

Super D. S 671

Chapter 671: Collapse

"You should also know that this Xuanzhong Island was caused by me. The whole island is in my field." Xuanzhongshan said.

This point, Ye Xuan has long been guessed, and he nodded silently.

Xuanzhongshan continued: "Then you know, why should I do this?"

why?

Ye Xuan somehow shook his head inexplicably.

"It's very simple, I am looking for a genius of soil properties." Xuanzhongshan said.

After seeing the appearance of Ye Xuan, he continued: "The reason, I will not tell you for the time being, but if you agree, I can accept you as a registered disciple. However, the registered disciple can only get my advice, not Get something substantial."

"Just pointing?"

Ye Xuan brow slightly picks.

However, the guidance is enough. After all, this Xuanzhong Mountainer is a virtual god.

"Ye Xuan is willing!" Ye Xuan nodded immediately.

"Good, then you are my thirteenth named disciple."

Xuanzhongshan said: "Before you, there are already twelve people. You are the thirteenth. They have good qualifications. Under my guidance, they all realized the gravity of the righteousness, and the time is no more than seven days."

"Not more than seven days!"

Ye Xuan's heart trembled. However, he did not go through the Xuanzhongshan people's instructions. It took only two days to comprehend the gravity of the righteousness, and the qualification was definitely the first among the thirteen people.

"Okay, then I will give you the first lesson today."

Xuanzhongshan people paused and asked: "Ye Xuan, you know, what is the meaning of the soil properties?"

"The earth pulsates, the ground, the strength, the gravity." Ye Xuan thought without answering.

Now, he has already realized all these four meanings.

"Yes, it is these four, then you will talk about their branches." Xuanzhongshan said.

The branch of the righteousness is the double meaning.

"The dual meaning of the earth's pulsation is the guardian of the pulse; the power of the righteousness is the weight of the weightlessness, the triple mystery is the light weight; the double meaning of the earth is the shrinking of the earth; the double meaning of gravity is the gravity space. Ye Xuan answered honestly.

"Yes, but you missed one."

Xuanzhongshan people smiled a little and said: "If you change the pulse of the earth to the peak, as long as you break through once again, you can realize a new meaning, called the collapse."

"Breaking?"

Ye Xuan brows a pick, he still heard this for the first time.

"This kind of ambiguity, very few people know, even if it is the madness, it is estimated that it has not been heard." Xuanzhongshan people's eyes fell on Ye Xuan, said: "I accept you as a registered disciple, you do not need you for the time being. What to do, if you realize that this collapses in the future, you will return to Xuanzhongshan. I need you to do me a favor."

"What is it busy?" Ye Xuan brows tightly wrinkled.

Why do you need to understand the collapse and be able to help?

"My qualifications are not good, the earth's pulsation is not high, I am afraid that I can't understand the collapse of my true meaning in this life, so I only received He Yan, and you have thirteen. You can think that I am in the net, but the righteousness This thing can not be seen in the realm. Some people are already the nine-level king, but they can never comprehend the gravity of the righteousness, even the power of the righteousness is possible."

Xuanzhongshan people paused and continued: "After you, I will continue to collect the genius of those soil properties until someone understands the collapse. In short, I am responsible for guiding you, waiting for you to understand the collapse. I'm here to help me a little, I will give you a satisfactory revenge."

Now, Ye Xuan can understand.

However, even the things that Xuanzhongshan people can't do are probably very different.

"Now, you still have the opportunity to repent, you have already realized the gravity of the righteousness, you can leave Xuanzhongshan directly. But if you encounter the genius of the soil

property, please help introduce the Xuanzhong Mountain." Xuanzhongshan people on the leaf Xuan said.

Ye Xuan sat there and thought about it.

"I want to know how deep your understanding of the earth's attributes is, how can you give me guidance!" Ye Xuan asked.

Although it is said that comprehending the righteousness and cultivation of this kind of thing depends mainly on oneself, the Xuanzhongshan people are the virtual gods, and there should be some sure things.

"I can give you a copy of my cultivation notes, and then pass on a Chinese imaginary martial arts, which will greatly help your earth's pulse. At the same time, I am sure that you will understand gravity within a month. Space is righteous!" Xuanzhongshan replied.

Ye Xuan's eyes widened and he looked at him with disbelief.

A cult of the virtual gods!

The earth pulsating Chinese imaginary martial arts!

Gravity space is righteous!

These three are very tempting for him.

Anything can cause a big fight.

At this time, He Yan standing next to him suddenly said: "Ye Xuan, look here."

Ye Xuan turned his head and saw a stone at the foot of He Yan. He suddenly rose up, and then began to jump left and right, as if he had life.

"This is the gravity space. In your field, if the enemy wants to retreat, you can block him with a forward repulsion. If he wants to land, you can use the upward repulsion. If he wants to fly, you can use it. The downward repulsion."

He Yan said this, it was also a pause, saying: "When you concentrate all the repulsive forces on each other..."

"Hey!"

Suddenly, the stone beside him was bursting open.

Ye Xuan's eyes lit up and flashed a touch of excitement.

This gravity space is really strong, it is too strong!

"Okay, I agree!" Ye Xuan nodded.

Now, he is truly a famous disciple of the Xuanzhong Mountain.

Xuanzhongshan was satisfied with the nod, and threw two books to Ye Xuan. "My cultivation notes and the Chinese imaginary martial arts are here. You can go see it for a few days, wait for you to learn the gravity space, or what?" If you have a question, you can go to He Yan. He can answer all your questions."

"Yes!"

Ye Xuan should be.

Although Xuanzhongshan people threw him to He Yan, he also felt nothing.

He Yan, the nine-level king, taught him enough.

"Ye Shidi is coming with me."

He Yan flew up and Ye Xuan followed.

Then, He Yan took him to the edge of the cliff and said: "You can open a hole in the house. If you want to leave Xuanzhong Island, just say it to me, I live there."

"Okay, thank you brother." Ye Xuan thanked.

He has a field of earth that can control the earth's stones and does not need to be excavated.

His mind was moved. The next moment, the stone wall broke open a hole, and then he swept in.

People like him, there is not much demand for the living environment, as long as there is a foothold.

Chapter 672: Soaring strength

Ye Xuan's Dongfu is very simple. In addition to the entrance, the inside directly opened up a large open space.

"Hey, the host learned thirty-six overlapping images, and it's currently a fire!"

This is the virgin martial arts that the Xuanzhongshan people gave him.

These thirty-six overlapping shadows are considered to be a sword skill, but other weapons can also be used. They can be displayed with swords or with swords, even if they are sticks.

At the moment, Ye Xuan took out a smattering of the Chinese character and began to practice.

Only one of the fires, he can only find three swords in an instant, but as the fire rises, he can instantly throw out six swords, nine swords, and twelve swords.

A few days down, thirty-six overlapping shadows, he has been able to pull out thirty-three times in an instant, the fire reached 90%.

Still 10%, it is 10% of the heat, when it is thirty-six.

"This martial arts is really good, although it is necessary to quickly pick up dozens of swords, but if the speed is fast, it can cause 36 shocks."

Ye Xuan's self-confidence suddenly burst into shed.

If you let him use these thirty-six overlapping shadows, and then merge the earth with 16 pulsations, the power is probably several times stronger than the catastrophe.

This is not because the thirty-six overlapping shadows are the Chinese imaginary martial arts, but because this martial arts is almost tailor-made for the earth's pulse.

In conjunction with the Xuanzhongshan people's practice notes, Ye Xuan's perception of the earth's pulsation is extremely deep, and it is possible to change to the earth's pulsation 32 at any time.

"Single cultivation alone, I am afraid it is difficult to reach 10% of the heat, or go out and find someone to fight!"

Ye Xuan thought, it is to go out of his own cave.

