

## **Super D.S 5161**

Chapter 5161: Send you a Baodan

"Oh..."

At the far side of the right side, a void crack appeared, and a figure emerged from it. More than 50 million miles of giants, the air-filled atmosphere in the body is so vast that the heavens and the old monsters in the surrounding air are all subconscious. Turned to the ground.

This is a powerful starry beast. The whole body is surrounded by black mist. It is the eternal wolf that had a relationship with Ye Xuan more than a year ago...

Finally, Hongmeng was stunned. With the arrival of the wolf, the surrounding emptiness was in a moment of silence, and the atmosphere was inexplicably suppressed.

Even the original rushing to Ye Xuan, the hundreds of savage beasts and the remnants of the old people who started the encirclement of him, all stopped their bodies, stunned and stunned, with horror and jealousy, toward Looking at the wolf. far

At the end of the left and right sides of the office, the original is about to rush out, and the same is true for the Hongmeng tortoise and the town of Tiansheng, which are covered by Ye Xuan.

The two looked at each other across the distant void, exchanged their eyes, and the look on their faces all became worried. They naturally understood the power and irresistence of Hongmeng, and this moment began to worry deeply about Ye Xuan.

Even they have already done the best way to pay the price. In any case, they have to fight for Ye Xuan's vitality and escape from the place..."

As a fierce beast, there are such amazing Dandao rumors, even the old lord of the ancestors, Hong Yan, the old guy, I am afraid it is not as good as you..."

At the place, the wolf that just emerged from the crack of the void stayed in the dark void of more than 100 billion miles, and the whole body was dark, but a pair of huge \*\*\*\* but like two small \*\*\*\* meteors, stunned Gloomy, locked in Ye Xuan's body. with

At the time, his voice of God's voice also sounded again, covering the entire void.

Although it is not loud, it reveals an invisible horror, so that all the heavenly geeks in the distance of the void are trembled: "Give you a chance to surrender to the deity, and then refine the glory in Hongmen Avenue." The supreme treasure that helps the world, the deity protects you from innocence..."

This is clearly to revive the rhythm of Ye Xuan, the purpose is to let Ye Xuan refine his Dan Pill and treasure medicine that also have beneficial effects in Hongmen Avenue. This

This is what it should be, whether it is Ye Xuan or other heavenly grotesque around the void. deep

Although the wolf has already broken through the heavens and the environment, it has entered the Hongmengjing after the Heavenly Way and has become the strongman of the Avenue level, but today he is only the beginning of the first-class avenue.

Kai Ye Xuan, such as a few enchanting or a major opportunity does not mention, under normal circumstances, even if the heavens and the road to break through a small step is extremely difficult, the Hongmeng after the heavens is naturally more conceivable.

The wolf took a fancy to Ye Xuan's Dan Dao's rumor and conquered him. The purpose was to make Ye Xuan refining the supreme treasure that can be used in Hongmeng Avenue, to improve the speed of his cultivation, which is now born and those already Among the strangers who have entered the Hongmen Avenue, but have not yet been born, they have become the ranks of the shackles. If

It was really for him to conquer Ye Xuan and become a special refining treasurer of Baodan Baoji. At that time, Ye Xuan would definitely wait for him to become a ban, and other heavenly geeks would like to get this kind of hongmen from his hands. Baodan, obviously will no longer be possible.

Therefore, for the words of the wolf at the moment, the grotesque people around the imaginary sky did not dare to speak out, but all the faces showed an unpleasant color, and they frowned. They were not welcome, but they were angered. I dare not say anything.

"It's up to you, you want to convince the deity... it's a bit whimsical!"

Ye Xuan also grinned, and the sound of the gods was at the same time, and the figure was already behind the end of a heavenly beast...

"boom!"

"Booming..."

At one moment, the thundering sound of the sky sounded, Ye Xuan did not hesitate, directly shot, this heavenly beast is also the peak of the ninth-order grand perfection, and it was ominous in an instant, and his body was bombarded. Turned into a canopy, the blood fog spreads. "

call....."

The blood mist that had not been blasted out by his body was diffused, and Ye Xuan had already waved at the same time. The whistling sound of the wind rang, and a huge invisible invisible screaming away. will

The \*\*\*\* fog of the emptiness in the air swept through and directly into the bottom of the volcano in the central area of the Dingnai space.

Hey, this is the provocation of the red fruit. In the face of the wolf, Ye Xuan did not dare to speak offensively. Even the move did not put him in his eyes. He still did his own thing and shocked everyone. "

Boy, you are looking for death..."

"Roar....."

As a red monster after the Heavenly Way, and still in full view, how can the wolf suffer such humiliation, he was so angry that he suddenly screamed and yelled at Ye Xuan...

boom! ”

"Hey..."

At this moment, Ye Xuan moved, and there was a spurt between the waves. The speed reached the extreme, and one ten thousandth of an hour had already reached the dark void in front of the wolf. This

It is the fourth level of Hong Meng Bao Dan that he has previously collected that has not yet experienced the Dan.

This kind of move was beyond everyone's expectations. All the heavenly geeks around the void were so dumbfounded, even the Hongmeng tortoise and the town Tiansheng were stunned.

The wolf who was about to shoot was a foggy, open mouth, full of suspicious colors. He thought that Ye Xuan was frightened by his roar, and he was soft on the spot, so he immediately handed over the rhythm of Baodan... ...and

In fact, with Ye Xuan sending this Baodan wave, the Hong Meng Dan robbery, which had already disappeared in the void, reappeared instantly.

Moreover, due to the sudden sudden fallback, this time the Hongmengdan robbers appeared, and immediately immediately raged and opened up...

Too fast, everything is too abrupt, including the wolf, no one expected that Ye Xuan would have such a move at this time, will be able to make the ninth-order grand perfection of the heavens, break through in a short time In the big realm, Hongmen, after entering the heavens, and the Chengcheng Avenue-level powerhouse, can be described as the precious Wushang Baodan... just throw it out!

In the void, the thunder and roar of the thunder was shocking, but the sky did not rob the cloud, and there was no thunder to explode. There was no robbery. Everything was like an illusion, and it could not exist on the surface. but

In fact, there is an invisible terrorist force that instantly locks Ye Xuan's figure and air in the midst of it. Of course, it's locked together, and this one that he waved at this time and took it out of the body. Thirty-level Hong Meng Bao Dan...

At this time, Ye Xuan is hundreds of billions away from this Hongmengbaodan, but he is the refiner of this Baodan, so he was locked together by the operating rules in Hongmeng. This

It also means that the terrorist power of this Bohong Mengdan will be divided into two parts, one to Ye Xuan, one to the other side more than 100 billion miles away, just to the tens of billions of places in front of the wolf The thirty-first level of Hong Meng Bao Dan... with

This Baodan once again sacrificed, and the Hongmendan robbery that had just been dispersed not long ago appeared again in an instant...

At the time, Ye Xuan was hundreds of billions away from this Hongmeng Baodan, but he was the refiner of this Baodan, so he was locked by the operating rules in Hongmeng. This

It also represents that the terrorist power of this Bohong Mengdan will be divided into two!

A slap in the face of Ye Xuan, a squatting opposite to more than 100 billion mile, just to the 30th level in front of the wolf in the void of the 30th level of Hong Meng Bao Dan...

If this is the case, it would be meaningless to be thrown away by Ye Xuan's sorrowful water.

Even the entire glory of Hong Meng Dan can not make the wolf hit hard, let alone the power of the Dan robbed is divided into two?

Even if he was too late to prevent it, because he was implicated in the hijacking of the 30th-level Hongmeng Baodan in front of him, he was implicated in the dilemma of the second, and he only suffered from skin trauma. Only.

And this, obviously, must not let Ye Xuan be satisfied...

These thoughts flashed through the brain, and the mouth of the starry violent bear outlined a fascinating smile. At the same time, Ye Xuan also pushed the power of the body to the extreme.

The perfect volatility of the spiritual power secret... Instant activation!

"Hey..."

With a faint whistling sound, after the activation of the perfect swaying spiritual power secret, Ye Xuan's figure instantly disappeared and disappeared. Do not

Only in this way, even his breath is also full of convergence, perfect, even this time, the hijacking of the Dan Meng can not be sensed... he

It is intentional. The purpose of this is to avoid the finalization of the thirteenth level of the Daniel. Such as

Now he did it, and with the robbing of Dan Meng's hijacking, he lost his sense of this. Leak away... and

This is obviously not the full preparation of Ye Xuan. He had already left a power of insight in Baodan before he waved this Baodan.

This power of God has no other effect. The only effect is to detonate this Baodan...

A thirty-level Hongmengbaodan is truly precious. Anything that is blazing, whether it is a beast or a survivor, will be crazy. but

In Ye Xuan's eyes, this is nothing more than a refining thing, as long as the heavenly blood and the heavenly source of the liquid in his hand are all in the same ninety-eight, one, and then the five elements of the medicine, immediately It is possible to open the furnace and carry out refining. more

Moreover, there are already three in his hands. These three thirty-level Hongmeng Baodan have experienced the baptism of the Dan robbery before the arrival of many heavenly geeks surrounded by imaginary air, which is more perfect and more effective. Strong, and the outside world is completely unknown...

Therefore, for Ye Xuan, the fourth thirty-level Hongmengbaodan, which is suitable for wavering, is equally precious, but it is not so indispensable.

At least in his opinion, if it is at the expense of this Baodan, it will be worthwhile to make a Hongmeng ghost after the Heavenly Road.

Of course, Ye Xuan never thought that the wolf could be directly degraded on the spot. It was simply impossible, even if it was the power of the Dan and the violent energy ravaged by the self-destruction of Baodan. And can't do it either. but

As long as he can make the wolf hit hard, his goal is achieved.

This old guy is a strong man on the Hongmen Avenue after the Heavenly Way. Under normal circumstances, even if Ye Xuan sacrificed the strong \*\*\*\* to the sky bow, he could not be injured at all, because he could not attack the other party. and

Now, according to Ye Xuan's estimation, the violent energy formed by the Hongmeng Dan and the self-destruction of this 30-level Hongmeng Baodan, in the case of the other side's unprepared defense, should be able to make the wolf hit hard.

At least minor injuries can't escape.

Although his is known as the strongest supernatural power, but after all, Ye Xuan is still a strong person in heaven and does not have the power of Hongmeng, so he sacrificed the scorpion bow, and when it was shot, it was still within the power of heaven.

However, Hong Mengdan's robbery has the power of Hongmeng. This is also the same for the 30th-level Hongmengbaodan. Therefore, it is very likely to cause damage to the wolf.

Even if it is only a minor injury to the wolf, it is enough for Ye Xuan. The absolute meaning is extraordinary. The strong heavenly person can hurt the super-weirds at the level of Hongmeng Avenue. This incident is shocking enough...

"Booming..."

boom! "This

At the moment, Ye Xuan stayed at the thirteenth level of Hongmen Baodan's power of consciousness. As a refiner of this Baodan, this is completely achievable, and it is simply easy.

Bao Dan blasted, a huge amount of endless energy raging, and the invisible power of Hong Meng Dan was also smashed at this moment. The two together and directly drowned the huge shape of the wolf. It's all over it...

"Hey..."

Roar....."

In that area, the vast void of the tens of billions of tens of millions of people was shrouded in violent raging energy, and the scene inside was not seen at all, but the tragic sound of the wolf was immediately transmitted, slightly stern, followed by Then there was a terrifying arrogance, roaring, and resentful...

Everything is long-lived, but in fact it happens between suffocation. The heavens and gangsters in the distance around the void are completely unresponsive, and they never thought that this would happen.  
on

Lian Hongmeng and the town of Tiansheng were all petrified on the spot. They knew that Ye Xuan was not tamed, but he did not think that he would dare to take the initiative to calculate the blame, and this level of supreme existence.

This is a daring day, it is simply a rhythm of daring...

After a short period of silence, the celestial grotesques around the sky finally reacted to what happened. Under the madness of the body, all the old guys were all chilling, stunned, like a tidal wave. The exclamation sounded, and suddenly it was overwhelming, and the whole piece of endless void was smashed...

"Oh, what happened? Could it be that the old man had an illusion?"

"The violent bears rushed out, it was the kind of Baodan, Baodan appeared again, and immediately attracted the already ruined Hongmendan robbing, this is absolutely not wrong..."

Blasted! Bao Dan bombed..."

"The violent thing, this starry tyrannical bear's brain can't get into the water? It's hard to refine this sacred treasure. He himself is also the ninth-order grand perfection, and he needs this thing so easily. Dan is ruined..."

"What do you know? This is a really sensible move. After all, it has already stunned the glory of the avenue. This violent bear recognizes the situation and takes the slain from Baodan, plus the self-destruction of Baodan. The power of the power is enough to make this singularly sinister, and even serious injuries are not entirely impossible..."

For the violent bear, this is obviously the best chance to break through. Although it has destroyed a supreme treasure, this Dan was originally refining him. He stayed in the green hills and was not afraid of burning wood..."

"The violent things, the brain of this starry violent bear can't get into the water? It's so easy to destroy Baodan..."

"This is the real wise move. The violent bear recognizes the situation, and the robbing of the slain by Bao Dan, coupled with the power of the self-destruction of Bao Dan, is enough to make this singularity seem to be lightly created. Even serious injuries are not entirely impossible..."

This is obviously his best chance to break through. Although he destroyed an Supreme Baodan, this Dan was originally refining him. He stayed in the green hills and was not afraid of burning wood..."

Damn, the violent bear is at large, and all of your friends will not let him escape, otherwise the final result will be the same as Ye Xuan, the master of the original temple..."

At the beginning, I waited to miss the Tianjiu Avenue, and today I can't miss this kind of efficacy beyond the sacred treasures of Tianjiubao..."

Roar! "

"Hey..."

"boom!""

Rumble..."

The change suddenly began, and the surrounding voids were immediately in chaos, and all the heavens and geeks were anxious. There were more than a hundred shots in an instant, and at the same time they came to Ye Xuan to prevent him from squatting. The wolf grotesque is in a raging area of the Dan robbing that has never been scattered. When it has not yet rushed out, it will escape.

Roar....."

Amazingly, there was a recent distance from Ye Xuan, and only a little more than two billion miles away, the heavenly beasts opened their \*\*\*\* mouths, and they screamed at the blizzard form of Ye Xuan.

This is a pinnacle of the ninth-order grand perfection, but he obviously has self-knowledge, knowing that he does not have the ability to slash Ye Xuan. Place

At this moment, he opened his \*\*\*\* mouth and rushed, just biting on the side of Ye Xuan's shoulder. He had to use this method to drag him down, and he could not leave even if he achieved his goal.

"Are you looking for death? Yeah, the deity will be yours, as you wish..."

Rumble..."

"Hey!"

In this scene, the violent bear's shackles flashed through the cold and incomparable Sensen Han Mang, Ye Xuan did not hesitate, directly shot, the thunderous roar sounded without suspense, this heavenly fierce beast encountered an ominous moment .

His flesh was bombarded and turned into a canopy of blood. "

Call..."

When the blood of the flesh exploded, the leaves spread in the first time, and the whistling sound of the wind blew, and a huge invisible invisible screaming away. Virtual

The \*\*\*\* fog that is spreading in the air is swept up and sent directly to the bottom of the volcano in the central area of the Dingnai space.

At the time of the lasing, there were several compressed liquids of the heavenly source, which was an extra harvest and was collected by Ye Xuan. "

boom! "a few

At the same moment, a handle like a meteor is huge, more than a million miles of \*\*\*\* battle axe descend from the sky, an axe will lie on Ye Xuan's left shoulder.

Although his physical body is extremely powerful, but the \*\*\*\* battle axe is as heavy as the stars, and there is a special light flashing at the axe blade, apparently sharp.

Therefore, this axe squatted down, and Ye Xuan's left shoulder was immediately opened. The meat was not shallow. He had already seen the golden shoulder bone inside, and the golden blood was splashing. It was shocking. This

It's not a serious injury, it's just a minor injury, but it's not very good-looking, so Ye Xuan, who was originally a tyrant, suddenly became extremely embarrassed. This

Let him be extremely angry, the violent bear's squatting in the middle of the cold, and then turned to the direction of the \*\*\*\* axe. This

More than two billion miles away from the direction, the body shape of a strong survivor is clearly visible, and the face is stunned, yelling at Ye Xuan. This

It is a nine-order grand perfect peak, although it is a strongman of the remnant, but it is sturdy, a muscle knot, blood is extremely abundant.

He obviously has a strong presence, and now the blood-colored battle axe that is cut on the shoulders of Ye Xuan is his warrior. "

Oh..."

"Booming..."

At the same time as the first look, the violent bear raised his right hand, took the axe handle of the Scarlet Tomahawk, and directly pulled it down from the left shoulder. Without hesitation, the strength of the body was pushed to the extreme, and the backhand was thrown away. Go out...

The roar of the emptiness in the sky is soaring, and the huge \*\*\*\* battle axe in a million miles is turned into a \*\*\*\* man. The cast is faster than the coming, and the breath is more intense.

In the distance of 20 billion miles away, the man who was covered in muscles and knots, who was originally rushing at Ye Xuan's mouth and smirking, changed his face and his body shape suddenly retreated. but

He soon found out that it was too late, the air machine was locked, and no matter which direction he retreated, he could not avoid the \*\*\*\* battle axe. more

What is desperate is that the speed of the battle axe is far from the ordinary peak of heaven and earth. Even if he tries his best to force the body, he can't compare with it...

"How can you be so powerful when you are the peak of the 9th-order grand perfection? No..."

"boom!"

Under the desperation of the heart, this remnant of the heavens expressed his unwilling roar, but when his voice was still not falling, he was thrown by Ye Xuan, and the \*\*\*\* battle axe that had been spurred was already near, directly The figure exploded and turned into a \*\*\*\* fog.

This time, because of the distance, Ye Xuan was lazy to collect the \*\*\*\* fog that formed after his body exploded. Anyway, it was only a benevolent heaven, and the power of blood could not be refined into a heaven. Blood, waste is wasted...

"Roar!"

"Damn guy, you actually hurt the deity..."

Almost at the same moment, on the right side of the sky more than a hundred billion miles away, suddenly burst into a terrible roar, followed by a roaring voice that reveals endless indignation...

For a while, the majestic energy formed by the explosion of the 30th-level Hong Meng Bao Dan has already dissipated, including the glory of the Dan dynasty, which has come to the fore.

The chaotic void that had enveloped the tens of billions of mile members gradually returned to calm, and the stature of the wolf appeared. Fives

Thousands of miles of giants, the original black and white ink, no wolf scorpion that has a hairy hair has been almost half of the blood, revealing the meaning of black gold. Hong

The Mengdeng robbery and the majestic energy formed by the explosion of the thirty-level Hongmen Baodan have a pure power of sorrow, and he was injured after being caught off guard, although not serious, but not serious injury, Judging from the huge wounds in his body, the injury is obviously not light.

It should be between serious injury and minor injury...this

Engraved, as the raging violent energy dissipated, the stupid figure that appeared in the figure instantly locked Ye Xuan's figure and air, and the \*\*\*\* sorrow of the endless resentment, the voice of the gods was cold. It's chilling and cold: "The violent bear, you succeeded in angering the deity, and it's useful for you. I'm not jealous of you today, but you can't escape!"

Who said that the deity has to escape? "

Ye Xuan sneered, and suddenly waved, the voice of God reveals the meaning of endless sorrow: "Today's friends gather together, it is rare to have a grand occasion. The deity is trying to take this opportunity to attack the heavens after one fell swoop..."

Chapter 5162: Jin Hongmeng

"Who said that the deity has to escape?"

Ye Xuan sneered, and suddenly waved, the voice of God reveals the meaning of endless sorrow: "Today's friends gather together, it is rare to have a grand occasion. The deity is trying to take this opportunity to attack the heavens after one fell swoop..."

"call out.....""

Oh la la..."

With the sound of the words falling, Ye Xuan immediately shot, a shot of a mans, gorgeous, and the sound of the flames bursting when the storm rose, the ten colors were turned into a gorgeous ten Color flame sea. and

Between the half interest, it stretches and expands, and it shrinks into a huge ten-color flame ball. It is 100 million in diameter. The shape of Ye Xuan in the form of violent bear is completely covered, and it disappears.

All of this is Ye Xuan already ready.

He had already anticipated that the thirteenth level of Hongmengbaodan was born, and it would surely attract Hongmeng Dan, and the horrible power of Hongmengdan would inevitably lead to the blame of all parties and the thirteen honours of the left bank...

Once Hongmeng is coming, he will no longer be able to take it away. Even the interstellar coordinate jumping ability attached to the internal system will no longer be activated.

Even if it is a stranger, the number is more than one hundred, after reaching more than one hundred, the body's cultivation is fully motivated, and the invisible pressure is overlapped and added. It can also completely confuse the void and let Ye Xuan lose. Activate the interstellar coordinate jumping ability attached to the in-vivo system, and take the opportunity to take it away...

Therefore, after the perfect Danfang of the 30th-level Hongmen Baodan was deduced, even if Ye Xuan's hands had already gathered all the various materials needed to refine a Hongmeng Baodan, he never opened. Furnace refining. and

It is constantly searching for the top ten existence on the left bank of the Heavenly Roads, and fighting against these powerful beasts. In this way and by way, we will seek opportunities for breakthroughs as soon as possible. straight

Nowadays, the realm of self-cultivation has finally entered the peak of the ninth-order grand perfection, and it has swallowed a 30-level Hongmengbaodan. After the impact of the Hongmeng Avenue, this is the refining of Hongmengbaodan... ..

Nowadays, Hong Meng Bao Dan was born. Although it was as Ye Xuan had previously guessed, it attracted a lot of heavenly and strange grotesques, including the Hongmeng monster after the Heavenly Way. The wolf is only first arrived, followed by the other twelve. Zun Hong Meng is strange and will come one after another.

But in the face of this situation, even if he does not have the opportunity to break through and see, but Ye Xuan is not in a hurry. this

When the ten-color flame is sacrificed, it turns into a flame sea, forming a flame ball, and wrapping itself in it is actually a kind of protection. Although Ye Xuan is trapped here, he must not leave, but there is a ten-color flame in the outside. Tiandao old blame and Hongmeng blame are also against him, only to be heavily besieged... and

Ye Xuan, who is in the ten-color flame ball, will immediately swallow a 30-level Hongmengbaodan under the protection of the flame ball. In this case, after the impact of the heavens, he will jump. And it has become the No. 1 Avenue, even if you remove the ten-color flame ball that protects your body, you will have no fear... No.

After all, Ye Xuan knows it well, but all the strangers in the imaginary sky outside the ten-color flame ball, including the Hongmeng turtle and the town Tiansheng, and the wolf, are all in the dark. .

At this time, I heard that Ye Xuan released such a slogan, and I just refining Hongmeng Baodan. I had to break through in a public resounding manner and attack the Hongmeng Avenue after the Heavenly Road. Even he even sacrificed it even in this Hongmeng era. In the endless years, all belong to the legendary level of the ten-color flame...this

Some of the heavens and the old geeks were suddenly stunned, and then they were mad and shocked. Under the drastic changes, they sighed with chills. As if the tides were screaming, they immediately screamed and smashed the whole vastness. Void...

"God, the wolf is so embarrassed, almost to the extent of serious injuries, this is a Hongmeng monster after the Heavenly Way, the supreme existence of the avenue, was actually hurt by the violent bear under the shackles, really is against the sky. ...."

"Shocking Hongmeng? This violent bear has a big tone, actually wants to hit the Hongmen Avenue in public. Isn't the Hongmengbaodan that he just refining has been destroyed? Not to mention even if there is such a reverse If you want to break through at least a hundred years or so, where does he come to the public to break through..."

Ten color flame? hiss.....""

This is the legendary top fireworks, even if the Shennong nine-color flame is far worse, it actually appeared, what is the origin of this violent bear? There is such a flame in the hands, but it has never been known before. It is simply impossible, too strange..."

The deity has a very uncomfortable feeling. It seems that today all this has already been planned. From the beginning to the end, this violent bear is not half-conflicted. Is it all in his expectation and even control? "

"If this is the case, it would be terrible, at least that he has a certain degree of certainty to make a smooth breakthrough. God, this is too amazing..."

A familiar feeling, as if I have known each other, and the ten-color flame is too amazing, the old man has a bold guess, this should not be a fusion of Shennong nine-color flame and red lotus industry fire? "

"You mean this violent bear... is actually the Lord of the Devil's House?"

"God, I forgot him. This possibility is not big, but it is not non-existent. If the violent bear is really the master of the temple, Ye Xuan, how did he come back from Hong Kong? Those who are strong in heaven should not have this means..."

Roar! ""

Hey! ”

"Hey..."

With the overwhelming screams in the surrounding area, the wolf that suddenly fell into the embarrassment finally returned to the gods, and the hair screamed out, and the body's killing intentions reached the extreme: "Ten The color flame? Actually it is the ten-color flame! The \*\*\*\* guy, it must be you, you actually came back from the empty air..."

As a milestone before the million years of age, he naturally understands the horror of the top flames of the ten-color flame. Even the avenues of Hongmeng are not easy to touch.

That is to say, now he can only watch the starry violent bear of the suspected Ye Xuan, the master of the magical hall, under the protection of the ten-color flame ball, but he has no choice but to do anything.

At the same time, the interior of the ten-color flame ball.

Ye Xuan resumed the human form in the first time, and waved his hand to Shennong Baoding. After his body shape, he has already reached the top of the golden scent of Baoding, and sat down on his knees...

"call out!"

Oh..." This

A breakthrough was a decision that he made after careful consideration, so it is impossible to hesitate now, and there will be a short break in the air.

The spurs of the road are spurred out, and they are taken from the immortal world of the body to develop the cultivation resources of this breakthrough.

Not only does it include ten Tiandao blood essences, but it is all the best, and the most important resource is a thirty-level Hongmeng Baodan.

This time, in order to ensure success, Ye Xuan has a big blood, can not fail, can only succeed...

Ten color flame ball inside!

Shennong Baoding is suspended in the center, and Ye Xuan, who has restored the human form, sits cross-legged at the hustle and bustle of Baoding Dingkou, with a large number of top-level cultivation including a 30-level Hongmen Baodan. Resources.

These resources are all prepared by him for this retreat.

After being ready, Ye Xuan's fascinating glimpses flashed, Baoding's domain field power was motivated, and all the cultivation resources were compressed to only the size of the baby fist, and swallowed into the belly. Place

Some of the cultivation resources are all imported, and the energy of the power of the stalwart is very easy to open, and the sound of the chain squeaking is also coming. This

There is only one shackle chain that appears at one time, but it is thicker than any previous one, and it can almost be compared with the spine of Ye Xuan's body.

After all, what I want to break through this time is the Hongmeng Avenue after the Heavenly Way. The chain of chains that appear in the body is so thick, it was originally...the meaning it should have!

However, Ye Xuan did not pay attention to it. After that, it was only a chain of shackles. As long as it was torn, it would be able to break through smoothly. From then on, it would make its own cultivation break through the heavens and enter the Hongmeng after the Heaven.

Since then, it has become the supreme presence of the avenue level...

He quickly calmed down, and his distracting thoughts were all thrown away. When he was stunned, even if he ushered in the energy that he had just formed in the body, he started the big Sunday operation in the whole body. ....This

At one time, in addition to the various top-level cultivation resources such as the chaotic drugs used in ordinary breakthroughs, Ye Xuan not only swallowed ten of the best Tiandao blood, but also swallowed a thirty-level Hongmengbaodan...

In addition, the impact of this breakthrough is the Hongmeng Avenue after the Heavenly Way. The chains in the body are thick and strong. Therefore, with the operation of the big Sunday, Ye Xuan's body and limbs are in full swing. There was a strong tingling, and the degree was so fierce that even he could hardly bear it...

But he bit his teeth forcibly resisted. Gradually, the large cold sweat of Ye Xuan's forehead slowly disappeared, and the originally locked eyebrows slowly extended. He forgot the pain and gradually got better. With

With the passage of time, his body and body in the mouth of Shennongbao's body is shining, and there is endless Xia's enthusiasm, and I have completely lost the consciousness of time...

I don't know how long it took, and the energy that was formed in the meridians of his body was finally refining. Then, under the force of power, it was only a single impact. This stubborn chain of shackles was broken.

And the system prompts in anticipation, at this moment, sounded from Ye Xuan's mind..."

Hey, congratulations to the host, the breakthrough of the ancient realm of the hole! The current realm: Hong Meng first-order! ""

Hey, congratulations to the host, the breakthrough of the body and blood! The current realm: Hong Meng first-order! "Hong

First order!

Finally broke through the heavens and the environment, and entered the Hongmen Avenue after the Heaven! This

However, the highest level of repair in the emptiness of Hongmeng is the level, even if it is the three thousand chaos demon gods born and born in the era of each Hongmeng era, it is just such a repair. and also

That is to say, Ye Xuan, now standing at the highest level that can compete with Chaos Devil.

Of course, even if it is Hong Meng, it is strong and weak. He has just broken through and cultivated as the realm of Hongmeng, which is the weakest existence in Hongmeng Avenue. thing

In fact, among the chaotic devils, even the same phoenix, the ninth-order avenue of the avenue, and the strength of the martial arts are strong and weak, which is related to the difference in the power of the laws governed by them. when

However, Hongmeng's ninth-order grand avenue peak is too far away from the current Ye Xuan. He has just entered this place, but only the first step of the first avenue. but

He also has the \*\*\*\* magical power of the konjac, and after activation, he can raise his own realm to a small order, and each subsequent change can improve the first-order repair. and also

That is to say, with the breakthrough now, although Ye Xuan's own cultivation is still only the first step of the Hongmeng, but after the activation of the konjac and the \*\*\*\* magical powers, he will immediately have the second-order cultivation of Hongmeng.

