoof down the mantle, in an instant It caused serious injuries, and even the consciousness was in chaos. It is no exaggeration to say that it is dying.

But after all, it has not fallen!

But it doesn't matter, because at this moment, the engulfing of the treasure is also shot...

"call out....."

After the weak sound of the air, then the overwhelming chain slammed...

The devour of the treasure body flashed with cold awns, and the figure instantly came to the front. With a wave of hands, the huge furnace of the stars shook the tens of thousands of striated chains on the outer wall of the ding ding from the sky...

Like a Fang Tian Da Yin, it lingers on the right eye corner of Tiandao Qingyan...

This is definitely a fatal blow!

After all, the furnace is made of some mysterious and strong metal. Like Shennong Ding, it belongs to the age-old treasures.

Nowadays, after being engulfed and treasured, it is integrated with the power of the blood of the devour of the treasure, and the power is even stronger. If

It is in the normal heyday state, but now the Tiandao Qingyan is almost seriously injured and dying. The entire corner of the eye has been knocked to crack, and it is like a big day.

Even his consciousness has long been confused, hehe, where is there to urge the body to defend? The power of this blow completely blasted to the porcelain.

The horrific sound came in an instant, and there was no suspense. The huge body of the Tiandao Qingyan Panda reached a **** fog in an instant, and it spread out. The body shape of Lion Wanjin was revealed.

"call out....."

The devour of the treasure has long been a light-hearted road, and an invisible spurt of strength has sprouted out of the wave, and the **** swell of the heavenly blue-eyed body is shrouded, wrapped up, and instantly turned into a **** man, not into the devour The body of the body. with

When the lasing comes, there are still a dozen or so mega-heads, all of which are the source of the heavenly source, and now they are cheaper to swallow the treasure...

At the same time, the frontal banned starry sky, the six major corps of the Magic Temple and the **** battle of the wild and wild beasts have also entered the raging trend from the very beginning..."

Hey! "

"Hey..."

The Nether King launched an invisible shock wave and roared away. This horrific biological wave of frequency directly caused a faint emptiness in the void.

The sight of the eye is amazing, giving people an illusion, as if the entire vast expanse of the starry field, trembled under the sudden high-frequency cicada.

"Boom!"

With a horrible sound that was sharp enough to tear the sky, all of them were temporarily deaf, and in front of the void, a wave of invisible tides like the ocean of stars and stars rushed out.

Turning into an invisible force that plunges into the sea, it shrouds a vast expanse of hundreds of millions of miles in a flash, and shrouds a large number of wild animals from the opposite side...

Can be too strong, even the strongest of the three universes can not hold back, the body shape directly blasted, it is the ancient powers and the ancients supreme, but also seriously vomiting blood, tragic to the extreme.....

"boom!"

Bang..."

The sound of clear cracks like rain is overwhelming, and this piece of tens of millions of miles away is emptied and twisted in an instant...

The line is accessible, a large number of vain spurts come out, and several large voids in the void, a large number of void turbulence directly form a hollow vortex like a black hole, and I don't know how many wild animals are swallowed. With the flesh and blood that bursts..."

Oh la la..."

"Boom..."

The sound of clear and cracking sounds like the rain is overwhelming, and the emptiness of tens of billions of miles, the moment is tearing, the sight is accessible, and a lot of emptiness flows out...

Among them, there are several large void cracks. A lot of emptiness in the void directly forms a hollow vortex like a black hole. I don't know how many wild animals and swollen flesh and blood! This

It's just a starry sky massacre, the starry beasts below the mighty powers, even the cosmic supreme, in the face of this black hole-like void cracks, the endless storms of the tides are bound to be like paper, destroyed and ruined!

But this wave of attack is only the power of the Nether King. It is far from over, not all. At the same moment, the blood-mosquito king is making a terrible scream, and the **** mosquitoes in the chest are also erupting.

The situation is getting more and more fierce, and the scene that has been revealed is clearly that the army of the wilderness will completely break down this and will immediately destroy the posture!

"Roar!"

Hey! "

"Hey..."

Everything is long, but it happens in a short period of time.

It's just a matter of interest. The army of the wild and savage beasts has been hit hard and is being slain by one side. On the outskirts of the starry field, the commander of the army is ridiculous, and the eyes are swallowed up by the treasures and the lions. Old pig fine teamed up to kill...

Until then, the remaining six heavenly beasts reacted, and the conditioned reflexes generally screamed and screamed, revealing the terrible anger and endless fear and panic...

We didn't expect it to be the result. Now my heart is already remorseful and I want to take a long walk.
can

It is too late to blame everything, whether it is the Lion King, or the devour of the treasure, or the old pig essence, it is impossible to sit and watch them leave. They must all be killed here, one must not be less!
"

Hey, is it here that the right bank is forbidden? The eighth-order Tiandao was bombarded with a face-to-face, how did the deity feel that they came to the left bank..."

The **** old pig sperm, which has not been seen for a few years? Actually, it is already the peak of the ninth-order grand perfection. How did all this work? It's not scientific at all..."

"Can't force the enemy, hurry to withdraw!"

"Hey, the old man is not willing..."

"Leave the green hills, don't be afraid of no firewood, green eyes are being murdered, I will wait until one day to report, you, quickly withdraw..."

"Roar!"

"Hey..."

With the sound of the gods, these six ancient heavenly beasts screamed in their hair, revealing endless unwillingness and resentment, but the body shape did not hesitate, even if they immediately retired.

It's not that they don't want to teleport or directly tear the void away, but they can't do it at all. The previous devouring of the treasure has already ignited the field power of the furnace, and this emptiness is banned. again

Coupled with the old pig essence and the lion Wanjin and the emperor to fully promote the body to repair the dispersal of the atmosphere, even the strongest of the heavens, within such a short distance, can not directly teleport away .

They don't want to stay and decide to fight, to avenge the sorrows of the wild, but it is obviously only a good wish, and it can't be put into practice. body

For those who are strong in heaven and earth, they are all living in the endless years of endless years. No matter what time, the most important thing is that it is only their own life. where

I am afraid that my heart will be sorrowful and angry, I will not be willing to know it, and I will be in danger of being degraded. In the end, I can only withdraw myself...

"Hey..."

"I want to go now? It's already late..."

The pig's fine hair grows long and the shoulders disappear directly from the ground. This is not a teleport, but the speed is fast enough to surpass the lightning.

"boom!"

When it reappeared, the old pig had already arrived at the back of a savage beast. He stopped in front of his way. The person stood up and raised a pair of forefoot directly. He slammed into the sky. The shape of the beast. Knot

If there is no suspense, the whole body shape of the late stage of the seven-ordered land is directly blown into a **** fog, and then it is swallowed by the old pig's mouth. to

In the source of the heavens, this time, there is no reappearance. The liquids of the heavens and the roots in the hands of the old blame in the banned land are all collected in the hands of the green eyes of the wilderness. When the heavens and the green eyes were fallen, they were swallowed up. The treasure is taken away.

At the same time, the engulfing treasure and the lion Wanjin also approached the side of the two heavenly beasts under one flash, and at the same time, the result was not suspense, and the two beasts could not hold back the blow. The huge body shape directly exploded, and this turned into a **** fog, which was swallowed by two people...

All of this is long-lived, but in fact it happens between suffocation. In the blink of an eye, there are only three remaining beasts in the six heads.

These three sacred beasts see the old pigs and the engulfing treasures and the lions and tens of thousands of people so violent and violent, the means are hot, the heart is decisive, and even the real combat power that is displayed even is scattered in their bodies. The repairs that came out were above the realm. In a moment, they were mad and shocked, and they scared again and they screamed and screamed...

However, the retreat of their stature did not stop at half point. Instead, they felt more and more eager because they felt the approach of death. The castration was one of the tightest, and it was already on the outer edge of the forbidden land of the magic hall...

The emptiness of the emptiness, to ensure that these few heavenly beasts can not be teleported away, the field power of the furnace, as well as the old pig essence, the engulfing treasure and the lion Wanjin, the four beasts The spurt of the heavens and the pressure of the heavens is not so vast, only two hundred billion miles away...

If you really let the three heavenly beasts retire to the outer edge of the forbidden land of the magic hall, even if you rush out of this area, then the three old guys will teleport directly away, or tear the void away, even though the old pig Because of its strength, Jing Jing can continue to pursue, and even there is the possibility of completely killing the target. but

After all, he has nothing to do, and his strength and methods are not as enchanting as Ye Xuan. There is no possibility of chasing three.

So, if you really want that, at least two old guys will escape, and this is absolutely unacceptable.

Realizing that this situation is very likely to happen, the behemoth in the distance screamed and screamed, and there was an action in an instant...

"Roar....."

"Card..."

boom! "shock

The roar of the sky roared into the void, and the emperor screamed with a roar of his hair. Then, his huge skull, which was covered with a large number of honeycomb facets, shook his brilliance. One

A huge energy light ball appeared from the mirrored skull of the beast, and the speed far exceeded the lightning. It directly crossed the 200 billion nautical emptiness and reached the outer edge of the forbidden land of the magic hall, directly blocking the three heavens. The beastly fleeing in front of the road, and in an instant... blasted! "

Roar.....""

Card..."

"Boom!"

The roar of the sky rang through the void, and the emperor screamed out his hair! tight

Then, his huge head, like a star, and also covered with a large number of honeycomb facets, screamed a brilliant light...

A huge energy ball of light emerges from the mirrored skull of the beast, far beyond lightning. straight

After crossing the two hundred billion miles of the void, to the outer edge of the forbidden land of the magic hall, directly blocked in front of the escape of the three heavenly beasts, and blasted in an instant...

"Roar!"

"Hey..."

A huge energy light ball is clearly formed by the pure anti-material black dead light. It is from the hands of the heavenly Taoist monsters. Even these three heavenly beasts are afraid to scorn their fronts. There is damage...

Under the whistling whistle, their body shape, which was extremely repulsive, was easily stopped in the air. on

It's such a delay, the old pig is fine and swallows the treasure, and the lion Wanjin three have already caught up close, the strength of the body is pushed to the extreme, each person locks a target and immediately shoots...

Oh..."

"Hey!" old

The pig was simple and rude, and it was directly raised. A pair of huge black pig's hooves smashed on the head of a fierce beast and directly blew its body shape into a **** fog. lion

Wan Jin opened his mouth and squirted a huge black thunderball. He blew it in front of the door of a beastly beast. He was a Thunder poison, and the color of the thunder ball could be seen as black. The head of the venomous beast exploded halfway, and he was close to him, punching his chest, and the same body burst into blood.

The pharyngeal body is a flashing body, and the whole body is transformed into a shell of a beast in a body, so that its body is blown into a huge blood fog, and then all the blood fog is quickly condensed, directly He swallowed up...

Just three strikes, the three heavenly beasts have fallen, which basically represents the result of the annihilation of the ruined land, because only two or three million ancient wild animals are left behind, and the strongest is just a ridiculous The situation is repaired, it is impossible to escape today, and the final tragic ending is doomed..."

Oh..."

Oh..."

After the opponent solved it, the old pig was so excited that he looked up and stunned. In the past few years, he was too depressed in the forbidden land of the magic hall. Today, he opened the killing ring and told him that he was in a good mood.

The lion Wanjin and the engulfing treasures are silent, turning to the forbidden land star field, the body shape rushed back, squatting on the edge of the forbidden land, standing idly by. ban

In the area of the Earth's Stars, there are now more than 30 million heads of wild animals. They are being surrounded by the four kings and the six major legions of the Magic Hall. Now it is the blood-mosquito king...

"Roar.....""

Card..."

As soon as he screamed, the **** mosquito king's huge body shape immediately came to the sound of mechanical smashing of the card, and the naked eye showed a huge trumpet on his chest. The color was a black The dark red color, like dry blood, gives a very heavy feeling of depression...

The first half of the core node of the smallest ninth ring inside the giant bell mouth is densely covered with a sharp and sharp alloy thorn, which looks like a huge alloy hedgehog. straight

Although the core node with a diameter of 3,000 meters is only covered with alloy thorns on the side of the bell mouth, the number is extremely amazing, and the arrangement is too dense, and the total number exceeds 100 billion! And

The hardness of these alloy thorns is also extremely amazing, more than several times the 100,000-meter diameter Star Fortress main keel material. because

For these alloys, the thorns are all built with a special mineral or crystal. Each of the alloy thorns has a length of a hundred feet. If it is thrown into a spear, it will not be worn by a warship or even a fortress or a starry fortress. Under the words. This

It is the uniqueness of the blood-mosquito war, but the forging system is specially tailored according to the characteristics of the mosquito family. The blood-mosquito war is definitely the only one of the four major wars that can issue physical attacks, not just It's just an attack of energy form. "

Roar! ""

Oh..." with

The blood-mosquito warfare appeared, and the blood-mosquito king once again screamed and screamed, and the body shape rushed out at the same time, and the chest part immediately came with the violent high-frequency tremors generated by the mosquitoes flapping their wings. This

For a moment, like the numerous holes in the hive, the dense holes of the screams made a low humming sound, which made the whole piece of emptiness tremble, as if it had some kind of resonance. This

The power of the high-frequency vibration is constrained, gathered together, gathered from the honeycomb nodes to the core nodes of the ninth circle, and after the increase of the special form of the war, the outer diameter of the largest diameter of the war At the moment, the void is blown out of wrinkles... no

In the shape of the shock wave, there are countless giant alloy spears made of special materials, even the stars can pierce, and now whizzing away, its momentum is simply ruined!

"Roar!"

Hey! "

Oh..." This

Some alloy thorns are driven to the extreme by the invisible shock wave. When the blast is gone, there is an invisible ripple in the void. The blink of an eye is tens of billions of miles, and it is in front of the army of wild animals.

Like a tidal wave, the horror of the sky is also screaming in an instant, revealing the endless grief and despair. There are many wild animals and powers among these wild beasts. The rest are basically all powerful in the universe. The original attack without fear of **** mosquitoes can at least avoid.

But now, their body shape can not be moved under the pressure of heaven and earth dispersed in the body of the emperor. They can only watch the invisible shock wave wrapped in the sharp and massive alloy spear, and blast toward themselves. Come here...

"puff!"

Oh..." No

There is a half suspense, and the boring and strange noises are coming in an instant. Looking around, in the emptiness of the tens of billions of miles ahead, countless wild animals have a blood hole in their bodies. Even the power and the wild animals are no exception. Absolutely

Most of the wild beasts exploded on the spot. Even if some of them didn't fall on the spot, they were still dying, but they couldn't hold on for too long. They simply couldn't keep going because the four kings quickly looked up. Roaring, his body slammed into the army of the wild beast. body

After the shape, after the encounter with the body shape has not exploded, but still seriously injured the dying wild beast, immediately punched out, making it bursting and smashing...

This is a **** massacre, more than 30 million powerful wild animals, in a short period of time, has been completely killed.

In the blink of an eye, the figure of a wild beast can no longer be seen in the void, and there is an endless stream of red blood and fog, and the tens of millions of miles of the vast void have been dyed red, and it is shocking. to

Therefore, this war has completely ended. It is also from this moment that the flood has become history. On both sides of the Milky Way, in this Hongmeng era... I will be removed!

The right bank of the Galaxy! when

The Qingyan Tiandao Qingyan took the army of its elite wild beasts from the floodplain in the middle of the left bank, and circumvented from the vast darkness at the end of the left bank of the Galaxy. When the imperial hall on the left bank of the right bank was banned, the news spread quickly on the right bank. This

In the past few years, the high-altitude beasts on the right bank and the high-levels in the star of the survivors have always sent the scout team to crouch in the distant sky outside the forbidden land of the magic hall, and closely watched everything in the forbidden place of the magic hall.

Whenever there is any wind and grass, the news will be sent back to the right bank for the first time.

It is because the name of Ye Xuan, the master of the temple, is too great. His growth rate is too amazing. He was only an immortal strongman hundreds of years ago. In just a few hundred years, he has crossed the universe and the power and the absurd. The situation has become an eye-catching grotesque.

And even after entering the heavens, his growth rate has not slowed down, but it is faster. In just a few decades, it has become the peak of the ninth-order grand perfection. Even the entire left bank and the right section are alone. deterrence.

Even the sixth-ranked hegemony wolf on the left bank of the Heavenly Road is not an opponent, and was bombarded in public. Nai

As for the two horrible Hongmeng eccentrics of the wolf and the black-skinned crocodile a year ago, they were not able to suppress him, but they voluntarily exiled to the endless and devastating sorrows of the sinister...

Because Ye Xuan, the master of the Temple of Devil, did not fall, but was forced to voluntarily exile. Therefore, on the right bank of the Milky Way, even some of the fierce beasts and the high-ranking people in the sect of the sects had a heart to smash the forbidden place, but they never dared to take it.

They sent the scout team to squat for a long time in the distant void outside the forbidden land of the magic hall. On the one hand, they wanted to see if Ye Xuan, the master of the temple, would return. On the other hand, he wanted to specifically explore the magic. The overall strength of the palace now in the forbidden place...when

The sorrowful heavens and blue eyes with seven heavenly beasts came and rushed into the forbidden land of the magical hall. They called out tens of millions of squadrons of the fallen beasts. When they wanted to slash the forbidden land, these were in the distance. The crouching parties scouted the first time and passed the matter back to the forbidden land and the star powers of their own...

When the incident was just started, there were some savage beasts on the right bank and the celestial and ridiculous people in the star of the remnant. Some of them had quietly rushed over, crouching in the distance and paying close attention to everything.

However, they did not expect it anyway, including the hunters of the sky, the eight-headed beasts, and led a tens of millions of giants of wild animals, including hundreds of ruins, thousands of powerful, still still It's just that when the meal is not finished, it has been fully slaughtered.

Including the sacred heavens and blue eyes that were repaired by the eighth-order heaven, one did not escape, and the whole army was annihilated! when

When the war ended, at the end of the battle, the magical hall was forbidden to fall into a dead silence in the distance, and then there was a sound of coolness, and all kinds of screams rang out of the void..."

hiss! Too amazing, such a lineup of luxurious troops, has been completely wiped out in a short meal? The strength of the forbidden place in the magic hall has been so strong..."

"God, that black pig is actually the peak of the ninth-order grand perfection. How did this guy cultivate? It's almost going to the sky..."

"There is also the head of the beast, although it is only the fifth step of the heavens, but counting the four mechanical beasts that are integrated into the body, the real combat power may be comparable to the late Tiandao in the seventh-order world..."

"In addition, there are two heavenly lords in the Forbidden City that have never been seen before. There is a heavenly and fourth-order sacred, and it has taken away the smoldering furnace of the sorrowful heaven and earth, a heavenly seventh-order, these two guys are Where did it come from..."

"It doesn't matter where it comes from. What's important is that the current forbidden place in the magical hall is not something that I can provoke. The eight heavenly meals are destroyed by the group. Even if it is placed on the left bank of the Galaxy, it is also Can enter the middle of the flow..."

"Dissipate it, this place is inconvenient to stay for a long time, even if the Lord of the Devil's Temple Ye Xuan does not return, this magical palace is not forbidden, I can still make an idea, and then stay here, in case of misunderstanding, it is not good..."

"Yes, it's just that the Forbidden City has been so strong. Once the Lord of the Devil returns, count his strength, who can compete with the entire right bank? Can't afford it, can't afford it..."

"Roar!"

"Hey..."

In the end, these heavenly eccentrics and peaks and sorrows screamed and screamed, but they did not stop, but they did not stop, and the scouts sent by their respective forces retreated, and they went away...

"Count them to know..."

The knowledge of the treasure body has always closely followed everything outside the banned land of the magic hall. At this moment, we see that the peaks and the eccentrics of the forbidden land and the sacred land of the right bank are all gone. Han Mang flashes, cold sounds out...

After the cleanup and unfolding, and soon ended, where the six major corps of the Temple of Devils came, they quickly dispersed and returned to the abandoned stars in the depths of the forbidden land.

The entire Great Hall of the Forbidden City has once again restored its tranquility. If it is not appropriate, it will be seen by anyone. I am afraid that no one will believe it. Just here, I have just staged a terrifying starry sky, even the Heavenly Taoist, all have fallen eight.....

...

A month later! right

The vast and dark area in front of the shore, the quiet sky around the source nest star base camp!

The weak sound of the break sounded, and a slight incomprehensible sound rang, and Ye Xuan's figure instantly appeared.

Turning around and looking around, his cockroaches flashed and shook his fists subconsciously: "This temple... is back!"

Without stopping, the voice is still not falling, his body shape has been plucked out, and the source nest stars in the distance, the power of the gods sweeps over, and it is determined that there is no abnormality, which falls into the surface of the stars. source

The surface of the nest star has no visible patrol of the scouting team, and all of them are crouching in the dark. This is also the command of Ye Xuan. Today, the banks of the Milky Way are not flat. I am afraid that if there is a strong star in the sky, I will see the clue. when

However, if someone really presses the figure and stops at the source nest star, the top of the base camp inside the star will immediately shoot and kill it, so as not to leak the news. Such as

Today's source nest stars, the interior has long been swallowed up by the Longye life giant plug, under the shallow layer of rock formation, is the entire life giant plug, huge and incomparable. where

I am afraid that the strong people of heaven and earth will come here, and the life of the Longye is so powerful that it can kill and kill.

The source nest star was originally huge, and now it has become the life giant plug of the Longye. The interior of the giant plug uses the space folding technology, so it looks like it is so vast that you can't see the end.

After Ye Xuan entered the interior of the star, the news of his returning again was quickly transmitted. Looking around, there were a lot of starry beasts coming around...

Chapter 5154: Bloody in the middle

After Ye Xuan entered the interior of the star, the news of his returning again was quickly transmitted. Looking around, there were a lot of starry beasts coming around...

Among them, we can clearly see the swords of the sea, Cang Qingyu, and the figure of the devil who is Neboshan, Ba Gua, Zuo Fengtai. package

Including the eight King Kong is also among them, but the flying scorpion and the silver scorpion have entered the other source nest stars to steal the sky, and now naturally not here.

All of his Majesty's generals spurred, everyone was very excited, this time he left soon, but also for several years.

After a chill, Ye Xuan looked at the repairs of the people, and the face suddenly showed a happy color...

In the past few years, the hearts and minds of the people who have stayed in the source nest are dedicated to cultivation. They are very gratifying to enter the country. The eight King Kong and the returning sea, the Cang Qingyu, and the Nebo Mountain, Ba Gu, Zuo Fengtai and other leaders of the Devils Corps, now all are already ancient and powerful, and still in the late stage of this situation, it is not too far from the absurd...

As for the 20,000 magical strongmen who have returned to the sea and the glory of the Qing dynasty, all of them have the power of the Lord of the universe, although it is only the beginning, but as long as there is a large supply of cultivation resources, I believe that soon After that, the entire 20,000-strong Devil's Legion will be refined again. One

Since then, the 20,000-magic army led by Hai Haiyi and Cang Qingyu has been cultivated by Ye Xuan as an elite ace team. I have not known how many top-level cultivation resources have been invested in these years. Already amazing! but

This is obviously not enough. Everything will continue. I think that soon after, there will be a Demon Legion composed of 20,000 universe supremes. Ye Xuan feels very gratified. This

The elite of the demon who first followed him, the ultimate height of the devil, is that he is looking forward to the incomparable, perhaps in the future there will be an elite army of all the evils composed of the ancient powers. except

The Devil's Legion, the star-studded beasts in the army of the 10 million beasts under the old pigs are also amazing. Such as

Today, there are more than a hundred desolation in the whole army of beasts and beasts. As for the ancient powers of the ancients, there are thousands, the Lord of the universe and the Lord of the universe, and the supreme cosmic, all of them are tens of thousands. Yu

At least all of them are the strengths of the emperor's immortality. This is definitely an elite army of fierce beasts. The overall strength is strong, even surpassing the beast army of the six major legions in the forbidden area of the magic hall... Of course The power of the heavens and the roads above the ridiculousness is not counted. After all, there is not a heaven in this tens of thousands of beasts, but there are old pigs sitting there!

After the gathering, Ye Xuan asked about the current situation on both sides of the Galaxy. The eight King Kong quickly introduced it. Although the source nest camp has not yet been born, it has always had an elite scout team to collect intelligence outside, so for the Galaxy All the major events happening on both sides of the strait are known.

Including the details of the thrilling battle that took place in the Forbidden City a month ago, the Eight King Kong also explained.

"The wilderness of the sky, the blue eyes... finally got rid of it?"

It is said that the ruins of the sky and the green eyes are falling, even the last seven heads of the heavenly savage beasts, as well as the tens of millions of ancient wild beasts, all without exception, all in the Forbidden City, the leaves Xuan Xintou suddenly loosened, his face showed a sense of emotion, whispered...

Naturally, it is inevitable that there will be emotions, because this represents the vast world of this era, completely become history, and has been removed. return

At the beginning, his biggest enemy was the Tianji, but he had already been extinct. With

After that, Ye Xuan's enemies became the eyes of the wilderness, and now they have been annihilated in the long river of history.

