

Super D. S 551

Chapter 551: Devil's articles, next?

The testers went up one by one, their attacks were all defeated by the wind, and the evaluation was different, but at least Samsung, and some people reached four and a half stars.

These star ratings, no one knows what is useful, but certainly the higher the better, so many people have come up with housekeeping skills.

At the same time, among the people who came to test, many people have cultivated magic power. However, the wind is not to care, what is the magic road?

Soon, it was the turn of Ye Xuan.

"Four hundred and thirty-eight!" shouted the wind.

Immediately, Ye Xuan flew to the front of the wind, and then took out the best heavenly weapon of Lu Shaoyou.

"Devil God!"

Ye Xuan's eyes became incomparably dark, and the huge magical condensed into a ghost of the gods.

"Sword of the Ground Crack!"

"War of the dragon!"

After seeing the shadow of the demon god, the brow is also a pick. Ye Xuan's strength is not strong, and the use of the demon **** virtual shadow is not high.

With his strength, you can easily kill Ye Xuan.

But what surprised him was that he had seen this ghost of the gods.

"What about the people of Wanmen..."

With a glimpse of the wind, the sword will be defeated easily, and the ordinary infuriating is used.

"Well, the realm of martial arts and martial arts is not high, but martial arts is good, Samsung half!"

The wind has given an evaluation.

Ye Xuan did not use the Eight-Day Sword this time, nor did he use the Earth's pulse. This Samsung half evaluation was within his expectation.

However, it was waiting for him to turn around and prepare to leave.

"Little brother, Wanmeng door is good?" The wind suddenly asked.

Ye Xuan's foot was awkward and asked: "Predecessors know that I am a disciple?"

Although the ancestors of Wanmomen are strong imaginary gods, after thousands of years of decline, the masters of the 40% attribute transformation in the door are gone.

This wind can be recognized, making him very surprised.

"When the old devils were thousands of years ago, they were the first masters of the Luosha domain. They were a magical Dafa, and they killed a lot of virtual gods. I naturally heard about it." The wind smirked.

That's it!

Ye Xuan suddenly realized, "All the magic gates are still good!"

He was blind and swearing. The days before the door of the demon were almost destroyed. Now, although the door has come over, the owner of the door has been hidden with the master, so it is no longer there.

As for the tens of thousands of old devils, it should be the ancestors of Wanmenmen.

"Little brother, you learned the demon gods at a young age, and the qualifications are good. But I tell you that you only practiced half of this demon god. The veteran who was thousands of years ago can integrate the demon **** virtual image into the body. Incarnate a demon!" Windy road.

what?

Ye Xuan's heart trembled.

Devil's articles, only half done?

Incorporate the devil's shadow into the body?

"Oh, no one knows about this. I don't know if you are a master. Anyway, I heard it, believe it or not." The wind smirked and then shouted the next tester.

Ye Xuan flew back with some disappointment.

Devil God, he actually only practiced half, this pit!

In the door of the magic, there is no saying that the devil is still divided into two parts.

It seems that perhaps as the wind has said, the Devils can continue to practice.

"The people in the magic door are not the people in the magic door. Even if they are the forces they have established, they will not pass the martial arts at the bottom of the box. It is too embarrassing!"

Ye Xuan is very helpless, it seems that he has to ponder the demon gods.

"Hey, does the host really fuse the devil's shadow? The current state of the host is too low. If it is forced to merge, it may be ruined!"

Ye Xuan tried it after a hurricane, and sure enough, this demon **** virtual image can be integrated into the body.

However, he is too low in the realm!

The phagocytic system is good, it will be prompted when there is danger, not only that, but the phagocytic system also lists a list.

"Calm, very ice snow lotus..."

As long as he gets one of these things, he can blend the devil's shadow.

He wrote down the names of these things, and if they encounter them in the future, they will not miss it.

After the reminder of the wind, Ye Xuan also began to be curious about the fusion of the demon gods. After all, this is the martial arts of the virtual box of the strong gods, and even their own doormen did not pass.

The total number of people who came to test was more than 600. It didn't take long for the more than 600 people to complete the test.

The lowest is Samsung, the highest is four and a half stars, and there is no five-star.

"Good, second round!"

The hurricane looked around again and said: "Evaluate Samsung's are coming out!"

When I heard this, the people present were a bit puzzled. What did they do all?

But these people did not dare to neglect and flew more than 30 people out of the crowd.

"Samsung half also came out!" The wind continued to shout.

Now, hundreds of people, including Ye Xuan, have come out.

"Samsung's selection in the Samsung semi-selection, single-handedly singled out, if you can challenge the success of the leapfrog, you can enter the Samsung half, regardless of life and death!" Shouted.

The leapfrog challenge!

Starting from the beginning, some people are guessing whether the next round is a match. Now, when I hear this, I feel helpless.

It's all geniuses on the scene. How easy is it to challenge the leapfrog?

The top ranked is No. 23, he is the first Samsung evaluation, after hearing the words of the wind, he also flew out, and then selected among the hundred people of Ye Xuan.

"He!"

The young man fell on Ye Xuan and pointed it out.

"Nima, I thought I was a soft persimmon..." Ye Xuan rolled his eyes and fell to the ground.

The people present felt that Ye Xuan was the lowest among all people, and Ye Xuan also used the Devil's Shadow to reach Samsung.

"Get started." shouted the wind.

The next moment, this young man is shot.

His attribute conversion reached 33%, which is 33 points, which is five points higher than Ye Xuan.

However, his affinity is much worse than Ye Xuan, even the epic has not been reached.

"call out!"

A flame of swords swept past Ye Xuan.

Everyone is testing, although some people are a little impatient, but some people secretly remember everyone's attributes. Therefore, this battle of leapfrog is naturally to choose a person who is restrained by his own attributes.

"Hey, the insects are tricky!"

Ye Xuan screamed coldly, and the shadow of the demon **** had long condensed behind him. His right hand quickly slashed several times and instantly smashed three swords.

"Fast speed!"

The young man who flew into the air was instantly cut into the head.

dead!

Although it is only testing, but these people must have a background, kill, or better than not killing, to avoid trouble.

The most important thing is that he wants to use this test to improve his strength.

After the death of this young man, Ye Xuan quickly swept the past and put his shackles away.

Good guy, this young man's body is more than the elders he killed before.

Chapter 552: Domain master

Because Ye Xuan is the challenged side, and the other side also challenges the failure, he is still a Samsung half evaluation.

After the battle, he silently returned to the Samsung half camp.

Now, no one dares to look down on him.

Next, the more than 30 warriors began to challenge. The vast majority were fiasco, and some people died. Only three people challenged the success. These three people directly rose to the Samsung semi-evaluation.

"Whenever you succeed in a challenge, you can pass the test. However, the higher the star rating, the better it will be." The wind said.

Everyone understands when it is time to refer to the summit.

However, the three who advanced, can not challenge.

"Well, Samsung half began to challenge four stars!" The wind screamed again.

There are hundreds of people in Samsung's evaluation, but there are more than 300 people in the four-star rating, so only one-third of them will be named.

No, it will be less than four stars, because someone started giving up.

The stronger the strength, the more timid people are. These people have wives and children. If you are not sure, give up.

About half an hour later, it was finally Ye Xuan.

Ye Xuan flew over and pointed at one person: "He!"

"Good boy, look at me, bully?" A thin man flew out.

Ye Xuan is a casual point, point to him, can only be considered his bad luck.

Because, Ye Xuan never thought that it would fail!

At least, not here!

"Start!"

When the voice of the wind fell, the man rushed toward Ye Xuan.

Before Ye Xuan used the deity of the devil, so he had some impressions, naturally he had to fly into the air, lest he should be yin.

