

Super D. S 661

Chapter 661: Real strength

"it is good!"

The other two murderers nodded, and immediately swept the Ye Xuan four people, and the middle-aged man started the field and killed the pirates.

"Come on a three-level king, a second-level king, Ye Xuan, let us come?" Song ruling turned to Ye Xuan.

"it is good."

Ye Xuan has no opinion. His strength is enough to kill the three murderers. There is no need to shoot, or give Song a chance to judge the three.

The next moment, the Song ruling three people quickly swept out.

The three of them found their opponents in unison, Blue Moon dealt with the second-level king, and Song and Jing decided that the two brothers and sisters were against the three-level king.

"Hey, the newborn calf is not afraid of the tiger, look for death!"

The three-level king snorted and attacked the two brothers and sisters directly.

The Song Dynasty and the Song ruling are both first-class kings, but if they are united, it is not a problem to deal with the three-level king.

The blue moon is also a rare mine attribute. It is also a comprehension of the acceleration of the thunder and the punishment of the heavens. It is too easy to deal with a second-level king of the same class.

Ye Xuan stood on the side and looked at the battle of five people.

The riots of the Xinghai, where the water properties of the world have the most vitality, followed by the wind attribute and the mine attribute. Not only that, the king of the fire attribute is a little weak here.

The Song Dynasty is an ice attribute that is above the water property. Here she has an increase in strength, and the ice crystals are condensed much faster than on the mainland.

"Hey!"

An ice crystal cage was condensed and trapped the third-level king.

"What, ice attribute?"

The three-level king was shocked, and the water property was very popular in the riot of the sea of stars. However, now, an ice property has come, it is simply against the sky.

"boom!"

The three-level king slammed a flame slam against the ice wall in front, but failed to break the ice crystal cage.

"Ice crystal burst!"

At this time, Song Tingjing suddenly flashed a flash, the next moment, the ice crystal cage is an instant burst, thousands of ice crystals flying, stabbed into the body of the three-level king.

The murderer was sore.

"Huh!"

The Yan Long, who was controlled by the Song ruling, has also come. He has a painful punch and defeated Yan Long.

However, this dragon of the Song ruling is still only a blind man.

Suddenly, a sniper swept out when the dragon dissipated, and hit the body of the third-level king. The next moment, the flame of the Song ruling was an instant burst.

Flames burn the sky!

"boom!"

The three-level king was instantly killed.

Song ruling, not only the nature of inflammation, but also comprehend the flames of indestructible flames, flames, flames, and rebirth, and Jiang Tian is exactly the same.

If the realm of the two is the same, the strength of the Song ruling is definitely stronger than that of Jiang Tian.

"The menstruation and ruling are so strong that the two join hands and kill the enemy at two levels."

Ye Xuan's gaze fell on the third-level king who had been burned with one arm left, and he said secretly.

Nowadays, the Qiankun Ring is almost all made of white jade. This white jade is one of the materials for forging the virtual soldiers. Therefore, the Qiankun Ring is not so easy to damage, and at the same time, it can prevent the gold field.

After the death of the enemy, the Song ruling was swiftly swept away and put away the other's shackles.

At the same time, the other side of the blue moon is also the end of the battle, her opponent was smashed by a day, and instantly fell.

In the distance, the middle-aged man who was still killing the pirate of the virtual gods heard the movement, and after a sweep of the light, he found that his two brothers were killed.

"Miscellaneous stuff!"

The middle-aged murderer roared and suddenly turned around and left.

Just kidding, the third-level king has the same strength as him, but he died in the hands of Ye Xuan. In the past, he was not dead.

"Want to go?"

Ye Xuan's flash of light flashed, and suddenly he used the acceleration of the wind to swept the past. In the blink of an eye, he caught up with him.

"So fast!"

The middle-aged murderer was shocked.

Ice attributes, inflammatory attributes, thunder attributes, and wind attributes are all rare attributes. They were originally nothing, but now they are gathering together. What kind of trouble is this?

But for now, he is not the time to care about this.

"Amazing!"

Ye Xuan took out a sniper.

The dual meaning of strength, if the weight is light, let Ye Xuan's shot speed is extremely fast.

When the middle-aged murderer reacted, the attack was already in front of him and he was split into two halves.

Then, Ye Xuan quickly swept the past, taking away his ring and the loot that he won.

螳螂 螳螂 蝉, the oriole is behind!

Ye Xuan likes this time most.

The three murderers slaughtered a third-class pirate group, but in the end, it was cheaper.

"Ye Xuan, take it!"

At this time, the Song ruling three people have already plucked over, lost a bag of Qiang Kun to come over.

Before entering the rioting sea of stars, the three of them had already discussed the distribution method.

The property of the thunder is given to the blue moon, the attribute of the ice to the Song Dynasty, and the attribute of the inflammation to the Song ruling.

As for the others, all give Ye Xuan.

These rare attributes have a characteristic, and the speed of the refining and relative properties of the heavens will be greatly improved.

The two books of the Song Dynasty and the Song ruling have yin and yang physiques. These things in the martial arts ring can be refining in one or two days.

Of course, the most perverted is Ye Xuan, a thought can swallow all the things, even if the item classification, it only takes a few seconds.

"All right!"

Ye Xuan dumped the things he couldn't use into the three Qiankun Rings and gave them to the Song Dynasty.

"The riots of the Xinghai are really oily and watery. We got it in a big wilderness. There is not more than one tenth of it here." Song ruling could not help but say.

"We will refine it first, and we will not be in a hurry to go to Shuntian Island." Blue Moon proposed.

"it is good!"

Ye Xuan nodded, anyway, they came to the riots this time, just to improve their strength.

At the moment, they flew into Tianyun Island under the watchful eyes of those surviving pirates.

They stayed on a hill in Tianyun Island. This time, they stayed for three days. After the Song Dynasty three men refining the loot, they were ready to leave.

"Rare attributes are good, and both of us are about to break through." Song ruling could not help but sigh.

"This riot of the sea of heaven and earth is very suitable for me. I am afraid that I will break through to the second-level king than my brother." Song Zongjing also said.

Blue Moon has some helplessness: "You two have special physiques, I am afraid that it will not last long, you will catch up with me. Ye Xuan, when can you break through?"

"I, I am not so fast..."

Ye Xuan shook his head. Although there were many wealth, but every time he broke through, his experience was greatly improved. Unless he came to a four-level pirate group, he might be able to break through to the fourth-level king.

Chapter 662: Xuanyue Pirates

"Well, then we will continue on our way." Blue Moon did not ask again, she also knew from Lan Xin, Ye Xuan has a lot of secrets.

The four began to hurry again.

This time, there was no big deal on the road. There were only a few sea animals that were not open to the eye. These sea beasts were just ordinary virtual beasts. They were directly frozen into ice sculptures by the Song Dynasty, and the bodies were swallowed by Ye Xuan.

Two days later, the four people arrived at Shuntian Island smoothly.

Suncheon Island is an island occupied by the Shuntian Pirates. There are defensive formations on the island and there is only one entrance.

"Well? It's the niece of the island owner."

There are a lot of pirates at the entrance, they all know the blue moon, so they are released directly.

Although Suncheon Island is only an island, its area is much larger than that of Tianshui, even surpassing the Luosha domain.

There are also various cities, towns, etc. on Shuntian Island, and the Shuntian Pirates Group is a city at the entrance to Suncheon Island.

Blue Moon directly took Ye Xuan three people and found an elder of the War King Temple stationed in Shuntian Island.

The head of the Shuntian Pirates Group is a four-level king named He Liang, the old elder of the War King Hall.

After seeing the blue moon, he couldn't help but smile: "It's a blue moon, I heard that you went to the Great Wilderness this time, how about the harvest?"