Not only him, including the headless baby corpse, the grievances and obsessions in the heart, should also be able to dissipate. He and the ridiculous heaven and earth are entangled in the endless years, I am afraid that I can't think of it anyway, and finally the wilderness and the underworld's forces will actually In the absence of him, he was completely buried in the hands of Ye Xuan...but

Everything still doesn't end completely, because there is still a star blog. For Ye Xuan, in addition to exploring the secrets of the mysterious mother star and pursuing the ultimate goal of supreme chaos, the only remaining knot is the only remaining heart. And the secret of the phagocytic system he created! Do not

After all this is not anxious, before the next Hongmeng era opens, all this will eventually come to the fore! "

call out! ""

call out....."

Putting away the feelings of his heart, Ye Xuan waved his hand, and a large number of top-level cultivation resources, including various grades of Baodan, were immediately sent out by him, divided into two parts, packed in two pieces of storage magic, sent to the eight King Kong In the hands...

"The two cultivation resources, one of which you spend in the source nest base camp, one is escorted by several savage beasts to the magic hall to ban the land, handed over to the old pig fine, for the magic temple of the other side degree....."

Seeing one of the eight King Kongs took over two treasures of storage, Ye Xuan took over: "This includes a large number of colorful magical drugs, chaotic drugs, and a large number of valuable treasures, including twenty-nine. There are a lot of big-powered Baodan and 30-level wilderness Baodan, enough for you to spend..."

Soon after, the conditional opening of the Galaxy Star Field will come. Before that, the magic hall is forbidden in the Ming Dynasty, and the source nest base camp is dark. You should watch each other and don't have to compete for the battle outside, and concentrate on cultivation as much as possible."

"Once the conditions of the Galaxy Stars are coming, it will be the time to enter the Galaxy Stars, launch the Galaxy, and compete for the next century." I am afraid that there will be no time to practice again..."

"call out!"

After that, Ye Xuan did not hesitate to say hello to the Eight King Kong and the returning sea knife, Cang Qingyu and other people. Then he turned and rushed out of the source nest base camp, and his body shape disappeared into the darkness of the far end...

Since the magic hall is in the forbidden place, everything is as usual, even the most worrying of the wilderness, the green eyes are already in the air, then Ye Xuan no need to go there. from

After the open source nest base camp, his destination to this time is still the left bank of the Galaxy. Such as

Today, his own cultivation is the fifth stage of the heavens, and the nine-order great perfection that can be swallowed by the thirty-level Hongmen Baodan, and four small steps need to be broken.

Although the transformation of Ye Xuan is the speed of entry, the breakthrough of the four small steps will not be too long, even in the usual circumstances, but it is indispensable for several years.

Although it has not been a long time in a few years, for him, there are some feelings that can't wait.

Now there is more than a dozen honors in the glory of Hongmeng, even after the Heavenly Road. There is a strong hunch, and the conditional opening of the Galaxy Star Field will soon come...

Before that, Ye Xuan had to repair himself to reach the Hongmeng Avenue. Otherwise, why should he compete with these Hongmeng monsters for the next era? Why protect the shackles of the Forbidden City and the source of the nest in the base camp? Place

Therefore, he must go to the left bank and look for the top ten beasts and survivors of the Heavenly Taoist list. In the **** battle, he will advance as much as possible to improve his speed of entry into the country...

After returning from the emptiness of Hongmeng, Ye Xuan decided to go to the left bank and look for the top ten beasts and survivors of the Tiandao list to fight in the **** way, and to repair themselves as much as possible. Upgrade up...

After leaving the open source nest star base camp, he even rushed to the end of the right bank of the right bank, and circumvented from the dark end of the right end of the Milky Way to the left bank. way

In the middle, Ye Xuan considered all aspects, he decided not to show his own face, including the violent and three-headed six-armed konjac true form, because that will undoubtedly let the parties on both sides of the Milky Way know, the Lord of the Temple Ye Xuan has returned from the emptiness of Hongmeng...

After all, there are more than a dozen people on the left bank of the Galaxy, and there is more than a dozen people on the Hongmen Avenue. Any one of them, Ye Xuan can't be an opponent.

Knowing that it is not in the game, there is no need to prematurely provoke these Hongmeng monsters to pay attention to themselves, even if Ye Xuan has the ability to jump in the interstellar coordinates, even if it is stared at by Hongmeng, as long as the machine is early, it can activate the interstellar system attached to the system. The ability to jump coordinates, just take it away.

However, in the event that there are some insidious guys among the dozens of Hongmeng monsters, they can't catch the way to learn the original eyes of the ruins of the heavens. They are forbidden to shoot at the magical hall on the right bank, forcing him to appear, then it is not good... ..

Therefore, this time I went to the left bank. He changed his own form into a starry violent bear with a **** sea secret method. And because of the enchanting cover, Ye Xuan decided to accidentally encounter the old Hongmeng Avenue. The monster must not be able to see his true face. package

Including the **** stick, Shennong Ding, Qi Tian bow, and the three-armed and six-armed konjac real body, this time to go to the left bank, it is best not to use it.

Of course, if you need to use it in the war, then there is no way to do it, but in Ye Xuan's view, there are ten-color flames and spiritual power secrets, just looking for the top ten beasts and survivors on the left bank's list. It's enough to be alone.

In the ninth state of the konjac change, the temperament of his martial arts is still only the perfection of the ninth-order heaven and earth. It has been suppressed by Hongmeng Avenue, but there is no breakthrough, but the real combat power has far from being comparable a year ago.

After all, in this year, he ran into the void in the vast expanse of the eternal sorrow, and his own real body was repaired into strength, and broke through two small steps...

In order to rush to the left bank from the right bank, Ye Xuan only took half a month to reach the right bank of the left bank. but

He did not stop at the right bank of the left bank. He was a man with a **** violent bear. He had already fully activated the magical spirit of the perfect shock, so that his body shape was hidden and the air was full. The dark void in the far right is going toward the middle of the left bank.

After the middle section, I have not stopped, and I rushed to the left bank of the left bank...

On the left bank of the current Milky Way, a total of thirteen heavenly Taomen's eccentrics have been born, including the ones that have had a relationship with Ye Xuan a year ago. This

Thirteen Honored Monsters have three in the left section of the left bank, three in the right section of the left bank, and the remaining seven are all in the middle of the left bank.

The left bank of the Milky Way was originally far stronger than the right bank of the Milky Way. Time

Up to now, the most powerful people in the forbidden land and the inhabitants of the Galaxy on the right bank of the Galaxy, there are still some of the most ruthless people, and there is no such thing as a stranger. but

On the left bank of the Milky Way, even if it is the weakest beast to ban the land or the land of the survivors, there must be more than two heavenly geeks sitting in the town. Such as

This is strong, the water is so deep in the three sections of the left bank of the Milky Way, and the strength of the middle section is the strongest.

The entire middle section, just the Hongmeng monster after the Heavenly Way, has as many as seven. For Ye Xuan, the middle section is too dangerous, accidentally encountering Hongmeng, or attracting the attention of Hongmeng because of the war. The possibility is far greater than the right and left segments.

Therefore, after some consideration, Ye Xuan decided to go to the left section of the left bank.

Of course, he is not going to go in the middle of the left bank, but at least he has to wait until the third level of Hongmen Baodan refining, will have such a plan.

Because of that, even if he is trapped, as long as Ye Xuan upgrades his own strength to the ninth-order grand perfection, even if he is trapped, he can swallow a thirty-level honour. Bao Dan, in this case, hit the Hongmen Avenue after the Heaven.

Moreover, his thirty-level Hongmeng Baodan is different from the Tianjiu Avenue, which was refined by Hong Yu. Hong

The murderous monsters and the mortal mortals in the emptiness of the air, even if they get enough Tianjiu Avenue, used to swallow the Hongmen Avenue after the impact of the heavens, it takes a long time to successfully break through. Dozens of millions of loads. but

The biggest characteristic of the various grades of Bao Xuan, which is refined by Ye Xuan, is that it has a quick effect. The previous first-class liquid to the 30th-level Tiandao Baodan is the same. After swallowing, it will be a few days, and many years will be able to break through. which is

The same is true for the thirty-level Hongmengbaodan that will be refining!

In this case, as long as the 31st Hongmeng Baodan is in the hand, even if he meets Hongmeng in the middle of the left bank, he has to sacrifice the ten-color flame to protect himself, but he must not leave to get into trouble. that

In the midst of difficulties, as long as Ye Xuan's own cultivation has reached the peak of the ninth-order grand perfection, he can immediately swallow a thirty-level Hongmengbaodan at any time. Successfully break through the heavens and the environment, and enter the Hongmen Avenue after the Heaven. One

Once his own cultivation has entered the Hongmeng Avenue after Tiandao, then the suppression of Hongmeng Avenue, which has always existed for him, will cease to exist. Session

At the time, Ye Xuan's magical power of the konjac will change again. Once this **** magical power is activated and it is displayed in the ninth state, he will soon have the 9th-order grand perfection. for.....

That is to say, after the Heavenly Road, the Hongmeng Avenue, Ye Xuan did not break through, and once it breaks through, he will become the strongest person in the Hongmen Avenue.

At that time, you can receive the ten-color flame directly. Even if there are a few or even more than a dozen people in the surrounding area, Ye Xuan can be fearless and easy to abuse them. complete

In fact, they only broke through from the ninth-order Datian Tiandao peak to the Hongmeng first-order, and they all need to close dozens of millions of years. So in this Hongmen Avenue, even if it only breaks through a small step, I am afraid it will not be short-term. Do it. Hold

Compared with them, Ye Xuan, who has a konjac change, is a horrible thing...

In the brain, I figured out all this. Ye Xuan's self-improvement to the ninth-order grand perfection of the heavens and peaks, and suddenly look forward to more urgent. band

With this thought, he hides his body shape and keeps his air. In just one month, he has rushed from the right bank of the left bank to the right bank of the left bank, and rushed to the left side of the left section. day

The cow in the forbidden land is a demon blood cow, this is a kind of star zerg, because the pair of tentacles and horns are somewhat similar, it is called the magic blood cow. This

The devil's blood is improved by the strength of the beast. It is ranked eighth in the previous left banker! short

In a short month, Ye Xuan has rushed from the right bank of the left bank to the left section of the left bank. He rushed to the left side of the left section of the Tianniu forbidden. Because he activated the magical power of the perfect shock, the body shape is full, so everything Are silent...

The Tian Niu is sitting in the forbidden land is a magical blood cow, this is a kind of star zerg, because the pair of tentacles and horns are somewhat similar, it is called the magic blood cow.

The cultivation of this magical blood cow is extraordinary, and it ranks eighth on the previous left banker!

As for the specific realm, it is natural to say nothing. Even the tenth-ranked dragon whale is the peak of the ninth-order grand perfection. The eighth-ranked demon blood cow is obviously the same. but

Although the realm is the same, the combat power is obviously much stronger than that of the dragon whale.

However, even if he is strong, there is no pressure on Ye Xuan. A year ago, he had already killed the sixth **** silver wolf on the left bank of the beasts in the front of the battle. Such as

Today, in this year, it broke through two small steps, killing the eighth-ranked magic blood, and it is all about the hand.

The Tianluo beasts in the Tianniu ban are naturally more than one. The total number is said to be more than a dozen. But now it is impossible to be in the forbidden land of the Tianniu, there must be some going out, or entering the parallel void retreat. This

Everything Ye Xuan does not care. His goal is to be a demon and blood. But although the strength of the demon and blood, it must be worse than him. Once the war is destined to be killed by Ye Xuan, he is the number one on the left bank. The existence of eight.

Coupled with other heavenly beasts who are now sitting in the forbidden land of Tianniu, together with Ye Xuan, it is indeed possible to sharpen themselves and make their own cultivation in the middle of the battle. effect.

As for the power and absurdity under the heavens, he has no interest. After killing all the heavenly beasts of the Tianniu, including the demon and blood cows, Ye Xuan will immediately leave and leave.

After all, there are three Hongmeng monsters in the left section of the left bank. If it is dragged for too long, if one of the three Hongmeng monsters is brought in, the result will be extremely troublesome. Ye Xuan is afraid. I have a headache..."

call out! "band

With these thoughts, after Ye Xuan arrived at the left bank of the left bank, it took only one day to reach the forbidden land of Tianniu. Without hesitation, he directly rushed into the forbidden land.

At this time, his shape is a star-shaped violent bear with a **** body. His body shape is high, but it is under the ninth state of the magical scorpion, and the strength is the ninth-order perfection. Heaven is at its peak, and the atmosphere is extremely thick and solid.

Even the magical secret of the perfect shock has been fully activated, so he is now immersed in the star field of the forbidden land, and there is no sound at all, even if it is the magical blood cow in the depths of the forbidden land. Did not induce a half-point anomaly... leaves

Xuan's knowledge of the moment was diffused and opened, and it was fully motivated. In a flash, the whole Tianniu was forbidden. All the clues in the vast star field did not escape his exploration and panoramic view. four

The first day of the fierce beast, the middle of the two heavens, the end of a heavenly road, the last one, is the same as him in the realm of cultivation, the magical blood cow of the ninth-order grand perfection.

In an instant, Ye Xuan's knowledge has fully locked the air of these four heavenly beasts.

And his body shape, while the power of the gods is diffused and extended, it is also revealed, just like the inflated ball, the storm rises in the void, and there are already 50 million miles in the blink of an eye. The **** stars lie in the center of the star field of the forbidden land...

"The blood bear of the deity, this time comes, it is a challenge..."

At the same moment, his voice of God's voice also sounded, snoring and deliberately changed, revealing the meaning of infinite tyrants: "The devil's blood, the other three heavens, all come out, the deity is one... Just pick you all!"

"Roar!"

Hey! "

"Hey..." He

The words just fell, from the front and the four different directions in the depths of the forbidden land, there were four shocking arrogance and whistling sounds.

The other forbidden beasts crouched in all the abandoned stars in the vast forbidden area of the forbidden land did not dare to have any change, but the four heavenly lords, led by the demon and blood, were from their respective Dongfu stars. The inside rushed out, and the violent sensation of the gods sounded at the same time.

"A violent bear, but dare to say so madly..."

"What about the peak of the nine-order grand perfect heaven? Isn't the deity not such a repair? Do you dare to say that you are picking four, you are simply looking for death..."

Since he is bent on his death, there is no need to be too polite. I will join forces to kill him. ""

I hope that you don't want to turn around and escape. It is tantamount to self-satisfaction. What is the face of the old and strange? "

"boom!"

"Booming..."

The sound of these raging gods, the four huge and huge, huge bodies of 40 to 50 million miles, also spurred from the surrounding, and have entered the 100 billion miles in the blink of an eye. The void, together with Ye Xuan in the form of a violent bear in the starry sky, suddenly thundered in the void, revealing the meaning of endless killing..."

Come here! "

Under the glimpse of the cold mang, the blizzard form of Ye Xuan was swept in front of him, and the punch was the strongest, and the magical blood cows rushing from the front of him blasted...

Once he came to the forbidden land, his purpose was not the liquid of the heavens, nor the blood of the heavens. Of course, after killing these four heavenly beasts, these harvests will be there, but his main purpose is to sharpen himself. .

Therefore, in addition to the scorpion bow and the **** stick, the konjac is the body that prevents the identity from being leaked and cannot be used. It is not magical, and he will not sacrifice it. Even the faint flame that has just completed the fusion, Xuan also did not intend to use it.

The nine-color flame before the fusion has already made any heavenly strongman jealous. This time, after joining the red lotus industry fire, the ten-color flame that has been transformed after the integration, even the Hongmeng after the Heavenly Road, must be taboo. Such as

Today is only to deal with the four heavenly beasts. If Ye Xuan sacrifices the ten-color flame, the war will be over in an instant. He does not even have the chance to get hot. So, with the purpose of tempering himself with blood, there is no way to talk about it. get up.

In this battle, Ye Xuan will not use any other means. It will only rely on a pair of meat fists and the four heavenly beasts headed by the demon and blood, and occasionally cast one or two spirits or annihilation. The spear and other spiritual power secrets...

"boom!"

When these thoughts flashed in the brain, the punch that he slammed out with all his strength had already collided with the blow of the demon blood, and the violent air raged with violent energy, raging tens of billions of miles away. It was shocking. "

Oh..."

The blood cow is obviously not his opponent. The pair of tentacles on the top of the head directly collapsed, and the mouth screamed, and the figure rolled over and flew away..."

boom! "

The thunderous blast blasted, and Ye Xuan's full blow of the punched slammed into a blow with the magical blood cow's hit, and the imaginary energy in the emptiness of the sky raged fiercely! "

Oh..."

The blood cow is obviously not his opponent. The pair of tentacles on the top of the head directly collapsed, and the mouth screamed, and the figure rolled and flew away...

The human body is quite similar, and it is about 50 million miles.

The same is true for the cultivation of strength. They are the peaks of the nine-order grand perfection. and

Ye Xuan, who is a star-studded violent bear, has no name. The demon blood is a eighth-ranked survivor on the left bank.

From these points of view, the original advantage should be the devil's blood, but in fact, the result of the two people's full-powered blow is exactly the opposite. Ye Xuan in the form of violent bear is still standing in the void, and his figure is stable.

However, the demon blood cows broke a pair of tentacles, and the sound of screaming in the mouth was so loud that the figure was like a stone roller blown by the wind, rolling over and flying away...

This scene is too astounding, and the other three violent beasts are suddenly stupid, and the huge body shape is abruptly stopped in the void, and even the original incomparable breath is suddenly stagnation, subconsciously There is a sense of fear.

They are just the middle of the heavens and the late days of the heavens. In the face of such a powerful starry tyrannical bear, even the magical blood cows of the ninth-order great heaven and earth peaks can blast, how can they live?

"How? This is scared? Who said that you should not turn around and flee, from the face?"

A fist hit the devil's blood, and Ye Xuan turned to the three heavenly beasts. The voice was also spurred, and the middle of the sky was already in the blink of an eye. before. "

Rumble..."

boom! "take advantage of

This celestial beast has not yet reacted, and Ye Xuan once again banged out, like a meteor-like giant punch directly on his huge body...

This guy is just a mid-term in the middle of the sky. In the face of Ye Xuan's full blow, he couldn't help himself. The huge body shape suddenly exploded in the moment when the giant boxing fell, turning into a red blood fog, and it spread. "

call....."

Without hesitation, Ye Xuan immediately waved, and the sound of the whistling wind rang.

A majestic invisible gas rushed away, sweeping away the **** mist that was spreading and spreading directly into the bottom of the volcano in the central area of the Dingnai space, and began to condense blood! except

In addition, there are also three masons spurred, falling in the heart of Ye Xuan, it is the three compressed liquid source of heaven!

This is an unexpected joy, the harvest is good, the war has just begun, he has already harvested a heavenly blood and three heavenly sources of liquid, and there are three heavenly beasts around, and even one of them is the strongest. The devil's blood, the number of liquids in the hands of the heavens will not be too small...

The thoughts flashed through the brain, and Ye Xuan of the violent bear form suddenly licked his mouth.
"

Damn, where did you jump out of such a fierce violent bear? This has never been heard on the left bank. It's really a dog..."

At the beginning, the magical blood cow that was tumbling and fluttering by Ye Xuan had already stabilized his body shape and violently thundered: "You can't let him break each other, fight together, fight together, and fight hard..."

Oh..."

The sound is still not falling, his body shape has disappeared in the same place, and the teleportation has been applied. In an instant, he has already reached the front of Ye Xuan, and once again he has made a full blow. versus

At the same time, the other two heavenly beasts were also awakened by his words. There was no hesitation under the madness of the body. A mouth spurted a huge energy light blade, and a direct head slammed toward Ye Xuan. Collapsed, the power is amazing.

In the blink of an eye, the three-headed sacred beasts have been in a three-legged position. They appeared outside Ye Xuan's body within a hundred billion miles. At the same time, they shot and rushed to Ye Xuan...

"This is a bit like a strong man..."

By the time these three old guys did not pull away in fear, they approached and pushed the power of the body to the extreme, and at the same time launched the strongest blow to themselves. Storm

The bear's face suddenly showed a satisfactory color, and Ye Xuan's voice of the gods also sounded: "Unfortunately, even this can't change anything. Today you... all have to die!"

Rumble..."

"boom!"

Oh..."

Oh..."

The sound is still not falling, Ye Xuan's shoulders swayed, the huge incomparable figure instantly came to the oncoming magic blood Tianniu. This

Once he was not a simple punch, because only one punch could not kill this magical blood cow, but it would make the other person's body tumbling again and again, it would be a waste of time. Out

Before the hand, Ye Xuan raised his left hand and held it under the belly of the demon blood, and then squeezed the fist with his right hand, and quickly slammed on his back on his back...

Just three short-lived, the demon blood cows smashed a dozen heavy punches, and they were directly smashed, and the brain creaked, and it was too late to make any defensive measures. First

At the same time as the thirteen fists went down, the huge body of the blood-blooded beetle finally exploded, exploding for a **** fog, and it spread in the void. "

call....."

Without hesitation, Ye Xuan immediately waved, and the whistling sound of the whistling sound suddenly sounded, and a huge invisible invisible spurt emerged, sweeping the **** fog that was spreading and spreading directly into the central area of the Dingnai space. At the bottom of the volcano, unfold the blood essence!

Sure enough, he did not let him down. There were also seven volleys in the blood of the blast, which fell in the heart of Ye Xuan. It was the seven compressed liquids of the heavenly source, far more than just the head. In the mid-term beast, Ye Xuan is extremely satisfied.

"Roar!"

Oh..."

Damn guy, where did this violent bear come from? Fighting in front, in just a short three-rate, just a pair of meat fists, the Tianniu bombing, this is at least the top three in the left bank of the heavenly beasts..."

"Is it a long time ago that the old blame has just gone out? It is really sad reminder, and we have chosen our Tianniu ban on the knife. Today, I am afraid that it is in ruin..."

Can't be strong, no need to fight again..."

Divide, at least hope to escape one..."

"Hey..."

With the sound of these fearful gods, the last two heavenly beasts will not hesitate, the voice of God is still not falling, the body shape has stopped in the void, no hesitation, no U-turn Then they will flee around. "

Just boasting two sentences, if you still haven't left, you will turn around and escape. This is too disappointing. What is the face of the old blame? "

Seeing this scene, Ye Xuan

Chapter 5155: Phoenix blood fox

"I just boasted that you have turned around and fled, but it is too disappointing. What is the face of the old blame?"

Seeing these two heavenly beasts and beasts ran away, Ye Xuan Bombing!"

"call out....."

The sound of the gods has not yet fallen, and the faint sound of the air has already sounded. His huge body shape appears directly in the billions of miles behind the heavenly beast. suitable

Only in the process of reviving the magical blood cows in the tenth of the three interest, the two sacred beasts smashed Ye Xuan's roots and did not have time to dodge. All the porcelain was extremely inferior to him. Body.

It's absolutely impossible to say no pain. After all, it's a full blow of the heavenly powerhouse. At that time, Ye Xuan felt that the blood was overwhelming and his heart was quite angry. So now he is close to one of them, he has no hesitation at all. When even a punch hits...

"Booming..."

boom! "shock

The loud noise of the sky came, and this heavenly beast was simply evasive, and the meteor-like giant punch directly fell on his huge body.

This guy is another mid-term in the middle of the sky. In the face of Ye Xuan's full blow, he couldn't help himself. The entire huge figure suddenly exploded in the moment when the giant boxing fell, turning into a red **** fog and spreading. "

call....."

The wind blew and the sound of the violent wind rang, Ye Xuan waved in the form of a violent bear, and a majestic invisible anger screamed away, and the **** fog that was spreading out was swept away and sent directly to the central volcano in the Dingnai space. At the bottom, unfold the blood essence! except

In addition, there are also two masons spurred, falling in the heart of Ye Xuan, it is the two compressed liquid source of heaven!

The whole process was flowing, and the last fierce beast was frightened by the soul. Under the madness of the body, his castration did not stop, but the sound of the gods of the fortune had already sounded: "The violent bear friend, your purpose has been reached, from now on. After that, the position of the eighth on the left bank of the beastly beast is already yours. The deity is not on the list, and it is not useful..."

"Card..."

Ye Xuan's sorrowful glory, seeing this old guy is almost escaping, even if he provoked the mental source of the mind in the brain, this moment, the spiritual power launched, directly activated the spirit of lightning... ..clear

The crisp and fierce cracking sounds, a **** lightning with a diameter of tens of thousands of miles appears in the distance of the head of the late fierce beast, and it is not prepared for a porcelain, the old guy's glare is even when It's fascinating to stop in the void. take advantage of

With this opportunity, Ye Xuan directly teleported, blinking to his front, under the glimpse of the cold, the huge fist directly smashed down, one after another...

"Hey..."

puff! "only

Only insisted on three times, the old guy's body has burst open, directly blown into a **** fog, there are three milli-mans in the blood fog, it is exactly three compressed liquid source of heaven. One

The cut will not be wasted, the blood and the source of the heavens are swept away, and Ye Xuan directly incomes into the body.

This battle ended, his harvest is not small, only Tiandao blood essence has harvested four, and the heavenly source of the liquid has been harvested more than ten, so that Ye Xuan is extremely satisfied.

