Chapter 631: Deep in the wild

"Go, go to the depths of the wilderness!" Ye Xuan's confidence is overwhelming. At this time, even if he encounters the peak of the virtual state, he may have the ability to kill.

Lan Xin frowned: "How do you feel that I am not pulling you, do you want to go deep into the wild?"

"Not bad!" Ye Xuan nodded.

Wen Yan, Lan Xin did not ask again, she thought that Ye Xuan was in order to upgrade before entering the Great Wilderness.

"If this is the case, then let's set off, I don't know if I can meet my sister." Lan Xin said, is to lead the way in the sky.

Lan Xin's sister, Lan Yue, has already broken through to the king of the virtual gods, but there are many demon people in the depths of the wilderness, so Ye Xuan is very worried.

"I hope not to do anything!"

Ye Xuan thought about it and just followed it.

.....

The inner perimeter of the Great Wilderness is very large. Although Lan Xin knows the route, he and Ye Xuan are also fully rushing for seven days, only to enter the depths of the great wilderness.

The wilderness is a mysterious place. In the depths, there are countless crises. Even if it is a king of the virtual gods, even if you don't touch the masters of the demon, there will be danger of falling.

The most important thing is that it is extremely easy to get lost in the depths of the wilderness. There seems to be a huge fantasy array here.

"Then you have to keep up with me, listen to the lord, there is a huge illusion in the depths of this wilderness. If you accidentally fall behind, you may not be able to touch it."

When entering the depths of the wilderness, Lan Xin couldn't help but remind her. Then she took out a map and handed it to Ye Xuan: "This is a map. If we are lost, then go out on your own. Of course. If you understand the shrinkage, then you can easily go out."

Ye Xuan silently glanced at the map and included it in the phagocytic system.

Before that, the squad that entered the depths of the wilderness was almost the peak of the virtual gods. The worst was also the illusion of the eighty-nine percent, and it was still the three kings of the palace to go in together, there are many virtual gods.

This time, they are two people, and they are not the king of the virtual gods.

This dare to come in, and the courage is indeed big.

"Little girl, can you find them?" Ye Xuan suddenly asked.

"No, I came in and tried my luck. By the way, I have a look at what is great in this wilderness. Even the king of the virtual gods dare not come in easily." Lan Xin shook his head.

"I rub, this courage is really big!"

Ye Xuan brows a pick, this may be the price of blood.

The two blindly stalked around the depths of the wilderness. Here, they dare not fly at low altitudes, they can only fly in the clouds, and occasionally take a look.

They flew for a long time, but they found nothing.

However, just as they were ready to fall back and look at the situation, they actually hit two people. However, the other two did not seem to notice them.

"The demon?"

Ye Xuan brows a pick and whispers and asks: "Do you know?"

"I only know the team of the War King Hall. I don't know the King Hall and the Beastmaster Hall." Lan Xin shook his head.

"That is the Yaozu, I don't know if it is a virtual king." Ye Xuan was hesitant and hesitated to show up.

"Reassured, the demon family's virtual gods can not be so many, these two should be high-level virtual high-order. Go, we are one person, kill them!" Lan Xin hides in the clouds, and Ye Xuan It is closely behind her.

The two demons flew under them, and the two stood in their air. When the time came, they suddenly shot.

"Wind Dragon!"

"The sword is broken!"

Both of them use the strongest attack, and if they can do one hit, then they can save a lot of effort.

Lan Xin has already realized that the wind blade is righteous. Her full-strike attack is already able to threaten the king of the virtual god.

If it is said that the attack speed, Lan Xin's wind dragon is still faster than Ye Xuan's sword.

"Huh!"

The two snipers screamed and screamed, and the two demons were already heard, and when they reacted, the attack had already reached their eyes.

"Hey!" "Hey!"

The two demon people are high-level virtual reality, and the degree of degeneration has reached 90%, and the strength is very strong.

Therefore, the two strikes did not kill them, only they were injured.

"on!"

Lan Xin gave a low voice and quickly swept past.

In the air, Ye Xuan is slower, followed by it.

"It is humanity, kill!"

A demon master smirked, and the blue dragon's wind dragonfly, but cut one of his arms.

At that time, the two sides were in contact and then began to fight.

"It's too far away. If you get closer, you can kill it, but unfortunately..."

Ye Xuan thought in her heart.

However, his degree of degeneration has reached 75%. Under all kinds of ambiguity and blood, he has no worries at all.

Fang Caijian broke through all the instinct in his body, but at this time he has recovered a lot. He looked at his opponent and once again took out a sword.

"Amazing!"

"The earth is pulsating 8!"

This attack is extremely powerful.

Although Ye Xuan's opponent blocked the sword and broke the eight-year-old, but both hands and bones have been shattered by the earthquake, even the virtual soldiers in their hands, there have been cracks.

And now facing this attack, he can only hide!

However, he has just flashed this sniper, that is, there are sounds in the eight directions.

Eight wild winds kill!

"Hey!" "Hey!" "Hey!"

A series of eight muffled sounds spread, this originally demon-stricken demon, unable to block these eight roads containing the Earth's pulsating eight-fold attack, the head instantly burst open.

His body fell weakly.

Ye Xuan swiftly swept past and took away his shackles.

"Hey, the degree of virtualization of the host has increased, currently 80 points!"

A Qiankun ring directly led Ye Xuan to rise to five levels.

"It's too slow for you."

A beautiful voice floated over, and Ye Xuan turned around and found that Lan Xin had killed her opponent.

"There are a lot of things here, so I won't give you anything. We will share the spoils." Lan Xin said.

"it is good!"

Ye Xuan nodded.

Before he received a lot of things, Lan Xin did not take one, strange embarrassed.

"Now we are two teams, as long as we do not encounter the virtual king of the king, come to us to kill one." Lan Xin directly shut down Qiankun.

The next moment, she suddenly thought of something, is to directly throw this spoils and their own ring to Ye Xuan.

"Help me." Lan Xin smiled and looked at Ye Xuan.

Ye Xuan stunned, and suddenly understood, he was helplessly catching two Qiankun Rings, and then swallowed the space, dumped all the spoils into the Qiankun ring of Lan Xin, and finally lost the Qiankun ring.

He did not look at what was in the Lan Xin Qiankun ring. This is, after all, the privacy of Lan Xin. He is not such a person.

Chapter 632: field

"I really don't know how you did it. If you have a gold field, then you will make a big profit." Lan Xin re-applied his Qiang Kun ring.

"The field of gold?"

Hearing this, Ye Xuan suddenly remembered a previous battle, that is, the one of the deputy halllord Lan Yao and the Wang Dian Jiang Jia Jiang Tian.

Lan Yao is metallic, possessing the field of gold, and he can control the iron in his field.

It is said that there are more than a dozen special virtual soldiers in the Blue Sea. If it is a real life and death battle, he will definitely sacrifice it and attack the enemy.

"Do you know what effect does the field of soil and wind have?" Ye Xuan suddenly asked.

"Do you want a field?"

After Ye Xuan's reminder, Lan Xin suddenly remembered a question. Some of them said with awkwardness: "God, the field of the wind is the air overlord, and the field of the earth is the hegemon of the earth. No matter where you are, you will not There is weakness."

Ye Xuan's eyes are bright, which seems to be a good sign.

"The field of soil allows you to control the soil, can be used for attack, and can also be used for defense. Of course, you can also call the soil attribute element between heaven and earth, but this will be worse than on land."

"The field of wind is almost always used anywhere, and it can be similar in the field. The wind field can also condense the wind wall to resist the attack, and the strong can scrape six sides in the field. The wind is blowing, blocking the enemy's actions."

Lan Xin explained to Ye Xuan that since she was originally a wind attribute, she knew more about the wind properties.

"The field of the wind is so strong?" Ye Xuan was shocked.

In the field of soil, it can play all the functions on land, but the field of wind can be used anytime, anywhere.