Then, the blood of the konjac will be transformed into the first change, and the repair will be the first step of the sky, reaching the third order of Hongmeng... and so on. By the time of the seventh change, Ye Xuan's cultivation will reach The peak of the avenue of the 9th step of Hongmeng.

But this should already be the end. After the Hongmen Avenue, there is still a chaotic state. The state of the eighth change is mostly suppressed by chaos, including the ninth change. Do not

It doesn't matter if this is the case. The Hongmeng Avenue has become the highest level of the emptiness of Hongmeng. The entire eternal time of Hongmeng has never been born with a chaotic state.

As long as Ye Xuan can have the culmination of the avenue of the 9th-order Grand Ceremony of Hongmeng, in this vast and endless, vast and innocent Hongmeng emptiness, it can be rampant, unscrupulous, invincible...

When these thoughts flashed in the middle, Ye Xuan, who was kneeling at the mouth of Shennongbao, suddenly opened his eyes. At this moment, although he did not activate the \*\*\*\* magical power of the konjac in his body, he already had it in the dark. A very strong intuition... The swaying repression that has always existed has completely disappeared with his own cultivation as a formal breakthrough to Hong Mengjing! and

Moreover, perhaps because it has already broken through the heavens and entered the Hongmeng Avenue after the Heavenly Way, he can clearly feel the Hongmeng void outside Baoding, and there are some invisible liberation of the power of Hongmeng, rushing toward his body. Come, slowly but continuously change the body of the body, including the soul of the sea, in the process of transformation and sublimation...

Feeling the transformation of his own knowledge of the sea and the body of the body, Ye Xuan's heart gave birth to enlightenment. He understood that he could not activate the \*\*\*\* magical power of the konjac, because he just entered the Hongmeng, and the sky outside the Baoding The power of invisible Hongmeng is still changing his knowledge of the sea and the body of the treasure. This process is slow and long, and it is far from over...

His current physical strength is only a real-life boundary with his own realm, that is, the first-order match of Hongmeng. If it is forcibly activated, the strength of the body is not enough, even if Ye Xuan can display the second-order power of Hongmeng, I am afraid that it will not last, and it is very likely to have a certain impact on itself, because the body can not withstand the power of this level. only

It's just that the activation of the konjac has changed. If the blood is transformed into the first change, the second change... or even higher, the situation is obviously more imaginable. meaning

Knowing this, Ye Xuan suddenly frowned and whispered in some worries: "So it seems that it takes a little time to activate the magical power of the konjac, which is a bit of trouble..."

At the same time, in addition to the ten-color flameball, with his smooth breakthrough, he entered the Hongmeng and became the supreme existence of the avenue level, and all the strangers and the geeks in the surrounding air were also For a moment, completely blow up the nest...

The Hongmen Avenue is not the same. Even the ancestors of the ancestors who lived a million years ago, although they created the Tianjiu Avenue, the two sides of the Galaxy finally have the only Supreme cultivation resources that can help to enter Hongmen Avenue.

But even if there is enough Tianjiu Avenue to swallow, the ninth-order grand perfection of the Tiandao peaks will affect the Hongmeng Avenue after the Tiandao, and it will take millions of years...

The thirty-level Hongmeng Baodan refining by Ye Xuan, in the effect of the impact on the impact of Hongmeng Avenue, obviously far exceeds the treasure of Tianji Avenue created by Hong Yi.

In particular, Hong Xuan Bao Dan, which was swallowed by Ye Xuan this time, has experienced the baptism of Hong Meng Dan. It is one of the best, and the drug effect is more remarkable.

Even so, after swallowing this Hong Meng Bao Dan, after the retreat in the ten-color flame ball, Ye Xuan's impact on the Hongmen Avenue after the Tiandao, still consumes nearly two years...

The bottleneck of a big realm took two years to retreat. This kind of thing is really unexpected for Ye Xuan. He originally thought that at most, it would be a year or so to make a breakthrough and go out. but

For the eccentrics of the left bank of the Galaxy, such as the old geeks and the wolves, the two-year period is almost negligible, and the million after the swallowing of the Tianji Avenue Compared with the years, it's almost astonishing...two

Since the beginning of the year, the number of grotesque parties gathered around this emptiness has grown more and more.

At the time, Ye Xuan sacrificed the ten-color flame and turned it into a flame ball to protect himself. When the retreat was launched, among the thirteen red monsters on the left bank of the Galaxy, only the wolf came. but

Later, the other twelve Hongmeng grotesques also came one after another, including the black blood blue crocodile that I had seen with Ye Xuan!

These thirteen honoured monsters are surrounded by imaginary air in the vicinity of the ten-color flame ball, each side, which is the inner encirclement. outer

The encirclement of the layer is surrounded by a void of about tens of billions of miles from the ten-color flame ball. All of them are from the left bank of the Milky Way, a sinister beast and a sacred monster in the field of the survivors. There are both heavenly and beastly beasts and heavenly remnants. The total has exceeded one thousand. This

Among them are the Hongmeng tortoises and the town of Tiansheng, which were recently closed with Ye Xuanhong, who are the famous names of more than a thousand heavenly lords, but facing the wolf and black-blooded crocodile. After the respect of the Heavenly Road, Hongmeng, but also can only retreat to the second layer of encirclement of 500 billion miles.

In fact, in addition to the celestial blame, there are a lot of power and ignorance around the emptiness outside the tens of billions of miles. They are simply not qualified to participate in this matter, only in the void outside the trillions of miles. Zhongyao is far away from the crowd...

In the past two years, the Tiandao grotesques who have been surrounded by the second layer of encirclement of 500 billion miles have not had the qualifications and opportunities to shoot, but the inner layer surrounded by the ten-color flame ball is only a hundred billion miles away. The thirteen honourers, but no exceptions, have all had shots. Of course

However, the power of the ten-color flame is so amazing that just the Shennong nine-color flame can make all the heavenly and ridiculous monsters jealous. After the level of the ten-color flame, even the evil monsters after the heavens are not. Dare to touch.

Therefore, even if all the thirteen honours have tried to shoot the ten-color flame ball and want to smash it, Ye Xuan, who is under the protection of the flame ball, is only a hundred billion miles away. Unfolding the attacks of various remote means, I dare not directly approach the approach and harden the ten-color flame ball. This

A kind of remote-style energy attack, although because of the hand of Hongmeng, the power is terrible, but it can only make the flame wall of the ten-color flame ball violently shake.

In fact, in the past two years, the violent shaking of the flame wall of the ten-color flame has appeared from time to time, but under the maintenance of the field of Shennong Ding, the ten-color flame has never really collapsed completely...

In all of this, the ten-color flame ball sits on the knees of the Shennong Ding Dingkou, which is holding a colorful mist, although it has already been expected before entering the retreat. but

As the retreat unfolded, his mind was completely immersed in it, and gradually I forgot both. Ye Xuan had nothing to do with everything outside the flame ball. I didn't know it at all...

Since then, the time has slowly passed, and Ye Xuan's body includes chaotic medicine, Tiandao blood essence, and a top-level resource such as the 30-level Hongmen Baodan. The river is gradually growing in the limbs and meridians. Being refining and integrating into itself...

In this process, his knowledge of the sea and the body of the body are also undergoing baptism and transformation, from the heavens to the Hong Meng. With

The advancement of this transformation and transformation, from Ye Xuan's body also began to diffuse the atmosphere of the sacred after the heavens, the initial is very weak, but it continues to climb, and later it has become more and more rich. This

A kind of rich Hongmeng breath came from the mouth of Shennong Ding Ding, which was carrying the colorful fog, to the piece of the 100-meter-wide void covered by the ten-color flame ball outside the Ding.

Then, from the void in the flame ball to the outside of the flame ball, first of all, the thirteen red monsters surrounded by the inner layer of the flame ball captured, let them suddenly change their look. Do not

After a long time, it was captured by the more than a thousand heavenly geeks surrounded by the second layer of 500 billion miles. These heavenly geeks reacted more strongly after realizing what

happened, almost all of them. The body is mad, and the breath is short, because this is what they are most looking forward to, but unfortunately it does not happen to them...

Today, two years passed, and with the end of Ye Xuan's retreat, he successfully broke through the heavens and entered the Hongmeng. He became the supreme being of the avenue level. The scent of the atmosphere that has been dispersed from his body has finally reached a Peak status. "

Rumble! "

"boom....."

At this moment, the glory of the glory outside the ten-color flame ball felt the darkness of the sky, and suddenly there was no sign of thundering and thundering, but the Thunder's voice was shocking, but the sky was not visible. To the bottom of the robbery, there is nothing empty, this is the glory of the coming of the red robbery.

Hong Meng Lei robbery is no better than Hong Meng Dan, although the Hong Meng Dan robbery has the same power of Hong Meng, but its power is limited, between the Tiandao Thunder and the hijacking.

The power of Hongmeng's robbery is even stronger. It is the ninth-order grand perfection that successfully breaks through the heavens and passes through the Hongmeng Avenue after the Heavenly Road. It will undergo a baptism and test...

The emergence of a kind of red robbery means that there will be a Hongmen old monster after the birth of a heavenly road, that is to say, the violent bear in the ten-color flame ball... After two years of retreat, it has successfully broken through. , entered the Hongmeng!

These thoughts flashed through the brain, whether it was the 13-member inner circle of the wolf and the black-blooded blue crocodile, or the more than a thousand heavenly geeks encircling the second layer, all of them were shocked and stunned. Suddenly exclaimed under the change of color...

Chapter 5163: Born out

"Booming!"

"boom....."

With the breakthrough of Ye Xuan, the Hongmeng void outside the ten-color flame ball felt the darkness of the void, and suddenly there was no sign of the thunderous sound of thunderous sounds...

The thunder's voice is extremely amazing, but there is no cloud in the void, nothing is empty, this is the glory of the coming of the red monster. it

The emergence of the representative of the future will be a Heavenly Road after the death of Hongmeng!

In other words, the violent bear in the ten-color flame ball, after just two years of retreat, has successfully broken through and entered Hongmeng. brain

These thoughts flashed in the middle, whether it was the 13-member inner circle of the wolf and the black-blooded blue crocodile, or the more than a thousand heavenly geeks in the second layer, all of them were shocked and stunned. Under the change, suddenly lost his voice and exclaimed..."

God, Hong Meng Lei robbery? This is the already obvious breakthrough. The 14th Hongmeng monster on the left bank of the Galaxy has been born and will soon be born..."

"Two years, what is the effect? It's not so amazing. It's just two years. From the peak of the ninth-order grand perfection, I entered the Hongmeng, and when the avenue gap was so easy to be crossed..."

"Bao Dan! It must be the effect of the kind of Baodan! This violent bear has more than one of the supreme treasures, at least two, and I will have a good baptism before I arrive. , he was put away, I didn't even see it..."

Absolutely wrong, otherwise, the Supreme Baodan has been detonated by him, almost seriously hurting the wolf. If he only has this Baodan, the violent bear will attack the avenue after the heavens..."

"It's too horrible. It took only two years to make a nine-step grand perfection into the realm of Hongmeng. The efficacy of this supreme treasure is unheard of, unimaginable..."

"Should there be more than two? One was detonated by him, and one violent bear swallowed himself. If there is a third one... The old man's heart is jumping, he has to jump out of his throat!"

Don't say three, even if there are thirty? Today's violent bear is already a red monster on the heavenly path. Is the Supreme Baodan in his hand qualified for you? "

"How about Hongmeng? How he has just broken through, and the surrounding areas of the ten-color flame ball are now surrounded by thirteen avenue-level powerhouses with him, and the repairs after the breakthrough have been stabilized, even if the violent bears break through. And can't help but..."

"If he really is the original Lord of the Devil, Ye Xuan, today's things are even more difficult. The fierce name is too strong and the threat is too strong. The thirteen honours will not easily let him go. Maybe it will be suppressed on the spot..."

"The real world war is about to break out. Is the Hongmeng level strong and strong? I don't want to be beaten and pooled..."

Roar! "

"Hey!"

"Hey..."

The overwhelming exclamation sounded like a wave, and these heavenly beasts and survivors and geeks all screamed and screamed, and their bodies retreat, all in the distant void beyond tens of billions. and

The powers and the ridiculous people who had been squatting around the tens of millions of miles away from the tens of millions of miles were even more violent in their stature, and they retreated after the dramatic changes, and retreated to two trillion miles. .

No way, even the power of the power and the level of the abundance, for the Hongmeng monster after the Heavenly Way, it is only an ant. Only once the battle of the Hong Meng level broke out, if the distance is too close, they may even come out in the center of the battlefield. The rest of the effort can't hold back, only to retreat. This

Everything is long, but it happens in a moment. The blink of an eye, within the tens of billions of miles of the ten-color flame ball, there are only thirteen honours left, but this huge void is empty. Down, the atmosphere is more dull and depressed.

A thick and inseparable iron and blood killing intention is rapidly rendering invisibly...

"call out....."

The faint sound of breaking the air rang, Ye Xuan walked out from the treasured Dingkou with a colorful mist, and waved the Shennong Ding into the body. this

At the time, he was his own human form, a blue robe, looking very young and handsome, with a calm face, cold and cold, although there was no sadness and no joy, but the ancient well did not wave, but it was invisible to exude an unsightly The pressure of the pressure. by

Yu Gang just broke through, so now Ye Xuan can't activate the magical power of the konjac. just

Entering Hong Meng, the invisible Hong Meng's power in the void is still changing his knowledge of the sea and the body of the treasure. This process is slow and long, and it is far from over. Now

In his, the physical strength is only a real match with his own realm, that is, the first order of Hongmeng.

If it is forcibly activated the venom of the konjac, because the strength of the body is not enough, even if Ye Xuan can display the second-order power of Hongmeng, I am afraid it will not last. and

And it is very likely to have a certain impact on itself, because the body can not withstand the power of this level. only

It's just that the activation of the konjac has changed. If the blood is spread to the first and even higher levels, the situation will obviously be more serious...

That is to say, his current real combat power is only the same as that of his own cultivation. Only with the progress of the sea and the physical transformation, to a certain extent, he can activate the konjac change. Blood and magic, this has the power of the second order of Hongmeng...

Then there is the first change, the second change... until the end of the sea and the transformation of the body is completely completed, can bear the power of the ninth change. and

This metamorphosis process, if it is allowed to advance itself, obviously takes a long time, but it does not matter, Ye Xuan can fully accelerate the whole process with the war..."

What is the battle for the level of Hongmeng? What if it is an enemy? The more \*\*\*\* baptism, the faster the process of self-transformation can be completed..."

Oh la la..."

Oh..."

In the whisper, Ye Xuan's sly flashed a cold mang, and the sound of the flames suddenly burst into the air, and the ten-color flame ball surrounded by the emptiness of his body was collapsed. In order to become a vast expanse of flames. Following

It is easy to shrink in an instant, and it is only a ten-color flame that only refers to the size of the belly. Under the lasing, it rushes into the eyebrows of Ye Xuan, and disappears.

At this moment, with the disappearance of the nine-color flame sea, this piece of eternal emptiness that was originally covered by the flames was no longer blocked, and everything inside it was revealed.

The empty whole piece of the sky is empty, only a human figure stands there, a blue robe, hands behind his back, cold in the middle, no sadness and no joy, it is Ye Xuan...

To his physical form, instead of the starry violent bear that had previously rushed into the ten-color flame ball, the thousands of heavenly grotesques and the powers of the parties and the ruins of the paradise were all mad. The face was so vivid that it was so expressionless, and under the cool air, the exclamation sounded again...

The ten-color flame ball disappeared. The starry violent bear that had previously rushed into the ten-color flame ball did not see it. Instead, there appeared a figure of a strong human race. The thousands of heavenly monsters and all parties around the void were far away. It was the first time with the ruins, and all of them were mad.

The expressions on the face are all a kind of expression, and then, under the cool air, the exclamations in the emptiness around the sky are instantly revived..."

Sure enough, he should have guessed it..."

The Lord of the Temple... Ye Xuan! "

"There are many strong players on the left bank, but how many years have passed, they can incite and even kill the strongest of the top ten beasts on the left bank. But they have always been phoenix scales. The former Lord of the Temple did it, and then A starry violent bear was born, and he was more ferocious than him. This was not normal..."

"The old man understands that the reason why the tyranny came before more than four years ago is not because the master of the temple, Ye Xuan, has revealed the refining secret of the Tianji Avenue treasure left by the ancestors' ancestors, Hong Yu. On one side, what is more crucial is that... he realized the sacred Danfang of Hongmengbaodan at that time, which led to the looting of Hongmendan."

hiss! It's amazing, just a Danfang, it's already able to attract the coming of Hongmeng Dan. It's no wonder that the Supreme Baodan that he refines has such a miraculous effect. After the ninth-order grand perfection, the swallows only In just two years, it has successfully broken through and entered the Hongmen Avenue after Tiandao..."

It is a pity that all of this has now been exposed, so that the supreme treasure is too amazing, even if the avenue level of Hong Mengjing can not be moved, the main body of the temple, Ye Xuan, has just

broken through, facing the thirteen realms. Steady Hongmeng, he is destined to be suppressed here today, into an eternal crushed miserable situation..."

Rumble! ""

Boom..." This

At the moment, with the exclamation and the sound of emotions in the distance around the void, and the disappearance of the ten-color flame ball, the outside world is full of emptiness, the dark void is high, and suddenly there is no sign of earth-shattering. The thunder of thunder...

The Thunder's momentum is amazing, but there is nothing in the void but no empty clouds. There is nothing in the empty space. This is the glory of the coming of the Red Monster! Genus

Yu Xuan's Hongmeng robbery... started! Look

To Ye Xuan, the 13 people who are surrounded by the void are all unexpectedly glanced and look different.

Among them, the face of the wolf and the black blood blue crocodile is the most ugly, and the black one can almost squeeze out the water.

Among the thirteen honours, the two of them were the first to be born, but in fact the thirteen old singers have basically the same combat power, because all of them have just broken through to Hongmeng and have been firmly established before they leave. It was only a year or so before and after the birth.

In terms of realm, the thirteen old guys are all in the first step. Although they are strong and weak, they are similar, basically belonging to the same level.

Therefore, the day when the wolf and the black-blooded blue crocodile came, but let the master of the temple, Ye Xuan, such a nine-order grand perfection, the peak of the heavenly road to escape under their eyes, another eleven old guys Almost all have sneered. ten

The three old guys are quite powerful. No one is jealous of anyone. No one is convinced. The wolf and the black-blooded blue crocodile are angry, but they also have no other eleven old guys. They will record this account invisibly. On Ye Xuan's head, his grievances are extremely deep...

Originally, they thought that Ye Xuan had arbitrarily exiled to the place where the sorrow and emptiness of the emptiness had disappeared, so although the heart hated, it slowly faded the matter.

But now Ye Xuan is not only back, but also ravaged the left bank as a starburst bear, and passed them, it is simply hateful, so that they suddenly have the feeling of being juggled again.

Especially the wolf, he was publicly stunned by Ye Xuan two years ago. At the cost of self-destructing a Hongmeng Baodan, he was almost seriously injured. At that time, Ye Xuan was still not closed, not Hongmeng. The old blame is just the ninth-order grand perfection of heaven and earth... this

The matter will definitely lead him to be ridiculed by other old monsters. Even the black-blooded blue crocodile who was previously ridiculed with him is very likely to join in and to slap him in order to divert the attention of other old monsters...

All this made the wolf hate mad, the whole person almost blasted open, seeing Ye Xuan's figure appeared, and his head was a scream: "Is you? Hehe..."

"Booming..."

There is no more nonsense, the sound of arrogance is just beginning, and his giant figure of Panda is already spurred out. Like a meteor, the speed is almost at its peak and rushes to Ye Xuan. Da

After arriving at the Hongmeng Avenue, no matter whether it is a beast or a survivor, the size of the body has been freely desired. The power is like a star field, and the small one is as fine as a dust.

The huge figure of the wolf is only a random result. Although the heavenly beasts in the distance around the sky are almost all in the tens of millions of miles, if the momentum and the atmosphere are strong, there is no such thing. Comparability. this

He was roaring in the fury, and the strength of the body was pushed to the extreme, the speed was too fast, the power was too violent, and the void in the body shape was rapidly collapsed. This kind of mighty power is even far away. The thousands of strangers around the world are eclipsing... though

However, the Lord of the Devil's Temple, Ye Xuan's Hong Meng Lei robbery is about to come, but the wolf is not afraid. He also experienced the treacherous robbery. At that time, he was smashed down, not to mention that the current realm of cultivation has been stabilized.

Although he suffered a minor injury two years ago, in the eyes of the wolf, his full blow with anger, coupled with the power of the red robbery, is absolutely enough to bring the main leaves of the devil in the blink of an eye. Xuan was killed.

Although the two years are too short, my injury has not recovered. Although it is impossible to face life and death in the face of Hongmeng, the impact and threat are not small. After all, I have not yet reached the second stage of Hongmeng, but as long as the opponent is degraded, Hongmen Lei The robbery will disperse, this is the robbery of the Lord of the Devil, not him...

Therefore, he did not have any fear at all, and he was bent on killing Ye Xuan in full view. It was a shame before the snow... Of course, after killing his opponent, he successfully got his storage magic, and various Secret treasure, this is what it should be! "

I said that I was familiar with it, and I heard it when I saw it. I couldn't think of it... you old dog! "leaf

Xuan has long recognized the wolf. At this moment, the original speech was intentional and wanted to irritate him. "

Card..."

Oh..."

When the voice is still not falling, Ye Xuan has already waved. At this moment, the spirit of thunder and lightning is fully motivated. The head of the wolf has a \*\*\*\* lightning, with a diameter of 100 million miles, with a crisp sound. Blasting, in a moment, the huge body of the wolf is covered, drowning in it...

The fierce screams of fierceness came, and a \*\*\*\* blast exploded. At this moment, the wolf unexpectedly bleeds blood under the shackles. Although it has not fallen, the previous injuries have not recovered. Now, new creations are added. To the extent of serious injury...

"Card..."

Oh..." This

For a moment, Ye Xuan waved, and there was a \*\*\*\* lightning in the head of the wolf without warning.

The diameter of a hundred miles, accompanied by a crisp card blast, immediately engulfed the huge body of the wolf, and drowned out...

The fierce screams of fierceness came, and a \*\*\*\* fog was blowing!

The wolf was completely unprepared, and unexpectedly bleeds blood. Although it has not fallen, the previous injuries have not recovered. Now, new creations are added, fearing that it has reached the level of serious injuries...

If two years ago, Ye Xuan Shang had not broken through, and it was not the existence of Hong Meng. It was only the strength of his nine-step grand perfection. Even if he tried his best to use spiritual lightning, he could not hurt the wolf. Because this blood-colored lightning simply fails to hit the target, it will be a sign before it appears, and it will be avoided by the wolf. but

Now, Ye Xuan has already broken through and entered the Hongmeng. It has also become the existence of the avenue level. Under the full force of exertion, the power of the spirit thunder and lightning is far different from the original.

Although he has just broken through, the realm has not been completely stable, but the wolf is just a step of Hongmeng. Ye Xuan has come all the way, and the same rank has always been invincible. Even if the realm is not stable, the frontal battle can not be weaker than the wolf. What's more, the latter is now almost seriously injured? can

It is said that the spirit of thunder and lightning will make the wolf add new creations, and this will be seriously injured. Everything has no suspense. Ye Xuan's heart is determined, and it has already been expected to be such a result!

"Hey..."

Have you hurt the deity? Damn it! This is \*\*\*\* ....." very

Fast, the thunder sea formed by the blood-colored lightning blasting dissipated, the body shape of the wolf appeared, half of the body was golden and red, and the blood was smashed. This scene made the powerful parties around the distance mad. Shock, face madness...

But he is only a serious injury. This spiritual thunder and lightning is not enough to make a real-estate Hongmeng monster fall directly.

As the Thunder Ocean dissipated, the wolf looked up and screamed, and the sound of the gods heard, and once again swept the body shape, rushing toward Ye Xuan. he

Was completely irritated, has been violently gone, even now the state of serious injury has been ignored, the eyes are red, the only thought is to kill Ye Xuan on the spot.

"Since you are looking for death, then this temple... will give you a ride!"

boom....."

Seeing this scene, Ye Xuan's mid-cold glimmering, the fluttering words came out, and the figure was already on the way. At this time, he changed his form, and his body was violent, and his body was also huge. It is quite similar to the wolf, a punch is blown out, the horrible air is swaying, and the void within a billion miles is in a chaotic moment, and nothing can be seen...

"Booming!"

"boom....."

At the same time, Ye Xuan's Hongmeng Lei robbery broke out under the emptiness of the void, and the darkness of the void was high. Suddenly there was no sign of thunderous sounds.

An invisible Thunder's power shrouded the tens of billions of emptiness between Ye Xuan and the Wolverine. The sound was amazing and made it even more confusing.

Although there is no cloud in the void, nothing is left empty. Only the power of violent raging is endless, but it reveals a horrible atmosphere of destruction, even if it has already retreated to trillions of miles. The thousands of eccentrics outside the ecstasy have changed. After returning to God, they have lost their voices..."

hiss! The wolf has been seriously injured... This is just a face-to-face! "

"He cares about it. Perhaps he is also thinking of Ye Xuan, the master of the temple, as the peak of the year. He has not changed his mind, and this is a blow!"

"Today's Lord of the Temple of Devils is already a mysterious man after the Heavenly Way. His spiritual thunder and lightning are invincible. There is no sign at all. On the basis of the same realm, even the Hongmeng has a headache and taboo. ....""

It's too impulsive, and now the wolf is already a serious injury. If it's just to face the breakthrough, the realm of the demon temple, which is still not fully stabilized, Ye Xuan's fall, but the other side is now dying. When the wolf is entangled with him, he must be locked in with the thunder, and the final result of this war will be too difficult to predict..."

The old man is still not optimistic about Ye Xuan, the master of the demon temple. Even if he can add new wounds to the wolf, the latter is not a stupid person. He realizes that things cannot be done, and he must withdraw from the situation. As a result of the war, Ye Xuan, the master of the Temple of Devils, must also be created..."

At that time, the other 12 Hongmeng grotesque around the sky will be able to suppress him easily..."

"In the end, the finale of Ye Xuxuan, the master of the temple, is still doomed. It can't be changed at all. There is no possibility of reversal. Even if he is fierce, it is just a dying struggle before being suppressed..." "

Roar! "

"Hey..."

Rumble..."

As the exclamations in the emptiness of the surrounding air rang, the eccentrics of the parties circumvented the central battlefield of the tens of billions of miles away. Although the air was still chaotic, they could not see anything at all. Only a chaotic and violent energy is raging, but in this violent violent temper, there are occasional violent arrogance and long-haired sorrows.

In the midst of it, there is even more earth-shattering thunder and thunder. With this alone, you can imagine the horrible power of the battle between Ye Xuan and the wolf...

Gradually, the raging scent of this violent temper is getting more and more fierce, but the screams of the surrounding emptiness are all slowly screaming. far

Beyond three or four trillion miles, the powers and the ridiculous geeks from the left bank of the forbidden land and the remnant of the sacred land are all breathless, and the eyes are like a bell, and they are not willing to miss an instant. Pay close attention to everything, although they can't see anything, but this is the battle of the glory of the level of Hongmeng, and it is rare to see it!

A little closer, in the void in the tens of billions of miles, the thousands of eccentrics are even more excited and trembled. Because of the distance, and the higher level of cultivation, how much they can feel Go to something. This

The battle of the avenues of the Hongmeng class has a special enlightenment for them, even if it is not harvested, it is very valuable.

As for the neighborhood, two hundred billion miles away, the twelve Hongmeng blame all frowned slightly, the look on the face became more dignified and uneasy...

The time is slowly passing, and unconsciously, the semi-column incense has passed by.

"boom!""

Oh..."

At this time, in the central region of this tens of billions of people in the battle of the void, a shocking sound of a blast was heard, followed by the horror of the wolf, unprecedented sorrow..."

Rumble..."

At one moment, the last invisible thunder was smashed, and the Hongmeng robbing belonging to Ye Xuan dissipated. The whole piece of emptiness suddenly fell into silence. At the same time as the storm stopped, a figure stepped out of its fascinating scrolling machine. ... It's exactly what Ye Xuan! "

boom! ""

Oh..."

In front of the battlefield of the 10 billion mile in the central area, there was a shocking sound of a blast, followed by the horror of the wolf... unprecedented fierce!

"Booming..."

At this moment, the last invisible Thunder also slammed down, and the glory of Ye Xuan, which belongs to Ye Xuan, dissipated!

The whole piece of emptiness suddenly fell into silence, and at the same time as the storm stopped, a figure stepped out of its fascinating scrolling machine... It was Ye Xuan!

At this time, the temperament that has been dispersed from his body is obviously more solid and powerful than the beginning of the war before the semi-column...

Before this battle, Ye Xuan was just breaking through, and the realm has not yet been stabilized. It is still unable to activate the \*\*\*\* magical power of the konjac, because it has just entered the Hongmeng, and the invisible sect of the emptiness outside the Baoding is still changing. His knowledge of the sea and the body of the treasure. This

The process is slow and long, and it's far from over... he

At that time, the physical strength of the body was only a real match with its own realm, that is, the first order of Hongmeng. If

It is the \*\*\*\* magical power that forcibly activates the konjac, because the strength of the body is not enough, even if Ye Xuan can display the power of the second order of Hongmeng, I am afraid it will not last. pole

It is possible to have a certain impact on itself, because the body can not withstand the power of this level...

However, after the fierce battle of this semi-column time, the realm of his breakthrough has been stabilized. Although it is still unable to display the first change, it is only a matter of activating the \*\*\*\* magic of the konjac, but it has no problem at all.

Activating the \*\*\*\* magical power of the konjac, it will instantly improve his cultivation to a small level. At the last moment of the war, Ye Xuan has obtained the second-order power of Hongmeng.