"The Great Wilderness is eager to move, wanting the body of a demon emperor..." Blue Moon briefly told the story.

"It turns out that you are Ye Xuan. You are already a three-level king at a young age. It is not impossible to achieve the great emperor in the future."

He Liangyi opened his mouth and smiled and continued: "You came here this time, do you want to follow the Shuntian pirate group directly, or want to rebuild a new pirate group?"

"Re-establish one, He Grandpa, where has our route been opened?" asked Blue Moon.

"Oh, the progress is too slow. There have been many looters recently. We haven't gotten out." He Liang shook his head helplessly. "There was a fourth-level king coming over, but fortunately we were defeated."

The Eastern Continent is trying to open up a route, so it often changes islands. However, if you want to open a route, the difficulty is not that big. After all, they are just a four-level pirate group.

"Grandpa, give me a road map." Blue Moon said.

"Okay, but the recent riots in the Xinghai are not very flat. You should be careful. We suspect that the murderers are likely to come from other places." He Liang said that he took out a map.

On this map, all the islands of the rioting sea of stars are recorded, while Suncheon Island is in the northeast corner.

The riots of the sea are divided into three, mad in the upper right corner, the female emperor in the lower right corner, and the empire is on the left. The three people's sites are almost the same size, and the number of islands is similar.

"Where is the other place coming, is it the person of the female emperor's site?" Blue Moon asked slyly.

"Almost, the female emperor will not do these things naturally. This should be a powerful pirate group in a female emperor's territory. It has been disguised. Many islands have been attacked recently, and several pirates have been destroyed, not only me. Another island of the Shuntian Pirates Group fell, as did an island in the Beastmaster Palace." He Liang nodded.

A powerful pirate group, pretending to be a murderer to enter other people's territory, is really too rude.

However, this kind of thing is obvious in the riots of the stars, and the pirates group under the violent slogan often do these things.

"We will be careful." Blue Moon nodded: "He Grandpa, then let's go first."

Immediately, Ye Xuan four people directly left Shuntian City.

"Blue sister, what do we do now?"

After leaving, the Song Dynasty also asked directly.

Lan Yue holds the nautical map and said: "There is a two-level pirate group near Anshun Island near Sun Island. Let's go straight."

"Secondary pirates, the head of the team is the second-level king, even if the strength is hidden, it will be three levels. It is not a problem to win." Song ruling said confidently.

"Let's go!"

At the moment, the four people quickly swept toward the island of Anhu.

Although they have not yet formed a pirate group, as long as they sneak into the Anhu Island, the head of the pirate group will give way.

In less than a day, the four people came to this Anhu Island, but the recent riots are not too peaceful, and few outsiders can enter the island.

"My sister and I are only the first-class king. The other party will not care. Let's go in with both of us."

Outside Anhu Island, the Song ruling said to Ye Xuan.

They did not form a pirate group. If they attacked the island, they would be counted as murderers. If they encountered those maritime law enforcers, they would be miserable.

Therefore, only the Song ruling and the Song dynasty can be allowed to enter. After all, they are only the first-class king.

"Okay, you are careful." Ye Xuan nodded.

"Do not worry, my brother and I joined forces, even the three kings can kill, and we have improved a lot now, this is just a second-class pirate group." Song cuts very confidently said.

Ye Xuan nodded.

A second-class pirate group, the head of the team is also the second-level king, even if there are hidden strong, at most three levels.

Moreover, the two of them are kept outside, and if there is an accident, they will immediately kill the support.

Then, the Song ruling and the Song Dynasty were left and then looted outside Anhu Island.

As for the excuse, there are really countless numbers. The Song ruling directly led the people of the pirates group to join the pirates.

After the people of the pirate group came out, the two men started their own field and proved that they were only the first-class king.

Soon, they were invited to enter Anhu Island and went to see the head.

After a while, the battle broke out.

"boom!"

Suddenly a signal-like sniper plunged into the sky, and Ye Xuan and Lan Yue outside Anhu Island looked at each other.

Things have been solved.

The two quickly swept past and the island's formation has opened an entrance.

"Haha, how, fast enough. The three chiefs have been killed, and there are two first-level kings who choose to surrender to us." Song ruling smiled at Ye Xuan.

"Well, this is to save the application for the pirate group, just change the name." Ye Xuan nodded.

Blue Moon asked: "What about the pirate commander?"

"At this!"

Song ruling took out a token and threw it to the blue moon.

In the riots of the stars, the pirates need to be certified, and only the certified pirates can attack the island. Whose token is in the hands of who is the leader.

"Xuanyue pirates, the name is not difficult to listen." Blue Moon looked at the name on the token, muttered.

"Then don't change the name, go directly to apply to upgrade the pirates, and then apply for the island."

Ye Xuan proposed.

Chapter 663: Xuanzhong Island

"Well, if the head is yours, then we can ascend to the third-level pirates. At that time, we only need four of us to attack the island." Blue Moon nodded.

All pirates who reach the king of the virtual gods need to apply, otherwise they will not be able to participate in the island war, because there will be people to supervise.

You can have a master to help the island, but you can't fight the island.

"There is a three-level pirate group around Anhu Island. There are many looters recently. The pirates and the fleet are rarely sailing. We will attack them directly after upgrading." Blue Moon took out the map and pointed to an island.

"it is good!"

Ye Xuan agreed.

There is an application point near Anhu Island, so the four people immediately went.

Within three days, I arrived at the application site for the island attack, and upgraded the Xuanyue Pirates Group to the third level. The head of the team was Ye Xuan, the deputy head was Blue Moon, and the Song Dynasty and the Song ruling were also registered. .

Attack time, after seven days.

If the Xuanyue Pirates group succeeds in attacking the island, then they can move to the new island. After all, the pirates group is less than four, and it is impossible to allow two islands.

Of course, if you apply for a pirate group to occupy Anhu Island, it is ok.

Don't look at the riots There are thousands of islands in the sea of stars, but many of the eight-level pirates have more than six islands. They will send people to re-establish the pirates and then form the pirates alliance.

Therefore, those advanced pirates and high-level islands are occupied by some pirates, and rarely change.

Subsequently, a four-level king of the mad pirate group directly followed Ye Xuan to leave.

However, after the four-level king knew that Ye Xuan, who was going to attack the island, was shocked.

As far as he knows, there are two third-level kings on the Iron Island, and more than a dozen first- and second-level kings.

It is said that he himself has been in the past, I am afraid it is not so easy to attack.

Ye Xuan spent another three days on that iron island.

Then, the four-level king of the mad pirate group swept the past and shouted: "I am a sea law enforcer, the Xuanyue pirate group applied to attack the Iron Island, and you have a day to prepare."

The sound was very loud, and the pirates at the entrance to Ironstone Island naturally heard it.

"No, there are people who attack the island!"

"Fast, inform the island owner!"

"This Xuanyue pirate regiment is really desperate. The second-class pirates in the district are not enough to occupy an island. I still want Iron Island?"

"It's just two second-level kings, it's really looking for death!"

The iron stone island is open.

And Ye Xuan, four people, is waiting outside the Iron Island.

"Blue sister, there are many mountains on the island. If it is up to 100 meters, will it be attacked by the violent squadron?" Song Cong couldn't help but ask.

"No, the riots will only attack people who fly above 100 meters in the sea." Blue Moon shook his head.

"Before I saw on the chart of the nautical map, there is an island of no ownership in this area, called Xuanzhong Island. Why is there no island?" Song said.

Xuanzhong Island!

When I heard the name, the look of Blue Moon was also changed. "The island has always had no masters. There are special arrays on it. People who go to the island have to walk, and there is tremendous pressure, if low-level. The king of the king will go into the meat sauce by the huge pressure on the Xuanzhong Island."

"what?"

Ye Xuan was surprised.