"Golden wood and fire, what attributes can control what, of course, the field is only one kind of strength, the most important thing is to rely on the righteousness, if you understand the wind blade, then the wind blade attack in the field of wind will Very powerful," added Lan Xin.

"Then if you become the king of the virtual gods, isn't it..." Ye Xuan frowned slightly.

"Yeah, if I break through to the king of the virtual gods, my strength will be stronger than the average person. After all, I have realized the wing of the wind and the wind blade." Lan Xin nodded.

Taking advantage of this opportunity, Ye Xuan also asked a lot about the mystery and the field.

They are chatting while flying.

The gap between the peak of the virtual **** and the king of the virtual **** is too big. Even if it is the peak of ten virtual gods, it can't beat a king of virtual gods.

Of course, genius is exceptional.

Geniuses like Ye Xuan and Lan Xin, if they reach the peak of the virtual state of God, may be able to work with the king of the virtual gods.

Lan Xin is maybe, and Ye Xuan, iron can!

However, on the first night of Ye Xuan and Lan Xin entering the depths of the Great Wilderness, they finally met a human being.

"Booming!"

What caught their eye at this time was a battle between a human and four demons.

"Is that the Warlord Hall?" Ye Xuan could not help but ask.

After Lan Xin saw it, he nodded: "It's my cousin, the first person in the great wilderness team."

Cousin?

Ye Xuan brows a pick, since this is the case, then generally there will be no problem.

At that time, the two of them quickly swept past, and Lan Xin was the first to be ready to help.

After the young people of the tribe saw Lan Xin, some desperate, suddenly his eyes lit up and he saw hope.

It is also the peak of the virtual world. He is very good for one-on-four. Now if Lan Xin helps him to share some pressure, he can fight.

"Well? Anyone else?"

The young man saw Ye Xuan behind Lan Xin, and the dawn was suddenly overwhelming.

"Not good, come support, transform!"

The demon masters of the two virtual sacred peaks sink into their bodies.

When Lan Xin arrived, they were already turned into two dragons, all of which were fire attributes.

"Lan Xin, you drag one!" the young man shouted.

"it is good!"

Lan Xin attacked directly against a dragon.

Although the Yaozu can cultivate, but only when the human form can be used to perform the righteousness, after turning into the ontology, they are fighting by physical fitness, whether it is speed or attack, it is greatly improved.

Although Lan Xin is eight and a half years old, although she is very strong, she is still under pressure in the face of a virtual dragon.

However, at this time Ye Xuan has already arrived.

"Eight ridiculous dragon sword, dragon's ruling!"

Ye Xuan directly attacked another dragon.

This Tianlong, with its strong physique, was not afraid of Ye Xuan's attack, and rushed straight up.

But the next moment, Ye Xuan is letting him know why the flowers are so red.

The blood of the beast god, the blood of the sword god, the righteousness, the eight ridiculous dragon sword, these factors, have already allowed Ye Xuan to have the ability to break the defense of the other side, not only that, but also to be able to break it.

"Hey!"

This red dragon did not use his claws to resist the ruling of the dragon, but it was shaken by the birthplace.

"Roar!"

The red dragon screamed in the sky and spit out a hot dragon's breath directly against Ye Xuan.

This demon family is the peak of the virtual gods, even if the king of the virtual gods is sprayed by this dragon, it will be burned to ashes.

"Just waiting for you this trick, the sword broke the eight wild!" Ye Xuan glimmered a flash, and pulled out a sword.

call out!

This sniper is very fast, divided into eight in an instant, and then combined into one, the power is multiplied.

This embarrassment, directly breaking this bite into two halves, did not enter the leader.

"Oh!"

A burst of crisp sound spread, the half of the head of the red dragon, together with a dragon body, was directly smashed down.

dead!

"what?"

After seeing this scene, the youth and the other three demons were all shocked. What attack was this Nima?

After the transformation of the Yaozu, it is by physical combat, such a strong constitution, even being spiked.

Is this person a virtual **** king?

Under the gaze of these people, Ye Xuan plucked to the dragon's body and found out the ring.

"Hey, the degree of virtualization of the host has increased, currently eighty-five!"

Although it was said that the infuriating body of Ye Xuan recovered a little when he heard the prompt tone, he had an endless war.

As long as they kill these people, then he may be able to turn a corner!

"Taro, you go to help, I will solve him!" Ye Xuan shouted at Lan Xin.

Although she was very angry when she was called a gimmick, Lan Xin did it. She went straight to the youth.

"Eight ridiculous dragon sword, dragon's ruling!"

"Eight ridiculous dragon sword, dragon's ruling!"

"Eight ridiculous dragon sword, dragon's ruling!"

The ruling of a few dragons continued, and this red dragon was also hit hard in an instant.

Chapter 633: Virtual **** king

Although it is said that if the demon is turned into a body, the constitution will be greatly enhanced, but for Ye Xuan, it is useless.

In less than two seconds, this dragon, the peak of the virtual god, was also killed by Ye Xuan.

"Hey, the degree of ignorance of the host has increased, currently eighty-eight!"

The system sounded in the mind.

Two Tianlong, instantly killed by Ye Xuan, this strength has been shocked everyone present.

When the last two demon people saw the body of their companion fall behind, they immediately retired.

However, now they are not allowed to go, they will be able to go.

The two demon people in the virtual world can't change their bodies, because once they change, if they don't have the cover of their companions, I am afraid that they will be killed by Ye Xuan.

In the case of three-on-two, there are no five rounds, and the two demons are besieged to death.

The Qiankun Ring is in the hands of Lan Xin. After all, before Ye Xuan and her agreed, the resulting spoils were half-pointed.

"Cousin, are you okay?"

After the death of the four demon hunters, Lan Xin could not help but ask.

"I'm fine, but the gas is too expensive." The young man took a breath and shook his head.

He is the man of the Blue House of the Warlord, named Lan Ze. Although the realm has reached the peak of the virtual god, his age has exceeded 35, so it is not a genius.

"Cousin, are you not entering the depths of the wilderness with your sister? How can you be here, are you lost?" Lan Xin asked quickly.

"Yes, the teams of our three great kings came together and began to smash the ramie, but the day before yesterday, we suddenly suffered the ambush of the Yao masters, and were dispersed." Lanze shook his head.

What, ambush?

After Ye Xuan and Lan Xin heard this, they were all awe-inspiring. The team composed of the three kings was actually ambushed.

Not waiting for Lan Xin to open, Ye Xuan is the first to ask: "Ice girl and Yandi?"

Although I don't know who Ye Xuan is, I don't know why Ye Xuan suddenly asked these two people, but Lan Ze still replied: "After being ambushed, we split up and flee, but I saw the blue moon with them. The man smashed the encirclement, but I also saw that the demon people with two sacred gods chased them, and Yandi seemed to have been seriously injured."

The demon of the two virtual gods!

Yan Emperor is seriously injured!

These two news are terrible for Ye Xuan, and the same is true for Lan Xin.

"Cousin, what do we do now?" Lan Xin worried about the blue moon and hurriedly asked.

"After I fled, I was chased by several demon people all the way. At this time, other demon people should also be chasing the geniuses of our three kings. If you turn around, you may meet some people." Lanze said. .

"The three of us started to look for it, our strength is not weak, even if we met the king of the virtual gods, there is also a battle!" Lan Xin said again.

"it is good!"

Lanze nodded.

He knows the strength of Lan Xin, and now he also sees the strength of Ye Xuan. In the case of the trio team, it is indeed possible to counter the virtual king of the gods.

"Right, these two are for you. These are of no use to me now." Lan Xin lost two of them.

Ye Xuan is also unpretentious, directly catching the Qiankun ring, and then swallowing everything inside.

"Oh, the degree of virtualization of the host has increased, currently at ninety."

His realm has once again improved.

"Ok?"

