Chapter 62: The magical effect of phagocytosis

At this time, Ye Xuan was still wearing the costumes of the disciples of the Yun Yunzong.

A foreign disciple who was directly accepted as an apprentice by the deputy lord, this is a skyrocketing!

Presumably, the entire cracked cloud sect is estimated to be turbulent.

After the deputy lord Zhou Cang left the practice field, Ye Xuan was directly taken to the residence of Zhou Cang. Zhou Cang is living in the bamboo forest, the environment is elegant, in line with Ye Xuan's appetite.

Then, Zhou Cang began to investigate the account, but these do not matter, after all, Zhou Cang can be sure that Ye Xuan is indeed only fifteen years old.

"Apprentice, for the teacher to go out, this is the token for the teacher, you can use this token to go to the Pharmacy Hall and the Wu Xue Ge..."

Zhou Cang directly gave Ye Xuan a token and then hurried away.

"Two thousand points per month, nine schools and below martial arts casual learning, really cool!"

Ye Xuan screamed a few times, and immediately he took the token and went to the refining pharmacy.

"Well? Why are you?"

Before Ye Xuan had already come once, bought 30 million two Tianbao Dibao, so the deacon of the Pharmacy Church knew him.

Ye Xuan said nothing, and threw the token that the master gave him to the table. He said, "Give me ten thousand bloodstains."

A thousand years of blood ginseng worth two million two silver, ten plants is 20 million, just two thousand points!

The deacon took a look at the token and looked at it. He was shocked and almost didn't swallow his tongue.

"Master credit?"

"Yes!" Ye Xuan nodded.

"This, I have to ask the elders..." The deacon almost scared to death, hurried into the inner court, and soon took an elder.

This elder, Ye Xuan has also seen, that is the elder Xie.

"It turned out to be yours. I said who came with the sovereign token. Oh, unfortunately, if the old man arrives early, you are the apprentice of the old man." Elder Chee touched the bald head and was very helpless.

Ye Xuan was actually shocked. He did not expect that the five big three thick Xie elders actually took charge of the refining pharmacy.

This shows that this thank the elders will be alchemy!

Ye Xuan has heard of this profession, alchemy teacher, but all are rich!

However, the apprentice of the deputy lord is not bad, but also has welfare and identity. The most important thing is that the lie before Ye Xuan should not be debunked, although the time is a bit wrong, but is it heavy?

After Ye Xuan received ten thousand blood samples, he left. These things are actually recorded in Zhou Cang's account.

Ye Xuan returned to the bamboo forest and then swallowed all of these things in the room.

Later, he left again and went to the Wu Xue Ge.

He took the lord's token and went to the martial arts club to take a turn and get back a copy of a lot of nine martial arts.

The martial arts in the Li Yunzong are not allowed to be circulated, unless they are allowed, otherwise they will be severely punished.

Ye Xuan is a man of festivals, so he will not pass it out.

His previous martial arts were exchanged in the phagocytic system, so he learned directly, but this time, he needs to learn like a normal warrior.

However, the phagocytic system is very user-friendly. When Ye Xuan opened a copy of the nine-martial martial arts, a system prompt sounded in his mind.

"Hey, I found that the eight-product martial arts violent step, the host can use the two-point phagocytic score to learn immediately, whether to use phagocytic points to learn?"

What?

Ye Xuan was shocked. Can the phagocytic system allow him to learn a martial art immediately?

This is a good thing!

"It's not expensive to devour two points. If I study this violent step, I don't know when I can practice it. I learned first!"

Ye Xuan thought in mind, and immediately chose to make sure.

"The devouring points are deducted successfully, and the host has learned eight martial arts violent thunder!"

Ye Xuan opened his own property panel and saw it.

Host: Ye Xuan

Realm: the beginning of the eighth martial arts

Blood: blood of a beast, blood of a hundred flowers, blood of the leopard

Martial Arts: Thunderstorm Steps, Nether Steps, First Star of Explosive Stars, First Weight of Frostbite, Second Heavy of Stars...

Devouring points: 56 points

"Haha, this is really good news, come again!"

Ye Xuan is overjoyed and continues to learn martial arts with points.

"The devouring points are deducted successfully, and the host has learned eight martial arts to run the thunder!"

"The devouring points are deducted successfully, and the host has learned eight martial arts martial arts legs!"

"The devouring points are deducted successfully, and the host has learned eight martial arts to chase the sword!"

"The devouring points are deducted successfully, and the host has learned to return to heaven with eight products!"

.....

These eight martial arts all need two or three points to devour points to learn, and Ye Xuan has taught them all.

His upgrade method is different from that of ordinary warriors. It is upgraded by swallowing, so the improvement of the exercises is not big. However, the better the exercises, the faster the speed of the agglutination, and the speed of restoring the spiritual power with the power method is fast, so Ye Xuan also spent two points to devour the points and learned an eight-practice method.

At the same time, he also discovered a little.

If you get martial arts in the future, you can include it in the phagocytic system and wait until you need it.

However, this cannot be propagated. He must have a copy to pass it on to others, as it is now.

"The deputy sovereign's apprentice welfare is good. Jiupin martial arts is temporarily unavailable, and it consumes too much. The swallowing points are consumed too much. It is still included in the first reading."

Ye Xuan thought about it, but it took ten points to devour the points and learned a nine-mart martial arts called the celestial body.

Now, his strength has improved a lot. You must know that he used seven martial arts studies. Now, he is proficient in several martial arts, and he has a nine-in-one martial arts.

He estimated that he was able to fly Huo Yuan to the air in an instant, even if it was not a problem for the warriors of the eighth peak of the martial arts.

"Now I don't need to practice, what should I do next?"

Ye Xuan is a bit boring, so she is leaving the bamboo forest and preparing to go to the inner door to hang out.

However, when he came to the entrance of Zhulin, he saw three figures. These three people, he had seen before.

"Hey, it's two of you." Ye Xuan brows a pick.

These three people are the brothers who had been in front of the mountain gate, the brother of Ning, and the sister of Jiejie who had cleanliness.

"It's you, how are you here?" Ning brother exclaimed.

The same is true of the brothers.

As for the teacher, it is already surprising to say nothing.

At this time, Ye Xuan, already washed his head, and changed his clothes and shoes, but they still can recognize it.

"Oh, my brother and sister are good." Ye Xuan hurriedly clenched his fists. He also had some doubts. What did the three people come to in the bamboo forest? Isn't this the residence of the deputy lord?