Hongmeng second-order, if you want to punch this first-order powerhouse, it is basically impossible unless it is sneak attack, but the wolf at that time has been seriously injured, and it has been fighting with Ye Xuan all the time. With a clear understanding of strength, I did not expect that he could actually improve the first-order repair in the midst of the war...

Therefore, when Ye Xuan slammed out, the wolf was underestimated, and he did not take it seriously. When he realized that it was wrong, everything was too late.

This fist, the wolf was bombarded, the flesh exploded, turned into a awning, \*\*\*\* fog, was thrown into the body by Ye Xuan, and sent to the flame pool at the bottom of the volcano in the central area of Shennongbao Dingding. . This

However, the savage beast of a victorious priest, the \*\*\*\* fog formed by the explosion of the flesh, will surely produce a scent of blood.

This is too precious, Ye Xuan is very happy, after the end of Hong Meng, there is the ultimate supreme chaos, although now Ye Xuan has just entered Hong Mengjing, still do not understand the supreme chaos after Hong Meng, but this kind of Meng Meng Xuejing It will definitely be of great use in the future, and he will be treasured. complete

Jing Hongmeng is too rare, and every piece of Hongmeng blood is a rare and worthless resource.

Of course, in addition to this Hongmeng Xuejing, there are other gains in this battle. Ye Xuan's heavenly source of liquid and even the Tianjiu Avenue treasures, in addition to some other top-level cultivation resources. This

Everything is taken as a victory, and Ye Xuan waved away...

At this time, the violent form of his stepping out of the violent temperament of the gradual turbulence, the body of the treasure is intact, the sturdy and sturdy savage, and the scent of the body is clearly defined. Has reached the second order of Hongmen Avenue...

This kind of cultivation is shocking and fascinating. It is necessary to know that even the three thousand chaotic demon gods born at the beginning of this Hongmeng era are basically all the first-order cultivation of Hongmeng. its

Only a few of them were born, and they have already possessed the second-order cultivation of Hongmeng.

That is to say, the current Ye Xuan, even among the three thousand chaotic devils, can be repaired as a strength.

There are still twelve powerful Hongmeng rings in the surrounding air, and there are only two hundred billion miles of empty space separated from Ye Xuan. However, the twelve Hongmeng monsters are all without exception. Repair.

Although the strength of the war is slightly different, but the disparity is not big, even the strongest of them, from the second order of Hongmeng, there is still a long way to go. change

In short, the current Ye Xuan, in this vast and innocent Hong Kong virtual air, is definitely the most powerful, even in those Hongmeng monsters that were born not long ago, are also enough to stand out. This

Waiting for the supreme style, he is unparalleled, his body shape appears, and the body is repaired as a diffuse opening, and suddenly the thousands of heavenly geeks around the tens of thousands of miles outside the sky are trembled. very

Even this piece of ancient Hong Kong's void seems to have shivered a little at this moment, as if it was swaying for Ye Xuan's current horror cultivation...

Beyond the three or four trillion miles further away, those who are from the left bank and the savage land of the savage beasts and the savior of the sacred land are more vulnerable to the knees. Strong support, I am afraid that I will be involuntarily crouching on the spot...

Although the first step of Hongmeng and the second order of Hongmeng are both in the early stage of this situation, there is only one small difference between them, but the momentum and pressure are completely different. The invisible deterrent power to the powerful and the ruthless powers has skyrocketed. More than a few times... and

The twelve Hongmeng geeks, who are only two hundred billion miles away from Ye Xuan, saw him alone from the previous violent battle, and the body's temperament was in a short column. In time, it has been strong after Jos. with

It was also a stun of the body shape, and the face was greatly changed, and the air was screaming and shouting...

what happened? The wolf actually fell... How is this possible? ""

In a short period of fragrant incense, Ye Xuan, the master of the temple, has already killed the wolf. This is simply against the sky, too amazing..."

"Although the wolf has been seriously injured, and has to accompany him to the glory of the glory of the glory, but this is, after all, a supreme avenue of glory, even if it is bombed, it is impossible to end everything in such a short period of time. ....""

Hong Meng second order! God, the temperament that has been dispersed in his body has reached the second level of Hongmeng! ""

In the end what happened? All of this is just like an illusion. It is simply unrealistic, but it really happened. The time of a short fragrant incense has just broken through. The Lord of the Devil, who has entered the Hongmeng Avenue, has become a direct The second-order horror of this situation, when the cultivation of Hong Mengjing into the country, has become so easy..."

"The old man had heard it before. The owner of the temple, Ye Xuan, has a kind of \*\*\*\* magical power that can force the promotion of a big realm, and there is no time limit. It seems that most of the reason is that this can not stay... .."

"Yes, anybody grows up, and in time, I will be killed by him one by one..."

Let's join hands together, and as he has not grown up, he will kill it today! "

"Roar!"

"Hey..."

## Chapter 5164: The power of the third step of Hongmeng

With Ye Xuan killing the wolf, his self-cultivation is also soaring to the second stage of Hongmeng. The twelve Hongmeng monsters who are only two hundred billion miles away from him are all mad and shocked. I sighed and screamed and shouted..."

The old man had heard it before. The main body of the temple, Ye Xuan, has a kind of \*\*\*\* magical power that can forcibly elevate the practice of a big realm, and there is no time limit. It seems that most of the reason is that this can not stay... ""

Yes, anybody grows up, and in time, I will be killed by him one by one..."

Let's join hands together, and as he has not grown up, he will kill it today! "

"Roar!""

Oh..." with

With the exclamation sounding, the twelve honours and geeks reached a consensus in an instant, and they would join forces to kill him when he was not fully grown up. he

They were really scared, on the one hand because the wolf was bombarded, on the other hand, because Ye Xuan's repair speed was too alarming.

Even in the heavens, a small breakthrough requires a long time. and

After arriving at the Hongmeng Avenue, if you want to break through a small step, the time required will be even longer, and it will last for more than 100,000 years. but

Ye Xuan has just broken through, just a big fight, a time of a fragrant incense, the original has not yet been solidly cultivated as a realm has been very solid, even from the first step of Hongmeng to the second step of Hongmeng. This

Everything is not even enough to describe the miracle, let them envy the hatred, and the heart also gave birth to a strong fear...

The current Ye Xuan is only the second order of Hongmeng. Although it is stronger than them, there are still possible killings under the cooperation of the 12-level first-order Hongmeng.

But if you give Ye Xuan a little time, let him grow to the third level of Hongmeng, and even the fourth stage of Hongmeng... In time, even if they join hands, it is impossible to be Ye Xuan's opponent. and

If it is alone pointed out by Ye Xuan, a big battle will definitely be the result of this fall, even a little careless, it may be hit by a hit! he

They all lived in the endless years of existence, and this is the end of this Hongmeng era, and the mid-term is about to come.

It's just a retreat from the ninth-order grand perfection of the Tiandao Peak. After hitting the Hongmen Avenue after the Heavenly Road, it took a long time of millions of years. can

To say that for life and their own cultivation, they are more cherished than anyone else. More

It is a strong existence that is more afraid of death. This sentence is not unreasonable, because the more powerful the existence, the more suffering it has experienced, and the more natural it is even more cherished...

In their eyes, today's Ye Xuan has become a big worry, the real eye nails, in any case, today must join hands to kill, otherwise it is difficult to sleep! "

Roar.....""

Hey! "

"boom!"

"Booming..."

These thoughts flashed through the brain. Twelve powerful Hongmeng grotesques were all moved. There were both old and strange beasts, and there were no beasts. Although they were different in body shape, they were all horrible. Even the strongest people in the sky face this supreme terrorist pressure, they can only shake and shake, absolutely can not compete...

In the whistling whistling of the sky, the voids are rapidly collapsing, and the rumble of the thunder resounds in all directions, and the void within a trillions of miles is completely shrouded in chaos and violent raging power, and there is no visible at all. Any scene, the twelve powerful Hongmeng strangers gathered from around, surrounded Ye Xuan, and launched a horrible war of unprecedented history...

This scene is too striking, just a melee of thirteen people, but the air machine is raging and chaos a vast void of tens of billions.

The parties in the distance who looked up and looked forward to the situation and the scared people almost fell to the ground on the spot, without hesitation, and turned around. he

They were three or four billion miles away from the empty space where Ye Xuan was located. Today, they still feel that they are not safe. They retreat again until they are seven or eight trillion miles before they stop their bodies. Looking at the color of fear, looking back at the virtual battle behind him.

The original tens of thousands of eccentrics who had just retired to tens of billions of miles were even more scared and almost urinated on the spot.

This is the melee of the thirteen honours, the violent violent raging degree is too alarming, the melee is as wide as trillions of miles, and the edge is already near them. If they are slightly careless, they will be smashed. . This

Some of the old monsters started a scuffle, and the strength of the body was all pushed to the extreme. Even if only the rest of the force was blown on them, the result must be that they could not kneel down. The serious injury on the spot was the meaning, even if it was not fallen. No possibility... this

In this case, no one wants to encounter the shackles of the fish. The thousands of sacred beasts and the widows of the survivors also did not hesitate. They turned and retreated in the first time, until the distant voids of three or four trillion miles. I stopped my body and turned around again.

Although they are scared and worried that they are being blamed, but three or four trillion miles away should be considered a safe distance. After all, they are all heavenly and strange, although they are far from being comparable to Hongmeng, but they are not true. Weak as small as an ant.

What's more, this kind of battle at the level of Hongmeng, especially the full-scale melee under the full force of the thirteen people, is equally amazing for their enlightenment. Such as

This opportunity is a chance for them. When the retreat in the future will affect the Hongmen Avenue after the Heavenly Road, it is very likely that they will benefit from this war and get more insights...

Therefore, although they have some horror in such a war, they will never miss it. Even if there is a certain danger, they will certainly stay in the distance, with awkwardness and excitement, far away...

"Roar!"

"Hey!"

"Hey..."

"boom!"

Rumble..."

In the void, the skyrocketing arrogance and screaming came from time to time, and the rumble of thunderous rumbling continued, and never stopped for a minute or two. although

However, this battlefield of 10,000 trillion miles can't be seen, but only by the sounds that can be heard in the ear, and the chaotic violent atmosphere in front of the sky, we can imagine how amazing this battle is.

The entire vast air-empty air machine was too violent and chaotic, and even the void was constantly collapsing, and then quickly under the influence of the powerful force of the emptiness of the law. Following

And once again, because of the madness of the melee, it collapsed, re-healed again, and re-emerged...

Time is slowly passing, everything is going on, chaos and violent, no one knows exactly what the details of the war in the chaotic void of this piece of trillions of miles away.

But one thing is certain, that is, Ye Xuan, the master of the temple, is still alive, and he is alive and well. Otherwise, the momentum of the war may not always be so amazing.

"Hey..." No

Unconsciously, three days have passed, and at this moment, the central area of the violent battlefield of the air and the violent, a sudden screaming. tight

Then it was Ye Xuan's excited voice of the gods, revealing the endless arrogance of the arrogant hegemony: "The first change of the konjac is changed... the third step of Hongmeng!"

Oh..."Three

The sky has passed by, and this horrific battle in this Hongmen era is still unprecedented. No one knows the specific details of the war, but it may be determined that the Lord of the Temple is still alive, and looks like It's alive and well, otherwise the battle may not be so amazing..."

Roar....."

Suddenly, in the central area of the violent battlefield of the air, there was a terrible scream. tight

Then it was Ye Xuan's excited voice of the gods, revealing the endless arrogance of the arrogant hegemony: "The first change of the konjac is changed... the third step of Hongmeng!"

Oh..." with

With the sound of the gods falling, Ye Xuan once again made a mad sigh, the breath is even more amazing, more than the previous arrogance, too much, because at this moment he has entered the second step of the previous Hongmeng Hongmeng third order...

When he just showed his body shape from the ten-color flame ball, Ye Xuan just broke through smoothly, and the realm has not yet stabilized.

At that time, he could not activate the \*\*\*\* magical power of the konjac, because he had just entered the Hongmeng, and the invisible power of the emptiness outside the Baoding was still changing his knowledge of the sea and the body of the treasure. The process is slow and long, and it is far from over...

His physical strength at that time was only a true match with his real realm, that is, the first order of Hongmeng, although he could forcibly activate the \*\*\*\* magical power of the konjac.

However, because the physical strength of the body is not enough, even if Ye Xuan can display the second-order power of Hongmeng, I am afraid that it will not last. It is very likely to have a certain impact on itself, because the body can not withstand the power of this level...

Come, after the fierce battle between the half-column and the enchanting time, the realm of Ye Xuan's breakthrough has been stabilized. Although it is still unable to display the first change, it is only the activation of the konjac, but it is completely There is no problem, so for this reason, his cultivation has also surged to the first level, reaching the second order of Hongmen...

And all this is already three days ago. This

In the past three days, the thousands of eccentrics that have been circling around the trillions of imaginary voyages, and the savage and savage people from the left bank of the forbidden land and the sacred land, although they can't see this. Specific details of the battle.

However, in the past three days, the width of the squad has reached a fierce battle of tens of billions of miles, but the air machine has been violent and chaotic, and the momentum is terrifying. only

With this in mind, it is enough to imagine the amazing degree of this war of the world.

Ye Xuan has never fallen into the wind. After all, he has the second-order power of Hongmeng. This is an absolute advantage.

But in this battle, he is not facing a few old monsters, but a whole twelve.

These old guys are all living in the ancient existence of a long time, not only a variety of blood and magical means, but also the fighting experience is so hot and irritating.

Therefore, in the past three days, Ye Xuan has been alone in manpower and warfare these twelve old guys. Although he has never fallen into the disadvantages, he has never had the upper hand. The battles in the past three days have almost remained at the same level. double

Fang, you come to me, each has a wound! and

For Ye Xuan, this kind of hearty battle is undoubtedly the one he most desires. Only by this kind of tragic killing can he make his own transformation speed to the extreme...

Now that three days have passed, Ye Xuan has several injuries, but he is more and more brave, and the speed and extent of growth is simply horrifying.

It was at this moment that when he turned his head out of the first horror, he broke through to the Hongmen Avenue and knew the extent of the transformation of the sea and the body of the body. He was finally able to withstand the third-order terrorist power of Hongmeng.

When this confession was quietly raised from the heart, Ye Xuan did not hesitate. At the first time, he turned the blood of the konjac that had been activated before, and showed it to the first change. With

With the arrival of the first change, his knowledge of the gods, the power of the flesh and blood, and the cultivation of the meridians in the body, all of them suddenly soared...

When his voice of God is degraded and a second horror is made, Ye Xuan is no longer the second order of Hongmeng, but the supreme existence of the third order of this place. again

Further, you can enter the fourth-order environment of Hongmeng!

Of course, this is not his own real cultivation. The real realm of his own cultivation is still only the first step of Hongmeng. Everything is only realized because the magical power of the konjac has been transformed into the first change. but

There is no difference in this because the combat power is real and there is no time limit. As long as Ye Xuan is not exhausted, as long as he does not dispel the \*\*\*\* magical power of the konjac, he now has the third-order terrorist power of Hongmeng. Will always exist!

For all of this, Ye Xuan has already expected, in fact, whether it is the battle between the previous and the wolf, or today and the chaos of these twelve Hongmeng, Ye Xuan is deliberate. This

Everything is in the middle of his heart. He originally wanted to speed up the process of transforming himself into the sea and the whole body of the body as much as possible through such a war...

But for everyone else, everything is amazing. first

Before the battle with the wolf, the former Ye Xuan entered the second step of Hongmeng from the first step of Hongmeng in a short period of time. Only that time, it has already made all parties grotesque, now with The twelve honours of his chaotic and fierce battles, it is for this reason that he took the initiative to slap his teeth and vowed to join him in today's town.

Today, after three days of unsuccessful battles, Ye Xuan has not been suppressed, not only has not fallen into the wind, but even as it was three days ago, it has once again surged a first-order repair, which is simply Calling people speechless.

When his second arrogance came out, revealing a strong and clear-cut atmosphere of the third-order pressure of Hongmeng, the distant place had already retreated to the thousands of heavenly monsters and the number more than hundreds of millions of miles away from the void. Many parties are versatile and ridiculous.

After the body shape and shock, the face changed greatly, and then, with the sound of the cool air that sounded like a tidal wave, these old guys almost all exclaimed, with a trembling tone. Endless fear of fear...

"Hong Meng third-order! The pressure of the pressure in this arrogance is definitely the third step of Hongmeng. It is much stronger than the previous first mania."

"What happened? What happened? In just three days, the master of Ye Xuan, the master of the magic hall, broke through again and directly violently smashed a small step. From the previous Hongmen second step into today's Hongmeng Third order, this is almost a human life..."

"The konjac has changed! It turns out that the kind of anti-sky \*\*\*\* magic that he has mastered is called the konjac, and now, the main lord of the lord, Ye Xuan, is only the first change..."

The first change has already made his cultivation strength a direct rise to a small step, then the next second change, the third change? "

"Isn't that every change can make a small step of repairing? This is simply thinking about it..."

The konjac has changed! It turns out that the anti-sky \*\*\*\* magic that he has mastered is called the konjac, and now, the Lord Ye Xuan, the master of the temple, is only the first change..."

"The first change has already made his cultivation a direct increase in strength, then the next change, the third change?"

"It's not going to be able to make a small step in every change? It's so scary..."

The second madness of Ye Xuan rang out, revealing the strong and clear-cut atmosphere of Hongmeng's third-order pressure. In the distance, it has already retreated to the thousands of eccentrics and quantities more than hundreds of millions of miles away. Many parties and the ruins are suddenly shocked!

All the people were in shape, and then they changed their face. Then, with the sound of the cold, the old guys almost all screamed and shivered in the tone. Endless fear... this

Everything was too ridiculous. They did not expect the Hongmeng avenue after the Heavenly Way. They could use this kind of anti-skyistic magical power to forcibly improve their cultivation.

Moreover, just the first change, the main body of the temple, Ye Xuan, has the third-order horror cultivation of Hongmeng.

Under this circumstance, if there are more changes, then will his cultivation be the strength of the road to the success of Hongmeng's ninth order?

If this is the case, in this vast and innocent Hongmeng void, who else can be his one-of-a-kind... After all, the only remaining 12 honours on the left bank are all the first-order repairs in this world. ! This

It's definitely a big horror. Even the thousands of grotesque and all the powers and the ridiculous people in the distance around the sky are aware of it. The 12 honours that are in the midst of fierce battle with Ye Xuan naturally come to mind. .

When Ye Xuan's second screaming sounded, revealing the strong and clear-cut atmosphere of Hongmen's third-order pressure, the reactions of the twelve honours were even stronger, all of them exclaimed, even their tone. There is a sense of trembling in the middle...

"Damn, what the \*\*\*\* is going on? In just three days, his cultivation has once again skyrocketed, and he has soared a small step, so I will be degraded here..."

"What is the konjac change? The \*\*\*\* power that I have never heard of, the power can actually go against the sky, and it is effective in the Hongmeng Avenue. How did this guy do it..."

Just the first change, it has already allowed him to have the third-order cultivation of Hongmeng. If it continues to develop afterwards, if there are more changes, I will have no more life! "

"That kind of situation should not appear in a short time, otherwise he will have entered the second change now. Although this kind of blood and power is going against the sky, there is some kind of restriction that I don't know after all..."

"In any case, I can't let him grow anymore. I can still barely squat under the third step of Hongmeng. After all, I am still in the early stage of Hongmeng, but if I come back to the second change, I will enter the fourth-order environment. There is no hope..."

Yes, no matter what, today we must kill this son, and our time is probably not much. The friends of the Tao, can no longer hide, the most powerful magical powers and means are displayed, this is a desperate, today Don't kill this cockroach, even if I wait to escape, I will find it in the future and clear it one by one..."

"Get out of the way...kill him!"

Roar! "

"Hey!"

"Hey..."

boom! "

"Booming..."

Aware of the crisis, these twelve Hongmeng blame all screamed and screamed, and then the sound of thunder and thunder from the vain and fierce battle of the tens of billions of miles was easy for a moment.

Obviously, the urgency of the hearts of the twelve old guys is even stronger. I feel the crisis of life and death. Now I will not have half a hand to stop, and show the strongest magical powers and means. I only want to use Ye Xuan... Town. Kill the spot!

In the void, the roaring sounds, the twelve old guys rushed up again, each of them used the strongest means to launch a siege on Ye Xuan. gas

The machine was too fierce. The previous 13 people were in a mixed battle. The huge void of the disaster was only about 10,000 billion in diameter. Now the scene is even more amazing. Nothing can be seen within two trillion miles. Only the violent energy is raging. It's irritating and shocking.

"Roar!"

"boom!"

"Booming..."

In the face of this scene, Ye Xuan Yang's hair was horrified, and the body shape ushered in, and the strength of the body was pushed to the extreme, directly punching out...

Today, he is still a violent form, with a huge body size, activates the \*\*\*\* magical power of the konjac, and also casts the first change, so the strength has reached the third level of Hongmeng...

The people of Hongmeng, who were besieging around him, were only able to cultivate their strengths.

The gap between each other is too great. Although the third-order grotesque is full of blows, it is still impossible to ensure that the first-order grotesque can be directly bombed, and it will fall. But if it is bombarded with a porcelain, it will be seriously injured. It is hard to avoid.

For this reason, with Ye Xuan's fist blasting, several of his positive humours were all eclipsed, and his body shape suddenly stagnate, stopping in the void and defending. "

Boom..."Giant

The sky was blasted, and the void exploded. A huge black hole collapsed. One of the sinister beasts was blood-stained and directly injured.

However, he quickly retired, and the position of the original lame was filled by another singer of the singer of Hongmeng, so that Ye Xuan missed the opportunity to pursue the victory and kill him.

"Damn, the power of the third-order of Hongmeng is really terrifying. You must not be in a mess..."

"This level of power can not be strong, I can not directly resist from the front, can only be restrained from the side, the front of the Taoist support themselves while trying to contain his power, the other Taoist all-out shot, as soon as possible to kill... ..."

"boom!"

"Booming..."

The violent violent amount of a fist shocked everyone, and the screams of the old screams gradually heard the exclamation, even if the strategy was changed.

In the face of the third-order of Hongmeng, that is, the power of the peak in the early days of this situation, they simply cannot face the hard-working and can only find opportunities to shoot from the side. but

In any case, Ye Xuan's front must have several old monsters to contain his strength and attention.  
Correct

For Ye Xuan, this is enough.

He is not in a hurry to kill these old guys at once. After all, it's a strange old man, and all of them have lived in endless years. It's too difficult to be entangled. Kill the opponent with one blow.

Therefore, Ye Xuan's current goal is to use the old guys as a sharpening stone, to temper his own body with \*\*\*\* battles, and to improve the speed and progress of his own transformation as much as possible.

His goal is to change the second change of the konjac. As long as the second change is successfully carried out, he will become the fourth-order of the second step and enter the middle of the situation. At that time, it will be the end of the old guys. Up...

"boom!"

"Roar!"

Oh..."

"Booming ....."

In the air, the earth-shattering roar sounded, and there was a madness and screaming in the air...

The battle between Xuan and the twelve Hongmeng monsters has already entered the level of white-hotness. The vast void of two trillions of people has been completely shrouded in violent and chaotic energy. Nothing can be seen, only terror. The energy is raging! Do not

Unknowingly, this thunderstorm lasted for three more days.

The recent three days of the game have been completely different.

In the three days before the opening of the war, Ye Xuan only activated the blood of the konjac, and did not show the first change. that

When he cultivated his strength, he was the second-order of Hongmeng. One person was alone in the first stage of the 12th Hongmeng, and he still lived the almost endless years of Hongmeng. The overall strength of the two sides was basically the same, and the three days of the war were always equal. They have not gained the upper hand. but

In those three days, Ye Xuan undoubtedly gained a huge amount. Through this kind of shocking battle, he has been honing himself, and the process of transforming the sea of sea and the body of the body after the breakthrough of Hong Mengjing has been promoted. The ability of Hong Meng's third-order power.

In the end, Ye Xuan successfully cast the \*\*\*\* magical power of the konjac to the first change, and cultivated the first step of strength, thus having the power of the third order of Hongmeng.

Since then, this \*\*\*\* battle has continued, and now it is three days. After possessing the third-order cultivation of Hongmeng, Ye Xuan and the 12 first-class Xiu Meng's old monsters are in a fierce battle. The previous three days, obviously it is completely different...this

For three days, the balance of the battle has been tilting, leaning toward Ye Xuan.

This is the meaning of what it should be. Now he is the third-order cultivation of Hongmeng. It is the peak of the initial stage of this situation. Once again, there is a small-order breakthrough that can enter the middle of Hongmeng.

If you really want to say that you are alone, these twelve Hongmeng blame are not his opponents. Under the positive war, they will be killed in a short period of time.

Although all of them have shown the strongest means, closely cooperated and attacked Ye Xuan, they are almost seamless, but today's Ye Xuan is simply a tiger into the flock, no matter which direction he rushes to. If the red monster in this direction does not withdraw from the situation, the result will be like the lamb of the tiger, and this cup! thing

In fact, the reason why these twelve Hongmeng blame persisted for three days was only suppressed, and there was no one fallen. This is the result of Ye Xuanzhi's absence.

His purpose is to use the old guys as a sharpening stone, to temper his own body with \*\*\*\* battles, and to improve the speed and progress of his own transformation as much as possible. he

The reason why the entanglement with these old guys is to go to the second change of the konjac. As long as the second change is successfully displayed, he will become the fourth-order of the second step and enter the mid-term.

By then, the trouble of these old guys is really big, Ye Xuan easily shot, a positive blow, you can ensure that one is killed! Such as

Today, three days have passed, although he just reached the level of ability to bear the third-order power of Hongmen three days ago, and smoothly transformed the blood of the konjac into the first change... Counting, time is really short!

However, in the past three days, Ye Xuan has been fighting all the time. Sometimes he can avoid the attack of a certain old man, but in order to sharpen himself, he still chooses not to evade, bite his teeth and resist...

Only the iron and blood temper and test are the best for the promotion of his own understanding of the sea and the physical transformation of the body. for

As soon as I can make my own knowledge of the sea and the physical body to the extent that I can bear the fourth-order power of Hongmeng, Ye Xuan is desperate to use all opportunities as much as possible...

Unconsciously, with the continuation of this \*\*\*\* battle, his strength in understanding the sea and the physical body is rapidly rising. Nowadays, the extent to which he can bear the fourth-order horror of Hongmeng is only one line. Separated. This

Everything, Ye Xuan is full of fire, knowing that the final impact is coming, his shackles are flashing, the power of the body is pushed to the extreme in an instant, and a screaming roar is raised on his head.

.....

"Roar.....""

call out! ""

Rumble..."

After the snoring, it was followed by a unknowable sound of breaking the air. The huge temperament of the tens of thousands of miles directly cast a teleport, and blinked to the back of a sinister beast. boom.....

Before and after, this scene in the long history of this Hongmeng era is very likely to be unprecedented in the unprecedented war, Ye Xuan has never been used to teleport. he

The purpose is to sharpen the body, instead of killing the enemy as soon as possible, destroying the opponent, naturally there is no need to cast a teleport.

For this reason, the six days of \*\*\*\* battles, the twelve Hongmeng monsters who have been besieging him all the time, have been as conditioned, and have never thought that Ye Xuan will suddenly teleport at this moment. This

Everything was caught off guard, and when everything happened, the old guy who was shocked was not able to respond. Be

He locked his body and air, and directly teleported to the old guy behind him. It was with the wolf that he forced Ye Xuan into a near-dead black-and-white crocodile.

Although this old guy is violent, a huge crocodile tail is extremely amazing. Under the smashing of the tens of millions of miles, the void will collapse. but

In fact, his character is extremely cautious. This

After six days of fighting, the black and blue crocodile had several shots from the side to Ye Xuan in the close range, but he often went back and forth, and he would not be too risky.

Even so, four days ago, he was inadvertently scratched by a boxing blow by Ye Xuan. The huge figure of Panda's huge body was already stained with blood. Looking at the faintly stunned. Such as

Now, after realizing that the crisis is approaching, absolutely related to life and death, the whole heart of the black-blooded blue crocodile has mentioned the eyes of the blind, and there is no hesitation in the light, and it immediately responds..."

Roar! ""

Rumble..."

At the same time, the huge crocodile tail behind his stock swept directly, and the root of the crocodile tail was broken at the same time, losing the shape of the giant tail, but like a string of arrows. In general, the speed is rushed forward.

Too bad, too savage! old

The guy knows that he can't get rid of Ye Xuan's full blow. In the most critical moment, the strong man broke his wrist. The huge crocodile tail pulled off his body and swept toward Ye Xuan. and

His deity, taking advantage of this opportunity to pull forward, in this almost self-harmful way, imagining to escape from Ye Xuan's hands, survived..."

If this is the case, you will be able to escape, this temple is still today... What is the face? "

Seeing this scene, Ye Xuan The thunder of the thunder, directly to his crocodile head... This

A blow, Ye Xuan exhausted all efforts, the black blood blue crocodile is destined to be unable to resist, will be ... fallen here!

## Chapter 5165: Mid-avenue

"If this is the case, you will be able to escape. This temple is still today... What is the face?"

Realizing that the crisis of life and death is approaching, the black-blooded blue crocodile has broken the crocodile tail and has swept away from Ye Xuan. His body shape is taking advantage of this opportunity to directly rush forward.

This is clearly to escape! leaf

Xuan naturally will not let go of this, the savage mouth has a scornful voice of the gods, and the squats are flashing again, the figure has suddenly slammed out...

Too fast, blink of an eye behind the black blood blue crocodile, the punch of a punch with a thunderous sound, directly to his crocodile head. This

One blow, Ye Xuan has done his best, the black blood blue crocodile is destined to be unable to resist, will be degenerate...

It is true!