Although Ye Xuan deliberately suppressed it, it was discovered by Lan Ze.

"This....."

Some blues don't understand, why Ye Xuan suddenly surged.

"Cousin, don't worry, let's go."

Lan Xin left Lanze directly, and Ye Xuan followed.

Before the breakthrough, Ye Xuan has been able to kill the demon master of the virtual world, and now it has broken through, then he is already an invincible existence in the virtual world, and the survivability of the three is greatly improved.

Lanze left halfway and left.

However, before they even took two steps, they flew two people.

"The demon, or human?" Lan Zey widened his eyes.

Ye Xuan is also the spirit of mentioning 120,000 points. Even if there is only one person from the other party, it must not be careless, because it may be the king of the virtual god.

After Lanze sees the faces of these two figures, the figure is a tremor.

Ye Xuan and Lan Xin saw it and suddenly understood.

Yaozu!

These two people are the Yaozu!

"Be careful, it is the king of the virtual gods!" Lan Ze exclaimed.

what?

Both Ye Xuan and Lan Xin were shocked. Did they really come to the virtual king?

Is a!

Still two?

"Two are, be careful!" Lan Ze added.

When he was ambushed before, Lan Ze was the king of the virtual gods who had seen these two demons, so he recognized it on the spot.

"Two are!"

Ye Xuan and Lan Xin have already sunk to the bottom.

If you come to a virtual king of the gods, you will forget it. Even if you come back two at a time, this is terrible.

"Cousin, give me the ring!" Lan Xin quickly rushed to the side of Lanze, while talking about the Lanze ring.

"What?" Lanze apparently did not respond, but Lan Xin is his relative, but it did not stop.

Right now, maybe Lan Xin will have any way to do it!

However, Lan Ze did not think that after Lan Xin took off his Qiang Kun ring, he directly lost it to Ye Xuan, and also Lan Xin's own Qiang Kun ring.

"This little girl, the reaction is very fast!"

Ye Xuan also understood, and hurriedly caught two Qiankun Rings and swept a circle.

Lying in the trough, what is this?

"Hey, the degree of virtualization of the host has increased, currently 95 points!"

The realm has soared up to five levels.

Ye Xuan's breath skyrocketed, and the next moment, his eyes became dark.

"You are careful!"

Ye Xuan drank a word.

"The Eight Wild Giants, now!"

He sacrificed the eight giants, while his body quickly swept away.

This time, he wants to single out a virtual king of the gods, and another virtual king of the gods can only be left to Lan Xin and Lan Ze.

Although he is the king on the land, if he is flying, what if the two kings of the demon kings solve the problem of Lanxin and Lanze first?

Therefore, he can't go too far and must attract a talent line.

"Hey, I have met three human geniuses, and there is still a rare wind attribute, let's die!"

A blue demon strongman sneered, directly unfolding the field, and using the infuriating nature to call the water elements in the heavens and the earth, condensed a water dragon, and rolled toward Lanxin and Lanze.

The general virtual gods are strong, the field can reach 10,000 meters, and Lanxin and Lanze are just within 10,000 meters.

As for the other red king of the virtual gods, it is a fire dragon, rushed to Ye Xuan.

Chapter 634: crisis

"It's just right!"

Ye Xuan's face was dignified and he slammed a sniper directly against the fire dragon.

Although it is said that the collapse of the earth and the pulsation of the earth is eight heavy, the power will be stronger than that of the dragon, but the fire property of the other party just restrains his soil properties.

Therefore, you can only fight with the wind attribute.

"Wind Dragon!"

Ye Xuan holds a blue-light sword and pulls out a sniper.

"Hey!"

The wind dragon smashed into the fire dragon, and at that moment, it violently oscillated eight times.

The earth is pulsating!

"Well? This is..."

The sacred king of the gods had a brow, and he suddenly thought of something. He exclaimed: "The earth is pulsating?"

The earth is pulsating, but the nature of the soil is the same, and Ye Xuan can use the green instinct. Doesn't this mean that Ye Xuan has two false gods?

Double fruit!

The sacred king of the gods thought of this thing in an instant and exclaimed.

"What, double fruit?"

Another demon master is also shocked.

In the Great Wilderness, there has been a double fruit, hundreds of years ago. However, this twin fruit was damaged in the battle between humans and demons.

No, it is that the 乾 戒 ring with the double fruit is damaged, so things don't know where to go.

However, nowadays, there is a human genius who has taken double fruits. Therefore, Ye Xuan is directly a nail in the eye, a stab in the flesh, and must be removed quickly.

"Good boy, even the earth and earth double repair, must die!" This red robe demon screamed, and tried his best, and instantly condensed two fire dragons.

Ye Xuan's face is gloomy, and he is barely able to resist a fire dragon. Now there are two more fire dragons, and some are difficult.

But don't forget that he still has eight wild swords.

"boom!"

The eight wild giants were directly engulfed by the fire dragon, but the next moment, the inside of the fire dragon was a huge shock, and the eight-handed blade directly smashed out from the fire dragon, destroying a fire dragon.

"Oh, there are two brushes!"

The red robe demon eyes squinted and once again condensed a fire dragon.

But this time, Ye Xuan was not so relaxed. After the fire dragon appeared, the red robe demon was beginning to ignite the flames around Ye Xuan, so Ye Xuan hurriedly began to avoid.

It is extremely difficult to annihilate the flames, and it is very difficult to extinguish if it is accidentally clicked. The water property is good, but Ye Xuan is the soil property and the wind property. If it is lit, the whole part can only be cut off.

Ye Xuan attacked the fire dragon while defending against the flames. At this time, he glanced at him and found that Lan Xin and Lan Ze were also weak.

But the virtual **** of the other side of them is the attribute of water, and the attacking power of the water dragon is not strong, and it is relatively simple to deal with.

"Damn, even met two virtual gods at the same time, really terrible!" Ye Xuan's face is already extremely poor.

If it is only a virtual king of the gods, if the three of them join forces, they may still be able to kill.

But the two kings of the virtual gods, they were forced to separate, and the pressure was great.

Lan Xin and Lan Ze seem to be able to cope with it, but the virtual king of the gods obviously has not used all their strength, and Lan Ze has been chased all the way before, so there is not much energy, so they can't last long.

At this time, Ye Xuan suddenly thought of a point, rushing to the land.

He took the double fruit and had two attributes. His threat to the Yaozu was far greater than that of Lanxin and Lanze.

If he goes on, then the demon will surely follow.

Sure enough, when he flew to the ground, the demon master also decisively followed.

"Haha, kid, you have realized that the earth is pulsating the righteousness and strength of the righteousness. Now, if you want to go to land, is there still a place to do it?"

The red robe demon laughed loudly.

Comprehend an ideology can break through to the virtual state, but many people do not realize the second ambiguity.

Ye Xuan already has the pulse of the earth, the pulse guardian and the power of the righteousness, so this demon master does not believe that Ye Xuan will perform.

However, he guessed it wrong.

Ye Xuan does indeed perform his own works. If he arrives on land, the speed will suddenly increase.

However, this is his card. If it is exposed now, the other party will definitely take precautions.

"You must be embarrassed, you must find the right opportunity, suddenly broke out, and he will kill him!"

Ye Xuan thought in his heart.

At this time, he has already landed on the ground, and the speed is indeed a lot faster. After all, he has three agile advances.

"Hey!" "Hey!" "Hey!"

The sound of the infuriating collision is deafening. Although Ye Xuan wants to solve this demon quickly, the other party is a virtual **** king, not so easy to deal with.

If you want to win, you have to endure!

"Ha ha ha, kid, if you have this strength, then it is still early to die!" Red robe demon after playing with Ye Xuan for thirty rounds, suddenly smiled.

Ye Xuan's face changed, the other party is going to shoot!

From the beginning, the other party has been attacking in the field, but the deity is standing quietly.

Now, his deity has to be shot, which has caused Ye Xuan's pressure to double up.

