

Super D.S 5171

Chapter 5171: Konjac warfare

Although the vortex channel above the central bank of the Milky Way has not yet been completely stabilized, even the strongest person of the Hongmeng class cannot enter it at this time. After all, this vortex channel is in the center of the invisible barrier diaphragm covering the Milky Way star field. This barrier diaphragm is condensed by the power of the law of Hong Kong. Yet

When it is not stable, it is extremely dangerous even if it is arrogant and arrogant.

However, Ye Xuan is so close to the vortex channel that it is only about ten million miles. In this case, his knowledge and spiritual strength can be extended to the interior of the Milky Way through the vortex channel that has not yet been completely stabilized.

Today, he is already in the late seventh stage of the Hongmeng, how powerful is the gods and spiritual strength?

"Boom!"

As soon as his words fell, the remote corner of the Milky Way's star field suddenly sounded a terrifying roar. surface

The star of the dramatic change did not have any reaction, and the whole figure was instantly blasted under the invisible spiritual power of Ye Xuan, and it was completely blasted into a **** fog.

As for the headless baby corpse, Ye Xuan's words just fell, and there was a deep thunder and thunder in the Milky Way, and then there seemed to be an invisible air transport in the headless baby body. , so that it can be cultivated as a force to skyrocket at a speed visible to the naked eye...

The short-term interest rate is not enough. The headless baby corpse was originally repaired by the seventh-order Tiandao, and then it was promoted to the heavenly ninth-order grand perfection, that is, half-step Hongmeng...

The scene is like a miracle, reminiscent of the words with four words. and

Generally speaking, the scope of influence of this method with this supernatural power is not only different with the strength of the exhibitor, but also has special requirements in certain special circumstances.

With Ye Xuan's now-hardening of the 7th-order of Hongmeng, if he uses his magical words to play with the magical powers, it will be effective in the scope of a star field. That is absolutely no problem.

However, the star field where the headless baby corpse is located is not the ordinary ordinary star field, but the Milky Way star field under the protection of the emptiness of the law. very

As for the next era of Hongmeng Qiyun, it belongs to the Galaxy Star. This

In this kind of environment, even if it is only a small star field, even the strong people of the Hongmeng level will not have any effect with this magical power. thing

In fact, Ye Xuan Shicai did not use this supernatural power at all, and it happened to the scene of the headless baby body, which made him feel surprised...

The reason for this is that it is clearly recognized by the Galaxy. In other words, the appearance of this scene is almost representative of the next era of the Galaxy Star. where

I am afraid that all of this can only be a guess at present. It has not been confirmed. However, it is absolutely unacceptable for the more than two hundred honours of the two sides of the Galaxy. he

They waited for the endless years, just to enter the middle of the Galaxy, and compete for the next century's glory, because this is very likely to represent the legendary supremacy even in the countless Hongmeng reincarnations of the past. The chaotic opportunity...

Nowadays, the Galaxy Star Field has just opened, and the vortex channel above the center of the star field has not yet been completely stabilized. It suddenly jumps out of a guy, and casually slams a child

who knows when to sneak into the Milky Way. I was directly recognized by the Galaxy, and I was greeted by the Hongmeng Airway in the Galaxy Star...

It's just horrifying, it's mad!

These thoughts flashed through the mind, and the two hundred honoured geeks on both sides of the Milky Way were instantly screaming and screaming, and the whistling whistling sounds, the entire vast banks of the Milky Way. The void is shaking a little..."

Roar! ""

Hey! ""

Oh..."

"Damn guy, where did this violent come from? Just got out and got the meaning of the glory of the glory in the Galaxy Star... He, why?"

"Hung Meng's seventh-order? It's not weak, but it's not qualified to swallow the glory of the next era. Don't forget, there are still nine Hung Meng eighth-order!"

Ye Xuan, the master of the temple? It's just right, the deity wants to swallow you..."

The last sentence comes from the mouth of the double-headed konjac. He had already released the words when he was born. He had to swallow the leaf lord of the demon temple with three heads and six arms and konjac, so that his own konjac blood flow again. Evolution, in one fell swoop, hit the ninth-order grand perfection. Such as

Today, he recognizes Ye Xuan. Naturally, there is no longer a hesitation. The roar of the mouth is still not falling. The huge figure of Pangda's 50 million miles has already come to the fore...

"Do you have a double-headed konjac? Do you want to swallow the temple? Then see if you have this ability..."