Directly pressed into a meat sauce?

Blue Moon paused and said: "At least the four kings must go in and be able to withstand the pressure. It is said that there is a heavenly treasure called Xuanzhongguo. If someone eats it, you can understand the gravity."

When she finished, she looked at Ye Xuan and continued: "Gravity is a property of the earth. You may be able to go to the Xuanzhong Island to see it. The Xuanzhong fruit is only one of them. It is said that some people have not obtained the mysterious fruit. Under the strong pressure of Xuanzhong Island, I realized the gravity of the righteousness."

Ye Xuan came to an interest.

Gravity is righteous, he always wanted to comprehend, but there has been no way.

"The four-level king can explore Xuanzhong Island with pressure. Then why didn't the master come over and occupy it?" Ye Xuan couldn't help but ask.

"This Xuanzhong Island is not as simple as it seems. There were seven kings who entered, but they did not come out. So in the riot of the stars, Xuanzhong Island is listed as one of the top ten forbidden islands, very dangerous."

Blue Moon took a look at the Song Dynasty and hurriedly said: "Of course, the seven-level king is deep into Xuanzhong Island. With the constant proximity to the center of the island, the pressure will be bigger and bigger, and the four-level king will be at the periphery. "

When I heard this, the face of Song Tingjing was also better.

"In this case, wait until you have time in the future." Ye Xuan's eyes glimpsed.

He has now realized a lot of the meaning of the earth. In the middle of a mystery, only gravity has no understanding.

Gravity is right, in this turbulent star, it is also very good.

Because people can't fly more than 100 meters, the gravity can be used to shock people into the sea, and the speed of the enemy will be greatly reduced, and they will be slaughtered.

Soon, the day passed.

"Time is up, you four can attack the island. Time is one day, if you have no victory within one day, I will leave immediately." The four-level king of the mad pirate group said.

Ye Xuan silently nodded and then slowly flew to Iron Island.

There are two third-level kings on the Iron Island, and more than a dozen kings in the first and second grades. For Ye Xuan, one person can solve it.

However, Ye Xuan did not want to expose his strength, so he stopped a third-level king. Another third-level king was sent by Song Congjing and Song ruling. As for the remaining ten or two kings, they would pay. Give the blue moon.

"I don't know what to do, but I'm going to attack my Iron Island. It's really hard."

A strong man came out of Iron Island, and behind him stood more than ten people.

There are several kinds of victory in the attack on the island.

The first is to kill the head of the pirates and get the head of the regiment.

The second is to destroy it all.

Of course, there is also a third type, that is, the defending party concedes defeat and is willing to withdraw from the island.

"kill!"

Ye Xuan did not talk nonsense with the dead. With one order, the four quickly swept out.

"Great courage, big brother, I will solve them and rob the two girls." A man sipped a cold drink.

Those who can come to attack the island must be kings, while the female kings are rare.

Although people like them, there will be countless beautiful women who will post them, but the Queen, they have never tried.

However, this man is too much care.

"Ice Crystal Cage!"

"The flames burn the sky!"

"Curse!"

The blue moon three shots instantly, only heard the bang, the man was blown apart.

Then, the blue moon was swept away quickly, and the shackles were taken and thrown to Ye Xuan.

The three men joined forces to kill a third-level king. Now Ye Xuan even has no need to shoot.

Chapter 664: Successful attack on the island

"Second brother!"

The strong man saw his eyes almost coming out, and his voice had not yet fallen. The corpse was burned by the flames of extinction and there was only one Qiankun ring and the virtual gods.

At the same time, his heart is also shaking.

"Ray attribute, ice attribute, inflammation attribute, God, three rare attributes!"

"It's terrible, and there are three rare attributes in the middle, but there are three at the same time."

"The deputy head was killed in an instant, when did the Xuanyue Pirates recruit such a strong?"

Those who watched the battle on the Iron Island were shocked.

The brawny, after thinking about it in the heart, finally made a decision.

"Kill, kill them!" The strong man shouted.

His brothers, but have followed him for many years, are born and died together.

The next moment, the brawny is leading more than a dozen kings and killing the past.

"Only close combat, the flames burned too much." Song ruling a low drink, and Song Congjing greeted him.

As for the blue moon, they are standing behind them and constantly exerting their punishments.

"Boom!" "Boom!" "Boom!"

Under the electric snake, eight first-class kings could not escape, and they were suddenly killed.

After they died, their bodies did not fall into the sea, but were dragged by a wind and sent to Ye Xuan.

"The wind attribute, that person is also a rare attribute!"

A group of people stared at the pair of green wings behind Ye Xuan.

Wind and ice, four rare attributes gathered.

In this scene, even the four-level king of the mad pirate group looked at it, because when he came, Ye Xuan was a normal defensive flight. He didn't even know what attributes Ye Xuan had.

He couldn't think of it, Ye Xuan turned out to be four rare attributes, which is simply against the sky.

At this point, he wants to represent the mad pirate group and recruit Ye Xuan four people.

However, I have to wait until the end of the island war to say that this is his duty.

After the man's death, the two sides began to fight. Because the scene was too horrible, the Iron Island owner was very careful.

However, caution is useless.

When the Song ruling was fighting with the Iron Island owner, it was already condensed with an flaming dragon, and then a flame split in the body of the dragon.

The burning of the flames is huge, he can only use it twice. At the same time, the use of flames in the field suddenly fluctuates too much, and the enemy is easy to dodge, so it is only necessary to use flames.

"Ice Crystal Cage!"

The Song Dynasty was flashing in the light, trapping the main stone island, and constantly strengthening the ice crystal cage.

But the helpless thing is that the Iron Island owner happens to be a wooden property, and the water property is restrained, so this ice crystal cage is quickly broken.

"Huh!"

Yanlong has already come, and the Ironstone Island master has smashed out the sword and smashed the dragon that the Song ruling arbitrarily condensed.

The next moment, the flames were reflected in his eyes.

"not good!"

The main face of the Iron Island is sinking, and his second brother is so dead. Now, he wants to die like this?

"Do not!"

The main stone island is roaring in the sky, but the Song ruling will not be merciless.

Flames burn the sky!

"boom!"

The flames burst open around the main stone island.

In order to prevent accidents, the Song Dynasty also took a trip.

The ice attribute can understand the meaning of the water attribute, but the effect is stronger than the water attribute, and the meaning is more.

The righteousness of the Song Dynasty's understanding is bound by water, overlapping waves, ice crystal cages, and cold ice.

However, at this time, it is possible to use the only ones. Her multi-layered upswing is stronger than Ye Xuan's previous strength, and her attack can be no worse than the Song ruling.

When the hot air was swept away, a blue sword broke open and the waves smashed past, and then burst like fireworks.

Even if the Iron Island owner was not killed by the flames, he would be killed by this attack. This is just in case.

The whole audience was stunned, and they immediately saw a broken limb falling from the air.

Iron Island owner, dead!

The remaining two-level kings were stunned, but they gave the blue moon a chance.

"Curse!"

Blue Moon is also indifferent.

The attack power of Ray's attribute is no worse than the property of inflammation. One day's penalty is enough to kill the second-level king.

"Boom!" "Boom!" "Boom!"

A charred body fell from the sky.

Fight, end.

The Xuanyue Pirates Group, who only dispatched the three kings, destroyed the third-level pirates and won the battle against the island.

Then, the people around him saw the blue moon three people, and threw all the Qiankun ring to Ye Xuan.

Obviously, Ye Xuan is the head of the three people, and is the head of the Xuanyue Pirates.

How strong will his strength be?

"Well, the Xuanyue Pirates attacked the island successfully, and Huanghu Island will become the island of no-owner." The four-level king of the mad pirate group has a loud voice.

But after he finished speaking, he looked around at Ye Xuan and once again shouted: "Now, I represent the mad pirate group and invite you to join!"

what?