"Booming..."

"Hey!"

The roar of the sky sounded without suspense, facing the full blow of Ye Xuan, the black-blooded blue crocodile who was escaping from the embarrassment encountered an ominous moment in an instant, his body was completely bombarded, and it became a \*\*\*\* fog. And open.

The same is true of the huge crocodile tail that has arrived at the back of Ye Xuan. In this violent storm, it has become a \*\*\*\* fog. "

call....."

The blood mist formed by the burgeoning of the black blood blue crocodile was spread, and the violent temper had already waved in the first time. The whistling sound of the whistling wind rang out, and a huge invisible invisible screaming away. Virtual

The \*\*\*\* fog that was spreading around was suddenly swept away, and he was directly sent to the bottom of the central volcano in the Dingnai space, where he began to condense blood.

Of course, at the same time, there are some compressed liquids of the heavenly source, as well as some treasures of Tianjiu Avenue, and some top-level cultivation resources that may not be available even in the hands of Tiandao.

These were originally the home of the black-blooded blue crocodile, the most precious cultivation resource in the hands of Hongmeng, but nowadays, with his fall, they all fall into the hands of Ye Xuan. It is an extra harvest, and it is worth a lot. Was admitted to the body by Ye Xuan...

At this point, this shocking \*\*\*\* battle lasted for six days. Ye Xuan's hands smashed another singer, and the thirteen honours of the left bank of the Galaxy, after falling two people in just six days, now there are only 11 It is. and

For Ye Xuan, he killed the two wolves and the black-blooded crocodile, the meaning of the two monsters, in addition to finally removed the two enemies, and harvested two precious Hong Meng blood, and the number The high-quality natural source of the heavens, the treasures of the Tianjiu Avenue, and other kinds of top-level cultivation resources that are not even in the hands of the heavenly lords...

More importantly, he has made a smooth breakthrough, and the process of recognizing the sea and the body of the body after entering the Hongmeng Avenue has been promoted as much as possible.

Three days ago, his strength in recognizing the sea and the body of the body has changed to the extent that he can withstand the third-order power of Hongmeng. At that time, Ye Xuan succeeded in activating the konjac and the blood. A change, this has the third-order horror of Hongmeng.

Nowadays, this \*\*\*\* battle lasted for three more days. When the second black-and-white crocodile was smashed by Ye Xuan, his process of understanding the sea and the physical body of the body finally reached A new height has crossed a new node.

Now he, whether it is the strength of the sea, or the strength of the body of the body, has been able to withstand the fourth-order terrorist power of Hongmeng..."

Oh..." brain

After flashing these thoughts, Ye Xuan was very excited. Although the third and fourth orders are only a small difference, the meaning is completely different. The third order is only the beginning of Hongmeng, but the fourth order has already entered the middle of Hongmeng... This

For a moment, in the central area of the violent battlefield, there was a terrible scream.

Then came the sound of Ye Xuan's incomparable sensation, revealing the endless arrogance of the arrogant hegemony: "The konjac changed into the second change! Hongmeng...fourth order!"

Roar....."

As the voice of the gods fell, the violent form of Ye Xuan once again made a maddening. before

The last two arrogances, the time is just a short break, but in comparison, the arrogant voice that followed, but the distinct atmosphere is even more amazing. ultra

After the previous arrogance, there was too much arrogance, because at this moment he has entered the fourth step of Hongmeng by the previous third step of Hongmeng...

The fourth order of Meng is the middle of Hongmeng. The meaning is completely different from that of the third order. It is not the same! This

Everything is so amazing, the vast void around the world, in an instant, under his arrogance, suddenly a quiet...

Six days ago, Ye Xuan and the wolf battled a battle, and within a short period of time, they entered the second stage of Hongmeng from the first step of Hongmeng. Hong

The cultivation of the Mengjing was so fast that it was so fast that it was beyond the expectations of all people. At that time, the parties were already stunned!

At that time, the twelve honours who were fighting with him and chaos, and for this reason, realized that Ye Xuan's hardships could even be said to be terrible, and this was the iron fist, and he vowed to join him in the town. herein. but

The facts did not develop as they imagined. Twelve old guys besieged Ye Xuan. This episode of unsuccessful battle lasted for three days. Ye Xuan was not suppressed, not only did not fall into the wind. Even as it was three days ago, it was once again a step up. Shun

Lidi has turned the blood of the konjac into the first change, and has since then possessed the third-order terrorist strength of Hongmeng.

Nowadays, the war lasted for three more days. Ye Xuan not only smashed a powerful Hongmeng monster under a punch, but even his own cultivation strength, and then skyrocketed again. in

In the second change of the konjac nine times, now he is the supreme existence of the fourth order of Hongmeng, and has become the only one in the vast expanse of Hong Kong today! this

At this moment, with the \*\*\*\* magical power of the konjac changed to the second change, when Ye Xuan's cultivation strength rose again, the second screaming sounded, revealing the strong and clear Hu Meng's fourth-order pressure. . far

The place has long since retreated to hundreds of millions of miles away from the emptiness of the thousands of heavenly grotesque and a large number of parties and the ridiculous, and they have changed a lot since the earthquake. tight

Then, like the sound of the tide, the old guys almost all screamed, the trembling in the tone, the endless fear, all shivering...

"God, the fourth step of Hongmeng! The master of Ye Xuan, the master of the temple, has broken through, and now it is the fourth-order environment of Hongmeng..."

In just six days, from the early stage of Hongmeng in the first-order situation, I entered the middle of Hongmeng in the fourth-order environment..."

Is the old man an illusion? This is too unreal..."

The horrible \*\*\*\* magical powers, the previous speculation confirmed that even in the Hongmen Avenue, the kind of anti-sky \*\*\*\* masters mastered by Ye Xuan, the master of the temple, is equally effective..."

"Every change can make one's own cultivation become a small step. Now that he has applied to the second change, it is already the fourth step of Hongmeng, and then develops like this..."

God..."

God, Hong Meng fourth order! The cultivation of Ye Xuan, the master of the magic hall, actually broke through, and now it is the fourth-order environment of Hongmeng..."

"In just six days, from the early stage of Hongmeng in the first-order situation, I entered the middle of Hongmeng in the fourth-order environment..."

"Is the old man an illusion? It's too unreal..."

The horrible \*\*\*\* magical powers, the previous speculation confirmed that even in the Hongmen Avenue, the kind of anti-sky \*\*\*\* masters mastered by Ye Xuan, the master of the temple, is equally effective..."

"Every change can make one's own cultivation become a small step. Now that he has applied to the second change, it is already the fourth step of Hongmeng, and then it will continue to develop..."

"God, I can't imagine..."

As the konjac's \*\*\*\* magical powers were cast to the second change, when Ye Xuan's cultivation was once again soaring, the second screaming sounded, revealing a strong and clear ambition of the fourth-order pressure of Hongmeng. far

The place has long since retreated to hundreds of millions of miles away from the emptiness of the thousands of heavenly grotesque and a large number of parties and the ridiculous, and they have changed a lot since the earthquake. tight

Then, like the sound of the tide, the old guys almost all screamed, the trembling in the tone, the endless fear, all shivering...

"The second change? The medium-term strength of the fourth-order situation is completely different..."

Engraved, the second change is completed, and the body of the konjac in the shape of a million miles, the breath of the atmosphere is so terrible that even if there is no intention to push it, it is invisibly transformed into a pressure, and this piece has been made. Hong Meng was in the void, slightly trembled a few times.

And Ye Xuan's voice of the gods also sounded at this moment, the whole piece of emptiness can be heard, revealing endless joy and excitement, more horrible. Say

In the end, Ye Xuan Yang's hair burst into a terrifying arrogance, and the breath was violent to death: "Don't you be besieging the temple? Don't go today, this one is enough to single out all of you..."

"Roar....."

The last channel of madness fell, Ye Xuan's body shape has disappeared in place, and instantly teleported to the right of the billions. With

The physique of the violent tens of thousands of miles appeared. In this direction, a singular singer of the sect of the sacred level was screaming in the air, and under the trepidation, he almost fell to the ground. distance

It's too close, but 200 million miles. Such a distance is definitely close to me in the closeness of the Hongmeng level. It's no different from melee.

At this moment, the survivor's grotesque simply couldn't wait to raise his hand to give him a big ear, and his intestines were green. He was too shocked and forgot to escape from the place at the first time. Such as

Although I have come to realize it now, everything is too late. He is only the initial cultivation of the first step of Hongmeng, but he is close to the figure in the middle of the fourth-order environment. There is no suspense, there is no life at all, as long as the other party shoots, he must be the rhythm of the fallen on the spot...but

Even if you know that you are not an adversary, you may want to let him give up his struggles and wait for it, but it is impossible. he

After all, it is also a Mongolian grotesque. In this Hongmeng era, in addition to the three thousand chaotic devils born at the beginning of the era, the entire era has now only produced thirteen...

No, it is now fourteen, because Ye Xuan, the master of the temple, just broke through a few days ago and entered the situation. but

With his breakthrough, the number of red monsters still on the left bank of the Galaxy has not climbed to fourteen, but only for a short time. tight

Then it continued to decline. After the wolf and the black-blooded crocodile were successively bombarded by him, the original number of the thirteenth of the left bank of the Galaxy was blamed. Even if it was counted as the owner of the temple, Ye Xuan himself had only 12 It is. and

And this number is very likely to fall again and then reduce one. This

The one who is about to be delisted is mostly himself..."

Oh..."

These thoughts flashed through the brain, and the old man was both surprised and angry, and his hair screamed with a terrible scream.

In the mouth, there is even more fierce voice of the gods: "Even if I die, you don't want to be better... burst! bursting burst..."

"boom!"

Rumble..."

The sound of his roaring screams in the end, the dead space in front of the mortal old man's body, immediately blasted the energy of a hood to the extreme. he

I have been cultivating myself for a long time, and I have been left in the body for a few treasures before the endless years... and detonated at the same time.

The survivors are different from the beasts. The beasts have almost no magic weapons. Their strong flesh is the best killing, but the benevolent is not only refining, but also refining, so any survivor is in the hands. A few pieces of satisfaction.

Now the deceased of this remnant is the kind of treasure in his hands.

Today, he is already the supreme existence of Hongmeng. Even if he got enough Tianjiu Avenue before the million years of age, when he entered the retreat, it was already the peak of the ninth-order grand perfection. .

And it is not the general peak of the past, even at that time, it has entered the peak of the desert for many years.

The existence of this level, the treasure that remains in the hands is extraordinary, and now it is a million years of retreat. With his cultivation as a breakthrough, he finally entered the realm of Hongmeng and became the supreme avenue-level powerhouse. He has always stayed. The various treasures that are cultivated in the body, the power can also rise, just like the sublimation and metamorphosis, the power is far from the past...

Moreover, in order to escape, in the detonation of several pieces of supreme treasure, this old guy even with the remaining Tianjiu Avenue treasure liquid, as well as some of the top cultivation resources like the liquid of the heavens, also detonated together. can

It is said that in addition to himself, all other foreign objects have been fully detonated at this moment.

The momentum is so amazing that the endless violent energy is exploding, and the void is rapidly collapsing, but it has not reached a deep level, so there is no temporary crack in the void that can't be repaired. when

Chu Ye Xuan had exiled one of the sinister turbulence cracks in the Hongmeng class. It was the two powerful giants of the wolf and the black-blooded crocodile who joined forces to make a full blow.

It's impossible to succumb to the extent that the survivor's blame alone ignited the energy of the outside world.

With the explosion of the horrific explosion, the figure of the remnant of the singer also used this recoil to turn into a faint man who surpassed the lightning speed, like a dog at home, fleeing in the distance.

It's really embarrassing and frightening, because this is his last resort. If you can't escape this way, it's hard to escape today, and it will become the third sect of the sect of Ye Xuan, the master of the Devil's Temple. .

Seeing this scene, Ye Xuan sneered, and the sound of Sen Han's incomprehensible voice also sounded, covering the entire vast void...

With the explosion of the horrific explosion, the figure of the remnant of the singer also used this recoil to turn into a faint man who surpassed the lightning speed, like a dog at home, fleeing in the distance. Look

In this scene, Ye Xuan sneered, and the sound of Sen Han's incomprehensible voice also sounded, covering the entire vast void: "The heart is absolutely fruitful, but this obviously has no meaning. Today you are doomed... !""

Rumble..."

boom! "shock

The roar of the sky sounded without suspense, and the voice was just falling. Ye Xuan had once again teleported, and after blinking his eyes, the remnant of the remnant who was escaping from the enemy had encountered ominous moments. His body was completely bombarded. Explosion, turned into a canopy of blood and spread. "

Call..."

When the blood mist formed by his body blasting spreads, the violent temper has already waved in the first time, and the whistling sound of the whistling wind rang out, and a huge invisible invisible screaming away.

Although he is only a strong benefactor, the blood is not enough, the \*\*\*\* fog formed by the explosion of the flesh can not be refined into a blood, but this is the blood fog of Hong Meng, for the beastmaster of Ye Xuan We have a lot of benefits, and naturally we can't waste it.

In the void, the \*\*\*\* fog that is spreading is swiftly swept away, and he is directly sent to the bottom of the volcano in the central area of the Dingnai space, and it is put away.

It is a pity that this time there was not some compressed liquid source of Tiandao, and some Tianjiu Avenue treasures were also spurred at the same time, because those who had already been detonated

by this legacy of the old people, which made Ye Xuan depressed, face In a moment, it is overcast to the extreme...this

He was very upset at the time, quite unhappy!

Even if a monster is killed on the spot, he can't let him down. Do not

It doesn't matter, there are more Hongmeng monsters here, and more than a few kills, the heart is naturally flat...

These thoughts flashed through my mind, and there was a cold flash in the moment of Ye Xuan's moment, and the coldness in the nose, and immediately turned to look around the void...

All of this is long-lived, but it actually happens between suffocation. There is another singularity between the blink of an eye. In just a few days, this is the third one. Under the circumstance, it is simply The creeps are stunned. four

The grotesque parties in the emptiness of the sky were immersed in the previous shocks, until they suddenly realized that they were suddenly awake, and all of them were stunned, and all the screams suddenly became like tides. Generally, it sounds overwhelming..."

God, what is this violent thing to do? In a short period of time, the three survivors have been smashed in succession..."

"The entire Mongolian squad on the banks of the Milky Way has only 13 thirties. Even if he just broke through, he only has 14 people. Now he has fallen three times in a few days, and only 11 of them are in the blink of an eye. ..."

The key is that the three are not worthy of the fall, not only from the hands of the same person, but also the people who have not yet suffered a half damage, so the combat power is simply heard, fierce to horrible..."

Looking at this posture, Ye Xuan, the master of the Temple of Devils, is clearly going to smash the rhythm of the Hongmeng blame in the presence. These thoughts are all over the body, and the glory of the glory is there. Killing prey, isn't the old man dreaming? "

"It's too horrifying. The anti-sky secrets in the hands of the Lord of the Temple are simply anger and anger. They are all as effective in Hongmeng. In a short period of time, they have a fourth-order environment.

"Now, among the eleven people who are on the scene, except for him, the rest of the ten are all just the first stage of Hongmeng. Even if they fight together, it is not his right. Ye Xuan, the master of the temple... This is really bad!"

"It's just against the sky. I'm waiting for the supremacy of heaven and earth. Now I'm facing him, but I can only retreat to the trillions of miles and tremble, and he's clearly stepping on the foot. The general rhythm of ants..."

"I am afraid that it is not just a heavenly way? Even if it is the same as his realm, now... Who can be the opponent of Ye Xuan, the master of the temple?"

Roar! ""

Hey! "

"Ye Xuan, are you going to be an enemy of the entire left bank of the Galaxy?"

Don't think that I am waiting for the existence of the left bank today, and tell you, I am just the first to be born and blamed..."

It's true that the peaks and miles that entered the retreat before the million years of age are far more than this number, even if only a part of them can successfully break through and enter the realm of nowhere, the Hongmeng monster on the left bank of the Galaxy is far more than double digits..."

"Even, as early as in the millions of years, before I entered the retreat, the two sides of the Galaxy had already existed, but I was lazy to understand the world. Now I have entered the sky from the heavens. How high is the height of the geeks before the million years ago, you can imagine..."

"While you have a fourth-order environment in the mid-term of the \*\*\*\* secrets, if the ancient humours are born, their cultivation may not be lower than you..."

"There are endless years in the strong forbidden land and the Xingqiang star field on the left bank of the Milky Way. Recently, this million-year load is only a recent period of time. The depth of the water on the left bank is far beyond your imagination. You are better to keep a low profile... .."

Yes, the depth of the water on the left bank is definitely not a sinister intimidation. Don't be too mad. Otherwise, if you bring out the old monsters before the million years of age, even if you are, you will be sad..."

"Teach you a sentence, don't provoke public anger, don't shackle yourself, don't be too mad, don't make mistakes..."

With all this in mind, I will not care about you today. If you continue to do nothing, he will kiss the bitter fruit of today..."

You don't have to talk to him any more, so you are waiting for Zhang's generation. In the future, he has his regrets. We are waiting to see the final result..."

Different roads, no difference, the Lord of the Devils... Don't ever! "

"Hey!"

"Hey..."

Oh..." with

These words sounded, and the only remaining 10 people in the void were not hesitating. After each screaming out of their hair, they immediately ripped a void crack in front of them and smashed into it. go with. and

The thousands of old geeks who have already retired to trillions of miles away are even more stunned after seeing this scene, and they are equally arrogant.

Just kidding, facing the supreme magic of Ye Xuan, the master of the demon temple, even the supreme existence of the Hongmeng level can only avoid its edge. After putting down a few words, they ran away with their tails.

In this way, based on their ability to cultivate the heavens and the heavens, what can they persist? This

At the moment, the hearts of the thousands of left-wing Tiandao old blame suddenly gave birth to a feeling of a dreamlike dream. When they first came, they also forced Ye Xuan, the master of the temple, to encircle. but

Nowadays, even the Hongmeng monsters that they dare not dare to provoke have turned around and fled! This

Everything has been transformed in just ten days. It's really a dream...

"call out!"

"Hey..."

Oh..."

In the void, the sharp and unpredictable sound of the air, and the crisp sound of cracking are constantly coming...

With the ten remaining Hongmeng monsters on the left bank of the Galaxy, the first to tear a hollow crack, and hurried away, the thousands of Taoist people who had already retired to trillions of miles, also responded. come.

Under the fear of their hearts, they did not dare to continue to stay here, with the complexities of the heart to the extreme, the feeling of incomprehensible, also tearing the cracks in the void, and leaving. he

They really don't dare to stay here, and even dare not go a little slower. complete

Actually, at the beginning of the incident, the thirteen honours of the left bank of the Milky Way did not come. They were the protagonists. More than a thousand days of eccentricity gathered around and forced the Lord of the Temple. although

He said that he was killed a lot, but other people are almost involved.

Now, in less than ten days, Ye Xuan, the master of the Temple of Devils, has entered another level, a level they can only look up to. If

It is the last remaining left-faced Hongmeng geeks who have not left yet. They have also entered the Hongmeng, and become the master of the imperial avenue, Ye Xuan, who is naturally not interested in finding them. Troublesome.

People can't see it at all.

However, in the face of his supreme magic, the fierceness of the sky, even the only remaining ghosts on the left bank of the Galaxy were timid. After putting down a few words to support the scene, they hurriedly fled.

In this case, if the grievances in the heart of the Lord of the Devils have not been vented, then they must be suffocated. do not

Seeing that they are crowded, there are still more than a thousand heavenly grotesque, but now they have entered the fourth stage of Hongmeng, and they have become the master of the magical hall in the middle of the avenue, even if they are More than a thousand days old monsters joined forces together, and it is impossible to be an opponent.

Even if it can't be supported for a long time, in a short period of time, it will be killed by a group of ants, the main lord of the demon temple, Ye Xuanwan, all of them are extinct...

In this case, if you still have the courage to stay here, then you are really impatient, so they all fled in a hurry, one by one can not wait to immediately fly wings away from this place...

Everything is long, but in fact, it happens very quickly.

From the first of the ten honours, the first one to tear open a void crack in front of him, and hurried away, all the heavenly lords who have already retreated to the left bank of thousands of miles away from trillions of miles away. Withdrawal from this place, the total time is only ten times.

It's not just this group of people who have offended Ye Xuan's Supreme Hongmen and Tiandao blame in this incident. In fact, even those from the left bank of the Milky Way have a strong forbidden land and a strong star field. The powers and the ridiculous geeks, all of them were stunned by Ye Xuan's previous savage and fierce stature. he

They did not tear away the void, but it did not mean that they had the courage to stay here, without tearing the void, because it could not be done. Place

The power and the absurdity are considered to be the real core high-level in the forbidden land and the survivors of the beasts. But now, the fourth-ordered environment of Ye Xuan, the main body of the magic hall, has been repaired in the middle of the period. The invisible horror of the horror enveloped this void. in

Under this circumstance, Hongmeng and Tiandao blame still have the ability to tear the void, but the power and absurdity under the heavenly path, under the invisible threat of deterrence and threat, has long been The ability to tear the void is gone, and it can't be done at all. but

They dare not stop. Virtual

Farther away, at least 10 trillion miles away, the reason why there is a dense and squeaky sound, like the tide, is that these powers and the ruins are like dogs, and they force the body. All the power, moving toward the darker and more empty, rushing away to bring the movement...

Although these powers and ruins are more numerous, they have already retired more than 10 trillion miles away. Now they are scattered and scattered. In fact, they are also working in a dozen times. One

In the blink of an eye, this void was completely deserted. half

Within ten trillion miles, it has already become empty and empty. Only the giant body with a shape of tens of thousands of miles, the flamboyant form of Ye Xuan, still calmly still squats in this empty central area. This

If a scene like this is seen by some star-studded people who just passed by at this time, it is absolutely impossible to think of it. Just before the dozens of interest, this piece of void is still very lively, not only tens of thousands of powers and ruins. The public, the heavens and the old blame are more than a thousand, and even the supreme avenues of Hongmeng have had more than 13...more

No one will believe that these thirteen sages are not up to the glory. In less than ten days, they have fallen three sects, and they have been able to let go of their slogans and rush to escape, but only ten! leaf

Xuan did not pursue. Do not

It is he who does not have this ability, but it is not necessary at all.

Otherwise, the old guys will continually tear away the void and escape, and after all, it takes a little more than ten minutes to get clean. Take

Ye Xuan is now horrible to the horrible cultivation of strength, if it is shot, I dare not say that they can all leave, leaving part of it can still be done. no

The number is the first one to escape the eternal blame, or the number is more, there are more than a thousand heaven and earth blame, all so. to

The great powers and the ridiculous people who have already retreated to the extremes of the 10 trillion miles away, with Ye Xuan's current level of cultivation and the height of their reach, simply can't afford any interest to pay attention to them... ..

The reason why he did not pursue is because the old guys have escaped, but for Ye Xuan, the result is that the monk can't walk the temple.

The left bank of the Milky Way is so big. In his current cultivation, the fourth-order horror of the middle of Hongmeng, from the end of the left bank of the left bank of the Galaxy to the end of the right bank of the left bank of the Milky Way, at most half a month. Time can span... or

Perhaps this group of Hongmeng and Tiandao blame will have some existence to escape to the parallel void to avoid the limelight, but that does not matter. because

The time for the opening of the Galaxy Star Field is coming soon. They can't always hide in the parallel void. Facing the opening of the Galaxy Star Field, even the Hongmeng monsters can't resist the temptation. complete

They gathered here, gathered on the left bank of the Milky Way, built a strong forbidden land and the Xingqiang star field, and consumed an endless period of time. Waiting for the Galaxy Star Field to open, so that they can enter it and compete for the next era. The purpose of the operation. and

As long as these old guys show up, Ye Xuan is now the horror of the first person in Hong Kong on the entire bank of the Galaxy. As long as he meets, he will be able to kill him...

Chapter 5166: Hunting Hongmeng

The war ended, all the sinister beasts from the left bank, the power of the sacred land, the ridiculous, the heavenly geeks, and even the only surviving sacred monks on the left bank, without exception, all fled .....This

In the First World War, Ye Xuan laid down the name of He Hewei, and the supreme avenues of Lianhong Mengjing were killed by him. The whole vast and innocent Hong Kong void, he jumped into the first person, there is no room for it. Doubt. Such as

Today's Ye Xuan, it is absolutely possible to tremble the entire Hongmeng void, wherever he goes, his feet are swaying, no one dares to provoke, he can only sigh and retreat...

But for Ye Xuan, this is not enough. he

After entering the Hongmeng Avenue, after experiencing this terrible battle, the speed of the process of transforming itself has been promoted under the circumstance of forced promotion. can

Even now, Ye Xuan, now only can transform the blood of the konjac into the second change. First

In the state of two changes, his peak is cultivated as the fourth order of Hongmeng, that is, the first time into the territory. From

In the current situation of Hongmeng Nether, it is obvious that there is such a fourth-order situation in the middle of Hongmeng's cultivation. After all, the only remaining ones after the birth of Hongmeng's void are now the only ones, all without exception. The initial stage of Hong Meng's first stage was only repaired. but

In fact, Ye Xuan was not confused by this kind of appearance, and it was not so arrogant.

He still has a sense of urgency and feels pressure. first

When the former ten surviving Hongmeng whispers left in a hurry, it was said that before the million years ago, they got the retreat of Tianjiu Avenue, when there was some ancient in the void. The red monster is there. when

At the time, these guys are just the culmination of the ninth-order grand perfection.

Nowadays, they have retired for a million years, and they have continued to make a breakthrough in the help of Tianji Avenue Baoji. They finally broke through and successfully entered Hongmengjing and became the supreme leader of the avenue...

Then, those super old monsters who were already in existence before the million years of age, are obviously stronger. Such as

If you say that the wolf and the black-blooded crocodile, etc., have been born in recent years, it's just the second batch of Hongmeng's emptiness, so before they, there is a more ancient first. Nothing to go to Hongmeng...

The batch of Supreme Hongmeng is still crouching and has not been born yet, but their cultivation is definitely more than the first step. According to Ye Xuan's deduction, the fourth-order and above-mentioned mid-term honours, even this realm The late existence does not necessarily exist.

Taking Ye Xuan's fourth-order environment into the middle of Hongmen's mid-term cultivation, it is indeed the first person on the banks of today's Hongmeng Void Galaxy.

But once the first batch of super geeks who had entered Hongmeng before the million years of age, he was the first person to win the title.

Therefore, before these ancient super geeks were born, Ye Xuan must make his own cultivation to a higher level.

This matter, for other Hongmeng geeks, may only be a kind of extravagant hope, even if there is a heart may not be powerful, but for Ye Xuan, it is not too difficult.

He only needs to continue to sharpen his own body with a big battle, and once he enters the speed of the transformation process after the Hongmeng Avenue, he will be greatly improved again.

Once the third change, the fourth change, and even the fifth change, each change, Ye Xuan's cultivation of strength, will thus rise to the first level..."

boom! ""

Rumble..."

Just as he was uncertain, his mind flashed through these thoughts, and when he fell into depression, the darkness of the far end was at the end, and suddenly there was a crying earth-shattering roar...

The sound is too loud, even if there is an endless distance, Ye Xuan can feel the emptiness around the figure, so he trembles a little... but

Everything quickly fell into silence, and nothing else happened, as if the scene just was just an illusion. "

what happened? "

Under the flash of the fine mans, Ye Xuan frowned and followed the strong sense of the fourth step of Hongmeng. The first time he turned to the direction of the low roar of Shicai, and quickly extended it.

Some investigations soon had results, and even Ye Xuan took a sigh of relief, and subconsciously screamed: "It is actually... Galaxy is inciting?"

Yes, it is indeed the Galaxy is inciting.

Just now, this vast and innocent, the Milky Way, which was surrounded by countless fierce beasts and the survivors' star fields on both sides of the strait, clearly trembled.

This feeling is like a kind of pulsation, as if the entire vast and innocent galaxy is alive, in the tremor of the sigh of silence, the body moved slightly. This

The situation has never been seen before, and what it means is no longer necessary. very

Obviously, the Galaxy has recovered and is about to open..."

It seems that the old eccentrics who have just escaped from the wolf, and the only remaining humilis on the left bank, should not avoid parallel voids at this time..."

After a sinking, Ye Xuan's mouth outlined a touch of smile that was quite interesting. Just like a nightmare, he whispered: "The old guys are crouching on the left bank of the Milky Way and the forbidden land and the survivors. The only purpose is to wait for the opening of the Galaxy..."

"Now the vast history of the Milky Way has suddenly been persuaded, indicating that the moment of the opening of the Galaxy is coming, and it is possible to appear at any time."

"In this case, even if there is a strong crisis, they must remain in the strong forbidden land and the strongest star field on the left bank. It is impossible to avoid parallel voids."

Otherwise, if you miss the opening of the Galaxy and enter the opportunity to compete for the next epoch, the wait for the endless years will be in vain..."

"call out....."

The thoughts flashed through his mind, and Ye Xuan was delighted. He didn't hesitate, his shoulders swayed, and the whole figure instantly turned into a man, spurting toward the left bank of the Milky Way.

He will continue to carry out the war and push himself into the process of transformation of the soul and the flesh after the Hongmeng Avenue, and push it again to speed up as much as possible.

Now, the third change of the konjac will be transformed as soon as possible.

Once the third change comes, his cultivation will once again skyrocket, from the current level of Hongmeng to the fifth step of Hongmeng...

For the current Ye Xuan, for the current Ye Xuan, it will not end in a short time, he will continue to fight, his own cultivation is the strength, will also be from the fourth step of Hongmeng, all the way to the fifth and sixth orders of this place, Even in the late seventh stage of Hongmeng, quickly promoted...

Of course, in order to achieve such an effect, the so-called Heavenly Taoist blame has not played any role in tempering him. After this departure, he went to the left bank. The target of the war he was looking for was only the ten left bank. Hong Meng weird...