Just, Na He also left Dongfu.

"Teacher, how many days have you been practicing?" He Yan asked.

"Well, thirty-six overlapping shadows have been trained to 90% of the fire." Ye Xuan nodded.

He Yan brows a pick, a strange saying: "The younger brother is really talented, and in just a few days, he has just trained this martial arts to 90% of the fire, come, and practice with the brothers."

He said that he had sacrificed a long sword.

Ye Xuan is also no opponent, although He Yan is a nine-level king, he is only a four-level king, but he knows that He Yan will definitely release water.

"Brother, be careful."

Ye Xuan also sacrificed a Chinese imaginary **** soldier to shoot directly.

Thirty-three overlapping shadows!

The earth pulsates 16 heavy!

Ye Xuan took out thirty-three stacks in an instant, but because the shots were too fast, the earth's pulsation of 16 could not contain all the attacks.

"Boom!" "Boom!" "Boom!"

The attack on the road was on the long sword of He Yan, but it was picked up by He Yanwen.

"I don't want to be a nine-level king!" Ye Xuan was shocked.

At the same time, He Yan is also a bit strange, admire: "The younger brother is really powerful, thirty-three overlapping shadows actually contain three times the pulse of the earth, come again!"

"Boom!" "Boom!" "Boom!"

The bang loud noise continued to spread, Ye Xuan continued to attack He Yan, the latter constantly resisted, and then continued to explain to Ye Xuan.

Ye Xuan listened to the advice and made a little progress.

From the thirty-three stacks, the three pulsations of the earth, to the four, five, and just over an hour, his combat power has doubled.

There are strong people who teach, and sure enough, there is no need to go too far.

"Okay, take a break!"

After picking up the thirty-three overlapping images of Ye Xuan, which contained seven times of earth pulsation, He Yan could not help but say.

Ye Xuan stopped and was very excited.

These thirty-six overlapping images are really amazing. If he reaches the peak and thirty-six overlapping pictures, this time can contain the pulse of the earth. His sword, even the six-level king, can't take it.

"Senior brother, only our battle, the master respects him..." Ye Xuan suddenly remembered a problem.

"Don't worry, the master has a soundproof array, and the Xuanzhong Mountain also has a soundproof array. Our voice will not be transmitted." He Yandao: "Teacher, are you not interested in gravity space?"

"Gravity space?"

At this time, Ye Xuan was suddenly remembered that this gravity space is synonymous, and the degree of metamorphosis is no worse than the thirty-six overlapping shadow.

"It seems that the younger brother is forgotten, come with me." He Yan smiled lightly, leading the way ahead.

Ye Xuan quickly followed up.

Xuanzhongshan said that he is sure to let Ye Xuan understand the gravity space in a month.

One month, comprehend the gravity space, if you let others hear it, you will definitely laugh at the big teeth.

However, since Xuanzhongshan people have said this, then naturally there will be his way.

Soon, Ye Xuan, who was behind He Yan, entered a cave.

This cave is nothing special, but the interior is extremely spacious, about a kilometer or so of the cube space.

"Brother, this is..."

Ye Xuan looked around in a circle, but did not find anything.

"You can prepare first. If you are ready, we will start training. Once you start, you can't stop until you understand the gravity space." He Yan said to Ye Xuan.

Ye Xuan took a moment and then nodded resolutely: "Senior, I am ready."

Wen Yan, He Yan smiled a little, said: "If this is the case, then you will stand in the middle."

Ye Xuan did not ask anything and went straight to the middle of the cave.

"Ready?"

"Okay!" Ye Xuan should sing.

"Ha ha!"

He Yan smiled and stood there quietly.

The next moment, Ye Xuan suddenly flew up.

"what?"

Ye Xuan was shocked and suddenly responded. This is why He Yan is using gravity space.

But he just reacted, his figure is quickly retreating, then going down, left, backward, right...

This is the training method of He Yan.

"Do not use the air to fly, or re-time, oh, forget it, you can't use it." He Yan said.

In half of the words, he has already activated the ban on the Xuanzhong Mountain.

"The trough!"

Ye Xuan screamed in his heart. At this time, he could not use the suffocating flight. The whole person was turned over by He Yan and then flew in this huge cave.

"Understanding the gravity space, otherwise, you have to wait like this, even if it is fainting, it is no exception!" He Yan's voice fell in Ye Xuan's ear.

At this point, Ye Xuan did not know which direction he was facing.

However, this method does feel very effective. In the gravity space, it is the easiest to understand the gravity space.

Gravity space is an extension of gravity, so if you want to understand the gravity space, you have to use gravity.

However, gravity can only be downward, but it cannot form a repulsive force.

"Yes, it is the use of gravity. You have just realized the gravity of the righteousness. You are not very skilled. If you are skilled, you will find that there is still a repulsive force..."

Chapter 673: Gravity space

"Yes, it is the use of gravity. You have just realized the gravity of the righteousness. You are not very skilled. If you are skilled, you will find that there is still a repulsive force..."

He Yan is telling him while he is holding Ye Xuan.

What he said, if Ye Xuan himself went to enlighten, I am afraid it will take a long time.

The master leads the door, and the practice depends on the individual!

Ye Xuan can only rely on himself now!

.....

"No, this time can't be used..."

"Yes, first stabilize your body..."

"Good, good..."

"Good, you have been skilled in using gravity..."

.....

In the past three days, Ye Xuan has been playing with He Yan, and he has visited every corner of the cave.

Moreover, He Yan is well controlled, Ye Xuan has been in the air for three days, during which Ye Xuan has fainted several times. Fortunately, he will fly after the embarrassing situation. If a force is played by He Yan, I am afraid that the heart will be spit out.

Under the teaching of He Yan, Ye Xuan spent only three days, and he skillfully applied the gravity of the righteousness and walked the road of others for several years.

Not only that, he also discovered a secret.

"Great, so quickly let you discover the secret of repulsion!" He Yan could not help but admire.

Ye Xuan was in a mess, while thinking, he found that gravity is regular.

Gravity is always down from the top of his head.

If he stands against the enemy and he uses gravity, then the enemy will be crushed.

If he uses the gravity of his own head and feet, then it becomes an upward repulsion, and the enemy will be pushed to the sky by him.

This is the repulsion!

As long as you understand this, the road will go much better.

"Now I can use the repulsion in all directions, as long as they are combined, it is gravity space!"

Ye Xuan's light flashes.

However, this last step is not so easy.

Fortunately, there is a lot of detours in He Xuan.

On the seventh day of Ye Xuan's discovery of repulsion, a sound was heard in his mind.

"Hey, the host has realized the gravity space!"

Finally, comprehend!

"I will!"

Ye Xuan, who understood the gravity space, hurriedly used it and then poured his body shape.

"Ok?"

He Yan suddenly brows and picks, exclaimed: "You understand?"

This month, in addition to the beginning of Ye Xuan is standing in the air, only this time Ye Xuan is like a defensive flight, standing in the air.

"Thank you brother, the younger brother has already realized!"

Ye Xuan Li is in the air, holding a fist against He Yan. The next moment, a stone at the foot of He Yan is flying, then...

"boom!"

The stone burst into a powder.

"Gravity pressure, I really realized it!" He Yan can now be sure.

This trick is to use the target as a circle, generate countless repulsive forces, oppress the enemy from all directions, and explode the enemy's body.

Ye Xuan's self-confidence was once again bursting.

In the case of a one-on-one, he uses this gravity to oppress, and the enemy will be restricted if it does not explode. Even if you break away from the realm, your mobility will drop dramatically.

At that time, the enemy is a living target!

"My current strength, should be able to easily kill the six kings?" Ye Xuan's eyes are shining.

At this time, He Yan praised: "The qualifications of the younger brother are really good. When I first realized the gravity space, I spent 11 days. I am a brother and you are one day faster than me."