The surviving pirates and residents on the Iron Island were shocked.

Mad pirate group?

That is one of the three hegemonies of the rioting sea of stars, this piece of sea is the maddening territory.

If you join the mad pirate group, then this iron stone island is estimated not to change the owner again, after all, who dares to mad pirate group idea?

However, letting these people feel awkward is still behind.

"Sorry, the four of us are new, if you join the mad pirate group at the beginning, it is too challenging." Ye Xuan directly clenched his fist and refused.

The four-level king of this mad pirate group stunned and asked: "Are you sure you refused?"

Just kidding, how many pirates in this sea area want to merge into the mad pirate group, but Ye Xuan refused, but this is the face of the pirate.

"When we break through in the future, it is not too late to join!" Ye Xuan still refused.

"Okay, leave!"

The four-level king of the mad pirate group glanced at the eyes and then quickly left.

Ye Xuan's four geniuses suddenly appeared. He did not expect it, so he must report it.

Although he is a four-level king, he can't see Ye Xuan. He feels that Ye Xuan does not take him seriously. Therefore, he did not take the shot to force the Ye Xuan four people, after all, can not be evil with each other.

Such genius must be recruited as soon as possible so as not to be known by the female emperor and the war emperor.

"Ye Xuan, this mad pirate group actually recruited us, if we do not, will it be murdered?" Song cuts suddenly asked.

"Well, this is very possible, but they should come to recruit for the second time. Let's upgrade ourselves first. If it doesn't work, then join it." Ye Xuan nodded.

Chapter 665: Catcher

Joining the mad pirate group, although not the original intention of Ye Xuan, but the mad pirate group is even more powerful than the three kings.

Of course, this does not include the three kings in the Temple of the Sword God.

The three kings are added up. Except for the Jiang family who has a six-level king, the War King Hall and the Beast King Hall have only five kings.

Even if the three kings are added up, the riots in the Xinghai can only be regarded as a six-level pirate group. It is really not worth mentioning.

However, it is also the earthquake of the Sword God Palace, so the forces of the riots of the Xinghai did not dare to enter the East.

Then, Ye Xuan four people plundered into the Iron Island, and then smashed the wealth of the pirates.

This iron stone island is also a good island with abundant resources. And Anhu Island did not enter the stream, so it was occupied by a second-class pirate group.

However, after Ye Xuan's four men attacked the Iron Island, the Anhu Island became an island of no-ownership, and a pirate group could occupy it.

"You three, just practice in Iron Island, I will bring some people to Suncheon Island."

Ye Xuan said to the three men of the Song Dynasty.

This time he came to the riots of the stars, not exactly to upgrade the breakthrough, but to open the route in the way to help the palace.

Iron Island, Anhu Island, and Shuntian Island are just in a straight line. This is the route.

After allocating things, Ye Xuan left, and then flew toward Shuntian Island.

The Shuntian Pirates Group was established by the War King Hall, but many of the pirates have been certified, and now Anhu Island has become the island of no-owner, so he has to bring some heads to come over and take Anhu Island And then the three islands form an alliance.

He is a three-level king, the speed is much faster than the blue moon, and just three people got the spoils in the blue moon, and they are making breakthroughs in refining, so he went to Suncheon alone.

Under his full speed, he arrived in Shuntian Island in three days and informed the Shutian pirate group He Liang.

He Liang quickly sent several pirates to his knees and rushed to Anhu Island and Iron Island.

When people arrive at Iron Island, Ye Xuan will be able to apply again to attack the island.

At this time, Ye Xuan had taken the lead to leave Shuntian Island and rushed to Tieshi Island alone.

"Before the menstruation and ruling, the bottleneck was reached. Is it possible to break through to the second-level king in these days?" Ye Xuan thought.

As long as the two brothers and sisters break through, then they are at the same level as the blue moon. When the four men join hands, they will go directly to the next level of the four-level pirates.

However, when he felt the Iron Island, he heard a rumbling rumble.

"Not good, someone is attacking the island!"

Ye Xuan's face changed.

When he left, he and the Song Dynasty cut three people. No one can open the big island of the island.

Now that I heard this movement, someone must be attacking the Iron Island.

Moreover, it is very likely that the slayer!

At the moment, he quickly swept past, and sure enough, there are three figures outside the Iron Island to attack the island of Iron Island.

"Three four-level kings?"

Ye Xuan's light flashed.

This area, there are three four-level kings, this luck is really good.

Therefore, Ye Xuan had to think that the three were the 'killers' sent by other forces.

"stop!"

At this time, Ye Xuan suddenly shouted.

"Ok?"

The three four-level kings who were attacking the Dadao array turned their heads and saw Ye Xuan. They also saw the pair of green wings behind Ye Xuan.

"The wind attribute? Is one of the four people, grab him!" The gray-shirted old man headed down.

Suddenly, a middle-aged man swept toward Ye Xuan.

"court death!"

Ye Xuan greeted the face with a cold, and directly sacrificed the eight-year-old sword, once against the middle-aged man.

Weightlifting!

Sword broken stars!

"call out!"

A cold mangling flashed and fell into the body of a middle-aged man. The next moment, the middle-aged man was like a petal, and the pieces fell.

Spike!

"what?"

The gray-haired old man and another four-level king were shocked.

One blow, killing a four-level king, this news is wrong!

"go!"

The gray-coated old man once again drank low and turned around immediately.

But at this time, the three rulings of the Song ruling on the Iron Island Island saw the arrival of Ye Xuan, and suddenly opened the Dadao Array and rushed out.

"Grandma's, you only have a good time, now it's up to us!"

The Song ruling shouted.

In the past few days, he and the Song Dynasty have already broken through to the second-level king.

In the case of a team of three, even a four-level king can kill.

At the same time, Ye Xuan has swiftly swept the past, taking off the shackles of the dead people and swallowing them.

"Almost a little!"

Ye Xuan brows slightly wrinkled, and he is still a little far from the four-level king.

However, after killing these two people, it should be enough.

Thinking of this, Ye Xuan, who was a little excited, swiftly swept the past. Although the infuriating body has been squandered, the blood of the **** of life has restored one-third of the infuriating in one second.

"Miscellaneous things, go to hell!"

The gray-clothed old man shot at Ye Xuan.

He originally heard that there are four geniuses with rare attributes, and he is ready to go back to the top, but he is not so strong, and instantly kills one of his companions.

Not only that, but even his own life is also dangerous, so he can only go all out, even if you kill Ye Xuan.

However, Ye Xuan's strength is beyond his imagination.

Ye Xuan not only has wind properties, but also soil properties.

"Amazing!"

"boom!"

The golden sword of the old man who died in the sky and the gray coat collided, and it oscillated for sixteen times.

The old man in gray is metallic, and he also understands the cutting of gold, which is huge in power.

Such an attack in front of Ye Xuan is really vulnerable.

Even without all kinds of blood and eight wild swords, Ye Xuan's catastrophe can also defeat this attack that contains the cutting edge of gold.

After all, attribute restraint.

And Ye Xuan also has weightlifting and earth pulsation.

"Boom!" "Boom!" "Boom!"

After the collapse of the golden sword, the catastrophe plundered toward the old man in gray.

However, the old man in gray clothing also realized the defense of gold, and the gold barrier appeared in front of him. At the same time, his body was also condensed with a set of gold armor.

But these are superfluous, because he has flashed this catastrophe.

However, he escaped once but could not escape the second time.

"The Eight Swordsmanship, the Sword of the Stars!"

"puff!"

The golden armor of the gray-haired old man was easily broken. The next moment, he fell like a man.

The power of the sword-breaking star is huge, even if only one-third of the infuriating, it is enough to kill a four-level king. If it is full of infuriating use, even the five-level king can kill.