Although Ye Xuan is casual, he also remembers that this man is a metallic instinct and is restrained by his soil properties.

"Devil God!"

"Sword of the Ground Crack!"

Ye Xuan began to attack wildly.

This person's attribute conversion reached 40%, and Ye Xuan was only 20%, a difference of 12 points.

Fortunately, Ye Xuan has several factors such as blood, martial arts, and attributes. It is not difficult for Ye Xuan to deal with it.

"Hey!" "Hey!" "Hey!"

Under the crowd of hundreds of people, Ye Xuan and this person are crazy against each other.

Since this is only a test, Ye Xuan feels that he still hides the meaning of the righteousness. As for the eight-year-old sword, it is even more difficult to use it.

After all, there is a property that transforms more than 80% of the wind, which is a presence that can kill him.

"Damn, why is this kid's infuriating more than me?" The skinny man couldn't understand.

If you fight again, then it is likely that he will lose, and he is more likely to fall.

However, he did not want to give up, so he gave up the remote war and rushed to Ye Xuan.

Just now, at this time, Ye Xuan's demon **** disappeared, and the breath was greatly reduced.

"Good opportunity!" The thin man's eyes lit up.

However, when he plunged into the front of Ye Xuan, behind Ye Xuan, he even condensed a ghost of the gods.

"Oh!"

A muffled sound spread, and the head of the skinny man flew up.

"Oh? Can you use it four times in a row?" The wind is a bit strange.

At the time of the first test, Ye Xuan used a demon **** article. I was used once again when I was challenged. Now I challenge the skinny man and use it twice.

Add up, four times!

In the memory of the wind, the Devil's article consumes a lot, although it can be restored during the period, but he estimates that Ye Xuanning uses it three times.

Unexpectedly, there is still a fourth time.

The skinny man thought that Ye Xuan didn't press the bottom of the box, so some of them were too big to be smashed by a sword.

"Hey, the soil properties of the host have improved, currently twenty-nine!"

Ye Xuan's realm has once again improved.

"There was still a breakthrough, let go." The wind squinted and said.

Now, Ye Xuan is a successful promotion, so he flew to the square of the four-star evaluation.

At this time, he was thinking in his heart whether he would continue to challenge four and a half stars.

However, this thought has passed away. Whether it is the Eight-Year Sword or the Earth's pulsation, it is still hidden. It will be revealed when it reaches the Bailing Summit.

After all, there is a super genius with a property conversion of up to 60% in the Bailing Summit, and there may be 70%.

If it is revealed now, what if it is passed to these people and is stared at by the other party at the beginning?

Low profile!

Still have to be a little low-key!

Soon, the Samsung half of the people were all challenged, followed by four stars, not long after, the four stars also challenged.

At this time, there were only two hundred people who passed the assessment. The remaining four hundred people did not give up or died.

"Well, all of you have passed, and after three days, gather in front of the domain government and go!"

When the wind was over, it was flying towards Rocha City.

He flies very slowly because he is afraid that the people behind him will fight, and the rest will not be much.

Ye Xuan flew back behind the wind, and after entering the city, he quickly left to see if there was anything in the city of Luosha that needed to blend the devil's shadow.

Unfortunately, he was disappointed again!

These things are very precious, not sold in the store, not even in the auction house.

"Hey, let's talk about it when I wait for the Bailing Summit. I heard that the Bailing Summit is going on in a five-line big array, maybe there will be..."

Ye Xuan thought in the heart.

In these three days, he can't be idle, go out to kill the blame and go to the sacred beast. It is a point to improve.

Three days later, he gathered on time outside the main government.

At this point, there are already thousands of people gathered here.

"Good, a lot of masters, a lot of geniuses!"

Ye Xuan was shocked.

These are the geniuses from all over the Rocha domain. Of course, most of them are those who are local to Rosa.

Rosata owners invited so many people at once, it seems that this hundred leaders summit can not be underestimated.

As long as you can squeeze into the top ten, you can enter the five elements of the pool to soak, improve the affinity of the attribute.

Even if it is the top 100, there are no small rewards.

The genius who wants to participate in the 100 leaders summit has all gathered here. Ye Xuan has felt a few breaths that make him feel guilty.

These geniuses are all self-righteous, and the nose can't wait to grow in the sky, so they don't evade the breath.

However, they have mad capital.

The thousand people waited for a while, and then, the domain of the main government was lowered a huge figure.

"It's the nine-year-old Yunpeng of the domain owner!"

Someone recognized it.

Ye Xuan also looked up and was shocked.

This Dapeng bird is really too big, and it may be tens of thousands of meters for a pair of wings to unfold.

"You, all come to your back!"

A voice is heard in the sky.

"It is the lord!"

Someone recognized it.

At the moment, everyone is flying, and then falls on the back of Dapeng.

Chapter 553: Start!

At this time, Jiuyi Dayunpeng is already standing on the back.

After everyone has come up, Jiuyi Da Yunpeng is rising rapidly, crossing the clouds, and then starting the road.

"See the domain owner!"

Thousands of people stood on the back of Jiuyun Dayunpeng and said to a middle-aged man with a national face next to the wind.

Ye Xuan also followed the ceremony and looked at it at the same time.

"This is the domain owner of the Rocha domain, the strongest closest to the virtual world?"

His heart trembled.

The domain owner of the Luosha domain is already the peak of the divine territory, and the attribute transformation has reached 10%, which is 100%.

As long as you break through once again, you can break through to the virtual state of God.

Beside the main body of this domain, there are still many people, they should be masters in the domain government, or the guests of the domain owners.

However, Ye Xuan feels that these more than a dozen masters add up, but they can't reach half of Jiang Tian.

No, even one of the tenth days of Jiang Tian is not there!

"You don't have to be polite."

The domain master looked at these people with a smile on his face. Among these people, there may be geniuses who can join the War King Hall in the future.

"Nine-year-old Yunpeng flies to the five elements of the big line, it still takes some time, you can first learn from Dapeng on the back, I can take this time to point you out." The domain owner said with a smile.

He is the super powerhouse of the peak of God's dilemma. The only step is the virtual state of God. There is absolutely strength to guide everyone present.

After hearing his words, everyone's eyes were bright.

However, there are thousands of people present. How can this be guided?

Therefore, these people are immediately paralyzed, only those top geniuses dare to come out.

"Who is the stone-collar sarcophagus, who is fighting me?"

A burly man about 30 years old jumped out.

It is said that everyone's body is a shock.

This is not the third place in the Luosha domain?

Moreover, this man surnamed Shi, that is the lord's house from the stone collar.

"It turns out that you are Shijie, I am coming to play with you!"

A short-haired youth swept out.

"Li Xiu, who is led by the wind, said that the attribute transformation has reached 65% and the strength is very strong."

Someone recognized him.

This stone sarcophagus and Li Xiu are not nonsense, and they start playing directly.

Shi Yan, as his name, is a relatively rare earth property god, while Li Xiu is a fire attribute.

The soil is adjacent to the fire, and the soil properties will be restrained by the fire attribute.

However, the realm of Shijie is higher than that of Li Xiu, so everyone is wide-eyed and does not want to miss any picture.

"Hey!" "Hey!" "Hey!"

The battle between the two was fierce. The conversion of their attributes reached 65%, and the stone sarcophagus was nearly 70%.

In the realm, Shi Jie is higher than Li Xiu, but in terms of attributes, Li Xiu is restraining the stone.

"Well? Yes, the strength of both is very strong, even higher than the last summit."

The domain owner couldn't help but say.

"If you let them enter the five elements pool, you may be able to comprehend the righteousness!"

"The gods are envious of the people who understand the righteousness, but the super genius, there is no one in the world, if it can really appear."

