

## Super D. S 621

Chapter 621: traitor

"How could it be so strong? Escape!"

The elders in black saw their companion die in an instant, and hurriedly turned around and left.

"I don't want to go!"

Yan Lei directly took out a flame of swords, although he was escaped by the black elders, but he did not escape the attack of Lan Xin.

"Oh!"

The head of the black elders was thrown directly.

dead!

However, Ye Xuan is not related to his life and death. What he cares about is the Qiang Kun ring of the demon of the demon.

However, when he was halfway through, the body was suddenly taken away by a person.

Zhao Junbo!

"It's a husky!"

Ye Xuan screamed in his heart, only to the rise of his killing, but forgot to have a more precious 乾 戒 ring.

At this point, the enemy has all died.

"Small temple master, your Qiang Kun ring!" Zhao Junbo took a deep look at Ye Xuan, and then plunged to the side of Lan Xin, and handed over the demon master.

"Give it to you."

Lan Xin said very generously.

"Xie Shaodian!" Zhao Junbo opened his mouth and smiled, and took a look at Ye Xuan.

"Damn!"

Ye Xuan once again roared in the heart, if this Zhao Junbo is an enemy, he has already shot him to kill him.

"Stone brother, what do we do now?" asked Lan Xin.

"Since this has happened, other events may have occurred in other locations, but we still have to go and see if we can continue on the road." Yan Lei said.

The five people started to hurry again.

Ye Xuan silently followed, and now his realm is no less than this Zhao Junbo.

His strength, I am afraid, is second only to Lan Xin, even if Lan Xin understands the wing of the wind, it is not so easy to kill him.

At this point, he is very close to the blood.

They rushed for another day and finally arrived at the second secret stronghold.

This stronghold is on a cliff, and there are arrays of holes in the hole. If Lei Lei did not record the map of the stronghold, it could not be found.

"Who?"

Five talents just entered the cave, and there was a violent scream from one person.

This voice, Yan Lei is very familiar.

"Grandpa?" Yan Lei shouted in amazement.

He knew that his grandfather was in the wild, but he did not expect to be in this stronghold.

Soon, there were three people coming out of the cave. One of them was the grandfather of Yan Lei.

"How can you tell me how to be a lord?" After the peak came out, the whole person was paralyzed.

"Grandpa, we are the big squad, to see if the stronghold is safe." Lei Lei replied.

"Fortunately, everything is normal here." The peak nodded and said: "I have seen the Lord!"

"My grandfather, are you not unusual here? The traitor appeared on the first position, and it has been destroyed." Lan Xin's eyes suddenly fell on the two elders behind the peak.

Old qualifications do not mean that they are innocent. Generally, elders who do not have family members in the War King Hall are easily tempted by the Yaozu.

"The three of us have been staying here, and we have to go out together. We have never been single."  
Yu Feng knew that Lan Xin was suspicious, so he explained in a hurry.

However, this still does not prove anything.

After all, Ye Xuan has also seen the Yaozu who has been lurking for more than a decade.

Moreover, even if you go out together, you can't always stare at the other two people. If you don't pay attention, the traitor can leave a message to the Yaozu.

At this time, Lan Xin suddenly stared at a red old man behind the peak, saying: "Elder, your skin, why did you smoke?"

Everyone turned his attention to him.

Indeed, when the peak was talking, the face of the red elders twitched, and Ye Xuan also saw it.

It's tricky!

"I....."

The red-haired elders suddenly burst into the air, directly facing the peak of the front.

"Hey!"

The peak is also a veteran elder, although the realm is not high, but this reaction is still there.

Even if he didn't notice it, but Lan Xin reminded him, how could he not be prepared?

Therefore, the elders in red were directly beaten and slammed on the stone wall.

"Du elder, you..." Feng asked in vain.

The elders of red squirted a blood, and he did not talk nonsense. He shouted directly. The next moment, he began to transform.

Half demon!

He turned out to be a half demon!

"Impossible, we have taken the transformation before Dan!" Feng Feng could not believe.

Everyone looked at the red elders and turned into a half-human and half-dragon thing.

"Are you an idiot? Of course, I only converted after I took it. Oh, since it has already been revealed, then all of you have given me death!"

The red elders drank a word and rushed over.

This cave is not big, only three people can walk side by side. If it is a fight, it is not enough to play. Moreover, the semi-demon is very strong. If you play here, it is obvious that the other side is dominant.

Therefore, Ye Xuan quickly retired.

And Feng Feng and another elder are resisting and retreating.

It is at this time.

The elder who was next to Feng Feng suddenly shot.

"what?"

The peak of the peak widened and was directly shot by a palm.

Fortunately, his reaction was very fast and he rushed to stand, so this palm directly shot him out of the cave. If he was hit on the wall, he would probably die.

"Grandpa!" Yan Lei shouted.

"I'm fine!"

The peak was gloomy. I didn't expect that he had been living in a crisis. There were two traitors beside him. He didn't know it, it was terrible.

"Hey, you really are traitors!" Lan Xin snorted and looked at the two elders who had been demonized.

"You already know?" the red elder asked awkwardly.

"Of course, I am here for the traitor." Lan Xin clasped the silver dagger and laughed.

Her sentence is also a surprise to Ye Xuan.

Is this the little lord, who is allowed to come, not to steal it?

"Of course, it's just a suspicion. I just have a list of doubts, and you are showing yourself." Lan Xin added.

This is beyond the expectations of Ye Xuan.

It is strange to say that the daughter of the deputy master of the War King Hall, how can it be an ordinary person?

"In this case, you are all going to die!" The red elders flashed, and things had already been revealed. They could only destroy the dead.

He and another elder, although the degree of degeneration is only 40%, but it has almost reached 50%. Now, after demonization, the strength has skyrocketed.

Unfortunately, they encountered the team of Ye Xuan, plus the peak, in the case of six-on-two, they have no chance of winning.

"kill!"

The peak of the peak shouted, and the six people rushed to the past.

The strength of these two demons is not bad, withstood the first wave of attacks, but the next moment, they were all killed by Ye Xuan six people.

Chapter 622: Two divisions

Ye Xuan quickly rushed over, this time, he will take the first step to take away.

However, the next moment, he almost cried out.

"Hey, wait, these two Qiankun quit to go back to the cross, the two are on the list." Lan Xin suddenly swept over and took away the shackles in Ye Xuan's hands.

"Pit!"

Ye Xuan screamed in his heart, but what can he do with his hand?

At the moment when Qiankun was taken away by Lan Xin, he dumped all the things inside into the swallowing space.

Lan Xin took over the Qiankun ring and said: "Hey, how is it empty?"

She saw Ye Xuan get the Qiang Kun ring, and immediately swept over, and was not blocked by Ye Xuan on the way, so there was no doubt.

"Maybe I have hidden things."

Lan Xin turned and left.

On the other hand, Zhao Junbo showed the look of gloating, because the one he got before had a lot of good things.

And Ye Xuan is empty, even if there is something, it must be taken away.

He didn't know, Ye Xuan had already dumped things away?

"Hey, the degree of virtualization of the host has increased, and it is currently thirty-seven!"

Taking advantage of the surrounding people, Ye Xuan quickly promoted the realm and then converges.

At this point, it is closer to him to exchange blood circulation.

"My grandfather, go back first. I said that I have to cancel all the positions and have new tasks." Lan Xin said to the peak.

"This....."

Yu Feng glanced at Lei Lei and thought that his grandson's strength had caught up with him. He also nodded silently: "Then you should be careful."

This five-person team is very strong and can sweep the entire periphery of the Great Wilderness. And there are not many elders in each stronghold, and there are only two or three people, so the peak is still relatively reassuring.

Subsequently, the peak is leaving directly.

This time, Lan Xin no longer asked what Lei Lei did next, but directly took out a piece of sheepskin roll and said: "Stone brother, this is a list of doubts. Then we are divided into two ways?"