"eleven days?"

Ye Xuan's heart trembled, but he thought that this He Yan was already a nine-level king, and he calmed down a lot.

Then what Jiang Tian is in front of He Yan is not worth mentioning.

Of course, He Yan is because there is a good master. If Jiang Tian is allowed to enter the Sword God Palace, his speed will pick up.

However, what Ye Xuan didn't know was that there was still a secret in He Yan's heart.

He Yan realized that the gravity space has indeed spent eleven days, but he is comprehending himself.

And Ye Xuan, he taught him on the side, and took countless shortcuts. If Ye Xuan realized the gravity space on his own, he would say less than half a year.

Moreover, He Yan is not the king of his imagination.

Now, Ye Xuan's strength is at least two or three times stronger than when he entered Xuanzhong Mountain. Even if he is allowed to go to the seventh-level king, he is not afraid.

"Teacher, now that you have realized the gravity space, do you want to stay in Xuanzhongshan, or go outside?" He Yan asked.

Ye Xuan paused, suddenly remembered that he had been away from Shuntian Island for another month. It is time to go back and take a look, and raise the realm by the way.

"I want to go out and try." Ye Xuan replied.

He Yan nodded: "Well, then go, break through in the real battle. If there is any problem in the future, you can go back to Xuanzhong Island at any time."

"Yes, brother!"

Ye Xuan nodded.

Immediately, he just left Xuanzhong Island.

The kings outside saw that Ye Xuan could fly in Xuanzhong Island, and all of them were envious.

At this time, the mad pirate group has also been ordered to empty more than a dozen islands around Xuanzhong Island, no pirates can be stationed.

At the same time, the surrounding seas did not dare to make trouble, the sea was calm, and many merchant ships came out.

"First look back at Shuntian Island and then help to expand the route."

Ye Xuan thought in his heart, that is, flying toward Shuntian Island.

Now he has realized the gravity space, which can be accelerated again with the gravity space while the wind is accelerating.

His speed is probably faster than the six-level king.

Soon, he just saw Sun Island.

However, when he saw Shuntian Island, he discovered that there was a pirate group attacking Shuntian Island.

"Is it attacked?"

Ye Xuan's flash of light flashed and swept away.

At this time, in the island of Suncheon.

"Damn, the elder is not here, this is trouble!"

He Liang, the head of the Shuntian Pirates Group, is gloomy. In the Shuntian Island, there are two four-level kings. The blue moon three can also be regarded as a four-level king. However, this time to attack Shuntian Island, there are two five-level kings, and four four-level king.

This pirate group is of five grades.

"He grandpa, what should I do?" Blue Moon looked at He Liang with concern.

If Ye Xuan is present at this time, it will definitely be a battle, but these people can't stop an attack. If the big island is broken, they will be killed in an instant.

Right now, the big island defense is about to be broken, so they have to make a decision.

"Ha ha ha, Shuntian pirate group, it is a coincidence. Lao Tzu's name is the celestial pirate group, you are called Shuntian pirates, you said I will not hit you, who?"

There was a loud laughter outside of Shuntian Island.

Shuntian pirates, against the pirates, this name just hit.

Chapter 674: Against the pirates

Against the pirates, although there are two five-level kings, they are only a four-level pirates, so they can attack Suncheon.

The third-level pirates can control one island, four at four, and three at five. Although there is no upgrade and less control of an island, it can be of great convenience.

"Damn, let's go, we will withdraw from Shuntian Island, and we will not be able to make a comeback!"
He Liang made a decision.

Stay in the green hills, no firewood.

As long as people are not dead, they can still play another island down as a stronghold.

At the moment, He Liang is leaving with the Shuntian Pirates and preparing to go to Iron Island.

However, it is at this time.

"Booming!"

Suddenly outside the island, there was a strange voice coming out. This is not a big break in the island, but someone shot the thief.

"what?"

Lan Yue and others turned their heads and found that the masters of the anti-Japanese pirates stopped attacking the island, and an individual began to fall quickly.

"Yesy is Xuan, Ye Xuan is back!"

Song ruling exclaimed.

Everyone stared at it, and sure enough, there was a familiar voice that shuttled through the crowd of the pirates.

Ye Xuan!

Outside of Shuntian Island.

"You are so courageous, give me to die!"

Ye Xuan armed with eight wild swords, began a crazy attack, at this time his field, has been wrapped around the entire pirate group, using gravity space, the meaning of those people are forced to gather together.

Thirty-three overlapping shadows!

The swordsmanship quickly swept out, and the kings and ordinary crew members who were lined up by gravity space were directly cut into two halves.

The celestial pirates group, two five-level kings, four four-level kings, dozens of kings from one to three levels.

However, it was not two seconds after Ye Xuan approached, and their death and injury were more than half.

"It's so strong, how could this be a four-level king?" The head of the celestial pirate group was shocked. Together with another five-level king, Daxie's rushed toward Ye Xuan.

"Not self-reliant, give me death!"

Ye Xuan's flash of light flashed a thirty-three overlapping shadow directly toward the head of the treacherous pirate group. In the thirty-three overlapping shadows, there are ten overlapping images containing the earth's pulsation, even if the six-level king can't take it. .

At the same time, Ye Xuan narrowed the entire gravity space and then gathered on another five-level king.

The repulsive force from countless angles was all exerted on the five-level king.

"What, uh..."

The five-level king was in shape, and the next moment, his body exploded.

"Hey!"

There was a **** rain in the sky.

At the same time, the head of the treacherous pirate group was also bombarded by the thirty-three stacks.

Two big five-level kings, instantly falling!

"You four, don't even want to run!"

Ye Xuan put two of the Qiang Kun ring away, quickly swept past, not two seconds, is to kill the remaining four four-level king.

The kings and the false gods of the celestial pirates were shocked.

Their boss was actually killed by a four-level king, and there was no force of rebellion.

Who is this person?

The kings of the first to third grades want to run, but they are in the field of Ye Xuan. The gravity space makes them unable to turn around and can only watch Ye Xuan with amazement.

"Do you guys choose to surrender or die?"

Ye Xuan's cold voice fell in everyone's ears.

They looked at each other and said in unison: "We choose to surrender!"

Just kidding, even the five-level kings were only killed in the face of Ye Xuan. The strongest among them was only the three-level king.

Revolt?

Is it too long?

"well!"

Ye Xuan is very satisfied.

This time, not only received six Qiankun Rings, but also conquered dozens of kings, this is really great.

If it was before, he killed at most two five-level kings, but other people will definitely run away.

With the gravity space, the combat power is soaring, and it is easy to kill the five-level king. It is also a shock to the audience.

At this time, the big island of the island was suddenly opened, and several figures were taken from it.

"Ye Xuan, you are coming back in time, otherwise we have to leave the secret road." Song Chongjing directly into the leaf Xuanzhong.

In the riots of the stars, every island has a secret passage. These secret passages lead to the sea and then come out from a hidden sea. Unless they occupy the pirates of Suncheon, the average person will not know the secret passage. Where and where the secret road leads.

"Are you all right?" Ye Xuan hurriedly asked.

"Nothing." Song cuts his head.

At this time, the elders of He also swept over. At the moment, Ye Xuan is shouting at the king of the group of thieves in front of him: "This is the head of my Shuntian Pirates. In the future, you will be against the pirates." Incorporate into my Shuntian Pirates Group, if there is a heartless person, kill innocent!"

The reason why he killed two major five-level kings and killed four fourth-level kings was also because He Liang was only a four-level king.

Now the elders are not there, so He Liang can't live in four people, so Ye Xuan is killing him.

"Yes!"

The group of kings and ordinary crew members of the treacherous pirates immediately agreed in unison.

This time, the crisis was counted as safe. Fortunately, Ye Xuan came back in time, otherwise this Shuntian Island would have been occupied.