"Unfortunately, it is only such a big war. The income of the last breakthrough is not enough to fully integrate. The chance of breaking through again has not come..."

Feeling the power of the body, Ye Xuan whispered, his face showed a touch of regret. but

It was quickly replaced by a firmness. He subconsciously tightened his fists: "But it doesn't matter. If you don't have enough battles, then you can continue. The next goal is the seventh on the left bank of the beasts... Fengwei blood fox!"

"Oh..."

The whistling sound just fell, and the sound of the crisp cracks sounded instantly. Ye Xuan did not stop again. He waved a hollow crack directly, and his shoulders slammed into it, and his body disappeared.

Until he disappeared, the vast Tianniu banned the land still dead. After a while, the abandoned stars in the depths of the forbidden land finally rushed out and rushed out. This

These figures are all the power and the absurdity in the forbidden land of Tianniu, and the number is quite large, but obviously all of them are frightened, and each face has a fearful color that is thick and inseparable, even the figure is in Shaking slightly.

In the face of each other, these powers and ruins slowly and finally returned to God. In an instant, like a tidal exhalation, they screamed in the entire forbidden land.

"Damn, where did this violent bear come out? It's so fierce..."

Immediately spread the news, the original violent temper, was forced into the void of Hongmeng, and there was another starry violent bear on the left bank. The method was too cruel, and the act was too arrogant, and it was almost impossible to extinct my Tianniu... .."

So arrogant, he is doomed to be arrogant for a long time, and will soon be suppressed! "

"What about the peak of the nine-order grand perfect heaven? How about the ability to press the left-ranked eighth-ranked Tianniu adult? The violent temper was so amazing that it was still difficult to escape the forced exile. This violent bear is far away..."

"As soon as the news spreads, his luck will soon come, and this violent bear will not last long!"

"Roar!"

Oh..."

As the last arrogance and whistling sounded, among these powers and ruins, there were moments in the starry sky that rushed out of the stagnation of the sacred cows. he

We must explode the starry violent bears as soon as possible, spreading the news of the left bank, causing public outrage, letting the other sinister beasts on the left bank of the left bank, and even the three singers who are sitting on the left bank of the left bank, avenging the ban on the Tianniu... ..

...to

Today, four of the top ten beasts on the left bank have been in the hands of Ye Xuan. row

The tenth dragon whale!

Ranked ninth cold blood blue crocodile!

Ranked eighth in the blood of the beast! Take

And the sixth-ranked hegemony wolf...when

Of course, among the four top ten beasts on the left bank, the eighth-ranked demon blood cow, Ye Xuan was killed as a starburst bear, so until now, the outside world still does not know his Real identity, I don't know that Ye Xuan, the master of the temple, has returned from the emptiness of Hongmeng. This

A battle in the forbidden land of Tianniu did not allow Ye Xuan to once again usher in a breakthrough opportunity, but the distance was not far away. Then he was going to go to the blood fox forbidden. If there is no accident, after this battle, again The opportunity for breakthrough will come.

The blood fox ban is also located in the left section of the left bank. Although it is not far from the ban, it is not close.

The strongest person sitting in the blood fox ban is a phoenix blood fox. This old guy is the seventh-ranked survivor on the left bank, and is the strongest, second only to Ye Xuan. Bombed **** silver wolf... blood

The fox ban is also located on the left bank of the left bank!

The strongest person in the forbidden place is the Fengwei blood fox. This old guy is also the seventh in the left bank of the Heavenly Animals. It is cultivated as the strongest force, second only to the tyrant that has been killed by Ye Xuan. Blood silver wolf... blood

It is obvious that there is only one sacred beast in the fox ban. Now, there are a few sacred beasts who are sitting in the forbidden land, and there are a few Ye Xuan who don't know, and don't care. Take

He is now a master of strength, even if there are more beasts and beasts in the blood fox ban, what fear? From

After the Tianniu banned to leave, Ye Xuan narrowed his body shape. Although he was still in the form of a violent bear, he only had a high score, and once again exerted the magical power of the perfect shock, and immediately hidden his body and breathless. Convergence, the first time to rush to the blood fox rushed to the ground. only

It took only one day, and the blood fox ban was already there. He rushed directly into the forbidden land, and the power of the gods spread out with full force, covering the vast void of the blood fox ban, and was concealed by the perfect swaying spirit. The figure and breath are also revealed...this

At the time, the news of the fierce **** case that occurred in the forbidden land of Tianniu has not come here. Therefore, for the starry sky violent bears to be born and ravaged the left bank, the forbidden beasts in the blood fox forbidden land are still completely unknown.

Nowadays, there is a ninth-order grand perfect heavenly road that breaks into the forbidden land, and instantly attracts the attention of the heavenly beasts in the blood fox forbidden land. leaf

Xuan's knowledge has long covered the starry sky of the blood fox forbidden land. The total amount of heavenly breath captured is three, and he is completely locked in the air.

Roar! ""

Oh..."

A violent bear, you are good at smashing my blood fox forbidden, what is it..."

This matter must be given to the deity, otherwise you may not be able to leave easily today..."

When Ye Xuan screamed, the depth of the blood fox in front of the forbidden land, there was a thrilling whistle and whistling sound, and there was a sound of madness and sorrow, and there was no fear of half. . that

It is said that you want to give a confession to Ye Xuan, otherwise the existence of the hard-to-leave is obviously the strongest person in the forbidden place sitting here. The left-wing Tianmu beast is ranked seventh in the Fengwei blood fox.

The old guy is very arrogant, Ye Xuan is also the peak of the ninth-order grand perfection, but he said so, clearly did not put Ye Xuan in his eyes.

It is no wonder that the seventh-ranked existence on the left bank of Heavenly Heavenly Beasts does indeed have this proud qualification. this

Engraved, with the cold and proud of the sound of the gods, the depth of the sky, the deepest part of the star field in front, three different directions, there are also three volleys, this is the three in the forbidden place The first day is a beast. positive

The spur of the front is the **** fox of the phoenix tail. The old guy is a huge body of 50 million miles. The shape is a blood fox. The whole body is **** and sullen. It looks heart-rending, and there are countless articles behind it. The furry **** foxtail looks like a phoenix tail, so it is called a blood-tailed fox.

In addition to this phoenix blood fox, the front of the forbidden land in the depths of the left and right sides, there is also a celestial beastly spurt, and the strength is not weak, all are the seventh stage of the heavenly road...

"There are only three? Less is less, but basically enough for the deity to be alive..."

Seeing the avatars of these three old guys, Ye Xuan's sinister glory flashed, and the sound of the gods sounded at the same time, which immediately ignited the secret of blood and sea. The body shape swelled and it stopped until it was 50 million miles away. "

Roar! ""

Let's go together, the province's deity is in trouble, and you will solve it..."

Looking up and roaring, the huge violent bear of 50 million miles directly strode in the void and rushed toward the front. The words spoken in the mouth were even more mad than the **** fox. One

The nickname of the violent bear in the star of the name is so dare to speak like this. This is just a face-lifting, so that the **** fox of the phoenix tail is furious, he has an action in an instant, and he is fully shot...

"Since you are dying, the deity is as you wish..."

Fengwei... cover the sky! ""

Rumble..."

Feng

The tail of the fox foxes flashed through the cold and incomparable cold awns, and the voice of the gods just fell, and the whistling sound of the thunderous sounds of the thundering sounds, a secret and incomprehensible air pressure suddenly spread out... its

There are countless intensive sharp and empty sounds, which makes the scalp numb. Obviously, the old guy is in the wrath, and he is the one who has the strongest blood and magical power, named Fengwei.

After his huge body of 50 million miles, Panda's huge number of furry foxtails were dragged together, and they were even more entangled than their body.

Nowadays, with the display of its strongest blood and great phoenix, the countless blood-colored foxtails of the phoenix blood foxes spread out in a fluffy moment, welcoming the storm, squinting over the sky, and leaping from the direction of Ye Xuan. Come, just a little bit of interest, it has already enveloped the tens of billions of emptiness...

"Roar!"

Oh..." and

At the same time, since the blood fox banned in the depths of the two places, the two celestial ceremonies came back in the late stage and once again raised their heads and screamed, without hesitation, the body shape was like electric power, and it rushed directly. This piece of tens of millions of emptiness enveloped by countless huge foxtails... leaves

The Xuanyuan Zhonghan Mang flashed and turned to look forward to it. The void in the radius of 10 billion miles has been banned. All sides are full of huge blood and suspicion. The agility is like a starry sky, and they are attacking him. except

These countless strange foxtails, as well as three huge figures in three different directions, have spurred the strongest strength in the body.

This scene does give people a sense of power, even if it is the general nine-order great consummation, suddenly trapped in this situation, I am afraid that the heart will suddenly sink, giving birth to a bad feeling.

However, Ye Xuan is just the opposite. Seeing the **** fox of Fengwei, he exerted the strongest blood and magical powers, and banned himself in a place of tens of billions of miles. He even immediately sat

down with this blood. The other two savage beasts in the fox squad joined forces and bombarded themselves with their own strength...

Such a scene made him feel refreshed and even gave birth to a sense of ecstasy. this

The purpose of Ye Xuan is not only to hunt these three heavenly beasts, but what he really wants is to get the **** as much as possible through this kind of hunting. Milli

Undoubtedly, this seemingly dangerous situation in front of the scene has the best effect on Ye Xuan's purpose of tempering himself with blood, that is to say, all this is actually what he wants. "

The three Taoist friends are really intimate, and when they come up, they are so enthusiastic, let go, and really call the deity happy, no matter what... Thank you! "

"Booming..."

As soon as the sound fell, the violent bears had already rushed out, and a pair of iron fists waved like this. In a moment, they were entwined with the three heavenly beasts and the whole body, and the countless countless foxes and **** battles...

"The three Taoist friends are really intimate. When you come up, you are so enthusiastic. Let go of your hands and let your hands be happy. Anyway, anyway... Thank you!"

The sound of the gods has not yet fallen, Ye Xuan in the form of violent bears has already rushed out, and a pair of iron fists are waving this way. In a moment, they are entwined with the three heavenly beasts and the whole body, and the numerous countless foxes and foxes are fighting...

"boom!""

Rumble..."

"Roar!"

In the air, the earth-shattering roar sounded in an instant, and it was shocking to the ear. It was a huge void of the tens of billions of miles. All of them were covered by countless giant **** foxtails behind the phoenix blood foxes. The scene of the war inside. Place

In the depths of the blood fox, the forbidden beasts in the abandoned stars are not worried at all. There are even some forbidden beasts with great power and ruin, rushing out from their respective Dongfu stars. Squatting in the void and watching the battle. although

However, this time the sudden invasion of the starry violent bears is not weak, but it is the peak of the ninth-order grand perfection, but the **** fox, the strongest person in their blood fox ban, is also strong. By.

And it is still the seventh in the left bank of the Heavenly Beasts, and the other two heavens in the seventh stage, with three enemies, in their view, the battle is absolutely one-sided crushing... Time

The slow-moving, the war is still going on, and the tens of millions of tens of millions of vacancies banned by countless **** foxtails, the earth-shattering roar has continued, showing the intensity of the internal **** battle. early

At the beginning, the whistling sound was still very embarrassing, but then, after two consecutive bursts of sound, the piece was covered with countless **** foxtails, and the original arrogance and screaming A lot less. but

Surrounded by the imaginary air in the distance, the blood foxes in the forefront of the squad are not thinking much about the powers and the ruins of the ruins, because they don't think that the violent bears who come to the dead star can have a life today. The opportunity to leave this place...

Soon, a meal has passed...

"boom!"

"Hey..."

"Hey..."

At this moment, seven or eight horrific bangs came, followed by a fierce and horrible sound, so that the blood foxes squatting in the air and looking around in the distance, the arrogance and the ruin They are at the same time.

Because this terrible voice is too familiar, it is the strongest person who is sitting in the blood fox ban, that is, the sound of the **** fox.

At this moment, they had a thought flashing in their minds, their body shape suddenly stunned, their faces were pale, and they were chilling...

"boom....."

Not waiting for everyone to come back to God, the battlefield in front of it was once again loud and shocking, and the countless blood-colored foxtails that enveloped the tens of millions of miles of emptiness exploded at the same time, turning into a vast and innocent **** fog, swaying the void. With

These blood-colored foxtails exploded, and everything in the void that was originally banned was also revealed. There was only one figure present, and it was the starry violent bear that was invaded today. to

The other two late beasts in the Fenghuo blood fox and blood fox banned the land, have long since disappeared, clearly distinctly fallen, even the flesh has been bombarded rhythm...

"call....."

The whistling sound of the wind blew, and Ye Xuan, the form of the violent bear, waved, and a huge invisible invisible screaming away...

The **** fog that spreads around the imaginary sky is swept away in an instant, and is sent directly to the bottom of the volcano in the central area of the Dingnai space, and the blood is refined! except

In addition, there are more than a dozen volleys coming from the glory, falling in the heart of Ye Xuan, it is exactly more than ten copies of the compressed source of the heavenly source!

In this battle, he once again harvested three Tiandao blood essences. As for the liquid of Tiandao origin, the same harvest is not small, and there are more than ten copies, which makes Ye Xuan extremely satisfied. "

Roar....."

"Oh!"

Turning around, the surrounding air has already been stunned, and all the parties who are stunned by the **** foxes are stunned and stunned by the ruins, violently screaming and screaming, and then waved I ripped a void crack in front of me...

Soon, his figure was shrunk, his shoulders swayed, and he rushed into the crack of the void, and disappeared. This

The first battle can be described as a hearty, once again breakthrough opportunity has come, Ye Xuan is not interested in staying in this blood fox forbidden, now leaving, will be the first place to pick up a suitable location, retreat to attack the sixth-order Tiandao... ..

.....

The dark void in front of the left side of the left bank..."

call out! "micro

The weak sound of the air broke out, and a figure suddenly appeared. It was the Ye Xuan in the form of a violent bear. turn

After the first four hopes, after determining the direction, he did not hesitate, even if he swept away, rushed toward the deeper area of this vast dark void. three

In the days after, there was an abandoned star in front, and the location was extremely remote and unremarkable. It was the best place for retreat. leaf

Xuan explored with the gods and determined that there was no abnormality. When he even went away, he entered the star nucleus of this abandoned star, and sacrificed the Shennong Baoding, which was reduced in shape, and walked to the faint mist. At the mouth of Dingkou, sit down on this knee.

"Hey..."

With his waving hand, the faint sound of the air broke out, and a spurt of glare came out, hanging in front of Ye Xuan, which was the cultivation resource that he took out from the immortal world to develop this breakthrough.

Under the glimpse of the gloom in the middle of the glory, Shennong Ding's domain field power can be motivated by him, all the cultivation resources are compressed to only the size of the baby fist, and then swallowed in the belly in a wave of hands...

"Oh yeah..."

The entrance of the baby fist ball is instant, and the blink of an eye becomes a powerful river that can be swayed in the body of Ye Xuan. and

Unexpectedly, the sound of the chain squeaking was also overwhelming. There was only one chain of shackles that appeared this time.

Representing the cultivation resources swallowed by this time is enough, it has inspired the chain of shackles that represent the bottleneck in his body. As long as it is torn, it will be able to break through...

When the heartstring is loose, he quickly sighs and spurs his enthusiasm, urging the energy that has just formed in the body, and launching a big Sunday in the whole body.

After half a month of touching, the hanging energy formed by Ye Xuan's meridians has been completely refining, just a shock, and this stout chain has been broken.

And the expected system sounds, and soon in the mind of Ye Xuan...

"Hey, congratulations to the host, the breakthrough of the ancient realm of the hole! The current realm: the sixth step of heaven!"

Hey, congratulations to the host, the breakthrough of the body and blood! The current realm: Heaven's sixth-order! "

In the next moment, Ye Xuan opened his eyes, deep in the bottom, and a touch of excitement flashed away. very

Apparently, the suppression of Hongmeng Avenue still exists, so after this breakthrough, he is still only the ninth stage of the ninth change of the konjac. but

At least after this breakthrough, his real combat power has obviously skyrocketed again. More importantly, the distance to swallow thirty-level Hongmen Baodan, there are only three small-order breakthroughs left...

With this breakthrough, Ye Xuan's real combat power has once again skyrocketed a lot, and more importantly, the distance to swallow thirty-level Hongmen Baodan, there are only three small-order breakthroughs left...

A small order, not much, but a lot less. This

A breakthrough, he was experiencing a big battle, after digesting the income of the previous breakthrough into itself, ushered in the opportunity of breakthrough, and then closed the door to be able to break through.

Therefore, the next breakthrough, Ye Xuan will be able to try again to swallow the heavenly blood, forcing the seventh stage of the heavens, which is the later stage.

However, before swallowing the blood of the heavens and trying to force a breakthrough, at least two more wars should be experienced before the success rate can be ensured...

"call out....."

The thoughts flashed through his mind, he did not hesitate, his body swayed from the Shennong Ding Ding mouth of the colorful fog, and he waved Bao Ding into the body, and then again prompted the blood and sea secrets to change into starry sky. Looks like the nucleus of the abandoned star in the retreat...

The destination of this trip is still the left bank of the left bank, because the fierce beasts of the two guys ranked fifth and fourth on the left bank of the beasts on the left bank are all in the left segment.

Today, the top ten strong presence on the left bank of the Heavenly Beasts has been killed by Ye Xuan.

Ranked tenth in the dragon whale!

Ranked ninth cold blood blue crocodile!

Ranked eighth in the blood of the beast!

Ranked seventh in the phoenix blood fox! Take

And the sixth-ranked hegemony silver wolf...

The five old guys underneath, he did not intend to let go, they will find them one by one, while smashing their own bodies, killing them, harvesting the blood of heaven and the liquid of the heavens in their hands! until

So far, apart from the two honoured wolves and black blood crocodile crocodiles, among the opponents that Ye Xuan encountered, the strongest existence is the sixth **** silver wolf on the left bank. It is. but

In fact, even the hegemony wolf encounters the current Ye Xuan, and does not use the top powers such as Shennong Ding and Big Head Black Stick, and the most powerful magical powers such as Hao Tian Gong, but only by a pair of meat fists. Next, Ye Xuan can also kill him in a short time. complete

In the year when Hong Meng was in the air, Ye Xuan had broken through two small steps, and after the return, Ye Xuan had just broken through a small step.

After the breakthrough of the three small steps, Ye Xuan activated the **** magical power of the konjac and changed to the ninth state. Although the realm of cultivation is still only the ninth-order grand perfection, but its combat power has long been Far from being comparable.

The next goal is to be the fifth-best flying blood bear on the left bank of the Heavenly Beasts! This

The head of the demon blood flying bear is the strongest person in the devil's forbidden place, and its cultivation is the same as the realm of the nine-order grand perfection, but the fighting power must be stronger than the hegemony silver wolf.

However, Ye Xuan does not care about this point. According to his estimation, this magic blood flying bear is stronger than the hegemony silver wolf, but it is not strong enough. With his current combat power, only a pair of meat fists Fighting in front also ensures repression or even killing...

Although the demon bears in the magical blood bears are in the left section of the left bank, they are in the middle of the star field. Now Ye Xuan returns from the vast and innocent dark area in front of the left section, and is rushing to the other side.

"Hey..." just

The abandoned star that left this retreat was only half a day away. The dark void in the right front suddenly heard a faint sound of breaking. Ye Xuan's heart moved and he followed the sound...

This is the vast dark area in front of the left bank of the left bank. It is still far away from the left bank of the Galaxy. Even with his cultivation, it takes a long time to rush to the left bank from the left. If

It is the most suitable place to meet a powerful heavenly powerhouse here, to fight against it, and to kill people by chance. this

At that time, he was a violent bear form, his body shape was high, and he was in the state of magical power that exerted perfect shock, and his body shape was hidden and the atmosphere was full.

In this way, even if Ye Xuan urged the body to repair, and rushed to the full force, the other party could not detect his air machine at all, could not sense his existence, and everything was silent.

In front of the line of sight, a huge starry beast appeared in sight.

This fierce animal is 50 million miles tall. It is a black bear. The whole body is like a needle. It is dark and hard. There is a pair of blood-colored bone wings on the back. The wingspan is amazing. The wings of the bones are sharp and sharp. A fan, I am afraid that even the stars can open...

As for the repairing atmosphere that has been dispersed in the body, it is exactly the same as the Ye Xuan, the nine-step heavenly perfection. This is a powerful beast that has been cultivated as a peak of heaven. This

After the repair, plus its morphological characteristics, Ye Xuan instantly realized the identity of the other party's identity. At a glance, the look on his face was instantly weird. magic

The strongest bear forbidden land - the magic blood flying bear! leaf

Xuan originally rushed to the devil's forbidden land. This time the target is this magical blood flying bear, but did not expect to have yet to reach the left bank of the left bank, still in the vast dark area in front of this left section, unexpectedly met Got the goal of this trip.

It's so good, it's so quiet, even if it's a **** battle, it won't attract too much attention in a short period of time. It's the best chance to suppress this blood-blooded bear and its **** battle.

"Roar....."

The thoughts flashed through the brain, and Ye Xuan did not hesitate. He screamed and screamed, and the strength of the body was pushed to the extreme. It instantly turned into an invisible pressure, and the blood of the bear in the void of 100 billion miles. Air machine, fully locked. This

At the moment, Ye Xuan's body shape also appeared. The body that was originally only the height of the body was like an inflated ball. It quickly expanded and the eyes were already 50 million miles. One

In an instant, the atmosphere in the void will be stagnant. The two beasts will look at each other across the distance of 100 billion miles. All of them are violent bears. The body is filled with the breath, and all of them are the ninth-order grand perfection. only

One difference is that Ye Xuan here is a starry violent bear with a whole body like a blood, and the empty sky outside the 100-million-mile, the one that is lame is a pair of sharp-winged wings behind it. Black flying bear..."

Are you the starry violent bear that has recently raged in the left? "

With the appearance of Ye Xuan, the cultivation of the breath into the pressure, invisibly in the other's gas machine is fully locked, this magic blood flying bear also turned to look over.

In the middle of the cold mangling, the body is getting stronger and stronger, and he screams and screams: "Even if the deity is ambushing, you can be bold and daring..."

Obviously, the news that Ye Xuan was raging in the left side of the left bank in the form of a starry violent bear has already spread. This magical blood bear has heard of everything about him.

But it doesn't matter. For Ye Xuan, the magic blood flying bear in front of him is just the existence that can be killed in the first battle. Everything else is just a cloud...

Chapter 5156: Crazy blood flying bear

"Roar!"

Rumble..."

Looking up and roaring, Ye Xuan didn't have a nonsense. He swept his body shape and rushed to the opposite side of the blood-blooded bear. He was stunned in the middle of the cold, and he punched it out, and there was a thunderous sound in an instant. Come, where the giant punches pass, the void is rapidly collapsing...this

The power of a punch is too violent, even if it is the ninth-order grand perfection, the peak of heaven will surely change. but

The devil's blood bear also shows that he is not the general nine-order great consummation. He is the fifth-ranked horror on the left bank's sacred beast list. The general peak of heaven is in his eyes, and there is no half-point.

"Damn violent bear, how dare you take the initiative to attack the deity?"

Ye Xuan's active attack has angered him. The blood-blooded bear roared and violently screamed: "This is the provocation and disregard of the red fruit. Today you will pay for it, eh..."

"boom!"

"Fighting..."

The roar of the roar has not fallen, the shape of the demon blood bear has already rushed out, and a pair of huge bone wings behind him frantically slammed the fan, and the speed of the lasing came too fast, even Ye Xuan was caught off guard, only to see the front Flowers, the right chest is instantly a hot feeling...this

A blow, he did not avoid it, the blood-blooded bear went to the front with a speed that made him all eye-catching, and hit a fist in Ye Xuan's right chest, causing him to swell under the heavy blow and fall back. Hundreds of millions of miles away...star

The tyrants could have plundered the air, and the heavenly tyrants need not even say more. For this level of existence, the so-called wings are simply superfluous, because without wings, they can fly as well.

Therefore, if the heavenly beasts of this level grow a pair of wings, then the effect of this pair of wings must not be so simple as flying. magic

The power of the pair of bone wings behind the blood flying bear is the same. Without the bone wings, he can fly as well, but because of the existence of the bone wings, his advantage in speed surpasses most of the same environment. Strong.

This speed, even if Ye Xuan must sacrifice the red lotus to break the virtual shuttle, can be compared with it.

What's more, the bone-winged wing of the devil's blood bear is still sharp and sharp. Obviously, it also has the strong power of breaking the defense. Once he is shaken by the bones behind him, the wingtips are passing by, I am afraid even if it is Ye Xuan. The strong body of the body will also at least fall into the bottom of the skin...

"I have to say that the deity seems to be a little underestimated, at least in terms of speed, you far exceed the expectations of the deity..."

These thoughts flashed through the brain. After Ye Xuan stabilized his body shape, the moment of the moment was flashing, and the voice of the gods also came out: "But this still can't change the ending of your bombing, because the same Extreme speed... the deity also has!"

"Hey!"

The sound did not fall, Ye Xuan had already waved, and there was a moment between the two shots, and at his feet, it flashed away...

