

Super D. S 70

Chapter 70: Unicorn

"Hey, everyone is whispering."

The road was not flat before landing, and whispered a message.

Ye Xuan three people went up, they did not dare to use the spirit to shake the water on the clothes, for fear of disturbing the black water dragon inside.

Guan Lanbi Ye Xuan first came ashore, Ye Xuan followed her behind, with the light of the night pearl, Ye Xuan also saw a graceful body.

"The figure is not bad." Ye Xuan said in his heart.

However, before he continued to appreciate, there was a spirit in the body of Lan, which shook off the water on her clothes.

"Hey!"

Hearing this sound, the road ahead is also trembled, turning his head and whispering: "Guan Shimei, you..."

Ye Xuan is also helpless. This is the danger of playing the grass and screaming at the snake. It is also necessary to dry the clothes. This mentality can't be done.

Guan Lan did not speak.

"This is really a teacher, what is the shelf, I know that I have to ask other people." The road is also annoyed in the heart, in case of disturbing the one-horned dragon, then things can be troublesome.

However, he did not dare to say this, and he could only be interested in his mind. After all, Guan Lan was the foster daughter of the lord.

"Everyone is careful, don't make any noise anymore." The road was unreasonable and reminded, then carefully attached to the stone wall.

This cave is very dark, and with the light of a night pearl, they can barely move forward.

"Tick!"

Water drops from time to time on the ceiling of the cave.

They went forward for about five minutes, and they heard a strange voice, a bit like a volcanic eruption.

"The exclusive Snapdragon should be in production, speed up the pace!" The road is not flat, and if the Snapdragon is laying eggs, then perhaps no poison is needed.

They walked for a while, but they suddenly found out that there was light in front.

"This should be the cliff behind the Blackwater Mountain, and there may be another exit." The road is not flat, it is to go to the corner, and then quietly peeped out.

Sure enough, in a corner of the cave is a giant behemoth, this is a long-horned dragon, very large and long, looks at least 20 meters.

Ye Xuan also secretly glanced at it. The first impression that Xiaolong gave him was horror. He had a deep sea phobia. Now he saw such a huge underwater creature, and immediately swallowed it.

Wait, they are fighting this thing?

"Road, road brother, wait for us to really want to..." Ning Chuan is also scared, this one-horned dragon is the biggest creature he has ever seen in this life.

"Come on, come back, what is the reason for retreat?" Although the road is not so flat, but his heart is also extremely fearful, after all, this is a beast.

At this time, the silent language that has been silent suddenly said: "Look over there."

Everyone looked down at her eyes and saw that in the other cave of the cave, there was already an egg bigger than the human.

Dragon egg!

"This dragon is a beast. If the dragon egg is sold out, it is estimated to be hundreds of millions. If it is cultivated, it may be a beast in the future!"

There is a greedy color in the eyes of the road, and there is a pet beast, which is not to mention the prestige.

However, the long life of the dragon, the life of human beings is absolutely incomparable, so this dragon egg is estimated to have no one, because the training time is too long.

However, at present, I will kill the one-horned dragon in front of me.

"Senior brother, the dragon seems to be laying eggs. What should we do?" Ning Chuan looked at the dragon in the corner and said slowly.

At this time, Ye Xuan has also noticed that the dragon's abdomen has cracked a hole, and half of the eggs are already exposed.

"In case, just in case, let the poison go down first." The road was taken out of the cloth bag, and then to Ye Xuan said: "This poison inhalation has an effect, but if it can be swallowed by the dragon, the effect will be Bigger, can you send this with a bow?"

"It is unrealistic to send the poison into the mouth of the dragon. However, I can let it burst open in front of the dragon." Ye Xuan took the cloth bag and said slowly.

"No problem, now this dragon is just producing eggs, plus this poison, then its strength will be greatly reduced, I am afraid that less than one tenth." The road nodded unanimously.

Ye Xuan took off the broken cloud bow. He just forgot to put the broken cloud bow away. I didn't expect it to come in handy now.

He glanced at the one-horned dragon that was laying eggs, and then suddenly smashed the cloth in his hand.

The one-horned dragon also heard a glimmer of sound, and when it looked up, it found something flying towards it.

No, it's two!

"call out!"

"boom!"

A starburst arrow, accurately blasted on the cloth bag, and fired it to the broken, the toxic powder wrapped in the cloth bag is also floating in the air, the one-horned dragon eats a gray face.

"Ha ha, become, Ye Shidi good arrow method!" The road is not flat, and directly pulled out the long sword.

The one-horned dragon eats a nose ash, and also inhales a lot of toxic powder, and more is absorbed by its skin. In the meantime, this one-horned dragon is making a squeak.

However, at this time it is being produced and should not be moved. Otherwise, it will probably rush directly to tear the leaves of Ye Xuan.

"Brother, are we going now?" Ning Chuan turned and asked.

"No hurry, wait for the efficacy of the drug, this time is really helping me, it is actually laying eggs." The road is not easy to hide.

This time, they have already negotiated well. Except for Ye Xuan's 20%, the remaining 80% of them are divided according to May 23, the road is uneven, 50%, and Lancheng is 30%.

Of course, there is still a plan in the road, that is, to get the 10%. Of course, this is a big risk.

"Ah, brother, it works." Ning Chuan suddenly said.

Everyone looked at it and saw that the scales of this one-horned dragon began to turn red, and the whole body began to wriggle, and at the same time it made some strange sounds.

"Hey..."

The body of the horned dragon began to squirm on the ground like a snake, and its claws began to scratch the ground, which seemed to be very uncomfortable.

"Senior brother, what kind of poison is this, how effective is the drug effect?" Ning Chuan asked some incredible questions.

From the bursting of the cloth bag to the present, it is not more than ten seconds, and the object is still a spirit beast dragon, this poison is too powerful, right?

The road was not flat and smiled. "This is not a poison, but a kind of holy medicine called 'obscenity can't move'. That pack is enough for a hundred men to use for a year!"

what?

Ye Xuan three people are also shocked, it is not a poison, but spring...