"Little Lord, this..."

Yan Lei was shocked, a team to be split into two teams?

This ability to survive is reduced!

"You three together, I will take him." Lan Xin suddenly pointed at Ye Xuan with a chopped green finger.

Yan Lei frowned and hesitated.

The strength of Lan Xin has already greatly exceeded him. It can be said that the four of them are the burden of Lan Xin.

If Lan Xin took Ye Xuan, even if there was any danger, Lan Xin could drag Ye Xuan away.

Not waiting for Lei Lei to answer, Lan Xin said again: "Just say this, stone brother, you go to the 3,456, and I will go with him."

The War King Hall is located in the outer base of the Great Wilderness. There are exactly ten, and there are more than 30 elders. More than 30 elders look a lot, but there are hundreds of main elders in the Temple of War, so this is nothing.

"Snapped!"

After Lan Xin finished, it was a slap in the shoulder of Ye Xuan, and then forcibly towed away.

"Mom, this girl is very popular, and it seems that I am slow!"

Ye Xuan screamed in his heart.

Soon, the backs of the two disappeared into the sight of the three people.

That Zhao Junbo also revealed the look of envy and hate. Lan Xin is the daughter of the deputy, and there is no marriage. If he can hook up, he may succeed as the deputy in the future!

That is under one person, above 10,000 people!

.....

"Ye Xuan, the undead sword god, is your father?"

After separating from the three people, Lan Xin also let go of Ye Xuan and asked.

"Yes, have you seen him?"

Ye Xuan nodded.

The reaction of Lan Xin was already exposed, but he still asked.

"I have seen it since I was a child, and I am very similar to you, otherwise I will not recognize you."

Lan Xin nodded: "Speaking, your father is my idol. After so many years, I have been hitting the Sword Palace, but it is your embarrassment... Your mother's brother is blocking the door."

Indeed, Ye Xuan is a very persevering person!

When Ye Xuan was a few years old, Ye Chong left. It has been more than ten years since he was in the process of attacking the Sword God Palace. He is constantly being beaten to death.

"Unfortunately, the Sword God Palace is not a person who can be the master." Lan Xin shook his head.

In fact, Ye Xuan now wants to see Ye Chong, and then gives him a seed of the blood of the sword god.

The blood of the sword \*\*\*\* can improve the power and sentiment of the sword.

If Ye Chong can get it, he might be able to break through the last layer of the Sword Tower.

However, now that Ye Xuan is still a hundred thousand miles from the Sword Palace, he is a virtual reality. His father, Ye Chong, is the king of the virtual gods, and he is still the king of the peak, only one step away from the virtual god.

After a few seconds of silence, Ye Xuan no longer asked for trouble. "Where are we going now?"

"Go to the traitor, first go through the four strongholds," Lan Xin replied.

In fact, she still has her own plan, that is, after completing the task, then enter the Great Wilderness.

There, there will be virtual sacred beasts and demons.

Now, Ye Xuan has fewer competitors, so his gains will be greatly improved.

The two flew for a while, then Lan Xin felt that Ye Xuan's speed was too slow, simply carrying him to fly.

The wings of the wind are really blasting. They only spent two days, that is, they crossed several strongholds and came to the sixth stronghold.

"The elder of the sixth stronghold is suspected. You have a pulsating guardianship of 8 and you will go to sell later. If it is not, I will immediately help you."

Lan Xin hippie smiled and looked at Ye Xuan.

"The trough!"

Ye Xuan's eyelid turned over, he actually acted as a meat shield, attracting hatred.

However, the elders who are stationed outside the Great Wilderness are under the power of 50%, which is still not a big threat to him.

"It's here." Lan Xin looked at a hidden cave underneath and said: "Forget it, wait until you see the elder Wang, and let it go directly."

"Is this OK?" Ye Xuan brows a pick.

"If he is really a traitor, then he will definitely turn his face. If not, I will apologize." Lan Xin has a calm look.

Ye Xuan is a service, but this is indeed a good way. In the face of death, if you are really tired, you will definitely show your feet.

Then, the two fell, and then went to the cave where there was a battle.

After the two people heard the movement, they immediately swept out.

"Little temple master?"

Both elders knew Lan Xin and were very surprised by her arrival.

"Wang Elder, you betrayed me to the warlord's palace, and the demon wolf is a traitor. My father sent me today, that is, bring your body back, up!"

After Lan Xin finished, there was a figure crossing him, it was Ye Xuan.

However, Ye Xuan has retained his strength and allowed Wang Chang to have a reaction time.

Chapter 623: Gemini blood

what?

The elder of the king changed his face and hurriedly blocked the sword.

He found that Ye Xuan's strength is not weaker than him.

"Fairy!"

The elder Wang did not care about the three seven twenty-one, although he did not understand where the horse was exposed, but there is a crisis at the moment, he can no longer hide.

After all, Ye Xuan's murder has already felt.

After seeing Wang Chang's demonization, Ye Xuan's murderous murder was revealed.

"Amazing!"

"The earth is pulsating 8!"

A cold mangling flashed.

The elder Wang also fought a sword to resist, but he was metallic and instinctive, just by Ye Xuan.

"Hey!" "Hey!" "Hey!"

After a series of muffled sounds spread, the elder sword of the elders collapsed instantly, and then, the attack of Ye Xuan passed over his body.

"Oh!"

The elder Wang was directly smashed into two halves by this sword. Without a trace of muddy water, he fell directly to the ground.

died!

"This....."

I saw that the person who had been with me for a few months died, another elder was scared to death, because he had been with a half demon for so long, if Lan Xin and Ye Xuan did not come, he did not know what would happen. Dead in the hands of the other party.

After Ye Xuan took the ring and set it up, Lan Xin took out a transformed Dan and lost it.

Although the elder is not on the suspect list, it should be checked again.

This group of elders who have been stationed in the Great Wilderness have taken the transformation of Dan once in advance, and they have become semi-demons, which must be transformed after entering.

The elder took over and turned Dan and swallowed on the spot.

After a few seconds, nothing happens.

"My father revoked all the big wildholds and asked the elders to go back and have new tasks." Lan Xin said.

"Yes!"

The elder nodded and then left. And Ye Xuan, has long been emptying the Qiang Kun ring.

"Is it something that you have taken away?"

At this time, Lan Xin suddenly said.

"What?" Ye Xuan's body shape trembled, how can this gimmick know his secret?

"I don't admit that with you, the son of the undead sword god, naturally will not be ordinary. You broke through so much on this road, I don't think it will work." Lan Xin smiled and smiled.

"The trough!"

Ye Xuan was roaring in his heart, and he only deliberately converged his breath, but he was still discovered.

This is totally different from the little girl he has seen before.

Before he saw Lan Xin for the first time, he was returning to the War King Hall through loyalty assessment.

At that time, Lan Xin also swayed the arm of Lan Yao and spoiled there.

It seems that people in this world can't look down, don't look at each other is silly and sweet, the other is.

Since it has already been seen, Ye Xuan is not hiding, but he is not prepared to personally admit it, but directly devours Tianbaodibao.

"Hey, the degree of virtualization of the host has increased, and it is currently 40 points!"

Forty points, it is four.

Now, Ye Xuan has finally gotten into the phagocytic crystal of the blood extension column.

"Hey, the twins are successfully exchanged, is it a fusion?"

"Yes!"

Ye Xuan answered directly in his mind.

"The fusion is successful!"

When I heard this tone, Ye Xuan's mind appeared in a list.

A list of attributes with high affinity.

However, the number of these attributes is somewhat wrong.

"Six attributes?"

Ye Xuan's eyes lit up.

The soil property is naturally the highest and has reached the middle of the legend.

The second attribute affinity is metallic.

