

## Super D. S 66

Chapter 66: together?

"The brothers are also going to pick up the task, please!" Ye Xuan smiled and let out the debut, while using Yu Guang to smack the Guan Lan.

"Hey!" Ning's brother ignored Huang Xuan and went straight.

However, when Ye Xuan was preparing to leave the experience hall, there was an exclamation in the inside.

"You, have you taken the task of Blackwater Mountain?"

Ning Shi brother chased it out.

Ye Xuan stunned, and then smiled and said: "Yeah, is it true that Cheng Ning's brother also wants to pick up? That's a shame, I don't know the younger brother, I won't let you give it to Ning's brother."

"You go and give up!" Ning's brother was hot and said it.

"Senior brother, I remember that there is a rule in the cracked Yunzong. I have to pick up the task first. After the task has been picked up by my brother, it is mine. You can only take other tasks." Ye Xuan shrugged his shoulders.

"That is a thief nest, can you complete it alone?" Lu Shixiong also came over.

"That wouldn't bother the brothers to worry about it. If the brothers and sisters are interested, the teacher and my tutor can consider letting you join, but get paid seven or three points, how?" Ye Xuan suddenly showed a look of embarrassment.

"We are seven, are you three?" Master Ning blurted out.

But the next moment, he was almost mad at the blood.

"No, I am seven, you three." Ye Xuan shook his head.

"Don't deceive too much, although your strength is strong, but you only have one person. And the thief nest, at least hundreds of people, can you cope with it?" Lu Shixiong scolded.

"That's not about your brother's business. Anyway, I have already handed in the points for security. If the brothers have nothing else, then the younger brother will leave."

Ye Xuan Chong three people clenched their fists and turned away.

He just talked about it casually. He could kill the thief's nest alone. Why do you need three more cumbersome?

However, he has not taken a few steps, and the brother of the road shouted: "Five or five points, we will join!"

Ye Xuan's foot was next, and the heart said: "You really dare to speak. Five or five points, I can solve three of you with one hand, and five or five points?"

But at this moment, he suddenly flashed a strange idea in his mind.

There are still a lot of seven tasks in the experience hall. Why do the three of them have to pick up the task of eradicating the thief's nest?

It's hard to make a big profit on the thief's nest.

"No, this brother seems to be too nervous, but it is a task, it is difficult, there are other reasons?"

Ye Xuan frowned. Now he knows that this brother is called Lu Ping, the grandson of the elder of the cracked Yunzong Road, and the brother of Ning is called Ning Chuan, the son of a cracked Yunzong instructor.

They may have any secrets that are ulterior.

"Oh? Road brother, are you sure you want to join?" Ye Xuan asked curiously.

"Not bad!" The road nodded unanimously.

Ye Xuan sneaked a sneak peek at Ningchuan and Guan Yulan, and asked: "Five or five points, I account for 50%?"

"Correct!"

The road was not flat again, but he was thinking: "Mom, don't be stronger, what to install, if it falls into my hands, I must kill you."

"Oh, that line, my brother, I also think that I am not enough, I welcome the road brother to join!" Ye Xuan immediately changed a look, this face is fast, but also the road to the three people.

Ye Xuan is one of 50%, and the three of them together account for 50%. If they don't have ghosts in their hearts, then they are strange.

However, as Ye Xuan thought, this road is not the same as the three people went to the Blackwater Mountain. There are other things. Now Ye Xuan has taken over the task of the Blackwater Mountain Mountain Thieves Nest, so they can only join if they are cheeky.

Otherwise, if you follow Ye Xuan, if you accidentally find it by Ye Xuan, then they will not explain it.

Now, the three of them joined Ye Xuan, as long as the task is completed, let Ye Xuan alone to break the cloud sect.

"Hey, really treat me as a fool, I played you so badly, you joined my team, this fool can also guess with ulterior motives."

Ye Xuan thought in his heart, but he did not know what the three people were going to do in Heishuishi.

At the moment, Ye Xuan left the cracked Yunzong with the three people.

Along the way, Ye Xuan also discovered a weird point, that is, Guan Lan and the road are not flat, Ning Chuan is not very good relationship, the horses riding on both sides have some distance.

Of course, Ye Xuan and both of them are also the same.

"Road brother, what should we do?"

When Ningchuan took a break, he whispered.

"First remove the black water mountain thief, then we will find an excuse to leave on the way back." The road answered injustice.

"But, can this be done by the three of us alone?"

"No problem, Grandpa gave me a bottle of special poison, and the thing was weak after birth. Together with this bottle of special poison, the three of us can deal with it."

Lu Ping and Ning Chuan are whispering, Ye Xuan also wants to listen, but unfortunately, he did not follow the wind.

"The relationship between Lan and Lan and the two people does not seem to be very good. It should also be called to help. Hey, what is it that can make the three high-ranking students of the Yunyun Zong team?"

Ye Xuan is also somewhat curious.

.....

The next journey, they went very fast, not three days, they have already arrived at the foot of the Blackwater Mountain.

"Teacher, this group of black thieves has no evil, and it brings a lot of trouble to the surrounding city. So when you go up the mountain, you can't leave your hand."

When the mountaineering is going to eradicate the black water cottage, the road is also uneven.

"Senior brother please rest assured, I will not be merciful." Ye Xuan said slowly, and there is still a sentence in the heart did not say, that is: I will be more embarrassing than when you hit you!

"Very good, then we will go up the mountain and eradicate this thief's nest!" The road nodded unanimously, and then the sword was pulled out.

Several of them are all elites of the Li Yunzong, and it is not a problem to deal with a thief.

When they came to the mountainside, they encountered several thieves who were shirtless.

"call out!"

Still waiting for the road to open, there is a white shadow that plucks out, and these few thieves are immediately smashed under the sword.

"Guan Shimei is really powerful." Lu said that he was praised.

Although Guan Lan is a female, but her strength is still on the road, ranking fifth in the inner door.

Now that I know the Ye Xuan that Guan Lan has encountered, it is relatively calm. The thief is a more abominable occupation than the rogue.

The four people's footsteps are very fast, and some of the thieves on the road are all killed by Guan Lan, and they are very profitable.

Ye Xuan, who is walking behind, is also doing some small things about stealing chickens and touching dogs. That is to devour the things of the thieves, such as weapons and medicinal herbs.

Although the mosquitoes are small, they are also meat.