On the left bank of the Milky Way, Hongjun is forbidden!

Hongjun's strongest person in the forbidden place was originally a \*\*\*\* natural bird. but

In fact, there is an ancient peak in the forbidden land that has brought enough Tianjiu Avenue to enter the retreat before the million years of age. This

The old guy is a red-blooded scorpion, and now it has broken through the customs. It is one of the thirteen \*\*\*\* people who have been born on the left bank of the Galaxy.

In the thundering battle of the endless dark void in front of the left bank, this red blood rush also participated, and was not killed by Ye Xuan, becoming the ten survivors, but hurriedly fleeing. One of the blame.

After returning to Hongjun forbidden land, this red blood hunter wanted to enter the parallel void for the first time.

The reason why I waited until I returned to the forbidden land and then entered the parallel void was because the parallel void was not so casual and could be found and constructed a solid and secret channel. where

I am afraid that I have found a weak node in the other areas and can enter the parallel void. I am afraid that it will be difficult to come back smoothly. It may be lost, I can't find a way to return, and if I can banish myself to endless Hong Meng is in a void.

Therefore, in general, no matter whether it is Hongmeng or Tiandao, they are firmly built into a safe parallel void. They are fixed and credible. They are basically forbidden or forbidden by the beasts they control. Deep inside the star...

"boom!"

"Booming..."

Just as this red blood hunter returned to Hongjun's forbidden land and wanted to enter the stable parallel void built by himself, the entire huge banned land suddenly trembled fiercely, and the dark void outside the forbidden land had more Unprecedented, strong, low, roaring, rumbling...he

The shape of the body was shocked. When I turned back and looked back, the powerful force of the gods was extended. When I probed it, I immediately shouted: "What? The Galaxy is instigating..."

This discourse is exported, and even if the red blood is in the sinking, the face is full of entanglement. he

Originally, I wanted to enter the parallel void to take refuge, but now this vast Galaxy has suddenly moved a little, and the meaning it represents is naturally well known. silver

The moment when the river starts can come at any time, he can't miss it... the most

In the end, the red blood of the red which is

Then he chased it, and he might not be staring at himself. After all, the old blame that had previously escaped was ten.

A similar scene is also happening in other Supreme Forbidden and Supreme Stars on the left bank. There are still nine places in the Forbidden and Supreme Stars, that is, the innocent dark void in front of the left bank. The ten honoured geeks who fled back, in the face of the temptation to open the Galaxy at any time, all chose not to avoid parallel voids.

Their hearts, all of them are lucky, stay in the strong forbidden land and the strongest star domain controlled by their respective towns, eagerly waiting for the opening of the Galaxy Stars...

"Oh..."

At this time, when the Red Blood Hongjun just rushed into the interior of the star where the Dongfu was located, the darkness of the forbidden land not far from here was a crisp and fierce sound.

Turning to the first look, the direction of the cracking sound, a hollow crack is clearly visible, from which a figure emerged, the body shape of thousands of miles, in addition to not long ago only recently seen the Lord of the Temple of the Lord Ye Xuan who else?

At this moment, with Ye Xuan coming here, the horrific pressure of the fourth-order territory in the middle of Hongmeng spreads away, and in an instant, the entire vast shackles are forbidden.

Countless forbidden beasts are all lying on the ground, shaking and screaming, even if they are all heavenly and eccentric. In the vast void in front of the left bank, they watched the fashion and was terrified across hundreds of millions of miles.

Nowadays, I feel the terror of Ye Xuan Hong Meng in the near future, and I can imagine how deep it feels...

"Hey..."

I don't see Ye Xuan, the red blood scorpion is mad, and her hair is screaming and screaming, and she wants to escape to the parallel void. "

late....."

Seeing this scene, Ye Xuansen's incomparable voice of the gods was heard in the huge violent mouth of the tens of millions of people. Then his figure swayed and he rushed to the stars in front. "

boom! "One

Under the boxing, the red house of Dongfu Star was directly bombarded, and the old guy who was trying to avoid the parallel void also fell from halfway. very

Fast, violent is approaching, the pressure from the body to lock his body air, forcibly pulled him to start a terrible battle...

The energy is too violent, the void is rapidly collapsing, the scene of the war is not visible, only a vast chaotic star..."

Rumble..."

"boom!"

After the time of the semi-column, the thundering sound of the screaming sounds no suspense, and the violent chilling flashes a moment and immediately punches a punch.

This boxing is the full blow of Ye Xuan. The red blood scorpion that has always escaped from the heart can't avoid it. He has been ominously in an instant, and the flesh has been completely bombarded, turning into a \*\*\*\* fog. One

The head of the powerful Humeng grotesque, in this short battle after the battle of the semi-column, facing the final full blow, in the violent overwhelming surplus, burst into a \*\*\*\* fog.

"Call..."

The blood mist formed by the explosion of the flesh was diffused, and the violent whistle was waved in the first time. The whistling sound of the whistling wind rang out, and a huge invisible gas screamed away. The pounds that were spreading around the void The \*\*\*\* fog was swept away.

He was directly sent to the bottom of the volcano in the central area of the Dingnai space, and he began to condense blood. except

In addition, at the same time, there are some compressed liquids of the heavenly source, as well as some Tianjiu Avenue treasures, and some of the top cultivation resources that may not be available even in the hands of the heavenly lords.

These were originally the home of the red blood, the most precious cultivation resources, but now with his fall, all fall into the hands of Ye Xuan. This

It is also an extra kind of harvest, and it is worth a lot of money.

After doing all this, Ye Xuan immediately felt the changes in the body, immediately frowned, subconsciously muttered to himself, like a nightmare, but revealed the endless sense of coldness: "It is still not enough, it seems that it is just a Hongmeng old Blame, the challenge is not enough..."

"Oh..."

When the voice just fell, he directly tore the void and left....

...

The fire is forbidden!

Sitting in this Xingqiang forbidden land, the red monster is a red glass fire. he

Originally, I also planned to enter the parallel void to take refuge, but in the end I made the same choice as Red Blood, and stayed in the fire forbidden land. thing

In fact, his luck is not as good as that of Red Blood. Because after killing the Red Blood, Ye Xuan rushed over here. This glass fire is the first of Ye Xuan's eyes. Hong Meng old strange...

Counting the time, from Hongjun banned to the fire like a forbidden land, Ye Xuan only used for a long time. This

In a short time, Ye Xuan was rushing from the ban on the full speed, so everything that happened there was not yet spread. eye

Next, the glass fire elephant is resting in the cave of the Dongfu, but it seems that suddenly it has sensed something, and the steep land has opened its eyes..."

Oh..."

Almost at the same moment, from the dark void of the forbidden land not far from the glazed fire in the cave, there has been a crisp sound of cracking...

Looking around, the direction of the cracking sound, a void crack is visible.

From this emptiness crack, a figure was drawn, and the body shape was thousands of miles. It was the main leaf of the magic hall that I had just seen most of the time ago. "

Roar....."

Seeing the arrival of Ye Xuan, the shape of the glass fire elephant was shocked. The whole person was mad, and his hair was screaming and screaming. He was calling all the heavenly sins in the forbidden land, and wanted them to stop for a moment. Time to escape.

But in fact, in the face of his call, the entire huge fire is like a dead field, but there is no response at all. This

At the moment, with Ye Xuan coming here, the horrific pressure of the fourth-order territory of Hongmeng was diffused and opened. In an instant, the entire vast shackles were forbidden, although there were dozens of heavenly monsters in the forbidden land, Nowadays, without exception, all of them are lying on the ground, shaking and shivering. Where can they dare to come forward and die? "

Oh..."

The result is that the glazed fire is like a smoldering smoke, and he screams again, and the giant nose smashes the Dongfu star underneath into a piece of debris, and then the body shape turns, he wants to smash this confusion, quickly Far away..."

Boom..."

Unfortunately, Ye Xuan's prevailing atmosphere has already enveloped and locked his body shape. He did not hesitate. With the violent slap in the middle of the cold, he immediately came to the back of the glass fire. Killing a blow, but what magical powers and treasures are not used, just a body, and the glass fire like a close fight. because

For this reason, it is most beneficial to him to promote the transformation process of his own soul and body, and the effect is the best...

The air machine is too chaotic, and the melee is shocking, but the duration is not too long. with

After only half a fragrant time, everything will stop.琉

The glass fire was not accidentally bombarded. The violent form, the huge shape of Ye Xuan, emerged from the raging raging temperament, but the look on his face was not happy, even arguably A bit gloomy. This

It is already the fifth honour of his hunter, even if the three slayers who started the smashing of the first time are not counted, just this time, he has already killed two blame.

The result made him quite depressed. Although the process of transformation of the soul and the flesh has been promoted to a certain extent, it has not reached the level of being able to smoothly display the third change of the konjac..."

Not enough, you have to continue hunting..."

Oh..."

In the whisper, Ye Xuan waved and tore a crack in the void, and stepped into it. The whole figure disappeared instantly and went to the next destination, where the sixth Honor would fall to him. Hand...

...green

This

It is not a strong forbidden land ruled by a beast, but a star of the remnant who is in the hands of the survivors.

Kai Ye Xuan is not counted, the left bank has been born in the past few years, the thirteen people of Hongmeng, the survivors and the beasts are all there. and

In this green star field, there is just one of the people living in Hongmen. This

The old singer of the survivors claimed to be the ancestors of the Qing dynasty, and the cultivation of strength was only the first step of Hong Meng. One

Before the day, after escaping from the vast and endless dark void in front of the left bank, the plan of the Qing ancestors was also within the parallel void, temporarily avoiding the limelight.

But I have to say that this time Ye Xuan is indeed very lucky. It is at this critical moment that the vast galaxy has never been shaken, and suddenly it has moved a whole. positive

It was this accidental incitement that the ten honours and eccentrics who fled at the time all changed their minds. They did not enter the parallel void refuge, all stayed within the forbidden forbidden and the supreme star domain they controlled. The Galaxy Stars are open at any time...but

It is unfortunate that the ancestors of Hongmeng in the Qinglan area are obviously the same as the red blood scorpion and the glazed fire that were previously killed by Ye Xuan. They have not waited for the opening of the Galaxy Star Field. , it has already arrived...

"Oh..."

The crisp and fierce cracking sounds, and in the depths of the Qinglan star field, suddenly there is a deep void crack, and a huge body with a huge length of ten thousand miles out of this void crack, murderous, positive It's a glass fire that just left the fire for a long time ago...

For the benevolent strong, Ye Xuan has never had much interest in hunting, at least not as strong as hunting the beast. but

This Qinglan star field is the place where the oldest inside of the fire-like ban is located in Hongmeng, and Ye Xuan's purpose is simply to find the battle of Hongmeng and the sudden transformation of the soul and the body after the sudden death of Hongmeng. , as much as possible to promote.

Therefore, whether the target object is a beast or a survivor, it is really not big. Place

Come... Ye Xuan! "

Oh..."

With his arrival, the entire vast green star field was quiet, and all the star-studded people were afraid to come out, but the green ancestor did not hesitate, and looked up and screamed. Under the scream, I want to escape the first time...

In the middle of the

"Booming..."

boom! "half

After the incense, the thunderous roar sounded without suspense. green

The old ancestors have been seriously injured. Basically, there is no fighting power. For Ye Xuan, if they lose their value...

Moreover, when Ye Xuan's offensive was slightly slow, the old guy turned and wanted to escape. No

There is hesitation, Ye Xuan directly casts a teleport, and the blink of an eye will be behind him. The young ancestors who are burying their heads and fleeing are not at all alive.

He suffered ominous moments in an instant, and the flesh was completely bombarded, turning into a \*\*\*\* fog and spreading.

"Call..."

The sound of the wind whistling through, and a majestic invisible gas screamed away. not

When the blood mist formed by his body blasting spreads, the violent temper has already waved in the first time, and the \*\*\*\* fog that is spreading in the void is swiftly swept away, and he is directly sent into the space of Ding. At the bottom of the volcano in the central area, it is put away.

Although this is only a strong survivor, the blood is not rich enough, and the \*\*\*\* fog formed by the explosion of the flesh cannot be refined into a blood.

But this is, after all, the blood fog of Hong Meng, and it is of great benefit to Ye Xuan's beastmasters, and naturally cannot be wasted. This

It is already the sixth honour of Ye Xuan's murder. In the past few years, the thirteen honours of the singer have been smashed by him. This

It's too amazing, as long as the news spreads out, the entire left bank of the Galaxy must be horrified...

The ancestors of the Qing dynasty were murdered. The thirteen honours of the left bank of the Galaxy have been smashed in the past few years. So far, he has been killed by nearly half, and there are six. This

It's really amazing, as long as the news spreads out, the entire left bank of the Milky Way must be horrified...

Before the six-headed Hongmeng, there were three heads that were previously killed in the vast darkness area in front of the left bank. The remaining three heads were Ye Xuan who hunted in the near day.

Now that the news has not yet spread, but once he enters the left bank of the Galaxy, the news of the hunts and hunts of the ten escaping monsters who had escaped, the remaining seven surviving humours, are likely to escape.

Of course, today's vast and innocent galaxy has already passed an unprecedented incitement, and the moment of opening up is always possible.

Even if the news that Ye Xuan entered the left bank to hunt Hongmeng, the seven old guys who still survived, could not avoid the parallel void in fear, and they crouched on the left bank of the Galaxy. The ultimate goal is that no one will make such a choice. but

Even if they don't avoid parallel voids, they can completely get out of the Xingqiang and Xingqiang stars that they control, so that Ye Xuan can't find them...

This is exactly what Ye Xuan is worried about. he

I have already hunted three Hongmeng monsters one after another, but the third change has not yet arrived. This makes Ye Xuan somewhat anxious. If the remaining seven survivors still escape, let him find no. Yes, Ye Xuan is estimated to be depressed...

Therefore, after the bombardment of the Qing ancestors, he did not hesitate, and at the first time he tore the crack in the void and rushed to the next target. This

The goal is not the sacred star field, but a fierce beast forbidden, called the magic dragon forbidden.

There was no dragon in the forbidden land in the forbidden land, but just two years ago, in the forbidden land of the magic dragon, the black gold dragons who had closed for millions of years went through the customs and successfully broke through to Hongmeng, becoming a powerful and incomparable Hongmeng strange, since then, the magic dragon banned the land is a real name. This

The head black gold dragon is the next target of Ye Xuan to be hunted...

...

The magic dragon is forbidden! "

Oh..."

The crisp and fierce cracking sounded, and a deep hollow crack suddenly appeared in the depths of the magic dragon's forbidden land.

A huge body with a huge length of ten thousand miles out of this void crack, murderous, is the temper that just left the Qinglan star field a little half a day ago...

As soon as his body shape appeared, this huge dragon was forbidden. In a moment, it was quiet. All the beasts and the beasts were holding their breath, and they were wide-eyed and shocked.

In the huge abandoned star hundreds of millions of miles from the right front of the void crack, there is a figure out of it.

It is the strongest person who sits in the forbidden land of this magic dragon, and the black gold dragon that was repaired by Hongmeng.

Although the strength of the black gold dragon is only a step of Hongmeng, in the past few years, among the thirteen Hongmeng monsters that were born in the left bank, it is a relatively powerful existence. Not too far away.

What's more, he also has an extremely powerful blood secret, even if this powerful blood secret method is motivated, it is absolutely impossible to become the opponent of Ye Xuan, who has now reached the fourth stage of Hongmeng. but

In the view of the Black Gold Dragon, he has such a powerful blood and secret method as a means of connotation. Even if he does not succumb to the Lord of the Temple, but keep his own life, there should be no major problems.

Therefore, at this time, seeing Ye Xuan suddenly came, he was equally surprised, but the reaction was completely different.

The three old guys who had been hunted by Ye Xuan, the red blood scorpion, the glazed fire, and the ancestors of the Qing dynasty, saw the emergence of Ye Xuan, the master of the temple, and the first reaction of the three old guys all turned around and fled. but

Nowadays, in the forbidden land of this magic dragon, the black gold dragon, the strongest person sitting here, did not immediately escape.

Of course, even if he escapes, it will not be successful at all. For this, the black gold dragon is obviously well-informed.

Instead of Lucy fleeing, in his view, it is better to use his strongest means to display, so that the owner of the temple, Ye Xuan, realizes that it is difficult for him to kill him, so that he will retreat..."

boom! "

"Booming..."

Oh..." right

Hundreds of millions of miles away from the side of the sky, the earth-shattering roar suddenly came, black

The huge and incomparable Dongfu star under the Golden Dragon suddenly exploded. With

After the star-studded blasting of the numerous fragments of gravel, the earth-shattering thunder and thunder, followed by a high-pitched sound of dragons...

The huge body of the road is soaring, it is full of 50 million miles. This is a black dragon, the whole body is dark, but the numerous dragon scales on the body are all shining brightly, just like black gold, blinking Very incomparable.

"The Lord of the Magic Temple, Ye Xuan?"

At the same time, the voice of the \*\*\*\* of black gold dragons also sounded, revealing the meaning of endless pressure, even more so, although dignified, but there is not much fear: "You are powerful, the deity It's not an opponent, but it's not very likely to kill the deity today..."

"Is advise you to leave early, don't waste your energy, after tossing it, finally... no return!"

It seems that you are quite emboldened, so good, and finally met a prey that can fight a smooth..."

In this scene, listening to the words of the black gold dragon, the violent face has shown the color of expectation. When the sound of the gods is heard, the corner of the mouth also outlines a very interesting smile: "So Now, let's see if you can take a blow from the temple..."

"Booming..."

The sound is still not falling, the violent figure has already rushed out, still no use of magical powers and all kinds of treasures, just a punch of a fist, simply blasted out..."

Oh..." This

At the moment, the whistling sound of the infinite whistle suddenly appeared in the void, revealing a kind of extremely secretive pressure, and the void was filled with the endless waves of fine scales...

The black gold dragon in the square flashed and slammed, and suddenly closed...

At one moment, the void in the tens of billions of miles has completely fallen into the darkness, not only affecting the vision, but even the exploration of the gods is only dark, as if nothing is there. In this tens of billions of emptiness, everything has disappeared. , turned into nothingness...this

It is the strongest blood of the black gold dragon, and it is clear. magic

This unique magical power in the dragon's blood is incomparably powerful and has a special effect. When the dragon is used and the eyes are closed, the world is dark, and when it is opened again, the white dragon will come again...

Soon, when Ye Xuan's fist slammed, the opposite black gold dragon had already opened his eyes, everything recovered as usual, and the violent punch that violently smashed out also directly penetrated the huge figure of the black gold dragon. , into a bubble, it collapsed and disappeared...

The eyes of the eyes closed, the body of the black gold dragon has changed its position, between the suffocation, let Ye Xuan this punch, all fell through!

Chapter 5167: Third change

"boom!"

leaves

Xuan banged out, and the opposite black gold dragon suddenly opened his eyes...

In the void, everything instantly recovered as usual, but the violent punch that Ye Xuan rushed out, when the huge figure of the black gold dragon was worn, there was a strange noise. black

The shape of the Golden Devil is in vain, and it collapses and disappears... This is not his true body!

A closed-eye blink of an eye, the body of the black gold dragon has changed its position, between the suffocation, let Ye Xuan this punch, all fell through! "

Despise it? A closed-eye effort, instantly changed everything quietly, this is... a little bit interesting!  
"Look

In this scene, the violent slogan stopped the body shape, and when the voice of the \*\*\*\* of the mouth of the mouth was heard, it was subconsciously turned to the right and looked at the past.

In that direction, a billion miles away, the empty sky was originally empty, but at this moment there was a phantom-like phantom, which was quickly and vividly, and it was the black gold dragon..."

No need to toss again, this is the strongest power of my demon dragon. If you are strong, the deity can't help you at all, but you are also the same to the deity, can not attack, and then strong power... has no meaning? "

As the body shape appeared, the corners of the black gold dragons outlined a touch of color, and the voice of the gods came out, which also showed the meaning of playfulness.

Before the previous attack, he still had some embarrassment in his heart, but now that he has verified the effect, he has already settled his mind and thinks that he is in an invincible position, even if Ye Xuan, the master of the demon temple, is stronger, even if he can't help each other. But the other party can't kill himself either...

So, what are you afraid of? which is

Then the other party's heart is unwilling, and at least try to shoot a few times to make sure that there is no way, after all, it will still leave..."

If you change to someone else, maybe it's really possible to return without success today, but unfortunately, what you are experiencing today is the temple..."

Seeing the black gold dragon proud, Ye Xuan grinning, the voice of the gods sounded again: "Isn't that the demon dragon's sinful vision? It's like the temple doesn't look like..."

Oh..." This

At the moment, Ye Xuan's brain knew that the black gold dragon scale hanging in the sea suddenly spun up at a rapid speed.

A bright black mantle emerged from the violent body. In the blink of an eye, he was already behind the violent, showing a huge dragon shadow, which is also a black gold dragon, although it is only an energy body. However, in the midst of the gloom of the gloom, the transmission of the mysterious power, directly offset the sin of the black gold dragon in the far side of the virtual void, which is offset...

Everything happened too suddenly, and it was beyond everyone's expectation that the black gold dragon was mad and shocked, and he screamed with sigh: "The dragon's blood? This is impossible..."

At this moment, he realized that the crisis had come. After the sinister magic of his own dragon's blood, what did he take to fight with Ye Xuan, the master of the temple? brain

In the flash of these thoughts, the black gold magic dragon suddenly lost all the war, no longer hesitate, and turned around to escape. "

I want to escape now? Isn't it too late? This temple...has not been so happy yet! "

"Boom!"

Xuan's voice of the gods sounded, and at the same time, the horror of the fourth-order environment in the middle of the body, the body of the black gold dragon was completely locked. blink

The effort of the eye, the violent temper has been approached, to the closeness of the black gold dragon, an earth-shattering close combat, which kicked off the curtain..."

Oh..."only

It's just a half-column time. The black gold dragon has not been able to support it. It's a terrifying scream of the hair, and then it's a dragon's tail. When Ye Xuan's figure is stirred, he doesn't hesitate. Turning around and fleeing in the distance...

The party's combat power has already fallen to the extreme, and it's about to exhaust. For Ye Xuan, today's Black Gold Dragon will lose its use value..."

boom! ""

Rumble..."

boom! "

These thoughts flashed through the brain, and the violent temper did not hesitate. The squatting of the cold mantic directly flashed behind him, and the next moment of a punch, the thunder of the sky sounded without suspense.

In the face of Ye Xuan's violent punch under the full force, the black gold dragon who is escaping from the escaping has no life at all. He has encountered ominous moments in an instant, and the body has been completely bombarded, turning into a \*\*\*\* fog. And open. "

call....."

The whistling sound of the whistling wind rang out, and a majestic invisible gas screamed away. The blood mist formed by the explosion of his flesh was diffused, and the violent temper was waved in the first place.

The \*\*\*\* fog that is spreading in the void is swiftly swept away, and he is directly sent to the bottom of the volcano in the central area of the Dingnai space, and the blood is refined.

At the same time, there is a glimpse of the masculine, which is the top-level cultivation resources of the Tianjiu Avenue and the Heavenly Source of the Black Gold Dragon. Now all are cheaper, and it is his extra profit. Object

The old time was half-column, and the storm ended.

In the void, the violent energy is still raging, the violent form, the huge size of Ye Xuan, but has stepped out of this battle of energy chaos and chaos, and stepped out.

The violent face is clearly filled with a smile of joy, and the temperament that has been dispersed from his body is completely different from the previous one, and it is much stronger. This

Everything can be said to be hard to come by.

After the start of the hunting, Ye Xuan and the four Hongmeng monsters launched a \*\*\*\* battle, killing them all, and finally letting themselves enter the process of transformation of the soul sea and the flesh after Hong Meng, under the full force , once again soared to a new height.

Nowadays, he is finally able to smoothly display the third change of the konjac.

Of course, the current Ye Xuan, the real cultivation of his own realm, is still only a step of Hongmeng, but after the activation of the konjac nine strong bloodline supernatural powers, his cultivation will reach the second level of Hongmeng.

To the first change, it is the third order of Hongmeng.

Previously, he was able to display the second change, so the most advanced cultivation is the fourth step of Hongmeng, which is the first time in the medium term. but

Now, with the end of this battle, Ye Xuan successfully casts the \*\*\*\* magical power of the konjac to the third change. His cultivation is also a step forward, that is to say, now he is The fifth step of Hongmeng exists.

The thirteen Hongmeng monsters that have been born in the left bank of the Milky Way in recent years have been killed by him after the fall of the Black Gold Dragon. The rest are still only six, and none of them. To.

"The third change, is the fifth order of Hongmeng? Still not enough..."

In the whispering language, Ye Xuan, a violent form, subconsciously grasped the double fists, and then hesitated, waved his hand and directly tore a crack in the void, and stepped into it. The huge figure disappeared between the blinks.

Next, he will go to a hereditary star field to hunt and kill the thirteenth of the 13th honors of the left bank of the Galaxy! boom

After killing the Black Gold Dragon, Ye Xuan's own process of transcending the soul and flesh after the Hongmeng was once again pushed to a higher level, smoothly transforming the blood of the konjac into a third change.

Thus, his peak repair has also soared to the first level, from the previous Hongmeng fourth order, to the current Hongmeng fifth order! Hong

The fifth stage of the Month is already in the middle of this period, but for Ye Xuan, it is still not enough. test

Considering that the first batch of millions of years ago, they have already entered the super-weirds of Hongmeng, and there is a high possibility that there will be the existence of Hongmeng later. Therefore, this time the hunting action, Ye Xuan's goal is to After the breakthrough of the soul and the physical transformation of the body, it is pushed to the fifth change...

Under the fifth change of the konjac and the bloodline, he will have the seventh-order power of Hongmeng, which is the later stage. Session

At that time, even if the first batch of millions of years ago had already entered the super-weirds of Hong Mengjing, there was the eighth team, the late ninth-order old monster, for Ye Xuan, when facing them The situation is not too difficult to cope.

Today, he is the third change, and the fifth-order revision of Hongmeng. Want

I want to push the transformation process of my own soul and body to the fifth change, so that I have the late stage of the seventh-order situation. Ye Xuan still needs to go through two changes, and then there are six Hongmeng waiting for him to hunt. kill. press

According to Ye Xuan's estimation, after the six warlords' squabbling battles began, they will experience the two changes on their own existing basis.

With this thought, he immediately left the magic dragon forbidden land, directly tore a crack in the void, and then left, rushed to the next target, Shenghua Star.

Shenghua Xingyu is a powerful survivor's star field in the middle of the left bank. It ranks third on the left bank's list of the survivors' stars. It is just a heavenly monster, it is more than 50 giants...

Just over two years ago, the ancestors of Shenghua Stars before the million years of age finally broke through and made a clearance. It became one of the thirteen honors of the left bank that had been born in the past few years.

Today, Ye Xuan goes to the Shenghua Star Field, and the goal to be hunted is the Shenghua Old Man. when

However, hunting is not the real purpose of Ye Xuan. It is just a matter of homeopathy. His real purpose is to find this Shenghua old monster, to fight with it, and to break through the process of transformation of the soul and body after Hong Meng. , push forward as much as possible. This

After the start of World War I, until the singularity of Shenghua was seriously injured, when Ye Li lost his power, Ye Xuan would take the last Thunder, kill him in one fell swoop, and then rush to the next stop...

.....

Shenghua Star Field! "

Oh..." Qing

The crisp and fierce cracking sounded, and in the depths of the Shenghua star field, suddenly there was a deep void crack...

In this void crack, there is a huge body with a huge length of tens of thousands of miles to go out, murderous, just a little half a day before the leaves left from the magic dragon... 甫

As soon as it came, there was a flash of coldness in the violent shackles, and the air machine instantly locked the target. At the same time, the huge figure of the original tens of millions of people was immediately reduced, and it became only a few.

After all, Shengtian blame is a deserted survivor, and his body shape is no different from that of the human race. Ye Xuan is going to start a terrible battle with him. He is a fist-to-meat, and the huge body shape of a million miles is obviously inappropriate. Must be reduced to match the other's body shape. "

Ye Xuan, the master of the temple? Oh..."

At the moment, with the arrival of Ye Xuan, the entire vast green star field is quiet.

All the survivors in the big star field have widened their eyes, and they have cooled down, but their bodies are shaking uncontrollably. and

At this moment, in the sky of a giant abandoned star, after the realization of the murder, there is no hesitation. Want to escape...

"This temple is coming from afar, and the Taoist friends will go away, is it not too kind?"

"call out....."

Seeing this scene, Ye Xuan's sly glare flashed, accompanied by a faint sound of emptiness, his body shape disappeared in the same place, and the teleport was applied to the side of Shengtian blame: Come and come, leave the battle for three hundred rounds..."

"boom!"

At the time of the fall of the voice, Ye Xuan had already slammed out, and Shengtian was stunned and shunned, but his body shape was still scratched by the Chinese. shock

The \*\*\*\* battle of the day, this is the beginning...

It is a pity that this battle still only lasted for half a column of incense, and the thunderous roar sounded without suspense...

Even if Sheng Tian blame has exhausted all the solutions, all kinds of means and treasures have been displayed, but it is still far from Ye Xuan's opponent. Only half a column of incense, he has been seriously injured. weight

Under the injury, basically there is no fighting power. For Ye Xuan, if you lose value...

In this way, there is no need to continue this battle, otherwise it will be a waste of time.

When these thoughts flashed in the mind, Ye Xuan couldn't help but be a bit sloppy. The offensive in his hand was also slightly slowed down in the subconscious. It was at this time that the old guy felt that he had a glimpse of the opportunity and he did not hesitate. Want to escape..."