At this time, the sea law enforcement officer of this island-attacking war was also swept over. He held several portraits in his hand and compared them.

"Is it you who took down the Iron Island on that day?" the sea law enforcer asked.

"Yes, it is us!"

Ye Xuan understands that this sea law enforcer is a violent pirate group, so he did not hide.

"On behalf of the mad pirate group, invite you to join!" The sea law enforcer immediately said.

He received a report before, and then reported the news of Ye Xuan, but since Ye Xuan occupied the Iron Island, he disappeared, so they also looked for a long time.

Today, I finally found it.

This is what Ye Xuan can't hide. After all, he has already appeared, and he has also helped the Shuntian Pirates to survive the crisis. If he does not agree, the madness will find the trouble of the Shuntian Pirates.

"Okay, I am joining." Ye Xuan nodded.

Hearing Ye Xuan's answer, the sea law enforcer also opened his mouth and smiled, but he just wanted to speak, and Ye Xuan added: "However, only when I join alone, their realm is too low."

"Yes!" The sea law enforcement nodded.

He is a six-level king, and Ye Xuan's strength is probably a battle with him.

As for the blue moon three, although the attributes are rare, they have not yet grown up and have insufficient combat effectiveness.

The key point is that Ye Xuan has joined, so the Blue Moon is not considered to be on the line with the mad pirate group?

Chapter 675: Refuse

Now, Ye Xuan is added to the mad pirate group, then there will be no one to provoke the Shuntian pirates.

In this way, it is conducive to opening up routes.

At the moment, He Liang is asking this sea law enforcer to sit in Shunten Island and sit down at the same time, and Ye Xuan is also distributing the spoils.

He is now focusing on cultivating the Song Dynasty three men. After all, if the War King Hall goes out to the end of the wood cloud, the strongest is the five-level king, that is, the deputy master Lan Yao and the great elders Yonghao.

If the Song Dynasty three men broke through to the fourth-level king, they might be able to compete with the Jiang family.

At this time, in a city on Suncheon Island, Ye Xuan and the sea law enforcer were discussing some things.

"Ye Xuan, this is a list of some benefits that the top executives give you, look at it."

The sea law enforcer handed Ye Xuan a list and said: "This is based on your strength at the time. You are now stronger and stronger, so there will be more and no less."

Ye Xuan glanced at it and found that the above regulations were very good. He could choose to become a sea law enforcer, or he could form a pirate group and kill other sites.

Of course, he can also act alone and become a murderer.

On this list, it is also stated that Ye Xuan can select three small islands. These three small islands will not be able to apply for island attack, and Suncheon Island meets the requirements.

At the same time, you will get a lot of talents, and each time you complete the task, you will not only have to pay the income, but also get a generous reward.

"How?" said the sea law enforcer.

"Not bad." Ye Xuan nodded: "I chose to be a slayer."

His strength is progressing too fast, and with a pirate group, it is really cumbersome, so he still feels better to act alone.

"Well, now you go with me to the headquarters, the madman is building a team of murderers, you just can catch up." The sea law enforcement nod.

"Get off at once?"

Ye Xuan gave a slight glimpse: "Then I will go and talk to other people."

"Yes, I am waiting for you outside."

.....

Now, Ye Xuan has joined the mad pirate group, so he needs to follow the order.

However, as one of the three overlords of the riots, the madness is sure to have more information than him.

This time it became a slayer and a good opportunity to upgrade.

At the moment, Ye Xuan is bidding farewell to the Song Dynasty and then leaving with the sea law enforcers.

The loot that he had obtained before was already allocated to the three, and the Song Dynasty and the Song ruling could also break through to the third-level king.

Moreover, after he went to the headquarters, there will be a group of Tiancaibao sent to Suncheon Island, and Shuntian Island is thus protected.

Although Ye Xuan is still only a four-level king, he has the acceleration of the wind and the gravity space. The superposition of the two is faster than the sea law enforcers.

In order to save time, he also used gravity space to help sea law enforcers.

In five days, they crossed most of the sea and then arrived at the headquarters.

After the six-level king handed Ye Xuan to the person at the headquarters, he left.

The reception of Ye Xuan is a seven-level king named Du Jun, who is considered a high-level figure of the mad pirate group.

"Oh? Not only the wind property, but also the soil properties, but also the understanding of the gravity space?"

This Du Jun was shocked when he learned the current strength of Ye Xuan.

The news that came up on the same day was the situation of Ye Xuan's attack on Iron Island, but the sea law enforcer at that time evaluated Ye Xuan's four-level king.

The realm is right, but I did not expect that Ye Xuan had a second attribute, but also realized the gravity space, which is something that has never been heard before.

"You have great potential, follow me, go see the madman!" Du Jun said to Ye Xuan.

Four kings, double attributes, gravity space.

If such a genius is cultivated, the combat power is very powerful.

"Want to see madness..."

Ye Xuan's eyes slammed and followed.

Now, he is not a person without background. He is a famous disciple of Xuanzhongshan. Although he is only a famous disciple, he has personally visited Xuanzhongshan and understands the power of Xuanzhongshan.

Therefore, madness will definitely give you some face.

The headquarters of the mad pirate group is also an island, but this is an island that will move.

Underneath the island, there is a deep-sea giant tortoise that is comparable to the eight-level king of the virtual gods. This deep-sea giant tortoise is a maddening pet.

Simply put, at this time Ye Xuan is on the back of this deep sea giant tortoise.

With Du Jun, Ye Xuan entered the interior of the mad pirate group. Here, the masters are like clouds. Even if they converge, Ye Xuan also feels dozens of powerful atmospheres, at least seven kings, among which There are eight kings.

At this time, Ye Xuan was thinking, if he was smashed by this mad pirate group, can at least be promoted to the eight-level king?

It is a pity that he is not strong enough now. He will not say that the madness of the King of the Peak is enough. These people alone are enough to kill him.

Soon, Du Jun took Ye Xuan and entered a gorgeous castle.

Here, Ye Xuan has felt a few strong breaths. Among these people, there may be nine kings.

There are three major overlords in the riots of the Xinghai, but it does not mean that there are only three nine-level kings in the riots. In fact, there are still some.

Some of these people are sedentary, and some are teamed up with the three overlords. In the mad pirate group, there are indeed two nine-level kings.

"Head, there is a person here, you may be interested in seeing one side."

Du Jun took Ye Xuan to a door and shouted in the inside.

The next moment, the gorgeous door is opened, there is a red middle-aged man sitting in jeopardy, next to him, there is a white youth.

This red-haired middle-aged man, Ye Xuan once saw it, on Xuanzhong Island, he is a madman, a nine-level king.

"who?"

The madness asked a little strangely.

Du Jun walked in with Ye Xuan and submitted a sheepskin roll.

"Double attributes, gravity space?"

The mad eyes are bright.

Among the people he left, one of them was a double attribute. It was also the dog that had gone through eight lifetimes to get a double fruit.

Unexpectedly, there is another one now.

"Gravity space, how did you comprehend?" Madonian suddenly turned and asked.

"I was comprehended in Xuanzhong Island." Ye Xuan answered.

I squinted at the eyes and asked: "Then I went to Xuanzhong Island that day, are you also?"

"In, on that day, the younger generation was accepted as a disciple by Xuanzhongshan!" Ye Xuan said directly.

He did not say that he was only a registered disciple of the Xuanzhong Mountain people. After all, he would like to pull the banner of the Xuanzhong Mountain people of the virtual gods.

"The disciple of Xuanzhongshan people?"

The madness of the body trembled slightly and said: "Since it is his disciple, why should I join my mad pirate group?"

Chapter 676: Single attack island

"Master Shi is not interested in this, just wants to be quiet, so after I realized the gravity space, I chose to go out and practice." Ye Xuan replied.