"If you can understand the meaning of God in the dilemma of God, you can generally enter the War King Hall."

"I don't know if any of these young talents have already realized the righteousness?"

The masters of the peaks of the gods were talking in a whisper.

At this time, the battle between Shi Jie and Li Xiu has already entered a stage of white heat.

Because it is on the back of Jiuyun Dayunpeng, the battle between the two of them will inevitably lead to the accidental injury to Jiuyun Dayunpeng.

However, these nine Yun Yunpeng's defensive power is extremely strong, and their attack is not broken.

After all, this is a super sacred beast that is comparable to the peak of God.

"Oh, that stone is going to lose!"

The eyes of the domain owner are condensed.

Sure enough, no more than ten rounds, Shi Jie was shocked by a sword.

"This Li Xiu is so strong that even the leapfrog challenge succeeded!"

Everyone thinks this way.

"Great, I have stoned up!" Shi Jie is also a loser, and immediately is holding a fist.

"Carrying!" Li Xiu is also slightly clenched.

Then, the domain owner is fighting against the two people, making comments one by one, and guiding them.

The two benefited a lot and returned to carefully digest.

This first game was over, and soon two other people came out, and the two attributes were transformed into 60%.

Ye Xuan mixed in the crowd and looked carefully.

His current attribute conversion is not even 30%. If you use a hole card, I am afraid that at most 40% or 50% of the masters will fight. If the attribute conversion reaches 60%, he estimates that there is no point to fight back.

Fortunately, there are not many 60% of the attributes, and only eight of them.

All of these eight people have come out to shine, and Ye Xuan has also known each other.

However, these eight people are hiding their strength. If any of the attributes have reached 70%, then you don't know.

Although the masters of the domain masters feel that they are strong and weak, they will not say it.

When the battle is going on, it is generally the first to play strong. Of course, some people choose to hide for the next hundred leaders.

About a day later.

"Hey, sea?"

The young talents on the back of Jiuyun Dayunpeng smelled a sly smell. They opened their eyes and saw that Jiuyi Dayunpeng had fallen below the clouds.

Underneath, it is a blue ocean.

"I heard that the five elements of the big battle are in the sea. If you let us hurry, I am afraid it will take a month."

Someone said.

At this time, in the endless sea, suddenly a black dot reflected everyone's eyes.

"almost there."

The main eye of the Luosha domain is a glimpse. He knows that the black spot in front is an island, and this island is called the island of the blade.

Jiuyi Dayun Pengfei is very fast, this black spot is rapidly enlarged.

"That is the island of the blade? The island of gold in the five elements of the big line?"

A group of people looked at it curiously.

There are five formations in the five elements. They are the Jinmu water and the fire, and the island of the blade is the island of metal.

"Okay, we are at our destination."

The main body of the Luosha domain came out, loudly: "I must have heard of the five elements of the big array, then I will not say more. Next, everyone will randomly enter one of the five islands, and enter Time is determined by your star rating."

"A seven-star person, after the departure time has arrived, can be advanced. It is six and a half stars in an hour, six stars in two hours, and so on."

"All you have to do is collect the tokens from the five elements of the island. These tokens are spread over five islands. The metal token is a special gold knife. The wood attribute is a life sacred species. The water attribute is the sea star. The fire attribute is The flame stone and soil properties are red gold sand."

"Only by these five kinds of tokens, you can enter the central island. If someone does not collect it, they will embark on the central island and be considered as eliminated."

"Finally, this is the first round of the 100 Leaders Summit, and the first round of rewards is to enter the Five Elements Pool. As for the time of soaking, it is decided by the ranking!"

"Right, there is one more point. The islands of the Five Elements are all equipped with a banned array. You can only jump up to 50 meters."

When the main character of the Luosha domain fell into the ears of all people, the general wind in the main government of the domain came out, and at the same time took out a sign with five signs.

Chapter 554: Trailing!

"Everyone is going to draw lots."

The wind gust took the sign and walked to an individual.

"Gold!" "Wood!" "Wood!" "Fire!" "Turt!" "Water!"

The lottery started, and those who got the same kind of people gathered together.

"gold!"

It was Ye Xuan's turn, and he took a random one and wrote gold on it.

Kim, on behalf of him, will be advanced is the island of the blade.

Before he came, he did some homework, and the five lines were arranged in order.

The metallic island of the blade is sandwiched between the islands of earth and wood, with wood on the left and earth on the right.

His luck is also good, because he is a soil property, and in the island of Blades, there must be an advantage.

Soon, everyone is all exhausted.

At the same time, Jiuyun Dayunpeng also flew to an entrance to the island of Blades.

Ye Xuan glanced at it and found that the island of the blade was full of 'disarmed limbs.' The broken limbs here are the broken swords, and they don't know where they came from, so much.

"Well, all the people who got the metal bamboo sticks came out with me!"

The wind screamed, and then more than 300 people including Ye Xuan followed.

"Wish you guys good luck!"

On the back of Jiuyun Dayunpeng, the Lord of the Luosha domain said that after flying, he flew away.

Ye Xuan did not expect that there would be so many people who got metal, which is already more than one-fifth.

The wind has counted the number of people, and after confirming the identity one by one, it is to divide Ye Xuan into several squares, which are based on star rating.

At this time, everyone noticed that they did not have a six-star master on the island of the blade.

The wind with all the people, fell to the edge of the island of the blade, said: "All of you, wait here first. When time is up, you can go in according to the star rating, the interval is one hour. In addition, in order to Prevent the master from crouching, so there is a limit in the outer circle of the island of Blades. Only when you enter the inner circle can you fight, and the gold line is the dividing point."

Everyone looked at the fingers of the wind, and saw a gold thread in front.

Those with low evaluations can go around this gold line and find a good location to enter the island of the blade.

In this way, you can avoid those strong squats, after all, who is here to get five kinds of tokens, and then enter the central island, they will not waste time on such things.

The three hundred people began to wait and wait for the instructions of the wind.

Not long after, the sky was dark.

The wind took out a time crystal and looked at it. "Now, the seven-star evaluation person can already enter the island, but you don't have it. The highest of you is five and a half stars, so you still need to wait three hours."

Everyone nodded silently.

They all understand that although there are no seven-star evaluations on the island of the Blades, there may be thousands of people. For three hours, the master of the seven-star evaluation may have found the tokens and then went to the island of Blades. ?

At this time, Ye Xuan, who was resting in a corner, opened his eyes.

"I am four stars, that is, I have to wait six hours, I am bored!"

Ye Xuan is very helpless.

There is no way for this. In this hundred leaders summit, his realm is the lowest one, no one is lower than him.

If he is allowed to break out of strength, I am afraid I will get a five-star rating at most, and the five-star rating will take four hours to enter.

Too much behind!

"I have to wait until the early hours of the morning. At that time, I must break through quickly and find the tokens..."

Ye Xuan is planning in my heart.

However, he also has an advantage over these people, because his instinct is inexhaustible, his physical strength is the same, he can take action during the recovery period.

An hour later, more than 300 people on the island of Blades did not move.

Two hours later, they were still very silent.

It was not until the third hour that the wind screamed again: "Well, five and a half people go in."

Then, there were more than a dozen people leaving, some people went straight through the gold line, and some people left around the gold line.

In the fourth hour, the five-star evaluation person went in.

In order to hide the strength, Ye Xuan only had four stars to evaluate and still had to wait for two hours.

In the fifth hour, four and a half stars went in.

After these people left, Ye Xuan looked around and found that there were only a hundred people left.

In other words, the rest are four-star and Samsung, Samsung and half.

Ye Xuan sat there with his knees and finally hoped for the sixth hour.

"Well, let's go in the four-star rating!"