"Hey!"

In this scene, Ye Xuan's

Although he is now a violent form, he only has to be high.

For a moment, with the violent whistling sound, there was a slap in the air in the air.

Xuan's body shape collapsed and turned into a **** sea. It shrouded a corner of the universe and revealed endless blood. tight

Then, from the three different directions of this vast sea of blood, there were three low voices of screaming and screaming. shock

In the boundless blood of the waves, there are three huge figures that are incomparably visible. In a moment, they are dialing the ground, which is the three bloods of Ye Xuan. three

The big **** seas are clearly appearing, and the repairs that are scattered in the body are all the seventh steps of Hongmeng, but Ye Xuan has not stopped.

As the figure was condensed, the three **** seas were each screaming and screaming, and the ultimate form of the konjac and the **** konjac was activated by him at this time.

In a blink of an eye, all three of the body of the demon body have a powerful force to roll up, just like a hang of the Nujiang roaring, all the limbs are stirring up the endless fierce meaning. fast

Quickly close together, back fusion, blinking three heads and six arms..."

call out! ""

Oh..."

After the body is finished, the violent hands are turned over, and a volley is spurred out. With a weak sound of breaking, the **** stick of the gods' pesticides appears, dragged by his right hand, invisibly erupting. Fierce breath...

"Oh la la la..."

In the interim, a mile of the eyebrows from the black mist was rushed out, and the storm rose into a vast expanse of flames.

And in the end, the ultimate condensation, turned into a huge colorful streamers, a few cockroaches have been wrapped around the body of the black mist, like a poisonous snake spit. "

brush! "and

The cheekbones are avatars, and this time there is still no sacrifice for the bow.

Under the right hand, the palm of the hand will have a blood black magic blade. The whole body is covered with countless blood lines, and the shape is very incomparable. It is... the blood of the dead. magic

Fighting against the konjac, a horrible blood level in the late stage of Hongmeng will be kicked off, causing countless strong men on both sides of the strait to be shocked and dazzled...

It's long, but it's actually happening between suffocation. before

After that, there was only one time for breathing, although it was a violent form, but Ye Xuan, who was originally only a tall man, had the strongest fighting state of the konjac blood, that is, the three-headed and six-armed konjac. The real body is activated and shows up.

In the state of the fifth change of the konjac, Ye Xuan is the seventh step of Hongmeng, and it is stable and solid. It is not far from the eighth order of Hongmeng.

After the full-scale urging of the second-largest avatar power of the blood-sea secret method, the three blood-splitting avatars that have been condensed are all without exception, all of which are repairs. Such as

Today, his three-headed and six-armed konjac is truly a body, and it is formed by three big blood seas. although

After the combination, Ye Xuan's three-armed and six-armed konjac's body is filled with the breath, which is still the seventh step of Hongmeng, but this is the formation of the three major blood-seas, even if it's not eight, it's eight steps away. But it is very close, only a line apart...

Just these are enough to shock the two-headed konjac. If it is just the ordinary seventh step, perhaps he still has the possibility of repression, but now the three-headed and six-armed, huge konjac with a size of 50 million miles, the distance The eighth order of Hongmeng is only one line apart.

Even if he tried his best to fight, he would have a slight advantage at most, let alone swallow it, and even the crackdown has become extremely difficult. Partial

In the hands of the leaves, there are **** sticks, and the devil's blood blade. What is more horrifying is the ten-color belt that is condensed with the ten-color flame.

This is the ten-color flame, whether it is in this Hongmeng era or in the last Hongmeng era, it belongs to the legendary existence.

Even the nine-color flame has been extremely rare. A Hongmeng era, occasionally a nine-color flame can be born, but now, there is a ten-color streamer formed by the legendary ten-color flame condensation...

The nine-color flame can make the heaven-level power weak. and

The legendary ten-color flame, even the existence of the Hongmen Avenue after the Heavenly Way, is never willing to... easily touch it! brain

These thoughts flashed in the middle, and the whole person was a little embarrassed in a moment, and his head was squeaky. At this moment, he suddenly had a kind of squatting...

After all, he was too confident in his own cultivation. After this time, he heard the name of Ye Xuan, the master of the demon temple, but did not know it. He did not know that there was a legendary ten in the other hand. This kind of thing like color flame, otherwise it is impossible to jump out of this bird...

It is a pity that what is said now is too late. After all, he is the eighth-order Hongmeng, the vast banks of the Milky Way, and only nine of them are strong at this level. How can they retreat?