Earth and gold are a good combination. Now he has the pulse of the earth. If he adds the defense of gold, then he will become a strong player who can't die.

Moreover, the effect of turning stones into gold is also very good.

However, when Ye Xuan turned his attention to the third of the attribute affinity, his body trembled.

This property has been out of the five elements.

"Wind property?" Ye Xuan's brow pick.

He also has a special attribute?

Everyone will have five attributes when they are born, but the attributes of wind, ice and inflammation are not for everyone.

He did not expect that he had special attributes.

"Hey, please choose the property, condense the corresponding virtual gods, you can't change it after you choose!"

The system prompts.

In fact, Ye Xuan thought about a lot of matching.

The addition of water, the dual power of the righteousness, which makes his attack will be very fast, but also the binding of water, the fire attribute can also restrain the water property.

The fire attribute is also very abnormal, and his life tree blood will be a big killer with the flames burning the sky. The flames are also very strong, able to condense the fire and fight like the eight wild spirits.

However, the rebirth of the fire and the collision with the tree of life, are the effect of rapid recovery.

The wooden property Ye Xuan did not like it because it also collided with the blood of the \*\*\*\* of life.

However, when Ye Xuan saw the wind attribute, he immediately forgot the other four attributes and then chose the wind attribute without hesitation.

"Hey, the wind attribute is illusory and successful!"

When I heard the prompt of the system, Ye Xuan saw her own golden dantian, and there was a virtual god, like the earth property god, the imaginary.

Gemini blood, became!

"Haha, now I have two kinds of attributes. When I understand the wings of the wind, I am afraid I can fight the high level of the virtual world."

Ye Xuan's heart is already happy.

However, I still have to understand the meaning of the righteousness. After all, he has just condensed the virtual \*\*\*\* and needs to comprehend himself.

"what are you laughing at?"

At this moment, suddenly a beautiful voice fell into the ears of Ye Xuan.

Ye Xuan was brought back to reality by this sentence and smiled: "Nothing."

"There are a lot of secrets in your body. You can instantly skyrocket and you can pluck other things in the ring, but you can rest assured that I will not tell other people about this secret. After all, you have a good relationship with the Lord..." Lan Xin said slowly.

"The Lord?"

Ye Xuan brows a pick, he knows that the owner of Lan Xin's mouth refers to the main hall of the War King Hall, not Lan Xing's father, Lan Yao.

"The Lord and your father are friends, and they are also a palace owner of the Sword Palace." Lan Xin also said a secret.

Sword God Palace!

Ye Xuan is shocked, but what is the use of this?

His father, can't he still enter the Sword Palace?

"In the Sword God Palace, only the Emperor of the Virtual Deity is qualified to accept the apprentice. Unfortunately, the Lord is only the king of the virtual gods, and cannot accept your father, or your father has already reunited with your mother." Lan Xin said again.

Virtual God of the Great!

Although Lan Xin did not say it, but Ye Xuan is associated with a point.

Ye Chong got the inheritance of the Eight Wild Swordsman, but he was not recognized by the Sword God Palace. This is not a representative. Is the Eight Swords God a virtual god?

Chapter 624: Double attribute

"My father got the inheritance of the Eight Wild Swordsman, but left the Eight Wastes sword to me..."  
Ye Xuan thought.

At the time of the Xuanyang Empire, Ye Chong left a letter.

Said Ye Xuan has two choices.

First, stay in the Xuanyang Empire and live the life of 'ordinary people'.

Second, it is to become stronger, and then come to him.

In fact, Ye Chong hopes that Ye Xuan will choose the second one. Otherwise, how can he put the Eight Worries in Lin Wenyue? When Lin Wenyue sees Ye Xuan, give him another?

"Father, you can rest assured that I will not live up to your expectations, I will let you and your mother reunite!"

Ye Xuan secretly vowed that although he was passing through, but this body is unfortunate after all, blood is connected, he must take up this responsibility.

Now, he already has the blood of his parents, and he has more attributes than others. If he is made to understand the essence of the wind, his strength will be greatly improved.

If you get another double fruit, then he can condense a avatar that is exactly the same as the deity.

A deity, a avatar, if it suddenly appears, it will certainly be able to beat the other party by surprise.

"Right, little lord, can you give me a few martial arts?" At this time, Ye Xuan suddenly asked.

"You want intermediate imaginary martial arts? I don't have it, this thing is relatively small, and the realm is not enough to learn. It is easy to get rid of the fire." Lan Xin replied.

"No, what I want is the virtual martial arts of the wind attribute, which can understand the essence of the wind." Ye Xuan corrected.

Lan Xin asked a little strangely: "The wind attribute? Are you not a soil attribute? What do you want to do with these things? Is it difficult for your friends to have wind attributes?"

"This....."

Ye Xuan paused, and after thinking about it for a while, he suddenly slammed a sniper toward him.

This sniper is pale green.

"What, wood property?"

After Lan Xin saw it, it was very shocking, but the next moment she responded. "No, this is the wind attribute, you have double attributes!"

She is a wind attribute and she is very familiar with this property.

"Yes, I have dual attributes, because I have eaten a fruit before, and I know that it is a double fruit afterwards." Ye Xuan made a lie on the scene.

Double fruit, but the treasures bred by the heavens and the earth, even if the registered people of the virtual gods are seen, they will fight hard.

However, it is a double fruit that has not yet been eaten.

But now, Ye Xuan has already eaten, and it also condenses the virtual \*\*\*\* of the wind property. Even if the Emperor of the Virtual Realm comes over, there is no way.

"You guy, there are so many secrets, double fruit, as long as the individual will be jealous." Lan Xin rolled his eyes, did not expect the legendary double fruit, actually was eaten by Ye Xuan.

"I have two kinds of attributes, but because I have never had the martial arts of the wind attribute, I didn't understand the meaning." Ye Xuan explained.

Lan Xinton paused, and immediately took out two martial arts from the Qiankun ring and threw it to Ye Xuan.

"My wing of the wind is realized from the meteor body method, and this wind dragon is the best wind attribute martial arts in my war king's temple, and perhaps you can understand the wind blade of the righteousness." Lan Xin said.

"Thank you for the Lord."

Ye Xuan's eyes lit up, and nonsense did not say much. He directly studied these two martial arts.

"Hey, the host learned the meteor body, and the current proficiency is 10%!"

"Hey, the host learned the wind dragon, the current proficiency is a fire!"

Learning two virtual martial arts, nothing changed, so Lan Xin did not notice.

"Now I know that you have so many secrets, will you not kill me?" Lan Xin said with a narrow squint.

"I want to kill you, but also to catch up with your speed." Ye Xuan said with a smile, although he has become a virtual, but he is still not sure to catch up with Lan Xin, the wing of the wind, It is too abnormal.

Lan Xin smiled and said: "Actuate your knowledge, say, my father heard that after the sword \*\*\*\* has a son, I still want to marry me and my sister..."

"I rub!"

Ye Xuan was shocked. How did he always encounter this kind of thing?

This Lanxin is still good to say, but Lan Xin's sister Lan Yue is a virtual \*\*\*\* king. How can he survive?

Moreover, he already has a fiancée.

"Right, have you seen the ice girl and Yandi?" Ye Xuan suddenly asked.

"I have seen one side, but they are all wearing armor. I didn't see the face. However, if their two brothers and sisters joined forces, they could already threaten my sister. It is said that they have reached the peak of the virtual state of God, and may have broken through to the virtual king. Maybe not." Lan Xin is very envious.

Ye Xuan continued to ask: "Do they have special physique?"

"It seems that my sister said what is yin... What is the yin?" Lan Xin slightly wrinkled his eyebrows, seems to be thinking.

"Yin and Yang twin physique?" Ye Xuan body shape trembled.

"Right, it seems to be this." Lan Xin eyes bright, but the next moment, she felt a little weird, and asked: "How do you know? You know them?"