Upon hearing this, Ye Xuan also got up, and at the same time there were more than 20 people.

Ye Xuan did not pay attention to them, but it was a straight line.

"This kid is really courageous, not even avoiding it?"

"This kind of person is not a fool or a master."

"Big Brother, what do you think?"

"Go up, get him!"

There are three groups of people who are eyeing Ye Xuan. After all, people who come to participate in this 100-lead summit come to kill people.

"Well? Come here?"

Ye Xuan, who has stepped into the gold line, has a look.

The people who made him jealous have all gone in, and the rest of them are not threatening him.

Dare to follow up and find death!

However, if he does not reveal the cards, it is difficult for him to kill the three, so he decided to enter the forest after the gold line.

"He wants to enter the forest!"

"Prepare, get in after he got in!"

"it is good!"

Soon, Ye Xuan rushed into the forest, and the three behind him were separated by two seconds and then rushed in.

"Experience, I need a lot of experience, you three, it will be my experience!"

Ye Xuan, who was running in front, suddenly got a foot and then turned and stepped.

The dragon is ten steps!

Earth pulsation 2 heavy!

"Hey!"

The three only felt a roar of their heads, and when they reacted, the head was separated from the neck.

Spike!

Instantly kill three people!

This strength is already strong and explosive.

However, this is also reasonable. After all, Ye Xuan's earth pulsation has been changed to two weights, and the power is twice as high as before. In the case of two shocks, even if Ye Xuan's attributes are restrained by fire attributes, the enemy can easily be smashed. kill.

And these three people, attribute conversion is about 40%, there is no power to fight back.

When the three men were still not dead, Ye Xuan plundered and put away the three people.

"Hey, the soil properties of the host have improved, and it's currently 30 points!"

The 30-point attribute conversion is 30%, which makes Ye Xuan's strength improve.

Then he quickly left.

Chapter 555: Black blade

Now, Ye Xuan has entered the island of Blades.

Here, all the grounds are broken swords, which is a treasure for Ye Xuan.

These broken swords broke the sword, but there are some best objects, although broken, but Ye Xuan can also swallow.

At the moment, Ye Xuan is starting to collect quickly.

The next product Tianqi, Zhongpin Tianqi, Shangpintian, Ye Xuan all do not, he only needs the best heaven.

The most important thing is that these best objects are all dropped to the ground, and Ye Xuan is fast and the strength is improving all the time.

"Haha, cool, if you put all the instruments on this island of the blade, my attributes will change, I am afraid I can at least improve by five points!"

Ye Xuan is in a good mood.

However, on the island of Blades, it is not only these broken swords.

"Boom!" "Boom!" "Boom!"

Suddenly a roar fell into Ye Xuan's ear, and Ye Xuan's foot turned to look at a place.

This is the movement of the battle, and it is estimated that there is only a distance of 10,000 meters.

"Before entering the island of Blades, it is estimated that they have entered the center. The nearest one is four and a half stars!"

Thinking of this, Ye Xuan is rushing in that direction.

When he came to the battle site, he found two figures that were fighting. One of them was naturally human, and the other one turned out to be a metal creature.

This metal creature is covered with blades, and both hands and feet are black, so even the head is like a pine cone.

"What the **** is this?"

Ye Xuan brows a pick, he understands that this should be a strange animal.

"not good!"

After seeing Ye Xuan, the warrior was also a sinking face because he had only one person and no reinforcements.

The most important thing is that he was wrapped in a black blade at this time.

"A four and a half star evaluation?"

This person, Ye Xuan has seen before.

Four and a half stars, the attribute conversion has reached at least 40%, and more likely it is 45%. Of course, it is also possible to reach 50%. After all, many people hide their strength.

As long as it is not a five-star rating, Ye Xuan is not afraid.

However, at this time, Ye Xuan did not have an urgent shot, after all, he had to let this person test the strength of this black blade.

"Boom!" "Boom!" "Boom!"

The warrior attacked with a flame sword and retreated.

The black blade has a strong defense, and it can break the flame with the sword of both hands, and the strength is very strong.

This black blade has no eyes and does not know how to attack, but at this time, its two black knives are smashed, and then the whole body begins to frantically rotate and turns into a black sharp-edged tornado. The man swept away.

"what?"

The soldier's eyes must be thrown out, and he turned and fled.

However, the speed of this black blade was extremely fast, and it immediately caught up with the warrior, and then used the blade to divide the warrior.

This scene, all fell on the eyes of Ye Xuan, really let him stunned.

This island of Blades is really dangerous. Let's not say that this black blade has strong defense power, and even the attack power and speed are very strong.

After the black blade tore the piece of the warrior into pieces, he did not stop, but rolled toward Ye Xuan.

"Hey, just rely on you, dare to come to me trouble?"

Ye Xuan slammed his eyes and directly sacrificed the Eight-Dangerous Sword. In an instant, he broke out several swords of the ground.

Sword Holy Blood!

Earth pulsation 2 heavy!

Eight desert swords!

These three factors make Ye Xuan's attack powerful.

In addition, these five elements have five islands, each with its own attributes.

Therefore, Ye Xuan believes that the attack of soil properties has an increase in damage.

Moreover, this black blade may be a strange animal, and the blood of the Beastmaster may also have a role.

"Hey!" "Hey!" "Hey!"

A few cracks of the sword directly hit the black blade and instantly crashed it.

After it died, all the black knives on it were scattered, exposing the huge black body.

"Unspeakable!"

Ye Xuan spit a sentence and then walked over.

A black blade that can kill four and a half stars is killed by him. Compared to others, he has a huge advantage on this island of Blades.

Ye Xuan walked over, picked up the broken finger of the warrior, took off the intact ring, and swallowed up the things inside.

Immediately, he put the black knife of the black blade away.

"Oh? Can you swallow it? There is still a lot of experience!"

Ye Xuan is very surprised and continues to devour the black knife. The value of this black knife is worthy of a great piece of heaven.

However, what he expected was that the value of the **** knife far exceeded that of the black knife, and the value might reach one to one hundred.

This **** knife is the main body of the black blade, and other black knives are embedded in this **** knife.

"The **** knife, I understand, the original token on the island of the blade is this. However, the Lord of the Rosie domain said that the token is a golden knife, then you should kill a golden blade and get it. Big gold knife main body."

Ye Xuan instantly understood.

This black blade is estimated to be only a mob on the island of the blade, and the golden blade should be a boss. As long as a golden blade is killed, he can leave the island of the blade.

Of course, this is just Ye Xuan's guess.

Now, Ye Xuan is no longer collecting those broken swords, which is a waste of time.

Instead of collecting broken swords, it is better to find these black blades to kill.

"go!"

At the moment, Ye Xuan is quickly leaving and starting to run wild.

Soon, he met the second black blade, and the strength was not much different from the previous one.

"Dragons are ten steps!"

"The earth is pulsating 2!"

This time, Ye Xuan did not shoot and attacked directly with his feet.

What surprised him was that he only stepped on four feet and had not rushed to the front of the black blade. This black blade was dead, and all the black knives on his body were scattered to the ground.

"Sure enough, there is attribute restraint!"

Ye Xuan's heart can now be affirmed, and then the black blade is put away.

"If I go on like this, I will kill a few more black blades and I will be able to break through again!"

He is very satisfied with the experience of this black blade, and it is late at night, and his advantage is greater than others.

Among all the young talents who participated in the 100 Leaders Summit, Ye Xuan has the lowest realm. Even if it is a breakthrough, it is still the lowest, only someone is juxtaposed.

Therefore, he wants to quickly raise the realm on this island of Blades, so that he is qualified to fight with other people before he can compete for the qualification of the Five Elements Pool.