It's been this time, I still want to dying... Does it have any meaning? ""

Rumble..."

boom! "No

Hesitant, with the cold voice of Sensen, Ye Xuan directly casts a teleport, and the blink of an eye has already reached the back of Shengtian, and the old guy who is escaping from the escape is taking the risk, but there is no way at all. I can only watch the violent temper of Sen Han, and put a huge fist on his chest...

This boxing and smashing, Shengtian blame encountered an ominous moment in an instant, the body was completely bombarded, turned into a canopy of blood and spread.

"Call..."

It was at this moment that the whistling sound of the whistling wind rang out, and a huge invisible instinct screamed away. The blood mist formed by the smashing of the savage body was not the first to spread. Time to wave. blink

In the eyes, the \*\*\*\* fog that is spreading in the void is swiftly swept away, and Ye Xuan directly sent it to the bottom of the central volcano in the Dingnai space, and it was put away. with

When it was put away, there was also a treasure of storage, which contained the heavenly treasures of the Tianji Avenue, and the top-level cultivation resources such as the liquid of Tiandao.

This is the eighth honour of Ye Xuan killed on the left bank of the Milky Way. In the past few years, the 13 honoured old geeks who have appeared on the left bank have fallen more than half. The rest is only five. and

Among the five surviving humilis, the closest to this Shenghua star field is the ancient ancient Shura in the forbidden land of Shura.

Counting the sinister singularity of this singularity, this hongkushuluo will become the ninth honour of Ye Xuan's hand.

"Oh..."

The crisp and unbreakable sound of the air broke out, and after the smashing of the sacred screams, the violent smashing of the chilly stalks, no further delays, tearing a crack directly in the void, the shoulders swaying, and then plunged into it. Blinking disappears... every

At the beginning of a Hongmeng era, there will be three thousand chaotic devils, born from three thousand source nest stars, and turned out. This

These chaotic devils, when they were born, have the power to cultivate Hongmeng, and they are called chaotic seeds. It is the opportunity for Hongmeng Naked to find the lost lotus seeds and look at the supreme chaos after Hongmeng. The reincarnation of the times, the hope of spreading out...

Such a Hongmeng era, I am afraid I do not know how many times I have experienced it. Every time, there are different three thousand chaos demon gods. each

After the opening of the Hongmeng era, the three thousand chaotic demon gods, which were born after the opening of the era, will open up a world of different sizes in addition to the vast void of the vast and innocent Hongmentian world. This

Some worlds of different sizes are cultivating different lifes, and looking for the opportunity of supreme chaos after Hongmeng...

Gu Xiluo comes from a big world of magical desires. It is said that the source of the blood of the ancient Yaksha is also from there. Although he has become the second artificial heaven in the wild world, it is the general under the headless baby, before the endless years. It is already the cultivation of the peak of the desert. but

In fact, the ancient Yaksha is not the original ecological creature of the wild world. He is an outsider. Before the endless years, somehow, he fell into the wild world...

In all this, Ye Xuan did not know, but not long ago, when the Hong Kong Shura appeared in the vast and endless dark void in front of the left bank, Ye Xuan almost slammed on the spot. At that moment, he thought it was The ancient night fork has come... no

Wrong, because Hong Ghuluo and the ancient nightshade are from the big world of the magical desire, the two are very similar in form. All

It is a human form, but it is huge in size, looks awkward, and there is a pair of huge shredded wings behind it...when

At the time, after determining that Hungry Shura was not an old-fashioned fork, Ye Xuan's heart still had a kind of vigilance against him. Although Hong Gushuo was extremely low-key, his temperament and the ancient Yaksha were similar, with few words, but Ye Xuan doubted him. It is highly probable that there is some kind of supreme power that is similar to the sacred bow of the ancient night. fall from the sky

Tianzhu Yexuan is also in control, so he knows its power and horror. Today, although he is the powerful existence of the fifth order of Hongmeng, the head of the ancient ancient Shura is only the first order.

However, if Hong Gu Xiu Luo really holds a kind of supreme magical power similar to that of the sacred sacred bow in the hands of the wilderness, then this super strong power can definitely damage the present Ye Xuan. This

The kind of threat is no small feat, so when Ye Xuan rushed to the Shura forbidden land where Hong Gu Xiulao was located, the vigilance of his heart also rose to the extreme..."

Oh..."

With a crisp cracking sound, a void crack appeared in the dark void in the forbidden land of Shura, and the body shape narrowed to the violent temper of Zhang Shugao, and stepped out of it..."

You are finally here..."

There was no silence in the forbidden area, but there was a figure sitting on the knees in front of the virtual air. It was a great ancient Shura. At this moment, I saw Ye Xuan's arrival. His slap in the face was flashing, and the voice was already long. From the beginning, there is a pair of flesh-winged wings, and the body reveals the secret of the sinister to the extreme...

"It seems that everything happened in the fire-like ban and the blue sky. You should have heard the news, why... why not?"

Seeing this scene, Ye Xuan's heart was clear, and he asked with interest. At the same time, his body shape, which was originally only a high profile, also expanded, and the blink of an eye was already huge, and the opposite The size of Hong Gu Xiu Luo outside the void is generally the same as the rhythm of preparing to fight close...

"You are really strong. In a short period of time, you already have the strength of the fifth-order of Hongmeng. I am far from your opponent..."

Opposite, the voice of Hong Gushulu's words resounded, not humble: "But I advise you not to start this battle. I know that you have mastered the bow, but in fact, I have a similar blood in my hand. Magical power, once it is displayed, even if it is the fifth-order Hongmeng, it can be hit or even killed..."

Of course, under your sacred bow, I am not immune to it. The final result of this war must be both loses, even if you and I are all depraved, there is no... any meaning! ""

What is your relationship with the ancient night fork? "listen

To the other party's words, Ye Xuan hearted, and asked subconsciously.

Wen Yan, Hong Gu Xiu Luo, looked at Ye Xuan with a look of eccentricity, and then nodded and said: "His father and I are the best, but unfortunately it has fallen. Since then, the young Yaksha is still young. Leaving the world of magical desire..."

It turned out to be..."

To solve all this, Ye Xuan nodded again: "The thirteen Hongmeng monsters that have been born in the last few years in the left bank have now fallen eight. Besides you, the remaining four will soon fall down..."

Look at the feelings of the ancient Yaksha, the temple does not marry you, but you must accompany the temple to a smooth battle, you and I do not use any magical power and supreme, just rely on their own cultivation and fight until you ... seriously injured! ""

boom! "

"Booming..."

As soon as the voice fell, Ye Xuan's figure was just like a meteor blasting out, and the blink of an eye had already reached the front of Hong Gu Shuluo.

The latter was still suspicious, and there was a hesitant flash in the shackles, but after seeing that Ye Xuan did not use the magical powers and various treasures, it was obviously believed.

The shocking \*\*\*\* battle is very easy to break out in the void, the air machine is too violent and chaotic, and the tens of millions of miles of the sky is full of emptiness, completely plunged into chaos...

After the time of the incense, everything stopped. The shape of Hong Gu Xiu Luo's blood-stained body fell from the emptiness of the air machine. Although it has not fallen, it has been seriously injured and lost the power of fighting again. .

Ye Xuan did not take another shot on him, watching the feelings of the ancient night fork, he let go of the ancient ancient Shura. "

The rest of the prey, there are four..."

The battle of the bundle, with the appearance of Hong Gu Xiuluo, Ye Xuan's body shape also emerged from the chaotic air of this air machine, the atmosphere is strong and solid, and there is no injury at all. eye

In the middle of the glory, there was a muttering voice in his mouth: "And among the four old monsters, the one closest to the forbidden land of Shura... oh, it is the temple again. The most annoying bug!"

Oh..."

The last sentence of the sound exit, Ye Xuanquan did not hesitate, waved a hollow crack in front of the wave, the shoulders swayed, and instantly broke into it, the blink of an eye disappeared. Look

With the back of his departure, Hong Gu Xiu Luo's light is complicated, but in the depths of his bottom, there is also a touch of excitement quietly flashing: "It turned out that he used this way to quickly push himself into Hongmeng. The soul and the body are changing..."

In this battle, although he was seriously injured, he also gained a lot. After all, he will be able to break through and enter the second stage of Hongmeng. From this point of view, it can be regarded as... a blessing in disguise! This

In the First World War, although Hong Gushulu was seriously injured, he also had a lot of gains. I think that soon after, I will be able to break through and enter the second stage of Hongmeng. From this point of view, it can be regarded as a blessing in disguise.

But in fact, Ye Xuan's gains are even greater. first

Although he had smashed eight old monsters in succession before, but there was no such thing as a great battle with Hong Gu Xiu Luo.

After this war, although Ye Xuan did not break through the process of the soul and body transformation of the Hongmen Avenue, he directly promoted to the state of the fourth change, thus gaining the power of the sixth stage of Hongmeng, but only a line apart. ....

After leaving Shura forbidden, he did not delay and went directly to the next forbidden place. This

It is not too far away from the forbidden land of Shura. The strongest person who sits in the middle of it is a starry zerg in Hongmeng. Ye Xuan rushed past after leaving Shura forbidden. This

The big worm in Hong Meng was locked in his air, but it was extremely difficult. Ye Xuan and his \*\*\*\* battles ended with a fragrant time. most

In the end, this big worm was smashed, and in addition to the \*\*\*\* blood formed by the explosion of his body, Ye Xuan was sent to the flame pool at the bottom of the volcano of Shennong Baoding's central domain to carry out blood purification. Take

And a lot of Tianjiu Avenue Baojing and Tiandaoyuan's liquid, since his own breakthrough in the process of the soul and physical transformation of Hongmeng, he was quickly promoted, and finally reached the fourth degree.

When Ye Xuan left the strong forbidden land where the big worm was sitting, the \*\*\*\* magical power of the konjac was changed to the fourth change.

In the state of the fourth change, Ye Xuan's peak repair has also reached the sixth stage of Hongmeng, which is the peak of Hongmeng's mid-term, and only a first-order difference from the late seventh stage of Hongmeng...

With the fall of this big worm, among the thirteen red monsters that have appeared in the left bank of the Galaxy in recent years, Ye Xuan has already killed nine people, and he was seriously injured, but he put a horse. Hong Gu Shuluo, that is, ten.

There are still three remaining goals. According to Ye Xuan's estimation, after killing all these three monsters, he will turn the blood of the konjac into the fifth change, thus having a seventh-order situation. The possibility of repairing Hongmeng in the late period is at least 80%...

"Roar!"

Oh..."

The whole body flashed through all of this, and Ye Xuan's heart was so excited that he raised his head with a terrible roar, and then he stopped again. He waved a hollow crack in front of him and shook it into it, disappearing. .

The next two stops are all the sacred stars, and the place that Ye Xuan will go to now is called Dongtai Star. Sitting in it is a powerful and powerful singer of Hongmeng, named Taijiang. Ancestor...

...

Half a day later, Dongtai Star!

"Oh..."

With a crisp cracking sound, a void crack appeared in the dark void in the depths of the star field, and the body shape narrowed to the violent temperament of Zhangzhang, and stepped out of it...

"Ye Xuan, the master of the temple, you...we are still here!"

"Hey! Hong Meng sixth-order? How is this possible..."

With the arrival of Ye Xuan, the entire Dongtai Star Field is a quiet moment. The stars in the abandoned stars in the star field are all chilling, and the atmosphere is not dare to take a sip...

But in a giant abandoned star in front of the left side, there were two whispers.

Among the two whispers, it is clear that all of them have a powerful and invisible atmosphere of Hongmeng, which makes Ye Xuan's fascinating flash. but

He quickly reacted. Among the remaining three singers, there are two widows and strangers, and a starry beast. The original Ye Xuan intends to kill the Taijiang ancestors in the Dongtai area. Go to the next survivor star field.

I didn't expect the survivor of the old man who was sitting there to come here.

Moreover, judging from their apt words, the two have already noticed that Ye Xuan will arrive. From

From this point of view, the reason why the two of them gathered together is clearly to take advantage of the group... first

Before they escaped from the vast and innocent dark void in front of the left bank, Ye Xuan's cultivation was the third step of Hongmeng, and both of them had the strongest means of playing cards, although the cultivation was only the first step. However, according to their estimation, if the two join hands, all of them will use their means to display them all, although they still can't help the Lord of the Temple, but the same, the Lord of the Temple, Ye Xuan wants to kill them. The opportunity is not big, it can even be said that there is no...

However, their inference is based on the third-order cultivation of Ye Xuan Hongmen, the master of the Temple of Devils.

Although they have received news recently, they know that Ye Xuan, the master of the Temple of the Devil, is raging on the left bank, searching for the ten honours that have escaped not long ago, and have already smashed several of them. but

Among the news that was spread, there was no mention of Ye Xuan's cultivation as a strength. Therefore, they simply did not know that Ye Xuan's current cultivation was already up to the sixth level.

After all, calculating the time, only when they escaped, they are only less than ten days...

And even if they each have a strong means of subjugation, even if they use this means to display them all, they will only be the first-order cultivation of the sacred, facing the strongest of the six-ordered magic hall. The two of them apparently did not have a little bit of life, and they were destined to be bombarded and degraded..."

call out! ""

call out....."

For this reason, the two old guys are seeing Ye Xuan coming, feeling the horror of his body, and subconsciously exclaiming, even if he is scared, he will not hesitate and turn around and turn to the left. The left and right behind him fled quickly..."

It doesn't make sense, even if you split your head, today... you all have to fall! ""

Rumble..."

"Hey!"

By the two old guys fleeing, Ye Xuan did not hesitate. With the cold voice of the Sensing, he directly cast a teleport, and the blink of an eye has already reached the left behind the stranger.

The old guy who sneaked his head and sneaked away, but there was no way at all. Without waiting for him to react, the huge and huge punches were printed on his back...

The explosion of the sky came in an instant, and the old guy fell in an instant, and the flesh was completely bombarded, turning it into a \*\*\*\* fog.

"call....."

The whistling sound of the whistling wind rang out, and a majestic invisible screaming whistling away. The blood mist formed by the suffocation of the old guy's flesh was diffused, and the violent temper was waved in the first time. The \*\*\*\* fog was swept away and was directly sent by Ye Xuan into the central volcano in the Dingnai space...

At the same time, there is also a storage magic weapon, which contains the old guy's Tianjiu Avenue treasure liquid, and the heavenly source of liquid and other top cultivation resources, but Ye Xuan is not happy at all.

Although the old guy was killed in an instant, there was no big fight, which was not in line with his main purpose...

"There is one left, this time can't... waste again!"

Oh..."

In the whisper, the violent chilling flashes, and when I look back, I immediately start a teleport and go all out to attack...

Chapter 5168: Target Hongmeng late

"Half-column incense! Show your strongest means of attack. If you can support the time of the half-column in the hands of the temple without falling, today... you will not die!"

"call out....."

With the faint sound of breaking the air, the body shape has shrunk to the violent temperament of the singularity. After the teleport, it appears directly on the right side of the stalking stalker: "And the temple, in During this half-column, I don't use magical powers, I don't use the treasures, I only fight for my own cultivation. This is your only life!"

"boom....."

The voice has not yet fallen, and there has been a flash of gloom in the violent temper, without hesitation, and a direct punch to the front..."

Roar! ""

Lord of the Temple of Devil, you... deceive too much! "

In front of the void, the strongest person in this singularity, that is, the ancestors of the Taijiang ancestors had to send their hair, and they screamed and screamed with a terrified roar, and then they did not flee again. A piece of treasure, coming to the attack of Ye Xuan... Ye

Xuan said yes, this is indeed his only life.

This Taijiang ancestor was only the first-order cultivation of Hongmeng, and Ye Xuan was already in the mid-term peak of the sixth-order situation. Once again, he could enter the seventh stage of Hongmeng. If

It is he who does not agree with Ye Xuan's suggestion. Then, Ye Xuan will soon be able to display all kinds of magical means and sacrifice the treasures of all kinds of hands. He will be able to kill him on the spot. which is

Then he did his best, all the means to do it, one heart only to escape, and there is no possibility. suitable

The remnant of the remnant who was murdered, isn't that the case?

On the contrary, nowadays, although he only has the strength of the first-order cultivation, it is impossible to get a column of incense in the hands of Ye Xuan, the sixth-order of Hongmeng. but

As long as the Lord of the Devils, Ye Xuan, promises to use no magical powers in the next fragrant time, and does not sacrifice any treasures, then he is doing his best and doing all kinds of means of magical power and treasure. There may not be a chance to live.

Even if the final result is a serious injury, as long as he has reached the last moment of this semi-column incense has not fallen, even if it has been seriously injured, it is completely acceptable, at least ... still alive! only

To live, there is hope for recovery, and there is still the dawn of taking everything...

The brain flashed through all of this, and the Taijiang ancestors immediately cut off the idea of escaping all the way, and returned according to Ye Xuan's request. All kinds of magical means were all done, all the treasures were sacrificed, and instantly The violent form of Ye Xuan, the battle is in full swing...

"boom!"

Rumble..."

The roar of the earth-shattering earth is continuing, and the vast air of a billion miles away is completely chaotic. Even the void is constantly collapsing rapidly. Although the details inside the battlefield cannot be seen, this battle It's fierce, but it's completely imaginable.

It is a pity that the old tyrant of Taijiang is still too weak. This battle has come to an abrupt end before the semi-column time of the semi-column.

Even if the Taijiang old blame has exhausted all the solutions, all kinds of means and treasures have been displayed, but it is still far from Ye Xuan's opponent. He will not support the time of the semi-column.

Now that there are still more than a dozen interest left, it is already seriously injured and dying.

Since it has been seriously injured, naturally there is no fighting power, and this situation has undoubtedly lost the value of utilization for Ye Xuan. very

Obviously, there is no need to continue this battle. Otherwise, it is a waste of time for Ye Xuan.

"Booming..."

"boom!"

Without hesitation, the temper was directly transferred to the side of the Taijiang old monster. The coldness of the singer revealed the coldness of the cold. In the middle of the wave, a huge fist was printed on his chest. One

The boxing and smashing, the Taijiang old blame that had been seriously injured and dying was instantly degraded, and the flesh was completely bombarded, turning into a \*\*\*\* fog and spreading.

"call....."

At the same moment, a majestic invisible gas screamed away, and the whistling sound of the wind blew, and the blood mist formed by the explosion of the old body of Taijiang was not violent, and the violent temper was waved in the first time. no

The shape of the gas is stirring, the \*\*\*\* fog that is spreading in the void is swiftly swept away, and Ye Xuan directly sent it to the central volcano in the Dingnai space...

Including the treasures of Taijiang's old geeks, he is not wasted. There are top-level cultivation resources such as Tianjiu Avenue and the Tiandaoyuan's liquid in the hands of the old guys.

In this regard, the end of the war. fine

Counting, the thirteen Hongmeng monsters that have been born on the left bank in recent years have now been killed by Ye Xuan alone in less than a month.

Still, he was not seriously injured by him, but he looked at the feelings of the ancient night fork, and put the result of Hong Gu Shuluo...

In other words, Ye Xuan's remaining goals are only the last one.

After experiencing the war of Taijiang old monsters, he broke through the process of transformation of the soul and the flesh after the Hongmeng, and has once again been forcibly pushed forward, taking a big step forward. Now

In the final goal of the hunting operation from Ye Xuan, it is the fifth change state that allows him to have the magical power of the seventh-order late-stage combat power of Hongmeng... It is only a short distance away! This

Let his spirit suddenly rise, the distance of this line is almost negligible, and his heart is determined, after the last target is bombarded, the process of his own soul and body transformation will surely step into a new one again. height.

That is to achieve the fifth change of the magical

That is the seventh-order situation... Hong Meng later repaired!

"Roar!"

"Oh..." brain

In the flashing of all this, Ye Xuan's heart has an incomparable rush and excitement flashing in a moment, and his body shape is only a violent temper.

Immediately afterwards, he waved his hand, accompanied by a crisp cracking sound. In front of his figure, there was a void crack in an instant. "

Oh..." shoulder

Under the swaying of the head, the violent figure instantly turned into a faint mans, directly into this void crack, and the blink of an eye disappeared...

When he left, he will rush to the last fierce beast, and the goal of this trip is the fifth change of the konjac, which is the late seventh stage of Hongmeng...

The strongest person in this last Xingqiang forbidden place is a giant of 50 million in size, half-human and half-devil.

It is said that this three-eye demon \*\*\*\* is the most powerful existence of the thirteen Hongmeng monsters that have appeared in the left bank of the Galaxy in recent years. It is for this reason that Ye Xuan deliberately left him in the end. .

After all, in the last battle, his goal is the fifth change. It is the late stage of Hongmeng in the seventh-order world. If the opponent is too weak, the effect of the war will be difficult... to be as good as it is!

.....half

After the day, three eyes are forbidden!

"Oh..."

The buzzing sounded, and a figure stepped out of the sudden crack of the void. It was Ye Xuan. At this moment, he is still a violent form. His height is high, and the body is filled with the breath, but it is extremely majestic. It's terrible to be horrible...

After half a day, three eyes are forbidden!

"Oh..."

The cracking sound rang, and a figure stepped out of the sudden crack of the void, which was exactly what Ye Xuan was. this

He is still a violent form, his height is high, and the body is filled with exquisite breath, but it is extremely majestic, and it is terrible to be horrible...

The entire three-eyed forbidden land is one of the quiet, the forbidden land in the vast expanse of the starry sky, a large number of abandoned beasts in the stars, all of them in the moment, holding their breath, screaming in the ground.

The scent of the body in Ye Xuan was pushed to the extreme at this moment. The divergence opened and shrouded the entire forbidden land, and the shape of the three-eyed demon \*\*\*\* was locked in an instant.

What makes Ye Xuan feel unexpected is that this is only a dozen days. The repair of the three-eyed demon has already broken through and entered the second stage of Hongmeng. Look

The outside world has been rumored to say that the three-eyed demon is the most powerful of the thirteen Honored Monsters that have been born in the past few years. It is not without reason. he

When I was born, the strength was close to the second stage of Hongmeng.

When I left the vast and innocent dark void in front of the left bank, my own cultivation was on the verge of breakthrough. Today, I have not seen it for more than a dozen days. I don't know how he used it. In such a short period of time, Successfully succeeded in breaking through... no

However, for Ye Xuan, this is actually good news. Such as

Today, he is already the sixth-order of Hongmeng. The cultivation of the three-eyed demon is stronger and stronger. There is absolutely no possibility of escape in his hands. Instead, it is super-strong. For Ye Xuan's purpose of tempering himself, the more helpful. beneficial.

In this coming battle, he has become more expectant in an instant..."

Roar! ""

Ye Xuan, the master of the temple! Are you already... sixth-order Hongmeng? ""

Rumble..."

A thunderous roar sounded, and a giant abandoned star at the end of the line of sight exploded, the energy was too violent, and under the ravages, the void collapsed rapidly.

Then, with the sound of a deep and incomprehensible voice, a huge figure emerged from the dusty star explosion area.

The person is standing, the size of 50 million miles, like an ancient giant, stunned and sturdy, huge head on the forehead, clearly distributed three giant eyes side by side, revealing the magic of the blue secluded ... .. It is the last goal of Ye Xuan, the three-eyed demon! this

At the time, the cultivation of the body from the three-eyed demon \*\*\*\* is the second order of Hongmeng, far beyond the targets that Ye Xuan had previously hunted, but in the face of the cultivation of strength, the six-step Ye Xuan, three eyes The devil is still like an ant, and he can't say that he can easily hit the hand, at least it can be crushed, and it can be killed without any problems. positive

Because of this, with the appearance of the eyes, the look on the face of the three-eyed demon \*\*\*\* is also extremely dignified, striding quickly, and it is easy to stop the avatar in the virtual air outside the tens of billions of miles, the front row of the huge head The three huge magic eyes opened, staring at Ye Xuan tightly, revealing endless jealousy.

Seeing it, he did not take the initiative to seek the meaning of a war, but he also did not intend to turn around and flee, because he knows well, with his cultivation as strength, even if he flies at full speed, there is no possibility of leaving. .

This is clearly a dilemma. It can't be beaten and beaten. The three-eyed demon \*\*\*\* has completely lost his mind. ....

"You are smart, and the talent is not bad. In such a short period of time, it actually broke through to the second step of Hongmeng..."

The opposite of the three-eyed demon, Ye Xuan nodded secretly, this guy's calm makes him quite admired, and the talent is really very good, the left bank has been born in the past few years, the only three people in the red monster, now only one person Entering the second order of this situation, this alone is enough to illustrate the problem. "

It is not easy to practice in your practice. This temple gives you a chance, half-column fragrance, let your means do it, and the temple does not use any magical powers and treasures. If you can support the semi-column, this temple today will leave you a life. ! ”

"boom....."

"Booming..."

At the time of the sound, Ye Xuan did not care whether the other party agreed or not. Under the violent temperament, the body shape that had only been succumbed to the heights suddenly rose, reaching a huge scale of 50 million miles, and the opposite Three-eyed demon gods other than 100 million miles are generally the same. tight

Then I immediately spread the arm, the power in the body was spurred, and under the temperament, I punched out with a punch...

"Roar!"

Half-column? I try my best..."Three

The eyes and devils are quite a bit stunned, and the voices are extremely calm. They look up and scream, and they immediately rush out. The magical powers are exerted, and the blink of an eye becomes a group with Ye Xuan.

In the air, the vast area of tens of billions of miles has been caught in chaos and violent moments. The inexhaustible energy is raging, and the voids are constantly retreating between collapse and bridging...

This battle is extremely amazing. Ye Xuan did not exert his full strength. He only used the repairs, and the magical powers were not moved. The three-eyed demon gods were all kinds of magical powers and the treasures. At one time, the two actually fought. In full swing!

The time of half-pile incense passed by. In the end, the three-eyed demon \*\*\*\* really resisted. He was different from the Hongmeng hunter that Ye Xuan had previously hunted. After all, he had already

entered the second-order of this situation. Although he has been seriously injured, he is now seriously injured. But it is not dying, just lost its power..."

boom....."

The last blow hit, the three-eyed demon vomited blood again, but the last moment of the semi-column time also passed away at this moment...

"It's really good, this battle... it's over!"

The violent sorrow reveals the color of appreciation. When the hand is closed, there is no further attack. However, with the sound of Ye Xuan's knowledge, the self-cultivation that has been dispersed from the violent body has soared again at this moment... ..magic

The fifth change of the nine!

Hong Meng... seventh order!

At this moment, Ye Xuan broke through successfully, and after entering the Hongmeng, the process of transformation of his own soul and body has finally been pushed to a new height. The fifth change of the konjac has been successfully carried out. He has entered the seventh stage of Hongmeng and became the supreme being in the late stage of the avenue...

.....versus

At the same time, the depths of the floods are deep..."

Oh..." Qing

The brittle sound of the air broke out. In the depths of the star field, a void crack suddenly appeared without warning. Then, a figure walked out of the crack.

This figure is not a starry beast, but a strongman of the benevolent, a green robe, long over the chest, looks like a fairy.

The self-cultivation that has been dispersed from the body is as true as Ye Xuan in the state of the fifth change of the konjac, reaching the seventh stage of horror, that is, the late stage of the avenue!

"After a million years, it's over!"

Walking out of the figure, the strongman of the celestial bones turned his head and looked around. His face showed a sense of emotion and whispered: "This era is coming to an end, the Galaxy is about to open, I am flooding... It's back!"

On this day, the entire left bank of the Milky Way was like a big earthquake. Countless Qiangqiang forbidden land and Xingqiang Starfield were all shocked by two news. The left bank was sensational...

First, before the million years of age, the creation of the Tianjiu Avenue treasure liquid, that is, the pioneer of the Hongyu Star Field, the ancestor Hong Yu... returned! when

In the year, Hong Yu was only the peak of the ninth-order grand perfection, but the pharmacy of the pharmacy was fascinating the banks of the Milky Way, creating the treasure of Tianjiu Avenue, which benefited countless Tiandao strongmen on the left bank. and

He himself, after refining a large number of Tianjiu Avenue treasures, drifted away. It is said that he left the left bank of the Milky Way, like the left bank of the Tianfeng Avenue, which had enough Tianjiubao liquid from his hands. Retreat, after the impact of the heavens, no go to Hongmeng...

Today, millions of years have passed, and Ye Xuan, the owner of the other magical hall, has not mentioned it. In the past few years, 13 people have entered the retreat on the left bank of the peak, and all of them have successfully broken through. To the Hongmen Avenue.

Counting the old ancestors who have just emerged today, in recent years, there have been more than fourteen eccentricities in the left bank of the Galaxy. Do not

However, these fourteen honours, in addition to the newly born ancestors, the thirteen old geeks who have been born in previous years, now have only two left.

One is Hong Gu Shuluo, the other is the three-eyed demon!

The other eleven Hongmeng monsters, without exception, were all killed by Ye Xuan, the master of the temple. And this is the second news that sensationalizes the entire left bank of the Galaxy.

The second news is truly amazing, but the first one, the news of the birth of Hongjun's ancestors, is equally inferior.

It's just that a Hongmeng stranger was born, but it didn't cause such a big sensation, but the flood was different, because when he was born, he had the strength of the seventh-order repair of Hongmeng, which was the late stage of the avenue. and

And this is definitely his own real cultivation, and Ye Xuxuan, the master of the magic hall, is different from the seven steps of Hongmeng, which is achieved by the anti-sky blood secret method in his hand. Although the combat power may be the same, it can be meaningful, but it is like a heavenly difference.

.....

These two news were just spread, and the entire left bank was shaken in an instant. In just one month, the situation on the left bank changed so dramatically. This made everyone unpredictable.

A month ago, although there were thirteen honours on the left bank, they were all repaired by Hong Meng.

But now, there are only four leftovers on the left bank, but among the four red monsters, apart from Hong Gu Xiu Luo and the three-eyed demon, the rest of the demon temple, Ye Xuan, and the Hong Kong who just turned out The old ancestors, all of them have the late strength of the seventh step of Hongmeng...