"Hey..." brain

In the middle of it flashed all over, the two-headed konjac became angry and angered, and screamed at the head, the power of the body immediately rushed to the extreme, blinking to the front, a punch to Ye Xuan..."

You must be sure of this battle! ""

call out.....""

Oh la la..."

In the shackles of Ye Xuan, there are flashes of cold awnings. At the same time, the sound of the gods is at the same time, and the black mist is like a ray of stars that are entangled in the starry sky. 哗

Lala's splash of water is coming instantly, and a vast expanse of ten-color flames empties into the void. In a moment, it turns into a huge ten-color flame ball with a diameter of 100 billion miles. In an instant, Ye Xuan and a punch. The shape of the double-headed konjac that rushed to the front... is shrouded!

At this time, the vortex channel of the diameter of a hundred miles away over the central bank of the Milky Way is just completely stable and can enter.

The more than two hundred honoured geeks who were on the banks of the Milky Way saw this scene. They secretly sneaked on their hearts and intended to immediately smash the opportunity of Ye Xuan and the two-headed konjac to rush into the vortex channel... ..

But they obviously want more, because this is the body of Ye Xuan and the double-headed konjac, and the flame wall of the ten-color flame ball with a diameter of 100 billion miles, just happens to be a completely stable vortex. The eye channel is blocked, and the seams are tight and there is no gap! Look

In this scene, the two hundred and more stalwarts on both sides of the Milky Way are stunned.

Hong Yan shook his head and smiled.

He had escaped a life in the hands of Ye Xuan, and he was put on a horse by Hong Gu Shuluo and the three-eyed demon **** complex face, and he was wondering what he was thinking. and

The other Hongmeng geeks, after a sudden glimpse, then screamed and screamed, they were mad, and swearing..."

Damn guy, deliberately, he is absolutely deliberate..."

"What does this mean? Is it true that the entire Galaxy is regarded as his own one-acre three-point land? Even the battle with the two-headed konjac will block the vortex channel that has just been completely stabilized."

"If the key thing is to be replaced by others, even if there is a heart, you can't do it. However, there is a legendary ten-color flame in his hand..."

This is really a dog, and the vortex eye channel is completely stable. I can only watch them horrified, but they are not allowed to enter. The deity feels that he is about to be blown up..."

Roar! ""

Hey! ""

Oh..."

boom! ""

Rumble..."

On the banks of the Milky Way, the screams of screaming and whistling sounded, and the huge flame ball of 100 billion miles formed by the ten-color flame sea also sounded like a roaring sound.

In this battle, Ye Xuan is in the middle of his arms. He has been looking for a big battle with Hongmeng and smashing his own body. Now he has encountered a guy who is just better than himself. It is the best sharpening stone.

Moreover, there is a faint glare of the ten-color flame sea, and the other party can't escape. As long as the spirit and body of the konjac sixth change is reached, Ye Xuan will try his best to kill him with the help of the ten-color flame.One

After the fragrant incense, Ye Xuan, the true form of the three-headed six-armed konjac, suddenly casts a teleport. The giant figure of Pangda's 50 million miles is instantly on the side of the double-headed konjac, and there is a ten-color flame sea. Gathered together, the two-headed konjac was shocked and shocked.

It is also at this moment, Ye Xuan's squatting in the middle of the cold, the right hand is lifted, the **** stick has suddenly picked up!

The loud noise is amazing!

The **** bar did not hesitate to crash, and the porcelain fell on the top of the double-headed konjac. Knot

If there is no suspense, in an instant, the entire huge figure of the double-headed konjac will burst open at the moment when the **** stick falls, turning into a red **** fog.

"Call..."

The sound of the wind whistling through, the black mist split and waved, and a majestic invisible gas screamed away. flame

The **** fog that is spreading in the ball is swiftly swept away and sent directly to the bottom of the volcano in the central area of the Dingnai space to carry out blood refining. except

In addition, with the shape of the double-headed konjac bursting out, there are a large number of top-level cultivation resources such as the liquid of Tianjiu Avenue and the liquid of Tiandao, which are dropped by Ye Xuan, and directly income into the body...

"call out....."