This night is destined to be extraordinary.

Ye Xuan has been running around, some people encountered, there are black blades, but never encountered the golden blade.

Chapter 556: Golden blade

When the evening came, Ye Xuan's realm had already soared to 35%. Although it was only half-finished, his strength has changed dramatically.

"I still haven't met the golden blade, maybe I still need to go deeper..."

Ye Xuan thought in his heart.

However, he does not want to meet the golden blade for the time being, because he estimates that the strength of this golden blade is at least a five-star rating, even six stars.

Because there are too many young talents, those who are under the five-star rating are actually filling in.

Perhaps someone has got a golden sword, and maybe someone has come from other islands. Anyway, Ye Xuan is the island of the blade.

If he is allowed to kill all the golden swords, then the five elements of the pool, is not necessarily a place for him?

After doing a good job, Ye Xuan continued to hurry.

His goal is man and black blade!

Yesterday was because of the night, so everyone was very careful, but by day, their speed will speed up.

At the same time, Ye Xuan's chance of encounter will be greatly improved!

"Boom!" "Boom!" "Boom!"

Suddenly a roar fell into Ye Xuan's ear.

Ye Xuan did not hesitate and immediately rushed in this direction.

When he arrived, he found two battles. This time, it was two human beings.

"The property conversions are over fifty!"

Ye Xuan's eyes glimpsed and he watched the battle.

The two men also noticed Ye Xuan, so they gave their heart and watched.

Before the test of the wind, there was no five-star evaluation, at most four and a half stars. These five-star evaluation people all came with invitations.

Therefore, their background is bigger than most people!

"Kid, look what, roll!"

The white man in the two men shouted.

"roll?"

Ye Xuan was irritated by this sentence.

The reason why he watched this battle was because he might have someone else coming over, but now he can't sit still.

"Devil God!"

Behind Ye Xuan, there was a fascination of a demon god.

Then he killed the past.

"Not self-reliant, kill him first!"

The white youth said.

"it is good!"

His opponent nodded.

The two reached an agreement in an instant.

The conversion of the attributes of the two has exceeded 50%, and Ye Xuan, only 35%. However, they did not comprehend the righteousness, nor did they have virtual soldiers.

Most importantly, there are bans on the five islands.

"Dragons are ten steps!"

"Hey!"

Ye Xuan instantly stepped out of a few feet, containing the pulsating dragons of the earth, and the two people's heads roared in an instant.

"Sword of the Ground Crack!"

"call out!"

The two cracked swords plucked from the ground and instantly cut off their heads.

"People who have achieved a spike in the conversion of 50%, my strength, in this group of geniuses, is considered to be in the middle."

Even so, Ye Xuan is not very satisfied with this strength.

At this time, he dared to use the Eight-Day Sword because there were no people around him. If there were too many people, he would never be able to take out the Eight-Day Sword.

After all, this is a virtual soldier!

If you rely on the righteousness alone, it is still not enough to deal with those geniuses, so you need to continue to improve.

After killing two people, Ye Xuan also looked around for a circle. After not discovering other people, he went away and took the two people's Qiang Kun ring.

However, he has not swallowed up, and found one of the same good things in one of the Qiankun Rings.

"This is, red gold sand?"

Ye Xuan's eyes lit up.

Red gold sand, but one of the five kinds of letters, is representative of the nature of the soil.

That is to say, one of the two bodies is likely to come from the island of the soil property next door.

In this way, he does not have to go to the island of the yellow sand, and perhaps other islands are not used, as long as they are on the island of the blade, and other people come and send.

However, this red gold sand seems to be very precious, so Ye Xuan thinks that it is still swallowed up first, and the current strength is tight.

"Hey, the host's soil properties have improved, and it's currently thirty-eight!"

These two Qiankun Rings allowed Ye Xuan to break through three times, from 35 to 38.

"Whether the red gold sand is a mission item, let's upgrade the strength first!"

Ye Xuan swallowed everything in his head and continued on his way.

Now he is generally clear that this island of Blades is divided into two parts, and now he is still in the periphery. And the golden blade should appear in the inner circle.

So this time, he ran directly toward the center of the island, not outside the circle.

He went on for a while, although he did not find the golden blade, but found a group of black blades.

This group of black blades has more than a dozen!

"Ok?"

At this time, Ye Xuan's attention suddenly fell behind the black blade, where there seemed to be a blade mountain.

"Golden blade, maybe inside!"

Ye Xuan glimmered and quickly swept out.

To deal with this black blade, he doesn't have to shoot at all now. Anything that is lame is fine.

"Hey!" "Hey!" "Hey!" "Hey!"

A series of shocks, along with the black knife of the black blade, instantly killed them.

Ye Xuan flashed over and swallowed all these black blades.

But at this moment, suddenly there was a figure that swept the Blade's Edge Mountain.

"Well? Is that five-and-a-half evaluation?"

Ye Xuan's light flashed.

Their island of Blades did not have more than six stars before, so the five-and-a-half-star and five-star people, Ye Xuan remember.

This figure is a five-and-a-half-star evaluation, so the attribute conversion has reached at least 55%.

"If you kill him, my property conversion will probably be able to go up again, but it is somewhat difficult!"

Ye Xuan hesitated in his heart.

Although he spiked two attributes to achieve 50%, but this is 55%. Moreover, the ghost knows whether this person has hidden strength. What if the real realm is likely to reach 60%?

"Still you!"

Ye Xuan decided not to find the trouble of the man, first to kill some black blades around this blade mountain.

This blade is not too big, but it took another five minutes for Ye Xuan to run around. During the period, he solved hundreds of black blades.

The strength of the black blade is strong and weak, and the weak energy can be transformed into a tie with 40%. The strong ones can pose a threat to Ye Xuan.

Therefore, their experience is naturally high and low.

After Ye Xuan took the blade to the mountain, the attribute conversion was improved a little, reaching 39.

Only a little worse, it will reach forty.

at this time.

"Hey!" "Hey!" "Hey!"

Suddenly a burst of crispness fell into Ye Xuan's ear, Ye Xuan turned his head and saw a group of golden figures on the blade mountain, is chasing a person.

Chapter 557: Blade Mountain

"Is that person?"

Ye Xuan stared at it, and sure enough, it was the five-and-a-half-rated warrior.

Behind this warrior is followed by a group of golden blades.

"Sure enough, the golden blade is on this blade mountain!"

Ye Xuan heart trembled.

If it is a group of golden blades, he is not afraid, but now there is a group of golden blades chasing the warrior down, Ye Xuan has to retreat.

He quickly hid it and watched it quietly.

"I am fighting with you!"

The warrior screamed and rushed back.

However, after he was surrounded by this group of golden blades, he was instantly hacked to death.

"Nima, it's so strong!"

Ye Xuan's heart trembled. He was not admiring the strength of the warrior, but was jealous of the golden swords.

What he fears most is that this golden blade is a group activity, and if one is provoked, it will attract a group.

Before he got the red gold sand, and the conversion of the other attribute reached only 50%, which means that it is not difficult.

And this warrior, the strength is very close to the six, but was chased by a group of golden swords, and then hacked to death.

However, Ye Xuan's eyes were still bright, because he saw the golden blade, and after killing the warrior, they returned to the blade mountain.

"Haha, I am going cheaper!"

Ye Xuan laughed in the heart and quickly rushed over.

What he didn't expect was that there were people around, and he had the same idea.

"Kid, you are looking for death!"

A man screamed and slammed a flame at Ye Xuan.

"The worm is a little skill, die!"

Ye Xuan directly avoided this shackle. Before that, his feet were already stepping on a few dragons and ten steps.

"Hey!"

"Hey!"