"Wind Dragon!"

Ye Xuan's face is gloomy, and he is already ready to escape. If he is performing his skills, the speed is already beyond the red robe.

At that time, as long as he calls Lan Xin and Lan Ze down, he can drag the two to escape, and perhaps there will be a chance.

However, it is at this time.

"Hey, the host has realized the wing of the wind!"

what?

Just as Ye Xuan was ready to flee, the system suddenly flashed a hint.

Wing of the wind, righteousness?

At the moment, Ye Xuan's eyes are big, and he only remembered that he used the Meteor body method instead of the Longwu body method after landing.

"Haha, you are dead!"

Ye Xuan's entire popularity is soaring, and the wing of the wind that has just been realized in an instant, that is, the acceleration of the wind, is blessed on the eight-handed blade.

“Hey!” “Hey!” “Hey!”

The wind is listed.

After the eight-handed blade blessed the acceleration of the wind, the speed surged at least twice as much.

Accelerating the wind!

The earth is pulsating 8!

These two kinds of ups and downs are superimposed, so that the eight-handed blade is like a sickle's sickle. In the blink of an eye, the three fire dragons are destroyed, and then they are swept toward the red robe elders.

"what?"

The red robe demon will never think of it, and Ye Xuan actually realized the acceleration of the wind in this moment.

Is this Nima a enchanting?

"This is the protagonist's aura, and die!"

Ye Xuan screamed in his heart, controlling the eight-handed blade to stab at eight angles toward the red robe.

The first priority of the eight wild winds is to cut, and the second is to rely on stabs. At the same time, the second speed is much faster than the first.

Chapter 635: The virtual king of the gods? cut!

"Hey!" "Hey!" "Hey!"

The face of the red robe demon has finally changed, constantly condensing the flames to stop the eight-handed blade, but also constantly attacking and dodging.

Now, he has stopped attacking and turned to defense.

attack?

What kind of joke, the eight-handed blade is enough for him to play, but also attack?

However, he does not attack, does not mean that Ye Xuan does not attack.

"Wind Dragon!"

An attack involving the wings of the wind and the pulsation of the earth rushed toward the red robe.

This wind attribute of the Wind Wing is very useful and can increase the attack speed.

Ye Xuan's strength has always been strong, and now it's a wind wing that accelerates faster than lightning.

In the blink of an eye, this wind dragon has already hit the red robe.

"not good!"

The red robe demon face has changed dramatically. This is the most distinctive expression since his appearance. The wrinkles on his face seem to be screwed together.

The eight-handed blade is already hard enough, and now it's a fateful attack from Ye Xuan!

The red robe demon group put the long sword in the hand in front and hardened the attack.

"Hey!"

The whole man flew out, his hands were numb, and he was constantly shaking.

At the same time, the eight-handed blade also attacked the past without mercy.

"Hey!"

A muffled sound then sounded, and it was a sharp blade that stabbed the shoulders of the red robe demon. The other party had not reacted, and the shoulders were petrified, and then the earth was pulsating and smashed.

Finally hurt!

But this is not over yet, there are seven handles.

"Hey!" "Hey!" "Hey!"

The red robe demon smashed the three-handed blade with full force, but it was still stabbed by the remaining four handles, and his body again appeared three four holes.

"This time, want your life!"

Ye Xuan's eyes widened and he smashed a dragon in the red robe.

"I am dead, you are going to die!"

The red robe demon also knows that he is dead, so it consumes a lot of infuriating and calls the fire attribute between heaven and earth.

Then, at the foot of Ye Xuan, there was an inexhaustible flame.

"dead!"

The last wind dragon smashed out.

At the same time, Ye Xuan's feet also burned up.

The red robes of the demon show a smile, because his ambition is not to destroy the flames, can burn everything to ashes.

Ye Xuan's feet were lit, and it was extremely difficult to put out. Even if he had smashed his legs, he would be burned to ashes by the flames of indestructible and could not be picked up.

Although it is now possible to fly the air, sometimes the legs will always be used.

"call out!"

Under the cover of the eight-handed blade, the wind dragon squat directly on the red robe demon, and instantly smashed him into two halves.

At this time, the eternal flame of Ye Xuan's body has already spread to the knees.

The eternal flame of the sacred king of the gods is not fun.

"not good!"

Ye Xuan's face was blue, and he hurriedly waved a sword. He cut it in from his thigh and cut his legs.

"Huh!"

When Ye Xuan flew away with a defensive flight, his two thighs were already burnt to ashes.

"so close!"

Ye Xuan couldn't help but swallow a sigh of relief. This is the protagonist's aura. Fortunately, the place where the other party ignited is not in the armpit, otherwise he will be miserable.

"Hey!"

The Tree of Life played a role, and the legs of Ye Xuan were restored again.

This scene falls in the eyes of the Blue Yao and Lanze, and they are all unstoppable.

Their first reaction was that Ye Xuan had three kinds of false gods.

Wood properties, wind properties, soil properties!

They have never heard of the double attributes, but now, there are three attributes of genius.

If Ye Xuan grows up, it is definitely a big threat!

"Even if you die, you must kill him!" The blue-faced demon family widened their eyes, and did not care about Lan Xin and Lan Ze, who had lost their hearts, and flew directly toward Ye Xuan.

At the same time, Ye Xuan is already getting the ring of the red robe.

"Hey, the degree of virtualization of the host has increased, and it is currently one hundred!"

"Oh, the host has reached the upper limit and cannot continue to swallow."

Two consecutive prompts sounded, Ye Xuan stunned.

If the virtual state breaks through to the king of the virtual gods, there are still requirements?

A virtual **** body of the virtual kingdom level?

Completeness, need 90%!

"I can't manage so much, I smashed you first!" Ye Xuan squinted his eyes and controlled the eight-handed blade toward the blue demon.

"So fast!"

When Fang Cai and Lan Xin and Lan Ze fought, the Blue Leopard was actually paying attention to Ye Xuan, but the two sides were far apart, so he felt that Ye Xuan's attack was not very fast.

But now, after I experienced it for a while, I realized that Nima is almost exploding.

"Hey!" "Hey!" "Hey!"

A stream of light plucked, the blue demon quickly defended, but at this time, Ye Xuan has been the wings of the wind, and swept up.

"Wind Dragon!"

Ye Xuan, who had a pair of green wings behind him, swiftly swept away, while the blue-light sword in his hand smashed.

The Blue Leopard has not started to attack, and it has passive defense. Now facing the shackles of Ye Xuan, it has rushed to condense a wall of water.

However, the defensive power of the water attribute is the worst of the five elements, and it can't resist this.

"Hey!"

The blue leopard flew out, and the next moment was the penalty of the eight-handed blade.

"Boom!" "Boom!" "Boom!"

A muffled sound spread, the blue leopard was instantly blown out of a few blood holes, and then was turned into two halves by the leaf dragon of Ye Xuan.

The second virtual king of the gods, dead!

Ye Xuan three, successfully killed the demon!

No, it should be said that Ye Xuan has reversed the situation!

"This....."

Lan Ze and Lan Xin are already surprised to say nothing.

This time, they are already ready to die, however, things have turned around.

Ye Xuan alone, solved the two virtual gods, this is a shocking thing.

You must know that even the first day of the War King Hall, the Blue Moon, when you are at the peak of the virtual state, you can't kill the king of the virtual gods, only the ability to fight.

And Ye Xuan, who is able to kill the king of the virtual gods, and is also the king of the Yaozu, is enough to prove his qualifications, even more terrible than the blue moon.

Ye Xuan hurriedly took the blue bells of the Yao Yaozu to take a look at it, but did not find the corpse of the virtual **** of the virtual king.

And unfortunately, the two demon people of the virtual kingdom of the gods did not become the body of the dead. Otherwise, their bodies can give the people of the virtual gods the same, and the same as the Tianlong body of the former temple.