"Crap, one is my fiancée, one is my big sister, can I not know?"

Ye Xuan said in his heart.

However, this Lan Xin knows that he has too many secrets, or don't tell it.

"No, I just heard about this physique. It is said that if you practice together, the speed will be very fast."  
Ye Xuan shook his head.

"Yes, when these two people were brought back by my sister, they were just sullen, but now they are already at the peak of the virtual world. If they are one step away, they can break through to the virtual king."

After Lan Xin finished, he turned his eyes on Ye Xuan and said: "I know your secret. I also tell you a secret. They are the secret weapon of my war king temple. They are used to counterbalance. Wang Dian Jiang Tian did it. No way, who would make that Jiang Tian do so much, and quickly catch up with my father."

"This secret, shut me down!"

Ye Xuan's face was dignified.

Now, he can already be sure that the \*\*\*\* of ice and the emperor of inflammation are the Song Dynasty and the Song ruling.

The most important thing is that the two men were brought into the wilderness by the blue moon, which is very dangerous.

"You must find them soon!" said Ye Xuan.

However, what makes him even more helpless is that he is weaker than the two brothers and sisters, and everyone can hit the king of the virtual gods, and he is only 40%.

The gap is too big!

"Okay, don't delay any more, continue." Lan Xin did not doubt more and left.

There are still four strongholds that have not yet gone, so the two must work hard.

On the list of Lan Xin, Ye Xuan once also glanced at it and found that there were ten people on this list.

These ten people are the sum of the several strongholds they are responsible for.

Four strongholds, ten people!

The demon's penetration has been very powerful.

Chapter 625: Great wilderness

However, the more people there are, the better for Ye Xuan, because Lan Xin is blinding one eye and giving everything to Ye Xuan.

After smashing the remaining few positions, Ye Xuan has already broken through to the illusion of 50%.

Strength, and Lan Xin is almost the same.

Of course, the specific strength of Lan Xin, Ye Xuan still can not see. Although it is said to be 50%, it may be 55% or even 60%.

"Are we going to go back?"

After killing the last half demon elder, Ye Xuan could not help but ask.

"No, I don't want to go back, I have the next plan." Lan Xin shook his head.

Upon hearing this, Ye Xuan's body trembled and exclaimed: "You should not, want to enter the Great Wilderness?"

"Yes, or why should I give you something?" Lan Xin nodded.

At this time, Ye Xuan knew that he was pit.

Lan Xin originally wanted to find someone to accompany her into the Great Wilderness. It is no wonder that one eye closed one eye, and the daring was not because the financial atmosphere was thick, it was not eye-catching, but it was premeditated.

Ye Xuan paused.

At this time, he has also become a virtual reality, and with all kinds of ups and downs, he has been able to deal with the high level of virtual reality.

At the same time, after these few days of practice, his meteor body has reached 70% of the fire, the wind dragon is even more than 90% of the fire, the attack power is even stronger than the collapse.

Although they are all imaginary martial arts, there is still a big gap.

How can the martial arts of the temple compare with the martial arts of the main hall?

What's more, the Meteor Body and the Wind Dragon are still given by Lan Xin.

"What are you hesitating? There is a great opportunity in the inner world. It is said that a double fruit has been born in the head. Moreover, your wind dragon and dragonfly are pulsating in the earth, I am afraid that even the masters who have lost 70% will not pick up. I have you with me, no problem." Lan Xin said a little embarrassed.

Ye Xuan's thoughts will not be left to her.

After careful consideration, Ye Xuan nodded.

If there is no such thing as a ring, he will not break through so quickly, and there are many opportunities for greatness. This time, he may be able to catch up with the Song Dynasty and the Song ruling.

If you are lucky enough to get a double fruit, then he can make a big shot.

"In this case, are we going to leave now?" Lan Xin looked at Ye Xuandao.

"it is good!"

Ye Xuan nodded.

This time, I entered the Great Wilderness, and maybe I could meet the Song Dynasty team. By then, they will meet each other.

At the moment, he and Lan Xin directly entered the inner perimeter of the Great Wilderness.

"Small temple master, there is a stronghold in the wilderness?" Ye Xuan asked.

"No, there are too many masters of the Yaozu, and the high-level elders of the virtual gods of the Warlord Temple are so little. If the loss is found, it will be too big." Lan Xin shook his head.

"So, do you have any plans?"

Ye Xuan asked again.

Lan Xin licked his bright eyes and said: "Plan, what plan? It's good to come in and learn what else you need."

Ye Xuan turned a dead fish eye, even if there is no plan, at least to the map of Zhang Danhuang inside?

Nothing, just fly blindly?

"Booming!"

Just then, the sky suddenly came a big move.

"Someone is fighting?" Ye Xuan frowned.

"It's not like a human battle. It may be a virtual beast. Go, go and see!" Lan Xin is a pair of fearful worlds, and is the first to fly in that direction.

However, after they approached, they discovered that it was not a battle of humans or demons, but a big bird and a two-headed dragon fighting.

"Sure enough, it is a virtual beast..." Lan Xin was in a shape. "The two virtual beasts are estimated to be comparable to the masters of the 50%. I don't know what to fight for."

When she finished, she looked around and understood the reason why this big bird and the two-headed dragon were fighting.

Ye Xuan followed her gaze and found a strange grass that seemed to be a treasure.

"That seems to be a form of grass, if there is a virtual beast to eat it, you can become an adult." Lan Xin explained.

Form grass!

Ye Xuan was not the first to hear the word. When he was in the deep sea palace, the ancestors of the Hailong family only ate this thing before they became human.

"Is there a curse for the Yaozu, why should we fight to become a Yaozu?" Ye Xuan asked curiously.

"Well, the demon does have a curse. After becoming a person, if you want to change back to the body, you have to pay a big price. Moreover, the speed is greatly reduced during the transformation, so it is easy to be killed. So these demons invade. Trying to find the heart of the great emperor and resolve the curse." Lan Xin nodded.

"The heart of the Great Emperor is the heart of the demon family at the level of the virtual gods?" Ye Xuan stunned.

Lan Xin said helplessly: "This is just a legend like the double fruit. How can there be so many virtual gods? The ambition of the great wild demon is very big. Fortunately, there is a sword \*\*\*\* palace shock, and the virtual \*\*\*\* king is not allowed. The departure of the Great Wilderness, otherwise the East China will be chaotic."

"Is there a virtual \*\*\*\* in the great wilderness?" Ye Xuan asked again.

"I have never heard of it." Lan Xin replied.

"Since there is a virtual \*\*\*\* in the sword \*\*\*\* palace, why not directly kill it?" Ye Xuan is very puzzled.

The great wilderness, but the whole East China was packaged in, so that the East China is isolated from the world, so that the East China continent is constantly declining, and the generation is not as good as one generation.

"They also think, but in the legend, there is a demon master who is even stronger than the virtual \*\*\*\* of the great gods, so the palace owner of the sword shrine does not dare to go in." Lan Xin replied.

"After taking off the virtual state, what is the realm?" Ye Xuan's eyes widened.

His father, who is only the peak king of the virtual state, is not the virtual god.

The several palace owners in the Sword God Palace are only the virtual gods. However, there is a master in the great wilderness that has detached from the virtual state. If he comes out, even the Sword Palace will be destroyed, let alone the East China.

"I am not very clear, just a legend." Lan Xin shook his head.

Ye Xuan is silent.

Although the Sword God Palace fears a legend, the stronger the strength, the more afraid of death. When they reach their realm, who wants to risk entering the Great Wilderness?

Therefore, the Sword God Palace and the Great Wild Demon have made an agreement, as long as the virtual gods in the Great Wilderness do not come out, they will not shoot.

At this time, the battle ahead is already coming to an end.

"Oh, that big bird is going to be miserable. The two-headed dragon has the dragon's blood, which is better than the average virtual beast." Lan Xin looked at the two huge figures in the distance.