The warrior who wanted to grab the cheap, was directly shattered by Ye Xuan's head and instantly fell to the ground.

"Not self-reliant!"

Ye Xuan said coldly, and ran to the body of the warrior who had been hacked to death by a knife, and picked up his ring.

This Qiankun ring was only wiped by the golden blade. Fortunately, it was not broken, otherwise Ye Xuan would cry.

"Hey, the soil properties of the host have reached 43 points!"

This piece of Qian Kun ring, let Ye Xuan directly improve the four-point attribute conversion, and the harvest is good.

Then, Ye Xuan turned and walked to the unlucky one who had shattered his head with his foot and picked up the ring.

"Well? Is it red gold sand?"

Ye Xuan eyes a glimpse.

The conversion of this person's attributes is only 45%, and the strength is not strong. It seems that the island of Huangsha is relatively easy.

Now, Ye Xuan is a strong force in this island of Blades.

At this point he was wondering if he would like to board this mountain full of blades.

"Go and see, I can't run, anyway, I have the pulse of the earth, they should not catch up with me!"

Ye Xuan's flash of light flashed and he had a decision.

He can attack the enemy even if he is running now. Although the golden blade is strong, it can be said as long as it is not surrounded.

Thinking of this, he took his foot and ran towards the blade mountain.

Blade's Edge Mountain, there is actually no knife on the mountain, just some metal sharp edges. Ye Xuan tried to smash it down and found that the benefits after devouring were extremely low, so I didn't pay any attention.

At this point, he is already on the blade mountain.

"Golden blade, the strength is very strong. If there is one or two, I should be able to deal with it. If I come to a group, I have to go straight."

Ye Xuan thought in his heart.

After all, he has seen a lot of black blades forming a sharp-edged tornado, so he guessed that this golden blade would also. And this island of the blade can't fly, so he is hard to escape.

"Well? A lot of black blades?"

At this time, Ye Xuan's eyes suddenly looked awkward. On this blade mountain, he found a group of black blades, and there were hundreds of them.

This is really an upgraded treasure!

"kill!"

At the moment, Ye Xuan is directly rushing to the past. When he approaches, he is suddenly showing the dragon step.

"boom!"

The whole earth was shaken up. Ye Xuan could kill a black blade at every foot, but in three seconds, the hundreds of black blades were killed by him.

After all, his speed in one second can be in kilometers, even if it can be tens of meters in one step.

Ye Xuan put all these black blades together, and the strength has improved. At the same time, the infuriating has already recovered to the peak.

There are hundreds of black swords in this group, even if the attribute conversion reaches 60%, they dare not take it as an enemy.

However, Ye Xuan can easily kill.

This scene is not seen by no one. In a white cloud in the sky, there is a person who has a panoramic view.

"This kid, it really hides the strength, can not solve the problem, can solve hundreds of black blades in three seconds, the strength can reach six stars evaluation."

This person is responsible for the wind of the island of Blades.

Although there is a ban on the array here, he is not affected because of his strong strength.

However, what he did not understand is that Ye Xuan has this strength. Why should he hide it? If there is a six-star rating at the beginning, then he will be able to enter the island of Blades in the third hour and be able to fight for a lot of time.

However, because he is too far away, he does not know that Ye Xuan has already realized the righteousness. He does not know that the weapon in Ye Xuan's hand is a virtual soldier. However, he will continue to be close and keep watching.

.....

At this time, it is more than ten minutes since Ye Xuan entered the blade mountain.

In this half hour, he solved several black blades, and the number added was more than a thousand.

With the speed of extraordinary recovery, he does not need to rest, nor need to recover, it is all the way to kill.

"Strange, it didn't take long for the man to go up and hit the golden blade. I have been up for more than ten minutes. Why haven't you seen it yet?"

Ye Xuan is very helpless.

But he really wanted to come to what he came, just when his thoughts flashed past, he found a touch of gold on this blade mountain.

Golden blade!

"I finally found it for me, and I still have one, you are finished!"

Ye Xuan's eyes lit up.

He estimates that the value of this golden blade is at least five hundred black blades.

At that time, Ye Xuan rushed over.

This golden blade also found Ye Xuan, greeted with two gold-knife legs.

"Sword of the Ground Crack!"

"Dragons are ten steps!"

"The earth is pulsating!"

This golden blade was not close, but it was first slammed by the dragon to give off several golden knives. Immediately, it was broken into the sword of the ground, and the moment was collapsed.

"Spike the golden blade, my attack power, it is not bad."

Ye Xuan is very satisfied.

However, he can have this kind of strength. He relies on the eight-swords and the restraint of attributes. If he encounters those geniuses, the Eight-Dangerous Sword can't be taken out, and the attributes are not necessarily restrained, so his road is still far away.

Chapter 558: Six stars!

The main gold knife, the hard degree is probably stronger than the best heavenly instrument. If there is no increase, Ye Xuan can use this big golden knife to play.

It is a pity that this big golden knife has not increased at all and can only be used as a toy.

Ye Xuan felt that he could still encounter the golden blade, so he swallowed the big golden knife.

"A lot of experience, if you let me kill a few more, it is estimated that it can break through!"

His eyes lit up and swiftly swept out.

At the same time, there is also one person who entered the Blade's Edge Mountain. If Ye Xuan is present at this time, he will definitely recognize that this person is one of the eight major six-star evaluations of the day.

With the six-star evaluation of the invitation letter, the attribute conversion has reached at least 60%, and the real combat power will definitely exceed six stars.

Ye Xuan, who doesn't know this, is still on the Blade's Edge Mountain.

"The original golden blade is not as terrible as I imagined. As long as you don't come over ten, you can easily solve it!"

Ye Xuan is still slaughtering black blades and golden blades.

Now his confidence has increased greatly. Even if he encounters a group of golden blades, he is sure to consume the other side.

"Hey, the earth's soil properties have improved, and it's currently forty-four!"

The system prompts.

Finally, broke through!

"It seems that the upgrade of killing monsters is still enough, the fastest is killing."

Ye Xuan shook his head helplessly.

Unfortunately, those masters are scattered to five islands. There are not many masters in the island of Blades. Those who have been evaluated by five and a half stars may have got the golden knife and then went to other islands.

"Booming!"

At the moment when Ye Xuan broke through, there was a roar in the distance.

Ye Xuan brows a pick, said to himself: "There are still people on the blade mountain!"

Some people, this is a good sign. If it is a good pinch of persimmon, he will pinch it.

At the moment, he is rushing in that direction.

Not long after, he saw another group of golden blades, chasing a young man.

"The trough, I have come in for so long, I did not encounter a group of golden blades." Ye Xuan rolled his eyes.

He didn't know that he didn't encounter a group of golden blades. It was luck or bad luck.

He stared at it and found that the young man who was chased was one of the eight major six-star evaluations.

If you let him one-on-one, maybe you have to fight a hard battle.

However, now is not one-on-one, the young man is being chased by seven golden swords.

At this time, it is not dangerous, can you say it?

"kill!"

Ye Xuan's flash of light flashed quickly.

In the world of this strong man, he will not be merciful, because he knows that if he is being chased at this time, the young man will see it.

"Damn!"

The young man also noticed Ye Xuan, immediately yelling, then shouted: "Hello, help me to kill these golden swords, we divide afterwards!"

"Peace?"

Ye Xuan heard the words, his eyes could not help but burst out two brilliant mans.

These golden blades, he can solve slowly, why do you need to join hands with people?

Moreover, the young people's ring is the big one. If he gets it, he can at least break through.

"Do not talk nonsense, go to hell!"

Ye Xuan drank a word and slammed his right foot.

The dragon is ten steps!

Earth pulsation 2 heavy!

This blow directly crossed the group of golden blades and rushed toward the youth.