Oh la la..." short

In the short time of the incense, this thrilling battle ended in a hurry. double

The head konjac was smashed, and the body shape exploded into blood fog. It became the raw material of Ye Xuan's condensed Hongmeng blood essence, and even the top cultivating resources such as Tianjiu Avenue Baojing and Tiandaoyuanyuan in his hands were cheap. Ye Xuan, he was born into the body. do

After all this, Ye Xuan waved, this huge ten-color flame ball with a diameter of 100 billion miles, instantly collapsed in the sound of the stunned flames, and then condensed and re-converted into a The colorful streamers are like a star-studded to the ultimate starry sky, and a few entanglements have already reached the body of the black fog...

At the same time, the three-headed and six-armed demon gods have a true body shape, and the body is full of fifty million miles of Ye Xuan. It also appeared in the void, and it is enough for this diameter of 100 million miles. It is completely stable before a column of incense. In front of the vortex eye channel, the squatting in the middle of the cold swaying, turning to the first four places.....

At this time, the cultivation of the breath that has been dispersed from his body is clearly different from that before the start of this war... through

After this battle, Ye Xuan once again reached a higher level after breaking through the process of divine and physical changes. When the double-headed demon fell, he actually turned the konjac into a **** mind. The sixth change.

Otherwise, even if there is a ten-color flame suddenly coming from the surrounding area, it is impossible to make the double-headed blood unprepared, and it is impossible to kill it with a stick. first

In the fifth change state, Ye Xuan's peak was repaired as the seventh step of Hongmeng. Such as

Today, he has turned the blood of the konjac into the sixth change, and Ye Xuan's peak repair has also soared to the first level, reaching the eighth order of Hongmeng.

Moreover, the second major avatar of the blood and sea secret law can fully motivate the three **** seas that have been condensed, and all of them are all exceptions. and

His three-headed and six-armed konjac is the real body, but it is formed by three big blood seas. Place

Therefore, after the combination, Ye Xuan's three-armed and six-armed konjac's body is filled with the breath, and now it has reached the eighth level.

After all, the konjac body is formed by the combination of the three **** seas. After the three eighth-order fits, the konjac's real body is repaired even though it is not in the ninth order, but the distance from Hongmeng is almost incomparable. The difference is a line apart, but it is actually similar.

Previously, among the more than two hundred honoured monsters in front of the huge regiments on both sides of the Milky Way, including the two-headed konjac, there were a total of nine octaves. Such as

Today, the double-headed konjac has been bombarded, but Ye Xuan has soared in strength because of this war, and has risen to become a new eighth-order powerhouse. Therefore, the eight-order old monster on both sides of the Milky Way is still nine...

But among the nine monsters in the eight-order world, the three-headed and six-armed konjac formed by the three **** seas is definitely the most powerful one. One

Before the war, there were nine people who were trained to be more than Ye Xuan's eighth-order Hongmeng. and

After this war, Ye Xuan not only possessed the strength of Hongmeng's eighth-order cultivation, but also overpowered the other eight honours.

This kind of change is simply unprepared. When Ye Xuan's three-headed and six-armed figure appeared, he felt the horror of his body. The numerous powerful people on both sides of the Milky Way were stupid on the spot, and they were suspicious in their dreams. Everything is so...not real! "

The mysterious mother star in the Milky Way star field is the hometown of the temple. Therefore, the temple does not allow anyone to marry the Milky Way star field. Where are you going, are... scattered! "turn

In the first four cares, there are fierce chills in the eyes of the three great devils. At the same time, Ye Xuan's voice of the gods also sounds. cage

Covering the vast expanse of the Milky Way, revealing the endless arrogance of the arrogant hegemony: "If you don't want to disperse, it doesn't matter if you leave a distant view. The temple does not interfere, but if anyone dares to sneak into the vortex channel, The temple... killing innocent!"

"Booming..."

Fan Xuan exports, Ye Xuan mobilized the body's cultivation power, turned into invisible pressure to spread out, is for the shock, for a time, the void is just like the resonance, the thunderous sound of the rumble, the trend Shocking, amazing...

In the huge army of the two sides of the Milky Way, countless strong men have been chilling, and their looks have changed dramatically, but they dare to anger and dare not speak. Not to mention the power and the absurdity, even the heavenly geeks are all The face was red, and the gasping gasped, but half a fart did not dare to let go.

On the right bank side, the dragon's life giant plug, which stands in the corner of the Milky Way in the form of a huge source nest star, trembles slightly. It seems that even the world's insect self-derived group of the Longye is formed at this moment. Excited.