Of course, this is under the premise of hitting each other.

The death of this gray coat elder fell into the eyes of another four-level king. The next moment, he saw despair.

The strength of the three rulings of the Song ruling has exceeded expectations. Even if Ye Xuan does not come, this four-level king may not be able to survive.

Chapter 666: Xuanzhong Island

"Hey, the host breaks through, and is currently a four-level king."

The long-lost tone finally sounded.

Originally, Ye Xuan still wanted to find a four-level pirate group. Now, it is no longer needed.

"Boom!" "Boom!" "Boom!"

The movement in the distance allowed Ye Xuan to return to God. Although the Song Dynasty was well matched, their opponents were four-level kings. If they were careless, they would probably fall.

So, he has to look after it.

The second-class king of the three rare attributes, together with a four-level king, this scene can not be seen.

In the tenth second after Ye Xuan solved the gray-clothed veteran, the four-level king was unable to hold it, was squandered by a day, and then was smashed into two halves by Song Jianjing.

The three murderers, all of whom are four-level kings, died in the hands of Ye Xuan.

At the same time, they also helped Ye Xuan to break through to the four kings.

"Huh, Ye Xuan, you are finally back!" Song ruling passed over, some trembled.

"Are you all right?" Ye Xuan looked at the three people.

"Nothing. Two days ago, there was a four-level king to attack the island, but fortunately, the island was strong enough, otherwise we would have to hide and wait for the opportunity to leave." Song ruling shook his head.

Ye Xuan nodded silently.

Every island, in addition to the entrance, has a hidden exit, which is a retreat for those pirates.

Even if the three four-level kings scored, the Song ruling three people could leave from the secret road.

"You have all broken through to the second-level king?" Ye Xuan asked again.

Song Congjing nodded: "Well, my brother and I have already broken through, and the blue sister is also fast."

Blue Moon is already the second-level king. If you break through again, it is the third-level king.

She glanced at Ye Xuan and sighed: "Hey, I see your breath has skyrocketed a lot, you have already broken through to the four kings."

"Not bad."

Ye Xuan is not concealed. Although it has been exposed from the Qiankun ring, it does not affect anything, as long as the phagocytic system is not exposed.

Then, he just redistributed the spoils, the blue attribute of the mine attribute, the Song dynasty and the Song ruling.

Most of today's Tiancai Treasures are made with attributes, refining and chemical properties, and the speed will be greatly improved. Especially the rare attributes are even faster than the five-line attributes, so the cultivation speed of the three people is not slow.

"Then you want to go to Xuanzhong Island?" Song Congjing suddenly worried.

"Going is going, but don't worry, wait for someone to accept the island."

Ye Xuan nodded, while holding the slender hand of the Song Dynasty, comforted: "Do not worry, my strength is not so weak, if I let Jiang Tianquan now, I already have the ability to kill him."

After the encounter, he also told the Song Dynasty the things he encountered, including the torture of the evil character of Jiang Tian.

"Well, I believe in you."

Song Chong Jing was innocent, and Ye Xuan broke through the martial arts ten-fold road. He encountered countless crises, and did he not spend it safely?

Moreover, Ye Xuan also has 16 pulsating guards, as well as the acceleration of the land and the wind. Even if he encounters a six-level king, he can run without it.

Next, everyone stayed in Iron Island for a while, and they waited until the people of Shuntian Pirates came.

This time, Ye Xuan really wants to go to Xuanzhong Island, but for the sake of safety, he sent the three to Shuntian Island.

Although the elders of Yonghao are not in Shuntian Island, He Liang is a four-level king, and the island of Shuntian Island is very strong, even if the five-level king is not so easy to break.

Even if it is broken, the Shuntian pirates will leave directly from the secret road. Anyway, the riots in the Xinghai Sea are not very flat recently. It is a big deal to return to the East China for a while.

A few days later, Ye Xuan safely sent the three to Shuntian Island, and he took a nautical chart and set off for Xuanzhong Island.

.....

Xuanzhong Island, in a sea area next to Shuntian Island, is surrounded by a five-level pirate group.

There are not many people with soil properties. The proportion of people who go to Xuanzhong Island is not high. However, the entire riot of Xinghai is a mysterious island, so the strong soil properties of the three major sites will come and try.

As a result, the number of people is quite a lot.

Ye Xuan went straight all the way. On the road, he encountered several pirates and looters who did not want to go out to swim, but all of them were killed by him, but these are the first-class second-class pirates, and the harvest is not enough for him. What about the teeth?

Five days later, he finally entered the site of the five-level pirates, and then went straight to Xuanzhong Island.

However, when he saw the Xuanzhong Island, he found that there were dozens of warships in front.

"A lot of pirates!"

Ye Xuan's light flashed.

Sure enough, Xuanzhong Island is still very popular.

He has seen more than a dozen different pirate flags, which represent different pirates. Of course, these ships are only one of the pirates, and the purpose is to send the kings of the soil properties.

"The four kings are qualified to hold the strong gravity of Xuanzhong Island. Those who come here are at least four kings!"

Ye Xuan approached very carefully. He had not yet arrived at Xuanzhong Island, and he felt a few strong breaths.

Five kings, even six kings!

"I hope not to attract the attention of others." Ye Xuan brows and flies slowly.

As early as entering this sea area, he just collected the wing of the wind and prevented others from seeing his attributes.

A person with a wind attribute comes to Xuanzhong Island, which is definitely tricky. If those who are jealous know that he has dual attributes, he may be killed.

Xuanzhong Island is listed as a forbidden island by the rioted Xinghai, so there will be no guards here.

However, the mad pirate group has formulated a rule, in order not to affect other people, Xuanzhong Island does not get a hand.

Although there are rules, but the pirates are killing people who don't blink, and occasionally kill one or two, who knows?

Therefore, Ye Xuan still has to be careful.

Not only that, but there is also a 'rule' in Xuanzhong Island. If someone shoots in Xuanzhong Island, it will be pressed into a bolognese instantly.

He quietly leaned over and found that the entrance to Xuanzhong Island has already gathered more than a dozen people.

"It came out, the head came out!"

"The head of the group stayed in Xuanzhong Island for a month. I don't know if I realized the gravity."

"Definitely understand, or how will the head come out?"

A long time ago, there were a few people's voices. Ye Xuan stared at it and found that one person came out of Xuanzhong Island and was a middle-aged man.

"Brothers, fortunately, I have succeeded in comprehending the gravity of the mystery!"

The middle-aged man opened his mouth and smiled.

Chapter 667: Xuanzhong Mountain

what?

When the people present at the scene heard it, they couldn't help but squat, and they immediately opened.

One month, I realized the gravity of the righteousness, this is a genius.

This middle-aged man is a five-level king. Although his age is a bit large, he can comprehend the gravity of the righteousness within a month. The qualification is absolutely acceptable.

After all, some of the six kings entered the year and did not realize the gravity.

"Head, fast, try how powerful gravity is!"

A four-level king said excitedly.

At this time, the middle-aged man was directly expanding the field, and then his dawn was a flash.

A peculiar energy was pressed from the top, and a ship was shaken into the sea. The highest flagpole of the ship was shaken below the surface.

"Oh la la!"

The middle-aged man took back the field. Due to the buoyancy of the water, the ship floated again and the sea water poured down.

"Okay, it's really amazing. The head of the team now understands the gravity and the combat power is rising."

"Is this gravity? If I fight the head, I am afraid I will be shocked into the sea."

"Not only that, gravity can also be added to himself, to avoid enemy attacks, it is so good."

"The head of the team now understands the gravity of the righteousness and must have fought the Jinyao Pirates."

"The qualifications of the head of the team are so powerful, so the gravity of the double mysterious gravity space of the righteousness, I am afraid I can also comprehend. At that time, not only the gravity effect, but also the horizontal repulsive effect, is too strong."