There are many races between heaven and earth, but the dragons are one of the top races.

A large bird in the district, unless it is suppressed by the realm, it is very difficult to play the dragon.

"Hey!"

The big bird screamed and the huge body fell from the air.

The big bird squatted on the ground, falling 10,000 meters high, even if it was still alive, it fell to life.

Chapter 626: Sixty percent

"Come on, let's take a shot!" Lan Xin took a big look and took out the silver dagger.

Since the breakthrough to the virtual state of the gods, Ye Xuan is almost always holding the eight wild swords, he has already been ready.

"call out!"

At that time, Ye Xuan rushed out with Lan Xin and plunged toward the two-headed dragon.

This double-headed dragon has already discovered two people. It turned two heads and spurted flames and venom against Ye Xuan and Lan Xin.

This double-headed dragon is the same as Ye Xuan's \*\*\*\* of the Tang Dynasty in the Tang Dynasty. One is a flame and the other is a venom.

"Oh... it's disgusting, or you can go on yourself." Lan Xin saw the purple-black venom that had been rushing toward him, suddenly shrinking his neck and then retreating.

"The trough!"

Ye Xuan's eyes turned, this girl is really not reliable.

However, a virtual beast that is vain and ruthless has no threat to him.

"boom!"

Ye Xuan's whole person slammed into the fireball. This hot fireball was directly shocked by the pulsation guardian.

He sacrificed eight ridiculous dragon swords and then bowed at the double-headed dragon.

"Eight ridiculous dragon sword, dragon's ruling!"

"call out!"

He has already grasped the power of the righteousness, coupled with the strength of the blood of the beast god, so that the speed and power of this sword are strong.

In the blink of an eye, this sword is in front of the double-headed dragon, and then the two-headed dragon is split into two halves, one side.

"Oh!"

The two-headed dragon died in an instant and then fell.

At the moment, Ye Xuan quickly swept the past, took away the two halves of his body, and swallowed it.

The imaginary beast has a false god, but it is not the same as human beings. This virtual \*\*\*\* has no attributes.

"Hey, the degree of virtualization of the host has increased, and it is currently fifty-one!"

The system prompts.

Now, Ye Xuan has a twin blood, but his experience is the same as the original. Every time he breaks through, the soil attribute is weak and the wind attribute is reduced. It is a lot of things.

"The grass is also given to you."

At this time, Lan Xin had already taken the form of grass, and then directly lost it to Ye Xuan.

Ye Xuan came to refuse, and will directly devour the grass.

Not every plant can make the holy beast, the virtual beast shape, or the year, so the value is not the same.

However, this planted form of grass still allowed Ye Xuan to once again be upgraded once, and the degree of degeneration reached 52.

"You secret, it is really eye-catching." Lan Xin felt the change of Ye Xuan's breath, with big eyes.

"Only I can do it."

Ye Xuan did not explain much, although he was discovered by this girl?

Fortunately, Ye Chong and the Lord of the Warlord Hall are friends. Otherwise, Ye Xuan may really kill people.

However, if this secret is really leaked out, he can only destroy the flowers.

"Let's go, keep on the road!" Lan Xin flew up again, condensing the wing of the wind.

Ye Xuan nodded slightly.

Although Lan Xin has no plans, but this girl can not be underestimated, he estimated that this Lan Xin should have a place to go.

"Where are you going?"

Ye Xuan followed up, still couldn't help but ask, he still has to ask clearly, in case of any danger that this girl is going to go, he is not prepared at all, isn't it dangerous?

"Well, I am going to a breeding ground." Lan Xin knew that Ye Xuan had come to see it, so he explained: "My sister is not the first time to enter the Great Wilderness. Before, she said that there is a demon farming in the inner world. Ground, so I want to check it out."

"Aquaculture? Breeding a virtual beast?" Ye Xuan suddenly reacted.

"Yes, otherwise you think so many demon how come?" Lan Xin nodded: "Why, are you afraid?"

"You are not afraid, I am afraid of anything, just need to ask clearly." Ye Xuan said.

If it is the strength of the round, he should be stronger than Lanxin at this time. Of course, this is his own guess, he has not really played with Lan Xin.

"Well, I am still afraid that you are jealous. There are many kinds of breeding grounds, and the great wilderness is transforming us into human beings, so we need a lot of virtual beasts." Lan Xindao said.

Hearing this, Ye Xuan's eyes lit up.

It seems that he has found a quick upgrade method, but the degree of danger should be high, he still asks well.

"What is the specific strength?" Ye Xuan asked.

"There is probably tens of thousands of virtual beasts in this breeding ground. It is said that there are also demon masters who have lost 60% of the genius." Lan Xin said.

Sixty percent!

Ye Xuan's mouth couldn't help but scream.

Although his realm is low, he can understand the various kinds of ambitions, and he can challenge many levels.

What is the meaning of the 60% reduction?

"go!"

Ye Xuan drinks a low sentence.

Then, he followed the blues and flew in one direction.

The meteor body method he has learned is a special martial art that can improve the speed of the defensive flight.

Therefore, at this time, he is also constantly watching Lan Xin, because Lan Xin is also using the meteor body. However, Lan Xin realized the wing of the wind according to the meteor body, so this is very useful for him.

It is better to find a good teacher if you practice hard.

"Hey, the proficiency of the meteor body is improved, and it is currently 80%!"

Ye Xuan stared at the back of Lan Xin, and suddenly there was a sound in his mind. Sure enough, some people practiced, that is fast.

I don't know when I can understand the wind wing. After all, his dragon martial arts has been cultivated to the top ten, but still does not comprehend the earth.

It is not so easy to understand.

Ye Xuan flew behind Lan Xin for two days, and then he heard a burst of roar.

"Come on, just over there!"

Lan Xin in the high-altitude clouds suddenly fell, then pointed to a black hole in front of the array.

The beginning of the Yaozu will not be cultivated, but they are mixed into the human society, so they have learned a lot.

The array method is also one of them.

"Great, there are tens of thousands of virtual beasts here?" Ye Xuan stared at the black hole in front of the array, and said awkwardly.

This array of law, I am afraid that the land is not small, after all, there are tens of thousands of virtual beasts.

"The demon family raises the sacred beasts, and then let them force \*, and many new species can be born. The two-headed dragon is the product of the dragon and the two-headed snake. If it is a double-headed snake, it is not allowed. The number will increase," Lan Xin said faintly.

"Re-\*? Isn't that a Hydra?" Ye Xuan suddenly recalled Hydra in Greek mythology.

This Hydra has nine heads. If one of the heads is smashed, it will grow two heads, which is very scary.

In addition, there are eight different snakes in the mythology of the island country, with eight heads.

Chapter 627: kill!

"These demon people are varied. Of course, the most numerous ones are the dragons. The demon people cultivate these virtual beasts to see if they can match a new race that is comparable to the dragon." Lan Xin continued.

"Don't say this, what do you want to do?" Ye Xuan asked directly.

"This array needs someone to maintain. If we break it, then the formation will be broken, and the virtual beast will run out. You said, what method do we use?" Lan Xin looked at Ye Xuan.

"If this is the case, let me go in first, and then smash all these virtual beasts." Ye Xuan has been unable to wait.

Unexpectedly, Lan Xin is not ready to go in.

"You go in alone, I am giving you the wind outside." Lan Xin took out the silver little dagger.

Ye Xuan paused, and some worried about this little girl.

However, he also thought that Lan Xin had realized the wing of the wind. Even if he is a demon master who has lost 70%, he is afraid that it will be difficult to catch up.

"Then you be careful!"

Ye Xuan reminded me, and then quickly landed.

"This method is big, but if it breaks slowly, it will definitely attract the Yao master, or break it in an instant!"

He fell to the ground, and then he took a sword against the black hole in front of him.