"what?"

The young man was shocked and hurriedly gathered the attribute in his feet. Although he was still recruited, he was the real attribute of the fire, but it resisted a lot of shocks.

However, his feet couldn't help but tremble, and he was pulled closer by the golden blade.

"What kind of martial arts is this, how can it be so powerful?"

The youth is very puzzled.

At this time, he only thought that this martial art was powerful. He did not think that this was the worst soil attribute martial art, but it only blended the meaning of the earth.

However, the only thing that is only the appetizer.

"Hey!" "Hey!" "Hey!"

Ye Xuan's feet are rapidly alternating, and they are constantly using the Ten Thousand Steps that combines the earth's pulsation.

Even if the young man is inflamed, he can't resist such frequent attacks. After all, he still needs to resist those golden blades.

Although it is said that Ye Xuan's ten-thousands are not a hundred, but there is one in the three that can bomb young people, this is enough.

"Hey!"

In the third, when the dragons with the pulse of the earth rushed to the feet of the youth, they finally heard a different kind of crisp sound.

This is the sound of the broken bones of young people.

"not good!"

When the youth's face changed, he would never have thought that he would be planted in such a ghost place. I don't even think that I will face numerous attacks from the Golden Knife.

Ye Xuan does not want the young man to be hacked to death by a golden knife, and what should I do if I have to smash it?

Therefore, he is now starting to clean up the golden blade.

"Sword of the Ground Crack!"

"Dragons are ten steps!"

"The earth is pulsating 2!"

A roar of the road spread, and Ye Xuan smashed the sword of five cracks, directly dispelling a golden blade.

This scene fell into the eyes of the youth, and his heart burst into a storm.

"Well, this person's attack power is so strong, who is he? Why did he not show up when he was on the back of Jiuyun Dayunpeng, he would have to give up the guidance of the domain owner?"

There are many problems in the youth, but at this time, he is facing a crisis, so he can't ask.

He must escape, otherwise he may die here.

"boom!"

The second golden blade fell.

"boom!"

The third golden blade fell.

At this point, there are only four golden swords left in the pursuit of youth.

"Kid, I won't let you go."

Ye Xuan's figure flashed and suddenly plunged into front of a golden blade, and then he smashed a cracked sword against the ground.

The sword of the ground crack that he used was directly smashed out, so the youth did not pay attention.

When the youth felt that it was not right, there was a cold man who suddenly plucked from his feet and hit him on his left hand.

"Oh!"

A broken arm flew up.

"what?"

The young man's eyes widened and apparently did not expect this.

In his Qiang Kun ring, he has a lot of heaven and earth treasures, and the five elements of the token he collected in one day.

This must not be lost!

"I am fighting with you!" The young man made a decision directly, clenched his sword and rushed back.

But at this moment, suddenly a figure swept over and caught his broken arm.

It is Ye Xuan!

"Ha ha!"

When Ye Xuan took off the ring, the corner of his mouth could not help but curl up.

"Hey, the host's soil properties have improved, and it's currently 47 points!"

Chapter 559: Meditation

"Hey, the host's soil properties have improved, and it's currently 47 points!"

This time, it was a big breakthrough, which directly improved the three points.

The youth is the owner of a small city in a large city in the Luosha area. There is a wealth that ordinary people can't imagine, but these are all cheaper.

"Haha, let's die!"

Ye Xuan's breath suddenly soared, and a large number of huge magical spirits emerged from the body, and then a ghost of the gods was condensed.

From the beginning, he has not used the Devils article, in order to break out at this time.

Now, the time is up!

"Dragons are ten steps!"

"Sword of the Ground Crack!"

"The earth is pulsating!"

The youth only felt the eyes sway, as if the heavens and the earth had oscillated once.

The next moment, he saw the four golden blades in front of him, and instantly collapsed.

Strong!

So strong!

This is his first reaction and his final reaction.

"Hey!"

A crisp sound was introduced into his mind, and then his vision was quickly blurred.

His head has been shattered by Ye Xuan.

"噗通!"

The body of the young man fell down, not only that, but the four golden blades are the same.

Ye Xuan broke out instantly and killed them. This is his true strength.

"Even people who have been evaluated by the six stars have been defamed by me. My strength, among these thousands of people, should be able to squeeze into the top ten..."

Ye Xuan thought in his heart.

However, he is not complacent and self-satisfied. After all, the Eight-Dangerous Sword can't be revealed, and there are fewer eight-swords. He is at most a six-star rating.

And those who are evaluated by the six stars are generally hidden in strength. Maybe there are still a few attributes that have been transformed into 70%?

After he paused, he collected the bodies of several golden blades and began to explore the things inside.

He was the one who swallowed up those cultivation resources and did not look carefully. This person's identity is certainly not low. Maybe there will be any good things.

"Flame stone, red gold sand?"

Ye Xuan is a bit strange.

I did not expect this young man to have been to two islands, which is cheaper for him.

If you add a golden knife with a golden blade, then he now has three five-line tokens.

"Now my strength is not enough. Let's go through this blade and go to the wood and water."

Ye Xuan thought about it, the figure is flashing.

Now, in one day, he has collected three tokens, and the first seven stars that came in, maybe have already collected five?

He can't be scornful, because there are only ten places in the five elements pool, and it is time based on the number of places.

However, what he did not know was that his behavior was seen by the wind.

"The strength of this kid is so terrible, Wanmeng can actually teach such a genius, and it is estimated that it will not decline to where..."

With a glimpse of his eyes, he was thinking about it. Is it necessary to look closer and see if there are some cards in Ye Xuan?

However, he thinks about it, after all, Ye Xuan's strength, it is not difficult to collect the five elements of the token.

After waiting for this round, I won't know it in the second round?

The wind was standing in the sky, watching Ye Xuan, watching Ye Xuan go upstream in the Blade's Edge Mountains, killing the black blade and the golden blade.

"This kid, do you want to turn the Blade's Edge Mountain and collect all the golden blades?"

After discovering Ye Xuan's intentions, the wind is also a sigh of relief. If this is the case, then others will not be able to complete it.

However, the number of golden blades on Blade's Edge Mountain is certain, and the wind knows how many golden blades are on the Blade's Edge.

Moreover, before Ye Xuan came to Blade's Edge Mountain, someone had come up to get a golden knife and then left.

At the bottom of Ye Xuan, there was no feeling that someone was watching him. He killed all the way, from the south to the north, and the golden blade that had been killed was over 100.

"I only improved a little, too slow, or go to Mudao."

Ye Xuan shook his head. If he lost the number of places in the Five Elements Pool because of collecting these golden knives, it would be worth the loss.

His goal is the top ten!

At the moment, he just left the island of the blade and then identified the direction.

The island of Blades is the island of gold, the island is on the left and the island is on the right.

This time he is going to go to Muzhidao, then to the island of water, and finally, he can enter the central island.

However, when he came to the edge of the Blade Island and saw the island of Wood, a sound suddenly sounded in the sky.

"There have been people on the Central Island. I hope everyone can work hard and pay attention to safety."

This voice, Ye Xuan recognized, is the main domain of the Luosha domain.

Ye Xuan secretly exclaimed: "Sure enough, someone stepped up to Blade Mountain and got a golden knife. I don't know who this person is. However, the first place can be spent in the five elements of the pool for ten days!"

He did not dare to neglect and jumped directly into the sea.

There is a ban on the island of the Five Elements. There are also seas in this area. People with less strength have to swim.

Ye Xuan has blood, so he swims very fast, and swims to Muzhi Island in less than five minutes.

Ye Xuan did not know the name of this wooden island, but he understood that this island should be very dangerous. After all, he had seen several people coming from the island of Tokushima, but he had never seen the island.