It was the red lotus that was thrown away by him, but Ye Xuan did not let it show its form, but only turned into a touch of mans into his feet. This

He will need to separate a part of the gods to promote the red lotus in the two feet, but it does not matter, as long as the speed can be improved, with the strength of Ye Xuan's cultivation, enough to kill this magic blood flying bear. "

A mile, can you speed up 30%, to the extent of the shoulders? It's really a joke..."

Rumble..."

"Hey..."

In this scene, the demon blood flying bear instantly pouted, apparently not believe at all, his mouth floated out of sorrow, the voice is still not falling, the figure has already rushed out again, turned into a much faster than lightning. The mans, with the rapid collapse of the void along the way, once again hit the front of Ye Xuan...

"Isn't a joke, you know it soon..."

Ye Xuan sneered, immediately urging the red lotus in the two feet to break the virtual shuttle, the domain field power can be stimulated to the extreme. One

In an instant, his figure has disappeared in the void, not a teleport, but a display at a speed. This speed is not weaker than the blood-blooded bear, and even slightly better. "

boom! "

"puff....."

The shocking bang came, and his body flashed. After the body of the demon blood bear, Ye Xuan did not hesitate, and when he was in the middle of the cold, he even slammed into the other side. Under the right threat...

This slamming force was fierce, and it blasted a porcelain. In addition, the magic blood flying bear never thought that Ye Xuan could have such a terrible speed. He did not go to the defense. The destructive power of Ye Xuan, who was fully attacked, was immediately revealed to the extreme.

At the same time as the bang came out, there was also a dull snoring, and the black-blooded black bear couldn't help it. Under the stunned body, Zhang mouth spurted a blood arrow...

This speed, this power... Who are you? "With

The blood arrow in the mouth spurted out and turned into a black majestic river. The magical black bear stunned and lost his voice... He

I have always been very confident about my speed, but the Ye Xuan I met today is just a guy who is unknown in the left bank, but actually has a slight speed beyond him in a flash. only

It's just that this is incredible, and he simply can't accept it.

However, he had previously blasted a porcelain on Ye Xuan's body. Although Ye Xuan had retired hundreds of millions of miles away, it was not damaged. and

Now, Ye Xuan is also a punch on his body, but let his ribs break halfway, and his mouth spurts a canopy like the blood of the river. From this point of view, the gap between him and Ye Xuan has already Not too small, not only the strength is not as good as the other side, even the strength of the physical treasure is not as good as...

This is absolutely unbelievable and unwilling to accept. After all, he is the fifth in the list of the beasts on the left bank, and there are hundreds of thousands of years of murder. Such as

Today, I encountered an unspeakable starry sky, but I was all suppressed in terms of speed, strength, and physical strength. It fell to the bottom, what is it? "

Hongmeng is vast and endless, ancient and mysterious, here... nothing is impossible! "surface

The shock and stunnedness of the demon blood flying bear, Ye Xuan's face showed a sneer, the voice of the gods also came out, but the cloud was light and light, as if to say a trivial thing.

"call out!"

Rumble..."

boom! "

Oh..."

For a moment, he once again spurred the red lotus in the double feet to break through the virtual shuttle. The whole figure instantly became a violent and unobservable man, and once in ten thousand, it was once again the magic blood flying bear. The other side of the figure...

Without hesitation, Ye Xuan once again pushed the power of the body to the extreme, and punched it out. The ribs on the other side of the demon blood flying bear were completely broken. At the same time, he opened his mouth and spurted a blood arrow. Gathered together with the previously sprinkled canopy, turned into a black river...

"It turns out that you were once the embodiment of the heavenly will of a big world..."

Until this time, Ye Xuan suddenly waved his hand and put the black river into a body after compression:
"I can't think of unexpectedly harvesting a liquid of heaven and earth, anyway... thank you!"

"It turns out that you were once the embodiment of the heavenly will of a big world..."

Until this time, Ye Xuan suddenly waved his hand and put the black river into a body after compression:
"I can't think of unexpectedly harvesting a liquid of heaven and earth, anyway... thank you!"

When the previous blow hit the blood-bearing bear seriously and caused it to spurt a blood arrow, Ye Xuan knew that he was once the incarnation of the heavenly will of a big world, because the blood that

was sprayed at that time clearly showed a strong contrast. The atmosphere of the heavenly source of the liquid. Do not

There was still some lack of blood in the canopy, so Ye Xuan did not immediately collect it. Now, she shot again, so that the blood-blooded bear squirted a second blood arrow. The two canopy blood gathered together and finally got enough. After the source of the heavenly source, he took the charge. Wait

When the magic blood flying bear reacted, he successively sprayed the bleeding arrow to form the liquid of the canopy, which was already compressed by Ye Xuan, and then he was included in the body.

The old guy is mad, this is his heavenly blood, as the fifth strongest in the left bank of the beasts, his heavenly blood has never been collected, because the strong who can seriously hurt him though Exist, but basically won't make a big hit until it can make him seriously hurt the extent of the blood of the heavens...

Therefore, on the entire left bank of the Milky Way, no one has ever collected his heavenly blood and compressed it into the source of the heavenly source. I did not expect the first one since the endless years, but it was actually the starry sky. The violent bear took it away.

This is absolutely unacceptable to him. It is simply unacceptable and people want to hate anger...

"Hey..." brain

In the middle of it flashed all over, the blood of the flying bear was resentful and unwilling, and the head turned out to send a terrible scream, revealing endless grief and indignation.

At this moment, his murderous enthusiasm reached the extreme, unprecedented fierce!

"call out!"

Rumble..."

The whistling sound has not yet fallen, and the sharp and unpredictable sound of the air has already sounded. The blood-blooded bear has pushed the power of the body to the extreme, and the whole body has become a mans. The speed is too fast, surpassing the first hit. . blink

Between the eyes, he has already reached the side of Ye Xuan, pretending to be a punch.

Ye Xuanyuan flashed in the cold, and suddenly fled sideways, but the battle experience of the blood-blooded bear was equally remarkable. It was this time that moved a pair of sharp-winged wings behind it.

"Oh..."

The snoring came, the tip of the bone wing on his left side crossed the body of the violent bear. The flesh of the left rib was torn open, and the blood rained over the sky. Ye Xuan was injured. Fortunately, it was just a flesh wound, and it could not affect anything... ..

"Your reaction is not bad, no wonder it can be ranked fifth on the left bank of the Heavenly Beasts..."

The first time, the first time, the violent bear nodded, and the sound of the gods of Ye Xuan also sounded.

The words have disappeared, and his body shape has disappeared. He blinks back at a very fast speed. He blinks at the back of the demon blood flying bear. Under the flash of the cold man, his left hand grabs his wing root and the right fist squats down. Go: "Unfortunately, today you still have to fall here..."

Card..."

Oh..."

puff! "

In the void, there was a thunderous thunder, and a blast came, and a huge blood-colored lightning appeared in the head of the demon blood flying bear. The diameter of a million miles, a thunder shrouded its body, and consciousness fell into a short period. Coma. although

The time is short, but it has changed everything.

The huge violent bear of the violent bear slammed on his back. After a while, the blood-blooded bear quickly couldn't stand it. It's only a dozen punches, and the huge body was blown into a **** fog. Void...very

Fast, from this awning to the eye-catching **** fog, a figure emerges, smashing the cold, killing the sky, the size of 50 million miles, like a small star, it is the form of violent bear Ye Xuan. "

call....."

As the figure appeared, Ye Xuan waved his hand, and the whistling sound of the wind rang.

A majestic invisible gas rushed away, sweeping away the **** mist that was spreading and spreading directly into the bottom of the volcano in the central area of the Dingnai space, and began to condense blood! versus

At the same time, after the demon blood flies out of the body, there are more than a dozen volleys in the body, which fall into the hands of the violent bears. It is exactly more than ten compressed liquids of the heavenly source...

Therefore, the top ten of the fallen on the left bank of the Heavenly Beasts has reached six. The top ten ranks are now only the top four, and the rest have been smashed to Ye Xuan.

"I just thought that I just got out of the customs, but I immediately met this magical flying bear..."

At the end of the war, Ye Xuan waved his hand into the body of the red lotus, and the sorrowful flash of sorrow, whispered in the sinking voice: "So it seems that the magic bear is no longer necessary to ban the land..."

The rest of the top four guys on the left bank of the Heavenly Beasts are all in the middle of the left bank..."

Having said that, he did not speak again, thinking about the pros and cons of it, and finally made a decision to subconsciously put a double fist: "There are seven sacred monsters in the middle of the left bank, but as long as you are careful, you should not They are alarmed..."

So, the next target is set in the middle of the left bank... poisonous curfew! "

"Oh..."

When the voice just fell, Ye Xuan had already shot abruptly, and the crisp and fierce cracking sounded. There was a void crack in front of his figure. He stepped into it and disappeared instantly. He rushed to the poisonous curfew in the middle of the left bank... ..

...left

In the middle of the shore, the poisonous shackles are forbidden!

The strength of the poisonous ban is very strong. The overall strength ranks fourth in the forbidden land on the left bank. There are more than 30 celestial monsters in the entire forbidden area. Of course, these heavenly eccentrics are not always in the forbidden land. Sitting within the domain.

Some go out, others are retreating in the parallel void, even if it is a powerful beast to ban the land, it is absolutely unnecessary to have more than 30 heavenly beasts sitting in the town...

Among the more than 30 heavenly beasts who lived in the poisonous ban, the most powerful ones were star-studded poisonous. thing

In fact, among the more than 30 heavenly beasts and beasts, like the poisonous scorpion of the starry sky, there are three or four of the ninth-order grand perfection, but even the same is the ninth-order grand perfection. The combat power is also strong and weak. star

The strength of the empty drug lord is among the top of the ninth-order grand perfection, and it is undoubtedly the top of the ranks. Otherwise, he will not rank fourth in the left-wing heavenly beast.

At this time, the starry sky violent bear turned out, the news of the raging in the left bank of the left bank has not yet reached the middle section of the left bank. Therefore, the starry sky drug lord in the poisonous ban is still not aware of this matter, completely ignorant of the starry sky storm. The bear has already arrived at the middle of the left bank and is coming to the poisonous ban, trying to kill him and kill him..."

Oh..."

The cracking sound rang, and a void crack appeared outside the edge of the poisonous forbidden land. A figure emerged from it, and it was Ye Xuan..."

Oh..." cracked

The buzzing sounded, and there was a void crack outside the edge of the poisonous forbidden land. A figure emerged from it, and it was Ye Xuan...

At the time, Ye Xuan is still in the form of a violent bear in the starry sky. Only in the next moment, when the body shape rushes out of the void crack, it has already spurred the secret of blood and sea. It is already a giant of 50 million miles. Like a meteor, the shoulders swayed and directly rushed into the poisonous ban. "

Roar....."

"Stardust poisonous... Come out and die!"

Just after entering the poisonous forbidden land, the violent bear has already screamed at the horror of the hair, and the power of the gods has extended and shrouded the entire poisonous forbidden land.

Soon, the general situation in the forbidden land has been known to him. general

The forbidden beasts of the forbidden land, even including the power and the absurdity, he is extremely lazy to pay attention, and the high-level beasts of the heavenly kingdom, today's poisonous curfews are seated in the star field, a total of twelve.

Among the twelve heavenly beasts, there are two peaks of the ninth-order grand perfection, one of which is the star-studded poisonous scorpion...

At the time, with Ye Xuan suddenly coming to the scene in the form of a starry violent bear, he rushed into the forbidden land, and immediately screamed and screamed, letting the strongest star who was sitting there in the starry sky come out and die, these twelve Respecting the heavenly beast, after a short glimpse, immediately roared..."

Roar! ""

Is this the illusion of the deity? ""

Actually, there is a beast that has fallen to the poisonous shackles, screaming to let the scorpion come out to die? ""

What is the peak of the ninth-order grand perfection? It is not weak to cultivate strength, but it is also the peak of heaven, but the strength is strong and weak. Yan Zun is the fourth in the list of the left-wing heavenly beasts. Where is the starry violent bear? "

"Big bear, how dare you challenge the deity? A little bit ah..."

"So I will spend a lot of time with you. It's just that this time is a bit boring, but you can think about it. This is the battle of life and death. Once you start the battle, there is no room for revolving. You and me... every peace!"

"call out.....""

Rumble..."Most

The last two sentences are obviously from the mouth of this starry sky, and as the words fall, the forbidden land in the depths of the front, a mile is also spurred out from some giant abandoned stars, with a ruin The strong atmosphere of the heavens and the earth, coming to Ye Xuan...

The eleven other heavenly beasts who are now sitting in this poisonous forbidden place have not appeared. The deities are in their respective Dongfu stars, and they are only extended by the power of God to watch the battle. in

In their view, even if this star-studded tyrannical bear is the ninth-order grand perfection, it is necessary to suppress it.

"Don't you have twelve heavenly beasts? Why don't you go together? The deity is singled out all of you..."

In this scene, Ye Xuan's smashing flashes through the cold, and the sound of the gods of coldness and madness also sounds. through

It's a slap in the face of a provocative meaning: "After a moment you will kill you, they will also rush to the top. It's better to join hands now, and you will miss the most powerful force in vain..."

"Roar!"

You are too mad, even the first-ranked Tiansheng of the left bank of the beasts on the left bank does not dare to say such words to the deity..."

The starry sky was poisonous and angry, feeling insulted, screaming and replied with the same words: "But violent bear, are you in guilty conscience? Deliberately use such words to provoke the deity?" "

Rest assured, even if the deity is depraved in this battle, the other heavens that I am poisonous and forbidden will never kill you, fight in front, and lose to the defeat and who will be blamed? Is this the purpose of your deliberate provocation? The deity meets you, but the premise is... you have to have this strength and kill the deity! ""

Rumble..."

The voice just fell, this body is full of 50 million miles of star-studded poisonous scorpion has come to the near, no more words, open mouth spit out a poisonous fog, no storms rise, spread between the blink of an eye, It has covered a vast expanse of tens of billions of people. One

The momentary work, with the spread of the poisonous fog, the tyrannical form of Ye Xuan and the star-studded poisonous scorpion disappeared, and was covered by the **** green poisonous fog...

In this scene, surrounded by abandoned stars, there will be arrogance and whistling in an instant, all of which reveals joy.

In their view, this arrogant violent bear is definitely dead.

The **** green poisonous mist of the star of the poisonous scorpion is not a small one, but it is one of its **** magical powers. Otherwise, he does not need to just open the mouth and spurt such a vast expanse of **** green poisonous mist. can

It is said that as long as it is covered by this smog green smog, any existence, even the peak of heaven and earth, like the poisonous scorpion of the starry sky, will no longer be alive, and it is destined to be crushed and killed...

"boom!"

Rumble..."

Oh..." pound

In the vast green **** smog, the earth-shattering roaring rumbling came out, the fog was rolling, and the battle inside was invisible, but only listening to this movement, I can expect one or two. poison

The forbidden beasts of the parties to the curfews have been arrogant and arrogant, just like helping out. In their view, this battle will soon end, and the arrogant starry violent bear will be killed here.

In fact, the opposite is true. In the **** green mist, the star of the poisonous scorpion is being abused.
Storm

The huge iron fist of the bear was on his back. After a while, just five or six punches, the star of the poisonous scorpion could not hold back. His dagger was thrown out of a huge blood bag. Arranged in a circle above the top of the head, it seems as if a cold crown grows under the top of the head. It is shocking.

These six or seven punches are all on his head, and the awareness of the poisonous star of the starry sky has long been faint, and there is no longer a sense of defense. In this case, there are only a dozen punches, and the poisonous huge body is extremely explosive. Into a **** fog, diffuse the void...

This is the end of the cut, from the **** green **** fog of the canopy out of a figure, chilling, murderous, tens of millions of giants, like a small star, it is a violent bear form Ye Xuan. "

Calling..."

As soon as the shape was revealed, Ye Xuan had already waved...

The whistling sound of the whistling wind suddenly rang, and a majestic invisible screaming whistling away, swept away the **** fog that was spreading.

It was directly sent to the bottom of the volcano in the central area of the Dingnai space, and the blood essence was condensed.

At the same time, after the body of the poisonous star of the starry sky exploded, there were still more than a dozen volleys, which also fell into the hands of the violent bears. It was a dozen of compressed liquids of the heavenly source...to

Therefore, the top ten of the left-wing Heavenly Road beasts has already fallen seven, all of which were ruined by Ye Xuan. left

The top ten in the shore... only the top three! "

Roar! "

Waving the blood fog and the source of the heavenly source into the body, Ye Xuanyuan in the middle of a cold flash, the sight is instantly sweeping into the distant Tiandao old strange cave house stars: "The poisonous scorpion has been fussy, er, etc... can be side by side Got it!"

With the star of the sky, the top ten on the left bank of the beastly beasts is now only three! "

Roar! Wave

After the hand puts the blood fog and the source of the heavenly source into the body, the blizzard form of Ye Xuanyuan flashes in the middle of the cold, and the sight is instantly swept away to the distant Tiandao old strange cave house stars: "The poisonous scorpion has been fussy, er, etc. ...can be side by side!" Jing

Dead silence!

At this moment, the entire vast drug ban is simply smothered.

In the abandoned stars in the forbidden land, all the forbidden beasts were stunned. where

I am afraid that it is power, absurdity, and even the other eleven heavenly beasts that are now sitting in the forbidden land. They are all exceptions. For the scene that is displayed in front of us, it is completely like a Thunder. ! he

We originally thought that this war would not last too long and should end soon.

However, the results shown after the end of the war were completely out of their expectations, and the expectations were just the opposite.

The starry sky was defeated, and it was killed by this. The entire huge body has burst into a **** fog, and even half of the hair has not been left.

This is the fourth strongest presence on the left bank of the Heavenly Beasts. In addition to the top three and the last few years, the other beasts on the left bank are not his opponents.

And this unseen starburst bear, but in a short period of time, it has been smashed, its strength is strong... it is horrible, incredible! This

The existence of horror, even if it is now sitting on the other eleven heavenly beasts in the forbidden land, it is absolutely impossible to be its opponent. most

The end result must be bombarded one by one. brain

These thoughts flashed in the middle, and the eleven heavenly savage beasts suddenly stunned, and the color changes under the cool air, followed by the slight tremor, each of which conveyed a voice of God's voice...

"The tyrant bear friend is really a terrible battle. This is not a name that should not be named..."

"Yes, presumably after this battle, the Taoist friends will soon be screaming on the left bank, and the Heavenly Virtue will be on the fourth place. From then on, the owner will become the starry violent bear..."

But what is the word of Daoyou now? I am waiting for this kind of words and unbelief? ""

It's already said that this war is a matter between the two of you. Even if you are dissatisfied and degraded, the eleven friends of my poisonous land can't be swarmed up and shot the Taoist friends..."

"That is, the Taoist friends do not need to test again, and they are assured that the matter has passed. I can't pursue it again."

It's really speechless, and Ye Xuan's faint glimmering, sinking into sinking...he

I thought that these eleven guys would be swarmed up after the poison of the stars. I didn't expect it to be a bunch of bags, but it's so good. If you really want to be an enemy, he is sure that he will be the last ten of this poison. A heavenly and old blame is all killed, but together, in the short time, I am afraid it will not end.

In this way, it is very likely that it will attract attention outside the forbidden star field. In the middle of the left bank, there are a total of seven vicious beasts and the remains of the people. If one of them is attracted, today's It's hard to be good. which is

Ye Xuan, it will also be a headache. more

What's more, after the end of this war, the income of his previous breakthrough has completely digested and integrated into himself. That is to say, the opportunity to re-open the breakthrough is basically the same, and it will be a big deal to swallow a few days of blood. Can make a smooth breakthrough.

These thoughts flashed through his mind. Even if he made a decision, he would no longer be entangled with the eleven Tiandao old monsters in the poisonous curfew. He would leave first, retreat and retreat, and then upgrade to a small step. . "

Hey..." brain

In the flashing of these thoughts, Ye Xuan did not hesitate, even if he waved a hollow crack, his figure broke into it, and disappeared...

When he left, the original forbidden land was in the void, and immediately it sounded like a roaring horror. It was the voice of the eleven heavenly lords..."

Roar! ""

Damn, Yan Zun actually fell like this..."

This matter reveals that the origin of the violent bear is suspicious, and it must use any unknowable means of poisoning. Otherwise, the fourth-ranked 蟒蟒左 on the left bank's list will be so vulnerable that it will be bombed in a short time. It became a blood fog..."

"You must spread this thing out, don't forget, the top three on the left bank of the beastly beasts are all on the top of the left bank. As long as one of them is shot, this violent bear will die..."

Hey! ""

Oh... " ...

...

The vast darkness in front of the middle section of the left bank...

After leaving the drug ban, Ye Xuan rushed over to the side. Such as

Four days have passed, he has moved away from the left bank of the Milky Way and entered the deep hinterland of this vast and dark area.

After half a day passed, there was an abandoned star in front of it. Ye Xuan's glimpse of the faint glimmer, the power of the gods extended, and after some investigation, it was confirmed that there was no abnormality, and then it went straight and went straight into Among the stars of this abandoned star. No

Hesitant, he even sacrificed the Shennong Baoding, in order to reduce the shape, only to be able to hang, in the center of the star nuclear, and then stepped into the treasured Dingkou where the nine colors of fog

call out! ""

Oh..."

In the middle of the wave, the faint sound of the air broke out, and the spurs of the spurs came out. Hanging in front of Ye Xuan, it was the cultivation resources that he took out from the immortal world to develop this breakthrough. This

It includes a few heavenly blood, which is the resource that he must swallow this time. eye

In the middle of the glory, Shennong Ding's domain field power can be motivated by him...

Some cultivation resources were compressed to only the size of the baby fist, and then swallowed into the abdomen in the middle of a wave, the entrance was instant, and the blink of an eye became a powerful energy river, which slowly flowed in Ye Xuan. open. meaning

The sound of the chain squeaking in the material is also overwhelming. The shackle chain that appears this time is still only one. If you tear it, you can break through...

Soon, Ye Xuan fully promoted the energy that was just formed in the body, and started the next big day in the whole body.

Only half a month later, the hanging energy formed by the meridians in his body has been completely refining, just a shock, and the stubborn chain of shackles has been broken. and

The system prompt sound in anticipation is also very loud in Ye Xuan's mind..."

Hey, congratulations to the host, the breakthrough of the ancient realm of the hole! The current realm: Heaven's seventh order! ""

Hey, congratulations to the host, the breakthrough of the body and blood! The current realm: Heaven's seventh order! "under

For a moment, Ye Xuan opened his eyes, deep in the bottom, and a touch of excitement quietly flashed.

After this breakthrough, the suppression of Hongmeng Avenue still exists. In the ninth state of the magical scorpion, the revival of the realm is still only the ninth-order grand perfection. but

The real combat power has obviously skyrocketed again. More importantly, it is only a small step from the heavenly ninth order that is needed to swallow the 30th level of Hong Meng Bao Dan.

Chapter 5157: The third dead bird on the left bank

No suspense, Ye Xuan once again successfully broke through.

Although the suppression of Hongmeng Avenue still exists, he is still only the ninth-order state of the ninth transformation of the konjac.

But the real combat power has obviously skyrocketed again! more

What's important is that today, he is only two small steps left in the ninth stage of the heavenly road that is needed to swallow the thirty-first level of Hong Meng Bao Dan!

The breakthroughs of these two small steps, although they are ordinary, do not take much time.

However, Ye Xuan can't wait for it now. He must upgrade his cultivation strength to the peak of the ninth-order grand perfection as soon as possible, and then immediately proceed to refine the 30-level Hongmeng Baodan.

This time, he first raged in the left bank of the left bank. Now he has reached the middle of the left bank. He has repeatedly killed a lot of heavenly monsters. Even the top ten old guys on the left bank's Tiandao list are now killed by him. There are three left.

The news that the starry violent bear was born and ravaged the party must have spread in the left section of the left bank. Such as

Today, with the degeneration of the blood-blooded bears and the star-studded drug lords, the parties in the middle of the left bank and the old monsters in the star field will also receive news.

This time, after he left the drug ban, he had been in retreat for half a month. If there were no accidents, most of what he did after the return of this violent bear form, the entire left bank of the Galaxy has spread... This

It is not a trivial matter. After all, the hunted killers are all in the top ten on the left bank. leaf

Xuan has a very strong intuition. There should be such a thing that Hongmeng is paying attention to this matter, so his time is running out. He must upgrade his cultivation as soon as possible to the Tiandao Jiuji Great Consummation, and will be 31. Grade Hong Meng Baodan refining. only

To be thirty-one, Hong Meng Bao Dan is in his hands, and his heart will be enough. where

I am afraid that I will encounter the old monster in the middle of the left bank. I have to sacrifice the ten-color flame to protect myself, but I am not allowed to leave in trouble. In the predicament, Ye Xuan can immediately swallow a thirty-level Hongmengbao. Dan, only need a few years, can successfully break through the heavens and the environment, and enter the Hongmen Avenue after the Heaven.

Once his own cultivation has entered the Hongmeng Avenue after the Heavenly Way, the suppression of Hongmeng Avenue, which has always existed for him, will cease to exist.