The madness hesitated.

If Ye Xuan has no background, he can focus on training and will become a member of him in the future.

Ke Ye Xuan turned out to be a disciple of the Emperor of the Virtual Deity. If Ye Xuan had something, if he was known by Xuanzhongshan, then he would be miserable.

"You can be a sea law enforcer, but you should be a murderer, no!"

The Xuanzhongshan people are a virtual god, and he can't afford the risk of Ye Xuan's accident.

Ye Xuan was helpless. He did not expect that Zun Zun would be so afraid of Xuanzhongshan.

"In this case, the younger generation will leave!"

Ye Xuan holds a fist.

Let him be a sea law enforcer and make a joke.

The sea law enforcer is to wait for the looters to come and then he can shoot.

If you choose to be a slayer, you can directly invade the other two sites to **** and attack the island, so the upgrade is much faster.

Ye Xuan turned and left, Du Jun looked at the madness and hurriedly followed.

As for the madness, there is no hindrance.

If the Xuanzhongshan people are only a virtual king of the gods, the madness is not afraid, but the other party is the virtual god.

A virtual god, even if you don't shoot, you can kill many peaks by the will alone.

After thinking for a moment, madness decided to give up, in case it really annoyed the Xuanzhong Mountain people, his foundation will be destroyed.

"Send someone, to shield the Shuntian Island, and send a few law enforcement officers to guard. Recently, the people of the Emperor are too embarrassed, don't have an accident."

Madness said to the white youth next to him.

The area of Shuntian Island is very barren, so there is generally no high-level looters in the past. It is enough to send one or two six-level kings to guard.

Crazy, do not want to be an enemy with Ye Xuan.

Soon, Ye Xuan left the mad pirate group. Before he joined because he was afraid of madness and looking for blue moon, they were in trouble. Now he is arrogant and he does not agree, and he will be relaxed.

Before leaving, the Shuntian Pirates Group is ready to move to Anhu Island. The island is very small and very barren. At most, there are three kings to find trouble, so he is not worried.

At this point, he is already alone to go to another site.

The three major overlords of the riots, the madness, the emperor, and the female emperor, the female emperor has been in neutral, and the remaining land is relatively calmer than the other two.

The madness and the Emperor of War, but it has been played for a long time, still has no distinction.

It is said that the madman also sent a murderer to the emperor's territory to confuse and plunder. Therefore, Ye Xuan chose to go to the site of the female emperor instead of going to the emperor's territory.

Calm, it is suitable for him.

.....

With the acceleration of the wind and the gravity of the space, Ye Xuan's flight speed is very fast, but he also flew for ten days before reaching the female emperor's site.

At this time, Ye Xuan took an outdated nautical map and flew toward an island.

"Kaiyang Island, the four-level pirates are occupied."

Ye Xuan has set the goal.

The situation in the riots of the Xinghai Sea is unstable. Every day, the islands are captured by new forces. Therefore, there are many places in this map that are inaccurate, but they will not be worse.

The islands of the four-level pirates usually do not change much, unless the pirates attack a better island and then migrate to the past, just as the island is captured by the five-level pirates.

However, the fourth or fifth level does not matter!

Soon, Ye Xuan arrived at Kaiyang Island, but he did not need to be like the previous Song ruling and the Song Dynasty.

With his strength, breaking the array of a small island is still not a problem.

He sacrificed the Eight-Day Sword and pointed it at the Big Island. It was a sword.

"The Eight Swordsmanship, the sword is broken!"

This sword, even if it is a six-level king, can not be blocked, and the six-level king is able to easily break the array of the island, so this sword is enough to break the island.

"Huh!"

Under the various growth rates, the power of the sword and the eight-year-old was huge, and it was directly hit by the big island of the island.

"Hey!"

The big island of the island stunned, and it immediately broke through a huge entrance.

"Enemy!"

Some people in Kaiyang Island immediately drank, and they did not receive the news of attacking the island, so this must be a murderer.

When this four-level pirate group was discovered, Ye Xuan had already entered Kaiyang Island.

"Hey..."

Ye Xuan sneered, while starting to swim, his speed is fast, no one can chase, and his purpose is also very clear, that is, the ring.

Of course, if there are some mouths that are awkward, he still doesn't mind sending the other person to hell.

In Kaiyang Island, there was a gust of wind and rain, and Ye Xuan quickly found the head of this pirate group.

Five minutes later, the pirate group was looted, and Ye Xuan had left Kaiyang Island.

"Not bad, three four-level kings..."

When Ye Xuan left Kaiyang Island, his face was full of smiles.

A four-level pirate group was ransacked by him, and he was harvested. At this time, he was very close to the five-level king.

At the moment, he is leaving again, because this Kaiyang Island was ransacked, and will certainly inform the nearby sea law enforcers that he must be faster.

There is exactly one island nearby that is occupied by a four-level pirate group, so this became his second goal.

It took him a day to arrive at the island, and then he reinvented it. He broke the hole in the island and then went into looting.

"Hey, the host breaks through, and is currently a five-level king!"

The long-lost system prompt tone finally sounded.

After hearing this voice, Ye Xuan's mouth couldn't help but lift up. Now, he has a level with Lan Yao. However, his strength has already greatly exceeded the blue glory.

"That Jiang Tian has entered the Sword God Palace, and the strength is bound to advance by leaps and bounds. Perhaps it has already reached the six-level king, maybe I will not fall!"

Ye Xuan eyes a glimpse.

Although he can be challenged by level, Jiang Tian is also a genius. If he is at the same level, Ye Xuan has 100% control to kill him.

Thinking of this, Ye Xuan is also taking out a nautical map to prepare for the third goal.

However, at this time, the distance suddenly flew a few figures.

"What about sea law enforcers!"

Ye Xuan smiled, and he also wanted to see how powerful the law enforcement officers of the female emperor were.

"The murderer, find death!"

A Tsing Yi man sipped and rushed toward Ye Xuan. Behind him, he followed two people.

A six-level king, two five-level king, this is a good practice for Ye Xuan.

He offered an ordinary Chinese character, and then greeted him.

Chapter 677: Earth pulsation 32 heavy

Thirty-six overlapping shadows, Ye Xuan still has not practiced the last three, so he wants to see if he can raise the 36 overlapping shadows to 10%.

At that time, the two sides were in contact.

"Thirty-three overlapping shadows!"

"The earth is pulsating 16!"

Although Ye Xuan's esoteric and martial arts fires have not improved, he is constantly improving. He can combine 16 times of the earth's pulsation 16 times, but after he breaks through, he can fuse fifteen roads, and the power has improved more than one. Times.

His strength has been greatly exceeded by three maritime law enforcers.

"Hey!" "Hey!" "Hey!"

Ye Xuan worked three times. Although he released the water, he still beat the three people and became defeated.

"It's so strong, it must be a genius of madness, fast, and go to the top."

The head of the six-level king shouted.

At the moment, there is a five-level king who has withdrawn.

"Want to go, leave a ring!"

Ye Xuan glimmered and slammed out an attack. He instantly cut off the arm of the five-level king. As for the life of this person, he did not accept it.

Then he quickly swept over and took over.

"Impossible, he clearly is only a five-level king, why the speed is faster than me, even if he understands the earth, but this is not the ground."

The six-level king couldn't figure it out, but he was desperate to leave the five-level king.

"Only by the thirty-three overlapping shadows and the earth's pulsation of 16 heavy, the three people will be defeated. If you add the eight wild swords, the acceleration of the wind, the gravity space, my strength is already able to kill the seven kings. Even if the eight-level king is coming, I am not afraid!"

Ye Xuan's self-confidence has once again exploded.

Soon, the five-level king disappeared into the eyes of everyone. At the same time, Ye Xuan also heard two prompts.