The people around you are amazing.

The middle-aged man looked at the people around him and said faintly: "Go, let's apply to attack Jin Yaodao and try the power of gravity."

Soon, this group of people left on that battleship.

They actually discovered Ye Xuan long ago, but they look at Ye Xuan so young, it is estimated that there is no wealth, so they are lazy to shoot.

A group of four-level kings shot at a kid, and they lost their prices.

However, Ye Xuan heard from his mouth a message he did not know.

Gravity is righteous, is there a double mysterious gravity space?

In addition to gravity, there is still a repulsive force. Isn't that the same as the wind space of the wind property?

"If I understand the gravity space and the wind space, the two are superimposed on each other, isn't it invincible?"

Ye Xuan thought in his heart.

Gravity space and wind space are the same effect. The superposition of the two is at least twice, or even three times, four times.

"The middle-aged man realized the gravity of his own righteousness on his own. It was not realized after he had eaten the mysterious fruit. It seems that the pressure of this mysterious island does have an effect."

Ye Xuan thought, then fell to the entrance of Xuanzhong Island, and then walked in.

Xuanzhong Island seems to be a very ordinary island, but as Ye Xuan entered, he immediately felt a huge pressure on his head and shoulders.

If Ye Xuan is an ordinary person, he would like to smash a bag of rice, and the pressure is terrible.

If the third-level king comes in, it is estimated that the floor has been smashed.

Ye Xuan is only a four-level king, barely able to withstand it, but such pressure will make his fighting power drop, so he immediately rushed out of the infuriating, trying to resist some pressure.

However, he thought too naive.

Infuriating, useless for this pressure!

"I am a four-level king who comes in and can only rely on it. This Xuanzhong Island is really powerful."

Ye Xuan's heart is somewhat admired. This method is really amazing. People who come in are even more difficult to walk, let alone fight.

After all, taking pressure to move requires a lot of physical strength, and those who go in don't want to waste energy.

"Fortunately, I have the blood of my life tree. It will be fine for a long time here, but my head is a little dizzy..."

Ye Xuan slowly entered the Xuanzhong Island.

Xuanzhong Island, famous for the entire riot of Xinghai, has many earth-roots kings who come here. Ye Xuan has entered the road and has seen many people.

Some of these people are sitting under the tree on the knees, and some are leaning against the trees. They are all eyes closed, and they feel the pressure they bring to Xuanzhong Island.

These places are occupied, so Ye Xuan has to find a place.

This Xuanzhong Island is very strange. It seems that only humans will be subjected to huge gravity, and those trees are nothing special.

After entering Xuanzhong Island, Ye Xuan went straight all the way through a forest. Just when he wanted to find a place and carefully realized the gravity, he suddenly found that there was a mountain in front.

"This mountain..."

Ye Xuan looked at the mountain with a strange look.

"Brother, come to Xuanzhong Island for the first time?"

Suddenly a personal voice fell into Ye Xuan's ear.

Ye Xuan turned and looked around, sitting under a tree 100 meters away, an ordinary middle-aged man.

"Yes." Ye Xuan replied.

"Xuanzhong Island, the closer it is to the Xuanzhong Mountain, the greater the pressure. Most of our forests are under four pressures, and the next one is five-level pressure and six-level pressure. And that one is Xuanzhongshan, less than seven. Going up to death, there was a seven-level king who fell on the Xuanzhong Mountain in the past few days."

The middle-aged people kindly reminded me that Ye Xuan was looking for a place to be aware of this place. Don't get close.

"Thank you!"

Ye Xuan nodded politely, then went to the other side and sat under a tree.

The mysterious fruit is a big wonder in Xuanzhong Island. If someone can get it, it will directly understand the dual mysterious gravity space of gravity and even gravity.

However, this thing is very rare, so people have guessed that Xuanzhong fruit may come from that Xuanzhong Mountain.

Therefore, Ye Xuan does not have any hope for this mysterious fruit. He feels that he can comprehend gravity.

He sat quietly under the tree, letting the wind blow through his face, motionless.

“Well? Is it still possible to improve my physique?”

An hour later, Ye Xuan suddenly opened his eyes.

He clearly felt that his body had a slight change.

"It is no wonder that this Xuanzhong Island is popular. It can also improve the physical fitness of the soil property. If I stay here for a month, I am afraid that I can improve my body."

Ye Xuan's eyes lit up.

However, if he is allowed to stay here for a month, it is better to go to the sea to circle and destroy the pirates.

The purpose of his coming here is to comprehend gravity.

Time, passing by little by little.

Ye Xuan is experiencing this pressure while still suffering from this tremendous pressure while constantly running in the body.

There are many related to the earthquake, and the earth is pulsating and pulsating, and even the gravity of the earth is actually shock.

Therefore, Ye Xuan is constantly running the infuriating, constantly trying against a stone in front.

Chapter 668: Mad pirate

Finally, in Ye Xuan entered the sixth hour of Xuanzhong Island.

The little stone in front of him suddenly trembled.

His eyes were so big that he didn't expect that he had already touched the threshold of gravity and righteousness for half a day.

In less than three days, he will be able to comprehend gravity!

At the moment, Ye Xuan is chasing after victory and continue to try.

One day later.

"puff!"

The little stone in front of it suddenly embedded in the dirt.

"almost!"

Ye Xuan brows a pick and continues to work hard.

He feels that he has already touched half of it, and given him another day, he may be successful.

Just when Ye Xuan entered the second day of Xuanzhong Island.

"Hey, the host has learned the gravity of the righteousness!"

When he heard the tone of the system, Ye Xuan's mouth couldn't help but curl up.

After suffering two days of tremendous pressure here, I finally realized the gravity.

His affinity for soil properties has actually reached the legendary level, and it is the highest, but he wants to comprehend the righteousness, but he can understand it without his high affinity. He still has to rely on qualifications.

Two days to comprehend the gravity of the righteousness, enough to prove his qualifications.

At the moment, he is facing the stone in front, giving up the gravity.

"puff!"

The stone was directly immersed in the mud, and the head was not exposed.

"Haha, although the realm has not improved, but my strength has improved a lot." Ye Xuan heart laughed.

At this time.

"Brother, have you realized the gravity of the righteousness?"

Suddenly a familiar voice floated over and fell into Ye Xuan's ear.

Ye Xuan turned around and found that the middle-aged man who was before, immediately smiled:
"Yes."

"Brothers are qualified, and I really admire them. I have learned the gravity of the two days. You can definitely rank first in the history of Xuanzhong Island!" The middle-aged man sat on the floor with his knees and exclaimed.

"Predecessors have won the prize!" Ye Xuan smiled slightly.

He realized that the gravity of the righteousness directly felt that the pressure around him was reduced a lot. At this time, he was already free to act.

When entering Xuanzhong Island, Ye Xuan likened himself to an ordinary person with a hundred kilograms of rice on his shoulders. Now, this bag of rice seems to have only ten pounds left.

In the middle age, I still want to speak, and I am ready to ask Ye Xuan.

"Booming!"

Ye Xuan's stone that had shook into the mud before, suddenly trembled and smashed out.

"what happened?"

Ye Xuan hurriedly turned his head and stared blankly into the distance.

The vibration seems to have come from Xuanzhongshan.

I saw that the Xuanzhong Mountain in front of him began to smash up the earthquake. Then, a huge stone scorpion walked down from the Xuanzhong Mountain.

"What it is?"

A lot of people ran out of the forest and looked at it with shock.

At this time, Ye Xuan suddenly reacted, pressed his two days of gravity, and suddenly disappeared.

"What happened, how was the pressure gone?"

"I heard this for the first time, what happened?"