Then, the activation of the konjac will change its blood power, and its power will be revealed again. Once it is displayed in the ninth state, he will immediately repair the ninth-order grand perfection.

After the Heavenly Road, the Hongmen Avenue, if Ye Xuan did not break through, once he broke through, he will become the strongest person in the Hongmen Avenue.

When you receive the ten-color flame directly, you can be fearless. Even if there are a few or even more than a dozen people, you can easily put these old guys into a mess..."

The breakthrough of the two small steps, although not too many, can not be taken lightly. In the meantime, it must not be stared at by a certain person..."

In the middle of the gloom, Ye Xuan fell into thoughts and murmured: "The previous two breakthroughs, one completely relied on the swallowing of the blood of the heavens, and once digested the previous breakthrough, and then After swallowing a few Heavenly Blood Serum, I successfully broke through..."

"The next breakthrough will not be able to swallow the blood of the heavens, but it will be unstable..."

"That is to say, before this breakthrough, we must go through a fierce battle and integrate the income of today's breakthrough into ourselves. Only then can we reopen the retreat."

If there are no accidents, the three guys in the top three on the left bank of the beast must be killed by two, in order to usher in the opportunity of this normal breakthrough..."

"And after that breakthrough, there is only one last small step left. This last small step breakthrough can only be swallowed up in a way that can swallow the blood of the heavens... forcibly unfolding!"

Then, the next two goals are the third beast on the left bank of the beast, and the second turtle. The two guys must fight continuously, kill each other, break through. The opportunity can come. "

"call out!"

Having said that, Ye Xuan did not hesitate any more, and with the faint sound of breaking the air, his body shape suddenly rushed out from the Shennong Dingkou, which was carrying the colorful fog, and then waved the hand to the body, directly The abandoned star where the retreat was located. "

Oh..."

The crisp and fierce cracking sounded, Ye Xuan waved a hollow crack, and the shoulder slammed into it. This time, the destination he will go to is the cat's forbidden area in the right side of the middle section of the left bank! ...

...

The cat's curfew is located in the area to the right of the middle section of the left bank.

The strongest person sitting in the forbidden area of the cat is a magical eye cat. His strength is the same as Ye Xuan. It is also the peak of the 9th-order grand perfection, but it is ranked on the left bank. The third one is the superb bird! left

Although the third and left bank of the shore are only one ranking, the magical power of the magic eye is not comparable to the fourth star of the left bank.

After all, the top three are already among the top three. Although the third is only the bottom of the top three, it is not the fourth comparable on the left bank. The meaning is completely different.

At least 30 people are in the forbidden area of the cat's forbidden land. After all, it is the third in the forbidden land on the left bank, surpassing the previous poisonous curfew.

However, the heavenly beasts who sit in the forbidden land on weekdays will not be too much. This time, unlike when they used to go to the poisonous ban, the news that the violent bears ravaged the left bank has not spread in the middle of the left bank.

Even if Ye Xuan smashes the star of the poisonous scorpion, and fights with the other dozens of heavenly beasts in the poisonous ban, it will not be too big to delay the possibility of blaming it.

But now it is different. in

After Ye Xuan successively murdered the blood-blooded bear and the star-studded drug lord, the news that he was hunting the top ten of the beasts on the shore, the entire left bank must be known. this

Things are not trivial, and it is very likely that it has already triggered the attention of a certain person.

Under this circumstance, Ye Xuan came to the cat forbidden, and he had to use the Thunder to kill the magic eye cat as soon as possible, and then it was convenient to take it away at the first time.

Otherwise, once there is a big fight with other heavenly beasts in the cat's curfew, and the delay will be delayed for a certain period of time, the possibility of attracting a certain monster will be greatly improved, and it is completely unnecessary.

Today's Ye Xuan, self-cultivation as the boundary of the nine-order grand perfection of the Tiandao peak has only two small steps to break through, there is no need to entangle with the Hongmeng after the heavens at this time...

With these thoughts, he quickly rushed to the cat's forbidden area on the right side of the middle section of the left bank, but did not enter the forbidden land as before, but concealed his body with the perfect shock of the spiritual power. Condensed air machine, quietly and patiently waiting outside the forbidden area to wait for it...

After leaving the abandoned star where the retreat was located, Ye Xuan quickly rushed to the cat's forbidden place on the right side of the middle section of the left bank!

But this time, he did not directly enter the forbidden land as before, but concealed his body with the perfect shock of the spirit of the spirit, to calm the air, quietly and patiently crouched outside the forbidden area. Down...this

There is also no way to do it.

Nowadays, he has cultivated himself as a breakthrough from the ninth-order grand perfection. There are only two small-order breakthroughs left in the world. There is absolutely no need to entangle with the singularity behind the heavens. Partial

The star-studded violent bear was born and raged on the left bank. The news of the top ten strong hunting on the left bank of the beastly beasts was now spread across the entire bank of the Galaxy. Say

Uncertainty has caused concern for a certain person. This

In this case, if he directly rushes into the cat ban, it is very likely to encounter an ambush, so it is best to wait until the magic eye cat squats out of the cat ban, and then shoot again in the dark void outside the forbidden land. Session

As soon as the action is faster, the Thunder strikes, and after the successful ambush, it immediately smashes away, when there is not much chance of an accident...

It's unusual that this way of waiting for a rabbit may not be appropriate, because no one can predict when the target will go out of the forbidden star field. If someone is retreating, maybe hundreds of thousands of years, it's so speechless. . but

Now it is different. The situation on the left bank of the entire Milky Way has long since passed. Since the birth of the wolf and the black-skinned crocodile, in the past year or so, there have been more than a dozen Taomen after the heavens on the entire left bank. It's strange to be born. This

In this case, it is impossible for a savage beast to ban the land and the heavenly lords in the singer's star field to be able to settle down for a long time. especially

It is the peak of the heavens that has reached the 9th stage of perfection. They must not be able to sit still. If they have the opportunity, they will travel to the forbidden places and the stars in the town where Hongmeng is sitting, and ask for advice. magic

Eyes and cats are the third strongest on the left bank of the beastly beasts. There have been endless years in entering this realm. For the expectation of the Hongmeng Avenue after the Heavenly Way, he is naturally more urgent and enthusiastic than anyone else. .

Therefore, he will surely find ways to contact the banned landlords who have the glory of Hongmeng and the Tiandao blame in the star field, and ask them to introduce them. I hope that they can see these singularities and humbly seek help to break through the heavens and into the glory of Hongmeng. The essential.....

Sure enough, Ye Xuan only waited for seven days, and in front of the cats outside the 100 billion miles, there was a spurt of anger.

This is a fierce bird with a body shape of about 50 million miles. It is dark and sturdy, but it has a cat head, but only one eye, emitting blue faint light, and the body is repaired. The atmosphere is also the peak of the ninth-order grand perfection, and it is extremely thick and heavy... It is the magic eye cat! "

Oh..." This

The old guy is extremely cautious, and this must have been because the starry tyrannical bear was born and raged on the left bank. The news of the top ten hunters on the left bank of the sacred beasts has already spread. Flush

Outside the forbidden area, his singular blue awns appeared in his one-eyed eyes, and he glanced at the surrounding voids. After confirming that there was no abnormality, the tearing claws tore open a void crack, and rushed into it, and the blink of an eye disappeared.

This one-eyed eye of the magic-eyed cat is extremely extraordinary. It is also a kind of singularity. He has a faint blue awn in his eyes, sweeping around the tens of thousands of miles in the void, just to see if anyone is crouching in order to prevent being ambushed. . can

Unfortunately, although his cat's eye is also a martial art, and the power is extraordinary, but compared with Ye Xuan's enchanting is still not as good.

Today, Ye Xuan not only activates the magical power of the perfect shock, but even the most powerful enchanting enchantments have been fully activated. In this case, the figure is hidden, and the air is full, he simply does not May leak a trace of a trace.

Not to mention the magical eyes of the same heaven and earth, even the ones that have been born on the left bank, the ones behind the heavens, I am afraid it is difficult to see the clues.

After all, they all just broke through the initial cultivation of Hong Meng, and if there is a horror repair in the middle of Hongmeng, it is hard to say..."

Hey..."Ye

Xuan did not reveal the traces, but the power in the body has been pushed to the extreme. It has already been narrowed down under the secret of blood and sea. Only the shape of the taller man will be transformed into an invisible man, and will be silent. Shoot and go.

Taking advantage of this opportunity of the void crack has not yet completely bridged, Ye Xuan in the form of violent bears squatted behind the eyes of the demon eyes, he is already well-calculated. he

It has already been decided that if the magic eye cat cockroach walks out from the forbidden land, and goes to other forbidden places or the star field to visit, it will surely tear open the crack of the void. Correct

In Ye Xuan's case, this is obviously in the middle of the mind. No one can expect that he has such a secret and secretive secret method, and the most powerful enchanting technique of the enchanting, even the magic eye can be seen. Followed by the same void crack behind him, followed by, waiting for an opportunity to kill...

.....

The vast darkness in front of the middle section of the left bank! "

Oh..." Qing

The brittle cracking sound rang, and a void crack appeared in the quiet void. Then a figure emerged from it, and the body was huge. It was more than 50 million miles. The figure was a black scorpion, but it was a black scorpion. With a **** cat, it's a magical cat that just left the cat's curfew...

He was going to go to a forbidden land on the right side of the middle section of the left bank. A savage beast in the forbidden land of the beast was recommended for him, and he was sitting in the forbidden place, and promised to see him. miss you

Here, the eyes of the magic eye cats suddenly show the excitement of color, and when they wave, they want to tear open a void crack again and continue to hurry...

But at this time, the change has suddenly come.

"The deity has already been here with you. It is hard work all the time. Why bother to hurry? After the battle, go again... not too late!"

Oh..."

It was at this moment that a cold and incomprehensible voice rang, and then Ye Xuan's figure appeared.

At this time, he is still in the form of a violent bear in the starry sky. He used to only succumb to the heights, but as he pushes the strength of the body to the extreme, the ball between the blinks is like an inflated ball. It's already 50 million miles away, across the 100 billion miles of the void, and the front of the magic eye cats are relatively distant..."

Starburst bear, is it you? "With

The cultivation of Ye Xuan was fully opened, and the invisible pressure was dispersed, and the air of the magic eye cat was completely locked.

The latter's body shape immediately turned around and looked around. After seeing Ye Xuan's figure, the mang was condensed, and the voice was immediately resounded: "You crouched outside the cat's forbidden land, all the way to follow the deity, the deity But there is no half-pointing..."

"Starburst bear, is it you?"

With Ye Xuan appearing, the magic-eyed cat squatted in a micro-shock, and immediately turned to look at it. After seeing Ye Xuan's figure, the man's voice was condensed, and the voice was immediately stunned: "You crouched outside the cat's forbidden land. All the way to follow the deity, the deity did not even notice it..."

"How do you...do you do it?"

It is no wonder that he will have such a question. After all, he is the third strongest player on the left bank of the Heavenly Beasts. If Ye Xuan is stronger than him, I am afraid it will not be too strong.

And he still has magic eye surgery, in any case should not appear this situation, was actually entered by the Ye Xuan tail into the void crack, all the way to quietly arrived here, but not half-pointed!

The reason why he would ask such a discourse at this time is obviously to explore the style of Ye Xuan, so that in the follow-up battle, he can also be prepared. although

Said that the starry violent bear incarnation of Ye Xuan is unknown in the left bank, but his name is unknown, but he has only recently smashed the fifth-ranked magic blood flying bear on the left bank of the left-wing beast, and ranked No. Four starry toads.

It is enough to prove the strength of these two battles alone. Even in the left bank of the Heavenly Animals list, the magic eye cats in the top three are not allowed to sneak!

"Oh..."

The voice is still not falling, the sharp and unpredictable sound of the air has already sounded, and the blue eye beam is shot in the huge one-eyed eyes of the magic-eyed cat, and the void along the way is rapidly collapsing. he

The magic eye surgery is performed, and the speed is too fast. Once Ye Xuan's body is shrouded, I am afraid that it will bring some damage, because this kind of sorcerer is aggressive and too overbearing. One

It's a long story. In fact, when this beam of light was reached, only one tenth of a moment passed. thousand

The distance of a hundred miles away is only a tenth of an instant. If this speed is changed to someone else, even if it is the ninth-order grand perfection, it will not be evaded. It must be hit. It may be that the figure is pierced. After all, this faint blue light beam is blazed, and even the void is collapsing. but

Ye Xuan avoided. first

In front of the battle with the left bank of the Heavenly Path of the Beasts, the devil's blood bears a battlefield, Ye Xuan almost fell into the trend in terms of speed, and finally red lotus broke the virtual shuttle, and integrated into the two feet to reverse this trend. This

A little bit makes him remember deeply.

Nowadays, ambushing this magical eye cat, he will naturally be vigilant. The position of the magic eye cat on the left bank's Tiandao leaderboard is still above the magic blood flying bear, and the strength is stronger, and he is a fierce bird. In terms of speed, the advantage of the ferocious bird is more obvious than that of the beast.

Ye Xuan has already expected that his speed may exceed the magic blood flying bear, so before he rushed out of the void crack, he waved the red lotus to break the virtual shuttle and integrate into the two feet. thing

It is proved that this kind of cautiousness is necessary. Otherwise, it is only this blue and white, and Ye Xuan can never avoid it. It is very likely that it will be seriously injured...

"call out....."

Under the sway of his shoulder, his figure disappeared in the same place. When he appeared again, he was already on the left side. It was only a few hundred million miles away from the magic eye, and the iron fist was pinched and immediately blasted. "

Rumble..."

The power of this blow was too violent, and the earth-shattering roar sounded, and the iron fist slammed away, and the void was collapsing along the way. If it was really blasted to the demon eye, it would definitely make him break.

"The reaction is good, the speed is still acceptable, but unfortunately, just this is the case, today's battle, you are destined to drink this hate..."

"Hey..."

At the same moment, the magical eyes of the devil's eyes and cats sounded, and he raised his head with a scream of horror, and the pair of wings and wings behind him screamed. The whole huge body was instantly inspiring, like a butterfly in the void. It's just dazzling. light

Song indiscriminately avoided Ye Xuan's shot, even under the flash of lightning to Ye Xuan's back, the right claw was explored, and immediately pressed down..."

Oh..."

The cracking sound came, and the right-handed claw of the magic-eyed cat licked behind the leaves of Ye Xuan, tearing open the flesh of his back. At this moment, Ye Xuan felt the pain behind him, and was torn open with a big mouth, blood. The rain sprinkled in the sky. also

It's just behind, not the chest or the abdomen. Otherwise, if you hit this, Ye Xuan's chest and abdomen will be torn open, and the internal organs may fall out. It is definitely a serious injury.

The power of this magic eye cat is not very strong, but the speed is too fast. As a fierce bird, this is originally intended. It does not make Ye Xuanjue too unexpected.

"The top three in the left bank, really worthy of the name, but unfortunately, what you are good at is just speed..."

Enduring the pain, the violent bear's shackles flashed, and Ye Xuan's voice of the gods sounded again, revealing a more savage sense of Mori: "You should be proud, this battle, the original originally only I

intend to end with a pair of meat fists, but because of your speed, the deity must have sacrificed other means..."

"call out!"

Call..."

The sound has not yet fallen, Ye Xuan has already shot.

Between the waves, a glare came out, too fast, and the blink of an eye was already behind the devil's eyes.

This is a rush of storms, and the blink of an eye turns into a flame-filled sea of billions of miles, and it is not a general flame, but a ten-color flame that has never appeared even in Hong Kong's void...

The ten-color flames crossed the sky, and they spread out in an instant. They were stopped behind the eyes and around the eyes of the magic eyes, including the top and bottom of the head, and were also banned.

This old guy is too fast, Ye Xuan can only use this method to restrain its range of activities, otherwise, this war does not know how long it will last, even if the other party realizes that it is not Ye Xuan's opponent, it is very likely to take it away. Ye Xuan may not be able to catch up. "

Ten color flame? This is impossible..." Live

The moving space was suddenly restricted, and the shape of the magic eye cat stunned. It was originally very agile. Now it is abruptly stopped in the void, and it is exclaimed under the cool air: "You are the main leaf of the temple." Xuan?" This

The old guy reacted and guessed the origin of the ten-color flame. It was formed by Ye Xuan, the master of the temple, with the nine-color flame of Shennong in his hand. can

Unfortunately, everything is already late.

"Booming..."

Oh..."

As his body stopped, Ye Xuan's squatting moment flashed, and he did not hesitate. A flashing body went directly to the side of the demon eye cat licking, and his left hand stalked and held his wing root, right hand. Pinch the fist, and immediately punch a fist...

There is no suspense, the old guy has smashed a dozen fists and the body has exploded. The **** fog is thrown into the body by Ye Xuan, and at the same time he is put away, there are nearly twenty copies of the source of heaven. fruit

However, it is the third place on the left bank of the Heavenly Beasts, and the body is very rich, even Ye Xuan is heart-warming.

At this point, the top ten strong survivors on the left bank of the Heavenly Beasts have been killed by Ye Xuan.

Ranked tenth in the dragon whale!

Ranked ninth cold blood blue crocodile!

Ranked eighth in the blood of the beast!

Ranked seventh in the phoenix blood fox!

Ranked sixth in the **** silver wolf!

Ranked the king's magic blood flying bear! row

The fourth star of the sky poison!

And squeezed into the top three, the third-ordered demons...

The result of this battle Ye Xuan is still very satisfied.

Although the speed of the magic eye cat licking, Ye Xuan was quite surprised, and some unexpectedly forced to sacrifice the ten-color flame, so he was seen by the magic eye cat with a glance.

But fortunately, the battlefield between the two is the endless darkness in front of the middle section of the left bank. In addition to Ye Xuan and this magic eye cat, there is no other existence within the trillions of miles, so even the magic eye cat recognizes It is also irrelevant to have his identity.

The magic eye cat has fallen, even if he saw the clue before he died, there is no meaning...

Nowadays, with the demon eyecatcher being slain, the top ten of the left-wing heavenly beasts is the strongest in the top ten, and has been killed by Ye Xuan...

The ten fronts are still alive, and those who have not fallen are left with only the top two.

These two old guys are obviously stronger than the demons. One

One is the Hongmeng turtle, the other is the town of heaven!

Hongmeng tortoise ranks second on the left bank of the Heavenly Animals list. If the magic eye cats are known for their speed, then the Hongmeng turtle is known for its defense.

The town of heaven and earth, is known for its attack, the combat power is simply strong and horrible, claiming to suppress all the existence of the heavens, the name of the town Tiansheng, it is this.

As for the former, the reason why he was named after the Hong Mongolian tortoise was because his life was too long. It is said that this old turtle was born at the beginning of this Hongmeng era.

The first generation of the birth of this Hongmeng era was the three thousand chaotic devils. Later, the three thousand chaotic devils gave birth to descendants of blood, and they were congenital beasts. and

It is said that this Hongmeng turtle is the first born after the three thousand chaos devils, even before the first generation of the beastly beast, almost the same life as this Hongmeng era, the name of the Hongmeng turtle, can be described as real Return! Hong

The beast of the scorpion turtle is called the smashing tortoise, and the scorpion tortoise is the strongest person in the forbidden land.

The tortoise's forbidden land ranks second in the list of forbidden places on the left bank, and the overall strength is stronger than the cat's curfew. The total number of eccentricities in this forbidden land is more than forty.

However, in the forbidden land of the tortoise, the beasts with the blood of the tortoises are only one of the sacred tortoises, and the other forty sacred beasts are all other starry beasts of other blood. and also

That is to say, although the Hongmeng tortoise is the strongest person in the forbidden land, and the forbidden land is named after him, in fact, the Hongmeng turtle is just a loner, and he has no descendants of blood. Such as

This powerful existence, and lived for such a long time, almost all lived with this Hongmeng era, but did not leave any blood descendants, this matter is indeed somewhat unusual, revealing strange. but

The specific reason is that the outside world is completely ignorant, because this Hong Mongolian tortoise has almost no contact with the outside world. Although there have been several appearances since the endless years, almost all of them are speechless and are not willing to communicate with others. Shown lazy and super...

Since the endless years, he has almost been sleeping in a giant star in the depths of the tortoise, which may also be related to the blood of his tortoise. This group has always been like this.

That is to say, if Ye Xuan wants to fight this Hongmeng tortoise, the way to treat the devil's eyecatcher is not enough. This

The old guy crouched in a giant abandoned star in the depths of the tortoise's forbidden land. He didn't go out on weekdays, as if he was not interested in everything outside, just like to bury his head and sleep.

In this case, if Ye Xuan is waiting outside, I am afraid that I will not be able to see him on the side.

Only take the initiative to attack, go find it yourself!

This is naturally a certain risk, but now he has just arrived in the middle of the left bank, although the bombardment of the magic eye cat licking, but this battle is carried out in the vast dark area in front of the middle section of the left bank, did not leak out, short time news It is impossible to spread this. take advantage of

With such an opportunity to rush to the tortoise to ban the land, according to Ye Xuan's estimate, it should be a small problem. complete

In the order of his hunting, the star-studded drug lord, who was ranked fourth on the left bank not long ago, was just killed. The outside world must believe that his next goal is the third-eyed magic eye cat on the left bank.

Before the news that the devil's eyes were hunted and slain, the second-ranked Hongmeng turtle on the left bank should not be deliberately concerned about...

For Ye Xuan, if he wants to hunt this Hongmeng turtle, his time is running out.

He must now rush to the tortoise to ban the land immediately. Otherwise, once the magic eye cat licking is exposed, the news will spread. The eyes of the old guys who are interested in him in the middle of the left bank must immediately turn to the tortoise. Forbidden land. Such as

Therefore, Ye Xuan took the initiative to attack, rushed to the forbidden tortoise, and entered the depths of the forbidden land, the risk factor will undoubtedly increase the multiples..."

Hey..." brain

After flashing all of this, Ye Xuan felt a strong sense of urgency in an instant. He didn't hesitate any more. After the flash of the cold man, he immediately waved his hand and tore a crack in the void directly in front of him.

Then, after narrowing his figure to the height of his feet, his shoulders swayed and immediately broke into the crack of the void. He disappeared and rushed to the tortoise...

...

The forbidden land of the tortoise was also located in the middle section of the left bank. Ye Xuan started from the vast and innocent dark area in front of the middle section of the left bank. He directly towed the void and moved forward again and again. It took only five days to reach the destination. most

At the end of the next emptiness move, the node was in the void from the edge of the forbidden land of the tortoise. Ye Xuan's figure was a void crack, and he did not hesitate. He went straight to the smashing turtle outside the tens of billions of miles. go with. this

At that time, he was still in the form of a violent bear in the starry sky, but his figure was reduced, only to the left and right, and the magical spirit of the perfect shock has been spurred to the extreme.

Therefore, the shape of the body is hidden, the air machine is full, even if the left bank has been born in the past year, the dozens of Heavenly Taoist Houmeng, can not glimpse a little bit of clues.

In this state, Ye Xuan began to move at a rapid speed. Soon after, he left behind the imaginary distance of tens of billions of miles away, and quietly entered the edge of the forbidden land of the tortoise, and touched the depths of the star field.

He was not in a hurry to immediately expand the power of the gods and explore the situation in the forbidden land.

Because the perfect shock of the spiritual power secret law can perfectly hide his body shape, the air machine is full, but this state of nothingness is very fragile.

As long as Ye Xuan takes the shot, or spreads the power of the gods to the full extent, the magical power of the perfect shock will be invalidated in an instant, when his body shape appears, the air machine is exposed, and the heavenly lord of the turtle is in the forbidden place. We will feel the first time. and

That is obviously Ye Xuan's unwillingness. This time, he entered the forbidden land of the tortoise and fights with the Hongmeng tortoise. He must end the war as much as possible. Therefore, he can only wait to determine the position of the tortoise and even see him. Revealing the traces...

Chapter 5158: Wang Ba shrinks not shame

"call out....."

The undetectable sound of the air broke out, and Ye Xuan, who was full of body and air, began to move at a rapid speed. Soon after, the virtual distance of tens of billions of miles was left behind, and he quietly entered the forbidden land of the tortoise. Edge, touch the depths of the star...

As the comprehensive strength ranks second in the forbidden land of the left bank, the forbidden beasts in the forbidden land are quite a lot. According to Ye Xuan, only the heavenly beasts here are more than forty. when

Of course, these heavenly beasts cannot all sit in the forbidden land, and there must be some going out, or entering a parallel void to practice. but

The specific situation, because Ye Xuan did not extend the power of the gods to explore, so now do not know.

These levels of fierce beasts are forbidden, and there are obviously a lot of abandoned stars. After Ye Xuan enters the inside of the forbidden land of the tortoise, he touches the deepest part of the front star field and sees too many abandoned stars along the way. each

There is a large number of forbidden beasts in an abandoned star, with different forms and different blood, but they are not aware of his arrival.

The turtle forbidden land is very vast. Before Ye Xuan went all the way, he walked in the void for a whole day, and the abandoned stars in the sky were gradually less...