In the six major regiments of the Magic Palace camp, countless strong people are even more excited and trembled. The six major regiments are surrounded by the central black hall, seven Yan Xiu Xiu and Xuanyuan Ziwei, Duanmu Xiaocha, Zhao Qianru, etc. The gimmicks are flushed, and the

As for the four heavenly commanders in the forefront of the Great Hall of the Demon, the Emperor and the devour of the treasures are indifferent, and they are not astonished, because they were originally integrated with Ye Xuan, and Ye Xuan's demeanor is now In terms of it, there is nothing to be excited about... that is yourself.

However, the old pig essence and the lion Wanjin are proud of their faces. The lion Wanjin is better, more stable, but the old pig is just like a shot of chicken blood, in the empty space of the place to go, Mang Shuo, from time to time, looked at the old monsters in front of the major regiments on both sides of the Milky Way.

At this moment, Ye Xuan's husband was off, and he was so impulsive that he couldn't hold back. It's just too handsome. If there are still a lot of people around the world, this old guy is afraid to rush out, together with Ye Xuan. Forced to fly together...

In the infant corps, the commanders of the heavenly dynasty, such as the Void Giant Turtle and the Ancient Nightingale and the Golden Dragon, all look very complicated. The power and the ruins of the Legion are all eccentric.

They have long heard of the prestige of Ye Xuan, the master of the Temple of Devils. They also know the relationship between him and the baby corpse. He just saw Ye Xuan's corpse as a scene of the Galaxy Heaven, and he was full of curiosity about him...

As for the more than two hundred powerful Hongmeng geeks, listening to Ye Xuan's words, the look on his face is even more wonderful...

Hong Hao was shaking his head and smiling. Hong Gu Shuluo and the three-eyed demon **** were complicated in appearance, while the other Hongmeng strangers were very angry, but they were not as good as Ye Xuan, but they did not scream.

Only the eight-order old monsters that were repaired like Ye Xuan, after the face madness, screamed and roared...

"Hey! I really don't know how to live and die, I dare to ask me to wait for a comprehensive retreat..."

Really think of yourself as a husband, Wanfu is not open? Don't forget that what you are facing now is the power of all the people in Hongmeng. It's just a hungry monster, that's more than two hundred..."

"No need to talk nonsense, a few friends, I will wait side by side, kill him and say..."

"Roar!"

Oh..."

Really think of yourself as a husband, Wanfu is not open? Don't forget that what you are facing now is the power of all the people in Hongmeng. It's just a hungry monster, that's more than two hundred..."

"No need to talk nonsense, a few friends, I will wait side by side, kill him and say..."

Roar!"

"Hey..."

As Ye Xuan's words came out, the eight masters who were as strong as him, also reached the old guys of the Eighth Order of Hongmeng.

At the same time as the roaring roar, the eight old guys don't hesitate, and the figure rushes out at the same time..."

boom! ""

Rumble..."eight

Among the old guys, the survivors are four strong, the starry beasts are four, and the former are not bad. The latter are almost all huge, more than 50 million miles.

Nowadays, eight people rushed to Ye Xuan from eight different directions. The repairs in the body were all pushed to the extreme. The four survivors and strangers directly sacrificed the soldiers in their hands. For a time, the air came in an instant. The earth-shattering roar, the power of the violent, the mighty momentum of the momentum, beyond the past, unprecedented. This

After all, it is eight powerful late Houmeng, and it is not the seventh order of Hongmeng, but the eighth-order world. The peak of Hongmeng, which is the perfection of the ninth-order, is only one step difference. Eight

Respecting such a powerful presence at the same time, and besieging together, the scene is too horrible, the blink of an eye, with the vortex channel of 100 million meters in diameter above the central bank of the Milky Way as the center point, a vast void within a trillions of diameter, completely plunged into chaos..."

Since you are looking for death yourself, then today the temple will be... as you wish! ""

Roar....."

"Card!"

"Karma card..."

Almost at the same moment, Ye Xuan of the three heads and six arms passed the sound of the gods of Sen Han. Under the scream of his head, he immediately swept away and greeted the eight-order monsters that came from the eight. . black

In the fog, the blood of the scorpion flashed, the spirit of lightning thundered, and the shocking card screamed. The eight heads of the screaming screams from different directions, all without warning. Bloody Thunder. sudden

Inadvertently drown their bodies directly...

