Chapter 65: Blackwater Mountain Mission

After leaving the wooden array, Ye Xuan also went to the refining pharmacy, and then exchanged for twenty-seven thousand blood ginseng.

"My physical strength is strong, and infinite exchange of blood ginseng should not cause other people's delusions."

Ye Xuan took the 27 blood samples and returned to his room, then swallowed directly.

Before he broke through to the eighth stage of the martial arts, he had swallowed up 30 million or 20 million things. Now, with these more than 50 million yuan, it should have been able to break through.

However, this thing worth one million two gold did not let him break through!

"I went, no mistakes, one million two gold, not enough for me to upgrade one level, my God, how difficult it is for me to rise!" Ye Xuan is helpless, he feels that he is already It's on the verge of breaking through, but it's estimated to be a little bit worse, about 10 million.

"Forget it, go see tomorrow and see where there are points to earn points. It's a big deal to kill the monsters."

Ye Xuan shook his head, and the sky was gradually darkening. He simply found a recliner, shirtless, lying outside his wooden house.

After coming to this world, he has not yet had a good look at the night sky of this world.

The evening breeze, blowing on Ye Xuan's body, made him a little sleepy.

"Huh!"

Just as Ye Xuan was about to go to sleep, suddenly a discordant wind made him wide open his eyes.

"Hey!"

Thunderstorm!

Ye Xuan flashed a few meters in an instant, and when he reacted, he found that his reclining chair was cut in half.

Not far away, it is slowly coming a figure.

By the moonlight, Ye Xuan also saw the coming.

It turned out to be the teacher!

When Ye Xuan just wanted to ask why the sister-in-law had sneaked on him, the sister-in-law was saying: "Wear your clothes!"

At this time, Ye Xuan reacted and was shirtless.

At the moment, he just picked up his clothes and put it on, and then he said with some anger: "Teacher, I respect you as a sister, so I call you that, but if you don't sneak up on your brother, is it wrong?"

"Humph."

The teacher did not answer, and then went straight back to her cabin.

Ye Xuan is also helpless. What is wrong with this sister?

It's just that you can't hold a sand!

"This sister, like a cleansing, but there are so many leaf bugs in the bamboo forest, can she not live well? And, if people wear neatly, it is obviously a disease in my heart!"

Ye Xuan thought in his heart, shook his head helplessly. Until now, he didn't even know what the name of the teacher was.

He is thinking, I must inquire about it tomorrow, so as not to be accidentally killed by this sister in the future.

This is the first night that Ye Xuan spent in the cracked Yunzong, but this day, Ye Xuan has let the cracked cloud stunned.

When the second day arrived, Ye Xuan got up early.

He has always been thinking about the level, as long as he works harder, he can break through to the eighth middle of the martial arts.

Although he didn't have many points, he went to the refining pharmacy and used five points to let the deacon of the pharmacy hall reveal some things.

After the deacon said, Ye Xuan knew that the Guanshi sister was called Guan Lan, and he was the child adopted by the clan.

Guan Lanben is a child of an ordinary farmer, but when she was seven years old, her family was killed by a rogue. After that, the hooligan wanted to **** her. Fortunately, the ruined cloud ancestor passed by, and she saved her, and then brought back the sin.

That time, it also left a deep shadow on her, so she is not clean, just hate those who have hooliganism.

A few years ago, the cleavage of the sect of the Yunyun sect went out, so he paid the singer Lanto to the deputy lord Zhou Cang, so Guan Lan lived in the bamboo forest.

After listening to this story, Ye Xuan finally understood, but he felt very wronged, because he was not a rogue, just to get to the cracked Yunzong as soon as possible.

"Teacher, you must not say that I told you, there are not many people who know this." The deacon of the refining pharmacy called Wang Tao whispered.

"Brother, do you see me like a lot of people, you can rest assured." Ye Xuan smiled and asked: "Right, brother, do you know how to get points?"

"Integration, in addition to the Mu Ren District, it is to go to the training hall to pick up some experience tasks." Wang Tao said.

"Is it a mission, I know, thank you brother!" Ye Xuan said, he left the refining pharmacy directly.

And this Wang Tao was also laughing and closing his mouth, and he talked about the meeting, and he even got five points, which is 50,000 yuan.

At the same time, he also sighed in his heart, this Ye Xuan shot so generous, worthy of being a dragon and phoenix, there must be a big deal in the future!

.....

After leaving the refining pharmacy, Ye Xuan also walked toward the auditorium.

He still has a breakthrough of one or two million, and his master is also missing after receiving him.

So you can only do it yourself!

He came to the calendar hall, just entering the door has become the focus of attention, he ignored the eyes of the people around, and then began to look for the task.

The mission of the Li Yunzong is also of a grade, and the four-question mission requires the fourth-strong martial art. Of course, the number is not certain.

Ye Xuan is now the eighth major martial art. It should be able to take eight tasks. It is sad to remind that there is no eight-question task in the cracked Yunzong.

In desperation, he can only pick up a seven-question task.

"Removing the black water cottage on the Blackwater Mountain and bringing it back to the first level of the mountain king Cao Hu. The strength of Cao Hu is the seventh peak of the martial arts, the seven-question mission, and the task rewards 600 points!"

"Six hundred points, that is, six million two, but this is a mountain thief, there must be a lot of good things inside, it should be able to let me break through, just pick it up!"

Ye Xuan made a decision and took the task directly.

This black water mountain has some distance from the cracked Yunzong, but there is one reason why Ye Xuan took it. This black water mountain is only a few days away from the city of Yuncheng. After the task, he can return. Look at Yuncheng.

However, when he was about to leave the experience hall, suddenly three people came in.

Coincidentally, these three people are the brothers of the road, and the brothers of Ning are also related to the language.

"Is it you?" Ning brothers widened their eyes.

"Oh, it turned out to be a brother, don't you know that the brother still thinks that I am posing?" Ye Xuan asked with a smile.

Yesterday, after Ning Shixiong and Lu Shixiong went back, they also asked a lot of people.

It turned out that when they and the Guanlan Lanxiashan purchased things, Ye Xuan made a fuss about the cracked Yunzong inner door, and then was accepted as an apprentice by the deputy lord.

Now, they have already understood that Ye Xuan is a master who can't be enemies with the Huo Yuan trio.