As I said before, this head is more eccentric and extremely lazy. He has almost lived with this Hongmeng era. He has never walked out of the tortoise several times since the endless years, and he is in his cave house on weekdays. The stars are sleeping inside.

Therefore, the surrounding area of the Hongfu tortoise must be extremely secluded. Otherwise, if there are a lot of other abandoned stars in the surrounding area, is it a nuisance for him who likes to sleep? Correct

In Ye Xuan's case, this is obviously good news, because the more remote it is, the longer it will be dragged once the war is set off, causing the attention of other heavenly beasts in the forbidden land.

At this time, he has already reached the depths of the forbidden land of the tortoise, and looked around. There is no abandoned star on the left and right sides. The empty sky is quiet, giving the impression that it is coming to the banks of the Milky Way. Beyond the vast void of darkness.

It was also rushing forward for a day, and in the dark void outside the tens of billions of miles, there was finally a huge abandoned star. Here is the place where the cave of the Hong Mongolian tortoise is located. The old guy is crouching in the stars. The inside is screaming and sleeping, and I don't know how long it will take for a long time. Take

Ye Xuan's horror cultivation nowadays, after entering the depths of the forbidden land of the tortoise, under the speed of speeding up, they all walked all the way for more than two days before arriving here, showing that this head is in Hong Kong. How deep is the void.

It can be said that it is extremely secluded, too far away, even if it is extended by Ye Xuan's incomparable power of God, and under the full force, it is no longer possible to detect other abandoned stars in the forbidden land of the tortoise.and also

That is to say, if he is fighting here with Hongmeng tortoises, as long as he does not make too much noise, or other savage beasts in the forbidden land of the turtles will come to investigate for a moment, everything that happens here, the tortoise is forbidden Other heavenly beasts will not be detected very quickly...

The thoughts flashed through my mind, and Ye Xuan's tight heartstring was suddenly loose.

Such a long distance is enough for him, because in his view, as long as you find this Hongmeng turtle, you can kill it with all your strength, and at most it is just a meal.

In such a short period of time, behind him, his strength and strength are all in the depths of the tortoise outside the day. Other heavenly beasts, even if they notice abnormalities, simply can't come over until they come here. At the time, Ye Xuan has already drifted away..."

call out! "eye

Under the glory of the glory, Ye Xuan did not hesitate, and his shoulders rushed into the giant abandoned star in the front of the sky. very

Fast, he arrived in the hinterland of the stars, a vast and innocent, occupying the endless ocean of more than 80% of the land surface, it is in the field of vision.

Undoubtedly, the head of the Hong Mongolian tortoise, in all likelihood, crouched in this vast and innocent ocean, and slept for a long time. "

If this is the case, the star will be closed, and it will be fought in the interior of the star. The domain of Shennong Baoding will be isolated and isolated. This is the possibility of alarming others... it is even lower! ""

call out....."

In the whisper, Ye Xuan waved his hand, and in a moment there was a masculine rushing out. After the storm rose, it turned into a huge giant, hanging over the stars, pouring out the invisible domain. The pressure will completely ban the entire star. versus

At the same time, with Ye Xuan's shot, the magical secret of the perfect shock has also been broken. His figure has emerged, but it is still only the size of the scale, but it is rising in the storm, and the giant figure of 50 million miles is in shape. The fall fell to the vast sea below...

His huge figure fell, and the vast sea below it provoked an infinite number of stormy waves, quiet and sultry, but it did not spread out, because Shennong Baoding, who was hidden in the void, poured the domain power. Everything is isolated inside the stars. From

There is no abnormality in the outside world. Everything is as old as it is. Even Shennong Baoding, which is hanging over the stars, can't be seen. It has been hidden by its domain power.

who is it? I dare to disturb the old sleep..."

Ye Xuan's body shape has just disappeared into the sea. In the deepest trench in the deepest part of the sea, a whisper of utter whisper was heard in an instant, revealing the meaning of dissatisfaction.

He was sleeping, but he was awakened at the moment and was already angry...

"Booming..."

With the sound of this god, the deepest deep trench in the sea also heard the thunderous thunder of the ear. A huge black giant tortoise emerged from the depths of the trench, and the whole body was black and ink. The size of the body is more than 50 million miles. The repairing atmosphere that is scattered in the body is the peak of the ninth-order grand perfection. but

However, it is extremely solid and heavy, and obviously exceeds the magic eye cat that Ye Xuan had just killed. This

The war can't last for a long time, otherwise the possibility of being discovered will increase greatly, and these thoughts will flash in the brain. Ye Xuan will not hesitate any more. Under the flash of the cold, the huge body shape will be swept away. The blink of an eye came to the side of the black giant tortoise. No

Hesitant, right fist under the pinch, when even a punch banged toward his turtle head...

"Where is the bear scorpion? Is it impossible to step on your ancestral grave? If you don't say anything, you will be stunned, your brain is sick..."

Oh..."

Seeing a huge fist to the head of his own turtle, Hong Meng's tortoise was scared, and the sound of the gods was directly reduced to the huge black turtle shell. .

In the looming, it seems that he can still hear his whispering whisper: "The hero does not eat the loss before the eyes, the old is the king, the king is not shameful..."

With Ye Xuan's shot, Hong Meng's tortoise's body was scared... God

At the same time, when the sound of the sound was heard, it was directly reduced to the huge black turtle shell, and even a slightly sloppy whisper was faintly audible: "The hero does not eat before the loss, the old is Wang Ba, Wang Ba Shrinking heads are not shameful..."

"boom!"

"Booming..." He

The sound of the words has not yet fallen, and Ye Xuan's fist has already slammed into his king's eight shells. The thunderous sound of the sound is heard, and the eight shells vibrate a little, but there is no

damage, but the seabed below is broken. I don't know how many gravels of different sizes roll in the sea like roaring in the Nujiang..."

So hard? "leaf

Xuan is a bit dumbfounded. He just made a full blow. The power of this boxing can be imagined, but on the king's eight shells of this red-faced tortoise, there are no cracks in the cracks. It is hard and horrible.
.....

With the frowning, Ye Xuan's brain was flashing, and this reminded me that this Hongmeng turtle was known for its defense. Presumably, this king's eight-shell is so hard, which is one of the reasons for its amazing defense.

He did not continue to punch and shoot, but turned his right hand and took out the **** stick. If

It was outside, Ye Xuan did not intend to use the **** stick, because once the black stick was sacrificed, it would reveal his identity in an instant.

But now the whole star has been banned by the domain field power of Shennong Baoding, which is hidden in the void, and there is no such thing as an invisible peep in the void outside the stars. and

In front of him, this Hongmeng turtle must be killed, so naturally there is no such concern..."

The deity does not believe that you can't break your broken king's eight shells..."

Rumble..."

The head of the black bar started, and Ye Xuan's sly flashed a cold and cold mang, and whispered his right arm and held it up, and it was round and squatting toward the huge king of the eight shells in front.

The loud noise is more than the previous one, but the black shell of the Hongmeng turtle is still unmoved. However, there are cracks in the seabed like a spider web. If there is no domain power, it is afraid that the seawater is already I poured it in...

This result makes Ye Xuan again dumbfounded, he is a little scratched, and there is no reaction to the **** stick. The old guy's Wang Ba shell even has no white prints, which is hard to go against the sky. what! "

This is absolutely impossible..."

"boom!"

imitation

The Buddha was not reconciled. Ye Xuan grinned and gnawed his teeth. The right arm was round again, and the **** rod smashed again.

Obviously, the result is not different. The king's shell is still the same, but the seabed below is more severely broken. It is covered with cracks of spiderwebs of various sizes. It is dense and shocking.

He is really speechless, and then he will continue to do so. Wang Baqizi is fine. I am afraid that the whole star will be shaken into a pile of gravel. At that time, Shennong Baoding's domain power will not be bound again. The stars are broken and scattered, and the energy fluctuations that occur here will be dispersed in an instant...

In the same way, those heavenly geeks in the star field in front of the forbidden land will soon be aware of the anomaly.

And by that time, Ye Xuan still couldn't break the hard and horrible Wang Ba shell, fearing that it would only be awkward. Partial

This old Lao Wang Ba has already known his identity. After all, Shennong Baoding and the **** stick have been sacrificed, and the other party does not know how to blame. This

In this case, once Ye Xuan retired, he was recently born, and the starry tyrannical bear who ravaged the left bank is the news of Ye Xuan, the master of the magic hall, and will spread in an instant. Such as

Therefore, he can only stop here, and he is hidden in the ground, because the dozens of people on the left bank will never let him go, and will search for his traces. which is

Ben Ye Xuan hides tightly, but in case one of these old guys is not shameful, regardless of the face of Hongmeng's strange, he turned to the right side of the right bank's magical hall to force him to appear, and then he will be true. The trouble is too big, it can't be solved...

"Old guy, you are also the second-ranked survivor on the left bank of the sacred beast. If you encounter an enemy attack, you only know that you are a tortoise. Isn't it too shameful?"

Unwilling, Ye Xuan's voice of the gods came out, this is clearly in the radical, the second name of the left bank to stimulate the old guy, in general, like his level of power, this discourse is the most unbearable . only

If he wants to extend his head from the king's eight shells, Ye Xuan has a way to deal with him. He does not believe that the head of the old king's turtle is as hard as his king's eight shells...

"Bad boy, come here less..."

It is a pity that his words have just fallen, and the words of the words of the Hongmeng tortoises have been heard in the dark and huge kings.

The old guy is not angry at all. It is clearly that the oil and salt are not in the air: "The old ruin is Wang Ba, the king is not shrinking, is it not a joke? This is the old liberty, this is the old right, I am the king eight, I shrink my head... ...naturally!"

This is awkward, I thought it would be a bit useful. I didn't expect people to be righteous and stern. Instead, I let Ye Xuan become upset and feel that I have a little thought. It is simply the heart of a villain.

"Well, the last blow, if you don't come out and fight with the deity... Hey, don't blame the deity!"

Under the anger, Ye Xuan once again made a sound, his right arm was already high, and the **** stick once again slammed down...

"boom!"

"Booming..."

The skyrocketing sound came, and the cracks in the spider web on the seabed were more dense. It seems that even if there is another stick, the whole star will be broken. but

In front of this 50 million-mile-tall black king eight shells, it is still as it was, and it's just not moving, and the white marks are not being pulled out...

In the same way, the Hongmeng tortoises that have been reduced to the eight-shell of the king are still not oily and salty. They have no plans to take the lead. Even the meaning of the snoring is gone, and there is no movement. "

Do you think that you can escape this robbery today? It's really a joke..."

"Since the deity has come, it is impossible to return empty-handed, not to mention that now that you have sneaked into the identity of the deity, you can't leave you today, and you must kill it anyway..."

"call out!"

During the speech, Ye Xuan turned his hand and directly closed the **** stick. Then there was a faint sound of broken air, and a very smashing mans shot from his hand.

When the storm rises, it will instantly turn into an endless ten-color flame sea, surrounded by the huge king-eight crust of Hongmeng tortoise, and it will be forced to close, and it will be burned down...

Although the king's eight shells are hard, the horror power of the ten-color flame is obviously unable to hold back. If there is no accident, the ten-color flame will be gathered together, and this Hongmeng turtle will be with his king's eight shells. After the burning, the dust will disappear!

"Ten color flame? Damn little bitch, what are you special..."

I felt the flames of the ten colors outside, and the old guy in the shell of the eight kings was finally calm. After a whisper, he was pleading for mercy on the spot: "But it, the old lord today, the little scorpion must not be impulsive, just Give the old grandson a face to the head office?"

Ten color flame? Damn little nephew, what are you special..."

Feeling the smell of the outside ten colors, the old guy in the Wang Ba shell was finally not calm, and after a whisper, he was pleading for mercy on the spot: "But it, the old taming today, the little scorpion must not be impulsive, just be Give the old grandson a face to the head office?"

The horror power of the color flame is here, the old guy is not surprised by Rao Ye Xuan, but the words he said at the moment, let Ye Xuan give his grandson a face, but it is really inexplicable, listening to Ye Xuan full of fog, I was on the spot. foot

After a few moments, he only reacted. He was cold and scorned: "How? When you see the ten-color flame, you know that you are afraid? Actually, such a discourse is spoken, who is your grandson and who is doing this? Do you have to give him a face to spare your life?"

You don't want to be shameless, you just turn your face and don't recognize people..."

Listening to Ye Xuan's words, Hongmeng's tortoise's king's eight-shelled son screamed and snarled: "The grandfather's grandson and you are at least a group, you don't even let his grandfather let go, but also more ruthless. A little?"

And the deity of a group? "leaf

Xuan Yue listened more and more confused, the brow screwed tighter, but the curiosity of the heart was also hooked out, subconsciously asked: "Old guy, who is your grandson?"

"Void giant turtle, do you dare say you don't know?" Wang

In the eight shells, the words of Hongmeng's tortoises and snoring came out. It seemed to be gnashing their teeth and revealing the meaning of resentment: "When the Great World was just opened up, the old age had once entered, leaving the blood, he is not What is my grandson?"

"Is that the goods?"

This result is too unexpected. Ye Xuan whispered on the spot: "You old thing, actually the grandfather of the empty giant turtle?"

Such as fake replacement! "

Seeing Ye Xuan does not seem to know this thing, that is to say, the previous words are not ruthless, the old guy's tone has eased a bit, and he snorted and said: "Your kid is also the ninth-order grand perfection. The old **** breath, compared with him, can't you still see it?"

He was reminded that Ye Xuan really saw the clues. He had never thought about it here. Now he knows the truth. With his cultivation, especially the enchanting supreme power, he naturally looks at it. Out of the old guy, he didn't lie at all. He was indeed the blood ancestor of the Void Giant Turtle..."

I didn't expect that today's Dashui rushed to the Dragon King Temple. The family didn't know the family..."

call....."

"Hey!"

Under the realization, Ye Xuan waved directly, and the ten-color flame sea that had just been sacrificed was instantly turned into a man, and broke into his eyebrows, and disappeared.

At the same time, his body shape has also shrunk, and in order to make the size, even the Shennong Baoding, which has been hovering over the stars, but has been hidden in the void, has also been directly absorbed into the body. do

After all this, Ye Xuan only made a sound again, and waved at the Hongmeng turtle: "The old man, the tortoise, misunderstood, don't go to the heart, but then again, my brother's defense is really a younger brother. I only see it in my life. It's really admired. It's better to be a brother and a younger brother. How about being a brother of a different surname?"

It is to be replaced by others. Ye Xuan naturally does not have this kind of thought, but this old guy is the grandfather of the Void Giant Turtle, then it is another matter. Virtual

The empty giant tortoise and Ye Xuan can really be considered a group, but the old guy was not very good at Ye Xuan at the beginning. Of course, he should have already entered the heavens, but it is definitely not Ye Xuan's opponent.

Perhaps it is for this reason that the old guy and the ridiculous night fork have never appeared again, it should be that in front of such a powerful Ye Xuan, it is a bit too faceless.

This time, Ye Xuan accidentally encountered his blood ancestor, grandfather's character, this opportunity he naturally can not miss. only

To be able to worship this red-faced tortoise, then the next time you see the empty giant turtle, you can show it in front of him as an elder. Just think about the face of the old thing, Ye Xuan is already excited.

It can be said that the mood he wants to worship with the Hongmeng turtles is extremely urgent. The whole person is just excited and excited with just a shot of blood..."

Worship? "leaf

Xuan's words made Hong Meng's tortoise a glimpse, but after seeing Ye Xuan's ten-color flame sea, including Shennong Baoding, which was hovering over the stars, he did not worry about anything, even if he narrowed down. Shape, just like Ye Xuan, only the size. versus

At the same time, he initially retracted into the head of the turtle shell and stretched out his limbs. A pair of small eyes stared at Ye Xuan up and down, and asked the fox: "Bad boy, just shouting and killing. But now suddenly I have to worship with the old, what are you calculating?"

"Computation? Does the deity need to calculate you?"

So Ye Xuan is not happy, and his face is sinking: "Don't look at your Wang Ba shell is very hard, but if you really want to deal with you, the deity's ten-color flames are enough, you will be able to let you in an instant. Turned into fly ash..."

"Don't say you, even the top left on the left bank of the beasts, the so-called combat power can suppress the head of the world, the deity is not in the eyes, after leaving you, will go to him The holy curfew, killing him!"

Having said that, Ye Xuan's nose is cold and awkward, and he swears and swears: "This is the supreme posture of the world, the deity needs to calculate you?"

Are you going to the holy curfew to find the town of heaven? "Hong

The Mongolian tortoise was shocked and jumped, and the tone was full of disbelief: "The town of Tiansheng is the ancient existence of the same era as the old age, and it is also nearly the same as this Hongmeng era..."

His combat power is extremely powerful. He is known as the Tiansheng of the town. He can suppress the meaning of the heavens and the earth. Since the birth of the world, he has never tasted a defeat. Even the old face of him, his heart is weak, if there is such a hard and incomparable king, There is no qualification for a battle with him..."

Speaking of this, his voice was slightly stunned, and he looked at Ye Xuan. This was the only way to take it: "It's not that you can't afford to look down on your kid, but you're fighting like a demon, but if you

want to fight against the front of this town, If you use the ten-color flame, there is no possibility of victory. Even if you are not careful, you will be suppressed by him..."

"So, it's best to think twice about this matter, don't be impulsive..."

"Roar....."

Dead old man, you are looking at people in the cracks of the door, flattening the deity..."

When I heard the words of Hong Meng's tortoise, Ye Xuan's head was a roar, and he snarled: "Isn't it a town's sacred sacred? The deity shot, he must be suppressed!"

"Hey, are you still coming?"

The blindfolded white-eyed turtle turned straight and seemed to be with Ye Xuan. "If you insist on it, you will be with you, throwing the words here, and not using the ten-color flame. If you can not be suppressed by him, the old man will Worship with you... What's the matter?"

"Roar!"

The words of Hongmeng's tortoises just fell, and Ye Xuan's head turned out to be a terrifying arrogance, revealing endless anger. he

It's really angry. It's not because I have to worship with the Hongmeng turtle. The other party has raised the conditions, but because the conditions of this old guy are actually asking them not to be suppressed by Zhentiansheng...

This is simply the contempt and even disregard of the red fruit. It is said that the cultivation of Ye Xuan is destined to be suppressed by the Tiansheng Temple in the town. There is absolutely no suspense.

"Old guy, you really are stunned in the cracks of the door, and the deity is flat. The war deity never uses the ten-color flame, and with a pair of meat fists to suppress the town of Tiansheng..."

In the middle of the murderous man, Shu Xuan has turned to the Hongmeng turtle to look over, Shen Sheng said: "But you also know that the deity is now a little sensitive, in case there is a heavenly hunter It's in trouble..."

"So this battle can't be carried out in the holy curfew, you have to take charge of the holy shrine... We fight in the endless dark void in front of the left bank!"

This is no problem. The temper of the old monkey knows that if you hear that a violent bear is screaming to suppress him with a pair of meat fists, the old monkey must stop and can't stop, let alone the dark void in front of the left bank. Even if it is the right bank, he will rush immediately..."

Speaking of this, Hong Meng's tortoise had a slight meal, and then he took it: "And, it's a bit of a relationship with him. The matter is told by the old man that he will not be suspicious. You just choose the place of the war, then you will Waiting for his arrival..."

So, the deity will wait and see..."

"Hey..." said

In the words, Ye Xuan waved his hand, and immediately there was a spurt of anger, which was taken up by Hongmeng. This

Daomang is an interstellar coordinate. The location is in the depths of the vast and innocent dark void in front of the left bank. It is extremely secluded. There is a big battle there. There will be no forbidden land and nomads on the left bank of the Milky Way. It's the same, even the ones after the Heavens are like this..."

Oh..."

After all this, Ye Xuan did not hesitate any more. When he waved again, there was a void crack in the front of his figure. He stepped into it and his body disappeared instantly...

Yu Hongmeng, the tortoise, his mission is to go to the Forbidden City, the first name on the left bank, the heavens and the invincible, the most powerful under the Hongmeng, the Tianshengsheng...

...left

In front of the shore, the vast expanse of dark voids...

Xuan arrived here two days ago. At this time, he crossed his knees in the void and closed his eyes. The state was adjusted to the best and he was ready to let go. he

Today's physique is only a high standard, but it has already been in the ninth state of the konjac change. The temperament that has been dispersed in the body is the ninth-order grand perfection, and it is incomparably condensed. Really heavy. Do not

However, due to the perfect shock of the spiritual power secret has also been fully motivated, so the shape of the violent bear in the starry sky is hidden, the air is full, the empty sky looks empty and nothing. where

I am afraid that after the Heavenly Way, Hongmeng is here, and I will be aware of it, and I will never notice any clues...

After waiting for three days, the front of the virtual sky finally had a movement, and Ye Xuan, who was waiting for his knees, opened his eyes.

"Oh..."

The brittle cracking sound rang, a huge void crack appeared, and then two figures were drawn from it.

Both figures have a total of 50 million miles. The first to get out of the cracks in the void is the Hongmeng turtle, followed by the town of heaven. This

Only the old monkeys stand up, the light is like electricity, and the golden mane of the whole body, no one is variegated. At this time, it is a big step from the crack of the void, and it's just a round of humanoid sun. It's coming slowly, giving people a very heavy sense of pressure..."

Are you the starry violent bear? "With

As soon as he came, Ye Xuan's figure had already appeared. The eyes of Zhen Tiansheng's eyes were locked on him, and the voice of God's knowledge came out, revealing an invisible deterrent meaning: "The deity just received the news, and even the third-eyed magic eye cat on the left bank has fallen. Should it be your shot?"

Except for the devil's eyes, the original king of the king had to fall, but later found that he had a slight connection with the deity, so this matter was done..."

Ye Xuan nodded, his face was full of hustle and bustle, and he also responded with the voice of God. He said, "If you open him, it's not counted. The top ten on the left bank of the beastly beast has only one of you left, and today World War I... you have to be suppressed!"

The sound of the fall, the violent bear form of Ye Xuan Yang hair out of a terrible roar, this moment, he spurred the secret of blood and sea, the original body shape only had a height of 50 million miles between the half-fee, Contrary to the town of Tiansheng, which is opposite to the empty space of 100 billion miles, the atmosphere in the void is invisibly suppressed.

A scent of gunpowder that is so thick that it can't be turned away is invisible, and a terrible battle is on the verge...

"You stupid boy, and said that you want to worship with the old man. Now, in front of outsiders, you don't leave a face for the old, it's really not a thing..."

It is the words of Ye Xuan's talented person that makes her old face a little unspeakable. The face of Hongmeng's tortoise is stunned, and he snorted a few words, and then he swayed and directly retreated to the distant trillions of miles...

World War I has nothing to do with him. He is only a witness. Naturally, there is no need to stay in the battle circle. To

After the tens of thousands of miles away from the void, the Hongmeng turtles, even if they turned their bodies, were suspended in the darkness of the darkness, slashing in the light, and eagerly watching.
Correct

In this battle, even him, I am looking forward to it. town

The strength of Tianshengyu is not necessary to say anything. On the left bank of the Galaxy, the ancient existence that has been evaded by the world before the millions of years has been avoided. Among all the heavenly beasts, Zhentiansheng is known as the combat power. First, the strongest person in the heavens, the first person under the Hongmen Avenue...

Ye Xuan, the master of the demon temple that is about to fight with him, is also the existence of this level. The top ten on the left bank of the beastly beast has been killed by eight people, and he is left with only the town. It is. Such as

This amazing record, even on the left bank of the Galaxy, has not appeared since the endless years. can

It is said that the upcoming war will definitely be recorded in the annals of the left bank. It has never been seen since the endless years, even if it is the ancient existence of the endless years of life, it is impossible to be fascinated..."

Do you actually want to worship Pharaoh? This is a good idea..."

As the Hongmeng tortoise retreated to the distance, the voice of the gods of the town of Tiansheng also rang again: "Speaking, the deity knows that he has endless years with him. Today, if you can get from the iron fist of the deity Survival, the deity will be with you, what about the righteousness?"

"Roar....."

Chapter 5159: Jie Yihong

"Speaking of it, there are endless years for the deity to meet him. In today's battle, if you can survive from the iron fist of the deity, the deity will be with you, how about the righteousness?"

"Roar....."

"Booming..."

With the sound of the gods falling, Zhen Tiansheng screamed and screamed, no longer screaming, and his body swayed, and he immediately slammed his fist toward Ye Xuan...

The amount is too violent, and the place where the punch passes, the void is rapidly collapsed. This kind of scene is shocking, and the sky between the eyes of the gods has come to the front, and the tyrannical form of Ye Xuan is only a billion miles away.

"Zhen Tiansheng, really worthy of the name..."

The fist is out, the scene is amazing, even Ye Xuan can not help but sigh.

But it also aroused his war, the voice did not fall, his shackles flashed, his body shape swept away, and a punch rushed to the front..."

boom! ""

Rumble..."