At this time, Ye Xuan suddenly thought of one thing, that is the corpse of the ninth branch.

However, although the body of the dragon is a virtual king, but it is not complete, let alone the lack of a sacred beast, but also the heart of a dragon, this integrity is certainly less than 9%. Ten.

So, this corpse has to get it yourself!

Chapter 636: Beastmaster

"These things are returned to you!" Ye Xuan suddenly put some of the things in the spoils back to Lan Xing, Lan Ze's Qiang Kun ring.

At the beginning of the game, in order to survive, he directly swallowed the blue and blue Lan Jie ring, now, is to return things to them.

Lan Xin and Lan Ze have taken over the Qiang Kun ring.

"Ye Xuan, you..."

Lan Xin has been surprised to say that she can't speak.

She knows that Ye Xuan's qualifications are very abnormal. I didn't expect to be abnormal to this point. I just realized that the wind was accelerated, and I also killed two virtual gods.

In fact, Ye Xuan did not think that he could do it. He originally wanted to escape with two people.

With his physique, he may be able to get rid of the two kings of the virtual world. However, after he realized that the wind was accelerating, he did not need to escape.

"I didn't expect to encounter a genius who is more enchanting than the blue moon. It seems that we have a trip, not necessarily without gain!" Lanze said very enviously.

He and Ye Xuan are both illusory peaks. If he is allowed to face the virtual king of the gods alone, I am afraid that he will die very badly. And Ye Xuan, but it is able to kill the king of the virtual gods, this is the gap.

After Lan Xin slowed down for a while, she finally calmed down. Ye Xuan had already given her a lot of blows before, and it was not bad.

"Fortunately, these two virtual kings are only the first-class king. If they are the second-level kings or have two mysteries, then we are afraid to die." Lan Xin relieved with relief.

"Second king?" Ye Xuan brows a pick, he is the first time to hear this.

Lan Xin explained: "The king of the virtual gods relies on the field and the righteousness. The field of the first-level king can cover 10,000 meters. The nine-level field is also the peak king of the virtual state. It can cover 90,000 meters. The bigger the field, The increase will be greater."

Ye Xuan brows a pick.

If the red demon is the second-class king, the scope of the 20,000-meter field is nothing, but his eternal flame will probably improve.

Fortunately, the other party is only the first-level king, but it is also almost burned off Ye Xuan's lower body. If the other party is a second-level king, I don't know if Ye Xuan can survive, or it may have burned to ashes.

"My father is the king of the peak, that is, the nine kings, the field expansion can reach 90,000 meters, it is terrible." Ye Xuan heart shuddered.

A nine-level king, an eight-level king, the field range is 10,000 meters, the gap can be big.

Even if the eight-level king has a lot of ambiguity in the field, if the field distance is not enough, it will be killed by the nine-level king.

Of course, if you have the same meaning as the wind wing and the ground technique, you can easily catch up.

"I have two virtual gods now. If I break through to the king of the virtual gods, can the two fields be superimposed?" Ye Xuan suddenly asked.

"This....."

Lan Xin and Lan Ze looked at each other and shook their heads: "The twin fruit is a legend. The last double fruit appeared in the wild, and no one finally got it, so I don't know if your two fields can be superimposed."

"I hope to be able to superimpose, in this case, it is powerful to burst!" Ye Xuan eyes lit up.

There is nothing in the field of soil, but you are good in the field of wind. Even if he does not comprehend the wind blade, he can also smash the enemy in the field, but the power is not so strong, but the wind accelerates. The wind blade in the field is fast and can cause great trouble to the opponent.

"Well, since Ye Xuan brothers have the ability to kill the king of the virtual gods, then we are much safer, continue to look for, if you can meet your own people, it is best." Lanze said.

"it is good!"

Ye Xuan nodded.

In addition to the Yaozu, there are some virtual gods in the depths of this wilderness. If you can get him, you can break through to the king of the virtual gods.

.....

The trio began to fly in the clouds again.

Although the virtual **** king did not see it again, but he saw a lot of demon people's virtual gods peak, of course, these demon people were all bombarded by Ye Xuan.

It is a pity that Ye Xuan is now stuck in the peak of the virtual world. If there is no virtual **** body of the virtual king, he will stop.

Therefore, while looking for other human beings, he also looks for those virtual beasts.

Just the next day, the three people finally found the second person.

"Ok?"

The fighting sounds coming from afar caused the attention of Ye Xuan.

They have fallen, that is, they saw the two demon kings of the virtual gods, besieging a man.

"This is the people of the Beastmaster Hall, a king of the first class!" Lanze recognized.

At the moment, they are swept away quickly.

"Boom!" "Boom!" "Boom!"

The movement of the three people is not small, and there is often an explosion of energy in the air.

The man of the Beastmaster Temple is a fire attribute. He does not understand the flames, but the flames.

At this point, the flame is condensed into a body, holding a flame sword, constantly slashing.

However, the two demon kings of the demon side, one is the fire attribute, and the other is the water attribute, which restrains the man's fire attribute.

Therefore, he has been in a weak position.

"Hmm? Human?"

The man's afterglow swept and found the three people who had swept toward them. He began to see hope, but he saw that the three had no field, but after the ordinary virtual state, they seemed very helpless.

However, this also allows him to share some pressure.

Ye Xuan realized that the wind was accelerating, and the speed was much faster than Lanxin. He swept past and then raised his hand and slammed against one of the demons.

Eight ruins swordsmanship, swords broken eight wild!

"call out!"

The power of the righteousness, the acceleration of the wind, made this attack faster than the reaction of the Yaozu.

"Oh!"

The water attribute demon who threatened men was directly killed by Ye Xuan on the spot.

His body fell from the sky, shocking the remaining demon, and the man of the Beastmaster.

what?

Both of them were shocked. A virtual imaginary peak that is not even in the field, killing a virtual **** king with one stroke?

"Good, this is another secret weapon of the War King Hall?" The man widened his eyes, but he did not think much and directly applied his cards.

"Roar!"

Suddenly a virtual lion's illusion appeared behind the man. Then, the man's breath instantly soared and succumbed to the remaining demon.

The Beastmaster Hall is somewhat similar to the Yaozu, but it is still different in nature.

The Beastmaster Temple is a martial art similar to the Devil's God, which can enhance its strength. Moreover, different animals can also give them a different increase.

For example, lions, rhinos, etc. are power, dragon turtles and the like are defenses, and cheetahs are speed.

Chapter 637: Shen Tu elder

The Yaozu is different. The vast majority of the Yaozu are the peak races, but they need time to transform.

In the face of this suddenly violent man, the demon old man's face sank, hurriedly condensed the flames to stop the man's way.

However, he forgot that the man now has support.

"Hey!" "Hey!" "Hey!"

The sound of a broken road suddenly sounded, and the demon old man turned his head and looked at it. He found that there were eight sharp edges that quickly swept.

"Boom!" "Boom!" "Boom!"

Although the demon old man blocked a few sharp edges, but could not stop all the sharp edges, immediately like a bullet shot, the pain of twisting the body, bloody.

Just as the demon old man was shocked by the earth's pulsation, Ye Xuan had already swept to his side.

"Wind Dragon!"

"Oh!"

A head flew up, and then, Ye Xuan quickly collected the Qiankun ring.

Fight, end!

"you are....."

The man looked at Ye Xuan a little surprised.

At the same time, Lan Ze and Lan Xin also arrived.

"We are the people of the War King Hall, this big brother, have you seen other people?" Lan Ze asked.

The man also had a little influence on Lanze. After the latter reminded him, his brow was also a pick. He said: "Yes, when I was able to escape, I found that there are other people who are chasing others, but the distance is too far. I didn't see who it is."

"If you don't want to be late, let's go to support." Ye Xuan said quickly.

"it is good!"

Men don't ask too much. It's important to save people first.