"What are those cockroaches, is there a strong retreat on the mountain?"

A group of people are amazed.

Xuanzhong Island has been around for more than a few years. Everyone thought that there was such a change in Xuanzhong Island. Only then did they have such a scene. However, they have never heard of anyone on Xuanzhong Mountain.

At this time, the entrance to Xuanzhong Island suddenly killed a group of masters, they all flew in the air, and the leader was a red-haired old man.

When the group of people underneath the banner of this pirate group, their faces were pale and pale.

"The mad pirate group is actually a mad pirate group!"

"Grazed, that person is mad!"

"God, the mad pirate group actually killed."

"Go!"

The people in the forest suddenly opened and fled everywhere.

The mad pirate group, but the hegemon of this piece of water, did not expect that he actually came to Xuanzhong Island personally today.

Why is that?

Although I don't know why madness personally drove Xuanzhong Island, it's not a good thing to bring so many people.

Let's go first, so that we won't wait for the war to be attacked.

Ye Xuan did not dare to neglect, hurried away from this mad pirate group.

Nima, the hegemon of this sea area, actually came to Xuanzhong Mountain personally, and brought so many people to come, it must be fighting the strong man on Xuanzhong Mountain.

Ye Xuan hurried to 10,000 meters away.

Although there are 40,000 meters in the field of the four kings, they are still not in the field of madness.

Desperate a thought, they all have to die.

However, what is the identity of madness and what is their identity?

In front of the madness, they are just a group of ants, a group of unremarkable ants. There won't be many people, nothing will go to step on the ants.

Just as this group of four or five kings looked at it, the madness finally opened.

"Don't you come out to meet?" The red old man shouted.

The next moment, Xuanzhongshan was flying out of a white youth, seemingly only about twenty-five years old.

"Well? Who are you?"

Furious and frowning, he did not hear that there are other people in Xuanzhongshan.

"In the next He Yan, Xuanzhongshan people are my master!" the young man introduced.

However, this sentence is to make all the people present at the brow wrinkle.

Master!

This title is a bit rare.

Under normal circumstances, it is called the master, the name of the master, will be used in very few places.

"If this is the case, then let the Xuanzhongshan people come out!" The madness is cold and cold, and no face is given.

He Yan, a young man in white, said: "Sorry, Master is not seeing you now. If you have something, tell me, I will tell the Master."

The mad pirate group is the hegemon of this sea area, and his deeds are also famous throughout the riots.

Many people know that madness is an acute child and has a bad temper.

This He Yan did not put the madness in his eyes. How can this madness endure?

In the meantime, the madness is to open up its own field. Suddenly, the surrounding air is shaken up.

More than 90,000 meters in the field!

Nine kings!

"Hello, are you going to do it?" He Yan eyes a glimpse.

"Call the Xuanzhongshan people, otherwise, they will die!" madly said to He Yan with a high-profile gesture.

"Ha ha!"

Hearing this, He Yan did not care at all, but smiled indifferently.

The next moment, there is also a field of more than 90,000 meters, wrapping everyone in.

Nine kings!

This He Yan is actually a nine-level king!

"what?"

The madness was shocked. He did not expect that the young man who seemed to be about twenty-five years old at this age was actually a nine-level king.

Moreover, the realm seems to be higher than him.

His field has reached more than 97,000 meters, and is close to 99,999.

Chapter 669: Virtual god

However, the field of He Yan is much wider than him, and I am afraid that it has reached 99,999.

The illusory king of the gods!

"Hey."

The madness subconsciously swallowed a spit, he would not think that this He Yan's realm is higher than him.

evildoer!

It's a enchanting!

"This Xuanzhongshan people, what is the end, the apprentice is actually the king of the virtual gods!"

This is the common thought of madness and other people's hearts.

Apprentices are the peak kings of the virtual gods, then the master, isn't it the virtual god?

At this time, the madman realized that he was in trouble.

The group of masters behind him, his face is not very good.

"Hello, you look for my teacher, what's the matter?" He Yan said with a smile.

The madness adjusted the mood and said: "There was a seven-level king who entered your Xuanzhong Mountain but did not come out. Then, there was another eight-level king who entered, but still did not come out. Unfortunately, that level eight The king is my mad brother, is he already dead in your hands?"

"No, I didn't kill them, staying behind Xuanzhong Mountain." He Yan shook his head.

"not dead?"

The mad eyes are bright, saying: "You catch them, what to do?"

"Please look over there."

He Yan suddenly turned his head. In that direction, there is a stone monument. On the stone tablet, there are four words.

Do not climb!

Most importantly, no one has ever discovered this stone monument.

"I have already reminded them, but they are still coming up, so I naturally want to take them down." He Yan continued.

"Let them!" said madly and coldly.

This time, he came for the eight-level king. The eight-level king is the father of the seven-level king, so his goal is only two people.

He Yan smiled and said: "I am a mysterious mountain, but I don't want to come, I want to go and leave. I am loyal to you, I want you to let them go, but it is not so easy."

"What do you want?" asked madly and subconsciously.

"I am Xuanzhong Island, welcome everyone to enlighten the mystery, but it does not include this Xuanzhong Mountain. I am loyal to you, as long as I promised me a small request, I will let them leave." He Yan said with a smile.

"any request?"

He Yandao: "My teacher likes to be quiet, I hope that you can command it, and the ten islands around Xuanzhong Island must not attack the island, nor allow the pirates to fight in the sea. In short, the big move Will not work."

what?

The madness was awkward, and everyone else was jealous.

On this request?

Moreover, whether this preference is quiet or not is too much. There is a battle against the island next door, and the voice cannot be passed.

It's hard to be done. Does this Xuanzhongshan have a windy ear?

"it is good!"

The madness immediately agreed.

"Thank you for thanking you."

He Yan said that he also took out two brown-yellow fruits from the Qiankun Ring and threw them away. He said: "The two mysterious fruits are treated as a thank you."

The madness took the two fruits in a dazed manner.

Xuan Zhongguo!

It turned out to be a mysterious fruit!

As long as you eat a mysterious fruit, you can directly understand the gravity of the righteousness, even the gravity space.

Suddenly, the king of Ye Xuan was watching with greedy eyes.

What is the purpose of their coming to Xuanzhong Island, is it not to understand the gravity of the righteousness?

Many of them have been waiting for a few months, and even one year.

This mysterious fruit is a shortcut!

However, these two mysterious fruits are in the hands of madness.

Who dares to grab?

Not to mention madness, there are several eight-level kings behind the madness. Behind the eight-level king, there are more than ten seven-level kings.

It's really hard to grab something from the madness!

Just when everyone was surprised, Xuanzhongshan suddenly flew two people out. After seeing it, he couldn't help but exclaim.

One of them is his brother, and the other seven-level king is the son of his brother.

"People, already released, hope that you can fulfill your promise. Otherwise, I just need to clean it up!" He Yan said to the madman.

He is a nine-level king, and the realm is even higher than the madness. Packing up a few pirates does not need to be done at all.

"Okay, I will go to order immediately."

The mad mad nod, even if the experts who immediately took the mad pirate group left.

Before that, the brother of his eight-level king was to find his son to enter Xuanzhongshan, but he was not able to come out.

So he guessed that there was a nine-level king here, so he came over personally.

But he couldn't think of it, there was a virtual **** in his territory. If the Xuanzhongshan people take the shot, he may be dead.

Fortunately, the other party seems to have no competition.

The mad pirate group withdrew from Xuanzhong Island and left quickly.

On the other side, Ye Xuan swallowed his mouth. He always thought that this Xuanzhong Island was naturally formed by the heavens and the earth. I did not expect that someone was in control.

Not only does he think so, but everyone else is the same.

At this time, around Ye Xuan, there are hundreds of kings, all of whom are four-level and five-level kings.