90% of the wind's wind dragon!

"Hey!"

The green smoldering faucet hit the formation and instantly broke it into a hole. Then, Ye Xuan quickly drilled in.

He just crossed the line and felt a stench. He finally understood why Lan Xin did not come in.

This place, to say that the good point is to cultivate a new race farm, not to hear, is the pig pen.

The IQ of the imaginary beast is no less than that of human beings, but they still can't speak. Moreover, there are demon strong people who are shocked. They can't make it, so they are separated.

After Ye Xuan entered, he looked at it and saw several virtual beasts.

"kill!"

At the moment, he is killing.

Here, but an upgraded treasure, although the strength of these virtual beasts is no more than the double-headed dragons he encountered before, but the victory is large.

Moreover, on the land, I am afraid that he can be overpowered with the powerful 80%.

The movement caused by him was not great, and the Yaozu who guarded the plantation site was allowed to go out and bend, so he acted very smoothly this time.

"Hey, the degree of ignorance of the host has increased, currently fifty-three!"

"Hey, the degree of virtualization of the host has increased, currently fifty-four!"

"Hey, the degree of virtualization of the host has increased, and it is currently fifty-five!"

The realm of Ye Xuan began to improve.

At the same time, the number of virtual beasts in this demon farm is rapidly decreasing. Although Ye Xuan did not calculate, he estimated that there are also three or four thousand.

However, such a large-scale death directly attracted the attention of the Yao master.

"What, is there a personal class coming in?"

The demon master who is chatting in the air is trembled, then he turns around and flies.

According to the information of Lan Xin, this farm has a master of 70%, but it does not mean that he is only one.

These three demon masters, the strength is about 50%, the strongest is only 55%.

"Finally found me!" Ye Xuan eyes stunned and continued to kill the virtual beast.

After the three demon masters landed, he suddenly turned and killed.

On land, his combat power has increased by at least half.

"Amazing!"

"The earth is pulsating 8!"

"call out!"

Although the body of the Yaozu is strong, but Ye Xuan's physique is not weak, not to mention his understanding of the power of the righteousness, coupled with the strength of the blood of the beast god, his speed is so fast.

"call out!"

When the three demons reacted, this embarrassment had already been looted in front of them.

This embarrassment is going out, and if the three are not guarded, I am afraid that they will be killed in an instant.

"Hey!"

The three men joined forces and instantly blasted this cockroach.

However, the next moment, there is still a stronger one behind.

"The Eight Swordsmanship, the sword is broken!"

The three demon people have just blasted the catastrophe, and the eight swordsmen are gathering together to unite a more powerful attack.

"Oh!"

This huge sword mang, directly passed the body of the three Yaozu, and hit the three to kill.

The sword is broken, it needs to consume all the infuriating in the body, but Ye Xuan has a tree of life, and can recover to the peak in a few seconds.

"Hey."

Ye Xuan opened his mouth and smiled, then walked over.

These three demon masters, it is too bad to die, no, it should be said that Ye Xuan's current strength is too strong.

"Hey, the degree of virtualization of the host has increased, and it is currently fifty-eight!"

The realm has taken another trip.

After killing these three demon masters, Ye Xuan did not stay and continued to kill the virtual beast.

Here is an upgraded treasure land. The Yaozu took a lot of effort to catch so many virtual beasts. Now it is cheaper for him. If you kill all the virtual beasts here, he may be able to improve to 60%.

Soon, there was only one-tenth of the imaginary beast here, and when Ye Xuan was about to kill him all, the pattern that shrouded him was suddenly broken.

"Well? What happened?" Ye Xuan brows a pick.

Such a large array of methods, it is not easy to break, unless it is to find the base.

"Booming!"

There was a loud noise in the distance.

Ye Xuan's brow wrinkled, it's hard to make it. Is it Lan Xin's gimmick?

At the moment, he quickly swept past.

When he was close to him, it turned out that it was a girl in light blue clothes fighting a golden dragon.

The golden dragon, if it is the Yaozu, is the metallic virtual god, just by Ye Xuan.

Lan Xin held the dagger in his hand and did not attack. Immediately after seeing Ye Xuan, he immediately shouted: "Ye Xuan, this guy is handed over to you."

Ye Xuan brows a pick, how dry is this girl?

However, he also understands that this golden dragon should be the master of the 60%.

"Eight ridiculous dragon sword, dragon's ruling!"

Ye Xuan sacrificed eight ridiculous dragon swords, and then smashed.

He has grasped the power of the righteousness, and both the speed of the shot and the speed of the sniper have been greatly improved.

This embarrassment, instantly swept to the side of the golden dragon.

At first, the golden dragon was played by Lan Xin, very angry. Now she has another Ye Xuan, so it directly chose to ignore it.

However, his disregard, but let him eat a big loss.

"Hey!"

The dragon's ruling directly fell into the body of the golden dragon, and the wound was instantly pulsated by the earth to the flesh and blood.

Ye Xuan has the blood of Jianshen in his body, which enhances the power of the swordsmanship. The blood of the beasts also has 20% of the beasts of the beasts. Together with the ruling of the dragon and the pulsation of the earth, the attack on the dragons simply explodes.

Chapter 628: Deep in the wild?

If you are squatting on the head of this golden dragon, I am afraid I can kill it.

However, this is not over yet.

The ruling of the dragon is not a sword-breaking, how can Ye Xuan only pull out one?

"Hey!" "Hey!" "Hey!"

The rulings of the dragons one after another blasted on the body of the golden dragon. At that time, the golden dragon was dying.

"go to hell!"

At this time, Lan Xin suddenly flashed into the air of the golden dragon, and took the opportunity to find a green sniper.

"Oh!"

The head of the golden dragon was smashed and died on the spot.

Ye Xuan helpless, how is this little girl doing this, but also robbing him of the strange?

Fortunately, he did not rely on killing to upgrade, but to rely on swallowing to upgrade, so who killed it does not matter.

"The body is yours." Lan Xin took the dagger in his hand.

Ye Xuan is also welcome, directly in the air to catch the faucet and dragon body, and then find out the ring and devour.

"Hey, the degree of virtualization of the host has increased, currently 60 points!"

As for this dragon body, there is no need to accept it.

"Well, this farm is completely cleared, go to the next one?" Lan Xin said to Ye Xuan.

"it is good!"

Ye Xuan nodded.

Now, his realm is finally higher than Lan Xin, and the illusion has reached 60%. After a while, he may be able to challenge the master of the virtual world.

At that time, it should be able to traverse the inner circumference.

The Great Wilderness is divided into three parts, one is the periphery, the other is the inner circumference, and the third is the depth.

At this time, they were in the inner circumference, and the king of the war, the temple, the blue moon and the two brothers and sisters, entered the depths.

"You must break through quickly, then go deep into the depths!" Ye Xuan eyes a sigh, thinking in his heart.

Then he continued to follow the blue back and went to the next breeding ground.

However, this time he found that Lan Xin's flight speed was faster, and it seems that she also hides her strength.

There are many breeding grounds for the Yaozu. Although Lanxin only knows a few, it is enough for Ye Xuan to break through.

Moreover, the breeding grounds have a guardian array method, and even if you go around, you may be able to find them.

After two days of rushing, the two men came to a breeding ground of the Yaozu. This farmland was the same as before, and there was a demon guard who turned 60%.

Soon, this farm was given a pot by Ye Xuan, and then they continued on their way.

Lan Xin only knows about four breeding grounds. When Ye Xuan destroyed all four breeding grounds, his realm has been raised to 65%.

"Well, all the four farms have been destroyed." Lan Xin said that Ye Xuan, who was flying toward himself, said.

"End?"

Ye Xuan brows wrinkled, he thought it was still there, I did not expect four.

"Well, I still know one, but the breeding ground is very large, and it is said that there are 80% of the masters, even 90%, can you cope with it?" Lan Xin looked at Ye Xuan.