Undoubtedly, with the numerous forbidden land and the starry field on the left bank, these news are also spreading at a hectic speed toward the right bank of the opposite Milky Way. Soon after, they were learned by countless strong people on the right bank. Both sides of the Milky Way will be boiling...

.....

The right bank of the left bank, the floodplain...

On the left bank of the Milky Way, the Hongyu Star Field is now absolutely eye-catching. The Lord of the Devil's Temple, Ye Xuan, is forbidden on the right bank. Therefore, strictly speaking, he is not really a strongman on the left bank.

It is not counted to open him. Today, only three Hongmeng grotesques on the left bank. Honggu Shuluo and the three-eyed demon gods are only the first stage of Hongmeng, a first-order, one second-order, but the newly born ancestors are seven-order. The environment of Hongmeng existed later.

"Oh..."

At the time, the edge of the floodplain was only tens of billions of miles away in the dark void, and the crisp cracking sound suddenly sounded without warning. One

The road void crack appeared, and then he walked out of the figure and walked out of the figure, it was Ye Xuan. Such as

Today's Ye Xuan has restored the original face of the Terran. It seems to be no different from the general survivors, but the temperament that is diffused from his body is terrible, and the \*\*\*\* magical power of the konjac has been extended to him. Five changes, so now he is repairing strength is the seventh stage of the Hongmeng period... and

The battle of the three-eyed demon \*\*\*\* was half a month ago. This

In the past half a month, after leaving the three-eyed forbidden land, Ye Xuan went directly to the vast and innocent dark void in front of the left bank, and retired from the ground. After the cultivation was consolidated and consolidated, he went to the floodplain. Come over.

With his understanding of the treasures of Tianjiu Avenue, even if there were more in the hands of the floods when he was retiring, there would be no possibility that during his retreat in the millions of years, his cultivation would be a period of strength to the seventh stage. . Place

Therefore, Ye Xuan is extremely skeptical that the flood is the first batch of honours between the millions of years, and it is even more likely that it was the last time of the Hongmeng era, and somehow avoided the feeling of Hong Meng's void. Hard from the last era, just like stealing the sky, lived to this era...

Of course, all of this is still only Ye Xuan's speculation, but it's okay, as long as I see Hong Hao, I'll be able to solve my doubts when I ask, and this is exactly the case after Ye Xuan's exit. The purpose of coming to the Hongyu Star Field is...

"call out....."

The faint sound of breaking the air rang, Ye Xuan urged the power of the body, and the whole body was transformed into a masculine spurt. With his horror repair of the seventh-order hunter, the distance of tens of billions of miles is nothing. Now, the blink of an eye has reached the edge of the floodplain...

"The Lord of the Magic Temple, Ye Xuan?"

To the edge of the star field, there are several figures in the front of the floodplain, all of which are rushed out, all of them are heavenly and strange, and the leader, under the flash of light, is suddenly looking at the face, pointing to Ye Xuan, suddenly screaming out... ..This

An old guy, Hong Tao, the principal of Hong Yu's star field, may have just happened to go out, and unexpectedly met Ye Xuan at the edge of the star field. two

There were old grievances between the people. Previously, Hong Tao wanted to count the Ye Xuan, but he was put up by Ye Xuan, and it was so bad.

With his ability to cultivate only in heaven and earth, facing Ye Xuan, who is now the supreme being of Hongmeng, could not have any enthusiasm. Even if he saw it far away, I am afraid that he would be scared and trembled. Ground...can

Now, perhaps because of the return of Hong Yu's ancestors, and the fact that there is a seventh-order situation in the late period of Hongmeng's cultivation, Hong Tao's cold and unremarkable seeing Ye Xuan is actually not half-divided, but it's full of enthusiasm. Face to face: "Hey, aren't you shy and I am in the glory of the stars? Why is it today, squinting and looking for the door?"

"Oh, yes, you can kill a lot of old monsters before. Could it be that today is the rhythm of the flood ancestor who just came out of my Hong Kong star field?"

This guy is clearly in the middle of provocation. Although Hong Yu is not here today, but in the late stage of Hongmeng, who is in the seventh-order world, he is sitting in the Hong Yuxing domain. He is responsible for everything outside the starry sky.

At this point, Ye Xuan also knows the truth. At the end, he did not pay attention to the Hong Tao in front of the villain's face. In the middle of the gloom, he turned to the Hongyu star field and read it. Lang said: "Hong Yudao friends, magic Ye Xuan, the owner of the temple...deliberately visited!"

Xuan Xuan did not pay attention to Hong Tao in front of the villain's face. In the middle of the glory, he turned to the Hongyu star field and read it. Lang said: "Hong Yu Daoyou, the main hall of the devil's house... Deliberate visit!"

Ye Xuan, the master of the temple, has been known for a long time, such as Lei Guan..."

The words of the land just fell, and the depth of the flooding star in front of it, there was a voice of God in a moment, but its sound was not big, but it made the entire flood of the floodplain countless survivors strong and audible, just in the ear: The Taoist friend asked to speak inside, and the old man greeted the house in the Dongfu Star..."

"call out....."

Ye Xuan's shoulders swayed, and his body shape spurred away, leaving a gloomy Hong Tao with a few heavenly eccentrics standing in the void outside the edge of the floodplain.

Soon, Ye Xuan came to an abandoned star in the depths of the Hongyu Star Field. He went straight into the star inland and looked up at the Qingshi Terrace, where a huge peak was seen. There was a Qingpao old man sitting there.

There is a stone table on the Qingshi stage, two stone benches, and now there is an empty one. The stone table is boiling a pot of good tea. The scent of tea is gathered at the top of the teapot. It is quite amazing.

Ye Xuan was also not polite. He sat down directly on the stone table opposite the flood, raised his hand and picked up a cup of hot tea in front of him, and poured his head into the throat. flood

Laughter and no words, Ye Xuan is lazy and he circled the circle, directly opened the door, and put down the tea pot in his hand and asked: "Hong Yu Daoyou, there is a confusion in the heart of the temple, do not know if the friend can solve?"

Daoyou is a guest..."

Hong Hao picked up the teapot and continued to give Ye Xuan a smile. He nodded with a smile: "If there is doubt, the old man should be confused for the Taoist friend...maybe!"

"Your Tianjiu Avenue treasure liquid is very well known, although it is not bad, but it is a million years of retreat, but it is impossible for you to enter the seventh stage of Hongmeng..."

Xuan nodded, said half of the words slightly, and looked at Hong Yan deeply, and the words turned forward: "It is said that before the million years of age, there are already the first batch of Hongmeng except the three thousand chaotic devils. Is it true that the Taoist friend is one of them? Or is it that the Taoist friend is actually... an older existence?"

It seems that there is already a guess in the heart of the Taoist friend..."

In the question of Ye Xuan, Hong Yu seems to have already expected it. It is not unexpected. He nodded and smiled. "The Taoist friend guessed it well, except for the three thousand chaotic devils born at the beginning of this era. Among the old monsters before the years, there are indeed some older ones that don't belong to this era, but the old ones who survived from the last Hongmeng era..."

At the end of the last Hongmeng era, there were actually many Hongmeng blame that did not fall. They all used different methods and lived to the opening of this Hongmeng era... including the old man, one of them! "

"However, if you want to live from the end of the last Hongmeng era to this Hongmeng era, you must escape the inspiration of the chaotic Qinglian, otherwise it will be wiped out. For this reason, all of us are self-deprecating. !"

"So, after this new era of Hongmeng was opened, we all survived, but if we cultivated our strength, we will lose everything, and everything will only start again..."

"Even so, compared to the various ethnic creatures born in this Hongmeng era, we are the old monsters that survived in the last era. Although it is no longer cultivated, the memory and experience are not lost, and the practice is natural. Do more with less..."

"It is also because of this that some of them have re-entered Hongmeng before the million years ago, but they all crouched down and were not born. Waiting for the end of this era, enter the Galaxy and compete for the next The Epoch of the Era..."

There are also some monks who have not recovered to the previous era until the age of a million years old. For example, this is the case for the old man, but since the million years have passed, the old man has broken through, and the reason why he was born is Hongmengqi. The cultivation of the order is all because of the accumulation of thin and thin hair. In the years of this million-year retreat, it can be said that the speed of entry is fast..."

However, now that the Galaxy is about to open, it is certain that those who have been restored by Hongmeng before the million years of age will continue to emerge, and will soon be born, because this one is the competition for gas before the end of the Hongmeng era. They are absolutely impossible to miss..."

A similar Hongmeng era has been opened many times, just like a reincarnation, but in fact, the end of every Hongmeng era is ended with the complete annihilation of all the world. Only some of them are powerful and have special secrets. Blame, we can escape the ruin of Hongmeng at the cost of self-cultivation..."

"Even if these two old people who have lived through the two honours of the era, under the horror of the horror of Hongmeng, the heavy price of paying for the self-cultivation of Hongmeng is only to protect themselves from immortality and want to shelter more. People simply can't..."

"Only when the last Hongmen era ended, from the great world of the devastating gods of the three thousand chaos demon gods born in the previous era, there was a huge star field that survived and was There is no precedent for this kind of thing in the past, in every cycle of the Hongmeng cycle."

"On this point alone, you can see how this new era of the new Mongolian era will be opened..."

Perhaps, the legendary chaos after Hongmeng will appear in the new era of Hongmeng, which is about to open up. Therefore, we all existed from the last Hongmeng era, and this Hongmeng era has been crouching for a long time. Old and undead, after the opening of the Galaxy, it is envisaged to enter the Galaxy Star Field and compete for the next Qimeng era. "

"Because of this kind of air transport, in a certain sense, it represents the legendary countless Hongmeng reincarnation never appeared... supreme chaos!"

Hearing this, Ye Xuan fell into sinking. In fact, everything that Hong Hao said now, Ye Xuan had already guessed it before, including the fact that the opportunity of supreme chaos is hidden in the mysterious mother star of the Galaxy Star. I saw the chaotic Qinglian, and after seeing the evolution of a certain scene before the endless years of Qinglian Lotus, it's already in my mind..."

Oh, yes, there is a person, Hong Yudao friends should have heard of it, just do not know the origin... Do you know? "brain

In the flashing of these thoughts, Ye Xuan suddenly flashed a flash of light, and the moment was suddenly smashed out of the fierce and sturdy, and turned to the opposite of the flood to see the past: "This person is named Xingbo, but in this piece of Hongmeng In the void, he has another god, the outside world calls it... the mother star visits!"

"It turned out to be him..."

When I heard it, when I looked at Ye Xuan, the look on my face was a little weird...

Chapter 5169: The truth of the phagocytic system

"The mother star came to visit? It turned out to be him..."

To the words of Ye Xuan, Hong Yu suddenly stunned. When he looked at him, the look on his face was a little weird.

After a short pause, I went on to say: "This person is indeed called Xingbo. It is true that he is called a parent star. Because he was originally from the parent star of the Galaxy Star..."

"However, Xingbo is not the life of this Hongmeng era. Like the old man and others, he belongs to the last Hongmeng era. It is the old man who said that at the end of the last Hongmeng era, he cultivated himself and sneaked into the sky. One of the oldest immortals of this era..."

This person was shocked and brilliant. In the last Hongmen era, he controlled a huge technology empire. He not only cultivated himself to achieve the vicissitudes of the world, but once the mechanical beasts created in his hands were fit, even the old monsters were jealous. ...."

"More and created a mysterious personal technology system that can be implanted in the body of the military, practiced with the power of the science and technology system, grows, devours all kinds of energy, and is extremely overbearing..."

It turned out that this is the truth of the phagocytic system..." Ye Xuan stunned, his face showed the color of enlightenment, and there were more sorrowful sorrows in the scorpion, like a nightmare, whispering.

For a moment, he finally realized everything...

Straightforward, for the anti-day ability of the phagocytic system, and the mysterious mystery of Starbucks, he has a feeling of incomprehensibility, and it is too much. but

Now, after listening to the words of Hong Yu, the doubts in his heart can be said to be solved.

Since Xingbo was self-cultivated at the end of the last epoch, as if you had stolen the sky and lived to the age of this era, then everything can be explained.

When he was in the last era, he had already taken control of a huge technological empire that was even jealous of the old blame. Although it had disappeared with the end of the last Hongmeng era, including the self-cultivation of Xingbo itself, After this Hongmeng era, it is also the way to restart the practice...but

The experience and memory of the previous era are still there, and he only needs to give a slight hint. In this era of the great world of the era, creating a technology genre is naturally nothing. package

The phagocytic source crystal in Ye Xuan's body, if there is no accident, should be something he brought from the last era, and its technology far surpasses the Terran technology camp in this era of the ruined world, so that it can have interplanetary coordinate jumping ability. It is not difficult to understand and accept the power of these anti-days...

As for the collusion between Xingbo and Hongtian Tiandao, the ultimate goal is to use the green eyes of the wilderness to help him enter the galaxy. If

No accident, Ye Xuan's body engulfing system should also be a kind of backhand arrangement of Xingbo, but now this arrangement has lost its usefulness, because now Ye Xuan's own cultivation has entered the Hongmeng situation, far exceeding Xingbo, the phagocytic source crystal that he spread out through Emperor II is still in Ye Xuan's body, but it has no effect on Ye Xuan.

Even if Starbucks senses the smell of this phagocytic source crystal, it will motivate the left hand behind it, and with Ye Xuan's current horror cultivation, it can also instantly resolve everything, but in this way, it can also counter the star. ....brain

In the flashing of all this, Ye Xuan's heart is full of doubts, the mind is suddenly clear, no stagnation! "

boom! ""

Rumble..."

During the speech, the sky suddenly burst into the earth-shattering roar, the movement is horrible, and it is far from the floodplain.

The flooding and Ye Xuan, who were talking at the same time, sighed at the same time, and then they rushed to the top and subconsciously turned their heads and looked away in the direction of the thunderous sound.

This direction is the direction of the Galaxy Star Field...

Undoubtedly, the source of the roaring sound is that vast and innocent. Since the opening of this era, it has been shrouded in the power of the law of the emptiness of Hongmeng, and it is invisibly protected by the Milky Way. class

It seems that the incitement has already appeared once in the past. It is for this reason that the ten honourers who escaped from the vast dark area in front of the left bank gave up the refuge in parallel voids and were finally found by Ye Xuan. Killed eight of them, only Hong Gu Shuluo and the three-eyed demon survived...

The kind of incitement, which represents the galaxy of the galaxy that has been invisibly guarded by the power of the emptiness of the law, is about to open. first

The previous incitement may be a reminder. At that time, Ye Xuan realized that the opening day of the Galaxy was about to come, but he did not think of it anyway. It didn't take long before the Galaxy Stars appeared again.

The time of two instigations is so short, and this time the instigation is still more intense. All this is enough to show that when the Galaxy Stars are opened, it is really coming soon, perhaps in the next second. It is by no means impossible...

"In the recent past, this has been the second incitement of the Galaxy Star. If there is no accident, according to the old man's deduction, when the third intrusion comes, it should be the opening of the Galaxy Star..."

In the middle of the glory, after flooding back, he smiled and said to Ye Xuan: "Ye Daoyou, the Galaxy is just around the corner, the old man is afraid that he can no longer chat with you, time is running out, there must be some preparation, and Those who have been self-cultivated since the last era and have lived to this era have been born in recent days..."

The pattern on both sides of the Milky Way will soon change. The Taoist priest also has a forbidden land, and now it's time to go back and arrange it..."

In the words, Hong Hao has already got up, and Ye Xuan is the same. He gave him a deep look, and he did not say much.

"Oh..."

The crisp and fierce cracking sounds, Ye Xuan tears open a void crack in front of him, the body repairs as a reminder, the shoulders sway, and then instantly plunged into the crack, blinking disappeared...

What Hong Wei said is correct. Now that the Galaxy is opening soon, Ye Xuan really needs to prepare for it.

Compared with the floods, they have been self-cultivating since the last Hongmeng era. Just like stealing the sky, they have always lived to the old and undead of this era. The pressure on Ye Xuan's heart is even heavier.

The purpose of these old and undead people is simply to enter the Galaxy Star Field to compete for the next era of glory. but

Ye Xuan is different. He has always suspected that the mysterious mother star in the Milky Way star field is his hometown. If this is the case, the purpose of Ye Xuan entering the Galaxy Star Field will become more complicated. he

Not only must we fight for the glory of the next era, but more importantly, we must protect the mother star from being invaded by these old people. This

One point is necessary. Once the Galaxy Star Field is opened, the first thing Ye Xuan has to do is to determine whether the mysterious parent star is his hometown. If this is the case, then even if it is all the old people who want to enter the Milky Way. In the war, he also... at all! "

boom! "

"Booming..."

The roar of the sky sounded, and most of the vast and innocent Hongmeng had a sense of emptiness...

The movement is too big, and the whole area of the Milky Way is slightly trembled. Naturally, there will be such an influence. This has been the second time of the Galaxy since this time.

To be precise, it is not the Milky Way star field that is inciting, but the invisible shield formed by the force of the law of the entire galaxy.

Although the shields are invisible and inferior, they are huge and huge, and the entire galaxy of the Milky Way is shrouded in it. Even if the supreme power of Hong Mengjing is fully shot, it is impossible to forcibly open it...

Today, the entire invisible shield has been instigated, and the meaning it represents is the opening of the Galaxy Star Field.

This is the second time that it has been shaken. If there is no accident, when the third time of the spurt, the invisible shield has been closed by the entire Yinmeng era of the Hongmen era, and it will be opened...

For this, all people are well aware, and as such, with this recurrence of the Milky Way, the entire vast and narrow stream of the Milky Way, one by one forcibly forbidden and the myriad of beasts in the Xeon With the survivors, without exception, almost all of them have mentioned the eyes of the blind...

Whether it is the ordinary strongman who is cultivated as the following powers, it is still the ancient powers of the ancients, the ancients and the supreme, and even the heavens and the old strangers, as

well as the three gods of Hong Yu, Hong Gu Shuluo and the three-eyed demon god, except for Ye Xuan. All are looking forward to the hope that the Galaxy will be opened after the third intrusion...

The high-level of these fierce beasts and the high-ranking people in the abandonment of the people have already begun a vigorous military assembly. Whether it is the forbidden land of the beasts or the land of the people, all the powerful insiders are ready to go.

Just wait for the Galaxy to open, and immediately assemble the assembled army, rush into the Milky Way, enter into it, and carry out the \*\*\*\* battle for the next era.

In the left section of the left bank, a certain beast is in the forbidden place...

"Oh..."

Suddenly, there was a crisp crack in the air, and a void crack suddenly appeared without warning. Then, a figure emerged from the crack. This

It is a starry beast, a huge body of 50 million miles, huge and incomparable.

As for the cultivation of breath that has been dispersed from his body, it is not only old but also extremely powerful. This

It's a singularity, and it's a realm in Hongmeng. From this point of view, he should not be the first batch of Hongmeng, except for the three thousand chaotic devils at the beginning of the Hongmeng era. Before the age of 10,000 years, because I got enough Tianjiu Avenue, I entered one of the peak days of the retreat. to

Whether this Hongmeng monster is like a flood, and the starburst that has entered the Galaxy Starfield in advance, has existed since the last Hongmeng era, and it has been repaired since the end of the last Hongmeng era. Stealing the sky has always lived to the end of this Hongmeng era, it is not known... he

It should have been closed in a parallel void, and it has been a million years old. It may have already broken through. It has successfully entered the Hongmeng and became the strongman of the Supreme

Avenue level, but it has not been born. It has been in the past. The parallel of the retreat crouched in the void, consolidating and repairing. and

Nowadays, it must have sensed the second incitement of the Milky Way. This powerful supreme glory has finally come out, and it has come from the parallel void of its retreat.

"Roar....."

At this moment, as his body shape rushes out of the sudden crack of the void, this powerful Hongmeng blame, even if he screams and screams, the body's pressure is diffused and opened, and the knowledge is instantly shrouded. The vast forbidden land, its voice is low, but it exudes infinite domineering: "After a million years, the Galaxy is finally going to open? The deity... come back!"

"Roar!"

Oh..."

"Hey..."

With the sound of his gods, the entire forbidden land in the forbidden land, in a moment of abandoned stars, responded to the general horror and screams, overwhelming, like a tide...

In the voices of these arrogances and screams, all of them are full of excitement and joyfulness, and at least a dozen of them are screaming, showing a strong atmosphere of heaven. This

The singularity of the singularity that emerged from the parallel void is the stalwart of this forever banned million years ago. It is also the founder of this forbidden land. Now he has closed for millions of years and finally cleared the border. It was born out of the world, and it has become the sacred avenue after the Heavenly Road.

For the countless forbidden beasts in this Xingqiang forbidden land, this is obviously a matter of joy and celebration. They finally have a singularity in the forbidden place. Soon after the Galaxy opened, the banned beast army was fully opened. Entering the Galaxy to compete for the next epoch of the

Mongolian and Mongolian air transport, there is a strong leader of the Red Monster, which is obviously different in meaning...

With this excitement and joy, the countless forbidden beasts in the abandoned stars in the entire forbidden area, regardless of their strength, include ordinary beasts below the power, including power and wild animals, including The dozens of heavenly eccentrics, without exception, all lie on the ground, the excitement and excitement of the mouth, but never stop, resounding...

In the middle of the right bank, the supreme star domain ruled by a strong survivor...

"call out....."

The faint sound of breaking through the air, a mile from the edge of the star field, the speed is coming to the extreme, even if the gods of heaven and earth can not be locked, the blink of an eye has already rushed into the interior of the star. This

One scene alarmed the two heavenly lords in this Supreme Star field. They were mad and shocked, all rushing out of their own Dongfu stars, welcoming this fast-moving mansion that just rushed into the interior of the star. silver

The right bank of the river is far from being able to compare with the left bank. When Ye Xuan left here to go to the left bank, there were even too many heavenly monsters in the fortified forbidden land and the Xingqiang area on the right bank. which is

There are only one or two at most, but recently, more and more Tiandao blame has been born, so that the overall strength of the right bank and the Xingqiang stagnation on the right bank is like a huge increase. . can

Even so, the entire right bank of the Galaxy, but there is still no strong man on the Hongmen Avenue after the Heavens, no one. Such as

Nowadays, from the emptiness of the dark void outside this Xingxing domain, it has become a sacred glory after the heavens.

This is a strongman of the survivors. The cultivation of the atmosphere is not far from the first step, but it has reached the fourth stage of Hongmeng.

Obviously, this stranger is mostly the same as Hong Yu. It existed as early as the last Hongmen era, and has lived to the end of this Hongmeng era...

"call out....."

The sharp and unpredictable sound of the air broke out. This is a horrible speed of horror. The blink of an eye is all from the outside of the star field. After reaching the depths inside the star field, the steepness is in the void. And stop. One

The figure of the old man appeared, and his gray robes, gray and gray whiskers, looked unremarkable, but the middle of the body that was scattered in the body was a breath of horror.

He did not deliberately turn the cultivation into a pressure, but it was invisibly dispersed. Under the glimpse of the gloom, the gods immediately enveloped the entire vast universe...

"Ancestral ancestors?"

hiss! Your ancestors, your cultivation is... Congratulations to your ancestors, hi Jinhong Meng mid! "this

At the time, the two heavenly lords who were sitting in this star field had already arrived, and they looked at the gray robe remnant. The face suddenly disappeared, and then they immediately fell to the ground. This

The survivor of the surname, known as the savage eccentric, is the founder of this singularity, but he has long since disappeared into an endless period of time. When he left, he had the cultivation of the late Tiandao.

After a long period of more than a million years, since the ashes left, there has been no news of him. This

The seniors of the survivors in the Supreme Star field originally thought that he had already fallen outside, and he had already forgotten him. He did not expect that he would suddenly return today. What is even more amazing is that he has not only broken through the heavens, but also entered. After the Heavenly Road, the Hongmeng Avenue, even far from the ordinary Hongmeng, has a fourth-order situation in the middle of the Hongmen...

This is definitely a thrilling glory. With the unexpected exclamation of the two sacred people, the whole saga of the Supreme Star is instantly silent.

However, this silence was quickly broken. The stars in the sky were far and near. In the abandoned stars, countless survivors and strong people all cheered, and the sound of the sound, even the void, made a slight tremble... Indeed

Really excited, but also must be excited, the meaning of a red monster, enough to make them ecstatic. in

Before this, although there was no one on the right bank of the Galaxy, the news of the left bank of the Galaxy has been thirteen times since the last few years. On the right bank, there are a strong forbidden land and a strong star field. It has also been heard. when

However, Ye Xuan, the master of the temple, entered the Hongmeng, and was killing the news of Hongmeng, but it has not yet arrived here. The time is too short, and the two sides are separated by the vast Milky Way. It takes a certain amount of time to spread.

Therefore, on the right bank, one of the strong forbidden places and the celestial celestial monsters in the Supreme Star field, only know that there are thirteen Hongmeng monsters on the left bank, and the thirteen left-wing old monsters are repaired, but they are all Hongmeng. First order only. but

Nowadays, the first Hongmeng monster on the right bank has finally come out, and it is far from being as simple as Hongmeng, but it has reached the fourth stage of Hongmeng. How can this not be exciting?

The first order is only the beginning of Hongmeng, but the fourth order has entered the middle of Hongmeng. The gap between them is just like the difference between the heavens and the earth. For the right bank of the Galaxy, especially for this survivor, the significance is so great that it cannot be said. Have

The leader of this mid-term grotesque, once the third instigation came soon, the Galaxy will open, and they will enter the Galaxy to compete for the next epoch of the eternal glory, and their own enthusiasm will be completely different from the previous ones!

Such a scene is not a case. Similar situations have occurred from time to time. With the second incitement of the Galaxy, the two sides of the Galaxy River, from time to time, have some eccentricities and ecstasy.

Heaven and the old blame will not mention, and today's Hongmeng void is the world of Hongmeng, the so-called heavenly blame, is no longer the protagonist. thing

In fact, after the second incitement of the Galaxy, the number of Hongmeng monsters that have been born on both sides of the Galaxy is not in the minority.

These are basically some of the old geeks in the early days of Hongmeng, but the second-order and above-mentioned mid-term revisions are not uncommon. very

As for the cultivation of strength beyond the floods and Ye Xuan, also entered the late period of Hongmeng, but it is not the seventh order of Hongmeng, but it also exists... left

In the middle of the shore, a strong forbidden land!

"Roar....."

Rumble..."

In the deepest part of the earth's stellar field, suddenly there was no sign of a terrifying arrogance. The power of the power is simply horrifying. It is just a snoring sound. It actually makes the forbidden land more than 100 billion mile inside the vast void. Resonating with it, it made an earth-shattering thunder and thunder...

The snoring is only one, but the sound of the banging of the emptiness of the emptiness is like a tidal wave, overwhelming and long-lasting. One

The figure of the road, the deepest part of the forbidden land from the snoring, suddenly appeared without warning.

Even the cracks in the void have never been seen, so it appears directly out of thin air...

This is a fierce beast, with a body size of more than 50 million miles. The body is filled with a breath of breath, and it is even more powerful.

Hong Meng old strange!

And it is still late in Hongmeng! quasi-

To be sure... is the eighth order of Hongmeng!

This eight-order old monster is a double-headed konjac. Two large heads are like two huge swollen bags. They are placed side by side on the shoulders. They are full of blood and have no hair, but they are covered with various scales. It looks like a wicked singer, and it's awkward. "

Roar! "

"Hey..."

Oh..." with

The two-headed konjac was born, and in the entire fortified forbidden land, all the countless forbidden beasts in the abandoned stars were all on the ground, and their bodies were slightly trembled. but

It is not because of fear, but because of excitement.

Yes, it is indeed excitement. This double-headed konjac is the founder of this forbidden land. It has disappeared from the endless years. I didn't expect it to appear again today, and the strength has reached such a terrible level. Hong

Meng Bajie, this is definitely the most powerful existence on both sides of the Milky Way, even if it was the ancestors who had just been born not long ago, and the fierce devils, the countless fierce beasts on both sides of the Milky Way and the survivors' stars were shaking. Ye Xuan, the master of the Temple of Devils, has no such cultivation as strength. Although it is also a post-production situation, it is only the seventh stage of Hongmeng..."

Roar....."

"The Lord of the Devils, Ye Xuan? Actually has the blood of the ancient konjac, three heads and six arms, the real body of the konjac..."

The exploration of the gods, this double-headed konjac instantly learned from the consciousness of some forbidden beasts that everything happened on the left bank of the Milky Way. he

The two pairs of magic eyes flashed in the gloom, and the hair screamed out.

Then the sound of the gods suddenly came out, covering the entire forbidden land, and countless forbidden beasts were clearly audible: "When the Galaxy opens, he will definitely show up. By then, the deity will swallow him. It is very likely that we will once again usher in the opportunity of breakthrough. The spirit and blood of the soul will evolve again. From then on, we will enter the 9th-order Daheng Peak..."

"Roar....."

Boiling!

On both sides of the vast expanse of the Milky Way, the myriad of beasts and survivors in the Xingqiang forbidden land and the Xingqiangxing are almost all boiling...

Since the second incitement of the Galaxy, in just one month, a large number of Tiandao grotesques have been born, and even the eternal Hongmen after the Heavenly Way is no longer uncommon. which is

It was the right bank of the Milky Way that was not previously occupied by Hongmeng. Since the first singularity of the fourth-order remnant of Hongmeng was born a month ago, this month, the red monsters, including the beasts and survivors, have also been born. More than forty.

As for the right bank, it is much stronger than the right bank. The overall strength is almost one level higher than the left bank of the Galaxy. This month, the eternal blame is more, counting the beasts and survivors, the total number is close to one hundred...

That is to say, all the blame on the banks of the Milky Way add up to a total of more than 100, which is simply astounding.