Their team is the elite of the three kings. If they are completely destroyed, the three kings will be devastated for decades.

At the moment, the man is leading the way along the memory, and Ye Xuan is behind him.

They started searching around. After an hour, they really found the man who was being besieged by the three demon kings.

"It's the elder of Shen Tu!"

The man finally recognized it, but his footsteps suddenly paused and said: "The three demons seem to be second-level kings..."

Second-level king!

And still three!

This means that Lan Xin and Lan Ze have no ability to join the battle. If they can help, Ye Xuan and this man.

"Don't care for me, go!"

The elder of Shen Tu, who saw the four in the distance, hurriedly shouted.

If he is not the realm to suppress the other side, I am afraid that it has been killed by these three demon masters.

The man is only the first-class king. I am afraid that there is no way to drag one person. It is better to turn around and leave the life.

"Cui Big Brother, if you join me, you may be able to hold one person!" Ye Xuan suddenly got together, said.

"Little brother, can you be sure?" The man's face sank.

Ye Xuan directly let the Eight Desert Swords break open, forming a giant wild spirit, saying: "Cui Big Brother, you have a flame split, if we join forces with four, it should not be a problem to drag one person."

The man did not expect Ye Xuan to have this ability. Four-on-one, it is indeed a lot safer.

If one can hold one person, then the pressure on the elders of Shentu will be small, and maybe they will be defeated. But don't forget, the Yaozu can become a body.

"Okay, if that's the case, then we will join hands and go up!"

The man did not hesitate, he applied the cards directly, and the shadow of a golden lion appeared and swept up.

And Ye Xuan, directly receiving the eight wild giants, his current infuriating is full, the use of swords to break the eight wild, the power is very fierce.

However, the other party is the second-level king, and his attack will not be so good.

Ye Xuan and the man rushed over, while Lan Xin and Lan Ze were hiding in the clouds tens of thousands of meters away.

"Damn, how can you not go away!" Shen Tu elder's face sank.

He is a man of several decades, only a three-level king, and a man who is less than 40 years old is already a first-class king. If he is a man for decades, he can completely break through to the fourth or fifth-level king, so he thinks There is no need to take risks for him.

But the next moment, he knew he was wrong.

The combination of Ye Xuan and the man actually dragged the demon of a second-level king.

"Good boy, is the genius of the three kings, or you have to pick up the old guy!" A red demon quits chasing the elders of Shentu and turns to attack Ye Xuan and the man.

Before the man saw Ye Xuan's attack, he also knew that Ye Xuan was looking for opportunities to display, so his own avatar has been attracting the attention of the Red Yao.

At this time, the fast-moving Ye Xuan was finally shot.

"call out!"

A wind dragon plucked out.

However, the power of this dragon is not strong, and it is easily blocked by the eternal flame of the red demon.

"Although it is a wind attribute, but there is no field, this dare to come over?" The red dress demon directly chose to ignore, and focused on the man.

The man is very difficult to defend while retreating.

"Look at me, good!"

Ye Xuan's dawn suddenly flashed, directly pulling out the strongest attack.

The sword is broken!

"Calling!"

The speed of this attack is like a lightning flashing into the red demon.

what?

The red demon family took a nap.

Ye Xuan's attack is actually improving at any time, because he is constantly cultivating the Eight-Year Sword. His one month is the other person for several years, and the Eight-Day Sword itself is the top-class virtual soldier, the increase is even greater.

"Hey!"

The red demon family could not react, and they could only be forced to defend. The sword broke through the shackles and smashed into his virtual soldiers. The powerful impact actually shocked the weapons.

"Good!"

The red demon is scared to death, and if this is on his body, he can definitely split him in half.

Great idea, it is too much!

The most important thing is that he is not in the field of gold. After the virtual soldiers are dismissed, the man is attacked by a chance to stop him from catching the virtual soldiers.

In desperation, he can only once again take out a virtual soldier who has not been bred.

"The Eight Wild Giants, on!"

Ye Xuan's Eight Wild Swords instantly shattered and reorganized into a few meters high, eight wild giants, flew toward the red.

The acceleration of the wind can speed up everything in Ye Xuan. The eight-handed blade can be accelerated, and the sword can be accelerated. Even the eight wild giants can.

"So fast!"

The red demon family finally realized that it was not good, and quickly retreated, while drinking a few loud voices, notifying the other two companions.

"Ok?"

The other two demons who fought with the Shentu elders turned around and found that their companions were suppressed, and immediately changed their faces.

They looked at each other and one of them quickly retreated and then turned.

The elder Shen Bing wanted to stop the other party, but he was entangled in another person, there is no way to stop the demon from turning.

Chapter 638: Shen Tulie!

Although the opponent of Shen Tu at this time is weaker than him, it is not a problem to drag him for a second. Therefore, he can only watch a dragon from the body of the Yao master.

"go!"

The red demon screamed.

It turned out that they did not want to fight, but wanted to retreat.

"Want to go, leave me!"

Ye Xuan's instinct has been restored by a third. He is facing the dragon that has just been transformed, and once again exerts his sword and broken eight!

"call out!"

"boom!"

Only when he succeeded in shaking the weapons of the Red Emperor, it was because of the sneak attack, and now the other party has already taken precautions. It is a fantasy to hit the other side.

"Don't chase!"

Shen Tu, the elder, suddenly shouted.

Ye Xuan and the man's body shape, watching the three demon people leave.

"My instinct is not much, it is already the end of the strong, and then chase it down, we will all die, go!"

The elders of Shen Tu quickly rushed toward Ye Xuan and then quickly left the area.

Five people rushed for a while, then hid in a white cloud.

After recovering from this period of time, Shen Shen elders have a lot of looks. He looked at Ye Xuan and thanked him: "Thank you for helping the younger brothers, the old man thanked him!"

"Shen Tu elder is polite." Ye Xuan said with a smile.

Although the three demons ran, but successfully saved a third-level king, this is very good.

There is a crisis everywhere in the wilderness. There is a three-level king in the ranks, so their survival rate is several times higher.

"Ok?"

At this time, the elders of Shen Tu suddenly looked in the face of Ye Xuan. After he paused, he suddenly said, "I don't know the little brother's surname?"

"The kid is called Ye Xuan!" Ye Xuan replied casually.

However, this one answer is to make Shen Bing's elders shocked.

"Little brother, take a step to talk!"

The elders of Shen Tu suddenly took the lead to fly away from the team.

Ye Xuan was very surprised to follow up.

Shen Shen elder took Ye Xuanfei to a kilometer away, and then asked awkwardly: "Ye Xuan, I don't know who Ye Chong is you?"

boom!

This problem made Ye Xuan instantly in the same place.

Shen Tu, the elder, actually knows Ye Chong?

He widened his eyes and looked at the elder of the Shen Tu, suddenly flashing a name in his mind.

Shen Tulie!

This Shen Tulie is the city owner of the first main city of Tianshui, no, it should be said that it was once.

It was him who gave the landlord of the first main city to Lin Wenyue, and then followed Ye Chong to leave the Tianshui continent.

It's hard to be done, this Shentu elder...

"Ye Chong, it is the father!" Ye Xuan answered honestly.

"really!"

Shen Tulie revealed a look of ignorance and said: "My name is Shen Tulie. It was originally the first main city owner of Tianshui. Later, I followed your father to the **** rock continent. I only saw you familiar. It turned out to be his. son."

When he heard the name of Shen Tulie, Ye Xuan also showed a strange expression.

When Shen Tulie left the Tianshui continent, he was not able to take advantage of it. Now, it is already a breakthrough to the virtual kingdom of the three kings.

However, there is no way to do this. There are probably many geniuses in Tianshui mainland, but there is a lack of vitality and cultivation resources, so it is buried.

Still not waiting for Ye Xuan to open, Shen Tulie said: "When your father took me to the temple, then the temple split, I joined the Beastmaster. I did not expect the time of more than ten years, let you grow to this To the point."