From a distance, there are six kings.

These people all fell on the face of He Yan.

He Yan, the nine-level king, took out two mysterious fruits. This mysterious fruit may have been planted by him or Xuanzhongshan.

After a few seconds of this group of kings, someone ran away.

"Please give me a mysterious fruit!"

This person, really does not want to die, even asked the nine kings to ask for something.

Ye Xuan and other people did not move, for fear that this person angered He Yan, and then these people followed him and died with him.

"Xuan Guoguo?"

He Yan smiled and said: "You have hands and feet, and you have to fight for yourself. This time it is due to madness, so gravity is withdrawn and will be restored later."

"Huh!"

Hearing this, Ye Xuan and others are relieved.

However, the one who dares to ask for something has become a public enemy of the people. I am afraid that he will not live long.

"correct."

At this time, He Yan turned his head and looked at Ye Xuan as a group of people. He said: "My teacher, I recently wanted to accept a younger brother. One of you has a good qualification."

When the words came out, everyone present was crazy.

He Yan's master is Xuanzhong Mountain, but a virtual god, if anyone becomes his apprentice, I am afraid that even the madness will be taboo.

This is the squid leaping dragon gate!

They watched quietly, and He Yan's hand slowly lifted up and then pointed in one direction.

"Ok?"

Ye Xuan brows a pick.

The next moment, all the people present on the scene frowned, and gravity came back. They suddenly felt tremendous pressure.

Chapter 670: Xuanzhongshan people

"You, who can come to me, who is qualified to enter the mountain with me, the quota, only one." He Yan said with a smile.

qualifications!

Although it is only qualified to enter the mountain, if it succeeds, it will really be a skyrocketing.

At the moment, someone raised his foot and walked toward He Yan.

He Yan and this party, the recent distance of 10,000 meters, taking pressure to go, is not an easy thing.

These hundreds of kings, one step at a time, walked toward He Yan.

Under this pressure, their footsteps are very heavy. Some people have not taken a hundred steps, and they are no longer able to.

"No, this pressure is getting bigger and bigger. This is the same pressure as before. If you want to go over, you must have at least six kings!"

"The six-level king can slowly walk to the foot of the mountain. I am only a four-level king. Still forget it. If you get a lot of being crushed into meat sauce, you will die."

"I am a five-level king, I can fight once!"

"It is said that comprehending the gravity of the righteousness, it is not affected by this gravity, and can walk safely to the foot of the mountain."

Everyone is moving, and at this time, Ye Xuan is standing still thinking.

"Xuanzhongshan people, virtual gods emperor?"

Ye Xuan eyes a glimpse.

When he came to the riots of the Xinghai, he only heard that the three overlords of the rioting sea of stars may be the virtual gods.

I have seen one now, and I can confirm that madness is not a virtual god.

Although the female emperor and the emperor did not confirm, it is not important, because this Xuanzhongshan cannot be a female emperor and a war emperor.

"I have the gravity of my own righteousness. If I walked over, it would not be a problem. If I became an apprentice of this Xuanzhongshan people, then it would be of great benefit to me!"

Ye Xuan looked up and looked at He Yan, 10,000 meters away.

Although the two people are separated by 10,000 meters, Ye Xuan always feels wrong. He feels that He Yan is watching him.

"Is it wrong, I have learned the things of the righteousness, He Yan already knows? So, he only put this test, is it just doing it?"

Ye Xuan's mind suddenly flashed an idea.

The one finger of He Yan's may not represent them all, but refers to him.

"I have learned the gravity of the righteousness in two days, and the Xuanzhong Mountain people are very likely to be the virtual gods, and perhaps I have seen the stone embedded in the ground."

Ye Xuan thought in his heart, and his footsteps could not help but lift up and walk toward He Yan.

He Yan, who is 10,000 meters away, is indeed looking at Ye Xuan. His mouth is slightly tilted. He said:
"Two days to understand the gravity of the righteousness, I don't know how many days can comprehend the gravity space?"

Those five-level kings in front of them have already gone more than a thousand meters.

At this time, Ye Xuan has already surpassed the general king, following the footsteps of the five-level king.

A hundred meters, a kilometer, this is no different for one of them, and there is no difference between a king and a meter. Ye Xuan has a land technique, and he can reach a kilometer in one step, which is extremely easy.

For him, Wanmi is just a matter of blinking.

However, on this Xuanzhong Island, 10,000 meters is a difficult task.

"Forget it, go on it!"

Ye Xuan, who was sandwiched between the four-level king and the fifth-level king, suddenly moved quickly and overtook the group of five-level kings. Then, he crossed the six-level kings.

"what?"

Everyone was shocked.

Running on Xuanzhong Island?

Even the six-level king can only trotting, and can only run on the periphery. And Ye Xuan step by step, when everyone responded, Ye Xuan had already ran to He Yan.

Gravity is righteous!

These four words flashed in the minds of everyone.

Only by comprehending the gravity of the righteousness, can we ignore the gravity of the Xuanzhong Mountain and fly all the way.

"Okay, someone has arrived."

He Yanqi smiled at Ye Xuan and said: "You don't even hate it. He realized the gravity of the righteousness within two days. The qualification is ten times stronger than you. Only the true genius is qualified to worship under my teacher. ""

When the words came out, everyone present was shocked.

Within two days, I realized the gravity of the righteousness!

This is another enchanting!

"Grass, Laozi has been on this Xuanzhong Island for a few months, and he has just touched the threshold of gravity."

A six-level king snarled in his heart.

Not only that, but everyone else is the same.

They are thinking, the gap between people, why is it so bad?

However, this world is unfair.

Some people have high qualifications, some have low qualifications, some people are born in a big force, everything has, and some people need to work hard to mix and eat.

"What is your name?" He Yan asked.

"Ye Xuan!"

Ye Xuan replied.

"Well, you come in with me. Since you have already realized the gravity of the righteousness, you can fly on Xuanzhong Island." He Yan said to Ye Xuan, he turned and flew to Xuanzhong Mountain.

"Booming!"

The ten boulder scorpions also began to move, and then went to Xuanzhongshan.

Ye Xuan is behind He Yan and looks at these huge stones. He felt that if he came to a boulder, he could step on him as a meat sauce.

"These cockroaches, each can easily tear the king of the peak into pieces." He Yan explained.

"They are all made by Xuanzhongshan people?" Ye Xuan asked slyly.

He Yan heard this, but he shook his head: "No, it is a gadget I made."

what?

Ye Xuan was shocked.

Each of these can easily tear the king of the virtual gods into pieces, not even the Xuanzhongshan people, but this He Yan.

He has some doubts about the strength of He Yan.

A vain king of the illusion of the gods, but able to make such a slap, is definitely not an ordinary person.

He is thinking, will He Yan conceal his strength, in fact, he has already broken through to the virtual gods?

Soon, he followed He Yanfei into this mysterious mountain.

At the same time, he also saw a lot of huge stone scorpions, he counted a few, there are hundreds.

"My God, if these giant stones are killed, the whole riots and the sea of stars will be in a mess."

Ye Xuan was frightened.

If these megaliths are so powerful as He Yan said, the madness, the female emperor, and the emperor, the three ninth-level pirates will join together and will be eliminated in minutes.

He Yan took Ye Xuan straight and went deep. Then, Ye Xuan saw a cliff.

Under this cliff, there is this bamboo forest with a log cabin in the bamboo forest.

"Master, I brought people."

He Yan shouted at the wooden house.

The next moment, the door of the wooden house was opened, and then a spirited old man came out from inside.

Xuanzhongshan people!

"It's finally here, sit down." The old man looked at Ye Xuan with a smile and pointed to a stone table outside the wooden house.

Ye Xuan flew in the past, and after landing, he was holding a fist:

"I have seen my predecessors."