This is a big world, the eternal sorrows of the endless years and the remains of the remains of the remains of the people, all eyes are locked in the Milky Way, only to wait for the third time of the Galaxy, when the Galaxy opens, it will swarm, Entering the Milky Way, the \*\*\*\* battle for the next era of Hongmeng airlift...

Among the more than one hundred honours, the strength has reached the seventh stage. The existence of the late stage of Hongmeng is one-third, all of which existed in the last Hongmeng era, and have lived to the old age of this era. Not dead. This

Among them, the cultivation of strength has reached the horror of the eighth order of Hongmeng, and there are nine statues, which are stronger than Hongyu and Yexuan. Both the survivors and the beasts have it. but

The ninth-order grand perfection of Hongmeng Peak is none of them.

Nowadays, more than one hundred Honorians are sitting in the more than 100 forbidden areas and the stars in the banks of the Milky Way. These are the strongest forbidden places and the strongest stars in the town of Hongmeng. The atmosphere is even more exciting. All the banned beasts and the remnants of the stars are all cheering...

At the same time, in the magical hall of the left bank of the left bank of the Milky Way, it is also a scene of joy. Such as

Today, there are still only four heavenly strongmen who sit in the magical temple, which are the engulfing treasures, the old pigs, the beasts and the lions.

However, in the past few years, the cultivation of the four people has become a fast-moving one. Nowadays, the engulfing of the treasure body is already the peak of the ninth-order grand perfection. old

Pig essence also reached this level. emperor

The beast and the lion are slightly weaker, but they are already in the seventh stage of the heavens...

In addition to these four powerful heavenly powerhouses, there are also a lot of powers and ruins in the Forbidden City, including Zhao Dong, Qian Nan, Sun Xi, Li Bei, and Sang Zhizuo. We are now all ridiculous. on

Even the commanders of the Tianhe Legion, the mosquitoes and the old ghosts, and Naples, as well as the emperor Mo Wentian, the devil's uncle, the tortoise clan, the ninth, the madness, the old man, the old man, the end of the wood, the Bodhi, and other small idle forces. The top members of the family are now all in the wilderness...

In the past few years, the six major corps of the Devil's Hall can be described as talented people. After all, when Ye Xuan left, he left a large number of outstanding resources such as Baodan and Jiu Cai Da Yao, Chao Chao Shenji...

Nowadays, the six major regiments of the Magic Hall have already been assembled, and even the various resources in the abandoned stars have been collected by the strong parties in the Legion. The entire Great Hall is ready. Only when the Galaxy is opened, the staff will be swept away and will be dialed away.

This is exactly what Ye Xuan has already said. This temple is just a temporary place for them to stay. The final destination is the Galaxy Star...

At this time, Ye Xuan's Dongfu star field, the black temple that represents the magic hall, seven Yan Xiu and Xuanyuan Ziyang, Duanmu Xiaocha, Zhao Qianru ten gimmicks all gathered. Seven

Da Yan Xiu has already entered the heavens, and the three gimmicks of Xuanyuan Zijiang are also the ancientest, and they are also waiting. Once the magic hall army is opened, entering the Galaxy Star, they can be with the deity of Ye Xuan. Reunion...

"Listen to the owner, the mysterious mother star in the Milky Way star field is very likely to be his hometown..."

The ancestral ancestors looked at the night sky and muttered: "I really want to go see it early, what will the owner's hometown look like?"

In fact, not only the Temple of the Stars, but also the source nest of the Devil's Elite Corps, is now ready to be opened at any time. magic

Among the people's regiments, the commanders of returning to the sea and Cang Qingyu are now ridiculous, and the other devils are also the supreme cosmic, and in the original beasts of the old pigs It is also a strong person...

This is not a part of Ye Xuan's strength, just a part of the bright side. he

The real heritage is actually within a nest of stars.

At the beginning, Ye Xuan took the lion and the golden horse to swim in the endless dark void in front of the right bank of the Galaxy. each

Upon arriving at a source nest star that had been marked with interstellar coordinates, one of the accountants brought out by this account was sent into the stars and began to steal the sky. Be

Ye Xuan sent a source of nest stars under the account of a lot of real, including the emperor Lei Ling, Mosquito demon, bloody, elephant fox, Yingtai, Limos, Feitian and silver old... ..to

And Taikoo Porcupine, Taikoo tortoise, green cow, jade exquisite, roaring moon, dragon, black robe, ninth, three-jawed dragon, and wolf stale, Dusha, lion overbearing six people!

In the end, there are dozens of savage beasts and bloody, Qingpeng and war lions.

The number of people is 98. In fact, if he counts his strength, and before he enters a source nest, he will launch the wild mosquito king, and Ye Xuan's camp enters the source nest. The existence of gestation has reached one hundred...

The entire vast and innocent Hongmeng void, when each era opens, the total number of chaotic demon gods bred in 3,000 source nest stars is only 3,000. only

Only Ye Xuan's squatting squats, and it occupies one hundred sects. Once this squad is born, it will be born as a chaotic demon god. When it appears, it will have the horror of Hongmeng.

And the strongest power of the three thousand chaos devils is the power of Ye Xuan...only

Judging from these details, the Hongmeng qiyun of the next era is already non-Yexuan, and it is difficult for anyone to take it away from it. There is no competition for it. Do not

However, the opening of the Galaxy is just the end of this Hongmeng era. The opening of the next era will come after the opening of the Galaxy. When will the three thousand chaotic devils be born, nowadays, it is still unknown. ....One

Dazzling, it is two months later. On this day, the entire vast Milky Way swayed again and again. This is the third time that it has been shaken. On both sides of the vast Milky Way, countless beasts and survivors are all short of breath. Body shape shock...

Chapter 5170: Gathering in the Milky Way

Calculating the time, the second time since the last Galaxy, the whole three months have passed...

In the past three months, there have been a number of savage beasts and survivors in the straits of the Milky Way. I don't know how many great powers and ridiculousness, and the number of eccentricities, even the number of gems in the Galaxy, the total number of the Galaxy It has exceeded two hundred. three

In a month's time, every day, the atmosphere on both sides of the Milky Way is even more dignified. All the strong parties are ready, and they are eagerly awaiting, looking forward to the opening of the Galaxy after the third instigation. ..."

boom! "

"Booming..."

For a moment, since the second incitement, it has been silent for a full three months of the Milky Way, and finally there is a thunderous sound of earth-shattering.

The third incitement of the Galaxy has finally arrived, and the opening of the Galaxy Star Field has also arrived...

At this moment, on both sides of the vast Milky Way, there are fierce beasts and forbidden people in the star field. Countless strong people are all short of breath and stunned... left

On the left bank of the shore, a strong forbidden land! "

Roar....."

"boom!""

Rumble..."

A powerful force screams at the horrible fierce beast, and it suddenly sounds at this moment. It spreads out from the depths of the forbidden land, revealing endless joy and excitement, and even more meaning of iron and blood to kill, invisibly dispersed. With

The horrible beast came out, and a huge figure rushed out from the depths of the forbidden land. This is a powerful ancient beast with a body size of 50 million miles, and the body is filled with breath. It is the seventh step of Hongmeng. It is the late stage of this...

The body rushed out, and the fierce beast did not hesitate, and slammed away toward the edge of the Milky Way ahead. in

Behind him, a huge and fierce beast army closely followed, the Galaxy has already started, and the countless beasts in this Xingqiang forbidden land all set off and gathered together to form a huge army of beasts and follow the forbidden place. The founder, who is behind the seventh-order Hongmeng, is heading towards the edge of the Milky Way and screaming...

There are too many, overwhelming, countless fierce beasts shrouded the corner of the void, and the top one is nearly a hundred heavenly lords, followed by absurdity, power, and then, It is a common number of ordinary beasts that have been cultivated below the big powers...

All the fierce beasts and the survivors of the Galaxy are all established not far from the banks of the Milky Way. Now, all the beasts in this forbidden land are assembled and rushed out of the forbidden land, and soon in this late period. Under the leadership of the beast, I came to the edge of the Milky Way and crouched down, waiting quietly...

The right bank on the right bank, a strong star field! "

Oh..."

call out! ""

Oh..."

There was a whistling sound of whistling sounds. From the depths of this to the strong star field, there was also a figure spurt out. After the star field, it hurried to the edge of the Milky Way ahead. ....This

It is a remnant of the old people, the sacred wind bones, the body that is dispersed in the body is a breath, it is also the late stage of Hongmeng, but it is not the seventh order of Hongmeng, but more powerful... Hongmeng eighth order! in

Behind the horrible cult of the eighth-order horror, there are still dozens of heavenly sects, as well as a large number of ruins and powers. They are all powerful and powerful. They all cross the void in the flesh and are comparable in speed. Meteors, gathered toward the edge of the Milky Way ahead.

The survivors of this Supreme Star are also migrating, and the versatility is the following existence. All of them are driving all kinds of battle boats, and they are gathered together in the void to form a huge army of warriors. ....

Soon, the Essence of the Eighth Orders stopped at the edge of the Milky Way and did not move forward, but stopped on the edge of the Milky Way. with

All the heavens and monsters behind him, the absurdity and the mighty power, and the overwhelming majority of the masses of the people's warships have also stopped. The turbulence of the Milky Way continues, and the passage into the Galaxy has not yet been opened. All the people Although very excited, but very patient, waiting at the edge of the galaxy...

A scene like this is happening constantly. With the third incitement of the Milky Way, the Supreme Forbidden Land and the Supreme Star Field on both sides of the vast Milky Way are almost all nestled. flood

It appeared, standing on the edge of the right bank of the left bank of the Milky Way, behind it is a huge legacy of the Legion.

Hong Gu Shulu appeared, three eyes of the demon appeared, and behind them, there is also a huge beast army...

Including the survivor's strong ashes, and the refinement as the strength in the eighth step of Hongmeng, arguing that the main hall of the temple, Ye Xuan, swallowed, and thus broke through to the ninth-order grand perfection of the double-headed konjac... ..without exception, all with their own beasts or survivors' corps, gathered on both sides of the Milky Way!

Of course, today's banks on the banks of the Milky Way are a lot of people, more than two hundred, but there are more banned beasts and survivors on both sides of the strait, far more than two hundred...

Therefore, some of the forbidden places and the stars are not in the middle of the star, but now they are also nestled and moved. These forces are also formed into beasts or survivors, gathering on the edge of the banks of the Milky Way. only

However, the commander in the forefront is not a stranger, but a group of strangers.

Among them, it includes the Magic Palace.

The six corps of the Forbidden City of the Forbidden City are now all set out from the Star Temple, gathering in the left edge of the right bank of the Milky Way, and in front of this huge army, there are four figures standing in the body. The breath that is diffused is all heaven and earth...

Devouring the treasure! old

Pig essence!

Emperor!

And... Lion Wanjin!

"boom!"

Rumble..." Right

On the right side of the bank, in the dark void in front of the edge of the Milky Way, suddenly there was a thunderous thunderous sound...

Looking around, a huge star is shining towards this side.

This is not a general abandoned star. From the perspective of its size and certain characteristics, it should be a source nest star that breeds the Chaos Devil, so that some of the beasts and the survivors who are waiting in the right part of the right bank are stupid. .

They thought that the source of the chaotic demon that was born in the nest star was about to be born. Otherwise, how could this source nest star be so special, just like a living thing?

In fact, this source nest star has long since been abolished, representing the chaos demon \*\*\*\* bred by this Hongmeng era, no longer an integer three thousand, but two thousand nine hundred ninety-nine...

That's right, this is the source nest base camp under Ye Xuan. table

On the surface, it seems that a whole source of nest stars is spurting. In fact, this source nest star has long been swallowed up. Nowadays, it is the source of the nest star. It is the life of Ye Xuan. The wild number is only..."

Roar! "

"Hey!"

Oh..."

At the same time, in the middle of the right bank of the right bank of the Milky Way, the sound of the horror and the whistling sound suddenly rang, and a powerful army of beasts is coming to this side, and the characters leading in the front are awesome. It is the existence of the void giant tortoise and the wild night fork..."

Roar! ""

Hey! "

"Hey..."

When Ye Xuan's source nest base camp spurred toward the right edge of the right bank of the Milky Way, the front of the right bank was in the void, and the sound of horror and screaming suddenly rang...

A powerful army of beasts is coming to this side, and the characters who lead in the front are the existence of the empty giant tortoise and the wild night fork! This

There are a large number of savage beasts, and there are a large number of people. The weakest of them is the power of the wild, and even the ruins are many, but the seventy-eight commanders of the Nether Giant Turtle, the Wild Night Fork and the Golden Dragon Strength, it has already reached the heavenly state, and it is still the late Tiandao... This

The army of the beasts and beasts is the team of the headless baby corpse and the wilderness of the wilderness. The team of the horrific war that broke the entire world of the wilderness has not known where the crouching has been, and now with the empty giant tortoise and the ancient Yaksha and others, with the help of Ye Xuan, broke through to the heavens, and this baby corps was finally born...

The days of the sky have passed by. In the past nine days, the banned land and the sacred land of the two sides of the Milky Way have almost completely disappeared. put

Looking into the sky, on the banks of the Milky Way, a branch of the beastly army and the Legion of the Legion are gathering and waiting, each one is huge, almost empty the entire edge of the vast galaxy, all congested.

In front of these beastly army regiments and the Legion of the Legion, there is either a group of heavenly grotesques, or a singular monster, which is the command of the various regiments...

In the past nine days, the entire vast Milky Way star field has been swaying all the time, and the thunderous sound of the rumble is astounding...

In fact, it is not the Milky Way star field that is inciting, and such a vast and vast star field cannot be so instigated. true

What is being shaken is that it is shrouded in the Milky Way's star field, and it is held in its entirety. Even if Hongmeng is unable to forcibly break through, the invisible barrier that is condensed by the law of Hongmeng and Nether...

Although this layer of barrier diaphragm is invisible and inferior, it is extremely powerful, and as the time of opening the Galaxy is getting closer, its toughness is also increasing.

When Star Bo and the headless baby corpse entered the Galaxy Star Field in a different way, the invisible barriers of this layer could not be shaken by the full-scale bombardment.

Later, even if Hongmeng's old singer tried his best, he could only hope to sigh. Such as

This powerful layer of barrier diaphragms is so boundless that the entire vast Milky Way star field is enveloped, and its power is so powerful that it can be imagined.

Nowadays, the entire invisible barrier of the barriers is moving, and the power of the law of Hongmeng is surging, causing the movement and the horror of the sound. It is horrible...

The volume is surging, and the invisible barrier formed over the entire Milky Way star field has become a huge and huge vortex. Hong

The power of the law of the emptiness of the void was originally in the dark, invisible and inferior, but now, because the violent violent intensity of the energy is too strong, there is a translucent giant vortex above the Milky Way.

This giant energy vortex is too large, covering the entire Milky Way star field, and the endless vortex is gathering toward the center point, and this scene is clearly showing the countless beasts on the banks of the Milky Way. The eyes of the survivors are...

All the people held their breath, but their body shape shook slightly.

Too excited, waiting for the endless years, almost a Hongmeng era for so long, and today, the stalwart Galaxy where the mysterious mother star is located, will finally open...

The Mongolian era is like a reincarnation. It is not known how many times it has been translated during the opening and closing. but

But only this one Hongmen era, there has been an unprecedented vision...

In the countless worlds opened by the three thousand gods of the Hongmeng era, the vast world of the most powerful power demon gods, which collapsed before the endless years of the world, was a star river that was hollowed out. The power of the law is drawn, and it is introduced into the void of Hongmeng, and then it is protected by the power of the invisible Hongmeng law in the darkness...

a scene that continues to this day...

There must be a demon in the abnormal situation. In any previous Hongmen era, there has never been such a precedent. This time, the power of the law of Hongkong's void has unexpectedly taken the initiative to protect a star separated after the collapse of a big world. Domain...only

With this, it has been reminiscent of a lot.

For this reason, since the scene of this scene, the Milky Way, which has been firmly guarded by the power of Hong Meng's emptiness and law, has begun to have a savage beast and a remnant of the sects. After all the endless years, these are in one. A forbidden land and countless beasts and survivors in the star field finally waited for the moment when this mysterious galaxy opened...

"Roar!"

"Hey!"

Oh..." hard

Excited by the heart, some fierce beasts and survivors and geeks screamed at the arrogance, revealing endless joy. certain

Some powerful beasts and survivors are even more savage beasts. During this waiting time, they look around and look for the existence of threats. Keep in mind, after entering the Galaxy, be careful. Alert, either try to kill..."

boom! ""

Rumble..."

In this process, the invigoration of the vast and innocent Milky Way star field has never stopped. The thunderous sound of the rumble is shocking, and the whole piece of Hongmeng is clearly audible...

The glare of the eye is nine days passed.

During the last nine days, although the incitement of the Galaxy's horoscope continued, it did not stop, but the earth-shattering thunderous sounds clearly showed signs of rest.

In the past nine days, as the thunder of the rumble has become smaller and smaller, the eddy currents on the entire invisible barrier diaphragm covering the Milky Way have become weaker and weaker. The entire invisible barrier diaphragm is originally everywhere. The eddy current, the whole is a huge translucent vortex...

But now, the vortex of this giant vortex has gradually stopped, only in the most central position, there is a swirling vortex.

This vortex is 100 million miles in diameter and is very deep. It is like a passage, and it leads directly to the interior of the Milky Way.

At one moment, the turbulence of the Milky Way stopped, and the thunderous thunder of the rumble was completely overwhelming. The vast Milky Way star field was still covered by a giant barrier diaphragm. In the most central position, there was a vortex of 100 million in diameter. Eye...

Undoubtedly, this vortex eye with a diameter of only 100 million is the only channel to enter the galaxy!  
"

Roar! ""

Hey! "

"Hey..."

With the end of the third incitement, the Galaxy Star Field officially opened, and the numerous beasts and survivors who gathered around the banks of the Milky Way all swayed..."

Roar! "

"Hey!"

Oh..."

With the end of the third incitement, the Galaxy Star Field officially opened, and the numerous beasts and survivors who gathered around the banks of the Milky Way all swayed... No

The number of beasts roared excitedly, and even the powerful members of the survivors all looked up and screamed...

The more than two hundred Hongmeng geeks who stood in front of the huge regiments on both sides of the Milky Way were all motivated by the repairs in their bodies. Only when the vortex passages in the sky above the central bank of the Milky Way were completely stabilized, they immediately swept. Get out of it, rush into it, enter the galaxy...he

We don't know that Xingbo and headless corpses have entered the Galaxy Stars ahead of time, but even so, none of the more than two hundred eccentrics are willing to wait for even a second.

They have been waiting for a long time, especially those who have existed since the last Hongmen era. They died at the end of the last Hongmen era. After entering this Hongmen era, they have been crouching. Restart the road of practice... one

The glare of the eyes, the entire long period of time has quietly passed away, they finally waited for the Galaxy to open, the excitement of the heart is simply unspeakable...

The Hongmeng era is too special. There has never been such a situation in any of the previous Hongmeng eras. After the collapse of a big world called the wilderness, there was a star field that was dragged by the emptiness of Hongmeng. The power of the law condenses into an invisible diaphragm barrier for protection...

When there is an abnormality, there will be a demon. After all these people are stunned and aware of all this, they realize how special and extraordinary it is after the end of this Hongmeng era, the next Hongmeng era to be opened!

It is also since then that their hearts have been extremely fortunate, they have encountered the opportunity to go against the sky, can witness the opening of the next Hongmeng era. If

If there are no accidents, Hong Meng's void will always be in search of chaos, and in all likelihood, it will become a reality in the next Hongmeng era. and

This incomparable opportunity is clearly in the Milky Way starry field protected by Hong Meng. for

Therefore, even though they have been retreating in the long years of this Hongmeng era, they still have a glimpse of the gods and closely concerned with the changes of the Galaxy. Such as

Today, after the third incitement, the Galaxy is finally open. They will soon be able to enter the Milky Way and compete for the opportunity that represents the supreme chaos. How can it not be exciting?  
silver

There is only one river, and the opportunity of chaos after Hongmeng is even more precious. No one wants to share it with others. Therefore, after all the geeks enter the galaxy, the \*\*\*\* battle of Haotian must be inevitable. All this person I know it well. very

As for them, in their view, even if they enter the galaxy in succession, they will have an impact on their ability to obtain the opportunity related to the supreme chaos. where

I am afraid that this order of difference is only calculated in seconds.

The method of blame and blame is too amazing. For the Galaxy, which is only a land of stars, even a few breaths of time are enough for the existence of a prince, and there are many things inside the Galaxy.

Therefore, in the matter of entering the Galaxy, all the old guys are competing every second. Those who are under the hood of God are not qualified to compete. They can only wait until all the geeks have entered. but

Nowadays, the two hundred and more honoured geeks in front of a huge army on both sides of the Milky Way have already prepared for it. No one will retreat at this time. As long as the vortex channel over the central bank of the Milky Way is stable, All the more than two hundred honours and sorrows will surely move and exert their full strength to compete for the first opportunity to enter the Galaxy...

This moment will come soon, at most ten points of interest, with more than two hundred Hongmeng blame all push the body's repair to the extreme, the void has a sense, issued a deep resonance, a share The invisible chilling looms over the vast expanse of the Milky Way, and even the heavens and the old blame are shivering..."

Oh..."

It is at this moment that just as the two hundred looms of the two squats on both sides of the strait are ready to go, and on the occasion of the rushing out of the central bank of the Milky Way, the side of the vortex channel that will be completely stabilized immediately, suddenly There was a very low humming sound...

This humming sound was too abrupt, and there was no sign of a single sign before it. Even the two sides of the straits were stunned, and the more than two hundred honours of the singer were completely unprepared. he

We have already extended the knowledge of God before, and firmly locked the vortex channel in the sky above the galaxy, but it did not find anything. original

Everything is normal, even if the nine masters have reached the supreme existence of the eighth order of Hongmeng, they have not seen a half-point.

For this reason, when the humming sound suddenly appeared, the two sides of the Milky Way were instantly quiet. The beasts and the benevolent strongmen in a large army group gathered in different areas of the two sides of the strait all raised their mouths unconsciously because of accidents. The face was shocked and sluggish. on

Even the more than two hundred Hongmeng geeks almost all took their eyes out. They never thought that there was a existence that deceived the perception of all of them and rushed to the sky above the central bank of the Milky Way. Beside the vortex channel, they are only a few million miles away, and they have been waiting at close distance...

This figure... It is Ye Xuan!

After leaving Hongyu Star Field more than three months ago, Ye Xuan did not return to the Forbidden City in the left section of the right bank, nor did he go to the source nest base camp. Because the right bank had the engulfing treasure and the old pigs sitting in the town, he did not have to worry.

What's more, when I left, I had already explained everything. Once the Galaxy is about to start, whether it is the Sixth Army of the Magic Hall or the source base camp, it will be rushing and coming... He

In the dark void in front of the left bank, I found an abandoned star, entered it, and started a retreat.  
first

In the past many battles, the \*\*\*\* magical power of his konjac has finally been able to show his fifth change. From this, Ye Xuan also has a late seventh stage of Hongmeng.

But this is still not enough. According to his derivation, when the Galaxy is opened, it is very likely that there will be a peak of Hongmeng and even the ninth stage of this scene. Place

With the cultivation of Ye Xuan as a strength, it has to continue to improve, not to mention the nine-order Hongmeng perfection, at least to reach the eighth order.

He entered the abandoned star to start a retreat, in order to completely repair the previous breakthroughs in a short period of time, and then look for opportunities to continue to break through.

What he never imagined was that only three months later, he only made the previous breakthroughs firm, just out of the customs, and the third incitement of the Galaxy suddenly came.

Unprepared, Ye Xuan can only rush to the Galaxy, and then the perfect shock of the spiritual power secret to the extreme, first crouched on the side, then, when the vortex channel over the central bank of the Milky Way is about to stabilize, from which The familiar hometown atmosphere makes Ye Xuan's spirit violent, and an inadvertently leading mental instability is to show the figure...

The perfect shock of the spiritual power secret, not only can completely hide the body shape, even all the air machine can be perfect. Take

Ye Xuan is now in the fifth state of the konjac change, the fifth stage of the horror of Hongmeng, and the magical spirit of the perfect shock is pushed to the extreme, even if it is the ninth-order grand perfection. Can't see any clue... like

The reason why his figure is revealed today is that Ye Xuan's own body.

When the vortex channel above the central bank of the Milky Way is about to stabilize, the familiar hometown atmosphere that has spread from it makes him feel mad, and an inadvertent result in instability of the mental power. The figure is accompanied by a weak and low body. The humming sound suddenly appeared, which is why...

But at this moment, he simply did not have the heart to pay attention to this problem. leaf

Xuan's entire heart has been completely stunned by the strong hometown atmosphere in the vortex channel that is thousands of miles away.

The Milky Way is not small, it is vast, and the solar system in his hometown is just a tiny part of the Milky Way.

Even in the solar system, his hometown is very inconspicuous, but it is the only living planet in the solar system. phase

For the entire galaxy, the water blue star where Ye Xuan's hometown is located is really too insignificant. Even so, in this vortex channel, there are just a few moments that are rapidly becoming stable. Ye Xuan is still The infinitely determined atmosphere of the star is the hometown that has been long gone. that

In it, it is also the mysterious mother star that the countless stars of the Hong Kong and the void are saying!

All along, Ye Xuan, after knowing the mysterious mother star, is suspecting that the mysterious mother star in this galaxy is his hometown.

Until now, when he personally felt its breath, Ye Xuan finally confirmed this. he

I don't know what the situation on the parent star is, what time and space is it now, whether it is time and space after I left, or has passed the endless years...

But one thing he is very determined, the mysterious mother star is his hometown!

At this moment, he was very excited, but soon, Ye Xuan's look suddenly sank, he captured the breath of Xingbo, and... the headless baby body! although

However, the vast and infinite Galaxy star field is still protected by the invisible barrier diaphragm condensed by the power of the emptiness of the sacred law. Only in the upper reaches of the Milky Way, there is a vortex channel with a diameter of 100 million miles. It appeared in the front of Ye Xuan thousands of miles away. very

As for this vortex channel, it has not been completely stabilized yet, and it takes a few breaths...

But Ye Xuan is now the late stage of the seventh-order world, and he has more mysterious spiritual power besides the gods...

Therefore, just passing through this vortex channel that has not been completely stabilized is enough to let him feel it all in a moment... and

When I sensed it all, Ye Xuan's face was steep and gloomy, but my heart suddenly became loose.

Because Xingbo has entered the Galaxy Star Field for a long time, but now he is still outside the solar system, and he can't enter at all. That is to say, although he entered the Galaxy, he has never been to the present. The mother star, naturally, can not harm the above creatures...

The invisible barrier diaphragm of the Milky Way is not just a layer, but has two layers inside and outside. outer

The first layer of the surface holds the entire galaxy, while the inner layer holds the solar system. star

Although Bo entered the Milky Way through the outer membrane, it could not enter the solar system through the inner wall.

The inner barrier barrier of the entire solar system is obviously stronger. Moreover, the outer diaphragm now has a mega-diameter channel over the central area of the Milky Way, but the inner layer protects the entire solar system. The diaphragm is still intact and there is no similar vortex channel. This

Let Ye Xuan's heart suddenly disappear, because at least the ancient star where the hometown is located, no need to worry about it again, in a short time, when there is no flaw...

Nowadays, this Hongmeng era is coming to an end, and the next Hongmeng era, which will soon be opened, will belong to the Milky Way.

It has been a long time since the headless baby corpse and Xingbo entered the Galaxy Star Field, and both of them obviously have income. he

They are not in the same position now, but the harvest is obviously not small. Xingbo is now a strong presence of the seventh-order heaven. According to Ye Xuan's estimation, when he first entered the Galaxy, he should still be the first step. Only. short

It is obvious that there is such an entry in a short period of time. to

In the headless baby body, the change is even bigger. His head is no longer in his arms, but he is back to the neck. The whole person's breath is no longer resentful, even even long. A lot, now it seems that it is no longer a horrible and chilling baby corpse, but a pink toot, about four or five years old porcelain doll.

Repairing for strength, today's headless baby corpse also reached the seventh stage of heaven, and entered the late stage of this situation, it is gratifying...when

Ye Xuan's powerful gods pass through the vortex channel that is still in the stable thousands of miles away, entering the Milky Way star field, capturing the breath of the star and the headless baby. he

The two of us also sensed the scent of Ye Xuan...this

At one moment, the headless baby corpse, who is like a four-and-five-year-old porcelain doll, looked up at the sky, and the shocked person in the stunned reveals a touch of confusion. It seems that some are unbelievable...

Xingbo is a breath of madness, and his face suddenly changes dramatically.

They are all seven-order heavens, but in the face of Ye Xuan, who has now become the seventh-order of Dahongmeng, the gap is like a mighty or abundance-strong, facing the seventh-order world of the late Tiandao...and

Moreover, this horror of the gods that made them irresistible, clearly reveals the atmosphere of Ye Xuan, the headless baby body is very familiar, and Xingbo also understands something from the engulfing system of Ye Xuan. "

Baby corpse, you and I are in a relationship. At the beginning, this temple has been greatly benefited by you. Today, I will vote for you! "eye

Under the glimmer of the glory, Ye Xuan's voice of the gods sounded through the vortex channel, and it came out of the Milky Way, and it sounded in the ears of the headless baby corpse and Xingbo: "From now on, you are The will of the galaxy world..."

The mysterious mother star is the hometown of the temple, and the solar system in which it is located is not allowed to disturb anything..."

As for the mysterious mother star, come to Star Bo..."

Here, Ye Xuan's Allow anyone to swear..."

boom! "

As soon as the voice fell, the remote corner of the Galaxy's star field suddenly sounded a thunderous sound. The star-studded star-bob did not have time to react, and the whole body shape exploded in an instant, turning into a \*\*\*\* fog. In this case... the smoke is gone!