"Shen Tu elder, is my father still okay?" Ye Xuan hurriedly asked, now he knows too little about Ye Chong's affairs, only knowing that Ye Chong is constantly impacting the Sword Palace.

Shen Tulie shook his head: "Not very good. Every time he hits the Sword God Palace, he ends up failing, and every time he is seriously injured. If there is not a palace of the Sword God Palace who is using the dead wood to help him heal, he is afraid. Already dead."

Ye Xuan understands that the Sword God Palace in the mouth of Shen Tulie should be the master of the War King Hall. Unexpectedly, the lord of the temple turned out to be a rare wood attribute, and also realized the reunion of the double mystery.

For this person, Ye Xuan is very grateful.

But for now, it seems that it is not a time to worry about this. Whether they can get out of the wilderness is still unknown.

"Right, Shen Tu elder, do you have a virtual body of a beast here? I want a corpse of the virtual king of the king!" Ye Xuan asked quickly.

"What do you want to do?"

Shen Tulie asked a strange question and added: "I don't have it, but when I fled, I saw a virtual **** of the virtual king."

"My breakthrough is different from other people. As long as I get a corpse of the virtual **** of the virtual king, I will be able to break through to the king of the virtual god!" Ye Xuan solemnly said.

Although I don't understand what Ye Xuan said, Shen Tulie nodded: "Well, you come with me!"

If Ye Xuan does not have the king of virtual gods, he will have such strength. If he is allowed to break through, the combat effectiveness will be greatly enhanced.

At the moment, Shen Tulie is taking Ye Xuan four people and looking for the past along the memory. The virtual beast that he said is the king of the virtual king, is nearby.

Soon, they just found it.

This is a dragon, but not a demon.

The vast majority of the Yaozu are Tianlong, so they will be merciless to their own races and will not arrest and hunt.

Now, this is cheaper Ye Xuan.

"Shen Tu elder, I will do it myself!" Ye Xuan said to Shen Tulie, he swooped down.

The acceleration of the wind makes him fast as lightning.

"The Eight Swordsmanship, the sword is broken!"

The Tianlong, who had just discovered Ye Xuan, suddenly turned his head and saw that he had seen a chilly mangling. He just wanted to hide, and he was instantly stunned.

dead!

A blow, spiked the virtual **** of the king of the virtual king, this strength can only be called enchanting.

"The body!"

Ye Xuan's eyes widened and swiftly swept away, and the whole body was collected.

The next moment, there was a pleasant sound in his mind.

"Hey, the host has broken through to the king of the virtual gods, and is currently the first king!"

Finally, I broke through to the king of the virtual gods.

"Hey!"

The field is unfolded instantly, up to 10,000 meters.

"Is this the field of soil?"

Ye Xuan's eyes glanced and glanced over.

"Booming!"

The earth suddenly began to tremble, and then a stone monument rose.

This stone monument is actually just a combination of ordinary earth, but after the intrinsic quenching of the soil properties, it is indestructible and can be used to resist the attack.

Among the five elements of the property, the soil property has the strongest defense and can withstand many attacks.

At this time, Ye Xuan suddenly mobilized the strength of the heavens and the earth, gathered the soil properties in the air, and then gathered a shield of earth in front of him.

Chapter 639: Dual field

This shield is made up of all the elements of heaven and earth, so the defense is weaker than the stone. However, the field of soil can only exert its strongest effect on land. In the air, it can only be defended with such things.

In the field of soil, what Ye Xuan wants to do is to make a hole in the house.

A thought can also make the land grow a myriad of thorns, making it impossible to prevent!

Of course, he can also condense the soil thorn in the air, but the soil property is the most scarce in the heavens and the earth. Only on the ground, the earth and the nature of the earth will be more, so the power of this soil thorn is naturally better than the wind blade. The tricks like that.

The only thing is the field of the earth, then the next is the field of the wind.

"Huh!"

Surrounded by Ye Xuan, there was a gust of wind blowing, and the wind blades of one after another formed, and the surrounding trees were not scraped.

In general, the field of wind is much better than the field of soil.

"I heard that there is still a wind in the ups and downs of the wind. If I understand this ambiguity, then I can limit the actions of the enemy in the field and improve my strength in disguise!"

Ye Xuan thought in his heart.

However, he attaches the most importance to one question, that is, whether the field can be superimposed.

At the moment, he is trying to simultaneously expand the field of wind and the field of soil. What makes him ecstatic is that the two fields can really overlap.

Simply put, he can use both wind and earth walls for defense, or both with soil and wind blades.

Cool!

However, the more cool is still behind, before he murdered the four demon kings of the virtual gods, and they are still in the ring, Ye Xuan still keeps.

However, let Ye Xuan scare the urine, the four Qiang Kun ring, can not let him break through. His field has only grown to more than 14,000 meters.

The field of 20,000 meters is considered to be the second-level king, so he still has some distance.

"Breakthrough the big realm, the experience is a lot more, it is really a pothole!"

Ye Xuan shook his head helplessly.

"Hey, the host learned the third and second style of the Eight-Swordsmanship Method - the sword-breaking stars!"

The Eighth Swordsmanship method is the third most important. There are three types. The first type is the sword and the eight-year-old. The second type is the sword-breaking star.

I don't know, how powerful is this sword-breaking star.

At this time, Shen Tulie also fell with the three blues.

"You actually broke through!" Shen Tulie could not believe it.

"Ok."

Ye Xuan nodded silently.

If he was the king of the virtual gods at that time, then the three demon people would have to stay there.

Unfortunately, he was still the peak of the virtual world.

Lan Xin is also looking at Ye Xuan with the eyes of the monster. Lan Xin is even more shocked. I must know that when she and Ye Xuan just entered the Great Wilderness, Ye Xuan became a sinister.

Even the first day of the War King Hall, the Blue Moon, took a few years from the breakthrough of the virtual two into the king of the virtual god.

Enchanting, it is a enchanting!

"Okay, that's great. In the dual field, you are even better than the blue moon." Shen Tulie appreciated it again and again, and he also said to himself: "In time, this child will certainly be able to surpass his father."

Ye Xuan is the son of the undead sword **** Ye Chong, and this matter cannot be revealed.

Otherwise, it will definitely cause trouble, and this trouble must be from the Jiang family.

Now, Ye Xuan has broken through to the king of the virtual gods. If he and Shen Tulie teamed up, even the three Yaozu can be killed.

However, I really want to think about what comes.

They have not yet set off, the sky is plucking five figures, three of which are the three demons who were previously escaped.

"There is still someone looking for it, really looking for death!" Ye Xuan glimmered.

"Now I have recovered almost. Although my fighting ability is poor, I can still hold three." Shen Tulie's face became a little dignified.

Although he is a metallic virtual god, but the realization is a stone into gold, before he was besieged by three people, relying on the defense of the double gold of the gold, or he would have died.

"kill!"

Ye Xuan is also nonsense, directly clenched the eight wild swords and killed them.

The five demon people who came this time, in addition to the three second-level kings of the day, there is also a second-level king, and a first-class king.

It happened that the man of the Beastmaster Hall also had an opponent.

"on!"

Shen Tulie drank a big sentence and then followed up.

"That's the kid, you two, kill him first!" shouted the red demon.

Then, at that time, Tianlong, who became a body, joined forces with another second-level king to kill Ye Xuan.

In their cognition, Ye Xuan is only a peak of virtual reality, and must be killed in the cradle.

However, they did not know that Ye Xuan had already broken through to the virtual king.

The two parties touched each other instantly, and Ye Xuan confronted two second-level kings, one of whom had become a body. The man named Cui surrendered to the first-level king alone. As for Shen Tulie, he is the same as Ye Xuan.

"Kid, die!"

The red dragon looked at Ye Xuan, who was rushing toward him. He opened his mouth and spewed a hot dragon.