Business 熟练, 36, more than 40% of the improvement, now it is ten%!"

"Hey, the host comprehends the earth to pulsate 32!"

After hearing these two beeps, Ye Xuan couldn't help but laugh.

Thirty-three overlapping shadows, finally trained to 36 weights, not only that, the earth pulsation has also increased to 32 heavy, his combat power, and at least doubled up.

"Well, you should die, blame you for blaming you!"

Ye Xuan thought in his heart, that is, suddenly a sword.

In an instant, thirty-six swords and shadows did not enter the body of the six-level king, killing them.

Another five-level king saw his boss dead and immediately retreated. But the next moment, he felt that he couldn't move, and there were countless pressures to stand him from all sides.

"Do you feel that you can't move?"

Ye Xuan's mouth tilted slightly, and as he flashed, the five-level king was smashed by the pressure of gravity airborne.

Gravity pressure!

"Hey!"

The body of the five-level king burst open, and the broken arm of the broken limb fell from the air.

Ye Xuan controls the repulsive force and sends two pieces of Qiang Kun to his own hands, then swallows them.

"The six-level king's Qiang Kun ring is really good."

Ye Xuan smiled with satisfaction.

In this world, the strong is respected.

You are strong, you are the king!

If he is weak at this time, then this time he is dead, as for his body, I am afraid that he will be thrown into the sea to feed the sea beast, and then there is nothing left to eat.

"The five-level king is definitely going to report to the top. At that time, there may be seven kings, or even eight."

This is the purpose of Ye Xuan.

If you kill ten six-level kings, you might as well kill a seven-level king. If you can solve an eight-level king, then he will probably break through.

The five-level king went to the top, so Ye Xuan had to turn around.

The female emperor's site is relatively flat, but it is only relatively mad and the emperor. This is only a small number of looters, but it does not mean that there are fewer pirates in the sea.

Ye Xuan attacked the island while solving the pirates on the road. However, these islands and pirates were too low-level, and he just snatched it.

On the fifth day after the departure of the five-level king, there was finally a master of enough weight.

Seven kings!

Moreover, it is still a genius of rare attributes.

wind!

"The acceleration of the wind is upright?" Ye Xuan looked at the seven-level king, slightly revealing a look of sorrow, this is the first time he encountered a strong wind attribute other than Lan Xin.

The wind attribute is a very powerful attribute. The righteousness has the wind blade, the acceleration of the wind, and the restraint of the wind. Among them, the wind blade also has a double continue to death storm, the power is comparable to the flames burning. The **** of the wind also has a double mystery called wind space.

Every kind of righteousness can greatly enhance the strength of the warrior. If you understand all the righteousness, the battle between two or three levels will not be a problem.

At present, Ye Xuan has only realized the acceleration of the wind, and the wind blade and the wind are not bound.

This battle is very valuable to him.

"Hey, let me see what you have." Ye Xuan flashed, and he quietly looked at the other side.

After the middle-aged man in Tsing Yi approached, he did not immediately take the shot, but asked: "Is it you, recently attacked more than a dozen islands?"

"Yes, it's me!" Ye Xuan nodded, not shy.

This middle-aged man in Tsing Yi did not think that Ye Xuan would dare to admit that it is necessary to say that he is daring, or is it a burst of confidence?

"If this is the case, then you will die!" The middle-aged man said nothing, and unfolded the field, directly condensing numerous winds and attacking Ye Xuan.

"Ha ha!"

Ye Xuanyi opened his mouth and smiled, and offered a smattering of the Chinese character to begin to resist.

"The five-level king can actually resist my wind blade attack. You really have some ability. The six-level sea law enforcer should be killed by you?"

The middle-aged person asked.

"Not bad." Ye Xuan resisted while answering.

"Then try this again!" The middle-aged man flashed a glimmer of light, and the wind blade attack instantly strengthened.

This is, the wind blade is righteous!

Upon seeing it, Ye Xuan's eyes couldn't help but burst out two brilliant mansions. Sure enough, this middle-aged man realized the wind blade's righteousness, which is really good.

His gravity space is understood in the gravity space of He Yan. Now the other side has realized the windy edge, which is very helpful to him.

“Hey!” “Hey!” “Hey!”

Although the wind blade attack has been strengthened several times, it still does not pose a threat to Ye Xuan. After all, he has realized that the weightlifting is light.

The two stood in the same place, one attacked and one resisted.

And Ye Xuan, who does not use the wind blade and gravity space, is so resistant.

"Kid, what are you doing?" The middle-aged man asked some questions.

"Don't tell you." Ye Xuan smiled.

Chapter 678: Death storm

In the news received by the middle-aged people, Ye Xuan is the virtual **** of the soil property, comprehending the earth's pulsation 16 and possibly the power of the righteousness.

However, they did not know that Ye Xuan had already upgraded his strength, and he did not know that Ye Xuan's other cards were ignorant.

Therefore, the female emperor pirates sent a middle-aged man to come, just in case.

"The female emperor rewards your head. Now, I am not arrogant with you. I am going to die!" The middle-aged man gathered his curiosity, and the sword in his hand glimpsed, and the attack of the wind blade was arrogant. .

At the same time, Ye Xuan is also taking a trip.

Thirty-six overlapping shadows!

The earth pulsates 32 heavy!

"Boom!" "Boom!" "Boom!"

The green sword that contains the wind and the righteousness has oscillated hundreds of times.

The earth's pulsation has changed from 16 to 32. It is even harder to integrate martial arts. In the case of the previous thirty-three overlapping shadows, he can fuse more than ten 16-point earth pulsations.

But now, it can only be combined with four channels and 32 weights.

Although the number is small, the power is still increasing.

"This child can be challenged more and more, absolutely can not care!" Middle-aged people thought.

His sword is enough to kill a six-level king, but it is easily blocked by Ye Xuan, Ye Xuan's strength, I am afraid beyond his expectations.

"dead!"

At the moment, the middle-aged people are no longer hiding their ancestors. While they are speeding up by the wind, they attack Ye Xuan from different angles and condense the wind blade to block Ye Xuan.

Seeing the middle-aged man's full force shot, Ye Xuan did not dare to care about it, hurriedly used gravity space to avoid.

If you don't use the acceleration of the wind, it is still difficult for him to cope, so he can only accelerate with the repulsive force of gravity space.

"This kid is only a soil attribute. Why is the speed of the air flying so fast, only weaker than me?" The middle-aged people don't understand, the soil property does have an uplifting speed, but it needs to be on land.

In addition to the acceleration of the wind, only the acceleration of the wind can be accelerated.

However, the soil property is originally small, the gravity is less, and the whole space of the riots is extremely rare, so he did not think of gravity space for a while.

After all, if Ye Xuan understands the gravity space, why not?

"Boom!" "Boom!" "Boom!"

A deafening voice spread, the two were in the air of fifty meters, and the surrounding sea beasts were greatly disturbed by the movements and fled.

The sea beasts are almost all imaginary beasts. The IQ is not lower than that of human beings. The fighters of this level fight, they still don't want to watch.

"Kid, are you a madman?" The middle-aged man shouted.

"What forces are attached, is it important?" Ye Xuan replied coldly.

"It doesn't matter, but then, you'd better come up with the real thing, otherwise you will die unclear!" The middle-aged man kindly 'warned'.

Ye Xuan's brow gently picks it up. It seems that this middle-aged man has some tricks. He has to be careful.

The two are still in the air, and the middle-aged people have been looking for opportunities to use the big move.

To be honest, Ye Xuan is also curious about his big move, so Ye Xuan deliberately revealed a flaw.

"Well?" The middle-aged man's eyes lit up and he said in his heart: "Is it intentional?"

Fang Cai and Ye Xuan handed a hundred rounds, Ye Xuan did not reveal flaws, but now it is revealed, this must be Ye Xuan deliberately.

