

Super D. S 6

Chapter 6: Phagocytic system

"How is this possible? What is going on here? It's hard to be. I was condensed before, and the spiritual power absorbed by the golden ball suddenly broke out?" Ye Xuan's heart flashed such a thought.

He thinks so, it is really possible.

Before he took nearly a million dollars of silver, and now with a sapling, it is possible to jump two levels.

After all, Ju Ling Dan is the elixir used in the breakthrough of the sixth major martial arts.

"Day, the fifth martial arts is heavy. I turned out to be the fifth-largest martial artist. What is this golden ball?"

At this time, the environment in his body has also stabilized, and the realm has stabilized in the early fifth period of the martial arts.

He felt incredible, things were so sudden, he was not prepared.

Originally, he still had no spiritual power. However, he not only recovered his strength, but also went further and broke through to the fifth major martial arts, a whole big grade.

However, Ye Xuan did not think much. Anyway, he has climbed from the waste to the genius, and it is far more than other geniuses.

The fifteen-year-old martial art is the fourth most important. At Ye Family, it is the first genius. Then he is now the fifth most important martial art. Isn't Li Yuncheng the first?

We must know that the martial arts are getting harder and harder. In the history of Lianyun City, relying on oneself to break through to the early Wushu of the martial arts, the youngest one is also seventeen.

However, Ye Xuan, only fifteen years old, led the other side for two years.

"Unlucky, since I passed you, then I will live for you."

Ye Xuan said secretly in his heart. The next moment, he just shook his head and muttered: "However, what is the origin of this golden ball, how is it still in my Dantian, and I will not repair my Dantian?"

The place where the military stores the spiritual power is Dantian, and Dantian is broken a hole, so the spiritual power will be leaked.

Although the meridians and other places can also store spiritual power, but after all, it is a small amount, and all the meridians may not be able to reach one-tenth of the dantian.

Just when Ye Xuan was surprised, his Dantian broke out with a sharp pain. This pain lasted for more than ten seconds. Then, in the mind of Ye Xuan, a series of strange sounds were heard.

"Ding!"

"The phagocytic system has been integrated with Dantian and the phagocytic system has been activated!"

"Initial testing of host health..."

"Hey, mildly injured, start treatment."

"The treatment is over!"

As these strange sounds fell, the sharp pain that Ye Xuan felt was quietly dying, and when Ye Xuan reacted, he found that his dantian disappeared and replaced it with the golden ball.

"What is the situation, my Dantian is gone..."

Ye Xuan is already shocked to swallow his tongue.

Before he had Dan Tian, it was just broken, and it was impossible to store the spiritual power. Now it's good, the whole Dantian is gone, replaced by a gold ball.

At the same time, after the disappearance of Dantian, the restored spiritual power in his body was again absorbed by the golden ball.

"No... don't suck, I don't want to be an ordinary person again..." Ye Xuan yelled out, but he suddenly found a problem, and his realm did not seem to fall.

"It's hard to be done. This golden ball is my Dantian. Will the spiritual power be stored in the future?"

Ye Xuan's mind flashed such an idea.

His brow wrinkled, and sure enough, the golden ball poured out a touch of spiritual power.

This is really his Dantian, Golden Dantian!

However, Dantian, which is formed by a golden ball, is this different from ordinary Dantian?

Ye Xuan suddenly remembered a question. He had just heard a strange voice.

"The phagocytic system and the dantian fusion, this devour system is what the ghost, is this golden ball?" Ye Xuan suddenly revealed the look of a sudden realization.

Is this the welfare after his crossing?

At the moment, he is shouting in his mind: "The phagocytic system!"

Sure enough, something unusual happened in my mind.

"After the general crossing, there will be a mysterious work or system. It seems that I am lucky, not a real waste material, just to sink for a while. It turns out that this is the welfare after my crossing, this golden ball, It is the phagocytic system."

Ye Xuan was shocked and happy, and after he read the instructions of the phagocytic system, he also shook his eyebrows and continued to mutter: "Good things, really good things, can actually swallow all things, and then turn into spiritual power, which is comparable It is much easier to cultivate."

The phagocytic system, as its name implies, is promoted by engulfing.

Ye Xuan still had a lot of doubts in his heart, but he did not think much, went out of bed directly, and then picked up a vase on the table with his right hand.

"If you devour the item, the gain is zero, does the host confirm that it has swallowed the item?"

There is such a sentence in my mind.

"Revenue is zero?"

Ye Xuan has some helplessness. This is obviously discrimination. What happened to the vase, is the vase useless?

"confirm!"

Ye Xuan answered in his heart.

"The host pose is wrong and can't be swallowed!"

The system prompts.

"Is the posture wrong? Is it true that I swallow it?" Ye Xuan rolled his eyes, then he really took the small vase to his mouth, then opened his mouth and breathed in, sitting and sitting.

The weird thing suddenly happened, and only a black energy wrapped the vase, and then the vase was quickly shrunk and then directly sucked into the mouth.

Ye Xuan almost didn't scare to death, hurriedly licked his throat and coughed twice.

"No... No, the vase really swallowed me. Can this be digested?" Ye Xuan was shocked. If he took the performance, he would definitely shock the whole world. Even if he was ten times slower, he could not see it. The clues come.

At this time, his system sounded again in his mind.

"It's really a Chinese garden dog, and I didn't give anything. It seems that I have to devour some medicinal herbs or precious things..."

Ye Xuan suddenly remembered that there was a kind of giant Ling Dan worth millions and two silver. He was put to his lips at the moment, and then he secretly said: "Devouring!"

This polylingen was shrunk like the vase, and was then inhaled by Ye Xuan.

"The host successfully swallowed a poly-Ling Dan and gained a bit of engulfing points!"

Ju Lingdan was successfully swallowed and turned into a lot of spiritual feedback to Ye Xuan.

"The trough, the polylinga is worth millions of silver, and is generally used for the sixth martial arts martial arts breakthrough, but now even the first level does not give me up?"

Ye Xuan has no choice but to estimate that at least one of the lingering dan will be able to break through to the fifth middle of the martial arts.

Now, Ye Xuan has discovered two drawbacks of the phagocytic system. First, he can't practice normally. Second, he needs to devour a lot of things, and the things he needs may far exceed the needs of ordinary cultivation.