"The wood property is not strong, but it has a lot of effects. On the island of wood, it should be poisonous."

Ye Xuan gave himself a wake up in his heart.

He is not afraid of poison. After all, he has the blood of the sacred tree of life. As long as his strength is continuously improved, his anti-toxicity will also increase.

But not all poisons can be solved immediately. If there is a poison such as paralysis, it will be miserable when he is killed when he detoxifies.

Ye Xuan boarded the island of wood, and he suspected that the five elements of the token should be in the center of each island.

Now that someone has landed on the Central Island, he has to hurry and he rushes straight toward the center.

Previously on the island of Blades, Ye Xuan saw a lot of Tiandi treasures, but the island of Wood is even more terrible, Tiancai treasures can be seen everywhere, and Ye Xuan's collection is not happy.

"Boom!" "Boom!" "Boom!"

Another roar of sound fell into Ye Xuan's ear, Ye Xuan stunned, and did not want to rush toward the sound source.

This time, two people are fighting.

"Get out of the way, this kind of meditation is what I found first!"

"Tianmu Dibao, if you have the ability, what do you find first? Is it not picked up by me?"

"you wanna die!"

Two quarrels came, and Ye Xuan looked at it. It turned out that two people were fighting.

However, he focused his attention on what the two said.

Meditation?

Is it a quiet kind?

Ye Xuan's eyes lit up.

Chapter 560: Devil

Before hearing the wind, Ye Xuan tried to integrate the demon **** virtual image into the body, but the system suggested that he was not enough.

It is still the same now.

However, if you get something, you can advance it, such as this kind of meditation.

"Haha, quietly, if you let me get a quiet mind, I can integrate the devil's shadow into the body. By then, I am a demon!"

Ye Xuan has already opened the flowers in his heart.

He observed it and found that the strength of the two men is not strong, at most five and a half stars.

He even killed the six-star evaluation. What is this five-and-a-half evaluation?

"Just let me be a fisherman again!"

Ye Xuan instantly smashed out of the forest.

what?

The two turned their heads blankly, and then their heads were a roar, directly shattered their heads by two treacherous dragons with the pulse of the earth.

Spike!

The foot can kill, and the strength of Ye Xuan has grown to a point of horror.

After the death of these two people, Ye Xuan quickly went to pick up the two people's Qiang Kun ring, and sure enough, one of the Qiankun ring has a green seed, a bit like blood seeds.

This is the kind of meditation!

"Hey, does the host fuse the devil's shadow?"

"Yes!"

After Ye Xuan answered in his mind, the meditation that swallowed the space disappeared.

"Hey, the fusion of the devil and the virtual shadow, the host learns to do the magic of the Dafa - the devil!"

Successful!

Ye Xuan's eyes suddenly screamed, and he directly showed the magic of the Dafa Demon. His body still had a lot of magic, and then he became a demon god, which is no different from the Devil.

However, this is not over yet.

After the appearance of the demon **** virtual shadow, it suddenly broke into the body of Ye Xuan, the next moment, Ye Xuan's breath is an instant expansion.

"It's so strong, it's at least twice as powerful as the Devil's!"

Ye Xuan's confidence was overwhelming. He was thinking that if he was on the Blade's Edge Mountain, he would be able to fuse the devil's illusion, even if he could not solve the six-star evaluation of the youth without the Eight-Defense Sword.

In other words, he can now put up the eight wild swords as a card!

"Eight desert swords, just put them up first, just use the devil to change."

Ye Xuan put away the eight-year-old sword, and then took out a fine quality heavenly instrument.

Although the demon **** is strong, when it is used, it is hollowed out by the four-fifths of Ye Xuan.

The more gas is consumed, the stronger his growth will be.

Fortunately, he has the blood of the sacred tree of life, otherwise it can only be used as the bottom of the pressure box.

Now, he is able to fuse the shadow of the devil, and already has the capital to compete with those geniuses. Therefore, the speed is faster. Collecting the five elements of the tokens as soon as possible, you can get on the central island as soon as possible and win the noun.

Ye Xuan is a fusion of the devil's shadow, black eyes all the way to the center of the island.

The center of Muzhi Island is still a forest, but there are some special dangers here, that is, the tree magic that Ye Xuan encountered before.

Ye Xuan casually killed one person, that is, got the so-called life sacred species.

This life sacred species is a good thing, a sacred object of healing, but Ye Xuan already has the blood of the sacred tree of life, which is equivalent to swallowing the sacred species of life all the time.

Subsequently, Ye Xuan quickly left the island of Museo and went to the island of water.

At this point, he has already got four tokens, and as long as he gets a sea star, he can go to the central island.

However, just when he was just going to sea.

"There is already a second landing on the Central Island, currently the second!"

The voice of the Lord of the Rosa area suddenly sounded again.

Ye Xuan stunned and suddenly felt the hope.

Now that a second person has landed on the central island, he is likely to grab the top three.

Third place, but can enter the five elements pool for eight days.

Ye Xuan estimates that if he is allowed to soak for eight days in the five elements pool, it is enough to raise his attribute affinity to the epic.

At that time, his attack will have a qualitative leap.

However, when he came to the island of water.

"The trough, the island of water is a donut? Is the center of the island or the sea?"

Ye Xuan was drunk.

It seems that if you want to get the sea star, you have to go to the bottom of the sea. He also understands that the bottom of the island of water should have a presence.

Ye Xuan did not want to, did not want to jump directly into the sea.

"The trough, so cold!"

He just jumped in and hit a spirit, and the water here was much colder than the outside.

"Ordinary people come down, it is estimated that they can only stay for an hour, and I have the blood of the sacred tree of life, can maintain body temperature, and breathe underwater, which is superior to others!"

Thinking of this, Ye Xuan was directly drilled down, and several blood vessels played a role.

The bottom of the water is very dark, but Ye Xuan can see it very clearly. After jumping down, he is constantly diving. He estimates that the sea star should be deep.

He dive for a while.

"Boom!" "Boom!" "Boom!"

There was light in the distance, as well as some shocks.

Sure enough, the seabed is still dangerous. Of course, it is also possible that two humans are fighting.

Ye Xuan rushed past, if the two are fighting, it may be because they are fighting for the sea star.

However, he was disappointed. The two incomplete battles were human beings, only one person, and a holy man with a seabed.

When Ye Xuan passed, this person just killed the underwater sacred beast and then quickly put away the corpse.

However, Ye Xuan's sinister eyes saw a position in the body after the death of the Holy Land of Haiti.

Ocean Star!

A thought flashed through his mind and it was swept away.

"Want to win? Look for death!"

The young man instantly smashed toward Ye Xuan. Although he was on the bottom of the sea, he happened to be a water property, and his attack power would not be much weakened.

At this time, Ye Xuan saw that this young man seemed to be one of the eight major six-star evaluations, and the corner of his mouth was immediately tilted up.

"If you meet me, you can only count that you are unlucky!"

Ye Xuan's flash of light flashed directly to the demon god's shadow and then merged into the body. He held the Eight-Day Sword and smashed several swords in front of him.

Containing the sword of the earth's pulsating cracks, breaking the water, instantly shocking the person's water properties.

"what?"

The young man did not think that his attack was broken because he was very strange to see Ye Xuan, so he was somewhat careless.

"I can resist this, I want to kill me, there are no doors!"

The young man clenched his teeth and applied his martial arts at the bottom of the box.

The water dragon is broken!

The swords of the cracks of the earth were swallowed up by a water dragon that was condensed by the youth. However, the sword of the ground crack is not fun. This water dragon has just formed and is on the verge of collapse.

"Water dragon, swallow him!"

The youth controlled the water dragon to rush toward Ye Xuan.