The shocking sound came, Ye Xuan and Zhen Tiansheng's fist slammed in the void, and the tens of millions of mile members collapsed, and the horrible energy was raging. This blow is even more dangerous. The level of Hong Meng's hollow tears...but

After all, there is still nothing. It must be the power of the Hongmeng level. More than a year ago, outside the Hongyuxing area, the two powerful and powerful hunters of the wolf and the black blood

crocodile will fight with ease. The ground tears open the deep emptiness of Hongmeng, and there is a black hole of the glory level, all of which are turbulent and turbulent by the power of Hongmeng...

Today's Ye Xuan and Zhentian Shengyi can definitely be regarded as the strongest under Hongmeng, but they have not reached the Hongmeng Avenue. After all, they do not have the power of Hongmeng, even if they are full of the terrorist energy of the collision, it is not enough. Tearing the deep level of Hong Meng's void...

However, the body shape of Ye Xuan and Zhen Tiansheng was tumbling and flew out in the moment of the blast, and they all had hundreds of billions of miles away. When they finally stabilized their body shape, they all had shortness of breath and chest ups and downs. The blood is rushing...this

One hit is equally divided, no one has ever been injured, and no one has ever taken a little bit cheaper.

"For a long time, there was no such a big battle. I can't think of the existence of the right side of the galaxy.

In the middle of the town, the sacred glory of the sacred sacred, the voice of the excitement, the light up and down will look at Ye Xuan, revealing the meaning of appreciation.

"You are also very good. In the past few years, the deity has slammed his fists out, and it can be divided without any damage. Except for the old king eight, there is only you left, but he does not count, it is shrinking in the king's shell and making a tortoise."

Ye Xuan also nodded, and I was extremely impressed by the amazing power of Tiansheng in this town. At this moment, the two men looked at each other and their hearts gave birth to a feeling of sympathy.

Although Hongkong's void is large, although the banks of the Milky Way are vast and infinite, there are countless strong stars, but for the current Ye Xuan and Zhen Tiansheng, the Hongmeng after the opening of the heavens is not counted, and the rest can find such a It's really hard to fight against the front of the enemy.

"Roar....."

In the void above the trillions of miles away, the Hongmeng turtles lying in the invisible guns screamed and expressed dissatisfaction: "Why are you hitting you, why are you old? How are the tortoises?""

"boom!"

Rumble..."Ye

Xuan and Zhen Tiansheng

Once, the two did not collide with each other, but they all slammed into each other's physical body...

This is deliberate, because the blow of the front has just fought, the fists have collided, and the strength has been compared. In terms of strength, the two are equal and indifferent.

Today's second strike, the two have never shunned each other's giant punches, let the other side bang on their physical body, to compete, is the degree of physical strength of each other...

The sound of the day's explosion spread, and then it was the endless thunderous thunder, and the void in the void once again blew a black hole with a tens of billions of miles. The violent energy was raging, and everything within a hundred billion miles. I can't see it, I can only see two figures from the chaotic area of this air machine...

These two figures are Ye Xuan and Zhen Tian Sheng. This

One blow was different from the previous first fight. The previous one was a fist punch. The two had never been hurt, but the blow was hit on the other's treasure body, and it was very porcelain. leaf

Xuan Zhang spurted a blood arrow, and his body fell hundreds of billions away, and was slightly injured.

The same is true of the opposite town of Tiansheng. It flies 100 billion miles and spurts a blood arrow. This is the first injury since his endless years. Although it is just a minor injury, it is enough to shock the town. Up..."

You are actually only slightly injured? ”

However, what he was shocked was not his own injury, because he had already tried the power of Ye Xuan. He had already expected that this fist hit him, and he would surely bring minor injuries and spurt a blood arrow. From

The words he exclaimed at this moment will be known. The shock of Zhen Tiansheng is actually that Ye Xuan is just like him, and he just squirts a blood arrow, only minor injuries.

This alone is enough to prove that Ye Xuan’s body is so strong that, like him, it is enough to match the strength. There is no difference between strength and weakness.

The strength is quite the same, the degree of the physical body is also strong, the war is clearly divided into the rhythm of autumn, who can not help who.

Whether it is Zhentian Shengyi or Ye Xuan, before encountering each other, they are proud of their own fighting power. They never thought that under the same level of cultivation, this level of frontal fierce battle can actually meet a person. In terms of strength or physical strength, they are not weaker than their own existence.

Of course, Ye Xuan also has ten-color flames, as well as fallen bows, as well as spiritual power secrets and other means have not been used.

However, the town of Tiansheng is the number one on the list of the left-wing heavenly beasts. The secrets and magical means in the hands and the various treasures are obviously not less.

I am afraid that the war will escalate, and both sides can rely on the means. The final result may only be equal.

Even if Ye Xuan’s hands have a ten-color flame that can make Hongmeng’s oldsters jealous, the face will be bigger, but even then, it’s impossible to smear the shock that the town’s Tiansheng has brought to him.

Do not use the mysterious magical powers and all kinds of treasures, just the positive battle of the boxing to the meat, can really explain the most basic problems.

The strength of this town Tiansheng has undoubtedly been recognized by Ye Xuan. In fact, for the strength of Ye Xuan, Zhentian Shengyi also has the same recognition.

This is the real thing that you don't know, you know each other!

"This war, there is no need to continue any more, since the endless years, you are still the only opponent that the deity encountered to make the deity sigh..."

With the closing of the hand, the voice of the gods of the town of Tiansheng also sounded: "This kind of opponent can not be missed, the deity wants to worship with you, and will have the opportunity to learn frequently in the future..."

This battle, there is no need to continue, and since the endless years, you are still the only opponent that the deity encountered to make the deity sigh..."

With the closing of the hand, the voice of the gods of the town of Tiansheng also sounded: "This kind of opponent can not be missed, the deity wants to worship with you, and will have the opportunity to learn frequently in the future..."

The words are simply speechless, and Zhen Tiansheng said that he wants to worship with Ye Xuan, but the purpose is to have the opportunity to often fight with him in the future. thing

In fact, Ye Xuan himself has this kind of idea. This kind of opponent is too difficult to find. If you encounter nature, you should not miss it. more

Moreover, there is no hatred between him and the town of Tiansheng, and he still cherishes the same. The so-called "Hong Meng" is originally intended to be...

"The old man thought that he could see a terrible battle. I didn't expect both of you to be so boring..."

Seeing that both Ye Xuan and Zhen Tiansheng both closed their hands, there was no plan to continue the war. In the distance, Hongmeng's turtle, which had retreated to a trillions of miles, suddenly turned his eyes. with

When the body was flashing, it also came to the side, and the mouth was still muttering. It seemed to be extremely dissatisfied: "This level of war may not be met once in many years. I didn't expect you to It's so disappointing that the thunder and the rain are small and it's so white and old."

The implication is that the reason why he rushed to the holy forbidden land, the town of heavenly sacred to attract this place, the purpose is only to see Ye Xuan and Zhen Tiansheng, a good fight, just a little addiction. This

The kind of discourse naturally invites people to hate, and Ye Xuan and Zhen Tiansheng all look around and glare at him. Look

This posture is clearly that the old guys will talk a few more nonsense, and they will join hands immediately and abuse him like this... No

On Ye Xuan or Zhen Tian Sheng, the old guys can't beat, if the two really join hands, his misery can be imagined. meaning

Knowing this, Hongmeng's turtle suddenly narrowed his neck and closed his mouth wisely, but it was clear that there was a whisper of self-speaking faintly audible: "What is this world? Too violent, too disrespectful Old, even if you want to worship, the oldest is the oldest, that is the boss, the small is dare to dare, it is really no reason..."

When three people are worshipped, it is naturally impossible to rank with the strength of the war. In that case, the taste will change. The reason why the worship is originally derived from mutual respect and appreciation, and if it is ranked by the force, it loses its meaning.

Soon, the three people settled in Jinlan under the emptiness of Hongmeng and worshipped it. As the Hongmeng turtle said, his age is the longest, he is bigger than the town Tiansheng, and he is naturally the leader.

The second child is the town of heaven, as for Ye Xuan, too young, only in the third. "

It doesn't matter, the starry sky is just one of my identity. In fact, I am the Lord of the Temple... Ye Xuan!

Since he has already bowed, Ye Xuan naturally will not conceal his true identity. This incident has long been known to the people. At this moment, he has taken the initiative to show that he is telling Tian Tiansheng. "

This should be you, my second brother, I actually guessed it..."

On the face of Zhentian Shengyu, there is a glimpse of such a look. It seems that he has already had a sigh of this. Now, listening to Ye Xuan's initiative to admit, there is no accident.

After the chilling, the town Tiansheng

It's not just him, even the people of Hongmeng's tortoise have already been ignoring this matter. Now, when they meet the town's Tiansheng, they immediately cast their attention...

"My true cultivation is only the seventh stage of the heavens. I have been looking for the top ten in the list of the left-wing heavenly beasts, just to sharpen myself and seek a breakthrough opportunity..."

In this regard, Ye Xuan did not have much concealment, but did not disclose deeper things. simple

After explaining the two sentences in a single place, he even took a fist and went to the Hongmeng tortoise and the town of Tiansheng, respectively. This was followed: "I have recently experienced three major wars, and the opportunity to make breakthroughs has arrived. So, I I can't stay for a long time, I'm about to break through, and I'll see you later..."

Oh..."

After that, he did not hesitate, and immediately waved a hollow crack, and then nodded to the Hongmeng tortoise and the town of Tiansheng, and then stepped into it, the figure quickly disappeared...

..."

Oh..."micro

The weak sound of the air broke out, and Ye Xuan's figure emerged from a sudden crack in the void.

It is still the vast dark void in front of the left bank, but it is not the empty space that he had previously fought against the town of heaven. Ye Xuan came to the place where he had retreat. before

There was an abandoned star in the party. Not long ago, he broke through to the seventh stage of Heaven. and

Today, Ye Xuan is here again, the purpose is to break through to the eighth order of heaven, and even to hit the peak of the nine-step great perfection. eye

In the middle of the glory, his power of knowledge extended and explored to confirm that there was no abnormality, then he went away and went directly into the star of the abandoned star. With

After that, Shennong Baoding was sacrificed. In order to reduce the shape, it was only a singularity. It was suspended in the center of the star's core, and then it stepped into the Baoding Dingkou where the colorful fog was..."

call out! ""

Oh..."

During the hand, the faint sound of the broken air rang out, and a spurt of glare came out, hanging in front of Ye Xuan, all of which were used to develop this breakthrough. very

Fast, his glimpse of the gloom, Shennong Ding's domain field power can be motivated by him, all the cultivation resources are compressed to only the size of the baby fist, and then swallowed in the belly.

All the cultivation resources have been imported, and the blink of an eye has become a powerful river that can be swayed in the body of Ye Xuan.

Unexpectedly, the sound of the chain squeaking came in an instant. This time there is only one chain of shackles, as long as it is torn, it will be able to break through...

Taking a deep breath, Ye Xuan quickly put aside the distracting thoughts of his heart, and when he doubled his shackles, even if he fully urged the energy that was just formed in the body, he launched a big Sunday in the whole body. Running. and also

I don't know how long it took, and the energy that was formed in his meridians was finally refining, and then just a shock, and the sturdy chain of shackles was broken. and

The system prompt sound in anticipation is also very loud in Ye Xuan's mind..."

Hey, congratulations to the host, the breakthrough of the ancient realm of the hole! The current realm: Heaven's eighth order! "

"Hey, congratulations to the host, the breakthrough of the flesh and blood! The current realm: heaven and earth eight!"

In the next moment, Ye Xuan opened his eyes, deep in the bottom, and a touch of excitement flashed quietly. No

There is suspense. After this breakthrough, the suppression of Hongmeng Avenue still exists. Therefore, under the ninth state of the konjac change, the realm is still only the ninth-order grand perfection. but

Its real combat power has once again skyrocketed a lot, and more importantly, today, he is only a small breakthrough in the passage of the heavenly ninth order of the thirteenth level of Hong Meng Baodan.

...

With this breakthrough, Ye Xuan's real combat power has once again skyrocketed. More importantly, today, he has only one left to the thirteenth stage of the Tiandao 9th order. The breakthrough of the small order...

As the breakthrough was completed, he sat on the knees of the fascinating Baoding Dingkou, and suddenly opened his eyes. pinch

Refers to the calculation of time, this time the retreat, actually spent a month, twice the previous breakthrough.

The thoughts flashed through his mind, and Ye Xuan suddenly fell into sinking. He hesitated, and then whether he would continue to retreat, and he would swallow the last small step before the 30th level of Hong Meng Bao Dan... and break through! It

Therefore, hesitated because he had just completed a breakthrough. Although this time is a normal breakthrough, the previous breakthrough has already been fully digested after the war, and then it can be completely forced to swallow the blood of heaven. Re-closed, continue to break through once...but

After all, this breakthrough is the peak of the ninth-order grand perfection. Different from the previous breakthroughs, the difficulty must be improved, and it is no small feat. If

It is a case that the swallowing of the blood of the heavens is a breakthrough, and it will obviously be more complicated in the future.

However, after some consideration, he finally decided to make a sigh of relief and break through this last small step.

Because the news of the declining of the third-eyed magic-eyed cat on the left bank of the beast on the left bank has spread, and the Hongmeng tortoise and the town of Tiansheng have recently made a distinction with their own.

If you want to continue to sharpen your own body and seek a breakthrough, you will find it hard to find even your opponent. left

Among the beasts of the shore, the presence of the Heavenly Beasts on the list of the top ten is not able to withstand the attack of Ye Xuan. If you want to pick them up, the effect of smashing your body with the war is almost negligible. when

Of course, there is also a list of Tiandao survivors on the left bank of the Galaxy. The top ten on this list, the real combat power is equivalent to the top ten on the list of heavenly beasts. but

The composition of the power of the survivors is quite complicated. The fighting power of the beasts is the power of the flesh and the power of the secrets of the blood.

The comprehensive combat power of the beneficiaries is also worthy of the blessing of the magic weapon in the hands, and the power of various arrays...

Fighting with the beasts, it's a hearty battle, but it's far from the battle with the survivors. Sometimes the war is from the beginning to the end, and even from the beginning to the end is the confrontation and confrontation between the array and the magic weapon. The role is far less than the boxing to the flesh between the beast and the beast...

What's more, the left bank's celestial beast list and the left bank's celestial survivors list are juxtaposed. The top ten on the heavenly beastly beast list is eye-catching by Ye Xuan. The top ten on the Tiandao survivors list cannot be unprepared. Say

If you have been hiding in the parallel void, you may not be able to find someone. which is

They can find them, in case it is a trap, there is a sinister stalk of a certain sorrowful monster behind, and the result will undoubtedly be more troublesome...

Therefore, considering all of this, Ye Xuan eventually prefers to reopen the retreat, in order to swallow the blood of the heavens, forcing the 9th-order grand perfection... Tiandao Peak! "

call out! ”

"Hey..."

After the decision, he did not hesitate, and there was a burst of sound in the wave, and a spurt of anger, all taken out from the immortal world, used to carry out this breakthrough cultivation resources.

Among them are ten Tiandao blood essences, and all of them are the best things. This breakthrough can be seen. In order to ensure success, Ye Xuan is also a **** one.

After everything is ready, Ye Xuan's stunned glimmers, Bao Ding's domain field power can be motivated, all the cultivation resources are compressed to only the size of the baby fist, one swallowed into the belly.

The same is true of the ten best heavenly bloodstains... no

There is suspense, all the cultivation resources are all imported. One

The power of the mighty power of the river was slowly flowing in the body of Ye Xuan, and the sound of the chain of screams was expected to come.

This time, the chain of shackles still has only one, but it is very strong. After all, what is going to break through this time is the ninth-order grand perfection, and the last one in front of Hongmeng Avenue. but

Ye Xuan does not care, how strong and how? After all, it is just a chain of shackles. As long as it is torn, it will be able to break through smoothly, and then make its own cultivation into the true peak of heaven! Condensate

After calming down and throwing away the distracting thoughts of the heart, Ye Xuan doubled off. When even the urging energy that was formed in the body just after the dynasty, the whole force was launched in the whole body. or

Xu is because he swallowed ten of the best Tiandao blood, and this breakthrough is the reason for forcing the body to smash. With the operation of the big Sunday, Ye Xuan's body is full of limbs and limbs. There was a strong tingling that was almost unbearable. This

At one moment, his treasure was shining, and there was endless Xia Wei in the air, but the forehead was all cold sweat of the bean, and the eyebrows were locked and endured pain. Take

His current level of cultivation is still so painful, and the degree of visibility is so strong that it is horrible...

In this extreme pain, Ye Xuan things I forgot, there is no sense of time. and also

I don't know how long it took, and the energy that was formed in the meridians of the body was finally refining. With

After that, in the power of Ye Xuan, the last moment was just a shock. The stubborn chain of shackles was broken, and the system prompts in expectation sounded quickly in Ye Xuan's mind..."

Hey, congratulations to the host, the breakthrough of the ancient realm of the hole! The current realm: Heaven and the 9th order is perfect! "

"Hey, congratulations to the host, the breakthrough of the flesh and blood! The current realm: Heaven and the 9th order is perfect!"

The 9th order is perfect! day

Daofengfeng!

Finally reached!

It's no longer the force of the magical power of the konjac, but it's really a real realm!

The thoughts flashed through my mind, and Ye Xuanton was very excited. When I opened my eyes, the depths of the bottom of the skull clearly showed that there was a strong and fascinating mang, which was quickly rendered.

Obviously, after this breakthrough, the suppression in Hongmen Avenue still exists. in

After the breakthrough was completed, Ye Xuan tried to activate the **** magical power of the konjac. As a result, in the ninth state of the konjac, his cultivation has remained unchanged, and it is only the ninth-order grand perfection.

That is to say, now he, self-cultivation is the realm of strength, but in the ninth state of the konjac, the cultivation of the realm is still only this realm, of course, the real combat power under the ninth change state, Still can improve a lot, just the realm is still there. This

He had long anticipated that he was not surprised, and he didn't even feel much lost.

Because nowadays, he already has the ability to swallow a 30-level Hongmeng Baodan, and this will affect the qualification of Hongmeng Avenue. Once he enters Hongmengjing and becomes a strong avenue, he will fly into the sky...

After this breakthrough, Ye Xuan's own cultivation has reached the peak of the ninth-order grand perfection. However, due to the suppression of Hongmeng Avenue, even if he activates the **** magical power of the konjac, in the ninth state, The realm is still only this realm...

In this case, he had expected it, and did not feel the loss, because now he has already swallowed a thirty-level Hongmeng Baodan, and this has affected the qualification of Hongmeng Avenue. One

Once he entered Hong Meng and became a strong avenue, the suppression of Hongmen Avenue will no longer exist. For him, it is only true from now on...

However, although he is now the ninth-order grand perfection, he has the qualification to swallow a thirty-level Hongmengbaodan, but Baodan has not been refining, and everything is still far away!

"The perfect Danfang of Hongmengbaodan has already been deduced, and even the main materials and various auxiliary materials needed for refining are already in the hands of..."

In the flashing of these, Ye Xuan's bottom is a flash of light, whispering in a whisper, subconsciously tightening his fists, and his tone suddenly becomes steadfast: "If this is the case, then take advantage of this opportunity and sigh. Thirty-level Hong Meng Bao Dan... refining and saying it!"

Refining the thirty-level Hongmen Baodan, all kinds of top-level cultivation as auxiliary materials need not say more, these Ye Xuan have already been prepared.

In addition to the five elements of the drug, in addition to the five elements of the drug, each furnace Baodan still needs 9,981 Tiandao blood essence, and 999 a different heavenly source of liquid.....

After deciding on the refining, Ye Xuan immediately calculated the Tiandao blood essence, the Tiandao source fluid and the five elements of medicine in the hands.

The final data obtained made him very happy. The main Dan materials in his hands are now able to refine the four furnaces. Although each furnace is destined to be able to produce only one thirty-level Hongmengbaodan, this is enough. It is. four

The furnace is four, in addition to one of its own cost, there are three remaining hands. This

However, the Hongmeng Avenue is no more than a heavenly environment. Although the friends he has made and the accounts of his Majesty are numerous, there are probably few who can walk to the Hongmeng Avenue.

There are still three thirty-level Hongmen Baodan left in hand, in case of emergency, it is completely enough..."

call out! ""

Oh..."

In an instant, all the main materials and auxiliary materials were all waved by him and suspended in front of them. tight

Then, Ye Xuan's fascination was extended by the fascinating treasures of the colorful fog, and entered the interior of Shennong Baoding.....

...

Shennong Ding, interior space, the bottom of the volcano in the central domain!

"Call..."

As he chanted, in the Shennong flame pool at the bottom of the volcano in the central domain, there was a masculine sensation in an instant. This is extremely fascinating, and it is the ten-color flame that was just merged recently.

With the lasing, this ten-color flame has been divided into four strands on the way, welcoming the storm, and four giants of dragons have formed between the blinks.

The furnace is composed of ten-color flames. It is suspended in the mid-air of the volcanic mountain of the central domain. It is lined up and exudes a heart-warming energy...

Refining the thirty-level Hongmen Baodan, just the Shennong nine-color flame is enough, but now Ye Xuan uses the ten-color flame that the power is more than the nine-color flame, and it is not as a furnace flame. But the whole alchemy's furnace is composed of pure ten-color flame, and its effect can be imagined. This

The extravagant preparation can not only greatly improve the refining power of the 30th-level Hongmen Baodan, but once the refining is successful, the 30th-level Hongmengbaodan will be guaranteed the best quality and quality.

This is 31-level Hongmeng Baodan, it is not the same thing, everything is everything, Ye Xuan must be perfect, otherwise the accident and embarrassment of each furnace Baodan, the loss will be incalculable..."

Oh..."

After everything was completed, there was a sound of breaking sounds in a row, and the dense colors of the glory came from the heights of the volcanoes above the central volcano. This

These fascinating and fascinating are the top materials and cultivation resources that Ye Xuan prepared for the 30th level of Hongmen Baodan. They are spurred from the tripod and appear directly in the mountainside of the bottom of the volcano. Divided into four parts above the ten-color Dan Ding, which is lined up in four blocks, and suddenly hovered for a moment.

Each of them has a set of five elements of medicine, nine hundred and ninety-one Tiandao blood essence, nine hundred and eighty-one heavenly source of liquid, and various top-level cultivation resources as auxiliary materials, all rare and rare. It's horrifying, and only Ye Xuan's hands can gather such a huge amount of top things! "

call out! "

"Oh..."

Fast, with Ye Xuan's meditation, all the denim hanging in the mid-air of the volcanic mountain of the central domain automatically flew up, and did not enter the four ten-color Dan Ding which was lined up below.

Since then, the refining of the four furnaces and thirty-level Hongmen Baodan has officially started...

At the tenth level, Hong Meng Dan, only one, can make a heavenly and ninth-order grand perfect monk jump in a short period of time and become a Hongmen Avenue.

The strongest person in Hongmeng Avenue is the strongest existence in Hongmengtiandi. Even the three thousand chaotic demon gods born at the beginning of each Hongmeng era are just a sacred place. and

In this forthcoming Hongmeng era, the eyes of the people of Hongmeng Avenue are only a dozen or so. Even if they are millions of years ago, they will be the peak of the ninth-order grand perfection. because

In order to get enough Tianjiu avenue from the flood, and shut down for a million years, it was able to smoothly exit and enter the Hongmen Avenue...only

With this in mind, it can be seen that the existence of the level of Hongmeng Avenue is so valuable that it is rare to see it. especially

It is the thirty-first level of Hongmen Baodan Ye Xuan, which is still the first refining, and the four furnaces are simultaneously refining, so even if it is Ye Xuan's heinous Dan Dao and the refining experience of various grades of Baodan I also don't dare to take a half-point to take it lightly.

From the very beginning of refining, he has put all his heart into it, ensuring that everything is controlled with precision, and there can be no accidents...

At this time, Ye Xuan still squats in the mouth of Shennong Dingkou, which is carrying the colorful fog. As the hands roll, the method of refining the medicine is thrown out in his hands, turning into a mysterious pattern of the road, from Shennong. Ding's tripod floated above, falling into the four-seat ten-color Danding lined up in the volcanic mountain below the central domain!

Unconsciously, time is slowly passing...

"boom!"

Booming..."

After the hour, above the flame pool at the bottom of the volcano of the central domain, several huge roaring sounds sounded, and the four words were lined up, and the furnaces condensed by the pure ten-color flame were scattered. Chemical

For the four-canopy-like fireworks of the ten colors like a river, whistling back to the Shennong flame pool below, it disappeared. and

With the dispersal of these four ten-color Ding Ding, in the mid-air of the volcano of the central domain, there were also four pigeon-sized Zijindan pills, and the thirty-level Hongmengbaodan... was born!

Chapter 5160: Hong Meng commotion

"boom!"

Booming..."

At the bottom of the volcano, several huge roaring sounds, and the four furnaces that were condensed by the pure ten-color flames dispersed, whistling back to the Shennong flame pool below, and disappeared. stay

In the void, there are only four pigeon egg-sized Zijindan pills!

These four Dan Pills are purple gold, very rich, but the size is not big, but all of them exudes a strong sense of humour, quality and quality are the best choice, is the best! This

At the moment, the thirty-level Hongmeng Baodan... was finally born!