Spiritual thunder and lightning are too strange, the speed of launching is too fast, and there is no sign beforehand. All the way along with Ye Xuan grows up, and now Ye Xuan already has the horrific power of the eighth order of the sacred, the same spiritual thunder and lightning is displayed in his hands. Compared with the original, the power has long been a far cry...eight

The old guys were caught off guard, and the entire body was covered by a **** thunderbolt. Although it was not fatal, it was not even seriously injured, but minor injuries were inevitable.

For a moment, all of them had Venus in their eyes, their heads were stunned, and their heads turned to...

"call out!"

Oh la la..."

It is also the time to take advantage of this work, the colorful ribbons that are entangled in the body of the black mist, like a starry sky, also spurt out at a hectic speed, and immediately turn into a piece of the storm. The vast expanse of the ten-color flame sea...

Under the control of Ye Xuan's consciousness, this piece of flame is clearly alive, accompanied by a slap in the water, the whole piece of the ten-color flame is extended and instantly turned into a huge ten-color flame ball. With a diameter of 500 billion miles, Ye Xuan and the eight-order old monsters that are still squeaky in the brain are shrouded in it...

In fact, taking advantage of the opportunity of the eight old guys to be confused, Ye Xuan sacrificed the ten-color flame sea, and was able to kill them directly. The power of the ten-color flame was too strong. If it was in normal state, the eighth order The old geeks still have the possibility of dodging, but in this state of confusion, it is basically impossible.

But Ye Xuan did not do this at all because he felt too wasteful. Such as

Now he has turned the blood of the konjac into the sixth change. There is still a certain distance from the seventh change. It is just a chance to take advantage of this opportunity to fight against the eight eighth-order eccentrics. After the death of Hong Meng, the spirit of the soul and the process of physical transformation, pushed to a higher level, smoothly put the seventh change. First

In the state of six changes, his current peak is the eighth order of Hongmeng.

If it is possible to smoothly display the seventh change, then Ye Xuan's cultivation will once again skyrocket, reaching the peak of the 9th-order grand perfection, and then there will be no fear at all, enough to traverse the entire vast expanse of Hongmeng...

"boom!"

"Hey..."

With the formation of the ten-color flame ball, all the eight-eighth-order old monsters were trapped inside the flame ball, and there was no possibility of escape. Ye Xuan's heart was suddenly loose, and there was also a cold flash in the middle. No

Hesitant, no need to hesitate any more, the three-headed and six-armed man immediately swept up, the **** stunned in the violent, the **** stick directly picked up, a stick will leave a remnant of the old

people. This is obviously a deserted survivor, but under the pain, it made a scream of screaming, and it was simply a tear..."

Oh..."

At the same moment, the **** blade of the devil in the hands of the cheekbones was also sacrificed. Under one squat, an eight-order fierce beast that was beyond 10 billion miles was immediately removed from one leg, and the blood was scattered all over the sky. The horrible noise of the whistling sound came suddenly...

"What? Actually, I have a ten-color flame ball to seal me in?"

"He just had the opportunity to kill me with the ten-color flame sea, but he didn't do it. This konjac is too arrogant..."

Needless to say, there is no way out now, just to let him go to war..."

There is no suspense, this battle is not his death, that is, I wait for annihilation, waiting for the endless years, if you can't enter the galaxy, even if you are alive, you can't have the chance to enter again..."

Roar! "

"Hey!"

Oh..."

At this time, the confusion of the eight eighth-order grotesques caused by the spirit of thunder and lightning was finally over. When they recovered the Qingming, they immediately saw the situation around them, and they were furious under the change of their faces. Roaring...

"You are right, this battle, you don't have any vitality, sooner or later you want to fall..."

In the face of all this, the three konjac avatars smashed in the middle of the cold, and the sound of the gods of Ye Xuansen's coldness also came out, resounding through the entire flame space, revealing the meaning of endless sorrow: But before the fall, I still have to make a stepping stone for the temple to make a great success.

"No matter what... thank you!"

Roar! "

"Booming..."

The voice of the gods is degraded, and the violent screaming of the head is a roar, and the **** stick rises high and squats on the body of an eighth-order survivor.

Compared with the huge black head, the figure of the eighth-order remnant is just like an ant. The big black-headed squatting, the endless terrorist power rushing into the body, after the rumble of thunder, there will be a sudden The blast came and there was a **** fog, and it was in the void... spread!

A blow, a powerful eighth-order remnant fell, the flesh exploded directly, and was picked up by Ye Xuan, even the magic weapon that fell out of his body...