Deficiency!

Ye Xuan heart meditation again.

Now that he is six and a half years old, and with all kinds of ambiguity, it can be solved.

However, he is not sure about the illusion.

Moreover, Lan Xin's realm is too low. If he is going out to fight, he can't take care of Lan Xin.

Lan Xin seems to have seen through the movement of Ye Xuan, saying: "Don't worry about me, do you really think that I only have 50%?"

"Ok?"

Hearing this, Ye Xuan brows a pick.

Sure enough, this Lan Xin is hiding the strength, no wonder it can accelerate indefinitely.

"Then your specific realm..." Ye Xuan could not help but ask.

"You feel it yourself!"

Lan Xin did not answer directly, but directly emitted the momentum. After Ye Xuan felt it, the whole person was trembled.

This breath, at least it has become a virtual one!

"Good guy!" Ye Xuan's heart screamed and jumped a bit, and Lan Xin turned out to be not a virtual one, but a virtual one.

Dare to love, the day Lan Xin is also casually said, what is half of the virtual \*\*\*\* king, simply swear.

The next moment, Ye Xuan smelled a dangerous taste.

This little girl is too simple!

"At least the 80%, and then with the wings of the wind, has been able to run this inside. Her purpose, I am afraid not inside, but deep!" Ye Xuan thought in his heart.

Lan Xin looked at Ye Xuan and smiled. "You guessed it. My goal is deep, but I am very bored when I go in, so I am looking for you."

"Oh, this girl is too motivated, and I won't know if I will be sold." Ye Xuan thought in her heart.

A 16-year-old girl, with such a heart, is simply against the sky.

However, Ye Xuan really wants to enter the depths, because the Song Dynasty and the Song ruling are inside.

However, his current realm is not enough. If he goes in, he must have the strength of self-protection.

"I can go into the depths of the wild with you, but there is a condition!" said Ye Xuan.

"What?" Lan Xin was curious.

"I need some time to upgrade the meteor body and the wind dragon, I have to have the ability to protect myself." Ye Xuan replied.

When Lan Xin heard it, he made a snap and said: "This is not easy. My two martial arts have already trained for 10%. I will find a place later. I will show it to you, but can you learn? Just look at your own qualifications."

"it is good!"

Ye Xuan's eyes lit up.

Now that he has the illusory power of the wind attribute, if he is made to understand the wing of the wind, then his combat power will be greatly improved, even if the wind blade is not bad, it can also make his attack surge.

Although Lan Xin is only sixteen or seven years old, but the master is a teacher, even if it is an eight-year-old child, as long as there is a place for Ye Xuan to learn, Ye Xuan does not mind.

What can you use to fight?

"Then you have to learn first, or go to that big breeding ground first?" Lan Xin continued to ask.

"Learn first!"

Ye Xuan solemnly replied.

Large-scale breeding grounds, although it may allow him to increase the degree of degeneration, but if he understands the righteousness, his combat power will increase even more.

"Then we will find a place. You can raise the style of the dragon and the meteor to 90% in such a short period of time. The qualifications are not low. Maybe you can really understand the meaning of the righteousness."

When Lan Xin finished, he spread his wings and left.

Ye Xuan hurry to keep up.

The realm of Lan Xin is already the same as that of Elder Li, but her strength is stronger than that of Elder Li.

If Ye Xuan understands the true meaning of the wind, then the two teams will enter the depths of the wilderness, as long as they do not touch the king of the virtual gods, there will be no matter.

Soon, the two were looking for a remote place.

Ye Xuan, conducted a second special training!

Continuous martial arts is a very boring thing, but if the two are practicing, it is a lot simpler.

If you want to improve, it is natural to fight the easiest, so Ye Xuan is directly fighting Lan Xin.

Chapter 629: Ground technique

Lan Xin's realm is higher than Ye Xuan, and there is a wind wing. If she breaks out at full speed, Ye Xuan can't catch up. Therefore, she can only use the meteor body method, and does not use the wind wing.

Ye Xuan fights with Lan Xin while observing Lan Xin's body. This time, even if he did not comprehend the righteousness, it would be good to raise the two martial arts to 10%.

Lan Xin's wing of the wind is understandable when the meteor body is raised to 10%.

A martial arts is upgraded to a 10% fire, and in many cases it will comprehend the meaning.

So Ye Xuan is thinking, can he take the opportunity to comprehend.

Their practice is three days!

In these three days, Ye Xuan continued to fight with Lan Xin, but it raised the meteor body to a 10% heat. However, the wind dragon is still not moving.

This is a rare thing. After all, he has the blood of the sword \*\*\*\* and has a 50% sentiment bonus.

What is more helpless is that after the meteor body method was upgraded to 10% of the fire, Ye Xuan did not realize the acceleration of the wind.

Therefore, Ye Xuan does not use the Meteor body method, but uses the dragon Wu body method to fight Lan Lan on land.

However, it was shortly after the breakthrough of the Meteor.

"call out!"

Suddenly the sound of a hunting sound rang, and Lan Xin slammed it out with a sniper, but this sniper, the power is several times stronger than before.

You know, this is just the sword that she took out with her hand!

"Not good, flash!"

Ye Xuan was a bit stunned. When he reacted, the sword had already looted in front of him.

"This is, the wind blade is righteous?"

Ye Xuan's eyes widened and he saw that the sniper was getting closer and closer.

Lan Xin, actually realized the wind blade at this time?

However, there is no time to manage this. This sword is very powerful. If you don't avoid it, it is likely to be split in half.

If the heart and brain are injured, it would be useless to have a blood tree of life.

This sniper is extremely fast, and the Eight Shields are too late to be caught.

"Hey!"

Ye Xuan stepped on the big foot and applied Longwu to the left.

"Hey, the host has realized the magic of the earth!"

A tone suddenly sounded.

The next moment is accompanied by a crisp and loud sound.

"Oh!"

The sword attack with the windy edge of the wind, sweeping over Ye Xuan's shoulder, directly cut his right shoulder.

At this moment, Ye Xuan smelled the breath of death, but when he was in the midst of a thousand miles, he realized that the ground was magical, and the speed suddenly rose.

"噗通!"

The broken arm fell on the ground, and Ye Xuan and Lan Xin were both stunned. The two of them actually learned the meaning of the righteousness.

Lan Xin understood the wind blade of the righteousness, and Ye Xuan, is to understand the grounds of the earth.

"Are you OK?"

Lan Xin reacted and quickly fell to Ye Xuan.

It is a common thing for their masters of this realm to break their hands. However, the stronger the strength, the harder it is to recover, so advanced anti-healing drugs are needed.

Fortunately, Lan Xin is the daughter of the deputy master of the War King Hall. There are many good things in it.

However, Ye Xuan does not need it.

In the blink of an eye, Ye Xuan has grown a new arm, but there is no way to recover the clothes.

"This....."

Lan Xin subconsciously stepped back, but she watched Ye Xuan grow her arm. At this time, he had smashed the arm on the ground and it had turned into mud.

Seeing this scene, Lan Xin's first reaction was that Ye Xuan had a third kind of virtual god, the virtual \*\*\*\* of wood property!

"Quick healing? No, this is a dead wood rejuvenation!" Lan Xin exclaimed.

"Withered wood rejuvenation?"

Hearing this, Ye Xuan shook his head. "I don't have a wooden attribute, this is my physique."

The wood attribute has a quick healing meaning, which can quickly heal the injury. At the same time, there is a double mystery, that is, the dead wood rejuvenation.

The dead wood rejuvenates, although there is no effect of life and death, but it can be a white bone, that is, a broken arm.

"Well, this is not what the dead wood is?"

Lan Xin does not believe.

"Double fruit is so rare, do you think I have eaten two at a time?" Ye Xuan stunned and said.