These thoughts flashed through my mind, and Ye Xuan suddenly thought of something. In the middle of the gloom, I flashed a moment and stepped out of the Shennong Dingkou where the colorful fog was.

He knows that as his body shape rushes out of Baoding Dingkou, the outside world has a sense of temperament, and there will be unexpected changes in the void.

"call out....."

A wave of hands, Shennong Bao Ding turned into a masculine glare, blink of an eye has already rushed into his eyebrows, and disappeared. "

boom! ""

Rumble..."

At the same moment that Ye Xuan waved the Shennong Baoding into the body, he closed the dark void outside the abandoned star, and immediately there was no sign of thunder and thunder, and its momentum was fierce. Shocked. This

It is expected that Ye Xuan is not unexpected. His power of consciousness has subconsciously extended from the inside of the star nucleus. He immediately sees the sky above the stars, although there is no cloud of clouds, but The sound of the thunder is overwhelming...

As if there is an invisible force of horrible destruction in the darkness, it quickly condenses in the dark void above the star, and its power is powerful and majestic, even Ye Xuan, who is the ninth-order grand perfection. There is a faint scalp tingling and a feeling of horror. This

Obviously it's the glory of the coming of Hongmendan's robbery...

The said that the Hong Meng Dan robbery, refers to the Baodan Thunder robbery when Hong Meng Bao Dan came out.

Tiandao Baodan and Hongmeng Baodan are both very different. At the beginning, even if Ye Xuan only deduced the perfect Danfang of these two kinds of Baodan, did not refine Baodan, and even did not carry out refining, they all attracted the same Dan. Robbery is coming.

Nowadays, at the thirteenth level, Hongmengbaodan was born, and it was successfully refining. Hongmeng felt a sense of emptiness. It is really strange to say that no Hongmeng Dan has come.

Since it is a catastrophe, then the power of thunder robbery can't be compared with the real hunger, but it is not comparable to the thunderbolt. Its power can be between the thunder and the thunder. its

The real power, and the original Ye Xuan Shun Shui push the boat, used to calculate the dragon whale and the wilderness of the heavens and blue eyes of the Hongmeng punishment of the power. although

However, it is no different, but with Ye Xuan's current horror cultivation, this kind of powerful glory is just a matter of one thing. At the very least, it will make him lightly hurt. It is impossible to say serious injuries. !

But in fact, this time, the Mengmeng Dan, which is about to come, will definitely be more than one, but four, because the thirty-level Hongmeng Baodan that he has refined is four furnaces and four. This

Even in this piece of Hong Kong, the Hongmeng Baodan, which is called the supreme treasure, will surely undergo a baptism of thunder and robbery, in order to become the ultimate sublimation...

As a refiner of Baodan, Ye Xuan will also be locked by the thunder and robbery! "

boom! "

"Hey..."

At one moment, Ye Xuan's figure rushed out of the star nucleus, into the dark void outside the stars, and the glory of the glory that had been completed by the outside world was finally coming at this time...

For a moment, the thunder and roar of the thunder was shocking, but the sky did not rob the cloud, and there was no thunder to explode, and there was no robbery. One

Everything that is cut is like an illusion, and it does not exist on the surface.

But in fact, there is an invisible terrorist force. In the midst of it, Ye Xuan's body shape and air-conditioner are fully locked. Of course, the ones that are locked together are the ones that are waved by him and taken out from the body. The thirty-level Hongmen Baodan that has just been refining...

In the shocking and horrifying roar, an invisible Hongmeng robbery locked one of the four Baodans, and Ye Xuan's figure was also locked. This

At one moment, his figure was struck by lightning, and he was stagnant in the void. He almost opened his mouth with a blood arrow, but this one was only one of the hijackings.

After a wave of power can be dumped, everything will stop, and the intangible energy that raging and raging will disappear in an instant. This Baodan, which has already passed through the hijacking of Hongmen, has become even more embarrassing, rich in energy. The breath is unfortunate. "

Oh..." No

Hesitant, and no one came, Ye Xuan immediately shot, directly to the Supreme Baodan who had already passed through Hong Mengdan's robbery.

"Booming" far

In the dark void of the place, there is no cloud of robbing, but the thunder of the rumble is ringing again. The violent momentum is thrilling, and the second Hong Meng robbery has come...

Xuan frowned, but did not hesitate, squatting under the cold, swaying his shoulders, and immediately greeted him. This

Once, his throat was sweet, and he almost spurted a blood arrow, but he finally resisted it. Then he will successfully drop the sacred treasure of Hongmeng, and wave his hand into the body. Connect

It was the third one, and there was still no suspense. It successfully smashed the hijacking of Baodan, which was locked in by Baoxuan. to

Therefore, three of the four Baodans have all experienced the baptism of the hijacking of Hongmeng, all of which have been perfected, and they have been included in Ye Xuan. and

Ye Xuan himself, but because of the three-way hijacking, even now it is full of blood and blood, his face is a little pale...

"Oh!"

"Oh..."

This is at this moment, Ye Xuan retreats around the astrological star where the abandoned star is located, and it continues, and from time to time there is a crisp sound of cracking, suddenly sounding without warning...

This is Hong Meng Dan robbery, the power is unusually strong, and in an instant, the far left left bank of countless fierce beasts and the heavenly strong people in the remnant star field all have the feeling, the first time to come, and now they are arriving one after another.

Ye Xuan had already expected this, and he frowned slightly and looked around. Virtual

There are different locations in the distance, and a void crack appears. From there, there is a figure walking, or a deserted survivor, or a starry beast, all from the left bank of the Milky Way.

These survivors and the starry beasts, all without exception, are the existence of heaven and earth, and the cultivation of the atmosphere that is diffused in the body is extremely powerful. This

There are hundreds of scenes in the blink of an eye, and the scene is astonishing, as if the whole Hongmeng has been turbulent, and the hegemony of the parties are heading to this place, hurriedly...
With

When they arrived, these old geeks finally saw the image of Ye Xuan in the form of violent bear, and the last thirty-level level hanging above his head... Hong Meng Bao Dan! short

After the temporary silence, the sound of the cool air that sounded like a tidal wave sounded in an instant, and all the heavenly beasts and the bereaved people were all shocked and stunned.

Hong Mengdan's robbery is amazing, attracting hundreds of left-wing old monsters. When these old guys arrive, they see Ye Xuan in the form of violent bears, and the last thirty-level Hong Mengbao hanging above his head. Dan...

At the moment when Baodan entered the eyes, all the celestial grotesques were all shocked, followed by a short silence. Then, like the tide of the cold, the old guys were stunned. All lost their voices...

"Hong Meng Dan robbery, this breath is right, it really is Hong Meng Dan robbery..."

"Oh my God, it is not the main body of the magic hall, Ye Xuan. The old man thought that he was refining the treasure of Tianjiu Avenue. I didn't want to see a starry violent bear here..."

"Although it is not the main body of the magic hall, Ye Xuan, but this existence is also not simple. It is the same as the strength of the nine-order grand perfection, and it is very solid. It has been a long time since entering this place..."

"The deity remembers, he is the violent bear, the recent existence on the left bank, and the guy who challenged the top ten of the left banker on the left bank, it is said that even the third eye of the left bank has fallen. It should be his shot..."

These are not important. The real key is this Hongmeng Dan. He is not the owner of the Magic Temple, Ye Xuan. Naturally, he will not refine the treasure of Tianjiu Avenue. Doesn't that mean, there is another kind in the land on my left bank? Was it the birth of the Emperor Baodan, which is comparable to or even surpassed? "

"There is no more resources that can help Feng Tian Tiandao to benefit from the impact of Hongmeng Avenue. Finally, the Hong Kong refining Tianjiu Avenue is liquid and has limited efficacy. The head violent bear refines what seems to be a solid Baodan. It is no wonder that it can attract Hongmeng Dan, which is clearly a more powerful mega-display, and more than a little bit..."

Look at the Zijindan pill hanging over his head, which exudes such a rich sense of humour, far surpassing the treasure of Tianjiu Avenue, which leads to the existence of Hongmeng Dan, which must be this Baodan..."

"A violent bear only, Dan Dao's rumor is so powerful that even the surviving ancestors Hong Yu can't match it..."

"The deity has a very strong hunch. If he can swallow this Baodan, he will not be able to break through for a long time, so he will enter the Hongmeng and become the avenue of the supreme level!"

"Hey! There is such a great treasure, even if you can see it with your own eyes, but Hong Meng Dan robbery can not be wrong, this breath of Bao Dan also illustrates the problem, since the endless years of the Galaxy, this is definitely The most outstanding resources..."

"A Baodan, after swallowing, will be able to break through to Hongmeng Avenue soon, eliminating the need to take the million-year-old retreat needed to take the Tianjiu Avenue treasure. It is definitely not to be missed..."

Damn, so Bao Dan, this violent bear actually sacrificed it to death, what if it was destroyed? It's almost impossible to describe even the four words of violent temperament. It's really daring..."

Even if it is not robbed, Baodan can swallow it. At this level, there is no need to let him experience the baptism of thunder, so the risk is too big..."

"In any case, you must not let him destroy this supreme treasure. This guy's brain is broken. If the mind is too hot, and it's ruined, it's better to give it to the deity. No one should grab it with me..."

Roar! ""

Damn, this guy shot, already red-eyed, to force Baodan, absolutely can not let him succeed..."

"Hey!"

"Hey..."

Rumble..."

With the exclamations, hundreds of grotesque people gathered in a short period of time were all crazy, one by one, the last one hung in the top of Ye Xuan's head, Hongmeng Baodan, eyes red, shortness of breath . This

Among them, there are even more than a dozen old guys who are too irritated, and they are even more astounding than the Tianjiu Avenue. They are unable to hold back, and they are snarling in the air. I am going to Ye Xuan.

This is clearly a shot, and I want to forcefully capture the rhythm of Baodan.

Among the dozens of figures, there are both heavenly and ferocious beasts and heavenly benevolent people. Although Ye Xuan's cultivation is extraordinary, it is the peak of the 9th-order grand perfection, but the people who shoot at this time are all in this realm. In addition, Baodan is very popular, and there are many people, so there is no jealousy at all. At this moment, the bombardment of Ye Xuan is too arrogant...

"You are looking for death..."

call out! "

Seeing this scene, Ye Xuan's mid-cold flashes, while the sound of the gods is at the same time, a wave of hands will hang over the treasure of the last piece of Hong Meng Bao Dan income in the body.

For a moment, as this Baodan was taken up, the thunder and thunder of the void in the sky would stop, and the Dan robbery would dissipate, unless the Supreme Baodan, who had not yet experienced the thunderbolt baptism, would be taken out, otherwise it would not Come again.

"boom!"

Rumble..." treasure

Dan put away, Ye Xuan immediately shot. he

Activated the secret method of blood and sea. In the form of violent bear, he was soaring between the half interest, reaching a huge size of 50 million miles. Then he rushed out after the shoulder swayed. A violent beast from the opposite side blasted... no

There is a half suspense, this punch blasted a porcelain on the other's head, although this heavenly beast is also the peak of the nine-step great perfection, but the gap between the power and Ye Xuan is not too small, so horrible He couldn't help himself with a punch. No

When everyone has come back, the huge figure of the old guy has exploded and turned into a **** fog, which spreads the void. "

Call..." and

At the same time, Ye Xuan in the form of violent bear suddenly waved, and the sound of the whistling whistling sounded suddenly, and a huge invisible instinct screamed away, sweeping away the **** blood that was spreading and directly feeding it. At the bottom of the volcano in the central area of the Dingnai space, blood condensate is started.

At the same time, after the body of the savage beast broke open, there were also a few masculine masculine shots, which also fell into the hands of the violent bears. It was just a few compressed liquids of the heavenly source...

Hit the hand and directly kill the other side. This is the supreme power that makes the surrounding emptiness come again and again. It sounds like a tidal wave of cool air. Those who stand in the void and have not yet shot are mad. Suddenly exclaimed...

However, Ye Xuan did not hesitate. He just broke through, and it broke through two times. Now, the 30th level of Hongmengbaodan has also been refining, swallowing one, and retreating, and hitting Hongmen after the heavens. The qualifications for the avenue are already in place.

However, Hongmeng Avenue is not the same. In order to ensure a smooth breakthrough, it will not waste a 30-level Hongmeng Baodan. Before entering the retreat, Ye Xuan must digest and digest the income of two small steps into himself.

The best and the fastest way to digest the breakthrough, in addition to the terrible battle, obviously no other choice. Place

Therefore, even if these heavenly geeks did not shoot Ye Xuan, Ye Xuan would never miss this opportunity...

Mengmen Avenue is not the same as a small one. In order to ensure a smooth breakthrough, it will not waste a 30-level Hongmeng Baodan. Before entering the retreat, Ye Xuan must digest and digest the income of this two small steps into himself.

The best and fastest way to digest the breakthrough is obviously a terrible battle. It can be said that even if these old geeks do not take the first shot, Ye Xuan will never miss this opportunity..."

Roar! "

"Booming..." brain

In the middle of these thoughts, the huge star-shaped violent bear with a shape of 50 million miles screamed and screamed in the sky. In the blink of an eye, it was already on the side of a Tiandao remnant. Without hesitation, directly Throw a punch..."

Damn, how dare you take the initiative to take the shot, not afraid of causing public anger, will you suppress it? "Look

In this scene, the remains of the widows are shocked, and the face is shocked. The voice is exclaimed and the anger is revealed..."

boom! "leaf

Xuan took care of him when he was lazy. This fist hit the porcelain. His body was 50 million miles. The face of the fist was like a sky, and it was crushed on the body of the survivor. , turned into a **** fog...

A wave of blood, this canopy was immediately taken up by Ye Xuan, followed by a treasure of storage, there are some top cultivation resources, there are several heavenly sources of liquid, harvest is not bad.

All of this is long-lived, but it actually happens between suffocation, and even before and after the three interest rates, Ye Xuan has shot two times in succession, killing two heavenly monsters, a fierce beast, a survivor! Out

The hand is too hot, the fruit is absolutely incomparable, and there is no hesitation. This means that the heavenly grotesque people in the surrounding sky are shocked. Under the madness of the body, all the people are discolored again, and they are screaming. And up..."

what? This violent bear was so violent, in this situation, the Thunder shot, and in the blink of an eye has killed two heavenly blame..."

"It's timid, even if he can challenge the existence of the top ten on the left bank of the beasts on the left bank, the fighting power is amazing, but after all, in the face of hundreds of days, where is the daring?"

"There is another hob meat. This guy is just like the original Ye Xuan, the master of the demon temple. It is unscrupulous, rampant, and under the force of a single force. Even hundreds of days of blame are not in the eyes..."

The key is that he actually took over the supreme treasure, which is clearly the rhythm of the singularity. Although Baodan was refining him, but this is not enough resources, the violent bear will arbitrarily Dan put away, this is the rhythm of being enemies with everyone..."

Repressing him and taking down Baodan, although there is only one, but since he can refine one, he will certainly be able to refine more. The original scene of Ye Xuan, the master of the temple, can no longer appear, no matter how Put this violent bear down, I will provide Daniel and let him refine Baodan..."

"There is no room for negotiation, either for alchemy for me or for killing the town. We can't get it, and we can't let him alone..."

Roar! ""

Oh..."

"Booming..."

The exclamation sounded, and more of the heavenly grotesque rushed out, and Ye Xuan, who came from all directions in the direction of the violent bear, swarmed in, and the power in the body was all pushed to the extreme, the breath was strong, and the light was bloody. Showing endless greed and tyranny..."

Baodan is indeed refining the deity, but you forcibly seize it. Isn't it too deceptive? "eye

In the middle of the cold mang, a violent bear's mouth came out of Ye Xuan's cold and incomparable words: "This world is a strong man, you rely on many people, want to suppress the deity, the deity today let you understand, killer... There should be an awareness of being killed!"

boom! ""

Rumble..."

The sound has not fallen, Ye Xuan has already shot, the giant violent bear with a body size of 50 million miles directly teleported, appeared behind a heavenly evil beast in the right side of the virtual sky. This

The first day of the beast is also the peak of the ninth-order grand perfection. It was originally murderously violently rushing from the right side, and it is not ready to shoot Ye Xuan.

However, he encountered ominousness in an instant, and Ye Xuan slammed out his body and exploded him into a **** fog. This

It is the lesson of red fruit and the bitter experience of bloody. Ye Xuan uses the facts to interpret the words he just said. If you want to kill people, you must first prepare for being killed. This is an inescapable reality. Any People can't be without consciousness!

"Call..." blood

The fog spread and opened, and the next instant Ye Xuan had already waved. As the whistling sound rang, a huge invisible invisible screaming away.

The **** fog that was spreading in the void was immediately swept away and sent directly to the bottom of the volcano in the central area of the Dingnai space. this

In addition, the body of this celestial beast exploded at the same time, there are also a few masculine masculine shots, also falling in the hands of the violent bear, is the compressed liquid of the heavenly source, this is his Breathing yourself with **** battles and digesting the extra benefits of previous breakthroughs...

"Roar!"

"Hey..."

This violent bear is too arrogant, and he is so arrogant that he dares to say such words..."

The murderer must have the consciousness of being killed before? It's really a domineering arrogance, but such a discourse can't be said casually. There must be a matching strength, otherwise it's a joke..."

He regarded himself as the master of the demon temple, Ye Xuan. More than a year ago, Ye Xuan, the master of the demon temple, was surrounded by thousands of strangers, but the final result was obvious..." "

It is the existence of such fierce flames. In the end, it can only be arbitrarily exiled to the endless stream of emptiness and emptiness. It must not return. How can this violent bear be enchanted and the lord of the lord? Ye Xuan shoulder? ""

Today is so arrogant, destined that he will drink this, I will wait for hundreds of people, and he will be able to suppress him in an instant..."

boom! "

"Booming..."

As the sound of these raging whistling sounds, all the heavenly gangsters surrounded by the emptiness in the air were all irritated, no more hesitation, more heavenly beasts and survivors rushed out, urging the body. Power, various means of exhibition, and constantly stop shooting Ye Xuan...

In the face of this dangerous and heinous situation, any ninth-order grand perfection can not be ignored, and must be shocked. but

Ye Xuan did not look at it at all.

Faced with nearly a hundred figures in the vicinity of the emptiness around the sky, the violent bears of the starry sky are chilling, screaming like fire, half of the horror, and the shoulders are swaying, its Panda 5,000 The mad squad of thousands of miles has already rushed into the most densely populated area. "

The murderer is always killed... Today, the deity allows you to profoundly comprehend this truth! "

As the cold voice rang, Ye Xuan hesitated, and the two fists were tight, and they were continuously swayed. Virtual

In the air, the earth-shattering horror roared and rang, and continued, a shocking void and **** battle, which opened the curtain..."

The murderer is always killed... Today, the deity allows you to profoundly comprehend this truth! "

In the face of the hundreds of heavenly grotesque swarming around, the violent bears smashed in the cold, and the words of cold and savage swayed in the void, and there was no hesitation in half. Under the tight fists, Ye Xuan immediately swayed out. .

In the void, the terrifying roar of the earth-shattering sounds and sounds, and the endless battle, a shocking void and **** battle, opened the curtain...

"Booming..."

boom! "gas

The interest is too strong, the scene is too astounding, the form of violent bears, and the huge shape of Ye Xuan, which is 50 million miles away, has come to the side of the two nobles. This

One of the two old guys is the ninth-order grand perfection of the heavens, but one is only the seventh-order, and there is no self-knowledge. It must be the one who screams at the peak of the heavens. Xuan...this

It's just that I don't know how to live and die. Today's Ye Xuan's self-cultivation has reached the peak of the ninth-order grand perfection. In the state of activating the konjac and changing the blood and the ninth change, its real combat power even Among the groups of Tiandao Peak, they have been able to stand out from the crowd, and they are completely rare.

In the past, two consecutive hits, two bombs directly under the two peaks of the heavens, is evidence.

In the face of such a terrible existence, the so-called late stage of the seventh-order world is simply a joke. No

There is suspense. As the violent bears slammed down, the body of the seventh-order survivors exploded in a moment, exploding for a **** fog, and another ninth-order grand perfection of the Tiandao peak was not spared.

As the two men's body blasted, each of them had a magic weapon to fall out, and the violent bear waved, and the blood mist formed by their body shape exploded into the body.

Among the two storage magic weapons, there are Tiandao source liquids, one in two, and the other in four. The harvest is still satisfactory to Ye Xuan.

This is just the beginning. The war is going on. In the face of more than three hundred and thousands of heavenly blame, Ye Xuan is completely fearless. With a slap in the face, he kills among many heavenly beasts and survivors. Into the killing, it is like killing the gods again, never encountering a combination of them, often a punch, and immediately take life, make the heavens fall...

"Oh..."

"Oh!"

"Hey..." four

Zhou Yuan, the crisp and unbroken sound is still ringing, accompanied by the sharp and unpredictable sound of the road. left

There are more than a thousand old monsters in the three major regions of the shore. I am afraid that there will be nearly 10,000, and the news is spreading. Therefore, there are still old heavens and monsters from the forbidden areas and the stars of the parties who are rushing to hear the news... ..

Among them, there are the statues of Hongmeng tortoises and the town of Tiansheng.

They did not come together, one appeared on the left and one appeared on the right, all at the end of the void, just emerging from the two void cracks.

Seeing the foreground of the eye as a scene of a **** battle, Hongmeng Turtles and Zhentian Shengyu face a big change. They and Ye Xuan have already made a difference, and naturally worried about him. this

Shi Yexuan has already collected the last thirty-level Hongmengbaodan, who has not yet experienced the thunderbolt baptism, and the outside world has lost the feeling of this Hongmengbaodan. The original Hongmeng Dan has dissipated, and the void There is no sound of thunder and thunder in the middle.

However, the status of Hongmeng Turtle and Zhentiansheng is not a small one. On the left bank of the Heavenly Beasts, the top two are in existence. Naturally, there will be some sympathy with them. only

It's just that one **** has extended its journey. Hongmeng Turtle and Tianshengsheng have already asked the situation and know everything that happened before.

At this time, they suddenly realized that it is no wonder that Ye Xuan's refining manuscripts of the Tianjiu Yaobao left by the ancestors of the ancestors of the ancestors, Hong Xuan, had more than two years ago.

At that time, he obviously not only realized the manuscripts of Tianjiubao liquid remnants left by Hongjun, but also based on this refining manuscript, he also promoted a more perfect and more effective drug. Dan Dan of Bao Dan...

At that time, it was not the secret recipe of Tianjiubao liquid, but the Danfang of Hongmengbaodan that he realized! brain

In the middle of these thoughts, Hongmeng Turtle and Zhentian Shengyu looked at each other through the distant void. While exchanging one look, the chest also violently undulating and breathing was rushing.

Both of them are the culmination of the ninth-order grand perfection. It is precisely when this kind of supreme treasure is needed to attack the Hongmeng Avenue. although

However, I did not see Hong Meng Bao Dan, who had already been thrown into the body by Ye Xuan. However, regarding the general situation of this Baodan, they have learned from other Tiandao old strangers who arrived here earlier.

With the knowledge of Hongmeng tortoise and Zhentiansheng, it is natural to roughly analyze the efficacy of this supreme treasure.

If there is no accident, once this Baodan is swallowed, it will allow them to break through in a few hundred years. From then on, they will become the avenue level. thing

In fact, their estimates are too biased. If this Baodan is swallowed up, most of the top of the world will be able to make the ninth-order perfection of the heavenly peak smoothly enter the Hongmeng Avenue and become the heavenly road. The supremacy exists. If

Let Hongmeng Turtle and Zhentiansheng know this. The two old guys are afraid to be comatosely happy on the spot.

They are different from other people. They have been married to Ye Xuan not long ago. Even if Ye Xuan's hands now only have one Hongmeng Baodan, they can help them refine in the future. No matter what kind of material they need, they will exhaust Go all out...

The most important thing at the moment is to cover Ye Xuan and leave the place. brain

When these thoughts flashed in the middle, Hongmeng Turtle and Zhentiansheng were trying to shoot, but the shock was at this moment... suddenly happened. "

boom! ""

Rumble..." This

At one moment, Ye Xuan went to the back of a heavenly beast and did not hesitate to directly shoot.

This heavenly beast is also the peak of the ninth-order grand perfection. It was originally murderous, but it was ominous in an instant. The violent bear slammed out and directly bombed his body into a **** fog. Spread out. "

call....."

The blood mist that had not been blasted out of his flesh spread, and Ye Xuan had already waved at the same time. With

With the whistling sound of the whistling wind, a majestic invisible screaming whistling away, swept the **** fog of the emptiness, and sent it directly into the bottom of the volcano in the central area of the Dingnai space. Condensation...

"Oh..."

"I can kill the ninth-order grand perfection of heaven and earth, the violent bear, your fighting power has surpassed the original Lord of the Devils Ye Xuan... Unfortunately, this has no meaning, and it has to be suppressed here!"

At the same moment, at the far side of the right side, a void crack appeared, and a figure emerged from it. More than 50 million miles of giants, the repairing atmosphere that was dispersed in the body was even more voluminous. It was just over a year ago. Have had a side relationship with Ye Xuan, the red monster - the wolf!