This blow, even if Shen Tulie, who understood the defense of the gold, was hit, I am afraid it will be seriously injured.

However, Ye Xuan is accelerating with the wind. He looks at this hot fire column and instantly accelerates to escape.

"The Eight Swordsmanship, the Sword of the Stars!"

Ye Xuan has just learned the second type of the eighth heavy sword law, and now it is used.

A sharp cold mantle passed by the dragon, and instantly fell into the body of the red dragon.

"puff!"

The red dragon body was poked out of a small hole with a fist, but Han Mang did not wear out from the other side of his body.

The next moment, the red dragon stopped the eruption, and saw that its body began to break. In the blink of an eye, it was broken into countless pieces, and the dragon's blood sprinkled over and over, and it was like a downpour.

Sword broken stars!

Broken, stars!

Ye Xuan finally understood the meaning of this move.

And he spiked the dragon of the second king, and the face of the other four demons changed dramatically.

Isn't that just a virtual reality?

How can you kill the second-level king who has transformed into the body?

The demon who came to help kill Ye Xuan in the cradle, the whole person was scared.

At this time, suddenly there was a strange energy to wrap him.

field!

The demon family suddenly reacted and turned around and saw that the center of this field turned out to be Ye Xuan!

Ye Xuan, already a virtual **** king!

"withdraw!"

This Yaozu had heard about Ye Xuan's affairs. Now he has seen Ye Xuan's strength. He immediately lost the meaning of fighting again.

"I just want to escape from my field because of you?"

Chapter 640: Second king!

"I just want to escape from my field because of you?"

Ye Xuan glimmered and immediately smashed the wind blade attack beside the demon. At the same time, the Eight-Yan sword had been broken, and the eight-handed blade had already blessed the acceleration of the wind and swept toward the other side.

"Damn, give me away!"

This demon master is also metallic, and the understanding of the righteousness and Shen Tulie is the same as the stone and gold and gold defense.

His defense, Ye Xuan's field wind blade is still inseparable, unless Ye Xuan field has a sharp edge.

“Hey!” “Hey!” “Hey!”

This demon master has been covered by golden armor, and the wind blade can't break.

However, the eight wild swords can.

Eight out of the sword, but there is a pulsation of the earth.

"Hey!"

"Hey!"

A razor blade stabbed on the gold armor, and the golden armor burst open. The demon master has been repaired, but can not afford the eight-handed edge.

At this time, Ye Xuan has already swept up by the acceleration of the wind.

"Amazing!"

"The earth is pulsating 8!"

"boom!"

The speed of this demon master is too slow in front of Ye Xuan. Ye Xuan directly slammed his armor on his armor and broke his defense halfway.

If it is not because of the use of the eight-year-old sword, the gold defense of this demon master may have been broken.

"I thought your defense was very fierce. It turned out to be the case. If so, then you will die!"

Ye Xuan suddenly recovered the eight-handed blade and reorganized the eight-year-old sword.

"not good!"

The demon master who was protected by the gold armor sank, and if Ye Xuan showed his talents, he would die.

His face was dignified and he did not hesitate to change his body.

However, changing the ontology takes time.

"The Eight Swordsmanship, the Sword of the Stars!"

Ye Xuan's body has just recovered the infuriating and taking time. With his sword stabbing, a cold manglet directly broke the gold defense and fell into the body of the demon master.

"Hey!"

"Hey!"

After a muffled sound, it is a series of crisp sounds, this is the sound of the broken golden armor, and the internal demon master has also broken into dozens.

dead!

Want to kill Ye Xuan in the cradle of the two major demon kings, all fallen.

At the moment, Ye Xuan is charging the two people.

If you don't break through, you won't be prompted, but Ye Xuan feels his own expanded field.

"As long as I kill another three, I might be able to break through to the second-level king!"

Ye Xuan's eyes couldn't help but blast two brilliant men. He had just broken through to the first-class king, and now he has to break through.

However, let's kill the other three people first.

"Too horrible, withdraw!"

The red demon who is fighting with Shen Tulie has changed his face. This time, he is going to become a body.

However, Ye Xuan is faster than him. In the blink of an eye, he joined the battle.

"The eight wild winds kill, go!"

Ye Xuan has not much infuriating in the body at this time, so he can only use the eight-handed blade and the wind blade to attack and temporarily restore the infuriating.

However, this is enough to pose a threat to the other party.

The red leprechaun is transforming and growing, but during the period it is suffering from various attacks.

"Amazing!"

Ye Xuan held a handful of Chinese character virtual soldiers and smashed toward the red dragon.

"Hey!"

The shape of the red dragon was trembled, and the middle of the dragon was smashed and a big hole was blown out.

Shen Tu Lie made a brow and made up a golden sword.

"boom!"

This sword gas, directly through the big hole, pierced the body of the red dragon, but this is not enough to kill it.

"almost!"

Ye Xuan estimated the infuriating in the body, reorganized the Eight Desert Sword and stabbed it out.

Sword broken stars!

"puff!"

Jianmang did not enter the body of the dragon, the next moment, this red dragon is roaring in the sky, and then the inch is broken.

In the sky, another **** rain came.

The third and second king, die!

The remaining second-level king and first-level king, the face is already ugly to the extreme.

The four second-level kings are now dead three, and the other side is unharmed. Is there still a fight?

Although he wants to become an ontology, there is a curse, and the speed of becoming a body is really slow to the extreme. He has not finished, he will be killed by Ye Xuan and Shen Tulie.

Therefore, he is dead.

Sure enough, under the joint efforts of Ye Xuan and Shen Tulie, there are no more than three rounds. This last second-level king is following the footsteps of the three people in front.

At the same time, the last one-level king was also murdered by men because of his heart and tears.

Five demon people, all destroyed!

Ye Xuan did not hesitate to put the two Qiang Kun ring away and then swallowed it.

"Hey, the host breaks through, and is currently the second-level king!"

The breath of the sky soared, and Shen Tulie's face changed dramatically.

Ye Xuan was just breaking through, and even broke through?

"Flamboyant, no, this must be the reincarnation of the gods!" Shen Tu Lie's eyes widened.

Less than two minutes later, Ye Xuan actually went from the peak of the virtual world to the second-level king. Is this Nima still a human?

"Okay, that's great. If your father knows, he will be happy to die." Shen Tulie said with a shock.

Ye Xuan's father, Ye Chong, has already smashed the tower of the sword **** for thousands of times, but he has always lost in the hands of his big scorpion. He has already had a magic root in his heart, and he has the possibility of getting mad at any time.

The emergence of Ye Xuan may be able to complete his wish for Ye Chong, so that Ye Chong's demons will disappear.

I don't know if Ye Xuan can cross the Jianshen Tower and enter the Sword Palace.

"Ye Xuan, you are so powerful now, you can't use it for a long time, you can definitely exceed that of Jiang Tian." Lan Xin came over.

Jiang Tianquan!

As soon as he heard the name, Ye Xuan came to the air.

That Jiang Tian's qualifications are actually similar to those of the Warlord's Temple, but his Laozi is the Sword Palace, so his progress will be so fast.

Originally, Blue Moon wanted to train the Ice Girl and Yan Di, and she would compete with Jiang Tian. Now, Ye Xuan is born, give him a little more time, more than Jiang Tian can not be a problem.

"Don't say this, let's find it again!"

Shen Tulie is still more worried about other people, and then he and Ye Xuan and others, looking for other people.

However, this time, their luck was very poor, and they did not encounter any humans, nor did they encounter any Yaozu.

In three days, nothing was achieved.

"This is where we encountered ambushes at the time. We haven't found it for so long, and we may have left the depths of the wilderness." Shen Tulie looked at the big pit on the ground.

Ye Xuan is also looking at the bottom, his face is gloomy.

After looking for so long, they did not find other people, then other people, not dead, just hid, or left the depths of the wild.

If you look for it again, they will be in danger when the demons gather.