If this is the case, then he will count on it and follow the meaning of Ye Xuan.

"Kid, you are indeed a genius, but you are still too young, die!"

The middle-aged man thought in his heart. The next moment, Ye Xuan's body was full of wind.

The double mystery of the wind blade, the death storm!

"what?"

Ye Xuan was shocked.

He also thought that middle-aged people had any powerful martial arts, but did not expect that it was the death storm.

Although he has not seen this death storm, he has heard that this is a super trick that can tear a person into countless copies.

When Ye Xuan reacted, the death storm was already unfolding.

This kind of ignorance and the flames are burning like the sky, it needs to be brewed for a while, if it is not quickly avoided, it is very dangerous.

"Huh!"

The death storm, which was centered on Ye Xuan, tens of thousands of winds attacked, and scared Ye Xuan to rush out to protect the key points, and also condensed the wall to surround himself.

Fortunately, the earth wall can be fused with 32 earth pulsations. These wind blades lie on the earth wall and instantly weaken most of the power.

Gravity is very useful, but for these energy attacks, it does not work at all.

"Oh!"

"Oh!"

"Oh!"

A wind blade broke through the wall and hit Ye Xuan, cutting his flesh, but the next moment, the blood of the **** of life will recover, only a pain.

The death storm is being blown unscrupulously, and Ye Xuan, who is blocking the vitality, is constantly injured and constantly repaired. After a second, the death storm has stopped.

"While, fortunately, there are 32 pulsations in the earth. If it is only 16 heavy, this time it will be miserable." Ye Xuan was a little worried, did not expect a big idea, almost let him fall.

The death storm is over, but the middle-aged man is stunned.

You must know that there were two seven-level kings who died under his trick. However, Ye Xuan was only a five-level king and he was able to survive.

Not only that, but it survived safely, but the clothes were damaged.

"This is impossible!" The middle-aged man exclaimed.

"Oh, this is nothing impossible. Speak up, I have to thank you for this trick." Ye Xuan opened his mouth and smiled.

In the death storm of Fangcai, there is actually a system prompt tone that Ye Xuan ignored in the past. There is no way for him to continue to resist the wind blade attack. If he is distracted, his head will be cut off.

He didn't glance until the end of the death storm.

"Hey, the host has realized the windy edge!"

This is the system prompt for the talent.

With the death storm, Ye Xuan actually realized the wind blade.

"Hello, do you still have a card, and let it out." Ye Xuan looked at the middle-aged man with a calm look.

There are only three kinds of esoteric winds, the wind blade, the acceleration of the wind, the shackles of the wind, and the double mysterious death storm of the wind blade has already been seen, but the double esoteric wind space bound by the wind has not yet.

The wind space is what Ye Xuan wants to understand now. Because of the wind space plus gravity space, his strength can at least skyrocket ten times.

It is a pity that he has not yet realized the **** of the wind, let alone the wind space. After all, the righteousness is impossible to comprehend across the level. It is necessary to comprehend the wind to bind the mystery, and then to understand the wind space.

Chapter 679: Split Cloud Pirates

The middle-aged man looked at Ye Xuan with a blank look, only to remember the death storm, but consumed most of his infuriating. If he came again, if he couldn't kill Ye Xuan, then he would have to turn around and run.

However, now that Ye Xuan has taken precautions, the next death storm may not be so easy.

"withdraw!"

At the moment, the middle-aged man turns around and quickly leaves.

He only compared the speed of himself and Ye Xuan. Although Ye Xuan's speed is somewhat abnormal, he is still slower than him.

Therefore, he chose to retreat.

However, Ye Xuan will let go of such a big fat sheep?

"It seems that you are poor, so if so, then I will send you to hell!"

Ye Xuan's dawn flashed, and the dual field suddenly unfolded.

"Ok?"

The middle-aged people have not run far, but they feel a strong pressure, coming from the front.

"What happened?" The middle-aged man couldn't figure out, and he was a glimpse of it. He found that Ye Xuan had also grown a pair of energy wings and swiftly swept toward him.

Wing of the wind!

"What, this is impossible!" The middle-aged man was shocked.

Ye Xuan is actually a wind attribute!

No, it is a double attribute, Ye Xuan has eaten double fruit!

The middle-aged man only reacted at this time, but it was too late.

"Gravity pressure!"

After Ye Xuan approached, he directly used the gravity space to cover the middle-aged people.

The pressure from all sides was imposed on the middle-aged, and the middle-aged was suddenly restricted. Fortunately, he was a seven-level king and was able to move, but the speed dropped by at least 70%.

"Thank you for your death storm, let me understand the wind and the righteousness, now, please die!"

Ye Xuan's voice was very cold and fell in the ears of middle-aged people, causing him to shake his body.

The next moment, the middle-aged man's neck was swept by a wind blade.

The head was thrown up, bloody, like a humanoid fountain.

Seven kings, dead!

After the death of the middle-aged man, Ye Xuan took over his shackles.

"Hey, the host has broken through to the six kings!"

Realm, once again improved.

This middle-aged person is a wind attribute, and it must be the key training object in the female emperor pirate group, so there are many good things in the ring.

"When there is no breakthrough, I can kill the seven-level king without using the eight-swords. Now I broke through, I can almost compete with the nine-level king?" Ye Xuan eyes.

The acceleration of the wind, coupled with the repulsion of the gravity space, accelerated his speed beyond the eight-level king.

With a variety of blood and other factors, he did have the ability to fight with the nine kings.

"If this is the case, then I will go to the female pirate group for a while to see what the female empire of the violent Xinghai is."

Ye Xuan made a plan in mind.

Of course, before going to the female emperor pirates, he still wants to break through again, so it is safer. After he broke through to the seven-level king, he entered the core area of the female emperor.

Who can stop him when he arrives?

After killing the middle-aged, Ye Xuan left quickly. This time, he went to a high-level place where there were six or seven pirates.

At the moment, he took the nautical chart of the middle-aged man and plunged toward that area.

.....

After the realm was raised, Ye Xuan's speed slammed again. After three days, he arrived at that area.

The six-level pirates can control four islands, but they usually gather a large number of masters on an island.

At this time, Ye Xuan's goal is a place called Li Yun Island, which is occupied by the riparian pirates. At the same time, this cracking pirate group is still the power of the female emperor pirates, it is considered a public family.

However, Ye Xuan can care who he is.

"Although you and I entered the first sect of a name, I will be merciful."

Ye Xuan smiled lightly.

Hearing the cracked cloud, he couldn't help but think of the cracked Yunzong, which was the sect he had been waiting for for some time. There, he met a female disciple who secretly loved him, Guan Lan.

It is a pity that Guan Lan was taken away by the mysterious master when he went to the Imperial Capital to participate in the Imperial Capital Competition.

At that time, they suspected that it might have entered the islands around Tianshui, or they might have entered the riots.

However, the world is so big, Ye Xuan is not easy to find.

"Hey, what are you doing outside of the island?"

Suddenly a loud snoring fell into Ye Xuan's ear. It was the guardian pirate in the front of the island, and his voice brought Ye Xuan back to reality.

Now, it is still important to attack the island.

"Oh, I want to attack the island!" Ye Xuan answered with a smile.

"Ha ha ha, kid, where to go back and forth, do you know that our head is a six-level king?" The guardian pirate laughed.

However, the next moment, there was a rumbling loud noise that interrupted his laughter.

"Hey!"

Ye Xuan directly took a sword and squatted on the big island of the island.

This is an island occupied by a six-level pirate group. It is rich in resources, so the strength of the island's large array is naturally high.

However, this is still not worth mentioning for Ye Xuan.

"Sure enough, it is much stronger than what I have encountered before."

Ye Xuan thought about it, and took out the Eight Desert Sword.

call out!