Lan Xin squatted.

Double fruit, even she has never heard of it, only in the legend.

Ye Xuan ate two at a time, which is a bit unlikely.

"Then how can you use your instinct? The soil properties and wind properties will not accelerate the recovery of infuriating!" Lan Xin asked.

"It's a physique with you. Anyway, I don't have the wood attribute gods. I am fooling you. I can't break through the virtual kingdom for life." Ye Xuan doesn't want to talk too much on this topic.

"Cut, the breakthrough is not more than the virtual king of the king." Lan Xin turned his eyes and asked: "Do you really have three kinds of gods?"

Ye Xuan shook his head and said: "No, if I have eaten two double fruits, I will definitely condense the golden gods, and will not condense the false gods of wood properties."

When Lan Xin listened to it, I felt that there was some truth.

Ye Xuan has already realized that the earth is pulsating eight times. If there is another gold defense, his survivability will be greatly improved.

Now come back to another place, as long as you don't touch the king of the virtual gods, there will be no problem.

If Lan Ling is chosen, she will also match the soil properties and metality.

"Well, let me know for a while." Lan Xin smacked his mouth and said: "I just realized the wind blade, I have to go and feel it myself."

"it is good."

Ye Xuan nodded.

Not only does Lan Xin want to feel, but even he himself has to try this technique.

When he was in the midst of a thousand miles, he realized the practice of the earth. Otherwise, it is really possible that he will be killed by an attack that contains the wind and the righteousness.

Fortunately, God cares for him.

After Lan Xin left, his figure was a flash, and his speed was almost twice as fast as before.

"I have advanced three times of agility, and now I have this technique. On land, I will almost never be in danger." Ye Xuan thought.

Although it is said that the wing of the wind is not realized, that is, the acceleration of the wind, it is almost the same.

The earthly technique of the earth's righteousness, as well as the double mystery, is called shrinking into the inch. This is very powerful and can go down the ground.

The wind wing is on the road and may be discovered.

However, who will drill down to the ground?

Ye Xuan tried again and found that the operation was really cool. His speed on the ground was estimated to be on the speed of Lanxin in the sky.

"Would you like to find a little girl to fight?" he thought in his heart.

However, in the end, it is not enough. Both of them will definitely release water. This is not a life-and-death battle after all, or it is better to find a demon.

He suddenly thought of the large farm, which is a very suitable place.

Chapter 630: Strong strength

One day later, Lan Xin has already realized the feelings, and he is proficient in using the wind blade. At this time, her attack power is at least doubled.

The acceleration of the wind, the wing of the wind, this makes Lan Xin have the strength of the virtual gods invincible.

"I didn't expect that I would understand the wind and the righteousness at this moment. Thank you very much."

After seeing Ye Xuan again, Lan Xin also said with a gratitude, of course, there was a hint of shame, because she almost missed her hand.

"The next step is not to practice, go directly to the farm, I also understand the ground, enough to protect yourself." Ye Xuandao.

The earth is pulsating, the pulse is guarding, the power is righteous, and the earth is going. This adds up to the fact that there are three earths, plus a double mystery.

Even if it is the peak of the virtual state, Ye Xuan has the courage to challenge.

"If that's the case, then let's go!" Lan Xin gathered a pair of green wings, then turned around and left.

And Ye Xuan, who is running wild on land, is no slower than Lan Xin.

Lan Xin, the virtual eighty.

Ye Xuan, sixty-five percent of the virtual.

Although the difference is more than a dozen realms, but Ye Xuan has a \*\*\*\* increase, full force rushing, the speed is even faster than Lanxin.

"This guy, how many secrets there are, the speed is even faster than me." Lan Xin is very puzzled, in her heart, Ye Xuan is a very mysterious person.

Double attributes, as well as the physical fitness of the dead wood, quick breaks, instant emptiness, and so on, are not something that ordinary people can do.

This time, they only rushed for a long time, that is, they saw the big breeding ground.

This kind of large-scale breeding land is not much in the wilderness. The strength of the virtual beasts inside is also very strong, and the number has reached 100,000.

If so many virtual beasts are gathered together, they will certainly be rioted frequently, but the accident is that these virtual beasts are very safe and self-sufficient.

After all, the demon who once had the king of the virtual gods came, and they shocked them. If there were thorns, they would be killed on the spot.

Therefore, these virtual beasts can only stay on their own territory.

At this time, Ye Xuan and Lan Xin have come to the front of this black hole.

"As before, you solve it yourself, I look at it." After Lan Xin finished, he rose to the sky.

"This girl is really lazy to get home." Ye Xuan has a white eye, but this is also good, and he can get enough food and clothing, and he can understand the meaning of the righteousness in the middle.

"kill!"

He flashed a glimmer of light, and directly facing this array of methods is a slap in the face.

"boom!"

The array broke a big hole and Ye Xuan sneaked in.

This large breeding ground, the base of the virtual beast is large, and the realm is also high, Ye Xuan could not wait.

To deal with these virtual beasts with low realm, it is best to kill them with eight wild winds.

The eight handles contain the eight-pointed blade of the earth's pulsation, which can instantly penetrate the head of the virtual beast and kill it. This is very efficient and saves a lot of time.

Ye Xuan kills and collects the body while the realm is constantly improving.

"Hey, the degree of virtualization of the host has increased, it is currently sixty-six points!"

"Hey, the degree of ignorance of the host has increased, currently it is sixty-seven!"

"Hey, the degree of ignorance of the host has increased, currently at 68 points!"

Because the number of virtual beasts is too large, Ye Xuan's killing speed does not cause the attention of the Yaozu.

Over time, the Yaozu would not find him difficult.

"Is it the people of the three kings, look for death!"

Several demon people found Ye Xuan and immediately rushed down.

However, Ye Xuan discovered them early, and directly recovered the eight-handed blade, and then took out a sword.

The Eighth Heavy Swords Method is the third most important type, and the sword is broken!

After the attack of strength and the increase in speed, the speed is at least doubled. This sniper instantly splits into eight, and then combines eight and one, and the three demons who have reached the sixty-seven percent will be killed on the spot.

"乾坤戒!"

Ye Xuan swept quickly.

No, Lan Xin is still the same as before, just holding a small silver dagger, no attack.

"Roar!"

This dragon is actually a rare blue dragon, so it is a water property. However, this does not matter, after all, as long as it is a dragon.

"He is squandered and smashed him, and we will enter the depths of the wilderness!" Lan Xin sneaked and shouted at Ye Xuan.

Deficiency!

And Ye Xuan has been reduced to 70%, so this battle is still without any suspense.

"Eight ridiculous dragon sword, dragon's ruling!"

"Eight ridiculous dragon sword, dragon's ruling!"

"Eight ridiculous dragon sword, dragon's ruling!"

A series of attacks fell on the blue dragon, giving it a lot of damage in an instant.

Although its speed is fast, but the body is too big, and Ye Xuan has power, he can't hide.

In order to let Ye Xuan solve a little, Lan Xin is also deliberately introducing the other side to change, which saves time.

"Roar!"

Blue Tianlong saw that both of them could not be matched and rushed to escape.

"Just use this trick to solve you, the sword is broken!"

Ye Xuan's flash of light flashed, and the body's infuriating moment was evacuated, and a sword was directly drawn against the back of the blue dragon.

"Oh!"

A crisp and loud sound spread, and the blue dragon's head was cut off like a tofu.

Then, he quickly swept the past, and then took away the Qiankun ring hidden in the Longkou.

"Hey, the degree of virtualization of the host has increased, currently it is seventy-five!"

Realm, soaring.

"70%, and two and a half, I may be able to break through to the virtual king!"

Ye Xuan's eyes lit up.

"Well, maybe after a while, you will be able to surpass me." Lan Xin looked at the breath and the skyrocketing Ye Xuan, said with a smile.