A sword mang is divided into eight, and then he is eight and one, and he is on the big island of the island.

The sword is broken!

At that time, the big island of the island was broken by a big hole and was slowly being repaired. However, at the same time as the large-scale restoration of the island, there was already a figure that swept in through the hole.

"you you....."

The guardian pirate was shocked, and Ye Xuan got it in the cracked island, scared him to pee out.

"Sorry!"

Ye Xuan said one sentence, directly in the past will pick up his Qiang Kun ring.

This guardian pirate is actually a king, although not high, but also a three-level king. This kind of strength in front of Ye Xuan, it is really not worth mentioning.

The smashing pirate group did not react, Ye Xuan directly killed the past.

The cracking pirate group did not think that someone could break the big island of the island, so there was no cover-up atmosphere. Ye Xuan easily locked a position.

"Not good, you must inform the head!" The guard, the thief, reacted and hurriedly yelled: "The enemy is invading!"

This buzz is that the guardian pirate shouted out with all his strength, and the sound was enough to pass to the cracked cloud city not far from the entrance to the island.

The speed of sound is more than three hundred meters per second, and the general military can exceed the speed of sound. However, after mixing in the infuriating, the speed of sound transmission has increased by a hundredfold or even hundreds of times.

Ye Xuan has not yet ran to the cracked cloud city, and some people have swept it out.

The masters of these cracked pirates, instantly locked the atmosphere of Ye Xuan.

Chapter 680: Split Cloud Sovereign

"Good boy, even mixed into the cracked island, I really do not know how to live!" A six-level king shouted, he is the deputy head of this cracked sea pirates.

"Whoever knows who lives, you will know right away."

Ye Xuan smiled coldly.

However, just as he was ready to start, he suddenly saw a figure looting towards them.

This is also a six-level king. Originally, this person would not attract Ye Xuan's attention. However, after Ye Xuan saw the face of the six-level king, his body shape was a tremor.

This person, he has seen it!

I have seen it once!

Ye Xuan, kneeling in the same place.

"Boy, how did you come in?" asked the head of the Split Cloud Pirates.

He has seen all the kings in the island of Riftun. When the rifle pirates attacked, there were indeed some local kings, but the realm was not high. Ye Xuan's breath is almost no weaker than his coming, so he judges Ye Xuan as a foreigner.

Ye Xuan's gaze fell on the head of this cracked pirate group. After a long while, he asked quietly: "You, is the lord of the ruins of the cloud?"

That's right, the head of this cracking pirate group, he once saw it, that is, on the face of Lin Wenye.

At that time, the ruins of the ruins of the Clouds were standing on a big bird, accompanied by a mysterious old man and Guan Lan.

When the head of the Split Cloud Pirates heard the words "The Clouds and Emperors", it was also a shock to the tiger. He asked: "Who are you? How do you know?"

really!

This one answer, let Ye Xuan be sure.

It is no wonder that the pirate group is also called the rip-cloud, and the daring is really the lord of the ruin.

"My name is Ye Xuan, a split Yunyun disciple!"

Ye Xuan rushed to report his name.

Although he has joined a lot of forces, he is still a disciple of Li Yunzong. In this world, it is no problem to worship a few masters at the same time.

"What? You are a disciple of the Yunyun sect, how is it possible?"

Where is the cracked cloud sect?

Tianshui mainland!

On the mainland of Tianshui, it was also a strong man of the gods. When the ruins of the ruins of the Clouds left, the realm was really low, and it was the real spirit.

Behind the true spiritual realm, there are also the real world, the real Xuanjing, the human Dan, the Didan, the Tiandan, and then the gods and the virtual world.

At this time, he is already a six-level king of virtual gods, which is many times stronger than the real spirit.

Unexpectedly, such a barren land, but also out of another six-level king.

"I am the apprentice of Zhou Cang, the deputy lord." Ye Xuan first showed his identity, and then asked: "The lord, I used a special method to see you leave with the language and whisper, where are they?"

After hearing the first half of Ye Xuan's first sentence, the cleavage of the ruins of the cloud can confirm that Ye Xuan is from Tianshui.

But when he heard the latter part of his sentence, his face sank.

"This is best for you not to ask."

"Why?" Ye Xuan asked slyly.

The cleavage of the ruins of the cloud sect, said: "Well, in fact, telling you is no problem. Language has a special physique, so it was seen by a mysterious master, so it was brought to the riots of the sea, now she is in the female pirate The regiment is the next general of the female emperor."

"What, the female emperor?" Ye Xuan was shocked.

Even the ruins of the ruins of the ruins of the ruins have broken through to the six kings.

After all, the cleavage of the ruins of the ruins of the cloud is the same as that of Guan Lan, and they practice the same time. So Ye Xuan guessed that Guan Lan was at least a seven-level king.

"Then her realm..." Ye Xuan asked again, he felt that he still listened to the answer to the more accurate answer.

"It's already a seven-level king. Now it may have broken through to the eight-level king. She is the heir to the female emperor!" said the ruined sect of the ruins of the cloud. This is not a secret, so it doesn't matter if you go out.

The heir to the female emperor!

Ye Xuan was scared.

Unexpectedly, the background of Guan Lanlan is so powerful.

The heir to the female emperor, this does not mean that in the future is she going to fight with the Emperor and the violent three-point riot?

"Then she is now in the female emperor?" Ye Xuan asked again.

"You come with me!" The ruined sect of the cloud suddenly called Ye Xuan, and whispered: "She is indeed in the female pirate group, but you better not go to her because she has lost Tianshui. The memory of the mainland, she does not know you."

"lost memory?"

Upon hearing this, Ye Xuan suddenly remembered what Lin Wenyue said on the same day. On the same day, Guan Lan, his eyes were empty, like a beggar.

It turned out that she was already erased from memory at that time.

Don't say the king of the virtual gods, even if it is a martial-armed warrior, as long as there is a corresponding method, it can erase the memory of a low-level warrior.

"Don't blame me, I was also good at the language, but I didn't expect that the predecessor would erase the memory of the language and then bring back the female pirate group." The cleavage of the cloud sect moved his head helplessly.

"What is the constitution of Yulan? If it is just an apprentice, why should I erase her memory?" Ye Xuan asked very puzzledly.

The cleavage of the ruins of the Yunzong dynasty paused, saying: "The predecessor issued some requirements on the Tianshui continent. I just saw that the language meets those requirements, so I took the predecessor to the ruin."

"And the female emperor, is said to be practicing a method called the unruly way, need to cut off seven emotions and six desires. Language is in line with the requirements of this unrelenting truth, so it is directly erased memory, so it is easier to practice."

"This....."

Ye Xuan's eyes sighed and asked: "Whether she agreed at the time? Or was it forcibly erased?"

"The predecessor checked her physique and forced her memory. She was not ready yet," she said.

Hearing this, Ye Xuan's eyes are also bursting out of two fine mans.

Guan Lan, is forcibly erased from memory.

If she agrees with her, then Ye Xuan has nothing to say, but she is forcibly erased the memory, then it has something to do with him.

After all, when the two of them are in a relationship with the Yunyun, they may be able to make a positive result.

However, it was because of the old lady's involvement that Guan Yulan had disappeared for several years.

"Although not clear, but she is my friend after all, this fair, I still have to escape!" Ye Xuan secretly remembered.

As for the cleavage of the ruins of the cloud, Ye Xuan did not blame him. After all, he was only a true spiritual world. The mysterious old man had a thought, and he would die without a burial place.

"What is the identity of the old man?" Ye Xuan asked again.

"She is Bi Qingxia, the female emperor is raised by her hand. She is the same as the language, and is the right and left hand of the female emperor!"

Right and left hands, this is to say that the female emperor's most trust is Guan Lan and this Bi Qingxia.
